#### **R2-8-104. Definitions**

- A.** Proprietary functions: Services performed in a single proprietary function for a political subdivision are those services normally carried on by private enterprises. These include, but are not limited to, municipal water departments, municipal transportation departments, municipal housing and airport authorities. For other political subdivisions such as school districts, these functions include cafeteria workers and bookstore employees. School district bus drivers engaged in transporting students without charge are not engaged in a proprietary function. Hospitals operated for the care of the indigent sick by political subdivisions constitute a governmental function, and the employees in such a hospital, therefore, are not performing services in proprietary functions.
- B.** Who are employees:
  - 1. Every individual is an employee if the political subdivision for which he performs services has the right to control and direct him not only as to what shall be done but how it shall be done. It is not necessary that the political subdivision actually control or direct the manner in which the services are performed; it is sufficient if the subdivision has the right to do so. The right to discharge strongly implies the right to control.
  - 2. Officers of a political subdivision are its employees. So are any individuals performing services under contract in the exercise of a governmental function. Individuals such as physicians, dentists, and lawyers, engaged in an independent profession in which they offer their services to the public, are employees if their services include the exercise of a governmental function. If not, they may or may not be employees depending upon the degree to which they are subject to control by the political subdivision.
  - 3. Whether the individual is an employee depends upon the actual facts of his relationship with the political subdivision. A juror is not an employee since he is not a public officer and is not subject to control as to how he votes on a verdict. A physician who contracts with a county Board of Supervisors to furnish medical services to the indigent sick is an employee when the duty of caring for indigent sick is by law placed in the Board.
- C.** Mandatory exclusion: Prior to the 1967 Social Security Amendments, the state had the option of excluding emergency services. Beginning January 1, 1968, services performed by an individual as an employee serving on a temporary basis in case of fire, storm, snow, earthquake, flood, or other similar emergency are mandatorily excluded. This mandatory exclusion is applicable to services for groups already covered as well as to services for groups which may be covered in the future.
- D.** Elective positions: Elective positions as used in agreements excluding such positions from coverage means those positions filled by a vote of a legislative body, a board or committee, or by the qualified electorate at large for the subdivision or instrumentality covered by the agreement, which would constitute an election under the law of Arizona.
- E.** Class or classes of part-time positions: Services performed in a position which does not require more than 150 hours of service in a calendar quarter are services in a part-time position. If a position is established during a calendar quarter and if such position would require more than 150 hours of service if it had been in existence for the entire quarter, such position would not be a part-time position and services in such a position would not be excluded under the state's definition. The time requirements of the position itself, and not the number of hours worked by an individual, is the determinative factor. For example, an individual may be employed and compensated for only a few hours in only one day of a calendar quarter and such individual may be subject to coverage if the position is one which requires more than 150 hours of service.
- F.** Class or classes of positions the compensation for which is on a fee basis:
  - 1. Compensation is considered to be on a salary basis when the payments are made at regular and fixed intervals based on services for definite and regular periods of time; and on a fee basis when made for particular services rendered at irregular and uncertain periods. Persons performing personal services of a governmental nature for a political subdivision are employees regardless of whether compensation is on a salary or fee basis. The services of such a person may be excluded, however, if compensated on a fee rather than a salary basis and the agreement between the Arizona State Retirement System Board and the subdivision excludes positions on a fee basis.
  - 2. Individuals performing governmental services in the practice of their profession, such as doctors or lawyers, may be on either a fee or salary basis depending on the nature of their contract of employment with the political subdivision. For example, a city attorney working full time for a regular monthly salary is not on a fee basis. An attorney employed by the city for special services to be rendered at irregular and uncertain periods for a fixed amount (even though weekly, monthly or other partial advances may be made) is compensated on a fee basis. When, as with some justices of the peace or tax collectors, the compensation is derived in part from fees and part from salary, the position is to be considered as on a fee basis if fees constitute the primary source of compensation. The fees may be received from either the public or the political subdivision. If the fee-basis exclusion is taken and if the position is a fee-basis position, all fees and salary received for services in such a position are not to be reported. If the exclusion is not exercised, all fees received, whether from the political subdivision or other sources, are to be reported.
  - 3. Beginning January 1, 1968, services performed by state and local employees in positions compensated solely by fees, which are not covered under an agreement, are compulsorily covered as self-employment. However, an individual occupying such a fee-basis position in 1968 could elect not to have his fees covered as self-employment income, if he filed a certificate of election of exemption with the Internal Revenue Service on or before the due date of his 1968 federal income tax return.
  - 4. An entity may modify its agreement to extend coverage to services performed after 1967 in any class or classes of positions compensated solely by fees not covered under an agreement prior to 1968. However, the entity must specifically include such services where this coverage is desired. Such coverage shall be effective with respect to services in such fee-basis positions performed beginning with the first day of the year after the year in which the agreement is approved.
  - 5. An entity may at any time after 1967 modify its agreement to exclude services performed in any class or classes of positions compensated solely by fees. Such an

exclusion from coverage is effective the first day of the year following the year in which the agreement is approved. If any class or classes of positions are so excluded, the entity cannot at a later date modify its agreement to again cover the services.

**G. Exclusion by class or classes of positions:**

1. Basic classifications may be made within either elective, part-time, or fee-basis positions according to a class or classes of positions having common characteristics or attributes, and exclusions limited to such classes. A class of positions includes all of the positions in the coverage group which have these common characteristics. Services in one or more classes or combinations of classes may be excluded. Positions may be excluded in one class and covered in another. For example, in a coverage group there may be excluded services in all elective positions or the exclusion could be limited to services in all elective positions except elective judicial positions and except part-time elective positions.
2. Positions in a single organizational unit of the coverage group do not constitute a class of positions. Therefore, while all of the part-time maintenance workers of a county could be excluded under the part-time option, the exclusion could not be limited to all or any class or part-time maintenance workers in the Office of the County Clerk, which is an organizational unit of the county.

**H. Agricultural labor which would be excluded if performed for a private employer:**

1. Under the federal Social Security Act, when the agricultural exclusion has been taken, tests as to services which are excluded should be applied to all reports covering reporting quarters beginning on or after January 1, 1957. Cash remuneration paid to an employee for agricultural services should be reported only if:
  - a. Such remuneration paid the employee during a calendar year (even though part of it was for services performed in a previous calendar year) amounts to \$150 or more; or
  - b. The employee performs agricultural services for the employer on some part of a day on at least 20 days during a calendar year for cash remuneration computed on a time basis, as by the hour, day, or week; in which event the amount of cash remuneration is immaterial in determining if the services are covered.
2. Services performed by individuals lawfully admitted from any foreign country on a temporary basis to perform agricultural labor are excluded.

**I. Student service exclusion: Only those student services which would be mandatorily excluded if performed for a private employer fall within this exclusion. Where this exclusion is taken, the following services are not covered:**

1. Services performed by a student regularly enrolled and attending classes in the employ of his school, college, or university. This means the employing entity and not necessarily the individual institution. The exclusion applies only during periods of regular school attendance. Thus, the exclusion does not apply to work done during summer vacation unless the student is attending a summer session. This is true even though the student was enrolled and regularly attending classes in the school during the previous year and expects to return to school the following year. Services performed on holidays and weekends falling within the academic year when classes are not scheduled, on the other hand, are excluded.

2. Services performed as a student nurse in the employ of a hospital or nurses' training school by an individual who is enrolled and regularly attending classes in a nurses' training school chartered or approved pursuant to state law. It is not necessary that the nurses' training school in which the student nurse is enrolled and attending classes be located within the approving state as long as the school meets the educational standards established by state law for the approval of schools within the state.

