 - c. A Master level license shall certify that the falconer has practiced falconry as a General falconer for at least five years.
- L.** An applicant for any level Sport Falconry license shall pay all applicable fees established under R12-4-412.
- M.** The Department may inspect the applicant's raptor facilities, materials, and equipment to verify compliance with requirements established under R12-4-409(I), R12-4-428, and this Section before issuing a Sport Falconry license. The applicant or licensed falconer shall ensure all raptors currently possessed by the falconer and kept in the facility are present at the time of inspection.
1. Department may inspect a facility:
 - a. After a change of location, when the Department cannot verify the facility is the same facility as the one approved by a previous inspection, or
 - b. Prior to the acquisition of a new species or addition of another raptor when the previous inspection does not indicate the facilities can accommodate a new species or additional raptor.
 2. A licensed falconer shall notify the Department no more than five business days after changing the location of a facility.
 3. When a facility is located on property not owned by the licensed falconer, the falconer shall provide a written statement signed and dated by the property owner at the time of inspection. The written statement shall specify that the licensed falconer has permission to keep a raptor on the property and the property owner permits the Department to inspect the falconry facility at any reasonable time of day and in the presence of the licensed falconer.
 4. A licensed falconer shall ensure the facility:
 - a. Provides a healthy and safe environment,
 - b. Is designed to keep predators out,
 - c. Is designed to avoid injury to the raptor,
 - d. Is easy to access,
 - e. Is easy to clean, and
 - f. Provides access to fresh water and sunlight.
 5. In addition to the requirements established under R12-4-409(I) and R12-4-428:
 - a. A licensed falconer shall ensure facilities where raptors are held have:
 - i. A suitable perch that is protected from extreme temperatures, wind, and excessive disturbance for each raptor;
 - ii. At least one opening for sunlight; and
 - iii. Walls that are solid, constructed of vertical bars spaced narrower than the width of the body of the smallest raptor housed therein, or any other suitable materials approved by the Department.
 - b. A licensed falconer shall possess all of the following equipment:
 - i. At least one flexible, weather-resistant leash;

Game and Fish Commission

- ii. One swivel appropriate to the raptor being flown;
 - iii. At least one water container, available to each raptor kept in the facility, that is at least two inches deep and wider than the length of the largest raptor using the container;
 - iv. A reliable scale or balance suitable for weighing raptors, graduated in increments of not more than 15 grams;
 - v. Suitable equipment that protects the raptor from extreme temperatures, wind, and excessive disturbance while transporting or housing a raptor when away from the permanent facility where the raptor is kept, and
 - vi. At least one pair of jesses constructed of suitable material or Alymeri jesses consisting of an anklet, grommet, and removable strap that attaches the anklet and grommet to a swivel. The falconer may use a one-piece jess only when the raptor is not being flown.
- 6. A licensed falconer may keep a falconry raptor inside the falconer's residence provided a suitable perch is supplied. The falconer shall ensure all flighted raptors kept inside a residence are tethered or otherwise restrained at all times, unless the falconer is moving the raptor into or out of the residence. This subsection does not apply to unflighted eyas, which do not need to be tethered or otherwise restrained.
- 7. A licensed falconer may keep multiple raptors together in one enclosure untethered only when the raptors are compatible with each other.
- 8. A licensed falconer may keep a raptor temporarily outdoors in the open provided the raptor is continually under observation by the falconer or an individual designated by the falconer.
- 9. A licensed falconer may keep a raptor in a temporary facility that the Department has inspected and approved for no more than 120 consecutive days.
- 10. A licensed falconer may keep a raptor in a temporary facility that the Department has not inspected or approved for no more than 30 consecutive days. The falconer shall notify the Department of the temporary facility prior to the end of the 30-day period. The Department may inspect a temporary facility as established under R12-4-409(I).
- N. Prior to the issuance of a Sport Falconry license, an applicant shall:
 - 1. Present proof of a previously held state-issued sport falconry license, or
 - 2. Correctly answer at least 80% of the questions on the Department administered written examination.
 - a. A person whose Sport Falconry license is expired more than five years shall take the examination. The Department shall issue to an eligible applicant a license for the sport falconry license type previously held by the applicant after the applicant correctly answers at least 80% of the questions on the written examination and presents proof of the previous Sport Falconry license.
 - b. A person who holds a falconry license issued in another country shall correctly answer at least 80% of the questions on the written examination. The Department shall determine the level of license issued based upon the applicant's documentation.
- O. A licensed falconer shall submit electronically a 3-186A form to report:
 - 1. Any of the following raptor possession changes to the Department no more than 10 business days after the occurrence:
 - a. Acquisition,
 - b. Banding,
 - c. Escape into the wild without recovery after 30 consecutive days have passed,
 - d. Death,
 - e. Microchipping,
 - f. Rebanding,
 - g. Release,
 - h. Take, or
 - i. Transfer.
 - 2. Upon discovering the theft of a raptor, a licensed falconer shall immediately report the theft of a raptor to the Department and USFWS by:
 - a. Contacting the Department's regional office within 48 hours; and
 - b. Submitting the electronic 3-186A form within 10 days.
- P. A licensed falconer shall print and maintain copies of all required electronic database submissions for each falconry raptor possessed by the falconer. The falconer shall retain copies of all submissions for a period of five years from the date on which the raptor left the falconer's possession.
- Q. A licensed falconer or a person with a valid falconry license, or its equivalent, issued by any state meeting federal falconry standards may capture a raptor for the purpose of falconry only when authorized by Commission Order.
 - 1. A falconer attempting to capture a raptor shall possess:
 - a. A valid Arizona Sport Falconry license or valid falconry license, or its equivalent, issued by another state, and
 - b. Any required Arizona hunt permit-tag issued to the licensed falconer for take of the authorized raptor, and
 - c. A valid Arizona hunting or combination license. A short-term combination hunting and fishing license is not valid for capturing a raptor under this subsection.
 - 2. An Apprentice falconer may take from the wild:
 - a. Any raptor not prohibited under subsection (H)(1)(c) that is less than one year of age, except nestlings or
 - b. An adult raptor.
 - 3. A General or Master falconer may take from the wild:
 - a. A raptor of any age, including nestlings, provided at least one nestling remains in the nest; or
 - b. An adult raptor.
 - 4. A licensed falconer shall take no more than two raptors from the wild for use in falconry each calendar year. For the purpose of take limits, a raptor is counted towards the licensed falconer's take limit by the falconer who originally captured the raptor.
 - 5. A falconer attempting to capture a raptor shall:
 - a. Not use stupefying substances;
 - b. Use a trap or bird net that is not likely to cause injury to the raptor;
 - c. Ensure that each trap or net the falconer is using is continually attended; and
 - d. Ensure that each trap used for the purpose of capturing a raptor is marked with the falconer's name, address, and license number.
 - 6. A licensed falconer shall report the injury of any raptor injured due to capture techniques to the Department. The falconer shall transport the injured raptor to a veterinarian or licensed rehabilitator and pay for the cost of the injured

Game and Fish Commission

- raptor's care and rehabilitation. After the initial medical treatment is completed, the licensed falconer shall either:
- a. Keep the raptor and the raptor shall count towards the falconer's take and possession limit, or
 - b. Transfer the raptor to a permitted wildlife rehabilitator and the raptor shall not count against the falconer's take or possession limit.
7. When a licensed falconer takes a raptor from the wild and transfers the raptor to another falconer who is present at a capture site, the falconer receiving the raptor is responsible for reporting the take of the raptor.
 8. A General or Master falconer may capture a raptor that will be transferred to another licensed falconer who is not present at the capture site. The falconer who captured the raptor shall report the take of the raptor and the capture shall count towards the General or Master falconer's take limit. The General or Master falconer may then transfer the raptor to another falconer.
 9. A General or Master falconer may capture a raptor for another licensed falconer who cannot attend the capture due to a long-term or permanent physical impairment. The licensed falconer with the physical impairment is responsible for reporting the take of the raptor and the raptor shall count against their take and possession limits.
 10. A licensed falconer may capture any raptor displaying a seamless metal band, or any other item identifying it as a falconry raptor, regardless of whether the falconer is prohibited from possessing the raptor. The falconer shall return the recaptured raptor to the falconer of record. The raptor shall not count towards the falconer's take or possession limits, provided the falconer reports the temporary possession of the raptor to the Department no more than five consecutive days after capturing the raptor.
 - a. When the falconer of record cannot or does not wish to possess the raptor, the falconer who captured the raptor may keep the raptor, provided the falconer is eligible to possess the species and may do so without violating any requirement established under this Section.
 - b. When the falconer of record cannot be located, the Department shall determine the disposition of the recaptured raptor.
 11. A licensed falconer may capture and shall report the capture of any raptor wearing a transmitter to the Department no more than five business days after the capture. The falconer shall attempt to contact the researcher or licensed falconer who applied the transmitter and facilitate the replacement or retrieval of the transmitter and raptor. The falconer may possess the raptor for no more than 30 consecutive days while waiting for the researcher or falconer to retrieve the transmitter and raptor. The raptor shall not count towards the falconer's take or possession limits, provided the falconer reports the temporary possession of the raptor to the Department no more than five consecutive days after capturing the raptor. The Department shall determine the disposition of a raptor when the researcher or falconer does not replace the transmitter or retrieve the raptor within the initial 30-day period.
 12. A licensed falconer may capture any raptor displaying a federal Bird Banding Laboratory (BBL) aluminum research band or tag, except a peregrine falcon (*Falco peregrinus*). A licensed falconer who captures a raptor wearing a research band or tag shall report the following information to BBL and the Department:
 - a. Species,
 - b. Band or tag number,
 - c. Location of the capture, and
 - d. Date of capture.
 - e. A person can report the capture of a raptor wearing a research band or tag to BBL by calling 1(800) 327-2263.
 13. A licensed falconer may recapture a falconer's lost or any escaped falconry raptor at any time. The Department does not consider the recapture of a wild falconry raptor as taking a raptor from the wild.
 14. When attempting to trap a raptor in Cochise, Graham, Pima, Pinal, or Santa Cruz counties, a licensed falconer shall:
 - a. Not begin trapping while a northern aplomado falcon (*Falco femoralis septentrionalis*) is observed in the vicinity of the trapping location.
 - b. Suspend trapping when a northern aplomado falcon arrives in the vicinity of the trapping location.
 15. In addition to the requirements in subsection (Q)(14), an apprentice falconer shall be accompanied by a General or Master falconer when attempting to capture a raptor in Cochise, Graham, Pima, Pinal, or Santa Cruz counties.
 16. A licensed Master falconer may take up to two golden eagles from the wild only as authorized under 50 C.F.R. part 22. The Master falconer may:
 - a. Capture an immature or sub-adult golden eagle, or
 - b. Take a nestling from its nest or a nesting adult golden eagle in a livestock depredation area if a biologist representing the agency responsible for declaring the depredation area determines the adult eagle is preying on livestock or wildlife and that any nestling of the adult will be taken by a falconer authorized to possess it.
 - c. The falconer shall inform the Department of the capture plans in person, in writing, or by telephone at least three business days before trapping is initiated. The falconer may send written notification to the Arizona Game and Fish Department's Law Enforcement Programs Coordinator at 5000 West Carefree Highway, Phoenix, Arizona 85086.
 17. A licensed falconer shall ensure any falconry activities the falconer is conducting do not cause unlawful take under the Endangered Species Act of 1973, 16 U.S.C. § 1531 et seq., or the Bald and Golden Eagle Protection Act, 16 U.S.C. §§ 668 through 668d. The Department or USFWS may provide information regarding where take is likely to occur. The falconer shall report the take of any federally listed threatened or endangered species or bald or golden eagle to the USFWS Arizona Ecological Services Field Office.
- R.** A licensed falconer shall comply with all of the following banding requirements:
1. A licensed falconer shall ensure the following raptors are banded after capture:
 - a. Northern Goshawk,
 - b. Harris's hawk (*Parabuteo unicinctus*), and
 - c. Peregrine falcon.
 2. The falconer shall request a band no more than five consecutive days after the capture of a raptor by contacting the Department. A Department representative or a General or Master licensed falconer may attach the USFWS leg band to the raptor.
 3. A licensed falconer shall not use a counterfeit, altered, or defaced band.
 4. A falconer holding a federal propagation permit shall ensure a raptor bred in captivity wears a seamless metal

Game and Fish Commission

- band furnished by USFWS, as prescribed under 50 C.F.R. 21.30.
5. A licensed falconer may remove the rear tab on a band and smooth any imperfections on the surface, provided doing so does not affect the band's integrity or numbering.
 6. A licensed falconer shall report the loss of a band to the Department no more than five business days after discovering the loss. The falconer shall reband the raptor with a new USFWS leg band furnished by the Department.
- S.** A licensed falconer may request Department authorization to implant an ISO-compliant [134.2 kHz] microchip in lieu of a band into a captive-bred raptor or raptor listed under subsection (R)(1).
1. The falconer shall submit a written request to the Department.
 2. The falconer shall retain a copy of the Department's written authorization and any associated documentation for a period of five years from the date the raptor permanently leaves the falconer's possession.
 3. The falconer is responsible for the cost of implanting the microchip and any associated veterinary fees.
- T.** A licensed falconer may allow a falconry raptor to feed on any species of wildlife incidentally killed by the raptor for which there is no open season or for which the season is closed, but shall not take such wildlife into possession.
- U.** A General or Master falconer may hack a falconry raptor. Any raptor the falconer is hacking shall count towards the falconer's possession limit during hacking.
1. A falconer is prohibited from hacking a raptor near the nesting area of a federally threatened or endangered species or in any other location where the raptor is likely to disturb or harm a federally listed threatened or endangered species. The Department may provide information regarding where this is likely to occur.
 2. A licensed falconer shall ensure any hybrid raptor flown free or hacked by the falconer is equipped with at least two functioning radio transmitters.
- V.** A licensed falconer may release:
1. A wild-caught raptor permanently into the wild under the following circumstances:
 - a. The raptor is native to Arizona,
 - b. The falconer removes the raptor's falconry band and any other falconry equipment prior to release, and
 - c. The falconer releases the raptor in a suitable habitat and under suitable seasonal conditions.
 2. A captive-bred raptor permanently into the wild only when the raptor is native to Arizona and the Department approves the release of the raptor. The falconer shall request permission to release the captive-bred raptor by contacting the Department. When permitted by the Department and before releasing the captive-bred raptor, the General or Master falconer shall hack the captive-bred raptor in a suitable habitat and the appropriate season.
 3. A licensed falconer is prohibited from intentionally releasing any hybrid or non-native raptor permanently into the wild.
- W.** A Master falconer may conduct and receive payment for any abatement services conducted with a falconry raptor. The falconer shall apply for and obtain all required federal permits prior to conducting any abatement activities. A General falconer may conduct abatement services only when authorized under the federal permit held by the Master falconer.
- X.** A person other than a licensed falconer may temporarily care for a falconry raptor for no more than 45 consecutive days, unless approved by the Department. The raptor under temporary care shall remain in the falconer's facility. The raptor shall continue to count towards the falconer's possession limit. An unlicensed caretaker shall not fly the raptor. The falconer may request an extension from the Department to the temporary possession period if extenuating circumstances occur. The Department shall evaluate extension requests on a case-by-case basis.
- Y.** A licensed falconer may serve as a caretaker for another licensed falconer's raptor for no more than 120 consecutive days, unless approved by the Department. The falconer shall provide the temporary caretaker with a signed and dated statement authorizing the temporary possession of each raptor. The statement shall also include the temporary possession period and activities the caretaker may conduct with the raptor. The raptor under temporary care shall not count toward the caretakers possession limit. The temporary caretaker may fly or train the raptor when permitted by the falconer in writing. The falconer may request an extension from the Department to the temporary possession period if extenuating circumstances occur. The Department shall evaluate extension requests on a case-by-case basis.
- Z.** A licensed falconer may assist a wildlife rehabilitator in conditioning a raptor in preparation for the raptor's release to the wild. The falconer may temporarily remove the raptor from the rehabilitation facilities while conditioning the raptor. The raptor shall remain under the rehabilitator's license and shall not count towards the falconer's possession limit. The rehabilitator shall provide the licensed falconer with a written statement authorizing the falconer to assist the rehabilitator. The written statement shall also identify the raptor by species, type of injury, and band number, when available. The licensed falconer shall return the raptor to the rehabilitator within the 180-day period established under R12-4-423(T), unless the raptor is:
1. Released into the wild in coordination with the rehabilitator and as authorized under this subsection,
 2. Allowed to remain with the rehabilitator for a longer period of time as authorized under R12-4-423(U), or
 3. Transferred permanently to the falconer, provided the falconer may legally possess the raptor and the Department approves the transfer. The raptor shall count towards the falconer's possession limit.
- AA.** A licensed falconer may use a raptor possessed for falconry in captive propagation, when permitted by USFWS. A licensed falconer is not required to transfer a raptor from a Sport Falconry license to another license when the raptor is used for captive propagation less than eight months in a year.
- BB.** A General or Master licensed falconer may use a lawfully possessed raptor in a conservation education program presented in a public venue. An Apprentice falconer, under the direct supervision of a General or Master falconer, may use a lawfully possessed raptor in a conservation education program presented in a public venue. The primary use for a raptor is falconry; a licensed falconer shall not possess a raptor solely for the purpose of providing a conservation education program. The falconer shall ensure the focus of the conservation education program is to provide information about the biology, ecological roles, and conservation needs of raptors and other migratory birds. The falconer may charge a fee for presenting a conservation education program; however, the fee shall not exceed the amount required to recoup the falconer's costs for providing the program. As a condition of the Sport Falconry License, the licensed falconer agrees to indemnify the Department, its officers, and employees. The falconer is liable for any damages associated with the conservation education activities.

Game and Fish Commission

- CC.** A licensed falconer may allow the photography, filming, or similar uses of a falconry raptor possessed by the licensed falconer, provided:
1. The falconer is not compensated for these activities; and
 2. The final product from these activities:
 - a. Promotes the practice of falconry;
 - b. Provides information about the biology, ecological roles, and conservation needs of raptors and other migratory birds;
 - c. Endorses a nonprofit falconry organization or association, products, or other endeavors related to falconry; or
 - d. Is used in scientific research or science publications.
- DD.** A licensed falconer may use or dispose of lawfully possessed falconry raptor feathers. A falconer shall not buy, sell, or barter falconry raptor feathers. A falconer may possess feathers for imping from each species of raptor that the falconer currently possesses or has possessed.
1. The licensed falconer may transfer or receive feathers for imping from:
 - a. Another licensed falconer,
 - b. A licensed wildlife rehabilitator, or
 - c. Any licensed propagator located in the United States.
 2. A licensed falconer may donate falconry raptor feathers, except bald and golden eagle feathers, to:
 - a. Any person or institution permitted to possess falconry raptor feathers,
 - b. Any person or institution exempt from the permit requirement under 50 C.F.R. 21.12, or
 - c. A non-eagle feather repository. The Department may provide information regarding the submittal of falconry raptor feathers to a non-eagle feather repository.
 3. A licensed falconer shall gather primary and secondary flight feathers or retrices that are molted or otherwise lost from a golden eagle and either retain the feathers for imping purposes or submit the feathers to the U.S. Fish and Wildlife Service, National Eagle Repository, Rocky Mountain Arsenal, Building 128, Commerce City, Colorado 80022.
 4. A falconer whose license is either revoked or expired shall dispose of all falconry raptor feathers in the falconer's possession.
- EE.** Arizona licensed falconers importing raptors into Arizona shall have a health certificate issued no more than 30 consecutive days:
1. Prior to the international importation, or
 2. Prior to or after the inter-state importation.
- FF.** A licensed falconer may conduct any of the following activities with any captive-bred raptor provided the raptor is wearing a seamless band and the person receiving the raptor possesses an appropriate special license:
1. Barter,
 2. Offer for barter,
 3. Gift,
 4. Purchase,
 5. Sell,
 6. Offer for sale, or
 7. Transfer.
- GG.** A licensed falconer is prohibited from conducting any of the following activities with any wild-caught raptor protected under the Migratory Bird Treaty Act:
1. Barter,
 2. Offer for barter,
 3. Purchase,
 4. Sell, or
 5. Offer for sale.
- HH.** A licensed falconer may transfer:
1. Any wild-caught falconry raptor lawfully captured in Arizona with or without a permit tag to another Arizona Sport Falconry License holder at any time.
 - a. The raptor shall count towards the take limit for that calendar year for the falconer taking the raptor from the wild.
 - b. The raptor shall not count against the take limit of the falconer receiving the raptor.
 2. Any wild-caught falconry raptor to another license or permit type under this Article or federal law, provided the raptor has been used in the sport of falconry for at least two years preceding the transfer.
 3. A wild-caught falconry sharp-shinned hawk (*Accipiter striatus*), Cooper's hawk (*Accipiter cooperii*), merlin (*Falco columbarius*), or American kestrel (*Falco sparverius*) to another license or permit type under this Article or federal law, provided the raptor has been used in the sport of falconry for at least one-year preceding the transfer.
 4. Any hybrid or captive-bred raptor to another licensed falconer or permit type under this Article or federal law at any time.
 5. Any falconry raptor that is no longer capable of being flown, as determined by a veterinarian or licensed rehabilitator, to another permit type at any time. The licensed falconer shall provide a copy of the documentation from the veterinarian or rehabilitator stating that the raptor is not useable in falconry to the Federal Migratory Bird Permits office that administers the other permit type.
- II.** A licensed falconer shall not transfer a wild-caught raptor species to a licensed falconer in another state for at least one year from the date of capture if either resident or nonresident take is managed through Commission Order by way of a permit-tag, nonpermit-tag, or annual harvest quota system. However, a licensed falconer may transfer a wild-caught raptor that is not managed through Commission Order by way of a permit-tag, nonpermit-tag, or annual harvest quota system to a licensed falconer in another state at any time.
- JJ.** A surviving spouse, executor, administrator, or other legal representative of a deceased or incapacitated licensed falconer shall transfer any raptor held by the licensed falconer to another licensed falconer no more than 90 consecutive days after the death of the falconer. The Department shall determine the disposition of any raptor not transferred prior to the end of the 90-day period.
- KK.** A licensed falconer shall conduct the following activities, as applicable, no more than 10 business days after either the death of a falconry raptor or the final examination of a deceased raptor by a veterinarian:
1. For a bald or golden eagle, send the entire body, including all feathers, talons, and other parts, to the National Eagle Repository;
 2. For any euthanized non-eagle raptor, to prevent secondary poisoning of other wildlife, the falconer shall either submit the carcass to a non-eagle repository or burn, bury, or otherwise destroy the carcass;
 3. For all other species:
 - a. Submit the carcass to a non-eagle repository;
 - b. Submit the carcass to the Department for submission to a non-eagle repository;
 - c. Donate the body or feathers to any person or institution exempt under 50 C.F.R. 21.12 or authorized by USFWS to acquire and possess such parts or feathers;

Game and Fish Commission

- d. Retain the carcass or feathers for imping purposes as established under subsection (DD);
- e. Burn, bury, or otherwise destroy the carcass; or
- f. Mount the raptor carcass. The falconer shall ensure any microchip implanted in the raptor is not removed and any band attached to the raptor remains on the mount. The falconer may use the mount for a conservation education program. The falconer shall ensure copies of the license and all relevant 3-186A forms are retained with the mount. The mount shall not count towards the falconer's possession limit.

Historical Note

Adopted effective April 28, 1989 (Supp. 89-2). Amended effective January 1, 1995; filed in the Office of the Secretary of State December 9, 1994 (Supp. 94-4). Amended effective April 4, 1997 (Supp. 97-2). Amended by final rulemaking at 6 A.A.R. 211, effective December 14, 1999 (Supp. 99-4). Amended by final rulemaking at 18 A.A.R. 958, effective January 1, 2013 (Supp. 12-2). Amended by final rulemaking at 19 A.A.R. 3225, effective January 1, 2014 (Supp. 13-3). Amended by final rulemaking at 21 A.A.R. 2813, effective December 5, 2015 (Supp. 15-4).

R12-4-423. Wildlife Rehabilitation License

- A.** For the purposes of this Section, "volunteer" means a person who:
 - Is not designated as an agent, as defined under R12-4-401,
 - Assists a wildlife rehabilitation license holder without compensation, and
 - Is under the direct supervision of the license holder at the location specified on the wildlife rehabilitation license.
- B.** A wildlife rehabilitation license is issued for the sole purpose of restoring and returning wildlife to the wild through rehabilitative services. The license allows a person 18 years of age or older to conduct any of the following activities with live injured, disabled, orphaned or otherwise debilitated wildlife specified on the rehabilitation license:
 - 1. Capture;
 - 2. Euthanize;
 - 3. Export to a licensed zoo, when authorized by the Department;
 - 4. Rehabilitate;
 - 5. Release;
 - 6. Temporarily possess;
 - 7. Transport; or
 - 8. Transfer to one of the following:
 - a. Licensed veterinarian for treatment or euthanasia;
 - b. Another appropriately licensed special license holder;
 - c. Licensed zoo, when authorized by the Department; or
 - 9. As otherwise directed in writing by the Department.
- C.** A wildlife rehabilitation license authorizes the possession of the following taxa or species:
 - 1. Amphibians;
 - 2. Reptiles;
 - 3. Birds:
 - a. Non-passerines, birds in any order other than those named in subsections (b) through (e);
 - b. Birds in the orders *Falconiformes* or *Strigiformes*, raptors;
 - c. Birds in the order, *Galliformes* quails and turkeys;
 - d. Birds in the order *Columbiformes*, doves;
 - e. Birds in the order *Trochiliformes*, hummingbirds; and
 - f. Birds in the order *Passeriformes*, passerines;
- 4. Mammals:
 - a. Nongame mammals;
 - b. Bats;
 - c. Big game mammals other than cervids: bighorn sheep, bison, black bear, javelina, mountain lion, pronghorn;
 - d. Carnivores: bobcat, coati, coyote, foxes, raccoons, ringtail, skunks, and weasels; and
 - e. Small game mammals.
- D.** A wildlife rehabilitation license authorizes the possession of the following taxa or species only when specifically requested at the time of application:
 - 1. Eagles;
 - 2. Species listed under 50 C.F.R. 17.11, revised October 1, 2013; and
 - 3. The Department's Tier 1 Species of Greatest Conservation Need, as defined under R12-4-401.
 - 4. For the purposes of subsection (D)(2), this incorporation by reference contains no future editions or amendments. The incorporated material is available at any Department office, online at www.gpoaccess.gov, or may be ordered from the U.S. Government Printing Office, Superintendent of Documents, P.O. Box 979050, St. Louis, MO 63197-9000.
- E.** All wildlife held under the license is the property of the state and shall be surrendered to the Department upon request.
- F.** The wildlife rehabilitation license expires on the last day of the third December from the date of issuance.
- G.** In addition to the requirements established under this Section, a wildlife rehabilitation license holder shall comply with the special license requirements established under R12-4-409.
- H.** The Department shall deny a wildlife rehabilitation license to a person who fails to meet the requirements and criteria established under R12-4-409, R12-4-428, or this Section or when the person's wildlife rehabilitation license is suspended or revoked in any state. The Department shall provide the written notice established under R12-4-409 to the applicant stating the reason for the denial. The person may appeal the denial to the Commission as prescribed under A.R.S. Title 41, Chapter 6, Article 10.
- I.** The license holder shall be responsible for compliance with all applicable regulatory requirements; the wildlife rehabilitation license does not:
 - 1. Exempt the license holder from any municipal, county, state, or federal codes, ordinances, statutes, rules, or regulations; or
 - 2. Authorize the license holder to engage in authorized activities using federally-protected wildlife, unless the license holder possesses a valid license, permit, or other form of documentation issued by the United States authorizing the license holder to use that wildlife in a manner consistent with the special license.
- J.** Before applying for a wildlife rehabilitation license, a person shall successfully complete an examination conducted by the Department. The Department shall consider only those parts of the examination that are applicable to the taxa of wildlife for which the license is sought in establishing the qualifications of the applicant.
 - 1. Examinations are provided by appointment, only.
 - 2. An applicant may request a verbal or written examination.
 - 3. The examination shall include questions regarding:
 - a. Wildlife rehabilitation;
 - b. Safe handling of wildlife;
 - c. Transporting wildlife;
 - d. Humane treatment;

Game and Fish Commission

- e. Nutritional requirements;
 - f. Behavioral requirements;
 - g. Developmental requirements;
 - h. Ecological requirements;
 - i. Habitat requirements;
 - j. Captivity standards established under R12-4-428;
 - k. Human and wildlife safety considerations;
 - l. State statutes, rules, and regulations regarding wildlife rehabilitation; and
 - m. National Wildlife Rehabilitation Association minimum standards for wildlife rehabilitation.
4. The applicant must successfully complete the examination within three years prior to the date on which the initial application for the license is submitted to the Department.
- K.** A person applying for a wildlife rehabilitation license shall submit an application to the Department. A separate application is required for each location where the applicant proposes to use wildlife. The application is furnished by the Department and is available at any Department office and online at www.azgfd.gov. The applicant shall provide the following information on the application:
- 1. The applicant's information:
 - a. Name;
 - b. Date of birth;
 - c. Mailing address;
 - d. Telephone number;
 - e. Facility address, if different from mailing address;
 - f. Physical location description to include the Global Positioning System location or Universal Transverse Mercator coordinates; and
 - g. Department ID number, when applicable;
 - 2. The wildlife taxa or species listed under subsection (C) that will be possessed under the license;
 - 3. For each location where the wildlife will be used, the land owner's:
 - a. Name;
 - b. Mailing address;
 - c. Telephone number; and
 - d. Physical location description to include the Global Positioning System location or Universal Transverse Mercator coordinates;
 - 4. A detailed description, diagram, and photographs of the facility where the applicant will hold the wildlife, and a description of how the facility complies with R12-4-428 and any other captivity standards established under this Section;
 - 5. Any other information required by the Department; and
 - 6. The certification required under R12-4-409(C).
- L.** In addition to the requirements listed under subsection (K), at the time of application, an applicant for a wildlife rehabilitation license shall also submit:
- 1. Any one or more of the following:
 - a. A valid, current license issued by a state veterinary medical examination authority that authorizes the applicant to practice as a veterinarian;
 - b. Proof of at least six months of experience performing wildlife rehabilitative work with an average of at least eight hours each week for the taxa or species of animal listed on the application; or
 - c. A current and valid license, permit, or other form of authorization issued by another state or the federal government that allows the applicant to perform wildlife rehabilitation;
 - 2. Proof the applicant successfully completed the examination required under subsection (J) no more than three years prior to submitting the application;
 - 3. An affidavit signed by the applicant affirming either of the following:
 - a. The applicant is a licensed veterinarian; or
 - b. A licensed veterinarian is reasonably available to provide veterinary services as necessary to facilitate rehabilitation of wildlife.
 - 4. A written statement describing:
 - a. The applicant's preferred method of disposing of non-releasable live wildlife as listed under subsection (B); and
 - b. A statement of the applicant's training and experience in handling, capturing, rehabilitating, and caring for the taxa or species when the applicant is applying for a license to perform authorized activities with taxa or species of wildlife listed under subsection (C).
- M.** A wildlife rehabilitation license holder who wishes to continue activities authorized under the license shall renew the license before it expires.
- 1. When renewing a license without change to the species, location, or design of the facility where wildlife is held as authorized under the current license, the license holder may reference supporting materials previously submitted in compliance with subsection (K).
 - 2. A license holder applying for a renewal of the license shall successfully complete the examination at the time of renewal when the annual report submitted under subsection (Z) indicates the license holder did not perform any rehabilitative activities under the license.
 - 3. A license holder applying for a renewal of the license shall submit proof the license holder has completed the continuing education requirement established under subsection (N).
- N.** During the license period a wildlife rehabilitation license holder shall complete eight or more hours of continuing education sessions on wildlife rehabilitation or veterinary medicine. Acceptable continuing education sessions may be obtained from:
- 1. An accredited university or college;
 - 2. The National Wildlife Rehabilitators Association, 2625 Clearwater Rd. Suite 110, St. Cloud, MN 56301;
 - 3. The International Wildlife Rehabilitation Council, PO Box 3197, Eugene, OR 97403; or
 - 4. Other applicable training opportunities approved by the Department in writing. A license holder who wishes to use other applicable training to meet the eight hour continuing education requirement shall request approval of the other applicable training prior to participating in the education session.
- O.** A wildlife rehabilitation license holder may request authorization to allow an agent to assist the license holder in carrying out activities authorized under the wildlife rehabilitation license by submitting a written request to the Department.
- 1. An applicant may request the ability to allow a person to act as an agent on the applicant's behalf, provided:
 - a. An employment or supervisory relationship exists between the applicant and the agent, and
 - b. The agent's privilege to take or possess live wildlife is not suspended or revoked in any state
 - 2. The license holder shall obtain approval from the Department prior to allowing the agent assist in any activities.
 - 3. The license holder is liable for all acts the agent performs under the authority of this Section.

Game and Fish Commission

4. The Department, acting on behalf of the Commission, may suspend or revoke a license for violation of this Section by an agent.
 5. The license holder shall ensure the agent possesses a legible copy of the license while conducting any activity authorized under the wildlife rehabilitation license and presents it for inspection upon the request of any Department employee or agent.
- P.** At any time during the license period, a wildlife rehabilitation license holder may request permission to amend the license to add or delete an agent or a location where wildlife is held; or to obtain authority to rehabilitate additional taxa of wildlife. To request an amendment, the license holder shall submit the following information to the Department, as applicable:
1. To add or delete an agent, the information stated in subsections (K)(1) through (K)(4) and (L)(2), as applicable to the agent;
 2. To add or delete a location, the information stated in subsection (K)(1) through (K)(5); and
 3. To obtain authority to rehabilitate additional taxa or wildlife, the information stated in subsection (K)(1) through (K)(5) and (L)(1) through (L)(4).
- Q.** A wildlife rehabilitation license holder authorized to rehabilitate wildlife species listed under subsection (C)(3)(c), (C)(4)(c) and (C)(4)(d) or (D) shall contact the Department within 24 hours of receiving the individual animal to obtain instructions in handling or transferring that animal. While awaiting instructions, the license holder shall ensure that emergency veterinary care is provided as necessary.
- R.** A wildlife rehabilitation license holder shall:
1. Comply with all additional stipulations placed on the license by the Department, as authorized under R12-4-409(H).
 2. Allow the Department to conduct inspections of an applicant's or license holder's facility and records at any time before or during the license period to determine compliance with the requirements of this Article.
 3. Ensure each facility is inspected by the attending veterinarian at least once every year.
 4. Capture, remove, transport, and release wildlife held under the requirements of this Section in a manner that is least likely to cause injury to the affected wildlife.
 5. Conduct rehabilitation only at the location listed on the license
 6. Be responsible for all expenses incurred, including veterinary expenses, and all actions taken under the license, including all actions or omissions of all agents and volunteers when performing activities under the license.
 7. Immediately surrender wildlife held under the license to the Department upon request.
 8. Dispose of all wildlife that is euthanized or that otherwise dies within 30 days of death either by burial, incineration, or transfer to a scientific research institution, except that the license holder shall transfer all carcasses of endangered or threatened species, species listed under the Department's Tier 1 Species of Greatest Conservation Need, or eagles as directed by the Department.
 9. Maintain a current log that records the information specified under subsection (Z).
 10. Possess the license or legible copy of the license at each authorized location and while conducting any rehabilitation activities and presents it for inspection upon the request of any Department employee or agent.
 11. Ensure a copy of the wildlife rehabilitation license accompanies each transfer or shipment of wildlife.
- S.** A wildlife rehabilitation license holder shall not:
1. Display for educational purposes any wildlife held under the license.
 2. Exhibit any wildlife held under the license.
 3. Permanently possess any wildlife held under the license.
- T.** A wildlife rehabilitation license holder may possess:
1. All wildlife for no more than 90 days; or
 2. A bird for no more than 180 days, unless the Department has authorized possession for a longer period of time.
- U.** A license holder may request permission to possess wildlife for a longer period of time than specified in subsection (T) by submitting a written request to the Department.
1. The Department shall approve or deny the request within ten days of receiving the request.
 2. For requests made due to a medical necessity, the Department may require the license holder to provide a written statement listing the medical reasons for the extension, signed by a licensed veterinarian.
 3. The license holder may continue to hold the specified wildlife while the Department considers the request.
 4. If the request is denied, the Department shall send a written notice to the license holder which shall include specific, time-dated directions for the surrender or disposition of the animal.
- V.** A wildlife rehabilitation license holder may allow a licensed falconer to assist in conditioning a raptor in preparation for the raptor's release to the wild.
1. The license holder may allow the licensed falconer to temporarily remove the raptor from the license holder's facility while conditioning the raptor.
 2. The license holder shall provide the licensed falconer with a written statement authorizing the falconer to assist the license holder.
 3. The written statement shall identify the raptor by species, type of injury, and band number, when available.
 4. The license holder shall ensure the licensed falconer returns the raptor to the license holder within the 180-day period established under subsection (T).
- W.** A wildlife rehabilitation license holder may hold wildlife under the license after the wildlife reaches a state of restored health only for the amount of time reasonably necessary to prepare the wildlife for release. Rehabilitated wildlife shall be released:
1. In an area without immediate threat to the wildlife or contact with humans;
 2. During an ecologically appropriate time of year and time of day; and
 3. Into a suitable habitat in the same geographic area where the animal was originally obtained; or
 4. In an area designated by the Department.
- X.** Wildlife that is not releasable after the time-frames specified in subsection (T) shall be transferred, disposed of, or euthanized as determined by the Department.
- Y.** To permanently hold rehabilitated wildlife that is unsuitable for release, a wildlife rehabilitation license holder shall apply for and obtain a wildlife holding license in compliance with under R12-4-417.
- Z.** A wildlife rehabilitation license holder shall submit an annual report to the Department before January 31 of each year for the previous calendar year. The report form is furnished by the Department.
1. A report is required regardless of whether or not activities were performed during the previous year.
 2. The wildlife rehabilitation license becomes invalid if the annual report is not submitted to the Department by January 31 of each year.

Game and Fish Commission

3. The Department will not process the special license holder's renewal application until the annual report is received by the Department.
 4. The annual report shall contain the following information:
 - a. The license holder's:
 - i. Name;
 - ii. Mailing address; and
 - iii. Telephone number;
 - b. Each agent's:
 - i. Name;
 - ii. Mailing address; and
 - iii. Telephone number;
 - c. The permit or license number of any federal permits or licenses that relate to any rehabilitative function performed by the license holder; and
 - d. An itemized list of each animal held under the license during the calendar year for which activity is being reported. For each animal held by the license holder or agent, the itemization shall include:
 - i. Species;
 - ii. Condition that required rehabilitation;
 - iii. Date of acquisition;
 - iv. Source of acquisition;
 - v. Location of acquisition;
 - vi. Age class at acquisition, when reasonably determinable;
 - vii. Status at disposition or end-of-year in relation to the condition requiring rehabilitation;
 - viii. Method of disposition;
 - ix. Location of disposition; and
 - x. Date of disposition.
 - e. For activities related to federally-protected wildlife, a copy of the rehabilitator's federal permit report of activities related to federally-protected wildlife satisfies the reporting requirement established under subsection (Z)(4)(c) for federally protected wildlife.
- AA.** A wildlife rehabilitation license holder shall comply with the requirements established under R12-4-409, R12-4-428, and R12-4-430, as applicable.
- Historical Note**
- Adopted effective January 4, 1990 (Supp. 90-1).
 Amended effective January 1, 1995; filed in the Office of the Secretary of State December 9, 1994 (Supp. 94-4).
 Amended by final rulemaking at 7 A.A.R. 2732, effective July 1, 2001 (Supp. 01-2). Amended by final rulemaking at 9 A.A.R. 3186, effective August 30, 2003 (Supp. 03-3).
 Amended by final rulemaking at 12 A.A.R. 980, effective May 6, 2006 (Supp. 06-1). Amended by final rulemaking at 21 A.A.R. 2813, effective December 5, 2015 (Supp. 15-4).
- R12-4-424. White Amur Stocking and Holding License**
- A.** For the purposes of this Section:
- “Closed aquatic system” means any body of water, water system, canal system, or series of lakes, canals, or ponds where triploid white amur are prevented from entering or exiting the system by any natural or man-made barrier, as determined by the Department.
- “Triploid” means a species having 1.5 chromosome sets that renders them sterile.
- B.** A white amur stocking and holding license allows a person to import, possess, stock in a closed aquatic system, and transport triploid white amur (*Ctenopharyngodon idella*).
- C.** The white amur stocking and holding license is valid for no more than 20 consecutive days.
- D.** In addition to the requirements established under this Section, a white amur stocking and holding license holder shall comply with the special license requirements established under R12-4-409.
- E.** The license holder shall be responsible for compliance with all applicable regulatory requirements; the white amur stocking and holding license does not:
1. Exempt the license holder from any municipal, county, state, or federal codes, ordinances, statutes, rules, or regulations; or
 2. Authorize the license holder to engage in authorized activities using federally-protected wildlife, unless the license holder possesses a valid license, permit, or other form of documentation issued by the United States authorizing the license holder to use that wildlife in a manner consistent with the special license.
- F.** The Department shall deny a white amur stocking and holding license to a person who fails to meet the requirements established under R12-4-409 or this Section. The Department shall provide the written notice established under R12-4-409(F)(4) to the applicant stating the reason for the denial. The person may appeal the denial to the Commission as prescribed under A.R.S. Title 41, Chapter 6, Article 10. In addition to the requirements and criteria established under R12-4-409(F)(1) through (4), the Department shall deny a white amur stocking license when it determines the issuance of the license may result in a negative impact on native wildlife.
- G.** A person applying for a white amur stocking and holding license shall submit an application to the Department. A separate application is required for each location where the applicant proposes to stock white amur. The application is furnished by the Department and is available from any Department office and online at www.azgfd.gov. The applicant shall provide the following information on the application:
1. The applicant's information:
 - a. Name;
 - b. Mailing address;
 - c. Telephone number; and
 - d. Department ID number, when applicable;
 2. If the applicant will use the wildlife for a commercial purpose, the applicant's business:
 - a. Name;
 - b. Federal Tax Identification Number;
 - c. Mailing address; and
 - d. Telephone number;
 3. For each location where the white amur will be held, stocked, or restocked, the land owner's:
 - a. Name;
 - b. Mailing address;
 - c. Telephone number; and
 - d. Physical location description to include the Global Positioning System location or Universal Transverse Mercator coordinates;
 - e. For the purposes of this subsection, the following systems may qualify as separate locations, as determined by the Department:
 - i. Each closed aquatic system;
 - ii. Each separately managed portion of a closed aquatic system; or
 - iii. Multiple separate closed aquatic systems owned, controlled, or legally held by the same applicant where stocking is to occur;
 4. A detailed description and diagram of each enclosed aquatic system where the applicant will stock and hold the white amur, as prescribed under A.R.S. § 17-317,

Game and Fish Commission

which shall include the following information, as applicable:

- a. A description of how the system meets the definition of a "closed aquatic system" in subsection (A);
 - b. Size of waterbody proposed for stocking;
 - c. Nearest river, stream, or other freshwater system;
 - d. Points where water enters into each water body;
 - e. Points where water leaves each water body; and
 - f. Location of fish containment barriers;
5. For each wildlife supplier from whom the applicant will obtain white amur, the supplier's:
 - a. Name;
 - b. Federal Tax Identification Number;
 - c. Mailing address; and
 - d. Telephone number;
 6. The number and average length of white amur to be stocked;
 7. The dates white amur will be stocked, or restocked;
 8. Any other information required by the Department; and
 9. The certification required under R12-4-409(C).
- H.** When the Department determines an applicant proposes to stock and hold white amur in a watershed in a manner that conflicts with the Department's efforts to conserve wildlife, in addition to the requirements listed under subsection (G), the applicant shall also submit a written proposal to the Department at the time of application. The written proposal shall contain all of the following:
1. Anticipated benefits from introducing white amur;
 2. Potential risks introducing white amur may create for wildlife, including:
 - a. Whether white amur are compatible with native aquatic species or game fish; and
 - b. Method for evaluating the potential impact introducing white amur will have on wildlife;
 3. Assessment of probable impacts to sensitive species in the area using the list generated by the Department's On-Line Environmental Review Tool, which is available at www.azgfd.gov. The proposal must address each species listed.
- I.** A white amur stocking license holder who applies to renew the license shall pay fees as prescribed under R12-4-412.
- J.** A white amur stocking and holding license holder shall comply with the requirements established under R12-4-409.
1. Comply with all additional stipulations placed on the license by the Department, as authorized under R12-4-409(H).
 2. Obtain all aquatic wildlife, live eggs, fertilized eggs, and milt from a licensed fish farm operator or a private non-commercial fish pond certified free of the diseases and causative agents through the following actions:
 - a. An inspection shall be performed by a qualified fish health inspector or fish pathologist at the fish farm or pond where the aquatic wildlife or biological material is held before it is shipped to the license holder.
 - b. The inspection shall be conducted no more than 12 months prior to the date on which the aquatic wildlife or biological material is shipped to the license holder. The Department may require additional inspections at any time prior to stocking.
 - c. The applicant shall submit a copy of the certification to the Department prior to conducting any stocking activities.
 3. Allow the Department to conduct inspections of an applicant's or license holder's facility, records, and any waters

proposed for stocking at any time before or during the license period to determine compliance with the requirements of this Article and to determine the appropriate number of white amur to be stocked.

4. Ensure all shipments of white amur are accompanied by a USFWS, or similar agent, certificate confirming the white amur are triploid.
 5. Possess the license or legible copy of the license while conducting any activities authorized under the white amur stocking and holding license and presents it for inspection upon the request of any Department employee or agent.
- K.** A white amur stocking and holding license holder shall comply with the requirements established under R12-4-409 and R12-4-428.

Historical Note

Adopted as an emergency effective July 5, 1988, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 88-3).

Correction, Historical Note, Supp. 88-3, should read, "Adopted as an emergency effective July 15, 1988..."; readopted and amended as an emergency effective October 13, 1988, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 88-4). Emergency expired. Readopted as an emergency effective January 24, 1989, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 89-1). Emergency expired. Former Section R12-4-219 amended and adopted as a permanent rule and renumbered as Section R12-4-424 effective April 28, 1989 (Supp. 89-2). Amended effective January 1, 1995; filed in the Office of the Secretary of State December 9, 1994 (Supp. 94-4). Amended by final rulemaking at 7 A.A.R. 2732, effective July 1, 2001 (Supp. 01-2). Amended by final rulemaking at 12 A.A.R. 980, effective May 6, 2006 (Supp. 06-1). Amended by final rulemaking at 19 A.A.R. 3225, effective January 1, 2014 (Supp. 13-3). Amended by final rulemaking at 21 A.A.R. 2813, effective December 5, 2015 (Supp. 15-4).

R12-4-425. Restricted Live Wildlife Lawfully Possessed without License or Permit Before the Effective Date of Article 4 or Any Subsequent Amendments

- A.** A person who lawfully possessed restricted live wildlife without a license or permit from the Department before the effective date of this Section or any subsequent amendments to R12-4-406, this Section, or this Article may continue to possess the wildlife and to use it for any purpose that was lawful, except propagation, before the effective date of R12-4-406, this Section, or this Article or any subsequent amendments, provided the person complies with the requirements established under subsections (A)(1) or (A)(2).
1. The person submits written notification to the Department's regional office in which the restricted live wildlife is held. The person shall submit the written notification to the regional office within 30 calendar days of the effective date of any subsequent amendments to this Section, R12-4-406, or this Article. The written notification shall include all of the following information:
 - a. The number of individuals of each species,
 - b. The purpose for which it is possessed, and
 - c. The unique identifier for each individual wildlife possessed by the person, as established under subsection (F); or
 2. The person maintains documentation of the restricted live wildlife held. The documentation shall include:
 - a. The number of individuals of each species,

Game and Fish Commission

- b. Proof the individuals were legally acquired before the effective date of the amendment causing the wildlife to be restricted,
 - c. The purpose for which it is used, and
 - d. The unique identifier for each wildlife possessed by the person, as established under subsection (F).
- 3. The person shall report the birth or hatching of any progeny conceived before and born after the effective date of this Section, R12-4-406, or this Article to the Department and comply with the requirements established under subsection (F).
- B.** The person shall ensure the written notification described under subsection (A)(1) and (A)(2) includes the person's name, address, and the location where the wildlife is held. A person who maintains their own documentation under subsection (A)(2) shall make it available to the Department upon request.
- C.** A person who possesses wildlife under this Section shall dispose of it using any one of the following methods:
 - 1. Exportation;
 - 2. Euthanasia;
 - 3. Transfer to an Arizona special license holder, provided the special license authorizes possession of the species involved; or
 - 4. As otherwise directed by the Department in writing.
- D.** If a person transfers restricted live wildlife possessed under this Section to a special license holder:
 - 1. The exemption for that wildlife under this Section expires, and
 - 2. The special license holder shall use, possess, and report the wildlife in compliance with this Article and any stipulations applicable to that special license.
- E.** A person who exports wildlife held under this Section shall not import the wildlife back into this state unless the person obtains a special license prior to importing the wildlife back into this state.
- F.** A person who possesses wildlife under this Section shall permanently and uniquely mark the wildlife with a unique identifier as follows:
 - 1. Within 30 calendar days of the effective date of this Section, R12-4-406, or this Article if the person has notified the Department as provided under subsection (A)(1); or
 - 2. Within 30 calendar days of receiving written notice from the Department directing the person to permanently mark the wildlife.
- G.** A person possessing a desert tortoise (*Gopherus agassizii*) is not subject to the requirements of this Section and shall comply with requirements established under R12-4-404 and R12-4-407.
- b. Simian Herpes B virus;
 - c. Simian Immunodeficiency Virus;
 - d. Simian T Lymphotropic Virus; and
 - e. Gastrointestinal pathogens such as, but not limited to, Shigella, Salmonella, E. coli, and Giardia.
- 2. A qualified person, as determined by the Department, performs the test and provides the test results; and
- 3. The tests required under subsection (B)(1) are:
 - a. Conducted no more than 30 days before the person imports the nonhuman primate; and
 - b. The person submits the results to the Department prior to importation.
- C.** A person lawfully possessing the nonhuman primate shall contain the primate within the confines of the person's private property or licensed facility.
- D.** A person possessing a nonhuman primate may only transport the primate by way of a secure cage, crate, or carrier. A person possessing a primate shall only transport the primate to the following locations:
 - 1. To or from a licensed veterinarian;
 - 2. Into or out of the state for lawful purposes.
- E.** A person lawfully possessing a nonhuman primate that bit, scratched, or otherwise exposed a human to pathogenic organisms, as determined by the Department, shall ensure the primate is examined and laboratory tested for the presence of pathogens as follows:
 - 1. The Department shall prescribe examinations and laboratory testing for the presence of pathogens.
 - 2. The person shall have the nonhuman primate examined by a state licensed veterinarian who shall perform any examinations or laboratory tests as directed by the Department.
 - a. The licensed veterinarian shall provide the laboratory results to the Department within 24 hours of receiving the results.
 - b. The Department shall notify the exposed person and the Department of Health Services, Vector Borne and Zoonotic Disease Section within 10 days of receiving notice of the test results.
 - 3. The person possessing the nonhuman primate shall pay all costs associated with the examination, laboratory testing, and maintenance of the primate.
- F.** A person lawfully possessing a nonhuman primate shall ensure a primate that tests positive for a zoonotic disease that poses a serious health risk to humans, or is involved in more than one incident of biting, scratching, or otherwise exposing a human to pathogenic organisms, is maintained in captivity or disposed of as directed in writing by the Department.
- G.** A zoo license holder or a person using nonhuman primates at a research facility, as defined under R12-4-401, possessing a primate that bit, scratched, or otherwise exposed a human to pathogenic organisms shall quarantine and test the primate in accordance with procedures approved by the Department.
- H.** A person lawfully possessing a nonhuman primate is subject to the requirements established under R12-4-428.

Historical Note

Adopted effective April 28, 1989 (Supp. 89-2). Amended by final rulemaking at 12 A.A.R. 980, effective May 6, 2006 (Supp. 06-1). Amended by final rulemaking at 21 A.A.R. 2813, effective December 5, 2015 (Supp. 15-4).

R12-4-426. Possession of Nonhuman Primates

- A.** A person is prohibited from possessing a nonhuman primate, unless authorized under a special license or lawful exemption.
- B.** A person shall not import a nonhuman primate into this state unless:
 - 1. A person lawfully possessing a nonhuman primate shall ensure the primate is tested and reported to be free of any zoonotic disease that poses a serious health risk as determined by the Department. Zoonotic diseases that pose a serious health risk include, but are not limited to:
 - a. Tuberculosis;

Historical Note

Adopted effective April 28, 1989 (Supp. 89-2). Rule expired December 31, 1989; text rescinded (Supp. 93-2). New Section adopted by final rulemaking at 6 A.A.R. 211, effective December 14, 1999 (Supp. 99-4). Amended by final rulemaking at 12 A.A.R. 980, effective May 6, 2006 (Supp. 06-1). Section R12-4-426(C) corrected to include subsection (C)(1), under A.R.S. § 41-1011 and A.A.C. R1-1-108, Office File No. M11-77, filed March 4, 2011 (Supp. 10-1). Amended by final rulemaking at 21 A.A.R. 2813, effective December 5, 2015

Game and Fish Commission

(Supp. 15-4).

R12-4-427. Exemptions from Requirements to Possess a Wildlife Rehabilitation License

- A. A person may possess, provide rehabilitative care to, and release to the wild any live wildlife listed below that is injured, orphaned, or otherwise debilitated:
1. The order *Passeriformes*: passerine birds;
 2. The order *Columbiformes*: doves;
 3. The family *Phasianidae*: quail, pheasant, and chukars;
 4. The order *Rodentia*: rodents; and
 5. The order *Lagomorpha*: hares and rabbits.
- B. This Section does not:
1. Exempt the person from any municipal, county, state, or federal codes, ordinances, statutes, rules, or regulations; or
 2. Authorize the person to engage in authorized activities using federally-protected wildlife, unless the person possesses a valid license, permit, or other form of documentation issued by the United States that authorizes the license holder to use that wildlife in a manner consistent with the special license.
- C. This Section does not authorize the possession of any of the following:
1. Eggs of wildlife;
 2. Wildlife listed as Species of Greatest Conservation Need, as defined under R12-4-401; or
 3. More than 25 animals at the same time.
- D. A person taking and caring for wildlife listed under this Section is not required to possess a hunting license.
- E. A person shall only take wildlife listed under subsection (A) by hand or by a hand-held implement.
- F. A person shall not possess wildlife lawfully held under this Section for more than 60 days.
- G. The exemptions granted under this Section shall not apply to any person who, by their own action, has unlawfully injured, orphaned, or otherwise debilitated the wildlife.
- H. If the wildlife is rehabilitated and suitable for release, the person who possesses the wildlife shall release it within the 60-day period established under subsection (C):
1. Into a habitat that is suitable to sustain the wildlife, or
 2. As close as possible to the same geographic area from where it was taken.
- I. If the wildlife is not rehabilitated within the 60-day period or the wildlife requires care normally provided by a veterinarian, the person who possesses it shall:
1. Transfer it to a wildlife rehabilitation license holder or veterinarian;
 2. Euthanize it; or
 3. Obtain a wildlife holding permit as established under R12-4-417.

Historical Note

Adopted effective April 28, 1989 (Supp. 89-2). Amended effective January 1, 1995; filed in the Office of the Secretary of State December 9, 1994 (Supp. 94-4). Amended by final rulemaking at 12 A.A.R. 980, effective May 6, 2006 (Supp. 06-1). Amended by final rulemaking at 21 A.A.R. 2813, effective December 5, 2015 (Supp. 15-4).

R12-4-428. Captivity Standards

- A. For the purposes of this Section, "animal" means any wildlife possessed under a special license, unless otherwise indicated.
- B. A person possessing wildlife under a special license authorized under this Article shall comply with the minimum standards for the humane treatment of animals established under this Section.
- C. A person possessing wildlife under an authority granted under

this Article shall ensure all facilities meet the following minimum standards:

1. The facility shall be:
 - a. Constructed of material of sufficient strength to resist any force the animal may be capable of exerting against it.
 - b. Constructed in a manner designed to reasonably prevent the animal's escape or the entry of unauthorized persons, wildlife, or domestic animals.
 - c. Constructed and maintained in good repair to protect animals from injury, disease, or death and to enable the humane practices established under this Section.
2. If required to comply with related requirements established under this Section, each facility shall be equipped with safe, reliable and adequate electric power.
 - a. All electric wiring shall be constructed and maintained in accordance with all applicable governmental building codes.
 - b. Electrical construction and maintenance shall be sufficient to ensure that no animal has direct contact with any electrical wiring or electrical apparatus and the animal is fully protected from any possibility of injury, shock, or electrocution.
3. Each animal shall be supplied with sufficient potable water to meet its needs.
 - a. All water receptacles shall be kept in clean and sanitary condition.
 - b. Water shall be readily available and monitored at least once daily or more often when the needs of the animal dictate.
 - c. If potable water is not accessible to the animal at all times, it shall be provided as often as necessary for the health and comfort of the animal.
4. Food shall be suitable, wholesome, palatable, free from contamination, and of sufficient appeal, quantity, and nutritive value to maintain the good health of each animal held in the facility.
 - a. Each animal's diet shall be prepared based upon the nutritional needs and preferences of the animal with consideration for the animal's age, species, condition, health, size, and all veterinary directions or recommendations in regard to diet.
 - b. Each animal shall be fed as often as its needs dictate, taking into consideration behavioral adaptations, veterinary treatment or recommendations, normal fasts, or other professionally accepted humane practices.
 - c. The quantity or level of available food for each animal shall be monitored at least once daily, except for those periods of time when professionally accepted humane practices dictate that the animal not consume any food during the entire day.
 - d. Food and food receptacles, when used, shall be sufficient in quantity and accessible to all animals in the facility and shall be placed to minimize potential contamination and conflict between animals using the receptacles.
 - e. Food receptacles shall be kept clean and sanitary at all times.
 - f. Any self-feeding food receptacles shall function properly and the food they provide shall be monitored at least once daily and shall not be subject to deterioration, contamination, molding, caking, or any other process that would render the food unsafe or unpalatable for the animal.

Game and Fish Commission

- g. An appropriate means of refrigeration shall be provided for supplies of perishable animal foods.
- 5. The facility shall be kept sanitary and regularly cleaned as the nature of the animal requires:
 - a. Adequate provision shall be made for the removal and disposal of animal waste, food waste, unusable bedding materials, trash, debris and dead animals not intended for food.
 - b. The facility shall be maintained to minimize the potential of vermin infestation, disease, and unseemly odors.
 - c. Excreta shall be removed from the primary enclosure facility as often as necessary to prevent contamination, minimize hazard of disease, and reduce unseemly odors.
 - d. The sanitary condition of the facility shall be monitored at least once daily.
 - e. When the facility is cleaned by hosing, flushing, or the introduction of any chemical substances, adequate measures shall be taken to ensure the animal has no direct contact with any chemical substance and is not directly sprayed with water, steam, or chemical substances or otherwise wetted involuntarily.
- 6. A sanitary and humane method shall be provided to rapidly eliminate excess water from the facility. If drains are utilized, they shall be:
 - a. Properly constructed.
 - b. Kept in good repair to avoid foul odors or vermin infestation.
 - c. Installed in a manner that prevents the backup or accumulation of debris or sewage.
- 7. No animal shall be exposed to any human activity or environment that may have an inhumane or harmful effect upon the animal that is inconsistent with the purpose of the special license.
- 8. Facilities shall not be constructed or maintained in proximity to any physical condition which may pose any health threat or unnecessary stress to the animal.
- 9. Persons caring for the animals shall conduct themselves in a manner that prevents the spread of disease, minimizes stress, and does not threaten the health of the animal.
- 10. All animals housed in the same facility or within the same enclosed area shall be compatible and shall not pose a substantial threat to the health, life or well-being of any other animal in the same facility or enclosure, whether or not the other animals are held under a special license. This subsection shall not apply to live animals utilized as food items in the enclosures.
- 11. Facilities for the enclosure of animals shall be constructed and maintained to provide sufficient space to allow each animal adequate freedom of movement to make normal postural and social adjustments.
 - a. The facility area shall be large enough and constructed in a manner to allow the animal proper and adequate exercise as is characteristic to each animal's natural behavior and physical needs.
 - b. Facilities for digging or burrowing animals shall have secure safe floors below materials supplied for digging or burrowing activity.
 - c. Animals that naturally climb or perch shall be provided with safe and adequate climbing or perching apparatus.
 - d. Animals that naturally live in an aquatic environment shall be supplied with sufficient access to safe water so as to meet their aquatic behavioral needs.
 - e. The facility and holding environment shall be structured to reasonably promote the psychological well-being of any animal held in the facility.
- 12. A special license holder shall ensure that a sufficient number of properly trained personnel are utilized to meet all the humane husbandry practices established under this Section. The license holder shall be responsible for the actions of all animal care personnel and all other persons that come in contact with the animals.
- 13. The special license holder shall designate a veterinarian licensed to practice in this state as the primary treating veterinarian for each species of animal to be held.
 - a. The license holder shall ensure that all animals in their care receive proper, adequate, and humane veterinary care as the needs of each animal dictate.
 - b. Each animal held for more than one year shall be inspected by the attending veterinarian at least once every year.
 - c. Every animal shall promptly receive licensed veterinary care whenever it appears that the animal is injured, sick, wounded, diseased, infected by parasites, or behaving in a substantially abnormal manner, including but not limited to exhibiting loss of appetite or disinclination to normal physical activity.
 - d. All medications, treatments and other directions prescribed by the attending veterinarian shall be properly administered by the license holder, authorized agent, or volunteer. A license holder, authorized agent, or volunteer shall not administer prescription medicine, unless under the direction of a veterinarian.
- 14. Any animal that is suspected of or diagnosed as harboring any infectious or transmissible disease, whether or not the animal is held under a special license, shall be isolated immediately upon suspicion or diagnosis.
 - a. The isolated animal shall continue to be kept in a humane manner as required under this Section.
 - b. When there is an animal with an infectious or transmissible disease in any animal facility, whether or not the animal is held under a special license, the facility shall be sanitized so as to reasonably eliminate the chance of other animals being exposed to infection. Sanitation procedures may include, but are not limited to:
 - i. Washing facilities or animal-related materials with appropriate antibacterial chemical agents, soaps or detergents;
 - ii. Appropriate application of hot water or steam under pressure; and
 - iii. Replacement of gravel, dirt, sand, water, or food. All residue of chemical agents utilized in the sanitation process shall be reasonably eliminated from the facility before any animal is returned to the facility.
 - c. Parasites and vermin shall be controlled and eliminated so as to ensure the continued health and well-being of all animals.
- D. In addition the standards established under subsection (C), a person shall ensure all indoor facilities meet the following minimum standards:
 - 1. Heating and cooling equipment shall be sufficient to regulate the temperature of the facility to protect the animals from temperature extremes as the nature of the wildlife

Game and Fish Commission

- requires to provide a healthy, comfortable, and humane living environment.
2. Indoor facilities shall be adequately ventilated with fresh air to provide for the healthy, comfortable, and humane keeping of any animal and to minimize drafts, odors, and moisture condensation.
 3. Indoor facilities shall have lighting of a quality, distribution, and duration as is appropriate for the biological needs of the animals held and to facilitate the inspection and maintenance of the facility.
 - a. Artificial lighting, when used, shall be utilized in regular cycles as the animal's needs dictate.
 - b. Lighting shall be designed to protect the animals from excessive or otherwise harmful aspects of illumination.
- E.** In addition the standards established under subsection (C), a person shall ensure that all outdoor facilities meet the following minimum standards:
1. Sufficient shade to prevent the overheating or discomfort of any animal shall be provided.
 2. Sufficient shelter appropriate to protect animals from normal climatic conditions throughout the year. Each animal shall be acclimated to outdoor climatic conditions before they are housed in any outdoor facility or otherwise exposed to the extremes of climate.
- F.** A person who handles an animal shall ensure the animal is handled in an expeditious and careful manner to ensure no unnecessary discomfort, behavioral stress, or physical harm to the animal.
- a. An animal shall be transported in a secure, expeditious, careful, temperature appropriate, and humane manner. An animal shall not be transported in any manner that poses a substantial threat to the life, health, or behavioral well-being of the animal.
 - b. An animal placed on public exhibit or educational display shall be handled in a manner that minimizes the risk of harm to members of the public and to the animal, which includes but is not limited to providing and maintaining a sufficient distance between the animal and the viewing public.
 - c. Any restraint used on an animal shall not cause physical harm or unnecessary discomfort.
- G.** The Department may impose additional requirements on facilities that hold animals to meet the needs of the particular animal and ensure public health and safety. Any additional special license facility requirements shall be set forth in writing by the Department at the time the special license is issued.
- Historical Note**
- Adopted effective April 28, 1989 (Supp. 89-2). Amended by final rulemaking at 12 A.A.R. 980, effective May 6, 2006 (Supp. 06-1). Amended by final rulemaking at 21 A.A.R. 2813, effective December 5, 2015 (Supp. 15-4).
- R12-4-429. Expired**
- Historical Note**
- New Section made by emergency rulemaking under A.R.S. § 41-1026 at 8 A.A.R. 3127, effective July 1, 2002 for a period of 180 days (Supp. 02-3). Emergency rulemaking renewed under A.R.S. § 41-1026(D) for an additional 180-day period at 9 A.A.R. 132, effective December 27, 2002 (Supp. 02-4). Section expired effective June 24, 2003 (Supp. 03-2).
- R12-4-430. Importation, Handling, and Possession of Cervids**
- A.** The Department shall not issue a new special license authorizing the possession of a live cervid, except as provided under R12-4-418 and R12-4-420.
- B.** A person shall not import a live cervid into Arizona, except a zoo license holder may import any live nonnative cervid for exhibit, educational display, or propagation provided the nonnative cervid is quarantined for 30 days upon arrival and is procured from a facility that meets all of the following requirements:
1. The exporting facility has a disease surveillance program and no history of chronic wasting disease or other wildlife disease that pose a serious health risk to wildlife or humans and there is accompanying documentation from the facility certifying there is no history of disease at the facility;
 2. The nonnative cervid is accompanied by a health certificate, issued no more than 30 days prior to importation by a licensed veterinarian in the jurisdiction of origin; and
 3. The nonnative cervid is accompanied by evidence of lawful possession, as defined under R12-4-401.
- C.** A person shall not transport a live cervid within Arizona, except to:
1. Export the live cervid from Arizona for a lawful purpose;
 2. Transport the live cervid to a facility for the purpose of slaughter, when the slaughter will take place within five days of the date of transport;
 3. Transport the live cervid to or from a licensed veterinarian for medical care;
 4. Transport the live cervid to a new holding facility owned by, or under the control of, the cervid owner, when all of the following apply:
 - a. The current holding facility has been sold or closed;
 - b. Ownership, possession, custody, or control of the cervid will not be transferred to another person; and
 - c. The owner of the cervid has prior written approval from the Department; or
 5. Transport the live nonnative cervid within Arizona for the purpose of procurement or propagation when all of the following apply:
 - a. The nonnative cervid is transported to or from a zoo licensed under R12-4-420;
 - b. The nonnative cervid is quarantined for 30 days upon arrival at its destination;
 - c. The nonnative cervid is procured from a facility that meets all of the requirements established under subsection (B)(1) through (B)(3).
- D.** A person who lawfully possesses a live cervid, except any cervid held under a private game farm or zoo license, shall comply with the requirements established under R12-4-425.
- E.** A person shall comply with the requirements established under R12-4-305 when transporting a cervid carcass, or its parts, from a licensed private game farm.
- F.** In addition to the recordkeeping requirements of R12-4-413 and R12-4-420, a person who possesses a live cervid under a private game farm or zoo license shall:
1. Permanently mark each live cervid with either an individually identifiable microchip or tattoo within 30 days of acquisition or birth of the cervid; and
 2. Include in the annual report submitted to the Department before January 31 of each year, the following for each native cervid in the license holder's possession:
 - a. Name of the license holder,
 - b. License holder's mailing address,
 - c. License holder's telephone number,
 - d. Number and species of live cervids held,
 - e. The microchip or tattoo number of each live native cervid held,

Game and Fish Commission

- f. The disposition of all cervids that were moved or died during the current reporting period
 - h. Any other information required by the Department to ensure compliance with this Section.
- G. The holder of a private game farm, scientific collecting, or zoo license shall ensure that the retropharyngeal lymph nodes or obex from the head of a cervid over one year of age that dies while held under the special licenses is collected by either a licensed veterinarian or the Department and submitted within 72 hours of the time of death to an Animal and Plant Health Inspection Service certified veterinary diagnostic laboratory for chronic wasting disease analysis. A list of approved laboratories is available at any Department office and online at www.azgfd.gov or www.aphis.usda.gov. The license holder shall:
 - 1. Ensure the shipment of the deceased animal's tissues is made by a common, private, or contract carrier that utilizes a tracking number system to track the shipment.
 - 2. Include all of the following information with the shipment of the deceased animal's tissues, the license holder's:
 - a. Name,
 - b. Mailing address, and
 - c. Telephone number.
 - 3. Designate, on the sample submission form, test results shall be sent to the Department within 10 days of completing the analysis. The sample submission form is furnished by the diagnostic laboratory providing the test.
 - 4. Be responsible for all costs associated with the laboratory analysis.
- H. A person who possesses a cervid shall comply with all procedures for:
 - 1. Tuberculosis control and eradication for cervids as prescribed under the United States Department of Agriculture publication "Bovine Tuberculosis Eradication: Uniform Methods and Rules" USDA APHIS 91-45-011, revised January 1, 2005, which is incorporated by reference in this Section. available
 - 2. Prevention, control, and eradication of Brucellosis in cervids as prescribed under the United States Department of Agriculture publication "Brucellosis in Cervidae: Uniform Methods and Rules" U.S.D.A. A.P.H.I.S. 91-45-16, effective September 30, 2003.
 - 3. The incorporated material is available at any Department office, online at www.aphis.usda.gov, or may be ordered from the USDA APHIS Veterinary Services, Cattle Disease and Surveillance Staff, P. O. Box 96464, Washington D.C. 20090-6464.
 - 4. The material incorporated by reference in this Section does not include any later amendments or editions.
- I. The Department has the authority to seize, euthanize, and dispose of any cervid possessed in violation of this Section, at the owner's expense.

Historical Note

New Section made by final rulemaking at 9 A.A.R. 3186, effective August 30, 2003 (Supp. 03-3). Amended by final rulemaking at 12 A.A.R. 980, effective May 6, 2006 (Supp. 06-1). Amended by final rulemaking at 21 A.A.R. 2813, effective December 5, 2015 (Supp. 15-4).

ARTICLE 5. BOATING AND WATER SPORTS**R12-4-501. Boating and Water Sports Definitions**

In addition to the definitions provided under A.R.S. § 5-301, the following definitions apply to this Article unless otherwise specified:

"Abandoned watercraft" means any watercraft that has remained:

On private property without the consent of the private property owner;

Unattended for more than 48 hours on a highway, public street, or other public property;

Unattended for more than 72 hours on state or federal lands; or

Unattended for more than 14 days on state or federal waterways, unless in a designated mooring or anchorage area.

"Aids to navigation" means buoys, beacons, or other fixed objects placed on, in, or near the water to mark obstructions to navigation or to direct navigation through channels or on a safe course.

"Authorized third-party provider" means an entity that has been awarded a written agreement with the Department, pursuant to a competitive bid process, to perform limited or specific services on behalf of the Department.

"AZ number" means the Department-assigned identification number with the prefix "AZ."

"Bill of sale" means a written agreement transferring ownership of a watercraft that includes all of the following information:

Name of buyer;

Name of seller;

Manufacturer of the watercraft, when known;

Hull identification number, unless exempt under R12-4-505;

Purchase price and sales tax paid, when applicable; and

Signature of seller.

"Boats keep out" in reference to a regulatory marker means the operator or user of a watercraft, or a person being towed by a watercraft on water skis, an inflatable device, or similar equipment shall not enter.

"Certificate of number" means the Department-issued document that is proof that a motorized watercraft is registered in the name of the owner.

"Certificate of origin" means a document provided by the manufacturer of a new watercraft or its distributor, its franchised new watercraft dealer, or the original purchaser establishing the initial chain of ownership for a watercraft, such as but not limited to:

Manufacturer's certificate of origin (MCO);

Manufacturer's statement of origin (MSO);

Importer's certificate of origin (ICO);

Importer's statement of origin (ISO); or

Builder's certification (Form CG-1261).

"Controlled-use marker" means an anchored or fixed marker on the water, shore, or a bridge that controls the operation of watercraft, water skis, surfboards, or similar devices or equipment.

"Dealer" means any person who engages in whole or in part in the business of buying, selling, or exchanging new or used watercraft, or both, either outright or on conditional sale, consignment, or lease.

"Homemade watercraft" means a watercraft that is not fabricated or manufactured for resale and to which a man-

Game and Fish Commission

ufacturer has not attached a hull identification number. If a watercraft is assembled from a kit or constructed from an unfinished manufactured hull and does not have a manufacturer assigned hull identification number it is a "homemade watercraft."

"Hull identification number" means a number assigned to a specific watercraft by the manufacturer or by a government jurisdiction as prescribed by the U.S. Coast Guard.

"Junk watercraft" means any hulk, derelict, wreck, or parts of any watercraft in an unseaworthy or dilapidated condition that cannot be profitably dismantled or salvaged for parts or profitably restored.

"Letter of gift" means a document transferring ownership of a watercraft that includes all of the following information:

Name of previous owner;

Name of new owner;

Manufacturer of the watercraft, when known;

Hull identification number, unless exempt under R12-4-505;

A statement that the watercraft is a gift; and

Signature of previous owner.

"Livery" means a business authorized to rent or lease watercraft with or without an operator for recreational, non-commercial use as prescribed under A.R.S. § 5-371.

"Manufacturer" means any person engaged in the business of manufacturing or importing new watercraft for the purpose of sale or trade.

"Motorized watercraft" means any watercraft propelled by machinery and powered by electricity, fossil fuel, or steam.

"No ski" in reference to a regulatory marker means a person shall not be towed on water skis, an inflatable device, or similar equipment.

"No wake" in reference to a regulatory marker has the same meaning as "wakeless speed" as defined under A.R.S. § 5-301.

"Operate" in reference to a watercraft means use, navigate, or employ.

"Owner" in reference to a watercraft means a person who claims lawful possession of a watercraft by virtue of legal title or equitable interest that entitles the person to possession.

"Personal flotation device" means a U.S. Coast Guard approved wearable or throwable device for use on any watercraft, as prescribed under A.R.S. §§ 5-331, 5-350(A), and R12-4-511.

"Regatta" means an organized water event of limited duration affecting the public use of waterways, for which a lawful jurisdiction has issued a permit.

"Registered owner" means the person or persons to whom a watercraft is currently registered by any jurisdiction.

"Registration decal" means the Department-issued decal that is proof of watercraft registration.

"Regulatory marker" means a waterway marker placed on, in, or near the water to convey general information or indicate the presence of:

A danger, or

A restricted or controlled-use area.

"Release of interest" means a statement surrendering or abandoning unconditionally any claim or right of ownership or use in a watercraft.

"Sound level" means the noise level measured in decibels on the A-weighted scale of a sound level instrument that conforms to recognized industry standards and is maintained according to the manufacturer's instructions.

"Staggered registration" means the system of renewing watercraft registrations in accordance with the schedule provided under R12-4-504.

"State of principal operation" means the state in whose waters the watercraft is used or will be operated most during the calendar year.

"Throwable personal flotation device" means a U.S. Coast Guard approved Type IV device for use on any watercraft such as, but not limited to, a buoyant cushion, ring buoy, or horseshoe buoy.

"Unreleased watercraft" means a watercraft for which there is no written release of interest from the registered owner.

"Watercraft" means a boat or other floating device of rigid or inflatable construction designed to carry people or cargo on the water and propelled by machinery, oars, paddles, or wind action on a sail. Exceptions are sea-planes, makeshift contrivances constructed of inner tubes or other floatable materials that are not propelled by machinery, personal flotation devices worn or held in hand, and other objects used as floating or swimming aids.

"Watercraft agent" means a person authorized by the Department to collect applicable fees for the registration and numbering of watercraft.

"Watercraft registration" means the validated certificate of number and validating decals issued by the Department.

"Wearable personal flotation device" means a U.S. Coast Guard approved Type I, Type II, Type III, or Type V device for use on any watercraft such as, but not limited to, an off-shore lifejacket, near-shore buoyant vest, special-use wearable device, or flotation aid.

R12-4-502. Application for Watercraft Registration

- A. Only motorized watercraft as defined under R12-4-501 are subject to watercraft registration.
- B. A person shall apply for watercraft registration under A.R.S. § 5-321 using a form furnished by the Department and available

Game and Fish Commission

at any Department office or on the Department's website. The applicant shall provide the following information for registration of all motorized watercraft except homemade watercraft, which are addressed under subsection (C):

1. Arizona residency certification statement, signed by the watercraft owner;
 2. Type of watercraft;
 3. Propulsion type;
 4. Engine drive type;
 5. Overall length of watercraft;
 6. Make and model of watercraft, if known;
 7. Year built or model year, if known;
 8. Hull identification number;
 9. Hull material;
 10. Fuel type;
 11. Category of use;
 12. Watercraft or AZ number previously issued for the watercraft, if any;
 13. State of principal operation; and
 14. For watercraft:
 - a. Owned by a person:
 - i. Legal name;
 - ii. Mailing address;
 - iii. Date of birth; and
 - iv. Signature of each applicant.
 - b. Owned by a business:
 - i. Name of business;
 - ii. Business address;
 - iii. Tax Identification Number; and
 - iv. Signature and title of authorized representative on behalf of the business.
 - c. Held in a trust:
 - i. Name of trust;
 - ii. Primary trustee's address;
 - iii. Tax Identification Number, required when the trust is held by two or more persons;
 - iv. Date of trust; and
 - iv. Signature of each trustee, unless the trust instrument authorizes the signature of one trustee to bind the trust.
 15. When ownership of the watercraft is in more than one name, the applicant shall indicate ownership designation by use of one of the following methods:
 - a. Where ownership is joint tenancy with right of survivorship, the applicant shall use "and/or" between the names of the owners. To transfer registration of the watercraft, each owner shall provide a signature. Upon legal proof of the death or incompetency of either owner, the remaining owner may transfer registration of the watercraft.
 - b. Where ownership is a tenancy in common the applicant shall use "and" between the names of the owners. To transfer registration of the watercraft, each owner shall provide a signature. In the event of the death or incompetency of any owner, the disposition of the watercraft shall be handled through appropriate legal proceedings.
 - c. Where the ownership is joint tenancy or is community property with an express intent that either of the owners has full authority to transfer registration, the applicant shall use "or" between the names of the owners. Each owner shall sign the application for registration. To transfer registration, either owner's signature is sufficient for transfer.
- C. The builder, owner, or owners of a homemade watercraft shall present the watercraft for inspection at a Department office.

The applicant shall provide the following information for registration of homemade watercraft, using the same ownership designations specified in subsection (A)(15):

1. Type of watercraft;
 2. Propulsion type;
 3. Engine drive type;
 4. Overall length of watercraft;
 5. Year built;
 6. Hull material;
 7. Fuel type;
 8. Category of use;
 9. Each owner's:
 - a. Name,
 - b. Mailing address, and
 - c. Date of birth;
 10. State of principal operation;
 11. Whether the watercraft was assembled from a kit or rebuilt from a factory or manufacturer's hull;
 12. Hull identification number, if assigned; and
 13. Signature of the applicant, acknowledged before a Notary Public or witnessed by a Department employee.
- D. As prescribed under A.R.S. § 5-321, the applicant shall submit a use tax receipt issued by the Arizona Department of Revenue with the application for registration unless any one of the following conditions apply:
1. The applicant is exempt from use tax as provided under 15 A.A.C. Chapter 5,
 2. The applicant is transferring the watercraft from another jurisdiction to Arizona without changing ownership,
 3. The applicant submits a bill of sale or receipt showing the sales or use tax was paid at the time of purchase, or
 4. The applicant submits a notarized affidavit of exemption stating that the acquisition of the watercraft was for rental or resale purposes.
- E. An applicant for a watercraft dealer registration authorized under A.R.S. § 5-322(F), shall be a business offering watercraft for sale or a watercraft manufacturer registered by the U.S. Coast Guard. A person shall display dealer registration for watercraft demonstration purposes only. For the purposes of this Section, "demonstration" means to operate a watercraft on the water for the purpose of selling, trading, negotiating, or attempting to negotiate the sale or exchange of interest in new watercraft, and includes operation by a manufacturer for purposes of testing a watercraft. Demonstration does not include operation of a watercraft for personal purposes by a dealer or manufacturer or an employee, family member, or an associate of a dealer or manufacturer. The watercraft dealer registration is subject to invalidation pursuant to R12-4-506 if a watercraft with displayed dealer registration is used for purposes other than those authorized under A.R.S. § 5-322(F) or this Section. A watercraft dealer registration applicant shall submit an application to the Department. The application is furnished by the Department and is available at any Department office. The applicant shall provide the following information on the application:
1. All business names used for the sale or manufacture of watercraft in Arizona;
 2. Mailing address and telephone number for each business for which a watercraft dealer registration is requested;
 3. Tax privilege license number;
 4. U.S. Coast Guard manufacturer identification code, when applicable;
 5. Total number of certificates of number and decals requested; and
 6. The business owner's or manager's:
 - a. Name,

Game and Fish Commission

- b. Business address,
 - c. Telephone number, and
 - d. Signature.
- F. In addition to submitting the application form and any other information required under this Section, the applicant for watercraft registration shall submit one or more of the following additional forms of documentation:
 1. Original title if the watercraft is titled in another state;
 2. Original registration if the watercraft is from a non-titling state;
 3. Bill of sale as defined under R12-4-501 if the watercraft has never been registered or titled in any state;
 4. Letter of gift as defined under R12-4-501 if the watercraft was received as a gift and was never registered or titled in any state;
 5. Court order or other legal documentation establishing lawful transfer of ownership;
 6. Letter of deletion, required when the watercraft was previously documented by the U.S. Coast Guard;
 7. Statement of facts form furnished by the Department and available from any Department office when none of the documentation identified under subsections (F)(1) through (F)(6) exists either in the possession of the watercraft owner or in the records of any jurisdiction responsible for registering or titling watercraft. An applicant for watercraft registration under a statement of facts shall present the watercraft for inspection at a Department office. The statement of facts form shall include the following information:
 - a. Hull identification number,
 - b. Certification that the watercraft meets one of the following conditions:
 - i. The watercraft was manufactured prior to 1972, is 12 feet in length or less, and is not propelled by an inboard engine;
 - ii. The watercraft is owned by the applicant and has never been registered or titled;
 - iii. The watercraft was owned in a state that required registration, but was never registered or titled; or
 - iv. The watercraft was purchased, received as a gift, or received as a trade and has not been registered, titled, or otherwise documented in the past five years.
 - c. Signature of the applicant, acknowledged before a Notary Public or witnessed by a Department employee.
 8. An original certificate of origin when all of the following conditions apply:
 - a. The watercraft was purchased as new,
 - b. The applicant is applying for watercraft registration within a year of purchasing the watercraft, and
 - c. The certificate of origin is not held by a lien holder.
- G. If the watercraft is being transferred to a person other than the original listed owner, the applicant for a watercraft registration shall submit a release of interest. The Department may require the applicant to provide a release of interest that is acknowledged before a Notary Public or witnessed by a Department employee when the Department is unable to verify the signature on the release of interest.
- H. If the original title is held by a lien holder, the applicant for a watercraft registration shall submit a form furnished by the Department and available from any Department office along with a copy of the title. The applicant shall comply with the following requirements when submitting the form:
 1. The applicant shall provide the following information on the form:
 - a. Applicant's name,
 - b. Applicant's mailing address,
 - c. Make and model of watercraft, and
 - d. Watercraft hull identification number.
 2. The applicant shall ensure the lien holder provides the following information on the form:
 - a. Lien holder's name,
 - b. Lien holder's mailing address,
 - c. Name of person completing the form on behalf of the lien holder,
 - d. Title of person completing the form on behalf of the lien holder, and
 - e. Signature of the person completing the form on behalf of the lien holder, acknowledged before a Notary Public or witnessed by a Department employee.
- I. If the watercraft's original title or registration is lost, the Department shall register a watercraft upon receipt of one of the following:
 1. A letter or printout from any jurisdiction responsible for registering or titling watercraft that verifies the owner of record for that specific watercraft;
 2. A printout of the Vessel Identification System for that specific watercraft from the U.S. Coast Guard and verification from the appropriate state agency that the information regarding the owner of record for that specific watercraft is correct and current;
 3. A statement of facts by the applicant as described under subsection (F)(7) if the watercraft has not been registered, titled, or otherwise documented in the past five years; or
 4. The abandoned or unreleased watercraft approval letter issued by the Department, as established under R12-4-507(I).
- J. The Department shall issue a watercraft registration within 30 calendar days of receiving a valid application and the documentation required under this Section from the applicant or a watercraft agent authorized under R12-4-509.
- K. All watercraft registrations and supporting documentation are subject to verification by the Department and to the requirements established under R12-4-505. The Department shall require a watercraft to be presented for inspection to verify the information provided by an applicant if the Department has reason to believe the information provided by the applicant is inaccurate or the applicant is unable to provide the required information.
- L. The Department shall deem an application invalid if the Department receives legal documentation of any legal action that may affect ownership of that watercraft.
- M. The Department shall invalidate a watercraft registration if the registration is obtained by an applicant who makes a false statement or provides false information on any application, statement of facts, or written instrument submitted to the Department.

Historical Note

Former Section R12-4-84 renumbered as Section R12-4-502 without change effective August 13, 1981 (Supp. 81-4). Amended effective January 2, 1985 (Supp. 85-1). Former Section R12-4-502 repealed, new Section R12-4-502 adopted effective May 27, 1992 (Supp. 92-2). Amended effective November 7, 1996 (Supp. 96-4). Amended by final rulemaking at 8 A.A.R. 3025, effective July 10, 2002 (Supp. 02-3). Amended by final rulemaking at 13 A.A.R. 4511, effective February 2, 2008 (Supp. 07-4). Game and Fish Commission

July 1, 2013 (Supp. 13-1). Amended by final rulemaking at 23 A.A.R. 1732, effective August 5, 2017 (Supp. 17-2).

R12-4-503. Renewal of Watercraft Registration; Duplicate Watercraft Registration or Decal

- A.** The owner of a registered watercraft shall renew the watercraft's registration no later than the day before the prior registration period expires.
- To renew a watercraft's registration in person or by mail, an applicant shall pay the registration fee authorized under R12-4-504 and present any one of the following:
 - Current or prior certificate of number,
 - Valid driver's license,
 - Valid Arizona Motor Vehicle Division identification card,
 - Valid passport, or
 - Department-issued renewal notice.
 - The owner of a registered watercraft may renew a watercraft registration by accessing the Department's online system and paying the applicable watercraft registration fee authorized under R12-4-504.
- B.** The owner of a registered watercraft may obtain a duplicate watercraft registration or decal in person or by mail. To obtain a duplicate watercraft registration or decal in person or by mail, an applicant shall:
- Complete and submit an application for a duplicate certificate and/or decal form to the Department or its authorized agent, available from any Department office and on the Department's website; and
 - Pay the duplicate watercraft registration fee authorized under R12-4-504.
- C.** If made available by the Department, the owner of a registered watercraft may obtain a duplicate watercraft registration or decal by accessing the Department's online system and paying the duplicate watercraft registration fee authorized under R12-4-504.
- D.** When a request for a watercraft registration renewal or duplicate watercraft registration or decal is submitted by mail or online, the Department shall mail the registration or decal, as applicable, to the address of record, unless the Department receives a notarized request from the registered owner instructing the Department to mail the duplicate registration or decal to another address.
- Sixteen feet one inch through twenty feet: \$30
 - Twenty feet one inch through twenty-six feet: \$35
 - Twenty-six feet one inch through thirty-nine feet: \$39
 - Thirty-nine feet one inch through sixty-four feet: \$44
 - Sixty-four feet one inch and over: \$66
 - For the purposes of this subsection, the length of the motorized watercraft shall be measured in the same manner prescribed under A.R.S. § 5-321(C).
- Motorized watercraft transfer fee: \$13.
 - Duplicate motorized watercraft registration: \$8.
 - Duplicate decal: \$8.
 - Watercraft dealer certificate of number: \$20.
 - Abandoned or unreleased watercraft application fee: \$100.
 - Unclaimed towed watercraft application fee: \$100.
- B.** The Department or its agent shall collect the entire registration fee for a late registration renewal and a penalty fee of \$5, unless exempt under A.R.S. § 5-321(L) or the expiration date falls on a Saturday, Sunday, or state holiday, and the registration is renewed before the close of business on the next working day. The Department or its agent shall not assess a penalty fee when a renewal is mailed before the expiration date, as evidenced by the postmark.
- C.** All new watercraft registrations expire 12 months after the date of issue.
- D.** Resident and nonresident watercraft registration renewals:
- Shall be valid for a period of 7 to 18 months depending on the expiration month.
 - This provision applies to the initial renewal period only.
 - The Department shall prorate fees accordingly.
 - May be renewed up to six months prior to the expiration month.
 - Shall expire on the last day of the month indicated by the last two numeric digits of the AZ number, as shown in the following table:

Last two numeric digits of AZ number									Expiration month
00	12	24	36	48	60	72	84	96	December
01	13	25	37	49	61	73	85	97	January
02	14	26	38	50	62	74	86	98	February
03	15	27	39	51	63	75	87	99	March
04	16	28	40	52	64	76	88		April
05	17	29	41	53	65	77	89		May
06	18	30	42	54	66	78	90		June
07	19	31	43	55	67	79	91		July
08	20	32	44	56	68	80	92		August
09	21	33	45	57	69	81	93		September
10	22	34	46	58	70	82	94		October
11	23	35	47	59	71	83	95		November

- E.** Watercraft dealer, manufacturer, and governmental use registration renewals expire on October 31 of each year.
- F.** Livery and all other commercial use registration renewals expire on November 30 of each year.

R12-4-504. Watercraft Fees; Penalty for Late Registration; Staggered Registration Schedule

- A.** The following fees are required, when applicable as authorized under A.R.S. §§ 5-321 and 5-322:
- Motorized watercraft registration fees are assessed as follows:
 - Twelve feet and less: \$20
 - Twelve feet one inch through sixteen feet: \$22

Game and Fish Commission

504 adopted effective May 27, 1992 (Supp. 92-2). Amended by final rulemaking at 9 A.A.R. 1613, effective July 5, 2003 (Sup. 03-2). Amended by final rulemaking at 19 A.A.R. 597, effective July 1, 2013 (Supp. 13-1). Amended by final rulemaking at 19 A.A.R. 3225, effective January 1, 2014 (Supp. 13-3). Amended by final rulemaking at 19 A.A.R. 3225, effective January 1, 2014 (Supp. 13-3). Amended by exempt rulemaking pursuant to A.R.S. § 41-1005(A)(2)(b) at 21 A.A.R. 1046, effective June 16, 2015 (Supp. 15-2). Amended by final exempt rulemaking at 23 A.A.R. 1034; amended by final rulemaking at 23 A.A.R. 1732, both effective August 5, 2017 (Supp. 17-2).

R12-4-505. Hull Identification Numbers

- A. The Department shall not register a watercraft without a hull identification number.
- B. The Department shall verify watercraft manufactured after November 1, 1972 have a primary hull identification number that complies with the requirements established under 33 C.F.R. 181, subpart C. The Department shall assign a hull identification number when the watercraft hull identification number does not meet the requirements established under 33 C.F.R. 181, subpart C.
- C. The hull identification number shall be fully visible and unobstructed at all times. Watercraft manufactured prior to August 1, 1984, are exempt from this requirement provided the obstruction is original equipment and was attached by the manufacturer.
- D. The Department shall assign a hull identification number to a watercraft with a missing hull identification number only if the Department determines:
 1. The hull identification number was not intentionally or illegally removed or altered, unless the application is accompanied by an order of forfeiture, order of seizure, or other civil process;
 2. The missing hull identification number was caused by error of the manufacturer or a government jurisdiction; or
 3. The watercraft is a homemade watercraft as defined under R12-4-501.
- E. The Department may assign a hull identification number within 30 days of receipt of a valid application, as described under R12-4-502.
- F. The Department may accept a bill of sale presented with a missing or nonconforming hull identification number for registration purposes only when:
 1. The hull identification number matches the nonconforming hull identification number on the watercraft;
 2. Supporting evidence exists that the seller is the owner of the watercraft;
 3. The watercraft is homemade and does not have a hull identification number; or
 4. The watercraft was manufactured prior to November 1, 1972.
- G. Within 30 days of issuance, the applicant or registered owner shall:
 1. Burn, carve, stamp, emboss, mold, bond, or otherwise permanently affix each hull identification number to a non-removable part of the watercraft in a manner that ensures any alteration, removal, or replacement will be obvious.
 2. Ensure the characters of each hull identification number affixed to the watercraft are no less than 1/4 inch in height.
 3. Permanently affix the hull identification number as follows:

- a. On watercraft with transoms, affix the hull identification number to the right or starboard side of the transom within two inches of the top of the transom or hull/deck joint, whichever is lower.
 - b. On watercraft without a transom, affix the hull identification number to the starboard outboard side of the hull, back or aft within one foot of the stern and within two inches of the top of the hull, gunwale, or hull/deck joint, whichever is lower.
 - c. On a catamaran or pontoon boat, affix the hull identification number on the aft crossbeam within one foot of the starboard hull attachment.
 - d. As close as possible to the applicable location established under subsections (a), (b), or (c) when rails, fittings, or other accessories obscure the visibility of the hull identification number.
 - e. Affix a duplicate of the visibly affixed hull identification number in an unexposed location on a permanent part of the hull.
4. Certify to the Department that the hull identification number was permanently affixed to the watercraft. The certification statement is furnished by the Department when a hull identification number is issued. The certification statement shall include the location of the permanently affixed hull identification number.

Historical Note

Amended effective January 1, 1980 (Supp. 79-6). Former Section R12-4-87 renumbered as Section R12-4-505 without change effective August 13, 1981 (Supp. 81-4). Former Section R12-4-505 repealed, new Section R12-4-505 adopted effective May 27, 1992 (Supp. 92-2). Amended effective November 7, 1996 (Supp. 96-4). Amended by final rulemaking at 8 A.A.R. 3025, effective July 10, 2002 (Supp. 02-3). Amended by final rulemaking at 13 A.A.R. 4511, effective February 2, 2008 (Supp. 07-4). Amended by final rulemaking at 19 A.A.R. 597, effective July 1, 2013 (Supp. 13-1). Amended by final rulemaking at 23 A.A.R. 1732, effective August 5, 2017 (Supp. 17-2).

R12-4-506. Invalidation of Watercraft Registration and Decals

- A. Any watercraft registration obtained by fraud or misrepresentation is invalid from the date of issuance.
- B. A certificate of number and any decals issued by the Department under R12-4-502 are invalid if any one of the following occurs:
 1. Any check, money order, or other currency certificate presented to the Department for payment of watercraft registration or renewal is found to be non-negotiable;
 2. Any person whose name appears on the certificate of number loses ownership of the watercraft by legal process;
 3. Arizona is no longer the state of principal operation;
 4. The watercraft is documented by the U.S. Coast Guard;
 5. An applicant provides incomplete or incorrect information to the Department and fails to provide the correct information within 30 days after a request by the Department;
 6. The Department revokes the certificate of number, AZ numbers, and decals as provided under A.R.S. § 5-391(I);
 7. The Department or its agent erroneously issued a certificate of number or any decals;
 8. A watercraft bearing a dealer registration is used for any purpose not authorized under R12-4-502(E); or

Game and Fish Commission

9. A watercraft registered or used as a livery is operated in violation of A.R.S. § 5-371 or R12-4-514.
 - C. A person shall surrender the invalid certificate of number and decals to the Department within 15 calendar days of receiving written determination from the Department that the certificate of number or decals are invalid, unless the person appeals the Department's determination to the Commission as prescribed under A.R.S. Title 41, Chapter 6, Article 10.
 - D. The Department shall not validate or renew an invalid watercraft registration or decals until the reason for invalidity is corrected or no longer exists.
- a. Address or description of the location where the watercraft was found,
 - b. Whether the watercraft was abandoned on private or public property, and
 - c. When applicable, for watercraft abandoned on private property, whether the applicant is the legal owner of the property;
 8. Condition of the watercraft: wrecked, stripped, or intact;
 9. State in which the watercraft will be operated;
 10. Length of time the watercraft was abandoned;
 11. Reason why the applicant believes the watercraft is abandoned; and
 12. Signature of the applicant, acknowledged before a Notary Public or witnessed by a Department employee.

Historical Note

Adopted effective December 4, 1984 (Supp. 84-6).

Amended subsection (B) effective December 30, 1988 (Supp. 88-4). Correction, former Historical Note should read "Amended subsection (B) effective January 1, 1989, filed December 30, 1988" (Supp. 89-2). Former Section R12-4-506 repealed, new Section R12-4-506 adopted effective May 27, 1992 (Supp. 92-2). Amended by final rulemaking at 8 A.A.R. 3025, effective July 10, 2002 (Supp. 02-3). Amended by final rulemaking at 13 A.A.R. 4511, effective February 2, 2008 (Supp. 07-4). Amended by final rulemaking at 19 A.A.R. 597, effective July 1, 2013 (Supp. 13-1). Amended by final rulemaking at 23 A.A.R. 1732, effective August 5, 2017 (Supp. 17-2).

R12-4-507. Transfer of Ownership of an Abandoned or Unreleased Watercraft

- A. A person who has knowledge and custody of a watercraft abandoned on private property owned by that person may attempt to obtain ownership of the watercraft by way of the abandoned watercraft transfer process. A lienholder of foreclosed real property may assign an agent to act on its behalf.
 - B. The last registered owner of an abandoned or unreleased watercraft is presumed to be responsible for the watercraft, unless the watercraft is reported stolen.
 - C. The operator of a self-storage facility located in this state and having a possessory lien shall comply with the requirements prescribed under A.R.S. Title 33, Chapter 15, Article 1 when attempting to obtain ownership of a watercraft abandoned while in storage.
 - D. A person having a possessory lien under a written agreement shall comply with the requirements prescribed under A.R.S. Title 33, Chapter 7, Article 6 when attempting to obtain ownership of a watercraft for which repairs or service fees remain unpaid.
 - E. Only a person acting within the scope of official duties as an employee or authorized agent of a government agency may order the removal of a watercraft abandoned on public property or a public waterway.
 - F. A person seeking ownership of an abandoned or unreleased watercraft shall submit an application to the Department and pay the fee established under R12-4-504. The application is furnished by the Department and available at any Department office. The application shall include the following information, if available:
 1. Hull identification number, unless exempt under R12-4-505;
 2. Registration number;
 3. Decal number;
 4. State of registration;
 5. Year of registration;
 6. Name, address, and daytime telephone number of the person who found the watercraft;
 7. For abandoned watercraft:
 - a. Address or description of the location where the watercraft was found,
 - b. Whether the watercraft was abandoned on private or public property, and
 - c. When applicable, for watercraft abandoned on private property, whether the applicant is the legal owner of the property;
- G. This state and its agencies, employees, and agents are not liable for relying in good faith on the contents of the application.
 - H. The Department shall attempt to determine the name and address of the registered owner by:
 1. Conducting a search of its watercraft database when documentation indicates the watercraft was previously registered in this state, or
 2. Requesting the watercraft record from the other state when documentation indicates the watercraft was previously registered in another state.
 - I. If the Department is able to determine the name and address of the registered owner, the Department shall send written notice of the applicant's attempt to register the watercraft to the owner by certified mail, return receipt requested.
 1. If service is successful or upon receipt of a response from the registered owner, the Department shall send the following written notification to the applicant, as appropriate:
 - a. If the registered owner provides a written release of interest in the watercraft, the Department shall mail the release of interest and an abandoned or unreleased watercraft approval letter to the applicant. The applicant shall apply for watercraft registration in compliance with the requirements established under R12-4-502.
 - b. If the registered owner provides written notice to the Department refusing to release interest in the watercraft, the Department shall notify the applicant of the owner's refusal. The Department shall not register the watercraft to the applicant unless the applicant provides proof of ownership and complies with the requirements established under R12-4-502.
 - c. If the registered owner does not respond to the notice in writing within 30 days from the date of receipt, the Department shall notify the applicant of the owner's failure to respond. The Department shall not register the watercraft to the applicant unless the applicant provides proof of ownership and complies with the requirements established under R12-4-502.
 - d. If the registered owner does not respond to the notice within 180 days from the date of receipt of the notice, this failure to act shall constitute a waiver of interest in the watercraft by any person having an interest in the watercraft, and the watercraft shall be deemed abandoned for all purposes. The Department shall mail an abandoned or unreleased watercraft approval letter to the applicant. The applicant shall apply for watercraft registration in compliance with the requirements established under R12-4-502.
 2. If the written notice is returned unclaimed or refused, the Department shall notify the applicant within 15 days of

Game and Fish Commission

the notice being returned that the attempt to contact the registered owner was unsuccessful.

- J.** If the Department is unable to identify or serve the registered owner, the Department shall post a notice of intent on the Department's website within 45 days of the Department's notification to the applicant as provided in subsection (I)(2).

1. The notice shall include a statement of the Department's intent to transfer ownership of the watercraft ten days after the date of posting, unless the Department receives notice from the registered owner refusing to release interest in the watercraft within that ten-day period following posting.
2. If the watercraft remains unclaimed after the ten-day period, the Department shall mail an abandoned or unreleased watercraft approval letter to the applicant. The applicant shall apply for watercraft registration in compliance with the requirements established under R12-4-502.

- K.** A government agency may submit an application for authorization to dispose of a junk watercraft abandoned on state or federal lands or waterways. The application is furnished by the Department and is available at any Department Office. Upon receipt of the application, the Department shall attempt to determine the name and address of the registered owner. If the Department is unable to identify and serve the registered owner, the Department shall publish a notice of intent to authorize the disposal of the junk watercraft as described under subsection (J).

1. The published notice shall include a statement of the Department's intent to authorize the disposal of the watercraft ten days after the date of publication, unless the Department receives notice from the registered owner refusing to release interest in the watercraft within that ten-day period following publication.
2. If the watercraft remains unclaimed after the ten-day period, the Department shall mail an authorization to dispose of the junk watercraft to the government agency. The government agency may dispose of the abandoned watercraft and all indicia for that watercraft in any manner the agency determines expedient or convenient.

Historical Note

Adopted effective May 27, 1992 (Supp. 92-2). Amended by final rulemaking at 8 A.A.R. 3025, effective July 10, 2002 (Supp. 02-3). Amended by final rulemaking at 9 A.A.R. 1613, effective July 5, 2003 (Supp. 03-2). Amended by final rulemaking at 13 A.A.R. 4511, effective February 2, 2008 (Supp. 07-4). Amended by final rulemaking at 19 A.A.R. 597, effective July 1, 2013 (Supp. 13-1). Amended by final exempt rulemaking at 23 A.A.R. 1034; amended by final rulemaking at 23 A.A.R. 1732, both effective August 5, 2017 (Supp. 17-2).

R12-4-508. New Watercraft Exchanges

- A.** A person may request a no-fee replacement registration for a new watercraft, provided all of the following conditions apply:
1. The person purchased the newly registered watercraft from a new watercraft dealer,
 2. The person returned the watercraft to the new watercraft dealer within 30 days of purchase, and
 3. The new watercraft dealer exchanged the returned watercraft for a watercraft of the same year, make, and model within the same 30 day period.
- B.** To obtain a no-fee replacement registration, the person shall submit the original watercraft registration and a letter from the new watercraft dealer to the Department. The letter shall include all of the following information:
1. A statement that the original watercraft was replaced,

2. The hull identification number for the original watercraft,
3. The hull identification number for the replacement watercraft,
4. The buyer's name, and
5. The new watercraft dealer's name.

Historical Note

Adopted effective May 27, 1992 (Supp. 92-2). Amended by final rulemaking at 19 A.A.R. 597, effective July 1, 2013 (Supp. 13-1).

R12-4-509. Watercraft Dealers; Agents

- A.** The Department may authorize a watercraft dealer to act as an agent on behalf of the Department for the purpose of issuing temporary certificates of number valid for 45 days for new or used watercraft, provided:
1. The applicant's previous authority to act as a watercraft agent under A.R.S. § 5-321(I) has not been canceled by the Department within the preceding 24 months, and
 2. The applicant is a business located and operating within this state and sells watercraft.
- B.** An applicant seeking watercraft agent authorization shall submit an application to the Department. The application is furnished by the Department and available at the Arizona Game and Fish Department, 5000 W. Carefree Highway, Phoenix, AZ 85086. The applicant shall provide the following information on the application:
1. Principal business or corporation name, address, and telephone number or if not a corporation, the full name, address, and telephone number of all owners or partners;
 2. Name, address, and telephone number of the owner or manager responsible for compliance with this Section;
 3. Whether the applicant has previously issued temporary certificates of number under A.R.S. § 5-321(I);
 4. All of the following information specific to the location from which new watercraft are to be sold and temporary certificates of number issued:
 - a. Name of owner or manager;
 - b. Business hours;
 - c. Business telephone number;
 - d. Business type;
 - e. Storefront name; and
 - f. Street address;
 5. Manufacturers of the watercraft to be sold; and
 6. Signature of person named under subsection (B)(2).
- C.** The Department shall either approve or deny the application within the licensing time-frame established under R12-4-106.
- D.** Authorization to act as a watercraft agent is specific to the dealer's business location designated on the application and approved by the Department, unless the dealer is participating in a boat show for the purpose of selling watercraft.
- E.** The watercraft agent shall:
1. Use the assigned watercraft agent number when issuing a temporary certificate of number,
 2. Use the online application system and forms supplied by the Department; and
 3. Collect the appropriate fee as prescribed under R12-4-504 and R12-4-527.
- F.** A watercraft agent is prohibited from issuing a temporary certificate of number for a watercraft when:
1. The watercraft is involved in legal proceedings such as, but not limited to, a marital dissolution, probate, or bankruptcy proceeding;
 2. The watercraft is abandoned or unreleased;
 3. The watercraft is homemade; or
 4. The watercraft has a nonconforming HIN.
- G.** A watercraft agent issuing a temporary certificate of number to

Game and Fish Commission

the purchaser of a watercraft shall comply with all the following:

1. The watercraft agent shall obtain a completed application that complies with the requirements established under R12-4-502.
 2. The watercraft agent shall identify to the applicant the state registration fee and the nonresident boating safety infrastructure fee, when applicable, separately from any other costs.
 3. The fees collected under subsection (E)(3) shall be submitted electronically to the Department prior to the submission of the documentation required under subsection (G)(4).
 4. Within five business days of issuing a temporary certificate of number, a watercraft agent shall deliver or mail the following documentation to the Arizona Game and Fish Department, Watercraft Agent Representative, 5000 W. Carefree Highway, Phoenix, AZ 85086:
 - a. For a new watercraft:
 - i. Original application;
 - ii. Original or copy of the bill of sale issued by the watercraft agent; and
 - iii. Original certificate of origin;
 - b. For a used watercraft:
 - i. Original application;
 - ii. Original or copy of the bill of sale issued by the watercraft agent;
 - iii. Ownership document, such as but not limited to a title, bill of sale, letter of gift or U.S. Coast Guard letter of deletion when the watercraft was previously documented by the U.S. Coast Guard; and
 - iv. Lien release, when applicable.
- H.** The Department may cancel the watercraft agent's authorization if the agent does any one of the following:
1. Fails to comply with the requirements established under this Article;
 2. Submits more than one electronic payment dishonored because of insufficient funds, payments stopped, or closed accounts to the Department within a calendar year;
 3. Predates, postdates, alters, or provides or knowingly allows false information to be provided on an application for a temporary certificate of number; or
 4. Falsifies the application for authorization as a watercraft agent.
- I.** The Department shall provide a written notice to the person stating the reason for the denial or cancellation of watercraft agent status, as applicable. The person may appeal the denial or cancellation to the Commission as prescribed under A.R.S. Title 41, Chapter 6, Article 10.

Historical Note

Adopted effective May 27, 1992 (Supp. 92-2). Amended by final rulemaking at 9 A.A.R. 1613, effective July 5, 2003 (Supp. 03-2). Amended by final rulemaking at 13 A.A.R. 4511, effective February 2, 2008 (Supp. 07-4). Amended by final rulemaking at 19 A.A.R. 597, effective July 1, 2013 (Supp. 13-1). Amended by final rulemaking at 23 A.A.R. 1732, effective August 5, 2017 (Supp. 17-2).

R12-4-510. Refund of Fees Paid in Error

- A.** The Department shall issue a refund for watercraft registration fees paid and, when applicable, the Nonresident Boating Safety Infrastructure fee when:
1. The registered owner has erroneously paid those fees twice for the same watercraft;

2. The registered owner has erroneously paid those fees for a watercraft that has already been sold to another individual; or
 3. The registered owner registered the watercraft in error.
- B.** To request a refund of fees paid in error, the person applying for the refund shall surrender all of the following to the Department:
1. Original certificate of number;
 2. Registration decals; and
 3. Nonresident Boating Safety Infrastructure Decal, when applicable.
- C.** A person requesting a refund of fees shall submit the request to the Department within 30 calendar days of the date the payment was received by the Department.
- D.** The Department shall not refund:
1. A late registration penalty fee.
 2. A fee collected by an authorized third-party provider. A person who paid their watercraft registration fee to a third-party provider shall request a refund of fees from that third-party provider.

Historical Note

Adopted effective May 27, 1992 (Supp. 92-2). Amended effective November 7, 1996 (Supp. 96-4). Amended by final rulemaking at 19 A.A.R. 597, effective July 1, 2013 (Supp. 13-1). Amended by final rulemaking at 23 A.A.R. 1732, effective August 5, 2017 (Supp. 17-2).

R12-4-511. Personal Flotation Devices

- A.** For the purpose of this Section, "wear" means:
1. The personal flotation device is worn according to the manufacturer's design or recommended use;
 2. All of the device's closures are fastened, snapped, tied, zipped, or secured according to the manufacturer's design or recommended use; and
 3. The device is adjusted for a snug fit.
- B.** The operator of a canoe, kayak, or other watercraft shall ensure the watercraft is equipped with at least one correctly-sized, U.S. Coast Guard-approved, wearable personal flotation device that is in good and serviceable condition for each person on board the watercraft. The operator of any watercraft shall also ensure the wearable personal flotation devices on board the watercraft are readily accessible and available for immediate use.
- C.** In addition to the personal flotation devices described under subsection (B), the operator of a watercraft that is 16 feet or more in length shall ensure the watercraft is also equipped with a U.S. Coast Guard-approved throwable personal flotation device: buoyant cushion, ring buoy, or horseshoe buoy. Canoes and kayaks are not subject to this subsection.
- D.** The operator of a watercraft shall ensure a person twelve years of age or under on board a watercraft shall wear a U.S. Coast Guard approved wearable personal flotation device whenever the watercraft is underway.
- E.** The operator of a personal watercraft shall ensure each person aboard the personal watercraft is wearing a wearable personal flotation device approved by the U.S. Coast Guard whenever the personal watercraft is underway.
- F.** Subsections (B), (C), and (D) do not apply to the operation of a racing shell or rowing skull during competitive racing or supervised training, if the racing shell or rowing skull is manually propelled, recognized by a national or international association for use in competitive racing, and designed to carry and does carry only equipment used solely for competitive racing.

Historical Note

Amended effective May 26, 1978 (Supp. 78-3). Former Section R12-4-80 renumbered as Section R12-4-511

Game and Fish Commission

without change effective August 13, 1981 (Supp. 81-4). Amended effective May 27, 1992 (Supp. 92-2). Amended effective January 1, 1996; filed in the Office of the Secretary of State December 18, 1995 (Supp. 95-4). Amended by final rulemaking at 8 A.A.R. 3025, effective July 10, 2002 (Supp. 02-3). Amended by final rulemaking at 13 A.A.R. 4511, effective February 2, 2008 (Supp. 07-4). Amended by final rulemaking at 19 A.A.R. 597, effective July 1, 2013 (Supp. 13-1). Amended by final rulemaking at 23 A.A.R. 1732, effective August 5, 2017 (Supp. 17-2).

R12-4-512. Fire Extinguishers Required for Watercraft

- A. The operator of watercraft shall ensure all required fire extinguishers are readily accessible and available for immediate use.
- B. As prescribed under A.R.S. § 5-332, an operator of a:
 1. Watercraft less than 26 feet in length shall carry one U.S. Coast Guard-approved B-I type fire extinguisher on board if the watercraft has one or more of the following:
 - a. An inboard engine,
 - b. Closed compartments where portable fuel tanks may be stored,
 - c. Double bottoms not sealed to the hull or which are not completely filled with flotation materials,
 - d. Closed living spaces,
 - e. Closed stowage compartments in which combustible or flammable materials are stored,
 - f. Permanently installed fuel tanks (fuel tanks that cannot be moved in case of a fire or other emergency are considered permanently installed), and
 - g. A fixed fire extinguishing system installed in the engine compartment.
 2. Watercraft 26 feet to less than 40 feet shall carry on board the following equipment as designated and approved by the U.S. Coast Guard:
 - a. At least two B-I type hand-portable fire extinguishers or at least one B-II type hand-portable fire extinguisher, or
 - b. At least one B-I type approved hand-portable fire extinguisher if a fixed fire extinguishing system is installed in the engine compartment.
 3. Watercraft 40 feet to not more than 65 feet shall carry on board the following equipment as designated and approved by the U.S. Coast Guard:
 - a. At least three B-I type hand-portable fire extinguishers or at least one B-I and one B-II type hand-portable fire extinguishers, or
 - b. At least two B-I type hand-portable fire extinguishers or at least one B-II type hand-portable fire extinguisher when a fixed fire extinguishing system is installed in the engine compartment.

Historical Note

Former Section R12-4-81 renumbered as Section R12-4-512 without change effective August 13, 1981 (Supp. 81-4). Amended effective June 14, 1990 (Supp. 90-2). Amended by final rulemaking at 8 A.A.R. 3025, effective July 10, 2002 (Supp. 02-3). Amended by final rulemaking at 19 A.A.R. 597, effective July 1, 2013 (Supp. 13-1).

R12-4-513. Watercraft Incident and Casualty Reports

- A. The operator or owner of a watercraft involved in any collision, incident or other casualty resulting in injury, death, or property damage exceeding \$500 shall submit the report required under A.R.S. § 5-349 to the Department. The report shall be made on a form furnished by the Department or provided by the law enforcement officer investigating the collision, incident, or other casualty. The operator or owner of the

watercraft shall complete the form in full and clearly identify on the form any information that is either not applicable or unknown. The operator or owner of the watercraft submitting the report shall provide all of the information required under 33 C.F.R. 173.57.

- B. The person completing the form shall deliver, mail, or email the form to the Arizona Game and Fish Department, Law Enforcement Branch at 5000 W. Carefree Hwy, Phoenix, AZ 85086 or BoatAccidentReporting@azgfd.gov, as applicable.
- C. The operator or owner of a watercraft involved in any collision, incident or other casualty resulting in injury or death shall submit the report to the Department no later than 48 hours after the incident.
- D. The operator or owner of a watercraft involved in any collision, incident or other casualty resulting only in property damage exceeding \$500 shall submit the report to the Department no later than five days after the incident.

Historical Note

Adopted effective May 27, 1992 (Supp. 92-2). Amended by final rulemaking at 8 A.A.R. 3025, effective July 10, 2002 (Supp. 02-3). Amended by final rulemaking at 19 A.A.R. 597, effective July 1, 2013 (Supp. 13-1). Amended by final rulemaking at 23 A.A.R. 1732, effective August 5, 2017 (Supp. 17-2).

R12-4-514. Liveries

- A. A person who rents, leases, or offers any watercraft for compensation, with or without an operator, for recreational, non-commercial use shall register the watercraft as a livery as established under R12-4-502.
- B. A watercraft owned by a boat livery that requires registration and does not have the certificate of number on board shall be identified while in use by means of a:
 1. Placard or some other form of display that is affixed to the watercraft and is visible when the watercraft is underway. The placard or other form of display shall indicate the business name and current phone number of the livery.
 2. Receipt provided by the livery to the person operating the rented watercraft. The receipt shall contain the following information:
 - a. Business name and address of the livery as shown on the certificate of number,
 - b. Watercraft registration number as issued by the Department,
 - c. Beginning date and time of the rental period, and
 - d. Written acknowledgment on the receipt of compliance with the requirements prescribed under A.R.S. § 5-371, signed by both the livery operator or their agent and the renter.
- C. A person operating a rented or leased watercraft or operating a passenger for hire watercraft shall carry the registration or receipt onboard and produce it upon request to any peace officer.
- D. Failure to comply with the requirements prescribed under A.R.S. § 5-371 and this Section may result in the invalidation of the watercraft registration and decals as provided under A.R.S. § 5-391(A) and R12-4-506.

Historical Note

Adopted effective May 27, 1992 (Supp. 92-2). Amended by final rulemaking at 13 A.A.R. 4511, effective February 2, 2008 (Supp. 07-4). Amended by final rulemaking at 19 A.A.R. 597, effective July 1, 2013 (Supp. 13-1). Amended by final rulemaking at 23 A.A.R. 1732, effective August 5, 2017 (Supp. 17-2).

R12-4-515. Display of AZ Numbers and Registration Decals

- A. A person shall not use, operate, moor, anchor, or grant permission to use, operate, moor, or anchor a watercraft on the boundaries of this state unless such watercraft displays a valid number and current registration decal in the manner established under subsection (B). This Section does not apply to undocumented watercraft displaying a valid temporary numbering certificate authorized under R12-4-509 or exempt under A.R.S. § 5-322.
- B. The owner of a watercraft shall display the AZ number and registration decals as follows:
 - 1. The AZ numbers shall:
 - a. Be clearly visible and painted on or attached to each exterior side of the forward half of a non-removable portion of the watercraft;
 - b. Be in a color that contrasts with the watercraft's background color so as to be easily read from a distance;
 - c. Include the letters "AZ" and the suffix, separated by a hyphen or equivalent space between the letters "AZ" and the suffix; and
 - d. Read from left to right in well-proportioned block letters that are not less than three inches in height, excluding outline.
 - 2. The registration decals shall be affixed three inches in front of "AZ" on both sides of the forward half of a non-removable portion of the watercraft.
- C. On watercraft so constructed that it is impractical or impossible to display the AZ numbers in a prominent position on the forward half of the hull or permanent superstructure, the AZ numbers may be displayed on brackets or fixtures securely attached to the forward half of the watercraft.
- D. Persons possessing a dealer watercraft certificate of number issued under A.R.S. § 5-322(F) shall visibly display the AZ numbers and validating registration decals as established under this Section, except that the numbers and decals may be printed or attached to temporary, removable signs that are securely attached to the watercraft being demonstrated.
- E. Expired registration decals issued by any jurisdiction shall be covered or removed from the watercraft, so that only the current registration decals are visible.
- F. Invalid watercraft AZ numbers and registration decals shall not be displayed on any watercraft. The owner of the watercraft shall surrender the AZ numbers and registration decals to the Department in compliance with R12-4-506(C).

Historical Note

Section R12-4-515 renumbered from R12-4-501 and amended effective May 27, 1992 (Supp. 92-2). Amended by final rulemaking at 19 A.A.R. 597, effective July 1, 2013 (Supp. 13-1). Amended by final rulemaking at 23 A.A.R. 1732, effective August 5, 2017 (Supp. 17-2).

R12-4-516. Watercraft Sound Level Restriction

- A. A person shall not operate a watercraft upon the waters of this state if the watercraft emits a noise level that exceeds any of the following.
 - 1. A noise level of 86 dB(A), measured at a distance of 50 feet or more from the watercraft on the "A" weighted scale of a sound level instrument that conforms to recognized industry standards and is maintained according to the manufacturer's instructions.
 - 2. For engines manufactured:
 - a. Before January 1, 1993, a noise level of 90 dB(A) when subjected to the Society of Automotive Engineers Recommended Practice stationary sound level

test SAEJ2005, revised July 2004 and containing no later editions or amendments; and

- b. On or after January 1, 1993, a noise level of 88 dB(A) when subjected to the Society of Automotive Engineers Recommended Practice stationary sound level test SAEJ2005, revised July 2004 and containing no later editions or amendments; or
 - 3. A noise level of 75 dB(A) measured as specified in the Society of Automotive Engineers Recommended Practice shoreline sound test SAEJ1970, revised September 2003 and containing no later editions or amendments.
- B. The materials incorporated by reference in subsection (A) may be viewed at any Department office and are available for purchase from SAE International, 400 Commonwealth Dr., Warrendale, PA 15096-0001 or online at www.sae.org.
 - C. A measurement of noise level that is in compliance with this Section does not preclude the conducting of a test or multiple tests of noise levels.
 - D. A peace officer authorized to enforce the provisions of this Section who has reason to believe a watercraft is being operated in violation of the noise levels established in this Section may direct the operator of the watercraft to submit the watercraft to an onsite test to measure noise level.
 - E. An operator of a watercraft who receives a request from a peace officer to test the noise level of the watercraft under subsection (D) shall allow the watercraft to be tested. If, based on a measurement or test to determine the noise level of a watercraft administered under this Section, the noise level of the watercraft exceeds one or more of the decibel level standards in subsection (A), the operator of the watercraft shall take immediate measures to correct the violation as prescribed under A.R.S. § 5-391(C).
 - F. This Section shall not apply to watercraft operated under permits issued in accordance with A.R.S. § 5-336(C).

Historical Note

Former Section R12-4-82 renumbered as Section R12-4-516 without change effective August 13, 1981 (Supp. 81-4). Amended by final rulemaking at 13 A.A.R. 4511, effective February 2, 2008 (Supp. 07-4). Amended by final rulemaking at 19 A.A.R. 597, effective July 1, 2013 (Supp. 13-1).

R12-4-517. Watercraft Motor and Engine Restrictions

- A. A person operating a motorized watercraft on the following waters shall only use an electric motor not exceeding 10 manufacturer-rated horsepower:
 - 1. Ackre Lake
 - 2. Bear Canyon Lake
 - 3. Bunch Reservoir
 - 4. Carnero Lake
 - 5. Chaparral Park Lake
 - 6. Cluff Ponds
 - 7. Coconino Reservoir
 - 8. Coors Lake
 - 9. Dankworth Pond
 - 10. Dogtown Reservoir
 - 11. Fortuna Lake
 - 12. Goldwater Lake
 - 13. Granite Basin Lake
 - 14. Horsethief Basin Lake
 - 15. Hulsey Lake
 - 16. J.D. Dam Lake
 - 17. Knoll Lake
 - 18. Lee Valley Lake
 - 19. McKellips Park Lake
 - 20. Pratt Lake

Game and Fish Commission

21. Quigley Lake
 22. Redondo Lake
 23. Riggs Flat Lake
 24. Roper Lake
 25. Santa Fe Lake
 26. Scott's Reservoir
 27. Sierra Blanca Lake
 28. Soldier Lake (in Coconino County)
 29. Stehr Lake
 30. Stoneman Lake
 31. Tunnel Reservoir
 32. Whitehorse Lake
 33. Willow Valley Lake
 34. Woodland Reservoir
 35. Woods Canyon Lake
- B.** A person operating a motorized watercraft on the following waters shall use only a single electric motor or single gasoline engine not exceeding 10 manufacturer-rated horsepower:
1. Arivaca Lake
 2. Ashurst Lake
 3. Becker Lake
 4. Big Lake
 5. Black Canyon Lake
 6. Blue Ridge Reservoir
 7. Cataract Lake
 8. Chevelon Canyon Lake
 9. Cholla Lake Hot Pond
 10. Concho Lake
 11. Crescent Lake
 12. Fool Hollow Lake
 13. Kaibab Lake
 14. Kinnikinick Lake
 15. Little Mormon Lake
 16. Lower Lake Mary
 17. Luna Lake
 18. Lynx Lake
 19. Marshall Lake
 20. Mexican Hay Lake
 21. Nelson Reservoir
 22. Parker Canyon Lake
 23. Peña Blanca Lake
 24. Rainbow Lake
 25. River Reservoir
 26. Show Low Lake
 27. Whipple Lake
 28. White Mountain Lake (in Apache County)
 29. Willow Springs Lake
- C.** A person shall not operate a watercraft on Frye Mesa Reservoir, Rose Canyon Lake, or Snow Flat Lake, except as authorized under subsection (D).
- D.** A person who possesses a valid use permit issued by the U.S. Forest Service may operate a non-motorized watercraft only on Rose Canyon Lake on any Tuesday, Wednesday, or Thursday during June and July from 9:30 a.m. to 4:30 p.m. Mountain Time Zone. This subsection does not exempt the person from complying with all applicable requirements imposed by federal or state laws, rules, regulations, or orders.
- E.** This Section does not apply to watercraft of governmental agencies or to Department-approved emergency standby watercraft operated by lake concessionaires if operating to address public safety or public welfare.

Historical Note

Amended as an emergency effective April 10, 1975 (Supp. 75-1). Amended effective May 3, 1976 (Supp. 76-3). Amended as an emergency effective July 9, 1976 (Supp. 76-4). Amended effective June 4, 1979 (Supp. 79-

3). Former Section R12-4-89 renumbered as Section R12-4-517 without change effective August 13, 1981 (Supp. 81-4). Amended subsections (A) and (C) effective December 17, 1981 (Supp. 81-6). Amended effective December 28, 1982 (Supp. 82-6). Amended subsections (A) through (C) effective December 4, 1984 (Supp. 84-6). Amended effective November 7, 1996 (Supp. 96-4). Amended by final rulemaking at 8 A.A.R. 3025, effective July 10, 2002 (Supp. 02-3). Amended by final rulemaking at 13 A.A.R. 4511, effective February 2, 2008 (Supp. 07-4). Amended by exempt rulemaking at 17 A.A.R. 1189, effective May 24, 2011 (Supp. 11-2). Subsection (A)(9) corrected clerical error (Supp. 11-3). Amended by final rulemaking at 23 A.A.R. 1732, effective August 5, 2017 (Supp. 17-2).

R12-4-518. Regattas

- A.** When a regatta permit is issued by the Coast Guard, the person in control of the regatta shall at all times be responsible for compliance with the stipulations as prescribed within the regatta permit. Such stipulations may include but not be limited to:
1. A specified number of patrol or committee boats and identified as such.
 2. Availability of emergency medical services.
 3. Spectator control if there exists a danger that life or property is in jeopardy.
- B.** Non-compliance with any stipulation of an authorized permit which jeopardizes the public welfare shall be cause to terminate the regatta until the person in control or a person designated by the one in control satisfactorily restores compliance.
- C.** When a regatta applicant is informed in writing by the Coast Guard that a permit is not required, such regatta may take place, but shall not relieve the regatta sponsor of any responsibility for the public welfare or confer any exemption from state boating and watersports laws and rules.
- D.** The regatta sponsor and all participants shall comply with aquatic invasive species requirements established under A.R.S. Title 17, Chapter 2, Article 3.1 and 12 A.A.C. 4, Article 11.

Historical Note

Adopted effective March 5, 1982 (Supp. 82-2). Amended by final rulemaking at 18 A.A.R. 196, effective January 10, 2012 (Supp. 12-1).

R12-4-519. Reciprocity

As authorized under A.R.S. § 5-322(E), all watercraft currently numbered or exempt from numbering under the provisions of their state of principal operation are exempt from numbering for a period of 90 days after entering this state.

Historical Note

Section R12-4-519 renumbered from R12-4-503 and amended effective May 27, 1992 (Supp. 92-2). Amended by final rulemaking at 19 A.A.R. 597, effective July 1, 2013 (Supp. 13-1).

R12-4-520. Arizona Aids to Navigation System

- A.** The Arizona aids to navigation system is the same as that prescribed under 33 C.F.R. 62, revised July 1, 2014, which is incorporated by reference in this Section. The incorporated material is available at any Department office, online at www.gpoaccess.gov, or may be ordered from the U.S. Government Printing Office, Superintendent of Documents, P.O. Box 979050, St. Louis, MO 63197-9000. This Section does not include any later amendments or editions of the incorporated material.
- B.** A person shall not mark the waterways or their shorelines in

Game and Fish Commission

this state with mooring buoys, regulatory markers, aids to navigation, lights, or other types of permitted waterway marking devices, without authorization from the governmental agency or the private interest having jurisdiction on such waters.

- C. A person shall not moor or fasten a watercraft to any marker not intended for mooring, or willfully damage, tamper with, remove, obstruct, or interfere with any aid to navigation, regulatory marker or other type of permitted waterway marking devices, except in the performance of authorized maintenance responsibilities or as authorized under R12-4-518 or this Section.
- D. If a government agency or private interest has not exercised its authority to control watercraft within its jurisdiction under A.R.S. § 5-361, or if waters are directly under the jurisdiction of the Commission, the Department has the authority to control watercraft within that jurisdiction in accordance with the following guidelines:
 1. The Department may place controlled-use markers only where controlled operation of watercraft is necessary to protect life, property, or habitat, and shall move or remove the markers only if the need for the protection changes.
 2. The restrictions imposed are clearly communicated to the public by wording on the markers, such as those defined under R12-4-501.
- E. A governmental agency, excluding federal agencies with jurisdiction over federal navigable waterways, has the authority to control watercraft within that jurisdiction in accordance with the following guidelines:
 1. A government agency may place controlled-use markers only where controlled operation of watercraft is necessary to protect life, property, or habitat, and shall move or remove the markers only if the need for the protection changes.
 2. The restrictions imposed are clearly communicated to the public by wording on the markers, such as those defined under R12-4-501.
- F. Any person may request establishment, change, or removal of controlled-use markers on waters under the jurisdiction of the Commission or on waters not under the jurisdiction of another government agency by submitting a written request providing the reasons for the request to the Arizona Game and Fish Department, 5000 W. Carefree Hwy, Phoenix, AZ 85086.
 1. The Department shall either approve or deny the request within 60 days of receipt.
 2. A person may appeal the Department's denial of a request to the Commission as an appealable agency action under A.R.S. Title 41, Chapter 6, Article 10.

Historical Note

Section R12-4-520 adopted effective May 27, 1992 (Supp. 92-2). Amended by final rulemaking at 8 A.A.R. 3025, effective July 10, 2002 (Supp. 02-3). Amended by final rulemaking at 13 A.A.R. 4511, effective February 2, 2008 (Supp. 07-4). Amended by final rulemaking at 19 A.A.R. 597, effective July 1, 2013 (Supp. 13-1). Amended by final rulemaking at 23 A.A.R. 1732, effective August 5, 2017 (Supp. 17-2).

R12-4-521. Repealed**Historical Note**

Section R12-4-520 adopted effective May 27, 1992 (Supp. 92-2). Amended by final rulemaking at 19 A.A.R. 597, effective July 1, 2013 (Supp. 13-1). Repealed by final rulemaking at 23 A.A.R. 1732, effective August 5, 2017 (Supp. 17-2).

R12-4-522. Repealed**Historical Note**

Section R12-4-520 adopted effective May 27, 1992 (Supp. 92-2). Amended by final rulemaking at 8 A.A.R. 3025, effective July 10, 2002 (Supp. 02-3). Amended by final rulemaking at 19 A.A.R. 597, effective July 1, 2013 (Supp. 13-1). Repealed by final rulemaking at 23 A.A.R. 1732, effective August 5, 2017 (Supp. 17-2).

R12-4-523. Controlled Operation of Watercraft

- A. A person shall not operate any watercraft, or use any watercraft to tow a person on water skis, a surfboard, inflatable device, or similar object, device or equipment in a manner contrary to the area restrictions imposed by lawfully placed controlled-use markers, except for:
 1. Law enforcement officers acting within the scope of their lawful duties;
 2. Persons involved in rescue operations;
 3. Persons engaged in government-authorized activities; and
 4. Persons participating in a regatta, during the time limits of the event only.
- B. The exemptions listed under subsection (A) do not authorize any person to operate a watercraft in a careless, negligent, or reckless manner as prescribed under A.R.S. § 5-341.

Historical Note

Section R12-4-520 adopted effective May 27, 1992 (Supp. 92-2). Amended by final rulemaking at 8 A.A.R. 3025, effective July 10, 2002 (Supp. 02-3). Amended by final rulemaking at 19 A.A.R. 597, effective July 1, 2013 (Supp. 13-1).

R12-4-524. Towed Water Sports

- A. An operator of a watercraft shall ensure an observer is on duty at all times when a person is being towed behind the watercraft or is surfing a wake created by the watercraft. The observer shall:
 1. Be twelve years of age or older;
 2. Be physically capable and mentally competent to act as an observer; and
 3. Continually observe the person or persons being towed behind the watercraft or surfing a wake created by the watercraft.
- B. The operator of a watercraft shall ensure a person being towed behind the watercraft or riding a wake created by the watercraft is wearing a wearable personal flotation device approved by the U.S. Coast Guard whenever the watercraft is underway. This subsection applies to any contrivance designed for or used to tow a person behind a watercraft or ride the wake created by a watercraft regardless of whether or not the contrivance is attached to the watercraft. This includes, but is not limited to, boards, discs, hydrofoils, kites, inflatables, and water skis.
- C. A person shall not operate a watercraft while a person is holding onto or is physically attached to any transom structure of the watercraft, including but not limited to a swim platform, swim deck, swim step, and swim ladder. This subsection does not apply to a person who is:
 1. Assisting with docking or departure activities,
 2. Exiting or entering the watercraft, or
 3. Engaging in law enforcement or emergency rescue activity.

Historical Note

New Section made by final rulemaking at 8 A.A.R. 3025, effective July 10, 2002 (Supp. 02-3). Amended by final rulemaking at 13 A.A.R. 4511, effective February 2, 2008 (Supp. 07-4). Amended by final rulemaking at 23 A.A.R.

Game and Fish Commission

1732, effective August 5, 2017 (Supp. 17-2).

R12-4-525. Revocation of Watercraft Certificate of Number, AZ Numbers, and Decals

- A. For the purposes of this Section, "person" has same meaning as prescribed under A.R.S. § 5-301.
- B. Upon notice of conviction of a person under A.R.S. § 5-391(G), the Department shall revoke for a period not to exceed two years the certificates of number, AZ numbers, registration decals, and Nonresident Boating Safety Infrastructure decals of any Arizona registered watercraft owned by that person and involved in the violation.
- C. Upon notice of conviction of a person under A.R.S. § 5-391(H), the Department shall revoke for a period not to exceed one year the certificates of number, AZ numbers, registration decals, and Nonresident Boating Safety Infrastructure decals for any Arizona registered watercraft owned by that person and involved in the violation.
- D. Upon receiving notice of conviction, the Department shall serve notice under A.R.S. §§ 41-1092.03 and 41-1092.04 on the person convicted that the certificates of number, AZ numbers, registration decals, and Nonresident Boating Safety Infrastructure decals of watercraft the person owns are subject to revocation.
- E. A person whose certificates of number, AZ numbers, registration decals, and Nonresident Boating Safety Infrastructure decals are subject to revocation may request a hearing. The person shall submit a written request to the Arizona Game and Fish Department, Director's Office, 5000 W. Carefree Hwy, Phoenix, AZ 85086, within 30 calendar days of receiving the notice described under subsection (D).
- F. If the person requests a hearing, the Department shall, within 60 days of receiving the request, schedule a hearing as prescribed under A.R.S. § 41-1092.05.
- G. After a final decision to revoke the person's certificates of number, AZ numbers, registration decals, and Nonresident Boating Safety Infrastructure decals, the Department shall serve upon the person an Order of Revocation. Within 15 calendar days of receipt of the notice, the person shall surrender to the Department the revoked certificates of number and decals.
- H. The revocation of the certificates of number, AZ numbers, registration decals, and Nonresident Boating Safety Infrastructure decals does not affect the legal title to or any property rights in the watercraft. Upon receipt of an application to transfer watercraft registration by the new watercraft owner, the Department shall terminate the revocation and allow the owner to transfer the owner's entire interest in the watercraft if the Department is satisfied the transfer is proposed in good faith and not for the purpose of defeating the revocation.

Historical Note

New Section made by final rulemaking at 8 A.A.R. 3025, effective July 10, 2002 (Supp. 02-3). Amended by final rulemaking at 19 A.A.R. 597, effective July 1, 2013 (Supp. 13-1).

R12-4-526. Unlawful Mooring

- A. A person, as defined under A.R.S. § 5-301, shall not moor, anchor, fasten to the shore, or otherwise secure a watercraft in any public body of water for more than 14 days within any period of 28 consecutive days unless:
 1. The waters are a special anchorage area as defined under A.R.S. § 5-301,
 2. Authorized for private dock or moorage, or
 3. Authorized by the government agency or private interest having jurisdiction over the waters.

- B. A person shall remove an abandoned or submerged watercraft from public waters within 72 hours of notice by registered mail or personal service of notice to remove such watercraft.
- C. The owner of any abandoned watercraft shall be responsible for all towing and storage fees resulting from the removal of the watercraft from public waters.

Historical Note

New Section made by final rulemaking at 13 A.A.R. 4511, effective February 2, 2008 (Supp. 07-4). Amended by final rulemaking at 19 A.A.R. 597, effective July 1, 2013 (Supp. 13-1). Amended by final rulemaking at 23 A.A.R. 1732, effective August 5, 2017 (Supp. 17-2).

R12-4-527. Transfer of Ownership of a Towed Watercraft

- A. For the purpose of this Section, "towed watercraft" means a watercraft that has been impounded by or is in the possession of a towing company located in this state.
- B. Within 15 days of impounding a watercraft, a towing company shall submit a request to the Department for watercraft registration information as prescribed under A.R.S. § 5-324 and in compliance with A.R.S. § 5-399. The towing company shall present the towed watercraft to the closest Department office for identification if there is no discernible hull identification number or state-issued registration number.
- C. Within 15 days of receiving the watercraft registration information from the Department, the towing company shall provide written notification by certified mail return receipt requested to the owner and lienholder, if known, of the watercraft's location.
- D. If a watercraft remains unclaimed after mailing the notice required under subsection (C) of this Section, the towing company shall submit all of the following to the Department within 15 days of sending the written notification to the owner and lienholder, when known:
 1. Evidence of compliance with notification requirements prescribed under A.R.S. § 5-399 and subsection (C);
 2. A report on a form furnished by the Department and available at any Department office. The form shall include all of the following information:
 - a. Name of towing company;
 - b. Towing company's business address;
 - c. Towing company's business telephone number;
 - d. Towing company's Arizona Department of Public Safety tow truck permit number;
 - e. Towed watercraft's hull identification number;
 - f. Towed watercraft's state-issued registration number, registration decal, and year of expiration, if known;
 - g. Towed watercraft's trailer license number, if available;
 - h. State and year of trailer registration, if available;
 - i. Towed watercraft's color and manufacturer;
 - j. Towed watercraft's condition, whether intact, stripped, damaged, or burned, along with a description of any damage;
 - k. Date the watercraft was towed;
 - l. Location from which the towed watercraft was removed;
 - m. Entity that ordered the removal of the towed watercraft, and if a law enforcement agency, include officer badge number, jurisdiction, and copy of report or towing invoice;
 - n. Location where the towed watercraft is stored; and
 - o. Name and signature of towing company's authorized representative; and

Game and Fish Commission

3. The unclaimed towed watercraft application fee authorized under A.R.S. § 5-399.03(2) and established under R12-4-504.
- E. The towing company shall notify the Department within 24 hours if the watercraft is released, returned to, redeemed, or repossessed by the owner, lienholder, or by a person identified in the Department's record as having an interest in the watercraft.
- F. If the Department is unsuccessful in its attempt to identify or contact the registered owner or lienholder of the towed watercraft and has determined the towed watercraft is not stolen, the towing company shall:
 1. Follow the application procedures established under A.R.S. § 5-399.02(B), and
 2. Apply for watercraft registration as established under R12-4-502.
- G. A towing company that obtains ownership of a watercraft pursuant to A.R.S. § 5-399.02 and this Section shall maintain the following records for a period of three years from the date the Department transferred ownership of the towed watercraft:
 1. The request made pursuant to A.R.S. § 5-324.
 2. The notification provided pursuant to A.R.S. § 5-399.
 3. The application for transfer of ownership pursuant to A.R.S. § 5-399.02.
 4. Any other documents required by the Department.

Historical Note

New Section made by emergency rulemaking under A.R.S. § 41-1026 at 9 A.A.R. 1241, effective May 26, 2003 for a period of 180 days (Supp. 03-1). Emergency rulemaking repealed under A.R.S. § 41-1026(E) and permanent new Section made by final rulemaking at 9 A.A.R. 1613, effective July 5, 2003 (Supp. 03-2). Amended by final rulemaking at 19 A.A.R. 597, effective July 1, 2013 (Supp. 13-1). Amended by final exempt rulemaking at 23 A.A.R. 1034; amended by final rulemaking at 23 A.A.R. 1732, both effective August 5, 2017 (Supp. 17-2).

R12-4-528. Watercraft Checkpoints

- A. A law enforcement agency may establish a watercraft checkpoint to ensure public safety on state waterways, to screen for unsafe or impaired watercraft operators, or to gather demographic, statistical, and compliance information related to watercraft activities.
- B. An individual may be required to perform the following during a watercraft stop or at a watercraft checkpoint:
 1. Stop or halt as directed when being hailed by a peace officer or entering the established checkpoint boundary as prescribed under A.R.S. § 5-391, and
 2. Provide evidence of required safety equipment and registration documentation prescribed under A.R.S. Title 5, Chapter 3, Boating and Water Sports.
- C. This Section does not limit any state peace officer's authority to conduct routine watercraft patrol efforts prescribed under A.R.S. Title 5, Chapter 3, Boating and Water Sports.

Historical Note

New Section made by final rulemaking at 13 A.A.R. 4511, effective February 2, 2008 (Supp. 07-4). Amended by final rulemaking at 19 A.A.R. 597, effective July 1, 2013 (Supp. 13-1).

R12-4-529. Nonresident Boating Safety Infrastructure Fees; Proof of Payment

- A. Before placing that watercraft on the waterways of this State, a nonresident owner of a recreational watercraft who establishes this State as the state of principal operation shall pay the appli-

cable Nonresident Boating Safety Infrastructure Fee (NBSIF) as authorized under A.R.S. §§ 5-326 and 5-327:

1. Twelve feet and less: \$80
 2. Twelve feet one inch through sixteen feet: \$88
 3. Sixteen feet one inch through twenty feet: \$192
 4. Twenty feet one inch through twenty-six feet: \$224
 5. Twenty-six feet one inch through thirty-nine feet: \$253
 6. Thirty-nine feet one inch through sixty-four feet: \$286
 7. Sixty-four feet one inch and over: \$429
 8. For the purposes of this subsection, the length of the motorized watercraft shall be measured in the same manner prescribed under A.R.S. § 5-321(C).
- B. The nonresident recreational watercraft owner shall carry and display proof of payment of the fee while the watercraft is underway, moored, or anchored on the waterways of this State. Acceptable proof of payment includes any one of the following:
 1. A current Arizona Watercraft Certificate of Number indicating the NBSIF was paid,
 2. A current Arizona Watercraft Temporary Certificate of Number indicating the NBSIF was paid, or
 3. A current Arizona Watercraft Registration Decal indicating the NBSIF was paid.

Historical Note

Adopted effective October 22, 1976 (Supp. 76-5). Former Section R12-4-90 renumbered as Section R12-4-529 without change effective August 13, 1981 (Supp. 81-4). Repealed effective May 27, 1992 (Supp. 92-2). New Section made by final rulemaking at 19 A.A.R. 597, effective July 1, 2013 (Supp. 13-1). Amended by final rulemaking at 19 A.A.R. 3225, effective January 1, 2014 (Supp. 13-3). Amended by final rulemaking at 23 A.A.R. 1732, effective August 5, 2017 (Supp. 17-2).

R12-4-530. Authorized Third-party Providers; Agents

- A. The Department may enter into a contract with a private entity to perform limited or specific services on behalf of the Department in accordance with State procurement laws and rules.
 1. The Department may authorize a person to be a third-party provider. An authorized third-party provider shall meet the requirements established by the Department and shall be selected through a competitive bid process.
 2. The Department may authorize a third-party provider to perform any one or more of the following services:
 - a. Watercraft transfer.
 - b. Watercraft registration renewal.
 - c. Duplicate watercraft registration and decal.
 - d. New watercraft registration.
- B. A person shall not engage in any business pursuant to this Section unless the Department authorizes the person to engage in the business.
- C. The Department shall establish minimum quality standards of service and a quality assurance program for authorized third-party providers to ensure that an authorized third-party provider is complying with the minimum standards.
- D. The Department may:
 1. Conduct investigations.
 2. Conduct audits.
 3. Make on-site inspections in compliance with A.R.S. § 41-1009.
 4. Require an authorized third-party or employees or agents of an authorized third-party be certified to perform the services prescribed in this Article.
- E. An authorized third-party provider shall remit to the Department all fees established under R12-4-504 and R12-4-529 it collects.

Game and Fish Commission

1. An authorized third-party provider may collect and retain a reasonable and commensurate fee for its services.
 2. Each authorized third-party provider that holds itself out as providing services to the public shall identify to the applicant the Department's registration fee and the non-resident boating safety infrastructure fee, when applicable, separately from any other costs.
- F.** A third-party who is authorized pursuant to this Section shall:
1. Maintain records in a form and manner prescribed by the Department.
 2. Allow access to the records during regular business hours to authorized representatives of the Department or any law enforcement agency to ensure compliance with all applicable statutes and rules.
- G.** The Department may suspend or cancel an authorization or certification, or both, granted pursuant to this Section if the Department determines that the third-party provider or certificate holder has done any of the following:
1. Made a material misrepresentation or misstatement in the application for authorization or certification.
 2. Has been convicted of fraud or a watercraft related felony in any state or jurisdiction of the U.S. within the ten years immediately preceding the date a criminal records check is complete.
 3. Has been convicted of a felony, other than a felony described in subsection (2), in any state or jurisdiction of the U.S. within the five years immediately preceding the date a criminal records check is complete.
 4. Violated a rule or policy adopted by the Department.
 5. Failed to keep and maintain records required by this Section.
 6. Failed to remit to the Department all fees established under R12-4-504 and R12-4-529 it collects.
 7. Allowed an unauthorized person to engage in any business pursuant to this Section.
- K.** If the Department has reasonable grounds to believe that a certificate holder or other person employed by an authorized third-party provider has committed a serious violation, the Department may order a summary suspension of the third provider's authorization granted pursuant to this Section pending formal suspension or cancellation proceedings. For the purposes of this subsection, "serious violation" means:
1. Watercraft registration fraud.
 2. Improper disclosure of personal information.
 3. Bribery.
 4. Theft.
- L.** On determining that grounds for suspension or cancellation of an authorization or certification, or both, exist, the Department shall give written notice to the third-party provider or certificate holder to appear at a hearing before the Department to show cause why the authorization or certification should not be suspended or canceled.
1. After consideration of the evidence presented at the hearing, the Department shall serve notice of the finding and order to the third-party or certificate holder.
 2. If a third-party authorization or a certification is suspended or canceled, the third-party or certificate holder may appeal the decision pursuant to A.R.S. Title 41, Chapter 6, Article 10.

Historical Note

New Section made by final rulemaking at 23 A.A.R. 1732, effective August 5, 2017 (Supp. 17-2).

pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 90-3). Emergency expired. Repealed effective May 27, 1992 (Supp. 92-2).

ARTICLE 6. RULES OF PRACTICE BEFORE THE COMMISSION

R12-4-601. Petition for Rule or Review of Practice or Policy

- A. Any individual, including any organization or agency, requesting that the Commission make, amend, or repeal a rule, shall submit a petition as prescribed under this Section.
- B. Any individual, including any organization or agency, requesting that the Commission review an existing Department practice or substantive policy that the petitioner alleges to constitute a rule under A.R.S. § 41-1033, as defined under A.R.S. § 41-1001, shall submit a petition as prescribed under this Section.
- C. A petitioner shall not address more than one rule, practice, or substantive policy in the petition.
- D. If the Commission has considered and denied a petition, and a petitioner submits a petition within the next year that addresses the same substantive issue, the petitioner shall provide a written statement that contains any reason not previously considered by the Commission in making a decision.
- E. A petitioner shall submit an original and one copy of a petition to the Arizona Game and Fish Department, Director's Office, 5000 W. Carefree Highway, Phoenix, AZ 85086. The Commission shall render a decision on the petition as required under A.R.S. § 41-1033.
- F. Within five working days after a petition is submitted, the Director shall determine whether the petition complies with this Section.
 1. If the petition complies with this Section, the Director shall place the petition on a Commission open meeting agenda. The petitioner may present oral testimony at that meeting, as established under R12-4-603.
 2. If a petition does not comply with subsections (G) through (L) of this Section, the Director shall return a copy of the petition as filed to the petitioner and indicate in writing why the petition does not comply with this Section. The Director shall not place the petition on a Commission agenda. The Department shall maintain the original petition on file for five years and consider the petition as a comment during the five-year review process.
- G. Petitions shall be typewritten, computer or word processor printed, or legibly handwritten, and double-spaced, on 8 1/2" x 11" paper; or typewritten, computer or word processor printed, or legibly handwritten on a form provided by the Department. The title shall be centered at the top of the first page and appear as "Petition to the Arizona Game and Fish Commission." The petition shall include the items listed in subsections (H) through (L). The items in the petition shall be presented in the order in which they are listed in this Section.
- H. The title of Part 1 shall be "Identification of Petitioner." The title shall be centered at the top of the first page of this part. Part 1 shall contain:
 1. If the petitioner is a private individual, the name, mailing address, and telephone number of the petitioner;
 2. If the petitioner is a private group or organization, the name and address of the group or organization; the name, mailing address, and telephone number of an individual who is designated as the representative or official contact for the petitioner; the total number of individuals, and the number of Arizona residents represented by the petitioner; or the names and addresses of all individuals represented by the petitioner; or
 3. If the petitioner is a public agency, the name and address of the agency and the name, title, and telephone number of the agency's representative.
- I. The title of Part 2 shall be "Request for Rule" or "Request for Review," as applicable. The title shall be centered at the top of the first page of this part. Part 2 shall contain:
 1. If the petition is for a new rule, a statement to this effect, followed by the heading and specific language of the proposed rule;
 2. If the request is for amendment of a current rule, a statement to this effect, followed by the *Arizona Administrative Code* number of the current rule proposed for amendment, the heading of the rule, the specific, clearly readable language of the rule, indicating language to be deleted with strikeouts, and language to be added with underlining;
 3. If the request is for repeal of a current rule, a statement to this effect, followed by the *Arizona Administrative Code* number of the rule proposed for repeal and the heading of the rule; or
 4. If the request is for review of an existing agency practice or substantive policy statement that the petitioner alleges qualifies as a rule, as defined under A.R.S. § 41-1001, a statement to this effect, followed by the practice or policy number, if any, the practice or policy heading, if any, or a brief description of the practice or policy subject matter.
- J. The title of Part 3 shall be "Reason for the Petition." The title shall be centered at the top of the first page of this part. Part 3 shall contain:
 1. The reason the petitioner believes rulemaking or review of a practice or policy is necessary;
 2. Any statistical data or other justification supporting rulemaking or review of the practice or policy, with clear reference to any exhibits that are attached to or included with the petition;
 3. An identification of any individuals or special interest groups the petitioner believes would be impacted by the rule or a review of the practice or policy, and how they would be impacted; and
 4. If the petitioner is a public agency, a summary of issues raised in any public meeting or hearing regarding the petition, or any written comments offered by the public.
- K. The title of Part 4 shall be "Statutory Authority." The title shall be centered at the top of the first page of this part. In Part 4, the petitioner shall identify any statute that authorizes the Commission to make the rule, if known, or cite A.R.S. § 41-1033 if the petition relates to review of an existing practice or substantive policy statement.
- L. The title of Part 5 shall be "Date and Signature." The title shall be centered at the top of the first page of this part. Part 5 shall contain:
 1. An original signature of the representative or official contact, if the petitioner is a private group or organization or private individual named under subsection (H)(1) or (2); or
 2. If the petitioner is a public agency, the signature of the agency head or the agency head's designee; and
 3. The month, day, and year that the petition is signed.

Historical Note

Adopted effective December 22, 1987 (Supp. 87-4).
Amended by final rulemaking at 10 A.A.R. 2245, effective July 6, 2004 (Supp. 04-2). Amended by final rulemaking at 16 A.A.R. 1465, effective July 13, 2010 (Supp. 10-3).

R12-4-602. Written Comments on Proposed Rules

Any individual may submit written statements, arguments, data, and views on proposed rules that have been filed with the Secretary of State under A.R.S. § 41-1022. An individual who submits written comments to the Commission may voluntarily provide their name and mailing address. To be placed into the rulemaking record and considered by the Commission for a final decision, the individual submitting the written comments shall ensure that they:

1. Are received before or on the closing date for written comments, as published by the Secretary of State in the Arizona Administrative Register;
2. Indicate, if expressed on behalf of a group or organization, whether the views expressed are the official position of the group or organization, the number of individuals represented are represented, types of membership available, and number of Arizona residents in each membership category; and
3. Are submitted to the employee designated by the Department to receive written comments, as published in the Arizona Administrative Register.

Historical Note

Adopted effective December 22, 1987 (Supp. 87-4).

Amended by final rulemaking at 10 A.A.R. 2245, effective July 6, 2004 (Supp. 04-2).

R12-4-603. Oral Proceedings Before the Commission

- A. For the purposes of this Section, “matter” or “proceeding” means any contested case, appealable agency action, rule or review petition hearing, rulemaking proceeding, or any public input at a Commission meeting.
- B. The Commission may allow an oral proceeding on any matter. At an oral proceeding:
 1. The Chair is responsible for conducting the proceeding. If an individual wants to speak, the individual shall first request and be granted permission by the Chair.
 2. Depending on the nature of the proceeding, the Chair may administer an oath to a witness before receiving testimony.
 3. The Chair may order the removal of any individual who is disrupting the proceeding.
 4. Based on the amount of time available, the Chair may limit the number of presentations or the time for testimony regarding a particular issue and shall prohibit irrelevant or immaterial testimony.
 5. Technical rules of evidence do not apply to an oral proceeding, and no informality in any proceeding or in the manner of taking testimony invalidates any order, decision, or rule made by the Commission.
- C. The Commission authorizes the Director to designate a hearing officer for oral proceedings to take public input on proposed rulemaking. The hearing officer has the same authority as the Chair in conducting oral proceedings, as provided in this Section.
- D. The Commission authorizes the Director to continue a scheduled proceeding to a later Commission meeting. To request a continuance, a petitioner shall:
 1. Deliver the request to the Director no later than 24 hours before the scheduled proceeding;
 2. Demonstrate that the proceeding has not been continued more than twice; and
 3. Demonstrate good cause for the continuance.

Historical Note

Adopted effective December 22, 1987 (Supp. 87-4).

Amended effective November 10, 1997 (Supp. 97-4).

Amended by final rulemaking at 10 A.A.R. 2245, effective July 6, 2004 (Supp. 04-2).

R12-4-604. Ex Parte Communication

- A. For purposes of this Section:
 1. “Individual outside the Commission” means any individual other than a Commissioner, personal aide to a Commissioner, Department employee, consultant of the Commission, or an attorney representing the Commission.
 2. “Ex parte communication” means any oral or written communication with the Commission that is not part of the public record and for which no reasonable prior written notice has been given to all interested parties.
- B. In any contested case (as defined in A.R.S. § 41-1001) or proceeding or appealable agency action (as defined in A.R.S. § 41-1092) before the Commission, except to the extent required for disposition of ex parte matters as authorized by law or these rules of procedure, the following prohibitions apply to ex parte communication:
 1. An interested individual outside the Commission shall not make or knowingly cause to be made to any Commissioner, Commission hearing officer, personal aide to a Commissioner, Department employee, or consultant who is or may reasonably be expected to be involved in the decision-making process of the proceeding, an ex parte communication relevant to the merits of the proceeding;
 2. A Commissioner, Commission hearing officer, personal aide to a Commissioner, Department employee, or consultant who is or may reasonably be expected to be involved in the decisional process of the proceeding, shall not make or knowingly cause to be made to any interested person outside the Commission an ex parte communication relevant to the merits of the proceeding.
- C. A Commissioner, Commission hearing officer, personal aide to a Commissioner, Department employee, or consultant who is or may be reasonably expected to be involved in the decisional process of the proceeding, who receives, makes, or knowingly causes to be made a communication prohibited by subsection (B)(1) or (B)(2) of this Section, shall place on the public record of the proceeding and serve on all interested parties to the proceeding:
 1. A copy of each written communication;
 2. A memorandum stating the substance of each oral communication; and
 3. A copy of each response and memorandum stating the substance of each oral response to any communication governed by subsections (C)(1) and (C)(2).
- D. Upon receipt of a communication made or knowingly caused to be made by a party in violation of this Section, the Commission or its hearing officer, to the extent consistent with equity and fairness, may require the party to show cause why the claim or interest in proceeding should not be dismissed, denied, disregarded, or otherwise adversely affected because of the violation.
- E. The provisions of this Section apply from the date that a notice of hearing for a contested case is served, a notice of appealable agency action is served, or a request for hearing is filed, whichever comes first, unless the person responsible for the communication has knowledge that a proceeding will be noticed, in which case the prohibitions apply from the date that the individual acquired the knowledge.

Historical Note

Adopted effective December 22, 1987 (Supp. 87-4).

Amended by final rulemaking at 10 A.A.R. 2245, effective July 6, 2004 (Supp. 04-2).

R12-4-605. Standards for Revocation, Suspension, or Denial

Game and Fish Commission

of a License

A. Under A.R.S. § 17-340, the Commission shall hold a hearing and may revoke, suspend, or deny any hunting, fishing, or trapping license for an individual who has been convicted of any of the following offenses:

1. Killing or wounding a big game animal during a closed season or possessing a big game animal taken during a closed season. Conviction for possession of a road-kill animal or an animal that was engaged in depredation is not considered "possessing during a closed season" for the purposes of this subsection.
2. Destroying, injuring, or molesting livestock, or damaging or destroying personal property, notices or signboards, other improvements, or growing crops while hunting, fishing, or trapping.
3. Careless use of a firearm while hunting, fishing, or trapping that results in the injury or death of any person, if the act of discharging the firearm was deliberate.
4. Applying for or obtaining a license or permit by fraud or misrepresentation in violation of A.R.S. § 17-341.
5. Entering upon a game refuge or other area closed to hunting, trapping or fishing and taking, driving, or attempting to drive wildlife from the area in violation of A.R.S. §§ 17-303 and 17-304.
6. Unlawfully posting state or federal lands in violation of A.R.S. § 17-304(B).

B. Under A.R.S. § 17-340, the Commission shall hold a hearing and may revoke, suspend, or deny any hunting fishing, or trapping license if the Department recommends revocation, suspension, or denial of the license for an individual convicted of any of the following offenses:

1. Unlawfully taking or possessing big game, if sufficient evidence, which may or may not have been introduced in the court proceeding, supports any of the following conclusions:
 - a. The big game was taken without a valid license or permit.
 - b. The unlawful taking was willful and deliberate.
 - c. The person in unlawful possession aided the unlawful taking or was, or should have been, aware that the taking was unlawful.
2. Unlawfully taking or possessing small game or fish, if sufficient evidence, which may or may not have been introduced in the court proceeding, supports any of the following conclusions:
 - a. The taking was willful and deliberate.
 - b. The possession was in excess of the lawful possession limit plus the daily bag limit.
3. Unlawfully taking wildlife species if sufficient evidence, which may or may not have been introduced in the court proceeding, indicates that the act of taking was willful and deliberate and showed disregard for state wildlife laws.
4. Littering a public hunting or fishing area while taking wildlife, if sufficient evidence, which may or may not have been introduced in the court proceeding, indicates that an individual littered the area, the amount of litter discarded was unreasonably large, and that the individual convicted made no reasonable effort to dispose of the litter in a lawful manner.
5. Careless use of a firearm while hunting, fishing, or trapping that resulted in injury or death to any person, if the act of discharging the firearm was not deliberate, but sufficient evidence, which may or may not have been introduced in the court proceeding, indicates that the careless

use demonstrated wanton disregard for the safety of human life or property.

6. Any violation for which a license can be revoked under A.R.S. § 17-340, if the person has been convicted of a revocable offense within the past three years.
7. Violation of A.R.S. § 17-306 for unlawful possession of wildlife.

C. Under A.R.S. §§ 17-238, 17-362, 17-363, 17-364, and 17-340, if the Department has made a recommendation to the Commission for license revocation, the Commission shall hold a hearing and may revoke any fur dealer, guide, taxidermy, or special license (as defined in R12-4-401) in any case where license revocation is authorized by law.

Historical Note

Adopted effective December 22, 1987 (Supp. 87-4).

Amended by final rulemaking at 10 A.A.R. 2245, effective July 6, 2004 (Supp. 04-2).

R12-4-606. Proceedings for License Revocation, Suspension, or Denial of Right to Obtain a License, and Civil Damages

- A. The Director may commence a proceeding for the Commission to revoke, suspend or deny a license under A.R.S. §§ 17-238, 17-340, 17-362, 17-363, 17-364, R12-4-105, and R12-4-605. The Director may also commence a proceeding for civil damages under A.R.S. § 17-314.
- B. The Commission shall conduct a hearing concerning revocation, suspension, or denial of the right to obtain a license in accordance with the Administrative Procedure Act, A.R.S. Title 41, Chapter 6, Article 10. A respondent shall limit testimony to facts that show why the license should not be revoked or denied. Because the Commission does not have the authority to consider or change the conviction, a respondent is not permitted to raise this issue in the proceeding. The Commission shall permit a respondent to offer testimony or evidence relevant to the Commission's decision to order recovery of civil damages or wildlife parts.
- C. If a respondent does not appear for a hearing on the date scheduled, at the time and location noticed, no further opportunity to be heard is provided, unless rehearing or review is granted under R12-4-607. If the respondent does not wish to attend the hearing, the respondent may submit written testimony to the Department before the hearing date designated in the Notice of Hearing required by A.R.S. § 17-340(D). The Commission shall ensure that written testimony received at the time of the hearing is read into the record at the hearing.
- D. The Commission shall base its decision on the officer's case report, a summary prepared by the Department, a certified copy of the court record, and any testimony presented at the hearing. With the notice of hearing required by A.R.S. § 17-340(D), the Department shall supply the respondent with a copy of each document provided to the Commission for use in reaching a decision.
- E. Any party may apply to the Commission for issuance of a subpoena to compel the appearance of any witness or the production of documents at any hearing or deposition. Not later than 10 calendar days before the hearing or deposition, the party shall file a written application that provides the name and address of the witness, the subject matter of the expected testimony, the documents sought to be produced, and the date, time, and place of the hearing or deposition. The Commission chair has the authority to issue the subpoenas.
1. A party shall have a subpoena served as prescribed in the Arizona Rules of Civil Procedure, Rule 45. An employee of the Department may serve a subpoena at the request of the Commission chair.

Game and Fish Commission

2. A party may request that a subpoena be amended at any time before the deadline provided in this Section for filing the application. The party shall have the amended subpoena served as provided in subsection (E)(1).
- F. A license revoked by the Commission is suspended on the date of the hearing and revoked upon issuance of the findings of fact, conclusions of law, and order. If a respondent appeals the Commission's order revoking a license, the license is revoked after all appeals have been completed. A denial of the right to obtain a license is effective for a period not to exceed five years, as determined by the Commission, beginning on the date of the hearing.
- G. A license suspended by the Commission is suspended on the date of the hearing, and suspended upon issuance of the findings of fact, conclusions of law, and order. If a respondent appeals the Commission's order suspending a license, the license is suspended after all appeals have been completed. Under A.R.S. § 17-340(A), a suspension of a license is effective for a period not to exceed five years, as determined by the Commission, beginning on the date of the hearing.
- E. The Commission may affirm or modify the decision or grant a rehearing to all or any of the parties on all or part of the issues for any of the reasons in subsection (D). The Commission's order modifying a decision or granting a rehearing shall specify the grounds for the order, and any rehearing shall cover only those specified matters.
- F. Not later than 15 calendar days, after a decision, the Commission may grant a rehearing or review on its own initiative for any reason for which it might have granted relief on motion of a party. After giving the parties or their counsel notice and an opportunity to be heard on the matter, the Commission may grant a motion for rehearing or review for a reason not stated in the motion.
- G. When a motion for rehearing or review is based upon affidavits, the party shall serve the affidavits with the motion. An opposing party may, within 10 calendar days after service, serve opposing affidavits. The Commission may extend this period for no more than 20 calendar days for good cause shown or by written stipulation of the parties. The Commission has the authority to permit reply affidavits.

Historical Note

Adopted effective December 22, 1987 (Supp. 87-4).
 Amended effective November 10, 1997 (Supp. 97-4).
 Amended by final rulemaking at 10 A.A.R. 2245, effective July 6, 2004 (Supp. 04-2).

R12-4-607. Rehearing or Review of Commission Decisions

- A. For purposes of this Section the following terms apply:
 1. "Contested case" and "party" are defined as provided in A.R.S. § 41-1001;
 2. "Appealable agency action" is defined as provided in A.R.S. § 41-1092(3).
- B. Except as provided in subsection (G), any party in a contested case or appealable agency action before the Commission may file a motion for rehearing or review within 30 calendar days after service of the final administrative decision. For purposes of this subsection a decision is served when personally delivered or mailed by certified mail to the party's last known residence or place of business. The party shall attach a supporting memorandum, specifying the grounds for the motion.
- C. A party may amend a motion for rehearing or review at any time before the Commission rules upon the motion. An opposing party has 15 calendar days after service to respond to the motion or the amended motion. The Commission has the authority to require that the parties file written briefs on any issue raised in a motion or response, and allow for oral argument.
- D. The Commission has the authority to grant rehearing or review for any of the following causes materially affecting the moving party's rights:
 1. Irregularity in the proceedings of the Commission, or any order or abuse of discretion that deprived the moving party of a fair hearing;
 2. Misconduct of the Commission, its staff, an administrative law judge, or the prevailing party;
 3. Accident or surprise that could not have been prevented by ordinary prudence;
 4. Newly discovered material evidence that could not, with reasonable diligence, have been discovered and produced at the original hearing;
 5. Excessive or insufficient penalties;
 6. Error in the admission or rejection of evidence or other errors of law occurring at the hearing or during the progress of the proceeding; or
 7. That the findings of fact or decision is not justified by the evidence or is contrary to law.

Historical Note

Adopted effective June 13, 1977 (Supp. 77-3). Former Section R12-4-14 renumbered as Section R12-4-115 without change effective August 13, 1981 (Supp. 81-4). Former Section R12-4-115 renumbered without change as Section R12-4-607 effective December 22, 1987 (Supp. 87-4). Amended effective November 10, 1997 (Supp. 97-4). Amended by final rulemaking at 10 A.A.R. 2245, effective July 6, 2004 (Supp. 04-2).

R12-4-608. Expired**Historical Note**

Adopted effective April 28, 1989 (Supp. 89-2). Amended effective May 27, 1992 (Supp. 92-1). Amended effective November 10, 1997 (Supp. 97-4). Amended by final rulemaking at 6 A.A.R. 211, effective December 14, 1999 (Supp. 99-4). Section expired under A.R.S. § 41-1056(E) at 8 A.A.R. 853, effective January 31, 2002 (Supp. 02-1).

R12-4-609. Commission Orders

- A. Except as provided in subsection (B):
 1. At least 20 calendar days before a meeting where the Commission will consider a Commission Order, the Department shall ensure that a public meeting notice and agenda for the public meeting is posted in accordance with A.R.S. § 38-431.02. The Department shall also issue a public notice of the recommended Commission Order to print and electronic media at least 20 calendar days before the meeting.
 2. The Department shall ensure that the public meeting notice and agenda contains the date, time, and location of the Commission meeting where the Commission Order will be considered and a statement that the public may attend and present written comments at or before the meeting.
 3. The Department shall also ensure that the public meeting notice and agenda states that a copy of the proposed Commission Order is available for public inspection at the Department offices in Phoenix, Pinetop, Flagstaff, Kingman, Yuma, Tucson, and Mesa 10 calendar days before the meeting. The Commission may make changes to the recommended Commission Order at the Commission meeting.
- B. The requirements of subsection (A) do not apply to Commission orders establishing:
 1. Supplemental hunts as prescribed in R12-4-115, and

Game and Fish Commission

2. Special seasons for individuals that possess special license tags issued under A.R.S. § 17-346 and R12-4-120.
- C. The Department shall publish the content of all Commission orders and make them available to the public without charge.

Historical Note

Adopted effective March 1, 1991; filed February 28, 1991 (Supp. 91-1). Amended effective January 1, 1993; filed December 18, 1992 (Supp. 92-4). Amended effective November 10, 1997 (Supp. 97-4). Amended by final rulemaking at 9 A.A.R. 610, effective April 6, 2003 (Supp. 03-1). Amended by final rulemaking at 10 A.A.R. 2245, effective July 6, 2004 (Supp. 04-2).

R12-4-610. Petitions for the Closure of State or Federal Lands to Hunting, Fishing, Trapping, or Operation of Motor Vehicles

- A. An individual or agency requesting that the Commission consider closing state or federal land to hunting, fishing, or trapping as provided under A.R.S. § 17-304(B) or R12-4-110; or closing roads or trails on state lands as provided under R12-4-110, shall submit a petition as prescribed in this Section before the Commission will consider the request.
- B. A petition shall not address more than one contiguous closure request.
- C. Once the Commission has considered and denied a petition, an individual who subsequently submits a petition that addresses the same contiguous closure request shall provide a written statement that contains any reason not previously considered by the Commission in making a decision.
- D. A petitioner shall submit an original and one copy of the petition to the Director of the Arizona Game and Fish Department, Director's Office, 5000 W. Carefree Highway, Phoenix, AZ 85086, not less than 60 calendar days before a scheduled Commission meeting to be placed on the agenda for that meeting. If the Commission receives a petition after that time it will be considered at the next regularly-scheduled open meeting. At any time, the petitioner may withdraw the petition or request delay to a later regularly-scheduled open meeting.
- E. Within 15 business days after the petition is filed, the Department shall determine whether the petition complies with the requirements established under A.R.S. § 17-452, R12-4-110, and this Section. Once the Department determines that the petition meets these requirements, and if the petitioner has not agreed to an alternative solution or withdrawn the petition, the Department, in accordance with the schedule in subsection (D), shall place the petition on the agenda for the Commission's next open meeting and provide written notice to the petitioner of the date that the Commission will consider the petition.
1. The petitioner may present oral testimony in support of the petition at the Commission meeting, in accordance with the provisions established under R12-4-603.
 2. If a petition does not meet the requirements prescribed under A.R.S. § 17-452, R12-4-110, and this Section, the Department shall return one copy of the petition as filed to the petitioner with the reasons why the petition does not meet the requirements, and not place the petition on a Commission agenda.
 3. If the Department returns a petition to a petitioner for a reason that cannot be corrected, the Department shall serve on the petitioner a notice of appealable agency action under A.R.S. § 41-1092.03.
- F. The petitioner shall submit a petition that:
1. Is typewritten, computer or word processor printed, or legibly handwritten, and double-spaced, on 8 1/2" x 11" paper;
 2. Has a concise map that shows the specific location of the proposed closure;
 3. Has the title "Petition for the Closure of Hunting, Fishing, or Trapping Privileges on Public Land" or "Petition for the Closure of Public Lands to the Operation of Motor Vehicles" at the top of the first page;
 4. Is in four parts, with titles designating each part as prescribed in this subsection;
 5. Has a "Part 1" with the title "Identification of Petitioner" and contains the following information, if applicable:
 - a. If the petitioner is the leaseholder of the area proposed for closure, the name, lease number, mailing address, and home telephone number of the petitioner;
 - b. If the petitioner is anyone other than the leaseholder, the name, mailing address, and telephone number of the leaseholder; the name, mailing address, and telephone number of the petitioner; and the name of each group or organization or organizations that the petitioner represents; or
 - c. If the petitioner is a public agency, the name and address of the agency and the name, title, and telephone number of the agency's representative regarding the petition.
 6. Has a "Part 2" with the title "Request for Closure" and contains all of the following information, if applicable:
 - a. The type of closure requested: either a hunting, fishing, or trapping closure, or closure to the operation of motor vehicles;
 - b. A complete legal description of the area to be closed;
 - c. The name or identifying number of any road and the portion of the road affected by the closure; and
 - d. The dates proposed for the closure:
 - i. If the closure is to the operation of motor vehicles, the actual time period of the closure (up to five years), and whether or not the closure is seasonal; or
 - ii. If the closure is for hunting, fishing, or trapping, whether or not the request is for a permanent closure or for some other period of time.
 7. Has a "Part 3" with the title "Reason for Closure" and contains all of the following information, if applicable:
 - a. Each reason why the closure should be considered under R12-4-110, A.R.S. § 17-304(B), or A.R.S. § 17-452(A);
 - b. Any data or other justification supporting the reasons for the closure with clear reference to any exhibits that may be attached to the petition;
 - c. Each individual or segment of the public the petitioner believes will be impacted by the closure, including any other valid licensees, lessees, or permittees that will or may be affected, and how they will be impacted, including both positive and negative impacts;
 - d. If the petitioner is a public agency, a summary of issues raised in any public hearing or public meeting regarding the petition and a copy of each written comment or document of concurrence authorized under A.R.S. § 17-452(A), received by the petitioning agency; and
 - e. A proposed alternate access route, under R12-4-110.
 8. Has a "Part 4" with the title "Dates and Signatures" and contains the following:
 - a. The original signature of the private party or the official contact named under subsection (F)(5)(a) or

Game and Fish Commission

(b) of this Section, or, if the petitioner is a public agency, the signature of the agency head or the agency head's designee; and

- b. The month, day, and year when the petition was signed.

Historical Note

Adopted effective March 1, 1991; filed February 28, 1991 (Supp. 91-1). Amended effective January 1, 1993; filed December 18, 1992 (Supp. 92-4). Amended by final rulemaking at 10 A.A.R. 2245, effective July 6, 2004 (Supp. 04-2). Amended by final rulemaking at 16 A.A.R. 1465, effective July 13, 2010 (Supp. 10-3).

R12-4-611. Petition for Hearing Before the Commission When No Remedy is Provided in Statute, Rule, or Policy

- A. If no administrative remedy exists in statute, rule or policy, an aggrieved individual may request a hearing before the Commission by following the provisions of this Section.
- B. Any individual who requests a hearing under this Section shall submit a petition as prescribed in this Section before the request for a hearing will be considered by the Commission.
- C. A petitioner shall submit an original and one copy of a petition to the Arizona Game and Fish Department, Director's Office, 5000 W. Carefree Highway, Phoenix, AZ 85086.
- D. The petitioner shall ensure that the petition is typewritten, computer or word processor printed, or legibly handwritten, and double-spaced on 8 1/2" x 11" paper. The petitioner shall place the title "Petition for Hearing by the Arizona Game and Fish Commission" at the top of the first page. The petition shall include the items listed in subsections (E) through (H). The petitioner shall present the items in the petition in the order in which they are listed in this Section.
- E. The petitioner shall ensure that the title of Part 1 is "Identification of Petitioner" and that Part 1 includes the following information, as applicable:
1. If the petitioner is a private person, the name, mailing address, telephone number, and e-mail address (if available) of the petitioner;
 2. If the petitioner is a private group or organization, the name and address of the organization; the name, mailing address, telephone number, and e-mail address (if available) of one person who is designated as the official contact for the group or organization; the number of individuals or members represented by the private group or organization, and the number of these individuals or members who are Arizona residents. If the petitioner prefers, the petitioner may provide the names and addresses of all members; or
 3. If the petitioner is a public agency, the name and address of the agency and the name, title, telephone number, and e-mail address (if available) of the agency's representative.
- F. The petitioner shall ensure that the title of Part 2 is "Statement of Facts and Issues." Part 2 shall contain a description of the issue to be resolved, and a statement of the facts relevant to resolving the issue.
- G. The petitioner shall ensure that the title of Part 3 is "Petitioner's Proposed Remedy." Part 3 shall contain a full and detailed explanation of the specific remedy the petitioner is seeking from the Commission.
- H. The petitioner shall ensure that the title of Part 4 is "Date and Signatures." Part 4 shall contain:
1. The original signature of the private party or the official contact named in the petition, or, if the petitioner is a public agency, the signature of the agency head or the agency head's designee; and

2. The month, day, and year that the petition is signed.

- I. If a petition does not comply with this Section, the Director shall return the petition and indicate why the petition is deficient.
- J. After the Director receives a petition that complies with this Section, the Director shall place the petition on the agenda of a regularly scheduled Commission meeting.
- K. If the Commission votes to deny a petition, the Department shall not accept a subsequent petition on the same matter, unless the petitioner presents new evidence or reasons for considering the subsequent petition.
- L. This Section does not apply to the following:
1. A matter related to a license revocation or civil assessment;
 2. An unsuccessful hunt permit-tag computer draw application, where there was no error on the part of the Department; or
 3. The reinstatement of a bonus point, except as authorized under R12-4-107(M).

Historical Note

New Section made by final rulemaking at 10 A.A.R. 2245, effective July 6, 2004 (Supp. 04-2). Amended by final rulemaking at 16 A.A.R. 1465, effective July 13, 2010 (Supp. 10-3). Amended by final rulemaking at 21 A.A.R. 3025, effective January 2, 2016 (Supp. 15-4).

ARTICLE 7. HERITAGE GRANTS**R12-4-701. Heritage Grant Definitions**

In addition to the definitions provided under A.R.S. §§ 17-101 and 17-296, the following definitions apply to this Article:

"Administrative subunit" means a branch, chapter, department, division, section, school, or other similar divisional entity of an eligible applicant. For example, an individual:

Administrative department, but not an entire city government;

Field office or project office, but not an entire agency; or

School, but not an entire school district.

"Eligible applicant" means any public agency, non-governmental organization, or nonprofit organization that meets the applicable requirements of this Article.

"Facilities" means any structure or site improvements.

"Fund" means the Arizona Game and Fish Commission Heritage Fund, established under A.R.S. § 17-297.

"Grant agreement" means a document that details the terms and conditions of a grant project.

"Grant effective date" means the date the Department Director signs the Grant Agreement.

"In-kind" means contributions other than cash, which include individual and material resources that the applicant makes available to the project, e.g. a public employee's salary, volunteer time, materials, supplies, space, or other donated goods and services.

"Participant" means an eligible applicant who has been awarded a grant from the Heritage Fund.

"Project" means an activity, or series of related activities, or services described in the specific project scope of work and results in specific end products.

"Project period" means the time during which a participant shall complete all approved work and related expenditures associated with an approved project.

Game and Fish Commission

“Public agency” means the federal government or any federal department or agency, an Indian tribe, this state, all state departments, agencies, boards, and commissions, counties, school districts, public charter schools, cities, towns, all municipal corporations, administrative subunits, and any other political subdivision.

“Publicly held lands” means federal, public, and reserved land, State Trust Land, and other lands within Arizona that are owned, controlled, or managed by the federal government, a state agency, or political subdivision.

“Term of public use” means the time period during which the project or facility is expected to be maintained for public use.

Historical Note

Adopted effective July 12, 1996 (Supp. 96-3). Amended by final rulemaking at 8 A.A.R. 2692, effective June 6, 2002 (Supp. 02-2). Amended by final rulemaking at 13 A.A.R. 4587, effective February 2, 2008 (Supp. 07-4). Amended by final rulemaking at 19 A.A.R. 768, effective June 1, 2013 (Supp. 13-2). Amended by final rulemaking at 22 A.A.R. 2200, effective August 2, 2016 (Supp. 16-4).

R12-4-702. General Provisions; Heritage Grant Fund Requirements

- A.** The Department, in its sole discretion, may make Heritage Fund Grants available for projects that:
 1. Are located in Arizona or benefit Arizona wildlife or its habitat; and
 2. Meet the criteria established in the Heritage Grant application materials.
- B.** The Department shall:
 1. Provide public notice of the time, location, and due date for application submission; and
 2. Furnish materials necessary to complete the application.
- C.** An applicant seeking Heritage Grant funding shall submit to the Department a Heritage Fund Grant application according to a schedule of due dates determined by the Director. An applicant shall provide the following information on the Heritage Grant application form:
 1. The name of the applicant;
 2. Any county and legislative district where the project will be developed or upon which the project will have a direct impact;
 3. The name, title, mailing address, e-mail address, and telephone number of the individual responsible for the day-to-day management of the proposed project;
 4. Identification of the application criterion established in the Heritage Grant application materials;
 5. A descriptive project title;
 6. The name of the site, primary location, and any other locations of the project;
 7. Description of the:
 - a. Scope of work and the objective of the proposed project,
 - b. Methods for achieving the objective, and
 - c. Desired result of the project;
 8. The beginning and ending dates for the project;
 9. The resources needed to accomplish the project, including grant monies requested, and, if applicable, evidence of secured matching funds or contributions; and
 10. Any additional supporting information required by the Department.
 11. Signature and date. The person signing the grant application form shall have the authority to enter into agreements, accept funding, and fulfill the terms of the Grant Agreement on behalf of the applicant.
- D.** A person applying for multiple projects shall submit a separate application for each project.
- E.** An applicant shall demonstrate ownership or control of the project. Ownership or control may be demonstrated through fee title, lease, easement, or agreement. For all other project types related to sites not controlled by an applicant, an applicant shall provide written permission from the property owner authorizing the project activities and access. The applicant’s proof of ownership or control or written permission shall demonstrate:
 1. Permission for access is not revocable at will by the property owner, and
 2. Public access will be granted to the project site for the life of the project, unless the purpose of the project proposal is to limit access.
- F.** Heritage Grant proposals are competitive and the Department shall make awards based on a proposed project’s compatibility with the priorities of the Department, as approved by the Commission.
- G.** The Department may require an applicant to modify the application prior to awarding a Heritage Grant, if the Department determines that the modification is necessary for the successful completion of the project.
- H.** When applicable, the Department shall not release Heritage Grant funds until after the Department has consulted with the State Historic Preservation Office regarding the proposed project’s potential impact on historic and archaeological properties and resources.
- I.** The Department shall notify an applicant in writing of the results of the applicant’s submission and announce Heritage Grant awards at a regularly scheduled open meeting of the Commission.
- J.** A participant shall:
 1. Sign the Grant Agreement before the Department transfers any grant funds.
 2. Deposit transferred Heritage Grant funds in a dedicated account carrying the name and number of the project. In the event the funds are deposited in an interest-bearing account, any interest earned shall be:
 - a. Used for the purpose of furthering the project, with prior approval from the Department; or
 - b. Remitted to the Department upon completion of the project.
 3. Complete the project as specified under the terms and conditions of the Grant Agreement.
 4. Use awarded Heritage Grant funds solely for the project described in the application and as approved by the Department.
 5. Bear full responsibility for performance of its subcontractors to ensure compliance with the Grant Agreement.
 6. Pay all costs associated with the operation and maintenance of properties, facilities, equipment, services, publications, and other media funded by a Heritage Grant for the term of public use as specified in the Grant Agreement.
 7. Submit records that substantiate the expenditure of Heritage Grant funds. In addition, each participant shall retain and shall contractually require each subcontractor to retain all books, accounts, reports, files, and any other records relating to the acquisition and performance of the contract for a period of five years from the end date of the project period. The Department may inspect and audit participant and subcontractor records as prescribed under A.R.S. § 35-214. Upon the Department’s request, a participant or subcontractor shall produce a legible copy of these records.

Game and Fish Commission

8. Allow Department employees or agents to conduct inspections and reviews:
 - a. To ensure compliance with all terms and conditions established under the Grant Agreement.
 - b. Before release of the final payment.
 9. Give public acknowledgment of Heritage Fund grant assistance for the term of public use of a project. If a project involves acquisition of property, development of public access, or renovation of a habitat site, the participant shall install a permanent sign describing the funding sources. The participant may include the cost of this signage as part of the original project. The participant is responsible for maintenance or replacement of the sign as required. For other project types, the participant shall include Heritage Fund grant funding acknowledgment on any publicly available or accessible products resulting from the project.
- K.** A participant shall not:
1. Begin a project described in the application until after the grant effective date.
 2. Use Heritage Grant funds for the purpose of producing income unless authorized by the Department. A participant shall use all income generated to further the purpose of the approved project or surrender the income to the original funding source.
 3. Comingle Heritage Grant funds with any other funds.
 4. Use Heritage Grant funds to pay the salary of any public agency employee. A participant may use a public agency's employee's time as in-kind match for the project specified in the Grant Agreement.
- L.** The parties may amend the terms of the Grant Agreement by mutual written consent. The Department shall prepare any approved amendment in writing, and both the Department and the Grantee shall sign the amendment.
- M.** The Department and the participant may amend the Grant Agreement during the project period. A participant seeking to amend the Grant Agreement shall submit a written request that includes justification to amend the Grant Agreement. The Department shall prepare any approved amendment in writing and both the Department and the participant shall sign the amendment.
- N.** A participant shall submit project status reports, as required in the Grant Agreement. If a participant fails to submit a project status report, the Department may not release any remaining grant monies until the participant has submitted all past due project status reports. The project status report shall include the following information, as applicable:
1. Progress in completing approved work;
 2. Itemized, cumulative project expenditures;
 3. A financial accounting of:
 - a. Heritage Grant Funds,
 - b. Matching funds,
 - c. Donations, and
 - d. Income derived from project funds;
 4. Any delays or problems that may prevent the on-time completion of the project; and
 5. Any other information required by the Department.
- O.** At the end of the project period and for each year until the end of the term of public use, a participant shall:
1. Certify compliance with the Grant Agreement, and
 2. Complete a post-completion report form furnished by the Department.
- P.** Upon completion of approved project elements, if a balance of awarded Heritage Grant funds remains, the participant may:
1. Use the unexpended funds for an additional project consistent with the original scope of work, when approved by the Department; or
 2. Surrender the unexpended funds to the Department.
- Q.** Upon completion of the project a participant shall:
1. Surrender equipment with an acquisition cost of more than \$500 to the Department upon completion, or
 2. Use equipment purchased with Heritage Grant funds in a manner consistent with the purposes of the Grant Agreement.
- R.** A participant may request an extension beyond the approved project period by writing to the Department.
1. Requests for an extension shall be submitted by the participant no later than 30 days before the end of the project period.
 2. If approved, an extension shall be signed by both the participant and the Department.
- S.** A participant that has a Heritage Grant funded project in extension shall not apply for, nor be considered for, further Heritage Grants until the administrative subunit's project under extension is completed.
- T.** In addition, the Department may administratively extend the project period for good cause such as, but not limited to, inclement weather, internal personnel changes, or to complete the final closure documents.
- U.** A participant that failed to comply with the terms and conditions of a Grant Agreement shall not apply for, nor be considered for, further Heritage Grants until the participant's project is brought into compliance.
- V.** If a participant is not in compliance with the Grant Agreement, the Department may:
1. Terminate the Grant Agreement,
 2. Seek recovery of grant monies awarded, and
 3. Classify the participant as ineligible for Heritage Fund Grants for a period of up to five years.

ARTICLE 8. WILDLIFE AREAS AND DEPARTMENT PROPERTY**R12-4-801. General Provisions****A. Wildlife Areas:**

1. Wildlife areas shall be established to:
 - a. Provide protective measures for wildlife, habitat, or both;
 - b. Allow for hunting, fishing, and other recreational activities that are compatible with wildlife habitat conservation and education;
 - c. Allow for special management or research practices; and
 - d. Enhance wildlife and habitat conservation.
2. Wildlife areas shall be:
 - a. Lands owned, leased, or otherwise managed by the Commission;
 - b. Federally-owned lands of unique wildlife habitat where cooperative agreements provide wildlife management and research implementation; or
 - c. Any lands with property interest conveyed to the Commission by any entity, through an approved land use agreement, including but not limited to deeds, patents, leases, conservation easements, special use permits, licenses, management agreements, inter-agency agreements, letter agreements, and right-of-entry, where the property interest conveyed is sufficient for management of the lands consistent with the objectives of the wildlife area.
3. Land qualified for wildlife areas shall be:
 - a. Lands with unique topographic or vegetative characteristics that contribute to wildlife,
 - b. Lands where certain wildlife species are confined because of habitat demands,
 - c. Lands that can be physically managed and modified to attract wildlife, or
 - d. Lands that are identified as critical habitat for certain wildlife species during critical periods of their life cycles.
4. The Department may restrict public access to and public use of wildlife areas and the resources of wildlife areas for up to 90 days when necessary to protect property, ensure public safety, or to ensure maximum benefits to wildlife. Closures or restrictions exceeding 90 days shall require Commission approval.
5. Closures of all or any part of a wildlife area to public entry, and any restriction to public use of a wildlife area, shall be listed in this Article or shall be clearly posted at each entrance to the wildlife area. No person shall con-

Game and Fish Commission

duct an activity restricted by this Article or by such posting.

6. When a wildlife area is posted against travel except on existing roads, no person shall drive a motor-operated vehicle over the countryside except by road.
7. The Department may post signs that place additional restrictions on the use of wildlife areas. Such restrictions may include the timing, type, or duration of certain activities, including the prohibition of access or nature of use.

B. Commission-owned real property other than Wildlife Areas:

1. The Department may take action to manage public access and use of any Commission-owned real property or facilities. Such actions may include restrictions on the timing, type, or duration of certain activities, including the prohibition of access or nature of use.
2. No person shall access or use any Commission-owned real property or facilities in violation of any Department actions authorized under subsection (B)(1), if signs are posted providing notice of the restrictions.

Historical Note

New Section adopted by exempt rulemaking at 6 A.A.R. 1731, effective May 1, 2000 (Supp. 00-2). Amended by exempt rulemaking at 17 A.A.R. 800, effective June 20, 2011 (Supp. 11-2). Amended by exempt rulemaking at 18 A.A.R. 1070, effective June 15, 2012 (Supp. 12-2). Amended by exempt rulemaking at 22 A.A.R. 951, effective June 7, 2016 (Supp. 16-2).

R12-4-802. Wildlife Area and Other Department Managed Property Restrictions

A. No person shall violate the following restrictions on Wildlife Areas:

1. Alamo Wildlife Area (located in Units 16A and 44A):
 - a. Wood collecting limited to dead and down material, for onsite noncommercial use only.
 - b. Overnight public camping in the wildlife area outside of Alamo State Park allowed for no more than 14 days within a 45-day period.
 - c. Motorized vehicle travel permitted on designated roads or areas only, except as permitted under R12-4-110(H). This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
 - d. Posted portions closed to all public entry.
 - e. Open to all hunting in season as permitted under R12-4-304 and R12-4-318.
2. Allen Severson Wildlife Area (located in Unit 3B):
 - a. No open fires.
 - b. No firewood cutting or gathering.
 - c. No overnight public camping.
 - d. Motorized vehicle travel permitted on designated roads or areas only, except as permitted under R12-4-110(H). This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
 - e. Posted portions closed to discharge of all firearms from April 1 through July 25 annually.
 - f. Open to all hunting in season as permitted under R12-4-304 and R12-4-318, except posted portions closed to hunting from April 1 through July 25 annually.
3. Aravaipa Canyon Wildlife Area (located in Units 31 and 32):
 - a. Access through the Aravaipa Canyon Wildlife Area within the Aravaipa Canyon Wilderness Area is by

permit only, available through the Safford Office of the Bureau of Land Management.

Motorized vehicle travel is not permitted on the wildlife area. This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.

- b. Open to all hunting in season as permitted under R12-4-304 and R12-4-318, except the wildlife area is closed to the discharge of all firearms.
4. Arlington Wildlife Area (located in Unit 39):
 - a. No open fires.
 - b. No firewood cutting or gathering.
 - c. No overnight public camping.
 - d. Motorized vehicle travel permitted on designated roads, trails, or areas only, except as permitted under R12-4-110(H). No motorized travel is permitted within agriculture and crop production areas. This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
 - e. Target or clay bird shooting permitted in designated areas only.
 - f. Open to all hunting in season as permitted under R12-4-304 and R12-4-318, except:
 - i. Posted portions around Department housing are closed to the discharge of all firearms; and
 - ii. Wildlife area is closed to the discharge of centerfire rifled firearms.
5. Base and Meridian Wildlife Area (located in Units 39, 26M, and 47M):
 - a. No open fires.
 - b. No firewood cutting or gathering.
 - c. No overnight public camping.
 - d. Motorized vehicle travel is not permitted on the wildlife area. This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
 - e. No target or clay bird shooting.
 - f. Open to all hunting in season as permitted under R12-4-304 and R12-4-318, except the wildlife area is closed to the discharge of rifled firearms.
6. Becker Lake Wildlife Area (located in Unit 1):
 - a. No open fires.
 - b. No overnight public camping.
 - c. Motorized vehicle travel permitted on designated roads, trails, or areas only, except as permitted under R12-4-110(H). This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
 - d. The Becker Lake boat launch access road and parking areas along with any other posted portions of the wildlife area will be closed to all public entry from one hour after sunset to one hour before sunrise daily.
 - e. Posted portions closed to all public entry.
 - f. Posted portions closed to hunting.
 - g. Open to all hunting in season as permitted under R12-4-304 and R12-4-318, except the wildlife area is closed to the discharge of rifled firearms.
7. Bog Hole Wildlife Area (located in Unit 35B):
 - a. No open fires.
 - b. No firewood cutting or gathering.
 - c. No overnight public camping.
 - d. Motorized vehicle travel is not permitted on the wildlife area. This subsection does not apply to

Game and Fish Commission

- Department authorized vehicles or law enforcement, fire response or other emergency vehicles.
- e. Open to all hunting in season, by foot access only, as permitted under R12-4-304 and R12-4-318.
8. Chevelon Canyon Ranches Wildlife Area (located in Unit 4A):
 - a. No open fires.
 - b. No firewood cutting or gathering.
 - c. No overnight public camping.
 - d. Motorized vehicle travel permitted on designated roads and areas only, except as permitted under R12-4-110(H). This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
 - e. Open to all hunting in season as permitted under R12-4-304 and R12-4-318.
 9. Chevelon Creek Wildlife Area (located in Unit 4B):
 - a. No open fires.
 - b. No firewood cutting or gathering.
 - c. No overnight public camping.
 - d. Motorized vehicle travel permitted on designated roads and areas only, except as permitted under R12-4-110(H). This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
 - e. Posted portions closed to all public entry.
 - f. Additional posted portions closed to all public entry from October 1 through February 1 annually.
 - g. Open to all hunting in season as permitted under R12-4-304 and R12-4-318, except posted portions closed to hunting from October 1 through February 1 annually.
 10. Cibola Valley Conservation and Wildlife Area (located in unit 43A):
 - a. No open fires.
 - b. No firewood cutting or gathering.
 - c. No overnight public camping.
 - d. Motorized vehicle travel permitted on designated and administrative roads and areas only, except as permitted under R12-4-110(H). No motorized travel is permitted within agriculture and crop production areas. This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
 - e. Posted portions closed to all public entry.
 - f. Open to all hunting in season as permitted under R12-4-304 and R12-4-318, except the wildlife area is closed to the discharge of rifled firearms.
 11. Clarence May and C.H.M. May Memorial Wildlife Area (located in Unit 29):
 - a. Closed to the discharge of all firearms, except as authorized under subsection (A)(11)(b).
 - b. Closed to hunting, except for predator hunts authorized by Commission Order.
 12. Cluff Ranch Wildlife Area (located in Unit 31):
 - a. Open fires allowed in designated areas only.
 - b. Wood collecting limited to dead and down material, for onsite noncommercial use only.
 - c. Overnight public camping allowed in designated areas only, for no more than 14 days within a 45-day period.
 - d. Motorized vehicle travel permitted on designated roads, trails, or areas only, except as permitted under R12-4-110(H). This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
 - e. Posted portions around Department housing and Pond Three are closed to discharge of all firearms.
 - f. Open to all hunting in season as permitted under R12-4-304 and R12-4-318, except the wildlife area is closed to the discharge of centerfire rifled firearms.
 13. Colorado River Nature Center Wildlife Area (located in Unit 15D):
 - a. No open fires.
 - b. No firewood cutting or gathering.
 - c. No overnight public camping.
 - d. Motorized vehicle travel permitted on designated roads or areas only. This subsection does not apply to Department authorized vehicles, law enforcement, fire response, or other emergency vehicles.
 - e. Closed to hunting.
 14. Fool Hollow Lake Wildlife Area (located in Unit 3C):
 - a. No open fires.
 - b. No firewood cutting or gathering.
 - c. No overnight public camping.
 - d. Motorized vehicle travel permitted on designated roads, trails, or areas only. This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
 - e. The parking area adjacent to Sixteenth Avenue and other posted portions of the wildlife area will be closed to all public entry daily from one hour after sunset to one hour before sunrise, except for anglers possessing a valid fishing license accessing Fool Hollow Lake/Show Low Creek.
 - f. Open to all hunting in season as permitted under R12-4-304 and R12-4-318.
 15. House Rock Wildlife Area (located in Unit 12A):
 - a. Motorized vehicle travel permitted on designated roads, trails, or areas only, except as permitted under R12-4-110(H). This subsection does not apply to Department authorized vehicles, law enforcement, fire response, or other emergency vehicles.
 - b. Open to all hunting in season as permitted under R12-4-304 and R12-4-318.
 - c. Members of the public are prohibited from being within 1/4 mile of the House Rock bison herd while on House Rock Wildlife Area, except when taking bison or accompanied by Department personnel.
 16. Jacques Marsh Wildlife Area (located in Unit 3B):
 - a. No open fires.
 - b. No firewood cutting or gathering.
 - c. No overnight public camping.
 - d. Motorized vehicle travel permitted on designated roads or areas only, except as permitted under R12-4-110(H). This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
 - e. Open to all hunting in season as permitted under R12-4-304 and R12-4-318, except the wildlife area is closed to the discharge of rimfire and centerfire rifled firearms.
 17. Lamar Haines Wildlife Area (located in Unit 7):
 - a. Wood cutting by permit only and collecting limited to dead and down material, for noncommercial use only. Upon request, a person may obtain a wood cutting permit from the Flagstaff Game and Fish Department regional office.
 - b. No overnight public camping.

Game and Fish Commission

- c. Motorized vehicle travel permitted on designated roads or areas only, except as permitted under R12-4-110(H). This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
 - d. Open to all hunting in season as permitted under R12-4-304 and R12-4-318.
18. Lower San Pedro River Wildlife Area (located in Units 32 and 37B):
- a. Open fires allowed in designated areas only. The following acts are prohibited:
 - i. Building, attending, maintaining, or using a fire without removing all flammable material from around the fire to adequately prevent the fire from spreading from the fire pit.
 - ii. Carelessly or negligently throwing or placing any ignited substance or other substance that may cause a fire.
 - iii. Building, attending, maintaining, or using a fire in any area that is closed to fires.
 - iv. Leaving a fire without completely extinguishing it.
 - b. Wood collecting limited to dead and down material, for onsite noncommercial use only.
 - c. Overnight public camping allowed in designated areas only, for no more than 14 days within a 45-day period.
 - d. Motorized vehicle travel permitted on designated roads, trails, or areas only, except as permitted under R12-4-110(H). This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
 - e. Posted portions closed to all public entry.
 - f. Open to all hunting in season as permitted under R12-4-304 and R12-4-318, except posted portions closed to hunting.
 - g. Parking allowed within 300 feet of designated open roads and in designated areas only.
 - h. Discharge of a firearm or pre-charged pneumatic weapon prohibited within ¼ mile of buildings.
 - i. A person shall not use a metal detector or similar device except as authorized by the Department. This subsection does not apply to law enforcement officers in the scope of their official duties, or to persons duly licensed, permitted, or otherwise authorized to investigate historical or cultural artifacts by a government agency with regulatory authority over cultural or historic artifacts.
19. Luna Lake Wildlife Area (located in Unit 1):
- a. Motorized vehicle travel permitted on designated roads or areas only, except as permitted under R12-4-110(H). This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
 - b. Posted portions closed to all public entry from February 15 through July 31 annually.
 - c. Open to all hunting in season as permitted under R12-4-304 and R12-4-318, except when closed to hunting from April 1 through July 31 annually.
20. Mittry Lake Wildlife Area (located in Unit 43B):
- a. Open fires allowed in designated areas only.
 - b. Overnight public camping allowed in designated areas only, for no more than 10 days per calendar year.
 - c. Motorized vehicle travel permitted on designated roads, trails, or areas only, except as permitted under R12-4-110(H). This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
21. Planet Ranch Conservation and Wildlife Area (located in Units 16A and 44A):
- a. No open fires.
 - b. No firewood cutting or gathering.
 - c. Overnight public camping allowed in designated areas only, for no more than 14 days within a 45-day period.
 - d. Motorized vehicle travel:
 - i. Is permitted on designated roads, trails, or areas only, except as permitted under R12-4-110(H).
 - ii. Is prohibited within the posted Lower Colorado River Multi-Species Conservation Program habitat area.
 - iii. This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
 - e. Open to all hunting in season as permitted under R12-4-304 and R12-4-318, except posted portions closed to hunting.
22. Powers Butte (Mumme Farm) Wildlife Area (located in Unit 39):
- a. No open fires.
 - b. No firewood cutting or gathering.
 - c. No overnight public camping.
 - d. Motorized vehicle travel permitted on posted designated roads, trails, or areas only, except as permitted under R12-4-110(H). This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
 - e. If conducted during an event approved under R12-4-125, target or clay bird shooting is permitted in designated areas only.
 - f. Open to all hunting in season as permitted under R12-4-304 and R12-4-318, except:
 - i. Posted portions around Department housing are closed to the discharge of all firearms; and
 - ii. Wildlife area is closed to the discharge of centerfire rifled firearms.
23. Quigley-Achee Wildlife Area (located in Unit 41):
- a. No open fires.
 - b. No overnight public camping.
 - c. Motorized vehicle travel permitted on designated roads, trails, or areas only, except as permitted under R12-4-110(H). No motorized travel is permitted within agriculture and crop production areas. This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
 - d. Posted portions closed to all public entry.
 - e. Open to all hunting in season as permitted under R12-4-304 and R12-4-318, except posted portions closed to hunting.
24. Raymond Wildlife Area (located in Unit 5B):
- a. Overnight public camping permitted in designated sites only, for no more than 14 days within a 45-day period.
 - b. Motorized vehicle travel permitted on designated roads, trails, or areas only, except as permitted under R12-4-110 (G). All-terrain and utility type vehicles

Game and Fish Commission

- are prohibited. For the purpose of this subsection, all-terrain and utility type vehicle means a motor vehicle having three or more wheels fitted with large tires and is designed chiefly for recreational use over roadless, rugged terrain. This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
- c. Posted portions closed to all public entry from May 1 through July 29 annually.
 - d. Open to all hunting in season as permitted under R12-4-304 and R12-4-318, except posted portions closed to hunting periodically during hunting seasons.
 - e. Members of the public are prohibited from being within 1/4 mile of the Raymond bison herd while on Raymond Wildlife Area, except when taking bison or accompanied by Department personnel.
 - f. Prior to entering Raymond Wildlife Area, members of the public shall sign in at a posted sign-in kiosk and by doing so acknowledge they have read and shall comply with the posted Raymond Wildlife Areas restrictions.
25. Robbins Butte Wildlife Area (located in Unit 39):
 - a. No open fires.
 - b. No firewood cutting or gathering.
 - c. No overnight public camping.
 - d. Motorized vehicle travel permitted on designated roads, trails, or areas only from one hour before sunrise to one hour after sunset daily, except as permitted under R12-4-110(H). This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
 - e. Parking in designated areas only.
 - f. If conducted during an event approved under R12-4-125, target or clay bird shooting is permitted in designated areas only.
 - g. Open to all hunting in season as permitted under R12-4-304 and R12-4-318 except the wildlife area is closed to the discharge of centerfire rifled firearms.
 26. Roosevelt Lake Wildlife Area (located in Units 22, 23, and 24B):
 - a. Posted portions closed to all public entry from November 15 through February 15 annually.
 - b. Motorized vehicle travel permitted on designated roads, trails, or areas only, except as permitted under R12-4-110(H). No motorized travel is permitted within agriculture and crop production areas. This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
 - c. Open to all hunting in season as permitted under R12-4-304 and R12-4-318, except posted portions closed to hunting from November 15 through February 15 annually.
 27. Santa Rita Wildlife Area (located in Unit 34A):
 - a. Motorized vehicle travel permitted on designated roads or areas only, except as permitted under R12-4-110(H). Portions of the wildlife area may be posted as closed to motorized vehicle travel for periodical research purposes. This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
 - b. Open to all hunting in season as permitted under R12-4-304 and R12-4-318, except that the take of wildlife with firearms is prohibited from March 1 through August 31.
 28. Sipe White Mountain Wildlife Area (located in Unit 1):
 - a. No open fires.
 - b. No firewood cutting or gathering.
 - c. No overnight public camping.
 - d. Motorized vehicle travel permitted on designated roads or areas only, except as permitted under R12-4-110(H). This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
 - e. Open to all hunting in season as permitted under R12-4-304 and R12-4-318, except posted portions around Department housing is closed to the discharge of all firearms.
 29. Springerville Marsh Wildlife Area (located in Unit 2B):
 - a. No open fires.
 - b. No firewood cutting or gathering.
 - c. No overnight public camping.
 - d. Motorized vehicle travel permitted on designated roads or areas only. This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
 - e. Closed to the discharge of all firearms.
 - f. Open to all hunting as permitted under R12-4-304 and R12-4-318, except the wildlife area is closed to the discharge of all firearms.
 30. Sunflower Flat Wildlife Area (located in Unit 8):
 - a. No overnight public camping.
 - b. Motorized vehicle travel permitted on designated roads or areas only, except as permitted under R12-4-110(H). This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
 - c. Open to all hunting in season as permitted under R12-4-304 and R12-4-318.
 31. Three Bar Wildlife Area (located in Unit 22):
 - a. Motorized vehicle travel:
 - i. Is permitted on designated roads, trails, or areas only, except as permitted under R12-4-110(H).
 - ii. Is prohibited within the Three Bar Wildlife and Habitat Study Area.
 - iii. This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
 - b. Open to all hunting in season, as permitted under R12-4-304 and R12-4-318, except the area within the fenced enclosure inside the loop formed by Tonto National Forest Road 647, also known as the Walnut Canyon Enclosure, which is closed to hunting, unless otherwise provided under Commission Order.
 32. Tucson Mountain Wildlife Area (located in Unit 38M):
 - a. Motorized vehicle travel permitted on designated roads and trails as part of the road system managed and regulated by the City of Tucson and Pima County. This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
 - b. Open to all hunting in season as permitted under R12-4-304 and R12-4-318, except:
 - i. Portions posted as closed to hunting, and
 - ii. Wildlife area is closed to the discharge of all firearms.

Game and Fish Commission

- c. Archery deer and archery javelina hunters must check in with the Arizona Game and Fish Tucson Regional Office prior to going afield.
- 33. Upper Verde River Wildlife Area (located in Unit 8 and 19A):
 - a. No open fires.
 - b. No firewood cutting or gathering.
 - c. No overnight public camping.
 - d. Motorized vehicle travel is not permitted. This subsection does not apply to Department authorized vehicles or law enforcement, fire department, or other emergency vehicles.
 - e. Open to all hunting in season as permitted under R12-4-304 and R12-4-318.
 - f. All dogs must remain on leash except for hunting dogs during a legal open season.
- 34. Wenima Wildlife Area (located in Unit 2B):
 - a. No open fires.
 - b. No firewood cutting or gathering.
 - c. No overnight public camping.
 - d. Motorized vehicle travel permitted on designated roads or areas only, except as permitted under R12-4-110(H). This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
 - e. Open to all hunting in season as permitted under R12-4-304 and R12-4-318.
- 35. White Mountain Grasslands Wildlife Area (located in Unit 1):
 - a. No open fires.
 - b. No overnight public camping.
 - c. Motorized vehicle travel permitted on designated roads or areas only, except as permitted under R12-4-110(H). This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
 - d. Posted portions closed to all public entry.
 - e. Open to all hunting in season as permitted under R12-4-304 and R12-4-318.
- 36. Whitewater Draw Wildlife Area (located in Unit 30B):
 - a. Open fires allowed in designated areas only.
 - b. Overnight public camping allowed in designated areas only, for no more than 14 days within a 45-day period.
 - c. Motorized vehicle travel permitted on designated roads, trails, or areas only, except as permitted under R12-4-110(H). This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
 - d. Posted portions closed to all public entry from October 15 through March 15 annually.
 - e. Open to all hunting in season as permitted under R12-4-304 and R12-4-318, except the wildlife area is closed to the discharge of centerfire rifled firearms.
- 37. Willcox Playa Wildlife Area (located in Unit 30A):
 - a. Open fires allowed in designated areas only.
 - b. No firewood cutting or gathering.
 - c. Overnight public camping allowed in designated areas only, for no more than 14 days within a 45-day period.
 - d. Motorized vehicle travel permitted on designated roads, trails, or areas only, except as permitted under R12-4-110(H). This subsection does not apply to Department authorized vehicles or law enforcement, fire response, or other emergency vehicles.
 - e. Posted portions closed to all public entry from October 15 through March 15 annually.
 - f. Open to all hunting in season as permitted under R12-4-304 and R12-4-318, except posted portions closed to hunting from October 15 through March 15 annually.
- B. Notwithstanding Commission Order 40, public access and use of the Hirsch Conservation Education Area and Biscuit Tank is limited to activities conducted and offered by the Department and in accordance with the Department's special management objectives for the property, which include, but are not limited to, flexible harvest, season, and methods that:
 - 1. Allow for a variety of fishing techniques, fish harvest, fish consumption, and catch and release educational experiences;
 - 2. Maintain a healthy, productive, and balanced fish community and
 - 3. Provide public education activities and training courses that are compatible with the management of aquatic wildlife.

R12-4-803. Wildlife Area and Other Department Managed Property Boundary Descriptions**A. For the purposes of this Section:**

- "B.C." means brass cap.
- "B.C.F." means brass cap flush.
- "G&SRB&M" means Gila and Salt River Base and Meridian.
- "M&B" means metes and bounds.
- "R" means Range line.
- "T" means Township line.

B. Wildlife Areas are described as follows:

- 1. Alamo Wildlife Area: The Alamo Wildlife Area shall be those areas described as follows:
T10N, R13W; Section 3 N1/2, SW1/4, SE1/4 Mohave County only; Section 4, E1/2SW1/4, SE1/4; Section 9, NE1/4, E1/2NW1/4; Section 10, NW1/4NW1/4, NE1/4NW1/4 within designated Wilderness Area. T11N, R11W; Section 7, S1/2SW1/4; Section 18, N1/2 NW1/4; T11N, R12W; Section 4, Lots 2, 3 and 4, SW1/4NE1/4, S1/2NW1/4, SW1/4, W1/2SE1/4; Section 5, Lot 1, SE1/

- 4NE1/4, E1/2SE1/4; Section 7, S1/2, SE1/4 NE1/4; Section 8, NE1/4, S1/2NW1/4, S1/2; Section 9; Section 10, S1/2NW1/4, S1/2; Section 11, S1/2S1/2; Section 12, S1/2S1/2; Section 13, N1/2, N1/2SW1/4, NW1/4SE1/4; Section 14, N1/2, E1/2SE1/4; Section 15, N1/2, SW1/4SW1/4, SW1/4SE1/4; Section 16, 17, 18 and 19; Section 20, N1/2, N1/2SW1/4; Section 21, NW1/4; Section 29, SW1/4, SW1/4SE1/4; Section 30; Section 31, N1/2, N1/2S1/2; Section 32, NW1/4, N1/2SW1/4; T11N, R13W; Section 12, SE1/4SW1/4, SW1/4SE1/4, E1/2SE1/4; Section 13; Section 14, S1/2NE1/4, SE1/4SW1/4, SE1/4; Section 22, S1/2SW1/4, SE1/4; Section 23, E1/2, E1/2NW1/4, SW1/4NW1/4, SW1/4; Section 24, 25 and 26; Section 27, E1/2, E1/2W1/2; Section 34, E1/2, E1/2NW1/4, SW1/4; Section 35 W1/2, W1/2NE1/4; T12N, R12W; Section 19, E1/2, SE1/4SW1/4; Section 20, NW1/4NW1/4, SW1/4SW1/4; Section 28, W1/2SW1/4; Section 29, W1/2NW1/4, S1/2, SE1/4NW1/4; Section 30, E1/2, E1/2NW1/4, NE1/4SW1/4; Section 31, NE1/4NE1/4; Section 32, N1/2, N1/2SE1/4, SE1/4SE1/4; Section 33, W1/2E1/2, W1/2; all in G&SRB&M, Mohave and La Paz Counties, Arizona.
2. Allen Severson Memorial Wildlife Area: The Allen Severson Memorial Wildlife Area shall be that area including Pintail Lake and South Marsh lying within the fenced and posted portions of:
T11N, R22E; Section 32, SE1/4; Section 33, S1/2SW1/4; T10N, R22E; Section 4, N1/2NW1/4; T10N, R22E; Section 4: the posted portion of the NW1/4SW1/4; all in G&SRB&M, Navajo County, Arizona, consisting of approximately 300 acres.
 3. Aravaipa Canyon Wildlife Area: The Aravaipa Canyon Wildlife Area shall be that area within the flood plain of Aravaipa Creek and the first 50 vertical feet above the streambed within the boundaries of the Aravaipa Canyon Wilderness Area administered by the Bureau of Land Management (BLM), Graham and Pinal Counties, Arizona.
 4. Arlington Wildlife Area: The Arlington Wildlife Area shall be those areas described as follows:
T1S, R5W, Section 33, E1/2SE1/4; T2S, R5W, Section 3, W1/2W1/2, Section 4, E1/2, and Parcel 401-58-001A as described by the Maricopa County Assessor's Office; a parcel of land lying within Section 4, T2S, R5W, more particularly described as follows: commencing at the southwest corner of said Section 4, 2-inch aluminum cap (A.C.) in pothole stamped "RLS 36562", from which the northwest corner of said Section, a 1 1/2-inch B.C. stamped "T1S R5W S32 S33 S5 S4 1968", bears N 00°09'36" E (basis of bearing) a distance of 4130.10 feet, said southwest corner being the point of beginning; thence along the west line of said Section, N 00°09'36" E a distance of 16.65 feet; thence leaving said west line, S 89°48'28" E a distance of 986.79 feet; thence N 00°47'35" E a distance of 2002.16 feet; thence N 01°07'35" E a distance of 2102.65 feet to the north line of said Section; thence along said north line S 89°18'45" E a distance of 1603.61 feet to the N1/4 corner of said Section, a 1/2-inch metal rod; thence leaving said north line, along the north-south midsection line of said Section, S 00°08'44" E a distance of 4608.75 feet to the S1/4 corner of said Section, a 3-inch B.C.F. stamped "T2S R5W 1/4S4 S9 RLS 46118 2008"; thence leaving said north-south midsection line, along the south line of said Section, N 79°10'54" W a distance of 2719.41 feet to the point of beginning. Subject to existing rights-of-way and easements. This parcel description is based on the Record of Survey for Alma Richardson Property, recorded in Book 996, page 25, Maricopa County Records and other client provided information. This parcel description is located within an area surveyed by Wood, Patel & Associates, Inc. during the month of April, 2008 and October, 2009 and any monumentation noted in this parcel description is within acceptable tolerance (as defined in Arizona Boundary Survey Minimum Standards dated 02/14/2002) of said positions based on said survey; all in G&SRB&M, Maricopa County, Arizona. Section 9; NW1/4 and SW1/4; Section 3; LOT 4 SW1/4NW1/4, W1/2SW1/4 NE1/4SE1/4; Section 3; M&B in LOT 1 SE1/4NE1/4E1/2SE1/4; Section 9; M&B in NE1/4NE1/4; Section 10; SW1/4NW1/4; Section 15; those portions of S1/2W1/4 and N1/2SW1/4 lying west of the primary through road; Section 16; W1/2 M&B in E1/2E1/2 W1/2E1/2; Section 21; NE1/4NW1/4 and Parcel 401-61-008D as described by the Maricopa County Assessor's Office, more particularly described as follows: commencing at the BLM B.C. marking the northeast corner of said Section 21, from which the BLM B.C. marking the northwest corner of said Section 21 bears N 82°26'05" W a distance of 5423.64 feet; thence N 82°26'05" W along the north line of Section 21 a distance of 2711.82 feet to the NW1/4 corner of said Section 21; thence S 00°33'45" W along the north-southerly midsection line of said Section 21 a distance of 33.25 feet to the True Point of Beginning; thence continuing S 00° 33'45" W along said north-south midsection line a distance of 958.00 feet to a point on a line which is parallel with and 983.85 feet southerly, as measured at right angles from the north line of said Section 21; thence N 82°26'05" W along said parallel line a distance of 925.54 feet; thence N 26°12'18" W a distance of 153.32 feet; thence N 13°26'18" W a distance of 303.93 feet; thence N 34°15'49" W a distance of 189.27 feet; thence N 21°32'45" W a distance of 215.60 feet; thence N 89°25'47" W a distance of 95.37 feet to a point on the west line of the NE1/4N1/4 of said Section 21; thence N 00°34'13" E, along said west line a distance of 223.54 feet to a point on a line which is parallel with and 33.00 feet southerly, as measured at right angles from the north line of said Section 21; thence S 82°26'05" E along said parallel line, a distance of 1355.91 feet to the True Point of Beginning; all in G&SRB&M, Maricopa County, Arizona.
 5. Base and Meridian Wildlife Area: The Base and Meridian Wildlife Area shall be those areas described as follows:
T1N, R1E, Section 31; Maricopa County APN 101-44-023, also known as Lots 3, 5, 6, 7, 8 and NE1/4SW1/4, and Maricopa County APN 101-44-003J, also known as the S1/2S1/2SW1/4NW1/4 except the west 55 feet thereof; and 101-44-003K, also known as the S1/2S1/2SW1/4NW1/4 except the west 887.26 feet thereof; and Maricopa County APN 104-44-002S, also known as that portion of the N1/2SE1/4, described as follows: commencing at the aluminum cap set at the E1/4 corner of said Section 31, from which the 3" iron pipe set at the southeast corner of said Section 31, S 00°20'56" W a distance of 2768.49 feet; thence S 00°20' 56" W along the east line of said SE1/4 of Section 31 a distance of 1384.25 feet to the southeast corner of said N1/2SE1/4; thence S 89°25'13" W along the south line of said N1/2SE1/4 a distance of 2644.35 feet to the southwest corner of said N1/2SE1/4 and the point of beginning; thence N 00°03'37" W along the west line of said SE1/4 a distance of 746.86 feet to the south line of the north 607.00 feet of

Game and Fish Commission

said N1/2SE1/4; thence N 88°46' 12" E along said south line of the north 607.00 feet of the N1/2SE1/4 a distance of 656.09 feet; thence S 00°03'37" E parallel with said west line of the SE1/4 a distance of 754.31 feet to said south line of the N1/2SE1/4; Thence S 89°25' 13" W along said south line of the N1/2SE1/4 a distance of 655.98 feet to the point of beginning. T1N, R1W, Section 34, N1/2SE1/4; Section 35, S1/2; Section 36. The Maricopa County APN 500-69-099; the W1/2SE1/4NE1/4. APN 500-69-099, 500-69-100, also known as that portion of the SE1/4SE1/4NE1/4. 500-69-010C, also known as that portion of the W1/2SE1/4NE1/4, except any portion of said W1/2SE1/4NE1/4 of Section 36 lying within the following described four parcels: Exception 1: commencing at the northeast corner of said W1/2SE1/4NE1/4 of Section 36; thence along the east line thereof S 00°10' E a distance of 846.16 feet to the point of beginning; thence continuing S 00°18' E a distance of 141.17 feet; thence S 87°51'15" W a distance of 570.53 feet; thence S 00°29' E a distance of 310.00 feet to the south line of said W1/2SE1/4NE1/4 of Section 36; thence N 89°29' W along the west line of said W1/2SE1/4NE1/4 of Section 36 a distance of 425.93 feet; said point bears S 00°29' E a distance of 895.93 feet from the northwest corner of said W1/2SE1/4NE1/4 of Section 36; thence N 85°54'33" E a distance of 647.01 feet to the point of beginning. Exception 2: commencing at the northeast corner of said W1/2SE1/4NE1/4 of Section 36; thence along the east line thereof S 00°18' E a distance of 846.16 feet to the point of beginning; said point being on the northerly line of the Flood Control District of Maricopa County parcel as shown in Document 84-26119, Maricopa County Records; thence S 85°54'33" W a distance of 647.01 feet to the west line of said W1/2SE1/4NE1/4 of Section 36; thence N 00°29' W along said west line a distance of 30 feet; thence N 84°23'15" E a distance of 228.19 feet; thence N 87°17'06" E a distance of 418.85 feet to the east line of the W1/2SE1/4NE1/4 of Section 36; thence S 00°18' E along said east line a distance of 26.00 feet to the point of beginning. Exception 3: the South 37.6 feet of said W1/2SE1/4NE1/4 of Section 36. Except all oil, gas and other hydrocarbon substances, helium or other substance of gaseous nature, coal, metals, minerals, fossils, fertilizer of every name and description and except all materials which may be essential to the production of fissionable material as reserved in Arizona Revised Statutes. Exception 4: that part of the W1/2SE1/4NE1/4 of Section 36, T1N, R1W lying north of the following described line: commencing at the northeast corner of said W1/2SE1/4NE1/4 of Section 36; thence along the east line thereof S 00°18'00" E a distance of 820.16 feet, to the point of beginning; said point being on the northerly line of the Flood District of Maricopa County parcel as shown in Document 85-357813, Maricopa County Records; thence S 87°17'06" W a distance of 418.85 feet; thence S 84°23'15" W a distance of 228.19 feet to the west line of said W1/2SE1/4NE1/4 of Section 36 and the point of terminus. The above described parcel contains 162,550 sq. ft. or 3.7316 acres 500-69-001L and 500-69-001M, also known as the N1/2SE1/4, except the south 892.62 feet thereof. 500-69-001N, 500-69-001P, 500-69-001Q, 500-69-001R, 500-69-001T, 500-69-001X, 500-69-001Y, also known as that portion of the south 892.62 feet of the N1/2SE1/4. The SE1/4SE1/4NE1/4 of Section 36, T1N, R1W, except the south 37.6 feet of said SE1/4SE1/4NE1/4, and except the east 55 feet of said SE1/

4SE1/4NE1/4, and except that part of said SE1/4SE1/4NE1/4 lying north of the most southerly line of the parcel described in Record 84-026119, Maricopa County Records, said southerly line being described as follows: beginning at the NE1/4S1/2NE1/4SE1/4NE1/4 of said Section 36; thence S 00°07' E along the east line of Section 36, a distance of 50.70 feet; thence S 89°53' W a distance of 55.00 feet to a point on the west line of the east 55.00 feet of said Section 36; thence S 00°07' E along said line, a distance of 510.00 feet; thence S 81°4'43" W a distance of 597.37 feet to a terminus point on the west line of said SE1/4SE1/4NE1/4 of Section 36, and except that part of said SE1/4SE1/4NE1/4 described as follows: commencing at the E1/4 corner of said Section 36; thence N 89°37'23" W along the south line of said SE1/4SE1/4NE1/4 of Section 36, a distance of 241.25 feet; thence N 18°53'04" E a distance of 39.65 feet to the point of beginning; thence continuing N 18°53'04" E a distance of 408.90 feet; thence S 81°04'43" W a distance of 222.55 feet; thence S 18°53'04" W a distance of 370.98 feet; thence S 89°37'23" E a distance of 207.58 feet to the point of beginning. That portion of land lying within the SE1/4SE1/4NE1/4 of Section 36, T1N, R1W, and the S1/2SW1/4NW1/4 of Section 31, T1N, R1E, as described in Document Number 99-1109246. Except the west 22 feet of the property described in Recorder Number 97-0425420, also known as APN 101-44-003G; and except the west 22 feet of the property described in Recorder Number 97-566498, also known as APN 101-44-013; all in G&SRB&M, Maricopa County, Arizona.

6. Becker Lake Wildlife Area: The Becker Lake Wildlife Area shall be that area including Becker Lake lying within the fenced and posted portions of: T9N, R29E, Section 19, SE1/4SE1/4 also known as APN. 105-07-001; Section 20, SW1/4SW1/4; beginning at a point 1012 feet north of the southwest corner of the SE1/4SW1/4 of Section 20, T9N, R29E; thence north 1285 feet; thence east a distance of 462 feet; thence south a distance of 2122 feet, more or less to the center of U.S. Highway 60; thence in a northwesterly direction along the center of U.S. Highway 60 a distance of 944 feet, more or less; thence west a distance of 30 feet, more or less to the point of beginning, also known as APN 105-08-002; Section 29, W1/2NW1/4, NW1/4SW1/4, also known as APN 105-15-003; beginning at the S1/4 corner of said Section 29, said point being the True Point of Beginning; thence N 00°43'20" E along the western boundary of the SE1/4 of said Section 29, a distance of 1329.15 feet to the center-south 1/16 corner of said Section 29; thence S 89°53'01" W along the southern boundary of the NE1/4SW1/4 of said Section 29, a distance of 99.69 feet; thence N 00°43'20" E a distance of 417.54 feet; thence S 89°31'37" E a distance of 99.69 feet; thence N 00°43'20" E along the western boundary of the SE1/4 of said Section 29 a distance of 374.40 feet; thence N 88°49'48" E a distance of 474.94 feet; thence N 27°35'15" E a distance of 99.21 feet; thence N 04°13'26" W a distance of 160.59 feet; thence N 37°38'44" E a distance of 12.27 feet; thence S 26°22'25" E a distance of 371.13 feet; thence N 31°21'35" E a distance of 58.00 feet; thence S 26°22'27" E a distance of 1203.23 feet; thence S 63°58'58" W a distance of 200.00 feet; thence S 36°24'36" E a distance of 375.11 feet; thence S 00°24'06" W a distance of 490.79 feet; thence S 01°22'24" E a distance of 110.21 feet; thence S 22°27'23" E a distance of 44.27 feet; thence N 89°48'03" W a distance of 1331.98

Game and Fish Commission

feet to the True Point of Beginning, also known as APN 105-15-014E; beginning at the corner of Sections 28, 29, 32 and 33, T9N, R29E of G&SRB&M, Apache County, Arizona; thence N 54°21'09" W a distance of 1623.90 feet; thence N 26°00'59" W a distance of 100.00 feet; thence N 26°22'14" W a distance of 1203.23 feet to the True Point of Beginning; thence N 26°22'27" W a distance of 351.19 feet; thence S 55°14'10" W a distance of 38.42 feet; thence S 37°38'44" W a distance of 12.38 feet; thence S 26°22'14" E a distance of 371.13 feet; thence N 31°21'35" E a distance of 58.00 feet to the True Point of Beginning, also known as APN 105-15-014C. S1/2SW1/4, except the following described parcel: commencing at a 2-inch aluminum cap monument stamped LS 8906 located at the Section corner common to Sections 29, 30, 31 and 32 of said Township and Range; thence bear S 89°46'16" E along the Section line common to Sections 29 and 32, a distance of 1038.05 feet to the True Point of Beginning; thence N 35°17'33" E along the northwest boundary of the Springerville Municipal Airport a distance of 328.32 feet; thence S 39°31'26" E a distance of 349.55 feet to a point on the Section line common to Sections 29 and 32; thence N 89°46'44" W a distance of 131.96 feet to the W1/16 corner of Sections 29 and 32; thence N 89°46'16" W a distance of 280.18 feet to the True Point of Beginning. Section 30, NE1/4SE1/4, E1/2NE1/4 also known as APN 105-16-001; W1/2NE1/4, W1/2NE1/4 also known as APN 105-16-002; Section 32, beginning at the N1/4 corner of said Section 32, said point being the True Point of Beginning; thence S 89°48'03" E along the north line of said Section 32 a distance of 1331.98 feet; thence S 21°49'15" E a distance of 198.07 feet; thence S 20°56'35" W a distance of 191.75 feet; thence S 19°53'23" W a distance of 24.65 feet; thence S 39°17'55" W a distance of 86.61 feet; thence S 01°41'36" E a distance of 13.60 feet; thence S 50°13'33" W a distance of 1.29 feet; thence S 02°24'23" E a distance of 906.39 feet; thence S 00°44'11" W a distance of 466.82 feet; thence S 35°26'56" W a distance of 218.51 feet; thence S 89°57'05" W a distance of 1141.87 feet; thence N 07°57'52" E a distance of 328.83 feet; thence N 77°39'30" W a distance of 68.79 feet; thence N 00°30'56" W a distance of 334.16 feet to a 1/16th section corner; thence N 00°30'56" W a distance of 1349.10 feet to the True Point of Beginning. Except therefrom any portion lying in the S1/2SW1/4NE1/4 of said Section 32 also known as APN 105-18-008A; all that portion of the NE1/4NW1/4 of Section 32, T9N, R29E of G&SRB&M, Apache County, Arizona, lying east of the Becker Lake Roadway; except for the following described parcel: from the NW1/16 corner of said Section 32; thence S 89°45'28" E along the 1/16 line a distance of 736.55 feet to the True Point of Beginning, said point being in the west rights-of-way limits of Becker Lake Rd.; thence N 06°09'00" W along the west line of said right-of-way a distance of 266.70 feet to a 1/2-inch rebar with a tag marked LS 13014; thence N 06°21'43" W a distance of 263.42 feet to a 1/2-inch rebar with a tag marked LS 13014; thence N 06°21'43" W a distance of 198.60 feet to a 5/8-inch rebar with a plastic cap marked LS 13014; thence N 78°43'10" E a distance of 158.40 feet to a 5/8-inch rebar with a plastic cap marked LS 13014; thence S 47°05'42" E a distance of 65.65 feet to a 5/8-inch rebar with a plastic cap marked LS 13014; thence S 29°24'20" E a distance of 202.48 feet to a 5/8-inch rebar with a plastic cap marked LS 13014; thence S 48°03'17" W a dis-

tance of 146.19 feet to a 5/8-inch rebar with a plastic cap marked LS 13014; thence South 19°36'10" West a distance of 115.75 feet to a 5/8-inch rebar with a plastic cap marked LS 13014; thence South 00°38'05" East a distance of 74.66 feet to a 5/8-inch rebar with a plastic cap marked LS 13014; thence S 14°52' 53" E a distance of 125.09 feet to a 5/8-inch rebar with a plastic cap marked LS 13014; thence S 15°08'20" E a distance of 136.60 feet to a 5/8-inch rebar with a plastic cap marked LS 13014; thence S 89°58'07" W a distance of 144.13 feet to the True Point of Beginning, also known as APN 105-18-012G.

7. Bog Hole Wildlife Area: The Bog Hole Wildlife Area lying in Sections 29, 32 and 33, T22S, R17E shall be the fenced and posted area described as follows: beginning at the southeast corner of Section 32, T22S, R17E, G&SRB&M, Santa Cruz County, Arizona; thence N 21°42'20" W a distance of 1394.86 feet to the True Point of Beginning; thence N 9°15'26" W a distance of 1014.82 feet; thence N 14°30'58" W a distance of 1088.82 feet; thence N 36°12'57" W a distance of 20.93 feet; thence N 50°16'38" W a distance of 1341.30 feet; thence N 57°51'08" W a distance of 1320.68 feet; thence N 39°03'53" E a distance of 1044.90 feet; thence N 39°07'43" E a distance of 1232.32 feet; thence S 36°38'48" E a distance of 1322.93 feet; thence S 43°03'17" E a distance of 1312.11 feet; thence S 38°19'38" E a distance of 1315.69 feet; thence S 13°11'59" W a distance of 2083.31 feet; thence S 69°42'45" W a distance of 920.49 feet to the True Point of Beginning.
8. Chevelon Canyon Ranches Wildlife Area: The Chevelon Canyon Ranches Wildlife Area shall be those areas described as follows:
 Duran Ranch: T12N, R14E; Sections 6 and 7, more particularly bounded and described as follows: beginning at Corner 1, from which the Standard Corner to Section 31 in T13N, R14E and Section 36 T13N, R13E, bears N 11°41' W 21.53 chains distant; thence S 26°5' E 6.80 chains to Corner 2; thence S 66° W 12.74 chains to Corner 3; thence S 19°16' W 13.72 chains to Corner 4; thence S 29°1' W 50.02 chains to Corner 5; thence N 64°15' W five chains to Corner 6; thence N 28°54' E 67.97 chains to Corner 7; thence N 55°36' E 11.02 to Corner 1; the place of beginning; all in G&SRB&M, Coconino County, Arizona. Dye Ranch: T12N, R14E Sections 9 and 16, more particularly described as follows: beginning at Corner 1 from which the Standard corner to Sections 32 and 33 in T13N, R14E, bears N 2° 24' E 127.19 chains distant; thence S 50°20' E 4.96 chains to corner 2; thence S 29°48' W 21.97 chains to Corner 3; thence S 14°45' W 21.00 chains to Corner 4; thence N 76°23' W 3.49 chains to Corner 5; thence N 10°13' W 14.02 chains to Corner 6; thence N 19°41' E 8.92 chains to Corner 7; thence N 38°2' E 24.79 chains to Corner 1, the place of beginning; all in G&SRB&M, Coconino County, Arizona. Tillman Ranch: T12N, R14E land included in H.E. Survey 200 embracing a portion of approximately Sections 9 and 10 in T12N, R14E of G&SRB&M; all in G&SRB&M, Coconino County, Arizona. Vincent Ranch: T12N, R13E; Sections 3 and 4, more particularly described as follows: beginning at Corner 1, from which the south corner to Section 33, T13N, R13E, bears N 40°53' W 16.94 chains distance; thence S 53° 08' E 2.98 chains to Corner 2; thence S 11°26' W 6.19 chains to Corner 3; thence S 49°43' W 22.41 chains to Corner 4; thence S 22°45' W

30.03 chains to Corner 5; thence N 67°35' W 6.00 chains to Corner 6; thence N 23° E 30.03 chains to Corner 7; thence N 42°18' E 21.19 chains to Corner 8; thence N 57°52' E 8.40 chains to Corner 1, the place of beginning; all in G&SRB&M, Coconino County, Arizona. Wolf Ranch: T12N, R14E, Sections 18 and 19, more particularly bounded and described as follows: beginning at Corner 1, from which the U.S. Location Monument 184 H. E. S. bears S 88°53' E 4.41 chains distant; thence S 34°4' E 11.19 chains to Corner 2; thence S 40°31' W 31.7 chains to Corner 3; thence S 63°3' W 7.97 chains to Corner 4; thence S 23°15' W 10.69 chains to Corner 5; thence N 59° W 2.60 chains to Corner 6; thence N 18°45' E 10.80 chains to Corner 7; thence N 51°26' E 8.95 chains to Corner 8; thence N 30°19' E 34.37 chains to Corner 1; the place of beginning; all in G&SRB&M, Coconino County, Arizona.

9. Chevelon Creek Wildlife Area: The Chevelon Creek Wildlife Area shall be those areas described as follows: Parcel 1: The S1/2S1/2NW1/4SW1/4 of Section 23, T18N, R17E of G&SRB&M; Parcel 2: Lots 1, 2, 3 and 4 of Section 26, T18N, R17E of G&SRB&M; Parcel 1: That portion of the NE1/4 of Section 26 lying northerly of Chevelon Creek Estates East Side 1 Amended, according to the plat of record in Book 5 of Plats, page 35, records of Navajo County, Arizona, all in T18N, R17E of G&SRB&M, Navajo County, Arizona. Parcel 2: That part of Tract A, Chevelon Creek Estates East Side 1 Amended, according to the plat of record in Book 5 of Plats, page 35, records of Navajo County, Arizona lying northerly of the following described line: beginning at the southwest corner of Lot 3 of said subdivision; thence southwesterly in a straight line to the southwest corner of Lot 6 of said subdivision.
10. Cibola Valley Conservation and Wildlife Area: The Cibola Valley Conservation and Wildlife Area shall be those areas described as follows: Parcel 1: this parcel is located in the NW1/4 of Section 36, T1N, R24W of G&SRB&M, La Paz County, Arizona, lying east of the right of way line of the "Cibola Channelization Project of the United States Bureau of Reclamation Colorado River Front Work and Levee System," as indicated on Bureau of Reclamation Drawing 423-300-438, dated March 31, 1964, and more particularly described as follows: beginning at the northeast corner of the NW1/4 of said Section 36; thence south and along the east line of the NW1/4 of said Section 36, a distance of 2646.00 feet to a point being the southeast corner of the NW1/4 of said Section 36; thence westerly and along the south line of the NW1/4 a distance of 1711.87 feet to a point of intersection with the east line of the aforementioned right of way; thence northerly and along said east line of the aforementioned right of way, a distance of 2657.20 feet along a curve concave easterly, having a radius of 9260.00 feet to a point of intersection with the north line of the NW1/4 of said Section 36; thence easterly and along the north line of the NW1/4 of said Section 36, a distance of 1919.74 feet to the point of beginning. Parcel 2: this parcel is located in the U.S. Government Survey of Lot 1 and the E1/2SW1/4 of Section 36, T1N, R24W of G&SRB&M, La Paz County, Arizona, lying east of the right of way line of the "Cibola Channelization Project of the United States Bureau of Reclamation Colorado River Front Work and Levee System," as indicated on Bureau of Reclamation Drawing 423-300-438, dated March 31, 1964, and more particularly described as fol-

lows: beginning at the S1/4 corner of said Section 36; thence westerly and along the south line of said Section 36, a distance of 610.44 feet to a point of intersection with the east line of the aforementioned right of way; thence northerly along said east line of the of the aforementioned right of way and along a curve concave southwesterly, having a radius of 17350.00 feet, a distance of 125.12 feet; thence continuing along said right of way line and along a reverse curve having a radius of 9260.00 feet, a distance of 2697.10 feet to a point of intersection with the east-west midsection line of said Section 36; thence easterly along said east-west midsection line, a distance of 1711.87 feet to a point being the center of said Section 36; thence south and along the north-south midsection line, a distance of 2640.00 feet to the point of beginning. Parcel 3: this parcel is located in the E1/2NE1/4 of Section 36, T1N, R24W of G&SRB&M, La Paz County, Arizona. Parcel 4: this parcel is located in the E1/2NW1/4SW1/4 of Section 21, T1N, R23W of G&SRB&M, La Paz County, Arizona, lying south of the south right of way line of U.S.A. Levee; except therefrom that portion lying within Cibola Sportsman's Park, according to the plat thereof recorded in Book 4 of Plats, Page 58, records of Yuma (now La Paz) County, Arizona; and further excepting the N1/2E1/2NW1/4SW1/4. Parcel 5: this parcel is located in the S1/2SW1/4 of Section 21, T1N, R23W of G&SRB&M, La Paz County, Arizona. Except the west 33.00 feet thereof; and further excepting that portion more particularly described as follows: the N1/2NW1/4SW1/4SW1/4 of said Section, excepting the north 33.00 feet and the east 33.00 feet thereof. Parcel 6: this parcel is located in the SW1/4SE1/4 of Section 21, T1N, R23W of G&SRB&M, La Paz County, Arizona. Parcel 7: this parcel is located in Sections 24 and 25, T1N, R24W of G&SRB&M, La Paz County, Arizona, lying south of the Colorado River and east of Meander line per BLM Plat 2647C. Parcel 8: this parcel is located in the W1/2 of Section 19, T1N, R23W of G&SRB&M, La Paz County, Arizona, lying south of the Colorado River. Except that portion in condemnation suit Civil 5188PHX filed in District Court of Arizona entitled USA -vs- 527.93 acres of land; and excepting therefrom any portion of said land lying within the bed or former bed of the Colorado River waterward of the natural ordinary high water line; and also excepting any artificial accretions to said line of ordinary high water. Parcel 9: this parcel is located in the N1/2NE1/4SE1/4; and the W1/2SW1/4NE1/4SE1/4; and that portion of the SE1/4NE1/4 of Section 20, T1N, R23W of G&SRB&M, La Paz County, Arizona, lying south of the south right of way line of the U.S.B.R. Levee; except the east 33.00 feet thereof; and further excepting that portion more particularly described as follows: commencing at the northeast corner of the SE1/4 of said Section 20; thence S 0°24'00" E along the east line, a distance of 380.27 feet; thence S 89°36'00" W a distance of 50.00 feet to the True Point of Beginning; thence continuing S 89°36'00" W a distance of 193.00 feet; thence N 0°24'00" W a distance of 261.25 feet; thence S 70°11'00" E a distance of 205.67 feet to the west line of the east 50.00 feet of said SE1/4 of Section 20; thence S 0°24'00" E a distance of 190.18 feet to the True Point of Beginning; excepting therefrom any portion of said land lying within the bed or former bed of the Colorado River waterward of the natural ordinary high water line; and also excepting any artificial accretions to said line of ordinary high water. Parcel 10: this parcel is

- located in the S1/2SE1/4 Section 20, T1N, R23W of G&SRB&M, La Paz County, Arizona; except the east 33.00 feet thereof. Parcel 11: This parcel is located in the SW1/4NE1/4; and the NW1/4SE1/4 of Section 20, T1N, R23W of G&SRB&M, La Paz County, Arizona, lying south of the Colorado River and west of the Meander line per BLM Plat 2546B; except any portion thereof lying within U.S.A. Lots 5 and 6 of said Section 20, as set forth on BLM Plat 2546B; and excepting therefrom any portion of said land lying within the bed or former bed of the Colorado River waterward of the natural ordinary high water line; and also excepting any artificial accretions to said line of ordinary high water. Parcel 12: this parcel is located in the SE1/4NE1/4SE1/4; and the E1/2SW1/4NE1/4SE1/4 of Section 20, T1N, R23W of G&SRB&M, La Paz County, Arizona. Parcel 13: this parcel is located in the E1/2 of Section 19, T1N, R23W of G&SRB&M, La Paz County, Arizona, lying south of the Colorado River; except the W1/2W1/2SE1/4SW1/4SE1/4; except the E1/2E1/2SW1/4SW1/4SE1/4; except the SW1/4SW1/4NE1/4; except the W1/2SE1/4SW1/4NE1/4; and excepting therefrom any portion of said land lying within the bed or former bed of the Colorado River waterward of the natural ordinary high water line; and also excepting any artificial accretions to said line of ordinary high water. Parcel 14: this parcel is located in the SW1/4SW1/4NE1/4; and the W1/2SE1/4SW1/4NE1/4 of Section 19, T1N, R23W of G&SRB&M, La Paz County, Arizona, lying south of the Colorado River and protection levees and front work, excepting therefrom any portion of said land lying within the bed or former bed of the Colorado River waterward of the natural ordinary high water line; and also excepting any artificial accretions to said line of ordinary high water. Parcel 15: this parcel is located in the W1/2 of Section 20, T1N, R23W of G&SRB&M, La Paz County, Arizona; except the west 133.00 feet thereof; except any portion lying within the U.S. Levee or Channel right of way or any portion claimed by the U.S. for Levee purposes or related works; and except the SE1/4SE1/4SW1/4 of said Section 20. Parcel 16: this parcel is located in the SE1/4SE1/4SW1/4 of Section 20, T1N, R23W of G&SRB&M, La Paz County, Arizona.
11. Clarence May and C.M.H. May Memorial Wildlife Area: Clarence May and C.M.H. May Memorial Wildlife Area: Clarence May and C.M.H. May Memorial Wildlife Area shall be the SE1/4 of Section 8 and N1/2NE1/4 of Section 17, T17S, R31E, and the W1/2SE1/4, S1/2NW1/4, and SW1/4 of Section 9, T17S, R31E, G&SRB&M, Cochise County, Arizona, consisting of approximately 560 acres.
 12. Cluff Ranch Wildlife Area: The Cluff Ranch Wildlife Area is that area within the fenced and posted portions of Sections 13, 14, 23, 24, and 26, T7S, R24E, G&SRB&M, Graham County, Arizona; consisting of approximately 788 acres.
 13. Colorado River Nature Center Wildlife Area: The Colorado River Nature Center Wildlife Area is Section 10 of T19N, R22W, bordered by the Fort Mojave Indian Reservation to the west, the Colorado River to the north, and residential areas of Bullhead City to the south and east, G&SRB&M, Mohave County, Arizona.
 14. Fool Hollow Lake Wildlife Area: The Fool Hollow Lake Wildlife Area shall be that area lying in those portions of the S1/2 of Section 7 and of the N1/2N1/2 of Section 18, T10N, R22E, G&SRB&M, described as follows: beginning at a point on the west line of the said Section 7, a distance of 990 feet south of the W1/4 corner thereof; thence S 86°12' E a distance of 2533.9 feet; thence S 41°02' E a distance of 634.7 feet; thence east a distance of 800 feet; thence south a distance of 837.5 feet, more or less to the south line of the said Section 7; thence S 89°53' W along the south line of Section 7 a distance of 660 feet; thence S 0°07' E a distance of 164.3 feet; thence N 89°32' W a distance of 804.2 feet; thence N 20°46' W a distance of 670 feet; thence S 88°12' W a distance of 400 feet; thence N 68°04' W a distance of 692 feet; thence S 2°50' W a distance of 581 feet; thence N 89°32' W a distance of 400 feet; thence N 12°40' W a distance of 370.1 feet, more or less, the north line of the SW1/4SW1/4SW1/4 of said Section 7; thence west a distance of 483.2 feet, more or less, along said line to the west line of Section 7; thence north to the point of beginning.
 15. House Rock Wildlife Area: House Rock Wildlife Area is that area described as follows: beginning at the common 1/4 corner of Sections 17 and 20, T36N, R4E; thence east along the south Section lines of Sections 17, 16, 15, 14, 13 T36N, R4E, and Section 18, T36N, R5E, to the intersection with the top of the southerly escarpment of Bedrock Canyon; thence southeasterly along the top of said escarpment to the top of the northerly escarpment of Fence Canyon; thence along the top of said north escarpment to its intersection with the top of the southerly escarpment of Fence Canyon; thence northeasterly along the top of said southerly escarpment to its intersection with the top of the escarpment of the Colorado River; thence southerly along top of said Colorado River escarpment to its intersection with Boundary Ridge in Section 29, T34N, R5E; thence westerly along Boundary Ridge to its intersection with the top of the escarpment at the head of Saddle Canyon; thence northerly along the top of the westerly escarpment to its intersection with a line beginning approximately at the intersection of the Cockscomb and the east fork of South Canyon extending southeast to a point approximately midway between Buck Farm Canyon and Saddle Canyon; thence northwest to the bottom of the east fork of South Canyon in the SW1/4SW1/4 of Section 16, T34N, R4E; thence northerly along the west side of the Cockscomb to the bottom of North Canyon in the SE1/4 of Section 12, T35N, R3E; thence northeasterly along the bottom of North Canyon to a point where the slope of the land becomes nearly flat; thence northerly along the westerly edge of House Rock Valley to the point of beginning; all in G&SRB&M, Coconino County, Arizona.
 16. Jacques Marsh Wildlife Area: The Jacques Marsh Wildlife Area is that area within the fenced and posted portions of the SE1/4, SW1/4SW1/4NE1/4, SE1/4NW1/4, SW1/4NW1/4, Section 11; and NE1/4NW1/4, NW1/4NE1/4, NE1/4NE1/4, Section 14; T9N, R22E, G&SRB&M, Navajo County, Arizona.
 17. Lamar Haines Wildlife Area: The Lamar Haines Wildlife Area is that area described as: T22N, R6E, Section 12 NW1/4, G&SRB&M, Coconino County, Arizona.
 18. Lower San Pedro River Wildlife Area: The Lower San Pedro River Wildlife Area shall be those areas described as follows:
For the Triangle Bar Ranch Property: Parcel 1: that portion of the SE1/4 of Section 22, T7S, R16E, G&SRB&M, Pinal County, Arizona, more particularly described as follows: beginning at the southeast corner of Section 22, to a point being a 2.5" Aluminum Cap stamped PLS 35235; thence N 00°38'57" W along the east line of the SE1/4 of

Section 22 a distance of 2626.86 feet to a point being the E1/4 corner of Section 22 a 2.5" Aluminum Cap stamped PLS 35235; thence S 89°00'32" W along the north line of the SE1/4 of Section 22 a distance of 1060.80 feet to a point being a 1/2" Iron Pin tagged PLS 35235; thence S 12°30'55" E a distance of 673.56 feet to a point being a 1/2" Iron Pin tagged PLS 35235; thence S 36°31'44" E a distance of 491.55 feet to a point being a 1/2" Iron Pin tagged PLS 35235; thence S 89°00'32" W a distance of 689 feet to a point being a 1/2" Iron Pin tagged PLS 35235; thence N 00°31'09" W a distance of 400.00 feet to a point being a 1/2" Iron Pin tagged PLS 35235; thence S 89°00'32" W a distance of 1320.00 feet to a point on the west line of the SE1/4 of Section 22 to a point being a 1/2" Iron Pin tagged PLS 35235; thence S 00°31'09" E a distance of 1454.09 feet to a point being a 1/2" Iron Pin tagged PLS 35235; thence N 88°51'39" E a distance of 1387.86 feet to a point being a 1/2" Iron Pin tagged PLS 35235; thence S 53°14'11" E a distance of 322.56 feet to a point being a 1/2" Iron Pin tagged PLS 35235; thence S 01°05'49" W a distance of 321.71 feet to a point being a 1/2" Iron Pin tagged PLS 35235; thence N 88°51'39" E along said South line of Section 22 a distance of 1011.31 feet to the point of beginning; containing 110.65 acres, more or less. Parcel 2: that portion of Sections 23 T7S, R16E of G&SRB&M, Pinal County, Arizona, more particularly described as follows: beginning at the point on the south line of Section 23, which point is 720 feet east of the southwest corner of Section 23, said point being a 1/2" Iron Pin tagged PLS 35235; thence N 23°45'32" W a distance of 1833.68 feet (N 22°28'00" W a distance of 1834 feet, record) to a point being a 1/2" Iron Pin tagged PLS 35235 on the west line of Section 23; thence S 00°38'57" E a distance of 1691.03 feet (south, record) to the southwest corner of Section 23 to a point being a 2.5" Aluminum Cap stamped PLS 35235; thence along the south line of Section 23 N 89°02'45" E a distance of 720.00 feet (east, a distance of 720.00 feet, recorded) to the point of beginning; containing 13.98 acres, more or less. Parcel 3: lots 2 and 3, and the NE1/4NW1/4, SE1/4NW1/4, and NE1/4SW1/4 of Sections 18 T7S, R16E of G&SRB&M, Pinal County, Arizona, more particularly described as follows: commencing at the northwest corner of Section 18, said point being a GLO B.C. stamped Sec 18 CC; thence S 89°47'17" E along the north line of Section 18, a distance of 1271.33 feet to a point being a 1/2" Iron Pin tagged PLS 35235, and being the point of beginning, said point is the northwest corner of the NE1/4NW1/4; thence S 89°47'17" E a distance of 1320.00 feet to a point being the N1/4 corner of Section 18, to a point being a found stone marked 1/4; thence S 01°35'23" E a distance of 4020.67 feet to a point being a found 1/2" Iron Pin with added tag of PLS 35235 to a point being the southeast corner or the NE1/4SW1/4 of Section 18; thence N 89°37'16" W a distance of 2610.28 feet to a point on the west line of Section 18 to a point being a 1/2" Iron Pin tagged PLS 35235, to a point being the southwest corner of Lot 3; thence N 01°17'05" W along the west line of Section 18, a distance of 1360.825 feet to a point being the W1/4 corner of Section 18, to a point being a found stone marked 1/4; thence N 01°20'34" W along the west line of Section 18 a distance of 1325.845 feet to a point being a 1/2" Iron Pin tagged PLS 35235, to a point being the northwest corner of Lot 2; thence S 89°32'47" E a distance of 1279.09 feet to a point being a found 1/2" Iron Pin with added tag of PLS 35235 approx-

imately 0.8 feet down from natural grade, to a point being the northeast corner of Lot 2; thence N 01°40'11" W along the west line of the NE1/4NW1/4 of Section 18, a distance of 1331.47 feet to a point on the north line of Section 18 and the point of beginning; containing 200.78 acres, more or less. Parcel 4: lots 3, 4, 5, 6, and 7 of Section 9, T7S, R16E, of G&SRB&M, Pinal County, Arizona more particularly described as follows: beginning at the S1/4 corner of said Section 9, to a point being a 1.5" Open Iron Pipe with added tag PLS 35235; thence N 00°00'03" E along the north-south midsection line a distance of 2641.16 feet (N 00°38'48" E a distance of 2641.20 feet, record) to the center section of Section 9 to a point being a 1/2" Iron Pin tagged PLS 35235; thence continuing N 00°00'03" E along the north-south midsection line, a distance of 1349.83 feet (N 00°38'48" E a distance of 1349.83 feet, record) to the northeast corner of Lot 5 to a point being a found 1/2" Iron Pin with added tag PLS 35235; thence S 89°09'38" W along the north line of Lot 5 a distance of 1346.80 feet (S 89°44'19" W a distance of 1347.21 feet, record) to a point being a 1/2" Iron Pin tagged PLS 35235, and the northwest corner of Lot 5 and the southeast corner of Lot 3; thence N 00°58'35" E along the east line of Lot 3 a distance of 1357.74 feet (N 00°37'27" E a distance of 1357.74 feet, record) to a point being a 1/2" Iron Pin tagged PLS 35235 and the northeast corner of Lot 3; thence N 89°24'33" W along the north line of Lot 3 a distance of 1323.90 feet (N 89°56'37" W a distance of 1323.945 feet, record) to the northwest corner of Section 9 to a point being a found Drill Steel with added tag PLS 35235; thence S 01°56'29" W along the west line of Section 9 a distance of 712.90 feet to a point on the west boundary line of Old Camp Grant and to a point being a 1/2" Iron Pin tagged PLS 35235; thence S 23°03'26" E along said west boundary line of Old Camp Grant, a distance of 5011.05 feet to a point on the south line of Section 9 to a point being a 1/2" Iron Pin tagged PLS 35235; thence N 89°13'21" E along the south line of Section 9 a distance of 709.50 feet (N 89°51'39" E a distance of 709.50 feet, record) to the point of beginning; containing 181.71 acres, more or less. Together with those parts of Sections 15 and 22, T7S, R16E, of G&SRB&M, Pinal County, Arizona, more particularly described as follows: beginning at a point being a 1/2" Iron Pin tagged PLS 35235, N 89°00'32" E along the south line of the NE1/4 of Section 22, a distance of 2251.00 feet (east a distance of 2251 feet, record) of the center section corner of Section 22; thence N 47°16'51" W a distance of 1275.05 feet (N 46°47'00" W a distance of 1275.00 feet, record) to a point being a 1/2" Iron Pin tagged PLS 35235; thence N 79°57'00" W a distance of 1344.00 feet (N 7°27'00" W a distance of 1344.00 feet, record) to a point being a 1/2" Iron Pin tagged PLS 35235; thence N 65°05'02" W a distance of 399.00 feet (N 59°46'00" W a distance of 399.00 feet, record) to a point being a 1/2" Iron Pin tagged PLS 35235; thence N 17°49'24" W a distance of 1382.47 feet (N 17°34'00" W a distance of 1385.00 feet, record) to a point on the Section line between Sections 15 and 22 to a point being a 1/2" Iron Pin tagged PLS 35235; thence N 21°43'45" W a distance of 1408.97 feet (N 20°49'00" W a distance of 1412.00 feet, record) to a point being a 1/2" Iron Pin tagged PLS 35235 and the Center corner of the SW1/4 of Section 15; thence S 01°06'32" W along the west line of the SE1/4SW1/4 of Section 15, a distance of 1317.07 feet (south, record) to a point on the south line of Section 15

and the southwest corner of the SE1/4SW1/4 of Section 15 to a point being a 1/2" Iron Pin tagged PLS 35235; thence S 00°27'15" E along the west line of the E1/2NW1/4 of Section 22, a distance of 2637.50 feet (south, record) to a point on the south line of the NW1/4 of Section 22 and the southwest corner of the E1/2NW1/4 of Section 22 to a point being a 1/2" Iron Pin tagged PLS 35235; thence N 89°00'56" E along said south line of the NW1/4 of Section 22 a distance of 1320.895 feet (east, record) to the center section corner of Section 22 to a point being a found 2.5" Aluminum Cap stamped C1/4 PLS 35235; thence N 89°00'32" E along the south line of the NE1/4 of Section 22 a distance of 2251.00 feet (east, record) to the point of beginning; containing 110.28 acres, more or less. Parcel 5: those parts of Sections 26 and 35 T7S, R16E of G&SRB&M, Pinal County, Arizona, more particularly described as follows: beginning at a point N 89°31'56" E a distance of 571.74 feet (record 572 a distance of feet east) of the center section of Section 35 said point being a 1/2" Iron Pin tagged PE 9626; thence N 16°07'19" W a distance of 1369.92 feet (N 15°44'00" W a distance of 1371 feet, record) to a point being a Power Pole tagged PLS 35235; thence N 46°55'33" W a distance of 279.77 feet (N 45°00'00" W a distance of 283.00 feet, record) to the center of a 6" hollow iron fence post filled with concrete approximately 6 feet tall, tagged PLS 35235; thence N 79°45'23" W a distance of 500.00 feet (N 80°00'00" W a distance of 500.00 feet, record) to the center of a 6" hollow iron fence post filled with concrete approximately 6 feet tall, tagged PLS 35235; thence N 21°10'05" W a distance of 1104.18 feet (N 20°38'00" W a distance of 1104.00 feet, record) to a point being a 1/2" Iron Pin tagged PLS 35235, said point being a distance of 3.55 feet south of the north line of Section 35; thence N 07°46'25" E a distance of 1334.00 feet (N 08°08'00" E a distance of 1334.00 feet, record) to a point being a 1/2" Iron Pin tagged PLS 35235; thence S 89°37'04" W a distance of 630.00 feet (west, a distance of 630.00 feet, record) to a point being a found 1/2" Iron Pin with added tag PLS 35235; thence N 01°11'34" W a distance of 1314.34 feet (north a distance of 1320.00 feet, record) to a point being a 1/2" Iron Pin tagged PLS 35235, said point being on the north line of the SW1/4; thence along the north line of the SW1/4 N 89°18'34" E a distance of 282.00 feet (east a distance of 282.00 feet, record) to a point being a 1/2" Iron Pin tagged PLS 35235, said point being S 89°18'34" W a distance of 992.74 from the center section corner of Section 26; thence N 13°48'15" W a distance of 1351.04 feet (N 13°40'00" W a distance of 1358.00 feet, record) to a point on the north line of the SE1/4NW1/4 of Section 26 to a point being a 1/2" Iron Pin tagged PLS 35235, said point being N 89°10'39" E a distance of 26.52 feet from the northwest corner of the SE1/4NW1/4 of Section 26; thence N 26°31'53" W a distance of 1458.00 feet (N 23°43'00" W a distance of 1442.00 feet, record) to a point being a 1/2" Iron Pin tagged PLS 35235, that is on the north line of Section 26 said point being N 89°02'45" E along the north line of Section 26, a distance of 720.00 feet from the northwest corner of Section 26; thence N 23°45'32" W a distance of 1833.68 feet (N 22°28'00" W a distance of 1834.00 feet, record) to a point being a 1/2" Iron Pin tagged PLS 35235, said point being on the west line of Section 23; thence S 00°38'57" E along the west line of Section 23, a distance of 1690.37 feet (south, record) to the southwest corner of Section 23 and north-

west corner of Section 26 to a point being a 2.5" Aluminum Cap stamped PLS 35235; thence continuing S 01°16'16" E along the west line of Section 26 a distance of 2625.56 feet (south a distance of 2640.00 feet, record) to the W1/4 corner of Section 26 to a point being a 2.5" Aluminum Cap stamped PLS 35235; thence S 01°16'16" E along the west line of Section 26, a distance of 2625.56 feet (south a distance of 2640.00 feet, record) to the southwest corner of Section 26 and northwest corner of Section 35 to a point being a 2.25" Capped Iron Pipe stamped with added tag PLS 35235; thence S 00°45'30" E along the west line of Section 35, a distance of 1317.94 feet (south a distance of 1320.00 feet, record) to a point being a 2.5" Capped Iron Pipe stamped with added tag PLS 35235, said point being the southwest corner of the N1/2NW1/4 of Section 35; thence N 89°41'45" E along the south line of the N1/2NW1/4 of Section 35, a distance of 2630.87 feet (east a distance of 2644.00 feet, record) to a point being an Oblong Iron Pin with added tag PLS 35235 said point being the southeast corner of the N1/2NW1/4 of Section 35; thence S 01°11'23" E a distance of 1319.08 (south a distance of 1320.00 feet, record) to a point being an Oblong Iron Pin, with added tag PLS 35235, said point being the center section corner of Section 35; thence N 89°31'56" E along the south line of the NE1/4 of Section 35 a distance of 571.74 feet (east a distance of 572.00 feet, record) to the point of beginning; excepting therefrom any portion of said lands lying and within Section 23, T7S, R16E, G&SRB&M; CONTAINING containing 249.46 acres, more or less. Parcel 6: that portion of Section 1, T8S, R16E of G&SRB&M, Pinal County, Arizona, more particularly described as follows: beginning at a point N 88°25'39" E a distance of 507.07 feet (east a distance of 510 feet record) of the southwest corner of the SE1/4SW1/4 of Section 1 said point being a 1/2" Iron Pin tagged RLS 10046; thence N 18°38'44" E a distance of 1399.18 feet (record N 19°41' E a distance of 1402 feet) to a point being a 1/2" Iron Pin tagged PLS 35235; thence N 03°51'10" W a distance of 1314.74 feet (record N 02°44' W a distance of 1321 feet) to a point being a 1/2" Iron Pin tagged RLS 10046; thence S 88°45'59" W a distance of 918.71 feet (record west, a distance of 919 feet) to a point being a 1/2" Iron Pin tagged RLS 10046; thence N 01°02'04" W a distance of 977.00 feet (record north a distance of 977 feet) to a point being a 1/2" Iron Pin tagged PLS 35235; thence N 72°26'42" W a distance of 1384.43 feet (record N 71°22' W a distance of 1393 feet) to a point on the west line of Section 1 to a point being a 1/2" Iron Pin PLS 35235; thence S 01°07'43" E along the west line of Section 1, a distance of 1422.00 feet (record south a distance of 1412 feet) to the W1/4 corner of Section 1, said point being a 2.5" Aluminum Cap stamped PLS 35235; thence continuing S 01°07'43" E along the west line of Section 1, a distance of 1320.00 feet (record south a distance of 1320 feet) to the southwest corner of the NW1/4SW1/4 of Section 1 to a point being a 1/2" Iron Pin tagged PLS 35235; thence N 88°37'29" E a distance of 1311.56 feet (record east to the southwest corner of the NE1/4SW1/4) to the southwest corner of the NE1/4SW1/4 of Section 1 to a point being a 1/2" Iron Pin tagged PLS 35235; thence S 01°05'24" E a distance of 1316.31 feet (record, south a distance of 1320 feet) to the southwest corner of the SE1/4SW1/4 of Section 1 to a point being a 1/2" Iron Pin tagged PLS 35235; thence N 88°25'39" E a distance of 507.07 feet (record, east a distance of 510 feet) to the point of beginning; con-

Game and Fish Commission

- taining 126.84 acres, more or less. For the ASARCO Property: Parcel 1: Section 15: the W1/2SE1/4 and E1/2SW1/4 of Section 15, T7S, R16E of G&SRB&M, Pinal county, Arizona; except that portion of land situated in Government Lot 9 lying west of the center line of the San Pedro River, said portion being APN 300-35-002. Section 22: That portion of the NE1/4NW1/4 and the NE1/4 of Section 22 T7S, R16E of G&SRB&M, Pinal County, Arizona, lying east of the San Pedro River. Section 23: that portion of the SW1/4 of Section 23, T7S, R16E of G&SRB&M, Pinal County, Arizona, lying east of the San Pedro River. Section 26: that portion of the N1/2NW1/4 of Section 26, T7S, R16E of G&SRB&M, Pinal County, Arizona, lying east of the San Pedro River. Parcel 2: Section 15: Government Lots 1, 2, 3, 4, 5, 6, and 7 of Section 15, T7S, R16E of G&SRB&M, Pinal County, Arizona. Parcel 3: Section 4: Government Lots 5, 8, 9, 11, 12, and 13 of Section 4 except that portion of land situated in Government Lot 13 lying east of State Highway 77 right-of-way, said portion of land being APN 300-31-005B. Section 5: Government Lots 2, 3, 4 and 5, except that portion of land situated in Government Lot 2, more particularly described as follows: beginning at the northeast corner of said Lot 2; thence along the east boundary of said Lot 2 due south 599.94 feet; thence leaving said east boundary due west 283.27 feet to the County Rd. right-of-way (El Camino Rd.); thence along said County Rd. right-of-way N 04°18'56" E a distance of 95.16 feet; thence continuing along said County Rd. right-of-way N 16°30'21" E a distance of 384.05 feet; thence continuing along said County Rd. right-of-way N 14°33'05" E a distance of 141.35 feet to the north boundary of said County Rd. right-of-way due east a distance of 131.48 feet along the north boundary of Government Lot 1 to the point of beginning.
19. Luna Lake Wildlife Area: The Luna Lake Wildlife Area shall be the fenced, buoyed, and posted area lying north of U.S. Highway 180 T5N, R31E, Section 17 N1/2, G&SRB&M, Apache County, Arizona.
 20. Mitty Lake Wildlife Area: The Mitty Lake Wildlife Area shall be those areas described as follows: T6S, R21W, Section 31: All of Lots 1, 2, 3, 4, E1/2W1/2, and that portion of E1/2 lying westerly of Gila Gravity Main Canal Right-of-Way; T7S, R21W; Section 5: that portion of SW1/4SW1/4 lying westerly of Gila Gravity Main Canal Right-of-Way; Section 6: all of Lots 2, 3, 4, 5, 6, 7 and that portion of Lot 1, S1/2NE1/4, SE1/4 lying westerly of Gila Gravity Main Canal R/W; Section 7: all of Lots 1, 2, 3, 4, E1/2W1/2, W1/2E1/2, and that portion of E1/2E1/2 lying westerly of Gila Gravity Main Canal R/W; Section 8: that portion of W1/2W1/2 lying westerly of Gila Gravity Main Canal R/W; Section 18: all of Lots 1, 2, 3, 4, E1/2NW1/4, and that portion of NE1/4, E1/2SW1/4, NW1/4SE1/4 lying westerly of Gila Gravity Main Canal R/W; T6S, R22W; Section 36: all of Lot 1. T7S, R22W; Section 1: all of Lot 1; Section 12: all of Lots 1, 2, SE1/4SE1/4; Section 13: all of Lots 1, 2, 3, 4, 5, 6, 7, 8, NE1/4, N1/2SE1/4, and that portion of S1/2SE1/4 lying northerly of Gila Gravity Main Canal R/W; all in G&SRB&M, Yuma County, Arizona.
 21. Planet Ranch Conservation and Wildlife Area: The Planet Ranch Wildlife Area shall be those areas described as follows: Mohave County (Parcels 1 through 5) Parcel No. 1: the S1/2S1/2 of Section 28, T11N, R16W of the G&SRB&M, Mohave County, Arizona; except 1/16 of all oil, gases, and other hydrocarbon substances, coal, stone, metals, minerals, fossils and fertilizer of every name and description and except all materials which may be essential to production of fissionable material as reserved in Arizona Revised Statutes. Parcel No. 2: all of sections 32 and 34 T11N, R16W of the G&SRB&M, lying in Mohave County, Arizona; except 1/16 of all oil, gases, and other hydrocarbon substances, coal, stone, metals, minerals, fossils and fertilizer of every name and description and except all materials which may be essential to production of fissionable material as reserved in Arizona Revised Statutes. Parcel No. 3: the S1/2S1/2 of Section 27, T11N, R16W of the G&SRB&M, Mohave County, Arizona; except oil, gas, coal, and minerals as reserved in deed recorded in Book 64 of Deeds, Page 599, records of Mohave County, Arizona. Parcel No. 4: all of Section 33 and 35, T11N, R16W of the G&SRB&M, lying in Mohave County, Arizona; except oil, gas, coal, and minerals as reserved in deed recorded in Book 64 of Deeds, Page 599, records of Mohave County, Arizona. Parcel No. 5: the S1/2S1/2N1/2 and the S1/2 of Section 36, T11N, R16W of the G&SRB&M, lying in Mohave County, Arizona; except 1/16 of all oil, gases, and other hydrocarbon substances, coal, stone, metals, minerals, fossils and fertilizer of every name and description and except all materials which may be essential to production of fissionable material as reserved in Arizona Revised Statutes. La Paz County (Parcels 6 through 9) Parcel No. 6: that portion of the S1/2 of Lot 2, all of Lots 3, and 4, the S1/2SE1/4NW1/4 and the S1/2S1/2NE1/4 of Section 31, T11N, R16W of the G&SRB&M, lying in La Paz County, Arizona; except all oil, gas, coal, and minerals as set forth in instrument recorded in Book 57, of Dockets, Page 310. Parcel No. 7: all of Section 32, T11N, R16W of the G&SRB&M, lying in La Paz County, Arizona; except any part of Section 32 lying within the Copper Hill Mining Claim as shown on the Plat of Mineral Survey Number 2675; except that portion of the SW1/4 of Section 32, T11N, R16W of the G&SRB&M, lying in La Paz County, Arizona, described as follows: commencing at the S1/4 corner of Section 32; thence west along the south line of Section 32, a distance of 1270.58 feet to the point of beginning; thence north 634.31 feet; thence S 76°41'15" W a distance of 94.09 feet to the southeasterly line of the Planet Ranch Road; thence along said line S 28°55'W a distance of 101.23 feet; thence southwesterly 250.25 feet through an angle of 54°22', along a tangent curve concave to the northwest, having a radius of 263.73 feet to a point of tangency, from which a radial line bears N 07°05' W; thence along said line S 82°55' W a distance of 96.52 feet; thence westerly 184.42 feet through an angle of 17°40'14" along a tangent curve concave to the north, having a radius of 597.96 feet to a point of tangency from which a radial line bears N 10°35'14" E; thence N 79°24'46" W a distance of 260.38 feet; thence leaving the southwesterly line of said Planet Ranch Road, south a distance of 429.61 feet to the south line of said Section 32; thence south along said south line east a distance of 874.42 feet more or less back to the point of beginning; and except that portion of the SW1/4 of Section 32, T11N, R16W of the G&SRB&M, La Paz County, Arizona, described as follows: beginning at the S1/4 corner of Section 32; thence west along the south line of Section 32, a distance of 1270.58 feet; thence north a distance of 634.31 feet; thence S 76°41'15" W a distance of 214.08 feet; thence N 13°18'45" W a distance of 25 feet; thence N 76°41'15" E a distance of 220 feet; thence east a dis-

- tance of 1270.58 feet; thence south a distance of 660 feet back to the point of beginning. Parcel No. 8: those portions of Sections 33, 34, and 35, T11N, R16W of the G&SRB&M, lying in La Paz County, Arizona; except an undivided 1/16 of all oil, gases, and other hydrocarbon substances, coal or stone, metals, minerals, fossils and fertilizer of every name and description, together with all uranium, thorium, or any other material which is or may be determined by the laws of the production of fissionable materials, whether or not of commercial value, as reserved by the State of Arizona in Section 37-231, Arizona Revised Statutes, and in patent of record (Section 34); also except all oil, gas, coal, and minerals as set forth in instrument recorded in Book 57 of Dockets, Page 310 (Section 33 and 35). Parcel No. 9: the S1/2S1/2N1/2 and the S1/2 of Section 36, T11N, R16W of the G&SRB&M, lying in La Paz County, Arizona; except an undivided 1/16 of all oil, gases, and other hydrocarbon substances, coal or stone, metals, minerals, fossils and fertilizer of every name and description, together with all uranium, thorium, or any other material which is or may be determined by the laws of the production of fissionable materials, whether or not of commercial value, as reserved by the State of Arizona in Section 37-231, Arizona Revised Statutes, and in patent of record.
22. Powers Butte (Mumme Farm) Wildlife Area: The Powers Butte Wildlife Area shall be that area described as follows:
T1S, R5W, Section 25, N1/2SW1/4, SW1/4SW1/4; Section 26, S1/2; Section 27, E1/2SE1/4; Section 34. T2S, R5W Section 3, E1/2W1/2, W1/2SE1/4, NE1/4SE1/4, NE1/4; Section 10, NW1/4, NW1/4NE1/4; Section 15, SE1/4SW1/4; Section 22, E1/2NW1/4, NW1/4NW1/4; all in G&SRB&M, Maricopa County, Arizona.
 23. Quigley-Achee Wildlife Area: The Quigley-Achee Wildlife Area shall be those areas described as follows:
T8S, R17W; Section 13, W1/2SE1/4, SW1/4NE1/4, and a portion of land in the W1/2 of Section 13, more particularly described as follows: beginning at the S1/4 corner; thence S 89°17'09" W along the south line of said Section 13 a distance of 2627.50 feet to the southwest corner of said Section 13; thence N 41°49'46" E a distance of 3026.74 feet; thence N 0°13'30" W a distance of 1730.00 feet to a point on the north 1/16th line of said Section 13; thence N 89°17'36" E along said north 1/16th line a distance of 600.00 feet to the center of said Section 13; thence S 0°13'30" E. along the north-south midsection line a distance of 3959.99 feet to the point of beginning. Section 23, SE1/4NE1/4, and a portion of land in the NE1/4NE1/4 of Section 23, more particularly described as follows: beginning at the northeast corner; thence S 0°10'19" E along the east line of said Section 23, a distance of 1326.74 feet to a point on the south line of the NE1/4NE1/4 of said Section 23; thence S 89°29'58" W along said south line, a distance of 1309.64 feet; thence N 44°17'39" E a distance of 1869.58 feet to the point of beginning. Section 24, NW1/4, N1/2SW1/4, W1/2NE1/4; all in G&SRB&M, Yuma County, Arizona.
 24. Raymond Wildlife Area: The Raymond Wildlife Area is that area described as follows: All of Sections 24, 25, 26, 34, 35, 36, and the portions of Sections 27, 28, and 33 lying east of the following described line: beginning at the W1/4 corner of Section 33; thence northeasterly through the 1/4 corner common to Sections 28 and 33, 1/4 corner common to Sections 27 and 28 to the N1/4 corner of Section 27 all in T19N, R11E. All of Sections 15, 16, 17, 19, 20, 21, 22, 27, 28, 29, 30, 31, 32, 33, and 34 all in T19N, R12E.; all in G&SRB&M, Coconino County, Arizona.
 25. Robbins Butte Wildlife Area: The Robbins Butte Wildlife Area shall be those areas described as follows:
T1S, R3W, Section 17, S1/2NE1/4, SE1/4, NW1/4SW1/4; Section 18, Lots 3, 4, and E1/2SW1/4, S1/2NE1/4, W1/2SE1/4, NE1/4SE1/4. T1S, R4W, Section 13, all except that portion of W1/2SW1/4SW1/4 lying west of State Route 85; Section 14, all except the W1/2NW1/4 and that portion of the SW1/4 lying north of the Arlington Canal; Section 19, S1/2SE1/4; Section 20, S1/2S1/2, NE1/4SE1/4; Section 21, S1/2, S1/2NE1/4, SE1/4NW1/4; Section 22, all except for NW1/4NW1/4; Section 23; Section 24, that portion of SW1/4, W1/2SW1/4NW1/4 lying west of State Route 85; Section 25, that portion of the NW1/4NW1/4 lying west of State Route 85; Section 26, NW1/4, W1/2NE1/4, NE1/4NE1/4; Section 27, N1/2, SW1/4; Section 28; Section 29, N1/2N1/2, SE1/4NE1/4; Section 30, Lots 5, 6, 7, 8, NE1/4, SE1/4SE1/4; all in G&SRB&M, Maricopa County, Arizona.
 26. Roosevelt Lake Wildlife Area: The Roosevelt Lake Wildlife Area is that area described as follows: beginning at the junction of A-Cross Rd. and Arizona Highway 188; south on Arizona Highway 188 to the main entrance of Roosevelt Lake Marina; northeast on this road towards the main marina launch; northeast across Roosevelt Lake to the south tip of Bass Point; northerly to Long Gulch Rd.; northeast on this road to the A-Cross Rd.; northwest on the A-Cross Rd. to the point of beginning; all in G&SRB&M, Gila County, Arizona.
 27. Santa Rita Wildlife Area: The Santa Rita Experimental Range is that area described as follows: Concurrent with the Santa Rita Experimental Range boundary and includes the posted portion of the following sections: Sections 33 through 36, T17S, R14E, Section 25, Section 35 and Section 36, T18S, R13E, Sections 1 through 4, Sections 9 through 16, and Sections 21 through 36, T18S, R14E, Sections 3 through 9, Sections 16 through 21, Sections 26 through 34, T18S, R15E, Sections 1 through 6, Sections 9 through 16, Section 23, T19S, R14E, Sections 3 through 10, Sections 16 through 18, T19S, R15E; all in G&SRB&M, Pima County, Arizona, and all being coincidental with the Santa Rita Experimental Range Area.
 28. Sipe White Mountain Wildlife Area: The Sipe White Mountain Wildlife Area shall be those areas described as follows:
T7N, R29E, Section 1, SE1/4, SE1/4NE1/4, S1/2NE1/4NE1/4, SE1/4SW1/4NE1/4, NE1/4SE1/4SW1/4, and the SE1/4NE1/4SW1/4. T7N, R30E, Section 5, W1/2W1/2SE1/4SW1/4, and the SW1/4SW1/4; Section 6, Lots 1, 2, 3, 7, and 8, SW1/4NW1/4NW1/4, S1/2NW1/4NE1/4SE1/4, N1/2SE1/4SE1/4, E1/2SE1/4SE1/4SE1/4, SW1/4SE1/4 and the SE1/4SW1/4; Section 7, Parcel 10: Lots 1 and 2, E1/2NW1/4, E1/2E1/2NE1/4NE1/4, W1/2SW1/4NE1/4, NW1/4SE1/4, W1/2NE1/4SE1/4, NE1/4SW1/4, E1/2NW1/4SW1/4, and the NW1/4NE1/4; Section 8, NW1/4NW1/4, and the W1/2W1/2NE1/4NW1/4. T8N, R30E; Section 31, SE1/4NE1/4, SE1/4, and the SE1/4SW1/4; all in G&SRB&M, Apache County, Arizona.
 29. Springerville Marsh Wildlife Area: The Springerville Marsh Wildlife Area shall be those areas described as follows: S1/2 SE1/4 Section 27 and N1/2 NE1/4 Section 34, T9N, R29E, G&SRB&M, Apache County, Arizona.
 30. Sunflower Flat Wildlife Area: The Sunflower Flat Wildlife Area shall be those areas described as follows:

Game and Fish Commission

- T20N, R3E; Section 11, NE1/4SE1/4, N1/2NW1/4SE1/4, SE1/4NW1/4SE1/4, NE1/4SE1/4SE1/4, W1/2SE1/4NE1/4, S1/2SE1/4SE1/4NE1/4, E1/2SW1/4NE1/4; Section 12, NW1/4SW1/4SW1/4, NW1/4NE1/4SW1/4SW1/4, SW1/4NW1/4SW1/4, S1/2NW1/4NW1/4SW1/4, W1/2SE1/4NW1/4SW1/4, SW1/4NE1/4NW1/4 SW1/4; all in the G&SRB&M, Coconino County, Arizona.
31. Three Bar Wildlife Area: The Three Bar Wildlife Area shall be that area described as follows: beginning at Roosevelt Dam, northwesterly on 188 to milepost 252 (Bumble Bee Wash); westerly along the boundary fence for approximately 7 1/2 miles to the boundary of Gila and Maricopa counties; southerly along this boundary through Four Peaks to a fence line south of Buckhorn Mountain; southerly along the barbed wire drift fence at Ash Creek to Apache Lake; northeasterly along Apache Lake to Roosevelt Dam.
 32. Tucson Mountain Wildlife Area: The Tucson Mountain Wildlife Area shall be that area described as follows: beginning at the northwest corner of Section 33; T13S, R11E on the Saguaro National Monument boundary; due south approximately one mile to the El Paso Natural Gas Pipeline; southeast along this pipeline to Sandario Rd.; south on Sandario Rd. approximately two miles to the southwest corner of Section 15; T14S, R11E, east along the section line to the El Paso Natural Gas Pipeline; southeast along this pipeline to its junction with State Route 86, also known as the Ajo Highway; easterly along this highway to the Tucson city limits; north along the city limits to Silverbell Rd.; northwest along this road to Twin Peaks Rd.; west along this road to Sandario Rd.; south along this road to the Saguaro National Monument boundary; west and south along the monument boundary to the point of beginning, all in G&SRB&M, Pima County, Arizona.
 33. Upper Verde River Wildlife Area: The Upper Verde River Wildlife Area consists of eight parcels totaling 1102.54 acres located eight miles north of Chino Valley in Yavapai County, Arizona, along the upper Verde River and lower Granite Creek described as follows:
Sullivan Lake: located immediately downstream of Sullivan Lake, the headwaters of the Verde River: the NE1/4NE1/4 lying east of the California, Arizona, and Santa Fe Railway Company right-of-way in Section 15, T17N, R2W; and also the NW1/4NE1/4 of Section 15 consisting of approximately 80 acres. Granite Creek Parcel: includes one mile of Granite Creek to its confluence with the Verde River: The SE1/4SE1/4 of Section 11; the NW1/4SW1/4 and SW1/4NW1/4 of Section 13; the E1/2NE1/4 of Section 14; all in T17N, R1W consisting of approximately 239 acres. E1/2SW1/4SW1/4, SE1/4SW1/4, NE1/4SW1/4 and NW1/4SE1/4 of Section 12, NW1/4NW1/4 of Section 13, T17N, R2W consisting of approximately 182.26 acres. Campbell Place Parcel: NE1/4NW1/4, NW1/4NE1/4, NE1/4NE1/4, SE1/4NW1/4, SW1/4NE1/4, SE1/4NE1/4, NE1/4SW1/4, NW1/4SE1/4, NE1/4SE1/4, NW1/4SW1/4, NE1/4SW1/4, and NW1/4SE1/4 in Section 7, T17N, R1W and SE1/4SE1/4 Section 12, T17N, R2W consisting of 315 acres. Tract 39 Parcel: the E1/2 of Tract 39 within the Prescott National Forest boundary, SE1/2SW1/4 and SW1/4SE1/4 of Section 5, T18N, R1W; and the W1/2 of Tract 39 outside the Forest boundary, SW1/4SW1/4, and SW1/4SW1/4 of Section 5 and NW1/4NW1/4 of Section 8, T18N, R1W consisting of approximately 163 acres. Wells Parcels: Parcel 1 and Parcel 2: all that portion of Government Lots 9 and 10, Section 7, along with Lot 3 and the SW1/4NW1/4, Section 8, located in T17N, R1W, of G&SRB&M, Yavapai County, Arizona, also known as APN 306-39-004L and 306-39-004M. Parcel 3 and Parcel 4: all that portion of the NE1/4SW1/4, NW1/4SE1/4, SW1/4SW1/4, and E1/2SW1/4SW1/4 of Section 12 and the NW1/4NW1/4 of Section 13, T17N, R2W, of G&SRB&M, Yavapai County, Arizona.
 34. Wenima Wildlife Area: The Wenima Wildlife Area shall be those areas described as follows:
T9N, R29E; Section 5, SE1/4 SW1/4, and SW1/4 SE1/4 except E1/2 E1/2 SW1/4 SE1/4, Section 8, NE1/4 NW1/4, and NW1/4 NE1/4; Sections 8, 17 and 18, within the following boundary: From the 1/4 corner of Sections 17 and 18, the True Point of Beginning; thence N 00°12'56" E a distance of 1302.64 feet along the Section line between Sections 17 and 18 to the N1/16 corner; thence N 89°24'24" W a distance of 1331.22 feet to the NE1/16 corner of Section 18; thence N 00°18'02" E a distance of 1310.57 feet to the E1/16 corner of Sections 7 and 18; thence S 89°03'51" E a distance of 1329.25 feet to the northeast Section corner of said Section 18; thence N 01°49'10" E a distance of 1520.28 feet to a point on the Section line between Sections 7 and 8; thence N 38°21'18" E a distance of 370.87 feet; thence N 22°04'51" E a distance of 590.96 feet; thence N 57°24'55" E a distance of 468.86 feet to a point on the east-west midsection line of said Section 8; thence N 89°38'03" E a distance of 525.43 feet along said midsection line to the center W1/16 corner; thence S 02°01'25" W a distance of 55.04 feet; thence S 87°27'17" E a distance of 231.65 feet; thence S 70°21'28" E a distance of 81.59 feet; thence N 89°28'36" E a distance of 111.27 feet; thence N 37°32'54" E a distance of 310.00 feet; thence N 43°58'37" W a distance of 550.00 feet; thence N 27°25'53" W a distance of 416.98 feet to the NS1/16 line of said Section 8; thence N 02°01'25" E a distance of 380.04 feet along said 1/16 line to the NW1/16 corner of said Section 8; thence N 89°45'28" E a distance of 1315.07 feet along the east-west middle 1/16 line; thence S 45°14'41" E a distance of 67.69 feet; thence S 49°28'18" E a distance of 1099.72 feet; thence S 08°04'43" W a distance of 810.00 feet; thence S 58°54'47" W a distance of 341.78 feet; thence S 50°14'53" W a distance of 680.93 feet to a point in the center of that cul-de-sac at the end of Jeremy's Point Rd.; thence N 80°02'20" W a distance of 724.76 feet, said point lying N 42°15'10" W a distance of 220.12 feet from the northwest corner of Lot 72; thence N 34°19'23" E a distance of 80.64 feet; thence N 15°54'25" E a distance of 51.54 feet; thence N 29°09'53" E a distance of 45.37 feet; thence N 40°09'33" E a distance of 69.21 feet; thence N 25°48'58" E a distance of 43.28 feet; thence N 13°24'51" E a distance of 63.12 feet; thence N 16°03'10" W a distance of 30.98 feet; thence N 57°55'25" W a distance of 35.50 feet; thence N 80°47'38" W a distance of 48.08 feet; thence S 87°28'53" W a distance of 82.84 feet; thence S 72°07'06" W a distance of 131.85 feet; thence S 43°32'45" W a distance of 118.71 feet; thence S 02°37'48" E a distance of 59.34 feet; thence S 23°03'29" E a distance of 57.28 feet; thence S 28°30'39" E a distance of 54.75 feet; thence S 36°39'47" E a distance of 105.08 feet; thence S 24°55'07" West a distance of 394.78 feet; thence S 61°32'16" W a distance of 642.77 feet to the northwest corner of Lot 23; thence N 04°35'23" W a distance of 90.62 feet; thence S 85°24'37" W a distance of 26.00 feet; thence N 64°21'36" W a distance of 120.76

feet; thence S 61°07'57" W a distance of 44.52 feet; thence S 39°55'58" W a distance of 80.59 feet; thence S 11°33'07" W a distance of 47.21 feet; thence S 19°53'19" E a distance of 27.06 feet; thence S 54°26'36" E a distance of 62.82 feet; thence S 24°56'25" W a distance of 23.92 feet; thence S 48°10'38" W a distance of 542.79 feet; thence S 17°13'48" W a distance of 427.83 feet to the northwest corner of Lot 130; thence S 29°10'58" W a distance of 104.45 feet to the southwest corner of Lot 130; thence southwesterly along a curve having a radius of 931.52 feet, and arc length of 417.52 feet to the southwest corner of Lot 134; thence S 15°04'25" W a distance of 91.10 feet; thence S 04°29'15" W a distance of 109.17 feet; thence S 01°41'24" W a distance of 60.45 feet; thence S 29°16'05" W a distance of 187.12 feet; thence S 14°44'00" W a distance of 252.94 feet; thence S 15°42'24" E a distance of 290.09 feet; thence S 89°13'25" E a distance of 162.59 feet; thence S 37°19'54" E a distance of 123.03 feet to the southeast corner of Lot 169; thence S 20°36'30" E a distance of 706.78 feet to the northwest corner of Lot 189; thence S 04°07'31" W a distance of 147.32 feet; thence S 29°11'19" E a distance of 445.64 feet; thence S 00°31'40" E a distance of 169.24 feet to the east-west midsection line of Section 17 and the southwest corner of Lot 194; thence S 89°28'20" W a distance of 891.84 feet along said east-west midsection line to the True Point of Beginning; all in G&SRB&M, Apache County, Arizona.

35. White Mountain Grasslands Wildlife Area: The White Mountain Grasslands Wildlife Area shall be those areas described as follows:

Parcel 1 (CL1): the S1/2 of Section 24; the N1/2NW1/4 of Section 25; the NE1/4 and N1/2SE1/4 of Section 26; all in T9N, R27E of G&SRB&M, Apache County, Arizona; except all coal and other minerals as reserved to the U.S. in the Patent of said land. Parcel 2 (CL2): the SE1/4 and the SE1/4SW1/4 of Section 31, T9N, R28E of G&SRB&M, Apache County, Arizona. Parcel 3 (CL3): the NW1/4SW1/4 of Section 28; and the SW1/4S1/2SE1/4 and NE1/4SE1/4 of T9N, R28E of G&SRB&M, Apache County, Arizona. Parcel 4 (CL4): the SW1/4SW1/4 of Section 5; the SE1/4SE1/4 of Section 6; the NE1/4NE1/4 of Section 7; the NW1/4NW1/4, E1/2SW1/4NW1/4, W1/2NE1/4, SE1/4NW1/4, and that portion of the S1/2 which lies North of Highway 260, except the W1/2SW1/4 of Section 8; all in T8N, R28E of G&SRB&M, Apache County, Arizona. Parcel 1 (O1): the S1/2N1/2 of Section 10, T8N, R28E, of G&SRB&M, Apache County, Arizona; except that Parcel of land lying within the S1/2NE1/4 of Section 10, T8N, R28E, of G&SRB&M, Apache County, Arizona, more particularly described as follows: From the N1/16 corner of Sections 10 and 11, monumented with a 5/8-inch rebar with a cap marked LS 13014, said point being the True Point of Beginning; thence N 89°44'54" W a distance of 1874.70 feet along the east-west 1/16 line to a point monumented with a 1/2-inch rebar with a tag marked LS 13014; thence S 02°26'17" W a distance of 932.00 feet to a point monumented with a 1/2-inch rebar with a tag marked LS 13014; thence S 89°44'54" E a distance of 1873.69 feet to a point monumented with a 1/2-inch rebar with a tag marked LS 13014, said point being on the east line of Section 10; thence N 02°30'00" E a distance of 932.00 feet along said Section line to the True Point of Beginning. Parcel 2 (O2): the N1/2S1/2 of Section 10, T8N, R28E, of G&SRB&M, Apache County, Arizona. Except

for that portion lying South of State Highway 260. Parcel 3 (O3): the SE1/4 of Section 25, T9N, R27E, of G&SRB&M, Apache County, Arizona. Parcel 4 (O4): lots 3 and 4; the E1/2SW1/4; W1/2SE1/4; and NE1/4SE1/4 of Section 30, T9N, R28E, of G&SRB&M, Apache County, Arizona. Parcel 5 (O5): lots 1, 2 and 3; the S1/2NE1/4; NW1/4NE1/4; E1/2NW1/4; and NE1/4SW1/4 of Section 31, T9N, R28E, of G&SRB&M, Apache County, Arizona. Parcel 6 (O6): beginning at the northwest corner of the SE1/4 of Section 27, T9N, R28E, of G&SRB&M, Apache County, Arizona; thence east a distance of 1320.00 feet; thence south a distance of 925.00 feet; thence west a distance of 320.00 feet to the center of a stock watering tub; thence N 83° W a distance of 1000.00 feet; thence north a distance of 740.00 feet to the point of beginning. State Land Special Use Permit: SE1/4SW1/4 of Section 5; E1/2NE1/4 of Section 08; NE1/4NW1/4 of Section 8; M&B in N1/2NW1/4 north of Hwy 260 of Section 17, all in T8N, R28E of the G&SRB&M, Apache County, Arizona. S1/2NW1/4 and SW1/4 of Section 26; all of Section 36, all in T9N, R27E of the G&SRB&M, Apache County, Arizona. SE1/4 lying easterly of Carnero Creek in Section 18; Lots 3 and 4, E1/2SW1/4, SE1/4, NE1/4, and SE1/4NW1/4, lying southeasterly of Carnero Creek in Section 19; NW1/4SE1/4 of Section 29, Lots 1 and 2 and NE1/4 and E1/2NW1/4 and SE1/4SE1/4 of Section 30; and Lot 4, and the NE1/4NE1/4 of Section 31; all in T9N, R28E of the G&SRB&M, Apache County, Arizona. State Grazing Lease: Legal Description of the White Mountain Grassland State Land Grazing Lease. Lots 1 thru 4, and S1/2N1/2, SW1/4, N1/2N1/2SE1/4, S SW1/4NW1/4SE1/4, and W1/2SW1/4SE1/4 of Section 3; Lots 1 thru 4, and the S1/2N1/2 and S1/2 of Section 4; SE1/4SW1/4 of Section 5; E1/2NE1/4, NE1/4NW1/4 of Section 8; SE1/4NE1/4 and N1/2N1/2 of Section 9; S1/2NE1/4NE1/4, SE1/4NW1/4NE1/4, W1/2NW1/4NE1/4, N1/2NW1/4, all in Section 10; NE1/4NW1/4 lying north of the centerline of State Highway 260, in Section 17, T8N, R28E of the G&SRB&M, Apache County; NE1/4, S1/2NW1/4, and the SW1/4 of Section 25, and all of Section 36; in T9N, R27E of the G&SRB&M, Apache County; a portion of the SE1/4 of Section 18 lying southeasterly of Carnero Creek, Lots 3 and 4, E1/2SW1/4, SE1/4, NE1/4, and SE1/4NW1/4 lying southeast of Carnero Creek in Section 19; all of Section 20 and Section 21; SW1/4NE1/4, S1/2NW1/4, and M&B in N1/2SW1/4, of Section 27; N1/2E1/2SW1/4, SW1/4SW1/4 and SE1/4 of Section 28; Lots 1 and 2, and NE1/4, E1/2NW1/4, and SE1/4SE1/4 of Section 30; Lot 4 and NE1/4NE1/4 of Section 31; all of Section 32 and Section 33, in T9N, R28E, in the G&SRB&M, Apache County. SE1/4NE1/4SE1/4 of Section 31; T09N, R28E, G&SRB&M, Apache County, Arizona.

36. White Water Draw Wildlife Area: The White Water Draw Wildlife Area shall be those areas described as follows: T21S, R26E; Section 19, S1/2 SE1/4; Section 29, W1/2 NE1/4, and E1/2 NE1/4; Section 30, N1/2 NE1/4; Section 32; T22S, R26E; Section 4, Lots 3 and 4; T22S, R26E; Section 5, Lots 1 to 4, except an undivided 1/2 interest in all minerals, oil, and/or gas as reserved in Deed recorded in Docket 209, page 117, records of Cochise County, Arizona.
37. Willcox Playa Wildlife Area: The Willcox Playa Wildlife Area shall be that area within the posted Arizona Game and Fish Department fences enclosing the following

Game and Fish Commission

described area: beginning at the Section corner common to Sections 2, 3, 10 and 11, T15S, R25E, G&SRB&M, Cochise County, Arizona; thence S 0°15'57" W a distance of 2645.53 feet to the east 1/4 corner of Section 10; thence S 89°47'15" W a distance of 2578.59 feet to the center 1/4 corner of Section 10; thence N 1°45'24" E a distance of 2647.85 feet to the center 1/4 corner of Section 3; thence N 1°02'42" W a distance of 2647.58 feet to the center 1/4 corner of said Section 3; thence N 89°41'37" E to the common 1/4 corner of Section 2 and Section 3; thence S 0°00'03" W a distance of 1323.68 feet to the south 1/16 corner of said Sections 2 and 3; thence S 44°46'30" E a distance of 1867.80 feet to a point on the common Section line of Section 2 and Section 11; thence S 44°41'13" E a distance of 1862.94 feet; thence S 44°42'35" E a distance of 1863.13 feet; thence N 0°13'23" E a distance of 1322.06 feet; thence S 89°54'40" E a distance of 1276.24 feet to a point on the west right-of-way fence line of Kansas Settlement Rd.; thence S 0°12'32" W a distance of 2643.71 feet along said fence line; thence N 89°55'43" W a distance of 2591.30 feet; thence N 0°14'14" E a distance of 661.13 feet; thence N 89°55'27" W a distance of 658.20 feet; thence N 0°14'39" E a distance of 1322.36 feet; thence N 44°41'19" West a distance of 931.44 feet; thence N 44°40'31" W a distance of 1862.85 feet to the point of beginning. Said wildlife area contains 543.10 acres approximately.

- C. Department Controlled Properties are described as follows: Hirsch Conservation Education Area and Biscuit Tank: The Hirsch Conservation Education Area and Biscuit Tank shall be that area lying in Section 3 T5N R2E, beginning at the northeast corner of Section 3, T5N, R2E, G&SRB&M, Maricopa County, Arizona; thence S 35°33'23.43" W a distance of 2938.12 feet; to the point of true beginning; thence S 81°31'35.45" W a distance of 147.25 feet; thence S 45°46'21.90" W a distance of 552.25 feet; thence S 21°28'21.59" W a distance of 56.77 feet; thence S 16°19'49.19" E a distance of 384.44 feet; thence S 5°27'54.02" W a distance of 73.43 feet; thence S 89°50'44.45" E a distance of 431.99 feet; thence N 4°53'57.68" W a distance of 81.99 feet; thence N 46°49'53.27" W a distance of 47.22 feet; thence N 43°3'3.68" E a distance of 83.74 feet; thence S 47°30'40.79" E a distance of 47.71 feet; thence N 76°2'59.67" E a distance of 105.91 feet; thence N 15°45'0.24" W a distance of 95.87 feet; thence N 68°48'27.79" E a distance of 69.79 feet; thence N 8°31'53.39" W a distance of 69.79 feet; thence N 30°5'32.34" E a distance of 39.8 feet; thence N 46°17'32.32" E a distance of 63.77 feet; thence N 22°17'26.17" W a distance of 517.05 feet to the point of true beginning.

Historical Note

New Section adopted by exempt rulemaking at 6 A.A.R. 1731, effective May 1, 2000 (Supp. 00-2). Amended by exempt rulemaking at 9 A.A.R. 3141, effective August 23, 2003 (Supp. 03-2). Amended by exempt rulemaking at 11 A.A.R. 1927, effective May 20, 2005 (Supp. 05-2). Amended by exempt rulemaking at 16 A.A.R. 397, effective March 5, 2010 (Supp. 10-1). Amended by exempt rulemaking at 17 A.A.R. 800, effective June 20, 2011 (Supp. 11-2). Amended by exempt rulemaking at 18 A.A.R. 1070, effective June 15, 2012 (Supp. 12-2). Amended by exempt rulemaking at 19 A.A.R. 931, effective June 17, 2013 (Supp. 13-2). Amended by exempt rulemaking at 20 A.A.R. 841, effective June 17, 2014 (Supp. 14-1). Amended by exempt rulemaking at 22 A.A.R. 951, effective June 7, 2016 (Supp. 16-2).

Amended by exempt rulemaking at 22 A.A.R. 2209, effective October 4, 2016 (Supp. 16-4).

R12-4-804. Renumbered**Historical Note**

New Section made by exempt rulemaking at 9 A.A.R. 1424, effective June 14, 2003 (Supp. 03-2). Amended by exempt rulemaking at 17 A.A.R. 800, effective June 20, 2011 (Supp. 11-2). Section R12-4-804 renumbered to R12-4-125, by final rulemaking at 21 A.A.R. 3025, effective January 2, 2016 (Supp. 15-4).

ARTICLE 9. EXPIRED**R12-4-901. Expired****Historical Note**

New Section made by final rulemaking at 11 A.A.R. 1109, effective April 30, 2005 (Supp. 05-1). Amended by final rulemaking at 19 A.A.R. 768, effective June 1, 2013 (Supp. 13-2). Section R12-4-901 expired under A.R.S. § 41-1056(J) at 21 A.A.R. 757, effective March 31, 2015 (Supp. 15-2).

R12-4-902. Expired**Historical Note**

New Section made by final rulemaking at 11 A.A.R. 1109, effective April 30, 2005 (Supp. 05-1). Amended by final rulemaking at 19 A.A.R. 768, effective June 1, 2013 (Supp. 13-2). Section R12-4-902 expired under A.R.S. § 41-1056(J) at 21 A.A.R. 757, effective March 31, 2015 (Supp. 15-2).

R12-4-903. Expired**Historical Note**

New Section made by final rulemaking at 11 A.A.R. 1109, effective April 30, 2005 (Supp. 05-1). R12-4-903 renumbered to R12-4-904; new Section R12-4-903 renumbered from R12-4-904 and amended by final rulemaking at 19 A.A.R. 768, effective June 1, 2013 (Supp. 13-2). Section R12-4-903 expired under A.R.S. § 41-1056(J) at 21 A.A.R. 757, effective March 31, 2015 (Supp. 15-2).

R12-4-904. Expired**Historical Note**

New Section made by final rulemaking at 11 A.A.R. 1109, effective April 30, 2005 (Supp. 05-1). R12-4-904 renumbered to R12-4-903; new Section R12-4-904 renumbered from R12-4-903 and amended by final rulemaking at 19 A.A.R. 768, effective June 1, 2013 (Supp. 13-2). Section R12-4-904 expired under A.R.S. § 41-1056(J) at 21 A.A.R. 757, effective March 31, 2015 (Supp. 15-2).

R12-4-905. Expired**Historical Note**

New Section made by final rulemaking at 11 A.A.R. 1109, effective April 30, 2005 (Supp. 05-1). Amended by final rulemaking at 19 A.A.R. 768, effective June 1, 2013 (Supp. 13-2). Section R12-4-905 expired under A.R.S. § 41-1056(J) at 21 A.A.R. 757, effective March 31, 2015 (Supp. 15-2).

R12-4-906. Expired**Historical Note**

New Section made by final rulemaking at 11 A.A.R.

1109, effective April 30, 2005 (Supp. 05-1). Amended by final rulemaking at 19 A.A.R. 768, effective June 1, 2013 (Supp. 13-2). Section R12-4-906 expired under A.R.S. § 41-1056(J) at 21 A.A.R. 757, effective March 31, 2015 (Supp. 15-2).

ARTICLE 10. RESERVED

ARTICLE 11. AQUATIC INVASIVE SPECIES

R12-4-1101. Definitions

In addition to the definitions provided under A.R.S. §§ 5-301 and 17-255, the following definitions apply to this Article, unless otherwise specified:

“Aquatic invasive species” means those species listed in Director’s Order 1.

“Certified agent” means a person who meets Department standards to conduct inspections authorized under A.R.S. § 17-255.01(C)(1).

“Conveyance” means a device designed to carry or transport water. Conveyance includes, but is not limited to, dip buckets, water hauling tanks, and water bladders.

“Equipment” means an item used either in or on water; or to carry water. Equipment includes, but is not limited to, trailers used to launch or retrieve watercraft, rafts, inner tubes, kick boards, anchors and anchor lines, docks, dock cables and floats, buoys, beacons, wading boots, fishing tackle, bait buckets, skin diving and scuba diving equipment, submersibles, pumps, sea planes, and heavy construction equipment used in aquatic environments.

“Operator” means a person who operates or is in actual physical control of a watercraft, vehicle, conveyance or equipment.

“Owner” means a person who claims lawful possession of a watercraft, vehicle, conveyance, or equipment.

“Person” has the same meaning as defined under A.R.S. § 1-215.

“Release” means to place, plant, or cause to be placed or planted in waters.

“Transporter” means a person responsible for the overland movement of a watercraft, vehicle, conveyance, or equipment.

“Waters” means surface water of all sources, whether perennial or intermittent, in streams, canyons, ravines, drainage systems, canals, springs, lakes, marshes, reservoirs, ponds, and other bodies or accumulations of natural, artificial, public or private waters situated wholly or partly in or bordering this state.

Historical Note

New Section made by final rulemaking at 18 A.A.R. 196, effective January 10, 2012 (Supp. 12-1).

R12-4-1102. Aquatic Invasive Species; Prohibitions; Inspection, Decontamination Protocols

- A. A person shall not, unless authorized under Article 4:
1. Possess, import, ship, or transport into or within this state an aquatic invasive species, unless authorized by the Director.
 2. Sell, purchase, barter, or exchange in this state an aquatic invasive species.

3. Release an aquatic invasive species into waters or into any water treatment facility, water supply or water transportation facility, device or mechanism in this state.
- B. Upon removing a watercraft, vehicle, conveyance, or equipment from any waters listed in Director’s Order 2 and before leaving that location, a person shall:
1. Remove all clinging materials such as plants, animals, and mud.
 2. Remove any plug or other barrier that prevents water drainage or, where none exists, take reasonable measures to drain or dry all compartments or spaces that hold water. Reasonable measures include, but are not limited to, emptying bilges, application of absorbents, or ventilation.
- C. Before transporting a watercraft, vehicle, conveyance, or equipment to any waters located within or bordering this state from waters or locations where aquatic invasive species are suspected or known to be present, as listed in Director’s Order 2, a person shall comply with the mandatory conditions and protocols identified in Director’s Order 3 for decontamination of watercraft, vehicles, conveyances, and equipment.
- D. Department employees, certified agents, and Arizona peace officers authorized under A.R.S. § 17-104 may inspect a watercraft, vehicle, conveyance, or equipment for the purposes of determining compliance with A.R.S. Title 17, Chapter 2, Article 3.1 and this Section.
- E. If the presence of an aquatic invasive species is documented or suspected on or in a watercraft, vehicle, conveyance, or equipment, a Department employee or any Arizona peace officer may order the person to decontaminate or cause to be decontaminated such watercraft, vehicles, conveyances, and equipment using the mandatory protocols described in Director’s Order 3.
- F. The following Director’s Orders are available at any Department office and online at azgfd.gov:
1. Director’s Order 1 – Listing of Aquatic Invasive Species for Arizona;
 2. Director’s Order 2 – Designation of Waters or Locations Where Listed Aquatic Invasive Species are Present; and
 3. Director’s Order 3 – Mandatory Conditions on the Movement of Watercraft, Vehicles, Conveyances, or Other Equipment from Listed Waters Where Aquatic Invasive Species are Present.
- G. This Section does not apply to owners and operators exempt under A.R.S. § 17-255.04.

Historical Note

New Section made by final rulemaking at 18 A.A.R. 196, effective January 10, 2012 (Supp. 12-1).

R12-4-1103. Emergency Expired

Historical Note

New Section made by emergency rulemaking at 17 A.A.R. 1218, effective June 2, 2011 for 180 days (Supp. 11-2). Section renewed by emergency rulemaking at 17 A.A.R. 2376, effective November 3, 2011 (Supp. 11-4). Emergency expired (Supp. 14-1).

R12-4-1104. Emergency Expired

Historical Note

New Section made by emergency rulemaking at 17 A.A.R. 1218, effective June 2, 2011 for 180 days (Supp. 11-2). Section renewed by emergency rulemaking at 17 A.A.R. 2376, effective November 3, 2011 (Supp. 11-4). Emergency expired (Supp. 14-1).

Supplement to the
Arizona Administrative Code
The official compilation of Arizona Rules
Replacement Check List

For rules filed in the third quarter between
July 1 - September 30
2017

Within the stated calendar quarter, this Title contains all rules made, amended, repealed, renumbered, and recodified; or rules that have expired or were terminated due to an agency being eliminated under sunset law. These rules were either certified by the Governor's Regulatory Review Council or the Attorney General's Office; or exempt from the rulemaking process, and filed with the Office of the Secretary of State. Refer to the historical notes for more information. Please note that some rules you are about to remove may still be in effect after the publication date of this Supplement. Therefore, all superseded material should be retained in a separate binder and archived for future reference.

TITLE 12. Natural Resources

Chapter 15. Department of Water Resources

Sections, Parts, Exhibits, Tables or Appendices modified
R12-15-105 and R12-15-401

Pages: 1 - 83

☐ REPLACE with Supp. 17-3
Pages: 1 - 83

The agency's contact person who can answer questions about rules in this Chapter:

Name: Kelly Brown, Deputy Counsel
Address: Department of Water Resources
1110 W. Washington St., Suite 310
Phoenix, AZ 85007
Telephone: (602) 771-8472
Fax: (602) 771-8686
E-mail: kbrown@azwater.gov

Disclaimer: Please be advised the person listed is the contact of record as submitted in the rulemaking package for this supplement. The contact and other information may change and is provided as a public courtesy.

PUBLISHER
Arizona Department of State
Office of the Secretary of State, Administrative Rules Division

PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), accepts state agency rule filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the Administrative Code. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION
September 30, 2017

RULES

A.R.S. § 41-1001(17) states: “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The Arizona Administrative Code is where the official rules of the state of Arizona are published. The Code is the official codification of rules that govern state agencies, boards, and commissions. Virtually everything in your life is affected in some way by rules published in the Arizona Administrative Code, from the quality of air you breathe to the licensing of your dentist. This chapter is one of more than 230 in the Code compiled in 21 Titles.

ADMINISTRATIVE CODE SUPPLEMENTS

Rules filed by an agency to be published in the Administrative Code are updated quarterly. Supplement release dates are printed on the footers of each chapter:

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2017 is cited as Supp. 17-1.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the Arizona Administrative Register for recent updates to rule Sections.

ARTICLES AND SECTIONS

Rules in chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering system separated into subsections.

HISTORICAL NOTES AND EFFECTIVE DATES

Historical notes inform the user when the last time a Section was updated in the Administrative Code. Be aware, since the Office publishes each quarter by entire chapters, not all Sections are updated by an agency in a supplement release. Many times just one Section or a few Sections may be updated in the entire chapter.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority note to make rules is often included at the beginning of a chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in the introduction of a chapter can be found at the Secretary of State’s website, www.azsos.gov/services/legislative-filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the Arizona Administrative Register online at www.azsos.gov/rules, click on the Administrative Register link.

In the Administrative Code the Office includes editor’s notes at the beginning of a chapter indicating that certain rulemaking Sections were made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

EXEMPTIONS AND PAPER COLOR

If you are researching rules and come across rescinded chapters on a different paper color, this is because the agency filed a Notice of Exempt Rulemaking. At one time the office published exempt rules on either blue or green paper. Blue meant the authority of the exemption was given by the Legislature; green meant the authority was determined by a court order. In 2001 the Office discontinued publishing rules using these paper colors.

PERSONAL USE/COMMERCIAL USE

This chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

Public Services managing rules editor, Rhonda Paschal, assisted with the editing of this chapter.

R12-15-1308.	Replacement Wells in Approximately the Same Location	83

ARTICLE 1. FEES**R12-15-101. Definitions**

In addition to the definitions in A.R.S. §§ 45-101, 45-271, 45-402, 45-511, 45-561, 45-802.01, 45-1001, 45-1201 and R12-15-701, the following definitions apply to this Article:

1. "Application" means a written request submitted by an applicant to the Department for the purpose of obtaining a permit, license or other legal authorization issued by the Department.
2. "Fiscal year" means the year beginning July 1 and ending June 30.
3. "Mileage expenses" means the Department's mileage expenses for travelling to and from a site inspection calculated at the rate set by the Arizona Department of Administration for state travel by motor vehicle.
4. "Municipality" means an incorporated city or town.
5. "Pre-decision administrative hearing" means an administrative hearing held on an application before the Department makes any decision on the application.
6. "Population" means the population according to the most recent United States decennial census.
7. "Review hours" means the hours or portions of hours spent by Department employees in reviewing an application and making a decision thereon, including pre-application consultation time in excess of 60 minutes and site inspection time. Only time spent by the program staff members and technical review team members responsible for processing the application shall be included as review hours. Review hours do not include the first 60 minutes of pre-application consultation time, the time spent traveling to and from a site inspection, any time spent on a pre-decision administrative hearing and any time spent on the application after a party appeals the Director's decision on the application pursuant to A.R.S. § 41-1092.03(B).
8. "Site inspection" means an inspection conducted by the Department before issuing a decision on an application or before issuing a decision on whether water may be stored at an underground storage facility.
9. "Site inspection time" means time spent on a site inspection. Site inspection time includes the time spent conducting the inspection and the time spent preparing an inspection report following the inspection, but does not include the time spent traveling to and from the inspection.
10. "Water resources fund" means the water resources fund established by A.R.S. § 45-117.

Historical Note

New Section made by exempt rulemaking at 16 A.A.R. 1205, effective June 15, 2010 (Supp. 10-2). Amended by exempt rulemaking at 16 A.A.R. 1950, effective September 10, 2010 (Supp. 10-3). Amended by exempt rulemaking at 17 A.A.R. 776, effective April 15, 2011 with an automatic repeal date effective June 4, 2011; new Section made by final rulemaking at 17 A.A.R. 659, effective June 4, 2011 (Supp. 11-2). Amended by final rulemaking at 18 A.A.R. 203, effective July 1, 2012 (Supp. 12-1).

R12-15-102. Fees for Applications and Filings

- A. A person submitting an application or filing to the Department on or after the effective date of this Section shall pay an hourly application fee as provided in R12-15-103 or a fixed application or filing fee as provided in R12-15-104, whichever applies. Fees for applications and filings shall be paid in U.S. dollars by cash, check, cashier's check, money order, or any other method acceptable to the Department.

- B. A person with an application or filing pending before the Department prior to the effective date of this Section shall pay the application or filing fees and costs in effect when the application or filing was submitted to the Department.

Historical Note

New Section made by exempt rulemaking at 16 A.A.R. 1205, effective June 15, 2010 (Supp. 10-2). Amended by exempt rulemaking at 16 A.A.R. 1950, effective September 10, 2010 (Supp. 10-3). Amended by exempt rulemaking at 17 A.A.R. 776, effective April 15, 2011 with an automatic repeal date effective June 4, 2011; new Section made by final rulemaking at 17 A.A.R. 659, effective June 4, 2011 (Supp. 11-2).

R12-15-103. Applications Subject to Hourly Fee; Amount of Fee; Initial Fee; Billing and Payment; Request for Reconsideration of Fee; Past Due Fee

- A. The Department shall calculate the fee for an application listed in subsection (B) of this Section by multiplying the number of review hours for the application by an hourly rate of \$118.00, plus any mileage expenses and the actual cost of mailing or publishing any legal notice of the application.
- B. A person submitting an application listed below shall pay an hourly fee for the application, not to exceed the maximum fee shown for the application:
 1. Wells:

Type of Application	Maximum Fee
Variance from well construction requirements that has not been pre-approved by the Department	\$10,000.00

2. Groundwater:

Type of Application	Maximum Fee
a.Issuance, renewal or modification of groundwater withdrawal permit	\$10,000.00
b.Issuance of notice of authority to irrigate in an irrigation non-expansion area	\$10,000.00
c.Approval of contract by a city, town or private water company to supply groundwater to another city, town or private water company pursuant to A.R.S. § 45-492(C)	\$10,000.00
d.Notice of intent to establish new service area right by a city, town or private water company	\$10,000.00
e.Final petition to establish new service area right by a city, town or private water company	\$10,000.00
f.Extension of the service area of a city, town or private water company to furnish disproportionately large amounts of water to an industrial or other large water user pursuant to A.R.S. § 45-493(A)(2)	\$10,000.00
g.Addition and exclusion of area by an irrigation district pursuant to A.R.S. § 45-494.01	\$10,000.00
h.Delivery of groundwater by an irrigation district to an industrial user with a general industrial use permit pursuant to A.R.S. § 45-497(B)	\$10,000.00

Department of Water Resources

i.Determination of historically irrigated acres or annual transportation allotment for lands in McMullen valley groundwater basin pursuant to A.R.S. § 45-552	\$10,000.00
j.Determination of volume of groundwater that can be transported from lands in Harquahala irrigation non-expansion area to an initial active management area pursuant to A.R.S. § 45-554	\$10,000.00
k.Determination of historically irrigated acres or annual transportation allotment for lands in the Big Chino sub-basin of the Verde River groundwater basin pursuant to A.R.S. § 45-555	\$10,000.00
l.Permit to transport groundwater away from the Yuma groundwater basin pursuant to A.R.S. § 45-547	\$10,000.00
m.Drought emergency groundwater transfer away from a groundwater basin outside of an active management area	\$10,000.00

3. Grandfathered Rights:

Type of Application	Maximum Fee
a.Type 1 non-irrigation grandfathered right for land retired from irrigation after date of designation of active management area pursuant to A.R.S. § 45-469 or 45-472	\$10,000.00
b.Restoration of retired irrigation grandfathered right pursuant to A.R.S. § 45-469(O)	\$10,000.00

4. Substitution of Acres:

Type of Application	Maximum Fee
a.Substitution of flood damaged acres in an active management area or an irrigation non-expansion area	\$10,000.00
b.Substitution of acres to eliminate limiting condition impeding efficient irrigation in an active management area or an irrigation non-expansion area	\$10,000.00
c.Substitution of acres to allow irrigation with Central Arizona Project water in an active management area	\$10,000.00

5. Lakes:

Type of Application	Maximum Fee
a.Permit to fill body of water with poor quality water pursuant to A.R.S. § 45-132(C)	\$10,000.00
b.Permit for interim water use in a body of water	\$10,000.00
c.Temporary emergency permit for use of surface water or groundwater in a body of water	\$10,000.00

6. Water Exchange:

Type of Application	Maximum Fee
---------------------	-------------

a. Issuance, renewal or modification of water exchange permit	\$10,000.00
b. Notice of water exchange for which approval is required pursuant to A.R.S. § 45-1052(6)(b)	\$10,000.00

7. Water Exportation:

Type of Application	Maximum Fee
Permit to transport water from this state	\$25,000.00

8. Underground Water Storage, Savings and Replenishment:

Type of Application	Maximum Fee
a.Issuance, renewal or modification of an underground storage facility permit	\$25,000.00
b.Issuance, renewal or modification of a groundwater savings facility permit	\$10,000.00
c.Issuance, renewal or modification of a water storage permit	\$10,000.00
d.Recovery well permit, including an emergency temporary recovery well permit	\$10,000.00

9. Assured and Adequate Water Supply:

Type of Application	Maximum Fee
a.Physical availability determination	\$10,000.00
b.Analysis of assured or adequate water supply	\$10,000.00
c.Renewal of analysis of assured or adequate water supply	\$10,000.00
d.Certificate of assured water supply	\$10,000.00
e.Issuance or modification of designation of assured water supply	\$35,000.00
f.Issuance or modification of designation of adequate water supply	\$25,000.00
g.Water report (outside an AMA)	\$10,000.00
h.Assignment of Type A certificate of assured water supply	\$5,000.00
i.Assignment of Type B certificate of assured water supply	\$5,000.00
j.Classification of Type A certificate of assured water supply pursuant to R12-15-707	\$10,000.00
k.Review of revised plat to determine whether changes are material	\$10,000.00
l.New certificate of assured water supply pursuant to R12-15-704(G)	\$10,000.00
m.Letter stating that owner is not required to obtain a certificate of assured water supply pursuant to R12-15-704(M)	\$10,000.00

10. Surface Water:

Type of Application	Maximum Fee
a.Permit to appropriate public water	\$10,000.00
b.Certificate of water right	\$10,000.00

Department of Water Resources

c.Primary reservoir permit or secondary reservoir permit	\$10,000.00
d.Change in use of water	\$10,000.00
e.Severance and transfer of water right to land that is not within the same parcel or farm unit as the current use, or that includes a change in water source, use or ownership	\$25,000.00
f.Severance and transfer of water right to land that is within the same parcel or farm unit as the current use and that does not include a change in water source, use or ownership	\$2,500.00
g.Request for extension of time to complete construction	\$10,000.00

- C. A person filing an application that is subject to an hourly fee shall submit an initial fee at the time the application is submitted to the Department. The initial fee for applications described in subsections (B)(7), (B)(8)(a), (B)(9)(e), (f) and (B)(10)(e) of this Section shall be \$2,000.00. The initial fee for all other applications shall be \$1,000.00. If requested by the applicant, the Department may set a lower initial fee if the Department estimates that the total application fee will be less than the initial fee specified in this subsection. The Department shall not accept an application for which an initial fee is required under this subsection unless the initial fee is included with the application.
- D. The Department shall bill the applicant for processing the application no more than monthly, but at least quarterly. Each bill shall contain the following information for the billing period:
1. The number of review hours accrued by activity and sub-activity code during the billing period, the date of each activity, a description of each activity and the effective hourly rate for all activities;
 2. A description and amount of any mileage expenses charged for the application;
 3. A description and amount of the cost of mailing or publishing any legal notice of the application or notice of a pre-decision administrative hearing on the application; and
 4. The total fees paid to date, the total fees due for the billing period, the date when the fees are payable, which shall be at least 60 days after the date of the bill, and the maximum fee for the application.
- E. A bill for hourly fees becomes past due if the applicant does not pay the bill in full by the due date specified in the bill, unless the applicant submits a timely request for reconsideration of the bill pursuant to subsection (G) of this Section. If the applicant submits a timely request for reconsideration of the bill, the bill becomes past due if the applicant does not pay the amount due under the Director's decision on the request by the date specified in the decision. If a bill for hourly fees becomes past due, the following shall apply:
1. The applicable review time-frame shall be suspended from the date the bill became past due until the applicant pays the bill in full or the application is denied under subsection (E)(2) of this Section, whichever applies.
 2. The Department shall suspend its review of the application and send a written notice to the applicant that the bill is past due. If the applicant does not pay the outstanding bill by the date specified in the notice, which shall be at least 35 days from the date of the notice, the application shall be denied.
- F. After the Department makes a determination whether to grant or deny the application, or when an applicant withdraws the application, the Department shall prepare and send to the applicant a final itemized billing statement for the application fee.
1. If the total fee exceeds the amount of the initial fee paid plus all other payments made to date, the applicant shall pay the balance, up to the maximum fee for the application, plus any mileage expenses and the actual cost of mailing or publishing any legal notice of the application or notice of a pre-decision administrative hearing on the application, by the date specified in the statement, unless the applicant submits a timely request for reconsideration of the bill pursuant to subsection (G) of this Section. The statement shall specify a date, at least 60 days from the date of the statement, by which the applicant must pay the bill. If the applicant submits a timely request for reconsideration of the bill, the applicant shall pay the amount due under the Director's decision on the request by the date specified in the decision. The Department shall not release the final permit or approval until the final bill is paid in full.
 2. If the total fee is less than the initial fee plus all other payments made to date, the Department shall refund the difference to the applicant within 35 days of the date of the statement.
- G. An applicant may seek reconsideration of a bill for hourly fees by filing a written request for reconsideration with the Director. The request shall specify, in detail, why the bill is in dispute and shall include any supporting documentation. The written request for reconsideration shall be delivered to the Director in person, by mail, or by facsimile on or before the payment due date. The Director shall make a final decision on the request for reconsideration of the bill and mail a final written decision to the person within 20 business days after the date the Director receives the written request. The decision shall specify a date, at least 35 days from the date of the decision, by which the applicant must pay the bill. The Director may reduce the amount of any fees billed under this Section if the Director determines that the number of review hours or mileage expenses billed to the applicant was incorrect or that time spent by the Department to review the application and make a decision thereon was not necessary or advisable.
- H. If a person receives a bill under this Section and the bill becomes past due under subsection (E) or (F) of this Section, the Department shall not accept for filing any other application by that person until the person pays the past due amount in full.

Historical Note

New Section made by exempt rulemaking at 16 A.A.R. 1205, effective June 15, 2010 (Supp. 10-2). Amended by exempt rulemaking at 16 A.A.R. 1950, effective September 10, 2010 (Supp. 10-3). Amended by exempt rulemaking at 17 A.A.R. 776, effective April 15, 2011 with an automatic repeal date effective June 4, 2011; new Section made by final rulemaking at 17 A.A.R. 659, effective June 4, 2011 (Supp. 11-2).

R12-15-104. Applications and Filings Subject to Fixed Fee; Fixed Fee Schedule; Mileage Expenses; Costs for Legal Notices

- A. The Department shall not accept or take action on the following applications and filings unless the fee shown for the application or filing is paid at the time the application or filing is submitted:
1. Wells:

Type of Application or Filing	Fee
-------------------------------	-----

Department of Water Resources

a.Late registration of well	\$60.00
b.Well driller's license	\$50.00
c.Re-issuance, renewal, or amendment of well driller's license	\$50.00
d.Re-activation of expired well driller's license	\$50.00
e.Well assignment	\$30.00 per well
f.Notice of intention to abandon a well	\$150.00
g.Notice of intention to drill a well other than a well described in subsection (A)(1)(h) of this Section	\$150.00
h.Notice of intention to drill a well that will not be located in an active management area or irrigation non-expansion area, that will be used solely for domestic purposes and that will have a pump with a maximum capacity of not more than 35 gallons per minute	\$100.00
i.Re-issuance of drill card	\$120.00
j.Permit to drill non-exempt well in an active management area	\$150.00 application fee plus \$30.00 permit fee

2. Groundwater:

Type of Application or Filing	Fee
a.Conveyance of farm's flexibility account balance	\$250.00
b.Conveyance of notice of authority to irrigate in an irrigation non-expansion area	\$500.00
c.Conveyance of groundwater withdrawal permit	\$500.00

3. Grandfathered rights:

Type of Application	Fee
a.Late application for certificate of grandfathered right	\$100.00
b.Conveyance of certificate of grandfathered right	\$500.00
c.Issuance of revised certificate of grandfathered right following partial extinguishment of grandfathered right for assured water supply extinguishment credits	\$120.00
d.Revised certificate of Type 2 non-irrigation grandfathered right to reflect new or additional points of withdrawal or the deletion of a point of withdrawal	\$250.00
e.Approval of development plan to retire irrigation grandfathered right for a Type 1 non-irrigation grandfathered right	\$500.00
f.Re-issuance of certificate of grandfathered right to reflect a change in family circumstances or a transfer of the right from the rightholder to a trust in which the rightholder is a beneficiary or from a trust to a beneficiary of the trust	\$120.00

4. Underground water storage, savings and replenishment:

Type of Application or Filing	Fee
a.Conveyance of storage facility permit	\$500.00
b.Conveyance of water storage permit	\$500.00
c.Assignment of long-term storage credits	\$250.00

5. Assured water supply:

Type of Application or Filing	Fee
a.Extinguishment of grandfathered right for extinguishment credits	\$250.00
b.Conveyance of extinguishment credits	\$250.00

6. Surface water:

Type of Application or Filing	Fee
a.Re-issuance of a surface water permit or certificate (not associated with an assignment of the permit or certificate)	\$120.00
b.Claim of water right for a stockpond pursuant to A.R.S. § 45-273	\$10.00
c.Statement of claim for a water right pursuant to A.R.S. § 45-183	\$5.00
d.Assignment of application, permit, certificate or statement of claim	\$75.00
e.Certification of water right for a stockpond pursuant to A.R.S. § 45-275	\$120.00

7. Dams:

Type of Application	Fee
Approval of plans for construction, enlargement, repair, alteration or removal of dam	2 percent of the total project cost

8. Water Exchange:

Type of Filing	Fee
Notice of water exchange that does not require approval pursuant to A.R.S. § 45-1052(6)(b)	\$500.00

9. Weather modification:

Type of Application	Fee
a.License for weather control or cloud modification	\$100.00
b.Equipment license for weather control or cloud modification	\$10.00

- B.** In addition to the application or filing fee listed in subsection (A) of this Section, an applicant shall pay any mileage expenses and the actual cost of mailing or publishing any legal notice of the application.

Historical Note

New Section made by exempt rulemaking at 16 A.A.R. 1205, effective June 15, 2010 (Supp. 10-2). Amended by exempt rulemaking at 16 A.A.R. 1950, effective September 10, 2010 (Supp. 10-3). Amended by exempt rulemaking at 17 A.A.R. 776, effective April 15, 2011 with an automatic repeal date effective June 4, 2011; new Section made by final rulemaking at 17 A.A.R. 659, effective June 4, 2011 (Supp. 11-2).

R12-15-105. Fee for Dam Safety Inspection; Fee for Review of Dam Safety Inspection Report

- A. The owner of a high or significant hazard potential dam shall pay a fee for the Department's dam safety inspection pursuant to R12-15-1219(A). The fee shall be based on the total crest length of the dam plus appurtenant embankments and saddle dikes, as follows:

Length (feet)	Fee
0 up to and including 500	\$2,000.00
More than 500 up to and including 1,000	\$2,200.00
More than 1,000 up to and including 2,000	\$2,400.00
More than 2,000 up to and including 4,000	\$2,600.00
More than 4,000 up to and including 8,000	\$3,000.00
More than 8,000 up to and including 16,000	\$3,400.00
More than 16,000 up to and including 32,000	\$3,800.00
More than 32,000	\$4,200.00

- B. The owner of a low or very low hazard potential dam shall pay a fee for the Department's dam safety inspection pursuant to R12-15-1219(A). The fee shall be \$250.00.
- C. After conducting a dam safety inspection pursuant to R12-15-1219(A), the Director shall send to the dam owner a bill for the fee required by subsection (A) or (B) of this Section. The dam owner shall pay the fee by the date specified in the bill, which shall be at least 35 days from the date of the bill. Failure by a dam owner to pay a fee required by subsection (A) or (B) of this Section shall be considered a violation of R12-15-1219.
- D. The owner of a dam who submits a dam safety inspection report pursuant to R12-15-1219(E) shall pay a fee of \$750.00 if the dam is a high or significant hazard potential dam or a fee of \$250 if the dam is a low or very low hazard potential dam. The Department shall not accept a dam safety inspection report unless the fee is submitted with the report.

Historical Note

New Section made by exempt rulemaking at 16 A.A.R. 1205, effective June 15, 2010 (Supp. 10-2). Amended by exempt rulemaking at 16 A.A.R. 1950, effective September 10, 2010 (Supp. 10-3). Amended by exempt rulemaking at 17 A.A.R. 776, effective April 15, 2011 with an automatic repeal date effective June 4, 2011; new Section made by final rulemaking at 17 A.A.R. 659, effective June 4, 2011 (Supp. 11-2). Section amended by final rulemaking at 23 A.A.R. 2375, effective October 10, 2017 (Supp. 17-3).

R12-15-106. Fee for Well Capping

The owner of a well that is capped by the Department pursuant to A.R.S. § 45-594(C) shall pay to the Department a fee of \$300.00, plus actual expenses over \$300.00. After capping an open well, the Department shall send the owner of the well a bill for the fee under this Section. The owner of the well shall pay the fee by the date specified in the bill, which shall be at least 35 days after the date of the bill.

Historical Note

New Section made by exempt rulemaking at 16 A.A.R. 1205, effective June 15, 2010 (Supp. 10-2). Amended by exempt rulemaking at 16 A.A.R. 1950, effective September 10, 2010 (Supp. 10-3). Amended by exempt rulemaking at 17 A.A.R. 776, effective April 15, 2011 with an automatic repeal date effective June 4, 2011; new Section made by final rulemaking at 17 A.A.R. 659, effective June 4, 2011 (Supp. 11-2).

R12-15-204. Expired

Historical Note

Adopted effective June 13, 1984 (Supp. 84-3). Section expired under A.R.S. § 41-1056(E) at 7 A.A.R. 2159,

effective February 28, 2001 (Supp. 01-2).

R12-15-205. Expired**Historical Note**

Adopted effective June 13, 1984 (Supp. 84-3). Section expired under A.R.S. § 41-1056(E) at 7 A.A.R. 2159, effective February 28, 2001 (Supp. 01-2).

R12-15-206. Expired**Historical Note**

Adopted effective June 13, 1984 (Supp. 84-3). Section expired under A.R.S. § 41-1056(E) at 7 A.A.R. 2159, effective February 28, 2001 (Supp. 01-2).

R12-15-207. Correction of Clerical Mistakes

Upon a motion or on the initiative of the Director, the Director may correct clerical mistakes in decisions, orders, rulings, any process issued by the Department, or other parts of the record, and errors in the record arising from oversight or omission. The Director shall give all parties and the Chief Counsel notice of any corrections made pursuant to this Section.

Historical Note

Adopted effective June 13, 1984 (Supp. 84-3). Amended by final rulemaking at 13 A.A.R. 3022, effective October 6, 2007 (Supp. 07-3).

R12-15-208. Expired**Historical Note**

Adopted effective June 13, 1984 (Supp. 84-3). Section expired under A.R.S. § 41-1056(E) at 7 A.A.R. 2159, effective February 28, 2001 (Supp. 01-2).

R12-15-209. Expired**Historical Note**

Adopted effective June 13, 1984 (Supp. 84-3). Section expired under A.R.S. § 41-1056(E) at 7 A.A.R. 2159, effective February 28, 2001 (Supp. 01-2).

R12-15-210. Expired**Historical Note**

Adopted effective June 13, 1984 (Supp. 84-3). Section expired under A.R.S. § 41-1056(E) at 7 A.A.R. 2159, effective February 28, 2001 (Supp. 01-2).

R12-15-211. Expired**Historical Note**

Adopted effective June 13, 1984 (Supp. 84-3). Section expired under A.R.S. § 41-1056(E) at 7 A.A.R. 2159, effective February 28, 2001 (Supp. 01-2).

R12-15-212. Expired**Historical Note**

Adopted effective June 13, 1984 (Supp. 84-3). Section expired under A.R.S. § 41-1056(E) at 7 A.A.R. 2159, effective February 28, 2001 (Supp. 01-2).

R12-15-213. Expired**Historical Note**

Adopted effective June 13, 1984 (Supp. 84-3). Section expired under A.R.S. § 41-1056(E) at 7 A.A.R. 2159, effective February 28, 2001 (Supp. 01-2).

R12-15-214. Expired**Historical Note**

Adopted effective June 13, 1984 (Supp. 84-3). Section

expired under A.R.S. § 41-1056(E) at 7 A.A.R. 2159, effective February 28, 2001 (Supp. 01-2).

R12-15-215. Expired**Historical Note**

Adopted effective June 13, 1984 (Supp. 84-3). Section number corrected (Supp. 93-1). Section expired under A.R.S. § 41-1056(E) at 7 A.A.R. 2159, effective February 28, 2001 (Supp. 01-2).

R12-15-216. Expired**Historical Note**

Adopted effective June 13, 1984 (Supp. 84-3). Section expired under A.R.S. § 41-1056(E) at 7 A.A.R. 2159, effective February 28, 2001 (Supp. 01-2).

R12-15-217. Expired**Historical Note**

Adopted effective June 13, 1984 (Supp. 84-3). Section expired under A.R.S. § 41-1056(E) at 7 A.A.R. 2159, effective February 28, 2001 (Supp. 01-2).

R12-15-218. Expired**Historical Note**

Adopted effective June 13, 1984 (Supp. 84-3). Section expired under A.R.S. § 41-1056(E) at 7 A.A.R. 2159, effective February 28, 2001 (Supp. 01-2).

R12-15-219. Expired**Historical Note**

Adopted effective June 13, 1984 (Supp. 84-3). Section expired under A.R.S. § 41-1056(E) at 7 A.A.R. 2159, effective February 28, 2001 (Supp. 01-2).

R12-15-220. Expired**Historical Note**

Adopted effective June 13, 1984 (Supp. 84-3). Section expired under A.R.S. § 41-1056(E) at 7 A.A.R. 2159, effective February 28, 2001 (Supp. 01-2).

R12-15-221. Expired**Historical Note**

Adopted effective June 13, 1984 (Supp. 84-3). Section expired under A.R.S. § 41-1056(E) at 7 A.A.R. 2159, effective February 28, 2001 (Supp. 01-2).

R12-15-222. Expired**Historical Note**

Adopted effective June 13, 1984 (Supp. 84-3). Section expired under A.R.S. § 41-1056(E) at 7 A.A.R. 2159, effective February 28, 2001 (Supp. 01-2).

R12-15-223. Expired**Historical Note**

Adopted effective June 13, 1984 (Supp. 84-3). Section expired under A.R.S. § 41-1056(E) at 7 A.A.R. 2159, effective February 28, 2001 (Supp. 01-2).

R12-15-224. Ex Parte Communications

- A. During the course of a contested case or appealable agency action, a party shall not make an ex parte communication or knowingly cause an ex parte communication to be made to the Director or other Department employee or consultant who is or may reasonably be expected to be involved in the decision-making process of the contested case or appealable agency action.

- B. During the course of a contested case or appealable agency action, the Department personnel listed in subsection (A) shall not make an ex parte communication or knowingly cause an ex parte communication to be made to a party or a person who will be materially and directly affected by the outcome of the contested case or appealable agency action.
- C. Any of the Department personnel listed in subsection (A) of this Section who receives a written communication prohibited by this Section shall file a copy of the communication in the public docket and serve a copy on the Director, the Chief Counsel, and all parties to the contested case or appealable agency action. Any of the Department personnel listed in subsection (A) of this Section who receives an oral communication prohibited by this Section shall file a summary, stating the substance of the communication, in the public docket and serve a copy on the Director, the Chief Counsel, and all parties to the contested case or appealable agency action.
- D. Upon receipt of an ex parte communication or a copy or summary of an ex parte communication made or knowingly caused to be made by a party in violation of this Section, the Director, to the extent consistent with the interests of justice and the policy of the underlying statutes and rules, may require the party to show cause why the party's claim or interest in the contested case or appealable agency action should not be dismissed, denied or disregarded because of the violation.
- E. For purposes of this Section, "ex parte communication" means any written or oral communication relating to the merits of a contested case or appealable agency action, except:
 1. Communications made in the course of official proceedings in the contested case or appealable agency action;
 2. Communications made in writing, if a copy of the communication is promptly served on the Director, the Chief Counsel, and all parties to the contested case or appealable agency action;
 3. Oral communications made after adequate notice, stating the substance of each communication, to all parties and the Chief Counsel;
 4. Communications relating solely to procedural matters; and
 5. As otherwise authorized by law.

Historical Note

Adopted effective June, 1984 (Supp. 84-3). Amended by final rulemaking at 13 A.A.R. 3022, effective October 6, 2007 (Supp. 07-3).

ARTICLE 3. STOCKPOND AND OTHER SURFACE WATER RULES

R12-15-301. Expired

Historical Note

Adopted effective October 8, 1982 (Supp. 82-5). Amended effective April 3, 1987 (Supp. 87-2). Amended effective May 7, 1990 (Supp. 90-2). Section expired under A.R.S. § 41-1056(E) at 7 A.A.R. 2012, effective February 28, 2001 (Supp. 01-2).

R12-15-302. Expired

Historical Note

Adopted effective October 8, 1982 (Supp. 82-5). Amended effective May 7, 1990 (Supp. 90-2). Section expired under A.R.S. § 41-1056(E) at 7 A.A.R. 2012, effective February 28, 2001 (Supp. 01-2).

R12-15-303. Multiple Applications for Water Rights

- A. If two or more applications are filed with the Director pursuant to A.R.S. §§ 45-152 or 45-273 or both by or for the same applicant and for a right to use the same water, the Director

shall consolidate the applications. If the applicant is otherwise entitled to both a permit to appropriate and a certificate of stockpond water right, the Director shall issue to the applicant either the permit to appropriate or the certificate of stockpond water right, whichever would give the applicant the higher priority.

- B. If one or more applications are filed with the Director pursuant to A.R.S. §§ 45-152 or 45-273 or both by or for the same applicant and for a right to use the same water for which the applicant holds a permit to appropriate, a certificate of water right or a certificate of stockpond water right, the Director shall deny the application or applications unless the applicant relinquishes every permit to appropriate, certificate of water right and certificate of stockpond water right which the applicant holds for that same water. The applicant may relinquish every permit to appropriate, certificate of water right and certificate of stockpond water right on the condition that the Director issues a permit to appropriate or certificate of stockpond water right to the applicant for the same water. In that case, the relinquishment shall be effective when the Director issues the permit to appropriate or certificate of stockpond water right.
- C. For purposes of this rule, "same water" means the same quantity of water from the same source for use at the same place for the same purpose. Water for which a right is applied or held pursuant to an application or permit to appropriate, certificate of water right or certificate of stockpond water right may be the same water in whole or in part as water for which a right is applied or held pursuant to a separate application or permit to appropriate, certificate of water right or certificate of stockpond water right.

Historical Note

Adopted effective April 3, 1987 (Supp. 87-2). Section R12-15-310 renumbered to R12-15-303 and amended effective May 7, 1990 (Supp. 90-2).

ARTICLE 4. LICENSING TIME-FRAMES

R12-15-401. Licensing Time-frames

The following time-frames apply to licenses issued by the Department. In this Article, "license" has the meaning prescribed in A.R.S. § 41-1001. The licensing time-frames consist of an administrative completeness review time-frame, a substantive review time-frame, and an overall time-frame.

1. Within the administrative completeness review time-frames set forth in subsection (7), the Department shall notify the applicant in writing whether the application is complete or incomplete. If the application is incomplete, the notice shall specify what information or component is required to make the application complete.
2. An applicant with an incomplete application shall supply the missing information within 60 days from the date of

Department of Water Resources

the notice, or within such further time as the Director may specify, unless another time limit is specified by statute or applicable rule. If the applicant fails to complete the application within the specified time period, the Director may deny the application. Denial of an application under this provision does not preclude the applicant from filing a new application.

3. Within the overall time-frames set forth in subsection (7), unless extended by mutual agreement under A.R.S. § 41-1075, the Department shall notify the applicant in writing that the application is granted or denied. If the application is denied, the Department shall provide written justification for the denial and a written explanation of the applicant's right to a hearing or the applicant's right to appeal.
4. In computing any period of time prescribed by this rule, the day of the filing, notice or event from which the designated period of time begins to run shall not be included. The last day of the computed period shall be included, unless it is a Saturday, Sunday, or a legal holiday, in which event the period runs until the end of the next day which is not a Saturday, Sunday, or legal holiday. When

the prescribed administrative completeness review time-frame or substantive review time-frame is less than 11 days, intermediate Saturdays, Sundays and legal holidays shall be excluded from the computation. The overall time-frame is the sum of the administrative completeness review time-frame and the substantive review time-frame calculated as prescribed by this Section.

5. Except as otherwise noted, the licensing time-frames do not include time for hearings. Time-frames in cases where a hearing is held are increased by 120 days.
6. The licensing time-frame rules are effective after December 31, 1998, as prescribed by A.R.S. § 41-1073(A), and apply to all applications filed after that date.
7. The licensing time-frames are set forth in Table A.

Historical Note

Adopted effective December 31, 1998; filed with the Office of the Secretary of State July 28, 1998 (Supp. 98-3). Amended by final rulemaking at 11 A.A.R. 5395, effective February 4, 2006 (Supp. 05-4).

Table A. Licensing Time-frames

No.	License	Legal Authority	Completeness Review (Days)*	Substantive Review (Days)*	Overall Time-frame (Days)*
1	Filling a body of water with poor quality water	A.R.S. § 45-132(C)	30	60	90
2	Interim water use in body of water	A.R.S. § 45-133	30	60	90
3	Temporary emergency permit for use of surface water or groundwater in body of water	A.R.S. § 45-134	10	20	30
4	Permit to appropriate water (non-instream flow)	A.R.S. §§ 45-151, 45-152 and 45-153	30	420	450
5	Permit to appropriate water (instream flow)	A.R.S. §§ 45-151, 45-151.01 and 45-153	50	530	580
6	Change in use of water	A.R.S. § 45-156(B)	30	375	405
7	Exception to limitation on time of completion of construction	A.R.S. § 45-160	5	15	20
8	Primary reservoir permit	A.R.S. § 45-161	30	420	450
9	Secondary reservoir permit	A.R.S. § 45-161	30	420	450
10	Certificate of water right (non-instream flow)	A.R.S. § 45-162	20	100	120
11	Certificate of water right (instream flow)	A.R.S. § 45-162	20	190	210
12	Reissuance of permit or certificate held by the United States or State of Arizona	A.R.S. § 45-164(C)	10	80	90
13	Severance and transfer	A.R.S. § 45-172 (excluding § 172(A)(6))	30	390	420
14	Stockpond certificate	A.R.S. § 45-273	30	190	220

ARTICLE 6. RESERVED

ARTICLE 7. ASSURED AND ADEQUATE WATER SUPPLY

R12-15-701. Definitions - Assured and Adequate Water Supply Programs

In addition to any other definitions in A.R.S. Title 45 and the management plans in effect at the time of application, the following words and phrases in this Article shall have the following meanings, unless the context otherwise requires:

1. "Abandoned plat" means a plat for which a certificate or water report has been issued and that will not be developed because of one of the following:
 - a. The land has been developed for another use; or
 - b. Legal restrictions will preclude approval of the plat.
2. "ADEQ" means the Arizona Department of Environmental Quality.
3. "Adequate delivery, storage, and treatment works" means:

Department of Water Resources

- a. A water delivery system with sufficient capacity to deliver enough water to meet the needs of the proposed use;
 - b. Any necessary storage facilities with sufficient capacity to store enough water to meet the needs of the proposed use; and
 - c. Any necessary treatment facilities with sufficient capacity to treat enough water to meet the needs of the proposed use.
4. "Adequate storage facilities" means facilities that can store enough water to meet the needs of the proposed use.
 5. "Affiliate" means a person who, directly or indirectly through one or more intermediaries, controls, is controlled by or is under common control with the person specified.
 6. "AMA" means an active management area as defined in A.R.S. § 45-402.
 7. "Analysis" means an analysis of assured water supply or an analysis of adequate water supply.
 8. "Analysis holder" means a person to whom an analysis of assured water supply or an analysis of adequate water supply is issued and any current owner of land included in the analysis.
 9. "Analysis of adequate water supply" means a determination issued by the Director stating that one or more criteria required for a water report pursuant to R12-15-713 have been demonstrated for a development.
 10. "Analysis of assured water supply" means a determination issued by the Director stating that one or more criteria required for a certificate of assured water supply pursuant to R12-15-704 have been demonstrated for a development.
 11. "Annual authorized volume" means, for an approved remedial action project, the annual authorized volume specified in a consent decree or other document approved by ADEQ or the EPA, except that:
 - a. If no annual authorized amount is specified in a consent decree or other document approved by ADEQ or the EPA, the annual authorized volume is the largest volume of groundwater withdrawn pursuant to the approved remedial action project in any year prior to January 1, 1999.
 - b. If the Director increases the annual authorized volume pursuant to R12-15-729(C), the annual authorized volume is the amount approved by the Director.
 12. "Annual estimated water demand" means the estimated water demand divided by 100.
 13. "Approved remedial action project" means a remedial action project approved by ADEQ under A.R.S. Title 49, or by the EPA under CERCLA.
 14. "Authorized remedial groundwater use" means, for any year, the amount of remedial groundwater withdrawn pursuant to an approved remedial action project and used by a municipal provider during the year, not to exceed the annual authorized volume of the project.
 15. "Build-out" means a condition in which all water delivery mains are in place and active water service connections exist for all lots.
 16. "CAP water" means:
 - a. All water from the Colorado River or from the Central Arizona Project works authorized in P.L. 90-537, excluding enlarged Roosevelt reservoir, which is made available pursuant to a subcontract with a multi-county water conservation district.
 - b. Any additional water not included in subsection 16(a) of this Section that is delivered by the United States Secretary of the Interior pursuant to an Indian water rights settlement through the Central Arizona Project.
 17. "Central Arizona Groundwater Replenishment District" or "CAGRDR" means a multi-county water conservation district acting in its capacity as the entity established pursuant to A.R.S. § 48-3771, et seq., and responsible for replenishing excess groundwater.
 18. "Central distribution system" means a water system that qualifies as a public water system pursuant to A.R.S. § 49-352.
 19. "CERCLA" or "Comprehensive Environmental Response, Compensation, and Liability Act of 1980" has the same meaning as prescribed in A.R.S. § 49-201.
 20. "Certificate" means a certificate of assured water supply issued by the Director for a subdivision pursuant to A.R.S. § 45-576 et seq. and this Article.
 21. "Certificate holder" means any person included on a certificate, except the following:
 - a. Any person who no longer owns any portion of the property included in the certificate, and
 - b. Any potential purchaser for whom the purchase contract has been terminated or has expired.
 22. "Certificate of convenience and necessity" means a certificate required by the Arizona Corporation Commission, pursuant to A.R.S. § 40-281, which allows a private water company to serve water to customers within its certificated area.
 23. "Colorado River water" means water from the main stream of the Colorado River. For purposes of this Article, Colorado River water does not include CAP water.
 24. "Committed demand" means the 100-year water demand at build-out of all recorded lots that are not yet served water within the service area of a designation applicant or a designated provider.
 25. "County water augmentation authority" means an authority formed pursuant to A.R.S. Title 45, Chapter 11.
 26. "Current demand" means the 100-year water demand for existing uses within the service area of a designation applicant or designated provider, based on the annual report for the previous calendar year.
 27. "Depth-to-static water level" means the level at which water stands in a well when no water is withdrawn by pumping or by free flow.
 28. "Designated provider" means:
 - a. A municipal provider that has obtained a designation of assured or adequate water supply; or
 - b. A city or town that has obtained a designation of adequate water supply pursuant to A.R.S. § 45-108(D).
 29. "Designation" means a decision and order issued by the director designating a municipal provider as having an assured water supply or an adequate water supply.
 30. "Determination of adequate water supply" means a water report, a designation of adequate water supply, or an analysis of adequate water supply.
 31. "Determination of assured water supply" means a certificate, a designation of assured water supply, or an analysis of assured water supply.
 32. "Development" means either a subdivision or an unplatted development plan.
 33. "Diversion works" means a structure or well that allows or enhances diversion of surface water from its natural course for other uses.

34. "Drought response plan" means a plan describing a variety of conservation and augmentation measures, especially the use of backup water supplies, that a municipal provider will utilize in operating its water supply system in times of a water supply shortage. The plan may include the following:
 - a. An identification of priority water uses consistent with applicable public policies.
 - b. A description of sources of emergency water supplies.
 - c. An analysis of the potential use of water pressure reduction.
 - d. Plans for public education and voluntary water use reduction.
 - e. Plans for water use bans, restrictions, and rationing.
 - f. Plans for water pricing and penalties for excess water use.
 - g. Plans for coordination with other cities, towns, and private water companies.
35. "Drought volume" means 80% of the volume of a surface water supply, determined by the director under R12-15-716 to be physically available on an annual basis to a certificate holder or a designated provider.
36. "Dry lot development" means a development or subdivision without a central water distribution system.
37. "EPA" means the United States Environmental Protection Agency.
38. "Estimated water demand" means:
 - a. For a certificate or water report, the Director's determination of the 100-year water demand for all uses included in the subdivision;
 - b. For a designation, the sum of the following:
 - i. The Director's determination of the current demand;
 - ii. The Director's determination of the committed demand; and
 - iii. The Director's determination of the projected demand during the term of the designation; or
 - c. For an analysis, the Director's determination of the water demand for all uses included in the development.
39. "Existing municipal provider" means a municipal provider that was in operation and serving water for non-irrigation use on or before January 1, 1990.
40. "Extinguish" means to cause a grandfathered right to cease to exist through a process established by the director pursuant to R12-15-723.
41. "Extinguishment credit" means a credit that is issued by the Director in exchange for the extinguishment of a grandfathered right and that may be used to make groundwater use consistent with the management goal of an AMA.
42. "Firm yield" means the minimum annual diversion for the period of record which may include runoff releases from storage reservoirs, and surface water withdrawn from a well.
43. "Management plan" means a water management plan adopted by the director pursuant to A.R.S. § 45-561 et seq.
44. "Master-planned community" has the same meaning as provided in A.R.S. § 32-2101.
45. "Median flow" means the flow which is represented by the middle value of a set of flow data that are ranked in order of magnitude.
46. "Member land" has the same meaning as provided in A.R.S. § 48-3701.
47. "Member service area" has the same meaning as provided in A.R.S. § 48-3701.
48. "Multi-county water conservation district" means a district established pursuant to A.R.S. Title 48, Chapter 22.
49. "Municipal provider" has the same meaning as provided in A.R.S. § 45-561.
50. "New municipal provider" means a municipal provider that began serving water for non-irrigation use after January 1, 1990.
51. "Owner" means:
 - a. For an analysis, certificate, or water report applicant, a person who holds fee title to the land described in the application; or
 - b. For a designation applicant, the person who will be providing water service pursuant to the designation.
52. "Perennial" means a stream that flows continuously.
53. "Persons per household" means a measure obtained by dividing the number of persons residing in housing units by the number of housing units.
54. "Physical availability determination" means a letter issued by the Director stating that an applicant has demonstrated all of the criteria in R12-15-702(C).
55. "Plat" means a preliminary or final map of a subdivision in a format typically acceptable to a platting entity.
56. "Potential purchaser" means a person who has entered into a purchase agreement for land that is the subject of an application for a certificate or an assignment of a certificate.
57. "Projected demand" means the 100-year water demand at build-out, not including committed or current demand, of customers reasonably projected to be added and plats reasonably projected to be approved within the designated provider's service area and reasonably anticipated expansions of the designated provider's service area.
58. "Proposed municipal provider" means a municipal provider that has agreed to serve a proposed subdivision.
59. "Purchase agreement" means a contract to purchase or acquire an interest in real property, such as a contract for purchase and sale, an option agreement, a deed of trust, or a subdivision trust agreement.
60. "Remedial groundwater" means groundwater withdrawn pursuant to an approved remedial action project, but does not include groundwater withdrawn to provide an alternative water supply pursuant to A.R.S. § 49-282.03.
61. "Service area" means:
 - a. For an application for an analysis of adequate water supply, a water report, or a designation of adequate water supply, the area of land actually being served water for a non-irrigation use by the municipal provider and additions to the area that contain the municipal provider's operating distribution system for the delivery of water for a non-irrigation use;
 - b. For an application for a designation of adequate water supply pursuant to A.R.S. § 45-108(D), the area of land actually being served water for a non-irrigation use by each municipal provider that serves water within the city or town, and additions to the area that contain each municipal provider's operating distribution system for the delivery of water for a non-irrigation use; or
 - c. For an application for a certificate or designation of assured water supply, "service area" has the same meaning as prescribed in A.R.S. § 45-402.
62. "Subdivision" has the same meaning as prescribed in A.R.S. § 32-2101.

63. "Superfund site" means the site of a remedial action undertaken pursuant to CERCLA.
64. "Surface water" means any surface water as defined in A.R.S. § 45-101, including CAP water and Colorado River water.
65. "Water Quality Assurance Revolving Fund site" or "WQARF site" means a site of a remedial action undertaken pursuant to A.R.S. Title 49, Chapter 2, Article 5.
66. "Water report" means a letter issued to the Arizona Department of Real Estate by the Director for a subdivision stating whether an adequate water supply exists pursuant to A.R.S. § 45-108 and this Article.

Historical Note

Adopted effective February 7, 1995 (Supp. 95-1).
Amended by emergency rulemaking at 11 A.A.R. 2706, effective June 29, 2005 for 180 days (Supp. 05-2). Emergency renewed for 180 days at 12 A.A.R. 144, effective December 23, 2005 (Supp. 05-4). Emergency expired.
Amended by final rulemaking at 12 A.A.R. 3475, effective September 12, 2006 (Supp. 06-3).

R12-15-702. Physical Availability Determination

- A. A person may apply for a physical availability determination by submitting an application on a form prescribed by the Director with the initial fee required by R12-15-103(C), and providing the following information with the application:
 1. The proposed source of water for which the applicant is seeking a determination of physical availability,
 2. Evidence that the applicant has complied with subsection (C) of this Section, and
 3. Any other information that the Director reasonably deems necessary to determine whether water is physically available in the area that is the subject of the application.
- B. Each applicant shall sign an application for a physical availability determination. If an applicant is not a natural person, the applicant's authorized officer, managing member, partner, trust officer, trustee or other person who performs similar decision-making functions for the applicant shall sign the application. If the applicant submits a letter, signed by the applicant and dated within 90 days of the date the application is submitted, authorizing a representative to submit applications for permits regarding the land to be included in the determination, the authorized representative may sign the application on the applicant's behalf.
- C. An applicant for a physical availability determination shall demonstrate the following:
 1. The volume of water that is physically available for 100 years in the area that is the subject of the application, according to the criteria in R12-15-716.
 2. That the proposed sources of water will be of adequate quality, according to the criteria in R12-15-719.
- D. After a complete application is submitted, the Director shall review the application and associated evidence to determine whether the applicant has demonstrated all of the criteria in subsection (C) of this Section. If the Director determines that the applicant has demonstrated all of the criteria in subsection (C) of this Section, the Director shall issue a physical availability determination.
- E. Any person applying for a determination of assured water supply or a determination of adequate water supply may use an existing physical availability determination for purposes of R12-15-716. The Director shall consider any changes in hydrologic conditions for purposes of R12-15-716.
- F. The issuance of a physical availability determination does not reserve any water for purposes of this Article.

Historical Note

Adopted effective February 7, 1995 (Supp. 95-1). Section repealed; new Section made by final rulemaking at 12 A.A.R. 3475, effective September 12, 2006 (Supp. 06-3).
Amended by exempt rulemaking at 16 A.A.R. 1205, effective June 15, 2010 (Supp. 10-2). Amended by exempt rulemaking at 16 A.A.R. 1950, effective September 10, 2010 (Supp. 10-3). Amended by final rulemaking at 17 A.A.R. 659, effective June 4, 2011 (Supp. 11-2).

R12-15-703. Analysis of Assured Water Supply

- A. A person proposing to develop land that will not be served by a designated provider may apply for an analysis of assured water supply before applying for a certificate. An applicant for an analysis must be the owner of the land that is the subject of the application or have the written consent of the owner. The commissioner of the Arizona State Land Department may apply for an analysis for land owned by the state of Arizona or may consent to the inclusion of such land in an application.
- B. An applicant for an analysis shall submit an application on a form prescribed by the Director with the initial fee required by R12-15-103(C), and attach the following:
 1. A title report, condition of title report, limited search title report, or recorded deed, dated within 90 days of the date the application is submitted, demonstrating the ownership of the land that is the subject of the application;
 2. A description of the development, including:
 - a. A map of the land uses included in the development,
 - b. A list of water supplies proposed to be used by the development,
 - c. A summary of land use types included in the development, and
 - d. An estimate of the water demand for the land uses included in the development; and
 3. Evidence that the applicant has complied with subsection (E) of this Section.
- C. An applicant shall sign the application for an analysis. If an applicant is not a natural person, the applicant's authorized officer, managing member, partner, trust officer, trustee, or other person who performs similar decision-making functions for the applicant shall sign the application. If the applicant submits a letter, signed by the applicant and dated within 90 days of the date the application is submitted, authorizing a representative to submit applications for permits regarding the land to be included in the analysis, the authorized representative may sign the application on the applicant's behalf.
- D. After a complete application is submitted, the Director shall determine the estimated water demand of the development.
- E. The Director shall issue an analysis if an applicant demonstrates one or more of the following:
 1. Sufficient supplies of water are physically available to meet all or part of the estimated water demand of the development for 100 years, according to the criteria in R12-15-716.
 2. Sufficient supplies of water are continuously available to meet the estimated water demand of the development for 100 years, according to the criteria in R12-15-717.
 3. Sufficient supplies of water are legally available to meet the estimated water demand of the development for 100 years, according to the criteria in R12-15-718.
 4. The proposed sources of water are of adequate quality, according to the criteria in R12-15-719.
 5. Any proposed groundwater use is consistent with the management plan in effect at the time of the application, according to the criteria in R12-15-721.

6. Any proposed groundwater use is consistent with the management goal, according to the criteria in R12-15-722.
- F. For 10 years after the Director issues an analysis, or a longer period allowed under subsections (H) or (I) of this Section:
 1. If groundwater is a source of supply in the analysis and the applicant demonstrates that groundwater is physically available under subsection (E)(1) of this Section, the Director shall consider that supply of groundwater reserved for the use of the proposed development in subsequent determinations of physical availability pursuant to R12-15-716(B).
 2. If an analysis holder applies for a certificate for a subdivision located on land included in the analysis, the Director shall presume that a criterion demonstrated in the analysis remains satisfied with respect to the subdivision, unless the Director has received new evidence demonstrating that the criterion is not satisfied. If the Director issues the certificate, the Director shall reduce the volume of groundwater reserved pursuant to subsection (F)(1) of this Section by the amount of the estimated water demand for the certificate that will be met with groundwater.
- G. The Director shall reduce the amount of groundwater considered reserved for use of the development upon request by the analysis holder. If the analysis holder requesting a reduction is not the person to whom the analysis was issued, the Director shall reduce the amount of reserved groundwater only if the person to whom the analysis was issued or that person's designee consents to the request for reduction. The person to whom the analysis was issued shall notify the Director in writing of the name of the person's designee for purposes of this subsection.
- H. The analysis holder may apply to the Director for a five-year extension of the time period in subsection (F) of this Section by submitting an application on a form prescribed by the Director no earlier than 36 months before the end of the time period and no later than 30 days before the end of the time period. If an extension is granted, the analysis holder may apply to the Director for an additional five-year extension by submitting an application on a form prescribed by the Director no earlier than 36 months before the end of the extended time period and no later than 30 days before the end of the extended time period. The Director shall extend the time period for no more than two successive five-year periods under this subsection if the analysis holder demonstrates one of the following:
 1. The analysis holder has made a substantial capital investment in developing the land included in the analysis.
 2. The analysis holder has made material progress in developing the land included in the analysis.
 3. Progress in developing the land included in the analysis has been delayed for reasons outside the control of the analysis holder.
- I. After the Director grants two five-year extensions pursuant to subsection (H) of this Section, the Director may extend the time period for additional five-year periods if the analysis holder files a timely application pursuant to subsection (H) of this Section and demonstrates one of the criteria in subsections (H)(1), (2), or (3) of this Section.
- J. The Director shall review an application for an analysis or an application for an extension pursuant to subsections (H) or (I) of this Section pursuant to the licensing time-frame provisions in R12-15-401.

