Adopted effective June 4, 1998 (Supp. 98-2).

**R6-5-7515. Hearing Proceedings**

- A. The hearing is a de novo proceeding. The Department has the initial burden of going forward with evidence to support the adverse action being appealed.
- B. To prevail, the appellant shall prove, by a preponderance of the evidence, that the Department's action was unauthorized, unlawful, or an abuse of discretion.
- C. The Arizona Rules of Evidence do not apply at the hearing. The hearing officer may admit and give probative effect to evidence as prescribed in A.R.S. § 23-674(D).
- D. The Office of Appeals shall tape record all hearings or record the hearing by other stenographic means. The Department need not transcribe the proceedings unless a transcription is required for further administrative or judicial proceedings.
- E. The Office of Appeals charges a fee of 15¢ per page for providing a transcript. A party may obtain a waiver of the fee by submitting an affidavit stating that the party cannot afford to pay for the transcript.
- F. A party may, at his or her own expense, arrange to have a court reporter present to transcribe the hearing.
- G. The hearing officer shall call the hearing to order and dispose of any pre-hearing motions or issues.
- H. With the consent of the hearing officer, the parties may stipulate to factual findings or legal conclusions.
- I. Upon request and with the consent of the hearing officer, a party may make opening and closing statements. The hearing officer shall consider any statements as argument and not evidence. Unless the hearing officer allows a longer period of time, a statement shall not exceed three minutes.
- J. A party may testify, present evidence, and cross-examine adverse witnesses. The hearing officer may also take witness testimony or admit documentary or physical evidence on his or her own motion.
- K. The hearing officer shall keep a complete record of all proceedings in connection with an appeal and shall exclude any irrelevant evidence.
- L. The hearing officer may require the parties to submit memoranda on issues in the case if the hearing officer finds that the memoranda would assist the hearing officer in deciding the case. The hearing officer shall establish a briefing schedule for any required memoranda.

**Historical Note**

Adopted effective June 4, 1998 (Supp. 98-2).

**R6-5-7516. Hearing Decision**

- A. No later than 60 days after the date the appellant files a request for hearing with the Department, the hearing officer shall render a decision based solely on the evidence and testimony produced at the hearing, and the applicable law. The 60-day time limit is extended for any delay caused by the appellant.
- B. The hearing decision shall include:
  1. Findings of fact concerning the issue on appeal;
  2. Citations to the law and authority applicable to the issue on appeal;
  3. A statement of the conclusions derived from the controlling facts and law, and the reasons for the conclusions;
  4. The name of the hearing officer;

- 5. The date of the decision; and
  - 6. A statement of further appeal rights and the time period for exercising those rights.
- C. The Office of Appeals shall mail a copy of the decision to each party's representative, or to the party if the party is unrepresented.

**Historical Note**

Adopted effective June 4, 1998 (Supp. 98-2).

**R6-5-7517. Effect of the Decision**

- A. If the hearing officer affirms the adverse action against the appellant, the adverse action is effective on the mailing date of the hearing officer's decision. The adverse action remains effective until the appellant appeals and obtains a higher administrative or judicial decision reversing or vacating the hearing officer's decision.
- B. If the hearing officer reverses the Administration's decision to take adverse action, the Administration shall not take the action unless and until the Appeals Board or Arizona Court of Appeals issues a decision affirming the adverse action.

**Historical Note**

Adopted effective June 4, 1998 (Supp. 98-2).

**R6-5-7518. Further Administrative Appeal**

- A. A party may appeal an adverse decision issued by a hearing officer to the Department's Appeals Board, as prescribed in A.R.S. § 41-1992(C) and (D), by filing a written petition for review with the Office of Appeals within 15 days of the mailing date of the hearing officer's decision.
- B. The petition for review shall:
  - 1. Be in writing,
  - 2. Describe why the party disagrees with the hearing officer's decision, and
  - 3. Be signed and dated by the party or the party's representative.
- C. The party petitioning for review shall mail a copy of the petition to all other parties.
- D. The Office of Appeals shall have the proceedings of the hearing below transcribed for the Appeals Board.

**Historical Note**

- B. Following notice to the parties, the Appeals Board may receive additional evidence or hold a hearing if the Appeals Board finds that additional information would help in deciding the appeal. The Board may also remand the case to the Office of Appeals for rehearing, specifying the nature of the additional evidence required, or any further issues to be considered.
- C. The Appeals Board shall decide the appeal based solely on the record of proceedings before the hearing officer and any further evidence or testimony presented to the Board.
- D. The Appeals Board shall issue, and mail to all parties, a final written decision affirming, reversing, setting aside, or modifying the hearing officer's decision. The Board's decision shall specify the parties' rights to further review and the time for filing a request for review.

**Historical Note**

Adopted effective June 4, 1998 (Supp. 98-2).

### RULES

A.R.S. § 41-1001(17) states: “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

### THE ADMINISTRATIVE CODE

The Arizona Administrative Code is where the official rules of the state of Arizona are published. The Code is the official codification of rules that govern state agencies, boards, and commissions. Virtually everything in your life is affected in some way by rules published in the Arizona Administrative Code, from the quality of air you breathe to the licensing of your dentist. This chapter is one of more than 230 in the Code compiled in 21 Titles.

### ADMINISTRATIVE CODE SUPPLEMENTS

Rules filed by an agency to be published in the Administrative Code are updated quarterly. Supplement release dates are printed on the footers of each chapter:

First Quarter: January 1 - March 31  
Second Quarter: April 1 - June 30  
Third Quarter: July 1 - September 30  
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2016 is cited as Supp. 16-1.

### HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the Arizona Administrative Register for recent updates to rule Sections.

### ARTICLES AND SECTIONS

Rules in chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering system separated into subsections.

### HISTORICAL NOTES AND EFFECTIVE DATES

Historical notes inform the user when the last time a Section was updated in the Administrative Code. Be aware, since the Office publishes each quarter by entire chapters, not all Sections are updated by an agency in a supplement release. Many times just one Section or a few Sections may be updated in the entire chapter.

### ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, [www.azleg.gov](http://www.azleg.gov). An agency’s authority note to make rules is often included at the beginning of a chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

### SESSION LAW REFERENCES

Arizona Session Law references in the introduction of a chapter can be found at the Secretary of State’s website, [www.azsos.gov/services/legislative-filings](http://www.azsos.gov/services/legislative-filings).

### EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the Arizona Administrative Register online at [www.azsos.gov/rules](http://www.azsos.gov/rules), click on the Administrative Register link.

In the Administrative Code the Office includes editor’s notes at the beginning of a chapter indicating that certain rulemaking Sections were made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

### EXEMPTIONS AND PAPER COLOR

If you are researching rules and come across rescinded chapters on a different paper color, this is because the agency filed a Notice of Exempt Rulemaking. At one time the office published exempt rules on either blue or green paper. Blue meant the authority of the exemption was given by the Legislature; green meant the authority was determined by a court order. In 2001 the Office discontinued publishing rules using these paper colors.

### PERSONAL USE/COMMERCIAL USE

This chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

## State Board of Education

## TITLE 7. EDUCATION

## CHAPTER 2. STATE BOARD OF EDUCATION

Authority: A.R.S. § 15-201 et seq.

*Editor's Note: This Chapter contains rules that were filed out of sequence by adoption date. The Office has made every effort to codify the previous filings with the current Chapter and update the historical references where necessary. Refer to the historical notes for more information (Supp. 16-2).*

*Editor's Note: Supp. 16-1 contains rules that were submitted as final exempt rules and approved by the Board February 25, 2008. Although approved by the Board in 2008, the rulemaking was not filed in the Secretary of State's Office for publication in this Chapter until 2016. The final exempt rulemaking was filed by the Board on January 6, 2016 (Supp. 16-1).*

*Editor's Note: Supp. 15-3 contains rules that were submitted as final exempt rules. Pursuant to the Board's rulemaking procedures a public hearing was held on the rules after they were proposed at a Board meeting. Even though the proposed rules were not published in the Register, the Office of the Secretary of State makes a distinction between exempt rulemakings and final exempt rulemakings. Final exempt rulemakings are those filed with conditional exemptions to the Arizona Administrative Procedures Act such as requirements to conduct a public hearing or accept public comments on a proposed exempt rulemaking. Although approved by the Board, these final exempt rulemakings were not filed with the Secretary of State's Office at the time of approval. Therefore these rules were in effect prior to the release of Supp. 15-3. Refer to the historical notes for effective dates.*

*Editor's Note: This Chapter contains rules made, amended, repealed, renumbered and approved by the State Board of Education that were exempt from the rulemaking process. Although approved by the Board, certain rulemakings were not filed with the Secretary of State's Office at the time of approval. These rulemakings were filed in 2009 and 2010 and printed as Exempt Rulemakings in the Arizona Administrative Register. The Office has expedited the publishing of these Sections in the Arizona Administrative Code because these rules were in effect prior to Supp. 09-1, Supp. 09-2, Supp. 09-3, Supp. 09-4, Supp. 10-1, Supp. 10-2, Supp. 10-3, Supp. 10-4, Supp. 11-1, and Supp. 12-2 releases. Refer to the historical notes for more information.*

- C.** The requirements for a personal curriculum are as follows:
1. An eligible student may only modify the mathematics requirement delineated in R7-2-302.02(1)(c)(ii) for Algebra II or its equivalent course content;

  3. An eligible student shall successfully complete a course in mathematics in the student's senior year.
- D.** The procedures for developing and implementing a personal curriculum are as follows:
1. The parent or legal guardian of a student, an emancipated student, or a student with permission from the student's parent or legal guardian may request a personal curriculum in a manner prescribed by the local school district governing board or charter school.
  2. Upon receipt of a request for a personal curriculum made pursuant to subsection (D)(1), the local school district or charter school shall verify that the student successfully completed the mathematics requirements delineated in R7-2-302.02(1)(c)(i) and, upon verification, shall convene a development team.
  3. The development team shall:
    - a. Verify that the student demonstrates a need to modify the requirement delineated in R7-2-302.02(1)(c)(ii) for Algebra II or its equivalent course content,
    - b. Identify an appropriate alternative mathematics course or courses to modify the requirement for Algebra II or its equivalent course content,
    - c. Develop a written personal curriculum plan that includes the alternative mathematics course or courses identified in subsection (D)(3)(b) and a plan for monitoring student progress toward successfully completing the alternative mathematics course or courses. In developing the personal curriculum plan the development team shall consider how the proposed modifications maintain the integrity of the high school diploma and enable the student to achieve the student's post-secondary education and career goals.
  4. The development team may modify the personal curriculum plan based upon the development team's evaluation of the student's progress.

This subsection does not require an LEA to provide daily instruction in every subject area required pursuant to R7-2-301 and R7-2-302 if those subject areas are not provided daily to English proficient students.
  3. The curriculum of all English language learner programs shall incorporate the Academic Standards adopted by the Board and shall be comparable in amount, scope and quality to that provided to English language proficient students.

2. An ELL may be reassessed for reclassification at any time, but shall be reassessed for reclassification at least once per year.
  3. ELLs in kindergarten or first grade shall be reassessed with an alternate version of the oral test of English language proficiency used for initial assessment, unless the same test is no longer published or available when a student is to be reassessed. In such case, the school shall select a test from the Board approved tests for reassessment. Students who score at or above the test publisher's designated score for English language proficiency, or such other score adopted by the Board based on the publisher's designated score, may be reclassified as FEP. LEAs may also consider other indications of a student's overall progress, including teacher evaluation, and subject matter assessments that are aligned with grade level state content and performance standards in deciding whether to reclassify a student who has passed the oral proficiency test.
  4. ELLs in grades 2-12 shall be reassessed with an alternate version of the oral, reading and writing English language proficiency tests used for initial assessment, unless the same test is no longer published or available when a student is to be reassessed. In such case the school shall select a test from the Board approved tests for reassessment. Students who score at or above the test publisher's designated score for English language proficiency, or such other score adopted by the Board, in all of the tests shall be reclassified as FEP.

- I.** Evaluation of FEP students after exit from ELL programs.
1. The LEA shall monitor exited students based on the criteria provided in this Section during each of the two years after being reclassified as FEP to determine whether these students are performing satisfactorily in achieving the Arizona Academic Standards adopted by the Board. Such students will be monitored in reading, writing and mathematics skills and mastery of academic content areas, including science and social studies. The criteria shall be grade-appropriate and uniform throughout the LEA, and upon request, is subject to Board review. Students who are not making satisfactory progress shall, with parent consent, be provided compensatory instruction or shall be re-enrolled in an ELL program. A WICP describing the compensatory instruction provided shall be maintained in the students' ELL files.
  2. The LEA shall use AIMS test scores to determine progress toward achieving the Arizona Academic Standards in monitoring FEP students after exit from an ELL program unless no score is available. Performing satisfactorily will be measured by whether a student meets or exceeds the state standards in reading, writing, and mathematics as measured by AIMS.
  3. If an AIMS test score is not available because the test is not administered in the students' grade or to assess progress in academic subjects not assessed by AIMS, the LEA shall use one or more of the following criteria in its evaluation to determine progress toward achieving the Arizona Academic Standards in monitoring FEP students after exit from an ELL program:
    - a. LEA-developed criterion-referenced tests of academic achievement that demonstrate alignment to the Arizona Academic Standards; or
    - b. Standardized tests measuring academic achievement that demonstrate alignment to the Arizona Academic Standards; or

    - b. At least 10 LEAs with ELLs that are not included in the 50 described above;
    - c. At least 10 LEAs that have reported that they have 25 or fewer ELL students in their schools; and
    - d. Other LEAs upon receipt of a documented written complaint from any Arizona resident, the U.S. Department of Education, or the U.S. Office for Civil Rights, alleging that the LEA is not complying with state or federal law regarding ELLs.
  2. All of the 50 LEAs in subsection (J)(1)(a) shall be monitored by the Department at least once every four years.
  3. The monitoring shall be on-site monitoring and shall include classroom observations, curriculum reviews, faculty interviews, student records reviews, and review of ELL programs. The Department may use personnel from other schools to assist in the monitoring.
  4. The Department shall issue a report on the results of its monitoring within 45 days after completing the monitoring. If the Department determines that an LEA is not complying with state or federal laws applicable to ELL students, the LEA shall prepare and submit to the Department, within 60 days of the Department's determination, a corrective action plan that sets forth steps that the LEA will take to correct the deficiencies noted in the report.
  5. The Department shall review and return such corrective action plan to the LEA within 30 days, noting any required changes. No later than 30 days after receiving its corrective action plan back from the Department, the LEA shall begin implementing the measures set forth in the plan, including any revisions required by the Department.
  6. The Department shall conduct a follow-up evaluation of the LEA within one year after returning the corrective action plan to the LEA.
  7. If the Department finds continued non-compliance during the follow-up evaluation, the LEA shall be referred to the Board for a determination of non-compliance. If the Board determines the LEA to be out of compliance with state or federal laws applicable to ELL students, it may take one or more of the following actions:
    - a. Temporarily withhold cash payments of federal ELL grant monies;

## State Board of Education

  - d. Withhold further awards of federal ELL grant monies for the program.
8. The Department shall monitor all LEAs that the Board has determined to be non-compliant and which have had federal ELL grant monies withheld or terminated to ensure that such LEAs do not reduce the amount of funds spent on their ELL programs as the result of its loss of funds.

Nothing in this Section shall be construed to prohibit the central repository from assisting a student with a disability by using the electronic format version of instructional material provided pursuant to this Section solely to transcribe or arrange for the transcription of the printed instructional material into Braille or large print. In the event a Braille transcription is made, the central repository has the right to share the Braille copy of the printed instructional material with other eligible students with disabilities. The PEA will be required to return the specialized format version of the instructional material to the central repository when the student no longer needs the instructional material. The central repository may share the copies of the specialized format of the instructional material with other PEAs who have met the requirements of subsections (B) and (D) of this Section to provide services to students who require such services pursuant to R7-2-401(F)(5).

1. "Educational Interpreter." For the purposes of this Section, "educational interpreter" means a person trained to translate in sign language for students identified to require such services through an Individualized Education Program (IEP) or a 504 accommodation plan in order to access academic instruction. This does not in any way restrict the provisions of R7-2-401(B)(14) which defines "interpreter" and provides that each student's IEP team determines the level of interpreter skill necessary for the provision of FAPE, nor does it restrict a school district's ability to develop a job description for someone in a position of "educational interpreter" that requires additional job responsibilities.
2. "Accommodation plan developed to comply with Section 504 of the Rehabilitation Act of 1973, 29 USC 794, et seq. ("504 accommodation plan")." For the purposes of this Section, "504 accommodation plan" means a plan developed for the purpose of specifying accommodations and/or services that will be implemented by classroom teachers and other school personnel so that students will benefit from their educational program.

the Registry of Interpreters for the Deaf (RID), or

- iii. Hold a valid certificate from the National Association of the Deaf (NAD) at level 3 or higher.
2. If a public education agency (PEA) is unable to find an individual meeting the above qualifications, the PEA may hire an individual with lesser qualifications, but the PEA is required to provide a professional development plan for the individual they employ to provide educational interpreting services. This professional development plan must include the following:
    - a. Proof of at least 24 hours of training in interpreting each year that a valid certification is not held or EIPA passing score is not attained, and
    - b. Documentation of a plan for the individual to meet the required qualifications within three years of employment. If the qualifications are not attained within three years, but progress toward attainment is demonstrated, the plan shall be modified to include an intensive program for up to one year to meet the provisions of subsection (B)(1).
  3. An individual employed under the provisions of subsection (B)(2) must also have the following:
    - a. A valid fingerprint clearance card, and
    - b. A high school diploma or GED.

- A. Procedures governing noncompliance with laws and rules by school districts.
  1. Scope. Except as may be otherwise directed by federal or state statute or by rules adopted by the State Board of Education, this rule shall govern the procedure for determining noncompliance by school districts with laws and rules concerning school districts, the enforcement of which is the statutory responsibility of the State Board of Education or the Department of Education.
  2. Preliminary notice of noncompliance and response:
    - a. The Department of Education, upon its own initiative or at the direction of the State Board of Education, shall inform school districts by written notice that the district is in possible noncompliance with laws or rules, the enforcement of which is the statutory responsibility of the Board or the Department.

## State Board of Education

- i. After giving a school district preliminary notice as provided in this rule, the Department of Education shall submit a written recommendation to the State Board of Education. The Department shall recommend one of the following courses of action to be taken by the Board.
    - (1) A formal hearing should be scheduled before noncompliance is probable and achieving voluntary compliance within a reasonable period of time under the circumstances is unlikely; or
    - (2) A formal hearing should not be scheduled at this time because, although noncompliance is probable, achieving voluntary compliance within a reasonable period of time is likely; or
    - (3) A formal hearing should not be scheduled because the school district is in compliance with the law or rule in question.
  - ii. Any written response of the school district to the preliminary notice of noncompliance shall accompany the written recommendation of the Department of Education.
  - b. Within 30 days of receipt of the recommendation of the Department of Education, the State Board of Education shall either:
    - i. Schedule formal hearing;
    - ii. Postpone the decision to schedule a hearing for a stated time period not to exceed six months, or
    - iii. Dismiss the matter.
  - c. When the State Board of Education determines that a formal hearing is necessary, it shall be scheduled within 30 days after such determination, unless an extension of time is granted by the Board.

  - e. When the Board decides to postpone scheduling a formal hearing, the Board shall specify the extent of the postponement and the Department of Education shall report periodically, at least every 30 days, unless otherwise directed, with respect to progress by the school district toward compliance with the law or rule in question. At the end of the postponement period, the Board shall again make a determination whether to schedule a hearing, further postpone the determination, or dismiss the matter.
  - f. The Board may order further investigation by the Department of Education at any time, and admit into evidence any such report at any subsequent formal hearing.

  - g. A rehearing or review of the decision may be granted for any of the following causes materially affecting the moving party's rights:
    - i. Irregularity in the administrative proceedings of the agency or its hearing officer or the prevailing party, or any order, or abuse of discretion, whereby the moving party was deprived of a fair hearing;
    - ii. Misconduct of the Board of the prevailing party.

- A. A school district shall maintain a record of bids and modifications received for each invitation for bids, shall record the time and date when each bid or modification is received, and shall store each unopened bid or modification in a secure place until the bid due date and time.
  - 1. If required to confirm a vendor's inquiry regarding receipt of its bid prior to the due date and time, a school district may open a bid to identify the vendor. If this occurs, the school district shall record the reason for opening the bid, the date and time the bid was opened, and the solicitation number. The school district shall secure the bid and retain it for public opening.
  - 2. One or more witnesses shall be present for the opening of a bid under subsection (A)(1).

#### R7-2-1030. Mistakes in Bids

- A. If an apparent mistake in a bid, relevant to the award determination, is discovered after opening and before award, a school district shall contact the bidder for written confirmation of the bid. If the bidder fails to act, the bidder is considered nonresponsive and the school district shall place a written determination that the bidder is nonresponsive in the procurement file. The school district shall designate a time-frame within which the bidder shall either:

  - 2. Acknowledge that a mistake was made and include all of the following in a written response:
    - a. An explanation of the mistake and any other relevant information;

  - 3. Deny correction or withdrawal.
- K. After cancellation of all or part of an award in accordance with subsection (J)(2), if the bid acceptance period has not expired, the school district may award all or part of the contract to the next lowest responsible and responsive bidder, based on the

considerations of fair competition and the best interest of the school district.

Adopted effective December 17, 1987 (Supp. 87-4).  
Amended by final exempt rulemaking at 21 A.A.R. 1525,

#### R7-2-1031. Bid Evaluation and Award

- A.** As provided in subsection (C), the contract or contracts shall be awarded to the lowest responsible and responsive bidder or bidders whose bid or bids conform in all material respects to the requirements and evaluation criteria set forth in the invitation for bids. No criteria may be used in bid evaluation that are not set forth in the invitation for bids. The amount of any applicable transaction privilege or use tax of a political subdivision of this state is not a factor in determining the lowest bidder.
- B.** A product acceptability evaluation shall be conducted solely to determine whether a bidder's product is acceptable as set forth in the invitation for bids and not whether one bidder's product is superior to another bidder's product. Any bidder's offering that does not meet the acceptability requirements shall be rejected as nonresponsive.
- C.** The school district shall award the contract to the single lowest responsible and responsive bidder for all materials or services, except that the school district may make a multiple award if the invitation for bids included notification that multiple contracts may be awarded, the school district's basis for determining whether to award multiple contracts, and the criteria for selecting vendors for the multiple contracts.
- D.** Before making a multiple award, the school district shall determine in writing that a multiple award is necessary and is advantageous to the school district and shall establish procedures for the use of the multiple awarded contracts to ensure that purchases are made from the contracts determined by the school district to offer the lowest cost in satisfying the school district's requirements. A multiple award shall be limited to the least number of suppliers the school district determines in writing to be necessary to meet the school district's requirements, and may include the following types of awards:
  1. Awards to the lowest responsible and responsive bidder for individual line items or groups of line items.
  2. Awards to the lowest responsible and responsive bidders for similar or identical line items or groups of line items only if the school district determines in writing that such awards are necessary to obtain the required quantity or delivery, and the awards are limited to the least number of bidders necessary to meet the school district's requirements.
  3. An incremental award only if the school district determines in writing that such an award is necessary to obtain the required quantity or delivery. The award shall be made to the lowest responsible and responsive bidder, then the next lowest responsible and responsive bidder or bidders until the total definite quantity required is awarded.
  4. A regional award to the lowest responsible and responsive bidder in designated regions or locations only if the school district determines in writing that such an award is necessary to obtain the required quantity or delivery over widely scattered locations or a particular requirement is of a local nature.
- E.** The procurement file shall contain the basis on which the award or awards are made.
- F.** The school district shall not modify evaluation criteria after the bid due date and time.
- G.** A school district may appoint an evaluation committee to assist in the evaluation of bids. If bids are evaluated by an evaluation committee, the evaluation committee shall prepare an evaluation report for the school district. The school district may:
  1. Accept the findings of the evaluation committee;
  2. Request additional information from the evaluation committee; or
  3. Reject the findings of the evaluation committee, in which case the school district shall appoint a new evaluation committee to evaluate the existing bids or cancel the solicitation.
- H.** The school district may contact a bidder to confirm the school district's understanding of the bid. Such contact shall be prior to award. The school district shall obtain written confirmation from the bidder and shall retain the confirmation in the procurement file.
- I.** The contract or contracts shall be awarded during the bid acceptance period. If the bid acceptance period expires prior to award of the contract or contracts, the procurement shall be canceled, unless the bid acceptance period is extended in accordance with subsection (J).
- J.** To extend the bid acceptance period, a school district shall notify all bidders in writing of an extension and request written concurrence from each bidder. To be eligible for a contract award, a bidder shall submit a written concurrence to the extension. The school district shall reject a bid as nonresponsive if written concurrence is not provided as requested.
- K.** A contract may not be awarded to a bidder submitting a higher quality item than that designated in the invitation for bids unless the bidder is also the lowest bidder as determined under subsection (A). This Section does not permit negotiations with any bidder, except as provided in subsection (L).
- L.** If all bids for a construction project exceed available monies as certified by the school district, and the lowest responsive bid from a responsible bidder does not exceed such monies by more than five percent, the school district may in situations in which time or economic considerations preclude resolicitation of work of a reduced scope, negotiate an adjustment of the bid price, including changes in the bid requirements, with the lowest responsible and responsive bidder, to bring the bid within the amount of available monies.
- M.** If there are two or more low responsive bids from responsible bidders that are identical in price and that meet all the requirements and criteria set forth in the invitation for bids, award shall be made by drawing lots in the presence of one or more witnesses.
- N.** A record showing the basis for determining the successful bidder shall be retained in the procurement file.
- O.** The school district shall notify all bidders of an award.
- P.** After a contract is awarded, the school district shall return any bid security provided by unsuccessful bidders.
- Q.** Upon execution of the contract, if performance and payment bonds were not required, or upon receipt of the specified bonds, if performance and payment bonds were required, the school district shall return any bid security provided by the successful bidder.
- R.** Within 10 days after a contract is awarded, the school district shall make the procurement file, including all bids, available for public inspection.
  1. If the procurement file contains information that is confidential under R7-2-1006, a copy of the applicable documents with the confidential information redacted shall be placed in the procurement file for the purpose of public inspection.

2. The unredacted original copy of the confidential information shall be placed in a sealed envelope or other appropriate container, identified as confidential information, and maintained in the procurement file.

Amended effective October 22, 1992 (Supp. 92-4).  
Amended by final exempt rulemaking at 21 A.A.R. 1525, effective July 1, 2015 (Supp. 15-3).

#### R7-2-1032. Only One Bid Received

If only one responsive bid is received in response to an invitation for bids, an award may be made to the single bidder if the school district determines in writing that the bidder is responsible, that the price submitted is fair and reasonable, and that either other prospective bidders had reasonable opportunity to respond, or there is not adequate time for resolicitation. Otherwise the bid may be rejected in whole or in part as may be specified in the invitation for bids if it is advantageous to the school district. The reasons for cancellation or rejection shall be made part of the procurement file and:

1. New bids may be solicited;
2. The proposed procurement may be canceled; or
3. If the school district determines that the need for the material or service continues and the acceptance of the one bid is not advantageous to the school district, the procurement may then be conducted as follows:
  - a. The school district may follow the sole source procurement procedure if R7-2-1053 applies.
  - b. Notwithstanding any other provision of Articles 10 and 11, the school district may make emergency procurements pursuant to R7-2-1055 and R7-2-1056 if an emergency condition exists pursuant to R7-2-1055.

#### R7-2-1033. Simplified School Construction Procurement Program

- A. The simplified school construction procurement program is applicable to construction projects which do not exceed the maximum amount specified in A.R.S. § 15-213(A)(2).
- B. To participate in the simplified school construction procurement program:
  1. Each county school superintendent shall maintain a prospective bidders list of persons who desire to receive solicitations to bid on school district construction projects within that county. The prospective bidders list shall be maintained in accordance with R7-2-1023;
  2. The prospective bidders list maintained pursuant to subsection (B)(1) shall be available for public inspection;

#### MULTISTEP SEALED BIDDING

#### R7-2-1035. Multistep Sealed Bidding

- A. The multistep sealed bidding method may be used if:
  1. Available specifications or purchase descriptions are not sufficiently complete to permit full competition without technical evaluations and discussions to ensure mutual understanding between each bidder and the school district;
  2. Definite criteria exist for evaluation of technical offers;
  3. More than one technically qualified source is expected to be available; and
  4. A fixed-price contract will be used.
- B. The multistep sealed bidding method may not be used for construction contracts.

#### R7-2-1036. Phase 1 of Multistep Sealed Bidding

- A. Multistep sealed bidding shall be initiated by the issuance of an invitation to submit technical offers. The invitation to submit technical offers shall be issued according to R7-2-1022 and R7-2-1024(A).
- B. The invitation to submit technical offers shall include the following information:
  1. Notice that the procurement shall be conducted in two phases;
  2. The best description of the material or services desired;
  3. A statement that unpriced technical offers only shall be considered in phase 1;
  4. The requirements for the technical offers, such as drawings and descriptive literature;
  5. The criteria for evaluating technical offers;
  6. The due date and time for receipt of technical offers and the location where technical offers shall be delivered or mailed;
  7. A statement that discussions may be held;
  8. A statement that only bids based on technical offers determined to be acceptable in phase 1 shall be considered for award;
  9. The name of the district representative or district representatives;
  10. Notice that all technical offers submitted will be made available for public inspection following the award of the contract; and
  11. The date, time and location of any pre-technical offer conference.
- C. A school district may conduct a pre-technical offer conference open to all persons. If a pre-technical offer conference is conducted, it shall be not less than seven days before the technical offer due date and time, unless the school district makes a written determination that the specific needs of the procurement justify a shorter time. Statements made during the pre-technical offer conference shall not be considered modifications to the invitation to submit technical offers.

- D.** The invitation to submit technical offers may be amended before or after the submission of the unpriced technical offers. Amendments to an invitation to submit technical offers shall be so identified and the school district shall ensure that the amendments are distributed or made available to all persons to whom the original invitation to submit technical offers was distributed or made available. The school district shall make a copy of the amendments to an invitation to submit technical offers available for public inspection at the school district office. If the school district posted the invitation to submit technical offers or a notice of the availability of an invitation to submit technical offers on a designated site on the Internet, then the school district shall post any amendments to the invitation to submit technical offers on the same designated site on the Internet. The school district shall also do one or more of the following:
- a. Distribute the amendment, by any method reasonably calculated to ensure delivery, to all persons to whom the invitation to submit technical offers was distributed;
  - b. Make the amendment available and issue a notice of amendment which contains instructions for obtaining copies of the amendment. The notice of amendment shall be distributed, by any method reasonably calculated to ensure delivery, to all persons to whom the invitation to submit technical offers was distributed. Upon receipt of such notice of amendment, it is the responsibility of the person to obtain the amendment.
2. Amendments shall be issued within a reasonable time before technical offer opening to allow persons to consider them in preparing their technical offers. If the school district determines that the technical offer due date and time does not permit sufficient time for technical offer preparation, the technical offer due date and time shall be extended in the amendment or, if necessary, telephone, facsimile, email, or other communications methods, and confirmed in the amendment.
3. A person shall acknowledge receipt of an amendment in the manner specified in the invitation to submit technical offers or the amendment on or before the technical offer due date and time.
- E.** Unpriced technical offers shall not be opened publicly, but shall be opened in the presence of two or more district officials designated by the school district. The contents of unpriced technical offers shall not be disclosed to unauthorized persons. Late technical offers shall not be considered except under the circumstances set forth in R7-2-1028(B).
- F.** Unpriced technical offers shall be evaluated solely in accordance with the criteria set forth in the invitation to submit technical offers and shall be determined to be either acceptable for further consideration or unacceptable. A determination that an unpriced technical offer is unacceptable shall be in writing, state the basis for the determination and be retained in the procurement file. If the school district determines a person's unpriced technical offer is unacceptable, the school district shall notify that person of the determination and that the person shall not be afforded an opportunity to amend the technical offer.
- G.** The school district may conduct discussions with any person who submits an acceptable or potentially acceptable technical offer. During discussions, the school district shall not disclose any information derived from one unpriced technical offer to any other person. After discussions, the school district shall establish a due date and time for receipt of final technical offers and shall notify, in writing, persons submitting acceptable or potentially acceptable technical offers of the due date and time. The school district shall keep a detailed record of all discussions.
- H.** At any time during phase 1, technical offers may be withdrawn.

## GUARANTEED ENERGY CONTRACTS

### R7-2-1069. Guaranteed Energy Cost Savings Contracts

- A. A school district may procure a guaranteed energy cost savings contract with a qualified provider through competitive sealed proposals in accordance with R7-2-1041 through R7-2-1050.
  - 1. The request for proposal evaluation factors required by R7-2-1042(A)(1)(h) shall include objective criteria for selecting the qualified provider, including the cost of the contract, the energy cost savings, the net projected energy savings, the quality of the technical approach, the quality of the project management plan, the financial solvency of the qualified provider and the experience of the qualified provider with projects of similar size and scope.
  - 2. Notwithstanding R7-2-1042(A)(1)(h), the request for proposals shall set forth the respective numerical weighting for each evaluation criterion.
  - 3. At the qualified provider's expense, the proposal shall include an independent third-party validation of cost savings calculations associated with each proposed energy cost savings measure by a licensed, registered professional engineer, with credentials from the national association of energy engineers, who has demonstrated experience in energy analysis. The school district shall approve the selection of the independent third party.
  - 4. A school district may enter into a guaranteed energy cost savings contract with a qualified provider if the school district determines that the energy savings project will pay for itself within the expected life of the energy cost savings measures implemented (according to the manufacturer's equipment standards), the term of the financial agreement or twenty-five years, whichever is shortest, if the recommendations in the proposal are followed. The school district shall retain the cost savings achieved by a guaranteed energy cost saving contract, and these cost savings may be used to pay for the contract and project implementation.
  - 5. A qualified provider is a person that is experienced in designing, implementing or installing energy cost savings measures, that has a record of established projects or measures of similar size and scope, that has demonstrated technical, operational, financial and managerial capabilities to design and operate cost savings measures and projects and that has the financial ability to satisfy guarantees for energy cost savings.
- B. In selecting a contractor to perform any construction work related to performing the guaranteed energy cost savings contract, the qualified provider may:
  - 1. Develop and use a prequalification process for contractors.
  - 2. Require the contractor to demonstrate that the contractor is adequately bonded to perform the work and that the contractor has not failed to perform on a prior job.
- C. At the selected qualified provider's expense, a study shall be performed by the selected qualified provider in order to establish the exact scope of the guaranteed energy cost savings contract, the fixed cost savings guarantee amount and the methodology for determining actual savings. The selected qualified provider will provide the school district with a final study report which validates that the fixed cost savings guarantee amount will meet or exceed the cost savings calculations contained within the original proposal. The study report shall be reviewed and approved by the school district before the actual installation of any equipment. The qualified provider shall transmit a copy of the approved study report to the school facilities board and the governor's office of energy policy.

- D. The information to develop the energy baseline shall be derived from historical energy costs or actual energy measurements or shall be calculated from energy measurements at the facility where energy cost savings measures are to be installed or implemented. The baseline shall be established before the installation or implementation of energy cost savings measures.
- E. One or more school districts may enter into a financing agreement with a qualified provider or a financial institution, trustee or paying agent for the purchase and installation or implementation of energy cost savings measures. Any required financing may be obtained as part of the original competitive sealed proposal process from the qualified provider, or from a third-party financing institution that is procured separately in accordance with Articles 10 and 11.
- F. The selected qualified provider shall provide a performance bond in accordance with R7-2-1103(A)(1)(c).
- G. The selected qualified provider shall make public information in the subcontractor's bids.
- H. The guaranteed energy cost savings contract shall include the following:
1. A requirement that, in determining whether the projected energy savings calculations have been met, the energy savings shall be computed by comparing the energy baseline before installation or implementation of the energy cost savings measures with the energy consumed after installation or implementation of the energy cost savings measures. The qualified provider and the school district may agree to make modifications to the energy baseline only for any of the following:
    - a. Changes in utility rates.
    - b. Changes in the number of days in the utility billing cycle.
    - c. Changes in the square footage of the facility.
    - d. Changes in the operational schedule of the facility.
    - e. Changes in facility temperature.
    - f. Significant changes in the weather.
    - g. Significant changes in the amount of equipment or lighting utilized in the facility.
    - h. Significant changes in the nature or intensity of energy use such as the change of classroom space to laboratory space.
  2. A payment schedule, with payments over a period of not more than the expected life of the energy cost savings measures implemented (according to the manufacturer's equipment standards), the term of the financial agreement or twenty-five years, whichever is shortest.
  3. A requirement that all payments, except obligations on termination of the contract before its expiration, be made pursuant to the terms of the financing agreement.
  4. A written guarantee from the qualified provider that the energy savings will meet or exceed the costs of the energy cost savings measures over the expected life of the energy cost savings measures implemented (according to the manufacturer's equipment standards), the term of the financial agreement or twenty-five years, whichever is shortest. The school district shall ensure that the contractor:
    - a. For the term of the guaranteed energy savings contract, prepares a measurement and verification report on an annual basis in addition to an annual reconciliation of savings.
    - b. Reimburses the school district for any shortfall of guaranteed energy cost savings on an annual basis.
    - c. Uses the international performance and measurement and verification protocol standards or the federal energy management program standards to validate the savings guarantee.
- I. A school district may utilize a simplified energy performance contract for projects less than \$500,000. Simplified energy performance contracts are not required to include an energy savings guarantee and shall comply with all requirements in this Section except for subsections (D), (H)(1)(a) through (h) and (H)(4)(a) through (c).
- J. This Section does not apply to the construction of new buildings.
- K. For all projects under this Section, the school district shall report to the governor's office of energy policy and the school facilities board:
1. The name of the project.
  2. The qualified provider.
  3. The total cost of the project.
  4. The expected energy cost savings and relevant escalators.

2. The amount of the bid security submitted, although less than the amount required by the invitation for bids or request for proposals, is equal to or greater than the difference between the apparent low bid or highest scoring proposal and the next higher acceptable bid or next highest scoring proposal; or

- E. After the bids and proposals are opened, they are irrevocable for the period specified in the invitation for bids or request for proposals, except as provided in R7-2-1030. This bond is solely for the protection of the school district. The conditions and provisions of the performance bond regarding the surety's obligations shall follow the form required under A.R.S. § 34-222(G) or A.R.S. § 34-610(G), as applicable.
    - c. For guaranteed energy cost savings contracts and guaranteed energy production contracts, the amount of the performance bond shall be one hundred percent of the project amount to the school district for its faithful performance of the equipment installation.
  2. A payment bond that is executed and furnished as required by Arizona Revised Statutes Title 34, Chapter 2, Article 2 or Chapter 6, as applicable, in an amount equal to one hundred percent of the price specified in the contract for the protection of all persons supplying labor or material to the contractor or its subcontractors for the performance of the construction provided for in the contract, except that:
    - a. For job-order-contracting construction services, the payment bond shall cover the full amount of construction under the job-order-contracting construction services contract, shall not include any design services, preconstruction services, finance services, maintenance services, operations services or other related services included in the contract, may be a single bond for the full term of the contract, a separate bond for each year of a multiyear contract or a separate bond for each job order, as determined by the school district, and, if a single bond for the full term of the contract or a separate bond for each year of a multiyear contract, shall initially be based on the school district's reasonable estimate of the amount of construction that the school district believes is likely to actually be done during the full term of the contract or during the particular year of a multiyear contract, as applicable.
    - b. For construction-manager-at-risk construction services and design-build construction services, the amount of the payment bond shall be the price of construction and shall not include the cost of any design services, preconstruction services, finance services, maintenance services, operations services or other related services included in the contract. The conditions and provisions of the payment bond regarding the surety's obligations shall follow the form required under A.R.S. § 34-222(F) or A.R.S. § 34-610(F), as applicable.
- B. For design-bid-build construction, the bonds prescribed in subsection (A) shall be provided on and at the same time as execution of the construction contract. For construction-manager-at-risk, design-build and job-order-contracting construction services, the bonds prescribed in subsection (A) shall be provided only on and at the same time as execution of a contract or contract modification that commits the contractor to provide construction for a fixed price, guaranteed maximum price or other fixed amount within a designated time frame.
- C. If the prime contract or specifications require any persons supplying labor or materials in the prosecution of the work to furnish payment or performance bonds, these bonds shall be executed solely by a surety company or companies holding a certificate of authority to transact surety business in this state issued by the director of the Department of Insurance pursuant to Arizona Revised Statutes Title 20, Chapter 2, Article 1. Notwithstanding the provisions of any other statute, the bonds shall not be executed by an individual surety or sureties, even if the requirements of A.R.S. § 7-101 are satisfied.
- D. If a contractor fails to deliver the required performance bond or payment bond, the contractor's bid shall be rejected, its bid security shall be enforced, and award of the contract shall be made pursuant to Articles 10 and 11.
- E. This Section shall not be construed to limit the authority of the school district to require a performance bond or other security

in addition to those bonds or in circumstances other than specified in subsection (A).

- F.** Any person who furnishes labor or material to the contractor or its subcontractors for the work provided in the contract, in respect of which a payment bond is furnished under this Section, and who has not been paid in full within 90 days from the date on which the last of the labor was performed or material was supplied by the person for whom the claim is made has the right to sue on the payment bond for any amount unpaid at the time the suit is instituted and to prosecute the action for the amount due the person. However, any person who has a contract with a subcontractor of the contractor, but no express or implied contract with the contractor furnishing the payment bond, has a right of action on the payment bond on giving the contractor, only, a written preliminary 20-day notice as provided for in A.R.S. § 33-992.01, subsection (C)(1), (2), (3), and (4) and subsections (D), (E), and (H), and upon giving written notice to the contractor within 90 days from the date on which the last of the labor was performed or material was supplied by the person for whom the claim is made. The person shall state in the notice the amount claimed and the name of the party for whom the labor was performed or to whom the material was supplied. The notice shall be personally served or sent by registered mail, postage prepaid, in an envelope addressed to the contractor at any place the contractor maintains an office or conducts business.

#### Historical Note

Adopted effective December 17, 1987 (Supp. 87-4). Section repealed; new Section made by final exempt rulemaking at 21 A.A.R. 1525, effective July 1, 2015 (Supp. 15-3).

#### **R7-2-1104. Contract Payment Retention and Substitute Security**

- A.** Ten percent of all construction contract payments shall be retained by the school district as insurance of proper performance of the contract or, at the option of the contractor, a substitute security may be provided by the contractor pursuant to this Section. The contractor is entitled to all interest from any such substitute security. When the contract is fifty percent completed, one-half of the amount retained or securities substituted pursuant to this Section shall be paid to the contractor upon the contractor's request provided the contractor is making satisfactory progress on the contract and there is no specific cause or claim requiring a greater amount to be retained. After the contract is fifty percent completed, no more than five percent of the amount of any subsequent progress payments made under the contract shall be retained providing the contractor is making satisfactory progress on the project, except if at any time the governing board determines satisfactory progress is not being made, ten percent retention shall be reinstated for all progress payments made under the contract subsequent to the determination.
- B.** Notwithstanding subsection (A), there shall be no retention for job-order-contracting construction services contracts. The school district may elect to have no retention for construction-manager-at-risk and design-build construction services contracts. If the school district elects to have retention, then payment retention for construction-manager-at-risk and design-build contracts shall be in accordance with this Section.
- C.** Retention applies only to amounts payable for construction and does not apply to amounts payable for design services, preconstruction services, finance services, maintenance services, operations services, or any other related services included in the contract.
- D.** The form of substitute security is limited to the following:

1. An assignment of time certificates of deposit by financial institutions licensed by this state;
  2. Share certificate of a financial institution or credit union authorized to transact business in this state; or
  3. Security issued or guaranteed as to principal and interest by:
    - a. The United States;
    - b. The state;
    - c. Counties, municipalities and school districts within this state.
- E.** Conditions for use of substitute security.
1. A contractor may submit substitute security to replace contract payment retention if:
    - a. The use of substitute security is requested of the school district or designee for work performed under the contract. The contractor shall have the option of submitting the substitute security:
      - i. Prior to each progress payment in an amount of no less than five percent of each progress payment; or
      - ii. Once, prior to the first progress payment in an amount no less than five percent of the total contract amount.
    - b. The interest earned on such security shall accrue to the benefit of the contractor, but shall be retained until the school district has approved completion and acceptance of all work to be performed under the contract;
    - c. The term of such security shall not mature until after the estimated contract completion date; and
    - d. The security shall mature no later than one year after the estimated contract completion date.
  2. The substitute security shall not be released without written approval by the school district.
  3. A contractor may submit a single substitute security for more than one project provided that:
    - a. The amount of such security is sufficient to cover the aggregate retention amount;
    - b. The school district determines that such single substitute security is advantageous to the school district; and
    - c. Such security complies with the requirements of subsection (E)(1).
- F.** Any retention shall be paid or substitute security shall be returned to the contractor within 60 days after final completion and acceptance of work under the contract. Retention of payments by a school district longer than 60 days after final completion and acceptance requires a specific written finding by the governing board of the reasons justifying the delay in payment. No school district may retain any monies after 60 days which are in excess of the amount necessary to pay the expenses the governing board reasonably expects to incur in order to pay or discharge the expenses determined in the finding justifying the retention of monies.
- G.** The school district shall not accept any substitute security unless accompanied by a signed and acknowledged waiver of any right or power of the obligor to set off any claim against either the school district or the contractor in relationship to the security assigned. In any instance in which the school district accepts substitute security as provided in this Section, any subcontractor undertaking to perform any part of the contract is entitled to provide such security to the contractor.

Adopted effective December 17, 1987 (Supp. 87-4). Section repealed; new Section made by final exempt rulemaking at 21 A.A.R. 1525, effective July 1, 2015

(Supp. 15-3).

#### **R7-2-1105. Progress Payments**

- A.** Progress payments may be made by the school district to the contractor on the basis of a duly certified and approved estimate of the work performed during the preceding month if the contractor agrees to adhere to the provisions of A.R.S. § 41-2577(B), (D), and (F). Payment shall be made within 14 days after the estimate of the work is certified and approved, except that a percentage of all estimates shall be retained as provided in R7-2-1104. The estimate of the work shall be deemed received by the school district on submission of the estimate of the work to the school district or a person designated by the school district for the submission, review or approval of the estimate of the work. An estimate of the work submitted under this Section shall be considered approved and certified after seven days from the date of submission unless before that time the school district or designee prepares and issues a specific written finding detailing those items in the estimate of the work that are not approved and certified under the contract. The school district may withhold an amount from the progress payment sufficient to pay the expenses the school district reasonably expects to incur in correcting the deficiency set forth in the written finding. No contract for construction may materially alter the rights of any contractor, subcontractor or material supplier to receive prompt and timely payment as provided under this Section. On completion and acceptance of separate divisions of the contract on which the price is stated separately in the contract, payment may be made in full including retained percentages, less deductions, unless a substitute security has been provided pursuant to R7-2-1104.
- B.** Progress payments pursuant to subsection (A) are authorized for construction services contracts. The requirements of subsection (A) apply only to amounts payable in a construction services contract for construction and do not apply to amounts payable in a construction services contract for design services, preconstruction services, finance services, maintenance services, operations services or any other related services included in the contract.
- C.** A subcontractor may notify the school district, in writing, requesting that the subcontractor be notified by the school district in writing within five days from payment of each progress payment made to the contractor. The subcontractor's request remains in effect for the duration of the subcontractor's work on the project.
- D.** If any payment to a contractor is delayed after the date due, interest shall be paid at the rate of one percent per month, or a fraction of a month, on such unpaid balance as may be due.

#### **R7-2-1106. Procurement of Construction Using Alternative Project Delivery Methods**

- A.** A school district may use an alternative project delivery method if it determines in writing that such alternative project delivery method is advantageous to the school district. The following factors may be used for such determination:
  1. Cost and cost control method;
  2. Value engineering;
  3. Market conditions;
  4. Schedule;
  5. Required specialized expertise;
  6. Technical complexity of the project; or
  7. Project management.

- B.** Use of alternative project delivery methods
  1. Alternative project delivery methods for construction services shall be procured as provided in R7-2-1100.
  2. For design-build construction services and construction-manager-at-risk construction services, the school district is limited to one contract per procurement.
    - a. Alternatively, for construction-manager-at-risk construction services, a school district may elect separate contracts for preconstruction services during the design phase, for construction during the construction phase and for any other construction services.
    - b. Alternatively, for design-build construction services, a school district may elect separate contracts for preconstruction services and design services during the design phase, for construction and design services during the construction phase and for any other construction services.
    - c. If the school district enters into the first contract for preconstruction services or construction services the procurement ends. After execution of that first contract the school district may not use the procurement or the existing final list in the procurement as the basis for entering into a contract with any other person that participated in the procurement.
  3. For job-order-contracting construction services, the school district may award a single contract, or multiple contracts for similar job-order-contracting construction services to be awarded to separate persons. If the school district enters into the number of contracts specified under the request for qualifications, the procurement ends. After that time the school district may not use the procurement or any existing final list in the procurement as the basis for entering into a contract with any other person that participated in the procurement.
  4. All construction-manager-at-risk construction services or design-build construction services included in a procurement shall be limited to construction services to be performed at a single location, a common location or, if the construction services are all for a similar purpose, multiple locations. For construction-manager-at-risk construction services and design-build construction services to be performed at multiple locations:
    - a. At the time the request for qualifications is issued, the school district shall intend to commence all construction at each location within thirty months after execution of the first contract for preconstruction services or other construction services at any of the locations.
    - b. The request for qualifications shall include the information described in R7-2-1108(B)(2).
  5. The school district and the selection committee shall not request or consider fees, price, man-hours or any other cost information at any point in the selection process under this Section and R7-2-1107, R7-2-1108, R7-2-1110, and R7-2-1111, including the selection of persons to be interviewed, the selection of persons to be on the final list, in determining the order of preference of persons on the final list or for any other purpose in the selection process, except as provided in R7-2-1110(D) and R7-2-1111.
  6. In determining the persons to participate in any interviews, in determining the persons to be on the final list, and in determining the order on the final list, the selection committee shall use and consider only the criteria and weighting of criteria in the request for qualifications. No

other factors or criteria may be used in the evaluation, determinations and other actions.

7. Notwithstanding any other provision specifying the number of persons to be interviewed, the number of persons to be on a final list, or any other numerical specification in R7-2-1106 through R7-2-1115:
  - a. If a smaller number of persons respond to the request for qualifications or if one or more persons drop out of the procurement so there is a smaller number of persons participating in the procurement, the school district, as the school district determines necessary and appropriate, may elect to proceed with the participating persons if there are at least two participating responsive and responsible persons. Alternatively, the school district may elect to terminate the procurement.
  - b. As to a request for qualifications to be negotiated pursuant to R7-2-1110(D), if only one responsive and responsible person responds to the request for qualifications or if one or more persons drop out of the procurement so that only one responsive and responsible person remains in the procurement, the school district may elect to proceed with the procurement with only one person if the governing board determines in writing that the negotiated fee is fair and reasonable and that either other prospective persons had reasonable opportunity to respond or there is not adequate time for a resolicitation.
  - c. If a person on the final list withdraws or is removed from the procurement and the selection committee determines that it is advantageous to the school district, the selection committee may replace that person on the final list with another person that submitted qualifications in the procurement and that is selected as the next most qualified.

- B. Each selection committee shall include at least one school district representative appointed by the school district.
- C. The selection committee shall not have more than seven members and shall include at least one person who is a senior management employee of a licensed contractor and one person who is an architect or an engineer who is registered pursuant to A.R.S. § 32-121.
- D. Non-school district employees serving on a selection committee shall not receive compensation from the school district for performing this service, but the school district may elect to reimburse non-school district members for travel, lodging and other expenses incurred in connection with service on a selection committee.
- E. A person who is a member of a selection committee shall not be a contractor or subcontractor under a contract awarded under the procurement or provide any specified professional services, construction, construction services, materials or other services under the contract.
- F. For the procurement of multiple contracts for job-order-contracting, the same selection committee shall be used for all contracts in the procurement.

  1. Contain a statement of the construction services required that adequately describes the procurement and specifies how a request for qualifications containing specific information on the procurement may be obtained;

    - c. A schedule for the construction services to be performed at each location that shows the school district's intent to commence all construction at each location within thirty months after execution of the first contract for preconstruction services or other construction services at any of the locations.
  3. General information on the project site, scope of work, schedule, selection criteria, project design and construction budget, or life cycle budget for a procurement that includes maintenance, operations, and finance services.
  4. The criteria and the weight prescribed by the school district for each of the criteria to be used in making the evaluation.
    - a. All selection criteria shall be factors that demonstrate competence and qualifications for the type of construction services included in the procurement.

    - c. If interviews will be held, state the selection criteria and relative weights to be used in selecting the persons to be interviewed. The request for qualifications may state the selection criteria and relative weights to be used in selecting the persons on the final list and in determining their order on the final list. The final list selection criteria and relative weights may be different than the selection criteria and relative weights used to determine the persons to be interviewed. The request for qualifications also

- d. If interviews will not be held, state the selection criteria and relative weights to be used in selecting the persons on the final list and in determining their order on the final list.
5. Whether one contract or multiple contracts may or will be awarded.
    - a. For design-build construction services, construction-manager-at-risk construction services, and a single contract for job-order-contracting construction services, state that one person may or will be awarded the contract.
    - b. For multiple contracts for similar job-order-contracting construction services, state the number of contracts that may or will be awarded, the job-order-contracting construction services to be performed under each of the contracts, and that each of the multiple contracts will be awarded to a separate person.
  6. In a procurement where the contract is to be negotiated under R7-2-1110(D):

A school district may cancel a request for qualifications or a request for proposals, reject in whole or in part any or all statements of qualifications or proposals or determine not to enter into a contract as specified in the solicitation if it is advantageous to the school district. The school district shall make the reasons for cancellation, rejection or determination not to enter into a contract part of the procurement file.

**Historical Note**

New Section made by exempt rulemaking at 13 A.A.R. 1266, effective February 26, 2007 (Supp. 07-1). Section repealed; new Section made by final exempt rulemaking at 21 A.A.R. 1525, effective July 1, 2015 (Supp. 15-3).

**R7-2-1110. Committee Evaluation and Contract Award**

- A. If interviews are specified in the request for qualifications:
1. The selection committee shall determine the persons to be interviewed by evaluating the statements of qualifications and performance data submitted based solely on the selection criteria and relative weights in the request for qualifications to be used to determine the persons to be interviewed.
  2. If the selection criteria and relative weights to be used by the selection committee to select the persons on the final list and to determine their order on the final list are not included in the request for qualifications:
    - a. Before the interviews are held the school district shall distribute to the persons to be interviewed the selection criteria and relative weights to be used to

- select the persons on the final list and to determine their order on the final list.
- b. These selection criteria and relative weights may be different than the selection criteria and relative weight used to determine the persons to be interviewed.
3. The selection committee shall conduct interviews with the number of persons specified in the request for qualifications.
- B.** Based solely on the selection criteria and relative weights for selection of the persons on the final list and their order on the final list, the selection committee shall select the persons for the final list and, in the case of a final list for a contract that will be negotiated under subsection (D), rank the persons in order of preference.
- C.** The school district shall make the following notifications regarding the final lists:
1. If the contract will be negotiated under subsection (D) before or at the same time as the school district notifies the highest ranking person on the final list that it is the highest ranking person, the school district shall send actual notice to each of the following that it is not the highest ranking person or that another person is the highest ranking person:
    - a. If interviews were held, the other persons interviewed.
    - b. If interviews were not held, the other persons that made submittals.
  2. If the contract will be awarded under R7-2-1111, before or at the same time as the school district notifies the persons on the final list that they are on the final list, the school district shall send actual notice to each of the following persons that they are not on the final list or that other persons are on the final list:
    - a. If interviews were held, the other persons interviewed.
    - b. If interviews were not held, the other persons that made submittals.
- D.** The school district shall conduct negotiations with persons on the final list as follows:
1. The negotiations shall include consideration of compensation and other contract terms that the school district determines to be fair and reasonable to the school district. In making this decision, the school district shall take into account the estimated value, the scope, the complexity and the nature of the construction services to be rendered.
  2. If the procurement is for a single contract, there is one final list and the school district shall enter into negotiations with the highest qualified person on the final list. If the school district is not able to negotiate a satisfactory contract with the highest qualified person on the final list, at compensation and on other contract terms the school district determines to be fair and reasonable, the school district shall formally terminate negotiations with that person. The school district shall then undertake negotiations with the next most qualified person on the final list in sequence until an agreement is reached or a determination is made to reject all persons on the final list.
  3. If the procurement is for multiple contracts for similar job-order-contracting construction services to be awarded to separate persons, there is one final list and the school district shall enter into separate negotiations for contracts with the number of the highest qualified persons on the final list equal to the number of contracts to be awarded. If the school district is not able to negotiate a satisfactory contract with a person with whom the school district has

commenced negotiations, the school district shall formally terminate negotiations with that person. The school district shall then undertake negotiations for a contract with the next most qualified person on the final list with whom the school district is not then negotiating and with whom the school district has not previously negotiated in sequence until an agreement is reached for some or all of the multiple contracts included in the request for qualifications or a determination is made to reject all persons on the final list.

4. If the school district terminates negotiations with a person and commences negotiations with another person on the final list, the school district shall not recommence negotiations or enter into a contract for the construction services covered by the final list with any person with whom the school district terminated negotiations.

- 1. The contractor for design-build or job-order-contracting construction services is not required to be registered to perform design services pursuant to A.R.S. Title 32, Chapter 1 if the person actually performing the design services on behalf of the contractor is appropriately registered.
- 2. The contractor for construction-manager-at-risk, design-build or job-order-contracting construction services shall be licensed to perform construction pursuant to A.R.S. Title 32, Chapter 10.

- B. In a procurement for construction-manager-at-risk construction services or design-build construction services, except for design-build contracts awarded pursuant to R7-2-1111, the school district shall enter into a written contract with the contractor for preconstruction services under which the school district shall pay the contractor a fee for preconstruction services in an amount agreed by the school district and the contractor, and the school district shall not request or obtain a fixed price or a guaranteed maximum price for the construction from the contractor or enter into a construction contract with the contractor until after the school district has entered into the written contract for preconstruction services and a preconstruction services fee.

- C. Construction shall not commence under a construction services contract until the school district and contractor agree in writing on either a fixed price that the school district will pay or a guaranteed maximum price for the construction to be commenced. The construction to be commenced may be the entire project or may be one or more phased parts of the project.

- D. For negotiated construction-manager-at-risk and design-build contracts, preconstruction services, general conditions, schedules, construction contingency, and construction fees shall be part of the contract. For design-build contracts awarded pursuant to a request for proposals, the fees shall be included in the vendor's proposal and shall become part of the awarded contract.

**E. For job-order-contracting construction services only:**

- 1. The maximum dollar amount of an individual job order for job-order-contracting construction services shall be one million dollars or a higher or lower amount prescribed by the governing board in a policy adopted in a public meeting held pursuant to A.R.S. Title 38, Chapter 3, Article 3.1. Requirements shall not be artificially divided or fragmented in order to constitute a job order that satisfies the requirements of this subsection.

The school district may use methods other than competitive bidding to assure itself that the price the school district pays to the contractor for self-performed work is fair and reasonable. Permitted methods to evaluate fairness and reasonableness of the price of self-performed work include evaluation of the contractor's proposed scope of work and price for self-performed work by an estimator who is hired and paid by the school district, who is independent of the contractor and who may be an employee of the school district. Although the school district may elect to so require, nothing in Articles 10 and 11 shall be construed or interpreted to require the school district to require a contractor desiring to self-perform part of the construction work to competitively bid that part of the construction work against other contractors in a bid competition.

- G. For all construction services contracts, the following requirements apply to the construction work to be performed by subcontractors and do not apply to construction work that the school district and the contractor agree in writing will be self-performed by the contractor:

The selection committee shall determine the persons to be interviewed by evaluating the statements of qualifications and performance data submitted based solely on the selection criteria and relative weights in the request for qualifications to be used to determine the persons to be interviewed.
  - 2. If the selection criteria and relative weights to be used by the selection committee to select the persons on the final list or final lists are not included in the request for qualifications:
    - a. Before the interviews are held the school district shall distribute to the persons to be interviewed the selection criteria and relative weights to be used to select the persons on the final list and to determine their order on the final list.
    - b. These selection criteria and relative weight may be different than the selection criteria and relative weight used to determine the persons to be interviewed.

- 3. The selection committee shall conduct interviews with the number of persons specified in the request for qualifications.
- B. Based solely on the selection criteria and relative weights for selection of the persons on the final list or final lists and their order on the final list or final lists, the selection committee shall select the persons for the final list or final lists and rank the persons on the final list or final lists in order of preference. If the procurement is for multiple contracts for different specified professional services to be awarded to separate persons, and if a person submitted qualifications for more than one type of specified professional services, the person may be on more than one final list.
- C. Before or at the same time as the school district notifies the highest ranking person on the final list or final lists that it is the highest ranking person, the school district shall send actual notice to each of the following that it is not the highest ranking person or that another person is the highest ranking person:

- D. The school district shall conduct negotiations with persons on the final list or final lists as follows:
  - 1. The school district shall negotiate a contract with the highest qualified person for the required specified professional services at compensation determined in writing to be fair and reasonable to the school district. Contract negotiations shall be directed toward:
    - a. Making certain that the person has a clear understanding of the scope of the work, specifically, the essential requirements involved in providing the required services;
    - b. Determining that the person will make available the necessary personnel and facilities to perform the services within the required time; and
    - c. Agreeing upon compensation that is fair and reasonable.
  - 2. The negotiations shall include consideration of compensation and other contract terms that the school district determines to be fair and reasonable to the school district. In making this decision, the school district shall take into account the estimated value, the scope, the complexity and the nature of the specified professional services to be rendered.
  - 3. If the procurement is for a single contract, there is one final list and the school district shall enter into negotiations with the highest qualified person on the final list. If the school district is not able to negotiate a satisfactory contract with the highest qualified person on the final list, at compensation and on other contract terms the school district determines to be fair and reasonable, the school district shall formally terminate negotiations with that person. The school district shall then undertake negotiations with the next most qualified person on the final list in sequence until an agreement is reached or a determination is made to reject all persons on the final list.
  - 4. If the procurement is for multiple contracts for specified professional services to be awarded to a single person on the final list, there is one final list and the school district shall enter into negotiations with the highest qualified person on the final list. If the school district is not able to negotiate a satisfactory contract with the highest qualified person on the final list, at compensation and on other contract terms the school district determines to be fair and reasonable, the school district shall formally terminate negotiations with that person. The school district shall

then undertake negotiations with the next most qualified person on the final list in sequence until an agreement is reached or a determination is made to reject all persons on the final list.

5. If the procurement is for multiple contracts for similar specified professional services to be awarded to separate persons, there is one final list and the school district shall enter into separate negotiations for contracts with the number of the highest qualified persons on the final list equal to the number of contracts to be awarded. If the school district is not able to negotiate a satisfactory contract with a person with whom the school district has commenced negotiations, the school district shall formally terminate negotiations with that person. The school district shall then undertake negotiations for a contract with the next most qualified person on the final list with whom the school district is not then negotiating and with whom the school district has not previously negotiated in sequence until an agreement is reached for some or all of the multiple contracts included in the request for qualifications or a determination is made to reject all persons on the final list.
6. If the procurement is for multiple contracts for different specified professional services to be awarded to separate persons, there is a separate final list for each type of specified professional services and the school district shall enter into separate negotiations for contracts with the number of the highest qualified persons on each final list equal to the number of contracts to be awarded. If the school district is not able to negotiate a satisfactory contract with a person with whom the school district has commenced negotiations, the school district shall formally terminate negotiations with that person. The school district shall then undertake negotiations for a contract with the next most qualified person on the applicable final list with whom the school district is not then negotiating and with whom the school district has not previously negotiated in sequence until an agreement is reached for some or all of the multiple contracts included in the request for qualifications or a determination is made to reject all persons on the final list.
7. If the school district terminates negotiations with a person and commences negotiations with another person on the final list, the school district shall not recommence negotiations or enter into a contract for the specified professional services covered by the final list with any person with whom the school district terminated negotiations.

The Arizona Administrative Code is where the official rules of the state of Arizona are published. The Code is the official codification of rules that govern state agencies, boards, and commissions. Virtually everything in your life is affected in some way by rules published in the Arizona Administrative Code, from the quality of air you breathe to the licensing of your dentist. This chapter is one of more than 230 in the Code compiled in 21 Titles.

### ADMINISTRATIVE CODE SUPPLEMENTS

Rules filed by an agency to be published in the Administrative Code are updated quarterly. Supplement release dates are printed on the footers of each chapter:

First Quarter: January 1 - March 31  
Second Quarter: April 1 - June 30  
Third Quarter: July 1 - September 30  
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2016 is cited as Supp. 16-1.

### HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the Arizona Administrative Register for recent updates to rule Sections.

### ARTICLES AND SECTIONS

Rules in chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering system separated into subsections.

### HISTORICAL NOTES AND EFFECTIVE DATES

Historical notes inform the user when the last time a Section was updated in the Administrative Code. Be aware, since the Office publishes each quarter by entire chapters, not all Sections are updated by an agency in a supplement release. Many times just one Section or a few Sections may be updated in the entire chapter.

### ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, [www.azleg.gov](http://www.azleg.gov). An agency’s authority note to make rules is often included at the beginning of a chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

### SESSION LAW REFERENCES

Arizona Session Law references in the introduction of a chapter can be found at the Secretary of State’s website, [www.azsos.gov/services/legislative-filings](http://www.azsos.gov/services/legislative-filings).

### EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the Arizona Administrative Register online at [www.azsos.gov/rules](http://www.azsos.gov/rules), click on the Administrative Register link.

In the Administrative Code the Office includes editor’s notes at the beginning of a chapter indicating that certain rulemaking Sections were made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

### EXEMPTIONS AND PAPER COLOR

If you are researching rules and come across rescinded chapters on a different paper color, this is because the agency filed a Notice of Exempt Rulemaking. At one time the office published exempt rules on either blue or green paper. Blue meant the authority of the exemption was given by the Legislature; green meant the authority was determined by a court order. In 2001 the Office discontinued publishing rules using these paper colors.

### PERSONAL USE/COMMERCIAL USE

This chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

**TITLE 9. HEALTH SERVICES****CHAPTER 21. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM (AHCCCS) - BEHAVIORAL HEALTH SERVICES FOR PERSONS WITH SERIOUS MENTAL ILLNESS**

*Editor's Note: Laws 2015, Ch. 195 provided for the statutory transfer of behavioral health responsibilities from the Arizona Department of Health Services to the Arizona Health Care Cost Containment System (AHCCCS). Therefore the Chapter name has been amended from Department of Health Services to the Arizona Health Care Cost Containment System at 22 A.A.R. 2019, effective July 12, 2016 (Supp. 16-4).*

*Editor's Note: The Office of the Secretary of State publishes all Chapters on white paper (Supp. 01-3).*

*Editor's Note: Title 9, Chapter 21 was adopted and amended by the Department of Health Services under the provisions of Laws 1992, Ch. 301, § 61, which provided for an exemption from the rulemaking process as specified in the Arizona Administrative Procedure Act (A.R.S. Title 41, Chapter 6, § 41-1001 et seq.). Exemption from A.R.S. Title 41, Chapter 6 means that the Department did not submit notice of this rulemaking to the Secretary of State's Office for publication in the Arizona Administrative Register; the Department did not submit these rules to the Governor's Regulatory Review Council for review; the Department was not required to hold public hearings on these rules; and the Attorney General has not certified these rules. Because this Chapter contains rules which are exempt from the provisions of the Arizona Administrative Procedure Act, the Chapter is printed on blue paper.*

*Former Title 9, Chapter 21 renumbered to Title 18, Chapter 11.*

#### R9-21-206. Competency and Consent

- A. A client shall not be deemed incompetent to manage the client's affairs, to contract, to hold professional, occupational or vehicle operator's licenses, to make wills, to vote or to exercise any other civil or legal right solely by reason of admission to a mental health agency.
- B. An applicant or client is presumed to be legally competent to conduct the client's personal and financial affairs, unless otherwise determined by a court in a guardianship or conservatorship proceeding.
- C. Only an applicant or client who is competent may provide informed consent, authorization, or permission as required in this Chapter. A mental health agency shall use the following

criteria to determine if an applicant or client is competent and the appropriateness of establishing or removing a guardianship, temporary guardianship, conservatorship, or guardianship ad litem for the client:

1. An applicant or client shall be determined to be in need of guardianship or conservatorship only if the applicant's or client's ability to make important decisions concerning the applicant or client or the applicant's or client's property is so limited that the absence of a person with legal authority to make such decisions for the applicant or client creates a serious risk to the applicant's or client's health, welfare or safety.
2. Although the capability of the applicant or client to make important decisions is the central factor in determining the need for guardianship, the capabilities of the applicant's or client's family, the applicant's or client's living circumstances, the probability that available treatment will improve the applicant's or client's ability to make decisions on the applicant's or client's behalf, and the availability and utility of nonjudicial alternatives to guardianships such as trusts, representative payees, citizen advocacy programs, or community support services should also be considered.
3. If the applicant or client has been determined to be incapable of making important decisions with regard to the applicant's or client's personal or financial affairs, and if nonjudicial, less restrictive alternatives such as trusts, representative payees, cosignatory bank accounts, and citizen advocates are inadequate to protect the applicant or client from a substantial and unreasonable risk to the applicant's or client's health, safety, welfare, or property, the applicant's or client's nearest living relatives shall be notified with an accompanying recommendation that a guardian or conservator be appointed.
4. If the applicant or client is capable of making important decisions concerning the applicant's or client's health, welfare, and property, either independently or through other less restrictive alternatives such as trusts, representative payees, cosignatory bank accounts, and citizen advocates, the applicant's or client's nearest living relative shall be notified with an accompanying recommendation that any existing guardian or conservator be removed.
5. If the client has been determined to require or no longer require assistance in the management of financial or personal affairs, and the nearest living relative cannot be found or is incapable of or not interested in caring for the client's interest, the mental health agency shall assist in the recruitment or removal of a trustee, representative payee, advocate, conservator, or guardian. Nothing in this Chapter shall be construed to require the Administration or any regional authority or service provider to pay for the recruitment, appointment or removal of a trustee, representative payee, advocate, conservator, or guardian.
6. The assessment or periodic review shall identify the specific area or areas of the client's functioning that forms the basis of the recommendation for the appointment or removal of a guardian or conservator, such as an inability to respond appropriately to health problems or consent to medical care, or an inability to manage savings or routine expenses.
- D. Mental health agencies shall devise and implement procedures to ensure that suspected improprieties of a guardian, conservator, trustee, representative payee, or other fiduciary are reported to the court or other appropriate authorities.

  - The potential consequences of revoking the informed consent; and

- The treatment, the client's participation in a research activity, or the applicant's or client's admission to a program operated by a mental health agency shall be immediately discontinued, or
  - If abrupt discontinuation of a treatment poses an imminent risk to a client, the treatment shall be phased out to avoid any harmful effects.
- H.** If a client or, if applicable, the client's guardian needs assistance with revoking informed consent according to subsection (F), the client or, if applicable, the client's guardian shall receive the assistance.

### ARTICLE 3. INDIVIDUAL SERVICE PLANNING FOR BEHAVIORAL HEALTH SERVICES FOR PERSONS WITH SERIOUS MENTAL ILLNESS

#### R9-21-301. General Provisions

- A.** Responsibilities of the regional authority, clinical team, and case manager.
1. The regional authority is responsible for providing, purchasing, or arranging for all services identified in ISPs.
    - a. The regional authority shall perform all intake and case management for its region. The regional authority may contract with a mental health agency to perform intake or case management but only with the written approval of the Administration, which may be given in its sole discretion.
    - b. Other services may be provided directly by programs operated by the Administration or by the regional authority through contracts with service providers, or through arrangements with other agencies or generic providers.
  2. The regional authority and the clinical team shall work diligently to ensure equal access to generic services for its clients in order to integrate the client into the mainstream of society.
  3. The initial clinical team shall work to meet the individual's needs from the date of application or referral for services until such time as eligibility is established and an ISP is developed.
  4. The assigned clinical team shall be primarily responsible for providing continuous treatment, outreach and support to a client, for identifying appropriate behavioral health services or community services, and for developing, implementing and monitoring ISPs for clients.
  5. The case manager, in conjunction with the clinical team, shall:

- a. Locate services identified in the ISP;
  - b. Confirm the selection of service providers and include the names of such providers in the ISP;
  - c. Obtain a written client service agreement from each provider;
  - d. Be responsible for ensuring that services are actually delivered in accordance with the ISP; and
  - e. Monitor the delivery of services rendered to clients. Monitoring shall consider, at a minimum, the consistency of the services with the goals and objectives of the ISP.
- 6.** The case manager shall also be responsible to:
- a. Initiate and maintain close contact with clients and service providers;
  - b. Provide support and assistance to a client, with the client's permission and consistent with the client's individual needs;
  - c. Ensure that each service provider participates in the development of the ISP for each client of the service provider;
  - d. Ensure that each inpatient facility, according to R9-21-312, develops an ITDP that is integrated in and consistent with the ISP;
  - e. Assess progress toward, and identify impediments to, the achievement of the client's goals and objectives identified in the ISP;
  - f. Promote client involvement in the development, review, and implementation of the ISP;
  - g. Attempt to resolve problems and disagreements with respect to any component of the ISP;
  - h. Assist in resolving emergencies concerning the implementation of the ISP;
  - i. Attend all periodic reviews of the ISP and ITDP meetings;
  - j. Assist in the exploration of less restrictive alternatives to hospitalization or involuntary commitment; and
  - k. Otherwise coordinate services provided to the client.
- 7.** If a case manager is assigned to a client who, at any time, is admitted to an inpatient facility, the case manager shall ensure the development, modification or revision of a client's ISP and the integration of the ITDP according to this Article.
- a. The inpatient facility clinician responsible for coordinating the ITDP shall immediately notify the client's case manager of the time of the admission and ensure that all treatment and discharge planning includes the case manager.
  - b. The case manager shall be provided notice of all treatment and discharge meetings, shall participate as a full member of the inpatient facility treatment team in such meetings, shall receive periodic and other reports concerning the client's treatment, and shall be responsible for identifying and securing appropriate community services to facilitate the client's discharge.
  - c. If no case manager has been assigned, the inpatient facility clinician primarily responsible for the client's inpatient care shall, within three days of admission, make a referral to the appropriate regional authority for the appointment of a case manager.
  - d. Delays in the assignment of a case manager or in the development or modification of an ISP or ITDP shall not be construed to prevent the clinically appropriate discharge of a client from an inpatient facility.

- e. Inpatient facilities shall establish a mechanism for the credentialing of case managers and other members of the clinical team in order that they may participate in ITDP meetings.
- B. Client participation in service planning.**
  1. It is the responsibility of the regional authority and its service providers to engage in service planning, including the provision of assessments, case management, ISPs, ITDPs, and service referrals, according to the provisions of these rules for the benefit of clients requesting, receiving or referred for behavioral health services or community services. Clients and the clients' guardians may refuse to participate in or to receive any service planning. In the event of such refusal, service planning shall not be provided unless:
    - a. There is an emergency in which a qualified clinician determines that immediate intervention is necessary to prevent serious harm to the client or others; or
    - b. The client is subject to court-ordered evaluation or treatment.
  2. A client's refusal to accept a particular service, including case management services, or a particular mode or course of treatment, shall not be grounds for refusing a client's access to other services that the client accepts.
  3. A physical examination shall not be conducted over a client's refusal unless the examination is consented to by the client's guardian, or the examination is otherwise required by court order.
  4. A decision to provide services, including assessment, service planning, and case management services, to a client who is refusing such services, or a decision not to provide such services to such an individual, may be appealed according to the provisions of R9-21-401. This subsection does not limit the rights of a client to accept, reject, or appeal particular results of the service planning process as identified in other applicable provisions of these rules.
- C. Clients with special needs.**
  1. Whenever, according to an assessment or in the development or review of any plan prepared under this Article, it is determined that a client is a client who needs special assistance or a client who needs counsel or advice in making treatment decisions or in enforcing the client's rights, the case manager shall:
    - a. Notify the regional authority, the Office of Human Rights, and the appropriate human rights committee of the client's need so that the client can be provided special assistance from the human rights advocate or special review by the human rights committee; and
    - b. If the client does not have a guardian, identify a friend, relative, or other person who is willing to serve as a designated representative of the client.
  2. The clinical team shall make arrangements to have qualified interpreters or other reasonable accommodations, including qualified interpreters for the deaf, present at any assessment, meeting, service delivery, notice, review, or grievance for clients who cannot converse adequately in spoken English.
  3. Clients who are incarcerated in jails shall receive ISPs in accordance with R9-21-307. If legitimate security requirements of any jail in which a client is incarcerated require a reasonable modification of a specific procedure set forth in this rule, the clinical team may modify the method for preparing the ISP only to the extent necessary to accommodate the legitimate security concerns.
    - a. No modification may unreasonably restrict the client's right to participate in the ISP process;
    - b. No modification may alter the standards for developing an ISP, the client's right to obtain services identified in the ISP, as provided in this Article, or the client's right to appeal any aspect of treatment planning according to R9-21-401, including the decision to modify the process for security reasons.
- D. Notices to the individual.**
  1. Any individual or mental health agency required to give notice to an individual of any documents, including eligibility determinations, assessment reports, ISPs, and ITDPs according to this rule shall do so by:
    - a. Providing a copy of the document to the individual;

    - c. Of the right to participate in the development of any plan prepared under this Article, including the right to attend all planning meetings;
    - d. Of the right to appeal any portion of any assessment, plan, or modification to an assessment or plan, according to R9-21-401;
    - e. Of the Administration's authority to require necessary and relevant information about the individual's needs, income, and resources;
    - f. Of the availability of assistance from the regional authority in obtaining information necessary to determine the need for behavioral health services or community services;
    - g. Of the Administration's or mental health agency's authority to charge for services and assessments;
    - h. That if the individual declines the services of a case manager or an ISP, the individual has the right to apply for services at a subsequent time; and
    - i. That if the individual declines any particular service or treatment modality, it will not jeopardize other accepted services.
- E. Extensions of time.**
  1. The time to initiate or complete eligibility determinations, assessments, ISPs, and other actions according to this Chapter may be extended if:
    - a. There is substantial difficulty in scheduling a meeting at which all necessary participants can attend;
    - b. The client fails to keep an appointment for assessment, evaluation, or any other necessary meeting;
    - c. The client is capable of but temporarily refuses to cooperate in the preparation of the plan or completion of an assessment or evaluation;
    - d. The client or the client's guardian and/or designated representative requests an extension of time or
    - e. Additional documentation has been requested but has not yet been received.
  2. An extension under this rule shall not exceed the number of days incurred by the delay and in no event may exceed

20 days, unless the whereabouts of the client are unknown.