**J. Services performed by election officials or election workers if remuneration paid in a calendar quarter is less than \$50:**

1. Prior to the 1967 amendments to the Social Security Act, there was no provision for a specific exclusion of the services of election officials or election workers. The exclusion of such services was possible, however, by exclusion of a class of services for which an exclusion was permitted, i.e., exclusion of election officials and election workers as a class of part-time or fee-basis positions.
2. This optional exclusion of services performed by election officials or election workers is dependent on the amount paid in a calendar quarter for such services, e.g., if the remuneration paid in the third calendar quarter of a year amounts to \$50 or more, the services are covered and must be reported regardless of the fact that the remuneration paid in any other calendar quarter for election officials' or election workers' services amount to \$49.99 or less and is not reportable.
3. These services may continue to be excluded as a class of part-time or fee-basis positions without regard to the amount paid for such services. These services would, of course, be excluded already if a part-time or fee-basis position exclusion in broad enough terms was previously exercised. The purpose of the optional exclusion of services performed by election officials or election workers if remuneration in a calendar quarter is less than \$50 is to permit the exclusion to be taken where one was not previously taken. The effective date of exclusion for these services may not be earlier than the last day of the calendar quarter in which the modification to state's Social Security agreement is mailed to the Secretary of Health and Human Services.
4. On or after January 1, 1978, a political entity can modify its agreement to specifically exclude the services of election officials or election workers if the remuneration paid in a calendar year is less than \$100. A change to \$100 in a year from \$50 in a calendar quarter requires the execution of a new modification. For modification executed after December 31, 1977, the \$100 in a year test must be used.

**K. "Wages" -- (A.R.S. § 38-701(8)) means all remuneration paid to employees whose services are covered under an agreement in a calendar year not in excess of the maximum reportable wages on which social security contributions are due.**

1. Wages include the cash value of remuneration paid to employees other than money, for example, the value of room and board. The valuation of room and board furnished an employee by a political entity shall be computed at the same valuation as computed by the Industrial Commission for payment of workmen's compensation premiums.
2. If, as a part of the employment, it is understood that the employee is entitled to meals and the employer is to furnish them, the value of such meals is wages and should be reported. If there is no understanding (either orally or in writing) that meals will be furnished the employee, but they are in fact provided, the value of the meals would be wages if it is substantial. The value of meals may be con-

sidered as not substantial if it is less than five percent of the cash pay.

3. The employer's report of wages paid for each calendar quarter to the Arizona State Retirement System Board shall include for each employee both the cash wages and the value of room and board as a lump sum for the quarter for which the report is made.
4. The employee tax shall be deducted from the wages paid in accordance with the method of including the value of remuneration paid in any medium other than cash in each pay period or in a single pay period in the calendar quarter.
5. The value of meals and lodging furnished by, or on behalf of an employer to an employee, the employee's spouse, or any of the employee's dependents is not wages for Social Security purposes if:
  - a. The meals or lodging are furnished on the business premises of the employer, and
  - b. The meals or lodging are furnished for the convenience of the employer, and
  - c. The employee is required to accept such lodging as a condition of employment.

#### R2-20-105. Certification for Funding

- A.** After a candidate is certified as a participating candidate, pursuant to A.R.S. § 16-947, in accordance with the procedure set forth in R2-20-104, that candidate may collect qualifying contributions only during the qualifying period.
- B.** A participating candidate must submit to the Secretary of State, a list of names of persons who made qualifying contributions, an application for funding prescribed by the Secretary of State, the minimum number of original reporting slips, and an amount equal to the sum of the qualifying contributions collected pursuant to A.R.S. § 16-950 no later than one week after the end of the qualifying period. Any and all expenses associated with obtaining the qualifying contributions, including credit card processing fees must be paid for from the candidate's early contributions or personal monies. A candidate may develop his or her own three-part reporting slip for qualifying contributions, or one that is photocopied or computer reproduced, if the form substantially complies with the form prescribed by the Commission. The candidate must comply with the Act and ensure that the original qualifying slip is tendered to the Secretary of State, a copy remains with the candidate, and that a copy is given to the contributor.
- C.** A candidate may accept electronic \$5 qualifying contributions up to a maximum of 50 percent of the minimum number required to qualify for funding for the elected office sought by the candidate. The Secretary of State's secured internet portal must be used to collect electronic \$5 qualifying. A \$5 contribution must accompany every \$5 qualifying contribution form and must be submitted via the Secretary of State's portal using a private electronic payment service, specified by the Secretary of State's Office, bank account, credit or debit card. A non-refundable transaction fee may be assessed on electronic \$5 qualifying contribution transactions. The transaction fee is not a contribution to the candidate's campaign and is paid by the contributor. If excess funds are accumulated by the candidate's campaign based on the transaction fee then all excess funds must be given to the Commission and must be entered into the candidate's campaign finance report as interest/dividend/other income in accordance with A.R.S. § 16-915(3)(e).
- D.** A solicitor who seeks signatures and qualifying contributions on behalf of a participating candidate shall provide his or her residential address, typed or printed name and signature on each reporting slip. The solicitor shall also sign a sworn statement on the contribution slip avowing that the contributor signed the slip, that the contributor contributed the \$5, that based on information and belief, the contributor's name and address are correctly stated and that each contributor is a qualified elector of this state. If a contribution is received unsolicited, the candidate or contributor may sign the qualifying contribution form as the solicitor and is accountable for all of the responsibilities of a solicitor. Nothing in this rule shall prohibit the use of direct mail or the internet to obtain qualifying contributions as long as an original signature is provided on the qualifying contribution form. The candidate may sign the qualifying contribution form as the solicitor and is accountable for all of the responsibilities of a solicitor. For qualifying contributions received in accordance with subsection (C) of this Section, the residential address and signature of the solicitor is not required.
- E.** The Secretary of State has the authority to approve or deny a candidate for Clean Elections funding, pursuant to A.R.S. § 16-950(C) based upon the verification of the qualifying contribution forms by the appropriate county recorder. The county recorder shall disqualify any qualifying contribution forms that are:
1. Unsigned by the contributor;
  2. Undated; or
  3. That the recorder is unable to verify as matching signature of a person who is registered to vote, on the date specified inside the electoral district the candidate is seeking.
- F.** The Secretary of State will notify the candidate and the Commission regarding the approval or denial of Clean Elections funds. A candidate who is denied Clean Elections funding after all of the slips are verified is eligible to submit supplemental qualifying contribution forms for one additional opportunity to be approved for funding pursuant to subsection (G) of this rule.
- G.** The amount equal to the sum of the qualifying contributions collected and tendered to the Secretary of State pursuant to A.R.S. § 16-950(B) will be deposited into the fund, and the amount tendered will not be returned to a candidate if a candidate is denied Clean Elections funding.
- H.** In accordance with the procedure set forth at A.R.S. § 16-950(C), if the Secretary of State determines that the result of the five percent random sample is less than 110 percent of the slips needed to qualify for funding, then the Secretary of State shall send all of the slips for verification. If the county recorder has verified all of the candidate's signature slips and there is an insufficient number of valid qualifying contribution slips to qualify the candidate for funding, the candidate may make only one supplemental filing of additional qualifying contribution slips and qualifying contributions to the Secretary of State if all of the following apply:
1. The candidate files at least the minimum number of additional slips needed to qualify for funding;
  2. The slips are not receipts for duplicate contributions from individuals who have previously contributed to that candidate; and
  3. The period for filing qualifying contributions slips has not expired.
- I.** The Secretary of State shall forward facsimiles of all of the supplemental qualifying contribution slips to the appropriate county recorders for the county of the contributors' addresses as shown on the contribution slips. The county recorder shall verify all of the supplemental slips within 10 business days after receipt of the facsimiles and shall provide a report to the Secretary of State identifying as disqualified any slips that are

unsigned by the contributor or undated or that the recorder is unable to verify as matching the signature of a person who is registered to vote, on the date specified on the slip, inside the electoral district of the office the candidate is seeking. On receipt of the report of the county recorder on all supplemental slips, the Secretary of State shall calculate the candidate's total number of valid qualifying contribution slips and shall approve or deny the candidate for funds.

