RULES

A.R.S. § 41-1001(17) states: “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The Arizona Administrative Code is where the official rules of the state of Arizona are published. The Code is the official codification of rules that govern state agencies, boards, and commissions. Virtually everything in your life is affected in some way by rules published in the Arizona Administrative Code, from the quality of air you breathe to the licensing of your dentist. This chapter is one of more than 230 in the Code compiled in 21 Titles.

ADMINISTRATIVE CODE SUPPLEMENTS

Rules filed by an agency to be published in the Administrative Code are updated quarterly. Supplement release dates are printed on the footers of each chapter:

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2017 is cited as Supp. 17-1.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the Arizona Administrative Register for recent updates to rule Sections.

ARTICLES AND SECTIONS

Rules in chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering system separated into subsections.

HISTORICAL NOTES AND EFFECTIVE DATES

Historical notes inform the user when the last time a Section was updated in the Administrative Code. Be aware, since the Office publishes each quarter by entire chapters, not all Sections are updated by an agency in a supplement release. Many times just one Section or a few Sections may be updated in the entire chapter.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority note to make rules is often included at the beginning of a chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in the introduction of a chapter can be found at the Secretary of State’s website, www.azsos.gov/services/legislative-filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the Arizona Administrative Register online at www.azsos.gov/rules, click on the Administrative Register link.

In the Administrative Code the Office includes editor’s notes at the beginning of a chapter indicating that certain rulemaking Sections were made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

EXEMPTIONS AND PAPER COLOR

If you are researching rules and come across rescinded chapters on a different paper color, this is because the agency filed a Notice of Exempt Rulemaking. At one time the office published exempt rules on either blue or green paper. Blue meant the authority of the exemption was given by the Legislature; green meant the authority was determined by a court order. In 2001 the Office discontinued publishing rules using these paper colors.

PERSONAL USE/COMMERCIAL USE

This chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), accepts state agency rule filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the Administrative Code. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

ADMINISTRATIVE RULES DIVISION

RULES

A.R.S. § 41-1001(17) states: “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The Arizona Administrative Code is where the official rules of the state of Arizona are published. The Code is the official codification of rules that govern state agencies, boards, and commissions. Virtually everything in your life is affected in some way by rules published in the Arizona Administrative Code, from the quality of air you breathe to the licensing of your dentist. This chapter is one of more than 230 in the Code compiled in 21 Titles.

ADMINISTRATIVE CODE SUPPLEMENTS

Rules filed by an agency to be published in the Administrative Code are updated quarterly. Supplement release dates are printed on the footers of each chapter:

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2017 is cited as Supp. 17-1.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the Arizona Administrative Register for recent updates to rule Sections.

ARTICLES AND SECTIONS

Rules in chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering system separated into subsections.

HISTORICAL NOTES AND EFFECTIVE DATES

Historical notes inform the user when the last time a Section was updated in the Administrative Code. Be aware, since the Office publishes each quarter by entire chapters, not all Sections are updated by an agency in a supplement release. Many times just one Section or a few Sections may be updated in the entire chapter.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority note to make rules is often included at the beginning of a chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in the introduction of a chapter can be found at the Secretary of State’s website, www.azsos.gov/services/legislative-filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the Arizona Administrative Register online at www.azsos.gov/rules, click on the Administrative Register link.

In the Administrative Code the Office includes editor’s notes at the beginning of a chapter indicating that certain rulemaking Sections were made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

EXEMPTIONS AND PAPER COLOR

If you are researching rules and come across rescinded chapters on a different paper color, this is because the agency filed a Notice of Exempt Rulemaking. At one time the office published exempt rules on either blue or green paper. Blue meant the authority of the exemption was given by the Legislature; green meant the authority was determined by a court order. In 2001 the Office discontinued publishing rules using these paper colors.

PERSONAL USE/COMMERCIAL USE

This chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

Public Services managing rules editor, Rhonda Paschal, assisted with the editing of this chapter.

TITLE 9. HEALTH SERVICES**CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION**

Editor's Note: The Office of the Secretary of State prints all Code Chapters on white paper (Supp 01-3).

Editor's Note: This Chapter contains rules which were adopted or amended under an exemption from the Arizona Administrative Procedure Act (A.R.S. Title 41, Chapter 6), pursuant to Laws 1992, Ch. 301, § 61 and Ch. 302, § 13, and Laws 1993, Ch. 6, § 34. Exemption from A.R.S. Title 41, Chapter 6 means that AHCCCS did not submit notice of this rulemaking to the Secretary of State's Office for publication in the Arizona Administrative Register; the Governor's Regulatory Review Council did not review these rules; AHCCCS was not required to hold public hearings on these rules; and the Attorney General did not certify these rules. Because this Chapter contains rules which are exempt from the regular rulemaking process, the Chapter is printed on blue paper.

 6. A member may receive physical and behavioral health services as specified in Articles 2 and 12.

ARTICLE 4. PENALTY FOR OBTAINING ELIGIBILITY BY FRAUD**R9-22-401. Definitions**

Definitions. The following definitions apply specifically to terms used within this Article:

“Amounts incurred by the system” include capitation payments, costs incurred by any contractor in excess of capitation, reinsurance, and other administrative, legal or investigative costs associated with a person who obtained eligibility contrary to A.R.S. §§ 36-2905.04 and/or A.R.S. § 36-2991.

“Application for eligibility” means any request for benefits administered by AHCCCS under the authority of A.R.S. Title 36, Chapter 29, including applications for presumptive eligibility submitted to hospitals as described under Article 16 of this Chapter.

“Penalty” means an amount not to exceed the amounts incurred by the system during any time period that the person would have been ineligible for benefits but for the false or fraudulent information provided on the application for eligibility. A penalty does not include, and does not need to be reduced by, the amount of any overpayments that AHCCCS may be entitled to recoup from a person who violated A.R.S. § 36-2905.04 and/or A.R.S. § 36-2991.

R9-22-705. Payments by Contractors

Arizona Health Care Cost Containment System - Administration

- A.** General requirements. A contractor shall contract with providers to provide covered services to members enrolled with the contractor. The contractor is responsible for reimbursing providers and coordinating care for services provided to a member. Except as provided in subsection (A)(2), a contractor is not required to reimburse a noncontracting provider for services rendered to a member enrolled with the contractor.
- Providers. A provider shall enter into a provider agreement with the Administration that meets the requirements of A.R.S. § 36-2904 and 42 CFR 431.107(b) as of March 6, 1992, which is incorporated by reference and on file with the Administration, and available from the U.S. Government Printing Office, Mail Stop: IDCC, 732 N. Capitol Street, NW, Washington, DC, 20401. This incorporation by reference contains no future editions or amendments.
 - A contractor shall reimburse a noncontracting provider for services rendered to a member enrolled with the contractor as specified in this Article if:
 - The contractor referred the member to the provider or authorized the provider to render the services and the claim is otherwise payable under this Chapter, or
 - The service is emergent under Article 2 of this Chapter.
- B.** Timely submission of claims.
- Under A.R.S. § 36-2904, a contractor shall deem a paper or electronic claim as submitted on the date that the claim is received by the contractor. The contractor shall do one or more of the following for each claim the contractor receives:
 - Place a date stamp on the face of the claim,
 - Assign a system-generated claim reference number, or
 - Assign a system-generated date-specific number.
 - Unless a shorter time period is specified in subcontract, a contractor shall not pay a claim for a covered service unless the claim is initially submitted within one of the following time limits, whichever is later:
 - Six months from the date of service or for an inpatient hospital claim, six months from the date of discharge; or
 - Six months from the date of eligibility posting.
 - Unless a shorter time period is specified in subcontract, a contractor shall not pay a clean claim for a covered service unless the claim is submitted within one of the following time limits, whichever is later:
 - Twelve months from the date of service or for an inpatient hospital claim, 12 months from the date of discharge; or
 - Twelve months from the date of eligibility posting.
- C.** Date of claim.
- A contractor's date of receipt of an inpatient or an outpatient hospital claim is the date the claim is received by the contractor as indicated by the date stamp on the claim, the system-generated claim reference number, or the system-generated date-specific number assigned by the contractor.
 - A hospital claim is considered paid on the date indicated on the disbursement check.
 - A denied hospital claim is considered adjudicated on the date of the claim's denial.
 - For a claim that is pending for additional supporting documentation specified in A.R.S. § 36-2903.01 or 36-2904, the contractor shall assign a new date of receipt upon receipt of the additional documentation.
 - For a claim that is pending for documentation other than the minimum required documentation specified in either A.R.S. § 36-2903.01 or 36-2904, the contractor shall not assign a new date of receipt.
 - A contractor and a hospital may, through a contract approved as specified in R9-22-715, adopt a method for identifying, tracking, and adjudicating a claim that is different from the method described in this subsection.
- D.** Payment for in-state inpatient hospital services for claims with discharge dates on or before September 30, 2014. A contractor shall reimburse an in-state provider of inpatient hospital services rendered with a discharge date on or before September 30, 2014, at either a rate specified by subcontract or, in absence of the subcontract, the prospective tiered-per-diem amount in A.R.S. § 36-2903.01 and this Article. Subcontract rates, terms, and conditions are subject to review and approval or disapproval under A.R.S. § 36-2904 and R9-22-715. This subsection does not apply to an urban contractor as specified in R9-22-718 and A.R.S. § 36-2905.01.
- E.** Payment for Inpatient out-of-state hospital payments for claims with discharge dates on or before September 30, 2014. In the absence of a contract with an out-of-state hospital that specifies payment rates, a contractor shall reimburse out-of-state hospitals for covered inpatient services by multiplying covered charges by the most recent statewide urban cost-to-charge ratio as determined in R9-22-712.01(6)(b).
- F.** Payment for inpatient hospital services for claims with discharge dates on and after October 1, 2014 regardless of admission date. Subject to R9-22-718 and A.R.S. § 36-2905.01 regarding urban hospitals, a contractor shall reimburse an in-state or out-of-state provider of inpatient hospital services, at either a rate specified by subcontract or, in absence of a subcontract, the DRG rate established by the Administration and this Article. Subcontract rates, terms, and conditions are subject to review and approval or disapproval under A.R.S. § 36-2904 and R9-22-715.
- G.** Payment for in-state outpatient hospital services.
A contractor shall reimburse an in-state provider of outpatient hospital services rendered on or after July 1, 2005, at either a rate specified by a subcontract or, in absence of a subcontract, as provided under R9-22-712.10, A.R.S. § 36-2903.01 and other sections of this Article. The terms of the subcontract are subject to review and approval or disapproval under A.R.S. § 36-2904 and R9-22-715.
- H.** Outpatient out-of-state hospital payments. In the absence of a contract with an out-of-state hospital that specifies payment rates, a contractor shall reimburse out-of-state hospitals for covered outpatient services by applying the methodology described in R9-22-712.10 through R9-22-712.50. If the outpatient procedure is not assigned a fee schedule amount, the contractor shall pay the claim by multiplying the covered charges for the outpatient services by the statewide outpatient cost-to-charge ratio.
- I.** Payment for observation days. A contractor shall reimburse a provider and a noncontracting provider for the provision of observation days at either a rate specified by subcontract or, in the absence of a subcontract, as prescribed under R9-22-712, R9-22-712.10, and R9-22-712.45.
- J.** Review of claims and coverage for hospital supplies.
- A contractor may conduct a review of any claims submitted and recoup any payments made in error.
 - A hospital shall obtain prior authorization from the appropriate contractor for nonemergency admissions. When issuing prior authorization, a contractor shall consider the medical necessity of the service, and the availability and cost effectiveness of an alternative treatment.

Arizona Health Care Cost Containment System - Administration

- Failure to obtain prior authorization when required is cause for nonpayment or denial of a claim. A contractor shall not require prior authorization for medically necessary services provided during any prior period for which the contractor is responsible. If a contractor and a hospital agree to a subcontract, the parties shall abide by the terms of the subcontract regarding utilization control activities. A hospital shall cooperate with a contractor's reasonable activities necessary to perform concurrent review and shall make the hospital's medical records pertaining to a member enrolled with a contractor available for review.
3. Regardless of prior authorization or concurrent review activities, a contractor may make prepayment or post-payment review of all claims, including but not limited to a hospital claim. A contractor may recoup an erroneously paid claim. If prior authorization was given for an inpatient hospital admission, a specific service, or level of care but subsequent medical review indicates that the admission, the service, or level of care was not medically appropriate, the contractor shall adjust the claim payment.
 4. A contractor and a hospital may enter into a subcontract that includes hospital claims review criteria and procedures if the subcontract meets the requirements of R9-22-715.

 - b. Medically necessary;
 - c. Provided in the most appropriate, cost-effective, and least restrictive setting; and
 - d. For claims with dates of admission on and after March 1, 1993, substantiated by the minimum documentation specified in A.R.S. § 36-2904.

R9-22-712. Reimbursement: General

- A. Inpatient and outpatient discounts and penalties. If a claim is pending for additional documentation required under A.R.S. § 36-2903.01(G)(4), the period during which the claim is pending is not used in the calculation of the quick-pay discounts and slow-pay penalties under A.R.S. § 36-2903.01(G)(5).
- B. Inpatient and outpatient in-state or out-of-state hospital payments.
 - 1. Payment for inpatient out-of-state hospital services for claims with discharge dates on or before September 30, 2014. In the absence of a contract with an out-of-state hospital that specifies payment rates, AHCCCS shall reimburse out-of-state hospitals for covered inpatient services by multiplying covered charges by the most recent statewide urban cost-to-charge ratio as determined in R9-22-712.01(6)(d).
 - 2. Payment for inpatient in-state hospital services for claims with discharge dates on or before September 30, 2014. AHCCCS shall reimburse an in-state provider of inpatient hospital services rendered with a discharge date on or before September 30, 2014, at the prospective tiered-per-diem amount in A.R.S. § 36-2903.01 and this Article.
 - 3. Payment for inpatient in-state or out-of-state hospital services for claims with discharge dates on and after October 1, 2014 regardless of admission date. Subject to R9-22-718 and A.R.S. § 36-2905.01 regarding urban hospitals, a contractor shall reimburse an in-state or out-of-state provider of inpatient hospital services, at either a rate specified by subcontract or, in the absence of a subcontract, the DRG rate established by the Administration and this Article. Subcontract rates, terms, and conditions are subject to review and approval or disapproval under A.R.S. § 36-2904 and R9-22-715.
 - 4. Outpatient out-of-state hospital payments. In the absence of a contract with an out-of-state hospital that specifies payment rates, AHCCCS shall reimburse an out-of-state hospital for covered outpatient services by applying the methodology described in R9-22-712.10 through R9-22-712.50. If the outpatient procedure is not assigned a fee schedule amount, the Administration shall pay the claim by multiplying the covered charges for the outpatient services by the statewide outpatient cost-to-charge ratio.
 - 5. Outpatient in-state hospital payments. A contractor shall reimburse an in-state provider of outpatient hospital services rendered on or after July 1, 2005, at either a rate specified by a subcontract or, in absence of a subcontract, as provided under R9-22-712.10, A.R.S. § 36-2903.01 and other sections of this Article. The terms of the subcontract are subject to review and approval or disapproval under A.R.S. § 36-2904 and R9-22-715.
- C. Access to records. Subcontracting and noncontracting providers of outpatient or inpatient hospital services shall allow the Administration access to medical records regarding eligible persons and shall in all other ways fully cooperate with the Administration or the Administration's designated representative in performance of the Administration's utilization control activities. The Administration shall deny a claim for failure to cooperate.
- D. Prior authorization. The Administration or contractor may deny a claim if a provider fails to obtain prior authorization as required under R9-22-210.
- E. Review of claims. Regardless of prior authorization or concurrent review activities, the Administration may subject all hospital claims, including outliers, to prepayment medical review or post-payment review, or both. The Administration shall

Arizona Health Care Cost Containment System - Administration

conduct post-payment reviews consistent with A.R.S. § 36-2903.01 and may recoup erroneously paid claims.