3. For an SMI eligibility determination, an extension of time shall only apply if an applicant agrees to the extension.

The undersigned hereby requests a mental health evaluation to be performed by psychiatrists, psychologists, and social workers at

\_\_\_\_\_  
(Regional Authority)

on the following terms:

INPATIENT. I agree to remain as an inpatient in the above agency for a period of not more than 72 hours. I understand that, at the end of that period, the agency must release me or file a Petition for Court-Ordered Treatment, in which case I may be held until the court holds a hearing, which shall be no longer than six days from the date of filing the petition, excluding weekends and holidays. If such a Petition is filed, I will have the right to representation by a lawyer, and the court will appoint one for me if I cannot afford one.

OUTPATIENT. I agree to keep all scheduled appointments required for a complete evaluation, to the best of my ability. I understand that if I fail to appear, a Petition for Court-Ordered Evaluation or Treatment may be filed, in which case I may be detained and required to undergo involuntary evaluation and treatment. If such a Petition is filed, I will have the right to representation by a lawyer, and the court will appoint one for me if I cannot afford one.

\_\_\_\_\_ I understand that the physician-patient privilege does not apply, and information I give during this evaluation may be used in court in a civil hearing for court-ordered treatment.

\_\_\_\_\_ I understand that this evaluation may lead to a court hearing to determine if I need further treatment and that such treatment, or an investigation into the need for a guardianship, may be ordered by a court.

\_\_\_\_\_ I understand that an application for my examination has been filed and I choose to be evaluated voluntarily rather than by court order.

\_\_\_\_\_ I understand that my evaluation must take place within five days of my application.

\_\_\_\_\_ I understand that I have a right to require the person who has applied for my evaluation to present evidence of the need for such evaluation to a court of law for approval or disapproval and I waive my right to require prior court review of the application.

\_\_\_\_\_ I understand that I have a right, upon written request, to be discharged within 24 hours of that request (excluding weekends and holidays) unless the medical director of the evaluation agency files a petition for court-ordered evaluation.

### RULES

A.R.S. § 41-1001(17) states: “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

### THE ADMINISTRATIVE CODE

The Arizona Administrative Code is where the official rules of the state of Arizona are published. The Code is the official codification of rules that govern state agencies, boards, and commissions. Virtually everything in your life is affected in some way by rules published in the Arizona Administrative Code, from the quality of air you breathe to the licensing of your dentist. This chapter is one of more than 230 in the Code compiled in 21 Titles.

### ADMINISTRATIVE CODE SUPPLEMENTS

Rules filed by an agency to be published in the Administrative Code are updated quarterly. Supplement release dates are printed on the footers of each chapter:

First Quarter: January 1 - March 31  
Second Quarter: April 1 - June 30  
Third Quarter: July 1 - September 30  
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2016 is cited as Supp. 16-1.

### HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the Arizona Administrative Register for recent updates to rule Sections.

### ARTICLES AND SECTIONS

Rules in chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering system separated into subsections.

### HISTORICAL NOTES AND EFFECTIVE DATES

Historical notes inform the user when the last time a Section was updated in the Administrative Code. Be aware, since the Office publishes each quarter by entire chapters, not all Sections are updated by an agency in a supplement release. Many times just one Section or a few Sections may be updated in the entire chapter.

### ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, [www.azleg.gov](http://www.azleg.gov). An agency’s authority note to make rules is often included at the beginning of a chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

### SESSION LAW REFERENCES

Arizona Session Law references in the introduction of a chapter can be found at the Secretary of State’s website, [www.azsos.gov/services/legislative-filings](http://www.azsos.gov/services/legislative-filings).

### EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the Arizona Administrative Register online at [www.azsos.gov/rules](http://www.azsos.gov/rules), click on the Administrative Register link.

In the Administrative Code the Office includes editor’s notes at the beginning of a chapter indicating that certain rulemaking Sections were made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

### EXEMPTIONS AND PAPER COLOR

If you are researching rules and come across rescinded chapters on a different paper color, this is because the agency filed a Notice of Exempt Rulemaking. At one time the office published exempt rules on either blue or green paper. Blue meant the authority of the exemption was given by the Legislature; green meant the authority was determined by a court order. In 2001 the Office discontinued publishing rules using these paper colors.

### PERSONAL USE/COMMERCIAL USE

This chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

**TITLE 9. HEALTH SERVICES****CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION**

*Editor's Note: The Office of the Secretary of State prints all Code Chapters on white paper (Supp 01-3).*

*Editor's Note: This Chapter contains rules which were adopted or amended under an exemption from the Arizona Administrative Procedure Act (A.R.S. Title 41, Chapter 6), pursuant to Laws 1992, Ch. 301, § 61 and Ch. 302, § 13, and Laws 1993, Ch. 6, § 34. Exemption from A.R.S. Title 41, Chapter 6 means that AHCCCS did not submit notice of this rulemaking to the Secretary of State's Office for publication in the Arizona Administrative Register; the Governor's Regulatory Review Council did not review these rules; AHCCCS was not required to hold public hearings on these rules; and the Attorney General did not certify these rules. Because this Chapter contains rules which are exempt from the regular rulemaking process, the Chapter is printed on blue paper.*

#### R9-22-202. General Requirements

- A.** For the purposes of this Article, the following definitions apply:
1. “Authorization” means written, verbal, or electronic authorization by:
    - a. The Administration for services rendered to a fee-for-service member, or
    - b. The contractor for services rendered to a prepaid capitated member.
  2. Use of the phrase “attending physician” applies only to the fee-for-service population.
- B.** In addition to other requirements and limitations specified in this Chapter, the following general requirements apply:
1. Only medically necessary, cost effective, and federally-reimbursable and state-reimbursable services are covered services.
  2. Covered services for the federal emergency services program (FESP) are under R9-22-217.
  3. The Administration or a contractor may waive the covered services referral requirements of this Article.
  4. Except as authorized by the Administration or a contractor, a primary care provider, attending physician, practi-

tioner, or a dentist shall provide or direct the member’s covered services. Delegation of the provision of care to a practitioner does not diminish the role or responsibility of the primary care provider.

5. A contractor shall offer a female member direct access to preventive and routine services from gynecology providers within the contractor’s network without a referral from a primary care provider.
  6. A member may receive physical and behavioral health services as specified in Articles 2 and 12.
  7. The Administration or a contractor shall provide services under the Section 1115 Waiver as defined in A.R.S. § 36-2901.
  8. An AHCCCS registered provider shall provide covered services within the provider’s scope of practice.
  9. In addition to the specific exclusions and limitations otherwise specified under this Article, the following are not covered:

  10. Medical or behavioral health services are not covered services if provided to:
    - a. An inmate of a public institution; or
    - b. A person who is in residence at an institution for the treatment of tuberculosis.
- C.** The Administration or a contractor may deny payment of non-emergency services if prior authorization is not obtained as specified in this Article and Article 7 of this Chapter. The Administration or a contractor shall not provide prior authorization for services unless the provider submits documentation of the medical necessity of the treatment along with the prior authorization request.
- D.** Services under A.R.S. § 36-2908 provided during the prior period coverage do not require prior authorization.
- E.** Prior authorization is not required for services necessary to evaluate and stabilize an emergency medical condition. The Administration or a contractor shall not reimburse services that require prior authorization unless the provider documents the diagnosis and treatment.
- F.** A service is not a covered service if provided outside the GSA unless one of the following applies:
1. A member is referred by a primary care provider for medical specialty care outside the GSA. If a member is referred outside the GSA to receive an authorized medically necessary service, the contractor shall also provide all other medically necessary covered services for the member;
  2. There is a net savings in service delivery costs as a result of going outside the GSA that does not require undue travel time or hardship for a member or the member’s family;
  3. The contractor authorizes placement in a nursing facility located out of the GSA; or
  4. Services are provided during prior period coverage or during the prior quarter coverage.
- G.** If a member is traveling or temporarily residing outside of the GSA, covered services are restricted to emergency care services, unless otherwise authorized by the contractor.
- H.** A contractor shall provide at a minimum, directly or through subcontracts, the covered services specified in this Chapter and in contract.

## Arizona Health Care Cost Containment System - Administration

- I. The Administration shall determine the circumstances under which a FFS member may receive services, other than emergency services, from service providers outside the member's county of residence or outside the state. Criteria considered by the Administration in making this determination shall include availability and accessibility of appropriate care and cost effectiveness.
- J. The restrictions, limitations, and exclusions in this Article do not apply to a contractor electing to provide noncovered services.
  - 1. The Administration shall not consider the costs of providing a noncovered service to a member in the development or negotiation of a capitation rate.
  - 2. A contractor shall pay for noncovered services from administrative revenue or other contractor funds that are unrelated to the provision of services under this Chapter.
  - 3. If a member requests a service that is not covered or is not authorized by a contractor, or the Administration, an AHCCCS-registered service provider may provide the service according to R9-22-702.
- K. Subject to CMS approval, the restrictions, limitations, and exclusions specified in the following subsections do not apply to American Indians receiving services through IHS or a tribal health program operating under P.L. 93-638 when those services are eligible for 100 percent federal financial participation:

- A. Experimental services are not covered. A service is not experimental if:
  - 1. It is generally and widely accepted as a standard of care in the practice of medicine in the United States and is a safe and effective treatment for the condition for which it is intended or used.
  - 2. The service does not meet the standard in subsection (A)(1), but the service has been demonstrated to be safe and effective for the condition for which it is intended or used based on the weight of the evidence in peer-reviewed articles in medical journals published in the United States.
  - 3. The service does not meet the standard in subsection (A)(2) because the condition for which the service is intended or used is rare, but the service has been demonstrated to be safe and effective for the condition for which it is intended or used based on the weight of opinions from specialists who provide the service or related services.
- B. The following factors shall be considered when evaluating the weight of peer-reviewed articles or the opinions of specialists:
  - 1. The mortality rate and survival rate of the service as compared to the rates for alternative non-experimental services.
  - 2. The types, severity, and frequency of complications associated with the services as compared with the complications associated with alternative non-experimental services.
  - 3. The frequency with which the service has been performed in the past.
  - 4. Whether there is sufficient historical information regarding the service to provide reliable data regarding risks and benefits.
  - 5. The reputation and experience of the authors and/or specialists and their record in related areas.
  - 6. The extent to which medical science in the area develops rapidly and the probability that more definite data will be available in the foreseeable future.
