Summary:

The Maricopa County Air Quality Department (department) incorporated by reference various federal regulations and documents promulgated by the U.S. Environmental Protection Agency (EPA) and published in the Federal Register, including actions related to New Source Performance Standard (NSPS), National Emission Standards for Hazardous Air Pollutants (NESHAP), Acid Rain and other parts of Title 40 of the Code of Federal Regulations (CFR). These rules implement federal requirements according to each federal program identified or applicable source type subject to these regulations. The action included amending the incorporation by reference date from “2006” to “2008” in each of the rules to remain current with federal regulations. This incorporation by reference was necessary before requesting the EPA’s delegation of authority to Maricopa County for the implementation and

enforcement of the federal rules documented in the Maricopa County Air Pollution Control Regulations Rules 317, 321, 360, 370, 371, and Appendix G. Other changes included correcting typographical errors and other technical corrections that are readily discerned in the “strikeout and underline” version of the rule contained in Item 17 of this notice.

Significant Changes:

Rule 317: Hospital/Medical/Infectious Waste Incinerators:

Rule 317 was amended to reflect federal NSPS regulations at 40 CFR 60 (Subpart Ec, Standards of Performance for Hospital/Medical/Infectious Waste Incinerators for Which Construction is Commenced After June 20, 1996) as of July 1, 2008. This incorporation by reference makes Rule 317 substantially identical to the ADEQ's Standards of Performance for Existing Hospital/Medical/Infectious Waste Incinerators, R18-2-732. No updates to 40 CFR 60, Subpart Ec occurred between July 1, 2006 and July 1, 2008.

The following amendments to Rule 317 were also adopted:

- Amend the incorporation by reference date from “2006” to “2008.”
- Add the wording “Each owner or operator of an affected facility shall comply with the requirements of 40 CFR 60, Subpart Ec as adopted and, where applicable, revised herein” to clarify the requirements of each owner or operator and to provide consistency with wording throughout the department regulations.

Rule 321: Municipal Solid Waste Landfills:

Rule 321 was amended to reflect updated federal NSPS regulations at 40 CFR 60 (Subpart WWW, Standards of Performance for Municipal Solid Waste Landfills) as of July 1, 2008. This incorporation by reference makes Rule 321 substantially identical to the ADEQ's Standards of Performance for Existing Municipal Solid Waste Landfills, R18-2-731.

40 CFR 60, Subpart WWW – Standards of Performance for Municipal Solid Waste Landfills [Amended at 71 FR 55119, September 21, 2006].

The following amendment to Rule 321 was also adopted:

- Amend the wording to read "May 14, 1997" to specify the effective date that the rule became effective instead of using the wording "the effective date of this rule" to avoid confusion on which date is considered the effective date of the rule.

7. Demonstration of compliance with A.R.S. §49-471.08 expedited rule making:

Maricopa County declared this as an expedited rule making action. Under A.R.S. § 49-479(C), a county may not adopt a rule or ordinance that is more stringent than the rules adopted by the Director of the ADEQ for similar sources unless it demonstrates compliance with the requirements of A.R.S. § 49-112.

A.R.S. § 49-112(A)

When authorized by law, a county may adopt a rule, ordinance, or other regulation that is more stringent than or in addition to a provision of this title or rule adopted by the director or any board or commission authorized to adopt rules pursuant to this title if all the following conditions are met:

1. The rule, ordinance or other regulation is necessary to address a peculiar local condition; and
2. There is credible evidence that the rule, ordinance or other regulation is either:
 - a. Necessary to prevent a significant threat to public health or the environment that results from a peculiar local condition and is technically and economically feasible; or
 - b. Required under a federal statute or regulation, or authorized pursuant to an intergovernmental agreement with the federal government to enforce federal statutes or regulations if the county rule, ordinance or other regulation is equivalent to federal statutes or regulations.

Maricopa County complied with A.R.S. § 49-112(A) in that the department adopted revisions to Rules 317, 321, 360, 370, 371 and Appendix G that are not more stringent than nor in addition to a provision of A.R.S. Title 49 or rules adopted by the Director of the ADEQ or any Board or Commission authorized to adopt rules pursuant to A.R.S. Title 49, therefore no demonstration under A.R.S. § 49-112 was necessary. The revisions to Rules 317, 321, 360, 370, 371 and Appendix G reflected revisions to federal regulations and documents promulgated by the EPA and published in the Federal Register notices cited in Item 6 of this rulemaking. Other changes were typographical errors and technical corrections.

A.R.S. § 49-112(B)

The A.R.S. § 49-112(B) demonstration did not apply because these particular rules are in the portion of the department's air quality program that is administered under direct statutory authority. Therefore, these rules were not adopted or revised in lieu of a state program.

A.R.S. § 49-471.08(A)(1)

Demonstration that the rule or ordinance making is substantially identical to the sense, meaning and effect of the federal or state rule or law from which it is derived.

Rule 317 is substantially identical to the ADEQ's Standards of Performance for Existing Hospital/Medical/Infectious Waste Incinerators Rule, R18-2-732. Rule 321 is substantially identical to the ADEQ's Standards of Performance for Existing Municipal Solid Waste Landfills, R18-2-731. Rule 360 is substantially identical to the ADEQ's Standards of Performance rules, R18-2-901 through R18-2-905. Rule 370 is substantially identical to the ADEQ's National Emission Standards for Hazardous Air Pollutants rules, R18-2-1101 through R18-2-1102. Rule 371 is substantially identical to the ADEQ's Acid Rain Rule, R18-2-333. Appendix G is substantially identical to the ADEQ's Appendix 2, Test Methods and Protocols, and R18-2-102, Incorporated Materials.

