- A.** All requirements in this Section are in addition to the general special education standards in R7-2-401 for public education agencies providing special education.
 - B.** For the purposes of this rule, the following definitions apply:
 1. "Accessible Electronic File" means, until the effective date of a nationally adopted file format, a digital file in a mutually agreed upon electronic file format that has been prepared using a markup language that maintains the structural integrity of the information and can be processed by Braille conversion software. Upon the effective date of a nationally adopted file format, such as the Instructional Materials Accessibility Standard (IMAS), "Accessible Electronic File" shall mean an electronic file conforming to the specifications of the nationally adopted file format, including future technical revisions and versions of this nationally adopted file format.
 2. "Individualized Braille literacy assessment" means the Learning Media Assessment or other standardized or individualized assessments that pertain to the child's reading medium.
 3. "Non-printed instructional materials" means non-printed textbooks and related core materials, including those that require the availability of electronic equipment in order to be used as a learning resource, that are written and published primarily for use in elementary school and secondary school instruction and are required by a state educational agency or a local educational agency for use by pupils in the classroom. These materials shall be available to the extent technologically available, and may include software programs, CD-ROMs and internet-based materials.
 4. "Printed instructional materials" means textbooks and related printed core materials, that are written and published primarily for use in elementary school and secondary school instruction and are required by a state educational agency or a local educational agency for use by pupils in the classroom. This may include workbooks, practice tests, and tests.
 5. "Publisher" means an individual, firm, partnership or corporation that publishes or manufactures printed instructional materials for students attending public schools in Arizona, including an on-line service, a software developer, or a distributor of an electronic textbook.
 6. "Specialized format" means Braille, audio or digital text which is exclusively for use by blind or other persons with disabilities.
 7. "Structural integrity" means the structure of all parts of the printed instructional material will be kept intact to the extent feasible and as mutually agreed upon by the publisher and the local educational agency. This may include appropriate representation of graphic illustrations.
 - C.** Upon determination of a student having a visual impairment as assessed by a full and initial evaluation defined in R7-2-401(E)(6)(i), a visually impaired student who is determined to be blind as defined by A.R.S. § 15-214(B) shall receive an individualized Braille literacy assessment.
 - D.** Individualized Education Programs (IEP) for blind students. In addition to the requirements for establishing and implementing an IEP consistent with R7-2-401(F) for a student determined to have a disability, each IEP for a student determined to be "blind" as assessed by R7-2-401(E)(6)(i) and defined by A.R.S. § 15-214(B), shall presume that proficiency in Braille is essential in achieving academic success unless otherwise determined by the IEP team established consistent with the regulations for the most recent reauthorization of the Individuals with Disabilities Education Act (IDEA) and in the manner provided by the most recent reauthorization of the IDEA Act for developing an IEP. An IEP developed under this Section for a student determined to be blind shall include all required provisions of A.R.S. § 15-214(A)(3), including the following:

- E.** The Arizona Department of Education shall designate a central repository for publishers to, upon request, provide accessible electronic files for instructional materials used by public schools in Arizona as defined in subsection (B)(1). The central repository shall be responsible for maintaining a complete list of available accessible electronic files for instructional materials and instructional materials in specialized formats, processing requests from PEAs for instructional materials in specialized formats and providing access to these materials in specialized formats to schools throughout Arizona that are providing services to blind or other students with disabilities.
1. Upon receipt of a written request certifying to the requirements set forth in subsections (E)(1)(a) through (c) publishers shall deliver to the repository, at no additional cost and consistent with the time-frame for providing materials for students without disabilities, accessible electronic files for printed instructional materials and non-printed instructional materials.  2. A PEA may access the materials maintained by the central repository, upon written request, for instructional use with a student with a visual impairment, as identified by R7-2-401(E)(6)(i), who requires the use of instructional materials in a specialized format pursuant to the student's IEP.
 3. Nothing in this Section shall be construed to prohibit the central repository from assisting a student with a disability by using the electronic format version of instructional material provided pursuant to this Section solely to transcribe or arrange for the transcription of the printed instructional material into Braille or large print. In the event a Braille transcription is made, the central repository has the right to share the Braille copy of the printed instructional material with other eligible students with disabilities. The PEA will be required to return the specialized format version of the instructional material to the central repository when the student no longer needs the instructional material. The central repository may share the copies of the specialized format of the instructional material with other PEAs who have met the requirements of subsections (B) and (D) of this Section to provide ser-

vices to students who require such services pursuant to R7-2-401(F)(5).

 1. Scope. Except as may be otherwise directed by federal or state statute or by rules adopted by the State Board of Education, this rule shall govern the procedure for determining noncompliance by school districts with laws and rules concerning school districts, the enforcement of which is the statutory responsibility of the State Board of Education or the Department of Education.
 2. Preliminary notice of noncompliance and response:

The Department of Education, upon its own initiative or at the direction of the State Board of Education, shall inform school districts by written notice that the district is in possible noncompliance with laws or rules, the enforcement of which is the statutory responsibility of the Board or the Department.
 - b. A preliminary notice of possible noncompliance shall detail in writing the nature of the possible noncompliance and shall identify:
 - i. The law or rule which the school district may be violating; and
 - ii. The manner in which the school district may be in noncompliance with the identified law or rule.

3. Scheduling a formal hearing
 - a. Recommendation by the Department of Education
 - i. After giving a school district preliminary notice as provided in this rule, the Department of Education shall submit a written recommendation to the State Board of Education. This recommendation shall be submitted within 10 days after receipt of a written response from the school district or if no response is received within 30 days of the issuance of the preliminary notice. The Department shall recommend one of the following courses of action to be taken by the Board.
 - (1) A formal hearing should be scheduled before noncompliance is probable and achieving voluntary compliance within a reasonable period of time under the circumstances is unlikely; or
 - (2) A formal hearing should not be scheduled at this time because, although noncompliance is probable, achieving voluntary compliance within a reasonable period of time is likely; or
 - (3) A formal hearing should not be scheduled because the school district is in compliance with the law or rule in question.
 - ii. Any written response of the school district to the preliminary notice of noncompliance shall accompany the written recommendation of the Department of Education.
 - b. Within 30 days of receipt of the recommendation of the Department of Education, the State Board of Education shall either:
 - i. Schedule formal hearing;
 - ii. Postpone the decision to schedule a hearing for a stated time period not to exceed six months, or

 - e. When the Board decides to postpone scheduling a formal hearing, the Board shall specify the extent of the postponement and the Department of Education shall report periodically, at least every 30 days, unless otherwise directed, with respect to progress by the school district toward compliance with the law or rule in question. At the end of the postponement period, the Board shall again make a determination whether to schedule a hearing, further postpone the determination, or dismiss the matter.
 - f. The Board may order further investigation by the Department of Education at any time, and admit into evidence any such report at any subsequent formal hearing.

