NOTICE OF PROPOSED RULEMAKING

**PINAL COUNTY AIR QUALITY CONTROL DISTRICT
PINAL COUNTY VEHICLE ENGINE IDLING ORDINANCE**

PREAMBLE

1. Sections Affected

Ordinance 060502AQC - Pinal County Board of Supervisors' Engine Idling Ordinance for Area A

Rulemaking Action

New

2. The specific authority for the rulemaking, including both the authorizing statute (general) and statutes the rules are implementing (specific):

Authorizing and implementing statutes: A.R.S. § 11-251.05 and A.R.S. § 11-876.

3. A list of previous notices appearing in the Register addressing the proposed rules:

Not applicable

4. The name and address of agency personnel with whom persons may communicate regarding the rulemaking:

Name: Donald P. Gabrielson, Director

Address: Pinal County Air Quality Control District
P.O. Box 987
Florence, AZ 85232

Telephone: (520) 868-6929

Fax: (520) 868-6967

E-mail: don.gabrielson@co.pinal.az.us

5. An explanation of the rule, including the District's reasons for initiating the rule:

The Board of Supervisors in accordance with A.R.S. § 11-251.05 adopts county ordinances. Restrictions on vehicle idling were introduced at the Governor's Brown Cloud Summit in January 2001. Since idling reportedly consisted of

County Notices Pursuant to A.R.S. § 49-112(A) or (B)

approximately 10% of a heavy-duty diesel truck's daily activities, reduced idling would correspond to emission reductions of particulate matter and nitrogen oxide. House Bill 2538 required the creation of a Vehicle Engine Idling Restriction Ordinance for heavy-duty diesel engines. A.R.S. § 11-876 requires ordinances for those counties that contain any portion of Area A to be in place by July 1, 2002.

The Arizona Department of Environmental Quality (ADEQ) held a stakeholder process to draft a model ordinance to be implemented by those counties that contain any portion of Area A. The amount of time a heavy-duty diesel vehicle is being operated at idle is five minutes unless an exemption applies.

6. A reference to any study that the agency proposed to rely on in its evaluation of or justification for the proposed rule and where the public may obtain or review the study, all data underlying each study, and analysis of the study and other supporting material:

None

7. A showing of good cause why the rules are necessary to promote a statewide interest if the rules will diminish a previous grant of authority of a political subdivision of this state:

Not applicable

8. The preliminary summary of the economic, small business, and consumer impact:

The proposed ordinance should not have an economic impact on businesses in Pinal County and should not impose additional costs on the regulated community, small businesses, political subdivisions, and members of the public.

A "small business" is defined in A.R.S. § 41-1001 as "a concern, including its affiliates, which is independently owned and operated, which is not dominant in its field and which employs fewer than 150 full-time employees or which has gross annual receipts of less than four million dollars in its last fiscal year. For purposes of a specific rule, an agency may define small business to include more persons if it finds that such a definition is necessary to adapt the rule to the needs and problems of small business and organizations."

Rule Impact Reduction on Small Businesses (A.R.S. § 41-1035):

1. Establish less stringent compliance or reporting requirements in the rule for small businesses.
2. Establish less stringent schedules or deadlines in the rule for compliance or reporting requirements for small businesses.
3. Consolidate or simplify the rule's compliance or reporting requirements for small business.
4. Establish performance standards for small business to replace design or operational standards in the rule.
5. Exempt small businesses from any or all requirements of the rule.

Pinal County Air Quality Control District (PCAQCD) has evaluated each of the five listed methods and has concluded that all of the methods that are legal and feasible have already been implemented as an exemption in the ordinance.

9. The name and address of agency personnel with whom persons may communicate regarding the rulemaking:

Name: Donald P. Gabrielson, Director
Address: Pinal County Air Quality Control District
P.O. Box 987
Florence, AZ 85232
Telephone: (520) 868-6929
Fax: (520) 868-6967
E-mail: don.gabrielson@co.pinal.az.us

10. The time, place, and nature of the proceedings for the adoption, amendment, or repeal of the rules, or, if no proceeding is scheduled, where, when, how persons may request an oral proceeding of the proposed rules:

Stakeholders Workshop: Tuesday, May 14, 2002
Time: 1:00 p.m.
Location: Pinal County Complex, Emergency Operations Center (EOC), Building F, 31 N. Pinal Street, Florence, AZ, 85232

County Notices Pursuant to A.R.S. § 49-112(A) or (B)

Nature: The Control Officer will meet informally with any interested party for the purpose of discussing the proposed rules.

Stakeholders Meeting: Wednesday, May 22, 2002

Time: 1:00 p.m.

Location: Pinal County Complex, Emergency Operations Center (EOC), Building F, 31 N. Pinal Street, Florence, AZ, 85232

Nature: Opportunity for additional comments regarding the proposed rules and the submittal of the rules to the EPA as a revision to the State Implementation Plan.

Public Hearing (Oral Proceeding): Wednesday, June 5, 2002

Time: 10:00 a.m.

Location: Pinal County Complex, Board of Supervisors Hearing Room, Building A, 31 N. Pinal Street, Florence, AZ, 85232

Nature: Public Hearing with the opportunity for formal comments on the record regarding the proposed rules and the submittal of the rules to the EPA as a revision to the State Implementation Plan.

11. Any other matters prescribed by statute that are applicable to the specific agency or to any specific rules or class of rules:

Not applicable

12. Incorporation by reference and their location in the rules:

None

13. The full text of the rules follows:

**PINAL COUNTY AREA A
VEHICLE ENGINE IDLING RESTRICTION ORDINANCE**

Originally Adopted June 5, 2002

Whereas, A.R.S. § 11-876 requires a vehicle engine idling restriction ordinance for those counties that contain any portion of Area A (as defined by A.R.S. § 49-541) to be in place by July 1, 2002, to restrict idling for no more than five minutes.

Whereas, the Pinal County Board of Supervisors finds that the legislature intended that the aforementioned requirement should apply only to heavy duty diesel vehicles over 14,000 pounds gross vehicle weight rating (GVWR), required to be registered under Arizona law, and designed to operate on public highways.

Whereas, A.R.S. § 11-251.01 provides that the Board of Supervisors may impose penalties for the violation of ordinances:

Now therefore, the Board of Supervisors of Pinal County hereby ordains it as follows:

A. Definitions

The following words and terms, when used in this ordinance shall have the following meanings.

1. **Gross Vehicle Weight Rating** means the maximum vehicle weight for which the vehicle is designed as established by the manufacturer. (A.A.C. R18-2-1001.36)
2. **Idling** means the operation of a diesel engine where the engine is not engaged in gear. The Federal definition of "curb-idle" means: (1) For manual transmission code light-duty trucks, the engine speed with the transmission in neutral or with the clutch disengaged and with the air conditioning system, if present, turned off. For automatic transmission code light-duty trucks, curb-idle means the engine speed with the automatic transmission in the "Park" position or "Neutral" and with the air conditioning system, if present, turned off; (2) For manual transmission code heavy-duty

County Notices Pursuant to A.R.S. § 49-112(A) or (B)

engines, the manufacturer's recommended engine speed with the clutch disengaged. For automatic transmission code heavy-duty engines, curb idle means the manufacturer's recommended engine speed with the automatic transmission in gear and the output shaft stalled.

3. **Primary Propulsion Engine** - Any engine for which the primary function is to provide mechanical power to propel or direct a vehicle, regardless of whether that power is applied directly to the propeller shaft or indirectly by way of an electrical system.
4. **Vehicle** means any device or combination of devices with a GVWR of more than 14,000 pounds that is required to be registered under Arizona law, and is designed to operate on public highways and powered by a diesel engine. This definition also incorporates by reference definitions provided for motor vehicle, vehicle, truck, truck tractor, vehicle transporter, motor carrier in A.A.C. Rule 18-2-101(69), A.R.S. § 44-1301, A.R.S. § 49-541(16), A.R.S. § 49-581, A.R.S. § 28-101(29), A.R.S. § 28-101(50), A.R.S. § 28-101(51), A.R.S. § 28-101(52), A.R.S. § 28-101(53), A.A.C. Rule 17-4-435, A.R.S. § 28-5201. No definitions exist for "heavy duty motor vehicle" or "heavy duty diesel engine."
- B.** This ordinance is applicable to only those portions of Pinal County contained in Area A as defined in A.R.S. § 49-541.
- C.** Except as provided in subsection E, no owner, lessee, physical operator or driver of a vehicle as defined in A(4) shall allow or permit the engine of such vehicle to be idling for more than five (5) consecutive minutes.
- D.** A person who violates this ordinance is subject to a civil penalty of \$100 for the first violation and \$300 for a second or any subsequent violation. (The Attorney General's Office interpretation is that A.R.S. Title 28 allows any law enforcement officer to enforce A.R.S. § 11-877, which authorized this ordinance on private and/or public property).
- E.** This ordinance shall **not** apply when:
 1. A vehicle is forced to remain motionless because of traffic or adverse weather conditions affecting the safe operation of the vehicle.
 2. A vehicle is being operated for emergency or law enforcement purposes.
 3. The primary propulsion engine of a vehicle is providing a power source necessary for mechanical operations other than propulsion and involves a power take off (PTO) mechanism, or other mechanical device performing the same function as a PTO and driven off the engine for loading and unloading cargo, mixing or processing cargo, controlling cargo temperature, or a mechanical extension to perform work functions.
 4. The primary propulsion engine of a vehicle is being operated at idle to conform to manufacturer's warm up and cool down specifications, or for maintenance or diagnostic purposes.
 5. The primary propulsion engine of a vehicle is being operated to supply heat or air conditioning necessary for passenger comfort/safety in those vehicles operating for commercial passenger transportation or school purposes.
 6. The primary propulsion engine of a vehicle is being operated to supply heat or air conditioning necessary for driver comfort, safety or rest, while in the vehicle. Specifically for the purposes of the driver or co-driver being in compliance with U.S. and Arizona Department of Transportation regulations and the driver is in need of sleep or rest.