F. Claim receipt.

1. The Administration's date of receipt of inpatient or outpatient hospital claims is the date the claim is received by the Administration as indicated by the date stamp on the claim and the system-generated claim reference number or system-generated date-specific number.
2. Hospital claims are considered paid on the date indicated on disbursement checks.
3. A denied claim is considered adjudicated on the date the claim is denied.
4. Claims that are denied and are resubmitted are assigned new receipt dates.
5. For a claim that is pending for additional supporting documentation specified in A.R.S. § 36-2903.01 or 36-2904, the Administration shall assign a new date of receipt upon receipt of the additional documentation.
6. For a claim that is pending for documentation other than the minimum required documentation specified in either A.R.S. § 36-2903.01 or 36-2904, the Administration shall not assign a new date of receipt.

G. Outpatient hospital reimbursement. The Administration shall pay for covered outpatient hospital services provided to eligible persons with dates of service from March 1, 1993 through June 30, 2005, at the AHCCCS outpatient hospital cost-to-charge ratio, multiplied by the amount of the covered charges.

1. Computation of outpatient hospital reimbursement. The Administration shall compute the cost-to-charge ratio on a hospital-specific basis by determining the covered charges and costs associated with treating eligible persons in an outpatient setting at each hospital. Outpatient operating and capital costs are included in the computation but outpatient medical education costs that are included in the inpatient medical education component are excluded. To calculate the outpatient hospital cost-to-charge ratio annually for each hospital, the Administration shall use each hospital's Medicare Cost Reports and a database consisting of outpatient hospital claims paid and encounters processed by the Administration for each hospital, subjecting both to the data requirements specified in R9-22-712.01. The Administration shall use the following methodology to establish the outpatient hospital cost-to-charge ratios:

- a. Cost-to-charge ratios. The Administration shall calculate the costs of the claims and encounters for outpatient hospital services by multiplying the ancillary line item cost-to-charge ratios by the covered charges for corresponding revenue codes on the claims and encounters. Each hospital shall provide the Administration with information on how the revenue codes used by the hospital to categorize charges on claims and encounters correspond to the ancillary line items on the hospital's Medicare Cost Report. The Administration shall then compute the overall outpatient hospital cost-to-charge ratio for each hospital by taking the average of the ancillary line items cost-to-charge ratios for each revenue code weighted by the covered charges.
- b. Cost-to-charge limit. To comply with 42 CFR 447.325, the Administration may limit cost-to-charge ratios to 1.00 for each ancillary line item from the Medicare Cost Report. The Administration shall remove ancillary line items that are non-covered or not applicable to outpatient hospital services from the Medicare Cost Report data for purposes of

computing the overall outpatient hospital cost-to-charge ratio.

2. New hospitals. The Administration shall reimburse new hospitals at the weighted statewide average outpatient hospital cost-to-charge ratio multiplied by covered charges. The Administration shall continue to use the statewide average outpatient hospital cost-to-charge ratio for a new hospital until the Administration rebases the outpatient hospital cost-to-charge ratios and the new hospital has a Medicare Cost Report for the fiscal year being used in the rebasing.
3. Specialty outpatient services. The Administration may negotiate, at any time, reimbursement rates for outpatient hospital services in a specialty facility.
4. Reimbursement requirements. To receive payment from the Administration, a hospital shall submit claims that are legible, accurate, error free, and have a covered charge greater than zero. The Administration shall not reimburse hospitals for emergency room treatment, observation hours or days, or other outpatient hospital services performed on an outpatient basis, if the eligible person is admitted as an inpatient to the same hospital directly from the emergency room, observation area, or other outpatient department. Services provided in the emergency room, observation area, and other outpatient hospital services provided before the hospital admission are included in the tiered per diem payment.
5. Rebasing. The Administration shall rebase the outpatient hospital cost-to-charge ratios at least every four years but no more than once a year using updated Medicare Cost Reports and claim and encounter data.
6. If a hospital files an increase in its charge master for an existing outpatient service provided on or after July 1, 2004, and on or before June 30, 2005, which represents an aggregate increase in charges of more than 4.7%, the Administration shall adjust the hospital-specific cost-to-charge ratio as calculated under subsection (G)(1) through (5) by applying the following formula:

$$CCR * [1.047 / (1 + \% \text{ increase})]$$

Where "CCR" means the hospital-specific cost-to-charge ratio as calculated under subsection (G)(1) through (5) and "% increase" means the aggregate percentage increase in charges for outpatient services shown on the hospital charge master.

"Charge master" means the schedule of rates and charges as described under A.R.S. § 36-436 and the rules that relate to those rates and charges that are filed with the Director of the Arizona Department of Health Services.

R9-22-712.01. Inpatient Hospital Reimbursement for claims with admission dates and discharge dates from October 1, 1998 through September 30, 2014

Inpatient hospital reimbursement. The Administration shall pay for covered inpatient acute care hospital services provided to eligible persons for claims with admission dates and discharge dates from October 1, 1998 through September 30, 2014, on a prospective reimbursement basis. The prospective rates represent payment in full, excluding quick-pay discounts, slow-pay penalties, and third-party payments for both accommodation and ancillary department services. The rates include reimbursement for operating and capital costs. The Administration shall make reimbursement for direct graduate medical education as described in A.R.S. § 36-2903.01. For payment purposes, the Administration shall classify each AHCCCS inpatient hospital day of care into one of several tiers appropriate to the services rendered. The rate for a tier is referred to as the tiered per diem rate of reimbursement. The number of tiers is seven and the maximum number of tiers payable per continuous stay is two. Payment of outlier claims, transplant claims, or payment to out-of-state hospitals, freestanding psychiatric hospitals, and other specialty facilities may differ from the inpatient hospital tiered per diem rates of reimbursement described in this Section.

1. Tier rate data. The Administration shall base tiered per diem rates effective on and after October 1, 1998 on Medicare Cost Reports for Arizona hospitals for the fiscal year ending in 1996 and a database consisting of inpatient hospital claims and encounters for dates of service matching each hospital's 1996 fiscal year end.
 - a. Medicare Cost Report data. Because Medicare Cost Report years are not standard among hospitals and were not audited at the time of the rate calculation, the Administration shall inflate all the costs to a common point in time as described in subsection (2) for each component of the tiered per diem rates. The Administration shall not make any changes to the tiered per diem rates if the Medicare Cost Report data are subsequently updated or adjusted. If a single Medicare Cost Report is filed for more than one hospital, the Administration shall allocate the costs to each of the respective hospitals. A hospital shall submit information to assist the Administration in this allocation.
 - b. Claim and encounter data. For the database, the Administration shall use only those inpatient hospital claims paid by the Administration and encounters that were accepted and processed by the Administration at the time the database was developed for rates effective on and after October 1, 1998. The Administration shall subject the claim and encounter data to a series of data quality, reasonableness, and integrity edits and shall exclude from the database or adjust claims and encounters that fail these edits.

The Administration shall also exclude from the database the following claims and encounters:

- i. Those missing information necessary for the rate calculation,
 - ii. Medicare crossovers,
 - iii. Those submitted by freestanding psychiatric hospitals, and
 - iv. Those for transplant services or any other hospital service that the Administration would pay on a basis other than the tiered per diem rate.
2. Tier rate components. The Administration shall establish inpatient hospital prospective tiered per diem rates based on the sum of the operating and capital components. The rate for the operating component is a statewide rate for each tier except for the NICU and Routine tiers, which are based on peer groups. The rate for the capital component is a blend of statewide and hospital-specific values, as described in A.R.S. § 36-2903.01. The Administration shall use the following methodologies to establish the rates for each of these components.
 - a. Operating component. Using the Medicare Cost Reports and the claim and encounter database, the Administration shall compute the rate for the operating component as follows:
 - i. Data preparation. The Administration shall identify and group into department categories, the Medicare Cost Report data that provide ancillary department cost-to-charge ratios and accommodation costs per day. To comply with 42 CFR 447.271, the Administration shall limit cost-to-charge ratios to 1.00 for each ancillary department.
 - ii. Operating cost calculation. To calculate the rate for the operating component, the Administration shall derive the operating costs from claims and encounters by combining the Medicare Cost Report data and the claim and encounter database for all hospitals. In performing this calculation, the Administration shall match the revenue codes on the claims and encounters to the departments in which the line items on the Medicare Cost Reports are grouped. The ancillary department cost-to-charge ratios for a particular hospital are multiplied by the covered ancillary department charges on each of the hospital's claims and encounters. The AHCCCS inpatient days of care on the particular hospital's claims and encounters are multiplied by the corresponding accommodation costs per day from the hospital's Medicare Cost Report. The ancillary cost-to-charge ratios and accommodation costs per day do not include medical education and capital costs. The Administration shall inflate the resulting operating costs for the claims and encounters of each hospital to a common point in time, December 31, 1996, using the DRI inflation factor and shall reduce the operating costs for the hospital by an audit adjustment factor based on available national data and Arizona historical experience in adjustments to Medicare reimbursable costs. The Administration shall further inflate operating costs to the midpoint of the rate year (March 31, 1999).
 - iii. Operating cost tier assignment. After calculating the operating costs, the Administration

Arizona Health Care Cost Containment System - Administration

- shall assign the claims and encounters used in the calculation to tiers based on diagnosis, procedure, or revenue codes, or NICU classification level, or a combination of these. For the NICU tier, the Administration shall further assign claims and encounters to NICU Level II or NICU Level III peer groups, based on the hospital's certification by the Arizona Perinatal Trust. For the Routine tier, the Administration shall further assign claims and encounters to the general acute care hospital or rehabilitation hospital peer groups, based on state licensure by the Department of Health Services. For claims and encounters assigned to more than one tier, the Administration shall allocate ancillary department costs to the tiers in the same proportion as the accommodation costs. Before calculating the rate for the operating component, the Administration shall identify and exclude any claims and encounters that are outliers as defined in subsection (6).
- iv. Operating rate calculation. The Administration shall set the rate for the operating component for each tier by dividing total statewide or peer group hospital costs identified in this subsection within the tier by the total number of AHCCCS inpatient hospital days of care reflected in the claim and encounter database for that tier.
 - b. Capital component. For rates effective October 1, 1999 the capital component is calculated as described in A.R.S. § 36-2903.01.
 - c. Statewide inpatient hospital cost-to-charge ratio. For dates of service prior to October 1, 2007, the statewide inpatient hospital cost-to-charge ratio is used for payment of outliers, as described in subsections (4), (5), and (6), and out-of-state hospitals, as described in R9-22-712(B). The Administration shall calculate the AHCCCS statewide inpatient hospital cost-to-charge ratio by using the Medicare Cost Report data and claim and encounter database described in subsection (1) and used to determine the tiered per diem rates. For each hospital, the covered inpatient days of care on the claims and encounters are multiplied by the corresponding accommodation costs per day from the Medicare Cost Report. Similarly, the covered ancillary department charges on the claims and encounters are multiplied by the ancillary department cost-to-charge ratios. The accommodation costs per day and the ancillary department cost-to-charge ratios for each hospital are determined in the same way described in subsection (2)(a) but include costs for operating and capital. The Administration shall then calculate the statewide inpatient hospital cost-to-charge ratio by summing the covered accommodation costs and ancillary department costs from the claims and encounters for all hospitals and dividing by the sum of the total covered charges for these services for all hospitals.
 - d. Unassigned tiered per diem rates. If a hospital has an insufficient number of claims to set a tiered per diem rate, the Administration shall pay that hospital the statewide average rate for that tier.
3. Tier assignment. The Administration shall assign AHCCCS inpatient hospital days of care to tiers based on information submitted on the inpatient hospital claim or encounter including diagnosis, procedure, or revenue codes, peer group, NICU classification level, or a combination of these.
 - a. Tier hierarchy. In assigning claims for AHCCCS inpatient hospital days of care to a tier, the Administration shall follow the Hierarchy for Tier Assignment through September 30, 2014 in R9-22-712.09. The Administration shall not pay a claim for inpatient hospital services unless the claim meets medical review criteria and the definition of a clean claim. The Administration shall not pay for a hospital stay on the basis of more than two tiers, regardless of the number of interim claims that are submitted by the hospital.
 - b. Tier exclusions. The Administration shall not assign to a tier or pay AHCCCS inpatient hospital days of care that do not occur during a period when the person is eligible. Except in the case of death, the Administration shall pay claims in which the day of admission and the day of discharge are the same, termed a same day admit and discharge, including same day transfers, as an outpatient hospital claim. The Administration shall pay same day admit and discharge claims that qualify for either the maternity or nursery tiers based on the lesser of the rate for the maternity or nursery tier, or the outpatient hospital fee schedule.
 - c. Seven tiers. The seven tiers are:
 - i. Maternity. The Administration shall identify the Maternity Tier by a primary diagnosis code. If a claim has an appropriate primary diagnosis, the Administration shall pay the AHCCCS inpatient hospital days of care on the claim at the maternity tiered per diem rate.
 - ii. NICU. The Administration shall identify the NICU Tier by a revenue code. A hospital does not qualify for the NICU tiered per diem rate unless the hospital is classified as either a NICU Level II or NICU Level III perinatal center by the Arizona Perinatal Trust. The Administration shall pay AHCCCS inpatient hospital days of care on the claim that meet the medical review criteria for the NICU tier and have a NICU revenue code at the NICU tiered per diem rate. The Administration shall pay any remaining AHCCCS inpatient hospital day on the claim that does not meet NICU Level II or NICU Level III medical review criteria at the nursery tiered per diem rate.
 - iii. ICU. The Administration shall identify the ICU Tier by a revenue code. The Administration shall pay AHCCCS inpatient hospital days of care on the claim that meets the medical review criteria for the ICU tier and has an ICU revenue code at the ICU tiered per diem rate. The Administration may classify any AHCCCS inpatient hospital days on the claim without an ICU revenue code, as surgery, psychiatric, or routine tiers.
 - iv. Surgery. The Administration shall identify the Surgery Tier by a revenue code and a valid surgical procedure code that is not on the AHCCCS excluded surgical procedure list. The excluded surgical procedure list identifies minor procedures such as sutures that do not require the same hospital resources as other

Arizona Health Care Cost Containment System - Administration

- procedures. The Administration shall only split a surgery tier with an ICU tier. AHCCCS shall pay at the surgery tier rate only when the surgery occurs on a date during which the member is eligible.
- v. Psychiatric. The Administration shall identify the Psychiatric Tier by either a psychiatric revenue code and a psychiatric diagnosis or any routine revenue code if all diagnosis codes on the claim are psychiatric. The Administration shall not split a claim with AHCCCS inpatient hospital days of care in the psychiatric tier with any tier other than the ICU tier.
 - vi. Nursery. The Administration shall identify the Nursery Tier by a revenue code. The Administration shall not split a claim with AHCCCS inpatient hospital days of care in the nursery tier with any tier other than the NICU tier.
 - vii. Routine. The Administration shall identify the Routine Tier by revenue codes. The routine tier includes AHCCCS inpatient hospital days of care that are not classified in another tier or paid under any other provision of this Section. The Administration shall not split the routine tier with any tier other than the ICU tier.
4. Annual update. The Administration shall annually update the inpatient hospital tiered per diem rates through September 30, 2011.
 5. New hospitals. For rates effective on and after October 1, 1998, the Administration shall pay new hospitals the statewide average rate for each tier, as appropriate. The Administration shall update new hospital tiered per diem rates through September 30, 2011.
 6. Outliers. The Administration shall reimburse hospitals for AHCCCS inpatient hospital days of care identified as outliers under this Section by multiplying the covered charges on a claim by the Medicare Urban or Rural Cost-to-Charge Ratio. The Urban cost-to-charge ratio will be used for hospitals located in a county of 500,000 residents or more. The Rural cost-to-charge ratio will be used for hospitals located in a county of fewer than 500,000 residents.
 - a. Outlier criteria. For rates effective on and after October 1, 1998, the Administration set the statewide outlier cost threshold for each tier at the greater of three standard deviations from the statewide mean operating cost per day within the tier, or two standard deviations from the statewide mean operating cost per day across all the tiers. If the covered costs per day on a claim exceed the urban or rural cost threshold for a tier, the claim is considered an outlier. Outliers will be paid by multiplying the covered charges by the applicable Medicare Urban or Rural CCR. The resulting amount will be the outlier payment. If there are two tiers on a claim, the Administration shall determine whether the claim is an outlier by using a weighted threshold for the two tiers. The weighted threshold is calculated by multiplying each tier rate by the number of AHCCCS inpatient hospital days of care for that tier and dividing the product by the total tier days for that hospital. Routine maternity stays shall be excluded from outlier reimbursement. A routine maternity is any one-day stay with a delivery of one or two babies. A routine maternity stay will be paid at tier.
 - b. Update. The CCR is updated annually by the Administration for dates of service beginning October 1, using the most current Medicare cost-to-charge ratios published or placed on display by CMS by August 31 of that year. The Administration shall update the outlier cost thresholds for each hospital through September 30, 2011 as described under A.R.S. § 36-2903.01. For inpatient hospital admissions with begin dates of service on and after October 1, 2011, AHCCCS will increase the outlier cost thresholds by 5% of the thresholds that were effective on September 30, 2011.
 - c. Medicare Cost-to-Charge Ratio Phase-In. AHCCCS shall phase in the use of the Medicare Urban or Rural Cost-to-Charge Ratios for outlier determination, calculation and payment. The three-year phase-in does not apply to out-of-state or new hospitals.
 - i. Medicare Cost-to-Charge Ratio Phase-In outlier determination and threshold calculation. For outlier claims with dates of service on or after October 1, 2007 through September 30, 2008, AHCCCS shall adjust each hospital specific inpatient cost-to-charge ratio in effect on September 30, 2007 by subtracting one-third of the difference between the hospital specific inpatient cost-to-charge ratio and the effective Medicare Urban or Rural Cost-to-Charge Ratio. For outlier claims with dates of service on or after October 1, 2008 through September 30, 2009, AHCCCS shall adjust each hospital specific inpatient cost-to-charge ratio in effect on September 30, 2007 by subtracting two-thirds of the difference between the hospital specific inpatient cost-to-charge ratio and the effective Medicare Urban or Rural Cost-to-Charge Ratio. The adjusted hospital specific inpatient cost-to-charge ratios shall be used for all calculations using the Medicare Urban or Rural Cost-to-Charge Ratios, including outlier determination, and threshold calculation.
 - ii. Medicare Cost-to-Charge Ratio Phase-In calculation for payment. For payment of outlier claims with dates of service on or after October 1, 2007 through September 30, 2008, AHCCCS shall adjust the statewide inpatient hospital cost-to-charge ratio in effect on September 30, 2007 by subtracting one-third of the difference between the statewide inpatient hospital cost-to-charge ratio and the effective Medicare urban or rural cost-to-charge ratio. For payment of outlier claims with dates of service on or after October 1, 2008 through September 30, 2009, AHCCCS shall adjust the statewide inpatient hospital cost-to-charge ratio in effect on September 30, 2007 by subtracting two-thirds of the difference between the statewide inpatient hospital cost-to-charge ratio and the effective Medicare urban or rural cost-to-charge ratio.
 - iii. Medicare Cost-to-Charge Ratio for outlier determination, threshold calculation, and payment. For outlier claims with dates of service on or after October 1, 2009, the full Medicare Urban or Rural Cost-to-Charge Ratios shall be utilized for all outlier calculations.

Arizona Health Care Cost Containment System - Administration

- d. Cost-to-Charge Ratio used for qualification and payment of outlier claims.
 - i. For qualification and payment of outlier claims with begin dates of service on or after April 1, 2011 through September 30, 2011, the CCR will be equal to 95% of the ratios in effect on October 1, 2010.
 - ii. For qualification and payment of outlier claims with begin dates of service on or after October 1, 2011, the CCR will be equal to 90.25% of the most recent published Urban or Rural Medicare CCR as described in subsection (6)(b).
 - iii. For qualification and payment of outlier claims with begin dates of service on or after October 1, 2011 through September 30, 2012, AHCCCS will reduce the cost-to-charge ratio determined under subsection (6)(d)(ii) for a hospital that filed a charge master with ADHS on or after April 1, 2011 by an additional percentage equal to the total percent increase reported on the charge master.
 - iv. Subject to approval by CMS, for qualification and payment of outlier claims with begin dates of service on or after October 1, 2012, AHCCCS will reduce the cost-to-charge ratio determined under subsection (6)(d)(ii) for a hospital that filed a charge master with ADHS on or after June 1, 2012 by an additional percentage equal to the total percent increase reported on the charge master.
7. Transplants. The Administration shall reimburse hospitals for an AHCCCS inpatient stay in which a covered transplant as described in R9-22-206 is performed through the terms of the relevant contract. If the Administration and a hospital that performs transplant surgery on an eligible person do not have a contract for the transplant surgery, the Administration shall not reimburse the hospital more than what would have been paid to the contracted hospital for that same surgery.
8. Ownership change. The Administration shall not change any of the components of a hospital's tiered per diem rates upon an ownership change.
9. Psychiatric hospitals. The Administration shall pay free-standing psychiatric hospitals an all-inclusive per diem rate based on the contracted rates used by the Department of Health Services.
10. Specialty facilities. The Administration may negotiate, at any time, reimbursement rates for inpatient specialty facilities or inpatient hospital services not otherwise addressed in this Section as provided by A.R.S. § 36-2903.01. For purposes of this subsection, "specialty facility" means a facility where the service provided is limited to a specific population, such as rehabilitative services for children.
11. Outliers for new hospitals. Outliers for new hospitals will be calculated using the Medicare Urban or Rural Cost-to-Charge Ratio times covered charges. If the resulting cost is equal to or above the cost threshold, the claim will be paid at the Medicare Urban or Rural Cost-to-Charge ratio.
12. Reductions to tiered per diem payment for inpatient hospital services. Inpatient hospital admissions with begin dates of service on or after October 1, 2011, shall be reimbursed at 95 percent of the tiered per diem rates in effect on September 30, 2011.

R9-22-712.05. Graduate Medical Education Fund Allocation

- A. Graduate medical education (GME) reimbursement as of September 30, 1997. Subject to legislative appropriation, the Administration shall make a distribution based on direct graduate medical education costs as described in A.R.S. § 36-2903.01(G)(9)(a).
- B. Subject to available funds and approval by CMS, the Administration shall annually distribute monies appropriated for the expansions of GME programs approved by the Administration to hospitals for direct program costs eligible for funding under A.R.S. § 36-2903.01(G)(9)(b). A GME program is deemed to be established as of the date of its original accreditation. All determinations that are necessary to make distributions described by this subsection shall be made using information possessed by the Administration as of the date of reporting under subsection (B)(3).
 1. Eligible health care facilities. A health care facility is eligible for distributions under subsection (B) if all of the following apply:
 - a. It is a hospital in Arizona that is the sponsoring institution of, or a participating institution in, one or more of the GME programs in Arizona;
 - b. It incurs direct costs for the training of residents in the GME programs, which costs are or will be reported on the hospital's Medicare Cost Report;
 - c. It is not administered by or does not receive its primary funding from an agency of the federal government.
 2. Eligible resident positions. For purposes of determining program allocation amounts under subsection (B)(4) the following resident positions are eligible for consideration to the extent that the resident training takes place in Arizona and not at a health care facility made ineligible under subsection (B)(1)(c):
 - a. Filled resident positions in approved programs established as of October 1, 1999 at hospitals that receive funding as described in A.R.S. § 36-2903.01(G)(9)(a) that are additional to the number of resident positions that were filled as of October 1, 1999; and
 - b. All filled resident positions in approved programs other than GME programs described in A.R.S. § 36-2903.01(G)(9)(a) that were established before July 1, 2006.
 3. Annual reporting. By April 1st of each year, each GME program and each hospital seeking a distribution under subsection (B) shall provide the applicable information listed in this subsection to the Administration:
 - a. A GME program shall provide all of the following:

Arizona Health Care Cost Containment System - Administration

- i. The program name and number assigned by the accrediting organization;
 - ii. The original date of accreditation;
 - iii. The names of the sponsoring institution and all participating institutions current as of the date of reporting;
 - iv. The number of approved resident positions and the number of filled resident positions current as of the date of reporting;
 - v. For programs established as of October 1, 1999, the number of resident positions that were filled as of October 1, 1999, if the program has not already provided this information to the Administration;
 - b. A hospital seeking a distribution under subsection (B) shall provide all of the following that apply:
 - i. If the hospital uses the Intern and Resident Information System (IRIS) for tracking and reporting its resident activity to the fiscal intermediary, copies of the IRIS master and assignment files for the hospital's two most recently completed Medicare cost reporting years as filed with the fiscal intermediary;
 - ii. If the hospital does not use the IRIS or has less than two cost reporting years available in the form of the IRIS master and assignment files, the information normally contained in the IRIS master and assignment files in an alternative format for the hospital's two most recently completed Medicare cost reporting years;
 - iii. At the request of the Administration, a copy of the hospital's Medicare Cost Report or any part of the report for the most recently completed cost reporting year.
4. Allocation of expansion funds. Annually the Administration shall allocate available funds to each approved GME program in the following manner:
- a. Information provided by hospitals under subsection (B)(3)(b) shall be used to determine the program in which each eligible resident is enrolled and the number of days that each eligible resident worked in any area of the hospital complex or in a non-hospital setting under agreement with the reporting hospital during the period of assignment to that hospital. For this purpose, the Administration shall use data relating to the most recent 12-month period that is common to all information provided under subsections (B)(3)(b)(i) and (ii).
 - b. The number of eligible residents allocated to each participating institution within each approved GME program shall be determined as follows:
 - i. Total the number of days determined for each participating institution under subsection (B)(4)(a) and divide each total by 365.
 - ii. Proportionally adjust the result of subsection (B)(4)(b)(i) for each participating institution within each program according to the number of residents determined to be eligible under subsection (B)(2).
 - c. The number of allocated eligible residents determined under subsection (B)(4)(b)(ii) shall be adjusted for Arizona Medicaid utilization using the most recent Medicare Cost Report information on file with the Administration as of the date of reporting under subsection (B)(3) and the Administration's inpatient hospital claims and encounter data for the time period corresponding to the Medicare Cost Report information for each hospital. The Administration shall use only those inpatient hospital claims paid by the Administration and encounters that were adjudicated by the Administration as of the date of reporting under subsection (B)(3). The Medicaid-adjusted eligible residents shall be determined as follows:
 - i. For each hospital, the total AHCCCS inpatient hospital days of care shall be divided by the total Medicare Cost Report inpatient hospital days, multiplied by 100 and rounded up to the nearest multiple of 5 percent.
 - ii. The number of allocated eligible residents determined for each participating hospital under subsection (B)(4)(b)(ii) shall be multiplied by the percentage derived under subsection (B)(4)(c)(i) for that hospital. The number of allocated eligible residents determined under subsection (B)(4)(b)(ii) for a participating institution that is not a hospital and not a health care facility made ineligible under subsection (B)(1)(c) shall be multiplied by the percentage derived under subsection (B)(4)(c)(i) for the program's sponsoring institution or, if the sponsoring institution is not a hospital, the sponsoring institution's affiliated hospital. The number of allocated eligible residents determined under subsection (B)(4)(b)(ii) for a participating institution that is made ineligible under subsection (B)(1)(c) shall be multiplied by zero percent.
 - d. The total allocation for each approved program shall be determined by multiplying the Medicaid-adjusted eligible residents determined under subsection (B)(4)(c)(ii) by the per resident conversion factor determined below and totaling the resulting dollar amounts for all participating institutions in the program. The per resident conversion factor shall be determined as follows:
 - i. Calculate the total direct GME costs from the most recent Medicare Cost Reports on file with the Administration for all hospitals that have reported such costs.
 - ii. Calculate the total allocated residents determined under subsection (B)(4)(b)(i) for those hospitals described under subsection (B)(4)(d)(i).
 - iii. Divide the total GME costs calculated under subsection (B)(4)(d)(i) by the total allocated residents calculated under subsection (B)(4)(d)(ii).
5. Distribution of expansion funds. On an annual basis subject to available funds, the Administration shall distribute the allocated amounts determined under subsection (B)(4) in the following manner:
- a. The allocated amounts shall be distributed in the following order of priority:
 - i. To eligible hospitals that do not receive funding in accordance with A.R.S. § 36-2903.01(G)(9)(a) for the direct costs of programs established before July 1, 2006;
 - ii. To eligible hospitals that receive funding in accordance with A.R.S. § 36-2903.01(G)(9)(a) for the direct costs of programs established before July 1, 2006;

Arizona Health Care Cost Containment System - Administration

- b. The allocated amounts shall be distributed to the eligible hospitals in each approved program in proportion to the number of Medicaid-adjusted eligible residents allocated to each hospital within that program under subsection (B)(4)(c)(ii).
 - c. If funds are insufficient to cover all distributions within any priority group described under subsection (B)(5)(a), the Administration shall adjust the distributions proportionally within that priority group.
- C. Subject to available funds and approval by CMS, the Administration shall annually distribute monies appropriated for the expansions of GME programs approved by the Administration to hospitals for direct program costs eligible for funding under A.R.S. § 36-2903.01(G)(9)(c)(i). A GME program is deemed to be established as of the date of its original accreditation. All determinations that are necessary to make distributions described by this subsection shall be made using information possessed by the Administration as of the date of reporting under subsection (C)(3).
 - 1. Eligible health care facilities. A health care facility is eligible for distributions under subsection (C) if it meets all the conditions of subsections (B)(1)(a) through (c).
 - 2. Eligible resident positions. For purposes of determining program allocation amounts under subsection (C)(4), the following resident positions are eligible for consideration to the extent that the resident training takes place in Arizona and not at a health care facility made ineligible under subsection (B)(1)(c):
 - a. All filled resident positions in approved programs established on or after July 1, 2006; and
 - b. For approved programs established on or after July 1, 2006 that have been established for less than one year as of the date of reporting under subsection (C)(3) and have not yet filled their first-year resident positions, all prospective residents reasonably expected by the program to be enrolled as a result of the most recently completed annual resident match.
 - 3. Annual reporting. By April 1st of each year, each GME program and each hospital seeking a distribution under subsection (C) shall provide to the Administration:
 - a. A GME program shall provide all of the following:
 - i. The requirements of subsections (B)(3)(a)(i) through (iv);
 - ii. The academic year rotation schedule on file with the program current as of the date of reporting; and
 - iii. For programs described under subsection (C)(2)(b), the number of residents expected to be enrolled as a result of the most recently completed annual resident match.
 - b. A hospital seeking a distribution under subsection (C) shall provide the requirements of subsection (B)(3)(b).
 - 4. Allocation of expansion funds. Annually the Administration shall allocate available funds to approved GME programs in the following manner:
 - a. Information provided by hospitals in accordance with subsection (B)(3)(b) shall be used to determine the program in which each eligible resident is enrolled and the number of days that each eligible resident worked in any area of the hospital complex or in a non-hospital setting under agreement with the reporting hospital during the period of assignment to that hospital. For this purpose, the Administration shall use data relating to the most recent 12-month period that is common to all information provided in accordance with subsections (B)(3)(b)(i) and (ii).
- b. For approved programs whose resident activity is not represented in the information provided in accordance with subsection (B)(3)(b), information provided by GME programs under subsection (C)(3)(a) shall be used to determine the number of days that each eligible resident is expected to work at each participating institution.
 - c. The number of eligible residents allocated to each participating institution for each approved GME program shall be determined by totaling the number of days determined under subsections (C)(4)(a) and (b) and dividing the totals by 365.
 - d. The number of allocated residents determined under subsection (C)(4)(c) shall be adjusted for Arizona Medicaid utilization in accordance with subsection (B)(4)(c).
 - e. The total allocation for each approved program shall be determined in accordance with subsection (B)(4)(d).
- 5. Distribution of expansion funds. On an annual basis subject to available funds, the Administration shall distribute the allocated amounts determined under subsection (C)(4) to the eligible hospitals in each approved program in proportion to the number of Medicaid-adjusted eligible residents allocated to each within that program under subsection (C)(4)(d).
- D. Subject to available funds and approval by CMS, the Administration shall annually distribute monies appropriated for GME programs approved by the Administration to hospitals for indirect program costs eligible for funding under A.R.S. § 36-2903.01(G)(9)(c)(ii). A GME program is deemed to be established as of the date of its original accreditation. All determinations that are necessary to make distributions described by this subsection shall be made using information possessed by the Administration as of the date of reporting under subsection (D)(3).
 - 1. Eligible health care facilities. A health care facility is eligible for distributions under subsection (D) if all of the following apply:
 - a. It is a hospital in Arizona that is the sponsoring institution of, or a participating institution in, one or more of the GME programs in Arizona or is the base hospital for one or more of the GME programs in Arizona whose sponsoring institutions are not hospitals;
 - b. It incurs indirect program costs for the training of residents in the GME programs, which are or will be calculated on the hospital's Medicare Cost Report or are reimbursable under the Children's Hospitals Graduate Medical Education Payment Program administered by HRSA;
 - c. It is not administered by or does not receive its primary funding from an agency of the federal government.
 - 2. Eligible resident positions. For purposes of determining program allocation amounts under subsection (D)(4) the following resident positions are eligible for consideration to the extent that the resident training takes place in Arizona and not at a health care facility made ineligible under subsection (D)(1)(c):
 - a. Any filled resident position in an approved program that includes a rotation of at least one month per year in a county other than Maricopa or Pima whose population was less than 500,000 persons at the time the

Arizona Health Care Cost Containment System - Administration

- residency rotation was added to the academic year rotation schedule;
- b. For approved programs that have been established for less than one year as of the date of reporting under subsection (D)(3) and have not yet filled their first-year resident positions, all prospective residents reasonably expected by the program to be enrolled as a result of the most recently completed annual resident match who will perform rotations of at least one month per year in a county other than Maricopa or Pima whose population was less than 500,000 persons at the time the residency rotation was added to the academic year rotation schedule.
3. Annual reporting. By April 1st of each year, each GME program and each hospital seeking a distribution under subsection (D) shall provide to the Administration:
 - a. A GME program shall provide all of the following:
 - i. The requirements of subsections (B)(3)(a)(i) through (iv);
 - ii. The academic year rotation schedule on file with the program current as of the date of reporting;
 - iii. For programs described under subsection (D)(2)(c), the number of residents expected to be enrolled as a result of the most recently completed annual resident match.
 - b. A hospital seeking a distribution under subsection (D) shall provide the requirements of subsection (B)(3)(b)(iii).
 4. Allocation of funds for indirect program costs. Annually the Administration shall allocate available funds to approved GME programs in the following manner:
 - a. Using the information provided by programs under subsection (D)(3), the Administration shall determine for each program the number of residents in the program who are eligible under subsection (D)(2) and the number of months per year that each eligible resident will perform rotations in counties described by subsection (D)(2), multiply the number of eligible residents by the number of months and multiply the result by the per resident per month conversion factor determined under subsection (D)(4)(b).
 - b. Using the most recent Medicare Cost Reports on file with the Administration for all hospitals that have calculated a Medicare indirect medical education payment, the Administration shall determine a per resident per month conversion factor as follows:
 - i. Calculate each hospital's Medicaid share by dividing the AHCCCS inpatient hospital days of care by the total inpatient hospital days from the Medicare Cost Report. For this purpose, the Administration shall use the information described by subsection (B)(4)(c) for adjusting allocated residents for Arizona Medicaid utilization.
 - ii. Calculate each hospital's Medicare share by dividing the Medicare inpatient days on the Medicare Cost Report by the total inpatient hospital days on the Medicare Cost Report.
 - iii. Divide the Medicaid share by the Medicare share and multiply the resulting ratio by the indirect medical education payment calculated on the Medicare Cost Report.
 - iv. Total the results for all hospitals, divide the result by the total allocated residents determined under subsection (B)(4)(b)(ii) for these hospitals, and divide that result by 12.
 5. Distribution of funds for indirect program costs. On an annual basis subject to available funds, the Administration shall distribute to each eligible hospital the amount calculated for the hospital at subsection (D)(4)(a).
- E. Reallocation of funds. If funds appropriated for subsection (B) are not allocated by the Administration and funds appropriated for subsections (C) and (D) are insufficient to cover all distributions under subsections (C)(5) and (D)(5), the funds not allocated under subsection (B) shall be allocated under subsections (C) and (D) to the extent of the calculated distributions. If funds are insufficient to cover all distributions under subsections (C)(5) and (D)(5), the Administration shall adjust the distributions proportionally. If funds appropriated for subsections (C) and (D) are not allocated by the Administration and funds appropriated for subsection (B) are insufficient to cover all distributions under subsection (B)(5), the funds not allocated under subsections (C) and (D) shall be allocated under subsection (B) to the extent of the calculated distributions.
 - F. The Administration may enter into intergovernmental agreements with local, county, and tribal governments wherein local, county and tribal governments may transfer funds or certify public expenditures to the Administration. Such funds or certification, subject to approval by CMS, will be used to qualify for additional federal funds. Those funds will be used for the purposes of reimbursing hospitals that are eligible under subsection (D)(1) and specified by the local, county, or tribal government for indirect program costs other than those reimbursed under subsection (D). The Administration shall allocate available funds in accordance with subsection (D) except that reimbursement with such funds is not limited to resident positions or rotations in counties with populations of less than 500,000 persons. On an annual basis subject to available funds, the Administration shall distribute to each eligible hospital the greatest among the following amounts, less any amounts distributed under subsection (D)(5):
 1. The amount that results from multiplying the total number of eligible residents allocated to the hospital under subsection (B)(4)(b)(ii) by 12 by the per resident per month conversion factor determined under subsection (D)(4)(b);
 2. The amount calculated for the hospital at subsection (D)(4)(b)(iii); or
 3. The median of all amounts calculated at subsection (D)(4)(b)(iii) if the hospital does not have an indirect medical education payment calculated on the Medicare Cost Report.

R9-22-712.06. Reserved**R9-22-712.07. Rural Hospital Inpatient Fund Allocation**

- A. For purposes of this Section, the following words and phrases have the following meanings unless the context specifically requires another meaning:
 1. "Calculated inpatient costs" means the sum of inpatient covered charges multiplied by the Milliman study's implied cost-to-charge ratio of .8959.
 2. "Claims paid amount" means the sum of all claims paid by the Administration and contractors, as reported by the

Arizona Health Care Cost Containment System - Administration

contractor to the Administration, to a rural hospital for covered inpatient services rendered for dates of service during the previous state fiscal year.

3. "Fund" means any state funds appropriated by the Legislature for the purposes set forth in A.R.S. § 36-2905.02 and any federal funds that are available for matching the state funds.
 4. "Inpatient covered charges" means the sum of all covered charges billed by a hospital to the Administration or contractors, as reported by the contractors to the Administration, for inpatient services rendered during the previous state fiscal year.
 5. "Milliman study" means the report issued by Milliman USA on March 11, 2004, to the Arizona Hospital and Healthcare Association that updated a portion of a cost study entitled "Evaluation of the AHCCCS Inpatient Hospital Reimbursement System" prepared by Milliman USA for AHCCCS on November 15, 2002. A copy of each report is on file with the Administration.
 6. "Rural hospital" means a health care institution that is licensed as an acute care hospital by the Arizona Department of Health Services for the previous state fiscal year and is not an IHS hospital or a tribally owned or operated facility and:
 - a. Has 100 or fewer PPS beds, not including beds reported as sub provider beds on the hospital's Medicare Cost Report, and is located in a county with a population of less than 500,000 persons, or
 - b. Is designated as a critical access hospital for the majority of the previous state fiscal year.
- B.** Each February, the Administration shall allocate the Fund to the following three pools for the fiscal year:
1. Rural hospitals with 25 or fewer PPS beds not including sub provider beds and all Critical Access Hospitals, regardless of the number of beds in the Critical Access Hospital;
 2. Rural hospitals other than Critical Access Hospitals with 26 to 75 PPS beds not including sub provider beds; and
 3. Rural hospitals other than Critical Access Hospitals with 76 to 100 PPS beds not including sub provider beds.
- C.** The Administration shall allocate the Fund to each pool according to the ratio of claims paid amount for all hospitals

assigned to the pool to total claims paid amount for all rural hospitals.

- D.** The Administration shall determine each hospital's claims paid amount and allocate the funds in each pool to each hospital in the pool based on the ratio of each hospital's claims paid amount to the sum of the claims paid amount for all hospitals assigned to the pool.
- E.** The Administration shall not make a Fund payment to a hospital that will result in the hospital's claims paid amount plus that hospital's Fund payment being greater than that hospital's calculated inpatient costs.
 1. If a hospital's claims paid amount plus the hospital's Fund payment would be greater than the hospital's calculated inpatient costs, the Administration shall make a Fund payment to the hospital equal to the difference between the hospital's calculated inpatient costs and the hospital's claims paid amount.
 2. The Administration shall reallocate any portion of a hospital's Fund allocation that is not paid to the hospital due to the reason in subsection (E)(1) to the other eligible hospitals in the pool based upon the ratio of the claims paid amount for each hospital remaining in the pool to the sum of the claims paid amount for each hospital remaining in the pool.
- F.** If funds remain in a pool after allocations to each hospital in the pool under subsections (D) and (E), the Administration shall reallocate the remaining funds to the other pools based upon the ratio of each pool's original allocation of the Fund as determined under subsection (C) to the sum of the remaining pools' original Fund allocations under subsection (C). The Administration shall allocate remaining funds to the hospitals in the remaining pools under subsection (D) and (E). See Exhibit 1 for an example.
- G.** Subject to CMS approval of the method and distribution of the Fund, the administration or its contractors will distribute the Fund as a lump sum allocation to the rural hospitals in either one or two installments by the end of each state fiscal year.

Exhibit 1. Pool Example

Pool A receives \$2,000,000. Pool B receives \$7,000,000. Pool C receives \$3,000,000.

If all of the funds in Pool B are paid to eligible hospitals and there is \$1,000,000 remaining, the remaining funds would be allocated to Pool A and Pool C based on the ratio of each pool's original allocation (original allocations of \$2,000,000 and \$3,000,000) to the total of their original allocation (\$2,000,000 + \$3,000,000 = \$5,000,000).

Pool A would receive 2/5 of the remaining funds (\$400,000) and Pool C would receive 3/5 of the remaining funds (\$600,000).

- A. To establish the AHCCCS Outpatient Capped Fee-for-service Schedule for all claims with a begin date of service on or before September 30, 2011, AHCCCS shall:
 1. Define the dataset of claims and encounters that shall be used to establish the AHCCCS Outpatient Capped Fee-for-service Schedule.
 2. Identify all the claims and encounters from non-IHS acute hospitals located in Arizona for services to be paid under the AHCCCS Outpatient Capped Fee-for-service Schedule.
 3. Match the revenue code on each detail of each claim and encounter to the ancillary line item CCR as reported on hospital-specific mapping documents and hospital-specific Medicare Cost Report for those hospitals that have submitted Medicare Cost Reports FYE 2002.
 4. Multiply the line item CCR from subsection (A)(3) by the covered billed charge for that revenue code to establish the cost for the service.
 5. Inflate the cost for the service from subsection (A)(4) using Global Insight Health-care Cost Review inflation factors from date of service month to the midpoint of the rate year in which the fees are initially effective.
 6. Include associated costs under R9-22-712.25 to calculate the rates for emergency room and surgery services.
 7. Combine data from all Arizona hospitals identified in subsection (A)(3) for each procedure code to establish the statewide median cost for each procedure.
 8. Group procedure codes according to the Ambulatory Payment Classification (APC) System groups as listed in 69 FR 65682, November 15, 2004, and establish a statewide median cost for each APC. Multiply each statewide median APC cost by 116 percent to establish the AHCCCS-based fee for each procedure in that specific APC group. AHCCCS shall assign each procedure in the group the same fee.
 9. For those procedure codes that are not grouped into any APC, establish a procedure-specific fee using either:
 - a. The AHCCCS Non-hospital Capped Fee-for-service Fee Schedule,
 - b. 116 percent of the procedure-specific median cost AHCCCS-based fee, or
 - c. The Medicare Clinical Laboratory Fee Schedule for laboratory services.
 10. Compare the AHCCCS-based fee established in subsections (A)(8) and (9) against the comparable Medicare fee established for the Medicare APC group as listed in the 69 FR 65682, November 15, 2004. The fee for each procedure shall be the greater of the AHCCCS-based fee or the Medicare fee but no more than 150 percent of the AHCCCS-based fee; however, for those laboratory services for which a limit is established in the Medicare Clinical Laboratory Fee Schedule, the fee shall not exceed that limit.

11. Assign the 2005 Medicare fee in the AHCCCS Outpatient Capped Fee-for-service Schedule for those procedures for which there are fewer than 20 occurrences of the procedure code in the dataset, either independently, or, if applicable, for all procedure codes within an APC Group.
- B. For all claims with a begin date of service on or after October 1, 2011, the AHCCCS Outpatient Capped Fee-for-Service Schedule shall be derived from the CMS Medicare Outpatient Prospective Payment System (OPPS) fee schedule modified by an Arizona conversion factor determined annually.
 1. When clinic services are billed using 51X revenue codes, the reimbursement to the hospital is the difference between the facility and non-facility rates payable to the practitioner for the procedures listed in the Administration's Capped Fee-for-service Schedule under R9-22-710.
 2. Observation services, when not billed in conjunction with a service for which a single payment is made under R9-22-712.25, are reimbursed at an hourly rate published in the Outpatient Capped Fee-for-service Schedule. This hourly rate includes reimbursement for associated services.
- C. The AHCCCS Outpatient Capped Fee-for-service Schedule including the effective date of any changes to the listing are on file and posted on AHCCCS' web site.