A.R.S. § 49-471.08(A)(2)

Written finding by the Control Officer setting forth the reasons why the rule or ordinance making is necessary and does not alter the sense, meaning or effect of the federal or state rule or law from which it is derived.

This rulemaking was required to update the applicability dates in these rules. It incorporated subparts that have been passed by the federal government which are required to be implemented by the department. Rules 317, 321, 360, 370, 371, and Appendix G do not alter the sense, meaning or effect of the state rules and federal regulations from which they are derived, as they incorporated language that was essentially the same as the state's applicable rules and the federal code of regulations.

A.R.S. § 49-471.08(A)(3)

Demonstration that fees established in the rule or ordinance do not exceed limits specified in § 49-112.

Under A.R.S. § 49-112(B), a county may adopt rules in lieu of a state program that are as stringent as a state program, if the county demonstrates that the cost of obtaining permits or other approvals from the county will be approximately equal to or less than the costs of obtaining similar permits. Rules 317, 321, 360, 370, 371, and Appendix G do not establish fees. Any costs associated with these rules will come from permit application fees for sources obtaining a permit revision to reflect new emission limits, due to applicability of a new standard. Therefore, fees associated with these rules will be exactly the same as fees associated with similar permits.

8. A reference to any study relevant to the rule that the department reviewed and either proposes to rely on or not rely on its evaluation of or justification for the rule, where the public may obtain or review each study, all data under lying each study, and any analysis of each study and other supporting material:

No studies were reviewed in reference to this expedited rulemaking action. All studies conducted in regards to the CFR being incorporated by reference were conducted at the federal level.

9. A showing of good cause why the rule is necessary to promote a statewide interest if the rule will diminish a previous grant of authority of a political subdivision of this state:

Not applicable

10. Summary of the economic, small business, and consumer impact:

Maricopa County incorporated by reference the following federal regulations and documents promulgated by the EPA and published in the Federal Register: New Source Performance Standards (NSPS), National Emission Standards for Hazardous Air Pollutants (NESHAP), Acid Rain and other parts of Title 40 Code of Federal Regulations (CFR). These revisions should not have an economic impact on businesses in Maricopa County and should not impose additional costs on the regulated community, small businesses, political subdivisions, and members of the public beyond that already incurred by reason of federal or state rule or law. The costs of compliance with these rules have already occurred and were considered when the federal and state rule or law was proposed and adopted.

AIR POLLUTION CONTROL REGULATIONS**

REGULATION III – CONTROL OF AIR CONTAMINANTS

RULE 317

HOSPITAL/MEDICAL/INFECTIOUS WASTE INCINERATORS

SECTION 100 – GENERAL

- 101 PURPOSE:** To control emissions of air pollutants from Hospital/Medical/Infectious Waste incinerators.
- 102 APPLICABILITY:** A Hospital/Medical/Infectious Waste Incinerator (HMIWI) commenced on or before June 20, 1996, or for which construction commenced on or before June 20, 1996, shall comply with this rule unless it fits any one of the following exceptions:
 - 102.1** A combustor is not subject to this rule when only pathological waste, low-level radioactive waste, and/or chemotherapeutic waste is burned, provided the owner or operator of the combustor:
 - a.** Notifies the Control Officer of an exemption claim; and

- b. Keeps records on a calendar quarter basis of the periods of time when only pathological waste, low-level radioactive waste, and/or chemotherapeutic waste is burned.
- 102.2 Any co-fired combustor is not subject to this rule if the owner or operator of the co-fired combustor:
 - a. Notifies the Control Officer of an exemption claim; and
 - b. Provides an estimate of the relative weight of hospital waste, medical/infectious waste, and other fuels and/or wastes to be combusted; and
 - c. Keeps records on a calendar quarter basis of the weight of hospital waste and medical/infectious waste combusted, and the weight of all other fuels and wastes combusted at the co-fired combustor.
- 102.3 Any combustor required to have a permit under Title 42, United States Code (U.S.C.), Section 6925, Section 3005 of the Solid Waste Disposal Act is not subject to this rule.
- 102.4 Any combustor which meets the applicability requirements under 40 CFR 60, Subparts Cb, Ea, or Eb (standards or guidelines for certain municipal waste combustors) is not subject to this rule.
- 102.5 Any pyrolysis unit is not subject to this rule.
- 102.6 Cement kilns firing hospital waste or medical/infectious waste are not subject to this rule.
- 102.7 Physical or operational ~~will change~~ changes made to an existing HMIWI unit solely for the purpose of complying with emission guidelines under this rule are not considered a modification and do not result in an existing HMIWI unit becoming subject to the provisions of 40 CFR 60, Subpart Ec.
- 102.8 HMIWI subject to this Section are not subject to Rule 313.
 - a. A crematory whose incinerator burns only human remains is not a HMIWI and is not subject to this rule. It is subject to Rule 313. However, if the incinerator burns 10 percent or less of hospital waste and medical/infectious waste, it is a co-fired combustor subject only to notification and recordkeeping requirements, as specified in Section 102.2.c of this rule. If the incinerator burns more than 10 percent hospital waste and medical/infectious waste, it is subject to all of the requirements of this rule.
 - b. Any co-fired combustor or combustor that is not subject to this rule is still subject to Rule 313. (See Applicability, Sections 102.2, 102.3 and 102.4 of this rule.)
- 103 **AVAILABILITY OF INFORMATION:** Copies of the CFR referenced in this rule are available at the Maricopa County Air Quality Department, 1001 N. Central Ave., Phoenix, ~~Arizona AZ~~, 85004, or ~~call~~ by calling (602) 506-6040 (602) 506-0169 for information.

SECTION 200 – DEFINITIONS: See Rule 100 of these rules for definitions of terms that are used but not specifically defined in this rule. For the purpose of this rule, the following definitions shall apply:
