RULES

A.R.S. § 41-1001(17) states: “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The Arizona Administrative Code is where the official rules of the state of Arizona are published. The Code is the official codification of rules that govern state agencies, boards, and commissions. Virtually everything in your life is affected in some way by rules published in the Arizona Administrative Code, from the quality of air you breathe to the licensing of your dentist. This chapter is one of more than 230 in the Code compiled in 21 Titles.

ADMINISTRATIVE CODE SUPPLEMENTS

Rules filed by an agency to be published in the Administrative Code are updated quarterly. Supplement release dates are printed on the footers of each chapter:

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2016 is cited as Supp. 16-1.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the Arizona Administrative Register for recent updates to rule Sections.

ARTICLES AND SECTIONS

Rules in chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering system separated into subsections.

HISTORICAL NOTES AND EFFECTIVE DATES

Historical notes inform the user when the last time a Section was updated in the Administrative Code. Be aware, since the Office publishes each quarter by entire chapters, not all Sections are updated by an agency in a supplement release. Many times just one Section or a few Sections may be updated in the entire chapter.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority note to make rules are often included at the beginning of a chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in the introduction of a chapter can be found at the Secretary of State’s website, www.azsos.gov/services/legislative-filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the Arizona Administrative Register online at www.azsos.gov/rules, click on the Administrative Register link.

In the Administrative Code the Office includes editor’s notes at the beginning of a chapter indicating that certain rulemaking Sections were made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

EXEMPTIONS AND PAPER COLOR

If you are researching rules and come across rescinded chapters on a different paper color, this is because the agency filed a Notice of Exempt Rulemaking. At one time the office published exempt rules on either blue or green paper. Blue meant the authority of the exemption was given by the Legislature; green meant the authority was determined by a court order. In 2001 the Office discontinued publishing rules using these paper colors.

PERSONAL USE/COMMERCIAL USE

This chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit, should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1., R1-1-113.

Public Services managing rules editor, Rhonda Paschal, assisted with the editing of this chapter.

- C. If the eligible member elects to pay for service credit by Irrevocable Payroll Deduction Authorization, ASRS shall prepare an Irrevocable Payroll Deduction Authorization and send it to the eligible member for signature. The member shall ensure that the ASRS receives the signed Irrevocable Payroll Deduction Authorization within 30 days after the date on the Irrevocable Payroll Deduction Authorization. The signed Irrevocable Payroll Deduction Authorization becomes irrevocable upon receipt by the ASRS.
- D. At the time the eligible member signs the Irrevocable Payroll Deduction Authorization the eligible member may elect to use termination pay towards the balance of the Irrevocable Payroll Deduction Authorization if the eligible member terminates employment. If the eligible member chooses this option, the eligible member shall complete the Termination Pay Addendum to the Irrevocable Payroll Deduction Authorization and return it to the ASRS along with the remainder of the Irrevocable Payroll Deduction Authorization that includes the following:

- F. The ASRS shall transmit the Irrevocable Payroll Deduction Authorization to the active member's ASRS employer, and the ASRS employer shall implement the deduction on the first pay period after receiving the Irrevocable Payroll Deduction Authorization.
- G. If a deduction is not made under an Irrevocable Payroll Deduction Authorization within six months after the member signs the authorization, the authorization lapses and the member may make another request, which is recalculated based on the new request date unless the failure to begin deductions is due to an ASRS error.
- H. A period of leave of absence, long-term disability, or Presidential Call-up shall not cancel the Irrevocable Payroll Deduction Authorization. The ASRS employer shall resume deductions immediately upon the member's return to that employment. The period during which the member is on leave of absence, on long-term disability, or leaves work because of a Presidential Call-up is not included in the 20-year payment time limitation under subsection (E)(2). ment of the intent to purchase the remaining amount due in a lump sum.

- K. When the member notifies ASRS of retirement or termination from all ASRS employment and requests to pay off the Irrevocable Payroll Deduction Authorization, the ASRS shall send the member a PDA pay-off letter to the mailing address given by the member. The ASRS shall calculate the amount owed by the member and reduce the amount owed by any excess interest that the member has paid.
- L. Within 30 days of the date of the PDA pay-off letter, the member shall ensure that the ASRS receives the completed SP Payment Request form with the information specified in R2-8-502(D)(2). The member may purchase the remaining service credit by one or more of the following methods:

For example, the first supplement for the first quarter of 2016 is cited as Supp. 16-1.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the Arizona Administrative Register for recent updates to rule Sections.

ARTICLES AND SECTIONS

Rules in chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering system separated into subsections.

HISTORICAL NOTES AND EFFECTIVE DATES

Historical notes inform the user when the last time a Section was updated in the Administrative Code. Be aware, since the Office publishes each quarter by entire chapters, not all Sections are updated by an agency in a supplement release. Many times just one Section or a few Sections may be updated in the entire chapter.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority note to make rules are often included at the beginning of a chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in the introduction of a chapter can be found at the Secretary of State’s website, www.azsos.gov/services/legislative-filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the Arizona Administrative Register online at www.azsos.gov/rules, click on the Administrative Register link.

In the Administrative Code the Office includes editor’s notes at the beginning of a chapter indicating that certain rulemaking Sections were made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

EXEMPTIONS AND PAPER COLOR

If you are researching rules and come across rescinded chapters on a different paper color, this is because the agency filed a Notice of Exempt Rulemaking. At one time the office published exempt rules on either blue or green paper. Blue meant the authority of the exemption was given by the Legislature; green meant the authority was determined by a court order. In 2001 the Office discontinued publishing rules using these paper colors.

PERSONAL USE/COMMERCIAL USE

This chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit, should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1., R1-1-113.

“Adulterate” means to change a pesticide so that:

“Bulk release” means the release of any pesticide or mixture of pesticides that poses a potential risk to property, human health, or the environment in volumes greater than those prescribed by the pesticide label for the application site. 8. Laws and regulations. Applicable State and Federal laws and regulations.
- B. Commercial Certification Categories, 40 CFR 171.4(c)(1) through (6) and (8) through (10).**
1. Agricultural pest control.
 - a. Plant. Applicators must demonstrate practical knowledge of crops grown and the specific pests of those crops on which they may be using restricted use pesticides. The importance of such competency is amplified by the extensive areas involved, the quantities of pesticides needed, and the ultimate use of many commodities as food and feed. Practical knowledge is required concerning soil and water problems, pre-harvest intervals, re-entry intervals, phytotoxicity, and potential for environmental contamination, non-target injury and community problems resulting from the use of restricted use pesticides in agricultural areas.
 - b. Animal. Applicators applying pesticides directly to animals must demonstrate practical knowledge of such animals and their associated pests. A practical knowledge is also required concerning specific pesticide toxicity and residue potential, since host animals will frequently be used for food. Further, the applicator must know the relative hazards associated with such factors as formulation, application techniques, age of animals, stress and extent of treatment.
 2. Forest pest control. Applicators shall demonstrate practical knowledge of types of forests, forest nurseries, and seed production in this state and the pests involved. They shall possess practical knowledge of the cyclic occurrence of certain pests and specific population dynamics as a basis for programming pesticide applications. A practical knowledge is required of the relative biotic agents and their vulnerability to the pesticides to be applied. Because forest stands may be large and frequently include natural aquatic habitats and harbor wildlife, the consequences of pesticide use may be difficult to assess. The applicator must therefore demonstrate practical knowledge of control methods which will minimize the possibility of secondary problems such as unintended effects on wildlife. Proper use of specialized equipment must be demonstrated, especially as it may relate to meteorological factors and adjacent land use.
 3. Seed-treatment. Applicators shall demonstrate practical knowledge of types of seeds that require chemical protection against pests and factors such as seed coloration, carriers, and surface active agents which influence pesticide binding and may affect germination. They must demonstrate practical knowledge of hazards associated with handling, sorting and mixing, and misuse of treated seed such as introduction of treated seed into food and feed channels, as well as proper disposal of unused treated seeds.
 4. Aquatic pest control. Applicators shall demonstrate practical knowledge of the secondary effects which can be caused by improper application rates, incorrect formulations, and faulty application of restricted use pesticides used in this category. They shall demonstrate practical knowledge of various water use situations and the potential of downstream effects. Further, they must have practical knowledge concerning potential pesticide effects on plants, fish, birds, beneficial insects and other organisms which may be present in aquatic environments. These applicators shall demonstrate practical knowledge of the principles of limited area application.
 5. Right-of-way pest control. Applicators shall demonstrate practical knowledge of a wide variety of environments, since rights-of-way can traverse many different terrains, including waterways. They shall demonstrate practical knowledge of problems on runoff, drift, and excessive foliage destruction and ability to recognize target organisms. They shall also demonstrate practical knowledge of the nature of herbicides and the need for containment of these pesticides within the right-of-way area, and the impact of their application activities in the adjacent areas and communities.
 6. Public health pest control. Applicators shall demonstrate practical knowledge of vector-disease transmission as it relates to and influences application programs. A wide variety of pests is involved, and it is essential that they be known and recognized, and appropriate life cycles and habitats be understood as a basis for control strategy. These applicators shall have practical knowledge of a great variety of environments ranging from streams to those conditions found in buildings. They shall also have practical knowledge of the importance and employment of such non-chemical control methods as sanitation, waste disposal, and drainage.
 7. Regulatory pest control. Applicators shall demonstrate practical knowledge of regulated pests, applicable laws relating to quarantine and other regulation of pests, and the potential impact on the environment of restricted use pesticides used in suppression and eradication programs. They shall demonstrate knowledge of factors influencing introduction, spread, and population dynamics of relevant pests. Their knowledge shall extend beyond that required by their immediate duties, since their services are frequently required in other areas of the country where emergency measures are invoked to control regulated pests and where individual judgments must be made in new situations.
 8. Demonstration and research pest control. Persons demonstrating the safe and effective use of pesticides to other applicators and the public will be expected to meet comprehensive standards reflecting a broad spectrum of pesticide uses. Many different pest problems situations will be encountered in the course of activities associated with demonstration, and practical knowledge of problems, pests, and population levels occurring in each demonstration situation is required. Further, they shall demonstrate an understanding of a pesticide-organism interaction and the importance of integrating pesticide use with other control methods. In general, it would be expected that applicators doing demonstration pest control work possess a practical knowledge of all of the standards detailed in (G)(1). In addition, they shall meet the specific standards required for subsections (c)(1) through (7) of this subsection as may be applicable to their particular activity.
- C. Private Certification, 40 CFR 171.5(a)(1) through (5).**
1. Recognize common pests to be controlled and damage caused by them.

2. Read and understand the label and labeling information, including the common name of pesticides the applicator applied; pest(s) to be controlled, timing and methods of application; safety precautions; any pre-harvest or re-entry restrictions; and any specific disposal procedures.
3. Apply pesticides in accordance with label instructions and warnings, including the ability to prepare the proper concentration of pesticide to be used under particular circumstances taking into account such factors as area to be covered, speed at which application equipment will be driven, and the quantity dispersed in a given period of operation.
4. Recognize local environmental situations that must be considered during application to avoid contamination.
5. Recognize poisoning symptoms and procedures to follow in case of a pesticide accident.

(2) HSD = Horwitz Standard Deviation = $(\text{Claim } \%) \text{ HCV } \%/100$

(3) “Uniform” samples are homogeneous products which can be analyzed by established procedures. In most cases, validated analytical methods are available for these samples.

(4) “Non-uniform” samples are non-homogeneous samples or products which are difficult to sample or subsample. These products may not be uniformly mixed or packaged and include some special formulations like natural products. These types of samples include fertilizer containing pesticides, pesticides in pressurized containers, strips, plastic bands, collars, grain and other carriers. Natural product formulations such as rotenone and pyrethrin are also included in this group. When it is necessary to use methods which are not validated for accuracy, precision, and reproducibility in a specific matrix, the “non-uniform” guidelines may be used for allowed deviations. States may use judgment in placing a sample into the “uniform” or “non-uniform” category.

The Assistant Director shall, within 10 business days of receipt of the written evidence of the emergency or completion of the investigation, issue a letter to the requesting party confirming or denying the request for an agricultural emergency.

C. Occurrence of agricultural emergency.

1. If information is obtained after business hours, or during a weekend or holiday, showing that a declaration of agricultural emergency is necessary, the requesting party shall inform the Department, orally, the next business day following the emergency and provide the following information, in writing, within 72 hours of the emergency or notification:
 - a. The cause of the emergency,
 - b. The area where the emergency occurred,
 - c. A brief explanation of why early entry was necessary,
 - d. Why other methods could not be used to avoid the early entry, and
 - e. The justification that substantial economic loss would have occurred.
2. If a grower or requesting party does not submit the written evidence of the emergency in subsection (B)(1) or if the Assistant Director questions whether the written evidence of emergency could have occurred before the emergency, or the validity or adequacy of the written evidence of the emergency, the Assistant Director shall investigate a grower's entry into the restricted-entry interval area and advise the requesting party of the reasons for the denial.
3. The Assistant Director shall within 10 business days of receipt of the evidence of emergency or completion of the investigation issue a letter to the requesting party confirming or denying the request for the agricultural emergency.

Adopted effective July 13, 1989 (Supp. 89-3). Section R3-3-1006 renumbered from R3-8-206 (Supp. 91-4).
Section repealed; new Section adopted effective October 8, 1998 (Supp. 98-4).

R3-3-1007. Violations and Civil Penalties

- A.** Serious violations. The base penalty for any serious violation is \$500 and no adjustment shall be made for mitigating circumstances. The penalty for a violation in which a person is killed or permanently disabled shall be the maximum allowed in A.R.S. §§ 3-3113 and 3-3114.
- B.** Nonserious violations. The Assistant Director shall calculate the base penalty for a nonserious violation and determine the civil penalty amount based on the factors prescribed in A.R.S. § 3-3113(I). If there are contributing or mitigating circumstances, the points may be adjusted, provided the adjustment is documented.

VIOLATION GRAVITY FACTOR

(1 - lowest; 4 - highest)

VIOLATION**GRAVITY**

Central Posting	1 - 2
Training	1 - 4
Decontamination	1 - 4
Personal Protective Equipment	1 - 4
Pesticide Applications and Notice	1 - 4
Pesticide Application Restrictions	2 - 4
Other Requirements	1 - 4

C. Size-of-business. The Assistant Director shall use:

1. The maximum number of employees at any one time during the previous 12 months from the date of notice, including only the Arizona branch offices to determine the size business category; or
2. A site-specific employee count, if the violation does not endanger employees at other locations of the business; or
3. The number of persons trained by a trainer during the previous 12 months that violate the training provisions of this Section.

SIZE-OF-BUSINESS

Size Category	Number of Employees or Number of People Trained
I	1-10
II	11-75
III	76-150
IV	More than 150

- D.** Base penalty. The Assistant Director shall calculate the base penalty for the alleged violation by using the violation gravity factor established in subsection (B) and applying the size-of-business category established in subsection (C).

BASE PENALTY

Gravity Factor	Size Category			
	I	II	III	IV
1	\$250	\$300	\$350	\$400
2	300	350	400	450
3	350	400	450	500
4	500	500	500	500

- E.** Combined or group violations. The Assistant Director may combine or group violations.

1. Violations may be combined and assessed one penalty if the violation does not cause any immediate danger to public health or safety or damage to property. Example: Eight workers on a harvest crew have received no training and there is no evidence of exposure. This situation may result in only one training penalty being assessed against the employer.
 2. Violations may be grouped if they have a common element and it is apparent which violation has the highest gravity. The penalty for a grouped violation is assessed on the violation with the highest gravity. The penalty for a grouped violation is assessed pursuant to the appropriate law or rule with the highest gravity. Example: Two crews from the same company are engaged in an improper handling activity and one crew is using a pesticide with a "danger" signal word, (skull and cross bones) while the other crew is using a pesticide with a "warning" signal word. This situation may result in the employer being assessed one penalty based on the penalty for the "danger" (skull and cross bones) violation.
- F.** If a decision is not reached in a negotiated settlement, the Director may assess a penalty pursuant to A.R.S. § 3-3114.

Historical Note

Adopted effective July 13, 1989 (Supp. 89-3). Section R3-3-1007 renumbered from R3-8-207 (Supp. 91-4).
Section repealed; new Section adopted effective October 8, 1998 (Supp. 98-4).

R3-3-1008. Penalty Adjustments

A. The Assistant Director shall assign an appropriate number of points for each of the following five factors to increase the base penalty for a serious violation, or increase or decrease the base penalty for a nonserious violation.

1. If the total adjustment points on a nonserious violation is less than 9, the base penalty is reduced; if it is more than 9, the base penalty is increased.
2. If the total adjustment points on a serious violation is 3 or less, the base penalty shall be imposed; if it is more than 3, the base penalty is increased.
3. If a violation is a repeated violation, as prescribed in R3-3-1011 for compliance history, a base penalty adjustment factor shall not be used in assessing a penalty.

B. The Assistant Director may reduce the base penalty for a non-serious violation, as determined in R3-3-1007(C), by as much as 80% depending upon the number of employees or trained persons, good faith, and history of previous violations.

FINAL PENALTY CALCULATION

	Nonserious Violation	Serious Violation
Number of Points	Penalty Adjustment	Penalty Adjustment
3 or below	Base -80%	Base Penalty
4	Base -65%	Base + 10%
5	Base -50%	Base + 20%
6	Base -35%	Base + 30%
7	Base -20%	Base + 40%
8	Base -5%	Base + 50%
9	Base Penalty	Base + 60%
10	Base + 20%	Base + 70%
11	Base + 35%	Base + 80%
12	Base + 50%	Base + 90%
13	Base + 65%	Base + 100%
14	Base + 80%	Base + 100%

15 or more Base + 100%

Base + 100%

Example: A business employs 26 people in Town A and 14 people in Town B. In addition, 35 seasonal people are employed during the harvest. The total annual employee positions equal 75. The following violations are found during an inspection: (1) No training for 35 seasonal workers on the harvest crew; (2) No available decontamination supplies; (3) No safety poster at the central posting location; (4) No emergency telephone number posted, and no medical facility location posted at the central posting location; (5) No posted pesticide application information at the central posting location.

Step 1. Use the *Violation Gravity Factor* table to determine the gravity of the violation.

- (1) Training, 1-4 points, all 35 workers are combined;
- (2) Decontamination, 1-43 points, no supplies were available within the prescribed distance and it has been 25 days since the most recent application;
- (3) - (5) Central Posting, 1-2

1 point, since the violations concerns the same factor, they are combined. (There is evidence that the old poster blew away and the pesticide application information is kept available in the secretary's desk, but it is not 'readily' available.)

Step 2. Use the *Size of Business* table to determine the size category.

75 employees falls into the size category II;

Step 3. Use the *Base Penalty* table to determine the base penalty. Use column II based on the *Size of Business* determination from step 2.

Violation 1, with a gravity factor of 2, equals a base penalty of \$350;

Violation 2, with a gravity factor of 3, equals a base penalty of \$400;

Violations 3, 4, and 5, with a gravity factor of 1, equals 1 base penalty of \$300.

Step 4. Using the *Base Adjustment Factors* table to calculate the adjustments, if any. In this case, the base adjustments are uniform in all categories except #4, culpability.

Pesticide. It was a indirect relationship because of the timing of the application and when the workers were in the treated area. 1 point.

Harm to Human Health. There was no harm to health and the pesticide had not been applied recently. 1 point.

Compliance History. This farm has no previous violation history. 0 points.

Culpability. The supervisor attended a "train-the-trainer" course two years ago and should have been aware of the requirements of the

worker protection standard. Therefore, for the first two violations the supervisor should have known about the requirements. For the last three violations, the central posting sign was not checked frequently enough to ensure compliance. For violations 1 and 2, 4 points for knowing or should have known; For violations 3, 4, and 5, 2 points for negligence. Good Faith. The inspector came back five days later and the workers were trained the day of the first inspection, the poster was posted and everything was in compliance. Since the employer corrected the violations quickly. -1 point.

Step 5. Add the points for each violation from Step 4.

Violation 1 $1 + 1 + 0 + 4 + -1 = 5$

Violation 2 $1 + 1 + 0 + 4 + -1 = 5$

Violations 3, 4, 5 $1 + 1 + 0 + 2 + -1 = 3$

Step 6. Using the *Final Penalty Calculation* table to determine the appropriate violation penalty adjustment that corresponds with the base adjustment factor point total. Use the definitions for nonserious or serious violations to determine the appropriate violation penalty adjustment column. In this case, use the nonserious penalty adjustment column.

Violation 1 5 points Base - 50% = 350-175 = \$175

Violation 2 5 points Base - 50% = 400-200 = \$200

Violations

3, 4, 53 points Base - 80% = 300-240 = \$60

Adjusted Penalty Total \$435

Historical Note

Adopted effective July 13, 1989 (Supp. 89-3). Section R3-3-1008 renumbered from R3-8-208 (Supp. 91-4). Section repealed; new Section adopted effective October 8, 1998 (Supp. 98-4).

R3-3-1009. Failure to Abate

- A. The Director shall issue a notification of failure-to-abate an alleged violation if a violation has not been corrected as specified on the citation. Failure-to-abate penalties, pursuant to A.R.S. § 3-3113(E), shall be applied if an employer or handler has not corrected a previous cited violation that is a final order of the Director. When determining the appropriate penalty amount, the Director shall take into consideration a good faith effort to abate the violation.
- B. If a person does not file a timely notice of contest within the 30-day contest period, the citation and proposed penalties shall be a final order of the Director.
- C. If a person files a notice of contest pursuant to A.R.S. § 3-3116(A), the period for the abatement shall not begin, as to those violations contested, until the day following the entry of the final order by the Director affirming the citation. If the person contests only the amount of the proposed penalty, the person shall correct the alleged violation within the prescribed abatement period.

Historical Note

Adopted effective October 8, 1998 (Supp. 98-4). Section heading corrected at request of the Department, Office File No. M11-60, filed February 23, 2011 (Supp. 09-4).

R3-3-1010. Calculation of Additional Penalties For Unabated Violations

- A. The Assistant Director shall calculate a daily penalty for unabated violations if failure to abate a serious or nonserious violation exists at the time of reinspection. That penalty shall

not be less than the penalty for the violation when cited, except as provided in subsection (C).

1. If no penalty was initially proposed, the Assistant Director shall determine a penalty. In no case shall the penalty be more than \$1,000 per day, the maximum allowed by A.R.S. § 3-3113(E).
 2. The daily proposed penalty shall be multiplied by the number of calendar days that the violation has continued unabated, except for the following: The number of days unabated shall be counted from the day following the abatement date specified in the final order. It shall include all calendar days between that date and the date of reinspection, excluding the date of reinspection.
- B. When calculating the additional daily penalty, the Assistant Director shall consider the extent that the violation has been abated, whether the employer has made a good faith effort to correct the violation, and it is beyond the employer's control to abate. Based on these factors, the Assistant Director may reduce or eliminate the daily penalty. Example: If three of five instances have been corrected, the daily proposed penalty (calculated as outlined in subsection (A) without regard to any partial abatement), may be reduced by the percentage of the total violations which have been corrected, in this instance, three of five, or 60%.

Historical Note

Adopted effective October 8, 1998 (Supp. 98-4).

R3-3-1011. Repeated or Willful Violations

- A. The Assistant Director shall calculate a penalty for each violation classified as serious or nonserious if similar violations are repeated within the last three years from the date of notice.
 1. The penalty for a repeated nonserious violation shall be doubled for the first repeated violation and tripled if the violation has been cited twice before, up to the maximum allowed by A.R.S. § 3-3113(A).
 2. The penalty for a repeated serious violation shall be multiplied five times for the first repeated violation and seven times if the violation has been cited twice before, up to the maximum allowed by A.R.S. § 3-3113(A).
 3. The penalty for a repeated serious violation in which someone is disabled or killed shall be multiplied 10 times for each repeated violation, up to the maximum allowed by A.R.S. § 3-3113(A).
 4. A repeated violation having no initial penalty shall be assessed for the first repeated violation as determined by this Article.
 5. If the Assistant Director determines, through documentation, that it is appropriate, the penalty may be multiplied by 10, up to the maximum allowed by A.R.S. § 3-3113(A).
- B. The Assistant Director may adjust the gravity based penalty by a multiplier up to 10 for any willful violation, up to the maximum allowed by A.R.S. § 3-3113(A).
- C. The Assistant Director shall not allow a reduction for any serious or nonserious willfully repeated violation.

Historical Note

Adopted effective October 8, 1998 (Supp. 98-4).

R3-3-1012. Citation; Posting

An employer shall post a citation prescribed at A.R.S. § 3-3110(C) for three days or until the violation is abated, whichever time period is longer.

Historical Note

New Section made by final rulemaking at 10 A.A.R. 276, effective March 6, 2004 (Supp. 04-1).

RULES

A.R.S. § 41-1001(17) states: “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The Arizona Administrative Code is where the official rules of the state of Arizona are published. The Code is the official codification of rules that govern state agencies, boards, and commissions. Virtually everything in your life is affected in some way by rules published in the Arizona Administrative Code, from the quality of air you breathe to the licensing of your dentist. This chapter is one of more than 230 in the Code compiled in 21 Titles.

ADMINISTRATIVE CODE SUPPLEMENTS

Rules filed by an agency to be published in the Administrative Code are updated quarterly. Supplement release dates are printed on the footers of each chapter:

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2016 is cited as Supp. 16-1.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the Arizona Administrative Register for recent updates to rule Sections.

ARTICLES AND SECTIONS

Rules in chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering system separated into subsections.

HISTORICAL NOTES AND EFFECTIVE DATES

Historical notes inform the user when the last time a Section was updated in the Administrative Code. Be aware, since the Office publishes each quarter by entire chapters, not all Sections are updated by an agency in a supplement release. Many times just one Section or a few Sections may be updated in the entire chapter.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority note to make rules are often included at the beginning of a chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in the introduction of a chapter can be found at the Secretary of State’s website, www.azsos.gov/services/legislative-filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the Arizona Administrative Register online at www.azsos.gov/rules, click on the Administrative Register link.

In the Administrative Code the Office includes editor’s notes at the beginning of a chapter indicating that certain rulemaking Sections were made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

EXEMPTIONS AND PAPER COLOR

If you are researching rules and come across rescinded chapters on a different paper color, this is because the agency filed a Notice of Exempt Rulemaking. At one time the office published exempt rules on either blue or green paper. Blue meant the authority of the exemption was given by the Legislature; green meant the authority was determined by a court order. In 2001 the Office discontinued publishing rules using these paper colors.

PERSONAL USE/COMMERCIAL USE

This chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit, should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1., R1-1-113.

Public Services managing rules editor, Rhonda Paschal, assisted with the editing of this chapter.

ARTICLE 1. DEFINITIONS**R4-11-101. Definitions**

The following definitions, and definitions in A.R.S. § 32-1201, apply to this Chapter:

“Analgesia” means a state of decreased sensibility to pain produced by using nitrous oxide (N₂O) and oxygen (O₂) with or without local anesthesia.

“Application” means, for purposes of Article 3 only, forms designated as applications and all documents and additional information the Board requires to be submitted with an application.

“Business Entity” means a business organization that offers to the public professional services regulated by the Board and is established under the laws of any state or foreign country, including a sole practitioner, partnership, limited liability partnership, corporation, and limited liability company, unless specifically exempted by A.R.S. § 32-1213(J).

“Calculus” means a hard mineralized deposit attached to the teeth.

“Certificate holder” means a denturist who practices denture technology under A.R.S. Title 32, Chapter 11, Article 5.

“Charitable Dental Clinic or Organization” means a non-profit organization meeting the requirements of 26 U.S.C. 501(c)(3) and providing dental or dental hygiene services.

“Clinical evaluation” means a dental examination of a patient named in a complaint regarding the patient's dental condition as it exists at the time the examination is performed.

“Closed subgingival curettage” means the removal of the inner surface of the soft tissue wall of a periodontal pocket in a situation where a flap of tissue has not been intentionally or surgically opened.

“Controlled substance” has the meaning prescribed in A.R.S. § 36-2501(A)(3).

“Credit hour” means one clock hour of participation in a recognized continuing dental education program.

“Deep sedation” is a drug-induced depression of consciousness during which a patient cannot be easily aroused but responds purposefully following repeated or painful stimulation. The ability to independently maintain ventilatory function may be impaired. The patient may require assistance in maintaining a patent airway, and spontaneous ventilation may be inadequate. Cardiovascular function is maintained.

“Dental laboratory technician” or “dental technician” has the meaning prescribed in A.R.S. § 32-1201(7).

“Dentist of record” means a dentist who examines, diagnoses, and formulates treatment plans for a patient and may provide treatment to the patient.

“Designee” means a person to whom the Board delegates authority to act on the Board's behalf regarding a particular task specified by this Chapter.

“Direct supervision” means, for purposes of Article 7 only, that a licensed dentist is present in the office and available to provide immediate treatment or care to a patient and observe a dental assistant's work.

“Disabled” means a dentist, dental hygienist, or denturist has totally withdrawn from the active practice of dentistry, dental hygiene, or denturism due to a permanent medical disability and based on a physician's order.

“Dispense for profit” means selling a drug or device for any amount above the administrative overhead costs to inventory.

“Documentation of attendance” means documents that contain the following information:

Name of sponsoring entity;
Course title;

Name of speaker; and
Date, time, and location of the course.

“Drug” means:

Articles recognized, or for which standards or specifications are prescribed, in the official compendium;
Articles intended for use in the diagnosis, cure, mitigation, treatment, or prevention of disease in the human body;
Articles other than food intended to affect the structure of any function of the human body; or
Articles intended for use as a component of any articles specified in this definition but does not include devices or components, parts, or accessories of devices.

“Emerging scientific technology” means any technology used in the treatment of oral disease that is not currently generally accepted or taught in a recognized dental or dental hygiene school and use of the technology poses material risks.

“Epithelial attachment” means the layer of cells that extends apically from the depth of the gingival (gum) sulcus (crevice) along the tooth, forming an organic attachment.

“Ex-parte communication” means a written or oral communication between a decision maker, fact finder, or Board member and one party to the proceeding, in the absence of other parties.

“General anesthesia” is a drug-induced loss of consciousness during which the patient is not arousable, even by painful stimulation. The ability to independently maintain ventilatory function is often impaired. The patient often requires assistance in maintaining a patent airway, and positive-pressure ventilation may be required because of depressed spontaneous ventilation or drug-induced depression of neuromuscular function. Cardiovascular function may be impaired.

“General supervision” means, for purposes of Article 7 only, a licensed dentist is available for consultation, whether or not the dentist is in the office, regarding procedures or treatment that the dentist authorizes and for which the dentist remains responsible.

“Homebound patient” means a person who is unable to receive dental care in a dental office as a result of a medically diagnosed disabling physical or mental condition.

“Jurisdiction” means the Board's power to investigate and rule on complaints that allege grounds for disciplinary action under A.R.S. Title 32, Chapter 11 or this Chapter.

“Licensee” means a dentist, dental hygienist, dental consultant, retired licensee, or person who holds a restricted permit under A.R.S. §§ 32-1237 or 32-1292.

State Board of Dental Examiners

“Local anesthesia” is the elimination of sensations, such as pain, in one part of the body by the injection of an anesthetic drug.

“Minimal sedation” is a minimally depressed level of consciousness that retains a patient’s ability to independently and continuously maintain an airway and respond appropriately to light tactile stimulation, not limited to reflex withdrawal from a painful stimulus, or verbal command and that is produced by a pharmacological or non-pharmacological method or a combination thereof. Although cognitive function and coordination may be modestly impaired, ventilatory and cardiovascular functions are unaffected. In accord with this particular definition, the drugs or techniques used should carry a margin of safety wide enough to render unintended loss of consciousness unlikely.

“Moderate sedation” is a drug-induced depression of consciousness during which a patient responds purposefully to verbal commands either alone or accompanied by light tactile stimulation, not limited to reflex withdrawal from a painful stimulus. No interventions are required to maintain a patent airway, and spontaneous ventilation is adequate. Cardiovascular function is maintained. The drugs or techniques used should carry a margin of safety wide enough to render unintended loss of consciousness unlikely. Repeated dosing of a drug before the effects of previous dosing can be fully recognized may result in a greater alteration of the state of consciousness than intended by the permit holder.

“Nitrous oxide analgesia” means nitrous oxide (N₂O/O₂) used as an inhalation analgesic.

“Nonsurgical periodontal treatment” means plaque removal, plaque control, supragingival and subgingival scaling, root planing, and the adjunctive use of chemical agents.

“Official compendium” means the latest revision of the United States Pharmacopeia and the National Formulary and any current supplement.

“Oral sedation” is the enteral administration of a drug or non-drug substance or combination inhalation and enterally administered drug or non-drug substance in a dental office or dental clinic to achieve minimal or moderate sedation.

“Parenteral sedation” is a minimally depressed level of consciousness that allows the patient to retain the ability to independently and continuously maintain an airway and respond appropriately to physical stimulation or verbal command and is induced by a pharmacological or non-pharmacological method or a combination of both methods of administration in which the drug bypasses the gastrointestinal tract.

“Patient of record” means a patient who has undergone a complete dental evaluation performed by a licensed dentist.

“Periodontal examination and assessment” means to collect and correlate clinical signs and patient symptoms that point to either the presence of or the potential for periodontal disease.

“Periodontal pocket” means a pathologic fissure bordered on one side by the tooth and on the opposite side by crevicular epithelium and limited in its depth by the epithelial attachment.

“Plaque” means a film-like sticky substance composed of mucoid secretions containing bacteria and toxic products, dead tissue cells, and debris.

“Polish” means, for the purposes of A.R.S. § 32-1291(B) only, a procedure limited to the removal of plaque and extrinsic

stain from exposed natural and restored tooth surfaces that utilizes an appropriate rotary instrument with rubber cup or brush and polishing agent. A licensee or dental assistant shall not represent that this procedure alone constitutes an oral prophylaxis.

“Prescription-only device” means:

Any device that is restricted by the federal act, as defined in A.R.S. § 32-1901, to use only under the supervision of a medical practitioner; or

Any device required by the federal act, as defined in A.R.S. § 32-1901, to bear on its label the legend “Rx Only.”

“Prescription-only drug” does not include a controlled substance but does include:

Any drug that, because of its toxicity or other potentiality for harmful effect, the method of its use, or the collateral measures necessary to its use, is not generally recognized among experts, qualified by scientific training and experience to evaluate its safety and efficacy, as safe for use except by or under the supervision of a medical practitioner;

Any drug that is limited by an approved new drug application under the federal act or A.R.S. § 32-1962 to use under the supervision of a medical practitioner;

Every potentially harmful drug, the labeling of which does not bear or contain full and adequate directions for use by the consumer; or

Any drug required by the federal act to bear on its label the legend “RX Only.”

“President’s designee” means the Board’s executive director, an investigator, or a Board member acting on behalf of the Board president.

“Preventative and therapeutic agents” means substances used in relation to dental hygiene procedures that affect the hard or soft oral tissues to aid in preventing or treating oral disease.

“Prophylaxis” means a scaling and polishing procedure performed on patients with healthy tissues to remove coronal plaque, calculus, and stains.

“Public member” means a person who is not a dentist, dental hygienist, dental assistant, denturist, or dental technician.

“Recognized continuing dental education” means a program whose content directly relates to the art and science of oral health and treatment, provided by a recognized dental school as defined in A.R.S. § 32-1201(18), recognized dental hygiene school as defined in A.R.S. § 32-1201(17), or recognized denturist school as defined in A.R.S. § 32-1201(19), or sponsored by a national or state dental, dental hygiene, or denturist association, American Dental Association, Continuing Education Recognition Program (ADA CERP) or Academy of General Dentistry, Program Approval for Continuing Education (AGD PACE) approved provider, dental, dental hygiene, or denturist study club, governmental agency, commercial dental supplier, non-profit organization, accredited hospital, or programs or courses approved by other state, district, or territorial dental licensing boards.

RULES

A.R.S. § 41-1001(17) states: “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The Arizona Administrative Code is where the official rules of the state of Arizona are published. The Code is the official codification of rules that govern state agencies, boards, and commissions. Virtually everything in your life is affected in some way by rules published in the Arizona Administrative Code, from the quality of air you breathe to the licensing of your dentist. This chapter is one of more than 230 in the Code compiled in 21 Titles.

ADMINISTRATIVE CODE SUPPLEMENTS

Rules filed by an agency to be published in the Administrative Code are updated quarterly. Supplement release dates are printed on the footers of each chapter:

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2016 is cited as Supp. 16-1.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the Arizona Administrative Register for recent updates to rule Sections.

ARTICLES AND SECTIONS

Rules in chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering system separated into subsections.

HISTORICAL NOTES AND EFFECTIVE DATES

Historical notes inform the user when the last time a Section was updated in the Administrative Code. Be aware, since the Office publishes each quarter by entire chapters, not all Sections are updated by an agency in a supplement release. Many times just one Section or a few Sections may be updated in the entire chapter.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority note to make rules are often included at the beginning of a chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in the introduction of a chapter can be found at the Secretary of State’s website, www.azsos.gov/services/legislative-filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the Arizona Administrative Register online at www.azsos.gov/rules, click on the Administrative Register link.

In the Administrative Code the Office includes editor’s notes at the beginning of a chapter indicating that certain rulemaking Sections were made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

EXEMPTIONS AND PAPER COLOR

If you are researching rules and come across rescinded chapters on a different paper color, this is because the agency filed a Notice of Exempt Rulemaking. At one time the office published exempt rules on either blue or green paper. Blue meant the authority of the exemption was given by the Legislature; green meant the authority was determined by a court order. In 2001 the Office discontinued publishing rules using these paper colors.

PERSONAL USE/COMMERCIAL USE

This chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit, should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1., R1-1-113.

TITLE 4. PROFESSIONS AND OCCUPATIONS**CHAPTER 16. ARIZONA MEDICAL BOARD**

(Authority: A.R.S. § 32-1401 et seq.)

Editor's Note: Supp. 16-1 has rules amended as final exempt rules. The proposed exempt rules were published on the Board's website for 30 days and the end which no additional public comments were received (Supp. 16-1).

Editor's Note: Supp. 15-4 has rules that were submitted as final exempt rules. Pursuant to Laws 2015, Chapter 251, Section 3, the Board was required to provide public notice and an opportunity for the public to comment on its proposed exempt rules. Three public meetings were conducted. Even though the proposed exempt rules were not published in the Register, the Office of the Secretary of State makes a distinction between exempt rulemakings and final exempt rulemakings. Exempt rulemakings are those that are submitted to the Office of the Secretary of State without receiving public comment (Supp. 15-4).

Editor's Note: The name of the Allopathic Board of Medical Examiners was changed to the Arizona Medical Board by Laws 2002, Ch. 254, § 9, effective August 22, 2002 (Supp. 03-2).

RULES

A.R.S. § 41-1001(17) states: “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The Arizona Administrative Code is where the official rules of the state of Arizona are published. The Code is the official codification of rules that govern state agencies, boards, and commissions. Virtually everything in your life is affected in some way by rules published in the Arizona Administrative Code, from the quality of air you breathe to the licensing of your dentist. This chapter is one of more than 230 in the Code compiled in 21 Titles.

ADMINISTRATIVE CODE SUPPLEMENTS

Rules filed by an agency to be published in the Administrative Code are updated quarterly. Supplement release dates are printed on the footers of each chapter:

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2016 is cited as Supp. 16-1.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the Arizona Administrative Register for recent updates to rule Sections.

ARTICLES AND SECTIONS

Rules in chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering system separated into subsections.

HISTORICAL NOTES AND EFFECTIVE DATES

Historical notes inform the user when the last time a Section was updated in the Administrative Code. Be aware, since the Office publishes each quarter by entire chapters, not all Sections are updated by an agency in a supplement release. Many times just one Section or a few Sections may be updated in the entire chapter.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority note to make rules are often included at the beginning of a chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in the introduction of a chapter can be found at the Secretary of State’s website, www.azsos.gov/services/legislative-filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the Arizona Administrative Register online at www.azsos.gov/rules, click on the Administrative Register link.

In the Administrative Code the Office includes editor’s notes at the beginning of a chapter indicating that certain rulemaking Sections were made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

EXEMPTIONS AND PAPER COLOR

If you are researching rules and come across rescinded chapters on a different paper color, this is because the agency filed a Notice of Exempt Rulemaking. At one time the office published exempt rules on either blue or green paper. Blue meant the authority of the exemption was given by the Legislature; green meant the authority was determined by a court order. In 2001 the Office discontinued publishing rules using these paper colors.

PERSONAL USE/COMMERCIAL USE

This chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit, should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1., R1-1-113.

Public Services managing rules editor, Rhonda Paschal, assisted with the editing of this chapter.

THE ARIZONA ADMINISTRATIVE CODE

Within the stated calendar quarter, this Chapter contains all rules made, amended, repealed, renumbered, and recodified; or rules that have expired or were terminated due to an agency being eliminated under sunset law. These rules were either certified by the Governor's Regulatory Review Council or the Attorney General's Office; or exempt from the rulemaking process, and filed with the Office of the Secretary of State. Refer to the historical notes for more information. Please note that some rules you are about to remove may still be in effect after the publication date of this Supplement. Therefore, all superseded material should be retained in a separate binder and archived for future reference.

PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), accepts state agency rule filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the Administrative Code. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

RULES

A.R.S. § 41-1001(17) states: “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The Arizona Administrative Code is where the official rules of the state of Arizona are published. The Code is the official codification of rules that govern state agencies, boards, and commissions. Virtually everything in your life is affected in some way by rules published in the Arizona Administrative Code, from the quality of air you breathe to the licensing of your dentist. This chapter is one of more than 230 in the Code compiled in 21 Titles.

ADMINISTRATIVE CODE SUPPLEMENTS

Rules filed by an agency to be published in the Administrative Code are updated quarterly. Supplement release dates are printed on the footers of each chapter:

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2016 is cited as Supp. 16-1.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the Arizona Administrative Register for recent updates to rule Sections.

ARTICLES AND SECTIONS

Rules in chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering system separated into subsections.

HISTORICAL NOTES AND EFFECTIVE DATES

Historical notes inform the user when the last time a Section was updated in the Administrative Code. Be aware, since the Office publishes each quarter by entire chapters, not all Sections are updated by an agency in a supplement release. Many times just one Section or a few Sections may be updated in the entire chapter.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority note to make rules are often included at the beginning of a chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in the introduction of a chapter can be found at the Secretary of State’s website, www.azsos.gov/services/legislative-filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the Arizona Administrative Register online at www.azsos.gov/rules, click on the Administrative Register link.

In the Administrative Code the Office includes editor’s notes at the beginning of a chapter indicating that certain rulemaking Sections were made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

EXEMPTIONS AND PAPER COLOR

If you are researching rules and come across rescinded chapters on a different paper color, this is because the agency filed a Notice of Exempt Rulemaking. At one time the office published exempt rules on either blue or green paper. Blue meant the authority of the exemption was given by the Legislature; green meant the authority was determined by a court order. In 2001 the Office discontinued publishing rules using these paper colors.

PERSONAL USE/COMMERCIAL USE

This chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit, should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1., R1-1-113.

Public Services managing rules editor, Rhonda Paschal, assisted with the editing of this chapter.

TITLE 6. ECONOMIC SECURITY**CHAPTER 5. DEPARTMENT OF ECONOMIC SECURITY - SOCIAL SERVICES**

(Authority: A.R.S. § 41-1954 et seq.)

Editor's Note: The Office of the Secretary of State publishes all Chapters on white paper (Supp. 01-2).

Editor's Note: Sections and Appendices of this Chapter were adopted under an exemption from the provisions of A.R.S. Title 41, Chapter 6, pursuant to A.R.S. § 41-1005 (A)(27). Exemption from A.R.S. Title 41, Chapter 6 means the Department did not submit these rules to the Governor's Regulatory Review Council for review and approval; and the Department was not required to hold public hearings on these rules (Supp. 98-2).

Editor's Note: Sections of this Chapter were adopted under an exemption from the provisions of A.R.S. Title 41, Chapter 6, pursuant to Laws 1997, Chapter 300, § 74(A). Exemption from A.R.S. Title 41, Chapter 6 means the Department did not submit notice of proposed rulemaking to the Secretary of State for publication in the Arizona Administrative Register; the Department did not submit these rules to the Governor's Regulatory Review Council for review and approval; and the Department was not required to hold public hearings on these rules. Under Laws 1997, Chapter 300, § 74(B), the Department is required to institute the formal rulemaking process on these Sections on or before December 31, 1997. Because these rules are exempt from the regular rulemaking process, the Chapter is printed on blue paper.

PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), accepts state agency rule filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the Administrative Code. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

RULES

A.R.S. § 41-1001(17) states: “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The Arizona Administrative Code is where the official rules of the state of Arizona are published. The Code is the official codification of rules that govern state agencies, boards, and commissions. Virtually everything in your life is affected in some way by rules published in the Arizona Administrative Code, from the quality of air you breathe to the licensing of your dentist. This chapter is one of more than 230 in the Code compiled in 21 Titles.

ADMINISTRATIVE CODE SUPPLEMENTS

Rules filed by an agency to be published in the Administrative Code are updated quarterly. Supplement release dates are printed on the footers of each chapter:

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2016 is cited as Supp. 16-1.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the Arizona Administrative Register for recent updates to rule Sections.

ARTICLES AND SECTIONS

Rules in chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering system separated into subsections.

HISTORICAL NOTES AND EFFECTIVE DATES

Historical notes inform the user when the last time a Section was updated in the Administrative Code. Be aware, since the Office publishes each quarter by entire chapters, not all Sections are updated by an agency in a supplement release. Many times just one Section or a few Sections may be updated in the entire chapter.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority note to make rules are often included at the beginning of a chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in the introduction of a chapter can be found at the Secretary of State’s website, www.azsos.gov/services/legislative-filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the Arizona Administrative Register online at www.azsos.gov/rules, click on the Administrative Register link.

In the Administrative Code the Office includes editor’s notes at the beginning of a chapter indicating that certain rulemaking Sections were made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

EXEMPTIONS AND PAPER COLOR

If you are researching rules and come across rescinded chapters on a different paper color, this is because the agency filed a Notice of Exempt Rulemaking. At one time the office published exempt rules on either blue or green paper. Blue meant the authority of the exemption was given by the Legislature; green meant the authority was determined by a court order. In 2001 the Office discontinued publishing rules using these paper colors.

PERSONAL USE/COMMERCIAL USE

This chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit, should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1., R1-1-113.

Public Services managing rules editor, Rhonda Paschal, assisted with the editing of this chapter.

TITLE 7. EDUCATION

CHAPTER 2. STATE BOARD OF EDUCATION

Authority: A.R.S. § 15-201 et seq.

Editor's Note: Supp. 16-1 has rules that were submitted as final exempt rules and approved by the Board February 25, 2008. Although approved by the Board in 2008, the rulemaking was not filed in the Secretary of State's Office for publication in this Chapter until 2016. The final exempt rulemaking was filed by the Board on January 6, 2016 (Supp. 16-1).

Editor's Note: Supp. 15-3 has rules that were submitted as final exempt rules. Pursuant to the Board's rulemaking procedures a public hearing was held on the rules after they were proposed at a Board meeting. Even though the proposed rules were not published in the Register, the Office of the Secretary of State makes a distinction between exempt rulemakings and final exempt rulemakings. Final exempt rulemakings are those filed with conditional exemptions to the Arizona Administrative Procedures Act such as requirements to conduct a public hearing or accept public comments on a proposed exempt rulemaking. Although approved by the Board, these final exempt rulemakings were not filed with the Secretary of State's Office at the time of approval. Therefore these rules were in effect prior to the release of Supp. 15-3. Refer to the historical notes for effective dates.

Editor's Note: This Chapter contains rules made, amended, repealed, renumbered and approved by the State Board of Education that were exempt from the rulemaking process. Although approved by the Board, certain rulemakings were not filed with the Secretary of State's Office at the time of approval. These rulemakings were filed in 2009 and 2010 and printed as Exempt Rulemakings in the Arizona Administrative Register. The Office has expedited the publishing of these Sections in the Arizona Administrative Code because these rules were in effect prior to Supp. 09-1, Supp. 09-2, Supp. 09-3, Supp. 09-4, Supp. 10-1, Supp. 10-2, Supp. 10-3, Supp. 10-4, Supp. 11-1, and Supp. 12-2 releases. Refer to the historical notes for more information.

 - c. Develop a written personal curriculum plan that includes the alternative mathematics course or courses identified in subsection (D)(3)(b) and a plan for monitoring student progress toward successfully completing the alternative mathematics course or courses. In developing the personal curriculum plan the development team shall consider how the proposed modifications maintain the integrity of the high school diploma and enable the student to achieve the student's post-secondary education and career goals.
 4. The development team may modify the personal curriculum plan based upon the development team's evaluation of the student's progress.
- E. The Superintendent of Public Instruction shall monitor a school district or charter school if there is reason to believe that the school district or charter school is allowing modifica-

R7-2-302.07. AIMS, Additional Credit; Graduation Class of 2010

- A. A pupil who fails to achieve a passing score on the AIMS assessment for high school graduation during the 2009 – 2010 school year may graduate if the pupil meets the alternative graduation requirements established pursuant to this Section.
- B. A school district or charter school is not required to comply with this Section if it is determined that augmenting the pupil's score on any section of the AIMS assessment by 15 percent would not meet or exceed the "Meets the Standard" threshold.
- C. A pupil is eligible for the alternative graduation requirement established pursuant to this Section if all of the following apply:
 1. The pupil has completed with a passing grade all coursework and credits prescribed for the graduation of pupils from high school by the governing board of the pupil's school district or charter school.
 2. The pupil has taken the AIMS assessment each time the test was offered when the pupil was eligible to take the test after August 12, 2005.
 3. The pupil has participated in any academic remediation program available in the pupil's school in those subject areas where the pupil failed to achieve a passing score on AIMS.
- D. If a pupil is not eligible for the AIMS augmentation due to a failure to meet the requirements in subsections (C)(2) and/or (3) the student may appeal this decision to the local governing

board. The governing board may delegate these appeals to other school district or charter school officials. All appeals held pursuant to this subsection shall comply with the following requirements:

1. The governing board shall adopt a form for a petition that a pupil, or a pupil's parent or legal guardian, must complete to initiate an appeal. The petition shall indicate what requirement is being appealed and the basis for the appeal. The petition shall also include a written explanation of the appeal procedures used by the school district or charter school.
 2. The pupil, or the pupil's representative, shall have the burden of demonstrating what circumstances prevented compliance with the requirements in subsections (C)(2) and/or (3).
 3. An appeal for failing to meet the requirement in subsection (C)(2) should be granted only upon presentation of credible evidence that extreme circumstances made the pupil ineligible for each AIMS assessment administration the student did not attend.
 4. An appeal for failing to meet the requirement in subsection (C)(3) should be granted only upon presentation of credible evidence that the pupil has participated in at least one state or school sanctioned remediation program in those subject areas where the pupil failed to achieve a passing score on the AIMS assessment.
 5. School district or charter school officials shall provide adequate notice to the pupil and the pupil's parents or legal guardians regarding the date, time and place of the appeal. A pupil, or a pupil's representative, may participate in the appeal either personally, by telephone, or by providing written documentation.
 6. All other procedures regarding these appeals shall be determined by the local school district or charter school governing board.
- E. Every school district or charter school that graduates pupils from high school shall determine whether the pupils that have failed to achieve a passing score on any section of the AIMS assessment meet the alternative graduation requirements established by this Section. In making this determination the school or school district shall adhere to the following requirements:
1. The school district or charter school shall augment the score of each section of the AIMS assessment where a pupil failed to achieve a passing score with additional points derived from classroom performance. These points shall represent a potential percentage augmentation from a pupil's original score. The number of additional points shall be calculated as follows:
 - a. Only classes that satisfy the following 11 1/2 credits shall be included in the calculation:
 - i. Four credits of English or English as a Second Language, which shall include but not be limited to the following: grammar, writing, and reading skills, advanced grammar, composition, American literature, advanced composition, research methods and skills and literature. One-half credit of the English requirement shall include the principles of speech and debate but not be limited to those principles.
 - ii. One and one-half credits in instruction in the essentials, sources and history of the constitutions of the United States and Arizona and instruction in American institutions and ideals and in the history of Arizona.
 - iii. One credit of world history/geography.

- iv. Two credits of mathematics. Mathematics credits shall be taken consecutively beginning with the ninth grade, and the course content of the mathematics credits shall include Number Sense; Data Analysis and Probability; Patterns, Algebra and Functions; Geometry; Measurement and Discrete Mathematics; and Mathematical Structure/Logic, in preparation for proficiency, at the high school level, on the AIMS test.
- v. Two credits of science.
- vi. One credit of fine arts or vocational education.
- b. Each eligible grade in an advanced placement class, or a school district or charter school designated "honors" class, up to the 11 1/2 credits prescribed in this Section, shall receive additional points as follows:
 - i. A letter grade of "A," or its equivalent, shall receive additional points equal to 15 times the amount of credit for that class.
 - ii. A letter grade of "B," or its equivalent, shall receive additional points equal to 12 times the amount of credit for that class.
 - iii. A letter grade of "C," or its equivalent, shall receive additional points towards the average augmentation equal to nine times the amount of credit for that class.
 - iv. A letter grade of "D" or "F," or its equivalent, shall receive zero points towards the average.
- c. All other eligible grades, up to the 11 1/2 credits prescribed in this Section, shall receive additional points as follows:
 - i. A letter grade of "A," or its equivalent, shall receive additional points towards the average augmentation equal to 12 times the amount of credit for that class.
 - ii. A letter grade of "B," or its equivalent, shall receive additional points towards the average augmentation equal to nine times the amount of credit for that class.
 - iii. A letter grade of "C," or its equivalent, shall receive additional points towards the average augmentation equal to seven times the amount of credit for that class.
 - iv. Letter grades of "D" or "F," or their equivalent, shall receive zero points towards the average.
- d. Pupils that have earned additional credits in any of the areas prescribed in this Section may apply the grade that would award the highest augmentation.
- e. After determining a pupil's additional points the school district or charter school shall calculate the average number of points awarded per credit by dividing the sum of additional points earned by 11 1/2.
- f. The pupil's augmentation shall be calculated by applying the following formula:

$$\left(\frac{\text{Avg. Additional Points per Credit}}{100} \right) \times \left(\frac{\text{Pupil's Original Score}}{\text{Score}} \right) = \left(\frac{\text{Augmentation}}{\text{Points}} \right)$$

- 2. The augmentation points shall be added to the pupil's highest achieved score on each section of the AIMS assessment where the student failed to achieve a passing score. If a pupil's augmented score exceeds the passing

score for the applicable section of the AIMS assessment, the pupil shall be considered to have passed that section of the assessment for graduation purposes.

- 3. The school district or charter school shall augment the highest achieved score of each section of the AIMS assessment where a pupil failed to achieve a passing score separately and concurrently.
- F. A pupil's augmented score shall be used only for the purpose of determining whether the pupil meets the competency test requirement for graduation from high school.
- G. All school districts and charter schools shall report to the Arizona Department of Education the number of students in their schools that met the alternative graduation requirement prescribed in this Section. School districts and charter schools shall also report disaggregated data showing the number of students whose augmented scores met or exceeded the passing scores for the reading, writing and math sections of the AIMS assessment respectively. These reports shall be made annually and shall be received by the Arizona Department of Education by June 30.