- B. For claims with a begin date of service on or before September 30, 2011, the statewide CCR shall be calculated based on the costs and covered charges associated with a service under subsection (A) for all Arizona hospitals, using the method specified in R9-22-712.20(A)(3).
- C. For all claims with a begin date of service on or after October 1, 2011, the statewide CCR calculation shall equal either the CMS Medicare Outpatient Urban Cost-to-charge Ratio or the CMS Medicare Outpatient Rural Cost-to-charge Ratio published by CMS for the state of Arizona. AHCCCS shall use the urban cost-to-charge ratio for hospitals located in a county of 500,000 residents or more and for out-of-state hospitals. AHCCCS shall use the rural cost-to-charge ratio for hospitals located in a county of fewer than 500,000 residents. On October 1st of each year, AHCCCS shall adjust urban and rural CCRs to the CCRs as published by CMS in the *Federal Register* on or before August 1st of that year.
- D. To determine the payment amount for procedures where a specific fee is not determined under R9-22-712.20, the statewide CCR is multiplied by the covered charges.

Outpatient hospital services not listed in the AHCCCS Outpatient Capped Fee-For-Service Schedule with dates of service on or after October 1, 2011, shall be reimbursed at 95 percent of the rate published by CMS pursuant to subsection (C) of this Section.

- D.** Hospitals with greater than 100 pediatric beds not receiving an increase under subsection (B) shall receive an 18 percent increase to the Outpatient Capped Fee-for-service Schedule (except for laboratory services, and out-of-state hospital services).
- E.** For outpatient services with dates of service from October 1, 2017 through September 30, 2018, the payment otherwise required for outpatient hospital services provided by qualifying hospitals shall be increased by a percentage established by the administration. The percentage is published on the Administration's public website as part of its fee schedule subsequent to the public notice published no later than September 1, 2017. To qualify, by May 15, 2017, the hospital must have executed an agreement with and electronically submitted laboratory, radiology, transcription, and medication information, plus admission, discharge, and transfer information (including data from the hospital emergency department), to a qualifying health information exchange organization.

R9-22-712.40. Outpatient Hospital Reimbursement: Annual and Periodic Update

- A.** Procedure codes. When procedure codes are issued by CMS and added to the Current Procedural Terminology published by the American Medical Association, AHCCCS shall add to the Outpatient Capped Fee-for-Service Schedule the new procedure codes for covered outpatient services and shall either assign the default CCR under R9-22-712.40(F)(2), the Medicare rate, or calculate an appropriate fee.
- B.** APC changes. AHCCCS may reassign procedure codes to new or different APC groups when APC groups are revised by CMS. AHCCCS may reassign procedure codes to a different APC group than Medicare. If AHCCCS determines that utilization of a procedure code within the Medicare program is substantially different from utilization of the procedure code in the AHCCCS program, AHCCCS may choose not to assign the procedure code to any APC group. For procedure codes not grouped into an APC by Medicare, AHCCCS may assign the code to an APC group when AHCCCS determines that the cost and resources associated with the non-assigned code are substantially similar to those in the APC group.
- C.** Annual update for Outpatient Hospital Fee Schedule. Beginning October 1, 2006, through September 30, 2011, AHCCCS shall adjust outpatient fee schedule rates:
1. Annually by multiplying the rates effective during the prior year by the Global Insight Prospective Hospital Market Basket Inflation Index; or
 2. In a particular year the director may substitute the increases in subsection (C)(1) by calculating the dollar value associated with the inflation index in subsection (C)(1), and applying the dollar value to adjust rates at varying levels.
- D.** Reductions to the Outpatient Capped Fee-For-Service Schedule. Claims paid using the Outpatient Capped Fee-For-Service Schedule with dates of service on or after October 1, 2011, shall be reimbursed at 95 percent of the rates in effect on September 30, 2011, subject to the annual adjustments to procedure codes and APCs under this Section.
- E.** Rebase. AHCCCS shall rebase the outpatient fees every five years.
- F.** Statewide CCR:
1. For begin dates of service on or before September 30, 2011, the statewide CCR calculated in R9-22-712.30 shall be recalculated at the time of rebasing. When rebasing, AHCCCS may recalculate the statewide CCR based on the costs and charges for services excluded from the outpatient hospital fee schedule.
 2. For begin dates of service on or after October 1, 2011, the statewide CCR shall be set under R9-22-712.30(C).
- G.** Other Updates. In addition to the other updates provided for in this section, the Administration may adjust the Outpatient Capped Fee-For-Service Fee Schedule and the Statewide CCR to the extent necessary to assure that payments are consistent with efficiency, economy, and quality of care and are sufficient

Arizona Health Care Cost Containment System - Administration

to enlist enough providers so that care and services are available at least to the extent that such care and services are available to the general population in the geographic area.

R9-22-712.45. Outpatient Hospital Reimbursement: Outpatient Payment Restrictions

- A. AHCCCS shall not reimburse hospitals for emergency room treatment, observation hours, or other outpatient hospital services performed on an outpatient basis if the member is admitted as an inpatient to the same hospital directly from the emergency room, observation, or other outpatient department.
- B. AHCCCS shall include payment for the emergency room, observation, and other outpatient hospital services provided to the member before the hospital admission in the AHCCCS Inpatient Tiered Per Diem Capped Fee-For-Service Schedule under Article 7 of this Chapter.
- C. Same day admit and discharge.
 1. For discharges before September 30, 2014. Same day admit and discharge claims that qualify for either the maternity or nursery tiers shall be paid based on the lesser of the rate for the maternity or nursery tier, or the outpatient hospital fee schedule.
 2. For discharge dates on and after October 1, 2014. Same day admit and discharge claims are paid for through the outpatient fee schedule.

R9-22-712.60. Diagnosis Related Group Payments

- A. Inpatient hospital services with discharge dates on or after October 1, 2014, shall be reimbursed using the diagnosis related group (DRG) payment methodology described in this section and sections R9-22-712.61 through R9-22-712.81.
- B. Payments made using the DRG methodology shall be the sole reimbursement to the hospital for all inpatient hospital services and related supplies provided by the hospital. Services provided in the emergency room, observation area, or other outpatient departments that are directly followed by an inpatient admission to the same hospital are not reimbursed separately. Are reimbursed through the DRG methodology and not reimbursed separately.
- C. Each claim for an inpatient hospital stay shall be assigned a DRG code and a DRG relative weight based on version 31 of the All Patient Refined Diagnosis Related Group (APR-DRG) classification system established by 3M Health Information Systems. If version 31 of the APR-DRG classification system will no longer support assigning DRG codes and relative weights to claims, and 3M Health Information Systems issues a newer version of the APR-DRG classification system using updated DRG codes and/or updated relative weights, then an updated version established by 3M Health Information Systems will be used; however, if the version employs updated relative weights, those weights will be adjusted using a single adjustment factor applied to all relative weights to ensure that the statewide weighted average of the updated relative weights does not increase or decrease from the statewide weighted average of the relative weights used under version 31.
- D. Payments for inpatient hospital services reimbursed using the DRG payment methodology are subject to quick pay discounts and slow pay penalties under A.R.S. 36-2904.
- E. Payments for inpatient hospital services reimbursed using the DRG payment methodology are subject to the Urban Hospital Reimbursement Program under R9-22-718.
- F. For purposes of this section and sections R9-22-712.61 through R9-22-712.81:
 1. "DRG National Average length of stay" means the national arithmetic mean length of stay published in version 31 of the All Patient Refined Diagnosis Related Group (APR-DRG) classification established by 3M Health Information Systems.
 2. "Length of stay" means the total number of calendar days of an inpatient stay beginning with the date of admission through discharge, but not including the date of discharge (including the date of a discharge to another hospital, i.e., a transfer) unless the member expires.
 3. "Medicare" means Title XVIII of the Social Security Act, 42 U.S.C. 1395 *et seq.*

Arizona Health Care Cost Containment System - Administration

4. "Medicare labor share" means a hospital's labor costs as a percentage of its total costs as determined by CMS for purposes of the Medicare Inpatient Prospective Payment System.

R9-22-712.61. DRG Payments: Exceptions

- A. Notwithstanding section R9-22-712.60, claims for inpatient services from the following hospitals shall be paid on a per diem basis, including provisions for outlier payments, where rates and outlier thresholds are included in the capped fee schedule published by the Administration on its website and available for inspection during normal business hours at 701 E. Jefferson, Phoenix, Arizona. If the covered costs per day on a claim exceed the published threshold for a day, the claim is considered an outlier. Outliers will be paid by multiplying the covered charges by the outlier CCR. The outlier CCR will be the sum of the urban or rural default operating CCR appropriate to the location of the hospital and the statewide capital cost-to-charge ratio in the data file established as part of the Medicare Inpatient Prospective Payment System by CMS. The resulting amount will be the total reimbursement for the claim. There is no provision for outlier payments for hospitals described under subsection (A)(3).

1. Hospitals designated as type: hospital, subtype; rehabilitation in the Provider & Facility Database for Arizona Medical Facilities posted by the Arizona Department of Health Services Division of Licensing Services on its website in March of each year;
2. Hospitals designated as type: hospital, subtype: long term in the Provider & Facility Database for Arizona Medical Facilities posted by the Arizona Department of Health Services Division of Licensing Services on its website for March of each year;
3. Hospitals designated as type: hospital, subtype; psychiatric in the Provider & Facility Database for Arizona Medical Facilities posted by the Arizona Department of Health Services Division of Licensing Services on its website for March of each year;

- B. Notwithstanding section R9-22-712.60, claims for inpatient services that are covered by a RBHA or TRBHA, where the principal diagnosis on the claim is a behavioral health diagnosis, shall be reimbursed as prescribed by a per diem rate described by a fee schedule established by the Administration; however, if the principal diagnosis is a physical health diagnosis, the claim shall be processed under the DRG methodology described in this section, even if behavioral health services are provided during the inpatient stay.
- C. Notwithstanding section R9-22-712.60, claims for services associated with transplant services shall be paid in accordance with the contract between the AHCCCS administration and the transplant facility.
- D. Notwithstanding section R9-22-712.60, claims from an IHS facility or 638 Tribal provider shall be paid the all-inclusive rate on a per visit basis in accordance with the rates published annually by IHS in the federal register.
- E. For hospitals that have contracts with the Administration for the provision of transplant services, inpatient days associated with transplant services are paid in accordance with the terms of the contract.
- F. For inpatient services with a date of admission from January 1, 2018 through September 30, 2018, provided by a hospital in

subsection (A) that qualifies, the administration shall pay the hospital an Inpatient VBP Differential Adjusted Payment equal to the sum of the payment otherwise provided for in subsection (A) plus the product of the amount otherwise provided for in subsection (A) and a percentage published on the Administration's public website as part of its fee schedule, subsequent to a public notice published no later than December 1, 2017. To qualify for the Inpatient VBP Differential Adjusted Payment, the exempt hospital must have:

1. Executed an agreement with a qualifying health information exchange by May 15, 2017;
2. Been determined by a qualifying health information exchange organization, based on a readiness review conducted by the organization, capable of connecting with the exchange by October 1, 2017; and
3. Electronically submitted admission, discharge, and transfer information to a qualifying health information exchange organization by October 1, 2017, including information from the emergency department if the hospital operates an emergency department.

R9-22-712.62. DRG Base Payment

- A. The initial DRG base payment is the product of the DRG base rate, the DRG relative weight for the post-HCAC DRG code assigned to the claim, and any applicable provider and service policy adjusters.
- B. The DRG base rate for each hospital is the statewide standardized amount of which the hospital's labor-related share of that amount is adjusted by the hospital's wage index, where the standardized amount is \$5,295.40, and the hospital's labor share and the hospital's wage index are those used in the Medicare inpatient prospective payment system for the fiscal year beginning October 1, 2013.
- C. Claims shall be assigned both a DRG code derived from all diagnosis and surgical procedure codes included on the claim (the "pre-HCAC" DRG code) and a DRG code derived excluding diagnosis and surgical procedure codes associated with the health care acquired conditions that were not present on admission or any other provider-preventable conditions (the "post-HCAC" DRG code). The DRG code with the lower relative weight shall be used to process claims using the DRG methodology.

R9-22-712.63. DRG Base Payments Not Based on the Statewide Standardized Amount

Notwithstanding section R9-22-712.62, the amount of \$3,436.08 shall be used in place of the statewide standardized amount in subsection R9-22-712.62(B) to calculate the DRG base rate for the following hospitals:

1. Hospitals located in a city with a population greater than one million, which on average have at least 15 percent of inpatient days for patients who reside outside of Arizona, and at least 50 percent of discharges as reported on the 2011 Medicare Cost Report are reimbursed by Medicare.
2. Hospitals designated as type: hospital, subtype: short-term that has a license number beginning "SH" in the Provider & Facility Database for Arizona Medical Facilities.

R9-22-712.64. DRG Base Payments and Outlier CCR for Out-of-State Hospitals**A. DRG Base payment:**

1. For high volume out-of-state hospitals defined in subsection (C), the wage adjusted DRG base payment is determined as described in R9-22-712.62.
2. Notwithstanding subsection R9-22-712.62 the wage adjusted DRG base rate for out-of-state hospitals that are not high volume hospitals shall be \$5,184.75.

B. Outlier CCR:

1. Notwithstanding subsection R9-22-712.68, the CCR used for the outlier calculation for out-of-state hospitals that are not high volume hospitals shall be the sum of the statewide urban default operating cost-to-charge ratio and the statewide capital CCR in the data file established as part of the Medicare Inpatient Prospective Payment System by CMS.
2. The CCR used for the outlier calculation for high volume out-of-state hospitals is the same as in-state hospitals as described in R9-22-712.68.

C. A high volume out-of-state hospital is a hospital not otherwise excluded under R9-22-712.61, that is located in a county that borders the State of Arizona and had 500 or more AHCCCS covered inpatient days for the fiscal year beginning October 1, 2010.**D. Other than as required by this section, DRG reimbursement for out-of-state hospitals is determined under R9-22-712.60 through R9-22-712.81.****Historical Note**

New Section made by final rulemaking at 20 A.A.R. 1956, September 6, 2014 (Supp. 14-3).

R9-22-712.65. DRG Provider Policy Adjustor**A. After calculating the DRG base payment as required in sections R9-22-712.62, R9-22-712.63, or R9-22-712.64, for claims from a high-utilization hospital, the product of the DRG base rate and the DRG relative weight for the post-HCAC DRG code shall be multiplied by a provider policy adjustor of 1.055.****B. A hospital is a high-utilization hospital if the hospital had:**

1. At least 46,112 AHCCCS-covered inpatient days using adjudicated claim and encounter data during the fiscal year beginning October 1, 2010, which is equal to at least four hundred percent of the statewide average number of AHCCCS-covered inpatient days at all hospitals of 11,528 days; and,
2. A Medicaid inpatient utilization rate greater than 30% calculated as the ratio of AHCCCS-covered inpatient days to total inpatient days as reported in the hospital's Medicare Cost Report for the fiscal year ending 2011.

