#### R6-13-319. Consolidated Standards of Need

- A. Consolidated standards.** Grants for AFDC, GA and TC are computed by using one of two consolidated standards of need: The A-1 standard of the A-2 standard.
- B. The A-1 standard**
  1. The A-1 standard will be used for assistance units which have the obligation to pay, or do pay -- either in part or in full -- any of the following housing expenses:
    - a. Rent;
    - b. Room, or room and board (but not board alone);
    - c. Mortgage or other lien on homestead;
    - d. Property tax on homestead;
    - e. Any city, county, or state fee or tax on property used as residence (such as trailer parking permit or similar).
  2. The obligation pay, or the payment, must be at least in part cash (not solely in kind).
  3. The person who is obligated to pay, or who does pay, may be any member of the assistance unit, whether eligible or ineligible for the month. The definition of an assistance unit and its members is found in R6-13-320(F).
  4. The A-1 standard must also be used if:
    - a. The assistance unit resides in public housing under HUD Sections 8 or 23, or
    - b. The payee or his spouse is an SSI recipient.
- C. The A-2 standard.** The A-2 standard will be used for:
  1. Assistance units without any obligation to pay any of the housing expenses listed in subsection (B)(1) above; or
  2. Assistance units whose housing expense is paid only in-kind, with no part in cash; or
  3. When the housing expense is fully paid, on an ongoing basis, by a person not a member of the assistance unit, directly to the landlord or lienholder. Such payments will be considered ongoing if they have been so paid for at least three consecutive months.

- B. Grants will be made in whole dollar amounts and will be rounded upward to the next whole dollar amount.
- C. An SSI recipient and the recipient's needs, income, and resources shall not be considered in computing an AFDC, GA, or TC grant.
- D. Emergency assistance paid to an applicant in any given month shall be deducted from the assistance grant for that month.
- E. If the applicable income of an assistance unit meets or exceeds its adjusted need for that month, the assistance unit will be determined to be financially ineligible for assistance.
- F. Each assistance unit and program will be budgeted separately, regardless of the number of assistance units residing together.
  1. An "assistance unit" is defined as an applicant-payee plus all those persons for whom the applicant-payee can request and receive assistance in accordance with the "specified relative" provisions of R6-3-407.
  2. Whenever two or more persons eligible for assistance can be included in one single assistance unit and grant as defined above, two or more separate assistance units and grants cannot be authorized.

- A.** Confidential information to be safeguarded. No information concerning an applicant or recipient, whether contained in client case records, or in any other records of the Department, or known to employees of the Department, will be disclosed to any party except as specified in provisions of this Article.

Examples: Such information includes, but is not limited to, the names and addresses of clients or the amount of assistance provided; information related to the social and economic conditions or circumstances of a client; medi-

cal data, including diagnosis and past history of disease or disability concerning a client.

- B.** Release of information. The use or disclosure of information concerning a client shall be limited to the client, or to persons or agencies subject to confidentiality restrictions comparable to those of the Department and for purposes directly related to the administration of Public Assistance programs (such as establishing eligibility, determining the amount of the grant, providing services, taking legal actions on behalf of the Department or a federal public assistance agency, etc.).
- C.** Authorized parties: Unless specifically otherwise restricted, safeguarded information may be released to the following parties and only under the conditions here specified:
1. The client. An applicant or recipient may view the contents of the applicant's or recipient's case record at any time, provided a member of the Department is present during the examination of the case record. However, a dependent child may view the case record in which the child is included as a recipient only with the written permission of the child's parent or other caretaker relative.
  2. Employees of the Department. For official purposes, employees of the Department may view case records and transmit safeguarded information, without the client's written or verbal consent, to other employees of the Department.
  3. Social Security Administration. For official purposes, safeguarded information may be disclosed, without the client's written or verbal consent, to employees of the Social Security Administration.

**R6-13-1202. Transfer of Cases Between Cost Centers**

An individual is not subject to any residence restriction within the state and will be given agency services in the place where the individual chooses to make a home.

1. Change of address. When a recipient moves out of the jurisdiction of a cost center, that cost center is responsible for processing the change of address.
2. Pending applications. A pending application will not be transferred from one district to another but may be transferred between cost centers within the same district.
3. Transfer of an active case. Upon notification from the recipient of a change of address from the jurisdiction of one cost center to another, the cost center receiving the notification will take appropriate action.
4. Transfer of closed cases. When an individual applies for assistance and the interview reveals prior agency contact with another cost center, a written request will be made for transfer of the prior record with all other information available concerning the individual.
5. Transfer of suspended case. A suspended case may be transferred if the cost center making the request is aware of the case status.
6. Transfer transmittal. The case record being transferred will be identified by case number, SSN, and name, with a brief transmittal memorandum prepared in triplicate.

**R6-13-1203. State Warrants**

Assistance grants are paid by warrants drawn on the State Treasury. Warrants are issued either directly to the eligible recipient or to a payee -- a protective payee, an emergency payee, a legal guardian, or to a vendor.

1. Missing or stolen warrants. Upon receipt of information that a recipient has not received the recipient's warrant, the recipient will be interviewed and required to complete a bond of indemnity.
  - a. When it has been determined that the warrant has been cashed, the Finance Division will send a photocopy of the signed warrant to the local office for a signature comparison. If the signature appears to be that of the recipient and the recipient denies signing the warrant, the matter will be referred to the Special Investigations Unit.
  - b. If the check apparently contains a forged signature, the recipient will complete an affidavit of forgery for issuance of another warrant.
2. Terminal warrants. Should a recipient die, only warrants signed by the recipient prior to death may be honored for payment by the State Treasurer. An exception is allowed when there is a legal guardian and the guardian can establish the recipient was alive on the date the warrant was received; in such case the guardian may endorse and cash the warrant.
3. Canceling or stopping warrants. The eligibility worker can request that a warrant not be mailed and be cancelled, or that payment of an already mailed warrant be stopped, if information received in the local office requires such action.

4. Mailing address for warrants. A recipient has the right to designate the address to which the recipient wishes the assistance warrant mailed, except that warrants may not be mailed to any Department of Economic Security office, or to the residence address of any employee of the Department. If the recipient has mail delivery to the place of residence, the recipient will be encouraged to use this address as the mailing address.
5. Clients signing by mark. Documents signed with an "X" or by a thumb print are acceptable if properly witnessed. The EW may serve as a witness.

- B. Warrants. Warrants issued to legal guardians will be written in the following format: "John Smith, Guardian of John Doe." The guardian will endorse the warrant for cashing the same as it is written.

- B. The Department will pursue collection of all AFDC overpayments discovered prior to October 1, 1981, and all overpayments in the General Assistance (GA) and Supplemental Payments (SP) Programs. On such cases waiver of repayment can be granted in accordance with A.R.S. § 46-213(B).

**R6-13-1207. Special Investigations Unit**

Arizona Revised Statutes provide for the establishment of a Special Investigations Unit within the Department of Economic Security.

1. This unit shall perform special investigative duties at any office in the state as may be assigned. Examples of these duties are:
  - a. Establish liaison with the various law enforcement agencies.
  - b. Investigate cases involving fraudulent receipt of assistance payments or food stamps and to prepare such cases for presentation to the County Attorney. Where necessary, the Special Investigations Unit investigator shall act as complaining witness for the Department.
  - c. Make and report on other types of investigations referred to the unit such as concealment of all types of assets or income, possible secret marriage, non-legal union relationships where extra income could be involved, and required assistance in child welfare cases.
  - d. Other duties, as assigned.
2. Local office responsibilities

- a. Appropriate case records will be made available for examination by Special Investigations Unit representatives.
  - b. The local office will schedule interviews on cases selected by the Special Investigations Unit. If an applicant fails to keep the first appointment, a second appointment will be made. If the recipient fails to keep this appointment, without cause, the grant will be suspended.
  - c. The local office will refer all applications or resumes of active cases to the Special Investigations Unit which have been closed or suspended as a result of an SIU investigation.
  - d. If a hearing is requested in a case where an application was denied or assistance discontinued as a result of a Special Investigations Unit investigation, referrals for further investigation are to be made to the Special Investigations Unit when the hearing request is received. These referrals should use Hearing Priority I as the reason for the investigation report.
  - e. It is the responsibility of the local office Eligibility Worker to submit any new information regarding the case.
3. Special Investigations Unit Responsibilities
- a. The Special Investigation Unit will notify the local office of cases selected by them for interview.
  - b. The Special Investigations Unit will attempt to complete their investigations and report back to the local office within 20 days of the referral date. When it is impossible to meet this deadline, a memo of explanation will be sent to the local office and the case removed from "Priority I" status.
  - c. Upon completion of an investigation a report will be sent to the local office which made the referral. Also, interview reports will be made when the Special Investigations Unit deems it necessary.
4. Referrals to County Attorneys. All absent parent cases will be referred to County Attorneys by the Special Investigations Unit and not by the local office Eligibility Worker.

#### R6-13-1208. Complaints, Hearings, and Appeals

- A.** Complaints. Complaints may be filed only regarding matters not covered by Appeals, subsection (B) following. A complaint received relating to an appealable matter shall be treated as an appeal and considered filed as of the date the complaint was received.
- 1. Treatment by local office. Verbal or written complaints shall be referred to the local office supervisor or to a person designated to act for the supervisor. The case will then be discussed with the assigned caseworker who shall attempt to work through the problem with the appellant, explaining the reason for the Department's action and attempting to resolve any difficulty relating to a possible appeal. If, after the conference is held at the local level, the appellant is still dissatisfied, an appointment may be made with the Program Manager or the person to whom responsibility for holding such conferences is delegated.
  - 2. Treatment by state Office. Complaints which are received in the state Office by telephone, or letter, or directly by visit of the appellant, may be handled by the state Office or referred to the Program Manager of the district in which the appellant resides.
- a. Replies to letters shall be made using information available in the District Office and the local office.
  - b. Whenever there is contact between the state Office and the appellant regarding a complaint which could be an appealable matter, the appellant shall be reminded of the appeal procedure, and that the appellant need not pursue an informal complaint before filing an appeal.
- B.** Basis for appeal. An appellant will be granted a hearing for any of the following reasons:
- 1. Right to apply for assistance has been denied.
  - 2. Application is denied in whole or in part.
  - 3. Action on an application has not been taken by the Department within 45 days of the date of application for AFDC, 60 days for GA, or 30 days for SP or TC.
  - 4. Assistance is suspended, terminated, reduced, or otherwise withheld when such action has occurred as a result of an eligibility determination based on facts or judgment as applied to individual circumstances.
  - 5. The appellant disagrees that an overpayment has been made, or disagrees with the amount of the overpayment, or feels that the plan for repayment causes undue hardship, or the appellant's request for a waiver has been denied.
  - 6. A hearing will not be granted when either state or federal law requires automatic grant adjustments for classes of appellants, unless the reason for an individual appeal is incorrect grant computation or incorrect application of said law to the case.
  - 7. The Office of Appeals may deny or dismiss a request for hearing where a decision has been rendered after a WIDP hearing before the DES Appeals Board that a participant has, without good cause, refused to accept employment or participate in the WIDP program or has failed to request such a hearing after a notice of intended action for such refusal, or where it is abandoned.
- C.** Timely filing of appeal
- 1. Unless a written request for hearing is filed within 10 calendar days of the decision letter mailing date for the AFDC, SP, TC, or GA programs, the Department shall proceed to take the proposed action.
  - 2. Except as otherwise provided by statute or by Department regulations, any appeal submitted to the Department shall be considered received by and filed with the Department:
    - a. On the date it is mailed, if transmittal via the U.S. Postal Service or its successor. The mailing date will be as follows:
      - i. As shown by the postmark; or
      - ii. As shown by the postage meter mark of the envelope in which it is received, if there is no postmark; or
      - iii. The date entered on the document as the date of its completion, if there is no postmark, or no postage meter mark, or if the mark is illegible.
    - b. On the date it is received by the Department, if not transmitted via the U.S. Postal Service, or its successor.
  - 3. The submission of any document not within the specified statutory or regulatory period shall be considered timely if it is established to the satisfaction of the Department that the delay in submission was due to Department error or misinformation, or to delay caused by the U.S. Postal Service or its successor.
  - 4. Any document mailed by the Department shall be considered as having been given to the addressee on the date it is mailed to the person's last-known address. The date

## Department of Economic Security – State Assistance Programs

mailed will be presumed to be the date shown on the document, unless otherwise indicated by the facts. Computation of time shall be made in accordance with Rule 6(a) of the Rules of Civil Procedure, A.R.S. Volume 16

5. If appeal is timely, benefits shall not be reduced or terminated prior to a hearing decision unless due to a subsequent change in household eligibility and another notice of adverse action is received and not timely appealed.
  6. If an appeal is filed after 10 days for the AFDC, SP, TC, or GA programs but within 20 days of the decision letter mailing date, the local office shall proceed to take the proposed action, the Office of Appeals shall hear the appeal and, if ruling is in the appellant's favor, any resulting under payment of benefits shall be restored to the appellant by retroactive payments. If appeal is filed at any time later than 20 days, the Office of Appeals shall deny the request for hearing unless good cause is shown for untimely filing.
  7. The local office shall advise the appellant of any community legal services available and, when requested, shall assist the appellant in completing the hearing request.
- D. Appeal requests.** Appeals for a hearing must be in writing. They can be filed by the appellant or by the appellant's designated representative and must be filed with the local office.
1. The local office must forward all requests to the Office of Appeals within two working days of receipt.
  2. Emergency Assistance and Hardship Supplement appeals shall not be forwarded to the Office of Appeals but shall be handled by the local office supervisor or manager.
  3. Before it can schedule a hearing, the Office of Appeals must be in receipt of:
    - a. The copy of the form or correspondence on which the hearing is requested, and
    - b. The Case Decision Notice, and
    - c. Any other written request or correspondence from the client or the client's representative related to the appeal.
  4. Whenever a request is forwarded from the local office to the Office of Appeals, the forwarding action and date should be noted on the Case Actions Summary. The local office caseworker must complete all appropriate portions of hearing request forms requiring local office entries. A copy of the request will be retained in the appellant's case record. All documents concerning EA appeals will be retained in the case record.
- E. Disability determination.**
1. An appellant who bases an appeal on an adverse disability determination will be given the opportunity to have another medical examination prior to the hearing.
  2. If the appellant wishes a medical examination prior to the hearing, the local office shall authorize and schedule it. The examination may be with a doctor chosen by the Department or by the appellant, but only by a licensed physician, psychologist, or psychiatrist.
  3. At any time prior to issuing the decision, the Hearing Officer can authorize a special diagnostic evaluation by direct request to the District Medical Consultant, who will select an appropriate specialist.
  4. The Hearing Officer may consider new medical evidence without referral to the Medical Consultant or may request the Medical Consultant to provide an evaluation of the above new medical evidence to the Hearing Officer, giving the Medical Consultant's recommendation concerning the appellant's disability and employability status.
  5. The opinion of the District Medical Consultant shall be considered as expert evidence at the hearing but is not binding on the Hearing Officer.
  6. All medical, social, and vocational reports, including reports from the Division of Vocational Rehabilitation, the Social Security Administration, and the Veteran's Administration, which are relevant to the determination of disability or employability, shall be considered by the Hearing Officer. A finding of ineligibility for Social Security disability shall not be considered as a basis for ineligibility for General Assistance.
  7. The appellant's testimony as to the appellant's physical and mental condition or symptomatology shall be considered by the Hearing Officer.
- F. Group hearings.** The Department may respond to a series of individual requests for hearings by conducting a single group hearing.
1. Such hearings shall be limited to those cases in which the sole issue involved is one of state or federal law or policy.
  2. Each individual appellant shall be permitted to present the appellant's own case or be represented by the appellant's authorized representative.
  3. The individual appellant may withdraw from the group hearing and request and be granted an individual hearing.
- G. Notice of hearing**
1. Hearings shall be held at those regularly established hearing locations most convenient to the interested parties or at the discretion of the Hearing Officer. A hearing shall be scheduled not less than 10 nor more than 45 days from the date of filing of the request for hearing. The appellant shall be given no less than 10 days' notice of hearing, except that the appellant may waive the notice period or request a delay.
  2. The notice of hearing will inform the appellant of the date, time, and place of the hearing, the name of the Hearing Officer, the issues involved, and the appellant's rights to:
    - a. Present the case in person, by telephone, or through a representative; and
    - b. Copy any documents in the appellant's case file and all documents and records to be used by the agency at the hearing at a reasonable time prior to the hearings as well as during the hearing; and
    - c. Obtain assistance from the local office in preparing the case; and
    - d. Make inquiry at the local office about availability of community legal resources which could provide representation at the hearing.
  3. Notification shall be in writing, both to the appellant and to the local office on form US-037, Hearing Place Notice. If an appellant has good cause for being unable to attend a hearing once scheduled, the appellant must request a delay by either calling the local office or by writing directly to the Hearing Officer (P.O. Box 6123, Phoenix, Arizona 85005). The request must be received at least five working days prior to the hearing; otherwise the request may be denied. All scheduling is the responsibility of the Office of Appeals.
  4. The appellant, in lieu of a personal appearance, may appear by telephone or submit a written statement, under oath or affirmation, setting forth the facts of the case. The statement must be submitted to the Department with all witnesses and documents at the time and place specified in the notice of hearing and shall be prepared at such time to dispose of all issues and questions involved in the appeal.

5. The Hearing Officer may, on the Hearing Officer's own motion or at the request of any interested party upon showing of good cause, disqualify himself or herself, or continue the hearing to a future time, or reopen a hearing before a decision is final to take additional evidence.
    - a. If an interested party fails to appear at a scheduled hearing, the Hearing Officer may adjourn the hearing to a later date or may make a decision upon the record and upon such evidence as may be presented at the scheduled hearing.
    - b. If, within 10 days of the scheduled hearing, the applicant files a written request to reopen the proceedings and establishes good cause for failure to appear at the scheduled hearing, the hearing will be rescheduled. Notice of the time, place, and the purpose of any continued, reopened, or rescheduled hearing shall be given to all interested parties.
- H. Prehearing summary**
1. A prehearing summary of the facts and grounds for the action taken shall be prepared by the local office and must reach the Hearing Officer no less than 10 days prior to the hearing.
  2. A copy of the summary shall be made available to the appellant or to the appellant's representative prior to the hearing.
  3. The summary must be a typewritten report. Handwritten summaries are not acceptable. The summary must contain:
    - a. Appellant's name (and case name, if different); and
    - b. SSN (or case number, if different); and
    - c. Local office responsible; and
    - d. Brief summary of circumstances supporting the Department's action; and
    - e. Exact legal manual references used by the local office in its eligibility determination.
- I. Subpoena of witnesses**
1. The Hearing Officer may subpoena any witnesses or documents requested by the Department or appellant to be present at the hearing. The request shall be in writing and will state the name and address of the witness and the nature of the testimony. The nature of the witness' testimony must be relevant to the issues of the hearing; otherwise the Hearing Officer may deny the request.
    - a. The request for the issuance of a subpoena shall be made to give sufficient time -- a minimum of three working days -- prior to the hearing.
    - b. A subpoena requiring the production of records and documents must specifically describe them in detail and further set forth the name and address of the custodian thereof.
  2. The Office of Appeals will prepare all subpoenas. Service of the subpoena will be accomplished by certified mail, receipt requested.
- J. Review of file.** In the presence of a Department representative, the appellant or the appellant's authorized representative, or both, shall be permitted to review, obtain, or copy any Departmental record necessary for the proper presentation of the case.
- K. Conduct of the hearing.**
1. Hearings shall be conducted in an orderly and dignified manner.
  2. Hearings shall be opened, conducted, and closed by the Hearing Officer, who shall rule on the admissibility of evidence and shall direct the order of proof. The Hearing Officer will have the power to administer oaths and affirmations, take depositions, certify official acts, and issue subpoenas to compel the attendance of witnesses and the production of any documents the Hearing Officer deems necessary as evidence in connection with a hearing.
3. The hearing is a de novo proceeding. The burden is on the client to prove eligibility by a preponderance of evidence. The Department has the initial burden of going forward with presentation of evidence.
  4. Evidence not related to the issue shall not be allowed to become a part of the record.
  5. The Hearing Officer may, on his own motion or at the request of the appellant or Department representative, exclude witnesses from the hearing room.
  6. The worker, supervisor, or other appropriate person may be designated Department representative for the hearing.
  7. The appellant and Department representative may testify, present evidence, and cross-examine witnesses and present arguments.
  8. A full and complete record shall be kept of all proceedings in connection with an appeal. Such records will be open for inspection by the appellant or the appellant's representative at a place accessible to the appellant.
    - a. A transcript of the proceedings need not, however, be made unless it is required for further proceedings. When a transcript has been made for further proceedings, a copy will be furnished without cost to each interested party.
    - b. At the close of a hearing, all parties concerned are to vacate the hearing room and are requested to refrain from conferring about the hearing or the case with the Hearing Officer.
- L. Hearing decisions**
1. The hearing decision will be rendered exclusively on the evidence and testimony produced at the hearing, appropriate state and federal law, and Departmental rules governing the issues in dispute.
  2. The decision will set forth the pertinent facts involved, the conclusions drawn from such facts, the sections of applicable law or rule, the decision, and the reasons therefore. A copy of such decision, together with an explanation of the appeal rights, shall be delivered or mailed to each interested party and each party's attorney of record not more than 60 days from the date of filing the request for appeal, unless the delay was caused by the appellant.
  3. Decisions of the Hearing Officer shall bear the signature of that officer.
  4. In those cases where the local office must take additional action as a result of a decision, such action must be taken immediately.
  5. All decisions in favor of the appellant apply retroactively to the date of the action being appealed, or to the date the Hearing Officer specifically finds appropriate.
  6. When a hearing decision upholds the proposed action of reducing, suspending, or terminating a grant, any overpayment which results will be treated as a client-caused non-fraud overpayment.
  7. All hearing decisions will be made accessible to the public, subject to all the confidentiality restrictions set forth in A.R.S. § 41-1959.
  8. The decision of the Hearing Officer will be the final decision of the Department, unless a reconsideration is requested in accordance with subsection (N) below.
- M. Withdrawal of appeal.** An appeal may be withdrawn as follows:
1. Voluntary. An appellant may voluntarily withdraw his request for a hearing by completing and signing the

proper Department form or by submitting a letter properly signed.

2. Default. An appellant is considered to have abandoned or involuntarily withdrawn a request for a hearing if the appellant fails to appear at a scheduled hearing and fails to request a rescheduled hearing within 10 days. A hearing will not be considered abandoned if the appellant provides notification up to the time of the hearing that the appellant is unable, due to good cause, to keep the appointment and that the appellant still wishes a hearing, or that the appellant wishes the matter considered on the record.

**N. Appeals Board review.**

1. An appellant may request the Appeals Board to review an adverse hearing decision within 10 calendar days after the decision was mailed or otherwise delivered to the appellant.
  - a. The request for further appeal must be in writing, signed, and dated. It should set forth a statement of the grounds for review and may be filed personally or by mail.
  - b. If the request for further appeal is filed within 10 days of the issuance of the original hearing decision, the local office must continue to withhold the original proposed negative case action until the Appeals Board decision is issued. If the Appeals Board decision is again adverse to the appellant, overpayments which result will be treated as a client-caused non-fraud overpayment.
2. After receipt of a request the Appeals Board will either:
  - a. Remand the case for rehearing, specifying the nature of any additional evidence required or issues, or both, to be considered; or
  - b. Grant the request and decide the appeal on the record.
3. The Appeals Board will promptly adopt a decision which shall be the final decision of the Department. A copy of the decision, together with a statement specifying the rights for judicial review, will be distributed to each interested party.