B. Identification of students to be assessed.

State Board of Education

1. The primary or home language of all students shall be identified by the students' parent or legal guardian on the enrollment form and on the home language survey. These documents shall inform parents that the responses to these questions will determine whether their student will be assessed for English language proficiency.
 2. A student shall be considered as a PHLOTE student if the home language survey or enrollment form indicates that one or more of the following are true:
 - a. The primary language used in the home is a language other than English, regardless of the language spoken by the student.
 - b. The language most often spoken by the student is a language other than English.
 - c. The student's first acquired language is a language other than English.
 3. The English language proficiency of all PHLOTE students shall be assessed as provided in subsection (C).
- C. English language proficiency assessment.**
1. PHLOTE students in kindergarten and first grade shall be administered an oral English language proficiency test approved by the Board. Students who score below the publisher's designated score for fluent English language proficiency, or other such score based on the publisher's designated score that is adopted by the Board, shall be classified as ELLs.
 2. PHLOTE students in grades 2-12 shall be administered the oral, reading and writing English language proficiency tests approved by the Board. Students who score below the publisher's designated score for fluent English proficiency, or such other score based on the publisher's designated score, that is adopted by the Board, shall be classified as ELLs. PHLOTE students in grades 2-12 who have scored at or above the 40th percentile on the English reading comprehension subtest of the nationally standardized norm-referenced achievement test adopted pursuant to A.R.S. § 15-741 or who have met or exceeded the standards on the reading and writing portions of the AIMS test are exempt from taking the oral, reading, and writing English language proficiency tests and shall not be classified as ELLs.
 3. English language proficiency assessments shall be conducted by individuals who are proficient in English and trained in language proficiency testing to administer and score the tests.
 4. The LEA shall assess the English language proficiency of all new PHLOTE students as prescribed above within 60 days of the beginning of the school year or within 30 school days of a student's enrollment in school, whichever is later, unless the LEA receives funds under Title III of the No Child Left Behind Act of 2001, 20 U.S.C. 6301 et seq. or another federal grant that requires earlier assessment and parental notification.
- D. Assessment of students in special education or in the special education referral process.** If a multidisciplinary evaluation or IEP team finds the procedures prescribed in subsections (B) and (C) inappropriate for a particular special education student, the LEA shall employ alternate procedures for identifying such students or assessing their English language proficiency. Persons conducting the English language assessment shall participate with the special education multidisciplinary evaluation or IEP team in the determination of the student's English language proficiency designation.
- E. Screening and assessment of students in gifted education.** ELLs who meet the qualifications for placement in a gifted educational program shall receive programmatic services designed to develop their specific areas of potential and academic ability and may be concurrently enrolled in gifted programs and English language learner programs.
- F. English language learner programs.**
1. All ELLs shall be provided daily instruction in English language development appropriate to their level of English language proficiency and consistent with A.R.S. §§ 15-751, 15-752, and, as applicable, 15-753. The English language instruction shall include listening and speaking skills, reading and writing skills, and cognitive and academic development in English.
 2. ELLs shall be provided daily instruction in subject areas required under the minimum course of study adopted by the Board pursuant to R7-2-301 and R7-2-302 that is understandable and appropriate to the level of academic achievement of the ELL and is in conformity with accepted strategies for teaching ELLs. This subsection does not require an LEA to provide daily instruction in every subject area required pursuant to R7-2-301 and R7-2-302 if those subject areas are not provided daily to English proficient students.
 3. The curriculum of all English language learner programs shall incorporate the Academic Standards adopted by the Board and shall be comparable in amount, scope and quality to that provided to English language proficient students.
 4. ELLs who are not progressing toward achieving proficiency of the Arizona Academic Standards adopted by the Board, as evidenced by the failure to improve scores on the AIMS test or the nationally standardized norm-referenced achievement test adopted pursuant to A.R.S. § 15-741, shall be provided compensatory instruction to assist them in achieving those Arizona Academic Standards. A WICP describing the compensatory instruction provided shall be kept in the student's academic file.
 5. On request of a parent or legal guardian of an ELL the principal of the ELL's school shall require a meeting with the principal or principal's designee, the parent or legal guardian and the classroom teacher to review the student's progress in achieving proficiency in the English language or in making progress toward the Arizona Academic Standards adopted by the Board, to identify any problems, to determine appropriate solutions and to identify the person or persons responsible for implementing the changes and determining their effectiveness.
- G. Reassessment for reclassification.**
1. The purpose of reassessment is to determine if an ELL has developed the English language skills necessary to succeed in the English language curricula.
 2. An ELL may be reassessed for reclassification at any time, but shall be reassessed for reclassification at least once per year.
 3. ELLs in kindergarten or first grade shall be reassessed with an alternate version of the oral test of English language proficiency used for initial assessment, unless the same test is no longer published or available when a student is to be reassessed. In such case, the school shall select a test from the Board approved tests for reassessment. Students who score at or above the test publisher's designated score for English language proficiency, or such other score adopted by the Board based on the publisher's designated score, may be reclassified as FEP. LEAs may also consider other indications of a student's overall progress, including teacher evaluation, and subject matter assessments that are aligned with grade level state content and performance standards in deciding

State Board of Education

whether to reclassify a student who has passed the oral proficiency test.

4. ELLs in grades 2-12 shall be reassessed with an alternate version of the oral, reading and writing English language proficiency tests used for initial assessment, unless the same test is no longer published or available when a student is to be reassessed. In such case the school shall select a test from the Board approved tests for reassessment. Students who score at or above the test publisher's designated score for English language proficiency, or such other score adopted by the Board, in all of the tests shall be reclassified as FEP.
 5. LEAs shall notify the parents or legal guardians in writing that their child has been reclassified as FEP when the student meets the criteria for such reclassification.
- H.** Reassessment of special education students for English language reclassification. If a multidisciplinary evaluation or IEP team finds the procedures prescribed in subsection (G) inappropriate for a particular special education student, the LEA shall employ alternate procedures for reassessing the student for purposes of English language reclassification. Persons conducting the English language reassessment shall participate with the special education multidisciplinary evaluation or IEP team in the determination of the student's English language proficiency designation.
- I.** Evaluation of FEP students after exit from ELL programs.
1. The LEA shall monitor exited students based on the criteria provided in this Section during each of the two years after being reclassified as FEP to determine whether these students are performing satisfactorily in achieving the Arizona Academic Standards adopted by the Board. Such students will be monitored in reading, writing and mathematics skills and mastery of academic content areas, including science and social studies. The criteria shall be grade-appropriate and uniform throughout the LEA, and upon request, is subject to Board review. Students who are not making satisfactory progress shall, with parent consent, be provided compensatory instruction or shall be re-enrolled in an ELL program. A WICP describing the compensatory instruction provided shall be maintained in the students' ELL files.
 2. The LEA shall use AIMS test scores to determine progress toward achieving the Arizona Academic Standards in monitoring FEP students after exit from an ELL program unless no score is available. Performing satisfactorily will be measured by whether a student meets or exceeds the state standards in reading, writing, and mathematics as measured by AIMS.
 3. If an AIMS test score is not available because the test is not administered in the students' grade or to assess progress in academic subjects not assessed by AIMS, the LEA shall use one or more of the following criteria in its evaluation to determine progress toward achieving the Arizona Academic Standards in monitoring FEP students after exit from an ELL program:
 - a. LEA-developed criterion-referenced tests of academic achievement that demonstrate alignment to the Arizona Academic Standards; or
 - b. Standardized tests measuring academic achievement that demonstrate alignment to the Arizona Academic Standards; or
 - c. Nationally norm-referenced test scores; or
 - d. Teacher recommendations based on classroom assessments that demonstrate alignment to the Arizona Academic Standards.
- J.** Monitoring of ELL programs.

1. Each year the Department shall monitor at least 32 LEAs, as follows:
 - a. At least 12 of the 50 LEAs with the highest ELL enrollment;
 - b. At least 10 LEAs with ELLs that are not included in the 50 described above;
 - c. At least 10 LEAs that have reported that they have 25 or fewer ELL students in their schools; and
 - d. Other LEAs upon receipt of a documented written complaint from any Arizona resident, the U.S. Department of Education, or the U.S. Office for Civil Rights, alleging that the LEA is not complying with state or federal law regarding ELLs.
2. All of the 50 LEAs in subsection (J)(1)(a) shall be monitored by the Department at least once every four years.
3. The monitoring shall be on-site monitoring and shall include classroom observations, curriculum reviews, faculty interviews, student records reviews, and review of ELL programs. The Department may use personnel from other schools to assist in the monitoring.
4. The Department shall issue a report on the results of its monitoring within 45 days after completing the monitoring. If the Department determines that an LEA is not complying with state or federal laws applicable to ELL students, the LEA shall prepare and submit to the Department, within 60 days of the Department's determination, a corrective action plan that sets forth steps that the LEA will take to correct the deficiencies noted in the report.
5. The Department shall review and return such corrective action plan to the LEA within 30 days, noting any required changes. No later than 30 days after receiving its corrective action plan back from the Department, the LEA shall begin implementing the measures set forth in the plan, including any revisions required by the Department.
6. The Department shall conduct a follow-up evaluation of the LEA within one year after returning the corrective action plan to the LEA.
7. If the Department finds continued non-compliance during the follow-up evaluation, the LEA shall be referred to the Board for a determination of non-compliance. If the Board determines the LEA to be out of compliance with state or federal laws applicable to ELL students, it may take one or more of the following actions:
 - a. Temporarily withhold cash payments of federal ELL grant monies;
 - b. Disallow (that is deny both use of funds and matching credit for) all or part of the cost of the activity or action not in compliance;
 - c. Wholly or partly suspend or terminate the current award of federal ELL grant monies;
 - d. Withhold further awards of federal ELL grant monies for the program.
8. The Department shall monitor all LEAs that the Board has determined to be non-compliant and which have had federal ELL grant monies withheld or terminated to ensure that such LEAs do not reduce the amount of funds spent on their ELL programs as the result of its loss of funds.