- J.** Pursuant to A.R.S. § 16-956(F), the minimum number of qualifying contributions shall be as follows:
1. Legislature: 250
  2. Mine Inspector: 650
  3. Corporation Commissioner: 1,700
  4. Superintendent of Public Instruction: 1,700

- A.** Before the initial disbursement of funds, the Commission shall review the candidate's funding application and all relevant facts and circumstances and:
1. Verify that the number of signatures on the candidate's nominating petitions equals or exceeds the number required pursuant to A.R.S. § 16-322 as follows:
    - a. If the application is submitted before the March 1 voter registration list is determined, the Commission shall verify that the number of signatures on the candidate's nominating petitions equals or exceeds 115 percent of the number required pursuant to A.R.S. § 16-322 based on the prior election voter registration list as determined by the Secretary of State; or
    - b. If the application is submitted after the current year March 1 voter registration list is determined, the Commission shall verify that the number of signatures on the candidate's nominating petitions is equal to or greater than the number required pursuant to A.R.S. § 16-322.
  2. Determine that the required number of qualifying contributions have been received and paid to the Secretary of State for deposit in the Fund; and
  3. Determine whether the candidate is opposed in the election.
- B.** In making the determinations described in subsection (A)(3), the Commission shall consider all relevant facts and circumstances, and it shall not be bound by election formalities such as the filing of nominating petitions by others in determining whether an applicant is opposed. Among other evidence the Commission may consider is the existence of exploratory committees or filings made to organize campaign committees of opponents and other like indicia.

- C.** The Commission may review and affirm or change its determination that the candidate is or is not opposed until the ballot for the election is established.
- D.** Within seven days after a primary election and before the Secretary of State completes the canvass, the Commission shall disburse funds for general election campaigns to the participating candidates who received the greatest number of votes at each primary election, provided that the candidate with the highest number of votes out of the total number of votes, has at least two percentage points greater than the candidate with the next highest votes based on the unofficial results as of that date. In a legislative race for the Arizona House of Representatives, the Commission shall disburse funds for general election campaigns to participating candidates with the highest or second highest number of votes cast, provided such candidate received votes totaling at least two percentage points, of the total ballots cast, larger than the vote total cast for the candidate with the third highest vote total.
- E.** Promptly after the Secretary of State completes the canvass, the Commission shall disburse funds for general election campaigns to all eligible participating candidates to whom payment has not been made. If a participating candidate has received funds from the Commission pursuant to subsection (D) and the canvass or recount determines that the candidate is not eligible to appear on the general election ballot, the participating candidate shall return all unused funds to the Fund within 10 days after such determination is made. That candidate shall make no expenditures from general election funds from the date of the canvass.
- F.** The Commission may refuse to distribute funds to participating candidates in cases in which the Commission finds evidence of fraud or illegal activity committed by the participating candidate.
- G.** Pursuant to A.R.S. § 16-953(A), a participating candidate shall return to the Fund all of his or her primary election funds not committed to expenditures (1) during the primary election period; and (2) for goods or services directed to the primary election. A candidate shall not be deemed to have violated A.R.S. § 16-953(A) or this subsection on account of failure to use all materials purchased with primary election funds prior to the primary election, provided such candidate exercises good faith and diligent efforts to comply with the requirement that goods and services purchased with primary election funds be directed to the primary election. Subject to A.R.S. § 16-953(A) and this subsection, a candidate may continue to use goods purchased with primary election funds during the general election period.

The candidate shall obtain and furnish to the Commission on request any evidence regarding direct campaign expenses made by the candidate as provided in subsection (A)(2).
  2. All participating candidates shall retain records with respect to each expenditure and receipt, including bank records, vouchers, worksheets, receipts, bills and accounts, journals, ledgers, fundraising solicitation material, accounting systems documentation, and any related materials documenting campaign receipts and disbursements, for a period of three years, and shall present these records to the Commission on request.
  3. All participating candidates shall maintain a list of all fixed assets whose purchase price exceeded \$300 when acquired by the campaign. The list shall include a brief description of each fixed asset, the purchase price, the date it was acquired, the method of disposition and the amount received in disposition.
- B.** Upon written request from a candidate, the Commission shall determine whether a planned campaign expenditure or fundraising activity is permissible under the Act. To make a request, a candidate shall submit a written description of the planned expenditure or activity to the Commission. The Commission shall inform the candidate whether an enforcement action will be necessary if the candidate carries out the planned expenditure or activity. The Commission shall ensure that the candidate can rely on a "no action" letter. A "no action" letter applies only to the candidate who requested it.
- C.** Joint expenditures. Expenditures may be made in conjunction with other candidates, but each candidate shall pay his or her proportionate share of the cost. A candidate's payment for an advertisement, literature, material, campaign event or other

activity shall be considered a joint expenditure including, but not limited to, the following criteria:

#### **R2-20-704. Repayment**

- A.** In general, the Commission may determine that a participating candidate who has received payments from the Fund must repay the Fund as determined by the Commission.
  1. A candidate who has received payments from the Fund shall pay the Fund any amounts that the Commission determines to be repayable. In making repayment determinations, the Commission may utilize information obtained from audits and examinations or otherwise obtained by the Commission in carrying out its responsibilities.
  2. The Commission will notify the candidate of any repayment determinations made under this Section as soon as possible, but not later than one year after the day of the election.
  3. Once the candidate receives notice of the Commission's repayment determination, the candidate should give preference to the repayment over all other outstanding obligations of the candidate, except for any taxes owed by the candidate.
  4. Repayments may be made only from the following sources: personal funds of the candidate, funds in the candidate's accounts, and any additional funds raised subject to the limitations and prohibitions of the Act.
  5. The Commission may withhold the portion of funds required to be repaid from future payments to a participating candidate if the Commission has made a repayment determination.
- B.** The Commission may determine that a participating candidate who has received payments from the Fund must repay the Fund under any of the following circumstances:
  1. Payments in excess of candidate's entitlement. If the Commission determines that any portion of the payments made to the candidate was in excess of the aggregate payments to which such candidate was entitled, it will so notify the candidate, and such candidate shall pay to the Fund an amount equal to such portion.

2. Use of funds not for direct campaign expenses. If the Commission determines that any amount of any payment to an eligible candidate from the Fund was used for purposes other than direct campaign purposes described in R2-20-702, it will notify the candidate of the amount so used, and such candidate shall pay to the Fund an amount equal to such amount.
  3. Expenditures that were not documented in accordance with campaign finance reporting requirements, expended in violation of state or federal law, or used to defray expenses resulting from a violation of state or federal law, such as the payment of fines or penalties.
  4. Surplus. If the Commission determines that a portion of payments from the Fund remains unspent after all direct campaign expenses have been paid, it shall so notify the candidate, and such candidate shall pay the Fund that portion of surplus funds.
  5. Income on investment or other use of payments from the Fund. If the Commission determines that a candidate received any income as a result of an investment or other use of payments from the Fund, it shall so notify the candidate, and such candidate shall pay to the Fund an amount equal to the amount determined to be income, less any federal, state or local taxes on such income.
  6. Unlawful acceptance of contributions by an eligible candidate. If the Commission determines that a participating candidate accepted contributions, other than early contributions or qualifying contributions, it shall notify the candidate of the amount of contributions so accepted, and the candidate shall pay to the Fund an amount equal to such amount, plus any civil penalties assessed.
- C. Repayment determination procedures. The Commission's repayment determination will be made in accordance with the following procedures:
1. Repayment determination. The Commission will send a repayment determination pursuant to Article 2, Compliance and Enforcement Procedures, and will set forth the legal and factual reasons for such determination, as well as the evidence upon which any such determination is based. The candidate shall repay, in accordance with subsection (D), the amount that the Commission has determined to be repayable.
  2. Administrative review of repayment determination. If a candidate disputes the Commission's repayment determination, he or she may request an administrative appeal of the determination in accordance with A.R.S. § 41-1092 et. seq.
- D. Repayment period.
1. Within 30 days of service of the notice of the Commission's repayment determination, the candidate shall repay the amounts the Commission has determined must be repaid. Upon application by the candidate, the Commission may grant an extension of time in which to make repayment.
  2. If the candidate requests an administrative appeal of the Commission's repayment determination of this Section, the time for repayment will be suspended until the Commission has concluded its review of the Administrative Law Judge's (ALJ) decision. Within 30 days after service of the notice of the Commission's review of the ALJ's decision, the candidate shall repay the amounts that the Commission has determined to be repayable. Upon application by the candidate, the Commission may grant an extension of up to 30 days in which to make repayment.
  3. Interest shall be assessed on all repayments made after the initial 30-day repayment period or the 30-day repay-

ment period established by this Section. The amount of interest due shall be the greater of:

- a. An amount calculated in accordance with A.R.S. § 44-1201(A); or
- b. The amount actually earned on the funds set aside or to be repaid under this Section.

#### R2-20-705. Additional Audits or Repayment Determinations

- A. The Commission may conduct an additional audit or examination of any candidate in any case in which the Commission finds reason to believe that a violation of a statute or regulation over which the Commission has jurisdiction has occurred or is about to occur.
- B. The Commission may make additional repayment determinations after it has made an initial repayment determination pursuant to R2-20-704. The Commission may make additional repayment determinations where there exist facts not used as the basis for any previous determination. With the exception of one opening to the slaughtering department, there shall be no openings between an inedible products department and an edible products department. This one opening shall be approximately five feet in width to allow the free passage of materials and shall be equipped with a close-fitting, self-closing door of solid construction. This door shall be kept closed at all times, except when in actual use, to prevent the entrance of undesirable odors to the slaughtering department. The area at the loading dock shall be paved, drained, and of sufficient size to accommodate the largest truck used. If inedible offal is stored in an edible offal room, the room is classed as an inedible products department. Paunches may be opened in the slaughtering department only when a hydraulic mechanically operated paunch lift table is provided and used for this purpose. Otherwise, the paunches shall be opened in the inedible offal rooms.
    - b. Requests for permission for rendering of shop scraps and outside dead animals shall be made to the inspector who shall grant or deny the request pursuant to Article 2.

Water under pressure shall be available for washing out the pens. Feeding pens shall be at least 300 feet from the plant and shall not be located in front of the plant.
    - b. Holding and shackling pens shall be located outside of, or separated from, the slaughtering department.
  10. Drainage
    - a. Floors which require flushing during operations shall have sloped floor drains to carry off the floor drainage. Each floor drain shall be equipped with a deep-seal trap; the drainage lines shall be vented to the outside in accordance with local plumbing codes. In no case shall a drain line be less than four inches in diameter.
    - b. Sewage may be disposed of into a municipal sewer system, if permitted by local ordinance, or it may be disposed of into a stream or other similar body of water, provided that:
      - i. This method is acceptable to local health authorities having jurisdiction over sewage disposal, and
      - ii. The flow of the stream or other body of water is sufficient to carry the sewage away from the plant at all seasons of the year. When cesspools are used, they shall be of sufficient size to receive the sewage from the plant at all times; they shall be so constructed that they do not create a nuisance by breeding flies or other insects.
    - c. Grease recovery basins shall not mask odors or create a harborage for pests.
  11. Equipment and utensils.
    - a. Equipment shall be constructed of metal and shall be so constructed that it can be easily cleaned. Cutting boards may be of hard wood or synthetic material,

- but equipment, such as the framework of boning or cutting tables, scalding vats, offal racks and trees, product storage racks, and product trucks shall be of metal construction. Rusty or worn-out equipment shall be replaced.

The use of a clear, colorless, odorless, tasteless, edible mineral oil may be used on metal equipment, such as choppers, grinders, mixers, tables, meat trucks, offal racks, hooks, and trolleys. Scale shall not be permitted to accumulate on metal equipment.
  - c. Sterilizing receptacles equipped with drains to permit draining and cleaning shall be placed at convenient locations in the slaughtering department for the cleaning and sterilization of contaminated tools and equipment. Water wasting from equipment shall not flow across the floor.
  - d. Shovels used for transferring ice or other edible materials from one container to another shall not touch the floor.
12. Ventilation and lighting. Natural ventilation may be supplemented by artificial means and shall be sufficient to assure the absence of dust, masking odors, or steam vapors. Points where inspection is conducted may require special lighting. The glass area shall be at least 1/4 of the floor area in all nonrefrigerated work rooms. To assure adequate lighting at all times and at all places, natural lighting must be supplemented by well-distributed artificial lighting.
  13. Water supply, wash basins, sterilizing facilities.
    - a. Hot and cold running water, under pressure, shall be available at all parts of the establishment and in conformity with the requirements of the Arizona Department of Health Services. The hot water used for sterilizing equipment, floors, and walls that may be contaminated by the dressing procedure or handling of diseased carcasses, viscera, and other animal parts, shall be at least 180° F. A thermometer shall be installed to verify the temperature of the water at the point of use. A cleanup hose shall be available for use.
    - b. Foot-pedal operated wash basins shall be placed in or near dressing rooms. These wash basins shall be equipped with running hot and cold water, delivered through a combination mixing faucet with an outlet at least 12 inches above the rim of the bowl. The drainage outlet shall lead directly into the sewage lines. Soap and towels, and a receptacle for dirty paper towels or other trash, shall be convenient to the wash basin.
    - c. One or more wash basins shall be located in the slaughtering department, and one or more in the sausage manufacturing room and at any other place in the establishment essential to ensure cleanliness of all persons handling products. The wash basins shall be equipped with hot and cold running water, delivered through a combination mixing faucet with an outlet at least 12 inches above the rim of the bowl. The water delivery shall be foot-pedal operated, and the drainage outlet shall lead directly into the sewage lines. Soap and disposable towels shall be convenient to the wash basins.
    - d. Water for sterilizing purposes shall be maintained at a temperature of at least 180° F. One or more sterilizing receptacles of rust-resisting, impervious material shall be placed at convenient locations in the slaughtering department for the sterilization of all implements that have been contaminated or used on a diseased carcass or part of a diseased carcass. The sterilizer shall be equipped with a cold water and steam line, or other means to maintain water at a temperature of at least 180° F during slaughtering operations. The sterilizer shall contain a drain so that water may be completely drained out for daily cleaning. Boilers and water heaters shall not be located in the slaughtering department or in any edible products department. To prevent possible back siphonage, vacuum breakers shall be provided on all steam and water lines when open ends are submerged or connected to equipment.
  14. Protection against flies, rodents, or other vermin.
    - a. Plants must be kept free of flies, rats, mice, roaches, and other pests or vermin. The plant shall be constructed to prevent entrance of rodents to the premises and to eliminate their breeding places from the surrounding areas and in the establishment. Construction of the plant shall be such as to eliminate roach and other insect harbors. Windows, doors, and other openings to the plant shall be provided with insect screens, or other measures to prevent entrance of flies or other insects. The screens shall be kept in good repair. Sprays containing residual-acting chemicals shall not be used in edible products departments.

The importance of such competency is amplified by the extensive areas involved, the quantities of pesticides needed, and the ultimate use of many commodities as food and feed. Practical knowledge is required concerning soil and water problems, pre-harvest intervals, re-entry intervals, phytotoxicity, and potential for environmental contamination, non-target injury and community problems resulting from the use of restricted use pesticides in agricultural areas.
    - b. Animal. Applicators applying pesticides directly to animals must demonstrate practical knowledge of such animals and their associated pests. A practical knowledge is also required concerning specific pesticide toxicity and residue potential, since host animals will frequently be used for food. Further, the applicator must know the relative hazards associated with such factors as formulation, application techniques, age of animals, stress and extent of treatment.
  2. Forest pest control. Applicators shall demonstrate practical knowledge of types of forests, forest nurseries, and seed production in this state and the pests involved. They shall possess practical knowledge of the cyclic occurrence of certain pests and specific population dynamics as a basis for programming pesticide applications. A practi-

cal knowledge is required of the relative biotic agents and their vulnerability to the pesticides to be applied. Because forest stands may be large and frequently include natural aquatic habitats and harbor wildlife, the consequences of pesticide use may be difficult to assess. The applicator must therefore demonstrate practical knowledge of control methods which will minimize the possibility of secondary problems such as unintended effects on wildlife. Proper use of specialized equipment must be demonstrated, especially as it may relate to meteorological factors and adjacent land use.

3. Seed-treatment. Applicators shall demonstrate practical knowledge of types of seeds that require chemical protection against pests and factors such as seed coloration, carriers, and surface active agents which influence pesticide binding and may affect germination. They must demonstrate practical knowledge of hazards associated with handling, sorting and mixing, and misuse of treated seed such as introduction of treated seed into food and feed channels, as well as proper disposal of unused treated seeds.
4. Aquatic pest control. Applicators shall demonstrate practical knowledge of the secondary effects which can be caused by improper application rates, incorrect formulations, and faulty application of restricted use pesticides used in this category. They shall demonstrate practical knowledge of various water use situations and the potential of downstream effects. Further, they must have practical knowledge concerning potential pesticide effects on plants, fish, birds, beneficial insects and other organisms which may be present in aquatic environments. These applicators shall demonstrate practical knowledge of the principles of limited area application.
5. Right-of-way pest control. Applicators shall demonstrate practical knowledge of a wide variety of environments, since rights-of-way can traverse many different terrains, including waterways. They shall demonstrate practical knowledge of problems on runoff, drift, and excessive foliage destruction and ability to recognize target organisms. They shall also demonstrate practical knowledge of the nature of herbicides and the need for containment of these pesticides within the right-of-way area, and the impact of their application activities in the adjacent areas and communities.
6. Public health pest control. Applicators shall demonstrate practical knowledge of vector-disease transmission as it relates to and influences application programs. A wide variety of pests is involved, and it is essential that they be known and recognized, and appropriate life cycles and habitats be understood as a basis for control strategy. These applicators shall have practical knowledge of a great variety of environments ranging from streams to those conditions found in buildings. They shall also have practical knowledge of the importance and employment of such non-chemical control methods as sanitation, waste disposal, and drainage.
7. Regulatory pest control. Applicators shall demonstrate practical knowledge of regulated pests, applicable laws relating to quarantine and other regulation of pests, and the potential impact on the environment of restricted use pesticides used in suppression and eradication programs. They shall demonstrate knowledge of factors influencing introduction, spread, and population dynamics of relevant pests. Their knowledge shall extend beyond that required by their immediate duties, since their services are frequently required in other areas of the country where

emergency measures are invoked to control regulated pests and where individual judgments must be made in new situations.

8. Demonstration and research pest control. Persons demonstrating the safe and effective use of pesticides to other applicators and the public will be expected to meet comprehensive standards reflecting a broad spectrum of pesticide uses. Many different pest problems situations will be encountered in the course of activities associated with demonstration, and practical knowledge of problems, pests, and population levels occurring in each demonstration situation is required. Further, they shall demonstrate an understanding of a pesticide-organism interaction and the importance of integrating pesticide use with other control methods. In general, it would be expected that applicators doing demonstration pest control work possess a practical knowledge of all of the standards detailed in (G)(1). In addition, they shall meet the specific standards required for subsections (c)(1) through (7) of this subsection as may be applicable to their particular activity.
- C. Private Certification, 40 CFR 171.5(a)(1) through (5).
1. Recognize common pests to be controlled and damage caused by them.
  2. Read and understand the label and labeling information, including the common name of pesticides the applicator applied; pest(s) to be controlled, timing and methods of application; safety precautions; any pre-harvest or re-entry restrictions; and any specific disposal procedures.
  3. Apply pesticides in accordance with label instructions and warnings, including the ability to prepare the proper concentration of pesticide to be used under particular circumstances taking into account such factors as area to be covered, speed at which application equipment will be driven, and the quantity dispersed in a given period of operation.
  4. Recognize local environmental situations that must be considered during application to avoid contamination.
  5. Recognize poisoning symptoms and procedures to follow in case of a pesticide accident.

### ARTICLE 3. PESTICIDE USE, SALES, AND EQUIPMENT

#### R3-3-301. General

- A. A person shall not use, apply, or instruct another to apply a pesticide in a manner or for a use inconsistent with the pesticide labeling except that:
1. A pesticide may be applied at a dosage, concentration, or frequency less than that specified on the pesticide labeling unless the labeling specifically prohibits deviation from the specified dosage, concentration, or frequency.

(3) “Uniform” samples are homogeneous products which can be analyzed by established procedures. In most cases, validated analytical methods are available for these samples.

(4) “Non-uniform” samples are non-homogeneous samples or products which are difficult to sample or subsample. These products may not be uniformly mixed or packaged and include some special formulations like natural products. These types of samples include fertilizer containing pesticides, pesticides in pressurized containers, strips, plastic bands, collars, grain and other carriers. Natural product formulations such as rotenone and pyrethrin are also included in this group. When it is necessary to use methods which are not validated for accuracy, precision, and reproducibility in a specific matrix, the “non-uniform” guidelines may be used for allowed deviations. States may use judgment in placing a sample into the “uniform” or “non-uniform” category.

- B. Nonserious violations. The Assistant Director shall calculate the base penalty for a nonserious violation and determine the civil penalty amount based on the factors prescribed in A.R.S. § 3-3113(I). If there are contributing or mitigating circumstances, the points may be adjusted, provided the adjustment is documented.

#### VIOLATION GRAVITY FACTOR

(1 - lowest; 4 - highest)

VIOLATION	GRAVITY
Central Posting	1 - 2
Training	1 - 4
Decontamination	1 - 4
Personal Protective Equipment	1 - 4
Pesticide Applications and Notice	1 - 4
Pesticide Application Restrictions	2 - 4
Other Requirements	1 - 4

- C. Size-of-business. The Assistant Director shall use:
- The maximum number of employees at any one time during the previous 12 months from the date of notice, including only the Arizona branch offices to determine the size business category; or
  - A site-specific employee count, if the violation does not endanger employees at other locations of the business; or
  - The number of persons trained by a trainer during the previous 12 months that violate the training provisions of this Section.

#### SIZE-OF-BUSINESS

Size Category	Number of Employees or Number of People Trained
I	1-10
II	11-75
III	76-150
IV	More than 150

- D. Base penalty. The Assistant Director shall calculate the base penalty for the alleged violation by using the violation gravity factor established in subsection (B) and applying the size-of-business category established in subsection (C).

#### BASE PENALTY

Gravity Factor	Size Category			
	I	II	III	IV
1	\$250	\$300	\$350	\$400
2	300	350	400	450
3	350	400	450	500
4	500	500	500	500

- E. Combined or group violations. The Assistant Director may combine or group violations.

1. Violations may be combined and assessed one penalty if the violation does not cause any immediate danger to public health or safety or damage to property. Example: Eight workers on a harvest crew have received no training and there is no evidence of exposure. This situation may result in only one training penalty being assessed against the employer.
  2. Violations may be grouped if they have a common element and it is apparent which violation has the highest gravity. The penalty for a grouped violation is assessed on the violation with the highest gravity. The penalty for a grouped violation is assessed pursuant to the appropriate law or rule with the highest gravity. Example: Two crews from the same company are engaged in an improper handling activity and one crew is using a pesticide with a “danger” signal word, (skull and cross bones) while the other crew is using a pesticide with a “warning” signal word. This situation may result in the employer being assessed one penalty based on the penalty for the “danger” (skull and cross bones) violation.
- F. If a decision is not reached in a negotiated settlement, the Director may assess a penalty pursuant to A.R.S. § 3-3114.

#### Historical Note

Adopted effective July 13, 1989 (Supp. 89-3). Section R3-3-1007 renumbered from R3-8-207 (Supp. 91-4).  
Section repealed; new Section adopted effective October 8, 1998 (Supp. 98-4).

#### R3-3-1008. Penalty Adjustments

- A. The Assistant Director shall assign an appropriate number of points for each of the following five factors to increase the base penalty for a serious violation, or increase or decrease the base penalty for a nonserious violation.
1. If the total adjustment points on a nonserious violation is less than 9, the base penalty is reduced; if it is more than 9, the base penalty is increased.
  2. If the total adjustment points on a serious violation is 3 or less, the base penalty shall be imposed; if it is more than 3, the base penalty is increased.
  3. If a violation is a repeated violation, as prescribed in R3-3-1011 for compliance history, a base penalty adjustment factor shall not be used in assessing a penalty.

#### BASE ADJUSTMENT FACTORS

13	Base + 65%	Base + 100%
14	Base + 80%	Base + 100%
15 or more	Base + 100%	Base + 100%

Example: A business employs 26 people in Town A and 14 people in Town B. In addition, 35 seasonal people are employed during the harvest. The total annual employee positions equal 75. The following violations are found during an inspection: (1) No training for 35 seasonal workers on the harvest crew; (2) No available decontamination supplies; (3) No safety poster at the central posting location; (4) No emergency telephone number posted, and no medical facility location posted at the central posting location; (5) No posted pesticide application information at the central posting location.

|--|--|
| (1) Training, 1-4  | 2 points, all 35 workers are combined;   |
| (2) Decontamination, 1-43 points, no supplies were available within the prescribed distance and it has been 25 days since the most recent application; |  |
| (3) - (5) Central Posting, 1-2   | 1 point, since the violations concerns the same factor, they are combined. (There is evidence that the old poster blew away and the pesticide application information is kept available in the secretary's desk, but |

it is not 'readily' available.)

Step 2. Use the *Size of Business* table to determine the size category.

75 employees falls into the size category II;

Step 3. Use the *Base Penalty* table to determine the base penalty. Use column II based on the *Size of Business* determination from step 2.

Violation 1, with a gravity factor of 2, equals a base penalty of \$350;

Violation 2, with a gravity factor of 3, equals a base penalty of \$400;

Violations 3, 4, and 5, with a gravity factor of 1, equals 1 base penalty of \$300.

Step 4. Using the *Base Adjustment Factors* table to calculate the adjustments, if any. In this case, the base adjustments are uniform in all categories except #4, culpability.

Pesticide. It was a indirect relationship because of the timing of the application and when the workers were in the treated area. 1 point.

Harm to Human Health. There was no harm to health and the pesticide had not been applied recently. 1 point.

Compliance History. This farm has no previous violation history. 0 points.

Culpability. The supervisor attended a "train-the-trainer" course two years ago and should have been aware of the requirements of the worker protection standard. Therefore, for the first two violations the supervisor should have known about the requirements. For the last three violations, the central posting sight was not checked frequently enough to ensure compliance. For violations 1 and 2, 4 points for knowing or should have known; For violations 3, 4, and 5, 2 points for negligence.

Good Faith. The inspector came back five days later and the workers were trained the day of the first inspection, the poster was posted and everything was in compliance. Since the employer corrected the violations quickly. -1 point.

Step 5. Add the points for each violation from Step 4.

Violation 1  $1 + 1 + 0 + 4 + -1 = 5$

Violation 2  $1 + 1 + 0 + 4 + -1 = 5$

Violations 3, 4, 5  $1 + 1 + 0 + 2 + -1 = 3$

Step 6. Using the *Final Penalty Calculation* table to determine the appropriate violation penalty adjustment that corresponds with the base adjustment factor point total. Use the definitions for nonserious or serious violations to determine the appropriate violation penalty adjustment column. In this case, use the nonserious penalty adjustment column.

Violation 1 5 points Base - 50% = 350-175 = \$175

Violation 2 5 points Base - 50% = 400-200 = \$200

Violations

3, 4, 5 3 points Base - 80% = 300-240 = \$60

Adjusted Penalty Total \$435

#### Historical Note

Adopted effective July 13, 1989 (Supp. 89-3). Section R3-3-1008 renumbered from R3-8-208 (Supp. 91-4). Section repealed; new Section adopted effective October 8, 1998 (Supp. 98-4).

#### R3-3-1009. Failure to Abate

- A. The Director shall issue a notification of failure-to-abate an alleged violation if a violation has not been corrected as specified on the citation. Failure-to-abate penalties, pursuant to A.R.S. § 3-3113(E), shall be applied if an employer or handler has not corrected a previous cited violation that is a final order of the Director. When determining the appropriate penalty amount, the Director shall take into consideration a good faith effort to abate the violation.
- B. If a person does not file a timely notice of contest within the 30-day contest period, the citation and proposed penalties shall be a final order of the Director.
- C. If a person files a notice of contest pursuant to A.R.S. § 3-3116(A), the period for the abatement shall not begin, as to those violations contested, until the day following the entry of the final order by the Director affirming the citation. If the person contests only the amount of the proposed penalty, the person shall correct the alleged violation within the prescribed abatement period.

#### Historical Note

Adopted effective October 8, 1998 (Supp. 98-4). Section heading corrected at request of the Department, Office File No. M11-60, filed February 23, 2011 (Supp. 09-4).

#### R3-3-1010. Calculation of Additional Penalties For Unabated Violations

- A. The Assistant Director shall calculate a daily penalty for unabated violations if failure to abate a serious or nonserious violation exists at the time of reinspection. That penalty shall not be less than the penalty for the violation when cited, except as provided in subsection (C).
  1. If no penalty was initially proposed, the Assistant Director shall determine a penalty. In no case shall the penalty be more than \$1,000 per day, the maximum allowed by A.R.S. § 3-3113(E).
  2. The daily proposed penalty shall be multiplied by the number of calendar days that the violation has continued unabated, except for the following: The number of days unabated shall be counted from the day following the abatement date specified in the final order. It shall include all calendar days between that date and the date of reinspection, excluding the date of reinspection.
- B. When calculating the additional daily penalty, the Assistant Director shall consider the extent that the violation has been abated, whether the employer has made a good faith effort to correct the violation, and it is beyond the employer's control to abate. Based on these factors, the Assistant Director may reduce or eliminate the daily penalty. Example: If three of five instances have been corrected, the daily proposed penalty (calculated as outlined in subsection (A) without regard to any partial abatement), may be reduced by the percentage of the total violations which have been corrected, in this instance, three of five, or 60%.

#### Historical Note

Adopted effective October 8, 1998 (Supp. 98-4).

#### R3-3-1011. Repeated or Willful Violations

- A. The Assistant Director shall calculate a penalty for each violation classified as serious or nonserious if similar violations are repeated within the last three years from the date of notice.
  1. The penalty for a repeated nonserious violation shall be doubled for the first repeated violation and tripled if the violation has been cited twice before, up to the maximum allowed by A.R.S. § 3-3113(A).
  2. The penalty for a repeated serious violation shall be multiplied five times for the first repeated violation and seven

times if the violation has been cited twice before, up to the maximum allowed by A.R.S. § 3-3113(A).

3. The penalty for a repeated serious violation in which someone is disabled or killed shall be multiplied 10 times for each repeated violation, up to the maximum allowed by A.R.S. § 3-3113(A).
  4. A repeated violation having no initial penalty shall be assessed for the first repeated violation as determined by this Article.
  5. If the Assistant Director determines, through documentation, that it is appropriate, the penalty may be multiplied by 10, up to the maximum allowed by A.R.S. § 3-3113(A).
- B.** The Assistant Director may adjust the gravity based penalty by a multiplier up to 10 for any willful violation, up to the maximum allowed by A.R.S. § 3-3113(A).
- C.** The Assistant Director shall not allow a reduction for any serious or nonserious willfully repeated violation.

#### Historical Note

Adopted effective October 8, 1998 (Supp. 98-4).