Historical Note

Adopted effective February 7, 1995 (Supp. 95-1).
Amended by emergency rulemaking at 11 A.A.R. 2706, effective June 29, 2005 for 180 days (Supp. 05-2). Emer-

gency renewed for 180 days at 12 A.A.R. 144, effective December 23, 2005 (Supp. 05-4). Emergency expired. Section repealed; new Section made by final rulemaking at 12 A.A.R. 3475, effective September 12, 2006 (Supp. 06-3). Amended by exempt rulemaking at 16 A.A.R. 1205, effective June 15, 2010 (Supp. 10-2). Amended by exempt rulemaking at 16 A.A.R. 1950, effective September 10, 2010 (Supp. 10-3). Amended by final rulemaking at 17 A.A.R. 659, effective June 4, 2011 (Supp. 11-2).

R12-15-703.01. Repealed

Historical Note

New Section made by final rulemaking at 7 A.A.R. 3038, effective June 18, 2001 (Supp. 01-2). Section repealed by final rulemaking at 12 A.A.R. 3475, effective September 12, 2006 (Supp. 06-3).

R12-15-704. Certificate of Assured Water Supply

- A. An application for a certificate shall be filed by the current owner of the land that is the subject of the application. Potential purchasers and affiliates may also be included as applicants.
- B. An applicant for a certificate shall submit an application on a form prescribed by the Director with the initial fee required by R12-15-103(C), and provide the following:
 1. One of the following forms of proof of ownership for each applicant to be listed on the certificate:
 - a. For an applicant that is the current owner, one of the following:
 - i. A title report, condition of title report, limited search title report, or recorded deed, dated within 90 days of the date the application is filed, demonstrating that the applicant is the owner of the land that is the subject of the application; or
 - ii. Evidence that the CAGRD has reviewed and approved evidence that the applicant is the owner of the land that is the subject of the application;
 - b. For an applicant that is a potential purchaser, evidence of a purchase agreement; or
 - c. For an applicant that is an affiliate of another applicant, a certification by the other applicant of the affiliate status;
 2. A plat of the subdivision;
 3. An estimate of the 100-year water demand for the subdivision;
 4. A list of all proposed sources of water that will be used by the subdivision;
 5. Evidence that the criteria in subsections (F) or (G) of this Section are met; and
 6. Any other information that the Director reasonably determines is necessary to decide whether an assured water supply exists for the subdivision.
- C. Each applicant shall sign the application for a certificate. If an applicant is not a natural person, the applicant's authorized officer, managing member, partner, trust officer, trustee, or other person who performs similar decision-making functions for the applicant shall sign the application. If an applicant submits a letter, signed by the applicant and dated within 90 days of the date the application is submitted, authorizing a representative to submit applications for permits regarding the land to be included in the certificate, the authorized representative may sign the application on the applicant's behalf.
- D. The Director shall give public notice of an application for a certificate as provided in A.R.S. § 45-578.

- E. After a complete application is submitted, the Director shall review the application and associated evidence to determine:
1. The estimated water demand of the subdivision;
 2. The amount of the groundwater allowance for the subdivision, as provided in R12-15-724 through R12-15-727; and
 3. Whether the applicant has demonstrated all of the requirements in subsection (F) or subsection (G) of this Section.
- F. Except as provided in subsection (G) of this Section, the Director shall issue a certificate if the applicant demonstrates all of the following:
1. Sufficient supplies of water are physically available to meet the estimated water demand of the subdivision, according to the criteria in R12-15-716;
 2. Sufficient supplies of water are continuously available to meet the estimated water demand of the subdivision, according to the criteria in R12-15-717;
 3. Sufficient supplies of water are legally available to meet the estimated water demand of the subdivision, according to the criteria in R12-15-718;
 4. The sources of water are of adequate quality, according to the criteria in R12-15-719;
 5. The applicant has the financial capability to construct adequate delivery, storage, and treatment works for the subdivision, according to the criteria in R12-15-720;
 6. The proposed use of groundwater withdrawn within an AMA is consistent with the management plan in effect at the time of the application, according to the criteria in R12-15-721; and
 7. The proposed use of groundwater withdrawn within an AMA is consistent with the achievement of the management goal, according to the criteria in R12-15-722.
- G. If the Director previously issued a certificate for the subdivision, the Director shall issue a new certificate to the applicant if the applicant demonstrates that all of the requirements in subsection (F) are met or that all of the following apply:
1. Any changes to the plat for which the previous certificate was issued are not material, according to the criteria in R12-15-708;
 2. If groundwater is a proposed source of supply for the subdivision, the proposed groundwater withdrawals satisfied the physical availability requirements in effect at the time the complete and correct application for the previous certificate was submitted;
 3. Any proposed sources of water, other than groundwater, are physically available to satisfy the estimated water demand that will not be satisfied with groundwater, according to the criteria in R12-15-716;
 4. Any proposed sources of water other than groundwater are continuously available to satisfy the estimated water demand that will not be satisfied with groundwater, according to the criteria in R12-15-717;
 5. The proposed uses of groundwater withdrawn within an AMA were consistent with the achievement of the management goal according to the criteria in effect at the time the complete and correct application for the previous certificate was submitted; and
 6. The applicant demonstrates that the requirements in subsections (F)(3) through (6) of this Section are met.
- H. Before issuing a certificate, the Director shall classify the certificate for the purposes of R12-15-705 and R12-15-706 as follows:
1. Type A certificate. The Director shall classify the certificate as a Type A certificate if the applicant meets the criteria in R12-15-720(A)(1) and all of the subdivision's estimated water demand will be met with one or more of the following:
 - a. Groundwater served by a proposed municipal provider pursuant to an existing service area right;
 - b. Groundwater served by a proposed municipal provider pursuant to a pending service area right, if the proposed municipal provider currently holds or will hold the well permit;
 - c. CAP water served by a municipal provider pursuant to the proposed municipal provider's non-declining, long-term municipal and industrial subcontract;
 - d. Surface water served by a proposed municipal provider pursuant to the proposed municipal provider's surface water right or claim;
 - e. Effluent owned and served by a proposed municipal provider; or
 - f. A Type 1 grandfathered right appurtenant to the land on which the groundwater will be used and held by a proposed municipal provider.
 2. Type B certificate. The Director shall classify all certificates that do not meet the requirements of subsection (H)(1) of this Section as Type B certificates.
- I. The Director shall review an application for a certificate pursuant to the licensing time-frame provisions in R12-15-401.
- J. An owner of six or more lots is not required to obtain a certificate if all of the following apply:
1. The lots comprise a subset of a subdivision for which:
 - a. A plat was recorded before 1980; or
 - b. A certificate was issued before February 7, 1995;
 2. No changes were made to the plat since February 7, 1995; and
 3. Water service is currently available to each lot.
- K. A new owner of all or a portion of a subdivision for which a plat has been recorded is not required to obtain a certificate if all of the following apply:
1. The Director previously issued a Type A certificate for the subdivision pursuant to subsection (H)(1) of this Section or R12-15-707;
 2. Water service is currently available to each lot; and
 3. There are no material changes to the plat for which the certificate was issued, according to the criteria in R12-15-708.
- L. An owner of six or more lots in the Pinal AMA is not required to obtain a certificate if all of the following apply:
1. A plat for the subdivision was recorded before October 1, 2007;
 2. There have been no material changes to the plat according to the criteria in R12-15-708, since October 1, 2007;
 3. The proposed municipal provider was designated as having an assured water supply when the plat was recorded, but is no longer designated as having an assured water supply; and
 4. Water service is currently available to each lot.
- M. A person may request a letter stating that the owner is not required to obtain a certificate pursuant to subsection (J), (K), or (L) of this Section by submitting an application on a form prescribed by the Director and attaching evidence that the criteria of subsection (J), (K), or (L) are met. Upon receiving an application pursuant to this subsection, the Director shall:
1. Review the application pursuant to the licensing time-frame provisions in R12-15-401.
 2. Determine whether the criteria of subsection (J), (K), or (L) of this Section are met.
 3. If the Director determines that the criteria of subsection (J) of this Section are met, issue a letter to the applicant

and the Arizona Department of Real Estate stating that the current owner is not required to obtain a certificate.

4. If the Director determines that the criteria of subsection (K) or (L) of this Section are met, issue a letter to the applicant and the Arizona Department of Real Estate stating that the current owner and any future owners are not required to obtain a certificate.

Historical Note

Adopted effective February 7, 1995 (Supp. 95-1). Section repealed; new Section made by final rulemaking at 12 A.A.R. 3475, effective September 12, 2006 (Supp. 06-3). Amended by final rulemaking at 13 A.A.R. 1394, effective October 1, 2007 (Supp. 07-2). Amended by exempt rulemaking at 16 A.A.R. 1205, effective June 15, 2010 (Supp. 10-2). Amended by exempt rulemaking at 16 A.A.R. 1950, effective September 10, 2010 (Supp. 10-3). Amended by final rulemaking at 17 A.A.R. 659, effective June 4, 2011 (Supp. 11-2).

R12-15-705. Assignment of Type A Certificate of Assured Water Supply

- A. The certificate holder of a Type A certificate and the assignee may apply for approval of an assignment of the Type A certificate within the time allowed by A.R.S. § 45-579(A). The assignee may file the application if there is no certificate holder. The application shall be submitted on a form prescribed by the Director with the initial fee required by R12-15-103(C), and the applicant shall provide the following:
 1. One of the following forms of proof of ownership for each assignee:
 - a. A title report, condition of title report, limited search title report, or recorded deed, dated within 90 days of the date the application is submitted to the Director and demonstrating that the assignee is the owner of the land that is the subject of the proposed assignment; or
 - b. If the assignee is a potential purchaser, evidence of a purchase agreement;
 2. A current plat of the subdivision;
 3. An estimate of the 100-year water demand for the subdivision, based on the current plat;
 4. Certification by each applicant that:
 - a. The proposed municipal provider has not changed and has agreed to continue to serve the subdivision after the assignment; and
 - b. All water supplies listed on the current certificate are physically, continuously, and legally available to meet the estimated water demand of the subdivision after the assignment.
- B. Each applicant shall sign the application for an assignment of a Type A certificate. If an applicant is not a natural person, the entity's authorized officer, managing member, partner, trust officer, trustee, or other person who performs similar decision-making functions for the applicant shall sign the application. If an applicant submits a letter, signed by the applicant and dated within 90 days of the date the application is submitted, authorizing a representative to submit applications for permits regarding the land included in the certificate, the authorized representative may sign the application on behalf of the applicant.
- C. Upon receiving an application for an assignment of a Type A certificate, the Director shall post the notice required by A.R.S. § 45-579(E).
- D. If the Director determines that the application meets the criteria of A.R.S. § 45-579(A), the Director shall issue a Type A certificate to each applicant. A Type A certificate issued under

this subsection shall retain the issue date, the number of lots, and the estimated water demand shown on the original certificate, except as provided in subsection (E) of this Section. The Director shall determine that the application meets the criteria of A.R.S. § 45-579(A) if all of the following apply:

1. The application is submitted within the time allowed by A.R.S. § 45-579(A);
 2. The assignee is the owner or a potential purchaser of the portion of the subdivision that is the subject of the assignment;
 3. There have been no material changes to the plat for which the original certificate was issued, according to the criteria in R12-15-708;
 4. Neither the applicant nor a predecessor in interest has impaired the manner in which consistency with management goal requirements were satisfied when the original certificate was issued; and
 5. The applicant makes the certifications required in subsection (A)(4) of this Section.
- E. In the case of a partial assignment, the Director shall determine whether changes to the plat are material according to R12-15-708. The Director shall issue a Type A certificate to the assignee for the portion of the subdivision that is the subject of the assignment and for the number of lots and the estimated water demand of the current plat of the portion of the subdivision that is the subject of the assignment. The Director shall issue a Type A certificate to the certificate holder for the portion of the subdivision retained by the certificate holder and for the remainder of the number of lots and the remainder of the estimated water demand. The sum of the number of lots and the sum of the amount of the estimated water demand shown on each certificate shall equal the total number of lots and the total estimated water demand shown on the certificate being assigned.
 - F. The Director shall review an application for an assignment of a Type A certificate of assured water supply pursuant to the licensing time-frame provisions in R12-15-401.

Historical Note

Adopted effective February 7, 1995 (Supp. 95-1). Amended by final rulemaking at 8 A.A.R. 4390, effective November 22, 2002 (Supp. 02-3). Section repealed; new Section made by final rulemaking at 12 A.A.R. 3475, effective September 12, 2006 (Supp. 06-3). Amended by exempt rulemaking at 16 A.A.R. 1205, effective June 15, 2010 (Supp. 10-2). Amended by exempt rulemaking at 16 A.A.R. 1950, effective September 10, 2010 (Supp. 10-3). Amended by final rulemaking at 17 A.A.R. 659, effective June 4, 2011 (Supp. 11-2).

R12-15-706. Assignment of Type B Certificate of Assured Water Supply

- A. The certificate holder of a Type B certificate or a certificate issued before the effective date of this Section that has not been classified pursuant to R12-15-707 and the assignee may apply for approval of an assignment of the certificate to another person within the time allowed by A.R.S. § 45-579(A). The assignee may file the application if there is no certificate holder. The application shall be submitted on a form prescribed by the Director with the initial fee required by R12-15-103(C), and the applicant shall provide the following:
 1. One of the following forms of proof of ownership for each assignee:
 - a. A title report, condition of title report, limited search title report, or recorded deed, dated within 90 days of the date the application is submitted to the Director and demonstrating that the assignee is the owner

- of the land that is the subject of the proposed assignment; or
- b. If the assignee is a potential purchaser, evidence of a purchase agreement;
 2. A current plat of the subdivision;
 3. An estimate of the 100-year water demand for the subdivision, based on the current plat;
 4. Evidence that all necessary water rights, permits, licenses, contracts, and easements have been or will be assigned to the assignee of the certificate;
 5. Evidence that the assignee has the financial capability to construct adequate delivery, storage, and treatment works for the subdivision according to the criteria in R12-15-720;
 6. Evidence that all water supplies listed on the current certificate are physically, continuously, and legally available to meet the estimated water demand of the subdivision after the assignment;
 7. Evidence that the proposed municipal provider has not changed and has agreed to serve the subdivision after the assignment;
 8. If the applicant requests that the Director classify the certificate pursuant to subsection (E) of this Section, evidence that the requirements of R12-15-704(H)(1) are satisfied;
 9. Any other information that the Director reasonably deems necessary to determine whether the application meets the criteria of A.R.S. § 45-579.
- B.** Each applicant shall sign the application for an assignment of a certificate. If an applicant is not a natural person, the entity's authorized officer, managing member, partner, trust officer, trustee, or other person who performs similar decision-making functions for the applicant shall sign the application. If an applicant submits a letter, signed by the applicant and dated within 90 days of the date the application is submitted, authorizing a representative to submit applications for permits regarding the land to be included in the certificate, the authorized representative may sign the application on the applicant's behalf.
- C.** Upon receiving an application for an assignment, the Director shall post the notice required by A.R.S. § 45-579(E).
- D.** Except as provided in subsection (E) of this Section, if the Director determines that the application meets the criteria of A.R.S. § 45-579(A), the Director shall issue a Type B certificate to each applicant. A Type B certificate issued under this subsection shall retain the issue date, the number of lots, and the estimated water demand shown on the original certificate, except as provided in subsection (F) of this Section. The Director shall determine that the application meets the criteria of A.R.S. § 45-579(A) if all of the following apply:
1. The application is submitted within the time allowed by A.R.S. § 45-579(A);
 2. The assignee is the owner or potential purchaser of the portion of the subdivision that is the subject of the assignment;
 3. There have been no material changes to the plat for which the original certificate was issued, according to the criteria in R12-15-708;
 4. The applicant demonstrates the financial capability to construct adequate delivery, storage, and treatment works for the subdivision according to the criteria in R12-15-720;
 5. All necessary water rights, permits, licenses, contracts, and easements have been or will be assigned to the assignee of the certificate;
 6. All water supplies listed on the current certificate are physically, continuously, and legally available to meet the estimated water demand of the subdivision after the assignment;
 7. Neither the applicant nor a predecessor in interest has impaired the manner in which consistency with management goal requirements were satisfied when the original certificate was issued; and
 8. The proposed municipal provider has agreed to serve the subdivision after the assignment.
- E.** The applicant may include in the application a request to classify the certificate as a Type A certificate. If the Director determines that the request meets the requirements of R12-15-704(H)(1), the Director shall classify the certificate as a Type A certificate.
- F.** In the case of a partial assignment, the Director shall determine whether changes to the plat are material according to R12-15-708. The Director shall issue a Type B certificate to the assignee for the portion of the subdivision that is the subject of the assignment and for the number of lots and the estimated water demand of the current plat of the portion of the subdivision that is the subject of the assignment. The Director shall issue a Type B certificate to the certificate holder for the portion of the subdivision retained by the certificate holder and for the remainder of the number of lots and the remainder of the estimated water demand. The sum of the number of lots and the sum of the amount of the estimated water demand shown on each certificate shall equal the total number of lots and the total estimated water demand shown on the certificate that is being assigned.
- G.** The Director shall review an application for an assignment of a Type B certificate pursuant to the licensing time-frame provisions in R12-15-401.

Historical Note

Adopted effective February 7, 1995 (Supp. 95-1). Section repealed; new Section made by final rulemaking at 12 A.A.R. 3475, effective September 12, 2006 (Supp. 06-3). Amended by exempt rulemaking at 16 A.A.R. 1205, effective June 15, 2010 (Supp. 10-2). Amended by exempt rulemaking at 16 A.A.R. 1950, effective September 10, 2010 (Supp. 10-3). Amended by final rulemaking at 17 A.A.R. 659, effective June 4, 2011 (Supp. 11-2).

R12-15-707. Application for Classification of a Type A Certificate

- A.** A holder of a Type B certificate or a certificate issued before the effective date of this Section may apply to the Director to classify the certificate as a Type A certificate by submitting an application on a form prescribed by the Director with the initial fee prescribed in R12-15-103(C), and attaching evidence that the certificate meets the requirements of R12-15-704(H)(1).
- B.** At least one certificate holder shall sign the application for classification of a certificate as a Type A certificate. If the applicant is not a natural person, the applicant's authorized officer, managing member, partner, trust officer, trustee, or other person who performs similar decision-making functions for the applicant shall sign the application. If the applicant submits a letter, signed by the applicant and dated within 90 days of the date the application is submitted, authorizing a representative to submit applications for permits regarding the land to be included in the certificate, the authorized representative may sign the application on behalf of the applicant.
- C.** If the applicant demonstrates that the requirements of R12-15-704(H)(1) are met, the Director shall classify the certificate as

a Type A certificate and issue a Type A certificate to each certificate holder.

Historical Note

Adopted effective February 7, 1995 (Supp. 95-1). Section repealed; new Section made by final rulemaking at 12 A.A.R. 3475, effective September 12, 2006 (Supp. 06-3). Amended by exempt rulemaking at 16 A.A.R. 1205, effective June 15, 2010 (Supp. 10-2). Amended by exempt rulemaking at 16 A.A.R. 1950, effective September 10, 2010 (Supp. 10-3). Amended by final rulemaking at 17 A.A.R. 659, effective June 4, 2011 (Supp. 11-2).

R12-15-708. Material Plat Change; Application for Review

- A. A certificate or a water report is applicable to the original plat for which the certificate or water report was issued and to a revised plat, unless the plat changes are material according to subsections (C) and (D) of this Section.
- B. If a plat is revised after the Director issues a certificate or a water report and the changes to the plat are material according to subsection (C) or (D) of this Section, the holder may:
 1. Apply for a new certificate or water report for the revised plat,
 2. Use the original plat for which the certificate or water report was issued, or
 3. Revise the plat so that any changes are not material according to subsections (C) and (D) of this Section.
- C. Changes to the plat for which a certificate or a water report has been issued are material if any of the following apply:
 1. The number of lots on the plat has increased by more than:
 - a. For subdivisions of six to 10 lots: one lot;
 - b. For subdivisions of 11 to 499 lots: 10%, rounding up to the nearest whole number; or
 - c. For subdivisions of 500 lots or more: 50 lots.
 2. The 100-year water demand for the revised plat exceeds the estimated water demand for the certificate, unless all of the following apply:
 - a. The 100-year water demand for the revised plat does not exceed the estimated water demand for the certificate by more than 10%, rounding to the nearest whole acre-foot, or by more than 25 acre-feet per year, whichever is less;
 - b. The 100-year water demand is not greater than the supply demonstrated to be physically, continuously, and legally available at the time of issuance of the certificate or water report, and that water supply remains physically, continuously, and legally available; and
 - c. For a certificate, one of the following applies:
 - i. The subdivision is enrolled as a member land in the CAGRD;
 - ii. Groundwater is not included as a source of supply; or
 - iii. The subdivision is located in the Pinal AMA and the 100-year water demand for the revised plat will not exceed the sum of the amount of the groundwater allowance and the amount of any extinguishment credits pledged to the certificate, including extinguishment credits pledged after the certificate was issued.
 3. For a certificate, additional land is included in the plat, unless all of the following apply:
 - a. The land included in the original plat for which the certificate was issued is located in a master-planned community;

- b. The outer boundaries of the master-planned community have not expanded;
- c. If the land included in the original plat for which the certificate was issued is enrolled as a member land in the CAGRD, the additional land has also been enrolled in the CAGRD; and
- d. A certificate has been issued for the additional land.

- D. Changes to a portion of a plat are not material if one of the following applies:
 1. The changes to the portion of the plat being reviewed are not material according to subsection (C) of this Section when compared to the equivalent portion of the plat for which the certificate was issued;
 2. The changes to the entire revised plat are not material according to subsection (C) of this Section when compared to the entire plat for which the certificate was issued; or
 3. For a partial assignment pursuant to R12-15-705 or R12-15-706, the plat for the portion of the subdivision retained by the certificate holder could be configured so that changes to the total number of lots and the estimated water demand for the entire subdivision, including the portion under consideration, are not material according to subsection (C) of this Section. For purposes of this subsection, the Director may require the applicant to submit evidence demonstrating whether changes to the plat are material. However, the Director shall not require the applicant to submit a plat for the retained portion of a subdivision, unless the materiality of changes to the plat cannot be determined with any other evidence.
- E. A person may apply for a review of a revised plat to determine whether any changes to the plat are material as follows:
 1. The applicant shall submit an application on a form prescribed by the Director with the initial fee required by R12-15-103(C), and shall attach the revised plat.
 2. The Director shall review the revised plat and the plat for which the certificate or water report was originally issued to determine whether any changes are material according to the criteria in subsections (C) and (D) of this Section.
 3. The Director shall issue a letter to the applicant stating whether any changes to the plat are material and identifying which changes, if any, are material. If the Director determines that the changes to the plat are not material, the Director's letter shall state that the certificate or water report is applicable to the revised plat.

Historical Note

Adopted effective February 7, 1995 (Supp. 95-1). Section repealed; new Section made by final rulemaking at 12 A.A.R. 3475, effective September 12, 2006 (Supp. 06-3). Amended by exempt rulemaking at 16 A.A.R. 1205, effective June 15, 2010 (Supp. 10-2). Amended by exempt rulemaking at 16 A.A.R. 1950, effective September 10, 2010 (Supp. 10-3). Amended by final rulemaking at 17 A.A.R. 659, effective June 4, 2011 (Supp. 11-2).

R12-15-709. Certificate of Assured Water Supply; Revocation

- A. The Director may revoke a certificate if an assured water supply does not exist.
- B. The Director shall not revoke a certificate if any of the residential lots within the plat have been sold.
- C. If the Director determines that a certificate should be revoked, the Director shall provide for an administrative hearing, in accordance with A.R.S. Title 41, Chapter 6, Article 10. To determine whether a certificate should be revoked, the Director shall use the standards in place at the time the original application was submitted for the certificate.

Historical Note

Adopted effective February 7, 1995 (Supp. 95-1). Section repealed; new Section made by final rulemaking at 12 A.A.R. 3475, effective September 12, 2006 (Supp. 06-3).

R12-15-710. Designation of Assured Water Supply

- A. A municipal provider applying for a designation of assured water supply shall submit an application on a form prescribed by the Director with the initial fee required by R12-15-103(C), and provide the following:
1. The applicant's current demand;
 2. The applicant's committed demand;
 3. The applicant's projected demand for the proposed term of the designation;
 4. The proposed term of the designation, which shall not be less than two years;
 5. Evidence that the criteria in subsection (E) of this Section are met; and
 6. Any other information that the Director determines is necessary to decide whether an assured water supply exists for the municipal provider.
- B. An application for a designation shall be signed by:
1. If the applicant is a city or town, the city or town manager or a person employed in an equivalent position. The application shall also include a resolution of the governing body of the city or town, authorizing that person to sign the application; or
 2. If the applicant is a private water company, the applicant's authorized officer, managing member, partner, trust officer, trustee, or other person who performs similar decision-making functions for the applicant.
- C. The Director shall give public notice of an application for designation in the same manner as provided for certificates in A.R.S. § 45-578.
- D. After a complete application is submitted, the Director shall review the application and associated evidence to determine:
1. The annual volume of water physically, continuously, and legally available for at least 100 years;
 2. The term of the designation, which shall not be less than two years;
 3. The applicant's estimated water demand;
 4. The applicant's groundwater allowance; and
 5. Whether the applicant has demonstrated compliance with all requirements in subsection (E) of this Section.
- E. The Director shall designate the applicant as having an assured water supply if the applicant demonstrates all of the following:
1. Sufficient supplies of water are physically available to meet the applicant's estimated water demand, according to the criteria in R12-15-716;
 2. Sufficient supplies of water are continuously available to meet the applicant's estimated water demand, according to the criteria in R12-15-717;
 3. Sufficient supplies of water are legally available to meet the applicant's estimated water demand, according to the criteria in R12-15-718;
 4. The proposed sources of water are of adequate quality, according to the criteria in R12-15-719;
 5. The applicant has the financial capability to construct adequate delivery, storage, and treatment works in a timely manner according to the criteria in R12-15-720;
 6. Any proposed groundwater use is consistent with the management plan in effect at the time of the application, according to the criteria in R12-15-721; and
 7. Any proposed use of groundwater withdrawn within an AMA is consistent with the management goal, according to the criteria in R12-15-722.

- F. The Director shall review an application for a designation of assured water supply pursuant to the licensing time-frame provisions in R12-15-401.

Historical Note

Adopted effective February 7, 1995 (Supp. 95-1). Section repealed; new Section made by final rulemaking at 12 A.A.R. 3475, effective September 12, 2006 (Supp. 06-3).

Amended by exempt rulemaking at 16 A.A.R. 1205, effective June 15, 2010 (Supp. 10-2). Amended by exempt rulemaking at 16 A.A.R. 1950, effective September 10, 2010 (Supp. 10-3). Amended by final rulemaking at 17 A.A.R. 659, effective June 4, 2011 (Supp. 11-2).

R12-15-711. Designation of Assured Water Supply; Annual Report Requirements, Review, Modification, Revocation

- A. A designated provider shall include in the annual report required by A.R.S. § 45-632 the following information for the preceding calendar year:
1. The designated provider's committed demand;
 2. The demand at build-out for customers with which the designated provider has entered into an agreement to serve water, other than committed demand;
 3. A report regarding the designated provider's compliance with water quality requirements;
 4. The depth-to-static water level of all wells from which the designated provider withdrew water; and
 5. Any other information the Director may reasonably require to determine whether the designated provider continues to meet the criteria for a designation of assured water supply.
- B. If there is a change of ownership, the subsequent owner of a designated provider shall notify the Director in writing of the change in ownership within 90 days.
- C. The Director shall review a designation at least every 15 years following issuance of the designation to determine whether the designation should be modified or revoked. To determine whether the designation should be modified or revoked, the Director shall use the standards in place at the time of review.
- D. The Director may modify a designation for good cause, including a merger, division of the designated provider, or a change in ownership of the designated provider.
- E. A designated provider may request a modification of the designation at any time pursuant to R12-15-710.
- F. The Director may revoke a designation if:
1. After notifying the designated provider and initiating a review of the designated provider's status, the Director determines that the designated provider has less water, according to the criteria in R12-15-710(E), than the amount required for a 100-year supply for the provider's:
 - a. Current demand,
 - b. Committed demand, and
 - c. Projected demand during the next two calendar years;
 2. The designated provider fails to construct adequate delivery, storage, and treatment works in a timely manner;
 3. ADEQ or another governmental entity with equivalent jurisdiction has determined, after notice and an opportunity for a hearing, that the designated provider is in significant noncompliance with A.A.C. Title 18, Chapter 4 and is not taking action to resolve the noncompliance; or
 4. The designated provider has violated its management plan requirements for two or more consecutive calendar years, and one of the following applies:
 - a. The provider fails to amend its water use plan in a manner that the Director determines will achieve compliance, or

- b. The provider fails to sign a stipulated agreement to remedy the violation.
- G. If the Director determines that a designation of assured water supply should be revoked, the Director shall provide for an administrative hearing, in accordance with A.R.S. Title 41, Chapter 6, Article 10.
- H. If a designated provider's designated status terminates, the provider may apply for re-designation at anytime after termination.
- I. Notwithstanding any other provision in this Article, a decision and order of the Director designating a city, town, or private water company as having an assured water supply is not affected by this Article solely because the rule numbers cited in the decision and order may have changed after the effective date of the decision and order.

Historical Note

Adopted effective February 7, 1995 (Supp. 95-1). Section repealed; new Section made by final rulemaking at 12 A.A.R. 3475, effective September 12, 2006 (Supp. 06-3).

R12-15-712. Analysis of Adequate Water Supply

- A. A person proposing to develop land outside an AMA that will not be served by a designated provider may apply for an analysis of adequate water supply before applying for a water report. An applicant for an analysis must be the owner of the land that is the subject of the application or have the written consent of the owner. The commissioner of the Arizona State Land Department may apply for an analysis for land owned by the state of Arizona outside an AMA or may consent to the inclusion of such land in an application.
- B. An applicant for an analysis shall submit an application on a form prescribed by the Director with the initial fee required by R12-15-103(C), and attach the following:
 - 1. A title report, condition of title report, limited search title report, or recorded deed, dated within 90 days of the date the application is submitted to the Director, demonstrating the ownership of the land that is the subject of the application;
 - 2. A description of the development, including:
 - a. A map of the land uses included in the development,
 - b. A list of water supplies proposed to be used by the development,
 - c. A summary of land use types included in the development, and
 - d. An estimate of the water demand for the land uses included in the development; and
 - 3. Evidence that the applicant has complied with subsection (E) of this Section.
- C. An applicant shall sign the application for an analysis. If an applicant is not a natural person, the applicant's authorized officer, managing member, partner, trust officer, trustee, or other person who performs similar decision-making functions for the applicant shall sign the application. If the applicant submits a letter, signed by the applicant and dated within 90 days of the date the application is submitted, authorizing a representative to submit applications for permits regarding the land that is the subject of the water report, the authorized representative may sign the application on the applicant's behalf.
- D. After a complete application is submitted, the Director shall determine the estimated water demand of the development.
- E. The Director shall issue an analysis if an applicant demonstrates one or more of the following:
 - 1. Sufficient supplies of water are physically available to meet all or part of the estimated water demand of the development for 100 years, according to the criteria in R12-15-716;
 - 2. Sufficient supplies of water are continuously available to meet the estimated water demand of the development for 100 years, according to the criteria in R12-15-717;
 - 3. Sufficient supplies of water are legally available to meet the estimated water demand of the development for 100 years, according to the criteria in R12-15-718;
 - 4. The proposed sources of water are of adequate quality, according to the criteria in R12-15-719.
- F. For 10 years after the Director issues an analysis, or a longer period allowed under subsections (H) or (I) of this Section:
 - 1. If groundwater is a source of supply in the analysis and the applicant demonstrates that groundwater is physically available under subsection (E)(1), the Director shall consider that supply of groundwater reserved for the use of the proposed development in subsequent determinations of physical availability pursuant to R12-15-716(B).
 - 2. If an analysis holder applies for a water report for a subdivision located on land included in the analysis, the Director shall presume that a criterion demonstrated in the analysis remains satisfied with respect to the subdivision, unless the Director has received new evidence demonstrating that the criterion is not satisfied. If the Director issues the water report, the Director shall reduce the volume of groundwater reserved pursuant to subsection (F)(1) of this Section by the amount of the estimated water demand for the water report that will be met with groundwater.
- G. The Director shall reduce the amount of water considered reserved for use of the development upon request by the analysis holder. If the analysis holder requesting a reduction is not the person to whom the analysis was issued, the Director shall reduce the amount of reserved groundwater only if the person to whom the analysis was issued or that person's designee consents to the request for reduction. The person to whom the analysis was issued shall notify the Director in writing of the person's designee for purposes of this subsection.
- H. The analysis holder may apply to the Director for a five-year extension of the time period in subsection (F) of this Section by submitting an application on a form prescribed by the Director no earlier than 36 months before the end of the time period and no later than 30 days before the end of the time period. If an extension is granted, the analysis holder may apply to the Director for an additional five-year extension by submitting an application on a form prescribed by the Director no earlier than 36 months before the end of the extended time period and no later than 30 days before the end of the extended time period. The Director shall extend the time period for no more than two successive five-year periods under this subsection if the analysis holder demonstrates one of the following:
 - 1. The analysis holder has made a substantial capital investment in developing the land included in the analysis.
 - 2. The analysis holder has made material progress in developing the land included in the analysis.
 - 3. Progress in developing the land included in the analysis has been delayed for reasons outside the control of the analysis holder.
- I. After the Director grants two five-year extensions pursuant to subsection (H) of this Section, the Director may extend the time period for additional five-year periods if the analysis holder files a timely application pursuant to subsection (H) of this Section and demonstrates one of the criteria in subsections (H)(1), (2), or (3) of this Section.
- J. The Director shall review an application for an analysis or an application for an extension pursuant to subsections (H) or (I) of this Section pursuant to the licensing time-frame provisions in R12-15-401.

Historical Note

Adopted effective February 7, 1995 (Supp. 95-1). Section repealed; new Section made by final rulemaking at 12 A.A.R. 3475, effective September 12, 2006 (Supp. 06-3).

Amended by exempt rulemaking at 16 A.A.R. 1205, effective June 15, 2010 (Supp. 10-2). Amended by exempt rulemaking at 16 A.A.R. 1950, effective September 10, 2010 (Supp. 10-3). Amended by final rulemaking at 17 A.A.R. 659, effective June 4, 2011 (Supp. 11-2).

R12-15-713. Water Report

- A. An application for a water report shall be filed by the current owner of the land that is the subject of the application.
- B. An applicant for a water report shall submit an application on a form prescribed by the Director with the initial fee required by R12-15-103(C), and provide the following:
 - 1. A title report, condition of title report, limited search title report, or recorded deed, dated within 90 days of the date the application is filed and demonstrating that the applicant is the owner of the land that is the subject of the application;
 - 2. A plat of the subdivision;
 - 3. An estimate of the 100-year water demand for the subdivision;
 - 4. A list of all proposed sources of water that will be used by the subdivision;
 - 5. If the applicant is seeking a finding that the subdivision has an adequate water supply, evidence that the criteria in subsection (E) of this Section are met; and
 - 6. Any other information that the Director reasonably determines is necessary to decide whether an adequate water supply exists for the subdivision.
- C. Each applicant shall sign the application for a water report. If an applicant is not a natural person, the applicant's authorized officer, managing member, partner, trust officer, trustee, or other person who performs similar decision-making functions for the applicant shall sign the application. If an applicant submits a letter, signed by the applicant and dated within 90 days of the date the application is submitted, authorizing a representative to submit applications for permits regarding the land to be included in the water report, the authorized representative may sign the application on the applicant's behalf.
- D. After a complete application is submitted, the Director shall review the application and associated evidence to determine:
 - 1. The estimated water demand of the subdivision,
 - 2. Whether the applicant has demonstrated all of the requirements in subsection (E) of this Section.
- E. The Director shall determine that the subdivision has an adequate water supply if the applicant demonstrates all of the following:
 - 1. Sufficient supplies of water are physically available to meet the estimated water demand of the subdivision, according to the criteria in R12-15-716;
 - 2. Sufficient supplies of water are continuously available to meet the estimated water demand of the subdivision, according to the criteria in R12-15-717;
 - 3. Sufficient supplies of water are legally available to meet the estimated water demand of the subdivision, according to the criteria in R12-15-718;
 - 4. The proposed sources of water will be of adequate quality, according to the criteria in R12-15-719;
 - 5. The applicant has the financial capability to construct adequate delivery, storage, and treatment works for the subdivision according to the criteria in R12-15-720.
- F. The Director shall issue a water report to the applicant that states whether the applicant has complied with the requirements in subsection (E) of this Section.

- G. The Director shall review an application for a water report pursuant to the licensing time-frame provisions in R12-15-401.
- H. The Director may review or modify a water report if the Director receives new evidence regarding the criteria in subsection (E) of this Section. The Director shall not modify a water report pursuant to this subsection if any of the residential lots included in the plat have been sold. To determine whether a water report should be modified pursuant to this subsection, the Director shall use the standards in place at the time the original application was submitted for the water report. If the Director modifies a water report, the Director shall:
 - 1. Provide for an administrative hearing pursuant to A.R.S. Title 41, Chapter 6, Article 10; and
 - 2. Notify the Arizona Department of Real Estate.
- I. An owner of land that is the subject of a water report may request a modification of the water report at any time by submitting an application in accordance with subsection (B) of this Section. To determine whether a water report should be modified pursuant to this Section, the Director shall use the standards in place at the time of review.
- J. A water report is subject to the provisions of R12-15-708.

Historical Note

Adopted effective February 7, 1995 (Supp. 95-1). Section repealed; new Section made by final rulemaking at 12 A.A.R. 3475, effective September 12, 2006 (Supp. 06-3).

Amended by exempt rulemaking at 16 A.A.R. 1205, effective June 15, 2010 (Supp. 10-2). Amended by exempt rulemaking at 16 A.A.R. 1950, effective September 10, 2010 (Supp. 10-3). Amended by final rulemaking at 17 A.A.R. 659, effective June 4, 2011 (Supp. 11-2).

R12-15-714. Designation of Adequate Water Supply

- A. A municipal provider applying for a designation of adequate water supply shall submit an application on a form prescribed by the Director with the initial fee required by R12-15-103(C), and the following:
 - 1. The applicant's current demand;
 - 2. The applicant's committed demand;
 - 3. The applicant's projected demand for the proposed term of the designation;
 - 4. The proposed term of the designation, which shall not be less than two years;
 - 5. Evidence that the criteria in subsection (E) of this Section are met; and
 - 6. Any other information that the Director determines is necessary to decide whether an adequate water supply exists for the municipal provider.
- B. A city or town, other than a municipal provider, that is applying for a designation shall submit an application on a form prescribed by the Director with the initial fee required in R12-15-103(C), and provide the following:
 - 1. The current demand of the applicant's service area;
 - 2. The committed demand of the applicant's service area;
 - 3. The projected demand of the applicant's service area for the proposed term of the designation;
 - 4. The proposed term of the designation, which shall not be less than two years; and
 - 5. Evidence that the requirements in A.R.S. § 45-108(D) are met.
- C. An application for a designation shall be signed by:
 - 1. If the applicant is a city or town, the city or town manager or a person employed in an equivalent position. The application shall also include a resolution of the governing body of the city or town, authorizing that person to sign the application; or

2. If the applicant is a private water company, the applicant's authorized officer, managing member, partner, trust officer, trustee, or other person who performs similar decision-making functions for the applicant.
- D. After a complete application is submitted, the Director shall review the application and associated evidence to determine:
 1. The annual volume of water that is physically, continuously, and legally available for at least 100 years;
 2. The term of the designation, which shall not be less than two years;
 3. The estimated water demand for the applicant's service area for 100 years; and
 4. Whether the applicant has demonstrated compliance with all requirements in subsection (E) or (F) of this Section.
- E. The Director shall designate the applicant as having an adequate water supply pursuant to subsection (A) of this Section if the applicant demonstrates all of the following:
 1. Sufficient supplies of water are physically available to meet the applicant's estimated water demand, according to the criteria in R12-15-716;
 2. Sufficient supplies of water are continuously available to meet the applicant's estimated water demand, according to the criteria in R12-15-717;
 3. Sufficient supplies of water are legally available to meet the applicant's estimated water demand, according to the criteria in R12-15-718;
 4. The proposed sources of water are of adequate quality, according to the criteria in R12-15-719; and
 5. The applicant has the financial capability to construct adequate delivery, storage, and treatment works in a timely manner according to the criteria in R12-15-720.
- F. The Director shall issue a designation pursuant to subsection (B) of this Section if the applicant demonstrates that the requirements of A.R.S. § 45-108(D) are met.
- G. The Director shall review an application for a designation of adequate water supply pursuant to the licensing time-frame provisions in R12-15-401.
- B. If there is a change of ownership, the subsequent owner of a designated provider shall notify the Director in writing of the change in ownership within 90 days.
- C. The Director shall review a designation at least every 15 years following issuance of the designation to determine whether the designation should be modified or revoked.
- D. The Director may modify a designation for good cause, including a merger, division of the designated provider, or a change in ownership of the designated provider. A designated provider may request a modification of the designation at any time pursuant to R12-15-714. To determine whether the designation should be modified, the Director shall use the standards in place at the time of review.
- E. The Director may revoke a designation if:
 1. After notifying the designated provider and initiating a review of the designated provider's status, the Director determines that the designated provider has less water, according to the criteria in R12-15-714(E), than the amount required for a 100-year supply for the provider's:
 - a. Current demand,
 - b. Committed demand, and
 - c. Projected demand for the next two calendar years;
 2. The designated provider fails to construct adequate delivery, storage, and treatment works in a timely manner; or
 3. ADEQ or another governmental entity with equivalent jurisdiction has determined, after notice and an opportunity for a hearing, that the designated provider is in significant noncompliance with A.A.C. Title 18, Chapter 4 and is not taking action to resolve the noncompliance.
- F. To determine whether the designation should be revoked, the Director shall use the standards in place at the time of review. If the Director determines that a designation of adequate water supply should be revoked, the Director shall provide for an administrative hearing, in accordance with A.R.S. Title 41, Chapter 6, Article 10.
- G. If a designated provider's designated status terminates, the provider may apply for re-designation at anytime after termination.
- H. Notwithstanding any other provision in this Article, a decision and order of the Director designating a city, town, or private water company as having an assured water supply is not affected by this Article solely because the rule numbers cited in the decision and order may have changed after the effective date of the decision and order.

Historical Note

Adopted effective February 7, 1995 (Supp. 95-1). Section repealed; new Section made by final rulemaking at 12 A.A.R. 3475, effective September 12, 2006 (Supp. 06-3). Amended by exempt rulemaking at 16 A.A.R. 1205, effective June 15, 2010 (Supp. 10-2). Amended by exempt rulemaking at 16 A.A.R. 1950, effective September 10, 2010 (Supp. 10-3). Amended by final rulemaking at 17 A.A.R. 659, effective June 4, 2011 (Supp. 11-2).

R12-15-715. Designation of Adequate Water Supply; Annual Report Requirements, Review, Modification, Revocation

- A. By March 31 of each calendar year, a designated provider shall submit the following information for the preceding calendar year on a form provided by the Director:
 1. The designated provider's committed demand;
 2. The demand at build-out for customers with which the designated provider has entered into an agreement to serve water, other than committed demand;
 3. A report regarding the designated provider's compliance with water quality requirements;
 4. The depth-to static water level of all wells from which the designated provider withdrew water;
 5. A report regarding volume of water withdrawn, diverted, or received from each source for delivery to customers;
 6. Any other information the Director may reasonably require to determine whether the designated provider continues to meet the criteria for a designation of adequate water supply.

Historical Head

Adopted effective February 7, 1995 (Supp. 95-1). Section repealed; new Section made by final rulemaking at 12 A.A.R. 3475, effective September 12, 2006 (Supp. 06-3).

R12-15-716. Physical Availability

- A. The volume of a proposed source of water that is physically available to an applicant for a determination of assured water supply or a determination of adequate water supply is the amount determined by the Director to be physically available pursuant to subsections (B) through (L) of this Section.
- B. If the proposed source is groundwater, the applicant shall submit a hydrologic study, using a method of analysis approved by the Director, that accurately describes the hydrology of the affected area. Except as provided in subsection (D) of this Section, the Director shall determine that the proposed volume of groundwater will be physically available for the proposed use if both of the following apply:
 1. The groundwater will be withdrawn as follows:
 - a. Except as provided in subsection (B)(1)(b) of this Section, from wells owned by the applicant or the proposed municipal provider that are located within

the service area of the applicant or the proposed municipal provider or from proposed wells that the Director determines are likely to be constructed for future uses of the applicant or the proposed municipal provider.

- b. If the application is for a dry lot development, from wells that the Director determines are likely to be constructed on individual lots.
2. Except as provided in subsection (C) of this Section, the groundwater will be withdrawn from depths that do not exceed the applicable maximum 100-year depth-to-static water level according to the following:

Type and location of development	Maximum 100-year depth-to-static water level
a. Developments in Phoenix, Tucson, or Prescott AMAs, except dry lot developments	1000 feet below land surface
b. Developments in Pinal AMA, except dry lot developments	1100 feet below land surface
c. Developments outside AMAs, except dry lot developments	1200 feet below land surface
d. Dry lot developments	400 feet below land surface

3. The Director shall calculate the projected 100-year depth-to-static water level by adding the following for the area where groundwater withdrawals are proposed to occur:
 - a. The depth-to-static water level on the date of application.
 - b. The projected declines caused by existing uses, using the projected decline in the 100-year depth-to-static water level during the 100-year period after the date of application, calculated using records of declines for the maximum period of time for which records are available up to 25 calendar years before the date of application. If evidence is provided to the Director of likely changes in pumpage patterns and aquifer conditions, as opposed to those patterns and conditions occurring historically, the Director may determine projected declines using a model rather than evidence of past declines.
 - c. The projected decline in the depth-to-static water level during the 100-year period after the date of application, calculated by adding the projected decline from each of the following that are not accounted for in subsection (B)(3)(b) of this Section:
 - i. The estimated water demand of issued certificates and water reports that will be met with groundwater or stored water recovered outside the area of impact of the stored water, not including the demand of subdivided lots included in abandoned plats;
 - ii. The estimated water demand of designations that will be met with groundwater or stored water recovered outside the area of impact of the stored water; and
 - iii. The groundwater reserved for developments for which the Director has issued an analysis pursuant to R12-15-703 or R12-15-712.
 - d. The projected decline in depth-to-static water level that the Director projects will result from the applicant's proposed use over a 100-year period.

- C. The Director shall lower the maximum 100-year depth-to-static water level requirement specified in subsection (B)(2) of this Section for an applicant seeking a determination of adequate water supply if the applicant demonstrates both of the following:
 1. Groundwater is available at the lower depth; and
 2. The applicant has the financial capability to obtain the groundwater at the lower depth, according to the criteria in R12-15-720.
- D. If the proposed source is groundwater that will be withdrawn from a groundwater basin outside an AMA and transported into an AMA, the Director shall determine that the proposed volume of groundwater will be physically available if both of the following apply:
 1. The groundwater will be withdrawn from wells owned by the applicant or the proposed municipal provider or from proposed wells that the Director determines are likely to be constructed for the future uses of the applicant or the proposed municipal provider.
 2. Withdrawal of the groundwater will comply with any depth-to-static water level criteria, decline rate criteria, and volume limitation criteria prescribed by statute. If there are no applicable depth-to-static water level criteria prescribed by statute, withdrawal of the groundwater shall comply with the depth-to-static water level criteria in subsection (B)(2) of this Section.
- E. Subject to subsection (L) of this Section, if the proposed source of water is surface water, other than CAP water, or Colorado River water, the Director shall determine the annual volume of water that is physically available for the proposed use, taking into consideration the priority date of the right or claim, by calculating 120% of the firm yield of the proposed source at the point of diversion as limited by the capacity of the diversion works; except that if the applicant demonstrates that an alternative source of water will be physically available during times of shortage in the proposed surface water supply, the Director shall determine the annual volume of water available by calculating 100% of the median flow of the proposed source at the point of diversion as limited by the capacity of the diversion works. The Director shall determine the firm yield or median flow as follows:
 1. By calculating the firm yield or median flow at the point of diversion based on at least 20 calendar years of flow records from the point of diversion, unless 20 calendar years of records are unavailable and the Director determines that a shorter period of record provides information necessary to determine the firm yield or median flow; or
 2. By calculating the firm yield or median flow at the point of diversion using a hydrologic model that projects the firm yield or median flow, taking into account at least 20 calendar years of historic river flows, changes in reservoir storage facilities, and projected changes in water demand. The yield available to any applicant may be composed of rights to stored water, direct diversion, or normal flow rights. If the permit for the water right was issued less than five years before the date of application, the Director shall require the applicant to submit evidence, as applicable, in accordance with this subsection.
- F. Subject to subsection (L) of this Section, if the proposed source of water is CAP water, the Director shall determine the annual volume of water that is physically available for the proposed use as follows:
 1. If the applicant or the proposed municipal provider has a non-declining, long-term municipal and industrial subcontract for CAP water, calculate 100% of the annual amount of water established in the subcontract.

2. If the applicant has a lease for Indian priority CAP water, calculate 100% of the annual amount of water established in the lease.
 3. If the applicant has a subcontract for CAP water other than a non-declining, long-term municipal and industrial subcontract or a lease for Indian priority CAP water:
 - a. If the applicant submits evidence of sufficient backup water supplies, calculate 100% of the annual amount of water established in the subcontract. The applicant may establish backup water supplies by one or more of the following:
 - i. A drought response plan;
 - ii. Long-term storage credits;
 - iii. A contract for water with a multi-county water conservation district; or
 - iv. Evidence of other backup supplies that are physically, continuously, and legally available.
 - b. If the applicant does not submit evidence of sufficient backup water supplies pursuant to subsection (F)(3)(a) of this Section, calculate the percentage of the annual amount of water established in the subcontract that reasonably reflects the reliability of the applicant's CAP water supply.
- G.** Subject to subsection (L) of this Section, if the proposed source of water is Colorado River water, the Director shall determine the annual volume of water that is physically available for the proposed use as follows:
1. If the priority of the contract for Colorado River water provides reliability equal to or better than CAP municipal and industrial water, calculate 100% of the annual amount of water established in the contract.
 2. If the contract for Colorado River water provides reliability that is less than CAP municipal and industrial water:
 - a. If the applicant submits evidence of sufficient backup water supplies, calculate 100% of the annual amount of water in the contract. The applicant may establish backup water supplies by one or more of the following:
 - i. A drought response plan;
 - ii. Long-term storage credits;
 - iii. A contract for water with a multi-county water conservation district; or
 - iv. Evidence of other backup supplies that are physically, continuously, and legally available.
 - b. If the applicant does not submit evidence of sufficient backup water supplies pursuant to subsection (G)(2)(a) of this Section, calculate the percentage of the annual amount of water established in the contract that reasonably reflects the reliability of the applicant's Colorado River water supply.
- H.** Subject to subsection (I) of this Section, if the proposed source of water is effluent, the Director shall determine the annual volume of water that will be physically available by evaluating the current, metered production or the projected production of effluent. The volume of effluent that is physically available shall not include the following:
1. If the effluent will be delivered directly from a wastewater treatment plant, the volume of effluent that exceeds the applicant's estimated water demand that will be met with effluent; and
 2. The volume of effluent that does not comply with any applicable water quality requirements for the proposed use of the effluent.
- I.** If the proposed source of water is stored water to be recovered from recovery wells, the Director shall determine the volume of water that is physically available for the proposed use as follows:
1. If the stored water is represented by long-term storage credits in existence on the date of application, the amount that is physically available is the amount that may be recovered pursuant to the credits in a manner consistent with A.R.S. Title 45, Chapter 3.1, subject to subsection (I)(3) of this Section.
 2. If the applicant proposes to use long-term storage credits that do not exist on the date of application or recover stored water on an annual basis pursuant to A.R.S. § 45-851.01, the Director shall evaluate the following in determining whether to include the proposed credits or the water proposed to be stored and recovered annually in the amount of water that is physically available for the applicant's proposed use:
 - a. The terms of a contract to obtain water to store in a storage facility;
 - b. The physical, continuous, and legal availability of the water proposed to be stored;
 - c. The presence of an existing storage facility that will be available for use for the proposed storage;
 - d. The existence of all required permits of an adequate duration; and
 - e. Whether recovery of the stored water will comply with subsection (I)(3) of this Section.
 3. If the applicant proposes to recover the stored water from recovery wells located outside the area of impact of storage, the stored water will be considered physically available only if sufficient water exists for the withdrawals consistent with both of the following:
 - a. The maximum 100-year depth-to-static water level requirements established in subsection (B)(2) of this Section; and
 - b. Any criteria for the withdrawals prescribed in the management plan in effect at the time of the application.
- J.** If the applicant will obtain the source of water through a water exchange agreement, the Director shall determine that the water is physically available for the proposed use if the applicant submits evidence that the source of water the applicant or the applicant's customers will use will be physically available in accordance with the terms of this Section.
- K.** In the case of two or more pending, conflicting, complete and correct applications for determinations of assured water supply or determinations of adequate water supply, the Director shall give priority to the application with the earliest priority date. The priority date of an application for a determination of assured water supply or determination of adequate water supply shall be the date that a complete and correct application is filed with the Director. The Director shall consider an application complete and correct if it contains all the information required and the Director verifies that the information is accurate.
- L.** For a certificate applicant that proposes to use surface water, the Director shall determine that the proposed source is physically available only if the applicant demonstrates one of the following:
1. The land that is the subject of the application is a member land of the CAGRD.
 2. The applicant has independently obtained the surface water supply.
 3. The proposed municipal provider would satisfy the criteria in R12-15-722 if the municipal provider were subject to those requirements.

Historical Note

Adopted effective February 7, 1995 (Supp. 95-1). Section repealed; new Section made by final rulemaking at 12 A.A.R. 3475, effective September 12, 2006 (Supp. 06-3).

R12-15-717. Continuous Availability

- A. The Director shall determine that an applicant will have sufficient supplies of water that will be continuously available for 100 years if the applicant submits sufficient evidence that adequate delivery, storage, and treatment works will be in place in a timely manner to make the water available to the applicant or the applicant's customers for 100 years and the applicant meets any applicable requirements in subsections (B) through (G) of this Section.
- B. If the proposed source of water is groundwater, the applicant shall demonstrate that wells of a sufficient capacity will be constructed in a timely manner to serve the proposed uses on a continuous basis for 100 years.
- C. If the proposed source of water is surface water other than CAP water or Colorado River water, the applicant shall demonstrate that a continuous supply will exist because of one or more of the following:
 1. The projected volume to be diverted from the source is perennial at the point of diversion;
 2. Adequate storage facilities will be available to the applicant in a timely manner to store water for use when a volume of surface water is not available at the point of diversion to satisfy the applicant's water demands;
 3. The applicant has presented evidence of supplies of other sources of water that the Director has determined will be physically, continuously, and legally available to supplement the applicant's proposed surface water supplies;
 4. The applicant or the proposed municipal provider will withdraw surface water from wells of sufficient capacity to meet the applicant's estimated water demand on a continuous basis for 100 years; or
 5. The applicant has submitted a drought response plan that the Director has determined will conserve or augment a volume of water equal to the volume of water that is subject to drought.
- D. If the proposed source of water is CAP water or Colorado River water, the applicant shall demonstrate that a continuous supply is available because of one or more of the following:
 1. Adequate storage facilities will be available to the applicant in a timely manner to store water when a volume of CAP water or Colorado River water is not available to meet the applicant's water demands;
 2. The applicant has presented evidence of supplies of other sources of water that the Director has determined will be physically, continuously, and legally available to the applicant to supplement the proposed CAP water or Colorado River water supplies; or
 3. The applicant has submitted a drought response plan that the Director has determined will conserve or augment a volume of water equal to the volume subject to drought.
- E. If the proposed source of water is effluent, the applicant shall demonstrate that the capability to use the effluent to meet the demands of the proposed use will not be affected by any fluctuations in the supply of the effluent.
- F. If the proposed source of water is stored water to be recovered from recovery wells, the applicant shall demonstrate that recovery wells of a sufficient capacity will be constructed in a timely manner to serve the proposed use on a continuous basis for 100 years.
- G. If an applicant will obtain the source of water through a water exchange agreement, the applicant shall demonstrate that the source of water the applicant or the applicant's customers will

use will be continuously available in accordance with the terms of this Section.

Historical Note

Adopted effective February 7, 1995 (Supp. 95-1). Amended by emergency rulemaking at 11 A.A.R. 2706, effective June 29, 2005 for 180 days (Supp. 05-2). Emergency renewed for 180 days at 12 A.A.R. 144, effective December 23, 2005 (Supp. 05-4). Emergency expired. Section repealed; new Section made by final rulemaking at 12 A.A.R. 3475, effective September 12, 2006 (Supp. 06-3).

R12-15-718. Legal Availability

- A. The Director shall determine that an applicant will have sufficient supplies of water that will be legally available for at least 100 years if the applicant submits all of the applicable information required by this Section.
- B. If the applicant is an applicant for a certificate or a water report, the applicant shall submit the following, as applicable:
 1. A Notice of Intent to Serve agreement between the owner of the land to be included in the subdivision and the proposed municipal provider, stating the proposed municipal provider's intent to serve the subdivision;
 2. If the proposed municipal provider is a city or town, evidence indicating that the proposed subdivision is located within the incorporated limits of the city or town or evidence of the legal right of the city or town to serve water to the subdivision outside the city or town's incorporated limits; or
 3. If the proposed municipal provider is a private water company, one of the following:
 - a. Evidence that the proposed municipal provider has a certificate of convenience and necessity approved by the Arizona Corporation Commission and the subdivision is located within the geographic area described in the certificate of convenience and necessity or any other area in which the Arizona Corporation Commission authorizes the private water company to serve water;
 - b. Evidence that the proposed municipal provider has an order preliminary issued by the Arizona Corporation Commission authorizing the municipal provider to provide water service and the proposed subdivision is located within the area described in the order preliminary; or
 - c. Evidence that the proposed municipal provider is not a public service corporation regulated by the Arizona Corporation Commission.
- C. If the applicant is a private water company applying for a designation, the applicant shall submit evidence that the applicant has a certificate of convenience and necessity approved by the Arizona Corporation Commission, or has been issued an order preliminary by the Arizona Corporation Commission for a certificate of convenience and necessity, authorizing the applicant to serve the proposed use.
- D. If a proposed source of water is groundwater to be withdrawn within an AMA, the applicant shall submit evidence that the applicant or the proposed municipal provider has one or more of the following:
 1. A service area right;
 2. An applicable non-irrigation grandfathered right to withdraw groundwater, in an amount sufficient to serve the proposed use; or
 3. A pending notice of intent to establish a new service area and all of the following apply:

Department of Water Resources

- a. The notice of intent to establish a new service area identifies the proposed subdivision,
 - b. The applicant or the proposed municipal provider has obtained a permit for any wells used to establish the service area right,
 - c. The proposed municipal provider has obtained a water right or recovery well permit to establish the service area right, and
 - d. The water right is of sufficient volume and duration to meet the estimated water demand of the proposed subdivision until the anticipated date of issuance of a service area right.
- E. If a proposed source of water is surface water other than CAP water or Colorado River water:
 - 1. The applicant shall submit evidence that the applicant or the proposed municipal provider has a certificated surface water right, decreed water right, or a pre-1919 claim for the proposed source. If the applicant or the proposed municipal provider does not hold a surface water right or claim, but will receive water pursuant to a water right or claim that is appurtenant to the land that is the subject of the application, the applicant shall submit evidence of the water right or claim and evidence that the water right or claim may neither be legally withheld nor severed and transferred by the right holder or claimant.
 - 2. If the certificated surface water right or decreed water right pre-dates the date of application by at least five years, or the applicant submits a pre-1919 claim, the applicant shall submit one of the following:
 - a. Evidence that the surface water supply has been used pursuant to the applicable water right or claim within the five years before the date of application;
 - b. Evidence that a court has determined that the right has not been abandoned; or
 - c. Evidence that the non-use would not have resulted in an abandonment of the right pursuant to A.R.S. § 45-189.
 - 3. The Director shall determine that the volume of water that is legally available pursuant to a certificated surface water right, a decreed water right, or a pre-1919 claim is equal to the face value of the right or claim. If the right or claim is subsequently adjudicated, the Director shall determine the volume of water that is legally available based on the adjudicated amount of water.
- F. Subject to subsections (M) and (N) of this Section, if a proposed source of water is CAP water, the applicant shall submit evidence that the applicant or the proposed municipal provider has entered into a subcontract with a multi-county water conservation district for the proposed volume of CAP water. The Director shall presume that a 50-year long-term, non-declining municipal and industrial subcontract is sufficient evidence of the legal availability of the volume of CAP water specified in the subcontract for 100 calendar years.
- G. Subject to subsections (M) and (N) of this Section, if a proposed source of water is Colorado River water, the applicant shall submit evidence of one of the following:
 - 1. The applicant or the proposed municipal provider has a contract with the United States Secretary of the Interior for the proposed supply; or
 - 2. The applicant has obtained an allocation of Colorado River water from an entity to which all of the following apply:
 - a. The entity holds a contract for Colorado River water with the United States Secretary of the Interior;
 - b. The entity provides Colorado River water to the proposed municipal provider;
 - c. The entity has allocated a sufficient volume of the Colorado River water to the subdivision; and
 - d. The area that the entity may serve, described in the contract with the United States Secretary of the Interior, includes the subdivision.
- H. If a proposed source of water is effluent, the applicant shall submit evidence that the applicant or the proposed municipal provider has the legal right to use the effluent.
- I. If the applicant will obtain a proposed source of water through a written contract other than a water exchange agreement, a contract between a certificate applicant and the municipal provider proposed to serve the applicant, a contract with the United States Secretary of the Interior for Colorado River water, or a subcontract with a multi-county water conservation district, the applicant shall submit evidence that the person providing the water under the contract has a legal right to the water in accordance with the terms of this Section and that the terms of the contract will ensure that the proposed source of water will be delivered to the applicant or to the proposed subdivision. The Director shall determine the term of years for which the proposed source of water is legally available based on the term of years remaining in the contract. The Director shall determine the quantity of water legally available based on the volume established in the contract.
- J. If the applicant will obtain a proposed source of water through a water exchange agreement, the applicant shall submit evidence that the water exchange agreement satisfies the requirements of A.R.S. Title 45, Chapter 4.
- K. If the Director can determine the proposed source of water to be physically and continuously available only because of the use of storage facilities by the applicant or by the proposed municipal provider, the applicant shall submit evidence of the applicant's or the proposed municipal provider's legal right to store water in the storage facilities.
- L. If the applicant proposes to use long-term storage credits, the applicant shall submit evidence that the applicant or the proposed municipal provider has the legal right to use the credits under A.R.S. Title 45, Chapter 3.1.
- M. If a proposed supply of water is Colorado River water or CAP water leased from an Indian community, the applicant shall submit evidence that the water leased has a priority equal to or higher than CAP municipal and industrial water, evidence that the Indian community is expressly authorized by an Act of Congress to lease the water for use off Indian community lands, evidence of the lease, and evidence of one of the following:
 - 1. The proposed water supply is available under the lease for at least 100 years from any time during the year in which the applicant submits the application.
 - 2. The term of the lease has less than 100 years remaining in the year in which the applicant submits the application and a supplemental water supply, together with the leased water, provides a 100-year water supply. The applicant shall demonstrate that the supplemental water supply is physically, continuously, and legally available and, if such supplemental supply is groundwater, that use of the groundwater is consistent with the management goal of the AMA. If the supplemental supply is water recovered through the use of long-term storage credits, the applicant shall also submit the following, as applicable:
 - a. If the applicant is to use the long-term storage credits before the beginning of the lease term, evidence that the applicant or the proposed municipal provider has obtained a recovery well permit that allows the applicant or the proposed municipal provider to

recover water pursuant to the long-term storage credits; or

- b. If the long-term storage credits will be accrued in the future, evidence that the applicant or the proposed municipal provider will accrue the long-term storage credits within 20 years after the effective date of the designation, certificate, or water report by storing the water under an issued water storage permit at a permitted storage facility and that no more than 20 years of the applicant's supplemental water supply will be provided by the long-term storage credits.

N. If the Director previously determined that Colorado River water or CAP water leased from an Indian community was legally available to a designated provider for 100 years, the Director shall determine that the designated provider continues to have a legally available supply of water for 100 years for the annual amount of water available under the lease if:

1. The lease has at least 50 years remaining in its term or the lease has at least 40 years remaining in its term and the designated provider submits evidence to the Director of active and ongoing negotiations with the Indian community to renew or re-negotiate the lease; and
2. One of the following applies:
 - a. No more than 15% of the total water supplies that the designated provider establishes as physically, continuously, and legally available during any year are obtained through leases with Indian communities;
 - b. Groundwater will be physically, continuously, and legally available to the designated provider at the end of the lease term to substitute for the leased water for the remainder of the 100-year period, and the projected use of groundwater is consistent with the management goal of the AMA. For purposes of this subsection, the designated provider may demonstrate that the proposed use is consistent with the management goal by entering into a written agreement with the Director under which the designated provider agrees to replace through replenishment or underground storage any groundwater used at the end of the lease term if groundwater use is not consistent with the management goal. The written agreement shall provide that specific performance is the only remedy in the event of default;
 - c. A non-groundwater source of water will be physically, continuously, and legally available at the end of the lease term to substitute for the leased water for the remainder of the 100-year period; or
 - d. The designated provider's governing board or council submits a resolution requesting that the designated provider be allowed to increase its projected use of Indian lease water from 15%, as allowed by subsection (N)(2)(a) of this Section, to 20%, and the Director finds that all of the following apply:
 - i. No more than 20% of the total water supplies that the designated provider establishes as physically, continuously, and legally available during any year are obtained through leases with Indian communities;
 - ii. No more than 15% of the total water supplies that the designated provider establishes as physically, continuously, and legally available during any year are obtained through any single lease with an Indian community; and

- iii. The designated provider does not meet the requirements of subsections (N)(2)(a), (b), or (c) of this Section.

Historical Note

Adopted effective February 7, 1995 (Supp. 95-1). Section repealed; new Section made by final rulemaking at 12 A.A.R. 3475, effective September 12, 2006 (Supp. 06-3).

R12-15-719. Water Quality

A. Except as provided in subsection (B) of this Section, when reviewing an application for a determination of assured water supply or a determination of adequate water supply, the Director shall determine that the water supply is of adequate quality if one of the following applies:

1. The applicant certifies on the application that the applicant or the proposed municipal provider will be regulated by ADEQ, or another governmental entity with equivalent jurisdiction, as a public water system pursuant to A.R.S. § 49-351, et seq., unless ADEQ, or another governmental entity with equivalent jurisdiction, has determined, after notice and an opportunity for a hearing, that the public water system is in significant noncompliance with A.A.C. Title 18, Chapter 4 and is not taking action to resolve the noncompliance; or
 2. The applicant has submitted results of a lab analysis demonstrating that the water meets water quality requirements in accordance with A.A.C. Title 18, Chapter 4, or that the water will meet these requirements after treatment that is required by law. The lab analysis shall be based on water withdrawn from a well representative of the well or wells from which water will be withdrawn for the proposed use, conducted in compliance with sample collection and analysis requirements in A.A.C. Title 18, Chapter 4, and completed within 60 days of the date the application is submitted to the Director. If ADEQ waives any of the water quality or sample collection and analysis requirements in A.A.C. Title 18, Chapter 4, the Director shall not require the applicant to meet the waived requirements.
- B. If a well or a proposed well from which water will be withdrawn for the proposed use is located within one mile of a WQARF site or Superfund site, the Director shall determine that the water supply is of adequate quality only if the applicant submits a contaminant migration and mitigation analysis, demonstrating that the water supply will continue to meet the requirements in A.A.C. Title 18, Chapter 4 for 100 years. The contaminant migration and mitigation analysis may include the impact of any mitigation or treatment, including mitigation or treatment required pursuant to a consent decree.

Historical Note

Adopted effective February 7, 1995 (Supp. 95-1). Section repealed; new Section made by final rulemaking at 12 A.A.R. 3475, effective September 12, 2006 (Supp. 06-3).

R12-15-720. Financial Capability

A. The Director shall determine that an applicant for a certificate or a water report has the financial capability to construct adequate delivery, storage, and treatment works if the applicant demonstrates one or more of the following:

1. The applicant will submit its final plat to a qualified platting authority;
2. The applicant has constructed adequate delivery, storage, and treatment works, and water service is available to each lot; or

3. The applicant has posted a performance bond with the platting authority for the entire cost of adequate delivery, storage, and treatment works.
- B. Upon receiving evidence that a platting authority has established standards for proof of financial capability to construct adequate delivery, storage, and treatment works, pursuant to A.R.S. § 9-463.01(C)(8) or A.R.S. § 11-806.01(G), the Director shall classify the platting authority as a qualified platting authority. The Director shall maintain a list of qualified platting authorities.
- C. The Director shall determine that an applicant for a designation has the financial capability to construct adequate delivery, storage, and treatment works if the applicant demonstrates one or more of the following for each of those facilities:
 1. The applicant has constructed adequate delivery, storage, and treatment works;
 2. The applicant has entered into written agreements requiring a potential developer to construct adequate delivery, storage, and treatment works;
 3. If the applicant is a city or town, the applicant has:
 - a. Adopted a five year capital improvement plan that provides for the construction, or the commencement of construction, of adequate delivery, storage, and treatment works in a timely manner, and has submitted a certification by the applicant's chief financial officer that finances are available to implement that portion of the five-year plan; or
 - b. Submitted evidence demonstrating that financing mechanisms are in place to construct adequate delivery, storage, and treatment works in a timely manner; or
 4. If the applicant is a private water company, the applicant has received approval from the Arizona Corporation Commission for financing the construction of adequate delivery, storage, and treatment works.

Historical Note

Adopted effective February 7, 1995 (Supp. 95-1). Section repealed; new Section made by final rulemaking at 12 A.A.R. 3475, effective September 12, 2006 (Supp. 06-3).

R12-15-721. Consistency with Management Plan

- A. The Director shall determine whether a designation applicant's projected use of groundwater withdrawn within an active management area is consistent with the management plan as follows:
 1. If the applicant is providing water to customers as of the date of application, the applicant's projected water use is consistent with the management plan if either of the following apply:
 - a. The applicant is in compliance with its applicable management plan requirements in the most recent calendar year for which data is available before the date of application; or
 - b. The applicant has signed a stipulation and consent order that is in effect on the date of the application, or that becomes effective during the time of review of the application, to remedy non-compliance with the management plan requirements and the applicant is in compliance with the terms of the stipulation and consent order.
 2. If the applicant has not commenced serving water to customers as of the date of application, the applicant shall submit a water use plan that demonstrates to the Director that compliance with management plan requirements will be achieved through the use of conservation or augmentation measures.

3. If the applicant has a pending request for an administrative review or variance from its management plan requirements, the Director shall not make a finding regarding compliance with this Section until the Director has issued a final decision and order on the request or the request has been withdrawn.
- B. The Director shall determine that a certificate applicant's projected use of groundwater withdrawn within an AMA is consistent with the management plan if the applicant submits a water use plan for the subdivision that includes both of the following:
 1. Information demonstrating that compliance with management plan requirements will be achieved through conservation or augmentation measures; and
 2. All information required to calculate the water requirements for each proposed water use.
- C. A certificate applicant for a subdivision of 50 or fewer lots is exempt from the requirements of this rule.

Historical Note

Adopted effective February 7, 1995 (Supp. 95-1). Section repealed; new Section made by final rulemaking at 12 A.A.R. 3475, effective September 12, 2006 (Supp. 06-3).

R12-15-722. Consistency with Management Goal

- A. For the Phoenix, Prescott, or Tucson AMAs, the Director shall calculate the volume of groundwater that may be used consistent with the management goal of the AMA in which the proposed use is located for at least 100 years by adding the following:
 1. The amount of the groundwater allowance, according to R12-15-724(A), R12-15-726(A), or R12-15-727(A).
 2. The amount of any extinguishment credits pledged to the certificate or designation, according to R12-15-724(B), R12-15-726(B), or R12-15-727(B).
 3. Any groundwater that is consistent with the achievement of the management goal pursuant to A.R.S. Title 45, Chapter 2.
- B. The Director shall determine that a proposed groundwater use in the Phoenix, Prescott, or Tucson AMA is consistent with the management goal of the AMA if the volume calculated in subsection (A) of this Section is equal to or greater than the portion of the applicant's estimated water demand to be met with groundwater.
- C. For a certificate in the Pinal AMA, the Director shall calculate the volume of groundwater that may be used consistent with the management goal of the AMA for at least 100 years by adding the following:
 1. The amount of the groundwater allowance, according to R12-15-725(A)(1).
 2. The amount of any extinguishment credits pledged to the certificate for a grandfathered right that was extinguished on or after October 1, 2007, according to R12-15-725(B).
 3. The amount of any extinguishment credits pledged to the certificate for a grandfathered right that was extinguished before October 1, 2007. The Director shall calculate the amount of the extinguishment credits by multiplying the annual amount of the credits by 100.
 4. Any groundwater that is consistent with the achievement of the management goal pursuant to A.R.S. Title 45, Chapter 2.
- D. For a certificate in the Pinal AMA, the Director shall determine that the proposed groundwater use is consistent with the management goal of the AMA if the volume calculated in subsection (C) of this Section is equal to or greater than the portion of the applicant's estimated water demand to be met with groundwater.

- E. For a designation in the Pinal AMA, the Director shall calculate the volume of groundwater that may be used consistent with the management goal of the Pinal AMA on an annual basis by adding the following:
1. The amount of the groundwater allowance, according to R12-15-725(A)(2). If any of the groundwater allowance is not used during a year, the unused groundwater allowance shall not be added to the volume calculated under this subsection for the following year.
 2. The amount of any extinguishment credits pledged to the designation for a grandfathered right that was extinguished on or after October 1, 2007, according to R12-15-725(B), divided by 100. Extinguishment credits for a grandfathered right that was extinguished on or after October 1, 2007 may be used in any year.
 3. The annual amount of any extinguishment credits pledged to the designation for a grandfathered right that was extinguished before October 1, 2007. The following shall apply if any of the extinguishment credits are not used during a calendar year:
 - a. If the extinguishment credits were pledged to the designation before October 1, 2007, any extinguishment credits not used during a calendar year shall be added to the volume calculated under this subsection for the following calendar year.
 - b. If the extinguishment credits are pledged to the designation on or after October 1, 2007, any of the extinguishment credits not used during a calendar year shall not be added to the volume calculated under this subsection for the following calendar year, except that if the extinguishment credits were originally pledged to a certificate before October 1, 2007 and are used to support the municipal provider's designation pursuant to R12-15-723(G)(2), any of the extinguishment credits not used during a calendar year shall be added to the volume calculated under this subsection for the following calendar year.
 4. Any groundwater that is consistent with the achievement of the management goal pursuant to A.R.S. Title 45, Chapter 2.
- F. For a designation in the Pinal AMA, the Director shall determine that the proposed groundwater use is consistent with the management goal of the Pinal AMA if the annual volume calculated in subsection (E) of this Section is equal to or greater than the portion of the applicant's annual estimated water demand to be met with groundwater.
- G. Upon application, the following volumes of groundwater used by an applicant are considered consistent with the management goal:
1. If the Director determines that a surface water supply is physically available under R12-15-716 and the volume of the supply actually available during a calendar year is equal to or less than the drought volume for the supply, the volume of groundwater, other than the groundwater that is accounted for under subsection (A), (C), or (E) of this Section, withdrawn within the AMA that, when combined with the available surface water supply, is equal to or less than the drought volume.
 2. Any volume of groundwater withdrawn within a portion of an AMA that is exempt from conservation requirements under A.R.S. Title 45 due to waterlogging. The Director shall review the application of this exclusion on a periodic basis, not to exceed 15 years.
 3. Remedial groundwater that is consistent with the management goal according to the requirements of R12-15-729.
- H. An applicant for a certificate of assured water supply for a dry lot subdivision of 20 lots or fewer is exempt from the requirements of this Section.

Historical Note

Adopted effective February 7, 1995 (Supp. 95-1). Section repealed; new Section made by final rulemaking at 12 A.A.R. 3475, effective September 12, 2006 (Supp. 06-3). Amended by final rulemaking at 13 A.A.R. 1394, effective October 1, 2007 (Supp. 07-2).

R12-15-723. Extinguishment Credits

- A. Except as provided in subsection (D), the owner of a grandfathered right may extinguish the right in exchange for extinguishment credits by submitting the following:
1. A notarized statement of extinguishment of a grandfathered right on a form provided by the Director;
 2. The grandfathered right number;
 3. If the right being extinguished is a Type 1 non-irrigation grandfathered right or an irrigation grandfathered right, evidence of ownership of the land to which the grandfathered right is appurtenant;
 4. If the grandfathered right is located in the Prescott AMA, evidence that all of the following conditions are met:
 - a. The land to which the right is appurtenant has not been and will not be subdivided pursuant to a preliminary plat or a final plat that was approved by a city, town, or county before August 21, 1998; and
 - b. The land to which the right is appurtenant is not and will not be the location of a subdivision for which a complete and correct application for a certificate of assured water supply was submitted to the Director before August 21, 1998;
 5. If the right being extinguished is an irrigation grandfathered right, evidence that the development of the land to which the right is appurtenant is not completed; and
 6. Any additional information the Director may reasonably require to process the extinguishment.
- B. The Director shall calculate the amount of extinguishment credits pursuant to R12-15-724(B), R12-15-725(B), R12-15-726(B) or R12-15-727(B). The Director shall notify the owner of the amount of extinguishment credits in writing. If the owner is extinguishing only a portion of the right, the Director shall issue a new certificate of grandfathered right for the remainder of the right.
- C. A Type 1 non-irrigation grandfathered right or an irrigation grandfathered right may be extinguished in whole or in part. A Type 2 non-irrigation grandfathered right may be extinguished only in whole.
- D. The following rights may not be extinguished in exchange for extinguishment credits:
1. An irrigation grandfathered right that is appurtenant to land that has been physically developed for a non-irrigation use. The Director shall not consider the land to be physically developed until the development is completed.
 2. A Type 1 non-irrigation grandfathered right, if the Director determines that the holder is likely to continue to receive groundwater from an undesignated municipal provider for the same use pursuant to the provider's service area right or pursuant to a groundwater withdrawal permit.
 3. A Type 2 non-irrigation grandfathered right that was issued based on the withdrawal of groundwater for min-

- eral extraction or processing or for the generation of electrical energy.
4. On or after January 1, 2025, any grandfathered right that is in the Phoenix, Prescott, or Tucson AMAs.
 5. Any grandfathered right in the Pinal AMA beginning in the first calendar year in which the allocation factor for the extinguishment of a grandfathered right is zero, pursuant to R12-15-725(B)(3) or (4).
 6. A Type 1 non-irrigation grandfathered right that was requested to be included by a city or town in the Tucson AMA in the determination made under A.R.S. § 45-463(F).
- E.** The owner of extinguishment credits may pledge the credits to a certificate or to a designation before the certificate or designation is issued by submitting with the application for the certificate or designation a notice of intent to pledge extinguishment credits on a form provided by the Director. The extinguishment credits shall be pledged to the certificate or designation upon issuance of the certificate or designation.
- F.** The owner of extinguishment credits may pledge the credits to a certificate or to a designation after the certificate or designation is issued by submitting a notice of intent to pledge extinguishment credits on a form provided by the Director. The Director shall notify the owner of the extinguishment credits and the certificate holder or designated provider that the credits have been pledged to the certificate or designation.
- G.** Extinguishment credits that have not been pledged to a certificate or designation may be conveyed within the same AMA. Extinguishment credits pledged to a certificate or designation shall not be conveyed to another person, except that:
1. If extinguishment credits are pledged to a certificate that is later assigned or reissued, any unused credits are transferred, by operation of this subsection, to the assigned or reissued certificate. If the certificate is partially assigned or reissued, a pro rata share of the unused extinguishment credits is transferred to each assigned or reissued certificate according to the estimated water demand.
 2. If extinguishment credits are pledged to a certificate for a subdivision that is later served by a designated provider or a municipal provider that is applying for a designation, any unused extinguishment credits may be used to support the municipal provider's designation as long as the municipal provider serves the subdivision and remains designated. If the municipal provider is no longer serving the subdivision or if the municipal provider loses its designated status, any unused extinguishment credits shall revert, by operation of this subsection, to the certificate to which they were originally pledged.
- H.** The Director shall review a statement of extinguishment of a grandfathered right and a notice of intent to pledge extinguishment credits pursuant to the licensing time-frame provisions in R12-15-401.
- I.** A person may apply to the Director on or before December 31, 2015 for the restoration of all or a portion of an irrigation grandfathered right extinguished under this Section during calendar year 2005, 2006 or 2007 if all of the following conditions are met:
1. The person owns the land to which the right or portion of the right was appurtenant;
 2. The land to which the right or portion of the right was appurtenant is physically capable of being irrigated and the infrastructure for delivering water to the land for irrigation purposes remains intact and is operable;
 3. The person holds extinguishment credits that were issued for the extinguishment of a grandfathered right in the AMA in which the land is located and that have not been pledged to a certificate or designation under subsection (E) or (F) in the following amount, as applicable:
 - a. If the person seeks to restore the entire irrigation grandfathered right, an amount of extinguishment credits equal to the amount of extinguishment credits issued by the Director in exchange for extinguishment of the irrigation grandfathered right; or
 - b. If the person seeks to restore a portion of the irrigation grandfathered right, an amount of extinguishment credits equal to the result obtained by multiplying the percentage of the right sought to be restored by the amount of extinguishment credits issued by the Director in exchange for the extinguishment of the right.
- J.** An application to restore all or a portion of an irrigation grandfathered right under subsection (I) shall be on a form provided by the Director and include all of the following:
1. A fee of \$250.00;
 2. The irrigation grandfathered right number of the right sought to be restored;
 3. If a certificate of extinguishment credits was issued by the Director for the extinguishment credits described in subsection (I)(3), the original certificate or an affidavit stating that the certificate is lost;
 4. A copy of a deed showing that the applicant owns the land to which the right or portion of the right sought to be restored was appurtenant and, if the application seeks to restore only a portion of the right, the legal description of the land to which that portion of the right was appurtenant;
 5. A certification by the applicant that the conditions described in subsection (I) are met; and
 6. An agreement in writing that if the right or portion of the right is restored, the flexibility account for the land to which the right or portion of the right is appurtenant shall have an account balance of zero at the beginning of the calendar year in which the right or portion of the right is restored and that any credits registered to the flexibility account after the right is restored may not be conveyed or sold to any person, including the applicant.
- K.** The Director shall approve an application to restore all or a portion of an irrigation grandfathered right submitted under subsection (I) if the application includes the fee and the information required under subsection (J) and the Director determines that the information is correct. If the Director approves an application to restore all or a portion of an irrigation grandfathered right, all of the following apply:
1. The irrigation water duty for the land to which the right or portion of the right is restored shall be the same as it was when the right was extinguished, unless the irrigation water duty is changed in a management plan adopted after the right was extinguished or is modified pursuant to A.R.S. § 45-575;
 2. The flexibility account for the land to which the right or portion of the right is appurtenant shall have an account balance of zero at the beginning of the calendar year in which the right or portion of the right is restored and any credits registered to the flexibility account after the right is restored may not be conveyed or sold to any person, including the applicant.
 3. The applicant shall forfeit the extinguishment credits described in subsection (I)(3); and
 4. The restored irrigation grandfathered right may be extinguished in exchange for extinguishment credits under this Section. For purposes of calculating the amount of extinguishment credits under R12-15-724(B), R12-15-725(B),

R12-15-726(B) or R12-15-727(B), the calendar year of extinguishment is the calendar year in which the restored irrigation grandfathered right is extinguished.

- L. The Director shall review an application to restore an irrigation grandfathered right under subsection (I) pursuant to the licensing time-frame provisions in R12-15-401. The application shall have an administrative completeness review time-frame of 30 days, a substantive review time-frame of 90 days, and an overall time-frame of 120 days.

Historical Note

Adopted effective February 7, 1995 (Supp. 95-1). Section repealed; new Section made by final rulemaking at 12 A.A.R. 3475, effective September 12, 2006 (Supp. 06-3). Amended by final rulemaking at 13 A.A.R. 1394, effective October 1, 2007 (Supp. 07-2). Amended by final rulemaking at 17 A.A.R. 1989, effective September 13, 2011 (Supp. 11-3).

R12-15-724. Phoenix AMA Calculation of Groundwater Allowance and Extinguishment Credits

- A. The Director shall calculate the groundwater allowance for a certificate or designation in the Phoenix AMA as follows:
1. If the application is for a certificate, multiply the applicable allocation factor in the table below by the annual estimated water demand for the proposed subdivision.

MANAGEMENT PERIOD	ALLOCATION FACTOR
Third	4
Fourth	2
Fifth	1
After Fifth	0

2. If the application is for a designation and the applicant provided water to its customers prior to February 7, 1995, multiply 7.5 by the total volume of water provided by the applicant to its customers from any source during calendar year 1994, consistent with the municipal conservation requirements established for the applicant pursuant to Section 5-103(A)(1) of the Second Management Plan for the Phoenix AMA.
3. If the application is for a designation and the applicant commenced providing water to its customers on or after February 7, 1995, the applicant's groundwater allowance is zero acre-feet.
4. For each calendar year of a designation, the Director shall calculate the volume of incidental recharge for a designated provider within the Phoenix AMA and add that volume to the designated provider's groundwater allowance. The Director shall calculate the volume of incidental recharge by multiplying the provider's total water use from any source in the previous calendar year by the standard incidental recharge factor of 4%. A designated provider may apply for a variance from the standard incidental recharge factor as provided in A.R.S. § 45-566.01(E)(1). The Director may establish a different incidental recharge factor for the designated provider if the provider demonstrates to the satisfaction of the Director that the ratio of the average annual amount of incidental recharge expected to be attributable to the provider during the management period, to the average amount of water expected to be withdrawn, diverted, or received for delivery by the provider for use within its service area during the management period, is different than 4%.

- B. The Director shall calculate the extinguishment credits for the extinguishment of a grandfathered right in the Phoenix AMA as follows:

1. For the extinguishment of a type 2 non-irrigation grandfathered right, multiply the number of acre-feet indicated on the certificate by the difference between 2025 and the calendar year of extinguishment.
2. For the extinguishment of all or part of an irrigation grandfathered right, or all or part of a type 1 non-irrigation grandfathered right, multiply 1.5 acre-feet per acre by the number of irrigation acres associated with the extinguished irrigation grandfathered right or the number of acres to which the extinguished type 1 non-irrigation grandfathered right is appurtenant, and then multiply the product by the difference between 2025 and the calendar year of extinguishment, except that:
 - a. If only a portion of an irrigation grandfathered right or a type 1 non-irrigation grandfathered right is extinguished, the Director shall include in the calculation only those acres associated with the portion of the right that is extinguished; and
 - b. If an extinguished irrigation grandfathered right has a debit balance in the corresponding flexibility account established under A.R.S. § 45-467, the Director shall subtract the amount of the debit from the amount of the extinguishment.

Historical Note

Adopted effective February 7, 1995 (Supp. 95-1). Section repealed; new Section made by final rulemaking at 12 A.A.R. 3475, effective September 12, 2006 (Supp. 06-3).

R12-15-725. Pinal AMA – Groundwater Allowance

The Director shall calculate the groundwater allowance for a certificate or designation in the Pinal AMA as follows:

1. If the application is for a certificate, multiply the applicable allocation factor in the table below for the management period in effect on the date of application by the annual estimated water demand for the proposed subdivision.

MANAGEMENT PERIOD/ DATE OF APPLICATION	ALLOCATION FACTOR
Third	10
Fourth	10
Fifth	5
After Fifth	0

2. If the application is for a designation:
 - a. If the applicant was designated as having an assured water supply as of October 1, 2007:
 - i. Multiply the applicant's service area population as of October 1, 2007 by 125 gallons per capita per day and multiply the product by 365 days. The service area population shall be determined using the methodology set forth in Section 5-103(D) of the Third Management Plan for the Pinal AMA.
 - ii. Convert the number of gallons determined in subsection (A)(2)(a)(i) into acre-feet by dividing the number by 325,851 gallons.
 - iii. Determine the number of residential lots within plats that were recorded as of October 1, 2007 but not served water as of that date, and to

- which the applicant commenced water service by January 1, 2010.
- iv. Multiply the number of lots determined in subsection (A)(2)(a)(iii) of this Section by 0.35 acre-foot per lot.
 - v. Add the volume from subsection (A)(2)(a)(ii) of this Section and the volume from subsection (A)(2)(a)(iv) of this Section.
 - b. If the applicant provided water to its customers before October 1, 2007 but was not designated as having an assured water supply as of that date, and a complete and correct application for designation is filed before January 1, 2012, multiply the applicant's service area population as of October 1, 2007 by 125 gallons per capita per day and multiply the product by 365 days. The service area population shall be determined using the methodology in Section 5-103(D) of the Third Management Plan for the Pinal AMA.
 - c. If the applicant provided water to its customers before October 1, 2007 but was not designated as having an assured water supply as of that date, and a complete and correct application for designation is filed on or after January 1, 2012, the applicant's groundwater allowance is zero acre-feet.
 - d. If the applicant commenced providing water to its customers on or after October 1, 2007, the applicant's groundwater allowance is zero acre-feet.
 3. For each calendar year of a designation, the Director shall calculate the volume of incidental recharge for a designated provider within the Pinal AMA and add that volume to the designated provider's groundwater allowance. The Director shall calculate the volume of incidental recharge by multiplying the provider's total water use from any source in the previous calendar year by the standard incidental recharge factor of 4%. A designated provider may apply for a variance from the standard incidental recharge factor by submitting a hydrologic study demonstrating, to the satisfaction of the Director, that the ratio of the average annual amount of incidental recharge expected to be attributable to the designated provider during the management period to the average annual amount of water expected to be withdrawn, diverted or received for delivery by the designated provider for use within its service area during the management period is different than 4%. The hydrologic study shall include the amount of water withdrawn, diverted or received for delivery by the designated provider for use within its service area during each of the preceding five years and the amount of incidental recharge that was attributable to the designated provider during each of those years. The Director may establish a different incidental recharge factor for the designated provider upon such demonstration.

Historical Note

Adopted effective February 7, 1995 (Supp. 95-1). Section repealed; new Section made by final rulemaking at 12 A.A.R. 3475, effective September 12, 2006 (Supp. 06-3). Section repealed; new Section made by final rulemaking at 13 A.A.R. 1394, effective October 1, 2007 (Supp. 07-2). Amended by final rulemaking at 15 A.A.R. 1979, effective January 2, 2010 (Supp. 09-4). Amended by final rulemaking at 19 A.A.R. 4174, effective December 3, 2013 (Supp. 13-4).

R12-15-725.01.Pinal AMA – Extinguishment Credits Calcula-

tion

The Director shall calculate the extinguishment credits for the extinguishment of a grandfathered right in the Pinal AMA as follows:

1. For the extinguishment of a type 2 non-irrigation grandfathered right, multiply the number of acre-feet indicated on the certificate by the applicable allocation factor as determined under subsection (A)(3) or (A)(4) of this Section.
2. For the extinguishment of all or part of an irrigation grandfathered right, or all or part of a type 1 non-irrigation grandfathered right, an amount calculated by multiplying 1.5 acre-feet by the number of irrigation acres associated with the extinguished irrigation grandfathered right or the number of acres to which the extinguished type 1 non-irrigation grandfathered right is appurtenant, and then multiply that product by the applicable allocation factor as determined under subsection (A)(3) or (A)(4) of this Section, except that:
 - a. If only a portion of an irrigation grandfathered right or a type 1 non-irrigation grandfathered right is extinguished, the Director shall include in the calculation only those acres associated with the portion of the right that is extinguished; and
 - b. If an extinguished irrigation grandfathered right has a debit balance in the corresponding flexibility account established under A.R.S. § 45-467, the Director shall subtract the amount of the debit from the amount of the extinguishment credits.
3. Except as provided in subsection (A)(4) of this Section, in calculating the extinguishment credits for the extinguishment of a grandfathered right under subsection (A)(1) or (A)(2) of this Section, the Director shall use the allocation factor associated with the year in which the grandfathered right is extinguished, as shown in the table below.

Year	Allocation Factor
2010	100
2011	100
2012	100
2013	100
2014	100
2015	100
2016	100
2017	100
2018	100
2019	94
2020	88
2021	82
2022	76
2023	74
2024	72
2025	70
2026	68
2027	66
2028	64
2029	62
2030	60
2031	58
2032	56
2033	54
2034	52
2035	50
2036	48

2037	46
2038	44
2039	42
2040	40
2041	38
2042	36
2043	34
2044	32
2045	30
2046	28
2047	26
2048	24
2049	22
2050	20
2051	18
2052	16
2053	14
2054	12
2055	10
2056	8
2057	6
2058	4
2059	2
After 2059	0

4. If, before January 1, 2060, there is a moratorium on adding new member lands and member service areas in the Pinal AMA pursuant to A.R.S. § 45-576.06(A), in calculating the extinguishment credits for the extinguishment of a grandfathered right under subsection (A)(1) or (A)(2) of this Section, the Director shall use an allocation factor determined as follows:
- If the grandfathered right is extinguished while the moratorium is in effect, the Director shall use the allocation factor associated with the year in which the moratorium first became effective, as shown in the table in subsection (A)(3) of this Section.
 - If the grandfathered right is extinguished when the moratorium is no longer in effect, the Director shall use the allocation factor associated with the year determined pursuant to this subsection, as shown in the table in subsection (A)(3) of this Section. The Director shall determine the year as follows:
 - Subtract the year in which the moratorium first became effective from the year in which the moratorium ended.
 - Subtract the difference in subsection (A)(4)(b)(i) of this Section from the year in which the grandfathered right was extinguished.

Historical Note

New Section made by final rulemaking at 19 A.A.R. 4174, effective December 3, 2013; with automatic repeal date of September 15, 2014 (Supp. 13-4). Section amended with automatic repeal, removed by final rulemaking at 20 A.A.R. 2673; effective September 12, 2014 (Supp. 14-3).

R12-15-725.02.Repealed

Historical Note

New Section made by final rulemaking at 19 A.A.R. 4174, effective September 15, 2014 (Supp. 13-4). Repealed by final rulemaking at 20 A.A.R. 2673, effective September 12, 2014 (Supp. 14-3).

tive September 12, 2014 (Supp. 14-3).

R12-15-726. Prescott AMA Calculation of Groundwater Allowance and Extinguishment Credits

- A. The Director shall calculate the groundwater allowance for a certificate or designation in the Prescott AMA as follows:
- If the application is for a certificate of assured water supply, the Director shall:
 - Subtract the year of application from 2025,
 - Multiply the number determined in subsection (A)(1)(a) by the applicant's annual estimated water demand, and
 - Divide that product by two. The minimum volume that may be calculated in this subsection is zero acre-feet.
 - If the application is for a designation of assured water supply:
 - Except as provided in subsections (A)(3) and (A)(5), if the applicant was in existence as of January 12, 1999, and the application is filed before calendar year 2026, the Director shall:
 - Multiply by 100 the largest volume of groundwater determined by the Director to have been withdrawn by the applicant from within the Prescott AMA for use within the applicant's service area in any calendar year from 1995 through 1998, consistent with the municipal conservation requirements applicable under the second management plan for the Prescott active management area;
 - Determine the volume of the applicant's total water demand, from any source, for 1999, consistent with the municipal conservation requirements established for the applicant in the management plan in effect on the date of application;
 - Determine the volume of the applicant's total water demand, from any source, for 2014, consistent with the municipal conservation requirements established for the applicant in the management plan in effect on the date of application;
 - Subtract the volume calculated in subsection (A)(2)(a)(ii) from the volume calculated in subsection (A)(2)(a)(iii) and then multiply the difference by 26;
 - Divide the product obtained in subsection (A)(2)(a)(iv) by two;
 - If any residential groundwater uses, including residential groundwater uses served by an exempt well, in existence on August 21, 1998, have been replaced by permanent water service from the applicant after August 21, 1998, multiply one-half acre-foot of groundwater by the number of housing units receiving the service and then multiply that product by 100;
 - Determine the volume of groundwater withdrawn by the applicant from within the Prescott active management area during the period beginning January 1, 1999, and ending December 31 of the calendar year before the date of the application;
 - Multiply the volume of groundwater withdrawn by the applicant from within the Prescott active management area in 1999 by the number of calendar years in the period beginning with 1999

- and ending with the calendar year before the date of application;
- ix. Subtract from the volume calculated in subsection (A)(2)(a)(vii) the volume calculated in subsection (A)(2)(a)(viii). The volume calculated in this subsection shall not be less than zero; and
 - x. Add the volumes calculated in subsections (A)(2)(a)(i), (A)(2)(a)(v), and (A)(2)(a)(vi), and then subtract from the sum the volume calculated in subsection (A)(2)(a)(ix).
- b. If the applicant did not exist as of January 12, 1999, or the date of application occurs after calendar year 2025, the groundwater allowance is zero acre-feet, except that if any residential groundwater uses, including residential groundwater uses served by an exempt well, in existence on August 21, 1998, have been replaced by permanent water service from the applicant after August 21, 1998, the groundwater allowance is a volume of groundwater computed by multiplying one-half acre-foot of groundwater by the number of housing units receiving the service and multiplying that product by 100.
3. For the purpose of determining the groundwater allowance under subsection (A)(2)(a), at the request of the applicant, the Director shall replace the volume of groundwater calculated in subsection (A)(2)(a)(ii) through (v) with the amount of groundwater necessary for the applicant to serve the residential lots described in subsection (A)(4):
 - a. To compute this amount of groundwater, the Director shall:
 - i. Determine the average dwelling occupancy within the applicant's service area and multiply that average occupancy by an amount of groundwater, calculated by multiplying 150 gallons per capita per day by 365 days; and
 - ii. Multiply the product in subsection (A)(3)(a)(i) by the number of residential lots described in subsection (A)(4), and then multiply that product by 100.
 - b. The Director shall not include the amount computed in subsection (A)(3)(a) within the amount of groundwater that the applicant may use under subsection (A)(2)(a) until a final plat for the lots has been recorded.
 4. The Director shall include residential lots that will be served by the applicant in the calculation made under subsection (A)(3) if the lots meet all of the following criteria:
 - a. A preliminary plat for the lots was submitted to the city, town, or county on or before August 21, 1998, and the final plat is subsequently recorded;
 - b. The lots were not being served water on or before August 21, 1998; and
 - c. Any one of the following applies:
 - i. The lots were included within an application for certificate of assured water supply that was filed before August 21, 1998, the Director determined that the application was complete and correct as of August 21, 1998, and the Director subsequently issued a certificate of assured water supply for the lots.
 - ii. A preliminary plat for the lots was approved by a city, town, or county on or before August 21, 1998. At the time the preliminary plat was approved, the subdivider of the lots obtained a written commitment of water service from a municipal provider that was designated as having an assured water supply and the provider demonstrated to the satisfaction of the Director that sufficient water is physically available to serve the lots under the criteria in R12-15-716.
 5. For the purpose of determining the groundwater allowance under subsection (A)(2)(a), if the applicant makes the request described in subsection (A)(3), the Director shall replace the volume of groundwater calculated in subsection (A)(2)(a)(viii) with an amount of groundwater calculated as follows. The Director shall:
 - a. Determine the number of calendar years in the period beginning with 1999 and ending with the calendar year before the date of application and multiply that number of years by the largest volume of groundwater determined by the Director to have been withdrawn by the applicant from within the Prescott active management area for use within the applicant's service area in any calendar year from 1995 through 1998, consistent with the municipal conservation requirements applicable under the second management plan for the Prescott active management area;
 - b. Determine the average dwelling occupancy within the applicant's service area and multiply that average dwelling occupancy by an amount of groundwater calculated by multiplying 150 gallons per capita per day by 365 days;
 - c. For each year in the period beginning with 1999 and ending with the calendar year before the date of application, determine the number of the residential lots that meet the criteria in subsection (A)(4) and were served water by the applicant as of July 1 of the relevant year and add the number of these residential lots determined for each year;
 - d. Multiply the volume of groundwater calculated in subsection (A)(5)(b) by the number of residential lots in subsection (A)(5)(c); and
 - e. Add the volumes of groundwater from subsections (A)(5)(a) and (A)(5)(d).
- B.** The Director shall calculate the extinguishment credits for extinguishing a grandfathered right in the Prescott AMA as follows:
1. For the extinguishment of a type 2 non-irrigation grandfathered right, multiply the number of acre-feet indicated on the certificate by the difference between 2025 and the calendar year of extinguishment.
 2. For the extinguishment of an irrigation grandfathered right or a type 1 non-irrigation grandfathered right:
 - a. Through December 31, 2010:
 - i. If the irrigation acres associated with the extinguished right were irrigated for at least four of the six calendar years preceding January 1, 2000, multiply 1.5 acre-feet per acre by the number of irrigation acres associated with the extinguished right or the number of acres to which the extinguished right is appurtenant and multiply that product by 25.
 - ii. If the irrigation acres associated with the extinguished right were not irrigated for at least four of the six calendar years preceding January 1, 2000, multiply 1.5 acre-feet per acre by the number of irrigation acres associated with the extinguished right or the number of acres to

- which the extinguished right is appurtenant and multiply the product by the difference between 2025 and the year in which the statement of intent to extinguish is filed.
- b. After December 31, 2010, multiply 1.5 acre-feet per acre by the number of irrigation acres associated with the extinguished right or the number of acres to which the extinguished right is appurtenant and multiply the product by the difference between 2025 and the year in which the statement of intent to extinguish is filed.

Historical Note

New Section made by final rulemaking at 12 A.A.R. 3475, effective September 12, 2006 (Supp. 06-3).

R12-15-727. Tucson AMA Calculation of Groundwater Allowance and Extinguishment Credits

- A. The Director shall calculate the groundwater allowance for a certificate or designation in the Tucson AMA as follows:
1. If the application is for a certificate, multiply the applicable allocation factor in the table below by the annual estimated water demand for the proposed subdivision.

MANAGEMENT PERIOD	ALLOCATION FACTOR
Third	8
Fourth	4
Fifth	2
After Fifth	0

2. If the application is for a designation and the applicant provided water to its customers before February 7, 1995, multiply 15 by the total volume of water provided by the applicant to its customers from any source during calendar year 1994, consistent with the municipal conservation requirements established for the applicant pursuant to Section 5-103(A)(1) of the Second Management Plan for the Tucson AMA.
 3. If the application is for a designation and the applicant commenced providing water to its customers on or after February 7, 1995, the applicant's groundwater allowance is zero acre-feet.
 4. For each calendar year of the designation, the Director shall calculate the volume of incidental recharge for a designated provider within the Tucson AMA and add that volume to the designated provider's groundwater allowance. The Director shall calculate the volume of incidental recharge by multiplying the provider's total water use from any source in the previous calendar year by the standard incidental recharge factor of 4%. A designated provider may apply for a variance from the standard incidental recharge factor as provided in A.R.S. § 45-566.01(E)(1). The Director may establish a different incidental recharge factor for the designated provider if the provider demonstrates to the satisfaction of the Director that the ratio of the average annual amount of incidental recharge expected to be attributable to the provider during the management period, to the average amount of water expected to be withdrawn, diverted, or received for delivery by the provider for use within its service area during the management period, is different than 4%.
- B. The Director shall calculate the extinguishment credits for the extinguishment of a grandfathered right in the Tucson AMA as follows:

1. For the extinguishment of a type 2 non-irrigation grandfathered right, multiply the number of acre-feet indicated on the certificate by the difference between 2025 and the calendar year of extinguishment.
2. For the extinguishment of all or part of an irrigation grandfathered right, or all or part of a type 1 non-irrigation grandfathered right, multiply 1.5 acre-feet per acre by the number of irrigation acres associated with the extinguished irrigation grandfathered right or the number of acres to which the extinguished type 1 non-irrigation grandfathered right is appurtenant, and then multiply the product by the difference between 2025 and the calendar year of extinguishment, except that:
 - a. If only a portion of an irrigation grandfathered right or a type 1 non-irrigation grandfathered right is extinguished, the Director shall include in the calculation only those acres associated with the portion of the right that is extinguished; and
 - b. If an extinguished irrigation grandfathered right has a debit balance in the corresponding flexibility account established under A.R.S. § 45-467, the Director shall subtract the amount of the debit from the amount of the extinguishment.

Historical Note

New Section made by final rulemaking at 12 A.A.R. 3475, effective September 12, 2006 (Supp. 06-3).

R12-15-728. Reserved

R12-15-729. Remedial Groundwater; Consistency with Management Goal

- A. Use of remedial groundwater by a municipal provider before January 1, 2025, is deemed consistent with the management goal of the AMA in which the remedial groundwater is withdrawn and is excluded when determining compliance with management goal requirements in this Article if all of the following apply:
1. The Director determines that the remedial groundwater use is consistent with the management goal under subsection (F) or (H) of this Section or the remedial groundwater use is consistent with the management goal under subsection (J) of this Section; and
 2. The municipal provider complies with the metering and reporting requirements in subsection (K) of this Section.
- B. A municipal provider that is using remedial groundwater or that has agreed in a consent decree or other document approved by ADEQ or the EPA to use remedial groundwater may apply to the Director for a determination that the municipal provider's use of the remedial groundwater is consistent with the management goal of the active management area by submitting an application on a form provided by the Director with the information required in subsection (D) of this Section before January 1, 2010.
- C. A municipal provider filing an application under subsection (B) of this Section for remedial groundwater use associated with a treatment plant in operation before June 15, 1999, may request an increase in the project's annual authorized volume at the time the application is filed. The Director shall grant the request and increase the annual authorized volume up to the maximum treatment capacity of the treatment plant if the municipal provider submits evidence that an increase in the annual authorized volume is necessary to further the purpose of the remedial action project and that the increase is not in violation of the consent decree or other document approved by ADEQ or the EPA for the remedial action project.
- D. An applicant shall provide the following with an application submitted under subsection (B) of this Section:

1. A document evidencing ADEQ's or EPA's approval of the municipal provider's withdrawal and use of remedial groundwater, such as a remedial action plan, record of decision, or consent decree;
 2. The volume of remedial groundwater that will be withdrawn and used annually by the municipal provider and the purpose for which the remedial groundwater will be used;
 3. The time period during which the remedial groundwater will be withdrawn and used by the municipal provider;
 4. A reference to the annual authorized volume provided in the document submitted pursuant to subsection (D)(1) of this Section or, if the document submitted pursuant to subsection (D)(1) does not specify the annual authorized volume for the project, the annual authorized volume claimed by the municipal provider and a written justification for that volume;
 5. If the approved remedial action project is currently operating, the volume of remedial groundwater withdrawn pursuant to the project for each year before the year in which the application is filed;
 6. The designated provider or certificate to which the remedial groundwater will be pledged;
 7. If the municipal provider is requesting an increase in the annual authorized volume of the project pursuant to subsection (C) of this Section, evidence that the increase is necessary to further the purpose of the remedial action project and that the increase is not in violation of the consent decree or other document approved by ADEQ or the EPA for the project;
 8. The name and telephone number of a person the Department may contact regarding the application; and
 9. Any other information reasonably required to assist the Director in making the determination under subsection (F) of this Section.
- E.** After receiving an application under subsection (B) of this Section, the Director shall determine that the application is complete and correct if it contains all the information required in subsection (D) of this Section and the Director verifies that the information is accurate. If the Director determines that the application is complete and correct, the Director shall assign a priority date to the application according to the following:
1. If the Director determines that the application was complete and correct when filed, the priority date of the application is the date the application was filed.
 2. If the Director determines that the application was not complete or correct when filed because of minor deficiencies, the Director shall notify the applicant of the deficiencies in writing and give the applicant 30 days to correct the deficiencies. If the applicant submits the necessary information to correct the deficiencies within 30 days after the date of the notice, the priority date of the application is the date the application was filed.
 3. If the Director determines that the application was not complete or correct when filed and that the deficiencies are not minor, the Director shall notify the applicant of the deficiencies and give the applicant at least 60 days to submit the necessary information to correct the deficiencies. If the applicant submits the necessary information to correct the deficiencies within the time allowed by the Director, the priority date of the application is the date the applicant submits the necessary information to correct the deficiencies.
- F.** The Director shall approve a complete and correct application filed under subsection (B) of this Section if the Director determines that the applicant will use remedial groundwater before January 1, 2025. If the Director approves a municipal provider's application, the Director shall calculate the annual amount of remedial groundwater use that is deemed consistent with the management goal of the AMA as follows:
1. The Director shall determine the total annual amount of remedial groundwater use in all AMAs that is deemed to be consistent with the management goal under this subsection and subsections (H) and (I) of this Section for applications with a priority date earlier than the priority date of the municipal provider's application.
 2. If the amount determined in subsection (F)(1) of this Section is less than 65,000 acre-feet and the difference between those amounts is equal to or greater than the municipal provider's authorized remedial groundwater use during the year, the amount of remedial groundwater use by the municipal provider that is deemed to be consistent with the management goal during the year is the amount of the municipal provider's authorized remedial groundwater use during the year.
 3. If the amount determined in subsection (F)(1) of this Section is less than 65,000 acre-feet and the difference between those amounts is less than the municipal provider's authorized remedial groundwater use during the year, the amount of remedial groundwater use by the municipal provider that is deemed consistent with the management goal during the year is the amount of the municipal provider's authorized remedial groundwater use during the year up to the difference between the amount determined in subsection (F)(1) and 65,000 acre-feet, plus a percentage of the municipal provider's authorized remedial groundwater use during the year that exceeds the difference. The percentage is 50 percent for calendar years 2000 through 2009, 25 percent for calendar years 2010 through 2019, and 10 percent for calendar years 2020 through 2024.
 4. If the amount determined in subsection (F)(1) of this Section is equal to or greater than 65,000 acre-feet, the amount of remedial groundwater use by the municipal provider that is deemed consistent with the management goal during the year is a percentage of the municipal provider's authorized remedial groundwater use during the year. The percentage is 50 percent for calendar years 2000 through 2009, 25 percent for calendar years 2010 through 2019, and 10 percent for calendar years 2020 through 2024.
- G.** If the Director determines that remedial groundwater use by a municipal provider is consistent with the management goal of the active management area under subsection (F) of this Section, the determination shall apply to remedial groundwater used by the municipal provider between the priority date of the application and January 1, 2025.
- H.** If, before the effective date of this Section, a municipal provider filed an application with the Director requesting that the Director determine that the provider's use of remedial groundwater pursuant to an approved remedial action project is consistent with the management goal of the active management area under Laws 1997, Ch. 287, § 52, as amended by Laws 1999, Ch. 295, § 50, the following shall apply:
1. If the Director approved the application before the effective date of this Section and determined the annual amount of remedial groundwater use by the applicant that will be considered consistent with the management goal, the Director's determination shall apply after the effective date of this Section and the Director shall include the annual amount of remedial groundwater use determined by the Director to be consistent with the management

goal in the total amount of remedial groundwater determined in subsection (F)(1) of this Section.

2. If the Director did not approve the application before the effective date of this Section, the Director shall process the application under subsections (E) and (F) of this Section. If the Director approves the application, the Director's determination shall apply to remedial groundwater withdrawn and used by the municipal provider pursuant to the approved remedial action project from the priority date of the application until January 1, 2025.
- I.** A municipal provider that is using remedial groundwater that has been determined by the Director to be consistent with the management goal under subsection (F) or (H) of this Section may apply to the Director for an increase in the annual authorized volume of the approved remedial action project as follows:
1. The applicant shall submit an application on a form provided by the Director.
 2. The Director shall determine that the application is complete and correct if it contains all of the required information and the Director verifies that the information is accurate.
 3. If the Director determines that an application filed under this subsection is complete and correct, the Director shall assign a priority date to the application using the criteria in subsection (E) of this Section.
 4. The Director shall approve the application if the municipal provider submits information that demonstrates one of the following:
 - a. The annual authorized volume of the approved remedial action project has been increased in a consent decree or other document approved by ADEQ or the EPA; or
 - b. An increase is necessary to further the purpose of the approved remedial action project, and the increase is not in violation of the consent decree or other document approved by ADEQ or the EPA for the project.
 5. If the Director approves the application, the Director shall determine the additional annual amount of remedial groundwater use by the municipal provider that is deemed consistent with the management goal of the active management area, using the criteria in subsections (F) and (G) of this Section. The Director shall include the annual amount of remedial groundwater use determined by the Director to be consistent with the management goal under this subsection in the total amount of remedial groundwater determined in subsection (F)(1) of this Section.
- J.** Until January 1, 2025, use of remedial groundwater by a municipal provider during a year is deemed consistent with the management goal of the AMA in which the remedial groundwater was withdrawn without approval of the Director under subsection (F) or (H) of this Section if:
1. The total annual amount of remedial groundwater withdrawn from all wells pursuant to the approved remedial action project does not exceed 250 acre-feet; and
 2. If remedial groundwater withdrawals pursuant to the approved remedial action project commenced before June 15, 1999, the municipal provider notified the Director in writing of the volume and duration of the anticipated withdrawals on or before August 15, 1999. If remedial groundwater withdrawals pursuant to the approved remedial action project commenced on or after June 15, 1999, the municipal provider gave written notice of the volume and duration of the anticipated withdrawals on or before August 15, 1999, or before the date the withdrawals com-

menced, whichever is later. If the municipal provider gives notice after the effective date of this Section, the municipal provider shall include or attach all of the following:

- a. A copy of a document evidencing ADEQ's or EPA's approval of the municipal provider's withdrawal and use of remedial groundwater, such as a remedial action plan, record of decision, or consent decree;
 - b. The volume of remedial groundwater that will be withdrawn and used annually by the municipal provider and the purpose for which the remedial groundwater will be used;
 - c. The time period during which the remedial groundwater will be withdrawn and used by the municipal provider;
 - d. If the approved remedial action project is currently operating, the volume of remedial groundwater withdrawn pursuant to the project for each year before the year in which the application is filed;
 - e. The designated provider or certificate of assured water supply to which the remedial groundwater will be pledged; and
 - f. The name and telephone number of a person the Department may contact regarding the exemption.
- K.** A municipal provider withdrawing remedial groundwater that has been determined to be consistent with the management goal under subsection (F) or (H) of this Section or that is consistent with the management goal under subsection (J) of this Section shall meter the remedial groundwater withdrawals separately from groundwater withdrawn pursuant to another groundwater withdrawal authority. The municipal provider shall include in its annual reports, filed under A.R.S. § 45-632, the amount of remedial groundwater withdrawn during the reporting year that is consistent with the management goal under this Section and the purposes for which the remedial groundwater was used.

Historical Note

New Section made by final rulemaking at 12 A.A.R. 3475, effective September 12, 2006 (Supp. 06-3).

R12-15-730. Repealed

Historical Note

New Section made by final rulemaking at 12 A.A.R. 3475, effective September 12, 2006 (Supp. 06-3). Section repealed by exempt rulemaking at 16 A.A.R. 1205, effective June 15, 2010 (Supp. 10-2). New Section made by exempt rulemaking at 16 A.A.R. 1950, effective September 10, 2010 (Supp. 10-3). Section repealed by final rulemaking at 17 A.A.R. 659, effective June 4, 2011 (Supp. 11-2).

ARTICLE 8. WELL CONSTRUCTION AND LICENSING OF WELL DRILLERS

R12-15-801. Definitions

In addition to the definitions set forth in A.R.S. §§ 45-101, 45-402, and 45-591 and in R12-15-202, the following words and phrases in this Article shall have the following meanings, unless the context otherwise requires:

1. "Annular space" means the space between the outer well casing and the borehole wall. An annular space also means the space between an inner well casing and outer well casing.
2. "Aquifer" means an underground formation capable of yielding or transmitting usable quantities of water.
3. "Artesian aquifer" means an aquifer which is overlain by a confining formation and which contains groundwater

- under sufficient pressure for the water to rise above the top of the aquifer.
4. "Artesian well" means a well that penetrates an artesian aquifer.
 5. "Bentonite" means a colloidal clay composed mainly of sodium montmorillonite, a hydrated aluminum silicate.
 6. "Cap" means a tamper-resistant, watertight steel plate of at least one-quarter inch thickness on the top of all inside and outside casings of a well.
 7. "Casing" means the tubing or pipe installed in the borehole during or after drilling to support the sides of the well and prevent caving.
 8. "Confining formation" means the relatively impermeable geologic unit immediately overlying an artesian aquifer.
 9. "Consolidated formation" means a naturally occurring geologic unit through or into which a well is drilled, having a composition, density, and thickness which will provide a natural hydrologic barrier.
 10. "Department" means the Arizona Department of Water Resources.
 11. "Director" means the Director of the Arizona Department of Water Resources.
 12. "Drilling card" means a card which is issued by the Director to the well drilling contractor or single well licensee designated in the notice of intent or permit, authorizing the well drilling contractor or licensee to drill the specific well or wells in the specific location as noticed or permitted.
 13. "Exploration well" means a well drilled in search of geophysical, mineralogical or geotechnical data.
 14. "Flowing artesian well" means an artesian well in which the pressure is sufficient to cause the water to rise above the land surface.
 15. "Grout" or "cement grout" means cement mixed with no more than 50% sand by volume, and containing no more than six gallons of water per 94 pound sack of cement.
 16. "Mineralized water" means any groundwater containing over 3000 milligrams per liter (mg/l) of total dissolved solids or containing any of the following chemical constituents above the indicated concentrations:

Constituent	Concentration (mg/l)
Arsenic	0.05
Barium	1.0
Cadmium	0.01
Chromium (total)	0.05
Fluoride	4.0
Lead	0.05
Mercury	0.002
Nitrate (as N)	10.0
Selenium	0.01
Silver	0.05
 17. "Monitor well" means a well designed and drilled for the purpose of monitoring water quality within a specific depth interval.
 18. "Open well" means a well which is not equipped with either a cap or a pump.
 19. "Perforations" means a series of openings in a casing, made either before or after installation of the casing, to permit the entrance of water into the well.
 20. "Piezometer well" means a well that is designed and drilled for the purpose of monitoring water levels within a specific depth interval.
 21. "Pitless adaptor" means a commercially manufactured watertight unit or device designed for attachment to a steel well casing which permits discharge from the well below the land surface and allows access into the well casing while preventing contaminants from entering the well.
 22. "Polluted water" means water whose chemical, physical, biological, or radiological integrity has been degraded through the artificial or natural infusion of chemicals, radionuclides, heat, biological organisms, or mineralogical or other extraneous matter.
 23. "Pressure grouting" means a process by which a grout is confined within the borehole or casing of a well by the use of retaining plugs, packers, or a displacing fluid by which sufficient pressure is applied to drive the grout into and within the annular space or interval to be grouted.
 24. "Qualifying party" means a partner, officer, or employee of a well drilling contractor, who has significant supervisory responsibilities and who has been designated to take the licensing examination for that well drilling contractor.
 25. "Single well license" means a license issued to a person which allows the drilling or modification of a single exempt well on land owned by that person.
 26. "Vadose zone well" means a well constructed in the interval between the land surface and the top of the static water level.
 27. "Vault" means a tamper-resistant watertight structure used to complete a well below the land surface.
 28. "Well abandonment" means the modification of the structure of a well by filling or sealing the borehole so that water may not be withdrawn or obtained from the well.
 29. "Well drilling" means the construction or repair of a well, or the modification, except for abandonment, of a well, regardless of whether compensation is involved, including any deepening or additional perforating, any addition of casing or change to existing casing construction, and any other change in well construction not normally associated with well maintenance, pump replacement, or pump repair.
 30. "Well drilling contractor" means an individual, public or private corporation, partnership, firm, association, or any other public or private organization or enterprise that holds a well driller's license pursuant to A.R.S. § 45-595(B).

Historical Note

Adopted effective March 5, 1984 (Supp. 84-2). Amended effective June 18, 1990 (Supp. 90-2).

R12-15-802. Scope of Article

This Article shall apply to man-made openings in the earth through which water may be withdrawn or obtained from beneath the surface of the earth, including all water wells, monitor wells and piezometer wells. It shall also apply to geothermal wells to the extent provided by A.R.S. § 45-591.01, and all exploration wells and grounding or cathodic protection holes greater than 100 feet in depth. However, this Article shall not apply to the following:

1. Man-made openings in the earth not commonly considered to be wells, such as construction and mining blast holes, underground mines and mine shafts, open pit mines, tunnels, septic tank systems, caissons, basements, and natural gas storage cavities.
2. Injection wells and vadose zone wells which are subject to regulation by the Arizona Department of Environmental Quality.
3. Oil, gas, and helium wells drilled pursuant to the provisions of A.R.S. Title 27.
4. Drilled boreholes in the earth less than 100 feet in depth which are made for purposes other than withdrawing or encountering groundwater, such as exploration wells and grounding or cathodic protection holes; except that in the

event that groundwater is encountered in the drilling of a borehole, this Article shall apply.

Historical Note

Adopted effective March 5, 1984 (Supp. 84-2). Amended effective June 18, 1990 (Supp. 90-2).

R12-15-803. Well Drilling and Abandonment Requirements; Licensing and Supervision Requirements

- A. A person shall not drill or abandon a well, or cause a well to be drilled or abandoned, in a manner which is not in compliance with A.R.S. Title 45, Chapter 2, Article 10, and the rules adopted thereunder.
- B. A person, other than a single well licensee or a bona fide employee of a well drilling contractor, shall not engage in well drilling or abandonment without first securing a well drilling license in accordance with R12-15-804, R12-15-805 and R12-15-806.
- C. A qualifying party of a well drilling contractor shall provide direct and personal supervision of the contractor's employees to ensure that all wells are constructed and abandoned in accordance with this Article.

Historical Note

Adopted effective March 5, 1984 (Supp. 84-2). Section 12-15-803 amended and the text of former Section R12-15-804 renumbered to subsections (B) and (C) and amended effective June 18, 1990 (Supp. 90-2).

R12-15-804. Application for well drilling license

- A. An applicant for a well drilling license shall submit a verified application of a form prescribed and furnished by the Director which contains the following information:
 - 1. A designation of the classification of license sought by the applicant.
 - 2. If the applicant is an individual, the individual's name, address and telephone number.
 - 3. If the applicant is a partnership, the names, addresses, and telephone numbers of all partners, with a designation of any limited partners.
 - 4. If the applicant is a corporation, association or other organization, the names, addresses and telephone numbers of the directors and of the president, vice president, secretary and treasurer, or the names, addresses and telephone numbers of the functional equivalent of such officers.
 - 5. The address or location of the applicant's place of business, the mailing address if it is different from the applicant's place of business, and if applicant is a corporation, the state in which it is incorporated.
 - 6. The name, address and telephone number of each qualifying party, the qualifying party's relationship to the applicant, and a detailed history of each qualifying party's supervisory responsibilities and well drilling experience, including previous employers, job descriptions, duties and types of equipment utilized.
 - 7. The names, addresses and telephone numbers of three persons not members of each qualifying party's immediate family, who can attest to each qualifying party's good character and reputation, experience in well drilling, and qualifications for licensing.
 - 8. Such additional information relevant to the applicant's or qualifying party's experience and qualifications in well drilling as the Director may require.
- B. An applicant shall notify the Director in writing of any change in the information contained in the application within 30 days after such change.

- C. The Director shall not issue a license under this Article if the applicant or a qualifying party lacks good character and reputation.
- D. Prior to the issuance of a license, a qualifying party shall demonstrate three years of experience, dealing specifically with the type of drilling for which the applicant is applying for a license. This experience requirement may be reduced if the Director finds that the qualifying party has clearly and convincingly demonstrated a high degree of understanding and knowledge of well drilling techniques for the type of drilling for which the applicant is applying for a license. In no case, however, shall the practical experience requirement be less than two years.

Historical Note

Adopted effective March 5, 1984 (Supp. 84-2). Former Section R12-15-804 renumbered to R12-15-803(B) and (C), new Section R12-15-804 adopted effective June 18, 1990 (Supp. 90-2).

R12-15-805. Examination for Well Drilling License

- A. The Director shall offer an examination for a well drilling license no less than six times yearly. The examination shall be administered to those eligible applicants whose applications were submitted at least 20 days prior to the date of the examination. The examination shall consist of a section on legal requirements, a section on general knowledge and one or more of six specialized sections. The section on legal requirements shall test the qualifying party's knowledge of A.R.S. Title 45, Chapter 2, Article 10, and the rules adopted thereunder. The section on general knowledge shall test the qualifying party's knowledge of general hydrologic concepts, principles, and practices in the well construction industry, and shall test knowledge of groundwater protection, pollution, water quality and public health effects. The specialized sections shall test the qualifying party's knowledge in the following classifications:
 - 1. Cable tool drilling in rock and unconsolidated material.
 - 2. Air rotary drilling in rock and unconsolidated material.
 - 3. Mud rotary drilling in rock and unconsolidated material.
 - 4. Reverse rotary drilling in rock and unconsolidated material.
 - 5. Jetting and driving wells in unconsolidated material.
 - 6. Boring and augering in unconsolidated material.
- B. Only the qualifying party, department personnel, and persons having the express permission of the Director shall be permitted in the examination room while the examination is in progress. The qualifying party shall not bring books or notes into the examination room, or communicate by any means whatsoever while the examination is in progress without the express permission of the presiding examiner. The qualifying party shall not leave the examination room while the examination is in progress without first obtaining the permission of the presiding examiner. The Director may disqualify an applicant for violation of this subsection.
- C. To obtain a well drilling license, a qualifying party of the applicant shall pass the section on legal requirements, the section on general knowledge, and one or more specialized sections. Each section of the examination shall be graded separately. The passing grade on each section shall be 70 percent.
- D. No person may take the examination more than twice during any 12 months.
- E. The Director may exempt a qualifying party from taking the section on general knowledge, and one or more of the specialized sections, if the qualifying party provides proof of passing an equivalent examination given by the National Ground Water Association.

Historical Note

Adopted effective March 5, 1984 (Supp. 84-2). Section repealed, new Section adopted effective June 18, 1990 (Supp. 90-2). Amended by final rulemaking at 13 A.A.R. 3022, effective October 6, 2007 (Supp. 07-3).

R12-15-806. License Fee; Issuance and Term of Licenses; Renewal; Display of License

- A. The fee for a well driller's license shall be \$50.00.
- B. Upon submittal of the license fee and satisfactory completion of an examination, the Director shall issue the applicant a well drilling license. The license shall be numbered and shall state the specialized classifications of drilling activities for which the applicant is qualified and licensed. The applicant shall be licensed in only those classifications for which the qualifying party has passed the specialized sections of the examination. If the qualifying party subsequently passes other specialized sections, the applicant's license shall be amended. The applicant shall pay a fee of \$50.00 for the amendment of a well driller's license.
- C. A well drilling contractor shall notify the Director in writing within 30 days of the date on which the well drilling contractor no longer has a qualifying party for one or more of its specialized drilling classifications. Upon such notification, the Director may revoke or suspend part or all of the well drilling license of the well drilling contractor and require a new qualifying party to take and pass the examination.
- D. A well drilling license shall expire each year on June 30th, unless renewed pursuant to subsection (E).
- E. A person may renew a well drilling license by submitting an application for renewal on forms prescribed and furnished by the Director and a fee of \$50.00. If the application and renewal fee are postmarked on or before June 30, the well drilling contractor may operate as a licensee until actual issuance of the renewal license. A license which has expired may be reactivated and renewed within one year of its expiration by filing the required application and a reactivation fee of \$50.00. If a license has been expired for one or more years for failure to renew, the well drilling contractor shall apply for a new license and repeat the examination.
- F. A well drilling contractor shall prominently display the well drilling license number on all well drilling rigs owned or operated by the contractor in this state. Good quality paint or commercial decal numbers shall be used in placing each identification number on the drilling rig. The license number shall not be inscribed in crayon, chalk, pencil, or other temporary markings.

Historical Note

Adopted effective March 5, 1984 (Supp. 84-2). Amended effective June 18, 1990 (Supp. 90-2). Amended by exempt rulemaking at 16 A.A.R. 1205, effective June 15, 2010 (Supp. 10-2). Amended by exempt rulemaking at 16 A.A.R. 1950, effective September 10, 2010 (Supp. 10-3). Amended by final rulemaking at 17 A.A.R. 659, effective June 4, 2011 (Supp. 11-2).

R12-15-807. Single Well License

- A. An applicant for a single well license pursuant to A.R.S. § 45-595(D) shall submit a verified application on forms prescribed and furnished by the Director, which shall include:
 1. The name and address of the applicant.
 2. The location of the well and whether the applicant owns the land.
 3. The type of drill rig to be used and the owner of the rig.
 4. The proposed design of the well or method of abandonment.

5. The names of any people who will be assisting the applicant in the drilling or abandonment of the well, and whether the applicant will compensate them for their efforts.
 6. The applicant's experience, if any, in well drilling or abandonment.
 7. Such other information as the Director may require relevant to the applicant's experience and qualifications in well drilling or abandonment.
- B. The Director shall offer the single well examination no less than six times yearly and shall administer the examination to those eligible applicants whose applications were submitted at least 20 days prior to the date of the examination.
 - C. The single well examination shall be of a form prescribed and furnished by the Director and shall test the applicant's knowledge of abandonment techniques, or those minimum well construction requirements and drilling techniques applicable to the proposed design of the well. The passing grade on the sections of the examination dealing with construction requirements and drilling techniques, respectively, shall be 70 percent.
 - D. Rule R12-15-805 relating to testing procedures shall be fully applicable.
 - E. Applicants who twice fail the examination shall wait a minimum of 90 days before re-testing.
 - F. Upon passing the examination, the applicant shall be issued a single well license, authorizing the applicant to drill or abandon one exempt well at the location specified in the application. The license shall be valid for a period of one year from issuance.

Historical Note

Adopted effective March 5, 1984 (Supp. 84-2). Amended effective June 18, 1990 (Supp. 90-2).

R12-15-808. Revocation of License

The Director may revoke, suspend, or place on probationary status a well drilling license issued pursuant to R12-15-806, or a single well license, for good cause, including:

1. Intentionally making a misstatement of fact on any filing with the Department.
2. Violating any provision of A.R.S. Title 45, Chapter 2, Article 10, and the rules promulgated thereunder, or aiding and abetting in such a violation.

Historical Note

Adopted effective March 5, 1984 (Supp. 84-2). Amended effective June 18, 1990 (Supp. 90-2). Section number corrected (Supp. 93-1).

R12-15-809. Notice of Intention to Drill

A notice of intention to drill required to be filed pursuant to A.R.S. § 45-596 shall be signed by the owner or lessee of the property upon which the well is to be drilled.

Historical Note

Adopted effective March 5, 1984 (Supp. 84-2).

R12-15-810. Authorization to Drill

- A. A well drilling contractor or single well licensee may commence drilling a well only if the well drilling contractor or licensee has possession of a drilling card at the well site issued by the Director in the name of the well drilling contractor or licensee, authorizing the drilling of the specific well in the specific location.
- B. In extraordinary situations not requiring a permit but only a notice of intention to drill, the Director may grant a request by telephone for emergency authorization of commencement of drilling prior to the actual receipt by the well driller of the

drilling card. Within seventy-two hours after such a request is granted, the well driller shall file a written statement indicating the nature and reasons for the request, and the date, time and Department employee granting the request, and the well owner shall file a notice of intent to drill if such a notice has not previously been filed.

Historical Note

Adopted effective March 5, 1984 (Supp. 84-2). Amended effective June 18, 1990 (Supp. 90-2). Amended to correct typographical error under A.A.C. R1-1-109 (Supp. 01-2). Amended by final rulemaking at 13 A.A.R. 3022, effective October 6, 2007 (Supp. 07-3).

R12-15-811. Minimum Well Construction Requirements

A. Well casing

1. Casing shall be of a sufficient strength and wall thickness to hold the borehole open and survive any necessary grouting. A person shall use only steel or thermoplastic casing in the construction of a well, unless the person has received a variance from the Director pursuant to R12-15-820. The well casing or an extension of the casing shall extend a minimum of one foot above ground level. When installing a pitless adaptor, the casing may be terminated below ground level for aesthetic reasons or freeze protection purposes. Casing made of, or which has been exposed to, hazardous or potentially harmful materials, such as asbestos, shall not be used.
2. All well casing joints or overlaps shall be made watertight to prevent the degradation of the water supply by the migration of inferior quality water. Except as provided in subsection (H) of this rule, any openings in the casing that will be above the water level in the well, such as bar holes, cracks or perforations, shall be completely plugged or sealed.
3. Thermoplastic casing shall be installed only in an over sized drillhole without driving. Thermoplastic casing shall conform with American Society for Testing and Materials Standard Specification F480-89 (1989), which is incorporated herein by reference and is on file with the Office of the Secretary of State. Rivets or screws used in the casing joints shall not penetrate the inside of the casing.
4. Steel casing shall be new or in like-new condition, free from pits or breaks, and shall conform with American Society for Testing and Materials Standard Specification A53-89a (1989), A139-89b (1989) or A312/A312M-89a (1989), whichever is applicable, all of which are incorporated herein by reference and are on file with the Office of the Secretary of State.
5. Copies of The American Society for Testing and Materials standard specifications referred to in subsections (3) and (4) above may be obtained with these rules at the Office of the Secretary of State of the State of Arizona, State Capitol, West Wing, Phoenix, Arizona 85007; from the Department of Water Resources, 3550 N. Central Avenue, Phoenix, AZ 85012; and from the American Society for Testing and Materials, 100 Barr Harbor Drive, West Conshohocken, PA 19428-2959. This rule does not include any later amendments or editions of those standard specifications.

B. Surface seal

1. Except as provided in subsections (2) and (4) of this subsection, and R12-15-817(B)(1), all wells shall be constructed with a surface seal as herein provided. The seal shall consist of steel casing, one foot of which shall extend above ground level, and cement grout placed in

one continuous application from the bottom of the zone to be grouted to the land surface. If a pitless adaptor is utilized, the cement grout may terminate at the bottom of the pitless adaptor. The minimum length of the steel casing shall be 20 feet. The minimum annular space between the casing and the borehole for placement of grout shall be one and one-half inches. Curing additives, such as calcium chloride, shall not exceed ten percent of the total volume of grout. Bentonite as an additive shall not exceed five percent of the total volume. The minimum length of the surface seal shall be 20 feet. Any annular space between the outer casing and an inner casing shall be completely sealed to prevent contamination of the well.

2. All hand-dug wells shall be constructed with a watertight curbing extending, at a minimum, from one foot above the natural ground level to the static water level, or into the confining formation if the aquifer is artesian. The curbing shall consist of poured cement grout or casing surrounded by cement grout. Concrete block with cement grout and rock with cement grout may also be used. The poured cement grout shall not be less than six inches thick. If casing is to be used, the minimum annular space between the casing and the borehole shall be three inches. Hand-dug wells shall be sealed at the surface with a watertight, tamper-resistant cover to prevent contaminants from entering the well.
3. All wells constructed by jetting or driving shall have cement grout placed in the annular space to a minimum depth of six feet. The minimum annular space between the casing and the borehole for placement of the grout shall be one and one-half inches.
4. All horizontal wells, to prevent leakage, shall be constructed with a surface seal consisting of steel casing and cement grout extending a minimum of ten feet into the land surface.

- C. Access port. Every well with casing four inches in diameter or larger shall be equipped with a functional watertight access port with a minimum diameter of one-half inch so that the water level or pressure head in the well can be monitored at all times.

D. Gravel packed wells

1. If a gravel pack has been installed, the annular space between the outer casing and the inner casing shall be sealed, either by welding a cap at the top or by filling with cement grout from the bottom of the outer casing to the surface.
2. If a gravel tube is installed, it shall be sealed with a cap.

- E. Vents. All vents installed in the well casing shall open downward and be screened to prevent the entrance of foreign material.

F. Removal of drilling materials

1. In constructing a water well, the well driller shall take all reasonable precautions to protect the producing aquifer from contamination by drilling materials. Upon completion of the well, the well driller shall remove all foreign substances and materials introduced into the aquifer or aquifers during well construction. For purposes of this subsection, "substances and materials" means all drilling fluids, filter cake, lost circulation materials, and any other organic or inorganic substances.
2. Materials known to present a health hazard, such as chrome-based mud thinners, asbestos products, and petroleum-based fluids, shall not be used as construction, seal or fill materials or drilling fluids.

3. Drilling fluids and cuttings shall be contained in a manner which prevents discharge into any surface water.
- G. Repair of existing wells**
 1. If, in the repair of a well, the old casing is withdrawn, the well shall be recased in conformance with these rules.
 2. If an inner casing is installed to prevent leakage of undesirable water into a well, the annular space between the casings shall be completely sealed by packers, casing wedging, pressure grouting or other methods which will prevent the movement of water between the casings.
- H. Monitor wells**
 1. A monitor well may be screened up to ten feet above the highest seasonal static water level of record for the purpose of monitoring contaminants.
 2. A monitor well shall be identified as such on the vault cover or at the top of the steel casing. Identification information shall include the well registration number.
- I. Completion at the surface.** In areas of traffic or public rights-of-way, wells may be constructed below the land surface in a vault. All other requirements in this Article shall apply.

Historical Note

Adopted effective March 5, 1984 (Supp. 84-2). Amended effective June 18, 1990 (Supp. 90-2). The reference to R12-14-817(B)(1) in subsection (B)(1) corrected to read R12-15-817(B)(1) (Supp. 93-1). Amended by final rulemaking at 11 A.A.R. 5395, effective February 4, 2006 (Supp. 05-4).

R12-15-812. Special Aquifer Conditions

- A. Artesian wells**
 1. The well casing shall extend into the confining formation immediately overlying the artesian aquifer and shall be grouted from a minimum of ten feet into the confining formation to the land surface to prevent surface leakage into and subsurface leakage from the artesian aquifer.
 2. If leaks occur adjacent to the well or around the well casing, within 30 days the well shall be completed with the seals, packers, or casing and grouting necessary to eliminate such leakage or the well shall be abandoned according to R12-15-816.
 3. If the well flows at land surface, the well shall be equipped with a control valve, or suitable alternative means of completely controlling the flow, which must be available for inspection at the well site at all times.
- B. Mineralized or polluted water.** In all water-bearing geologic units containing mineralized or polluted water as indicated by available data, the borehole shall be cased and grouted so that contamination of the overlying or underlying groundwater zones will not occur.

Historical Note

Adopted effective March 5, 1984 (Supp. 84-2). Amended effective June 18, 1990 (Supp. 90-2).

R12-15-813. Unattended Wells

All wells, when unattended during well drilling, shall be securely covered for safety purposes and to prevent the introduction of foreign substances into the well.

Historical Note

Adopted effective March 5, 1984 (Supp. 84-2). Section number corrected (Supp. 93-1).

R12-15-814. Disinfection of Wells

A well drilling contractor shall disinfect any well from which the water to be withdrawn is intended to be utilized for human consumption or culinary purposes without prior treatment before removing the drill rig from the well site in accordance with the

requirements contained in Engineering Bulletin No. 8, "Disinfection of Water Systems", issued by the Arizona Department of Health Services in August 1978, and Engineering Bulletin No. 10, "Guidelines for the Construction of Water Systems", issued by the Arizona Department of Health Services in May 1978, both of which are incorporated by reference and are on file with the Office of the Secretary of State. Copies of the Engineering Bulletins referred to above may be obtained with these rules at the Office of the Secretary of State of the State of Arizona, State Capitol, West Wing, Phoenix, Arizona 85007, and from the Department of Water Resources, 3550 N. Central Avenue, Phoenix, AZ 85012. This rule does not include any later amendments or editions of those Bulletins.

Historical Note

Adopted effective March 5, 1984 (Supp. 84-2). Amended effective June 18, 1990 (Supp. 90-2). Amended by final rulemaking at 11 A.A.R. 5395, effective February 4, 2006 (Supp. 05-4).

R12-15-815. Removal of Drill Rig from Well Site

The drilling rig shall not be removed from the well site unless the well is in one of the following conditions:

1. Constructed in full conformance with R12-15-811 and R12-15-812 and either sealed with a cap or equipped with a pump.
2. Abandoned in accordance with R12-15-816.

Historical Note

Adopted effective March 5, 1984 (Supp. 84-2). Amended effective June 18, 1990 (Supp. 90-2).

R12-15-816. Abandonment

- A.** Well abandonment shall be performed only by a licensed well drilling contractor or single well licensee.
- B.** Except as provided in subsection (F) of this Section, the owner of a well shall file a notice of intent to abandon the well prior to abandonment, on a form prescribed and furnished by the Director, which shall include:
 1. The name and mailing address of the person filing the notice.
 2. The legal description of the land upon which the well proposed to be abandoned is located and the name and mailing address of the owner of the land.
 3. The legal description of the location of the well on the land.
 4. The depth, diameter and type of casing of the well.
 5. The well registration number.
 6. The materials and methods to be used to abandon the well.
 7. When abandonment is to begin.
 8. The name and well drilling license number of the well drilling contractor or single well licensee who is to abandon the well.
 9. The reason for the abandonment.
 10. Such other information as the Director may require.
- C.** The Director shall, upon receipt of a proper notice of intent to abandon, mail a well abandonment authorization card to the designated well drilling contractor or single well licensee.
- D.** Except as described in subsection (F) of this Section, a well drilling contractor or single well licensee may commence abandoning a well only if the driller has possession of an abandonment card at the well site, issued by the Director in the name of the driller, authorizing the abandonment of that specific well or wells in that specific location.
- E.** Within 30 days after a well is abandoned pursuant to this Section, the well drilling contractor or single well licensee shall file with the Director a Well Abandonment Completion Report

on a form prescribed and furnished by the Director which shall include the date the abandonment of the well was completed and such other information as the Director may require.

- F. In the course of drilling a new well, the well may be abandoned without first filing a notice of intent to abandon and without an abandonment card. If the well is abandoned pursuant to this subsection without first filing a notice of intent to abandon and without an abandonment card, the well drilling contractor or single well licensee shall provide the following information in the Well Abandonment Completion Report:
 1. The legal description of the land upon which the well was abandoned and the name and mailing address of the owner of the land.
 2. The legal description of the location of the well on the land.
 3. The depth, diameter and type of casing of the well prior to abandonment.
 4. The well registration number.
 5. The materials and methods used to abandon the well.
 6. The name and well drilling license number of the well drilling contractor or single well licensee who abandoned the well.
 7. The date of completion of the abandonment of the well.
 8. The reason for the abandonment.
 9. Such other information as the Director may require.
- G. The abandonment of a well shall be accomplished through filling or sealing the well so as to prevent the well, including the annular space outside the casing, from being a channel allowing the vertical movement of water.
- H. A well drilling contractor or single well licensee shall construct a surface seal for a well that does not penetrate an aquifer, as follows:
 1. If the casing is removed from the top 20 feet of the well, a cement grout plug shall be set extending from two feet below the land surface to a minimum of 20 feet below the land surface, and the well shall be backfilled above the top of the cement grout plug to the original land surface.
 2. If the casing is not removed from the top 20 feet of the well, a cement grout plug shall be set extending from the top of the casing to a minimum of 20 feet below the land surface and the annular space outside the casing shall be filled with cement from the land surface to a minimum of 20 feet below the land surface.
- I. In addition to the surface seal required in subsection (H):
 1. A well penetrating a single aquifer system with no vertical flow components shall be filled with cement grout, concrete, bentonite drilling muds, clean sand with bentonite, or cuttings from the well.
 2. A well penetrating a single or multiple aquifer system with vertical flow components shall be sealed with cement grout or a column of bentonite drilling mud of sufficient volume, density, and viscosity to prevent fluid communication between aquifers.
- J. Materials containing organic or toxic matter shall not be used in the abandonment of a well.
- K. The owner or operator of the well shall notify the Director in writing no later than 30 days after abandonment has been completed. The notification shall include the well owner's name, the location of the well, and the method of abandonment.

Historical Note

Adopted effective March 5, 1984 (Supp. 84-2). Amended effective June 18, 1990 (Supp. 90-2). Amended by final rulemaking at 13 A.A.R. 3022, effective October 6, 2007 (Supp. 07-3).

R12-15-817. Exploration Wells

- A. Notification. Prior to drilling one or more exploration wells, the well owner, lessee, or exploration firm shall file a notice of intention to drill on forms provided by the Director. If the notice of intention to drill is filed for the project as a whole, the drilling card shall be issued for the project as a whole.
- B. Construction and abandonment.
 1. If an exploration well which is to be left open for re-entry at a later date encounters groundwater, it shall be cased and capped in accordance with R12-15-811, R12-15-812, and R12-15-822. The minimal length of surface seal shall be either 20 feet, or five feet into the first encountered consolidated formation, whichever is less. If no groundwater is encountered, the well shall be cased, grouted and capped in such a manner so as to prevent contamination of the well bore from the surface.
 2. Exploration wells not left open for re-entry shall be abandoned in accordance with R12-15-816.
- C. Completion report. Within 30 days of project completion, the well owner, lessee, or exploration firm shall submit a project completion report on forms provided by the Director. The report shall include:
 1. The exact number of wells drilled.
 2. The depth to water encountered or detected, with reference to specific wells.
 3. The abandonment method utilized, or construction details if completed for re-entry.
 4. Any other information which the Director may require.

Historical Note

Adopted effective March 5, 1984 (Supp. 84-2). Amended effective June 18, 1990 (Supp. 90-2).

R12-15-818. Well Location

Except for monitor wells and piezometer wells, no well shall be drilled within 100 feet of any septic tank system, sewage disposal area, landfill, hazardous waste facility, storage area of hazardous materials or petroleum storage areas and tanks, unless authorized in writing by the Director.

Historical Note

Adopted effective March 5, 1984 (Supp. 84-2). Amended effective June 18, 1990 (Supp. 90-2).

R12-15-819. Use of Well as Disposal Site

No well may be used as a storage or disposal site for sewage, toxic industrial waste, or other materials that may pollute the groundwater, except as authorized by the Arizona Department of Environmental Quality.

Historical Note

Adopted effective March 5, 1984 (Supp. 84-2). Amended effective June 18, 1990 (Supp. 90-2).

R12-15-820. Request for Variance

- A. If extraordinary or unusual conditions exist, a well drilling contractor or owner may request a variance from the provisions of this Article.
- B. The request for variance shall be in writing and shall set forth the location of the well site, the reasons for the request, and the recommended requirements to be applied. The Director may approve the request only if the well drilling contractor or owner has clearly demonstrated that the variance will not adversely affect other water users or the local aquifers.
- C. A variance shall not be effective until the well drilling contractor or owner receives from the Director a written approval of the variance and a new drilling card stamped "variance issued."

Historical Note

Adopted effective March 5, 1984 (Supp. 84-2). Amended effective June 18, 1990 (Supp. 90-2).

R12-15-821. Special Requirements

If the Director determines that the literal application of the minimum well construction requirements contained in this Article would not adequately protect the aquifer or other water users, the Director may require that further additional measures be taken, such as increasing the length of the surface seal or increasing the well's minimum distance from a potential source of contamination.

Historical Note

Adopted effective March 5, 1984 (Supp. 84-2). Amended effective June 18, 1990 (Supp. 90-2).

R12-15-822. Capping of Open Wells

- A. The owner of an open well shall either install a cap on the well or abandon the well in accordance with R12-15-816. Within five days after capping the well, the owner of the well shall file with the Department a notice of well capping on a form approved by the Director which shall include the following information:
 1. The name and address of the well owner.
 2. The name and address of the person installing the cap.
 3. The well registration number.
 4. The legal description of the location of the well.
 5. The date the well was capped.
 6. The method of capping.
 7. The type and diameter of casing.
- B. If no casing exists in an open well, or if the integrity of the existing casing is insufficient to allow installation of a cap, the well owner shall install a surface seal in accordance with R12-15-811(B) prior to capping.
- C. The owner of a well on which a cap is installed shall make the cap tamper resistant by welding the cap to the top of the casing by the electric arc method of welding, except that the owner of a well may make the cap tamper resistant by securing the cap to the top of the casing with a lock during temporary periods of well maintenance, modification or repair, not to exceed 30 days, or at any time if the well is a monitor well or piezometer well.

Historical Note

Adopted as an emergency effective March 2, 1989, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 89-1). Emergency expired. Readopted without change as an emergency effective June 2, 1989, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 89-2). Emergency expired. Readopted without change as an emergency effective September 5, 1989, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 89-3). Emergency expired. Readopted without change as an emergency effective December 1, 1989, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 89-4). Emergency expired. Readopted without change as an emergency effective March 23, 1990, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 90-1). Permanent rule adopted with changes effective June 18, 1990 (Supp. 90-2). Amended by final rulemaking at 13 A.A.R. 3022, effective October 6, 2007 (Supp. 07-3).

R12-15-823. Reserved

through

R12-15-849. Reserved**R12-15-850. Evaluation of Notices of Intention to Drill; Notification of Registered Site Locations; Vertical Cross-Contamina-****tion Evaluation**

- A. The Director shall, upon receipt of a complete and correct notice of intention to drill form required under A.R.S. § 45-596, or upon receipt of an application for a permit under A.R.S. § 45-597 through 45-599, identify whether the proposed well will be drilled within a groundwater basin or sub-basin in which there exists a site listed on the registry established under A.R.S. § 49-287.01(D). If the proposed well is situated within such a groundwater basin or subbasin, the Director shall notify the applicant and the authorized well drilling contractor in writing of the existence of the site and shall enclose a map indicating the boundaries of all listed sites within the groundwater basin or subbasin. The notification letter shall include the name, address, and telephone number of a Department contact person, along with a reference to the provision in R12-15-851 that requires the applicant to notify the Department in advance of the date drilling of the well will commence. The Department shall also specify in the notification letter whether the applicant is subject to the requirements of R12-15-851.
- B. The Director shall, upon receipt of a complete and correct notice of intention to drill form required under A.R.S. § 45-596, or upon receipt of an application for a permit under A.R.S. § 45-597 through 45-599, identify whether the proposed well will be drilled within an area where existing or anticipated future groundwater contamination presents a risk of vertical cross-contamination, as defined in A.R.S. § 49-281(15). If the Director determines that the proposed well will be drilled in such an area, and if the Director finds that the requirements of R12-15-811 are insufficient to prevent the risk of vertical cross-contamination, the Director shall establish site-specific requirements pursuant to R12-15-812 and R12-15-821.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 469, effective January 3, 2000 (Supp. 00-1).

R12-15-851. Notification of Well Drilling Commencement

A well owner who has been issued a drilling card for a notice of intent to drill authorizing the drilling of a well located within a site listed on the registry established under A.R.S. § 49-287.01, shall provide written notice to the Director indicating the date drilling will commence. The well owner shall coordinate with the contracted well driller to ensure that the Department receives proper notification under this Section. This notification shall consist of a letter or facsimile transmission received by the Department at least 2 business days before drilling commences at the well site. The Department shall use notification letters required by R12-15-850(A) to inform well owners whether they are subject to the requirements of this Section.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 469, effective January 3, 2000 (Supp. 00-1).

R12-15-852. Notice of Well Inspection; Opportunity to Comment

- A. At least 30 days before the beginning of a well inspection under A.R.S. § 45-605(A), the Director shall notify in writing all potentially affected well owners of record within a community involvement area established under A.R.S. § 49-289.02 or within other areas that the Director has selected for inspection of wells that may be contributing to vertical cross-contamination. The notices shall include a map of the community involvement area, remedial site, or a subsection of either, that the Department intends to inspect, indicating the location of affected wells of record. The notice shall indicate the approxi-

mate date the inspection will start, the approximate duration of the inspection, an access agreement defining what specific activities will occur during a well inspection, and the name, address, and telephone number of a Department contact person.

- B.** Once the Director has given notice of a well inspection under A.R.S. § 45-605(A), potentially affected well owners have 30 days from the date the letter is postmarked to comment on the proposed inspection. The Director, upon receiving a written request, may extend the comment period for a maximum of 30 additional days.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 469, effective January 3, 2000 (Supp. 00-1).

ARTICLE 9. WATER MEASUREMENT

R12-15-901. Definitions

In addition to the definitions set forth in A.R.S. §§ 45-101 and 45-402, the following words and phrases shall have the following meanings, unless the context otherwise requires:

1. "Approved measuring device" means an instrument, approved by the Director pursuant to R12-15-903 or R12-15-909(A) which measures the volume or flow rate of water withdrawn, delivered, received, transported, recharged, stored, recovered, or used, and which measurements, when used with an approved measuring method, allow for accurate computation of a volume of water.
2. "Approved measuring method" means a procedure, approved by the Director in R12-15-903 or R12-15-909(A), which, when used with an approved measuring device, will accurately calculate a volume of water.
3. "Flow rate" or "discharge" means the volume of water, including any sediment or other solids that may be dissolved or mixed with it, which passes through a particular reference section in a unit of time.
4. "Measured system" means a system through which water passes for the purpose of withdrawal, delivery, receipt, transportation, recharge, storage, replenishment, recovery or use.
5. "Responsible party" means an irrigation district or a person required by A.R.S. Title 45 or by a permit, rule, or order issued pursuant to A.R.S. Title 45, to use a measuring device or method approved by the Director.

Historical Note

Adopted effective December 27, 1982 (Supp. 82-6).
Amended effective June 15, 1995 (Supp. 95-2). Amended to correct typographical error under A.A.C. R1-1-109 (Supp. 01-2).

R12-15-902. Installation of Approved Measuring Devices

- A.** A responsible party shall install an approved measuring device to monitor the volume of water withdrawn, delivered, transported, recharged, stored, replenished, recovered, and used.
- B.** A responsible party shall install and use a sufficient number of approved measuring devices to allow for the separate monitoring and reporting of the volume of water passing through the measured system pursuant to the following categories of rights:
1. Irrigation grandfathered rights,
 2. Non-irrigation grandfathered rights,
 3. Service area rights,
 4. Groundwater withdrawal permits, and
 5. Recovery well permits or water storage permits.

This subsection does not require separate measuring devices for rights within each category unless otherwise required by A.R.S. Title 45, a permit, rule, or order pursuant to that Title.

- C.** An approved measuring device which measures groundwater withdrawals shall be installed as close to the wellhead as is practical, consistent with the manufacturer's instructions. An approved measuring device which measures another point in the measured system shall be installed as close as is practical to the point of delivery, receipt, transportation, recharge, storage, replenishment, recovery, or use which the device is intended to measure, consistent with the manufacturer's instructions.

Historical Note

Adopted effective December 27, 1982 (Supp. 82-6).
Amended effective June 15, 1995 (Supp. 95-2). Amended to correct typographical error under A.A.C. R1-1-109 (Supp. 01-2).

R12-15-903. Approved Water Measuring Devices and Methods

- A.** Any measuring device is approved by the Director if it is installed, maintained, and used in accordance with the manufacturer's recommendations, and if it meets the accuracy requirements set forth in R12-15-905(A).
- B.** An approved measuring device shall be used with an approved measuring method set forth in R12-15-903(C) or an alternative measuring method approved by the Director as provided in R12-15-909(A).
- C.** The following water measuring methods are approved by the Director:
1. Totalizing measuring method: This method requires an approved measuring device which continuously records the volume of water passing through the measured system;
 2. Electrical consumption measuring method: This method requires measurements of either pipeflow rates or open-channel flow rates used in combination with electrical energy records;
 3. Natural gas consumption measuring method: This method requires measurements of either pipe flow rates or open channel flow rates used in combination with natural gas energy records;
 4. Hour meter measuring method: This method requires measurements of either pipe flow rates or open-channel flow rates used in combination with hour meter readings;
 5. Elapsed time of flow method: This method requires measurements of flow rates used in combination with elapsed time of the flow. This method may be used only by a responsible party who receives water from an open channel or by a person or entity who delivers water in an open channel to one or more grandfathered rightholders or permit holders, if it is not possible to use the electrical or gas consumption measurement methods or hour meter measuring method.

Historical Note

Adopted effective December 27, 1982 (Supp. 82-6).
Amended effective June 15, 1995 (Supp. 95-2).

R12-15-904. Water Measuring Method Reporting Requirements

- A.** A responsible party using one of the water measuring methods described in R12-15-903 shall file, with the annual report required by A.R.S. Title 45 and on a form prescribed by the Director, the following information, unless that information has not changed from that submitted in the annual report filed in the previous calendar year.

1. The approved measuring method used;
 2. The type of approved measuring device used;
 3. The make, model, and size of the approved measuring device used.
- B.** Except as provided in R12-15-904(B)(5) and R12-15-909(B) and (D), a responsible party shall file with the annual report the information required in subsection (A) of this Section and the following information on a form prescribed by the Director:
1. Totalizing measuring method:
 - a. The initial totalizing meter reading for the reporting year taken prior to the first use of the measured system during the reporting year;
 - b. The end totalizing meter reading for the year taken subsequently to the last use of the measured system during the reporting year;
 - c. The units in which the water is measured;
 - d. Whether the power meter serves uses other than the pump motor or engine;
 - e. An estimate of the amount of any water passing through the measured system during measuring device malfunctions;
 - f. If the well is in operation for more than a 30-day period, the results of a minimum of two flow-rate measurements per reporting year taken under normal system operating conditions. The responsible party shall not submit the results of the flow-rate measurements with the annual report unless a meter malfunction continues longer than 72 hours during the reporting year;
 - g. The installation or overhaul date of the totalizing meter; and
 - h. The name of the energy company supplying energy to the responsible party's measured system, its power account number, meter number, total energy consumption for the year, and the type of energy unit.
 2. Electrical consumption measuring method:
 - a. The results of a minimum of two flow-rate measurements per reporting year taken at least 30 days apart and under normal system operating conditions or, if the measured system is used during a single period of 30 days or less during the year, the result of one flow-rate measurement taken during that single period in that year under normal system operating conditions;
 - b. The dates of the measurements;
 - c. The discharges in gallons per minute;
 - d. The time, in seconds, of ten cycles of the electric meter disk, power indicator pulse, or an alternative measurement, provided that the alternative means of measurement is approved in advance by the Director;
 - e. The inside diameter of the discharge pipe;
 - f. The multiplier (K_r) and disk constant (K_h) of the electric meter; and
 - g. The name of the energy company supplying energy to the responsible party's measured system, its power account number, meter number, total energy consumption for the year, and the type of energy unit.
 3. Natural gas consumption measuring method:
 - a. The results of a minimum of two flow-rate measurements per reporting year taken at least 30 days apart and under normal system operating conditions or, if the measured system is used during a single period of 30 days or less during the year, the result of one flow-rate measurement taken during that single period in that year under normal system operating conditions;
 - b. The dates of the measurements;
 - c. The discharges in gallons per minute;
 - d. The amounts of gas per second in cubic feet indicated by the gas meter;
 - e. The billing factors (F);
 - f. The inside diameter of the discharge pipe; and
 - g. The name of the energy company supplying energy to the responsible party's measured system, its power account number, meter number, total energy consumption for the year, and the type of energy unit.
 4. Hour meter measuring method:
 - a. The results of a minimum of two flow-rate measurements per reporting year taken at least 30 days apart and under normal system operating conditions or, if the measured system is used during a single period of 30 days or less during the year, the result of one flow-rate measurement taken during that single period in that year under normal system operating conditions;
 - b. The dates of the measurements;
 - c. The discharges in gallons per minute;
 - d. The initial hour meter reading for the reporting year taken prior to the first use of the measured system during the reporting year;
 - e. The end hour meter reading taken subsequently to the last use of the measured system during the reporting year;
 - f. Whether the energy meter serves uses other than the pump motor or engine;
 - g. The installation or overhaul date of the hour meter; and
 - h. The name of the energy company supplying energy to the responsible party's measured system, its power account number, meter number, total energy consumption for the year, and the type of energy unit.
 5. Elapsed time of flow measuring method: A responsible party using this measuring method shall not be required to submit the following information with the annual report but instead shall record and retain it for three years after the reporting year.
 - a. The responsible party or agent shall measure and record an initial flow rate taken at the start of flow for each delivery of water;
 - b. If the flow rate continues for more than eight hours, a subsequent measured flow-rate measurement shall be taken. If any subsequently measured flow-rate differs by more than 10% from the initial flow rate, and the delivery is not adjusted to conform with the initial flow rate, the responsible party or agent shall record the subsequent flow rate;
 - c. The time the flow begins and the time the flow ends for each delivery of water; and
 - d. The dates of the measurements.
- C.** A responsible party or person or entity who uses an approved measuring method or an approved alternative water measurement method shall save the records required by subsections (A) and (B) of this Section for three years after the reporting year.

Historical Note

Adopted effective December 27, 1982 (Supp. 82-6). For-

mer Section R12-15-904 renumbered to R12-15-905, new Section adopted effective June 15, 1995 (Supp. 95-2). Amended by final rulemaking at 11 A.A.R. 5395, effective February 4, 2006 (Supp. 05-4).

R12-15-905. Accuracy of Approved Measuring Devices

- A. A responsible party shall install, maintain, and use an approved measuring device and method in a manner which will ensure that its measurement error does not exceed 10% of the actual flow rate.
- B. All measured systems shall be installed or constructed and thereafter maintained so as to allow the Director, using another measuring device, to check readily the accuracy of the measuring device utilized by the responsible party.

Historical Note

Adopted effective December 27, 1982 (Supp. 82-6). Former Section R12-15-905 renumbered to R15-15-906, new Section R12-15-905 renumbered from R12-15-904 and amended effective June 15, 1995 (Supp. 95-2).

R12-15-906. Repair and Replacement of Approved Measuring Devices

If an approved measuring device fails to perform its designated function for more than 72 hours, the responsible party shall notify the Director of the failure, in writing, within seven calendar days after the discovery of the failure of the device. The reason for such failure shall be stated, as well as the estimated date of return to service of the device. If the malfunction is discovered by the Director and the malfunction does not appear to be the result of an attempt to render the device inaccurate, the Director shall notify the responsible party of the malfunction. The responsible party shall return the measuring device to full service within 30 days of either original notice by the responsible party to the Director or by the Director to the responsible party, unless repair or replacement service or parts are not available. In such case, the responsible party shall notify the Director of the delay within seven days and the reasons for it. The responsible party shall take corrective action in such cases as soon as practical. In all cases, the responsible party shall notify the Director within seven days when the measuring device is returned to full service and shall submit on a form prescribed by the Director estimates of the volume of water, if any, passing through the measured system during the period the measuring device was out of service and a description of the method used to calculate the estimates.

Historical Note

Section R12-15-906 renumbered from R12-15-905 and amended effective June 15, 1995 (Supp. 95-2).

R12-15-907. Calculation of Irrigation Water Deliveries

If one or more irrigation grandfathered rights receive water by a common distribution system where water is measured with an approved device or method at the point of delivery to the common distribution system, but not at a point of delivery to each irrigation grandfathered right, each irrigation grandfathered rightholder or agent shall report the water used by either of the following methods:

1. Estimate the amount of water used based on a pro rata share of the acres irrigated, or
2. Estimate the amount of water used based on a combination of the pro rata share of the acres irrigated and the consumptive use of each crop grown.

Historical Note

Adopted effective June 15, 1995 (Supp. 95-2).

R12-15-908. Measurement of Water by One Person on Behalf of Another

A responsible party shall be liable for any fines, penalties, or other sanctions resulting from the installation, monitoring, use, or accuracy of any measuring device, method, or recordkeeping, notwithstanding that the installation, monitoring, use, or recordkeeping may have been done by an agent of the responsible party.

Historical Note

Adopted effective June 15, 1995 (Supp. 95-2).

R12-15-909. Alternative Water Measuring Devices, Methods, and Reporting

- A. A responsible party may use an alternative water measuring device or method that differs from those described in R12-15-903 provided the device or method is approved in advance by the Director. The Director shall approve an alternative water measuring device or method if the device meets the requirements of R12-15-905. The Director may require from the responsible party such information as may be necessary to demonstrate that the alternative device or method meets the requirements of R12-15-905.
- B. Responsible parties may substitute equivalent information for the information required on the annual report form or use reporting formats that differ from that required in R12-15-904, provided the substituted information or format is approved in advance by the Director.
- C. Responsible parties may use estimation methods that differ from those described in R12-15-907 provided they are approved in advance by the Director.
- D. A municipal provider is exempted from the reporting requirements under R12-15-904 and the provisions under R12-15-906 pertaining to notification to the Director of measuring device malfunctions regarding metered service connections, unless required to report by A.R.S. Title 45 or by a permit, rule, or order issued pursuant to A.R.S. Title 45.
- E. Municipal providers and irrigation districts may notify the Director of measuring device malfunctions at the time of filing the annual report and in a manner that differs from the requirements of R12-15-906, provided the municipal provider or irrigation district implements a schedule of regular maintenance of measuring devices, repairs or replaces malfunctioning measuring devices within seven days of discovery of the malfunction, and the alternative notification is approved in advance by the Director.

Historical Note

Adopted effective June 15, 1995 (Supp. 95-2).

ARTICLE 10. REPORTING REQUIREMENTS FOR ANNUAL REPORTS, ANNUAL ACCOUNTS, OPERATING FLEXIBILITY ACCOUNTS, AND CONVEYANCES OF GROUNDWATER RIGHTS

R12-15-1001. Definitions

In addition to the definitions in A.R.S. §§ 45-101 and 45-402, the following words and phrases in this Article have the following meanings, unless the context otherwise requires:

1. "Annual account" means an accounting of water required to be filed pursuant to A.R.S. § 45-468.
2. "Annual report" means an annual report of water withdrawn, delivered, received, transported, recharged, stored, recovered, replenished or used as required by A.R.S. §§ 45-437, 45-467, 45-632, 45-875.01, 45-876.01, 45-877.01, 45-878.01 or 45-1004.
3. "Central Arizona project water" means Colorado River water delivered through the facilities of the central Arizona project, and surface water from any other source conserved and developed by dams and reservoirs in the central Arizona project and lawfully delivered by the United States or a multi-county conservation district.

4. "Decreed or appropriative surface water" means surface water which is delivered or used pursuant to a decreed or appropriative water right, except any such water which is included in central Arizona project water.
5. "Farm" means an area of irrigated land under the same ownership as defined in A.R.S. § 45-402, including the area of land described in a certificate of irrigation grandfathered right, as well as contiguous land that the owner is legally entitled to irrigate only with decreed or appropriative surface water.
6. "Maximum annual groundwater allotment" means the quantity of water in acre-feet obtained by multiplying the number of water duty acres for a farm by the current irrigation water duty for the farm unit.
7. "Normal flow" means water delivered or used pursuant to a right to appropriate an unstored, natural flow of surface water.
8. "Operating flexibility account" means an accounting of water use pursuant to an irrigation grandfathered right as provided in A.R.S. § 45-467.
9. "Responsible party" means a person required by law to file an annual account or annual report.
10. "Spillwater" means surface water, other than Colorado River water, released for beneficial use from storage, diversion, or distribution facilities to avoid spilling that would otherwise occur due to uncontrolled surface water inflows that exceed facility capacity and to which one of the following applies:
 - a. The water is released from the facility under written criteria for releasing water to avoid spilling that have been approved in writing by the Director.
 - b. The water is released from the facility because an unreasonable risk exists that the storage capacity of the facility will be exceeded within the next 30 days because the facility is near capacity and either the inflow to the facility or the forecast runoff into the facility is equal to or greater than the quantity of water ordered from the facility.
 - c. The water is released from the facility because an unreasonable risk exists that the storage capacity of the facility will be exceeded more than 30 days in the future because the forecast runoff into the facility exceeds current unused storage capacity and projected water demand during the forecast period, provided that the Director has made a written finding before the release that the forecast is reasonable.
11. "Surface water right acre" means land to which the owner is legally entitled to apply decreed or appropriative surface water.
12. "Tailwater" means water which, after having been applied to a farm for irrigation purposes,
 - a. Is subsequently used for the irrigation of a different farm, without having entered the distribution system of a city, town, private water company or irrigation district, or
 - b. Is delivered to an irrigation district in accordance with R12-15-1010. Such water, once having entered the distribution system of the irrigation district, loses its characterization as tailwater.
13. "Water deliverer" means a city, town, private water company or irrigation district delivering a combination of groundwater and any other type of water for irrigation purposes.

Historical Note

Adopted effective December 27, 1982 (Supp. 82-6). Section R12-15-1001 renumbered to R12-15-1003, new Sec-

tion R12-15-1001 adopted effective December 12, 1990 (Supp. 90-4). Amended to correct typographical error under A.A.C. R1-1-109 (Supp. 01-2). Amended by final rulemaking at 11 A.A.R. 5395, effective February 4, 2006 (Supp. 05-4).

R12-15-1002. Form of Annual Account or Annual Report

- A. A person filing an annual account or an annual report shall do so on a form prescribed by the Director, unless the person has requested and received the Director's prior written approval to use an alternative form.
- B. A person may file both an annual account and an annual report in one document. A person required to file an annual account shall designate in the annual account whether the annual account is being filed also as an annual report.

Historical Note

Adopted effective December 12, 1990 (Supp. 90-4).

R12-15-1003. Accuracy of Annual Reports

The quantity of water a responsible party reports in an annual report as having been withdrawn, delivered, received, transported, recharged, replenished, stored, recovered, or used during a year shall not deviate from the quantity of water actually withdrawn, delivered, received, transported, recharged, replenished, stored, recovered, or used by the responsible party during the year unless both of the following apply:

1. The deviation is 10 percent or less.
2. The deviation is not the result of an intentional act of misrepresentation by the responsible party.

Historical Note

Section R12-15-1003 renumbered from R12-15-1001 effective December 12, 1990 (Supp. 90-4). Amended by final rulemaking at 11 A.A.R. 5395, effective February 4, 2006 (Supp. 05-4).

R12-15-1004. Annual Reports Filed on Behalf of a Responsible Party

- A. A responsible party is liable for any fines, penalties, or other sanctions resulting from or attributable to the filing or content of an annual report filed on behalf of the responsible party by an irrigation district pursuant to A.R.S. § 45-632, or by another person in a form acceptable to the Director.
- B. If a responsible party has not filed an annual report for a calendar year, and the Department receives an annual report for that calendar year purportedly filed on behalf of the responsible party by an irrigation district pursuant to A.R.S. § 45-632, or by another person in a form acceptable to the Director, there is a rebuttable presumption that the annual report was filed with the responsible party's knowledge, consent, and authorization.

Historical Note

Adopted effective December 12, 1990 (Supp. 90-4). Amended to correct typographical error under A.A.C. R1-1-109 (Supp. 01-2). Amended by final rulemaking at 11 A.A.R. 5395, effective February 4, 2006 (Supp. 05-4).

R12-15-1005. Management Plan Monitoring and Reporting Requirements

A responsible party who is required by a provision of a management plan to comply with monitoring and reporting requirements shall comply with such requirements and shall include all such information in an annual account or annual report.

Historical Note

Adopted effective December 12, 1990 (Supp. 90-4).

R12-15-1006. Reporting Requirements for Holders of Recovery Well Permits

A responsible party recovering water during a year pursuant to a recovery well permit shall include in the annual report required by A.R.S. § 45-875.01 the names of any persons, other than non-irrigation customers of cities, towns, private water companies and irrigation districts, to whom the responsible party delivered the recovered water during the year, the quantity of recovered water delivered to each person named, and the uses to which the recovered water was applied. If the recovered water included commingled groundwater, decreed or appropriative surface water other than spillwater, central Arizona project water, effluent or spillwater, the responsible party shall include in the annual report an estimate of the quantity of each type of water delivered to each person named in the annual report or put to a specific use by the responsible party.

Historical Note

Adopted effective December 12, 1990 (Supp. 90-4).
Amended by final rulemaking at 11 A.A.R. 5395, effective February 4, 2006 (Supp. 05-4).

R12-15-1007. Reporting Requirements for Annual Account

A person required to file an annual account pursuant to A.R.S. § 45-468 shall account for water provided to the following classes of users:

1. Cities and towns,
2. Private water companies,
3. Irrigation districts,
4. Dairies,
5. Metal mining facilities,
6. Cattle feed lots,
7. Turf-related facilities,
8. Sand and gravel facilities,
9. Electrical power generation facilities,
10. Other industrial users.

Historical Note

Adopted effective December 12, 1990 (Supp. 90-4).

R12-15-1008. Information Required to Maintain an Operating Flexibility Account

A. A responsible party who withdraws, receives, or uses groundwater during a calendar year pursuant to an irrigation grandfathered right, including any in lieu water received pursuant to a groundwater savings facility permit issued pursuant to A.R.S. § 45-812.01, shall include the following information for the calendar year in an annual report filed pursuant to A.R.S. § 45-467 or 45-632:

1. The quantity of groundwater withdrawn from each well.
2. The quantity of groundwater withdrawn and delivered to another person for irrigation purposes.
3. The quantity of groundwater received from a city, town, private water company, or irrigation district, including any in lieu water received pursuant to a groundwater savings facility permit issued pursuant to A.R.S. § 45-812.01.
4. The quantity of groundwater received from a person other than a city, town, private water company, or irrigation district, including any in lieu water received pursuant to a groundwater savings facility permit issued pursuant to A.R.S. § 45-812.01.
5. The quantity of effluent received.
6. The quantity of decreed or appropriative surface water received, other than normal flow and spillwater.
7. The quantity of normal flow received.
8. The quantity of spillwater received.
9. The quantity of tailwater used.
10. The quantity of tailwater delivered in accordance with the provisions of R12-15-1010(A), and the farm or irrigation district to which the tailwater was delivered.

11. The quantity of central Arizona project water received.
12. The quantity of any surface water received and not accounted for pursuant to subsections (6) through (11) of this subsection.
13. The number of surface water right acres in the farm to which the irrigation grandfathered right is appurtenant.
14. The quantity of water used for the legal irrigation of acres in the farm to which irrigation grandfathered rights are not appurtenant. If the responsible party omits this information, the Director shall presume that the total amount of water received or used for the irrigation of the farm was applied to acres to which irrigation grandfathered rights are appurtenant.
15. Any other information the Director may reasonably require to accomplish the management goals of the applicable active management area.

B. A water deliverer shall include the following information for an accounting period in an annual account filed pursuant to A.R.S. § 45-468:

1. The quantity of groundwater delivered to each farm, including any in lieu water delivered pursuant to a groundwater savings facility permit issued pursuant to A.R.S. § 45-812.01.
2. The quantity of normal flow delivered to each farm.
3. The quantity of spillwater delivered to each farm.
4. The quantity of decreed or appropriative surface water, other than normal flow and spillwater, delivered to each farm.
5. The quantity of central Arizona project water delivered to each farm.
6. The quantity of decreed or appropriative surface water, other than normal flow and spillwater, delivered for use within the service area of the water deliverer, including all farm and non-farm deliveries.
7. The number of surface water right acres within the service area of the water deliverer.
8. The quantity of effluent delivered to each farm.
9. Any other information the Director may reasonably require to accomplish the purposes of A.R.S. § 45-468.

Historical Note

Adopted effective December 12, 1990 (Supp. 90-4).
Amended by final rulemaking at 11 A.A.R. 5395, effective February 4, 2006 (Supp. 05-4).

R12-15-1009. Credits to Operating Flexibility Account

- A. Except as provided in subsection (B) of this Section and in R12-15-1010, if the total amount of water from all sources other than spillwater used by a farm for irrigation purposes in a calendar year is less than the farm's maximum annual groundwater allotment for the year, the Director shall register the difference as a credit to the farm's operating flexibility account.
- B. If a farm is within the service area of a water deliverer, the Director shall reduce the credit as calculated pursuant to subsection (A) of this Section by an amount equal to the difference between the farm's pro rata share of the total quantity of decreed or appropriative surface water, other than normal flow or spillwater, delivered by the water deliverer during the year for use within its service area, and the quantity of water actually received by the farm during the year. The Director shall determine the farm's pro rata share by dividing the number of surface water right acres in the farm that are within the service area of the water deliverer by the total number of surface water right acres within the service area of the water deliverer, and multiplying the quotient by the total quantity of decreed or appropriative surface water, other than normal flow or spillwa-

ter, delivered by the water deliverer during the year for use within its service area.

Historical Note

Adopted effective December 12, 1990 (Supp. 90-4).
Amended by final rulemaking at 11 A.A.R. 5395, effective February 4, 2006 (Supp. 05-4).

R12-15-1010. Operating Flexibility Account; Tailwater

- A. When calculating credits or debits to a farm's operating flexibility account for a year, the Director shall exclude from the total amount of water used on the farm during that year the amount of any tailwater that originated on the farm and that was delivered from the farm to another farm or to an irrigation district for irrigation purposes during the year if all of the following apply:
1. Prior to January 1 of the year in which the deliveries of tailwater take place, the Director approves a written plan to measure and record the tailwater deliveries. The plan shall include:
 - a. The installation and use of a totalizing water measuring device that will record tailwater deliveries with no greater than a 10 percent margin of error.
 - b. Procedures for keeping accurate records of the tailwater deliveries.
 - c. A description of how the tailwater will be delivered.
 - d. An identification of the farm or irrigation district to which the tailwater will be delivered.
 2. The person has measured, recorded, and delivered the tailwater in accordance with the plan approved under subsection (A)(1) of this Section.
 3. The tailwater was delivered directly from the farm on which it originated to:
 - a. A specified farm that used the tailwater for the legal irrigation of irrigation acres or surface water right acres on that farm, or
 - b. A specified irrigation district that delivered the tailwater for the legal irrigation of irrigation acres or surface water right acres within that district.
- B. A person who delivers tailwater in accordance with subsection (A) of this Section, and a person who directly receives and uses the tailwater pursuant to subsection (A)(3)(a) of this Section, shall account for and report the tailwater as if it were comprised of a mixture of groundwater, decreed and appropriate surface water other than normal flow, central Arizona project water, spillwater, other surface water, and effluent, as applicable, in the same proportions as those types of water comprise the total amount of water other than normal flow received or withdrawn for irrigation use during the calendar year on the farm on which the tailwater originated.
- C. A person who uses tailwater that has not been delivered and accounted for as provided in subsections (A) and (B) of this Section may credit against the person's use of groundwater in a calendar year the amount of the tailwater used during the calendar year if the use of such tailwater would cause a debit to be incurred. The credit shall be applied only against the person's operating flexibility account debits that otherwise would have been incurred that year and shall not be used to discharge debits from prior years or accumulate credits for future years. For purposes of calculating credits to the person's operating flexibility account, the Director shall treat tailwater as groundwater, unless reported otherwise according to its source.
- D. An irrigation district that receives tailwater pursuant to subsection (A)(3)(b) shall account for the water in the same manner as other water in the district's distribution system.

Historical Note

Adopted effective December 12, 1990 (Supp. 90-4).

Amended by final rulemaking at 11 A.A.R. 5395, effective February 4, 2006 (Supp. 05-4).

R12-15-1011. Statement of Operating Flexibility Account

- A. The Director shall annually issue to each owner or user of an irrigation grandfathered right for which a current annual report has been filed a statement of the operating flexibility account setting forth the status of the operating flexibility account for the farm, based on the information submitted in the annual report filed for the right.
- B. Upon a motion or on the initiative of the Director, the Director may amend a statement of operating flexibility account at any time to correct clerical mistakes or to adjust the balance of the account based on information submitted in an amended or late annual report. The Director shall give written notice of any amendments made pursuant to this subsection to the person to whom the statement of operating flexibility account was issued.

Historical Note

Adopted effective December 12, 1990 (Supp. 90-4).
Amended by final rulemaking at 11 A.A.R. 5395, effective February 4, 2006 (Supp. 05-4).

R12-15-1012. Rule of Construction

Nothing in A.A.C. R12-15-1001 through R12-15-1011 shall be construed to determine the legality of any water use for which an accounting is required under these rules.

Historical Note

Adopted effective December 12, 1990 (Supp. 90-4).

R12-15-1013. Retention of Records for Annual Accounts and Annual Reports

The responsible party shall keep and maintain, for at least three calendar years following the filing of an annual account or an annual report, all records which may be necessary to verify the information and data contained therein.

Historical Note

Adopted effective December 12, 1990 (Supp. 90-4).

R12-15-1014. Late Filing or Payment of Fees; Extension Penalties

- A. An annual account, an annual report, or a request for extension pursuant to subsection (E) of this rule shall be deemed to be filed at the time a complete annual account, a complete annual report or a request for extension is hand-delivered to any Department office, or at the time the envelope in which it is mailed is postmarked.
- B. Except as provided in subsection (C) of this Section, groundwater withdrawal fees and long-term storage credit recovery fees are deemed paid at the time the fees are hand-delivered to any Department office, or at the time the envelope in which they are mailed is postmarked.
- C. If any groundwater withdrawal fees or long-term storage credit recovery fees are paid with a negotiable instrument that is not honored and paid upon the Department's initial demand, the fees are deemed paid at the time the Department actually receives the fees in cash or when the negotiable instrument is honored and paid to the Department.
- D. If an annual account or an annual report filed on or before the date required by the applicable statute is found by the Director to be incomplete, the Director shall notify the responsible party of the inadequacies and allow the responsible party 30 days from the date of the notice to provide the missing information in a form prescribed by the Director. If the responsible party does not provide the missing information within 30 days from the date of the notice, late penalties under A.R.S. §§ 45-

437, 45-632, 45-875.01, 45-876.01, 45-877.01, 45-878.01 or 45-1004 shall begin to accrue on the 31st day following the date of the notice. The Director shall not recommend to a court, pursuant to A.R.S. §§ 45-634, 45-635, 45-881.01, 45-882.01, 45-1062 or 45-1063, that civil penalties be imposed through the first 30 days following the date of the notice. However, if the inadequacy included the failure to pay all groundwater withdrawal fees due or all long-term storage credit recovery fees due, late penalties under A.R.S. §§ 45-614 or 45-874.01 shall begin to accrue on April 1, except as provided in subsection (E) of this Section.

- E. A responsible party required to file an annual account or annual report for a year may request a 30-day extension of the first day of accrual of the late penalties under A.R.S. §§ 45-437, 45-614, 45-632, 45-874.01, 45-875.01, 45-876.01, 45-877.01, 45-878.01 or 45-1004 and of the civil penalties that the Director may recommend that a court impose pursuant to A.R.S. §§ 45-634, 45-635, 45-881.01, 45-882.01, 45-1062 or 45-1063. The request shall be filed no later than the date the annual account or annual report is required to be filed under the applicable statute. The Director shall grant a request for a 30-day extension if good cause is shown. If the Director grants the request, the late penalties and civil penalties shall begin to accrue on the first day after the 30-day extension period, except that if the Director finds that the person making the request presented false or misleading information to the Director and the Director relied on that information in granting the request, the late penalties and civil penalties shall begin to accrue as if the request was not granted. The Director shall not grant an extension to a responsible party who was granted an extension in the preceding calendar year and who subsequently failed to file a complete annual account or annual report and pay all groundwater withdrawal fees and all long-term storage credit recovery fees due within the 30-day extension period.

Historical Note

Adopted effective December 12, 1990 (Supp. 90-4).
Amended by final rulemaking at 11 A.A.R. 5395, effective February 4, 2006 (Supp. 05-4).

R12-15-1015. Reporting Requirements for Conveyances of Grandfathered Rights and Groundwater Withdrawal Permits

- A. A person who is required by A.R.S. § 45-482 to notify the Director of a conveyance of a grandfathered right shall file a notice of conveyance, on a form prescribed by the Director, within 30 days of the conveyance. All parties to the conveyance may use a single form for the required notice. Except provided in subsection (B) of this rule, the notice of conveyance shall include an accounting of the amount of water withdrawn or received pursuant to that grandfathered right from January 1 to the date of conveyance for that calendar year.
- B. If the person to whom a grandfathered right is conveyed is unable, because of extraordinary circumstances and good cause shown, to perform the accounting otherwise required by subsection (A) of this rule, the Director may waive the requirement for that person.
- C. If a person, including a person who is granted a waiver pursuant to subsection (B) of this rule, fails to include the required accounting in a timely filed notice of conveyance pursuant to subsection (A) of this rule, the Director shall determine the amount of groundwater withdrawn or received pursuant to the grandfathered right from January 1 to the date of conveyance for that calendar year. Such a person shall bear the burden, in any subsequent administrative or judicial proceeding, of establishing by clear and convincing evidence that the Director's determination was incorrect.

- D. A person requesting the Director's approval of a proposed conveyance of a groundwater withdrawal permit pursuant to A.R.S. § 45-520(B) shall include with such request the quantity of groundwater withdrawn pursuant to the groundwater withdrawal permit for that calendar year and all other information required to be submitted pursuant to A.R.S. § 45-632.

Historical Note

Adopted effective December 12, 1990 (Supp. 90-4).

R12-15-1016. Spillwater Reporting by Water Deliverers

A water deliverer that delivers spillwater during a year shall include the following information in the annual account or annual report submitted by the water deliverer for that year:

1. The total quantity of spillwater delivered for non-irrigation uses during the year.
2. The total quantity of spillwater delivered for irrigation uses during the year.
3. Any other information the Director may reasonably require to determine whether the water qualifies as spillwater under R12-15-1001(10).

Historical Note

New Section made by final rulemaking at 11 A.A.R. 5395, effective February 4, 2006 (Supp. 05-4).

R12-15-1017. Maintenance and Filing of Annual Reports Required by A.R.S. § 45-343

A community water system required to file an annual report under A.R.S. § 45-343 shall maintain the report on a calendar year basis and shall file the report with the Director no later than June 1 of each year for the preceding calendar year.

Historical Note

New Section made by final rulemaking at 11 A.A.R. 5395, effective February 4, 2006 (Supp. 05-4).

ARTICLE 11. INSPECTIONS AND AUDITS

R12-15-1101. Inspections

- A. For the purpose of this rule, "inspection" means an entry by the Director at reasonable times onto private or public property for any of the following purposes:
1. To obtain factual data or access to records required to be kept under A.R.S. §§ 45-632, 45-879.01, or 45-1004.
 2. To inspect a well or another facility for the withdrawal, transportation, use, measurement, or recharge of groundwater under A.R.S. § 45-633.
 3. To inspect a facility that is used for the purpose of water storage, stored water recovery, or stored water use under A.R.S. § 45-880.01(A).
 4. To inspect a body of water under A.R.S. § 45-135 or to ascertain compliance with A.R.S. Title 45, Chapter 1, Article 3.
 5. To inspect or to obtain factual data or access to records pursuant to any Section of A.R.S. Title 45 that requires the Director to adopt rules for conducting inspections, examining records, and obtaining warrants.
 6. To inspect facilities used for the withdrawal, diversion, or use of water pursuant to a water exchange under A.R.S. § 45-1061.
- B. Not less than seven days prior to an inspection, the Director shall mail notice of the inspection by first class letter to the owner, manager or occupant of the property. The notice shall include the statutory authorization and purpose for the inspection. The notice shall specify a date and time certain or a seven-day period within which the inspection may take place. If a request is made before the seven-day period, the Director shall schedule the inspection for a time certain within the seven-day period to allow an opportunity for a representative

of the property to be present at the inspection. The notice shall include the name and telephone number of a Department employee who may be contacted to arrange such an appointment.

- C. Whenever practical, Department employees shall minimize disruptions to on-going operations caused by an inspection.
- D. If the property is controlled or secured against entry at the time specified in the notice of inspection but consent to the inspection was not denied, the Director shall give a second notice in the manner prescribed in subsection (B) before seeking a search warrant or its equivalent. The second notice shall request that a representative of the property be present at the inspection to accompany Department personnel.
- E. If the Director gives notice of an inspection and is not permitted to conduct an inspection, the Director may apply for and obtain a search warrant or its equivalent.
- F. Notice of inspection shall not be required under subsections (B) and (D) of this rule if the Director reasonably believes that notice would frustrate the enforcement of A.R.S. Title 45, or where entry is sought for the sole purpose of inspecting water measuring devices required pursuant to A.R.S. § 45-604.
- G. The Director shall mail a copy of the report of the inspection either to the person to whom the notice of inspection was directed, or to the owner, manager or occupant of the property if no notice of inspection was given. The report shall include the date of the inspection and a short summary of the findings. If no notice was given, the report shall include an explanation of the reason for determining that notice would not be given, unless providing the explanation would frustrate enforcement of A.R.S. Title 45. An aggrieved person may file with the Director written comments on the report within 30 days after the report is mailed.
- H. The owner, manager or occupant of the property may waive the provisions for notice contained in this rule.
- I. The Director shall comply with the requirements of A.R.S. § 41-1009 when conducting inspections under this Section.

Historical Note

Adopted effective August 31, 1992 (Supp. 92-3).
Amended effective July 22, 1994 (Supp. 94-3). Amended
by final rulemaking at 11 A.A.R. 5395, effective
February 4, 2006 (Supp. 05-4).

R12-15-1102. Audits

- A. For the purpose of this rule, "representative" means
 - 1. An officer or director of a corporation subject to the audit,
 - 2. A general partner of a partnership subject to the audit, or
 - 3. A person who appears at an audit and produces a signed authorization to act on behalf of the person subject to the audit.
- B. This rule applies to audits conducted pursuant to A.R.S. §§ 45-633(C), 45-880.01, and any other Section of A.R.S. Title 45 that authorizes the Director to require a person to appear at the Director's office and produce records and information and that also requires the Director to adopt rules for conducting inspections, examining records, and obtaining warrants.
- C. No less than 20 days prior to an audit, the Director shall mail notice of the audit by first class letter to the person that is the subject of the audit. The notice shall state the date, time and place of the audit. The notice shall specify the records or information which the person must produce. The notice shall also include the statutory authorization and purpose for the audit and the name and telephone number of a Department employee who may be contacted for further information. The audit shall be held at the Department's offices, unless the Director grants a request to have the audit conducted at a different location.

- D. The person subject to the audit or a representative shall appear at the scheduled time and shall produce the records and information specified in the notice. The person subject to the audit or a representative may make one request to reschedule the audit, which the Department shall grant if practicable.
- E. The Director shall mail a copy of the report of the audit to the person subject to the audit. An aggrieved person may file with the Director written comments on the report within 30 days after the report is mailed.
- F. The person subject to the audit may waive the provisions for notice contained in this rule.

Historical Note

Adopted effective August 31, 1992 (Supp. 92-3).
Amended effective July 22, 1994 (Supp. 94-3).

ARTICLE 12. DAM SAFETY PROCEDURES

R12-15-1201. Applicability

- A. This Article applies to any artificial barrier meeting the specifications of A.R.S. § 45-1201(1) as interpreted by R12-15-1204. This Article applies to an application for the construction of a dam and reservoir; an application to reconstruct, repair, alter, enlarge, breach, or remove an existing dam and reservoir, including a breached or damaged dam; operation and maintenance of an existing dam and reservoir; and enforcement. A structure identified in R12-15-1203 is exempt from this Article.
- B. This Article is applicable to any dam regardless of hazard potential classification, with the following exceptions:
 - 1. R12-15-1208, R12-15-1209, R12-15-1213, R12-15-1221, R12-15-1225, and R12-15-1226 apply only to a dam classified as a high or significant hazard potential dam.
 - 2. R12-15-1210 applies only to a dam classified as a low hazard potential dam. A low hazard potential dam is exempt from R12-15-1208, R12-15-1209, R12-15-1211, R12-15-1213, R12-15-1221, R12-15-1225, and R12-15-1226.
 - 3. R12-15-1211 applies only to a dam classified as a very low hazard potential dam. A very low hazard potential dam is exempt from R12-15-1208, R12-15-1209, R12-15-1210, R12-15-1212, R12-15-1213, R12-15-1215, R12-15-1216, R12-15-1221, R12-15-1225, and R12-15-1226.
 - 4. R12-15-1216(B) applies only to an embankment dam.

Historical Note

Adopted effective November 2, 1978 (Supp. 78-6). Former Section R12-15-01 renumbered without change as Section R12-15-1201 effective October 8, 1982 (Supp. 82-5). Section repealed; new Section adopted by final rulemaking at 6 A.A.R. 2558, effective June 12, 2000 (Supp. 00-2).

R12-15-1202. Definitions

In addition to the definitions provided in A.R.S. § 45-1201, the following definitions are applicable to this Article:

- 1. "Alteration or repair of an existing dam or appurtenant structure" means to make different from the originally approved construction drawings and specifications or current condition without changing the height or storage capacity of the dam or reservoir, except for ordinary repairs and general maintenance as prescribed in R12-15-1217.
- 2. "Appurtenant structure" means any structure that is contiguous and essential to the safe operation of the dam including embankments, saddle dikes, outlet works and controls, diversion ditches, spillway and controls, access structures, bridges, and related housing at a dam.

3. "Classification of dams" means the placement of dams into categories based upon an evaluation of the size and hazard potential, regardless of the condition of the dam.
4. "Concrete dam" means any dam constructed of concrete, including arch, gravity, arch-gravity, slab and buttress, and multiple arch dams. A dam that only has a concrete facing is not a concrete dam.
5. "Construction" means any activity performed by the owner or someone employed by the owner that is related to the construction, reconstruction, repair, enlargement, removal, or alteration of any dam, unless the context indicates otherwise. Construction is performed after approval of an application and before issuance of a license.
6. "Dam failure inundation map" means a map depicting the maximum area downstream from a dam that would be flooded in the event of the worst condition failure of the dam.
7. "Department" means the Arizona Department of Water Resources.
8. "Director" means the Director of the Arizona Department of Water Resources or the Director's designee.
9. "Embankment dam" means a dam that is constructed of earth or rock material.
10. "Emergency spillway" means a spillway designed to safely pass the inflow design flood routed through the reservoir. If the flow is controlled by gates, it is a controlled spillway. If the flow is not controlled by gates, it is an uncontrolled spillway.
11. "Engineer" means a Professional Engineer registered and licensed in accordance with A.R.S. Title 32, Chapter 1, with proficiency in engineering and knowledge of dam technology.
12. "Enlargement to an existing dam or appurtenant structure" means any alteration, modification, or repair that increases the vertical height of a dam or the storage capacity of the reservoir.
13. "Flashboards" mean timber, concrete, or steel sections placed on the crest of a spillway to raise the retention water level that may be quickly removed at time of flood either by a tripping device or by designed failure of the flashboards or their supports.
14. "Flood control dam" means a dam that uses all of its reservoir storage capacity for temporary impoundment of flood waters and collection of sediment or debris.
15. "Hazard potential" means the probable incremental adverse consequences that result from the release of water or stored contents due to failure or improper operation of a dam or appurtenances.
16. "Hazard potential classification" means a system that categorizes dams according to the degree of probable incremental adverse consequences of failure or improper operation of a dam or appurtenances. The hazard potential classification does not reflect the current condition of the dam with regard to safety, structural integrity, or flood routing capacity.
17. "Height" means the vertical distance from the lowest elevation of the outside limit of the barrier at its intersection with the natural ground surface to the spillway crest elevation. For the purpose of determining jurisdictional status, the lowest elevation of the outside limit of the barrier may be the outlet pipe invert elevation if the outlet is constructed below natural ground.
18. "Impound" means to cause water or a liquid to be confined within a reservoir and held with no discharge.
19. "Incremental adverse consequences" means under the same loading conditions, the additional adverse consequences such as economic, intangible, lifeline, or human losses, that would occur due to the failure or improper operation of the dam over those that would have occurred without failure or improper operation of the dam.
20. "Inflow design flood" or "IDF" means the reservoir flood inflow magnitude selected on the basis of size and hazard potential classification for emergency spillway design requirements of a dam.
21. "Intangible losses" means incremental adverse consequences to property that are not economic in nature, including property related to social, cultural, unique, or resource-based values, including the loss of irreplaceable and unique historic and cultural features; long-lasting pollution of land or water; or long-lasting or permanent changes to the ecology, including fish and endangered species habitat identified and evaluated by a public natural resource management or protection agency.
22. "Jurisdictional dam" means a barrier that meets the definition of a dam prescribed in A.R.S. § 45-1201 that is not exempted by R12-15-1203 over which the Department of Water Resources exercises jurisdiction.
23. "Levee" means an embankment of earth, concrete, or other material used to prevent a watercourse from spreading laterally or overflowing its banks. A levee is not used to impound water.
24. "License" means license of final approval issued by the Director upon completion or enlargement of a dam under A.R.S. § 45-1209.
25. "Lifeline losses" mean disruption of essential services such as water, power, gas, telephone, or emergency medical services.
26. "Liquid-borne material" means mine tailings or other milled ore products transported in a slurry to a storage impoundment.
27. "Maximum credible earthquake" means the most severe earthquake that is believed to be possible at a point on the basis of geologic and seismological evidence.
28. "Maximum water surface" means the maximum elevation of the reservoir water level attained during routing of the inflow design flood.
29. "Natural ground surface" means the undisturbed ground surface before excavation or filling, or the undisturbed bed of the stream or river.
30. "Outlet works" means a closed conduit under or through a dam or through an abutment for the controlled discharge of the contents normally impounded by a dam and reservoir. The outlet works include the inlet and outlet structures appurtenant to the conduit. Outlet works may be controlled or uncontrolled.
31. "Probable" means likely to occur, reasonably expected, and realistic.
32. "Probable maximum flood" or "PMF" means the flood runoff expected from the most severe combination of critical meteorologic and hydrologic conditions that are reasonably possible in the region, including rain and snow where applicable. 1/2 PMF is that flood represented by the flood hydrograph with ordinates equal to 1/2 the corresponding ordinates of the PMF hydrograph.
33. "Probable maximum precipitation" means the greatest depth of precipitation for a given duration that is theoretically physically possible over a particular size storm area at a particular geographical location at a particular time of year.
34. "Reservoir" means any basin that contains or is capable of containing water or other liquids impounded by a dam.

35. "Residual freeboard" means the vertical distance between the highest water surface elevation during the inflow design flood and the lowest point at the top of the dam.
36. "Restricted storage" means a condition placed on a license by the Director to reduce the storage level of a reservoir because of a safety deficiency.
37. "Saddle dike or saddle dam" means any dam constructed in a topographically low area on the perimeter of a reservoir, required to contain the reservoir at the highest water surface elevation.
38. "Safe" means that a dam has sufficient structural integrity and flood routing capacity to make failure of the dam unlikely.
39. "Safe storage level" means the maximum reservoir water surface elevation at which the Director determines it is safe to impound water or other liquids in the reservoir.
40. "Safety deficiency" means a condition at a dam that impairs or adversely affects the safe operation of the dam.
41. "Safety inspection" means an investigation by an engineer or a person under the direction of an engineer to assess the safety of a dam and determine the safe storage level for a reservoir, which includes review of design reports, construction documents, and previous safety inspection reports of the dam, spillways, outlet facilities, seepage control and measurement systems, and permanent monument or monitoring installations.
42. "Spillway crest" means the highest elevation of the floor of the spillway along a centerline profile through the spillway.
43. "Storage capacity" means the maximum volume of water, sediment, or debris that can be impounded in the reservoir with no discharge of water, including the situation where an uncontrolled outlet becomes plugged. The storage capacity is reached when the water level is at the crest of the emergency spillway, or at the top of permanently mounted emergency spillway gates in the closed position. Storage capacity excludes dead storage below the natural ground surface.
44. "Surcharge storage" means the additional water storage volume between the emergency spillway crest or closed gates, and the top of the dam.
45. "Total freeboard" means the vertical distance between the emergency spillway crest and the top of the dam.
46. "Unsafe" means that safety deficiencies in a dam or spillway could result in failure of the dam with subsequent loss of human life or significant property damage.

Historical Note

Adopted effective November 2, 1978 (Supp. 78-6). For-

mer Section R12-15-02 renumbered without change as Section R12-15-1202 effective October 8, 1982 (Supp. 82-5). Section repealed; new Section adopted by final rulemaking at 6 A.A.R. 2558, effective June 12, 2000 (Supp. 00-2). Amended to correct typographical error under A.A.C. R1-1-109 (Supp. 01-2).

R12-15-1203. Exempt Structures

The following structures are exempt from regulation by the Department:

1. Any artificial barrier identified as exempt on Table 1 and defined as follows:
 - a. Less than 6 feet in height, regardless of storage capacity.
 - b. Between 6 and 25 feet in height with a storage capacity of less than 50 acre-feet.
 - c. Greater than 25 feet in height with 15 acre-feet or less of storage capacity.
2. A dam owned by the federal government. A dam designed by the federal government for any non-federal entity or person that will subsequently be owned or operated by a person or entity defined as an owner in A.R.S. § 45-1201 is subject to jurisdiction, beginning with design and construction of the dam.
3. A dam owned or operated by an agency or instrumentality of the federal government, if a dam safety program at least as stringent as this Article is applicable to and enforced against the agency or instrumentality.
4. A transportation structure such as a highway, road, or railroad fill that exists solely for transportation purposes. A transportation structure designed, constructed, or modified with the intention of impounding water on an intermittent or permanent basis and meeting the definition of dam in A.R.S. § 45-1201 is subject to jurisdiction.
5. A levee constructed adjacent to or along a watercourse, primarily to control floodwater.
6. A self-supporting concrete or steel water storage tank.
7. An impoundment for the purpose of storing liquid-borne material.
8. A release-contained barrier as defined by A.R.S. § 45-1201(5).

Historical Note

Adopted effective November 2, 1978 (Supp. 78-6). Former Section R12-15-03 renumbered without change as Section R12-15-1203 effective October 8, 1982 (Supp. 82-5). Section repealed; new Section adopted by final rulemaking at 6 A.A.R. 2558, effective June 12, 2000 (Supp. 00-2).

Table 1. Exempt Structures

**Historical Note**

New Table adopted by final rulemaking at 6 A.A.R. 2558, effective June 12, 2000 (Supp. 00-2).

R12-15-1204. Provision for Guidelines

The Department may develop and adopt substantive policy statements that serve as dam safety guidelines to aid a dam owner or engineer in complying with this Article. The Department recommends that dam owners and engineers consult design guidelines published by agencies of the federal government, including the U.S. Bureau of Reclamation, the U.S. Army Corps of Engineers, the Natural Resources Conservation Service, and the Federal Energy Regulatory Commission, for the design of concrete, roller compacted concrete, stone masonry, timber, inflatable rubber, and mechanically-stabilized earth dams. The Director may require that other criteria be used or revise any of the specific criteria for the purpose of dam safety. An owner shall obtain advance approval by the Director of design criteria.

Historical Note

Adopted effective November 2, 1978 (Supp. 78-6). Former Section R12-15-04 renumbered without change as Section R12-15-1204 effective October 8, 1982 (Supp. 82-5). Section repealed; new Section adopted by final rulemaking at 6 A.A.R. 2558, effective June 12, 2000 (Supp. 00-2).

R12-15-1205. General Responsibilities

- A. Each owner is responsible for the safe design, operation, and maintenance of a dam. The owner shall operate, maintain, and regularly inspect a dam so that it does not constitute a danger to human life or property. The owner of a high or significant hazard potential dam shall provide timely warning to the Department and all other persons listed in the emergency action plan of problems at the dam. The owner shall develop and maintain effective emergency action plans and coordinate those plans with local officials as prescribed in R12-15-1221.
- B. The owner shall conduct frequent observation of the dam, as prescribed in the emergency action plan and as follows:
 1. The owner shall increase the frequency of observation when the reservoir is full, during heavy rains or flooding, and following an earthquake.
 2. The owner shall report to the Director any condition that threatens the safety of the dam as prescribed in

R12-15-1224(A). The owner shall make the report as soon as possible, but not later than 12 hours after discovery of the conditions.

3. If dam failure appears imminent, the owner shall notify the county sheriff or other emergency official immediately.
 4. The owner is responsible for the safety of the dam and shall take action to lower the reservoir if it appears that the dam has weakened or is in danger of failing.
- C. The owner of a dam shall install, maintain, and monitor instrumentation to evaluate the performance of the dam. The Director shall require site-specific instrumentation that the Director deems necessary for monitoring the safety of the dam when failure may endanger human life and property. Conditions that may require monitoring include land subsidence, earth fissures, embankment cracking, phreatic surface, seepage, and embankment movements.
 - D. The owner shall perform timely maintenance and ordinary repair of a dam. The owner shall implement an annual plan to inspect the dam and accomplish the maintenance and ordinary repairs necessary to protect human life and property.
 - E. If a change of ownership of a dam occurs, the new owner shall notify the Department within 15 days after the date of the transaction and provide the mailing address and telephone number where the new owner can be contacted. Within 90 days after the date of the transaction, the new owner shall provide the name and telephone number of the individual or individuals who are responsible for operating and maintaining the dam.

Historical Note

Adopted effective November 2, 1978 (Supp. 78-6). Former Section R12-15-05 renumbered without change as Section R12-15-1205 effective October 8, 1982 (Supp. 82-5). Section repealed; new Section adopted by final rulemaking at 6 A.A.R. 2558, effective June 12, 2000 (Supp. 00-2).

R12-15-1206. Classification of Dams

Department of Water Resources

- A. Size Classification.** Dams are classified by size as small, intermediate, or large. Size is determined with reference to Table 2. An owner or engineer shall determine size by storage capacity or height, whichever results in the larger size.
- B. Hazard Potential Classification**
1. The Department shall base hazard potential classification on an evaluation of the probable present and future incremental adverse consequences that would result from the release of water or stored contents due to failure or improper operation of the dam or appurtenances, regardless of the condition of the dam. The evaluation shall include land use zoning and development projected for the affected area over the 10 year period following classification of the dam. The Department considers all of the following factors in hazard potential classification: probable loss of human life, economic and lifeline losses, and intangible losses identified and evaluated by a public resource management or protection agency.
 - a. The Department bases the probable incremental loss of human life determination primarily on the number of permanent structures for human habitation that would be impacted in the event of failure or improper operation of a dam. The Department considers loss of human life unlikely if:
 - i. Persons are only temporarily in the potential inundation area;
 - ii. There are no residences or overnight campsites; and
 - iii. The owner has control of access to the potential inundation area and provides an emergency action plan with a process for warning in the event of a dam failure or improper operation of a dam.
 - b. The Department bases the probable economic, lifeline, and intangible loss determinations on the property losses, interruptions of services, and intangible losses that would be likely to result from failure or improper operation of a dam.
 2. The 4 hazard potential classification levels are very low, low, significant, and high, listed in order of increasing probable adverse incremental consequences, as prescribed in Table 3. The Director shall classify intangible losses by considering the common or unique nature of features or habitats and temporary or permanent nature of changes.
 - a. Very Low Hazard Potential. Failure or improper operation of a dam would be unlikely to result in loss of human life and would produce no lifeline losses and very low economic and intangible losses. Losses would be limited to the 100 year floodplain or property owned or controlled by the dam owner under long-term lease. The Department considers loss of life unlikely because there are no residences or overnight camp sites.
 - b. Low Hazard Potential. Failure or improper operation of a dam would be unlikely to result in loss of human life, but would produce low economic and intangible losses, and result in no disruption of lifeline services that require more than cosmetic repair. Property losses would be limited to rural or agricultural property, including equipment, and isolated buildings.
 - c. Significant Hazard Potential. Failure or improper operation of a dam would be unlikely to result in loss of human life but may cause significant or high economic loss, intangible damage requiring major

mitigation, and disruption or impact on lifeline facilities. Property losses would occur in a predominantly rural or agricultural area with a transient population but significant infrastructure.

- d. High Hazard Potential. Failure or improper operation of a dam would be likely to cause loss of human life because of residential, commercial, or industrial development. Intangible losses may be major and potentially impossible to mitigate, critical lifeline services may be significantly disrupted, and property losses may be extensive.
3. An applicant shall demonstrate the hazard potential classification of a dam before filing an application to construct. The Department shall review the applicant's demonstration early in the design process at pre-application meetings prescribed in R12-15-1207(D).
4. The Department shall review the hazard potential classification of each dam during each subsequent dam safety inspection and revise the classification in accordance with current conditions.

Historical Note

Adopted effective November 2, 1978 (Supp. 78-6). Former Section R12-15-06 renumbered without change as Section R12-15-1206 effective October 8, 1982 (Supp. 82-5). Section repealed; new Section adopted by final rulemaking at 6 A.A.R. 2558, effective June 12, 2000 (Supp. 00-2).

Exhibit A. Repealed**Historical Note**

Exhibit repealed by final rulemaking at 6 A.A.R. 2558, effective June 12, 2000; a Historical Note for Exhibit A did not exist before this date (Supp. 00-2).

Table 2. Size Classification

Category	Storage Capacity (acre-feet)	Height (feet)
Small	50 to 1,000	25 to 40
Intermediate	greater than 1,000 and not exceeding 50,000	higher than 40 and not exceeding 100
Large	greater than 50,000	higher than 100

Historical Note

New Table adopted by final rulemaking at 6 A.A.R. 2558, effective June 12, 2000 (Supp. 00-2).

Table 3. Downstream Hazard Potential Classification

Hazard Potential Classification	Probable Loss of Human Life	Probable Economic, Lifeline, and Intangible Losses
Very Low	None expected	Economic and lifeline losses limited to owner's property or 100-year floodplain. Very low intangible losses identified.
Low	None expected	Low

Significant	None expected	Low to high
High	Probable - One or more expected	Low to high (not necessary for this classification)

Historical Note

New Table adopted by final rulemaking at 6 A.A.R. 2558, effective June 12, 2000 (Supp. 00-2).

R12-15-1207. Application Process

- A. An applicant shall obtain written approval from the Director before constructing, reconstructing, repairing, enlarging, removing, altering, or breaching a dam. Application requirements differ according to the hazard potential of the dam.
 1. To construct, reconstruct, repair, enlarge, or alter a high or significant hazard potential dam, the applicant shall comply with R12-15-1208.
 2. To breach or remove a high or significant hazard potential dam, the applicant shall comply with R12-15-1209.
 3. To construct, reconstruct, repair, enlarge, alter, breach, or remove a low hazard potential dam, the applicant shall comply with R12-15-1210.
 4. To construct, reconstruct, repair, enlarge, alter, breach, or remove a very low hazard potential dam, the applicant shall comply with R12-15-1211.
- B. An application shall not be filed with the Director under the following circumstances:
 1. The dam is exempt under R12-15-1203;
 2. A dam owner starts repairs to an existing dam that are necessary to safeguard human life or property and the Director is notified without delay;
 3. The owner performs general maintenance or ordinary repairs as prescribed in R12-15-1217(A) or (B); or
 4. Breach, removal, or reduction of a very low hazard dam as prescribed in R12-15-1211(C).
- C. An applicant is not required to comply with a requirement in this Article if the Director finds that, considering the site characteristics and the proposed design, the requirement is unduly burdensome or expensive and is not necessary to protect human life or property. The Director shall consider the size, hazard potential classification, physical site conditions, and applicability of a requirement to a proposed dam. The Director shall state in writing the reason or reasons the applicant is not required to comply with a requirement.
- D. An applicant shall schedule pre-application conferences with the Department to discuss the requirements of this Article and to resolve issues essential to the design of a dam while the design is in preliminary stages. The Director shall view the dam site during the pre-application process. The following are examples of issues for pre-application conferences: the hazard potential classification, the approximate inflow design flood, the basic design concepts, and any requirements that may be found by the Director to be unduly burdensome or expensive and not necessary to protect human life or safety. In addition, the applicant may submit preliminary design calculations to the Department for review and comment. The Department shall comment as soon as practicable, depending on the size of the submittal and the current workload.
- E. The Department shall review applications as follows:
 1. Applications will be received by appointment. During this meeting the Department shall make a brief review of the application to determine that the application contains each of the items required by R12-15-1208, R12-15-1209, R12-15-1210, or R12-15-1211.
 2. Following receipt of an application submitted under R12-15-1208, R12-15-1209, R12-15-1210, or R12-15-1211, the Director shall complete an administrative review as prescribed in R12-15-401(1) and notify the applicant in writing whether the application is administratively complete. If the application is not administratively complete, the notification shall include a list of additional information that is required to complete the application.
 3. After finding the application submitted under R12-15-1208, R12-15-1209, R12-15-1210, or R12-15-1211 administratively complete, the Director shall complete a substantive review as prescribed in R12-15-401(3) and notify the applicant in writing of the Director's approval or disapproval. If during this review period, the Director determines that there are defects in the application that would impact human life and property, a written notice of the defects shall be sent to the applicant.
 4. An applicant may request in writing that the Director expedite the review of an application by employing an expert consultant on a contract basis under A.R.S. § 45-104(D). The Director shall establish on-call contracts with expert consultants to facilitate the process of expediting review. The Director may retain a consultant to review all or a portion of the application as necessary to expedite the process in response to an owner's request or to comply with time-frame rules. Before conducting the review, the consultant shall provide the Director and the applicant with a proposed time schedule and cost estimate. If the applicant agrees to the consultant's proposal for an expedited review of an application and the Director employs the consultant, the applicant shall pay to the Department the cost of the consultant's services in addition to the application fees. The Director retains the authority to review and approve, disapprove, or modify the findings and recommendations of the consultant.
 5. The Director shall not approve an application in less than 10 days from the date of receipt.
 6. If the Director disapproves the application, the Director shall provide the applicant with a statement of the Director's objections.
 7. If the Director approves an application, the applicant shall submit in triplicate revised drawings and specifications that incorporate any required changes.
 - a. The Director shall return to the applicant 1 set of final construction drawings and specifications with the Department's approval stamp to be retained onsite during construction;
 - b. The Director shall retain for permanent state record 1 set of final construction drawings and specifications with the Department's approval stamp; and
 - c. The Director shall retain for use by the Department during construction the 3rd set of final construction drawings and specifications with the Department's approval stamp.
 8. The Director shall impose conditions and limitations that the Director deems necessary to safeguard human life and property. Examples of the conditions of approval include but are not limited to:
 - a. The applicant shall not cover the foundation or abutment with the material of the dam until the Department has been given notice and a reasonable time to inspect and approve them.
 - b. The applicant shall start construction within 1 year from the date of approval.

- c. The applicant shall maintain a safe storage level for an existing dam being reconstructed, repaired, enlarged, altered, or breached.
- F. An approval to construct a new dam or repair, enlarge, alter, breach, or remove an existing dam is valid for 1 year.
 - 1. If construction does not begin within 1 year, the approval is void.
 - 2. Upon written request and good cause shown by the owner, the time for commencing construction may be extended. An applicant shall not start construction before the Director reviews the application for changes and grants approval.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2558, effective June 12, 2000 (Supp. 00-2).

R12-15-1208. Application to Construct, Reconstruct, Repair, Enlarge, or Alter a High or Significant Hazard Potential Dam

- A. An application package to construct, reconstruct, repair, enlarge, or alter a high or significant hazard potential dam shall include the following prepared by or under the supervision of an engineer as defined in R12-15-1202(11):
 - 1. A completed application filed in duplicate on forms provided by the Director.
 - 2. A design information summary or checklist of items prepared in duplicate on forms provided by the Director.
 - 3. An initial application fee based on the total estimated project cost and computed in accordance with A.R.S. § 45-1204 and R12-15-104(A)(7).
 - 4. A detailed estimate of project costs. Project costs are all costs associated with construction of the dam and appurtenant works including preliminary investigations and surveys, engineering design, supervision of construction, and any other engineering costs.
 - 5. Two complete sets of construction drawings as prescribed in R12-15-1215(1).
 - 6. Two complete sets of construction specifications as prescribed in R12-15-1215(2).
 - 7. An engineering design report that includes information needed to evaluate all aspects of the design of the dam and appurtenances, including references with page numbers to support any assumptions used in the design, as prescribed in R12-15-1215(3). The engineering design report shall recommend a safe storage level for existing dams being reconstructed, repaired, enlarged, or altered.
 - 8. A construction quality assurance plan describing all aspects of construction supervision.
 - 9. A description of the use for the impounded or diverted water, proof of a right to appropriate, and a permit to store water as prescribed in A.R.S. §§ 45-152 and 45-161.
 - 10. A long-term budget plan and evidence of financing, prepared using customary accounting principles, that demonstrate that the applicant has the financial capability to construct, operate, and maintain the dam in a safe manner. If the applicant does not have evidence that can be verified by an independent audit of the financial capability to construct, operate, and maintain the dam in a safe manner, the Director may require a performance bond for the entire cost of the proposed construction work.
- B. The following may be submitted with the application or during construction.
 - 1. An emergency action plan as prescribed in R12-15-1221.
 - 2. An operation and maintenance plan to accomplish the annual maintenance.
 - 3. An instrumentation plan regarding instruments that evaluate the performance of the dam.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2558, effective June 12, 2000 (Supp. 00-2). Amended by exempt rulemaking at 16 A.A.R. 1205, effective June 15, 2010 (Supp. 10-2). Amended by exempt rulemaking at 16 A.A.R. 1950, effective September 10, 2010 (Supp. 10-3). Amended by final rulemaking at 17 A.A.R. 659, effective June 4, 2011 (Supp. 11-2).

R12-15-1209. Application to Breach or Remove a High or Significant Hazard Potential Dam

- A. An applicant shall excavate the dam down to the level of the natural ground at the maximum section. Upon approval of the Director, additional breaches may be made. This provision shall not be construed to require more than total removal of the dam regardless of the flood magnitude. The breach or breaches shall be of sufficient width to pass the greater of:
 - 1. The 100 year flood at a depth of less than 5 feet, or
 - 2. The 100 year flood at a normal flood depth of not more than 2 feet at a distance of 2,000 feet downstream of the dam.
- B. The sides of each breach shall be excavated to a slope ratio that is stable and not steeper than 1 horizontal to 1 vertical.
- C. Each breach shall be designed to prevent silt that has previously been deposited on the reservoir bottom and the excavated material from the breach from washing downstream.
- D. Before breaching the dam, the reservoir shall be emptied in a controlled manner that will not endanger lives or damage downstream property. The applicant shall obtain approval from the Director for the method of breaching or removal.
- E. An application package to breach or remove a high or significant hazard potential dam shall include the following prepared by or under the supervision of an engineer as defined in R12-15-1202(11).
 - 1. The construction drawing or drawings for the breach or removal of a dam, including the location, dimensions, and lowest elevation of each breach.
 - 2. A long-term budget plan and evidence of financing, prepared using customary accounting principles, that demonstrate that the applicant has the financial capability to breach or remove the dam in a safe manner. If the applicant does not have evidence that can be verified by an independent audit of the financial capability to breach or remove the dam in a safe manner, the Director may require a performance bond for the entire cost of the proposed construction work.
 - 3. A construction quality assurance plan describing all aspects of construction supervision.
- F. Reduction of a high or significant downstream hazard potential dam to nonjurisdictional size may be approved by letter under the following circumstances:
 - 1. The owner shall submit a completed application form and construction drawings for the reduction and the appropriate specifications, prepared by or under the supervision of an engineer as defined in R12-15-1202(11).
 - 2. The construction drawings and specifications shall contain sufficient detail to enable a contractor to bid on and complete the project.
 - 3. The plans shall comply with all requirements of this Section except that the breach is not required to be to natural ground.
 - 4. Upon completion of an alteration to nonjurisdictional size, the engineer shall file as constructed drawings and specifications with the Department.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R.

2558, effective June 12, 2000 (Supp. 00-2).

R12-15-1210. Application to Construct, Reconstruct, Repair, Enlarge, Alter, Breach, or Remove a Low Hazard Potential Dam

- A.** An application package to construct, reconstruct, repair, enlarge, or alter a low hazard potential dam shall include the following prepared by or under the supervision of an engineer as defined in R12-15-1202(11):
1. A completed application filed in duplicate on forms provided by the Director.
 2. An initial application fee based on the total estimated project cost, computed in accordance with A.R.S. § 45-1204 and R12-15-104(A)(7).
 3. A detailed estimate of project costs. Project costs are all costs associated with construction of the dam and appurtenant works, including preliminary investigations and surveys, engineering design, supervision of construction, and any other engineering costs.
 4. The seal and signature of the responsible engineer in accordance with A.A.C. R4-30-304.
 5. A statement by the responsible engineer that classifies the dam as low hazard in accordance with R12-15-1206(B). The responsible engineer shall submit a map of the area that would be inundated by failure or improper operation of the dam. The responsible engineer shall demonstrate that failure or improper operation of the dam would be unlikely to result in:
 - a. Loss of human life. The demonstration may be based on an emergency action plan for persons who may be in the area of inundation;
 - b. Significant incremental adverse consequences; or
 - c. Significant intangible losses, as defined in R12-15-1202(21) and identified and evaluated by a public natural resource management or protection agency.
 6. Two complete sets of construction drawings as prescribed by R12-15-1215(1).
 7. Two complete sets of construction specifications as prescribed by R12-15-1215(2).
 8. An engineering design report that includes information needed to evaluate all aspects of the design of the dam and appurtenances, including references with page numbers to support any assumptions used in the design, as prescribed in R12-15-1215(3).
 9. A description of the use for the impounded or diverted water, proof of a right to appropriate, and a permit to store water as prescribed in A.R.S. §§ 45-152 and 45-161.
 10. A construction quality assurance plan clearly describing all aspects of construction supervision.
 11. A long-term budget plan and evidence of financing, prepared using customary accounting principles, that demonstrate that the applicant has the financial capability to construct, operate, and maintain the dam in a safe manner. If the applicant does not have evidence that can be verified by an independent audit of the financial capability to construct, operate, and maintain the dam in a safe manner, the Director may require a performance bond for the entire cost of the proposed construction work.
- B.** An application package for the breach or removal of a low hazard potential dam shall include the following:
1. A completed application filed in duplicate on forms provided by the Director that contains the following information:
 - a. The name and address of the owner of the dam or the agent of the owner.
 - b. A description of the proposed removal.
 - c. The proposed time for beginning and completing the removal.
 2. An initial application fee based on the total estimated project cost and computed in accordance with A.R.S. § 45-1204 and R12-15-104(A)(7).
 3. A statement by the responsible engineer demonstrating both of the following:
 - a. That the dam will be excavated to the level of natural ground at the maximum section; and
 - b. That the breach or breaches will be of sufficient width to pass the greater of:
 - i. The 100 year flood at a depth of less than 5 feet, or
 - ii. The 100 year flood at a normal flood depth of not more than 2 feet at a distance of 2,000 feet downstream of the dam,
 - iii. Subsection (B)(3)(b) shall not be construed to require more than a total removal of the dam regardless of flood magnitude.
 - c. That the sides of the breach will be excavated to a slope ratio that is stable and not steeper than 1 horizontal to 1 vertical.
 4. A detailed estimate of project costs. Project costs are all costs associated with the removal of the dam and appurtenant works, including preliminary investigations and surveys, engineering design, supervision of removal, and any other engineering costs.
- C.** An applicant intending to reduce a low hazard potential dam to nonjurisdictional size shall submit a written notice to the Director at least no less than 60 days before the date that construction begins.
- D.** Within 45 days after receipt of a complete application package as prescribed by subsection (A) or (B), the Director shall either:
1. Determine that the dam falls within the low hazard potential classification, or
 2. Issue a written notice that the dam does not fall within the low hazard potential classification.
- E.** The Director's determination that the proposed dam does not fall within the low hazard classification is an appealable agency action and subject to administrative and judicial review under A.R.S. Title 41, Chapter 6, Article 10.
- F.** Upon completion of construction, the owner shall notify the Department in writing. The owner shall not use the dam or reservoir before issuance of a license unless the Director issues written approval.
- G.** Within 90 days after completing construction, reconstruction, repair, enlargement, or alteration of a low hazard potential dam, the owner shall file the following:
1. An affidavit showing the actual cost of construction, reconstruction, repair, enlargement, or alteration of the dam. The owner shall submit a detailed accounting of the costs, including all engineering costs.
 2. An additional fee or refund request computed in accordance with A.R.S. § 45-1209 and R12-15-104(A)(7), based on the actual cost of construction, reconstruction, repair, enlargement, or alteration.
 3. A brief completion report summarizing the salient features of the project, including a description of the causes for any changes or deviations from the approved application package prepared by the engineer who supervised the construction, in accordance with A.R.S. Title 32, Chapter 1. The engineer shall indicate:
 - a. That the dam has been designed and constructed in compliance with basic principles of dam construction currently being practiced in the industry;

- b. That the dam as constructed has structural integrity and flood routing capacity consistent with its hazard potential classification; and
 - c. That the as constructed drawings and the report accurately represent the construction of the dam.
 - 4. As constructed drawings prepared and sealed by the engineer who supervised the construction. The owner and the engineer shall maintain a record of the drawings.
 - H. Upon receiving the Director's written approval, the owner may operate the dam and appurtenant works. Within 30 days after receipt of the information in subsection (G), the Director shall issue to the owner either a license or a notice that the dam and appurtenant works shall not be operated because the dam and appurtenant works do not qualify as low hazard or were not built according to the submitted design. The license shall include conditions of operation, including:
 - 1. The safe storage level of the reservoir,
 - 2. A requirement that the dam be operated and maintained so that it does not constitute a danger to human life and property,
 - 3. A requirement that the conditions resulting in the low hazard classification be maintained throughout the life of the dam, and
 - 4. A requirement that the owner demonstrate in writing the low hazard classification in the manner prescribed by subsection (A)(5) every five years.
 - I. Within 90 days after completing removal of a low hazard potential dam, the owner shall file the following. The Director shall remove the dam from jurisdiction upon approval of the submittal.
 - 1. An affidavit showing the actual cost of removal of the dam. The owner shall submit a detailed accounting of the costs, including all engineering costs.
 - 2. An additional fee or refund request computed in accordance with A.R.S. § 45-1204 and R12-15-104(A)(7), based on the actual cost of removal.
 - 3. A brief completion report, including a description of the causes for any changes or deviations from the approved application package prepared by the engineer who supervised the construction, in accordance with A.R.S. Title 32, Chapter 1. The engineer shall certify that the as removed drawings and the report accurately represent the actual removal of the dam.
 - 4. As-removed drawings prepared and sealed by the engineer who supervised the removal. The owner and the engineer shall maintain a record of the drawings.
 - J. An owner shall immediately commence repairs necessary to safeguard human life and property and prevent failure and improper operation of a low hazard potential dam. The owner shall notify the Department as soon as reasonably possible and in all cases within 10 days of commencing the required repairs.
- Historical Note**
- New Section adopted by final rulemaking at 6 A.A.R. 2558, effective June 12, 2000 (Supp. 00-2). Amended by final rulemaking at 13 A.A.R. 3022, effective October 6, 2007 (Supp. 07-3). Amended by exempt rulemaking at 16 A.A.R. 1205, effective June 15, 2010 (Supp. 10-2). Amended by exempt rulemaking at 16 A.A.R. 1950, effective September 10, 2010 (Supp. 10-3). Amended by final rulemaking at 17 A.A.R. 659, effective June 4, 2011 (Supp. 11-2).
- R12-15-1211. Application to Construct, Reconstruct, Repair, Enlarge, Alter, Breach, or Remove a Very Low Hazard Potential Dam**
- A. An application package to construct, reconstruct, repair, enlarge, or alter a very low hazard potential dam shall include the following prepared by an engineer or a person under the supervision of an engineer as defined in R12-15-1202(11):
 - 1. A completed application filed in duplicate on forms provided by the Director that contains the following information:
 - a. The name and address of the owner of the dam or the agent of the owner.
 - b. The location, type, size, and height of the proposed dam and appurtenant works.
 - c. The storage capacity of the reservoir associated with the proposed dam.
 - d. The proposed time for beginning and completing construction.
 - e. A description of the use for the impounded or diverted water and proof of a right to impound that water.
 - 2. The means, plans, and specifications by which the stream or body of water is to be dammed, by-passed, or controlled during construction.
 - 3. Maps, drawings, and specifications of the proposed dam.
 - 4. An initial application fee based on the total estimated project cost and computed in accordance with A.R.S. § 45-1204 and R12-15-104(A)(7).
 - 5. A detailed estimate of project costs. Project costs are all costs associated with construction of the dam and appurtenant works, including preliminary investigations and surveys, engineering design, supervision of construction, and any other engineering costs.
 - 6. A statement by the responsible engineer that classifies the dam as very low hazard in accordance with R12-15-1206(B). The responsible engineer shall submit a map of the area that would be inundated by failure or improper operation of the dam. The responsible engineer shall demonstrate that failure or improper operation would be unlikely to result in:
 - a. Loss of human life. The demonstration may be based on an emergency action plan for persons who may be in the area of inundation;
 - b. Significant incremental adverse consequences; or
 - c. Significant intangible losses, as defined in R12-15-1202(21) and identified and evaluated by a public natural resource management protection agency, because the dam has a size classification of either small or intermediate under R12-15-1206(A) and any release would be limited to the 100 year flood-plain or property owned or controlled by the dam owner under long-term lease.
 - 7. The seal and signature of the responsible engineer in accordance with A.R.S. Title 32, Chapter 1.
 - 8. The drawings required by subsection (A)(3) shall include a plan view and maximum section of the dam; the outlet works; and the spillway plan, profile, and cross section.
 - 9. The specifications required by subsection (A)(3) shall include the construction materials, testing criteria, and installation techniques.
 - B. The Director may make other requirements for drawings and specifications for the proposed repair or alteration of a very low hazard potential dam. In determining other requirements, the Director shall consider the size and extent of the repair or alteration, the portions of the dam that will be repaired or altered, and whether the requirements elicit a description of the proposed construction work that is adequate to allow the Director to evaluate the repair or alteration.

- C. An owner intending to breach, remove, or reduce a very low hazard potential dam to nonjurisdictional size shall submit written notice to the Director at least 60 days before the date that construction begins.
- D. After receipt of a complete application package as prescribed by subsection (A), the Director shall either:
 1. Determine that the dam falls within the very low hazard classification and approve the application in writing; or
 2. Issue a written notice that the dam does not fall within the very low hazard classification.
- E. The Director's determination that the proposed dam does not fall within the very low hazard classification is an appealable agency action and subject to administrative and judicial review under A.R.S. Title 41, Chapter 6, Article 10.
- F. Upon completion of construction, the owner shall notify the Department in writing. The owner shall not use the dam and reservoir before receipt of a license unless the Director issues written approval.
- G. Within 90 days after completion of the construction, reconstruction, repair, enlargement, or alteration of a very low hazard potential dam, the owner shall file the following:
 1. An affidavit showing the actual cost of construction, reconstruction, repair, enlargement, or alteration of the dam. The owner shall submit a detailed accounting of the costs, including all engineering costs.
 2. An additional fee or refund request computed in accordance with A.R.S. § 45-1209 and R12-15-104(A)(7), based on the actual cost of construction, reconstruction, repair, enlargement, or alteration.
 3. A brief completion report summarizing the salient features of the project, including a description of the causes for any changes or deviations from the approved application package prepared by the engineer who supervised the construction in accordance with A.R.S. Title 32, Chapter 1. The report shall include:
 - a. That the dam has been designed and constructed in compliance with basic principles of dam construction currently being practiced in the industry;
 - b. That the dam as constructed has structural integrity and flood routing capacity consistent with its hazard potential classification; and
 - c. That the as constructed drawings and the report accurately represent the construction of the dam.
 4. As constructed drawings prepared by the engineer who supervised the construction. The owner and the engineer shall maintain a record of the drawings.
- H. Within 30 days after receipt of the information in subsection (G), the Director shall issue to the owner either a license or a notice that the dam and appurtenant works shall not be operated because the dam and appurtenant works do not qualify as very low hazard or were not built according to the submitted design. Upon receiving the Director's written approval, the owner may operate the dam and appurtenant works. The license shall include conditions of operation, including:
 1. The safe storage level of the reservoir;
 2. A requirement that the conditions resulting in the very low hazard classification be maintained throughout the life of the dam, and
 3. A requirement that the owner demonstrate in writing the very low hazard classification in the manner prescribed by subsection (A)(6) every five years.
- I. An owner shall immediately commence repairs necessary to safeguard human life and property and prevent failure or improper operation of a very low hazard potential dam. The owner shall notify the Department as soon as reasonably possi-

ble and in all cases within 10 days of commencing the required repairs.

- J. The Department may periodically inspect construction to confirm that it is proceeding according to the approved design and that proper construction quality assurance is being exercised by the owner's engineer. The owner, or the owner's engineer under the direction of the owner, shall remedy any unsatisfactory condition using the contractor.
- K. The owner shall provide the Department access to the dam site for purposes of inspecting all phases of construction, including the foundation, embankment and concrete placement, inspection and test records, and mechanical installations.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2558, effective June 12, 2000 (Supp. 00-2). Amended by exempt rulemaking at 16 A.A.R. 1205, effective June 15, 2010 (Supp. 10-2). Amended by exempt rulemaking at 16 A.A.R. 1950, effective September 10, 2010 (Supp. 10-3). Amended by final rulemaking at 17 A.A.R. 659, effective June 4, 2011 (Supp. 11-2).

R12-15-1212. Construction of a High, Significant, or Low Hazard Potential Dam

- A. Before commencement of construction activities, the owner shall invite to a pre-construction conference all involved regulatory agencies, the prime contractor, and all subcontractors. At this meeting the Department shall identify, to the extent possible, the key construction stages at which an inspection will be made. At least 48 hours before each key construction stage identified for inspection, the owner or the owner's engineer shall provide notice to the Department.
- B. The owner and the owner's engineer shall oversee construction of a new dam or reconstruction, repair, enlargement, alteration, breach, or removal of an existing dam. Failure to perform the work in accordance with the construction drawings and specifications approved by the Director renders the approval revocable. The owner's engineer shall exercise professional judgment independent of the contractor.
- C. A professional engineer with proficiency in engineering and knowledge of dam technology shall supervise or direct the supervision of construction in accordance with the construction quality assurance plan.
- D. The owner's engineer shall submit summary reports of construction activities and test results according to a schedule approved by the Department.
- E. The owner shall immediately report to the Department any condition encountered during construction that requires a deviation from the approved plans and specifications.
- F. The owner shall promptly submit a written request for approval of any necessary change and sufficient information to justify the proposed change. The owner shall not commence construction without the written approval of the Director unless the change is a minor change. A minor change is a change that complies with the requirements of this Article and provides equal or better safety performance.
- G. Upon completion of construction, the owner shall notify the Department in writing. The Department shall make a final inspection. The owner shall correct any deficiencies noted during the inspection.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2558, effective June 12, 2000 (Supp. 00-2).

R12-15-1213. Completion Documents for a Significant or High Hazard Potential Dam

Within 90 days after completion of the construction or removal work for a significant or high hazard potential dam and final inspection by the Department, the owner shall file the following:

1. An affidavit showing the actual cost of the construction. The owner shall submit a detailed accounting of the costs, including all engineering costs.
2. An additional fee or refund request based on the actual cost of the construction, computed in accordance with A.R.S. § 45-1209 and R12-15-104(A)(7).
3. One set of full sized as constructed drawings prepared and sealed by the engineer who supervised the construction. If changes were made during construction, the owner shall file supplemental drawings showing the dam and appurtenances as actually constructed.
4. Construction records, including grouting, materials testing, and locations and baseline readings for permanent bench marks and instrumentation, initial surveys, and readings.
5. Photographs of construction from exposure of the foundation to completion of construction.
6. A brief completion report summarizing the salient features of the project, including a description of the causes for any changes or deviations from the approved drawings and specifications that were made during the construction phase.
7. A schedule for filling the reservoir, specifying fill rates, water level elevations to be held for observation, and a schedule for inspecting and monitoring the dam. The owner shall monitor the dam monthly during the first filling.
8. An operating manual for the dam and its appurtenant structures. The operating manual shall include a process for safety inspections prescribed in R12-15-1219. The operating manual shall include schedules for surveillance activities and baseline information for any installed instrumentation as follows:
 - a. The frequency of monitoring,
 - b. The data recording format,
 - c. A graphical presentation of data, and
 - d. The person who will perform the work.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2558, effective June 12, 2000 (Supp. 00-2). Amended by exempt rulemaking at 16 A.A.R. 1205, effective June 15, 2010 (Supp. 10-2). Amended by exempt rulemaking at 16 A.A.R. 1950, effective September 10, 2010 (Supp. 10-3). Amended by final rulemaking at 17 A.A.R. 659, effective June 4, 2011 (Supp. 11-2).

R12-15-1214. Licensing

- A. Upon review and approval of the documents filed under R12-15-1213 and finding that the construction at the dam has been completed in accordance with the approved plans and specifications and finding that the dam is safe, the Director shall issue a license. The license shall specify the safe storage level for the reservoir and shall specify conditions for the safe operation of the dam. The dam and reservoir shall not be used before issuance of a license unless the Director issues written approval. Procedures for issuance of a license for low and very low hazard potential dams are prescribed in R12-15-1210(H) and R12-15-1211(H), respectively.
- B. A new license shall be issued in the following instances:
 1. Upon change of ownership of a dam.
 2. Upon change of the safe storage level.
 3. Upon expiration of time to appeal a notice issued under R12-15-1223(B).

4. Upon expiration of time to appeal an order issued by the Director under R12-15-1223(D).
5. Upon expiration of time to appeal an order of a court.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2558, effective June 12, 2000 (Supp. 00-2).

R12-15-1215. Construction Drawings, Construction Specifications, and Engineering Design Report for a High, Significant, or Low Hazard Potential Dam

The owner and engineer are responsible for complete and adequate design of a dam and for including in the application all aspects of the design pertaining to the safety of the dam.

1. Construction Drawing Requirements. The construction drawings required by R12-15-1208(5), R12-15-1209(E)(1), and R12-15-1210(A)(6) shall include the following:
 - a. The seal and signature of the responsible engineer in accordance with A.A.C. R4-30-304.
 - b. One or more topographic maps of the dam, spillway, outlet works, and reservoir on a scale large enough to accurately locate the dam and appurtenances, indicate cut and fill lines, and show the property lines and ownership status of the land. Contour intervals shall be compatible with the height and size of the dam and its appurtenances and shall show design and construction details.
 - c. A reservoir area and capacity curve that reflect area in acres and capacity in acre-feet in relation to depth of water and elevation in the reservoir. The construction drawings shall show the spillway invert and top of dam elevations. The construction drawings shall also show the reservoir volume and space functional allocations. The construction drawings may include alternate scales as required for the owner's use.
 - d. Spillway and outlet works rating curves and tables at a scale or scales that allow determination of discharge rate in cubic feet per second at both low and high flows as measured by depth of water passing over the spillway control section.
 - e. A location map showing the dam footprint and all exploration drill holes, test pits, trenches, adits, borrow areas, and bench marks with elevations, reference points, and permanent ties. This map shall use the same vertical and horizontal control as the topographic map.
 - f. Geologic information including 1 or more geologic maps, profile along the centerline, and other pertinent cross sections of the dam site, spillway or spillways, and appurtenant structures, aggregate and material sources, and reservoir area at 1 or more scales compatible with the site and geologic complexity, showing logs of exploration drill holes, test pits, trenches, and adits.
 - g. One or more plans of the dam to delineate design and construction details.
 - h. Foundation profile along the dam centerline at a true scale where the vertical scale is equal to the horizontal scale, showing the existing ground and proposed finished grade at cut and fill elevations, including anticipated geologic formations. The foundation profile shall include any proposed grout and drain holes.
 - i. Profile and a sufficient number of cross sections of the dam to delineate design and construction details. The drawings shall illustrate and show dimensions

- of camber, details of the top, core zone, interior filters and drains, and other zone details. The profile of the dam may be drawn to different horizontal and vertical scales if required for detail. A maximum section of the dam shall be drawn to a true scale, where the vertical scale is equal to the horizontal scale. The outlet conduit may be shown on the maximum section if this is typical of the proposed construction.
- j. One or more dam foundation plans showing excavation grades and cut slopes with any proposed foundation preparation, grout and drain holes, and foundation dewatering requirements.
 - k. Plan, profile, and details of the outlet works, including the intake structure, the gate system, conduit, trashrack, conduit filter diaphragm, conduit concrete encasement, and the downstream outlet structure. The drawings shall include all connection and structural design details.
 - l. Plan, profile, control section, and cross sections of the spillway, including details of any foundation preparation, grouting, or concrete work that is planned. A complex control structure, a concrete chute, or an energy dissipating device for a terminal structure shall include both hydraulic and structural design details.
 - m. Hydrologic data, drainage area and flood routing, and diversion criteria.
2. Construction Specification Requirements. The construction specifications required by R12-15-1208(6) and R12-15-1210(A)(7) shall include the following:
 - a. The seal and signature of the responsible engineer in accordance with A.A.C. R4-30-304.
 - b. The statement that the construction drawings and specifications shall not be materially changed without the prior written approval of the Director.
 - c. A detailed description of the work to be performed and a statement of the requirements for the various types of materials and installation techniques that will enter into the permanent construction.
 - d. The statement that construction shall not be considered complete until the Director has approved the construction in writing.
 - e. The statement that the owner's engineer shall control the quality of construction.
 - f. The following construction information:
 - i. All earth and rock material descriptions, placement criteria, and construction requirements for all elements of the dam and related structures.
 - ii. All concrete, grout, and shotcrete material and mix descriptions, placement and consolidation criteria, temperature controls, and construction requirements for all elements of the dam and related structures.
 - iii. Material criteria and material testing, cleaning, and treatment. If foundation or curtain grouting is required, the specifications shall describe the type of grout, grouting method, special equipment necessary, recording during grouting, and foundation monitoring to avoid disturbance from grouting.
 - iv. All materials testing that will be performed by the contractor for pre-qualification of materials, including special performance testing, such as water pressure tests in conduits. The Director shall accept materials that are pre-tested successfully and constructed in-place in accordance with specifications.
 - g. A plan for control or diversion of surface water during construction. The design engineer may determine frequency of storm runoff to be controlled during construction, commensurate with the risk of economic loss during construction.
 - vi. Criteria for blast monitoring and acceptable blast vibration levels, including particle velocities for the dam and other critical appurtenances. Monitoring equipment and monitoring locations shall be specified.
 - vii. Instrumentation material descriptions, placement criteria, and construction requirements and a statement that instrumentation shall be installed by experienced speciality subcontractors.
 3. Engineering Design Report Requirements. The engineering design report required by R12-15-1208(7) and R12-15-1210(A)(8) shall include the following:
 - a. The seal and signature of the responsible engineer in accordance with A.A.C. R4-30-304.
 - b. The classification under R12-15-1206 of the proposed dam, or for the proposed enlargement of an existing dam or reservoir.
 - c. Hydrologic considerations, including calculations and a summary table of data used in determining the required emergency spillway capacity and freeboard, and design of any diversion or detention structures. The design report shall include input and output listings on both hard copy and computer diskette.
 - d. Hydraulic characteristics, engineering data, and calculations used in determining the capacities of the outlet works and emergency spillway. The design report shall include input and output listings on both hard copy and computer diskette.
 - e. Geotechnical investigation and testing of the dam site and reservoir basin. Results and analysis of subsurface investigations, including logs of test borings and geologic cross sections.
 - f. Guidelines and criteria for blasting to be used by the contractor in preparing the blasting plan.
 - g. Details of the plan for control or diversion of surface water during construction.
 - h. Details of the dewatering plan for subsurface water during construction.
 - i. Testing results of earth and rock materials, including the location of test pits and the logs of these pits.
 - j. Discussion and design of the foundation blanket grouting, grout curtain, and grout cap based on foundation stability and seepage considerations.
 - k. Calculations and basic assumptions on loads and limiting stresses for reinforced concrete design. The design report shall include input and output listings on both hard copy and computer diskette.
 - l. A discussion and stability analysis of the dam including appropriate seismic loading, safety factors, and embankment zone strength characteristics. Analyses shall include both short-term and long-term loading on upstream and downstream slopes. The design report shall include input and output listings on both hard copy and computer diskette.
 - m. A discussion of seismicity of the project area and activity of faults in the vicinity. The design report shall use both deterministic and statistical methods

- and identify the appropriate seismic coefficient for use in analyses.
- n. Discussion and design of the cutoff trench based on seepage and other considerations.
- o. Permeability characteristics of foundation and dam embankment materials, including calculations for seepage quantities through the dam, the foundation, and anticipated in the internal drain system. The design report shall include input and output listings on both hard copy and computer diskette. The design report shall include copies of any flow nets used.
- p. Discussion and design of internal drainage based on seepage quantity calculations. The design report shall include instrumentation necessary to monitor the drainage system and filter design calculations for protection against piping of foundation and embankment.
- q. Erosion protection against waves and rainfall runoff for both the upstream and downstream slopes, as appropriate.
- r. Discussion and design of foundation treatment to compensate for geological weakness in the dam foundation and abutment areas and in the spillway foundation area.
- s. Post-construction vertical and horizontal movement systems.
- t. Discussion of foundation conditions including the potential for subsidence, fissures, dispersive soils, collapsible soils, and sink holes.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2558, effective June 12, 2000 (Supp. 00-2).

R12-15-1216. Design of a High, Significant, or Low Hazard Potential Dam

A. General Requirements.

1. Emergency Spillway Requirements. An applicant shall:
 - a. Construct each spillway in a manner that avoids flooding in excess of the flooding that would have occurred in the same location under the same conditions before construction. The owner of a dam shall demonstrate that a spillway discharge would not result in incremental adverse consequences. In determining whether a spillway discharge of a dam would result in incremental adverse consequences, the Director shall evaluate whether the owner has taken any or all of the following actions: issuing public notice to downstream property owners, complying with flood insurance requirements, adopting emergency action plans, conducting mock flood drills, acquiring flow easements or other acquisitions of real property, or other actions appropriate to safeguard the dam site and flood channel.
 - b. Include a control structure to avoid head cutting and lowering of the spillway crest for spillways excavated in soils or soft rock. In the alternative, the design may provide evidence acceptable to the Director that erosion during the inflow design flood will not result in a sudden release of the reservoir.
 - c. Provide each spillway and channel with a minimum width of 10 feet and suitable armor to prevent erosion during the discharge resulting from the inflow design flood.

- d. Ensure that downstream spillway channel flows do not encroach on the dam unless suitable erosion protection is constructed.
- e. Ensure that each spillway, in combination with outlets, is able to safely pass the peak discharge flow rate, as calculated on the basis of the inflow design flood.
- f. Not construct bridges or fences across a spillway unless the construction is approved in writing by the Director. The Director's approval may include conditions regarding the design and operation of the spillway and fencing, based on safety concerns.
- g. Not use a pipe or culvert as an emergency spillway unless the Director approves the use following review of the dam design and site characteristics.
2. Inflow Design Flood Requirements
 - a. Unless directed otherwise in writing by the Director, the inflow design flood requirements for determining the spillway minimum capacity are stated in Table 4.
 - b. As an alternative to the requirements prescribed in Table 4, the Director may accept an inflow design flood determined by an incremental damage assessment study, based on the relative safety of the alternatives.
 - c. The Director may accept site-specific probable maximum precipitation studies in determination of the inflow design flood.
 - d. An applicant shall ensure that the total freeboard is the largest of the following:
 - i. The sum of the inflow design flood maximum water depth above the spillway crest plus wave run up.
 - ii. The sum of the inflow design flood maximum water depth above the spillway crest plus 3 feet.
 - iii. A minimum of 5 feet.
3. Outlet Works Requirements. An applicant shall ensure that a dam has a low level outlet works that:
 - a. Is capable of draining the reservoir to the sediment pool level. A low level outlet works for a high or significant hazard potential dam shall be a minimum of 36 inches in diameter. A low level outlet works for a low hazard potential dam shall be a minimum of 18 inches in diameter.
 - b. For a high or significant hazard potential dam, has the capacity to evacuate 90% of the storage capacity of the reservoir within 30 days, excluding reservoir inflows.
 - c. Has a filter diaphragm or other current practice measures to reduce the potential for piping along the conduit.
 - d. Has accessible outlet controls when the spillway is in use.
 - e. Has an emergency manual override system or can be operated manually.
 - f. Is constructed of materials appropriate for loading condition, seismic forces, thermal expansion, cavitation, corrosion, and potential abrasion. The applicant shall not use corrugated metal pipes or other thin-walled pipes except as a form for a cast-in-place concrete conduit. The applicant shall construct outlet conduits of cast-in-place reinforced concrete. The applicant shall design each outlet to maintain water tightness. The applicant shall construct each outlet

- to prevent the occurrence of piping adjacent to the outlet.
- g. Has an operating or guard gate on the upstream end of any gated outlet.
 - h. Has an outlet conduit near the base of 1 of the abutments on native bedrock or other competent material. The applicant shall support the entire length of the conduit on foundation materials of uniform density and consistency to prevent adverse differential settlement.
 - i. Has an upstream valve or gate capable of controlling the discharge through all ranges of flow on any gated outlet conduit.
 - j. Has a trashrack designed for a minimum of 25% of the reservoir head to which it would be subjected if completely clogged at the upstream end of the outlet.
 - k. Has an air vent pipe just downstream of the control gate. The applicant shall include a blow-off valve at or near the downstream toe of the dam for an outlet conduit that is connected directly to a distribution system.
 - l. Has an outlet conduit designed for internal pressure equal to the full reservoir head and for superimposed embankment loads, acting separately.
4. Dam Site And Reservoir Area Requirements
 - a. An applicant shall demonstrate that reservoir storage during the inflow design flood will not result in incremental adverse consequences and that the design will not result in the inundation or wave damage of properties within the reservoir, except marina-type structures, during the inflow design flood. In determining whether a discharge will result in incremental adverse consequences, the Director shall evaluate whether the owner has taken any or all of the following actions: issuing public notice to upstream affected property owners, complying with flood insurance requirements, adopting emergency action plans, conducting mock flood drills, acquiring flood easements or other acquisitions of real property, or other actions appropriate to safeguard the dam site and reservoir. Permanent habitations are not allowed within the reservoir below the spillway elevation.
 - b. The applicant shall clear the reservoir storage area of logs and debris.
 - c. The applicant shall place borrow areas a safe distance from the upstream toe and the downstream toe of the dam to prevent a piping failure of the dam.
 - d. The applicant shall keep the top of the dam and appurtenant structures accessible by equipment and vehicles for emergency operations and maintenance.
 5. Geotechnical Requirements
 - a. The applicant shall provide an evaluation of the static stability of the foundation, dam, and slopes of the reservoir rim and demonstrate that sufficient material is available to construct the dam as designed.
 - b. The applicant shall not construct a dam on active faults, collapsible soils, dispersive soils, sink holes, or fissures, unless the applicant demonstrates that the dam can safely withstand the anticipated offset or other unsafe effects on the dam.
 6. Seismic Requirements
 - a. The applicant shall submit a review of the seismic or earthquake history of the area around the dam within a radius of 100 miles to establish the relationship of the site to known faults and epicenters. The review shall include any known earthquakes and the epicenter locations and magnitudes of the earthquakes.
 - b. The applicant shall identify the location of active or potentially active faults that have experienced Holocene or Late Pleistocene displacement within a radius of 100 miles of the site.
 - c. For a high or significant hazard potential dam, the applicant shall design the dam to withstand the maximum credible earthquake.
 - d. For a low hazard potential dam, the applicant shall use probabilistic or deterministic methods to determine the design earthquake. The magnitude of the design earthquake shall vary with the size of the dam, site condition, and specific location.
- B. Embankment Dam Requirements.
 1. Geotechnical Requirements. Table 5 states minimum factors of safety for embankment stability under various loading conditions. For an embankment dam an applicant shall provide a written analysis of minimum factors of safety for stability.
 - a. The analysis of minimum factors of safety shall include the effects of anisotropy on the phreatic surface position by using a ratio of horizontal permeability to vertical permeability of at least 10. The Director may require ratios of up to 100 if the material types and construction techniques will cause excessive stratification.
 - b. The applicant shall use tests modeling the conditions being analyzed to determine the strengths used in the stability analysis. The stability analysis shall include total and effective stress strengths appropriate for the different material zones and conditions analyzed. The stability analysis shall use undrained strengths or strength parameters for all saturated materials.
 - c. The applicant shall perform an analysis of the upstream slope stability for a partial pool with steady seepage considering the reservoir level that provides the lowest factor of safety.
 - d. A stability analysis is not required for low hazard potential dams if the owner or the owner's engineer demonstrates that conservative slopes and competent materials are included in the design.
 2. Seismic Requirements
 - a. The applicant shall determine the seismic characteristics of the site as prescribed in subsection (A)(6).
 - b. The applicant shall determine the liquefaction susceptibility of the embankment, foundation, and abutments. The applicant shall use standard penetration testing, cone penetration testing, shear wave velocity measurements, or a combination of these methods to make this determination. The applicant shall compute the minimum factor of safety against liquefaction at specific points and make a determination of whether the overall site is subject to liquefaction.
 - c. The applicant shall determine the safety of the dam under seismic loading using a pseudo static stability analysis, computing the minimum factor of safety if the embankment, foundation or abutment is not subject to liquefaction and has a maximum peak acceleration of 0.2g or less, or a maximum peak acceleration of 0.35g or less, and consists of clay on a clay or bedrock foundation. The applicant shall use in the pseudo static stability analysis a pseudo static

- coefficient that is at least 60% of the maximum peak bedrock acceleration at the site.
- d. The applicant shall compute a minimum factor of safety against overtopping due to deformation and settlement in each of the following cases. The minimum factor of safety against overtopping can be no less than 2.5, determined by dividing the total pre-earthquake freeboard by the estimated vertical settlement in feet. The applicant shall determine the total vertical settlement by adding the settlement values of the upstream and downstream slopes.
 - i. The minimum factor of safety in a pseudo static analysis is less than 1.0;
 - ii. An embankment, foundation, or abutment is not subject to liquefaction, has a maximum peak acceleration of more than 0.2g or a maximum peak acceleration of more than 0.35g and consists of clay on a clay or bedrock foundation; or
 - iii. The embankment, foundation or abutment is subject to liquefaction.
 - e. The applicant shall perform a liquefaction analysis to establish approximate boundaries of liquefiable zones and physical characteristics of the soil following liquefaction for an embankment, foundation, or abutment subject to liquefaction. The applicant shall perform an analysis of the potential for flow liquefaction.
 - f. Other, more sophisticated analytical procedures may be required by the Director for sites with high seismicity or low strength embankment or foundation soils.
3. Miscellaneous Design Requirements
- a. The design of any significant or high hazard potential dam shall provide seepage collection and prevent internal erosion or piping due to embankment cracking or other causes.
 - b. The Director shall review the filter and permeability design for a chimney drain, drain blanket, toe drain, or outlet conduit filter diaphragms on the basis of unique site characteristics.
 - i. The minimum thickness of an internal drain is 3 feet.
 - ii. The minimum width of a chimney drain is 6 feet.
 - iii. The applicant shall filter match an internal drain to its adjacent material.
 - iv. The applicant shall design internal drains with sufficient capacity for the expected drainage without the use of drainpipes using only natural granular materials.
 - c. The use of a geosynthetic is not permitted in a design if it serves as the sole defense against dam failure. The use of geotextiles and geonets as a filter or drain material or a geomembrane liner is permitted only in a location that is easily accessible for repair or if its excavation cannot create an unsafe condition at the dam. A geosynthetic liner is allowed under special conditions and in specific situations if it is subject to monitoring and redundant safety controls. The Director may impose conditions, including monitoring appropriate to the hazard classification, inspection, and necessary repairs, each performed every 5 years.
 - d. The applicant shall use armoring on any upstream slope of an embankment dam that impounds water

for more than 30 days at a time. If the applicant uses rock riprap, it shall be well-graded, durable, sized to withstand wave action, and placed on a well-graded pervious sand and gravel bedding or geotextile with filtering capacity appropriate for the site.

- e. The applicant shall protect the downstream slopes and groins of an embankment dam from erosion.
- f. The minimum width of the top of an embankment dam is equal to the structural height of the dam divided by 5 plus an additional 5 feet. The required minimum width for any embankment dam is 12 feet. The maximum width for any embankment dam is 25 feet.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2558, effective June 12, 2000 (Supp. 00-2).

Table 4. Inflow Design Flood

Dam Hazard Class	Dam Size Classification	IDF Magnitude
Very Low	All Sizes	100-year
Low	All Sizes	0.25 PMF
Significant	Small Intermediate Large	0.25 PMF 0.5 PMF 0.5 PMF
High*	All Sizes	*

* For a high hazard potential dam, the applicant shall design the dam to withstand an inflow design flood that varies from .5 PMF to the full PMF, with size increasing based on persons at risk and potential for downstream damage. The applicant shall consider foreseeable future conditions.

Historical Note

New Table adopted by final rulemaking at 6 A.A.R. 2558, effective June 12, 2000 (Supp. 00-2).

Table 5. Minimum Factors of Safety for Stability¹

Embankment Loading Condition	Minimum Factor of Safety
End of construction case – upstream and downstream slopes	1.3
End of construction case for embankments greater than 50 feet in height on weak foundations	1.4
Steady state seepage - upstream (critical partial pool) and downstream slope (full pool)	1.5
Instantaneous drawdown - upstream slope	1.2

¹ Not applicable to an embankment on a clay shale foundation.

Historical Note

New Table adopted by final rulemaking at 6 A.A.R. 2558, effective June 12, 2000 (Supp. 00-2).

R12-15-1217. Maintenance and Repair; Emergency Actions

- A. An owner shall perform general maintenance and ordinary repairs that do not impair the safety of the dam. General maintenance and ordinary repair activities listed under this subsection do not require prior approval of the Director. These repair activities include:
 1. Removing brush or tall weeds.

2. Cutting trees and removing slash from the embankment or spillway. Small stumps may be removed provided no excavation into the embankment occurs.
 3. Exterminating rodents by trapping or other methods. Rodent damage may be repaired provided it does not involve excavation that extends more than 2 feet into the embankment and replacement materials are compacted as they are placed.
 4. Repairing erosion gullies less than 2 feet deep on the embankment or in the spillway.
 5. Grading the surface on the top of the dam embankment or spillway to eliminate potholes and provide proper drainage, provided the freeboard is not reduced.
 6. Placing additional riprap and bedding on the upstream slope, or in the spillway in areas that have sustained minor damage and restoring the original riprap protection where the damage has not yet resulted in erosion and weakening of the dam.
 7. Painting, caulking, or lubricating metal structures.
 8. Patching or caulking spalled or cracked concrete to prevent deterioration.
 9. Removing debris, rock, or earth from outlet conduits or spillway channels and basins.
 10. Patching to prevent deterioration within outlet works.
 11. Replacing worn or damaged parts on outlet valves or controls to restore them to original condition or its equivalent.
 12. Repairing or replacing fences intended to keep traffic or livestock off the dam or spillway.
- B.** General maintenance and ordinary repair that may impair or adversely effect safety, such as excavation into or near the toe of the dam, construction of new appurtenant structures for the dam, and repair of damage that has already significantly weakened the dam shall be performed in accordance with this Article. The Director may approve maintenance performed according to a standard detail or method of repair on file with the Department upon submittal of a letter. The Director shall determine whether general maintenance and ordinary repair activities not listed in subsection (A) will impair safety.
- C.** Emergency actions not impairing the safety of the dam may be taken before guidance can be provided by an engineer and do not require prior approval of the Director. Emergency actions do not excuse an owner's responsibility to promptly undertake a permanent solution. Emergency actions include:
1. Stockpiling materials such as riprap, earth fill, sand, sandbags, and plastic sheeting.
 2. Lowering the reservoir level by making releases through the outlet or a gated spillway, by pumping, or by siphoning.
 3. Armoring eroded areas by placing sandbags, riprap, plastic sheeting, or other available material.
 4. Plugging leakage entrances on the upstream slope.
 5. Increasing freeboard by placing sandbags or temporary earth fill on the dam.
 6. Diverting flood waters to prevent them from entering the reservoir basin.
 7. Constructing training berms to control flood waters.
 8. Placing sandbag ring dikes or reverse filter materials around boils at the downstream toe to provide back pressure.
 9. Removing obstructions from outlet or spillway flow areas.
- D.** Emergency actions impairing the safety of the dam require prior approval of the Director. An owner shall not lower the water level by excavating the spillway or embankment unless failure is imminent.
- E.** For all high and significant hazard potential dams, the emergency action plan shall be implemented with any emergency actions taken at the dam.
- F.** The owner shall notify the Director immediately of any emergency condition that exists and any emergency action taken.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2558, effective June 12, 2000 (Supp. 00-2).

R12-15-1218. Safe Storage Level

The Director has the authority to determine the safe storage level for the reservoir behind each dam, including the storage level of an existing dam while it is being repaired, enlarged, altered, breached, or removed. The elevation of the safe storage level is stated on the license. The owner shall not store water in excess of the level determined by the Director to be safe. The owner shall not place flashboards or other devices in the emergency spillway without approval of an alteration of the dam in accordance with this Article.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2558, effective June 12, 2000 (Supp. 00-2).

R12-15-1219. Safety Inspections; Fees

- A.** Except as provided in subsection (E), the Director shall conduct a dam safety inspection annually or more frequently for each high hazard potential dam, triennially for each significant hazard potential dam, and once every five years for each low and very low hazard potential dam. An owner of a dam shall pay the inspection fee required by R12-15-105 for each inspection of the dam pursuant to this subsection.
- B.** An engineer is considered qualified to provide information to the Director regarding the safe storage level of a reservoir if the engineer:
1. Meets the criteria in R12-15-1202(11),
 2. Has three years of experience in the field of dam safety, and
 3. Has actual experience in conducting dam safety inspections.
- C.** A dam safety inspection includes:
1. Review of previous inspections, reports, and drawings;
 2. Inspection of the dam, spillways, outlet facilities, seepage control, and measurement systems;
 3. Inspection of any permanent monument or monitoring installations;
 4. Assessment of all parts of the dam that are related to the dam's safety; and
 5. A recommendation regarding the safe storage level of the reservoir.
- D.** The engineer shall submit a safety inspection report that describes the findings and lists actions that will improve the safety of the dam. The report shall include the engineer's recommendation of the safe storage level. The engineer shall use a report form approved by the Director.
- E.** Inspections by the Owner
1. An owner may provide to the Director, at the owner's expense, a safety inspection report that complies with the requirements of subsections (B), (C), and (D) in place of an inspection by the Department. The owner's engineer shall notify the Director and submit a written summary of the engineer's qualifications at least 14 days before the scheduled safety inspection.
 2. The Director may refuse to accept an inspection that does not conform to this Article.
 3. A safety inspection report submitted pursuant to this subsection shall include the fee required by R12-15-105(D).
- F.** Inspections by the Department

1. The Director may enter at reasonable times upon private or public property and the owner shall permit such entry, where a dam is located, including a dam under construction, reconstruction, repair, enlargement, alteration, breach, or removal, for any of the following purposes:
 - a. To enforce the conditions of approval of the construction drawings and specifications related to an application for construction, reconstruction, repair, enlargement, alteration, breach, or removal.
 - b. To inspect a dam that is subject to this Article.
 - c. To investigate or assemble data to aid review and study of the design and construction of dams, reservoirs, and appurtenances or make watershed investigations to facilitate decisions on public safety to fulfill the duties of A.R.S. § 45-1214.
 - d. To ascertain compliance with this Article and A.R.S. Title 45, Chapter 6.
2. Upon receipt of a complaint that a dam is endangering people or property:
 - a. The Director shall inspect the dam unless there is substantial cause to believe the complaint is without merit.
 - b. If the complainant files a complaint in writing and deposits with the Director sufficient funds to cover the costs of the inspection, the Director shall make an inspection.
 - c. The Director shall provide a written report of the inspection to the complainant and the dam owner.
 - d. If an unsafe condition is found, the Director shall cause it to be corrected and return the deposit to the complainant. If the complaint was without merit the deposit shall be paid into the general fund.
3. The Director may employ qualified on-call consultants to conduct inspections.
4. Inspections under subsection (A) shall comply with the requirements of A.R.S. § 41-1009.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2558, effective June 12, 2000 (Supp. 00-2). Amended by exempt rulemaking at 16 A.A.R. 1205, effective June 15, 2010 (Supp. 10-2). Amended by exempt rulemaking at 16 A.A.R. 1950, effective September 10, 2010 (Supp. 10-3). Amended by final rulemaking at 17 A.A.R. 659, effective June 4, 2011 (Supp. 11-2).

R12-15-1220. Existing Dams

- A. The requirements of this Article apply to existing dams, except as provided in subsections (B) and (C).
- B. If the Director has determined that an existing dam is in a safe condition, the owner is not required to comply with R12-15-1216 unless the Director determines that it is cost effective to upgrade the dam to comply with the requirements of R12-15-1216 at the time a major alteration or major repair is planned. In determining whether it is cost effective to upgrade a dam, the Director shall consider:
 1. The hazard potential classification of the dam;
 2. Whether the cost of the upgrade would exceed 25% of the total cost of the major alteration or major repair; and
 3. Whether there is a more cost effective alternative that would provide an equivalent increase in safety.
- C. If the Director has determined that a dam is in an unsafe condition, the owner shall comply with the requirements in R12-15-1216. The owner is not required to comply with a requirement in this Article if the Director finds that, considering the site characteristics and the proposed design, the requirement is unduly burdensome or expensive and is not necessary to pro-

tect human life or property. The Director shall consider the size, hazard potential classification, physical site conditions, and applicability of a requirement to the dam. The Director shall state in writing the reason or reasons the owner is not required to comply with a requirement.

- D. The owner shall ensure that installation of utilities beneath or through an existing dam is accomplished by open cuts or jacking and boring methods.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2558, effective June 12, 2000 (Supp. 00-2).

R12-15-1221. Emergency Action Plans

- A. Each owner of a high or significant hazard potential dam shall prepare, maintain, and exercise a written emergency action plan for immediate defensive action to prevent failure of the dam and minimize any threat to downstream development. The emergency action plan shall contain a:
 1. Notification chart showing the priority for notification in an emergency situation. The owner shall notify local emergency response agencies, affected downstream populations, county emergency management agencies, and affected flood control districts;
 2. Description of the demand reservoir and scope of the emergency action plan;
 3. Delineation of potentially unsafe conditions, evaluation procedures, and triggering events that require the initiation of partial or full emergency notification procedures, based on the urgency of the situation;
 4. Delineation of areas of responsibility of the owner and other parties. The emergency action plan shall clearly identify individuals responsible for notifications and declaring an emergency;
 5. Specific notification procedure for each emergency situation anticipated;
 6. Description of emergency supplies and resources, equipment access to the site, and alternative means of communication. The emergency action plan shall also identify specific preparedness activities required, such as annual full or partial mock exercises and updates of the emergency action plan; and
 7. Map showing the area that would be subject to flooding due to spillway flows and dam failures.
- B. The owner shall use the Director's model emergency action plan, which is available at no cost, or an equivalent model, for guidance in preparing the emergency action plan.
- C. The owner shall submit a copy of the proposed emergency action plan for review by the Arizona Division of Emergency Management and all local emergency coordinators involved in the plan. The owner shall incorporate appropriate recommendations generated by the reviews and submit the revised emergency action plan to the Department.
- D. The owner shall review and update the emergency action plan annually or more frequently to incorporate changes such as new personnel, changing roles of emergency agencies, emergency response resources, conditions of the dam, and information learned from mock exercises. The owner shall send updated portions of the plan to persons and agencies holding copies of the plan within 15 days after preparation of an update.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2558, effective June 12, 2000 (Supp. 00-2).

R12-15-1222. Right of Review

- A. An applicant or owner aggrieved by a decision of the Director regarding the determination of hazard classification, jurisdictional status, or the Director's application of this Article may seek review of an appealable agency action under A.R.S. Title 41, Chapter 6, Article 10.
- B. An applicant or owner aggrieved by a decision of the Director that requires the exercise of professional engineering judgment or discretion or the assessment of risk to human life or property, such as the adequacy of an applicant's project documentation, dam design, safe storage level, requirements for existing dams, or maintenance, may seek review by a board of review under A.R.S. §§ 45-1210 and 45-1211.
- C. The following actions are not subject to review:
 1. Emergency measures taken under A.R.S. §§ 45-1212 or 45-1221.
 2. Agency decisions made under A.R.S. §§ 41-1009(E) or (F).
 3. Agency actions made exempt from review by law.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2558, effective June 12, 2000 (Supp. 00-2).

R12-15-1223. Enforcement Authority

- A. The Department may exercise its discretion to take action necessary to prevent danger to human life or property. The Director may take any legal action that is proper and necessary for the enforcement of this Chapter.
- B. If the Director has cause to believe that a dam is unsafe or a person is violating or has violated a provision of this Article or A.R.S. Title 45, Chapter 6, Article 1, the Director may issue a notice directing the owner to remedy the safety deficiency or correct the violation. The owner may appeal a notice issued under this subsection as an appealable agency action in accordance with A.R.S. Title 41, Chapter 6, Article 10. If the owner does not appeal within 30 days after the date on the notice, the notice becomes final and may be incorporated as a condition of any license based on the duration of the requirement.
- C. If the Director has cause to believe that a dam is unsafe or a person is violating or has violated a provision of this Article or A.R.S. Title 45, Chapter 6, Article 1, the Director may proceed under A.R.S. § 45-1221 to initiate a contested case under A.R.S. Title 41, Chapter 6, Article 10 by requesting an administrative hearing.
- D. Following a written decision by an administrative law judge, the Director shall issue a decision and order accepting, rejecting, or modifying the administrative law judge's decision. Upon expiration of time to appeal, the decision and order becomes final and may be incorporated as a condition of any license based on the duration of the requirement.
- E. If the Director has cause to believe that a dam is unsafe or a person is violating or has violated a provision of this Article or A.R.S. Title 45, Chapter 6, Article 1 the Director may commence an action in a court of appropriate jurisdiction if:
 1. The violation is an emergency requiring appropriate steps to be taken without delay; or
 2. The Director has cause to believe that use of the administrative procedure would be ineffective or that delay would ensue and a deterioration in the safety of the dam would occur.
- F. If the Director commences an action it shall be brought in a court of appropriate jurisdiction in which:
 1. The cause or some part of the cause arose; or
 2. The owner or person complained of has his or her place of business; or
 3. The owner or person complained of resides.
- G. A person determined to be in violation of this Article; A.R.S. Title 45, Chapter 6; a license; or order may be assessed a civil penalty not exceeding \$1,000 per day of violation. The Director may offer evidence relating to the amount of the penalty in accordance with A.R.S. § 45-1222.
- H. A violation of A.R.S. Title 45, Chapter 6, Article 1 regarding Supervision of Dams, Reservoirs, and Projects is a class 2 misdemeanor, in accordance with A.R.S. § 45-1216.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2558, effective June 12, 2000 (Supp. 00-2).

R12-15-1224. Emergency Procedures

- A. The owner of a dam shall immediately notify the Department and responsible authorities in adjacent and downstream communities, including emergency management authorities, of a condition that may threaten the safety of the dam. The owner shall take necessary actions to protect human life and property, including action required under an emergency action plan or order issued under this Article.
 1. A condition that may threaten the safety of a dam includes:
 - a. Sliding of upstream or downstream slopes or abutments contiguous to the dam;
 - b. Sudden subsidence of the top of the dam;
 - c. Longitudinal or transverse cracking of the top of the dam;
 - d. Unusual release of water from the downstream slope or face of the dam;
 - e. Other unusual conditions at the downstream slope of the dam;
 - f. Significant landslides in the reservoir area;
 - g. Increasing volume of seepage;
 - h. Cloudy seepage or recent deposits of soil at seepage exit points;
 - i. Sudden cracking or displacement of concrete in a concrete or masonry dam spillway or outlet works;
 - j. Loss of freeboard or dam cross section due to storm wave erosion;
 - k. Flood waters overtopping an embankment dam; or
 - l. Spillway backcutting that threatens evacuation of the reservoir.
 2. In case of an emergency, the owner shall telephone the Arizona Department of Public Safety's emergency numbers at (800) 411-2336 or (602) 223-2000.
- B. The Director shall issue an emergency approval to repair, alter, or remove an existing dam if the Director finds that immediate remedial action is necessary to alleviate an imminent threat to human life or property.
 1. The emergency approval shall be provided in writing on a form developed for this purpose.
 2. The emergency approval may contain conditions the Director determines are appropriate to protect human life or property.
 3. The emergency approval is effective immediately for 30 days after notice is issued unless extended in writing by the Director. The Director shall also send notice to the county flood control district of the county in which the dam is located, all municipalities within 5 miles downstream of the dam, and any additional persons identified in the emergency action plan.
 4. The Director may institute legal or administrative proceedings that the Director deems appropriate for violations of the emergency approval or conditions of the emergency approval.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2558, effective June 12, 2000 (Supp. 00-2).

R12-15-1225. Emergency Repairs

- A. The Director shall use monies from the dam repair fund, established under A.R.S. § 45-1212.01 to employ any remedial measure necessary to protect human life and property resulting from a condition that threatens the safety of a dam if the dam owner is unable or unwilling to take action and there is not sufficient time to issue and enforce an order.
- B. The deputy director may authorize an expenditure not to exceed \$10,000 from the dam repair fund for remedial measures under A.R.S. § 45-1212. The expenditure of any additional funds shall be approved by the Director.
- C. The Director shall hold a lien against all property of the owner in accordance with A.R.S. § 45-1212.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2558, effective June 12, 2000 (Supp. 00-2).

R12-15-1226. Non-Emergency Repairs; Loans and Grants

- A. If the Director determines that a dam represents a threat to human life and property but is not in an emergency condition, the Director may use the dam repair fund, established under A.R.S. § 45-1212.01, as prescribed in this Article to defray the costs of repair.
- B. Monies from the dam repair fund may be used for loans and grants to owners as provided in A.R.S. §§ 45-1218 and 45-1219.
- C. To qualify for a loan or grant from the dam repair fund, a dam shall be classified as unsafe by the Director.
- D. The Director may authorize grant funds for all or part of the cost of engineering studies or construction needed to mitigate the threat to human life and property created by a dam.
 1. The Director and the grantee shall execute a financial assistance agreement that includes terms of financial assistance, the work progress, and payment schedule.
 2. The Director shall disburse grant funds in accordance with the financial assistance agreement.
 3. The Director shall establish a priority ranking for grants based on factors including the potential for failure of a dam, the number of lives at risk, and the capability of the owner to pay a portion of the costs.
- E. The Director may loan funds for engineering studies or for all or part of construction as prescribed in A.R.S. § 45-1218.
 1. The Director and the dam owner shall execute a loan repayment agreement. The loan repayment agreement shall be delivered to and held by the Department.
 2. The Director shall establish a priority ranking for loans based on factors including the potential for failure of a dam, the number of human lives at risk, and the capability of the owner to pay a portion of the costs.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2558, effective June 12, 2000 (Supp. 00-2).

**ARTICLE 13. WELL SPACING REQUIREMENTS;
REPLACEMENT WELLS IN APPROXIMATELY THE
SAME LOCATION**

R12-15-1301. Definitions

In addition to the definitions in A.R.S. §§ 45-101, 45-402, and 45-591, the following words and phrases in this Article shall have the following meanings, unless the context otherwise requires:

1. "Abandoned well" means a well for which a well abandonment completion report has been filed pursuant to

R12-15-816(E) or for which a notification of abandonment has been filed pursuant to R12-15-816(K).

2. "Additional drawdown" means a lowering in the water levels surrounding a well that is the result of the operation of the well and that is not attributable to existing regional rates of decline or existing impacts from other wells.
3. "Applicant" means any of the following:
 - a. A person who has filed an application for a permit to construct a new well or a replacement well in a new location under A.R.S. § 45-599;
 - b. A person who has filed an application for a recovery well permit under A.R.S. § 45-834.01 for a new well as defined in A.R.S. § 45-591 or, except as provided in A.R.S. § 45-834.01(B)(2) or (3), an existing well as defined in A.R.S. § 45-591;
 - c. A person who has filed an application for approval to use a well to withdraw groundwater for transportation to an active management area under A.R.S. § 45-559; or
 - d. A person, other than a city, town, private water company, or irrigation district, who has filed an application for a water exchange permit under A.R.S. § 45-1041.
4. "ADEQ" means the Arizona Department of Environmental Quality.
5. "Contaminated groundwater" means groundwater that has been contaminated by a release of a hazardous substance, as defined in A.R.S. § 49-201, or a pollutant, as defined in A.R.S. § 49-201.
6. "DOD" means the United States Department of Defense.
7. "EPA" means the United States Environmental Protection Agency.
8. "LCR plateau groundwater transporter" means a person transporting groundwater from the Little Colorado River plateau groundwater basin to another groundwater basin pursuant to A.R.S. § 45-544(B)(1).
9. "Notice of water exchange participant" means a person, other than a city, town, private water company, or irrigation district, named as a participant in a water exchange in a notice of water exchange filed under A.R.S. § 45-1051.
10. "Original well" means the well replaced by a replacement well in approximately the same location, except that if the replacement well is the latest in a succession of two or more wells drilled as replacement wells in approximately the same location under R12-15-1308 or temporary rule R12-15-840 adopted by the director on March 11, 1983, "original well" means the well replaced by the first replacement well in approximately the same location.
11. "Remedial action site" means any of the following:
 - a. The site of a remedial action undertaken pursuant to the comprehensive environmental response, compensation, and liability act ("CERCLA") of 1980, as amended, 42 U.S.C. 9601, et seq., commonly known as a "superfund" site;
 - b. The site of a corrective action undertaken pursuant to A.R.S. Title 49, Chapter 6, commonly known as a leaking underground storage tank ("LUST") site;
 - c. The site of a voluntary remediation action undertaken pursuant to A.R.S. Title 49, Chapter 1, Article 5;
 - d. The site of a remedial action undertaken pursuant to A.R.S. Title 49, Chapter 2, Article 5, commonly known as a water quality assurance revolving fund ("WQARF") site;

- e. The site of a remedial action undertaken pursuant to the Resource Conservation and Recovery Act ("RCRA"), 42 U.S.C. 6901, et seq.; or
 - f. The site of remedial action undertaken pursuant to the Department of Defense Environmental Restoration Program, 10 U.S.C. 2701, et seq., commonly known as a "Department of Defense site" or a "DOD site."
12. "Replacement well" means a well drilled for the purpose of replacing another well.
13. "Replacement well in a new location" means a replacement well that does not qualify as a replacement well in approximately the same location under R12-15-1308.
14. "Replacement well in approximately the same location" means a replacement well that qualifies as a replacement well in approximately the same location under R12-15-1308.
15. "Well" has the meaning prescribed in A.R.S. § 45-402. An abandoned well is not a well.
16. "Well of record" means, with respect to an applicant, an LCR plateau groundwater transporter, or a notice of water exchange participant, any well or proposed well not owned by the applicant, LCR plateau groundwater transporter, or notice of water exchange participant, or proposed to be drilled by the applicant, LCR plateau groundwater transporter, or notice of water exchange participant, to which any of the following apply:
- a. The well is an existing well as defined in A.R.S. § 45-591 and the owner or operator has registered the well with the Department, unless the current well information on file with the Department identifies the sole purpose or purposes of the well as one or more of the following:
 - i. Cathodic protection;
 - ii. Use as a sump pump or heat pump;
 - iii. Air sparging;
 - iv. Injection of liquids or gasses into the aquifer or vadose zone, including injection wells that are part of an underground storage facility permitted under A.R.S. Title 45, Chapter 3.1;
 - v. Monitoring water levels or water quality, including a piezometer well;
 - vi. Obtaining geophysical, mineralogical, or geotechnical data;
 - vii. Grounding;
 - viii. Soil vapor extraction;
 - ix. Electrical energy generation pursuant to a temporary permit for electrical energy generation issued under A.R.S. § 45-517;
 - x. Dewatering pursuant to a dewatering permit issued under A.R.S. § 45-513 or a temporary dewatering permit issued under A.R.S. § 45-518;
 - xi. Drainage pursuant to a drainage water withdrawal permit issued under A.R.S. § 45-519; or
 - xii. Hydrologic testing pursuant to a hydrologic testing permit issued under A.R.S. § 45-519.01.
 - b. The well is a new well as defined in A.R.S. § 45-591 for which a notice of intention to drill was not filed pursuant to A.R.S. § 45-596 and for which a permit was not issued pursuant to A.R.S. §§ 45-599 or 45-834.01, and the owner or operator has registered the well with the Department, unless the current well information on file with the Department identifies the sole purpose or purposes of the well as one or more of the purposes in subsection (16)(a)(i) through (xii) of this Section;
 - c. A filing has been made for the well pursuant to A.R.S. § 45-596(A) or (B), unless any of the following apply:
 - i. The filing has expired pursuant to A.R.S. § 45-596(E);
 - ii. The filing identifies the sole purpose or purposes of the well as one or more of the purposes in subsection (16)(a)(i) through (xii) of this Section; or
 - iii. The well is an exempt well and the director is prohibited by A.R.S. § 45-454(D)(4) from considering impacts on the well when determining whether to approve or reject a permit application filed under A.R.S. § 45-599.
 - d. An application for a permit to drill the well has been received by the Department pursuant to A.R.S. § 45-599, unless the application has been rejected after exhaustion of all administrative and judicial appeals or the permit issued pursuant to the application has been revoked or has expired according to its terms or for failure to complete the well in a timely manner pursuant to A.R.S. § 45-599(G);
 - e. An application for a permit pursuant to A.R.S. §§ 45-514 or 45-516 has been received by the Department pursuant to A.R.S. § 45-521, unless the application has been rejected after exhaustion of all administrative and judicial appeals or the permit issued pursuant to the application has been revoked or has expired according to its terms or for failure to complete the well before expiration of the drilling authority; or
 - f. An application for a permit to drill a recovery well has been received by the Department pursuant to A.R.S. § 45-834.01, unless the application has been rejected after exhaustion of all administrative and judicial appeals or the permit issued pursuant to the application has been revoked or has expired according to its terms or for failure to complete the well in a timely manner pursuant to A.R.S. § 45-834.01(F).

Historical Note

New Section made by final rulemaking at 12 A.A.R. 2193, effective August 7, 2006 (Supp. 06-2).

R12-15-1302. Well Spacing Requirements - Applications to Construct New Wells or Replacement Wells in New Locations Under A.R.S. § 45-599

- A.** The director shall not approve an application for a permit to construct a new well or a replacement well in a new location under A.R.S. § 45-599 if the director determines that the withdrawals from the proposed well or wells will cause unreasonably increasing damage to surrounding land or other water users from the concentration of wells under subsection (B) of this Section.
- B.** The director shall determine that the withdrawals from the proposed well or wells will cause unreasonably increasing damage to surrounding land or other water users from the concentration of wells if any of the following apply:
 - 1. Except as provided in subsection (D) of this Section, the director determines that the probable impact of the withdrawals from the proposed well or wells on any well of record in existence as of the date of receipt of the application will exceed 10 feet of additional drawdown after the first five years of operation of the proposed well or wells. To assist the director in making a determination under

this subsection, the applicant may submit a hydrological study delineating those areas surrounding the proposed well or wells in which the projected impacts on water levels will exceed 10 feet of additional drawdown after the first five years of operation of the proposed well or wells. The director may require the applicant to submit such a hydrological study if the director determines that the study will assist the director in making a determination under this subsection;

2. The director determines that the proposed well or wells will be located in an area of known land subsidence and the withdrawals from the proposed well or wells will likely cause unreasonably increasing damage from additional regional land subsidence. To assist the director in making a determination under this subsection, the applicant may submit a hydrological study, which may include a geophysical evaluation, demonstrating the impact of the withdrawals from the proposed well or wells on regional land subsidence. The director may require the applicant to submit such a hydrological study if the director determines that the study will assist the director in making a determination under this subsection; or
 3. Except as provided in subsection (E) of this Section, the director determines, after consulting with ADEQ, that withdrawals from the proposed well or wells will likely cause the migration of contaminated groundwater from a remedial action site to a well of record in existence as of the date of the receipt of the application, resulting in a degradation of the quality of the water withdrawn from the well of record so that the water will no longer be usable for the purpose for which it is currently being used without additional treatment, and that the damage to the owner of the well of record will not be prevented or adequately mitigated through the implementation of a program regulated under Title 49 of the Arizona Revised Statutes, or a program regulated by EPA or DOD. To assist the director in making a determination under this subsection, the applicant may submit a hydrological study demonstrating whether the withdrawals from the proposed well or wells will have the effect described in this subsection. The director may require the applicant to submit such a hydrological study if the director determines that the study will assist the director in making a determination under this subsection.
- C. In making a determination under subsection (B)(1), (B)(2), or (B)(3) of this Section, if the proposed well is a replacement well in a new location, the director shall take into account the collective effects of reducing or terminating withdrawals from the well being replaced combined with the proposed withdrawals from the replacement well if the applicant submits a hydrological study demonstrating those collective effects to the satisfaction of the director.
- D. If the director determines under subsection (B)(1) of this Section that the probable impact of the withdrawals from the proposed well or wells on one or more wells of record in existence as of the date of receipt of the application will exceed 10 feet of additional drawdown after the first five years of operation of the proposed well or wells, the director shall notify the applicant in writing of the location of the wells of record and the names and addresses of the owners of the wells as shown in the Department's well registry. The director shall not determine that the withdrawals from the proposed well or wells will cause unreasonably increasing damage to surrounding land or other water users from the concentration of wells under subsection (B)(1) of this Section if within 60 days after the date on the notice, or a longer time period approved by the director,

the applicant submits one of the following for each well of record identified in the notice:

1. A signed and notarized consent form from the owner of the well of record consenting to the withdrawals from the proposed well or wells. The applicant shall use the consent form furnished by the director; or
 2. Evidence satisfactory to the director that the address of the owner of the well of record as shown in the Department's well registry records is inaccurate and that the applicant made a reasonable attempt to locate the current owner of the well of record but was unable to do so.
- E. If the director determines that withdrawals from the proposed well or wells will have the effect described in subsection (B)(3) of this Section on one or more wells of record in existence as of the date of receipt of the application, the director shall notify the applicant in writing of the location of the wells of record and the names and addresses of the owners of the wells as shown in the Department's well registry. The director shall not determine that the withdrawals from the proposed well or wells will cause unreasonably increasing damage to surrounding land or other water users from the concentration of wells under subsection (B)(3) of this Section if within 60 days after the date on the notice, or a longer time period approved by the director, the applicant submits one of the following for each well of record identified in the notice:
1. A signed and notarized consent form from the owner of the well of record consenting to the withdrawals from the proposed well or wells. The applicant shall use the consent form furnished by the director; or
 2. Evidence satisfactory to the director that the address of the owner of the well of record as shown in the Department's well registry records is inaccurate and that the applicant made a reasonable attempt to locate the current owner of the well of record but was unable to do so.
- F. At any time before a final determination under this Section, the applicant may:
1. Amend the application to change the location of the proposed well or wells or the amount of groundwater to be withdrawn from the proposed well or wells to lessen the degree of impact on wells of record or regional land subsidence; or
 2. Agree to construct or operate the proposed well or wells in a manner that lessens the degree of impact on wells of record or regional land subsidence. The director shall indicate in the well permit that compliance with the agreement is a condition of the well permit.

Historical Note

New Section made by final rulemaking at 12 A.A.R. 2193, effective August 7, 2006 (Supp. 06-2).

R12-15-1303. Well Spacing Requirements - Applications for Recovery Well Permits Under A.R.S. § 45-834.01

- A. The director shall not approve an application for a recovery well permit under A.R.S. § 45-834.01 that is filed for a new well as defined in A.R.S. § 45-591 or, except as provided in A.R.S. § 45-834.01(B)(2) or (3), for an existing well as defined in A.R.S. § 45-591, if the director determines that the recovery of stored water from the proposed well or wells will cause unreasonably increasing damage to surrounding land or other water users from the concentration of wells under subsection (B) of this Section.
- B. The director shall determine that the recovery of stored water from the proposed well or wells will cause unreasonably increasing damage to surrounding land or other water users from the concentration of wells if any of the following apply:

1. Except as provided in subsection (D) of this Section, the director determines that the probable impact of the recovery of stored water from the proposed well or wells on any well of record in existence as of the date of receipt of the application will exceed 10 feet of additional drawdown after the first five years of the recovery of stored water from the proposed well or wells. To assist the director in making a determination under this subsection, the applicant shall submit with the application a hydrological study delineating those areas surrounding the proposed well or wells in which the projected impacts on water levels will exceed 10 feet of additional drawdown after the first five years of the recovery of stored water from the proposed well or wells;
 2. The director determines that the proposed recovery well or wells will be located in an area of known land subsidence and the recovery of stored water from the proposed well or wells will likely cause unreasonably increasing damage from additional regional land subsidence. To assist the director in making a determination under this subsection, the applicant may submit a hydrological study, which may include a geophysical evaluation, demonstrating the impact of the recovery of stored water from the proposed recovery well or wells on regional land subsidence. The director may require the applicant to submit such a hydrological study if the director determines that the study will assist the director in making a determination under this subsection; or
 3. Except as provided in subsection (E) of this Section, the director determines, after consulting with ADEQ, that the recovery of stored water from the proposed well or wells will likely cause the migration of contaminated groundwater from a remedial action site to a well of record in existence as of the date of receipt of the application, resulting in a degradation of the quality of the water withdrawn from the well of record so that the water will no longer be usable for the purpose for which it is currently being used without additional treatment, and that the damage to the owner of the well of record will not be prevented or adequately mitigated through the implementation of a program regulated under Title 49 of the Arizona Revised Statutes, or a program regulated by EPA or DOD. To assist the director in making a determination under this subsection, the applicant may submit a hydrological study demonstrating whether the recovery of stored water from the proposed well or wells will have the effect described in this subsection. The director may require the applicant to submit such a hydrological study if the director determines that the study will assist the director in making a determination under this subsection.
- C. In making a determination under subsection (B)(1), (B)(2), or (B)(3) of this Section:
1. If the proposed recovery well is a replacement well in a new location, the director shall take into account the collective effects of reducing or terminating withdrawals from the well being replaced combined with the proposed recovery of stored water from the replacement well if the applicant submits a hydrological study demonstrating those collective effects to the satisfaction of the director.
 2. If the proposed recovery well will be located within the area of impact, as defined in A.R.S. § 45-802.01, of an underground storage facility and the applicant will account for all of the water recovered from the well as water stored at the facility, the director shall take into account the effects of water storage at the facility on the proposed recovery of stored water from the recovery well if the applicant submits a hydrological study demonstrating those effects to the satisfaction of the director.
- D. If the director determines under subsection (B)(1) of this Section that the probable impact of the recovery of stored water from the proposed recovery well or wells on any well of record in existence as of the date of receipt of the application will exceed 10 feet of additional drawdown after the first five years of operation of the proposed well or wells, the director shall notify the applicant in writing of the location of the wells of record and the names and addresses of the owners of the wells as shown in the Department's well registry. The director shall not determine that the recovery of stored water from the proposed recovery well or wells will cause unreasonably increasing damage to surrounding land or other water users from the concentration of wells under subsection (B)(1) of this Section if within 60 days after the date on the notice, or a longer time period approved by the director, the applicant submits one of the following for each well of record identified in the notice:
1. A signed and notarized consent form from the owner of the well of record consenting to the recovery of stored water from the proposed recovery well or wells. The applicant shall use the consent form furnished by the director; or
 2. Evidence satisfactory to the director that the address of the owner of the well of record as shown in the Department's well registry records is inaccurate and that the applicant made a reasonable attempt to locate the current owner of the well of record but was unable to do so.
- E. If the director determines that the recovery of stored water from the proposed recovery well or wells will have the effect described in subsection (B)(3) of this Section on one or more wells of record in existence as of the date of receipt of the application, the director shall notify the applicant in writing of the location of the wells of record and the names and addresses of the owners of the wells as shown in the Department's well registry. The director shall not determine that the recovery of stored water from the proposed recovery well or wells will cause unreasonably increasing damage to surrounding land or other water users from the concentration of wells under subsection (B)(3) of this Section if within 60 days after the date on the notice, or a longer time period approved by the director, the applicant submits one of the following for each well of record identified in the notice:
1. A signed and notarized consent form from the owner of the well of record consenting to the recovery of stored water from the proposed recovery well or wells. The applicant shall use the consent form furnished by the director; or
 2. Evidence satisfactory to the director that the address of the owner of the well of record as shown in the Department's well registry records is inaccurate and that the applicant made a reasonable attempt to locate the current owner of the well of record but was unable to do so.
- F. At any time before a final determination under this Section, the applicant may:
1. Amend the application to change the location of the proposed recovery well or wells or the amount of stored water to be recovered from the proposed recovery well or wells to lessen the degree of impact on wells of record or regional land subsidence; or
 2. Agree to construct or operate the proposed recovery well or wells in a manner that lessens the degree of impact on wells of record or regional land subsidence. The director shall indicate in the recovery well permit that compliance with the agreement is a condition of the recovery well permit.

New Section made by final rulemaking at 12 A.A.R.
2193, effective August 7, 2006 (Supp. 06-2).

R12-15-1304. Well Spacing Requirements - Wells Withdrawing Groundwater From the Little Colorado River Plateau Groundwater Basin for Transportation to Another Groundwater Basin Under A.R.S. § 45-544(B)(1)

- A.** An LCR plateau groundwater transporter may not withdraw groundwater from a well or wells drilled in the Little Colorado river plateau groundwater basin after January 1, 1991, except a replacement well in approximately the same location or a well drilled after that date pursuant to a notice of intention to drill filed on or before that date, for transportation away from the basin pursuant to A.R.S. § 45-544(B)(1) if the director determines that the withdrawals for that purpose will cause unreasonably increasing damage to surrounding land or other water users from the concentration of wells under subsection (B) of this Section.
- B.** The director shall determine that the withdrawals of groundwater from the well or wells will cause unreasonably increasing damage to surrounding land or other water users from the concentration of wells if any of the following apply:
1. Except as provided in subsection (D) of this Section, the director determines that the probable impact of the withdrawals of groundwater from the well or wells on any well of record in existence when the withdrawals commenced or are proposed to commence will exceed 10 feet of additional drawdown after the first five years of the withdrawals. To assist the director in making a determination under this subsection, the LCR plateau groundwater transporter may submit to the director a hydrological study delineating those areas surrounding the LCR plateau groundwater transporter's well or wells in which the projected impacts on water levels will exceed 10 feet of additional drawdown after the first five years of the withdrawals. The director may require the LCR plateau groundwater transporter to submit such a hydrological study if the director determines that the study will assist the director in making a determination under this subsection;
 2. The director determines that the well or wells from which the groundwater is withdrawn are located in an area of known land subsidence and the withdrawals of groundwater will likely cause unreasonably increasing damage from additional regional land subsidence. To assist the director in making a determination under this subsection, the LCR plateau groundwater transporter may submit to the director a hydrological study, which may include a geophysical evaluation, demonstrating the impact of the withdrawals on regional land subsidence. The director may require the LCR plateau groundwater transporter to submit such a hydrological study if the director determines that the study will assist the director in making a determination under this subsection; or
 3. Except as provided in subsection (E) of this Section, the director determines, after consulting with ADEQ, that the withdrawals of groundwater from the well or wells will likely cause the migration of contaminated groundwater from a remedial action site to a well of record in existence when the groundwater withdrawals commenced or are proposed to commence, resulting in a degradation of the quality of the water withdrawn from the well of record so that the water will no longer be usable for the purpose for which it is currently being used without additional treatment, and that the damage to the owner of the well of record will not be prevented or adequately mitigated through the implementation of a program regulated under Title 49 of the Arizona Revised Statutes, or a program regulated by EPA or DOD. To assist the director in making a determination under this subsection, the LCR plateau groundwater transporter may submit to the director a hydrological study demonstrating whether the withdrawals of groundwater will have the effect described in this subsection. The director may require the LCR plateau groundwater transporter to submit such a hydrological study if the director determines that the study will assist the director in making a determination under this subsection.
- C.** In making a determination under subsection (B)(1), (B)(2), or (B)(3) of this Section, if a well from which the groundwater is withdrawn is a replacement well in a new location, the director shall take into account the collective effects of reducing or terminating withdrawals from the well being replaced combined with the withdrawals from the replacement well if the LCR plateau groundwater transporter submits a hydrological study demonstrating those collective effects to the satisfaction of the director.
- D.** If the director determines under subsection (B)(1) of this Section that the probable impact of the withdrawals of groundwater from the well or wells on any well of record in existence when the withdrawals commenced or are proposed to commence will exceed 10 feet of additional drawdown after the first five years of the withdrawals, the director shall notify the LCR plateau groundwater transporter in writing of the location of the wells of record and the names and addresses of the owners of the wells as shown in the Department's well registry. The director shall not determine that the withdrawals will cause unreasonably increasing damage to surrounding land or other water users from the concentration of wells under subsection (B)(1) of this Section if within 60 days after the date on the notice, or a longer time period approved by the director, the LCR plateau groundwater transporter submits one of the following for each well of record identified in the notice:
1. A signed and notarized consent form from the owner of the well of record consenting to the withdrawals. The LCR plateau groundwater transporter shall use the consent form furnished by the director; or
 2. Evidence satisfactory to the director that the address of the owner of the well of record as shown in the Department's well registry records is inaccurate and that the LCR plateau groundwater transporter made a reasonable attempt to locate the current owner of the well of record but was unable to do so.
- E.** If the director determines that the withdrawals of groundwater from the well or wells will have the effect described in subsection (B)(3) of this Section on one or more wells of record in existence when the groundwater withdrawals commenced or are proposed to commence, the director shall notify the LCR plateau groundwater transporter in writing of the location of the wells of record and the names and addresses of the owners of the wells as shown in the Department's well registry. The director shall not determine that the withdrawals will cause unreasonably increasing damage to surrounding land or other water users from the concentration of wells under subsection (B)(3) of this Section if within 60 days after the date on the notice, or a longer time period approved by the director, the LCR plateau groundwater transporter submits one of the following for each well of record identified in the notice:
1. A signed and notarized consent form from the owner of the well of record consenting to the withdrawals. The LCR plateau groundwater transporter shall use the consent form furnished by the director; or

2. Evidence satisfactory to the director that the address of the owner of the well of record as shown in the Department's well registry records is inaccurate and that the LCR plateau groundwater transporter made a reasonable attempt to locate the current owner of the well of record but was unable to do so.
- F. At any time before a final determination under this Section, the LCR plateau groundwater transporter may agree to construct or operate the well or wells in a manner that lessens the degree of impact on wells of record or regional land subsidence. Compliance with the agreement is a condition for the use of the well or wells to withdraw groundwater for transportation away from the basin pursuant to A.R.S. § 45-544(B)(1).

Historical Note

New Section made by final rulemaking at 12 A.A.R. 2193, effective August 7, 2006 (Supp. 06-2).

R12-15-1305. Well Spacing Requirements - Applications to Use a Well to Withdraw Groundwater for Transportation to an Active Management Area Under A.R.S. § 45-559

- A. The director shall not approve an application to use a well or wells constructed after September 21, 1991, to withdraw groundwater for transportation to an active management area under A.R.S. § 45-559 if the director determines that the withdrawals for that purpose will cause unreasonably increasing damage to surrounding land or other water users from the concentration of wells under subsection (B) of this Section.
- B. The director shall determine that the withdrawals of groundwater will cause unreasonably increasing damage to surrounding land or other water users from the concentration of wells if any of the following apply:
1. Except as provided in subsection (C) of this Section, the director determines that the probable impact of the groundwater withdrawals on any well of record in existence as of the date of receipt of the application will exceed 10 feet of additional drawdown after the first five years of the withdrawals. To assist the director in making a determination under this subsection, the applicant may submit a hydrological study delineating those areas surrounding the proposed well or wells in which the projected impacts of the groundwater withdrawals on water levels will exceed 10 feet of additional drawdown after the first five years of the withdrawals. The director may require the applicant to submit such a hydrological study if the director determines that the study will assist the director in making a determination under this subsection;
 2. The director determines that the proposed well or wells will be located in an area of known land subsidence and the groundwater withdrawals will likely cause unreasonably increasing damage from additional regional land subsidence. To assist the director in making a determination under this subsection, the applicant may submit a hydrological study, which may include a geophysical evaluation, demonstrating the impact of the groundwater withdrawals on regional land subsidence. The director may require the applicant to submit such a hydrological study if the director determines that the study will assist the director in making a determination under this subsection; or
 3. Except as provided in subsection (D) of this Section, the director determines, after consulting with ADEQ, that the groundwater withdrawals will likely cause the migration of contaminated groundwater from a remedial action site to a well of record in existence as of the date of receipt of the application, resulting in a degradation of the quality of the water withdrawn from the well of record so that the water will no longer be usable for the purpose for which it is currently being used without additional treatment, and that the damage to the owner of the well of record will not be prevented or adequately mitigated through the implementation of a program regulated under Title 49 of the Arizona Revised Statutes, or a program regulated by EPA or DOD. To assist the director in making a determination under this subsection, the applicant may submit a hydrological study demonstrating whether the groundwater withdrawals will have the effect described in this subsection. The director may require the applicant to submit such a hydrological study if the director determines that the study will assist the director in making a determination under this subsection.
- C. If the director determines under subsection (B)(1) of this Section that the probable impact of the groundwater withdrawals on any well of record in existence as of the date of receipt of the application will exceed 10 feet of additional drawdown after the first five years of the withdrawals, the director shall notify the applicant in writing of the location of the wells of record and the names and addresses of the owners of the wells as shown in the Department's well registry. The director shall not determine that the groundwater withdrawals will cause unreasonably increasing damage to surrounding land or other water users from the concentration of wells under subsection (B)(1) of this Section if within 60 days after the date on the notice, or a longer time period approved by the director, the applicant submits one of the following for each well of record identified in the notice:
1. A signed and notarized consent form from the owner of the well of record consenting to the withdrawals. The applicant shall use the consent form furnished by the director; or
 2. Evidence satisfactory to the director that the address of the owner of the well of record as shown in the Department's well registry records is inaccurate and that the applicant made a reasonable attempt to locate the current owner of the well of record but was unable to do so.
- D. If the director determines that the groundwater withdrawals will have the effect described in subsection (B)(3) of this Section on one or more wells of record in existence as of the date of receipt of the application, the director shall notify the applicant in writing of the location of the wells of record and the names and addresses of the owners of the wells as shown in the Department's well registry. The director shall not determine that the groundwater withdrawals will cause unreasonably increasing damage to surrounding land or other water users from the concentration of wells under subsection (B)(3) of this Section if within 60 days after the date on the notice, or a longer time period approved by the director, the applicant submits one of the following for each well of record identified in the notice:
1. A signed and notarized consent form from the owner of the well of record consenting to the withdrawals. The applicant shall use the consent form furnished by the director; or
 2. Evidence satisfactory to the director that the address of the owner of the well of record as shown in the Department's well registry records is inaccurate and that the applicant made a reasonable attempt to locate the current owner of the well of record but was unable to do so.
- E. At any time before a final determination under this Section, the applicant may:
1. Amend the application to change the location of the proposed well or wells or the amount of groundwater to be withdrawn from the proposed well or wells to lessen the

degree of impact on wells of record or regional land subsidence; or

2. Agree to construct or operate the proposed well or wells in a manner that lessens the degree of impact on wells of record or regional land subsidence. The director shall indicate in the permit that compliance with the agreement is a condition of the permit to use the well or wells to withdraw groundwater for transportation to an active management area under A.R.S. § 45-559.

Historical Note

New Section made by final rulemaking at 12 A.A.R. 2193, effective August 7, 2006 (Supp. 06-2).

R12-15-1306. Well Spacing Requirements - Applications for Water Exchange Permits Under A.R.S. § 45-1041

- A. The director shall not approve an application for a water exchange permit filed under A.R.S. § 45-1041 by a person other than a city, town, private water company or irrigation district if the director determines that any new or increased pumping by the applicant from a well or wells within an active management area pursuant to the water exchange will cause unreasonably increasing damage to surrounding land or other water users under subsection (B) of this Section.
- B. The director shall determine that new or increased pumping by the applicant from a well or wells within an active management area will cause unreasonably increasing damage to surrounding land or other water users if any of the following apply:
 1. Except as provided in subsection (C) of this Section, the director determines that the probable impact of the new or increased pumping on any well of record in existence as of the date of receipt of the application will exceed 10 feet of additional drawdown after the first five years of the pumping. To assist the director in making a determination under this subsection, the applicant may submit a hydrological study delineating those areas surrounding the proposed well or wells in which the projected impacts of the new or increased pumping on water levels will exceed 10 feet of additional drawdown after the first five years of the pumping. The director may require the applicant to submit such a hydrological study if the director determines that the study will assist the director in making a determination under this subsection;
 2. The director determines that the new or increased pumping will occur in an area of known land subsidence and the pumping will likely cause unreasonably increasing damage from additional regional land subsidence. To assist the director in making a determination under this subsection, the applicant may submit a hydrological study, which may include a geophysical evaluation, demonstrating the impact of the new or increased pumping on regional land subsidence. The director may require the applicant to submit such a hydrological study if the director determines that the study will assist the director in making a determination under this subsection; or
 3. Except as provided in subsection (D) of this Section, the director determines, after consulting with ADEQ, that the new or increased pumping will likely cause the migration of contaminated groundwater from a remedial action site to a well of record in existence as of the date of receipt of the application, resulting in a degradation of the quality of the water withdrawn from the well of record so that the water will no longer be usable for the purpose for which it is currently being used without additional treatment, and that the damage to the owner of the well of record will not be prevented or adequately mitigated through the implementation of a program regulated under Title 49 of the Arizona Revised Statutes, or a program regulated by EPA or DOD. To assist the director in making a determination under this subsection, the applicant may submit with the application a hydrological study demonstrating whether the new or increased pumping will have the effect described in this subsection. If the applicant does not submit such a hydrological study with the application, the director may require the applicant to submit the study if the director determines that the study will assist the director in making a determination under this subsection.
- C. If the director determines under subsection (B)(1) of this Section that the probable impact of the new or increased pumping on any well of record in existence as of the date of receipt of the application will exceed 10 feet of additional drawdown after the first five years of the pumping, the director shall notify the applicant in writing of the location of the wells of record and the names and addresses of the owners of the wells as shown in the Department's well registry. The director shall not determine that the new or increased pumping will cause unreasonably increasing damage to surrounding land or other water users under subsection (B)(1) of this Section if within 60 days after the date on the notice, or a longer time period approved by the director, the applicant submits one of the following for each well of record identified in the notice:
 1. A signed and notarized consent form from the owner of the well of record consenting to the new or increased pumping. The applicant shall use the consent form furnished by the director; or
 2. Evidence satisfactory to the director that the address of the owner of the well of record as shown in the Department's well registry records is inaccurate and that the applicant made a reasonable attempt to locate the current owner of the well of record but was unable to do so.
- D. If the director determines that the new or increased pumping will have the effect described in subsection (B)(3) of this Section on one or more wells of record in existence as of the date of receipt of the application, the director shall notify the applicant in writing of the location of the wells of record and the names and addresses of the owners of the wells as shown in the Department's well registry. The director shall not determine that the new or increased pumping will cause unreasonably increasing damage to surrounding land or other water users from the concentration of wells under subsection (B)(3) of this Section if within 60 days after the date on the notice, or a longer time period approved by the director, the applicant submits one of the following for each well of record identified in the notice:
 1. A signed and notarized consent form from the owner of the well of record consenting to the new or increased pumping. The applicant shall use the consent form furnished by the director; or
 2. Evidence satisfactory to the director that the address of the owner of the well of record as shown in the Department's well registry records is inaccurate and that the applicant made a reasonable attempt to locate the current owner of the well of record but was unable to do so.
- E. At any time before a final determination under this Section, the applicant may:
 1. Amend the application to change the location of the proposed well or wells or the amount of the new or increase pumping to lessen the degree of impact on wells of record or regional land subsidence; or
 2. Agree to construct or operate the proposed well or wells in a manner that lessens the degree of impact on wells of record or regional land subsidence. The director shall

indicate in the water exchange permit that compliance with the agreement is a condition of the water exchange permit.

Historical Note

New Section made by final rulemaking at 12 A.A.R. 2193, effective August 7, 2006 (Supp. 06-2).

R12-15-1307. Well Spacing Requirements - Notices of Water Exchange Under A.R.S. § 45-1051

- A. A notice of water exchange participant may not participate in a water exchange for which a notice is filed under A.R.S. § 45-1051 if the director determines that any new or increased pumping by the person from a well or wells within an active management area pursuant to the water exchange will cause unreasonably increasing damage to surrounding land or other water users under subsection (B) of this Section.
- B. The director shall determine that new or increased pumping from the well or wells in an active management area will cause unreasonably increasing damage to surrounding land or other water users if any of the following apply:
 1. Except as provided in subsection (C) of this Section, the director determines that the probable impact of the new or increased pumping on any well of record in existence when the pumping commenced or is proposed to commence will exceed 10 feet of additional drawdown after the first five years of the pumping. To assist the director in making a determination under this subsection, the notice of water exchange participant may submit to the director a hydrological study delineating those areas surrounding the notice of water exchange participant's well or wells in which the projected impacts of the new or increased pumping on water levels will exceed 10 feet of additional drawdown after the first five years of the pumping. The director may require the notice of water exchange participant to submit such a hydrological study if the director determines that the study will assist the director in making a determination under this subsection;
 2. The director determines that the new or increased pumping is in an area of known land subsidence and the pumping will likely cause unreasonably increasing damage from additional regional land subsidence. To assist the director in making a determination under this subsection, the notice of water exchange participant may submit to the director a hydrological study, which may include a geophysical evaluation, demonstrating the impact of the pumping on regional land subsidence. The director may require the notice of water exchange participant to submit such a hydrological study if the director determines that the study will assist the director in making a determination under this subsection; or
 3. Except as provided in subsection (D) of this Section, the director determines, after consulting with ADEQ, that the new or increased pumping will likely cause the migration of contaminated groundwater from a remedial action site to a well of record in existence when the pumping commenced or is proposed to commence, resulting in a degradation of the quality of the water withdrawn from the well of record so that the water will no longer be usable for the purpose for which it is currently being used without additional treatment, and that the damage to the owner of the well of record will not be prevented or adequately mitigated through the implementation of a program regulated under Title 49 of the Arizona Revised Statutes, or a program regulated by EPA or DOD. To assist the director in making a determination under this subsection, the notice of water exchange participant may submit to the director a hydrological study demonstrating whether the new or increased pumping will have the effect described in this subsection. The director may require the notice of water exchange participant to submit such a study if the director determines that the study will assist the director in making a determination under this subsection.
- C. If the director determines under subsection (B)(1) of this Section that the probable impact of the new or increased pumping on any well of record in existence when the pumping commenced or is proposed to commence will exceed 10 feet of additional drawdown after the first five years of the pumping, the director shall notify the notice of water exchange participant in writing of the location of the wells of record and the names and addresses of the owners of the wells as shown in the Department's well registry. The director shall not determine that the new or increased pumping will cause unreasonably increasing damage to surrounding land or other water users from the concentration of wells under subsection (B)(1) of this Section if within 60 days after the date on the notice, or a longer time period approved by the director, the notice of water exchange participant submits one of the following for each well of record identified in the notice:
 1. A signed and notarized consent form from the owner of the well of record consenting to the new or increased pumping. The notice of water exchange participant shall use the consent form furnished by the director; or
 2. Evidence satisfactory to the director that the address of the owner of the well of record as shown in the Department's well registry records is inaccurate and that the notice of water exchange participant made a reasonable attempt to locate the current owner of the well of record but was unable to do so.
- D. If the director determines that the new or increased pumping will have the effect described in subsection (B)(3) of this Section on one or more wells of record in existence when the pumping commenced or is proposed to commence, the director shall notify the notice of water exchange participant in writing of the location of the wells of record and the names and addresses of the owners of the wells as shown in the Department's well registry. The director shall not determine that the new or increased pumping will cause unreasonably increasing damage to surrounding land or other water users from the concentration of wells under subsection (B)(3) of this Section if within 60 days after the date on the notice, or a longer time period approved by the director, the notice of water exchange participant submits one of the following for each well of record identified in the notice:
 1. A signed and notarized consent form from the owner of the well of record consenting to the new or increased pumping. The notice of water exchange participant shall use the consent form furnished by the director; or
 2. Evidence satisfactory to the director that the address of the owner of the well of record as shown in the Department's well registry records is inaccurate and that the notice of water exchange participant made a reasonable attempt to locate the current owner of the well of record but was unable to do so.
- E. At any time before a final determination under this Section, the notice of water exchange participant may agree to construct or operate the well or wells in a manner that lessens the degree of impact on wells of record or regional land subsidence. Compliance with the agreement is a condition for the use of the well to pump water for the water exchange.

Historical Note

New Section made by final rulemaking at 12 A.A.R.

2193, effective August 7, 2006 (Supp. 06-2).

R12-15-1308. Replacement Wells in Approximately the Same Location

A. For purposes of A.R.S. §§ 45-544, 45-596, and 45-597, a replacement well in approximately the same location is a proposed well to which all of the following apply:

1. The proposed well will be located no greater than 660 feet from the original well, and the location of the original well can be determined at the time the notice of intention to drill the proposed well is filed;
2. Except as provided in subsections (A)(3) and (A)(4) of this Section, the proposed well will not annually withdraw an amount of water in excess of the maximum annual capacity of the original well. The director shall determine the maximum annual capacity of the original well by multiplying the maximum pump capacity of the original well in gallons per minute by 525,600, and then converting the result into acre-feet by dividing the result by 325,851 gallons. The director shall presume that the maximum pump capacity of the original well is the maximum pump capacity of the well in gallons per minute as shown in the Department's well registry records, except that:
 - a. If the director has reason to believe that the maximum pump capacity as shown in the Department's well registry records is inaccurate, or if the applicant submits evidence demonstrating that the maximum pump capacity as shown in the Department's well registry records is inaccurate, the director shall determine the maximum pump capacity by considering all available evidence, including the depth and diameter of the well and any evidence submitted by the applicant; or
 - b. If the Department's well registry records do not show the maximum pump capacity of the original well, the director shall not approve the proposed well as a replacement well in approximately the same location unless the applicant demonstrates to the director's satisfaction the maximum pump capacity of the original well;
3. If a well permit was issued for the original well under A.R.S. § 45-599, the proposed well will not annually withdraw an amount of groundwater in excess of the maximum annual volume set forth in the well permit;
4. If a recovery well permit was issued for the well to be replaced pursuant to A.R.S. § 45-834.01(B) and the per-

mit sets forth a maximum annual volume of stored water that may be recovered from the well, the proposed well will not annually recover an amount of stored water in excess of the maximum annual volume set forth in the recovery well permit;

5. If the well to be replaced has been physically abandoned in accordance with R12-15-816, a notice of intention to drill the proposed well is filed no later than 90 days after the well to be replaced was physically abandoned; and
6. If the proposed well will be used to withdraw groundwater from the Little Colorado river plateau groundwater basin for transportation away from the basin pursuant to A.R.S. § 45-544(B)(1), one of the following applies:
 - a. The original well was drilled on or before January 1, 1991, or was drilled after that date pursuant to a notice of intention to drill that was on file with the Department on that date; or
 - b. The director previously determined that the withdrawal of groundwater from the original well for transportation away from the Little Colorado river plateau groundwater basin complies with R12-15-1304.
- B. After a replacement well in approximately the same location is drilled, the replacement well may be operated in conjunction with the original well and any other wells that replaced the original well if the total annual withdrawals from all wells do not exceed the maximum amount allowed under subsection (A)(2), (A)(3), or (A)(4) of this Section, whichever applies.
- C. A proposed well may be drilled as a replacement well in approximately the same location for more than one original well if the criteria in subsections (A)(1), (A)(5), and (A)(6) of this Section are met with respect to each original well and if the total annual withdrawals from the proposed well will not exceed the combined maximum annual amounts allowed for each original well under subsections (A)(2), (A)(3), or (A)(4) of this Section, whichever apply.
- D. The director may include conditions in the approval of the notice of intention to drill the replacement well to ensure that the drilling and operation of the replacement well meets the requirements of this Section.

Historical Note

New Section made by final rulemaking at 12 A.A.R. 2193, effective August 7, 2006 (Supp. 06-2).

PUBLISHER
Arizona Department of State
Office of the Secretary of State, Administrative Rules Division

PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), accepts state agency rule filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the Administrative Code. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION
September 30, 2017

RULES

A.R.S. § 41-1001(17) states: “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The Arizona Administrative Code is where the official rules of the state of Arizona are published. The Code is the official codification of rules that govern state agencies, boards, and commissions. Virtually everything in your life is affected in some way by rules published in the Arizona Administrative Code, from the quality of air you breathe to the licensing of your dentist. This chapter is one of more than 230 in the Code compiled in 21 Titles.

ADMINISTRATIVE CODE SUPPLEMENTS

Rules filed by an agency to be published in the Administrative Code are updated quarterly. Supplement release dates are printed on the footers of each chapter:

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2017 is cited as Supp. 17-1.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the Arizona Administrative Register for recent updates to rule Sections.

ARTICLES AND SECTIONS

Rules in chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering system separated into subsections.

HISTORICAL NOTES AND EFFECTIVE DATES

Historical notes inform the user when the last time a Section was updated in the Administrative Code. Be aware, since the Office publishes each quarter by entire chapters, not all Sections are updated by an agency in a supplement release. Many times just one Section or a few Sections may be updated in the entire chapter.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority note to make rules is often included at the beginning of a chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in the introduction of a chapter can be found at the Secretary of State’s website, www.azsos.gov/services/legislative-filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the Arizona Administrative Register online at www.azsos.gov/rules, click on the Administrative Register link.

In the Administrative Code the Office includes editor’s notes at the beginning of a chapter indicating that certain rulemaking Sections were made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

EXEMPTIONS AND PAPER COLOR

If you are researching rules and come across rescinded chapters on a different paper color, this is because the agency filed a Notice of Exempt Rulemaking. At one time the office published exempt rules on either blue or green paper. Blue meant the authority of the exemption was given by the Legislature; green meant the authority was determined by a court order. In 2001 the Office discontinued publishing rules using these paper colors.

PERSONAL USE/COMMERCIAL USE

This chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

Public Services managing rules editor, Rhonda Paschal, assisted with the editing of this chapter.

TITLE 13. PUBLIC SAFETY**CHAPTER 5. LAW ENFORCEMENT MERIT SYSTEM COUNCIL**

Authority: A.R.S. §§ 41-1830.11 through 41-1830.15

Editor's Note: The former rules in this Chapter, which were repealed effective May 10, 2000, were codified under the old numbering system in the Arizona Administrative Code. The Historical Notes for the former rules therefore do not appear here. Editor's Notes at the beginning of Articles 1 through 9, however, indicate the location of the former rules in those Articles, and the rescinded rules are on file in the Office of the Secretary of State (Supp. 00-2).

ARTICLE 1. GENERAL PROVISIONS

Editor's Note: Former Article 1, consisting of Sections R13-5-01 through R13-5-04, repealed by final rulemaking at 6 A.A.R. 1982, effective May 10, 2000; new Article 1, consisting of Sections R13-5-101 through R13-5-104, adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2).

ARTICLE 9. REPEALED

Editor's Note: Article 9, consisting of Section R13-5-50, repealed effective June 7, 1978 (Supp. 78-3).

ARTICLE 1. GENERAL PROVISIONS

Editor's Note: Former Article 1, consisting of Sections R13-5-01 through R13-5-04, repealed by final rulemaking at 6 A.A.R. 1982, effective May 10, 2000; new Article 1, consisting of Sections R13-5-101 through R13-5-104, adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2).

R13-5-101. Definitions

In this Chapter, unless otherwise specified, the following terms mean:

"Abandonment of position" means failure of an employee to report to work for a period of five consecutive working days without authorization from the employee's supervisor or manager and without good cause.

"Abilities" means general traits or capabilities an individual possesses when beginning the performance of a task.

"Agency" means any governmental organization subject to the rules of the Law Enforcement Merit System Council.

"Agency head" means the chief executive officer or director of any agency placed under the rules of the Law Enforcement Merit System Council.

"Allocate or allocation" means the placement of a position to a classification based on the duties and responsibilities of the position.

"Annual leave" means the leave time accrued biweekly by an employee based on the number of years of state service and may include holiday leave and recognition leave.

"Appeal" means an employee's request for Council review of a disciplinary action.

"Applicant" means a person who has applied for an opportunity to compete for a position.

"Appointment" means the placement of a candidate or employee into a classified position.

"Background investigation" means an inquiry to determine the character of a potential employee and may include verification and review of identity, education, employment history, personal references, credit rating, criminal history, and driving record.

"Break-in-service" means a period of absence from agency service of more than 240 consecutive working hours resulting from an employee's resignation, retirement, suspension, lay-off, or leave of absence without pay.

"Business day" means the hours between 8:00 a.m. and 5:00 p.m., Monday through Friday, excluding observed state holidays.

"Business manager" means the individual responsible for administering the affairs of the Council.

"Candidate" means an applicant who qualifies for a place on an eligibility list.

"Certified list" means the names of qualified candidates on an eligibility list who are willing to accept an appointment.

"Civilian employee" means a person who is appointed to a classification that does not require peace officer status.

"Classification" means one or more positions requiring the same minimum qualifications, knowledge, skills, and abilities that have the same title and pay range.

"Classification date" means the effective date of an employee's appointment to a classification.

"Classification specification" means the classification's title or rank, classification code, typical duties and responsibilities,

essential functions, minimum qualifications, required knowledge, skills and abilities.

"Classified position" means a position that is allocated to a classification.

"Commissioned employee" means a person who is appointed to a classification that requires Arizona Peace Officer Standards and Training Board certification as a peace officer.

"Compensation" means the amount of money paid for each hour worked and paid leave taken and includes time off received for overtime and holidays worked or accrued.

"Compensatory time" means leave received for overtime worked.

"Competitor" means an applicant who has met the minimum qualifications for a classification and is competing in an employment or promotional examination.

"Contested case" has the same meaning as in A.R.S. § 41-1001 (4).

"Council" means the Arizona Law Enforcement Merit System Council.

"Covered employee" means a full authority peace officer as certified by the Arizona Peace Officer Standards and Training Board and who is appointed to a position (outside of Department of Public Safety and Arizona Peace Officers Standards and Training Board) that requires such a certification in the covered service, as defined in A.R.S. § 41-741(5)(c)(e) and who have completed their original probationary period.

"Covered position" means any position within an agency that is not appointed by the Governor or by the agency head with the concurrence of the Governor and is subject to the rules of the Council.

"Covered service" means that employment status conferring rights of appeal as prescribed in A.R.S. § 41-782 and A.R.S. § 41-783 or A.R.S. § 41-1830.16, as applicable, as defined in A.R.S. § 41-741(6).

"Days" means full calendar days unless otherwise specified in the text of a rule.

"Demotion" means the disciplinary appointment of an employee to a classification with a lower pay range.

"Dismissal" means an agency-initiated removal of an employee from state service.

"Duties" means actions or tasks required under the circumstances by an employee's position or classification.

"Eligibility list" means the names of candidates for a classification in descending order of their final scores in preparation for a selection process.

"Employee" means a person who is appointed to a position, subject to the terms and conditions of the appointment within the Department of Public Safety or the Arizona Peace Officers Standards and Training Board.

"Employing agency" means the agency in the state personnel system where the covered employee is, or in the case of dismissal, was employed as prescribed in A.R.S. § 41-1830.16(H)(3).

"Entrance rate" means the lowest rate of pay within the pay range of a classification.

"Examination" means an evaluation or test to determine if an applicant's qualifications comply with the specifications for a classification.

"Examination plan" means a description of each phase of an examination, the weight applied to each phase of the examina-

tion, the criteria for moving from one phase of the examination to another and any limitations as to the number of names to appear on the eligibility list.

“Exempt employee” means an employee who is not subject to the overtime provisions of the Fair Labor Standards Act, Title 29 U.S.C Chapter 8.

“External employment list” means an eligibility list of candidates seeking employment with an agency.

“Fair Labor Standards Act” (FLSA) means those federal statutes at Title 29 U.S.C. 201-219 and 251-262.

“Family and Medical Leave Act FMLA leave” means a leave of absence, with or without pay, taken by an employee under a policy adopted by an agency head from options authorized in the Family and Medical Leave Act. 29 U.S.C. 2611, et. seq.

“For cause” means disciplinary action or dismissal for any reason listed in A.R.S. § 41-1830.15 or this Chapter.

“Full authority peace officer” means a peace officer whose authority to enforce the laws of this state is not limited by the rules adopted by the Arizona Peace Officer Standards and Training Board as prescribed in A.R.S. § 41-1830.16(H)(4).

“Full-time employee” means an employee appointed to work 40 hours a week or 160 hours in a 28 day cycle.

“Grievance” means a work-related complaint by an employee regarding classification, compensation, performance evaluation, or violation of law or Council rules.

“Holiday leave” means the leave time accrued by working a state holiday or accrued when the holiday falls on a day the employee is not scheduled to work or is on paid sick leave. Holiday leave may be included in annual leave time.

“Human Resources” means an agency department responsible for personnel administration.

“Individual with a disability” means anyone who has a physical or mental impairment that substantially limits one or more major life activities, or who has a record of an impairment, or is regarded as having an impairment.

“Initial probation” means a probationary period required of a new employee to an agency, an employee appointed to a classification as a special limited term employee, or an employee appointed to the classification of officer who has completed the terms of a special limited term appointment.

“Intermittent appointment” means the appointment of an employee to work on an irregular basis.

“Internal list” means an eligibility list of internal candidates seeking promotional positions or reassignments.

“Just Cause” means all of the following:

The employing agency informed the employee of the possible disciplinary action resulting from the employee’s conduct through agency manuals, employee handbooks, the employer’s rules and regulations or other communications to the employee, or the conduct on which disciplinary action was based such that the employee should have reasonably known disciplinary action could occur;

The disciplinary action is reasonably related to the standards of conduct for a professional law enforcement officer, the mission of the agency, the orderly, efficient or safe operation of the agency or the employee’s fitness for duty;

The discipline is supported by a preponderance of the evidence establishing that the conduct on which the disciplinary action was based occurred; and

The discipline is not excessive and is reasonably related to the seriousness of the offense and the employee’s service record.

“Knowledge” means a body of information, usually of a factual or procedural nature, that makes for successful performance of a task.

“Limited duty” means a short-term assignment to a physically less demanding position while the employee recovers from a temporary medical condition or disability.

“Limited-term appointment” means an appointment to a position that is designated as temporary.

“Limited-term employee” means an employee in a limited-term appointment who has not achieved the status of a regular employee.

“Manifest error” means an erroneous act or failure to act in administering the provisions of Article 3 of this Chapter.

“Non-exempt employee” means an employee who is subject to the overtime provisions of the Fair Labor Standards Act, Title 29 U.S.C Chapter 8.

“Original probationary period” means the specified period following initial appointment to covered service as defined in A.R.S. § 41-741(10).

“Overtime” means time worked by a non-exempt employee in excess of 40 hours in a work week or in excess of 160 hours in a 28-day cycle.

“Part-time appointment” means the appointment of an employee to work a schedule of less than 40 hours per week.

“Part-time employee” means an employee appointed to work less than 40 scheduled hours per week.

“Pay range” means the difference between the lowest and highest pay rates for a classification.

“Pay status” means an employee’s right to receive compensation for time worked or leave taken, except when absent on leave-without-pay or suspension without pay.

“Permanent employee” means an employee who has successfully completed an initial probation with an agency.

“Permanent status” means the employment rights achieved after satisfactorily completing the probationary period for a classification.

“Personnel Rules” means the rules adopted by the Arizona Department of Administration, human resources division as prescribed in A.R.S. § 41-1830.16(H)(7).

“Position” means a job or function, whether occupied or vacant, that is assigned a number, classification, funding source, pay range, and location code.

“Position audit” means an examination of the duties and responsibilities of a position to determine the appropriate classification.

“Promotional Probation” means a period of 12 months established for evaluating an employee’s performance to determine if the employee should be retained in a classification.

“Promotion” means the appointment of an employee to a position in another classification with a higher maximum pay level.

“Provisional appointment” means an appointment to a position in a classification for which there is no eligibility list.

“Qualifications Appraisal Board” means a group of raters who evaluate a competitor’s qualifications based upon the competitor’s written or oral responses.

Law Enforcement Merit System Council

“Qualifying pay period” means a pay period for qualifying service in which an employee is in pay status for at least one-half of the employee’s normally scheduled work week.

“Qualifying service” means part-time or full-time service as an employee of an agency, excluding any break-in-service.

“Reallocation” means a change in the classification of a position, based upon an analysis of the duties and responsibilities of the position.

“Reappointment” means appointment to a classification previously held by an employee who was reassigned to a different classification.

“Reassignment” means an appointment, at the employee’s request, to a position in a different classification with the same or a lower pay range.

“Recall” means the appointment of a former employee who was separated by a reduction in force.

“Reclassification” means the change in classification of an employee due to the employee’s movement to a position in a different classification or a reallocation of the employee’s position to a different classification.

“Recognition leave” means leave time given an employee under a formal awards program as an incentive for continued superior performance. Recognition leave is added to annual leave.

“Reduction in force” means an action taken by an agency head to involuntarily transfer, reclassify, or lay-off an employee as a result of a legislative or executive mandate; reduction of funds; or decrease in the number of authorized positions, service area, or program responsibilities.

“Regular-employee” means an employee, except a limited term-employee, who achieves permanent status.

“Reinstatement” means an appointment of a former employee to the classification or a similar classification held when the employee separated from the agency.

“Rejection of probation” means an action taken by an agency head to reclassify an employee on a promotional probation or to separate an employee on an initial probation for failure to achieve and sustain the required level of performance for the classification.

“Responsibilities” means actions or tasks for which an employee is accountable in a position or classification.

“Retirement” means a voluntary separation from an agency by an employee who is eligible for an immediate disbursement from a retirement plan.

“Separation” means the close of an employee’s term of employment with an agency.

“Skill” means an individual’s level of proficiency or competency in performing a specific task.

“Special duty assignment” means an employee’s temporary assignment of more responsibilities or duties or an assignment to a position with special work or living requirements.

“Special limited term appointment” means an appointment to the classification of cadet officer or officer trainee pending the completion of requirements for the classification of officer.

“State” means the State of Arizona.

“Standard performance” means a rating given to an employee who meets the expected level of performance needed to accomplish the objectives of a position.

“State personnel system” means all state agencies and employees of those agencies that are not exempted by this article as prescribed in A.R.S. § 41-741(17).

“Standardized scoring” means a statistical method used to ensure that the various components of a multi-phased examination receive their proper weights.

“Suspension of pay” means the disciplinary action of withholding an employee’s pay for a specified period.

“Telecommuting” means an employee performing assigned work at a location other than the employee’s regular work location.

“Time-in-grade” means time spent in a classification.

“Transfer” means the movement of an employee from the employee’s current position to another position in the same classification.

“Uncovered appointment” means an appointment to a job or function by the Governor or by an agency head with the concurrence of the Governor.

“Uncovered employee” means an employee who serves at the pleasure of the Governor.

“Veteran” means an individual who served in the armed forces of the United States and was discharged from military service under honorable conditions after more than six months of active duty and as defined in 37 U.S.C. 101 and A.R.S. § 38-492.

“Working day” means the same as business day.

“Work week” means the 40-hour time period an employee works between Saturday and Friday, including any leave time taken.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2). Amended by final rulemaking at 7 A.A.R. 5373, effective November 6, 2001 (Supp. 01-4). Amended by final rulemaking at 9 A.A.R. 1619, effective July 5, 2003 (Supp. 03-2).

Amended by emergency rulemaking at 10 A.A.R. 1163, effective March 4, 2004 (Supp. 04-1). Emergency expired after 180 days; the Section on file prior to the emergency has been restored (Supp. 05-4). Amended by final rulemaking at 12 A.A.R. 1756, effective July 2, 2006 (Supp. 06-2). Amended by final rulemaking at 23 A.A.R. 2564, effective November 5, 2017 (Supp. 17-3).

R13-5-102. Law Enforcement Merit System Council

- A. Authority. The statutory authority of the Law Enforcement Merit System Council is found in A.R.S. § 41-1830.11 through § 41-1830.16.
- B. Decisions of the business manager are subject to review by the Council.
- C. Selection of officers. The Council shall select a Chair and Vice-Chair from its members at a regular meeting in November or December of even-numbered years. The Chair and Vice-Chair shall hold office for a period of two years, or until their successors are selected.
- D. Meetings. The Chair, or in the Chair’s absence the Vice-Chair, shall call a meeting of the Council when a meeting is needed. The Council shall hold meetings at a location convenient to the participants whenever possible. Except for the Council’s executive sessions, the Council’s meetings shall remain open to the public and the Chair shall give interested parties an opportunity to be heard.

Law Enforcement Merit System Council

- E. Quorum. Three members are required for a quorum, and concurring members must equal a majority of those voting in order to take action.
- F. Minutes. The Council shall keep minutes of its proceedings and official actions. The Council's records and minutes are open to public review during normal business hours.
- G. Council rules. An agency shall provide employees with a copy of the Council's rules.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2). Amended by final rulemaking at 9 A.A.R. 1619, effective July 5, 2003 (Supp. 03-2). Amended by final rulemaking at 23 A.A.R. 2564, effective November 5, 2017 (Supp. 17-3).

R13-5-103. Personnel Administration

- A. Separation of powers. The agency head shall staff and maintain a human resources function responsible for personnel administration consistent with these rules and under the jurisdiction of the Council as provided for in statute and this Chapter. The business manager shall provide oversight to Human Resources in administering this Chapter.
- B. Personnel records. Human Resources shall maintain employment records on each agency employee, including the employee's:
 1. Employment application;
 2. Examination scores;
 3. Signed oath of office;
 4. Date of initial appointment;
 5. Other appointment orders;
 6. Performance reports;
 7. Transfers;
 8. Commendations;
 9. Leaves-of-absence without pay;
 10. Disciplinary actions;
 11. Separation from the agency;
 12. Reinstatement to the agency, and
 13. Any other appropriate employment records.
- C. Confidentiality. Human Resources shall preserve the confidentiality of personnel records. Persons authorized to access personnel records are:
 1. The employee;
 2. A person authorized by the employee;
 3. A person with an official court order;
 4. A person authorized by the agency head;
 5. A person authorized by the chair of the Council; and
 6. A law enforcement agency with authorized access to such records under A.R.S. § 41-1828.01.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2).

R13-5-104. General Information

- A. Delegating authority. The agency head may delegate to other agency personnel the authority and duties imposed by this Chapter upon the agency head, unless otherwise prohibited by statute or rule.
- B. Reports. The agency head shall provide information requested by the Council on matters relating to this Chapter. The agency shall present the information in the format requested by the Council.
- C. Restricted information. The Council shall safeguard confidential information given to the Council by any employee or former employee. The Council shall not allow inspection of such information except under conditions prescribed by the Council.

- D. Service of notice. The agency or the Council shall serve notice upon an employee personally or by the U.S. Postal Service. Postal service shall be made by certified mail, return receipt requested, to an employee's last known home or business address, and is complete upon mailing. Service as provided for in this Section is required for the following:
 1. Notice of an employee's rejection from probation;
 2. Notice of a charge in a disciplinary proceeding;
 3. Notice of an employee's suspension, layoff, or dismissal; and
 4. Other notices required by these rules.
- E. Proof of service. The agency shall provide proof of service by affidavit.
- F. Availability of funds. Reference in these rules to employee pay is contingent upon availability of funds, as determined by the agency head.
- G. Compliance with federal rules and regulations. Any federal regulation or standard governing the granting of federal funds to an agency under the Law Enforcement Merit System Council takes precedence over any of these rules which conflict with the control and expenditure of federal funds.
- H. Validity and separation. If any provision or application of the rules in this Chapter is held invalid by a court of competent jurisdiction, the remainder of the rules in this Chapter and application of the rules to other persons or circumstances are not affected by the court decision.
- I. Equal employment. The Council, the agency head, and agency employees shall not discriminate in any aspect of employment on the basis of race, color, religion, sex, national origin, age, disability, or pregnancy.
- J. Accommodation. The Council and the agency head shall make reasonable accommodations to enable a person with a disability to use agency facilities, services, and programs. A person requesting accommodation shall notify the agency or the business manager as soon as reasonably possible in order to allow the agency time to arrange the accommodation.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2).

ARTICLE 2. CLASSIFICATION AND COMPENSATION

Editor's Note: Former Article 2, consisting of Sections R13-5-10 and R13-5-11, repealed by final rulemaking at 6 A.A.R. 1982, effective May 10, 2000; new Article 2, consisting of Sections R13-5-201 through R13-5-204, adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2).

R13-5-201. Classification

- A. Classification Plan. The Council shall adopt and revise the classification of positions for use by an agency. Collectively, classifications adopted by the Council comprise the classification plan of the Council. Each classification in the classification plan includes:
 1. A descriptive title;
 2. A description of the scope of duties, typical responsibilities, and essential functions;
 3. The minimum qualifications required of an applicant; and
 4. A determination of non-exempt or exempt status under the Fair Labor Standards Act.
- B. Classification specifications. The business manager shall document the date of adoption and the latest revision of each classification specification, and shall maintain the master set of all approved classification specifications. Human Resources shall also maintain a set of all approved classification specifications. Copies of a classification specification are open for

Law Enforcement Merit System Council

inspection by an employee and the public and are available on the DPS web site.

- C. Allocating positions. The Council shall allocate positions to the appropriate classification in the Classification Plan. The Council shall allocate positions to the same classification when:
 - 1. The duties and responsibilities are substantially similar;
 - 2. The education, experience, knowledge, skills, and abilities required are substantially similar;
 - 3. The examinations used in choosing qualified candidates are substantially similar; and
 - 4. The pay range may be applied equitably to all positions in the classification.
- D. Compensation Maintenance Review Plan: The Council shall adopt and revise guidelines for a classification and compensation maintenance review plan. An employee shall be placed in a classification in accordance with this plan.
- E. Assignment. Except in an emergency, or as otherwise provided by this Chapter, an agency shall not assign an employee to perform the duties of any classification other than the classification to which the employee's position is allocated.
- F. Modification. The Council may establish a new classification and revise or abolish an existing classification. The Council shall decide when a position in an affected classification needs to be reallocated, taking into account the factors in subsection (C). The Council shall also determine the probationary or permanent status of an employee affected by reallocation.
- G. Reviewing allocations. An employee affected by reallocation of the employee's position shall have the opportunity to be heard by the Council under R13-5-602.
- H. Changes in positions. The Council shall reallocate an existing position when a material and permanent change occurs in the duties and responsibilities of the position.
 - 1. If an employee is in a position that is reallocated, an agency shall reclassify the employee in that position if the employee:
 - a. Has been in the position at least six months;
 - b. Has occupied the position during the change in duties; and
 - c. Meets the minimum qualifications of the new classification.
 - 2. A position shall not be reallocated while undergoing a classification and compensation review, except that the Council may reallocate a position that is undergoing a classification and compensation review when an agency head can show that the reallocation is necessary for the continued operation of the agency.
- I. Time in grade. The Council shall credit an employee reclassified as a result of a reallocation with time-in-grade as follows:
 - 1. The employee is credited with time-in-grade for the time spent in the position if no significant changes are made to the duties and responsibilities of the position to qualify for the higher classification and if the employee continues to perform the duties previously performed in the position.
 - 2. Time-in-grade status is calculated on the basis of actual hours worked.
- J. New positions. An agency head shall establish positions in the agency as authorized by law, subject to budgetary authorization and availability of funds. An agency head shall notify the Council when a new position is established. The Council shall allocate a new position to the appropriate classification.
- K. Classification titles. An agency shall use a classification title approved by the Council in all communications regarding personnel, budget, and financial records.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R.

2090, effective May 10, 2000 (Supp. 00-2). Amended by final rulemaking at 9 A.A.R. 1619, effective July 5, 2003 (Supp. 03-2). Amended by final rulemaking at 12 A.A.R. 1756, effective July 2, 2006 (Supp. 06-2).

R13-5-202. Compensation

- A. Compensation plan. The Council shall adopt compensation levels for all classifications. Collectively, compensation levels adopted by the Council comprise the compensation plan of the Council. An agency shall periodically revise the compensation plan for a covered position, based on the principle that like salaries are paid for comparable duties and responsibilities, and shall submit the agency's recommendations to the Council for approval.
- B. Hearings. If an agency recommends a change in a pay range, the Council shall grant any adversely affected employee an opportunity to be heard.
- C. Pay Levels. The Council shall specify all pay levels. The Council may also establish more than one pay range, hourly rate, or method of compensation for classifications and positions with unusual hours, conditions of work, or when necessary to compete with other employers.
- D. Lack of Funds. If an agency lacks sufficient funds to pay an employee's salary, the agency shall consider an alternative method of reducing costs, including those described in R13-5-802(B). If an alternative method is not adequate or available, the agency shall assign an employee to a leave of absence without pay under the layoff procedure in R13-5-802. The agency shall recall the laid off employee when sufficient funds become available.
- E. Entrance rate. The minimum pay rate for each classification is the entry rate, unless otherwise provided in these rules. The agency shall maintain a record of each employee's employment date and entrance into a classification.
- F. Special pay adjustments. When making an appointment, promotion, reinstatement, recall, transfer, reclassification or reassignment, an agency head may authorize pay anywhere within the pay range to meet recruiting and retention needs, and to give credit for prior agency service.
- G. Rate above maximum. When a position is reallocated resulting in the reclassification of an employee to a lower classification or the pay range of a classification is reduced, the agency head may authorize a pay rate for the employee above the maximum for the classification. While an employee's pay remains above the maximum rate for the employee's classification, the employee shall not receive any pay increases except those required by law.
- H. Rate on movement to a classification with a lower pay range. An employee who accepts reassignment to a classification with a lower pay range may receive a rate above the minimum, if authorized by the agency head. The agency shall then establish a new classification date for the employee.
- I. Rate on movement to a classification with the same range. When an employee moves to another classification with the same range, the employee shall retain the employee's current rate of pay.
- J. Rate on movement to a classification with a higher pay range. When an employee moves to another classification with a higher pay range, the employee shall receive pay at the entry level of the new classification. If the employee's current pay is greater than the entry level of the new classification, the employee shall receive no less than a \$500 annual increase. In no case shall an employee's salary exceed the maximum for the new classification.
- K. Rate upon reinstatement. Upon reinstatement, a former employee shall receive the entrance rate for the employee's

classification, unless the agency head authorizes a higher rate or as directed by the Council following a disciplinary hearing.

- L. Rate upon recall. A former employee who is recalled after a layoff shall receive the same pay rate as that held before the layoff. If the Council approved a general pay adjustment or classification adjustment while the employee was on leave of absence without pay, the employee shall receive the adjustment.
- M. Automatic pay adjustment. A classification pay range adjustment applies equally to all employees within the classification and does not alter an employee's classification date for a pay adjustment.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2).

R13-5-203. Pay Administration

- A. Base pay adjustment. An agency head may modify base pay by adding cost-of-living and other adjustment appropriated by the state Legislature. An agency head may also request that the Council revise the compensation plan to include other changes to base pay, as needed. After base pay adjustments are completed, an agency head may add special duty pay before computing an employee's pay rate.
- B. Appropriated pay adjustment. Upon approval by the Council the agency head may apply some or all the appropriated funds to the compensation plan, if the appropriation bill does not include specific allocation instructions for an employee pay raise, or if the instructions are not applicable to the agency.
- C. Special duty assignment. An agency head may supplement the base pay of an employee on a special duty assignment. Time spent on a special duty assignment counts toward an employee's length of service. An employee may receive special duty pay only for the period when the employee performs the required duties of the special duty assignment.
- D. Return from special duty assignment or uncovered appointment. When an employee returns to a regular appointment from a special duty assignment or an uncovered appointment, the agency shall return the employee's pay to the employee's base pay earned before being assigned to a special duty assignment or uncovered appointment. If general pay adjustments or classification adjustments are approved while an employee is on a special duty assignment or serving in an uncovered appointment, the employee shall receive the adjustments.
- E. Overtime pay. The agency head shall adopt an overtime policy and procedure consistent with federal regulations under the Fair Labor Standards Act, Arizona Revised Statutes, and this Chapter. Compensatory leave is accrued and used as provided by R13-5-505.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2).

R13-5-204. Work Hours and Work Options

Work hours and work breaks. An agency head may establish different working hours for certain work groups and shifts in order to meet the needs of the agency. In doing this, the agency head should consider such factors as clean air directives, telecommuting, and flexible work hours. An agency head shall establish a policy for "on-duty" and "off-duty" time consistent with federal regulations under the Fair Labor Standards Act, Arizona Revised Statutes, and this Chapter and provide procedures for recording time worked and leave taken by an employee.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2).

ARTICLE 3. EMPLOYMENT

Editor's Note: Former Article 3, consisting of Section R13-5-15, repealed by final rulemaking at 6 A.A.R. 1982, effective May 10, 2000; new Article 1, consisting of Sections R13-5-301 through R13-5-317, adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2).

R13-5-301. Recruitment

- A. Recruiting an external applicant. When authorized by an agency head, Human Resources shall seek qualified applicants through open recruiting and competitive employment opportunities. Human Resources shall publish and distribute job announcements that include:
 1. The classification title and pay;
 2. The minimum qualifications;
 3. The location of the assignment, if known;
 4. Special requirements, if any;
 5. Location of forms; and
 6. The application deadline.
- B. Applications. Human Resources shall establish procedures for distributing and receiving an application. Human Resources shall screen all applications and may reject any that are incomplete, illegible, or received after the deadline.
- C. Disqualifying an applicant or candidate. An agency head or the agency's Human Resources unit may disqualify any applicant or candidate based upon information in an application, statements made by the applicant's references, and a background investigation by the agency. The agency shall also disqualify any applicant who:
 1. Lacks the required qualifications for the classification;
 2. Was convicted of a disqualifying offense;
 3. Was dismissed by a previous employer for a reason that is cause for dismissal from the agency;
 4. Practiced deception or failed to give complete and accurate information; or
 5. Failed to meet selection guidelines as established by the Council.
- D. Reapplying. A candidate who fails any portion of the background investigation, with the exception of medical only, shall be precluded from reapplying for a period of two years from the date of disqualification.
- E. Notifying an applicant. After completing a qualification review, Human Resources shall notify an applicant of the agency's acceptance or rejection of the employee's application.
- F. Retaining an application. Human Resources shall retain all applications under a records retention and disposition schedule approved by the Department of Library, Archives, and Public Records.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2).

R13-5-302. Examinations

- A. Examination plan. Human Resources shall develop an examination plan for each selection process. The business manager shall review and approve each examination plan. An applicant for the examination shall be notified of the examination plan. Once an examination begins, changes will not be made to the plan. If an examination plan needs to be altered, Human Resources shall terminate the current examination and initiate a new examination.
- B. Examination guidelines. Human Resources shall obtain or develop a valid examination for each classification, and establish a weight and minimum qualifying requirement for each phase of the exam. The business manager shall review and

Law Enforcement Merit System Council

approve each examination before the examination is administered. A competitor shall achieve the minimum requirements on each phase of an examination before progressing to the next phase. A competitor shall achieve a passing score on each phase before qualifying for a classification.

- C. Notifying an applicant. Human Resources shall notify a qualified applicant of the following information:
 1. The date, time, and location of each examination;
 2. The number of phases included in the examination;
 3. Other pre-employment requirements; and
 4. How to request special accommodations for persons with a disability.
- D. Type and content of examination. Human Resources shall ensure that each examination is valid, non-discriminatory, and fairly and accurately measures an applicant's ability to perform the functions and duties listed in the classification specifications.
- E. Conducting an examination.
 1. Human Resources, or a person designated by Human Resources, shall administer the examination.
 2. The business manager shall oversee all elements of, but not actively participate in, the examination process to ensure that each component is administered, scored, evaluated, and interpreted fairly and accurately.
 3. Human Resources shall permanently disqualify an applicant from taking any employment or promotional examination if it has been established that the applicant is guilty of copying, collusion, unauthorized access, or other acts of dishonesty relating to an official examination.
- F. Scoring an examination. Human Resources shall oversee the scoring of the examination.
 1. Human Resources may use a rater for a qualifications appraisal board from within or outside of an agency to score an examination. Human Resources shall select an examination rater who is qualified to appraise the education, experience, and personal qualifications of a competitor.
 2. Human Resources shall provide a rater with scoring guidelines and exam answer keys to ensure consistency of scoring, evaluation, and interpretation of test results. All phases of an examination shall have predetermined and clearly defined scoring criteria.
 3. If a majority of the raters on a qualifications appraisal board give the competitor a passing score, the competitor shall receive a minimum rating of "pass" even if the competitor's average score is below the passing level. If a majority of the raters on a qualifications appraisal board gives the competitor a score below the passing level, the competitor shall be disqualified, even if the competitor's average score is above the passing level.
 4. Human Resources shall apply standardized scoring to a multi-phased examination when the number of competitors is five or more.
- G. Validating an examination result. If Human Resources finds that an examination is incorrectly scored or that a portion of an examination is defective, Human Resources shall:
 1. Correct all scoring errors, or
 2. Eliminate the defective portion of an examination and revise the score of each competitor.
- H. Examination results notification. Human Resources shall mail notification of examination results to each competitor.
- I. Review of examinations. Any employee who has tested for promotion may request an examination review under R13-5-305(G).

- J. Retaining test scores. Human Resources shall retain all examination materials and test scores under a records retention and disposition schedule approved by the Department of Library, Archives, and Public Records.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2). Amended by final rulemaking at 7 A.A.R. 5373, effective November 6, 2001 (Supp. 01-4). Amended by final rulemaking at 9 A.A.R. 1619, effective July 5, 2003 (Supp. 03-2). Amended by final rulemaking at 12 A.A.R. 1756, effective July 2, 2006 (Supp. 06-2).

R13-5-303. Applicant Preference Points

If an applicant receives a passing score on an examination and has qualified for placement on an employment list, Human Resources shall add the preference points authorized by A.R.S. § 38-492 to the applicant's final score, provided the applicant submits official documentation of eligibility for preference points. Preference points shall not apply to a promotional examination.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2).

R13-5-304. Employment

- A. Establishing an employment eligibility list. Human Resources shall develop, and the business manager shall establish, employment eligibility lists for various classifications, as needed. For each list, Human Resources shall arrange the names of competitors in descending order of the competitors' final examination scores.
- B. Establishing a list in case of ties. If two or more competitors receive the same rating in an examination, the competitor's names shall be placed on the list according to their respective ratings on the portion of the examination with the greatest weight. If a tie still exists, the names shall be placed on the list at the same position, in alphabetical order.
- C. Reviewing the employment eligibility list. Human Resources shall submit an employment eligibility list to the business manager for approval and certification.
- D. Notification to candidate. When an employment eligibility list is certified by the business manager, Human Resources shall notify a candidate of the candidate's relative ranking on the list.
- E. Duration of an eligibility list. Each new or merged list remains in effect for 18 months from its effective date. Before a list expires, the Council may cancel the list.
 1. Restoring a list. If a need arises and a current list is not available, the Council may restore a list that expired or was canceled within the past six months.
 2. Merging a list. Except for the classifications described in subsection (E)(3), if three or fewer candidates remain on an existing list, Human Resources may establish a new list and merge the existing list with the new list. When the merged list is established, Human Resources shall rearrange the names in descending order of the candidates' final scores and notify each candidate of the candidate's relative ranking. Human Resources shall remove a candidate's name from the new list on the expiration date of the candidate's original list.
 3. Conducting continuous or periodic testing. If the Council determines that a classification requires continuous or periodic testing, the business manager may authorize Human Resources to conduct examinations regardless of the existence of an employment list in that classification. Human Resources shall merge the names of candidates

Law Enforcement Merit System Council

tested with names on the existing employment list for that classification as described in subsection (E)(2).

4. Retesting a merged candidate. If another examination for the same classification is held before the prior list expires, a merged candidate from the prior list may take the examination. If the candidate passes the test, Human Resources shall place the candidate on the list according to the new score. The candidate shall remain on the list for its duration.
- F. Removing a candidate. The business manager shall remove a candidate from an eligibility list for any of the following reasons:
 1. Human Resources is unable to contact the candidate by phone or mail;
 2. The Council abolishes the classification for which the list was developed; or
 3. The candidate withdraws from the selection process.
- G. Correcting a manifest error. The business manager shall correct a manifest error that occurs in developing, using, or maintaining an eligibility list. The business manager shall not change the effective date of an eligibility list to correct a manifest error discovered after posting the list.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2). Amended by final rulemaking at 6 A.A.R. 4495, effective November 7, 2000 (Supp. 00-4). Amended by final rulemaking at 7 A.A.R. 5373, effective November 6, 2001 (Supp. 01-4). Amended by final rulemaking at 9 A.A.R. 1619, effective July 5, 2003 (Supp. 03-2). Amended by final rulemaking at 12 A.A.R. 1756, effective July 2, 2006 (Supp. 06-2).

R13-5-305. Promotion

- A. Announcing a promotional examination. Human Resources shall publish an agency-wide announcement when initiating development of an internal eligibility list. An announcement shall include the information in R13-5-301(A).
- B. Applying for promotion. An employee may compete for a place on an internal eligibility list by submitting an internal application form to Human Resources by the application filing deadline.
 1. An employee is eligible to take a promotional examination if the employee:
 - a. Satisfactorily completes initial probation by the application filing deadline;
 - b. Meets or exceeds the minimum qualifications for the classification; and
 - c. Receives a standard or above standard performance evaluation for the latest rating period.
 2. An employee who participates in developing an examination for an internal classification is not eligible to take the examination for that classification.
- C. Processing an application. Human Resources shall process an application consistent with the procedures in R13-5-301(B), (C), and (F).
- D. Business manager review. Within 10 days after a notice of rejection of an application has been mailed to the employee, an employee may request that the business manager review a rejected application. The business manager may review and overturn or concur with the decision of Human Resources. An employee may also request that the Council review the business manager's decision.
- E. Promotional examination. Human Resources shall conduct a promotional examination consistent with R13-5-302. An employee eligible to take a promotional examination shall notify the employee's supervisor of the time and date of the examination as soon as it is known. A supervisor shall authorize an employee to participate in a promotional examination while on duty.
- F. Scoring and validating an examination. Human Resources shall score and validate an examination under R13-5-302(F) and (G).
- G. Inspection of examination results. Within 10 days after the examination results are mailed, a competitor may file a written notice with the business manager requesting an opportunity to review the examination for the purpose of determining whether the competitor has a reason for challenging the competitive examination. A competitor requesting a review shall outline the specific areas the competitor believes are in error. The competitor shall be allowed to review the examination in the presence of the business manager or an employee authorized by the business manager to determine whether the competitor has a valid basis for a challenge to the examination.
 1. The business manager or the authorized employee shall oversee the competitor's examination inspection.
 2. An employee shall not copy questions or answers, nor make any alterations to the examination papers.
 3. Within 10 days of a review, a competitor may file a written notice with the business manager challenging the examination results on the basis of irregularity, bias, fraud, or scoring error and explaining the basis for any challenge. The business manager shall review the competitor's challenge to determine if the challenge is valid.
 4. If the business manager's review discloses an error, the business manager shall return the examination to Human Resources for correction.
 5. If an error affects the scores of other competitors, Human Resources shall revise all incorrect scores.
 6. If the business manager determines the error is not correctable and the defective portion of the exam is critical to the examination process, Human Resources shall re-administer that portion of the examination under guidelines provided by the business manager.
 7. Only the Council, a business manager, competitor, competitor's attorney, or an agency head may inspect a competitor's examination.
- H. Grievance of business manager's decision. An employee who is aggrieved by a decision of the business manager may grieve the decision to the Council. A grievance of the business manager's decision shall be filed with the Council office no later than 20 days after notice of the decision is given. The Council shall review the grievance as outlined in R13-5-602 (E).
- I. Military leave. Human Resources shall allow an employee returning from military leave to take any examination that the employee could have taken if military service had not intervened. If the employee passes the examination, the business manager shall add the employee's name to the appropriate internal eligibility list based on the employee's score.
- J. Establishing an internal list. Human Resources shall prepare an internal list for a promotional classification with competitor's names arranged in descending order of the competitor's final score.
- K. Establishing a list in case of a tie. If two or more competitors receive the same rating in an examination, the competitor's names shall be placed on the list according to their respective ratings on the portion of the examination with the greatest weight. If a tie still exists, the names shall be placed on the list at the same position, in alphabetical order.
- L. Approval of list. Human Resources shall submit the internal list to the business manager for approval and certification.
- M. Notifying a candidate. When the list is certified by the business manager, Human Resources shall notify a candidate of

Law Enforcement Merit System Council

the exam results and the candidate's relative ranking on the list.

- N. Duration of a list. A list shall remain in force consistent with R13-5-304(E).
- O. Removing a candidate from an internal list. The business manager shall remove a candidate from an internal list if:
 1. The candidate fails to maintain required qualifications for the classification, or
 2. The candidate resigns or is terminated from agency service.
- P. Promotion to the classification of officer. The business manager shall reclassify an employee to the classification of officer upon certification by the Peace Officer Standards and Training Board.
- Q. Promotion for a commissioned classification. An agency may establish a job-interest card system for a promotion in a commissioned classification. If a candidate submits a job-interest card indicating interest in only a specified position, that candidate shall not be considered for any other position except as outlined in this subsection.
 1. An agency head shall offer a promotional position to a candidate ranking highest on the promotional eligibility list who filed a job-interest card for that position.
 2. If there are no job-interest cards for a specific position, an agency head shall offer a promotional position to the candidate ranking highest on the promotional eligibility list. If the employee highest on the promotional list declines the promotion, the agency head shall offer the position to the employee next highest on the list until all candidates on the promotion list are offered the position.
 3. For a location that has two or fewer positions, an agency head may appoint any promotional candidate residing in that location.
 4. If a candidate declines an offer of promotion, the business manager shall move that candidate's name to the bottom of the promotional eligibility list.
 5. If all candidates on a promotional eligibility list decline a promotion, an agency head shall make a second offer to all candidates on the list.
 6. If all candidates on the list decline the second offer, the business manager shall cancel the list. Human Resources shall then initiate a process to create a new list for the classification.
- R. Promotion for a civilian classification. Civilian promotions are conducted under R13-5-308 and R13-5-309.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2). Amended by final rulemaking at 7 A.A.R. 5373, effective November 6, 2001 (Supp. 01-4). Amended by final rulemaking at 12 A.A.R. 1756, effective July 2, 2006 (Supp. 06-2).

R13-5-306. Reassignment

- A. Reassignment application. An employee may request reassignment to a different classification with the same or a lower pay range by submitting an application to Human Resources documenting the employee's qualifications. An application for reassignment can be obtained from Human Resources.
- B. Qualification screening. Human Resources shall determine whether the employee meets the minimum qualifications of the classification. Unless the employee has previously held permanent status in a classification, Human Resources shall require the employee to pass an examination for the requested classification. Any employee required to test may request an examination review under R13-5-305(D), (F), and (H).

- C. Eligibility list. If the employee qualifies, Human Resources shall place the candidate's name on an appropriate internal eligibility list under R13-5-305 (J) and (K).

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2).

R13-5-307. Reinstatement

- A. Reinstatement list. An employee may apply for reinstatement within one year from the date of separation. Upon approval of the agency head, Human Resources shall place the former employee's name at the bottom of a reinstatement list for the last classification held by the employee and any previous or closely related classifications for which the employee is qualified.
- B. Duration of the list. A reinstatement list shall remain in force for a maximum of 18 months.
- C. Background investigation. All candidates for reinstatement shall pass a background investigation.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2). Amended by final rulemaking at 6 A.A.R. 4495, effective November 7, 2000 (Supp. 00-4). Amended by final rulemaking at 12 A.A.R. 1756, effective July 2, 2006 (Supp. 06-2).

R13-5-308. Hiring Preference

- A. Order of lists. When an agency head authorizes filling a vacant position, Human Resources shall notify the manager who is filling the vacancy of any employees requesting a transfer to the vacant position. After considering a transfer request, or if there are none, the manager may request a list of candidates for the position from available eligibility lists in the following order of preference:
 1. Reappointment list,
 2. Reassignment list,
 3. Recall list,
 4. Internal list,
 5. Reinstatement list, and
 6. Employment list.
- B. Referring candidates. Except for the classification of cadet officer, Human Resources shall contact eligible candidates in the order of preference specified in subsection (A) to be interviewed. Candidates shall advise Human Resources if they wish to be interviewed.
 1. If there is one vacant position, Human Resources shall refer the three interested candidates standing highest on each of the lists. Human Resources may refer fewer than three names if there are fewer than three candidates on the lists.
 2. For multiple vacancies, Human Resources shall refer one more candidate for each additional vacant position from the lists.
 3. If a list is not available, the business manager may refer candidates from lists of the same or higher level as the position being filled.
- C. Referring candidates for cadet officer. Human Resources shall make a job offer conditional on passing a background investigation to as many of the highest ranking candidates on the list as Human Resources deems necessary to fill existing positions.
- D. Canceling a list. If all candidates on the promotional eligibility list advise Human Resources that they are not interested in a position, Human Resources shall make a second offer to all candidates on the list. The second offer shall include a notification to each candidate that if all candidates decline the posi-

tion, the list will be cancelled. If all candidates on the list decline the second offer, the business manager shall cancel the list. Human Resources shall then initiate a process to create a new list for the classification.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2). Amended by final rulemaking at 9 A.A.R. 1619, effective July 5, 2003 (Supp. 03-2).

R13-5-309. Selection

- A. Selecting a candidate. The manager shall follow the interview and selection policy provided by Human Resources.
- B. Interviewing. A manager who is filling a vacancy shall interview all candidates requesting a transfer, and may interview up to three candidates from each certified list.
- C. Additional names. If the manager rejects all initial candidates, the manager shall document job-related reasons for their rejection and submit the interview forms to Human Resources. If Human Resources agrees with the manager's reason for rejection, Human Resources shall refer up to 3 more names from each certified list.
- D. Selection of cadet officer. A candidate who receives a job offer for a position covered under R13-5-312(E) and is not disqualified during the background investigation shall be appointed to the classification by the agency head.
- E. Documenting the selection. Upon making a selection, the hiring manager shall complete the documentation and return all interview and selection materials to Human Resources.
- F. Record retention. Human Resources shall retain interview and selection records under a records retention and disposition schedule approved by the Department of Library, Archives, and Public Records.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2). Amended by final rulemaking at 9 A.A.R. 1619, effective July 5, 2003 (Supp. 03-2). Amended by final rulemaking at 12 A.A.R. 1756, effective July 2, 2006 (Supp. 06-2).

R13-5-310. Pre-employment Processing

- A. Pre-employment screening. Before appointment to a position, a candidate shall successfully pass a background investigation and any other examination considered appropriate by the agency head.
- B. Withdrawal from selection process. If a candidate elects to withdraw from the selection process, Human Resources shall document the candidate's withdrawal.
- C. Failing to successfully complete an examination. If a candidate fails to successfully complete any of the requirements in subsection (A), Human Resources shall document the failure and disqualify the candidate.
- D. Final processing. When a candidate passes all the pre-employment requirements, Human Resources shall prepare and submit the appropriate forms to the agency head for approval.
- E. Declining position offers. Human Resources may remove from a certified list any candidate who declines an appointment offer.
- F. Requesting accommodation. If a selected candidate requests a special accommodation under state or federal law, Human Resources shall confer with appropriate personnel to determine if a reasonable accommodation is possible.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R.

2090, effective May 10, 2000 (Supp. 00-2).

R13-5-311. Appointments

- A. Required oath of office. An appointee shall read the oath described in A.R.S. § 38-231(G) and agree in writing to uphold the office before the agency head, or a designee authorized to administer an oath.
- B. Refusal to take oath. Any person who refuses or fails to take the oath required by this Section within the time provided shall forfeit the right to the position.
- C. Filing of oath. When the oath is signed by an appointee, Human Resources shall file the oath in the employee's personnel file.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2).

R13-5-312. Limited-Term Appointments

- A. Limited-term appointment. After successfully completing initial probation, an appointee to a limited-term position obtains the rights of a permanent employee, except for the opportunity to compete for retention against regular employees in a case of layoff due to a reduction-in-force.
- B. Employing a limited-term candidate. An eligible candidate is employed based upon the candidate's position on the eligibility list and the candidate's willingness to accept a limited-term appointment.
- C. Separation. The agency may separate a limited-term employee at the expiration of the appointment by notifying the employee in writing. If a provisional or an intermittent employee remains employed in the same classification, the agency shall not separate a limited-term employee except for reasons listed in A.R.S. § 41-1830.15.
- D. Effect of transfer or promotion.
 1. A limited-term employee who transfers or promotes from a limited-term position to a non-limited-term position shall obtain the rights of a permanent employee. Time spent in a limited term position is counted as service time in cases of layoff due to a reduction-in-force.
 2. An employee who transfers or promotes from a non-limited-term position to a limited-term position shall retain the rights of a permanent employee. Time spent in a limited-term position is counted as service time in case of layoff due to a reduction-in-force.
- E. Special limited term. A candidate for the classification of officer may be employed in a special limited-term position as a cadet officer or officer trainee for a maximum of three years pending completion of requirements for the classification of officer.
 1. Cadet officer. A candidate who is appointed to attend an agency's training academy shall be employed as a cadet officer. Upon successful completion of the training academy and certification as a peace officer by the Peace Officers Standards and Training Board, the candidate shall be reclassified to the classification of officer.
 2. Officer trainee. A candidate who is not appointed to a training academy shall be employed as an officer trainee if:
 - a. The candidate is between 18 and 21 years of age. If while employed as an officer trainee, the candidate reaches the age of 21 years, and has achieved a performance rating of standard or above for the prior year, the employee shall be promoted to the classification of cadet officer when an opening in the training academy is available.
 - b. The candidate is 21 years of age or older, is on the employment list for the classification of cadet offi-

Law Enforcement Merit System Council

cer, and is waiting for an opening in the agency's training academy. The candidate shall remain on the cadet officer employment list and shall be appointed to the classification of cadet officer when an opening in the training academy is available.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2). Amended by final rulemaking at 7 A.A.R. 5373, effective November 6, 2001 (Supp. 01-4). Amended by final rulemaking at 12 A.A.R. 1756, effective July 2, 2006 (Supp. 06-2).

R13-5-313. Provisional appointments

- A. Provisional appointment. When no employment or internal list is available, an agency head may make a provisional appointment. A provisional appointment continues only until an eligibility list is certified by the business manager.
- B. Length of appointment. Within 12 months of a provisional appointment, Human Resources shall conduct an appropriate examination and establish an eligibility list for a classification with a provisional appointee.
- C. Separation. Upon separation from a provisional appointment, an employee shall have no right of appeal to the Council for review of the agency head's action.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2).

R13-5-314. Intermittent Appointment

- A. Intermittent position. When an agency head needs a person to work on an intermittent or irregular basis, the agency head shall request a list of candidates for intermittent appointment. An applicant who meets the minimum qualifications and indicates willingness to accept the terms of intermittent employment shall be placed on an eligibility list for selection to an intermittent position.
- B. For the purposes of this Section, an intermittent employee means an employee in an intermittent position.
- C. Establishing an intermittent employment list. The business manager shall establish an intermittent employment list, as follows:
 - 1. An employee who leaves an agency may be placed on an intermittent employment list for a classification the employee previously held. The employee shall not be required to take an examination to be placed on an intermittent employment list if the request is received within one year from the time the employee left that classification and the employee's last evaluation in that classification was standard or above.
 - 2. An employee who is reassigned or promoted to another classification may be placed on an intermittent employment list for the classification previously held. The employee shall not be required to take an examination to be placed on an intermittent employment list if the request is received within one year from the time the employee left that classification and the employee's last evaluation in that classification was standard or above.
 - 3. The business manager shall establish an intermittent employment list in the same manner as an employment eligibility list.
- D. Benefits for an intermittent employee. An employee in an intermittent position shall not receive the benefits afforded a full or part-time employee. An intermittent employee shall not acquire annual or sick leave benefits and shall not receive credit for time in the intermittent position for the purposes of pay adjustments in the classification.

- E. Eligibility for promotion. An intermittent employee shall not compete in a promotional process.
- F. Rate of pay. The agency head shall determine the rate of pay for an intermittent employee.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2). Amended by final rulemaking at 7 A.A.R. 5373, effective November 6, 2001 (Supp. 01-4).

R13-5-315. Employee Conduct

- A. Standards of conduct. An employee shall perform the duties and responsibilities of the employee's assigned classification and position. An employee shall comply with applicable laws, rules, and agency policy. An employee shall demonstrate respect, fairness, diligence, impartiality, courtesy, efficiency, and integrity in all contacts with the public and other employees.
- B. Fitness for duty. If a supervisor has reasonable doubt that an employee is psychologically or physically able to perform the essential duties of the position, the supervisor shall request the agency head's permission to have the employee evaluated by a psychologist or physician determined by the agency. Upon approval, Human Resources shall schedule an appointment, and the employee shall submit to an evaluation. The examiner shall provide the agency head with conclusions, recommendations, and other information necessary to decide whether the employee is fit for duty.
- C. Political activity. An agency employee shall not violate the provisions of A.R.S. § 41-772 concerning permissible and improper political activity.
- D. Conflict of interest. An agency employee shall not violate the conflict of interest provisions of A.R.S. §§ 38-501, 38-502, 38-503, and 38-504 while engaged in outside activities or employment.
- E. Nepotism. An employee or candidate for employment shall not be appointed to any position in violation of A.R.S. § 38-481, nor shall an employee misuse or abuse appointment privileges.
- F. Attending Council meetings. With supervisory approval, an employee may attend a meeting of the Council during working hours if the employee is an interested party in a matter scheduled for consideration. The employee may have another representative assist in the presentation before the Council.
- G. Employee organization attendance at Council meetings. The agency head may authorize a recognized employee organization to send at least one representative to each Council meeting during working hours.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2). Amended by final rulemaking at 9 A.A.R. 1619, effective July 5, 2003 (Supp. 03-2).

R13-5-316. Probation

- A. Initial probation. An employee shall serve an initial probationary period of 12 months. Time spent in a special limited term position does not count toward the initial probation in an officer classification.
- B. Promotional probation. An employee shall serve a promotional probationary period of 12 months.
- C. Effects of reclassification on probation. The probationary status of an employee reclassified as a result of a classification and compensation maintenance review under R13-5-201(H) is as follows:

Law Enforcement Merit System Council

1. A permanent status employee shall not be required to serve a new probationary period if the employee continues to perform the same duties previously performed in the reclassified position.
 2. A probationary employee shall continue to serve the probationary period.
- D.** Effect of military service on probation. If a probationer is called into active military service and returns to the agency and satisfactorily completes probation, the employee's personnel record shall show that the employee achieved permanent status on the date the employee would have completed probation if military service had not intervened.
- E.** Extension of probation. An agency head may extend an employee's probationary period by adding a period equal to the time the employee was absent from work or when the employee's performance was below standard. If the probationary period is extended, the manager shall notify the employee of the extension before the end of the probationary period.
- F.** Satisfying probation. A probationer who achieves a standard or higher performance evaluation by the end of the probationary period shall obtain permanent status in the appointed classification.
- G.** Permanent status by default. An employee shall achieve permanent status by default if the employee's manager either fails to extend or reject the probationary period prior to the last day of the employee's probation.
- H.** Rejection of a probationer. An agency head may, at any time during the probationary period, reject a probationer without cause and without the right to Council review.
- I.** Effect of rejection of initial probationer. If an employee is rejected during initial probation the employee shall be separated from the agency.
- J.** Effect of rejection of promotional probationer. If a regular employee is rejected during promotional probation or probation for a different but equal classification, the agency head shall reappoint the employee to a vacant position in the employee's former classification or an equal position for which the employee is qualified. If there is no vacancy in an appropriate classification, the agency head may temporarily assign the employee until a vacancy is available.
- K.** Notice of rejection of probation. An agency shall notify a rejected probationer as follows:
1. The employee's manager shall prepare a notice, stating the effective date of the rejection. The manager shall ensure that this date is no later than the last day of the probationary period.
 2. The employee's manager shall obtain the agency head's signature on the notice of rejection.
 3. The employee's manager shall serve the probationer with the notice, either in person or by mail, on or before the effective date of rejection.
 4. The employee's manager shall submit a copy of the rejection notice to the business manager within 20 days after the notice is served.
- L.** Review of rejection of promotional probation. Within 20 days after the employee's manager delivers or mails the notice, a rejected promotional probationer may file a written request with the Council for review of the rejection. The Council may review the procedures utilized by the agency to assure conformity with Council rules and statutes.
- M.** Withdrawal of rejection. At any time before the Council acts on a probationer's rejection, the agency head may withdraw the notice of rejection and restore the employee to the previous position or another position for which the employee is qualified.
- N.** Probation for a returning employee. If a separated employee is reinstated to a classification previously held with permanent status, the agency head may require the employee to serve a probationary period. If a separated employee is recalled or reinstated into a classification different from any classification previously held with permanent status, the employee shall serve a probationary period. If an employee is separated from an agency while serving an initial probation, the employee shall be required to serve an initial probation upon being recalled or reinstated.
- O.** Probation not required. If an employee is recalled or reappointed within two years after undergoing a reduction-in-force, the employee shall not be required to serve a probationary period if reappointed to the same classification previously held with permanent status. An employee shall not be required to serve another probationary period if the employee is:
1. Reinstated by the Council, or
 2. Reassigned or demoted by the agency head into a classification previously held by the employee.
- P.** Probation for a special limited term employee. An employee in a special limited term position pending completion of requirements for the classification of officer shall serve an initial probation throughout the duration of the special limited term appointment. An employee promoted to officer from a special limited term position shall serve a one-year initial probation in the officer classification.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2). Amended by final rulemaking at 6 A.A.R. 4495, effective November 7, 2000 (Supp. 00-4). Amended by final rulemaking at 7 A.A.R. 5373, effective November 6, 2001 (Supp. 01-4). Amended by final rulemaking at 9 A.A.R. 1619, effective July 5, 2003 (Supp. 03-2).

R13-5-317. Performance Evaluations

- A.** Establishing a performance evaluation program. The Council shall adopt and an agency shall administer a performance evaluation program. The program shall include a rating system that informs the agency head and the employee of the employee's relative level of performance. The evaluation program shall include training on how to achieve and maintain standard performance and how to improve performance.
- B.** Performance evaluation manual. The Council shall provide a manual that provides clear and concise guidelines for objectively measuring and reporting employee performance. Only the Council may authorize a revision of the manual. Each employee shall receive a copy of the manual, which includes evaluation procedures and forms.
- C.** Frequency of evaluation. A supervisor shall evaluate and give each permanent-status employee a written performance evaluation at least one time in each 12 month period. A supervisor shall evaluate a probationary employee at least one time in each six-month period.
- D.** Effect of failure to evaluate. If an employee's supervisor fails to evaluate the employee, or fails to evaluate the employee by the end of the rating period, the employee shall be given no less than a standard evaluation for that period.
- E.** Grieving an evaluation. An employee who receives a less than standard rating may file a grievance with the agency head. If the grievance is denied by the agency head, the employee may grieve to the Council any overall rating that:
1. Is less than standard,
 2. Would cause a reduction in pay, or
 3. Would result in withholding or postponing a salary adjustment.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2).

ARTICLE 4. ASSIGNMENTS

Editor's Note: Former Article 4, consisting of Section R13-5-200, repealed by final rulemaking at 6 A.A.R. 1982, effective May 10, 2000; new Article 4, consisting of Sections R13-5-401 through R13-5-403, adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2).

R13-5-401. Special Duty Assignment

- A. General. An agency head may assign an employee to a special duty assignment in the employee's current classification or a higher classification. A special duty assignment is temporary and is not a promotion.
- B. Pay and eligibility. An agency head may add special-duty pay to the employee's base pay. If the special duty assignment is for a different or higher classification, the agency head may authorize a pay rate within that classification. A special duty assignment is subject to the following conditions:
 - 1. The assigned employee meets the minimum requirements of the special duty classification; and
 - 2. The assigned employee performs the duties of the assigned classification.
- C. Review by Council. Special duty assignments shall be biennially reviewed by the Council no later than September in even numbered years.
- D. Return to regular duty. Upon completion of a special duty assignment, the agency head shall discontinue special duty pay and reassign the employee to the previously held position or to a similar position in the same classification at the employee's normal pay level.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2).

R13-5-402. Uncovered Appointments

- A. Authorization. An agency head may authorize an employee to temporarily accept an uncovered appointment within:
 - 1. The agency,
 - 2. Another state agency,
 - 3. The Governor's office,
 - 4. The Legislature, or
 - 5. Another government agency.
- B. Employee rights. An employee in an uncovered appointment shall retain all employee rights except for the right to appeal removal from the uncovered appointment.
- C. Returning to regular duty. Upon completion of an uncovered appointment, the agency head shall reassign the employee to the previously held position or to a similar position in the same classification.
- D. Leave policy for an uncovered employee accepting a covered position: An uncovered employee of a state agency or any state budget unit may transfer accrued annual and sick leave when accepting a covered position with an agency under the jurisdiction of the Council.
 - 1. Annual leave.
 - a. Up to 360 hours of annual leave may be transferred at the gaining agency's discretion.
 - b. Annual leave in excess of 360 hours shall be paid off by the losing agency.
 - c. An employee shall be paid for any annual leave that is not accepted by the gaining agency.
 - 2. Sick leave. All accrued sick leave hours shall be accepted by and transferred to the agency.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2). Amended by final rulemaking at 23 A.A.R. 2564, effective November 5, 2017 (Supp. 17-3).

R13-5-403. Transfer of an External Function

- A. Transferring a function. If a state program is transferred into an agency, the losing agency shall pay a transferring employee for all accrued compensatory leave as of the date of the transfer. Effective on the date of transfer, the losing agency shall also transfer sufficient funds to the receiving agency to pay for accrued annual leave, recognition leave, and sick leave of a transferring employee.
- B. Council action. The business manager shall determine the classification of a transferring employee and recommend that the Council adopt other classifications that need to be added or revised.
- C. Transferee status. A transferee shall retain accrued annual leave, recognition leave, sick leave, and length of state service. A transferee shall also retain the transferee's current rate of pay until the Council reviews and approves a new or existing compensation schedule.
- D. Appointing a transferee. An agency head shall determine the organizational placement of a transferred program and appoint each transferee to an appropriate position.
- E. Probation. A transferee on probation at the time of the transfer shall complete the transferee's probationary period under R13-5-316 before obtaining permanent status.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2).

ARTICLE 5. EMPLOYEE LEAVE

Editor's Note: Former Article 5, consisting of Sections R13-5-25 through R13-5-28, repealed by final rulemaking at 6 A.A.R. 1982, effective May 10, 2000; new Article 5, consisting of Sections R13-5-501 through R13-5-513, adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2).

R13-5-501. Employee Leave Guidelines

- A. Accrual of leave. An employee may accrue the following types of paid leave:
 - 1. Annual leave,
 - 2. Holiday leave, and
 - 3. Sick leave.
- B. Accruing leave. An employee shall accrue leave for a pay period if the employee is in pay status for at least one-half of the employee's normal scheduled work week.
- C. Part-time employees. A part-time employee scheduled to work 20 or more hours in a week shall accrue leave based on the percentage of full-time hours specified in the appointment. An employee scheduled to work less than 20 hours in a week shall not accrue leave.
- D. Leave request. An employee shall not use leave before it is accrued. An employee shall obtain supervisory approval before taking leave. An agency may establish a policy allowing delayed notice to the employee's supervisor in emergency situations.
- E. Time accounting record. An agency shall maintain a record of time worked, leave earned, leave taken, and accrued leave balances for an employee. A non-exempt employee shall report all time worked and all leave taken on a weekly basis. An exempt employee shall report leave taken as directed by agency policy.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2). Amended by final rulemaking at 12 A.A.R. 1756, effective July 2, 2006 (Supp. 06-2).

R13-5-502. Administrative Leave

An agency head may authorize administrative leave with pay:

1. During a disaster, state of emergency, or a day of mourning declared by the Governor;
2. When an employee is instructed to not report for duty, or to return home because of a hazardous condition; or
3. To temporarily relieve an employee from duty for the good of the agency or the employee.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2).

R13-5-503. Annual Leave

- A. Computing length of service. For determining an annual leave accrual rate, an employee's length of service shall begin on the first day of the first qualifying pay period of employment. Only a qualifying pay period is counted before and after a break-in-service. Previous periods of service as a state employee are counted toward annual leave accrual. Periods of military leave and active military service are included in computing annual leave if the employee meets the requirements of A.R.S. § 38-610.
- B. Accruing annual leave. A full-time employee shall accrue annual leave under the following schedule:

Beginning	Completion	Biweekly accrual rate
1st year	5th year	4.62 hours
6th year	10th year	5.54 hours
11th year	20th year	6.47 hours
21st year		7.39 hours

- C. Progression of annual leave. An employee shall progress to the next higher accrual rate on the first day of the pay period following completion of the required length of service.
- D. Using annual leave. An employee may use accrued annual leave under state and federal law and agency policy. The employee shall schedule the use of accrued annual leave through the employee's supervisor.
- E. Maximum accumulation and disposition. An employee may accumulate annual leave without limit during a year. At the end of each year, an employee's annual leave balance shall not exceed 360 hours. It shall be the responsibility of each employee to schedule annual leave to avoid having a balance over 360 hours at the end of the year. If an employee's annual leave balance on January 1 exceeds 360 hours, the agency head may withdraw the excess and deposit the hours as sick leave in the employee's sick leave balance. The agency head may authorize a later date for conversion of excess annual leave if an employee's duty assignment, receipt of recognition leave, injury, or illness prevents timely use of annual leave.
- F. Compensation for unused leave. Upon separation from agency employment, an employee is paid for any unused annual leave remaining in the employee's account at the average rate received by the employee in the last three years of the employee's employment or the employee's current rate of pay, whichever is higher.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2). Amended by

final rulemaking at 6 A.A.R. 4495, effective November 7, 2000 (Supp. 00-4). Amended by emergency rulemaking at 10 A.A.R. 1163, effective March 4, 2004 (Supp. 04-1).

Emergency expired after 180 days; the Section on file prior to the emergency has been restored (Supp. 05-4). Amended by final rulemaking at 12 A.A.R. 1756, effective July 2, 2006 (Supp. 06-2).

R13-5-504. Civic Duty

- A. Voting. Under conditions outlined in A.R.S. § 16-402, an employee may be absent with pay for the time required to vote.
- B. Jury duty. An employee shall report for jury duty as directed by a summons unless officially excused by the Jury Commissioner for reasons under A.R.S. § 21-202. When summoned, the employee shall notify or provide the immediate supervisor with a copy of the summons.
 1. While on jury duty, an employee is considered absent with pay.
 2. Upon receipt of a summons for jury duty, a commissioned employee shall notify the Jury Commissioner of the employee's peace officer status.
- C. Witness. An employee subpoenaed as a witness is considered absent with pay, unless the subpoena is unrelated to agency business.
- D. Fees. An employee paid for civic duty under this Section shall forward all jury duty or witness fees to the agency.
- E. Vehicle mileage reimbursement. An employee may retain any mileage reimbursement paid by the court for the use of a privately owned vehicle. An employee shall remit to the agency any mileage reimbursement for use of a state-owned vehicle.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2). Amended by final rulemaking at 9 A.A.R. 1619, effective July 5, 2003 (Supp. 03-2).

R13-5-505. Compensatory Leave

- A. Compensatory leave. An agency shall establish policies and guidelines for accruing compensatory leave under the overtime provisions of the Fair Labor Standards Act.
- B. Using compensatory leave. An employee may use accrued compensatory leave under state and federal law and agency policy. The employee shall schedule the use of accrued compensatory leave through the employee's supervisor.
- C. Payment upon separation. Upon separation from an agency, an employee shall be paid for any accrued compensatory leave remaining in the employee's account at the average rate received by the employee in the last three years of the employee's employment or the employee's current rate of pay, whichever is higher.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2).

R13-5-506. Donated Annual Leave

- A. Definitions for purposes of this Section:
 1. "Recipient" means an employee in the same agency as a donating employee or a family member of the donating employee who is employed in another agency, department, board, or commission.
 2. "Family member" means a spouse, natural child, adopted child, foster child, stepchild, natural parent, stepparent, adoptive parent, grandparent, grandchild, brother, sister, sister-in-law, brother-in-law, son-in-law, daughter-in-law, mother-in-law, or father-in-law.

Law Enforcement Merit System Council

3. "Immediate family" means a spouse, child, brother, sister, natural parent, stepparent, adoptive parent, or an individual for whom a recipient has legal guardianship.
 4. "Extended illness or injury" means a period of at least three consecutive weeks to a maximum of six consecutive months.
 5. "Seriously incapacitating" means an illness or injury that renders an employee unable to perform the employee's duties, or that confines an immediate family member to home or hospital.
- B. Donating leave.** An employee may donate accrued annual leave to a recipient who qualifies for donated leave under the personnel rules of the agency where the recipient is employed and who has exhausted all available leave balances. An employee may donate accrued annual leave by submitting a written notice to the Human Resources section of the donating agency with the information required under the agency's policies.
- C. Qualifying for donated leave.** An employee may request and use donated annual leave if the employee has a seriously incapacitating or extended illness or injury or a member of the employee's immediate family has a seriously incapacitating and extended illness or injury and the employee has exhausted all available leave balances.
1. An employee requesting donated leave shall submit a written request for donated leave under the agency's policy. An agency shall approve only those requests that qualify for donated leave under this Section.
 2. Except as provided in subsection (C)(3), an employee receiving donated leave shall not use more than six consecutive months of donated leave per illness or injury.
 3. If an employee who has a seriously incapacitating or extended illness or injury applies for long-term disability (LTD) insurance by the end of the fifth month of leave, the employee may continue to use donated leave until an LTD determination is made.
- D. Calculating donated leave.** An agency shall convert the number of hours of annual leave donated in proportion to the hourly rate of pay of the donating employee and the recipient. Donated hours are converted by multiplying the number of hours donated by the donating employee's hourly rate of pay and dividing the result by the recipient employee's hourly rate of pay. An agency shall add hours converted to the recipient's sick leave balance as needed.
- E. Distributing unused leave.** If a recipient separates from state service before the recipient uses all donated leave, no longer qualifies for donated leave, or otherwise no longer needs donated leave, the agency shall return unused leave to the contributor of the donated leave on a pro-rata basis, unless a contributor gives written notice to Human Resources to deposit the unused leave into an agency "donated-leave bank" for use of other employees in the future.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2). Amended by final rulemaking at 7 A.A.R. 5373, effective November 6, 2001 (Supp. 01-4). Amended by final rulemaking at 9 A.A.R. 1619, effective July 5, 2003 (Supp. 03-2).

R13-5-507. Holiday Leave

- A. Paid holidays.** An agency shall observe the holidays authorized under A.R.S. § 1-301.
- B. Eligibility.** To be eligible for holiday leave, a full-time employee shall be in pay status for 10 or more hours in the work week in which the holiday occurs. A part-time employee shall be in pay status for five or more hours in the work week.

The holiday hours that would be accrued cannot be used to satisfy any part of this requirement.

1. If a holiday occurs on an employee's regular work day, the employee may be absent with pay for the number of hours the employee is regularly scheduled to work, up to a maximum of eight hours, unless the employee is required to work to maintain essential state services.
 2. An employee required to work on a holiday shall receive pay for the time worked, and leave hours for the number of hours regularly scheduled to work on that day, up to a maximum of eight hours.
 3. If a holiday occurs on a day when an employee is scheduled to work, but the employee is unable to work because of an illness or injury, the employee may take sick leave and accrue holiday leave credits as provided under subsection (C) for the number of hours regularly scheduled to work on that day, up to a maximum of eight hours.
 4. An employee not scheduled to work on a holiday shall receive leave credits up to a maximum of eight hours.
- C. Accruing holiday leave.** An agency may credit holiday leave to the employee's annual leave balance or establish a separate balance for holiday leave. The agency shall add accrued holiday leave to an employee's annual or holiday leave balance.
- D. Using holiday leave.** An employee may use accrued holiday leave under state and federal law and agency policy. The employee shall schedule the use of accrued holiday leave through the employee's supervisor.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2). Amended by final rulemaking at 12 A.A.R. 1756, effective July 2, 2006 (Supp. 06-2).

R13-5-508. Industrial Leave

An agency shall establish policies and procedures to comply with statutes regulating industrial leave under A.R.S. § 23-901, et seq. and A.R.S. § 23-1043.02.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2).

R13-5-509. Leave Amortization

An agency may provide a leave amortization plan for an employee planning to retire.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2).

R13-5-510. Leave Without Pay

- A. Short-term leave without pay.**
 1. An agency head shall place an employee on leave without pay when the employee is unable to report to work due to illness or non-industrial injury and the employee has no accrued or donated leave balance to cover the absence. The supervisor may require the employee to submit supporting documentation for sick leave without pay. If the absence exceeds five working days, the employee must request leave without pay as outlined in subsection (A)(2) of this Section.
 2. An employee may request a leave of absence without pay of 30 working days or less by notifying the employee's manager as soon as possible and submitting a signed memorandum. The employee shall include the reason for the request and the employee's intended departure and return-to-duty dates. The agency head may approve or deny the request and may set a date for the employee's

return. If the leave is approved, the employee's manager shall notify the employee in writing, including any stipulation of approval. If the employee returns on schedule, the employee shall retain the position held before the leave of absence.

- B. Extended leave without pay.** An employee may request an extended leave-of-absence without pay of over 30 working days by notifying the employee's manager as soon as possible and submitting a written request under the agency's policies and procedures.
1. **Approval.** An agency head may approve an extended leave without pay. If extended leave without pay is approved, an employee shall sign a leave of absence agreement with the agency. The leave-of-absence agreement shall outline the conditions of the leave and the employee's return to work.
 2. **Cancellation.** An agency head may cancel a leave-of-absence without pay for any of the following reasons:
 - a. The employee violates any condition of the leave-of-absence agreement, including failure to return to work on schedule;
 - b. The agency head directs the employee to return to duty because of a need for the employee's services; or
 - c. The employee requests to return early from the leave-of-absence.
 3. **Return to work.** An employee shall return to duty on schedule from any approved leave of absence unless an extension is approved by the agency. When an employee returns from an extended leave without pay, the agency head shall return the employee to the same position, to another position in the same classification, or to a position in a similar classification for which the employee is qualified, provided:
 - a. The employee complied with all terms of the leave-of-absence agreement, and
 - b. The employee passes background screening by the agency head.
- C. Disposition of accrued leave.** An employee may retain annual and sick leave balances while on an extended leave-of-absence. An employee shall be paid for any unused compensatory or holiday leave balances at the beginning of an extended leave-of-absence. If an employee is granted leave without pay to accept an uncovered appointment with the Governor, the Legislature, or another state agency, the agency head shall transfer the employee's accumulated sick leave to the receiving agency. The employee's annual leave may also be transferred if the employee and both agencies agree.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2).

R13-5-511. Military Leave of Absence

- A. Privileges of military service.** An employee shall receive all rights provided by state and federal law for a military leave-of-absence under A.R.S. § 26-168 and A.R.S. § 38-610.
- B. Notifying the agency.** An employee expecting an assignment to military duty shall notify the immediate supervisor as soon as possible. Upon receiving orders to report, the employee shall submit a copy of the orders and a written request for military leave to the employee's supervisor. The supervisor shall process the request under the agency's policy and procedure for a military leave-of-absence.
- C. Extended military leave.** If an employee's orders for active duty exceed the time limit for paid military leave, the

employee may request to use accrued leave or leave without pay for the remainder of the military leave.

- D. Returning to position.** Upon return from military leave-of-absence, an agency head shall restore an employee to the position held before the military leave-of-absence, or to a similar position within the employee's classification.
- E. Promotion.** Upon return from a military leave-of-absence, an employee may be promoted by the agency head if the employee's name was on a promotional list at the time of activation into military service.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2).

R13-5-512. Recognition Leave

- A. Employee recognition.** An agency head may grant paid time off as part of recognition given to worthy employees under a formal awards program, or as an incentive for continued superior performance. The agency shall publish recognition leave guidelines for annual nominations, selections, and awards.
- B. Adding to leave balance.** An employee awarded recognition leave shall receive annual leave hours added to the employee's leave balance.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2).

R13-5-513. Sick Leave

- A. Definitions.** The following definitions shall apply in this Section:
1. "Family sick leave" means:
 - a. Providing personal care or attending to an employee's family member who has a serious illness, injury, or temporary disability;
 - b. A medical appointment for a family member or transporting of a family member to a medical appointment by a licensed health care provider; or
 - c. Attendance at the death or funeral of an employee's family member.
 2. "Family member" means a spouse, natural child, adopted child, foster child, stepchild, natural parent, stepparent, adoptive parent, grandparent, grandchild, brother, sister, sister-in-law, brother-in-law, son-in-law, daughter-in-law, mother-in-law, or father-in-law.
- B. Accruing sick leave.**
1. A full-time employee shall receive 4.62 hours of sick leave biweekly.
 2. The following employees are not eligible for sick leave:
 - a. A part-time employee working less than 20 hours in a week,
 - b. An intern, and
 - c. An intermittent employee.
 3. An employee shall receive sick leave credit if the employee is in pay status for at least one-half of the employee's normally scheduled work week.
 4. Sick leave may be accrued without limit.
- C. Using sick leave.** A supervisor shall authorize sick leave if an employee is absent because of:
1. An illness that makes the employee unable to perform official duties,
 2. An appointment with a licensed health care provider, or
 3. Family sick leave.
- D. Family sick leave limits.** Family sick leave shall not exceed 40 hours in a year. An employee may use annual leave to supplement or instead of family sick leave. If an employee has used the authorized 40 hours of family sick leave and exhausted all

compensatory and annual leave, the agency head may authorize the employee to use the employee's sick leave.

- E. Supervisory review of sick leave. A supervisor may require supporting documentation for any sick leave. If the employee fails to provide necessary documentation of the use of sick leave or violates any provision of this Section, the employee's supervisor may disapprove the sick leave and charge the absence to the employee's annual leave or leave without pay. When an employee has been on sick leave for five or more consecutive days, the supervisor may require the employee to submit evidence that the employee consulted a doctor.
- F. Returning from sick leave. An employee shall return to duty or to limited duty as soon as the employee is able to do so with permission of the employee's physician and without posing a risk to the employee or others.
- G. Medical review. If a supervisor is concerned about a returning employee's fitness for duty, the supervisor may request a medical evaluation under R13-5-315(B), or request that the employee be temporarily assigned to limited duty.
- H. Forfeiture of sick leave. An employee shall forfeit accumulated sick leave upon separation from state service, unless eligible for payment under the provisions of A.R.S. § 38-615.
- I. Restoring sick leave. If a former employee is recalled, reinstated, or rehired within two years, an agency shall restore the employee's previous sick leave balance. Sick leave for which the employee received compensation under A.R.S. § 38-615 is excluded from restoration.
- J. Sick leave credit for Arizona state service. Upon appointment to an agency, an Arizona state employee with previously accrued sick leave may have the sick leave credit added to the employee's leave balance, provided:
 1. The employee does not receive compensation for accrued sick leave upon separating from a state agency;
 2. The employee is hired within two years of separating from a state agency; and
 3. The employee was hired after December 31, 1996.
- K. Agency leave policy. An agency shall establish a sick leave policy that complies with all of the provisions of the Family and Medical Leave Act.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2). Amended by final rulemaking at 6 A.A.R. 4495, effective November 7, 2000 (Supp. 00-4). Amended by emergency rulemaking at 10 A.A.R. 1163, effective March 4, 2004 (Supp. 04-1). Emergency expired after 180 days; the Section on file prior to the emergency has been restored (Supp. 05-4). Amended by final rulemaking at 12 A.A.R. 1756, effective July 2, 2006 (Supp. 06-2).

ARTICLE 6. GRIEVANCES

Editor's Note: Former Article 6, consisting of Sections R13-5-30 through R13-5-36, repealed by final rulemaking at 6 A.A.R. 1982, effective May 10, 2000; new Article 6, consisting of Sections R13-5-601 and R13-5-602, adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2).

R13-5-601. Agency Grievance System

- A. General. The agency shall provide a system for considering and responding to an employee grievance regarding classification, compensation, performance evaluation, and application of Council rules.
- B. Denial. When an agency head denies an employee grievance regarding classification, compensation, performance evaluation, or application of Council rules, the agency head shall notify the Council.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2).

R13-5-602. Council Review

- A. General. The Council shall only review a grievance related to classification, compensation, employee appraisal system, and application of Council rules after the employee exhausts the remedies in the agency's grievance process. If the grievance remains unresolved, the employee may file a request for Council review within 20 days after the employee receives the agency's notice of denial of the grievance.
- B. Procedure. An employee shall submit a written request for Council review of a grievance.
 1. The employee's request shall include:
 - a. The specific relief sought by the employee;
 - b. The asserted factual basis for relief, and
 - c. An account of the agency's response during the internal grievance process.
 2. Upon receipt of the request, the Council shall send a copy of the request to the agency head.
- C. Response. The agency may file a written response with the Council at any time before the Council reviews the grievance. The agency head shall send a copy of the response to the employee at least 10 days before the Council reviews the grievance. At the employee's request, the 10 days may be waived.
- D. Informal dispositions. The Council may informally dispose of a grievance without further review of the merits, under any of the following methods:
 1. By withdrawal, if the employee withdraws the grievance in writing or on the record at any time before a decision is issued;
 2. By default to the appearing party, if the employee or the agency, fails to appear at the meeting; or
 3. By stipulation, if the parties agree on the record or in writing at any time before the Council issues a decision on the grievance.
- E. Council review. The Council shall review an employee's grievance in an open meeting. The Council shall allow the employee to make a statement in support of the grievance, and shall allow the agency an opportunity to respond. The Council may limit the length of the parties' statements. In its discretion, the Council may allow the employee or the agency to present testimonial or documentary evidence on the issue. If the Council allows a party to offer evidence, the Council shall allow the other party an opportunity to respond with argument or evidence. The Council may limit the time parties are allowed to present evidence.
- F. Scheduling of Council review. An employee's grievance shall be scheduled for the next available business meeting of the Council but no sooner than 20 days after the grievance was received by the business manager. At the employee's request, the 20 days may be waived.
- G. Representation by counsel. Both the agency and the employee may have counsel present during the Council's review of the grievance.
- H. Decision. The Council shall state its decision in an open meeting. The Council shall sustain the agency's action on the grievance unless it finds the agency's denial is not supported by substantial evidence or is inconsistent with Council rules.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2).

ARTICLE 7. DISCIPLINE AND APPEALS

Editor's Note: Former Article 7, consisting of Sections R13-5-40 through R13-5-43, repealed by final rulemaking at 6 A.A.R. 1982, effective May 10, 2000; new Article 7, consisting of Sections R13-5-701 through R13-5-705, adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2).

R13-5-701. Causes for Discipline

- A. The causes for discipline for employees are found in A.R.S. § 41-1830.15.
- B. The causes for discipline for covered employees are found in A.R.S. § 41-773.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2). Amended by final rulemaking at 23 A.A.R. 2564, effective November 5, 2017 (Supp. 17-3).

R13-5-702. Disciplinary Procedures

- A. Receiving a complaint. A person may file a complaint with an agency asserting that an employee engaged in activity constituting cause for discipline and requesting that the agency head take appropriate disciplinary action against the employee or covered employee.
- B. Initiating disciplinary action. An agency head may take appropriate disciplinary action against an employee for any cause listed in A.R.S. § 41-1830.15 or against a covered employee for any cause listed in A.R.S. § 41-773.
- C. Interview of an employee. In conducting an interview of an employee being investigated for possible disciplinary action, an agency shall comply with A.R.S. § 38-1104.
- D. Time limit for filing a disciplinary action. An agency shall not file a disciplinary action later than 180 days after the date the agency discovers or should have discovered that the employee engaged in alleged activity constituting cause for discipline. The disciplinary action is deemed to be filed when the notice is filed with the Council.
- E. Exceptions to the 180-day rule.
 - 1. The time limit in subsection (D) does not run:
 - a. During the time that any criminal investigation or prosecution is pending in connection with the act, omission or other allegation of misconduct; or
 - b. During the period of time in which an employee or covered employee who is involved in the investigation is incapacitated or otherwise unavailable; or
 - c. During the period prescribed in a written waiver of the limitation by the employee or covered employee; or
 - d. During emergencies or natural disasters during the time period in which the governor has declared a state of emergency within the jurisdictional boundaries of the concerned employer; or
 - e. During a multijurisdictional investigation, the time limit may be extended for a period of time reasonably necessary to facilitate the coordination of the employers involved.
 - 2. At the request of an agency, the Council may, upon a showing of good cause, extend the time for an agency to file a disciplinary action up to a maximum of 90 days beyond the original 180-day period.
 - 3. If a manager or supervisor is aware of an employee's alleged actions that constitute a criminal offense but fails to act, the time limit does not run during the period of the manager or supervisor's inaction if the supervisor or manager is disciplined for failure to act and:
 - a. The offense is a misdemeanor involving theft or moral turpitude and is discovered within 180 days after the 180-day period for taking disciplinary action, or
 - b. The offense is a felony.

- 4. The agency shall maintain documentation to support any exception to the 180-day time limit, including the dates during which the time limit does not run.
- F. Notice of disciplinary action. An agency head shall serve a written notice on the employee or covered employee within 10 days after the agency files the notice of disciplinary action with the Council. Service shall be completed in accordance with R13-5-104(D). The agency head's notice shall include:
 - 1. A statement of the nature of the disciplinary action;
 - 2. Any prior disciplinary action on which the current discipline is based;
 - 3. The effective date of the action;
 - 4. A specific statement of the causes; and
 - 5. A statement of the employee's or covered employee's right to appeal and the time limit in which the employee or covered employee must file an appeal with the Council under R13-5-703(A), (B), and (C).
- G. Amended notice of disciplinary action before appeal is filed. At any time before an employee or covered employee files an appeal, the agency head may file with the Council and serve the employee or covered employee or former employee or former covered employee with an amended or supplemental notice of disciplinary action.
- H. Effect of dismissal. An employee's or covered employee's dismissal from the agency shall entail:
 - 1. Dismissal from all positions held by the employee or covered employee,
 - 2. Removal of the employee's or covered employee's name from all employment or promotional lists, and
 - 3. Termination of the employee's or covered employee's pay on the date of dismissal.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2). Amended by final rulemaking at 12 A.A.R. 1756, effective July 2, 2006 (Supp. 06-2). Amended by final rulemaking at 23 A.A.R. 2564, effective November 5, 2017 (Supp. 17-3).

R13-5-703. Appeal to the Council by Employees

- A. Appealable actions by employees. An employee may appeal any disciplinary action that results in the employee's dismissal, demotion, suspension without pay, forfeiture of accrued leave time, or reduction of pay.
- B. Form of appeal. To initiate an appeal, an employee shall submit a signed written appeal to the business manager and the agency head. The appeal must state specific facts relating directly to the charges on which the appeal is based.
- C. Time for appeal. An employee shall file an appeal within 30 days after being served with the notice of disciplinary action.
- D. Agency responsibility. An agency shall have the burden of going forward with the case once an appeal has been filed. An agency must prove by a preponderance of the evidence that it had just cause to discipline the employee.
- E. Effect of appeal. The Council shall determine whether the employing agency has proven by a preponderance of the evidence that the employing agency had just cause to discipline the employee. The Council shall reverse the decision of the agency head if the Council finds that just cause did not exist for any discipline to be imposed and, in the case of dismissal or demotion, return the employee to the same position the employee held before the dismissal or demotion with or with-

Law Enforcement Merit System Council

out back pay. On a finding that the agency has not proven just cause to discipline the employee by a preponderance of the evidence, the Council may recommend a proposed disciplinary action in light of the facts proven.

- F. Agency action after receiving a decision or recommendation. The agency head or the agency head's designee shall accept, modify or reverse the Council's decision or accept, modify or reject the Council's recommendation within 14 days of receipt of the findings or recommendation from the Council. The decision of the agency head is final and binding. The agency head shall send a copy of the agency's final determination to the employee.
- G. Amended notice of disciplinary action after employee files an appeal. If good cause exists, an agency head may file with the Council a motion to amend the notice of disciplinary action. The motion shall be filed no later than 14 days before the hearing.
- H. Notice of hearing. The Council shall notify the parties of the time and place of the hearing.
- I. Failure to appear. If a party, without good cause, fails to appear at the time and place set for a hearing, the Council may find in favor of the appearing party.
- J. Conduct of hearings. The Council shall sit as a whole at a hearing, unless a Council member declares a conflict or is unable to attend. Only a Council member who was present at a hearing may participate in making the decision. Council members may administer oaths, issue subpoenas for the attendance of witnesses and the production of books or papers, and cause the depositions of witnesses residing within or outside the state to be taken in the manner prescribed by law for depositions in civil cases in the Superior Court of this state.
- K. Witness fees. Witnesses at a hearing, other than employees, are entitled to the fees allowed witnesses under A.R.S. § 12-303.
- L. Payment of witness fees. If the Council subpoenas a witness on its own initiative, the Council shall pay the witness' fees and mileage. The requesting party shall pay the fees for subpoenaed witnesses. An employee appearing as a witness on duty shall receive travel expenses from the agency and shall not be entitled to witness fees.
- M. Discovery.
 1. Within three business days after receiving a written request from the employee, the agency shall provide a complete copy of the investigative file, as well as the names and home or work mailing addresses of all persons interviewed during the course of the investigation, to the employee. For the purpose of this subsection, hand-written notes substantially incorporated within a report are not considered part of the investigation file.
 2. Within 20 days after receiving the investigative file, the employee shall provide all material relating to the defense of the employee to the agency head.
 3. After initial discovery, each party shall provide all new material relating to the case to the other party within 10 days after receipt.
 4. No later than five business days before the hearing, or if the hearing is scheduled more than 20 days after the notice of appeal was filed, no later than 10 business days before the hearing, the agency and the employee shall exchange copies of any documents that may be introduced at the hearing and that have not been previously disclosed.
 5. No later than five business days before the hearing, or if the hearing is scheduled more than 20 days after the notice of appeal is filed, no later than 10 business days before the hearing, the agency and the employee shall exchange the names of all witnesses who may be called to testify. A witness may be interviewed at the discretion of the witness. The parties shall not interfere with any decision of a witness regarding whether to be interviewed. An agency shall not discipline, retaliate against, or threaten to retaliate against, any witness for agreeing or not agreeing to be interviewed or for testifying or providing evidence in the hearing.
 6. No later than five business days before the hearing, or if the hearing is scheduled more than 20 days after the notice of appeal was filed, no later than 10 business days before the hearing, the agency and the employee shall provide all documents that will be used at the hearing and a list of intended witnesses to the office of the Council.
 7. If a party fails to provide material as required, the Council may preclude its use at the hearing.
- N. Motions. All motions shall be in writing and filed no later than 20 days prior to the hearing. A response shall be filed in writing within 10 days after service of the motion. The chair may designate one or more members of the Council to hear and rule on a motion, except a motion to dispose of the case requires a vote of a majority of the Council.
- O. Pleadings. The Council may strike a pleading not filed in accordance with this Section.
- P. Depositions:
 1. On the motion of a party, the Council may order the deposition of a witness under the following circumstances:
 - a. The witness does not reside within the State or is out of state,
 - b. The witness is too ill to attend the action before the Council, or
 - c. The deposition is for the purpose of discovery in preparing a case before the Council.
 2. The requesting party shall pay the expense of any deposition. An employee of the agency is not entitled to a witness fee for giving a deposition.
 3. The deposition of a witness who is unavailable to appear at a hearing may be used in evidence by either party or the Council.
- Q. Open hearings. The Council's hearings shall be open to the public. The Council may, upon request of a party, exclude non-testifying witnesses from the hearing. The Council may keep excluded witnesses separated and prevent them from communicating with each other until all are examined.
- R. Minor discipline hearings. When the Council hears appeals of suspension without pay of 24 hours or less or the deduction of 24 hours or less from an employee's annual leave balance, each party shall have no more than three hours to present evidence unless the Council allows more time to assure a fair hearing.
- S. Legal counsel or representative. Before the hearing of any appeal, each party shall designate its legal counsel or representative for the record. The Council shall advise each party without legal counsel that the party may obtain and be represented by counsel at the hearing. At the request of a party, the Council may postpone the hearing for a reasonable length of time to allow a party to obtain legal counsel.
- T. Presentation of evidence. Both parties may present evidence and witnesses either personally or through a representative. The Council shall exclude evidence irrelevant to the causes set forth in the notice of disciplinary action.
- U. Settlement of disputes. If requested by the employee, the parties shall submit the terms of settlement to the Council. If the Council approves the settlement, the settlement becomes final. If no settlement is reached, or if the proposed settlement is revoked or rejected by the Council, or withdrawn by either party, or if the settlement agreement is later vacated or

Law Enforcement Merit System Council

reversed by a court, neither the settlement discussion nor any resulting agreement shall be admissible against the employee in any hearing before the Council on the matter.

- V. Decision. In arriving at a decision, the Council may consider any disciplinary action taken within the previous 10 years against the employee, if the information is introduced at the hearing. The Council's decision shall contain findings of fact and its order for disposition of the case.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2). Amended by final rulemaking at 9 A.A.R. 1619, effective July 5, 2003 (Supp. 03-2). Amended by final rulemaking at 12 A.A.R. 1756, effective July 2, 2006 (Supp. 06-2). Amended by final rulemaking at 23 A.A.R. 2564, effective November 5, 2017 (Supp. 17-3).

R13-5-704. Rehearing of Council Decision Regarding Employees

- A. Motion for rehearing.
1. Except as provided in subsection (C), any party in a contested case or appealable agency action may file a written motion for rehearing within 30 days after service of the decision. The requesting party shall specify the grounds for a rehearing, as provided in subsection (B). A respondent may file a response to the motion within 15 days after service.
 2. A party filing a post-hearing motion shall include references to the record where appropriate.
 3. The Council may require the parties to file written memoranda upon the issues raised in the motion and may permit oral argument.
 4. The Council may grant a rehearing on all or part of the issues. If a rehearing is granted, the Council shall specify the grounds for the rehearing, and the rehearing shall cover only those matters.
- B. Basis for a rehearing. The Council may grant a rehearing for any of the following causes:
1. The Council acted in an arbitrary or capricious manner or abused its discretion;
 2. Misconduct of the Council or the prevailing party;
 3. Newly discovered material evidence which, with reasonable diligence, could not have been discovered and produced at the original hearing;
 4. Error in the admission or rejection of evidence or other errors of law occurring at the hearing or during the progress of the action;
 5. The decision was not supported by the evidence; or
 6. The decision is contrary to law.
- C. Decisions not subject to rehearing. The Council may issue a decision as final upon making a specific finding that a decision's immediate effectiveness is necessary for the preservation of the public peace, health, or safety, or that a rehearing of the decision is impractical, unnecessary, or contrary to the public interest.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2). Amended by final rulemaking at 9 A.A.R. 1619, effective July 5, 2003 (Supp. 03-2). Amended by final rulemaking at 23 A.A.R. 2564, effective November 5, 2017 (Supp. 17-3).

R13-5-705. Time Limits

Computation of time limits. In computing any period of time prescribed or allowed by this Chapter the day of the act or event from which the designated period or time begins to run shall not be

included. The last day of the period so computed shall be included, unless it is a Saturday, a Sunday, or a legal holiday, in which event the period runs until the end of the next day which is not a Saturday, a Sunday, or a legal holiday.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2).

R13-5-706. Appeal to the Council by Covered Employees

- A. Appealable actions by covered employees. A covered employee may appeal dismissal from covered service, suspension for more than 40 working hours, or involuntary demotion resulting from disciplinary action.
- B. Form of appeal. To initiate an appeal, a covered employee shall submit a signed written appeal to the business manager and the agency head. The appeal must state specific facts relating directly to the charges on which the appeal is based.
- C. Time for appeal. A covered employee shall file an appeal within 10 working days after the effective date of the action.
- D. Agency responsibility.
1. When a covered employee is dismissed, involuntarily demoted, or suspended for more than 40 working hours, the employing agency shall notify the Business Manager in writing of this action and provide related documentation within 5 business days.
 2. An agency shall have the burden of going forward with the case once an appeal has been filed.
 3. An agency must prove by a preponderance of the evidence that it had just cause to discipline the covered employee.
- E. Effect of appeal. The Council shall determine whether the employing agency has proven by a preponderance of the evidence that the employing agency had just cause to discipline the covered employee. The Council shall reverse the decision of the agency head if the Council finds that just cause did not exist for any discipline to be imposed and, in the case of dismissal or demotion, return the covered employee to the same position the covered employee held before the dismissal or demotion with or without back pay. On a finding that the agency has not proven just cause to discipline the covered employee by a preponderance of the evidence, the Council may recommend a proposed disciplinary action in light of the facts proven.
- F. Agency action after receiving a decision or recommendation. The agency head or the agency head's designee shall accept, modify or reverse the Council's decision or accept, modify or reject the Council's recommendation within 14 days of receipt of the findings or recommendation from the Council. The decision of the agency head is final and binding. The agency head shall send a copy of the agency's final determination to the covered employee.
- G. Notice of hearing. The Council shall notify the parties of the time and place of the hearing.
- H. Failure to appear. If a party, without good cause, fails to appear at the time and place set for a hearing, the Council may find in favor of the appearing party.
- I. Conduct of hearings. The Council shall hear the appeal within 30 days of the receipt of the appeal. The Council shall sit as a whole at a hearing, unless a Council member declares a conflict or is unable to attend. Only a Council member who was present at a hearing may participate in making the decision. Council members may administer oaths, issue subpoenas for the attendance of witnesses and the production of books or papers, and cause the depositions of witnesses residing within or outside the state to be taken in the manner prescribed by law for depositions in civil cases in the Superior Court of this state.

Law Enforcement Merit System Council

- J.** Witness fees. Witnesses at a hearing, other than covered employees, are entitled to the fees allowed witnesses under A.R.S. § 12-303.
- K.** Payment of witness fees. If the Council subpoenas a witness on its own initiative, the Council shall pay the witness' fees and mileage. The requesting party shall pay the fees for subpoenaed witnesses. A covered employee appearing as a witness on duty shall receive travel expenses from the agency and shall not be entitled to witness fees.
- L.** Discovery.
1. Within three business days after receiving a written request from the covered employee, the agency shall provide a complete copy of the investigative file, as well as the names and home or work mailing addresses of all persons interviewed during the course of the investigation, to the covered employee. For the purpose of this subsection, hand-written notes substantially incorporated within a report are not considered part of the investigation file.
 2. Within 20 days after receiving the investigative file, the covered employee shall provide all material relating to the defense of the covered employee to the agency head.
 3. After initial discovery, each party shall provide all new material relating to the case to the other party within 10 days after receipt.
 4. No later than five business days before the hearing, or if the hearing is scheduled more than 20 days after the notice of appeal was filed, no later than 10 business days before the hearing, the agency and the covered employee shall exchange copies of any documents that may be introduced at the hearing and that have not been previously disclosed.
 5. No later than five business days before the hearing, or if the hearing is scheduled more than 20 days after the notice of appeal is filed, no later than 10 business days before the hearing, the agency and the covered employee shall exchange the names of all witnesses who may be called to testify. A witness may be interviewed at the discretion of the witness. The parties shall not interfere with any decision of a witness regarding whether to be interviewed. An agency shall not discipline, retaliate against, or threaten to retaliate against, any witness for agreeing or not agreeing to be interviewed or for testifying or providing evidence in the hearing.
 6. No later than five business days before the hearing, or if the hearing is scheduled more than 20 days after the notice of appeal is filed, no later than 10 business days before the hearing, the agency and the covered employee shall provide all documents that will be used at the hearing and a list of intended witnesses to the office of the Council.
 7. If a party fails to provide material as required, the Council may preclude its use at the hearing.
- M.** Motions. All motions shall be in writing and filed no later than 20 days prior to the hearing. A response shall be filed in writing within 10 days after service of the motion. The chair may designate one or more members of the Council to hear and rule on a motion, except a motion to dispose of the case requires a vote of a majority of the Council.
- N.** Pleadings. The Council may strike a pleading not filed in accordance with this Section.
- O.** Depositions:
1. On the motion of a party, the Council may order the deposition of a witness under the following circumstances:
 - a. The witness does not reside within the State or is out of state,
 - b. The witness is too ill to attend the action before the Council, or
 - c. The deposition is for the purpose of discovery in preparing a case before the Council.
 2. The requesting party shall pay the expense of any deposition. A covered employee of the agency is not entitled to a witness fee for giving a deposition.
 3. The deposition of a witness who is unavailable to appear at a hearing may be used in evidence by either party or the Council.
- P.** Open hearings. The Council's hearings shall be open to the public. The Council may, upon request of a party, exclude non-testifying witnesses from the hearing. The Council may keep excluded witnesses separated and prevent them from communicating with each other until all are examined.
- Q.** Legal counsel or representative. Before the hearing of any appeal, each party shall designate its legal counsel or representative for the record. The Council shall advise each party without legal counsel that the party may obtain and be represented by counsel at the hearing. At the request of a party, the Council may postpone the hearing for a reasonable length of time to allow a party to obtain legal counsel.
- R.** Presentation of evidence. Both parties may present evidence and witnesses either personally or through a representative. The Council shall exclude evidence irrelevant to the causes set forth in the notice of disciplinary action.

Historical Note

New Section made by final rulemaking at 23 A.A.R. 2564, effective November 5, 2017 (Supp. 17-3).

ARTICLE 8. SEPARATION FROM EMPLOYMENT; RETIREMENT SYSTEM ELIGIBILITY

Editor's Note: Former Article 8, consisting of Sections R13-5-45 through R13-5-48, repealed by final rulemaking at 6 A.A.R. 1982, effective May 10, 2000; new Article 8, consisting of Sections R13-5-801 through R13-5-804, adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2).

R13-5-801. Resignation or Retirement

- A.** Notice of resignation or retirement. An employee shall resign or retire from the agency by submitting a letter addressed to the agency head and stating the effective date of the separation.
- B.** Oral resignation or retirement. If an employee resigns or retires orally rather than in writing, the employee's manager shall document the employee's stated separation date and forward the notice through the chain-of-command to the agency head.
- C.** Abandonment of position. If an employee abandons a position, it shall be deemed to be a voluntary resignation from the agency. The employee's manager shall document the employee's failure to show up for work and forward the notice through the chain-of-command to the agency head.
- D.** Refusal of resignation. An agency head may refuse to accept a resignation and may dismiss an employee under R13-5-701(B).
- E.** Withdrawal of resignation. An employee may withdraw a resignation only by submitting to the agency head a written notice of withdrawal before the employee's separation date. If a withdrawal is not submitted before the separation date, the resignation is final unless both the agency head and the employee agree to withdraw the resignation.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R.

Law Enforcement Merit System Council

2090, effective May 10, 2000 (Supp. 00-2).

R13-5-802. Reduction in Force

- A.** General. The agency head may conduct a reduction in force when necessary because of a decrease in authorized positions, service area, funding, program responsibilities, or because of a legislative or executive mandate. If the reduction in force involves removal of a filled position, the agency shall not re-establish the position for two years, unless removal of the position was caused by fiscal constraints, legislative action, or court order.
- B.** Alternate methods. An agency head may pursue alternative methods of reducing costs without reducing the number of employees. Council approval will be required when:
 1. Temporarily reducing all employees' pay, or
 2. Assigning all employees time off without pay.
- C.** Order of layoff. An employee shall be separated from an agency in the following order of preference:
 1. Internship appointment,
 2. Intermittent appointment,
 3. Part-time appointment,
 4. Provisional appointment,
 5. Probationary limited-term appointment who has not established permanent status,
 6. Limited-term appointment who has completed a probationary period but has not established permanent status,
 7. Probationary appointment in a non-limited term position, and
 8. Permanent status appointment.
- D.** Laying off a probationer and special duty assignee. An employee on promotional probation or special duty shall compete for retention in the highest classification for which the probationer or assignee hold permanent status.
- E.** Laying off a limited-term employee. A limited-term employee shall compete for retention only against other limited-term employees.
- F.** Laying off a permanent status employee. If it becomes necessary to reduce the number of full-time employees holding regular appointments, an agency shall use the following method:
 1. An employee with the least seniority within a classification shall be the first employee reduced from that classification.
 2. An employee who is declared surplus to a classification may displace only the least senior employee in other classifications in which the employee previously held seniority rights.
- G.** Determining seniority. Seniority within a classification shall be determined by the number of retention points of an employee. An employee with a greater number of retention points will be senior to another employee with lesser retention points within a classification.
- H.** Using retention points. Regular employees who have the least retention points shall be considered first for transfer, classification reduction, or separation.
- I.** Calculation of retention points within a classification. An employee shall receive one retention point for each month of service within the employee's classification.
- J.** Calculation of retention points in a classification for which the employee has established rights. If an employee is transferred to a classification previously held by the employee, the employee shall receive one retention point for each month of service in that classification and one retention point for each month of service in a higher or equal classification.
- K.** Eligibility for retention points. The following guidelines shall be used in determining an employee's eligibility for retention points:
 1. If the employee was in pay status for at least half of the employee's working days in that month.
 2. An employee shall receive credit for agency service before a separation if the separation was less than two years.
 3. An employee shall receive credit for periods of military leave under 38 U.S.C. 4311.
 4. An employee shall receive credit for periods of uncovered appointments with the agency.
 5. An employee's prior state service in a position transferred to the agency shall be counted.
 6. An employee shall not receive credit for periods constituting a break-in-service. However, periods of time before and after such break-in-service shall be counted.
- L.** Resolution of a tie. If employees have the same number of retention points, the agency shall resolve tied scores by applying the following tie-breakers in the following order of precedence:
 1. The employee with the greatest length of qualifying service with the agency,
 2. The employee with the greatest length of qualifying service with the state,
 3. The employee who placed highest on the eligibility list for the classification, or
 4. If a tie continues to exist, it shall be broken by a lottery system.
- M.** Offer of a position in a different classification. An employee who meets the qualification for a different classification but has not previously established displacement rights may be offered reassignment to a position within that classification provided that such reassignment does not displace another employee in that classification.
- N.** Notifying employees. An agency shall give written notice at least 20 days in advance to each employee being reassigned or separated. The Council may waive the 20 day notice upon proper justification for a reduced time limit. The agency's notice shall include the number of retention points assigned to the employee, the effective date of the action, the new job classification, the pay rate, the location of the position, the employee's right to request a review of the action, and the employee's recall rights, if applicable.
- O.** Employee request for review.
 1. Within five days of receipt of a reassignment or separation notice, an employee may submit a written request to the agency head for a review of the procedures resulting in the employee's reassignment or separation. The employee's request shall contain information concerning any errors in the calculation of retention points and a proposed resolution. The agency head shall review the request and respond to the employee within five days after receipt of the request.
 2. An employee who wishes further review may submit a written request to the Council within 20 days after receiving the agency head's response. The Council shall investigate and respond to the employee and the agency head by submitting a final decision on the review within 30 days after receiving the employee's request.
- P.** Employee assistance. An agency shall establish a plan to assist all employees who are separated from the agency through a reduction in force.
- Q.** Reappointment list. If a permanent status employee is appointed to a lower classification as a result of a reduction in force or reallocation, Human Resources shall place the employee's name on a reappointment list for the last classification held and any previously held classification for which the employee is still qualified.

Law Enforcement Merit System Council

- R. Recall list. If an employee is laid off due to a reduction in force, Human Resources shall place the former employee's name on a recall list for the last classification held and any previously held classification for which the former employee qualifies.
- S. Order of names. On both recall and reappointment lists, Human Resources shall arrange the names of former employees in descending order of their retention points. If candidates have the same number of retention points, Human Resources shall resolve tied scores by applying the following tie-breakers in the following order of precedence:
 1. The employee with the greatest length of qualifying service with the agency,
 2. The employee with the greatest length of qualifying service with the state,
 3. The employee who placed highest on the eligibility list for the classification, or
 4. If a tie continues to exist, it shall be broken by a lottery system.
- T. Duration of list. A former employee's name shall remain on a recall list for up to three years from the date of separation. The name of a reappointment candidate shall remain on the reappointment list until promoted or the employee separates from the agency.
- U. Background screening. A candidate on a recall list shall be subject to a background screening process.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2).

R13-5-803. Disability

An agency head shall establish policies and procedures for discontinuing the employment of an employee who becomes disabled and is unable to perform the essential functions of the job. Such policies and procedures shall comply with the applicable state and federal laws.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2).

R13-5-804. Public Safety Personnel Retirement System Eligibility

- A. Membership in the Arizona Public Safety Personnel Retirement System is designated by the Council under A.R.S. § 38-842(20)(a) Commissioned employees are eligible for membership in the Public Safety Personnel Retirement System.
- B. Employees who were in the following non-commissioned classifications on December 1, 1972, shall be eligible for membership in the Public Safety Personnel Retirement System:
 1. Communications Technician, and
 2. Radio Mechanic.

Historical Note

New Section adopted by final rulemaking at 6 A.A.R. 2090, effective May 10, 2000 (Supp. 00-2). Amended by final rulemaking at 7 A.A.R. 5373, effective November 6, 2001 (Supp. 01-4). Amended by final rulemaking at 12 A.A.R. 1756, effective July 2, 2006 (Supp. 06-2).

ARTICLE 9. REPEALED

Editor's Note: Article 9, consisting of Section R13-5-50, repealed effective June 7, 1978 (Supp. 78-3).

Supplement Separator Page

Supplement to the
Arizona Administrative Code
The official compilation of Arizona Rules
Replacement Check List

For rules filed in the third quarter between
July 1 - September 30
2017

Within the stated calendar quarter, this Title contains all rules made, amended, repealed, renumbered, and recodified; or rules that have expired or were terminated due to an agency being eliminated under sunset law. These rules were either certified by the Governor's Regulatory Review Council or the Attorney General's Office; or exempt from the rulemaking process, and filed with the Office of the Secretary of State. Refer to the historical notes for more information. Please note that some rules you are about to remove may still be in effect after the publication date of this Supplement. Therefore, all superseded material should be retained in a separate binder and archived for future reference.

TITLE 14. Public Service Corporations; Corporations and Associations; Securities Regulation

Chapter 02. Corporation Commission - Fixed Utilities

Sections, Parts, Exhibits, Tables or Appendices modified

R14-2-1201 through R14-2-1217, R14-2-A1201 through R14-2-A1217, R14-2-B1218 through R14-2-B1223

☐ REMOVE Supp. 17-1
Pages: 1 - 204

☐ REPLACE with Supp. 17-3
Pages: 1 - 200

PUBLISHER
Arizona Department of State
Office of the Secretary of State, Administrative Rules Division

PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), accepts state agency rule filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the Administrative Code. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION
September 30, 2017

RULES

A.R.S. § 41-1001(17) states: “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The Arizona Administrative Code is where the official rules of the state of Arizona are published. The Code is the official codification of rules that govern state agencies, boards, and commissions. Virtually everything in your life is affected in some way by rules published in the Arizona Administrative Code, from the quality of air you breathe to the licensing of your dentist. This chapter is one of more than 230 in the Code compiled in 21 Titles.

ADMINISTRATIVE CODE SUPPLEMENTS

Rules filed by an agency to be published in the Administrative Code are updated quarterly. Supplement release dates are printed on the footers of each chapter:

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2017 is cited as Supp. 17-1.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the Arizona Administrative Register for recent updates to rule Sections.

ARTICLES AND SECTIONS

Rules in chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering system separated into subsections.

HISTORICAL NOTES AND EFFECTIVE DATES

Historical notes inform the user when the last time a Section was updated in the Administrative Code. Be aware, since the Office publishes each quarter by entire chapters, not all Sections are updated by an agency in a supplement release. Many times just one Section or a few Sections may be updated in the entire chapter.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority note to make rules is often included at the beginning of a chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in the introduction of a chapter can be found at the Secretary of State’s website, www.azsos.gov/services/legislative-filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the Arizona Administrative Register online at www.azsos.gov/rules, click on the Administrative Register link.

In the Administrative Code the Office includes editor’s notes at the beginning of a chapter indicating that certain rulemaking Sections were made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

EXEMPTIONS AND PAPER COLOR

If you are researching rules and come across rescinded chapters on a different paper color, this is because the agency filed a Notice of Exempt Rulemaking. At one time the office published exempt rules on either blue or green paper. Blue meant the authority of the exemption was given by the Legislature; green meant the authority was determined by a court order. In 2001 the Office discontinued publishing rules using these paper colors.

PERSONAL USE/COMMERCIAL USE

This chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

Public Services managing rules editor, Rhonda Paschal, assisted with the editing of this chapter.

**TITLE 14. PUBLIC SERVICE CORPORATIONS; CORPORATIONS AND ASSOCIATIONS;
SECURITIES REGULATION**

CHAPTER 2. CORPORATION COMMISSION - FIXED UTILITIES

Authority: Article XV, § 3, Constitution of Arizona and A.R.S. § 40-202 et seq.

Editor's Note: The Office of the Secretary of State publishes all Code Chapters on white paper (Supp. 02-1).

The Corporation Commission has determined that rules in this Chapter are exempt from the Attorney General certification provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)). This exemption means that the rule was not certified by the Attorney General. Because this Chapter was filed under a rulemaking exemption, as determined by the Corporation Commission, other than a statutory exemption, the Chapter is printed on green paper.

Chapter 2, consisting of Sections R14-2-104, R14-2-105, R14-2-201 through R14-2-213, R14-2-301 through R14-2-313, R14-2-401 through R14-2-411, R14-2-501 through R14-2-510, and R14-2-601 through R14-2-610, adopted effective March 2, 1982.

ARTICLE 1. GENERAL PROVISIONS

Former Sections R14-2-103, R14-2-127, and R14-2-128, renumbered as Sections R14-2-101 through R14-2-103 respectively and former Section R14-2-135 renumbered as Section R14-2-314 effective March 2, 1982.

Former Sections R14-2-101, R14-2-102, R14-2-104, R14-2-106 through R14-2-126, R14-2-129, R14-2-130, R14-2-132 through R14-2-134 repealed effective March 2, 1982.

Section		
R14-2-101.	Accident reports	7
R14-2-102.	Treatment of depreciation	7
R14-2-103.	Defining Filing Requirements in Support of a Request by a Public Service Corporation Doing Business in Arizona for a Determination of the Value of Property of the Corporation and of the Rate of Return Thereon, or in Support of Proposed Increased Rates or Charges	7
Appendix.	Index of Schedules	12

ARTICLE 1. GENERAL PROVISIONS**R14-2-101. Accident reports**

- A. Where not otherwise specifically prescribed by rule with respect to particular classes of public service corporations, all public service corporations shall report in writing by the end of the next working day to the Commission all accidents in which such public service corporations are involved, which result in death, personal injury to any person necessitating off-site medical attention, or property damage exceeding \$5,000.00. For purposes of this rule, off-site medical attention includes any medical treatment provided by medical professionals which requires transportation of the patient by ambulance, or treatment of the patient in an emergency room, or in-patient hospitalization. For those accidents in which it is not readily determinable if the property damage exceeds \$5,000.00, the public service corporation will have an additional two working days in which to submit its report. Any associated personal injuries requiring off-site medical attention would still have to be reported within the initial business day.
- B. This report shall state, as accurately as possible, the dollar amount of the damage. If this amount is not known immediately, or if investigation discloses a 15% or greater variation from the amount in this report, a follow-up report shall be submitted.
- C. If such accidents result in death or injury likely to result in death, a report shall also be made within 24 hours by telegraph or telephone stating the essential facts.

Historical Note

Former Section R14-2-101 repealed, former Section R14-2-103 renumbered as Section R14-2-101 without change effective March 2, 1982 (Supp. 82-2). Amended effective February 3, 1989 (Supp. 89-1).

R14-2-102. Treatment of depreciation

- A. The following definitions shall apply in this Section unless the context otherwise requires:
1. "Accumulated depreciation" means the summation of the annual provision for depreciation from the time that the asset is first devoted to public service.
 2. "Cost of removal" means the cost of demolishing, dismantling, removing, tearing down, or abandoning of physical assets, including the cost of transportation and handling incidental thereto.
 3. "Depreciation" means an accounting process which will permit the recovery of the original cost of an asset less its net salvage over the service life.
 4. "Depreciation rate" means the percentage rate applied to the original cost of an asset to yield the annual provision for depreciation.
 5. "Net salvage" means the salvage value of property retired less the cost of removal.
 6. "Original cost" means the cost of property at the time it was first devoted to public service.
 7. "Property retired" means assets which have been removed, sold, abandoned, destroyed, or which for any cause have been withdrawn from service and books of account.
 8. "Salvage value" means the amount received for assets retired, less any expenses incurred in selling or preparing the assets for sale; or if retained, the amount at which the material recoverable is chargeable to materials and supplies, or other appropriate accounts.
 9. "Service life" means the period between the date an asset is first devoted to public service and the date of its retirement from service.

- B. All public service corporations shall maintain adequate accounts and records related to depreciation practices, subject to the following:
1. Annual depreciation accruals shall be recorded.
 2. A separate reserve for each account or functional account shall be maintained.
 3. The cost of depreciable plant adjusted for net salvage shall be distributed in a rational and systemic manner over the estimated service life of such plant.
 4. Public service corporations having less than \$250,000 in annual revenue shall not be required to maintain depreciation records by separate accounts but shall make annual composite accruals to accumulated depreciation for total depreciable plant.
- C. Requests for depreciation rate changes and methods for estimating depreciation rates shall be as follows:
1. If a public service corporation seeks a change in its depreciation rates, it shall submit a request for such as part of a rate application in accordance with the requirements of R14-2-103.
 2. A public service corporation may propose any reasonable method for estimating service lives, salvage values, and cost of removal. The method shall be fully described in a request to change depreciation rates.
 3. Data and analyses supporting the change shall be submitted, including engineering data and assessment of the impact and appropriateness of the change for ratemaking purposes.
 4. Changed depreciation rates shall not become effective until the Commission authorizes such changes.
- D. Upon the motion of any party or upon its own motion, the Commission may determine that good cause exists for granting a waiver from one or more of the requirements of this Section.

Historical Note

Former Section R14-2-102 repealed, former Section R14-2-127 renumbered as Section R14-2-102 without change effective March 2, 1982 (Supp. 82-2). Forward to the rule corrected as filed April 13, 1973 (Supp. 89-1). Section R14-2-102 repealed, new Section adopted effective April 9, 1992 (Supp. 92-2).

R14-2-103. Defining Filing Requirements in Support of a Request by a Public Service Corporation Doing Business in Arizona for a Determination of the Value of Property of the Corporation and of the Rate of Return Thereon, or in Support of Proposed Increased Rates or Charges

- A. Purpose and definitions
1. Purpose: The purpose of this General Order is to define the specific financial and statistical information required to be filed with a request by a public service corporation doing business in Arizona for a determination of the value of the property of the corporation and of the rate of return to be earned thereon, with regard to proposed increased rates or charges. This General Order does not apply to the implementation of previously approved adjustment or escalation clauses.
 2. Applicability of rules: These rules shall apply to all electric, gas, telephone, telegraph, water and private fire protection public service corporations under the jurisdiction of the Commission. These rules are applicable both to all filings made after the effective date of this General Order and to any rate proceeding pending on the effective date of this General Order in which the Commission has issued no final decision. These rules are not intended to prohibit utilities from filing additional schedules, exhibits

Corporation Commission - Fixed Utilities

and other documents in which the Commission has issued no final decision. These rules are not intended to prohibit utilities from filing additional schedules, exhibits and other documents which may be material to the rate proceeding, nor are they intended to prohibit the Commission from considering such schedules, exhibits or other documents in making its determination. In pending proceedings, to the extent that the information required by this General Order is not included in the public service corporation's exhibits or is not otherwise in the record, such information shall be supplied as soon as possible unless a waiver is requested and granted pursuant to subsection (B)(5).

3. Definitions: Terminology used in this General Order is defined as follows:

- a. "Accounting method" -- the accounting method prescribed or recognized by the Commission.
- b. "Commission" -- The Arizona Corporation Commission.
- c. "Cost of service" -- The total cost of providing service to a defined segment of customers, as determined by the application of logical and generally accepted cost analysis and allocation techniques.
- d. "Department" -- A responsibility center within a combination utility where revenues and costs are accumulated by commodity or service rendered.
- e. "Depreciated original cost" -- The cost of property to the person first devoting it to public service, less the depreciation reserve, which shall include accrued depreciation and amortization calculated in accordance with General Order R14-2-102. Depreciated original cost shall not include any goodwill or going concern value, nor shall it include certificate value in excess of payment made or costs incurred in the initial acquisition thereof.
- f. "Exhibit" -- One or more schedules which support a rate filing or testimony in a rate proceeding.
- g. "Filing" -- An application and required schedules, exhibits or other documents filed by a public service corporation to initiate any rate proceeding under this Section. For all Class A and B utilities and for Class C electric and gas utilities, the filing shall include direct testimony in support of the application. For Class C water, sewer, and telephone utilities and for all Class D and E utilities, the filing shall include a written description of the components of the application. Nothing in this Section shall be construed to prohibit a public service corporation, prior to making a filing, from giving the Commission informal pre-filing notice of its intent to make a filing. Such pre-filing notice would permit the Commission, on a tentative basis, to assign a hearing date and would permit agreement on an appropriate test year.

- h. "Original cost rate base" -- An amount consisting of the depreciated original cost, prudently invested, of the property (exclusive of contributions and/or advances in aid of construction) at the end of the test year, used or useful, plus a proper allowance for working capital and including all applicable pro forma adjustments.
- i. "Pro forma adjustments" -- Adjustments to actual test year results and balances to obtain a normal or more realistic relationship between revenues, expenses and rate base.
- j. "Projected year" -- The year immediately following the test year.
- k. "Projections" -- Estimate of future results of operations based upon known facts or logical assumptions concerning future events.
- l. "Prudently invested" -- Investments which under ordinary circumstances would be deemed reasonable and not dishonest or obviously wasteful. All investments shall be presumed to have been prudently made, and such presumptions may be set aside only by clear and convincing evidence that such investments were imprudent, when viewed in the light of all relevant conditions known or which in the exercise of reasonable judgment should have been known, at the time such investments were made.
- m. "Rate schedule" -- A schedule of rates and conditions for a specific classification of customer or for other specific services.
- n. "Reconstructed Cost New (RCND) Rate Base" -- An amount consisting of the depreciated reconstruction cost new of the property (exclusive of contributions and/or advances in aid of construction) at the end of the test year, used and useful, plus a proper allowance for working capital and including all applicable pro forma adjustments. Contributions and advances in aid of construction, if recorded in the accounts of the public service corporation, shall be increased to a reconstruction new basis.
- o. "Staff" -- The staff of the Commission or its designated representatives.
- p. "Test year" -- The one-year historical period used in determining rate base, operating income and rate of return. The end of the test year shall be the most recent practical date available prior to the filing.
- q. "Utilities" -- For purposes of the Section, utilities are electric, gas, telephone, water, sewer or any other that may be supplying service and/or commodities which in the future may be adjudged a public service corporation and under the jurisdiction of this Commission, are classified as follows:

	Annual Operating Revenue				
	Class A	B	C	D	E
Electric & Gas	Exceeding 10,000,000	3,000,000 to 10,000,000	1,000,000 to 2,999,999	250,000 to 999,999	Less than 250,000
Water & Sewer	Exceeding 10,000,000	3,000,000 to 10,000,000	1,000,000 to 2,999,999	250,000 to 999,999	Less than 250,000
Telephone	Exceeding 10,000,000	3,000,000 to 10,000,000	1,000,000 to 2,999,999	250,000 to 999,999	Less than 250,000

Corporation Commission - Fixed Utilities

Annual operating revenues are those gross utility operating revenues derived from jurisdictional operations, including the requested rate relief. A combination utility is a utility which provides more than one of the commodities or services enumerated in this subsection. For combination utilities, the annual operating revenue, including the requested rate relief, for the specific subsidiary, department, or operating division requesting the rate change shall be used for classification purposes.

- r. "Working capital" -- A proper allowance for cash, materials and supplies and prepayments.

B. Filing requirements:

1. Information required from Class A, B, C and D Utilities: The information required to be prepared and submitted by Class A, B, C and D Utilities in conjunction with a filing is presented below. Corresponding schedule formats are contained in the Appendix of this General Order and

denoted. These formats are not applicable to Class E utilities. The Appendix schedule formats A-1 through A-5 are a part of this General Order, and the Applicant's schedules should conform to these formats. All other Appendix schedule formats and descriptions are illustrative and the applicant's specific formats may vary from that suggested in the Appendix. The substantive information requested, both on the Appendix schedule and in the body of this General Order, however, must be contained on the applicant's schedules together with the titles and schedule numbers provided in the Appendix. Specific information items requested on the Appendix schedules may be omitted without formal waiver, from the filing where it is evident that said items are not applicable to the applicant's business. The instructions and notes contained on the Appendix schedules shall be followed where applicable. Reconstruction Cost New Depreciated information not filed by the applicant shall be deemed waived.

	Information	Filing Required by	Appendix Schedule Reference(s)
A.	Summary Information:		
1.	A summary of the increase in revenue requirements and the spread of the revenue increase by customer classification.	All classes	A-1
2.	A summary of the results of operations for the test year and for the test year and the 2 fiscal years ended prior to the end of the test year, compared with the projected year.	All classes	A-2
3.	A summary of the capital structure for the test year and the 2 fiscal years ended prior to the end of the test year, compared with the projected year.	Classes A & B	A-3
4.	Construction expenditures and gross utility plant in service for the test year and the 2 fiscal years ended prior to the end of the test year, compared with the projected year.	All classes	A-4
5.	A summary of changes in financial position for the test year and the 2 fiscal years ended prior to the end of the test year, compared with the projected year.	Classes A & B	A-5
B.	Rate Base Information:		
1.	A schedule showing the elements of original cost and RCND rate bases.	All classes	B-1
2.	A schedule listing pro forma adjustments to gross plant in service and accumulated depreciation for the original cost rate base.	All classes	B-2
3.	A schedule showing pro forma adjustments to gross plant in service and accumulated depreciation for the RCND rate base.	All classes	B-3
4.	A schedule demonstrating the determination of reproduction cost new less depreciation at the end of the test period.	All classes	B-4
5.	A schedule showing the computation of working capital allowance.	All classes	B-5
C.	Test Year Income Statements:		
1.	A test year income statement, with pro form adjustments.	All classes	C-1
2.	A schedule showing the detail of all pro forma adjustments.	All classes	C-2
3.	A schedule showing the incremental taxes and other expenses on gross revenues and the computation of an incremental gross revenue conversion factor.	All classes	C-3
D.	Cost of Capital Information:		
1.	A schedule summarizing the elements in the capital structure at the end of the test year and the projected year, their related costs and the computation of the total cost of capital.	All classes	D-1
2.	A schedule showing the detail of long-term and short-term debt at the end of the test year and the projected year and their total cost.	Classes A & B	D-2
3.	A schedule showing the detail of preferred stock at the end of the test year and the projected year, and their total cost.	Classes A & B	D-3
4.	A schedule summarizing conclusions of the required return on the common equity as of the end of the test year and the projected year.	Classes A & B	D-4
E.	Financial Statements and Statistical Data:		
1.	Comparative balance sheets for the end of the test year and the 2 fiscal years ended prior to the end of the test year.	All classes	E-1
2.	Comparative income statements for the test year and the 2 fiscal years ended prior to the end of the test year.	All classes	E-2
3.	Comparative statements of changes in financial position for the test year and the 2 fiscal years ended prior to the end of the test year.	Classes A & B	E-3
4.	Statements of changes in stockholder's equity for the test year and the 2 fiscal years ended prior to the end of the test year.	Classes A & B	E-4
5.	A comparative schedule showing by detail account number, utility plant balances at the end of the test year and the end of prior fiscal year.	All classes	E-5
6.	Comparative departmental statements of operating income for the test year and the 2 fiscal years ended prior to the end of the test year.	All classes of combination utilities	E-6

Corporation Commission - Fixed Utilities

Information		Filing Required by	Appendix Schedule Reference(s)
7.	Comparative operating statistics on customers, consumption, revenues, and expenses for the test year and the 2 fiscal years ended prior to the end of the test year.	All classes	E-7
8.	A comparative schedule of all significant taxes charged to operations for the test year and the 2 fiscal years ended prior to the end of the test year.	All classes except Class D	E-8
9.	Audited financial statements, if available, for the test year and the 2 fiscal years ended prior to the end of the test year. If the financial statements have not been audited, notes to the financial statements should be provided to indicate accounting method, depreciation lives and methods, income tax treatment and other important disclosures.	All classes	E-9
F.	Projections and Forecasts:		
1.	A projected income statement for the projected year compared with actual test year results, at present rates and proposed rates.	All classes	F-1
2.	Projected changes in financial position for the projected year compared with the test year, at present rates and proposed rates.	Classes A & B	F-1
3.	Projected annual construction requirements, by property classification, for 1 to 3 years subsequent to the test year, compared with the test year.	Classes A & B 3 years Classes C & D 1 year	F-3
4.	Important assumptions used in preparing forecasts and projections.	All classes	F-4
G.	Cost of Service Information		
	A utility shall submit cost of service analyses and studies if all of the following conditions prevail:		
1.	The utility is in a segment of the utility industry that recognizes cost of service studies as important tools for rate design.		
2.	Costs incurred by the utility are likely to vary significantly from 1 defined segment of customers to another.		
	A historical accounting period other than the test year may be used for cost of service purposes provided that customer mix in the historical period used is representative of the test year. When a cost of service analysis is required, the following information shall be submitted:		
1.	Schedule showing rates of return by customer classification at present and proposed rates.	Classes A, B and C if applicable	G-1 G-2
2.	Schedules showing the approach used in allocating or assigning plant and expenses to classes of service and defined functions.	Classes A, B and C if applicable	G-3 G-4 G-5 G-6
3.	Schedules showing the development of all allocation factors used in the all allocation factors used in the cost of service study.	Classes A, B and C if applicable	G-7
H.	Effect of Proposed Rate Schedules:		
1.	A comparison of revenues by customer classification or other classification of revenues for the test year, at present and proposed rates.	All classes	H-1
2.	A comparison of revenues by class of service and by rate schedule for the test year, at present and proposed rates.	Classes A & B	H-2
3.	A comparison of present and proposed rate schedules or representative rate schedules.	Class A representative schedules; Classes B, C and D - all schedules	H-3
4.	Typical bill analysis	All classes	H-4
5.	Bill count	All classes	H-5
2.	Information required from Class E Utilities: The information required to be prepared and submitted by a Class E Utility in support of a filing is as follows:		
a.	A statement of income for the test year similar in format to Schedule C-1 or E-2.		
b.	A balance sheet as of the end of the test year similar in format to Schedule E-1.		
c.	Utility plant account balances at the end of the test year similar in format to Schedule E-5.		
d.	An estimate of new investment in utility plant to be added in the projected year.		
e.	A schedule of current rates and proposed rates and the additional revenues to be derived from the proposed rates.		
	The appendix schedules shall be used as guides in presenting the information specified in this subsection.		
3.	A cooperative, as defined in R14-2-107, may initiate a rate proceeding by preparing and submitting a filing under this Section or, if eligible, by following the requirements of R14-2-107.		
4.	Separation of nonjurisdictional properties, revenues and expenses associated with the rendition of utility service not subject to the jurisdiction of the Commission must be identified and properly separated in a recognized manner when appropriate. In addition, all nonutility properties, revenues and expenses shall likewise be segregated. If nonutility operations are significant, appropriate allocations of capital should be made.		
5.	Additional information: The Commission may request that supplementary information in addition to that specifically required in subsection (B)(1) and (2) of this General Order be submitted by a utility either prior to or after a filing.		
6.	Waiver of requirements: Either prior to the filing or within 15 days from the date thereof, the Commission, after determining the existence of reasonable cause, by order may waive compliance with any or all of the requirements of this General Order. Such Waiver will be granted only upon written petition to the Commission. In said petition, the utility must demonstrate that the requirements sought to be waived are either not applica-		

Corporation Commission - Fixed Utilities

ble to the rate matter which is the subject of the filing or that compliance therewith would place an undue burden on the utility.

7. Notice of sufficiency of a utility's filing: The staff will review each filing to ascertain whether it is in compliance with the provisions of this Section, including the instructions contained in subsection (B)(9) or in forms prescribed by the Commission. Within 30 days after receipt of the utility's filing, the staff shall file with Docket Control and serve on the utility a notice that the filing either is in compliance with the Commission's requirements or is deficient. A notice of deficiency must include an explanation of the defect found. If the staff fails to file any notice within the 30-day period, the utility's filing shall be deemed accepted as of the 31st day.
8. Production of out-of-state books and records: A utility shall produce or deliver in this state all or any of its formal accounting records and related documents requested by the Commission. It may, at its option, provide verified copies of original records and documents.
9. General filing instructions: In preparing the information specified in subsection (B)(1) and (2) of this General Order, the following instructions are applicable:
 - a. All schedules shall be mathematically correct and properly cross-referenced. The applicant shall ascertain that adequate detail has been provided to explain and support all significant items and amounts.
 - b. Amounts may be rounded, where appropriate, to the nearest thousand dollars for Class A utilities, to the nearest hundred dollars for Class B and C utilities and to the nearest dollar for Class D and E utilities.
 - c. Except for Class E utilities, all schedules shall be numbered as provided in the Appendix. Schedules prepared by all classes of utilities shall contain a date -- generally the preparation date or the filing date.
 - d. Headings on schedules shall clearly indicate the nature and intent of the schedule and the dates or time periods covered.

At the date of filing, a minimum of 10 complete sets of the applicant's schedules and exhibits shall be provided to the Commission.
10. Staff assistance in preparing a filing: The staff will, consistent with other workload requirements, be available to provide assistance to an applicant in preparing a filing.
11. Timing of Commission action on a filing:
 - a. For all Class A and B utilities and for Class C electric and gas utilities, the Hearing Officer shall issue a procedural schedule in the rate case within 30 days from the date that a filing is accepted pursuant to subsection (B)(7).
 - b. Unless otherwise ordered by the Commission, the staff shall file its Staff Report and/or testimony within the following number of days from the date that a filing is accepted pursuant to subsection (B)(7):
 - i. For Class A utilities, within 180 days.
 - ii. For Class B utilities, within 180 days.
 - iii. For Class C utilities, within 135 days.
 - iv. For Class D utilities, within 75 days.

- v. For Class E utilities, within 60 days.
- c. For all Class A utilities, the Hearing Officer shall issue a recommended order in the rate case at least 20 days prior to the last regularly scheduled open meeting in the time period calculated pursuant to subsection (B)(11)(d). For all other utilities, the Hearing Officer shall issue a recommended order at least 10 days prior to the last regularly scheduled open meeting in the time period calculated pursuant to subsection (B)(11)(d).
- d. The Commission shall issue a final order that disposes of all issues involved in all parts or phases of the proceeding within the following number of days from the date that a filing is accepted pursuant to subsection (B)(7):
 - i. For Class A utilities, within 360 days.
 - ii. For Class B utilities, within 360 days.
 - iii. For Class C utilities, within 270 days.
 - iv. For Class D utilities, within 180 days.
 - v. For Class E utilities, within 120 days.
- e. Upon motion of any party to the matter or on its own motion, the Commission or the Hearing Officer may determine that the time periods prescribed by subsection (B)(11)(d) should be extended or begin again due to:
 - i. Any amendment to a filing which changes the amount sought by the utility or substantially alters the facts used as a basis for the requested change in rates or charges; or
 - ii. An extraordinary event, not otherwise provided for by this subsection.
- f. If a hearing is conducted to evaluate a filing, the time periods prescribed by subsection (B)(11)(a) shall be extended three days for each one day of actual hearing on the merits of the filing.
- g. The time periods prescribed by subsection (B)(11)(a) shall not be applicable to any filing submitted by a utility which has more than one rate application before the Commission at the same time.
- h. In the event no final order has been issued within the time periods specified in this subsection, the utility may request any time thereafter that the Commission schedule a hearing to consider putting new rates or charges into effect, on an interim basis subject to refund, for all consumption thereafter. To put such rates or charges into effect, the utility would be required to file a bond to be approved by the Commission payable to the state of Arizona in such amount and with sufficient security to insure prompt payment of any refunds to the persons entitled thereto, including an interest rate as determined by the Commission not to exceed the maximum interest otherwise allowable by law, if the rates or charges so put into effect are finally determined by the Commission to be excessive. The utility may substitute for the bond other arrangements satisfactory to the Commission for the protection of the parties involved. The Commission shall issue a final order on a request for interim rates within 60 days plus the number of interim hearing days from the filing date of the request.

Supporting Schedules:Recap Schedules:**Historical Note**

Former Section R14-2-103 renumbered as Section R14-2-101, former Section R14-2-128 renumbered as Section R14-2-103 with-out change effective March 2, 1982 (Supp. 82-2). Amended subsection (B) effective June 18, 1987 (Supp. 87-2). Amended effective August 31, 1992 (Supp. 92-3). Amended by final rulemaking at 19 A.A.R. 397, effective April 9, 2013 (Supp. 13-1). Amended by final rulemaking at 20 A.A.R. 3439, effective January 16, 2015 (Supp. 14-4).

R14-2-104. Inspection of annual reports

Pursuant to A.R.S. § 40-204(C), all utility annual reports and attachments thereto required to be filed pursuant to this Chapter shall be open to public inspection without further or special order of the Arizona Corporation Commission.

Historical Note

Former Section R14-2-104 repealed, new Section R14-2-104 adopted effective March 2, 1982 (Supp. 82-2).

R14-2-105. Notice of rate hearings

- A.** Every public service corporation shall give notice to customers affected of any hearing at which the fair value of that corporation's property is to be determined and just and reasonable rates and charges are to be established.
- B.** The form and manner of such notice shall be as the Commission may direct by procedural order.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2).

R14-2-106. Commission Color Code to Identify Location of Underground Facilities

- A.** If the location of an underground facility is marked with stakes, paint, or in some customary manner pursuant to A.R.S. § 40-360.21(13), the facility owner will use the following color code:

Facility Type	Specific Color
Electric Power Distribution and Transmission	Safety Red
Gas Distribution and Transmission; Oil Product and Transmission; Dangerous Materials, Product Lines	High Visibility Yellow
Telephone and Telegraph System; Cable Television	Safety Alert Orange

Corporation Commission - Fixed Utilities

Fiber Optics Communication Lines	The Letter "F" in Safety Alert Orange
Water Systems; Slurry Pipelines	Safety Precaution Blue
Reclaimed Water Systems	Purple
Sanitary Sewer Systems	Safety Green

UNACCEPTABLE FACILITY LOCATION COLORS:

Fluorescent Pink - This shall be considered a land surveyor marking.

White - This shall be reserved for excavator markings.

- B.** Excavators and Underground Facility Owners shall consider use of the color fluorescent pink to be indicative of land survey markings and not location markings for any underground facility. Surveyors may place aerial photogrammetric markings (targets) using the color white; such marking shall have a fluorescent pink dot not less than two inches in diameter placed within one foot of any edge of the aerial marking. Fluorescent pink shall not be used by excavators or Underground Facility Owners.
- C.** Excavators making markings pursuant to A.R.S. § 40-360.22(C) are required to use the color white.
- D.** Colors similar to those listed in R14-2-106(A) through R14-2-106(C) shall not be used for other than their listed purpose.

Historical Note

Adopted effective September 5, 1986 (Supp. 86-5).

Amended effective June 4, 1993, under an exemption from the Attorney General certification requirements of the Arizona Administrative Procedure Act (Supp. 93-2).

Amended effective August 16, 1996 (Supp. 96-3).

Amended by final rulemaking at 8 A.A.R. 971, effective February 19, 2002 (Supp. 02-1).

R14-2-107. Electric or Natural Gas Cooperative Alternative Rate Application Filing Requirements and Process**A.** Definitions. In this Section, unless otherwise specified:

- "Base revenue" means the revenue generated by permanent rates and charges, excluding:
 - Revenue generated through adjustor mechanisms, and
 - Revenue generated through miscellaneous service charges.
- "CFC" means the National Rural Utilities Cooperative Finance Corporation.
- "Commission" means the Arizona Corporation Commission.
- "Cooperative" means a legal entity that is:
 - A domestic corporation or a foreign corporation authorized to transact business in this state;
 - Operated as a not-for-profit or non-profit;
 - Owned and controlled by its members; and
 - Operating as a public service corporation in this state by providing either electric utility services or natural gas utility services.
- "Docket Control" means the organizational unit within the Commission's Hearing Division that accepts, records, and maintains filings.
- "FERC" means the Federal Energy Regulatory Commission.
- "File" means to submit to Docket Control, with the required number of copies and in an acceptable format, for recording under an appropriate docket number.
- "Full permanent rate case decision" means a Commission decision:

- Issued on an application filed under R14-2-103 and not under this Section,
 - In which the Commission ascertained the fair value of a public service corporation's property within Arizona and established a schedule of rates and charges for the public service corporation's provision of utility services within Arizona, and
 - Not issued under A.R.S. § 40-252.
- "Non-price tariff change" means modification of one or more tariff provisions, either through altering existing tariff language or adding new tariff language, in a manner that substantively alters a requirement other than a rate or charge.
 - "Rate schedule" means a schedule of rates and conditions for a specific classification of customer or for other specific services.
 - "Rate structure change" means any of the following:
 - Introduction of a new rate schedule;
 - Elimination of an existing rate schedule;
 - A change in base revenue generated by any one rate class greater than 150% of the overall base revenue increase;
 - A change greater than 25% in the customer charge within a rate schedule for residential customers; or
 - A change in the rate blocks or the percentage relationship of the prices among rate blocks.
 - "RUS" means United States Department of Agriculture, Rural Utilities Service.
 - "Staff" has the same meaning as in R14-2-103.
 - "Test year" means the one-year historical period used in determining rate base, operating income, and rate of return, which shall have an ending date within nine months before the filing date for a rate application under this Section and shall include at least six months during which a cooperative's current rates and charges were in effect.
 - "Timely" means in the manner and before the deadline prescribed in this Section.
- B.** Eligibility Requirements. A cooperative may file and pursue a rate application under this Section rather than R14-2-103 if all of the following eligibility requirements are met:
- The cooperative is classified as a Class A, B, or C utility under R14-2-103(A)(3)(q);
 - A full permanent rate case decision for the cooperative has been issued within the 180-month period immediately preceding the filing of the cooperative's rate application;
 - The cooperative has not filed a rate application under this Section within the 12 months immediately preceding the filing of the cooperative's rate application;
 - The cooperative's rate application is the first, second, third, fourth, or fifth rate application filed by the cooperative under this Section since its last full permanent rate case decision was issued;
 - The cooperative is required by law or contract to make a certified annual financial and statistical report to a federal agency, such as RUS or FERC, or an established national non-profit lender that specializes in the utility industry, such as CFC or CoBank.
 - The test year used in the cooperative's rate application complies, without waiver, to the definition of a test year in subsection (A);
 - The cooperative's rate application includes audited financials for a period ending no more than nine months before the beginning of the test year;

Corporation Commission - Fixed Utilities

8. The cooperative's rate application does not propose an increase in total base revenue amounting to more than 6% of the actual test year total base revenue;
 9. The cooperative's rate application uses its original cost rate base as its fair value rate base;
 10. The cooperative's rate application proposes only a change in rates and charges and does not propose any of the following:
 - a. A change in an existing adjustor or surcharge mechanism;
 - b. Adoption of a new adjustor or surcharge mechanism, unless incorporating a charge or charges otherwise previously approved by the Commission; or
 - c. Adoption of a new hook-up fee or another new type of fee;
 11. The cooperative's rate application does not propose a rate structure change or a non-price tariff change;
 12. The cooperative's rate application does not request financing approval or other approvals and does not request consolidation with another docket;
 13. The customer notice provided by the cooperative conformed to the requirements of subsection (D) and was approved by Staff;
 14. For a distribution cooperative, the objections timely submitted by the cooperative's customers represent no more than 5% of all customer accounts or no more than 1,000 customer accounts, whichever is fewer; and
 15. For a generation or transmission cooperative, no member distribution cooperative has filed a timely objection to the application, and the objections timely submitted by retail customers served by member distribution cooperatives represent no more than 3,000 customer accounts.
- C. Pre-Filing Requirements.** Before filing a rate application under this Section, a cooperative shall:
1. Analyze the cooperative's eligibility under subsection (B);
 2. Submit to Staff, in both hard copy and electronic (with formulae intact) formats, a Request for Pre-Filing Eligibility Review, which shall include a draft application including the items and information described in subsections (E)(1) through (6), a copy of the Proposed Form of Notice to be sent to the cooperative's customers, and a Proposed Form of Recommended Order;
 3. No sooner than 30 days after the date Staff receives the Request for Pre-Filing Eligibility Review, meet with Staff to discuss the cooperative's eligibility under subsection (B) and any Staff modifications to the Proposed Form of Notice;
 4. After meeting with Staff, if the cooperative decides to pursue a rate application under this Section, file a Request for Docket Number and Proposed Form of Notice for Staff approval; and
 5. At least 20 days before filing a rate application under this Section, provide Notice of the application, conforming to the requirements of subsection (D) and as approved by Staff, as follows:
 - a. If a distribution cooperative, by sending the Notice, by First Class Mail, to each of the cooperative's customers; and
 - b. If a generation or transmission cooperative, by publishing the Notice in at least one newspaper of general circulation in the service territory of each member distribution cooperative served and by sending the Notice, by First Class Mail, to each member distribution cooperative served.
- D. Notice Requirements.** A cooperative shall ensure that the Notice sent as required under subsection (C)(5) is in a form approved by Staff and that it includes, at a minimum, all of the following:
1. The cooperative's name and contact information;
 2. The docket number assigned to the cooperative's rate application proceeding;
 3. A summary of the rate relief requested by the cooperative in its rate application;
 4. For a distribution cooperative, the monthly bill impact to a residential customer with average usage and to a residential customer with median usage if the requested rate relief were granted by the Commission;
 5. For a distribution cooperative, the monthly bill impact to a residential customer with average usage and to a residential customer with median usage if the cooperative were granted rate relief equal to a 6% increase of the actual test year total base revenue;
 6. For a generation or transmission cooperative, the estimated rate and revenue impact to each member distribution cooperative served if the requested rate relief were granted by the Commission;
 7. Instructions for viewing or obtaining filed documents;
 8. Information regarding the Commission's process under this Section;
 9. The deadline to file intervention requests and objections, which shall be a date no earlier than 30 days after the date Notice is mailed to customers;
 10. Instructions for requesting intervention and submitting objections; and
 11. Information regarding disability accommodations.
- E. Filing Requirements.** No later than 50 days after completing the provision of Notice as required by subsection (C)(5), a cooperative may file in the assigned docket a rate application under this Section, which shall include the following:
1. The legal name of the cooperative and identification of the test year;
 2. A waiver of the use of reconstruction cost new rate base to determine the cooperative's fair value rate base;
 3. A copy of the most recent certified annual financial and statistical report submitted by the cooperative to a federal agency, such as RUS or FERC, or an established national non-profit lender that specializes in the utility industry, such as CFC or CoBank;
 4. A copy of audited financials for the cooperative, for a period ending no earlier than nine months before the beginning of the test year;
 5. The information listed in the table in R14-2-103(B)(1) for Schedules A-1, A-4, and A-5, which shall be submitted in the format provided in Appendix Schedules A-1, A-4, and A-5;
 6. The information listed in the table in R14-2-103(B)(1) for Schedules B-2, B-5, C-1, C-2 (if applicable), C-3 (if a taxable entity), D-2, E-1, E-2 (with the same year-ending date as the test year and the same level of detail as shown for the test year in Schedule C-1), E-5 through E-7, E-8 (if a taxable entity), E-9, F-1, F-2, F-3, F-4, and H-1 through H-5, which:
 - a. Shall be included on schedules labeled consistently with and containing the substantive information corresponding to the Appendix Schedules,
 - b. Shall conform to the instructions and notes contained on the corresponding Appendix Schedules,
 - c. May be submitted in the format provided in the Appendix Schedules or formatted in an alternate manner, and

Corporation Commission - Fixed Utilities

- d. May omit information that is not applicable to the cooperative's operations;
- 7. A copy of the Notice sent and, if applicable, published, as required under subsection (C)(5); and
- 8. Proof that the Notice was sent and, if applicable, published, as required under subsection (C)(5), at least 20 days, and no more than 50 days, before the date the rate application is filed.
- F. Pre-Eligibility-Review Objections and Requests.** Any person desiring to object to the cooperative's rate application or to request intervention in the cooperative's rate case shall file an objection or request no later than the date specified in the Notice provided pursuant to subsection (C)(5).
- G. Late Objections.** In determining the cooperative's eligibility to proceed with its rate application under this Section, Staff shall not consider any objection that is filed after the deadline in the Notice provided pursuant to subsection (C)(5).
- H. Eligibility and Sufficiency Review.** Within 14 days after the deadline for objections and intervention requests specified in the Notice provided pursuant to subsection (C)(5), Staff shall:
 - 1. Review the cooperative's rate application, along with any objections timely filed under subsection (F), to determine whether the cooperative is eligible, under subsection (B), to pursue its rate application under this Section;
 - 2. File either a Notice of Eligibility or a Notice of Ineligibility;
 - 3. If the cooperative is eligible, complete the following:
 - a. Conduct a sufficiency review of the cooperative's rate application;
 - b. Determine whether the rate application complies with the requirements of subsection (E); and
 - c. File either a Notice of Sufficiency that classifies the cooperative as provided in R14-2-103(A)(3)(q) or a Notice of Deficiency that lists and explains each defect in the rate application that must be corrected to make the rate application sufficient.
- I. Eligibility and Sufficiency Determinations.** Staff's determinations of eligibility, ineligibility, sufficiency, and deficiency are final and are not Commission decisions or Commission orders under A.R.S. §§ 40-252 and 40-253.
- J. Request for Processing under R14-2-103.** Within 30 days after a Notice of Ineligibility is filed, a cooperative may file a Request for Processing under R14-2-103. If a cooperative files a Request for Processing under R14-2-103, all further activity under this Section shall cease, and the cooperative's rate application shall be deemed a new rate application, filed under R14-2-103, on the date the Request for Processing under R14-2-103 is filed.
- K. Docket Closure.** If a Request for Processing under R14-2-103 is not filed within 30 days after a Notice of Ineligibility is filed, the Hearing Division shall issue a procedural order administratively closing the docket.
- L. Action on Notice of Deficiency.** After Staff files a Notice of Deficiency:
 - 1. The cooperative shall promptly address each defect listed in the Notice of Deficiency and file all necessary corrections and information to bring the rate application to sufficiency; and
 - 2. Within 14 days after receiving the cooperative's corrections and information, Staff shall again take the actions described in subsections (H)(3) through (5).
- M. Substantive Review and Staff Report.** After Staff files a Notice of Sufficiency, Staff shall:
 - 1. Conduct a substantive review of the rate application;
 - 2. Prepare a Staff Report that shall include Staff's recommendations and may include a Request for Hearing that complies with subsection (O);
 - 3. If including a Request for Hearing, file the Staff Report within the following number of days after the Notice of Sufficiency is filed:
 - a. If the cooperative is a Class A utility, 100 days;
 - b. If the cooperative is a Class B utility, 100 days; and
 - c. If the cooperative is a Class C utility, 75 days; and
 - 4. If not including a Request for Hearing, file the Staff Report and a Recommended Order within the following number of days after the Notice of Sufficiency is filed:
 - a. If the cooperative is a Class A utility, 120 days;
 - b. If the cooperative is a Class B utility, 120 days; and
 - c. If the cooperative is a Class C utility, 95 days.
- N. Responses to Staff Report.** Within 10 days after Staff files a Staff Report:
 - 1. The cooperative shall file a Response to the Staff Report, which may include a Request for Hearing that complies with subsection (O) or a Request for Withdrawal; and
 - 2. Each intervenor shall file a Response to the Staff Report, which may include a Request for Hearing that complies with subsection (O).
- O. Request for Hearing.** A Request for Hearing shall include, at a minimum, an explanation of the requesting party's reasons for believing that an evidentiary hearing should be held; a summary of each issue on which the party believes evidence should be provided; and a recitation of the witnesses and documentary evidence that the requesting party believes could be produced to provide evidence on each issue.
- P. Action on Request for Hearing.** The Hearing Division shall rule on each Request for Hearing and may require party responses, including oral argument, or other proceedings at its discretion in considering a Request for Hearing. If a hearing is granted, the Hearing Division shall preside over all further proceedings in the case.
- Q. Action on Request for Withdrawal.** The Hearing Division shall rule on each Request for Withdrawal and may require party responses, including oral argument, or other proceedings at its discretion in considering a Request for Withdrawal. If withdrawal is granted, the Hearing Division shall issue a procedural order administratively closing the docket.
- R. Requirement for Service.** A party that files a document under this Section shall also serve a copy of the document on each other party to the case, by a method conforming to the requirements of A.A.C. R14-3-107(B) and (C).
- S. Revenue Increase Cap.** No Commission decision issued under this Section shall increase a cooperative's base revenue by more than 6% of the cooperative's actual test year total base revenue.
- T. The Commission may, at any stage in the processing of a cooperative's rate application under this section, determine that the rate application shall instead proceed under R14-2-103.**

Historical Note

New Section made by final rulemaking at 19 A.A.R. 397, effective April 9, 2013 (Supp. 13-1).

ARTICLE 2. ELECTRIC UTILITIES

Editor's Note: The following Section was amended under an exemption from the Attorney General approval provisions of the Arizona Administrative Procedure Act (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)), as determined by the Corporation Commission. This

exemption means that the rules as amended were not approved by the Attorney General.

R14-2-201. Definitions

In this Article, unless the context otherwise requires, the following definitions shall apply. In addition, the definitions contained in Article 16, Retail Electric Competition, shall apply in this Article unless the context otherwise requires.

1. "Advance in aid of construction." Funds provided to the utility by the applicant under the terms of a line extension agreement the value of which may be refundable.
2. "Applicant." A person requesting the utility to supply electric service.
3. "Application." A request to the utility for electric service, as distinguished from an inquiry as to the availability or charges for such service.
4. "Arizona Corporation Commission." The regulatory authority of the state of Arizona having jurisdiction over public service corporations operating in Arizona.
5. "Billing month." The period between any two regular readings of the utility's meters at approximately 30 day intervals.
6. "Billing period." The time interval between two consecutive meter readings that are taken for billing purposes.
7. "Contributions in aid of construction." Funds provided to the utility by the applicant under the terms of a line extension agreement or service connection tariff the value of which is not refundable.
8. "Curtailed priority." The order in which electric service is to be curtailed to various classifications of customers, as set forth in the utility's filed tariffs.
9. "Customer." The person or entity in whose name service is rendered, as evidenced by the signature on the application or contract for that service, or by the receipt and/or payment of bills regularly issued in his name regardless of the identity of the actual user of the service.
10. "Customer charge." The amount the customers must pay the utility for the availability of electric service, excluding any electricity used, as specified in the utility's tariffs.
11. "Day." Calendar day.
12. "Demand." The rate at which power is delivered during any specified period of time. Demand may be expressed in kilowatts, kilovolt-amperes, or other suitable units.
13. "Distribution lines." The utility lines operated at distribution voltage which are constructed along public roadways or other bona fide rights-of-way, including easements on customer's property.
14. "Elderly." A person who is 62 years of age or older.
15. "Energy." Electric energy, expressed in kilowatt-hours.
16. "Handicapped." A person with a physical or mental condition which substantially contributes to the person's inability to manage his or her own resources, carry out activities of daily living, or protect oneself from neglect or hazardous situations without assistance from others.
17. "Illness." A medical ailment or sickness for which a residential customer obtains a verified document from a licensed medical physician stating the nature of the illness and that discontinuance of service would be especially dangerous to the customer's health.
18. "Inability to pay." Circumstances where a residential customer:
 - a. Is not gainfully employed and unable to pay, or
 - b. Qualifies for government welfare assistance, but has not begun to receive assistance on the date that he receives his bill and can obtain verification of that fact from the government welfare assistance agency.
- c. Has an annual income below the published federal poverty level and can produce evidence of this, and
- d. Signs a declaration verifying that the customer meets one of the above criteria and is either elderly, handicapped, or suffers from illness.
19. "Interruptible electric service." Electric service that is subject to interruption as specified in the utility's tariff.
20. "Kilowatt (kw)." A unit of power equal to 1,000 watts.
21. "Kilowatt-hour (kwh)." Electric energy equivalent to the amount of electric energy delivered in one hour when delivery is at a constant rate of 1 kilowatt.
22. "Line extension." The lines and equipment necessary to extend the electric distribution system of the utility to provide service to additional customers.
23. "Master meter." A meter for measuring or recording the flow of electricity that has passed through it at a single location where said electricity is distributed to tenants or occupants for their individual usage.
24. "Megawatt (Mw)." A unit of power equal to 1,000,000 watts.
25. "Meter." The instrument for measuring and indicating or recording the flow of electricity that has passed through it.
26. "Meter tampering." A situation where a meter has been illegally altered. Common examples are meter bypassing, use of magnets to slow the meter recording, and broken meter seals.
27. "Minimum charge." The amount the customer must pay for the availability of electric service, including an amount of usage, as specified in the utility's tariffs.
28. "Permanent customer." A customer who is a tenant or owner of a service location who applies for and receives permanent electric service.
29. "Permanent service." Service which, in the opinion of the utility, is of a permanent and established character. The use of electricity may be continuous, intermittent, or seasonal in nature.
30. "Person." Any individual, partnership, corporation, governmental agency, or other organization operating as a single entity.
31. "Point of delivery." The point where facilities owned, leased, or under license by a customer connects to the utility's facilities.
32. "Power." The rate of generating, transferring, or using electric energy, usually expressed in kilowatts.
33. "Premises." All of the real property and apparatus employed in a single enterprise on an integral parcel of land undivided by public streets, alleys or railways.
34. "Residential subdivision development." Any tract of land which has been divided into four or more contiguous lots with an average size of one acre or less for use for the construction of residential buildings or permanent mobile homes for either single or multiple occupancy.
35. "Residential use." Service to customers using electricity for domestic purposes such as space heating, air conditioning, water heating, cooking, clothes drying, and other residential uses and includes use in apartment buildings, mobile home parks, and other multiunit residential buildings.
36. "Service area." The territory in which the utility has been granted a Certificate of Convenience and Necessity and is authorized by the Commission to provide electric service.
37. "Service establishment charge." The charge as specified in the utility's tariffs which covers the cost of establishing a new account.

Corporation Commission - Fixed Utilities

38. "Service line." The line extending from a distribution line or transformer to the customer's premises or point of delivery.
39. "Service reconnect charge." The charge as specified in the utility's tariffs which must be paid by the customer prior to reestablishment of electric service each time the electricity is disconnected for nonpayment or whenever service is discontinued for failure otherwise to comply with the utility's tariffs.
40. "Service reestablishment charge." A charge as specified in the utility's tariffs for service at the same location where the same customer had ordered a service disconnection within the preceding 12-month period.
41. "Single family dwelling." A house, an apartment, a mobile home permanently affixed to a lot, or any other permanent residential unit which is used as a permanent home.
42. "Tariffs." The documents filed with the Commission which list the services and products offered by the utility and which set forth the terms and conditions and a schedule of the rates and charges, for those services and products.
43. "Temporary service." Service to premises or enterprises which are temporary in character, or where it is known in advance that the service will be of limited duration. Service which, in the opinion of the utility, is for operations of a speculative character is also considered temporary service.
44. "Third-party notification." A notice sent to an individual or a public entity willing to receive notification of the pending discontinuance of service of a customer of record in order to make arrangements on behalf of said customer satisfactory to the utility.
45. "Utility." The public service corporation providing electric service to the public in compliance with state law, except in those instances set forth in R14-2-1612(A) and (B).
46. "Weather especially dangerous to health." That period of time commencing with the scheduled termination date when the local weather forecast, as predicted by the National Oceanographic and Administration Service, indicates that the temperature will not exceed 32 degrees Fahrenheit for the next day's forecast. The Commission may determine that other weather conditions are especially dangerous to health as the need arises.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2). Amended by exempt rulemaking at 5 A.A.R. 3933, effective September 24, 1999 (Supp. 99-3). Amended by exempt rulemaking at 6 A.A.R. 4180, effective October 13, 2000 (Supp. 00-4).

Editor's Note: The following Section was amended under an exemption from the Attorney General approval provisions of the Arizona Administrative Procedure Act (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)), as determined by the Corporation Commission. This exemption means that the rules as amended were not approved by the Attorney General.

R14-2-202. Certificate of Convenience and Necessity for Electric Utilities

- A. Application for new Certificate of Convenience and Necessity. Six copies of each application for a new Certificate of Convenience and Necessity shall be submitted to the Commission, through Docket Control, in a form prescribed by the Commis-

sion and shall include, at a minimum, the following information:

1. The proper name and correct address of the proposed utility company and its owner, if a sole proprietorship, each partner, if a partnership, or the President and Secretary if a corporation.
2. The rates proposed to be charged for the service that will be rendered.
3. A financial statement setting forth the financial condition of the applicant.
4. Maps of the proposed service area or a description of the area proposed to be served.
5. Appropriate city, county and/or state agency approvals, where appropriate.
6. The actual number of customers within the service area as of the time of filing and the estimated number of customers to be served for each of the first five years of operation.
7. Such other information as the Commission by order or the staff of the Utilities Division by written directive may request.

B. Application for discontinuance or abandonment of utility service

1. Any utility proposing to discontinue or abandon utility service currently in use by the public shall prior to such action obtain authority therefor from the Commission.
2. The utility shall include in the application, studies of past, present and prospective customer use of the subject service, plant, or facility as is necessary to support the application.
3. An application shall not be required to remove individual facilities where a customer has requested service discontinuance.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2). Amended by exempt rulemaking at 5 A.A.R. 3933, effective September 24, 1999 (Supp. 99-3). Amended by exempt rulemaking at 6 A.A.R. 4180, effective October 13, 2000 (Supp. 00-4).

Editor's Note: The following Section was amended under an exemption from the Attorney General approval provisions of the Arizona Administrative Procedure Act (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)), as determined by the Corporation Commission. This exemption means that the rules as amended were not approved by the Attorney General.

R14-2-203. Establishment of Service**A. Information from new applicants**

1. A utility may obtain the following minimum information from each new applicant for service:
 - a. Name or names of applicant or applicants.
 - b. Service address or location and telephone number.
 - c. Billing address/telephone number, if different than service address.
 - d. Address where service was provided previously.
 - e. Date applicant will be ready for service.
 - f. Indication of whether premises have been supplied with utility service previously.
 - g. Purpose for which service is to be used.
 - h. Indication of whether applicant is owner or tenant of or agent for the premises.
 - i. Information concerning the energy and demand requirements of the customer.
 - j. Type and kind of life-support equipment, if any, used by the customer.

Corporation Commission - Fixed Utilities

2. Customer-specific information shall not be released without specific prior written customer authorization unless the information is requested by a law enforcement or other public agency, or is requested by the Commission or its staff, or is reasonably required for legitimate account collection activities, or is necessary to provide safe and reliable service to the customer.
 3. A utility may require a new applicant for service to appear at the utility's designated place of business to produce proof of identity and sign the utility's application form.
 4. Where service is requested by two or more individuals the utility shall have the right to collect the full amount owed to the utility from any one of the applicants.
- B. Deposits**
1. A utility shall not require a deposit from a new applicant for residential service if the applicant is able to meet any of the following requirements:
 - a. The applicant has had service of a comparable nature with the utility within the past two years and was not delinquent in payment more than twice during the last 12 consecutive months or disconnected for nonpayment.
 - b. The applicant can produce a letter regarding credit or verification from an electric utility where service of a comparable nature was last received which states applicant had a timely payment history at time of service discontinuance.
 - c. In lieu of a deposit, a new applicant may provide a Letter of Guarantee from a governmental or non-profit entity or a surety bond as security for the utility.
 2. The utility may issue a nonnegotiable receipt to the applicant for the deposit. The inability of the customer to produce such a receipt shall in no way impair his or her right to receive a refund of the deposit which is reflected on the utility's records.
 3. Deposits shall be interest bearing; the interest rate and method of calculation shall be filed with and approved by the Commission in a tariff proceeding.
 4. Each utility shall file a deposit refund procedure with the Commission, through Docket Control, subject to Commission review and approval during a tariff proceeding. However, each utility's refund policy shall include provisions for residential deposits and accrued interest to be refunded or letters of guarantee or surety bonds to expire after 12 months of service if the customer has not been delinquent more than twice in the payment of utility bills.
 5. A utility may require a residential customer to establish or reestablish a deposit if the customer becomes delinquent in the payment of two bills within a 12-consecutive-month period or has been disconnected for service during the last 12 months.
 6. The amount of a deposit required by the utility shall be determined according to the following terms:
 - a. Residential customer deposits shall not exceed two times that customer's estimated average monthly bill.
 - b. Nonresidential customer deposits shall not exceed 2 1/2 times that customer's estimated maximum monthly bill.
 7. The utility may review the customer's usage after service has been connected and adjust the deposit amount based upon the customer's actual usage.
 8. A separate deposit may be required for each meter installed.
 9. If a utility Distribution Company's customer with an established deposit elects to take competitive services from an Electric Service Provider, and is not currently delinquent in payments to the Utility Distribution Company, the Utility Distribution Company will refund a portion of the customer's deposit in proportion to the expected decrease in monthly billing. A customer returning to Standard Offer Service may be required to increase an established deposit in proportion to the expected increase in monthly billing.
- C. Grounds for refusal of service.** A utility may refuse to establish service if any of the following conditions exist:
1. The applicant has an outstanding amount due for the same class of utility service with the utility, and the applicant is unwilling to make arrangements with the utility for payment.
 2. A condition exists which in the utility's judgment is unsafe or hazardous to the applicant, the general population, or the utility's personnel or facilities.
 3. Refusal by the applicant to provide the utility with a deposit when the customer has failed to meet the credit criteria for waiver of deposit requirements.
 4. Customer is known to be in violation of the utility's tariffs filed with the Commission.
 5. Failure of the customer to furnish such funds, service, equipment, or rights-of-way necessary to serve the customer and which have been specified by the utility as a condition for providing service.
 6. Applicant falsifies his or her identity for the purpose of obtaining service.
- D. Service establishments, re-establishments or reconnection charge**
1. Each utility may make a charge as approved by the Commission for the establishment, reestablishment, or reconnection of utility services, including transfers between Electric Service Providers.
 2. Should service be established during a period other than regular working hours at the customer's request, the customer may be required to pay an after-hour charge for the service connection. Where the utility scheduling will not permit service establishment on the same day requested, the customer can elect to pay the after-hour charge for establishment that day or the customer's service will be established on the next available normal working day.
 3. For the purpose of this rule, the definition of service establishments are where the customer's facilities are ready and acceptable to the utility and the utility needs only to install a meter, read a meter, or turn the service on.
 4. Service establishments with an Electric Service Provider will be scheduled for the next regular meter read date if the direct access service request is provided 15 calendar days prior to that date and appropriate metering equipment is in place. If a direct access service request is made in less than 15 days prior to the next regular read date, service will be established at the next regular meter read date thereafter. The utility may offer after-hours or earlier service for a fee. This Section shall not apply to the establishment of new service but is limited to a change of providers of existing electric service.
- E. Temporary service**
1. Applicants for temporary service may be required to pay the utility, in advance of service establishment, the estimated cost of installing and removing the facilities necessary for furnishing the desired service.

Corporation Commission - Fixed Utilities

2. Where the duration of service is to be less than one month, the applicant may also be required to advance a sum of money equal to the estimated bill for service.
3. Where the duration of service is to exceed one month, the applicant may also be required to meet the deposit requirements of the utility.
4. If at any time during the term of the agreement for services the character of a temporary customer's operations changes so that in the opinion of the utility the customer is classified as permanent, the terms of the utility's line extension rules shall apply.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2). Amended by an emergency action effective August 10, 1998, pursuant to A.R.S. § 41-1026, in effect for a maximum of 180 days (Supp. 98-3). Emergency amendment replaced by exempt permanent amendment effective December 31, 1998 (Supp. 98-4). Amended by exempt rulemaking at 5 A.A.R. 3933, effective September 24, 1999 (Supp. 99-3). Amended by exempt rulemaking at 6 A.A.R. 4180, effective October 13, 2000 (Supp. 00-4).

Editor's Note: The following Section was amended under an exemption from the Attorney General approval provisions of the Arizona Administrative Procedure Act (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)), as determined by the Corporation Commission. This exemption means that the rules as amended were not approved by the Attorney General.

R14-2-204. Minimum Customer Information Requirements**A. Information for residential customers**

1. A utility shall make available upon customer request not later than 15 days from the date of request a concise summary of the rate schedule applied for by such customer. The summary shall include the following:
 - a. The monthly minimum or customer charge, identifying the amount of the charge and the specific amount of usage included in the minimum charge, where applicable.
 - b. Rate blocks, where applicable.
 - c. Any adjustment factor and method of calculation.
2. The utility shall to the extent practical identify its tariff that is most advantageous to the customer and notify the customer of such prior to service commencement.
3. In addition, a utility shall make available upon customer request, not later than 60 days from date of service commencement, a concise summary of the utility's tariffs or the Commission's rules and regulations concerning:
 - a. Deposits
 - b. Termination of service
 - c. Billing and collection
 - d. Complaint handling.
4. Each utility upon request of a customer shall transmit a written statement of actual consumption by such customer for each billing period during the prior 12 months unless such data is not reasonably ascertainable.
5. Each utility shall inform all new customers of their right to obtain the information specified above.

B. Information required due to changes in tariffs

1. Each utility shall transmit to affected customers a concise summary of any change in the utility's tariffs affecting those customers.
2. This information shall be transmitted to the affected customer within 60 days of the effective date of the change.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2). Amended by an emergency action effective August 10, 1998, pursuant to A.R.S. § 41-1026, in effect for a maximum of 180 days (Supp. 98-3). Emergency amendment replaced by exempt permanent amendment effective December 31, 1998 (Supp. 98-4). Amended by exempt rulemaking at 5 A.A.R. 3933, effective September 24, 1999 (Supp. 99-3).

Editor's Note: The following Section was amended under an exemption from the Attorney General approval provisions of the Arizona Administrative Procedure Act (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)), as determined by the Corporation Commission. This exemption means that the rules as amended were not approved by the Attorney General.

R14-2-205. Master Metering**A. Mobile home parks -- new construction/expansion**

1. A utility shall refuse service to all new construction or expansion of existing permanent residential mobile home parks unless the construction or expansion is individually metered by the utility. Line extensions and service connections to serve such expansion shall be governed by the line extension and service connection tariff of the appropriate utility.
2. Permanent residential mobile home parks for the purpose of this rule shall mean mobile home parks where, in the opinion of the utility, the average length of stay for an occupant is a minimum of six months.
3. For the purpose of this rule, expansion means the acquisition of additional real property for permanent residential spaces in excess of that existing at the effective date of this rule.

B. Residential apartment complexes, condominiums, and other multiunit residential buildings

1. Master metering shall not be allowed for new construction of apartment complexes and condominiums unless the building or buildings will be served by a centralized heating, ventilation or air conditioning system and the contractor can provide to the utility an analysis demonstrating that the central unit will result in a favorable cost/benefit relationship.
2. At a minimum, the cost/benefit analysis should consider the following elements for a central unit as compared to individual units:
 - a. Equipment and labor costs,
 - b. Financing costs,
 - c. Maintenance costs,
 - d. Estimated kwh usage,
 - e. Estimated kw demand on a coincident demand and noncoincident demand basis (for individual units),
 - f. Cost of meters and installation, and
 - g. Customer accounting cost (one account vs. several accounts).

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2). Amended by exempt rulemaking at 5 A.A.R. 3933, effective September 24, 1999 (Supp. 99-3).

Editor's Note: The following Section was amended under an exemption from the Attorney General approval provisions of the Arizona Administrative Procedure Act (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)), as determined by the Corporation Commission. This

exemption means that the rules as amended were not approved by the Attorney General.

R14-2-206. Service Lines and Establishments

A. Priority and timing of service establishments

1. After an applicant has complied with the utility's application and deposit requirements and has been accepted for service by the utility, the utility shall schedule that customer for service establishment.
2. Service establishments shall be scheduled for completion within five working days of the date the customer has been accepted for service, except in those instances when the customer requests service establishment beyond the five working day limitation.
3. When a utility has made arrangements to meet with a customer for service establishment purposes and the utility or the customer cannot make the appointment during the prearranged time, the utility shall reschedule the service establishment to the satisfaction of both parties.
4. A utility shall schedule service establishment appointments within a maximum range of four hours during normal working hours, unless another time-frame is mutually acceptable to the utility and the customer.
5. Service establishments shall be made only by qualified utility service personnel.
6. For the purposes of this rule, service establishments are where the customer's facilities are ready and acceptable to the utility and the utility needs only to install or read a meter or turn the service on.

B. Service lines

1. Customer provided facilities
 - a. Each applicant for services shall be responsible for all inside wiring including the service entrance and meter socket.
 - b. Meters and service switches in conjunction with the meter shall be installed in a location where the meters will be readily and safely accessible for reading, testing and inspection and where such activities will cause the least interference and inconvenience to the customer. However, the meter locations shall not be on the front exterior wall of the home; or in the carport or garage, unless mutually agreed to between the home builder or customer and the utility. The customer shall provide, without cost to the utility, at a suitable and easily accessible location, sufficient and proper space for installation of meters.
 - c. Where the meter or service line location on the customer's premises is changed at the request of the customer or due to alterations on the customer's premises, the customer shall provide and have installed at his expense all wiring and equipment necessary for relocating the meter and service line connection and the utility may make a charge for moving the meter or service line.
2. Company provided facilities
 - a. Each utility shall file, in Docket Control, for Commission approval, a service line tariff which defines the maximum footage or equipment allowance to be provided by the utility at no charge. The maximum footage or equipment allowance may be differentiated by customer class.
 - b. The cost of any service line in excess of that allowed at no charge shall be paid for by the customer as a contribution in aid of construction.
 - c. A customer requesting an underground service line in an area served by overhead facilities shall pay for the difference between an overhead service connec-

tion and the actual cost of the underground connection as a nonrefundable contribution.

C. Easements and rights-of-way

1. Each customer shall grant adequate easement and right-of-way satisfactory to the utility to ensure that customer's proper service connection. Failure on the part of the customer to grant adequate easement and right-of-way shall be grounds for the utility to refuse service.
2. When a utility discovers that a customer or customer's agent is performing work or has constructed facilities adjacent to or within an easement or right-of-way and such work, construction or facility poses a hazard or is in violation of federal, state or local laws, ordinances, statutes, rules or regulations, or significantly interferes with the utility's access to equipment, the utility shall notify the customer or customer's agent and shall take whatever actions are necessary to eliminate the hazard, obstruction, or violation at the customer's expense.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2). Amended by exempt rulemaking at 5 A.A.R. 3933, effective September 24, 1999 (Supp. 99-3). Amended by exempt rulemaking at 6 A.A.R. 4180, effective October 13, 2000 (Supp. 00-4).

Editor's Note: The following Section was amended under an exemption from the Attorney General certification provisions of the Arizona Administrative Procedure Act (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)), as determined by the Corporation Commission. This exemption means that the rules as amended were not certified by the Attorney General.

R14-2-207. Line Extensions

A. General requirements

1. Each utility shall file, in Docket Control, for Commission approval, a line extension tariff which incorporates the provisions of this rule and specifically defines the conditions governing line extensions.
2. Upon request by an applicant for a line extension, the utility shall prepare, without charge, a preliminary sketch and rough estimate of the cost of installation to be paid by said applicant.
3. Any applicant for a line extension requesting the utility to prepare detailed plans, specifications, or cost estimates may be required to deposit with the utility an amount equal to the estimated cost of preparation. The utility shall, upon request, make available within 90 days after receipt of the deposit referred to above, such plans, specifications, or cost estimates of the proposed line extension. Where the applicant authorizes the utility to proceed with construction of the extension, the deposit shall be credited to the cost of construction; otherwise the deposit shall be nonrefundable. If the extension is to include oversizing of facilities to be done at the utility's expense, appropriate details shall be set forth in the plans, specifications and cost estimates. Subdivisions providing the utility with approved plans shall be provided with plans, specifications, or cost estimates within 45 days after receipt of the deposit referred to above.
4. Where the utility requires an applicant to advance funds for a line extension, the utility shall furnish the applicant with a copy of the line extension tariff of the appropriate utility prior to the applicant's acceptance of the utility's extension agreement.
5. All line extension agreements requiring payment by the applicant shall be in writing and signed by each party.

Corporation Commission - Fixed Utilities

6. The provisions of this rule apply only to those applicants who in the utility's judgment will be permanent customers of the utility. Applications for temporary service shall be governed by the Commission's rules concerning temporary service applications.
- B. Minimum written agreement requirements**
 1. Each line extension agreement shall, at a minimum, include the following information:
 - a. Name and address of applicant or applicants;
 - b. Proposed service address or location;
 - c. Description of requested service;
 - d. Description and sketch of the requested line extension;
 - e. A cost estimate to include materials, labor, and other costs as necessary;
 - f. Payment terms;
 - g. A concise explanation of any refunding provisions, if applicable;
 - h. The utility's estimated start date and completion date for construction of the line extension; and
 - i. A summary of the results of the economic feasibility analysis performed by the utility to determine the amount of advance required from the applicant for the proposed line extension.
 2. Each applicant shall be provided with a copy of the written line extension agreement.
- C. Line extension requirements.** Each line extension tariff shall include the following provisions:
 1. A maximum footage or equipment allowance to be provided by the utility at no charge. The maximum footage or equipment allowance may be differentiated by customer class.
 2. An economic feasibility analysis for those extensions which exceed the maximum footage or equipment allowance. Such economic feasibility analysis shall consider the incremental revenues and costs associated with the line extension. In those instances where the requested line extension does not meet the economic feasibility criteria established by the utility, the utility may require the customer to provide funds to the utility, which will make the line extension economically feasible. The methodology employed by the utility in determining economic feasibility shall be applied uniformly and consistently to each applicant requiring a line extension.
 3. The timing and methodology by which the utility will refund any advances in aid of construction as additional customers are served off the line extension. The customer may request an annual survey to determine if additional customers have been connected to and are using service from the extension. In no case shall the amount of the refund exceed the amount originally advanced.
 4. All advances in aid of construction shall be noninterest bearing.
 5. If after five years from the utility's receipt of the advance, the advance has not been totally refunded, the advance shall be considered a contribution in aid of construction and shall no longer be refundable.
- D. Residential subdivision development and permanent mobile home parks.** Each utility shall submit as a part of its line extension tariff separate provisions for residential subdivision developments and permanent mobile home parks.
- E. Single phase underground extensions in subdivision developments**
 1. Extensions of single phase electric lines necessary to furnish permanent electric service to new residential buildings or mobile homes within a subdivision, in which facilities for electric service have not been constructed, for which applications are made by a developer shall be installed underground in accordance with the provisions set forth in this rule except where it is not feasible from an engineering, operational, or economic standpoint.
2. Rights-of-way easements
 - a. The utility shall construct or cause to be constructed and shall own, operate, and maintain all underground electric distribution and service lines along public streets, roads, and highways and on public lands and private property which the utility has the legal right to occupy.
 - b. Rights-of-way and easements suitable to the utility must be furnished by the developer at no cost to the utility and in reasonable time to meet service requirements. No underground electric facilities shall be installed by a utility until the final grades have been established and furnished to the utility. In addition, the easement strips, alleys and streets must be graded to within six inches of final grade by the developer before the utility will commence construction. Such clearance and grading must be maintained by the developer during construction by the utility.
 - c. If, subsequent to construction, the clearance or grade is changed in such a way as to require relocation of the underground facilities or results in damage to such facilities, the cost of such relocation or resulting repairs shall be borne by the developer.
3. Installation of single phase underground electric lines within a subdivision
 - a. The developer shall provide the trenching, backfill (including any imported backfill required), compaction, repaving, and any earthwork for pull boxes and transformer pad sites required to install the underground electric system all in accordance with the specifications and schedules of the utility.
 - b. Each utility shall inspect the trenching provided by the developer within 24 hours after a mutually agreed upon trench opening date, and allow for phased inspection of trenching as mutually agreed upon by the developer and utility. In all cases, the utility shall make every effort to expedite the inspection of developer provided trenching. The utility shall assume responsibility for the trench within three working days after the utility has inspected and approved the trenching.
 - c. The utility shall install or cause to be installed underground electric lines and related equipment with sufficient capacity and suitable materials that ensure adequate and reasonable electric service in the foreseeable future and in accordance with the applicable provisions of Institute of Electrical and Electronic Engineers, Inc., Pub. No. C2-2007, The National Electrical Safety Code (2007), including no future editions or amendments, which is incorporated by reference, on file with the Commission, and published by and available from the Institute of Electrical and Electronic Engineers, Inc., 3 Park Avenue, 17th Floor, New York, New York 10016, and through <http://ieeexplore.ieee.org>.
 - d. Underground service lines from underground residential distribution systems shall be owned, operated and maintained by the utility, and shall be installed pursuant to its effective underground line

extension and service connection tariffs on file with the Commission.

4. Special conditions

- a. When the application of any of the provisions of subsection (E) appears to either party not to be feasible from an engineering, operational, or economic standpoint, the utility or the developer may refer the matter to the Commission for a determination as to whether an exception to the underground policy expressed within the provisions of this rule is warranted. Interested third parties may present their views to the Commission in conjunction with such referrals.
- b. Notwithstanding any provision of this regulation to the contrary, no utility shall construct overhead single phase electric lines in any new subdivision to which this rule is applicable and which is contiguous to another subdivision in which electric service is furnished underground without the approval of the Commission.
- c. Underground service lines installed pursuant to subsection (E) and accepted by the utility shall not be replaced with an overhead distribution pole line except upon a verified application of the utility, as stated in subsection (E)(4)(a).

5. Nonapplicability

- a. Any underground electric distribution system requiring more than single phase service is not covered by this regulation and shall be constructed pursuant to the effective line extension rules and regulations or policies of the affected utility on file with the Commission.
- b. If there are one or more existing distribution pole lines or lines on or across a recorded subdivision at the time of the application for electrical service for the subdivision and the line will be utilized in the subdivision. (This would not apply if the pole line were serving a building or groups of buildings or any other type of service which would be removed before construction is finished.)
- c. A distribution pole line that parallels a boundary of a subdivision and this line can serve lots within the subdivision.
- d. Subdivisions recorded prior to the effective date of this rule shall be governed by the terms and conditions of subsection (E).

F. Ownership of facilities. Any facilities installed hereunder shall be the sole property of the utility.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2). Amended subsection (E)(3)(c) effective April 1, 1986 (Supp. 86-2).

Amended effective August 6, 1991 (Supp. 91-3).

Amended effective August 16, 1996 (Supp. 96-3).

Amended by exempt rulemaking at 5 A.A.R. 2054, effective June 4, 1999 (Supp. 99-2). Amended by exempt rulemaking at 5 A.A.R. 3933, effective September 24, 1999 (Supp. 99-3). Amended to correct subsection numbering (Supp. 99-4). Amended by exempt rulemaking at 6 A.A.R. 4180, effective October 13, 2000 (Supp. 00-4). Amended by final rulemaking at 15 A.A.R. 1933, effective December 27, 2009 (Supp. 09-4).

Editor's Note: The following Section was amended under an exemption from the Attorney General approval provisions of the Arizona Administrative Procedure Act (*State ex. rel. Corbin v. Arizona Corporation Commission*, 174 Ariz. 216 848 P.2d 301

(App. 1992)), as determined by the Corporation Commission. This exemption means that the rules as amended were not approved by the Attorney General.

R14-2-208. Provision of Service

A. Utility responsibility

1. Each utility shall be responsible for the safe transmission and distribution of electricity until it passes the point of delivery to the customer.
2. The entity having control of the meter shall be responsible for maintaining in safe operating condition all meters, equipment, and fixtures installed on the customer's premises by the entity for the purposes of delivering electric service to the customer.
3. The Utility Distribution Company may, at its option, refuse service until the customer has obtained all required permits and inspections indicating that the customer's facilities comply with local construction and safety standards.

B. Customer responsibility

1. Each customer shall be responsible for maintaining all customer facilities on the customer's side of the point of delivery in safe operating condition.
2. Each customer shall be responsible for safeguarding all utility property installed in or on the customer's premises for the purpose of supplying utility service to that customer.
3. Each customer shall exercise all reasonable care to prevent loss or damage to utility property, excluding ordinary wear and tear. The customer shall be responsible for loss of or damage to utility property on the customer's premises arising from neglect, carelessness, or misuse and shall reimburse the utility for the cost of necessary repairs or replacements.
4. Each customer shall be responsible for payment for any equipment damage and estimated unmetered usage resulting from unauthorized breaking of seals, interfering, tampering, or bypassing the utility meter.
5. Each customer shall be responsible for notifying the utility of any equipment failure identified in the utility's equipment.

C. Continuity of service. Each utility shall make reasonable efforts to supply a satisfactory and continuous level of service. However, no utility shall be responsible for any damage or claim of damage attributable to any interruption or discontinuation of service resulting from:

1. Any cause against which the utility could not have reasonably foreseen or made provision for, that is, force majeure.
2. Intentional service interruptions to make repairs or perform routine maintenance.
3. Curtailment.

D. Service interruptions

1. Each utility shall make reasonable efforts to reestablish service within the shortest possible time when service interruptions occur.
2. Each utility shall make reasonable provisions to meet emergencies resulting from failure of service, and each utility shall issue instructions to its employees covering procedures to be followed in the event of emergency in order to prevent or mitigate interruption or impairment of service.
3. In the event of a national emergency or local disaster resulting in disruption of normal service, the utility may, in the public interest, interrupt service to other customers to provide necessary service to civil defense or other

Corporation Commission - Fixed Utilities

emergency service agencies on a temporary basis until normal service to these agencies can be restored.

4. When a utility plans to interrupt service for more than four hours to perform necessary repairs or maintenance, the utility shall attempt to inform affected customers at least 24 hours in advance of the scheduled date and estimated duration of the service interruption. Such repairs shall be completed in the shortest possible time to minimize the inconvenience to the customers of the utility.
 5. The Commission, Consumer Services Section, shall be notified of interruption in service affecting the entire system or any significant portion thereof. The interruption of service and cause shall be reported by telephone to the Commission within two hours after the responsible representative of the utility becomes aware of said interruption and followed by a written report to the Commission.
- E. Curtailment. Each utility shall file with the Commission, through Docket Control, as a part of its general tariffs a procedural plan for handling severe supply shortages or service curtailments. The plan shall provide for equitable treatment of individual customer classes in the most reasonable and effective manner given the existing circumstances. When the availability of service is so restricted that the reduction of service on a proportionate basis to all customer classes will not maintain the integrity of the total system, the utility shall develop procedures to curtail service giving service priority to those customers and customer classes where health, safety and welfare would be adversely affected.
- F. Construction standard and safety
1. Each utility shall construct all facilities in accordance with the provisions of Institute of Electrical and Electronic Engineers, Inc., Pub. No. C2-2007, The National Electrical Safety Code (2007), which is incorporated by reference in R14-2-207(E)(3)(c), and American Society of Mechanical Engineers, Pub. No. ANSI/ASME B31.1-2007, Power Piping (2007), including no future editions or amendments, which is incorporated by reference, on file with the Commission, and published by and available from the American Society of Mechanical Engineers, 3 Park Avenue, New York, New York 10016, and through <http://catalog.asme.org>.
 2. Each utility shall adopt a standard alternating nominal voltage or standard alternating nominal voltages (as may be required by its distribution system) for its entire service area or for each of the several districts into which the system may be divided, which standard voltage or voltages shall be stated in the rules and regulations of each utility and shall be measured at the customer's service entrance. Each utility shall, under normal operating conditions, maintain its standard voltage or voltages within the limits of National Electrical Manufacturers Association, Pub. No. ANSI C84.1-2006, American National Standard for Electric Power Systems and Equipment-Voltage Ratings (60 Hertz) (2006), including no future editions or amendments, which is incorporated by reference, on file with the Commission, and published by and available from the National Electrical Manufacturers Association, 1300 North 17th Street, Suite 1752, Rosslyn, Virginia 22209, and through <http://www.nema.org>.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2). Amended subsections (D)(5) and (F)(1) and (2) effective April 1, 1986 (Supp. 86-2). Amended effective February 8, 1991 (Supp. 91-1). Amended effective August 16, 1996 (Supp. 96-3). Amended by an emergency action effective August

10, 1998, pursuant to A.R.S. § 41-1026, in effect for a maximum of 180 days (Supp. 98-3). Emergency amendment replaced by exempt permanent amendment effective December 31, 1998 (Supp. 98-4). Amended by exempt rulemaking at 5 A.A.R. 2054, effective June 4, 1999 (Supp. 99-2). Amended by exempt rulemaking at 5 A.A.R. 3933, effective September 24, 1999 (Supp. 99-3). Amended to correct subsection numbering (Supp. 99-4). Amended by exempt rulemaking at 6 A.A.R. 4180, effective October 13, 2000 (Supp. 00-4). Amended by final rulemaking at 15 A.A.R. 1933, effective December 27, 2009 (Supp. 09-4).

Editor's Note: The following Section was amended under an exemption from the Attorney General approval provisions of the Arizona Administrative Procedure Act (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)), as determined by the Corporation Commission. This exemption means that the rules as amended were not approved by the Attorney General.

R14-2-209. Meter Reading

- A. Company or customer meter reading
1. Each utility, billing entity, or Meter Reading Service Provider may at its discretion allow for customer reading of meters.
 2. It shall be the responsibility of the utility or Meter Reading Service Provider to inform the customer how to properly read his meter.
 3. Where a customer reads his own meter, the utility or Meter Reading Service Provider will read the customer's meter at least once every six months.
 4. The utility, billing entity, or Meter Reading Service Provider shall provide the customer with postage-paid cards or other methods to report the monthly reading.
 5. Each utility or Meter Reading Service Provider shall specify the timing requirements for the customer to submit his or her monthly meter reading to conform with the utility's billing cycle.
 6. Where the Electric Service Provider is responsible for meter reading, reads will be available for the Utility Distribution Company's or billing entity's billing cycle for that customer, or as otherwise agreed upon by the Electric Service Provider and the Utility Distribution Company or billing entity.
 7. In the event the customer fails to submit the reading on time, the utility or billing entity may issue the customer an estimated bill.
 8. In the event the Electric Service Provider responsible for meter reading fails to deliver reads to the Meter Reading Service Provider server within three days of the scheduled cycle read date, the Affected Utility may estimate the reads. In the event the Affected Utility responsible for meter reading fails to deliver reads to the Meter Reader Service Provider server within three days of the scheduled cycle read date, the Electric Service Provider may estimate the reads.
 9. Meters shall be read monthly on as close to the same day as practical.
- B. Measuring of service
1. All energy sold to customers and all energy consumed by the utility, except that sold according to fixed charge schedules, shall be measured by commercially acceptable measuring devices, except where it is impractical to install meters, such as street lighting or security lighting, or where otherwise authorized by the Commission.

Corporation Commission - Fixed Utilities

2. When there is more than one meter at a location, the metering equipment shall be so tagged or plainly marked as to indicate the circuit metered or metering equipment.
3. Meters which are not direct reading shall have the multiplier plainly marked on the meter.
4. All charts taken from recording meters shall be marked with the date of the record, the meter number, customer, and chart multiplier.
5. Metering equipment shall not be set "fast" or "slow" to compensate for supply transformer or line losses.

C. Meter rereads

1. Each utility or Meter Reading Service Provider shall at the request of a customer, or the customer's Electric Service Provider, Utility Distribution Company (as defined in R14-2-1601), or billing entity reread that customer's meter within 10 working days after such a request.
2. Any reread may be charged to the customer, or the customer's Electric Service Provider, Utility Distribution Company (as defined in R14-2-1601), or billing entity making the request at a rate on file and approved by the Commission, provided that the original reading was not in error.
3. When a reading is found to be in error, the reread shall be at no charge to the customer, or the customer's Electric Service Provider, Utility Distribution Company (as defined in R14-2-1601), or billing entity.

D. Access to customer premises. Each utility shall have the right of safe ingress to and egress from the customer's premises at all reasonable hours for any purpose reasonably connected with property used in furnishing service and the exercise of any and all rights secured to it by law or these rules.**E. Meter testing and maintenance program.**

1. Each utility shall file with the Commission, through the Compliance Section, a plan for the routine maintenance and replacement of meters that meets the requirements of National Electrical Manufacturers Association, Pub. No. ANSI C12.1-2008, American National Standard for Electric Meters: Code for Electricity Metering (2008), including no future editions or amendments, which is incorporated by reference, on file with the Commission, and published by and available from the National Electrical Manufacturers Association, 1300 North 17th Street, Suite 1752, Rosslyn, Virginia 22209, and through www.nema.org.
2. Each utility shall file an annual report with the Commission, through Docket Control, summarizing the results of the meter maintenance and testing program for that year. At a minimum, the report should include the following data:
 - a. Total number of meters tested, at company initiative or upon customer request.
 - b. Number of meters tested that were outside the acceptable error allowance of +3%.

F. Request for meter tests. A utility or Meter Service Provider shall test a meter upon the request of the customer, or the customer's Electric Service Provider, Utility Distribution Company (as defined in R14-2-1601), or billing entity, and each utility or billing entity shall be authorized to charge the customer, or the customer's Electric Service Provider, Utility Distribution Company (as defined in R14-2-1601), or billing entity for such meter test according to the tariff on file and approved by the Commission. However, if the meter is found to be in error by more than 3%, no meter testing fee will be charged to the customer, or the customer's Electric Service Provider, Utility Distribution Company, or billing entity.**Historical Note**

Adopted effective March 2, 1982 (Supp. 82-2). Amended subsection (E)(1) effective April 1, 1986 (Supp. 86-2).

Amended effective February 8, 1991 (Supp. 91-1).

Amended effective August 16, 1996 (Supp. 96-3).

Amended by an emergency action effective August 10, 1998, pursuant to A.R.S. § 41-1026, in effect for a maximum of 180 days (Supp. 98-3). Emergency amendment replaced by exempt permanent amendment effective December 31, 1998 (Supp. 98-4). Amended by exempt rulemaking at 5 A.A.R. 3933, effective September 24, 1999 (Supp. 99-3). Amended by exempt rulemaking at 6 A.A.R. 4180, effective October 13, 2000 (Supp. 00-4). Amended by final rulemaking at 15 A.A.R. 1933, effective December 27, 2009 (Supp. 09-4).

Editor's Note: *The following Section was amended under an exemption from the Attorney General approval provisions of the Arizona Administrative Procedure Act (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)), as determined by the Corporation Commission. This exemption means that the rules as amended were not approved by the Attorney General.*

R14-2-210. Billing and Collection**A. Frequency and estimated bills**

1. Unless otherwise approved by the Commission, the utility or billing entity shall render a bill for each billing period to every customer in accordance with its applicable rate schedule and may offer billing options for the services rendered. Meter readings shall be scheduled for periods of not less than 25 days or more than 35 days without customer authorization. If the utility or Meter Reading Service Provider changes a meter reading route or schedule resulting in a significant alteration of billing cycles, notice shall be given to the affected customers.
2. Each billing statement rendered by the utility or billing entity shall be computed on the actual usage during the billing period. If the utility or Meter Reading Service Provider is unable to obtain an actual reading, the utility or billing entity may estimate the consumption for the billing period giving consideration the following factors where applicable:
 - a. The customer's usage during the same month of the previous year,
 - b. The amount of usage during the preceding month.
3. Estimated bills will be issued only under the following conditions unless otherwise approved by the Commission:
 - a. When extreme weather conditions, emergencies, or work stoppages prevent actual meter readings.
 - b. Failure of a customer who reads his own meter to deliver his meter reading to the utility or Meter Reading Service Provider in accordance with the requirements of the utility or Meter Reading Service Provider billing cycle.
 - c. When the utility or Meter Reading Service Provider is unable to obtain access to the customer's premises for the purpose of reading the meter, or in situations where the customer makes it unnecessarily difficult to gain access to the meter, that is, locked gates, blocked meters, vicious or dangerous animals. If the utility or Meter Reading Service Provider is unable to obtain an actual reading for these reasons, it shall undertake reasonable alternatives to obtain a customer reading of the meter.

Corporation Commission - Fixed Utilities

- d. Due to customer equipment failure, a one-month estimation will be allowed. Failure to remedy the customer equipment condition will result in penalties for Meter Service Providers as imposed by the Commission.
 - e. To facilitate timely billing for customers using load profiles.
- 4. After the third consecutive month of estimating the customer's bill due to lack of meter access, the utility or Meter Reading Service Provider will attempt to secure an accurate reading of the meter. Failure on the part of the customer to comply with a reasonable request for meter access may lead to discontinuance of service.
- 5. A utility or billing entity may not render a bill based on estimated usage if:
 - a. The estimating procedures employed by the utility or billing entity have not been approved by the Commission.
 - b. The billing would be the customer's first or final bill for service.
 - c. The customer is a direct-access customer requiring load data.
 - d. The utility can obtain customer-supplied meter readings to determine usage.
- B. Combining meters, minimum bill information
 - 1. Each meter at a customer's premise will be considered separately for billing purposes, and the readings of two or more meters will not be combined unless otherwise provided for in the utility's tariffs. This provision does not apply in the case of aggregation of competitive services as described in R14-2-1601.
 - 2. Each bill for residential service will contain the following minimum information:
 - a. The beginning and ending meter readings of the billing period, the dates thereof, and the number of days in the billing period;
 - b. The date when the bill will be considered due and the date when it will be delinquent, if not the same;
 - c. Billing usage, demand (if measured), basic monthly service charge, and total amount due;
 - d. Rate schedule number or service offer;
 - e. Customer's name and service account number;
 - f. Any previous balance;
 - g. Fuel adjustment cost, where applicable;
 - h. License, occupation, gross receipts, franchise, and sales taxes;
 - i. The address and telephone numbers of the Electric Service Provider, and/or the Utility Distribution Company, designating where the customer may initiate an inquiry or complaint concerning the bill or services rendered;
 - j. The Arizona Corporation Commission address and toll-free telephone numbers;
 - k. Other unbundled rates and charges.
- C. Billing terms
 - 1. All bills for utility services are due and payable no later than 15 days from the date of the bill. Any payment not received within this time-frame shall be considered delinquent and could incur a late payment charge.
- 2. For purposes of this rule, the date a bill is rendered may be evidenced by:
 - a. The postmark date;
 - b. The mailing date;
 - c. The billing date shown on the bill (however, the billing date shall not differ from the postmark or mailing date by more than two days); and
 - d. The transmission date for electronic bills.
- 3. All delinquent bills shall be subject to the provisions of the utility's termination procedures.
- 4. All payments shall be made at or mailed to the office of the utility or to the utility's authorized payment agency or the office of the billing entity. The date on which the utility actually receives the customer's remittance is considered the payment date.
- D. Applicable tariffs, prepayment, failure to receive, commencement date, taxes
 - 1. Each customer shall be billed under the applicable tariff indicated in the customer's application for service.
 - 2. Each utility or billing entity shall make provisions for advance payment of utility services.
 - 3. Failure to receive bills or notices which have been properly placed in the United States mail shall not prevent such bills from becoming delinquent nor relieve the customer of his obligations therein.
 - 4. Charges for electric service commence when the service is actually installed and connection made, whether used or not. A minimum one-month billing period is established on the date the service is installed (excluding landlord/utility special agreements).
 - 5. Charges for services disconnected after one month shall be prorated back to the customer of record.
- E. Meter error corrections
 - 1. If a tested meter is found to be more than 3% in error, either fast or slow, the correction of previous bills will be made under the following terms allowing the utility or billing entity to recover or refund the difference:
 - a. If the date of the meter error can be definitely fixed, the utility or billing entity shall adjust the customer's billings back to that date. If the customer has been underbilled, the utility or billing entity will allow the customer to repay this difference over an equal length of time that the underbillings occurred. The customer may be allowed to pay the backbill without late payment penalties, unless there is evidence of meter tampering or energy diversion.
 - b. If it is determined that the customer has been overbilled and there is no evidence of meter tampering or energy diversion, the utility or billing entity will make prompt refunds in the difference between the original billing and the corrected billing within the next billing cycle.
 - 2. No adjustment shall be made by the utility except to the customer last served by the meter tested.
 - 3. Any underbilling resulting from a stopped or slow meter, utility or Meter Reading Service Provider meter reading error, or a billing calculation shall be limited to three months for residential customers and six months for non-residential customers. However, if an underbilling by the utility occurs due to inaccurate, false, or estimated information from a third party, then that utility will have a right to backbill that third party to the point in time that may be definitely fixed, or 12 months. No such limitation will apply to overbillings.
- F. Insufficient funds (NSF) or returned checks

Corporation Commission - Fixed Utilities

1. A utility or billing entity shall be allowed to recover a fee, as approved by the Commission in a tariff proceeding, for each instance where a customer tenders payment for electric service with a check or other financial instrument which is returned by the customer's bank or other financial institution.
 2. When the utility or billing entity is notified by the customer's bank or other financial institution that the check or financial instrument tendered for utility service will not clear, the utility or billing entity may require the customer to make payment in cash, by money order, certified check, or other means to guarantee the customer's payment.
 3. A customer who tenders such a check or financial instrument shall in no way be relieved of the obligation to render payment to the utility or billing entity under the original terms of the bill nor defer the utility's provision of termination of service for nonpayment of bills.
- G. Levelized billing plan**
1. Each utility may, at its option, offer its customers a levelized billing plan.
 2. Each utility offering a levelized billing plan shall develop, upon customer request, an estimate of the customer's levelized billing for a 12-month period based upon:
 - a. Customer's actual consumption history, which may be adjusted for abnormal conditions such as weather variations.
 - b. For new customers, the utility will estimate consumption based on the customer's anticipated load requirements.
 - c. The utility's tariff schedules approved by the Commission applicable to that customer's class of service.
 3. The utility shall provide the customer a concise explanation of how the levelized billing estimate was developed, the impact of levelized billing on a customer's monthly utility bill, and the utility's right to adjust the customer's billing for any variation between the utility's estimated billing and actual billing.
 4. For those customers being billed under a levelized billing plan, the utility shall show, at a minimum, the following information on their monthly bill:
 - a. Actual consumption,
 - b. Dollar amount due for actual consumption,
 - c. Levelized billing amount due, and
 - d. Accumulated variation in actual-versus-levelized billing amount.
 5. The utility may adjust the customer's levelized billing in the event the utility's estimate of the customer's usage or cost should vary significantly from the customer's actual usage or cost; such review to adjust the amount of the levelized billing may be initiated by the utility or upon customer request.
- H. Deferred payment plan**
1. Each utility may, prior to termination, offer to qualifying residential customers a deferred payment plan for the customer to retire unpaid bills for utility service.
 2. Each deferred payment agreement entered into by the utility and the customer shall provide that service will not be discontinued if:
 - a. Customer agrees to pay a reasonable amount of the outstanding bill at the time the parties enter into the deferred payment agreement.
 - b. Customer agrees to pay all future bills for utility service in accordance with the billing and collection tariffs of the utility.
 - c. Customer agrees to pay a reasonable portion of the remaining outstanding balance in installments over a period not to exceed six months.
3. For the purposes of determining a reasonable installment payment schedule under these rules, the utility and the customer shall give consideration to the following conditions:
 - a. Size of the delinquent account,
 - b. Customer's ability to pay,
 - c. Customer's payment history,
 - d. Length of time that the debt has been outstanding,
 - e. Circumstances which resulted in the debt being outstanding, and
 - f. Any other relevant factors related to the circumstances of the customer.
 4. Any customer who desires to enter into a deferred payment agreement shall establish such agreement prior to the utility's scheduled termination date for nonpayment of bills. The customer's failure to execute such an agreement prior to the termination date will not prevent the utility from disconnecting service for nonpayment.
 5. Deferred payment agreements may be in writing and may be signed by the customer and an authorized utility representative.
 6. A deferred payment agreement may include a finance charge as approved by the Commission in a tariff proceeding.
 7. If a customer has not fulfilled the terms of a deferred payment agreement, the utility shall have the right to disconnect service pursuant to the utility's termination of service rules. Under such circumstances, it shall not be required to offer subsequent negotiation of a deferred payment agreement prior to disconnection.
- I. Change of occupancy**
1. To order service discontinued or to change occupancy, the customer must give the utility at least three working days advance notice in person, in writing, or by telephone.
 2. The outgoing customer shall be responsible for all utility services provided or consumed up to the scheduled turn-off date.
 3. The outgoing customer is responsible for providing access to the meter so that the utility may obtain a final meter reading.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2). Amended by an emergency action effective August 10, 1998, pursuant to A.R.S. § 41-1026, in effect for a maximum of 180 days (Supp. 98-3). Emergency amendment replaced by exempt permanent amendment effective December 31, 1998 (Supp. 98-4). Amended by exempt rulemaking at 5 A.A.R. 3933, effective September 24, 1999 (Supp. 99-3).

Editor's Note: *The following Section was amended under an exemption from the Attorney General approval provisions of the Arizona Administrative Procedure Act (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)), as determined by the Corporation Commission. This exemption means that the rules as amended were not approved by the Attorney General.*

R14-2-211. Termination of Service

- A.** Nonpermissible reasons to disconnect service. A utility may not disconnect service for any of the reasons stated below:

Corporation Commission - Fixed Utilities

1. Delinquency in payment for services rendered to a prior customer at the premises where service is being provided, except in the instance where the prior customer continues to reside on the premises.
 2. Failure of the customer to pay for services or equipment which are not regulated by the Commission.
 3. Nonpayment of a bill related to another class of service.
 4. Failure to pay for a bill to correct a previous underbilling due to an inaccurate meter or meter failure if the customer agrees to pay over a reasonable period of time.
 5. A utility shall not terminate residential service where the customer has an inability to pay and:
 - a. The customer can establish through medical documentation that, in the opinion of a licensed medical physician, termination would be especially dangerous to the health of a customer or a permanent resident residing on the customer's premises, or
 - b. Life supporting equipment used in the home that is dependent on utility service for operation of such apparatus, or
 - c. Where weather will be especially dangerous to health as defined or as determined by the Commission.
 6. Residential service to ill, elderly, or handicapped persons who have an inability to pay will not be terminated until all of the following have been attempted:
 - a. The customer has been informed of the availability of funds from various government and social assistance agencies of which the utility is aware.
 - b. A third party previously designated by the customer has been notified and has not made arrangements to pay the outstanding utility bill.
 7. A customer utilizing the provisions of subsection (A)(4) or (A)(5) above may be required to enter into a deferred payment agreement with the utility within 10 days after the scheduled termination date.
 8. Disputed bills where the customer has complied with the Commission's rules on customer bill disputes.
- B. Termination of service without notice**
1. In a competitive marketplace, the Electric Service Provider cannot order a disconnect for nonpayment but can only send a notice of contract cancellation to the customer and the Utility Distribution Company. Utility service may be disconnected without advance written notice under the following conditions:
 - a. The existence of an obvious hazard to the safety or health of the consumer or the general population or the utility's personnel or facilities.
 - b. The utility has evidence of meter tampering or fraud.
 - c. Failure of a customer to comply with the curtailment procedures imposed by a utility during supply shortages.
 2. The utility shall not be required to restore service until the conditions which resulted in the termination have been corrected to the satisfaction of the utility.
 3. Each utility shall maintain a record of all terminations of service without notice. This record shall be maintained for a minimum of one year and shall be available for inspection by the Commission.
- C. Termination of service with notice**
1. In a competitive marketplace, the Electric Service Provider cannot order a disconnect for nonpayment but can only send a notice of contract cancellation to the customer and the Utility Distribution Company. A utility may disconnect service to any customer for any reason stated below provided the utility has met the notice requirements established by the Commission:
 - a. Customer violation of any of the utility's tariffs,
 - b. Failure of the customer to pay a delinquent bill for utility service,
 - c. Failure to meet or maintain the utility's deposit requirements,
 - d. Failure of the customer to provide the utility reasonable access to its equipment and property,
 - e. Customer breach of a written contract for service between the utility and customer,
 - f. When necessary for the utility to comply with an order of any governmental agency having such jurisdiction.
 2. Each utility shall maintain a record of all terminations of service with notice. This record shall be maintained for one year and be available for Commission inspection.
- D. Termination notice requirements**
1. No utility shall terminate service to any of its customers without providing advance written notice to the customer of the utility's intent to disconnect service, except under those conditions specified where advance written notice is not required.
 2. Such advance written notice shall contain, at a minimum, the following information:
 - a. The name of the person whose service is to be terminated and the address where service is being rendered.
 - b. The utility tariff that was violated and explanation thereof or the amount of the bill which the customer has failed to pay in accordance with the payment policy of the utility, if applicable.
 - c. The date on or after which service may be terminated.
 - d. A statement advising the customer to contact the utility at a specific address or phone number for information regarding any deferred payment or other procedures which the utility may offer or to work out some other mutually agreeable solution to avoid termination of the customer's service.
 - e. A statement advising the customer that the utility's stated reason for the termination of services may be disputed by contacting the utility at a specific address or phone number, advising the utility of the dispute and making arrangements to discuss the cause for termination with a responsible employee of the utility in advance of the scheduled date of termination. The responsible employee shall be empowered to resolve the dispute and the utility shall retain the option to terminate service after affording this opportunity for a meeting and concluding that the reason for termination is just and advising the customer of his right to file a complaint with the Commission.
 3. Where applicable, a copy of the termination notice will be simultaneously forwarded to designated third parties.
- E. Timing of terminations with notice**
1. Each utility shall be required to give at least five days' advance written notice prior to the termination date.
 2. Such notice shall be considered to be given to the customer when a copy thereof is left with the customer or posted first class in the United States mail, addressed to the customer's last known address.
 3. If after the period of time allowed by the notice has elapsed and the delinquent account has not been paid nor arrangements made with the utility for the payment

Corporation Commission - Fixed Utilities

thereof or in the case of a violation of the utility's rules the customer has not satisfied the utility that such violation has ceased, the utility may then terminate service on or after the day specified in the notice without giving further notice.

4. Service may only be disconnected in conjunction with a personal visit to the premises by an authorized representative of the utility.
5. The utility shall have the right (but not the obligation) to remove any or all of its property installed on the customer's premises upon the termination of service.

F. Landlord/tenant rule. In situations where service is rendered at an address different from the mailing address of the bill or where the utility knows that a landlord/tenant relationship exists and that the landlord is the customer of the utility, and where the landlord as a customer would otherwise be subject to disconnection of service, the utility may not disconnect service until the following actions have been taken:

1. Where it is feasible to so provide service, the utility, after providing notice as required in these rules, shall offer the occupant the opportunity to subscribe for service in his or her own name. If the occupant then declines to so subscribe, the utility may disconnect service pursuant to the rules.
2. A utility shall not attempt to recover from a tenant or condition service to a tenant with the payment of any outstanding bills or other charges due upon the outstanding account of the landlord.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2). Amended by an emergency action effective August 10, 1998, pursuant to A.R.S. § 41-1026, in effect for a maximum of 180 days (Supp. 98-3). Emergency amendment replaced by exempt permanent amendment effective December 31, 1998 (Supp. 98-4). Amended to correct subsection numbering (Supp. 99-4). Amended by exempt rulemaking at 6 A.A.R. 4180, effective October 13, 2000 (Supp. 00-4).

Editor's Note: *The following Section was amended under an exemption from the Attorney General approval provisions of the Arizona Administrative Procedure Act (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)), as determined by the Corporation Commission. This exemption means that the rules as amended were not approved by the Attorney General.*

R14-2-212. Administrative and Hearing Requirements

A. Customer service complaints

1. Each utility shall make a full and prompt investigation of all service complaints made by its customers, either directly or through the Commission.
2. The utility shall respond to the complainant and the Commission representative within five working days as to the status of the utility investigation of the complaint.
3. The utility shall notify the complainant and the Commission representative of the final disposition of each complaint. Upon request of the complainant or the Commission representative, the utility shall report the findings of its investigation in writing.
4. The utility shall inform the customer of his right of appeal to the Commission.
5. Each utility shall keep a record of all written service complaints received which shall contain, at a minimum, the following data:
 - a. Name and address of the complainant;
 - b. Date and nature of the complaint;
 - c. Disposition of the complaint; and

- d. A copy of any correspondence between the utility, the customer, and the Commission.

This record shall be maintained for a minimum period of one year and shall be available for inspection by the Commission.

B. Customer bill disputes

1. Any utility customer who disputes a portion of a bill rendered for utility service shall pay the undisputed portion of the bill and notify the utility's designated representative that such unpaid amount is in dispute prior to the delinquent date of the bill.
2. Upon receipt of the customer notice of dispute, the utility shall:
 - a. Notify the customer within five working days of the receipt of a written dispute notice.
 - b. Initiate a prompt investigation as to the source of the dispute.
 - c. Withhold disconnection of service until the investigation is completed and the customer is informed of the results. Upon request of the customer the utility shall report the results of the investigation in writing.
 - d. Inform the customer of his right of appeal to the Commission.
3. Once the customer has received the results of the utility's investigation, the customer shall submit payment within five working days to the utility for any disputed amounts. Failure to make full payment shall be grounds for termination of service.

C. Commission resolution of service and bill disputes

1. In the event a customer and utility cannot resolve a service or bill dispute, the customer shall file a written statement of dissatisfaction with the Commission; by submitting such notice to the Commission, the customer shall be deemed to have filed an informal complaint against the utility.
2. Within 30 days of the receipt of a written statement of customer dissatisfaction related to a service or bill dispute, a designated representative of the Commission shall endeavor to resolve the dispute by correspondence or telephone with the utility and the customer. If resolution of the dispute is not achieved within 20 days of the Commission representative's initial effort, the Commission shall hold an informal hearing to arbitrate the resolution of the dispute. The informal hearing shall be governed by the following rules:
 - a. Each party may be represented by legal counsel, if desired.
 - b. All such informal hearings may be recorded or held in the presence of a stenographer.
 - c. All parties will have the opportunity to present written or oral evidentiary material to support the positions of the individual parties.
 - d. All parties and the Commission's representative shall be given the opportunity for cross-examination of the various parties.
 - e. The Commission's representative will render a written decision to all parties within five working days after the date of the informal hearing. Such written decision of the arbitrator is not binding on any of the parties and the parties will still have the right to make a formal complaint to the Commission.
3. The utility may implement normal termination procedures if the customer fails to pay all bills rendered during the resolution of the dispute by the Commission.

Corporation Commission - Fixed Utilities

4. Each utility shall maintain a record of written statements of dissatisfaction and their resolution for a minimum of one year and make such records available for Commission inspection.
- D. Notice by utility of responsible officer or agent**
1. Each utility shall file with the Commission, through Docket Control, a written statement containing the name, address (business, residence and post office) and telephone numbers (business and residence) of at least one officer, agent or employee responsible for the general management of its operations as a utility in Arizona.
 2. Each utility shall give notice, by filing a written statement with the Commission, through Docket Control, of any change in the information required herein within five days from the date of any such change.
- E. Time-frames for processing applications for Certificates of Convenience and Necessity**
1. This rule prescribes time-frames for the processing of any application for a Certificate of Convenience and Necessity issued by the Arizona Corporation Commission pursuant to this Article. These time-frames shall apply to applications filed on or after the effective date of this rule.
 2. Within 120 calendar days after receipt of an application for a new Certificate of Convenience and Necessity, or to amend or change the status of any existing Certificate of Convenience and Necessity, staff shall notify the applicant, in writing, that the application is either administratively complete or deficient. If the application is deficient, the notice shall specify all deficiencies.
 3. Staff may terminate an application if the applicant does not remedy all deficiencies within 60 calendar days of the notice of deficiency.
 4. After receipt of a corrected application, staff shall notify the applicant within 90 calendar days if the corrected application is either administratively complete or deficient. The time-frame for administrative completeness review shall be suspended from the time the notice of deficiency is issued until staff determines that the application is complete.
 5. Within 150 days after an application is deemed administratively complete, the Commission shall approve or reject the application.
 6. For purposes of A.R.S. § 41-1072 et seq., the Commission has established the following time-frames:
 - a. Administrative completeness review time-frame: 120 calendar days;
 - b. Substantive review time-frame: 150 calendar days; and
 - c. Overall time-frame: 270 calendar days.
 7. If an applicant requests, and is granted, an extension or continuance, the appropriate time-frames shall be tolled from the date of the request during the duration of the extension or continuance.
 8. During the substantive review time-frame, the Commission may, upon its own motion or that of any interested party to the proceeding, request a suspension of the time-frame rules.
- F. Filing of tariffs**
1. Each utility shall file with the Commission, through Docket Control, tariffs which are in compliance with the rules and regulations promulgated by the Arizona Corporation Commission within 120 days of the effective date of such rules.
 2. Each utility shall file with the Commission, through Docket Control, any proposed changes to the tariffs on file with the Commission; such proposed changes shall be accompanied by a statement of justification supporting the proposed tariff change.
3. Any proposed change to the tariffs on file with the Commission shall not be effective until reviewed and approved by the Commission.
- G. Accounts and records**
1. Each utility shall keep general and auxiliary accounting records reflecting the cost of its properties, operating income and expense, assets and liabilities, and all other accounting and statistical data necessary to give complete and authentic information as to its properties and operations.
 2. Each utility shall maintain its books and records in conformity with the Uniform Systems of Accounts for Class A, B, C and D Electric Utilities as adopted and amended by the Federal Energy Regulatory Commission or, for electric cooperatives, as promulgated by the Rural Utilities Service.
 3. A utility shall produce or deliver in this state any or all of its formal accounting records and related documents requested by the Commission. It may, at its option, provide verified copies of original records and documents.
 4. All utilities shall submit an annual report to the Commission, through the Compliance Section, Utilities Division, on a form prescribed by it. The annual report shall be filed on or before the 15th day of April for the preceding calendar year. Reports prepared by a certified or licensed public accountant on the utility, if any, shall accompany the annual report.
 5. All utilities shall file with the Commission, through the Compliance Section, Utilities Division, a copy of all annual reports required by the Federal Energy Regulatory Commission and in addition, for electric cooperatives, annual reports required by the Rural Utilities Service.
- H. Maps.** All utilities shall file with the Commission, through Docket Control, a map or maps clearly setting forth the location and extent of the area or areas they hold under approved certificates of convenience and necessity, in accordance with the Cadastral (Rectangular) Survey of the United States Bureau of Land Management, or by metes and bounds with a starting point determined by the aforesaid Cadastral Survey.
- I. Variations, exemptions of Commission rules and regulations.** Variations or exemptions from the terms and requirements of any of the rules included herein (14 A.A.C. 2, Article 2) shall be considered upon the verified application of an affected party to the Commission setting forth the circumstances whereby the public interest requires such variation or exemption from the Commission rules and regulations. Such application will be subject to the review of the Commission, and any variation or exemption granted shall require an order of the Commission. In case of conflict between these rules and regulations and an approved tariff or order of the Commission, the provisions of the tariff or order shall apply.
- J. Prior agreements.** The adoption of these rules by the Commission shall not affect any agreements entered into between the utility and customers or other parties who, pursuant to such contracts, arranged for the extension of facilities in a provision of service prior to the effective date of these rules.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2). Amended effective December 31, 1998, under an exemption as determined by the Arizona Corporation Commission (Supp. 98-4). Amended by final rulemaking at 5 A.A.R. 3933, effective September 24, 1999 (Supp. 99-3). Amended to correct subsection numbering (Supp. 99-4).

Corporation Commission - Fixed Utilities

Amended by exempt rulemaking at 6 A.A.R. 4180, effective October 13, 2000 (Supp. 00-4).

R14-2-213. Conservation

Energy conservation plan

1. The Arizona Corporation Commission recognizes the need for conservation of energy resources in order to maintain an adequate and continuous supply of safe, dependable, and affordable energy. Therefore, in order to promote the state's economic development and the health and welfare of its citizenry, each class A and B electric utility shall file an energy conservation plan which encompasses at a minimum the following considerations:
 - a. Development of consumer education and assistance programs to aid the populace in reducing energy consumption and cost.
 - b. Participation in various energy conservation programs sponsored by other municipal, state or federal government entities having such jurisdiction.
2. Each utility shall file an energy conservation plan with the Commission, through the Compliance Section, Utilities Division, within one year of the effective date of these rules and annual updates thereafter when changes require such.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2). Amended by exempt rulemaking at 6 A.A.R. 4180, effective October 13, 2000 (Supp. 00-4).

ARTICLE 3. GAS UTILITIES**R14-2-301. Definitions**

In this Article, unless the context otherwise requires, the following definitions shall apply:

1. "Advance in aid of construction." Funds provided to the utility by the applicant under the terms of a main extension agreement the value of which may be refundable.
2. "Applicant." A person requesting the utility to supply gas service.
3. "Application." A request to the utility for gas service, as distinguished from an inquiry as to the availability or charges for such service.
4. "Arizona Corporation Commission." The regulatory authority of the state of Arizona having jurisdiction over public service corporations operating in Arizona.
5. "Billing month." The period between any two regular readings of the utility's meters at approximately 30 day intervals.
6. "Billing period." The time interval between two consecutive meter readings that are taken for billing purposes.
7. "British Thermal Unit." The amount of heat required to raise the temperature of one pound of water one degree Fahrenheit (1° F) at standard conditions.
8. "Btu." British thermal unit.
9. "Commodity charge." The unit of cost per billed usage, as set forth in the utility's tariffs.
10. "Contributions in aid of construction." Funds provided to the utility by the applicant under the terms of a main extension agreement and/or service connection tariff the value of which are not refundable.
11. "Cubic foot"
 - a. In cases where gas is supplied and metered to customers at the standard delivery pressure, a cubic foot of gas is the volume of gas which, at the temperature and pressure existing in the meter, occupies one cubic foot.
 - b. Regardless of the pressure supplied to the customer, the volume of gas metered will be converted to the volume which the gas would occupy at standard conditions of 14.73 pounds per square inch absolute at 60° F.
 - c. The standard cubic foot of gas for testing the gas itself for heating value shall be that volume of gas which, when saturated with water vapor and at a temperature of 60° F and under a pressure equivalent to that of 30 inches of mercury (mercury at 32° F and under standard gravity), occupies one cubic foot.
12. "Ccf." 100 cubic feet.
13. "Curtailed priority." The order in which gas service is to be curtailed to various classifications of customers, as set forth in the utility's tariffs.
14. "Customer." The person or entity in whose name service is rendered, as evidenced by the signature on the application or contract for that service, or by the receipt and/or payment of bills regularly issued in his name regardless of the identity of the actual user of the service.
15. "Customer charge." The amount the customer must pay the utility for the availability of gas service, excluding any gas used, as specified in the utility's tariffs.
16. "Day." Calendar day.
17. "Distribution main." A gas line of the utility from which service lines may be extended to customers.
18. "Elderly." A person who is 62 years of age or older.
19. "Handicapped." A person with a physical or mental condition which substantially contributes to the person's inability to manage his or her own resources, carry out activities of daily living, or protect oneself from neglect or hazardous situations without assistance from others.
20. "Illness." A medical ailment or sickness for which a residential customer obtains a verifiable document from a licensed medical physician stating the nature of the illness and that discontinuance of service would be especially dangerous to the customer's health in the opinion of a licensed medical physician.
21. "Inability to pay." Circumstances where a residential customer:
 - a. Is not gainfully employed and unable to pay, or
 - b. Qualifies for government welfare assistance, but has not begun to receive assistance on the date that he receives his bill and can obtain verification from the government welfare assistance agency, or
 - c. Has an annual income below the published federal poverty level and can produce evidence of this, and
 - d. Signs a declaration verifying that the customer meets one of the above criteria and is either elderly, handicapped, or suffers from an illness.
22. "Interruptible gas service." Gas service that is subject to interruption or curtailment as specified in the utility's tariff.
23. "Main extension." The lines and equipment necessary to extend the existing gas distribution system to provide service to additional customers.
24. "Master meter." An instrument for measuring or recording the flow of gas at a single location where said gas is transported through an underground piping system to tenants or occupants for their individual consumption.
25. "Mcf." 1,000 cubic feet.
26. "Meter." The instrument for measuring and indicating or recording the volume of gas or flow that has passed through it.

Corporation Commission - Fixed Utilities

27. "Meter tampering." A situation where a meter has been illegally altered. Common examples are meter bypassing and other unauthorized connections.
28. "Minimum charge." The amount the customer must pay for the availability of gas service, including an amount of usage, as specified in the utility's tariffs.
29. "Permanent customer." A customer who is a tenant or owner of a service location who applies for and receives gas service.
30. "Permanent service." Service which, in the opinion of the utility, is of a permanent and established character. The use of gas may be continuous, intermittent, or seasonal in nature.
31. "Person." Any individual, partnership, corporation, governmental agency, or other organization operating as a single entity.
32. "Point of delivery." The point where pipes owned, leased, or under license by a customer connect to the utility's pipes or at the outlet side of the meter.
33. "Premises." All of the real property and apparatus employed in a single enterprise on an integral parcel of land undivided by public streets, alleys or railways.
34. "Residential subdivision." Any tract of land which has been divided into four or more contiguous lots for use for the construction of residential buildings or permanent mobile homes for either single or multiple occupancy.
35. "Residential use." Service to customers using gas for domestic purposes such as space heating, air conditioning, water heating, cooking, clothes drying, and other residential uses and includes use in apartment buildings, mobile home parks, and other multiunit residential buildings.
36. "Restricted apparatus." Apparatus prohibited by the Commission or other governmental agency.
37. "Service area." The territory in which the utility has been granted a Certificate of Convenience and Necessity and is authorized by the Commission to provide gas service.
38. "Service line." A gas pipe that transports gas from a common source of supply (normally a distribution main) to the customer's point of delivery.
39. "Service establishment charge." A charge as specified in the utility's tariffs which covers the cost of establishing a new account.
40. "Service reconnect charge." A charge as specified in the utility's tariffs which must be paid by the customer prior to reestablishment of gas service each time the gas is disconnected for nonpayment or whenever service is discontinued for failure otherwise to comply with the utility's tariffs.
41. "Service reestablishment charge." A charge as specified in the utility's tariffs for service at the same location where the same customer had ordered a service disconnection within the preceding 12-month period.
42. "Single family dwelling." A house, an apartment, a mobile home permanently affixed to a lot, or any other permanent residential unit which is used as a permanent home.
43. "Standard delivery pressure." 0.25 pounds per square inch gauge at the meter or point of delivery.
44. "Tariffs." The documents filed with the Commission which list the services and products offered by the gas company and which set forth the terms and conditions and a schedule of the rates and charges for those services and products.
45. "Temporary service." Service to premises or enterprises which are temporary in character, or where it is known in advance that the service will be of limited duration. Service which, in the opinion of the utility, is for operations of a speculative character is also considered temporary service.
46. "Therm." A unit of heating value, equivalent to 100,000 British thermal units (Btu's).
47. "Third-party notice." A notice sent to an individual or a public entity willing to receive notification of the pending discontinuance of service of a customer of record in order to make arrangements on behalf of said customer satisfactory to the utility.
48. "Utility." The public service corporation providing gas service to the public in compliance with state law.
49. "Weather especially dangerous to health." That period of time commencing with the scheduled termination date when the local weather forecast, as predicted by the National Oceanographic and Administration Service, indicates that the temperature will not exceed 32 degrees Fahrenheit for the next day's forecast. The Commission may determine that any other weather conditions are especially dangerous to health as the need arises.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2).

R14-2-302. Certificate of Convenience and Necessity for gas utilities; additions/extensions; abandonments

- A. Application for new Certificate of Convenience and Necessity. Six copies of each application for a new Certificate of Convenience and Necessity shall be submitted in a form prescribed by the Commission and shall include, at a minimum, the following information:
 1. The proper name and correct address of the proposed utility company and its owner, if a sole proprietorship, each partner if a partnership, or the President and Secretary if a corporation.
 2. The rates proposed to be charged for the service that will be rendered.
 3. A financial statement setting forth the financial condition of the applicant.
 4. Maps of the proposed service area and/or a description of the area proposed to be served.
 5. Appropriate city, county and/or state agency approvals, where appropriate.
 6. The actual number of customers within the service area as of the time of filing and the estimated number of customers to be served for each of the first five years of operation.
 7. Such other information as the Commission by order or the staff of the Utilities Division by written directive may request.
- B. Application for discontinuance or abandonment of utility service
 1. Any utility proposing to discontinue or abandon utility service currently in use by the public shall prior to such action obtain authority therefor from the Commission.
 2. The utility shall include in the application, studies of past, present and prospective customer use of the subject service, plant or facility as is necessary to support the application.
 3. An application shall not be required to remove individual facilities where a customer has requested service discontinuance.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2). Amended to correct subsection numbering (Supp. 99-4).

R14-2-303. Establishment of service**A. Information from new applicants**

1. A utility may obtain the following minimum information from each new applicant for service:
 - a. Name or names of applicant(s).
 - b. Service address or location and telephone number.
 - c. Billing address or location and telephone number, if different than service address.
 - d. Address where service was provided previously.
 - e. Date applicant will be ready for service.
 - f. Indication of whether premises have been supplied with utility service previously.
 - g. Purpose for which service is to be used.
 - h. Indication of whether applicant is owner or tenant of or agent for the premises.
 - i. Information concerning the gas usage and demand requirements of the customers.
 - j. Type and kind of life-support equipment, if any, used by the customer.
2. Each utility may require a new applicant for service to appear at the utility's designated place of business to produce proof of identity and sign the utility's application form.
3. Where service is requested by two or more individuals the utility shall have the right to collect the full amount owed to the utility from any one of the applicants.

B. Deposits

1. A utility shall not require a deposit from a new applicant for residential service if the applicant is able to meet any of the following requirements:
 - a. The applicant has had service of a comparable nature with the utility at another service location within the past two years and was not delinquent in payment more than twice during the last 12 consecutive months or disconnected for nonpayment.
 - b. The applicant can produce a letter regarding credit or verification from a gas utility where service of a comparable nature was last received which states that the applicant has had service of a comparable nature with the utility at another service location within the past two years and was not delinquent in payment more than twice during the last 12 consecutive months or disconnected for nonpayment.
 - c. In lieu of a deposit, a new applicant may provide a Letter of Guarantee from an existing customer with service who is acceptable to the utility or a surety bond as security for the utility.
2. The utility shall issue a nonnegotiable receipt to the applicant for the deposit. The inability of the customer to produce such a receipt shall in no way impair his right to receive a refund of the deposit which is reflected on the utility's records.
3. Deposits shall be interest bearing; the interest rate and method of calculation shall be filed with and approved by the Commission in a tariff proceeding.
4. Each utility shall file a deposit refund procedure with the Commission, subject to Commission review and approval during a tariff proceeding. However, each utility's refund policy shall include provisions for residential deposits and accrued interest to be refunded or Letter of Guarantee or surety bond to expire after 12 months of service if the customer has not been delinquent more than twice in the payment of utility bills.

5. A utility may require a residential customer to establish or reestablish a deposit if the customer becomes delinquent in the payment of three or more bills within a 12-consecutive-month period or has been disconnected for service during the last 12 months.
6. The amount of a deposit required by the utility shall be determined according to the following terms:
 - a. Residential customer deposits shall not exceed two times that customer's estimated average monthly bill.
 - b. Nonresidential customer deposits shall not exceed 2 1/2 times that customer's estimated maximum monthly bill.
7. The utility may review the customer's usage after service has been connected and adjust the deposit amount based upon the customer's actual usage.
8. A separate deposit may be required for each meter installed.

C. Grounds for refusal of service. A utility may refuse to establish service if any of the following conditions exist:

1. The applicant has an outstanding amount due for the same class of utility service with the utility and the applicant is unwilling to make arrangements with the utility for payment.
2. A condition exists which in the utility's judgment is unsafe or hazardous to the applicant, the general population, or the utility's personnel or facilities.
3. Refusal by the applicant to provide the utility with a deposit when the customer has failed to meet the credit criteria for waiver of deposit requirements.
4. Customer is known to be in violation of the utility's tariffs filed with the Commission.
5. Failure of the customer to furnish such funds, service, equipment, and/or rights-of-way necessary to serve the customer and which have been specified by the utility as a condition for providing service.
6. Applicant falsifies his or her identity for the purpose of obtaining service.

D. Service establishments, reestablishment or reconnection charge

1. A utility may make a charge as approved by the Commission for the establishment, reestablishment, or reconnection of utility services.
2. Should service be established during a period other than regular working hours at the customer's request, the customer may be required to pay an after-hour charge for the service connection. Where the utility scheduling will not permit service establishment on the same day requested, the customer can elect to pay the after-hour charge for establishment that day or his service will be established on the next available normal working day.
3. For the purpose of this rule, the definition of service establishments are where the customer's facilities are ready and acceptable to the utility and the utility needs only to install a meter, read a meter, or turn the service on.

E. Temporary service

1. Applicants for temporary service may be required to pay the utility, in advance of service establishment, the estimated cost of installing and removing the facilities necessary for furnishing the desired service.
2. Where the duration of service is to be less than one month, the applicant may also be required to advance a sum of money equal to the estimated bill for service.
3. Where the duration of service is to exceed one month, the applicant may also be required to meet the deposit requirements of the utility.

4. If at any time during the term of the agreement for service the character of a temporary customer's operations changes so that in the opinion of the utility the customer is classified as permanent, the terms of the utility's main extension rules shall apply.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2). Amended to correct subsection numbering (Supp. 99-4).

R14-2-304. Minimum customer information requirements

A. Information for residential customers

1. Each utility shall make available upon customer request not later than 60 days from the date of request a concise summary of the rate schedule applied for by such customer. The summary shall include the following:
 - a. Monthly minimum or customer charge, identifying the amount of the charge and the specific amount of usage included in the minimum charge, where applicable.
 - b. Rate blocks, where appropriate.
 - c. Any adjustment factor(s) and method of calculation.
2. The utility shall to the extent practical identify the tariff most advantageous to the customer and notify the customer of such prior to service commencement.
3. In addition, a utility shall make available upon customer request not later than 60 days from the date of request a copy of the Commission's rules and regulations concerning:
 - a. Deposits
 - b. Terminations of service
 - c. Billing and collection
 - d. Complaint handling.
4. Each utility upon request of a customer shall transmit a written statement of actual consumption by such customer for each billing period during the prior 12 months unless such data is not reasonably ascertainable.
5. Each utility shall inform all new customers of their rights to obtain the information specified above.

B. Information required due to changes in tariffs

1. Each utility shall transmit to affected customers a concise summary of any change in the utility's tariffs affecting those customers.
2. This information shall be transmitted to the affected customer within 60 days of the effective date of the change.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2).

R14-2-305. Master metering

Mobile home parks -- new construction/expansion

1. A utility shall refuse service to all new construction and/or expansion of existing permanent residential mobile home parks unless the construction and/or expansion is individually metered by the utility. Main extensions and service line connections to serve such new construction or expansion shall be governed by the main extension and/or service line connection tariff of the appropriate utility.
2. Permanent residential mobile home parks for the purpose of this rule shall mean mobile home parks where, in the opinion of the utility, the average length of stay for an occupant is a minimum of six months.
3. For the purposes of this rule, expansion means construction which has been started for additional permanent residential spaces after the effective date of this rule.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2).

R14-2-306. Service lines and establishments

A. Priority and timing of service establishments

1. After an applicant has complied with the utility's application and deposit requirements and has been accepted for service by the utility, the utility shall schedule that customer for service establishment.
2. Service establishments shall be scheduled for completion within five working days of the date the customer has been accepted for service, except in those instances when the customer requests service establishment beyond the five working day limitation.
3. When the utility has made arrangements to meet with a customer for service establishment purposes and the utility or the customer cannot make the appointment during the prearranged time, the utility shall reschedule the establishment to the satisfaction of both parties.
4. Each utility shall schedule service establishment appointments within a maximum range of four hours during normal working hours, unless another time-frame is mutually acceptable to the utility and the customer.
5. Service establishments shall be made only by qualified utility service personnel.
6. For the purposes of this rule, service establishments are where the customer's facilities are ready and acceptable to the utility and the utility needs only to install or read a meter or turn the service on.

B. Service lines

1. Customer provided facilities

- a. An applicant for services shall be responsible for the safety and maintenance of all customer piping from the point of delivery.
- b. Meters shall be installed in a location suitable to the utility where the meters will be safe from street traffic, readily and safely accessible for reading, testing and inspection, and where such activities will cause the least interference and inconvenience to the customer. The customer shall provide, without cost to the utility, at a suitable and easily accessible location, sufficient and proper space for the installation of meters.
- c. Where the meter or service line location on the customer's premises is changed at the request of the customer or due to alterations on the customer's premises, the customer shall provide and have installed at his expense all customer piping necessary for relocating the meter and the utility may make a charge for moving the meter and/or service line.

2. Company provided facilities

- a. Each utility shall file for Commission approval, a service line tariff which defines the maximum footage and/or equipment allowance to be provided by the utility at no charge; the maximum footage and/or equipment allowance may be differentiated by customer class.
 - b. Any service line in excess of that allowed at no charge shall be paid by the customer as a contribution in aid of construction.
- ##### 3. Easements and rights-of-way
- a. Each customer shall grant adequate easement and right-of-way satisfactory to the utility to ensure proper service connection. Failure on the part of the customer to grant adequate easement and right-of-way shall be grounds for the utility to refuse service.

Corporation Commission - Fixed Utilities

- b. When a utility discovers that a customer or his agent is performing work or has constructed facilities adjacent to or within an easement or right-of-way and such work, construction or facility poses a hazard or is in violation of federal, state or local laws, ordinances, statutes, rules or regulations, or significantly interferes with the utility's access to equipment, the utility shall notify the customer or his agent and shall take whatever actions are necessary to eliminate the hazard, obstruction or violation at the customer's expense.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2).

R14-2-307. Main extensions**A. General requirements**

1. Each utility shall file for Commission approval a main extension tariff which incorporates the provisions of this rule and specifically defines the conditions governing main extensions.
2. Upon request by an applicant for a main extension, the utility shall prepare, without charge, a preliminary sketch and rough estimates of the cost of installation to be paid by said applicant.
3. Any applicant for a main extension requesting the utility to prepare detailed plans, specifications, or cost estimates may be required to deposit with the utility an amount equal to the estimated cost of preparation. The utility shall upon request, make available within 90 days after receipt of the deposit referred to above, such plans, specifications, or cost estimates of the proposed main extension. Where the applicant authorizes the utility to proceed with construction of the extension, the deposit shall be credited to the cost of construction; otherwise the deposit shall be nonrefundable. If the extension is to include oversizing of facilities to be done at the utility's expense, appropriate details shall be set forth in the plans, specifications and cost estimate. Subdividers providing the utility with approved plans shall be provided with plans, specifications or cost estimates within 45 days after receipt of the deposit referred to above.
4. Where the utility requires an applicant to advance funds for a main extension, the utility shall furnish the applicant with a copy of the main extension tariff of the appropriate utility prior to the applicant's acceptance of the utility's extension agreement.
5. All main extension agreements requiring payment by the applicant shall be in writing and signed by each party.
6. The provisions of this rule apply only to those applicants who in the utility's judgment will be permanent customers of the utility. Applications for temporary service shall be governed by the Commission's rules concerning temporary service applications.

B. Minimum written agreement requirements

1. Each main extension agreement shall, at a minimum, include the following information:
 - a. Name and address of applicant(s)
 - b. Proposed service address or location
 - c. Description of requested service
 - d. Description and sketch of the requested main extension
 - e. A cost estimate to include materials, labor, and other costs as necessary
 - f. Payment terms
 - g. A concise explanation of any refunding provisions, if applicable

- h. The utility's estimated start date and completion date for construction of the main extension
- i. A summary of the results of the economic feasibility analysis performed by the utility to determine the amount of advance required from the applicant for the proposed main extension.

2. Each applicant shall be provided with a copy of the written main extension agreement.

C. Main extension requirements. Each main extension tariff shall include the following provisions:

1. A maximum footage and/or equipment allowance to be provided by the utility at no charge. The maximum footage and/or equipment allowance may be differentiated by customer class.
2. An economic feasibility analysis for those extensions which exceed the maximum footage and/or equipment allowance. Such economic feasibility analysis shall consider the incremental revenues and costs associated with the main extension. In those instances where the requested main extension does not meet the economic feasibility criteria established by the utility, the utility may require the customer to provide funds to the utility, which will make the main extension economically feasible. The methodology employed by the utility in determining economic feasibility shall be applied uniformly and consistently to each applicant requiring a main extension.
3. The timing and methodology by which the utility will refund any advances in aid of construction as additional customers are served off the main extension. The customer may request an annual survey to determine if additional customers have been connected to and are using service from the extension. In no case shall the amount of the refund exceed the amount originally advanced.
4. All advances in aid of construction shall be noninterest bearing.
5. If after five years from the utility's receipt of the advance, the advance has not been totally refunded, the advance shall be considered a contribution in aid of construction and shall no longer be refundable.

D. Residential subdivision development and permanent mobile home parks. Each utility shall submit as a part of its main extension tariff separate provisions for residential subdivision developments and permanent mobile home parks.**E. Ownership of facilities. Any facilities installed hereunder shall be the sole property of the utility.****Historical Note**

Adopted effective March 2, 1982 (Supp. 82-2). Amended to correct subsection numbering (Supp. 99-4).

R14-2-308. Provision of service**A. Utility responsibility**

1. Each utility shall be responsible for the safe transmission and distribution of gas until it passes the point of delivery to the customer.
2. Each utility shall be responsible for maintaining in safe operating condition all meters, regulators, service pipe or other fixtures installed on the customer's premises by the utility for the purpose of delivering gas to the customer.
3. Each utility may, at its option, refuse service until the customer's pipes and appliances have been tested and found to be safe, free from leaks, and in good operating condition. Proof of such testing shall be in the form of a certificate executed by a licensed plumber of local inspector, certifying that the customer's facilities have been tested and are in safe operating condition.

Corporation Commission - Fixed Utilities

4. Each utility shall be required to test the customer's piping for leaks when the gas is turned on. If such tests indicate leakage in the customer's piping, the utility shall refuse to provide service until such time as the customer has had the leakage corrected.
- B. Customer responsibility**
1. Each customer shall be responsible for maintaining all customer piping, fixtures and appliances on the customer's side of the point of delivery in safe operating condition.
 2. Each customer shall be responsible for safeguarding all utility property installed in or on the customer's premises for the purpose of supplying utility service.
 3. Each customer shall exercise all reasonable care to prevent loss or damage to utility property, excluding ordinary wear and tear. The customer shall be responsible for loss of or damage to utility property on the customer's premises arising from neglect, carelessness, or misuse and shall reimburse the utility for the cost of necessary repairs or replacements.
 4. Each customer shall be responsible for payment for any equipment damage and/or estimated unmetered usage resulting from unauthorized breaking of seals, interfering, tampering or bypassing the utility meter.
 5. Each customer shall be responsible for notifying the utility of any gas leakage identified in the customer's or the utility's equipment.
- C. Continuity of service.** Each utility shall make reasonable efforts to supply a satisfactory and continuous level of service. However, no utility shall be responsible for any damage or claim of damage attributable to any interruption or discontinuation of service resulting from:
1. Any cause against which the utility could not have reasonably foreseen or made provision for, i.e., force majeure
 2. Intentional service interruptions to make repairs or perform routine maintenance
 3. Curtailment.
- D. Change in character of service.** When a change is made by the utility in the type of service rendered which would adversely affect the efficiency of operation or require the adjustment of the equipment of customers, all customers who may be affected shall be notified by the utility at least 30 days in advance of the change or, if such notice is not possible, as early as feasible. Where adjustments or replacements of the utility's standard equipment must be made to permit use under such changed conditions, adjustments shall be made by the utility without charge to the customers.
- E. Service interruptions**
1. Each utility shall make reasonable efforts to reestablish service within the shortest possible time when service interruptions occur.
 2. Each utility shall make reasonable provisions to meet emergencies resulting from failure of service, and each utility shall issue instructions to its employees covering procedures to be followed in the event of emergency in order to prevent or mitigate interruption or impairment of service.
 3. In the event of a national emergency or local disaster resulting in disruption of normal service, the utility may, in the public interest, interrupt service to other customers to provide necessary service to civil defense or other emergency service agencies on a temporary basis until normal service to these agencies can be restored.
 4. When a utility plans to interrupt service for more than four hours to perform necessary repairs or maintenance, the utility shall attempt to inform affected customers at least 24 hours in advance of the scheduled date and estimated duration of the service interruption. Such repairs shall be completed in the shortest possible time to minimize the inconvenience to the customers of the utility.
5. The Commission shall be notified of interruptions in service affecting the entire system or any major division thereof. The interruption of service and cause shall be reported within one hour after the responsible representative of the utility becomes aware of said interruption by telephone to the Commission and followed by a written report to the Commission.
- F. Heat value standard for natural gas.** Each gas utility operating under the jurisdiction of the Commission shall supply gas to its customers with an average total heating value of not less than 900 Btu's per cubic foot. The number of Btu's per cubic foot actually delivered through the customer's meter will vary according to the altitude/elevation of the location where the customer is being provided service.
- G. Standard delivery pressure**
1. Each utility shall maintain a standard delivery pressure at the outlet of the customer's meter of approximately 0.25 pounds per square inch gauge subject to variation under load conditions.
 2. In cases where a customer desires service at greater than standard delivery pressure, the utility may supply at its option such greater pressure if and only as long as the furnishing of gas to such customer at higher than standard delivery pressure will not be detrimental to the service of other customers of the utility. The utility reserves the right to lower said delivery pressure or discontinue the delivery of gas at higher pressure at any time upon reasonable notice to the customer. Where service is provided at such higher pressure, the meter volumes shall be corrected to that higher pressure.
- H. Curtailment.** Each utility shall file with the Commission as a part of its general tariffs a procedural plan for handling severe supply shortages or service curtailments. The plan shall provide for equitable treatment of individual customer classes in the most reasonable and effective manner given the existing circumstances. When the availability of service is so restricted that the reduction of service on a proportionate basis to all customer classes will not maintain the integrity of the total system, the utility shall develop procedures to curtail service giving service priority to those customers and/or customer classes where health, safety and welfare would be adversely affected.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2). Amended by deleting subsection (I) effective October 23, 1987 (Supp. 87-4). Amended to correct subsection numbering (Supp. 99-4).

R14-2-309. Meter reading

- A. Company or customer meter reading**
1. Each utility may at its discretion allow for customer reading of meters.
 2. It shall be the responsibility of the utility to inform the customer how to properly read his or her meter.
 3. Where a customer reads his or her own meter, the utility will read the customer's meter at least once every six months.
 4. The utility shall provide the customer with postage-paid cards or other methods to report the monthly reading to the utility.

Corporation Commission - Fixed Utilities

5. Each utility shall specify the timing requirements for the customer to submit his or her monthly meter reading to conform with the utility's billing cycle.
 6. In the event the customer fails to submit the reading on time, the utility may issue the customer an estimated bill.
 7. Meters shall be read monthly on as close to the same day as practical.
- B. Measuring of service**
1. All gas sold by a utility shall be metered except in the case of gas sold according to a fixed charge schedule or when otherwise authorized by the Commission.
 2. When there is more than one meter at a location, the metering equipment shall be so tagged or plainly marked as to indicate the facilities being metered.
- C. Customer requested rereads**
1. Each utility shall at the request of a customer reread the customer's meter within 10 working days after such request by the customer.
 2. Any rereads may be charged to the customer at a rate on file and approved by the Commission, provided that the original reading was not in error.
 3. When a reading is found to be in error, the reread shall be at no charge to the customer.
- D. Access to customer premises.** Each utility shall at all times have the right of safe ingress to and egress from the customer's premises at all reasonable hours for any purpose reasonably connected with the furnishing of service and the exercise of any and all rights secured to it by law or these rules.
- E. Meter testing and maintenance program**
1. Each utility shall file with the Commission subject to review and approval a plan for routine maintenance and replacement of meters.
 2. Each utility shall file an annual report with the Commission summarizing the results of the meter maintenance and testing program for that year. At a minimum the report should include the following data:
 - a. Total number of meters tested, at company initiative or upon customer request.
 - b. Number of meters tested which were outside the acceptable error allowance $\pm 3\%$.
- F. Customer requested meter tests.** A utility shall test a meter upon customer request, and each utility shall be authorized to charge the customer for such meter test according to the tariff on file and approved by the Commission. However, if the meter is found to be in error by more than 3%, no meter testing fee will be charged to the customer.
- Historical Note**
- Adopted effective March 2, 1982 (Supp. 82-2). Amended to correct subsection numbering (Supp. 99-4).
- R14-2-310. Billing and collection**
- A. Frequency and estimated bills**
1. Each utility shall bill monthly for services rendered. Meter readings shall be scheduled for periods of not less than 25 days or more than 35 days.
 2. If the utility is unable to read the meter on the scheduled meter read date, the utility will estimate the consumption for the billing period giving consideration to the following factors where applicable:
 - a. The customer's usage during the same month of the previous year
 - b. The amount of usage during the preceding month.
 3. After the second consecutive month of estimating the customer's bill for reasons other than severe weather, the utility will attempt to secure an accurate reading of the meter.
4. Failure on the part of the customer to comply with a reasonable request by the utility for access to its meter may lead to the discontinuance of service.
 5. Estimated bills will be issued only under the following conditions:
 - a. Failure of a customer who read his own meter to deliver his meter reading card to the utility in accordance with the requirements of the utility billing cycle.
 - b. Severe weather conditions which prevent the utility from reading the meter.
 - c. Circumstances that make it impossible to read the meter, i.e., locked gates, blocked meters, vicious or dangerous animals, etc.
 6. Each bill based on estimated usage will indicate that it is an estimated bill.
- B. Combining meters, minimum bill information**
1. Each meter at a customer's premises will be considered separately for billing purposes, and the readings of two or more meters will not be combined except those approved by the utility.
 2. Each bill for residential service will contain the following minimum information:
 - a. Date and meter reading at the start of billing period or number of days in the billing period
 - b. Date and meter reading at the end of the billing period
 - c. Billed usage
 - d. Rate schedule number
 - e. Utility telephone number
 - f. Customer's name
 - g. Service account number
 - h. Amount due and due date
 - i. Past due amount
 - j. Adjustment factor, where applicable
 - k. Taxes
 - l. The Arizona Corporation Commission and address, thereof.
- C. Billing terms**
1. All bills for utility services are due and payable no later than 10 days from the date the bill is rendered. Any payment not received within this time-frame shall be considered past due.
 2. For purposes of this rule, the date a bill is rendered may be evidenced by:
 - a. The postmark date
 - b. The mailing date
 - c. The billing date shown on the bill (however, the billing date shall not differ from the postmark or mailing date by more than two days).
 3. All past due bills for utility services are due and payable within 15 days. Any payment not received within this time-frame shall be considered delinquent.
 4. All delinquent bills for which payment has not been received within five days shall be subject to the provisions of the utility's termination procedures.
 5. All payments shall be made at or mailed to the office of the utility or to the utility's duly authorized representative.
- D. Applicable tariffs, prepayment, failure to receive, commencement date, taxes**
1. Each customer shall be billed under the applicable tariff indicated in the customer's application for service.
 2. Each utility shall make provisions for advance payment of utility services.

Corporation Commission - Fixed Utilities

3. Failure to receive bills or notices which have been properly placed in the United States mail shall not prevent such bills from becoming delinquent nor relieve the customer of his obligations therein.
 4. Charges for service commence when the service is installed and connection made, whether used or not.
- E. Meter error corrections**
1. If any meter after testing is found to be more than 3% in error, either fast or slow, proper correction between 3% and the amount of the error shall be made of previous readings and adjusted bills shall be rendered according to the following terms:
 - a. For the period of three months immediately preceding the removal of such meter from service for test or from the time the meter was in service since last tested, but not exceeding three months since the meter shall have been shown to be in error by such test.
 - b. From the date the error occurred, if the date of the cause can be definitely fixed.
 2. No adjustment shall be made by the utility except to the customer last served by the meter tested.
- F. Insufficient funds (NSF) checks**
1. A utility shall be allowed to recover a fee, as approved by the Commission in a tariff proceeding, for each instance where a customer tenders payment for utility service with an insufficient funds check.
 2. When the utility is notified by the customer's bank that there are insufficient funds to cover the check tendered for utility service, the utility may require the customer to make payment in cash, by money order, certified check, or other means which guarantee the customer's payment to the utility.
 3. A customer who tenders an insufficient check shall in no way be relieved of the obligation to render payment to the utility under the original terms of the bill nor defer the utility's provision for termination of service for nonpayment of bills.
- G. Levelized billing plan**
1. Each utility may, at its option, offer its residential customers a levelized billing plan.
 2. Each utility offering a levelized billing plan shall develop upon customer request an estimate of the customer's levelized billing for a 12-month period based upon:
 - a. Customer's actual consumption history, which may be adjusted for abnormal conditions such as weather variations.
 - b. For new customers, the utility will estimate consumption based on the customer's anticipated load requirements.
 - c. The utility's tariff schedules approved by the Commission applicable to that customer's class of service.
 3. The utility shall provide the customer a concise explanation of how the levelized billing estimate was developed, the impact of levelized billing on a customer's monthly utility bill, and the utility's right to adjust the customer's billing for any variation between the utility's estimated billing and actual billing.
 4. For those customers being billed under a levelized billing plan, the utility shall show, at a minimum, the following information on the customer's monthly bill:
 - a. Actual consumption
 - b. Amount due for actual consumption
 - c. Levelized billing amount due
 - d. Accumulated variation in actual versus levelized billing amount.
 5. The utility may adjust the customer's levelized billing in the event the utility's estimate of the customer's usage and/or cost should vary significantly from the customer's actual usage and/or cost; such review to adjust the amount of the levelized billing may be initiated by the utility or upon customer request.
- H. Elevation/pressure adjustment.** Each gas utility shall, as a part of a general rate proceeding, file an adjustment factor to be applied to customer meter recordings to adjust for differences in pressure due to elevation.
- I. Deferred payment plan**
1. Each utility may, prior to termination, offer to qualifying residential customers a deferred payment plan for the customer to retire unpaid bills for utility service.
 2. Each deferred payment agreement entered into by the utility and the customer due to the customer's inability to pay an outstanding bill in full shall provide that service will not be discontinued if:
 - a. Customer agrees to pay a reasonable amount of the outstanding bill at the time the parties enter into the deferred payment agreement.
 - b. Customer agrees to pay all future bills for utility service in accordance with the billing and collection tariffs of the utility.
 - c. Customer agrees to pay a reasonable portion of the remaining outstanding balance in installments over a period not to exceed six months.
 3. For the purposes of determining a reasonable installment payment schedule under these rules, the utility and the customer shall give consideration to the following conditions:
 - a. Size of the delinquent account
 - b. Customer's ability to pay
 - c. Customer's payment history
 - d. Length of time that the debt has been outstanding
 - e. Circumstances which resulted in the debt being outstanding
 - f. Any other relevant factors related to the circumstances of the customer.
 4. Any customer who desires to enter into a deferred payment agreement shall establish such agreement prior to the utility's scheduled termination date for nonpayment of bills; customer failure to execute a deferred payment agreement prior to the scheduled termination date shall not prevent the utility from discontinuing service for nonpayment.
 5. Deferred payment agreements may be in writing and may be signed by the customer and an authorized utility representative.
 6. A deferred payment agreement may include a finance charge as approved by the Commission in a tariff proceeding.
 7. If a customer has not fulfilled the terms of a deferred payment agreement, the utility shall have the right to disconnect service pursuant to the utility's termination of service rules and, under such circumstances, it shall not be required to offer subsequent negotiation of a deferred payment agreement prior to disconnection.
- J. Change of occupancy**
1. Not less than three working days advance notice must be given in person, in writing, or by telephone at the utility's office to discontinue service or to change occupancy.

Corporation Commission - Fixed Utilities

2. The outgoing party shall be responsible for all utility services provided and/or consumed up to the scheduled turn-off date.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2). Amended to correct subsection numbering (Supp. 99-4).

R14-2-311. Termination of service

- A.** Nonpermissible reasons to disconnect service. A utility may not disconnect service for any of the reasons stated below:
 1. Delinquency in payment for services rendered to a prior customer at the premises where service is being provided, except in the instance where the prior customer continues to reside on the premises.
 2. Failure of the customer to pay for services or equipment which are not regulated by the Commission.
 3. Nonpayment of a bill related to another class of service.
 4. Failure to pay for a bill to correct a previous underbilling due to an inaccurate meter or meter failure if the customer agrees to pay over a reasonable period of time.
 5. A utility shall not terminate residential service where the customer has an inability to pay and:
 - a. The customer can establish through medical documentation that, in the opinion of a licensed medical physician, termination would be especially dangerous to the customer or a permanent resident residing on the customer's premises health, or
 - b. Life supporting equipment used in the home that is dependent on utility service for operation of such apparatus, or
 - c. Where weather will be especially dangerous to health as defined herein or as determined by the Commission.
 6. Residential service to ill, elderly, or handicapped persons who have an inability to pay will not be terminated until all of the following have been attempted:
 - a. The customer has been informed of the availability of funds from various government and social assistance agencies
 - b. A third party previously designated by the customer has been notified and has not made arrangements to pay the outstanding utility bill.
 7. A customer utilizing the provisions of subsection (A)(5) or (6) may be required to enter into a deferred payment agreement with the utility within 10 days after the scheduled termination date.
 8. Failure to pay the bill of another customer as guarantor thereof.
 9. Disputed bills where the customer has complied with the Commission's rules on customer bill disputes.
- B.** Termination of service without notice
 1. Utility service may be disconnected without advance written notice under the following conditions:
 - a. The existence of an obvious hazard to the safety or health of the consumer or the general population.
 - b. The utility has evidence of meter tampering or fraud.
 - c. Failure of a customer to comply with the curtailment procedures imposed by a utility during supply shortages.
 2. The utility shall not be required to restore service until the conditions which resulted in the termination have been corrected to the satisfaction of the utility.
 3. Each utility shall maintain a record of all terminations of service without notice. This record shall be maintained for a minimum of one year and shall be available for inspection by the Commission.

C. Termination of service with notice

1. A utility may disconnect service to any customer for any reason stated below provided the utility has met the notice requirements established by the Commission:
 - a. Customer violation of any of the utility's tariffs.
 - b. Failure of the customer to pay a delinquent bill for utility service.
 - c. Failure to meet or maintain the utility's deposit requirements.
 - d. Failure of the customer to provide the utility reasonable access to its equipment and property.
 - e. Customer breach of a written contract for service between the utility and customer.
 - f. When necessary for the utility to comply with an order of any governmental agency having such jurisdiction.
2. Each utility shall maintain a record of all terminations of service with notice. This record shall be maintained for one year and be available for Commission inspection.

D. Termination notice requirements

1. No utility shall terminate service to any of its customers without providing advance written notice to the customer of the utility's intent to disconnect service, except under those conditions specified where advance written notice is not required.
2. Such advance written notice shall contain, at a minimum, the following information:
 - a. The name of the person whose service is to be terminated and the address where service is being rendered.
 - b. The utility tariff that was violated and explanation thereof or the amount of the bill which the customer has failed to pay in accordance with the payment policy of the utility, if applicable.
 - c. The date on or after which service may be terminated.
 - d. A statement advising the customer that the utility's stated reason for the termination of services may be disputed by contacting the utility at a specific address or phone number, advising the utility of the dispute and making arrangements to discuss the cause for termination with a responsible employee of the utility in advance of the scheduled date of termination. The responsible employee shall be empowered to resolve the dispute and the utility shall retain the option to terminate service after affording this opportunity for a meeting and concluding that the reason for termination is just and advising the customer of his right to file a complaint with the Commission.
3. Where applicable, a copy of the termination notice will be simultaneously forwarded to designated third parties.

E. Timing of terminations with notice

1. Each utility shall be required to give at least five days' advance written notice prior to the termination date.
2. Such notice shall be considered to be given to the customer when a copy thereof is left with the customer or posted first class in the United States mail, addressed to the customer's last known address.
3. If after the period of time allowed by the notice has elapsed and the delinquent account has not been paid nor arrangements made with the utility for the payment thereof or in the case of a violation of the utility's rules the customer has not satisfied the utility that such violation has ceased, the utility may then terminate service on

Corporation Commission - Fixed Utilities

- or after the day specified in the notice without giving further notice.
4. Service may only be disconnected in conjunction with a personal visit to the premises by an authorized representative of the utility.
 5. The utility shall have the right (but not the obligation) to remove any or all of its property installed on the customer's premises upon the termination of service.

F. Landlord/tenant rule. In situations where service is rendered at an address different from the mailing address of the bill or where the utility knows that a landlord/tenant relationship exists and that the landlord is the customer of the utility, and where the landlord as a customer would otherwise be subject to disconnection of service, the utility may not disconnect service until the following actions have been taken:

1. Where it is feasible to so provide service, the utility, after providing notice as required in these rules, shall offer the occupant the opportunity to subscribe for service in his or her own name. If the occupant then declines to so subscribe, the utility may disconnect service pursuant to the rules.
2. A utility shall not attempt to recover from a tenant or condition service to a tenant with the payment of any outstanding bills or other charges due upon the outstanding account of the landlord.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2). Amended to correct subsection numbering (Supp. 99-4).

Editor's Note: *The following Section was amended under an exemption from the Attorney General approval provisions of the Arizona Administrative Procedure Act (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)), as determined by the Corporation Commission. This exemption means that the rules as amended were not approved by the Attorney General.*

R14-2-312. Administrative and Hearing Requirements

A. Customer service complaints

1. Each utility shall make a full and prompt investigation of all service complaints made by its customers, either directly or through the Commission.
2. The utility shall respond to the complainant and/or the Commission representative within five working days as to the status of the utility investigation of the complaint.
3. The utility shall notify the complainant and/or the Commission representative of the final disposition of each complaint. Upon request of the complainant or the Commission representative, the utility shall report the findings of its investigation in writing.
4. The utility shall inform the customer of his right of appeal to the Commission.
5. Each utility shall keep a record of all written service complaints received which shall contain, at a minimum, the following data:
 - a. Name and address of the complainant
 - b. Date and nature of the complaint
 - c. Disposition of the complaint
 - d. A copy of any correspondence between the utility, the customer, and/or the Commission.

This record shall be maintained for a minimum period of one year and shall be available for inspection by the Commission.

B. Customer bill disputes

1. Any utility customer who disputes a portion of a bill rendered for utility service shall pay the undisputed portion of the bill and notify the utility's designated representa-

tive that such unpaid amount is in dispute prior to the delinquent date of the bill.

2. Upon receipt of the customer notice of dispute, the utility shall:
 - a. Notify the customer within five working days of the receipt of a written dispute notice.
 - b. Initiate a prompt investigation as to the source of the dispute.
 - c. Withhold disconnection of service until the investigation is completed and the customer is informed of the results. Upon request of the customer the utility shall report the results of the investigation in writing.
 - d. Inform the customer of his right of appeal to the Commission.
3. Once the customer has received the results of the utility's investigation, the customer shall submit payment within five working days to the utility for any disputed amounts. Failure to make full payment shall be grounds for termination of service.

C. Commission resolution of service and/or bill disputes

1. In the event a customer and utility cannot resolve a service and/or bill dispute, the customer shall file a written statement of dissatisfaction with the Commission; by submitting such notice to the Commission, the customer shall be deemed to have filed an informal complaint against the utility.
2. Within 30 days of the receipt of a written statement of customer dissatisfaction related to a service or bill dispute, a designated representative of the Commission shall endeavor to resolve the dispute by correspondence and/or telephone with the utility and the customer. If resolution of the dispute is not achieved within 20 days of the Commission representative's initial effort, the Commission shall hold an informal hearing to arbitrate the resolution of the dispute. The informal hearing shall be governed by the following rules:
 - a. Each party may be represented by legal counsel, if desired.
 - b. All such informal hearings may be recorded or held in the presence of a stenographer.
 - c. All parties will have the opportunity to present written or oral evidentiary material to support the positions of the individual parties.
 - d. All parties and the Commission's representative shall be given the opportunity for cross-examination of the various parties.
 - e. The Commission's representative will render a written decision to all parties within five working days after the date of the informal hearing. Such written decision of the arbitrator is not binding on any of the parties and the parties will still have the right to make a formal complaint to the Commission.
3. The utility may implement normal termination procedures if the customer fails to pay all bills rendered during the resolution of the dispute by the Commission.
4. Each utility shall maintain a record of written statements of dissatisfaction and their resolution for a minimum of one year and make such records available for Commission inspection.

D. Notice by utility of responsible officer or agent

1. Each utility shall file with the Commission a written statement containing the name, address (business, residence and post office) and telephone numbers (business and residence) of at least one officer, agent or employee

Corporation Commission - Fixed Utilities

- responsible for the general management of its operations as a utility in Arizona.
2. Each utility shall give notice, by filing a written statement with the Commission, of any change in the information required herein within five days from the date of any such change.
- E. Time-frames for processing applications for Certificates of Convenience and Necessity**
1. This rule prescribes time-frames for the processing of any application for a Certificate of Convenience and Necessity issued by the Arizona Corporation Commission pursuant to this Article. These time-frames shall apply to applications filed on or after the effective date of this rule.
 2. Within 120 calendar days after receipt of an application for a new Certificate of Convenience and Necessity, or to amend or change the status of any existing Certificate of Convenience and Necessity, staff shall notify the applicant, in writing, that the application is either administratively complete or deficient. If the application is deficient, the notice shall specify all deficiencies.
 3. Staff may terminate an application if the applicant does not remedy all deficiencies within 60 calendar days of the notice of deficiency.
 4. After receipt of a corrected application, staff shall notify the applicant within 30 calendar days if the corrected application is either administratively complete or deficient. The time-frame for administrative completeness review shall be suspended from the time the notice of deficiency is issued until staff determines that the application is complete.
 5. Within 150 days after an application is deemed administratively complete, the Commission shall approve or reject the application.
 6. For purposes of A.R.S. § 41-1072 et seq., the Commission has established the following time-frames:
 - a. Administrative completeness review time-frame: 120 calendar days,
 - b. Substantive review time-frame: 150 calendar days,
 - c. Overall time-frame: 270 calendar days.
 7. If an applicant requests, and is granted, an extension or continuance, the appropriate time-frames shall be tolled from the date of the request during the duration of the extension or continuance.
 8. During the substantive review time-frame, the Commission may, upon its own motion or that of any interested party to the proceeding, request a suspension of the time-frame rules.
- F. Filing tariffs**
1. Each utility shall file with the Commission tariffs which are in compliance with the rules and regulations promulgated by the Arizona Corporation Commission within 120 days of the effective date of such rules.
 2. Each utility shall file with the Commission any proposed changes to the tariffs on file with the Commission; such proposed changes shall be accompanied by a statement of justification supporting the proposed tariff change.
 3. Any proposed change to the tariffs on file with the Commission shall not be effective until reviewed and approved by the Commission.
- G. Accounts and records**
1. Each utility shall keep general and auxiliary accounting records reflecting the cost of its properties, operating income and expense, assets and liabilities, and all other accounting and statistical data necessary to give complete and authentic information as to its properties and operations.
2. Each utility shall maintain its books and records in conformity with the Uniform Systems of Accounts for Class A, B, C and D Gas Utilities as adopted and amended by the Federal Energy Regulatory Commission.
 3. A utility shall produce or deliver in this state any or all of its formal accounting records and related documents requested by the Commission. It may, at its option, provide verified copies of original records and documents.
 4. All utilities shall submit an annual report to the Commission on a form prescribed by it. The annual report shall be filed on or before the 15th day of April for the preceding calendar year. Reports prepared by a certified or licensed public accountant on the utility, if any, shall accompany the annual report.
 5. All utilities shall file with the Commission a copy of all reports required by the Securities and Exchange Commission.
 6. All utilities shall file with the Commission a copy of all annual reports required by the Federal Energy Regulatory Commission.
- H. Maps.** All utilities shall file with the Commission a map or maps clearly setting forth the location and extent of the area or areas they hold under approved certificates of convenience and necessity, in accordance with the Cadastral (Rectangular) Survey of the United States Bureau of Land Management, or by metes and bounds with a starting point determined by the aforesaid Cadastral Survey.
- I.** Variations, exemptions of Commission rules and regulations. Variations or exemptions from the terms and requirements of any of the rules included herein (Title 14, Chapter 2, Article 3) shall be considered upon the verified application of an affected party to the Commission setting forth the circumstances whereby the public interest requires such variation or exemption from the Commission rules and regulations. Such application will be subject to the review of the Commission, and any variation or exemption granted shall require an order of the Commission. In case of conflict between these rules and regulations and an approved tariff or order of the Commission, the provisions of the tariff or order shall apply.
- J.** Prior agreements. The adoption of these rules by the Commission shall not affect any agreements entered into between the utility and customers or other parties who, pursuant to such contracts, arranged for the extension of facilities in a provision of service prior to the effective date of these rules.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2). Amended effective December 31, 1998, under an exemption from the Attorney General certification requirements of the Arizona Administrative Procedure Act (Supp. 98-4). Amended effective December 31, 1998, under an exemption as determined by the Arizona Corporation Commission (Supp. 98-4). Amended to correct subsection numbering (Supp. 99-4).

R14-2-313. Conservation**Energy conservation plan**

1. The Arizona Corporation Commission recognizes the need for conservation of energy resources in order to maintain an adequate and continuous supply of safe, dependable, and affordable energy. Therefore, in order to promote the state's economic development and the health and welfare of its citizenry, each class A and B gas utility shall file an energy conservation plan which encompasses at a minimum the following considerations:

Corporation Commission - Fixed Utilities

- a. Development of consumer education and assistance programs to aid the populace in reducing energy consumption and cost.
- b. Participation in various energy conservation programs sponsored by other municipal, state or federal government entities having such jurisdiction.
2. Each utility shall file an energy conservation plan with the Commission within one year of the effective date of these rules and annual updates thereafter when changes require such.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2).

R14-2-314. Intermittent gas ignition

- A. Application and scope. The provisions of this rule are applicable to the following types of gas appliances:
 1. All residential gas-fired space heating equipment requiring electrical supply for operation,
 2. All residential gas-fired clothes dryers,
 3. All residential gas-fired household cooking appliances having an electrical supply cord or electrical junction box,
 4. All residential gas-fired air conditioners,
 5. All residential decorative gas lots which are automatically ignited and require electrical supply for operation,
 6. All residential vented decorative gas appliances which are automatically lighted and require electrical supply for operation.
- B. Prohibition of distribution, sales and installation
 1. No person shall cause to be distributed, sold or installed in this state a newly produced gas appliance subject to this rule which has not been certified by the Commission. This prohibition shall not take effect for any particular type of gas appliance until 24 months after at least one model of that type of appliance has been certified by the Commission.
 2. All gas appliances certified by the Commission shall have the statement, "This appliance is equipped with an intermittent type ignition device" or "Equipped with IID" or "IID Equipped" on the rating plate.
- C. Definitions. For the purpose of this rule, and unless otherwise indicated, the following definitions shall apply in addition to those definitions shown in Title 40, Section 1, Chapter 7, Article 1, Paragraph 40-1201, of the A.R.S.:
 1. "Certified by the Commission" means that the Commission has acknowledged receipt of one of the following for an appliance equipped with an intermittent type ignition device; a photostatic copy of the A.G.A. Appliance Certificate or the UL Listing Certificate; a listing of the appliance in the A.G.A. "Directory of Certified Appliances and Accessories" or the UL "Gas and Oil Equipment List"; or a certified test report from a recognized independent testing laboratory acceptable to the Commission stating that the appliance has been tested and conforms to the applicable American National Standards as mentioned below.
 2. "Newly produced" means not previously used for the purpose for which designed or any other related purpose and constructed entirely of new unused parts and materials.
 3. "Rating plate" means a plate, or combination of adjacent plates located so as to be easily read when the appliance is in a normally installed position.
- D. Gas-fired space heating equipment.
 1. Except as otherwise provided, all intermittent type ignition devices used on gas-fired space heating equipment shall be certified by the Commission if they comply with

the standards approved by the American National Standards Institute, Inc., known as: ANSI Z21.20-1975, Automatic Gas Ignition Systems and Components.

2. Except as otherwise provided, gas-fired space heating equipment shall be certified by the Commission if it complies with one of the standards approved by the American National Standards Institute, Inc., known as:
 - a. ANSI Z21.47-1973-Gas-Fired Gravity and Forced Air Central Furnaces, addenda Z21.47a-1974, and addenda Z21.47b-1975.
 - b. ANSI Z21.11.1-1974-Vented Room Heaters, addenda Z21.11.1a-1975 and addenda Z21.11.1b-1976.
 - c. ANSI Z21.13-1974-Gas-Fired Low-Pressure Steam and Hot Water Boilers, and addenda Z21.13a-1976.
 - d. ANSI Z21.44-1977-Gas-Fired Gravity and Fan Type Sealed Combustion System Wall Furnaces.
 - e. ANSI Z21.49-1975-Gas-Fired Gravity and Fan Type Vented Wall Furnaces and addenda Z21.49a-1977.
 - f. ANSI Z21.48-1973-Gravity and Fan Type Floor Furnaces and addenda Z21.48a-1974 and addenda Z21.48b-1975.
- E. Gas clothes dryers.
 1. Except as otherwise provided, all intermittent type ignition devices used on gas clothes dryers shall be certified by the Commission if they comply with the standards approved by the American National Standards Institute, Inc., known as: ANSI Z21.20-1975-Automatic Gas Ignition Systems and Components.
 2. Except as otherwise provided, gas clothes dryers shall be certified by the Commission, if they comply with the standards approved by the American National Standards Institute, Inc., known as ANSI Z21.5.1-1975-Type 1 Clothes Dryers.
- F. Household cooking gas appliances.
 1. Except as otherwise provided, all intermittent type ignition devices used on a household cooking gas appliance shall be certified by the Commission if they comply with the standards approved by the American National Standards Institute, Inc., known as: ANSI Z21.20-1975-Automatic Gas Ignition Systems and Component.
 2. Except as otherwise provided, household cooking gas appliances shall be certified by the Commission if they comply with the standards approved by the American National Standards Institute, Inc., known as: ANSI Z21.1-1974-Household Cooking Appliances, addenda Z21.1a-1974, and addenda Z21.1b-1976.
- G. Gas-fired air conditioners.
 1. Except as otherwise provided, all intermittent type ignition devices used on a gas-fired air conditioner shall be certified by the Commission if they comply with the standards approved by the American National Standards Institute, Inc., known as: ANSI Z21.20-1975-Automatic Gas Ignition Systems and Components.
 2. Except as otherwise provided, gas-fired air conditioners shall be certified by the Commission, if they comply with the standards approved by the American National Standards Institute, Inc., known as: ANSI Z21.40.1-1973-Gas-Fired Absorption Summer Air Conditioning Appliances, and addenda Z21.40.1a-1974.
- H. Decorative gas logs.
 1. Shall be certified by the Commission if they comply with the standards approved by the American National Standards Institute, Inc., known as: ANSI Z21.20-1975-Automatic Gas Ignition Systems and Components.

Corporation Commission - Fixed Utilities

2. Except as otherwise provided, gas-fired decorative gas logs shall be certified by the Commission if they comply with the standards approved by the American National Standards Institute, Inc., known as: ANSI Z21.60-1975-Decorative Gas Appliances for Installation in Vented Fireplaces and addenda Z21.60a-1976.
- I. Vented decorative gas appliances.
 1. Shall be certified by the Commission if they comply with the standards approved by the American National Standards Institute, Inc., known as: ANSI Z21.20-1975-Automatic Gas Ignition Systems and Components.
 2. Except as otherwise provided, gas-fired vented decorative appliances shall be certified by the Commission if they comply with the standards approved by the American National Standards Institute, Inc., known as: ANSI Z21.50-1973-Vented Decorative Gas Appliances, addenda Z21.50a-1974 and addenda Z21.50b-1974.
- J. The statement mentioned in subsection (B)(2) which is required on the rating plate will be the Seal of Certification for Arizona. The rating plate will be furnished and applied and distributed by the manufacturer.
- K. The Utilities Division of this Commission is charged with the duty of maintaining the records necessary for the control of the Certification Program and will notify manufacturers in accordance with paragraph 40-1204, Article 1, Chapter 7, Title 40 of the Arizona Revised Statutes.
- L. Variance. Variation from the terms and conditions of this rule shall be permitted only upon the verified application of an affected party to the Commission, setting forth the circumstances whereby the public interest requires such variation, and upon the issuance of a special Order of the Commission. The Commission may require an application for such variation to be presented in a public hearing.

Historical Note

Former Section R14-2-135 renumbered as Section R14-2-314 without change effective March 2, 1982 (Supp. 82-2).

ARTICLE 4. WATER UTILITIES**R14-2-401. Definitions**

In this Article, unless the context otherwise requires, the following definitions shall apply:

1. "Advance in aid of construction." Funds provided to the utility by the applicant under the terms of a main extension agreement the value of which may be refundable.
2. "Applicant." A person requesting the utility to supply water service.
3. "Application." A request to the utility for water service, as distinguished from an inquiry as to the availability or charges for such service.
4. "Arizona Corporation Commission." The regulatory authority of the state of Arizona having jurisdiction over public service corporations operating in Arizona.
5. "Billing month." The period between any two regular readings of the utility's meters at approximately 30 day intervals.
6. "Billing period." The time interval between two consecutive meter readings that are taken for billing purposes.
7. "Commodity charge." The unit of cost per billed usage, as set forth in the utility's tariffs.
8. "Contributions in aid of construction." Funds provided to the utility by the applicant under the terms of a main extension agreement and/or service connection tariff the value of which are not refundable.
9. "Customer." The person or entity in whose name service is rendered, as evidenced by the signature on the application or contract for that service, or by the receipt and/or payment of bills regularly issued in his name regardless of the identity of the actual user of the service.
10. "Customer charge." The amount the customers must pay the utility for the availability of water service, excluding any water used, as specified in the utility's tariffs.
11. "Day." Calendar day.
12. "Distribution main." A water main of the utility from which service connections may be extended to customers.
13. "Interruptible water service." Water service that is subject to interruption or curtailment.
14. "Main extension." The mains and ancillary equipment necessary to extend the existing water distribution system to provide service to additional customers.
15. "Master meter." A meter for measuring or recording the flow of water at a single location where said water is transported through an underground piping system to tenants or occupants for their individual consumption.
16. "Meter." The instrument for measuring and indicating or recording the volume of water that has passed through it.
17. "Meter tampering." A situation where a meter has been illegally altered. Common examples are meter bypassing, use of magnets to slow the meter recording, and broken meter seals.
18. "Minimum charge." The amount the customer must pay for the availability of water service, including an amount of usage, as specified in the utility's tariffs.
19. "Minimum delivery pressure." 20 pounds per square inch gauge at the meter or point of delivery.
20. "Permanent customer." A customer who is a tenant or owner of a service location who applies for and receives water service.
21. "Permanent service." Service which, in the opinion of the utility, is of a permanent and established character. The use of water may be continuous, intermittent, or seasonal in nature.
22. "Person." Any individual, partnership, corporation, governmental agency, or other organization operating as a single entity.
23. "Point of delivery." The point where facilities owned, leased, or under license by a customer connect to the utility's pipes or at the outlet side of the meter.
24. "Premises." All of the real property and apparatus employed in a single enterprise on an integral parcel of land undivided by public streets, alleys or railways.
25. "Residential subdivision development." Any tract of land which has been divided into four or more contiguous lots for use for the construction of residential buildings or permanent mobile homes for either single or multiple occupancy.
26. "Residential use." Service to customers using water for domestic purposes such as personal consumption, water heating, cooking, and other residential uses and includes use in apartment buildings, mobile home parks, and other multiunit residential buildings.
27. "Rules." The regulations set forth in the tariffs which apply to the provision of water service.
28. "Service area." The territory in which the utility has been granted a Certificate of Convenience and Necessity and is authorized by the Commission to provide water service.
29. "Service establishment charge." The charge as specified in the utility's tariffs which covers the cost of establishing a new account.
30. "Service line." A water line that transports water from a common source (normally a distribution main) of supply to the customer's point of delivery.

Corporation Commission - Fixed Utilities

31. "Service reconnect charge." The charge as specified in the utility's tariffs which must be paid by the customer prior to reestablishment of water service each time the water is disconnected for nonpayment or whenever service is discontinued for failure otherwise to comply with the utility's fixed rules.
32. "Service reestablishment charge." A charge as specified in the utility's tariffs for service at the same location where the same customer had ordered a service disconnection within the preceding 12-month period.
33. "Single family dwelling." A house, an apartment, a mobile home permanently affixed to a lot, or any other permanent residential unit which is used as a permanent home.
34. "Tariffs." The documents filed with the Commission which list the services and products offered by the water company and which set forth the terms and conditions and a schedule of the rates and charges for those services and products.
35. "Temporary service." Service to premises or enterprises which are temporary in character, or where it is known in advance that the service will be of limited duration. Service which, in the opinion of the utility, is for operations of a speculative character is also considered temporary service.
36. "Utility." The public service corporation providing water service to the public in compliance with state law.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2).

R14-2-402. Certificates of Convenience and Necessity for Water Utilities; Extensions of Certificates of Convenience and Necessity for Water Utilities; Abandonment, Sale, Lease, Transfer, or Disposal of a Water Utility; Discontinuance or Abandonment of Water Utility Service

A. In this Section, unless otherwise specified:

1. "Applicant" means a person who submits an application to obtain a Certificate of Convenience and Necessity to construct water utility facilities or operate as a water utility or to extend the service area under an existing Certificate of Convenience and Necessity held by the person.
2. "CC&N" means Certificate of Convenience and Necessity.
3. "Commission" means the Arizona Corporation Commission.
4. "Contiguous" means in actual contact, touching, such as by sharing a common border.
5. "Extension area" means the geographic area that an applicant is requesting to have added to the applicant's existing CC&N service area.

B. Application for a new CC&N or extension of a CC&N

1. Any person who desires to construct water utility facilities or to operate as a water utility shall, prior to commencing construction of utility facilities or operations, file with the Commission an application for a CC&N and obtain Commission approval.
2. Any utility that desires to extend its CC&N service area shall file with the Commission an application for a CC&N extension.
3. Before filing an application for a CC&N or a CC&N extension, a person shall provide written notice of the person's intention to file the application to each person who owns land within the proposed service area or extension area and who has not requested service. Each written notice to a landowner shall include, at a minimum:

- a. The legal name, physical address, mailing address (if different), and telephone number of the intended applicant;
- b. The approximate date by which the application will be filed;
- c. The type of services to be provided if the application is approved;
- d. The physical addresses and toll-free telephone numbers, in Phoenix and Tucson, for the Consumer Services Section of the Commission; and
- e. The following information:
 - i. That the recipient is a property owner within the proposed service area or extension area;
 - ii. That if the application is granted, the intended applicant will be the exclusive provider of the specific services to the proposed service area or extension area and will be required by the Commission to provide those services under rates and charges and terms and conditions established by the Commission;
 - iii. That a CC&N does not prohibit persons from providing services only to themselves using their own facilities on their own property, although other applicable laws may restrict such activity;
 - iv. That the application is available for inspection during regular business hours at the offices of the Commission and at the offices of the intended applicant;
 - v. That the Commission will hold a hearing on the application;
 - vi. That the landowner may have the right to intervene in the proceeding and may appear at the hearing and make a statement on his or her own behalf even if the landowner does not intervene;
 - vii. That the landowner may contact the Commission for the date and time of the hearing and for information on intervention;
 - viii. That the landowner may not receive any further notice of the application proceeding unless requested; and
 - ix. That the landowner may contact the intended applicant or the Consumer Services Section of the Commission if the landowner has any questions or concerns about the application, has any objections to approval of the application, or wishes to make a statement in support of the application.

4. Within 10 days after filing an application for a CC&N or a CC&N extension, an applicant shall provide written notice of the application to the municipal manager or administrator of each municipality with corporate limits that overlap with or are within five miles of the proposed service area or extension area. Each written notice shall include, at a minimum:

- a. The applicant's legal name, mailing address, and telephone number;
- b. The date the application was filed;
- c. The type of services to be provided if the application is approved;
- d. A description of the requested service area or extension area, expressed in terms of cadastral (quarter section) or metes and bound survey;
- e. The Commission docket number assigned to the application; and

Corporation Commission - Fixed Utilities

- f. Instructions on how to obtain a copy of the application.
5. Each application for a new CC&N or CC&N extension shall be submitted in a form and number prescribed by the Commission and shall include, at a minimum, the following information:
 - a. The applicant's legal name, mailing address, and telephone number;
 - b. If the applicant will or does operate the utility under a different business name, the name under which the applicant will be doing business;
 - c. The full name, mailing address, and telephone number of a management contact for the applicant;
 - d. The full name, mailing address, and telephone number of the attorney for the applicant, if any;
 - e. The full name, mailing address, and telephone number of the operator certified by the Arizona Department of Environmental Quality who is or will be working for the applicant;
 - f. The full name, mailing address, and telephone number of the onsite manager for the applicant;
 - g. Whether the applicant is a corporation, a partnership, a limited liability company, a sole proprietor, or another specified type of legal entity;
 - h. If the applicant is a corporation, the following:
 - i. Whether the applicant is a "C" corporation, an "S" corporation, or a non-profit corporation and whether the corporation is domestic or foreign;
 - ii. A list of the full names, titles, and mailing addresses of each of the applicant's officers and directors;
 - iii. A copy of the applicant's certificate of good standing issued by the Commission's Corporations Division;
 - iv. Unless the applicant is applying for a CC&N extension, a certified copy of the applicant's articles of incorporation and by-laws; and
 - v. If the applicant is a for-profit corporation, the number of shares of stock authorized for issue and, if any stock has been issued, the number of shares issued and date of issuance;
 - i. If the applicant is a partnership, the following:
 - i. Whether the applicant is a limited partnership or a general partnership and whether the partnership is domestic or foreign;
 - ii. The full names and mailing addresses of the applicant's general partners;
 - iii. The full names, mailing addresses, and telephone numbers of the applicant's managing partners;
 - iv. Unless the applicant is applying for a CC&N extension, a copy of the applicant's articles of partnership; and
 - v. If the applicant is a foreign limited partnership, a copy of the applicant's certificate of registration filed with the Arizona Secretary of State;
 - j. If the applicant is a limited liability company, the following:
 - i. The full names and mailing addresses of the applicant's managers or, if management is reserved to the members, the applicant's members;
 - ii. Unless the applicant is applying for a CC&N extension, a copy of the applicant's articles of organization;
- k. The legal name and mailing address of each other utility in which the applicant has an ownership interest;
- l. A description of the requested service area or extension area, expressed in terms of cadastral (quarter section) or metes and bound survey;
- m. The name of each county in which the requested service area or extension area is located and a description of the area's location in relation to the closest municipality, which shall be named;
- n. A complete description of the facilities proposed to be constructed, including a preliminary engineering report with specifications in sufficient detail to describe each water system and the principal components of each water system (e.g., source, storage, transmission lines, distribution lines, etc.) to allow verification of the estimated costs provided under subsection (B)(5)(o) and verification that the requirements of the Commission and the Arizona Department of Environmental Quality can be met;
- o. The estimated total construction cost of the proposed offsite and onsite facilities, including documentation to support the estimates, and an explanation of how the construction will be financed, such as through debt, equity, advances in aid of construction, contributions in aid of construction, or a combination thereof;
- p. Documentation establishing the applicant's financial condition, including at least the applicant's current assets and liabilities, an income statement, the applicant's estimated revenue and expenses for the first five years following approval of the application, and the estimated value of the applicant's utility plant in service for the first five years following approval of the application;
- q. The rates proposed to be charged for services rendered, shown in the form of a proposed tariff that complies with Commission standards;
- r. The estimated annual operating revenues and expenses for the first five years of operation for the requested service area or extension area, expressed separately for residential, commercial, industrial, and irrigation services, and including a description of each assumption made to derive the estimates;
- s. A detailed description of the proposed construction timeline for facilities, with estimated starting and completion dates and, if construction is to be phased, a description of each separate phase of construction;
- t. A copy of any requests for service from persons who own land within the proposed service area or extension area, which shall identify the applicant by name;
- u. Maps of the proposed service area or extension area identifying:
 - i. The boundaries of the area, with the total acreage noted;
 - ii. The land ownership boundaries within the area, with the acreage of each separately owned parcel within the area noted;
 - iii. The owner of each parcel within the area;
 - iv. Any municipality corporate limits that overlap with or are within five miles of the area;
 - v. The service area of any public service corporation, municipality, or district currently providing water or wastewater service within one mile of the area, with identification of the entity pro-

Corporation Commission - Fixed Utilities

- viding service and each type of service being provided;
- vi. The location within the area of any known water service connections that are already being provided service by the applicant;
- vii. The location of all proposed developments within the area;
- viii. The proposed location of each water system and the principal components described in subsection (B)(5)(n); and
- ix. The location of all parcels for which a copy of a request for service has been submitted per subsection (B)(5)(t);
- v. A copy of each notice to be sent, as required under subsection (B)(4), to a municipal manager or administrator;
- w. A copy of each notice sent, as required under subsection (B)(3), to a landowner not requesting service;
- x. For each landowner not requesting service, either the written response received from the landowner or, if no written response was received, a description of the actions taken by the applicant to obtain a written response;
- y. A copy of each city, county, or state agency approval required by law to construct the proposed facilities or operate the utility within the proposed service area or extension area or, for any approval not yet obtained, the status of the applicant's application for the approval;
- z. The estimated number of customers to be served for each of the first five years of operation, expressed separately for residential, commercial, industrial, and irrigation customers and including documentation to support the estimates;
- aa. A description of how wastewater service is to be provided in the proposed service area or extension area and the name of each wastewater service provider for the area, if any;
- bb. A letter from each wastewater service provider identified under subsection (B)(5)(aa), confirming the provision of wastewater service for the proposed service area or extension area;
- cc. Plans for or a description of water conservation measures to be implemented in the proposed service area or extension area, including, at a minimum:
 - i. A description of the information about water conservation or water saving measures that the utility will provide to the public and its customers;
 - ii. A description of how the applicant will work with each wastewater service provider identified under subsection (B)(5)(aa) to encourage water conservation;
 - iii. A description of the sources of water that will be used to supply parks, recreation areas, golf courses, greenbelts, ornamental lakes, and other aesthetic water features;
 - iv. A description of any plans for the use of reclaimed water;
 - v. A description of any plans for the use of recharge facilities;
 - vi. A description of any plans for the use of surface water; and
 - vii. A description of any other plans or programs to promote water conservation;
- dd. A backflow prevention tariff that complies with Commission standards, if not already on file;
- ee. A curtailment tariff that complies with Commission standards, if not already on file;
- ff. A copy of a Physical Availability Determination, Analysis of Adequate Water Supply, or Analysis of Assured Water Supply issued by the Arizona Department of Water Resources for the proposed service area or extension area or, if not yet obtained, the status of the application for such approval;
- gg. If the applicant is requesting a CC&N extension:
 - i. A current compliance status report from the Arizona Department of Environmental Quality, dated no more than 30 days before the date the CC&N extension application is filed, for each water system operated by the applicant, as identified by a separate Arizona Department of Environmental Quality Public Water System Identification Number; and
 - ii. A water use data sheet for the water system being extended by the applicant; and
- hh. The notarized signature of the applicant.
- 6. Upon receiving an application under subsection (B)(5), Utilities Division staff shall review and process the application in accordance with the requirements of R14-2-411.
- 7. Once Utilities Division staff determines that an application submitted under subsection (B)(5) is administratively complete, the Commission shall, as expeditiously as practicable, schedule a hearing to consider the application.
- C. Application for discontinuance or abandonment of utility service**
 - 1. A utility shall not discontinue or abandon any service currently in use by the public without first obtaining authority therefor from the Commission.
 - 2. A utility desiring to discontinue or abandon a service shall file with the Commission an application identifying the utility; including data regarding past, present and estimated future customer use of the service; describing any plant or facility that would no longer be in use if the application were approved; and explaining why the utility desires to discontinue or abandon the service.
 - 3. A utility is not required to apply for Commission approval to remove individual facilities where a customer has requested service discontinuance.
- D. Application for authority to abandon, sell, lease, transfer, or otherwise dispose of a utility**
 - 1. A utility shall not abandon, sell, lease, transfer, or otherwise dispose of its facilities or operation without first obtaining authority therefor from the Commission.
 - 2. A utility desiring to abandon, sell, lease, transfer, or otherwise dispose of its facilities or operation shall file with the Commission an application that includes, at a minimum:
 - a. The legal name, physical address, mailing address (if different), and telephone number of the utility;
 - b. A description of the utility property proposed to be abandoned, sold, leased, transferred, or otherwise disposed of;
 - c. Documentation establishing the utility's financial condition, including at least the utility's current assets and liabilities, an income statement, the utility's revenue and expenses for the most recently completed 12-month accounting period, and the value of the utility's utility plant in service;

Corporation Commission - Fixed Utilities

- d. The legal name, physical address, mailing address (if different), and telephone number of any proposed purchaser, lessee, transferee, or assignee;
 - e. The terms and conditions of the proposed abandonment, sale, lease, transfer, or assignment and copies of any agreement that has been or will be executed concerning the transaction;
 - f. A description of the effect that the proposed transaction will have upon the utility's services;
 - g. The method by which the proposed transaction is to be financed;
 - h. A description of the effect that the proposed transaction will have upon any other utility;
 - i. The number of customers to be affected by the proposed transaction; and
 - j. A description of the effect that the proposed transaction will have upon customers.
- E. Additions or extensions of service contiguous to existing CC&N service areas**
- 1. Except in the case of an emergency, a utility that proposes to extend service to a parcel located in a non-certificated area contiguous to its CC&N service area shall notify the Commission before the service extension occurs.
 - 2. Each notification required under subsection (E)(1) shall be in writing, shall be verified, and shall set forth, at a minimum:
 - a. The legal name, mailing address, and telephone number of the utility;
 - b. The number of persons to be served in the contiguous parcel;
 - c. The legal description of the contiguous parcel and the location of the structures to be served therein, in relation to the utility's CC&N service area; and
 - d. A statement that service will be extended only to a non-certificated parcel contiguous to the utility's CC&N service area.
 - 3. When emergency service is required to be provided to a person in a non-certificated area contiguous to a utility's CC&N service area, the utility shall notify the Commission of the service extension as soon as possible after the service extension occurs by providing written notice that includes the information required under subsection (E)(2) and describes the nature and extent of the emergency.
- duce proof of identity and sign the utility's application form.
- 3. Where service is requested by two or more individuals the utility shall have the right to collect the full amount owed to the utility from any one of the applicants.
- B. Deposits**
- 1. A utility may require a deposit from any new applicant for service.
 - 2. The utility shall issue a nonnegotiable receipt to the applicant for the deposit. The inability of the customer to produce such a receipt shall in no way impair his right to receive a refund of the deposit which is reflected on the utility's records.
 - 3. Interest on deposits shall be calculated annually at an interest rate filed by the utility and approved by the Commission in a tariff proceeding. In the absence of such, the interest rate shall be 6%.
 - 4. Interest shall be credited to the customer's bill annually.
 - 5. Residential deposits shall be refunded within 30 days after:
 - a. 12 consecutive months of service without being delinquent in the payment of utility bills provided the utility may reestablish the deposit if the customer becomes delinquent in the payment of bills two or more times within a 12-consecutive-month period.
 - b. Upon discontinuance of service when the customer has paid all outstanding amounts due the utility.
 - 6. A separate deposit may be required for each meter installed.
 - 7. The amount of a deposit required by the utility shall be determined according to the following terms:
 - a. Residential customer deposits shall not exceed two times the average residential class bill as evidenced by the utility's most recent annual report filed with the Commission.
 - b. Nonresidential customer deposits shall not exceed 2 1/2 times that customer's estimated maximum monthly bill.
 - c. The utility may review the customer's usage after service has been connected and adjust the deposit amount based upon the customer's actual usage.
 - 8. Upon discontinuance of service, the deposit may be applied by the utility toward settlement of the customer's bill.
- C. Grounds for refusal of service.** A utility may refuse to establish service if any of the following conditions exist:
- 1. The applicant has an outstanding amount due for the same class of utility service with the utility and the applicant is unwilling to make arrangements with the utility for payment.
 - 2. A condition exists which in the utility's judgment is unsafe or hazardous to the applicant, the general population, or the utility's personnel or facilities.
 - 3. Refusal by the applicant to provide the utility with a deposit.
 - 4. Customer is known to be in violation of the utility's tariffs filed with the Commission or of the Commission's rules and regulations.
 - 5. Failure of the customer to furnish such funds, service, equipment, and/or rights-of-way necessary to serve the customer and which have been specified by the utility as a condition for providing service.
 - 6. Applicant falsifies his or her identity for the purpose of obtaining service.
- D. Service establishments, re-establishments or reconnection charge**

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2). Amended by adding subsection (C) effective September 28, 1982 (Supp. 82-5). Amended by final rulemaking at 15 A.A.R. 2066, effective January 22, 2010 (Supp. 09-4).

R14-2-403. Establishment of service**A. Information from new applicants**

- 1. A utility may obtain the following minimum information from each new applicant for service:
 - a. Name or names of applicant(s).
 - b. Service address or location and telephone number
 - c. Billing address/telephone number, if different than service address.
 - d. Address where service was provided previously.
 - e. Date applicant will be ready for service.
 - f. Indication of whether premises have been supplied with utility service previously.
 - g. Purpose for which service is to be used.
 - h. Indication of whether applicant is owner or tenant of or agent for the premises.
- 2. Each utility may require a new applicant for service to appear at the utility's designated place of business to pro-

duce proof of identity and sign the utility's application form.

- 1. The applicant has an outstanding amount due for the same class of utility service with the utility and the applicant is unwilling to make arrangements with the utility for payment.
- 2. A condition exists which in the utility's judgment is unsafe or hazardous to the applicant, the general population, or the utility's personnel or facilities.
- 3. Refusal by the applicant to provide the utility with a deposit.
- 4. Customer is known to be in violation of the utility's tariffs filed with the Commission or of the Commission's rules and regulations.
- 5. Failure of the customer to furnish such funds, service, equipment, and/or rights-of-way necessary to serve the customer and which have been specified by the utility as a condition for providing service.
- 6. Applicant falsifies his or her identity for the purpose of obtaining service.

D. Service establishments, re-establishments or reconnection charge

Corporation Commission - Fixed Utilities

1. A utility may make a charge as approved by the Commission for the establishment, reestablishment, or reconnection of utility services.
2. Should service be established during a period other than regular working hours at the customer's request, the customer may be required to pay an after-hour charge for the service connection. Where the utility scheduling will not permit service establishment on the same day requested, the customer can elect to pay the after-hour charge for establishment that day.
3. For the purpose of this rule, service establishments are where the customer's facilities are ready and acceptable to the utility and the utility needs only to install a meter, read a meter, or turn the service on.

E. Temporary service

1. Applicants for temporary service may be required to pay the utility, in advance of service establishment, the estimated cost of installing and removing the facilities necessary for furnishing the desired service.
2. Where the duration of service is to be less than one month, the applicant may also be required to advance a sum of money equal to the estimated bill for service.
3. Where the duration of service is to exceed one month, the applicant may also be required to meet the deposit requirements of the utility.
4. If at any time during the term of the agreement for service the character of a temporary customer's operations changes so that in the opinion of the utility the customer is classified as permanent, the terms of the utility's main extension rules shall apply.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2). Amended subsections (B) and (D) effective September 28, 1982 (Supp. 82-5). Amended to correct subsection numbering (Supp. 99-4).

R14-2-404. Minimum customer information requirements**A. Information for residential customers**

1. Each utility shall make available upon customer request not later than 60 days from the date of request a concise summary of the rate schedule applied for by such customer. The summary shall include the following:
 - a. Monthly minimum or customer charge, identifying the amount of the charge and the specific amount of usage included in the minimum charge, where applicable.
 - b. Rate blocks, where applicable.
 - c. Any adjustment factor(s) and method of calculation.
2. The utility shall to the extent practical identify the tariff most advantageous to the customer and notify the customer of such prior to service commencement.
3. In addition, a utility shall make available upon customer request not later than 60 days from the date of request a copy of the Commission's rules and regulations governing:
 - a. Deposits
 - b. Terminations of service
 - c. Billing and collection
 - d. Complaint handling.
4. Each utility upon written request of a customer shall transmit a concise statement of actual consumption by such customer for each billing period during the prior 12 months unless such data is not reasonably ascertainable.
5. Each utility shall inform all new customers of their rights to obtain the information specified above.

B. Information required due to changes in tariffs

1. Each utility shall transmit to affected customers by the most economic means available a concise summary of any change in the utility's tariffs affecting those customers.
2. This information shall be transmitted to the affected customer within 60 days of the effective date of the change.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2).

R14-2-405. Service connections and establishments**A. Priority and timing of service establishments**

1. After an applicant has complied with the utility's application and deposit requirements and has been accepted for service by the utility, the utility shall schedule that customer for service connection and/or establishment.
2. Service establishments shall be scheduled for completion within five working days of the date the customer has been accepted for service, except in those instances when the customer requests service establishment beyond the five working day limitation.
3. When the utility has made arrangements to meet with a customer for service establishment purposes and the utility or the customer cannot make the appointment during the prearranged time, the utility shall reschedule the service establishment to the satisfaction of both parties.
4. Each utility shall schedule service establishment appointments within a maximum range of four hours during normal working hours, unless another time-frame is mutually acceptable to the utility and the customer.
5. Service establishments shall be made only by qualified utility service personnel.
6. For the purposes of this rule, service establishments are where the customer's facilities are ready and acceptable to the utility and the utility needs only to install or read a meter or turn the service on.

B. Service lines

1. An applicant for service shall be responsible for the cost of installing all customer piping up to the meter.
2. An applicant for service shall pay to the utility as a refundable advance in aid of construction the sum as set forth in the utility's tariff for each size service and meter. Except where the refundable advances in aid of construction for meters and service lines have been included in refundable advances in aid of construction for line extensions and thus are refundable pursuant to main extension contracts approved by the Commission, each advance in aid of construction for a service line or meter shall be repaid by the utility by an annual credit of 1/10 of the amount received, said credit to be applied upon the water bill rendered in November of each year until fully paid, for each service and meter for which the advance was made, and said credit to commence the month of November for all such advances received during the preceding calendar year.
3. Where service is being provided for the first time, the customer shall provide and maintain a private cutoff valve within 18 inches of the meter on the customer's side of the meter, and the utility shall provide a like valve on the utility's side of such meter.
4. The Company may install its meter at the property line or, at the Company's option, on the customer's property in a location mutually agreed upon.
5. Where the meter or service line location on the customer's premises is changed at the request of the customer or due to alterations on the customer's premises, the customer shall provide and have installed at his

Corporation Commission - Fixed Utilities

expense all piping necessary for relocating the meter and the utility may make a charge for moving the meter and/or service line.

6. The customer's lines or piping must be installed in such a manner as to prevent cross-connection or backflow.
7. Each utility shall file a tariff for service and meter installations for Commission review and approval.

C. Easements and rights-of-way

1. Each customer shall grant adequate easement and right-of-way satisfactory to the utility to ensure that customer's proper service connection. Failure on the part of the customer to grant adequate easement and right-of-way shall be grounds for the utility to refuse service.
2. When a utility discovers that a customer or his agent is performing work or has constructed facilities adjacent to or within an easement or right-of-way and such work, construction or facility poses a hazard or is in violation of federal, state or local laws, ordinances, statutes, rules or regulations, or significantly interferes with the utility's access to equipment, the utility shall notify the customer or his agent and shall take whatever actions are necessary to eliminate the hazard, obstruction or violation at the customer's expense.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2). Amended subsection (B) effective September 28, 1982 (Supp. 82-5).

R14-2-406. Main extension agreements

- A.** Each utility entering into a main extension agreement shall comply with the provisions of this rule which specifically defines the conditions governing main extensions.
- B.** An applicant for the extension of mains may be required to pay to the Company, as a refundable advance in aid of construction, before construction is commenced, the estimated reasonable cost of all mains, including all valves and fittings.
 1. In the event that additional facilities are required to provide pressure, storage or water supply, exclusively for the new service or services requested, and the cost of the additional facilities is disproportionate to anticipated revenues to be derived from future consumers using these facilities, the estimated reasonable cost of such additional facilities may be included in refundable advances in aid of construction to be paid to the Company.
 2. Upon request by a potential applicant for a main extension, the utility shall prepare, without charge, a preliminary sketch and rough estimate of the cost of installation to be paid by said applicant. Any applicant for a main extension requesting the utility to prepare detailed plans, specifications, or cost estimates may be required to deposit with the utility an amount equal to the estimated cost of preparation. The utility shall, upon request, make available within 45 days after receipt of the deposit referred to above, such plans, specifications, or cost estimates of the proposed main extension. Where the applicant accepts utility construction of the extension, the deposit shall be credited to the cost of construction; otherwise the deposit shall be nonrefundable. If the extension is to include oversizing of facilities to be done at the utility's expense, appropriate details shall be set forth in the plans, specifications and cost estimates.
 3. Where the utility requires an applicant to advance funds for a main extension, the utility shall furnish the applicant with a copy of the Commission rules on main extension agreements prior to the applicant's acceptance of the utility's extension agreement.

4. In the event the utility's actual cost of construction is less than the amount advanced by the customer, the utility shall make a refund to the applicant within 30 days after the completion of the construction or utility's receipt of invoices related to that construction.

5. The provisions of this rule apply only to those applicants who in the utility's judgment will be permanent customers of the utility. Applications for temporary service shall be governed by the Commission's rules concerning temporary service applications.

C. Minimum written agreement requirements

1. Each main extension agreement shall include the following information:
 - a. Name and address of applicant(s)
 - b. Proposed service address
 - c. Description of requested service
 - d. Description and map of the requested line extension
 - e. Itemized cost estimate to include materials, labor, and other costs as necessary
 - f. Payment terms
 - g. A clear and concise explanation of any refunding provisions, if applicable
 - h. Utility's estimated start date and completion date for construction of the main extension
2. Each applicant shall be provided with a copy of the written main extension agreement.

- D.** Refunds of advances made pursuant to this rule shall be made in accord with the following method: the Company shall each year pay to the party making an advance under a main extension agreement, or that party's assignees or other successors in interest where the Company has received notice and evidence of such assignment or succession, a minimum amount equal to 10% of the total gross annual revenue from water sales to each bona fide consumer whose service line is connected to main lines covered by the main extension agreement, for a period of not less than 10 years. Refunds shall be made by the Company on or before the 31st day of August of each year, covering any refunds owing from water revenues received during the preceding July 1st to June 30th period. A balance remaining at the end of the ten-year period set out shall become non-refundable, in which case the balance not refunded shall be entered as a contribution in aid of construction in the accounts of the Company, however, agreements under this general order may provide that any balance of the amount advanced thereunder remaining at the end of the 10 year period set out, shall thereafter remain payable in whole or in part and in such manner as is set forth in the agreement. The aggregate refunds under this rule shall in no event exceed the total of the refundable advances in aid of construction. No interest shall be paid by the utility on any amounts advanced. The Company shall make no refunds from any revenue received from any lines, other than customer service lines, leading up to or taking off from the particular main extension covered by the agreement.

- E.** Amounts advanced in aid of construction of main extensions shall be refunded in accord with the rules of this Commission in force and effect on the date the agreement therefor was executed. All costs under main extension agreements entered into after the adoption of this rule shall be refunded as provided herein.

- F.** The Commission will not approve the transfer of any Certificate of Public Convenience and Necessity where the transferor has entered into a main extension agreement, unless it is demonstrated to the Commission that the transferor has agreed to satisfy the refund agreement, or that the transferee has assumed and has agreed to pay the transferor's obligations under such agreement.

Corporation Commission - Fixed Utilities

- G.** All agreements entered into under this rule shall be evidenced by a written statement, and signed by the Company and the parties advancing the funds for advances in aid under this rule or the duly authorized agents of each.
- H.** The size, design, type and quality of materials of the system, installed under this rule location in the ground and the manner of installation, shall be specified by the Company, and shall be in accord with the requirements of the Commission or other public agencies having authority therein. The Company may install main extensions of any diameter meeting the requirements of the Commission or any other public agencies having authority over the construction and operation of the water system and mains, except individual main extensions, shall comply with and conform to the following minimum specifications:
1. 150 p.s.i. working pressure rating and
 2. 6" standard diameter.
- However, single residential customer advances in aid of construction shall not exceed the reasonable cost of construction of the 6-inch diameter main extension.
- I.** All pipelines, valves, fittings, wells, tanks or other facilities installed under this rule shall be the sole property of the Company, and parties making advances in aid of construction under this rule shall have no right, title or interest in any such facilities.
- J.** The Company shall schedule all new requests for main extension agreements, and for service under main extension agreements, promptly and in the order received.
- K.** An applicant for service seeking to enter into a main extension agreement may request that the utility include on a list of contractors from whom bids will be solicited, the name(s) of any bonded contractor(s), provided that all bids shall be submitted by the bid date stipulated by the utility. If a lower bid is thus obtained or if a bid is obtained at an equal price and with a more appropriate time of performance, and if such bid contemplates conformity with the Company's requirements and specifications, the Company shall be required to meet the terms and conditions of the bid proffered, or to enter into a construction contract with the contractor proffering such bid. Performance bond in the total amount of the contract may be required by the utility from the contractor prior to construction.
- L.** Any discounts obtained by the utility from contracts terminated under this rule shall be accounted for by credits to the appropriate account dominated as Contributions in Aid of Construction.
- M.** All agreements under this rule shall be filed with and approved by the Utilities Division of the Commission. No agreement shall be approved unless accompanied by a Certificate of Approval to Construct as issued by the Arizona Department of Health Services. Where agreements for main extensions are not filed and approved by the Utilities Division, the refundable advance shall be immediately due and payable to the person making the advance.
- Historical Note**
- Adopted effective March 2, 1982 (Supp. 82-2). Amended subsections (D) and (K) effective September 28, 1982 (Supp. 82-5). Amended to correct subsection numbering (Supp. 99-4).
- R14-2-407. Provision of service**
- A.** Utility responsibility. Each utility shall be responsible for providing potable water to the customer's point of delivery.
- B.** Customer responsibility
1. Each customer shall be responsible for maintaining all facilities on the customer's side of the point of delivery in a safe and efficient manner and in accordance with the rules of the state Department of Health.
 2. Each customer shall be responsible for safeguarding all utility property installed in or on the customer's premises for the purpose of supplying water to that customer.
 3. Each customer shall exercise all reasonable care to prevent loss or damage to utility property, excluding ordinary wear and tear. The customer shall be responsible for loss of or damage to utility property on the customer's premises arising from neglect, carelessness, or misuse and shall reimburse the utility for the cost of necessary repairs or replacements.
 4. Each customer shall be responsible for payment for any equipment damage resulting from unauthorized breaking of seals, interfering, tampering or bypassing the utility meter.
 5. Each customer shall be responsible for notifying the utility of any failure identified in the utility's equipment.
 6. Water furnished by the utility shall be used only on the customer's premises and shall not be resold to any other person. During critical water conditions, as determined by the Commission, the customer shall use water only for those purposes specified by the Commission. Disregard for this rule shall be sufficient cause for refusal or discontinuance of service.
- C.** Continuity of service. Each utility shall make reasonable efforts to supply a satisfactory and continuous level of service. However, no utility shall be responsible for any damage or claim of damage attributable to any interruption or discontinuation of service resulting from:
1. Any cause against which the utility could not have reasonably foreseen or made provision for, i.e., force majeure
 2. Intentional service interruptions to make repairs or perform routine maintenance
 3. Curtailment.
- D.** Service interruptions
1. Each utility shall make reasonable efforts to reestablish service within the shortest possible time when service interruptions occur.
 2. Each utility shall make reasonable provisions to meet emergencies resulting from failure of service, and each utility shall issue instructions to its employees covering procedures to be followed in the event of emergency in order to prevent or mitigate interruption or impairment of service.
 3. In the event of a national emergency or local disaster resulting in disruption of normal service, the utility may, in the public interest, interrupt service to other customers to provide necessary service to civil defense or other emergency service agencies on a temporary basis until normal service to these agencies can be restored.
 4. When a utility plans to interrupt service for more than four hours to perform necessary repairs or maintenance, the utility shall attempt to inform affected customers at least 24 hours in advance of the scheduled date and estimated duration of the service interruption. Such repairs shall be completed in the shortest possible time to minimize the inconvenience to the customers of the utility.
 5. The Commission shall be notified of interruptions in service affecting the entire system or any major division thereof. The interruption of service and cause shall be reported within four hours after the responsible representative of the utility becomes aware of said interruption by telephone to the Commission and followed by a written report to the Commission.

Corporation Commission - Fixed Utilities

- E. Minimum delivery pressure. Each utility shall maintain a minimum standard delivery pressure of 20 pounds per square inch gauge (PSIG) at the customer's meter or point of delivery.
- F. Construction standards. Each utility shall construct all facilities in accordance with the guidelines established by the state Department of Health Services.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2). Amended subsection (F) effective September 28, 1982 (Supp. 82-5). Amended to correct subsection numbering (Supp. 99-4).

R14-2-408. Meter reading

- A. Frequency. Each meter shall be read monthly on as close to the same day as practical.
- B. Measuring of service
 - 1. All water delivered by the utility shall be billed upon the basis of metered volume sales except that the utility may, at its option, provide a fixed charge schedule for the following:
 - a. Temporary service where the water use can be readily estimated
 - b. Public and private fire protection service
 - c. Water used for street sprinkling and sewer flushing, when provided for by contract between the utility and the municipality or other local governmental authority
 - d. Other fixed charge schedules as shall be submitted to and approved by the Commission.
 - 2. When there is more than one meter at a location, the metering equipment shall be so tagged or plainly marked as to indicate the facilities being metered.
- C. Customer requested rereads
 - 1. Each utility shall at the request of a customer reread the customer's meter within 10 working days after such request by the customer.
 - 2. Any rereads shall be charged to the customer at a rate on file and approved by the Commission, provided that the original reading was not in error.
 - 3. When a reading is found to be in error, the reread shall be at no charge to the customer.
- D. Access to customer premises. Each utility shall have the right of safe ingress to and egress from the customer's premises at all reasonable hours for any purpose reasonably connected with the utility's property used in furnishing service and the exercise of any and all rights secured to it by law or these rules.
- E. Meter testing and maintenance program. Each utility shall establish a regular program of meter testing taking into account the following factors:
 - 1. Size of meter
 - 2. Age of meter
 - 3. Consumption
 - 4. Characteristics of water.
- F. Customer requested meter tests. A utility shall test a meter upon customer request and each utility shall be authorized to charge the customer for such meter test according to the tariff on file and approved by the Commission. However, if the meter is found to be in error by more than 3%, no meter testing fee will be charged to the customer.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2). Amended to correct subsection numbering (Supp. 99-4).

R14-2-409. Billing and collection

- A. Frequency and estimated bills

- 1. Each utility shall bill monthly for services rendered. Meter readings shall be scheduled for periods of not less than 25 days or more than 35 days.
- 2. If the utility is unable to read the meter on the scheduled meter read date, the utility will estimate the consumption for the billing period giving consideration to the following factors where applicable:
 - a. The customer's usage during the same month of the previous year
 - b. The amount of usage during the preceding month.
- 3. After the second consecutive month of estimating the customer's bill for reasons other than severe weather, the utility will attempt to secure an accurate reading of the meter.
- 4. Failure on the part of the customer to comply with a reasonable request by the utility for access to its meter may lead to the discontinuance of service.
- 5. Estimated bills will be issued only under the following conditions:
 - a. Failure of a customer who read his own meter to deliver his meter reading card to the utility in accordance with the requirements of the utility billing cycle.
 - b. Severe weather conditions which prevent the utility from reading the meter.
 - c. Circumstances that make it dangerous or impossible to read the meter, i.e., locked gates, blocked meters, vicious or dangerous animals, etc.
- 6. Each bill based on estimated usage will indicate that it is an estimated bill.
- B. Combining meters, minimum bill information
 - 1. Each meter at a customer's premises will be considered separately for billing purposes, and the readings of two or more meters will not be combined.
 - 2. Each bill for residential service will contain the following minimum information:
 - a. Date and meter reading at the start of billing period
 - b. Previous month's meter reading
 - c. Billed usage
 - d. Utility telephone number
 - e. Customer's name
 - f. Service account number (if available)
 - g. Amount due and due date
 - h. Past due amount (where appropriate)
 - i. Adjustment factor, where applicable
 - j. Other approved tariff charges.
- C. Billing terms
 - 1. All bills for utility services are due and payable when rendered. Any payment not received within 15 days from the date the bill was rendered shall be considered delinquent.
 - 2. For purposes of this rule, the date a bill is rendered may be evidenced by:
 - a. The postmark date
 - b. The mailing date:
 - i. Certified mail
 - ii. Certificate of mailing.
 - 3. All delinquent bills shall be subject to the provisions of the utility's termination procedures as set forth in R14-2-410.
 - 4. All payments shall be made at or mailed to the office of the utility or to the utility's duly authorized representative.
- D. Applicable tariffs, prepayment, failure to receive, commencement date, taxes
 - 1. Each customer shall be billed under the applicable tariff indicated in the customer's application for service.

Corporation Commission - Fixed Utilities

2. Each utility shall make provisions for advance payment for utility services.
 3. Failure to receive bills or notices which have been properly placed in the United States mail shall not prevent such bills from becoming delinquent nor relieve the customer of his obligations therein.
 4. Charges for service commence when the service is installed and connection made, whether used or not.
 5. In addition to the collection of regular rates, each utility may collect from its customers a proportionate share of any privilege, sales or use tax.
- E. Meter error corrections**
1. If any meter after testing is found to be more than 3% in error, either fast or slow, proper correction between 3% and the amount of the error shall be made of previous readings and adjusted bills shall be rendered according to the following terms:
 - a. For the period of three months immediately preceding the removal of such meter from service for test or from the time the meter was in service since last tested, but not exceeding three months since the meter shall have been shown to be in error by such test, or
 - b. From the date the error occurred, if the date of the cause can be definitely fixed.
 2. No adjustment shall be made by the utility except to the customer last served by the meter tested.
- F. Insufficient funds (NSF) checks**
1. A utility shall be allowed to recover a fee, as approved by the Commission for each instance where a customer tenders payment for utility service with an insufficient funds check.
 2. When the utility is notified by the customer's bank that there are insufficient funds to cover the check tendered for utility service, the utility may require the customer to make payment in cash, by money order, certified check, or other means which guarantee the customer's payment to the utility.
 3. A customer who tenders an insufficient check shall in no way be relieved of the obligation to render payment to the utility under the original terms of the bill nor defer the utility's provision for termination of service for nonpayment of bills.
- G. Deferred payment plan**
1. Each utility may, prior to termination, offer to qualifying residential customers a deferred payment plan for the customer to retire unpaid bills for utility service.
 2. Each deferred payment agreement entered into by the utility and the customer due to the customer's inability to pay an outstanding bill in full shall provide that service will not be discontinued if:
 - a. Customer agrees to pay a reasonable amount of the outstanding bill at the time the parties enter into the deferred payment agreement.
 - b. Customer agrees to pay all future bills for utility service in accordance with the billing and collection tariffs of the utility.
 - c. Customer agrees to pay a reasonable portion of the remaining outstanding balance in installments over a period not to exceed six months.
 3. For the purposes of determining a reasonable installment payment schedule under these rules, the utility and the customer shall give consideration to the following conditions:
 - a. Size of the delinquent account
 - b. Customer's ability to pay
 - c. Customer's payment history
 - d. Length of time that the debt has been outstanding
 - e. Circumstances which resulted in the debt being outstanding
 - f. Any other relevant factors related to the circumstances of the customer.
 4. Any customer who desires to enter into a deferred payment agreement shall establish such agreement prior to the utility's scheduled termination date for nonpayment of bills; customer failure to execute a deferred payment agreement prior to the scheduled termination date shall not prevent the utility from discontinuing service for nonpayment.
 5. Deferred payment agreements may be in writing and may be signed by the customer and an authorized utility representative.
 6. A deferred payment agreement may include a finance charge as approved by the Commission in a tariff proceeding.
 7. If a customer has not fulfilled the terms of a deferred payment agreement, the utility shall have the right to disconnect service pursuant to the utility's termination of service rules and, under such circumstances, it shall not be required to offer subsequent negotiation of a deferred payment agreement prior to disconnection.
- H. Change of occupancy**
1. Not less than three working days advance notice must be given in person, in writing, or by telephone at the utility's office to discontinue service or to change occupancy.
 2. The outgoing party shall be responsible for all utility services provided and/or consumed up to the scheduled turn-off date.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2). Amended subsection (C) effective September 28, 1982 (Supp. 82-5).

R14-2-410. Termination of service

- A.** Nonpermissible reasons to disconnect service. A utility may not disconnect service for any of the reasons stated below:
1. Delinquency in payment for services rendered to a prior customer at the premises where service is being provided, except in the instance where the prior customer continues to reside on the premises.
 2. Failure of the customer to pay for services or equipment which are not regulated by the Commission.
 3. Nonpayment of a bill related to another class of service.
 4. Failure to pay for a bill to correct a previous underbilling due to an inaccurate meter or meter failure if the customer agrees to pay over a reasonable period of time.
- B.** Termination of service without notice
1. Utility service may be disconnected without advance written notice under the following conditions:
 - a. The existence of an obvious hazard to the safety or health of the consumer or the general population.
 - b. The utility has evidence of meter tampering or fraud.
 - c. Unauthorized resale or use of utility services.
 - d. Failure of a customer to comply with the curtailment procedures imposed by a utility during supply shortages.
 2. The utility shall not be required to restore service until the conditions which resulted in the termination have been corrected to the satisfaction of the utility.
 3. Each utility shall maintain a record of all terminations of service without notice. This record shall be maintained

Corporation Commission - Fixed Utilities

for a minimum of one year and shall be available for inspection by the Commission.

C. Termination of service with notice

1. A utility may disconnect service to any customer for any reason stated below provided the utility has met the notice requirements established by the Commission:
 - a. Customer violation of any of the utility's tariffs filed with the Commission and/or violation of the Commission's rules and regulations.
 - b. Failure of the customer to pay a delinquent bill for utility service.
 - c. Failure to meet or maintain the utility's credit and deposit requirements.
 - d. Failure of the customer to provide the utility reasonable access to its equipment and property.
 - e. Customer breach of a written contract for service between the utility and customer.
 - f. When necessary for the utility to comply with an order of any governmental agency having such jurisdiction.
2. Each utility shall maintain a record of all terminations of service with notice. This record shall be maintained for one year and be available for Commission inspection.

D. Termination notice requirements

1. No utility shall terminate service to any of its customers without providing advance written notice to the customer of the utility's intent to disconnect service, except under those conditions specified where advance written notice is not required.
2. Such advance written notice shall contain, at a minimum, the following information:
 - a. The name of the person whose service is to be terminated and the address where service is being rendered.
 - b. The Commission rule or regulation that was violated and explanation thereof or the amount of the bill which the customer has failed to pay in accordance with the payment policy of the utility, if applicable.
 - c. The date on or after which service may be terminated.
 - d. A statement advising the customer to contact the utility at a specific address or phone number for information regarding any deferred payment or other procedures which the utility may offer or to work out some other mutually agreeable solution to avoid termination of the customer's service.
 - e. A statement advising the customer that the utility's stated reason for the termination of services may be disputed by contacting the utility at a specific address or phone number, advising the utility of the dispute and making arrangements to discuss the cause for termination with a responsible employee of the utility in advance of the scheduled date of termination. The responsible employee shall be empowered to resolve the dispute and the utility shall retain the option to terminate service.

E. Timing of terminations with notice

1. Each utility shall be required to give at least 10 days advance written notice prior to the termination date.
2. Such notice shall be considered to be given to the customer when a copy thereof is left with the customer or posted first class in the United States mail, addressed to the customer's last known address.
3. If after the period of time allowed by the notice has elapsed and the delinquent account has not been paid nor arrangements made with the utility for the payment

thereof or in the case of a violation of the utility's rules the customer has not satisfied the utility that such violation has ceased, the utility may then terminate service on or after the day specified in the notice without giving further notice.

4. Service may only be disconnected in conjunction with a personal visit to the premises by an authorized representative of the utility.
5. The utility shall have the right (but not the obligation) to remove any or all of its property installed on the customer's premises upon the termination of service.

F. Landlord/tenant rule. In situations where service is rendered at an address different from the mailing address of the bill or where the utility knows that a landlord/tenant relationship exists and that the landlord is the customer of the utility, and where the landlord as a customer would otherwise be subject to disconnection of service, the utility may not disconnect service until the following actions have been taken:

1. Where it is feasible to so provide service, the utility, after providing notice as required in these rules, shall offer the occupant the opportunity to subscribe for service in his or her own name. If the occupant then declines to so subscribe, the utility may disconnect service pursuant to the rules.
2. A utility shall not attempt to recover from a tenant or condition service to a tenant with the payment of any outstanding bills or other charges due upon the outstanding account of the landlord.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2). Amended subsection (E) effective September 28, 1982 (Supp. 82-5). Amended to correct subsection numbering (Supp. 99-4).

Editor's Note: The following Section was amended under an exemption from the Attorney General approval provisions of the Arizona Administrative Procedure Act (*State ex. rel. Corbin v. Arizona Corporation Commission*, 174 Ariz. 216 848 P.2d 301 (App. 1992)), as determined by the Corporation Commission. This exemption means that the rules as amended were not approved by the Attorney General.

R14-2-411. Administrative and Hearing Requirements

A. Customer service complaints

1. Each utility shall make a full and prompt investigation of all service complaints made by its customers, either directly or through the Commission.
2. The utility shall respond to the complainant and/or the Commission representative within five working days as to the status of the utility investigation of the complaint.
3. The utility shall notify the complainant and/or the Commission representative of the final disposition of each complaint. Upon request of the complainant or the Commission representative, the utility shall report the findings of its investigation in writing.
4. The utility shall inform the customer of his right of appeal to the Commission.
5. Each utility shall keep a record of all written service complaints received which shall contain, at a minimum, the following data:
 - a. Name and address of the complainant
 - b. Date and nature of the complaint
 - c. Disposition of the complaint
 - d. A copy of any correspondence between the utility, the customer, and/or the Commission.

Corporation Commission - Fixed Utilities

This record shall be maintained for a minimum period of one year and shall be available for inspection by the Commission.

- B. Notice by utility of responsible officer or agent**
 - 1. Each utility shall file with the Commission a written statement containing the name, address (business, residence and post office) and telephone numbers (business and residence) of the onsite manager of its operations.
 - 2. Each utility shall give notice, by filing a written statement with the Commission, of any change in the information required herein within five days from the date of any such change.
- C. Time-frames for processing applications for Certificates of Convenience and Necessity**
 - 1. This rule prescribes time-frames for the processing of any application for a Certificate of Convenience and Necessity issued by the Arizona Corporation Commission pursuant to this Article. These time-frames shall apply to applications filed on or after the effective date of this rule.
 - 2. Within 30 calendar days after receipt of an application for a new Certificate of Convenience and Necessity, or to amend or change the status of any existing Certificate of Convenience and Necessity, staff shall notify the applicant, in writing, that the application is either administratively complete or deficient. If the application is deficient, the notice shall specify all deficiencies.
 - 3. Staff may terminate an application if the applicant does not remedy all deficiencies within 60 calendar days of the notice of deficiency.
 - 4. After receipt of a corrected application, staff shall notify the applicant within 30 calendar days if the corrected application is either administratively complete or deficient. The time-frame for administrative completeness review shall be suspended from the time the notice of deficiency is issued until staff determines that the application is complete.
 - 5. Within 150 days after an application is deemed administratively complete, the Commission shall approve or reject the application.
 - 6. For purposes of A.R.S. § 41-1072 et seq., the Commission has established the following time-frames:
 - a. Administrative completeness review time-frame: 30 calendar days,
 - b. Substantive review time-frame: 150 calendar days,
 - c. Overall time-time: 180 calendar days.
 - 7. If an applicant requests, and is granted, an extension or continuance, the appropriate time-frames shall be tolled from the date of the request during the duration of the extension or continuance.
 - 8. During the substantive review time-frame, the Commission may, upon its own motion or that of any interested party to the proceeding, request a suspension of the time-frame rules.
- D. Accounts and records**
 - 1. Each utility shall keep general and auxiliary accounting records reflecting the cost of its properties, operating income and expense, assets and liabilities, and all other accounting and statistical data necessary to give complete and authentic information as to its properties and operations.
 - 2. Each utility shall maintain its books and records in conformity with the NARUC Uniform Systems of Accounts for Class A, B, C and D Water Utilities.
 - 3. A utility shall produce or deliver in this state any or all of its formal accounting records and related documents

requested by the Commission. It may, at its option, provide verified copies of original records and documents.

- 4. All utilities shall submit an annual report to the Commission on a form prescribed by it. The annual report shall be filed on or before the 15th day of April for the preceding calendar year.
- 5. All utilities shall file with the Commission a copy of all reports required by the Securities and Exchange Commission.
- 6. All utilities shall file with the Commission a copy of all annual reports required by the Federal Energy Regulatory Commission.
- E. Maps.** All utilities shall file with the Commission a map or maps clearly setting forth the location and extent of the area or areas they hold under approved certificates of convenience and necessity, in accordance with the Cadastral (Rectangular) Survey of the United States Bureau of Land Management, or by metes and bounds with a starting point determined by the aforesaid Cadastral Survey.
- F. Variations, exemptions of Commission rules and regulations.** Variations or exemptions from the terms and requirements of any of the rules included herein (Title 14, Chapter 2, Article 4) shall be considered upon the verified application of an affected party to the Commission setting forth the circumstances whereby the public interest requires such variation or exemption from the Commission rules and regulations. Such application will be subject to the review of the Commission, and any variation or exemption granted shall require an order of the Commission. In case of conflict between these rules and regulations and an approved tariff or order of the Commission, the provisions of the tariff or order shall apply.
- G. Prior agreements.** The adoption of these rules by the Commission shall not affect any agreements entered into between the utility and customers or other parties who, pursuant to such contracts, arranged for the extension of facilities in a provision of service prior to the effective date of these rules.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2). Amended subsection (D) effective September 28, 1982 (Supp. 82-5). Amended effective December 31, 1998, under an exemption as determined by the Arizona Corporation Commission (Supp. 98-4). Amended to correct subsection numbering (Supp. 99-4).

ARTICLE 5. TELEPHONE UTILITIES**R14-2-501. Definitions**

In this Article, unless the context otherwise requires, the following definitions shall apply:

- 1. "Advance in aid of construction." Funds provided to the utility by the applicant under the terms of a construction agreement, which may be refundable.
- 2. "Applicant." A person or agency requesting the utility to supply telephone service.
- 3. "Application." A request to the utility for telephone service, as distinguished from an inquiry as to the availability or charges for such service.
- 4. "Arizona Corporation Commission." The regulatory authority of the state of Arizona having jurisdiction over public service corporations operating in Arizona.
- 5. "Basic exchange service." Service provided to business or residential customers at a flat or measured rate which affords access to the telecommunications network.
- 6. "Billing period." The time interval between the issuance of two consecutive bills for utility service.
- 7. "Central office." The switching equipment and operating arrangements which provide exchange and long distance

Corporation Commission - Fixed Utilities

service to the public and interconnection of customer telecommunication services.

8. "Contribution in aid of construction." Funds provided to the utility by the applicant under the terms of a construction agreement or construction tariff which are not refundable.
9. "Customer." The person or entity in whose name service is rendered, as evidenced by the signature on the application or contract for that service, or by the receipt and/or payment of bills regularly issued in his name regardless of the identity of the actual user of the service.
10. "Day." Calendar day.
11. "Line extension." The lines and equipment necessary to provide service to additional customers.
12. "Person." Any individual, partnership, corporation, governmental agency, or other organization operating as a single entity.
13. "Service access point." A demarcation point where facilities owned, leased, or under license by a customer connect to the utility provided access line.
14. "Premises." All of the real property and apparatus employed in a single enterprise on an integral parcel of land undivided by public streets, alleys or railways.
15. "Residential subdivision development." Any tract of land which has been divided into four or more contiguous lots with an average size of one acre or less for use for the construction of residential buildings or permanent mobile homes for either single or multiple occupancy.
16. "Rules." The regulations set forth in the tariffs which apply to the provision of telephone service.
17. "Service area." The territory in which the utility has been granted a Certificate of Convenience and Necessity and is authorized by the Commission to provide telephone service.
18. "Service charge." The charge as specified in the utility's tariffs which covers the cost of establishing moving, changing or reconnecting service or equipment.
19. "Access line." A communications facility that connects service from a common distribution source to the service access point.
20. "Tariffs." The documents filed with the Commission which list the utility services and products offered by the utility and which set forth the terms and conditions and a schedule of the rates and charges for those services and products.
21. "Terminal equipment." The equipment through which communication services are furnished.
22. "Temporary service." Service to premises or enterprises which are temporary in character, or where it is known in advance that the service will be of limited duration. Service which, in the opinion of the utility, is for operations of a speculative character is also considered temporary service.
23. "Toll service." Service between stations in different exchange areas for which a long distance charge is applicable.
24. "Utility." The company providing telephone service to the public in compliance with state law.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2).

R14-2-502. Certificate of Convenience and Necessity for telephone utilities; additions/extensions; abandonments

- A.** Application for new Certificate of Convenience and Necessity
1. Six copies of each application for a new Certificate of Convenience and Necessity shall be submitted in a form

prescribed by the Commission and shall include, at a minimum, the following information:

- a. The proper name and correct address of the proposed utility company and its owner if a sole proprietorship, each partner if a partnership, or the President and Secretary if a corporation.
 - b. A copy of the Articles of Partnership or Articles of Incorporation for the applicant and/or Bylaws if the utility is a non-profit organization, or association.
 - c. The rates proposed to be charged for the service that will be rendered.
 - d. A financial statement setting forth the financial condition of the applicant.
 - e. Maps of the proposed service area and/or a description of the area proposed to be served.
 - f. Appropriate city, county and/or state agency approvals, where appropriate.
 - g. The actual number of customers within the service area as of the time of filing and the estimated number of customers to be served for each of the first five years of operation.
 - h. Such other information as the Commission by order or the staff of the Utilities Division by written directive may request.
2. Once the applicant has satisfied the information requirements of this regulation, as well as any additional information required by the staff of the Commission's Utilities Division, the Commission shall, as expeditiously reasonably practicable, schedule hearings to consider such application.
- B.** Additions/extensions to existing Certificates of Convenience and Necessity. Each utility which extends utility service to a person not located within its certificated service area, but located in a non-certificated area contiguous to its certificated service area, shall, notify the Commission of such service extension.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2). Amended to correct subsection numbering (Supp. 99-4).

R14-2-503. Establishment of service

- A.** Information from new applicants
1. A utility may obtain the following minimum information from each new applicant for service:
 - a. Name or names of applicant(s).
 - b. Service address or location and telephone number
 - c. Billing address, if different than service address.
 - d. Address and telephone number where service was provided previously.
 - e. Date applicant will be ready for service.
 - f. Indication of whether premises have been supplied with telephone utility service previously.
 - g. Class of service to be provided.
 - h. Indication of whether applicant is owner or tenant of or agent for the premises.
 2. A utility may require a new applicant for service to appear at the utility's designated place of business to produce proof of identity and sign the utility's application form.
 3. Where service is requested by two or more individuals the utility shall have the right to collect the full amount owed to the utility from any one of the applicants.
- B.** Deposits
1. A utility shall not require a deposit from a new applicant for residential service if the applicant is able to meet any of the following requirements:

Corporation Commission - Fixed Utilities

- a. The applicant has had continuous telephone service of a comparable nature with the utility at another service location within the past two years and was not delinquent in payment more than once during the last 12 consecutive months or disconnected for non-payment.
 - b. The applicant can produce a letter regarding credit or verification from a telephone utility where service of a comparable nature was last received which states:
 - i. Applicant had a timely payment history at time of service discontinuation.
 - ii. Applicant has no outstanding liability from prior service.
 - c. In lieu of a deposit, a new applicant may provide a Letter of Guarantee from an existing customer with service who is acceptable to the utility or a surety bond as security for the utility. The utility shall review and release an existing customer as a guarantor for the new applicant after 12 consecutive months if no obligations are delinquent and has maintained a timely payment history.
2. The utility shall issue a nonnegotiable receipt to the applicant for the deposit. The inability of the customer to produce such a receipt shall in no way impair his right to receive a refund of the deposit which is reflected on the utility's records.
 3. Deposits shall be interest bearing; the interest rate and method of calculation shall be filed with and approved by the Commission in a tariff proceeding.
 4. Each utility shall file a deposit refund policy with the Commission, subject to Commission review and approval during a tariff proceeding. However, each utility's refund policy shall include provisions for residential deposits and accrued interest to be refunded after 12 months of service if the customer has not been delinquent in the payment of utility bills or applied to the closing bill upon discontinuance of service.
 5. A utility may require a residential customer to establish a deposit if the customer becomes delinquent in the payment of two or more bills within a 12-consecutive-month period or has been disconnected for service during the last 12 months.
 6. The amount of a deposit required by the utility shall be determined according to the following terms:
 - a. Residential customer deposits shall not exceed two times that customer's estimated average monthly bill or the average monthly bill for the customer class for that customer which ever is greater.
 - b. Nonresidential customer deposits shall not exceed 2 1/2 times that customer's estimated maximum monthly bill.
 7. The utility may review the customer's usage after service has been connected and adjust the deposit amount based upon the customer's actual usage.
- C. Grounds for refusal of service.** A utility may refuse to establish service if any of the following conditions exist:
1. The applicant has an outstanding amount due for similar utility services and the applicant is unwilling to make acceptable arrangements with the utility for payment.
 2. A condition exists which in the utility's judgment is unsafe or hazardous to the applicant, the general population, or the utility's personnel or facilities.
 3. Refusal by the applicant to provide the utility with a deposit when the customer has failed to meet the credit criteria for waiver of deposit requirements.
 4. Customer is known to be in violation of the utility's tariffs filed with the Commission.
 5. Failure of the customer to furnish such funds, suitable facilities, and/or rights-of-way necessary to serve the customer and which have been specified by the utility as a condition for providing service.
 6. Applicant falsifies his or her identity for the purpose of obtaining service.
- D. Service establishments, re-establishments or reconnection charge**
1. Each utility may make a charge as approved by the Commission for the establishment, reestablishment, or reconnection of utility services.
 2. Should service be established during a period other than regular working hours at the customer's request, the customer may be required to pay an after-hour charge for the service connection.
 3. For the purpose of this rule, service establishments are where the customer's and utility's facilities are ready and acceptable.
- E. Temporary service**
1. Applicants for temporary service may be required to pay the utility, in advance of service establishment, the funds provided under the terms of a construction agreement or the cost of installing and removing the facilities necessary for furnishing the desired service.
 2. Where the duration of service is to be less than one month, the applicant may also be required to advance a sum of money equal to the estimated bill for service.
 3. If at any time the character of a temporary customer's operations changes so that in the opinion of the utility the customer is classified as permanent, the terms of the utility's construction agreement or tariff shall apply.
- Historical Note**
Adopted effective March 2, 1982 (Supp. 82-2). Amended to correct subsection numbering (Supp. 99-4).
- R14-2-504. Minimum customer information requirements**
- A. Information for residential customers**
1. Each utility shall make available upon customer request not later than 60 days from the date of request a concise summary of the rate schedule applied for by such customer. The summary shall include the following:
 - a. The charges for basic service and incremental ancillary services requested by the applicant.
 2. In addition, a utility shall make available upon customer request not later than 60 days from date of service commencement a concise summary of the utility's tariffs or the Commission's rules and regulations concerning:
 - a. Deposits
 - b. Terminations of service
 - c. Billing and collection
 - d. Complaint handling.
- B. Information required due to changes in tariffs**
1. Each utility shall transmit to affected customers by the most economic means available a concise summary of any change in the utility's tariffs affecting those customers.
 2. This information shall be transmitted to the affected customer within 60 days of the effective date of the change.
- Historical Note**
Adopted effective March 2, 1982 (Supp. 82-2).
- R14-2-505. Service connections and establishments**
- A. Priority and timing of service establishments**

Corporation Commission - Fixed Utilities

1. After an applicant has complied with the utility's application, construction agreement, or tariff, deposit requirements and has been accepted for service by the utility, the utility shall schedule that customer for service connection and/or establishment.
2. Service establishments shall be scheduled for completion within 10 working days of the date the customer has been accepted for service, except in those instances when the customer requests service establishment beyond the 10 working day limitation.
3. The maximum interval of 10 working days applies to single line residence and business installations only. Multi-line services and any special equipment configurations shall be installed within a reasonable time-frame based on availability of necessary equipment.
4. When a utility has made arrangements to meet with a customer for service establishment purposes and the utility or the customer cannot make the appointment during the prearranged time, the utility shall reschedule the establishment to the satisfaction of both parties.
5. Unless another time-frame is mutually acceptable to the utility and the customer, each utility shall schedule service establishment appointments within a maximum range of four hours during normal working hours.
6. For the purposes of this rule, service establishments are where the utility's and customer's facilities are available and the utility needs only to connect the service.

B. Access line connection

1. Provision of services beyond service access point
 - a. Facilities beyond the service access point may be provided by either the utility or the customer. Where the facilities are provided by the customer the installation shall be in accordance with the utility's specifications.
 - b. The cost of all new construction of inside customer premise wiring shall be the responsibility of the customer.
2. Company provided facilities
 - a. The utility shall provide all facilities up to the service access point.
 - b. A customer requesting an underground service connection in an area served by overhead facilities shall pay for the difference between the cost of an overhead service connection and the actual cost of the underground connection as a nonrefundable contribution. The customer may elect to provide the underground trenching on private property as an off-setting portion of the additional cost of the underground facilities.
 - c. In those instances where the utility is supplying the customer's terminal equipment, the utility may provide any inside wiring beyond the point of access in accordance with approved tariffs filed with the Commission.
3. Easements and rights-of-way
 - a. Each customer shall grant adequate easement and right-of-way satisfactory to the utility to ensure that customer's proper service connection. Failure on the part of the customer to grant adequate easement and right-of-way shall be grounds for the utility to refuse service.
 - b. When a utility discovers that a customer or his agent is performing work or has constructed facilities adjacent to or within an easement or right-of-way and such work, construction or facility poses a hazard or is in violation of federal, state or local laws, ordi-

nances, statutes, rules or regulations, or significantly interferes with the utility's access to equipment, the utility shall notify the customer or his agent and shall take whatever actions are necessary to eliminate the hazard, obstruction or violation at the customer's expense.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2).

R14-2-506. Construction Agreements**A. General requirements**

1. Each utility shall file for Commission approval a tariff which incorporates the provisions of this rule and specifically defines the conditions governing construction agreements. Subsections (A), (B), (C), and (D) of this Section do not apply to tariffs providing for construction charges fixed by zone.
2. Upon request by an applicant for service, the utility shall provide, without charge, a preliminary sketch and rough estimates of the cost of installation to be paid by said applicant.
3. Any applicant for service requesting the utility to prepare detailed plans, specifications, or cost estimates may be required to deposit with the utility an amount equal to the estimated cost of preparation. The utility shall, upon request, make available within 90 days after receipt of the deposit referred to above, such plans, specifications, or cost estimates of the proposed construction. Where the applicant authorizes the utility to proceed with construction of the extension, the deposit shall be credited to the cost; otherwise the deposit shall be nonrefundable. If the extension is to include oversizing of facilities to be done at the utility's expense, appropriate details shall be set forth in the plans, specifications and cost estimates.
4. Where the utility requires an applicant to advance funds for construction, the utility shall furnish the applicant with a copy of the agreement or tariff of the appropriate utility prior to the applicant's acceptance.
5. All construction agreements requiring payment by the applicant shall be signed by each party.
6. In the event the utility's actual cost of construction is less than the amount advanced by the customer under a construction agreement, the utility shall make a refund to the applicant within 120 days of service commencement.
7. The provisions of this rule apply only to those applicants who in the utility's judgment will be permanent customers of the utility. Applications for temporary service shall be governed by the Commission's rules concerning temporary service applications.

B. Minimum written agreement requirements

1. Each construction agreement shall, at a minimum, include the following information:
 - a. Name and address of applicant or applicants;
 - b. Proposed service address or location;
 - c. Description of requested service;
 - d. Description and sketch of the requested construction
 - e. A cost estimate to include materials, labor, and other costs as necessary;
 - f. Payment terms;
 - g. A concise explanation of any refunding provisions, if applicable;
 - h. Utility's estimated start date and completion date for construction;
 - i. A summary of the results of the economic feasibility analysis performed by the utility to determine the

- amount of advance required from the applicant for the proposed construction.
2. Each applicant shall be provided with a copy of the construction agreement.
- C. Construction requirements.** Each construction tariff shall include the following provisions:
1. A maximum footage and/or equipment allowance to be provided by the utility at no charge. The maximum footage and/or equipment allowance may be differentiated by customer class.
 2. An economic feasibility analysis for construction which exceed the maximum footage and/or equipment allowance. Such economic feasibility analysis shall consider the incremental revenues and costs associated with the construction. In those instances where the requested construction does not meet the economic feasibility criteria established by the utility, the utility may require the customer to provide funds to the utility, which will make the construction economically feasible. The methodology employed by the utility in determining economic feasibility shall be applied uniformly and consistently to each applicant requiring a construction.
 3. The timing and methodology by which the utility will refund any advances in aid of construction as additional customers are served off the construction project. The customer may request an annual survey to determine if additional customers have been connected to and are using service from the project. In no case shall the amount of the refund exceed the amount originally advanced.
 4. All advances in aid of construction shall be noninterest bearing.
 5. If after five years from the utility's receipt of the advance, the advance has not been totally refunded, the advance shall be considered a contribution in aid of construction and shall no longer be refundable.
- D. Residential subdivision development and permanent mobile home parks.** Each utility shall submit as a part of its construction tariff provisions for residential subdivision developments and permanent mobile home parks.
- E. Underground extension of communication lines**
1. Extension of communication lines necessary to furnish permanent communication service to new residential buildings or mobile homes within a new or undeveloped subdivision and to residential development in which facilities for communication service have not been constructed for which applications are made by a developer shall be installed underground in accordance with the provisions set forth in this regulation and in accordance with applicable tariffs on file with this Commission except where it is not feasible from an engineering, operational or economic standpoint.
 2. Rights-of-way and easements
 - a. The utility shall construct or cause to be constructed and shall own, operate and maintain all underground communication feeder, distribution and service lines along public streets, roads and highways and on public lands and private property which the utility has the legal right to occupy.
 - b. Rights-of-way and easements suitable to the utility must be furnished by the developer at no cost to the utility and in reasonable time to meet service requirements. No underground communication facilities shall be installed by a utility until the final grades have been established and furnished to the utility. In addition, the easement strips, alleys and streets must be graded to within six inches of final grade by the developer before the utility will commence construction. Such clearance and grading must be maintained by the developer during construction by the utility.
 - c. If, subsequent to construction, the clearance or grade is changed in such a way as to require relocation of the underground facilities, the cost of such relocation shall be borne by the developer or subsequent owners.
 3. Installation of underground communication lines within subdivision and multiple occupancy residential developments:
 - a. The developer shall provide the trenching backfill (including any imported backfill required), compaction, repaving, and any earthwork required to install the underground communication system all in accordance with the reasonable specifications and schedules of other utilities in the same area when feasible. At its option, if the utility's cost therefore is equal to or less than that which the developer would otherwise have to bear, the utility may elect at the developer's expense to perform the activities necessary to fulfill the developer's responsibility hereunder.
 - b. Each utility shall promptly inspect the trenching provided by the developer and allow for phased inspection of trenching. In all cases, the utility shall make every effort to expedite the inspection of developer provided trenching.
 - c. The utility shall install or cause to be installed underground communication lines and related equipment with sufficient capacity and suitable materials that ensure adequate and reasonable communication service in the foreseeable future and in accordance with the applicable provisions of Institute of Electrical and Electronic Engineers, Inc., Pub. No. C2-2007, The National Electrical Safety Code (2007), which is incorporated by reference in R14-2-207(E)(3)(c).
 - d. When developer is required to provide a trench for other underground utilities and services, the utility shall use such common trench as long as the utility's design layout, easement specification, routing and scheduling requirements can be met, unless otherwise agreed upon by utility and developer in writing or as otherwise established by the Commission.
 4. Special conditions
 - a. When the application of any of the provisions of the regulation appears to either party not to be feasible from an engineering, operational or economic standpoint, the utility or the developer may refer the matter to the Commission for a determination as to whether an exception to the underground policy expressed within the provisions of this regulation is warranted. Interested third parties may present their views to the Commission in conjunction with such referrals.
 - b. Notwithstanding any provision of this regulation to the contrary, no utility shall construct overhead communication lines in any new subdivision or new multiple occupancy residential development to which this regulation is applicable and which is contiguous to another subdivision or multiple occupancy residential development in which service is furnished underground without the approval of the Commission after a public hearing.

Corporation Commission - Fixed Utilities

- F. Nonapplicability. Any underground communication distribution system requiring more than normal communication service is not covered by this regulation and shall be constructed pursuant to the effective rules and regulations of the affected utility as approved by the Commission.
- G. Ownership of facilities. Any facilities installed hereunder shall be the sole property of the utility.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2). Amended by exempt rulemaking at 5 A.A.R. 2054, effective June 4, 1999 (Supp. 99-2). Amended to correct subsection numbering (Supp. 99-4). Amended by final rulemaking at 15 A.A.R. 1933, effective December 27, 2009 (Supp. 09-4).

Editor's Note: *The following Section was amended under an exemption from the Attorney General certification provisions of the Arizona Administrative Procedure Act (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)), as determined by the Corporation Commission. This exemption means that the rules as amended were not certified by the Attorney General.*

R14-2-507. Provision of Service

- A. Utility responsibility. Each utility shall be responsible for maintaining in safe operating condition all equipment and fixtures used in providing utility service to the customer that are owned by and under the exclusive control of the utility.
- B. Customer responsibility
 - 1. Each customer shall be responsible for safeguarding all utility property installed in or on the customer's premises for the purpose of supplying utility service to that customer.
 - 2. Each customer shall be responsible for maintaining in safe operating condition all customer provided equipment and fixtures.
 - 3. Each customer shall exercise all reasonable care to prevent loss or damage to utility property, excluding ordinary wear and tear. The customer shall be responsible for loss of or damage to utility property on the customer's premises arising from neglect, theft, carelessness, or misuse and shall reimburse the utility for the cost of necessary repairs or replacements.
 - 4. Each customer shall be responsible for payment for any equipment damage and/or use resulting from unauthorized use, interfering or tampering of the utility's equipment on the customer's premises.
 - 5. Each customer shall notify the utility of any equipment failure identified in the utility's equipment.
- C. Continuity of service. Each utility shall make reasonable efforts to supply a satisfactory and continuous level of service. However, no utility shall be responsible for any damage or claim of damage attributable to any interruption or discontinuation of service resulting from but not limited to:
 - 1. Any cause against which the utility could not have reasonably foreseen or made provision for, that is, force majeure.
 - 2. Intentional service interruptions to make repairs or perform routine maintenance of services constituting excusable negligence.
- D. Service interruptions
 - 1. Each utility shall make reasonable efforts to reestablish service within the shortest possible time when service interruptions occur.
 - 2. Each utility shall make reasonable provisions to meet emergencies resulting from failure of service, and each utility shall issue instructions to its employees covering procedures to be followed in the event of emergency in

order to prevent or mitigate interruption or impairment of service.

- 3. In the event of a national emergency or local disaster resulting in disruption of normal service, the utility may, in the public interest, interrupt service to other customers to provide necessary service to civil defense or other emergency service agencies on a temporary basis until normal service to these agencies can be restored.
- 4. When a utility plans to interrupt service for more than four hours to perform necessary repairs or maintenance, the utility shall attempt to inform affected customers at least 24 hours in advance of the scheduled date and estimated duration of the service interruption. Such repairs shall be completed in the shortest possible time to minimize the inconvenience to the customers of the utility.
- 5. The Commission shall be notified of major interruptions in service affecting the entire system or any major division.
- E. Construction standards. Each utility shall construct all facilities in accordance with the provisions of Institute of Electrical and Electronic Engineers, Inc., Pub. No. C2-2007, The National Electrical Safety Code (2007), which is incorporated by reference in R14-2-207(E)(3)(c).

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2). Amended effective August 16, 1996 (Supp. 96-3). Amended by exempt rulemaking at 5 A.A.R. 2054, effective June 4, 1999 (Supp. 99-2). Amended to correct subsection numbering (Supp. 99-4). Amended by final rulemaking at 15 A.A.R. 1933, effective December 27, 2009 (Supp. 09-4).

R14-2-508. Billing and collection

- A. Frequency. Each utility shall bill monthly for services rendered.
- B. Minimum bill information. Each utility shall provide the following minimum information on customer bills:
 - 1. Monthly charge for basic exchange service including delineation of the following:
 - a. Total charge for customer requested services and/or equipment.
 - b. Installation costs or other service fees, where applicable.
 - c. Reconnect fee, where applicable.
 - 2. Toll charges broken down to include the following details by toll call:
 - a. Date of call
 - b. Time of call
 - c. Location called
 - d. Phone number called
 - e. Duration of call
 - f. Indication of any rate class applied.
 - 3. Miscellaneous charges and credits shall be shown separately.
 - 4. Any taxes included in the customer's billing.
 - 5. Total amount due and due date.
 - 6. Past due amount.
 - 7. Utility telephone number.
 - 8. Customer's name.
 - 9. Service account number.
- C. Billing terms: Each utility shall file a tariff which incorporates the following billing procedures:
 - 1. The billing date shall be printed on the bill and the date rendered shall be the mailing date.
 - 2. Bills for telephone services may be considered delinquent 15 days after the date the bill is rendered.

Corporation Commission - Fixed Utilities

3. Delinquent accounts for which payment has not been received may be terminated 22 days after the date the bill is rendered.
 4. All payments shall be made at or mailed to the office of the utility or to the utility's duly authorized representative.
- D. Applicable tariffs, prepayment, failure to receive, commencement date, taxes**
1. Each customer shall be billed under the applicable tariff.
 2. Each utility shall make provisions for advance payment for utility services.
 3. Failure to receive bills or notices which have been properly placed in the United States mail shall not prevent such bills from becoming delinquent nor relieve the customer of his obligations therein.
 4. Charges for service commence when the service is installed and connection made, whether used or not.
 5. In addition to the collection of regular rates, each utility may collect from the customer a proportionate share of any privilege, sales or use tax, or other imposition based on the gross revenues received by the utility.
- E. Insufficient funds (NSF) checks**
1. A utility shall be allowed to recover a fee, as approved by the Commission in a tariff proceeding, for each instance where a customer tenders payment for utility service with an insufficient funds check.
 2. When the utility is notified by the customer's bank that there are insufficient funds to cover the check tendered for utility service, the utility may require the customer to make payment in cash, by money order, certified check, or other means which guarantee the customer's payment to the utility.
 3. A customer who tenders an insufficient check shall in no way be relieved of the obligation to render payment to the utility under the original terms of the bill nor defer the utility's provision for termination of service for nonpayment of bills.
- F. Deferred payment plan**
1. Each utility may, prior to termination, offer to qualifying residential customers a deferred payment plan for the customer to retire unpaid bills for utility service.
 2. Each deferred payment agreement entered into by the utility and the customer due to the customer's inability to pay an outstanding bill in full shall provide that service will not be discontinued if:
 - a. Customer agrees to pay a reasonable amount of the outstanding bill at the time the parties enter into the deferred payment agreement.
 - b. Customer agrees to pay all future bills for utility service in accordance with the billing and collection tariffs of the utility.
 - c. Customer agrees to pay a reasonable portion of the remaining outstanding balance in installments over a period not to exceed six months.
 3. For the purposes of determining a reasonable installment payment schedule under these rules, the utility and the customer shall give consideration to the following conditions:
 - a. Size of the delinquent account
 - b. Customer's ability to pay
 - c. Customer's payment history
 - d. Length of time that the debt has been outstanding
 - e. Circumstances which resulted in the debt being outstanding
 - f. Any other relevant factors related to the circumstances of the customer.
4. Any customer who desires to enter into a deferred payment agreement shall establish such agreement prior to the utility's scheduled termination date for nonpayment of bills; customer failure to execute a deferred payment agreement prior to the scheduled termination date shall not prevent the utility from discontinuing service for nonpayment.
 5. Deferred payment agreements may be in writing and may be signed by the customer and an authorized utility representative.
 6. A deferred payment agreement may include a finance charge as approved by the Commission in a tariff proceeding.
 7. If a customer has not fulfilled the terms of a deferred payment agreement, the utility shall have the right to disconnect service pursuant to the utility's termination of service rules and, under such circumstances, it shall not be required to offer subsequent negotiation of a deferred payment agreement prior to disconnection.
- G. Late payment penalty**
1. Each utility may include in its tariffs a late payment penalty which may be applied to delinquent bills.
 2. The amount of the late payment penalty shall be indicated upon the customer's bill when rendered by the utility.
 3. In the absence of an approved tariff, the amount of the late payment penalty shall not exceed 1-1/2% of the delinquent bill.
- H. Change of responsibility or occupancy**
1. Not less than three working days advance notice must be given in person, in writing, or by telephone at the utility's office to discontinue service, to change occupancy or to change account responsibility.
 2. The customer in whose name service is being rendered shall be responsible for all utility services provided and/or consumed up to the scheduled date of service discontinuation.
 3. Existing business service may be continued for a new subscriber only if the former subscriber consents and an agreement acceptable to the utility is made to pay all outstanding charges against the service.
 4. Change of responsibility on a residence account shall occur only in those cases where both parties previously shared telephone service.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2). Amended to correct subsection numbering (Supp. 99-4).

R14-2-509. Termination of service

- A. Nonpermissible reasons to disconnect service.** A utility may not disconnect service for any of the reasons stated below:
1. Delinquency in payment for services rendered to a prior customer at the premises where service is being provided, except in the instance where the prior customer continues to reside on the premises.
 2. Failure of the customer to pay for services or equipment which are not regulated by the Commission.
 3. Residential service may not be disconnected due to nonpayment of a bill related to another class of service.
 4. Failure to pay for a bill to correct a billing error if the customer agrees to pay over a reasonable period of time.
 5. Failure to pay the bill of another customer as guarantor thereof unless guarantor does not make acceptable payment arrangements.
 6. Disputed bills where the customer has complied with the Commission's rules on complaints.
- B. Termination of service without notice**

Corporation Commission - Fixed Utilities

1. Utility service may be disconnected without advance written notice under the following conditions:
 - a. The existence of an obvious hazard to the safety or health of the consumer or the general population or the utility's personnel or facilities.
 - b. The utility has evidence of tampering or evidence of fraud.
 2. The utility shall not be required to restore service until the conditions which resulted in the termination have been corrected to the satisfaction of the utility.
 3. Each utility shall maintain a record of all terminations of service without notice. This record shall be maintained for a minimum of one year and shall be available for inspection by the Commission.
- C. Termination of service with notice**
1. A utility may disconnect service to any customer for any reason stated below provided the utility has met the notice requirements established by the Commission:
 - a. Customer violation of any of the utility's tariffs filed with the Commission and/or violation of the Commission's rules and regulations.
 - b. Failure of the customer to pay a bill for utility service.
 - c. Failure to meet or maintain the utility's credit and deposit requirements.
 - d. Failure of the customer to provide the utility reasonable access to its equipment and property.
 - e. Customer breach of contract for service between the utility and customer.
 - f. When necessary for the utility to comply with an order of any governmental agency having such jurisdiction.
 - g. Unauthorized resale of equipment or service.
 2. Each utility shall maintain a record of all terminations of service with notice. This record shall be maintained for one year and be available for Commission inspection.
- D. Termination notice requirements**
1. No utility shall terminate service to any of its customers without providing advance written notice to the customer of the utility's intent to disconnect service, except under those conditions specified where advance written notice is not required.
 2. Such advance written notice shall contain, at a minimum, the following information:
 - a. The name of the person whose service is to be terminated and the telephone number where service is being rendered.
 - b. The utility rules or regulation that was violated and explanation thereof or the amount of the bill which the customer has failed to pay in accordance with the payment policy of the utility, if applicable.
 - c. The date on or after which service may be terminated.
 - d. A statement advising the customer to contact the utility at a specific phone number for information regarding any deferred billing or other procedures which the utility may offer or to work out some other mutually agreeable solution to avoid termination of the customer's service.
- E. Timing of terminations with notice**
1. Each utility shall be required to give at least five days advance written notice prior to the termination date.
 2. Such notice shall be considered to be given to the customer when a copy thereof is left with the customer or posted first class in the United States mail, addressed to the customer's last known address.
3. If after the period of time allowed by the notice has elapsed and the delinquent account has not been paid nor arrangements made with the utility for the payment thereof or in the case of a violation of the utility's rules the customer has not satisfied the utility that such violation has ceased, the utility may then terminate service on or after the day specified in the notice without giving further notice.
 4. The utility may terminate service on a temporary basis by discontinuing the customer's line access at the central office.
 5. The utility shall have the right (but not the obligation) to remove any or all of its property installed on the customer's premises upon the termination of service.
 6. The terms and conditions of these rules shall apply in all circumstances except those superseded by the provisions of the high toll usage notification procedures.
- F. High toll usage monitoring/notification procedures**
1. Each telephone utility may establish a high toll usage monitoring/notification system to identify unexplained or excessive increases in customer toll usage during interim periods between the issuance of bills in accordance with the utility's established billing cycle. The intent of such a monitoring/notification system is to enable telephone utilities to identify situations where it is unlikely that the customer will be able to pay for toll services already provided as well as to prevent the accrual of additional billings when the risk of loss is increasingly evident.
 2. Each utility which establishes a high toll monitoring/notification system shall develop and operate such system and be governed by the following provisions and procedures:
 - a. Each utility shall establish a "normal" amount of toll usage by customer class and length of service. The normal amount of toll usage shall be based upon the actual average usage by the customer class.
 - b. Increases in toll usage shall not be considered unexplained or excessive until the amount of toll usage incurred between billing periods is at least two times the normal amount of monthly toll usage for that customer or customer class.
 - c. When this situation occurs, the utility shall review:
 - i. The individual customer's billing history to determine if the volume of toll usage should be considered excessive for that particular customer
 - ii. Prior payment history
 - iii. Amount of customer deposit held, if any
 - iv. Length of customer service to assess the ability of the customer to pay such toll charges according to the payment terms of the utility when a normal billing is rendered.
 - d. If the review of the customer's previous billing and payment history indicates it is unlikely that the customer shall be able to pay such bill, the utility may contact the customer to make inquiries concerning the abnormal usage. If the explanation is not satisfactory, the utility may require security and/or payment of charges on the account to continue service.
 - e. The utility may terminate service provided the customer is given 48 hours advance notice and the customer makes no further attempt to secure and or pay the account in order to continue service.
 - f. The 48-hour notification rule shall be waived and service may be terminated immediately in those situ-

Corporation Commission - Fixed Utilities

ations where intentional customer abuse of toll usage is evident.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2). Amended to correct subsection numbering (Supp. 99-4).

Editor's Note: The following Section was amended under an exemption from the Attorney General approval provisions of the Arizona Administrative Procedure Act (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)), as determined by the Corporation Commission. This exemption means that the rules as amended were not approved by the Attorney General.

R14-2-510. Administrative and Hearing Requirements

A. Customer service complaints

1. Each utility shall make a full and prompt investigation of all service complaints made by its customers, either directly or through the Commission.
2. The utility shall respond to the complainant and/or the Commission representative within five working days as to the status of the utility investigation of the complaint.
3. The utility shall notify the complainant and/or the Commission representative of the final disposition of each. Upon request of the complainant or the Commission representative, the utility shall report the findings of its investigation in writing.
4. Each utility shall keep a record of all written service complaints received which shall contain, at a minimum, the following data:
 - a. Name and address of complainant
 - b. Date and nature of the complaint
 - c. Disposition of the complaint
 - d. A copy of any correspondence between the utility, the customer, and/or the Commission.
5. This record shall be maintained for a minimum period of one year and shall be available for inspection by the Commission.

B. Customer bill disputes

1. Any utility customer who disputes a portion of a bill rendered for utility service shall pay the undisputed portion of the bill and notify the utility's designated representative that such unpaid amount is in dispute prior to the delinquent date of the bill.
2. Upon receipt of the customer notice of dispute, the utility shall:
 - a. Notify the customer within five working days of the receipt of a written dispute notice.
 - b. Initiate a prompt investigation as to the source of the dispute.
 - c. Withhold disconnection of service until the investigation is completed and the customer is informed of the results.
3. Once the customer has received the results of the utility's investigation, the customer shall submit payment within five working days to the utility for any disputed amounts. Failure to make full payment shall be grounds for termination of service. Prior to termination inform the customer of his right of appeal to the Commission.

C. Commission resolution of service and/or bill disputes

1. In the event a customer and utility cannot resolve a service and/or bill dispute, the customer shall file a written statement of dissatisfaction with the Commission; by submitting such notice to the Commission, the customer shall be deemed to have filed an informal complaint against the utility.

2. Within 30 days of the receipt of a written statement of customer dissatisfaction related to a service or bill dispute, a designated representative of the Commission shall endeavor to resolve the dispute by correspondence and/or telephone with the utility and the customer. If resolution of the dispute is not achieved within 20 days of the Commission representative's initial effort, the Commission shall hold an informal hearing to arbitrate the resolution of the dispute. The informal hearing shall be governed by the following rules:
 - a. Each party may be represented by legal counsel, if desired.
 - b. All such informal hearings may be recorded or held in the presence of a stenographer.
 - c. All parties will have the opportunity to present written or oral evidentiary material to support the positions of the individual parties.
 - d. All parties and the Commission's representative shall be given the opportunity for cross-examination of the various parties.
 - e. The Commission's representative will render a written decision to all parties within five working days after the date of the informal hearing. Such written decision of the arbitrator is not binding on any of the parties and the parties will still have the right to make a formal complaint to the Commission.

3. The utility may implement normal termination procedures if the customer fails to pay all bills rendered during the resolution of the dispute by the Commission.

D. Notice by utility of responsible officer or agent

1. Each utility shall file with the Commission a written statement containing the name, address (business, residence and post office) and telephone numbers (business and residence) of at least one officer, agent or employee responsible for the general management of its operations as a utility in Arizona.
2. Each utility shall give notice, by filing a written statement with the Commission, of any change in the information required herein within five days from the date of any such change.

E. Time-frames for processing applications for Certificates of Convenience and Necessity

1. This rule prescribes time-frames for the processing of any application for a Certificate of Convenience and Necessity issued by the Arizona Corporation Commission pursuant to this Article. These time-frames shall apply to applications filed on or after the effective date of this rule.
2. Within 30 calendar days after receipt of an application for a new Certificate of Convenience and Necessity, or to amend or change the status of any existing Certificate of Convenience and Necessity, staff shall notify the applicant, in writing, that the application is either administratively complete or deficient. If the application is deficient, the notice shall specify all deficiencies.
3. Staff may terminate an application if the applicant does not remedy all deficiencies within 60 calendar days of the notice of deficiency.
4. After receipt of a corrected application, staff shall notify the applicant within 30 calendar days if the corrected application is either administratively complete or deficient. The time-frame for administrative completeness review shall be suspended from the time the notice of deficiency is issued until staff determines that the application is complete.

Corporation Commission - Fixed Utilities

5. Within 150 days after an application is deemed administratively complete, the Commission shall approve or reject the application.
 6. For purposes of A.R.S. § 41-1072 et seq., the Commission has established the following time-frames:
 - a. Administrative completeness review time-frame: 30 calendar days,
 - b. Substantive review time-frame: 150 calendar days,
 - c. Overall time-frame: 180 calendar days.
 7. If an applicant requests, and is granted, an extension or continuance, the appropriate time-frames shall be tolled from the date of the request during the duration of the extension or continuance.
 8. During the substantive review time-frame, the Commission may, upon its own motion or that of any interested party to the proceeding, request a suspension of the time-frame rules.
- F. Filing of rules and regulations**
1. Each utility shall file with the Commission tariffs which are in compliance with the rules and regulations promulgated by the Arizona Corporation Commission within 120 days of the adoption of such rules by the Commission.
 2. Any proposed changes to the tariffs on file with the Commission shall be accompanied by a statement of justification supporting the proposed change in tariff.
 3. Any proposed change to the tariffs on file with the Commission shall not be effective until reviewed and approved by the Commission, except as provided for by law.
- G. Accounts and records**
1. Each utility shall keep general and auxiliary accounting records reflecting the cost of its properties, operating income and expense, assets and liabilities, and all other accounting and statistical data necessary to give complete and authentic information as to its properties and operations.
 2. Each utility shall maintain its books and records in conformity with the Uniform Systems of Accounts for Class A, B, C and D Telephone Utilities as adopted and amended by the Federal Communications Commission or, for telephone cooperatives, as promulgated by the Rural Electrification Administration.
 3. A utility shall produce or deliver in this state any or all of its formal accounting records and related documents requested by the Commission. It may, at its option, provide verified copies of original records and documents.
 4. All utilities shall submit an annual report to the Commission on a form prescribed by it. The annual report shall be filed on or before the 15th day of April for the preceding calendar year. Reports prepared by a certified or licensed public accountant on the utility, if any, shall accompany the annual report.
 5. All utilities shall file with the Commission a copy of all reports required by the Securities and Exchange Commission.
 6. All utilities shall file with the Commission a copy of all annual reports required by the Federal Communications Commission and in addition, for telephone cooperatives, annual reports required by the Rural Electrification Administration.
- H. Maps.** All utilities shall file with the Commission a map or maps clearly setting forth the location and extent of the area or areas they hold under approved certificates of convenience and necessity, in accordance with the Cadastral (Rectangular) Survey of the United States Bureau of Land Management, or by

metes and bounds with a starting point determined by the aforesaid Cadastral Survey.

- I.** Variations, exemptions of Commission rules and regulations. Variations or exemptions from the terms and requirements of any of the rules included herein (Title 14, Chapter 2, Article 5) shall be considered upon the verified application of an affected party to the Commission setting forth the circumstances whereby the public interest requires such variation or exemption from the Commission rules and regulations. Such application will be subject to the review of the Commission, and any variation or exemption granted shall require an order of the Commission. In case of conflict between these rules and regulations and an approved tariff or order of the Commission, the provisions of the tariff or order shall apply.
- J.** Prior agreements. The adoption of these rules by the Commission shall not affect any agreements entered into between the utility and customers or other parties who, pursuant to such contracts, arranged for the extension of facilities in a provision of service prior to the effective date of these rules.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2). Amended effective December 31, 1998, under an exemption as determined by the Arizona Corporation Commission (Supp. 98-4). Amended to correct subsection numbering (Supp. 99-4).

ARTICLE 6. SEWER UTILITIES**R14-2-601. Definitions**

In this Article, unless the context otherwise requires, the following definitions shall apply:

1. "Advance in aid of construction." Funds provided to the utility by the applicant under the terms of a collection main extension agreement the value of which may be refundable.
2. "Applicant." A person requesting the utility to supply sewer service.
3. "Application." A request to the utility for sewer service, as distinguished from an inquiry as to the availability or charges for such service.
4. "Arizona Corporation Commission." The regulatory authority of the state of Arizona having jurisdiction over public service corporations operating in Arizona.
5. "Billing month." The period between any two regular billings -- approximately 30 day interval.
6. "Billing period." The time interval between two consecutive billings.
7. "Collection main." A sewer main of the utility from which service collection lines are extended to customers.
8. "Commodity charge." The unit of cost per billed discharge as set forth in the utility's tariffs.
9. "Contributions in aid of construction." Funds provided to the utility by the applicant under the terms of a collection main extension agreement and/or service connection tariff the value of which are not refundable.
10. "Customer." The person or entity in whose name service is rendered, as evidenced by the signature on the application or contract for that service, or by the receipt and/or payment of bills regularly issued in his name regardless of the identity of the actual user of the service.
11. "Customer charge." The amount the customer must pay the utility for the availability of sewer service, excluding any amount of discharged, as specified in the utility's tariffs.
12. "Day." Calendar day.

Corporation Commission - Fixed Utilities

13. "Minimum charge." The amount the customer must pay for the availability of sewer service, including an amount of discharge, as specified in the utility's tariffs.
 14. "Permanent customer." A customer who is a tenant or owner of a service location who applies for and receives sewer service.
 15. "Permanent service." Service which, in the opinion of the utility, is of a permanent and established character. The use of sewer service may be continuous, intermittent, or seasonal in nature.
 16. "Person." Any individual, partnership, corporation, governmental agency, or other organization operating as a single entity.
 17. "Point of collection." The point where pipes owned, leased, or under license by a customer connect to the utility's collection system.
 18. "Premises." All of the real property and apparatus employed in a single enterprise on an integral parcel of land undivided by public streets, alleys or railways.
 19. "Residential subdivision development." Any tract of land which has been divided into four or more contiguous lots for use for the construction of residential buildings or permanent mobile homes for either single or multiple occupancy.
 20. "Residential use." Service to customers discharging sewage for domestic purposes.
 21. "Rules." The regulations set forth in the tariffs which apply to the provision of sewage service.
 22. "Service area." The territory in which the utility has been granted a Certificate of Convenience and Necessity and is authorized by the Commission to provide sewer service.
 23. "Service establishment charge." The charge as specified in the utility's Schedule of Rates which covers the cost of establishing a new account.
 24. "Service line." A sewer line that transports sewage from a customer's point of collection to a common source (normally a collection main) of collection of the utility's.
 25. "Service reconnect charge." The charge as specified in the utility's tariffs which must be paid by the customer prior to reconnection of sewer service each time the sewer service is disconnected for nonpayment or whenever service is discontinued for failure otherwise to comply with the utility's fixed rules.
 26. "Service reestablishment charge." A charge as specified in the utility's tariffs for service at the same location where the same customer had ordered a service disconnection within the preceding 12-month period.
 27. "Sewage." Ground garbage, human or animal excretions, and other domestic, commercial or industrial waste normally disposed of through a sanitary sewer system.
 28. "Single family dwelling." A house, an apartment, a mobile home permanently affixed to a lot, or any other permanent residential unit which is used as a permanent home.
 29. "Tariffs." The documents filed with the Commission which list the services and products offered by the sewer company and which set forth the terms and conditions and a schedule of the rates and charges for those services and products.
 30. "Temporary service." Service to premises or enterprises which are temporary in character, or where it is known in advance that the service will be of limited duration. Service which, in the opinion of the utility, is for operations of a speculative character is also considered temporary service.
 31. "Utility." The public service corporation providing sewer service to the public in compliance with state law.
- Historical Note**
Adopted effective March 2, 1982 (Supp. 82-2).
- R14-2-602. Certificates of Convenience and Necessity for Sewer Utilities; Extensions of Certificates of Convenience and Necessity for Sewer Utilities; Abandonment, Sale, Lease, Transfer, or Disposal of a Sewer Utility; Discontinuance or Abandonment of Sewer Utility Service**
- A.** In this Section, unless otherwise specified:
1. "Applicant" means a person who submits an application to obtain a Certificate of Convenience and Necessity to construct sewer utility facilities or operate as a sewer utility or to extend the service area under an existing Certificate of Convenience and Necessity held by the person.
 2. "CC&N" means Certificate of Convenience and Necessity.
 3. "Commission" means the Arizona Corporation Commission.
 4. "Contiguous" means in actual contact, touching, such as by sharing a common border.
 5. "Extension area" means the geographic area that an applicant is requesting to have added to the applicant's existing CC&N service area.
- B.** Application for a new CC&N or extension of a CC&N
1. Any person who desires to construct sewer utility facilities or to operate as a sewer utility shall, prior to commencing construction of utility facilities or operations, file with the Commission an application for a CC&N and obtain Commission approval.
 2. Any utility that desires to extend its CC&N service area shall file with the Commission an application for a CC&N extension.
 3. Before filing an application for a CC&N or a CC&N extension, a person shall provide written notice of the person's intention to file the application to each person who owns land within the proposed service area or extension area and who has not requested service. Each written notice to a landowner shall include, at a minimum:
 - a. The legal name, physical address, mailing address (if different), and telephone number of the intended applicant;
 - b. The approximate date by which the application will be filed;
 - c. The type of services to be provided if the application is approved;
 - d. The physical addresses and toll-free telephone numbers, in Phoenix and Tucson, for the Consumer Services Section of the Commission; and
 - e. The following information:
 - i. That the recipient is a property owner within the proposed service area or extension area;
 - ii. That if the application is granted, the intended applicant will be the exclusive provider of the specific services to the proposed service area or extension area and will be required by the Commission to provide those services under rates and charges and terms and conditions established by the Commission;
 - iii. That a CC&N does not prohibit persons from providing services only to themselves using their own facilities on their own property although other applicable laws may restrict such activity;

Corporation Commission - Fixed Utilities

- iv. That the application is available for inspection during regular business hours at the offices of the Commission and at the offices of the intended applicant;
 - v. That the Commission will hold a hearing on the application;
 - vi. That the landowner may have the right to intervene in the proceeding and may appear at the hearing and make a statement on the his or her own behalf even if the landowner does not intervene;
 - vii. That the landowner may contact the Commission for the date and time of the hearing and for information on intervention;
 - viii. That the landowner may not receive any further notice of the application proceeding unless requested; and
 - ix. That the landowner may contact the intended applicant or the Consumer Services Section of the Commission if the landowner has any questions or concerns about the application, has any objections to approval of the application, or wishes to make a statement in support of the application.
4. Within 10 days after filing an application for a CC&N or a CC&N extension, an applicant shall provide written notice of the application to the municipal manager or administrator of each municipality with corporate limits that overlap with or are within five miles of the proposed service area or extension area. Each written notice shall include, at a minimum:
- a. The applicant's legal name, mailing address, and telephone number;
 - b. The date the application was filed;
 - c. The type of services to be provided if the application is approved;
 - d. A description of the requested service area or extension area, expressed in terms of cadastral (quarter section) or metes and bound survey;
 - e. The Commission docket number assigned to the application; and
 - f. Instructions on how to obtain a copy of the application.
5. Each application for a new CC&N or CC&N extension shall be submitted in a form and number prescribed by the Commission and shall include, at a minimum, the following information:
- a. The applicant's legal name, mailing address, and telephone number;
 - b. If the applicant will or does operate the utility under a different business name, the name under which the applicant will be doing business;
 - c. The full name, mailing address, and telephone number of a management contact for the applicant;
 - d. The full name, mailing address, and telephone number of the attorney for the applicant, if any;
 - e. The full name, mailing address, and telephone number of the operator certified by the Arizona Department of Environmental Quality who is or will be working for the applicant;
 - f. The full name, mailing address, and telephone number of the onsite manager for the applicant;
 - g. Whether the applicant is a corporation, a partnership, a limited liability company, a sole proprietor, or another specified type of legal entity;
 - h. If the applicant is a corporation, the following:
 - i. Whether the applicant is a "C" corporation, an "S" corporation, or a non-profit corporation and whether the corporation is domestic or foreign;
 - ii. A list of the full names, titles, and mailing addresses of each of the applicant's officers and directors;
 - iii. A copy of the applicant's certificate of good standing issued by the Commission's Corporations Division;
 - iv. Unless the applicant is applying for a CC&N extension, a certified copy of the applicant's articles of incorporation and by-laws; and
 - v. If the applicant is a for-profit corporation, the number of shares of stock authorized for issue and, if any stock has been issued, the number of shares issued and date of issuance;
 - i. If the applicant is a partnership, the following:
 - i. Whether the applicant is a limited partnership or a general partnership and whether the partnership is domestic or foreign;
 - ii. The full names and mailing addresses of the applicant's general partners;
 - iii. The full names, mailing addresses, and telephone numbers of the applicant's managing partners;
 - iv. Unless the applicant is applying for a CC&N extension, a copy of the applicant's articles of partnership; and
 - v. If the applicant is a foreign limited partnership, a copy of the applicant's certificate of registration filed with the Arizona Secretary of State;
 - j. If the applicant is a limited liability company, the following:
 - i. The full names and mailing addresses of the applicant's managers or, if management is reserved to the members, the applicant's members;
 - ii. Unless the applicant is applying for a CC&N extension, a copy of the applicant's articles of organization;
 - k. The legal name and mailing address of each other utility in which the applicant has an ownership interest;
 - l. A description of the requested service area or extension area, expressed in terms of cadastral (quarter section) or metes and bound survey;
 - m. The name of each county in which the requested service area or extension area is located and a description of the area's location in relation to the closest municipality, which shall be named;
 - n. A complete description of the facilities proposed to be constructed, including a preliminary engineering report with specifications in sufficient detail to describe each sewer system and the principal components of each sewer system (e.g., collection mains, trunk lines, lift stations, treatment plants, effluent disposal areas, etc.) to allow verification of the estimated costs provided under subsection (B)(5)(p) and verification that the requirements of the Commission and the Arizona Department of Environmental Quality can be met;
 - o. A copy of the Aquifer Protection Permit issued by the Arizona Department of Environmental Quality for the proposed service area or extension area or, if

Corporation Commission - Fixed Utilities

- not yet obtained, the status of the application for the Aquifer Protection Permit;
- p. The estimated total construction cost of the proposed offsite and onsite facilities, including documentation to support the estimates, and an explanation of how the construction will be financed, such as through debt, equity, advances in aid of construction, contributions in aid of construction, or a combination thereof;
 - q. Documentation establishing the applicant's financial condition, including at least the applicant's current assets and liabilities, an income statement, the applicant's estimated revenue and expenses for the first five years following approval of the application, and the estimated value of the applicant's utility plant in service for the first five years following approval of the application;
 - r. The rates proposed to be charged for services rendered, shown in the form of a proposed tariff that complies with Commission standards;
 - s. The estimated annual operating revenues and expenses for the first five years of operation for the requested service area or extension area, expressed separately for residential, commercial, industrial, and irrigation services, and including a description of each assumption made to derive the estimates;
 - t. A detailed description of the proposed construction timeline for facilities, with estimated starting and completion dates and, if construction is to be phased, a description of each separate phase of construction;
 - u. A copy of any requests for service from persons who own land within the proposed service area or extension area, which shall identify the applicant by name;
 - v. Maps of the proposed service area or extension area identifying:
 - i. The boundaries of the area, with the total acreage noted;
 - ii. The land ownership boundaries within the area, with the acreage of each separately owned parcel within the area noted;
 - iii. The owner of each parcel within the area;
 - iv. Any municipality corporate limits that overlap with or are within five miles of the area;
 - v. The service area of any public service corporation, municipality, or district currently providing water or wastewater service within one mile of the area, with identification of the entity providing service and each type of service being provided;
 - vi. The location within the area of any known sewer service connections that are already being provided service by the applicant;
 - vii. The location of all proposed developments within the area;
 - viii. The proposed location of each sewer system and the principal components described in subsection (B)(5)(n); and
 - ix. The location of all parcels for which a copy of a request for service has been submitted per subsection (B)(5)(u);
 - w. A copy of each notice to be sent, as required under subsection (B)(4), to a municipal manager or administrator;
 - x. A copy of each notice sent, as required under subsection (B)(3), to a landowner not requesting service;
 - y. For each landowner not requesting service, either the written response received from the landowner or, if no written response was received, a description of the actions taken by the applicant to obtain a written response;
 - z. A copy of each city, county, or state agency approval required by law to construct the proposed facilities or operate the utility within the proposed service area or extension area or, for any approval not yet obtained, the status of the applicant's application for the approval;
 - aa. The estimated number of customers to be served for each of the first five years of operation, expressed separately for residential, commercial, industrial, and irrigation customers and including documentation to support the estimates;
 - bb. A description of how water service is to be provided in the proposed service area or extension area and the name of each water service provider for the area, if any;
 - cc. A description of how effluent from the area will be reused or, if not reused, disposed of;
 - dd. If the applicant is requesting a CC&N extension:
 - i. A current compliance status report from the Arizona Department of Environmental Quality, dated no more than 30 days before the date the CC&N extension application is filed, for each wastewater system operated by the applicant, as identified by a separate Arizona Department of Environmental Quality Identification Number; and
 - ii. A wastewater flow data sheet for the wastewater system being extended by the applicant; and
 - ee. The notarized signature of the applicant.
6. Upon receiving an application under subsection (B)(5), Utilities Division staff shall review and process the application in accordance with the requirements of R14-2-610.
 7. Once Utilities Division staff determines that an application submitted under subsection (B)(5) is administratively complete, the Commission shall, as expeditiously as practicable, schedule a hearing to consider the application.
- C. Additions or extensions of service contiguous to existing CC&N service areas**
1. Except in the case of an emergency, a utility that proposes to extend service to a parcel located in a non-certificated area contiguous to its CC&N service area shall notify the Commission before the service extension occurs.
 2. Each notification required under subsection (C)(1) shall be in writing, shall be verified, and shall set forth, at a minimum:
 - a. The legal name, mailing address, and telephone number of the utility;
 - b. The number of persons to be served in the contiguous parcel;
 - c. The legal description of the contiguous parcel and the location of the structures to be served therein, in relation to the utility's CC&N service area; and
 - d. A statement that service will be extended only to a non-certificated parcel contiguous to the utility's CC&N service area.
 3. When emergency service is required to be provided to a person in a non-certificated area contiguous to a utility's CC&N service area, the utility shall notify the Commis-

Corporation Commission - Fixed Utilities

sion of the service extension as soon as possible after the service extension occurs by providing written notice that includes the information required under subsection (C)(2) and describes the nature and extent of the emergency.

D. Application for authority to abandon, sell, lease, transfer, or otherwise dispose of a utility

1. A utility shall not abandon, sell, lease, transfer, or otherwise dispose of its facilities or operation without first obtaining authority therefor from the Commission.
2. A utility desiring to abandon, sell, lease, transfer, or otherwise dispose of its facilities or operation shall file with the Commission an application that includes, at a minimum:
 - a. The legal name, physical address, mailing address (if different), and telephone number of the utility;
 - b. A description of the utility property proposed to be abandoned, sold, leased, transferred or otherwise disposed of;
 - c. Documentation establishing the utility's financial condition, including at least the utility's current assets and liabilities, an income statement, the utility's revenue and expenses for the most recently completed 12-month accounting period, and the value of the utility's utility plant in service;
 - d. The legal name, physical address, mailing address (if different), and telephone number of any proposed purchaser, lessee, transferee, or assignee;
 - e. The terms and conditions of the proposed abandonment, sale, lease, transfer, or assignment and copies of any agreement that has been or will be executed concerning the transaction;
 - f. A description of the effect that the proposed transaction will have upon the utility's services;
 - g. The method by which the proposed transaction is to be financed;
 - h. A description of the effect that the proposed transaction will have upon any other utility;
 - i. The number of customers to be affected by the proposed transaction; and
 - j. A description of the effect that the proposed transaction will have upon customers.

E. Application for discontinuance or abandonment of utility service

1. A utility shall not discontinue or abandon any service currently in use by the public without first obtaining authority therefor from the Commission.
2. A utility desiring to discontinue or abandon a service shall file with the Commission an application identifying the utility; including data regarding past, present and estimated future customer use of the service; describing any plant or facility that would no longer be in use if the application were approved; and explaining why the utility desires to discontinue or abandon the service.
3. A utility is not required to apply for Commission approval to remove individual facilities where a customer has requested service discontinuance.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2). Amended to correct subsection numbering (Supp. 99-4). Amended by final rulemaking at 15 A.A.R. 2066, effective January 22, 2010 (Supp. 09-4).

R14-2-603. Establishment of service

A. Information from new applicants

1. A utility may obtain the following minimum information from each new applicant for service:

- a. Name or names of applicant(s).
- b. Service address or location and telephone number.
- c. Billing address or location and telephone number, if different than service address.
- d. Address where service was provided previously.
- e. Date applicant will be ready for service.
- f. Indication of whether premises have been supplied with utility service previously.
- g. Purpose for which service is to be used.
- h. Indication of whether applicant is owner or tenant of or agent for the premises.

2. Each utility may require a new applicant for service to appear at the utility's designated place of business to produce proof of identity and sign the utility's application form.
3. Where service is requested by two or more individuals the utility shall have the right to collect the full amount owed to the utility from any one of the applicants.

B. Deposits

1. A utility may require a deposit from any new applicant for service.
2. The utility shall issue a nonnegotiable receipt to the applicant for the deposit. The inability of the customer to produce such a receipt shall in no way impair his right to receive a refund of the deposit which is reflected on the utility's records.
3. Interest on deposits shall be calculated annually at an interest rate filed by the utility and approved by the Commission in a tariff proceeding. In the absence of such, the interest rate shall be 6%.
4. Interest shall be credited to the customer's bill annually.
5. Residential deposits shall be refunded within 30 days after:
 - a. 12 consecutive months of service without being delinquent in the payment of utility bills provided the utility may reestablish the deposit if the customer becomes delinquent in the payment of bills three or more times within a 12 consecutive month period.
 - b. Upon discontinuance of service when the customer has paid all outstanding amounts due the utility.
6. A separate deposit may be required for each service installed.
7. The amount of a deposit required by the utility shall be determined according to the following terms:
 - a. Residential customer deposits shall not exceed two times the average residential class bill as evidenced by the utility's most recent annual report filed with the Commission.
 - b. Nonresidential customer deposits shall not exceed 2 1/2 times that customer's estimated maximum monthly bill.
8. The utility may review the customer's discharge after service has been established and adjust the deposit amount based upon the customer's actual discharge.
9. Upon discontinuance of service, the deposit may be applied by the utility toward settlement of the customer's bill.

C. Grounds for refusal of service. A utility may refuse to establish service if any of the following conditions exist:

1. The applicant has an outstanding amount due for the same class of utilities services with the utility, and the applicant is unwilling to make arrangements with the utility for payment.
2. A condition exists which in the utility's judgment is unsafe or hazardous to the applicant, the general population, or the utility's personnel or facilities.

Corporation Commission - Fixed Utilities

3. Refusal by the applicant to provide the utility with a deposit.
 4. Customer is known to be in violation of the utility's tariffs filed with the Commission or of the Commission's rules and regulations.
 5. Failure of the customer to furnish such funds, service, equipment, and/or rights-of-way necessary to serve the customer and which have been specified by the utility as a condition for providing service.
- D. Service establishments, re-establishments or reconnect charge**
1. A utility may make a charge as approved by the Commission for the establishment, reestablishment, or reconnection of utility service.
 2. For the purpose of this rule, service establishments are where the customer's facilities are ready and acceptable to the utility and do not require construction on the part of the utility.
- E. Temporary service**
1. Applicants for temporary service may be required to pay the utility, in advance of service establishment, the estimated cost of installing and removing the facilities necessary for furnishing sewer service.
 2. Where the duration of service is to be less than one month, the applicant may also be required to advance a sum of money equal to the estimated bill for service.
 3. Where the duration of service is to exceed one month, the applicant may also be required to meet the deposit requirements of the utility.
 4. If at any time during the term of the agreement for service the character of a temporary customer's operations changes so that in the opinion of the utility the customer is classified as permanent, the terms of the utility's main extension rules shall apply.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2). Amended to correct subsection numbering (Supp. 99-4).

R14-2-604. Minimum customer information requirements

- A. Information for residential customers**
1. Each utility shall make available upon customer request not later than 60 days from the date of request a concise summary of the rate schedule applied for by such customer. The summary shall include the following:
 - a. Monthly minimum or customer charge, identifying the amount of the charge and the specific amount of minimum discharge included in the minimum charge, where applicable.
 - b. Rate calculation, including where applicable, computations based upon seasonal or annual water usages.
 2. The utility shall to the extent practical identify the tariff most advantageous to the customer and notify the customer of such prior to service commencement.
 3. In addition, a utility shall make available upon customer request not later than 60 days from the date of request a copy of the Commission's rules and regulations governing:
 - a. Deposits
 - b. Terminations of service
 - c. Billing and collection
 - d. Complaint handling.
 4. Each utility shall inform all new customers of their rights to obtain the information specified above.
- B. Information required due to changes in tariffs**
1. Each utility shall transmit to affected customers by the most economic means available a concise summary of

any change in the utility's tariffs affecting those customers.

2. This information shall be transmitted to the affected customer within 60 days of the effective date of the change.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2).

R14-2-605. Service connections

- A. Priority and timing**
1. After an applicant has complied with the utility's application and deposit requirements and has been accepted for service by the utility, the utility shall schedule that customer for service connection.
 2. Service connections shall be scheduled for completion within five working days of the date the customer has been accepted for service, except in those instances when the customer requests service connection beyond the five working day limitation.
 3. When the utility has made arrangements to meet with a customer for service establishment purposes and the utility or the customer cannot make the appointment during the prearranged time, the utility shall reschedule the connection to the satisfaction of both parties.
 4. For the purposes of this rule, establishment of service takes place only when the customer's facilities are ready and acceptable to the utility.
- B. Customer provided facilities**
1. An applicant for service shall be responsible for the installation of all plumbing up to the applicant's property line. In addition, the applicant is responsible for the proper grade or leveling of the sewer connection so that it conforms with the collection system of the utility.
 2. Funds collected for service connections may be nonrefundable contributions to the utility.
- C. Customer provided equipment safety and operation.** Each customer shall be responsible for maintaining all equipment and facilities using or used for utility services located on his side of the point of collection in safe operating condition.
- D. Easements and rights-of-way**
1. Each customer shall grant adequate easement and right-of-way satisfactory to the utility to ensure that customer's proper service connection. Failure on the part of the customer to grant adequate easement and right-of-way shall be grounds for the utility to refuse service.
 2. When a utility discovers that a customer or his agent is performing work or has constructed facilities adjacent to or within an easement or right-of-way and such work, construction or facility poses a hazard or is in violation of federal, state or local laws, ordinances, statutes, rules or regulations, or significantly interferes with the utility's access to equipment, the utility shall notify the customer or his agent and shall take whatever actions are necessary to eliminate the hazard, obstruction or violation at the customer's expense.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2). Amended to correct subsection numbering (Supp. 99-4).

R14-2-606. Collection main extension agreements

- A. General requirements**
1. Each utility entering into a main extension agreement shall comply with the provisions of this rule, which specifically defines the conditions governing collection main extensions.
 2. Upon request by a potential applicant for a collection main extension, the utility shall prepare, without charge, a

Corporation Commission - Fixed Utilities

preliminary sketch and rough estimate of the cost of installation to be paid by said applicant.

3. Any applicant for a collection main extension requesting the utility to prepare detailed plans, specifications, or cost estimates may be required to deposit with the utility an amount equal to the estimated cost of preparation. The utility shall, upon request, make available within 90 days after receipt of the deposit referred to above, such plans, specifications, or cost estimates of the proposed collection main extension. Where the applicant accepts the plans and the utility proceeds with construction of the extension, the deposit shall be credited to the cost of construction; otherwise the deposit shall be nonrefundable. If the extension is to include oversizing of facilities to be done at the utility's expense, appropriate details shall be set forth in the plans, specifications and cost estimates.
 4. Where the utility requires an applicant to advance funds for a collection main extension, the utility shall furnish the applicant with a copy of the extension tariff of the appropriate utility prior to the applicant's acceptance of the utility's extension agreement.
 5. All collection main extension agreements requiring payment by the applicant shall be in writing and signed by each party before the utility commences construction.
 6. In the event the utility's actual cost of construction is different from the amount advanced by the customer, the utility shall make a refund to or collect additional funds from, the applicant within 120 days after the completion of the construction.
 7. The provisions of this rule apply only to those applicants who in the utility's judgment will be permanent customers of the utility. Applications for temporary service shall be governed by the Commission's rules concerning temporary service applications.
- B. Minimum written agreement requirements**
1. Each collection main extension agreement shall, at a minimum, include the following information:
 - a. Name and address of applicant(s)
 - b. Proposed service address or location
 - c. Description of requested service
 - d. Description and sketch of the requested main extension
 - e. A cost estimate to include materials, labor, and other costs as necessary
 - f. Payment terms
 - g. A clear and concise explanation of any refunding provisions, if appropriate
 - h. The utility's estimated start date and completion date for construction of the collection main extension
 2. Each applicant shall be provided with a copy of the written collection main extension agreement.
- C. Main extension requirements. Each main extension tariff shall include the following provisions:**
1. A maximum footage and/or equipment allowance to be provided by the utility at no charge. The maximum footage and/or equipment allowance may be differentiated by customer class.
 2. An economic feasibility analysis for those main extensions which exceed the maximum footage and/or equipment allowance. Such economic feasibility analysis shall consider the incremental revenues and cost associated with the main extension. In those instances where the requested main extension does not meet the economic feasibility criteria established by the utility, the utility may require the customer to provide funds to the utility, which will make the main extension economically feasible.

ble. The methodology employed by the utility in determining economic feasibility shall be applied uniformly and consistently to each applicant requiring a main extension.

3. The timing and methodology by which the utility will refund any advances in aid of construction as additional customers are served off the main extension. The customer may request an annual survey to determine if additional customers have been connected to and are using service from the main extension. In no case shall the amount of the refund exceed the amount originally advanced.
 4. All advances in aid of construction shall be noninterest bearing.
 5. If after five years from the utility's receipt of the advance, the advance has not been totally refunded, the advance shall be considered a contribution in aid of construction and shall no longer be refundable.
- D. Residential subdivision development and permanent mobile home parks.** Each utility shall submit as a part of its main extension tariff separate provisions for residential subdivision developments and permanent mobile home parks.
- E. Ownership of facilities.** Any facilities installed hereunder shall be the sole property of the utility.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2). Amended to correct subsection numbering (Supp. 99-4).

R14-2-607. Provision of service

- A. Utility responsibility**
1. Each utility shall be responsible for the safe conduct and handling of the sewage from the customer's point of collection.
 2. The utility may, at its option, refuse service until the customer has obtained all required permits and/or inspections indicating that the customer's facilities comply with local construction and safety standards.
- B. Customer responsibility**
1. Each customer shall be responsible for maintaining all facilities on the customer's premises in safe operating condition and in accordance with the rules of the state Department of Health.
 2. Each customer shall be responsible for safeguarding all utility property installed in or on the customer's premises for the purpose of supplying utility service to that customer.
- C. Continuity of service.** Each utility shall make reasonable efforts to supply a satisfactory and continuous level of service. However, no utility shall be responsible for any damage or claim of damage attributable to any interruption or discontinuation of service resulting from:
1. Any cause against which the utility could not have reasonably foreseen or made provision for, i.e., force majeure
 2. Intentional service interruptions to make repairs or perform routine maintenance
 3. Any temporary overloading of the utility's collection or treatment facilities.
- D. Service interruption**
1. Each utility shall make reasonable efforts to reestablish service within the shortest possible time when service interruptions occur.
 2. Each utility shall make reasonable provisions to meet emergencies resulting from failure of service, and each utility shall issue instructions to its employees covering procedures to be followed in the event of emergency in

Corporation Commission - Fixed Utilities

order to prevent or mitigate interruption or impairment of service.

3. In the event of a national emergency or local disaster resulting in disruption of normal service, the utility may, in the public interest, interrupt service to other customers to provide necessary service to civil defense or other emergency service agencies on a temporary basis until normal service to these agencies can be restored.
 4. When a utility plans to interrupt service for more than four hours to perform necessary repairs or maintenance, the utility shall attempt to inform affected customers at least 24 hours in advance of the scheduled date and estimated duration of the service interruption. Such repairs shall be completed in the shortest possible time to minimize the inconvenience to the customers of the utility.
 5. The Commission shall be notified of interruptions in service affecting the entire system or any major division thereof. The interruption of service and cause shall be reported within four hours after the responsible representative of the utility becomes aware of said interruption by telephone to the Commission and followed by a written report to the Commission.
- E. Construction standards.** The design, construction and operation of all sewer plants shall conform to the requirements of the Arizona Department of Health Services or its successors and any other governmental agency having jurisdiction thereof. Phase construction is acceptable.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2). Amended to correct subsection numbering (Supp. 99-4).

R14-2-608. Billing and collection

- A. Frequency.** Each utility shall bill monthly for services rendered.
- B. Minimum bill information.** Each bill for residential service will contain the following minimum information:
1. Billed discharge, where applicable
 2. Utility telephone number
 3. Amount due and due date
 4. Customer's name
 5. Service account number, if available
 6. Past due amount, where appropriate
 7. Adjustment factor, where applicable
 8. Other approved tariff charges.
- C. Billing terms**
1. All bills for utility services are due and payable no later than 10 days from the date the bill is rendered. Any payment not received within this time-frame shall be considered past due.
 2. For purposes of this rule, the date a bill is rendered may be evidenced by:
 - a. The postmark date
 - b. The mailing date.
 3. All past due bills for utility services are due and payable within 10 days. Any payment not received within this time-frame shall be considered delinquent.
 4. All delinquent bills for which payment has not been received within five days shall be subject to the provisions of the utility's termination procedures.
 5. All payments shall be made at or mailed to the office of the utility or to the utility's duly authorized representative.
- D. Applicable tariffs, prepayment, failure to receive, commencement date, taxes**
1. Each customer shall be billed under the applicable tariff indicated in the customer's application for service.

2. Each utility shall make provisions for advance payment for sewer services.
3. Failure to receive bills or notices which have been properly placed in the United States mail shall not prevent such bills from becoming delinquent nor relieve the customer of his obligations therein.
4. Charges for service commence when the service is installed and connection made, whether used or not.
5. In addition to the collection of regular rates, each utility may collect from its customers a proportionate share of any privilege, sales or use tax, or other imposition based on the gross revenues received by the utility.

E. Insufficient funds (NSF) checks

1. A utility shall be allowed to recover a fee, as approved by the Commission for each instance where a customer tenders payment for utility service with an insufficient funds check.
2. When the utility is notified by the customer's bank that there are insufficient funds to cover the check tendered for utility service, the utility may require the customer to make payment in cash, by money order, certified check, or other means which guarantee the customer's payment to the utility.
3. A customer who tenders an insufficient check shall in no way be relieved of the obligation to render payment to the utility under the original terms of the bill nor defer the utility's provision for termination of service for nonpayment of bills.

F. Late payment penalty

1. Each utility may include in its tariffs a late payment penalty tariff which may be applied to delinquent bills.
2. The amount of the late payment penalty shall be indicated upon the customer's bill when rendered by the utility.
3. In the absence of an approved tariff, the amount of the late payment penalty shall not exceed 1-1/2% of the delinquent bill.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2). Amended to correct subsection numbering (Supp. 99-4).

R14-2-609. Termination of service

- A. Nonpermissible reasons to disconnect service.** A utility may not disconnect service for any of the reasons stated below:
1. Delinquency in payment for services rendered to a prior customer at the premises where service is being provided, except in the instance where the prior customer continues to reside on the premises.
 2. Failure of the customer to pay for services or equipment which are not regulated by the Commission.
 3. Nonpayment of a bill related to another class of service.
 4. Failure to pay for a bill to correct a previous underbilling due to a billing error if the customer agrees to pay over a reasonable period of time.
 5. Disputed bills where the customer has complied with the Commission's rules and regulations.
- B. Termination of service without notice**
1. Utility service may be disconnected without advance written notice under the following conditions:
 - a. The existence of an obvious hazard to the safety or health of the consumer or the general population.
 - b. The utility has evidence of fraud.
 2. The utility shall not be required to restore service until the conditions which resulted in the termination have been corrected to the satisfaction of the utility.
 3. Each utility shall maintain a record of all terminations of service without notice. This record shall be maintained

Corporation Commission - Fixed Utilities

for a minimum of one year and shall be available for inspection by the Commission.

C. Termination of service with notice

1. A utility may disconnect service to any customer for any reason stated below provided the utility has met the notice requirements established by the Commission:
 - a. Customer violation of any of the Commission's rules.
 - b. Failure of the customer to pay a delinquent bill for utility service.
 - c. Failure to meet or maintain the utility's credit and deposit requirements.
 - d. Failure of the customer to provide the utility reasonable access to its equipment and property.
 - e. Customer breach of a written contract for service between the utility and customer.
 - f. When necessary for the utility to comply with an order of any governmental agency having such jurisdiction.
2. Each utility shall maintain a record of all terminations of service with notice. This record shall be maintained for one year and be available for Commission inspection.

D. Termination notice requirements

1. No utility shall terminate service to any of its customers without providing advance written notice to the customer of the utility's intent to disconnect service, except under those conditions specified where advance written notice is not required.
2. Such advance written notice shall contain, at a minimum, the following information:
 - a. The name of the person whose service is to be terminated and the address where service is being rendered.
 - b. The Commission rule or regulation that was violated and explanation thereof or the amount of the bill which the customer has failed to pay in accordance with the payment policy of the utility, if applicable.
 - c. The date on or after which service may be terminated.
 - d. A statement advising the customer that the utility's stated reason for the termination of services may be disputed by contacting the utility at a specific address of phone number, advising the utility of the dispute and making arrangements to discuss the cause for termination with a responsible employee of the utility in advance of the scheduled date of termination. The responsible employee shall be empowered to resolve the dispute and the utility shall retain the option to terminate service after affording this opportunity for a meeting and concluding that the reason for termination is just and advising the customer of his right to file a complaint with the Commission.

E. Timing of terminations with notice

1. Each utility shall be required to give at least five days' advance written notice prior to the termination date.
2. Such notice shall be considered to be given to the customer when a copy thereof is left with the customer or posted first class in the United States mail, addressed to the customer's last known address.
3. If after the period of time allowed by the notice has elapsed and the delinquent account has not been paid nor arrangements made with the utility for the payment thereof or in the case of a violation of the utility's rules the customer has not satisfied the utility that such violation has ceased, the utility may then terminate service on

or after the day specified in the notice without giving further notice.

- F. Landlord/tenant rule.** In situations where service is rendered at an address different from the mailing address of the bill or where the utility knows that a landlord/tenant relationship exists and that the landlord is the customer of the utility, and where the landlord as a customer would otherwise be subject to disconnection of service, the utility may not disconnect service until the following actions have been taken:

1. Where it is feasible to so provide service, the utility, after providing notice as required in these rules, shall offer the occupant the opportunity to subscribe for service in his or her own name. If the occupant then declines to so subscribe, the utility may disconnect service pursuant to the rules.
2. A utility shall not attempt to recover from a tenant or condition service to a tenant with the payment of any outstanding bills or other charges due upon the outstanding account of the landlord.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2). Amended to correct subsection numbering (Supp. 99-4).

Editor's Note: The following Section was amended under an exemption from the Attorney General approval provisions of the Arizona Administrative Procedure Act (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)), as determined by the Corporation Commission. This exemption means that the rules as amended were not approved by the Attorney General.

R14-2-610. Administrative and Hearing Requirements

A. Customer service complaints

1. Each utility shall make a full and prompt investigation of all service complaints made by its customers, either directly or through the Commission.
2. The utility shall respond to the complainant and/or the Commission representative within five working days as to the status of the utility investigation of the complaint.
3. The utility shall notify the complainant and/or the Commission representative of the final disposition of each complaint. Upon request of the complainant or the Commission representative, the utility shall report the findings of its investigation in writing.
4. The utility shall inform the customer of his right of appeal to the Commission should the results of the utility's investigation prove unsatisfactory to the customer.
5. Each utility shall keep a record of all written service complaints received which shall contain, at a minimum, the following data:
 - a. Name and address of the complainant
 - b. Date and nature of the complaint
 - c. Disposition of the complaint
 - d. A copy of any correspondence between the utility, the customer, and/or the Commission.

This record shall be maintained for a minimum period of one year and shall be available for inspection by the Commission.

B. Notice by utility of responsible officer or agent

1. Each utility shall file with the Commission a written statement containing the name, address (business, residence and post office) and telephone numbers (business and residence) of at least one officer, agent or employee responsible for the general management of its operations as a utility in Arizona.
2. Each utility shall give notice, by filing a written statement with the Commission, of any change in the information

Corporation Commission - Fixed Utilities

required herein within five days from the date of any such change.