An order granting a rehearing shall specify with particularity the ground or grounds on which the rehearing is granted, and the rehearing shall cover only those matters so specified.
 - i. Not later than 15 days after a decision is rendered, the Board may on its own initiative order a rehearing or a review of its decision for any reason for which it might have granted a rehearing on motion of a party. 1. Make changes in the invitation for bids;
 2. Correct defects or ambiguities;
 3. Furnish to other bidders information given to one bidder if the information will assist the other bidders in submitting bids or if the lack of the information will prejudice the other bidders;
 4. Provide additional information or instructions; or
 5. Set a later bid due date and time if the school district determines that an extension is advantageous to the school district.
- B.** Amendments to an invitation for bids shall be so identified and the school district shall ensure that the amendments are distributed or made available to all persons to whom the original invitation for bids was distributed or made available. The school district shall make a copy of the amendments to an invitation for bids available for public inspection at the school district office. If the school district posted the invitation for bids or a notice of the availability of an invitation for bids on a designated site on the Internet, then the school district shall post any amendments to the invitation for bids on the same designated site on the Internet. The school district shall also do one or more of the following:
1. Distribute the amendment, by any method reasonably calculated to ensure delivery, to all prospective bidders to whom the invitation for bids was distributed;

- C.** Amendments to invitation for bids shall be issued within a reasonable time before bid opening to allow prospective bidders to consider them in preparing their bids. - D.** A bidder shall acknowledge receipt of an amendment in the manner specified in the invitation for bids or the amendment on or before the bid due date and time.
- A.** A bid, modification or withdrawal is late if it is received at the location designated in the invitation for bids for receipt of bids after the bid due date and time.
- B.** A late bid, late modification, or late withdrawal shall be rejected, unless the late bid, late modification, or late withdrawal would have been timely received but for the action or inaction of school district personnel and is received before contract award.
- C.** Upon receiving a late bid, late modification, or late withdrawal, the school district shall record the time and date of receipt and promptly send written notice of late receipt to the bidder. The school district may discard the document 30 days after the date on the notice unless the bidder requests the document be returned.
- D.** All documents concerning acceptance of a late bid, late modification, or late withdrawal shall be retained in the procurement file.

The school district shall secure the bid and retain it for public opening.
 2. One or more witnesses shall be present for the opening of a bid under subsection (A)(1).

R7-2-1028. Late Bids, Late Withdrawals and Late Modifications

R7-2-1030. Mistakes in Bids

- A.** If an apparent mistake in a bid, relevant to the award determination, is discovered after opening and before award, a school district shall contact the bidder for written confirmation of the bid. If the bidder fails to act, the bidder is considered nonresponsive and the school district shall place a written determination that the bidder is nonresponsive in the procurement file. The school district shall designate a time-frame within which the bidder shall either:
1. Confirm that no mistake was made and assert that the bid stands as submitted; or
 2. Acknowledge that a mistake was made and include all of the following in a written response:

State Board of Education

- a. An explanation of the mistake and any other relevant information;
 - b. A request for correction including the corrected bid or a request for withdrawal; and
 - c. The reasons why correction or withdrawal is consistent with fair competition and advantageous to the school district.
- B.** A bidder who discovers a mistake in its bid after bid opening and before award, may request correction or withdrawal in writing and shall include all of the following in the written request:
 - 1. An explanation of the mistake and any other relevant information;
 - 2. A request for correction including the corrected bid or a request for withdrawal; and
 - 3. The reasons why correction or withdrawal is consistent with fair competition and advantageous to the school district.
- C.** After bid opening and before award, a bid mistake based on an error in judgment may not be corrected or withdrawn. Other bid mistakes may be corrected or withdrawn pursuant to subsections (D) through (F).
- D.** After bid opening and before award, the school district shall either waive minor informalities in a bid or allow the bidder to correct them if correction is advantageous to the school district.
- E.** After bid opening and before award, the bid may not be withdrawn and shall be corrected to the intended bid if a bid mistake and the intended bid are evident on the face of the bid.
- F.** After bid opening and before award, the school district may permit a bidder to withdraw a bid if:
 - 1. A nonjudgmental mistake is evident on the face of the bid but the intended bid is not evident; or
 - 2. The bidder establishes by clear and convincing evidence that a nonjudgmental mistake was made.
- G.** If correction or withdrawal of a bid after bid opening is permitted or denied under subsections (D), (F) and (J), the school district shall prepare a written determination showing that the relief was permitted or denied under this Section.
- H.** Notwithstanding other provisions of this Section, after bid opening and before award, no corrections in bid prices or other provisions of bids prejudicial to the interest of the school district or fair competition shall be permitted.
- I.** If a mistake in the bid is discovered after the award, the bidder may request withdrawal or correction in writing and shall include all of the following in the written request:
 - 1. An explanation of the mistake and any other relevant information;
 - 2. A request for correction including the corrected bid or a request for withdrawal; and
 - 3. The reasons why correction or withdrawal is consistent with fair competition and advantageous to the school district.
- J.** Based on the considerations of fair competition and the best interest of the school district, the school district may take one of the following actions regarding a bid mistake discovered after the award:
 - 1. Allow correction of the mistake, if the corrected bid amount is less than the next lowest bid;
 - 2. Cancel all or part of the award; or
 - 3. Deny correction or withdrawal.
- K.** After cancellation of all or part of an award in accordance with subsection (J)(2), if the bid acceptance period has not expired, the school district may award all or part of the contract to the next lowest responsible and responsive bidder, based on the

considerations of fair competition and the best interest of the school district.

Historical Note

Adopted effective December 17, 1987 (Supp. 87-4).
Amended by final exempt rulemaking at 21 A.A.R. 1525,
effective July 1, 2015 (Supp. 15-3).

