 - d. If the percolation rate stabilizes for three consecutive measurements by varying no more than 10 percent, use the highest percolation rate value of the three measurements. If three consecutive measurements indicate that the percolation rate results are not stabilizing or the percolation rate is between 60 and 120 minutes per inch, the investigator shall use an alternate method based on a graphical solution of the test data to approximate the stabilized percolation rate;
- e. Record the percolation rate results in minutes per inch; and
 - f. Submit the following information with the site investigation report:
 - i. A log of the soil formations encountered for all percolation tests including information on texture, structure, consistence, percentage of rock fragments, and mottles, if present;
 - ii. Whether and which test hole was reinforced with a bucket;
 - iii. The locations, depths, and bottom elevations of the percolation test holes on the site investigation map;
 - iv. A determination of depth to groundwater below the land surface by test trenches or borings, published groundwater data, subdivision reports, or relevant well data; and
 - v. A determination of the water absorption characteristics of the soil, under R18-9-A312(D)(2)(a), sufficient to allow location and design of the on-site wastewater treatment facility.
- G. Seepage pit performance testing method for subsurface characterization. The investigator shall test seepage pits described in R18-9-E302 as follows:
- 1. Planning and Preparation. The investigator shall:
 - a. Identify the disposal areas at the site and drill a test hole at least 18 inches in diameter to the depth of the proposed seepage pit, at least 30 feet deep, and
 - b. Scarify soil surfaces within the test hole and remove loosened materials from the bottom of the hole.
 - 2. Presoaking procedure. The investigator shall:
 - a. Fill the bottom 6 inches of the test hole with gravel, if necessary, to prevent scouring;
 - b. Fill the test hole with clean water up to 3 feet below the land surface;
 - c. Observe the decline of the water level in the hole and determine the time in hours and minutes for the water to completely drain away;
 - d. Repeat the procedure if the water drains away in less than four hours; If the water drains away the second time in less than four hours, the investigator shall conduct the seepage pit performance test by following subsection (G)(3);
 - e. Add water to the hole and maintain the water at a depth that leaves at least the top 3 feet of hole exposed to air for at least four more hours if the water drains away in four or more hours; and
 - f. Not remove the water from the hole before the seepage pit performance test if there is standing water in the hole after at least 16 hours of presoaking.
 - 3. Conducting the test. The investigator shall:
 - a. Fill the test hole with clean water up to 3 feet below land surface;
 - b. Observe the decline of the water level in the hole and determine and record the vertical distance to the water level from a fixed reference point every 10 minutes. The investigator shall ensure that the method for measuring water level depth is accurate and does not significantly affect the rate of fall of the water level in the test hole;
 - c. Measure the decline of the water level continually until three consecutive 10-minute measurements

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

indicate that the infiltration rates are within 10 percent. If measurements indicate that infiltration is not approaching a steady rate or if the rate is close to a numerical limit specified in R18-9-A312(E)(1), the investigator shall use, an alternate method based on a graphical solution of the test data to approximate the final stabilized infiltration rate;

- d. Percolation test rate. Calculate the stabilized infiltration rate for a seepage pit determined by the test hole procedure specified in subsection (G)(1)(a) using the formula $P = (15 / DS) \times IS$ to determine an equivalent percolation test rate. Once "P" is determined, the investigator shall use R18-9-A312(D)(2)(a) to establish the design SAR for wastewater treated under R18-9-E302 and to calculate the required minimum sidewall area for the seepage pit using the equation specified in R18-9-E302(C)(5)(k).
 - i. "P" is the percolation test rate (minutes per inch) tabulated in the first column of the table in R18-9-A312(D)(2)(a),
 - ii. "DS" is the diameter of the seepage pit test hole in inches, and
 - iii. "IS" is the seepage pit stabilized infiltration rate (minutes per inch) determined by the procedure specified in R18-9-A310(F)(3)(c);
- e. Submit the following information with the site investigation report:
 - i. The results of the seepage pit performance testing including data, calculations, and findings on a form provided by the Department;
 - ii. The log of the test hole indicating lithologic characteristics and points of change;
 - iii. The location of the test hole on the site investigation map;
 - iv. A determination of depth to groundwater below the land surface by borings, published groundwater data, subdivision reports, or relevant well data.
- f. Fill the test hole so that groundwater quality and public safety are not compromised if the seepage pit is drilled elsewhere or if a seepage pit cannot be sited at the location because of unfavorable test results.

H. Qualifications. An investigator shall not perform a site investigation under this Section unless the investigator has knowledge and competence in the subject area and is licensed in good standing or otherwise qualified in one of the following categories:

1. Arizona-registered professional engineer,
2. Arizona-registered geologist,
3. Arizona-registered sanitarian,
4. A certificate of training from a course recognized by the Department as sufficiently covering the information specified in this Section, or
5. Qualifies under another category designated in writing by the Department.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-A311. Facility Selection for Type 4 On-site Wastewater Treatment Facilities

A. A person shall select, design, and install an on-site wastewater treatment facility that is appropriate for the site's geographic

location, setback limitations, slope, topography, drainage and soil characteristics, wastewater infiltration capability, depth to the seasonal high water table, and any surface or subsurface limiting condition.

1. A person may use on-site treatment and disposal technologies covered by a Type 4 General Permit alone or in combination with another Type 4 General Permit to overcome site limitations.
 2. An applicant may submit a single Notice of Intent to Discharge for an on-site wastewater treatment facility consisting of components or technologies covered by multiple general permits if the information submittal requirements of all the general permits are met.
 3. The Director shall issue a single Construction Authorization under R18-9-A301(D)(1) and a single Discharge Authorization under R18-9-A301(D)(2) for an on-site wastewater treatment facility that consists of components or technologies covered by multiple general permits.
- B.** A person may install a septic tank and disposal works system described in R18-9-E302 as the sole method of wastewater treatment and disposal at a site if the site investigation conducted under R18-9-A310 indicates that no limiting condition identified under R18-9-A310(C) or R18-9-A310(D) exists at the site.
1. A person may install a seepage pit only in valley-fill sediments in a basin-and-range alluvial basin and only if the seepage pit performance test results meet the criteria specified in R18-9-A312(E).
 2. The person shall specify in the Notice of Intent to Discharge that no limiting conditions described in R18-9-A310(C) and (D) were identified at the site.
- C.** If any surface or subsurface limiting condition is identified in the site investigation report, an applicant may propose installation of a septic tank and disposal works system described in R18-9-E302 only if:
1. The applicant submits information under R18-9-A312(G) that describes:
 - a. How the design of the septic tank and disposal works system specified in R18-9-E302 was modified to overcome limiting conditions;
 - b. How the modified design meets the criteria of R18-9-A312(G)(3); and
 - c. A site-specific SAR under R18-9-A312(D)(2)(a) or (b), as applicable; and
 2. None of the following surface or subsurface limiting conditions are identified at the site:
 - a. An outcropping of rock that cannot be excavated or will impair the function of soil receiving the discharge exists in the intended location of the on-site wastewater treatment facility, as described in R18-9-A310(C)(2)(e);
 - b. The vertical separation distance from the bottom of the lowest point of the disposal works to the seasonal high water table is less than the minimum vertical separation distance, as described in R18-9-A310(D)(2)(c); or
 - c. A subsurface condition that promotes accelerated downward movement of insufficiently treated wastewater as described in R18-9-A310(D)(2)(e).
- D.** If a site can accommodate a septic tank and disposal works system described in R18-9-E302, the applicant shall not install a treatment works or disposal works described in R18-9-E303 through R18-9-E322 unless the applicant submits a statement to the Department with the Notice of Intent to Discharge acknowledging the following:

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

1. The applicant is aware that although a septic tank and disposal works system described in R18-9-E302 is appropriate for the site, the applicant desires to install a treatment works or disposal works authorized under R18-9-E303 through R18-9-E322; and
2. The applicant is aware that a treatment works or disposal works authorized under R18-9-E303 through R18-9-E322 may result in higher capital, operation, and maintenance costs than a septic tank and disposal works system described in R18-9-E302.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-A312. Facility Design for Type 4 On-site Wastewater Treatment Facilities

- A.** General design requirements. An applicant shall ensure that the person designing an on-site wastewater treatment facility:
1. Signs the design documents submitted as part of the Notice of Intent to Discharge to obtain a Construction Authorization, including plans, specifications, drawings, reports, and calculations; and
 2. Locates and designs the on-site wastewater treatment facility project using good design judgment and relies on appropriate design methods and calculations.
- B.** Design considerations and flow determination. An applicant shall ensure that the person designing the on-site wastewater treatment facility shall:
1. Design the facility to satisfy a 20-year operational life;
 2. Design the facility based on the provisions of one or more of the general permits in R18-9-E302 through R18-9-E322 for facilities with a design flow of less than 3000 gallons per day, and R18-9-E323 for facilities with a design flow of 3000 gallons per day to less than 24,000 gallons per day;
 3. Design the facility based on the facility's design flow and wastewater characteristics as specified in R18-9-A309(B)(3);
 4. For on-site wastewater treatment facilities permitted under R18-9-E303 through R18-9-E323, apply the following design requirements, as applicable:
 - a. Include the power source and power components in construction drawings if electricity or another type of power is necessary for facility operation;

- b. If a hydraulic analysis is required under subsection (E), perform the analysis based on the location and dimensions of the bottom and sidewall surfaces of the disposal works that are identified in the design documentation;
- c. Design components, piping, ports, seals, and appurtenances to withstand installation loads, internal and external operational loads, and buoyant forces. Design ports for resistance against movement, and cap or cover openings for protection from damage and entry by rodents, mosquitoes, flies, or other organisms capable of transporting a disease-causing organism;
- d. Design tanks, liners, ports, seals, piping to and within the facility, and appurtenances for watertightness under all operational conditions;
- e. Provide adequate storage capacity above high operating level to:
 - i. Accommodate a 24-hour power or pump outage, and
 - ii. Contain wastewater that is incompletely treated or cannot be released by the disposal works to the native soil;
- f. If a fixed media process is used, provide in the construction drawings the media material, installation specification, media configuration, and wastewater loading rate of the media at the daily design flow;
- g. Provide a fail-safe wastewater control or operational process, if required by the general permit to prevent discharge of inadequately treated wastewater; and
- h. Reference design. If using a reference design on file with the Department, indicate the reference design within the information submitted with the Notice of Intent to Discharge.

- C.** Setbacks. The following setbacks apply unless the Department:
1. Specifies alternative setbacks under Article 3, Part E of this Chapter;
 2. Approves a different setback under the procedure specified in subsection (G); or
 3. Establishes a more stringent setback on a site- or area-specific basis to ensure compliance with water quality standards.

Features Requiring Setbacks	Setback For An On-Site Wastewater Treatment Facility, Including Reserve Area (In Feet)	Special Provisions
1. Building	10	Includes porches, decks, and steps (covered or uncovered), breezeways, roofed patios, carports, covered walks, and similar structures and appurtenances.
2. Property line shared with any adjoining lot or parcel not served by a common drinking water system* or an existing water well	50	A person may reduce the setback to a minimum of 5 feet from the property line if: <ol style="list-style-type: none"> a. The owners of any affected undeveloped adjacent properties agree, as evidenced by an appropriately recorded document, to limit the location of any new well on their property to at least 100 feet from the proposed treatment works and primary and reserve disposal works; and b. The arrangements and documentation are approved by the Department.

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

3. All other property lines	5	None
4. Public or private water supply well	100	None
5. Perennial or intermittent stream	100	Measured horizontally from the high water line of the peak streamflow from a 10-year, 24-hour rainfall event.
6. Lake, reservoir, or canal	100	Measured horizontally from the high water line from a 10-year, 24-hour rainfall event at the lake or reservoir.
7. Drinking water intake from a surface water source (includes an open water body, downslope spring or a well tapping streamside saturated alluvium)	200	Measured horizontally from the on-site wastewater treatment facility to the structure or mechanism for withdrawing raw water such as a pipe inlet, grate, pump, intake or diversion box, spring box, well, or similar structure.
8. Wash or drainage easement with a drainage area of more than 20 acres	50	Measured horizontally from the nearest edge of the defined natural channel bank or drainage easement boundary. A person may reduce the setback to 25 feet if natural or constructed erosion protection is approved by the appropriate flood plain administrator.
9. Water main or branch water line	10	None
10. Domestic service water line	5	Measured horizontally between the water line and the wastewater pipe, except that the following are allowed: a. A water line may cross above a wastewater pipe if the crossing angle is between 45 and 90 degrees and the vertical separation distance is 1 foot or more. b. A water line may parallel a wastewater pipe with a horizontal separation distance of 1 foot to 5 feet if the bottom of the water line is 1 foot or more above the top of the wastewater pipe and is in a separate trench or on a bench in the same trench.
11. Downslopes or cut banks greater than 15 percent, culverts, and ditches from:		
a. Treatment works components	10	Measured horizontally from the bottom of the treatment works component to the closest point of daylighting on the surface.
b. Trench, bed, chamber technology, or gravel-less trench with:		Measured horizontally from the bottom of the lowest point of the disposal pipe or drip lines, as applicable, to the closest point of daylighting on the surface.
i. No limiting subsurface condition specified in R18-9-A310(D)(2),	20	
ii. A limiting subsurface condition.	50	
c. Subsurface drip lines.	3	Measured horizontally from the bottom of the lowest point of the disposal pipe or drip lines, as applicable, to the closest point of daylighting on the surface.
12. Driveway	5	Measured horizontally to the nearest edge of an on-site wastewater treatment facility excavation. A person may place a properly reinforced and protected wastewater treatment facility, except for disposal works, at any location relative to a driveway if access openings, risers, and covers carry the design load and are protected from inflow.

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

13. Swimming pool excavation	5	Except if soil loading or stability concerns indicate the need for a greater separation distance.
14. Easement (except drainage easement)	5	None
15. Earth fissures	100	None

* A "common drinking water system" means a system that currently serves or is under legal obligation to serve the property and may include a drinking water utility, a well-sharing agreement, or other viable water supply agreement.

D. Soil absorption rate (SAR) and disposal works sizing.

1. An applicant shall determine the soil absorption area by dividing the design flow by the applicable soil absorption rate. If soil characterization and percolation test methods yield different SAR values or if multiple applications of the same approach yield different values, the designer of the disposal works shall use the lowest SAR value unless a higher SAR value is proposed and justified to the Department's satisfaction in the Notice of Intent to Discharge.
2. The SAR used to calculate disposal works size for systems described in R18-9-E302 is as follows:
 - a. The SAR by percolation testing as described in R18-9-A310(F) is determined as follows:

Percolation Rate from Percolation Test (minutes per inch)	SAR, Trench, Chamber, and Pit (gal/day/ft ²)	SAR, Bed (gal/day/ft ²)
Less than 1.00	A site-specific SAR is required	A site-specific SAR is required
1.00 to less than 3.00	1.20	0.93
3.00	1.10	0.73
4.00	1.00	0.67
5.00	0.90	0.60
7.00	0.75	0.50

10.0	0.63	0.42
15.0	0.50	0.33
20.0	0.44	0.29
25.0	0.40	0.27
30.0	0.36	0.24
35.0	0.33	0.22
40.0	0.31	0.21
45.0	0.29	0.20
50.0	0.28	0.19
55.0	0.27	0.18
55.0+ to 60.0	0.25	0.17
60.0+ to 120	0.20	0.13
Greater than 120	A site-specific SAR is required	A site-specific SAR is required

- b. The SAR using the soil evaluation method described in R18-9-A310(E) is determined by answering the questions in the following table. The questions are read in sequence starting with "A." The first "yes" answer determines the SAR.

Sequence of Soil Characteristics Questions	SAR, Trench, Chamber, and Pit gal/day/ft ²	SAR, Bed gal/day/ft ²
A. Is the horizon gravelly coarse sand or coarser?	A site-specific SAR is required	A site-specific SAR is required
B. Is the structure of the horizon moderate or strongly platy?	A site-specific SAR is required	A site-specific SAR is required
C. Is the texture of the horizon sandy clay loam, clay loam, silty clay loam, or finer and the soil structure weak platy?	A site-specific SAR is required	A site-specific SAR is required
D. Is the moist consistency stronger than firm or any cemented class?	A site-specific SAR is required	A site-specific SAR is required
E. Is the texture sandy clay, clay, or silty clay of high clay content and the structure massive or weak?	A site-specific SAR is required	A site-specific SAR is required
F. Is the texture sandy clay loam, clay loam, silty clay loam, or silty loam and the structure massive?	A site-specific SAR is required	A site-specific SAR is required
G. Is the texture of the horizon loam or sandy loam and the structure massive?	0.20	0.13
H. Is the texture sandy clay, clay, or silty clay of low clay content and the structure moderate or strong?	0.20	0.13
I. Is the texture sandy clay loam, clay loam, or silty clay loam and the structure weak?	0.20	0.13

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

J. Is the texture sandy clay loam, clay loam, or silty clay loam and the structure moderate or strong?	0.40	0.27
K. Is the texture sandy loam, loam, or silty loam and the structure weak?	0.40	0.27
L. Is the texture sandy loam, loam, or silt loam and the structure moderate or strong?	0.60	0.40
M. Is the texture fine sand, very fine sand, loamy fine sand, or loamy very fine sand?	0.40	0.27
N. Is the texture loamy sand or sand?	0.80	0.53
O. Is the texture coarse sand?	1.20	A site-specific SAR is required

3. For an on-site wastewater treatment facility described in a general permit other than R18-9-E302, the SAR is dependent on the ability of the facility to reduce the level of TSS and BOD₅ and is calculated using the following formula:

$$SAR_a = \left[\left(\frac{11.39}{\sqrt[3]{TSS + BOD_5}} - 1.87 \right) SAR^{1.13} + 1 \right] SAR$$

- "SAR_a" is the adjusted soil absorption rate for disposal works design in gallons per day per square foot,
 - "TSS" is the total suspended solids in wastewater delivered to the disposal works in milligrams per liter,
 - "BOD₅" is the five-day biochemical oxygen demand of wastewater delivered to the disposal works in milligrams per liter, and
 - "SAR" is the soil absorption rate for septic tank effluent determined by the subsurface characterization method described in R18-9-A310.
4. An applicant shall ensure that the facility is designed so that the area of the intended installation is large enough to allow for construction of the facility and for future

replacement or repair and is at least as large as the following:

- For a dwelling, a primary area for the disposal works sized according to subsection (D)(1) and a reserve area of 100 percent of the primary area, excluding the footprint of the treatment works. A reserve area is not required for a lot in a subdivision approved before 1974 if the lot conforms to its original approved configuration;
 - For other than a dwelling, a primary area for the disposal works sized according to subsection (D)(1) and a reserve area of 100 percent of the primary area, excluding the footprint of the treatment works.
5. An applicant shall ensure that the subsurface disposal works is designed to achieve the design flow established in R18-9-A309(B)(3) through proper hydraulic function, including conditions of seasonally cold and wet weather.
- E. Vertical separation distances.
- Minimum vertical separation to the seasonal high water table for a disposal works described in R18-9-E302 receiving septic tank effluent. For a disposal works described in R18-9-E302 receiving septic tank effluent, the minimum vertical separation distance between the lowest point in the disposal works and the seasonal high water table is dependent on the soil absorption rate and is determined as follows:

Soil Absorption Rate (gallons per day per square foot)			Minimum Vertical Separation Between The Bottom Of The Disposal Works And The Seasonal High Water Table (feet)	
Trench and Chamber	Bed	Seepage Pit	Trench, Chamber, and Bed	Seepage Pit
1.20+	0.93+	1.20+	Not allowed for septic tank effluent	Not Allowed
0.63+ to 1.20	0.42 to 0.93	0.63+ to 1.20	10	60
0.20 to 0.63	0.13 to 0.42	0.36 to 0.63	5	60
Less than 0.20	Less than 0.13	Less than 0.36	Not allowed for septic tank effluent	Not Allowed

- Minimum vertical separation to the seasonal high water table for treatment and disposal works described in R18-9-E303 through R18-9-E322. If the minimum vertical separation distance to the seasonal high water table for a disposal works receiving septic tank effluent specified in subsection (E)(1) is not met, the applicant shall comply with the following:
 - Employ one or more technologies described in R18-9-E303 through R18-9-E322 to achieve a reduced concentration of harmful microorganisms, expressed as total coliform in colony forming units per 100 milliliters (cfu/100 ml) delivered to native soil at the bottom of the disposal works. The applicant shall use the following table to select works that achieve a reduced total coliform concentration corresponding

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

to the available vertical separation distance between the bottom of the disposal works and the seasonal high water table:

Available Vertical Separation Distance Between the Bottom of The Disposal Works and the Seasonal High Water Table (feet)		Maximum Allowable Total Coliform Concentration, 95th Percentile, Delivered to Natural Soil by the Disposal Works (Log ₁₀ of coliform concentration in cfu per 100 milliliters)

* Soil absorption rate from percolation testing or soil characterization, in gallons per square foot per day.

** Nominal value for a standard septic tank and disposal field (10⁸ colony forming units per 100 ml).

*** Nominally free of coliform bacteria.

- b. Include a hydraulic analysis with the Notice Of Intent To Discharge, based on the dimensions of the absorption surfaces specified in R18-9-A312(B)(4)(b), showing that the soil is sufficiently permeable to conduct wastewater downward and laterally without surfacing for the site conditions at the disposal works.
3. Vertical separation from a subsurface limiting condition described in R18-9-A310(D)(2)(d) that may cause or contribute to surfacing of wastewater. If a subsurface limiting condition described in R18-9-A310(D)(2)(d) exists at the location of the disposal works, the applicant shall ensure that the design for the on-site wastewater treatment facility meets one of the following:
 - a. A zone of acceptable native soil with the following characteristics exists between the bottom of the disposal works and the top of the subsurface limiting condition:
 - i. The zone of soil is at least 4 feet thick, and
 - ii. The zone of soil is sufficiently permeable to conduct wastewater released from the disposal works vertically downward and laterally without causing surfacing of the wastewater as documented by a hydraulic analysis submitted with the Notice of Intent to Discharge that is based on the dimensions of the absorption surfaces specified in R18-9-A312(B)(4)(b);
 - b. The subsurface limiting condition is thin enough to allow placement of a disposal works into acceptable native soil beneath the subsurface limiting condition if the following criteria are met:
 - i. The bottom of the subsurface limiting condition is not deeper than 10 feet below the land surface, and

- ii. The vertical separation distance from the bottom of the disposal works to the seasonal high water table complies with subsection (E)(1) or (2), as applicable; or
- c. If the disposal works is placed above the subsurface limiting condition and the depth to the subsurface limiting condition is less than 4 feet below the bottom of the disposal works, the design for the on-site wastewater treatment facility shall comply with all of the following:
 - i. Employ one or more technologies described in R18-9-E303 through R18-9-E322 to achieve a reduced concentration of harmful microorganisms, expressed as total coliform in colony forming units per 100 milliliters (cfu/100 ml), delivered to acceptable native soil at the bottom of the disposal works, as follows:

Available Vertical Separation Distance from the Bottom of the Disposal Works to the Subsurface Limiting Condition (feet)	Maximum Allowable Total Coliform Concentration, 95th Percentile, Delivered to Acceptable Native Soil by the Disposal Works (Log ₁₀ of coliform concentration in cfu per 100 milliliters)

0.5	0*
0	0*

* Nominally free of coliform bacteria.

- ii. If the SAR of the native soil into which the disposal works is placed is not more than 0.63 gallons per day per square foot, include a hydraulic analysis with the Notice of Intent to Discharge, based on the location and dimensions of the absorption surfaces specified in R18-9-A312(B)(4)(b), showing that the soil is sufficiently permeable to conduct wastewater vertically downward and laterally without surfacing for the site conditions at the disposal works; and
- iii. If a disinfection device under R18-9-E320 is proposed but is not used with surface disposal of wastewater under R18-9-E321 or "Category A" drip irrigation disposal under R18-9-E322, provide a justification with the Notice of Intent to Discharge stating why the selected type of disposal works is favored over disposal under R18-9-E321 or R18-9-E322.

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

4. Vertical separation from a subsurface limiting condition described in R18-9-A310(D)(2)(e) that promotes accelerated downward movement of insufficiently treated wastewater. If a subsurface limiting condition described in R18-9-A310(D)(2)(e) exists at the location of the proposed disposal works, the applicant shall ensure that the design for the on-site wastewater treatment facility meets one of the following:
 - a. A zone of naturally occurring soil with the following characteristics exists between the bottom of the disposal works and the top of the subsurface limiting condition:
 - i. The zone of soil is at least 2 feet thick, and
 - ii. The SAR of the soil is not less than 0.20 gallons per day per square foot nor more than 1.20 gallons per day per square foot; or
 - b. The on-site wastewater treatment facility employs one or more technologies described in R18-9-E303 through R18-9-E322 that produces treated wastewater that meets a total coliform concentration of 1,000,000 (Log_{10}) colony forming units per 100 milliliters, 95th percentile.
- F. Materials and manufactured system components.
 1. Materials. An applicant shall use aggregate if no specification for disposal works material is provided in this Article.
 2. Manufactured components. If manufactured components are used, an applicant shall design, install, and operate the on-site wastewater treatment facility following the manufacturer's specifications. The applicant shall ensure that:
 - a. Treatment and containment components, mechanical equipment, instrumentation, and controls have monitoring, inspection, access and cleanout ports or covers, as appropriate, for monitoring and service;
 - b. Treatment and containment components, pipe, fittings, pumps, and related components and controls are durable, watertight, structurally sound, and capable of withstanding stress from installation and operational service; and
 - c. Distribution lines for disposal works are constructed of clay tile laid with open joints, perforated clay pipe, perforated high density polyethylene pipe, perforated ABS pipe, or perforated PVC pipe if the pipe is suitable for wastewater disposal use and sufficient openings are available for distribution of the wastewater into the trench or bed area.
 3. Electronic components. When electronic components are used, the applicant shall ensure that:
 - a. Instructions and a wiring diagram are mounted on the inside of a control panel cover;
 - b. The control panel is equipped with a multimode operation switch, red alarm light, buzzer, and reset button;
 - c. The multimode operation switch operates in the automatic position for normal system operation; and
 - d. An anomalous condition is indicated by a glowing alarm light and sounding buzzer. The continued glowing of the alarm light after pressing the reset button shall signal the need for maintenance or repair of the system at the earliest practical opportunity.
 4. If a conflict exists between this Article and the manufacturer's specifications, the requirements of this Article apply. Except for the requirements in subsection (D) and (E), which always apply, if the conflict voids a manufacturer's warranty, the applicant may submit a request under subsection (G) justifying use of the manufacturer's specifications.
- G. Alternative design, setback, installation, or operational features. When an applicant submits a Notice of Intent to Discharge, the applicant may request that the Department review and approve a feature of improved or alternative technology, design, setback, installation, or operation that differs from a general permit requirement in this Article.
 1. The applicant shall make the request for an improved or alternative feature of technology, design, setback, installation, or operation on a form provided by the Department and include:
 - a. A description of the requested change;
 - b. A citation to the applicable feature or technology, design, setback, installation, or operational requirement for which the change is being requested; and
 - c. Justification for the requested change, including any necessary supporting documentation.
 2. The applicant shall submit the appropriate fee specified under 18 A.A.C. 14 for each requested change. For purposes of calculating the fee, a requested change that is applied multiple times in a similar manner throughout the facility is considered a single request if submitted for concurrent review.
 3. The applicant shall provide sufficient information for the Department to determine that the change achieves equal or better performance compared with the general permit requirement, or addresses site or system conditions more satisfactorily than the requirements of this Article.
 4. The Department shall review and may approve the request for change.
 5. The Department shall deny the request for the change if the change will adversely affect other permittees or cause or contribute to a violation of an Aquifer Water Quality Standard.
 6. The Department shall deny the request for the change if the change:
 - a. Fails to achieve equal or better performance compared to the general permit requirement;
 - b. Fails to address site or system conditions more satisfactorily than the general permit requirement;
 - c. Is insufficiently justified based on the information provided in the submittal;
 - d. Requires excessive review time, research, or specialized expertise by the Department to act on the request; or
 - e. For any other justifiable cause.
 7. The Department may approve a reduced setback for a facility authorized to discharge under one or more of the general permits in R18-9-E303 through R18-9-E322, either separately or in combination with a septic tank system authorized under R18-9-E302, if the applicant demonstrates that:
 - a. The treatment performance is significantly better than that provided under R18-9-E302(B),
 - b. The wastewater loading rate is reduced, or
 - c. Surface or subsurface characteristics ensure that reduced setbacks are protective of human health or water quality.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended to correct a manifest typographical error in subsection (E)(1) (Supp. 01-1). Amended by final rulemaking at 11

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-A313. Facility Installation, Operation, and Maintenance for On-site Wastewater Treatment Facilities

A. Facility installation. In addition to installation requirements in the general permit, the applicant shall ensure that the following tasks are performed, as applicable:

1. The facility is installed as described in design documents submitted with the Notice of Intent to Discharge;
2. Components are installed on a firm foundation that supports the components and operating loads;
3. The site is prepared to protect native soil beneath the soil absorption area and in adjacent areas from compaction, prevent smeared absorption surfaces, minimize disturbances from grubbing, and otherwise preclude damage to the disposal area that would impair performance;
4. Components are protected from damage at the construction site and installed in conformance with the manufacturer's instructions if consistent with this Article;
5. Treatment media are placed to achieve uniform density, prevent differential settling, produce a level inlet surface unless otherwise specified by the manufacturer, and avoid introduction of construction contaminants;
6. Backfill is placed to prevent damage to geotextile, liners, tanks, and other components;
7. Soil cover is shaped to shed rainfall away from the backfill areas and prevent ponding of runoff; and
8. Anti-buoyancy measures are implemented during construction if temporary saturated backfill conditions are anticipated during construction.

B. Operation and maintenance. In addition to operation and maintenance requirements in the general permit or specified in the operation and maintenance manual, the permittee shall ensure that the following tasks are performed, as applicable:

1. Pump accumulated residues, inspect and clean wastewater treatment and distribution components, and manage residues to protect human health and the environment;
2. Clean, backwash, or replace effluent filters according to the manufacturer's instructions, and manage residues to protect human health and the environment;
3. Inspect and clean the effluent baffle screen and pump tank, and properly dispose of cleaning residue;
4. Clean the dosing tank effluent screen, pump switches, and floats, and properly dispose of cleaning residue;
5. Flush lateral lines and return flush water to the pretreatment headworks;
6. Inspect, remove and replace, if necessary, and properly dispose of filter media;
7. Rod pressurized wastewater delivery lines and secondary distribution lines (for dosing systems), and return cleaning water to the pretreatment headworks;
8. Inspect and clean pump inlets and controls and return cleaning water to the pretreatment headworks;
9. Implement corrective measures if anomalous ponding, dryness, noise, odor, or differential settling is observed;
10. Inspect and monitor inspection and access ports, as applicable, to verify that operation is within expected limits for:
 - a. Influent wastewater quality;
 - b. The pressurized dosing system;
 - c. The aggregate infiltration bed and mound system;
 - d. Wastewater delivery and the engineered pad;
 - e. The pressurized delivery system, filter, underdrain, and native soil absorption system;
 - f. Saturation condition status in peat and other media; and
 - g. Treatment system components;

11. Inspect tanks, liners, ports, seals, piping, and appurtenances for watertightness under all operational conditions;
12. Manage vegetation in areas that contain components subject to physical impairment or damage due to root invasion or animals;
13. Maintain drainage, berms, protective barriers, cover materials, and other features; and
14. Maintain the usefulness of the reserve area to allow for repair or replacement of the on-site wastewater treatment facility.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-A314. Septic Tank Design, Manufacturing, and Installation for On-site Wastewater Treatment Facilities

A person shall not install a septic tank in an on-site wastewater treatment facility unless the tank meets the following requirements:

1. The tank is:
 - a. Designed to produce a clarified effluent and provide adequate space for sludge and scum accumulations;
 - b. Watertight and constructed of solid durable materials not subject to excessive corrosion or decay;
 - c. Manufactured with at least two compartments unless two separate structures are placed in series. The tank is designed so that:
 - i. The inlet compartment of any septic tank not placed in series is nominally 67 percent to 75 percent of the total required capacity of the tank,
 - ii. Septic tanks placed in series are considered a unit and meet the same criteria as a single tank,
 - iii. The liquid depth of the septic tank is at least 42 inches, and
 - iv. A septic tank of 1000 gallon capacity is at least 8 feet long and the tank length of septic tanks of greater capacity is at least 2 times but not more than 3 times the width;
 - d. Manufactured with at least two access openings to the tank interior, each at least 20 inches in diameter. The tank is designed so that:
 - i. One access opening is located over the inlet end of the tank and one access opening is located over the outlet end;
 - ii. Whenever a first compartment exceeds 12 feet in length, another access opening is provided over the baffle wall; and
 - iii. Access openings and risers are constructed to ensure accessibility within 6 inches below finished grade;
 - e. Manufactured so that the sewage inlet and wastewater outlet openings are not smaller than the connecting sewer pipe. The tank is designed so that:
 - i. The vertical leg of round inlet and outlet fittings is at least 4 inches but not smaller than the connecting sewer pipe, and
 - ii. A baffle fitting has the equivalent cross-sectional area of the connecting sewer pipe and not less than a 4 inch horizontal dimension if measured at the inlet and outlet pipe inverts;
 - f. Manufactured so that the inlet and outlet pipe or baffle extends 4 inches above and at least 12 inches below the water surface when the tank is installed

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

- according to the manufacturer's instructions consistent with this Chapter. The invert of the inlet pipe is at least 2 inches above the invert of the outlet pipe;
- g. Manufactured so that the inlet and outlet fittings or baffles and compartment partitions have a free vent area equal to the required cross-sectional area of the connected sewer pipe to provide free ventilation above the water surface from the disposal works or seepage pit through the septic tank, house sewer, and stack to the outer air;
 - h. Manufactured so that the open space extends at least 9 inches above the liquid level and the cover of the septic tank is at least 2 inches above the top of the inlet fitting vent opening;
 - i. Manufactured so that partitions or baffles between compartments are of solid durable material (wooden baffles are prohibited) and extend at least 4 inches above the liquid level. The open area of the baffle shall be between one and 2 times the open area of the inlet pipe or horizontal slot and located at the midpoint of the liquid level of the baffle. If a horizontal slot is used, the slot shall be no more than 6 inches in height;
 - j. Structurally designed to withstand all anticipated earth or other loads. The tank is designed so that:
 - i. All septic tank covers are capable of supporting an earth load of 300 pounds per square foot; and
 - ii. If the top of the tank is greater than 2 feet below finish grade, the septic tank and cover are capable of supporting an additional load of 150 pounds per square foot for each additional foot of cover;
 - k. Manufactured or installed so that the influent and effluent ends of the tank are clearly and permanently marked on the outside of the tank with the words "INLET" or "IN," and "OUTLET" or "OUT," above or to the right or left of the corresponding openings; and
 - l. Clearly and permanently marked with the manufacturer's name or registered trademark, or both, the month and year of manufacture, the maximum recommended depth of earth cover in feet, and the design liquid capacity of the tank. The tank is manufactured to protect the markings from corrosion so that they remain permanent and readable for the operational life of the tank.
2. Materials used to construct or manufacture septic tanks.
 - a. A septic tank cast-in-place at the site of use shall be protected from corrosion by coating the tank with a bituminous coating, by constructing the tank using a concrete mix that incorporates 15 percent to 18 percent fly ash, or by any other Department-approved means. The tank is designed so that:
 - i. The coating extends at least 4 inches below the wastewater line and covers all of the internal area above that point; and
 - ii. A septic tank cast-in-place complies with the "Building Code Requirements for Structural Concrete and Commentary ACI 318-02/318R-02 (2002)," and the "Code Requirements for Environmental Engineering Concrete Structures and Commentary, ACI 350/350R-01 (2001)," published by the American Concrete Institute. This material is incorporated by reference and does not include any later amendments or editions of the incorporated material. Copies of the incorporated material are available for inspection at the Arizona Department of Environmental Quality, 1110 W. Washington Street, Phoenix, AZ 85007 or may be obtained from American Concrete Institute, P.O. Box 9094, Farmington Hills, MI 48333-9094.
 - b. A steel septic tank shall have a minimum wall thickness of No. 12 U.S. gauge steel and be protected from corrosion, internally and externally, by a bituminous coating or other Department-approved means.
 - c. A prefabricated concrete septic tank shall meet the "Standard Specification for Precast Concrete Septic Tanks, C1227-03," published by the American Society for Testing and Materials. This information is incorporated by reference and does not include any later amendments or editions of the incorporated material. Copies of the incorporated material are available for inspection at the Arizona Department of Environmental Quality, 1110 W. Washington Street, Phoenix, AZ 85007 or may be obtained from the American Society for Testing and Materials International West.
 - d. A septic tank manufactured using fiberglass or polyethylene shall meet the "Material and Property Standards for Prefabricated Septic Tanks, IAPMO PS 1-2004," published by the International Association of Plumbing and Mechanical Officials. This information is incorporated by reference, does not include any later amendments or editions of the incorporated material, and may be viewed at the Arizona Department of Environmental Quality, 1110 W. Washington Street, Phoenix, AZ 85007 or obtained from International Association of Plumbing & Mechanical Officials, 20001 E. Walnut Drive, South Walnut, CA 91789-2825.
 3. Conformance with design, materials, and manufacturing requirements.
 - a. If any conflict exists between this Article and the information incorporated by reference in subsection (2), the requirements of this Article apply.
 - b. The Department may approve use of alternative construction materials under R18-9-A312(G). Tanks constructed of wood, block, or bare steel are prohibited.
 - c. The Department may inspect septic tanks at the site of manufacturing to verify compliance with subsections (1) and (2).
 - d. The septic tank sale documentation includes:
 - i. A certificate attesting that the septic tank conforms with the design, materials, and manufacturing requirements in subsections (1) and (2); and
 - ii. Instructions for handling and installing the septic tank.
 4. The septic tank's daily design flow is determined as follows:
 - a. For a single family dwelling:
 - i. The design liquid capacity of the septic tank and the septic tank's daily design flow are determined based on the number of bedrooms and fixture count as follows:

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

Criteria for Septic Tank Size and Design Flow			
Number of Bedrooms	Fixture Count	Minimum Design Liquid Capacity (gallons)	Design Flow (gal/day)
1	7 or less	1000	150
	More than 7	1000	300
2	14 or less	1000	300
	More than 14	1000	450
3	21 or less	1000	450
	More than 21	1250	600
4	28 or less	1250	600
	More than 28	1500	750
5	35 or less	1500	750
	More than 35	2000	900
6	42 or less	2000	900
	More than 42	2500	1050
7	49 or less	2500	1050
	More than 49	3000	1200
8	56 or less	3000	1200
	More than 56	3000	1350

ii. Fixture count is determined as follows:

Residential Fixture Type	Fixture Units	Residential Fixture Type	Fixture Units
Bathtub	2	Sink, bar	1
Bidet	2	Sink, kitchen (including dishwasher)	2
Clothes washer	2	Sink, service	3
Dishwasher (Separate from kitchen)	2	Utility tub or sink	2
Lavatory, single	1	Water closet, 1.6 gallons per flush (gpf)	3
Lavatory, double in master bedroom	1	Water closet, >1.6 to 3.2 gpf	4
Shower, single stall	2	Water closet, greater than 3.2 gpf	6

- b. For other than a single family dwelling, the design liquid capacity of a septic tank in gallons is 2.1 times the daily design flow into the tank as determined from Table 1, Unit Design Flows. If the wastewater strength exceeds that of typical sewage, additional tank volume is required.
- c. A person may place two septic tanks in series to meet the septic tank design liquid capacity require-

ments if the capacity of the first tank is at least 67 percent of the total required tank capacity and the capacity of the second tank is at least 33 percent of the total required tank capacity.

5. The following requirements regarding new or replacement septic tank installation apply:
- Permanent surface markers for locating the septic tank access openings are provided for maintenance;
 - A septic tank installed under concrete or pavement has the required access openings extended to grade;
 - A septic tank effluent filter is installed on the septic tank. The filter shall:
 - Prevent the passage of solids larger than 1/8 inch in diameter while under two feet of hydrostatic head; and
 - Be constructed of materials that are resistant to corrosion and erosion, sized to accommodate hydraulic and organic loading, and removable for cleaning and maintenance; and
 - The septic tank is tested for watertightness after installation by the water test described in subsections (5)(d)(i) and (5)(d)(ii) and repaired or replaced, if necessary.
 - The septic tank is filled with clean water, as specified in R18-9-A310(A), to the invert of the outlet and the water left standing in the tank for 24 hours and:
 - After 24 hours, the tank is refilled to the invert, if necessary;
 - The initial water level and time is recorded; and
 - After one hour, water level and time is recorded.
 - The tank passes the water test if the water level does not drop over the one-hour period. Any visible leak of flowing water is considered a failure. A damp or wet spot that is not flowing is not considered a failure.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-A315. Interceptor Design, Manufacturing, and Installation for On-site Wastewater Treatment Facilities

- A. Interceptor requirement. An applicant shall ensure that an interceptor as required by R18-9-A309(A)(7)(c) or necessary due to excessive amounts of grease, garbage, sand, or other wastes in the sewage is installed between the sewage source and the on-site wastewater treatment facility.
- B. Interceptor design. An applicant shall ensure that:
- An interceptor has not less than two compartments with fittings designed for grease retention and capable of removing excessive amounts of grease, garbage, sand, or other wastes. Applicable structural and materials requirements prescribed in R18-9-A314 apply;
 - Interceptors are located as close to the source as possible and are accessible for servicing. The applicant shall ensure that access openings for servicing are at grade level and gas-tight;
 - The interceptor size for grease and garbage from non-residential kitchens is calculated using by the following equation: Interceptor Size (in gallons) = $M \times F \times T \times S$.
 - "M" is the number of meals per peak hour;

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

- b. "F" is the waste flow rate from Table 1, Unit Design Flows.
 - c. "T" is the estimated retention time:
 - i. Commercial kitchen waste, dishwasher or disposal: 2.5 hours; or
 - ii. Single service kitchen with utensil wash disposal: 1.5 hours;
 - d. "S" is the estimated storage factor:
 - i. Fully equipped commercial kitchen, 8-hour operation: 1.0;
 - ii. Fully equipped commercial kitchen, 16-hour operation: 2.0;
 - iii. Fully equipped commercial kitchen, 24-hour operation: 3.0; or
 - iv. Single service kitchen, 1.5;
 - 4. The interceptor size for silt and grease from laundries and laundromats is calculated using the following equation: Interceptor Size (in gallons) = $M \times C \times F \times T \times S$.
 - a. "M" is the number of machines;
 - b. "C" is the machine cycles per hour (assume 2);
 - c. "F" is the waste flow rate from Table 1, Unit Design Flows;
 - d. "T" is the estimated retention time (assume 2); and
 - e. "S" is the estimated storage factor (assume 1.5 that allows for rock filter).
 - C. The applicant may calculate the size of an interceptor using different factor values than those given in subsections (B)(3) and (4) based on the values justified by the applicant in the Notice of Intent to Discharge submitted to the Department for the on-site wastewater treatment facility.
 - D. The Department may require installation of a sampling box if the volume or characteristics of the waste will impair the performance of the on-site wastewater treatment facility.
- Historical Note**
- New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-A316. Transfer of Ownership Inspection for On-site Wastewater Treatment Facilities

- A. Conforming with this Section satisfies the Notice of Transfer requirements under R18-9-A304.
- B. Within six months before the date of property transfer, the person who is transferring a property served by an on-site wastewater treatment facility shall retain an inspector to perform a transfer of ownership inspection of the on-site wastewater treatment facility who meets the following qualifications:
 - 1. Possesses working knowledge of the type of facility and the inspection process;
 - 2. Holds a certificate of training from a course recognized by the Department as sufficiently covering the information specified in this Section by July 1, 2006; and
 - 3. Holds a license in one of the following categories:
 - a. An Arizona-registered engineer;
 - b. An Arizona-registered sanitarian;
 - c. An owner of a vehicle with a human excreta collection and transport license issued under 18 A.A.C. 13, Article 11 or an employee of the owner of the vehicle;
 - d. A contractor licensed by the Registrar of Contractors in one of the following categories:
 - i. Residential license B-4 or C-41;
 - ii. Commercial license A, A-12, or L-41; or
 - iii. Dual license KA or K-41;

- e. A wastewater treatment plant operator certified under 18 A.A.C. 5, Article 1; or
- f. A person qualifying under another category designated by the Department.
- C. The inspector shall complete a Report of Inspection on a form approved by the Department, sign it, and provide it to the person transferring the property. The Report of Inspection shall:
 - 1. Address the physical and operational condition of the on-site wastewater treatment facility and describe observed deficiencies and repairs completed, if any;
 - 2. Indicate that each septic tank or other wastewater treatment container on the property was pumped or otherwise serviced to remove, to the maximum extent possible, solid, floating, and liquid waste accumulations, or that pumping or servicing was not performed for one of the following reasons:
 - a. A Discharge Authorization for the on-site wastewater treatment facility was issued and the facility was put into service within 12 months before the transfer of ownership inspection,
 - b. Pumping or servicing was not necessary at the time of the inspection based on the manufacturer's written operation and maintenance instructions, or
 - c. No accumulation of floating or settled waste was present in the septic tank or wastewater treatment container; and
 - 3. Indicate the date the inspection was performed.
- D. Before the property is transferred, the person transferring the property shall provide to the person to whom the property is transferred:
 - 1. The completed Report of Inspection; and
 - 2. Documents in the person's possession relating to permitting, operation, and maintenance of the on-site wastewater treatment facility.
- E. The person to whom the property is transferred shall complete a Notice of Transfer on a form approved by the Department and send the form with the applicable fee specified in 18 A.A.C. 14 within 15 calendar days after the property transfer to:
 - 1. The Department for transfer of a property with an on-site wastewater treatment facility for which construction was completed before January 1, 2001; or
 - 2. The health or environmental agency delegated by the Director to administer the on-site wastewater treatment facility program for transfer of a property with an on-site wastewater treatment facility constructed on or after January 1, 2001.
- F. If the Department issued a Discharge Authorization for the on-site wastewater treatment facility but the facility was not put into service before the property transfer, an inspection of the facility is not required and the transferee shall complete the Notice of Transfer form as specified in subsection (E).
- G. Effective date.
 - 1. The owner of an on-site wastewater treatment facility operating under a Type 4 General Permit shall comply with this Section by November 12, 2005.
 - 2. The owner of any on-site wastewater treatment facility other than a facility identified in subsection (G)(1) shall comply with this Section by July 1, 2006.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2002 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-A317. Nitrogen Management Area

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

- A.** The Director may designate a new Nitrogen Management Area to control groundwater pollution by sources of nitrogen regulated by Title 49, Chapter 2, Article 3 of the Arizona Revised Statutes and not covered under an individual permit, modify the boundaries or requirements of a Nitrogen Management Area, or rescind designation of a Nitrogen Management Area.
1. If existing conditions or trends in nitrogen loading to an aquifer will cause or contribute to an exceedance of the Aquifer Water Quality Standard for nitrate at a point or points of current or reasonably foreseeable use of the aquifer, the Director shall use the following criteria to determine whether to designate the area as a Nitrogen Management Area:
 - a. Population of the area;
 - b. The degree to which the area is unsewered;
 - c. Gross areal nitrogen loading, calculated as the amount of nitrogen discharged into the subsurface by use of on-site wastewater treatment facilities, divided by the land area under consideration for designation as a Nitrogen Management Area;
 - d. Population growth rate of area;
 - e. Existing contamination of groundwater by nitrogen species;
 - f. Existing and potential impact to groundwater by sources of nitrogen other than on-site wastewater treatment facilities;
 - g. Characteristics of the vadose zone and aquifer;
 - h. Location, number, and areal extent of existing and potential sources of nitrogen;
 - i. Location and characteristics of existing and potential drinking water supplies; and
 - j. Any other information relevant to determining the severity of actual or potential nitrogen impact on the aquifer.
 2. The Director may modify the boundaries or requirements of a Nitrogen Management Area or rescind designation of a Nitrogen Management Area based on:
 - a. A material change to one or more criterion specified in subsection (A)(1); or
 - b. The adoption by a local agency of a master plan to substantially sewer the area as soon as possible, but with a completion deadline within 10 years, unless a completion deadline of more than 10 years is approved by the Director.
- B.** Preliminary designation, modification, or rescission.
1. The Director shall provide a report to the mayors and members of the Board of Supervisors of all towns, cities, and counties and the directors of all sanitary districts affected by the Department's proposed action to designate, modify, or rescind a Nitrogen Management Area as follows:
 - a. If the Department proposes to designate a Nitrogen Management Area, the Department shall provide a report discussing each criterion specified in subsection (A)(1).
 - b. If the Department proposes to modify the boundaries or requirements of a Nitrogen Management Area or rescind the designation of a Nitrogen Management Area, the Department shall provide a report discussing applicable criteria in subsections (A)(1) and (2).
 2. The town, city, county, or sanitary district receiving the Director's report may provide written comments to the Department within 120 days to dispute the factual information presented in the report and supply any information supporting the comments.
 3. The Director shall evaluate the comments and supporting information obtained under subsection (B)(2) and either designate, modify, or rescind the Nitrogen Management Area or withdraw the proposal.
- C.** Final designation.
1. If the Director designates or modifies the Nitrogen Management Area, the Department shall:
 - a. Issue or modify the Nitrogen Management Area designation and any special provisions established for the area to control groundwater pollution by sources of nitrogen regulated by Title 49, Chapter 2, Article 3 of the Arizona Revised Statutes but not covered under an individual permit. The Department shall provide notice to the mayors and members of the Board of Supervisors of all towns, cities, and counties and the directors of all sanitary districts affected by the determination;
 - b. Maintain the designation and a map showing the boundaries of the Nitrogen Management Area at the Arizona Department of Environmental Quality, 1110 West Washington, Phoenix, Arizona 85007 and on the Department's web site at www.azdeq.gov; and
 - c. Provide, upon request, a copy of the Nitrogen Management Area designation and a map of the area.
 2. If the Director withdraws the preliminary Nitrogen Management Area designation or rescinds the Nitrogen Management Area designation, the Director shall issue a determination stating the decision and post it on the Department's web site at www.azdeq.gov.
- D.** Nitrogen Management Area requirements. Within a Nitrogen Management Area:
1. The Department shall issue a Construction Authorization, under R18-9-A301(D)(1)(c), for an on-site wastewater treatment facility only if the applicant proposes, in the Notice of Intent to Discharge, to employ one or more of the technologies allowed under R18-9-E302 through R18-9-E322 that achieves a discharge level containing not more than 15 mg/l of total nitrogen.
 2. An agricultural operation shall use the best control measure necessary to reduce nitrogen discharge when implementing the best management practices developed under 18 A.A.C. 9, Article 4. The Director may require the owner or operator to reassess the performance of the impoundment liner systems constructed under R18-9-403 before November 12, 2005.
 3. A person shall comply with any special provision established for the Nitrogen Management Area, as applicable, for the person's facility.

Historical Note

New Section made by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

PART B. TYPE 1 GENERAL PERMITS**R18-9-B301. Type 1 General Permit**

- A.** A 1.01 General Permit allows any discharge of wash water from a sand and gravel operation, placer mining operation, or other similar activity, including construction, foundation, and underground dewatering, if only physical processes are employed and only hazardous substances at naturally occurring concentrations in the sand, gravel, or other rock material are present in the discharge.
- B.** A 1.02 General Permit allows any discharge from hydrostatic tests of a drinking water distribution system and pipelines not previously used, if all the following conditions are met:
1. The quality of the water used for the test does not exceed an Aquifer Water Quality Standard or for non-drinking

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

- water pipelines, if reclaimed water is used, the reclaimed water meets Class A+ Reclaimed Water Quality Standards under A.A.C. R18-11-303 or Class B+ Reclaimed Water Quality Standards under A.A.C. R18-11-305;
2. The discharge is not to a water of the United States, unless the discharge is under an AZPDES permit; and
 3. The test site is restored to its natural grade.
- C.** A 1.03 General Permit allows any discharge from hydrostatic tests of a pipeline, tank, or appurtenance previously used for transmission of fluid, other than those previously used for drinking water distribution systems, if all the following conditions are met:
1. All liquid discharge is contained in an impoundment lined with flexible geomembrane. The liquid is evaporated or removed from the impoundment and taken to a treatment works or landfill authorized to accept the material within:
 - a. 60 days of the hydrostatic test if the liner is 10 mils, or
 - b. 180 days of the hydrostatic test if the liner is 30 mils or greater;
 2. The liner is placed over a layer, at least 3 inches thick, of well-sorted sand or finer grained material, or over an underliner that provides protection equal to or better than sand or finer grained material and the calculated seepage is less than 550 gallons per acre per day;
 3. The liner is removed and disposed of at an approved landfill unless the liner can be reused at another test location without a reduction in integrity;
 4. The test site is restored to its natural grade; and
 5. If the test waters are removed using a method not specified in subsection (C)(1), including a discharge under an AZPDES permit, the test waters meet Aquifer Water Quality Standards and the specific method is approved by the Department before the discharge.
- D.** A 1.04 General Permit allows any discharge from a facility that, for water quality sampling, hydrologic parameter testing, well development, redevelopment, or potable water system maintenance and repair purposes, receives water, drilling fluids, or drill cuttings from a well if the discharge is to the same aquifer in approximately the same location from which the water supply was originally withdrawn, or the discharge is under an AZPDES permit.
- E.** A 1.05 General Permit allows a discharge to an injection well, surface impoundment, and leach line only if the discharge is filter backwash from a potable water treatment system, condensate from a refrigeration unit, overflows from an evaporative cooler, heat exchange system return water, or swimming pool filter backwash and the discharge is less than 1000 gallons per day. The 1.05 General Permit allows a discharge of those sources to a navigable water if the discharge is authorized by an AZPDES permit.
- F.** A 1.06 General Permit allows the burial of mining industry off-road motor vehicle waste tires at the mine site in a manner consistent with the cover requirements in R18-13-1203.
- G.** A 1.07 General Permit allows the operation of dockside facilities and watercraft if the following conditions are met:
1. Docks that service watercraft equipped with toilets provide sanitary facilities at dockside for the disposal of sewage from watercraft toilets. No wastewater from sinks, showers, laundries, baths, or other plumbing fixtures at a dockside facility is discharged into waters of the state;
 2. Docks that service watercraft have conveniently located toilet facilities for men and women;
 3. No boat, houseboat, or other type of watercraft is equipped with a marine toilet constructed and operated to discharge sewage directly or indirectly into a water of the state, nor is any container of sewage placed, left, discharged, or caused to be placed, left, or discharged in or near any waters of the state by a person;
- 4.** Watercraft with marine toilets constructed to allow sewage to be discharged directly into waters of the state are locked and sealed to prevent usage. Chemical or other type marine toilets with approved storage containers are permitted if dockside disposal facilities are provided; and
- 5.** No bilge water or wastewater from sinks, showers, laundries, baths, or other plumbing fixtures on houseboats or other watercraft is discharged into waters of the state.
- H.** A 1.08 General Permit allows for any earth pit privy, fixed or transportable chemical toilet, incinerator toilet or privy, or pail or can-type privy if allowed by a county health or environmental department under A.R.S. Title 36 or a delegation agreement under A.R.S. § 49-107.
- I.** A 1.09 General Permit allows:
1. The operation of:
 - a. A sewage treatment facility with flows less than 20,000 gallons per day and approved by the Department before January 1, 2001, and
 - b. An on-site wastewater treatment facility with flows less than 20,000 gallons per day operating before January 1, 2001;
 2. The person who owns or operates a facility under subsections (I)(1)(a) or (b) to operate the facility if the following conditions are met:
 - a. The discharge from the facility does not cause or contribute to a violation of a water quality standard;
 - b. The owner or operator does not expand the facility to accommodate flows above the design flow or 20,000 gallons per day, whichever is less;
 - c. The facility only treats typical sewage;
 - d. The facility does not treat flows from commercial operations using hazardous substances or creating hazardous wastes, as defined in A.R.S. § 49-921(5);
 - e. The discharge from the facility does not create any environmental nuisance condition listed in A.R.S. § 49-141; or
 - f. The owner or operator does not alter the treatment or disposal characteristics of the original facility, except as allowed under R18-9-A309(A)(9)(a).
- J.** A 1.10 General Permit allows the operation of a sewage collection system installed before January 1, 2001 that serves downstream from the point where the daily design flow is 3000 gallons per day or that includes a manhole, force main, or lift station serving more than one dwelling regardless of flow, if:
1. The system complies with the performance standards in R18-9-E301(B),
 2. No sewage is released from the sewage collection system to the land surface, and
 3. The system is not operating under the 2.05 General Permit.
- K.** A 1.11 General Permit allows the operation of a sewage collection system that serves upstream from the point where the daily design flow is 3000 gallons per day to the building drains, or a single gravity sewer line conveying sewage from a building drain directly to an interceptor, lateral, or manhole, regardless of daily design flow, if all of the following are met:
1. The system does not cause or contribute to an exceedance of a water quality standard established in 18 A.A.C. 11, Articles 1 and 4;
 2. No sewage is released from the sewage collection system to the land surface;

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

3. No environmental nuisance condition listed in A.R.S. § 49-141 is created;
 4. The system does not include a manhole, force main, or lift station serving more than one dwelling;
 5. Applicable local administrative requirements for review and approval of design and construction are followed;
 6. The performance standards specified in R18-9-E301(B) are met using:
 - a. Local building and construction codes,
 - b. Relevant design and construction standards specified in R18-9-E301, and
 - c. Appropriate operation and maintenance;
 7. The system flows directly into one of the following downstream facilities:
 - a. An on-site wastewater treatment facility;
 - b. A sewage treatment facility operating under an individual permit; or
 - c. A sewage collection system operating under a 1.10, 2.05, or 4.01 General Permit; and
 8. The system is not operating under a 2.05 General Permit.
- L.** A 1.12 General Permit allows the discharge of wastewater resulting from washing concrete from trucks, pumps, and ancillary equipment to an impoundment if the following conditions are met:
1. The person holds an AZPDES Construction General Permit authorizing the concrete washout activities;
 2. The Stormwater Pollution Prevention Plan required by the Construction General Permit issued according to 18 A.A.C. 9, Article 9, Part C, for the construction activity addresses the concrete washout activities;
 3. The vegetation at the soil base of the impoundment is cleared, grubbed, and compacted to uniform density not less than 95 percent. If the impoundment is located above grade, the berms or dikes are compacted to a uniform density not less than 95 percent;
 4. If groundwater is less than 20 feet below land surface, the impoundment is lined with a synthetic liner at least 30 mils thick;
 5. The impoundment is located at least 50 feet from any storm drain inlet, open drainage facility, or watercourse and 100 feet from any water supply well;
 6. The impoundment is designed and operated to maintain adequate freeboard to prevent overflow or discharge of wastewater;
 7. The concrete washout wastewater from any wash pad is routed to the impoundment;
 8. The impoundment receives only concrete washout wastewater;
 9. The annual average daily flow of wastewater to the impoundment is less than 3000 gallons per day; and
 10. The following closure requirements are met.
 - a. The facility is closed by removing and appropriately disposing of any liquids remaining in the impoundment,
 - b. The area is graded to prevent ponding of water, and
 - c. Closure activities are completed before filing of the Notice of Termination under the AZPDES Construction General Permit.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

PART C. TYPE 2 GENERAL PERMITS**R18-9-C301. 2.01 General Permit: Drywells That Drain Areas****Where Hazardous Substances Are Used, Stored, Loaded, or Treated**

- A.** A 2.01 General Permit allows for a drywell that drains an area where hazardous substances are used, stored, loaded, or treated.
- B.** Notice of Intent to Discharge. In addition to the requirements in R18-9-A301(B), an applicant shall submit:
 1. The Department registration number for the drywell or documentation that a drywell registration form was submitted to the Department;
 2. For a drywell constructed more than 90 days before submitting the Notice of Intent to Discharge to the Department, a certification signed, dated, and sealed by an Arizona-registered professional engineer or geologist that a site investigation has concluded that:
 - a. Analytical results from sampling the drywell settling chamber sediment for pollutants reasonably expected to be present do not exceed either the residential soil remediation levels or the groundwater protection levels;
 - b. The settling chamber does not contain sediments that could be used to characterize and compare results to soil remediation levels and the chamber has not been cleaned out within the last six months;
 - c. Neither a soil remediation level nor groundwater protection level is exceeded in soil samples collected from a boring drilled within 5 feet of the drywell and sampled in 5-foot increments starting from 5 feet below ground surface and extending to 10 feet below the base of the drywell injection pipe; or
 - d. If coarse grained lithology prevents the collection of representative soil samples in a soil boring, a groundwater investigation demonstrates compliance with Aquifer Water Quality Standards in groundwater at the applicable point of compliance;
 3. Design information to demonstrate that the requirements in subsection (C) are satisfied; and
 4. A copy of the Best Management Practices Plan described in subsection (D)(5).
- C.** Design requirements. An applicant shall:
 1. Locate the drywell no closer than 100 feet from a water supply well and 20 feet from an underground storage tank;
 2. Clearly mark the drywell "Stormwater Only" on the surface grate or manhole cover;
 3. Locate the bottom of the drywell hole at least 10 feet above groundwater. If during drilling and well installation the drywell borehole encounters saturated conditions, the applicant shall backfill the borehole with cement grout to at least 10 feet above the elevation of saturated conditions before constructing the drywell in the borehole;
 4. Ensure that the drywell design or drainage area design includes a method to remove, intercept, or collect pollutants that may be present at the operation with the potential to reach the drywell. The applicant may include a flow control or pretreatment device, such as an interceptor, sump, or another device or structure designed to remove, intercept, or collect pollutants. The applicant may use flow control or pretreatment devices listed under R18-9-C304(D)(1) or (2) to satisfy the design requirements of this subsection;
 5. Record the accurate latitude and longitude of the drywell using a Global Positioning System device or site survey; and

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

6. Develop and maintain a current site plan showing the location of the drywell, the latitude and longitude coordinates of the drywell, surface drainage patterns, the location of floor drains and French drains plumbed to the drywell, water supply wells, monitor wells, underground storage tanks, and chemical and waste usage, storage, loading, and treatment areas.
- D. Operational and maintenance requirements.**
1. A permittee shall operate the drywell only for the disposal of stormwater. The permittee shall not release industrial process waters or wastes in the drywell or drywell retention basin drainage area.
 2. The permittee shall implement a Best Management Practices Plan for operation of the drywell and control of pollutants in the drywell drainage area.
 3. The permittee shall keep the Best Management Practices Plan on-site or at the closest practical place of work and provide the plan to the Department upon request.
 4. The permittee may substitute any Spill Prevention Containment and Control Plan, facility response plan, or an AZPDES Stormwater Pollution Prevention Plan that meets the requirements of this subsection for a Best Management Practices Plan. If the permittee submits a substitute for the Best Management Practices Plan, the permittee shall identify the conditions within the substitute plan that satisfy the requirements of subsection (D).
 5. The Best Management Practices Plan shall include:
 - a. A site plan showing surface drainage patterns and the location of floor drains, water supply, monitor wells, underground storage tanks, and chemical and waste usage, storage, loading, and treatment areas. The site plan shall show surface grading details designed to prevent drainage and spills of hazardous substances from leaving the drainage area and entering the drywell;
 - b. A design plan showing details of drywell design and drainage design, including flow control or pretreatment devices, such as interceptors, sumps, and other devices and structures designed to remove, intercept, and collect any pollutant that may be present at the operation with the potential to reach the drywell;
 - c. Procedures to prevent and contain spills and minimize discharges to the drywell;
 - d. Operational practices that include routine inspection and maintenance of the drywell and associated pretreatment and flow-control devices, periodic inspection of waste storage facilities, and proper handling of hazardous substances to prevent discharges to the drywell. Routine inspection and maintenance shall include:
 - i. Replacing the adsorbent material in the skimmers, if installed, when the adsorbent capacity is reached;
 - ii. Maintaining valves and associated piping for a drywell injection and treatment system;
 - iii. Maintaining magnetic caps and mats, if installed;
 - iv. Removing sludge from the oil/water separator, if installed, and replacing the filtration or adsorption material to maintain treatment capacity;
 - v. Removing sediment from the catch basin inlet filters and retention basin to maintain required storage capacity;
 - e. Procedures for periodic employee training on practices required by the Best Management Practices Plan specific to the drywell and prevention of unauthorized discharges.
6. The permittee shall implement waste management practices to prohibit and prevent discharges, other than those exempted in A.R.S. § 49-250(B)(23), in the drywell drainage area, including:
- a. Maintaining an up-to-date inventory of generated wastes and waste products;
 - b. Disposing or recycling all wastes or solvents through a company licensed to handle the material;
 - c. Where possible, collecting and storing waste in waste receptacles located outside the drywell drainage area. If the permittee collects and stores the waste within the drywell drainage area, the permittee shall collect and store the waste in properly designed receptacles; and
 - d. Using a licensed waste hauler to transport waste off-site to a permitted waste disposal facility.
- E. Inspection.** A permittee shall:
1. Conduct an annual inspection of the drywell for sediment accumulation in the chambers and the flow-control and treatment systems, and remove sediment annually or when 25 percent of the effective capacity is filled, whichever comes first, to restore capacity and ensure that the drywell functions properly. The permittee shall characterize the sediments that are removed from the drywell after inspection and dispose of the sediments according to local, state, and federal requirements; and
 2. If the stormwater fails to drain through the drywell within 36 hours, inspect the treatment system and piping to ensure that the treatment system is functioning properly, make repairs, and perform maintenance as needed to restore proper function.
- F. Recordkeeping.** A permittee shall maintain for at least 10 years, the following documents on-site or at the closest place of work and make the documents available to the Department upon request:
1. Documentation of drywell maintenance, inspections, employee training, and sampling activities;
 2. A site plan showing the location of the drywell, the latitude and longitude coordinates of the drywell, surface drainage patterns and the location of floor drains or French drains that are plumbed to the drywell or are used to alter drainage patterns, the location of water supply wells, monitor wells, underground storage tanks, and places where hazardous substances are used, stored, or loaded;
 3. A design plan showing details of drywell design and drainage design, including any flow control and pretreatment technologies;
 4. An operations and maintenance manual that includes:
 - a. Procedures to prevent and contain spills and minimize any discharge to the drywell and a list of actions and methods proposed to prevent and contain hazardous substance spills or leaks;
 - b. Methods and procedures for inspection, operation, and maintenance activities;
 - c. Procedures for spill response; and
 - d. A description of the employee training program for drywell inspections, operations, maintenance, and waste management practices;
 5. Drywell sediment waste characteristics and disposal manifest records for sediments removed during routine inspections and maintenance activities; and

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

6. Sampling plans, certified laboratory reports, and chain of custody forms for soil, sediment, and groundwater sampling associated with drywell site investigations.

G. Spills.

1. In the event of a spill, the permittee shall:
 - a. Notify the Department within 24 hours of any spill of hazardous or toxic substance that enters the drywell inlet;
 - b. Contain, clean up, and dispose of, according to local, state, and federal requirements, any spill or leak of a hazardous substance in the drywell drainage area and basin drainage area;
 - c. If a pretreatment system is present, verify that treatment capacity has not been exceeded; and
 - d. If the spill reaches the drywell injection pipe, drill a soil boring within 5 feet of the drywell inlet chamber and sample the soil in 5-foot increments from 5 feet below ground surface to a depth extending at least 10 feet below the base of the injection pipe to determine whether a soil remediation level or groundwater protection level has been exceeded in the subsurface. The permittee shall:
 - i. Submit the results to the Department within 60 days of the date of the spill; and
 - ii. Notify the Department if soil contamination at the facility, not related to the spill, is being addressed by an existing approved remedial action plan.
2. Based on the results of subsection (G)(1)(d), the Director may require the permittee to submit an application for clean closure or an individual Aquifer Protection Permit.

H. Closure and decommissioning requirements.

1. A permittee shall:
 - a. Retain a drywell drilling contractor, licensed under 4 A.A.C. 9, to close the drywell;
 - b. Remove sediments and any drainage component, such as standpipes and screens from the drywell's settling chamber and backfill the injection pipe with cement grout;
 - c. Remove the settling chamber;
 - d. Backfill the settling chamber excavation to the land surface with clean silt, clay, or engineered material. Materials containing hazardous substances are prohibited from use in backfilling the drywell; and
 - e. Mechanically compact the backfill.
2. Within 30 days of closure and decommissioning, the permittee shall submit a written verification to the Department that all material that contributed to a discharge has been removed and any reasonable probability of further discharge from the facility and of exceeding any Aquifer Water Quality Standard at the applicable point of compliance has been eliminated to the greatest degree practical. The written verification shall specify:
 - a. The reason for the closure;
 - b. The drywell registration number;
 - c. The general permit reference number;
 - d. The materials and methods used to close the drywell;
 - e. The name of the contractor who performed the closure;
 - f. The completion date;
 - g. Any sampling data;
 - h. Sump construction details, if a sump was constructed to replace the abandoned drywell; and
 - i. Any other information necessary to verify that closure has been achieved.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-C302. 2.02 General Permit: Intermediate Stockpiles at Mining Sites

- A.** A 2.02 General Permit allows for intermediate stockpiles not qualifying as inert material under A.R.S. § 49-201(19) at a mining site.
- B.** Notice of Intent to Discharge. In addition to the Notice of Intent to Discharge under R18-9-A301(B), an applicant shall submit the construction and operation specifications used to satisfy the requirements in subsection (C)(1).
- C.** Design and operational requirements.
 1. An applicant shall design, construct, and operate the stockpile so that it does not impound water. An applicant may rely on stormwater run-on controls or facility design features, such as drains, or both.
 2. An applicant shall direct storm runoff contacting the stockpile to a mine pit or a facility covered by an individual or general permit.
 3. A permittee shall maintain any engineered feature of the facility in good working condition.
 4. A permittee shall visually inspect the facility at least quarterly and repair any defect as soon as practical.
 5. A permittee shall not add hazardous substances to the stockpiled material.
- D.** Closure requirements. In addition to the closure requirements in R18-9-A306, the following apply:
 1. If an intermediate stockpile covered under a 2.02 General Permit is permanently closed, a permittee shall remove any remaining material, to the greatest extent practical, and regrade the area to prevent impoundment of water.
 2. The permittee shall submit a narrative description of closure measures to the Department within 30 days after closure.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-C303. 2.03 General Permit: Hydrologic Tracer Studies

- A.** A 2.03 General Permit allows for a discharge caused by the performance of tracer studies.
 1. The 2.03 General Permit does not authorize the use of any hazardous substance, radioactive material, or any substance identified in A.R.S. § 49-243(I) in a tracer study.
 2. A permittee shall complete a single tracer test within two years of the Notice of Intent to Discharge.
- B.** Notice of Intent to Discharge. In addition to the Notice of Intent to Discharge requirements specified in R18-9-A301(B), an applicant shall submit:
 1. A narrative description of the tracer test including the type and amount of tracer used;
 2. A Material Safety Data Sheet for the tracer; and
 3. Unless the injection or distribution is within the capture zone of an established passive containment system meeting the requirements of A.R.S. § 49-243(G), the following information:
 - a. A narrative description of the impacts that may occur if a solution migrates outside the test area, including a list of downgradient users, if any;

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

- b. The anticipated effects and expected concentrations, if possible to calculate; and
 - c. A description of the monitoring, including types of tests and frequency.
 - C. Design and operational requirements. A permittee shall:
 - 1. Ensure that injection into a well inside the capture zone of an established passive containment system that meets the requirements of A.R.S. § 49-243(G) does not exceed the total depth of the influence of the hydrologic sink;
 - 2. Ensure that injection into a well outside the capture zone of an established passive containment system that meets the requirements of A.R.S. § 49-243(G) does not exceed rock fracture pressures during injection of the tracer;
 - 3. Not add a substance to a well that is not compatible with the well's construction;
 - 4. Ensure that a tracer is compatible with the construction materials at the impoundment if a tracer is placed or collected in an existing impoundment;
 - 5. For at least two years, monitor quarterly a well that is hydraulically downgradient of the test site for the tracer if a tracer is used outside the capture zone of an established passive containment system that meets the requirements of A.R.S. § 49-243(G) and less than 85 percent of the tracer is recovered. The permittee may adjust this period with the consent of the Department if the permittee shows that the hydraulic gradient causes the tracer to reach the monitoring point in a shorter or longer period of time;
 - 6. Ensure that a tracer does not leave the site in concentrations distinguishable from background water quality; and
 - 7. Monitor the amount of tracer used and recovered and submit a report summarizing the test and results to the Department within 30 calendar days of test completion.
 - D. Recordkeeping. A permittee shall retain the following information at the site where the facility is located for at least three years after test completion and make it available to the Department upon request.
 - 1. Test protocols,
 - 2. Material Safety Data Sheet information,
 - 3. Recovery records, and
 - 4. A copy of the report submitted to the Department under subsection (C)(7).
 - E. Closure requirements.
 - 1. If a tracer was used outside the capture zone of an established passive containment system that meets the requirements of A.R.S. § 49-243(G), a permittee shall account for any tracer not recovered through attenuation, modeling, or monitoring.
 - 2. The permittee shall achieve closure immediately following the test, or if the test area is within a pollutant management area defined in an individual permit, at the conclusion of operations.
- Historical Note**
- New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).
- R18-9-C304. 2.04 General Permit: Drywells that Drain Areas at Motor Fuel Dispensing Facilities Where Motor Fuels are Used, Stored, or Loaded**
- A. A 2.04 General Permit allows for a drywell that drains an area at a facility for dispensing motor fuel, as defined in A.A.C. R20-2-701(19), including a commercial gasoline station with an underground storage tank.
 - 1. A drywell at a motor fuel dispensing facility using hazardous substances is eligible for coverage under the 2.04 General Permit.
 - 2. A drywell at a vehicle maintenance facility owned or operated by a commercial enterprise or by a federal, state, county, or local government is not eligible for coverage under this general permit, unless the facility design ensures that only motor fuel dispensing areas will drain to the drywell. Areas where hazardous substances other than motor fuels are used, stored, or loaded, including service bays, are not covered under the 2.04 General Permit.
 - 3. Definition. For purposes of this Section, "hazardous substances" means substances that are components of commercially packaged automotive supplies, such as motor oil, antifreeze, and routine cleaning supplies such as those used for cleaning windshields, but not degreasers, engine cleaners, or similar products.
 - B. Notice of Intent to Discharge. In addition to the requirements in R18-9-A301(B), an applicant shall submit:
 - 1. The Department registration number for the drywell or documentation that a drywell registration form was submitted to the Department;
 - 2. For a drywell constructed more than 90 days before submitting the Notice of Intent to Discharge to the Department, a certification signed, dated, and sealed by an Arizona-registered professional engineer or geologist that a site investigation concluded that:
 - a. Analytical results from sampling sediment from the drywell settling chamber sediment for pollutants reasonably expected to be present do not exceed either the residential soil remediation levels or the groundwater protection levels;
 - b. The settling chamber does not contain sediment that could be used to characterize and compare results to soil remediation levels and the chamber has not been cleaned out within the last six months;
 - c. Neither a soil remediation level nor groundwater protection level is exceeded in soil samples collected from a boring drilled within 5 feet of the drywell and sampled in 5 foot increments starting at a depth of 5 feet below ground surface and extending to a depth of 10 feet below the base of the drywell injection pipe; or
 - d. If coarse grained lithology prevents the collection of soil samples in a soil boring, a groundwater investigation demonstrates compliance with Aquifer Water Quality Standards in groundwater at the applicable point of compliance.
 - 3. Design information to demonstrate that the requirements in subsection (C) are satisfied.
 - C. Design requirements.
 - 1. An applicant shall:
 - a. Include a flow control or pretreatment device identified in subsections (D)(1) or (2), or both, that removes, intercepts, or collects spilled motor fuel or hazardous substances before stormwater enters the drywell injection pipe;
 - b. Calculate the volume of runoff generated in the design storm event and anticipate the maximum potential contaminant release quantity to design the treatment and holding capacity of the drywell;
 - c. Follow local codes and regulations to meet retention periods for removing standing water;
 - d. Locate the drywell at least 100 feet from a water supply well and 20 feet from an underground storage tank;

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

- e. Locate the bottom of the drywell injection pipe at least 10 feet above groundwater. If during drilling and well installation the drywell borehole encounters saturated conditions, the applicant shall backfill the borehole with cement grout to a level at least 10 feet above the elevation at which saturated conditions were encountered in the borehole before constructing the drywell in the borehole;
 - f. Record the accurate latitude and longitude of the drywell using a Global Positioning System device or site survey and record the location on the site plans;
 - g. Clearly mark the drywell "Stormwater Only" on the surface grate or manhole cover;
 - h. Develop and maintain a current site plan showing the location of the drywell, the latitude and longitude coordinates of the drywell, surface drainage patterns and the location of floor drains and French drains that are plumbed to the drywell or are used to alter drainage patterns, water supply wells, monitor wells, underground storage tanks, and chemical and waste usage, storage, loading, and treatment areas; and
 - i. Prepare design plans showing details of drywell design and drainage design, including one or a combination of pre-approved technologies described in subsections (D)(1) and (2) designed to remove, intercept, and collect any pollutant that may be present at the operation with the potential to reach the drywell.
2. For an existing drywell, an applicant that cannot meet the design requirements in subsections (C)(1)(d) and (e) shall provide the Department with the date of drywell construction, the depth of the drywell borehole and injection pipe, the distance from the drywell to the nearest water supply well and from the drywell to the underground storage tank, and the depth to the groundwater from the bottom of the drywell injection pipe.
- D. Flow control and pretreatment.** A permittee shall ensure that motor fuels and other hazardous substances are not discharged to the subsurface. A permittee may use any of the following flow control or pretreatment technologies:
- 1. Flow control. The permittee shall ensure that motor fuel and hazardous substance spills are removed before allowing stormwater to enter the drywell.
 - a. Normally closed manual or automatic valve. The permittee shall leave a normally closed valve in a closed position except when stormwater is allowed to enter the drywell;
 - b. Raised drywell inlet. The permittee shall:
 - i. Raise the drywell inlet at least six inches above the bottom of the retention basin or other storage structure, or install a six-inch asphalt or concrete raised barrier encircling the drywell inlet to provide a non-draining storage capacity within the retention basin or storage structure for complete containment of a spill; and
 - ii. Ensure that the storage capacity is at least 110 percent of the volume of the design storm event required by the local jurisdiction and the estimated volume of a potential motor fuel spill based on the facility's past incident reports or incident reports for other facilities that are similar in design;
 - c. Magnetic mat or cap. The permittee shall ensure that the drywell inlet is sealed with a mat or cap at all times, except after rainfall or a storm event when the mat or cap is temporarily removed to allow stormwater to enter the drywell; and that the mat or cap is always used with a retention basin or other type of storage;
 - d. Primary sump, interceptor, or settling chamber. The permittee may use a primary sump, interceptor, or settling chamber only in combination with another flow control or pre-treatment technology.
 - i. The permittee shall remove motor fuel or hazardous substances from the sump, interceptor, or chamber before allowing stormwater to enter the drywell.
 - ii. The permittee shall install a settling chamber or sump and allow the suspended solids to settle before stormwater flows into a drywell; install the drywell injection pipe in a separate chamber and connect the sump, interceptor, or chamber to the drywell inlet by piping and valving to allow the stormwater to enter the drywell.
 - iii. The permittee may install fuel hydrocarbon detection sensors in the sump, interceptor, or settling chamber that use flow control to prevent fuel from discharging into the drywell;
2. Pretreatment. The permittee shall prevent the bypass of motor fuels and hazardous substances from the pretreatment system to the drywell during periods of high flow.
- a. Catch basin inlet filter. The permittee shall:
 - i. Install a catch basin inlet filter to fit inside a catchment drain to prevent motor fuels and hazardous substances from entering the drywell,
 - ii. Ensure that a motor fuel spill or a spill during a high rainfall does not bypass the system and directly release to the drywell injection pipe, and
 - iii. Combine the catch basin inlet filter with a flow control technology to prevent contaminated stormwater from entering the drywell injection pipe;
 - b. Combined settling chamber and an oil/water separator.
 - i. The permittee shall install a system that incorporates a catch basin inlet, a settling chamber, and an oil/water separator.
 - ii. The permittee may incorporate a self-sealing mechanism, such as fuel hydrocarbon detection sensors that activate a valve to cut off flow to the drywell inlet.
 - c. Combined settling chamber and oil/water separator, and filter/adsorption. The permittee shall:
 - i. Allow for adequate collection and treatment capacity for solid and liquid separation; and
 - ii. Allow a minimum treated outflow from the system to the drywell inlet of 20 gallons per minute. If a higher outflow rate is anticipated, the applicant shall design a larger collection system with storage capacity.
 - d. Passive skimmer.
 - i. If a passive skimmer is used, the permittee shall install sufficient hydrocarbon adsorbent materials, such as pads and socks, or suspend the materials on top of the static water level in a sump or other catchment to absorb the entire volume of expected or potential spill.
 - ii. The permittee may use a passive skimmer only in combination with another flow control or pre-treatment technology.

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

- E. Operation and maintenance.** A permittee shall:
1. Operate the drywell only for the subsurface disposal of stormwater;
 2. Remove or treat any motor fuel or hazardous substance spills;
 3. Replace the adsorbent material in skimmers, if installed; when the adsorbent capacity is reached;
 4. Maintain valves and associated piping;
 5. Maintain magnetic caps and mats, if installed;
 6. Remove sludge from the oil/water separator and replace the filtration or adsorption materials to maintain treatment capacity;
 7. Remove sediment from the catch basin inlet filters and retention basins to maintain required storage capacity;
 8. Remove accumulated sediment from the settling chamber annually or when 25 percent of the effective settling capacity is filled, whichever occurs first; and
 9. Provide new employee training within one month of hire and annual employee training on how to maintain and operate flow control and pretreatment technology used in the drywell.
- F. Inspection.** A permittee shall:
1. Conduct an annual inspection of the drywell for sediment accumulation in the chambers and in the flow control and treatment systems to ensure that the drywell is functioning properly; and
 2. If the stormwater fails to drain through the drywell within 36 hours, inspect the treatment system and piping to ensure that it is functioning properly, make repairs, and perform maintenance as needed to restore proper function.
- G. Recordkeeping.** A permittee shall maintain, for at least 10 years, the following documents on-site or at the closest place of work and make the documents available to the Department upon request:
1. Documentation of drywell maintenance, inspections, employee training, and sampling activities;
 2. A site plan showing the location of the drywell, the latitude and longitude coordinates of the drywell, surface drainage patterns and the location of floor drains or French drains that are plumbed to the drywell or are used to alter drainage patterns, water supply wells, monitor wells, underground storage tanks, and places where motor fuel and hazardous substances are used, stored, or loaded;
 3. A design plan showing details of drywell design and drainage design, including one or a combination of the pre-approved flow control and pretreatment technologies;
 4. An operations and maintenance manual that includes:
 - a. Procedures to prevent and contain spills and minimize any discharge to the drywell and a list of actions and specific methods proposed for motor fuel and hazardous substance spills or leaks;
 - b. Methods and procedures for inspection, operation, and maintenance activities;
 - c. Procedures for spill response; and
 - d. A description of the employee training program for drywell inspections, operations, and maintenance;
 5. Drywell sediment waste characterization and disposal manifest records for sediments removed during routine inspections and maintenance activities; and
 6. Sampling plans, certified laboratory reports, and chain of custody forms for soil, sediment, and groundwater sampling associated with drywell site investigations.
- H. Spills.**
1. In the event of a spill, a permittee shall:
 - a. Notify the Department within 24 hours of any spill of motor fuel or hazardous or toxic substances that enters into the drywell inlet;
 - b. Contain, clean up, and dispose of, according to local, state, and federal requirements, any spill or leak of motor fuel or hazardous substance in the drywell drainage area and basin drainage area;
 - c. If a pretreatment system is present, verify that treatment capacity has not been exceeded; and
 - d. If the spill reaches the injection pipe, drill a soil boring within 5 feet of the drywell inlet chamber and sample in 5-foot increments from 5 feet below ground surface to a depth extending at least 10 feet below the base of the injection pipe to determine whether a soil remediation level or groundwater protection level has been exceeded in the subsurface. The permittee shall:
 - i. Submit the results to the Department within 60 days of the date of the spill; and
 - ii. Notify the Department if soil contamination at the facility, not related to the spill, is being addressed by an existing approved remedial action plan.
 2. The Director may, based on the results of subsection (H)(1)(d), require the permittee to submit an application for clean closure or an individual Aquifer Protection Permit.
- I. Closure and decommissioning requirements.**
1. A permittee shall:
 - a. Retain a drywell drilling contractor, licensed under 4 A.A.C. 9, to close the drywell;
 - b. Remove sediments and any drainage component, such as standpipes and screens from the drywell's settling chamber and backfill the injection pipe with cement grout;
 - c. Remove the settling chamber;
 - d. Backfill the settling chamber excavation to the land surface with clean silt, clay, or engineered material. A permittee shall not use materials containing hazardous substances in backfilling the drywell; and
 - e. Mechanically compact the backfill.
 2. Within 30 days of closure and decommissioning, the permittee shall submit a written verification to the Department that all material that contributed to a discharge has been removed and any reasonable probability of further discharge from the facility and of exceeding any Aquifer Water Quality Standard at the applicable point of compliance has been eliminated to the greatest degree practical. The written verification shall specify:
 - a. The reason for the closure;
 - b. The drywell registration number;
 - c. The general permit reference number;
 - d. The materials and methods used to close the drywell;
 - e. The name of the contractor who performed the closure;
 - f. The completion date;
 - g. Any sampling data;
 - h. Sump construction details, if a sump was constructed to replace the abandoned drywell; and
 - i. Any other information necessary to verify that closure has been achieved.

Historical Note

New Section made by final rulemaking at 8 A.A.R. 4096, effective September 15, 2002 (Supp. 02-3). Amended by final rulemaking at 11 A.A.R. 4544, effective November

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

12, 2005 (05-3).

R18-9-C305. 2.05 General Permit: Capacity, Management, Operation, and Maintenance of a Sewage Collection System

- A.** Definition. For purposes of this Section, "imminent and substantial threat to public health or the environment" means when:
1. The volume of a release is more than 2000 gallons; or
 2. The volume of a release is more than 50 gallons but less than 2000 gallons and any one of the following apply:
 - a. The release entered onto a recognized public area and members of the public were present during the release or before the release was mitigated;
 - b. The release occurred on a public or private street and pedestrians were at risk of being splashed by vehicles during the release or before the release was mitigated;
 - c. The release entered a perennial stream, an intermittent stream during a time of flow, a waterbody other than an ephemeral stream, a normally dry detention or sedimentation basin, or a drywell;
 - d. The release occurred within an occupied building due to a condition in the permitted sewage collection system; or
 - e. The release occurred within 100 feet of a school or a public or private drinking water supply well.
- B.** A 2.05 General Permit allows a permittee to manage, operate, and maintain a sewage collection system under the terms of a CMOM Plan that complies with subsection (D). The Department considers a sewage collection system operating in compliance with an AZPDES permit that incorporates provisions for capacity, management, operation, and maintenance of the system to comply with the provisions of the 2.05 General Permit regardless of whether a Notice of Intent to Discharge for the system was submitted to the Department.
- C.** Notice of Intent to Discharge. In addition to the Notice of Intent to Discharge requirements specified in R18-9-A301(B), an applicant shall submit:
1. The name and ownership of any downstream sewage collection system and sewage treatment facility that receives sewage from the applicant's sewage collection system;
 2. A map of the service area for which general permit coverage is sought, showing streets and sewage service boundaries for the sewage collection system;
 3. A statement indicating that the CMOM Plan is in effect and the principal officer or ranking elected official of the sewage collection system has approved the plan; and
 4. A statement indicating whether a local ordinance requires an on-site wastewater treatment facility to hookup to the sewage collection system.
- D.** CMOM Plan.
1. A permittee shall continuously implement a CMOM Plan for the sewage collection system under the permittee's ownership, management, or operational control. The CMOM Plan shall include information to comply with subsection (E)(1) and instructions on:
 - a. How to properly manage, operate, and maintain all parts of the sewage collection system that are owned or managed by the permittee or under the permittee's operational control, to meet the performance requirements in R18-9-E301(B);
 - b. How to maintain sufficient capacity to convey the base flows and peak wet weather flow of a 10-year, 24-hour storm event for all parts of the collection system owned or managed by the permittee or under the permittee's operational control;
 - c. All reasonable and prudent steps to minimize infiltration to the sewage collection system;
 - d. All reasonable and prudent steps to stop all releases from the collection system owned or managed by the permittee or under the permittee's operational control; and
 - e. The procedure for reporting releases described in subsection (F).
 2. The permittee shall maintain and update the CMOM Plan for the duration of this general permit and make it available for Department and public review.
 3. If the Department requests the CMOM Plan and upon review finds that the CMOM Plan is deficient, the Department shall:
 - a. Notify the permittee in writing of the specific deficiency and the reason for the deficiency, and
 - b. Establish a deadline of at least 60 days to allow the permittee to correct the deficiency and submit the amended provision to the Department for approval.
- E.** Sewage release response determination. If the sewage collection system releases sewage, the Director shall consider any of the following factors in determining compliance:
1. Sufficiency of the CMOM Plan.
 - a. The level of detail provided by the CMOM Plan is appropriate for the size, complexity, and age of the system;
 - b. The level of detail provided by the CMOM Plan is appropriate considering geographic, climatic, and hydrological factors that may influence the sewage collection system;
 - c. The CMOM Plan provides schedules for the periodic preventative maintenance of the sewage collection system, including cleaning of all reaches of the sewage collection system below a specified pipe diameter.
 - i. The CMOM Plan may allow inspection of sewer lines by Closed Circuit Television (CCTV) and postponement of cleaning to the next scheduled cleaning cycle if the CCTV inspection indicated that cleaning of a reach of the sewer is not needed.
 - ii. The CMOM Plan may specify inspection and cleaning schedules that differ according to pipe diameter or other characteristics of the sewer;
 - d. The CMOM Plan identifies components of the sewage collection system that have insufficient capacity to convey, when properly maintained, the peak wet weather flow of a 10-year, 24-hour storm event. For those identified components, a capital improvement plan exists for achieving sufficient wet weather flow capacity within ten years of the effective date of permit coverage;
 - e. The CMOM Plan includes an overflow emergency response plan appropriate to the size, complexity, and age of the sewage collection system considering geographic, climatic, and hydrological factors that may influence the system;
 - f. The CMOM Plan establishes a procedure to investigate and enforce against any commercial or industrial entity whose flows to the sewage collection system have caused or contributed to a release;
 - g. The CMOM Plan adequately addresses management of flows from upstream sewage collection systems not under the ownership, management, or operational control of the permittee; or

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

- h. Any other factor necessary to determine if the CMOM Plan is sufficient;
 - 2. Compliance with the CMOM Plan.
 - a. The permittee's response to releases as established in the overflow emergency response plan, including whether:
 - i. Maintenance staff responds to and arrive at the release within the time period specified in the plan;
 - ii. Maintenance staff follow all written procedures to remove the cause of the release;
 - iii. Maintenance staff contain, recover, clean up, disinfect, and otherwise mitigate the release of sewage; and
 - iv. Required notifications to the Department, public health agencies, drinking water suppliers, and the public are provided;
 - b. The permittee's activities and timeliness in:
 - i. Implementing specified periodic preventative maintenance measures;
 - ii. Implementing the capital improvement plan; and
 - iii. Investigating and enforcing against an upstream sewage collection system, not under the ownership and operational control of the permittee, if those systems are impediments to the proper management of flows in the permittee's sewage collection system; or
 - c. Any other factor necessary to determine CMOM Plan compliance;
 - 3. Compliance with the reporting requirements in subsection (F) and the public notice requirements in subsection (G); or
 - 4. The release substantially endangers public health or the environment.
- F. Reporting requirements.**
- 1. Sewage releases.
 - a. A permittee shall report to the Department, by telephone, facsimile, or on the applicable notification form on the Department's Internet web site, any release that is an imminent and substantial threat to public health or the environment as soon as practical, but no later than 24 hours of becoming aware of the release.
 - b. A permittee shall submit a report to the Department within five business days after becoming aware of a release that is an imminent and substantial threat to public health or the environment. The report shall include:
 - i. The location of the release;
 - ii. The sewage collection system component from which the release occurred;
 - iii. The date and time the release began, was stopped, and when mitigation efforts were completed;
 - iv. The estimated number of persons exposed to the release, the estimated volume of sewage released, the reason the release is considered an imminent and substantial threat to public health or the environment if the volume is 2000 gallons or less, and where the release flowed;
 - v. The efforts made by the permittee to stop, contain, and clean up the released material;
 - vi. The amount and type of disinfectant applied to mitigate any associated public health or environmental risk; and
 - vii. The cause of the release or effort made to determine the cause and any effort made to help prevent a future reoccurrence.
 - 2. Annual report. The permittee shall:
 - a. Submit an annual report to the Department postmarked no later than March 1. The report shall:
 - i. Tabulate all releases of more than 50 gallons from the permitted sewage collection system;
 - ii. Provide the date of any release that is an imminent and substantial threat to public health or the environment; and
 - iii. For other reportable releases under subsection (F)(2)(a)(i), provide the information in subsection (F)(1)(b);
 - b. Provide an amended map of the service area boundaries if, during the calendar year, any area was removed from the service area or if any area was added to the service area that the permittee wishes to include under the 2.05 General Permit and associated CMOM Plan.
- G. Public notice.** The permittee shall:
- 1. Post a notice, in a format approved by the Department, at any location where there were more than three reportable releases under subsection (F)(2)(a) from the sewage collection system during any 12-month period,
 - 2. Include within the notice a warning that identified the releases or potential releases at the location and potential health hazards from any release,
 - 3. Post the notice at a place where the public is likely to come in contact with the release, and
 - 4. Maintain the postings until no releases from the location are reported for at least 12 months from the last release and the permittee followed all actions specified in the CMOM Plan to prevent releases at that location during the period.
- Historical Note**
New Section made by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).
- R18-9-C306. 2.06 General Permit: Fish Hatchery Discharge to a Perennial Surface Water**
- A.** A 2.06 General Permit allows a fish hatchery to discharge to a perennial surface water if Aquifer Water Quality Standards are met at the point of discharge and the fish hatchery is operating under a valid AZPDES permit.
- B.** Notice of Intent to Discharge. In addition to the Notice of Intent to Discharge requirements specified in R18-9-A301(B), an applicant shall provide:
- 1. The applicable AZPDES permit number;
 - 2. A description of the facility; and
 - 3. A laboratory report characterizing the wastewater discharge, including the analytical results for all numeric Aquifer Water Quality Standards under R18-11-406.
- C.** Design and operational requirements. An applicant shall:
- 1. Collect a representative sample of the discharge to demonstrate compliance with all numeric Aquifer Water Quality Standards and make the results available to the Department upon request, and
 - 2. Maintain a record of the average and daily flow rates and make it available to the Department upon request.
- Historical Note**
New Section made by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).
- PART D. TYPE 3 GENERAL PERMITS**
- R18-9-D301. 3.01 General Permit: Lined Impoundments**

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

- A.** A 3.01 General Permit allows a lined surface impoundment and a lined secondary containment structure. A permittee shall:
1. Ensure that inflow to the lined surface impoundment or lined secondary containment structure does not contain organic pollutants identified in A.R.S. § 49-243(I);
 2. Ensure that inflow to the lined surface impoundment or lined secondary containment structure is from one or more of the following sources:
 - a. Evaporative cooler overflow, condensate from a refrigeration unit, or swimming pool filter backwash;
 - b. Wastewater that does not contain sewage, temporarily stored for short periods of time due to process upsets or rainfall events, provided the wastewater is promptly removed from the facility as required under subsection (D)(5). Facilities that continually contain wastewater as a normal function of facility operations are not covered under this general permit;
 - c. Stormwater runoff that is not permitted under A.R.S. § 49-245.01 because the facility does not receive solely stormwater or because the runoff is regulated but not considered stormwater under the Clean Water Act;
 - d. Emergency fire event water;
 - e. Wastewater from air pollution control devices at asphalt plants if the wastewater is routed through a sedimentation trap or sump and an oil/water separator before discharge;
 - f. Non-contact cooling tower blowdown and non-contact cooling water, except discharges from electric generating stations with more than 100 megawatts generating capacity;
 - g. Boiler blowdown;
 - h. Wastewater derived from a potable water treatment system, including clarification sludge, filtration backwash, lime and lime-softening sludge, ion exchange backwash, and reverse osmosis spent waste;
 - i. Wastewater from food washing;
 - j. Heat exchanger return water;
 - k. Wastewater from industrial laundries;
 - l. Hydrostatic test water from a pipeline, tank, or appurtenance previously used for transmission of fluid;
 - m. Wastewater treated through an oil/water separator before discharge; and
 - n. Cooling water or wastewater from food processing.
- B.** Notice of Intent to Discharge. In addition to the Notice of Intent to Discharge requirements specified in R18-9-A301(B), an applicant shall submit:
1. A listing and description of all sources of inflow;
 2. A representative chemical analysis of each expected source of inflow. If a sample is not available before facility construction, a permittee shall provide the chemical analysis of each inflow to the Department within 60 days of each inflow to the facility;
 3. A narrative description of how the conditions of this general permit are satisfied. The narrative shall include a Quality Assurance/Quality Control program for liner installation, impoundment maintenance and repair, and impoundment operational procedures; and
 4. A contingency plan that specifies actions proposed in case of an accidental release from the facility, overtopping of the impoundment, breach of the berm, or unauthorized inflows into the impoundment or containment structure.
- C.** Design and installation requirements. An applicant shall:
1. Design and construct surface water controls to:
 - a. Ensure that the impoundment or secondary containment structure maintains, using design volume or mechanical systems, normal operating volumes, if any, and any inflow from the 100-year, 24-hour storm event. The facility shall maintain at least 2 feet of freeboard or an alternative level of freeboard that the applicant demonstrates is reasonable, considering the size of the impoundment and meteorologic and other site-specific factors; and
 - b. Direct any surface water run-on from the 100-year 24-hour storm event around the facility if not intended for capture by facility;
 2. Ensure that the facility design accommodates any significant geologic hazard, addressing static and seismic stability. The applicant shall document any design adjustments made for this reason in the Notice of Intent to Discharge;
 3. Ensure that site preparation includes, as appropriate, clearing the area of vegetation, grubbing, grading, and embankment and subgrade preparation. The applicant shall ensure that supporting surface slopes and foundation are stable and structurally sound; and
 4. Comply with the following impoundment lining requirements:
 - a. If a synthetic liner is used, ensure that the liner is at least a 30-mil geomembrane liner or a 60-mil liner if High Density Polyethylene, or an alternative, that the liner's calculated seepage rate is less than 550 gallons per acre per day, and:
 - i. Anchor the liner by securing it in an engineered anchor trench;
 - ii. Ensure that the liner is ultraviolet resistant if it is regularly exposed to sunlight; and
 - iii. Ensure that the liner is constructed of a material that is chemically compatible with the wastewater or impounded solution and is not affected by corrosion or degradation;
 - b. If a soil liner is used:
 - i. Ensure that it resists swelling, shrinkage, and cracking and that the liner's calculated seepage rate is less than 550 gallons per acre per day;
 - ii. Ensure that the soil is at least 1-foot thick and compacted to a uniform density of 95 percent to meet the "Standard Test Method for Laboratory Compaction Characteristics of Soil Using Standard Effect (12,400 ft-lbf/ft³), D698-00a¹," (2000) published by the American Society for Testing and Materials. This material is incorporated by reference and does not include any later amendments or editions of the incorporated material. Copies of the incorporated material are available for inspection at the Arizona Department of Environmental Quality, 1110 W. Washington, Phoenix, AZ 85007 or may be obtained from the American Society for Testing and Materials International, 100 Barr Harbor Drive, West Conshohocken, PA 19428-2959; and
 - iii. Upon installation, protect the soil liner to prevent desiccation; and
 - c. For new facilities, develop and implement a construction Quality Assurance/Quality Control program that addresses site and subgrade preparation,

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

inspection procedures, field testing, laboratory testing, and final inspection after construction of the liner to ensure functional integrity.

D. Operational requirements. A permittee shall:

1. Maintain sufficient freeboard to manage the 100-year, 24-hour storm event including at least 2 feet of freeboard under normal operating conditions. Management of the 100-year, 24-hour storm event may be through design, pumping, or a combination of both;
2. Remove accumulated residues, sediments, debris, and vegetation to maintain the integrity of the liner and the design capacity of the impoundment;
3. Perform and document a visual inspection for damage to the liner and for accumulation of residual material at least monthly. The operator shall conduct an inspection within 72 hours after the facility receives a significant volume of stormwater inflow;
4. Repair damage to the liner by following the Quality Assurance/Quality Control Plan required under subsection (B)(3); and
5. Remove all inflow from the impoundment as soon as practical, but no later than 60 days after a temporary event, for facilities designed to contain inflow only for temporary events, such as process upsets.

E. Recordkeeping. A permittee shall maintain at the site, the following information for at least 10 years and make it available to the Department upon request:

1. Construction drawings and as-built plans, if available;
2. A log book or similar documentation to record inspection results, repair and maintenance activities, monitoring results, and facility closure;
3. Capacity design criteria;
4. A list of standard operating procedures;
5. The construction Quality Assurance/Quality Control program documentation; and
6. Records of any inflow into the impoundment other than those permitted by this Section.

F. Reporting requirements.

1. If the liner leaks, as evidenced by a drop in water level not attributable to evaporation, or if the berm breaches or an impoundment is overtopped due to a catastrophic or other significant event, the permittee shall report the circumstance to the Department within five days of discovery and implement the contingency plan required in subsection (B)(4). The permittee shall submit a final report to the Department within 60 days of the event summarizing the circumstances of the problem and corrective actions taken.
2. The permittee shall report unauthorized flows into the impoundment to the Department within five days of discovery and implement the contingency plan required in subsection (B)(4).

G. Closure requirements. The permittee shall notify the Department of the intent to close the facility permanently. Within 90 days following closure notification the permittee shall comply with the following requirements, as applicable:

1. Remove liquids and any solid residue on the liner and dispose appropriately;
2. Inspect the liner for evidence of holes, tears, or defective seams that could have leaked;
3. If evidence of leakage is discovered, remove the liner in the area of suspected leakage and sample potentially impacted soil. If soil remediation levels are exceeded, the permittee shall define the lateral and vertical extent of contamination and, within 60 days of the exceedance, notify the Department and submit an action plan for

achieving clean closure for the Department's approval before implementing the plan;

4. If there is no evidence of holes, tears, or defective seams that could have leaked:
 - a. Cover the liner in place or remove it for disposal or reuse if the impoundment is an excavated impoundment,
 - b. Remove and dispose of the liner elsewhere if the impoundment is bermed, and
 - c. Grade the facility to prevent the impoundment of water; and
5. Notify the Department within 60 days following closure that the action plan was implemented and the closure is complete.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-D302. 3.02 General Permit: Process Water Discharges from Water Treatment Facilities

A. A 3.02 General Permit allows filtration backwash and discharges obtained from sedimentation and coagulation in the water treatment process from facilities that treat water for industrial process or potable uses. The permittee shall ensure that:

1. Liquid fraction. The discharge meets:
 - a. All numeric Aquifer Water Quality Standards for inorganic chemicals, organic chemicals, and pesticides established in R18-11-406(B) through (D);
 - b. The discharge meets one of the following criteria for microbiological contaminants:
 - i. Either the concentration of fecal coliform organisms is not more than 2/100 ml or the concentration of *E. coli* bacteria is not more than 1/100 ml, or
 - ii. Either the concentration of fecal coliform organisms is less than 200/100 ml or the concentration of *E. coli* bacteria is less than 126/100 ml if the average daily flow processed by the water treatment facility is less than 250,000 gallons; and
2. Solid Fraction. The solid material in the discharge qualifies as inert material, as defined in A.R.S. § 49-201(19).

B. Notice of Intent to Discharge. In addition to the Notice of Intent to Discharge requirements specified in R18-9-A301(B), an applicant shall submit:

1. A characterization of the discharge, including a representative chemical and biological analysis of expected discharges and all source waters; and
2. The design capacity of any impoundment covered by this general permit.

C. Impoundment design and siting requirements. An applicant shall:

1. Ensure that the depth to the static groundwater table is greater than 20 feet;
2. Not locate the area of discharge immediately above karstic or fractured bedrock, unless the discharge meets the microbial limits specified in subsection (A)(1)(b)(i);
3. Maintain a minimum horizontal setback of 100 feet between the facility and any water supply well;
4. Design and construct an impoundment to maintain, using design volume or mechanical systems, normal operating volumes and any inflow from the 100-year, 24-hour storm event. The applicant shall:

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

- a. Divert any surface water run-on from the 100-year, 24-hour storm event around the facility if not intended for capture by facility design; and
 - b. Design the facility to maintain 2 feet of freeboard or an alternative level of freeboard that the applicant demonstrates is reasonable, considering meteorological factors, the size of the impoundment, and other site-specific factors; or
 - c. Discharge to surface water under the conditions of an AZPDES permit; and
 - 5. Manage off-site disposal of sludge according to A.R.S. Title 49, Chapter 4.
 - D. Operational requirements.**
 - 1. Inorganic chemical, organic chemical, and pesticide monitoring.
 - a. The permittee shall monitor any discharge annually to determine compliance with the requirements of subsection (A).
 - b. If the concentration of any pollutant exceeds the numeric Aquifer Water Quality Standard, the permittee shall submit a report to the Department with a proposal for mitigation and shall increase monitoring frequency for that pollutant to quarterly.
 - c. If, in the quarterly sampling, the condition in subsection (D)(1)(b) continues for two consecutive quarters, the permittee shall submit an application for an individual permit.
 - 2. Microbiological contaminant monitoring.
 - a. The permittee shall monitor any discharge annually to determine compliance with the requirements of subsection (A)(1)(b).
 - b. If the concentration of any pollutant exceeds the limits established in subsection (A)(1)(b), the permittee shall submit a report to the Department with a proposal for mitigation and increase monitoring frequency for that pollutant to monthly.
 - c. If, in the monthly sampling, the condition in subsection (D)(2)(b) continues for three consecutive months, the permittee shall submit an application for an individual permit.
 - E. Recordkeeping.** A permittee shall maintain at the site, the following information, if applicable for the disposal method, for at least 10 years, and make it available to the Department upon request:
 - 1. Construction drawings and as-built plans, if available;
 - 2. A log book or similar documentation to record inspection results, repair and maintenance activities, monitoring results, and facility closure;
 - 3. Water quality data collected under subsection (D);
 - 4. Standard operating procedures; and
 - 5. Records of any discharge other than those identified under subsection (B).
 - F. Reporting requirements.** The permittee shall:
 - 1. Report unauthorized flows into the impoundment to the Department within five days of discovery, and
 - 2. Submit the report required in subsections (D)(1)(b) or (2)(b) within 30 days of receiving the analytical results.
- Historical Note**
- New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).
- R18-9-D303. 3.03 General Permit: Vehicle and Equipment Washes**
- A.** A 3.03 General Permit allows a facility to discharge water from washing vehicle exteriors and vehicle equipment. The 3.03 General Permit does not authorize:
 - 1. Discharge water that typically results from the washing of vehicle engines unless the discharge is to a lined surface impoundment;
 - 2. Direct discharges of sanitary sewage, vehicle lubricating oils, antifreeze, gasoline, paints, varnishes, solvents, pesticides, or fertilizers;
 - 3. Discharges resulting from washing the interior of vessels used to transport fuel products or chemicals, or washing equipment contaminated with fuel products or chemicals; or
 - 4. Discharges resulting from washing the interior of vehicles used to transport mining concentrates that originate from the same mine site, unless the discharge is to a lined surface impoundment.
 - B.** Notice of Intent to Discharge. In addition to the Notice of Intent to Discharge requirements specified in R18-9-A301(B), an applicant shall submit a narrative description of the facility and a design of the disposal system and wash operations.
 - C.** Design, installation, and testing requirements. An applicant shall:
 - 1. Design and construct the wash pad:
 - a. To drain and route wash water to a sump or similar sediment-settling structure and an oil/water separator or a comparable pretreatment technology;
 - b. Of concrete or material chemically compatible with the wash water and its constituents; and
 - c. To support the maximum weight of the vehicle or equipment being washed with an appropriate safety factor;
 - 2. Not use unlined ditches or natural channels to convey wash water;
 - 3. Ensure that a surface impoundment meets the requirements in R18-9-D301(C)(1) through (3). The applicant shall ensure that berms or dikes at the impoundment can withstand wave action erosion and are compacted to a uniform density not less than 95 percent;
 - 4. Ensure that a surface impoundment required for wash water described in subsection (A)(1) meets the design and installation requirements in R18-9-D301(C);
 - 5. If wash water is received by an unlined surface impoundment or engineered subsurface disposal system, the applicant shall:
 - a. Ensure that the annual daily average flow is less than 3000 gallons per day;
 - b. Maintain a minimum horizontal setback of 100 feet between the impoundment or subsurface disposal system and any water supply well;
 - c. Ensure that the bottom of the surface impoundment or subsurface disposal system is at least 50 feet above the static groundwater level and the intervening material does not consist of karstic or fractured bedrock;
 - d. Ensure that the wash water receives primary treatment before discharge through, at a minimum, a sump or similar structure for settling sediments or solids and an oil/water separator or a comparable pretreatment technology designed to reduce oil and grease in the wastewater to 15 mg/l or less;
 - e. Withdraw the separated oil from the oil/water separator using equipment such as adjustable skimmers, automatic pump-out systems, or level sensing systems to signal manual pump-out; and

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

- f. If a subsurface disposal system is used, design the system to prevent surfacing of the wash water.
- D. Operational requirements.** The permittee shall:
1. Inspect the oil/water separator before operation to ensure that there are no leaks and that the oil/water separator is in operable condition;
 2. Inspect the entire facility at least quarterly. The inspection shall, at a minimum, consist of a visual examination of the wash pad, the sump or similar structure, the oil/water separator, and all surface impoundments;
 3. Visually inspect each surface impoundment at least monthly, to ensure the volume of wash water is maintained within the design capacity and freeboard limitation;
 4. Repair damage to the integrity of the wash pad or impoundment liner as soon as practical;
 5. Maintain the oil/water separator to achieve the operational performance of the separator;
 6. Remove accumulated sediments in all surface impoundments to maintain design capacity; and
 7. Use best management practices to minimize the introduction of chemicals not typically associated with the wash operations. Only biodegradable surfactant or soaps are allowed. The permittee shall not use products that contain chemicals in concentrations likely to cause a violation of an Aquifer Water Quality Standard at the applicable point of compliance.
- E. Monitoring requirements.**
1. If wash water is discharged to an unlined surface impoundment or other area for subsurface disposal, the permittee shall monitor the wash water quarterly at the point of discharge for pH and for the presence of C₁₀ through C₃₂ hydrocarbons using a Department of Health Services certified method.
 2. If pH is not between 6.0 and 9.0 or the concentration of C₁₀ through C₃₂ hydrocarbons exceeds 50 mg/l, the permittee shall, within 30 days of the monitorings, submit a report to the Department with a proposal for mitigation and shall increase monitoring frequency to monthly.
 3. If the condition in subsection (E)(2) persists for three consecutive months, the permittee shall submit, within 90 days, an application for an individual permit.
- F. Recordkeeping.** A permittee shall maintain the following information for at least 10 years and make it available to the Department upon request:
1. Construction drawings and as-built plans, if available;
 2. A log book or similar documentation to record inspection results, repair and maintenance activities, monitoring results, and facility closure; and
 3. The Material Safety Data Sheets for the chemicals used in the wash operations and any required monitoring results.
- G. Closure requirements.** A permittee shall comply with the closure requirements specified in R18-9-D301(G) if a liner has been used. If no liner is used the permittee shall remove and appropriately dispose of any liquids and grade the facility to prevent impoundment of water.
- A. A 3.04 General Permit allows discharges to lined surface impoundments, lined secondary containment structures, and associated lined conveyance systems at mining sites.**
1. The following discharges are allowed under the 3.04 General Permit:
 - a. Seepage from tailing impoundments, unleached rock piles, or process areas;
 - b. Process solution temporarily stored for short periods of time due to process upsets or rainfall, provided the solution is promptly removed from the facility as required under subsection (D);
 - c. Stormwater runoff not permitted under A.R.S. § 49-245.01 because the facility does not receive solely stormwater or because the runoff is regulated but not considered stormwater under the Clean Water Act; and
 - d. Wash water specific to sand and gravel operations not covered by R18-9-B301(A).
 2. Facilities that continually contain process solution as a normal function of facility operations are not eligible for coverage under the 3.04 General Permit. If a normal process solution contains a pollutant regulated under A.R.S. § 49-243(I) the 3.04 General Permit does not apply if the pollutant will compromise the integrity of the liner.
- B. Notice of Intent to Discharge.** In addition to the Notice of Intent to Discharge requirements specified in R18-9-A301(B), an applicant shall submit:
1. A description of the sources of inflow to the facility. An applicant shall include a representative chemical analysis of expected sources of inflow to the facility unless a sample is not available, before facility construction, in which case the applicant shall provide a chemical analysis of solution present in the facility to the Department within 90 days after the solution first enters the facility;
 2. Documentation demonstrating that the facility design and operation under subsections (C) and (D) have been reviewed by a mining engineer or an Arizona-registered professional engineer before submission to the Department; and
 3. A contingency plan that specifies actions proposed in case of an accidental release from the facility, overtopping of the impoundment, breach of the berm, or unauthorized inflows into the impoundment or containment structure.
- C. Design, construction, and installation requirements.** An applicant shall:
1. Design and construct the impoundment or secondary containment structure as specified under R18-9-D301(C)(1);
 2. Ensure that conveyance systems are capable of handling the peak flow from the 100-year storm;
 3. Construct the liner as specified in R18-9-D301(C)(4)(a);
 4. Develop and implement a Quality Assurance/Quality Control program that meets or exceeds the liner manufacturer's guidelines. The program shall address site and subgrade preparation, inspection procedures, field testing, laboratory testing, repair of seams during installation, and final inspection of the completed liner for functional integrity;
 5. If the facility is located in the 100-year flood plain, design the facility so it is protected from damage or flooding as a result of a 100-year, 24-hour storm event;
 6. Design and manage the facility so groundwater does not come into contact with the liner;
 7. Ensure that the facility design addresses any significant geologic hazard relating to static and seismic stability.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-D304. 3.04 General Permit: Non-Stormwater Impoundments at Mining Sites

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

The applicant shall document any design adjustments made for this reason in the Notice of Intent to Discharge;

8. Ensure that the site preparation includes, as appropriate, clearing the area of vegetation, grubbing, grading, and embankment and subgrade preparation. The applicant shall ensure that supporting surface slopes and foundation are stable and structurally sound;
 9. Ensure that the liner is anchored by being secured in an engineered anchor trench. If regularly exposed to sunlight, the applicant shall ensure that the liner is ultraviolet resistant; and
 10. Use compacted clay subgrade in areas with shallow groundwater conditions.
- D. Operational requirements.** The permittee shall:
1. Maintain the freeboard required in subsection (C)(1) through design, pumping, or both;
 2. Remove accumulated residues, sediments, debris, and vegetation to maintain the integrity of the liner and the design capacity of the impoundment;
 3. Perform and document a visual inspection for cracks, tears, perforations and residual build-up at least monthly. The operator shall conduct and document an inspection after the facility receives significant volumes of stormwater inflow;
 4. Report cracks, tears, and perforations in the liner to the Department, and repair them as soon as practical, but no later than 60 days under normal operating conditions, after discovery of the crack, tear, or perforation;
 5. For facilities that temporarily contain a process solution due to process upsets, remove the process solution from the facility as soon as practical, but no later than 60 days after cessation of the upset; and
 6. For facilities that temporarily contain a process solution due to rainfall, remove the process solution from the facility as soon as practical.
- E. Recordkeeping.** A permittee shall maintain the following information for at least 10 years and make it available to the Department upon request:
1. Construction drawings and as-built plans, if available;
 2. A log book or similar documentation to record inspection results, repair and maintenance activities, monitoring results and facility closure;
 3. Capacity design criteria;
 4. A list of standard operating procedures;
 5. The Quality Assurance/Quality Control program required under subsection (C)(4); and
 6. Records of any unauthorized flows into the impoundment.
- F. Reporting requirements.**
1. If the liner is breached, as evidenced by a drop in water level not attributable to evaporation, or if the impoundment breaches or is overtopped due to a catastrophic or other significant event, the permittee shall report the circumstance to the Department within five days of discovery and implement the contingency plan required in subsection (B)(3). The permittee shall submit a final report to the Department within 60 days of the event summarizing the circumstances of the problem and corrective actions taken.
 2. The permittee shall report unauthorized flows into the impoundment to the Department within five days of discovery and implement the contingency plan required in subsection (B)(3).
- G. Closure requirements.**
1. The permittee shall notify the Department of the intent to close the facility permanently.
2. Within 90 days following closure notification the permittee shall comply with the following requirements, as applicable:
 - a. Remove liquids and any solid residue on the liner and dispose appropriately;
 - b. Inspect the liner for evidence of holes, tears, or defective seams that could have leaked;
 - c. If evidence of leakage is discovered, remove the liner in the area of suspected leakage and sample potentially impacted soil. If soil remediation levels are exceeded, the permittee shall, within 60 days notify the Department and submit an action plan for the Department's approval before implementing the plan;
 - d. If there is no evidence of holes, tears, or defective seams that could have leaked:
 - i. Cover the liner in place or remove it for disposal or reuse if the impoundment is an excavated impoundment,
 - ii. Remove and dispose of the liner elsewhere if the impoundment is bermed, and
 - iii. Grade the facility to prevent the impoundment of water; and
 3. Notify the Department within 60 days following closure that the action plan has been implemented and the closure is complete.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-D305. 3.05 General Permit: Disposal Wetlands

- A.** A 3.05 General Permit allows discharges of reclaimed water into constructed or natural wetlands, including waters of the United States, waters of the state, and riparian areas, for disposal. This general permit does not apply if the purpose of the wetlands is to provide treatment.
- B.** Notice of Intent to Discharge. In addition to the Notice of Intent to Discharge requirements specified in R18-9-A301(B), an applicant shall submit the name and individual permit number of the facility providing the reclaimed water.
- C.** Design requirements. An applicant shall:
1. Ensure that the reclaimed water released into the wetland meets numeric and narrative Aquifer Water Quality Standards for all parameters except for coliform bacteria and is Class A+ reclaimed water. A+ reclaimed water is wastewater that has undergone secondary treatment established under R18-9-B204(B)(1), filtration, and meets a total nitrogen concentration under R18-9-B204(B)(3) and fecal coliform limits under R18-9-B204(B)(4);
 2. Maintain a minimum horizontal separation of 100 feet between any water supply well and the maximum wetted area of the wetland;
 3. Post signs at points of access and every 250 feet along the perimeter of the wetland stating, "CAUTION. THESE WETLANDS CONTAIN RECLAIMED WATER. DO NOT DRINK." The applicant shall ensure that the signs are in English and Spanish, or in English with inclusion of the international "do not drink" symbol; and
 4. Ensure that wetland siting is consistent with local zoning and land use requirements.
- D.** Operational requirements.
1. A permittee shall manage the wetland to minimize vector problems.

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

2. The permittee shall submit to the Department and implement a Best Management Practices Plan for operation of the wetland. The Best Management Practices Plan shall include:
 - a. A site plan showing the wetland footprint, point of inflow, stormwater drainage, and placement of vegetation;
 - b. Management of flows into and through the wetland to minimize erosion and damage to vegetation;
 - c. Management of visitation and use of the wetlands by the public;
 - d. A management plan for vector control;
 - e. A plan or criteria for enhancing or supplementing of wetland vegetation; and
 - f. Management of shallow groundwater conditions on existing on-site wastewater treatment facilities.
 3. The permittee shall perform quarterly inspections to review bank integrity, erosion evidence, the condition of signage and vegetation, and correct any problem noted.
 - E. Recordkeeping. A permittee shall maintain the following information for at least 10 years and make it available to the Department upon request:
 1. Construction drawings and as-built plans, if available; and
 2. A log book or similar documentation to record inspection results, repair and maintenance activities, monitoring results, and facility closure.
 - F. Reporting requirements. The permittee shall, by January 30, provide the Department in writing with an annual assessment of the biological condition of the wetland, including the volume of inflow to the wetland in the past year.
5. Ensure that, if a synthetic liner is used, such as geomembrane, the liner is underlain by at least 6 inches of prepared and compacted subgrade;
 6. Anchor the liner along the perimeter of the treatment wetland; and
 7. Manage the plants in the treatment wetland to prevent species with root penetration that impairs liner performance;
 8. Design the treatment wetland for optimum:
 - a. Sizing appropriate for the anticipated treatment,
 - b. Cell configuration,
 - c. Vegetative species composition, and
 - d. Berm configuration;
 9. Construct and locate the treatment wetland so that it:
 - a. Maintains physical integrity during a 100-year, 24-hour storm event; and
 - b. Operates properly during a 25-year, 24-hour storm event;
 10. Ensure that the bottom of the treatment wetland is at least 20 feet above the seasonal high groundwater table; and
 11. If public access to the treatment wetland is anticipated or encouraged, post signs at points of access and every 250 feet along the perimeter of the treatment wetland stating, "CAUTION. THESE WETLANDS CONTAIN MINE DRAINAGE WATER. DO NOT DRINK." The permittee shall ensure that the signs are in English and Spanish, or in English with inclusion of the international "do not drink" symbol.
- D. Operational requirements.
1. The permittee shall monitor the water leaving the treatment wetlands at least quarterly for the standards specified in subsection (C)(1)(b). Monitoring shall include nutrients or other constituents used as indicators of treatment wetland performance.
 2. The permittee shall submit to the Department and implement a Best Management Practices Plan for operation of the treatment wetland. The Best Management Practices Plan shall include:
 - a. A site plan showing the treatment wetland footprint, point of inflow, stormwater drainage, and placement of vegetation;
 - b. A contingency plan to address problems, including treatment performance, wash-out and vegetation die-off, and a plan to apply for an individual permit if the treatment wetland is unable to achieve the treatment standards in subsection (C)(1)(b) on a continued basis;
 - c. Management of flows into and through the treatment wetland to minimize erosion and damage to vegetation;
 - d. A description of the measures for restricting access to the treatment wetlands by the public;
 - e. A management plan for vector control; and
 - f. A plan or criteria for enhancing or supplementing treatment wetland vegetation.
 3. The permittee shall perform quarterly inspections to review the bank and liner integrity, erosion evidence, and the condition of signage and vegetation, and correct any problems noted.
- E. Recordkeeping. A permittee shall maintain the following information for at least 10 years and make it available to the Department upon request:
1. Construction drawings and as-built plans, if available; and

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-D306. 3.06 General Permit: Constructed Wetlands to Treat Acid Rock Drainage at Mining Sites

- A. A 3.06 General Permit allows the operation of constructed wetlands that receive, with the intent to treat, acid rock drainage from a closed facility.
- B. Notice of Intent to Discharge. In addition to the Notice of Intent to Discharge requirements specified in R18-9-A301(B), an applicant shall submit a design, including information on the quality of the influent, the treatment process to be used, the expected quality of the wastewater, and the nutrients and other constituents that will indicate wetland performance.
- C. Design, construction, and installation. An applicant shall:
 1. Ensure that:
 - a. Water released into the treatment wetland is compatible with construction materials and vegetation;
 - b. Water released from the treatment wetland:
 - i. Meets numeric Aquifer Water Quality Standards,
 - ii. Has a pH between 6.0 and 9.0, and
 - iii. Has a sulfate concentration less than 1000 mg/l; and
 - c. Water released from the treatment wetland complies with and is released under an individual permit and an AZPDES Permit, if required;
 2. Construct the treatment wetland with a liner, using a low-hydraulic conductivity synthetic liner, site-specific liner, or both, to achieve a calculated seepage rate of less than 550 gallons per acre per day. The applicant shall:

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

2. A log book or similar documentation to record inspection results, repair and maintenance activities, monitoring results, and facility closure.
- F. Reporting requirements.**
1. If preliminary laboratory results indicate that the quality of the water leaving the treatment wetlands does not meet the standards specified in subsection (C)(1)(b), the permittee may request that the laboratory re-analyze the sample before reporting the results to the Department. The permittee shall:
 - a. Conduct verification sampling within 15 days of receiving final laboratory results,
 - b. Conduct verification sampling only for parameters that are present in concentrations greater than the standards specified in subsection (C)(1)(b), and
 - c. Notify the Department in writing within five days of receiving final laboratory results.
 2. If the final laboratory result confirms that the quality of the water leaving the treatment wetlands does not meet the standards in subsection (C)(1)(b), the permittee shall implement the contingency plan required by subsection (D)(2)(b) and notify the Department that the plan is being implemented.
 3. The permittee shall, by January 30, provide the Department in writing with an annual assessment of the biological condition of the treatment wetland, including the volume of inflow to the treatment wetland in the past year.
- Historical Note**
- New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).
- R18-9-D307. 3.07 General Permit: Tertiary Treatment Wetlands**
- A.** A 3.07 General Permit allows constructed wetlands that receive with the intent to treat, discharges of reclaimed water that meet the secondary treatment level requirements specified in R18-9-B204(B)(1).
- B.** Notice of Intent to Discharge. In addition to the Notice of Intent to Discharge requirements specified in R18-9-A301(B), an applicant shall submit:
1. The name and individual permit number of any facility that provides the reclaimed water to the treatment wetland;
 2. The name and individual permit number of any facility that receives water released from the treatment wetland;
 3. The design of the treatment wetland construction and management project, including information on the quality of the influent, the treatment process, and the expected quality of the wastewater;
 4. A Best Management Practices Plan that includes:
 - a. A site plan showing the treatment wetland footprint, point of inflow, stormwater drainage, and placement of vegetation;
 - b. A contingency plan to address any problem, including treatment performance, wash-out, and vegetation die-off;
 - c. A management plan for flows into and through the treatment wetland to minimize erosion and damage to vegetation;
 - d. A description of the measures for restricting access to the treatment wetlands by the public;
 - e. A management plan for vector control; and
 - f. A plan or criteria for enhancing or supplementing treatment wetland vegetation.
- C. Design requirements.** An applicant shall:
1. Release water from the treatment wetland under an individual permit and an AZPDES permit, if required. The applicant shall release water from the treatment wetland only to a direct reuse site if the site is permitted to receive reclaimed water of the quality generated under the individual permit specified in subsection (B)(1);
 2. Construct and locate the treatment wetland so that it:
 - a. Maintains physical integrity during a 100-year, 24-hour storm event; and
 - b. Operates properly during a 25-year, 24-hour storm event;
 3. Ensure that the bottom of the treatment wetland is at least 20 feet above the seasonal high groundwater table;
 4. Maintain a minimum horizontal separation of 100 feet between a water supply well and the maximum wetted area of the treatment wetland;
 5. Maintain the setbacks specified in R18-9-B201(I) for no noise, odor, or aesthetic controls between the property boundary at the site and the maximum wetted area of the treatment wetland;
 6. Fence the treatment wetland area to prevent unauthorized access;
 7. Post signs at points of access stating "CAUTION. THESE WETLANDS CONTAIN RECLAIMED WATER, DO NOT DRINK." The applicant shall ensure that the signs are in English and Spanish, or in English with inclusion of the international "do not drink" symbol;
 8. Construct the treatment wetland with a liner using low hydraulic conductivity liner, site-specific liner, or both, to achieve a calculated seepage rate of less than 550 gallons per acre per day. The applicant shall:
 - a. Ensure that if a synthetic liner is used, such as geomembrane, the liner is underlain by at least 6 inches of prepared and compacted subgrade;
 - b. Anchor the liner along the perimeter of the treatment wetland; and
 - c. Manage the plants in the treatment wetland to prevent species with root penetration that impairs liner performance;
 9. Calculate the size and depth of the treatment wetland so that the rate of flow allows adequate treatment detention time. The applicant shall design the treatment wetland with at least two parallel treatment cells to allow for efficient system operation and maintenance;
 10. Ensure that the treatment wetland vegetation includes cat-tails, bulrush, common reed, or other species of plants with high pollutant treatment potential to achieve the intended water quality identified in subsection (B)(3); and
 11. Ensure that construction and operation of the treatment wetlands is consistent with local zoning and land use requirements.
- D. Operational requirements.** The permittee shall:
1. Implement the Best Management Practices Plan approved under subsection (B);
 2. Monitor wastewater leaving the treatment wetland to ensure that discharge water quality meets the expected wastewater quality specified in subsection (B)(3). The permittee shall ensure that analyses of wastewater samples are conducted by a laboratory certified by the Department of Health Services, following the Department's Quality Assurance/Quality Control requirements;

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

3. Follow the prescribed measures as required in the contingency plan under subsection (B)(4)(b) and submit a written report to the Department within five days if verification sampling demonstrates that an alert level or discharge limit is exceeded;
 4. Inspect the treatment wetlands at least quarterly for bank and liner integrity, erosion evidence, and condition of signage and vegetation, and correct any problem discovered; and
 5. Ensure that the treatment wetland is operated by a certified operator under 18 A.A.C. 5, Article 1.
- E. Recordkeeping.** A permittee shall maintain the following information for at least 10 years and make it available to the Department upon request:
1. Construction drawings and as-built plans, if available; and
 2. A log book or similar documentation to record inspection results, repair and maintenance activities, monitoring results, and facility closure.
- F. Reporting requirements.** The permittee shall, by January 30, provide the Department in writing with an annual assessment of the biological condition of the treatment wetland including the volume of inflow to the treatment wetland in the past year.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

PART E. TYPE 4 GENERAL PERMITS**R18-9-E301. 4.01 General Permit: Sewage Collection Systems**

- A.** A 4.01 General Permit allows for construction and operation of a new sewage collection system or expansion of an existing sewage collection system involving new construction as follows:
1. A sewage collection system or portion of a sewage collection system that serves downstream from the point where the daily design flow is 3000 gallons per day based on Table 1, Unit Design Flows, except a gravity sewer line conveying sewage from a single building drain directly to an interceptor, collector sewer, lateral, or manhole regardless of daily design flow;
 2. A sewage collection system that includes a manhole; or
 3. A sewage collection system that includes a force main or lift station serving more than one dwelling.
- B. Performance.** An applicant shall design, construct, and operate a sewage collection system so that the sewage collection system:
1. Provides adequate wastewater flow capacity for the planned service area;
 2. Minimizes sedimentation, blockage, and erosion through maintenance of proper flow velocities throughout the system;
 3. Prevents releases of sewage to the land surface through appropriate sizing, capacities, and inflow and infiltration prevention measures throughout the system;
 4. Protects water quality through minimization of exfiltration losses from the system;
 5. Provides for adequate inspection, maintenance, testing, visibility, and accessibility;
 6. Maintains system structural integrity; and
 7. Minimizes septic conditions in the sewage collection system.
- C. Notice of Intent to Discharge.** In addition to the Notice of Intent to Discharge requirements specified in R18-9-A301(B), an applicant shall submit the following information:
1. A statement on a form approved by the Director, signed by the owner or operator of the sewage treatment facility that treats or processes the sewage from the proposed sewage collection system.
 - a. The statement shall affirm that the additional volume of wastewater delivered to the facility by the proposed sewage collection system will not cause any flow or effluent quality limits of the individual permit for the facility to be exceeded.
 - b. If the facility is classified as a groundwater protection permit facility under A.R.S. § 49-241.01(C), or if no flow or effluent limits are applicable, the statement shall affirm that the design flow of the facility will not be exceeded;
 2. If the proposed sewage collection system delivers wastewater to a downstream sewage collection system under different ownership or control, a statement on a form approved by the Director, signed by the owner or operator of the downstream sewage collection system, affirming that the downstream system can maintain the performance required by subsection (B) when receiving the increased flows;
 3. A general site plan showing the boundaries and key aspects of the project;
 4. Construction quality drawings that provide overall details of the site and the engineered works comprising the project including:
 - a. The plans and profiles for all sewer lines, manholes, force mains, depressed sewers, and lift stations with sufficient detail to allow Department verification of design and performance characteristics;
 - b. Relevant cross sections showing construction details and elevations of key components of the sewage collection system to allow Department verification of design and performance characteristics, including the slope of each gravity sewer segment stated as a percentage; and
 - c. Drainage features and controls, and erosion protection as applicable, for the components of the project; and
 - d. Horizontal and vertical location of utilities within the area affected by the sewer line construction;
 5. Documentation of design flows for significant components of the sewage collection system and the basis for calculating the design flows;
 6. Drawings, reports, and other information that are clear, reproducible, and in a size and format specified by the Department. The applicant may submit the drawings in a Department-approved electronic format; and
 7. Design documents, including plans, specifications, drawings, reports, and calculations that are signed, dated, and sealed by an Arizona-registered professional engineer. The designer shall use good engineering judgment by following engineering standards of practice, and rely on appropriate engineering methods, calculations, and guidance.
- D. Design requirements.**
1. General Provisions. An applicant shall design and construct a new sewage collection system or an expansion of an existing sewage collection system involving new construction, according to the requirements of this general permit. An applicant shall:
 - a. Base design flows for components of the system on unit flows specified in Table 1, Unit Design Flows.
 - b. Design gravity sewer lines and all other sewage collection system components, including, manholes,

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

force mains, lift stations, depressed sewers, and appurtenant devices and structures to accommodate maximum sewage flows as follows:

- i. Any point in a sewer main when flowing full can accommodate a peak wet weather flow calculated by multiplying the sum of the upstream sources of flow from Table 1, Unit Design Flows by a dry weather peaking factor based on upstream population, as tabulated below, and adding a wet weather infiltration and inflow rate based on either a percentage of peak dry weather flow or a gallons per acre rate of flow;

Upstream Population	Dry Weather Peaking Factor
100	3.62
200	3.14
300	2.90
400	2.74
500	2.64
600	2.56
700	2.50
800	2.46
900	2.42
1000	2.38
1001 to 10,000	$PF = (6.330 \times p^{-0.231}) + 1.094$
10,001 to 100,000	$PF = (6.177 \times p^{-0.233}) + 1.128$
More than 100,000	$PF = (4.500 \times p^{-0.174}) + 0.945$
PF = Dry Weather Peaking Factor p = Upstream Population	

- ii. For a lift station serving less than 600 single family dwelling units (d.u.), use either of the following methods to size the pumps for peak dry weather flow in gallons per minute and add an allowance for wet weather flow and infiltration:
 - (1) Peak dry weather flow = $17 \text{ d.u.}^{0.42}$, or
 - (2) Peak dry weather flow = $11.2 (\text{population})^{0.42}$
- iii. If justified by the applicant, the Department may accept lower unit flow values in the served area due to significant use of low-flow fixtures, hydrographs of actual flows, or other factors;
- c. Use the "Uniform Standard Specifications for Public Works Construction" (revisions through 2004) and the "Uniform Standard Details for Public Works Construction" (revisions through 2004) published by the Maricopa Association of Governments, and the "Standard Specifications for Public Improvements," (2003 Edition), and "Standard Details for Public Improvements," (2003 Edition), published jointly by Pima County Wastewater Management and the City of Tucson, as the applicable design and construction criteria, unless the Department approves alternative design standards or specifications. An applicant in a county other than Maricopa and Pima shall use design and construction criteria from either the Maricopa Association of Governments or the Pima County Wastewater Management and the City of

Tucson for the facility unless alternative criteria are designated by the Department.

- i. This material is incorporated by reference and does not include any later amendments or editions of the incorporated material.
- ii. Copies of the incorporated material are available for inspection at the Arizona Department of Environmental Quality, 1110 W. Washington, Phoenix, AZ 85007 or may be obtained from the Maricopa Association of Governments, 302 N. 1st Avenue, Suite 300, Phoenix, Arizona 85003, or on the web at <http://www.mag.maricopa.gov/archive/Newpages/on-line.htm>; or from Pima County Wastewater Management, 201 N. Stone Avenue, Tucson, Arizona 85701-1207, or on the web at <http://www.pima.gov/www/stdtdet>;
- d. Ensure that sewage collection system components are separated from drinking water distribution system components as specified in 18 A.A.C. 5, Article 5;
- e. Ensure that sewage collection system components are separated from reclaimed water system components as specified in 18 A.A.C. 9, Article 6; and
- f. Request review and approval of an alternative to a design feature specified in this Section by following the requirements in R18-9-A312(G).
2. Gravity sewer lines. An applicant shall:
 - a. Ensure that any sewer line that runs between manholes, if not straight, is of constant horizontal curvature with a radius of curvature not less than 200 feet;
 - b. Cover each sewer line with at least 3 feet of earth cover meeting the requirements of subsection (D)(2)(h). The applicant shall:
 - i. Include at least one note specifying this requirement in construction plans;
 - ii. If site-specific limitations prevent 3 feet of earth cover, provide the maximum cover attainable, construct the sewer line of ductile iron pipe or other design of equivalent or greater tensile and compressive strength, and note the change on the construction plans; and
 - iii. Ensure that the design of the pipe and joints can withstand crushing or shearing from any expected static and live load to protect the structural integrity of the pipe. Construction plans shall note locations requiring these measures;
 - c. If sewer lines cross or are constructed in floodways;
 - i. Place the lines at least 2 feet below the level of the 100-year storm scour depth and calculated 100-year bed degradation and construct the lines using ductile iron pipe or pipe with equivalent tensile strength, compressive strength, shear resistance, and scour protection.
 - ii. If it is not possible to maintain the 2 feet of clearance specified in subsection (D)(2)(c)(i), using the process described in R18-9-A312(G), provide a design that ensures that the sewer line will withstand any lateral and vertical load for the scour and bed degradation conditions specified in subsection (D)(2)(c)(i);
 - iii. Ensure that sewer lines constructed in a floodway extend at least 10 feet beyond the boundary of the 100-year storm scouring;

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

- iv. If a sewer line is constructed in a floodway and is longer than the applicable maximum manhole spacing distance in subsection (D)(3)(a), using the process described in R18-9-A312(G), provide a design that ensures the performance standards in subsection (B) are met; and
- v. Note locations requiring these measures on the construction plans;
- d. Ensure that each sewer line is 8 inches in diameter or larger except the first 400 feet of a dead end sewer line with no potential for extension may be 6 inches in diameter if the design flow criteria specified in subsections (D)(1)(a) and (D)(1)(b) are met and the sewer line is installed with a slope sufficient to achieve a velocity of at least 3 feet per second when flowing full. If the line is extended, the applicant seeking the extension shall replace the entire length with larger pipe to accommodate the new design flow unless the applicant demonstrates with engineering calculations that using the existing 6-inch pipe will accommodate the design flow;
- e. Design sewer lines with at least the minimum slope calculated from Manning's Formula using a coefficient of roughness of 0.013 and a sewage velocity of 2 feet per second when flowing full.
 - i. An applicant may request a smaller minimum slope under R18-9-A312(G) if the smaller slope is justified by a quarterly program of inspections, flushings, and cleanings.
 - ii. If a smaller minimum slope is requested, the applicant shall not specify a slope that is less than 50 percent of that calculated from Manning's formula using a coefficient of roughness of 0.013 and a sewage velocity of 2 feet per second.
 - iii. The ratio of flow depth in the pipe to the diameter of the pipe shall not exceed 0.75 in peak dry weather flow conditions;
- f. Design sewer lines to avoid a slope that creates a sewage velocity greater than 10 feet per second. The applicant shall construct any sewer line carrying a flow with a normal velocity of greater than 10 feet per second using ductile iron pipe or pipe with equivalent erosion resistance, and structurally reinforce the receiving manhole or sewer main;
- g. Design and install sewer lines, connections, and fittings with materials that meet or exceed manufacturer's specifications consistent with this Chapter to:
 - i. Limit inflows, infiltration, and exfiltration;
 - ii. Resist corrosion in the ambient electrochemical environment;
 - iii. Withstand anticipated static and live loads; and
 - iv. Provide internal erosion protection;
- h. Indicate trenching and bedding details applicable for each pipe material and size in the design plans. Unless the Department approved alternative design standards or specifications under subsection (D)(1)(c), the applicant shall place and bed the sewer lines in trenches following the specifications in "Trench Excavation, Backfilling, and Compaction" (Section 601) revised 2004, published by the Maricopa Association of Governments; and "Rigid Pipe Bedding for Sanitary Sewers" (WWM 104) revised July 2002, and "Flexible Pipe Bedding for Sanitary Sewers" (WWM 105) revised July 2002, published by Pima County Wastewater Management. This material is part of the material incorporated by reference in subsection (D)(1)(b).
- i. Perform a deflection test of the total length of all sewer lines made of flexible materials to ensure that the installation meets or exceeds the manufacturer's recommendations and record the results;
- j. Test each segment of the sewer line for leakage using the applicable method below and record the results:
 - i. "Standard Test Method for Installation of Acceptance of Plastic Gravity Sewer Lines Using Low-Pressure Air, F1417-92(1998)," published by the American Society for Testing and Materials;
 - ii. "Standard Practice for Testing Concrete Pipe Sewer Lines by Low-Pressure Air Test Method, C924-02 (2002)," published by the American Society for Testing and Materials;
 - iii. "Standard Test Method for Low-Pressure Air Test of Vitrified Clay Pipe Lines, C828-03 (2003)," published by the American Society for Testing and Materials;
 - iv. "Standard Test Method for Hydrostatic Infiltration Testing of Vitrified Clay Pipe Lines, C1091-03a (2003)," published by the American Society for Testing Materials;
 - v. "Standard Practice for Infiltration and Exfiltration Acceptance Testing of Installed Precast Concrete Pipe Sewer Lines, C969-02 (2002)," published by the American Society for Testing Material; or
 - vi. "Standard Practice for Underground Installation of Thermoplastic Pipe for Sewers and Other Gravity-Flow Applications, D2321-00 (2000)," published by the American Society for Testing Materials; or
 - vii. The material listed in subsections (D)(2)(j)(i) through (vi) is incorporated by reference and does not include any later amendments or editions of the incorporated material. Copies of the incorporated material are available for inspection at the Arizona Department of Environmental Quality, 1110 W. Washington, Phoenix, AZ 85007 or may be obtained from the American Society for Testing and Materials International, 100 Barr Harbor Drive, West Conshohocken, PA 19428-2959;
- k. Test the total length of the sewer line for uniform slope by lamp lighting, remote camera or similar method approved by the Department, and record the results; and
- l. Minimize the planting within the disturbed area of new sewage collection system construction of plant species having roots that are likely to reach and damage the sewer or impair the operation of the sewer or visual and vehicular access to any manhole.
- 3. Manholes.
 - a. An applicant shall install manholes at all grade changes, size changes, alignment changes, sewer intersections, and at any location necessary to comply with the following spacing requirements:

Sewer Pipe Diameter (inches)	Maximum Manhole Spacing (feet)
Less than 8	400
8 to less than 18	500

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

- | | |
|--|---|
| <p>18 to less than 36 600</p> <p>36 to less than 60 800</p> <p>60 or greater 1300</p> | <p>(2) Where the words “pipe” or “pipeline” are used, use the word “manhole” instead.</p> |
|--|---|
- b. The Department shall allow greater manhole spacing if the applicant follows the procedure provided in R18-9-A312(G) and provides documentation showing the operator possesses or has available specialized sewer cleaning equipment suitable for the increased spacing.
 - c. The applicant shall ensure that manhole design is consistent with “Pre-cast Concrete Sewer Manhole” #420-1, revised January 1, 2004 and #420-2, revised January 1, 2001, “Offset Manhole for 8” – 30” Pipe” #421 (1998), and “Sewer Manhole and Cover Frame Adjustment” #422, revised January 1, 2001, published by the Maricopa Association of Governments; and “Manholes and Appurtenant Items” (WWM 201 through WWM 211, except WWM 204, 205, and 206), revised July 2002, published by Pima County Wastewater Management. This material is part of the material incorporated by reference in subsection (D)(1)(b).
 - d. The applicant shall not locate manholes in areas subject to more than incidental runoff from rain falling in the immediate vicinity unless the manhole cover assembly is designed to restrict or eliminate storm-water inflow.
 - e. The applicant shall test each manhole using one of the following test protocols:
 - i. Watertightness testing by filling the manhole with water. The applicant shall ensure that the drop in water level following presoaking does not exceed 0.0034 of total manhole volume per hour;
 - ii. Negative air pressure testing using the “Standard Test Method for Concrete Sewer Manholes by Negative Air Pressure (Vacuum) Test, C1244-02e1 (2002),” published by the American Society for Testing and Materials. This material is incorporated by reference, does not include any later amendments or editions of the incorporated material and may be viewed at the Arizona Department of Environmental Quality, 1110 W. Washington, Phoenix, AZ 85007, or obtained from the American Society for Testing and Materials International, 100 Barr Harbor Drive, West Conshohocken, PA 19428-2959; or
 - iii. Holiday testing of a lined manhole constructed with uncoated rebar using the “High-Voltage Electrical Inspection of Pipeline Coatings, RP0274-2004 (2004),” published by the National Association of Corrosion Engineers (NACE International). This material is incorporated by reference as modified below, does not include any later amendments or editions of the incorporated material and may be viewed at the Arizona Department of Environmental Quality, 1110 W. Washington, Phoenix, AZ 85007 or obtained from NACE International, 1440 South Creek Drive, Houston, Texas 77084-4906. The following substitutions apply:
 - (1) Where the word “metal” is used in the standard, use the word “surface” instead; and
- f. The applicant shall perform manhole testing under subsection (D)(3)(e) after installation of the manhole cone or top riser to verify watertightness integrity of the manhole from the top of the cone or riser down.
 - i. Upon satisfactory test results, the applicant shall install the manhole ring and any spacers, complete the joints, and seal the manhole to a watertight condition.
 - ii. If the applicant can install the manhole cone or top riser, spacers, and ring to final grade without disturbance or adjustment by later construction, the applicant may perform the testing from the top of the manhole ring on down.
 - g. The applicant shall locate a manhole to provide adequate visibility and vehicular maintenance accessibility following construction.
4. Force mains. An applicant may install a force main if it meets the following design, installation, and testing requirements. The applicant shall:
 - a. Design force mains to maintain a minimum flow velocity of 3 feet per second and a maximum flow velocity of 7 feet per second. The applicant may design for sustained periods of flow above 7 feet per second, if the applicant justifies the design using the process specified in R18-9-A312(G);
 - b. Ensure that force mains have the appropriate valves and controls required to prevent drainback to the lift station. If drainback is necessary during cold weather to prevent freezing, the control system may allow manual or automatic drainback;
 - c. Incorporate air release valves or other appropriate components in force mains at all high points along the line to eliminate air accumulation. If engineering calculations provided by the applicant demonstrate that air will not accumulate in a given high point under typical flow conditions, the Department shall waive the requirement for an air release valve;
 - d. Design restrained joints or thrust blocks on force mains to accommodate water hammer, surge control, and to prevent excessive movement of the force main. Submitted construction plans shall show restrained joint or thrust block locations and details;
 - e. If a force main is proposed to discharge directly to a sewage treatment facility without entering a flow equalization basin, include in the Notice of Intent to Discharge a statement from the owner or operator of the sewage treatment facility that the design is acceptable;
 - f. Design a force main to withstand a pressure of 50 pounds per square inch or more above the design working pressure for two hours and test upon completion to ensure no leakage;
 - g. Supply flow to a force main using a lift station that meets the requirements of subsection (D)(5); and
 - h. Ensure that force mains are designed to control odor.
 5. Lift stations. An applicant shall:
 - a. Secure a lift station to prevent tampering and affix on its exterior, or on the nearest vertical object if the lift station is entirely below grade, at least one warning sign that includes the 24-hour emergency phone number of the owner or operator of the collection system;

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

- b. Protect lift stations from physical damage from a 100-year flood event. An applicant shall not construct a lift station in a floodway;
 - c. Lift station wet well design.
 - i. Ensure that the minimum wet well volume in gallons is 1/4 of the product of the minimum pump cycle time, in minutes, and the total pump capacity, in gallons per minute;
 - ii. Protect the wet well against corrosion to provide at least a 20-year operational life;
 - iii. Ensure that wet well volume does not allow the sewage retention time to exceed 30 minutes unless the sewage is aerated, chemicals are added to prevent or eliminate hydrogen sulfide formation, or adequate ventilation is provided. Notwithstanding these measures, the applicant shall not allow the septic condition of the sewage to adversely affect downstream collection systems or sewage treatment facility performance;
 - iv. Ensure that excessively high or low levels of sewage in the wet well trigger an audible or visible alarm at the wet well site and at the system control center;
 - v. Ensure that a wet well designed to accommodate more than 5000 gallons per day has a horizontal cross-sectional area of at least 20 square feet; and
 - vi. Ensure that lift stations are designed to prevent odor from emanating beyond the lift station site;
 - d. Equip a lift station wet well with at least two pumps. The applicant shall ensure that:
 - i. The pumps are capable of passing a 2.5-inch sphere or are grinder pumps;
 - ii. The lift station is capable of operating at design flow with any one pump out of service; and
 - iii. Piping, valves, and controls are arranged to allow independent operation of each pump;
 - e. Not use suction pumps if the sewage lift is more than 15 feet. The applicant shall ensure that other types of pumps are self-priming and that pump water brake horsepower is at least 0.00025 times the product of the required discharge, in gallons per minute, and the required total dynamic head, in feet; and
 - f. For lift stations receiving an average flow of more than 10,000 gallons per day, include a standby power source and redundant wastewater level controls in the lift station design that will provide immediate service and remain available for 24 hours per day if the main power source or controls fail.
6. Depressed sewers. An applicant shall:
- a. Size the depressed sewer to attain a minimum velocity of 3 feet per second through all barrels of the depressed sewer when the flow equals or exceeds the design daily peak dry weather flow,
 - b. Design the depressed sewer to convey the sewage flow through at least two parallel pipes at least 6 inches in diameter,
 - c. Include an inlet and outlet structure at each end of the inverted sewer,
 - d. Design the depressed sewer so that the barrels are brought progressively into service as flow increases to its design value, and
 - e. Design the depressed sewer to minimize release of odors to the atmosphere.
- E. Additional Discharge Authorization requirements. An applicant shall:
- 1. Supply a signed, dated, and sealed Engineer's Certificate of Completion in a format approved by the Department that provides the following:
 - a. Confirmation that the project was completed in compliance with the requirements of this Chapter, as described in the plans and specifications corresponding to the Construction Authorization issued by the Director, or with changes that are reflected in as-built plans submitted with the Engineer's Certificate of Completion;
 - b. As-built plans, if required, that are properly identified and numbered; and
 - c. Satisfactory field test results from deflection, leakage, and uniform slope testing;
 - 2. Provide any other relevant information required by the Department to determine that the facility conforms to the terms of the 4.01 General Permit; and
 - 3. Provide a signed certification on a form approved by the Department that:
 - a. Confirms that an operation and maintenance manual exists for the sewage collection system;
 - b. Confirms that the operation and maintenance manual addresses components of operation and maintenance specified on the certification form;
 - c. Provides the 24-hour emergency number of the owner or operator of the sewage collection system; and
 - d. Provides an address where the operation and maintenance manual is maintained and confirms that the manual is available for inspection at that address by the Department on request.
- F. Operation and maintenance requirements. The permittee shall:
- 1. Operate the new sewage collection system or expansion of an existing sewage collection system involving new construction using the operation and maintenance manual certified by the owner or operator in subsection (E)(3), to meet the performance standards specified in subsection (B), unless the permittee is operating the sewage collection system under a CMOM Plan under the general permit established in R18-9-C305;
 - 2. Ensure that the sewage collection system is operated according to the operator certification requirements in 18 A.A.C. 5, Article 1; and
 - 3. For safety during operation and maintenance of lift station and other confined space components of the sewage collection system, follow all applicable state and federal confined space entry requirements.
- G. Recordkeeping. A person owning or operating a facility permitted under this Section shall maintain the documents listed in subsection (E) for the life of the facility and make them available to the Department upon request.
- H. Repairs.
- 1. A Notice of Intent to Discharge is not required for sewage collection system repairs. Repairs include work performed in response to deterioration or damage of existing structures, devices, and appurtenances with the intent to maintain or restore the system to its original design flow and operational characteristics. Repairs do not include changes in vertical or horizontal alignment.
 - 2. Components used in the repair shall meet the design, installation, and operational requirements of this Section.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-E302. 4.02 General Permit: Septic Tank with Disposal by Trench, Bed, Chamber Technology, or Seepage Pit, Less Than 3000 Gallons Per Day Design Flow

- A.** A 4.02 General Permit allows for the construction and operation of a system with less than 3000 gallons per day design flow consisting of a septic tank dispensing wastewater to an approved means of disposal described in this Section. Only gravity flow of wastewater from the septic tank to the disposal works is authorized by this general permit.
1. The standard septic tank and disposal works design specified in the 4.02 General Permit serves sites where no site limitations are identified by the site investigation conducted under R18-9-A310.
 2. If site conditions allow, this general permit authorizes the discharge of wastewater from a septic tank meeting the requirements of R18-9-A314 to one of the following disposal works:
 - a. Trench,
 - b. Bed,
 - c. Chamber technology, or
 - d. Seepage pit.
- B.** Performance. An applicant shall design a system consisting of a septic tank and one of the disposal works listed in subsection (A)(2) so that treated wastewater released to the native soil meets the following criteria:
1. TSS of 75 milligrams per liter, 30-day arithmetic mean;
 2. BOD₅ of 150 milligrams per liter, 30-day arithmetic mean;
 3. Total nitrogen (as nitrogen) of 53 milligrams per liter, five-month arithmetic mean; and
 4. Total coliform level of 100,000,000 (Log₁₀ 8) colony forming units per 100 milliliters, 95th percentile.
- C.** Design and installation requirements.
1. General provisions. In addition to the applicable requirements in R18-9-A312, the applicant shall:
 - a. Ensure that the septic tank meets the requirements specified in R18-9-A314;
 - b. Before placing aggregate or disposal pipe in a prepared excavation, remove all smeared or compacted surfaces from trenches by raking to a depth of 1 inch and removing loose material. The applicant shall:
 - i. Place aggregate in the trench to the depth and grade specified in subsection (C)(2);
 - ii. Place the drain pipe on aggregate and cover it with aggregate to the minimum depth specified in subsection (C)(2); and
 - iii. Cover the aggregate with landscape filter material, geotextile, or similar porous material to prevent filling of voids with earth backfill;
 - c. Use a grade board stake placed in the trench to the depth of the aggregate if the disposal pipe is constructed of drain tile or flexible pipe that will not maintain alignment without continuous support;
 - d. Disposal pipe. If two or more disposal pipes are installed, install a distribution box approved by the Department of sufficient size to receive all lateral lines and flows at the head of each disposal works and:
 - i. Ensure that the inverts of all outlets are level and the invert of the inlet is at least 1 inch above the outlets;
 - ii. Design distribution boxes to ensure equal flow and install the boxes on a stable level surface

such as a concrete slab or native or compacted soil; and

- iii. Protect concrete distribution boxes from corrosion by coating them with an appropriate bituminous coating, constructing the boxes with concrete that has a 15 to 18 percent fly ash content, or by using other equivalent means;
 - e. Construct all lateral pipes running from a distribution box to the disposal works with watertight joints and ensure that multiple disposal laterals, wherever practical, are of uniform length;
 - f. Lay pipe connections between the septic tank and a distribution box on natural ground or compact fill and construct the pipe connections with watertight joints;
 - g. Construct steps within distribution line trenches or beds, if necessary, to maintain a level disposal pipe on sloping ground. The applicant shall construct the lines between each horizontal section with watertight joints and install them on natural or unfilled ground; and
 - h. Ensure that a disposal works consisting of trenches, beds, chamber technology, or seepage pits is not paved over or covered by concrete or any material that can reduce or inhibit possible evaporation of wastewater through the soil to the land surface or oxygen transport to the soil absorption surfaces.
2. Trenches.
- a. The applicant shall calculate the trench absorption area as the total of the trench bottom area and the sum of both trench sidewall areas to a maximum depth of 48 inches below the bottom of the disposal pipe.
 - b. The applicant shall ensure that trench bottoms and disposal pipe are level. The applicant shall calculate trench sizing from the soil absorption rate specified under R18-9-A312(D) and the design flow established in R18-9-A312(B).
 - c. The following design criteria for trenches apply:

Trenches	Minimum	Maximum
1. Number of trenches	1 (2 are recommended)	No Maximum
2. Length of trench ¹	----	100 feet
3. Bottom width of trench	12 inches	36 inches
4. Trench absorption area (sq. ft. of absorption area per linear foot of trench)	No Minimum	11 sq. ft.
5. Depth of cover over aggregate surrounding disposal pipe	9 inches	24 inches ²

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

6. Thickness of aggregate material over disposal pipe	2 inches	2 inches
7. Thickness of aggregate material under disposal pipe	12 inches	No Maximum
8. Slope of disposal pipe	Level	Level
9. Disposal pipe diameter	3 inches	4 inches
10. Spacing of trenches (measured between nearest side-walls)	2 times effective depth ³ or five feet, whichever is greater	No Maximum
Notes:		
1. If unequal trench lengths are used, proportional distribution of wastewater is required.		
2. For more than 24 inches, Standard Dimensional Ratio 35 or equivalent strength pipe is required.		
3. The effective depth is the distance between the bottom of the disposal pipe and the bottom of the trench bed.		

- d. The applicant may substitute clean, durable, crushed, and washed recycled concrete for aggregate if noted in design documents and the trench absorption area calculation excludes the trench bottom.

3. Beds. An applicant shall:

- a. If a bed is installed, use the soil absorption rate specified in R18-9-A312(D) for "SAR, Bed. The applicant may, in computing the bed bottom absorption area, include the bed bottom and the perimeter sidewall area not more than 36 inches below the disposal pipe;
- b. Comply with the following design criteria for beds:

Gravity Beds	Minimum	Maximum
1. Number of disposal pipes	2	No Maximum
2. Length of bed	No Minimum	100 feet
3. Distance between disposal pipes	4 feet	6 feet
4. Spacing of beds measured between nearest sidewalls	2 times effective depth ¹ or 5 feet, whichever is greater	No Maximum
5. Width of bed	10 feet	12 feet
6. Distance from disposal pipe to sidewall	3 feet	3 feet
7. Depth of cover over disposal pipe	9 inches	14 inches
8. Thickness of aggregate material under disposal pipe	12 inches	No Maximum
9. Thickness of aggregate material over disposal pipe	2 inches	2 inches
10. Slope of disposal pipe	Level	Level
11. Disposal pipe diameter	3 inches	4 inches
Note:		
1. The effective depth is the distance between the bottom of the disposal pipe and the bottom of the bed.		

4. Chamber technology. An applicant shall:

- a. Calculate an effective chamber absorption area to size the disposal works area and determine the number of chambers needed. The effective absorption area of each chamber is calculated as follows:

$$A = (1.8 \times B \times L) + (2 \times V \times L)$$
i. "A" is the effective absorption area of each chamber,

- ii. "B" is the exterior width of the bottom of the chamber,
- iii. "V" is the vertical height of the louvered sidewall of the chamber, and
- iv. "L" is the length of the chamber;
- b. Calculate the disposal works size and number of chambers from the effective absorption area of each chamber and the soil absorption rates specified in R18-9-A312(D);
- c. Ensure that the sidewall of the chamber provides at least 35 percent open area for sidewall credit and that the design and construction minimizes the movement of fines into the chamber area. The applicant shall not use filter fabric or geotextile against the sidewall openings.
5. Seepage pits. If allowed by R18-9-A311(B)(1), the applicant shall:
- a. Design a seepage pit to comply with R18-9-A312(E)(1) for minimum vertical separation distance;
- b. Ensure that multiple seepage pit installations are served through a distribution box approved by the Department or connected in series with a watertight connection laid on undisturbed or compacted soil. The applicant shall ensure that the outlet from the pit has a sanitary tee with the vertical leg extending at least 12 inches below the inlet;
- c. Ensure that each seepage pit is circular and has an excavated diameter of 4 to 6 feet. If multiple seepage pits are installed, ensure that the minimum spacing between seepage pit sidewalls is 12 feet or three times the diameter of the seepage pit, whichever is greater. The applicant may use the alternative design procedure specified in R18-9-A312(G) for a proposed seepage pit more than 6 feet in diameter;
- d. For a gravel filled seepage pit, backfill the entire pit with aggregate. The applicant shall ensure that each pit has a breather conductor pipe that consists of a perforated pipe at least 4 inches in diameter, placed vertically within the backfill of the pit. The pipe shall extend from the bottom of the pit to within 12 inches below ground level;
- e. For a lined, hollow seepage pit, lay a concrete liner or a liner of a different protective material in the pit on a firm foundation and fill excavation voids behind the liner with at least 9 inches of aggregate;
- f. For the cover of a lined seepage pit, use an approved one or two piece reinforced concrete slab with a minimum compressive strength of 2500 pounds per square inch. The applicant shall ensure that the cover:
- i. Is at least 5 inches thick and designed to support an earth load of at least 400 pounds per square foot;
- ii. Has a 12-inch square or diameter minimum access hole with a plug or cap that is coated on the underside with a protective bituminous seal, constructed of concrete with 15 percent to 18 percent fly ash content, or made of other nonpermeable protective material; and
- iii. Has a 4 inch or larger inspection pipe placed vertically not more than 6 inches below ground level;
- g. Ensure that the top of the seepage pit cover is 4 to 18 inches below the surface of the ground;

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

- h. Install a vented inlet fitting in every seepage pit to prevent flows into the seepage pit from damaging the sidewall. An applicant may use a 1/4 bend fitting placed through an opening in the top of the slab cover if a one or two piece concrete slab cover inlet is used;
 - i. Bore seepage pits five feet deeper than the proposed pit depth to verify underlying soil characteristics and backfill the five feet of overdrill with low permeability drill cuttings or other suitable material;
 - j. Backfill seepage pits that terminate in gravelly, coarse sand zones five feet above the beginning of the zone with low permeability drill cuttings or other suitable material;
 - k. Determine the minimum sidewall area for a seepage pit from the design flow and the soil absorption rate derived from the testing procedure described in R18-9-A310(G). The effective absorption surface for a seepage pit is the sidewall area only. The sidewall area is calculated using the following formula:

$$A = 3.14 \times D \times H$$
 - i. "A" is the minimum sidewall area in square feet needed for the design flow and soil absorption rate for the installation,
 - ii. "D" is the diameter of the proposed seepage pit in feet,
 - iii. "H" is the vertical height in feet in the seepage pit through which wastewater infiltrates native soil. The applicant shall ensure that H is at least 10 feet for any seepage pit.
- D. Operation and maintenance.** The permittee shall follow the applicable operation and maintenance requirements in R18-9-A313.
- Historical Note**
- New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).
- R18-9-E303. 4.03 General Permit: Composting Toilet, Less Than 3000 Gallons Per Day Design Flow**
- A.** A 4.03 General Permit allows for the use of a composting toilet with less than 3000 gallons per day design flow.
- 1. **Definition.** For purposes of this Section, "composting toilet" means a manufactured turnkey or kit form treatment technology that receives human waste from a waterless toilet directly into an aerobic composting chamber where dehydration and biological activity reduce the waste volume and the content of nutrients and harmful microorganisms to an appropriate level for later disposal at the site or by other means.
 - 2. An applicant may use a composting toilet if:
 - a. Limited water availability prevents use of other types of on-site wastewater treatment facilities,
 - b. Environmental constraints prevent the discharge of wastewater or nutrients to a sensitive area,
 - c. Inadequate space prevents use of other systems,
 - d. Severe site limitations exist that make other forms of treatment or disposal unacceptable, or
 - e. The applicant desires maximum water conservation.
 - 3. A permittee may use a composting toilet only if:
 - a. Wastewater is managed as provided in this Section and, if gray water is separated and reused, the gray water reuse complies with 18 A.A.C. 9, Article 7; and
 - b. Soil conditions support subsurface disposal of all wastewater sources.
- B. Restrictions.**
- 1. A permittee shall ensure that no more than 50 persons per day use the composting toilet.
 - 2. A composting toilet shall only receive human excrement unless the manufacturer's specifications allow the deposit of kitchen or other wastes into the toilet.
- C. Performance.** An applicant shall ensure that:
- 1. The composting toilet provides containment to prevent the discharge of toilet contents to the native soil except leachate, which may drain to the wastewater disposal works described in subsection (F);
 - 2. The composting toilet limits access by vectors to the contained waste; and
 - 3. Wastewater is disposed into the subsurface to prevent any wastewater from surfacing.
- D. Notice of Intent to Discharge.** In addition to the Notice of Intent to Discharge requirements specified in R18-9-A301(B) and R18-9-A309(B), the applicant shall submit the following information:
- 1. **Composting toilet.**
 - a. The name and address of the composting toilet system manufacturer;
 - b. A copy of the manufacturer's warranty, and the specifications for installation operation, and maintenance;
 - c. The product model number;
 - d. Composting rate, capacity, and waste accumulation volume calculations;
 - e. Documentation of listing by a national listing organization indicating that the composting toilet meets the stated manufacturer's specifications for loading, treatment performance, and operation, unless the composting toilet is listed under R18-9-A309(E) or is a component of a reference design approved by the Department;
 - f. The method of vector control;
 - g. The planned method and frequency for disposing the composted human excrement residue; and
 - h. The planned method for disposing of the drainage from the composting unit; and
 - 2. **Wastewater.**
 - a. The number of bedrooms in the dwelling or persons served on a daily basis, as applicable, and the corresponding design flow of the disposal works for the wastewater;
 - b. The results from soil evaluation or percolation testing that adequately characterize the soils into which the wastewater will be dispersed and the locations of soil evaluation and percolation testing on the site plan; and
 - c. The design for the disposal works in subsection (F), including the location of the interceptor, the location and configuration of the trench or bed used for wastewater dispersal, the location of connecting wastewater pipelines, and the location of the reserve area.
- E. Design requirements for a composting toilet.** An applicant shall ensure that:
- 1. The composting chamber is watertight, constructed of solid durable materials not subject to excessive corrosion or decay, and is constructed to exclude access by vectors;
 - 2. The composting chamber has airtight seals to prevent odor or toxic gas from escaping into the building. The system may be vented to the outside;

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

3. The capacity of the chamber and rate of composting are calculated based on:
- The lowest monthly average chamber temperature; or
 - The yearly average chamber temperature, if the composting toilet is designed to compost on a yearly cycle or longer; and
4. The composting system provides adequate storage of all waste produced during the months when the average temperature is below 55°F, unless a temperature control device is installed to increase the composting rate and reduce waste volume.
- F. Design requirements for the disposal works.**
- Interceptor. An applicant shall ensure that the design complies with the following:
 - Wastewater passes into an interceptor before it is conducted to the subsurface for dispersal;
 - The interceptor is designed to remove grease, oil, fibers, and solids to ensure long-term performance of the trench or bed used for subsurface dispersal;
 - The interceptor is covered to restrict access and eliminate habitat for mosquitoes and other vectors; and
 - Minimum interceptor size is based on design flow.
 - For a dwelling, the following apply:

No. of Bedrooms	Design Flow (gallons per day)	Minimum Interceptor Size (gallons)	
		Kitchen Wastewater Only (All gray water sources are collected and reused)	Combined Non-Toilet Wastewater (Gray water is not separated and reused)
1 (7 fixture units or less)	90	42	200
1-2 (greater than 7 fixture units)	180	84	400
3	270	125	600
4	330	150	700
5	380	175	800
6	420	200	900
7	460	225	1000
 - For other than a dwelling, minimum interceptor size in gallons is 2.1 times the design flow from Table 1, Unit Design Flows.
 - Dispersal of wastewater. An applicant shall ensure that the design complies with the following:
 - A trench or bed is used to disperse the wastewater into the subsurface;
 - Sizing of the trench or bed is based on the design flow of wastewater as determined in subsection (F)(1)(d) and an SAR determined under R18-9-A312(D);
 - The minimum vertical separation from the bottom of the trench or bed to a limiting subsurface condition is at least 5 feet; and
 - Other aspects of trench or bed design follow R18-9-E302, as applicable.
3. Setback distances. Setback distances are no less than 1/4 of the setback distances specified in R18-9-A312(C), but not less than 5 feet, except the setback distance from wells is 100 feet.
- G. Operation and maintenance requirements. A permittee shall:**
- Composting toilet.
 - Provide adequate mixing, ventilation, temperature control, moisture, and bulk to reduce fire hazard and prevent anaerobic conditions;
 - Follow manufacturer's specifications for addition of any organic bulking agent to control liquid drainage, promote aeration, or provide additional carbon;
 - Follow the manufacturer's specifications for operation and maintenance regarding movement of material within the composting chamber;
 - If batch system containers are mounted on a carousel, place a new container in the toilet area if the previous one is full;
 - Ensure that only human waste, paper approved for septic tank use, and the amount of bulking material required for proper maintenance is introduced to the composting chamber. The permittee shall remove all other materials or trash. If allowed by the manufacturer's specifications the permittee may add, other nonliquid compostable food preparation residues to the toilet;
 - Ensure that any liquid end product is:
 - Sprayed back onto the composting waste material;
 - Removed by a person who licensed a vehicle under 18 A.A.C. 13, Article 11; or
 - Is drained to the interceptor described in subsection (F);
 - Remove and dispose of composted waste as necessary, using a person who licensed a vehicle under 18 A.A.C. 13, Article 11 if the waste is not placed in a disposal area for burial or used on-site as mulch;
 - Before ending use for an extended period take measures to ensure that moisture is maintained to sustain bacterial activity and free liquids in the chamber do not freeze; and
 - After an extended period of non-use, empty the composting chamber of solid end product and inspect all mechanical components to verify that the mechanical components are operating as designed;
 - Wastewater Disposal Works.
 - Ensure that the interceptor is maintained regularly according to manufacturer's instructions to prevent grease and solid wastes from impairing performance of the trench or bed used for dispersal of wastewater, and
 - Protect the area of the trench or bed from soil compaction or other activity that will impair dispersal performance.
- H. Reference design.**
- An applicant may use a composting toilet that achieves the performance requirements in subsection (C) by following a reference design on file with the Department.
 - The applicant shall file a form provided by the Department for supplemental information about the proposed

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

system with the applicant's submittal of the Notice of Intent to Discharge.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-E304. 4.04 General Permit: Pressure Distribution System, Less Than 3000 Gallons Per Day Design Flow

- A.** A 4.04 General Permit allows for the use of a pressurized distribution of wastewater system with a design flow less than 3000 gallons per day that treats wastewater to a level equal to or better than that specified in R18-9-E302(B).
1. Definition. For purposes of this Section, a "pressure distribution system" means a tank, pump, controls, and piping that conducts wastewater under pressure in controlled amounts and intervals to a bed or trench or other means of distribution authorized by a general permit for an on-site wastewater treatment facility.
 2. An applicant may use a pressure distribution system if a gravity flow system is unsuitable, inadequate, unfeasible, or cost prohibitive because of site limitations or other conditions, or if needed to optimally distribute wastewater.
- B.** Performance. An applicant shall ensure that a pressure distribution system:
1. Disperses wastewater so that:
 - a. Loading rates are optimized for the intended purpose, and
 - b. The wastewater is delivered under pressure and evenly distributed within the disposal works, and
 2. Prevents ponding on the land surface.
- C.** Notice of Intent to Discharge. In addition to the Notice of Intent to Discharge requirements specified in R18-9-A301(B) and R18-9-A309(B), the applicant shall submit:
1. A copy of operation, maintenance, and warranty materials for the principal components; and
 2. A copy of dosing specifications, including pump curves, dispersing component details, and float control settings.
- D.** Design requirements.
1. Pumps. An applicant shall ensure that pumps used in the on-site wastewater treatment facility:
 - a. Are rated for wastewater service by the manufacturer and certified by Underwriters Laboratories;
 - b. Achieve the minimum design flow rate and total dynamic head requirements for the particular site; and
 - c. Incorporate a quick disconnect using compression-type unions for pressure connections. The applicant shall ensure that:
 - i. Quick-disconnects are accessible in the pressure piping, and
 - ii. A pump has adequate lift attachments for removal and replacement of the pump and switch assembly without entering the dosing tank or process chamber.
 2. Switches, controls, alarms, timers, and electrical components. An applicant shall ensure that:
 - a. Switches and controls accommodate the minimum and maximum dose capacities of the distribution network design. The applicant shall not use pressure diaphragm level control switches;
 - b. Fail-safe controls that can be tested in the field are used to prevent discharge of inadequately treated wastewater. The applicant shall include counters or flow meters if critical to control functions, such as timed dosing;
- c.** Control panels and alarms:
- i. Are mounted in an exterior location visible from the dwelling,
 - ii. Provide manual pump switch and alarm test features, and
 - iii. Include written instructions covering standard operation and alarm events;
- d.** Audible and visible alarms are used for all critical control functions, such as pump failures, treatment failures, and excess flows. The applicant shall ensure that:
- i. The visual portion of the signal is conspicuous from a distance 50 feet from the system and its appurtenances;
 - ii. The audible portion of the signal is between 70 and 75 db at 5 feet and is discernible from a distance of 50 feet from the system and its appurtenances; and
 - iii. Alarms, test features, and controls are on a non-dedicated electrical circuit associated with a frequently used household lighting fixture and separate from the dedicated circuit for the pump;
- e.** All electrical wiring complies with the National Electrical Code, 2005 Edition, published by the National Fire Protection Association. This material is incorporated by reference and does not include any later amendments or editions of the incorporated material. Copies of the incorporated material are available for inspection at the Arizona Department of Environmental Quality, 1110 W. Washington, Phoenix, AZ 85007 or may be obtained from the National Fire Protection Association, 1 Batterymarch Park, P.O. Box 9101, Quincy, MA 02269-9101. The applicant shall ensure that:
- i. Connections are made using National Electrical Manufacturers Association (NEMA) 4x junction boxes certified by Underwriters Laboratories; and
 - ii. All controls are in NEMA 3r, 4, or 4x enclosures for outdoor use.
- 3.** Dosing tanks and wastewater distribution components.
- a.** An applicant shall:
- i. Design dosing tanks to withstand anticipated internal and external loads under full and empty conditions, and design concrete tanks to meet the "Standard Specification for Precast Concrete Water and Wastewater Structures, C913-02 (2002)," published by the American Society for Testing and Materials. This material is incorporated by reference and does not include any later amendments or editions of the incorporated material. Copies of the incorporated material are available for inspection at the Arizona Department of Environmental Quality, 1110 W. Washington, Phoenix, AZ 85007 or may be obtained from the American Society for Testing and Materials International, 100 Barr Harbor Drive, West Conshohocken, PA 19428-2959;
 - ii. Design dosing tanks to be easily accessible and have secured covers;

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

- iii. Install risers to provide access to the inlet and outlet of the tank and to service internal components;
 - iv. Ensure that the volume of the dosing tank accommodates bottom depth below maximum drawdown, maximum design dose, including any drainback, volume to high water alarm, and a reserve volume above the high water alarm level that is not less than the daily design flow volume. If the tank is time dosed, the applicant shall ensure that the combined surge capacity and reserve volume above the high water alarm is not less than the daily design flow volume;
 - v. Ensure that dosing tanks are watertight and anti-buoyant;
 - vi. Design the wastewater distribution components to withstand system pumping pressures;
 - vii. Design the wastewater distribution system to allow air to purge from the system;
 - viii. Design pressure piping to minimize freezing during cold weather;
 - ix. Ensure that the end of each wastewater distribution line is accessible for maintenance;
 - x. Ensure that orifices emit the design discharge rate uniformly throughout the wastewater distribution system; and
 - xi. Design orifices using orifice shields to provide proper distribution of wastewater to the receiving medium.
- b. An applicant may use a septic tank second compartment or a second septic tank in series as a dosing tank if all dosing tank requirements of this Section are met and a screened vault is used instead of the septic tank effluent filter.
4. Design SAR. If the site conditions of the property for the on-site wastewater treatment facility do not require pressure distribution, but an applicant chooses to use pressure distribution, the applicant shall use a design SAR for the absorption surfaces in the disposal works that is not more than 1.10 times the adjusted SAR determined in R18-9-A312(D).
- E. Additional Discharge Authorization requirements.** An applicant shall obtain copies of instructions for the critical controls of the system from the person who installed the pressure distribution system. The applicant shall submit one copy of the instructions with the information required in subsection (C).
- F. Operation and maintenance requirements.** In addition to the applicable requirements specified in R18-9-A313(B), a permittee shall ensure that:
- 1. The operation and maintenance manual for the on-site wastewater treatment facility that supplies the wastewater to the pressure distribution system specifies inspection and maintenance needed for the following items:
 - a. Sludge level in the bottom of the treatment and dosing tanks,
 - b. Watertightness,
 - c. Condition of electrical and mechanical components, and
 - d. Piping and other components functioning within design limits;
 - 2. All critical control functions are specified in the operation and maintenance manual for testing to demonstrate compliance with design specifications, including:
 - a. Alarms, test features, and controls;
 - b. Float switch level settings;
 - c. Dose rate, volume, and frequency, if applicable;
 - d. Distal pressure or squirt height, if applicable; and
 - e. Voltage test on pumps, motors, and controls, as applicable;
 - 3. The finished grade is observed and maintained for proper surface drainage. The applicant shall observe the levelness of the tank for differential settling. If there is settling, the applicant shall grade the facility to maintain surface drainage.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-E305. 4.05 General Permit: Gravelless Trench, Less Than 3000 Gallons Per Day Design Flow

- A.** A 4.05 General Permit allows for the use of a gravelless trench with less than 3000 gallons per day design flow receiving wastewater treated to a level equal to or better than that specified in R18-9-E302(B).
- 1. Definition. For purposes of this Section, a “gravelless trench” means a disposal technology characterized by installation of a proprietary pipe and geocomposite or other substitute media into native soil instead of the distribution pipe and aggregate fill used in a trench allowed in R18-9-E302.
 - 2. A permittee may use a gravelless trench if suitable gravel or volcanic rock aggregate is unavailable, excessively expensive, or if adverse site conditions make movement of gravel difficult, damaging, or time consuming.
- B.** Performance. An applicant shall design a gravelless trench so that treated wastewater released to the native soil meets the following criteria:
- 1. TSS of 75 milligrams per liter, 30-day arithmetic mean;
 - 2. BOD₅ of 150 milligrams per liter, 30-day arithmetic mean;
 - 3. Total nitrogen (as nitrogen) of 53 milligrams per liter, 5-month arithmetic mean; and
 - 4. Total coliform level of 100,000,000 (Log₁₀ 8) colony forming units per 100 milliliters, 95th percentile.
- C.** Notice of Intent to Discharge. In addition to the Notice of Intent to Discharge requirements specified in R18-9-A301(B) and R18-9-A309(B), an applicant shall submit the following:
- 1. The soil absorption area that would be required if a conventional disposal trench filled with aggregate was used at the site,
 - 2. The configuration and size of the proposed gravelless disposal works, and
 - 3. The manufacturer’s installation instructions and warranty of performance for absorbing wastewater into the native soil.
- D.** Design requirements. In addition to the applicable requirements in R18-9-A312, an applicant shall:
- 1. Ensure that the top of the gravelless disposal pipe or similar disposal mechanism is at least 6 inches below the surface of the native soil and 12 to 36 inches below finished grade if approved fill is placed on top of the installation;
 - 2. Calculate the infiltration surface as follows:
 - a. For 8-inch diameter pipe, 2 square feet of absorption area is allowed per linear foot;
 - b. For 10-inch diameter pipe, 3 square feet of absorption area is allowed per linear foot;
 - c. For bundles of two pipes of the same diameter, the absorption area is calculated as 1.67 times the absorption area of one pipe; and

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

- d. For bundles of three pipes of the same diameter, the absorption area is calculated as 2.00 times the absorption area of one pipe;
- 3. Use a pressure distribution system meeting the requirements of R18-9-E304 in medium sand, coarse sand, and coarser soils; and
- 4. Construct the drainfield of material that will not decay, deteriorate, or leach chemicals or byproducts if exposed to sewage or the subsurface soil environment.
- E. Installation requirements. In addition to the applicable requirements in R18-9-A313(A), an applicant shall:
 - 1. Install the gravelless pipe material according to manufacturer's instructions if the instructions are consistent with this Chapter,
 - 2. Ensure that the installed disposal system can withstand the physical disturbance of backfilling and the load of any soil cover above natural grade placed over the installation, and
 - 3. Shape any backfill and soil cover in the area of installation to prevent settlement and ponding of rainfall for the life of the disposal works.
- F. Operation and maintenance requirements. In addition to the applicable requirements in R18-9-A313(B), the permittee shall inspect the finished grade in the vicinity of the gravelless disposal works for maintenance of proper drainage and protection from damaging loads.
- D. Notice of Intent to Discharge. In addition to the Notice of Intent to Discharge requirements in R18-9-A301(B) and R18-9-A309(B), an applicant shall submit:
 - 1. Capillary rise potential test results for the media used to fill the evapotranspiration bed, unless sand meeting a D_{50} of 0.1 millimeter (50 percent by weight of grains equal to or smaller than 0.1 millimeter) is used; and
 - 2. Water mass balance calculations used to size the evapotranspiration bed.
- E. Design requirements. An applicant shall:
 - 1. Ensure that the evapotranspiration bed is from 18 to 36 inches deep and shall calculate the bed design based on the capillary rise of the bed media, following the "Standard Test Method for Capillary-Moisture Relationships for Coarse- and Medium-Textured Soils by Porous-Plate Apparatus, D2325-68 (2000)," incorporated by reference in R18-9-E307(E), and the anticipated maximum frost depth;
 - 2. Ensure the media is sand or other durable material;
 - 3. Base design area calculations on a water mass balance for the winter months and the design seepage rate;
 - 4. Ensure that the natural seal liner is a durable, low-hydraulic conductivity liner and is accompanied by the liner performance specification and calculations for bottom and sidewall seepage rate;
 - 5. If a surfacing layer is used, use topsoil, dark cinders, decomposed granite, or similar landscaping material placed to a maximum depth of 2 inches and ensure that:
 - a. If topsoil is used as a surfacing layer for growth of landscape plants:
 - i. The topsoil is a fertile, friable soil obtained from well-drained arable land;
 - ii. The topsoil is free of nut grass, refuse, roots, heavy clay, clods, noxious weeds, or any other material toxic to plant growth;
 - iii. The pH of the topsoil is between 5.5 and 8.0;
 - iv. The plasticity index of the topsoil is between 3 and 15; and
 - v. The topsoil contains approximately 1-1/2 percent organic matter, by dry weight, either natural or added;
 - b. If landscaping material other than topsoil is used as a surfacing layer, the material meets the following gradation:

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-E306. 4.06 General Permit: Natural Seal Evapotranspiration Bed, Less Than 3000 Gallons Per Day Design Flow

- A. A 4.06 General Permit allows for the use of a natural seal evapotranspiration bed with less than 3000 gallons per day design flow receiving wastewater treated to a level equal to or better than that specified in R18-9-E302(B).
 - 1. Definition. For purposes of this Section, a "natural seal evapotranspiration bed" means a disposal technology characterized by a bed of sand or other media with an internal wastewater distribution system, contained on the bottom and sidewalls by an engineered liner consisting of natural soil and clay materials.
 - 2. An applicant may use a natural seal evapotranspiration bed if site conditions restrict soil infiltration or require reduction of the volume of wastewater discharged to the native soil underlying the natural seal liner.
- B. Restrictions. Unless a person provides design documentation to show that a natural seal evapotranspiration bed will properly function, the person shall not install this technology if:
 - 1. Average minimum temperature in any month is 20° F or less,
 - 2. Over 1/3 of the average annual precipitation falls in a 30-day period, or
 - 3. Design flow exceeds net evaporation.
- C. Performance. An applicant shall ensure that a natural seal evapotranspiration bed:
 - 1. Minimizes discharge to the native soil through the natural seal liner,
 - 2. Maximizes wastewater disposed to the atmosphere by evapotranspiration, and
 - 3. Prevents ponding of wastewater on the bed surface and maintains an interval of unsaturated media directly beneath the bed surface.
- 6. Use shallow-rooted, non-invasive, salt- and drought-tolerant evergreens if vegetation is planted on the evapotranspiration bed;
- 7. Install at least two observation ports to determine the level of the liquid surface of wastewater within the evapotranspiration bed;
- 8. Design the bed to pump out the saturated zone if accumulated salts or a similar condition impairs bed performance; and
- 9. Instead of the minimum vertical separation required under R18-9-A312(E), ensure that the minimum vertical

Sieve Size	Percent Passing

No. 200	15-70

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

separation from the bottom of the natural seal evapotranspiration bed liner to the seasonal high water table is at least 12 inches.

- F.** Installation requirements. In addition to the applicable requirements in R18-9-A313(A), an applicant shall ensure that:
1. The liner covers the bottom and all sidewalls of the bed and is installed on a stable base according to the manufacturer's installation specifications;
 2. If the inlet pipe passes through the liner, the joint is tightly sealed to minimize leakage during the operational life of the facility;
 3. The liner is leak tested under the supervision of an Arizona-registered professional engineer to confirm the design leakage rate; and
 4. A 2- to 4-inch layer of 1/2- to 1-inch gravel or crushed stone is placed around the distribution pipes within the bed. The applicant shall ensure that the filter cloth is placed on top of the gravel or crushed stone to prevent sand from settling into the gravel or crushed stone.
- G.** Additional Discharge Authorization requirements. An applicant shall submit the satisfactory results of the leakage test required under subsection (F)(3) to the Department before the Department issues the Discharge Authorization.
- H.** Operation and maintenance requirements. In addition to the applicable requirements in R18-9-A313(B), the permittee shall:
1. Not allow irrigation of an evapotranspiration bed, and
 2. Protect the bed from vehicle loads and other damaging activities.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-E307. 4.07 General Permit: Lined Evapotranspiration Bed, Less Than 3000 Gallons Per Day Design Flow

- A.** A 4.07 General Permit allows for the use of a lined evapotranspiration bed receiving wastewater treated to a level equal to or better than that specified in R18-9-E302(B).
1. Definition. For purposes of this Section, a "lined evapotranspiration bed" means a disposal technology characterized by a bed of sand or other media with an internal wastewater distribution system contained on the bottom and sidewalls by an impervious synthetic liner.
 2. An applicant may use a lined evapotranspiration bed if site conditions restrict soil infiltration or require reduction or elimination of the volume of wastewater or nitrogen load discharged to the native soil.
 3. Provision of a reserve area is not required for a lined evapotranspiration bed.
- B.** Restrictions. Unless a person provides design documentation to show that a lined evapotranspiration bed will properly function, the person shall not install this technology if:
1. Average minimum temperature in any month is 20° F or less,
 2. Over 1/3 of average annual precipitation falls in a 30-day period, or
 3. Design flow exceeds net evaporation.
- C.** Performance. An applicant shall ensure that a lined evapotranspiration bed:
1. Prevents discharge to the native soil by a synthetic liner,
 2. Attains full disposal of wastewater to the atmosphere by evapotranspiration, and

3. Prevents ponding of wastewater on the bed surface and maintains an interval of unsaturated media directly beneath the bed surface.
- D.** Notice of Intent to Discharge. In addition to the Notice of Intent to Discharge requirements specified in R18-9-A301(B) and R18-9-A309(B), an applicant shall submit:
1. Capillary rise potential test results for the media used to fill the evapotranspiration bed, unless sand meeting a D_{50} of 0.1 millimeter (50 percent by weight of grains equal to or smaller than 0.1 millimeter in size) is used; and
 2. Water mass balance calculations used to size the evapotranspiration bed.
- E.** Design requirements. In addition to the applicable requirements in R18-9-A312, an applicant shall:
1. Ensure that the evapotranspiration bed is from 18 to 36 inches deep and calculate the bed design on the basis of the capillary rise of the bed media, according to the "Standard Test Method for Capillary-Moisture Relationships for Coarse- and Medium-Textured Soils by Porous-Plate Apparatus, D2325-68 (2003)," published by the American Society for Testing and Materials and the anticipated maximum frost depth. This material is incorporated by reference and does not include any later amendments or editions of the incorporated material. Copies of the incorporated material are available for inspection at the Arizona Department of Environmental Quality, 1110 W. Washington, Phoenix, AZ 85007 or may be obtained from the American Society for Testing and Materials International, 100 Barr Harbor Drive, West Conshohocken, PA 19428-2959;
 2. Ensure the media is sand or other durable material;
 3. Base design area calculations on a water mass balance for the winter months;
 4. Ensure that the evapotranspiration bed liner is a durable, low hydraulic conductivity synthetic liner that has a calculated bottom area and sidewall seepage rate of less than 550 gallons per acre per day;
 5. If a surfacing layer is used, use topsoil, dark cinders, decomposed granite, or similar landscaping material placed to a maximum depth of 2 inches. The applicant shall ensure that:
 - a. If topsoil is used as a surfacing layer for growth of landscape plants:
 - i. The topsoil is a fertile, friable soil obtained from well-drained arable land;
 - ii. The topsoil is free of nut grass, refuse, roots, heavy clay, clods, noxious weeds, or any other material toxic to plant growth;
 - iii. The pH of the topsoil is between 5.5 and 8.0;
 - iv. The plasticity index of the topsoil is between 3 and 15; and
 - v. The topsoil contains approximately 1 1/2 percent organic matter, by dry weight, either natural or added;
 - b. If another landscaping material is used as a surfacing layer, the material meets the following gradation:

Sieve Size	Percent Passing
1"	100
1/2"	95-100
No. 4	90-100
No. 10	70-100
No. 200	15-70

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

6. Use shallow-rooted, non-invasive, salt and drought tolerant evergreens if vegetation is planted on the evapotranspiration bed;
 7. Install at least two observation ports to allow determination of the depth to the liquid surface of wastewater within the evapotranspiration bed;
 8. Design the bed to pump out the saturated zone if accumulated salts or a similar condition impairs bed performance; and
 9. Instead of the minimum vertical separation required under R18-9-A312(E), ensure that the minimum vertical separation from the bottom of the evapotranspiration bed liner to the surface of the seasonal high water table or impervious layer or formation is at least 12 inches.
- F.** Installation requirements. In addition to the applicable requirements in R18-9-A313(A), an applicant shall ensure that:
1. All liner seams are factory fabricated or field welded according to manufacturer's specifications. The applicant shall ensure that:
 2. The liner covers the bottom and all sidewalls of the bed and is cushioned on the top and bottom with layers of sand at least 2 inches thick or other puncture-protective material;
 3. If the inlet pipe passes through the liner, the joint is tightly sealed to minimize leakage during the operational life of the facility;
 4. The liner is leak tested under the supervision of an Arizona-registered professional engineer; and
 5. A 2- to 4-inch layer of one-half to 1-inch gravel or crushed stone is placed around the distribution pipes within the bed. The applicant shall place filter cloth on top of the gravel or crushed stone to prevent sand from settling into the crushed stone or gravel.
- G.** Additional Discharge Authorization requirements. An applicant shall submit the liner test results sealed by an Arizona-registered professional engineer to the Department for issuance of the Discharge Authorization.
- H.** Operation and maintenance requirements. In addition to the applicable requirements in R18-9-A313(B), the permittee shall:
1. Not allow irrigation of an evapotranspiration bed; and
 2. Protect the bed from vehicle loads and other damaging activities.
- c. Wastewater treated by passage through the mound before percolation into the native soil below the mound.
2. An applicant may use a Wisconsin mound if:
- a. The native soil has excessively high or low permeability,
 - b. There is little native soil overlying fractured or excessively permeable rock, or
 - c. A reduction in minimum vertical separation is desired.
- B.** Performance. An applicant shall design a Wisconsin mound so that treated wastewater released to the native soil meets the following criteria:
1. Performance Category A.
 - a. TSS of 20 milligrams per liter, 30-day arithmetic mean;
 - b. BOD₅ of 20 milligrams per liter, 30-day arithmetic mean;
 - c. Total nitrogen (as nitrogen) of 53 milligrams per liter, 5-month arithmetic mean; and
 - d. Total coliform level of 1000 (Log₁₀ 3.0) colony forming units per 100 milliliters, 95th percentile; or
 2. Performance Category B.
 - a. TSS of 30 milligrams per liter, 30-day arithmetic mean;
 - b. BOD₅ of 30 milligrams per liter, 30-day arithmetic mean;
 - c. Total nitrogen (as nitrogen) of 53 milligrams per liter, 5-month arithmetic mean; and
 - d. Total coliform level of 300,000 (Log₁₀ 5.5) colony forming units per 100 milliliters, 95th percentile.
- C.** Notice of Intent to Discharge. In addition to the Notice of Intent to Discharge requirements specified in R18-9-A301(B) and R18-9-A309(B), an applicant shall submit:
1. Specifications for the internal wastewater distribution system media proposed for use in the Wisconsin mound;
 2. Two scaled or dimensioned cross sections of the mound (one of the shortest basal area footprint dimension and one of the lengthwise dimension); and
 3. Design calculations following the "Wisconsin Mound Soil Absorption System: Siting, Design, and Construction Manual," published by the University of Wisconsin – Madison, January 1990 Edition (the Wisconsin Mound Manual). This material is incorporated by reference and does not include any later amendments or editions of the incorporated material. Copies of the incorporated material are available for inspection at the Arizona Department of Environmental Quality, 1110 W. Washington, Phoenix, AZ 85007 or may be obtained from the University of Wisconsin – Madison, SSWMP, 1525 Observatory Drive, Room 345, Madison, WI 53706.
- D.** Design requirements. In addition to the applicable requirements in R18-9-A312, an applicant shall ensure that:
1. Pressure dosed wastewater is delivered into the Wisconsin mound through a pressurized line and secondary distribution lines into an engineered aggregate infiltration bed, or equivalent system, in conformance with R18-9-E304 and the Wisconsin Mound Manual. The applicant shall ensure that the aggregate is washed;
 2. Wastewater is applied to the inlet surface of the mound media at not more than 1.0 gallon per day per square foot of mound bed inlet surface if the mound bed media conforms with the "Standard Specification for Concrete Aggregates, C33-03 (2003)," published by the American Society for Testing and Materials and the Wisconsin Mound Manual, except if cinder sand is used that is the

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-E308. 4.08 General Permit: Wisconsin Mound, Less Than 3000 Gallons Per Day Design Flow

- A.** A 4.08 General Permit allows for the use of a Wisconsin mound with a design flow of less than 3000 gallons per day receiving wastewater treated to a level equal to or better than that specified in R18-9-E302(B).
1. Definition. For purposes of this Section, a "Wisconsin mound" means a disposal technology characterized by:
 - a. An above-grade bed system that blends with the land surface into which is dispensed pressure dosed wastewater from a septic tank or other upstream treatment device,
 - b. Dispersal of wastewater under unsaturated flow conditions through the engineered media system contained in the mound, and

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

appropriate grade with not more than 5 percent passing a #200 screen. This material is incorporated by reference and does not include any later amendments or editions of the incorporated material. Copies of the incorporated material are available for inspection at the Arizona Department of Environmental Quality, 1110 W. Washington, Phoenix, AZ 85007 or may be obtained from the American Society for Testing and Materials International, 100 Barr Harbor Drive, West Conshohocken, PA 19428-2959. The applicant shall:

- a. For cinder sand, ensure that the rate is not more than 0.8 gallons per day per square foot of mound bed inlet surface; and
 - b. Wash the media used for the mound bed;
 3. The aggregate infiltration bed and mound bed is capped by coarser textured soil, such as sand, sandy loam, or silt loam. An applicant shall not use silty clay, clay loam, or clays;
 4. The cap material is covered by topsoil, following the procedure in the Wisconsin Mound Manual, and the topsoil is capable of supporting vegetation, is not clay, and is graded to drain;
 5. The top and bottom surfaces of the aggregate infiltration bed are level and do not exceed 10 feet in width and that:
 - a. The minimum depth of the aggregate infiltration bed is 9 inches, or
 - b. Synthetic filter fabric permeable to water and air and capable of supporting the cap and topsoil load is placed on the top surface of the aggregate infiltration bed;
 6. The minimum depth of mound bed media is:
 - a. Performance Category A, 24 inches; or
 - b. Performance Category B, 12 inches;
 7. The maximum allowable side slope of the mound bed, cap material, and topsoil is not more than one vertical to three horizontal;
 8. Ports for inspection and monitoring are provided to verify performance, including verification of unsaturated flow within the aggregate infiltration bed. The applicant shall:
 - a. Install a vertical PVC pipe and cap with a minimum diameter of 4 inches as an inspection port at the end of the disposal line, and
 - b. Install the pipe with a physical restraint to maintain pipe position;
 9. The main pressurized line and secondary distribution lines for the aggregate infiltration bed are equipped at appropriate locations with cleanouts to grade;
 10. The following requirements and the setbacks specified in R18-9-A312(C) are observed:
 - a. Increase setbacks for the following downslope features at least 30 feet from the toe of the mound system:
 - i. Property line,
 - ii. Driveway,
 - iii. Building,
 - iv. Ditch or interceptor drain, or
 - v. Any other feature that impedes water movement away from the mound; and
 - b. Ensure that no upslope natural feature or improvement channels surface water or groundwater to the mound area;
 11. The portion of the basal area of native soil below the mound conforms to the Wisconsin Mound Manual. The applicant shall:
 - a. Calculate the absorption of wastewater into the native soil for only the effective basal area;
 - b. Apply the soil absorption rate specified in R18-9-A312(D). The applicant may increase allowable loading rate to the mound bed inlet surface up to 1.6 times if the wastewater dispersed to the mound is pretreated to reduce the sum of TSS and BOD₅ to 60 mg/l or less. The applicant may increase the soil absorption rate to not more than 0.20 gallons per day per square foot of basal area if the following slowly permeable soils underlie the mound:
 - i. Sandy clay loam, clay loam, silty clay loam, or finer with weak platy structure; or
 - ii. Sandy clay loam, clay loam, silty clay loam, or silt loam with massive structure;
 12. The slope of the native soil at the basal area does not exceed 25 percent, and a slope stability analysis is performed whenever the basal area or site slope within 50 horizontal feet from the mound system footprint exceeds 15 percent.
- E. Installation. An applicant shall:
1. Prepare native soil for construction of a Wisconsin mound system. The applicant shall:
 - a. Mow vegetation and cut down trees in the vicinity of the basal area site to within 2 inches of the surface;
 - b. Leave in place boulders and tree stumps and other herbaceous material that would excessively alter the soil structure if removed after mowing and cutting;
 - c. Plow native soil serving as the basal area footprint along the contours to 7- to 8- inch depth;
 - d. Not substitute rototilling for plowing; and
 - e. Begin mound construction immediately after plowing;
 2. Place each layer of the bed system to prevent differential settling and promote uniform density; and
 3. Use the Wisconsin Mound Manual to guide any other detail of installation. The applicant may vary installation procedures and criteria depending on mound design but shall use installation procedures and criteria that are at least equivalent to those in the Wisconsin Mound Manual.
- F. Operation and maintenance requirements. In addition to the applicable requirements specified in R18-9-A313(B), the permittee shall:
1. If an existing mound system shows evidence of overload or hydraulic failure, conduct the following sequence of evaluations:
 - a. Verify the actual loading and performance of the pretreatment system.
 - b. Verify the watertightness of the pretreatment and dosing tanks;
 - c. Determine the dosing rates and dosing intervals to the aggregate infiltration bed and compare it with the original design to evaluate the presence or absence of saturated conditions in the aggregate infiltration bed;
 - d. If the above steps in subsections (F)(1)(a) through (c) do not indicate an anomalous condition, evaluate the site and recalculation of the disposal capability to determine if mound lengthening is feasible;
 - e. Determine if site modifications are possible including changing surface drainage patterns at upgrade locations and lowering the groundwater level by installing interceptor drains to reduce native soil saturation at shallow levels; and
 - f. Determine if the basal area can be increased, consistent with R18-9-A309(A)(9)(b)(iv);

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

2. Prepare servicing and waste disposal procedures and task schedules necessary for clearing the main pressurized wastewater line and secondary distribution lines, septic tank effluent filter, pump intake, and controls.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-E309. 4.09 General Permit: Engineered Pad System, Less Than 3000 Gallons Per Day Design Flow

- A. A 4.09 General Permit allows for the use of an engineered pad system receiving wastewater treated to a level equal to or better than that specified in R18-9-E302(B).
 1. Definition. For purposes of this Section, an "engineered pad system" means a treatment and disposal technology characterized by:
 - a. The delivery of pretreated wastewater by gravity or pressure distribution to the engineered pad and sand bed assembly, followed by dispersal of the wastewater into the native soil; and
 - b. Wastewater movement through the engineered pad and sand bed assembly by gravity under unsaturated flow conditions to provide additional passive biological treatment.
 2. The applicant may use an engineered pad system if:
 - a. The native soil is excessively permeable,
 - b. There is little native soil overlying fractured or excessively permeable rock, or
 - c. The available area is limited for installing a disposal works authorized by R18-9-E302.
- B. Performance. An applicant shall ensure that:
 1. The engineered pad system is designed so that the treated wastewater released to the native soil meets the following criteria:
 - a. TSS of 50 milligrams per liter, 30-day arithmetic mean;
 - b. BOD₅ of 50 milligrams per liter, 30-day arithmetic mean;
 - c. Total nitrogen (as nitrogen) of 53 milligrams per liter, 5-month arithmetic mean; and
 - d. Total coliform level of 1,000,000 (Log₁₀ 6) colony forming units per 100 milliliters, 95th percentile; or
 2. The engineered pad system is designed to meet any other performance, loading rate, and configuration criteria specified in the reviewed product list maintained by the Department as required under R18-9-A309(E).
- C. Notice of Intent to Discharge. In addition to the Notice of Intent to Discharge requirements specified in R18-9-A301(B) and R18-9-A309(B), an applicant shall submit design materials and construction specifications for the engineered pad system.
- D. Design requirements. In addition to the applicable requirements in R18-9-A312, an applicant shall ensure that:
 1. Gravity and pressurized wastewater delivery is from a septic tank or intermediate watertight chamber equipped with a pump and controls. The applicant shall ensure that:
 - a. Delivered wastewater is distributed onto the top of the engineered pad system and achieves even distribution by good engineering practice, and
 - b. The dosing rate for pressurized wastewater delivery is at least four doses per day and no more than 24 doses per day;
 2. The sand bed consists of mineral sand washed to conform to the "Standard Specification for Concrete Aggregates,

C33-03 (2003)," which is incorporated by reference in R18-9-E308(D)(2), unless the performance testing and design specifications of the engineered pad manufacturer justify a substitute specification. The applicant shall ensure that:

- a. The sand bed design provides for the placement of at least 6 inches of sand bed material below and along the perimeter of each pad, and
 - b. The contact surface between the bottom of the sand bed and the native soil is level;
3. The spacing between adjacent two-pad-wide rows is at least two times the distance between the bottom of the distribution pipe and the bottom of the sand bed or 5 feet, whichever is greater;
 4. The wastewater distribution system installed on the top of the engineered pad system is covered with a breathable geotextile material and the breathable geotextile material is covered with at least 10 inches of backfill.
 - a. The applicant shall ensure that rocks and cobbles are removed from backfill cover and grade the backfill for drainage.
 - b. The applicant may place the engineered pad system above grade, partially bury it, or fully bury it depending on site and service circumstances;
 5. The engineered pad system is constructed with durable materials and capable of withstanding stress from installation and operational service; and
 6. At least two inspection ports are installed in the engineered pad system to confirm unsaturated wastewater treatment conditions at diagnostic locations.
- E. Installation requirements. In addition to the applicable requirements in R18-9-A313(A), an applicant shall place sand media to obtain a uniform density of 1.3 to 1.4 grams per cubic centimeter.
 - F. Operation and maintenance requirements. In addition to the applicable requirements in R18-9-A313(B), an applicant shall inspect the backfill cover for physical damage or erosion and promptly repair the cover, if necessary.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended to correct a manifest typographical error in subsection (B)(2) (Supp. 01-1). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-E310. 4.10 General Permit: Intermittent Sand Filter, Less Than 3000 Gallons Per Day Design Flow

- A. A 4.10 General Permit allows for the use of an intermittent sand filter receiving wastewater treated to a level equal to or better than that specified in R18-9-E302(B).
 1. Definition. For purposes of this Section, an "intermittent sand filter" means a treatment technology characterized by:
 - a. The pressurized delivery of pretreated wastewater to an engineered sand bed in a containment vessel equipped with an underdrain system or designed as a bottomless filter;
 - b. Delivered wastewater dispersed throughout the sand media by periodic doses from the delivery pump to maintain unsaturated flow conditions in the bed; and
 - c. Wastewater that is treated during passage through the media, collected by a bed underdrain chamber, and removed by pump or gravity to the disposal works, or wastewater that percolates downward directly into the native soil as part of a bottomless filter design.

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

2. An applicant may use an intermittent sand filter if:
 - a. The native soil is excessively permeable,
 - b. There is little native soil overlying fractured or excessively permeable rock, or
 - c. The applicant desires a reduction in setback distances or minimum vertical separation.
- B. Performance. An applicant shall ensure that:
 1. An intermittent sand filter with underdrain system is designed so that it produces treated wastewater that meets the following criteria:
 - a. TSS of 10 milligrams per liter, 30-day arithmetic mean;
 - b. BOD₅ of 10 milligrams per liter, 30-day arithmetic mean;
 - c. Total nitrogen (as nitrogen) of 40 milligrams per liter, 5-month arithmetic mean; and
 - d. Total coliform level of 1000 (Log₁₀ 3) colony forming units per 100 milliliters, 95th percentile; or
 2. An intermittent sand filter with a bottomless filter is designed so that it produces treated wastewater released to the native soil that meets the following criteria:
 - a. TSS of 20 milligrams per liter, 30-day arithmetic mean;
 - b. BOD₅ of 20 milligrams per liter, 30-day arithmetic mean;
 - c. Total nitrogen (as nitrogen) of 53 milligrams per liter, five-month arithmetic mean; and
 - d. Total coliform level of 100,000 (Log₁₀ 5 colony forming units per 100 milliliters, 95th percentile.
- C. Notice of Intent to Discharge. In addition to the Notice of Intent to Discharge requirements specified in R18-9-A301(B) and R18-9-A309(B), an applicant shall submit specifications for the media proposed for use in the intermittent sand filter.
- D. Design requirements. In addition to the applicable requirements in R18-9-A312, an applicant shall ensure that:
 1. Pressurized wastewater delivery is from the septic tank or separate watertight chamber with a pump sized and controlled to deliver the pretreated wastewater to the top of the intermittent sand filter. The applicant shall ensure that the dosing rate is at least 4 doses per day and not more than 24 doses per day;
 2. The pressurized wastewater delivery system provides even distribution in the sand filter through good engineering practice. The applicant shall:
 - a. Specify all necessary controls, pipes, valves, orifices, filter cover materials, gravel, or other distribution media, and monitoring and servicing components in the design documents; and
 - b. Ensure that the cover and topsoil is 6 to 12 inches in depth and graded to drain;
 3. The sand filter containment vessel is watertight, structurally sound, durable, and capable of withstanding stress from installation and operational service. The applicant may place the intermittent sand filter above grade, partially buried, or fully buried depending on site and service circumstances;
 4. Media used in the intermittent sand filter is mineral sand and that the media is washed and conforms to "Standard Specification for Concrete Aggregates, C33-03," which is incorporated by reference in R18-9-E308(D)(2);
 5. The sand media depth is a minimum of 24 inches with the top and bottom surfaces level and the maximum wastewater loading rate is 1.0 gallons per day per square foot of inlet surface at the rated daily design flow;
 6. The underdrain system:
 - a. Is within the containment vessel;
 7. Supports the filter media and all overlying loads from the unsupported construction above the top surface of the sand media;
 8. Has sufficient void volume above the normal high level of the intermittent sand filter effluent to prevent saturation of the bottom of the sand media by a 24-hour power outage or pump malfunction; and
 9. Includes necessary monitoring, inspection, and servicing features;
 10. Inspection ports are installed in the distribution media and in the underdrain;
 11. The bottomless filter is designed similar to the underdrain system, except that the sand media is positioned on top of the native soil absorption surface. The applicant shall ensure that companion modifications are made that eliminate the containment vessel bottom and underdrain and relocate the underdrain inspection port to ensure reliable indication of the presence or absence of water saturation in the sand media;
 12. The native soil absorption system is designed to ensure that the linear loading rate does not exceed site disposal capability; and
 13. The bottomless sand filter discharge rate per unit area to the native soil does not exceed the adjusted soil absorption rate for the quality of wastewater specified in subsection (B)(2).
- E. Installation requirements. In addition to the applicable requirements in R18-9-A313(A), an applicant shall place the containment vessel, underdrain system, filter media, and pressurized wastewater distribution system in an excavation with adequate foundation and each layer installed to prevent differential settling and promote a uniform density throughout of 1.3 to 1.4 grams per cubic centimeter within the sand media.
- F. Operation and maintenance requirements. The applicant shall follow the applicable requirements in R18-9-A313(B).

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-E311. 4.11 General Permit: Peat Filter, Less Than 3000 Gallons Per Day Design Flow

- A. A 4.11 General Permit allows for the use of a peat filter receiving wastewater treated to a level equal to or better than that specified in R18-9-E302(B).
 1. Definition. For purposes of this Section, a "peat filter" means a disposal technology characterized by:
 - a. The dosed delivery of treated wastewater to the peat bed, which can be a manufactured module or a disposal bed excavated in native soil and filled with compacted peat;
 - b. Wastewater passing through the peat that is further treated by removal of positively charged molecules, filtering, and biological activity before entry into native soil; and
 - c. If the peat filter system is constructed as a disposal bed filled with compacted peat, wastewater that is absorbed into native soil at the bottom and sides of the bed.
 2. An applicant may configure a modular system if a portion of the wastewater that has passed through the peat filter is recirculated back to the pump chamber.
 3. An applicant may use a peat filter system if:
 - a. The native soil is excessively permeable,

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

- b. There is little native soil overlying fractured or excessively permeable rock,
 - c. A reduction in setback distances or minimum vertical separation is desired, or
 - d. Cold weather inhibits performance of other treatment or disposal technologies.
- B. Performance.** An applicant shall ensure that a peat filter is designed so that it produces treated wastewater that meets the following criteria:
 - 1. TSS of 15 milligrams per liter, 30-day arithmetic mean;
 - 2. BOD₅ of 15 milligrams per liter, 30-day arithmetic mean;
 - 3. Total nitrogen (as nitrogen) of 53 milligrams per liter, 5-month arithmetic mean; and
 - 4. Total coliform level of 100,000 (Log₁₀ 5) colony forming units per 100 milliliters, 95th percentile.
- C. Notice of Intent to Discharge.** In addition to the Notice of Intent to Discharge requirements specified in R18-9-A301(B) and R18-9-A309(B), an applicant shall submit:
 - 1. Specifications for the peat media proposed for use in the peat filter or provided in the peat module, including:
 - a. Porosity;
 - b. Degree of humification;
 - c. pH;
 - d. Particle size distribution;
 - e. Moisture content;
 - f. A statement of whether the peat is air dried, and whether the peat is from sphagnum moss or bog cotton; and
 - g. A description of the degree of decomposition;
 - 2. Specifications for installing the peat media; and
 - 3. If a peat module is used:
 - a. The name and address of the manufacturer,
 - b. The model number, and
 - c. A copy of the manufacturer's warranty.
- D. Design requirements.**
 - 1. If a pump tank is used to dose the peat module or bed, an applicant shall:
 - a. Ensure that the pump tank is sized to contain the dose volume and a reserve volume above the high water alarm that will contain the volume of daily design flow; and
 - b. Use a control panel with a programmable timer to dose at the applicable loading rate.
 - 2. Peat module system. In addition to the applicable requirements in R18-9-A312, the applicant shall:
 - a. Size the gravel bed supporting the peat filter modules to allow it to act as a disposal works and ensure that the bed is level, long, and narrow, and installed on contour to optimize lateral movement away from the disposal area;
 - b. For modules designed to allow wastewater flow through the peat filter and base material into underlying native soil, size the base on which the modules rest to accommodate the soil absorption rate of the native soil;
 - c. Place fill over the module so that it conforms to the manufacturer's specification. If the fill is planted, the applicant shall use only grass or shallow rooted plants; and
 - d. Ensure that the peat media depth is at least 24 inches, the peat is installed with the top and bottom surfaces level, and the maximum wastewater loading rate is 5.5 gallons per day per square foot of inlet surface at the rated daily design flow, unless the Department approves a different wastewater loading rate under R18-9-A309(E).
- 3. Peat filter bed system. In addition to the applicable requirements in R18-9-A312, the applicant shall ensure that:
 - a. The bed is filled with peat derived from sphagnum moss and compacted according to the installation specification;
 - b. The maximum wastewater loading rate is 1 gallon per day per square foot of inlet surface at the rated daily design flow;
 - c. At least 24 inches of installed peat underlies the distribution piping and 10 to 14 inches of installed peat overlies the piping;
 - d. The cover material over the peat filter bed is slightly mounded to promote runoff of rainfall. The applicant shall not place additional fill over the peat; and
 - e. The peat is air dried, with a porosity greater than 90 percent, and a particle size distribution of 92 to 100 percent passing a No. 4 sieve and less than 8 percent passing a No. 30 sieve.
- E. Installation requirements.** In addition to the applicable requirements in R18-9-A313(A), the applicant shall:
 - 1. Peat module system.
 - a. Compact the bottom of all excavations for the filter modules, pump, aerator, and other components to provide adequate foundation, slope the bottom toward the discharge to minimize ponding, and ensure that the bottom is flat, and free of debris, rocks, and sharp objects. If the excavation is uneven or rocky, the applicant shall use a bed of sand or pea gravel to create an even, smooth surface;
 - b. Place the peat filter modules on a level, 6-inch deep gravel bed;
 - c. Place backfill around the modules and grade the backfill to divert surface water away from the modules;
 - d. Not place objects on or move objects over the system area that might damage the module containers or restrict airflow to the modules;
 - e. Cover gaps between modules to prevent damage to the system;
 - f. Fit each system with at least one sampling port that allows collection of wastewater at the exit from the final treatment module;
 - g. Provide the modules and other components with anti-buoyancy devices to ensure stability in the event of flooding or high water table conditions; and
 - h. Provide a mechanism for draining the filter module inlet line; or
 - 2. Peat filter bed system.
 - a. Scarify the bottom and sides of the leaching bed excavation to remove any smeared surfaces, and:
 - i. Unless directed by an installation specification consistent with this Chapter, place peat media in the excavation in 6-inch lifts; and
 - ii. Compact each lift before the next lift is added. The applicant shall take care to avoid compaction of the underlying native soil;
 - b. Lay distribution pipe in trenches cut in the compacted peat, and
 - i. Ensure that at least 3 inches of aggregate underlie the pipe to reduce clogging of holes or scouring of the peat surrounding the pipe, and
 - ii. Place peat on top of and around the sides of the pipes.
- F. Operation and maintenance requirements.** In addition to the applicable requirements in R18-9-A313(B), the permittee shall

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

inspect the finished grade over the peat filter for proper drainage, protection from damaging loads, and root invasion of the wastewater distribution system and perform maintenance as needed.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-E312. 4.12 General Permit: Textile Filter, Less Than 3000 Gallons Per Day Design Flow

A. A 4.12 General Permit allows for the use of a textile filter receiving wastewater treated to a level equal to or better than that specified in R18-9-E302(B).

1. Definition. For purposes of this Section, a "textile filter" means a disposal technology characterized by:
 - a. The flow of wastewater into a packed bed filter in a containment structure or structures. The packed bed filter uses a textile filter medium with high porosity and surface area; and
 - b. The textile filter medium provides further treatment by removing suspended material from the wastewater by physical straining, and reducing nutrients by microbial action.
2. An applicant may use a textile filter in conjunction with a two-compartment septic tank or a two-tank system if the second compartment or tank is used as a recirculation and blending tank. The applicant shall divert a portion of the wastewater flow from the textile filter back into the second tank for further treatment.
3. An applicant may use a textile filter if:
 - a. Nitrogen reduction is desired,
 - b. The native soil is excessively permeable,
 - c. There is little native soil overlying fractured or excessively permeable rock, or
 - d. A reduction in setback distances or minimum vertical separation is desired.

B. Performance. An applicant shall ensure that a textile filter is designed so that it produces treated wastewater that meets the following criteria:

1. TSS of 15 milligrams per liter, 30-day arithmetic mean;
2. BOD₅ of 15 milligrams per liter, 30-day arithmetic mean;
3. Total nitrogen (as nitrogen) of 30 milligrams per liter, five-month arithmetic mean, or 15 milligrams, five-month arithmetic mean per liter if documented under subsection (C)(4); and
4. Total coliform level of 100,000 (Log₁₀ 5) colony forming units per 100 milliliters, 95th percentile.

C. Notice of Intent to Discharge. In addition to the Notice of Intent to Discharge requirements specified in R18-9-A301(B) and R18-9-A309(B), an applicant shall submit:

1. The name and address of the filter manufacturer;
2. The filter model number;
3. A copy of the manufacturer's filter warranty;
4. If the system is for nitrogen reduction to 15 milligrams per liter, five-month arithmetic mean, specifications on the nitrogen reduction performance of the filter system and corroborating third-party test data;
5. The manufacturer's operation and maintenance recommendations to achieve a 20-year operational life; and
6. If a pump or aerator is required for proper operation, the pump or aerator model number and a copy of the manufacturer's warranty.

D. Design requirements. In addition to the applicable requirements in R18-9-A312, an applicant shall ensure that:

1. The textile medium has a porosity of greater than 80 percent;
2. The wastewater is delivered to the textile filter by gravity flow or a pump;
3. If a pump is used to dose the textile filter, the pump and appurtenances meet following criteria:
 - a. The textile media loading rate and wastewater recirculation rate are based on calculations that conform with performance data listed in the reviewed product list maintained by the Department as required under R18-9-A309(E),
 - b. The tank and recirculation components are sized to contain the dose volume and a reserve volume above the high water level alarm that will contain the volume of daily design flow, and
 - c. A control panel with a programmable timer is used to dose the textile media at the applicable loading rate and wastewater recirculation rate.
- E. Installation requirements. In addition to the applicable requirements in R18-9-A313(A), an applicant shall:
 1. Before placing the filter modules, slope the bottom of the excavation for the modules toward the discharge point to minimize ponding;
 2. Ensure that the bottom of all excavations for the filter modules, pump, aerator, or other components is level and free of debris, rocks, and sharp objects. If the excavation is uneven or rocky, the applicant shall use a bed of sand or pea gravel to create an even, smooth surface;
 3. Provide the modules and other components with anti-buoyancy devices to ensure they remain in place in the event of high water table conditions; and
 4. Provide a mechanism for draining the filter module inlet line.
- F. Operation and maintenance requirements. In addition to the applicable requirements in R18-9-A313, the permittee shall not flush corrosives or other materials known to damage the textile material into any drain that transmits wastewater to the on-site wastewater treatment facility.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-E313. 4.13 General Permit: Denitrifying System Using Separated Wastewater Streams, Less Than 3000 Gallons Per Day Design Flow

A. A 4.13 General Permit allows for the use of a separated wastewater streams, denitrifying system for a dwelling.

1. Definition. For purposes of this Section a "denitrifying system using wastewater streams" means a gravity flow treatment and disposal system for a dwelling that requires separate plumbing drains for conducting dishwasher, kitchen sink, and toilet flush water to wastewater treatment tank "A" and all other wastewater to a wastewater treatment tank "B."
 - a. Treated wastewater from tanks "A" and "B" is delivered to an engineered composite disposal bed system that includes an upper distribution pipe to deliver treated wastewater from tank "A" to a columnar celled, sand-filled bed.
 - b. The wastewater drains downward into a sand bed, then into a pea gravel bed with an internal distribution pipe system that delivers the treated wastewater from tank "B."

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

- c. The entire composite bed is constructed within an excavation about 6 feet deep.
 - d. The system operates under gravity flow from tanks "A" and "B."
 - e. An engineered sampling assembly is installed at the midpoint of the disposal line run and at the base of the composite bed during construction to monitor system performance.
2. An applicant may use a separated wastewater streams, denitrifying system where total nitrogen reduction is required under this Article before release to the native soil.
- B. Performance.** An applicant shall ensure that a separated wastewater streams, denitrifying system is designed so that the treated wastewater released to the native soil meets the following criteria:
- 1. TSS of 30 milligrams per liter, 30-day arithmetic mean;
 - 2. BOD₅ of 30 milligrams per liter, 30-day arithmetic mean;
 - 3. Total nitrogen (as nitrogen) of 30 milligrams per liter, five-month arithmetic mean; and
 - 4. Total coliform level of 1,000,000 (Log₁₀ 6) colony forming units per 100 milliliters, 95th percentile.
- C. Notice of Intent to Discharge.** The applicant shall comply with the Notice of Intent to Discharge requirements in R18-9-A301(B) and R18-9-A309(B).
- D. Design, installation, operation, and maintenance requirements.** The applicant shall comply with the applicable design, installation, operation, and maintenance requirements in R18-9-A312, R18-9-A313(A), and R18-9-A313(B).
- E. Reference design.**
- 1. An applicant may use a separated wastewater streams, denitrifying system achieving the performance requirements specified in subsection (B) by following a reference design on file with the Department.
 - 2. The applicant shall file a form provided by the Department for supplemental information about the proposed system with the applicant's submittal of the Notice of Intent to Discharge.
- Historical Note**
New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).
- R18-9-E314. 4.14 General Permit: Sewage Vault, Less Than 3000 Gallons Per Day Design Flow**
- A.** A 4.14 General Permit allows for the use of a sewage vault that receives sewage.
- 1. An applicant may use a sewage vault if a severe site or operational constraint prevents installation of a conventional septic tank and disposal works or any other on-site wastewater treatment facility allowed under this Article.
 - 2. An applicant may install a sewage vault as a temporary measure if connection to a sewer or installation of another on-site wastewater treatment facility occurs within two years of the connection or installation.
- B. Performance.** An applicant shall:
- 1. Not allow a discharge from a sewage vault to the native soil or land surface, and
 - 2. Pump and dispose of vault contents at a sewage treatment facility or other sewage disposal mechanism allowed by law.
- C. Notice of Intent to Discharge.** The applicant shall comply with the Notice of Intent to Discharge requirements in R18-9-A301(B) and R18-9-A309(B).
- D. Design requirements.** In addition to the requirements in R18-9-A312, an applicant shall:
- 1. Install a sewage vault with a capacity that is at least 10 times the daily design flow determined by R18-9-A314(4)(a)(i),
 - 2. Use design elements to prevent the buoyancy of the vault if installed in an area where a high groundwater table may impinge on the vault,
 - 3. Test the sewage vault for leakage using the procedure under R18-9-A314(5)(d). The tank passes the water test if the water level does not drop over a 24-hour period,
 - 4. Install an alarm or signal on the vault to indicate when 85 percent of the vault capacity is reached, and
 - 5. Contract with a person who licensed a vehicle under 18 A.A.C. 13, Article 11 to pump out the vault on a schedule specified within the contract to ensure that the vault is pumped before full.
- E. Installation, operation, and maintenance requirements.** The applicant shall comply with the applicable installation, operation, and maintenance requirements in R18-9-A313(A) and (B).
- F. Reference design.**
- 1. An applicant may use a sewage vault that achieves the performance requirements in subsection (B) by following a reference design on file with the Department.
 - 2. The applicant shall file a form provided by the Department for supplemental information about the proposed storage vault with the applicant's submittal of the Notice of Intent to Discharge.
- Historical Note**
New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).
- R18-9-E315. 4.15 General Permit: Aerobic System Less Than 3000 Gallons Per Day Design Flow**
- A.** A 4.15 General Permit allows for the construction and use of an aerobic system that uses aeration for treatment.
- 1. **Definition.** For purposes of this Section, an "aerobic system" means a treatment unit consisting of components that:
 - a. Mechanically introduce oxygen to wastewater,
 - b. Typically provide clarification of the wastewater after aeration, and
 - c. Convey the treated wastewater by pressure or gravity distribution to the disposal works.
 - 2. An applicant may use an aerobic system if:
 - a. Enhanced biological processing is needed to treat wastewater with high organic content,
 - b. A soil or site condition is not adequate for installation of a standard septic tank and disposal works under R18-9-E302,
 - c. A highly treated wastewater amenable to disinfection is needed, or
 - d. Nitrogen removal from the wastewater is needed and removal performance of the system is documented according to subsection (C)(6).
- B. Performance.**
- 1. An applicant shall ensure that the aerobic system is designed so that the treated wastewater released to the native soil meets the following criteria:
 - a. TSS of 30 milligrams per liter, 30-day arithmetic mean;
 - b. BOD₅ of 30 milligrams per liter, 30-day arithmetic mean;

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

- c. Total nitrogen (as nitrogen) of 53 milligrams per liter, five-month arithmetic mean, or as low as 15 milligrams, five-month arithmetic mean per liter if documented under subsection (C)(6); and
 - d. Total coliform level of 300,000 (Log_{10} 5.5) colony forming units per 100 milliliters, 95th percentile.
 - 2. An applicant may use an aerobic system that meets the following less stringent performance criteria if the aerobic technology is listed by the Department under R18-9-A309(E) and the Department bases its review and listing on the technology being less costly and simpler to operate when compared to other aerobic technologies:
 - a. TSS of 60 milligrams per liter, 30-day arithmetic mean;
 - b. BOD_5 of 60 milligrams per liter, 30-day arithmetic mean;
 - c. Total nitrogen (as nitrogen) of 53 milligrams per liter, five-month arithmetic mean, or as low as 15 milligrams, five month arithmetic mean per liter, if documented under subsection (C)(6); and
 - d. Total coliform level of 1,000,000 (Log_{10} 7) colony forming units per 100 milliliters, 95th percentile.
 - C. Notice of Intent to Discharge. In addition to the Notice of Intent to Discharge requirements specified in R18-9-A301(B) and R18-9-A309(B), an applicant shall submit:
 - 1. The name and address of the aerobic system manufacturer;
 - 2. The model number of the aerobic system;
 - 3. Evidence of performance specified in subsection (B)(1) or (B)(2), as applicable;
 - 4. A list of pretreatment components needed to meet performance requirements;
 - 5. A copy of the manufacturer's warranty and operation and maintenance recommendations to achieve performance over a 20-year operational life; and
 - 6. If the aerobic system will be used for nitrogen removal from the wastewater, either:
 - a. Evidence of a valid product listing under R18-9-E309(E) indicating nitrogen removal performance, or
 - b. Specifications and third party test data corroborating nitrogen reduction to the intended level.
 - D. Design requirements. In addition to the applicable requirements in R18-9-A312, an applicant shall ensure that:
 - 1. The wastewater is delivered to the aerobic treatment unit by gravity flow either directly or by a lift pump;
 - 2. An interceptor or other pretreatment device is incorporated if necessary to meet the performance criteria specified in subsection (B)(1) or (2), or if recommended by the manufacturer for pretreatment if a garbage disposal appliance is used;
 - 3. A clarifier is provided after aeration for any treatment technology that achieves performance that is equal to or better than the performance criteria specified in subsection (B)(1); and
 - 4. Ports for inspection and monitoring are provided to verify performance.
 - E. Installation requirements. In addition to the applicable requirements in R18-9-A313(A), an applicant shall ensure that:
 - 1. The installation of the aerobic treatment components conforms to manufacturer's specifications that do not conflict with Articles 1 and 3 of this Chapter and to the design documents specified in the Construction Authorization issued under R18-9-A301(D)(1)(c); and
 - 2. Excavation and foundation work, and backfill placement is performed to prevent differential settling and adverse drainage conditions.
 - F. Operation and maintenance requirements. The permittee shall:
 - 1. Follow the applicable requirements in R18-9-A313(B), and
 - 2. Ensure that filters are cleaned and replaced as necessary.
 - G. Reference design.
 - 1. An applicant may use an aerobic system that achieves the applicable performance requirements by following a reference design on file with the Department.
 - 2. An applicant using a reference design shall submit, with the Notice of Intent to Discharge, supplemental information specific to the proposed installation on a form approved by the Department.
- Historical Note**
- New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).
- R18-9-E316. 4.16 General Permit: Nitrate-Reactive Media Filter, Less Than 3000 Gallons Per Day Design Flow**
- A. A 4.16 General Permit allows for the construction and use of a nitrate-reactive media filter receiving pretreated wastewater.
 - 1. Definition. "Nitrate-reactive media filter" means a treatment technology characterized by:
 - a. The application of pretreated, nitrified wastewater to a packed bed filter in a containment structure. A packed bed filter consists of nitrate-reactive media that receives pretreated wastewater under appropriate design and operational conditions, and
 - b. The ability of the nitrate-reactive filter to further treat the nitrified wastewater by removing total nitrogen by chemical and physical processes.
 - 2. An applicant shall use a nitrate-reactive media filter with a treatment or disposal works to pretreat and dispose of the wastewater.
 - 3. An applicant may use a nitrate-reactive media filter if nitrogen reduction is required under this Article.
 - B. Restrictions. The applicant shall not use any product to supply pretreated wastewater to the nitrate-reactive media filter unless:
 - 1. The product meets the pretreatment requirements for the filter based on product performance information in the product listing, and
 - 2. The product is listed by the Department as a reviewed product under R18-9-A309(E).
 - C. Performance. An applicant shall ensure that a nitrate-reactive media filter is designed so that it produces treated wastewater that does not exceed the following criteria:
 - 1. TSS of 30 milligrams per liter, 30-day arithmetic mean;
 - 2. BOD_5 of 30 milligrams per liter, 30-day arithmetic mean;
 - 3. Total nitrogen (as nitrogen) of 10 milligrams per liter, five-month arithmetic mean; and
 - 4. Total coliform level of 1,000,000 (Log_{10} 6) colony forming units per 100 milliliters, 95th percentile.
 - D. Notice of Intent to Discharge. In addition to the Notice of Intent to Discharge requirements specified in R18-9-A301(B) and R18-9-A309(B), an applicant shall submit:
 - 1. The name and address of the filter manufacturer;
 - 2. The filter model number;
 - 3. The manufacturer's requirements for pretreated wastewater supplied to the nitrate-reactive media filter;

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

4. The manufacturer's specifications for design, installation, and operation for the nitrate-reactive media filter system and appurtenances;
 5. The manufacturer's warranty for the nitrate-reactive media filter system and appurtenances;
 6. The manufacturer's operation and maintenance recommendations to achieve a 20-year operational life for the nitrate-reactive media filter system and appurtenances; and
 7. The manufacturer name and model number for all appurtenances that significantly contribute to achieving the performance required in subsection (C).
- E.** Design requirements. In addition to the applicable design requirements specified in R18-9-A312, an applicant shall ensure that:
1. The nitrate-reactive media filter and appurtenances conform with manufacturer's specifications,
 2. The loading rate of pretreated wastewater to the nitrate-reactive media inlet surface meets the manufacturer's specification and does not exceed 5.00 gallons per day per square foot of media inlet surface area, and
 3. The bed packed with nitrate reactive media is at least 24 inches thick.
- F.** Installation requirements. In addition to the applicable requirements in R18-9-A313(A), an applicant shall ensure that:
1. The nitrate-reactive media filter and appurtenances are installed according to manufacturer's specifications to achieve proper wastewater treatment, hydraulic performance, and operational life; and
 2. Anti-buoyancy devices are installed when high water table or extreme soil saturation conditions are likely during operational life of the facility.
- G.** Operation and maintenance requirements. In addition to the applicable requirements in R18-9-A313(B) and the manufacturer's specifications for the nitrite-reactive media filter, the permittee shall not dispose of corrosives or other materials that are known to damage the nitrate-reactive media filter system into the on-site wastewater treatment facility.
- Historical Note**
- New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Section repealed; new Section made by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (Supp. 05-3).
- R18-9-E317. 4.17 General Permit: Cap System, Less Than 3000 Gallons Per Day Design Flow**
- A.** A 4.17 General Permit allows for the use of a cap fill cover over a conventional trench disposal works receiving wastewater treated to a level equal to or better than that specified in R18-9-E302(B).
1. Definition. For purposes of this Section, a "cap system" means a disposal technology characterized by:
 - a. A soil cap, consisting of engineered fill placed over a trench that is not as deep as a trench allowed by R18-9-E302; and
 - b. A design that compensates for reduced trench depth by maintaining and enhancing the infiltration of wastewater into native soil through the trench side-walls.
 2. An applicant may use a cap system if:
 - a. There is little native soil overlying fractured or excessively permeable rock, or
 - b. A high water table does not allow the minimum vertical separation to be met by a system authorized by R18-9-E302.
- B.** Performance. An applicant shall ensure that the design soil absorption rate and vertical separation complies with this Chapter for a trench, based on the following performance, unless additional pretreatment is provided:
1. TSS of 75 milligrams per liter, 30-day arithmetic mean;
 2. BOD₅ of 150 milligrams per liter, 30-day arithmetic mean;
 3. Total nitrogen (as nitrogen) of 53 milligrams per liter, five-month arithmetic mean; and
 4. Total coliform level of 100,000,000 (Log₁₀ 8) colony forming units per 100 milliliters, 95th percentile.
- C.** Notice of Intent to Discharge. In addition to the Notice of Intent to Discharge requirements in R18-9-A301(B) and R18-9-A309(B), an applicant shall submit specifications for the proposed cap fill material.
- D.** Design requirements. In addition to the applicable requirements in R18-9-A312, an applicant shall ensure that:
1. The soil texture from the natural grade to the depth of the layer or the water table that limits the soil for unsaturated wastewater flow is no finer than silty clay loam;
 2. Cap fill material used is free of debris, stones, frozen clods, or ice, and is the same as or one soil group finer than that of the disposal site material, except that the applicant shall not use fill material finer than clay loam as an additive;
 3. Trench construction.
 - a. The trench bottom is at least 12 inches below the bottom of the disposal pipe and not more than 24 inches below the natural grade, and the trench bottom and disposal pipe are level;
 - b. The aggregate cover over the disposal pipe is 2 inches thick and the top of the aggregate cover is level and not more than 9 inches above the natural grade;
 - c. The cap fill cover above the top of the aggregate cover is at least 9 inches but not more than 18 inches thick. The applicant shall ensure that:
 - i. The cap surface is protected to prevent erosion and sloped to route surface drainage around the ends of the trench; and
 - ii. If the top of the aggregate is at or below the original ground surface, the cap surface has side slopes not more than one vertical to three horizontal; or
 - iii. If the top of the aggregate is above the original ground surface, the horizontal extent of the finished fill edges is at least 10 feet beyond the nearest trench sidewall or endwall;
 - d. The criteria for trench length, bottom width and spacing, and disposal pipe size is the same as that for the trench system prescribed in R18-9-E302;
 - e. Permeable geotextile fabric is placed on the aggregate top, trench end, and sidewalls extending above natural grade;
 - f. The native soil within the disposal site and the adjacent downgradient area to a 50-foot horizontal distance does not exceed a 12 percent slope if the top of the aggregate cover extends above the natural grade at any location along the trench length. The applicant shall ensure that the slope within the disposal site and the adjacent downgradient area to a 50-foot horizontal distance does not exceed 20 percent if the top of the aggregate cover does not extend above the natural grade;
 - g. The fill material is compacted to a density of 90 percent of the native soil if the invert elevation of the

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

disposal pipe is at or above the natural grade at any location along the trench length;

- h. At least one observation port is installed to the bottom of each cap fill trench;
 - i. The effective absorption area for each trench is the sum of the trench bottom area and the sidewall area. The height of the sidewall used for calculating the sidewall area is the vertical distance between the trench bottom and the lowest point of the natural land surface along the trench length; and
 - j. If the applicant uses correction factors for soil absorption rate under R18-9-A312(D)(3) and minimum vertical separation under R18-9-A312(E), additional wastewater pretreatment is provided.
- E. Installation requirements. In addition to the applicable requirements in R18-9-A313(A), an applicant shall prepare the disposal site when high soil moisture is not present and equipment operations do not create platy soil conditions. The applicant shall:
- 1. Plow or scarify the fill area to disrupt the vegetative mat while avoiding smearing,
 - 2. Construct trenches as specified in subsection (D)(3),
 - 3. Scarify the site and apply part of the cap fill to the fill area and blend the fill with the scarified native soil within the contact layers, and
 - 4. Follow the construction design specified in the Construction Authorization issued under R18-9-A301(D)(1)(c).
- F. Operation and maintenance requirements. In addition to the applicable requirements in R18-9-A313(B), the permittee shall inspect and repair the cap fill and other surface features as needed to ensure proper disposal function, proper drainage of surface water, and prevention of damaging loads on the cap.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-E318. 4.18 General Permit: Constructed Wetland, Less Than 3000 Gallons Per Day Design Flow

- A. A 4.18 General Permit allows for the use of a constructed wetland receiving wastewater treated to a level equal to or better than that specified in R18-9-E302(B).
- 1. Definition. "Constructed wetland" means a treatment technology characterized by a lined excavation, filled with a medium for growing plants and planted with marsh vegetation. The treated wastewater flows horizontally through the medium in contact with the aquatic plants.
 - a. As the wastewater flows through the wetland system, additional treatment is provided by filtering, settling, volatilization, and evapotranspiration.
 - b. The wetland system allows microorganisms to break down organic material and plants to take up nutrients and other pollutants.
 - c. The wastewater treated by a wetland system is discharged to a subsurface soil disposal system.
 - 2. An applicant may use a constructed wetland if further wastewater treatment is needed before disposal.
- B. Performance. An applicant shall ensure that a constructed wetland is designed so that it produces treated wastewater that meets the following criteria:
- 1. TSS of 20 milligrams per liter, 30-day arithmetic mean;
 - 2. BOD₅ of 20 milligrams per liter, 30-day arithmetic mean;
 - 3. Total nitrogen (as nitrogen) of 45 milligrams per liter, five-month arithmetic mean; and

- 4. Total coliform level of 100,000 (Log₁₀ 5) colony forming units per 100 milliliters, 95th percentile.

- C. Notice of Intent to Discharge. The applicant shall comply with the Notice of Intent to Discharge requirements specified in R18-9-A301(B) and R18-9-A309(B).
- D. Design, installation, operation, and maintenance requirements. The permittee shall comply with the applicable design, installation, operation, and maintenance requirements in R18-9-A312, R18-9-A313(A), and R18-9-A313(B).
- E. Reference design.
 - 1. An applicant may use a constructed wetland that achieves the performance requirements in subsection (B) by following a reference design on file with the Department.
 - 2. The applicant shall file a form provided by the Department for supplemental information about the proposed constructed wetland with the applicant's submittal of the Notice of Intent to Discharge.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-E319. 4.19 General Permit: Sand-Lined Trench, Less Than 3000 Gallons Per Day Design Flow

- A. A 4.19 General Permit allows for the use of a sand-lined trench receiving wastewater treated to a level equal to or better than that specified in R18-9-E302(B).
- 1. Definition. For purposes of this Section, a "sand-lined trench" means a disposal technology characterized by:
 - a. Engineered placement of sand or equivalently graded glass in trenches excavated in native soil,
 - b. Wastewater dispersed throughout the media by pressure distribution technology as specified in R18-9-E304 using a timer-controlled pump in periodic uniform doses that maintain unsaturated flow conditions, and
 - c. Wastewater treated during travel through the media and absorbed into the native soil at the bottom of the trench.
 - 2. An applicant may use a sand-lined trench if:
 - a. The native soil is excessively permeable,
 - b. There is little native soil overlying fractured or excessively permeable rock, or
 - c. Reduction in setback distances, or minimum vertical separation is desired.
- B. Performance. An applicant shall ensure that a sand-lined trench is designed so that treated wastewater released to the native soil meets the following criteria:
- 1. TSS of 20 milligrams per liter, 30-day arithmetic mean;
 - 2. BOD₅ of 20 milligrams per liter, 30-day arithmetic mean;
 - 3. Total nitrogen (as nitrogen) of 53 milligrams per liter, five-month arithmetic mean; and
 - 4. Total coliform level of 100,000 (Log₁₀ 5) colony forming units per 100 milliliters, 95th percentile.
- C. Notice of Intent to Discharge. In addition to the Notice of Intent to Discharge requirements in R18-9-A301(B) and R18-9-A309(B), an applicant shall submit specifications for the proposed media in the trench.
- D. Design requirements. In addition to the applicable requirements in R18-9-A312, an applicant shall ensure that:
- 1. The media used in the trench is mineral sand, crushed glass, or cinder sand and that:
 - a. The media conforms to "Standard Specifications for Concrete Aggregates, C33-03," which is incorporated by reference in R18-9-E308(D)(2), "Standard

Copies of the incorporated material are available for inspection at the Arizona Department of Environmental Quality, 1110 W. Washington, Phoenix, AZ 85007 or may be obtained from the American Society for Testing and Materials International, 100 Barr Harbor Drive, West Conshohocken, PA 19428-2959; and

- b. Sieve analysis complies with the “Standard Test Method for Materials Finer than 75- μ m (No. 200) Sieve in Mineral Aggregates by Washing, C11704,” which is incorporated by reference in subsection (D)(1)(a), or an equivalent method approved by the Department;
2. Trenches.
 - a. Distribution pipes are capped on the end;
 - b. The spacing between trenches is at least two times the distance between the bottom of the distribution pipe and the bottom of the trench or 5 feet, whichever is greater;
 - c. The inlet filter media surface, wastewater distribution pipe, and bottom of the trench are level and the maximum effluent loading rate is not more than 1.0 gallon per day per square foot of sand media inlet surface;
 - d. The depth of sand below the gravel layer containing the distribution system is at least 24 inches;
 - e. The gravel layer containing the distribution system is 5 to 12 inches thick, at least 36 inches wide, and level;
 - f. Permeable geotextile fabric is placed at the base of and along the sides of the gravel layer, as necessary. The applicant shall ensure that:
 - i. Geotextile fabric is placed on top of the gravel layer, and
 - ii. Any cover soil placed on top of the geotextile fabric is capable of maintaining vegetative growth while allowing passage of air;
 - g. At least one observation port is installed to the bottom of each sand lined trench;
 - h. If the trench is installed in excessively permeable soil or rock, at least 1 foot of loamy sand is placed in the trench below the filter media. The minimum vertical separation distance is measured from the bottom of the loamy sand; and
 - i. The trench design is based on the design flow, native soil absorption area at the trench bottom, minimum vertical separation below the trench bottom, design effluent infiltration rate at the top of the sand fill, and the adjusted soil absorption rate for the final effluent quality; and
3. The dosing system consists of a timer-controlled pump, electrical components, and distribution network and that:
 - a. Orifice spacing on the distribution piping does not exceed 4 square feet of media infiltrative surface area per orifice, and
 - b. The dosing rate is at least four doses per day and not more than 24 doses per day.
- E. Installation requirements. In addition to the applicable requirements in R18-9-A313(A), an applicant shall ensure that the fil-

ter media is placed in the trench to prevent differential settling and promote a uniform density throughout of 1.3 to 1.4 grams per cubic centimeter.

- F. Operation and maintenance requirements. In addition to the applicable requirements in R18-9-A313(B), the permittee shall ensure that:
 1. The septic tank filter and pump tank are inspected and cleaned;
 2. The dosing tank pump screen, pump switches, and floats are cleaned yearly and any residue is disposed of lawfully; and
 3. Lateral lines are flushed and the liquid waste discharged into the treatment system headworks.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-E320. 4.20 General Permit: Disinfection Devices, Less Than 3000 Gallons Per Day Design Flow

- A. A 4.20 General Permit allows for the use of a disinfection device to reduce the level of harmful organisms in wastewater, provided the wastewater is pretreated to equal or better than the performance criteria in R18-9-E315(B)(1)(a). An applicant may use a disinfection device if:
 1. The disinfection device kills the microorganisms by exposing the wastewater to heat, radiation, or a chemical disinfectant.
 2. Some means of disinfection is required before discharge.
 3. A reduction in harmful microorganisms, as represented by the total coliform level, is needed for surface or near surface disposal of the wastewater or reduction of the minimum vertical separation distance specified in R18-9-A312(E) is desired.
- B. Restrictions.
 1. Unless the disinfection device is designed to operate without electricity, an applicant shall not install the device if electricity is not permanently available at the site.
 2. The 4.20 General Permit does not authorize a disinfection device that releases chemical disinfectants or disinfection byproducts harmful to plants or wildlife in the discharge area or causes a violation of an Aquifer Water Quality Standard.
- C. Performance. An applicant shall ensure that:
 1. A fail-safe wastewater control or operational process is incorporated to prevent a release of inadequately treated wastewater;
 2. The performance of a disinfection device meets the level of disinfection needed for the type of disposal and produces effluent that:
 - a. Is nominally free of coliform bacteria;
 - b. Is clear and odorless, and
 - c. Has a dissolved oxygen content of at least 6 milligrams per liter;
- D. Design requirements. An applicant shall ensure that an on-site wastewater treatment facility with a disposal works designed to discharge to the land surface includes disinfection technology that conforms with the following requirements:
 1. Chlorine disinfection.
 - a. Available chlorine is maintained as indicated in the following table:

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

pH of Waste-water (s.u.)	Required Concentration of Available Chlorine in Wastewater (mg/L)	
	Wastewater to the Disinfection Device Meets a TSS of 30 mg/L and BOD ₅ of 30 mg/L	Wastewater to the Disinfection Device Meets a TSS of 20 mg/L and BOD ₅ of 20 mg/L
6	15 – 30	6 – 10
7	20 – 35	10 – 20
8	30 – 45	20 – 35

b. The minimum chlorine contact time is 15 minutes for wastewater at 70°F and 30 minutes for wastewater at 50°F, based on a flow equal to four times the daily design flow;

2. Contact chambers are watertight and made of plastic, fiberglass, or other durable material and are configured to prevent short-circuiting; and
3. For a device that disinfects by another method other than chlorine disinfection, dose and contact time are determined to reliably produce treated wastewater that is nominally free of coliform bacteria, based on a flow equal to four times the daily design flow.

E. Operation and maintenance. A permittee shall ensure that:

1. If the disinfection device relies on the addition of chemicals for disinfection, the device is operated to minimize the discharge of disinfection chemicals while achieving the required level of disinfection; and
2. The disinfection device is inspected and maintained at least once every three months by a qualified person.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-E321. 4.21 General Permit: Surface Disposal, Less Than 3000 Gallons Per Day Design Flow

- A.** A 4.21 General Permit allows for surface application of treated wastewater that is nominally free of coliform bacteria produced by the treatment works of an on-site wastewater treatment facility.
- B.** Performance. An applicant shall ensure that the treated wastewater distributed for surface application meets the following criteria:
 1. TSS of 30 milligrams per liter, 30-day arithmetic mean;
 2. BOD₅ of 30 milligrams per liter, 30-day arithmetic mean;
 3. Total nitrogen (as nitrogen) of 53 milligrams per liter, five-month arithmetic mean;
 4. Is nominally free of total coliform bacteria as indicated by a total coliform level of Log₁₀ 0 colony forming units per 100 milliliters, 95th percentile.
- C.** Restrictions. The applicant shall not install the disposal works if weather records indicate that:
 1. Average minimum temperature in any month is 20°F or less, or
 2. Over 1/3 of the average annual precipitation falls in a 30-day period.
- D.** Design requirements. An applicant shall ensure that:
 1. The land surface application rate does not exceed the lowest application rate as determined under R18-9-

A312(D) minus no greater than 50 percent of the evapotranspiration that may occur during the month with the least evapotranspiration in any soil zone within the top 5 feet of soil;

2. The design incorporates sprinklers, bubbler heads, or other dispersal components that optimize wastewater loading rates and prevent ponding on the land surface;
 3. The design specifies containment berms:
 - a. Compacted to a minimum of 95 percent Proctor;
 - b. Designed to contain the runoff of the 10-year, 24-hour storm event in addition to the daily design flow; and
 - c. Designed to remain intact in the event of a more severe rainfall event; and
 4. The design incorporates placement of signage on hose bibs, human ingress points to the surface disposal area, and at intervals around the perimeter of the surface disposal area to provide notification of use of treated wastewater and a warning against ingestion.
- E.** Installation requirements. An applicant shall ensure that installation of the wastewater dispersal components conforms to manufacturer's specifications that do not conflict with this Article and to the design documents specified in the Construction Authorization issued under R18-9-A301(D)(1)(c).
- F.** Operation and maintenance. In addition to the requirements specified in R18-9-A313(B), the permittee shall operate and maintain the surface disposal works to:
1. Prevent treated wastewater from coming into contact with drinking fountains, water coolers, or eating areas;
 2. Contain all treated wastewater within the bermed area; and
 3. Ensure that hose bibs discharging treated wastewater are secured to prevent use by the public.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Section repealed; new Section made by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (Supp. 05-3).

R18-9-E322. 4.22 General Permit: Subsurface Drip Irrigation Disposal, Less Than 3000 Gallons Per Day Design Flow

- A.** A 4.22 General Permit allows for the construction and use of a subsurface drip irrigation disposal works that receives high quality wastewater from an on-site wastewater treatment facility to dispense the wastewater to an irrigation system that is buried at a shallow depth in native soil. A 4.22 General Permit includes a pressure distribution system under R18-9-E304.
 1. The subsurface drip irrigation disposal works is designed to disperse the treated wastewater into the soil under unsaturated conditions by pressure distribution and timed dosing. The applicant shall ensure that the pressure distribution system meets the requirements specified in R18-9-E304, and the Department shall consider whether the requirements of R18-9-E304 are met when processing the application under R18-9-A301(B).
 2. A subsurface drip irrigation disposal works reduces the downward percolation of wastewater by enhancing evapotranspiration to the atmosphere.
 3. An applicant may use a subsurface drip irrigation disposal works to overcome site constraints, such as high groundwater, shallow soils, slowly permeable soils, or highly permeable soils, or if water conservation is needed.
 4. The subsurface drip irrigation disposal works includes pipe, pressurization and dosing components, controls,

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

and appurtenances to reliably deliver treated wastewater to driplines using supply and return manifold lines.

B. Performance. An applicant shall ensure that:

1. Treated wastewater that meets the following criteria is delivered to a subsurface drip irrigation disposal works:
 - a. Performance Category A.
 - i. TSS of 20 milligrams per liter, 30-day arithmetic mean;
 - ii. BOD₅ of 20 milligrams per liter, 30-day arithmetic mean;
 - iii. Total nitrogen (as nitrogen) of 53 milligrams per liter, five-month arithmetic mean; and
 - iv. Total coliform level of one colony forming unit per 100 milliliters, 95th percentile; or
 - b. Performance Category B.
 - i. TSS of 30 milligrams per liter, 30-day arithmetic mean;
 - ii. BOD₅ of 30 milligrams per liter, 30-day arithmetic mean;
 - iii. Total nitrogen (as nitrogen) of 53 milligrams per liter, five-month arithmetic mean; and
 - iv. Total coliform level of 300,000 (Log₁₀ 5.5) colony forming units per 100 milliliters, 95th percentile; and
2. The subsurface drip irrigation works is designed to meet the following performance criteria:
 - a. Prevention of ponding on the land surface, and
 - b. Incorporation of a fail-safe wastewater control or operational process to prevent inadequately treated wastewater from being discharged.

C. Notice of Intent to Discharge. In addition to the Notice of Intent to Discharge requirements in R18-9-A301(B), R18-9-A309(B), and R18-9-E304, the applicant shall submit:

1. Documentation of the pretreatment method proposed to achieve the wastewater criteria specified in subsection (B)(1), such as the type of pretreatment system and the manufacturer's warranty;
2. Initial filter and drip irrigation flushing settings;
3. Site evapotranspiration calculations if used to reduce the size of the disposal works; and
4. If supplemental irrigation water is introduced to the subsurface drip irrigation disposal works, an identification of the cross-connection controls, backflow controls, and supplemental water sources.