**R6-13-1209. Quality Control**

The quality control system shall be operated by the state in accordance with state plan provisions to see that public funds expended within the AFDC program are used properly through locating unacceptable performance and ineffective policies.

1. Purpose. The quality control review system provides an administrative means, which meets federal specifications, to assume that assistance is provided in accordance to state plan provisions, and to hold the incidence of errors below pre-established tolerance limits. This is accomplished by:
  - a. Determining the extent to which those receiving assistance are eligible and that they receive payments in the amount to which they are entitled.
  - b. Reducing or eliminating incidences of eligibility and payment errors by:
    - i. Continuous review of statistically reliable statewide samples of cases,

- ii. Periodic assembly and analysis of case findings to determine incidences and amount of errors,
- iii. Application of corrective action to reduce error rates.

**TITLE 9. HEALTH SERVICES****CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM  
ADMINISTRATION**

*Editor's Note: The Office of the Secretary of State prints all Code Chapters on white paper (Supp 01-3).*

*Editor's Note: This Chapter contains rules which were adopted or amended under an exemption from the Arizona Administrative Procedure Act (A.R.S. Title 41, Chapter 6), pursuant to Laws 1992, Ch. 301, § 61 and Ch. 302, § 13, and Laws 1993, Ch. 6, § 34. Exemption from A.R.S. Title 41, Chapter 6 means that AHCCCS did not submit notice of this rulemaking to the Secretary of State's Office for publication in the Arizona Administrative Register; the Governor's Regulatory Review Council did not review these rules; AHCCCS was not required to hold public hearings on these rules; and the Attorney General did not certify these rules. Because this Chapter contains rules which are exempt from the regular rulemaking process, the Chapter is printed on blue paper.*

- A member may receive behavioral health services as specified in Articles 2 and 12.

The Administration or a contractor shall not provide prior authorization for services unless the provider submits documentation of the medical necessity of the treatment along with the prior authorization request.
- Services under A.R.S. § 36-2908 provided during the prior period coverage do not require prior authorization.
- Prior authorization is not required for services necessary to evaluate and stabilize an emergency medical condition. The Administration or a contractor shall not reimburse services that require prior authorization unless the provider documents the diagnosis and treatment.
- A service is not a covered service if provided outside the GSA unless one of the following applies:

- If a member is traveling or temporarily residing outside of the GSA, covered services are restricted to emergency care services, unless otherwise authorized by the contractor.

For the purposes of this Section, an emergency medical or behavioral health condition for a FES member means a medical condition or a behavioral health condition, including labor and delivery, manifesting itself by acute symptoms of sufficient severity, including severe pain, such that the absence of immediate medical attention could reasonably be expected to result in:

- A. For purposes of this subsection, the term "member" includes the member's financially responsible representative as described under A.R.S. § 36-2903.01.
- B. Registered providers must accept payment from the Administration or a contractor as payment in full.
- C. Except as provided in subsection (D) a registered provider shall not request or collect payment from, refer to a collection agency, or report to a credit reporting agency an eligible person or a person claiming to be an eligible person.
- D. An AHCCCS registered provider may charge, submit a claim to, or demand or collect payment from a member:
  1. To collect the copayment described in R9-22-711;
  2. To recover from a member that portion of a payment made by a third party to the member for an AHCCCS covered service if the member has not transferred the payment to the Administration or the contractor as required by the statutory assignment of rights to AHCCCS;
  3. To obtain payment from a member for medical expenses incurred during a period when the member intentionally withheld information or intentionally provided inaccurate information pertaining to the member's AHCCCS eligibility or enrollment that caused payment to the provider to be reduced or denied;
  4. For a service that is excluded by statute or rule, or provided in an amount that exceeds a limitation in statute or rule, if the member signs a document in advance of receiving the service stating that the member understands the service is excluded or is subject to a limit and that the member will be financially responsible for payment for the excluded service or for the services in excess of the limit;

5. When the contractor or the Administration has denied authorization for a service if the member signs a document in advance of receiving the service stating that the member understands that authorization has been denied and that the member will be financially responsible for payment for the service;
  6. For services requested for a member enrolled with a contractor, and rendered by a noncontracting provider under circumstances where the member's contractor is not responsible for payment of "out of network" services under R9-22-705(A), if the member signs a document in advance of receiving the service stating that the member understands the provider is out of network, that the member's contractor is not responsible for payment, and that the member will be financially responsible for payment for the excluded service;
  7. For services rendered to a person eligible for the FESP if the provider submits a claim to the Administration in the reasonable belief that the service is for treatment of an emergency medical condition and the Administration denies the claim because the service does not meet the criteria of R9-22-217; or
  8. If the provider has received verification from the Administration that the person was not an eligible person on the date of service.
- E. The signature requirement of subsections (D)(4), (5), and (6) do not apply if:
1. The member is unable or incompetent to sign such a document, or
  2. When services are rendered for the purpose of treating an emergency medical condition as defined in R9-22-217 and a delay in providing treatment to obtain a signature would have a significant adverse affect on the member's health.
- F. Except as provided for in this Section, registered providers shall not bill a member when the provider could have received reimbursement from the Administration or a contractor but for the provider's failure to file a claim in accordance with the requirements of AHCCCS statutes, rules, the provider agreement, or contract, such as, but not limited to, requirements to request and obtain prior authorization, timely filing, and clean claim requirements.

#### R9-22-705. Payments by Contractors

- A.** General requirements. A contractor shall contract with providers to provide covered services to members enrolled with the contractor. The contractor is responsible for reimbursing providers and coordinating care for services provided to a member. Except as provided in subsection (A)(2), a contractor is not required to reimburse a noncontracting provider for services rendered to a member enrolled with the contractor.
1. Providers. A provider shall enter into a provider agreement with the Administration that meets the requirements of A.R.S. § 36-2904 and 42 CFR 431.107(b) as of March 6, 1992, which is incorporated by reference and on file with the Administration, and available from the U.S. Government Printing Office, Mail Stop: IDCC, 732 N. Capitol Street, NW, Washington, DC, 20401. This incorporation by reference contains no future editions or amendments.
  2. A contractor shall reimburse a noncontracting provider for services rendered to a member enrolled with the contractor as specified in this Article if:
    - a. The contractor referred the member to the provider or authorized the provider to render the services and the claim is otherwise payable under this Chapter, or
    - b. The service is emergent under Article 2 of this Chapter.
- B.** Timely submission of claims.
1. Under A.R.S. § 36-2904, a contractor shall deem a paper or electronic claim as submitted on the date that the claim is received by the contractor. The contractor shall do one or more of the following for each claim the contractor receives:
    - a. Place a date stamp on the face of the claim,
    - b. Assign a system-generated claim reference number, or
    - c. Assign a system-generated date-specific number.
  2. Unless a shorter time period is specified in subcontract, a contractor shall not pay a claim for a covered service unless the claim is initially submitted within one of the following time limits, whichever is later:
    - a. Six months from the date of service or for an inpatient hospital claim, six months from the date of discharge; or
    - b. Six months from the date of eligibility posting.
  3. Unless a shorter time period is specified in subcontract, a contractor shall not pay a clean claim for a covered service unless the claim is submitted within one of the following time limits, whichever is later:
    - a. Twelve months from the date of service or for an inpatient hospital claim, 12 months from the date of discharge; or
    - b. Twelve months from the date of eligibility posting.
- C.** Date of claim.
1. A contractor's date of receipt of an inpatient or an outpatient hospital claim is the date the claim is received by the contractor as indicated by the date stamp on the claim, the system-generated claim reference number, or the system-generated date-specific number assigned by the contractor.
  2. A hospital claim is considered paid on the date indicated on the disbursement check.
  3. A denied hospital claim is considered adjudicated on the date of the claim's denial.
  4. For a claim that is pending for additional supporting documentation specified in A.R.S. § 36-2903.01 or 36-2904, the contractor shall assign a new date of receipt upon receipt of the additional documentation.
  5. For a claim that is pending for documentation other than the minimum required documentation specified in either A.R.S. § 36-2903.01 or 36-2904, the contractor shall not assign a new date of receipt.
  6. A contractor and a hospital may, through a contract approved as specified in R9-22-715, adopt a method for identifying, tracking, and adjudicating a claim that is different from the method described in this subsection.
- D.** Payment for in-state inpatient hospital services. A contractor shall reimburse an in-state provider of inpatient hospital services rendered with an admission date on or after March 1, 1993, at either a rate specified by subcontract or, in absence of the subcontract, the prospective tiered-per-diem amount in

A.R.S. § 36-2903.01 and this Article. Subcontract rates, terms, and conditions are subject to review and approval or disapproval under A.R.S. § 36-2904 and R9-22-715. This subsection does not apply to an urban contractor as specified in R9-22-718 and A.R.S. § 36-2905.01.

**E. Payment for in-state outpatient hospital services.**

1. A contractor shall reimburse an in-state provider of outpatient hospital services rendered on or after March 1, 1993 through June 30, 2005, at either a rate specified by a subcontract that complies with R9-22-715(A) or, in absence of a subcontract, as described in R9-22-712 or under A.R.S. § 36-2903.01. Subcontract rates, terms, and conditions are subject to review and approval or disapproval under A.R.S. § 36-2904 and R9-22-715.
2. A contractor shall reimburse an in-state provider of outpatient hospital services rendered on or after July 1, 2005, at either a rate specified by a subcontract or, in absence of a subcontract, as provided under R9-22-712.10, A.R.S. § 36-2903.01 and other sections of this Article. The terms of the subcontract are subject to review and approval or disapproval under A.R.S. § 36-2904 and R9-22-715.

**F. Inpatient and outpatient out-of-state hospital payments.** In the absence of a contract with an out-of-state hospital that specifies payment rates, a contractor shall reimburse out-of-state hospitals for covered inpatient services by multiplying covered charges by the most recent state-wide urban cost-to-charge ratio as determined in R9-22-712.01(6)(b). In the absence of a contract with an out-of-state hospital that specifies payment rates, a contractor shall reimburse out-of-state hospitals for covered outpatient services by applying the methodology described in R9-22-712.10 through R9-22-712.50. If the outpatient procedure is not assigned a fee schedule amount, the contractor shall pay the claim by multiplying the covered charges for the outpatient services by the state-wide outpatient cost-to-charge ratio.

**G. Payment for observation days.** A contractor shall reimburse a provider and a noncontracting provider for the provision of observation days at either a rate specified by subcontract or, in the absence of a subcontract, as prescribed under R9-22-712, R9-22-712.10, and R9-22-712.45. An "observation day" means a physician-ordered evaluation period of less than 24 hours to determine the need of treatment or the need for admission as an inpatient.

**H. Review of claims and coverage for hospital supplies.**

1. A contractor may conduct a review of any claims submitted and recoup any payments made in error.
2. A hospital shall obtain prior authorization from the appropriate contractor for nonemergency admissions. When issuing prior authorization, a contractor shall consider the medical necessity of the service, and the availability and cost effectiveness of an alternative treatment. Failure to obtain prior authorization when required is cause for nonpayment or denial of a claim. A contractor shall not require prior authorization for medically necessary services provided during any prior period for which the contractor is responsible. If a contractor and a hospital agree to a subcontract, the parties shall abide by the terms of the subcontract regarding utilization control activities. A hospital shall cooperate with a contractor's reasonable activities necessary to perform concurrent review and shall make the hospital's medical records pertaining to a member enrolled with a contractor available for review.
3. Regardless of prior authorization or concurrent review activities, a contractor may make prepayment or post-payment review of all claims, including but not limited to a hospital claim. A contractor may recoup an erroneously

paid claim. If prior authorization was given for a specific level of care, but medical review of a claim indicates that a different level of care was medically appropriate, a contractor shall adjust the claim to pay for the cost for the appropriate level of care. An adjustment in payment for a different level of care is effective on the date when the different level of care is medically appropriate.

