CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

Radiology

RADIOLOGY GUIDELINES

This Fee Schedule has been updated to incorporate by reference the 2019 Edition of the American Medical Association's *Physicians' Current Procedural Terminology*, Fourth Edition (CPT®-4), including the general guidelines, identifiers, modifiers, and terminology changes associated with the adopted codes. In this Fee Schedule CPT® codes that contain explanatory language specific to Arizona are preceded by Δ. Codes, however, that are unique to Arizona and not otherwise found in CPT®-4 are preceded by an AZ identifier and numbered in the following format: AZ0xx-xxx. Additional information regarding publications (e.g. CMS Guidelines) adopted by reference is found in the Introduction of the Fee Schedule.

The following Commission guidelines are in addition to CMS and CPT® guidelines, and represent additional guidance from the Commission relative to unit values for these services. To the extent that a conflict may exist between an adopted portion of the CPT®-4 and a code, guideline, identifier or modifier unique to Arizona, then the Arizona code, guideline, identifier or modifier shall control.

A. GENERAL GUIDELINES

1. Values include usual contrast media, equipment and materials. An additional charge may be warranted when special surgical trays and materials are provided by the physician.
2. Values include consultation and written reports to the referring physician.
3. X-ray findings and attending physician's written order for x-rays must be included with statement for x-ray services. Bills unsupported by findings will not be paid.
4. X-rays should be taken, reported, and be properly marked for identification and orientation in accordance with the accepted standard of radiologic practice in the State of Arizona.

B. MODIFIERS

Modifiers identify circumstances that alter or enhance the description of the service. For radiology codes, two modifiers affect the assigned unit value and are listed in *The Essential RBRVS*. However, other modifiers may be required for correct reporting of service. See CMS and the 2018 CPT®-4 publications for additional information on modifiers. Listed radiology modifiers affect the unit values as follows:

1. Total: When no modifier is listed, the unit value represents the global value of the procedure. The five-digit code is used to represent a global service inclusive of professional and technical value of providing that service. The following sections, provide additional definitions for each component.
2. Professional: Modifier 26 is used to designate professional services. The professional component includes examination of the patient, when indicated, performance and/or supervision of the procedure, interpretation and written report of the examination, and consultation with referring physicians.
3. Technical: Modifier TC is used to designate the technical value of providing the service. The technical component includes personnel, materials, space, equipment, and other allocated facility overhead normally included in providing the service. Note that modifier TC is not CPT compatible.

C. REFERENCE TO RELATIVE VALUES

Two patterns of billing currently prevail in radiology. A total charge for the radiology service, to include both professional fees and technical costs, is made by radiologists working in offices, clinics and, under some circumstances, in hospital x-ray departments.

In a majority of voluntary hospital radiology departments, the radiologist submits a separate statement to the patient for his professional services. The hospital charges for use of the department facilities and the services of its employees. This pattern is similar to the charges made by the hospital for the use of delivery rooms or surgical suites. Such charges are entirely separate from the fees charged by obstetricians and surgeons. In most separate radiology billing situations, the total will approximate the amount billed singly by the radiologist in their office or billed singly by the hospital.

The two separate scales in Radiology Relative Values have been devised for use in radiology and are not coordinated with scales for services in other branches of medicine such as surgery, medicine or pathology. The two scales are compatible only within themselves. Within each of the two separate headings, the total dollar value and the PC or professional components dollar value, where appropriate, can be used. Some procedures are noted as a "BR" value or "By Report." This usage is intended to indicate that circumstances involving a given patient procedure may require much more than the average amount of time and effort to perform and thus a value would be unique and could not be anticipated or established. When such added involvement is claimed, a written explanation will usually be required as an addendum to the bill.

The PC values do not include charges made by the hospital in which the procedure was accomplished. Such charges by the hospital cover the services of technologists and other helpers, the films, contrast media, radioactive agents, chemical and other materials, the use of the space and facilities of the x-ray department plus any other hospital costs. Most hospitals have derived their own schedule of charges of these items. The establishment of the hospital's charges is not properly the subject of this Appendix.

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

The separation of billing in no way implies a division of responsibility, but only a division of the charge. The radiologist is a physician performing a needed medical service for a patient, and he must retain full responsibility for his own activity and also full responsibility for the supervision of technologists, the selection and maintenance of equipment, the control of radiation hazards and the general administration of the radiology department.

D. REVIEW OF DIAGNOSTIC STUDIES

No separate charge is warranted for prior studies reviewed in conjunction with a visit, consultation, record review, or other evaluation by the medical provider or other medical personnel; neither the professional component value modifier 26 nor the radiological consultation CPT code 76140 is reimbursable. The review of diagnostic tests is included in the evaluation and management codes.

Historical Note

New Appendix A. Radiology Guidelines made by exempt rulemaking at 25 A.A.R. 2624, effective October 1, 2019; Appendix A. Radiology Guidelines will remain in effect through September 30, 2020 (Supp. 19-3).

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

Pathology and Laboratory

PATHOLOGY AND LABORATORY GUIDELINES

This Fee Schedule has been updated to incorporate by reference the 2019 Edition of the American Medical Association's *Physicians' Current Procedural Terminology*, Fourth Edition (CPT®-4), including the general guidelines, identifiers, modifiers, and terminology changes associated with the adopted codes. In this Fee Schedule CPT® codes that contain explanatory language specific to Arizona are preceded by Δ. Codes, however, that are unique to Arizona and not otherwise found in CPT®-4 are preceded by an AZ identifier and numbered in the following format: AZ0xx-xxx. The Industrial Commission has adopted the Clinical Laboratory Fee Schedule (CLAB) used by Medicare to reimburse the majority of pathology and laboratory services (see additional information regarding publications adopted by reference in the Introduction Section of the Fee Schedule).

The following Commission guidelines are in addition to the CPT® guidelines and represent additional guidance from the Commission relative to unit values for these services. To the extent that a conflict may exist between an adopted portion of the CPT®-4 and a code, guideline, identifier or modifier unique to Arizona, then the Arizona code, guideline, identifier or modifier shall control.

- A. A provider seeking reimbursement for presumptive or “point of care” drug testing must submit to the payer written documentation establishing:
1. That the testing is medically necessary and reasonably required;
 2. The type of drug testing utilized; and
 3. The provider's interpretation of the “point of care” testing.

For purposes of this section, presumptive or “point of care” testing is testing that is performed at or near the site of patient care (i.e. the physician's office).

CPT codes 80305- 80307 are used for reporting presumptive drug class screening. Each code represents all drugs and drug classes performed by the respective methodology per date of service.

Providers performing validity testing on urine specimens utilized for drug testing shall not separately bill the validity testing. For example, if a laboratory performs a urinary pH, specific gravity, creatinine, nitrates, oxidants, or other tests to confirm that a urine specimen is not adulterated, this testing is not separately billed.

Beginning October 1, 2019 definitive drug testing may be reported with HCPC codes G0480 - G0483. These codes differ based on the number of drug classes including metabolites tested. Only one code from this group of codes may be reported per date of service. Any request for quantitative or definitive testing requires documentation that qualifies necessity.

G0480 – Definitive drug testing 1 – 7 drug class(es) including metabolites(s) if performed.

G0481 – Definitive drug testing 8 – 14 drug class(es) including metabolite(s) if performed.

G0482 – Definitive drug testing 15 – 21 drug class(es) including metabolites(s) if performed.

G0483 – Definitive drug testing 22 or more drug class(es), including metabolite(s) if performed.

Historical Note

New Appendix A, Pathology and Laboratory Guidelines made by exempt rulemaking at 25 A.A.R. 2624, effective October 1, 2019; Appendix A, Pathology and Laboratory Guidelines will remain in effect though September 30, 2020 (Supp. 19-3).

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

Medicine

MEDICINE GUIDELINES

This Fee Schedule has been updated to incorporate by reference the 2019 Edition of the American Medical Association's *Physicians' Current Procedural Terminology*, Fourth Edition (CPT®-4), including the general guidelines, identifiers, modifiers, and terminology changes associated with the adopted codes. In this Fee Schedule CPT® codes that contain explanatory language specific to Arizona are preceded by Δ. Codes, however, that are unique to Arizona and not otherwise found in CPT®-4 are preceded by an AZ identifier and numbered in the following format: AZ0xx-xxx. Additional information regarding publications adopted by reference is found in the Introduction of the Fee Schedule.

The following Commission guidelines are in addition to the CPT® guidelines and represent additional guidance from the Commission relative to unit values for these services. To the extent that a conflict may exist between an adopted portion of the CPT®-4 and a code, guideline, identifier or modifier unique to Arizona, then the Arizona code, guideline, identifier or modifier shall control.

- A. **MATERIALS SUPPLIED BY PHYSICIAN:** A physician may charge for materials and supplies as described in subsection (I)(4) of the Introduction Section of the Physician's Fee Schedule.
- B. **COMPLIANCE WITH THE AMERICAN'S WITH DISABILITIES ACT:** Code 99199 can be used to bill for the services of an interpreter when they are used to comply with the provisions of "The American's With Disabilities Act", i.e. interpreters for the hearing impaired.
- C. **ADD-ON CODES:** Some of the listed procedures are commonly carried out in addition to the primary procedure performed. All add-on codes found in the CPT codebook are exempt from the multiple procedure concept. They are exempt from the use of modifier -51.
- D. **SEPARATE PROCEDURES:** Some of the procedures or services listed in the CPT codebook that are commonly carried out as an integral component of a total service or procedure have been identified by the inclusion of the term "separate procedure". The codes designated as a "separate procedure" should not be reported in addition to the code for the total procedure or service of which it is considered an integral component.

When a procedure or service is carried out independently or considered to be unrelated or distinct from other procedures/services provided at that time, it may be reported by itself, or in addition to other procedures/services by appending modifier -59 to the specific "separate procedure" code to indicate that the procedure is not considered to be a component of another procedure, but is a distinct, independent procedure.

- E. **BUNDLED CODES:** Indicates that the service is always bundled in a payment for another service. If these services are covered, payment for them is subsumed by the payment for the services to which they are incident (e.g., a telephone call from a hospital nurse regarding the care of a patient).

Historical Note

New Appendix A, Medicine Guidelines made by exempt rulemaking at 25 A.A.R. 2624, effective October 1, 2019; Appendix A, Medicine Guidelines will remain in effect though September 30, 2020 (Supp. 19-3).

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

Physical Medicine

PHYSICAL MEDICINE GUIDELINES

This Fee Schedule has been updated to incorporate by reference the 2019 Edition of the American Medical Association's Physicians' Current Procedural Terminology, Fourth Edition (CPT®-4), including the general guidelines, identifiers, modifiers, and terminology changes associated with the adopted codes. In this Fee Schedule CPT® codes that contain explanatory language specific to Arizona are preceded by Δ. Codes, however, that are unique to Arizona and not otherwise found in CPT®-4 are preceded by an AZ identifier and numbered in the following format: AZ0xx-xxx. Additional information regarding publications adopted by reference is found in the Introduction of the Fee Schedule.

The following Commission guidelines are in addition to the CPT® guidelines and represent additional guidance from the Commission relative to unit values for these services. To the extent that a conflict may exist between an adopted portion of the CPT®-4 and a code, guideline, identifier or modifier unique to Arizona, then the Arizona code, guideline, identifier or modifier shall control.

General requirements in reporting services are found in the Introduction of the Fee Schedule. In addition to the definitions and commonalities preceding the coded medical procedures, several other requirements unique to this Section on PHYSICAL MEDICINE are defined or identified as follows:

- A. During the course of physical medicine treatments, only one evaluation and management billing is allowed per week, except that the following evaluations are allowed once every two calendar weeks: 97164, 97168, and 97172. Additional billing for evaluation and management procedures may be allowed when specific additional services are warranted. Approval of the payer must be obtained prior to performing additional services.
IT IS IMPORTANT TO NOTE THAT THESE LIMITATIONS DO NOT APPLY TO REFERRING PHYSICIANS OR TO PHYSICIANS WHO TREAT PATIENTS ONCE PER MONTH.
- B. When multiple modalities (97010* through 97039) are performed, the first modality is reported as listed. The second modality is identified by adding modifier “-51” to the code number. The second and each subsequent modality should be valued at 50% of its listed value.
100% - Full value for the first modality
50% - For the second and additional modalities
*97010 is always bundled in the payment for another Physical Therapy Service.
Any more than 5 additional modalities or therapeutic procedures must have prior approval of the payer.
Example: During a visit a patient receives the following care; therapeutic exercise (97110) for 45 minutes, mechanical traction (97012), electrical stimulation (97014) and moist heat (97010). Under the multiple procedure rule, you would bill 100% of the total value for (97110) therapeutic exercise (\$56.23 x 3), 100% of the total value for (97012) mechanical traction (\$27.15 x 1) and 50% of the total value for (97014) electrical stimulation (\$27.15 x 50%) and 0% (zero percent) for moist heat (97110), for a total billing of \$209.42.
- C. Codes 97010 – 97150 and 97530 -97546 are not subject to the multiple procedure rule and shall be paid at 100% of their listed value. When performing therapeutic procedure(s), excluding work hardening (97545/97546) and Functional Capacity Evaluation (FCE)(97750), a maximum of 60 minutes is allowed each day. Approval must be obtained by the payer prior to performing therapeutic procedures in excess of 60 minutes.
- D. The values for codes in this section apply to provider's time, expertise and use of equipment. Medications and disposable electrodes used in these procedures should be considered supplies, code 99070, (see item 1, Guidelines for Medicine Section regarding billing for supplies).
- E. A work hardening program is limited to 6 1/2 hours per day, not to exceed a 6 week period of time.
- F. The payer has the right to require documentation to establish that a modality or therapeutic procedure was performed. Inasmuch as these Guidelines allow for re-evaluations to be performed every two weeks, it is at that time the medical provider should be required to address the success of the treatment protocol, i.e. improvements or lack of improvements regarding stamina, flexibility and strength.

It is not appropriate for the payer on a per billing basis to require a medical provider to provide unnecessary detailed documentation to justify payment. A medical provider is required to comply with A.R.S. § 23-1062.01 when submitting a bill. For example, the purpose of modalities like hot and cold packs, paraffin baths, and whirlpools are straightforward. Modalities are utilized as a sub-element of the over-all treatment protocol to prepare the injured worker for therapy or to minimize the impact of the therapy on the injured worker. Other than a statement that certain modalities were performed, any additional documentation such as the purpose of the application of modalities, resulting flexibility or comfort is unnecessary. Additionally, listing the amount of weight an individual is lifting, repetitions, and sets is, again, unnecessary. During a re-evaluation visit, the medical provider should provide documentation regarding changes in strength, stamina, and flexibility.

Evaluation and Management

EVALUATION AND MANAGEMENT GUIDELINES

This Fee Schedule has been updated to incorporate by reference the 2019 Edition of the American Medical Association's Physicians' Current Procedural Terminology, Fourth Edition (CPT®-4), including the general guidelines, identifiers, modifiers, and terminology changes associated with the adopted codes. In this Fee Schedule CPT® codes that contain explanatory language specific to Arizona are preceded by Δ. Codes, however, that are unique to Arizona and not otherwise found in CPT®-4 are preceded by an AZ identifier and numbered in the following format: AZ0xx-xxx. Additional information regarding publications adopted by reference is found in the Introduction of the Fee Schedule.

The evaluation and management guidelines adopted by reference may be found in the Current Procedural Terminology®, Fourth Edition ("CPT® book") published by the AMA and is reprinted, in part, below with permission. To the extent that a conflict may exist between an adopted portion of the CPT®-4 and a code, guideline, identifier or modifier unique to Arizona, then the Arizona code, guideline, identifier or modifier shall control.

- A. CLASSIFICATION OF EVALUATION AND MANAGEMENT (E/M) SERVICES:** The E/M section is divided into broad categories such as office visits, hospital visits, and consultations. Most of the categories are further divided into two or more subcategories of E/M services. For example, there are two subcategories of office visits (new patient and established patient) and there are two subcategories of hospital visits (initial and subsequent). The subcategories of E/M services are further classified into levels of E/M services that are identified by specific codes. This classification is important because the nature of work varies by type of service, place of service, and the patient's status.

The basic format of the levels of E/M services is the same for most categories. First, a unique code number is listed. Second, the place and/or type of service is specified, e.g., office consultation. Third, the content of the service is defined, e.g. comprehensive history and comprehensive examination. (See "Levels of E/M Services" in 2019 AMA CPT codebook, for details on the content of E/M services). Fourth, the nature of the presenting problem(s) usually associated with a given level is described. Fifth, the time typically required to provide the service is specified.

- B. DEFINITIONS OF COMMONLY USED TERMS:** Certain key words and phrases are used throughout the E/M section. The following definitions are intended to reduce the potential for differing interpretations and to increase the consistency of reporting by physicians in differing specialties. E/M services may also be reported by other qualified health care professionals who are authorized to perform such services within the scope of their practice.

- **New and Established Patient:** Solely for the purposes of distinguishing between new and established patients, professional services are those face-to-face services rendered by physicians and other qualified health care professionals who report evaluation and management services reported by a specific CPT code(s). A new patient is one who has not received any professional services from the physician/qualified health care professional or another physician/qualified health care professional of the exact same specialty and subspecialty who belongs to the same group practice, within the past three years.

An established patient is one who has received professional services from the physician/qualified health care professional or another physician/qualified health care professional of the exact same specialty and subspecialty who belongs to the same group practice, within the past three years.

In the instance where a physician/qualified health care professional is on call for or covering for another physician/qualified health care professional, the patient's encounter will be classified as it would have been by the physician/qualified health care professional who is not available. When advanced practice nurses and physician assistants are working with physicians they are considered as working in the exact same specialty and exact same subspecialties as the physician.

No distinction is made between new and established patients in the emergency department. E/M services in the emergency department category may be reported for any new or established patient who presents for treatment in the emergency department.

- **Chief Complaint:** A chief complaint is a concise statement describing the symptom, problem, condition, diagnosis, or other factor that is the reason for the encounter, usually stated in the patient's words.
- **Concurrent Care and Transfer of Care:** Concurrent care is the provision of similar services (e.g., hospital visits) to the same patient by more than one physician or other qualified health care professional on the same day. When concurrent care is provided, no special reporting is required. Transfer of care is the process whereby a physician or other qualified health care professional who is providing management for some or all of a patient's problems relinquishes this responsibility to another physician or other qualified health care professional who explicitly agrees to accept this responsibility and who, from the initial encounter, is not providing consultative services. The physician or other qualified health care professional transferring care is then no longer providing care for these problems though he or she may continue providing care for other conditions when appropriate. Consultation codes should not be reported by the physician or other qualified health care professional who has agreed to accept transfer of care before an initial evaluation but are appropriate to report if the decision to accept transfer of care cannot be made until after the initial consultation evaluation, regardless of site of service.
- **Counseling:** Counseling is a discussion with a patient and/or family concerning one or more of the following areas:

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

- Diagnostic results, impressions, and/or recommended diagnostic studies;
- Prognosis;
- Risks and benefits of management (treatment) options;
- Instructions for management (treatment) and/or follow-up;
- Importance of compliance with chosen management (treatment) options;
- Risk factor reduction; and
- Patient and family education.

(For psychotherapy, see 90832-90834, 90836-90840)

- Family History: A review of medical events in the patient's family that includes significant information about:
 - The health status or cause of death of parents, siblings and children;
 - Specific diseases related to problems identified in the Chief Complaint or History of the Present Illness, and/or System Review;
 - Diseases of family members which may be hereditary or place the patient at risk.
- History of Present Illness: A chronological description of the development of the patient's present illness from the first sign and/or symptom to the present. This includes a description of location, quality, severity, timing, context, modifying factors, and associated signs and symptoms significantly related to the presenting problem(s).
- Levels of E/M Services: Within each category or subcategory of E/M service, there are three to five levels of E/M services available for reporting purposes. Levels of E/M services are NOT interchangeable among the different categories or subcategories of service. For example, the first level of E/M services in the subcategory of office visit, new patient, does not have the same definition as the first level of E/M services in the subcategory of office visit, established patient.

The levels of E/M services include examinations, evaluations, treatments, conferences with or concerning patients, preventive pediatric and adult health supervision, and similar medical services, such as the determination of the need and/or location for appropriate care. Medical screening includes the history, examination, and medical decision-making required to determine the need and/or location for appropriate care and treatment of the patient (e.g., office and other outpatient setting, emergency department, nursing facility). The levels of E/M services encompass the wide variations in skill, effort, time, responsibility and medical knowledge required for the prevention or diagnosis and treatment of illness or injury and the promotion of optimal health. Each level of E/M services may be used by all physicians or other qualified health care professionals.

The descriptors for the levels of E/M services recognize seven components, six of which are used in defining the levels of E/M services. These components are:

- History;
- Examination;
- Medical decision making;
- Counseling;
- Coordination of care;
- Nature of presenting problem; and
- Time.

The first three of these components (history, examination and medical decision making) are considered the key components in selecting a level of E/M services.

The next three components (counseling, coordination of care, and the nature of the presenting problem) are considered contributory factors in the majority of encounters. Although the first two of these contributory factors are important E/M services, it is not required that these services be provided at every patient encounter.

Coordination of care with other physicians, other health care professionals, or agencies without a patient encounter on that day is reported using the case management codes.

The final component, time, is discussed in the following pages.

Any specifically identifiable procedure (i.e., identified with a specific CPT code) performed on or subsequent to the date of initial or subsequent E/M services should be reported separately.

The actual performance and/or interpretation of diagnostic test/studies ordered during a patient encounter are not included in the levels of E/M services. Physician performance of diagnostic tests/studies for which specific CPT® codes are available may be reported separately, in addition to the appropriate E/M code. The physician's interpretation of the results of diagnostic tests/studies (i.e., professional component) with preparation of a separate distinctly identifiable signed written report may also be reported separately, using the appropriate CPT code with modifier 26 appended.

The physician or other health care professional may need to indicate that on the day a procedure or service identified by a CPT code was performed, the patient's condition required a significant separately identifiable E/M service above and beyond other ser-

vices provided or beyond the usual preservice and post service care associated with the procedure that was performed. The E/M service may be caused or prompted by the symptoms or condition for which the procedure and/or service was provided. This circumstance may be reported by adding modifier 25 to the appropriate level of E/M service. As such, different diagnoses are not required for reporting of the procedure and the E/M services on the same date.

- **Nature of Presenting Problem:** A presenting problem is a disease, condition, illness, injury, symptom, sign, finding, complaint, or other reason for encounter, with or without a diagnosis being established at the time of the encounter. The E/M codes recognize five types of presenting problems that are defined as follows:
 - Minimal - A problem that may not require the presence of the physician or other qualified health care professional, but service is provided under the physician's or other qualified health care professional's supervision.
 - Self-limited or Minor - A problem that runs a definite and prescribed course, is transient in nature, and is not likely to permanently alter health status OR has a good prognosis with management/compliance.
 - Low severity - A problem where the risk of morbidity without treatment is low; there is little to no risk of mortality without treatment; full recovery without functional impairment is expected.
 - Moderate severity - A problem where the risk of morbidity without treatment is moderate; there is moderate risk of mortality without treatment; uncertain prognosis OR increased probability of prolonged functional impairment.
 - High severity - A problem where the risk of morbidity without treatment is high to extreme; there is a moderate to high risk of mortality without treatment OR high probability of severe, prolonged functional impairment.
- **Past History:** A review of the patient's past experiences with illnesses, injuries, and treatments that includes significant information about:
 - Prior major illnesses and injuries;
 - Prior operations;
 - Prior hospitalizations;
 - Current medications;
 - Allergies (e.g., drug, food);
 - Age appropriate immunization status;
 - Age appropriate feeding/dietary status.
- **Social History:** An age appropriate review of past and current activities that includes significant information about:
 - Marital status and/or living arrangements;
 - Current employment;
 - Occupational history;
 - Military history;
 - Use of drugs, alcohol, and tobacco;
 - Level of education;
 - Sexual history;
 - Other relevant social factors.
- **System Review (Review of Systems):** An inventory of body systems obtained through a series of questions seeking to identify signs and/or symptoms that the patient may be experiencing or has experienced. For the purposes of CPT®, the following elements of a system review have been identified:
 - Constitutional symptoms (fever, weight loss, etc.);
 - Eyes;
 - Ears, nose, mouth, throat;
 - Cardiovascular;
 - Respiratory;
 - Gastrointestinal;
 - Genitourinary;
 - Musculoskeletal;
 - Integumentary (skin and/or breast);
 - Neurological;
 - Psychiatric;
 - Endocrine;
 - Hematologic/Lymphatic;
 - Allergic/Immunologic.

The review of systems helps define the problem, clarify the differential diagnosis, identify needed testing, or serves as baseline data on other systems that might be affected by any possible management options.

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

- Time: The inclusion of time in the definitions of levels of E/M services has been implicit in prior editions of CPT®. The inclusion of time as an explicit factor beginning in CPT® 1992 is done to assist in selecting the most appropriate level of E/M services. It should be recognized that the specific times expressed in the visit code descriptors are averages and, therefore, represent a range of times which may be higher or lower depending on actual clinical circumstances.

Time is **not** a descriptive component for the emergency department levels of E/M services because emergency department services are typically provided on a variable intensity basis, often involving multiple encounters with several patients over an extended period of time. Therefore, it is often difficult to provide accurate estimates of the time spent face-to-face with the patient.

Studies to establish levels of E/M services employed surveys of practicing physicians to obtain data on the amount of time and work associated with typical E/M services. Since “work” is not easily quantifiable, the codes must rely on other objective, verifiable measures that correlate with physicians’ estimates of their “work.” It has been demonstrated that estimations of intraservice time (as explained below), both within and across specialties, is a variable that is predictive of the “work” of E/M services. This same research has shown there is a strong relationship between intraservice time and total time for E/M services. Intraservice time, rather than total time, was chosen for inclusion with the codes because of its relative ease of measurement and because of its direct correlation with measurements of the total amount of time and work associated with typical E/M services.

Intraservice times are defined as **face-to-face** time for office and other outpatient visits and as **unit/floor** time for hospital and other inpatient visits. This distinction is necessary because most of the work of typical office visits takes place during the face-to-face time with the patient, while most of the work of typical hospital visits takes place during the time spent on the patient’s floor or unit. When prolonged time occurs in either the office or the inpatient areas, the appropriate add-on code should be reported.

Face-to-face time (office and other outpatient visits and office consultations): For coding purposes, face-to-face time for these services is defined as only that time spent face-to-face with the patient and/or family. This includes the time spent performing such tasks as obtaining a history, performing an examination, and counseling the patient.

Time is also spent doing work before or after the face-to-face time with the patient, performing such tasks as reviewing records and tests, arranging for further services, and communicating further with other professionals and the patient through written reports and telephone contact.

This non-face-to-face time for office services – also called pre- and post-encounter time – is not included in the time component described in the E/M codes. However, the pre- and post-non-face-to-face work associated with an encounter was included in calculating the total work of typical services in physician surveys.

Thus, the face-to-face time associated with the services described by any E/M code is a valid proxy for the total work done before, during, and after the visit.

Unit/floor time (hospital observation services, inpatient hospital care, initial inpatient hospital consultations, nursing facility): For reporting purposes, intraservice time for these services is defined as unit/floor time, which includes the time present on the patient’s hospital unit and at the bedside rendering services for that patient. This includes the time to establish and/or review the patient’s chart, examine the patient, write notes, and communicate with other professionals and the patient’s family.

In the hospital, pre- and post-time includes time spent off the patient’s floor performing such tasks as reviewing pathology and radiology findings in another part of the hospital.

This pre- and post-visit time is not included in the time component described in these codes. However, the pre- and post-work performed during the time spent off the floor or unit was included in calculating the total work of typical services in physician surveys.

Thus, the unit/floor time associated with the services described by any code is a valid proxy for the total work done before, during, and after the visit.

- C. UNLISTED SERVICE: An E/M service may be provided that is not listed in this section of CPT® codebook. When reporting such a service, the appropriate unlisted code may be used to indicate the service, identifying it by “Special Report,” as discussed in item D. The “Unlisted Services” and accompanying codes for the E/M section are as follows:

99429 Unlisted preventive medicine service

99499 Unlisted evaluation and management service

- D. SPECIAL REPORT: An unlisted service or one that is unusual, variable, or new may require a special report demonstrating the medical appropriateness of the service. Pertinent information should include an adequate definition or description of the nature, extent, and need for the procedure and the time, effort, and equipment necessary to provide the service.

Additional items that may be included are complexity of symptoms, final diagnosis, pertinent physical findings, diagnostic and therapeutic procedures, concurrent problems, and follow-up care.

- E. CLINICAL EXAMPLES: Clinical examples of the codes for E/M services are provided to assist in understanding the meaning of the descriptors and selecting the correct code. The clinical examples are listed in Appendix C. (Appendix C of the CPT® has not been reprinted in this text.) Each example was developed by the specialties shown.

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

The same problem, when seen by different specialties, may involve different amounts of work. Therefore, the appropriate level of encounter should be reported using the descriptors rather than the examples.

F. INSTRUCTIONS FOR SELECTING A LEVEL OF E/M SERVICE:

- Review the Reporting Instructions for the Selected Category or Subcategory: Most of the categories and many of the subcategories of service have special guidelines or instructions unique to that category or subcategory. Where these are indicated, eg, "Inpatient Hospital Care," special instructions will be presented preceding the levels of E/M services.
- Review the Level of E/M Service Descriptors and Examples in the Selected Category or Subcategory: The descriptors for the levels of E/M services recognize seven components, six of which are used in defining the levels of E/M services. These components are:
 - History;
 - Examination;
 - Medical decision making;
 - Counseling;
 - Coordination of care;
 - Nature of presenting problem;
 - Time.

The first three of these components (ie, history, examination and medical decision making) should be considered the key components in selecting the level of E/M services. An exception to this rule is in the case of visits which consist predominantly of counseling or coordination of care. (See instructions for selecting level of E/M Service).

The nature of the presenting problem and time are provided in some levels to assist the physician in determining the appropriate level of E/M service.

- Determine the Extent of History Obtained: The extent of the history is dependent upon clinical judgment and on the nature of the presenting problem(s). The levels of E/M services recognize four types of history that are defined as follows:

Problem Focused - Chief complaint; brief history of present illness or problem.

Expanded Problem Focused - Chief complaint; brief history of present illness; problem pertinent system review.

Detailed - Chief complaint; extended history of present illness; problem pertinent system review extended to include a review of a limited number of additional systems; pertinent past, family, and/or social history directly related to the patient's problems.

Comprehensive - Chief complaint; extended history of present illness; review of systems that is directly related to the problem(s) identified in the history of the present illness plus a review of all additional body systems; complete past, family, and social history.

The comprehensive history obtained as part of the preventive medicine E/M service is not problem-oriented and does not involve a chief complaint or present illness. It does, however, include a comprehensive system review and comprehensive or interval past, family, and social history as well as a comprehensive assessment/history of pertinent risk factors.

- Determine the Extent of Examination Performed: The extent of the examination performed is dependent on clinical judgment and on the nature of the presenting problem(s). The levels of E/M services recognize four types of examination that are defined as follows:

Problem Focused - A limited examination of the affected body area or organ system. Expanded Problem Focused - A limited examination of the affected body area or organ system and other symptomatic or related organ system(s).

Detailed - An extended examination of the affected body area(s) and other symptomatic or related organ system(s).

Comprehensive - A general multisystem examination or a complete examination of a single organ system. Note: The comprehensive examination performed as part of the preventive medicine E/M service is multisystem, but its extent is based on age and risk factors identified.

For the purposes of these CPT® definitions, the following body areas are recognized:

- Head, including the face;
- Neck;
- Chest, including breasts and axilla;
- Abdomen;
- Genitalia, groin, buttocks;
- Back;
- Each extremity;

For the purposes of these CPT® definitions, the following organ systems are recognized:

- Eyes;
- Ears, nose, mouth, and throat;
- Cardiovascular;

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

- Respiratory;
 - Gastrointestinal;
 - Genitourinary;
 - Musculoskeletal;
 - Skin;
 - Neurologic;
 - Psychiatric;
 - Hematologic/Lymphatic/Immunologic.
- Determine the Complexity of Medical Decision Making: Medical decision making refers to the complexity of establishing a diagnosis and/or selecting a management option as measured by:
 - The number of possible diagnoses and/or the number of management options that must be considered;
 - The amount and/or complexity of medical records, diagnostic tests, and/or other information that must be obtained, reviewed and analyzed; and
 - The risk of significant complications, morbidity, and/or mortality, as well as comorbidities, associated with the patient's presenting problem(s), the diagnostic procedure(s) and/or the possible management options.
 Four types of medical decision making are recognized: straightforward; low complexity; moderate complexity; and high complexity. To qualify for a given type of decision making, two of the three elements in the table following must be met or exceeded.

Table 1. Complexity of Medical Decision Making

Number of Diagnoses or Management Options	Amount and/or Complexity of Data to be Reviewed	Risk of Complications and/or Morbidity or Mortality	Type of Decision Making
Minimal	Minimal or none	Minimal	Straightforward
Limited	Limited	Low	Low complexity
Multiple	Moderate	Moderate	Moderate complexity
Extensive	Extensive	High	High complexity

Comorbidities/underlying diseases, in and of themselves, are not considered in selecting a level of E/M services unless their presence significantly increases the complexity of the medical decision making.

- Select the Appropriate Level of E/M Services Based on the Following:
 1. For the following categories/subcategories, all of the key components i.e., history, examination, and medical decision making, must meet or exceed the stated requirements to qualify for a particular level of E/M service: office, new patient; hospital observation services; initial hospital care; office consultations; initial inpatient consultations; emergency department services; initial nursing facility care; domiciliary care, new patient; and home, new patient.
 2. For the following categories/subcategories, two of the three key components (i.e., history, examination, and medical decision making) must meet or exceed the stated requirements to qualify for a particular level of E/M services: office, established patient; subsequent hospital care; subsequent nursing facility care; domiciliary care, established patient; and home, established patient.
 3. When counseling and/or coordination of care dominates (more than 50%) the encounter with the patient and/or family (face-to-face time in the office or other outpatient setting or floor/unit time in the hospital or nursing facility), then time shall be considered the key or controlling factor to qualify for a particular level of E/M services. This includes time spent with parties who have assumed responsibility for the care of the patient or decision making whether or not they are family members (e.g., foster parents, person acting in loco parentis, legal guardian). The extent of counseling and/or coordination of care must be documented in the medical record.

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

Category III

CATEGORY III CODES GUIDELINES

This Fee Schedule has been updated to incorporate by reference the 2019 Edition of the American Medical Association's Physicians' Current Procedural Terminology, Fourth Edition (CPT®-4), including the general guidelines, identifiers, modifiers, and terminology changes associated with the adopted codes. In this Fee Schedule CPT® codes that contain explanatory language specific to Arizona are preceded by Δ. Codes, however, that are unique to Arizona and not otherwise found in CPT®-4 are preceded by an AZ identifier and numbered in the following format: AZ0xx-xxx. Additional information regarding publications adopted by reference is found in the Introduction of the Fee Schedule.

Category III Codes are temporary codes developed to allow collection of data for emerging technology, services, and procedures. The five character alphanumeric codes contain four numbers with one alpha character in the fifth place. If a Category III Code is available, this code must be reported instead of a Category I unlisted code.

To the extent that a conflict may exist between an adopted portion of the C15

PT®-4 and a code, guideline, identifier or modifier unique to Arizona, then the Arizona code, guideline, identifier or modifier shall control.

PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), accepts state agency rule filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

RULES

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into titles. Titles are divided into chapters. A chapter includes state agency rules. Rules in chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each chapter.

First Quarter: January 1 - March 31

Second Quarter: April 1 - June 30

Third Quarter: July 1 - September 30

Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2019 is cited as Supp. 19-1.

Please note: The Office publishes by chapter, not by individual rule section. Therefore there might be only a few sections codified in each chapter released in a supplement. Historical notes at the end of a section provide an effective date and information when a rule was last updated.

AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate chapters of the *Administrative Code* in Supp. 18-1 to comply with A.R.S. § 41-1012(B) and A.R.S. § 5302(1), (2)(d) through (e), and (3)(d) through (e).

A certification verifies the authenticity of each *Code* chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority

note to make rules is often included at the beginning of a chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in a chapter can be found at the Secretary of State’s website, under Services-> Legislative Filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor’s notes at the beginning of a chapter provide information about rulemaking sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

EXEMPTIONS AND PAPER COLOR

At one time the office published exempt rules on either blue or green paper. Blue meant the authority of the exemption was given by the Legislature; green meant the authority was determined by a court order. In 2001 the Office discontinued publishing rules using these paper colors.

PERSONAL USE/COMMERCIAL USE

This chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

- A. The definitions in R20-6-201(A) and the following definition apply in this Section:

"Life insurance" means a life insurance contract, including all benefits payable under the policy.
- B. Applicability
 1. This Section applies to:
 - a. All persons subject to regulation under A.R.S. Title 20; and
 - b. Advertising, promotion, solicitation, negotiation, and sale of life insurance policies, regardless of the form of dissemination.
 2. This Section does not apply to group insurance, franchise insurance, or to annuities without life contingencies.
- C. General provisions. A life insurance advertisement shall not mislead the public by:
 1. Omitting information that fairly describes the subject matter as a life insurance policy and the benefits available under the policy;
 2. Placing undue emphasis on facts that, even if true, are not relevant to the sale of life insurance; or
 3. Placing undue emphasis on features of incidental or secondary importance to the life insurance aspects of the policy.
- D. The Department deems the following acts misleading and deceptive:
 1. Using any statement, including phrases such as "investment," "investment plan," "founders plan," "charter plan," "expansion plan," "profit," "profits," or "profit sharing," in a context or under circumstances or condi-

- tions that may mislead a purchaser or prospective purchaser to believe that the insurer is selling something other than a life insurance policy or will provide some benefit not included in the policy, or not available to other persons of the same class and equal expectation of life;
2. Using any phrase as the name or title of a life insurance policy if the phrase does not include the words "life insurance," unless other language in the same document expressly provides that the contract is a life insurance policy;
3. Making any statement relating to the growth or earnings of the life insurance industry or to the tax status of life insurance companies in a context that would reasonably be understood as attempting to interest a prospective applicant in the purchase of shares of stock in the insurance company rather than in the purchase of a life insurance policy;
4. Making any statement that reasonably tends to imply that the insured will enjoy a status common to a stockholder or will acquire a stock ownership interest in the insurance company by purchasing the policy, unless the statement is made with reference to policies of domestic life insurers engaged in a program allowed under A.R.S. § 20-453;
5. Providing a policyholder with a premium receipt book, policy jacket, return envelope, or other printed or electronic material referring to the insurer's "investment department," "insured investment department," or similar terminology in a manner implying that the policy is sold, issued, or serviced by the insurer's investment department;
6. Making any statement that reasonably tends to imply that, by purchasing a policy, the purchaser or prospective purchaser will become a member of a limited group of persons who may receive the payment of dividends, special advantages, benefits, or favored treatment unless the insurance contract specifically provides for the described payment of dividend, special advantages, benefits, or favored treatment;
7. Stating or implying that only a limited number of persons or limited class of persons may buy a particular kind of policy, unless the limitation is related to recognized underwriting practices or specifically stated in the policy or rider;
8. Describing premium payments in language that states the payment is a "deposit," unless:
 - a. The payment establishes a debtor-creditor relationship between the insurance company and the policyholder; or
 - b. The term is used with the word "premium" in a manner as to clearly indicate the true character of the payment;
9. Providing any illustration or projection of future dividends that:
 - a. Is not based on the company's actual scale for payment of current dividends, and
 - b. Does not clearly indicate that the dividends are not guarantees;
10. Using the words "dividends," "cash dividends," "surplus," or similar phrases in a manner that states or implies that the payment of dividends is guaranteed or certain to occur;
11. Stating, without qualification, that a purchaser of a policy will share in a stated percentage or portion of the insurer's earnings;
12. Making any statement that projected dividends under a participating policy will be or can be sufficient at any

future time to assure the receipt of benefits such as a paid-up policy without further payment of premiums unless the statement also explains:

- a. The benefits or coverage that would be provided at the future time, and
 - b. The conditions under which the receipt of benefits without further payment of premiums would occur;
13. Describing a life insurance policy or premium payments in terms of "units of participation," unless accompanied by other language clearly indicating that the references are to a life insurance policy or to premium payments, as applicable.
 14. Advising producers to avoid disclosing that life insurance is the subject of the solicitation or sale;
 15. Stating that an insured is guaranteed certain benefits if the policy is allowed to lapse, without explaining the non-forfeiture benefits;
 16. Using a dollar amount in printed material to be shown to a prospective policyholder, unless the amount is accompanied by language that:
 - a. States the nature of the dollar amount,
 - b. Prohibits including the use of dollar amounts not related to guaranteed values and properly projected dividend figures, and
 - c. Prohibits the use of figures showing growth of stock values, or other values not a part of the life insurance contract.
 17. Stating that a policy provides features not found in any other insurance policy, unless the insurer can demonstrate that other policies do not have the same feature;
 18. Making any statement or implication about an insurance policy that cannot be verified by reference to the policy contract, a sample of the policy being described, or the company's officially published rate book and dividend illustrations;
 19. Stating that life insurance is "loss proof" or "depression proof," except that an insurer may make statements that life insurance benefits, other than dividends, are guaranteed by the company regardless of economic conditions;
 20. Making any statement that a company makes a profit as a result of policy lapses or surrenders;
 21. Making comparisons to the past experience of other life insurance companies as a means of projecting possible experience for the company issuing the advertising; and
 22. Conduct or statements designed to mislead a prospective applicant or purchaser.

 - e. The succeeding insurer, in applying any deductibles, coinsurance amounts applicable to out-of-pocket maximums, or waiting periods, shall give credit for the satisfaction or partial satisfaction of the same or similar provisions under a prior plan providing simi-

lar benefits. For deductibles or coinsurance amounts applicable to out-of-pocket maximums, the credit shall apply for the same or overlapping benefit periods and shall be given for expenses actually incurred and applied against the deductible or coinsurance provisions of the prior plan during the 90 days before the effective date of the succeeding insurer's plan but only to the extent these expenses are recognized under the terms of the succeeding insurer's plan and are subject to similar deductible or coinsurance provisions.

- f. If the succeeding insurer is required under this Section to make a determination about the benefits in the prior plan, the succeeding insurer may ask the prior plan to provide a statement of the benefits available or other pertinent information sufficient to permit the succeeding insurer to verify the benefit determination. For the purposes of this Section, all definitions, conditions, and covered-expense provisions of the prior plan shall govern the benefit determination. The benefit determination is made as if the succeeding insurer had not replaced coverage.

- 2. "Cash dividend" means the current illustrated dividend that can be applied toward payment of the gross premium.
- 3. "Equivalent Level Annual Dividend" is calculated as follows:
 - a. Accumulate the annual cash dividends at 5% interest compounded annually to the end of the 10th and 20th policy years;
 - b. Divide each accumulation in subsection (a) by an interest factor that converts the accumulation into one equivalent level annual amount that, if paid at the beginning of each year, would accrue to the values in subsection (a) over the periods stipulated in

CHAPTER 6. DEPARTMENT OF INSURANCE

- subsection (a). If the period is 10 years, the factor is 13.207 and if the period is 20 years, the factor is 34.719.
- c. Divide the results in subsection (b) by the number of thousands of the Equivalent Level Death Benefit to arrive at the "Equivalent Level Annual Dividend."
 4. "Equivalent Level Death Benefit" means the amount of benefit of a policy or term life insurance rider calculated as follows:
 - a. Accumulate the guaranteed amount payable upon death, regardless of the cause of death, at the beginning of each policy year for 10 and 20 years at 5% interest compounded annually to the end of the 10th and 20th policy years, respectively.
 - b. Divide each accumulation in subsection (a) by an interest factor that converts the accumulation into one equivalent level annual amount that, if paid at the beginning of each year, would accrue to the value in subsection (a) over the periods stipulated in subsection (a).  - c. Divide the result in subsection (b) (subsection (a) for guaranteed-cost policies) by an interest factor that converts into an equivalent level annual amount that, if paid at the beginning of each year, would accrue to the value in subsection (b) or subsection (a) for guaranteed cost policies, over the periods stipulated in subsection (a)). If the period is 10 years, the factor is 13.207 and if the period is 20 years, the factor is 34.719.
 - d. Determine the equivalent level premium by accumulating each annual premium payable for the basic policy or rider at 5% interest compounded annually to the end of the period stipulated in subsection (a) and dividing the result by the respective factors stated in subsection (c). This amount is the annual premium payable for a level premium plan.

CHAPTER 6. DEPARTMENT OF INSURANCE

- k. The date on which the Policy Summary is prepared. The Policy Summary shall consist of a separate document. All information required to be disclosed shall not be minimized or obscure. Any amounts that remain level for two or more years of the policy may be represented by a single number that clearly indicates the amounts that are applicable for each policy year. Amounts in subsection (8)(e) shall be listed in total, not on a per thousand nor per unit basis. If more than one insured is covered under one policy or rider, guaranteed death benefits shall be displayed separately for each insured or for each class of insured if death benefits do not differ within the class. Zero amounts shall be displayed as zero and shall not be displayed as a blank space.
- C. Disclosure requirements.
1. The insurer shall provide to all prospective purchasers, a Buyer's Guide and a Policy Summary before accepting the applicant's initial premium or premium deposit, unless the policy for which application is made contains an unconditional refund provision of at least 10 days or unless the Policy Summary contains an unconditional refund offer, in which case the Buyer's Guide and Policy Summary shall be delivered with the policy or before delivery of the policy.
 2. The insurer shall provide a Buyer's Guide and a Policy Summary to any prospective purchaser upon request.
 3. If the Equivalent Level Death Benefit of a policy does not exceed \$5,000, the requirement for providing a Policy Summary is satisfied by delivery of a written statement containing the information described in subsections (D)(8)(b), (c), (d), (e)(i) through (e)(iii), (f), (g), (j), and (k).

If an insurance producer is not involved in the sale, the insurer shall inform the prospective purchaser of the insurance company's full name.
 3. An insurer or producer shall not use terms such as financial planner, investment advisor, financial consultant, or financial counseling to imply that the insurance producer is generally engaged in an advisory business in which compensation is unrelated to sales unless that is true.
 4. If an insurer or producer refers to policy dividends, the reference shall include a statement that dividends are not guaranteed.
 5. An insurer shall not use a system or presentation that does not recognize the time value of money through the use of appropriate interest adjustments for comparing the cost of two or more life insurance policies unless the system or presentation is used to demonstrate the cash flow pattern of a policy and the presentation is accompanied by a statement disclosing that the presentation does not recognize that, because of interest, a dollar in the future has less value than a dollar today.
 6. In a presentation of benefits, an insurer shall not display guaranteed and non-guaranteed benefits as a single sum unless they are shown separately and in close proximity.
 7. An insurer shall include with a statement regarding the use of the Life Insurance Cost Indexes an explanation that the indexes are useful only for the comparison of the relative costs of two or more similar policies.

- E. An insurer's failure to provide or deliver a Buyer's Guide or a Policy Summary as provided in subsection (C) constitutes an omission that misrepresents the benefits, advantages, conditions, or terms of an insurance policy.
- Appendix. Life Insurance Buyers Guide**
- Life Insurance Buyer's Guide
- The face page of the Buyer's Guide shall read as follows:
- Life Insurance Buyer's Guide
- This guide can show you how to save money when you shop for life insurance. It helps you to:
- Decide how much life insurance you should buy,
 - Decide what kind of life insurance policy you need, and
 - Compare the cost of similar life insurance policies.
- Prepared by the National Association of Insurance Commissioners
- Reprinted by (Company Name)
- (Month and year of printing)
- The Buyer's Guide shall contain the following language at the bottom of page 2:
- The National Association of Insurance Commissioners is an association of state insurance regulatory officials. This association helps the various Insurance Departments to coordinate insurance laws for the benefit of all consumers. You are urged to use this Guide in making a life insurance purchase.
- Buying Life Insurance**
- When you buy life insurance, you want a policy that fits your needs without costing too much. Your first step is to decide how much you need, how much you can afford to pay and the kind of policy you want. Then, find out what various companies charge for that kind of policy. You can find important differences in the cost of life insurance by using the life insurance cost indexes that are described in this guide. A good life insurance producer or company will be able and willing to help you with each of these shopping steps.
- If you are going to make a good choice when you buy life insurance, you need to understand what kinds are available. If one kind does not seem to fit your needs, ask about the other kinds that are described in this guide. If you feel that you need more information than is given here, you may want to check with a life insurance producer or company or books on life insurance in your public library.
- This guide does not endorse any company or policy.
- The remaining text of the buyer's guide shall begin on page 3 as follows:
- Choosing the Amount**
- One way to decide how much life insurance you need is to figure how much cash and income your dependents would need if you were to die. You should think of life insurance as a source of cash needed for

CHAPTER 6. DEPARTMENT OF INSURANCE

expenses of final illnesses, paying taxes, mortgages or other debts. It can also provide income for your family's living expenses, educational costs and other future expenses. Your new policy should come as close as you can afford to making up the difference between (1) what your dependents would have if you were to die now, and (2) what they would actually need.

Choosing the Right Kind

All life insurance policies agree to pay an amount of money if you die. But all policies are not the same. There are three basic kinds of life insurance.

1. Term insurance
2. Whole life insurance
3. Endowment insurance

Remember, no matter how fancy the policy title or sales presentation might appear, all life insurance policies contain one or more of the three basic kinds. If you are confused about a policy that sounds complicated, ask the producer or company if it combines more than one kind of life insurance. The following is a brief description of the three basic kinds:

Term Insurance

Term insurance is death protection of a "term" of one or more years. Death benefits will be paid only if you die within that term of years. Term insurance generally provides the largest immediate death protection for your premium dollar.

Some term insurance policies are "renewable" for one or more additional terms even if your health has changed. Each time you renew the policy for a new term, premiums will be higher. You should check the premiums at older ages and the length of time the policy can be continued.

Some term insurance policies are also "convertible." This means that before the end of the conversion period, you may trade the term policy for a whole life or endowment insurance policy even if you are not in good health. Premiums for the new policy will be higher than you have been paying for the term insurance.

Whole Life Insurance

Whole life insurance gives death protection for as long as you live. The most common type is called "straight life" or "ordinary life" insurance, for which you pay the same premiums for as long as you live. These premiums can be several times higher than you would pay initially for the same amount of term insurance. But they are smaller than the premiums you would eventually pay if you were to keep renewing a term insurance policy until your later years.

Some whole life policies let you pay premiums for a shorter period such as 20 years, or until age 65. Premiums for these policies are higher than for ordinary life insurance since the premium payments are squeezed into a shorter period.

Although you pay higher premiums, to begin with, for whole life insurance than for term insurance, whole life insurance policies develop "cash values" which you may have if you stop paying premiums. You can generally either take the cash, or use it to buy some continuing insurance protection. Technically speaking, these values are called "nonforfeiture benefits." This refers to benefits you do not lose (or "forfeit") when you stop paying premiums. The amount of these benefits depends on the kind of policy you have, its size, and how long you have owned it.

A policy with cash values may also be used as collateral for a loan. If you borrow from the life insurance company, the rate of interest is shown in your policy. Any money that you owe on a policy loan would be deducted from the benefits if you were to die, or from the cash value if you were to stop paying premiums.

Endowment Insurance

An endowment insurance policy pays a sum or income to you – the policyholder – if you live to a certain age. If you were to die before then, the death benefit would be paid to your beneficiary. Premiums and cash values for endowment insurance are higher than the same amount of whole life insurance. Thus endowment insurance gives you the least amount of death protection for your premium dollar.

Finding a Low Cost Policy

After you have decided which kind of life insurance fits your needs, look for a good buy. Your chances of finding a good buy are better if you use two types of index numbers that have been developed to aid in shopping for life insurance. One is called the "Surrender Cost Index" and the other is the "Net Payment Cost Index." It will be worth your time to try to understand how these indexes are used, but in any event, use them only for comparing the relative costs of similar policies. **LOOK FOR POLICIES WITH LOW COST INDEX NUMBERS.**

What is Cost?

"Cost" is the difference between what you pay and what you get back. If you pay a premium for life insurance and get nothing back, your cost for the death protection is the premium. If you pay a premium and get something back later on, such as a cash value, your cost is smaller than the premium.

The cost of some policies can also be reduced by dividends; these are called "participating" policies. Companies may tell you what their current dividends are, but the size of future dividends is unknown today and cannot be guaranteed. Dividends actually paid are set each year by the company.

Some policies do not pay dividends. These are called "guaranteed cost" or "non participating" policies. Every feature of a guaranteed cost policy is fixed so that you know in advance what your future cost will be.

The premiums and cash values of a participating policy are guaranteed, but the dividends are not. Premiums for participating policies are typically higher than for guaranteed cost policies, but the cost to you may be higher or lower, depending on the dividends actually paid.

What Are Cost Indexes?

In order to compare the cost of policies, you need to look at:

1. Premiums
2. Cash values
3. Dividends

Cost indexes use one or more of these factors to give you a convenient way to compare relative costs of similar policies. When you compare costs, an adjustment must be made to take into account that money is paid and received at different times. It is not enough to just add up the premiums you will pay and subtract the cash values and dividends you expect to get back. These indexes take care of the arithmetic for you. Instead of having to add, subtract, multiply and divide many numbers yourself, you just compare the index numbers which you can get from life insurance producers and companies:

1. Life Insurance Surrender Cost Index. This index is useful if you consider the level of the cash values to be of primary importance to you. It helps you compare costs if at some future point in time, such as 10 or 20 years, you were to surrender the policy and take its cash value.
Life Insurance Net Payment Cost Index. This Index is useful if your main concern is the benefits that are to be paid at your death and if the level of cash values is of secondary importance to you. It helps you compare costs at some future point

CHAPTER 6. DEPARTMENT OF INSURANCE

in time, such as 10 or 20 years, if you continue paying premiums on your policy and do not take its cash value.

There is another number called the Equivalent Level Annual Dividend. It shows the part dividends play in determining the cost index of a participating policy. Adding a policy's Equivalent Level Annual Dividend to its cost index allows you to compare total costs of similar policies before deducting dividends. However, if you make any cost comparisons of a participating policy with a non participating policy, remember that the total cost of the participating policy will be reduced by dividends, but the cost of the non participating policy will not change.

How Do I Use Cost Indexes?

The most important thing to remember when using cost indexes is that a policy with a small index number is generally a better buy than a comparable policy with a larger index number. The following rules are also important:

- (1) Cost comparisons should only be made between similar plans of life insurance. Similar plans are those which provide essentially the same basic benefits and require premium payments for approximately the same period of time. The closer policies are to being identical, the more reliable the cost comparison will be.
- (2) Compare index numbers only for the kind of policy, for your age and for the amount you intend to buy. Since no one company offers the lowest cost for all types of insurance at all ages and for all amounts of insurance, it is important that you get the indexes for the actual policy, age and amount which you intend to buy. Just because a "Shopper's Guide" tells you that one company's policy is a good buy for a particular age and amount, you should not assume that all of that company's policies are equally good buys.
- (3) Small differences in index numbers could be offset by other policy features, or differences in the quality of service you may expect from the company or its producer. Therefore, when you find small differences in cost indexes, your choice should be based on something other than cost.
- (4) In any event, you will need other information on which to base your purchase decision. Be sure you can afford the premiums, and that you understand its cash values, dividends and death benefits. You should also make a judgment on how well the life insurance company or producer will provide service in the future, to you as a policyholder.
- (5) These life insurance cost indexes apply to new policies and should not be used to determine whether you should drop a policy you have already owned for awhile, in favor of a new one. If such a replacement is suggested, you should ask for information from the company that issued the old policy before you take action.

Important Things To Remember – A Summary

The first decision you must make when buying a life insurance policy is choosing a policy whose benefits and premiums must closely meet your needs and ability to pay. Next, find a policy which is also a relatively good buy. If you compare Surrender Cost Indexes and Net Payment Cost Indexes of similar competing policies, your chances of finding a relatively good buy will be better than if you do not shop. REMEMBER, LOOK FOR POLICIES WITH LOWER COST INDEX NUMBERS. A good life insurance producer can help you to choose the amount of life insurance and kind of policy you want and will give you cost indexes so that you make cost comparisons of similar policies.

Don't buy life insurance unless you intend to stick with it. A policy which is a good buy when held for 20 years can be very costly if you quit during the early years of the policy. If you surrender such a policy

during the first few years, you may get little or nothing back and much of your premium may have been used for company expenses.

Read your new policy carefully, and ask the producer or company for an explanation of anything you do not understand. Whatever you decide now, it is important to review your life insurance program every few years to keep up with changes in your income and responsibilities.

R20-6-213. Life and Disability Insurance Policy Language Simplification

 1. "Company" or "insurer" means any life or disability insurance company, benefit insurer, benefit stock insurer, prepaid dental plan organizations, health care service organizations, and all similar type organizations.
 2. "Director" means the Director of Insurance of Arizona.
 3. "Policy" or "policy form" means any policy, contract, plan or agreement of life or disability insurance, including credit life insurance and credit disability insurance, delivered or issued for delivery in the state by any company subject to this rule; and any certificate issued under a group insurance policy delivered or issued for delivery in this state.
- B. Applicability.

CHAPTER 6. DEPARTMENT OF INSURANCE

1. This Section and R20-6-212 apply to all life and disability insurance policies delivered or issued for delivery in this state by any company but do not apply to:
 - a. Any policy that is a security subject to federal jurisdiction;
 - b. Any group policy covering a group of 1,000 or more lives at date of issue, other than a group credit life insurance policy or a group credit disability insurance policy however, this shall not exempt any certificate issued under a group policy delivered or issued for delivery in this state; or
 - c. Any group annuity contract that serves as a funding vehicle for pension, profit-sharing, or deferred compensation plans;
 2. Except as provided in R20-6-210, no other rule of this state setting language simplification standards shall apply to any policy forms.
- C. Minimum policy language simplification standards.**
1. Except as stated in subsection (B), an insurer shall not deliver or issue for delivery a policy form that has not been approved by the Director unless:
 - a. The text achieves a minimum score of 40 on the Flesch reading ease test or an equivalent score on any other comparable test as provided in subsection (3);
 - b. It is printed, except for specification pages, schedules, and tables, in no less than 10 point type, one point leaded;
 - c. The style, arrangement and overall appearance of the policy do not give undue prominence to any portion of the text of the policy or to any endorsements or riders; and
 - d. The policy, if the policy has more than 3,000 words printed on three or fewer pages of text or if the policy has more than three pages regardless of the number of words, contains a table of contents or an index of the principal sections of the policy.
 2. An insurer shall measure a Flesch reading ease test score as follows:
 - a. For policy forms containing 10,000 words or less of text, an insurer shall analyze the entire form. For policy forms containing more than 10,000 words, an insurer may analyze the readability of two, 200-word samples per page instead of the entire form. The insurer shall separate the samples by at least 20 printed lines.
 - b. The insurer shall count the number of words and sentences in the text, then divide the total number of words by the total number of sentences, then multiply that figure by a factor of 1.015.
 - c. The insurer shall count and divide the total number of syllables by the total number of words, then multiply that figure by a factor of 84.6.
 - d. The sum of the figures computed under subsections (b) and (c) subtracted from 206.835 equals the Flesch reading ease score for the policy form.
 - e. For subsections (b), (c), and (d), the insurer shall use the following procedures:
 - i. A contraction, hyphenated word, or numbers and letters, when separated by spaces, shall be counted as one word;
 - ii. A unit of words ending with a period, semicolon, or colon, but excluding headings and captions, shall be counted as a sentence; and
 - iii. A syllable means a unit of spoken language consisting of one or more letters of a word as divided by an accepted dictionary. If the dictionary shows two or more equally acceptable pronunciations of a word, the pronunciation containing fewer syllables may be used.
 - f. The term "text" as used in this subsection shall include all printed matter except the following:
 - i. The name and address of the insurer, the name, number or title of the policy, the table of contents or index, captions and subcaptions, specification pages, schedules or tables; and
 - ii. Policy language that is drafted to conform to the requirements of a federal law, regulation, or agency interpretation, policy language required by a collectively bargained agreement, medical terminology, words defined in the policy, and policy language required by law or regulation, if the insurer identifies the language or terminology excepted by this subsection and certifies, in writing, that the language or terminology is entitled to be excepted by this subsection.
 3. Any other reading test may be approved by the Director for use as an alternative to the Flesch reading test if it is comparable in result to the Flesch reading ease test.
 4. Filings subject to this subsection shall be accompanied by a certificate signed by an officer of the insurer stating that the filing meets the minimum reading ease score on the test used or stating that the score is lower than the minimum required but should be approved under subsection (G) of this Section. To confirm the accuracy of any certification, the Director may require the submission of further information to verify the certification in question.
 5. At the option of the insurer, riders, endorsements, applications and other forms made a part of the policy may be scored as separate forms or as part of the policy with which they may be used.
- D. The Director may authorize a lower score than the Flesch reading ease score required in subsection (C)(1)(a) if a lower score:**
1. Provides a more accurate reflection of readability of a policy form;
 2. Is warranted by the nature of a particular policy form or type or class of policy forms; or
 3. Is caused by certain policy language drafted to conform to the requirements of any state statute, rule, or agency interpretation of law.
- Historical Note**
- Adopted effective November 27, 1977 (Supp. 77-6).
 Amended effective March 27, 1978 (Supp. 78-2).