C. Time-frames for processing applications for Certificates of Convenience and Necessity

1. This rule prescribes time-frames for the processing of any Application for a Certificate of Convenience and Necessity issued by the Arizona Corporation Commission pursuant to this Article. These time-frames shall apply to applications filed on or after the effective date of this rule.
2. Within 30 calendar days after receipt of an application for a new Certificate of Convenience and Necessity, or to amend or change the status of any existing Certificate of Convenience and Necessity, staff shall notify the applicant, in writing, that the application is either administratively complete or deficient. If the application is deficient, the notice shall specify all deficiencies.
3. Staff may terminate an application if the applicant does not remedy all deficiencies within 60 calendar days of the notice of deficiency.
4. After receipt of a corrected application, staff shall notify the applicant within 30 calendar days if the corrected application is either administratively complete or deficient. The time-frame for administrative completeness review shall be suspended from the time the notice of deficiency is issued until staff determines that the application is complete.
5. Within 150 days after an application is deemed administratively complete, the Commission shall approve or reject the application.
6. For purposes of A.R.S. § 41-1072 et seq., the Commission has established the following time-frames:
 - a. Administrative completeness review time-frame: 30 calendar days,
 - b. Substantive review time-frame: 150 calendar days,
 - c. Overall time-frame: 180 calendar days.
7. If an applicant requests, and is granted, an extension or continuance, the appropriate time-frames shall be tolled from the date of the request during the duration of the extension or continuance.
8. During the substantive review time-frame, the Commission may, upon its own motion or that of any interested party to the proceeding, request a suspension of the time-frame rules.

D. Accounts and records

1. Each utility shall keep general and auxiliary accounting records reflecting the cost of its properties, operating income and expense, assets and liabilities, and all other accounting and statistical data necessary to give complete and authentic information as to its properties and operations.
2. Each utility shall maintain its books and records in conformity with the NARUC Uniform Systems of Accounts for Class A, B, C and D Sewer Utilities.
3. A utility shall produce or deliver in this state any or all of its formal accounting records and related documents requested by the Commission. It may, at its option, provide verified copies of original records and documents.
4. All utilities shall submit an annual report to the Commission on a form prescribed by it. The annual report shall be filed on or before the 15th day of April for the preceding calendar year. Reports prepared by a certified or licensed public accountant on the utility, if any, shall accompany the annual report.
5. All utilities shall file with the Commission a copy of all reports required by the Securities and Exchange Commission.

E. Maps. All utilities shall file with the Commission a map or maps clearly setting forth the location and extent of the area or areas they hold under approved certificates of convenience and necessity, in accordance with the Cadastral (Rectangular) Survey of the United States Bureau of Land Management, or by metes and bounds with a starting point determined by the aforesaid Cadastral Survey.

F. Variations, exemptions of Commission rules and regulations. Variations or exemptions from the terms and requirements of any of the rules included herein (Title 14, Chapter 2, Article 6) shall be considered upon the verified application of an affected party to the Commission setting forth the circumstances whereby the public interest requires such variation or exemption from the Commission rules and regulations. Such application will be subject to the review of the Commission, and any variation or exemption granted shall require an order of the Commission. In case of conflict between these rules and regulations and an approved tariff or order of the Commission, the provisions of the tariff or order shall apply.

G. Prior agreements. The adoption of these rules by the Commission shall not affect any agreements entered into between the utility and customers or other parties who, pursuant to such contracts, arranged for the extension of facilities in a provision of service prior to the effective date of these rules.

Historical Note

Adopted effective March 2, 1982 (Supp. 82-2). Amended effective December 31, 1998, under an exemption as determined by the Arizona Corporation Commission (Supp. 98-4). Amended to correct subsection numbering (Supp. 99-4).

ARTICLE 7. RESOURCE PLANNING AND PROCUREMENT

R14-2-701. Definitions

In this Article, unless otherwise specified:

1. "Acknowledgment" means a Commission determination, under R14-2-704, that a plan meets the basic requirements of this Article.
2. "Affiliated" means related through ownership of voting securities, through contract, or otherwise in such a manner that one entity directly or indirectly controls another, is directly or indirectly controlled by another, or is under direct or indirect common control with another entity.
3. "Benchmark" means to calibrate against a known set of values or standards.
4. "Book life" means the expected time period over which a power supply source will be available for use by a load-serving entity.
5. "Btu" means British thermal unit.
6. "Capacity" means the amount of electric power, measured in megawatts, that a power source is rated to provide.
7. "Capital costs" means the construction and installation cost of facilities, including land, land rights, structures, and equipment.
8. "Coincident peak" means the maximum of the sum of two or more demands that occur in the same demand interval, which demand interval may be established on an annual, monthly, or hourly basis.
9. "Customer class" means a subset of customers categorized according to similar characteristics, such as amount of energy consumed; amount of demand placed on the energy supply system at the system peak; hourly, daily, or seasonal load pattern; primary type of activity engaged in by the customer, including residential, commercial, industrial, agricultural, and governmental; and location.

Corporation Commission - Fixed Utilities

10. "Decommissioning" means the process of safely and economically removing a generating unit from service.
11. "Demand management" means beneficial reduction in the total cost of meeting electric energy service needs by reducing or shifting in time electricity usage.
12. "Derating" means a reduction in a generating unit's capacity.
13. "Discount rate" means the interest rate used to calculate the present value of a cost or other economic variable.
14. "Docket Control" means the office of the Commission that receives all official filings for entry into the Commission's public electronic docketing system.
15. "Emergency" means an unforeseen and unforeseeable condition that:
 - a. Does not arise from the load-serving entity's failure to engage in good utility practices,
 - b. Is temporary in nature, and
 - c. Threatens reliability or poses another significant risk to the system.
16. "End use" means the final application of electric energy, for activities such as, but not limited to, heating, cooling, running an appliance or motor, an industrial process, or lighting.
17. "Energy losses" means the quantity of electric energy generated or purchased that is not available for sale to end users, for resale, or for use by the load-serving entity.
18. "Escalation" means the change in costs due to inflation, changes in manufacturing processes, changes in availability of labor or materials, or other factors.
19. "Generating unit" means a specific device or set of devices that converts one form of energy (such as heat or solar energy) into electric energy, such as a turbine and generator or a set of photovoltaic cells.
20. "Heat rate" means a measure of generating station thermal efficiency expressed in Btus per net kilowatt-hour and computed by dividing the total Btu content of fuel used for electric generation by the kilowatt-hours of electricity generated.
21. "Independent monitor" means a company or consultant that is not affiliated with a load-serving entity and that is selected to oversee the conduct of a competitive procurement process under R14-2-706.
22. "Integration" means methods by which energy produced by intermittent resources can be incorporated into the electric grid.
23. "Intermittent resources" means electric power generation for which the energy production varies in response to naturally occurring processes like wind or solar intensity.
24. "Interruptible power" means power made available under an agreement that permits curtailment or cessation of delivery by the supplier.
25. "In-service date" means the date a power supply source becomes available for use by a load-serving entity.
26. "Load-serving entity" means a public service corporation that provides electricity generation service and operates or owns, in whole or in part, a generating facility or facilities with capacity of at least 50 megawatts combined.
27. "Long-term" means having a duration of three or more years.
28. "Maintenance" means the repair of generation, transmission, distribution, administrative, and general facilities; replacement of minor items; and installation of materials to preserve the efficiency and working condition of facilities.
29. "Mothballing" means the temporary removal of a generating unit from active service and accompanying storage activities.
30. "Operate" means to manage or otherwise be responsible for the production of electricity by a generating facility, whether that facility is owned by the operator, in whole or in part, or by another entity.
31. "Participation rate" means the proportion of customers who take part in a specific program.
32. "Probabilistic analysis" means a systematic evaluation of the effect, on costs, reliability, or other measures of performance, of possible events affecting factors that influence performance, considering the likelihood that the events will occur.
33. "Production cost" means the variable operating costs and maintenance costs of producing electricity through generation, including fuel cost, plus the cost of purchases of power sufficient to meet demand.
34. "Refurbish" means to make major changes, more extensive than maintenance or repair, in the power production, transmission, or distribution characteristics of a component of the power supply system, such as by changing the fuels that can be used in a generating unit or changing the capacity of a generating unit.
35. "Reliability" means a measure of the ability of a load-serving entity's generation, transmission, or distribution system to provide power without failures, measured to reflect the portion of time that a system is unable to meet demand or the kilowatt-hours of demand that could not be supplied.
36. "Renewable energy resource" means an energy resource that is replaced rapidly by a natural, ongoing process and that is not nuclear or fossil fuel.
37. "Reserve requirements" means the capacity that a load-serving entity must maintain in excess of its peak load to provide for scheduled maintenance, forced outages, unforeseen loads, emergencies, system operating requirements, and reserve sharing arrangements.
38. "Reserve sharing arrangement" means an agreement between two or more load-serving entities to provide backup capacity.
39. "Resource planning" means integrated supply and demand analyses completed as described in this Article.
40. "RFP" means request for proposals.
41. "Self generation" means the production of electricity by an end user.
42. "Sensitivity analysis" means a systematic assessment of the degree of response of costs, reliability, or other measures of performance to changes in assumptions about factors that influence performance.
43. "Short-term" means having a duration of less than three years.
44. "Spinning reserve" means the capacity a load-serving entity must maintain connected to the system and ready to deliver power promptly in the event of an unexpected loss of generation source, expressed as a percentage of peak load, a percentage of the largest generating unit, or in fixed megawatts.
45. "Staff" means individuals working for the Commission's Utilities Division, whether as employees or through contract.
46. "Third-party independent energy broker" means an entity, such as Prebon Energy or Tradition Financial Services, that facilitates an energy transaction between separate parties without taking title to the transaction.

Corporation Commission - Fixed Utilities

47. "Third-party online trading system" means a computer-based marketplace for commodity exchanges provided by an entity that is not affiliated with the load-serving entity, such as the Intercontinental Exchange, California Independent System Operator, or New York Mercantile Exchange.
48. "Total cost" means all capital, operating, maintenance, fuel, and decommissioning costs, plus the costs associated with mitigating any adverse environmental effects, incurred by end users, load-serving entities, or others, in the provision or conservation of electric energy services.

Historical Note

Adopted effective February 3, 1989 (Supp. 89-1).

Amended by final rulemaking at 16 A.A.R. 2150, effective December 20, 2010 (Supp. 10-4).

R14-2-702. Applicability

- A. This Article applies to each load-serving entity, whether the power generated is for sale to end users or is for resale.
- B. An electricity public service corporation that becomes a load-serving entity by increasing its generating capacity to at least 50 megawatts combined shall provide written notice to the Commission within 30 days after the increase and shall comply with the filing requirements in this Article within two years after the notice is filed.
- C. The Commission may, by Order, exempt a load-serving entity from complying with any provision in this Article, or the Article as a whole, upon determining that:
1. The burden of compliance with the provision, or the Article as a whole, exceeds the potential benefits to customers in the form of cost savings, service reliability, risk reductions, or reduced environmental impacts that would result from the load-serving entity's compliance with the provision or Article; and
 2. The public interest will be served by the exemption.
- D. A load-serving entity that desires an exemption shall submit to Docket Control an application that includes, at a minimum:
1. The reasons why the burden of complying with the Article, or the specific provision in the Article for which exemption is requested, exceeds the potential benefits to customers that would result from the load-serving entity's compliance with the provision or Article;
 2. Data supporting the load-serving entity's assertions as to the burden of compliance and the potential benefits to customers that would result from compliance; and
 3. The reasons why the public interest would be served by the requested exemption.
- E. A load-serving entity shall file with Docket Control, within 120 days after the effective date of these rules, the documents that would have been due on April 1, 2010, under R14-2-703(C), (D), (E), (F), and (H) had the revisions to those subsections been effective at that time.

Historical Note

Adopted effective February 3, 1989 (Supp. 89-1).

Amended by final rulemaking at 16 A.A.R. 2150, effective December 20, 2010 (Supp. 10-4).

R14-2-703. Load-serving Entity Reporting Requirements

- A. A load-serving entity shall, by April 1 of each year, file with Docket Control a compilation of the following items of demand-side data, including for each item for which no record is maintained the load-serving entity's best estimate and a full description of how the estimate was made:
1. Hourly demand for the previous calendar year, disaggregated by:

- a. Sales to end users;
 - b. Sales for resale;
 - c. Energy losses; and
 - d. Other disposition of energy, such as energy furnished without charge and energy used by the load-serving entity;
2. Coincident peak demand (megawatts) and energy consumption (megawatt-hours) by month for the previous 10 years, disaggregated by customer class;
 3. Number of customers by customer class for each of the previous 10 years; and
 4. Reduction in load (kilowatt and kilowatt-hours) in the previous calendar year due to existing demand management measures, by type of demand management measure.
- B. A load-serving entity shall, by April 1 of each year, file with Docket Control a compilation of the following items of supply-side data, including for each item for which no record is maintained the load-serving entity's best estimate and a full description of how the estimate was made:
1. For each generating unit and purchased power contract for the previous calendar year:
 - a. In-service date and book life or contract period;
 - b. Type of generating unit or contract;
 - c. The load-serving entity's share of the generating unit's capacity, or of capacity under the contract, in megawatts;
 - d. Maximum generating unit or contract capacity, by hour, day, or month, if such capacity varies during the year;
 - e. Annual capacity factor (generating units only);
 - f. Average heat rate of generating units and, if available, heat rates at selected output levels;
 - g. Average fuel cost for generating units, in dollars per million Btu for each type of fuel;
 - h. Other variable operating and maintenance costs for generating units, in dollars per megawatt hour;
 - i. Purchased power energy costs for long-term contracts, in dollars per megawatt-hour;
 - j. Fixed operating and maintenance costs of generating units, in dollars per megawatt;
 - k. Demand charges for purchased power;
 - l. Fuel type for each generating unit;
 - m. Minimum capacity at which the generating unit would be run or power must be purchased;
 - n. Whether, under standard operating procedures, the generating unit must be run if it is available to run;
 - o. Description of each generating unit as base load, intermediate, or peaking;
 - p. Environmental impacts, including air emission quantities (in metric tons or pounds) and rates (in quantities per megawatt-hour) for carbon dioxide, nitrogen oxides, sulfur dioxide, mercury, particulates, and other air emissions subject to current or expected future environmental regulation;
 - q. Water consumption quantities and rates; and
 - r. Tons of coal ash produced per generating unit;
 2. For the power supply system for the previous calendar year:
 - a. A description of generating unit commitment procedures;
 - b. Production cost;
 - c. Reserve requirements;
 - d. Spinning reserve;
 - e. Reliability of generating, transmission, and distribution systems;

Corporation Commission - Fixed Utilities

- f. Purchase and sale prices, averaged by month, for the aggregate of all purchases and sales related to short-term contracts; and
 - g. Energy losses;
- 3. The level of self generation in the load-serving entity's service area for the previous calendar year; and
- 4. An explanation of any resource procurement processes used by the load-serving entity during the previous calendar year that did not include use of an RFP, including the exception under which the process was used.
- C. A load-serving entity shall, by April 1 of each even year, file with Docket Control a compilation of the following items of load data and analyses, which may include a reference to the last filing made under this subsection for each item for which there has been no change in forecast since the last filing:
 - 1. Fifteen-year forecast of system coincident peak load (megawatts) and energy consumption (megawatt-hours) by month and year, expressed separately for residential, commercial, industrial, and other customer classes; for interruptible power; for resale; and for energy losses;
 - 2. Disaggregation of the load forecast of subsection (C)(1) into a component in which no additional demand management measures are assumed, and a component assuming the change in load due to additional forecasted demand management measures; and
 - 3. Documentation of all sources of data, analyses, methods, and assumptions used in making the load forecasts, including a description of how the forecasts were benchmarked and justifications for selecting the methods and assumptions used.
- D. A load-serving entity shall, by April 1 of each even year, file with Docket Control the following prospective analyses and plans, which shall compare a wide range of resource options and take into consideration expected duty cycles, cost projections, other analyses required under this Section, environmental impacts, and water consumption and may include a reference to the last filing made under this subsection for each item for which there has been no change since the last filing:
 - 1. A 15-year resource plan, providing for each year:
 - a. Projected data for each of the items listed in subsection (B)(1), for each generating unit and purchased power source, including each generating unit that is expected to be new or refurbished during the period, which shall be designated as new or refurbished, as applicable, for the year of purchase or the period of refurbishment;
 - b. Projected data for each of the items listed in subsection (B)(2), for the power supply system;
 - c. The capital cost, construction time, and construction spending schedule for each generating unit expected to be new or refurbished during the period;
 - d. The escalation levels assumed for each component of cost, such as, but not limited to, operating and maintenance, environmental compliance, system integration, backup capacity, and transmission delivery, for each generating unit and purchased power source;
 - e. If discontinuation, decommissioning, or mothballing of any power source or permanent derating of any generating facility is expected:
 - i. Identification of each power source or generating unit involved;
 - ii. The costs and spending schedule for each discontinuation, decommissioning, mothballing, or derating; and
 - iii. The reasons for each discontinuation, decommissioning, mothballing, or derating;
 - f. The capital costs and operating and maintenance costs of all new or refurbished transmission and distribution facilities expected during the 15-year period;
 - g. An explanation of the need for and purpose of all expected new or refurbished transmission and distribution facilities, which explanation shall incorporate the load-serving entity's most recent transmission plan filed under A.R.S. § 40-360.02(A) and any relevant provisions of the Commission's most recent Biennial Transmission Assessment decision regarding the adequacy of transmission facilities in Arizona; and
 - h. Cost analyses and cost projections, including the cost of compliance with existing and expected environmental regulations;
- 2. Documentation of the data, assumptions, and methods or models used to forecast production costs and power production for the 15-year resource plan, including the method by which the forecast was benchmarked;
- 3. A description of:
 - a. Each potential power source that was rejected;
 - b. The capital costs, operating costs, and maintenance costs of each rejected source; and
 - c. The reasons for rejecting each source;
- 4. A 15-year forecast of self generation by customers of the load-serving entity, in terms of annual peak production (megawatts) and annual energy production (megawatt-hours);
- 5. Disaggregation of the forecast of subsection (D)(4) into two components, one reflecting the self generation projected if no additional efforts are made to encourage self generation, and one reflecting the self generation projected to result from the load-serving entity's institution of additional forecasted self generation measures;
- 6. A 15-year forecast of the annual capital costs and operating and maintenance costs of the self generation identified under subsections (D)(4) and (5);
- 7. Documentation of the analysis of the self generation under subsections (D)(4) through (6);
- 8. A plan that considers using a wide range of resources and promotes fuel and technology diversity within its portfolio;
- 9. A calculation of the benefits of generation using renewable energy resources;
- 10. A plan that factors in the delivered cost of all resource options, including costs associated with environmental compliance, system integration, backup capacity, and transmission delivery;
- 11. Analysis of integration costs for intermittent resources;
- 12. A plan to increase the efficiency of the load-serving entity's generation using fossil fuel;
- 13. Data to support technology choices for supply-side resources;
- 14. A description of the demand management programs or measures included in the 15-year resource plan, including for each demand management program or measure:
 - a. How and when the program or measure will be implemented;
 - b. The projected participation level by customer class for the program or measure;

Corporation Commission - Fixed Utilities

- c. The expected change in peak demand and energy consumption resulting from the program or measure;
 - d. The expected reductions in environmental impacts, including air emissions, solid waste, and water consumption, attributable to the program or measure;
 - e. The expected societal benefits, societal costs, and cost-effectiveness of the program or measure;
 - f. The expected life of the measure; and
 - g. The capital costs, operating costs, and maintenance costs of the measure, and the program costs;
15. For each demand management measure that was considered but rejected:
- a. A description of the measure;
 - b. The estimated change in peak demand and energy consumption from the measure;
 - c. The estimated cost-effectiveness of the measure;
 - d. The capital costs, operating costs, and maintenance costs of the measure, and the program costs; and
 - e. The reasons for rejecting the measure;
16. Analysis of future fuel supplies that are part of the resource plan; and
17. A plan for reducing environmental impacts related to air emissions, solid waste, and other environmental factors, and for reducing water consumption.
- E.** A load-serving entity shall, by April 1 of each even year, file with Docket Control a compilation of the following analyses and plan:
- 1. Analyses to identify and assess errors, risks, and uncertainties in the following, completed using methods such as sensitivity analysis and probabilistic analysis:
 - a. Demand forecasts;
 - b. The costs of demand management measures and power supply;
 - c. The availability of sources of power;
 - d. The costs of compliance with existing and expected environmental regulations;
 - e. Any analysis by the load-serving entity in anticipation of potential new or enhanced environmental regulations;
 - f. Changes in fuel prices and availability;
 - g. Construction costs, capital costs, and operating costs; and
 - h. Other factors the load-serving entity wishes to consider;
 - 2. A description and analysis of available means for managing the errors, risks, and uncertainties identified and analyzed in subsection (E)(1), such as obtaining additional information, limiting risk exposure, using incentives, creating additional options, incorporating flexibility, and participating in regional generation and transmission projects; and
 - 3. A plan to manage the errors, risks, and uncertainties identified and analyzed in subsection (E)(1).
- F.** A load-serving entity shall, by April 1 of each even year, file with Docket Control a 15-year resource plan that:
- 1. Selects a portfolio of resources based upon comprehensive consideration of a wide range of supply- and demand-side options;
 - 2. Will result in the load-serving entity's reliably serving the demand for electric energy services;
 - 3. Will address the adverse environmental impacts of power production;
 - 4. Will include renewable energy resources to meet or exceed the greater of the Annual Renewable Energy Requirement in R14-2-1804 or the following annual percentages of retail kWh sold by the load-serving entity:
- | Calendar Year | Percentage of Retail kWh Sold During Calendar Year |
|---------------|--|
| 2010 | 2.5% |
| 2011 | 3.0% |
| 2012 | 3.5% |
| 2013 | 4.0% |
| 2014 | 4.5% |
| 2015 | 5.0% |
| 2016 | 6.0% |
| 2017 | 7.0% |
| 2018 | 8.0% |
| 2019 | 9.0% |
| 2020 | 10.0% |
| 2021 | 11.0% |
| 2022 | 12.0% |
| 2023 | 13.0% |
| 2024 | 14.0% |
| after 2024 | 15.0% |
5. Will include distributed generation energy resources to meet or exceed the greater of the Distributed Renewable Energy Requirement in R14-2-1805 or the following annual percentages as applied to the load-serving entity's Annual Renewable Energy Requirement:
- | | |
|------------|-----|
| 2007 | 5% |
| 2008 | 10% |
| 2009 | 15% |
| 2010 | 20% |
| 2011 | 25% |
| After 2011 | 30% |
6. Will address energy efficiency so as to meet any requirements set in rule by the Commission or in an order of the Commission;
7. Will effectively manage the uncertainty and risks associated with costs, environmental impacts, load forecasts, and other factors;
8. Will achieve a reasonable long-term total cost, taking into consideration the objectives set forth in subsections (F)(2) through (7) and the uncertainty of future costs; and
9. Contains all of the following:
- a. A complete description and documentation of the plan, including supply and demand conditions, availability of transmission, costs, and discount rates utilized;
 - b. A comprehensive, self-explanatory load and resources table summarizing the plan;
 - c. A brief executive summary;
 - d. An index to indicate where the responses to each filing requirement of these rules can be found; and
 - e. Definitions of the terms used in the plan.
- G.** A load-serving entity shall, by April 1 of each odd year, file with Docket Control a work plan that includes:
- 1. An outline of the contents of the resource plan the load-serving entity is developing to be filed the following year as required under subsection (F);
 - 2. The load-serving entity's method for assessing potential resources;

Corporation Commission - Fixed Utilities

3. The sources of the load-serving entity's current assumptions; and
 4. An outline of the timing and extent of public participation and advisory group meetings the load-serving entity intends to hold before completing and filing the resource plan.
- H.** With its resource plan, a load-serving entity shall include an action plan, based on the results of the resource planning process, that:
1. Includes a summary of actions to be taken on future resource acquisitions;
 2. Includes details on resource types, resources capacity, and resource timing; and
 3. Covers the three-year period following the Commission's acknowledgment of the resource plan.
- I.** A load-serving entity or interested party may provide, for the Commission's consideration, analyses and supporting data pertaining to environmental impacts associated with the generation or delivery of electricity, which may include monetized estimates of environmental impacts that are not included as costs for compliance. Values or factors for compliance costs, environmental impacts, or monetization of environmental impacts may be developed and reviewed by the Commission in other proceedings or stakeholder workshops.
- J.** If a load-serving entity's submission does not contain sufficient information to allow Staff to analyze the submission fully for compliance with this Article, Staff shall request additional information from the load-serving entity, including the data used in the load-serving entity's analyses.
- K.** Staff may request that a load-serving entity complete additional analyses to improve specified components of the load-serving entity's submissions.
- L.** If a load-serving entity believes that a data-reporting requirement may result in disclosure of confidential business data or confidential electricity infrastructure information, the load-serving entity may submit to Staff a request that the data be submitted to Staff under a confidentiality agreement, which request shall include an explanation justifying the confidential treatment of the data.
- M.** Data protected by a confidentiality agreement shall not be submitted to Docket Control and will not be open to public inspection or otherwise made public except upon an order of the Commission entered after written notice to the load-serving entity.

Historical Note

Adopted effective February 3, 1989 (Supp. 89-1).
Amended by final rulemaking at 16 A.A.R. 2150, effective December 20, 2010 (Supp. 10-4).

R14-2-704. Commission Review of Load-serving Entity Resource Plans

- A.** By October 1 of each even year, Staff shall file a report that contains its analysis and conclusions regarding its statewide review and assessments of the load-serving entities' filings made under R14-2-703(C), (D), (E), (F), and (H).
- B.** By February 1 of each odd year, the Commission shall issue an order acknowledging a load-serving entity's resource plan or issue an order stating the reasons for not acknowledging the resource plan. The Commission shall order an acknowledgment of a load-serving entity's resource plan, with or without amendment, if the Commission determines that the resource plan, as amended if applicable, complies with the requirements of this Article and that the load-serving entity's resource plan is reasonable and in the public interest, based on the information available to the Commission at the time and considering the following factors:

1. The total cost of electric energy services;
 2. The degree to which the factors that affect demand, including demand management, have been taken into account;
 3. The degree to which supply alternatives, such as self generation, have been taken into account;
 4. Uncertainty in demand and supply analyses, forecasts, and plans, and whether plans are sufficiently flexible to enable the load-serving entity to respond to unforeseen changes in supply and demand factors;
 5. The reliability of power supplies, including fuel diversity and non-cost considerations;
 6. The reliability of the transmission grid;
 7. The environmental impacts of resource choices and alternatives;
 8. The degree to which the load-serving entity considered all relevant resources, risks, and uncertainties;
 9. The degree to which the load-serving entity's plan for future resources is in the best interest of its customers;
 10. The best combination of expected costs and associated risks for the load-serving entity and its customers; and
 11. The degree to which the load-serving entity's resource plan allows for coordinated efforts with other load-serving entities.
- C.** The Commission may hold a hearing or workshop regarding a load-serving entity's resource plan. If the Commission holds such a hearing or workshop, the Commission may extend the February 1 deadline for the Commission to issue an order regarding acknowledgment under subsection (B).
- D.** While no particular future ratemaking treatment is implied by or shall be inferred from the Commission's acknowledgment, the Commission shall consider a load-serving entity's filings made under R14-2-703 when the Commission evaluates the performance of the load-serving entity in subsequent rate cases and other proceedings.
- E.** A load-serving entity may seek Commission approval of specific resource planning actions.
- F.** A load-serving entity may file an amendment to an acknowledged resource plan if changes in conditions or assumptions necessitate a material change in the load-serving entity's plan before the next resource plan is due to be filed.

Historical Note

Adopted effective February 3, 1989 (Supp. 89-1).
Amended by final rulemaking at 16 A.A.R. 2150, effective December 20, 2010 (Supp. 10-4).

R14-2-705. Procurement

- A.** Except as provided in subsection (B), a load-serving entity may use the following procurement methods for the wholesale acquisition of energy, capacity, and physical power hedge transactions:
1. Purchase through a third-party online trading system;
 2. Purchase from a third-party independent energy broker;
 3. Purchase from a non-affiliated entity through auction or an RFP process;
 4. Bilateral contract with a non-affiliated entity;
 5. Bilateral contract with an affiliated entity, provided that non-affiliated entities were provided notice and an opportunity to compete against the affiliated entity's proposal before the transaction was executed; and
 6. Any other competitive procurement process approved by the Commission.
- B.** A load-serving entity shall use an RFP process as its primary acquisition process for the wholesale acquisition of energy and capacity, unless one of the following exceptions applies:
1. The load-serving entity is experiencing an emergency;

Corporation Commission - Fixed Utilities

2. The load-serving entity needs to make a short-term acquisition to maintain system reliability;
 3. The load-serving entity needs to acquire other components of energy procurement, such as fuel, fuel transportation, and transmission projects;
 4. The load-serving entity's planning horizon is two years or less;
 5. The transaction presents the load-serving entity a genuine, unanticipated opportunity to acquire a power supply resource at a clear and significant discount, compared to the cost of acquiring new generating facilities, and will provide unique value to the load-serving entity's customers;
 6. The transaction is necessary for the load-serving entity to satisfy an obligation under the Renewable Energy Standard rules; or
 7. The transaction is necessary for the load-serving entity's demand-side management or demand response programs.
- C. A load-serving entity shall engage an independent monitor to oversee all RFP processes for procurement of new resources.

Historical Note

New Section made by final rulemaking at 16 A.A.R. 2150, effective December 20, 2010 (Supp. 10-4).

R14-2-706. Independent Monitor Selection and Responsibilities

- A. When a load-serving entity contemplates engaging in an RFP process, the load-serving entity shall consult with Staff regarding the identity of companies or consultants that could serve as independent monitor for the RFP process.
- B. After consulting with Staff, a load-serving entity shall create a vendor list of three to five candidates to serve as independent monitor and shall file the vendor list with Docket Control to allow interested persons time to review and file objections to the vendor list.
- C. An interested person shall file with Docket Control, within 30 days after a vendor list is filed with Docket Control, any objection that the interested person may have to a candidate's inclusion on a vendor list.
- D. Within 60 days after a vendor list is filed with Docket Control, Staff shall issue a notice identifying each candidate on the vendor list that Staff has determined to be qualified to serve as independent monitor for the contemplated RFP process. In making its determination, Staff shall consider the experience of the candidates, the professional reputation of the candidates, and any objections filed by interested persons.
- E. A load-serving entity that has completed the actions required by subsections (A) and (B) to comply with a particular Commission Decision is deemed to have complied with subsections (A) and (B) and is not required to repeat those actions.
- F. A load-serving entity may retain as independent monitor for the contemplated RFP process and for its future RFP processes any of the candidates identified in Staff's notice.
- G. A load-serving entity shall file with Docket Control a written notice of its retention of an independent monitor.
- H. A load-serving entity is responsible for paying the independent monitor for its services and may charge a reasonable bidder's fee to each bidder in the RFP process to help offset the cost of the independent monitor's services. A load-serving entity may request recovery of the cost of the independent monitor's services, to the extent that the cost is not offset by bidder's fees, in a subsequent rate case. The Commission shall use its discre-

tion in determining whether to allow the cost to be recovered through customer rates.

- I. One week prior to the deadline for submitting bids, a load-serving entity shall provide the independent monitor a copy of any bid proposal prepared by the load-serving entity or entity affiliated with the load-serving entity and of any benchmark or reference cost the load-serving entity has developed for use in evaluating bids. The independent monitor shall take steps to secure the load-serving entity's bid proposal and any benchmark or reference cost so that they are inaccessible to any bidder, the load-serving entity, and any entity affiliated with the load-serving entity.
- J. Upon Staff's request, the independent monitor shall provide status reports to Staff throughout the RFP process.

Historical Note

New Section made by final rulemaking at 16 A.A.R. 2150, effective December 20, 2010 (Supp. 10-4).

ARTICLE 8. PUBLIC UTILITY HOLDING COMPANIES AND AFFILIATED INTERESTS**R14-2-801. Definitions**

In this Article, unless the context otherwise requires:

1. "Affiliate," with respect to the public utility, shall mean any other entity directly or indirectly controlling or controlled by, or under direct or indirect common control with, the public utility. For purposes of this definition, the term "control" (including the correlative meanings of the terms "controlled by" and "under common control with"), as used with respect to any entity, shall mean the power to direct the management policies of such entity, whether through ownership of voting securities, or by contract, or otherwise.
2. "Commission." The Arizona Corporation Commission.
3. "Entity." A corporation, partnership, limited partnership, joint venture, trust, estate, or natural person.
4. "Holding Company" or "Public Utility Holding Company." Any affiliate that controls a public utility.
5. "Reorganize" or "Reorganization." The acquisition or divestiture of a financial interest in an affiliate or a utility, or reconfiguration of an existing affiliate or utility's position in the corporate structure or the merger or consolidation of an affiliate or a utility.
6. "Subsidiary." Any affiliate controlled by a utility.
7. "System of Accounts." The accounting system or systems prescribed for utilities by the Commission.
8. "Utility" or "Public Utility." Any Class A investor-owned public service corporation subject to the jurisdiction of the Arizona Corporation Commission.

Historical Note

Adopted effective July 30, 1992 (Supp. 92-3).

R14-2-802. Applicability

- A. These rules are applicable to all Class A investor-owned utilities under the jurisdiction of the Commission and are applicable to all transactions entered into after the effective date of these rules.
- B. Notwithstanding subsection (A), these rules shall not apply to a telecommunications utility whose retail telecommunications services have been classified as competitive pursuant to 14 A.A.C. 2, Article 11, except as may otherwise be determined by a future Commission order.
- C. Information furnished to the Commission in compliance with these rules will not be open to public inspection, or made pub-

Corporation Commission - Fixed Utilities

lic, except on order of the Commission, or by the Commission, or a Commissioner in the course of a hearing or proceeding.

Historical Note

Adopted effective July 30, 1992 (Supp. 92-3). Amended by final rulemaking at 22 A.A.R. 1949, effective July 14, 2016 (Supp. 16-3).

R14-2-803. Organization of Public Utility Holding Companies

- A.** Any utility or affiliate intending to organize a public utility holding company or reorganize an existing public utility holding company will notify the Commission's Utilities Division in writing at least 120 days prior thereto. The notice of intent will include the following information:
1. The names and business addresses of the proposed officers and directors of the holding company;
 2. The business purposes for establishing or reorganizing the holding company;
 3. The proposed method of financing the holding company and the resultant capital structure;
 4. The resultant effect on the capital structure of the public utility;
 5. An organization chart of the holding company that identifies all affiliates and their relationships within the holding company;
 6. The proposed method for allocating federal and state income taxes to the subsidiaries of the holding company;
 7. The anticipated changes in the utility's cost of service and the cost of capital attributable to the reorganization;
 8. A description of diversification plans of affiliates of the holding company; and
 9. Copies of all relevant documents and filings with the United States Securities and Exchange Commission and other federal or state agencies.
 10. The contemplated annual and cumulative investment in each affiliate for the next five years, in dollars and as a percentage of projected net utility plant, and an explanation of the reasons supporting the level of investment and the reasons this level will not increase the risks of investment in the public utility.
 11. An explanation of the manner in which the utility can assure that adequate capital will be available for the construction of necessary new utility plant and for improvements in existing utility plant at no greater cost than if the utility or its affiliate did not organize or reorganize a public utility holding company.
- B.** The Commission staff will, within 30 days after receipt of the notice of intent, notify the Applicant of any questions which it has concerning the notice or supporting information. The Commission will, within 60 days from the receipt of the notice of intent, determine whether to hold a hearing on the matter or approve the organization or reorganization without a hearing.
- C.** At the conclusion of any hearing on the organization or reorganization of a utility holding company, the Commission may reject the proposal if it determines that it would impair the financial status of the public utility, otherwise prevent it from attracting capital at fair and reasonable terms, or impair the ability of the public utility to provide safe, reasonable and adequate service.

Historical Note

Adopted effective July 30, 1992 (Supp. 92-3).

R14-2-804. Commission Review of Transactions Between Public Utilities and Affiliates

- A.** A utility will not transact business with an affiliate unless the affiliate agrees to provide the Commission access to the books

and records of the affiliate to the degree required to fully audit, examine or otherwise investigate transactions between the public utility and the affiliate. In connection therewith, the Commission may require production of books, records, accounts, memoranda and other documents related to these transactions.

- B.** A utility will not consummate the following transactions without prior approval by the Commission:
1. Obtain a financial interest in any affiliate not regulated by the Commission, or guarantee, or assume the liabilities of such affiliate;
 2. Lend to any affiliate not regulated by the Commission, with the exception of short-term loans for a period less than 12 months in an amount less than \$100,000; or
 3. Use utility funds to form a subsidiary or divest itself of any established subsidiary.
- C.** The Commission will review the transactions set forth in subsection (B) above to determine if the transactions would impair the financial status of the public utility, otherwise prevent it from attracting capital at fair and reasonable terms, or impair the ability of the public utility to provide safe, reasonable and adequate service.
- D.** Every transaction in violation of subsection (A) or (B) above is void, and the transaction shall not be made on the books of any public service corporation.
- E.** The system of accounts used by the public utility will include the necessary accounting records needed to record and compile transactions with each affiliate.

Historical Note

Adopted effective July 30, 1992 (Supp. 92-3).

R14-2-805. Annual Filing Requirements of Diversification Activities and Plans

- A.** On or before April 15th of each calendar year, all public utilities meeting the requirements of R14-2-802 and public utility holding companies will provide the Commission with a description of diversification plans for the current calendar year that have been approved by the Boards of Directors. As part of these filings, each public utility meeting the requirements of R14-2-802 will provide the Commission the following information:
1. The name, home office location and description of the public utility's affiliates with whom transactions occur, their relationship to each other and the public utility, and the general nature of their business;
 2. A brief description of the business activities conducted by the utility's affiliates with whom transactions occurred during the prior year, including any new activities not previously reported;
 3. A description of plans for the utility's subsidiaries to modify or change business activities, enter into new business ventures or to acquire, merge or otherwise establish a new business entity;
 4. Copies of the most recent financial statements for each of the utility's subsidiaries;
 5. An assessment of the effect of current and planned affiliated activities on the public utility's capital structure and the public utility's ability to attract capital at fair and reasonable rates;
 6. The bases upon which the public utility holding company allocates plant, revenue and expenses to affiliates and the amounts involved; an explanation of the derivation of the factors; the reasons supporting that methodology and the reasons supporting the allocation;
 7. An explanation of the manner in which the utility's capital structure, cost of capital and ability to raise capital at

reasonable rates have been affected by the organization or reorganization of the public utility holding company;

8. The dollar amount transferred between the utility and each affiliate during the annual period, and the purpose of each transfer;
 9. Contracts or agreements to receive, or provide management, engineering, accounting, legal, financial or other similar services between a public utility and an affiliate;
 10. Contracts or agreements to purchase or sell goods or real property between a public utility and an affiliate; and
 11. Contracts or agreements to lease goods or real property between a public utility and an affiliate.
- B. After reviewing the diversification plans, the Commission may, within 90 days after plans have been provided, request additional information, or order a hearing, or both, should it conclude after its review that the business activities would impair the financial status of the public utility, otherwise prevent it from attracting capital at fair and reasonable terms, or impair the ability of the public utility to provide safe, reasonable and adequate service.

Historical Note

Adopted effective July 30, 1992 (Supp. 92-3).

R14-2-806. Waiver from the Provisions of this Article

- A. The Commission may waive compliance with any of the provisions of this Article upon a finding that such waiver is in the public interest.
- B. Any affected entity may petition the Commission for a waiver by filing a verified application for waiver setting forth with specificity the circumstances whereby the public interest justifies noncompliance with all or part of the provisions of this Article.
- C. If the Commission fails to approve, disapprove, or suspend for further consideration an application for waiver within 30 days following filing of a verified application for waiver, the waiver shall become effective on the 31st day following filing of the application.

Historical Note

Adopted effective July 30, 1992 (Supp. 92-3).

ARTICLE 9. CUSTOMER-OWNED PAY TELEPHONES

R14-2-901. Definitions

In this Article, unless the context otherwise requires:

1. "Affiliate" means any other entity directly or indirectly controlling or controlled by, or under direct or indirect common control with, a customer of record. For purposes of this subsection, the term "control, (including the correlative meanings of the terms "controlled by" and "under common control with"), as used with respect to any entity, means the power to direct the management policies of such entity, whether through the ownership of voting securities, by contract, or otherwise.
2. "Customer of record" means a premises owner or vendor, who has either applied to, or who has obtained from, an LEC an access line to be a COPT provider.
3. "Customer-owned pay telephone (COPT) provider" means an entity authorized by the Commission to provide public pay telephone service to end-users and which is not a certificated LEC on the effective date of this Article. For purposes of compliance with Article 5 of this Chapter, "COPT provider" does not mean a "utility" as defined in R14-2-501(24).
4. "'800' service" means calls to telephone numbers which normally can be reached without charge to the calling party by dialing 1-800 plus 7 digits.
5. "Entity" means a corporation, partnership, limited partnership, joint venture, trust, estate, or natural person.
6. "Local exchange company (LEC)" means a company which is certificated to operate the local public switched telecommunications network.
7. "Public access line (PAL)" means any LEC tariff under which COPT providers are authorized to obtain access to the local and interexchange telecommunications network.

Historical Note

Adopted effective September 16, 1992 (Supp. 92-3).

Editor's Note: The following Section was amended under an exemption from the Attorney General approval provisions of the Arizona Administrative Procedure Act (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)), as determined by the Corporation Commission. This exemption means that the rules as amended were not approved by the Attorney General.

R14-2-902. Application for Certificate of Convenience and Necessity

- A. Within 30 days of the effective date of this Article, all LEC's shall provide written notification of the requirements of this Article to each of their existing customers of record. Such notification shall be in a form acceptable to the Commission and shall explain that all customers of record are required to file either an application for a certificate of convenience and necessity (CC&N) pursuant to this Section or an application for an adjudication not a public service corporation pursuant to R14-2-904.
- B. Any customer of record requesting PAL service subsequent to the effective date of this Article who was not subject to the provisions of subsections (A) and (E) of this Section, or whose PAL service was terminated pursuant to the provisions of this Article, shall provide to the LEC proof of either:
 1. A CC&N granted pursuant to this Section; or
 2. An adjudication order declaring that it is not a public service corporation pursuant to R14-2-904.
- C. All customers of record shall submit to the Commission an original and 10 copies of an application for a CC&N. A customer of record who has COPT's placed in more than one location may apply for a single CC&N to cover all locations served.
- D. Each customer of record shall submit an application on a form provided by the Commission which includes all of the following information:
 1. The name and address of the customer of record, including a contact person for coordinating communications with the Commission and a contact person or telephone number for maintenance and complaint handling. If the customer of record is other than an individual, a listing of the officers, directors, or partners and a copy of the articles of incorporation, partnership agreement, or other organizational document shall be provided.
 2. A description of all affiliated relationships between the customer of record and any public service corporation or telecommunications company.
 3. The addresses and descriptions of locations to be served, including the name of the serving LEC.
 4. A description of the equipment being used to provide service.
 5. A list of services provided and the proposed rates.
 6. An example of the contract between the customer of record and the premises owner, if different.
 7. A description of how information posting and complaint handling requirements will be met.

Corporation Commission - Fixed Utilities

8. A customer of record planning to serve more than 50 locations shall submit relevant financial data, including current financial statements, the method of financing operations, and projected annual operating expenses. For purposes of this subsection, the number of service locations shall include all those of the customer of record and affiliates.
9. One of the following also shall be included:
 - a. A commitment to provide service under the Generic (Streamlined) COPT Tariff; or
 - b. A request for approval of services under a Special (Non- Streamlined) COPT Tariff.
- E. Time-frames for processing applications for Certificates of Convenience and Necessity
 1. This rule prescribes time-frames for the processing of any application for a Certificate of Convenience and Necessity issued by the Arizona Corporation Commission pursuant to this Article. These time-frames shall apply to applications filed on or after the effective date of this rule.
 2. Within 30 calendar days after receipt of an application for a new Certificate of Convenience and Necessity, or to amend or change the status of any existing Certificate of Convenience and Necessity, staff shall notify the applicant, in writing, that the application is either administratively complete or deficient. If the application is deficient, the notice shall specify all deficiencies.
 3. Staff may terminate an application if the applicant does not remedy all deficiencies within 60 calendar days of the notice of deficiency.
 4. After receipt of a corrected application, staff shall notify the applicant within 30 calendar days if the corrected application is either administratively complete or deficient. The time-frame for administrative completeness review shall be suspended from the time the notice of deficiency is issued until staff determines that the application is complete.
 5. Within 150 days after an application is deemed administratively complete, the Commission shall approve or reject the application, unless a formal hearing is held.
 6. For purposes of A.R.S. § 41-1072 et seq., the Commission has established the following time-frames:
 - a. Administrative completeness review time-frame: 30 calendar days,
 - b. Substantive review time-frame: 150 calendar days,
 - c. Overall time-frame: 180 calendar days.
 7. If an applicant requests, and is granted, an extension or continuance, the appropriate time-frames shall be tolled from the date of the request during the duration of the extension or continuance.
 8. During the substantive review time-frame, the Commission may, upon its own motion or that of any interested party to the proceeding, request a suspension of the time-frame rules.
- F. Subsequent to adoption of this Article, the Commission shall issue an order setting time limitations within which LECs, as well as all customers of record providing service as of the effective date of this Article, shall comply with the requirements contained herein.

Historical Note

Adopted effective September 16, 1992 (Supp. 92-3).
Amended effective December 31, 1998, under an exemption as determined by the Arizona Corporation Commission (Supp. 98-4).

R14-2-903. Grant of Certificate of Convenience and Necessity**sity**

- A. The Commission shall analyze an application for a CC&N to determine if it is complete and correct. If necessary, the Commission may request additional information from the CC&N applicant.
- B. The Commission shall hold a hearing to review an application for a CC&N. The type of hearing held shall depend on the tariff requested by the CC&N applicant:
 1. The Commission may hold periodic consolidated hearings to review all applications which request the Generic (Streamlined) COPT Tariff described in R14-2-905.
 2. The Commission shall hold individual hearings to review applications which request a Special (Non-Streamlined) COPT Tariff as described in R14-2-906.
- C. The Commission shall notify in writing the CC&N applicant and the appropriate LEC of the Commission's determination made pursuant to this Section. A CC&N granted under this Section shall be issued in the name of the customer of record.
- D. All CC&N's granted under this Section shall include both of the following:
 1. An obligation to serve all users in a non-discriminatory manner, and
 2. An obligation to comply with all Commission requirements relevant to the provision of intraLATA service.
- E. A holder of a CC&N shall notify the Commission in writing prior to discontinuing or abandoning COPT service at any location.

Historical Note

Adopted effective September 16, 1992 (Supp. 92-3).

R14-2-904. Application for Adjudication not a Public Service Corporation

- A. Any entity intending to provide COPT service, or any customer of record, may submit to the Commission an original and 10 copies of an application to be adjudicated not a public service corporation.
- B. The Commission shall determine whether the adjudication applicant is a public service corporation by examining all of the following factors:
 1. What business activities the adjudication applicant conducts or will conduct.
 2. Whether the pay telephone service is or will be dedicated to public use.
 3. Whether the adjudication applicant accepts or will accept substantially all requests for service.
 4. Whether the adjudication applicant is or will be the sole offeror of pay telephone service in the area, or is in competition with other providers.
 5. Whether the public safety and convenience requires maintenance of public telephone facilities at the locations designated in the application.
- C. The Commission shall notify in writing the adjudication applicant and the appropriate LEC of the Commission's determination made pursuant to subsection (B) of this Section. Such notification shall be made within 180 days of receipt of an application submitted pursuant to subsection (A) of this Section.
- D. An adjudication applicant adjudicated a public service corporation under the provisions of this Section shall submit an application for a certificate of convenience and necessity pursuant to R14-2-902 within 30 days of receiving notice of the Commission's determination.

- E. An adjudication applicant adjudicated not a public service corporation under this Section shall be exempt from the requirements contained in this Article.

Historical Note

Adopted effective September 16, 1992 (Supp. 92-3).

R14-2-905. Generic (Streamlined) COPT Tariff

- A. All COPT providers holding CC&N's granted under this Article shall comply with the terms of the Generic (Streamlined) COPT Tariff, unless otherwise ordered by the Commission pursuant to R14-2-906.
- B. In the Generic (Streamlined) COPT Tariff, the Commission shall specify the rates, terms, and conditions associated with the following standards:
1. The rates and charges to end-users for local calling.
 2. The rates and charges to end-users for intrastate toll calling.
 3. The application of toll charges, if any, for use of "800" services.
 4. The accessibility by end-users of alternative toll carriers.
 5. Limitations on service to local calling and access to local operators.
 6. Instructions on how to make a call and how to obtain refunds.
 7. Duration of local calls before additional charges apply.
 8. The provision of emergency service and local directory assistance.
 9. Acceptable methods of payment by end-users.
 10. Design and technical specifications for instruments.
 11. The provision of operator services.
 12. Procedures for obtaining approval for provision of services not included in the tariff.
 13. The termination of PAL service at any location for violation of tariff provisions.
- C. The Commission may approve and revise the Generic (Streamlined) COPT Tariff as necessary.

Historical Note

Adopted effective September 16, 1992 (Supp. 92-3).

R14-2-906. Special (Non-Streamlined) COPT Tariff

- A. Instead of concurring with the Generic (Streamlined) COPT Tariff, a COPT provider may file a proposed Special (Non-Streamlined) COPT Tariff with an application for a CC&N submitted pursuant to R14-2-902.
- B. The Commission shall analyze each proposed Special (Non-Streamlined) COPT Tariff on an individual basis. In reviewing the proposed Special (Non-Streamlined) COPT Tariff, the Commission shall consider the standards listed in R14-2-905(B).
- C. While a proposed Special (Non-Streamlined) COPT Tariff is pending before the Commission, the COPT provider shall comply with the provisions of the Generic (Streamlined) COPT Tariff.
- D. Following a hearing, the Commission may approve, modify, or reject any proposed Special (Non-Streamlined) COPT Tariff.
- E. Changes may be made to a Special (Non-Streamlined) COPT Tariff as a result of a tariff filing made pursuant to A.R.S. § 40-250(B) or an individual rate proceeding.

Historical Note

Adopted effective September 16, 1992 (Supp. 92-3).

R14-2-907. Reporting Requirements and Safety Standards

- A. All COPT providers shall submit an annual report to the Commission on a form prescribed by the Commission. The annual report shall be filed on or before the first day of February for

the preceding calendar year. The annual report shall include all of the following information:

1. A description of any material changes in the information provided by the COPT provider in the original CC&N application or in the last annual report.
 2. An updated list of all locations served by the COPT provider.
 3. The COPT provider's gross operating revenues derived from intrastate operations during the preceding calendar year.
- B. A COPT provider having gross operating revenues derived from intrastate operations during the preceding calendar year which exceed \$250,000 shall be subject to the annual assessment described in A.R.S. § 40-401.

Historical Note

Adopted effective September 16, 1992 (Supp. 92-3).

R14-2-908. Violations

- A. The Commission may order a LEC to immediately terminate PAL service to any customer of record which:
1. Fails to do one of the following:
 - a. Obtain a CC&N to provide service pursuant to R14-2-902 and R14-2-903; or
 - b. Receive an adjudication that it is not a public service corporation pursuant to R14-2-904.
 2. Violates any applicable pricing or service standard as described in approved tariffs and R14-2-903, R14-2-905, and R14-2-906.
- B. A LEC shall not offer PAL service to a customer of record unless one of the following requirements has been met:
1. The customer of record has received a CC&N from the Commission; or
 2. The customer of record has been adjudicated not a public service corporation.
- C. A LEC in violation of subsection (B) of this Section shall be subject to the penalty provisions contained in A.R.S. §§ 40-421 to 40-433.
- D. Any COPT provider found by the Commission to be in violation of subsection (A)(2) of this Section shall be subject to revocation of its CC&N.

Historical Note

Adopted effective September 16, 1992 (Supp. 92-3).

R14-2-909. Variations or Exemptions from the Commission's Rules

Variations or exemptions from the terms and requirements of any of the rules included in this Article shall be considered upon the verified application of an affected party to the Commission setting forth the circumstances whereby the public interest requires such variation or exemption from the Commission's rules. Such application will be subject to the review of the Commission, and any variation or exemption granted shall require an order of the Commission. In case of conflict between these rules and an approved tariff or order of the Commission, the provisions of the tariff or order shall apply.

Historical Note

Adopted effective September 16, 1992 (Supp. 92-3).

ARTICLE 10. ALTERNATIVE OPERATOR SERVICES

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General certification provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1001. Definitions

Corporation Commission - Fixed Utilities

In this Article, unless the context otherwise requires:

1. "Access code" means a sequence of numbers that, when dialed, connects a caller to the provider of operator services associated with that sequence of numbers.
2. "Affiliate" means any other entity directly or indirectly controlling or controlled by, or under direct or indirect common control with, the entity making alternative operator services available to the public. For purposes of this definition, the term "control" (including the correlative meanings of the terms "controlled by" and "under common control with"), as used with respect to any entity, means the power to direct the management policies of such entity, whether through the ownership of voting securities, by contract, or otherwise.
3. "Aggregator" or "Traffic Aggregator" means any person or entity that, in the ordinary course of its operations and using a provider of operator services, makes telephones available to the public or to transient users of its premises, for intrastate telephone calls. Each entity that exercises control over telephone equipment, whether through ownership of the equipment, control of access to the equipment, or some other means, will be responsible as an aggregator.
4. "Alternative Operator Services" or "AOS" means provision by an entity, other than a local exchange carrier or a certificated interexchange carrier with authorized operator service tariffs, of any telecommunications service initiated from an aggregator location where automated and/or live assistance is provided to a consumer in order to arrange for billing or completion of an intrastate telephone call. Store and forward payphones are not included within this definition.
5. "AOS Provider" means any public service corporation that provides alternative operator services.
6. "Billing Agency" means any third party authorized by the AOS provider to submit bills to end users and to handle billing disputes.
7. "Blocking" means the process of screening the calls dialed from the presubscribed telephone in order to prevent the completion of calls that would allow the caller to reach a preferred interexchange carrier.
8. "Call splashing" means the transfer of a telephone call from one provider of operator services to another such provider in such a manner that the subsequent provider is unable or unwilling to determine the originating location of the call and consequently bills the call without properly reflecting the originating and terminating points of the telephone call.
9. "Consumer," "Caller," or "End User" means a person initiating any intrastate telephone call by means of alternative operator services.
10. "Entity" means a corporation, partnership, limited partnership, joint venture, trust, estate, or natural person.
11. "Interexchange carriers" or "IXCs" means any long-distance telephone carriers authorized by the Commission to provide long distance, interLATA telecommunications service, but not local exchange services, within the state borders.
12. "IntraLATA long-distance service" means all long-distance service originating and terminating in the same LATA, as defined by the F.C.C.
13. "LATA" means one of the geographic local access and transport areas established as a result of the AT&T divestiture.
14. "Local exchange carriers" or "LECs" means telephone companies currently certified to provide local telephone service in designated areas of the state.
15. "Operator Service Charges" or "charges" means all tariffed charges, other than rate usage charges, and surcharges authorized by the Commission and charged to the end user for live or automated operator-assisted calls.
16. "Rate" means any usage charges, as approved by this Commission.
17. "Surcharge" or "Location-specific Surcharge" means a charge imposed by an aggregator upon an end user and paid in addition to the usage rates and operator service charges of the alternative operator services provider.
18. "Waiver" refers to the Commission's ability to dispense with a requirement under these rules.
19. "Zero-minus call" means a call that is made by dialing a single zero.

Historical Note

Adopted effective November 2, 1993, under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 93-4).

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General certification provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1002. Application for Certificate of Convenience and Necessity

- A. Upon the effective date of this Article, all LECs shall provide written notification of the requirements of this Article to all AOS providers for which they provide billing service. Such notification shall be in a form acceptable to the Commission and shall explain that all AOS providers are required to file an application for a certificate of convenience and necessity (CC&N) pursuant to this Section.
- B. Any AOS provider requesting billing services subsequent to the effective date of this Article shall provide to the LEC proof that it has made application for or has received a CC&N granted pursuant to this Section.
- C. All AOS providers shall submit to the Commission an original and the number of copies required by the Commission of an application for a CC&N.
- D. Each AOS applicant shall submit an application which includes all of the following information:
 1. The name and address of the AOS provider, including a contact person responsible for maintenance and complaint handling. If the AOS provider is other than an individual, a listing of the officers, directors, or partners and a copy of the articles of incorporation, partnership agreement, or other organizational document shall be provided.
 2. An organizational chart which shows all affiliated relationships of the AOS provider.
 3. The addresses and descriptions of locations to be served, including the name of the serving LEC. Applicant may apply for a partial waiver of this rule pursuant to R14-2-1014 requesting that all or part of this information be held confidential by the Commission.
 4. A description of the equipment being used to provide service, including the Federal Communications Commission registration number.
 5. A list of services provided and the proposed rates, operator service charges, and surcharges.
 6. A description of how information posting and complaint-handling requirements will be met.

Corporation Commission - Fixed Utilities

7. Relevant financial data, including current financial statements, the method of financing operations, and projected annual operating expense.
 8. Any other requirements that the Commission may require.
- E. Time-frames for processing applications for Certificates of Convenience and Necessity**
1. This rule prescribes time-frames for the processing of any Application for a Certificate of Convenience and Necessity issued by the Arizona Corporation Commission pursuant to this Article. These time-frames shall apply to applications filed on or after the effective date of this rule.
 2. Within 365 calendar days after receipt of an application for a new Certificate of Convenience and Necessity, or to amend or change the status of any existing Certificate of Convenience and Necessity, staff shall notify the applicant, in writing, that the application is either administratively complete or deficient. If the application is deficient, the notice shall specify all deficiencies.
 3. Staff may terminate an application if the applicant does not remedy all deficiencies within 60 calendar days of the notice of deficiency.
 4. After receipt of a corrected application, staff shall notify the applicant within 30 calendar days if the corrected application is either administratively complete or deficient. The time-frame for administrative completeness review shall be suspended from the time the notice of deficiency is issued until staff determines that the application is complete.
 5. Within 365 calendar days after an application is deemed administratively complete, the Commission shall approve or reject the application.
 6. For purposes of A.R.S. § 41-1072 et seq., the Commission has established the following time-frames:
 - a. Administrative completeness review time-frame: 365 calendar days,
 - b. Substantive review time-frame: 365 calendar days,
 - c. Overall time-frame: 730 calendar days.
 7. If an applicant requests, and is granted, an extension or continuance, the appropriate time-frames shall be tolled from the date of the request during the duration of the extension or continuance.
 8. During the substantive review time-frame, the Commission may, upon its own motion or that of any interested party to the proceeding, request a suspension of the time-frame rules.
- B.** The Commission shall hold a hearing to determine whether it is in the public interest to grant a CC&N to the applicant.
- C.** The Commission shall notify in writing the CC&N applicant and the appropriate LECs of the Commission's determination made pursuant to this Section. A CC&N granted under this Section shall be issued in the name of the AOS provider.
- D.** All CC&Ns granted under this Section shall include both of the following:
1. An obligation to serve all end-users and subscribers in a nondiscriminatory manner, and
 2. An obligation to comply with all Commission requirements relevant to the provision of telecommunications service.

Historical Note

Adopted effective November 2, 1993, under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 93-4).

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General certification provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1004. Rates, Operator Service Charges, and Surcharges

The rates, operator service charges, and surcharges assessed by AOS providers to their end-users of AOS service shall be limited to those specified in Commission-approved tariffs. All rates, operator service charges, and surcharges shall be stated in the tariffs. Location-specific surcharges imposed by the aggregator may only be charged once, either on the AOS bill or at the aggregator location, but under no circumstances shall a location-specific surcharge be imposed both on the bill and at the aggregator location.

Historical Note

Adopted effective November 2, 1993, under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 93-4).

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General certification provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1005. End-user Notification and Choice Requirements

- A.** Each AOS provider shall:
1. Identify itself with a live or automated message at the outpulse of the terminating number which informs the end-user that a named AOS provider has been reached and that such provider's rates, operator service charges, and surcharges apply to the call. This message shall be provided before the end-user incurs any charge for the call, including a usage rate, operator service charge, and surcharge.
 2. Disclose immediately to the consumer, upon request and at no charge to the consumer, any of the following information:
 - a. A quotation of tariffed rates, operator service charges, and location-specific surcharges;
 - b. The methods by which such rates, operator service charges, and surcharges will be collected;
 - c. The methods by which complaints concerning such rates, operator service charges, and surcharges or collection practices will be resolved; and

Historical Note

Adopted effective November 2, 1993, under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 93-4). Amended effective December 31, 1998, under an exemption as determined by the Arizona Corporation Commission (Supp. 98-4).

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General certification provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1003. Grant of Certificate of Convenience and Necessity

- A.** The Commission shall analyze an application for a certificate of convenience and necessity ("CC&N") to determine if it is complete and correct. If necessary, the Commission may request additional information from the CC&N applicant.

Corporation Commission - Fixed Utilities

- d. That the end-user's preferred carrier can be reached by an access code or toll-free customer service number.
- B. The contents and methods of posting shall be described in each AOS provider's tariff. At a minimum, each aggregator shall post all of the following information, through the use of tent cards or stickers on or near the telephone instrument, in plain view of the end-user:
 1. The name, address, and toll-free telephone number of the AOS provider;
 2. A written disclosure that the rates, operator service charges, and location-specific surcharges of the AOS provider apply for all operator-assisted calls;
 3. A statement that interLATA calls made with calling cards, including IXC cards, may be carried by the AOS provider;
 4. Dialing instructions;
 5. A toll-free number for billing inquiries;
 6. A description of complaint procedures; and
 7. That end-users have a right to obtain access to the inter-exchange carrier of their choice.
- C. Each AOS provider shall ensure, by contract or tariff, that each aggregator using the AOS provider's services is in compliance with the requirements of subsection (B) of this Section.
- D. Neither the AOS provider nor the subscriber shall require or participate in blocking any end-user's access to a preferred carrier. AOS providers and their affiliates shall be required to withhold on a location-specific basis, the payment of any compensation, including commissions, to an aggregator that is blocking end-users' access to preferred carriers.
- E. Waivers from the blocking ban will be considered only if accompanied by a detailed cost/benefit analysis and will be granted by the Commission only if the evidence compels a finding that without blocking the risk of fraud and revenue erosion to the AOS provider would be significant.

Historical Note

Adopted effective November 2, 1993, under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 93-4).

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General certification provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1006. Public Safety Requirements

- A. AOS providers shall route all zero-minus calls immediately to the originating LEC.
- B. The Commission may, upon application of the AOS provider, issue a waiver to subsection (A) of this Section if the AOS provider has clearly and convincingly demonstrated that it has the capability to process such calls with equal quickness and accuracy as provided by the LEC

Historical Note

Adopted effective November 2, 1993, under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 93-4).

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General certification provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel.

Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1007. Billing and Collection

- A. Each AOS provider shall bill monthly for services rendered.
- B. Bills issued for the intrastate interLATA AOS service provided by AOS providers shall include the minimum information required by R14-2-508(B) and identify the AOS provider to the extent that the LEC has the capability to do so. In the absence of that capability, the identification of the billing agent or clearinghouse and its toll-free customer service number shall be required.
- C. The LEC will not process billing for any intraLATA calls carried by the AOS provider, whether intentional or incidental, where the required compensation has not been paid to the LEC.
- D. Each AOS applicant shall comply with all of the following billing procedures:
 1. The billing date shall be printed on the bill and shall be the date the bill was issued;
 2. The AOS provider shall provide a full refund of any charge levied for an uncompleted call; and
 3. AOS providers or their billing agents shall be prohibited from billing for calls which occur more than 60 days prior to the billing date.
 4. AOS providers or their agents are prohibited from billing for any intraLATA calls carried by the AOS provider, whether intentional or incidental, where the required compensation has not been paid to the LEC.
- E. The disconnection of local service for the nonpayment of intrastate interLATA AOS usage charges, operator service charges, and surcharges by end-users shall be permitted only in accordance with the detailed procedures set forth in R14-2-509.

Historical Note

Adopted effective November 2, 1993, under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 93-4).

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General certification provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1008. Call Splashing Requirements

- A. AOS providers' tariffs shall require the transfer of calls to other carriers at no charge so that rating and billing properly reflect the originating and terminating points of the telephone call.
- B. When transfers, as described in subsection (A) of this Section are not possible, the tariffs shall require the provider to inform the end-user that the call cannot be completed and that the preferred carrier may be reached by an access code or toll-free customer service number.

Historical Note

Adopted effective November 2, 1993, under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 93-4).

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General certification provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel.

Corporation Commission - Fixed Utilities

Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1009. Complaint Processing

- A. AOS applicants for certificates of convenience and necessity shall submit to the Commission a tariff or schedule containing a detailed description of complaint processing procedures.
- B. The name, address, and telephone number of a representative for complaint matters shall be submitted with these procedures.

Historical Note

Adopted effective November 2, 1993, under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 93-4).

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General certification provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1010. Quality of Service

AOS providers applying for certificates of convenience and necessity shall develop quality of service standards for operator response time and call processing time and submit those standards to the Commission for review and approval.

Historical Note

Adopted effective November 2, 1993, under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 93-4).

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General certification provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1011. Reports

- A. AOS providers holding certificates of convenience and necessity shall submit Utility Division annual reports to the Commission pursuant to A.R.S. § 40-204.
- B. AOS providers holding certificates of convenience and necessity shall submit annual reports to the Commission comparing the company's actual monthly performance with the standards in R14-2-1010.
- C. AOS providers that have been certificated shall annually submit to the Commission a list of subscribers and locations served.

Historical Note

Adopted effective November 2, 1993, under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 93-4).

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General certification provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1012. Violations

- A. The Commission may order an LEC to immediately terminate service to AOS providers which:
 - 1. Fail to make application for or obtain a CC&N to provide service pursuant to R14-2-1002, or

- 2. Violate any applicable quality of service standards as described in this Article.

- B. An LEC shall not offer service to an AOS provider unless the AOS provider has made application for or received a CC&N from the Commission.
- C. An LEC in violation of subsection (B) of this Section shall be subject to the penalty provisions contained in A.R.S. §§ 40-421 through 40-433.
- D. Any AOS provider found by the Commission to be in violation of subsection (A)(2) of this Section shall have its CC&N subject to revocation.

Historical Note

Adopted effective November 2, 1993, under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 93-4).

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General certification provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1013. IntraLATA Long-distance Service is Prohibited

AOS providers may not carry intraLATA toll calls where the required compensation has not been paid to the LEC. All intra-LATA calls where arrangements have not been made for compensation to the LEC by the IXC must be switched to the authorized LEC of the aggregator.

Historical Note

Adopted effective November 2, 1993, under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 93-4).

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General certification provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1014. Variations or Exemptions from the Commission's Rules

Variations or exemptions from the terms and requirements of any of the rules included in this Article shall be considered upon the verified application of an affected party to the Commission setting forth the circumstances whereby the public interest requires such variation or exemption from the Commission's rules. Such application will be subject to the review of the Commission and any variation or exemption granted shall require an order of the Commission. In case of conflict between these rules and an approved tariff or order of the Commission, the provisions of the tariff or order shall apply.

Historical Note

Adopted effective November 2, 1993, under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 93-4).

ARTICLE 11. COMPETITIVE TELECOMMUNICATIONS SERVICES

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General certification provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1101. Application of Rules

Corporation Commission - Fixed Utilities

These rules shall govern the provision of competitive, intrastate telecommunications services to the public by telecommunications companies subject to the jurisdiction of the Arizona Corporation Commission. Unless otherwise ordered by the Commission, these rules shall not govern the provision of service by independently or local exchange carrier-owned pay telephones (COPTs) and alternative operator service (AOS) providers, which shall instead be governed by Articles 9 and Article 10 of this Chapter, respectively. The provision of local exchange service also shall be governed by Article 5 of this Chapter, to the extent that Article is not inconsistent with these rules.

Historical Note

Adopted effective June 27, 1995, under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 95-2).

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General certification provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1102. Definitions

Article, unless the context otherwise requires, the following definitions shall apply:

1. "Arizona Corporation Commission" or "Commission." The regulatory agency of the state of Arizona having jurisdiction over public service corporations operating in Arizona.
2. "Bona Fide Request." A written request submitted by a telecommunications company to a local exchange carrier for intraLATA equal access service or for interconnection arrangements.
3. "Central Office." A facility within a telecommunications system where calls are switched and which contains all the necessary equipment, operating arrangements, and interface points for terminating and interconnecting facilities such as subscribers' line and interoffice trunks.
4. "Competitive Telecommunications Service." Any telecommunications service where customers of the service within the relevant market have or are likely to have reasonably available alternatives.
5. "Docket Control Center." The Commission section responsible for the acceptance and processing of all applications and other filings, and for official record maintenance.
6. "Equal Access." An arrangement where a local exchange company provides all telecommunications companies operating in an equal access central office with dialing arrangements and other service characteristics that are equivalent in type and quality to what the local exchange carrier utilizes in the provision of its service.
7. "Local Exchange Carrier." A telecommunications company that provides local exchange service as one of the telecommunications services it offers to the public.
8. "Local Exchange Service." The telecommunications service that provides a local dial tone, access line, and local usage within an exchange or local calling area.
9. "Monopoly Service." A monopoly service is any telecommunications service provided by a telecommunications company that is not subject to competition in the relevant market.
10. "Primary Interexchange Company" or "PIC." The telecommunications company with whom a customer may

presubscribe to provide 1+/0+ toll service, without the use of access codes, following equal access implementation.

11. "Rate." Within the context of this Article, this term refers to the maximum tariffed rate approved by the Commission, from which the competitive telecommunications service provided may be discounted down to the total service long-run incremental cost of providing the service.
12. "Relevant Market." Where buyers and sellers of a specific service or product, or a group of services or products, come together to engage in transactions. For telecommunications services, the relevant market may be identified on a service-by-service basis, a group basis, and/or by geographic location.
13. "Staff." The staff of the Arizona Corporation Commission or its designated representative or representatives.
14. "Tariffs." The documents filed with the Commission which list the services and products offered by a telecommunications company and which set forth the terms and conditions and a schedule of the rates and charges for those services and products.
15. "Telecommunications Company." A public service corporation, as defined in the Arizona Constitution, Article 15, § 2, that provides telecommunications services within the state of Arizona and over which the Commission has jurisdiction.
16. "Telecommunications Service." Any transmission of interactive switched and non-switched signs, signals, writing, images, sounds, messages, data, or other information of any nature by wire, radio, lightwave, or any other electromagnetic means (including access services), which originate and terminate in this state and are offered to or for the public, or some portion thereof, for compensation.
17. "Total Service Long Run Incremental Cost." The total additional cost incurred by a telecommunications company to produce the entire quantity of a service, given that the telecommunications company already provides all of its other services. Total Service Long-run Incremental Cost is based on the least cost, most efficient technology that is capable of being implemented at the time the decision to provide the service is made.
18. "2-PIC Toll Equal Access." The equal access option that affords customers the opportunity to select one telecommunications company for all interLATA 1+/0+ toll calls and, at the customer's option, to select another telecommunications company for all intraLATA 1+/0+ toll calls.
19. "Unbundled." Disaggregation of the local exchange carrier network services.

Historical Note

Adopted effective June 27, 1995, under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 95-2). Section heading corrected to "Definitions" as filed June 27, 1995 (Supp. 09-4).

R14-2-1103. Certificates of Convenience and Necessity Required

All telecommunications companies providing intrastate telecommunications services shall obtain a Certificate of Convenience and Necessity from the Commission, either under this Article, if competitive services are to be provided or, under Article 5. If the Commission determines that the services identified in an Application filed under this Article are not competitive, the Commission may nevertheless grant a Certificate of Convenience and authorize pro-

vision of the services on a noncompetitive basis pursuant to Article 5.

Historical Note

Adopted effective June 27, 1995, under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 95-2). Amended effective December 31, 1998, under an exemption as determined by the Arizona Corporation Commission (Supp. 98-4). Amended by final rulemaking at 8 A.A.R. 4789, effective December 15, 2002 (Supp. 02-4).

R14-2-1104. Expanded Certificates of Convenience and Necessity for Telecommunications Companies with Existing Certificates; Initial Tariffs

- A.** Effective July 1, 1995, every telecommunications company, except a local exchange carrier, that has received a Certificate of Convenience and Necessity under Article 5, and that provides or intends to provide competitive, intraLATA telecommunications service shall file with the Docket Control Center 10 copies of an Application to expand its existing Certificate of Convenience and Necessity to provide competitive, intraLATA telecommunications service. In support of the request for an expanded Certificate of Convenience and Necessity, the Application shall, at a minimum, include the following information:
1. A description of the telecommunications company and of the telecommunications services it offers or intends to offer.
 2. The proper name and correct intrastate address of the telecommunications company and:
 - a. The full name of its owner if a sole proprietorship,
 - b. The full name of each partner if a partnership,
 - c. A full list of the officers and directors if a corporation, or
 - d. A full list of the members if a limited liability company.
 3. A tariff for each service to be provided that states the maximum rate as well as the initial price to be charged, and that also states other terms and conditions that will apply to provision of the service by the telecommunications company. The telecommunications company shall provide economic justification or cost support data if required by the Commission or by Staff.
 4. A detailed description of the geographic market to be served and maps depicting the area.
 5. Appropriate city, county and/or state agency approvals, where appropriate.
 6. Such other information as the Commission or the Staff may request.
- B.** As part of the Application for an expanded Certificate of Convenience and Necessity, the telecommunications company shall also petition the Commission for a determination that the intraLATA service being provided or to be provided is competitive, pursuant to the requirements of R14-2-1108.
- C.** The Commission shall review the initial tariffs submitted by the telecommunications company and shall determine whether the rates, terms, and conditions for the proposed services are reasonable.
- D.** If it appears, based upon Staff review or upon comments filed with Commission Docket Control Center, that a rate, term, or condition of service stated in a tariff may be unjust or unreasonable, or that a service to be offered by the applicant may not be competitive, the Commission or Staff may require further information and/or changes to the application or to the tariff.

- E.** When the Application is submitted to the Docket Control Center, it will not be filed until it is found to be in proper form. The telecommunications company shall, no later than 20 days after the Application is filed publish legal notice of the Application in all counties where services will be provided. The notice shall describe with particularity the contents of the Application on file with the Commission. Interested persons shall have 20 days from the publication of legal notice to file objections to the Application and to submit a motion to intervene in the proceeding.

Historical Note

Adopted effective June 27, 1995, under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 95-2). Amended by final rulemaking at 8 A.A.R. 4789, effective December 15, 2002 (Supp. 02-4).

R14-2-1105. Certificates of Convenience and Necessity for Telecommunications Companies Offering Competitive Services; Initial Tariff

- A.** Effective July 1, 1995, every other telecommunications company, except a local exchange carrier, that has not previously received a Certificate of Convenience and Necessity, and that provides or intends to provide intrastate competitive telecommunications services shall file with the Docket Control Center 10 copies of an Application for a Certificate of Convenience and Necessity to provide competitive telecommunications services. In support of the request for a Certificate of Convenience and Necessity, the Application shall, at a minimum, include all the information required in R14-2-1104(A) and shall also include the following information:
1. A description of the telecommunications company's technical capability to provide the proposed services and a description of its facilities.
 2. Information describing the financial resources of the telecommunications company, including:
 - a. A current intrastate balance sheet,
 - b. A current income statement (if applicable),
 - c. A pro forma income statement, and
 - d. Comparable financial information evidencing sufficient financial resources.
 3. A copy of the Partnership Agreement, Articles of Incorporation, Articles of Organization, Joint Venture Agreement, or any other contract, agreement, or document that evidences the formation of the telecommunications company.
- B.** An Application filed under subsection (A) of this Section shall also petition the Commission for a determination that the service being provided or to be provided is competitive under the requirements of R14-2-1108.
- C.** An Application filed under subsection (A) of this Section shall be subject to the provisions of subsections R14-2-1104(D) and (E).
- D.** In appropriate circumstances, the Commission may require, as a precondition to certification, the procurement of a performance bond sufficient to cover any advances or deposits the telecommunications company may collect from its customers, or order that such advances or deposits be held in escrow or trust.

Historical Note

Adopted effective June 27, 1995, under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 95-2). Amended by final rulemaking

Corporation Commission - Fixed Utilities

at 8 A.A.R. 4789, effective December 15, 2002 (Supp. 02-4).

R14-2-1106. Grant of Certificate of Convenience and Necessity

- A.** The Commission, after notice and hearing, may deny certification to any telecommunications company which:
1. Does not provide the information required by this Article;
 2. Is not offering competitive services, as defined in this Article;
 3. Does not possess adequate financial resources to provide the proposed services;
 4. Does not possess adequate technical competency to provide the proposed services; or
 5. Fails to provide a performance bond, if required.
- B.** Every telecommunications company obtaining a Certificate of Convenience and Necessity under this Article shall obtain certification subject to the following conditions:
1. The telecommunications company shall comply with all Commission rules, orders, and other requirements relevant to the provision of intrastate telecommunications service.
 2. The telecommunications company shall maintain its accounts and records as required by the Commission.
 3. The telecommunications company shall file with the Commission all financial and other reports that the Commission may require, and in a form and at such times as the Commission may designate.
 4. The telecommunications company shall maintain on file with the Commission all current tariffs and rates, and any service standards that the Commission may require.
 5. The telecommunications company shall cooperate with Commission investigations of customer complaints.
 6. The telecommunications company shall participate in and contribute to a universal service fund, as required by the Commission.
 7. Failure by a telecommunications company to comply with any of the above conditions may result in rescission of its Certificate of Convenience and Necessity.

Historical Note

Adopted effective June 27, 1995, under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 95-2). Amended by final rulemaking at 8 A.A.R. 4789, effective December 15, 2002 (Supp. 02-4).

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General certification provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1107. Application to Discontinue or Abandon Local Exchange or Interexchange Services

- A.** Any telecommunications company providing competitive local exchange or interexchange service on a resold or facilities-based basis that intends to discontinue service or to abandon all or a portion of its service area shall file an application for authorization with the Commission setting forth the following:
1. Any reasons for the proposed discontinuance of service or abandonment of service area;
 2. Verification that all affected customers have been notified of the proposed discontinuance or abandonment, and that all affected customers will have access to an alternative

local exchange service provider or interexchange service provider;

3. Where applicable, a plan for the refund of deposits collected pursuant to subsection R14-2-503(B);
 4. A list of all alternative utilities providing the same or similar service within the affected geographic area.
- B.** When the application is submitted to the Docket Control Center, it will not be filed until it is found to be in proper form. No later than 20 days after the application is filed, the telecommunications company shall publish legal notice of the application in all counties affected by the application. The legal notice shall describe with particularity the substance of the application. Interested persons shall have 30 days from the publication of legal notice to file objections to the application, to request a hearing, and to submit a motion to intervene in the proceeding.
- C.** Once proper notice is effected and if no objection is filed, the Commission may grant the application without a hearing.

Historical Note

Adopted effective June 27, 1995, under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 95-2). Amended by final rulemaking at 10 A.A.R. 1030, effective April 26, 2004 (Supp. 04-1).

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General certification provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1108. Determination of a Competitive Telecommunications Service

- A.** A telecommunications company may petition the Commission to classify as competitive any service or group of services provided by the company. The telecommunications company shall file with the Docket Control Center 10 copies of its petition. The telecommunications company also shall provide notice of its application to each of its customers, if any, and to each regulated telecommunications company that serves the same geographic area or provides the same service or group of services, or a service or group of services similar to the service or group of services for which the competitive classification is requested.
- B.** The petition for competitive classification shall set forth the conditions within the relevant market that demonstrate that the telecommunications service is competitive, providing, at a minimum, the following information:
1. A description of the general economic conditions that exist which make the relevant market for the service one that is competitive;
 2. The number of alternative providers of the service;
 3. The estimated market share held by each alternative provider of the service;
 4. The names and addresses of any alternative providers of the service that are also affiliates of the telecommunications company, as defined in R14-2-801;
 5. The ability of alternative providers to make functionally equivalent or substitute services readily available at competitive rates, terms, and conditions; and
 6. Other indicators of market power, which may include growth and shifts in market share, ease of entry and exit, and any affiliation between and among alternative providers of the services.
- C.** Alternatively, where the Commission has already classified a specific service within the relevant market as competitive, the

petition shall provide the date and decision number of the Commission order.

- D. In any competitive classification proceeding, the telecommunications company filing the petition, and any telecommunications company supporting the petition, shall have the burden of demonstrating that the service at issue is competitive. Classification of the petitioners' service as competitive does not constitute classification of any service provided by another telecommunications company as competitive, unless expressly ordered by the Commission.
- E. The Commission may initiate classification proceedings on its own motion and may require all regulated telecommunications companies potentially affected by the classification proceeding to participate in the proceeding. In an Order classifying a service as competitive, the Commission will specify whether the classification applies to the service provided by a specific company or companies or to that service provided by all telecommunications companies.
- F. If the Commission finds that a telecommunications company's service is competitive, the telecommunications company providing the service may obtain a rate change for the service by applying for streamlined rate treatment pursuant to R14-2-1110.
- G. Any finding by the Commission, pursuant to the provisions of this Section, that a telecommunications service is competitive so as to qualify for streamlined rate treatment shall not constitute a finding that the service is deregulated.
- H. Any telecommunications service classified by the Commission as competitive may subsequently be reclassified as noncompetitive if the Commission determines that reclassification would protect the public interest. Notice and hearing would be required prior to any reclassification. The burden of proof would be on the party seeking reclassification.

Historical Note

Adopted effective June 27, 1995, under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 95-2).

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General certification provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1109. Pricing of Competitive Telecommunications Services

- A. Pricing of Competitive Services. A telecommunications company governed by this Article may price a competitive telecommunications service at any level at or below the maximum rate stated in the company's tariff on file with the Commission, provided that the price for the service is not less than the company's total service long-run incremental cost of providing the service.
- B. Changing a Price. A telecommunications company governed by this Article may effect a price change for a competitive service so long as two conditions are met:
 1. The changed price comports with the limitations stated in subsection (A); and
 2. The Commission is provided with concurrent, written notice of the price change.
- C. No Cross-subsidization. A competitive telecommunications service shall not be subsidized by any rate or charge for any noncompetitive telecommunications services. To ensure that no cross-subsidization exists, each competitive telecommunications service must provide revenues that equal or exceed the

company's total service long-run incremental cost of providing the service.

Historical Note

Adopted effective June 27, 1995, under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 95-2).

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General certification provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1110. Competitive Telecommunications Services -- Procedures for Rate Change

- A. Telecommunications companies governed by this Article may apply to the Commission for an increase in any rate for a competitive service using the procedures set forth below. All applications and supporting information shall be submitted with 10 copies and filed with Docket Control Center.
- B. In order to increase the maximum tariffed rate for a competitive telecommunications service, the applicant shall submit an application to the Commission containing the following information:
 1. A statement setting forth the reasons for which a rate increase is required;
 2. A schedule of current rates and proposed rates and the additional revenues to be derived from the proposed rates;
 3. An affidavit verifying that appropriate notice of the proposed rate increase has been provided to customers of the service;
 4. The Commission or staff may request any additional information in support of the application.
- C. The Commission may, at its discretion, act on the requested rate increase with or without an evidentiary hearing; in an expeditious manner.

Historical Note

Adopted effective June 27, 1995, under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 95-2).

R14-2-1111. Requirement for IntraLATA Equal Access

- A. Each local exchange carrier shall provide 2-PIC toll equal access where technically and economically feasible, and in accordance with any procedures the Commission may order.
- B. The sequence for implementation of intraLATA equal access shall occur in the following manner:
 1. In response to a bona fide request for intraLATA equal access, a local exchange carrier shall complete implementation of intraLATA equal access within nine months of receiving the request. A person making such a bona fide request shall also provide a copy to the Arizona Corporation Commission.
 2. The local exchange carrier may implement intraLATA equal access in any central office on its own initiative but, in any event, shall make intraLATA equal access available in all its central offices no later than July 1, 1996, unless otherwise ordered by the Commission
- C. A local exchange carrier may petition the Commission for a waiver of the requirement in subsection (B)(1) on the grounds that compliance is not technically or economically feasible. A local exchange carrier may also petition the Commission for an extension of the requirement in subsection (B)(2) on the grounds that intraLATA equal access cannot reasonably or economically be provided within any specific exchanges

within the required time-frame. The Commission may grant either of these waivers with or without a hearing. The local exchange carrier filing the waiver petition shall bear the burden of proof.

Historical Note

Adopted effective June 27, 1995, under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 95-2). Amended by final rulemaking at 8 A.A.R. 4789, effective December 15, 2002 (Supp. 02-4).

R14-2-1112. Interconnection Requirements

All local exchange carriers must provide appropriate interconnection arrangements with other telecommunications companies at reasonable prices and under reasonable terms and conditions that do not discriminate against or in favor of any provider, including the local exchange carrier. Appropriate interconnection arrangements shall provide access on an unbundled, nondiscriminatory basis to physical, administrative, and database network components. Local exchange carriers shall provide appropriate interconnection arrangements within six months of receiving a bona fide request for interconnection. The interconnection arrangements must be in the form of a tariff and shall be filed with the Commission for its approval before becoming effective.

Historical Note

Adopted effective June 27, 1995, under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 95-2). Amended by final rulemaking at 8 A.A.R. 4789, effective December 15, 2002 (Supp. 02-4).

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General certification provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1113. Establishment of Universal Service Fund

The Commission shall establish an intrastate universal service fund which shall assure the continued availability of basic telephone service at reasonable rates. The universal service fund shall be structured and administered as required by the Commission.

Historical Note

Adopted effective June 27, 1995, under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 95-2).

R14-2-1114. Service Quality Requirements for the Provision of Competitive Services

- A. General Requirement. Telecommunications companies governed by this Article shall provide quality service in accordance with this rule and with any other service quality requirements established by the Commission.
- B. Telecommunications Company Responsibility. Each telecommunications company governed by this Article:
 1. Shall be responsible for maintaining in safe operating condition all equipment and fixtures owned by and under the exclusive control of the telecommunications company that are used in providing telecommunications services to the customer.
 2. Shall make known to applicants for its service and to its subscribers any information necessary to assist the subscriber or customer in obtaining adequate, efficient, and reasonably priced service.

- C. Continuity of Service. Each telecommunications company providing competitive telecommunications services pursuant to this Article shall make reasonable efforts to supply a satisfactory and continuous level of service.
- D. Billing and Collection
 1. Each telecommunications company governed by this Article shall bill monthly for any competitive services rendered. The following minimum information must be provided on all customer bills:
 - a. A description of the service provided;
 - b. The monthly charge for each service provided;
 - c. The company's toll-free number for billing inquiries;
 - d. The amount or percentage rate of any privilege, sales, use or other taxes that are passed on to the customer as part of the charge for the service provided;
 - e. Any access or other charges that are imposed by order of or at the direction of the Federal Communications Commission; and
 - f. The date on which the bill becomes delinquent.
 2. If the telecommunications company does not provide direct billing to its customers, it shall make arrangements for monthly bills to be rendered to all its customers. However, a local exchange carrier shall not provide billing and collection services for intrastate telecommunications services to any telecommunications company that does not have a Certificate of Convenience and Necessity from the Commission, and that does not have a certification application pending before the Commission.
- E. Insufficient Funds (NSF) Checks. A telecommunications company governed by this Article may include in its tariffs a fee for each instance where a customer tenders payment for the competitive telecommunications service with an insufficient funds check. When a customer tenders an insufficient check, the telecommunications company may require the customer to make payment in cash, by money order, certified check, or other means which guarantees the customer's payment to the telecommunications company.
- F. Deferred Payment Plan.
 1. Each telecommunications company may, in lieu of terminating service, offer any customer a deferred payment plan to retire unpaid bills for telecommunications company service. If a deferred payment arrangement is made, current service shall not be discontinued if the customer agrees to pay a reasonable portion of the outstanding balance in installments over a period not to exceed six months and agrees to pay all future bills in accordance with the billing and collection tariffs of the telecommunications company.
 2. If a customer does not fulfill the terms of a deferred payment agreement, the telecommunications company shall have the right to disconnect service pursuant to the Commission's termination of service rule, R14-2-509.
- G. Late Payment Penalty. A telecommunications company governed by this Article may include in its tariffs a late payment penalty which may be applied to delinquent bills. The amount of the late payment penalty shall be stated on a customer's bill when rendered by the telecommunications company or its agent.
- H. Service Interruptions.
 1. Each telecommunications company shall make reasonable efforts to reestablish service within the shortest possible time when service interruptions occur. The telecommunications company shall issue instructions to its employees covering procedures to be followed in the event of any emergency, including national emergencies

Corporation Commission - Fixed Utilities

or local disasters, in order to prevent or mitigate interruption or impairment of service. The Commission shall be notified of major interruptions in service affecting the entire system or any major division.

2. When a telecommunications company plans to interrupt service to perform necessary repairs or maintenance, the telecommunications company shall attempt to inform affected customers at least 24 hours in advance of the scheduled date and estimated duration of the service interruption. Such repairs shall be completed in the shortest possible time to minimize the inconvenience to the customers of the telecommunications company.
- I. Nonpermissible Termination of Service. A telecommunications company governed by this Article may not disconnect service for:
 1. The failure of a customer to pay for services or equipment which are not regulated by the Commission, or
 2. For disputed bills where the customer has complied with the Commission's rules on complaints.
- J. Permissible Termination of Service. Termination of service without notice may occur in accordance with the provisions of subsection R14-2-509(B). Termination of service with notice shall occur in accordance with provisions of R14-2-509(C) through (E). All local exchange carriers are prohibited from discontinuing local service for alleged delinquency of non-local bills.
- K. Notice of Responsible Officer or Agent. Each telecommunications company governed by this Article shall file a written statement with the Commission which provides the name, address (business, residence, and post office) and telephone numbers (business and residence) of at least one officer, agent, or one employee responsible for the general management of its operations as a telecommunications company in Arizona. Each telecommunications company shall give notice of any change in this information by filing a written statement with the Commission within five days from the date of any such change.
- L. Competitive Local Exchange Service. Any telecommunications company providing competitive local exchange service shall comply with the Commission's rules for establishment of service set forth in R14-2-503.
- M. Denial of Service/Noncertificated Utilities. A local exchange carrier shall deny service to a noncertificated telecommunications company that intends to use the service requested to provide telecommunications service for hire, sale, or resale to the general public within the state of Arizona. Service shall not be denied if the telecommunications company has an Application for a Certificate of Convenience and Necessity pending before the Commission.

Historical Note

Adopted effective June 27, 1995, under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 95-2). Amended by final rulemaking at 8 A.A.R. 4789, effective December 15, 2002 (Supp. 02-4).

R14-2-1115. Administrative Requirements

- A. Customer Service Complaints. All customer service complaints concerning competitive telecommunications services shall be governed by the provisions of subsection R14-2-510(A).
- B. Customer Bill Disputes. All customer bill disputes concerning competitive telecommunications services shall be governed by the provisions of R14-2-510(B) and (C).
- C. Filing of Tariffs, Price Levels, and Contracts. Each telecommunications company governed by this Article shall file with the Commission current tariffs, price levels, and contracts that

comply with the provisions of this Article and with all Commission rules, orders, and all other requirements imposed by the laws of the state of Arizona.

1. Current tariffs for competitive services shall be maintained on file with the Commission pursuant to the requirements of A.R.S. § 40-365.
2. Current price levels for competitive services shall be filed with the Commission pursuant to the requirements of R14-2-1109(B).
3. Contracts of telecommunications companies governed by this Article shall be filed with the Commission not later than five business days after execution. If the contract includes both competitive and noncompetitive services, it must be filed at least five business days prior to the effective date of the contract and must separately state the tariffed rate for the noncompetitive services and the price for the competitive services.
4. Contracts filed pursuant to this Article shall not be open to public inspection or made public except on order of the Commission, or by the Commission or a Commissioner in the course of a hearing or proceeding.
- D. Accounts and Records.
 1. Each telecommunications company shall keep general and subsidiary accounting books and records reflecting the cost of its intrastate properties, assets and liabilities, operating income and expenses, and all other accounting and statistical data which reflect complete, authentic, and accurate information regarding to its properties and operations. These accounting records shall be organized and maintained in such a way as to provide an audit trail through all segments of the telecommunications company's accounting system.
 2. With the exception of local exchange companies, each telecommunications company providing competitive telecommunications services shall maintain its books and records in accordance with Generally Accepted Accounting Principles as promulgated by the Financial Accounting Standards Board and its successors, as amended by any subsequent modification or official pronouncement thereto, which directly relates to regulated industries.
- E. Production of Accounts, Records, and Documents.
 1. All telecommunications companies governed by this Article shall immediately make available, at the time and place the Commission may designate, any accounting records that the Commission may request. Accounting records shall include all or any portion of a telecommunications company's formal and informal accounting books and records along with any underlying and/or supporting documents regardless of the physical location of such books, records, and documents. Accounting records shall also include all books, records or documents which specifically identify, support, analyze, or otherwise explain the reasonableness and accuracy of affiliated interest transactions.
 2. The Commission, at its sole discretion, may inspect any telecommunications company's formal and/or informal accounting books, records, and documents at the company's business premises or at its authorized representative's business premises which may be outside the state of Arizona. If inspection of the telecommunications company's accounting records does take place outside the state of Arizona, the telecommunications company will, to the extent legally permissible, assume all reasonable costs of travel, lodging, per diem, and all other miscellaneous costs incurred by participating personnel employed

by the Commission or personnel contracted to represent the Commission in any manner.

- F.** Annual Reports to the Commission. All telecommunications companies providing competitive telecommunications services pursuant to this Article shall submit an annual report to the Commission which shall be filed on or before the 15th day of April for the preceding calendar year.

1. The annual report shall be in a form prescribed by the Commission and, at a minimum, shall contain the following information:

- a. A statement of income for the reporting year similar in format to R14-2-103, Schedule (C)(1) or (E)(2). The income statement shall be Arizona-specific and reflect operating results in Arizona.
- b. A balance sheet as of the end of the reporting year similar in format to R14-2-103, Schedule (E)(1). The balance sheet shall be Arizona-specific.

2. Annual reports filed pursuant to this Article shall not be open to public inspection or made public except on order of the Commission, or by the Commission or a Commissioner in the course of a hearing or proceeding.

- G.** Reports to the Securities and Exchange Commission. All telecommunications companies shall file with the Commission a copy of all reports required by the Securities and Exchange Commission.

- H.** Other Reports. All telecommunications companies shall file with the Commission a copy of all annual reports required by the Federal Communications Commission and, where applicable, annual reports required by the Rural Electrification Administration or any other agency of the United States.

- I.** Variations, Exemptions of Commission Rules. The Commission may consider variations or exemptions from the terms or requirements of any of the rules included herein (14 A.A.C. 2, Article 11) upon the verified application of an affected party. The application must set forth the reasons why the public interest will be served by the variation or exemption from the Commission rules and regulations. Any variation or exemption granted shall require an order of the Commission. Where a conflict exists between these rules and an approved tariff or order of the Commission, the provisions of the approved tariff or order of the Commission shall apply.

Historical Note

Adopted effective June 27, 1995, under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 95-2). Amended by final rulemaking at 8 A.A.R. 4789, effective December 15, 2002 (Supp. 02-4).

Editor's Note: The following Article had Sections renumbered and amended by final rulemaking effective September 20, 2017 (Supp. 17-3).

Editor's Note: The following Article was amended by emergency rulemaking effective March 29, 2017, for 180 days (Supp. 17-1).

Editor's Note: The Arizona Corporation Commission has determined that the following Article is exempt from the Attorney General approval provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

ARTICLE 12. ARIZONA UNIVERSAL SERVICE FUND

R14-2-1201. Renumbered

Historical Note

Adopted effective April 26, 1996, under an exemption as determined by the Arizona Corporation Commission (Supp. 96-2). R14-2-1201 renumbered to R14-2-A1201 by emergency rulemaking at 23 A.A.R. 865, effective March 29, 2017, for 180 days (Supp. 17-1). R14-2-1201 permanently renumbered to R14-2-A1201 by final rulemaking at 23 A.A.R. 2822, effective September 20, 2017 (Supp. 17-3).

R14-2-1202. Renumbered

Historical Note

Adopted effective April 26, 1996, under an exemption as determined by the Arizona Corporation Commission (Supp. 96-2). R14-2-1202 renumbered to R14-2-A1202 by emergency rulemaking at 23 A.A.R. 865, effective March 29, 2017, for 180 days (Supp. 17-1). R14-2-1202 permanently renumbered to R14-2-A1202 by final rulemaking at 23 A.A.R. 2822, effective September 20, 2017 (Supp. 17-3).

R14-2-1203. Renumbered

Historical Note

Adopted effective April 26, 1996, under an exemption as determined by the Arizona Corporation Commission (Supp. 96-2). R14-2-1203 renumbered to R14-2-A1203 by emergency rulemaking at 23 A.A.R. 865, effective March 29, 2017, for 180 days (Supp. 17-1). R14-2-1203 permanently renumbered to R14-2-A1203 by final rulemaking at 23 A.A.R. 2822, effective September 20, 2017 (Supp. 17-3).

R14-2-1204. Renumbered

Historical Note

Adopted effective April 26, 1996, under an exemption as determined by the Arizona Corporation Commission (Supp. 96-2). R14-2-1204 renumbered to R14-2-A1204 by emergency rulemaking at 23 A.A.R. 865, effective March 29, 2017, for 180 days (Supp. 17-1). R14-2-1204 permanently renumbered to R14-2-A1204 by final rulemaking at 23 A.A.R. 2822, effective September 20, 2017 (Supp. 17-3).

R14-2-1205. Renumbered

Historical Note

Adopted effective April 26, 1996, under an exemption as determined by the Arizona Corporation Commission (Supp. 96-2). R14-2-1205 renumbered to R14-2-A1205 by emergency rulemaking at 23 A.A.R. 865, effective March 29, 2017, for 180 days (Supp. 17-1). R14-2-1205 permanently renumbered to R14-2-A1205 by final rulemaking at 23 A.A.R. 2822, effective September 20, 2017 (Supp. 17-3).

R14-2-1206. Renumbered

Historical Note

Adopted effective April 26, 1996, under an exemption as determined by the Arizona Corporation Commission (Supp. 96-2). R14-2-1206 renumbered to R14-2-A1206 by emergency rulemaking at 23 A.A.R. 865, effective March 29, 2017, for 180 days (Supp. 17-1). R14-2-1206 permanently renumbered to R14-2-A1206

by final rulemaking at 23 A.A.R. 2822, effective September 20, 2017 (Supp. 17-3).

R14-2-1207. Renumbered

Historical Note

Adopted effective April 26, 1996, under an exemption as determined by the Arizona Corporation Commission (Supp. 96-2). R14-2-1207 renumbered to R14-2-A1207 by emergency rulemaking at 23 A.A.R. 865, effective March 29, 2017, for 180 days (Supp. 17-1). R14-2-1207 permanently renumbered to R14-2-A1207 by final rulemaking at 23 A.A.R. 2822, effective September 20, 2017 (Supp. 17-3).

R14-2-1208. Renumbered

Historical Note

Adopted effective April 26, 1996, under an exemption as determined by the Arizona Corporation Commission (Supp. 96-2). R14-2-1208 renumbered to R14-2-A1208 by emergency rulemaking at 23 A.A.R. 865, effective March 29, 2017, for 180 days (Supp. 17-1). R14-2-1208 permanently renumbered to R14-2-A1208 by final rulemaking at 23 A.A.R. 2822, effective September 20, 2017 (Supp. 17-3).

R14-2-1209. Renumbered

Historical Note

Adopted effective April 26, 1996, under an exemption as determined by the Arizona Corporation Commission (Supp. 96-2). R14-2-1209 renumbered to R14-2-A1209 by emergency rulemaking at 23 A.A.R. 865, effective March 29, 2017, for 180 days (Supp. 17-1). R14-2-1209 permanently renumbered to R14-2-A1209 by final rulemaking at 23 A.A.R. 2822, effective September 20, 2017 (Supp. 17-3).

R14-2-1210. Renumbered

Historical Note

Adopted effective April 26, 1996, under an exemption as determined by the Arizona Corporation Commission (Supp. 96-2). R14-2-1210 renumbered to R14-2-A1210 by emergency rulemaking at 23 A.A.R. 865, effective March 29, 2017, for 180 days (Supp. 17-1). R14-2-1210 permanently renumbered to R14-2-A1210 by final rulemaking at 23 A.A.R. 2822, effective September 20, 2017 (Supp. 17-3).

R14-2-1211. Renumbered

Historical Note

Adopted effective April 26, 1996, under an exemption as determined by the Arizona Corporation Commission (Supp. 96-2). R14-2-1211 renumbered to R14-2-A1211 by emergency rulemaking at 23 A.A.R. 865, effective March 29, 2017, for 180 days (Supp. 17-1). R14-2-1211 permanently renumbered to R14-2-A1211 by final rulemaking at 23 A.A.R. 2822, effective September 20, 2017 (Supp. 17-3).

R14-2-1212. Renumbered

Historical Note

Adopted effective April 26, 1996, under an exemption as determined by the Arizona Corporation Commission (Supp. 96-2). R14-2-1212 renumbered to R14-2-A1212 by emergency rulemaking at 23 A.A.R. 865, effective March 29, 2017, for 180 days (Supp. 17-1). R14-2-1212 permanently renumbered to R14-2-A1212 by final

rulemaking at 23 A.A.R. 2822, effective September 20, 2017 (Supp. 17-3).

R14-2-1213. Renumbered

Historical Note

Adopted effective April 26, 1996, under an exemption as determined by the Arizona Corporation Commission (Supp. 96-2). R14-2-1213 renumbered to R14-2-A1213 by emergency rulemaking at 23 A.A.R. 865, effective March 29, 2017, for 180 days (Supp. 17-1). R14-2-1213 permanently renumbered to R14-2-A1213 by final rulemaking at 23 A.A.R. 2822, effective September 20, 2017 (Supp. 17-3).

R14-2-1214. Renumbered

Historical Note

Adopted effective April 26, 1996, under an exemption as determined by the Arizona Corporation Commission (Supp. 96-2). R14-2-1214 renumbered to R14-2-A1214 by emergency rulemaking at 23 A.A.R. 865, effective March 29, 2017, for 180 days (Supp. 17-1). R14-2-1214 permanently renumbered to R14-2-A1214 by final rulemaking at 23 A.A.R. 2822, effective September 20, 2017 (Supp. 17-3).

R14-2-1215. Renumbered

Historical Note

Adopted effective April 26, 1996, under an exemption as determined by the Arizona Corporation Commission (Supp. 96-2). R14-2-1215 renumbered to R14-2-A1215 by emergency rulemaking at 23 A.A.R. 865, effective March 29, 2017, for 180 days (Supp. 17-1). R14-2-1215 permanently renumbered to R14-2-A1215 by final rulemaking at 23 A.A.R. 2822, effective September 20, 2017 (Supp. 17-3).

R14-2-1216. Renumbered

Historical Note

Adopted effective April 26, 1996, under an exemption as determined by the Arizona Corporation Commission (Supp. 96-2). R14-2-1216 renumbered to R14-2-A1216 by emergency rulemaking at 23 A.A.R. 865, effective March 29, 2017, for 180 days (Supp. 17-1). R14-2-1216 permanently renumbered to R14-2-A1216 by final rulemaking at 23 A.A.R. 2822, effective September 20, 2017 (Supp. 17-3).

R14-2-1217. Renumbered

Historical Note

Adopted effective April 26, 1996, under an exemption as determined by the Arizona Corporation Commission (Supp. 96-2). R14-2-1217 renumbered to R14-2-A1217 by emergency rulemaking at 23 A.A.R. 865, effective March 29, 2017, for 180 days (Supp. 17-1). R14-2-1217 permanently renumbered to R14-2-A1217 by final rulemaking at 23 A.A.R. 2822, effective September 20, 2017 (Supp. 17-3).

PART A. HIGH COST FUND

R14-2-A1201. Definitions

In this Part, unless the context otherwise requires, the following definitions shall apply:

1. "Administrator" is the person designated pursuant to R14-2-A1212 to administer the AUSF and perform the functions required by this Article.
2. "Arizona Corporation Commission" or "Commission." The regulatory agency of the state of Arizona having

- jurisdiction over public service corporations operating in Arizona.
3. "Arizona Universal Service Fund" or "AUSF" is the funding mechanism established by this Article through which surcharges are collected and support paid in accordance with this Article.
 4. "AUSF Support" is the amount of money, calculated pursuant to this Part, which a provider of basic local telephone exchange service is eligible to receive from the AUSF pursuant to this Part.
 5. "AUSF Support Area" is the geographic area for which a local exchange carrier's eligibility to receive AUSF support is calculated.
 6. "Basic local exchange telephone service" is telephone service that provides the following features:
 - a. Access to 1-party residential service with a voice grade line;
 - b. Access to touchtone capabilities;
 - c. Access to an interexchange carrier;
 - d. Access to emergency services, including but not limited to emergency 911;
 - e. Access to directory assistance service;
 - f. Access to operator service;
 - g. Access to a white page or similar directory listing; and
 - h. Access to telephone relay systems for the hearing and speech impaired.
 7. "Benchmark rates" for a telecommunications services provider are those rates approved by the Commission for that provider for basic local exchange telephone service, plus the Customer Access Line Charge approved by the Federal Communications Commission.
 8. "Commercial Mobile Radio Service" is any radio communication service carried on between mobile stations or receivers and land stations, or by mobile stations communicating among themselves, that is provided for profit and that makes available to the public service that is connected to the public switched network.
 9. "Conversion Factor" is a multiplier that is used to convert a quantity of interconnecting trunks for both wireless and wireline customers into equivalent access lines, for the sole purpose of developing Category 1 surcharges. The value of the Conversion Factor shall be 10 until completion of the review provided for in R14-2-A1216.
 10. "Interconnecting Trunk" is a 1-way or 2-way voice grade or equivalent voice grade switched message transmission channel furnished by a local switched access provider to a provider of wireless services or to a wireline customer of such local switched access provider to interconnect the provider of wireless services or wireline customer to the public switched network.
 11. "Intermediate Local Exchange Carriers" are incumbent providers of basic local exchange telephone service with more than 20,000 access lines but fewer than 200,000 access lines in Arizona.
 12. "Large Local Exchange Carriers" are incumbent providers of basic local exchange telephone service serving 200,000 or more access lines in Arizona.
 13. "Small Local Exchange Carriers" are incumbent providers of basic local exchange telephone service with 20,000 or fewer access lines in Arizona.
 14. "Total Service Long Run Incremental Cost" is the total additional cost incurred by a telecommunications company to produce the entire quantity of a service, given that the telecommunications company already provides all of its other services. Total Service Long Run Incre-

mental Cost is based on the least cost, most efficient technology that is capable of being implemented at the time the decision to provide the service is made.

15. "U.S. Census Blocks" are geographic areas defined by the U.S. Department of Commerce. The areas, which define the way in which census data is aggregated, generally contain between 250 and 550 housing units.

Historical Note

New Section R14-2-A1201 renumbered from R14-2-1201 and amended by emergency rulemaking at 23 A.A.R. 865, effective March 29, 2017, for 180 days (Supp. 17-1). R14-2-A1201 permanently renumbered from R14-2-1201 and amended by final rulemaking at 23 A.A.R. 2822, effective September 20, 2017; Section reference numbers were changed to agree with renumbered Sections pursuant to A.R.S. § 41-1011(C) (Supp. 17-3).

R14-2-A1202. Calculation of AUSF Support

- A. The amount of AUSF support to which a provider of basic local exchange telephone service is eligible for a given AUSF support area shall be based upon the difference between the benchmark rates for basic local exchange telephone service provided by the carrier, and the appropriate cost to provide basic local exchange telephone service as determined by the Commission, net of any universal service support from federal sources.
- B. For a small local exchange carrier, the AUSF support area shall include all exchanges served by the local exchange carrier in Arizona. The appropriate cost of providing basic local exchange telephone service for purposes of determining AUSF support for a small local exchange carrier shall be the embedded cost of the incumbent provider. For any request for AUSF support by a small local exchange carrier filed more than three years after the effective date of this Article, the AUSF support area shall be the geographic areas as determined by the Commission.
- C. For an intermediate local exchange carrier, the AUSF support area shall be either all exchanges in Arizona served by that carrier, or such other support area as may be approved by the Commission. The appropriate cost of providing basic local exchange telephone service for purposes of determining AUSF support for an intermediate local exchange carrier shall be the embedded cost of the incumbent provider. For any request for AUSF support by an intermediate local exchange carrier filed more than three years after the effective date of this Article, the AUSF support area shall be geographic areas as determined by the Commission, and the appropriate cost of providing basic local exchange telephone service for purposes of determining AUSF support shall be the Total Service Long Run Incremental Cost of the incumbent provider. In the event that the FCC adopts a somewhat different forward-looking costing methodology and/or a different geographic study/support area for the Federal universal service fund program, a local exchange carrier may request a waiver from this rule in order to utilize the same cost study methodology and/or geographic study areas in both jurisdictions.
- D. For a large local exchange carrier, the AUSF support area shall be U.S. census block groups, and the appropriate cost of providing basic local exchange telephone service for purposes of determining AUSF support shall be the Total Service Long Run Incremental Cost. In the event that the FCC adopts a somewhat different forward-looking costing methodology and/or a different geographic study/support area for the Federal universal service fund program, a local exchange carrier may request a waiver from this rule in order to utilize the same

cost study methodology and/or geographic study areas in both jurisdictions. Any request for AUSF support by a large local exchange carrier shall include a Total Service Long Run Incremental Cost study, or cost study based on FCC adopted methodology, of basic local exchange service. The cost study shall be developed and presented in a manner that identifies the cost for the individual support areas for which AUSF funding is being requested.

Historical Note

New Section R14-2-A1202 renumbered from R14-2-1202 by emergency rulemaking at 23 A.A.R. 865, effective March 29, 2017, for 180 days (Supp. 17-1). R14-2-A1202 permanently renumbered from R14-2-1202 by final rulemaking at 23 A.A.R. 2822, effective September 20, 2017 (Supp. 17-3).

R14-2-A1203. Request for AUSF Support

A provider of basic local exchange telephone service may request that the Commission authorize AUSF support with a filing under R14-2-103 or other method as the Commission may prescribe, and upon compliance with all applicable rules set forth in R14-2-1101 through R14-2-1115. A request for AUSF support shall include a statement describing the need for such funding. The Commission shall determine the appropriate cost of providing basic local exchange service for each AUSF support area for which AUSF support is requested and shall calculate in accordance with R14-2-A1202 the amount of AUSF support, if any, to which the applicant is entitled.

Historical Note

New Section R14-2-A1203 renumbered from R14-2-1203 by emergency rulemaking at 23 A.A.R. 865, effective March 29, 2017, for 180 days (Supp. 17-1). R14-2-A1203 permanently renumbered from R14-2-1203, by final rulemaking at 23 A.A.R. 2822, effective September 20, 2017; a Section reference number was changed to agree with a renumbered Section pursuant to A.R.S. § 41-1011(C) (Supp. 17-3).

R14-2-A1204. Funding of the AUSF

- A. The AUSF shall be funded in accordance with this Article by all telecommunications service providers that interconnect to the public switched network. Within 30 days of the effective date of this Article, and thereafter on or before October 1 of each year, each telecommunications provider shall provide to the Administrator a list of all other telecommunications providers that interconnect to its facilities or network.
- B. The AUSF shall be funded equally by toll and local customers of the providers of telecommunications services, and shall be assessed in the following manner:
 1. Category 1 - Providers of basic local exchange service, as discussed in subsection (B)(1)(a), and other service providers as required under (B)(1)(a)(i) or permitted under subsection (B)(3)(b), shall be considered providers of Category 1 service.
 - a. One-half of the AUSF funding requirement will be collected through Category 1 service providers. Category 1 AUSF assessment will be based upon access lines and interconnecting trunks, and assessed by providers of local switched access as either an access line or interconnecting trunk surcharge. The "per access line" surcharge to be in place during a given year will be calculated by the Administrator using the total number of access lines and equivalent access lines deriving from interconnecting trunks that were in service for all Category 1 service providers on October 1 of the previous year. Access

lines shall include business and residence lines, public access lines, and other identifiable access lines.

- i. All wireless providers including but not limited to paging and other Commercial Mobile Radio Service providers, that interconnect to the public switched network will contribute to the AUSF under the requirements of Category 1. The number of interconnecting trunks obtained from the local access provider by the wireless provider shall be utilized in conjunction with a Conversion Factor to determine AUSF support from such wireless provider by means of a surcharge on such interconnecting trunks. A wireless provider that fails to contribute to the AUSF as required by this Article shall be subject to termination of its interconnection arrangements pursuant to R14-2-A1214(C).
- b. On or before November 1 of each year, each Category 1 local switched access service provider shall provide to the Administrator the number of access lines and number of interconnecting trunks that were in service on October 1 of that year. The Administrator will use these numbers together with the Conversion Factor in calculating the per access line surcharge and per interconnecting trunk surcharge for the following year. The Administrator will multiply the total number of interconnecting trunks by the Conversion Factor to obtain an equivalent number of access lines for the purpose of calculating the surcharges.
2. Category 2 - Providers of intrastate toll service, or other service providers as permitted under subsection (B)(3), shall be considered providers of Category 2 service and shall be assessed AUSF charges as follows:
 - a. One-half of the AUSF funding requirement will be collected through Category 2 service providers. The Category 2 AUSF assessment will be based on total Arizona intrastate toll revenue, and assessed as a percent of revenue. The percent of revenue assessment to be in place during a given year will be calculated by the Administrator using the annual Arizona intrastate revenue for all Category 2 service providers for the previous year.
 - b. On or before November 1 of each year, each Category 2 service provider shall report to the Administrator the total Arizona intrastate revenue collected between August 1 of the current year and August 1 of the previous year. The Administrator will use this revenue so reported to calculate the AUSF assessment rate for the following year.
3. New telecommunications service providers.
 - a. Telecommunications providers that begin providing basic local exchange service after the effective date of this Article shall be assessed AUSF charges pursuant to subsection (B)(1). Telecommunications providers that begin providing toll service after the effective date of this Article shall be assessed AUSF charges pursuant to subsection (B)(2).
 - b. All other telecommunications service providers that interconnect to the public switched network and begin providing telecommunications service after the effective date of this Article, shall choose to be considered either a Category 1, Category 2, or both Category 1 and Category 2 service provider. Such election shall be made in writing to the Administrator within 30 days of beginning to provide telecom-

Corporation Commission - Fixed Utilities

munications service in Arizona, with a copy to the Director of Utilities. Written concurrence of the Director of Utilities must be received by the Administrator for such selection to be effective. Such selection will be irrevocable for a period of at least three years.

4. A telecommunications provider that provides both Category 1 and Category 2 services shall be assessed AUSF charges pursuant to both subsections (B)(1) and (2).

Historical Note

New Section R14-2-A1204 renumbered from R14-2-1204 by emergency rulemaking at 23 A.A.R. 865, effective March 29, 2017, for 180 days (Supp. 17-1). R14-2-A1204 permanently renumbered from R14-2-1204 by final rulemaking at 23 A.A.R. 2822, effective September 20, 2017; subsection references were updated for Chapter consistency and a Section reference number was changed to agree with a renumbered Section pursuant to A.R.S. § 41-1011(C) (Supp. 17-3).

R14-2-A1205. Calculation of Surcharges

- A. The Administrator will calculate the total AUSF support due all local exchange carriers who have been granted AUSF support by the Commission. Administrative costs and audit fees will be added to this amount. The amount of any excess funds in the AUSF will then be subtracted to determine the total funding requirement. The funding requirements from Category 1 and Category 2 service providers will then be calculated. One-half of the funding will be obtained from Category 1 providers through surcharges applied to access lines and interconnecting trunks in service. The other half will be obtained from Category 2 providers through surcharges on intrastate toll revenues.
- B. For the purpose of determining the surcharges, the Administrator will develop growth factors to apply to the total reported access lines and toll revenues. Such growth factors will be calculated at 1/2 of the estimated annual percentage growth in access lines and in toll revenues.
- C. Category 1 Surcharge. One-half of the total annual AUSF support approved by the Commission for all eligible recipients will be obtained from Category 1 service providers. A monthly per access line surcharge and a monthly per interconnecting trunk surcharge required to obtain this funding will be calculated as follows:
 1. Adding together the number of access lines and equivalent access lines for all Category 1 service providers, adjusted by the growth factor;
 2. Dividing the total annual AUSF support approved by the Commission for all eligible recipients by 2 to obtain the portion of AUSF support required from Category 1 service providers;
 3. Dividing the amount of Category 1 AUSF support calculated in subsection (C)(2) by the sum of access lines calculated in subsection (C)(1) to yield the per access line surcharge;
 4. Dividing the per access line surcharge calculated in subsection (C)(3) by 12 to determine the monthly access line assessment;
 5. Multiplying the surcharge obtained in subsection (C)(4) by the Conversion Factor to determine the monthly interconnecting trunk surcharge.
- D. Category 2 Surcharge. One-half of the total annual AUSF support approved by the Commission for all eligible recipients will be obtained from Category 2 service providers. A percent of revenue surcharge required to obtain this funding will be calculated as follows:

1. Totaling the annual intrastate toll revenues of all Category 2 service providers, adjusted by the growth factor;
 2. Dividing the total AUSF support approved by the Commission for all eligible recipients by 2 to obtain the portion of AUSF support required from Category 2 service providers;
 3. Dividing the amount of Category 2 AUSF support requirement calculated in subsection (D)(2) by the total annual intrastate toll revenues calculated in subsection (D)(1) to arrive at a percentage of revenue surcharge.
- E. Recipients of lifeline or other low-income support shall be exempt from paying a Category 1 surcharge.

Historical Note

New Section R14-2-A1205 renumbered from R14-2-1205 by emergency rulemaking at 23 A.A.R. 865, effective March 29, 2017, for 180 days (Supp. 17-1). R14-2-A1205 permanently renumbered from R14-2-1205 by final rulemaking at 23 A.A.R. 2822, effective September 20, 2017 (Supp. 17-3).

R14-2-A1206. Implementation

- A. Any provider of telecommunications service may file either an AUSF tariff or price list, if appropriate, establishing a flow-through mechanism to collect the surcharge approved by the Commission and calculated by the Administrator.
- B. On or before the 20th day of each month, each Category 1 service provider responsible for collecting AUSF surcharges shall remit to the Administrator the AUSF surcharge, including any surcharge on wireless providers, collected by that provider during the preceding month. The Category 1 provider shall submit such documentation of AUSF revenues from the AUSF surcharge as may be required by the Administrator.
- C. On or before the 20th day of each month, each Category 2 service provider responsible for collecting AUSF surcharges shall remit to the Administrator the AUSF surcharge collected by that provider during the third preceding month. The Category 2 provider shall submit such documentation of AUSF revenues from the AUSF surcharge as may be required by the Administrator.
- D. Eligible recipients of AUSF support are:
 1. Providers of telecommunications service engaged in providing basic local exchange telephone service in Arizona which have obtained a Commission order authorizing payments from the AUSF; and
 2. Providers that become entitled to AUSF support based upon the provisions of subsection (E).
- E. If the Commission approves AUSF support to a provider of telecommunications service for a defined area, such AUSF support shall also be available to competitive providers of basic local exchange service in the same defined area that are contributing to the AUSF, and that are willing to provide service to all customers in the specific AUSF support area as defined by the Commission. The AUSF support to which the competitive provider is eligible shall be calculated on a per-customer basis, at the same level at which the incumbent provider of telecommunications service receives AUSF support, and shall not result in an increase in the total AUSF support available for the specific census block groups or study area. If basic exchange service is provided through the resale of another carrier's local loop facilities, AUSF support will only be available to the retail service provider if AUSF support is not included in the wholesale price for the resold local service. This Section shall not apply to small local exchange carriers nor to the universal service support being received by any telecommunications service provider as of the effective date of this Article.

- F. For small local exchange carriers and for any basic local exchange telephone service provider receiving universal service support as of the effective date of this Article, the AUSF support shall not be available to competitive providers of basic local exchange service prior to completion of the review provided for in R14-2-A1216. Following completion of the review, AUSF support provided to small and intermediate local exchange carriers shall be available to all competitive providers of basic local exchange service in the same defined area that are contributing to AUSF, and that are willing to provide service to all customers in the specific geographic study area as defined by the Commission, unless otherwise ordered by the Commission.
- G. Defined area, study area, geographic area, and support area mean the same area during the first three years of the effective date of this Article. After the first three years, they will still have the same meaning unless otherwise ordered by the Commission.

Historical Note

New Section R14-2-A1206 renumbered from R14-2-1206 by emergency rulemaking at 23 A.A.R. 865, effective March 29, 2017, for 180 days (Supp. 17-1). R14-2-A1206 permanently renumbered from R14-2-1206 by final rulemaking at 23 A.A.R. 2822, effective September 20, 2017; a subsection reference was updated for Chapter consistency and a Section reference number was changed to agree with a renumbered Section pursuant to A.R.S. § 41-1011(C) (Supp. 17-3).

R14-2-A1207. Calculation of Monthly Payments and the Associated Collections

- A. For the monthly Category 1 AUSF payment, each provider of local switched access shall remit to the Administrator an amount equal to the number of access lines in service on the first day of the month, times the monthly surcharge per access line plus the number of interconnecting trunks in service on the first day of the month, times the monthly interconnecting trunk surcharge.
- B. The monthly AUSF payment that each Category 2 provider shall remit to the Administrator is an amount equal to its monthly intrastate toll revenue times the monthly surcharge percentage.
- C. Payments must be received by the Administrator by the 20th day of each month. If the payment amount is greater than \$10,000, then it shall be wire transferred to the Administrator.
- D. The Administrator shall enter into an appropriate non-disclosure agreement with each telecommunications service provider to assure that information necessary to allocate AUSF funding obligations and to calculate surcharges is reported, maintained, and used in a manner that will protect the confidentiality of company specific data. The Administrator shall not use confidential data for any purpose other than administering the AUSF.

Historical Note

New Section R14-2-A1207 renumbered from R14-2-1207 by emergency rulemaking at 23 A.A.R. 865, effective March 29, 2017, for 180 days (Supp. 17-1). R14-2-A1207 permanently renumbered from R14-2-1207 by final rulemaking at 23 A.A.R. 2822, effective September 20, 2017 (Supp. 17-3).

R14-2-A1208. Monthly AUSF Disbursements

- A. AUSF disbursement shall be made 30 days following the date of AUSF collections.
- B. The Administrator shall not make AUSF support payments to a provider of telecommunications service until the Administrator

has received a copy of a Commission decision authorizing the provider to receive such support.

Historical Note

New Section R14-2-A1208 renumbered from R14-2-1208 by emergency rulemaking at 23 A.A.R. 865, effective March 29, 2017, for 180 days (Supp. 17-1). R14-2-A1208 permanently renumbered from R14-2-1208 by final rulemaking at 23 A.A.R. 2822, effective September 20, 2017 (Supp. 17-3).

R14-2-A1209. Procedures for Handling AUSF Rate Changes

- A. Category 1 and Category 2 AUSF surcharges shall be revised when the Commission authorizes new or revised AUSF payments to any provider of telecommunications service. The Administrator shall calculate the new AUSF flow-through surcharges in accordance with this Article, which surcharges shall become effective upon the Commission's approval of the new or revised AUSF payments.
- B. An annual calculation to revise AUSF flow-through surcharges shall be made by the Administrator on December 1 of each year with an effective date the following January 1. The flow-through surcharges shall be calculated so that the total AUSF funding will equal the AUSF revenue requirements, plus administrative costs as well as any corrections and true-ups. No later than December 1 of each year, the Administrator shall provide notice to the Commission and all telecommunications service providers who pay into the AUSF of the flow-through surcharge rates for the following calendar year.

Historical Note

New Section R14-2-A1209 renumbered from R14-2-1209 by emergency rulemaking at 23 A.A.R. 865, effective March 29, 2017, for 180 days (Supp. 17-1). R14-2-A1209 permanently renumbered from R14-2-1209 by final rulemaking at 23 A.A.R. 2822, effective September 20, 2017 (Supp. 17-3).

R14-2-A1210. Statement of Participation of All Telecommunications Service Providers in the AUSF

- A. Within 30 days of the effective date of this Article, each telecommunications service provider shall provide a letter to the Administrator acknowledging that provider's obligation under this Article to pay AUSF surcharges. Failure to provide such a letter shall be grounds for termination after written notice from the Administrator of the provider's interconnection with the public switched network.
- B. Any telecommunications service provider which begins providing telecommunications service after the effective date of this Article shall, within 30 days of beginning to provide intrastate service in Arizona, provide a letter to the Administrator acknowledging that provider's obligation under this Article to make monthly payments for the local and/or toll portion, as appropriate, of the AUSF contribution in accordance with this Article. Failure to provide such a letter shall be grounds for denying to the provider interconnection with the public switched network.

Historical Note

New Section R14-2-A1210 renumbered from R14-2-1210 by emergency rulemaking at 23 A.A.R. 865, effective March 29, 2017, for 180 days (Supp. 17-1). R14-2-A1210 permanently renumbered from R14-2-1210 by final rulemaking at 23 A.A.R. 2822, effective September 20, 2017 (Supp. 17-3).

R14-2-A1211. Duties and Responsibilities of the AUSF Administrator

The Administrator shall:

1. Develop, obtain, and, on or before December 15 of each year, file with the Commission such information and documentation as the Administrator deems necessary for the establishment and calculation of the Category 1 and Category 2 surcharges for the succeeding year. Such a filing shall also be made each time the Commission authorizes a change in the AUSF funding requirement.
2. Monitor the AUSF payments of all telecommunications providers.
3. Oversee the billing of AUSF surcharges.
4. Prepare the necessary forms to be used in reporting the AUSF collections and disbursements and maintain monthly records.
5. Coordinate the collection and disbursement of AUSF monies in accordance with this Article.
6. Prepare an annual report that provides a detailed accounting of the AUSF collections and disbursements and that identifies the annual cost of administration. The report shall be filed with the Commission on or before April 15 of each year.
7. Monitor procedures for auditing the AUSF collections and disbursements. The audit function shall be performed by an independent outside auditor.

Historical Note

New Section R14-2-A1211 renumbered from R14-2-1211 by emergency rulemaking at 23 A.A.R. 865, effective March 29, 2017, for 180 days (Supp. 17-1). R14-2-A1211 permanently renumbered from R14-2-1211 by final rulemaking at 23 A.A.R. 2822, effective September 20, 2017 (Supp. 17-3).

R14-2-A1212. Interim Administrator

US WEST Communications, Inc., will serve as interim Administrator of the AUSF and will perform the functions detailed herein that are required of the Administrator for a transition period until a private, neutral third party is appointed by the Commission to serve as Administrator of the AUSF. A neutral third party selected through the competitive bid process shall be appointed no later than July 1, 1997.

Historical Note

New Section R14-2-A1212 renumbered from R14-2-1212 by emergency rulemaking at 23 A.A.R. 865, effective March 29, 2017, for 180 days (Supp. 17-1). R14-2-A1212 permanently renumbered from R14-2-1212 by final rulemaking at 23 A.A.R. 2822, effective September 20, 2017 (Supp. 17-3).

R14-2-A1213. Guidelines for Auditing the AUSF

- A. The AUSF records covering both collections and disbursements shall be audited at the end of the first year following the designation of a third party administrator. The AUSF records will then be audited at least once every other year in the subsequent years of operations.
- B. The records shall be examined for accuracy and the existence of effective internal controls to ensure that the AUSF is being administered appropriately and properly.
- C. An independent external auditor selected by the Commission shall be utilized to provide an unbiased audit opinion concerning the AUSF administration procedures and controls.
- D. Any costs for conducting audits will be deducted from the revenues of the AUSF prior to disbursement of funds.

Historical Note

New Section R14-2-A1213 renumbered from R14-2-1213 by emergency rulemaking at 23 A.A.R. 865,

effective March 29, 2017, for 180 days (Supp. 17-1). R14-2-A1213 permanently renumbered from R14-2-1213 by final rulemaking at 23 A.A.R. 2822, effective September 20, 2017 (Supp. 17-3).

R14-2-A1214. Enforcement of Collection of Delinquent AUSF Amounts

- A. The Administrator shall issue past due notices to each provider of telecommunications service that is 15 days or more delinquent in submitting its AUSF payments to the Administrator. A copy of this notice shall be provided to the Commission.
- B. AUSF support payments shall be withheld from any provider of telecommunications service that is delinquent in submitting its AUSF payments to the Administrator. Each provider of telecommunications service will be fully liable for any accrued interest owing on its AUSF contributions that remain unpaid for 30 days. Such delinquent AUSF payments will begin accruing interest at the rate of 1 and 1/2% per month beginning with the 31st day until such amount is paid in full along with all accrued interest.
- C. The local switched access service provider shall promptly notify the Commission and the Administrator of the identity of any wireless provider which fails or refuses to pay its AUSF surcharge. Such notice shall also be directed to the wireless provider. If the wireless provider has not paid the amount due within 30 days of such notice, the interconnection provider shall terminate the wireless provider's interconnection until the full amount together with all accrued interest, is paid in full (unless the payment is in bonafide dispute and the wireless carrier has paid the undisputed amount).
- D. Failure by a telecommunications service provider to comply with the provisions of this Article may result in sanctions as determined by the Commission.

Historical Note

New Section R14-2-A1214 renumbered from R14-2-1214 by emergency rulemaking at 23 A.A.R. 865, effective March 29, 2017, for 180 days (Supp. 17-1). R14-2-A1214 permanently renumbered from R14-2-1214 by final rulemaking at 23 A.A.R. 2822, effective September 20, 2017 (Supp. 17-3).

R14-2-A1215. AUSF Annual Report

- A. On or before April 1 of each year, the Administrator shall file with the Commission an annual report which shall summarize the preceding year activity and contain the following:
 1. A statement of AUSF collections and disbursements.
 2. A record of the total cost of administration of the AUSF.
 3. Audit reports from the audits conducted during the year.
- B. A copy of the annual report shall be provided to each provider of telecommunications service who contributes to the AUSF.

Historical Note

New Section R14-2-A1215 renumbered from R14-2-1215 by emergency rulemaking at 23 A.A.R. 865, effective March 29, 2017, for 180 days (Supp. 17-1). R14-2-A1215 permanently renumbered from R14-2-1215 by final rulemaking at 23 A.A.R. 2822, effective September 20, 2017 (Supp. 17-3).

R14-2-A1216. Review Process

- A. Not later than three years from the effective date of this Article, the Commission staff shall initiate a comprehensive review of this Article and shall provide the Commission with recommendations regarding any necessary changes to the Article. Any interested party may also make such recommendations. The Commission shall consider these recommendations in such proceeding as the Commission deems appropriate.

- B. The costs used to calculate AUSF funding levels for a given provider or AUSF support area shall be reviewed by the Commission at least every three years following the effective date for any authorized AUSF support for the provider or study area. The Commission may reduce the authorized funding level and require that the AUSF surcharge be recalculated on the basis of this review.

Historical Note

New Section R14-2-A1216 renumbered from R14-2-1216 by emergency rulemaking at 23 A.A.R. 865, effective March 29, 2017, for 180 days (Supp. 17-1). R14-2-A1216 permanently renumbered from R14-2-1216 by final rulemaking at 23 A.A.R. 2822, effective September 20, 2017 (Supp. 17-3).

R14-2-A1217. Supersession of Existing USF Mechanism

The universal service funding mechanism initially approved by the Commission in Decision No. 56639 (September 22, 1989) is superseded by this Article, except that any calculation, contribution or collection of, or entitlement to, universal service fund support approved by the Commission prior to the adoption of this Article shall remain in effect until otherwise ordered by the Commission or until the application of this Article leads to a different result.

Historical Note

New Section R14-2-A1217 renumbered from R14-2-1217 by emergency rulemaking at 23 A.A.R. 865, effective March 29, 2017, for 180 days (Supp. 17-1). R14-2-A1217 permanently renumbered from R14-2-1217 by final rulemaking at 23 A.A.R. 2822, effective September 20, 2017 (Supp. 17-3).

PART B. ARIZONA UNIVERSAL SERVICE SUPPORT FOR SCHOOLS AND LIBRARIES

R14-2-B1218. Purpose

The purpose of the E-rate Broadband Special Construction Project Matching Fund Program is to provide state funds for special construction projects involving the deployment of broadband to schools and libraries in Arizona so that Arizona schools and libraries may obtain federal matching funds under the FCC Universal Service Fund's Schools and Libraries Program. This Part shall be interpreted to maximize the availability of internet access to schools and libraries within Arizona and to maximize potential support from the FCC Universal Service Fund's Schools and Libraries Program to fill any connectivity gap in Arizona.

Historical Note

New Section R14-2-B1218 made by emergency rulemaking at 23 A.A.R. 865, effective March 29, 2017, for 180 days (Supp. 17-1). New Section R14-2-B1218 made by final rulemaking at 23 A.A.R. 2822, effective September 20, 2017 (Supp. 17-3).

R14-2-B1219. Definitions

In this Part, unless the context otherwise requires, the following definitions shall apply:

1. The definitions contained in 47 CFR 54.500 (October 1, 2016), with no future editions or amendments, which are incorporated by reference; on file with the Commission; and published by and available from the U.S. Government Publishing Office, 732 North Capitol Street, NW, Washington, DC 20401-0001 and at <https://www.gpo.gov/fdsys/>;
2. The definitions in R14-2-A1201, to the extent applicable; and
3. The following definitions:

- a. "Applicant" is a school, library, consortium, or other eligible entity that requests AUSF funds as provided in this Part.
- b. "Category 1 services" are services used to connect broadband or internet to eligible locations or that provide basic conduit access to the internet, including "telecommunications services," "telecommunications," and "internet access" as defined in 47 CFR 54.5 (October 1, 2016), with no future editions or amendments, which is incorporated by reference; on file with the Commission; and published by and available from the U.S. Government Publishing Office, 732 North Capitol Street, NW, Washington, DC 20401-0001 and at <https://www.gpo.gov/fdsys/>.
- c. "Category 2 services" are internal connections services needed to enable high speed broadband connectivity and broadband internal connections components, including local area networks (LAN/WLAN), internal connections components, basic maintenance of internal connections components, and managed internal broadband service.
- d. "Data Transmission Services and Internet Access" is a Category 1 service type that includes broadband connectivity and basic conduit access to the Internet. This does not include charges for content, equipment purchase, or other services beyond basic conduit access to the internet. This service type also covers lit or dark fiber.
- e. "Department of Education" or "DOE" means the Arizona Department of Education.
- f. "Discount rate" means the percentage of cost coverage for an applicant, determined by the FCC for its E-rate Program using the percentage of students eligible for the National School Lunch Program or an equivalent measure of poverty, and the rural or urban status of the school district or library system as determined by the U.S. Census Bureau.
- g. "Eligible provider" means a provider that has a 498 ID, also known as a Service Provider Identification Number or SPIN, obtained by filing an FCC Form 498.
- h. "Eligible special construction" or "ESC" refers to special construction projects for Category 1 services that deploy new fiber or upgraded facilities to locations eligible for the E-rate Program. ESC may also include non-fiber based services.
- i. "E-rate Broadband Special Construction Project Matching Fund" is the fund in Arizona that will make available to applicants matching state funds for Category 1 special construction costs in order to obtain up to an additional 10 percent discount from the federal universal fund.
- j. "E-rate Modernization Orders" are the FCC Orders that have modernized the FCC's E-rate Program and have maximized schools' and libraries' options for purchasing affordable high-speed broadband connectivity: *Modernizing the E-Rate Program for Schools and Libraries, Connect America Fund*, WC Docket No. 13-184, *Report and Order and Further Notice of Proposed Rulemaking*, 29 FCC Rcd 8870 (2014); and *Second Report and Order and Order on Reconsideration*, 29 FCC Rcd. 15538 (2014).
- k. "E-rate Program" is an FCC program that provides discounts to schools and libraries for eligible products and services.

Corporation Commission - Fixed Utilities

- l. "FCC Form 470" is the Description of Services Requested and Certification Form that schools and libraries complete to request services and establish eligibility.
 - m. "FCC Form 471" is the Services Ordered and Certification Form that schools and libraries use to report services ordered and discounts requested for those services.
 - n. "Federal Communications Commission" or "FCC" is the U.S. government agency that regulates interstate and international communications and oversees the federal universal service fund.
 - o. "Funding Commitment Decision Letter" or "FCDL" is a letter from USAC to the applicant which contains USAC's funding decisions on the applicant's funding requests.
 - p. "Funding Year" or "FY" is a 12-month period during which program support is being provided, beginning on July 1 and ending on June 30 of the following calendar year.
 - q. "Second E-rate Modernization Order" is the FCC Order that modernized the FCC's E-rate Program and provided for additional discounts when states match funds for high-speed broadband connections: *Modernizing the E-Rate Program for Schools and Libraries, Connect America Fund*, WC Docket No. 13-184, *Second Report and Order and Order on Reconsideration*, 29 FCC Rcd 15538 (2014).
 - r. "Special Construction Charges" are the upfront, non-recurring costs of ESC installations or upgrades, consisting of three components:
 - i. Construction of network facilities,
 - ii. Design and engineering, and
 - iii. Project management.
 - s. "Staff designee" is the Director of the Commission's Utilities Division or another individual that the Commission assigns to perform duties under this Part.
 - t. "Universal Service Administrative Company" or "USAC" is an independent, not-for-profit corporation created by the FCC in 1997 to administer the four universal service programs including universal service for schools and libraries.
 - u. "Urban" means an individual school or library that is located in an "Urbanized Area" or "Urban Cluster" with a population of 25,000 or more as determined by the U.S. Census Bureau. All other schools or libraries are designated as "rural."
 - v. "Vendor" is the entity that has been selected by the applicant and whose bid USAC has recognized in a FCDL to the applicant.
- percent of special construction charges as authorized by the Second E-rate Modernization Order.
 - C. An applicant may not receive total support from the federal Universal Service Fund and AUSF in excess of 100 percent of special construction charges.
 - D. Schools and libraries that elect to self-provision shall comply with all of the requirements set forth by the FCC in the Second E-rate Modernization Order.
 - E. An ESC shall provide bandwidth sufficient to meet the minimum recommended bandwidth per student or the minimum recommended bandwidth for educational services established for the relevant funding year by the FCC and, without good cause, shall not exceed those standards.
 - F. If the E-rate Program discount rate and additional match plus the AUSF funds received by an applicant do not cover 100 percent of the special construction charges, the applicant may include in its request filed with the DOE a request for additional AUSF funds. Additional AUSF funds requested under this subsection shall be awarded as follows:
 1. Applicants with 80 percent or higher E-rate Program discount rates shall be awarded AUSF funds before applicants with lower discount rates; and
 2. Applicants with discount rates between 60 and 80 percent may request additional AUSF funds for the uncovered amount, up to 50 percent of the uncovered special construction charges. Amounts requested above 50 percent of the uncovered special construction charges will not be considered without good cause shown by the applicant.

Historical Note

New Section R14-2-B1220 made by emergency rulemaking at 23 A.A.R. 865, effective March 29, 2017, for 180 days (Supp. 17-1). New Section R14-2-B1220 made by final rulemaking at 23 A.A.R. 2822, effective September 20, 2017 (Supp. 17-3).

R14-2-B1221. Procedures for Requesting State Matching Funds

- A. An applicant shall file a request for state matching funds with the Department of Education, prior to submitting its FCC Form 471 to USAC.
- B. If an applicant meets all FCC eligibility requirements for its ESC, the applicant shall obtain a certification letter along with a letter from the Department of Education stating that the applicant is being awarded state matching funds.
- C. An applicant shall provide the Staff designee a copy of the certification letter and letter awarding state matching funds to it issued by the Department of Education and shall include a copy of the letter awarding state matching funds with its FCC Form 471 sent to USAC.
- D. Once USAC determines an applicant's eligibility for federal matching funds and issues a FCDL, the applicant shall notify the Department of Education and request that the Department of Education submit a letter to the Staff designee and the Administrator indicating that USAC has issued a FCDL to the applicant with an award of federal funds and including any other information relevant to the award in that particular case.
- E. Disbursement of AUSF funds shall be available for a period of up to five years after USAC has issued a FCDL to the applicant with an award of federal funds, notwithstanding R14-2-B1220(A).
- F. If USAC reduces or rescinds an applicant's award of federal matching funds following an audit, investigation, enforcement action, or consent decree, the applicant shall immediately notify the Department of Education and the Staff designee and shall reimburse the AUSF fund for any amount by which the

Historical Note

New Section R14-2-B1219 made by emergency rulemaking at 23 A.A.R. 865, effective March 29, 2017, for 180 days (Supp. 17-1). New Section R14-2-B1219 made by final rulemaking at 23 A.A.R. 2822, effective September 20, 2017 (Supp. 17-3).

R14-2-B1220. Availability of State Matching Funds for Special Construction Projects to Deploy Broadband

- A. Applications for AUSF funds for E-rate matching purposes shall be limited to E-rate funding years 2017 and 2018.
- B. An applicant certified by the Department of Education shall be eligible to receive AUSF funds to cover special construction charges to the extent necessary to qualify the applicant to receive additional federal universal service funds of up to 10

AUSF funds received exceeded the federal matching funds award retained.

Historical Note

New Section R14-2-B1221 made by emergency rulemaking at 23 A.A.R. 865, effective March 29, 2017, for 180 days (Supp. 17-1). New Section R14-2-B1221 made by final rulemaking at 23 A.A.R. 2822, effective September 20, 2017 (Supp. 17-3).

R14-2-B1222. Administrator Responsibilities; Contributions to and Disbursements from the AUSF

- A. The Administrator shall be responsible for administering the E-rate Broadband Special Construction Project Matching Fund Program and, in doing so, shall comply with R14-2-A1211 and R14-2-A1214.
- B. The Administrator shall:
 1. Determine the surcharge rates to fund the E-rate Broadband Special Construction Project Matching Fund Program, subject to Commission approval;
 2. Obtain surcharge collections; and
 3. Make disbursements from the AUSF for state matching funds as authorized by the Department of Education and the Commission or its Staff designee, as provided in this Section.
- C. The increase to the existing surcharge to fund the E-rate Broadband Special Construction Project Matching Fund Program shall be separately calculated and implemented in accordance with R14-2-A1204, R14-2-A1205(B) through (E), R14-2-A1206 (A) through (C), and R14-2-A1207.
- D. E-rate Broadband Special Construction Project Matching Fund Program surcharges shall not be collected for a period longer than 12 months unless the surcharge collections from carriers in that 12-month period do not produce \$8 million in total funding. If the amount collected is less than the \$8 million cap, the increase in the AUSF surcharge for this Program shall continue until the \$8 million cap is reached. If the collections produce more than \$8 million in the 12-month period, the Commission Staff shall make a recommendation to the Commission regarding the disposition of the over-collected funds.
- E. A telecommunications service provider may collect the E-rate Broadband Special Construction Project Matching Fund Program surcharges from its customers in any manner it reasonably determines to be best for its business and its customers, but shall not in the aggregate collect more than that authorized by the Commission. The telecommunications service providers shall report and submit payment of assessments according to the schedule established by the Administrator.
- F. Within 30 days from the effective date of these rules, each telecommunications service provider that interconnects to the public switched network shall provide a letter to the Administrator acknowledging the telecommunications service provider's obligation to pay the new E-rate Broadband Special Construction Project Matching Fund Program surcharges authorized in this Part. Failure to provide such a letter may be grounds for denying the service provider interconnection with the public switched network, upon notice and opportunity to be heard before the Commission.
- G. An applicant shall:
 1. After accepting an eligible provider's bid for an ESC, notify within 15 days the Department of Education and the Administrator of the bid amount accepted so that the Administrator may allocate funds for the ESC; and
 2. After the vendor completes the project, submit to the Department of Education and Administrator a request for disbursement of the funds allocated for the ESC.

- H. The Administrator shall disburse AUSF funds allocated for an applicant's ESC upon approval from the Commission or its Staff designee.

Historical Note

New Section R14-2-B1222 made by emergency rulemaking at 23 A.A.R. 865, effective March 29, 2017, for 180 days (Supp. 17-1). New Section R14-2-B1222 made by final rulemaking at 23 A.A.R. 2822, effective September 20, 2017 (Supp. 17-3).

R14-2-B1223. Discontinuation of E-rate Broadband Special Construction Project Matching Fund Program

- A. No applications for the E-rate Broadband Special Construction Project Matching Fund Program shall be accepted after the 2018 E-rate FY procurement cycle.
- B. Except as provided in subsection (C), the E-rate Broadband Special Construction Project Matching Fund Program shall be discontinued when all of the funds have been collected and all of the funds collected have been disbursed.
- C. The E-rate Broadband Special Construction Project Matching Fund Program may be discontinued earlier or later than specified in subsection (B) if required by the FCC or USAC.

Historical Note

New Section R14-2-B1223 made by emergency rulemaking at 23 A.A.R. 865, effective March 29, 2017, for 180 days (Supp. 17-1). New Section R14-2-B1223 made by final rulemaking at 23 A.A.R. 2822, effective September 20, 2017 (Supp. 17-3).

Editor's Note: The Arizona Corporation Commission has determined that the following Article is exempt from the Attorney General approval provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

ARTICLE 13. TELECOMMUNICATIONS INTERCONNECTION AND UNBUNDLING

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General approval provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1301. Application of Rules

These rules govern interconnection requirements as provided in R14-2-1112. These rules apply to the provision of local exchange services by and between local exchange carriers as those terms are defined in R14-2-1102.

Historical Note

Adopted effective September 6, 1996, under an exemption as determined by the Arizona Corporation Commission (Supp. 96-3).

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General approval provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1302. Definitions

In this Article, unless the context otherwise requires, the following definitions shall apply:

Corporation Commission - Fixed Utilities

1. "800 data base" means an 800 service data base that contains information on the screening and routing of 800 numbers that are in service.
2. "AIN data base" means a data base that is used in connection with an Advanced Intelligent Network (AIN) architecture. The AIN architecture enables telecommunications service providers to introduce advanced telecommunications services.
3. "ALI" or "Automatic Location Identification" means the process of electronically identifying and displaying the name of the subscriber and address of the calling telephone number to a person answering a 911 call.
4. "Central Office Code" means the first three digits of a seven-digit telephone number. Central office codes are assigned to telecommunications providers by the central office code administrator in accordance with the industry's central office code assignment guidelines.
5. "Centralized Message Distribution System" or "CMDMS" means the system managed by Bellcore that assists in billing third party calls. Access to CMDMS requires a Bellcore client company host.
6. "Directory Assistance Database Listings" means customer name, address, and telephone number listings in the LEC directory assistance database.
7. "E911" access means the ability of a LEC to interconnect with and deliver emergency calls, and associated ANI and ALI information, where available, to the E-911 controlling office for further routing to the appropriate Public Safety Answering Point.
8. "Essential facility or service" means any portion, component, or function of the network or service offered by a provider of local exchange service: that is necessary for a competitor to provide a public telecommunications service; that cannot be reasonable duplicated; and for which there is no adequate economic alternative to the competitor in terms of quality, quantity, and price.
9. "Extended Area Service" or "EAS" means local (toll-free) calling provided between local exchange carrier exchanges (service areas).
10. "Incumbent Local Exchange Carrier" means any company providing service as a local exchange carrier in Arizona prior to June 23, 1995.
11. "Interconnection Services" means those features and functions of a local exchange carriers network that enable other local exchange carriers to provide local exchange and exchange access services. Interconnection services include, but are not limited to, those services offered by local exchange carriers which have been classified by the Commission as essential services.
12. "LIDB" or "Line Information Data Base" means a data base that contains access line information that is used by telecommunications service providers for billing validation.
13. "Local Exchange Carrier" or "LEC" means a telecommunications company that provides local exchange service as one of the telecommunications services it offers to the public.
14. "Local Number Portability" means permitting customers to choose between authorized providers of local exchange services within a given wire center without changing their telephone number and without impairment of quality, functionality, reliability, or convenience of use.
15. "Mutual traffic exchange" means the exchange of terminating local and EAS traffic between LECs such that all LECs terminate the local exchange traffic of all other LECs without explicitly charging each other for such traffic exchange.
16. "New Entrant Local Exchange Carrier" or "NELEC" means any company certificated by the Commission after June 23, 1995, as a local exchange carrier.
17. "Numbering Plan Administration" or "NPA" means a specific geographic area identified by a unique NPA code. The NPA (area code) is a 3-digit code that identifies the NPA for purposes of call routing. The NPA Administrator is the entity within a NPA that assigns central office prefixes (telephone numbers) to users in the NPA.
18. "Public Safety Answering Point" or "PSAP" means a communications facility operated on a 24-hour basis that is assigned the responsibility to receive 911 calls and, as appropriate, to dispatch public or private safety services or to extend, transfer, or relay 911 calls to the appropriate public or private safety agencies.
19. "Rate Center" means specific geographic locations from which airline mileage measurements are determined for the purpose of rating local, Extended Area Service (EAS), and toll traffic.
20. "Reciprocal Compensation" means the arrangement by which local exchange carriers compensate each other for like services used in the termination of local calls between the customers of the two carriers.
21. "Resale of local service" means the purchase by a local exchange carrier from another local exchange carrier a local exchange service provisioned directly to an end-user customer and rebrands it as its own service.
22. "Total Service Long Run Incremental Cost" or "TSLRIC" is as defined in R14-2-1102(17).
23. "White Pages Listings" means customer name, address, and telephone number listings in the white pages Section of LEC telephone directories.
24. "Yellow Pages Listings" means customer name, address, and telephone number listings in the yellow pages Section of LEC telephone directories.

Historical Note

Adopted effective September 6, 1996, under an exemption as determined by the Arizona Corporation Commission (Supp. 96-3).

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General approval provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1303. Points of Interconnection

- A. Incumbent LECs and NELECs shall, by mutual agreement, arrange for the points of interconnection of their respective networks.
- B. Each company interconnecting pursuant to the provisions of this Section shall be responsible for building and maintaining its own facilities to the point of interconnection. Companies are free to negotiate points of interconnection that involve the recurring and non-recurring compensation by one carrier for the transport facilities of another carrier.
- C. Each company interconnecting pursuant to the provisions of this Section shall be responsible for the traffic that originates on its network up to the point of interconnection, and for the terminating traffic handed off at the point of interconnection to the call's destination.
- D. Should the companies negotiating interconnection arrangements not be able to agree upon the points of interconnection, written notice to that effect shall be made to the Commission Staff by the carrier responding to the interconnection request. The notice shall contain a detailed description of the request

Corporation Commission - Fixed Utilities

itself and why interconnection at the point requested is not feasible.

Historical Note

Adopted effective September 6, 1996, under an exemption as determined by the Arizona Corporation Commission (Supp. 96-3).

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General approval provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1304. Reciprocal Compensation

- A. Local and EAS traffic shall be terminated by the LECs over the interconnection facilities described in R14-2-1303 on the basis of mutual traffic exchange, for a period of 24 months from the effective date of Commission approval of the first interconnection agreement pursuant to R14-2-1506.
- B. Any charges for the underlying transport facilities between the carriers shall be limited to the construction and maintenance charges specified in R14-2-1303.
- C. Notwithstanding the provisions of subsection (A), compensation arrangements may be made by mutual agreement between companies.
- D. If incumbent local exchange carriers and new entrant local exchange carriers do not arrive at compensation arrangements for local call termination by mutual agreement, they shall each file tariffs proposing permanent compensation mechanisms for terminating local calls within 18 months of the effective date of Commission approval of the first interconnection agreement pursuant to R14-2-1506. This Commission has expressed a preference for flat rate local calling and therefore those tariffs shall not contain usage-sensitive call termination charges, unless otherwise approved by the Commission.

Historical Note

Adopted effective September 6, 1996, under an exemption as determined by the Arizona Corporation Commission (Supp. 96-3).

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General approval provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1305. Local and Toll Rating Centers

- A. The incumbent LEC's local calling areas and existing EAS boundaries will be utilized for the purpose of classifying traffic as local, EAS, or toll for purposes of intercompany compensation.
- B. All LECs will use central office codes with rate centers matching the incumbent LEC's rate centers.
- C. All LECs shall be assigned the necessary central office codes for rate purposes.
- D. Until a central office code administrator is designated by the Federal Communications Commission to replace US West Communications, Inc., central office codes will be assigned to LECs, at no charge, in accordance with the industry's central office code assignment guidelines.

- E. No LEC may charge another LEC for changes to switch routing software necessitated by the creation, assignment, or reassignment of NPA or central office codes.

Historical Note

Adopted effective September 6, 1996, under an exemption as determined by the Arizona Corporation Commission (Supp. 96-3).

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General approval provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1306. Access to Databases and other Network Functions

- A. All LECs, including new and incumbent LECs, are required to provide nondiscriminatory access to all necessary network functions, databases, and service components required to provide competitive local exchange services. These elements include, but are not limited to, directory assistance database listings, white page listings, yellow page listings, 800 LIDB and AIN databases, CMDS hosting, Busy Line Verification and Busy Line Interrupt operator services, distribution of telephone directories, inclusion of NELEC information in the Call Guide Section of the directory, and E-911.
- B. Access to additional network functions, databases, and service components may be required from time to time by order of the Commission. This provision does not preclude the incumbent LEC and NELECs from negotiating voluntary arrangements for access to additional network functions, databases, or service components so long as the contracts for the voluntary arrangements are filed with the Commission and such access is made available to all other NELECs, upon request, under non-discriminatory terms and conditions, including price.
- C. Incumbent LECs shall provide access that is at least equal in type, quality, and price to that provided to themselves, to any affiliate, from any affiliate, or to another incumbent LEC.
- D. LECs shall make available the call setup signaling resources and information necessary for setting up local and interexchange connections, including the use of signaling protocols used in the querying of data bases such as 800 and LIDB. LECs shall be prohibited from interfering with the transmission of signaling information between customers and network operators. LECs and NELECs shall have a duty to correct errors, support network management in a way that promotes network integrity, and prevent fraudulent use of a LEC's network.
- E. All LECs and NELECs shall cooperate in the development of a process to handle intercompany service ordering, provisioning, and billing, and, repair service referrals.

Historical Note

Adopted effective September 6, 1996, under an exemption as determined by the Arizona Corporation Commission (Supp. 96-3).

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General approval provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1307. Unbundling

- A. Local exchange carriers with less than 200,000 access lines shall be exempt from the unbundling requirements in these

rules. Such exemption shall expire upon the receipt of a bona fide request from a certificated local exchange carrier for an unbundled facility, or if a carrier voluntarily chooses to offer unbundled services.

- B. The local exchange carrier's network facilities or services which are determined to be essential shall be provided on terms and under conditions that are equivalent to the terms and conditions under which a local exchange carrier provides such essential facilities or services to itself in the provision of the local exchange carrier's services. The pricing of essential facilities or services shall be pursuant to R14-2-1310 on pricing.
- C. The following local exchange carrier network capabilities are classified as essential facilities or services:
 1. Termination of local calls,
 2. Termination of long distance calls,
 3. Interconnection with E911 and 911 services,
 4. Access to numbering resources,
 5. Dedicated channel network access connections, and
 6. Unbundled loops.
- D. Incumbent local exchange carriers shall make essential facilities or services available for purchase and use pursuant to negotiated agreements or an approved statement of terms and conditions which shall be filed with the Commission.
- E. The following guidelines apply when a certificated telecommunications company makes a bona fide request of an incumbent local exchange carrier to unbundle any network facility or service capability not identified in subsection (C) or when a certificated telecommunications company makes a bona fide request to a NELEC that is the sole owner of essential facilities in the geographic area to unbundle any network facility or service capability. The request shall specify whether the network facility or service is considered by the requesting company to be essential.
 1. For the 12 months following the effective date of these rules, the local exchange carrier shall respond to any such request in writing within 120 days. Thereafter, the local exchange carrier shall respond to any such request in writing within 90 days.
 2. The response to an unbundling request shall clearly state whether the LEC or NELEC intends to provide the network facility or service on an unbundled basis and, if requested, whether it will be offered as an essential facility or service. If the LEC or NELEC does not intend to provide the requested network facility or service, the response shall state the basis for such refusal.
 3. If the local exchange carrier or NELEC agrees to provide the network facility or service on an unbundled basis, the facility or service shall be provided pursuant to negotiated agreements or an approved statement of terms and conditions which shall be filed with the Commission.
 4. If the local exchange carrier or NELEC asserts that unbundling the network facility or service is not technically feasible, notice to that effect shall be made to the requesting party and to the Commission.

Historical Note

Adopted effective September 6, 1996, under an exemption as determined by the Arizona Corporation Commission (Supp. 96-3).

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General approval provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin

v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1308. Number Portability

- A. All local exchange carriers shall make local number portability available to facilitate the ability of a customer to switch between authorized local exchange carriers within a given wire center without changing their telephone number and without impairment of quality, functionality, reliability, or convenience of use. Implementation of local number portability or other forms of local number portability shall be based on a technically and economically feasible solution that meets the needs of Arizona consumers and carriers in a competitively neutral manner.
- B. An incumbent local exchange carrier serving less than 200,000 access lines will not be required to implement local number portability solutions absent the certification and commitment by a new entrant local exchange carrier to provide service on a facilities basis in the incumbent's service territory.
- C. Until such time as local number portability becomes available through database technology, local exchange carriers shall provide interim local number portability pursuant to negotiated agreements or an approved statement of terms and conditions, which shall be filed with the Commission, and shall in addition comply with such other or additional requirements as may be adopted by the Commission.
- D. All telecommunication providers who terminate traffic into an exchange, or exchanges, in which the local number portability database solution has been implemented shall utilize the database solution to ensure efficient and appropriate routing of traffic to Arizona customers.

Historical Note

Adopted effective September 6, 1996, under an exemption as determined by the Arizona Corporation Commission (Supp. 96-3).

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General approval provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1309. Cost Methodology

TSLRIC is the cost standard to be employed by the incumbent local exchange carrier in conducting the cost studies that establish the underlying cost of local exchange carrier services including unbundled essential facilities and services.

Historical Note

Adopted effective September 6, 1996, under an exemption as determined by the Arizona Corporation Commission (Supp. 96-3).

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General approval provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1310. Pricing

- A. Pricing of Basic Communication Services.
 1. The incumbent local exchange carrier shall provide the Commission with price floor calculations for local exchange and long distance services to ensure the avoidance of anti-competitive pricing practices. A NELEC can price below an incumbent LEC's TSLRIC price.

2. Whenever the incumbent local exchange carrier introduces a new local exchange service or long distance service, or proposes to change the rate for an existing local exchange service or long distance service, the local exchange carrier shall provide to the Commission information that demonstrates that the proposed rate equals or exceeds a price floor calculation for that service using an imputation test described in subsection (C).
- B. Pricing of Interconnection Services by Local Exchange Providers.**
1. Incumbent local exchange carriers shall establish the price of each interconnection service, including access to databases and other network functions as described in R14-2-1306, at a level equivalent to its TSLRIC-derived costs which may include an assignment of verifiable indirect costs or a 10% addition for indirect costs to the TSLRIC direct costs at the choice of the incumbent LEC.
 2. Interim number portability shall be provided by the incumbent local exchange carrier at a price equal to TSLRIC. Any compensation which would otherwise have been received had a local or EAS call to a forwarded number been terminated directly to a customer's chosen carrier, should be passed through from the carrier from whose network the forwarded number is assigned, to the customer's chosen carrier to whose network the number is forwarded.
- C. Imputation**
1. An incumbent local exchange carrier shall recover in the retail price of each telecommunications service offered by the company the TSLRIC of all nonessential, and the imputed prices of all essential services, facilities, components, functions, or capabilities that are utilized to provision such telecommunications service, whether such service is offered pursuant to tariff or private contract.
 2. Imputation requirements of this Section shall be applied in a manner that will permit a carrier providing a service to a customer that is or that becomes eligible for universal service support by order of the Commission to provide such retail service at a price that is net of any Commission-ordered universal service support funding, pursuant to the provisions of the Arizona Universal Service Fund rules.

Historical Note

Adopted effective September 6, 1996, under an exemption as determined by the Arizona Corporation Commission (Supp. 96-3).

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General approval provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1311. Waivers

The Commission may consider variations or exemptions from the terms or requirements of any of the rules included herein (14 A.A.C. 2, Article 13) upon application of an affected party. The application must set forth the reasons why the public interest will be served by the variation or exemption from the Commission rules. Any variation or exemption granted shall require an order of the Commission. Where a conflict exists between these rules and an

approved tariff or order of the Commission, the provision of the approved tariff or order of the Commission shall apply.

Historical Note

Adopted effective September 6, 1996, under an exemption as determined by the Arizona Corporation Commission (Supp. 96-3).

ARTICLE 14. EMERGENCY EXPIRED**R14-2-1401. Emergency Expired****Historical Note**

Emergency rule adopted effective December 22, 1995, effective for a maximum of 180 days, under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 95-4). Emergency expired.

R14-2-1402. Emergency Expired**Historical Note**

Emergency rule adopted effective December 22, 1995, effective for a maximum of 180 days, under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 95-4). Emergency expired.

R14-2-1403. Emergency Expired**Historical Note**

Emergency rule adopted effective December 22, 1995, effective for a maximum of 180 days, under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 95-4). Emergency expired.

R14-2-1404. Emergency Expired**Historical Note**

Emergency rule adopted effective December 22, 1995, effective for a maximum of 180 days, under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 95-4). Emergency expired.

R14-2-1405. Emergency Expired**Historical Note**

Emergency rule adopted effective December 22, 1995, effective for a maximum of 180 days, under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 95-4). Emergency expired.

R14-2-1406. Emergency Expired**Historical Note**

Emergency rule adopted effective December 22, 1995, effective for a maximum of 180 days, under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 95-4). Emergency expired.

R14-2-1407. Emergency Expired**Historical Note**

Emergency rule adopted effective December 22, 1995, effective for a maximum of 180 days, under a court-ordered exemption as determined by the Arizona Cor-

poration Commission (Supp. 95-4). Emergency expired.

R14-2-1408. Emergency Expired

Historical Note

Emergency rule adopted effective December 22, 1995, effective for a maximum of 180 days, under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 95-4). Emergency expired.

R14-2-1409. Emergency Expired

Historical Note

Emergency rule adopted effective December 22, 1995, effective for a maximum of 180 days, under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 95-4). Emergency expired.

Editor's Note: The Arizona Corporation Commission has determined that the following Article is exempt from the Attorney General approval provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

ARTICLE 15. ARBITRATION AND MEDIATION

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General approval provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1501. Application of Rules

These rules govern procedures mandated by the Telecommunications Act of 1996, 47 U.S.C. 252, regarding the mediation, arbitration, review, and approval of interconnection agreements.

Historical Note

Emergency rule adopted effective July 23, 1996, effective for a maximum of 180 days, under a court-ordered exemption as determined by the Arizona Corporation Commission; filed with the Office of the Secretary of State July 15, 1996 (Supp. 96-3). Emergency expired. Emergency rule adopted again effective January 17, 1997, for a maximum of 180 days, under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 97-1). Emergency expired. New Section adopted effective August 27, 1997, under an exemption as determined by the Arizona Corporation Commission (Supp. 97-3).

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General approval provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1502. Definitions

- A. "Arbitration" means an alternative dispute resolution process in which the Arizona Corporation Commission decides the matter in dispute after the parties have had an opportunity to present their respective positions.
- B. "Arizona Corporation Commission" or "Commission" means the regulatory agency of the state of Arizona that has jurisdiction over public service corporations operating in Arizona.

- C. "Duty to Negotiate in Good Faith" means that parties meet and confer at reasonable times and places with minds open to persuasion and with an eye toward reaching agreement on mandatory subjects of bargaining.
- D. "Interconnection Agreement" means a formal agreement between any telecommunications carriers providing or intending to provide telecommunications services in Arizona, setting forth the particular terms and conditions under which interconnection and resale services, as appropriate, will be provided.
- E. "Mediation" means a voluntary alternative dispute resolution process in which a neutral third party assists the parties in reaching their own settlement. The mediator does not have the power to impose a resolution. The role of the mediator and the goal of the process is to help the parties achieve their own resolution.
- F. "Petition for arbitration" means the petition requesting arbitration of issues unresolved in the negotiation of an interconnection agreement.
- G. "Petitioner" means the party to the negotiation that files the petition for arbitration with the Commission.
- H. "Request for negotiation" means a formal request made by any telecommunications carrier providing or intending to provide telecommunications services in Arizona to another telecommunications carrier to negotiate an interconnection agreement.
- I. "Respondent" or "responding party" means the nonpetitioning party to the request for arbitration.

Historical Note

Emergency rule adopted effective July 23, 1996, effective for a maximum of 180 days, under a court-ordered exemption as determined by the Arizona Corporation Commission; filed with the Office of the Secretary of State July 15, 1996 (Supp. 96-3). Emergency expired. Emergency rule adopted again effective January 17, 1997, for a maximum of 180 days, under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 97-1). Emergency expired. New Section adopted effective August 27, 1997, under an exemption as determined by the Arizona Corporation Commission (Supp. 97-3).

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General approval provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1503. Negotiation

A telecommunications carrier initiating a request to negotiate shall notify the Commission when a request for negotiation has been made pursuant to 47 U.S.C. 252. The notification shall include the names of the negotiating parties and the date of the request. The notification shall be served on all parties to the negotiation.

Historical Note

Emergency rule adopted effective July 23, 1996, effective for a maximum of 180 days, under a court-ordered exemption as determined by the Arizona Corporation Commission; filed with the Office of the Secretary of State July 15, 1996 (Supp. 96-3). Emergency expired. Emergency rule adopted again effective January 17, 1997, for a maximum of 180 days, under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 97-1). Emergency expired. New Section adopted effective August 27, 1997, under an exemption as determined by the Arizona Corporation Commission (Supp. 97-3).

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General approval provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1504. Mediation

- A.** Any party negotiating an agreement under 47 U.S.C. 252 may, at any point in the negotiation, ask the Commission to participate in the negotiation and to mediate any differences arising in the course of the negotiation.
- B.** If a party requests mediation by the Commission, a non-Hearing Division employee of the Commission will be appointed to act as mediator.
- C.** A request for mediation shall contain a brief statement of the nature of the dispute and the names, addresses, and telephone and telefax numbers of the parties or their representatives. Copies of the request shall be served on all parties to the negotiation.
- D.** The mediator shall have discretion to regulate the course of the mediation, including scheduling of mediation sessions, in consultation with the parties. The following general procedures apply:
 - 1. The mediator will not impose a settlement but can offer proposals for settlement;
 - 2. The mediator may meet individually with the parties or attorneys during mediation;
 - 3. Only the parties to the negotiation may attend the mediation session or sessions, unless all parties consent to the presence of others;
 - 4. Parties shall provide the mediator with a brief statement of position and relevant background information prior to the first mediation session. The mediator may ask for this information to be supplemented;
 - 5. The mediator will not provide legal advice to the parties, nor will any mediator's statements as to law or policy be binding on the Commission, unless later adopted by the Commission;
 - 6. The mediation process is confidential, to the extent permitted by law. No stenographic record will be kept.
- E.** All parties participating in a requested Commission mediation have a duty to negotiate in good faith. The mediator may terminate the mediation if it appears that the likelihood of agreement is remote or if a party is not participating in good faith, or for other good cause. Ordinarily, a mediation should not be terminated prior to the completion of at least one mediation session.

Historical Note

Emergency rule adopted effective July 23, 1996, effective for a maximum of 180 days, under a court-ordered exemption as determined by the Arizona Corporation Commission; filed with the Office of the Secretary of State July 15, 1996 (Supp. 96-3). Emergency expired. Emergency rule adopted again effective January 17, 1997, for a maximum of 180 days, under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 97-1). Emergency expired. New Section adopted effective August 27, 1997, under an exemption as determined by the Arizona Corporation Commission (Supp. 97-3).

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General approval provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin

v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1505. Arbitration

- A.** Filing and Service of a Petition for Arbitration.
 - 1. During the period from the 135th to the 160th day (inclusive) after the date on which an incumbent local exchange carrier receives a request for negotiation under 47 U.S.C. 252(b)(1), any party to the negotiation may petition the Arizona Corporation Commission to arbitrate any open issues. The petition shall request arbitration of all issues which are unresolved at the time the petition is filed. Parties may continue to negotiate or otherwise resolve the disputed issues after arbitration is requested. The pendency of a mediation shall not bar a party from petitioning the Commission for arbitration.
 - 2. An original and 10 copies of a petition for arbitration shall be filed with the Commission. The petitioner shall deliver to the respondent a complete copy of the petition and all accompanying documentation on the same day that the petition is filed with the Commission.
- B.** Contents of Petition and Documentation.
 - 1. A petition for arbitration shall clearly set forth the date upon which the original request for negotiation was received and the dates 135 days, 160 days, and nine months thereafter.
 - 2. A petition for arbitration shall be accompanied by all relevant documentation concerning the unresolved issues, the position of each of the parties with respect to those issues, and any other issue discussed and resolved by the parties. Relevant documentation includes, but is not limited to, the following:
 - a. A brief or other written statement addressing the disputed issues. The brief should address, in addition to any other matters, how the parties' positions and any conditions requested meet or fail to meet the requirements of 47 U.S.C. 251; any applicable Federal Communication Commission regulations; and any applicable regulation, order, or policy of this Commission.
 - b. Where prices are in dispute, the petitioner shall submit its proposed rates or charges and related supporting materials.
 - c. Any conditions which petitioner requests be imposed.
 - d. A proposed schedule for implementation of the terms and conditions of the agreement.
 - e. The petition may include a recommendation as to any information which should be requested from the parties by the arbitrator pursuant to 47 U.S.C. 252(b)(4)(B). The recommendation should state why the information is necessary for the arbitrator to reach a decision on the unresolved issues.
 - f. A proposed interconnection agreement.
 - g. Any other documents relevant to the dispute, including copies of all documents in their possession or control on which they rely in support of their positions or which they intend to present at the arbitration.
- C.** Opportunity to Respond. The respondent may respond to the petition for arbitration within 25 days of the filing of the petition. The respondent shall respond to all the specific issues raised in the petition for arbitration.
- D.** Confidentiality. Petitions, responses, accompanying material, and any documents provided to the Commission pursuant to a request under 47 U.S.C. 252(b)(4)(B) may be subject to the

Corporation Commission - Fixed Utilities

Arizona public disclosure law. However, a petition or response may include a request for issuance of a protective order.

E. Discovery.

1. Parties must cooperate in good faith in the voluntary, prompt, and informal exchange of all documents and other information relevant to the disputed issues, subject to claims of privilege or confidentiality. Parties must exchange copies of all documents relevant to the dispute, including those on which they rely in support of their position or which they intend to present at the arbitration.
2. At the time of filing of a petition for arbitration, or a response, the petitioner may file discovery requests on the responding party, with an information copy provided to the arbitrator.
3. Discovery requests not responded to may be submitted to the arbitrator, with a request that the arbitrator order the discovery, pursuant to 47 U.S.C. 252(b)(4)(B). The request should include an explanation of why the information is necessary to reach a decision on the unresolved issues.
4. Failure to cooperate in discovery may be considered as a failure to negotiate in good faith.

F. Appointment and Authority of Arbitrator.

1. Arbitrations will be conducted by Commission Hearing Officers.
2. The arbitrator will exercise all authority necessary to conduct the arbitration, subject to the provisions of these rules.
3. The arbitrator may, in the arbitrator's discretion and to the extent practical, consolidate proceedings under 47 U.S.C. 252 in order to reduce administrative burdens on telecommunications carriers, other parties to the proceedings, and the Commission.
4. The arbitrator may request the assistance of members of the Commission staff in reviewing the petition and accompanying materials, to the extent such staff members have not acted as mediator with respect to the same interconnection agreement between the same parties.
5. The arbitrator will be authorized to recommend to the Commission a resolution of the disputed issues and any appropriate conditions to be imposed in the form of a Recommended Opinion and Order. The Commission will issue a final decision not later than nine months after the date on which the local exchange carrier received the request to negotiate.

G. Arbitration Proceeding. Arbitration allows an opportunity for parties to present their positions. However, arbitration does not require sworn testimony or cross-examination of witnesses. Arbitration proceedings will be conducted pursuant to procedures established by the Hearing Officer.

H. Fees and Costs. Each party shall be responsible for bearing its own fees and costs.

I. Any person wishing to comment on the Recommended Opinion and Order may do so by filing written comments with the Commission prior to the Commission's final decision.

Historical Note

Emergency rule adopted effective July 23, 1996, effective for a maximum of 180 days, under a court-ordered exemption as determined by the Arizona Corporation Commission; filed with the Office of the Secretary of State July 15, 1996 (Supp. 96-3). Emergency expired.

Emergency rule adopted again effective January 17, 1997, for a maximum of 180 days, under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 97-1). Emergency expired. New Section adopted effective August 27,

1997, under an exemption as determined by the Arizona Corporation Commission (Supp. 97-3).

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General approval provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1506. Filing and Service of Request for Approval of Interconnection Agreement

- A.** An interconnection agreement shall be submitted to the Commission for approval under 47 U.S.C. 252(e) within 30 calendar days of the issuance of the Commission's final decision on the petition for arbitration, in the case of arbitrated agreements, or, in the case of negotiated agreements, within 30 calendar days of the execution of the agreement. The 30-day deadline may be extended by the Commission for good cause.
- B.** An original and 10 copies of requests for approval shall be filed with the Docket Control section of the Commission. Any party to the agreement may submit a request for approval. Unless filed jointly by all parties, the request for approval and any accompanying materials should be served on the other signatories on the day of the filing.
- C.** A request for approval shall include the documentation set out in this subsection. The materials can be filed jointly or separately by the parties to the agreement but should all be filed by the 30-day deadline set out in subsection (A).
 1. Negotiated Agreements. The following documentation must be filed:
 - a. A complete copy of the signed agreement, including any attachments or appendices.
 - b. A brief or memorandum summarizing the main provisions of the agreement, setting forth the party's position as to why the agreement should be adopted, including a statement as to why the agreement does not discriminate against nonparty telecommunications carriers, is consistent with the public interest, convenience, and necessity, and is consistent with applicable state law requirements.
 2. Arbitrated Agreements. The following documentation must be filed:
 - a. A complete copy of the signed agreement, including any attachments or appendices.
 - b. A brief or memorandum summarizing the main provisions of the agreement, setting forth the party's position as to why the agreement should or should not be adopted, in whole or in part, and a statement explaining how the agreement, in whole or in part, meets or does not meet each of the applicable specific requirements of 47 U.S.C. 251, including any applicable Federal Communications Commission regulations.
 - c. Complete and specific information to enable the Commission to make the determinations required by 47 U.S.C. 252(d).
 - d. A party may file a statement with the signed interconnection agreement, indicating that it has executed the agreement under protest and does not waive its right to appeal specified provisions of the agreement that were mandated by Order of the Commission.
 3. Combination Agreements (Arbitrated/Negotiated). Any agreement containing both arbitrated and negotiated provisions shall include the foregoing materials as appropriate, depending on whether a provision is negotiated or

Corporation Commission - Fixed Utilities

arbitrated. The memorandum should clearly identify which provisions were negotiated and which were arbitrated.

- D. Any filing not containing the required materials will be rejected and must be refiled when complete. The statutory timelines will not begin to run until a request has been properly filed.
- E. Agreements containing both arbitrated and negotiated provisions will be subject to the 30-day deadline specified in 47 U.S.C. 252(e)(4).

Historical Note

Emergency rule adopted effective July 23, 1996, effective for a maximum of 180 days, under a court-ordered exemption as determined by the Arizona Corporation Commission; filed with the Office of the Secretary of State July 15, 1996 (Supp. 96-3). Emergency expired. Emergency rule adopted again effective January 17, 1997, for a maximum of 180 days, under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 97-1). Emergency expired. New Section adopted effective August 27, 1997, under an exemption as determined by the Arizona Corporation Commission (Supp. 97-3).

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General approval provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1507. Approval Procedure

- A. Unless otherwise ordered by the Commission, a hearing will not be held for a request for approval of an interconnection agreement.
- B. The Commission will enter an order approving or rejecting the interconnection agreement within 30 days of request for approval of arbitrated agreements and agreements containing both arbitrated and negotiated provisions, or within 90 days of request for approval of negotiated agreements, with written findings as to any deficiencies.

Historical Note

Emergency rule adopted effective July 23, 1996, effective for a maximum of 180 days, under a court-ordered exemption as determined by the Arizona Corporation Commission; filed with the Office of the Secretary of State July 15, 1996 (Supp. 96-3). Emergency expired. Emergency rule adopted again effective January 17, 1997, for a maximum of 180 days, under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 97-1). Emergency expired. New Section adopted effective August 27, 1997, under an exemption as determined by the Arizona Corporation Commission (Supp. 97-3).

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General approval provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1508. Amendments

Any amendments to an interconnection agreement shall be filed with the Commission and, if not rejected by the Commission within 30 days of filing, such amended agreements will become effective.

1. For negotiated amendments, including amendments resolved by Commission or private mediation, Commission rejection shall be limited to discrimination against nonparty telecommunications carriers, lack of consistency with the public interest, convenience, and necessity, or lack of consistency with applicable state law requirements.
2. For amendments resolved through arbitration, whether by the Commission or private arbitrator, Commission rejection shall be limited to failure to meet any of the applicable specific requirements of 47 U.S.C. 251, including any applicable Federal Communications Commission regulations.

Historical Note

Adopted effective August 27, 1997, under an exemption as determined by the Arizona Corporation Commission (Supp. 97-3).

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General approval provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1509. Replacement or Subsequent Interconnection Agreements

Replacement or subsequent interconnection agreements are subject to the provisions of this Article.

Historical Note

Adopted effective August 27, 1997, under an exemption as determined by the Arizona Corporation Commission (Supp. 97-3).

ARTICLE 16. RETAIL ELECTRIC COMPETITION

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General approval provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1601. Definitions

In this Article, unless the context otherwise requires:

1. "Affected Utilities" means the following public service corporations providing electric service:
Tucson Electric Power Company, Arizona Public Service Company, Citizens Utilities Company, Arizona Electric Power Cooperative, Trico Electric Cooperative, Duncan Valley Electric Cooperative, Graham County Electric Cooperative, Mohave Electric Cooperative, Sulphur Springs Valley Electric Cooperative, Navopache Electric Cooperative, Ajo Improvement Company, and Morenci Water and Electric Company.
2. "Aggregation" means the combination and consolidation of loads of multiple customers.
3. "Aggregator" means an Electric Service Provider that, as part of its business, combines retail electric customers into a purchasing group.
4. "Ancillary Services" means those services designated as ancillary services in Federal Energy Regulatory Commission Order 888, including the services necessary to support the transmission of electricity from resource to load while maintaining reliable operation of the transmission system in accordance with good utility practice.