R7-2-1031. Bid Evaluation and Award

- A.** As provided in subsection (C), the contract or contracts shall be awarded to the lowest responsible and responsive bidder or bidders whose bid or bids conform in all material respects to the requirements and evaluation criteria set forth in the invitation for bids. No criteria may be used in bid evaluation that are not set forth in the invitation for bids. The amount of any applicable transaction privilege or use tax of a political subdivision of this state is not a factor in determining the lowest bidder.
- B.** A product acceptability evaluation shall be conducted solely to determine whether a bidder's product is acceptable as set forth in the invitation for bids and not whether one bidder's product is superior to another bidder's product. Any bidder's offering that does not meet the acceptability requirements shall be rejected as nonresponsive.
- C.** The school district shall award the contract to the single lowest responsible and responsive bidder for all materials or services, except that the school district may make a multiple award if the invitation for bids included notification that multiple contracts may be awarded, the school district's basis for determining whether to award multiple contracts, and the criteria for selecting vendors for the multiple contracts.
- D.** Before making a multiple award, the school district shall determine in writing that a multiple award is necessary and is advantageous to the school district and shall establish procedures for the use of the multiple awarded contracts to ensure that purchases are made from the contracts determined by the school district to offer the lowest cost in satisfying the school district's requirements. A multiple award shall be limited to the least number of suppliers the school district determines in writing to be necessary to meet the school district's requirements, and may include the following types of awards:
 - 1. Awards to the lowest responsible and responsive bidder for individual line items or groups of line items.
 - 2. Awards to the lowest responsible and responsive bidders for similar or identical line items or groups of line items only if the school district determines in writing that such awards are necessary to obtain the required quantity or delivery, and the awards are limited to the least number of bidders necessary to meet the school district's requirements.
 - 3. An incremental award only if the school district determines in writing that such an award is necessary to obtain the required quantity or delivery. The award shall be made to the lowest responsible and responsive bidder, then the next lowest responsible and responsive bidder or bidders until the total definite quantity required is awarded.
 - 4. A regional award to the lowest responsible and responsive bidder in designated regions or locations only if the school district determines in writing that such an award is necessary to obtain the required quantity or delivery over widely scattered locations or a particular requirement is of a local nature.
- E.** The procurement file shall contain the basis on which the award or awards are made.
- F.** The school district shall not modify evaluation criteria after the bid due date and time.

State Board of Education

- G.** A school district may appoint an evaluation committee to assist in the evaluation of bids. If bids are evaluated by an evaluation committee, the evaluation committee shall prepare an evaluation report for the school district. The school district may:
1. Accept the findings of the evaluation committee;
 2. Request additional information from the evaluation committee; or
 3. Reject the findings of the evaluation committee, in which case the school district shall appoint a new evaluation committee to evaluate the existing bids or cancel the solicitation.
- H.** The school district may contact a bidder to confirm the school district's understanding of the bid. Such contact shall be prior to award. The school district shall obtain written confirmation from the bidder and shall retain the confirmation in the procurement file.
- I.** The contract or contracts shall be awarded during the bid acceptance period. If the bid acceptance period expires prior to award of the contract or contracts, the procurement shall be canceled, unless the bid acceptance period is extended in accordance with subsection (J).
- J.** To extend the bid acceptance period, a school district shall notify all bidders in writing of an extension and request written concurrence from each bidder. To be eligible for a contract award, a bidder shall submit a written concurrence to the extension. The school district shall reject a bid as nonresponsive if written concurrence is not provided as requested.
- K.** A contract may not be awarded to a bidder submitting a higher quality item than that designated in the invitation for bids unless the bidder is also the lowest bidder as determined under subsection (A). This Section does not permit negotiations with any bidder, except as provided in subsection (L).
- L.** If all bids for a construction project exceed available monies as certified by the school district, and the lowest responsive bid from a responsible bidder does not exceed such monies by more than five percent, the school district may in situations in which time or economic considerations preclude resolicitation of work of a reduced scope, negotiate an adjustment of the bid price, including changes in the bid requirements, with the lowest responsible and responsive bidder, to bring the bid within the amount of available monies.
- M.** If there are two or more low responsive bids from responsible bidders that are identical in price and that meet all the requirements and criteria set forth in the invitation for bids, award shall be made by drawing lots in the presence of one or more witnesses.
- N.** A record showing the basis for determining the successful bidder shall be retained in the procurement file.
- O.** The school district shall notify all bidders of an award.
- P.** After a contract is awarded, the school district shall return any bid security provided by unsuccessful bidders.
- Q.** Upon execution of the contract, if performance and payment bonds were not required, or upon receipt of the specified bonds, if performance and payment bonds were required, the school district shall return any bid security provided by the successful bidder.
- R.** Within 10 days after a contract is awarded, the school district shall make the procurement file, including all bids, available for public inspection.
1. If the procurement file contains information that is confidential under R7-2-1006, a copy of the applicable documents with the confidential information redacted shall be placed in the procurement file for the purpose of public inspection.

2. The unredacted original copy of the confidential information shall be placed in a sealed envelope or other appropriate container, identified as confidential information, and maintained in the procurement file.

R7-2-1032. Only One Bid Received

If only one responsive bid is received in response to an invitation for bids, an award may be made to the single bidder if the school district determines in writing that the bidder is responsible, that the price submitted is fair and reasonable, and that either other prospective bidders had reasonable opportunity to respond, or there is not adequate time for resolicitation. Otherwise the bid may be rejected in whole or in part as may be specified in the invitation for bids if it is advantageous to the school district. The reasons for cancellation or rejection shall be made part of the procurement file and:

1. New bids may be solicited;
2. The proposed procurement may be canceled; or
3. If the school district determines that the need for the material or service continues and the acceptance of the one bid is not advantageous to the school district, the procurement may then be conducted as follows:
 - a. The school district may follow the sole source procurement procedure if R7-2-1053 applies.
 - b. Notwithstanding any other provision of Articles 10 and 11, the school district may make emergency procurements pursuant to R7-2-1055 and R7-2-1056 if an emergency condition exists pursuant to R7-2-1055.

R7-2-1033. Simplified School Construction Procurement Program

- A.** The simplified school construction procurement program is applicable to construction projects which do not exceed the maximum amount specified in A.R.S. § 15-213(A)(2).
- B.** To participate in the simplified school construction procurement program:
1. Each county school superintendent shall maintain a prospective bidders list of persons who desire to receive solicitations to bid on school district construction projects within that county. The prospective bidders list shall be maintained in accordance with R7-2-1023;
 2. The prospective bidders list maintained pursuant to subsection (B)(1) shall be available for public inspection;
 3. A performance bond and a payment bond, as required by A.R.S. § 34-222, shall be provided for contracts for construction by contractors;
 4. All bids for construction shall be opened at a public opening and the bids shall remain confidential until the public opening;
 5. All persons desiring to submit bids shall be treated equitably and the information related to each project shall be available to all eligible persons; and
 6. Competition for construction projects under the simplified school construction procurement program shall be encouraged to the maximum extent possible. School districts shall submit information on each project to all persons listed on the prospective bidders list maintained by

the county school superintendent pursuant to subsection (B)(1).

MULTISTEP SEALED BIDDING

R7-2-1035. Multistep Sealed Bidding

- A. The multistep sealed bidding method may be used if:
1. Available specifications or purchase descriptions are not sufficiently complete to permit full competition without technical evaluations and discussions to ensure mutual understanding between each bidder and the school district;
 2. Definite criteria exist for evaluation of technical offers;
 3. More than one technically qualified source is expected to be available; and
 4. A fixed-price contract will be used.
- B. The multistep sealed bidding method may not be used for construction contracts.

Historical Note

R7-2-1036. Phase 1 of Multistep Sealed Bidding

- A. Multistep sealed bidding shall be initiated by the issuance of an invitation to submit technical offers. The invitation to submit technical offers shall be issued according to R7-2-1022 and R7-2-1024(A).
- B. The invitation to submit technical offers shall include the following information:
1. Notice that the procurement shall be conducted in two phases;
 2. The best description of the material or services desired;
 3. A statement that unpriced technical offers only shall be considered in phase 1;
 4. The requirements for the technical offers, such as drawings and descriptive literature;
 5. The criteria for evaluating technical offers;
 6. The due date and time for receipt of technical offers and the location where technical offers shall be delivered or mailed;
 7. A statement that discussions may be held;
 8. A statement that only bids based on technical offers determined to be acceptable in phase 1 shall be considered for award;
 9. The name of the district representative or district representatives;
 10. Notice that all technical offers submitted will be made available for public inspection following the award of the contract; and
 11. The date, time and location of any pre-technical offer conference.
- C. A school district may conduct a pre-technical offer conference open to all persons. If a pre-technical offer conference is conducted, it shall be not less than seven days before the technical offer due date and time, unless the school district makes a written determination that the specific needs of the procurement justify a shorter time. Statements made during the pre-technical offer conference shall not be considered modifications to the invitation to submit technical offers.
- D. The invitation to submit technical offers may be amended before or after the submission of the unpriced technical offers. Amendments to an invitation to submit technical offers shall be so identified and the school district shall ensure that the amendments are distributed or made available to all persons to whom the original invitation to submit technical offers was distributed or made available. The school district shall make a copy of the amendments to an invitation to submit technical offers available for public inspection at the school district office. If the school district posted the invitation to submit technical offers or a notice of the availability of an invitation to submit technical offers on a designated site on the Internet, then the school district shall post any amendments to the invitation to submit technical offers on the same designated site on the Internet. The school district shall also do one or more of the following:
- a. Distribute the amendment, by any method reasonably calculated to ensure delivery, to all persons to whom the invitation to submit technical offers was distributed;
 - b. Make the amendment available and issue a notice of amendment which contains instructions for obtaining copies of the amendment. The notice of amendment shall be distributed, by any method reasonably calculated to ensure delivery, to all persons to whom the invitation to submit technical offers was distributed. Upon receipt of such notice of amendment, it is the responsibility of the person to obtain the amendment.
2. Amendments shall be issued within a reasonable time before technical offer opening to allow persons to consider them in preparing their technical offers. If the school district determines that the technical offer due date and time does not permit sufficient time for technical offer preparation, the technical offer due date and time shall be extended in the amendment or, if necessary, telephone, facsimile, email, or other communications methods, and confirmed in the amendment.
3. A person shall acknowledge receipt of an amendment in the manner specified in the invitation to submit technical offers or the amendment on or before the technical offer due date and time.
- E. Unpriced technical offers shall not be opened publicly, but shall be opened in the presence of two or more district officials designated by the school district. The contents of unpriced technical offers shall not be disclosed to unauthorized persons. Late technical offers shall not be considered except under the circumstances set forth in R7-2-1028(B).
- F. Unpriced technical offers shall be evaluated solely in accordance with the criteria set forth in the invitation to submit technical offers and shall be determined to be either acceptable for further consideration or unacceptable. A determination that an unpriced technical offer is unacceptable shall be in writing, state the basis for the determination and be retained in the procurement file. If the school district determines a person's unpriced technical offer is unacceptable, the school district shall notify that person of the determination and that the person shall not be afforded an opportunity to amend the technical offer.
- G. The school district may conduct discussions with any person who submits an acceptable or potentially acceptable technical offer. During discussions, the school district shall not disclose any information derived from one unpriced technical offer to any other person. After discussions, the school district shall establish a due date and time for receipt of final technical offers and shall notify, in writing, persons submitting accept-

able or potentially acceptable technical offers of the due date and time. The school district shall keep a detailed record of all discussions.

- H. At any time during phase 1, technical offers may be withdrawn.
- I. A copy of the invitation to submit technical offers shall be made available for public inspection at the school district office.