D. Design requirements. In addition to the applicable design requirements specified in R18-9-A312, an applicant shall ensure that:

1. The design requirements of R18-9-E304 are followed, except that:
 - a. The requirement for quick disconnects in R18-9-E304(D)(1)(c) is not applicable, and
 - b. The applicant may provide the reserve volume specified in R18-9-E304(D)(3)(a)(iv) in an oversized treatment tank or a supplemental storage tank;
2. Drip irrigation components and appurtenances are properly placed.
 - a. Performance category A subsurface drip irrigation disposal works. The applicant shall ensure that:
 - i. Driplines and emitters are placed to prevent ponding on the land surface, and
 - ii. Cover material and placement depth follow manufacturer's requirements to prevent physical damage or ultraviolet degradation of components and appurtenances; or
 - b. Performance category B subsurface drip irrigation disposal works. The applicant shall ensure that:

- i. Driplines and emitters are placed at least 6 inches below the surface of the native soil;
 - ii. A cover of soil or engineered fill is placed on the surface of the native soil to achieve a total emitter burial depth of at least 12 inches;
 - iii. Cover material and placement depth follow manufacturer's requirements to prevent physical damage or ultraviolet degradation of components and appurtenances; and
 - iv. The drip irrigation disposal works is not used for irrigating food crops;
3. Wastewater is filtered upstream of the dripline emitters to remove particles 100 microns in size and larger;
4. A pressure regulator is provided to limit the pressure of wastewater in the drip irrigation disposal works;
5. Wastewater pipe meets the approved pressure rating in "Standard Specification for Poly (Vinyl Chloride) (PVC) Plastic Pipe, Schedules 40, 80, and 120, D1785-04a (2004)," or "Standard Specification for Chlorinated Poly (Vinyl Chloride) (CPVC) Plastic Pipe, Schedules 40 and 80, F441/F441M-02 (2002)," published by the American Society for Testing and Materials. This material is incorporated by reference and does not include any later amendments or editions of the incorporated material. Copies of the incorporated material are available for inspection at the Arizona Department of Environmental Quality, 1110 W. Washington, Phoenix, AZ 85007 or may be obtained from the American Society for Testing and Materials International, 100 Barr Harbor Drive, West Conshohocken, PA 19428-2959;
6. The system design flushes the subsurface drip irrigation disposal works components with wastewater at a minimum velocity of 2 feet per second, unless the manufacturer's manual and warranty specify another flushing practice. The applicant shall ensure that piping and appurtenances allow the wastewater to be pumped in a line flushing mode of operation with discharge returned to the treatment system headworks;
7. Air vacuum release valves are installed to prevent water and soil drawback into the emitters;
8. Driplines.
 - a. Driplines are placed from 12 to 24 inches apart unless other configurations are allowed by the manufacturer's specifications;
 - b. Dripline installation and design requirements, including the allowable deflection, follow manufacturer's requirements;
 - c. The maximum length of a single dripline follows manufacturer's specifications to provide even distribution;
 - d. The dripline incorporates a herbicide to prevent root intrusion for at least 10 years;
 - e. The dripline incorporates a bactericide to reduce bacterial slime buildup;
 - f. Disinfection does not reduce the life of the bactericide or herbicide in the dripline;
 - g. Any return flow from a drip irrigation disposal works to the treatment works does not impair the treatment performance; and
 - h. When dripline installation is under subsection (E)(1)(b) or (c), backfill consists of the excavated soil or similar soil obtained from the site that is screened for removal of debris and rock larger than 1/2-inch;
9. Emitters.
 - a. Emitters are spaced no more than 2 feet apart, and

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

- b. Emitters are designed to discharge from 0.5 to 1.5 gallons per hour;
10. A suitable backflow prevention system is installed if supplemental water for irrigation is introduced to the pumping system. The applicant shall not introduce supplemental water to the treatment works;
11. The drip irrigation disposal works is installed in soils classified as:
 - a. Sandy clay loam, clay loam, silty clay loam, or finer with weak platy structure or in soil with a percolation rate from 45 to 120 minutes per inch;
 - b. Sandy clay loam, clay loam, silty clay loam, or silt loam with massive structure or in soil with a percolation rate from 31 to 120 minutes per inch; and
 - c. Other soils if an appropriate site-specific SAR is determined;
12. The minimum vertical separation distances are 1/2 of those specified in R18-9-A312(E)(2) if the design evapotranspiration rate during the wettest 30-day period of the year is 50 percent or more of design flow, except that the applicant shall not use a minimum vertical separation distance less than 1 foot;
13. In areas where freezing occurs, the irrigation system is protected as recommended by the manufacturer;
14. If drip irrigation components are used for a disposal works using a shaded trench constructed in native soil, the following requirements are met:
 - a. The trench is between 12 and 24 inches wide;
 - b. The trench bottom is between 12 and 30 inches below the original grade of native soil and level to within 2 inches per 100 feet of length;
 - c. Two driplines are positioned in the bottom of the trench, not more than 4 inches from each sidewall;
 - d. The trench with the positioned driplines is filled to a depth of 6 to 10 inches with decomposed granite or C-33 sand or a mixture of both, with mixture composition, if applicable, and placement specified on the construction drawing;
 - e. A minimum of 8 inches of backfill is placed over the decomposed granite or C-33 sand fill to an elevation of 1 to 3 inches above the native soil finished grade;
 - f. Observation ports are placed at both ends of each shaded trench to confirm the saturated wastewater level during operation; and
 - g. A separation distance of 24 inches or more is maintained between the nearest sidewall of an adjacent trench; and
15. The soil absorption area used for design of a drip irrigation works is calculated using:
 - a. For a design that uses the shaded trench method described in subsection (D)(14), the bottom and sidewall area of the shaded trench not more than 4 square feet per linear foot of trench; or
 - b. For all other designs, the number of emitters times an area for each emitter where the emitter area is a square centered on each emitter with the side dimension equal to the emitter separation distance selected by the designer in accordance with R18-9-E322(D)(9)(a), excluding all areas of overlap of adjacent squares.
- E. Installation requirements. In addition to the applicable requirements in R18-9-A313(A) and R18-9-E304, the applicant shall ensure that:
 1. The dripline is installed by:
 - a. A plow mechanism that cuts a furrow, dispenses pipe, and covers the dripline in one operation;
 - b. A trencher that digs a trench 4 inches wide or less;
 - c. Digging the trench with hand tools to minimize trench width and disruption to the native soil; or
 - d. Without trenching, removing surface vegetation, scarifying the soil parallel with the contours of the land surface, placing the pipe grid, and covering with fill material, unless prohibited in subsection (D)(2)(b)(ii);
 2. Drip irrigation pipe is stored to preserve the herbicidal and bactericidal characteristics of the pipe;
 3. Pipe deflection conforms to the manufacturer's requirements and installation is completed without kinking to prevent flow restriction;
 4. A shaded trench drip irrigation disposal works is installed as specified in the design documents used for the Construction Authorization; and
 5. The pressure piping and electrical equipment are installed according to the Construction Authorization in R18-9-A301(D)(1)(c) and any local building codes.
- F. Operation and maintenance requirements. In addition to the applicable requirements in R18-9-A313(B) and R18-9-E304, the permittee shall:
 1. Test any fail-safe wastewater control or operational process quarterly to ensure proper operation to prevent discharge of inadequately treated wastewater, and
 2. Maintain the herbicidal and bacteriological capability of the drip irrigation disposal works.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-E323. 4.23 General Permit: 3000 to less than 24,000 Gallons Per Day Design Flow

- A. A 4.23 General Permit allows for the construction and use of an on-site wastewater treatment facility with a design flow from 3000 gallons per day to less than 24,000 gallons per day or more than one on-site wastewater treatment facility on a property or on adjacent properties under common ownership with an combined design flow from 3000 to less than 24,000 gallons per day if all of the following apply:
 1. Except as specified in subsection (A)(3), the treatment and disposal works consists of technologies or designs that are covered under other general permits, but are sized larger to accommodate increased flows;
 2. The on-site wastewater treatment facility complies with all applicable requirements of Articles 1, 2, and 3 of this Chapter;
 3. The facility is not a system or a technology covered by one of the following general permits available for a design flow of less than 3000 gallons per day:
 - a. An aerobic system with subsurface or surface disposal described in R18-9-E315;
 - b. A disinfection device described in R18-9-E320; or
 - c. A seepage pit or pits described in R18-9-E302; and
 4. The discharge of total nitrogen to groundwater is controlled.
 - a. An applicant shall:
 - i. Demonstrate that the nitrogen loading calculated over the property served by the on-site wastewater treatment facility, including streets, common areas, and other non-contributing areas, is not more than 0.088 pounds (39.9 grams) of total nitrogen per day per acre calculated at a horizontal plane immediately beneath

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

- the zone of active treatment of the on-site wastewater treatment facility including its disposal field; or
- ii. Justify a nitrogen loading that is equally protective of aquifer water quality as the nitrogen loading specified in subsection (A)(4)(a)(i) based on site-specific hydrogeological or other factors.
- b. For purposes of the demonstration in subsection (A)(4)(a)(i), the applicant may assume that 0.0333 pounds (15.0 grams) of total nitrogen per day per person is contributed to raw sewage and may determine the nitrogen concentration in the treated wastewater at a horizontal plane immediately beneath the zone of active treatment of the on-site wastewater treatment facility including its disposal field.
- B.** Notice of Intent to Discharge. In addition to the Notice of Intent to Discharge requirements specified in R18-9-A301(B) and R18-9-A309(B), an applicant shall submit:
1. A performance assurance plan consisting of tasks, schedules, and estimated annual costs for operating, maintaining, and monitoring performance over a 20-year operational life;
 2. Design documents and the performance assurance plan, signed, dated, and sealed by an Arizona-registered professional engineer;
 3. Any documentation submitted under the alternative design procedure in R18-9-A312(G) that pertains to achievement of better performance levels than those specified in the general permit for the corresponding facility with a design flow of less than 3000 gallons per day, or for any other alternative design, construction, or operational change proposed by the applicant; and
 4. A demonstration of total nitrogen discharge control specified in subsection (A)(4).
- C.** Design requirements. The applicant shall comply with the applicable requirements in R18-9-A312 and the applicable general permits for the treatment works and disposal works used in the design of the on-site wastewater treatment facility.
- D.** Installation requirements. The applicant shall comply with the applicable requirements in R18-9-A313(A) and the applicable general permits for the treatment works and disposal works used in the design of the on-site wastewater treatment facility.
- E.** Operation and maintenance requirements. The applicant shall comply with the applicable requirements in R18-9-A313(B) and the applicable general permits for the treatment works and disposal works used in the design of the on-site wastewater treatment facility.
- F.** Additional Discharge Authorization requirements. In addition to any other requirements, the applicant shall submit the following information before the Discharge Authorization is issued.
1. A signed, dated, and sealed Engineer's Certificate of Completion in a format approved by the Department affirming that:
 - a. The project was completed in compliance with the requirements of this Section and as described in the plans and specifications, or
 - b. Any changes are reflected in as-built plans submitted with the Engineer's Certificate of Completion.
 2. The name of the service provider or certified operator that is responsible for implementing the performance assurance plan.
- G.** Reporting requirement. The permittee shall provide the Department with the following information on the anniversary date of the Discharge Authorization:
1. A form signed by the certified operator or service provider that:
 - a. Provides any data or documentation required by the performance assurance plan,
 - b. Certifies compliance with the requirements of the performance assurance plan, and
 - c. Describes any additions to the facility during the year that increased flows and certifies that the flow did not exceed 24,000 gallons per day during any day; and
 2. Any applicable fee required by 18 A.A.C. 14.
- H.** Facility expansion. If an expansion of an on-site wastewater treatment facility operating under this Section involves the installation of a separate on-site wastewater treatment facility on the property with a design flow of less than 3000 gallons per day, the applicant shall submit the applicable Notice of Intent to Discharge and fee required under 18 A.A.C. 14 for the separate on-site wastewater treatment facility.
1. The applicant shall indicate in the Notice of Intent to Discharge the Department's file number and the issuance date of the Discharge Authorization previously issued by the Director under this Section for the property.
 2. Upon satisfactory review, the Director shall reissue the Discharge Authorization for this Section, with the new issuance date and updated information reflecting the expansion.
 3. If the expansion causes the accumulative design flow from on-site wastewater treatment facilities on the property to equal or exceed 24,000 gallons per day, the Director shall not reissue the Discharge Authorization, but shall require the applicant to submit an application for an individual permit addressing all proposed and operating facilities on the property.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

Indoor	Seat	5
Drive-in	Car space	10

Note: Unit flow rates published in standard texts, literature sources, or relevant area or regional studies are considered by the Department, if appropriate to the project.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 235, effective January 1, 2001 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

ARTICLE 4. NITROGEN MANAGEMENT GENERAL PERMITS**R18-9-401. Definitions**

In addition to the definitions established in A.R.S. §§ 49-101 and 49-201 and A.A.C. R18-9-101, the following terms apply to this Article:

1. "Application of nitrogen fertilizer" means any use of a substance containing nitrogen for the commercial production of a crop or plant. The commercial production of a crop or plant includes commercial sod farms and nurseries.
2. "Contact stormwater" means stormwater that comes in contact with animals or animal wastes within a concentrated animal feeding operation.
3. "Crop or plant needs" means the amount of water and nitrogen required to meet the physiological demands of a crop or plant to achieve a defined yield.
4. "Crop or plant uptake" means the amount of water and nitrogen that can be physiologically absorbed by the roots and vegetative parts of a crop or plant following the application of water.
5. "Impoundment" means any structure, other than a tank or a sump, designed and maintained to contain liquids. A structure that stores or impounds only non-contact stormwater is not an impoundment under this Article.
6. "Liner" or "lining system" means any natural, amendment, or synthetic material used to reduce seepage of impounded liquids into a vadose zone or aquifer.

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

7. "NRCS guidelines" means the United States Department of Agriculture, Natural Resources Conservation Service, National Engineering Handbook, Part 651 Agricultural Waste Management Field Handbook, Chapter 10, 651.1080, Appendix 10D – Geotechnical, Design, and Construction Guideline (November 1997). This material is incorporated by reference and does not include any later amendments or editions of the incorporated material. Copies of the incorporated material are available for inspection at the Arizona Department of Environmental Quality, 1110 W. Washington, Phoenix, AZ 85007 or may be obtained from the United States Department of Agriculture, Natural Resources Conservation Service at <ftp://ftp.wcc.nrcs.usda.gov/downloads/wastemgmt/AWMFH/awmfh-chap10-app10d.pdf>.

Historical Note

Adopted effective January 4, 1991 (Supp. 91-1). Section R18-9-401 renumbered from R18-9-201 and amended by final rulemaking at 7 A.A.R. 235, effective December 8, 2000 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-402. Nitrogen Management General Permits: Nitrogen Fertilizers

An owner or operator may apply a nitrogen fertilizer under this general permit without submitting a notice to the Director, if the owner or operator complies with the following best management practices:

1. Limit application of the fertilizer so that it meets projected crop or plant needs;
2. Time application of the fertilizer to coincide to maximum crop or plant uptake;
3. Apply the fertilizer by a method designed to deliver nitrogen to the area of maximum crop or plant uptake;
4. Manage and time application of irrigation water to minimize nitrogen loss by leaching and runoff; and
5. Use tillage practices that maximize water and nitrogen uptake by a crop or plant.

Historical Note

Adopted effective January 4, 1991 (Supp. 91-1). Section R18-9-402 renumbered from R18-9-202 and amended by final rulemaking at 7 A.A.R. 235, effective December 8, 2000 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-403. Nitrogen Management General Permits: Concentrated Animal Feeding Operations

A. An owner or operator may discharge from a concentrated animal feeding operation without submitting a notice to the Director, if the owner or operator complies with the following best management practices:

1. Harvest, stockpile, and dispose of animal manure from a concentrated animal feeding operation to minimize discharge of any nitrogen pollutant by leaching and runoff;
2. Control and dispose of nitrogen-contaminated water resulting from an activity associated with a concentrated animal feeding operation, up to a 25-year, 24-hour storm event equivalent, to minimize the discharge of any nitrogen pollutant;
3. Following the requirements in subsection (B), construct and maintain a lining for an impoundment, used to contain process wastewater or contact stormwater from a concentrated animal feeding operation to minimize the discharge of any nitrogen pollutant; and

4. Close a facility in a manner that will minimize the discharge of any nitrogen pollutant. If a liner was used in an impoundment:
 - a. Remove liquids and any solid residue on the liner and dispose appropriately;
 - b. Inspect any synthetic liner for evidence of holes, tears, or defective seams that could have leaked. If evidence of leakage is discovered:
 - i. Remove the liner in the area of suspected leakage;
 - ii. Sample potentially impacted soil, and
 - iii. Properly dispose of impacted soil or restore to background nitrogen levels;
 - c. Cover the liner in place or remove it for disposal or reuse if the impoundment is an excavated impoundment;
 - d. Remove and dispose of the liner elsewhere if the impoundment is bermed;
 - e. Grade the facility to prevent the impoundment of water; and
 - f. Notify the Department within 60 days following closure.

B. Lining requirements for concentrated animal feeding operation impoundments.

1. New impoundments. The owner or operator shall:
 - a. Follow the NRCS guidelines for any newly constructed impoundment or an impoundment first used after November 12, 2005, and
 - b. Use a coefficient of permeability of 1×10^{-7} centimeters per second or less as acceptable liner performance. The owner or operator may include up to 1 order of magnitude reduction in permeability from manure sealing in impoundments that hold wastes having manure as a significant component.
2. Impoundments already in use.
 - a. The owner or operator shall maintain the existing seal for any impoundment first used before November 12, 2005.
 - b. If any of the following conditions exist at a concentrated animal feeding operation, the Director shall send a notice requiring the owner or operator to reassess the performance of the lining system:
 - i. The concentrated animal feeding operation is located within a Nitrogen Management Area designated under R18-9-A317; or
 - ii. Existing conditions or trends in nitrogen loading to an aquifer will cause or contribute to an exceedance of an Aquifer Water Quality Standard for a nitrogen pollutant at the point of compliance determined under A.R.S. § 49-244, based on the following information:
 - (1) Existing contamination of groundwater by nitrogen species;
 - (2) Existing and potential impact to groundwater by sources of nitrogen other than the concentrated animal feeding operation;
 - (3) Characteristics of the soil surface, vadose zone, and aquifer;
 - (4) Depth to groundwater;
 - (5) The estimated operational life of the impoundment;
 - (6) Location and characteristics of existing and potential drinking water supplies;
 - (7) Construction material and design of existing impoundment structure; and
 - (8) Any other information relevant to deter-

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

- mining the severity of actual or potential nitrogen impact on the aquifer.
- c. The owner or operator shall, within 90 days of the Director's notice, submit either:
 - i. A report to the Department demonstrating consistency with NRCS guidelines and the acceptable liner performance criteria established in subsection (B)(1)(b); or
 - ii. Plans and a schedule to upgrade the liner for the impoundment to meet the NRCS guidelines and the acceptable liner performance criteria in subsection (B)(1)(b). The Director may provide additional time for the submittal of the plans and a schedule for upgrade, if the owner or operator demonstrates that technical or financial assistance to develop the plans is needed.
 - d. Preliminary decision.
 - i. Within 90 days from the date of receipt, the Director shall review the report or the plans submitted under subsection (B)(2)(c) and provide to the owner or operator a preliminary decision on the submittal.
 - ii. The owner or operator may, within 30 days of the preliminary decision, submit written comments and supporting information to the Director on the preliminary decision.
 - iii. The Director shall evaluate any comments on the preliminary decision and supporting information and, within 90 days of receipt of the comments and information, make a final decision.
 - e. Final decision.
 - i. If the Director determines that the owner or operator has demonstrated that the lining system meets NRCS guidelines and the acceptable performance criteria in subsection (B)(1)(b), no additional action is necessary.
 - ii. If the Director approves the plans and schedules under subsection (B)(2)(c)(ii), the owner or operator shall implement the plans within the time-frame specified in the approved schedule.
 - iii. If the Director determines that the owner or operator failed to demonstrate that the lining system meets NRCS guidelines and the acceptable performance criteria in subsection (B)(1)(b) or that the schedule to upgrade the lining is not acceptable, the owner or operator shall upgrade the lining system within a time-frame specified by the Director.
 - iv. The owner or operator may appeal the Director's decision under A.R.S. Title 41, Chapter 6, Article 10.
3. Notification requirement. The owner or operator of any lined impoundment shall either:
 - a. Notify the Department of the type of liner that was used to line each impoundment by February 19 of each year following either:
 - i. The first use of an impoundment not used before November 12, 2005; or
 - ii. Completion of a liner upgrade required under this Section for an impoundment used before November 12, 2005; or
 - b. Include the information required in subsections (B)(3)(a)(i) and (ii) in the next annual report submitted for the AZPDES Concentrated Animal Feeding

Operation General Permit, issued under 18 A.A.C. 9, Article 9, Part C.

Historical Note

Adopted effective January 4, 1991 (Supp. 91-1). Section R18-9-403 renumbered from R18-9-203 and amended by final rulemaking at 7 A.A.R. 235, effective December 8, 2000 (Supp. 00-4). Amended by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

R18-9-404. Revocation of Coverage under a Nitrogen Management General Permit

- A. The Director may revoke coverage under a nitrogen management general permit and require the permittee to obtain an individual permit under 18 A.A.C. 9, Article 2, if the Director determines that the permittee failed to comply with the best management practices under R18-9-403.
- B. Notification.
 1. If coverage under the nitrogen management general permit is revoked under subsection (A), the Director shall notify the permittee by certified mail of the decision according to the notification and hearing procedures in A.R.S. Title 41, Chapter 6, Article 10. The notification shall include:
 - a. A brief statement of the reason for the decision,
 - b. The effective revocation date of the general permit coverage, and
 - c. A statement of whether the discharge shall cease immediately or whether the discharge may continue until the individual permit is issued, and
 2. If the Director requires a person to obtain an individual permit, the notification shall include:
 - a. An individual permit application form, and
 - b. A deadline between 90 and 180 days after receipt of the notification for filing the application.
- C. When the Director issues an individual permit to an owner or operator of a facility covered under a nitrogen management general permit, the coverage under the nitrogen management general permit is superseded by the individual permit allowing the discharge.

Historical Note

New Section made by final rulemaking at 11 A.A.R. 4544, effective November 12, 2005 (05-3).

ARTICLE 5. GRAZING BEST MANAGEMENT PRACTICES**R18-9-501. Surface Water Quality General Grazing Permit**

- A. A person who engages in livestock grazing and applies any of the following voluntary best management practices to maintain soil cover and prevent accelerated erosion, nitrogen discharges, and bacterial impacts to surface water greater than the natural background amount is issued a Surface Water Quality General Grazing Permit:
 1. Manages the location, timing, and intensity of grazing activities to help achieve Surface Water Quality Standards;
 2. Installs rangeland improvements, such as fences, water developments, trails, and corrals to help achieve Surface Water Quality Standards;
 3. Implements land treatments to help achieve Surface Water Quality Standards;
 4. Implements supplemental feeding, salting, and parasite control measures to help achieve Surface Water Quality Standards.
- B. The person to whom a permit is issued shall make the following information available to the Department, at the person's place of business, within 10 business days of Department notice:

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

1. The name and address of the person grazing livestock, and
2. The best management practices selected for livestock grazing.

Historical Note

New Section made by final rulemaking at 7 A.A.R. 1768, effective April 5, 2001 (Supp. 01-2).

ARTICLE 6. REPEALED**R18-9-601. Repealed****Historical Note**

New Section adopted by final rulemaking at 7 A.A.R. 758, effective January 16, 2001 (Supp. 01-1). Section repealed by final rulemaking at 23 A.A.R. 3091, effective January 1, 2018 (Supp. 17-4).

R18-9-602. Repealed**Historical Note**

New Section adopted by final rulemaking at 7 A.A.R. 758, effective January 16, 2001 (Supp. 01-1). Section repealed by final rulemaking at 23 A.A.R. 3091, effective January 1, 2018 (Supp. 17-4).

R18-9-603. Repealed**Historical Note**

New Section adopted by final rulemaking at 7 A.A.R. 758, effective January 16, 2001 (Supp. 01-1). Section repealed by final rulemaking at 23 A.A.R. 3091, effective January 1, 2018 (Supp. 17-4).

ARTICLE 7. USE OF RECYCLED WATER**R18-9-701. Renumbered****Historical Note**

Former Section R9-20-401 repealed, new Section R9-20-401 adopted effective May 24, 1985 (Supp. 85-3). Former Section R9-20-401 renumbered without change as Section R18-9-701 (Supp. 87-3). Amended by final rulemaking at 7 A.A.R. 758, effective January 16, 2001 (Supp. 01-1). Section R18-9-701 renumbered to R18-9-A701 by final rulemaking at 23 A.A.R. 3091, effective January 1, 2018 (Supp. 17-4).

R18-9-702. Renumbered**Historical Note**

Former Section R9-20-402 repealed, new Section R9-20-402 adopted effective May 24, 1985 (Supp. 85-3). Former Section R9-20-402 renumbered without change as Section R18-9-702 (Supp. 87-3). Section repealed; new Section adopted by final rulemaking at 7 A.A.R. 758, effective January 16, 2001 (Supp. 01-1). Section R18-9-702 renumbered to R18-9-A702 by final rulemaking at 23 A.A.R. 3091, effective January 1, 2018 (Supp. 17-4).

R18-9-703. Renumbered**Historical Note**

Former Section R9-20-403 repealed, new Section R9-20-403 adopted effective May 24, 1985 (Supp. 85-3). Former Section R9-20-403 renumbered without change as Section R18-9-703 (Supp. 87-3). Editorial change to labels in subsection (c)(8) (Supp. 89-4). Section repealed; new Section adopted by final rulemaking at 7 A.A.R. 758, effective January 16, 2001 (Supp. 01-1). Section R18-9-703 renumbered to R18-9-B701 by final rulemaking at 23

A.A.R. 3091, effective January 1, 2018 (Supp. 17-4).

R18-9-704. Renumbered**Historical Note**

Former Section R9-20-404 repealed, new Section R9-20-404 adopted effective May 24, 1985 (Supp. 85-3). Former Section R9-20-404 renumbered without change as Section R18-9-704 (Supp. 87-3). Section repealed; new Section adopted by final rulemaking at 7 A.A.R. 758, effective January 16, 2001 (Supp. 01-1). Section R18-9-704 amended by final rulemaking at 22 A.A.R. 1696, effective August 12, 2016 (Supp. 16-2). Section R18-9-704 and Table 1 renumbered to R18-9-B702 by final rulemaking at 23 A.A.R. 3091, effective January 1, 2018 (Supp. 17-4).

R18-9-705. Renumbered**Historical Note**

Former Section R9-20-405 repealed, new Section R9-20-405 adopted effective May 24, 1985 (Supp. 85-3). Former Section R9-20-405 renumbered without change as Section R18-9-705 (Supp. 87-3). Section repealed; new Section adopted by final rulemaking at 7 A.A.R. 758, effective January 16, 2001 (Supp. 01-1). Section R18-9-705 renumbered to R18-9-A703 by final rulemaking at 23 A.A.R. 3091, effective January 1, 2018 (Supp. 17-4).

R18-9-706. Renumbered**Historical Note**

Former Section R9-20-406 repealed, new Section R9-20-406 adopted effective May 24, 1985 (Supp. 85-3). Former Section R9-20-406 renumbered without change as Section R18-9-706 (Supp. 87-3). Amended effective December 1, 1988 (Supp. 88-4). Section repealed; new Section adopted by final rulemaking at 7 A.A.R. 758, effective January 16, 2001 (Supp. 01-1). Section R18-9-706 renumbered to R18-9-B703 by final rulemaking at 23 A.A.R. 3091, effective January 1, 2018 (Supp. 17-4).

R18-9-707. Renumbered**Historical Note**

Former Section R9-20-407 repealed, new Section R9-30-407 adopted effective May 24, 1985 (Supp. 85-3). Former Section R9-20-407 renumbered without change as Section R18-9-707 (Supp. 87-3). Section repealed; new Section adopted by final rulemaking at 7 A.A.R. 758, effective January 16, 2001 (Supp. 01-1). Section R18-9-707 renumbered to R18-9-C701 by final rulemaking at 23 A.A.R. 3091, effective January 1, 2018 (Supp. 17-4).

R18-9-708. Renumbered**Historical Note**

New Section adopted by final rulemaking at 7 A.A.R. 758, effective January 16, 2001 (Supp. 01-1). Section R18-9-708 renumbered to R18-9-A704 by final rulemaking at 23 A.A.R. 3091, effective January 1, 2018 (Supp. 17-4).

R18-9-709. Renumbered**Historical Note**

New Section adopted by final rulemaking at 7 A.A.R. 758, effective January 16, 2001 (Supp. 01-1). Section R18-9-709 renumbered to R18-9-A705 by final rulemaking at 23 A.A.R. 3091, effective January 1, 2018 (Supp. 17-4).

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

17-4).

R18-9-710. Renumbered**Historical Note**

New Section adopted by final rulemaking at 7 A.A.R. 758, effective January 16, 2001 (Supp. 01-1). Section R18-9-710 renumbered to R18-9-A706 by final rulemaking at 23 A.A.R. 3091, effective January 1, 2018 (Supp. 17-4).

R18-9-711. Renumbered**Historical Note**

New Section adopted by final rulemaking at 7 A.A.R. 758, effective January 16, 2001 (Supp. 01-1). Section R18-9-711 renumbered to R18-9-D701 by final rulemaking at 23 A.A.R. 3091, effective January 1, 2018 (Supp. 17-4).

R18-9-712. Renumbered**Historical Note**

New Section adopted by final rulemaking at 7 A.A.R. 758, effective January 16, 2001 (Supp. 01-1). Section R18-9-712 renumbered to R18-9-B704 by final rulemaking at 23 A.A.R. 3091, effective January 1, 2018 (Supp. 17-4).

R18-9-713. Renumbered**Historical Note**

New Section adopted by final rulemaking at 7 A.A.R. 758, effective January 16, 2001 (Supp. 01-1). Section R18-9-713 renumbered to R18-9-B705 by final rulemaking at 23 A.A.R. 3091, effective January 1, 2018 (Supp. 17-4).

R18-9-714. Renumbered**Historical Note**

New Section adopted by final rulemaking at 7 A.A.R. 758, effective January 16, 2001 (Supp. 01-1). Section R18-9-714 renumbered to R18-9-B706 by final rulemaking at 23 A.A.R. 3091, effective January 1, 2018 (Supp. 17-4).

R18-9-715. Renumbered**Historical Note**

New Section adopted by final rulemaking at 7 A.A.R. 758, effective January 16, 2001 (Supp. 01-1). Section R18-9-715 renumbered to R18-9-B707 by final rulemaking at 23 A.A.R. 3091, effective January 1, 2018 (Supp. 17-4).

R18-9-716. Renumbered**Historical Note**

New Section adopted by final rulemaking at 7 A.A.R. 758, effective January 16, 2001 (Supp. 01-1). Section R18-9-716 renumbered to R18-9-B708 by final rulemaking at 23 A.A.R. 3091, effective January 1, 2018 (Supp. 17-4).

R18-9-717. Renumbered**Historical Note**

New Section adopted by final rulemaking at 7 A.A.R. 758, effective January 16, 2001 (Supp. 01-1). Section R18-9-717 renumbered to R18-9-B709 by final rulemaking at 23 A.A.R. 3091, effective January 1, 2018 (Supp. 17-4).

17-4).

R18-9-718. Renumbered**Historical Note**

New Section adopted by final rulemaking at 7 A.A.R. 758, effective January 16, 2001 (Supp. 01-1). Section R18-9-718 renumbered to R18-9-B710 by final rulemaking at 23 A.A.R. 3091, effective January 1, 2018 (Supp. 17-4).

R18-9-719. Renumbered**Historical Note**

New Section adopted by final rulemaking at 7 A.A.R. 758, effective January 16, 2001 (Supp. 01-1). Section R18-9-719 renumbered to R18-9-D702 by final rulemaking at 23 A.A.R. 3091, effective January 1, 2018 (Supp. 17-4).

R18-9-720. Repealed**Historical Note**

New Section adopted by final rulemaking at 7 A.A.R. 758, effective January 16, 2001 (Supp. 01-1). Section repealed by final rulemaking at 23 A.A.R. 3091, effective January 1, 2018 (Supp. 17-4).

PART A. GENERAL PROVISIONS

R18-9-A701. Definitions

Unless provided otherwise, the definitions provided in A.R.S. § 49-201, A.A.C. R18-9-101, R18-9-601, R18-11-301, and the following terms apply to this Article:

1. "Advanced reclaimed water treatment facility" means a facility that treats and purifies Class A+ or Class B+ reclaimed water to produce potable water suitable for distribution for human consumption. R18-9-B702(B) does not apply to an advanced reclaimed water treatment facility. Potable water produced by an advanced reclaimed water treatment facility is not reclaimed water.
2. "Direct reuse" means the beneficial use of reclaimed water for a purpose allowed by this Article. The following is not a direct reuse of reclaimed water:
 - a. The use of water subsequent to its discharge under the conditions of a National or Arizona Pollutant Discharge Elimination System permit;
 - b. The use of water subsequent to discharge under the conditions of an Aquifer Protection Permit issued under 18 A.A.C. 9, Articles 1 through 3;
 - c. The use of industrial wastewater, reclaimed water, or both, in a workplace subject to a federal program that protects workers from workplace exposures; or
 - d. The use of potable water produced by an advanced reclaimed water treatment facility.
3. "Direct reuse site" means an area permitted for the application or impoundment of reclaimed water. An impoundment operated for disposal under an Aquifer Protection Permit is not a direct reuse site.
4. "End user" means a person who directly reuses reclaimed water meeting the standards for Classes A+, A, B+, B, and C, established under 18 A.A.C. 11, Article 3.
5. "Gray water" means wastewater that has been collected separately from a sewage flow and that originates from a clothes washer or a bathroom tub, shower or sink but that does not include wastewater from a kitchen sink, dishwasher or toilet. A.R.S. § 49-201(18).
6. "Industrial wastewater" means wastewater generated from an industrial process.

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

7. "Irrigation" means the beneficial use of water or reclaimed water, or both, for growing crops, turf, or silviculture, or for landscaping.
8. "Open access" means access to reclaimed water by the general public is uncontrolled.
9. "Open water conveyance" means any constructed open waterway, including canals and laterals, that transports reclaimed water from a sewage treatment facility to a reclaimed water blending facility or from a sewage treatment facility or reclaimed water blending facility to the point of land application or end use. An open water conveyance does not include waters of the United States.
10. "Pipeline conveyance" means any system of pipelines that transports reclaimed water from a sewage treatment facility to a reclaimed water blending facility or from a sewage treatment facility or reclaimed water blending facility to the point of land application or end use.
11. "Reclaimed water" means water that has been treated or processed by a wastewater treatment plant or an on-site wastewater treatment facility. A.R.S. § 49-201(32).
12. "Reclaimed water agent" means a person who holds a permit to distribute reclaimed water to more than one end user.
13. "Reclaimed water blending facility" means an installation or method of operation that receives reclaimed water from a sewage treatment facility or other reclaimed water blending facility classified to produce Class C or better reclaimed water and blends it with other water so that the produced water may be used for a higher-class purpose listed in 18 A.A.C. 11, Article 3, Table A.
14. "Recycled water" means a processed water that originated as a waste or discarded water, including reclaimed water and gray water, for which the Department has designated water quality specifications to allow the water to be used as a supply.
15. "Restricted access" means that access to reclaimed water by the general public is controlled.
16. "Sewage Treatment Facility" means a sewage treatment facility as defined in 18 A.A.C. 9, Article 1.

Historical Note

New Section R18-9-A701 renumbered from R18-9-701 and amended by final rulemaking at 23 A.A.R. 3091, effective January 1, 2018 (Supp. 17-4).

R18-9-A702. Applicability and Standards for Recycled Water

- A. This Article applies to:
 1. An owner or operator of a sewage treatment facility that generates reclaimed water for direct reuse,
 2. An owner or operator of a reclaimed water blending facility,
 3. A reclaimed water agent,
 4. An end user of reclaimed water,
 5. A person who uses recycled water regulated under this Article,
 6. A person who directly reuses reclaimed water from a sewage treatment facility combined with industrial wastewater or combined with water from an industrial wastewater treatment facility, and
 7. A person who directly reuses reclaimed water from an industrial wastewater treatment facility in the production or processing of a crop or substance that may be used as human or animal food.
- B. Reclaimed water classes A+, A, B+, B, and C specified in this Article shall meet the standards established in 18 A.A.C. 11, Article 3.
- C. Nothing in this Article exempts the disposal of reclaimed water from the Aquifer Protection Permit requirements under A.R.S. Title 49, Chapter 2, Articles 1, 2, and 3.

Historical Note

New Section R18-9-A702 renumbered from R18-9-702 and amended by final rulemaking at 23 A.A.R. 3091, effective January 1, 2018 (Supp. 17-4).

R18-9-A703. Recycled Water Individual Permit Application

- A. To apply for a Recycled Water Individual Permit, a person shall provide the Department with:
 1. The applicable permit fee specified under 18 A.A.C. 14; and
 2. The following information on a form provided by the Department:
 - a. The name, e-mail address, telephone number, and mailing address of the owner or operator of the facility or, if applicable, the reclaimed water agent;
 - b. The latitude and longitude coordinates; township range, and section; site address, if applicable; and a map showing the facility or site location;
 - c. Any other federal or state environmental permits issued to the applicant;
 - d. Source of recycled water to be used;
 - e. The applicant may propose for approval, and the Department may issue, a single permit that includes more than one type of recycled water allowed by this article, including for multiple classes of reclaimed water, if the applicant demonstrates the waters will be treated appropriately for the end use;
 - f. The applicant may propose, and the Department may permit, the inclusion of kitchen sink and dishwasher wastewater with gray water under a Recycled Water Individual Permit, if the applicant demonstrates such waters will be treated appropriately for the end use;
 - g. Estimated volume of recycled water to be used on an annual basis;
 - h. Class of reclaimed water to be directly reused, if applicable;
 - i. Description of the use activity;
 - j. Any treatment measures utilized to meet or maintain reclaimed water quality standards or otherwise ensure the quality of the recycled water is fit for the intended use; and
 - k. The applicant's certification that the information submitted in the application is true and accurate to the best of the applicant's knowledge.
- B. Public participation.
 1. Notice of Preliminary Decision.
 - a. The Department shall publish the Notice of Preliminary Decision regarding the issuance or denial of a final permit determination on the Department's website.
 - b. The Department shall accept written comments from the public before a Recycled Water Individual Permit is issued or denied.
 - c. The written public comment period begins on the publication date of the Notice of Preliminary Decision and extends for 30 calendar days.
 2. After publishing the notice specified in subsection (B)(1)(a), the Department shall hold a public hearing to address the Notice of Preliminary Decision if the Department determines that:
 - a. Significant public interest in a public hearing exists, or

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

- b. Significant issues or information have been brought to the attention of the Department that are relevant to the permitting decision and have not been considered previously in the permitting process.
 - 3. If the Department determines a public hearing is necessary and a public hearing has not already been noticed under subsection (B)(1)(a), the Department shall schedule a public hearing and republish the Notice of Preliminary Decision and notice of the public hearing on the Department's website.
 - 4. The Department shall accept written public comment until the close of the hearing record as specified by the person presiding at the public hearing.
- C. Final permit issuance or denial.
 - 1. The Department may deny a Recycled Water Individual Permit if the Department determines upon completion of the application process the applicant has:
 - a. Failed or refused to correct a deficiency in the permit application;
 - b. Failed to demonstrate the facility and the operation will protect public health and water quality. This determination shall be based on:
 - i. The information submitted in the permit application,
 - ii. Any information submitted to the Department as written public comment or following a public hearing; or
 - iii. Any information relevant to the demonstration developed or acquired by the Department, or
 - c. Provided false or misleading information.
 - 2. If the Department denies a Recycled Water Individual Permit the Department shall provide the applicant with written notification explaining the following:
 - a. The reasons for the denial with references to the statutes or rules on which the denial is based.
 - b. The applicant's right to appeal the denial, including the number of days the applicant has to file a notice of appeal, and the name and telephone number of the Department contact person who can answer questions regarding the appeals process.
 - c. The applicant's right to request an informal settlement conference under A.R.S. §§ 41-1092.03(A) and 41-1092.06.

Historical Note

New Section R18-9-A703 renumbered from R18-9-705 and amended by final rulemaking at 23 A.A.R. 3091, effective January 1, 2018 (Supp. 17-4).

R18-9-A704. Recycled Water General Permit

- A. Type 1 Recycled Water General Permit for Gray Water. A person may use recycled water without notice to the Department if the use:
 - 1. Is specifically authorized by and meets the requirements of this Article, and
 - 2. Complies with the requirements of the Type 1 Recycled Water General Permit under this Article.
- B. Type 2 Recycled Water General Permit for Reclaimed Water.
 - 1. A person may use recycled water under a Type 2 Recycled Water General Permit if:
 - a. The use is authorized by and meets the requirements of this Article;
 - b. The use meets all the conditions of the applicable Type 2 Recycled Water General Permit under this Article;
 - c. The person files a Notice of Intent to Use Recycled Water under subsection (B)(2); and
 - d. The person submits the applicable fee established in 18 A.A.C. 14.
- 2. Notice of Intent to Use Recycled Water.
 - a. A person shall submit, by mail, in person, or by another method approved by the Department, the Notice of Intent to Use Recycled Water on a form provided by the Department.
 - b. The Notice of Intent to Use Recycled Water shall include:
 - i. The name, address, e-mail address, and telephone number of the applicant;
 - ii. The name, address, and telephone number of the contact person;
 - iii. The source, estimated volume, and, if applicable, class of recycled water to be used;
 - iv. The latitude and longitude coordinates of the approximate center point of the use site;
 - v. The description of the use activity; and
 - vi. The applicant's certification that the applicant agrees to comply with all requirements of this Article, including specific terms of the applicable Recycled Water General Permit.
 - c. For a Type 2 Recycled Water General Permit for Direct Reuse of Reclaimed Water, the Notice of Intent to Use Recycled Water must include the description of the direct reuse activity, including a description of acreage and the type of vegetation to be irrigated, if applicable to the type of direct reuse activity.
- 3. The Department shall notify the applicant that the Department received the Notice of Intent to Use Recycled Water and that the applicant is authorized to use the recycled water according to Type 2 permit conditions.
- C. Type 3 Recycled Water General Permit for Reclaimed Water and Type 3 Recycled Water General Permit for Gray Water. A person shall not operate under a Type 3 Recycled Water General Permit until the Department issues a written Recycled Water Authorization.
 - 1. Application submittal. The applicant shall submit, either by mail, in person at the Department, or by another method approved by the Department:
 - a. The Notice of Intent to Use Recycled Water on a form provided by the Department containing the information specified in the applicable Type 3 Recycled Water General Permit under this Article, and
 - b. The applicable fee established in 18 A.A.C. 14.
 - 2. Issuance of Recycled Water Authorization. If, after reviewing the Notice of Intent to Use Recycled Water, the Department determines the direct reuse conforms with the conditions of a Type 3 Recycled Water General Permit and all other applicable requirements of this Article, the Department shall issue the Recycled Water Authorization.
 - 3. Denial of Recycled Water Authorization.
 - a. If the Department determines on the basis of its review or an inspection the use does not conform to the conditions of the applicable Type 3 Recycled Water General Permit or other applicable requirements of this Article, the Department shall notify the applicant of its decision not to issue the Recycled Water Authorization.
 - b. The applicant may appeal the decision not to issue a Recycled Water Authorization under A.R.S. §§ 41-1092 through 41-1092.12.