4. A contractor and a hospital may enter into a subcontract that includes hospital claims review criteria and procedures if the subcontract meets the requirements of R9-22-715.
5. Personal care items supplied by a hospital, including but not limited to the following, are not covered services:
  - a. Patient care kit,
  - b. Toothbrush,
  - c. Toothpaste,
  - d. Petroleum jelly,
  - e. Deodorant,
  - f. Septi soap,
  - g. Razor,

  - l. Shampoo,
  - m. Powder,

  - a. Arm board,
  - b. Diaper,
  - c. Underpad,
  - d. Special mattress and special bed,
  - e. Gloves,
  - f. Wrist restraint,
  - g. Limb holder,
  - h. Disposable item used instead of a durable item,
  - i. Universal precaution,
  - j. Stat charge, and
  - k. Portable charge.
7. The contractor shall determine in a hospital claims review whether services rendered were:
  - a. Covered services as defined in R9-22-102;
  - b. Medically necessary;
  - c. Provided in the most appropriate, cost-effective, and least restrictive setting; and
  - d. For claims with dates of admission on and after March 1, 1993, substantiated by the minimum documentation specified in A.R.S. § 36-2904.
8. If a contractor adjudicates a claim or recoups payment for a claim, a person may file a claim dispute challenging the adjudication or recoupment as described under 9 A.A.C. 34.
- I. Non-hospital claims.** A contractor shall pay claims for non-hospital services in accordance with contract, or in the absence of a contract, at a rate not less than the Administration's capped fee-for-service schedule or at a lower rate if negotiated between the two parties.
- J. Payments to hospitals.** A contractor shall pay for inpatient hospital admissions and outpatient hospital services rendered on or after March 1, 1993, as follows and as described in A.R.S. § 36-2904:

1. If the hospital bill is paid within 30 days from the date of receipt, the claim is paid at 99 percent of the rate.
2. If the hospital bill is paid between 30 and 60 days from the date of receipt, the claim is paid at 100 percent of the rate.
3. If the hospital bill is paid after 60 days from the date of receipt, the claim is paid at 100 percent of the rate plus a 1 percent penalty of the rate for each month or portion of the month following the 60th day of receipt of the bill until date of payment.

- K.** Interest payment. In addition to the requirements in subsection (J), a contractor shall pay interest for late claims as defined by contract.
- L.** For services subject to limitations or exclusions such as the number of hours, days, or visits covered as described in Article 2 of this Chapter, once the limit is reached the Administration will not reimburse the services.

pitals for covered inpatient services by multiplying covered charges by the most recent state-wide urban cost-to-charge ratio as determined in R9-22-712.01(6)(d). In the absence of a contract with an out-of-state hospital that specifies payment rates, AHCCCS shall reimburse an out-of-state hospital for covered outpatient services by applying the methodology described in R9-22-712.10 through R9-22-712.50. If the outpatient procedure is not assigned a fee schedule amount, the Administration shall pay the claim by multiplying the covered charges for the outpatient services by the state-wide outpatient cost-to-charge ratio.

- C.** Access to records. Subcontracting and noncontracting providers of outpatient or inpatient hospital services shall allow the Administration access to medical records regarding eligible persons and shall in all other ways fully cooperate with the Administration or the Administration's designated representative in performance of the Administration's utilization control activities. The Administration shall deny a claim for failure to cooperate.
- D.** Prior authorization. The Administration or contractor may deny a claim if a provider fails to obtain prior authorization as required under R9-22-210.
- E.** Review of claims. Regardless of prior authorization or concurrent review activities, the Administration may subject all hospital claims, including outliers, to prepayment medical review or post-payment review, or both. The Administration shall conduct post-payment reviews consistent with A.R.S. § 36-2903.01 and may recoup erroneously paid claims. If prior authorization was given for a specific level of care but medical review of the claim indicates that a different level of care was appropriate, the Administration may adjust the claim to reflect the more appropriate level of care, effective on the date when the different level of care was medically appropriate.
- F.** Claim receipt.
1. The Administration's date of receipt of inpatient or outpatient hospital claims is the date the claim is received by the Administration as indicated by the date stamp on the claim and the system-generated claim reference number or system-generated date-specific number.
  2. Hospital claims are considered paid on the date indicated on disbursement checks.
  3. A denied claim is considered adjudicated on the date the claim is denied.
  4. Claims that are denied and are resubmitted are assigned new receipt dates.
  5. For a claim that is pending for additional supporting documentation specified in A.R.S. § 36-2903.01 or 36-2904, the Administration shall assign a new date of receipt upon receipt of the additional documentation.
  6. For a claim that is pending for documentation other than the minimum required documentation specified in either A.R.S. § 36-2903.01 or 36-2904, the Administration shall not assign a new date of receipt.

- G.** Outpatient hospital reimbursement. The Administration shall pay for covered outpatient hospital services provided to eligible persons with dates of service from March 1, 1993 through June 30, 2005, at the AHCCCS outpatient hospital cost-to-charge ratio, multiplied by the amount of the covered charges.
1. Computation of outpatient hospital reimbursement. The Administration shall compute the cost-to-charge ratio on a hospital-specific basis by determining the covered charges and costs associated with treating eligible persons in an outpatient setting at each hospital. Outpatient operating and capital costs are included in the computation but outpatient medical education costs that are included in the inpatient medical education component

are excluded. To calculate the outpatient hospital cost-to-charge ratio annually for each hospital, the Administration shall use each hospital's Medicare Cost Reports and a database consisting of outpatient hospital claims paid and encounters processed by the Administration for each hospital, subjecting both to the data requirements specified in R9-22-712.01. The Administration shall use the following methodology to establish the outpatient hospital cost-to-charge ratios:

- a. Cost-to-charge ratios. The Administration shall calculate the costs of the claims and encounters for outpatient hospital services by multiplying the ancillary line item cost-to-charge ratios by the covered charges for corresponding revenue codes on the claims and encounters. Each hospital shall provide the Administration with information on how the revenue codes used by the hospital to categorize charges on claims and encounters correspond to the ancillary line items on the hospital's Medicare Cost Report. The Administration shall then compute the overall outpatient hospital cost-to-charge ratio for each hospital by taking the average of the ancillary line items cost-to-charge ratios for each revenue code weighted by the covered charges.
- b. Cost-to-charge limit. To comply with 42 CFR 447.325, the Administration may limit cost-to-charge ratios to 1.00 for each ancillary line item from the Medicare Cost Report. The Administration shall remove ancillary line items that are non-covered or not applicable to outpatient hospital services from the Medicare Cost Report data for purposes of computing the overall outpatient hospital cost-to-charge ratio.
2. New hospitals. The Administration shall reimburse new hospitals at the weighted statewide average outpatient hospital cost-to-charge ratio multiplied by covered charges. The Administration shall continue to use the statewide average outpatient hospital cost-to-charge ratio for a new hospital until the Administration rebases the outpatient hospital cost-to-charge ratios and the new hospital has a Medicare Cost Report for the fiscal year being used in the rebasing.
3. Specialty outpatient services. The Administration may negotiate, at any time, reimbursement rates for outpatient hospital services in a specialty facility.
4. Reimbursement requirements. To receive payment from the Administration, a hospital shall submit claims that are legible, accurate, error free, and have a covered charge greater than zero. The Administration shall not reimburse hospitals for emergency room treatment, observation hours or days, or other outpatient hospital services performed on an outpatient basis, if the eligible person is admitted as an inpatient to the same hospital directly from the emergency room, observation area, or other outpatient department. Services provided in the emergency room, observation area, and other outpatient hospital services provided before the hospital admission are included in the tiered per diem payment.
5. Rebasing. The Administration shall rebase the outpatient hospital cost-to-charge ratios at least every four years but no more than once a year using updated Medicare Cost Reports and claim and encounter data.
6. If a hospital files an increase in its charge master for an existing outpatient service provided on or after July 1, 2004, and on or before June 30, 2005, which represents an aggregate increase in charges of more than 4.7%, the

Administration shall adjust the hospital-specific cost-to-charge ratio as calculated under subsection (G)(1) through (5) by applying the following formula:

$$CCR * [1.047 / (1 + \% \text{ increase})]$$

Where "CCR" means the hospital-specific cost-to-charge ratio as calculated under subsection (G)(1) through (5) and "% increase" means the aggregate percentage increase in charges for outpatient services shown on the hospital charge master.

"Charge master" means the schedule of rates and charges as described under A.R.S. § 36-436 and the rules that relate to those rates and charges that are filed with the Director of the Arizona Department of Health Services.

#### R9-22-712.01. Inpatient Hospital Reimbursement

Inpatient hospital reimbursement. The Administration shall pay for covered inpatient acute care hospital services provided to eligible persons with admissions on and after October 1, 1998, on a prospective reimbursement basis. The prospective rates represent payment in full, excluding quick-pay discounts, slow-pay penalties, and third-party payments for both accommodation and ancillary department services. The rates include reimbursement for operating and capital costs. The Administration shall make reimbursement for direct graduate medical education as described in A.R.S. § 36-2903.01. For payment purposes, the Administration shall classify each AHCCCS inpatient hospital day of care into one of several tiers appropriate to the services rendered. The rate for a tier is referred to as the tiered per diem rate of reimbursement. The number of tiers is seven and the maximum number of tiers payable per continuous stay is two. Payment of outlier claims, transplant claims, or payment to out-of-state hospitals, freestanding psychiatric hospitals, and other specialty facilities may differ from the inpatient hospital tiered per diem rates of reimbursement described in this Section.

1. Tier rate data. The Administration shall base tiered per diem rates effective on and after October 1, 1998 on Medicare Cost Reports for Arizona hospitals for fiscal years ending in 1996 and a database consisting of inpatient hospital claims and encounters for dates of service matching each hospital's 1996 fiscal year end.

- a. Medicare Cost Report data. Because Medicare Cost Report years are not standard among hospitals and were not audited at the time of the rate calculation, the Administration shall inflate all the costs to a common point in time as described in subsection (2) for each component of the tiered per diem rates. The Administration shall not make any changes to the tiered per diem rates if the Medicare Cost Report data are subsequently updated or adjusted. If a single Medicare Cost Report is filed for more than one hospital, the Administration shall allocate the costs to each of the respective hospitals. A hospital shall submit information to assist the Administration in this allocation.
  - b. Claim and encounter data. For the database, the Administration shall use only those inpatient hospital claims paid by the Administration and encounters that were accepted and processed by the Administration at the time the database was developed for rates effective on and after October 1, 1998. The Administration shall subject the claim and encounter data to a series of data quality, reasonableness, and integrity edits and shall exclude from the database or adjust claims and encounters that fail these edits. The Administration shall also exclude from the database the following claims and encounters:
    - i. Those missing information necessary for the rate calculation,
    - ii. Medicare crossovers,
    - iii. Those submitted by freestanding psychiatric hospitals, and
    - iv. Those for transplant services or any other hospital service that the Administration would pay on a basis other than the tiered per diem rate.
2. Tier rate components. The Administration shall establish inpatient hospital prospective tiered per diem rates based on the sum of the operating and capital components. The rate for the operating component is a statewide rate for each tier except for the NICU and Routine tiers, which are based on peer groups. The rate for the capital component is a blend of statewide and hospital-specific values, as described in A.R.S. § 36-2903.01. The Administration shall use the following methodologies to establish the rates for each of these components.
    - a. Operating component. Using the Medicare Cost Reports and the claim and encounter database, the Administration shall compute the rate for the operating component as follows:
      - i. Data preparation. The Administration shall identify and group into department categories, the Medicare Cost Report data that provide ancillary department cost-to-charge ratios and accommodation costs per day. To comply with 42 CFR 447.271, the Administration shall limit cost-to-charge ratios to 1.00 for each ancillary department.
      - ii. Operating cost calculation. To calculate the rate for the operating component, the Administration shall derive the operating costs from claims and encounters by combining the Medicare Cost Report data and the claim and encounter database for all hospitals. In performing this calculation, the Administration shall match the revenue codes on the claims and encounters to the departments in which the line items on the Medicare Cost Reports are grouped. The ancillary department cost-to-charge ratios for a particular hospital are multiplied by the covered ancillary department charges on each of the hospital's claims and encounters. The AHCCCS inpatient days of care on the particular hospital's claims and encounters are multiplied by the corresponding accommodation costs per day from the hospital's Medicare Cost Report. The ancillary cost-to-charge ratios and accommodation costs per day do not include medical education and capital costs. The Administration shall inflate the resulting operating costs for the claims and encounters of each hospital to a common point in time, December 31, 1996, using the DRI inflation factor and shall reduce the operating costs for the hospital by an audit adjustment factor based on available national data and Arizona historical experience in adjustments to Medicare reimbursable costs. The Administration shall further inflate operating costs to the midpoint of the rate year (March 31, 1999).
    - iii. Operating cost tier assignment. After calculating the operating costs, the Administration shall assign the claims and encounters used in the calculation to tiers based on diagnosis, procedure, or revenue codes, or NICU classification level, or a combination of these. For the NICU tier, the Administration shall further assign claims and encounters to NICU Level II or NICU Level III peer groups, based on the hospital's certification by the Arizona Perinatal Trust. For the Routine tier, the Administration shall further assign claims and encounters to the general acute care hospital or rehabilitation hospital peer groups, based on state licensure by the Department of Health Services. For claims and encounters assigned to more than one tier, the Administration shall allocate ancillary department costs to the tiers in the same proportion as the accommodation costs. Before calculating the rate for the operating component, the Administration shall identify and exclude any claims and encounters that are outliers as defined in subsection (6).
    - iv. Operating rate calculation. The Administration shall set the rate for the operating component for each tier by dividing total statewide or peer group hospital costs identified in this subsection within the tier by the total number of AHCCCS inpatient hospital days of care reflected in the claim and encounter database for that tier.
    - b. Capital component. For rates effective October 1, 1999 the capital component is calculated as described in A.R.S. § 36-2903.01.
    - c. Statewide inpatient hospital cost-to-charge ratio. For dates of service prior to October 1, 2007, the statewide inpatient hospital cost-to-charge ratio is used for payment of outliers, as described in subsections (4), (5), and (6), and out-of-state hospitals, as described in R9-22-712(B). The Administration shall calculate the AHCCCS statewide inpatient hospital cost-to-charge ratio by using the Medicare Cost Report data and claim and encounter database described in subsection (1) and used to determine the tiered per diem rates. For each hospital, the cov-

- ered inpatient days of care on the claims and encounters are multiplied by the corresponding accommodation costs per day from the Medicare Cost Report. Similarly, the covered ancillary department charges on the claims and encounters are multiplied by the ancillary department cost-to-charge ratios. The accommodation costs per day and the ancillary department cost-to-charge ratios for each hospital are determined in the same way described in subsection (2)(a) but include costs for operating and capital. The Administration shall then calculate the statewide inpatient hospital cost-to-charge ratio by summing the covered accommodation costs and ancillary department costs from the claims and encounters for all hospitals and dividing by the sum of the total covered charges for these services for all hospitals.
- d. Unassigned tiered per diem rates. If a hospital has an insufficient number of claims to set a tiered per diem rate, the Administration shall pay that hospital the statewide average rate for that tier.
3. Tier assignment. The Administration shall assign AHCCCS inpatient hospital days of care to tiers based on information submitted on the inpatient hospital claim or encounter including diagnosis, procedure, or revenue codes, peer group, NICU classification level, or a combination of these.
    - a. Tier hierarchy. In assigning claims for AHCCCS inpatient hospital days of care to a tier, the Administration shall follow the Hierarchy for Tier Assignment in R9-22-712.09. The Administration shall not pay a claim for inpatient hospital services unless the claim meets medical review criteria and the definition of a clean claim. The Administration shall not pay for a hospital stay on the basis of more than two tiers, regardless of the number of interim claims that are submitted by the hospital.
    - b. Tier exclusions. The Administration shall not assign to a tier or pay AHCCCS inpatient hospital days of care that do not occur during a period when the person is eligible. Except in the case of death, the Administration shall pay claims in which the day of admission and the day of discharge are the same, termed a same day admit and discharge, including same day transfers, as an outpatient hospital claim. The Administration shall pay same day admit and discharge claims that qualify for either the maternity or nursery tiers based on the lesser of the rate for the maternity or nursery tier, or the outpatient hospital fee schedule.
    - c. Seven tiers. The seven tiers are:
      - i. Maternity. The Administration shall identify the Maternity Tier by a primary diagnosis code. If a claim has an appropriate primary diagnosis, the Administration shall pay the AHCCCS inpatient hospital days of care on the claim at the maternity tiered per diem rate.
      - ii. NICU. The Administration shall identify the NICU Tier by a revenue code. A hospital does not qualify for the NICU tiered per diem rate unless the hospital is classified as either a NICU Level II or NICU Level III perinatal center by the Arizona Perinatal Trust. The Administration shall pay AHCCCS inpatient hospital days of care on the claim that meet the medical review criteria for the NICU tier and have a NICU revenue code at the NICU tiered per diem rate. The Administration shall pay any remaining AHCCCS inpatient hospital day on the claim that does not meet NICU Level II or NICU Level III medical review criteria at the nursery tiered per diem rate.
      - iii. ICU. The Administration shall identify the ICU Tier by a revenue code. The Administration shall pay AHCCCS inpatient hospital days of care on the claim that meets the medical review criteria for the ICU tier and has an ICU revenue code at the ICU tiered per diem rate. The Administration may classify any AHCCCS inpatient hospital days on the claim without an ICU revenue code, as surgery, psychiatric, or routine tiers.
      - iv. Surgery. The Administration shall identify the Surgery Tier by a revenue code and a valid surgical procedure code that is not on the AHCCCS excluded surgical procedure list. The excluded surgical procedure list identifies minor procedures such as sutures that do not require the same hospital resources as other procedures. The Administration shall only split a surgery tier with an ICU tier. AHCCCS shall pay at the surgery tier rate only when the surgery occurs on a date during which the member is eligible.
      - v. Psychiatric. The Administration shall identify the Psychiatric Tier by either a psychiatric revenue code and a psychiatric diagnosis or any routine revenue code if all diagnosis codes on the claim are psychiatric. The Administration shall not split a claim with AHCCCS inpatient hospital days of care in the psychiatric tier with any tier other than the ICU tier.
      - vi. Nursery. The Administration shall identify the Nursery Tier by a revenue code. The Administration shall not split a claim with AHCCCS inpatient hospital days of care in the nursery tier with any tier other than the NICU tier.
      - vii. Routine. The Administration shall identify the Routine Tier by revenue codes. The routine tier includes AHCCCS inpatient hospital days of care that are not classified in another tier or paid under any other provision of this Section. The Administration shall not split the routine tier with any tier other than the ICU tier.
  4. Annual update. The Administration shall annually update the inpatient hospital tiered per diem rates through September 30, 2011.
  5. New hospitals. For rates effective on and after October 1, 1998, the Administration shall pay new hospitals the statewide average rate for each tier, as appropriate. The Administration shall update new hospital tiered per diem rates through September 30, 2011.
  6. Outliers. The Administration shall reimburse hospitals for AHCCCS inpatient hospital days of care identified as outliers under this Section by multiplying the covered charges on a claim by the Medicare Urban or Rural Cost-to-Charge Ratio. The Urban cost-to-charge ratio will be used for hospitals located in a county of 500,000 residents or more. The Rural cost-to-charge ratio will be used for hospitals located in a county of fewer than 500,000 residents.

- a. Outlier criteria. For rates effective on and after October 1, 1998, the Administration set the statewide outlier cost threshold for each tier at the greater of three standard deviations from the statewide mean operating cost per day within the tier, or two standard deviations from the statewide mean operating cost per day across all the tiers. If the covered costs per day on a claim exceed the urban or rural cost threshold for a tier, the claim is considered an outlier. Outliers will be paid by multiplying the covered charges by the applicable Medicare Urban or Rural CCR. The resulting amount will be the outlier payment. If there are two tiers on a claim, the Administration shall determine whether the claim is an outlier by using a weighted threshold for the two tiers. The weighted threshold is calculated by multiplying each tier rate by the number of AHCCCS inpatient hospital days of care for that tier and dividing the product by the total tier days for that hospital. Routine maternity stays shall be excluded from outlier reimbursement. A routine maternity is any one-day stay with a delivery of one or two babies. A routine maternity stay will be paid at tier.
- b. Update. The CCR is updated annually by the Administration for dates of service beginning October 1, using the most current Medicare cost-to-charge ratios published or placed on display by CMS by August 31 of that year. The Administration shall update the outlier cost thresholds for each hospital through September 30, 2011 as described under A.R.S. § 36-2903.01. For inpatient hospital admissions with begin dates of service on and after October 1, 2011, AHCCCS will increase the outlier cost thresholds by 5% of the thresholds that were effective on September 30, 2011.
- c. Medicare Cost-to-Charge Ratio Phase-In. AHCCCS shall phase in the use of the Medicare Urban or Rural Cost-to-Charge Ratios for outlier determination, calculation and payment. The three-year phase-in does not apply to out-of-state or new hospitals.
  - i. Medicare Cost-to-Charge Ratio Phase-In outlier determination and threshold calculation. For outlier claims with dates of service on or after October 1, 2007 through September 30, 2008, AHCCCS shall adjust each hospital specific inpatient cost-to-charge ratio in effect on September 30, 2007 by subtracting one-third of the difference between the hospital specific inpatient cost-to-charge ratio and the effective Medicare Urban or Rural Cost-to-Charge Ratio. For outlier claims with dates of service on or after October 1, 2008 through September 30, 2009, AHCCCS shall adjust each hospital specific inpatient cost-to-charge ratio in effect on September 30, 2007 by subtracting two-thirds of the difference between the hospital specific inpatient cost-to-charge ratio and the effective Medicare Urban or Rural Cost-to-Charge Ratio. The adjusted hospital specific inpatient cost-to-charge ratios shall be used for all calculations using the Medicare Urban or Rural Cost-to-Charge Ratios, including outlier determination, and threshold calculation.
  - ii. Medicare Cost-to-Charge Ratio Phase-In calculation for payment. For payment of outlier claims with dates of service on or after October 1, 2007 through September 30, 2008, AHCCCS shall adjust the statewide inpatient hospital cost-to-charge ratio in effect on September 30, 2007 by subtracting one-third of the difference between the statewide inpatient hospital cost-to-charge ratio and the effective Medicare urban or rural cost-to-charge ratio. For payment of outlier claims with dates of service on or after October 1, 2008 through September 30, 2009, AHCCCS shall adjust the statewide inpatient hospital cost-to-charge ratio in effect on September 30, 2007 by subtracting two-thirds of the difference between the statewide inpatient hospital cost-to-charge ratio and the effective Medicare urban or rural cost-to-charge ratio.
  - iii. Medicare Cost-to-Charge Ratio for outlier determination, threshold calculation, and payment. For outlier claims with dates of service on or after October 1, 2009, the full Medicare Urban or Rural Cost-to-Charge Ratios shall be utilized for all outlier calculations.
- d. Cost-to-Charge Ratio used for qualification and payment of outlier claims.
  - i. For qualification and payment of outlier claims with begin dates of service on or after April 1, 2011 through September 30, 2011, the CCR will be equal to 95% of the ratios in effect on October 1, 2010.
  - ii. For qualification and payment of outlier claims with begin dates of service on or after October 1, 2011, the CCR will be equal to 90.25% of the most recent published Urban or Rural Medicare CCR as described in subsection (6)(b).
  - iii. For qualification and payment of outlier claims with begin dates of service on or after October 1, 2011 through September 30, 2012, AHCCCS will reduce the cost-to-charge ratio determined under subsection (6)(d)(ii) for a hospital that filed a charge master with ADHS on or after April 1, 2011 by an additional percentage equal to the total percent increase reported on the charge master.
  - iv. Subject to approval by CMS, for qualification and payment of outlier claims with begin dates of service on or after October 1, 2012, AHCCCS will reduce the cost-to-charge ratio determined under subsection (6)(d)(ii) for a hospital that filed a charge master with ADHS on or after June 1, 2012 by an additional percentage equal to the total percent increase reported on the charge master.
7. Transplants. The Administration shall reimburse hospitals for an AHCCCS inpatient stay in which a covered transplant as described in R9-22-206 is performed through the terms of the relevant contract. As described in R9-22-716, if the Administration and a hospital that performs transplant surgery on an eligible person do not have a contract for the transplant surgery, the Administration shall not reimburse the hospital more than what would have been paid to the contracted hospital for that same surgery.
8. Ownership change. The Administration shall not change any of the components of a hospital's tiered per diem rates upon an ownership change.