GUARANTEED ENERGY CONTRACTS

R7-2-1069. Guaranteed Energy Cost Savings Contracts

- A.** A school district may procure a guaranteed energy cost savings contract with a qualified provider through competitive sealed proposals in accordance with R7-2-1041 through R7-2-1050.
1. The request for proposal evaluation factors required by R7-2-1042(A)(1)(h) shall include objective criteria for selecting the qualified provider, including the cost of the contract, the energy cost savings, the net projected energy savings, the quality of the technical approach, the quality of the project management plan, the financial solvency of the qualified provider and the experience of the qualified provider with projects of similar size and scope.
 2. Notwithstanding R7-2-1042(A)(1)(h), the request for proposals shall set forth the respective numerical weighting for each evaluation criterion.
 3. At the qualified provider's expense, the proposal shall include an independent third-party validation of cost savings calculations associated with each proposed energy cost savings measure by a licensed, registered professional engineer, with credentials from the national association of energy engineers, who has demonstrated experience in energy analysis. The school district shall approve the selection of the independent third party.
 4. A school district may enter into a guaranteed energy cost savings contract with a qualified provider if the school district determines that the energy savings project will pay for itself within the expected life of the energy cost savings measures implemented (according to the manufacturer's equipment standards), the term of the financial agreement or twenty-five years, whichever is shortest, if the recommendations in the proposal are followed. The school district shall retain the cost savings achieved by a guaranteed energy cost saving contract, and these cost savings may be used to pay for the contract and project implementation.
 5. A qualified provider is a person that is experienced in designing, implementing or installing energy cost savings measures, that has a record of established projects or measures of similar size and scope, that has demonstrated technical, operational, financial and managerial capabilities to design and operate cost savings measures and projects and that has the financial ability to satisfy guarantees for energy cost savings.
- B.** In selecting a contractor to perform any construction work related to performing the guaranteed energy cost savings contract, the qualified provider may:
1. Develop and use a prequalification process for contractors.
 2. Require the contractor to demonstrate that the contractor is adequately bonded to perform the work and that the contractor has not failed to perform on a prior job.
- C.** At the selected qualified provider's expense, a study shall be performed by the selected qualified provider in order to establish the exact scope of the guaranteed energy cost savings contract, the fixed cost savings guarantee amount and the methodology for determining actual savings. The selected qualified provider will provide the school district with a final study report which validates that the fixed cost savings guarantee amount will meet or exceed the cost savings calculations contained within the original proposal. The study report shall be reviewed and approved by the school district before the actual installation of any equipment. The qualified provider shall transmit a copy of the approved study report to the school facilities board and the governor's office of energy policy.
- D.** The information to develop the energy baseline shall be derived from historical energy costs or actual energy measurements or shall be calculated from energy measurements at the facility where energy cost savings measures are to be installed or implemented. The baseline shall be established before the installation or implementation of energy cost savings measures.
- E.** One or more school districts may enter into a financing agreement with a qualified provider or a financial institution, trustee or paying agent for the purchase and installation or implementation of energy cost savings measures. Any required financing may be obtained as part of the original competitive sealed proposal process from the qualified provider, or from a third-party financing institution that is procured separately in accordance with Articles 10 and 11.
- F.** The selected qualified provider shall provide a performance bond in accordance with R7-2-1103(A)(1)(c).
- G.** The selected qualified provider shall make public information in the subcontractor's bids.
- H.** The guaranteed energy cost savings contract shall include the following:
1. A requirement that, in determining whether the projected energy savings calculations have been met, the energy savings shall be computed by comparing the energy baseline before installation or implementation of the energy cost savings measures with the energy consumed after installation or implementation of the energy cost savings measures. The qualified provider and the school district may agree to make modifications to the energy baseline only for any of the following:
 - a. Changes in utility rates.
 - b. Changes in the number of days in the utility billing cycle.
 - c. Changes in the square footage of the facility.
 - d. Changes in the operational schedule of the facility.
 - e. Changes in facility temperature.
 - f. Significant changes in the weather.
 - g. Significant changes in the amount of equipment or lighting utilized in the facility.
 - h. Significant changes in the nature or intensity of energy use such as the change of classroom space to laboratory space.
 2. A payment schedule, with payments over a period of not more than the expected life of the energy cost savings measures implemented (according to the manufacturer's equipment standards), the term of the financial agreement or twenty-five years, whichever is shortest.
 3. A requirement that all payments, except obligations on termination of the contract before its expiration, be made pursuant to the terms of the financing agreement.
 4. A written guarantee from the qualified provider that the energy savings will meet or exceed the costs of the energy cost savings measures over the expected life of the energy cost savings measures implemented (according to the manufacturer's equipment standards), the term of the financial agreement or twenty-five years, whichever is shortest. The school district shall ensure that the contractor:
 - a. For the term of the guaranteed energy savings contract, prepares a measurement and verification report on an annual basis in addition to an annual reconciliation of savings.
 - b. Reimburses the school district for any shortfall of guaranteed energy cost savings on an annual basis.
 - c. Uses the international performance and measurement and verification protocol standards or the fed-

State Board of Education

eral energy management program standards to validate the savings guarantee.

- I. A school district may utilize a simplified energy performance contract for projects less than \$500,000. Simplified energy performance contracts are not required to include an energy savings guarantee and shall comply with all requirements in this Section except for subsections (D), (H)(1)(a) through (h) and (H)(4)(a) through (c).
- J. This Section does not apply to the construction of new buildings.
- K. For all projects under this Section, the school district shall report to the governor's office of energy policy and the school facilities board:
 - 1. The name of the project.
 - 2. The qualified provider.
 - 3. The total cost of the project.
 - 4. The expected energy cost savings and relevant escalators.

R7-2-1093. Multiterm Contracts

- A. Unless otherwise provided by law, multiterm contracts for materials or services and contracts for job-order-contracting construction services may be entered into if the duration of the contract and the conditions of renewal or extension, if any, are included in the invitation for bids or the request for proposals and if monies are available for the first fiscal period at the time the contract is executed. The duration of contracts for materials or services and contracts for job-order-contracting construction services shall be limited to no more than five years unless the governing board determines in writing before the procurement solicitation is issued that a contract of longer duration would be advantageous to the school district. Payment and performance obligations for succeeding fiscal periods are subject to the availability and appropriation of monies.
- B. Before the use of a multiterm contract, it shall be determined in writing by the governing board that:

1. Estimated requirements cover the period of the contract and are reasonable and continuing.
 2. Such a contract will be advantageous to the school district by encouraging effective competition or otherwise promoting economies in school district procurement.
- C. The school district shall include in all multiterm contracts a clause specifying that the contract shall be canceled if monies are not appropriated or otherwise made available to support the continuation of performance in a subsequent fiscal year.
 - D. If monies are not appropriated or otherwise made available to support continuation of performance in a subsequent fiscal period, the contract shall be canceled and the contractor may only be reimbursed for the reasonable value of any nonrecurring costs incurred but not amortized in the price of the materials or services delivered under the contract or which are otherwise not recoverable. The cost of cancellation may be paid from any appropriations available for such purposes.
 - E. A contract for specified professional services shall have a term not exceeding five years after the date of contract award by the school district of the first contract under the procurement, except that the contract may continue in effect after the five year term for projects on which the rendering of specified professional services commences within the five year term.

- E. After the bids and proposals are opened, they are irrevocable for the period specified in the invitation for bids or request for proposals, except as provided in R7-2-1030. If a bidder or offeror is permitted to withdraw its bid before award, no action may be had against the bidder or offeror or the bid security.

- A. Bid security shall be required for all competitive sealed bidding for construction contracts, and for all competitive sealed proposals for design-build construction services or job-order-contracting construction services procured pursuant to R7-2-1111, if the price, excluding the cost of any finance services, maintenance services, operations services, design services, preconstruction services, or other related services included in the contract, is estimated by the school district to exceed the amount established by R7-2-1002(A).
- B. Invitations for bid on school district construction contracts and requests for proposals for design-build construction services or job-order-contracting construction services, shall require submission of bid security as follows:
 1. For design-bid-build construction services, ten percent of the contractor's bid.
 2. For design-build construction services awarded by competitive sealed proposals pursuant to R7-2-1111, ten percent of the school district's construction budget for the project as stated in the request for proposals, excluding finance services, maintenance services, operations services, design services, preconstruction services or any other related services included in the contract.
 3. For job-order-contracting construction services awarded by competitive sealed proposals pursuant to R7-2-1111, the amount prescribed by the school district in the request for proposals, but not more than ten percent of the school district's reasonably estimated budget for construction that the school district believes is likely to actually be done during the first year under the contract, excluding any finance services, maintenance services, operations services, design services, preconstruction services or other related services included in the contract.
- C. Acceptable bid security shall be limited to:
 1. An annual or one-time bid bond executed and furnished as required by A.R.S. Title 34, Chapter 2 or 6, as applicable; or
 2. A certified or cashier's check.
- D. The school district may issue a written determination to accept the bid security if the bid security fails to comply in a nonsubstantial manner when:
 1. Only one bid or proposal is received and there is not sufficient time to rebid or resolicit proposals;
- A. The following bonds or security is required and is binding on the parties to the contract if the value of a construction or construction services award exceeds the amount established by R7-2-1002(A):
 1. A performance bond that is executed and furnished as required under Arizona Revised Statutes Title 34, Chapter 2, Article 2 or Chapter 6, as applicable, in an amount equal to one hundred percent of the price specified in the contract conditioned on the faithful performance of the contract in accordance with the plans, specifications and conditions of the contract, except that:
 - a. For job-order-contracting construction services, the performance bond shall cover the full amount of construction under the job-order-contracting construction services contract, shall not include any design services, preconstruction services, finance services, maintenance services, operations services or other related services included in the contract, may be a single bond for the full term of the contract, a separate bond for each year of a multiyear contract or a separate bond for each job order, as determined by the school district, and, if a single bond for the full term of the contract or a separate bond for each year of a multiyear contract, shall initially be based on the school district's reasonable estimate of the amount of construction that the school district believes is likely to actually be done during the full term of the contract or during the particular year of a multiyear contract, as applicable.
 - b. For construction-manager-at-risk construction services and design-build construction services, the amount of the performance bond shall be the price of construction and shall not include the cost of any design services, preconstruction services, finance services, maintenance services, operations services and other related services included in the contract. This bond is solely for the protection of the school district. The conditions and provisions of the performance bond regarding the surety's obligations shall follow the form required under A.R.S. § 34-222(G) or A.R.S. § 34-610(G), as applicable.
 - c. For guaranteed energy cost savings contracts and guaranteed energy production contracts, the amount of the performance bond shall be one hundred per-