#### R3-3-1012. Citation; Posting

An employer shall post a citation prescribed at A.R.S. § 3-3110(C) for three days or until the violation is abated, whichever time period is longer.

#### Historical Note

New Section made by final rulemaking at 10 A.A.R. 276, effective March 6, 2004 (Supp. 04-1).

**R3-4-738. Inspection and Representative Sampling for Fruit and Vegetables**

- A.** An inspector shall conduct a preliminary inspection of each commodity which includes a visual and physical inspection of specimens of the commodity. When determining compliance of a field packing operation, the inspector shall select specimens from widely separated areas of the packing operation. When determining compliance in a packing shed, warehouse, fruit stand, retail store, or other business which sells fruit or vegetables, containers shall be selected at random from widely separated parts of the lot. If one-half of the containers or specimens in the containers of the lot or field packing operation comply with the requirements of this Article and the other half of the containers or specimens in the containers of the lot or field packing operation do not, an equal number of containers or specimens in the containers shall be examined from each half.
- B.** If, after the preliminary inspection, the inspector determines that the quality of the product meets or exceeds the requirements of this Article, the inspector need not complete a comprehensive inspection. If, after the preliminary inspection, there is a failure to comply with the requirements of this Article, the inspector shall conduct a comprehensive inspection.
- C.** For a comprehensive inspection of a field packing operation, all specimens in each container of the official sample shall be examined by an inspector. For a comprehensive inspection of a wholesale warehouse, fruit stand, retail store, or any other business dealing with the sale of fruit or vegetables, an inspector may examine all specimens in each container of the official sample. The official sample of the lot shall consist of an inspection of no less than two containers for the first 100 containers of the lot and one container for every 100 containers thereafter. For example:

No. of Containers	Containers Sampled
2-100	2
101-200	3
201-300	4
301-400	5
401-500	6

- D.** In a comprehensive inspection of a wholesale warehouse, fruit stand, retail store, or any other business dealing with the sale

of fruit or vegetables, an inspector need only examine a portion of the specimens in each container of the official sample. The official sample of the lot shall consist of an inspection of no less than the following:

No. of Containers	Containers Sampled
less than 10	2
10-30	3
31-50	4
51-100	5
101-200	6
201-300	8
301-500	10

- E. If only a portion of the specimens in each container of the official sample is examined during a comprehensive inspection in lots in excess of 500 containers, the official sample shall consist of the number of containers equal to at least 1/2 the square root of the total number of containers in the lot. For example:

No. of Containers	Containers Sampled
501-600	12
601-700	13
701-800	14
801-900	15
901-1000	16

- F. Except for apples and head lettuce, individual containers in any lot may contain up to double the amount of serious damage and other requirements prescribed for that commodity as long as the percentage of all requirements in the entire lot averages within the percent allowable as determined by inspection of a representative sample.

**R3-4-812. Inspections and Representative Sampling for Citrus Fruit**

- A. An inspector shall conduct a preliminary inspection of each commodity which includes a visual and physical inspection of

specimens of the commodity. When determining compliance of a field packing operation, the inspector shall select specimens from widely separated areas of the packing operation. When determining compliance in a packing shed, warehouse, fruit stand, retail store, or other business which sells citrus fruit, containers shall be selected at random from widely separated parts of the lot. If one-half of the containers or specimens in the containers of the lot or field packing operation comply with the requirements of this Article and the other half of the containers or specimens in the containers of the lot or field packing operation do not, an equal number of containers or specimens in the containers shall be examined from each half.

B. If, after the preliminary inspection, the inspector determines that the quality of the product clearly meets or exceeds the requirements of this Article, the inspector need not complete a comprehensive inspection. If, after the preliminary inspection, the inspector suspects there may be a failure to comply with the requirements of this Article, the inspector shall complete the procedures for a comprehensive inspection.

- C. For a comprehensive inspection of a field or shed packing operation, all specimens in each container of the official sample shall be examined by an inspector. For a comprehensive inspection of a wholesale warehouse, fruit stand, retail store, or any other business dealing with the sale of citrus fruit, an inspector may examine all specimens in each container of the official sample. The official sample of the lot shall consist of an inspection of no less than two containers for the first 100 containers of the lot and one container for every 100 containers thereafter. For example:

No. of Containers	Containers Sampled
2-100	2
101-200	3
201-300	4
301-400	5
401-500	6

- D. In a comprehensive inspection of a wholesale warehouse, fruit stand, retail store, or any other business dealing with the sale of citrus fruit, an inspector need only examine a portion of the specimens in each container of the official sample. The official

sample of the lot shall consist of an inspection of no less than the following:

No. of Containers	Containers Sampled
less than 10	2
10-30	3
31-50	4
51-100	5
101-200	6
201-300	8
301-500	10

- E. If only a portion of the specimens in each container of the official sample is examined during a comprehensive inspection in lots in excess of 500 containers, the official sample shall consist of the number of containers equal to at least 1/2 the square root of the total number of containers in the lot. For example:

No. of Containers	Containers Sampled
501-600	12
601-700	13
701-800	14
801-900	15
901-1000	16

- F. Individual containers in any lot may contain up to double the amount of serious damage and other requirements prescribed for that commodity as long as the percentage of all requirements in the entire lot averages within the percent allowable as determined by inspection of a representative sample.

#### Historical Note

Adopted effective January 6, 1994 (Supp. 94-1).

- D. A flagrant violation or repeated major deviation following a suspension pursuant to subsection (C) shall result in an indefinite revocation of the privilege to use the service mark. The privilege to use the service mark shall not be restored to the signatory for a minimum of two years unless the signatory demonstrates to the satisfaction of the auditor and the Committee a significant change in management and brand.
- E. A signatory whose privilege to use the service mark is suspended or revoked pursuant to subsections (B) through (D) shall not use the service mark until the signatory has undergone at least one new audit without the finding of any major deviations or flagrant violations and has evidenced that the signatory has corrected any minor deviations found.

rulemaking at 19 A.A.R. 4019, effective October 15, 2013 (Supp. 13-4).

**R3-9-605. Violation Levels; Repeated Violations**

- A. Violations of R3-9-602 fall into four levels: flagrant violations, major deviations, minor deviations, and minor infractions. The Committee or its designee shall determine the level of a violation consistent with this Section.
- B. A flagrant violation occurs when a signatory buys, consigns, or otherwise accepts or handles a leafy green product and knows or should have known the product was grown, packed, shipped, processed or handled in violation of R3-9-602 and the violation:
  1. Significantly increases the risk of delivering unsafe product into commerce;
  2. Affects the integrity of the LGMA's food safety program; or
  3. In the Committee's judgment, merits more serious treatment than a major deviation based on the consideration of, as relevant:
    - a. The position of the employee responsible for the violation,
    - b. Whether the employee responsible for the violation knowingly committed the violation,
    - c. The circumstances surrounding the violation,
    - d. Whether the signatory took prompt corrective action,
    - e. Whether the signatory has committed the same or a similar violation previously, and
    - f. Any other relevant facts.
- C. A major deviation is a violation of R3-9-602 that may inhibit the maintenance of food safety, but that does not necessarily result in unsafe product.
- D. The following violations constitute at least major deviations and are potentially flagrant violations:
  1. Falsification of any record for any reason;
  2. Spitting in the field;
  3. Unclean sanitation facilities, including the presence of soiled toilet paper;
  4. Failure to:
    - a. Properly wash hands after using a restroom or returning to the field;
    - b. Follow the best practices with respect to feces or fecal matter found in the field;
    - c. Follow the best practices with respect to the use of compost or animal manure, including creating and maintaining proper records related to that use;
    - d. Have a trace-back system;
    - e. Sanitize gloves and knives;
    - f. Follow a work health practices program concerning the transfer of human pathogens by workers; or
    - g. Provide a Compliance Plan, as defined in the best practices, to an auditor;
  5. Refusing an audit; and
  6. Conditions for which an automatic "unsatisfactory" would be assessed by USDA if performing a GAP/GHP audit.
- E. Violations constituting flagrant violations or major deviations are not limited to those listed in subsection (D).
- F. A minor deviation is a violation of R3-9-602 that the signatory can correct within five business days of the audit and that does not necessarily increase the risk of a food borne illness.
- G. A minor infraction is a violation of R3-9-602 that the signatory corrects before the auditor leaves the audited premises and that does not necessarily increase the risk of a food borne illness.
- H. The Committee or its designee may assess a signatory with a major deviation if an auditor discovers several minor devia-

tions or minor infractions of the same type or if a signatory fails to timely submit a corrective action plan.