9. Psychiatric hospitals. The Administration shall pay free-standing psychiatric hospitals an all-inclusive per diem rate based on the contracted rates used by the Department of Health Services.
10. Specialty facilities. The Administration may negotiate, at any time, reimbursement rates for inpatient specialty facilities or inpatient hospital services not otherwise addressed in this Section as provided by A.R.S. § 36-2903.01. For purposes of this subsection, “specialty facility” means a facility where the service provided is limited to a specific population, such as rehabilitative services for children.
11. Outliers for new hospitals. Outliers for new hospitals will be calculated using the Medicare Urban or Rural Cost-to-Charge Ratio times covered charges. If the resulting cost is equal to or above the cost threshold, the claim will be paid at the Medicare Urban or Rural Cost-to-Charge ratio.
12. Reductions to tiered per diem payment for inpatient hospital services. Inpatient hospital admissions with begin dates of service on or after October 1, 2011, shall be reimbursed at 95 percent of the tiered per diem rates in effect on September 30, 2011.

#### R9-22-712.05. Graduate Medical Education Fund Allocation

- A. Graduate medical education (GME) reimbursement as of September 30, 1997. Subject to legislative appropriation, the Administration shall make a distribution based on direct graduate medical education costs as described in A.R.S. § 36-2903.01(H)(9)(a).
  - B. Subject to available funds and approval by CMS, the Administration shall annually distribute monies appropriated for the expansions of GME programs approved by the Administration to hospitals for direct program costs eligible for funding under A.R.S. § 36-2903.01(H)(9)(b). A GME program is deemed to be established as of the date of its original accreditation. All determinations that are necessary to make distributions described by this subsection shall be made using information possessed by the Administration as of the date of reporting under subsection (B)(3).
    1. Eligible health care facilities. A health care facility is eligible for distributions under subsection (B) if all of the following apply:
      - a. It is a hospital in Arizona that is the sponsoring institution of, or a participating institution in, one or more of the GME programs in Arizona;
      - b. It incurs direct costs for the training of residents in the GME programs, which costs are or will be reported on the hospital's Medicare Cost Report;
      - c. It is not administered by or does not receive its primary funding from an agency of the federal government.
    2. Eligible resident positions. For purposes of determining program allocation amounts under subsection (B)(4) the following resident positions are eligible for consideration
      - a. to the extent that the resident training takes place in Arizona and not at a health care facility made ineligible under subsection (B)(1)(c);
      - b. Filled resident positions in approved programs established as of October 1, 1999 at hospitals that receive funding as described in A.R.S. § 36-2903.01(H)(9)(a) that are additional to the number of resident positions that were filled as of October 1, 1999; and
      - c. All filled resident positions in approved programs other than GME programs described in A.R.S. § 36-2903.01(H)(9)(a) that were established before July 1, 2006.
3. Annual reporting. By April 1st of each year, each GME program and each hospital seeking a distribution under subsection (B) shall provide the applicable information listed in this subsection to the Administration:
    - a. A GME program shall provide all of the following:
      - i. The program name and number assigned by the accrediting organization;
      - ii. The original date of accreditation;
      - iii. The names of the sponsoring institution and all participating institutions current as of the date of reporting;
      - iv. The number of approved resident positions and the number of filled resident positions current as of the date of reporting;
      - v. For programs established as of October 1, 1999, the number of resident positions that were filled as of October 1, 1999, if the program has not already provided this information to the Administration;
    - b. A hospital seeking a distribution under subsection (B) shall provide all of the following that apply:
      - i. If the hospital uses the Intern and Resident Information System (IRIS) for tracking and reporting its resident activity to the fiscal intermediary, copies of the IRIS master and assignment files for the hospital's two most recently completed Medicare cost reporting years as filed with the fiscal intermediary;
      - ii. If the hospital does not use the IRIS or has less than two cost reporting years available in the form of the IRIS master and assignment files, the information normally contained in the IRIS master and assignment files in an alternative format for the hospital's two most recently completed Medicare cost reporting years;
      - iii. At the request of the Administration, a copy of the hospital's Medicare Cost Report or any part of the report for the most recently completed cost reporting year.
  4. Allocation of expansion funds. Annually the Administration shall allocate available funds to each approved GME program in the following manner:
    - a. Information provided by hospitals under subsection (B)(3)(b) shall be used to determine the program in which each eligible resident is enrolled and the number of days that each eligible resident worked in any area of the hospital complex or in a non-hospital setting under agreement with the reporting hospital during the period of assignment to that hospital. For this purpose, the Administration shall use data relating to the most recent 12-month period that is common to all information provided under subsections (B)(3)(b)(i) and (ii).

- b. The number of eligible residents allocated to each participating institution within each approved GME program shall be determined as follows:
  - i. Total the number of days determined for each participating institution under subsection (B)(4)(a) and divide each total by 365.
  - ii. Proportionally adjust the result of subsection (B)(4)(b)(i) for each participating institution within each program according to the number of residents determined to be eligible under subsection (B)(2).
- c. The number of allocated eligible residents determined under subsection (B)(4)(b)(ii) shall be adjusted for Arizona Medicaid utilization using the most recent Medicare Cost Report information on file with the Administration as of the date of reporting under subsection (B)(3) and the Administration's inpatient hospital claims and encounter data for the time period corresponding to the Medicare Cost Report information for each hospital. The Administration shall use only those inpatient hospital claims paid by the Administration and encounters that were adjudicated by the Administration as of the date of reporting under subsection (B)(3). The Medicaid-adjusted eligible residents shall be determined as follows:
  - i. For each hospital, the total AHCCCS inpatient hospital days of care shall be divided by the total Medicare Cost Report inpatient hospital days, multiplied by 100 and rounded up to the nearest multiple of 5 percent.
  - ii. The number of allocated eligible residents determined for each participating hospital under subsection (B)(4)(b)(ii) shall be multiplied by the percentage derived under subsection (B)(4)(c)(i) for that hospital. The number of allocated eligible residents determined under subsection (B)(4)(b)(ii) for a participating institution that is not a hospital and not a health care facility made ineligible under subsection (B)(1)(c) shall be multiplied by the percentage derived under subsection (B)(4)(c)(i) for the program's sponsoring institution or, if the sponsoring institution is not a hospital, the sponsoring institution's affiliated hospital. The number of allocated eligible residents determined under subsection (B)(4)(b)(ii) for a participating institution that is made ineligible under subsection (B)(1)(c) shall be multiplied by zero percent.
- d. The total allocation for each approved program shall be determined by multiplying the Medicaid-adjusted eligible residents determined under subsection (B)(4)(c)(ii) by the per resident conversion factor determined below and totaling the resulting dollar amounts for all participating institutions in the program. The per resident conversion factor shall be determined as follows:
  - i. Calculate the total direct GME costs from the most recent Medicare Cost Reports on file with the Administration for all hospitals that have reported such costs.
  - ii. Calculate the total allocated residents determined under subsection (B)(4)(b)(i) for those hospitals described under subsection (B)(4)(d)(i).
  - iii. Divide the total GME costs calculated under subsection (B)(4)(d)(i) by the total allocated residents calculated under subsection (B)(4)(d)(ii).
5. Distribution of expansion funds. On an annual basis subject to available funds, the Administration shall distribute the allocated amounts determined under subsection (B)(4) in the following manner:
  - a. The allocated amounts shall be distributed in the following order of priority:
    - i. To eligible hospitals that do not receive funding in accordance with A.R.S. § 36-2903.01(H)(9)(a) for the direct costs of programs established before July 1, 2006;
    - ii. To eligible hospitals that receive funding in accordance with A.R.S. § 36-2903.01(H)(9)(a) for the direct costs of programs established before July 1, 2006;
  - b. The allocated amounts shall be distributed to the eligible hospitals in each approved program in proportion to the number of Medicaid-adjusted eligible residents allocated to each hospital within that program under subsection (B)(4)(c)(ii).
  - c. If funds are insufficient to cover all distributions within any priority group described under subsection (B)(5)(a), the Administration shall adjust the distributions proportionally within that priority group.
- C. Subject to available funds and approval by CMS, the Administration shall annually distribute monies appropriated for the expansions of GME programs approved by the Administration to hospitals for direct program costs eligible for funding under A.R.S. § 36-2903.01(H)(9)(c)(i). A GME program is deemed to be established as of the date of its original accreditation. All determinations that are necessary to make distributions described by this subsection shall be made using information possessed by the Administration as of the date of reporting under subsection (C)(3).
  1. Eligible health care facilities. A health care facility is eligible for distributions under subsection (C) if it meets all the conditions of subsections (B)(1)(a) through (c).
  2. Eligible resident positions. For purposes of determining program allocation amounts under subsection (C)(4), the following resident positions are eligible for consideration to the extent that the resident training takes place in Arizona and not at a health care facility made ineligible under subsection (B)(1)(c):
    - a. All filled resident positions in approved programs established on or after July 1, 2006; and
    - b. For approved programs established on or after July 1, 2006 that have been established for less than one year as of the date of reporting under subsection (C)(3) and have not yet filled their first-year resident positions, all prospective residents reasonably expected by the program to be enrolled as a result of the most recently completed annual resident match.
  3. Annual reporting. By April 1st of each year, each GME program and each hospital seeking a distribution under subsection (C) shall provide to the Administration:
    - a. A GME program shall provide all of the following:
      - i. The requirements of subsections (B)(3)(a)(i) through (iv);
      - ii. The academic year rotation schedule on file with the program current as of the date of reporting; and
      - iii. For programs described under subsection (C)(2)(b), the number of residents expected to