State Board of Education

cent of the project amount to the school district for its faithful performance of the equipment installment.

2. A payment bond that is executed and furnished as required by Arizona Revised Statutes Title 34, Chapter 2, Article 2 or Chapter 6, as applicable, in an amount equal to one hundred percent of the price specified in the contract for the protection of all persons supplying labor or material to the contractor or its subcontractors for the performance of the construction provided for in the contract, except that:
 - a. For job-order-contracting construction services, the payment bond shall cover the full amount of construction under the job-order-contracting construction services contract, shall not include any design services, preconstruction services, finance services, maintenance services, operations services or other related services included in the contract, may be a single bond for the full term of the contract, a separate bond for each year of a multiyear contract or a separate bond for each job order, as determined by the school district, and, if a single bond for the full term of the contract or a separate bond for each year of a multiyear contract, shall initially be based on the school district's reasonable estimate of the amount of construction that the school district believes is likely to actually be done during the full term of the contract or during the particular year of a multiyear contract, as applicable.
 - b. For construction-manager-at-risk construction services and design-build construction services, the amount of the payment bond shall be the price of construction and shall not include the cost of any design services, preconstruction services, finance services, maintenance services, operations services or other related services included in the contract. The conditions and provisions of the payment bond regarding the surety's obligations shall follow the form required under A.R.S. § 34-222(F) or A.R.S. § 34-610(F), as applicable.
- B. For design-bid-build construction, the bonds prescribed in subsection (A) shall be provided on and at the same time as execution of the construction contract. For construction-manager-at-risk, design-build and job-order-contracting construction services, the bonds prescribed in subsection (A) shall be provided only on and at the same time as execution of a contract or contract modification that commits the contractor to provide construction for a fixed price, guaranteed maximum price or other fixed amount within a designated time frame.
- C. If the prime contract or specifications require any persons supplying labor or materials in the prosecution of the work to furnish payment or performance bonds, these bonds shall be executed solely by a surety company or companies holding a certificate of authority to transact surety business in this state issued by the director of the Department of Insurance pursuant to Arizona Revised Statutes Title 20, Chapter 2, Article 1. Notwithstanding the provisions of any other statute, the bonds shall not be executed by an individual surety or sureties, even if the requirements of A.R.S. § 7-101 are satisfied.
- D. If a contractor fails to deliver the required performance bond or payment bond, the contractor's bid shall be rejected, its bid security shall be enforced, and award of the contract shall be made pursuant to Articles 10 and 11.
- E. This Section shall not be construed to limit the authority of the school district to require a performance bond or other security

in addition to those bonds or in circumstances other than specified in subsection (A).

- F. Any person who furnishes labor or material to the contractor or its subcontractors for the work provided in the contract, in respect of which a payment bond is furnished under this Section, and who has not been paid in full within 90 days from the date on which the last of the labor was performed or material was supplied by the person for whom the claim is made has the right to sue on the payment bond for any amount unpaid at the time the suit is instituted and to prosecute the action for the amount due the person. However, any person who has a contract with a subcontractor of the contractor, but no express or implied contract with the contractor furnishing the payment bond, has a right of action on the payment bond on giving the contractor, only, a written preliminary 20-day notice as provided for in A.R.S. § 33-992.01, subsection (C)(1), (2), (3), and (4) and subsections (D), (E), and (H), and upon giving written notice to the contractor within 90 days from the date on which the last of the labor was performed or material was supplied by the person for whom the claim is made. The person shall state in the notice the amount claimed and the name of the party for whom the labor was performed or to whom the material was supplied. The notice shall be personally served or sent by registered mail, postage prepaid, in an envelope addressed to the contractor at any place the contractor maintains an office or conducts business.

Historical Note

Adopted effective December 17, 1987 (Supp. 87-4). Section repealed; new Section made by final exempt rulemaking at 21 A.A.R. 1525, effective July 1, 2015 (Supp. 15-3).

R7-2-1104. Contract Payment Retention and Substitute Security

- A. Ten percent of all construction contract payments shall be retained by the school district as insurance of proper performance of the contract or, at the option of the contractor, a substitute security may be provided by the contractor pursuant to this Section. The contractor is entitled to all interest from any such substitute security. When the contract is fifty percent completed, one-half of the amount retained or securities substituted pursuant to this Section shall be paid to the contractor upon the contractor's request provided the contractor is making satisfactory progress on the contract and there is no specific cause or claim requiring a greater amount to be retained. After the contract is fifty percent completed, no more than five percent of the amount of any subsequent progress payments made under the contract shall be retained providing the contractor is making satisfactory progress on the project, except if at any time the governing board determines satisfactory progress is not being made, ten percent retention shall be reinstated for all progress payments made under the contract subsequent to the determination.
- B. Notwithstanding subsection (A), there shall be no retention for job-order-contracting construction services contracts. The school district may elect to have no retention for construction-manager-at-risk and design-build construction services contracts. If the school district elects to have retention, then payment retention for construction-manager-at-risk and design-build contracts shall be in accordance with this Section.
- C. Retention applies only to amounts payable for construction and does not apply to amounts payable for design services, preconstruction services, finance services, maintenance services, operations services, or any other related services included in the contract.
- D. The form of substitute security is limited to the following:

1. An assignment of time certificates of deposit by financial institutions licensed by this state;
2. Share certificate of a financial institution or credit union authorized to transact business in this state; or
3. Security issued or guaranteed as to principal and interest by:
 - a. The United States;
 - b. The state;
 - c. Counties, municipalities and school districts within this state.