- I.** Repeated major violations are limited to violations occurring during the current and prior fiscal year.

**Historical Note**

**R3-9-606. Corrective Action Plans**

- A.** A signatory who commits a flagrant violation, major deviation, or minor deviation shall correct the violation and submit a corrective action plan to the Committee or its designee within five business days of receipt of the audit report noting the violation. If the Committee or its designee rejects the cor-

rective action plan, the signatory has 24 hours to submit a revised corrective action plan.

- B.** In the case of a flagrant violation or major deviation, once the Committee or its designee accepts the signatory's corrective action plan, an auditor shall perform an unannounced audit of the signatory within three business days.
- C.** The signatory shall comply with the corrective action plan.
- D.** Notwithstanding subsection (A), in the case of a violation that creates an immediate danger to public health, the signatory shall submit a correction action plan immediately and take necessary action to minimize the threat to public health.

If a decision is issued as a final decision without an opportunity for rehearing or review, an aggrieved party who wishes to seek judicial review shall make an application for judicial review of the decision within the time limits permitted for judicial review of the Board's final decision at A.R.S. § 12-904.

## Board of Funeral Directors and Embalmers

1. To advertise for or solicit business through the use of deceptive, misleading or inaccurate statements or other information.
  2. To display or represent funeral merchandise or services in a deceptive or misleading manner. Failure to display to or show funeral services consumers inexpensive caskets and containers regularly offered for sale and stocked by the funeral establishment is deemed to be a misleading display practice. Display of inexpensive caskets or containers, or photos or facsimiles thereof, under less favorable conditions or circumstances, including poor lighting, merchandise damage or defacement or conditions inhibiting the consumer's free choice of merchandise is also deemed to be a misleading display practice.
  3. To embalm a deceased human body unless:

  4. To fail to promptly release upon request, deceased human remains to a family member, representative of the family or other person authorized by the family to take possession of the remains.
  5. To make any false, misleading or unsubstantiated statements or claims, or in any manner imply that natural decomposition or decay of human remains can be prevented by embalming, or certain caskets, vaults or other burial containers, or to otherwise make any false, misleading or unsubstantiated statements or claims of watertightness or airtightness of caskets, vaults or other burial containers.
  6. To reuse a casket or container previously purchased by or delivered to another decedent's family and intended for or used in connection with the burial, cremation or other final disposition of the previous decedent. This provision does not apply to the rental of caskets, containers, casket shells or other devices used in connection with the funeral services if the funeral services consumer is informed of the rental arrangement.
  7. To bill or otherwise charge a purchaser for merchandise or services not actually provided by or arranged through the funeral establishment.
  8. To represent that the price charged for a cash advance item is the same as the cost to the funeral establishment for the item when such is not the case, or to fail to disclose to purchasers that the price being charged for a cash advance item is not the same as the cost to the funeral establishment for the item when such is the case.
  9. To make disparaging statements concerning the quality, utility, suitability or durability of inexpensive caskets or containers without basis in fact.
  10. To make false or misleading statements concerning or otherwise engage in deceptive, misleading or fraudulent practices in connection with the advertising, solicitation or sale of prearranged funeral plans.
  11. To make any misrepresentations or omissions of material fact concerning funeral services, prices or the merchandise and services included in a stated price.
  12. To represent or insinuate that a direct cremation, immediate burial, inexpensive funeral arrangements or inexpensive casket, container or unfinished wood box would be disrespectful or inconsiderate to the decedent or family members, or friends, neighbors or associates of the decedent or family.
  13. To disrupt the funeral arrangement process or funeral service, intimidate, harass or coerce a family member, with the intent to prevent such family member from exercising existing contractual or legal rights.

- A.** In selling or offering to sell funeral goods or funeral services to funeral services consumers, it is a deceptive act or practice for a funeral establishment, funeral director, embalmer, or agents or employees of a funeral establishment to:
1. Represent that state or local law requires that a deceased person be embalmed when such is not the case, or fail to disclose that embalming is not required by law except where burial or cremation will not occur within 24 hours or where the body is not refrigerated immediately after death.
  2. Represent that state or local law requires a casket for direct cremation, or represent that a casket (other than an unfinished wood box) is required for direct cremations.

  4. Represent that federal, state or local laws, or particular cemeteries or crematories require the purchase of any funeral goods or funeral services when such is not the case.
- B.** Failure to substantially comply with the provisions of this Section shall be deemed to be evidence of gross negligence, repeated or continuous negligence or other professional incompetence.

If a funeral establishment mails a funeral price list to a caller, it may charge a reasonable postage and handling fee not to exceed two dollars. The establishment shall mail the price list to the caller within five days after receipt of the handling charge, or if the establishment does not require a handling charge, within seven days after the caller's price list request.

7. "Substantive review time-frame" has the same meaning as A.R.S. § 41-1072(3).
- B.** In computing the time-frames in this Section, the day of the act or event from which the designated period begins to run is not included. The last day of the period is included unless it is a Saturday, Sunday, or official state holiday, in which event the period runs until the end of the next day that is not a Saturday, Sunday, or official state holiday.
- C.** For each type of licensure, certification, or approval issued by the Board, the overall time-frame described in A.R.S. § 41-1072(2) is listed in Table 1. An applicant may submit a written request to the Board for an extension of time in which to provide a complete application. The request for an extension of time shall be submitted to the Board office before the deadline for submission of a complete application and shall state the reason that the applicant is unable to comply with the time-frame requirements in Table 1 and the amount of additional time requested. The Board may grant an extension of time based on whether the Executive Director of the Board finds that the applicant is unable to comply within the time-frame due to circumstances beyond the applicant's control and that the additional information can reasonably be supplied during the extension of time.
- D.** For each type of licensure, certification, or approval issued by the Board, the administrative completeness review time-frame described in A.R.S. § 41-1072(1) is listed in Table 1 and begins to run when the Board receives an application packet.

The time-frame for the Board to complete the administrative review is suspended until the Board receives the missing information.
    - c. If an applicant fails to provide the missing information listed in the deficiency notice within the period specified in Table 1, the Board shall close the applicant's file and send a notice to the applicant by U.S. mail and electronically, if an electronic address is included in the application.
    - d. If the applicant is the subject of an investigation, the Board may continue to process the application. Failure of the applicant to supply the requested information may result in denial of the license or certificate based on information gathered during the investigation.
  2. If the application packet is administratively complete, the Board shall send a written notice of administrative completeness to the applicant.
  3. If the Board issues a license, certificate, or approval during the administrative completeness review time-frame, the Board shall not send a separate written notice of administrative completeness.
- E.** For each type of licensure, certification, or approval issued by the Board, the substantive review time-frame described in A.R.S. § 41-1072(3) is listed in Table 1 and begins to run on the date the notice of administrative completeness is issued.

The applicant shall submit the additional information within the period specified in Table 1. The time-frame for the Board to complete the substantive review of the application packet is suspended from the date the comprehensive written request for additional information is issued until the Board receives the additional information.
  4. If the applicant fails to provide the additional information identified in the comprehensive written request for additional information within the time specified in Table 1, the Board shall close the applicant's file and send a notice to the applicant by U.S. mail and electronically, if an electronic address is included in the application. The Board may continue to process the application if the applicant is the subject of an investigation. Failure of the applicant to supply the requested information may result in denial of the license or certificate based on information gathered during the investigation.