Corporation Commission - Fixed Utilities

5. "Bundled Service" means electric service provided as a package to the consumer including all generation, transmission, distribution, ancillary and other services necessary to deliver and measure useful electric energy and power to consumers.
6. "Competition Transition Charge" (CTC) is a means of recovering Stranded Costs.
7. "Competitive Services" means all aspects of retail electric service except those services specifically defined as "Noncompetitive Services" pursuant to R14-2-1601(29) or noncompetitive services as defined by the Federal Energy Regulatory Commission.
8. "Consumer Education" is the provision of impartial information to consumers about competition or Competitive and Noncompetitive Services and is distinct from advertising and marketing.
9. "Control Area Operator" is the operator of an electric system or systems, bounded by interconnection metering and telemetry, capable of controlling generation to maintain its interchange schedule with other such systems and contributing to frequency regulation of the interconnection.
10. "Current Transformer" (CT) is an electrical device used in conjunction with an electric meter to provide a measurement of energy consumption for metering purposes.
11. "Delinquent Accounts" means customer accounts with outstanding past-due payment obligations that remain unpaid after the due date.
12. "Direct Access Service Request" (DASR) means a form that contains all necessary billing and metering information to allow customers to switch electric service providers. This form must be submitted to the Utility Distribution Company by the customer's Electric Service Provider.
13. "Distribution Primary Voltage" is voltage as defined under the Affected Utility's Federal Energy Regulatory Commission (FERC) Open Access Transmission Tariff, except for Meter Service Providers, for which Distribution Primary Voltage is voltage at or above 600 volts (600V) through and including 25 kilovolts (25 kV).
14. "Distribution Service" means the delivery of electricity to a retail consumer through wires, transformers, and other devices that are not classified as transmission services subject to the jurisdiction of the Federal Energy Regulatory Commission; Distribution Service excludes Metering Services, Meter Reading Services, and billing and collection services, as those terms are used herein.
15. "Electric Service Provider" (ESP) means a company supplying, marketing, or brokering at retail any Competitive Services pursuant to a Certificate of Convenience and Necessity.
16. "Electric Service Provider Service Acquisition Agreement" or "Service Acquisition Agreement" means a contract between an Electric Service Provider and a Utility Distribution Company to deliver power to retail end users or between an Electric Service Provider and a Scheduling Coordinator to schedule transmission service.
17. "Electronic Data Interchange" (EDI) is the computer-to-computer electronic exchange of business documents using standard formats which are recognized both nationally and internationally.
18. "Generation" means the production of electric power or contract rights to the receipt of wholesale electric power.
19. "Green Pricing" means a program offered by an Electric Service Provider where customers elect to pay a rate premium for renewable generated electricity.
20. "Independent Scheduling Administrator" (ISA) is an entity, independent of transmission-owning organizations, intended to facilitate nondiscriminatory retail direct access using the transmission system in Arizona.
21. "Independent System Operator" (ISO) is an independent organization whose objective is to provide nondiscriminatory and open transmission access to the interconnected transmission grid under its jurisdiction, in accordance with the Federal Energy Regulatory Commission principles of independent system operation.
22. "Load Profiling" is a process of estimating a customer's hourly energy consumption based on measurements of similar customers.
23. "Load-Serving Entity" means an Electric Service Provider, Affected Utility, or Utility Distribution Company, excluding a Meter Service Provider, and Meter Reading Service Provider.
24. "Meter Reading Service" means all functions related to the collection and storage of consumption data.
25. "Meter Reading Service Provider" (MRSP) means an entity providing Meter Reading Service, as that term is defined herein and that reads meters, performs validation, editing, and estimation on raw meter data to create billing-ready meter data; translates billing-ready data to an approved format; posts this data to a server for retrieval by billing agents; manages the server; exchanges data with market participants; and stores meter data for problem resolution.
26. "Meter Service Provider" (MSP) means an entity providing Metering Service, as that term is defined herein.
27. "Metering and Metering Service" means all functions related to measuring electricity consumption.
28. "Must-Run Generating Units" are those local generating units that are required to run to maintain distribution system reliability and to meet load requirements in times of congestion on certain portions of the interconnected transmission grid.
29. "Net Metering" or "Net Billing" is a method by which customers can use electricity from customer-sited solar electric generators to offset electricity purchased from an Electric Service Provider. The customer only pays for the "Net" electricity purchased.
30. "Noncompetitive Services" means Distribution Service, Standard Offer Service, transmission, and any ancillary services deemed to be non-competitive by the Federal Energy Regulatory Commission, Must-Run Generating Units services, provision of customer demand and energy data by an Affected Utility or Utility Distribution Company to Electric Service Providers, and those aspects of Metering Service set forth in R14-2-1612(K).
31. "OASIS" is Open Access Same-Time Information System, which is an electronic bulletin board where transmission-related information is posted for all interested parties to access via the Internet to enable parties to engage in transmission transactions.
32. "Operating Reserve" means the generation capability above firm system demand used to provide for regulation, load forecasting error, equipment forced and scheduled outages, and local area protection to provide system reliability.
33. "Potential Transformer (PT)/Voltage Transformer (VT)" is an electrical device used to step down primary voltages to 120V for metering purposes.
34. "Provider of Last Resort" means a provider of Standard Offer Service to customers within the provider's certifi-

Corporation Commission - Fixed Utilities

- cated area whose annual usage is 100,000 kWh or less and who are not buying Competitive Services.
35. "Public Power Entity" incorporates by reference the definition set forth in A.R.S. § 30-801.16.
 36. "Retail Electric Customer" means the person or entity in whose name service is rendered.
 37. "Scheduling Coordinator" means an entity that provides schedules for power transactions over transmission or distribution systems to the party responsible for the operation and control of the transmission grid, such as a Control Area Operator, Arizona Independent Scheduling Administrator, or Independent System Operator.
 38. "Self-Aggregation" is the action of a retail electric customer that combines its own metered loads into a single purchase block.
 39. "Standard Offer Service" means Bundled Service offered by the Affected Utility or Utility Distribution Company to all consumers in the Affected Utility's or Utility Distribution Company's service territory at regulated rates including metering, meter reading, billing and collection services, demand side management services including but not limited to time-of-use, and consumer information services. All components of Standard Offer Service shall be deemed noncompetitive as long as those components are provided in a bundled transaction under R14-2-1606(A).
 40. "Stranded Cost" includes:
 - a. The verifiable net difference between:
 - i. The net original cost of all the prudent jurisdictional assets and obligations necessary to furnish electricity (such as generating plants, purchased power contracts, fuel contracts, and regulatory assets), acquired or entered into prior to December 26, 1996, under traditional regulation of Affected Utilities; and
 - ii. The market value of those assets and obligations directly attributable to the introduction of competition under this Article;
 - b. Reasonable costs necessarily incurred by an Affected Utility to effectuate divestiture of its generation assets;
 - c. Reasonable employee severance and retraining costs necessitated by electric competition, where not otherwise provided; and
 - d. Other transition and restructuring costs as approved by the Commission as part of the Affected Utility's Stranded Cost determination under R14-2-1607.
 41. "System Benefits" means Commission-approved utility low income, demand side management, Consumer Education, environmental, renewables, long-term public benefit research and development, and nuclear fuel disposal and nuclear power plant decommissioning programs, and other programs that may be approved by the Commission from time to time.
 42. "Transmission Primary Voltage" is voltage above 25 kV as it relates to metering transformers.
 43. "Transmission Service" refers to the transmission of electricity to retail electric customers or to electric distribution facilities and that is so classified by the Federal Energy Regulatory Commission or, to the extent permitted by law, so classified by the Arizona Corporation Commission.
 44. "Unbundled Service" means electric service elements provided and priced separately, including, but not limited to, such service elements as generation, transmission, distribution, Must Run Generation, metering, meter reading, billing and collection, and ancillary services. Unbundled

Service may be sold to consumers or to other Electric Service Providers.

45. "Universal Node Identifier" is a unique, permanent, identification number assigned to each service delivery point.
46. "Utility Distribution Company" (UDC) means the electric utility entity regulated by the Commission that operates, constructs, and maintains the distribution system for the delivery of power to the end user point of delivery on the distribution system.
47. "Utility Industry Group" (UIG) refers to a utility industry association that establishes national standards for data formats.

Historical Note

Adopted effective December 26, 1996, under an exemption as determined by the Arizona Corporation Commission (Supp. 96-4). Amended by an emergency action effective August 10, 1998, pursuant to A.R.S. § 41-1026, in effect for a maximum of 180 days (Supp. 98-3). Emergency amendment replaced by exempt permanent amendment effective December 31, 1998 (Supp. 98-4). Amended by exempt rulemaking at 5 A.A.R. 3933, effective September 24, 1999 (Supp. 99-3). Amended by exempt rulemaking at 6 A.A.R. 4180, effective October 13, 2000 (Supp. 00-4). Amended by exempt rulemaking at 7 A.A.R. 1661, effective March 30, 2001 (Supp. 01-1).

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General approval provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1602. Commencement of Competition

- A. An Affected Utility's customers will be eligible for competitive electric services, subject to the phase-in schedule in R14-2-1604, on the date set by Commission Order in each Affected Utility's Stranded Cost and Unbundled Tariff proceeding.
- B. An Affected Utility's competitive electric affiliates or an affiliate of which it is a member shall not be permitted to offer Competitive Services in any other Affected Utility's service territory until the Commission has ordered the service area of the potential competitor's affiliated Affected Utility opened to competition.

Historical Note

Adopted effective December 26, 1996, under an exemption as determined by the Arizona Corporation Commission (Supp. 96-4). Section repealed; new Section adopted by exempt rulemaking at 5 A.A.R. 3933, effective September 24, 1999 (Supp. 99-3).

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General approval provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1603. Certificates of Convenience and Necessity

- A. Any Electric Service Provider intending to supply Competitive Services shall obtain a Certificate of Convenience and Necessity from the Commission pursuant to this Article. An Affected Utility need not apply for a Certificate of Convenience and Necessity to continue to provide electric service in its service area during the transition period set forth in R14-2-1604. A Utility Distribution Company providing Standard

Corporation Commission - Fixed Utilities

Offer Service, or services authorized in R14-2-1615, after January 1, 2001, need not apply for a Certificate of Convenience and Necessity. All other Affected Utility affiliates created in compliance with R14-2-1615(A) shall be required to apply for appropriate Certificates of Convenience and Necessity.

- B.** Any company desiring such a Certificate of Convenience and Necessity shall file with the Docket Control Center the required number of copies of an application. In support of the request for a Certificate of Convenience and Necessity, the following information must be provided:

1. A description of the electric services that the applicant intends to offer;
2. The proper name and correct address of the applicant, and
 - a. The full name of the owner if a sole proprietorship,
 - b. The full name of each partner if a partnership,
 - c. A full list of officers and directors if a corporation, or
 - d. A full list of the members if a limited liability corporation;
3. A tariff for each service to be provided that states the maximum rate and terms and conditions that will apply to the provision of the service;
4. A description of the applicant's technical ability to obtain and deliver electricity if appropriate and to provide any other proposed services;
5. Documentation of the financial capability of the applicant to provide the proposed services, including the most recent income statement and balance sheet, the most recent projected income statement, and other pertinent financial information. Audited information shall be provided if available;
6. A description of the form of ownership (for example, partnership, corporation);
7. For an applicant that is an affiliate of an Affected Utility, a statement of whether the Affected Utility has complied with the requirements of R14-2-1616, including the Commission Decision approving the Code of Conduct, where applicable; and
8. Such other information as the Commission or the staff may request.

- C.** The applicant shall report in a timely manner during the application process any changes in the information initially reported to the Commission in the application for a Certificate of Convenience and Necessity.

- D.** The applicant shall provide public notice of the application as required by the Commission.

- E.** At the time of filing for a Certificate of Convenience and Necessity, each applicant shall notify the Affected Utilities, Utility Distribution Companies, or an electric utility not subject to the jurisdiction of the Arizona Corporation Commission in whose service territories it wishes to offer service of the application by providing a copy of the application to the Affected Utilities, Utility Distribution Companies, or an electric utility not subject to the jurisdiction of the Arizona Corporation Commission. The attachment to the CC&N application should include a listing of the names and addresses of the notified Affected Utilities, Utility Distribution Companies or an electric utility not subject to the jurisdiction of the Arizona Corporation Commission.

- F.** The Commission may issue a Certificate of Convenience and Necessity that is effective for a specified period of time if the

applicant has limited or no experience in providing the retail electric service that is being requested. An applicant receiving such approval shall have the responsibility to apply for appropriate extensions.

- G.** The Commission may deny certification to any applicant who:
1. Does not provide the information required by this Article;
 2. Does not possess adequate technical or financial capabilities to provide the proposed services;
 3. Seeks certification as a Load-Serving Entity and does not have an Electric Service Provider Service Acquisition Agreement with a Utility Distribution Company and Scheduling Coordinator, if the applicant is not its own Scheduling Coordinator;
 4. Fails to provide a performance bond, if required;
 5. Fails to demonstrate that its certification will serve the public interest;
 6. Seeks certification as a Load-Serving Entity and fails to submit an executed Service Acquisition Agreement with a Utility Distribution Company or a Scheduling Coordinator for approval by the Director, Utilities Division, prior to the offering of service to potential customers. Agreements are to be filed with the Compliance Section, Utilities Division.

- H.** A Request for approval of an executed Service Acquisition Agreement may be included with an application for a Certificate of Convenience and Necessity. In all negotiations relative to Service Acquisition Agreements, Affected Utilities or their successor entities are required to negotiate in good faith.

- I.** Every Electric Service Provider obtaining a Certificate of Convenience and Necessity under this Article shall obtain certification subject to the following conditions:

1. The Electric Service Provider shall comply with all Commission rules, orders, and other requirements relevant to the provision of electric service;
2. The Electric Service Provider shall maintain accounts and records as required by the Commission;
3. The Electric Service Provider shall file with the Director, Utilities Division, through the Compliance Section, all financial and other reports that the Commission may require and in a form and at such times as the Commission may designate;
4. The Electric Service Provider shall maintain on file with the Commission all current tariffs and any service standards that the Commission shall require;
5. The Electric Service Provider shall cooperate with any Commission investigation of customer complaints;
6. The Electric Service Provider shall obtain all necessary permits and licenses, including relevant tax licenses;
7. The Electric Service Provider shall comply with all disclosure requirements pursuant to R14-2-1617;
8. Failure to comply with any of the above conditions may result in rescission of the Electric Service Provider's Certificate of Convenience and Necessity.

- J.** In appropriate circumstances, the Commission may require, as a precondition to certification, the procurement of a performance bond sufficient to cover any advances or deposits the applicant may collect from its customers, or order that such advances or deposits be held in escrow or trust.

- K.** Time-frames for processing applications for Certificates of Convenience and Necessity

1. This rule prescribes time-frames for the processing of any application for a Certificate of Convenience and Necessity issued by the Arizona Corporation Commission pursuant to this Article. These time-frames shall apply to applications filed on or after the effective date of this rule.

Corporation Commission - Fixed Utilities

2. Within 120 calendar days after receipt of an application for a new Certificate of Convenience and Necessity, or to amend or change the status of any existing Certificate of Convenience and Necessity, staff shall notify the applicant, in writing, that the application is either administratively complete or deficient. If the application is deficient, the notice shall specify all deficiencies.
3. Staff may terminate an application if the applicant does not remedy all deficiencies within 60 calendar days of the notice of deficiency.
4. After receipt of a corrected application, staff shall notify the applicant within 90 calendar days if the corrected application is either administratively complete or deficient. The time-frame for administrative completeness review shall be suspended from the time the notice of deficiency is issued until staff determines that the application is complete.
5. Within 180 calendar days after an application is deemed administratively complete, the Commission shall approve or reject the application.
6. For purposes of A.R.S. § 41-1072, et seq., the Commission has established the following time-frames:
 - a. Administrative completeness review time-frame: 120 calendar days;
 - b. Substantive review time-frame: 180 calendar days;
 - c. Overall time-frame: 300 calendar days.
7. If an applicant requests, and is granted, an extension or continuance, the appropriate time-frames shall be tolled from the date of the request during the duration of the extension or continuance.
8. During the substantive review time-frame, the Commission may, upon its own motion or that of any interested party to the proceeding, request a suspension of the time-frame rules.

Historical Note

Adopted effective December 26, 1996, under an exemption as determined by the Arizona Corporation Commission (Supp. 96-4). Amended by an emergency action effective August 10, 1998, pursuant to A.R.S. § 41-1026, in effect for a maximum of 180 days (Supp. 98-3). Emergency amendment replaced by exempt permanent amendment effective December 31, 1998 (Supp. 98-4). Amended effective December 31, 1998, under an exemption as determined by the Arizona Corporation Commission (Supp. 98-4). Amended by exempt rulemaking at 5 A.A.R. 3933, effective September 24, 1999 (Supp. 99-3). Amended by exempt rulemaking at 6 A.A.R. 4180, effective October 13, 2000 (Supp. 00-4).

Editor's Note: *The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General approval provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).*

R14-2-1604. Competitive Phases

- A. At the date established under R14-2-1602(A), each Affected Utility shall make available at least 20% of its 1995 system retail peak demand for competitive generation supply on a first-come, first-served basis as further described in this rule. First-come, first-served, for the purpose of this rule, shall be determined for nonresidential customers by the date and time of an Electric Service Provider's filing of a Direct Access Service Request with the Affected Utility or Utility Distribution Company. The effective date of the Direct Access Service

Request must be within 60 days of the filing date of the Direct Access Service Request. Residential customer selection will be determined under approved residential phase-in programs as specified in subsection (B)(4).

1. All Affected Utility customers with single premise non-coincident peak demand load of 1 MW or greater will be eligible for competitive electric services upon the commencement of competition. Customers meeting this requirement shall be eligible for competitive services until at least 20% of the Affected Utility's 1995 system peak demand is served by competition.
 2. Any class of customer may aggregate into a minimum combined load of 1 MW or greater within an Affected Utility's service territory and be eligible for competitive electric services. From the commencement of competition under R14-2-1602 through December 31, 2000, aggregation of new competitive customers will be allowed until such time as at least 20% of the Affected Utility's 1995 peak demand is served by competitors.
 3. Affected Utilities shall notify customers eligible under this subsection of the terms of the subsection no later than 60 days prior to the start of competition within its service territory.
 4. Effective January 1, 2001, all Affected Utility customers irrespective of size will be eligible for Aggregation and Self-Aggregation. Aggregation and Self-Aggregation customers purchasing their electricity and related services at any time after the effective date of these rules must do so from a certificated Electric Provider as provided for in these rules.
- B.** As part of the minimum 20% of 1995 system peak demand set forth in subsection (A), each Affected Utility shall reserve a residential phase-in program that provides an increasing minimum percentage of residential customers with access to competitive electric services according to the following schedule:
1.

January 1, 1999	1 1/4%
April 1, 1999	2 1/2%
July 1, 1999	3 3/4%
October 1, 1999	5%
January 1, 2000	6 1/4%
April 1, 2000	7 1/2%
July 1, 2000	8 3/4%
October 1, 2000	10%
 2. Access to the residential phase-in program will be on a first-come, first-served basis. The Affected Utility shall create and maintain a waiting list to manage the residential phase-in program, which list shall promptly be made available to any certificated Load-Serving Electric Service Provider upon request.
 3. Residential customers participating in the residential phase-in program shall be permitted to use load profiling to satisfy the requirements for hourly consumption data; however, they may choose other metering options offered by their Electric Service Provider consistent with the Commission's rules on metering.
 4. If not already done, each Affected Utility shall file a residential phase-in program proposal to the Commission, through Docket Control, for approval by Director, Utilities Division, by September 15, 1999. Interested parties will have until September 30, 1999, to comment on any proposal. At a minimum, the residential phase-in program proposal will include specifics concerning the Affected Utility's proposed:
 - a. Process for customer notification of residential phase-in program;

- b. Selection and tracking mechanism for customers based on first-come, first-served method;
 - c. Customer notification process and other education and information services to be offered;
 - d. Load Profiling methodology and actual load profiles, if available; and
 - e. Method for calculation of reserved load.
5. After the commencement of competition under R14-2-1602, each Affected Utility shall file quarterly residential phase-in program reports with the Compliance Section, Utilities Division, within 45 days of the end of each quarter. The first such report shall be due within 45 days of the first quarter ending after the start of the phase-in of competition for that Affected Utility. The final report due under this rule shall be due within 45 days of the quarter ending December 31, 2002. As a minimum, these quarterly reports shall include:
- a. The number of customers and the load currently enrolled in residential phase-in program by Energy Service Provider,
 - b. The number of customers currently on the waiting list,
 - c. A description and examples of all customer education programs and other information services including the goals of the education program and a discussion of the effectiveness of the programs, and
 - d. An overview of comments and survey results from participating residential customers.
6. Aggregation or Self-Aggregation of residential customers is allowed subject to the limitations of the phase-in percentages in this rule.
- C. Each Affected Utility shall file a report by November 1, 1999, detailing possible mechanisms to provide benefits, including rate reductions of 3% - 5%, to all Standard Offer customers.
- D. All customers shall be eligible to obtain competitive electric services no later than January 1, 2001.
- E. Retail consumers served under existing contracts are eligible to participate in the competitive market prior to expiration of the existing contract only if the Affected Utility and the consumer agree that the retail consumer may participate in the competitive market.
- F. Schedule Modifications for Cooperatives
- 1. An electric cooperative may request that the Commission modify the schedule described in subsections (A) through (E) so as to preserve the tax-exempt status of the cooperative or to allow time to modify contractual arrangements pertaining to delivery of power supplies and associated loans.
 - 2. As part of the request, the cooperative shall propose methods to enhance consumer choice among generation resources.
 - 3. The Commission shall consider whether the benefits of modifying the schedule exceed the costs of modifying the schedule.

Historical Note

Adopted effective December 26, 1996, under an exemption as determined by the Arizona Corporation Commission (Supp. 96-4). Amended by an emergency action effective August 10, 1998, pursuant to A.R.S. § 41-1026, in effect for a maximum of 180 days (Supp. 98-3). Emergency amendment replaced by exempt permanent amendment effective December 31, 1998 (Supp. 98-4). Amended by exempt rulemaking at 5 A.A.R. 3933, effective September 24, 1999 (Supp. 99-3). Amended by exempt rulemaking at 6 A.A.R. 4180, effective October 13, 2000 (Supp. 00-4).

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General approval provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1605. Competitive Services

Except as provided in R14-2-1615(C), Competitive Services shall require a Certificate of Convenience and Necessity and a tariff as described in R14-2-1603. A properly certificated Electric Service Provider may offer Competitive Services under bilateral or multi-lateral contracts with retail consumers.

Historical Note

Adopted effective December 26, 1996, under an exemption as determined by the Arizona Corporation Commission (Supp. 96-4). Amended by an emergency action effective August 10, 1998, pursuant to A.R.S. § 41-1026, in effect for a maximum of 180 days (Supp. 98-3). Emergency amendment replaced by exempt permanent amendment effective December 31, 1998 (Supp. 98-4). Amended by exempt rulemaking at 5 A.A.R. 3933, effective September 24, 1999 (Supp. 99-3).

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General approval provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1606. Services Required to be Made Available

- A. On the date its service area is open to competition under R14-2-1602, each Affected Utility or Utility Distribution Company shall make available Standard Offer Service and Noncompetitive Services at regulated rates. After January 1, 2001, Standard Offer Service and Noncompetitive Services shall be provided by Utility Distribution Companies who shall also act as Providers of Last Resort.
- B. After January 1, 2001, power purchased by an investor owned Utility Distribution Company for Standard Offer Service shall be acquired from the competitive market through prudent, arm's length transactions, and with at least 50% through a competitive bid process.
- C. Standard Offer Tariffs
 - 1. By July 1, 1999, or pursuant to Commission Order, whichever occurs first, each Affected Utility shall file proposed tariffs to provide Standard Offer Service. Such rates shall not become effective until approved by the Commission. Any rate increase proposed by an Affected Utility or Utility Distribution Company for Standard Offer Service must be fully justified through a rate case proceeding.
 - 2. Standard Offer Service tariffs shall include the following elements, each of which shall be clearly unbundled and identified in the filed tariffs:
 - a. Competitive Services:
 - i. Generation, which shall include all transaction costs and line losses;
 - ii. Competition Transition Charge, which shall include recovery of generation related regulatory assets;
 - iii. Generation-related billing and collection;
 - iv. Transmission Services;
 - v. Metering Services;
 - vi. Meter Reading Services; and

Corporation Commission - Fixed Utilities

- vii. Optional Ancillary Services, which shall include spinning reserve service, supplemental reserve, regulation and frequency response service, and energy imbalance service.
 - b. Non-Competitive Services:
 - i. Distribution services;
 - ii. Required Ancillary services, which shall include scheduling, system control and dispatch service, and reactive supply and voltage control from generation sources service;
 - iii. Must-Run Generating Units;
 - iv. System Benefit Charges; and
 - v. Distribution-related billing and collection.
- 3. Affected Utilities and Utility Distribution Companies may file proposed revisions to such rates with the Commission through Docket Control. Any rate increase proposed by an Affected Utility or Utility Distribution Company for Standard Offer Service must be fully justified through a rate case proceeding, which may be expedited at the discretion of the Utilities Division Director.
- 4. Such rates shall reflect the costs of providing the service.
- 5. Consumers receiving Standard Offer Service are eligible for potential future rate reductions as authorized by the Commission.
- 6. After January 2, 2001, tariffs for Standard Offer Service shall not include any special discounts or contracts with terms, or any tariff that prevents the customer from accessing a competitive option, other than time-of-use rates, interruptible rates, or self-generation deferral rates.
- D. By the effective date of these rules, or pursuant to Commission Order, whichever occurs first, each Affected Utility or Utility Distribution Company shall file an Unbundled Service tariff that shall include a Noncompetitive Services tariff. The Unbundled Service tariff shall calculate the items listed in R14-2-1606(C)(2)(b) on the same basis as those items are calculated in the Standard Offer Service tariff.
- E. To manage its risks, an Affected Utility or Electric Service Provider may include in its tariffs deposit requirements and advance payment requirements for Unbundled Services.
- F. Affected Utilities and Utility Distribution Companies must accept power and energy delivered to their distribution systems by other Load-Serving Entities and offer distribution and distribution-related ancillary services comparable to services they provide to themselves at their Noncompetitive Services tariffed rates.
- G. Customer Data
 - 1. Upon written authorization by the customer, a Load-Serving Entity shall release in a timely and useful manner that customer's billing data, including consumption, demand, and power factor (if available), for the most recent 12-month period to a customer-specified properly certified Electric Service Provider.
 - 2. The Electric Service Provider requesting such customer data shall provide an accurate account number for the customer.
 - 3. The form of data shall be mutually agreed upon by the parties and such data shall not be unreasonably withheld.
 - 4. Utility Distribution Companies shall be allowed access to the Meter Reading Service Provider server for customers served by the Utility Distribution Company's distribution system.
- H. Rates for Unbundled Services
 - 1. The Commission shall review and approve rates for Competitive Services and Noncompetitive Services subject to Commission jurisdiction, before such services can be offered.
- 2. Such rates shall reflect the costs of providing the services.
- 3. Such rates may be downwardly flexible if approved by the Commission.
- I. Electric Service Providers offering Competitive Services under this R14-2-1606 shall provide adequate supporting documentation for their proposed rates. Where rates are approved by another jurisdiction, such as the Federal Energy Regulatory Commission, those rates shall be provided as part of the supporting documentation.

Historical Note

Adopted effective December 26, 1996, under an exemption as determined by the Arizona Corporation Commission (Supp. 96-4). Amended by an emergency action effective August 10, 1998, pursuant to A.R.S. § 41-1026, in effect for a maximum of 180 days (Supp. 98-3). Emergency amendment replaced by exempt permanent amendment effective December 31, 1998 (Supp. 98-4). Amended by exempt rulemaking at 5 A.A.R. 3933, effective September 24, 1999 (Supp. 99-3). Amended by exempt rulemaking at 6 A.A.R. 4180, effective October 13, 2000 (Supp. 00-4).

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General approval provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1607. Recovery of Stranded Cost of Affected Utilities

- A. The Affected Utilities shall take every reasonable, cost-effective measure to mitigate or offset Stranded Cost by reducing costs, expanding wholesale or retail markets, or offering a wider scope of permitted regulated utility services for profit, among others.
- B. The Commission shall allow a reasonable opportunity for recovery of unmitigated Stranded Cost by Affected Utilities.
- C. The Affected Utilities shall file estimates of unmitigated Stranded Cost on or before July 1, 1999, or pursuant to Commission Order, whichever occurs first. Such estimates shall be fully supported by analyses and by records of market transactions undertaken by willing buyers and willing sellers.
- D. An Affected Utility shall request Commission approval, on or before July 1, 1999, or pursuant to Commission Order, whichever occurs first, of distribution charges or other means of recovering unmitigated Stranded Cost. The filing may include a discounted stranded cost exit methodology that a consumer may choose to use to determine an amount due the Affected Utility in lieu of making monthly distribution charge or other payments.
- E. The Commission shall, after hearing and consideration of analyses and recommendations presented by the Affected Utilities, staff, and intervenors, determine for each Affected Utility the magnitude of Stranded Cost, and appropriate Stranded Cost recovery mechanisms and charges. In making its determination of mechanisms and charges, the Commission shall consider at least the following factors:
 - 1. The impact of Stranded Cost recovery on the effectiveness of competition;
 - 2. The impact of Stranded Cost recovery on customers of the Affected Utility who do not participate in the competitive market;
 - 3. The impact, if any, on the Affected Utility's ability to meet debt obligations;
 - 4. The impact of Stranded Cost recovery on prices paid by consumers who participate in the competitive market;

Corporation Commission - Fixed Utilities

5. The degree to which the Affected Utility has mitigated or offset Stranded Cost;
 6. The degree to which some assets have values in excess of their book values;
 7. Appropriate treatment of negative Stranded Cost;
 8. The time period over which such Stranded Cost charges may be recovered. The Commission shall limit the application of such charges to a specified time period;
 9. The applicability of Stranded Cost to interruptible customers.
- F.** A Competition Transition Charge (CTC) may be assessed on all retail customers based on the amount of generation purchased from any supplier. Any reduction in electricity purchases from an Affected Utility resulting from self-generation, demand side management, or other demand reduction attributable to any cause other than the retail access provisions of this Article shall not be used to calculate or recover any Stranded Cost from a consumer.
- G.** Stranded Cost shall be recovered from customer classes in a manner consistent with the specific company's current rate treatment of the stranded asset, in order to effect a recovery of Stranded Cost that is in substantially the same proportion as the recovery of similar costs from customers or customer classes under current rates. In no event shall the Competition Transition Charge be utilized as a mechanism for double recovery of Stranded Cost from Standard Offer Service customers.
- H.** The Commission may consider securitization as a financing method for recovery of Stranded Cost of the Affected Utility if the Commission finds that such method of financing will result in a lower cost alternative to customers.
- I.** The Commission may, after notice and hearing, order regular revisions to estimates of the magnitude of Stranded Cost.

Historical Note

Adopted effective December 26, 1996, under an exemption as determined by the Arizona Corporation Commission (Supp. 96-4). Amended by an emergency action effective August 10, 1998, pursuant to A.R.S. § 41-1026, in effect for a maximum of 180 days (Supp. 98-3). Emergency amendment replaced by exempt permanent amendment effective December 31, 1998 (Supp. 98-4). Amended by exempt rulemaking at 5 A.A.R. 3933, effective September 24, 1999 (Supp. 99-3). Amended by exempt rulemaking at 6 A.A.R. 4180, effective October 13, 2000 (Supp. 00-4).

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General approval provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1608. System Benefits Charges

- A.** Each Affected Utility or Utility Distribution Company shall file for Commission review non-bypassable rates or related mechanisms to recover the applicable pro-rata costs of System Benefits from all consumers located in the Affected Utility's or Utility Distribution Company's service area. Affected Utilities or Utility Distribution Companies shall file for review of the Systems Benefits Charge at least every three years. The amount collected annually through the System Benefits charge shall be sufficient to fund the Affected Utilities' or Utility Distribution Companies' Commission-approved System Benefits. Filings shall be made with the Commission through Docket Control.

- B.** Each Affected Utility or Utility Distribution Company shall provide adequate supporting documentation for its proposed rates for System Benefits.
- C.** An Affected Utility or Utility Distribution Company shall recover the costs of System Benefits only upon hearing and approval by the Commission of the recovery charge and mechanism. The Commission may combine its review of System Benefits charges with its review of filings pursuant to R14-2-1606.

Historical Note

Adopted effective December 26, 1996, under an exemption as determined by the Arizona Corporation Commission (Supp. 96-4). Amended by an emergency action effective August 10, 1998, pursuant to A.R.S. § 41-1026, in effect for a maximum of 180 days (Supp. 98-3). Emergency amendment replaced by exempt permanent amendment effective December 31, 1998 (Supp. 98-4). Amended by exempt rulemaking at 5 A.A.R. 3933, effective September 24, 1999 (Supp. 99-3). Amended by exempt rulemaking at 6 A.A.R. 4180, effective October 13, 2000 (Supp. 00-4).

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General approval provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1609. Transmission and Distribution Access

- A.** The Affected Utilities shall provide nondiscriminatory open access to transmission and distribution facilities to serve all customers. No preference or priority shall be given to any distribution customer based on whether the customer is purchasing power under the Affected Utility's Standard Offer or in the competitive market. Any transmission capacity that is reserved for use by the retail customers of the Affected Utility's Utility Distribution Company shall be allocated among Standard Offer customers and competitive market customers on a pro-rata basis.
- B.** Utility Distribution Companies shall retain the obligation to assure that adequate transmission import capability is available to meet the load requirements of all distribution customers within their service areas. Utility Distribution Companies shall retain the obligation to assure that adequate distribution system capacity is available to meet the load requirements of all distribution customers within their service areas.
- C.** The Commission supports the development of Federal Energy Regulatory Commission-approved Regional Transmission Organization (RTO), an Independent System Operator (ISO) or, absent a Regional Transmission Organization or an Independent System Operator, an Arizona Independent Scheduling Administrator (AISA). The Commission believes that such organizations are necessary in order to provide nondiscriminatory retail access and to facilitate a robust and efficient electricity market.
- D.** Affected Utilities that own or operate Arizona transmission facilities shall form an Arizona Independent Scheduling Administrator that shall file with the Federal Energy Regulatory Commission within 60 days of this Commission's adoption of final rules herein, for approval of an Independent Scheduling Administrator having the following characteristics:
1. The Arizona Independent Scheduling Administrator shall calculate Available Transmission Capacity (ATC) for Arizona transmission facilities that belong to the Affected Utilities or other Arizona Independent Scheduling

- Administrator participants and shall develop and operate an overarching statewide OASIS.
2. The Arizona Independent Scheduling Administrator shall implement and oversee the nondiscriminatory application of operating protocols to ensure statewide consistency for transmission access. These operating protocols shall include, but are not limited to, protocols for determining transmission system transfer capabilities, committed uses of the transmission system, available transfer capabilities, Must-Run Generating Units, energy scheduling, and energy imbalances.
 3. The Arizona Independent Scheduling Administrator shall provide dispute resolution processes that enable market participants to expeditiously resolve claims of discriminatory treatment in the reservation, scheduling, use, and curtailment of transmission services.
 4. All requests (wholesale, Standard Offer retail, and competitive retail) for reservation and scheduling of the use of Arizona transmission facilities that belong to the Affected Utilities or other Arizona Independent Scheduling Administrator participants shall be made to, or through, the Arizona Independent Scheduling Administrator using a single, standardized procedure.
 5. The Arizona Independent Scheduling Administrator shall implement a transmission planning process that includes all Arizona Independent Scheduling Administrator participants and aids in identifying the timing and key characteristics of required reinforcements to Arizona transmission facilities to assure that the future load requirements of all participants will be met.
- E.** If not previously filed, the Affected Utilities that own or operate Arizona transmission facilities shall file a proposed Arizona Independent Scheduling Administrator implementation plan with the Commission, through Docket Control, within 30 days of the Commission's adoption of final rules herein. The implementation plan shall address Arizona Independent Scheduling Administrator governance, incorporation, financing, and staffing; the acquisition of physical facilities and staff by the Arizona Independent Scheduling Administrator; the schedule for the phased development of Arizona Independent Scheduling Administrator functionality and proposed transition to a regional Independent System Operator or Regional Transmission Organization; contingency plans to ensure that critical functionality is in place no later than three months following adoption of final rules herein by the Commission; and any other significant issues related to the timely and successful implementation of the Arizona Independent Scheduling Administrator.
- F.** Each of the Affected Utilities shall make good faith efforts to develop a regional, multi-state Independent System Operator or Regional Transmission Organization, to which the Arizona Independent Scheduling Administrator should transfer its relevant assets and functions and characteristics as specified in R14-2-1609(D) as the Independent System Operator or Regional Transmission Organization becomes able to carry out those functions. Absent Federal Energy Regulatory Commission approval of an Arizona Independent Scheduling Administrator, the functions and characteristics as specified in R14-2-1609(D) will be assumed by the Independent System Operator or Regional Transmission Organization.
- G.** It is the intent of the Commission that prudently-incurred costs incurred by the Affected Utilities in the establishment and operation of the Arizona Independent Scheduling Administrator, and subsequently the Independent System Operator or Regional Transmission Organization, should be recovered from customers using the transmission system, including the Affected Utilities' wholesale customers, Standard Offer retail customers, and competitive retail customers on a nondiscriminatory basis through Federal Energy Regulatory Commission-regulated prices. Proposed rates for the recovery of such costs shall be filed with the Federal Energy Regulatory Commission and this Commission through Docket Control. In the event that the Federal Energy Regulatory Commission does not permit recovery of prudently incurred Independent Scheduling Administrator costs within 90 days of the date of making an application with the Federal Energy Regulatory Commission, the Commission may authorize Affected Utilities to recover such costs through a distribution surcharge.
- H.** The Commission supports the use of "Scheduling Coordinators" to provide aggregation of customers' schedules to the Independent Scheduling Administrator and the respective Control Area Operators simultaneously until the implementation of a regional Independent System Operator or Regional Transmission Organization, at which time the schedules will be submitted to the Independent System Operator or Regional Transmission Organization. The primary duties of Scheduling Coordinators are to:
1. Forecast their customers' load requirements;
 2. Submit balanced schedules (that is, schedules for which total generation is equal to total load of the Scheduling Coordinator's customers plus appropriate transmission and distribution line losses) and North American Electric Reliability Council/Western Systems Coordinating Council tags;
 3. Arrange for the acquisition of the necessary transmission and ancillary services;
 4. Respond to contingencies and curtailments as directed by the Control Area Operators, Arizona Independent Scheduling Administrator, or Independent System Operator or Regional Transmission Organization;
 5. Actively participate in the schedule checkout process and the settlement processes of the Control Area Operators, Arizona Independent Scheduling Administrator, or Independent System Operator or Regional Transmission Organization.
- I.** The Affected Utilities and Utility Distribution Companies shall provide services from the Must-Run Generating Units to Standard Offer Service retail customers and competitive retail customers on a comparable, nondiscriminatory basis at regulated prices. The Affected Utilities shall specify the obligations of the Must-Run Generating Units in appropriate sales contracts prior to any divestiture. Under auspices of the Arizona Independent Scheduling Administrator, the Affected Utilities and other stakeholders shall develop statewide protocols for pricing and availability of services from Must-Run Generating Units. These protocols shall be filed with Docket Control for Commission review and, when appropriate, approval, prior to being filed with the Federal Energy Regulatory Commission in conjunction with the Arizona Independent Scheduling Administrator tariff filing. Fixed Must-Run Generating Units costs are to be recovered through a regulated charge to end-use customers. This charge must be set by the Commission as part of the end-use customer distribution service charges.
- J.** The Affected Utilities and other stakeholders, under the auspices of the Arizona Independent Scheduling Administrator, shall identify statewide services to be settled on and develop fair and reasonable pricing mechanisms to assure a consistent and fair settlement process.

Historical Note

Adopted effective December 26, 1996, under an exemption as determined by the Arizona Corporation

Corporation Commission - Fixed Utilities

Commission (Supp. 96-4). Amended by an emergency action effective August 10, 1998, pursuant to A.R.S. § 41-1026, in effect for a maximum of 180 days (Supp. 98-3). Emergency amendment replaced by exempt permanent amendment effective December 31, 1998 (Supp. 98-4). Section repealed; new Section R14-2-1609 renumbered from R14-2-1610 and amended by exempt rulemaking at 5 A.A.R. 3933, effective September 24, 1999 (Supp. 99-3). Amended by exempt rulemaking at 6 A.A.R. 4180, effective October 13, 2000 (Supp. 00-4).

Editor's Note: *The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General approval provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).*

R14-2-1610. In-state Reciprocity

- A. The service territories of Arizona electric utilities that are not Affected Utilities or Public Power Entities shall not be open to competition under the provisions of this Article, nor shall Arizona electric utilities which are not Affected Utilities be able to compete for sales in the service territories of the Affected Utilities.
- B. An Arizona electric utility, subject to the jurisdiction of the Commission, that is not an Affected Utility or a Public Power Entity may voluntarily participate under the provisions of this Article if it makes its service territory available for competing sellers, if it agrees to all of the requirements of this Article, and if it obtains an appropriate Certificate of Convenience and Necessity.
- C. An Arizona electric utility, not subject to the jurisdiction of the Commission, and that is not a Public Power Entity, may submit a statement to the Commission, through Docket Control, stating that it voluntarily opens its service territory for competing sellers in a manner similar to the provisions of this Article. Such statement shall be accompanied by the electric utility's nondiscriminatory Standard Offer Tariff, electric supply tariffs, Unbundled Services rates, Stranded Cost charges, System Benefits charges, Distribution Services charges and any other applicable tariffs and policies for services the electric utility offers, for which these rules otherwise require compliance by Affected Utilities or Electric Service Providers. Such filings shall serve as authorization for such electric utility to utilize the Commission's Rules of Practice and Procedure and other applicable rules concerning any complaint that an Affected Utility or Electric Service Provider is violating any provision of this Article or is otherwise discriminating against the filing electric utility or failing to provide just and reasonable rates in tariffs filed under this Article.
- D. If an electric utility is an Arizona political subdivision or municipal corporation other than a Public Power Entity, then the existing service territory of such electric utility shall be deemed open to competition if the political subdivision or municipality has entered into an intergovernmental agreement with the Commission that establishes nondiscriminatory terms and conditions for Distribution Services and other Unbundled Services, provides a procedure for complaints arising therefrom, and provides for reciprocity with Affected Utilities or their affiliates. The Commission shall conduct a hearing to consider any such intergovernmental agreement.
- E. An affiliate of an Arizona electric utility which is not an Affected Utility or a Public Power Entity shall not be allowed to compete in the service territories of Affected Utilities unless the affiliate's parent company, the nonaffected electric utility,

submits a statement to the Commission, through Docket Control, indicating that the parent company will voluntarily open its service territory for competing sellers in a manner similar to the provisions of this Article and the Commission makes a finding to that effect.

Historical Note

Adopted effective December 26, 1996, under an exemption as determined by the Arizona Corporation Commission (Supp. 96-4). Amended by an emergency action effective August 10, 1998, pursuant to A.R.S. § 41-1026, in effect for a maximum of 180 days (Supp. 98-3). Emergency amendment replaced by exempt permanent amendment effective December 31, 1998 (Supp. 98-4). Former Section R14-2-1610 renumbered to R14-2-1609; new Section R14-2-1610 renumbered from R14-2-1611 and amended by exempt rulemaking at 5 A.A.R. 3933, effective September 24, 1999 (Supp. 99-3). Amended by exempt rulemaking at 6 A.A.R. 4180, effective October 13, 2000 (Supp. 00-4).

Editor's Note: *The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General approval provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).*

R14-2-1611. Rates

- A. Market determined rates for Competitive Services, as defined in R14-2-1601 shall be deemed to be just and reasonable.
- B. Each Electric Service Provider selling services under this Article shall have on file with the Commission tariffs describing such services and maximum rates for those services, but the services may not be provided until the Commission has approved the tariffs.
- C. Prior to January 1, 2001, competitively negotiated contracts governed by this Article customized to individual customers which comply with approved tariffs do not require further Commission approval. However, all such contracts whose term is one year or more and for service of 1 MW or more must be filed with the Director, Utilities Division, through the Compliance Section, as soon as practicable. If a contract does not comply with the provisions of the Load Serving Entity's approved tariffs, it shall not become effective without a Commission order. The provisions of such contracts shall be kept confidential by the Commission.
- D. Contracts entered into on or after January 1, 2001, which comply with approved tariffs need not be filed with the Director, Utilities Division. If a contract does not comply with the provisions of the Load Serving Entity's approved tariffs, it shall not become effective without a Commission order.
- E. An Electric Service Provider holding a Certificate pursuant to this Article may price its Competitive Services, at or below the maximum rates specified in its filed tariff, provided that the price is not less than the marginal cost of providing the service.
- F. Requests for changes in maximum rates or changes in terms and conditions of previously approved tariffs may be filed with the Commission through Docket Control. Such changes shall become effective only upon Commission approval.

Historical Note

Adopted effective December 26, 1996, under an exemption as determined by the Arizona Corporation Commission (Supp. 96-4). Amended by an emergency action effective August 10, 1998, pursuant to A.R.S. § 41-1026, in effect for a maximum of 180 days (Supp.

98-3). Emergency amendment replaced by exempt permanent amendment effective December 31, 1998 (Supp. 98-4). Former Section R14-2-1611 renumbered to R14-2-1610; new Section R14-2-1611 renumbered from R14-2-1612 and amended by exempt rulemaking at 5 A.A.R. 3933, effective September 24, 1999 (Supp. 99-3). Amended by exempt rulemaking at 6 A.A.R. 4180, effective October 13, 2000 (Supp. 00-4).

Editor's Note: *The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General approval provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).*

R14-2-1612. Service Quality, Consumer Protection, Safety, and Billing Requirements

- A.** Except as indicated elsewhere in this Article, R14-2-201 through R14-2-212, inclusive, are adopted in this Article by reference. However, where the term "utility" is used in R14-2-201 through R14-2-212, the term "utility" shall pertain to Electric Service Providers providing the services described in each subsection of R14-2-201 through R14-2-212. R14-2-203(E) and R14-2-212(H) shall pertain only to Utility Distribution Companies.
- B.** The following shall not apply to this Article:
 1. R14-2-202 in its entirety,
 2. R14-2-206 in its entirety,
 3. R14-2-207 in its entirety,
 4. R14-2-212 (F)(1),
 5. R14-2-213,
 6. R14-2-208(E) and (F).
- C.** No consumer shall be deemed to have changed providers of any service authorized in this Article (including changes from the Affected Utility to another provider) without written authorization by the consumer for service from the new provider. If a consumer is switched to a different ("new") provider without such written authorization, the new provider shall cause service by the previous provider to be resumed and the new provider shall bear all costs associated with switching the consumer back to the previous provider. A new provider who switches a customer without written authorization shall also refund to the retail electricity customer the entire amount of the customer's electricity charges attributable to the electric generation service from the new provider for three months, or the period of the unauthorized service, whichever is more. A Utility Distribution Company may request the Commission's Consumer Services Section to review or audit written authorizations to assure a customer switch was properly authorized. A written authorization that is obtained by deceit or deceptive practices shall not be deemed a valid written authorization. Electric Service Providers shall submit reports within 30 days of the end of each calendar quarter to the Commission, through the Compliance Section, Utilities Division, itemizing the direct complaints filed by customers who have had their Electric Service Providers changed without their authorization. Violations of the Commission's rules concerning unauthorized changes of providers may result in penalties, or suspension or revocation of the provider's certificate. The following requirements and restrictions shall apply to the written authorization form requesting electric service from the new provider:
 1. The authorization shall not contain any inducements;
 2. The authorization shall be in legible print with clear and plain language confirming the rates, terms, conditions, and nature of the service to be provided;
- 3.** The authorization shall not state or suggest that the customer must take action to retain the customer's current electricity supplier;
- 4.** The authorization shall be in the same language as any promotional or inducement materials provided to the retail electric customer; and
- 5.** No box or container may be used to collect entries for sweepstakes or a contest that, at the same time, is used to collect authorization by a retail electric customer to change their electricity supplier or to subscribe to other services.
- D.** A residential customer may rescind its authorization to change providers of any service authorized in this Article within three business days, without penalty, by providing written notice to the provider.
- E.** Customer-specific information shall not be released without specific prior written customer authorization unless the information is requested by a law enforcement or other public agency, or is requested by the Commission or its Staff, or is reasonably required for legitimate account collection activities, or is necessary to provide safe and reliable service to the customer.
- F.** Each Electric Service Provider providing service governed by this Article shall be responsible for meeting applicable reliability standards and shall work cooperatively with other companies with whom it has interconnections, directly or indirectly, to ensure safe, reliable electric service. Utility Distribution Companies shall make reasonable efforts to notify customers of scheduled outages and also provide notification to the Commission.
- G.** Each Electric Service Provider shall provide at least 45 days' written notice to all of its affected consumers of its intent to cease providing generation, transmission, distribution, or ancillary services necessitating that the consumer obtain service from another supplier of generation, transmission, distribution, or ancillary services.
- H.** All Electric Service Providers rendering service under this Article shall submit accident reports, through the Compliance Section, as required in R14-2-101.
- I.** An Electric Service Provider providing firm electric service governed by this Article shall make reasonable efforts to reestablish service within the shortest possible time when service interruptions occur and shall work cooperatively with other companies to ensure timely restoration of service where facilities are not under the control of the Electric Service Provider.
- J.** Electric Service Providers shall give at least five days' notice to their customer of scheduled return to Standard Offer Service. Electric Service Providers shall provide 15 calendar days' notice prior to the next scheduled meter read date to the appropriate Utility Distribution Company regarding the intent to terminate a service agreement. Return of that customer to Standard Offer Service will be at the next regular billing cycle if appropriate metering equipment is in place and the request is provided 15 calendar days prior to the next regular meter read date. Responsibility for charges incurred between the notice and the next scheduled read date shall rest with the Electric Service Provider.
- K.** Each Electric Service Provider shall ensure that bills rendered on its behalf include its address and the toll-free telephone numbers for billing, service, and safety inquiries. The bill must also include the address and toll-free telephone numbers for the Phoenix and Tucson Consumer Service Sections of the Arizona Corporation Commission Utilities Division. Each Electric Service Provider shall ensure that billing and collections services rendered on its behalf comply with subsection (A).

Corporation Commission - Fixed Utilities

- L. Additional Provisions for Metering and Meter Reading Services**
1. When authorized by the consumer, an Electric Service Provider who provides metering or meter reading services pertaining to a particular consumer shall provide appropriate meter reading data via standardized formats, approved by the Director, Utilities Division, to all applicable Electric Service Providers serving that same consumer.
 2. Any person or entity relying on metering information provided by an Electric Service Provider may request a meter test according to the tariff on file and approved by the Commission. However, if the meter is found to be in error by more than 3%, no meter testing fee will be charged.
 3. Each competitive point of delivery shall be assigned a Universal Node Identifier by the Affected Utility or the Utility Distribution Company whose distribution system serves the customer.
 4. Unless the Commission grants a specific waiver all competitive metered and billing data shall be translated into consistent, statewide formats, approved by the Director, Utilities Division, that shall be used by the Affected Utility or the Utility Distribution Company and the Electric Service Provider.
 5. Unless the Commission grants a specific waiver, the standardized data exchange formats approved by the Director, Utilities Division, shall be used for all data exchange transactions from the Meter Reading Service Provider to the Electric Service Provider, Utility Distribution Company, and Schedule Coordinator. This data will be transferred via the Internet using a secure sockets layer or other secure electronic media.
 6. Minimum metering requirements for competitive customers over 20 kW, or 100,000 kWh annually, should consist of hourly consumption measurement meters or meter systems. Predictable loads will be permitted to use load profiles to satisfy the requirements for hourly consumption data. The Load-Serving Entity developing the load profile shall determine if a load is predictable.
 7. Competitive customers with hourly loads of 20 kW (or 100,000 kWh annually) or less will be permitted to use Load Profiling to satisfy the requirements for hourly consumption data, however, they may choose other metering options offered by their Electric Service Provider consistent with the Commission rules on Metering.
 8. Metering equipment ownership will be limited to the Affected Utility, Utility Distribution Company, and the Electric Service Provider, or the customer, who must obtain the metering equipment through the Affected Utility, Utility Distribution Company, or an Electric Service Provider.
 9. Maintenance and servicing of the metering equipment (including Current Transformers and Potential Transformers) will be limited to the Affected Utility, Utility Distribution Company, and the Electric Service Provider.
 10. Distribution primary voltage Current Transformers and Potential Transformers may be owned by the Affected Utility, Utility Distribution Company, or the Electric Service Provider.
 11. Transmission primary voltage Current Transformers and Potential Transformers may be owned by the Affected Utility or Utility Distribution Company only.
 12. North American Electric Reliability Council-recognized holidays will be used in calculating "working days" for meter data timeliness requirements. If a holiday officially occurs on a Saturday, the preceding Friday will be recognized as the date of the holiday. If a holiday officially occurs on a Sunday, the following Monday will be recognized as the date of the holiday.
 13. The Director, Utilities Division shall approve operating procedures to be used by the Utility Distribution Companies and the Meter Service Providers for performing work on primary metered customers.
 14. The Director, Utilities Division shall approve operating procedures to be used by the Meter Reading Service Provider for validating, editing, and estimating metering data.
 15. The Director, Utilities Division shall approve performance metering specifications and standards to be used by all entities performing metering.
- M. Electric Service Providers shall comply with applicable reliability standards and practices established by the Western Systems Coordinating Council and the North American Electric Reliability Council or successor organizations.**
- N. Electric Service Providers shall provide notification and informational materials to consumers about competition and consumer choices, such as a standardized description of services, as ordered by the Commission.**
- O. Billing Elements.** After the commencement of competition within a service territory pursuant to R14-2-1602, all customer bills, including bills for Standard Offer Service customers within that service territory, will list, at a minimum, the following billing cost elements:
1. Competitive Services:
 - a. Generation, which shall include generation-related billing and collection;
 - b. Competition Transition Charge;
 - c. Transmission and Ancillary Services;
 - d. Metering Services; and
 - e. Meter Reading Services.
 2. Non-Competitive Services:
 - a. Distribution services, including distribution-related billing and collection, required Ancillary Services and Must-Run Generating Units; and
 - b. System Benefit Charges
 3. Regulatory assessments; and
 4. Applicable taxes.
 5. In cases where the Utility Distribution Company and the Electric Service Provider provide separate bills to customers, the Electric Service Provider is not required to list the billing cost elements for non-competitive services. In cases where the Utility Distribution Company and the Electric Service Provider provide separate bills to customers, the Utility Distribution Company is not required to list the billing cost elements for competitive services if the customer is obtaining competitive services from an Electric Service Provider.
- P. The operating procedures approved by the Director, Utilities Division, will be used for Direct Access Service Requests as well as other billing and collection transactions.**

Historical Note

Adopted effective December 26, 1996, under an exemption as determined by the Arizona Corporation Commission (Supp. 96-4). Amended by an emergency action effective August 10, 1998, pursuant to A.R.S. § 41-1026, in effect for a maximum of 180 days (Supp. 98-3). Emergency amendment replaced by exempt permanent amendment effective December 31, 1998 (Supp. 98-4). Former Section R14-2-1612 renumbered to R14-2-1611; new Section R14-2-1612 renumbered from R14-2-1613 and amended by exempt rulemaking

at 5 A.A.R. 3933, effective September 24, 1999 (Supp. 99-3). Amended by exempt rulemaking at 6 A.A.R. 4180, effective October 13, 2000 (Supp. 00-4).

Editor's Note: *The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General approval provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).*

R14-2-1613. Reporting Requirements

- A. Reports covering the following items, as applicable, shall be submitted to the Director, Utilities Division, through the Compliance Section, by Affected Utilities or Utility Distribution Companies and all Electric Service Providers granted a Certificate of Convenience and Necessity pursuant to this Article. These reports shall include the following information pertaining to competitive service offerings, Unbundled Services, and Standard Offer services in Arizona:
 1. Type of services offered;
 2. kW and kWh sales to consumers, disaggregated by customer class (for example, residential, commercial, industrial);
 3. Revenues from sales by customer class (for example, residential, commercial, industrial);
 4. Number of retail customers disaggregated as follows: residential, commercial/industrial under 21 kW, commercial/industrial 21 to 999 kW, commercial/industrial 1000 kW or more, agricultural (if not included in commercial), and other;
 5. Retail kWh sales and revenues disaggregated by term of the contract (less than one year, one to four years, longer than four years), and by type of service (for example, firm, interruptible, other);
 6. Amount of revenues from each type of Competitive Service and, if applicable, each type of Noncompetitive Service provided (using breakdown from R14-2-1612(O));
 7. Value of all assets used to serve Arizona customers and accumulated depreciation;
 8. Tabulation of Arizona electric generation plants owned by the Electric Service Provider broken down by generation technology, fuel type, and generation capacity;
 9. The number of customers aggregated and the amount of aggregated load; and
 10. Other data requested by staff or the Commission.
- B. Reporting Schedule
 1. For the period through December 31, 2003, semi-annual reports shall be filed by April 15 (covering the previous period of July through December) and October 15 (covering the previous period of January through June). The first such report shall cover the period January 1 through June 30, 1999.
 2. For the period after December 31, 2003, annual reports shall be filed by April 15 (covering the previous period of January through December). The first such report shall cover the period January 1 through December 31, 2004.
- C. The information listed above may, at the provider's option, be provided on a confidential basis. However, staff or the Commission may issue reports with aggregate statistics based on confidential information that do not disclose data pertaining to a particular seller or purchases by a particular buyer.
- D. Any Electric Service Provider, Affected Utility, or Utility Distribution Company governed by this Article which fails to file the above data in a timely manner may be subject to a penalty imposed by the Commission or may have its Certificate rescinded by the Commission.

- E. Any Electric Service Provider holding a Certificate pursuant to this Article shall file a request in Docket Control to discontinue any competitive tariff as soon as practicable after the decision to discontinue offering service is made.
- F. In addition to the above reporting requirements, Electric Service Providers, Affected Utilities, and Utility Distribution Companies governed by this Article shall participate in Commission workshops or other forums whose purpose is to evaluate competition or assess market issues.

Historical Note

Adopted effective December 26, 1996, under an exemption as determined by the Arizona Corporation Commission (Supp. 96-4). Amended by an emergency action effective August 10, 1998, pursuant to A.R.S. § 41-1026, in effect for a maximum of 180 days (Supp. 98-3). Emergency amendment replaced by exempt permanent amendment effective December 31, 1998 (Supp. 98-4). Former Section R14-2-1613 renumbered to R14-2-1612; new Section R14-2-1613 renumbered from R14-2-1614 and amended by exempt rulemaking at 5 A.A.R. 3933, effective September 24, 1999 (Supp. 99-3). Amended by exempt rulemaking at 6 A.A.R. 4180, effective October 13, 2000 (Supp. 00-4).

Editor's Note: *The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General approval provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).*

R14-2-1614. Administrative Requirements

- A. Any Electric Service Provider certificated under this Article may file with the Commission, through Docket Control, proposed additional tariffs for Competitive Services at any time which include a description of the service, maximum rates, terms, and conditions.
- B. Contracts filed pursuant to this Article shall not be open to public inspection or made public except on order of the Commission, or by the Commission or a Commissioner in the course of a hearing or proceeding.
- C. The Commission may consider variations or exemptions from the terms or requirements of any of the rules in this Article upon the application of an affected party. The application must set forth the reasons why the public interest will be served by the variation or exemption from the Commission rules and regulations. Any variation or exemption granted shall require an order of the Commission. Where a conflict exists between these rules and an approved tariff or order of the Commission, the provisions of the approved tariff or order of the Commission shall apply.
- D. The Commission may develop procedures for resolving disputes regarding implementation of retail electric competition.
- E. Prior to October 1, 1999, the Director, Utilities Division, shall implement a Consumer Education Program as approved by the Commission.

Historical Note

Adopted effective December 26, 1996, under an exemption as determined by the Arizona Corporation Commission (Supp. 96-4). Amended by an emergency action effective August 10, 1998, pursuant to A.R.S. § 41-1026, in effect for a maximum of 180 days (Supp. 98-3). Emergency amendment replaced by exempt permanent amendment effective December 31, 1998 (Supp. 98-4). Former Section R14-2-1614 renumbered to R14-2-1613; new Section R14-2-1614 renumbered

from R14-2-1615 and amended by exempt rulemaking at 5 A.A.R. 3933, effective September 24, 1999 (Supp. 99-3). Amended by exempt rulemaking at 6 A.A.R. 4180, effective October 13, 2000 (Supp. 00-4).

Editor's Note: *The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General approval provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).*

R14-2-1615. Separation of Monopoly and Competitive Services

- A.** All competitive generation assets and competitive services shall be separated from an Affected Utility prior to January 1, 2001. Such separation shall either be to an unaffiliated party or to a separate corporate affiliate or affiliates. If an Affected Utility chooses to transfer its competitive generation assets or competitive services to a competitive electric affiliate, such transfer shall be at a value determined by the Commission to be fair and reasonable.
- B.** Beginning January 1, 2001, an Affected Utility or Utility Distribution Company shall not provide Competitive Services as defined in R14-2-1601.
 - 1. This Section does not preclude an Affected Utility or Utility Distribution Company from billing its own customers for distribution service, or from providing billing services to Electric Service Providers in conjunction with its own billing, or from providing Meter Services and Meter Reading Services for Load Profiled residential customers. Nor does this Section preclude an Affected Utility or Utility Distribution Company from providing billing and collections, Metering and Meter Reading Service as part of the Standard Offer Service tariff to Standard Offer Service customers.
 - 2. This Section does not preclude an Affected Utility or Utility Distribution Company from owning distribution and transmission primary voltage Current Transformers and Potential Transformers.
- C.** An Electric Distribution Cooperative is not subject to the provisions of R14-2-1615 unless it offers competitive electric services outside of its distribution service territory.

Historical Note

Adopted effective December 26, 1996, under an exemption as determined by the Arizona Corporation Commission (Supp. 96-4). Amended by an emergency action effective August 10, 1998, pursuant to A.R.S. § 41-1026, in effect for a maximum of 180 days (Supp. 98-3). Emergency amendment replaced by exempt permanent amendment effective December 31, 1998 (Supp. 98-4). Former Section R14-2-1615 renumbered to R14-2-1614; new Section R14-2-1615 renumbered from R14-2-1616 and amended by exempt rulemaking at 5 A.A.R. 3933, effective September 24, 1999 (Supp. 99-3).

Editor's Note: *The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General approval provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).*

R14-2-1616. Code of Conduct

- A.** If not previously filed, no later than 90 days after adoption of these Rules, each Affected Utility which plans to offer Non-

competitive Services and which plans to offer Competitive Services through its competitive electric affiliate shall propose a Code of Conduct to prevent anti-competitive activities. Each Affected Utility that is an electric cooperative, that plans to offer Noncompetitive Services, and that is a member of any electric cooperative that plans to offer Competitive Services shall also submit a Code of Conduct to prevent anti-competitive activities. All Codes of Conduct shall be filed in Docket Control and be subject to Commission approval after a hearing.

B. The Code of Conduct shall address the following subjects:

1. Appropriate procedures to prevent cross subsidization between the Utility Distribution Company and any competitive affiliates, including but not limited to the maintenance of separate books, records, and accounts;
2. Appropriate procedures to ensure that the Utility Distribution Company's competitive affiliate does not have access to confidential utility information that is not also available to other market participants;
3. Appropriate guidelines to limit the joint employment of personnel by both a Utility Distribution Company and its competitive affiliate;
4. Appropriate guidelines to govern the use of the Utility Distribution Company's name or logo by the Utility Distribution Company's competitive affiliate;
5. Appropriate procedures to ensure that the Utility Distribution Company does not give its competitive affiliate any preferential treatment such that other market participants are unfairly disadvantaged or discriminated against;
6. Appropriate policies to eliminate joint advertising, joint marketing, or joint sales by a Utility Distribution Company and its competitive affiliate;
7. Appropriate procedures to govern transactions between a Utility Distribution Company and its competitive affiliate; and
8. Appropriate policies to prevent the Utility Distribution Company and its competitive affiliate from representing that customers will receive better service as a result of the affiliation.
9. Complaints concerning violations of the Code of Conduct shall be processed under the procedures established in R14-2-212.

Historical Note

Adopted effective December 26, 1996, under an exemption as determined by the Arizona Corporation Commission (Supp. 96-4). Section R14-2-1616 repealed by emergency action; emergency new Section adopted by an emergency action effective August 10, 1998, pursuant to A.R.S. § 41-1026, in effect for a maximum of 180 days (Supp. 98-3). Emergency amendment replaced by exempt permanent amendment effective December 31, 1998 (Supp. 98-4). Former Section R14-2-1616 renumbered to R14-2-1615; new Section R14-2-1616 adopted by exempt rulemaking at 5 A.A.R. 3933, effective September 24, 1999 (Supp. 99-3). Amended by exempt rulemaking at 6 A.A.R. 4180, effective October 13, 2000 (Supp. 00-4).

Editor's Note: *The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General approval provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).*

R14-2-1617. Disclosure of Information

Corporation Commission - Fixed Utilities

- A. Each Load-Serving Entity providing either generation service or Standard Offer Service shall prepare a consumer information label that sets forth the following information:
 - 1. Price to be charged for generation services,
 - 2. Price variability information,
 - 3. Customer service information,
 - 4. Time period to which the reported information applies.
- B. Each Load-Serving Entity providing either generation service or Standard Offer Service shall provide, upon request, the following information (to the extent reasonably known):
 - 1. Composition of resource portfolio,
 - 2. Fuel mix characteristics of the resource portfolio,
 - 3. Emissions characteristics of the resource portfolio.
- C. The Director, Utilities Division, shall develop the format and reporting requirements for the consumer information label to ensure that the information is appropriately and accurately reported and to ensure that customers can use the labels for comparisons among Load-Serving Entities. The format developed by the Director, Utilities Division, shall be used by each Load-Serving Entity.
- D. Each Load-Serving Entity shall include the information disclosure label in a prominent position in all written marketing materials specifically targeted to Arizona. When a Load-Serving Entity advertises in nonprint media, or in written materials not specifically targeted to Arizona, the marketing materials shall indicate that the Load-Serving Entity shall provide the consumer information label to the public upon request.
- E. Each Load-Serving Entity shall prepare an annual disclosure report that aggregates the resource portfolios of the Load-Serving Entity and its affiliates.
- F. Each Load-Serving Entity shall prepare a statement of its terms of service that sets forth the following information:
 - 1. Actual pricing structure or rate design according to which the customer with a load of less than 1 MW will be billed, including an explanation of price variability and price level adjustments that may cause the price to vary;
 - 2. Length and description of the applicable contract and provisions and conditions for early termination by either party;
 - 3. Due date of bills and consequences of late payment;
 - 4. Conditions under which a credit agency is contacted;
 - 5. Deposit requirements and interest on deposits;
 - 6. Limits on warranties and damages;
 - 7. All charges, fees, and penalties;
 - 8. Information on consumer rights pertaining to estimated bills, third-party billing, deferred payments, and rescission of supplier switches within three days of receipt of confirmation;
 - 9. A toll-free telephone number for service complaints;
 - 10. Low income programs and low income rate eligibility;
 - 11. Provisions for default service;
 - 12. Applicable provisions of state utility laws; and
 - 13. Method whereby customers will be notified of changes to the terms of service.
- G. The consumer information label, the disclosure report, and the terms of service shall be distributed in accordance with the following requirements:
 - 1. Prior to the initiation of service for any retail customer,
 - 2. Prior to processing written authorization from a retail customer with a load of less than 1 MW to change Electric Service Providers,
 - 3. To any person upon request,
 - 4. Made a part of the semi-annual and annual reports required by R14-2-1613.
- 5. The information described in this subsection shall be posted on any electronic information medium of the Load-serving Entities.
- H. Failure to comply with the rules on information disclosure or dissemination of inaccurate information may result in suspension or revocation of certification or other penalties as determined by the Commission.
- I. The Commission shall establish a consumer information advisory panel to review the effectiveness of the provisions of this Section and to make recommendations for changes in the rules.

Historical Note

Adopted by an emergency action effective August 10, 1998, pursuant to A.R.S. § 41-1026, in effect for a maximum of 180 days (Supp. 98-3). Emergency adoption replaced by exempt permanent adoption effective December 31, 1998 (Supp. 98-4). Former Section R14-2-1617 repealed; new Section R14-2-1617 renumbered from R14-2-1618 and amended by exempt rulemaking at 5 A.A.R. 3933, effective September 24, 1999 (Supp. 99-3). Amended by exempt rulemaking at 6 A.A.R. 4180, effective October 13, 2000 (Supp. 00-4).

Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General approval provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).

R14-2-1618. Environmental Portfolio Standard

- A. Upon the effective implementation of a Commission-approved Environmental Portfolio Standard Surcharge tariff, any Load-Serving Entity selling electricity or aggregating customers for the purpose of selling electricity under the provisions of this Article must derive at least .2% of the total retail energy sold from new solar resources or environmentally-friendly renewable electricity technologies, whether that energy is purchased or generated by the seller. Solar resources include photovoltaic resources and solar thermal resources that generate electricity. New solar resources and environmentally-friendly renewable electricity technologies are those installed on or after January 1, 1997.
 - 1. Electric Service Providers, that are not UDCs, are exempt from portfolio requirements until 2004, but could voluntarily elect to participate. ESPs choosing to participate would receive a pro rata share of funds collected from the Environmental Portfolio Surcharge delineated in R14-2-1618.A.2 for portfolio purposes to acquire eligible portfolio systems or electricity generated from such systems.
 - 2. Utility Distribution Companies would recover part of the costs of the portfolio standard through current System Benefits Charges, if they exist, including a re-allocation of demand side management funding to portfolio uses. Additional portfolio standard costs will be recovered by a customer Environmental Portfolio Surcharge on the customers' monthly bill. The Environmental Portfolio Surcharge shall be assessed monthly to every metered and/or non-metered retail electric service. This monthly assessment will be the lesser of \$0.000875 per kWh or:
 - a. Residential Customers: \$.35 per service,
 - b. Non-Residential Customers: \$13 per service,
 - c. Non-Residential Customers whose metered demand is 3,000 kW or more for three consecutive months: \$39.00 per service. In the case of unmetered services, the Load-Serving Entity shall, for purposes of billing the Environmental Portfolio Standard Sur-

Corporation Commission - Fixed Utilities

charge and subject to the caps set forth above, use the lesser of (i) the load profile or otherwise estimated kWh required to provide the service in question; or (ii) the service's contract kWh.

3. Customer bills shall reflect a line item entitled "Environmental Portfolio Surcharge, mandated by the Corporation Commission."
4. Utility Distribution Companies or ESPs that do not currently have a renewables program may request a waiver or modification of this Section due to extreme circumstances that may exist.
- B. The portfolio percentage shall increase after December 31, 2000.
 1. Starting January 1, 2001, the portfolio percentage shall increase annually and shall be set according to the following schedule:

YEAR	PORTFOLIO PERCENTAGE
2001	.2%
2002	.4%
2003	.6%
2004	.8%
2005	1.0%
2006	1.05%
2007-2012	1.1%
 2. The Commission would continue the annual increase in the portfolio percentage after December 31, 2004, only if the cost of environmental portfolio electricity has declined to a Commission-approved cost/benefit point. The Director, Utilities Division shall establish, not later than January 1, 2003, an Environmental Portfolio Cost Evaluation Working Group to make recommendations to the Commission of an acceptable portfolio electricity cost/benefit point or portfolio kWh cost impact maximum that the Commission could use as a criteria for the decision to continue the increase in the portfolio percentage. The recommendations of the Working Group shall be presented to the Commission not later than June 30, 2003. In no event, however, shall the Commission increase the surcharge caps as delineated in R14-2-1618(A)(2).
 3. The requirements for the phase-in of various technologies shall be:
 - a. In 2001, the Portfolio kWh makeup shall be at least 50 percent solar electric, and no more than 50 percent other environmentally-friendly renewable electricity technologies or solar hot water or R&D on solar electric resources, but with no more than 10 percent on R&D.
 - b. In 2002 and 2003, the Portfolio kWh makeup shall be at least 50 percent solar electric, and no more than 50 percent other environmentally-friendly renewable electricity technologies or solar hot water or R&D on solar electric resources, but with no more than 5 percent on R&D.
 - c. In 2004, through 2012, the portfolio kWh makeup shall be at least 60 percent solar electric with no more than 40 percent solar hot water or other environmentally-friendly renewable electricity technologies.
- C. Load-Serving Entities shall be eligible for a number of extra credit multipliers that may be used to meet the portfolio standard requirements. Extra credits may be used to meet portfolio requirements and extra credits from solar electric technologies

will also count toward the solar electric fraction requirements in R14-2-1618(B)(3). With the exception of the Early Installation Extra Credit Multiplier, which has a five-year life from operational start-up, all other extra credit multipliers are valid for the life of the generating equipment.

1. Early Installation Extra Credit Multiplier: For new solar electric systems installed and operating prior to December 31, 2003, Load-Serving Entities would qualify for multiple extra credits for kWh produced for five years following operational start-up of the solar electric system. The five-year extra credit would vary depending upon the year in which the system started up, as follows:

YEAR	EXTRA CREDIT MULTIPLIER
1997	.5
1998	.5
1999	.5
2000	.4
2001	.3
2002	.2
2003	.1

Eligibility to qualify for the Early Installation Extra Credit Multiplier would end in 2003. However, any eligible system that was operational in 2003 or before would still be allowed the applicable extra credit for the full five years after operational start-up.

2. Solar Economic Development Extra Credit Multipliers: There are two equal parts to this multiplier, an in-state installation credit and an in-state content multiplier.
 - a. In-State Power Plant Installation Extra Credit Multiplier: Solar electric power plants installed in Arizona shall receive a .5 extra credit multiplier.
 - b. In-State Manufacturing and Installation Content Extra Credit Multiplier: Solar electric power plants shall receive up to a .5 extra credit multiplier related to the manufacturing and installation content that comes from Arizona. The percentage of Arizona content of the total installed plant cost shall be multiplied by .5 to determine the appropriate extra credit multiplier. So, for instance, if a solar installation included 80% Arizona content, the resulting extra credit multiplier would be .4 (which is .8 X .5).
3. Distributed Solar Electric Generator and Solar Incentive Program Extra Credit Multiplier: Any distributed solar electric generator that meets more than one of the eligibility conditions will be limited to only one .5 extra credit multiplier from this subsection. Appropriate meters will be attached to each solar electric generator and read at least once annually to verify solar performance.
 - a. Solar electric generators installed at or on the customer premises in Arizona. Eligible customer premises locations will include both grid-connected and remote, non-grid-connected locations. In order for Load-Serving Entities to claim an extra credit multiplier, the Load-Serving Entity must have contributed at least 10% of the total installed cost or have financed at least 80% of the total installed cost.
 - b. Solar electric generators located in Arizona that are included in any Load-Serving Entity's Green Pricing program.
 - c. Solar electric generators located in Arizona that are included in any Load-Serving Entity's Net Metering or Net Billing program.

- d. Solar electric generators located in Arizona that are included in any Load-Serving Entity's solar leasing program.
 - e. All Green Pricing, Net Metering, Net Billing, and Solar Leasing programs must have been reviewed and approved by the Director, Utilities Division in order for the Load-Serving Entity to accrue extra credit multipliers from this subsection.
4. All multipliers are additive, allowing a maximum combined extra credit multiplier of 2.0 in years 1997-2003, for equipment installed and manufactured in Arizona and either installed at customer premises or participating in approved solar incentive programs. So, if a Load-Serving Entity qualifies for a 2.0 extra credit multiplier and it produces 1 solar kWh, the Load-Serving Entity would get credit for 3 solar kWh (1 produced plus 2 extra credit).
- D.** Load-Serving Entities selling electricity under the provisions of this Article shall provide reports on sales and portfolio power as required in this Article, clearly demonstrating the output of portfolio resources, the installation date of portfolio resources, and the transmission of energy from those portfolio resources to Arizona consumers. The Commission may conduct necessary monitoring to ensure the accuracy of these data. Reports shall be made according to the Reporting Schedule in R14-2-1613(B).
- E.** Photovoltaic or solar thermal electric resources that are located on the consumer's premises shall count toward the Environmental Portfolio Standard applicable to the current Load-Serving Entity serving that consumer unless a different Load-Serving Entity is entitled to receive credit for such resources under the provisions of R14-2-1618(C)(3)(a).
- F.** Any solar electric generators installed by an Affected Utility to meet the environmental portfolio standard shall be counted toward meeting renewable resource goals for Affected Utilities established in Decision No. 58643.
- G.** Any Load-Serving Entity that produces or purchases any eligible kWh in excess of its annual portfolio requirements may save or bank those excess kWh for use or sale in future years. Any eligible kWh produced subject to this rule may be sold or traded to any Load-Serving Entity that is subject to this rule. Appropriate documentation, subject to Commission review, shall be given to the purchasing entity and shall be referenced in the reports of the Load-Serving Entity that is using the purchased kWh to meet its portfolio requirements.
- H.** Environmental Portfolio Standard requirements shall be calculated on an annual basis, based upon electricity sold during the calendar year.
- I.** A Load-Serving Entity shall be entitled to receive a partial credit against the portfolio requirement if the Load-Serving Entity or its affiliate owns or makes a significant investment in any solar electric manufacturing plant that is located in Arizona. The credit will be equal to the amount of the nameplate capacity of the solar electric generators produced in Arizona and sold in a calendar year times 2,190 hours (approximating a 25% capacity factor).
- 1. The credit against the portfolio requirement shall be limited to the following percentages of the total portfolio requirement:
 - 2001: Maximum of 50% of the portfolio requirement
 - 2002: Maximum of 25% of the portfolio requirement
 - 2003 and on: Maximum of 20% of the portfolio requirement
 - 2. No extra credit multipliers will be allowed for this credit. In order to avoid double-counting of the same equipment, solar electric generators that are used by other Load-Serving Entities to meet their Arizona portfolio requirements will not be allowable for credits under this Section for the manufacturer/Electric Service Provider to meet its portfolio requirements.
- J.** The Director, Utilities Division shall develop appropriate safety, durability, reliability, and performance standards necessary for solar generating equipment and environmentally-friendly renewable electricity technologies and to qualify for the portfolio standard. Standards requirements will apply only to facilities constructed or acquired after the standards are publicly issued.
- K.** A Load-Serving Entity shall be entitled to meet up to 20% of the portfolio requirement with solar water heating systems or solar air conditioning systems purchased by the Load-Serving Entity for use by its customers, or purchased by its customers and paid for by the Load-Serving Entity through bill credits or other similar mechanisms. The solar water heaters must replace or supplement the use of electric water heaters for residential, commercial, or industrial water heating purposes. For the purposes of this rule, solar water heaters will be credited with 1 kWh of electricity produced for each 3,415 British Thermal Units of heat produced by the solar water heater and solar air conditioners shall be credited with kWhs equivalent to those needed to produce a comparable cooling load reduction. Solar water heating systems and solar air conditioning systems shall be eligible for Early Installation Extra Credit Multipliers as defined in R14-2-1618(C)(1) and Solar Economic Development Extra Credit Multipliers as defined in R14-2-1618(C)(2)(b).
- L.** A Load-Serving Entity shall be entitled to meet the portfolio requirement with electricity produced in Arizona by environmentally-friendly renewable electricity technologies that are defined as in-state landfill gas generators, wind generators, and biomass generators, consistent with the phase-in schedule in R14-2-1618(B)(3). Systems using such technologies shall be eligible for Early Installation Extra Credit Multipliers as defined in R14-2-1618(C)(1) and Solar Economic Development Extra Credit Multipliers as defined in R14-2-1618(C)(2)(b).

Historical Note

Adopted by an emergency action effective August 10, 1998, pursuant to A.R.S. § 41-1026, in effect for a maximum of 180 days (Supp. 98-3). Emergency adoption replaced by exempt permanent adoption effective December 31, 1998 (Supp. 98-4). Section R14-2-1618 renumbered to R14-2-1617 by exempt rulemaking at 5 A.A.R. 3933, effective September 24, 1999 (Supp. 99-3). New Section adopted by exempt rulemaking at 7 A.A.R. 1661, effective March 20, 2001 (Supp. 01-1).

ARTICLE 17. RESERVED

ARTICLE 18. RENEWABLE ENERGY STANDARD AND TARIFF

R14-2-1801. Definitions

- A.** "Affected Utility" means a public service corporation serving retail electric load in Arizona, but excluding any Utility Distribution Company with more than half of its customers located outside of Arizona.
- B.** "Annual Renewable Energy Requirement" means the portion of an Affected Utility's annual retail electricity sales that must come from Eligible Renewable Energy Resources.
- C.** "Conventional Energy Resource" means an energy resource that is non-renewable in nature, such as natural gas, coal, oil, and uranium, or electricity that is produced with energy resources that are not Renewable Energy Resources.
- D.** "Customer Self-Directed Renewable Energy Option" means a Commission-approved program under which an Eligible Customer

Corporation Commission - Fixed Utilities

tomer may self-direct the use of its allocation of funds collected pursuant to an Affected Utility's Tariff.

- E. "Distributed Generation" means electric generation sited at a customer premises, providing electric energy to the customer load on that site or providing wholesale capacity and energy to the local Utility Distribution Company for use by multiple customers in contiguous distribution substation service areas. The generator size and transmission needs shall be such that the plant or associated transmission lines do not require a Certificate of Environmental Compatibility from the Corporation Commission.
- F. "Distributed Renewable Energy Requirement" means a portion of the Annual Renewable Energy Requirement that must be met with Renewable Energy Credits derived from resources that qualify as Distributed Renewable Energy Resources pursuant to R14-2-1802(B).
- G. "Distributed Solar Electric Generator" means electric generation sited at a customer premises, providing electric energy from solar electric resources to the customer load on that site or providing wholesale capacity and energy to the local Utility Distribution Company for use by multiple customers in contiguous distribution substation service areas. The generator size and transmission needs shall be such that the plant or associated transmission lines do not require a Certificate of Environmental Compatibility from the Corporation Commission.
- H. "Eligible Customer" means an entity that pays Tariff funds of at least \$25,000 annually for any number of related accounts or services within an Affected Utility's service area.
- I. "Extra Credit Multiplier" means a way to increase the Renewable Energy Credits attributable to specific Eligible Renewable Energy Resources in order to encourage specific renewable applications.
- J. "Green Pricing" means a rate option in which a customer elects to pay a tariffed rate premium for electricity derived from Eligible Renewable Energy Resources.
- K. "Market Cost of Comparable Conventional Generation" means the Affected Utility's energy and capacity cost of producing or procuring the incremental electricity that would be avoided by the resources used to meet the Annual Renewable Energy Requirement, taking into account hourly, seasonal, and long-term supply and demand circumstances. Avoided costs include any avoided transmission and distribution costs and any avoided environmental compliance costs.
- L. "Net Billing" means a system of billing a customer who installs an Eligible Renewable Energy Resource generator on the customer's premises for retail electricity purchased at retail rates while crediting the customer's bill for any customer-generated electricity sold to the Affected Utility at avoided cost.
- M. "Net Metering" means a system of metering electricity by which the Affected Utility credits the customer at the full retail rate for each kilowatt-hour of electricity produced by an Eligible Renewable Energy Resource system installed on the customer-generator's side of the electric meter, up to the total amount of electricity used by that customer during an annualized period, and which compensates the customer-generator at the end of the annualized period for any excess credits at a rate equal to the Affected Utility's avoided cost of wholesale power. The Affected Utility does not charge the customer-generator any additional fees or charges or impose any equipment or other requirements unless the same is imposed on customers in the same rate class that the customer-generator would qualify for if the customer-generator did not have generation equipment.
- N. "Renewable Energy Credit" means the unit created to track kWh derived from an Eligible Renewable Energy Resource or

kWh equivalent of Conventional Energy Resources displaced by Distributed Renewable Energy Resources.

- O. "Renewable Energy Resource" means an energy resource that is replaced rapidly by a natural, ongoing process and that is not nuclear or fossil fuel.
- P. "Tariff" means a Commission-approved rate designed to recover an Affected Utility's reasonable and prudent costs of complying with these rules.
- Q. "Utility Distribution Company" means a public service corporation that operates, constructs, or maintains a distribution system for the delivery of power to retail customers.
- R. "Wholesale Distributed Generation Component" means non-utility owners of Eligible Renewable Energy Resources that are located within the distribution system and that do not require a transmission line over 69 kv to deliver power at wholesale to an Affected Utility to meet its Annual Renewable Energy Requirements.

Historical Note

New Section made by final rulemaking at 13 A.A.R. 2389, effective August 14, 2007 (Supp. 07-2).

R14-2-1802. Eligible Renewable Energy Resources

- A. "Eligible Renewable Energy Resources" are applications of the following defined technologies that displace Conventional Energy Resources that would otherwise be used to provide electricity to an Affected Utility's Arizona customers:
 1. "Biogas Electricity Generator" is a generator that produces electricity from gases that are derived from plant-derived organic matter, agricultural food and feed matter, wood wastes, aquatic plants, animal wastes, vegetative wastes, or wastewater treatment facilities using anaerobic digestion or from municipal solid waste through a digester process, an oxidation process, or other gasification process.
 2. "Biomass Electricity Generator" is an electricity generator that uses any raw or processed plant-derived organic matter available on a renewable basis, including: dedicated energy crops and trees; agricultural food and feed crops; agricultural crop wastes and residues; wood wastes and residues, including landscape waste, right-of-way tree trimmings, or small diameter forest thinnings that are 12" in diameter or less; dead and downed forest products; aquatic plants; animal wastes; other vegetative waste materials; non-hazardous plant matter waste material that is segregated from other waste; forest-related resources, such as harvesting and mill residue, pre-commercial thinnings, slash, and brush; miscellaneous waste, such as waste pellets, crates, and dunnage; and recycled paper fibers that are no longer suitable for recycled paper production, but not including painted, treated, or pressurized wood, wood contaminated with plastics or metals, tires, or recyclable post-consumer waste paper.
 3. "Distributed Renewable Energy Resources" as defined in subsection (B).
 4. "Eligible Hydropower Facilities" are hydropower generators that were in existence prior to 1997 and that satisfy one of the following two criteria:
 - a. New Increased Capacity of Existing Hydropower Facilities: A hydropower facility that increases capacity due to improved technological or operational efficiencies or operational improvements resulting from improved or modified turbine design, improved or modified wicket gate assembly design, improved hydrological flow conditions, improved generator windings, improved electrical excitation systems, increases in transformation capacity, and

improved system control and operating limit modifications. The electricity kWh that are eligible to meet the Annual Renewable Energy Requirements shall be limited to the new, incremental kWh output resulting from the capacity increase that is delivered to Arizona customers to meet the Annual Renewable Energy Requirement.

- b. Generation from pre-1997 hydropower facilities that is used to firm or regulate the output of other eligible, intermittent renewable resources. The electricity kWh that are eligible to meet the Annual Renewable Energy Requirements shall be limited to the kWh actually generated to firm or regulate the output of eligible intermittent Renewable Energy Resources and that are delivered to Arizona customers to meet the Annual Renewable Energy Requirements.
5. "Fuel Cells that Use Only Renewable Fuels" are fuel cell electricity generators that operate on renewable fuels, such as hydrogen created from water by Eligible Renewable Energy Resources. Hydrogen created from non-Renewable Energy Resources, such as natural gas or petroleum products, is not a renewable fuel.
6. "Geothermal Generator" is an electricity generator that uses heat from within the earth's surface to produce electricity.
7. "Hybrid Wind and Solar Electric Generator" is a system in which a Wind Generator and a solar electric generator are combined to provide electricity.
8. "Landfill Gas Generator" is an electricity generator that uses methane gas obtained from landfills to produce electricity.
9. "New Hydropower Generator of 10 MW or Less" is a generator, installed after January 1, 2006, that produces 10 MW or less and is either:
 - a. A low-head, micro hydro run-of-the-river system that does not require any new damming of the flow of the stream; or
 - b. An existing dam that adds power generation equipment without requiring a new dam, diversion structures, or a change in water flow that will adversely impact fish, wildlife, or water quality; or
 - c. Generation using canals or other irrigation systems.
10. "Solar Electricity Resources" use sunlight to produce electricity by either photovoltaic devices or solar thermal electric resources.
11. "Wind Generator" is a mechanical device that is driven by wind to produce electricity.
- B. "Distributed Renewable Energy Resources" are applications of the following defined technologies that are located at a customer's premises and that displace Conventional Energy Resources that would otherwise be used to provide electricity to Arizona customers:
 1. "Biogas Electricity Generator," "Biomass Electricity Generator," "Geothermal Generator," "Fuel Cells that Use Only Renewable Fuels," "New Hydropower Generator of 10 MW or Less," or "Solar Electricity Resources," as each of those terms is defined in subsections (A)(1), (A)(2), (A)(5), (A)(6), (A)(9), and (A)(10).
 2. "Biomass Thermal Systems" and "Biogas Thermal Systems" are systems which use fuels as defined in subsections (A)(1) and (A)(2) to produce thermal energy and that comply with Environmental Protection Agency Certification Programs or are permitted by state, county, or local air quality authorities. For purposes of this definition "Biomass Thermal Systems" and "Biogas Thermal Systems" do not include biomass and wood stoves, furnaces, and fireplaces.
 3. "Commercial Solar Pool Heaters" are devices that use solar energy to heat commercial or municipal swimming pools.
 4. "Geothermal Space Heating and Process Heating Systems" are systems that use heat from within the earth's surface for space heating or for process heating.
 5. "Renewable Combined Heat and Power System" is a Distributed Generation system, fueled by an Eligible Renewable Energy Resource, that produces both electricity and useful renewable process heat. Both the electricity and renewable process heat may be used to meet the Distributed Renewable Energy Requirement.
 6. "Solar Daylighting" is the non-residential application of a device specifically designed to capture and redirect the visible portion of the solar beam, while controlling the infrared portion, for use in illuminating interior building spaces in lieu of artificial lighting.
 7. "Solar Heating, Ventilation, and Air Conditioning" ("HVAC") is the combination of Solar Space Cooling and Solar Space Heating as part of one system.
 8. "Solar Industrial Process Heating and Cooling" is the use of solar thermal energy for industrial or commercial manufacturing or processing applications.
 9. "Solar Space Cooling" is a technology that uses solar thermal energy absent the generation of electricity to drive a refrigeration machine that provides for space cooling in a building.
 10. "Solar Space Heating" is a method whereby a mechanical system is used to collect solar energy to provide space heating for buildings.
 11. "Solar Water Heater" is a device that uses solar energy rather than electricity or fossil fuel to heat water for residential, commercial, or industrial purposes.
 12. "Wind Generator of 1 MW or Less" is a mechanical device, with an output of 1 MW or less, that is driven by wind to produce electricity.
- C. Except as provided in subsection (A)(4), Eligible Renewable Energy Resources shall not include facilities installed before January 1, 1997.
- D. The Commission may adopt pilot programs in which additional technologies are established as Eligible Renewable Energy Resources. Any such additional technologies shall be Renewable Energy Resources that produce electricity, replace electricity generated by Conventional Energy Resources, or replace the use of fossil fuels with Renewable Energy Resources. Energy conservation products, energy management products, energy efficiency products, or products that use non-renewable fuels shall not be eligible for these pilot programs.

Historical Note

New Section made by final rulemaking at 13 A.A.R. 2389, effective August 14, 2007 (Supp. 07-2).

R14-2-1803. Renewable Energy Credits

- A. One Renewable Energy Credit shall be created for each kWh derived from an Eligible Renewable Energy Resource.
- B. For Distributed Renewable Energy Resources, one Renewable Energy Credit shall be created for each 3,415 British Thermal Units of heat produced by a Solar Water Heating System, a Solar Industrial Process Heating and Cooling System, Solar Space Cooling System, Biomass Thermal System, Biogas Thermal System, or a Solar Space Heating System.
- C. An Affected Utility may transfer Renewable Energy Credits to another party and may acquire Renewable Energy Credits from another party. A Renewable Energy Credit is owned by

Corporation Commission - Fixed Utilities

the owner of the Eligible Renewable Energy Resource from which it was derived unless specifically transferred.

- D. All transfers of Renewable Energy Credits shall be appropriately documented to demonstrate that the energy associated with the Renewable Energy Credits meets the provisions of R14-2-1802.
- E. Any contract by an Affected Utility for purchase or sale of energy or Renewable Energy Credits to meet the requirements of this Rule shall explicitly describe the transfer of rights concerning both energy and Renewable Energy Credits.
- F. Except in the case of Distributed Renewable Energy Resources, Affected Utilities must demonstrate the delivery of energy from Eligible Renewable Energy Resources to their retail consumers such as by providing proof that the necessary transmission rights were reserved and utilized to deliver energy from Eligible Renewable Energy Resources to the Affected Utility's system, if transmission is required, or that the appropriate control area operators scheduled the energy from Eligible Renewable Energy Resources for delivery to the Affected Utility's system.

Historical Note

New Section made by final rulemaking at 13 A.A.R.
2389, effective August 14, 2007 (Supp. 07-2).

R14-2-1804. Annual Renewable Energy Requirement

- A. In order to ensure reliable electric service at reasonable rates, each Affected Utility shall be required to satisfy an Annual Renewable Energy Requirement by obtaining Renewable Energy Credits from Eligible Renewable Energy Resources.
- B. An Affected Utility's Annual Renewable Energy Requirement shall be calculated each calendar year by applying the following applicable annual percentage to the retail kWh sold by the Affected Utility during that calendar year:

2006	1.25%
2007	1.50%
2008	1.75%
2009	2.00%
2010	2.50%
2011	3.00%
2012	3.50%
2013	4.00%
2014	4.50%
2015	5.00%
2016	6.00%
2017	7.00%
2018	8.00%
2019	9.00%
2020	10.00%
2021	11.00%
2022	12.00%
2023	13.00%
2024	14.00%
After 2024	15.00%

The annual increase in the annual percentage for each Affected Utility will be pro rated for the first year based on when the Affected Utility's funding mechanism is approved.

- C. An Affected Utility may use Renewable Energy Credits acquired in any year to meet its Annual Renewable Energy Requirement.
- D. Once a Renewable Energy Credit is used by any Affected Utility to satisfy these requirements, the credit is retired and cannot be subsequently used to satisfy these rules or any other regulatory requirement.

- E. If an Affected Utility trades or sells environmental pollution reduction credits or any other environmental attributes associated with kWh produced by an Eligible Renewable Energy Resource, the Affected Utility may not apply Renewable Energy Credits derived from that same kWh to satisfy the requirements of these rules.
- F. No more than 20 percent of an Affected Utility's Annual Renewable Energy Requirement may be met with Renewable Energy Credits derived pursuant to R14-2-1807.
- G. An Affected Utility may ask the Commission to preapprove agreements to purchase energy or Renewable Energy Credits from Eligible Renewable Energy Resources.

Historical Note

New Section made by final rulemaking at 13 A.A.R.
2389, effective August 14, 2007 (Supp. 07-2).

R14-2-1805. Distributed Renewable Energy Requirement

- A. In order to improve system reliability, each Affected Utility shall be required to satisfy a Distributed Renewable Energy Requirement by obtaining Renewable Energy Credits from Distributed Renewable Energy Resources.
- B. An Affected Utility's Distributed Renewable Energy Requirement shall be calculated each calendar year by applying the following applicable annual percentage to the Affected Utility's Annual Renewable Energy Requirement:

2007	5%
2008	10%
2009	15%
2010	20%
2011	25%
After 2011	30%

The annual increase in the annual percentage for each Affected Utility will be pro rated for the first year based on when the Affected Utility's funding mechanism is approved.

- C. An Affected Utility may use Renewable Energy Credits acquired in any year to meet its Distributed Renewable Energy Requirement. Once a Renewable Energy Credit is used by any Affected Utility to satisfy these requirements, the credit is retired.
- D. An Affected Utility shall meet one-half of its annual Distributed Renewable Energy Requirement from residential applications and the remaining one-half from non-residential, non-utility applications.
- E. An Affected Utility may satisfy no more than 10 percent of its annual Distributed Renewable Energy Requirement from Renewable Energy Credits derived from distributed Renewable Energy Resources that are non-utility owned generators that sell electricity at wholesale to Affected Utilities. This Wholesale Distributed Generation Component shall qualify for the non-residential portion of the Distributed Renewable Energy Requirement.
- F. Any Renewable Energy Credit created by production of renewable energy which the Affected Utility does not own shall be retained by the entity creating the Renewable Energy Credit. Such Renewable Energy Credit may not be considered used or extinguished by any Affected Utility without approval and proper documentation from the entity creating the Renewable Energy Credit, regardless of whether or not the Commission acknowledged the kWhs associated with non-utility owned Renewable Energy Credits.
- G. The reporting of kWhs associated with Renewable Energy Credits not owned by the utility will be acknowledged.

Historical Note

New Section made by final rulemaking at 13 A.A.R.
2389, effective August 14, 2007 (Supp. 07-2).

Amended by final rulemaking at 21 A.A.R. 379, effective April 21, 2015 (Supp. 15-1).

R14-2-1806. Extra Credit Multipliers

- A. Renewable Energy Credits derived from Eligible Renewable Energy Resources installed after December 31, 2005, shall not be eligible for Extra Credit Multipliers.
- B. The extra Renewable Energy Credits resulting from any applicable multiplier shall be added to the Renewable Energy Credits produced by the Eligible Renewable Energy Resource to determine the total Renewable Energy Credits that may be used to meet an Affected Utility's Annual Renewable Energy Requirement.
- C. "Early Installation Extra Credit Multiplier." Affected Utilities acquiring Renewable Energy Credits from a Solar Electricity Resource, a Solar Water Heater, a Solar Space Cooling system, a Landfill Gas Generator, a Wind Generator, or a Biomass Electricity Generator that was installed and began operations between January 1, 2001, and December 31, 2003, shall be eligible for an Early Installation Extra Credit Multiplier. Renewable Energy Credits derived from such facilities and acquired by Affected Utilities shall be eligible for five years following the facility's operational start-up. The multiplier shall vary according to the year in which the system began operating:

2001	.3
2002	.2
2003	.1
- D. "In-state Power Plant Installation Extra Credit Multiplier." Affected Utilities acquiring Renewable Energy Credits from a Solar Electricity Resource that was installed in Arizona on or before December 31, 2005, shall be eligible for an In-state Power Plant Installation Extra Credit Multiplier. The Renewable Energy Credits derived from such a facility and acquired by an Affected Utility shall be multiplied by .5 annually for the life of the facility. The extra Renewable Energy Credits resulting from the multiplier shall be added to the Renewable Energy Credits produced by the Eligible Renewable Energy Resource to determine the total Renewable Energy Credits that may be used to meet an Affected Utility's Annual Renewable Energy Requirement.
- E. "In-state Manufacturing and Installation Content Extra Credit Multiplier." Affected Utilities acquiring Renewable Energy Credits from a Solar Electricity Resource, a Solar Water Heater, a Solar Space Cooling system, a Landfill Gas Generator, a Wind Generator, or a Biomass Electricity Generator that was installed in Arizona on or before December 31, 2005, and that contains components manufactured in Arizona shall be eligible for an In-state Manufacturing and Installation Content Extra Credit Multiplier. The Renewable Energy Credits derived from such a facility and acquired by an Affected Utility shall be multiplied annually for the life of the facility by a factor determined by multiplying .5 times the percent of Arizona content of the total installed plant.
- F. "Distributed Solar Electric Generator and Solar Incentive Program Extra Credit Multiplier." Affected Utilities acquiring Renewable Energy Credits from a Distributed Solar Electric Generator that was installed in Arizona on or before December 31, 2005, shall be eligible for a Distributed Solar Electric Generator and Solar Incentive Program Extra Credit Multiplier if the facility meets at least two of the following criteria:
 - 1. The facility is installed on customer premises,
 - 2. The facility is included in any Affected Utility's approved Green Pricing program,
 - 3. The facility is included in any Affected Utility's approved Net Metering or Net Billing program,
 - 4. The facility is included in any Affected Utility's approved solar leasing program, or

- 5. The facility is owned by and located on an Affected Utility's property or customer property. The Renewable Energy Credits derived from such a facility and acquired by an Affected Utility shall be multiplied by .5 annually for the life of the facility. Meters will be attached to each solar electric generator and read at least once annually to verify solar performance.

- G. All multipliers are additive, except that the maximum combined Extra Credit Multiplier shall not exceed 2.0.

Historical Note

New Section made by final rulemaking at 13 A.A.R. 2389, effective August 14, 2007 (Supp. 07-2).

R14-2-1807. Manufacturing Partial Credit

- A. An Affected Utility may acquire Renewable Energy Credits to apply to the non-distributed portion of its Annual Renewable Energy Requirement if it or its affiliate owns or makes a significant investment in any solar electric manufacturing plant located in Arizona or if it or its affiliate provides incentives to a manufacturer of solar electric products to locate a manufacturing facility in Arizona.
- B. The Renewable Energy Credits shall be equal to the nameplate capacity of the solar electric generators produced and sold in a calendar year times 2,190 hours, which approximates a 25 percent capacity factor.
- C. Extra credit multipliers shall not apply to Renewable Energy Credits created by this Section.

Historical Note

New Section made by final rulemaking at 13 A.A.R. 2389, effective August 14, 2007 (Supp. 07-2).

R14-2-1808. Tariff

- A. Within 60 days of the effective date of these rules, each Affected Utility shall file with the Commission a Tariff in substantially the same form as the Sample Tariff set forth in these rules that proposes methods for recovering the reasonable and prudent costs of complying with these rules. The specific amounts in the Sample Tariff are for illustrative purposes only and Affected Utilities may submit, with proper support, Tariff filings with alternative surcharge amounts.
- B. The Affected Utility's Tariff filing shall provide the following information:
 - 1. Financial information and supporting data sufficient to allow the Commission to determine the Affected Utility's fair value for purposes of evaluating the Affected Utility's proposed Tariff. Information submitted in the format of the Annual Report required under R14-2-212(G)(4) will be the minimum information necessary for filing a Tariff application but Commission Staff may request additional information depending upon the type of Tariff filing that is submitted;
 - 2. A discussion of the suitability of the Sample Tariff set forth in Appendix A for recovering the Affected Utility's reasonable and prudent costs of complying with these rules;
 - 3. Data to support the level of costs that the Affected Utility contends will be incurred in order to comply with these rules;
 - 4. Data to demonstrate that the Affected Utility's proposed Tariff is designed to recover only the costs in excess of the Market Cost of Comparable Conventional Generation; and
 - 5. Any other information that the Commission believes will be relevant to the Commission's consideration of the Tariff filing.

Corporation Commission - Fixed Utilities

- C. The Commission will approve, modify, or deny a Tariff proposed pursuant to subsection (A) within 180 days after the Tariff has been filed. The Commission may suspend this deadline or adopt an alternative procedural schedule for good cause. The Affected Utility's Annual Renewable Energy Requirement, as set forth in R14-2-1804(B), and Distributed Renewable Energy Requirement, as set forth in R14-2-1805(B), will be effective upon Commission approval of the Tariff filed pursuant to this Section.
- D. If an Affected Utility has an adjustor mechanism for the recovery of costs related to Annual Renewable Energy Requirements, the Affected Utility may file a request to reset its adjustor mechanism in lieu of a Tariff pursuant to subsection (A). The Affected Utility's filing shall provide all the information required by subsection (B), except that it may omit information specifically related to the fair value determination. The Affected Utility's Annual Renewable Energy Requirement, as set forth in R14-2-1804(B), and Distributed Renewable Energy Requirement, as set forth in R14-2-1805(B), will be effective upon Commission approval of the adjustor mechanism rate filed pursuant to this Section.
- E. An Affected Utility may file a rate case pursuant to R14-2-103 in lieu of a Tariff pursuant to subsection (A). The Affected Utility's filing shall provide all information required by subsection (B).

Historical Note

New Section made by final rulemaking at 13 A.A.R.
2389, effective August 14, 2007 (Supp. 07-2).

R14-2-1809. Customer Self-Directed Renewable Energy Option

- A. By January 1, 2007, each Affected Utility shall file with Docket Control a Tariff by which an Eligible Customer may apply to an Affected Utility to receive funds to install distributed Renewable Energy Resources. The funds annually received by an Eligible Customer pursuant to this Tariff may not exceed the amount annually paid by the Eligible Customer pursuant to the Affected Utility's Tariff.
- B. An Eligible Customer seeking to participate in this program shall submit to the Affected Utility a written application that describes the Renewable Energy Resources that it proposes to install and the projected cost of the project. An Eligible Customer shall provide at least half of the funding necessary to complete the project described in its application.
- C. All Renewable Energy Credits derived from the project, including generation and Extra Credit Multipliers, shall be applied to satisfy the Affected Utility's Annual Renewable Energy Requirement.

Historical Note

New Section made by final rulemaking at 13 A.A.R.
2389, effective August 14, 2007 (Supp. 07-2).

R14-2-1810. Uniform Credit Purchase Program

- A. The Director of the Utilities Division shall establish a Uniform Credit Purchase Program working group, which will study issues related to implementing Distributed Renewable Energy Resources. The working group shall address the consumer participation process, budgets, incentive levels, eligible technologies, system requirements, installation requirements, and any other issues that are relevant to encouraging the implementation of Distributed Renewable Energy Resources. No later than March 1, 2007, the Director of the Utilities Division shall file a staff report with recommendations for Uniform Credit Purchase Programs.

- B. No later than July 1, 2007, each Affected Utility shall file a Uniform Credit Purchase Program for Commission review and approval.

Historical Note

New Section made by final rulemaking at 13 A.A.R.
2389, effective August 14, 2007 (Supp. 07-2).

R14-2-1811. Net Metering and Interconnection Standards

The Commission Staff shall host a series of workshops addressing the issues of rate design including Net Metering and interconnection standards. Upon completion of this task, and the adoption of rules or standards, if appropriate, each Affected Utility shall file conforming Net Metering tariffs and interconnection standards in Docket Control.

Historical Note

New Section made by final rulemaking at 13 A.A.R.
2389, effective August 14, 2007 (Supp. 07-2).

R14-2-1812. Compliance Reports

- A. Beginning April 1, 2007, and every April 1st thereafter, each Affected Utility shall file with Docket Control a report that describes its compliance with the requirements of these rules for the previous calendar year and provides other relevant information. The Affected Utility shall also transmit to the Director of the Utilities Division an electronic copy of this report that is suitable for posting on the Commission's web site.
- B. The compliance report shall include the following information:
 1. The actual kWh of energy produced within its service territory and the actual kWh of energy or equivalent obtained from Eligible Renewable Energy Resources, differentiating between kWhs for which the Affected Utility owns the Renewable Energy Credits and kWhs produced in the Affected Utility's service territory for which the Affected Utility does not own the Renewable Energy Credits;
 2. The kWh of energy or equivalent obtained from Eligible Renewable Energy Resources normalized to reflect a full year's production;
 3. The kW of generation capacity, disaggregated by technology type;
 4. Cost information regarding cents per actual kWh of energy obtained from Eligible Renewable Energy Resources and cents per kW of generation capacity, disaggregated by technology type;
 5. A breakdown of the Renewable Energy Credits used to satisfy both the Annual Renewable Energy Requirement and the Distributed Renewable Energy Requirement and appropriate documentation of the Affected Utility's receipt of those Renewable Energy Credits; and
 6. A description of the Affected Utility's procedures for choosing Eligible Renewable Energy Resources and a certification from an independent auditor that those procedures are fair and unbiased and have been appropriately applied.
- C. The Commission may consider all available information and may hold a hearing to determine whether an Affected Utility's compliance report satisfied the requirements of these rules.

Historical Note

New Section made by final rulemaking at 13 A.A.R.
2389, effective August 14, 2007 (Supp. 07-2).
Amended by final rulemaking at 21 A.A.R. 379, effective April 21, 2015 (Supp. 15-1).

R14-2-1813. Implementation Plans

Corporation Commission - Fixed Utilities

- A. Beginning July 1, 2007, and every July 1st thereafter, each Affected Utility shall file with Docket Control for Commission review and approval a plan that describes how it intends to comply with these rules for the next calendar year. The Affected Utility shall also transmit an electronic copy of this plan that is suitable for posting on the Commission's web site to the Director of the Utilities Division.
- B. The implementation plan shall include the following information:
 - 1. A description of the Eligible Renewable Energy Resources, identified by technology, proposed to be added by year for the next five years and a description of the kW and kWh to be obtained from each of those resources;
 - 2. The estimated cost of each Eligible Renewable Energy Resource proposed to be added, including cost per kWh and total cost per year;
 - 3. A description of the method by which each Eligible Renewable Energy Resource is to be obtained, such as self-build, customer installation, or request for proposals;
 - 4. A proposal that evaluates whether the Affected Utility's existing rates allow for the ongoing recovery of the reasonable and prudent costs of complying with these rules, including a Tariff application that meets the requirements of R14-2-1808 and addresses the Sample Tariff set forth in Appendix A if necessary; and
 - 5. A line item budget that allocates specific funding for Distributed Renewable Energy Resources, for the Customer Self-Directed Renewable Energy Option, for power purchase agreements, for utility-owned systems, and for each Eligible Renewable Energy Resource described in the Affected Utility's implementation plan.
- C. The Commission may hold a hearing to determine whether an Affected Utility's implementation plan satisfies the requirements of these rules.
- A. If an Affected Utility fails to meet the annual requirements set forth in R14-2-1804 and R14-2-1805, it shall include with its annual compliance report a notice of noncompliance.
- B. The notice of noncompliance shall provide the following information:
 - 1. A computation of the difference between the Renewable Energy Credits required by R14-2-1804 and R14-2-1805 and the amount actually obtained,
 - 2. A plan describing how the Affected Utility intends to meet the shortfall from the previous calendar year in the current calendar year, and
 - 3. An estimate of the costs of meeting the shortfall.
- C. If the Commission finds after affording an Affected Utility notice and an opportunity to be heard that the Affected Utility has failed to comply with its implementation plan approved by the Commission as set forth in R14-2-1813, the Commission may find that the Affected Utility shall not recover the costs of meeting the shortfall described in R14-2-1815(B) in rates.
- D. Nothing herein is intended to limit the actions the Commission may take or the penalties the Commission may impose pursuant to Arizona Revised Statutes, Chapter 2, Article 9. An Affected Utility is entitled to notice and an opportunity to be heard prior to Commission action or imposition of penalties.

Historical Note

New Section made by final rulemaking at 13 A.A.R. 2389, effective August 14, 2007 (Supp. 07-2).

R14-2-1816. Waiver from the Provisions of this Article

- A. The Commission may waive compliance with any provision of this Article for good cause.
- B. Any Affected Utility may petition the Commission to waive its compliance with any provision of this Article for good cause.
- C. A petition filed pursuant to these rules shall have priority over other matters filed at the Commission.

Historical Note

New Section made by final rulemaking at 13 A.A.R. 2389, effective August 14, 2007 (Supp. 07-2).

Appendix A. Sample Tariff

Unless otherwise ordered by the Commission, the renewable energy standard surcharge shall be assessed monthly to every retail electric service. This monthly assessment will be the lesser of \$0.004988 per kWh or:

- 1. For residential customers, \$1.05 per service;
- 2. For non-residential customers, \$39.00 per service;
- 3. For non-residential customers whose metered demand is 3,000 kW or more for three consecutive months, \$117.00 per service;
- 4. For non-metered services, the lesser of the load profile or otherwise estimated kWh required to provide the service in question, or the service's contract kWh shall be used in the calculation of the surcharge.

Historical Note

New Appendix A made by final rulemaking at 13 A.A.R. 2389, effective August 14, 2007 (Supp. 07-2).

ARTICLE 19. CONSUMER PROTECTIONS FOR UNAUTHORIZED CARRIER CHANGES

Article 19, consisting of R14-2-1901 through R14-2-1913, made by final rulemaking at 10 A.A.R. 2409, effective July 23, 2004 (Supp. 04-2).

R14-2-1901. Definitions

- A. "Authorized Carrier" means any Telecommunications Company that submits, on behalf of a Customer, a change in the Customer's selection of a provider of telecommunications ser-

Historical Note

New Section made by final rulemaking at 13 A.A.R. 2389, effective August 14, 2007 (Supp. 07-2).

R14-2-1814. Electric Power Cooperatives

- A. Within 60 days of the effective date of these rules, every electric cooperative that is an Affected Utility shall file with Docket Control an appropriate plan for acquiring Renewable Energy Credits from Eligible Renewable Energy Resources for the next calendar year and a Tariff that proposes methods for recovering the reasonable and prudent costs of complying with its proposed plan and addresses the Sample Tariff set forth in Appendix A. The cooperative shall also transmit electronic copies of these filings that are suitable for posting on the Commission's web site to the Director of the Utilities Division. Upon Commission approval of this plan, its provisions shall substitute for the requirements of R14-2-1804 and R14-2-1805 for the electric power cooperative proposing the plan.
- B. Beginning July 1, 2007, and every July 1st thereafter, every electric cooperative that is an Affected Utility shall file with Docket Control an appropriate plan for acquiring Renewable Energy Credits from Eligible Renewable Energy Resources for the next calendar year. The cooperative shall also transmit an electronic copy of this plan that is suitable for posting on the Commission's web site to the Director of the Utilities Division.

Historical Note

New Section made by final rulemaking at 13 A.A.R. 2389, effective August 14, 2007 (Supp. 07-2).

R14-2-1815. Enforcement and Penalties

Corporation Commission - Fixed Utilities

vice, with the Subscriber's authorization verified in accordance with the procedures specified in this Article.

- B. "Commission" means Arizona Corporation Commission.
- C. "Customer" means the person or entity in whose name service is rendered, as evidenced by the signature on the application or contract for service, or by the receipt or payment of bills regularly issued in their name regardless of the identity of the actual user of service.
- D. "Executing Telecommunications Carrier" means a Telecommunications Company that effects a request that a Subscriber's Telecommunications Company be changed.
- E. "Letter of Agency" means written authorization, including internet enabled with electronic signature, by a Subscriber authorizing a Telecommunications Company to act on the Subscriber's behalf to change the Subscriber's Telecommunications Company.
- F. "Subscriber" means the Customer identified in the account records of a Telecommunications Company; and any person authorized by such Customer to change telecommunications services or to charge services to the account; or any person contractually or otherwise lawfully authorized to represent such Customer.
- G. "Telecommunications Company" means a public service corporation, as defined in the Arizona Constitution, Article 15, § 2, which provides telecommunications services within the state of Arizona and over which the Commission has jurisdiction.
- H. "Unauthorized Carrier" means any Telecommunications Company that submits, on behalf of a Customer, a change in the Customer's selection of a provider of telecommunications service without the subscriber's authorization verified in accordance with the procedures specified in this Article.
- I. "Unauthorized Change" ("slamming") means a change in a Telecommunications Company submitted on behalf of a Subscriber that was not authorized in accordance with R14-2-1904 or not verified in accordance with R14-2-1905.
- J. "Unauthorized Charge" means any charge incurred as a result of an Unauthorized Change.

Historical Note

New Section made by final rulemaking at 10 A.A.R. 2409, effective July 23, 2004 (Supp. 04-2).

R14-2-1902. Purpose and Scope

These rules shall be interpreted to ensure that all Customers in this state are protected from an Unauthorized Change in their intra-LATA, or interLATA long-distance Telecommunications Company. The rules shall be interpreted to promote satisfactory service to the public by local and intraLATA or interLATA long-distance Telecommunications Companies and to establish the rights and responsibilities of both company and Customer. The rules shall be interpreted to establish liability standards and penalties to ensure compliance.

Historical Note

New Section made by final rulemaking at 10 A.A.R. 2409, effective July 23, 2004 (Supp. 04-2).

R14-2-1903. Application

These rules apply to each Telecommunications Company. These rules do not apply to providers of wireless, cellular, personal communications services, or commercial mobile radio services.

Historical Note

New Section made by final rulemaking at 10 A.A.R. 2409, effective July 23, 2004 (Supp. 04-2).

R14-2-1904. Authorized Telecommunications Company Change Procedures

- A. A Telecommunications Company shall not submit a change on behalf of a Subscriber prior to obtaining authorization from the Subscriber and obtaining verification of that authorization in accordance with R14-2-1905.
- B. A Telecommunications Company submitting a change shall maintain and preserve records of verification of individual Subscriber authorization for 24 months.
- C. An Executing Telecommunications Carrier shall not contact the Subscriber to verify the Subscriber's selection received from a Telecommunications Company submitting a change.
- D. An Executing Telecommunications Carrier shall execute such changes as promptly as reasonable business practices will permit, which shall not exceed 10 business days from the receipt of a change notice from a submitting Telecommunications Company. The Executing Telecommunications Carrier shall have no liability for processing an Unauthorized Change.
- E. If a Telecommunications Company is selling more than one type of service, for example, local, intraLATA, or interLATA, it may obtain authorizations from the Subscriber for all services authorized during a single contact.

Historical Note

New Section made by final rulemaking at 10 A.A.R. 2409, effective July 23, 2004 (Supp. 04-2).

R14-2-1905. Verification of Orders for Telecommunications Service

- A. A Telecommunications Company shall not submit a change order unless it confirms the order by one of the following methods:
 1. The Telecommunications Company obtains the Subscriber's written authorization, including internet enabled authorization with electronic signature, in a form that meets the requirements of this Section.
 2. The Telecommunications Company obtains the Subscriber's electronic or voice-recorded authorization for the change that meets the requirements of this Section.
 3. An independent third party, qualified under the criteria set forth in subsection (F), obtains and records the Subscriber's verbal authorization for the change that confirms and includes appropriate verification data pursuant to the requirements of this Section.
- B. Written authorization obtained by a Telecommunications Company shall:
 1. Be a separate document containing only the authorizing language in accordance with verification procedures of this Section,
 2. Have the sole purpose of authorizing a Telecommunications Company change, and
 3. Be signed and dated by the Subscriber requesting the Telecommunications Company change.
- C. A Letter of Agency may be combined with a marketing check subject to the following requirements. The Letter of Agency when combined with a marketing check shall not contain promotional language or material. The Letter of Agency when combined with a marketing check shall have on its face and near the endorsement line a notice in bold-face type that the Subscriber authorizes a Telecommunications Company change by signing the check. The notice shall be in easily readable, bold-face type and shall be written in both English and Spanish, as well as in any other language which was used at any point in the sales transaction. If a Telecommunications Company cannot comply with the requirements of this Section, it may not combine a Letter of Agency with a marketing check.
- D. An electronically signed Letter of Agency is valid written authorization.

- E. A Telecommunications Company that obtains a Subscriber's electronic voice recorded authorization shall confirm the Customer identification and service change information. If a Telecommunications Company elects to verify sales by electronic voice recorded authorization, it shall establish one or more toll-free telephone numbers exclusively for that purpose. A call to the toll-free number shall connect the Subscriber to a recording mechanism that shall record the following information regarding the Telecommunications Company change:
1. The identity of the Subscriber,
 2. Confirmation that the person on the call is authorized to make the Telecommunications Company change,
 3. Confirmation that the person on the call wants to make the Telecommunications Company change,
 4. The name of the newly authorized Telecommunications Company,
 5. The telephone numbers to be switched, and
 6. The types of service involved.
- F. A Telecommunications Company that verifies a Subscriber's authorization by an independent third party shall comply with the following:
1. The independent third party shall not be owned, managed, or controlled by the Telecommunications Company or the company's marketing agent.
 2. The independent third party shall not have any financial incentive to verify that Telecommunications Company change orders are authorized.
 3. The independent third party shall operate in a location physically separate from the Telecommunications Company or the company's marketing agent.
 4. The independent third party shall inform the Subscriber that the call is being recorded and shall record the Subscriber's authorization to change the Telecommunications Company.
 5. All third party verification methods shall elicit and record, at a minimum:
 - a. The identity of the Subscriber,
 - b. Confirmation that the person on the call is authorized to make the Telecommunications Company change,
 - c. Confirmation that the person on the call wants to make the Telecommunications Company change,
 - d. The name of the newly authorized Telecommunications Company,
 - e. The telephone numbers to be switched, and
 - f. The types of service involved.
 6. The independent third party shall conduct the verification in the same language as was used in the initial sales transaction.
- A. A Subscriber shall notify the alleged Unauthorized Carrier within a reasonable period of time after receiving notice of an Unauthorized Change. Any period of time of 60 days or less shall automatically be presumed to be reasonable, and any period of time longer than 60 days may be reasonable based on the circumstances.
- B. After a Subscriber notifies the alleged Unauthorized Carrier that the change was unauthorized, the alleged Unauthorized Carrier shall take all actions within its control to facilitate the Subscriber's return to the original Telecommunications Company as promptly as reasonable business practices will permit, but no later than five business days from the date of the Subscriber's notification to it.
- C. If an alleged Unauthorized Carrier has been notified that an Unauthorized Change has occurred and the alleged Unauthorized Carrier cannot verify within five business days that the change was authorized pursuant to R14-2-1905, the alleged Unauthorized Carrier shall:
1. Pay all charges to the original Telecommunications Company associated with returning the Subscriber to the original Telecommunications Company as promptly as reasonable business practices will permit, but no later than 30 business days from the date of the alleged Unauthorized Carrier's failure to confirm authorization of the change;
 2. Absolve the Subscriber of all charges incurred during the first 90 days of service provided by the alleged Unauthorized Carrier if a Subscriber has not paid charges to the alleged Unauthorized Carrier;
 3. Forward relevant billing information to the original Telecommunications Carrier within 15 business days of a Subscriber's notification. The original Telecommunications Company may not bill the Subscriber for unauthorized service charges during the first 90 days of the alleged Unauthorized Carrier's service but may thereafter bill the Subscriber at the original Telecommunications Company's rates; and
 4. Refund to the original Telecommunications Company, 100% of any alleged Unauthorized Carrier's charges that a Subscriber paid to the alleged Unauthorized Carrier. The original Telecommunications Company shall apply the credit of 100% to the Subscriber's authorized charges.
- D. Until the alleged Unauthorized Carrier certifies with supporting documentation to the Subscriber that the change was verified pursuant to R14-2-1905, the billing Telecommunications Company shall not:
1. Suspend, disconnect, or terminate telecommunications service to a Subscriber who disputes any billing charge pursuant to this Section or for nonpayment of a charge related to an unauthorized change unless requested by the Subscriber, or
 2. File an unfavorable credit report against a Customer who has not paid charges that the Subscriber has alleged were unauthorized.
- E. The Customer shall remain obligated to pay any charges that are not disputed.
- F. The alleged Unauthorized Carrier shall maintain and preserve individual Customer records of Unauthorized Change complaints for 24 months.

Historical Note

New Section made by final rulemaking at 10 A.A.R. 2409, effective July 23, 2004 (Supp. 04-2).

R14-2-1906. Notice of Change

When an Authorized Carrier changes a Subscriber's service, the Authorized Carrier, or its billing and collection agent, shall clearly and conspicuously identify any change in service provider, including the name of the new Authorized Carrier and its telephone number on a bill, a bill insert, or in a separate mailing to the Subscriber. The notice of change shall be printed in both English and Spanish.

Historical Note

New Section made by final rulemaking at 10 A.A.R. 2409, effective July 23, 2004 (Supp. 04-2).

R14-2-1907. Unauthorized Changes

Corporation Commission - Fixed Utilities

- G. Each occurrence of slamming to an individual account shall constitute a separate violation of this Article, subject to individual enforcement actions and penalties as prescribed herein.

Historical Note

New Section made by final rulemaking at 10 A.A.R. 2409, effective July 23, 2004 (Supp. 04-2).

R14-2-1908. Notice of Subscriber Rights

- A. A Telecommunications Company shall provide to each of its Subscribers notice of the Subscriber's rights regarding Unauthorized Changes and Unauthorized Charges.
- B. The Subscriber notice shall include the following:
1. The name, address and telephone numbers where a Subscriber can contact the Telecommunications Company;
 2. A Telecommunications Company is prohibited from changing telecommunications service to another company without the Subscriber's permission;
 3. A Telecommunications Company that has switched telecommunications service without the Subscriber's permission is required to pay all charges associated with returning the Customer to the original Telecommunications Company as promptly as reasonable business practices will permit, but no later than 30 business days from the Subscriber's request;
 4. An Unauthorized Carrier shall absolve a Subscriber of all unpaid charges which were incurred during the first 90 days of service provided by the Unauthorized Carrier;
 5. If a Subscriber incurred charges for service provided during the first 90 days of service with the Unauthorized Carrier, the Unauthorized Carrier shall forward the relevant billing information to the original Telecommunications Company. The original Telecommunications Company may not bill the Subscriber for unauthorized service charges during the first 90 days of the Unauthorized Carrier's service but may thereafter bill the Subscriber at the original Telecommunications Company's rates;
 6. If a Subscriber has paid charges to the Unauthorized Carrier, the Unauthorized Carrier must pay 100% of the charges to the original Telecommunications Company and the original Telecommunications Company shall apply the 100% as credit to the Customer's authorized charges;
 7. A Subscriber who has been slammed can contact the Unauthorized Carrier to request the service be changed back in accordance with R14-2-1907;
 8. A Subscriber who has been slammed can report the Unauthorized Change to the Arizona Corporation Commission;
 9. The name, address, web site, and toll free consumer services telephone number of the Arizona Corporation Commission; and
 10. A Subscriber can request their local exchange company place a freeze on the Customer's long distance telecommunications service account.
- C. Distribution, language, and timing of notice.
1. A Telecommunications Company shall provide the notice described in this Section to new Customers at the time service is initiated, and upon a Subscriber's request.
 2. A Telecommunications Company that publishes a telephone directory or contracts for publication of a telephone directory, shall arrange for the notice to appear in the white pages of its annual telephone directory.
 3. A Telecommunications Company with a web site shall display the notice described in this Section on the company's web site.

4. The notice of subscriber rights described in this Section shall be written in both English and Spanish.

Historical Note

New Section made by final rulemaking at 10 A.A.R. 2409, effective July 23, 2004 (Supp. 04-2).

R14-2-1909. Customer Account Freeze

- A. A Customer account freeze prevents a change in a Subscriber's intraLATA and interLATA Telecommunications Company selection until the Subscriber gives consent to lift the freeze to the local exchange company that implemented the freeze.
- B. A local exchange company that offers a freeze shall do so on a nondiscriminatory basis to all Subscribers.
- C. A Telecommunications Company that offers information on freezes shall clearly distinguish intraLATA and interLATA telecommunications services.
- D. A local exchange carrier shall not implement or remove a freeze without authorization obtained consistent with R14-2-1904 and verification consistent with R14-2-1905. However, a local exchange carrier shall remove a freeze if authorized by the subscriber in a three-way conference call meeting the requirements of 47 C.F.R. 64.1190(e)(2) incorporated by reference. This reference to 47 C.F.R. 64.1190(e)(2) is to the version in effect as of January 1, 2004 and no future editions or amendments. Copies of 47 C.F.R. 64.1190(3)(2) are available from the Federal Communications Commission at 445 12th Street SW, Washington D.C. 20554 and at the offices of the Arizona Corporations Commission at 1200 W. Washington Street, Phoenix, Arizona 85007 and online at www.gpoaccess.gov and are on file with the Office of the Secretary of State.
- E. A Telecommunications Company shall not charge the Customer for imposing or removing a freeze except under a Commission approved tariff.
- F. A Telecommunications Company shall maintain records of all freeze authorizations and repeals for the duration of the Customer account freeze or at least 24 months following the cancellation of the Customer account freeze or discontinuance of service provided to that account.

Historical Note

New Section made by final rulemaking at 10 A.A.R. 2409, effective July 23, 2004 (Supp. 04-2).

R14-2-1910. Informal Complaint Process

- A. A Subscriber may file an informal complaint within 90 days of receiving notice of an Unauthorized Charge, or, thereafter, upon a showing of good cause. The complaint shall be submitted to the Commission Staff in writing, telephonically, or via electronic transmission, and shall include:
1. Complainant's name, address, telephone number;
 2. The names of the Telecommunications Companies involved;
 3. The approximate date of the alleged Unauthorized Change;
 4. A statement of facts, including documentation, to support the complainant's allegation;
 5. The amount of any disputed charges, including any amount already paid; and
 6. The specific relief sought.
- B. Commission Staff shall:
1. Assist the parties in resolving the informal complaint;
 2. Notify the Executing Telecommunications Company, original Telecommunications Company, and alleged Unauthorized Carrier of the alleged Unauthorized Change;

Corporation Commission - Fixed Utilities

3. Require the alleged Unauthorized Carrier to provide an initial response within five business days of receipt of notice from the Commission;
 4. Require the alleged Unauthorized Carrier to provide documentation of the Subscriber's authorization. If such information is not provided to Staff within 10 business days of the initial Staff notification, Staff shall presume that an Unauthorized Change occurred;
 5. Advise the Telecommunications Company that it shall provide Staff with any additional information requested by Staff within 10 business days of Staff's request; and
 6. Inform the Telecommunications Company that failure to provide the requested information or a good faith response to Commission Staff within 15 business days shall be deemed an admission to the allegations contained within the request and the Telecommunications Company shall be deemed in violation of the applicable provisions of this Article.
- C. If the parties do not resolve the matter, the Staff will conduct a review of the informal complaint and related materials to determine if an Unauthorized Change has occurred, which review shall be completed within 30 days of the Staff's receipt of the informal complaint.
- D. Upon conclusion its review, Staff shall render a written summary of its findings and recommendation to all parties. Staff's written summary is not binding on any party. Any party shall have the right to file a formal complaint with the Commission under A.R.S. § 40-246. Staff's written summary shall not be admissible in the formal complaint proceeding.

Historical Note

New Section made by final rulemaking at 10 A.A.R. 2409, effective July 23, 2004 (Supp. 04-2).

R14-2-1911. Compliance and Enforcement

- A. A Telecommunications Company shall provide a copy of its records of Subscriber verification and Unauthorized Changes maintained under the requirements of this Article to Commission Staff upon request.
- B. If the Commission finds that a Telecommunications Company is in violation of this Article, the Commission shall order the company to take corrective action as necessary, and the Commission may impose such penalties as are authorized by law. The Commission may sanction a Telecommunications Company in violation of this Article by prohibiting further solicitation of new customers for a specified period, or by revocation of its Certificate of Convenience and Necessity. The Commission may take any other enforcement actions authorized by law.
- C. The Commission Staff shall coordinate its enforcement efforts regarding the prosecution of fraudulent, misleading, deceptive, and anti-competitive business practices with the Arizona Attorney General.

Historical Note

New Section made by final rulemaking at 10 A.A.R. 2409, effective July 23, 2004 (Supp. 04-2).

R14-2-1912. Severability

If any provision of this Article is found to be invalid, it shall be deemed severable from the remainder of this Article and the remaining provisions of this Article shall remain in full force and effect.

Historical Note

New Section made by final rulemaking at 10 A.A.R. 2409, effective July 23, 2004 (Supp. 04-2).

R14-2-1913. Script Submission

- A. Each Telecommunications Company shall file under seal in a docket designated by the Director of the Utilities Division ("Director") a copy of all sales or marketing scripts used by its (or its agent's) sales or customer service workers. For the purpose of this rule, "sales or marketing scripts" means all scripts that involve proposing a change in Telecommunications Company or responding to an inquiry regarding a possible change in Telecommunications Company.
- B. A Telecommunications Company shall make the filing described in R14-2-1913(A) at the following times:
1. 90 days from the day these rules are first published in a Notice of Final Rulemaking in the Arizona Administrative Register;
 2. On April 15 of each year;
 3. Whenever directed to do so by the Director; and
 4. Whenever a material change to a script occurs or a new script is used that is materially different from a script on file with the Director.
- C. The Director may request further information or clarification on any script, and the Telecommunications Company shall respond to the Director's request within 10 days.
- D. The Director may initiate a formal complaint under R14-3-101 through R14-3-113 to review any script. The failure to file such a complaint or request further information or clarification does not constitute approval of the script, and the fact that the script is on file with the Commission may not be used as evidence that the script is just, reasonable, or not fraudulent.

Historical Note

New Section made by final rulemaking at 10 A.A.R. 2409, effective July 23, 2004 (Supp. 04-2).

ARTICLE 20. CONSUMER PROTECTIONS FOR UNAUTHORIZED CARRIER CHARGES

Article 20, consisting of R14-2-2001 through R14-2-2011, made by final rulemaking at 10 A.A.R. 2409, effective July 23, 2004 (Supp. 04-2).

R14-2-2001. Definitions

- A. "Commission" means the Arizona Corporation Commission.
- B. "Customer" means the person or entity in whose name service is rendered, as evidenced by the signature on the application or contract for service, or by the receipt or payment of bills regularly issued in their name regardless of the identity of the actual user of service.
- C. "Subscriber" means the Customer identified in the account records of a Telecommunications Company; any person authorized by such Customer to change telecommunications services or to charge services to the account; or any person contractually or otherwise lawfully authorized to represent such Customer.
- D. "Telecommunications Company" means a public service corporation, as defined in the Arizona Constitution, Article 15, § 2, that provides telecommunications services within the state of Arizona and over which the Commission has jurisdiction. The phrase "Telecommunications Company" does not include providers of wireless, cellular, personal communications services, or commercial mobile radio services.
- E. "Unauthorized Charge" ("cramming") means any recurring charge on a Customer's telephone bill that was not authorized or verified in compliance with R14-2-2005. This does not include one-time pay-per-use charges or taxes and other sur-

charges that have been authorized by law to be passed through to the Customer.

Historical Note

New Section made by final rulemaking at 10 A.A.R. 2409, effective July 23, 2004 (Supp. 04-2).

R14-2-2002. Purpose and Scope

The provisions of this Article shall be interpreted to ensure all Customers in this state are protected from Unauthorized Charges on their bill from a Telecommunications Company.

Historical Note

New Section made by final rulemaking at 10 A.A.R. 2409, effective July 23, 2004 (Supp. 04-2).

R14-2-2003. Application

This Article applies to each Telecommunications Company.

Historical Note

New Section made by final rulemaking at 10 A.A.R. 2409, effective July 23, 2004 (Supp. 04-2).

R14-2-2004. Requirements for Submitting Authorized Charges

- A. A Telecommunications Company shall provide its billing agent with its name, telephone number, and a list with detailed descriptions of the products and services it intends to charge on a Customer's bill so that the billing agent may accurately identify the product or service on the Customer's bill.
- B. A Telecommunications Company or its billing agent shall specify the product or service being billed and all associated charges.
- C. A Telecommunications Company or its billing agent shall provide the Subscriber with a toll-free telephone number the Subscriber may call for billing inquiries.

Historical Note

New Section made by final rulemaking at 10 A.A.R. 2409, effective July 23, 2004 (Supp. 04-2).

R14-2-2005. Authorization Requirements

- A. A Telecommunications Company shall record the date of a service request and shall obtain from the Subscriber requesting a product or service the following:
 1. The name and telephone number of the Customer,
 2. Verification that Subscriber is authorized to order the product or service, and
 3. Explicit Subscriber acknowledgement that the charges will be assessed on the Customer's bill.
- B. A Telecommunications Company shall communicate the following information to a Subscriber requesting a product or service:
 1. An explanation of each product or service offered,
 2. An explanation of all applicable charges,
 3. A description of how the charge will appear on the Customer's bill,
 4. An explanation of how a product or service can be cancelled, and
 5. A toll-free telephone number for Subscriber inquiries.
- C. The authorization required by R14-2-2005(A) and the communications required by R14-2-2005(B) shall be given in all languages used at any point in the sales transaction. At the beginning of any sales transaction, the Telecommunications Company must offer to conduct the transaction in English or Spanish and must comply with the Customer's choice or shall not complete the transaction.
- D. During each contact in which the Telecommunications Company offers to establish residential service or in which a person requests the establishment of residential service, the Telecom-

munications Company shall inform the subscriber of the cost of "basic local exchange telephone service" as defined in R14-2-1201(6), if provided. A Telecommunications Company shall not use the term "basic" or any other misleading language in describing any product or service. The term "basic" can only be used for a plan that includes only basic local exchange telephone service.

- E. The individual Subscriber authorization record shall be maintained by the Telecommunications Company for 24 months.

Historical Note

New Section made by final rulemaking at 10 A.A.R. 2409, effective July 23, 2004 (Supp. 04-2).

R14-2-2006. Unauthorized Charges

- A. Upon discovery of an Unauthorized Charge or upon notification by a Subscriber of an Unauthorized Charge, the billing Telecommunications Company shall:
 1. Immediately cease charging the Customer for the unauthorized product or service;
 2. Remove the Unauthorized Charge from the Customer's bill within 45 days;
 3. Refund or credit to the Customer all money paid by the Customer at the Customer's option for any Unauthorized Charge. If any Unauthorized Charge is not refunded or credited within two billing cycles, the Telecommunications Company shall pay interest on the amount of any Unauthorized Charges at an annual rate established by the Commission until the Unauthorized Charge is refunded or credited;
 4. Provide the Subscriber all billing records under the control of the Telecommunications Company related to any Unauthorized Charge. The billing records shall be provided within 15 business days of the Subscriber's notification; and
 5. Maintain a record of each Unauthorized Charge of every Customer who has experienced any Unauthorized Charge for 24 months. The record shall include:
 - a. The name of the Telecommunications Company,
 - b. Each affected telephone number,
 - c. The date the Subscriber requested the Unauthorized Charge be removed from the Customer's bill, and
 - d. The date the Customer was refunded or credited the amount that the Customer paid for any Unauthorized Charge.
- B. After a charge is removed from the Customer's bill, the Telecommunications Company shall not rebill the charge unless one of the following occurs:
 1. The Subscriber and the Telecommunications Company agree the customer was accurately billed.
 2. The Telecommunications Company certifies with supporting documentation to the Subscriber that the charge was authorized pursuant to R14-2-2005.
 3. A determination is made pursuant to R14-2-2008 that the charge was authorized.
- C. Until a charge is reinstated pursuant to subsection (B), a Telecommunications Company shall not:
 1. Suspend, disconnect, or terminate telecommunications service to a Subscriber who disputes any billing charge pursuant to this Article or for nonpayment of an alleged Unauthorized Charge unless requested by the Subscriber; or
 2. File an unfavorable credit report against a Customer who has not paid charges that the Subscriber has alleged were unauthorized.
- D. The Customer shall remain obligated to pay any charges that are not disputed.

Corporation Commission - Fixed Utilities

- E. Each occurrence of cramming an individual account shall constitute a separate violation of this Article, subject to individual enforcement actions and penalties as prescribed herein.

Historical Note

New Section made by final rulemaking at 10 A.A.R. 2409, effective July 23, 2004 (Supp. 04-2).

R14-2-2007. Notice of Subscriber Rights

- A. A Telecommunications Company shall provide to each of its Subscribers a notice of the Subscriber's rights regarding Unauthorized Charges.
- B. The notice may be combined with the notice required by R14-2-1908.
- C. The notice shall include the following:
1. The name, address and telephone number where a Subscriber can contact the Telecommunications Company;
 2. A statement that a Telecommunications Company is prohibited from adding products and services to a Customer's account without the Subscriber's authorization;
 3. A statement that the Telecommunications Company is required to return the service to its original service provisions if an Unauthorized Charge is added to a Customer's account;
 4. A statement that the Telecommunications Company shall not charge for returning the Customer to their original service provisions;
 5. A statement that the Telecommunications Company must refund or credit, at the Customer's option, to the Customer any amount paid for any Unauthorized Charge. If any Unauthorized Charge is not refunded or credited within two billing cycles, the Telecommunications Company shall pay interest on the amount of any Unauthorized Charges at an annual rate established by the Commission until the Unauthorized Charge is refunded or credited;
 6. A statement that a Customer who has been crammed can report the Unauthorized Charge to the Arizona Corporation Commission; and
 7. The name, address, web site, and toll-free consumer services telephone number of the Arizona Corporation Commission.
- D. Distribution, language, and timing of notice.
1. A Telecommunications Company shall provide the notice described in this Section to new Customers at the time service is initiated, and upon Subscriber's request.
 2. A Telecommunications Company that publishes a telephone directory or contracts for publication of a telephone directory, shall arrange for the notice to appear in the white pages of its annual telephone directory.
 3. A Telecommunications Company with a web site shall display the notice described in this Section on the company's web site.
 4. The notice of subscriber rights described in this Section shall be written in both English and Spanish.

Historical Note

New Section made by final rulemaking at 10 A.A.R. 2409, effective July 23, 2004 (Supp. 04-2).

R14-2-2008. Informal Complaint Process

- A. A Subscriber may file an informal complaint within 90 days of receiving notice of an Unauthorized Charge, or, thereafter, upon a showing of good cause. The complaint shall be submitted to the Commission Staff in writing, telephonically or via electronic transmission, and shall include:

1. Complainant's name, address, telephone number;
2. The name of the Telecommunications Company that submitted the alleged Unauthorized Charge;
3. The approximate date of the alleged Unauthorized Charge;
4. A statement of facts, and documentation, to support the complainant's allegation;
5. The amount of any disputed charges including the amount already paid; and
6. The specific relief sought.

B. The Commission Staff shall:

1. Assist the parties in resolving the complaint;
 2. Notify the Telecommunications Company of the alleged Unauthorized Charge;
 3. Require the Telecommunications Company to provide an initial response within five business days of receipt of notice from the Commission;
 4. Require the Telecommunications Company to provide documentation of the Subscriber's new service or product request. If such information is not provided to the Staff within 10 business days of the initial Staff notification, Staff shall presume that an Unauthorized Charge occurred;
 5. Advise the Telecommunications Company that it shall provide Staff any additional information requested within 10 business days of Staff's request; and
 6. Inform the Telecommunications Company that failure to provide the requested information or a good faith response to Commission Staff within 15 business days shall be deemed an admission to the allegations contained within the request and the Telecommunications Company shall be deemed in violation of the applicable provisions of this Article.
- C. If the parties do not resolve the matter, the Staff will conduct a review of the informal complaint and related materials to determine if an Unauthorized Charge has occurred, which review shall be completed within 30 days of the Staff's receipt of the informal complaint.
- D. Upon conclusion of its review, Staff shall render a written summary of its findings and recommendation to all parties. Staff's written summary is not binding on any party. Any party shall have the right to file a formal complaint with the Commission under A.R.S. § 40-246. Staff's written summary shall not be admissible in the formal complaint proceeding.

Historical Note

New Section made by final rulemaking at 10 A.A.R. 2409, effective July 23, 2004 (Supp. 04-2).

R14-2-2009. Compliance and Enforcement

- A. A Telecommunications Company shall provide a copy of records related to a Subscriber's request for services or products to Commission Staff upon request.
- B. If the Commission finds that a Telecommunications Company is in violation of this Article, the Commission shall order the company to take corrective action as necessary, and the company may be subject to such penalties as are authorized by law. The Commission may sanction a Telecommunications Company in violation of this Article by prohibiting further solicitation of new customers for a specified period, or by revocation of its Certificate of Convenience and Necessity. The Commission may take any other enforcement actions authorized by law.
- C. The Commission Staff shall coordinate its enforcement efforts regarding the prosecution of fraudulent, misleading, deceptive,

Corporation Commission - Fixed Utilities

and anti-competitive business practices with the Arizona Attorney General.

Historical Note

New Section made by final rulemaking at 10 A.A.R. 2409, effective July 23, 2004 (Supp. 04-2).

R14-2-2010. Severability

If any provision of this Article is found to be invalid, it shall be deemed severable from the remainder of this Article and the remaining provisions of this Article shall remain in full force and effect.

Historical Note

New Section made by final rulemaking at 10 A.A.R. 2409, effective July 23, 2004 (Supp. 04-2).

R14-2-2011. Script Submission

- A. Each Telecommunications Company shall file under seal in a docket designated by the Director of the Utilities Division ("Director") a copy of all sales or marketing scripts used by its (or its agent's) sales or customer service workers. For the Purposes of this rule, "sales or marketing scripts" means all scripts that involve an offer to sell a product or service or a response to a request for a product or service, including all scripts for unrelated matters that include a prompt for the sales or customer service workers to offer to sell a product or service.
- B. A Telecommunications Company shall make the filing described in R14-2-2011(A) at the following times:
 1. 90 days from the day these rules are first published in a Notice of Final Rulemaking in the Arizona Administrative Register;
 2. On April 15 of each year;
 3. Whenever directed to do so by the Director; and
 4. Whenever a material change to a script occurs or a new script is used that is materially different from a script on file with the Director.
- C. The Director may request further information or clarification on any script, and the Telecommunications Company shall respond to the Director's request within 10 days.
- D. The Director may initiate a formal complaint under R14-3-101 through R14-3-113 to review any script. The failure to file such a complaint or request further information or clarification does not constitute approval of the script, and the fact that the script is on file with the Commission may not be used as evidence that the script is just, reasonable, or not fraudulent.

Historical Note

New Section made by final rulemaking at 10 A.A.R. 2409, effective July 23, 2004 (Supp. 04-2).

ARTICLE 21. CUSTOMER PROPRIETARY NETWORK INFORMATION**R14-2-2101. Application**

These rules govern the treatment of Customer Proprietary Network Information (CPNI) for all telecommunications carriers that provide telecommunications service in Arizona. In addition, the Commission adopts, incorporates, and approves as its own 47 CFR 64.2001 through 2009, revised as of September 20, 2002 (and no future amendments), incorporated by reference and copies available from the Commission Office, Legal Division, 1200 West Washington, Phoenix, Arizona 85007 and the United States Government Printing Office, P.O. Box 371975M, Pittsburgh, Pennsylvania

15250-7975. These rules are in addition to the FCC rules and together with the FCC rules govern the release of CPNI in Arizona.

Historical Note

New Section made by final rulemaking at 12 A.A.R. 1547, effective June 19, 2006 (06-2).

R14-2-2102. Definitions

For purposes of this Article, the following definitions apply unless the context otherwise requires:

1. "Affiliate" means a person that (directly or indirectly) owns or controls, is owned or controlled by, or is under common ownership or control with, another person. For purposes of this paragraph, the term "own" means to own an equity interest (or the equivalent thereof) of more than 10 percent.
2. "Communications-related services" means telecommunications services, information services typically provided by telecommunications carriers, and services related to the provision or maintenance of customer premises equipment.
3. A "Customer" of a telecommunications carrier is a person or entity to which the telecommunications carrier is currently providing service.
4. "Customer premise equipment" means equipment employed on the premises of a person (other than a telecommunications carrier) to originate, route, or terminate telecommunications.
5. "Customer proprietary network information (CPNI)" means information that relates to the quantity, technical configuration, type, destination, location, and amount of use of a telecommunications service subscribed to by any customer of a telecommunications carrier, and that is made available to the carrier by the customer solely by virtue of the carrier-customer relationship; and information contained in the bills pertaining to telephone exchange service or telephone toll service received by a customer of a carrier; except that such term does not include subscriber list information. See 47 U.S.C. 222(h)(1) revised 1999 (and no future amendments), incorporated by reference and copies available from the Commission Office, Legal Division, 1200 West Washington, Phoenix, Arizona 85007 and the United States Government Printing Office, P.O. Box 371975M, Pittsburgh, Pennsylvania 15250-7975.
6. "Non-listed Service" means a service that ensures that customers' telephone numbers are not published in the telephone directory but are available through directory assistance.
7. "Non-published Service" means a service that ensures that customers' telephone numbers are not published in the telephone directory and are not otherwise available through directory assistance.
8. "Opt-In approval" means a method for obtaining customer consent to use, disclose, or permit access to the customer's CPNI that requires that the telecommunications carrier obtain from the customer affirmative, express consent allowing the requested CPNI usage, disclosure, or access after the customer is provided notification of the carrier's request in conformance with Section R14-2-2105.
9. "Opt-Out approval" means a method for obtaining customer consent to use, disclose, or permit access to the customer's CPNI where a customer is deemed to have consented to the use, disclosure, or access to the customer's CPNI if the customer has failed to affirmatively object to approval within the 30-day waiting period pro-

vided in R14-2-2103(C) after the customer is provided the notice as required in R14-2-2106, subject to the requirements of Section R14-2-2108.

10. "Published" means authorized for voluntary disclosure by the individual identified in the listing.
11. "Subscriber list information" means any information identifying the listed names of subscribers of a telecommunications carrier and such subscribers' telephone numbers, addresses, or primary advertising classifications (as such classifications are assigned at the time of the establishment of such service), or any combination of such listed names, numbers, addresses, or classifications; and that the carrier or an affiliate has published, caused to be published, or accepted for publication in any directory format. See 47 U.S.C. 222(e)(1) revised 1999 (and no future amendments), incorporated by reference and copies available from the Commission Office, Legal Division, 1200 West Washington, Phoenix, Arizona 85007 and the United States Government Printing Office, P.O. Box 371975M, Pittsburgh, Pennsylvania 15250-7975.
12. "Telecommunications carrier" means a public service corporation, as defined in the Arizona Constitution, Article 15, § 2, which provides telecommunications services within the state of Arizona and over which the Commission has jurisdiction.
13. "Third Party" means a person who is not the customer, the customer's telecommunications service provider, an affiliate, joint venture partner, or independent contractor of the customer's telecommunications service provider.

Historical Note

New Section made by final rulemaking at 12 A.A.R. 1547, effective June 19, 2006 (06-2).

R14-2-2103. Obtaining Customer Approval to Use, Disclose, or Permit Access to CPNI to Affiliates, Joint Venture Partners and Independent Contractors Providing Communications-Related Services

- A. A telecommunications carrier may, subject to obtaining opt-out approval or opt-in approval:
 1. Disclose its customer's individually identifiable CPNI, for the purpose of marketing to that customer communications-related services of a category to which the customer does not already subscribe, to its agents; its affiliates that provide communications-related services; and its joint venture partners and independent contractors;
 2. Permit such persons or entities to obtain access to such CPNI for such purposes.
- B. Any solicitation for customer approval must be accompanied by a notice to the customer of the customer's right to restrict use of, disclosure of, and access to that customer's CPNI. For the purpose of obtaining opt-in approval, the notice must comply with the requirements of Section R14-2-2105 of these rules. For the purpose of obtaining opt-out approval, the notice must comply with the requirements of Section R14-2-2106 of these rules.
- C. Telecommunications carriers must wait a 30-day minimum period of time after giving customers notice and an opportunity to opt-out before assuming customer approval to use, disclose or permit access to CPNI. A telecommunications carrier may, in its discretion, provide for a longer period.
- D. The telecommunications carrier shall be required to execute a proprietary agreement with all affiliates, joint venture partners, independent contractors that provide communications-related services, third parties, and affiliates that do not provide communications-related services to maintain the confidentiality of

the customers' CPNI. The proprietary agreement must meet the minimum requirements set forth in 47 CFR 64.2007(b)(2), revised as of September 20, 2002 (and no future amendments), incorporated by reference and copies available from the Commission Office, Legal Division, 1200 West Washington, Phoenix, Arizona 85007 and the United States Government Printing Office, P.O. Box 371975M, Pittsburgh, Pennsylvania 15250-7975.

Historical Note

New Section made by final rulemaking at 12 A.A.R. 1547, effective June 19, 2006 (06-2).

R14-2-2104. Obtaining Customer Approval to Use, Disclose, or Permit Access to CPNI to Third Parties and Affiliates That Do Not Provide Communications-Related Services

- A. A telecommunications carrier may, subject to opt-in approval, use, disclose, or permit access to its customer's individually identifiable CPNI to affiliates that do not provide telecommunications-related services.
- B. A telecommunications carrier may use, disclose, or permit access to its customer's individually identifiable CPNI to a third party only upon written, electronic, or oral request by the customer that specifically identifies the third party to whom the CPNI may be disseminated.
- C. Any solicitation for customer approval must be accompanied by a notice to the customer of the customer's right to restrict use of, disclosure of, and access to that customer's CPNI. For the purpose of obtaining opt-in approval, the notice must comply with the requirements of Section R14-2-2105 of these rules.
- D. The telecommunications carrier shall be required to execute a proprietary agreement with all affiliates, joint venture partners, independent contractors that provide communications-related services, third parties, and affiliates that do not provide communications-related services to maintain the confidentiality of the customers' CPNI. The proprietary agreement must meet the minimum requirements set forth in 47 CFR 64.2007(b)(2), revised as of September 20, 2002 (and no future amendments), incorporated by reference and copies available from the Commission Office, Legal Division, 1200 West Washington, Phoenix, Arizona 85007 and the United States Government Printing Office, P.O. Box 371975M, Pittsburgh, Pennsylvania 15250-7975.
- E. A telecommunications company relying on "Opt-In" approval must bear the burden of demonstrating that such approval has been given in compliance with sections R14-2-2104 and R14-2-2105 of these rules.
- F. This Article does not prohibit the use and disclosure of CPNI for the purpose of sharing customer records necessary for the provisioning of service by a competitive carrier as provided in section 222(c)(1) of the Communications Act of 1934, as amended (and no future amendments), incorporated by reference and copies available from the Commission Office, Legal Division, 1200 West Washington, Phoenix, Arizona 85007 and the United States Government Printing Office, P.O. Box 371975M, Pittsburgh, Pennsylvania 15250-7975.

Historical Note

New Section made by final rulemaking at 12 A.A.R. 1547, effective June 19, 2006 (06-2).

R14-2-2105. Information Requirements for Customer CPNI Opt-In Notice

- A. A telecommunications carrier may provide notification to obtain opt-in approval through oral, written, or electronic methods. The contents of any such notification must:

Corporation Commission - Fixed Utilities

1. Include language the same as or substantially similar to the definition of customer proprietary network information contained in 47 U.S.C. 222(h)(1); 1999 amendment (and no future amendments), incorporated by reference and copies available from the Commission Office, Legal Division, 1200 West Washington, Phoenix, Arizona 85007 and the United States Government Printing Office, P.O. Box 371975M, Pittsburgh, Pennsylvania 15250-7975;
 2. State that the customer has a right to direct the company not to use the customer's CPNI or limit the use, disclosure, and access to the customer's CPNI;
 3. State that the telecommunications company has a duty to comply with the customer's limitations on use, disclosure of, and access to the information;
 4. State that CPNI includes all information related to specific calls initiated or received by a customer;
 5. Inform the customer that CPNI does not include published information, whether listed or non-listed, such as their name, telephone number, and address, and this information is not subject to the same limitations of use;
 6. Inform the customer that deciding not to approve the release of CPNI will not affect the provision of any services to which the customer subscribes;
 7. State that any customer approval for use, disclosure of, or access to CPNI may be revoked or limited at any time; and
 8. Be posted on the company's web site.
- B. Written notice must:**
1. Be mailed separately or be included as an insert in a regular monthly bill within an envelope that clearly and boldly states that important privacy information is contained therein;
 2. Be clearly legible, in twelve-point or larger print;
 3. Be printed in both English and Spanish unless the customer has previously expressed a preferred language in which case the notice may be written in that language alone.
- C. Electronic notice must:**
1. Be e-mailed separately from any billing information, inducements, advertising, or promotional information;
 2. Be clearly legible, in twelve-point or larger print;
 3. Be printed in both English and Spanish unless the customer has previously expressed a preferred language in which case the notice may be written in that language alone.

Historical Note

New Section made by final rulemaking at 12 A.A.R. 1547, effective June 19, 2006 (06-2).

R14-2-2106. Additional Information Requirements for Customer Opt-Out Notice

- A.** A telecommunications carrier may provide notification to obtain opt-out approval through, written, or electronic methods, but not orally (except as provided in Section R14-2-2107).
- B.** The contents of any such notification must comply with Section R14-2-2105 and with the following requirements.
- C.** Telecommunications carriers must notify customers as to the applicable waiting period (minimum 30-days as provided in

R14-2-2103(C)) for a response before opt-out approval is assumed.

Historical Note

New Section made by final rulemaking at 12 A.A.R. 1547, effective June 19, 2006 (06-2).

R14-2-2107. Notification Requirements for Obtaining Customer Approval for Limited One-Time Use of CPNI for Inbound and Outbound Customer Telephone Contact

A telecommunications carrier may use oral notice to obtain limited, one-time use of CPNI for inbound and outbound customer telephone contacts for the duration of the call, regardless of whether telecommunications carriers use opt-out or opt-in approval based on the nature of the contact.

Historical Note

New Section made by final rulemaking at 12 A.A.R. 1547, effective June 19, 2006 (06-2).

R14-2-2108. Verification of Customer Opt-Out Approval to Use CPNI

- A.** Verification of a customer's opt-out approval must be obtained within one year. Verification of the customer's approval shall be obtained in accordance with the procedures set forth below. Carriers may request an extension of the verification time period subject to Commission approval.
- B.** Verification of the customer's approval may be obtained through written, oral, or electronic methods. All verification methods shall be conducted in the same languages that were used in the initial notification and shall elicit at a minimum:
 1. The identity of the customer;
 2. Confirmation that the person responding to the verification request is authorized to make CPNI available to the telecommunications company;
 3. Confirmation that the customer wants to make the CPNI release verification;
 4. The telephone numbers for which CPNI information release is authorized; and
 5. The types of service involved.
- C.** Written verification obtained by a telecommunications carrier shall:
 1. Be a separate document having the sole purpose of authorizing a telecommunications company to use the customer's CPNI in accordance with this Article;
 2. Be signed and dated by the customer authorizing the use of the customer's CPNI; and
 3. Not be combined with any inducement.
- D.** Electronic verification obtained by a telecommunications carrier shall:
 1. Include electronically signed letters of authority;
 2. Be a separate document having the sole purpose of authorizing a telecommunications company to use the customer's CPNI in accordance with this Article; and
 3. Not be combined with any inducement.
- E.** Oral verification obtained by a telecommunications carrier shall:
 1. Be recorded; and
 2. Not be combined with any inducement.
- F.** If a telecommunications company fails to obtain verification within one year of obtaining a customer's opt-out approval, the authorization to use, disclose, or permit access to that customer's CPNI is no longer valid. If verification from the customer is not received within one year as required, the company shall direct any entities (affiliates, joint-venture partners, or independent contractors) to whom it has released CPNI to stop using the CPNI.

Corporation Commission - Fixed Utilities

- G.** As a result of failure to obtain verification within one year, the company and any other entities (affiliates, joint-venture partners, or independent contractors) may not use, disclose, or permit access to that customer's CPNI until verification is obtained.
- H.** Carriers may request an extension of the verification time period subject to Commission approval.
- I.** The Commission may grant an extension(s) of time to complete the verification process if the applicant demonstrates items 1 through 4 below:
1. The applicant has used its best efforts to obtain customer verification of their CPNI sharing preference. One means of demonstrating this would be for the applicant to show that it has achieved verification with respect to a minimum of one-third of its customers during the initial or extension period for which the company used the opt-out approval mechanism; and
 2. The applicant has contacted each of its customers (for whom it has used an opt-out approval mechanism) at least once in the first half of the verification period and at least once during the second half of the verification period (if it was unsuccessful in obtaining the customer's verification during its initial contact) to verify the customer's CPNI sharing preference; and
 3. To the extent practicable, one of the applicant's contacts to the customer should be by phone to the customer's primary residence or telephone number by a person speaking the customer's language preference (English or Spanish). If the customer is not there, it should allow, if technically feasible, the customer the option of responding via message return; and
 4. The applicant presents a plan for achieving verification for its remaining customers. In its plan, the applicant must demonstrate that the additional time it is requesting is no longer than is reasonably necessary to complete items 1 and 3 again for any customers it was unsuccessful in contacting during the initial verification period, and to complete any additional measures designed to ensure customer contact during the extension period.
- A.** Telecommunications companies that have obtained opt-out or opt-in approval must notify customers of their current election regarding the treatment of their CPNI every twelve months.
1. In the case of opt-out approval, the notification must remind customers of their election to allow the company to:
 - a. Provide their information to its affiliates that provide communications-related services to which services that customer does not already subscribe; and
 - b. Provide their information to its joint venture partners and independent contractors that provide communications-related services.
 2. In the case of opt-in approval, the notification must remind customers of their election to allow the company to:
 - a. Provide their information to its affiliates that provide communications-related services to which services that customer does not already subscribe;
 - b. Provide their information to its joint venture partners and independent contractors that provide communications-related services; and
 - c. Provide their information to its affiliates that provide non-communications-related services.
 3. In the case of customer specified third party approval by written, oral, or electronic request, the notification must remind customers of their election to allow the company to:
 - a. Provide their information to its affiliates that provide communications-related services to which services that customer does not already subscribe;
 - b. Provide their information to its joint venture partners and independent contractors that provide communications-related services;
 - c. Provide their information to its affiliates that provide non-communications-related services; and
 - d. Provide their information to specifically identified third parties as requested in writing by the customer.
- B.** The notice must not be mailed with any advertising or promotional information.
- C.** The notice shall not be included with the customer's bill.

Historical Note

New Section made by final rulemaking at 12 A.A.R. 1547, effective June 19, 2006 (06-2).

R14-2-2109. Confirming a Customer's Opt-In Approval

- A.** Each time a telecommunications company receives a customer's "Opt-In" approval to allow the telecommunications company to make CPNI available to itself, its affiliates, independent contractors or joint venture partners, the telecommunications company must confirm in writing the change in approval status to the customer within ten days.
- B.** The written confirmation must be mailed or e-mailed to the customer.
- C.** The confirmation must be separate from any other mail from the telecommunications company.
- D.** The confirmation must clearly advise the customer of the effect of the customer's opt-in choice and must provide a reasonable method to notify the telecommunications company, including a toll free telephone number if the telecommunications company made an error in changing the customer's approval status.

Historical Note

New Section made by final rulemaking at 12 A.A.R. 1547, effective June 19, 2006 (06-2).

R14-2-2110. Reminders to Customers of Their Current CPNI Release Election**Historical Note**

New Section made by final rulemaking at 12 A.A.R. 1547, effective June 19, 2006 (06-2).

R14-2-2111. Duration of Customer Approval or Disapproval to Disseminate the Customer's CPNI

Any approval of the use of CPNI received by a telecommunications carrier will remain in effect until the customer revokes, modifies, or limits such approval.

Historical Note

New Section made by final rulemaking at 12 A.A.R. 1547, effective June 19, 2006 (06-2).

R14-2-2112. Severability

If any provision of this Article is found to be invalid, it shall be deemed severable from the remainder of this Article and the remaining provisions of this Article shall remain in full force and effect.

Historical Note

New Section made by final rulemaking at 12 A.A.R. 1547, effective June 19, 2006 (06-2).

ARTICLE 22. RESERVED**ARTICLE 23. NET METERING****R14-2-2301. Applicability**

These rules govern the treatment of Electric Utility Customers in Arizona who wish to interconnect with the Electric Utility which serves them and engage in Net Metering operation as defined below. These rules apply to all Electric Utilities, as defined in these rules.

Historical Note

New Section made by final rulemaking at 15 A.A.R. 638, effective May 23, 2009 (Supp. 09-1).

R14-2-2302. Definitions

For purposes of this Article, the following definitions apply unless the context requires otherwise:

1. "Avoided Costs" means the incremental costs to an Electric Utility for electric energy or capacity or both which, but for the purchase from the Net Metering Facility, such utility would generate itself or purchase from another source.
2. "Biomass" means any raw or processed plant-derived organic matter available on a renewable basis, including:
 - a. Dedicated energy crops and trees,
 - b. Agricultural food and feed crops,
 - c. Agricultural crop wastes and residues,
 - d. Wood wastes and residues, including:
 - i. Landscape waste.
 - ii. Right-of-way tree trimmings.
 - iii. Small diameter forest thinnings that are 12 inches in diameter or less.
 - e. Dead and downed forest products,
 - f. Aquatic plants,
 - g. Animal wastes,
 - h. Other vegetative waste materials,
 - i. Non-hazardous plant matter waste material that is segregated from other waste,
 - j. Forest-related resources such as:
 - i. Harvesting and mill residue.
 - ii. Pre-commercial thinnings.
 - iii. Slash.
 - iv. Brush.
 - k. Miscellaneous waste such as:
 - i. Waste pallets,
 - ii. Crates,
 - iii. Dunnage, or
 - l. Recycled paper fibers that are no longer suitable for recycled paper production, but not including:
 - i. Painted, treated, or pressurized wood;
 - ii. Wood contaminated with plastics or metals;
 - iii. Tires; or
 - iv. Recyclable post-consumer waste paper.
3. "Biogas" means gases that are derived from:
 - a. Plant-derived organic matter,
 - b. Agricultural food and feed matter,
 - c. Wood wastes,
 - d. Aquatic plants,
 - e. Animal wastes,
 - f. Vegetative wastes,
 - g. Wastewater treatment facilities using anaerobic digestion, or
 - h. Municipal solid waste through:
 - i. A digester process,
 - ii. An oxidation process, or
 - iii. Other gasification process.
4. "Combined Heat and Power" or "CHP" (also known as cogeneration) means a system that generates electricity and useful thermal energy in a single, integrated system such that the useful power output of the facility plus one-half the useful thermal energy output during any 12-month period must be no less than 42.5 percent of the total energy input of fuel to the facility.
5. "Commission" means the Arizona Corporation Commission.
6. "Electric Utility" or "Utility" means an electric distribution company that constructs, operates, and maintains the electrical distribution system for the receipt and delivery of power.
7. "Electric Utility Customer" or "Customer" means an end-use retail Customer served under a Utility's rate schedule.
8. "Fuel Cell" means a device that converts the chemical energy of a fuel directly into electricity without intermediate combustion or thermal cycles. For purposes of these Net Metering rules, the source of the chemical reaction must be derived from Renewable Resources.
9. "Geothermal" means heat from within the earth's surface.
10. "Hydroelectric" means the kinetic energy derived from moving water.
11. "Net Metering" means service to an Electric Utility Customer under which electric energy generated by or on behalf of that Electric Utility Customer from a Net Metering Facility and delivered to the Utility's local distribution facilities may be used to offset electric energy provided by the Electric Utility to the Electric Utility Customer during the applicable billing period.
12. "Net Metering Customer" means any Arizona Customer who chooses to take electric service in the manner described in the definition of Net Metering in subsection (11) and under the Net Metering tariff, as described in R14-2-2307.
13. "Net Metering Facility" means a facility for the production of electricity that:
 - a. Is operated by or on behalf of a Net Metering Customer and is located on the Net Metering Customer's premises;
 - b. Is intended primarily to provide part or all of the Net Metering Customer's requirements for electricity;
 - c. Uses Renewable Resources, a Fuel Cell, or CHP to generate electricity;
 - d. Has a generating capacity less than or equal to 125% of the Net Metering Customer's total connected load, or in the absence of customer load data, capacity less than or equal to the Customer's electric service drop capacity; and
 - e. Is interconnected with and can operate in parallel and in phase with an Electric Utility's existing distribution system.
14. "Renewable Resources" means natural resources that can be replenished by natural processes, including:
 - a. Biogas,
 - b. Biomass,
 - c. Geothermal,
 - d. Hydroelectric,
 - e. Solar, or
 - f. Wind.
15. "Solar" means radiation or heat from the Earth's sun that produces electricity from a device or system designed for that purpose.
16. "Wind" means energy derived from wind movement across the earth's surface that produces electricity from a device or system designed for that purpose.

Historical Note

New Section made by final rulemaking at 15 A.A.R. 638, effective May 23, 2009 (Supp. 09-1).

R14-2-2303. Requirements and Eligibility

An Electric Utility shall interconnect with any retail customer with a Net Metering Facility in the Electric Utility's service territory.

Historical Note

New Section made by final rulemaking at 15 A.A.R. 638, effective May 23, 2009 (Supp. 09-1).

R14-2-2304. Metering

The meter that is installed on Net Metering Facilities after the effective date of these rules shall be capable of registering and accumulating the kilowatt-hours ("kWh") of electricity flowing in both directions in each billing period.

Historical Note

New Section made by final rulemaking at 15 A.A.R. 638, effective May 23, 2009 (Supp. 09-1).

R14-2-2305. New or Additional Charges

Net Metering charges shall be assessed on a nondiscriminatory basis. Any proposed charge that would increase a Net Metering Customer's costs beyond those of other customers with similar load characteristics or customers in the same rate class that the Net Metering Customer would qualify for if not participating in Net Metering shall be filed by the Electric Utility with the Commission for consideration and approval. The charges shall be fully supported with cost of service studies and benefit/cost analyses. The Electric Utility shall have the burden of proof on any proposed charge.

Historical Note

New Section made by final rulemaking at 15 A.A.R. 638, effective May 23, 2009 (Supp. 09-1).

R14-2-2306. Billing for Net Metering

- A. On a monthly basis, the Net Metering Customer shall be billed or credited based upon the rates applicable under the Customer's currently effective standard rate schedule and any appropriate rider schedules.
- B. The billing period for Net Metering will be the same as the billing period under the Customer's applicable standard rate schedule.
- C. If the kWh supplied by the Electric Utility exceed the kWh that are generated by the Net Metering Facility and delivered back to the Electric Utility during the billing period, the Customer shall be billed for the net kWh supplied by the Electric Utility in accordance with the rates and charges under the Customer's standard rate schedule.
- D. If the electricity generated by the Net Metering Customer exceeds the electricity supplied by the Electric Utility in the billing period, the Customer shall be credited during the next billing period for the excess kWh generated. That is, the excess kWh during the billing period will be used to reduce the kWh supplied (not kW or kVA demand or customer charges) and billed by the Electric Utility during the following billing period.
- E. Customers taking service under time-of-use rates who are to receive credit in a subsequent billing period for excess kWh generated shall receive such credit during the next billing period during the on- or off-peak periods corresponding to the on- or off-peak periods in which the kWh were generated by the Customer.
- F. Once each calendar year the Electric Utility shall issue a check or billing credit to the Net Metering Customer for the balance of any credit due in excess of amounts owed by the Customer to the Electric Utility. The payment for any remaining credits shall be at the Electric Utility's Avoided Cost. That Avoided

Cost shall be clearly identified in the Electric Utility's Net Metering tariff.

Historical Note

New Section made by final rulemaking at 15 A.A.R. 638, effective May 23, 2009 (Supp. 09-1).

R14-2-2307. Net Metering Tariff

- A. Each Electric Utility shall file, for approval by the Commission, a Net Metering tariff within 120 days from the effective date of these rules, including financial information and supporting data sufficient to allow the Commission to determine the Electric Utility's fair value for the purposes of evaluating any specific proposed charges. The Commission shall issue a decision on these filings within 120 days.
- B. The Net Metering tariff shall specify standard rates for annual purchases of remaining credits from Net Metering Facilities and may specify total utility capacity limits. If total utility capacity limits are included in the tariff, such limits must be fully justified.
- C. Electric utilities may include seasonally and time of day differentiated Avoided Cost rates for purchases from Net Metering Customers, to the extent that Avoided Costs vary by season and time of day.

Historical Note

New Section made by final rulemaking at 15 A.A.R. 638, effective May 23, 2009 (Supp. 09-1).

R14-2-2308. Filing and Reporting Requirements

- A. Prior to May 1 of each year, each Electric Utility shall file a report listing all existing Net Metering Facilities and the inverter power rating or generator rating as of the end of the previous calendar year.
- B. Also included in this report shall be, for each existing Net Metering Facility, the monthly amount of energy delivered to and from the Electric Utility and, if available, the monthly peak demand delivered to and from the Electric Utility.

Historical Note

New Section made by final rulemaking at 15 A.A.R. 638, effective May 23, 2009 (Supp. 09-1).

ARTICLE 24. ELECTRIC ENERGY EFFICIENCY STANDARDS

R14-2-2401. Definitions

In this Article, unless otherwise specified:

1. "Adjustment mechanism" means a Commission-approved provision in an affected utility's rate schedule allowing the affected utility to increase and decrease a certain rate or rates, in an established manner, when increases and decreases in specific costs are incurred by the affected utility.
2. "Affected utility" means a public service corporation that provides electric service to retail customers in Arizona.
3. "Baseline" means the level of electricity demand, electricity consumption, and associated expenses estimated to occur in the absence of a specific DSM program, determined as provided in R14-2-2413.
4. "CHP" means combined heat and power, which is using a primary energy source to simultaneously produce electrical energy and useful process heat.
5. "Commission" means the Arizona Corporation Commission.
6. "Cost-effective" means that total incremental benefits from a DSM measure or DSM program exceed total incremental costs over the life of the DSM measure, as determined under R14-2-2412.

Corporation Commission - Fixed Utilities

7. "Customer" means the person or entity in whose name service is rendered to a single contiguous field, location, or facility, regardless of the number of meters at the field, location, or facility.
8. "Delivery system" means the infrastructure through which an affected utility transmits and then distributes electrical energy to its customers.
9. "Demand savings" means the load reduction, measured in kW, occurring during a relevant peak period or periods as a direct result of energy efficiency and demand response programs.
10. "Demand response" means modification of customers' electricity consumption patterns, affecting the timing or quantity of customer demand and usage, achieved through intentional actions taken by an affected utility or customer because of changes in prices, market conditions, or threats to system reliability.
11. "Distributed generation" means the production of electricity on the customer's side of the meter, for use by the customer, through a process such as CHP.
12. "DSM" means demand-side management, the implementation and maintenance of one or more DSM programs.
13. "DSM measure" means any material, device, technology, educational program, pricing option, practice, or facility alteration designed to result in reduced peak demand, increased energy efficiency, or shifting of electricity consumption to off-peak periods and includes CHP used to displace space heating, water heating, or another load.
14. "DSM program" means one or more DSM measures provided as part of a single offering to customers.
15. "DSM tariff" means a Commission-approved schedule of rates designed to recover an affected utility's reasonable and prudent costs of complying with this Article.
16. "Electric utility" means a public service corporation providing electric service to the public.
17. "Energy efficiency" means the production or delivery of an equivalent level and quality of end-use electric service using less energy, or the conservation of energy by end-use customers.
18. "Energy efficiency standard" means the reduction in retail energy sales, in percentage of kWh, required to be achieved through an affected utility's approved DSM programs as prescribed in R14-2-2404.
19. "Energy savings" means the reduction in a customer's energy consumption directly resulting from a DSM program, expressed in kWh.
20. "Energy service company" means a company that provides a broad range of services related to energy efficiency, including energy audits, the design and implementation of energy efficiency projects, and the installation and maintenance of energy efficiency measures.
21. "Environmental benefits" means avoidance of costs for compliance, or reduction in environmental impacts, for things such as, but not limited to:
 - a. Water use and water contamination,
 - b. Monitoring storage and disposal of solid waste such as coal ash (bottom and fly),
 - c. Health effects from burning fossil fuels, and
 - d. Emissions from transportation and production of fuels and electricity.
22. "Fuel-neutral" means without promoting or otherwise expressing bias regarding a customer's choice of one fuel over another.
23. "Incremental benefits" means amounts saved through avoiding costs for fuel, purchased power, new capacity, transmission, distribution, and other cost items necessary to provide electric utility service, along with other improvements in societal welfare, such as through avoided environmental impacts, including, but not limited to, water consumption savings, air emission reduction, reduction in coal ash, and reduction of nuclear waste.
24. "Incremental costs" means the additional expenses of DSM measures, relative to baseline.
25. "Independent program administrator" means an impartial third party employed to provide objective oversight of energy efficiency programs.
26. "kW" means kilowatt.
27. "kWh" means kilowatt-hour.
28. "Leveraging" means combining resources to more effectively achieve an energy efficiency goal, or to achieve greater energy efficiency savings, than would be achieved without combining resources.
29. "Load management" means actions taken or sponsored by an affected utility to reduce peak demands or improve system operating efficiency, such as direct control of customer demands through affected-utility-initiated interruption or cycling, thermal storage, or educational campaigns to encourage customers to shift loads.
30. "Low-income customer" means a customer with a below average level of household income, as defined in an affected utility's Commission-approved DSM program description.
31. "Market transformation" means strategic efforts to induce lasting structural or behavioral changes in the market that result in increased energy efficiency.
32. "Net benefits" means the incremental benefits resulting from DSM minus the incremental costs of DSM.
33. "Non-market benefits" means improvements in societal welfare that are not bought or sold.
34. "Program costs" means the expenses incurred by an affected utility as a result of developing, marketing, implementing, administering, and evaluating Commission-approved DSM programs.
35. "Self-direction" means an option made available to qualifying customers of sufficient size, in which the amount of money paid by each qualifying customer toward DSM costs is tracked for the customer and made available for use by the customer for approved DSM investments upon application by the customer.
36. "Societal Test" means a cost-effectiveness test of the net benefits of DSM programs that starts with the Total Resource Cost Test, but includes non-market benefits and costs to society.
37. "Staff" means individuals working for the Commission's Utilities Division, whether as employees or through contract.
38. "Thermal envelope" means the collection of building surfaces, such as walls, windows, doors, floors, ceilings, and roofs, that separate interior conditioned (heated or cooled) spaces from the exterior environment.
39. "Total Resource Cost Test" means a cost-effectiveness test that measures the net benefits of a DSM program as a resource option, including incremental measure costs, incremental affected utility costs, and carrying costs as a component of avoided capacity cost, but excluding incen-

Corporation Commission - Fixed Utilities

tives paid by affected utilities and non-market benefits to society.

Historical Note

New Section made by final rulemaking at 16 A.A.R.
2254, effective January 1, 2011 (Supp. 10-4).

R14-2-2402. Applicability

This Article applies to each affected utility classified as Class A according to R14-2-103(A)(3)(q), unless the affected utility is an electric distribution cooperative that has fewer than 25% of its customers in Arizona.

Historical Note

New Section made by final rulemaking at 16 A.A.R.
2254, effective January 1, 2011 (Supp. 10-4).

R14-2-2403. Goals and Objectives

- A. An affected utility shall design each DSM program:
 1. To be cost-effective, and
 2. To accomplish at least one of the following:
 - a. Energy efficiency,
 - b. Load management, or
 - c. Demand response.
- B. An affected utility shall consider the following when planning and implementing a DSM program:
 1. Whether the DSM program will achieve cost-effective energy savings and peak demand reductions;
 2. Whether the DSM program will advance market transformation and achieve sustainable savings, reducing the need for future market interventions; and
 3. Whether the affected utility can ensure a level of funding adequate to sustain the DSM program and allow the DSM program to achieve its targeted goal.
- C. An affected utility shall:
 1. Offer DSM programs that will provide an opportunity for all affected utility customer segments to participate, and
 2. Allocate a portion of DSM resources specifically to low-income customers.

R14-2-2404. Energy Efficiency Standards

- A. Except as provided in R14-2-2418, in order to ensure reliable electric service at reasonable ratepayer rates and costs, by December 31, 2020, an affected utility shall, through cost-effective DSM energy efficiency programs, achieve cumulative annual energy savings, measured in kWh, equivalent to at least 22% of the affected utility's retail electric energy sales for calendar year 2019.
- B. An affected utility shall, by the end of each calendar year, meet at least the cumulative annual energy efficiency standard listed in Table 1 for that calendar year. An illustrative example of how the required energy savings would be calculated is shown in Table 2. An illustrative example of how the standard could be met in 2020 is shown in Table 4.

Table 1. Energy Efficiency Standard

CALENDAR YEAR	ENERGY EFFICIENCY STANDARD (Cumulative Annual Energy Savings by the End of Each Calendar Year as a Percentage of the Retail Energy Sales in the Prior Calendar Year)
2011	1.25%

2012	3.00%
2013	5.00%
2014	7.25%
2015	9.50%
2016	12.00%
2017	14.50%
2018	17.00%
2019	19.50%
2020	22.00%

Table 2. Illustrative Example of Calculating Required Energy Savings

CALENDAR YEAR	A RETAIL SALES (kWh)	B ENERGY EFFICIENCY STANDARD	C REQUIRED CUMULATIVE ENERGY SAVINGS (B of current year × A of prior year)
2010	100,000,000		0
2011	100,750,000	1.25%	1,250,000
2012	101,017,500	3.00%	3,022,500
2013	101,069,925	5.00%	5,050,875
2014	100,915,646	7.25%	7,327,570
2015	100,821,094	9.50%	9,586,986
2016	100,517,711	12.00%	12,098,531
2017	100,293,499	14.50%	14,575,068
2018	100,116,043	17.00%	17,049,895
2019	99,986,628	19.50%	19,522,628
2020	99,902,384	22.00%	21,997,058

- C. An affected utility's measured reductions in peak demand resulting from cost-effective demand response and load management programs may comprise up to two percentage points of the 22% energy efficiency standard, with peak demand reduction capability from demand response converted to an annual energy savings equivalent based on an assumed 50% annual load factor. The credit for demand response and load management peak demand reductions shall not exceed 10% of the energy efficiency standard set forth in subsection (B) for any year. The measured reductions in peak demand occurring during a calendar year after the effective date of this Article may be counted for that calendar year even if the demand response or load management program resulting in the reductions was implemented prior to the effective date of this Article.
- D. An affected utility's energy savings resulting from DSM energy efficiency programs implemented before the effective date of this Article, but after 2004, may be credited toward meeting the energy efficiency standard set forth in subsection (B). The total energy savings credit for these pre-rules energy efficiency programs shall not exceed 4% of the affected utility's retail energy sales in calendar year 2005. A portion of the total energy savings credit for these pre-rules energy efficiency programs may be applied each year, from 2016 through 2020, as listed in Table 3, Column A.

Table 3. Credit for Pre-Rules Energy Savings

CALENDAR YEAR	A CREDIT FOR THE PRE-RULES ENERGY SAVINGS APPLIED IN EACH YEAR (Percentage of the Total Eligible Pre-Rules Cumulative Annual Energy Savings That Shall Be Applied in the Year)	B CUMULATIVE APPLICATION OF THE CREDIT FOR THE PRE-RULES ENERGY SAVINGS IN 2016-2020 (Percentage of the Total Eligible Pre-Rules Cumulative Annual Energy Savings That Are Credited by the End of Each Year)
2016	7.5%	7.5%
2017	15.0%	22.5%
2018	20.0%	42.5%
2019	25.0%	67.5%
2020	32.5%	100.0%

- E.** An affected utility may count toward meeting the standard up to one third of the energy savings, resulting from energy efficiency building codes, that are quantified and reported through a measurement and evaluation study undertaken by the affected utility.
- F.** An affected utility may count the energy savings from combined heat and power (CHP) installations that do not qualify under the Renewable Energy Standard toward meeting the energy efficiency standard.
- G.** An affected utility may count a customer's energy savings resulting from self-direction toward meeting the standard.
- H.** An affected utility's energy savings resulting from efficiency improvements to its delivery system may not be counted toward meeting the standard.
- I.** An affected utility's energy savings used to meet the energy efficiency standard will be assumed to continue through the year 2020 or, if expiring before the year 2020, to be replaced with a DSM energy efficiency program having at least the same level of efficiency.

Table 4. Illustrative Example of How the Energy Standard Could Be Met in 2020

	2020 Energy Efficiency Standard	2019 Retail Sales (kWh)	Required Cumulative Annual Energy Savings (kWh)
Total	22.00%	99,986,628	21,997,058
Breakdown of Savings and Credits Used To Meet 2020 Standard:			
			Cumulative Annual Energy Savings or Credit (kWh)
Demand Response Credit R14-2-2404(C)	Up to 2.00%		1,999,733
Pre-rules Savings Credit R14-2-2404(D)			1,100,000*
Building Code R14-2-2404(E)			1,000,000
