

NOTICES OF PUBLIC INFORMATION

Notices of Public Information contain corrections that agencies wish to make to their notices of rulemaking; miscellaneous rulemaking information that does not fit into any other category of notice; and other types of information required by statute to be published in the Register.

Because of the variety of Notices of Public Information, the Office of the Secretary of State has not established a specific publishing format for these notices. We do however require agencies to use a numbered list of questions and answers and follow our filing requirements by presenting receipts with electronic and paper copies.

## NOTICE OF PUBLIC INFORMATION

### DEPARTMENT OF HEALTH SERVICES

[M15-248]

1. **Title and its heading:** 9, Health Services  
**Chapter and its heading:** 14, Department of Health Services - Laboratories  
**Article and its heading:** 1, Direct Access Tests and Laboratory Standing Orders
2. **The public information relating to the listed Article:**  
 Laws 2015, Ch. 222 established A.R.S. 36-468, which allows a person to obtain a laboratory test without a health care provider's order. Laws 2015, Ch. 222 also made corresponding changes to A.R.S. § 36-466 by removing the requirements for an advisory committee on clinical laboratories to establish a list of "direct access tests," defined as "tests that may be obtained without a physician referral," and for the Department to make the list of direct access tests available to the public. The Department had implemented A.R.S. § 36-466 in Arizona Administrative Code (A.A.C.) Title 9, Chapter 14, Article 1. With the adoption of A.R.S. § 36-468 and changes to A.R.S. § 36-466, the rules in 9 A.A.C. 14, Article 1, need to be revised to remove this list and associated definitions. This Notice of Public Information provides notice that the Department has drafted changes to the rules in 9 A.A.C. 14, Article 1, to comply with Laws 2015, Ch. 222, and is soliciting comments on the draft from interested persons. The draft rules and on online survey are posted at <http://www.azdhs.gov/ops/oacr/rules/rulemakings/active/index.php?pg=direct-access>.

## NOTICE OF PUBLIC INFORMATION

### DEPARTMENT OF HEALTH SERVICES

[M15-249]

1. **Title and its heading:** 9, Health Services  
**Chapter and its heading:** 25, Department of Health Services - Emergency Medical Services  
**Article and its heading:** 5, Medical Direction Protocols for Emergency Medical Care Technicians
2. **The public information relating to the listed Article:**  
 Arizona Revised Statutes (A.R.S.) § 36-2205(A) requires the Department to establish protocols governing "medical treatments, procedures, medications and techniques which may be administered or per-

formed by each class of emergency medical care technician.” A.R.S. § 36-2205(B) gives the Arizona Department of Health Services (Department) exempt rulemaking authority to establish these protocols. These protocols for medical treatments, procedures, medications, and techniques are established in Arizona Administrative Code (A.A.C.) Title 9, Chapter 25, Article 5. A.R.S. § 36-2228, as added by Laws 2015, Ch. 313, § 4, states that an emergency medical care technician may administer naloxone “to a person who the emergency medical care technician ... believes is suffering from an opiate-related drug overdose.” Currently, emergency medical technicians, the lowest classification of emergency medical care technicians, are not authorized in 9 A.A.C. 25, Article 5, to administer naloxone. After receiving an exception from the rulemaking moratorium established by Executive Order 2015-01, the Department has drafted changes to the rules in 9 A.A.C. 25, Article 5, to comply with Laws 2015, Ch. 313. This Notice of Public Information provides notice that the draft rules are posted at <http://www.azdhs.gov/ops/oacr/rules/rulemakings/active/index.php?pg=ems-2015>, and that the Department is soliciting comments from interested persons.