- be enrolled as a result of the most recently completed annual resident match.
- b. A hospital seeking a distribution under subsection (C) shall provide the requirements of subsection (B)(3)(b).
4. Allocation of expansion funds. Annually the Administration shall allocate available funds to approved GME programs in the following manner:
    - a. Information provided by hospitals in accordance with subsection (B)(3)(b) shall be used to determine the program in which each eligible resident is enrolled and the number of days that each eligible resident worked in any area of the hospital complex or in a non-hospital setting under agreement with the reporting hospital during the period of assignment to that hospital. For this purpose, the Administration shall use data relating to the most recent 12-month period that is common to all information provided in accordance with subsections (B)(3)(b)(i) and (ii).
    - b. For approved programs whose resident activity is not represented in the information provided in accordance with subsection (B)(3)(b), information provided by GME programs under subsection (C)(3)(a) shall be used to determine the number of days that each eligible resident is expected to work at each participating institution.
    - c. The number of eligible residents allocated to each participating institution for each approved GME program shall be determined by totaling the number of days determined under subsections (C)(4)(a) and (b) and dividing the totals by 365.
    - d. The number of allocated residents determined under subsection (C)(4)(c) shall be adjusted for Arizona Medicaid utilization in accordance with subsection (B)(4)(c).
    - e. The total allocation for each approved program shall be determined in accordance with subsection (B)(4)(d).
  5. Distribution of expansion funds. On an annual basis subject to available funds, the Administration shall distribute the allocated amounts determined under subsection (C)(4) to the eligible hospitals in each approved program in proportion to the number of Medicaid-adjusted eligible residents allocated to each within that program under subsection (C)(4)(d).
- D.** Subject to available funds and approval by CMS, the Administration shall annually distribute monies appropriated for GME programs approved by the Administration to hospitals for indirect program costs eligible for funding under A.R.S. § 36-2903.01(H)(9)(c)(ii). A GME program is deemed to be established as of the date of its original accreditation. All determinations that are necessary to make distributions described by this subsection shall be made using information possessed by the Administration as of the date of reporting under subsection (D)(3).
1. Eligible health care facilities. A health care facility is eligible for distributions under subsection (D) if all of the following apply:
    - a. It is a hospital in Arizona that is the sponsoring institution of one or more of the GME programs in Arizona or the base hospital for one or more of the GME programs in Arizona whose sponsoring institutions are not hospitals;
    - b. It incurs indirect program costs for the training of residents in the GME programs;
    - c. It is not administered by or does not receive its primary funding from an agency of the federal government.
  2. Eligible resident positions. For purposes of determining program allocation amounts under subsection (D)(4) the following resident positions are eligible for consideration to the extent that the resident training takes place in Arizona and not at a health care facility made ineligible under subsection (D)(1)(c):
    - a. Any filled resident position in an approved program that includes a rotation of at least one month per year in a county other than Maricopa or Pima whose population was less than 500,000 persons at the time the residency rotation was added to the academic year rotation schedule;
    - b. For approved programs that have been established for less than one year as of the date of reporting under subsection (D)(3) and have not yet filled their first-year resident positions, all prospective residents reasonably expected by the program to be enrolled as a result of the most recently completed annual resident match who will perform rotations of at least one month per year in a county other than Maricopa or Pima whose population was less than 500,000 persons at the time the residency rotation was added to the academic year rotation schedule.
  3. Annual reporting. By April 1st of each year, each GME program and each hospital seeking a distribution under subsection (D) shall provide to the Administration:
    - a. A GME program shall provide all of the following:
      - i. The requirements of subsections (B)(3)(a)(i) through (iv);
      - ii. The academic year rotation schedule on file with the program current as of the date of reporting;
      - iii. For programs described under subsection (D)(2)(c), the number of residents expected to be enrolled as a result of the most recently completed annual resident match.
    - b. A hospital seeking a distribution under subsection (D) shall provide the requirements of subsection (B)(3)(b)(iii).
  4. Allocation of funds for indirect program costs. Annually the Administration shall allocate available funds to approved GME programs in the following manner:
    - a. Using the information provided by programs under subsection (D)(3), the Administration shall determine for each program the number of residents in the program who are eligible under subsection (D)(2) and the number of months per year that each eligible resident will perform rotations in counties described by subsection (D)(2), multiply the number of eligible residents by the number of months and multiply the result by the per resident per month conversion factor determined under subsection (D)(4)(b).
    - b. Using the most recent Medicare Cost Reports on file with the Administration for all hospitals that have calculated a Medicare indirect medical education payment, the Administration shall determine a per resident per month conversion factor as follows:
      - i. Calculate each hospital's Medicaid share by dividing the AHCCCS inpatient hospital days of care by the total inpatient hospital days from the Medicare Cost Report. For this purpose, the Administration shall use the information

- described by subsection (B)(4)(c) for adjusting allocated residents for Arizona Medicaid utilization.
- ii. Calculate each hospital's Medicare share by dividing the Medicare inpatient days on the Medicare Cost Report by the total inpatient hospital days on the Medicare Cost Report.
  - iii. Divide the Medicaid share by the Medicare share and multiply the resulting ratio by the indirect medical education payment calculated on the Medicare Cost Report.
  - iv. Total the results for all hospitals, divide the result by the total allocated residents determined under subsection (B)(4)(b)(i) for these hospitals, and divide that result by 12.
5. Distribution of funds for indirect program costs. On an annual basis subject to available funds, the Administration shall distribute the allocated amounts determined under subsection (D)(4) to the program's sponsoring hospital or the program's base hospital if the sponsoring institution is not a hospital, up to but not exceeding:
    - a. The amount calculated for the hospital at subsection (D)(4)(b)(iii), or
    - b. The median of all amounts calculated at subsection (D)(4)(b)(iii) if no amount was calculated for the hospital.
- E.** Reallocation of funds. If funds appropriated for subsection (B) are not allocated by the Administration and funds appropriated for subsections (C) and (D) are insufficient to cover all distributions under subsections (C)(5) and (D)(5), the funds not allocated under subsection (B) shall be allocated under subsections (C) and (D) to the extent of the calculated distributions. If funds are insufficient to cover all distributions under subsections (C)(5) and (D)(5), the Administration shall adjust the distributions proportionally. If funds appropriated for subsections (C) and (D) are not allocated by the Administration and funds appropriated for subsection (B) are insufficient to cover all distributions under subsection (B)(5), the funds not allocated under subsections (C) and (D) shall be allocated under subsection (B) to the extent of the calculated distributions.
- F.** The Administration may enter into intergovernmental agreements with local, county, and tribal governments wherein local, county and tribal governments may transfer funds or certify public expenditures to the Administration. Such funds or certification, subject to approval by CMS, will be used to qualify for additional federal funds. Those funds will be used for the purposes of reimbursing hospitals specified by the local, county, or tribal government for indirect program costs other than those reimbursed under subsection (D). Funds transferred and available under this subsection shall be distributed in accordance with subsection (D) except that reimbursement with such funds is not limited to resident positions or rotations in counties with populations of less than 500,000 persons.

- R9-22-712.07. Rural Hospital Inpatient Fund Allocation**
- A.** For purposes of this Section, the following words and phrases have the following meanings unless the context specifically requires another meaning:
1. "Calculated inpatient costs" means the sum of inpatient covered charges multiplied by the Milliman study's implied cost-to-charge ratio of .8959.
  2. "Claims paid amount" means the sum of all claims paid by the Administration and contractors, as reported by the contractor to the Administration, to a rural hospital for covered inpatient services rendered during the previous state fiscal year.
  3. "Fund" means any state funds appropriated by the Legislature for the purposes set forth in A.R.S. § 36-2905.02 and any federal funds that are available for matching the state funds.
  4. "Inpatient covered charges" means the sum of all covered charges billed by a hospital to the Administration or contractors, as reported by the contractors to the Administration, for inpatient services rendered during the previous state fiscal year.
  5. "Milliman study" means the report issued by Milliman USA on March 11, 2004, to the Arizona Hospital and Healthcare Association that updated a portion of a cost study entitled "Evaluation of the AHCCCS Inpatient Hospital Reimbursement System" prepared by Milliman USA for AHCCCS on November 15, 2002. A copy of each report is on file with the Administration.
  6. "Rural hospital" means a health care institution that is licensed as a hospital by the Arizona Department of Health Services for the previous state fiscal year and is not a hospital operated by IHS or a special hospital that limits the care provided to rehabilitation service and:
    - a. Has 100 or fewer beds and is located in a county with a population of less than 500,000 persons, or
    - b. Is designated as a critical access hospital for the majority of the previous state fiscal year.
  7. "Total inpatient payments" means the sum of:
    - a. The claims paid amount,
    - b. Any disproportionate share hospital payments for the previous fiscal year, and
    - c. The inpatient component of any Critical Access Hospital payments made to the hospital for the previous state fiscal year.
- B.** Each February, the Administration shall allocate the Fund to the following three pools for the fiscal year:
1. Rural hospitals with fewer than 26 PPS beds and all Critical Access Hospitals, regardless of the number of beds in the Critical Access Hospital;
  2. Rural hospitals other than Critical Access Hospitals with 26 to 75 PPS beds; and
  3. Rural hospitals other than Critical Access Hospitals with 76 to 100 PPS beds.
- C.** The Administration shall allocate the Fund to each pool according to the ratio of total inpatient payments to all hospitals assigned to the pool to total inpatient payments to all rural hospitals.
- D.** The Administration shall determine each hospital's claims paid amount and allocate the funds in each pool to each hospital in the pool based on the ratio of each hospital's claims paid amount to the sum of the claims paid amount for all hospitals assigned to the pool.
- E.** The Administration shall not make a Fund payment to a hospital that will result in the hospital's total inpatient payments plus that hospital's Fund payment being greater than that hospital's calculated inpatient costs.
1. If a hospital's total inpatient payments plus the hospital's Fund payment would be greater than the hospital's calculated inpatient costs, the Administration shall make a Fund payment to the hospital equal to the difference

between the hospital's calculated inpatient costs and the hospital's total inpatient payments.

2. The Administration shall reallocate any portion of a hospital's Fund allocation that is not paid to the hospital due to the reason in subsection (E)(1) to the other eligible hospitals in the pool based upon the ratio of the claims paid amount for each hospital remaining in the pool to the sum of the claims paid amount for each hospital remaining in the pool.

- F. If funds remain in a pool after allocations to each hospital in the pool under subsections (D) and (E), the Administration

shall reallocate the remaining funds to the other pools based upon the ratio of each pool's original allocation of the Fund as determined under subsection (C) to the sum of the remaining pools' original Fund allocations under subsection (C). The Administration shall allocate remaining funds to the hospitals in the remaining pools under subsection (D) and (E). See Exhibit 1 for an example.

- G. Subject to CMS approval of the method and distribution of the Fund, the administration or its contractors will distribute the Fund as a lump sum allocation to the rural hospitals in either one or two installments by the end of each state fiscal year.

#### Exhibit 1. Pool Example

Pool A receives \$2,000,000. Pool B receives \$7,000,000. Pool C receives \$3,000,000.

If all of the funds in Pool B are paid to eligible hospitals and there is \$1,000,000 remaining, the remaining funds would be allocated to Pool A and Pool C based on the ratio of each pool's original allocation (original allocations of \$2,000,000 and \$3,000,000) to the total of their original allocation (\$2,000,000 + \$3,000,000 = \$5,000,000).

Pool A would receive 2/5 of the remaining funds (\$400,000) and Pool C would receive 3/5 of the remaining funds (\$600,000).

A. To establish the AHCCCS Outpatient Capped Fee-for-service Schedule for all claims with a begin date of service on or before September 30, 2011, AHCCCS shall:

1. Define the dataset of claims and encounters that shall be used to establish the AHCCCS Outpatient Capped Fee-for-service Schedule.
2. Identify all the claims and encounters from non-IHS acute hospitals located in Arizona for services to be paid under the AHCCCS Outpatient Capped Fee-for-service Schedule.
3. Match the revenue code on each detail of each claim and encounter to the ancillary line item CCR as reported on hospital-specific mapping documents and hospital-specific Medicare Cost Report for those hospitals that have submitted Medicare Cost Reports FYE 2002.
4. Multiply the line item CCR from subsection (A)(3) by the covered billed charge for that revenue code to establish the cost for the service.
5. Inflate the cost for the service from subsection (A)(4) using Global Insight Health-care Cost Review inflation factors from date of service month to the midpoint of the rate year in which the fees are initially effective.
6. Include associated costs under R9-22-712.25 to calculate the rates for emergency room and surgery services.
7. Combine data from all Arizona hospitals identified in subsection (A)(3) for each procedure code to establish the statewide median cost for each procedure.
8. Group procedure codes according to the Ambulatory Payment Classification (APC) System groups as listed in 69 FR 65682, November 15, 2004, and establish a statewide median cost for each APC. Multiply each statewide median APC cost by 116 percent to establish the AHCCCS-based fee for each procedure in that specific APC group. AHCCCS shall assign each procedure in the group the same fee.
9. For those procedure codes that are not grouped into any APC, establish a procedure-specific fee using either:
  - a. The AHCCCS Non-hospital Capped Fee-for-service Fee Schedule,
  - b. 116 percent of the procedure-specific median cost AHCCCS-based fee, or

c. The Medicare Clinical Laboratory Fee Schedule for laboratory services.