E. Conditions for use of substitute security.

1. A contractor may submit substitute security to replace contract payment retention if:
 - a. The use of substitute security is requested of the school district or designee for work performed under the contract. The contractor shall have the option of submitting the substitute security:
 - i. Prior to each progress payment in an amount of no less than five percent of each progress payment; or
 - ii. Once, prior to the first progress payment in an amount no less than five percent of the total contract amount.
 - b. The interest earned on such security shall accrue to the benefit of the contractor, but shall be retained until the school district has approved completion and acceptance of all work to be performed under the contract;
 - c. The term of such security shall not mature until after the estimated contract completion date; and
 - d. The security shall mature no later than one year after the estimated contract completion date.
2. The substitute security shall not be released without written approval by the school district.
3. A contractor may submit a single substitute security for more than one project provided that:
 - a. The amount of such security is sufficient to cover the aggregate retention amount;
 - b. The school district determines that such single substitute security is advantageous to the school district; and
 - c. Such security complies with the requirements of subsection (E)(1).

F. Any retention shall be paid or substitute security shall be returned to the contractor within 60 days after final completion and acceptance of work under the contract. Retention of payments by a school district longer than 60 days after final completion and acceptance requires a specific written finding by the governing board of the reasons justifying the delay in payment. No school district may retain any monies after 60 days which are in excess of the amount necessary to pay the expenses the governing board reasonably expects to incur in order to pay or discharge the expenses determined in the finding justifying the retention of monies.

G. The school district shall not accept any substitute security unless accompanied by a signed and acknowledged waiver of any right or power of the obligor to set off any claim against either the school district or the contractor in relationship to the security assigned. In any instance in which the school district accepts substitute security as provided in this Section, any subcontractor undertaking to perform any part of the contract is entitled to provide such security to the contractor.

Historical Note

Adopted effective December 17, 1987 (Supp. 87-4). Section repealed; new Section made by final exempt rulemaking at 21 A.A.R. 1525, effective July 1, 2015

(Supp. 15-3).

R7-2-1105. Progress Payments

- A.** Progress payments may be made by the school district to the contractor on the basis of a duly certified and approved estimate of the work performed during the preceding month if the contractor agrees to adhere to the provisions of A.R.S. § 41-2577(B), (D), and (F). Payment shall be made within 14 days after the estimate of the work is certified and approved, except that a percentage of all estimates shall be retained as provided in R7-2-1104. The estimate of the work shall be deemed received by the school district on submission of the estimate of the work to the school district or a person designated by the school district for the submission, review or approval of the estimate of the work. An estimate of the work submitted under this Section shall be considered approved and certified after seven days from the date of submission unless before that time the school district or designee prepares and issues a specific written finding detailing those items in the estimate of the work that are not approved and certified under the contract. The school district may withhold an amount from the progress payment sufficient to pay the expenses the school district reasonably expects to incur in correcting the deficiency set forth in the written finding. No contract for construction may materially alter the rights of any contractor, subcontractor or material supplier to receive prompt and timely payment as provided under this Section. On completion and acceptance of separate divisions of the contract on which the price is stated separately in the contract, payment may be made in full including retained percentages, less deductions, unless a substitute security has been provided pursuant to R7-2-1104.
- B.** Progress payments pursuant to subsection (A) are authorized for construction services contracts. The requirements of subsection (A) apply only to amounts payable in a construction services contract for construction and do not apply to amounts payable in a construction services contract for design services, preconstruction services, finance services, maintenance services, operations services or any other related services included in the contract.
- C.** A subcontractor may notify the school district, in writing, requesting that the subcontractor be notified by the school district in writing within five days from payment of each progress payment made to the contractor. The subcontractor's request remains in effect for the duration of the subcontractor's work on the project.
- D.** If any payment to a contractor is delayed after the date due, interest shall be paid at the rate of one percent per month, or a fraction of a month, on such unpaid balance as may be due.

R7-2-1106. Procurement of Construction Using Alternative Project Delivery Methods

- A.** A school district may use an alternative project delivery method if it determines in writing that such alternative project delivery method is advantageous to the school district. The following factors may be used for such determination:
1. Cost and cost control method;
 2. Value engineering;
 3. Market conditions;
 4. Schedule;
 5. Required specialized expertise;
 6. Technical complexity of the project; or
 7. Project management.

B. Use of alternative project delivery methods

1. Alternative project delivery methods for construction services shall be procured as provided in R7-2-1100.
2. For design-build construction services and construction-manager-at-risk construction services, the school district is limited to one contract per procurement.
 - a. Alternatively, for construction-manager-at-risk construction services, a school district may elect separate contracts for preconstruction services during the design phase, for construction during the construction phase and for any other construction services.
 - b. Alternatively, for design-build construction services, a school district may elect separate contracts for preconstruction services and design services during the design phase, for construction and design services during the construction phase and for any other construction services.

3. For job-order-contracting construction services, the school district may award a single contract, or multiple contracts for similar job-order-contracting construction services to be awarded to separate persons. If the school district enters into the number of contracts specified under the request for qualifications, the procurement ends. After that time the school district may not use the procurement or any existing final list in the procurement as the basis for entering into a contract with any other person that participated in the procurement.
4. All construction-manager-at-risk construction services or design-build construction services included in a procurement shall be limited to construction services to be performed at a single location, a common location or, if the construction services are all for a similar purpose, multiple locations. 6. In determining the persons to participate in any interviews, in determining the persons to be on the final list, and in determining the order on the final list, the selection committee shall use and consider only the criteria and weighting of criteria in the request for qualifications. No

If a smaller number of persons respond to the request for qualifications or if one or more persons drop out of the procurement so there is a smaller number of persons participating in the procurement, the school district, as the school district determines necessary and appropriate, may elect to proceed with the participating persons if there are at least two participating responsive and responsible persons. Alternatively, the school district may elect to terminate the procurement.
 - b. As to a request for qualifications to be negotiated pursuant to R7-2-1110(D), if only one responsive and responsible person responds to the request for qualifications or if one or more persons drop out of the procurement so that only one responsive and responsible person remains in the procurement, the school district may elect to proceed with the procurement with only one person if the governing board determines in writing that the negotiated fee is fair and reasonable and that either other prospective persons had reasonable opportunity to respond or there is not adequate time for a resolicitation.
 - c. If a person on the final list withdraws or is removed from the procurement and the selection committee determines that it is advantageous to the school district, the selection committee may replace that person on the final list with another person that submitted qualifications in the procurement and that is selected as the next most qualified.

