- To add 4: Availability of Information.

To correct typographical or other clerical errors; make minor grammatical changes to improve readability or clarity; modify the format, numbering, order, capitalization, punctuation, or syntax of certain text to increase standardization within and among rules; and make various other minor changes of a purely editorial nature. As these proposed changes do not alter the sense, meaning, or effect of the rule, they are not described in detail here, but can be readily discerned in the “strikeout and underline” version of the rule contained in Item #6 of this notice.

A.R.S. § 49-471.08(A)(2):

Written finding by the Control Officer setting forth the reasons why the rule or ordinance making is necessary and does not alter the sense, meaning or effect of the federal or state rule or law from which it is derived.

This rulemaking is required to update the applicability dates in these rules. It incorporates subparts that have been passed by the federal government which are required to be implemented by the department. Rules 321, 360, 370, 371, and Appendix G do not alter the sense, meaning or effect of the state rules and federal regulations from which they are derived, as they incorporate language that is essentially the same as the state's applicable rules and the federal code of regulations.

A.R.S. § 49-471.08(A)(3):

Demonstration that fees established in the rule or ordinance do not exceed limits specified in § 49-112. Rules 321, 360, 370, 371, and Appendix G do not establish fees. Any costs associated with these rules will come from permit application fees for sources obtaining a permit revision to reflect new emission limits, due to applicability of a new standard. Therefore, fees associated with these rules will be exactly the same as fees associated with similar permits and would not exceed any limits specified in § 49-112.

5. Public comments regarding the proposed rulemaking:

This is a proposed expedited rule making. Written comments will be accepted if received between the date of this publication and August 29, 2016, by 5:00 PM. Written comments may be mailed, e-mailed or hand delivered to the department. Written comments received during the comment period will be considered formal comments to the expedited rulemaking and will be responded to in the Notice of Final Rulemaking.
