2. The subject matter of the proposed rule(s):

Maricopa County will propose to revise Rule 210, Rule 220, and Rule 240 in order to match the Arizona Department of Environmental Quality's (ADEQ's) new rule - 18 A.A.C. 2 (Department of Environmental Quality Air Pollution Control), Article 12 (Emissions Bank). Also, in Rule 240, Maricopa County will propose to correct a rule reference and to add, in Section 200 (Definitions), pointers to the appropriate Subsection in Section 300 (Standards) where certain terms are defined. Although not typical formatting procedure for Maricopa County's Air Pollution Control Rules, certain terms are defined in Section 300 (Standards), because the definition being written in proximity to the standards is critical to comprehending the standards.