 3. The selection committee shall conduct interviews with the number of persons specified in the request for qualifications.
- B. Based solely on the selection criteria and relative weights for selection of the persons on the final list and their order on the final list, the selection committee shall select the persons for the final list and, in the case of a final list for a contract that will be negotiated under subsection (D), rank the persons in order of preference.

If the school district is not able to negotiate a satisfactory contract with the highest qualified person on the final list, at compensation and on other contract terms the school district determines to be fair and reasonable, the school district shall formally terminate negotiations with that person. The school district shall then undertake negotiations with the next most qualified person on the final list in sequence until an agreement is reached or a determination is made to reject all persons on the final list.
 3. If the procurement is for multiple contracts for similar job-order-contracting construction services to be awarded to separate persons, there is one final list and the school district shall enter into separate negotiations for contracts with the number of the highest qualified persons on the final list equal to the number of contracts to be awarded. If the school district is not able to negotiate a satisfactory contract with a person with whom the school district has

The school district shall then undertake negotiations for a contract with the next most qualified person on the final list with whom the school district is not then negotiating and with whom the school district has not previously negotiated in sequence until an agreement is reached for some or all of the multiple contracts included in the request for qualifications or a determination is made to reject all persons on the final list.

The construction to be commenced may be the entire project or may be one or more phased parts of the project.
- D.** For negotiated construction-manager-at-risk and design-build contracts, preconstruction services, general conditions, schedules, construction contingency, and construction fees shall be part of the contract. The school district may use methods other than competitive bidding to assure itself that the price the school district pays to the contractor for self-performed work is fair and reasonable. Permitted methods to evaluate fairness and reasonableness of the price of self-performed work include evaluation of the contractor's proposed scope of work and price for self-performed work by an estimator who is hired and paid by the school district, who is independent of the contractor and who may be an employee of the school district. Although the school district may elect to so require, nothing in Articles 10 and 11 shall be construed or interpreted to require the school district to require a contractor desiring to self-perform part of the construction work to competitively bid that part of the construction work against other contractors in a bid competition.
- G.** For all construction services contracts, the following requirements apply to the construction work to be performed by subcontractors and do not apply to construction work that the school district and the contractor agree in writing will be self-performed by the contractor:

If unusual circumstances render the above methods impractical, the school district may employ other disposition methods, including appraisal or barter, provided the school district makes a written determination that such procedure is advantageous to the school district. Only United States Postal Money Orders, certified checks, cashiers' checks or cash shall be accepted for sales of surplus material unless otherwise approved by the school district.
 2. Competitive sealed bidding.
 - a. Notice for sale bids shall be publicly available from the school district at least 10 days before the due date set for bids. 5. Before surplus materials are disposed of by trade-in to a vendor for credit on an acquisition, the school district shall approve such disposal. The school district shall base this determination on whether the trade-in value is expected to exceed the value realized through the sale or other disposition of such materials.
6. An employee of the school district or a governing board member, or an employee of a school district's agent conducting an auction on behalf of the school district, shall not directly or indirectly purchase or agree with another person to purchase surplus property if said employee or board member is, or has been, directly or indirectly involved in the purchase, disposal, maintenance, or preparation for sale of the surplus material.

On a motion for a rehearing, the hearing officer may open the decision, take additional testimony, amend findings of fact and conclusions of law or make new findings and conclusions, and direct the entry of a new decision.

RULES

A.R.S. § 41-1001(17) states: “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The Arizona Administrative Code is where the official rules of the state of Arizona are published. The Code is the official codification of rules that govern state agencies, boards, and commissions. Virtually everything in your life is affected in some way by rules published in the Arizona Administrative Code, from the quality of air you breathe to the licensing of your dentist. This chapter is one of more than 230 in the Code compiled in 21 Titles.

ADMINISTRATIVE CODE SUPPLEMENTS

Rules filed by an agency to be published in the Administrative Code are updated quarterly. Supplement release dates are printed on the footers of each chapter:

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2016 is cited as Supp. 16-1.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the Arizona Administrative Register for recent updates to rule Sections.

ARTICLES AND SECTIONS

Rules in chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering system separated into subsections.

HISTORICAL NOTES AND EFFECTIVE DATES

Historical notes inform the user when the last time a Section was updated in the Administrative Code. Be aware, since the Office publishes each quarter by entire chapters, not all Sections are updated by an agency in a supplement release. Many times just one Section or a few Sections may be updated in the entire chapter.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority note to make rules are often included at the beginning of a chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in the introduction of a chapter can be found at the Secretary of State’s website, www.azsos.gov/services/legislative-filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the Arizona Administrative Register online at www.azsos.gov/rules, click on the Administrative Register link.

In the Administrative Code the Office includes editor’s notes at the beginning of a chapter indicating that certain rulemaking Sections were made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

EXEMPTIONS AND PAPER COLOR

If you are researching rules and come across rescinded chapters on a different paper color, this is because the agency filed a Notice of Exempt Rulemaking. At one time the office published exempt rules on either blue or green paper. Blue meant the authority of the exemption was given by the Legislature; green meant the authority was determined by a court order. In 2001 the Office discontinued publishing rules using these paper colors.

PERSONAL USE/COMMERCIAL USE

This chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit, should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1., R1-1-113.

Public Services managing rules editor, Rhonda Paschal, assisted with the editing of this chapter.

TITLE 9. HEALTH SERVICES**CHAPTER 10. DEPARTMENT OF HEALTH SERVICES - HEALTH CARE INSTITUTIONS: LICENSING**

Editor's Note: The heading for 9 A.A.C. 10 changed from "Licensure" to "Licensing" per a request from the Department of Health Services (Supp. 03-4).

Editor's Note: The Office of the Secretary of State publishes all Chapters on white paper (Supp. 01-2).

Editor's Note: This Chapter contains rules which were adopted, amended, and repealed under exemptions from the provisions of the Administrative Procedure Act (A.R.S. Title 41, Chapter 6) pursuant to Laws 1993, Ch. 163, § 3(B); Laws 1996, Ch. 329, § 5; Laws 1998, Ch. 178 § 17, and Laws 1999, Ch. 311. Exemption from A.R.S. Title 41, Chapter 6 means that the Department of Health Services did not submit these rules to the Governor's Regulatory Review Council for review; the Department may not have submitted notice of proposed rulemaking to the Secretary of State for publication in the Arizona Administrative Register; the Department was not required to hold public hearings on these rules; and the Attorney General did not certify these rules. Because this Chapter contains rules which are exempt from the regular rulemaking process, the Chapter is printed on blue paper.