Former R20-6-213 renumbered to R20-6-211; new R20-6-213 renumbered from R20-6-216 and amended by final rulemaking at 13 A.A.R. 2061, effective August 4, 2007 (Supp. 07-2). - R20-6-214. Coordination of Benefits**
- A. Applicability.**
1. This Section applies to all:
 - a. Group disability insurance policies;
 - b. Group subscriber contracts of hospital and medical service corporations and health care services organizations;
 - c. Group disability policies of benefit insurers; and

CHAPTER 6. DEPARTMENT OF INSURANCE

- d. Group-type contracts that contain a coordination of benefits provision, are not available to the general public, and can be obtained and maintained only because of the covered person's membership in or connection with a particular organization. Group-type contracts that meet this description are included regardless of whether denominated as "franchise," "blanket," or some other designation.
- 2. This Section does not apply to:
 - a. Individual or family policies or individual or family subscriber contracts except as provided for in subsection (A)(1);
 - b. Group or group-type hospital indemnity benefits, written on a non-expense incurred basis, of \$30 per day or less unless characterized as reimbursement-type benefits and designed or administered to give the insured the right to elect indemnity-type benefits, instead of the reimbursement type benefits at the time of claim; or
 - c. School accident type coverages, written on a blanket, group, or franchise basis.
- B. Definitions.** In this Section, the following definitions apply:
 - 1. "Allowable expense" means any necessary, reasonable, and customary item of expense, at least a portion of which is covered under one or more of the plans covering the person for whom claim is made or service provided.
 - a. When a plan provides benefits in the form of services rather than cash payments, the reasonable cash value of each service rendered is deemed to be both an allowable expense and a benefit paid.
 - b. A plan that takes Medicare or similar government benefits into consideration when determining the application of its coordination of benefits provision does not expand the definition of an allowable expense.
 - 2. "Claim determination period" means an appropriate period of time such as "calendar year" or "benefit period" as defined in the policy.
 - 3. "Plan," within the coordination of benefits provisions of a group policy or subscriber contract, means the types of coverage that the insurer may consider in determining whether overinsurance exists with respect to a specific claim.
 - 4. "School accident-type coverage" means coverage of grammar school and high school students for accidents only, including athletic injuries, either on a 24-hour basis or "to-and-from school," for which the parent pays the entire premium.
- C. Order-of-benefit determination.**
 - 1. When a claim under a plan with a coordination of benefit provision involves another plan that also has a coordination of benefit provision, the insurer shall make the order-of-benefit determination as follows:
 - a. The plan that covers the person claiming benefits other than as a dependent shall determine benefits before those of the plan that covers the person as a dependent.
 - b. The plan of a parent whose birthday occurs earlier in a calendar year shall cover a dependent child before the benefits of a plan of a parent whose birthday occurs later in a calendar year. The word "birthday" as used in this subsection refers only to month and day in a calendar year, not the year in which the person was born.
 - c. If two or more plans cover a person as a dependent child of divorced or separated parents, benefits for the child are determined in the following order:
 - i. First, the plan of the parent with custody of the child;
 - ii. Then, the plan of the spouse of the parent with custody of the child; and
 - iii. Finally, the plan of the parent not having custody of the child.
 - d. Notwithstanding subsection (c), if the specific terms of a court decree state that one of the parents is responsible for the health care expenses of the child, and the entity obligated to pay or provide the benefits of the plan of that parent has actual knowledge of those terms, the benefits of that plan are determined first.
- 2. The benefits of a plan that covers a person as an employee (or as that employee's dependent) are determined before those of a plan that covers that person as a laid off or retired employee (or as that employee's dependent). If the other plan does not have this provision and if, as a result, the plans do not agree on the order of benefits, this subsection does apply.
- 3. If none of the provisions of subsection (C) determines the order of benefits, the benefits of the plan that covered a claimant longer are determined before those of the plan that covered that person for the shorter time.
- 4. If one of the plans is issued out of this state and determines the order of benefits based upon the gender of a parent and, as a result, the plans do not agree on the order of benefits, the plan with the gender rule shall determine the order of benefits.
- D. Excess and other nonconforming provisions.** A plan with an order of benefit determination provision that complies with this Section, a complying plan, may coordinate its benefits with a plan that is "excess" or "always secondary" or that uses an order-of-benefit determination provision that is inconsistent with this Section, a noncomplying plan, on the following basis:
 - 1. If the complying plan is the primary plan, it shall pay or provide its benefits on a primary basis.
 - 2. If the complying plan is the secondary plan, it shall pay or provide its benefits first, as the secondary plan. The payment shall be the limit of the complying plan's liability, except as provided in subsection (4).
 - 3. If the noncomplying plan does not provide the information needed by the complying plan to determine its benefits within a reasonable time after it is requested to do so, the complying plan shall assume that the benefits of the noncomplying plan are identical to its own, and shall pay benefits accordingly. The complying plan shall adjust any payments it makes based on the assumption whether information becomes available as the actual benefits of the noncomplying plan.
 - 4. If the noncomplying plan pays benefits so that the claimant receives less in benefits than the claimant would have received had the noncomplying plan paid or provided its benefits as the primary plan, the complying plan shall advance to or on behalf of the claimant an amount equal to the difference. The complying plan shall not have a right to reimbursement from the claimant.

 - i. The agreement shall provide for assumption of all policyholder claims by the reinsurer including claims incurred but unreported as of the effective date of the agreement.
 - ii. The agreement may include recapture provisions exercisable by the insurer in the event the termination of its certificate of authority is not completed.
 - iii. Unless the director otherwise approves, the agreement shall provide that the reinsurer be licensed in Arizona for the particular lines of business reinsured.
 - b. Merge with another insurer that:
 - i. Assumes the liabilities of the non-surviving insurer; and
 - ii. Is authorized in Arizona for the previously written and active lines of business assumed, unless otherwise approved by the director.
 - c. Use its deposit, any additional security deposit or both to secure payment of former policyholder, policyholder, or claimant liabilities that are not reinsured or otherwise secured.

- R20-6-306. Reserved**
- R20-6-307. Life and Disability Reinsurance Agreements**
- A. Scope.** This rule applies to all domestic life and disability insurers and reinsurers, and to all other licensed life and disability insurers and accredited reinsurers that are not subject to a substantially similar rule in their jurisdictions of domicile. This rule applies to the disability business of licensed property and casualty insurers. This rule does not apply to assumption reinsurance, yearly renewable term reinsurance, or nonproportional stop loss or catastrophe reinsurance, or similar forms of nonproportional reinsurance.
- B. Definitions**
1. "Agreement" means a reinsurance agreement and any amendment to a reinsurance agreement.
 2. "Credit Quality" means the risk that invested assets supporting the reinsured business will decrease in value but excludes decreases to changes in interest rate.
 3. "Department" means the Arizona Department of Insurance.
 4. "Director" means the Director of the Arizona Department of Insurance.
 5. "Disintermediation" means the risk that interest rates will rise and policy loans and surrenders will increase or maturing contracts will not renew at anticipated rates of renewal.

CHAPTER 6. DEPARTMENT OF INSURANCE

6. "Lapse" means the risk that a policy will voluntarily terminate before the recoupment of a statutory surplus strain experienced at issuance of the policy.
7. "Reinvestment" means the risk that interest rates will fall and funds reinvested will therefore earn less than expected.

C. Accounting Requirements

1. Unless authorized by the director, an insurer shall not, for reinsurance ceded, reduce any liability, or establish any asset in any statutory financial statement filed with the Department if, by the terms of the agreement, or in effect, any of the following conditions exist:
 - a. Renewal expense allowances provided or to be provided to the ceding insurer by the reinsurer in any accounting period are not sufficient to cover the ceding insurer's allocable renewal expenses anticipated at the time the business is reinsured on the portion of the business reinsured, unless a liability is established for the present value of the shortfall using assumptions equal to the applicable statutory reserve basis on the business reinsured.
 - b. The ceding insurer is required to reimburse the reinsurer for negative experience under the agreement. Neither the offset of the ceding insurer's experience refunds against current and prior years' losses, nor payment by the ceding insurer of an amount equal to the reinsurer's current and prior years' losses upon voluntary termination of in-force reinsurance by the ceding insurer, shall be considered a reimbursement to the reinsurer for negative experience.
 - c. The ceding insurer may be deprived of surplus or assets at the reinsurer's option or automatically upon the occurrence of a specified event, including the insolvency of the ceding insurer. Termination of the agreement by the reinsurer for nonpayment of reinsurance premiums or other amounts due shall not be considered a deprivation of surplus or assets within the meaning of this subsection.
 - d. The ceding insurer is required, at scheduled times, to terminate the agreement or recapture automatically all or part of the reinsurance ceded.
 - e. The ceding insurer may be required to pay the reinsurer amounts other than from income reasonably expected from the reinsured policies.
 - f. Significant risks inherent in the business reinsured are not transferred to the reinsurer. Table A identifies the risks deemed significant for representative types of business.
 - g. The credit quality, reinvestment, or disintermediation risk is significant for the business reinsured and the ceding company does not transfer the underlying assets to the reinsurer, segregate the underlying assets in a trust or escrow account, or otherwise segregate the underlying assets. The assets that support the reserves for classes of business that do not have a significant credit quality, reinvestment, or disintermediation risk, or for long-term care or long-term disability insurance, traditional non-par permanent, traditional par permanent, adjustable premium permanent, indeterminate premium permanent, or universal life fixed premium with no dump-in

premiums allowed, may be held by the ceding company without segregation. To determine the reserves for classes of business, the supporting assets of which may be held without being segregated, the reserve interest rate adjustment formula shall reflect the ceding company's investment earnings and incorporate all realized and unrealized gains and losses reported in the ceding insurer's statutory financial statement.

- h. Settlements are made less frequently than quarterly or payments due from the reinsurer are not made in cash within 90 days of the settlement date.
 - i. The ceding insurer is required to make representations or warranties unrelated to the business reinsured.
 - j. The ceding insurer is required to make representations or warranties related to future performance of the business reinsured.
2. An agreement entered into after the effective date of this rule to reinsure business issued before the effective date of the agreement shall be filed by the ceding insurer with the Director within 30 days after execution of the agreement. Each filing shall be accompanied by a description of the corresponding reduction in liabilities or other credit for reinsurance, and any other financial impact of the agreement, reported in the ceding insurer's statutory financial statements. When an increase in surplus net of federal income tax results from an agreement falling under this subsection, the ceding insurer shall separately identify the increase as a surplus item in the aggregate write-ins for gains and losses in surplus in the Capital and Surplus account of the ceding insurer's statutory financial statement. As earnings emerge from the business reinsured, the ceding insurer shall report in its statutory financial statement recognition of surplus increase as income on a net of tax basis as reinsurance ceded.

D. Written Agreements

1. A ceding insurer shall not reduce any liability or establish any asset in any statutory financial statement filed with the Department, unless the ceding insurer and the reinsurer have executed an agreement or a binding letter of intent by the "as of" date of the statutory financial statement.
2. A ceding insurer shall not be allowed a credit for the reinsurance ceded based on a letter of intent unless the ceding insurer and the reinsurer execute an agreement within 90 days from the execution date of the letter of intent.
3. The agreement shall provide that:
 - a. The agreement constitutes the entire contract between the parties with respect to the business reinsured, and there are no understandings between the parties other than as expressed in the agreement; and
 - b. Any change or modification to the agreement shall be void unless made by written amendment signed by all parties.

ARTICLE 5. THE INSURANCE CONTRACT**R20-6-501. Ten-day Period to Examine Disability Insurance Policy**

For the purpose of implementing A.R.S. §§ 20-442, 20-443, 20-826, 20-1111 and 20-1113 and to make more specific the regulation therein provided relative to policies of individual disability insurance (accident and sickness, hospitalization, medical, surgical and loss of time) issued in the State of Arizona and further to provide satisfactory public remedy against the hazards of misunderstanding by an applicant, of deception and coercion by an agent and of certain policy exclusions and limitations that cheapen the value of coverage, the Insurance Department of Arizona adopts the following rule:

1. Each policy of individual disability insurance, except one for which no provision for renewal is made, issued for delivery in the State of Arizona on or after October 1, 1961, by an insurance company or by a hospital or medical service corporation shall have printed on the first page thereof or attached thereto or endorsed thereupon in prominent style a notice declaring that, during a period of 10 days (or, at the insurer's option, a longer period) from the date of delivery to the policyholder, such policy may be returned for cancellation to the insurer at its home office (or, at the insurer's option, to its branch office or to the agent through whom it was purchased) and declaring further that in the event of such return the insurer will refund the entirety of any premium paid therefor, including any policy fees or other charges, and that the policy shall be deemed void from the beginning and that the parties shall be returned to their original position as if no policy had been issued.
2. The Insurance Department does not specify the particular language the notice shall contain but prefers usage of a phraseology approximately along the lines of either the longer (Form A) or shorter (Form B) sample below:

Sample Form A**NOTICE OF TEN-DAY RIGHT TO EXAMINE POLICY**

The _____ Insurance Company urges you to read this policy carefully and trusts that upon doing so you will fully understand, and will be pleased with, its coverage. If, however, questions arise or information is desired, do not hesitate to consult the selling agent. In addition, should the policy for any reason be unsatisfactory, by surrendering it within ten days following receipt to our office at _____ or to the selling agent, immediately full premium will be refunded and the policy will be cancelled and deemed void and as never in force and effect.

Sample Form B**IMPORTANT NOTICE**

If for any reason this policy is unsatisfactory, it may be returned for cancellation within ten days following receipt – in which case the entire premium will be refunded.

returning all premium paid therefor, unless as a result of judicial action, or material misrepresentation by the arrestee or his indemnitor with respect to the execution of the bail bond agreement, or a material and substantial increase in the hazard assumed. Failure of the arrestee to pay the premium, or charges permitted under these regulations or any part thereof, and failure to furnish collateral required by the bail bond agent, shall not be considered a material and substantial increase in the hazard assumed.

- 6. Rebating prohibited. No bail bond agent shall pay or allow in any manner, directly or indirectly, to any person who is not also a bail bond agent any commission or valuable consideration on or in connection with a bail transaction. This Section shall not prohibit payments by a bail bond agent to an unlicensed person of charges by such persons for services of the kind specified in paragraph (2) subsection (E) of this Section.

R20-6-604.01. Rights and Treatment of Debtors

A. Creditor Obligations.

1. Multiple plans of insurance. If a creditor makes more than one plan of credit insurance available to debtors, the creditor shall inform each debtor of each plan for which the debtor is eligible and of the premium and charges for each plan.
2. Substitution. If a creditor requires a debtor to have credit insurance as additional security for a debt, the creditor shall inform the debtor in writing of the debtor’s right to obtain alternative coverage as prescribed in A.R.S. § 20-1614 before the loan transaction is completed.
3. Remittance of premiums. If a creditor adds an insurance charge or premium to a debt, the creditor shall remit the insurance charge or premium to the insurer within 60 days after it is added to the debt.

B. Creditor and insurer obligations regarding insurance on refinanced debt.

1. If a debt is discharged because the debtor refinances the debt before the scheduled maturity date, the creditor shall notify the insurer that issued the credit insurance on the discharged debt.

CHAPTER 6. DEPARTMENT OF INSURANCE

2. An insurer shall not issue any credit insurance that covers the refinanced debt with an effective date preceding the termination date of the insurance on the original debt.
 3. The insurer issuing the coverage on the discharged debt shall refund to or credit the debtor with all unearned insurance charges or premium according to R20-6-604.06.
 4. If a debt is refinanced, the effective date of the policy provisions in any new insurance covering the refinanced debt shall be the first date on which the debtor became insured under the previous policy. An insurer may apply any new exclusion period or preexisting condition limitation only to the portion of the new loan that exceeds the previous loan.
- C. Required policy provisions.**
1. Termination provisions for group policies. A group credit insurance policy shall provide for continued coverage of debtors covered under the policy if the policy terminates, as follows:
 - a. For a policy with a single premium payment, or any other payment method that prepays coverage for more than one month, a provision requiring continued insurance coverage for the entire period for which the premium has been paid; and
 - b. For a policy with a monthly premium payment, a provision requiring the insurer to send the debtor a termination notice at least 30 days before the effective date of termination, unless an insurer is issuing replacement coverage in at least the same amount, without lapse of coverage.
 2. Maximum aggregate provisions. A provision in an individual policy or group certificate that sets a maximum limit on total claim payments shall apply only to that individual policy or group certificate.
- D. Creditor and insurer obligations when debtor prepays debt.**
1. Except as provided in subsection (D)(2), if a debtor prepays a debt in full, any credit insurance covering the debt shall terminate on the date of prepayment. The creditor and insurer shall refund to or credit the debtor with any unearned premium according to R20-6-604.06.
 2. If a debt is fully prepaid because of the debtor's death or any other lump-sum credit insurance payment, a creditor or insurer is not required to refund premium for the coverage under which the lump sum was paid.
 3. If a claim under credit disability coverage is in progress at the time of prepayment, the insurer:
 - a. May calculate the refund as if the prepayment did not occur until the end of the period for payment of benefits, and
 - b. Is not required to refund premiums for any period for which credit disability benefits are payable.
- E. Benefits payable on revolving account.** If a debtor is paying for credit insurance coverage on a revolving account and dies, the insurer shall pay a benefit amount equal to the amount of indebtedness outstanding on the date of death. The insurer may exclude preexisting conditions occurring within six months of any advance on the revolving account, running separately for each advance or charge.
- B.** An insurer may satisfy the reasonableness standard in A.R.S. § 20-1610(B) if the insurer's premium rate develops a loss ratio of not less than 50% for credit life insurance and not less than 60% for credit disability insurance.
- C.** While in effect, the rates described in R20-6-604.04 and R20-6-604.05, subject to any deviations approved under R20-6-604.08 are conclusively presumed to develop the loss ratios described in subsection (B). For purposes of prospective effect, the Department may rebut this presumption by disappearing or withdrawing approval for the rates as prescribed in A.R.S. § 20-1610.
- D.** An insurer may provide coverage other than the standard coverage described in R20-6-604.04 and R20-6-604.05. An insurer that wishes to provide nonstandard coverage shall:
1. File the nonstandard coverage policy information as prescribed in A.R.S. § 20-1609, and
 2. Demonstrate that the rates for the coverage are reasonably expected to develop a loss ratio of not less than 50% for credit life insurance and not less than 60% for credit disability insurance.

- A.** The Director shall, by order, establish prima facie rates as prescribed in this Section.
- B.** At least once every three years, the Director shall:
1. Determine the rate of expected claims on a statewide basis;
 2. Compare the rate of expected claims with the rate of actual claims for the past three years determined from the incurred claims and earned premiums at prima facie rates; and
 3. If the Director determines that the prima facie rates require adjustment, issue a notice of hearing and proposed order adjusting the actual statewide prima facie rates. The hearing date on the proposed order shall be no earlier than 45 days from the date of the notice.
- C.** The Director shall mail a copy of the notice and proposed order to:
1. Each insurer that reported transaction of credit insurance on its annual statement immediately preceding the date of the notice, and
 2. Any other person who sends the Director a written request for notice of proceedings to adjust the prima facie rates.
- D.** Any person may submit written comments to the Director or appear at the hearing and provide oral comments on the record. Written comments shall be received no later than the close of record date specified in the notice of hearing.
- E.** The Director shall:
1. Consider written and oral comments; and
 2. Issue a final order setting prima facie rates no later than 30 days after the close of record date specified in the notice of hearing.

 2. Have no exclusions other than for:
 - a. Suicide within six months after the effective date of coverage, or
 - b. A preexisting condition;
 3. Have no age restrictions, except the following permissible exclusions:
 - a. An age restriction providing that no insurance will become effective on a debtor on or after the attainment of age 70 and that all insurance shall terminate on a debtor attaining age 70; and
 - b. An age restriction for a revolving credit life insurance policy that:
 - i. Excludes a class of debtors determined by age, or
 - ii. Provides for termination of insurance or reduction in the amount of insurance when a debtor reaches age 70; and

- B. The Department shall presume that an insurer meets the loss ratios prescribed in R20-6-604.02(B) if the insurer uses the prima facie rates, subject to the requirements in this Section and R20-6-604.08. An insurer may use the prima facie rates without filing additional actuarial support.
- C. A credit disability insurance policy shall meet the requirements listed in this Section. The policy shall:
1. Provide coverage for disability, by whatever means caused, to all eligible debtors, with or without evidence of individual insurability for debtors that purchase coverage within 30 days of becoming eligible;
 2. Include a definition of disability that is no more restrictive than the following:
 - a. For the first 12 months of disability, the inability of the insured to perform the essential functions of the insured's occupation; and
 - b. After the first 12 months of disability, the inability of the insured to perform the essential functions of any occupation for which the insured is reasonably suited by virtue of education, training, or experience;
 3. Not include any employment requirement that a debtor be employed more than full-time on the effective date of coverage, with a definition of "full-time" as a regular work week of at least 30 hours;

4. Have no exclusions other than for disabilities resulting from:
 - a. Normal pregnancy,
 - b. Intentionally self-inflicted injury, or
 - c. A preexisting condition;
5. For insurance on revolving accounts, have the date on which an advance or charge occurs as the effective date of coverage for each part of the insurance attributable to a different advance or a charge to the plan account. Any exclusion period or preexisting condition limitation shall run separately for each advance or charge;
6. Have no age restrictions, except the following permissible exclusion:

An age restriction providing that no insurance will become effective on a debtor on or after the attainment of age 65 and that all insurance shall terminate on a debtor attaining age 66; and
7. Include a provision for a daily benefit of not less than one-thirtieth of the monthly benefit payable under the policy.

Historical Note

New Section made by final rulemaking at 8 A.A.R. 2725, effective June 7, 2002 (Supp. 02-2).

1. For insurance paid by a single premium, the Rule of Anticipation method; and
 2. For insurance paid by other than a single premium, a method that refunds at least the pro rata gross unearned amount charged to the debtor.
- B. The Director may approve other refund methods similar to those described in subsection (A), that are actuarially equivalent to the type of coverage the debtor purchased.
- C. An insurer's refund method may recognize adjustments to a daily basis for interest or payments if the adjustments are consistent with the underlying credit transaction.
- D. An insurer is not required to refund any amount less than \$5.

Historical Note

New Section made by final rulemaking at 8 A.A.R. 2725, effective June 7, 2002 (Supp. 02-2).

R20-6-604.07. Experience Reports

- A. By April 1 of each year, an insurer that transacts credit insurance in this state shall file with the Director an experience report, on a form specified by the Director, for each class of business that the insurer transacts as provided in this Section.
1. In this Section, a "class of business" means:
 - a. Credit unions;
 - b. Banks, savings and loan institutions, and mortgage companies;

 - c. Earned premiums,
 - d. Incurred claims,
 - e. Loss ratios, and

Historical Note

New Section made by final rulemaking at 8 A.A.R. 2725, effective June 7, 2002 (Supp. 02-2).

R20-6-604.08. Use of Prima Facie Rates; Rate Deviations

1. The deviated rates shall meet the minimum loss ratio standards and other requirements prescribed by R20-6-604.02.
 2. The filing shall specify the accounts to which the rates apply.
 3. The rates may be:
 - a. Applied uniformly to all accounts of the insurer; or
 - b. Applied on an equitable basis approved by the Director to accounts of the insurer for which the insurer's experience has been less favorable than expected.
- B. Approval period of deviated rates. An insurer may use a deviated rate for the same period of time as the experience period used to establish the rate, not to exceed a period of three years from the date of approval. An insurer may file for a new deviated rate before the end of the approval period, but not more often than once in any 12 month period.
- C. Approval is non-transferable. The Director's approval of a deviated rate is not transferable to another insurer. If an insurer acquires an account for which another insurer obtained a deviated rate, the successor insurer may not charge the deviated rate without obtaining approval for the deviated rate as prescribed in subsection (B).
- D. Use of rates lower than filed rates. An insurer may use a rate that is less than its filed rate without notice to the Director.

Historical Note

New Section made by final rulemaking at 8 A.A.R. 2725, effective June 7, 2002 (Supp. 02-2).

R20-6-604.09. Supervision of Consumer Credit Insurance Operations

 2. The creditor makes benefit payments as prescribed in the policy; and
 3. The creditor refunds unearned premiums as prescribed in R20-6-604.06.
- B. The insurer shall maintain for the Director's inspection a written record of each review and action the insurer takes to address any creditor noncompliance found by the insurer, for at least three years following the end of the review.

 2. Agreeing to deposit with a bank or financial institution, the insurer's money or securities as a substitute for a deposit of money or securities that the financial institution would otherwise require from the creditor as a compensating balance or deposit offset for a loan or other advancement; or
 3. Depositing money or securities without interest or at a lesser rate of interest than the creditor, bank, or financial institution is currently paying on other similar deposits.
- B. This Section does not prohibit an insurer from maintaining demand deposits or premium deposit accounts that are reasonably necessary for use in the ordinary course of the insurer's business.

R20-6-607. Reasonableness of Benefits in Relation to Premium Charged

CHAPTER 6. DEPARTMENT OF INSURANCE

- A.** Applicability. This rule shall apply to individual disability insurance (as defined in A.R.S. § 20-253) policy forms and rates.
- B.** When rate filing is required. Every individual policy form, rider or endorsement form affecting benefits which is submitted for approval shall be accompanied by a rate filing unless such rider or endorsement form does not require a change in the rate. Any subsequent addition to or change in rates applicable to such policy, rider or endorsement form shall also be filed.
- C.** General contents of all rate filings. Each rate submission shall include an actuarial memorandum describing the basis on which rates were determined and shall indicate and describe the calculation of the ratio, hereinafter called "anticipated loss ratio," of the present value of the expected benefits to the present value of the expected premiums over the entire period for which rates are computed to provide coverage. Each rate submission must also include a certification by a qualified actuary that to the best of the actuary's knowledge and judgment, the rate filing is in compliance with applicable laws and regulations of this state and that the benefits are reasonable in relation to the premiums.
- D.** Previously approved forms. Filings of rate revisions for a previously approved policy, rider or endorsement form shall also include the following:
1. A statement of the scope and reason for the revision, and an estimate of the expected average effect on premiums including the anticipated loss ratio for the form.
 2. A statement as to whether the filing applies only to new business, only to in-force business, or both, and the reasons.
 3. A history of the experience under existing rates, including at least the data indicated in subsection (E). The history may also include, if available and appropriate, the ratios of actual claims to the claims expected according to the assumptions underlying the existing rates. All additional data must be reconciled, as appropriate, to the required data. Additional data might include:
 - a. Substitution of actual claim run-offs for claim reserves and liabilities,
 - b. Determination of loss ratios with the increase in policy reserves (other than unearned premium reserves) added to benefits rather than subtracted from premiums,
 - c. Substitution of net level policy reserves for preliminary term policy reserves,
 - d. Adjustment of premiums to an annual mode basis, or
 - e. Other adjustments or schedules suited to the form and to the records of the company.
 4. The date and magnitude of each previous rate change, if any.
- E.** Experience records. Insurers shall maintain records of earned premiums and incurred benefits for each calendar year for each policy form, including data for rider and endorsement forms which are used with the policy form, on the same basis, including all reserves, as required for the Accident and Health Policy Experience Exhibit to the NAIC annual statement convention blank. Separate data may be maintained for each rider or endorsement form to the extent appropriate. Experience under forms which provide substantially similar coverage may be combined. The data shall be for all years of issue combined, for each calendar year of experience since the year the form was first issued, except the data for calendar years prior to the most recent five years may be combined.
- F.** Evaluation experience data. In determining the credibility and appropriateness of experience data, due consideration must be given to all relevant factors, such as:
1. Statistical credibility of premiums and benefits, e.g., low exposure, low loss frequency.
 2. Experienced and projected trends relative to the kind of coverage, e.g., inflation in medical expenses, economic cycles affecting disability income experience.
 3. The concentration of experience at early policy durations where select morbidity and preliminary term reserves are applicable and where loss ratios are expected to be substantially lower than at later policy durations.
 4. The mix of business by risk classification.
- G.** Anticipated loss ratio standard. With respect to a new form or a currently approved form, except currently approved non-cancelable policy forms, under which the average annual premium (as defined below) is expected to be at least \$700, benefits shall be deemed reasonable in relation to premiums provided the anticipated loss ratio is at least as great as shown in the following table:
- | Type of Coverage | Renewal Clause | | | |
|--------------------------|----------------|-----|-----|-----|
| | OR | CR | GR | NC |
| Medical expense | 60% | 55% | 55% | 50% |
| Loss of income and other | 60% | 55% | 50% | 45% |
- For a policy form including riders and endorsements, under which the expected average annual premium per policy is \$200 or more but less than \$700, subtract 5 percentage points from the numbers in the table above, or if less than \$200, subtract 10 percentage points.
- The average annual premium per policy shall be computed by the insurer based on an anticipated distribution of business by all applicable criteria having a price difference, such as age, sex, amount, dependent status, rider frequency, etc., except assuming an annual mode for all policies (i.e., the fractional premium loading shall not affect the average annual premium or anticipated loss ratio calculation.)
- The above anticipated loss ratio standards do not apply to a class of business which is regulated by specific statutes or regulations mandating loss ratios for such business, e.g., Medicare Supplement and Credit Life and Disability.
- Definitions of Renewal Clause**
- OR – Optionally Renewable: renewal is at the option of the insurance company.
- CR – Conditionally Renewable: renewal can be declined by the insurance company only for stated reasons other than deterioration of health.
- GR – Guaranteed Renewable: renewal cannot be declined by the insurance company for any reason, but the insurance company can revise rates on a class basis.
- NC – Non-Cancelable: renewal cannot be declined nor can rates be revised by the insurance company.
- H.** Rate revisions. With respect to filings of rate revisions for a previously approved form, benefits shall be deemed reasonable in relation to premiums provided both the following loss ratios meet the standards in subsection (G) above.
1. The anticipated loss ratio over the entire future period for which the revised rates are computed to provide coverage;
 2. The anticipated loss ratio derived by dividing (a) by (b) where:
 - a. Is the sum of the accumulated benefits, from the original effective date of the form or the effective date of this regulation, whichever is later, to the

CHAPTER 6. DEPARTMENT OF INSURANCE

effective date of the revision, and the present value of future benefits; and

- b. Is the sum of the accumulated premiums from the original effective date of the form or the effective date of the regulation, whichever is later, to the effective date of the revision, and the present value of future premiums. Such present values shall be taken over the entire period for which the revised rates are computed to provide coverage, and such accumulated benefits and premiums to include an explicit estimate of the actual benefits and premiums from the last date as of which an accounting has been made to the effective date of the revision. Interest shall be used in the calculation of these accumulated benefits and premiums and present values only if it is a significant factor in the calculation of this loss ratio.

I. Anticipated loss ratios lower than those indicated in subsections (H)(1) and (H)(2) will require justification based on the special circumstances that may be applicable.

1. Examples of coverages requiring special consideration are as follows:
 - a. Accident only;
 - b. Short term nonrenewable, e.g., airline trip, student accident;
 - c. Specified peril, e.g., common carrier; and
 - d. Other special risks.
2. Examples of other factors requiring special consideration are as follows:
 - a. Marketing methods, giving due consideration to acquisition and administration costs and to premium mode;
 - b. Extraordinary expenses;
 - c. High risk of claim fluctuation because of the low loss frequency of the catastrophic, or experimental nature of the coverage;
 - d. Product features such as long elimination periods, high deductibles and high maximum limits;
 - e. The industrial or debit method of distribution; and
 - f. Forms issued prior to the effective date of this rule. Companies are urged to review their experience periodically and to file rate revisions, as appropriate, in a timely manner to avoid the necessity of later filing of exceptionally large rate increases.
3. Notwithstanding the foregoing paragraphs to the contrary, hospital indemnity and cancer and other dread diseases policies shall develop the loss ratios pursuant to subsection (G).

frame and the substantive review time frame A.R.S. § 41-1072 (2).

4. *"Substantive review time frame" means the number of days after the completion of the administrative completeness review time frame during which the Department determines whether an application or applicant for a license meets all substantive criteria required by state or rule* A.R.S. § 41-1072(3).
- B. The time-frames listed in Table A apply to licenses issued by the Department. The licensing time-frames consist of an administrative completeness review, a substantive review, and an overall review.
- C. Within the time-frame for the administrative completeness review set forth in Table A, the Department shall notify the applicant in writing of whether the application is complete or incomplete. If the application is incomplete, the Department shall issue a notice of deficiency to the applicant specifying what information or component is required to make the application administratively complete.
 1. If the Department determines that an application for a license is not administratively complete, the Department shall include a comprehensive list of the specific deficiencies in the written notice provided under subsection (C). If the Department issues a written notice of deficiency within the administrative completeness review time-frame, the administrative completeness review time-frame and the overall review time-frame are suspended from the date the notice is issued until the date that the Department receives the missing information from the applicant.
 2. If an applicant does not make some response to each specific deficiency in a notice of deficiency issued during an administrative completeness review, the Department may issue a notice to the applicant within 10 days after receipt of the applicant's response, stating that the response is inadequate. The notice of inadequate response shall identify each specified deficiency to which the applicant did not make some response.
 - a. If the Department issues a notice of inadequate response under this subsection, the suspension of the administrative completeness review time-frame and the overall time-frame is not terminated.
 - b. If the Department does not issue a notice of inadequate response under this subsection, the Department is not precluded from issuing additional notices of deficiency during an administrative completeness review.
 3. If an applicant does not make some response to each specified deficiency in a notice of deficiency issued under subsection (C)(2) within 60 days after the date of a notice of deficiency or within 60 days after a notice of inadequate response issued under subsection (C)(2), the application is deemed withdrawn, and the Department is not required to take further action with respect to the application.
- D. Within the time-frame for the substantive review set forth in Table A, the Department may issue one comprehensive written request for additional information to the applicant specifying each component or item of information required.
 1. If the Department issues a comprehensive written request for additional information within the substantive review time-frame, the substantive review time-frame and the overall time-frame are suspended from the date the written request is issued until the date that the Department receives the additional information from the applicant.
 2. If an applicant does not make some response to each component or item of information requested in a comprehensive written request for additional information, the Department may issue a notice to the applicant within 10 days after receipt of the applicant's response stating that the response is inadequate. The notice of inadequate response shall identify each component or item of information required, to which the applicant did make some response.
 - a. If the Department issues a notice of inadequate response under this subsection, the suspension of the substantive review time-frame and overall time-frame is not terminated.
 - b. If the Department does not issue a notice of inadequate response under this subsection, the Department is not precluded from later issuing supplemental requests by mutual agreement for additional information, during the substantive review.
 3. If an applicant does not make some response to each component or item of information required in a comprehensive written request or a supplemental request for additional information, within 60 days after the date of a comprehensive written request or within 60 days after the date of the supplemental request, the application is deemed withdrawn, and the Department is not required to take further action with respect to the application.
- E. Within the overall time-frames set forth in Table A, unless extended by mutual agreement under A.R.S. § 41-1075, the Department shall notify the applicant in writing that the application is granted or denied. If the application is denied, the Department shall provide written justification for the denial and a written explanation of the applicant's right to a hearing or the applicant's right to appeal.
- F. In computing the time periods prescribed in these time-frame rules, the last day of a notice period is included in the computation, unless it is a Saturday, Sunday, or legal holiday.

3. "Director" means the Director of Insurance of the State of Arizona.

CHAPTER 6. DEPARTMENT OF INSURANCE

4. "First party claimant" means an individual, corporation, association, partnership or other legal entity asserting a right to payment under an insurance policy or insurance contract arising out of the occurrence of the contingency of loss covered by such policy or contract.
 5. "Insurance policy or insurance contract" has the meaning of A.R.S. § 20-103.
 6. "Insurer" has the meaning of A.R.S. § 20-106(C).
 7. "Investigation" means all activities of an insurer directly or indirectly related to the determination of liabilities under coverages afforded by an insurance policy or insurance contract.
 8. "Notification of claim" means any notification, whether in writing or other means, acceptable under the terms of any insurance policy or insurance contract, to an insurer or its agent, by a claimant, which reasonably apprises the insurer of the facts pertinent to a claim.
 9. "Person" has the meaning of A.R.S. § 20-105.
 10. "Third party claimant" means any individual, corporation, association, partnership or other legal entity asserting a claim against any individual, corporation, association, partnership or other legal entity insured under an insurance policy or insurance contract of an insurer.
 11. "Worker's compensation" includes, but is not limited to, Longshoremen's and Harbor Worker's Compensation.
- C.** File and record documentation. The insurer's claim files shall be subject to examination by the Director or by his duly appointed designees. Such files shall contain all notes and work papers pertaining to the claim in such detail that pertinent events and the dates of such events can be reconstructed.
- D.** Misrepresentation of policy provisions
1. No insurer shall fail to fully disclose to first party claimants all pertinent benefits, coverages or other provisions of an insurance policy or insurance contract under which a claim is presented.
 2. No agent shall conceal from first party claimants benefits, coverages or other provisions of any insurance policy or insurance contract when such benefits, coverages or other provisions are pertinent to a claim.
 3. No insurer shall deny a claim on the basis that the claimant has failed to exhibit the damaged property to the insurer, unless the insurer has requested the claimant to exhibit the property and the claimant has refused without a sound basis therefor.
 4. No insurer shall, except where there is a time limit specified in the policy, make statements, written or otherwise, requiring a claimant to give written notice of loss or proof of loss within a specified time limit and which seek to relieve the company of its obligations if such a time limit is not complied with unless the failure to comply with such time limit prejudices the insurer's rights.
 5. No insurer shall request a first party claimant to sign a release that extends beyond the subject matter that gave rise to the claim payment.
 6. No insurer shall issue checks or drafts in partial settlement of a loss or claim under a specific coverage which contain language that releases the insurer or its insured from its total liability.
- E.** Failure to acknowledge pertinent communications
1. Every insurer, upon receiving notification of a claim shall, within 10 working days, acknowledge the receipt of such notice unless payment is made within such period of time. If an acknowledgment is made by means other than writing, an appropriate notation of such acknowledgment shall be made in the claim file of the insurer and dated.
- Notification given to an agent of an insurer shall be notification to the insurer.
2. Every insurer, upon receipt of any inquiry from the Department of Insurance respecting a claim shall, within fifteen working days of receipt of such inquiry, furnish the Department with an adequate response to the inquiry.
 3. An appropriate reply shall be made within 10 working days on all other pertinent communications from a claimant which reasonably suggest that a response is expected.
 4. Every insurer, upon receiving notification of claim, shall promptly provide necessary claim forms, instructions, and reasonable assistance so that first party claimants can comply with the policy conditions and the insurer's reasonable requirements. Compliance with this paragraph within 10 working days of notification of a claim shall constitute compliance with paragraph (1) of this subsection.
- F.** Standards for prompt investigation of claims. Every insurer shall complete investigation of a claim within 30 days after notification of claim, unless such investigation cannot reasonably be completed within such time.
- G.** Standards for prompt, fair and equitable settlements applicable to all insurers
1. Notice of acceptance or denial of claim.
 - a. Within fifteen working days after receipt by the insurer of properly executed proofs of loss, the first party claimant shall be advised of the acceptance or denial of the claim by the insurer. No insurer shall deny a claim on the grounds of a specific policy provision, condition, or exclusion unless reference to such provision, condition or exclusion is included in the denial. The denial must be given to the claimant in writing and the claim file of the insurer shall contain a copy of the denial.
 - b. If the insurer needs more time to determine whether a first party claim should be accepted or denied, it shall also notify the first party claimant within fifteen working days after receipt of the proofs of loss, giving the reasons more time is needed. If the investigation remains incomplete, the insurer shall, 45 days from the date of the initial notification and every 45 days thereafter, send to such claimant a letter setting forth the reasons additional time is needed for investigation.
 - c. Where there is a reasonable basis supported by specific information available for review by the Director for suspecting that the first party claimant has fraudulently caused or contributed to the loss by arson, the insurer is relieved from the requirements of subparagraphs (a) and (b) above. Provided, however, that the claimant shall be advised of the acceptance or denial of the claim by the insurer within a reasonable time for full investigation after receipt by the insurer of a properly executed proof of loss.
 2. If a claim is denied for reasons other than those described in subparagraph (a) above, and is made by any other means than writing, an appropriate notation shall be made in the claim file of the insurer.
 3. Insurers shall not fail to settle first party claims on the basis that responsibility for payment should be assumed by others, except as may otherwise be provided by policy provisions.
 4. Insurers shall not continue negotiations for settlement of a claim directly with a claimant who is neither an attorney nor represented by an attorney until the claimant's rights may be affected by a statute of limitations or a policy or

CHAPTER 6. DEPARTMENT OF INSURANCE

contract time limit, without giving the claimant written notice that the time limit may be expiring and may affect the claimant's right. Such notice shall be given to first party claimants 30 days and to third party claimants 60 days before the date on which such time limit may expire.

5. No insurer shall make statements which indicate that the rights of a third party claimant may be impaired if a form or release is not completed within a given period of time unless the statement is given for the purpose of notifying the third party claimant of the provision of a statute of limitations.

H. Standards for prompt, fair and equitable settlements applicable to automobile insurance

1. When the insurance policy provides for the adjustment and settlement of first party automobile total losses on the basis of actual cash value or replacement with another of like kind and quality, one of the following methods must apply:
 - a. The insurer may elect to offer a replacement automobile which is a specific comparable automobile available to the insured, with all applicable taxes, license fees and other fees incident to transfer of evidence of ownership of the automobile paid, at no cost other than any deductible provided in the policy. The offer and any rejection thereof must be documented in the claim file.
 - b. The insurer may elect a cash settlement based upon the actual cost, less any deductible provided in the policy, to purchase a comparable automobile including all applicable taxes, license fees and other fees incident to transfer of evidence of ownership of a comparable automobile. Such cost may be determined by:
 - i. The cost of a comparable automobile in the local market area when a comparable automobile is available in the local market area.
 - ii. One of two or more quotations obtained by the insurer from two or more qualified dealers located within the local market area when a comparable automobile is not available in the local market area.
 - c. When a first party automobile total loss is settled on a basis which deviates from the methods described in subparagraphs (a) and (b) above, the deviation must be supported by documentation giving particulars of the automobile condition. Any deductions from such cost, including deduction for salvage, must be measurable, discernible, itemized and specified as to dollar amount and shall be appropriate in amount. The basis for such settlement shall be fully explained to the first party claimant.
2. Where liability and damages are reasonably clear, insurers shall not recommend that third party claimants make claim under their own policies solely to avoid paying claims under such insurer's policy or insurance contract.
3. Insurers shall not require a claimant to travel unreasonably either to inspect a replacement automobile, to obtain a repair estimate or to have the automobile repaired at a specific repair shop.
4. Insurers shall, upon the claimant's request, include the first party claimant's deductible, if any, in subrogation demands. Subrogation recoveries shall be shared on a proportionate basis with the first party claimant, unless the deductible amount has been otherwise recovered. No deduction for expenses can be made from the deductible recovery unless an outside attorney is retained to collect

such recovery. The deduction may then be for only a pro rata share of the allocated loss adjustment expense.

5. If an insurer prepares an estimate of the cost of automobile repairs, such estimate shall be in an amount for which it may be reasonably expected the damage can be satisfactorily repaired. The insurer shall give a copy of the estimate to the claimant and may furnish to the claimant the names of one or more conveniently located repair shops.
6. When the amount claimed is reduced because of betterment or depreciation all information for such reduction shall be contained in the claim file. Such deductions shall be itemized and specified as to dollar amount and shall be appropriate for the amount of deductions.
7. When the insurer elects to repair and designates a specific repair shop for automobile repairs, the insurer shall cause the damaged automobile to be restored to its condition prior to the loss at no additional cost to the claimant other than as stated in the policy and within a reasonable period of time.
8. The insurer shall not use as a basis for cash settlement with a first party claimant an amount which is less than the amount which the insurer would pay if the repairs were made, other than in total loss situations, unless such amount is agreed to by the insured.
- I. Severability.** If any provision of this rule or the application thereof to any person or circumstances is held invalid, the remainder of the rule and the application of such provision to other persons and circumstances shall not be affected.
- J. Effective date.** This rule shall become effective 90 days from the date of filing with the Secretary of State.

Historical Note

Adopted effective August 10, 1992 (Supp. 92-3). R20-6-1003 recodified from R4-14-1003 (Supp. 95-1). Amended by final rulemaking at 10 A.A.R. 4661, effective January 3, 2005 (Supp. 04-4). Amended by final exempt rulemaking at 23 A.A.R. 1119, effective November 10, 2017 (Supp. 17-2).

R20-6-1004. Required Policy Provisions**A. Renewability**

1. An individual long-term care insurance policy shall contain a renewability provision which shall be either "guaranteed renewable" or "noncancellable." The renewability provision shall be appropriately captioned, shall appear on the first page of the policy, and shall state that the coverage is guaranteed renewable or noncancellable. This requirement does not apply to a long-term care insurance policy that is part of or combined with a life insurance policy that does not contain a renewability provision and that reserves the right not to renew solely to the policyholder.
2. An insurer shall not use the terms "guaranteed renewable" and "noncancellable" in any individual long-term care insurance policy without further explanatory language according to the disclosure requirements of this Article.
3. A qualified long-term care insurance policy shall have the guaranteed renewability provisions specified in Section 7702B(b)(1)(C) of the Internal Revenue Code of 1986, as amended, in the policy.
4. A long-term care insurance policy or certificate shall include a statement that premium rates are subject to change, unless the policy does not afford the insurer the right to raise premiums.

B. Limitations and Exclusions

1. If a long-term care insurance policy or certificate contains any limitations with respect to preexisting conditions, the limitations shall appear as a separate paragraph of the policy or certificate and shall be labeled as "Preexisting Condition Limitations."
2. A long-term care insurance policy or certificate containing any limitations or conditions for eligibility not prohibited by A.R.S. §§ 20-1691.03 and 20-1691.05 shall describe the limitations or conditions, including any required number of days of confinement, in a separate paragraph of the policy or certificate and shall label the paragraph "Limitations or Conditions on Eligibility for Benefits."
3. A policy shall not be delivered or issued for delivery in this state as long-term care insurance if the policy limits or excludes coverage by type of illness, treatment, medical condition or accident, except as follows:
 - a. Preexisting conditions or disease;
 - b. Mental or nervous disorders; however, this shall not permit exclusion or limitation of the benefits on the basis of Alzheimer's Disease;
 - c. Alcoholism and drug addiction;
 - d. Illness, treatment or medical condition arising out of:
 - i. War, declared or undeclared, or act of war;
 - ii. Participation in a felony, riot or insurrection;
 - iii. Service in the armed forces or auxiliary units;
 - iv. Suicide, attempted suicide, or intentionally self-inflicted injury; or
 - v. Aviation, if non-fare-paying passenger;
 - e. Treatment provided in a government facility, unless otherwise required by law;

CHAPTER 6. DEPARTMENT OF INSURANCE

- f. Services for which benefits are available under Medicare or other governmental program, except Medicaid;
 - g. Any state or federal workers' compensation, employer's liability or occupational disease law, or any motor vehicle no-fault law;
 - h. Services provided by a member of the covered person's immediate family and services for which no charge is normally made in the absence of insurance;
 - i. Expenses for services or items available or paid under another long-term care insurance or health insurance policy; or
 - j. In the case of a qualified long-term care insurance policy, expenses for services or items to the extent that the expenses are reimbursable under Title XVIII of the Social Security Act or would be reimbursable but for the application of a deductible or coinsurance amount;
4. Subsection (B) does not prohibit exclusions and limitations by type of provider or territorial limitations. No long-term care issuer may deny a claim because services are provided in a state other than the state of policy issued under the following conditions:
- a. When the state other than the state of policy issue does not have the provider licensing, certification or registration required in the policy, but where the provider satisfies the policy requirements outlined for providers in lieu of licensure, certification or registration; or
 - b. When the state other than the state of policy issue licenses, certifies or registers the provider under another name.
5. "State of policy issue" means the state in which the insurer issued the individual policy or certificate.
- C. Extension of benefits.** A long-term care insurance policy shall provide that termination of long-term care insurance is without prejudice to any benefits payable for institutionalization if the institutionalization began while the long-term care insurance was in force and continues without interruption after termination. An insurer may limit this extension of benefits period to the duration of the benefit period, if any, or to payment of the maximum benefits and the insurer may still apply any policy waiting period and all other applicable provisions of the policy.
- D. Reinstatement.** A long-term care insurance policy shall include a provision for reinstatement of coverage if a lapse occurs if the insurer receives proof that the insured was cognitively impaired or had a loss of functional capacity before expiration of the grace period in the policy. The option to reinstate shall be available to the insured for at least five months after the date of termination and shall allow for the collection of past due premiums, as appropriate. The standard of proof of cognitive impairment or loss of functional capacity shall not be more stringent than the benefit eligibility criteria for these conditions set forth in the original long-term care policy.
- E. Continuation or conversion.**
- 1. A group long-term care insurance policy shall provide covered individuals with a basis for continuation or conversion of coverage as specified in this subsection.
 - 2. The policy shall include a provision that maintains coverage under the existing group policy when the coverage would otherwise terminate, subject only to the continued timely payment of premiums when due. A group policy that restricts provision of benefits and services to, or has incentives to use certain providers or facilities, may provide continuation benefits that are substantially equivalent to the benefits of the existing group policy. The Director shall make a determination as to the substantial equivalency of benefits and, in doing so, shall take into consideration the differences between managed care and non-managed care plans, including provider system arrangements, service availability, benefit levels and administrative complexity.
- 3. The policy shall include a provision that an individual, whose coverage under the group policy would otherwise terminate or has been terminated for any reason, including discontinuation of the group policy in its entirety or with respect to an insured class, who has been continuously insured under the group policy (and any group policy which it replaced) for at least six months immediately prior to termination, is entitled to the issuance of a converted policy by the insurer under whose group policy the individual is covered, without evidence of insurability.
 - 4. A converted policy shall be an individual policy of long-term care insurance providing benefits identical to or benefits that the Director determines to be substantially equivalent to or in excess of those provided under the group policy from which conversion is made. Where the group policy from which conversion is made restricts provision of benefits and services to, or contains incentives to use certain providers or facilities, the Director, in making a determination as to the substantial equivalency of benefits, shall take into consideration the differences between managed care and non-managed care plans, including, but not limited to, provider system arrangements, service availability, benefit levels and administrative complexity, and other plan elements.
 - 5. An insurer may require an individual seeking a conversion policy to make a written application for the converted policy and pay the first premium due, if any, as directed by the insurer not later than 31 days after termination of coverage under the group policy. The insurer shall issue the converted policy effective on the day following the termination of coverage under the group policy. The converted policy shall be renewable annually.
 - 6. Unless the group policy from which conversion is made replaced previous group coverage, the insurer shall calculate the premium for the converted policy on the basis of the insured's age at inception of coverage under the group policy from which conversion is made. If the group policy from which conversion is made replaced previous group coverage, the premium for the converted policy shall be calculated on the basis of the insured's age at inception of coverage under the group policy replaced.
 - 7. An insurer is required to provide continuation of coverage or issuance of a converted policy as provided in this subsection, unless:
 - a. Termination of group coverage resulted from an individual's failure to make any required payment of premium or contribution when due; or
 - b. The terminating coverage is replaced not later than 31 days after termination, by group coverage that:
 - i. Is effective on the day following the termination of coverage;
 - ii. Provides benefits identical to or benefits the Director determines to be substantially equivalent to or in excess of those provided by the terminating coverage; and
 - iii. Has a premium calculated in a manner consistent with the requirements of subsection (E)(6).
 - 8. Notwithstanding any other provision of this Section, a converted policy that an insurer issues to an individual

CHAPTER 6. DEPARTMENT OF INSURANCE

who at the time of conversion is covered by another long-term care insurance policy providing benefits on the basis of incurred expenses, may contain a provision that reduces benefits payable if the benefits provided under the additional coverage, together with the full benefits provided by the converted policy, would result in payment of more than 100% of incurred expenses. An insurer may include this provision in the converted policy only if the converted policy also provides for a premium decrease or refund that reflects the reduction in payable benefits.

9. The converted policy may provide that the benefits payable under the converted policy, together with the benefits payable under the group policy from which conversion is made, shall not exceed those that would have been payable had the individual's coverage under the group policy remained in force and effect.
 10. Notwithstanding any other provision of this Section, an insured individual whose eligibility for group long-term care coverage is based upon the individual's relationship to another person, is entitled to continuation of coverage under the group policy if the qualifying relationship terminates by death or dissolution of marriage.
- F. Discontinuance and replacement.** If a group long-term care policy is replaced by another group long-term care policy issued to the same policyholder, the succeeding insurer shall offer coverage to all persons covered under the previous group policy on its date of termination. Coverage provided or offered to individuals by the insurer and premiums charged to persons under the new group policy:
1. Shall not result in any exclusion for preexisting conditions that would have been covered under the group policy being replaced; and
 2. Shall not vary or otherwise depend on the individual's health or disability status, claim experience, or use of long-term care services.
- G. Premium Increases.**
1. An insurer shall not increase the premium charged to an insured because of:
 - a. The increasing age of the insured at ages beyond 65, or
 - b. The duration of coverage under the policy.
 2. Purchase of additional coverage is not considered a premium rate increase, however, for the calculation required under R20-6-1019, an insurer shall add to and consider the portion of the premium attributable to the additional coverage as part of the initial annual premium.
 3. A reduction in benefits is not considered a premium change, however, for the calculation required under R20-6-1019, an insurer shall base the initial annual premium on the reduced benefits.
- H. Electronic enrollment for group policies.**
1. For coverage offered to a group defined in A.R.S. § 20-1691(5)(a), any requirement that an insurer or insurance producer obtain an insured's signature is satisfied if:
 - a. The group policyholder or insurer obtains the insured's consent by telephonic or electronic enrollment, and provides the enrollee with verification of enrollment information within five business days of enrollment; and
 - b. The telephonic or electronic enrollment process has necessary and reasonable safeguards to assure the accuracy, retention, and prompt retrieval of records, and the confidentiality of individually identifiable and privileged information.

2. If the Director requests, the insurer shall make available records showing the insurer's ability to confirm enrollment and coverage amounts.

- I. Minimum standards for home health and community care benefits.**
1. If an insurer issues a long-term care insurance policy or certificate that provides benefits for home-health or community care, the policy or certificate shall not limit or exclude benefits by any of the following:
 - a. Requiring that the insured would need skilled care in a skilled nursing facility if home health services are not provided;
 - b. Requiring that the insured first or simultaneously receive nursing or therapeutic services, or both, in a home, community or institutional setting before home health services are covered;
 - c. Requiring that eligible services be provided by a registered nurse or licensed practical nurse;
 - d. Requiring that a nurse or therapist provide services covered by the policy that can be provided by a home health aide or other licensed or certified home care worker acting within the scope of licensure or certification;
 - e. Requiring that the insured or claimant have an acute condition before home health services are covered;
 - f. Limiting benefits to services provided by Medicare-certified agencies or providers;
 - g. Excluding coverage for personal care services provided by a home health aide;
 - h. Requiring that home health care services be provided at a level of certification or licensure greater than that required by the eligible service; or
 - i. Excluding coverage for adult day care services.
 2. If a long-term care insurance policy provides benefits for home health or community care services, it shall provide home health or community care coverage that equals a dollar amount equivalent to at least one-half of one year's missing home benefit coverage available at the time covered home health or community care services are being received. This requirement does not apply to policies or certificates issued to residents of continuing care retirement communities.
 3. An insurer may apply home health care coverage to non-home health care benefits in the policy or certificate when determining maximum coverage under the terms of the policy or certificate.
- J. Appeals.** Policy shall include a clear description of the process for appealing and resolving benefit determinations.

R20-6-1005. Unintentional Lapse

- A.** An insured may designate in writing at least one person to receive notice of lapse or termination of a long-term care insurance policy for nonpayment of premium, in addition to the insured. Designation shall not constitute acceptance of any liability by the third-party notice recipient for services provided to the insured.
- B.** An insurer shall not issue an individual long-term care insurance policy or certificate until the applicant has provided either a written designation of at least one person, in addition

CHAPTER 6. DEPARTMENT OF INSURANCE

to the applicant, who shall receive notice of lapse or termination of the policy or certificate for nonpayment of premium, with the person's full name and home address, or the applicant's written waiver, dated and signed, indicating that the applicant chooses not to designate a notice recipient.

- C. The insurer shall use a form for written designation or waiver that provides space clearly delineated for the designation. The insurer shall include the following language on the form for waiver of the right to name a designated recipient: "Protection against unintended lapse. I understand that I have the right to designate at least one person other than myself to receive notice of lapse or termination of this long-term care insurance policy for nonpayment of premium. I understand that this notice will not be given until 30 days after a premium is due and unpaid. I elect NOT to designate a person to receive this notice."
- D. At least once every two years, an insurer shall notify the insured of the right to change the person designated to receive notice in subsection (A). An insured may add, delete, or change a designated recipient or change a designated recipient at any time by notifying the insurer in writing, and providing the name and home address for the new designated recipient or the designated recipient to be deleted.
- E. If the insured pays premiums for the long-term care insurance policy or certificate through a payroll or pension deduction plan, the insurer is not required to comply with the requirements in subsections (A) through (D) until 60 days after the insured is no longer on the payment plan.
- F. An individual long-term care insurance policy shall not lapse or be terminated for nonpayment of premium unless the insurer gives the insured and any recipient designated under subsections (A) through (D) written notice at least 30 days before the effective date of termination or lapse, by first class mail, postage prepaid, at the address provided by the insured for purposes of receiving notice of lapse or termination. An insurer shall not give notice until 30 days after the date on which a premium is due and unpaid. Notice is deemed given five days after the date of mailing.
- G. Reinstatement. In addition to the requirement in subsections (A) through (D), a long-term care insurance policy or certificate shall include a provision that provides for reinstatement of coverage in the event of a lapse if the insurer is provided proof that the policyholder or certificateholder was cognitively impaired or had a loss of functional capacity before the grace period contained in the policy expired. This option shall be available to the insured if requested within five months after termination and shall allow for the collection of past due premium, where appropriate. The standard of proof of cognitive impairment or loss of functional capacity shall not be more stringent than the benefit eligibility criteria on cognitive impairment or the loss of functional capacity contained in the policy or certificate. Reinstatement after termination for other than unintentional lapse shall be governed by A.R.S. § 20-1348.

Historical Note

Adopted effective August 10, 1992 (Supp. 92-3). R20-6-1005 recodified from R4-14-1005 (Supp. 95-1). Section R20-6-1005 renumbered to R20-6-1006; new Section R20-6-1005 made by final rulemaking at 10 A.A.R. 4661, effective January 3, 2005 (Supp. 04-4). Amended by final exempt rulemaking at 23 A.A.R. 1119, effective November 10, 2017 (Supp. 17-2).

R20-6-1006. Inflation Protection

- A. An insurer shall not offer a long-term care insurance policy unless the insurer offers to the policyholder, at the time of pur-

chase, in addition to any other inflation protection, the option to purchase a policy with an inflation protection provision that provides for benefit levels to increase with benefit maximums or reasonable durations which are meaningful to account for reasonably anticipated increases in the costs of long-term care services covered by the policy. The terms of the required provision shall be no less favorable than one of the following:

1. A provision that provides for annual increases in benefit levels compounding annually at a rate of not less than 5%;
 2. A provision that guarantees an insured the right to periodically increase benefit levels without providing evidence of insurability or health status, if the insured did not decline the option for the previous period. The increased benefit shall be no less than the difference between the existing policy benefit and that benefit compounded annually at a rate of at least 5% for the period beginning from the purchase of the existing benefit and extending until the year in which the offer is made; or
 3. A provision for coverage of a specified percentage of actual or reasonable charges that is not subject to a maximum specified indemnity amount or limit.
- B. If the policy is issued to a group, the insurer shall extend the offer required by subsection (A) to the group policyholder; except, if the policy is issued under A.R.S. § 20-1691.04(C) to a group, other than to a continuing care retirement community, the insurer shall make the offer to each proposed certificateholder.
 - C. An insurer is not required to make the offer in subsection (A) for life insurance policies or riders with accelerated long-term care benefits.
 - D. An insurer shall include the information listed in this subsection in or with the outline of coverage.
 1. A graphic comparison of the benefit levels of a policy that increases benefits over the policy period with a policy that does not increase benefits. The graphic comparison shall show benefit levels over at least a 20-year period.
 2. Any expected premium increases or additional premiums to pay for automatic or optional benefit increases. If premium increases or additional premiums will be based on the attained age of the applicant at the time of the increase, the insurer shall provide a revised schedule of attained-age premiums. An insurer may use a reasonable hypothetical or a graphic demonstration for this disclosure.
 - E. Inflation-protection benefit increases shall continue without regard to an insured's age, claim status, claim history, or length of time the person has been insured under the policy.
 - F. An insurer's offer of inflation protection that provides for automatic benefit increases shall include an offer of a premium that the insurer expects to remain constant. The insurer shall disclose in the offer in a conspicuous manner that the premium may change in the future unless the premium is guaranteed to remain constant.
 - G. An insurer shall include in a long-term care insurance policy inflation protection as provided in subsection (A)(1) unless the insurer obtains a rejection of inflation protection signed by the insured as required in subsection (H). The rejection may be either on the application form or on a separate form.
 - H. A rejection of inflation protection is deemed part of an application and shall state: "I have reviewed the outline of coverage and the graphs that compare the benefits and premiums of this policy with and without inflation protection. Specifically, I reviewed Plans [insert description of plans], and I reject inflation protection."

CHAPTER 6. DEPARTMENT OF INSURANCE

Historical Note

Adopted effective August 10, 1992 (Supp. 92-3). R20-6-1006 recodified from R4-14-1006 (Supp. 95-1). R20-6-1006 renumbered to R20-6-1007; new Section R20-5-1006 renumbered from R20-6-1005 and amended by final rulemaking at 10 A.A.R. 4661, effective January 3, 2005 (Supp. 04-4). Amended by final exempt rulemaking at 23 A.A.R. 1119, effective November 10, 2017 (Supp. 17-2).