Historical Note

New Section made by final rulemaking at 20 A.A.R. 1956, September 6, 2014 (Supp. 14-3).

R9-22-712.66. DRG Service Policy Adjustor

In addition to subsection R9-22-712.65, for claims with DRG codes in the following categories, the product of the DRG base rate, the DRG relative weight for the post-HCAC DRG code, and the DRG provider policy adjustor shall be multiplied by the following service policy adjustors:

1. Normal newborn DRG codes: 1.55
2. Neonates DRG codes: 1.10
3. Obstetrics DRG codes: 1.55
4. Psychiatric DRG codes: 1.65
5. Rehabilitation DRG codes: 1.65
6. Claims for members under age 19 assigned DRG codes other than listed above:
 - a. 1.25 for dates of discharge occurring on or after October 1, 2014 and ending no later than December 31, 2015 regardless of severity of illness level,
 - b. 1.25 for dates of discharge on or after January 1, 2016 for severity of illness levels 1 and 2,
 - c. 1.60 for dates of discharge on or after January 1, 2016 for severity of illness levels 3 and 4.

Historical Note

New Section made by final rulemaking at 20 A.A.R. 1956, September 6, 2014 (Supp. 14-3). Amended by final rulemaking at 22 A.A.R. 2187, effective October 1, 2016 (Supp. 16-4).

R9-22-712.67. DRG Reimbursement: Transfers

- A.** For purposes of this Section a "transfer" means the transfer of a member from a hospital to a short-term general hospital for inpatient care, a designated cancer center, children's hospital, or a critical access hospital except when a member is moved for the purpose of receiving sub-acute services.
- B.** Designated cancer center or children's hospitals are those hospitals identified as such in the UB-04 billing manual published by the National Uniform Billing Committee.
- C.** The hospital the member is transferred from shall be reimbursed either the initial DRG base payment or the transfer DRG base payment, whichever is less.
- D.** The transfer DRG base payment is an amount equal to the initial DRG base payment, as determined after making any provider or service policy adjustors, divided by the DRG National Average length of stay for the DRG code multiplied by the sum of one plus the length of stay.
- E.** The hospital the member is transferred to shall be reimbursed under the DRG payment methodology without a reduction due to the transfer.
- F.** Unadjusted DRG base payment. The unadjusted DRG base payment is either the initial DRG base payment, as determined after making any provider or service policy adjustors, or the transfer DRG base payment, whichever is less.

Historical Note

New Section made by final rulemaking at 20 A.A.R. 1956, September 6, 2014 (Supp. 14-3). Amended by final rulemaking at 22 A.A.R. 2187, effective October 1, 2016 (Supp. 16-4).

R9-22-712.68. DRG Reimbursement: Unadjusted Outlier Add-on Payment

- A.** Claims for inpatient hospital services qualify for an outlier add-on payment if the claim cost exceeds the outlier cost threshold.
- B.** The claim cost is determined by multiplying covered charges by an outlier CCR as described by the following subsections:
 1. For hospitals designated as type: hospital, subtype: children's in the Provider & Facility Database for Arizona Medical Facilities posted by the ADHS Division of Licensing Services on its website for March of each year. The outlier CCR will be calculated by dividing the hospital total costs by the total charges using the most recent Medicare Cost Report available as of September 1 of that year.

Arizona Health Care Cost Containment System - Administration

2. For Critical Access Hospitals the outlier CCR will be the sum of the statewide rural default operating cost-to-charge ratio and the statewide capital cost-to-charge ratio in the data file established as part of the Medicare Inpatient Prospective Payment System by CMS.
3. For all other hospitals the outlier CCR will be the sum of the operating cost-to-charge ratio and the capital cost-to-charge ratio established for each hospital in the impact file established as part of the Medicare Inpatient Prospective Payment System by CMS.

- C. AHCCCS shall update the CCRs described in subsection (B) to conform to the most recent CCRs established by CMS as of September 1 of each year, and the CCRs so updated shall be used For claims with dates of discharge on or after October 1 of that year.
- D. The outlier threshold is equal to the sum of the unadjusted DRG base payment plus the fixed loss amount. The fixed loss amount is \$5,000 for critical access hospitals and \$65,000 for all other hospitals.
- E. For those inpatient hospital claims that qualify for an outlier add-on payment, the payment is calculated by subtracting the outlier threshold from the claim cost and multiplying the result by the DRG marginal cost percentage. The DRG marginal cost percentage is 90% for claims assigned DRG codes associated with the treatment of burns and 80% for all other claims.

1956, September 6, 2014 (Supp. 14-3).

R9-22-712.69. DRG Reimbursement: Covered Day Adjusted DRG Base Payment and Covered Day Adjusted Outlier Add-on Payment

Adjustments to the payments are made to account for days not covered by AHCCCS as follows:

1. A covered day reduction factor unadjusted is determined if the member is not eligible on the first day of the inpatient stay but is eligible for subsequent days during the inpatient stay. In this case, a covered day reduction factor unadjusted is calculated by dividing the number of AHCCCS covered days by the DRG National Average length of stay. The number of AHCCCS covered days is equal to the number of days the member is eligible during the inpatient stay.
2. A covered day reduction factor unadjusted is also determined if the member is eligible on the first day of the inpatient stay but is determined ineligible for one or more days prior to the date of discharge. In this case, a covered day reduction factor unadjusted is calculated by adding one to the number of AHCCCS covered days and dividing the result by the DRG National Average length of stay. The number of AHCCCS covered days is equal to the number of days the member is eligible during the inpatient stay.
3. If the covered day reduction factor unadjusted is greater than one, then the covered day reduction factor final is one; otherwise, the covered day reduction factor final is equal to the covered day reduction factor unadjusted.
4. The covered day adjusted DRG base payment is an amount equal to the product of the unadjusted DRG base payment and the covered day reduction factor final.
5. The covered day adjusted DRG outlier add-on payment is an amount equal to the product of the unadjusted DRG outlier add-on payment and the covered day reduction factor final.

Historical Note

1956, September 6, 2014 (Supp. 14-3).

R9-22-712.70. Covered Day Adjusted DRG Base Payment and Covered Day Adjusted Outlier Add-on Payment for FES members

In addition to the covered day reduction factor in R9-22-712.69, a covered day reduction factor unadjusted is determined for an inpatient stay during which an FES member receives services for the treatment of an emergency medical condition and also receives services once the condition no longer meets the criteria as an emergency medical condition described in R9-22-217.

1. A covered day reduction factor unadjusted is calculated by adding one to the AHCCCS covered days and dividing the result by the DRG National Average length of stay. The number of AHCCCS covered days is equal to the number of inpatient days during which an FES member receives services for an emergency medical condition as described in R9-22-217. For purposes of this adjustment, any portion of a day during which the FES member receives treatment for an emergency medical condition is counted as an AHCCCS covered day.
2. If the covered day reduction factor unadjusted is greater than one, then the covered day reduction factor final is one; otherwise, the covered day reduction factor final is equal to the covered day reduction factor unadjusted.
3. The covered day adjusted DRG base payment is an amount equal to the product of the unadjusted DRG base payment and the covered day reduction factor final.
4. The covered day adjusted DRG outlier add-on payment is an amount equal to the product of the unadjusted DRG outlier add-on payment and the covered day reduction factor final.

Historical Note

New Section made by final rulemaking at 20 A.A.R.

R9-22-712.71. Final DRG Payment

The final DRG payment is the sum of the final DRG base payment, the final DRG outlier add-on payment, and the Inpatient Value Based Purchasing (VBP) Differential Adjusted Payment.

1. The final DRG base payment is an amount equal to the product of the covered day adjusted DRG base payment and a hospital-specific factor established to limit the financial impact to individual hospitals of the transition from the tiered per diem payment methodology and to account for improvements in documentation and coding that are expected as a result of the transition.
2. The final DRG outlier add-on payment is an amount equal to the product of the covered day adjusted DRG outlier add-on payment and a hospital-specific factor established to limit the financial impact to individual hospitals of the transition from the tiered per diem payment methodology and to account for improvements in documentation and coding that are expected as a result of the transition.
3. The factor for each hospital and for each federal fiscal year is published as part of the AHCCCS capped fee schedule and is available on the AHCCCS administration's website and is on file for public inspection at the AHCCCS administration located at 701 E. Jefferson Street, Phoenix, Arizona.
4. For inpatient services with a date of discharge from October 1, 2017 through September 30, 2018, the Inpatient VBP Differential Adjusted Payment is the sum of the final DRG base payment and the final DRG outlier add-

on payment multiplied by a percentage published on the Administration's public website as part of its fee schedule, subsequent to the public notice published no later than September 1, 2017. To qualify for the Inpatient VBP Differential Adjusted Payment, a hospital providing inpatient hospital services must by May 15, 2017, have executed an agreement with a qualifying health information exchange organization and electronically submitted laboratory, radiology, transcription, and medication information, plus admission, discharge, and transfer information (including data from the hospital emergency department), to a qualifying health information exchange organization.

R9-22-712.72. DRG Reimbursement: Enrollment Changes During an Inpatient Stay

- A. If a member's enrollment changes during an inpatient stay, including changing enrollment from fee-for-service to a contractor, or vice versa, or changing from one contractor to another contractor, the contractor with whom the member is enrolled on the date of discharge shall be responsible for reimbursing the hospital for the entire length of stay under the DRG payment rules in sections R9-22-712.60 through R9-22-712.81. If the member is eligible but not enrolled with a contractor on the date of discharge, then the AHCCCS administration shall be responsible for reimbursing the hospital for the entire length of stay under the DRG payment rules in sections R9-22-712.60 through R9-22-712.81.
- B. When a member's enrollment changes during an inpatient stay, the hospital shall use the date of enrollment with the payer responsible on the date of discharge as the "from" date of service on the claim regardless of the date of admission. The claim may include all surgical procedures performed during the entire inpatient stay, but the hospital shall only include revenue codes, service units, and charges for services performed on or after the date of enrollment.
- C. Interim claims submitted to a payer other than the payer responsible on the day of discharge shall be processed in the same manner as other interim claims as described in R9-22-712.76.

 - b. For hospitals not included in that CMS HCRIS report, the "as filed" Medicare Cost Report for the hospital fiscal year ending in calendar year 2011 submitted by the hospital to the Administration.
 2. "2011 Uniform Accounting Report" means the Uniform Accounting Report submitted to the Arizona Department of Health Services as of December 19, 2012.
 3. "2012 Uniform Accounting Report" means the Uniform Accounting Report submitted to the Arizona Department of Health Services as of August 2, 2013.

- B.** Beginning January 1, 2014, each Arizona licensed hospital not excluded under subsection (I) shall be subject to an assessment payable on a quarterly basis. The assessment shall be levied against the legal owner of each hospital as of the first day of the quarter, and except as otherwise required by subsections (D), (E) and (F). For the period beginning July 1, 2017, the assessment shall be calculated by multiplying the number of discharges reported on the hospital's 2011 Medicare Cost Report, excluding discharges reported on the Medicare Cost Report as "Other Long Term Care Discharges" by the following rates based on the hospital's peer group:
1. \$483.00 per discharge for hospitals located in a county with a population less than 500,000 that are designated as type: hospital, subtype: short-term.
 2. \$483.00 per discharge for hospitals designated as type: hospital, subtype: critical access hospital.
 3. \$120.75 per discharge for hospitals designated as type: hospital, subtype: long term.

 7. \$483.00 per discharge for hospitals designated as type: hospital, subtype: short-term not included in another peer group.
- C.** Peer groups for the four quarters beginning July 1 of each year are established based on hospital license type and subtype designated in the Provider & Facility Database for Arizona Medical Facilities posted by the Arizona Department of Health Services Division of Licensing Services on its website April 1, 2017.
- D.** Notwithstanding subsection (B), psychiatric discharges from a hospital that reported having a psychiatric sub-provider in the hospital's 2011 Medicare Cost Report, are assessed a rate of \$120.75 for each discharge from the psychiatric sub-provider as reported in the 2011 Medicare Cost Report. All discharges other than those reported as discharges from the psychiatric sub-provider are assessed at the rate required by subsection (B).
- E.** Notwithstanding subsection (B), rehabilitative discharges from a hospital that reported having a rehabilitative sub-provider in the hospital's 2011 Medicare Cost Report, are assessed a rate of \$0 for each discharge from the rehabilitative sub-provider as reported in the 2011 Medicare Cost Report. All discharges other than those reported as discharges from the rehabilitative sub-provider are assessed at the rate required by subsection (B).
- F.** Notwithstanding subsection (B), for any hospital that reported more than 28,200 discharges on the hospital's 2011 Medicare Cost Report, discharges in excess of 28,200 are assessed a rate of \$48.25 for each discharge in excess of 28,200. The initial 28,200 discharges are assessed at the rate required by subsection (B).
- G.** Assessment notice. On or before the 15th day of the first month of the quarter or upon CMS approval, whichever is later, the Administration shall send to each hospital a notification that the assessment invoice is available to be viewed on a secure website. The invoice shall include the hospital's peer group assignment and the assessment due for the quarter.
- H.** Assessment due date. The assessment must be received by the Administration no later than:
1. The 15th day of the second month of the quarter or
 2. In the event CMS approves the assessment after the 15th day of the first month of the quarter, 30 days after notification by the Administration that the assessment invoice is available.
- I.** Excluded hospitals. The following hospitals are excluded from the assessment based on the hospital's 2011 Medicare Cost Report and Provider & Facility Database for Arizona Medical Facilities posted by the Arizona Department of Health Services Division of Licensing Services on its website for April 1, 2017:
1. Hospitals owned and operated by the state, the United States, or an Indian tribe.
 2. Hospitals designated as type: hospital, subtype: short-term that have a license number beginning "SH".

- J.** New hospitals. For hospitals that did not file a 2011 Medicare Cost Report because of the date the hospital began operations:

Arizona Health Care Cost Containment System - Administration

1. If the hospital was open on the April 1 preceding the July assessment start date, the hospital assessment will begin on July 1 following the date the hospital began operating.
2. If the hospital began operating between April 2 and June 30, the assessment will begin on July 1 of the following calendar year.
3. A hospital is not considered a new hospital based on a change in ownership.
4. Until the first full year of data is available, the assessment will be based on the annualized number of discharges from the date hospital operations began through April 30 preceding the July assessment start date. The hospital shall submit the discharge data and all other data requested by the Administration necessary to determine the appropriate assessment to the Administration no later than May 15 preceding the assessment start date for the new hospitals. Thereafter, the assessment will be based on the discharges reported in the hospital's first Medicare Cost Report and Uniform Accounting Report which includes 12 months worth of data; however, when a new hospital shares a Medicare Identification Number with an existing hospital, the assessment amount will be based on self reported data from the new hospital instead of the Medicare Cost Report. The data shall include the number of discharges and all other data requested by the Administration necessary to determine the appropriate assessment. No later than August 15, 2017, new hospitals shall also submit to the Administration discharge data and all other data requested by the Administration necessary to determine the appropriate assessment beginning July 1, 2018.
5. For hospitals providing self-reported data:
 - a. Psychiatric discharges will be annualized to determine if subsections (B)(4) or (I)(3) apply to the assessment amount.
 - b. Discharges will be annualized to determine if subsection (F) applies to the assessment amount.
- K. Changes of ownership. The parties to a change of ownership shall promptly provide written notice to the Administration of a change of ownership and any agreement regarding the payment of the assessment. The assessed amount will continue at the same amount applied to the prior owner. Assessments are the responsibility of the owner of record as of the first day of the quarter; however, this rule is not intended to prohibit the parties to a change of ownership from entering into an agreement for a new owner to assume the assessment responsibility of the owner of record as of the first day of the prior quarter.
- L. Hospital closures. Hospitals that close shall pay a proportion of the quarterly assessment equal to that portion of the quarter during which the hospital operated.
- M. Required information. For any hospital that has not filed a 2011 Medicare Cost report, or if the 2011 Medicare Cost report does not include the reliable information sufficient for the Administration to calculate the assessment, the Administration shall use data reported on the 2011 Uniform Accounting Report filed by the hospital in place of the 2011 Medicare Cost report to calculate the assessment. If the 2011 Uniform Accounting Report filed by the hospital does not include reliable information sufficient for the Administration to calculate the assessment amounts, the hospital shall provide the Administration with data specified by the Administration necessary in place of the 2011 Medicare Cost report to calculate the assessment.
- N. The Administration will review and update as necessary rates and peer groups periodically to ensure the assessment is suffi-

cient to fund the state match obligation to cover the cost of the populations as specified in A.R.S. § 36-2901.08.

- O. Enforcement. If a hospital does not comply with this section, the director may suspend or revoke the hospital's provider agreement. If the hospital does not comply within 180 days after the hospital's provider agreement is suspended or revoked, the director shall notify the director of the Department of Health Services who shall suspend or revoke the hospital's license.

If more than one person in the household is responsible for and billed for the care of a dependent child, the disregard may be split between the wage earners if splitting the disregard is to the benefit of the family, but shall not exceed the maximum disregards as follows:
 - a. A maximum of \$200 for a child under age two and \$175 for other dependents for a wage-earner employed full-time (86 or more hours per month); and

 3. Add the remaining earned income for each MED family member to the unearned income of all MED family members;
 4. Compare the MED family's unit countable income amount to the income standard in subsection (B). The difference is the amount of medical expenses the family shall incur during the medical expense deduction period to become eligible;
 5. Subtract allowable medical expense deductions that were incurred by:
 - a. A member of the MED family unit;
 - b. A deceased spouse or minor child of a MED family unit if this person would have been a member of the MED unit during the MED expense deduction period;

 2. Jointly owned resources with ownership records containing the word "or" between the owners' names are presumed to be available in full to each owner. The applicant or member may rebut the presumption by providing clear and convincing evidence of intent to establish a different type of ownership. If the presumption is rebutted, the resource is available to the owners:
 - a. Consistent with the intent of the owners, or

 2. A resource being disputed in a divorce proceeding or probate matter;

 - c. The assessor's full cash value if subsections (E)(2)(a) and (E)(2)(b) do not apply, and
 - d. The market value of a non-liquid resource that is not real property;
3. Not assign an equity value to a resource that is less than zero; and
 4. Determine the MED family unit's resources by adding the totals determined in subsections (1) and (2).

In addition to definitions contained in R9-22-101 and A.R.S. § 36-2901, the words and phrases in this Article have the following meanings unless the context explicitly requires another meaning: "Qualified hospital" means a hospital that has signed an agreement with the Administration to process HPE applications and has not been disqualified.
- C.** Application Process:
1. Right to apply. A person may apply for presumptive eligibility for AHCCCS medical coverage by submitting an Administration-approved application to the qualified hospital.

- D.** To establish presumptive eligibility, an applicant must complete and submit an AHCCCS-approved presumptive eligibility application signed under penalty of perjury to a qualified hospital. The applicant must attest to the name(s), relationship(s), and income of all persons in the household. In addition, the applicant must provide and attest to the following information regarding each household member on whose behalf AHCCCS medical coverage is sought:

 8. Whether the individual has Medicare coverage.
- E.** Presumptive eligibility begins on the date the hospital determines an individual's presumptive eligibility and ends with the earlier of:
1. In the case of an individual on whose behalf an application has been submitted to AHCCCS or its designee under Article 3, the day on which AHCCCS or its designee makes a determination on that application; or
 2. In the case of an individual on whose behalf an application has not been submitted to AHCCCS or its designee under Article 3, on the last day of the following month in which the determination of presumptive eligibility was made by the qualified hospital.
- F.** An individual may not be determined presumptively eligible more often than once every two years.
- G.** Coverage and reimbursement of services.
1. The Administration shall provide coverage of medically necessary services described under Article 2 to persons determined eligible for HPE on a fee-for-service basis.
 2. Providers shall submit claims for services provided to persons determined eligible for HPE to the Administration as described under Article 7.
- H.** A member may withdraw from HPE coverage by notifying the Administration or its designee.
- I.** Upon determining an individual presumptively eligible, the qualified hospital shall:
1. Notify the applicant at the time a determination regarding presumptive eligibility is made, in writing and orally if appropriate, of the determination for each individual on whose behalf presumptive eligibility was requested and the effective date of the presumptive eligibility;
 2. Provide the applicant with a regular AHCCCS-approved application form and inform the applicant that the applicant may file an application for Medicaid with the Administration or its designee;
 3. Notify AHCCCS of the presumptive eligibility determination;
 4. Notify the applicant at the time the determination is made that presumptive eligibility ends with the earlier of:
 - a. In the case of an individual on whose behalf an application has been submitted to AHCCCS or its designee under Article 3, the day on which AHCCCS or its designee makes a determination on that application; or
 - b. In the case of an individual on whose behalf an application has not been submitted to AHCCCS or its designee under Article 3, on the last day of the following month in which the determination of presumptive eligibility was made by the qualified hospital.
- J.** A determination by a qualified hospital that an individual is not presumptively eligible is not appealable under Chapter 34. If a qualified hospital denies an individual presumptive eligibility, the individual may apply for coverage by submitting an application to the Administration or its designee.

The Administration may distribute more than 10% of the monies for unrecovered emergency room costs when there are unexpended monies under subsection (B) of this Section.
- D. The Administration shall distribute a reporting tool and guidelines to level I trauma centers to determine, on an annual basis, the unrecovered trauma center readiness costs for level I trauma centers as defined in subsection (F) of this Section. The reporting time-frame is July 1 of the prior year through June 30 of the reporting year. A level I trauma center shall submit the requested data and a copy of the most recently completed uniform accounting report under A.R.S. § 36-125.04 to the Administration no later than October 31 of each reporting year.

 1. Recalculate the November 2003 payments in July 2004 using the formula in subsection (B) of this Section;
 2. Recoup November 2003 overpayments by reducing the July 2004 distributions under subsection (C) as appropriate; and
 3. Redistribute recouped funds, with the July 2004 payment, to level I trauma centers underpaid in November 2003.

The proportion of each hospital's share of the fund for unrecovered trauma center readiness costs is determined after considering:
 1. The professional, clinical, administrative, and overhead costs directly associated with providing level I trauma care, and
 2. The volume and acuity of trauma care provided by each hospital.
- C. On or after July 31 of each year, the Administration shall distribute monies to level I trauma centers using monies, under R9-22-2101(B), available in the trauma and emergency services fund at the time of payment according to the proportions calculated and used for the January payments in the same year, under subsection (B) of this Section.

 1. Ninety percent of the amount shall be distributed to Level I trauma centers based upon each center's pro rata share of each center's acuity-adjusted volume as a percentage of the total acuity-adjusted volume for all centers in the state. The acuity-adjusted volume is calculated by multiplying the Injury Severity Score employed by trauma.org by the number of trauma cases at that level treated at the center during the reporting year. Hospitals shall report trauma scores and case volume on a worksheet prescribed by the Administration.
 2. Ten percent of the amount shall be distributed proportionately to hospitals that had an emergency department from July 1 through June 30 of the reporting year based the pro rata share of each hospital's cost of emergency care as a percentage of the total statewide cost of emergency care provided by hospitals as reported on the Worksheet B, column 27, line 61 of the hospital's most current Medicare Cost Report as of January 31 following the end of each reporting year.
- B. For the reporting years ending June 30, 2011 and June 30, 2012, the Administration shall distribute an amount equal to the federal financial participation made available under the section 1115 waiver for the purpose of making payments for unrecovered trauma and emergency services as follows:

- C. For the reporting years ending June 30, 2011 and June 30, 2012, payments made under this Article shall not be made in an amount that results in aggregate payments to the hospital by the Administration and contractors exceeding of the upper payment limit for the hospital services as calculated in accordance with 42 CFR 447.
- D. For the reporting years ending June 30, 2011 and June 30, 2012, to ensure compliance with subsection (C), payments under this Article shall be reconciled to the federal fiscal year that is two years subsequent to the payment.
- E. Any payments that are determined under subsection (D) to exceed the limit in subsection (C) shall be distributed as

Arizona Health Care Cost Containment System - Administration

PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), accepts state agency rule filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the Administrative Code. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

ADMINISTRATIVE RULES DIVISION

RULES

A.R.S. § 41-1001(17) states: “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The Arizona Administrative Code is where the official rules of the state of Arizona are published. The Code is the official codification of rules that govern state agencies, boards, and commissions. Virtually everything in your life is affected in some way by rules published in the Arizona Administrative Code, from the quality of air you breathe to the licensing of your dentist. This chapter is one of more than 230 in the Code compiled in 21 Titles.

ADMINISTRATIVE CODE SUPPLEMENTS

Rules filed by an agency to be published in the Administrative Code are updated quarterly. Supplement release dates are printed on the footers of each chapter:

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2017 is cited as Supp. 17-1.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the Arizona Administrative Register for recent updates to rule Sections.

ARTICLES AND SECTIONS

Rules in chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering system separated into subsections.

HISTORICAL NOTES AND EFFECTIVE DATES

Historical notes inform the user when the last time a Section was updated in the Administrative Code. Be aware, since the Office publishes each quarter by entire chapters, not all Sections are updated by an agency in a supplement release. Many times just one Section or a few Sections may be updated in the entire chapter.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority note to make rules is often included at the beginning of a chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in the introduction of a chapter can be found at the Secretary of State’s website, www.azsos.gov/services/legislative-filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the Arizona Administrative Register online at www.azsos.gov/rules, click on the Administrative Register link.

In the Administrative Code the Office includes editor’s notes at the beginning of a chapter indicating that certain rulemaking Sections were made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

EXEMPTIONS AND PAPER COLOR

If you are researching rules and come across rescinded chapters on a different paper color, this is because the agency filed a Notice of Exempt Rulemaking. At one time the office published exempt rules on either blue or green paper. Blue meant the authority of the exemption was given by the Legislature; green meant the authority was determined by a court order. In 2001 the Office discontinued publishing rules using these paper colors.

PERSONAL USE/COMMERCIAL USE

This chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

TITLE 9. HEALTH SERVICES**CHAPTER 25. DEPARTMENT OF HEALTH SERVICES - EMERGENCY MEDICAL SERVICES**

Authority: A.R.S. §§ 36-136(F) and 36-2209(A) et seq.

Editor's Note: Article 5 consisting of Sections R9-25-501 through R9-25-508 were recodified from Sections in Article 8 effective September 21, 2004 (Supp. 04-3). The Sections recodified from Article 8 were originally made or amended under an exemption from the provisions of the Administrative Procedure Act (A.R.S. Title 41, Chapter 6).

Editor's Note: The Office of the Secretary of State publishes all Chapters on white paper.

Editor's Note: This Chapter contains rules which were adopted, amended, and repealed under an exemption from the provisions of the Administrative Procedure Act (A.R.S. Title 41, Chapter 6) pursuant to A.R.S. § 36-2205(C). Exemption from A.R.S. Title 41, Chapter 6 means that the Department did not submit these rules to the Governor's Regulatory Review Council for review; the Department did not submit notice of proposed rulemaking to the Secretary of State for publication in the Arizona Administrative Register; and the Department was not required to hold public hearings on these rules. Because this Chapter contains rules which are exempt from the regular rulemaking process, the Chapter is printed on blue paper.

 7. A configuration that allows each medical team member sufficient access to each patient to begin and maintain treatment modalities, including complete access to the patient's head and upper body for effective airway management;
 8. A configuration that allows for rapid exit of personnel and patients, without obstruction from stretchers and medical equipment;
 9. A configuration that protects the aircraft's flight controls, throttles, and communications equipment from any intentional or accidental interference from a patient or equipment and supplies;
 10. A padded interior or an interior that is clear of objects or projections in the head strike envelope;

- C.** A certificate holder may conduct an interfacility critical care mission using an air ambulance that does not have all of the equipment and supplies required in Table 1 for the mission level if:
1. Care of the patient to be transported necessitates use of life-support equipment that because of its size or weight or both makes it unsafe or impossible for the air ambulance to carry all of the equipment and supplies required in Table 1 for the mission level, as determined by the certificate holder based upon:
 - a. The individual aircraft's capabilities,
 - b. The size and weight of the equipment and supplies required in Table 1 and of the additional life-support equipment,

PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), accepts state agency rule filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the Administrative Code. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

ADMINISTRATIVE RULES DIVISION

RULES

A.R.S. § 41-1001(17) states: “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The Arizona Administrative Code is where the official rules of the state of Arizona are published. The Code is the official codification of rules that govern state agencies, boards, and commissions. Virtually everything in your life is affected in some way by rules published in the Arizona Administrative Code, from the quality of air you breathe to the licensing of your dentist. This chapter is one of more than 230 in the Code compiled in 21 Titles.

ADMINISTRATIVE CODE SUPPLEMENTS

Rules filed by an agency to be published in the Administrative Code are updated quarterly. Supplement release dates are printed on the footers of each chapter:

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2017 is cited as Supp. 17-1.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the Arizona Administrative Register for recent updates to rule Sections.

ARTICLES AND SECTIONS

Rules in chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering system separated into subsections.

HISTORICAL NOTES AND EFFECTIVE DATES

Historical notes inform the user when the last time a Section was updated in the Administrative Code. Be aware, since the Office publishes each quarter by entire chapters, not all Sections are updated by an agency in a supplement release. Many times just one Section or a few Sections may be updated in the entire chapter.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority note to make rules is often included at the beginning of a chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in the introduction of a chapter can be found at the Secretary of State’s website, www.azsos.gov/services/legislative-filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the Arizona Administrative Register online at www.azsos.gov/rules, click on the Administrative Register link.

In the Administrative Code the Office includes editor’s notes at the beginning of a chapter indicating that certain rulemaking Sections were made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

EXEMPTIONS AND PAPER COLOR

If you are researching rules and come across rescinded chapters on a different paper color, this is because the agency filed a Notice of Exempt Rulemaking. At one time the office published exempt rules on either blue or green paper. Blue meant the authority of the exemption was given by the Legislature; green meant the authority was determined by a court order. In 2001 the Office discontinued publishing rules using these paper colors.

PERSONAL USE/COMMERCIAL USE

This chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

Public Services managing rules editor, Rhonda Paschal, assisted with the editing of this chapter.

TITLE 12. NATURAL RESOURCES

CHAPTER 4. GAME AND FISH COMMISSION

Authority: A.R.S. § 17-201 et seq.

Editor's Note: The Office of the Secretary of State publishes all Chapters on white paper (Supp. 01-2).

Editor's Note: This Chapter contains rules which were adopted or amended under an exemption from the Arizona Administrative Procedure Act (A.R.S. Title 41, Chapter 6), pursuant to A.R.S. § 41-1005(A)(1). Exemption from A.R.S. Title 41, Chapter 6 means that the Game and Fish Commission did not submit notice of this rulemaking to the Secretary of State's Office for publication in the Arizona Administrative Register; the Governor's Regulatory Review Council did not review these rules; the Commission was not required to hold public hearings on these rules; and the Attorney General did not certify these rules. Because this Chapter contains rules which are exempt from the regular rulemaking process, the Chapter is printed on blue paper.

R12-4-107. Bonus Point System

A. For the purpose of this Section, the following definitions apply:

“Bonus point hunt number” means the hunt number assigned in a Commission Order for use by an applicant who is applying for a bonus point only.

“Loyalty bonus point” means a bonus point awarded to a person who has submitted a valid application for a hunt permit-tag or a bonus point for a specific genus identified in subsection (B) at least once annually for a consecutive five-year period.

B. The bonus point system grants a person one random number entry in each computer draw for antelope, bear, bighorn sheep, buffalo, deer, elk, javelina, or turkey for each bonus point that person has accumulated under this Section.

- Each bonus point random number entry is in addition to the entry normally granted under R12-4-104.
- When processing a “group” application, as defined under R12-4-104, the Department shall use the average number of bonus points accumulated by all persons in the group, rounded to the nearest whole number. If the average number of bonus points is equal to or greater than .5, the total will be rounded to the next higher number.
- The Department shall credit a bonus point under an applicant's Department identification number for the genus on the application.

4. The Department shall not transfer bonus points between persons or genera.

C. The Department shall award one bonus point to an applicant who submits a valid Hunt Permit-tag Application provided the following apply:

- The application is unsuccessful in the computer draw or the application is for a bonus point only;
- The application is not for a hunt permit-tag leftover after the computer draw and available on a first-come, first-served basis as established under R12-4-114; and
- The applicant either provides the appropriate hunting license number on the application or submits an application and fees for the applicable license with the Hunt Permit-tag Application, as applicable.

D. An applicant who purchases a bonus point only shall:

- Submit a valid Hunt Permit-tag Application, as prescribed under R12-4-104, with the assigned bonus point hunt number for the particular genus as the first-choice hunt number on the application. The Department shall reject any application that:
 - Indicates the bonus point only hunt number as any choice other than the first-choice, or
 - Includes any other hunt number on the application;
- Include the applicable fees:
 - Application fee, and
 - Applicable license fee, required when the applicant does not possess a valid license at the time of application; and

Game and Fish Commission

3. Submit only one Hunt Permit-tag Application per genus per computer draw.
- E. With the exception of the hunter education bonus point, each accumulated bonus point is valid only for the genus designated on the Hunt Permit-tag Application.
- F. With the exception of a permanent bonus point awarded for hunter education and a loyalty bonus point which is accrued and forfeited as established under subsection (L), a person's accumulated bonus points for a genus are expended if:
 1. The person is issued a hunt permit-tag for that genus in a computer draw;
 2. The person fails to submit a Hunt Permit-tag Application for that genus for five consecutive years; or
 3. The person purchases a surrendered tag as prescribed under R12-4-118(F)(1), (2), or (3).
- G. Notwithstanding subsection (F), the Department shall restore any expended bonus points to a person who surrenders or transfers a tag in compliance with R12-4-118 or R12-4-121.
- H. An applicant issued a first-come, first-served hunt permit-tag under R12-4-114(C)(2)(e) after the computer draw does not expend bonus points for that genus.
- I. An applicant who is unsuccessful for a first-come, first-served hunt permit-tag made available by the Department after the computer draw is not eligible to receive a bonus point.
- J. The Department shall award one permanent bonus point for each genus upon a person's first graduation from a Department-sanctioned Arizona Game and Fish Department Hunter Education Course.
 1. Course participants are required to provide the following information upon registration, the participants:
 - a. Name;
 - b. Mailing address;
 - c. Telephone number;

 - e. Date of birth; and

Course paperwork must be received by the Department no less than 30 days before the computer draw application deadline, as specified in the hunt permit-tag application schedule in order for the Department to assign hunter education bonus points in the next computer draw.
 3. The Department shall not award hunter education bonus points for any of the following specialized hunter education courses:
 - a. Bowhunter Education,
 - b. Trapper Education, or
 - c. Advanced Hunter Education.
- K. The Department provides an applicant's total number of accumulated bonus points on the Department's application web site or IVR telephone system.
 1. If a person believes the total number of accumulated bonus points is incorrect, the person may request proof of compliance with this Section, from the Department, to prove Department error.
 2. In the event of an error, the Department shall correct the person's record.
- L. The following provisions apply to the loyalty bonus point program:
 1. An applicant who submits a valid application at least once a year for a hunt permit-tag or a bonus point for a specific genus consecutively for a five-year period shall accrue a loyalty bonus point for that genus.
 2. Except as established under subsection (N), once a loyalty bonus point is accrued, the applicant shall retain the loyalty bonus point provided the applicant annually submits an application, with funds sufficient to cover all application fees and applicable license fees for each applicant listed on the application, for a hunt permit-tag or a bonus point for the genus for which the loyalty bonus point was accrued.
 3. An applicant who fails to apply in any calendar year for a hunt permit-tag or bonus point for the genus for which the loyalty bonus point was accrued shall forfeit the loyalty bonus point for that genus.
 4. A loyalty bonus point is accrued in addition to all other bonus points.
- M. A military member, military reserve member, member of the National Guard, or emergency response personnel with a public agency may request the reinstatement of any expended bonus points for a successful Hunt Permit-tag Application.
 1. To request reinstatement of expended bonus points under these circumstances, an applicant shall submit all of the following information to the Arizona Game and Fish Department, Draw Section, 5000 W. Carefree Highway, Phoenix, AZ 85086:
 - a. Evidence of mobilization or change in duty status, such as a letter from the public agency or official orders; or
 - b. An official declaration of a state of emergency from the public agency or authority making the declaration of emergency, if applicable; and
 - c. The valid, unused hunt permit-tag.
 2. The Department shall deny requests post-marked after the beginning date of the hunt for which the hunt permit-tag is valid, unless the person also submits, with the request, evidence of mobilization, activation, or a change in duty status that precluded the applicant from submitting the hunt permit-tag before the beginning date of the hunt.
 3. Under A.R.S. § 17-332(E), no refunds for a license or hunt permit-tag will be issued to an applicant who applies for reinstatement of bonus points under this subsection.
 4. Reinstatement of bonus points under this subsection is not subject to the requirements established under R12-4-118.

R12-4-110. Posting and Access to State Land

A. For the purpose of this Section:

1. "Corrals," "feed lots," or "holding pens" mean completely fenced areas used to contain livestock for purposes other than grazing.
2. "Existing road" means any maintained or unmaintained road, way, highway, trail, or path that has been used for motorized vehicular travel, and clearly shows or has a history of established vehicle use, and is not currently closed by the Commission.
3. "State lands" means all land owned or held in trust by the state that is managed by the State Land Department and lands that are owned or managed by the Game and Fish Commission.

B. In addition to the prohibition against posting prescribed under A.R.S. § 17-304, a person shall not lock a gate, construct a fence, place an obstacle, or otherwise commit an act that denies legally available access to or use of any existing road upon state lands by persons lawfully taking or retrieving wildlife or conducting any activities that are within the scope of and take place while lawfully hunting or fishing.

1. A person in violation of this Section shall take immediate corrective action to remove any lock, fence, or other obstacle unlawfully preventing access to state lands.
2. If immediate corrective action is not taken, a representative of the Department may remove any unlawful posting and remove any lock, fence, or other obstacle that unlawfully prevents access to state lands.
3. In addition, the Department may take appropriate legal action to recover expenses incurred in the removal of any unlawful posting or obstacle that prevented access to state land.

C. The provisions of this Section do not allow any person to trespass upon private land to gain access to any state land.

D. A person may post state lands as closed to hunting, fishing, or trapping without further action by the Commission when the state land is within one-quarter mile of any:

1. Occupied residence, cabin, lodge, or other building; or
2. Corrals, feed lots, or holding pens containing concentrations of livestock other than for grazing purposes.

E. The Commission may grant permission to lock, tear down, or remove a gate or close a road or trail that provides legally available access to state lands for persons lawfully taking wildlife or conducting any activities that are within the scope of and take place while lawfully hunting or fishing if access to such lands is provided by a reasonable alternate route.

1. Under R12-4-610, the Director may grant a permit to a state land lessee to temporarily lock a gate or close an existing road that provides access to state lands if the taking of wildlife will cause unreasonable interference during a critical livestock or commercial operation. This permit shall not exceed 30 days.
2. Applications for permits for more than 30 days shall be submitted to the Commission for approval.
3. If a permit is issued to temporarily close a road or gate, a copy of the permit shall be posted at the point of the closure during the period of the closure.

F. A person may post state lands other than those referenced under subsection (D) as closed to hunting, fishing, or trapping, provided the person has obtained a permit from the Commission authorizing the closure. A person possessing a permit

authorizing the closure of state lands shall post signs in compliance with A.R.S. 17-304(C). The Commission may permit the closure of state land when it is necessary:

1. Because the taking of wildlife constitutes an unusual hazard to permitted users;
2. To prevent unreasonable destruction of plant life or habitat; or
3. For proper resource conservation, use, or protection, including but not limited to high fire danger, excessive interference with mineral development, developed agricultural land, or timber or livestock operations.

G. A person shall submit an application for posting state land to prohibit hunting, fishing, or trapping under subsection (F), or to close an existing road under subsection (E), as required under R12-4-610. If an application to close state land to hunting, fishing, or trapping is made by a person other than the state land lessee, the Department shall provide notice to the lessee and the State Land Commissioner before the Commission considers the application. The state land lessee or the State Land Commissioner shall file any objections with the Department, in writing, within 30 days after receipt of notice, after which the matter shall be submitted to the Commission for determination.

H. A person may use a vehicle on or off a road to pick up lawfully taken big game animals.

I. The closing of state land to hunting, fishing, or trapping shall not restrict any other permitted use of the land.

J. State trust land may be posted with signs that read "State Land No Trespassing," but such posting shall not prohibit access to such land by any person lawfully taking or retrieving wildlife or conducting any activities that are within the scope of and take place while lawfully hunting or fishing.

K. When hunting, fishing, or trapping on state land, a license holder shall not:

1. Break or remove any lock or cut any fence to gain access to state land;
2. Open and not immediately close a gate;
3. Intentionally or wantonly destroy, deface, injure, remove, or disturb any building, sign, equipment, marker, or other property;
4. Harvest or remove any vegetative or mineral resources or object of archaeological, historic, or scientific interest;

8. Frighten or chase domestic livestock or wildlife, or endanger the lives or safety of others when using a motorized vehicle or other means; or
9. Operate a motor vehicle off road or on any road closed to the public by the Commission or landowner, except to retrieve a lawfully taken big game animal.

 - d. The Department shall ensure that all unreserved hunt permit-tags are issued by random selection:
 - i. First, to hunt numbers designated by eligible applicants as their first or second choices; and
 - ii. Next, to hunt numbers designated by eligible applicants as their third, fourth, or fifth choices.
 - e. Before each of the three passes listed under (C)(2)(c)(i),(ii), and (iii), each application is processed through the Department's random number generator program. A random number is assigned to each application; an additional random number is assigned to each application for each group bonus point, including the Hunter Education and Loyalty bonus points. Only the lowest random number generated for an application is used in the computer draw process. A new random number is generated for each application for each pass of the computer draw.
 - f. If the bag limit is more than one per calendar year, or if there are unissued hunt permit-tags remaining after the random computer draw, the Department shall ensure these hunt permit-tags are available on a first-come, first-served basis as specified in the annual hunt permit-tag application schedule.
- D. A person may purchase hunt permit-tags equal to the bag limit for a genus.
1. A person shall not exceed the established bag limit for that genus.
 2. A person shall not apply for any additional hunt-permit-tags if the person has reached the bag limit for that genus during the same calendar year.
 3. A person who surrenders a tag in compliance with R12-4-118 is eligible to apply for another hunt permit-tag for the same genus during the same calendar year, provided the person has not reached the bag limit for that genus.
- E. The Department shall make available to nonresidents:
1. For bighorn sheep and buffalo, no more than one hunt permit-tag or 10% of the total hunt permit-tags, whichever is greater, for bighorn sheep or buffalo in any computer draw. The Department shall not make available more than 50% nor more than two bighorn sheep or buffalo hunt permit-tags of the total in any hunt number.
 2. For antelope, antlered deer, bull elk, or turkey, no more than 10%, rounded down to the next lowest number, of the total hunt permit-tags in any hunt number. If a hunt number for antelope, antlered deer, bull elk, or turkey has 10 or fewer hunt permit-tags, no more than one hunt permit-tag will be made available unless the hunt number has only one hunt permit-tag, then that tag shall only be available to a resident.
- F. The Commission may, at a public meeting, increase the number of hunt permit-tags issued to nonresidents in a computer draw when necessary to meet management objectives.
- G. The Department shall not issue under subsection (C)(2)(c), more than half of the hunt permit-tags made available to nonresidents under subsection (E).
- H. A nonresident cap established under this Section applies only to hunt permit-tags issued by computer draw under subsections (C)(2)(c) and (d).

 1. Select season dates, within the range of dates listed in the Commission Order;
 2. Select specific hunt areas, within the range of hunt areas listed in the Commission Order;
 3. Select the legal animal that may be taken from the list of legal animals identified in the Commission Order;

- G. A supplemental hunt application submitted in accordance with this Section does not invalidate any other application submitted by the person for a hunt permit-tag.
 1. The Department shall not accept a group application, as defined under R12-4-104, for a restricted nonpermit-tag.
 2. An applicant shall not apply for or obtain a restricted nonpermit-tag to take wildlife in excess of the bag limit established by Commission Order.

1. The Department may establish a membership program that offers a person various products and services.
 2. The Department may establish different membership levels based on the type of products and services offered and set prices for each level.
 - a. The lowest membership level may include the option to surrender one hunt permit-tag during the membership period.
 - b. A higher membership level may include the option to surrender more than one hunt permit-tag during the membership period.
 3. The Department may establish terms and conditions for the membership program in addition to the following:
 - a. Products and services to be included with each membership level.
 - b. Membership enrollment is available online only and requires a person to create a portal account.
 - c. Membership is not transferable.
 - d. No refund shall be made for the purchase of a membership, unless an internal processing error resulted in the collection of erroneous fees.
- C.** The tag surrender program is restricted to the surrender of an original, unused hunt permit-tag obtained through a computer draw.
1. A person must have a valid and active membership in the Department's membership program with at least one unredeemed tag surrender that was valid:

 2. Award the bonus point the person would have accrued had the person been unsuccessful in the computer draw for the surrendered tag.
 3. Not refund any fees the person paid for the surrendered tag, as prohibited under A.R.S. § 17-332(E).

1. Re-issuing the surrendered tag, beginning with the highest membership level in the Department's membership program, to a person who has a valid and active membership in that membership level and who would have been next to receive a tag for that hunt number, as evidenced by the random numbers assigned during the Department's computer draw process;
 2.  4. It is unlawful for a person to purchase a surrendered tag when the person has reached the bag limit for that genus during the same calendar year.
- J. A person is not eligible to petition the Commission under R12-4-611 for reinstatement of any expended bonus points, except as authorized under R12-4-107(M).
