## **YUMA COUNTY Hand Count / Early Ballot Audit Report**

### **Synopsis:**

Pursuant to A.R.S. §16-602 (B), Yuma County conducted the hand count/early ballot audit for the August 24, 2010 Primary Election. 2% of precincts were counted as required by statute, which amounted to two (2) precincts out of 42 total precincts.

The hand count began on August 25, 2010 at 3:00 p.m. when the Yuma County Chairmen of the Republican, Democratic, and Libertarian Parties met to select the races and precincts to be counted. All ballots were accounted for in the central counting location before the selection process started. The selection order was chosen by lot, and the Libertarian Party was chosen to go first.

With the order established, the specific precincts to be counted were selected with the County Party Chairmen alternating the selection. Once the precincts were chosen, the races to be counted were selected.

Four contested races were chosen as required by law. Since this election did not contain a Statewide Ballot Measure or a contested Legislative race, two (2) Statewide races, and two (2) Federal races were counted. Specifically, the following list display's the contested races that were counted:

Statewide Race - *Governor (Republican)* - (42 possible precincts to count)

Statewide Race - *Superintendent of Public Instruction (Republican)* - (42 possible precincts to count)

Federal Race - *US Representative CD #7 (Republican)* - (42 possible precincts to count)

Federal Race - *US Senator CD#7 (Republican)* - (42 possible precincts to count)

The master precinct and race selection lists are attached for review. The physical hand count started at 9:00 a.m. on August 26, 2010 and was concluded at 1:45 p.m. on August 26, 2010. The tabulation method used was the stacking method for the optical scan ballots and the 3-person callout method for the accessible voting device ballots. The hand count was conducted by three (3) boards made up 3 members on two of the boards and 4 members on the Early Ballot Audit Board, of which not more than 2 members were from the same political party. This hand count included votes cast on both the optical scan and touch screen devices from the selected precincts.

**Early Ballot Audit:**

1% of early ballots were audited as per Arizona State Law. The early ballot counting used four (4) Accuvote machines; two (2) counting precincts 1-20, and two (2) counting precincts 21-42. A total of 250 ballots were audited and consisted of batches taken from each of the four machines. There were a total of 14637 early ballots cast in Yuma County for the 2010 Primary Election.

**Comments:**

Where a discrepancy occurred, the reason for the discrepancy is notated and described in each report. Please find the following precinct and early ballot reports for your review. (Any additional comments that you feel might be necessary should be included here.)

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Sue Stallworth Reynolds", is written over the typed name. The signature is fluid and cursive, with a long horizontal flourish extending to the right.

Sue Stallworth Reynolds  
Yuma County Elections Officer

Margin = Absolute Difference + Machine Count X 100	0 %
--	-----

Additional Comments: Machine 4 was the first batch counted by the Early Ballot Audit Board. They indicated they had mis-placed one stack during the process which resulted in them re-doing the batch. They agreed the one (1) vote difference in the Governor race (Brewer) was a result of this situation human error not the machine.

**AGGREGATE - EARLY BALLOT AUDIT - HAND COUNT REPORT - TOTAL FROM ALL BATCHES**