R20-6-1007. Required Disclosure Provisions

- A.** Riders and endorsements. Except for riders or endorsements by which an insurer effectuates a request made in writing by the insured under an individual long-term care insurance policy, if an insurer adds a rider or endorsement to an individual long-term care insurance policy after date of issue or at reinstatement or renewal that reduces or eliminates benefits or coverage in the policy, the insurer shall require signed acceptance by the individual insured. After the date of policy issue, any rider or endorsement that increases benefits or coverage with a concomitant increase in premium during the policy term shall require the signed written agreement of the insured unless the increased benefits or coverage are required by law. If the insurer charges a separate additional premium for benefits provided in connection with riders or endorsements, the premium charge shall be set forth in the policy, rider, or endorsement.
- B.** Payment of Benefits. A long-term care insurance policy that provides for the payment of benefits based on standards described as “usual and customary,” “reasonable and customary” or words of similar import shall define the terms and explain them in its accompanying outline of coverage.
- C.** Disclosure of tax consequences. For life insurance policies that provide an accelerated benefit for long-term care, an insurer shall provide a disclosure statement at the time of application for the policy or rider and at the time the accelerated benefit payment request is submitted, that receipt of these accelerated benefits may be taxable, and that assistance should be sought from a personal tax adviser. The disclosure statement shall be prominently displayed on the first page of the policy or rider and any other related documents. This subsection shall not apply to qualified long-term care insurance contracts.
- D.** Benefit triggers. A long-term care insurance policy shall use activities of daily living and cognitive impairment to measure an insured’s need for long-term care. The long-term care insurance policy shall describe these terms and provisions in a separate paragraph in the policy labeled “Eligibility for the Payment of Benefits” that includes and explains:
 - 1. Any additional benefit triggers,
 - 2. Benefit triggers that result in payment of different benefit levels, and
 - 3. Any requirement that an attending physician or other specified person certify a certain level of functional dependency for the insured to be eligible for benefits.
- E.** A long-term care insurance contract shall contain a disclosure statement in the policy and in the outline of coverage indicating whether it is intended to be a qualified long-term care insurance contract as specified in the outline of coverage in Appendix J, paragraph 3. The contract shall also include a Specification Page which shall include the benefits, amounts, durations, the premium rate including all optional benefits selected by the insured, and any other benefit data applicable to the insured.

- B.** Unless a policy is one for which an insurer cannot increase the applicable premium rate or rate schedule, the insurer shall provide the information listed in this subsection to the applicant at the time of application or enrollment. If the method of application does not allow for delivery at that time, the insurer shall provide the information to the applicant no later than at the time of delivery of the policy or certificate.
 - 1. A statement that the policy may be subject to rate increases in the future.
 - 2. An explanation of potential future premium rate revisions, and the policyholder’s or certificateholder’s option if a premium rate revision occurs.
 - 3. The premium rate or rate schedules applicable to the applicant that will be in effect until the insurer makes a request for an increase.
 - 4. A general explanation for applying premium rate or rate schedule adjustments that includes:
 - a. A description of when premium rate or rate-schedule adjustments will be effective (e.g., next anniversary date, next billing date); and

 - 5. Information regarding each premium rate increase on this policy form or similar policy form over the past 10 years for this state or any other state that, at a minimum, identifies:
 - a. The policy forms for which premium rates have been increased;

 - c. The amount or percent of each increase, which may be expressed as a percentage of the premium rate before the increase, or as minimum and maximum percentages if the rate increase is variable by rating characteristics.
 - 6. The insurer may, in a fair manner, provide explanatory information related to the rate increases in addition to the information required under subsection (B)(5).
- C.** An insurer may exclude from the disclosure required under subsection (B)(5), premium rate increases applicable to:
 - 1. Blocks of business acquired from other nonaffiliated insurers, and
 - 2. Policies acquired from other nonaffiliated insurers if the increases occurred before the acquisition.
- D.** If an acquiring insurer files for a rate increase on a long-term care insurance policy form or a block of policy forms acquired from a nonaffiliated insurer on or before the later of the January 10, 2005, or the end of a 24-month period following the

CHAPTER 6. DEPARTMENT OF INSURANCE

acquisition of the policies or block of policies, the acquiring insurer may exclude that rate increase from the disclosure required under subsection (B)(5). However, the nonaffiliated insurer that sells the policy form or a block of policy forms shall include that rate increase in the disclosure required under subsection (B)(5). If the acquiring insurer files for a subsequent rate increase, even within the 24-month period, on the same policy form acquired from a nonaffiliated insurer or block of policy forms acquired from nonaffiliated insurers, the acquiring insurer shall make all disclosures required by subsection (B)(5), including disclosure of the earlier rate increase.

- E. Unless the method of application does not allow an insured to sign an acknowledgement that the insurer made the disclosures required under subsection (B) at the time of application, the applicant shall sign an acknowledgement of disclosure at that time. Otherwise, the applicant shall sign a disclosure acknowledgement no later than at the time of delivery of the policy or certificate.
- F. An insurer shall use the forms in Appendix A and Appendix B to comply with the requirements of subsections (B) through (E). The text and format of an insurer's forms shall be substantially similar to the text and format of Appendices A and B.
- G. An insurer shall provide notice of an upcoming premium rate schedule increase to all policyholders or certificateholders, if applicable, at least 45 days before the effective date of the increase. The notice shall include the information required by subsection (B).

Historical Note

Adopted effective August 10, 1992 (Supp. 92-3). R20-6-1008 recodified from R4-14-1008 (Supp. 95-1). Former Section R20-6-1008 renumbered to R20-6-1011; new Section R20-6-1008 made by final rulemaking at 10 A.A.R. 4661, effective January 3, 2005 (Supp. 04-4). Amended by final exempt rulemaking at 23 A.A.R. 1119, effective November 10, 2017 (Supp. 17-2).

R20-6-1009. Initial Filing Requirements

- A. This Section applies to any long-term care policy issued in this state on or after May 10, 2005.
- B. At the time of making a filing under A.R.S. § 20-1691.08, an insurer shall provide to the Director a copy of the disclosure documents required under R20-6-1008 and an actuarial certification that includes the following:
 - 1. The initial premium rate schedule is sufficient to cover anticipated costs under moderately adverse experience and that the premium rate schedule is reasonably expected to be sustainable over the life of the form with no future premium increases anticipated;
 - 2. The policy design and coverage provided have been reviewed and taken into consideration;
 - 3. The underwriting and claims adjudication processes have been reviewed and taken into consideration;
 - 4. The premiums contain at least the minimum margin for moderately adverse experience as defined in subsection (4)(a) or the specification of and justification for a lower margin as required by subsection (4)(b).
 - a. A composite margin shall not be less than 10% of lifetime claims.
 - b. A composite margin that is less than 10% may be justified in uncommon circumstances. The proposed amount, full justification of the proposed amount and methods to monitor developing experience that would be the basis for withdrawal of approval for such lower margins must be submitted.
 - c. A composite margin lower than otherwise considered appropriate for the stand-alone long-term care

policy may be justified for long-term care benefits provided through a life policy or an annuity contract. Such lower composite margin, if utilized, shall be justified by appropriate actuarial demonstration addressing margins and volatility when considering the entirety of the product.

- d. A greater margin may be appropriate in circumstances where the company has less credible experience to support its assumptions used to determine the premium rates.
- 5. A statement that the premium rate schedule:
 - a. Is not less than the premium rate schedule for existing similar policy forms also available from the insurer except for reasonable differences attributable to benefits, or
 - b. A comparison of the premium schedules for similar policy forms that are currently available from the insurer with an explanation of the differences; and
- 6. A statement that reserve requirements have been reviewed and considered. Support for this statement shall include:
 - a. Sufficient detail or sample calculations provided so as to have a complete depiction of the reserve amounts to be held; and
 - b. A statement that the difference between the gross premium and the net valuation premium for renewal years is sufficient to cover expected renewal expenses; or if such a statement cannot be made, a complete description of the situations where this does not occur. An aggregate distribution of anticipated issues may be used as long as the underlying gross premiums maintain a reasonably consistent relationship.
- C. An actuarial memorandum shall be included that is signed by a member of the Academy of Actuaries and that addresses and supports each specific item required as part of the actuarial certification and provides at least the following:
 - 1. An explanation of the review performed by the actuary prior to making the statements in subsections (B)(2) and (B)(3);
 - 2. A complete description of pricing assumptions;
 - 3. Sources and levels of margins incorporated into the gross premiums that are the basis for the statement in subsection (B)(1) of the actuarial certification and an explanation of the analysis and testing performed in determining the sufficiency of the margins. The actuary shall clearly describe deviations in margins between ages, sexes, plans or states. Deviations in margins required to be described are other than those produced utilizing generally accepted actuarial methods for smoothing and interpolating gross premium scales; and
 - 4. A demonstration that the gross premiums include the minimum composite margin specified in subsection (B)(4).
- D. In any review of the actuarial certification and actuarial memorandum, the Director may request review by an actuary with experience in long-term care pricing who is independent of the insurer. In the event the Director asks for additional information as a result of any review, the period in A.R.S. § 20-1691.08 does not include the period during which the insurer is preparing the requested information.

R20-6-1010. Requirements for Application Forms and Replacement Coverage; Prohibition Against Preexisting Conditions and Probationary Periods in Replacement Policies or Certificates; Reporting Requirements

- A.** An insurer's application form for a long-term care insurance policy shall include the questions listed in this Section to elicit information as to whether, as of the date of the application, the applicant has another long-term care insurance policy or certificate in force or whether a long-term care policy or certificate is intended to replace any other health or long-term care policy or certificate presently in force. An insurer may include the questions in a supplementary application or other form to be signed by the applicant and insurance producer, except where the coverage is sold without an insurance producer. For a replacement policy issued to a group as defined in A.R.S. § 20-1691(5)(a), the insurer may modify the questions only to the extent necessary to elicit information about health or long-term care insurance policies other than the group policy being replaced if the certificateholder has been notified of the replacement.
1. Do you have another long-term care insurance policy or certificate in force (including health care service contract, health maintenance organization contract)?
 2. Did you have another long-term care insurance policy or certificate in force during the last 12 months?
 - a. If so, with which company?
 - b. If that policy lapsed, when did it lapse?
 3. Are you covered by Medicaid?
 4. Do you intend to replace any of your medical or health insurance coverage with this policy or certificate?
- B.** The application or enrollment form for such policies or certificates shall clearly indicate the payment plan the applicant selects.
- C.** An insurance producer shall list any other health insurance policies the insurance producer has sold to the applicant, including:
1. Policies that are still in force, and
 2. Policies sold in the past five years that are no longer in force.
- D.** Solicitations Other than Direct Response. On determining that a sale will involve replacement, an insurer, other than an insurer using direct response solicitation methods, or its insurance producer, shall furnish the applicant, before issuing or delivering the individual long-term care insurance policy, a notice that substantially conforms to the form prescribed in Appendix C or D regarding replacement of health or long-term care coverage. The insurer shall:
1. Give one copy of the notice to the applicant, and
 2. Keep an additional copy signed by the applicant.
- E.** Direct Response Solicitations. Insurers using direct response solicitation methods as defined in A.R.S. § 20-1661 shall deliver a notice that substantially conforms to the form prescribed in Appendix C or D regarding replacement of health or long-term care coverage to the applicant upon issuance of the policy.
- F.** If replacement is intended, the replacing insurer shall send the existing insurer written notice of the proposed replacement within five working days from the date the replacing insurer receives the application or issues the policy, whichever is sooner. The notice shall identify the existing policy by name of the insurer and the insured, and policy number or insured's address including zip code.
- G.** A life insurance policy that accelerate benefits for long-term care shall comply with this Section if the policy being replaced is a long-term care insurance policy. If the policy being replaced is a life insurance policy, the insurer shall comply with the replacement requirements of Title 20, Chapter 6, Article 1.1. If a life insurance policy that accelerates benefits for long-term care is replaced by another such policy, the replacing insurer shall comply with the requirements of this Section and with A.R.S. Title 20, Chapter 6, Article 1.1.
- H.** Prohibition against preexisting conditions and probationary periods in replacement policies or certificates. If a long-term care insurance policy or certificate replaces another long-term care policy or certificate, the replacing insurer shall waive any time periods applicable to preexisting conditions and probationary periods in the new long-term care policy for similar benefits if similar exclusions are satisfied under the original policy.
- I.** Reporting requirements.
1. An insurer shall maintain the following records for each insurance producer:
 - a. The amount of the insurance producer's replacement sales as a percent of the insurance producer's total annual sales, and
 - b. The amount of lapses of long-term care insurance policies sold by the insurance producer as a percent of the insurance producer's total annual sales.
 2. No later than June 30 of each year, on the forms specified in Appendix E and Appendix F, an insurer shall report the following information for the preceding calendar year to the Department:
 - a. The 10% of its insurance producers licensed in Arizona with the greatest percentages of lapses and replacements as measured by subsection (I)(1);
 - b. The number of lapsed policies as a percent of the total annual sales and as a percent of the insurer's total number of policies in force as of the end of the preceding calendar year;
 - c. The number of replacement policies sold as a percent of the insurer's total annual sales and as a percent of its total number of policies in force as of the end of the preceding calendar year; and
 - d. For qualified long-term care insurance contracts, the number of claims denied for each class of business, expressed as a percentage of claims denied.
- J.** In subsection (I):
1. "Claim" means a request for payment of benefits under an in-force policy, regardless of whether the benefit claimed is covered under the policy or any terms or conditions of the policy have been met.
 2. "Denied" means the insurer refuses to pay a claim for any reason other than for claims not paid for failure to meet the waiting period or because of an applicable preexisting condition.
 3. "Policy" means only long-term care insurance.
 4. "Report" means on a statewide basis.
- K.** Reported replacement and lapse rates do not alone constitute a violation of insurance laws or necessarily imply wrongdoing. The reports are for the purpose of reviewing more closely agent activities regarding the sale of long-term care insurance. Reports required under this Section shall be filed with the Director.
- L.** Annual rate certification requirements. This subsection applies to any long-term care policy issued in Arizona on or after November 10, 2017. The following annual submission requirements apply subsequent to initial rate filings for indi-

CHAPTER 6. DEPARTMENT OF INSURANCE

vidual long-term care insurance policies made under this Section:

1. An actuarial certification prepared, dated and signed by a member of the American Academy of Actuaries which contains a statement of the sufficiency of the current premium rate schedule, including:
 - a. For the rate schedules currently marketed, that the premium rate schedule continues to be sufficient to cover anticipated costs under moderately adverse experience and that the premium rate schedule is reasonably expected to be sustainable over the life of the form with no future premium increases anticipated or a statement that margins for moderately adverse experience may no longer be sufficient. For a statement that margins for moderately adverse experience may no longer be sufficient, the insurer shall provide to the Director, within 60 days of the date the actuarial certification is submitted to the Director, a plan of action, including a time frame, for the re-establishment of adequate margins for moderately adverse experience so that the ultimate premium rate schedule would be reasonably expected to be sustainable over the future life of the form with no future premium increases anticipated. Failure to submit a plan of action to the Director within 60 days or to comply with the time frame stated in the plan of action constitutes grounds for the Director to withdraw or modify approval of the form for future sales pursuant to A.R.S. § 20-1691.08.
 - b. For the rate schedules that are no longer marketed, that the premium rate schedule continues to be sufficient to cover anticipated costs under best estimate assumptions or that the premium rate schedule may no longer be sufficient. If the premium rate schedule is no longer sufficient, the insurer shall provide to the Director, within 60 days of the date the actuarial certification is submitted to the Director, a plan of action, including time frame, for the re-establishment of adequate margins for moderately adverse experience;
2. A description of the review performed that led to the statement; and
3. An actuarial memorandum dated and signed by a member of the American Academy of Actuaries who prepares the information shall be prepared to support the actuarial certification and provide at least the following information:
 - a. A detailed explanation of the data sources and review performed by the actuary prior to making the statement in subsection (L)(1),
 - b. A complete description of experience assumptions and their relationship to the initial pricing assumptions,
 - c. A description of the credibility of the experience data, and
 - d. An explanation of the analysis and testing performed in determining the current presence of margins.
4. The actuarial certification required pursuant to subsection (L)(1) must be based on calendar year data and submitted annually starting in the second year following the year in which the initial rate schedules are first used. The actuarial memorandum required pursuant to subsection (L)(3) must be submitted at least once every three years with the certification.

R20-6-1011. Prohibition Against Post-claims Underwriting

- A. An application for a long-term care insurance policy or certificate that is not guaranteed issue shall meet the requirements of this Section.
 1. The application shall contain clear and unambiguous questions designed to ascertain the applicant's health condition.
 - a. If the application has a question asking whether the applicant has had medication prescribed by a physician, the application shall also ask the applicant to list the prescribed medication.
 - b. If the insurer knew or reasonably should have known that the medications listed in the application are related to a medical condition for which coverage would otherwise be denied, the insurer shall not rescind the policy or certificate for that condition.
 2. The application shall include the following language which shall be set out conspicuously and in close conjunction with the applicant's signature block: **"Caution: If your answers on this application are incorrect or untrue, [company] has the right to deny benefits or rescind your policy."**
 3. The policy or certificate shall contain, at the time of delivery, the following language, or language substantially similar to the following, set out conspicuously: **"Caution: The issuance of this long-term care insurance [policy] [certificate] is based on your responses to the questions on your application. A copy of your [application] [enrollment form] [is enclosed] [was retained by you when you applied]. If your answers are incorrect or untrue, the company has the right to deny benefits or rescind your policy. The best time to clear up any questions is now, before a claim arises! If, for any reason, any of your answers are incorrect, contact the company at this address: [insert address]."**
- B. Before issuing a long-term care insurance policy or certificate that is not guaranteed issue to an applicant age 80 or older, the insurer shall obtain one of the following:
 1. A report of a physical examination,
 2. An assessment of functional capacity,
 3. An attending physician's statement, or
 4. Copies of medical records.
- C. The insurer or its insurance producer shall deliver a copy of the completed application or enrollment form, as applicable, to the insured no later than at the time of delivery of the policy or certificate unless the insurer gave a copy to the applicant it at the time of application.
- D. An insurer selling or issuing long-term care insurance benefits shall maintain a record of all policy or certificate rescissions, both state and country-wide, except those which the insured voluntarily effectuated.
- E. On or before March 31 of each year, an insurer shall report the following information to the Director for the preceding calendar year, using the form prescribed in Appendix G:
 1. Insurer name, address, phone number;
 2. As to each rescission except those voluntarily effectuated by the insured:
 - a. Policy form number,
 - b. Policy and certificate number,
 - c. Name of the insured,

- d. Date of policy issuance,
 - e. Date claim submitted,
 - f. Date of rescission, and
 - g. Detailed reason for rescission; and
3. Signature, name and title of the preparer, and date prepared.

R20-6-1012. Reserve Standards

- A. If long-term care benefits are provided through the acceleration of benefits under group or individual life policies or riders, an insurer shall determine policy reserves for long-term care benefits under A.R.S. § 20-510. An insurer shall also establish claim reserves for a policy or rider in claim status.
- B. An insurer shall base reserves for policies and riders under subsection (A) on the multiple decrement model using all relevant decrements except for voluntary termination rates. An insurer may use single decrement approximations if the calculation produces essentially similar reserves, if the reserve is clearly more conservative, or if the reserve is immaterial. The insurer, when calculating reserves, may take into account the reduction in life insurance benefits due to the payment of long-term care benefits. The insurer shall not set the reserves for the long-term care benefit and the life insurance benefit to be less than the reserves for the life insurance benefit assuming no long-term care benefit.
- C. In the development and calculation of reserves for policies and riders subject to this Section, an insurer shall give due regard to the applicable policy provisions, marketing methods, administrative procedures and all other considerations which impact projected claim costs including the following:
 - 1. Definition of insured events,
 - 2. Covered long-term care facilities,
 - 3. Existence of home convalescence care coverage,
 - 4. Definition of facilities,
 - 5. Existence or absence of barriers to eligibility,
 - 6. Premium waiver provision,
 - 7. Renewability,
 - 8. Ability to raise premiums,
 - 9. Marketing method,
 - 10. Underwriting procedures,
 - 11. Claims adjustment procedures,
 - 12. Waiting period,
 - 13. Maximum benefit,
 - 14. Availability of eligible facilities,
 - 15. Margins in claim costs,
 - 16. Optional nature of benefit,
 - 17. Delay in eligibility for benefit,
 - 18. Inflation protection provisions,
 - 19. Guaranteed insurability option, and
 - 20. Other similar or comparable factors affecting risk.
- D. A member of the American Academy of Actuaries shall certify an insurer's use of any applicable valuation morbidity table as appropriate as a statutory valuation table.
- E. When long-term care benefits are provided other than as described in subsection (A), an insurer shall determine reserves under A.R.S. § 20-508.

Historical Note

1012 recodified from R4-14-1012 (Supp. 95-1). R20-6-1012 renumbered to R20-6-1016; new Section R20-6-1012 renumbered from R20-6-1009 and amended by final rulemaking at 10 A.A.R. 4661, effective January 3, 2005 (Supp. 04-4). R20-6-1013. Loss Ratio

- A. This Section applies to policies and certificates issued any time prior to May 10, 2005.
- B. Benefits under an individual long-term care insurance policy are deemed reasonable in relation to premiums if the expected loss ratio is at least 60% calculated in a manner that provides for adequate reserving of the long-term care insurance risk. In evaluating the expected loss ratio, the director shall consider all relevant factors, including:
 - 1. Statistical credibility of incurred claims experience and earned premiums;
 - 2. The period for which rates are computed to provide coverage;
 - 3. Experienced and projected trends;
 - 4. Concentration of experience within early policy duration;
 - 5. Expected claim fluctuation;
 - 6. Experience refunds, adjustments, or dividends;
 - 7. Renewability features;
 - 8. All appropriate expense factors;
 - 9. Interest;
 - 10. Experimental nature of the coverage;
 - 11. Policy reserves;
 - 12. Mix of business by risk classification; and
 - 13. Product features such as long elimination periods, high deductibles, and high maximum limits.
- C. A premium rate schedule or proposed revision to a premium rate schedule that is expected to produce, over the lifetime of the long-term care insurance policy, benefits that are less than 60% of the proposed premium rate schedule is deemed to be unreasonable.
- D. Subsections (B) and (C) do not apply to life insurance policies that accelerate benefits for long-term care. A life insurance policy that funds long-term care benefits entirely by accelerating the death benefit is deemed to provide reasonable benefits in relation to premiums paid if the policy complies with all of the following:
 - 1. The interest credited internally to determine cash value accumulations, including long-term care, if any, is guaranteed not to be less than the minimum guaranteed interest rate for cash value accumulations without long-term care set forth in the policy;
 - 2. The portion of the policy that provides life insurance benefits complies with the nonforfeiture requirements of A.R.S. § 20-1231;
 - 3. The policy complies with the disclosure requirements of A.R.S. § 20-1691.06(A) through (E);
 - 4. At the time of making a filing under A.R.S. § 20-1691.08, the insurer files an actuarial memorandum that includes the following information:
 - a. A description of the basis on which the long-term care rates were determined;
 - b. A description of the basis for the reserves;
 - c. A summary of the type of policy, benefits, renewability, general marketing method, and limits on ages of issuance;
 - d. A description and a table of each actuarial assumption used; for expenses, an insurer shall include per-

- cent of premium dollars per policy and dollars per unit of benefits, if any;
- e. A description and a table of the anticipated policy reserves and additional reserves to be held in each future year for active lives;
- f. The estimated average annual premium per policy and the average issue age;
- g. A statement as to whether underwriting is performed, including:
 - i. Time of underwriting;
 - ii. A description of the type of underwriting used, such as medical underwriting or functional assessment underwriting; and
 - iii. For a group policy, whether an enrollee's dependents are subject to underwriting; and
- h. A description of the effect of the long-term care policy provisions on the required premiums, nonforfeiture values, and reserves on the underlying life insurance policy, both for active lives and those in long-term care claim status.

R20-6-1014. Premium Rate Schedule Increase

- A. This Section applies to any long-term care policy or certificate issued in this state on or after May 10, 2005 and prior to November 10, 2017.
- B. An insurer shall notify the Director of a proposed premium rate schedule increase, including an exceptional increase, at least 60 days before issuing notice to its policyholders. The notice to the Director shall include:
 - 1. Information required by R20-6-1008;
 - 2. Certification by a qualified actuary that:
 - a. If the requested premium rate schedule increase is implemented and the underlying assumptions, which reflect moderately adverse conditions, are realized, no further premium rate schedule increases are anticipated;
 - b. The premium rate filing complies with the provisions of this Section; and
 - c. The insurer may request a premium rate schedule increase less than what is required under this Section and the Director may approve the premium rate schedule increase, without submission of the certification required by subsection (B)(2)(a), if the actuarial memorandum discloses the premium rate schedule increase necessary to make the certification required by subsection (B)(2)(a), the premium rate schedule increase filing satisfies all other requirements of this Section, and is, in the opinion of the Director, in the best interest of the policyholders.
 - 3. An actuarial memorandum justifying the rate schedule change request that includes:
 - a. Lifetime projections of earned premiums and incurred claims based on the filed premium rate schedule increase; and the method and assumptions used in determining the projected values, including the following:
 - i. Any assumptions that deviate from those used for pricing other forms currently available for sale;
 - ii. Annual values for the five years preceding and the three years following the valuation date, provided separately;
 - iii. Development of the lifetime loss ratio, unless the rate increase is an exceptional increase; and
 - iv. A demonstration of compliance with subsection (C).
 - b. For exceptional increases, the actuarial memorandum shall also include:
 - i. The projected experience that is limited to the increases in claims expenses attributable to the approved reasons for the exceptional increase; and
 - ii. If the Director determines under Section R20-6-1002(B)(3) that offsets may exist, the insurer shall use appropriate net projected experience;
 - c. Disclosure of how reserves have been incorporated in this rate increase when the rate increase will trigger contingent benefit upon lapse;
 - d. Disclosure of the analysis performed to determine why a rate adjustment is necessary, which pricing assumptions were not realized and why, and any other actions of the insurer on which the actuary has relied;
 - e. A statement that the actuary has considered policy design, underwriting, and claims adjudication practices;
 - f. Composite rates reflecting projections of new certificates in the event it is necessary to maintain consistent premium rates for new certificates and certificates receiving a rate increase; and
 - g. A demonstration that actual and projected costs exceed costs anticipated at the time of the initial pricing under moderately adverse experience and that the composite margin specified in R20-6-1009(B)(4) is projected to be exhausted;
- 4. A statement that renewal premium rate schedules are not greater than new business premium rate schedules except for differences attributable to benefits, unless the insurer provides the Director with documentation justifying the greater rate; and
- 5. Upon the Director's request, other similar and related information the Director may require to evaluate the premium rate schedule increase.
- C. All premium rate schedule increases shall be determined in accordance with the following requirements:
 - 1. The insurer shall return 70% of the present value of projected additional premiums from an exceptional increase to policyholders in benefits;
 - 2. The sum of the accumulated value of incurred claims, without the inclusion of active life reserves, and the present value of future projected incurred claims, without the inclusion of active life reserves, shall not be less than the sum of the following:
 - a. The accumulated value of the initial earned premium times 58%;
 - b. 85% of the accumulated value of prior premium rate schedule increases on an earned basis;
 - c. The present value of future projected initial earned premiums times 58%; and

CHAPTER 6. DEPARTMENT OF INSURANCE

- d. 85% of the present value of future projected premiums not in subsection (C)(2)(c) on an earned basis;
3. If a policy form has both exceptional and other increases, the values in subsections (C)(2)(b) and (C)(2)(d) shall also include 70% for exceptional rate increase amounts; and
4. All present and accumulated values used to determine rate increases shall use the maximum valuation interest rate for contract reserves as specified in the NAIC Accounting Practices and Procedures Manual to which insurers are subject under A.R.S. § 20-223. The actuary shall disclose the use of any appropriate averages in the actuarial memorandum required under subsection (B)(3).
- D.** For each rate increase that is implemented, the insurer shall file for approval by the Director updated projections, as defined in subsection (B)(3)(a), annually for the next three years and shall include a comparison of actual results to projected values. The Director may extend the period to greater than three years if actual results are not consistent with projected values from prior projections. For group insurance policies that meet the conditions in subsection (M), the insurer shall provide the projections required by this subsection to the policyholder in lieu of filing with the Director.
- E.** If any premium rate in the revised premium rate schedule is greater than 200% of the comparable rate in the initial premium schedule, the insurer shall file lifetime projections, as defined in subsection (B)(3)(a), for the Director's approval every five years following the end of the required period in subsection (D). For group insurance policies that meet the conditions in subsection (M), the insurer shall provide the projections required by this subsection to the policyholder instead of filing with the Director.
- F.** If the Director finds that the actual experience following a rate increase does not adequately match the projected experience and that the current projections under moderately adverse conditions demonstrate that incurred claims will not exceed proportions of premiums specified in subsection (C), the Director may require the insurer to implement premium rate schedule adjustments or other measures to reduce the difference between the projected and actual experience. In determining whether the actual experience matches the projected experience, the Director shall consider subsection (B)(3)(f), if applicable.
- G.** If the majority of the policies or certificates to which the increase applies are eligible for the contingent benefit upon lapse, the insurer shall file:
 1. A plan, subject to Director approval, for improved administration or claims processing designed to eliminate the potential for further deterioration of the policy form experience requiring further premium rate schedule increases, or both, or to demonstrate that appropriate administration and claims processing have been implemented or are in effect; otherwise the Director may impose the conditions in subsections (H) through (J); and
 2. The original anticipated lifetime loss ratio, and the premium rate schedule increase that would have been calculated according to subsection (C) had the greater of the original anticipated lifetime loss ratio or 58% been used in the calculations described in subsections (C)(2)(a) and (C)(2)(c).
- H.** For a rate increase filing that meets the criteria listed in this subsection, the Director shall review, for all policies included in the filing, the projected lapse rates and past lapse rates during the 12 months following each increase to determine if lapsation in excess of projected lapsation has occurred or is anticipated:
 1. The rate increase is not the first rate increase requested for the specific policy form or forms,
 2. The rate increase is not an exceptional increase, and
 3. The majority of the policies or certificates to which the increase applies are eligible for the contingent benefit upon lapse.
- I.** If the Director finds excess lapsation under subsection (H) has occurred, is anticipated in the filing or is evidenced in the actual results as presenting in the updated projections provided by the insurer following the requested rate increase, the Director may find that a rate spiral exists and may require the insurer to offer, without underwriting, to all in-force insureds subject to the rate increase, the option to replace existing coverage with one or more reasonably comparable products being offered by the insurer or its affiliates. The information communicating the offer is subject to the Director's approval. The offer shall:
 1. Be based on actuarially sound principles, but not on attained age;
 2. Provide that maximum benefits under any new policy accepted by an insured shall be reduced by comparable benefits already paid under the existing policy; and
 3. Allow the insured the option of retaining the existing coverage.
- J.** The insurer shall maintain the experience of the insureds whose coverage was replaced under subsection (I) separate from the experience of insureds originally issued the policy forms. If the insurer requests a rate increase on the policy form, the rate increase shall be limited to the lesser of:
 1. The maximum rate increase determined based on the combined experience; and
 2. The maximum rate increase determined based only on the experience of the insureds originally issued the form, plus 10%.
- K.** If the Director finds that an insurer has exhibited a history or pattern of filing inadequate initial premium rates for long-term care insurance, after considering the total number of policies filed over a period of time and the percentage of policies with inadequate rates, the Director may, in addition to remedies available under subsections (H) through (J), prohibit the insurer from the following:
 1. Filing and marketing comparable coverage for a period of up to five years, and
 2. Offering all other similar coverages and limiting marketing of new applications to the products subject to recent premium rate schedule increases.
- L.** Subsections (A) through (K) shall not apply to a policy for which long-term care benefits provided by the policy are incidental, as defined under R20-6-1002(C), if the policy complies with all of the following provisions:
 1. The interest credited internally to determine cash value accumulations, including long-term care, if any, are guaranteed not to be less than the minimum guaranteed interest rate for cash value accumulations without long-term care set forth in the policy;
 2. The portion of the policy that provides insurance benefits other than long-term care coverage meets the applicable nonforfeiture requirements under state law, including A.R.S. §§ 20-1231, 20-1232 and 20-2636;
 3. The policy meets the disclosure requirements of A.R.S. § 20-1691.06;
 4. The portion of the policy that provides insurance benefits other than long-term care coverage meets the disclosure requirements as applicable in the following:
 - a. A.R.S. Title 20, Chapter 6, Article 1.2; and
 - b. A.R.S. Title 20, Chapter 16, Article 2;

CHAPTER 6. DEPARTMENT OF INSURANCE

5. At the time of making a filing under A.R.S. § 20-1691.08, the insurer files an actuarial memorandum that includes:
 - a. Description of the bases on which the actuary determined the long-term care rates and the reserves;
 - b. A summary of the type of policy, benefits, renewability provisions, general marketing method, and limits on ages of issuance;
 - c. A description and a table of each actuarial assumption used, with the percent of premium dollars per policy and dollars per unit of benefits, if any, for expenses;
 - d. A description and a table of the anticipated policy reserves and additional reserves to be held in each future year for active lives;
 - e. The estimated average annual premium per policy and the average issue age;
 - f. A statement as to whether the insurer performs underwriting at the time of application with an explanation of the following:
 - i. Whether underwriting is used, and if used, a description of the type of underwriting, such as medical underwriting or functional assessment underwriting; and
 - ii. For a group policy, whether the enrollee or any dependent will be underwritten and when underwriting occurs; and
 - g. A description of the effect of the long-term care policy provision on the required premiums, nonforfeiture values, and reserves on the underlying insurance policy, both for active lives and those in long-term care claim status.
- M.** Subsections (F) and (H) through (J) shall not apply to group insurance as defined in A.R.S. § 20-1691(6) where:
1. The policies insure 250 or more persons and the policyholder has 5,000 or more eligible employees of a single employer; or
 2. The policyholder, and not the certificateholder, pays a material portion of the premium, which shall not be less than 20% of the total premium for the group in the calendar year prior to the year a rate increase is filed.

- R20-6-1015. Premium Rate Schedule Increases for Policies Subject to Loss Ratio Limits Related to Original Filings**
- A.** This Section applies to any long-term care policy or certificate issued in this state on or after November 10, 2017.
- B.** An insurer shall notify the Director of a proposed premium rate schedule increase, including an exceptional increase, at least 60 days before issuing notice to its policyholders. The notice to the Director shall include:
1. Information required by R20-6-1008;
 2. Certification by a qualified actuary that:
 - a. If the requested premium rate schedule increase is implemented and the underlying assumptions, which reflect moderately adverse conditions, are realized, no further premium rate schedule increases are anticipated;
 - b. The premium rate filing complies with the provisions of this Section; and
 - c. The insurer may request a premium rate schedule increase less than what is required under this Section and the Director may approve the premium rate schedule increase, without submission of the certification required by subsection (B)(2)(a), if the actuarial memorandum discloses the premium rate schedule increase necessary to make the certification required by subsection (B)(2)(a), the premium rate schedule increase filing satisfies all other requirements of this Section, and is, in the opinion of the Director, in the best interest of the policyholders.
3. An actuarial memorandum justifying the rate schedule change request that includes:
- a. Lifetime projections of earned premiums and incurred claims based on the filed premium rate schedule increase; and the method and assumptions used in determining the projected values, including the following:
 - i. Any assumptions that deviate from those used for pricing other forms currently available for sale;
 - ii. Annual values for the five years preceding and the three years following the valuation date, provided separately;
 - iii. Development of the lifetime loss ratio, unless the rate increase is an exceptional increase; and
 - iv. A demonstration of compliance with subsection (C).
 - b. For exceptional increases, the actuarial memorandum shall also include:
 - i. The projected experience that is limited to the increases in claims expenses attributable to the approved reasons for the exceptional increase; and
 - ii. If the Director determines under Section R20-6-1002(B)(3) that offsets may exist, the insurer shall use appropriate net projected experience;
 - c. Disclosure of how reserves have been incorporated in this rate increase when the rate increase will trigger contingent benefit upon lapse;
 - d. Disclosure of the analysis performed to determine why a rate adjustment is necessary, which pricing assumptions were not realized and why, and any other actions of the insurer on which the actuary has relied;
 - e. A statement that the actuary has considered policy design, underwriting, and claims adjudication practices;
 - f. Composite rates reflecting projections of new certificates in the event it is necessary to maintain consistent premium rates for new certificates and certificates receiving a rate increase; and
 - g. A demonstration that actual and projected costs exceed costs anticipated at the time of the initial pricing under moderately adverse experience and that the composite margin specified in R20-6-1009(B)(4) is projected to be exhausted.
4. A statement that renewal premium rate schedules are not greater than new business premium rate schedules except for differences attributable to benefits, unless the insurer provides the Director with documentation justifying the greater rate; and

CHAPTER 6. DEPARTMENT OF INSURANCE

5. Upon the Director's request, other similar and related information the Director may require to evaluate the premium rate schedule increase.
- C. All premium rate schedule increases shall be determined in accordance with the following requirements:
 1. Exceptional increases shall provide that 70% of the present value of projected additional premiums from the exceptional increase will be returned to policyholders in benefits;
 2. The insurer shall calculate premium rate increases such that the sum of the lesser of either the accumulated value of the actual incurred claims (without the inclusion of active life reserves) or the accumulated value of historic expected claims (without the inclusion of active life reserves) plus the present value of the future expected incurred claims (projected without the inclusion of active life reserves) will not be less than the sum of the following:
 - a. The accumulated value of the initial earned premium times the greater of 58% or the lifetime loss ratio consistent with the original filing including margins for moderately adverse experience;
 - b. 85% of the accumulated value of prior premium rate schedule increases on an earned basis;
 - c. The present value of future projected initial earned premiums times the greater of 58% or the lifetime loss ratio consistent with the original filing including margins for moderately adverse experience; and
 - d. 85% of the present value of future projected premiums not in subsection (C)(2)(c) on an earned basis;
 3. Historic expected claims shall be calculated based on the original filing assumptions assumed until new assumptions are filed as part of a rate increase. New assumptions shall be used for all periods beyond each requested effective date of a rate increase. Historic expected claims are calculated for each calendar year based on the in-force at the beginning of the calendar year. Historic expected claims shall include margins for moderately adverse experience; either amounts included in the claims that were used to determine the lifetime loss ratio consistent with the original filing or as modified in any rate increase filing;
 4. In the event that a policy form has both exceptional and other increases, the values in subsections (C)(2)(b) and (C)(2)(d) will also include 70% for exceptional rate increase amounts; and
 5. All present and accumulated values used to determine rate increases, including the lifetime loss ratio consistent with the original filing reflecting margins for moderately adverse experience, shall use the maximum valuation interest rate for contract reserves as specified in A.R.S. § 20-508. The actuary shall disclose as part of the actuarial memorandum the use of any appropriate averages.
- D. For each rate increase that is implemented, the insurer shall file for approval by the Director updated projections, as defined in subsection (B)(3)(a), annually for the next three years and shall include a comparison of actual results to projected values. The Director may extend the reporting period beyond three years if actual results are not consistent with projected values from prior projections. For group insurance policies that meet the conditions in subsection (M), the projections required by this subsection shall be provided to the policyholder in lieu of filing with the Director.
- E. If any premium rate in the revised premium rate schedule is greater than 200% of the comparable rate in the initial premium schedule, the insurer shall file lifetime projections, as defined in subsection (B)(3)(a), for the Director's approval every five years following the end of the required period in subsection (D). For group insurance policies that meet the conditions in subsection (M), the insurer shall provide the projections required by this subsection to the policyholder instead of filing with the Director.
- F. If the Director finds that the actual experience following a rate increase does not adequately match the projected experience and that the current projections under moderately adverse conditions demonstrate that incurred claims will not exceed proportions of premiums specified in subsection (C), the Director may require the insurer to implement premium rate schedule adjustments or other measures to reduce the difference between the projected and actual experience. In determining whether the actual experience matches the projected experience, the Director shall consider subsection (B)(3)(f), if applicable.
- G. If the majority of policies or certificates to which the increase is applicable are eligible for the contingent benefit upon lapse, the insurer shall file a plan, subject to approval by the Director, for improved administration or claims processing designed to eliminate the potential for further deterioration of the policy form experience requiring further premium rate schedule increases, or both, or to demonstrate that appropriate administration and claims processing have been implemented or are in effect. Otherwise, the Director may impose the conditions in subsections (H) through (J).
- H. For a rate increase filing that meets the criteria listed in this subsection, the Director shall review, for all policies included in the filing, the projected lapse rates and past lapse rates during the 12 months following each increase to determine if lapsation in excess of projected lapsation has occurred or is anticipated:
 1. The rate increase is not the first rate increase requested for the specific policy form or forms;
 2. The rate increase is not an exceptional increase; and
 3. The majority of the policies or certificates to which the increase applies are eligible for the contingent benefit upon lapse.
- I. If the Director finds excess lapsation under subsection (H) has occurred, is anticipated in the filing or is evidenced in the actual results as presenting in the updated projections provided by the insurer following the requested rate increase, the Director may find that a rate spiral exists and may require the insurer to offer, without underwriting, to all in-force insureds subject to the rate increase, the option to replace existing coverage with one or more reasonably comparable products being offered by the insurer or its affiliates. The information communicating the offer is subject to the Director's approval. The offer shall:
 1. Be based on actuarially sound principles, but not on attained age; and
 2. Provide that maximum benefits under any new policy accepted by an insured shall be reduced by comparable benefits already paid under the existing policy; and
 3. Allow the insured the option of retaining the existing coverage.
- J. The insurer shall maintain the experience of the insureds whose coverage was replaced under subsection (I) separate from the experience of insureds originally issued the policy forms. If the insurer requests a rate increase on the policy form, the rate increase shall be limited to the lesser of:
 1. The maximum rate increase determined based on the combined experience; and

CHAPTER 6. DEPARTMENT OF INSURANCE

2. The maximum rate increase determined based only on the experience of the insureds originally issued the form, plus 10%.
- K.** If the Director finds that an insurer has exhibited a history or pattern of filing inadequate initial premium rates for long-term care insurance, after considering the total number of policies filed over a period of time and the percentage of policies with inadequate rates, the Director may, in addition to remedies available under subsections (H) through (J), prohibit the insurer from the following:
1. Filing and marketing comparable coverage for a period of up to five years; and
 2. Offering all other similar coverages and limiting marketing of new applications to the products subject to recent premium rate schedule increases.
- L.** Subsections (A) through (K) shall not apply to a policy for which long-term care benefits provided by the policy are incidental, as defined under R20-6-1002(C), if the policy complies with all of the following provisions:
1. The interest credited internally to determine cash value accumulations, including long-term care, if any, are guaranteed not to be less than the minimum guaranteed interest rate for cash value accumulations without long-term care set forth in the policy;
 2. The portion of the policy that provides insurance benefits other than long-term care coverage meets the applicable nonforfeiture requirements under state law, including A.R.S. §§ 20-1231, 20-1232 and 20-2636;
 3. The policy meets the disclosure requirements of A.R.S. § 20-1691.06;
 4. The portion of the policy that provides insurance benefits other than long-term care coverage meets the disclosure requirements as applicable in the following:
 - a. A.R.S. Title 20, Chapter 6, Article 1.2; and
 - b. A.R.S. Title 20, Chapter 16, Article 2.
 5. At the time of making a filing under A.R.S. § 20-1691.08, the insurer files an actuarial memorandum that includes:
 - a. Description of the bases on which the actuary determined the long-term care rates and the reserves;
 - b. A summary of the type of policy, benefits, renewability provisions, general marketing method, and limits on ages of issuance;
 - c. A description and a table of each actuarial assumption used, with the percent of premium dollars per policy and dollars per unit of benefits, if any, for expenses;
 - d. A description and a table of the anticipated policy reserves and additional reserves to be held in each future year for active lives;
 - e. The estimated average annual premium per policy and the average issue age;
 - f. A statement as to whether the insurer performs underwriting at the time of application with an explanation of the following:
 - i. Whether underwriting is used, and if used, a description of the type of underwriting, such as medical underwriting or functional assessment underwriting; and
 - ii. For a group policy, whether the enrollee or any dependent will be underwritten and when underwriting occurs; and
 - g. A description of the effect of the long-term care policy provision on the required premiums, nonforfeiture values, and reserves on the underlying insurance policy, both for active lives and those in long-term care claim status.
- M.** Subsections (F) and (H) through (J) shall not apply to group insurance as defined in A.R.S. § 20-1691(6) where:
1. The policies insure 250 or more persons and the policyholder has 5,000 or more eligible employees of a single employer; or
 2. The policyholder, and not the certificateholder, pays a material portion of the premium, which shall not be less than 20% of the total premium for the group in the calendar year prior to the year a rate increase is filed.

R20-6-1016. Filing Requirements for Group Policies

- A.** Out-of-State Policies. Before an insurer or similar organization may offer group long-term care insurance to a resident of this state under A.R.S. § 20-1691.02(D), the insurer or organization shall file with the Director evidence that a state with statutory or regulatory long-term care insurance requirements substantially similar to those of this state has approved the group policy or certificate for use in that state.

R20-6-1017. Standards for Marketing

- A.** Every insurer marketing long-term care insurance coverage in this state, directly or through an insurance producer shall:
1. Establish marketing procedures to assure that any comparison of policies by its insurance producers is fair and accurate, and that excessive insurance is not sold or issued;
 2. Display prominently by type, stamp or other appropriate means, on the first page of the outline of coverage and policy, the following language: "Notice to buyer: This policy may not cover all of the costs associated with long-term care incurred by the buyer during the period of coverage. The buyer is advised to review carefully all policy limitations;"
 3. Provide the applicant with copies of the disclosure forms in Appendices A and B;

2. High pressure tactics. Employing any method of marketing having the effect of or tending to induce the purchase of insurance through force, fright, threat, whether explicit or implied, or undue pressure to purchase or recommend the purchase of insurance.
3. Cold lead advertising. Making use directly or indirectly or any method of marketing that fails to disclose in a conspicuous manner that a purpose of the method of marketing is solicitation of insurance and that contact will be made by an insurance producer or insurance company.
4. Misrepresentation. Misrepresenting a material fact in selling or offering to sell a long-term care insurance policy.

C. An insurer shall not market or issue a long-term care policy or certificate to an association unless the insurer files the information required under R20-6-1016(B) and annually certifies that the association has complied with the requirements of this Section.

R20-6-1018. Suitability

- A.** This Section does not apply to life insurance policies that accelerate benefits for long-term care.
- B.** Every insurer or other person marketing long-term care insurance, including an insurance producer or managing general agent, (the “issuer”) shall:
 1. Develop and use suitability standards to determine whether the purchase or replacement of long-term care insurance is appropriate for the needs of the applicant,
 2. Train its insurance producers in the use of its suitability standards, and
 3. Maintain a copy of its suitability standards and make them available for inspection upon the Director’s request.
- C.** To determine whether an applicant meets an issuer’s suitability standards, the insurance producer and issuer shall develop procedures that take the following into consideration:
 1. The applicant’s ability to pay for the proposed coverage and other pertinent financial information related to the purchase of the coverage;
 2. The applicant’s goals or needs with respect to long-term care and the advantages and disadvantages of insurance to meet these goals or needs; and
 3. The values, benefits, and costs of the applicant’s existing insurance, if any, when compared to the values, benefits, and costs of the recommended purchase or replacement.
- D.** The issuer shall make reasonable efforts to obtain the information set out in subsection (C), including giving the applicant the “Long-Term Care Insurance Personal Worksheet” pre-

scribed in Appendix A, to complete before or at the time of application. The issuer shall use a personal worksheet that contains, at a minimum, the information contained in Appendix A, in substantially the same text and format, in not less than 12 point type. The issuer may ask the applicant to provide additional information to comply with its suitability standards. An issuer shall file a copy of its personal worksheet with the Director.

- E.** An issuer shall not consider an applicant for coverage until the issuer has received the applicant’s completed personal worksheet, except the personal worksheet need not be returned for sales of employer group long-term care insurance to employees and their spouses.
- F.** No one shall sell or disseminate information obtained through the personal worksheet outside the issuer that obtains the worksheet.
- G.** The issuer shall use its suitability standards to determine whether issuance of long-term care insurance coverage to a particular applicant is appropriate.
- H.** An insurance producer shall use the suitability standards developed by the issuer in marketing long-term care insurance.
- I.** When giving an applicant a personal worksheet, the issuer shall also provide the applicant with a disclosure form entitled “Things You Should Know Before You Buy Long-Term Care Insurance.” The form shall be in substantially the same format and text contained in Appendix H, in not less than 12 point type.
- J.** If the issuer determines that the applicant does not meet its financial suitability standards, or if the applicant has declined to provide the information, the issuer may reject the application. In the alternative, the issuer shall send the applicant a letter that is substantially similar to Appendix I. However, if the applicant has declined to provide financial information, the issuer may use some other method to verify the applicant’s intent to purchase the long-term care policy. The issuer shall have either the applicant’s returned Appendix I letter or a record of the alternative method of verification as part of the applicant’s file.
- K.** The issuer shall report annually to the Director the total number of applications received from residents of this state, the number of those who declined to provide information on the personal worksheet, the number of applicants who did not meet the suitability standards, and the number of those who chose to confirm after receiving a suitability letter as prescribed in subsection (J).

Historical Note

New Section made by final rulemaking at 10 A.A.R. 4661, effective January 3, 2005 (Supp. 04-4). Amended by final exempt rulemaking at 23 A.A.R. 1119, effective November 10, 2017 (Supp. 17-2).

R20-6-1019. Nonforfeiture Benefit Requirement

- A.** This Section does not apply to life insurance policies or riders containing accelerated long-term care benefits.
- B.** To comply with the requirement to offer a nonforfeiture benefit pursuant to the provisions of A.R.S. § 20-1691.11, an insurer shall meet the following requirements:
 1. A policy or certificate offered with nonforfeiture benefits shall have the same coverage elements, eligibility, benefit triggers and benefit length as a policy or certificate issued without nonforfeiture benefits. The nonforfeiture benefit included in the offer shall be the benefit described in subsection (E); and
 2. The offer shall be in writing if the nonforfeiture benefit is not otherwise described in the Outline of Coverage or other materials given to the prospective policyholder.

CHAPTER 6. DEPARTMENT OF INSURANCE

- C. If the offer required to be made under A.R.S. § 20-1691.11 is rejected, the insurer shall provide the contingent benefit upon lapse described in this Section. Even if the non-forfeiture benefit offer is accepted for a policy with a fixed or limited premium paying period, the contingent benefit on lapse in subsection (D)(4) shall still apply.

D. Contingent Benefit Upon Lapse.

1. If a prospective policyholder rejects the offer of a nonforfeiture benefit, the insurer shall provide the contingent benefit upon lapse described in this Section for individual and group policies without the nonforfeiture benefit, issued after January 10, 2005.
2. If a group policyholder elects to make the nonforfeiture benefit an option to a certificateholder, the certificate shall provide either the nonforfeiture benefit or the contingent benefit upon lapse.
3. The contingent benefit on lapse is triggered when:
 - a. An insurer increases the premium rates to a level that results in a cumulative increase of the annual premium equal to or exceeding the percentage of the insured's initial annual premium set forth in the chart below, based on the insured's issue age; and
 - b. The policy or certificate lapses within 120 days of the due date of the increased premium.
 - c. Unless otherwise required, an insurer shall notify policyholders at least 30 days before the due date of the premium reflecting the rate increase.

4. A contingent benefit on lapse is also triggered for policies with a fixed or limited premium paying period when:
 - a. An insurer increases the premium rates to a level that results in a cumulative increase of the annual premium equal to or exceeding the percentage of the insured's initial annual premium set forth in the chart below, based on the insured's issue age; and
 - b. The policy or certificate lapses within 120 days of the due date of the increased premium; and
 - c. The ratio in subsection (D)(6)(b) is 40% or more.
 - d. Unless otherwise required, an insurer shall notify policyholders at least 30 days before the due date of the premium reflecting the rate increase.

Triggers for a Substantial Premium Increase on policies with a fixed or limited premium paying period	
Issue Age	Percent Increase Over Initial Premium
Under 65	50%
65-80	30%
Over 80	10%

- e. This provision shall be in addition to the contingent benefit provided by subsection (D)(3) and where both are triggered, the benefit provided shall be at the option of the insured.
5. On or before the effective date of a substantial premium increase as defined in subsection (D)(3), an insurer shall:
 - a. Offer the insured the option of reducing policy benefits under the current coverage consistent with the requirements of R20-6-1025 so that required premium payments are not increased;
 - b. Offer to convert the coverage to a paid-up status with a shortened benefit period according to the terms of subsection (E), which the insured may elect at any time during the 120-day period referenced in subsection (D)(3); and
 - c. Notify the policyholder or certificateholder that a default or lapse at any time during the 120-day period referenced in subsection (D)(3) is deemed to be the election of the offer to convert under subsection (5)(b) unless the automatic option in subsection (D)(6)(c) applies.
6. On or before the effective date of a substantial premium increase on policies with a fixed or limited premium paying period as defined in subsection (D)(4), an insurer shall:
 - a. Offer the insured the option of reducing policy benefits under the current coverage consistent with the requirements of R20-6-1025 so that required premium payments are not increased;

CHAPTER 6. DEPARTMENT OF INSURANCE

- b. Offer to convert the coverage to paid-up status where the amount payable for each benefit is 90% of the amount payable in effect immediately prior to lapse times the ratio of the number of completed months of paid premiums divided by the number of months in the premium paying period. The insured may elect this option at any time during the 120-day period referenced in subsection (D)(4); and
 - c. Notify the policyholder or certificateholder that a default or lapse at any time during the 120-day period referenced in subsection (D)(4) is deemed to be the election of the offer to convert under subsection (D)(6)(b) if the ratio is 40% or more.
- 7. For any long-term care policy issued on or after November 10, 2017, that an insurer issued at least 20 years prior to the effective date of a substantial premium increase, the insurer shall use a rate increase value of 0% in place of all values in the above tables.
- E. Benefits continued as nonforfeiture benefits, including contingent benefits upon lapse in accordance with subsection (D)(3) but not subsection (D)(4), mean any of the following:
 - 1. Attained age rating is defined as a schedule of premiums starting from the issue date that increases age at least 1% per year before age 50, and at least 3% per year beyond age 50.
 - 2. For purposes of this subsection, the nonforfeiture benefit shall be of a shortened benefit period providing paid-up long-term care insurance coverage after lapse. The same benefits (amounts and frequency in effect at the time of lapse but not increased thereafter) will be payable for a qualifying claim, but the lifetime maximum dollars or days of benefits shall be determined as specified in subsection (E)(3).
 - 3. The standard nonforfeiture credit equals 100% of the sum of all premiums paid, including the premiums paid before any change in benefits. The insurer may offer additional shortened benefit period options, as long as the benefits for each duration equal or exceed the standard nonforfeiture credit for that duration. The minimum nonforfeiture credit shall not be less than 30 times the daily nursing home benefit at the time of lapse. In either event, the calculation of the nonforfeiture credit is subject to the limitation of subsection (F).
 - 4. When the nonforfeiture benefit begins.
 - a. The nonforfeiture benefit shall begin not later than the end of the third year following the policy or certificate issue date. The contingent benefit upon lapse shall be effective during the first three years, and thereafter.
 - b. Notwithstanding subsection (E)(4)(a), for a policy or certificate with attained age rating, the nonforfeiture benefit shall begin on the earlier of:
 - i. The end of the tenth year following the policy or certificate issue date, or
 - ii. The end of the second year following the date the policy or certificate is no longer subject to attained age rating.
 - 5. Nonforfeiture credits may be used for all care and services qualifying for benefits under the terms of the policy or certificate, up to the limits specified in the policy or certificate.
- F. All benefits paid by the insurer while the policy or certificate is in premium-paying status and in the paid-up status shall not exceed the maximum benefits that would be payable if the policy or certificate had remained in premium-paying status.
- G. There shall be no difference in the minimum nonforfeiture benefits for group and individual policies.
- H. The requirements in this Section are effective on or after November 10, 2005 and shall apply as follows:
 - 1. Except as provided in subsection (H)(2) and (H)(3), this Section applies to any long-term care policy issued in this state on or after January 10, 2005.
 - 2. The provisions of this Section do not apply to certificates issued on or after January 10, 2005, under a group long-term care insurance policy as defined in A.R.S. § 20-1691(5)(a), that was in force on January 10, 2005.
 - 3. The provisions of this Section that apply to fixed or limited premium paying period policies shall only apply to policies issued on or after November 10, 2017.
- I. Premiums charged for a policy or certificate containing nonforfeiture benefits or a contingent benefit on lapse shall be subject to the loss ratio requirements of R20-6-1013, R20-6-1014 or R20-6-1015, whichever is applicable, treating the policy as a whole.
- J. To determine whether contingent nonforfeiture upon lapse provisions are triggered under subsection (D)(3) or (D)(4), a replacing insurer that purchased or otherwise assumed a block or blocks of long-term care insurance policies from another insurer shall calculate the percentage increase based on the initial annual premium the insured paid when first buying the policy from the original insurer.
- K. An insurer shall offer a nonforfeiture benefit for a qualified long-term care insurance contract that is a level premium contract and the benefit shall meet the following requirements:
 - 1. The nonforfeiture provision shall be separately captioned using the term "nonforfeiture benefit" or a substantially similar caption;
 - 2. The nonforfeiture provision shall provide a benefit available in the event of a default in the payment of any premiums and shall state that the insurer may adjust the amount of the benefit initially granted only as needed to reflect changes in claims, persistency, and interest as reflected in changes in rates for premium paying contracts approved by the Director under to A.R.S. § 20-1691.08 for the same contract form; and
 - 3. The nonforfeiture provision shall provide at least one of the following:
 - a. Reduced paid-up premiums,
 - b. Extended term insurance,
 - c. Shortened benefit period, or
 - d. Other similar offerings that the Director has approved.

R20-6-1024. Availability of New Health Care Services or Providers

- A. An insurer shall notify policyholders of the availability of a new long-term policy series that provides coverage for new long-term care services or health care providers material in nature and not previously available through the insurer to the general public. The notice shall be provided within 12 months of the date the new policy series is made available for sale in this state.
- B. Notwithstanding subsection (A), notification is not required for any policy issued prior to the effective date of this Section or to any policyholder or certificateholder who is currently eligible for benefits, within an elimination period or on a claim, or who previously had been in claim status, or who would not be eligible to apply for coverage due to issue age limitations under the new policy. The insurer may require that policyholders meet all eligibility requirements, including underwriting and payment of the required premium to add such new services or providers.
- C. The insurer shall make the new coverage available in one of the following ways:
1. By adding a rider to the existing policy and charging a separate premium for the new rider based on the insured's attained age:

CHAPTER 6. DEPARTMENT OF INSURANCE

2. By exchanging the existing policy or certificate for one with an issue age based on the present age of the insured and recognizing past insured status by granting premium credits toward the premiums for the new policy or certificate. The premium credits shall be based on premiums paid or reserves held for the prior policy or certificate;
 3. By exchanging the existing policy or certificate for a new policy or certificate in which consideration for past insured status shall be recognized by setting the premium for the new policy or certificate at the issue age of the policy or certificate being exchanged. The cost for the new policy or certificate may recognize the difference in reserves between the new policy or certificate and the original policy or certificate; or
 4. By an alternative program developed by the insurer that meets the intent of this Section if the program is filed with and approved by the Director.
- D.** An insurer is not required to notify policyholders of a new proprietary policy series created and filed for use in a limited distribution channel. For purposes of this subsection, "limited distribution channel" means through a discrete entity, such as a financial institution or brokerage, for which specialized products are available that are not available for sale to the general public. Policyholders who purchased such a new proprietary policy shall be notified when a new long-term care policy series that provides coverage for new long-term care services or providers material in nature is made available to that limited distribution channel.
- E.** Policies issued pursuant to this Section shall be considered exchanges and not replacements. These exchanges shall not be subject to R20-6-1010(A), (C) through (G) and R20-6-1018 and are not subject to the reporting requirements of R20-6-1010(I)(1), (I)(2)(a) through (I)(2)(c).
- F.** Where an employer, labor organization, professional, trade or occupational association offers the policy, the required notification in subsection (A) shall be made to the offering entity. However, if the policy is issued to a group defined in A.R.S. § 20-1691(5), the notification shall be to each certificateholder.
- G.** Nothing in this Section shall prohibit an insurer from offering any policy, rider, certificate or coverage change to any policyholder or certificateholder. However, upon request, any policyholder may apply for currently available coverage that includes the new services or providers. The insurer may require that policyholders meet all eligibility requirements, including underwriting and payment of the required premium, to add such new services or providers.
- H.** This Section does not apply to life insurance policies or riders containing accelerated long-term care benefits.
- I.** This Section shall become effective on or after November 10, 2017.
- B.** The insurer may also offer other reduction options that are consistent with the policy or certificate design or the carrier's administrative processes.
- C.** In the event the reduction in coverage involves the reduction or elimination of the inflation protection provision, the insurer shall allow the policyholder to continue the benefit amount in effect at the time of the reduction.
- D.** The provision in subsection (A) shall include a description of the process for requesting and implementing a reduction in coverage.
- E.** The premium for the reduced coverage shall:
1. Be based on the same age and underwriting class used to determine the premium for the coverage currently in force, and
 2. Be consistent with the approved rate table.
- F.** The issuer may limit any reduction in coverage to plans or options available for that policy form and to those for which benefits will be available after consideration of claims paid or payable.
- G.** If a policy or certificate is about to lapse, the insurer shall provide a written reminder to the policyholder or certificateholder of his or her right to reduce coverage and premiums in the notice required by R20-6-1005(F).
- H.** This Section does not apply to life insurance policies or riders containing accelerated long-term benefits.
- I.** The requirements of subsections (A) through (H) shall apply to any long-term care policy issued in this state on or after November 10, 2017.
- J.** A premium increase notice required by R20-6-1008(G) shall include:
1. An offer to reduce policy benefits provided by the current coverage consistent with the requirements of this Section;
 2. A disclosure stating that all options available to the policyholder may not be of equal value; and
 3. In the case of a partnership policy, a disclosure that some benefit reduction options may result in a loss in partnership status that may reduce policyholder protections.
- K.** The requirements of subsection (J) shall apply to any rate increase implemented in this state on or after November 10, 2017.

Appendix A. Long-term Care Insurance Personal Worksheet

Long-term Care Insurance
Personal Worksheet

People buy long-term care insurance for many reasons. Some don't want to use their own assets to pay for long-term care. Some buy insurance to make sure they can choose the type of care they get. Others don't want their family to have to pay for care or don't want to go on Medicaid. But long-term care insurance may be expensive, and may not be right for everyone.

By state law, the insurance company must fill out part of the information on this worksheet and ask you to fill out the rest to help you and the company decide if you should buy this policy.

(Drafting Instruction: A company may use the first bracketed sentence above only if it has never increased rates under any prior policy forms in this state or any other state. The issuer shall list each premium increase it has instituted on this or similar policy forms in this state or any other state during the last 10 years. The list shall provide the policy form, the calendar years the form was available for sale, and the calendar year and the amount (percentage) of each increase. The insurer shall provide minimum and maximum percentages if the rate increase is variable by rating characteristics. The insurer may provide, in a fair manner, additional explanatory information as appropriate.)

CHAPTER 6. DEPARTMENT OF INSURANCE

Appendix B. Long-term Care Insurance Potential Rate Increase Disclosure Form

Instructions:

This form provides information to the applicant regarding premium rate schedules, rate schedule adjustments, potential rate revisions, and policyholder options in the event of a rate increase.

Insurers shall provide all of the following information to the applicant:

**Long-term Care Insurance
Potential Rate Increase Disclosure Form**

1. **[Premium Rate] [Premium Rate Schedules]:** [Premium rate] [Premium rate schedules] that [is][are] applicable to you and that will be in effect until a request is made and [approved] for an increase [is][are] [on the application][(\$_____)]
2. **The [premium] [premium rate schedule] for this policy [will be shown on the schedule page of] [will be attached to] your policy.**

3. **Rate Schedule Adjustments:**

The company will provide a description of when premium rate or rate schedule adjustments will be effective (e.g., next anniversary date, next billing date, etc.) (fill in the blank): _____.

4. **Potential Rate Revisions:**

This policy is Guaranteed Renewable. This means that the rates for this product may be increased in the future. Your rates can NOT be increased due to your increasing age or declining health, but your rates may go up based on the experience of all policyholders with a policy similar to yours.

If you receive a premium rate or premium rate schedule increase in the future, you will be notified of the new premium amount and you will be able to exercise at least one of the following options:

- ☐ Pay the increased premium and continue your policy in force as is.
- ☐ Reduce your policy benefits to a level such that your premiums will not increase. (Subject to state law minimum standards.)
- ☐ Exercise your nonforfeiture option if purchased. (This option is available for purchase for an additional premium.)
- ☐ Exercise your contingent nonforfeiture rights.* (This option may be available if you do not purchase a separate nonforfeiture option.)

***Contingent Nonforfeiture**

If the premium rate for your policy goes up in the future and you didn't buy a nonforfeiture option, you may be eligible for contingent nonforfeiture. Here's how to tell if you are eligible:

You will keep some long-term care insurance coverage, if:

- Your premium after the increase exceeds your original premium by the percentage shown (or more) in the following table; and
- You lapse (not pay more premiums) within 120 days of the increase.

The amount of coverage (i.e., new lifetime maximum benefit amount) you will keep will equal the total amount of premiums you have paid since your policy was first issued. If you have already received benefits under the policy, so that the remaining maximum benefit amount is less than the total amount of premiums you've paid, the amount of coverage will be that remaining amount.

Except for this reduced lifetime maximum benefit amount, all other policy benefits will remain at the levels attained at the time of the lapse and will not increase thereafter.

Should you choose this Contingent Nonforfeiture option, your policy, with this reduced maximum benefit amount, will be considered "paid-up" with no further premiums due.

Example:

- You bought the policy at age 65 and paid the \$1,000 annual premium for 10 years, so you have paid a total of \$10,000 in premium.
- In the eleventh year, you receive a rate increase of 50%, or \$500 for a new annual premium of \$1,500, and you decide to lapse the policy (not pay any more premiums).
- Your "paid-up" policy benefits are \$10,000 (provided you have at least \$10,000 of benefits remaining under your policy.)

Appendix C. Notice to Applicant Regarding Replacement of Individual Health or Long-term Care Insurance

NOTICE TO APPLICANT REGARDING REPLACEMENT OF INDIVIDUAL HEALTH OR LONG-TERM CARE INSURANCE

[Insurance company's name and address]

SAVE THIS NOTICE! IT MAY BE IMPORTANT TO YOU IN THE FUTURE.

According to [your application] [information you have furnished], you intend to lapse or otherwise terminate existing health or long-term care insurance and replace it with an individual long-term care insurance policy to be issued by [company name] Insurance Company. Your new policy provides thirty (30) days within which you may decide, without cost, whether you desire to keep the policy. For your own information and protection, you should be aware of and seriously consider certain factors which may affect the insurance protection available to you under the new policy.

You should review this new coverage carefully, comparing it with all health or long-term care insurance coverage you now have, and terminate your present policy only if, after due consideration, you find that purchase of this long-term care coverage is a wise decision.

STATEMENT TO APPLICANT BY [INSURANCE PRODUCER OR OTHER REPRESENTATIVE]:

Use additional sheets, as necessary.)

I have reviewed your current medical or health insurance coverage. I believe the replacement of insurance involved in this transaction materially improves your position. My conclusion has taken into account the following considerations which I call to your attention:

1. Health conditions that you may presently have (preexisting conditions), may not be immediately or fully covered under your new policy. This could result in denial or delay in payment of benefits under the new policy, whereas a similar claim might have been payable under your present policy.
2. State law provides that your replacement policy or certificate may not contain new preexisting conditions or probationary periods. The insurer will waive any time periods applicable to preexisting conditions or probationary periods in the new policy (or coverage) for similar benefits to the extent such time was spent (depleted) under the original policy.
3. If you are replacing existing long-term care insurance coverage, you may wish to secure the advice of your present insurer or its agent regarding the proposed replacement of your present policy. This is not only your right, but it is also in your best interest to make sure you understand all of the relevant factors involved in replacing your present coverage.
4. If, after due consideration, you still wish to terminate your present policy and replace it with new coverage, be certain to truthfully and completely answer all questions on the application concerning your medical health history. Failure to include all material medical information on an application may provide a basis for the company to deny any future claims and to refund your premium as though your policy had never been in force. After the application has been completed and before you sign it, reread it carefully to be certain that all information has been properly recorded.

According to [your application] [information you have furnished], you intend to lapse or otherwise terminate existing health or long-term care insurance and replace it with the long-term care insurance policy being delivered and issued by [company name] Insurance Company. Your new policy gives you thirty (30) days to decide, without cost, whether you want to keep the policy. 4. [To be included only if the application is attached to the policy.] If, after due consideration, you still wish to terminate your present policy and replace it with new coverage, read the copy of the application attached to your new policy and be sure that all questions are answered fully and correctly. Omissions or misstatements in the application could cause an otherwise valid claim to be denied. Carefully check the application and write to [company name and address] within thirty (30) days if any information is not correct and complete, or if any past medical history has been left out of the application.

Appendix H. Things You Should Know Before You Buy Long-term Care Insurance

Things You Should Know Before You Buy
Long-term Care Insurance**Long-Term
Care
Insurance**

- A long-term care insurance policy may pay most of the costs for your care in a nursing home. Many policies also pay for care at home or other community settings. Since policies can vary in coverage, you should read this policy and make sure you understand what it covers before you buy it.

- **[WARNING!** You should **not** buy this insurance policy unless you can afford to pay the premiums every year. You are making a multi-year financial commitment.] [Remember that the company can increase premiums in the future.]

(Drafting Instruction: For single premium policies, delete this bullet; for noncancellable policies, delete the second sentence only.)

- The personal worksheet includes questions designed to help you and the company determine whether this policy is suitable for your needs.

Medicare

- Medicare does **not** pay for most long-term care.

Medicaid

- Medicaid will generally pay for long-term care if you have very little income and few assets. You probably should not buy this policy if you are now eligible for Medicaid.

- Many people become eligible for Medicaid after they have used up their own financial resources by paying for long-term care services.

- When Medicaid pays your spouse's nursing home bills, you are allowed to keep your house and furniture, a living allowance, and some of your joint assets.

- Your choice of long-term care services may be limited if you are receiving Medicaid. To learn more about Medicaid, contact your local or state Medicaid agency.

**Shopper's
Guide**

- Make sure the insurance company or agent gives you a copy of a book called the National Association of Insurance Commissioners' "Shopper's Guide to Long-Term Care Insurance." Read it carefully. If you have decided to apply for long-term care insurance, you have the right to return the policy within 30 days and get back any premium you have paid if you are dissatisfied for any reason or choose not to purchase the policy.

Counseling

- Free counseling and additional information about long-term care insurance are available through your state's insurance counseling program. Contact your state insurance department or department on aging for more information about the senior health insurance counseling program in your state.

Facilities

- Some long-term care insurance contracts provide for benefit payments in certain facilities only if they are licensed or certified, such as in assisted living centers. However, not all states regulate these facilities in the same way. Also, many people move into a different state from where they purchased their long-term care insurance policy. Read the policy carefully to determine what types of facilities qualify for benefit payments, and to determine that payment for a covered service will be made if you move to a state that has a different licensing scheme for facilities than the one in which you purchased the policy.

Appendix I. Long-term Care Insurance Suitability Letter

Long-term Care Insurance Suitability Letter

Dear [Applicant]:

Your recent application for long-term care insurance included a “personal worksheet,” which asked questions about your finances and your reasons for buying long-term care insurance. For your protection, state law requires us to consider this information when we review your application, to avoid selling a policy to those who may not need coverage.

[Your answers indicate that long-term care insurance may not meet your financial needs. We suggest that you review the information provided along with your application, including the booklet “Shopper’s Guide to Long-Term Care Insurance” and the page titled “Things You Should Know Before Buying Long-Term Care Insurance.” Your state insurance department also has information about long-term care insurance and may be able to refer you to a counselor free of charge who can help you decide whether to buy this policy.]

[You chose not to provide any financial information for us to review.]

(Drafting Instruction: Choose the paragraph that applies.)

We have suspended our final review of your application. If, after careful consideration, you still believe this policy is what you want, check the appropriate box below and return this letter to us within the next 60 days. We will then continue reviewing your application and issue a policy if you meet our medical standards.

If we do not hear from you within the next 60 days, we will close your file and not issue you a policy. You should understand that you will not have any coverage until we hear back from you, approve your application and issue you a policy.

Please check one box and return in the enclosed envelope.

☐ **Yes**, [although my worksheet indicates that long-term care insurance may not be a suitable purchase,] I wish to purchase this coverage. Please resume review of my application.

Drafting Instruction: Delete the phrase in brackets if the applicant did not answer the questions about income.

☐ **No**. I have decided not to buy a policy at this time.

Only the individual or group policy contains governing contractual provisions. This means that the policy or group policy sets forth in detail the rights and obligations of both you and the insurance company. Therefore, if you purchase this coverage, or any other coverage, it is important that you READ YOUR POLICY (OR CERTIFICATE) CAREFULLY!

 - (a) [For long-term care health insurance policies or certificates describe one of the following permissible policy renewability provisions:
 - (1) Policies and certificates that are guaranteed renewable shall contain the following statement:] RENEWABILITY: THIS POLICY [CERTIFICATE] IS GUARANTEED RENEWABLE. This means you have the right, subject to the terms of your policy, [certificate] to continue this policy as long as you pay your premiums on time.  - (2) [Policies and certificates that are noncancellable shall contain the following statement:] RENEWABILITY: THIS POLICY [CERTIFICATE] IS NONCANCELLABLE. This means that you have the right, subject to the terms of your policy, to continue this policy as long as you pay your premiums on time. [Company Name] cannot change any of the terms of your policy on its own and cannot change the premium you currently pay. However, if your policy contains an inflation protection feature where you choose to increase your benefits, [Company Name] may increase your premium at that time for those additional benefits.
 - (b) [For group coverage, specifically describe continuation/conversion provisions applicable to the certificate and group policy:]

Policies of this category are designed to provide coverage for one or more necessary or medically necessary diagnostic, preventive, therapeutic, rehabilitative, maintenance, or personal care services, provided in a setting other than an acute-care unit of a hospital, such as in a nursing home, in the community or in the home.
 This policy provides coverage in the form of a fixed dollar indemnity benefit for covered long-term care expenses, subject to policy [limitations] [waiting periods] and [coinsurance] requirements. [Modify this paragraph if the policy is not an indemnity policy.]
9. BENEFITS PROVIDED BY THIS POLICY.

- (a) That the benefit level will not increase over time;
- (b) Any automatic benefit adjustment provisions;
- (c) Whether the insured will be guaranteed the option to buy additional benefits and the basis upon which benefits will be increased over time if not by a specified amount or percentage;
- (d) If there is such a guarantee, include whether additional underwriting or health screening will be required, the frequency and amounts of the upgrade options, and any significant restrictions or limitations;
- (e) Describe whether there will be any additional premium charge imposed, and how that is to be calculated.]

12. ALZHEIMER'S DISEASE AND OTHER ORGANIC BRAIN DISORDERS.

HIV antibodies, antigens, or the virus. No adverse underwriting decision shall be made on the basis of any prior positive HIV-related test or tests unless the insurer has verified that the prior test(s) consisted of both a positive screening test such as enzyme-linked immunoassay (ELISA) and a positive supplemental test such as a Western Blot. All such tests used shall be approved and licensed by the Food and Drug Administration and conducted in accordance with the manufacturers' directions for use, including but not limited to the manufacturers' specified interpretation of positivity.
- B. If an applicant is requested to take an HIV-related test in connection with an application for a life or disability insurance policy or a health care plan, the insurer shall reveal the use of such test to the applicant and shall obtain the written consent of the applicant prior to the administration of such test. The insurer shall allow the applicant up to 10 days within which to decide whether or not to sign the consent form, and no adverse underwriting decision may be made on the basis of the applicant's delay during this time period.  - 3. Pretest counseling considerations. The written consent form shall contain information advising the applicant that counseling is recommended by many public health organizations and that the applicant may obtain such counseling at the applicant's own expense. The form shall contain current information as provided by the Department regarding the availability in Arizona of free confidential or anonymous counseling through county health departments and through other governmental or government-funded agencies.

The form shall advise the applicant of the type of test (including but not limited to antibody, antigen, or viral culture) to be used, and that a positive test result indicates that the applicant has been infected with HIV but does not necessarily have AIDS. The form shall explain that a positive test result will adversely affect the application for insurance.
6. Consent. The consent form shall contain an attestation to be signed by the applicant or, if the applicant lacks legal capacity to consent, a person authorized pursuant to law to consent on behalf of the applicant, that he or she has read and understands the written consent form and voluntarily consents to the performance of a test for HIV and to the disclosure of the test results as described in the consent form. The applicant or the applicant's legal representative shall have the right to request and receive a copy of the written consent form. A photocopy of the form shall be as valid as the original.

Adopted effective February 3, 1993 (Supp. 93-1). R20-6-1603 recodified from R4-14-1603 (Supp. 95-1). R20-6-1603 renumbered to R20-6-1608; new Section made by final exempt rulemaking, under Laws 2015, Ch. 119, § 3, effective November 30, 2015 (Supp. 15-4).

R20-6-1604. Credit for Reinsurance – Reinsurers Maintaining Trust Funds

- A. Pursuant to A.R.S. § 20-261.05(E), the Director shall allow credit for reinsurance ceded by a domestic insurer to an assuming insurer which, as of any date on which statutory financial statement credit for reinsurance is claimed, and thereafter for so long as credit for reinsurance is claimed, maintains a trust fund in an amount prescribed below in a qualified U.S. financial institution as defined in A.R.S. § 20-261.03, for the payment of the valid claims of its U.S. domiciled ceding insurers, their assigns and successors in interest. The assuming insurer shall report annually to the Director substantially the same information as that required to be reported on the National Association of Insurance Commissioners (NAIC) annual statement form by licensed insurers, to enable the Director to determine the sufficiency of the trust fund.
- B. The following requirements apply to the following categories of assuming insurer:
 1. The trust fund for a single assuming insurer shall consist of funds in trust in an amount not less than the assuming insurer's liabilities attributable to reinsurance ceded by U.S. domiciled insurers, and in addition, the assuming insurer shall maintain a trustee surplus of not less than \$20 million, except as provided in subsection (B)(2) of this Section.
 2. At any time after the assuming insurer has permanently discontinued underwriting new business secured by the trust for at least three full years, the commissioner with principal regulatory oversight of the trust may authorize a reduction in the required trustee surplus, but only after a finding, based on an assessment of the risk, that the new required surplus level is adequate for the protection of

CHAPTER 6. DEPARTMENT OF INSURANCE

- U.S. ceding insurers, policyholders and claimants in light of reasonably foreseeable adverse loss development. The risk assessment may involve an actuarial review, including an independent analysis of reserves and cash flows, and shall consider all material risk factors, including when applicable the lines of business involved, the stability of the incurred loss estimates and the effect of the surplus requirements on the assuming insurer's liquidity or solvency. The minimum required trusted surplus may not be reduced to an amount less than 30% of the assuming insurer's liabilities, attributable to reinsurance ceded by U.S. ceding insurers covered by the trust.
3. The trust fund for a group including incorporated and individual unincorporated underwriters:
 - a. Shall consist of:
 - i. For reinsurance ceded under reinsurance agreements with an inception, amendment or renewal date on or after January 1, 1993, funds in trust in an amount not less than the respective underwriters' several liabilities attributable to business ceded by U.S. domiciled ceding insurers to any underwriter of the group;
 - ii. For reinsurance ceded under reinsurance agreements with an inception date on or before December 31, 1992, and not amended or renewed after that date, notwithstanding the other provisions of this Article, funds in trust in an amount not less than the respective underwriters' several insurance and reinsurance liabilities attributable to business written in the United States; and
 - iii. In addition to these trusts, the group shall maintain a trusted surplus of which \$100 million shall be held jointly for the benefit of the U.S. domiciled ceding insurers of any member of the group for all the years of account.
 - b. The incorporated members of the group shall not be engaged in any business other than underwriting as a member of the group and shall be subject to the same level of regulation and solvency control by the group's domiciliary regulator as are the unincorporated members. The group shall, within ninety days after its financial statements are due to be filed with the group's domiciliary regulator, provide to the Director:
 - i. An annual certification by the group's domiciliary regulator of the solvency of each underwriter member of the group; or
 - ii. If a certification is unavailable, a financial statement, prepared by independent public accountants, of each underwriter member of the group.
 4. The trust fund for a group of incorporated insurers under common administration, whose members possess aggregate policyholders surplus of \$10 billion (calculated and reported in substantially the same manner as prescribed by the annual statement instructions and Accounting Practices and Procedures Manual of the NAIC) and which has continuously transacted an insurance business outside the United States for at least three years immediately prior to making application for accreditation, shall:
 - a. Consist of funds in trust in an amount no less than the assuming insurers' several liabilities attributable to business ceded by U.S. domiciled ceding insurers to any members of the group pursuant to reinsurance contracts issued in the name of such group;
 - b. Maintain a joint trusted surplus of which \$100 million shall be held jointly for the benefit of U.S. domiciled ceding insurers of any member of the group; and
 - c. File a properly executed Form AR-1 (Exhibit A) as evidence of the submission to the Director's authority to examine the books and records of any of its members and shall certify that any member examined will bear the expense of any such examination.
 - d. Within ninety days after the statements are due to be filed with the group's domiciliary regulator, the group shall file with the Director an annual certification of each underwriter member's solvency by the member's domiciliary regulators, and financial statements, prepared by independent public accountants, of each underwriter member of the group.
 - C. Credit for reinsurance shall not be granted unless the form of the trust and any amendments to the trust have been approved by either the commissioner of the state where the trust is domiciled or the commissioner of another state who, pursuant to the terms of the trust instrument, has accepted responsibility for regulatory oversight of the trust. The form of the trust and any trust amendments also shall be filed with the commissioner of every state in which the ceding insurer beneficiaries of the trust are domiciled.
 1. The trust instrument shall provide that:
 - a. Contested claims shall be valid and enforceable out of funds in trust to the extent remaining unsatisfied thirty days after entry of the final order of any court of competent jurisdiction in the United States;
 - b. Legal title to the assets of the trust shall be vested in the trustee for the benefit of the grantor's U.S. ceding insurers, their assigns and successors in interest;
 - c. The trust shall be subject to examination as determined by the commissioner;
 - d. The trust shall remain in effect for as long as the assuming insurer, or any member or former member of a group of insurers, shall have outstanding obligations under reinsurance agreements subject to the trust; and
 - e. No later than February 28 of each year the trustee of the trust shall report to the commissioner in writing setting forth the balance in the trust and listing the trust's investments at the preceding year-end, and shall certify the date of termination of the trust, if so planned, or certify that the trust shall not expire prior to the following December 31.
 2. Notwithstanding any other provisions in the trust instrument:
 - a. If the trust fund is inadequate because it contains an amount less than the amount required by this Section or if the grantor of the trust has been declared insolvent or placed into receivership, rehabilitation, liquidation or similar proceedings under the laws of its state or country of domicile, the trustee shall comply with an order of the commissioner with regulatory oversight over the trust or with an order of a court of competent jurisdiction directing the trustee to transfer to the commissioner with regulatory oversight over the trust or other designated receiver all of the assets of the trust fund.
 - b. The assets shall be distributed by and claims shall be filed with and valued by the commissioner with regulatory oversight over the trust in accordance with

CHAPTER 6. DEPARTMENT OF INSURANCE

the laws of the state in which the trust is domiciled applicable to the liquidation of domestic insurance companies.

- c. If the commissioner with regulatory oversight over the trust determines that the assets of the trust fund or any part thereof are not necessary to satisfy the claims of the U.S. beneficiaries of the trust, the commissioner with regulatory oversight over the trust shall return the assets, or any part thereof, to the trustee for distribution in accordance with the trust agreement.
 - d. The grantor shall waive any right otherwise available to it under U.S. law that is inconsistent with this provision.
- D.** For purposes of this Section, the term “liabilities” shall mean the assuming insurer’s gross liabilities attributable to reinsurance ceded by U.S. domiciled insurers excluding liabilities that are otherwise secured by acceptable means, and, shall include:

CHAPTER 6. DEPARTMENT OF INSURANCE

5. As used in this Section:
 - a. "Mortgage-related security" means an obligation that is rated AA or higher (or the equivalent) by a securities rating agency recognized by the Securities Valuation Office of the NAIC and that either:
 - i. Represents ownership of one or more promissory notes or certificates of interest or participation in the notes (including any rights designed to assure servicing of, or the receipt or timeliness of receipt by the holders of the notes, certificates, or participation of amounts payable under, the notes, certificates or participation), that: (1) Are directly secured by a first lien on a single parcel of real estate, including stock allocated to a dwelling unit in a residential cooperative housing corporation, upon which is located a dwelling or mixed residential and commercial structure, or on a residential manufactured home as defined in 42 U.S.C.A. 5402(6), whether the manufactured home is considered real or personal property under the laws of the state in which it is located; and (2) Were originated by a savings and loan association, savings bank, commercial bank, credit union, insurance company, or similar institution that is supervised and examined by a federal or state housing authority, or by a mortgagee approved by the Secretary of Housing and Urban Development pursuant to 12 U.S.C.A. 1709 and 1715-b, or, where the notes involve a lien on the manufactured home, by an institution or by a financial institution approved for insurance by the Secretary of Housing and Urban Development pursuant to 12 U.S.C.A. 1703; or

A trust shall not invest in equity interests under this Section an amount exceeding 1% of the assets of the trust even though the equity interests are not so registered and are not issued by an insurance company;

Adopted effective February 3, 1993 (Supp. 93-1). R20-6-1604 recodified from R4-14-1604 (Supp. 95-1).

Amended effective October 9, 1998 (Supp. 98-4). R20-6-1604 renumbered to R20-6-1609; new Section made by final exempt rulemaking, under Laws 2015, Ch. 119, § 3, effective November 30, 2015 (Supp. 15-4).

R20-6-1605. Credit for Reinsurance – Certified Reinsurers

- A. Pursuant to A.R.S. §§ 20-261.05(F), (G) and (H), the Director shall allow credit for reinsurance ceded by a domestic insurer to an assuming insurer that has been certified as a reinsurer in Arizona at all times for which statutory financial statement credit for reinsurance is claimed under this Section. The credit allowed shall be based upon the security held by or on behalf of the ceding insurer in accordance with a rating assigned to the certified reinsurer by the Director. The security shall be in a form consistent with the provisions of A.R.S. §§ 20-261.05(F), (G) and (H), 20-261.06 and Sections R20-6-1608, R20-6-1609 or R20-6-1610. The amount of security required in order for full credit to be allowed shall correspond with the following requirements:

1.

Ratings	Security Required
Secure-1	0%
Secure-2	10%
Secure-3	20%
Secure-4	50%
Secure-5	75%
Vulnerable-6	100%
2. Affiliated reinsurance transactions shall receive the same opportunity for reduced security requirements as all other reinsurance transactions.
3. The Director shall require the certified reinsurer to post 100%, for the benefit of the ceding insurer or its estate, security upon the entry of an order of rehabilitation, liquidation or conservation against the ceding insurer.
4. In order to facilitate the prompt payment of claims, a certified reinsurer shall not be required to post security for catastrophe recoverables for a period of one year from the date of the first instance of a liability reserve entry by the ceding company as a result of a loss from a catastrophic occurrence as recognized by the Director. The one year deferral period is contingent upon the certified reinsurer continuing to pay claims in a timely manner. Reinsurance recoverables for only the following lines of business as reported on the NAIC annual financial statement related specifically to the catastrophic occurrence will be included in the deferral:
 - a. Line 1: Fire
 - b. Line 2: Allied Lines

- d. Line 4: Homeowners multiple peril
- e. Line 5: Commercial multiple peril

5. Credit for reinsurance under this Section shall apply only to reinsurance contracts entered into or renewed on or after the effective date of the certification of the assuming insurer. Any reinsurance contract entered into prior to the effective date of the certification of the assuming insurer that is subsequently amended after the effective date of the certification of the assuming insurer, or a new reinsurance contract, covering any risk for which collateral was provided previously, shall only be subject to this Section with respect to losses incurred and reserves reported from and after the effective date of the amendment or new contract.
6. Nothing in this Section shall prohibit the parties to a reinsurance agreement from agreeing to provisions establishing security requirements that exceed the minimum security requirements established for certified reinsurers under this Section.

B. Certification Procedure

1. The Director shall post notice on the insurance department's website promptly upon receipt of any application for certification, including instructions on how members of the public may respond to the application. The Director may not take final action on the application until at least thirty days after posting the notice required by this subsection (B)(1).
2. The Director shall issue written notice to an assuming insurer that has made application and been approved as a certified reinsurer. Included in such notice shall be the rating assigned the certified reinsurer in accordance with subsection A of this Section. The Director shall publish a list of all certified reinsurers and their ratings.
3. In order to be eligible for certification, the assuming insurer shall meet the following requirements:
 - a. The assuming insurer must be domiciled and licensed to transact insurance or reinsurance in a Qualified Jurisdiction, as determined by the Director pursuant to subsection C of this Section.
 - b. The assuming insurer must maintain capital and surplus, or its equivalent, of no less than \$250 million calculated in accordance with subsection (B)(4)(h) of this Section. This requirement may also be satisfied by an association including incorporated and individual unincorporated underwriters having minimum capital and surplus equivalents (net of liabilities) of at least \$250 million and a central fund containing a balance of at least \$250 million.
 - c. The assuming insurer must maintain financial strength ratings from two or more rating agencies deemed acceptable by the Director. These ratings shall be based on interactive communication between the rating agency and the assuming insurer and shall not be based solely on publicly available information.  - iii. Fitch Ratings;
 - iv. A.M. Best Company; or

CHAPTER 6. DEPARTMENT OF INSURANCE

- 4. Each certified reinsurer shall be rated on a legal entity basis, with due consideration being given to the group rating where appropriate, except that an association including incorporated and individual unincorporated underwriters that has been approved to do business as a single certified reinsurer may be evaluated on the basis of its group rating. Factors that may be considered as part of the evaluation process include, but are not limited to, the following:
 - a. The certified reinsurer's financial strength rating from an acceptable rating agency. The maximum rating that a certified reinsurer may be assigned will correspond to its financial strength rating as outlined in the table below. The Director shall use the lowest financial strength rating received from an approved rating agency in establishing the maximum rating of a certified reinsurer. A failure to obtain or maintain at least two financial strength ratings from acceptable rating agencies will result in loss of eligibility for certification:

- f. Regulatory actions against the certified reinsurer;
- g. The report of the independent auditor on the financial statements of the insurance enterprise, on the basis described in subsection (B)(4)(h) below;

- 5. Based on the analysis conducted under subsection (B)(4)(e) of this Section of a certified reinsurer's reputation for prompt payment of claims, the Director may make appropriate adjustments in the security the certified reinsurer is required to post to protect its liabilities to U.S. ceding insurers, provided that the Director shall, at a minimum, increase the security the certified reinsurer is required to post by one rating level under subsection (B)(4)(a) of this Section if the Director finds that:
 - a. more than 15% of the certified reinsurer's ceding insurance clients have overdue reinsurance recoverables on paid losses of ninety days or more which are not in dispute and which exceed \$100 thousand for each cedent; or
 - b. the aggregate amount of reinsurance recoverables on paid losses which are not in dispute that are overdue by ninety days or more exceeds \$50 million.

Upon the initial certification, audited financial statements for the last three years filed with the certified reinsurer's supervisor;
 - e. At least annually, an updated list of all disputed and overdue reinsurance claims regarding reinsurance assumed from U.S. domestic ceding insurers;

- a. In the case of a downgrade by a rating agency or other disqualifying circumstance, the Director shall upon written notice assign a new rating to the certified reinsurer in accordance with the requirements of subsection (B)(4)(a) of this Section.
 - b. The Director shall have the authority to suspend, revoke, or otherwise modify a certified reinsurer's certification at any time if the certified reinsurer fails to meet its obligations or security requirements under this Section, or if other financial or operating results of the certified reinsurer, or documented significant delays in payment by the certified reinsurer, lead the Director to reconsider the certified reinsurer's ability or willingness to meet its contractual obligations.
 - c. If the rating of a certified reinsurer is upgraded by the Director, the certified reinsurer may meet the security requirements applicable to its new rating on a prospective basis, but the Director shall require the certified reinsurer to post security under the previously applicable security requirements as to all contracts in force on or before the effective date of the upgraded rating. If the rating of a certified reinsurer is downgraded by the Director, the Director shall require the certified reinsurer to meet the security requirements applicable to its new rating for all business it has assumed as a certified reinsurer.
 - d. Upon revocation of the certification of a certified reinsurer by the Director, the assuming insurer shall

be required to post security in accordance with Section R20-6-1607 in order for the ceding insurer to continue to take credit for reinsurance ceded to the assuming insurer. If funds continue to be held in trust in accordance with Section R20-6-1604, the Director may allow additional credit equal to the ceding insurer's pro rata share of such funds, discounted to reflect the risk of uncollectibility and anticipated expenses of trust administration. Notwithstanding the change of a certified reinsurer's rating or revocation of its certification, a domestic insurer that has ceded reinsurance to that certified reinsurer may not be denied credit for reinsurance for a period of three months for all reinsurance ceded to that certified reinsurer, unless the reinsurance is found by the Director to be at high risk of uncollectibility.

C. Qualified Jurisdictions.

1. If, upon conducting an evaluation under this Section with respect to the reinsurance supervisory system of any non-U.S. assuming insurer, the Director determines that the jurisdiction qualifies to be recognized as a qualified jurisdiction, the Director shall publish notice and evidence of such recognition in an appropriate manner. The Director may establish a procedure to withdraw recognition of those jurisdictions that are no longer qualified.
2. In order to determine whether the domiciliary jurisdiction of a non-U.S. assuming insurer is eligible to be recognized as a qualified jurisdiction, the Director shall evaluate the reinsurance supervisory system of the non-U.S. jurisdiction, both initially and on an ongoing basis, and consider the rights, benefits and the extent of reciprocal recognition afforded by the non-U.S. jurisdiction to reinsurers licensed and domiciled in the U.S. The Director shall determine the appropriate approach for evaluating the qualifications of such jurisdictions, and create and publish a list of jurisdictions whose reinsurers may be approved by the Director as eligible for certification. A qualified jurisdiction must agree to share information and cooperate with the Director with respect to all certified reinsurers domiciled within that jurisdiction. Additional factors to be considered in determining whether to recognize a qualified jurisdiction, in the discretion of the Director, include but are not limited to the following:
 - a. The framework under which the assuming insurer is regulated.
 - b. The structure and authority of the domiciliary regulator with regard to solvency regulation requirements and financial surveillance.
 - c. The substance of financial and operating standards for assuming insurers in the domiciliary jurisdiction.
 - d. The form and substance of financial reports required to be filed or made publicly available by reinsurers in the domiciliary jurisdiction and the accounting principles used.
 - e. The domiciliary regulator's willingness to cooperate with U.S. regulators in general and the Director in particular.
 - f. The history of performance by assuming insurers in the domiciliary jurisdiction.
 - g. Any documented evidence of substantial problems with the enforcement of final U.S. judgments in the domiciliary jurisdiction. A jurisdiction will not be considered to be a qualified jurisdiction if the Director has determined that it does not adequately and

CHAPTER 6. DEPARTMENT OF INSURANCE

promptly enforce final U.S. judgments or arbitration awards.

- h. Any relevant international standards or guidance with respect to mutual recognition of reinsurance supervision adopted by the International Association of Insurance Supervisors or successor organization.
- i. Any other matters deemed relevant by the Director.
- 3. A list of qualified jurisdictions shall be published through the NAIC Committee Process. The Director shall consider this list in determining qualified jurisdictions. If the Director approves a jurisdiction as qualified that does not appear on the list of qualified jurisdictions, the Director shall provide thoroughly documented justification with respect to the criteria provided under subsections (C)(2)(a) through (i) of this Section.
- 4. U.S. jurisdictions that meet the requirements for accreditation under the NAIC financial standards and accreditation program shall be recognized as qualified jurisdictions.
- D. Recognition of Certification Issued by an NAIC Accredited Jurisdiction.
 - 1. If an applicant for certification has been certified as a reinsurer in an NAIC accredited jurisdiction, the Director has the discretion to defer to that jurisdiction's certification, and to defer to the rating assigned by that jurisdiction, if the assuming insurer submits a properly executed Form CR-1 (Exhibit B) and such additional information as the Director requires. The assuming insurer shall be considered to be a certified reinsurer in Arizona.
 - 2. Any change in the certified reinsurer's status or rating in the other jurisdiction shall apply automatically in Arizona as of the date it takes effect in the other jurisdiction. The certified reinsurer shall notify the Director of any change in its status or rating within ten days after receiving notice of the change.
 - 3. The Director may withdraw recognition of the other jurisdiction's rating at any time and assign a new rating in accordance with subsection (B)(8) of this Section.
 - 4. The Director may withdraw recognition of the other jurisdiction's certification at any time, with written notice to the certified reinsurer. Unless the Director suspends or revokes the certified reinsurer's certification in accordance with subsection (B)(8) of this Section, the certified reinsurer's certification shall remain in good standing in this State for a period of three months, which shall be extended if additional time is necessary to consider the assuming insurer's application for certification in Arizona.
- E. Mandatory Funding Clause. In addition to the clauses required under Section R20-6-1611, reinsurance contracts entered into or renewed under this Section shall include a proper funding clause, which requires the certified reinsurer to provide and maintain security in an amount sufficient to avoid the imposition of any financial statement penalty on the ceding insurer under this Section for reinsurance ceded to the certified reinsurer.
- F. The Director shall comply with all reporting and notification requirements that may be established by the NAIC with respect to certified reinsurers and qualified jurisdictions.

R20-6-1606. Credit for Reinsurance Required by Law

Pursuant to A.R.S. § 20-261.05(I), the Director shall allow credit for reinsurance ceded by a domestic insurer to an assuming insurer not meeting the requirements of A.R.S. §§ 20-261.05(B) through (H) but only as to the insurance of risks located in jurisdictions where the reinsurance is required by the applicable law or regulation of that jurisdiction. As used in this Section, "jurisdiction" means state, district or territory of the United States and any lawful national government.

Adopted effective February 3, 1993 (Supp. 93-1). R20-6-1606 recodified from R4-14-1606 (Supp. 95-1). R20-6-1606 renumbered to R20-6-1611; new Section made by final exempt rulemaking, under Laws 2015, Ch. 119, § 3, effective November 30, 2015 (Supp. 15-4).

R20-6-1607. Asset or Reduction from Liability for Reinsurance Ceded to an Unauthorized Assuming Insurer not Meeting the Requirements of Sections R20-6-1601 through R20-6-1606

- A. Pursuant to A.R.S. § 20-261.06, the Director shall allow a reduction from liability for reinsurance ceded by a domestic insurer to an assuming insurer not meeting the requirements of A.R.S. § 20-261.05 in an amount not exceeding the liabilities carried by the ceding insurer. The reduction shall be in the amount of funds held by or on behalf of the ceding insurer, including funds held in trust for the exclusive benefit of the ceding insurer, under a reinsurance contract with such assuming insurer as security for the payment of obligations under the reinsurance contract. The security shall be held in the United States subject to withdrawal solely by, and under the exclusive control of, the ceding insurer or, in the case of a trust, held in a qualified United States financial institution as defined in A.R.S. § 20-261.03. This security may be in the form of any of the following:
 - 1. Cash;
 - 2. Securities listed by the Securities Valuation Office of the NAIC, including those deemed exempt from filing as defined by the Purposes and Procedures Manual of the Securities Valuation Office, and qualifying as admitted assets;
 - 3. Clean, irrevocable, unconditional and "evergreen" letters of credit issued or confirmed by a qualified United States institution, as defined in A.R.S. § 20-261.03, effective no later than December 31 of the year for which filing is being made, and in the possession of, or in trust for, the ceding insurer on or before the filing date of its annual statement. Letters of credit meeting applicable standards of issuer acceptability as of the dates of their issuance (or confirmation) shall, notwithstanding the issuing (or confirming) institution's subsequent failure to meet applicable standards of issuer acceptability, continue to be acceptable as security until their expiration, extension, renewal, modification or amendment, whichever first occurs; or
 - 4. Any other form of security acceptable to the Director.
- B. An admitted asset or a reduction from liability for reinsurance ceded to an unauthorized assuming insurer pursuant to this Section shall be allowed only when the requirements of Section R20-6-1611 and the applicable portions of Sections R20-6-1608, R20-6-1609 or R20-6-1610 have been satisfied.

R20-6-1608. Trust Agreements Qualified under Section R20-6-1607

A. As used in this Section:

1. "Beneficiary" includes any successor by operation of law of the named beneficiary, including without limitation any liquidator, rehabilitator, receiver or conservator.
2. "Grantor" means the entity that has established a trust for the sole benefit of the beneficiary. When established in conjunction with a reinsurance agreement, the grantor is the unlicensed, unaccredited assuming insurer.
3. "Obligations," as used in subsection (B)(11) of this Section, means:
 - a. Reinsured losses and allocated loss expenses paid by the ceding company but not recovered from the assuming insurer;
 - b. Reserves for reinsured losses reported and outstanding;
 - c. Reserves for reinsured losses incurred but not reported; and
 - d. Reserves for allocated reinsured loss expenses and unearned premiums.

B. Required conditions.

1. The trust agreement shall be entered into between the beneficiary, the grantor and a trustee, which shall be a qualified United States financial institution as defined in A.R.S. § 20-261.03.
2. The trust agreement shall create a trust account into which assets shall be deposited.
3. All assets in the trust account shall be held by the trustee at the trustee's office in the United States.
4. The trust agreement shall provide that:
 - a. The beneficiary shall have the right to withdraw assets from the trust account at any time, without notice to the grantor, subject only to written notice from the beneficiary to the trustee;
 - b. No other statement or document is required to be presented in order to withdraw assets, except that the beneficiary may be required to acknowledge receipt of withdrawn assets;
 - c. It is not subject to any conditions or qualifications outside of the trust agreement; and
 - d. It shall not contain references to any other agreements or documents except as provided for in subsections (B)(11) and (12) of this Section.
5. The trust agreement shall be established for the sole benefit of the beneficiary.
6. The trust agreement shall require the trustee to:
 - a. Receive assets and hold all assets in a safe place;
 - b. Determine that all assets are in such form that the beneficiary, or the trustee upon direction by the beneficiary, may whenever necessary negotiate any such assets, without consent or signature from the grantor or any other person or entity;
 - c. Furnish to the grantor and the beneficiary a statement of all assets in the trust account upon its inception and at intervals no less frequent than the end of each calendar quarter;
 - d. Notify the grantor and the beneficiary within ten days, of any deposits to or withdrawals from the trust account;
 - e. Upon written demand of the beneficiary, immediately take any and all steps necessary to transfer absolutely and unequivocally all right, title and interest in the assets held in the trust account to the beneficiary and deliver physical custody of the assets to the beneficiary; and
- f. Allow no substitutions or withdrawals of assets from the trust account, except on written instructions from the beneficiary, except that the trustee may, without the consent of but with notice to the beneficiary, upon call or maturity of any trust asset, withdraw such asset upon condition that the proceeds are paid into the trust account.
7. The trust agreement shall provide that at least thirty days, but not more than forty-five days, prior to termination of the trust account, written notification of termination shall be delivered by the trustee to the beneficiary.
8. The trust agreement shall be made subject to and governed by the laws of the state in which the trust is domiciled.
9. The trust agreement shall prohibit invasion of the trust corpus for the purpose of paying commission to, or reimbursing the expenses of, the trustee. In order for a letter of credit to qualify as an asset of the trust, the trustee shall have the right and the obligation pursuant to the deed of trust or some other binding agreement (as duly approved by the Director), to immediately draw down the full amount of the letter of credit and hold the proceeds in trust for the beneficiaries of the trust if the letter of credit will otherwise expire without being renewed or replaced.
10. The trust agreement shall provide that the trustee shall be liable for its negligence, willful misconduct or lack of good faith. The failure of the trustee to draw against the letter of credit in circumstances where such draw would be required shall be deemed to be negligence and/or willful misconduct.
11. Notwithstanding other provisions of this Section, when a trust agreement is established in conjunction with a reinsurance agreement covering risks other than life, annuities and accident and health, where it is customary practice to provide a trust agreement for a specific purpose, the trust agreement may provide that the ceding insurer shall undertake to use and apply amounts drawn upon the trust account, without diminution because of the insolvency of the ceding insurer or the assuming insurer, only for the following purposes:
 - a. To pay or reimburse the ceding insurer for the assuming insurer's share under the specific reinsurance agreement regarding any losses and allocated loss expenses paid by the ceding insurer, but not recovered from the assuming insurer, or for unearned premiums due to the ceding insurer if not otherwise paid by the assuming insurer;
 - b. To make payment to the assuming insurer of any amounts held in the trust account that exceed 102% of the actual amount required to fund the assuming insurer's obligations under the specific reinsurance agreement; or
 - c. Where the ceding insurer has received notification of termination of the trust account and where the assuming insurer's entire obligations under the specific reinsurance agreement remain unliquidated and undischarged ten days prior to the termination date, to withdraw amounts equal to the obligations and deposit those amounts in a separate account, in the name of the ceding insurer in any qualified United States financial institution as defined in A.R.S. § 20-261.03 apart from its general assets, in trust for such uses and purposes specified in subsections (11)(a) and (b) above as may remain executory after such

CHAPTER 6. DEPARTMENT OF INSURANCE

withdrawal and for any period after the termination date.

12. Notwithstanding other provisions of this Section, when a trust agreement is established to meet the requirements of Section R20-6-1607 in conjunction with a reinsurance agreement covering life, annuities or accident and health risks, where it is customary to provide a trust agreement for a specific purpose, the trust agreement may provide that the ceding insurer shall undertake to use and apply amounts drawn upon the trust account, without diminution because of the insolvency of the ceding insurer or the assuming insurer, only for the following purposes:

- a. To pay or reimburse the ceding insurer for:
 - i. The assuming insurer's share under the specific reinsurance agreement of premiums returned, but not yet recovered from the assuming insurer, to the owners of policies reinsured under the reinsurance agreement on account of cancellations of the policies; and
 - ii. The assuming insurer's share under the specific reinsurance agreement of surrenders and benefits or losses paid by the ceding insurer, but not yet recovered from the assuming insurer, under the terms and provision of the policies reinsured under the reinsurance agreement.
- b. To pay to the assuming insurer amounts held in the trust account in excess of the amount necessary to secure the credit or reduction from liability for reinsurance taken by the ceding insurer, or
- c. Where the ceding insurer has received notification of termination of the trust and where the assuming insurer's entire obligations under the specific reinsurance agreement remain unliquidated and undischarged ten days prior to the termination date, to withdraw amounts equal to the assuming insurer's share of liabilities, to the extent that the liabilities have not yet been funded by the assuming insurer, and deposit those amounts in a separate account, in the name of the ceding insurer in any qualified U.S. financial institution apart from its general assets, in trust for the uses and purposes specified in subsections (12)(a) and (b) above as may remain executory after withdrawal and for any period after the termination date.

13. Either the reinsurance agreement or the trust agreement must stipulate that assets deposited in the trust account shall be valued according to their current fair market value and shall consist only of cash in United States dollars, certificates of deposit issued by a United States bank and payable in United States dollars, and investments permitted by the Insurance Code or any combination of the above, provided investments in or issued by an entity controlling, controlled by or under common control with either the grantor or the beneficiary of the trust shall not exceed 5% of total investments. The agreement may further specify the types of investments to be deposited. If the reinsurance agreement covers life, annuities or accident and health risks, then the provisions required by this subsection must be included in the reinsurance agreement.

C. Permitted conditions

1. The trust agreement may provide that the trustee may resign upon delivery of a written notice of resignation, effective not less than ninety days after the beneficiary and grantor receive the notice and that the trustee may be removed by the grantor by delivery to the trustee and the

beneficiary of a written notice of removal, effective not less than ninety days after the trustee and the beneficiary receive the notice, provided that no such resignation or removal shall be effective until a successor trustee has been duly appointed and approved by the beneficiary and the grantor and all assets in the trust have been duly transferred to the new trustee.

2. The grantor may have the full and unqualified right to vote any shares of stock in the trust account and to receive from time to time payments of any dividends or interest upon any shares of stock or obligations included in the trust account. Any interest or dividends shall be either forwarded promptly upon receipt to the grantor or deposited in a separate account established in the grantor's name.
 3. The trustee may be given authority to invest, and accept substitutions of, any funds in the account, provided that no investment or substitution shall be made without prior approval of the beneficiary, unless the trust agreement specifies categories of investments acceptable to the beneficiary and authorizes the trustee to invest funds and to accept substitutions that the trustee determines are at least equal in current fair market value to the assets withdrawn and that are consistent with the restrictions in subsection (D)(1)(b) of this Section.
 4. The trust agreement may provide that the beneficiary may at any time designate a party to which all or part of the trust assets are to be transferred. Transfer may be conditioned upon the trustee receiving, prior to or simultaneously, other specified assets.
 5. The trust agreement may provide that, upon termination of the trust account, all assets not previously withdrawn by the beneficiary shall, with written approval by the beneficiary, be delivered over to the grantor.
- D. Additional conditions applicable to reinsurance agreements:**
1. A reinsurance agreement may contain provisions that:
 - a. Require the assuming insurer to enter into a trust agreement and to establish a trust account for the benefit of the ceding insurer, and specifying what the agreement is to cover;
 - b. Require the assuming insurer, prior to depositing assets with the trustee, to execute assignments or endorsements in blank, or to transfer legal title to the trustee of all shares, obligations or any other assets requiring assignments, in order that the ceding insurer, or the trustee upon the direction of the ceding insurer, may whenever necessary negotiate these assets without consent or signature from the assuming insurer or any other entity;
 - c. Require that all settlements of account between the ceding insurer and the assuming insurer be made in cash or its equivalent; and
 - d. Stipulate that the assuming insurer and the ceding insurer agree that the assets in the trust account, established pursuant to the provisions of the reinsurance agreement, may be withdrawn by the ceding insurer at any time, notwithstanding any other provisions in the reinsurance agreement, and shall be utilized and applied by the ceding insurer or its successors in interest by operation of law, including without limitation any liquidator, rehabilitator, receiver or conservator of such company, without diminution because of insolvency on the part of the ceding insurer or the assuming insurer, only for the following purposes:

CHAPTER 6. DEPARTMENT OF INSURANCE

- i. To pay or reimburse the ceding insurer for the assuming insurer's share under the specific reinsurance agreement of premiums returned, but not yet recovered from the assuming insurer, to the owners of policies reinsured under the reinsurance agreement because of cancellations of such policies; and
 - ii. To pay or reimburse the ceding insurer for the assuming insurer's share of surrenders and benefits or losses paid by the ceding insurer pursuant to the provisions of the policies reinsured under the reinsurance agreement; and
 - iii. To pay or reimburse the ceding insurer for any other amounts necessary to secure the credit or reduction from liability for reinsurance taken by the ceding reinsurer; or
 - iv. To make payment to the assuming insurer of amounts held in the trust account in excess of the amount necessary to secure the credit or reduction from liability for reinsurance taken by the ceding insurer.
- 2. The reinsurance agreement also may contain provisions that:
 - a. Give the assuming insurer the right to seek approval from the ceding insurer, which shall not be unreasonably or arbitrarily withheld, to withdraw from the trust account all or any part of the trust assets and transfer those assets to the assuming insurer, provided:
 - i. The assuming insurer shall, at the time of withdrawal, replace the withdrawn assets with other qualified assets having a current fair market value equal to the market value of the assets withdrawn so as to maintain at all times the deposit in the required amount, or
 - ii. After withdrawal and transfer, the current fair market value of the trust account is no less than 102% of the required amount.
 - b. Provide for the return of any amount withdrawn in excess of the actual amounts required for subsection (D)(1)(d) of this Section, and for interest payments at a rate not in excess of the prime rate of interest on such amounts;
 - c. Permit the award by any arbitration panel or court of competent jurisdiction of:
 - i. Interest at a rate different from that provided in subsection (D)(2)(b) of this Section;
 - ii. Court or arbitration costs;
 - iii. Attorney's fees; and
 - iv. Any other reasonable expenses.
- E. Financial reporting. A trust agreement may be used to reduce any liability for reinsurance ceded to an unauthorized assuming insurer in financial statements required to be filed with the Director in compliance with the provisions of this Article when established on or before the date of filing of the financial statement of the ceding insurer. Further, the reduction for the existence of an acceptable trust account may be up to the current fair market value of acceptable assets available to be withdrawn from the trust account at that time, but such reduction shall be no greater than the specific obligations under the reinsurance agreement that the trust account was established to secure.
- F. Existing agreements. Notwithstanding the effective date of this Article, any trust agreement or underlying reinsurance agreement in existence and approved by the Director prior to the effective date of this Article will continue to be acceptable until December 31, 2016, at which time the agreements will have to fully comply with this Section for the trust agreement to be acceptable.
- G. The failure of any trust agreement to specifically identify the beneficiary as defined in subsection (A)(1) of this Section shall not be construed to affect any actions or rights that the Director may take or possess pursuant to the provisions of the laws of Arizona.

Historical Note

New Section R20-6-1608 renumbered from R20-6-1603 and amended by final exempt rulemaking, under Laws 2015, Ch. 119, § 3, effective November 30, 2015 (Supp. 15-4).

R20-6-1609. Letters of Credit Qualified under Section R20-6-1607.

- A. The letter of credit must be clean, irrevocable, unconditional and issued or confirmed by a qualified United States financial institution as defined A.R.S. § 20-261.03. The letter of credit shall contain an issue date and expiration date and shall stipulate that the beneficiary need only draw a sight draft under the letter of credit and present it to obtain funds and that no other document need be presented. The letter of credit also shall indicate that it is not subject to any condition or qualifications outside of the letter of credit. In addition, the letter of credit itself shall not contain reference to any other agreements, documents or entities, except as provided in subsection (H)(1) of this Section. As used in this Section, "beneficiary" includes any successor by operation of law of the named beneficiary, including without limitation any liquidator, rehabilitator, receiver or conservator. If a court of law appoints a successor in interest to the named beneficiary, then the named beneficiary includes and is limited to the court appointed domiciliary receiver (including conservator, rehabilitator or liquidator).
- B. The heading of the letter of credit may include a boxed section containing the name of the applicant and other appropriate notations to provide a reference for the letter of credit. The boxed section shall be clearly marked to indicate that such information is for internal identification purposes only.
- C. A letter of credit shall contain a statement to the effect that the obligation of the qualified United States financial institution under the letter of credit is in no way contingent upon reimbursement with respect thereto.
- D. The term of the letter of credit shall be for at least one year and shall contain an "evergreen clause" that prevents the expiration of the letter of credit without due notice from the issuer. The "evergreen clause" shall provide for no less than thirty days' notice prior to expiration date or nonrenewal.
- E. The letter of credit shall state whether it is subject to and governed by the laws of Arizona or the Uniform Customs and Practice for Documentary Credits of the International Chamber of Commerce Publication 600 (UCP 600) or International Standby Practices of the International Chamber of Commerce Publication 590 (ISP98). This incorporation by reference contains no future additions or amendments. All drafts of letters of credit drawn according to UCP 600 or ISP98 shall be presentable at an office in the United States of a qualified United States financial institution.
- F. If the letter of credit is made subject to the Uniform Customs and Practice for Documentary Credits of the International Chamber of Commerce Publication 600 (UCP 600) or International Standby Practices of the International Chamber of Commerce Publication 590 (ISP98), then the letter of credit shall specifically address and provide for an extension of time to draw against the letter of credit in the event that one or more of the occurrences specified in Article 36 of UCP 600 occur.

CHAPTER 6. DEPARTMENT OF INSURANCE

- G.** If the letter of credit is issued by a financial institution authorized to issue letters of credit, other than a qualified United States financial institution as described in subsection A of this Section, then the following additional requirements shall be met:
1. The issuing financial institution shall formally designate the confirming qualified United States financial institution as its agent for the receipt and payment of the drafts; and
 2. The “evergreen clause” shall provide for thirty days notice prior to expiration date or nonrenewal.
- H.** Reinsurance agreement provisions.
1. The reinsurance agreement in conjunction with which the letter of credit is obtained may contain provisions that:
 - a. Require the assuming insurer to provide letters of credit to the ceding insurer and specify what they are to cover;
 - b. Stipulate that the assuming insurer and ceding insurer agree that the letter of credit provided by the assuming insurer pursuant to the provisions of the reinsurance agreement may be drawn upon at any time, notwithstanding any other provisions in the agreement, and shall be utilized by the ceding insurer or its successors in interest only for one or more of the following reasons:
 - i. To pay or reimburse the ceding insurer for the assuming insurer’s share under the specific reinsurance agreement of premiums returned, but not yet recovered from the assuming insurers, to the owners of policies reinsured under the reinsurance agreement on account of cancellations of such policies;
 - ii. To pay or reimburse the ceding insurer for the assuming insurer’s share, under the specific reinsurance agreement, of surrenders and benefits or losses paid by the ceding insurer, but not yet recovered from the assuming insurers, under the terms and provisions of the policies reinsured under the reinsurance agreement; and
 - iii. To pay or reimburse the ceding insurer for any other amounts necessary to secure the credit or reduction from liability for reinsurance taken by the ceding insurer;
 - iv. Where the letter of credit will expire without renewal or be reduced or replaced by a letter of credit for a reduced amount and where the assuming insurer’s entire obligations under the reinsurance agreement remain unliquidated and undischarged ten days prior to the termination date, to withdraw amounts equal to the assuming insurer’s share of the liabilities, to the extent that the liabilities have not yet been funded by the assuming insurer and exceed the amount of any reduced or replacement letter of credit, and deposit those amounts in a separate account in the name of the ceding insurer in a qualified U.S. financial institution apart from its general assets, in trust for such uses and purposes specified in subsections (H)(1)(b)(i), (ii) and (iii) of this Section as may remain after withdrawal and for any period after the termination date.
 - c. All of the provisions of subsections (H)(1)(a) and (b) of this Section shall be applied without diminution because of insolvency on the part of the ceding insurer or assuming insurer.
 2. Nothing contained in subsection (H)(1) of this Section shall preclude the ceding insurer and assuming insurer from providing for:
 - a. An interest payment, at a rate not in excess of the prime rate of interest on the amounts held pursuant to subsection (H)(1)(b) of this Section; or
 - b. The return of any amounts drawn down on the letters of credit in excess of the actual amounts required for the above or any amounts that are subsequently determined not to be due.
- Historical Note**
New Section R20-6-1609 renumbered from R20-6-1604 and amended by final exempt rulemaking, under Laws 2015, Ch. 119, § 3, effective November 30, 2015 (Supp. 15-4).
- R20-6-1610. Other Security**
A ceding insurer may take credit for unencumbered funds withheld by the ceding insurer in the United States subject to withdrawal solely by the ceding insurer and under its exclusive control.
- Historical Note**
New Section R20-6-1610 renumbered from R20-6-1605 by final exempt rulemaking, under Laws 2015, Ch. 119, § 3, effective November 30, 2015 (Supp. 15-4).
- R20-6-1611. Reinsurance Contract**
Credit will not be granted, nor an asset or reduction from liability allowed, to a ceding insurer for reinsurance effected with assuming insurers meeting the requirements of Sections R20-6-1601 through R20-6-1605 or R20-6-1607 of this Article or otherwise in compliance with A.R.S. § 20-261.05 after the adoption of this Article unless the reinsurance agreement:
1. Includes a proper insolvency clause, which stipulates that reinsurance is payable directly to the liquidator or successor without diminution regardless of the status of the ceding company, pursuant to A.R.S. § 20-261(C);
 2. - B. Deadline for filing a Request for Arbitration with the Department. A Request for Arbitration must be received by the Department within one year after the date of service listed on the surprise out-of-network bill. - C. Evaluation of the Request for Arbitration by the Department. Within 15 days after receipt of a Request for Arbitration, the Department shall do one of the following:
 1. Determine that the surprise out-of-network bill is a qualifying surprise out-of-network bill and notify the enrollee, health insurer and health care provider that the Request for Arbitration qualifies for Arbitration;
 2. Determine that the surprise out-of-network bill is not a qualifying surprise out-of-network bill and notify the enrollee of the reason for the Department's determination;
 3. Determine that the Request for Arbitration is incomplete; or
 4. Return the Request for Arbitration to the enrollee without making a determination if the enrollee's request should instead be filed as a health care appeal within the meaning of A.R.S. Title 20, Chapter 15, Article 2.

CHAPTER 6. DEPARTMENT OF INSURANCE

- D. Request for additional information for an incomplete Request for Arbitration. If the Department determines that the Request for Arbitration is incomplete, the Department may send a written request for additional information to the enrollee, health insurer, health care provider or health care provider's billing company.

PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), accepts state agency rule filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

RULES

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into titles. Titles are divided into chapters. A chapter includes state agency rules. Rules in chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each chapter.

First Quarter: January 1 - March 31

Second Quarter: April 1 - June 30

Third Quarter: July 1 - September 30

Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2019 is cited as Supp. 19-1.

Please note: The Office publishes by chapter, not by individual rule section. Therefore there might be only a few sections codified in each chapter released in a supplement. Historical notes at the end of a section provide an effective date and information when a rule was last updated.

AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate chapters of the *Administrative Code* in Supp. 18-1 to comply with A.R.S. § 41-1012(B) and A.R.S. § 5302(1), (2)(d) through (e), and (3)(d) through (e).

A certification verifies the authenticity of each *Code* chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority

note to make rules is often included at the beginning of a chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in a chapter can be found at the Secretary of State’s website, under Services-> Legislative Filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor’s notes at the beginning of a chapter provide information about rulemaking sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

EXEMPTIONS AND PAPER COLOR

At one time the office published exempt rules on either blue or green paper. Blue meant the authority of the exemption was given by the Legislature; green meant the authority was determined by a court order. In 2001 the Office discontinued publishing rules using these paper colors.

PERSONAL USE/COMMERCIAL USE

This chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

Rhonda Paschal, managing rules editor, assisted with the editing of this chapter.

The Arizona Secretary of State electronically publishes each A.A.C. Chapter with a digital certificate. The certificate-based signature displays the date and time the document was signed and can be validated in Adobe Acrobat Reader.

TITLE 21. CHILD SAFETY

CHAPTER 5. DEPARTMENT OF CHILD SAFETY - PERMANENCY AND SUPPORT SERVICES

Authority: A.R.S. § 8-453(A)(5)

Editor's Note: Chapter 5 contains rules which were exempt from the regular rulemaking process under Laws 2014, 2nd Special Session, Ch. 1, Sec. 158. The law required the Department to post on its website proposed exempt rulemakings for a minimum of 30 days, at which time the public could provide written comments. In addition, at least two public hearings were held prior to the filing of the final exempt rules. Because the Department solicited comments on its proposed exempt rules, the rules filed with the Office of the Secretary of State are considered final exempt rules (Supp. 15-4).

R21-5-102. Authority

The ICPC is governed by A.R.S. §§ 8-548 through 8-548.06 and the ICPC regulations. ICPC regulations are posted on the Association of Administrators of the Interstate Compact on the Placement of Children website. These regulations supplement those authorities and must be read in conjunction with them.

New Section made by final exempt rulemaking at 21 A.A.R. 2979, effective January 2, 2016 (Supp. 15-4).

R21-5-103. Conditions of Placement

No person, court, or public or private agency in a Compact State shall place a child in another Compact State until the Compact Administrator in the receiving state has notified the Compact Administrator in the sending state, on a prescribed form, that such placement does not appear to be contrary to the interests of the child and does not violate any applicable laws of the receiving state.

Historical Note

New Section made by final exempt rulemaking at 21 A.A.R. 2979, effective January 2, 2016 (Supp. 15-4).

R21-5-104. Financial Responsibility

The sending person, court, or public or private agency shall be held financially responsible for:

R21-5-105. Applicability

A. Except as listed in subsection B, the ICPC applies to the placement of:

1. Children in another Compact State by an agency, court or person, which has care or custody of the children.
 2. Foreign-born children who are brought under the jurisdiction of a Compact State by an international child placing agency.
- B. In addition to the children listed in statute that are not subject to ICPC, the ICPC does not apply:
1. When a child is placed in an institution caring for the mentally ill, mentally impaired, epileptic, or in any institution primarily educational in character or in any hospital or other medical facility.
 2. To the placement of children into and out of the United States when the other jurisdiction involved is a foreign country.
 3. When a sending court or agency seeks an independent (not ICPC related) courtesy check for placement with a parent from whom the child was not removed, the responsibility for credentials and quality of the courtesy check rests directly with the sending court or agency and the person or party in the receiving state who agrees to conduct the courtesy check without invoking the protection of the ICPC home study process. This does not prohibit a sending state from requesting an ICPC.
 4. The Compact does not apply in court cases of paternity, divorce, custody, and probate pursuant to which or in situations where children are being placed with parents or relatives or non-relatives.

Historical Note

New Section made by final exempt rulemaking at 21 A.A.R. 2979, effective January 2, 2016 (Supp. 15-4).