10. Compare the AHCCCS-based fee established in subsections (A)(8) and (9) against the comparable Medicare fee established for the Medicare APC group as listed in the 69 FR 65682, November 15, 2004. The fee for each procedure shall be the greater of the AHCCCS-based fee or the Medicare fee but no more than 150 percent of the AHCCCS-based fee; however, for those laboratory services for which a limit is established in the Medicare Clinical Laboratory Fee Schedule, the fee shall not exceed that limit.
  11. Assign the 2005 Medicare fee in the AHCCCS Outpatient Capped Fee-for-service Schedule for those procedures for which there are fewer than 20 occurrences of the procedure code in the dataset, either independently, or, if applicable, for all procedure codes within an APC Group.
- B. For all claims with a begin date of service on or after October 1, 2011, the AHCCCS Outpatient Capped Fee-for-service Schedule shall be derived from the CMS Medicare Outpatient Prospective Payment System (OPPS) fee schedule modified by an Arizona conversion factor determined annually.
1. When clinic services are billed using 51X revenue codes, the reimbursement to the hospital is the difference between the facility and non-facility rates payable to the practitioner for the procedures listed in the Administration's Capped Fee-for-service Schedule under R9-22-710.
  2. Observation services, when not billed in conjunction with a service for which a single payment is made under R9-22-712.25, are reimbursed at an hourly rate published in the Outpatient Capped Fee-for-service Schedule. This hourly rate includes reimbursement for associated services.
- C. The AHCCCS Outpatient Capped Fee-for-service Schedule including the effective date of any changes to the listing are on file and posted on AHCCCS' web site.

- B. Payment made under subsection (A) or R9-22-712.20(B)(2) is inclusive of all services on the claim regardless of whether the services are provided on one or more days.

- A. AHCCCS shall calculate a statewide CCR for a service where a specific fee cannot be determined under R9-22-712.20.
- B. For claims with a begin date of service on or before September 30, 2011, the statewide CCR shall be calculated based on the costs and covered charges associated with a service under subsection (A) for all Arizona hospitals, using the method specified in R9-22-712.20(A)(3).
- C. For all claims with a begin date of service on or after October 1, 2011, the statewide CCR calculation shall equal either the CMS Medicare Outpatient Urban Cost-to-charge Ratio or the CMS Medicare Outpatient Rural Cost-to-charge Ratio published by CMS for the state of Arizona. AHCCCS shall use the urban cost-to-charge ratio for hospitals located in a county of 500,000 residents or more and for out-of-state hospitals. AHCCCS shall use the rural cost-to-charge ratio for hospitals located in a county of fewer than 500,000 residents. On October 1st of each year, AHCCCS shall adjust urban and rural CCRs to the CCRs as published by CMS in the *Federal Register* on or before August 1st of that year.
- D. To determine the payment amount for procedures where a specific fee is not determined under R9-22-712.20, the statewide CCR is multiplied by the covered charges.

- A. Procedure codes. When procedure codes are issued by CMS and added to the Current Procedural Terminology published by the American Medical Association, AHCCCS shall add to the Outpatient Capped Fee-for-service Schedule the new procedure codes for covered outpatient services and shall either assign the default CCR under R9-22-712.40(F)(2), the Medicare rate, or calculate an appropriate fee.

If AHCCCS determines that utilization of a procedure code within the Medicare program is substantially different from utilization of the procedure code in the AHCCCS program, AHCCCS may choose not to assign the procedure code to any APC group. For procedure codes not grouped into an APC by Medicare, AHCCCS may assign the code to an APC group when AHCCCS determines that the cost and resources associated with the non-assigned code are substantially similar to those in the APC group.

  1. For begin dates of service on or before September 30, 2011, the statewide CCR calculated in R9-22-712.30 shall be recalculated at the time of rebasing. When rebasing, AHCCCS may recalculate the statewide CCR based on the costs and charges for services excluded from the outpatient hospital fee schedule.
  2. For begin dates of service on or after October 1, 2011, the statewide CCR shall be set under R9-22-712.30(C).

- C.** Income period. The income period is the month of application and the next two months. The Department shall add together the three months' income to establish the MED family unit's income amount.

  - 2. Jointly owned resources with ownership records containing the word "or" between the owners' names are presumed to be available in full to each owner. The applicant or member may rebut the presumption by providing clear and convincing evidence of intent to establish a different type of ownership. If the presumption is rebutted, the resource is available to the owners:
    - a. Consistent with the intent of the owners, or
    - b. Based on each owner's proportionate net contribution if there is not clear and convincing evidence of a different allocation.
  - 3. The Department shall establish availability of a trust under 42 U.S.C. 1396p(d)(4)(A) or (C).
- C. Unavailability. The Department shall consider the following resources unavailable:

    - c. Clothing, or
    - d. Shelter.
- D. Resource exclusion. The Department shall exclude the following resources from the calculation of resources under subsection (E):

- 6. The value of a vehicle in which a SSI-cash recipient has an ownership interest; and
- 7. The value of any vehicle used for medical treatment, employment, or transportation of a SSI-cash disabled child, and that is excluded by SSI for that reason.
- 8. Funds set aside in an Individual Development Account under 6 A.A.C. 12, Article 4; and
- 9. Any other resource specifically excluded by federal law.
- E. Calculation of resources. The Department shall determine the value of all household resources as follows:
  - 1. Calculate the total amount of countable liquid resources;
  - 2. Calculate the equity value of each countable non-liquid resource. The Department shall determine the equity value of a countable non-liquid resource by subtracting the amount of valid encumbrances on that resource from:
    - a. The market value of real property if there is no assessor's evaluation of the property,
    - b. The market value of real property if the assessor's value of the real property does not include the value of permanent structures on that property,
    - c. The assessor's full cash value if subsections (E)(2)(a) and (E)(2)(b) do not apply, and
    - d. The market value of a non-liquid resource that is not real property;
  - 3. Not assign an equity value to a resource that is less than zero; and
  - 4. Determine the MED family unit's resources by adding the totals determined in subsections (1) and (2).
- F. Resource standard to be eligible for MED. A person is not eligible for MED if the resources determined in subsection (E) exceed \$100,000 or if more than \$5,000 are liquid resources.

- B.** Exceptions.

  - 2. For a person living with a spouse, the Administration calculates net income for an eligible couple under 42 CFR 416.1160 as of June 15, 1999, which is incorporated by reference and on file with the Administration, and available from the U.S. Government Printing Office, Mail Stop: IDCC, 732 N. Capitol Street, NW, Washington, DC, 20401. This incorporation by reference contains no future editions or amendments, even if the spouse is not eligible for or applying for SSI or coverage under this Article.
  - 3. In determining the net income of a married couple living with a child or the net income of a person who is not living with a spouse but living with a child, a child allocation is allowed as a deduction from the combined net income of the couple for each child regardless of whether the child is ineligible or eligible. For the purposes of this Section, a child means a person who is unmarried, natural or adopted, and under age 18 or under age 22 if a full-time student. Each child's allocation deduction is reduced by that child's income, including public income maintenance payments, using the methodology under 20 CFR 416.1163(b)(1) and (2) as of June 15, 1999, which is incorporated by reference and on file with the Administration, and available from the U.S. Government Printing Office, Mail Stop: IDCC, 732 N. The child's allocation is reduced by that child's income, including public income maintenance payments.
  - 5. In determining the income of a person who receives an annual Title II Cost of Living Allowance (COLA) increase, the COLA amount is disregarded for the months of January through March, but is countable income effective in April to correspond with the FPL implementation date.
  - 6. Sponsor deemed income. The Administration shall use income of a USCIS sponsor to determine eligibility for a

non-citizen applicant under R9-22-1425, whether or not the income is available, unless exempt under R9-22-1426.

**R9-22-1702. Enrollment of a Member with an AHCCCS Contractor**

**A.** General enrollment requirements. The Administration shall enroll a member with a contractor as described in this Section, unless the member has pre-selected a contractor on the application:

1. Except as provided in subsections (A)(3), (A)(5), and (C), a member who is determined to be eligible under this Chapter and resides in an area served by more than one contractor, may choose an available contractor serving the member’s GSA within 30 days from the date of notice of enrollment. A Native American member may select IHS or another available contractor.
2. If the member does not make a choice under subsection (A)(1), the Administration shall immediately auto-assign the member to:
  - a. IHS if the member is a Native American living on a reservation,
  - b. A contractor based on family continuity, or
  - c. A contractor by using the auto-assignment algorithm.
3. If the member’s period of ineligibility and disenrollment from the contractor of record is for a period of less than 90 days, the Administration shall enroll the member with the member’s most recent contractor of record, if available, except if:
  - a. The member no longer resides in the contractor’s GSA;
  - b. The contractor’s contract is suspended or terminated;
  - c. The member was previously enrolled with CMDP but at the time of re-enrollment the member is not a foster care child;

- d. The member chooses another contractor or chooses IHS, if available to the member, during the annual enrollment choice period; or
  - e. The member was previously enrolled with a contractor but at the time of re-enrollment the member is a foster care child.
- 4. When the member's disenrollment period is more than 90 days, the member may select a contractor as described in subsection (A)(1).
- 5. The Administration shall not enroll a member with a contractor if a member:
  - a. Is eligible for the FESP under R9-22-1419;
  - b. Is eligible for less than 30 days from the date the Administration receives notification of a member's eligibility, except for a member who is enrolled with CMDP or IHS;
  - c. Is eligible only for a retroactive period of eligibility, except for a member who is enrolled with CMDP or IHS; or
  - d. Resides in an area not served by a contractor.

  - 2. The Administration shall approve a change in enrollment for any member if the change is a result of the final outcome of a grievance under 9 A.A.C. 34.
  - 3. A member may choose a different contractor if the member moves into a GSA not served by the current contractor or if the contractor is no longer available. If the member does not select a contractor, the Administration shall auto-assign the member as provided in subsection (A)(2).
  - 4. The Administration shall provide the member 60-day advance notice of the member's option to change plans by the member's annual enrollment date.
  - 5. A member may disenroll from a plan if:
    - a. The member moves out of the GSA;
    - b. The plan does not, because of moral or religious objections, cover the service a member seeks; or
    - c. The member needs related services to be performed at the same time; not all related services are available within the network; and the member's primary care provider or another provider determines that receiving the services separately would subject the member to unnecessary risk.

  - 1. A climate control system to prevent temperature extremes that would adversely affect patient care;
  - 2. If a fixed-wing air ambulance, pressurization capability;
  - 3. Interior lighting that allows for patient care and monitoring without interfering with the pilot's vision;

  - 5. A back-up source of electrical power or batteries capable of operating all electrically powered life-support equipment for at least one hour;
  - 6. An entry that allows for patient loading and unloading without rotating a patient and stretcher more than 30 degrees about the longitudinal axis or 45 degrees about the lateral axis and without compromising the operation of monitoring systems, intravenous lines, or manual or mechanical ventilation;
  - 7. A configuration that allows each medical team member sufficient access to each patient to begin and maintain treatment modalities, including complete access to the patient's head and upper body for effective airway management;
  - 8. A configuration that allows for rapid exit of personnel and patients, without obstruction from stretchers and medical equipment;
  - 9. A configuration that protects the aircraft's flight controls, throttles, and communications equipment from any inten-

- tional or accidental interference from a patient or equipment and supplies;
10. A padded interior or an interior that is clear of objects or projections in the head strike envelope;
  11. An installed self-activating emergency locator transmitter;
  12. A voice communications system that:
    - a. Is capable of air-to-ground communication, and

- C.** A certificate holder may conduct an interfacility critical care mission using an air ambulance that does not have all of the equipment and supplies required in Table 1 for the mission level if:
1. Care of the patient to be transported necessitates use of life-support equipment that because of its size or weight or both makes it unsafe or impossible for the air ambulance to carry all of the equipment and supplies required in Table 1 for the mission level, as determined by the certificate holder based upon:
