Overview of Arizona Election Night Reporting

The Arizona Secretary of State uses an online tool called Election Night Reporting (ENR) to display results from elections on a Web site. The Web interface provides visitors with a graphical view of in-depth state and county results. Visitors are presented with a breakdown of votes received for a choice by race. Maps illustrate the counties or precincts reporting, voter turnout, and results by county or precinct. A reporting area provides downloadable reports.

For optimal viewing, it is recommended users navigate ENR utilizing one of the following browsers: Internet Explorer 9, Google Chrome, Firefox or Safari. *Please note that users navigating the site in Internet Explorer 7 or Internet Explorer 8 may experience script errors when trying to view 25 or more contests on a page. If you experience such a script error, please select the “No” option to allow the page to open completely.*

How do I access Election Night Reporting?

Election Night Reporting can be accessed by visiting the Arizona Secretary of State’s Web site and clicking on [Unofficial Election Night Results](#).

When and how often will the results be updated?

Polls are open from 6:00 a.m. to 7:00 p.m. on Election Day. Election results will be available after 8:00 p.m. on election night. Once the precinct polling locations have closed, the results are reported to the county. The state aggregates results and then begins reporting results to the public via the ENR tool. Updates occur throughout the night until all counties have reported final results.

How do I navigate Election Night Reporting?

The following pages will guide you through how to navigate the ENR tool. We will review the following areas:

- Home Page
- Synopsis Area
- Summary Tab
 - Customize My Search Button
 - Detail and Map Buttons
 - Vote Type Summary Button
 - Vote Type Tabular Button
 - Counties Reporting Button
- Counties Participating Tab
 - Detail and Map Buttons
- Export Reports Button
- Viewing County/Local Results

Home Page

When you initially access ENR, you will see a page that resembles the following. This is the ENR home page. From the ENR home page, you can access state and county/local results. This guide shows you how to navigate the state results, but navigating the county results is similar. The notable difference is that state results are reported by county and the county results are reported by precinct or a summary of the countywide results.