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

Historical Note

New Section R18-9-A704 renumbered from R18-9-708 and amended by final rulemaking at 23 A.A.R. 3091, effective January 1, 2018 (Supp. 17-4).

R18-9-A705. Recycled Water Permit Term, Information Changes, and Renewal

- A.** A recycled water general permit is valid as follows:
1. A Type 1 Recycled Water General Permit is valid as long as the conditions of the general permit and the requirements of this Article are met. No renewal is required.
 2. A Type 2 Recycled Water General Permit is valid for five years from the date the Department receives the Notice of Intent to Use Recycled Water;
 3. A Type 3 Recycled Water General Permit is valid for five years from the date the Recycled Water Authorization is issued.
- B.** If any change in the following information occurs, a permittee operating under any individual, or Type 2 or Type 3 recycled water general permit shall update the Department with such changes at least once annually by January 31:
1. Permittee,
 2. Ownership,
 3. Contact person,
 4. Phone number, address, email address, or telephone number, or any combination of any of the above, for permittee or contact person,
 5. Name of the use site,
 6. For a Type 2 Recycled Water General Permit for Direct Reuse of Class A + or B + Reclaimed Water remaining under the same ownership:
 - a. Expansion of the reuse area,
 - b. Addition of another allowable use if it is located within the same property boundary as the boundary identified in the Notice of Intent to Use Recycled Water submitted to the Department.
 7. An increase in Class A, B, or C reclaimed water use of more than ten percent but less than twenty percent above the volume of reclaimed water currently permitted for use at the reuse site, if applicable.
- C.** To renew any Type 2 or Type 3 Recycled Water General Permit, a permittee must submit a Notice of Renewal at least 30 days before the permit expires and include the applicable fee established in 18 A.A.C. 14. A permittee may update or change any information as described in subsection (B) in a Notice of Renewal.
- D.** For changes not described in subsections (B) or (C), the permittee must submit a new Notice of Intent to Use Recycled Water or a Recycled Water Individual Permit application, as applicable.

Historical Note

New Section R18-9-A705 renumbered from R18-9-709 and amended by final rulemaking at 23 A.A.R. 3091, effective January 1, 2018 (Supp. 17-4).

R18-9-A706. Recycled Water Permit Revocation

- A.** After notice and opportunity for a hearing, the Director may revoke coverage under a Recycled Water General Permit and require the permittee to obtain an individual permit in order to operate for any of the following:
1. The permittee failed to comply with any applicable provision of A.R.S. Title 49, Chapter 2; Article 7 of this Chapter; or any permit condition;
 2. The permittee misrepresented or omitted a fact, information, or data related to an application or permit condition;

3. The Director determines a permitted activity is causing or will cause a violation of a water quality standard established under A.R.S. § 49-221;
 4. A permitted activity is causing or will cause imminent and substantial endangerment to public health or the environment.
- B.** The Director may revoke coverage under a general permit for any or all facilities within a specific geographic area, if, due to geologic or hydrologic conditions, the cumulative effect of the facilities subject to the Recycled Water General Permit has violated or will violate a water quality standard established under A.R.S. § 49-221.
- C.** If an individual permit is issued to replace general permit coverage, the coverage under the general permit is automatically revoked upon issuance of the individual permit.
- D.** The Director may, after notice and opportunity for hearing, suspend or revoke a Recycled Water Individual Permit for any of the reasons listed in subsections (A)(1) through (A)(4) of this section.

Historical Note

New Section R18-9-A706 renumbered from R18-9-710 and amended by final rulemaking at 23 A.A.R. 3091, effective January 1, 2018 (Supp. 17-4).

R18-9-A707. Recycled Water Permit Transition

The terms and conditions of Type 2, Type 3, and individual reclaimed water permits issued before January 1, 2018, including permits issued for gray water, shall remain in effect according to the language of this Article effective as of the date the permit was issued.

Historical Note

New Section R18-9-A707 made by final rulemaking at 23 A.A.R. 3091, effective January 1, 2018 (Supp. 17-4).

PART B. RECLAIMED WATER**R18-9-B701. Transition of Aquifer Protection Permits and Permits for the Reuse of Reclaimed Wastewater**

- A.** A person may directly reuse reclaimed water under an individual Aquifer Protection Permit or a Permit for the Reuse of Reclaimed Wastewater issued by the Department before January 1, 2001 if the person meets the conditions of the permit and the permit does not expire.
- B.** A person meeting the requirements of subsection (A) may apply for a new reclaimed water permit under this Article.
1. To obtain a reclaimed water permit, a person shall submit a Recycled Water Individual Permit application, required under R18-9-A703(A), or a Notice of Intent to Use Recycled Water, required under R18-9-A704(B)(2) or R18-9-A704(B)(3), to the Department at least 120 days before the current permit expires.
 2. The Department shall continue the terms of the individual Aquifer Protection Permit or the Permit for the Reuse of Reclaimed Wastewater beyond the stated date of expiration if:
 - a. The permitted direct reuse is of a continuing nature; and
 - b. The permittee submits a timely and complete application for a new permit.
- C.** Sewage treatment facility generating reclaimed water.
1. At the request of a permittee holding an individual Aquifer Protection Permit, the Department shall amend an individual Aquifer Protection Permit if the permittee adequately demonstrates that the applicable quality of reclaimed water produced for direct reuse is achieved. The Department shall review:

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

- a. The information in the individual Aquifer Protection Permit, any applicable supporting documentation, and the water quality test results from the previous two years to determine the classification of reclaimed water generated by the sewage treatment facility; and
- b. The available water quality data if the sewage treatment facility has operated for less than two years.
2. The Department shall issue an amended individual Aquifer Protection Permit under procedures specified under 18 A.A.C. 9, Article 2 containing:
 - a. Identification of the class of reclaimed water generated by the facility;
 - b. Requirements for monitoring reclaimed water quality and flow at a frequency appropriate to demonstrate compliance with this Article and 18 A.A.C. 11, Article 3;
 - c. Requirements for quarterly reporting of the following data to the Department, any reclaimed water agent who has contracted for delivery of reclaimed water from the facility, and any end user who has not waived interest in receiving this information:
 - i. Water quality test results demonstrating reclaimed water produced by the facility meets the applicable standards for the class of water identified in subsection (C)(2)(a), and
 - ii. The total volume of reclaimed water generated for direct reuse.
 - d. Provision for cessation of delivery, if necessary, and storage or disposal if reclaimed water cannot be delivered for direct reuse.
- G. Hose bibbs. A permittee directly reusing reclaimed water shall secure hose bibbs discharging reclaimed water to prevent use by the public.
- H. Prohibited activities.
 1. Irrigating with untreated sewage;
 2. Providing water for human consumption from a reclaimed water source except as allowed in Part E of this Article.
 3. Providing or using reclaimed water for any of the following activities:
 - a. Direct reuse for swimming, wind surfing, water skiing, or other full-immersion water activity with a potential of ingestion; or
 - b. Direct reuse for evaporative cooling or misting.
 4. Misapplying reclaimed water for any of the following reasons:
 - a. Application of a stated class of reclaimed water of lesser quality than allowed by this Article for the type of direct reuse application;
 - b. Application of reclaimed water to any area other than a direct reuse site; or
 - c. Allowing runoff of reclaimed water or reclaimed water mixed with stormwater from a direct reuse site, except for:
 - i. agricultural return flow directed onto an adjacent field or returned to an open water conveyance; or
 - ii. a discharge authorized by an individual or general NPDES or AZPDES permit.
- I. Signage and Notification. A permittee shall place and maintain signage at locations and provide applicable notification as specified in Table 1 so the public is informed reclaimed water is in use and no one should drink from the system.
- J. Pipeline Conveyances of Reclaimed Water.
 1. Applicability. Any person constructing a pipeline conveyance, whether new or a replacement of an existing pipeline, shall meet the requirements of this subsection.
 2. A person shall design and construct a pipeline conveyance system using good engineering judgment following standards of practice.
 3. A person shall construct a pipeline conveyance so that:
 - a. Reclaimed water does not find its way into, or otherwise contaminate, a potable water system;
 - b. System structural integrity is maintained; and
 - c. The capability for inspection, maintenance, and testing is maintained.
 4. A person shall construct a pipeline conveyance and all appurtenances conducting reclaimed water to withstand a static pressure of at least 50 pounds per square inch greater than the design working pressure without leakage as determined in R18-9-E301(D)(2)(j).
 5. A person shall provide a pipeline conveyance with thrust blocks or restrained joints where needed to prevent excessive movement of the pipeline.
 6. The following requirements for minimum separation distance apply. A person shall:
 - a. Locate a pipeline conveyance no closer than 50 feet from a drinking water well unless the pipeline conveyance is constructed as specified under subsection (J)(6)(c);
 - b. Locate a pipeline conveyance no closer than two feet vertically nor six feet horizontally from a potable water pipeline unless the pipeline conveyance is constructed as specified under subsection (J)(6)(c);
 - c. Construct a pipeline conveyance that does not meet the minimum separation distances specified in sub-

Historical Note

New Section R18-9-B701 renumbered from R18-9-703 and amended by final rulemaking at 23 A.A.R. 3091, effective January 1, 2018 (Supp. 17-4).

R18-9-B702. General Requirements for Reclaimed Water

- A. Sewage treatment facility. A sewage treatment facility owner or operator shall provide reclaimed water for direct reuse only as authorized under an individual Aquifer Protection Permit.
- B. Additional treatment. If an owner or operator of a facility accepts reclaimed water and provides additional treatment for a higher quality direct reuse, the facility is considered a sewage treatment facility and shall provide reclaimed water for direct reuse only as authorized under an individual Aquifer Protection Permit.
- C. Reclaimed water blending facility. An owner or operator of a reclaimed water blending facility shall conduct blending operations only as authorized under a Recycled Water Individual Permit or a Type 3 Recycled Water General Permit for a Reclaimed Water Blending Facility.
- D. Reclaimed water agent. A person shall operate as a reclaimed water agent only as authorized under a Recycled Water Individual Permit or a Type 3 Recycled Water General Permit for a Reclaimed Water Agent.
- E. End user. A person shall not directly reuse reclaimed water unless permitted under this Article.
- F. Irrigating with reclaimed water. A permittee applying reclaimed water for an irrigation use allowed in 18 A.A.C. 11, Article 3, Table A shall:
 1. Use application methods that reasonably preclude human contact with reclaimed water;
 2. Prevent reclaimed water from standing on open access areas during normal periods of use; and
 3. Prevent reclaimed water from coming into contact with drinking fountains, water coolers, or eating areas.

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

sections (J)(6)(a) and (J)(6)(b) by encasing the pipeline conveyance in at least six inches of concrete or using mechanical joint ductile iron pipe or other materials of equivalent or greater tensile and compressive strength at least 10 feet beyond any point on the pipeline conveyance within the specified minimum separation distance; and

- d. If a reclaimed water system is supplemented with water from a potable water system, separate the potable water system from the pipeline conveyance by an air gap.

7. A person shall:

- a. For a pipeline conveyance, eight inches in diameter or less, use pipe marked on opposite sides in English: "CAUTION: RECLAIMED WATER, DO NOT DRINK" in intervals of three feet or less and colored purple or wrapped with durable purple tape.
- b. For a mechanical appurtenance to a pipeline conveyance, ensure the mechanical appurtenance is colored purple or legibly marked to identify it as part of the reclaimed water distribution system and distinguish it from systems for potable water distribution and sewage collection.

K. Open Water Conveyances of Reclaimed Water.

1. This subsection applies to an open water conveyance, regardless of the date of construction.

2. A person shall maintain an open water conveyance to prevent release of reclaimed water except as allowed under federal and state regulations. The maintenance program shall include periodic inspections and follow-up corrective measures to ensure the integrity of conveyance banks and capacity of the conveyance to safely carry operational flows.

3. Signage for Class B+, B, and C Reclaimed Water. A person shall:

- a. Ensure signs state: "CAUTION: RECLAIMED WATER, DO NOT DRINK," and display the international "do not drink" symbol;
- b. Place signs at all points of ingress and, if the open water conveyance is operated with open access, at least every 1/4-mile along the length of the open water conveyance or other interval as approved in writing by the Department; and
- c. Ensure signs are visible and legible from both sides of the open water conveyance.

Historical Note

New Section R18-9-B702 renumbered from R18-9-704 and amended by final rulemaking at 23 A.A.R. 3091, effective January 1, 2018; clerical error to subsections corrected at (J)(6)(a), (b), and (c) as published at 23 A.A.R. 3091 (Supp. 17-4).

Table 1. Signage and Notification Requirements for Direct Reuse Sites

Reclaimed Water Class	Hose Bibbs	Residential Irrigation	Schoolground Irrigation	Other Open Access Irrigation	Restricted Access Irrigation	Mobile Reclaimed Water Dispersal
A+, A	Each bibb at valve	Front yard, or all entrances to a subdivision if the signage is supplemented by written yearly notification to individual homeowners by the homeowner's association.	On premises visible to staff and students	None	None	On dispersal equipment and visible to the public
B+, B	Each bibb at valve	Direct Reuse Not Allowed	Direct Reuse Not Allowed	Direct Reuse Not Allowed	1. Ingress points; 2. At reasonably spaced intervals of not more than 1/4 mile at the reuse site or along the open water conveyance, unless access to vehicular and pedestrian traffic is secured; and 3. If applicable, notice on golf score cards	On dispersal equipment and visible to the public
C	Each bibb at valve	Direct Reuse Not Allowed	Direct Reuse Not Allowed	Direct Reuse Not Allowed	1. Ingress points; 2. At reasonably spaced intervals of not more than 1/4 mile at the reuse site or along the open water conveyance, unless access to vehicular and pedestrian traffic is secured; and 3. If applicable, notice on golf score cards	On dispersal equipment and visible to the public

Note: All impoundments with open access including lakes, ponds, ornamental fountains, waterfalls, and other water features shall be posted with signs regardless of the class of reclaimed water.

Historical Note

New Section R18-9-B702, Table 1 renumbered from R18-9-704, Table 1 and amended by final rulemaking at 23 A.A.R. 3091, effective January 1, 2018 (Supp. 17-4).

R18-9-B703. General Provisions for Recycled Water Individual Permit for Reclaimed Water

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

- A. A Recycled Water Individual Permit for Reclaimed Water is obtained under R18-9-A703. A Recycled Water Individual Permit for Reclaimed Water:
 - 1. Is valid for five years;
 - 2. Must be updated as prescribed by R18-9-A705; and
 - 3. Continues, pending the issuance of a new permit, with the same terms following its expiration if the following are met:
 - a. The permittee submits an application for a new permit at least 60 days before the expiration of the existing permit; and
 - b. The permitted activity is of a continuing nature.
- B. A Recycled Water Individual Permit for Reclaimed Water shall contain, if applicable:
 - 1. The class of reclaimed water to be applied for direct reuse or the alternative water quality criteria appropriate for a direct reuse type not listed in 18 A.A.C. 11, Article 3, Table A that ADEQ may allow under R18-11-309;
 - 2. Specific types of direct reuse and any limitations on reuse;
 - 3. Requirements for monitoring reclaimed water quality and flow to demonstrate compliance with this Article and 18 A.A.C. 11, Article 3;
 - 4. Requirements for reporting the following data to demonstrate compliance with this Article and 18 A.A.C. 11, Article 3:
 - a. Water quality test results demonstrating the reclaimed water meets the applicable standards for the class of water or the alternative water quality criteria identified in subsection (B)(1), and
 - b. The total volume of reclaimed water generated for direct reuse.
 - 5. Requirements for maintaining records of all monitoring information and monitoring activities include:
 - a. The date, description of sampling location, and time of sampling or measurement;
 - b. The name of the person who performed the sampling or measurement;
 - c. The date the analyses were performed;
 - d. The name of the person who performed the analyses;
 - e. The analytical techniques or methods used;
 - f. The results of the analyses; and
 - g. Documentation of sampling technique, sample preservation, and transportation, including chain-of-custody forms.
 - 6. Requirements to retain all monitoring activity records and results, including all data for continuous monitoring instrumentation, and calibration and maintenance records for five years from the date of sampling or analysis. The Director shall extend the five-year retention period:
 - a. During the course of an unresolved litigation regarding compliance with the permit conditions, or
 - b. For any other justifiable cause.
 - 7. A requirement to allow all end users access to the records of physical, chemical, and biological quality of the reclaimed water.
 - 8. Signage or other notification requirements appropriate to the use; and
 - 9. Closure requirements, if applicable.

Historical Note

New Section R18-9-B703 renumbered from R18-9-706 and amended by final rulemaking at 23 A.A.R. 3091, effective January 1, 2018 (Supp. 17-4).

R18-9-B704. Type 2 Recycled Water General Permit for Direct Reuse of Class A+ Reclaimed Water

- A. A Type 2 Recycled Water General Permit for Direct Reuse of Class A+ Reclaimed Water allows any direct reuse application of reclaimed water listed in 18 A.A.C. 11, Article 3, Table A, if the conditions in this Article are met.
- B. Record maintenance. A permittee shall maintain records for five years describing the direct reuse site and the total amount of reclaimed water used annually for the permitted direct reuse activity. The records shall be made available to the Department upon request.
- C. A permittee shall post signs or provide notification or both as specified in R18-9-B702(I).
- D. No lining is required for an impoundment storing Class A+ reclaimed water.

Historical Note

New Section R18-9-B704 renumbered from R18-9-712 and amended by final rulemaking at 23 A.A.R. 3091, effective January 1, 2018 (Supp. 17-4).

R18-9-B705. Type 2 Recycled Water General Permit for Direct Reuse of Class A Reclaimed Water

- A. A Type 2 Recycled Water General Permit for the Direct Reuse of Class A Reclaimed Water allows any direct reuse application of reclaimed water listed in 18 A.A.C. 11, Article 3, Table A, if the conditions in this Article are met.
- B. Records and reporting. A permittee shall:
 - 1. Maintain records containing the following information for five years, and make them available to the Department upon request:
 - a. The direct reuse site,
 - b. The volume of reclaimed water applied monthly for each category of direct reuse activity listed in 18 A.A.C. 11, Article 3, Table A,
 - c. The total nitrogen concentration of the reclaimed water applied, and
 - d. The acreage and type of vegetation to which the reclaimed water is applied.
 - 2. Report annually to the Department on or before the anniversary date of the Notice of Intent to Use Recycled Water:
 - a. The volume of reclaimed water received,
 - b. The type of reclaimed water application, and
 - c. If used for irrigation, the vegetation and acreage irrigated.
- C. Nitrogen management. A permittee shall ensure:
 - 1. Impoundments storing reclaimed water allowed by the general permit are lined using a low-hydraulic conductivity artificial or site-specific liner material achieving a calculated discharge rate less than 550 gallons per acre per day; and
 - 2. The application rates of the reclaimed water are based on one of the following:
 - a. If assigned, the water allotment specified by the Arizona Department of Water Resources;
 - b. A water balance that considers consumptive use of water by the crop, turf, or landscape vegetation; or
 - c. An alternative method approved by the Department.
- D. In addition to the Notice of Intent to Use Recycled Water specified in R18-9-A704(B)(2), the applicant shall provide a list of impoundments, water depth, freeboard, and the liner characteristics and the method chosen from the list in subsection (C)(2).
- E. The permittee shall post signs or provide notification, or both, as specified in R18-9-B702(I).

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

Historical Note

New Section R18-9-B705 renumbered from R18-9-713 and amended by final rulemaking at 23 A.A.R. 3091, effective January 1, 2018 (Supp. 17-4).

R18-9-B706. Type 2 Recycled Water General Permit for Direct Reuse of Class B+ Reclaimed Water

- A. A Type 2 Recycled Water General Permit for Direct Reuse of Class B+ Reclaimed Water allows any direct reuse application of Class B and Class C reclaimed water listed in 18 A.A.C. 11, Article 3, Table A, if the conditions in this Article are met.
- B. A permittee shall comply with the record maintenance and posting requirements established under R18-9-B704 and make records available to the Department upon request.
- C. No lining is required for an impoundment storing Class B+ reclaimed water.

Historical Note

New Section R18-9-B706 renumbered from R18-9-714 and amended by final rulemaking at 23 A.A.R. 3091, effective January 1, 2018 (Supp. 17-4).

R18-9-B707. Type 2 Recycled Water General Permit for Direct Reuse of Class B Reclaimed Water

- A. A Type 2 Recycled Water General Permit for the Direct Reuse of Class B Reclaimed Water allows the direct reuse application of Class B and Class C reclaimed water listed in 18 A.A.C. 11, Article 3, Table A, if conditions in this Article are met.
- B. A permittee shall comply with the requirements established under R18-9-B705(B), (C), (D), and (E).

Historical Note

New Section R18-9-B707 renumbered from R18-9-715 and amended by final rulemaking at 23 A.A.R. 3091, effective January 1, 2018 (Supp. 17-4).

R18-9-B708. Type 2 Recycled Water General Permit for Direct Reuse of Class C Reclaimed Water

- A. A Type 2 Recycled Water General Permit for the Direct Reuse of Class C Reclaimed Water allows the direct reuse application of Class C reclaimed water listed in 18 A.A.C. 11, Article 3, Table A, if conditions in this Article are met.
- B. A permittee shall comply with the requirements established under R18-9-B705(B), (C), (D), and (E).

Historical Note

New Section R18-9-B708 renumbered from R18-9-716 and amended by final rulemaking at 23 A.A.R. 3091, effective January 1, 2018 (Supp. 17-4).

R18-9-B709. Type 3 Recycled Water General Permit for a Reclaimed Water Blending Facility**A. Permit conditions.**

- 1. A Type 3 Recycled Water General Permit for a Reclaimed Water Blending Facility allows the blending of reclaimed water with other water, if the conditions in this Article are met.
- 2. Blending reclaimed water with industrial wastewater or with reclaimed water from an industrial wastewater treatment plant is not authorized by this general permit.

B. A person shall file with the Department a Notice of Intent to Operate a reclaimed water blending facility on a form provided by the Department. The Notice of Intent to Operate shall include:

- 1. The name, address, e-mail address, and telephone number of the applicant;
- 2. The name, address, e-mail address, and telephone number of a contact person;
- 3. The source and volume of reclaimed water to be blended;
- 4. The class of reclaimed water to be blended;
- 5. The source, volume, and quality of other water to be blended;
- 6. The latitude and longitude coordinates of the blending facility;
- 7. A description of the reclaimed water blending facility, including a demonstration the proposed blending methodology will meet the standards established in 18 A.A.C. 11, Article 3 for the class of reclaimed water the facility will produce;
- 8. The applicant's certification that the applicant agrees to comply with the requirements of this Article, 18 A.A.C. 11, Article 3, and the terms of this recycled water general permit; and
- 9. The applicable permit fee specified under 18 A.A.C. 14.

C. A person shall not operate a reclaimed water blending facility until the Department issues a written Recycled Water Authorization under R18-9-A704(C).**D. A permittee shall monitor:**

- 1. The blended water quality for total nitrogen and fecal coliform at frequencies specified by the class of reclaimed water in 18 A.A.C. 11, Article 3.
 - a. If the concentration in the blended water of either total nitrogen or fecal coliform, as applicable, exceeds the limits for the applicable reclaimed water class established in 18 A.A.C. 11, Article 3, within 30 days of the exceedance, the permittee shall submit a plan to the Department to change the blending process or to otherwise correct the deficiency. The permittee shall also double the monitoring frequency for the next four months.
 - b. If another exceedance occurs within the interval of increased monitoring, the permittee shall submit an application within 45 days for a Recycled Water Individual Permit for Reclaimed Water.
- 2. The volume of reclaimed water, the volume of the other water, and the total volume of blended water delivered for direct reuse on a monthly basis.

E. The permittee shall report the results of the monitoring under subsection (D) to the Department by January 31, for the immediately preceding calendar year, and shall make this information available to the end users.

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

Historical Note

New Section R18-9-B709 renumbered from R18-9-717 and amended by final rulemaking at 23 A.A.R. 3091, effective January 1, 2018 (Supp. 17-4).

R18-9-B710. Type 3 Recycled Water General Permit for a Reclaimed Water Agent

- A.** A Type 3 Recycled Water General Permit for a Reclaimed Water Agent allows a person to operate as a Reclaimed Water Agent if the conditions of this Article are met, and the following conditions are met for the class of reclaimed water delivered by the Reclaimed Water Agent:
1. Signage and notification requirements specified under R18-9-B702(I), as applicable;
 2. Impoundment liner requirements specified under R18-9-B704(D), R18-9-B705(C), R18-9-B706(C), R18-9-B707(B) or R18-9-B708(B), as applicable; and
 3. Nitrogen management requirements specified under R18-9-B705(C), R18-9-B707(B), and R18-9-B708(B), as applicable.
- B.** A person holding a Type 3 Recycled Water Permit for a Reclaimed Water Agent:
1. Is responsible for the direct reuse of reclaimed water by more than one end user instead of direct reuse by the end users under separate Type 2 Recycled Water General Permits, and
 2. Shall maintain a contractual agreement with each end user stipulating any end user responsibilities for the requirements specified under subsection (A).
- C.** A person shall file with the Department a Notice of Intent to Operate as a reclaimed water agent. The Notice of Intent to Operate shall include:
1. The name, address, e-mail address, and telephone number of the applicant;
 2. The name, address, e-mail address, and telephone number of a contact person;
 3. The following information for each end user to be supplied reclaimed water by the applicant:
 - a. The name, address, e-mail address, and telephone number of the end user;
 - b. A system map showing the locations of the direct reuse sites and the latitude and longitude coordinates of each site; and
 - c. A description of each direct reuse activity, including the type of vegetation, acreage, and annual volume of reclaimed water to be used, unless Class A+ or Class B+ reclaimed water is delivered.
 4. The source, class, and annual volume of reclaimed water to be delivered by the applicant;
 5. A description of the contractual arrangement between the applicant and each end user, including any end user responsibilities for the requirements specified under subsection (A); and
 6. The applicable permit fee specified under 18 A.A.C. 14.
- D.** A proposed reclaimed water agent shall not distribute reclaimed water to end users until the Department issues a written Recycled Water Authorization under R18-9-A704(C).
- E.** A reclaimed water agent shall record and annually report the following information to the Department by January 31, for the immediately preceding year:
1. The total volume of reclaimed water delivered by the reclaimed water agent;
 2. The volume of reclaimed water delivered to each end user for Class A, Class B, and Class C reclaimed water; and
 3. Any change in the information submitted under subsection (C).

Historical Note

New Section R18-9-B710 renumbered from R18-9-718 and amended by final rulemaking at 23 A.A.R. 3091, effective January 1, 2018 (Supp. 17-4).

PART C. RECYCLED INDUSTRIAL WASTEWATER**R18-9-C701. Recycled Water Individual Permit for Industrial Wastewater That Is Reused**

- A.** The following activities are prohibited unless a Recycled Water Individual Permit is obtained under R18-9-A703:
1. Use of reclaimed water from a sewage treatment facility that is combined with industrial wastewater or water from an industrial wastewater treatment facility.
 2. Use of reclaimed water from an industrial wastewater treatment facility for production or processing of a crop or substance that may be used as human or animal food.
- B.** In addition to the requirements in R18-9-A703(A), an application for a Recycled Water Individual Permit shall include:
1. Each source of the industrial wastewater with Standard Industrial Code or North American Industry Classification System Code, and the projected rates and volumes from each source;
 2. The chemical, biological, and physical characteristics of the industrial wastewater from each source; and
 3. If reclaimed water will be used in the processing of any crop or substance that may be used as human or animal food, the information regarding food safety and any potential adverse health effects of this direct reuse.

Historical Note

New Section R18-9-C701 renumbered from R18-9-707 and amended by final rulemaking at 23 A.A.R. 3091, effective January 1, 2018 (Supp. 17-4).

PART D. GRAY WATER**R18-9-D701. Type 1 Recycled Water General Permit for Gray Water**

- A.** A Type 1 Recycled Water General Permit for Gray Water allows private residential use of gray water for a flow of less than 400 gallons per day if all the following conditions are met:
1. Gray water originating from the residence is used and contained within the property boundary for household gardening, composting, or landscape watering;
 2. Human contact with gray water and soil watered by gray water is avoided;
 3. Surface application of gray water is not used for watering of food plants, except for trees and shrubs which have an edible portion that does not come into contact with the gray water;
 4. The gray water does not contain hazardous chemicals derived from activities such as cleaning car parts, washing greasy or oily rags, or disposing of waste solutions from hobbyist or home occupational activities;
 5. The gray water does not contain water used to wash diapers or similarly soiled or infectious garments;
 6. The application of gray water is managed to minimize standing water on the surface by using measures such as avoiding overwatering, distributing the gray water beneath a mulch or other cover, and using best practices to improve soil condition and increase filtration;
 7. If blockage, backup, or overload of the system occurs, gray water distribution shall cease until the deficiency is corrected. The gray water system may include components to reduce blockage and backup and be operated using best practices to extend system lifetime;

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

8. Gray water surge tanks, if any, are covered to restrict access and to eliminate habitat for mosquitoes or other vectors, and holding time is minimized to avoid development of anaerobic conditions and odors;
 9. The gray water system is sited outside of a floodway;
 10. The gray water system is operated to maintain a minimum vertical separation distance of at least five feet from the point of gray water application to the top of the seasonally high groundwater table;
 11. For a residence using an on-site wastewater treatment facility for black water treatment and disposal, the use of a gray water system does not change the design, capacity, or reserve area requirements for the on-site wastewater treatment facility at the residence, and ensures the facility can handle the combined black water and gray water flow;
 12. Any pressure piping used in a gray water system that may be susceptible to cross connection with a potable water system clearly indicates the piping does not carry potable water; and
 13. Surface application of gray water is only by flood or drip distribution methods. Flood distribution methods may include containment by horticultural mulch basins and swales.
- B. Prohibitions.** The following are prohibited:
1. Gray water use for purposes other than watering and composting, and
 2. Application of gray water by a spray method.

Historical Note

New Section R18-9-D701 renumbered from R18-9-711 and amended by final rulemaking at 23 A.A.R. 3091, effective January 1, 2018 (Supp. 17-4).

R18-9-D702. Type 3 Recycled Water General Permit for Gray Water

- A.** A Type 3 Recycled Water General Permit for Gray Water allows for the use of gray water for landscape irrigation and composting if:
1. The general permit described in R18-9-D701 does not apply,
 2. The flow is not more than 3000 gallons per day, and
 3. The gray water system satisfies the notification, design, and installation requirements specified in subsections (B) and (C).
- B.** A person shall file a Notice of Intent to Operate a Gray Water System with the Department on a form provided by the Department. The Notice of Intent to Operate shall include:
1. The name, address, e-mail address, and telephone number of the applicant;
 2. The latitude and longitude coordinates;
 3. A description of the sources of gray water and calculations demonstrating the flow is not more than 3000 gallons per day;
 4. Design plans for the gray water system;
 5. The applicant's certification that the applicant agrees to comply with the requirements of this Article and the terms of this Recycled Water General Permit for Gray Water; and
 6. The applicable permit fee specified under 18 A.A.C. 14.
- C.** The following requirements apply to the design, installation, and operation of a gray water system allowed under this Recycled Water General Permit for Gray Water:
1. Human contact with gray water and soil irrigated by gray water is avoided;
 2. Gray water is not applied to an exposed surface but into a bed or trench of permeable material, through piping

installed below the soil surface, or by similar means. Spray irrigation of gray water is not allowed. The application of gray water shall not result in standing water on the surface.

3. The design shall ensure gray water is used and contained within the property boundary for landscape irrigation or composting;
 4. Gray water is not used for irrigation of food plants, except for trees and shrubs which have an edible portion that does not come into contact with the gray water;
 5. The gray water may contain water from drinking fountains but does not contain hazardous chemicals derived from industrial, hobbyist, or similar activities at the site;
 6. Gray water does not contain water used to wash diapers or similarly soiled or infectious garments;
 7. The gray water system is constructed so if blockage, plugging, or backup of the system occurs, gray water can be directed into the sewage collection system or on-site wastewater treatment and disposal system, as applicable;
 8. Gray water surge tanks, if any, are covered to restrict access and to eliminate habitat for mosquitoes or other vectors, and holding time is minimized to avoid development of anaerobic conditions and odors;
 9. The gray water system is sited outside of a floodway;
 10. The gray water system is operated to maintain a minimum vertical separation distance of at least five feet from the point of gray water application to the top of the seasonally high groundwater table;
 11. If an on-site wastewater treatment facility is used for black water treatment and disposal, the use of a gray water system does not change the design, capacity, or reserve area requirements for the on-site wastewater treatment facility so the facility may handle the combined black water and gray water flow; and
 12. Any piping used in a gray water system susceptible to cross connection with a potable water system clearly indicates the piping does not carry potable water.
- D.** The applicant shall not operate the gray water system until the Department issues a written Recycled Water Authorization under R18-9-A704(C).
- E.** The Department may issue a Recycled Water Authorization that differs from the requirements specified in subsection (C) if the system provides equivalent performance and protection of human health and water quality.
- F.** In the Recycled Water Authorization, the Department may require a permittee to report data or information for any of the conditions in this section if the Department deems the reporting necessary to protect human health or water quality or both.

Historical Note

New Section R18-9-D702 renumbered from R18-9-719 and amended by final rulemaking at 23 A.A.R. 3091, effective January 1, 2018 (Supp. 17-4).

PART E. PURIFIED WATER FOR POTABLE USE**R18-9-E701. Recycled Water Individual Permit for an Advanced Reclaimed Water Treatment Facility**

- A.** An application for a Recycled Water Individual Permit for an Advanced Reclaimed Water Treatment Facility must be submitted to the Department according to the requirements in R18-9-A703, as applicable.
- B.** Safe Drinking Water Act. For purposes of Safe Drinking Water Act requirements, water produced by an Advanced Reclaimed Water Treatment Facility shall be considered surface water for purposes of compliance with Title 18, Chapter 4 of the Arizona Administrative Code. Nothing in this section exempts an

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

applicable facility from Safe Drinking Water Act requirements.

- C. Design Report. In addition to the information required by subsection (A), the applicant shall submit a design report for the Advanced Reclaimed Water Treatment Facility according to a form prescribed by the Department and certified by an Arizona-registered professional engineer. The design report must include the following information:

1. Characterization of source water quantity and quality, including:
 - a. Average and anticipated minimum and maximum source water flows to the facility;
 - b. Concentrations of the source water's physical, microbiological, and chemical constituents regulated for drinking water Maximum Contaminant Levels under the Safe Drinking Water Act and which the Department determines are appropriate for the particular facility and source water;
 - c. Description and concentrations of constituents in the source water used for unit treatment process monitoring and assessment of unit treatment process efficacy, and
 - d. A list of unregulated microbial and chemical constituents and corresponding concentrations in the source water a facility proposes to monitor in order to assess the treatment effectiveness of the overall treatment train. The particular constituents will depend on consideration of factors, such as:
 - i. Occurrence of the constituent in source and local waters,
 - ii. Availability of standardized laboratory methods for quantification of the constituent,
 - iii. Usefulness as representatives of or surrogates for larger classes of constituents, and
 - iv. Availability of toxicity data for the constituent.
2. Description of, and results from, the pilot water treatment system for the facility or of analogous systems where comparable treatment components are demonstrated as appropriate for treating the particular characteristics of the applicant's proposed source water;
3. Identification and description of the technologies, processes, methodologies, and process control monitoring to be employed for microbial control;
4. Logarithmic reduction targets for microbial control, to ensure the product water is free of pathogens and suitable for potable use;
5. Identification and description of technologies, processes, methodologies and process control monitoring for chemical control;
6. Plan for monitoring the product water for public health protection;
7. Commissioning and startup plan, including preoperational and startup testing and monitoring, expected timeframe for meeting full operational performance, and any other special startup condition meriting consideration in the individual permit;
8. Operation and maintenance plan including corrective actions for out-of-range monitoring results and contingencies for non-compliant water;
9. Operator training plan; and
10. Documentation of technical, financial, and management capability.

Historical Note

New Section made by final rulemaking at 23 A.A.R. 3091, effective January 1, 2018 (Supp. 17-4).

ARTICLE 8. REPEALED**R18-9-801. Repealed****Historical Note**

Corrected A.R.S. reference (Supp. 77-3). Former Section R9-8-311 renumbered without change as Section R18-9-801 (Supp. 87-3). Amended effective December 1, 1988 (Supp. 88-4). Section repealed by final rulemaking at 7 A.A.R. 235, effective December 8, 2000 (Supp. 00-4).

R18-9-802. Repealed**Historical Note**

Amended by adding subsections (N) through (R) effective June 8, 1981 (Supp. 81-3). Former Section R9-8-312 renumbered without change as Section R18-9-802 (Supp. 87-3). Section repealed by final rulemaking at 7 A.A.R. 235, effective December 8, 2000 (Supp. 00-4).

R18-9-803. Repealed**Historical Note**

Amended effective April 18, 1979 (Supp. 79-2). Amended by adding subsection (E) effective October 2, 1986 (Supp. 86-5). Former Section R9-8-313 renumbered without change as Section R18-9-803 (Supp. 87-3). Section repealed by final rulemaking at 7 A.A.R. 235, effective December 8, 2000 (Supp. 00-4).

R18-9-804. Repealed**Historical Note**

Amended effective April 18, 1979 (Supp. 79-2). Amended effective February 20, 1980 (Supp. 80-1). Amended by adding subsections (I) and (J) effective June 8, 1981 (Supp. 81-3). Amended subsections (A), (F) and (H) effective October 2, 1986 (Supp. 86-5). Former Section R9-8-314 renumbered without change as Section R18-9-804 (Supp. 87-3). Amended effective July 25, 1990 (Supp. 90-3). Section repealed by final rulemaking at 7 A.A.R. 235, effective December 8, 2000 (Supp. 00-4).

R18-9-805. Repealed**Historical Note**

Adopted effective April 18, 1979 (Supp. 79-2). Amended effective October 2, 1986 (Supp. 86-5). Former Section R9-8-315 renumbered without change as Section R18-9-805 (Supp. 87-3). Amended effective July 25, 1990 (Supp. 90-3). Section repealed by final rulemaking at 7 A.A.R. 235, effective December 8, 2000 (Supp. 00-4).

R18-9-806. Repealed**Historical Note**

Adopted effective October 2, 1986 (Supp. 86-5). Former Section R9-8-317 renumbered without change as Section R18-9-806 (Supp. 87-3). Section repealed by final rulemaking at 7 A.A.R. 235, effective December 8, 2000 (Supp. 00-4).

R18-9-807. Repealed**Historical Note**

Former Section R9-8-321 renumbered without change as Section R18-9-807 (Supp. 87-3). Section repealed by final rulemaking at 7 A.A.R. 235, effective December 8, 2000 (Supp. 00-4).

R18-9-808. Repealed**Historical Note**

Former Section R9-8-323 renumbered without change as

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

Section R18-9-808 (Supp. 87-3). Amended effective July 25, 1990 (Supp. 90-3). Section repealed by final rulemaking at 7 A.A.R. 235, effective December 8, 2000 (Supp. 00-4).

R18-9-809. Repealed**Historical Note**

Former Section R9-8-324 renumbered without change as Section R18-9-809 (Supp. 87-3). Section repealed by final rulemaking at 7 A.A.R. 235, effective December 8, 2000 (Supp. 00-4).

R18-9-810. Repealed**Historical Note**

Former Section R9-8-325 renumbered without change as Section R18-9-810 (Supp. 87-3). Section repealed by final rulemaking at 7 A.A.R. 235, effective December 8, 2000 (Supp. 00-4).

R18-9-811. Repealed**Historical Note**

Former Section R9-8-326 repealed, new Section R9-8-326 adopted effective October 2, 1986 (Supp. 86-5). Former Section R9-8-326 renumbered without change as Section R18-9-811 (Supp. 87-3). First entry in Historical Note corrected to reflect Section numbers at time of rule repeal and adoption by changing R18-9-326 to R9-8-326 (Supp. 96-4). Section repealed by final rulemaking at 7 A.A.R. 235, effective December 8, 2000 (Supp. 00-4).

R18-9-812. Repealed**Historical Note**

Former Section R9-8-327 renumbered without change as Section R18-9-812 (Supp. 87-3). Section repealed by final rulemaking at 7 A.A.R. 235, effective December 8, 2000 (Supp. 00-4).

R18-9-813. Repealed**Historical Note**

Amended effective April 18, 1979 (Supp. 79-2). Former Section R9-8-329 renumbered without change as Section R18-9-813 (Supp. 87-3). Section repealed by final rulemaking at 7 A.A.R. 235, effective December 8, 2000 (Supp. 00-4).

R18-9-814. Repealed**Historical Note**

Former Section R9-8-331 renumbered without change as Section R18-9-814 (Supp. 87-3). Amended effective October 19, 1989 (Supp. 89-4). Section repealed by final rulemaking at 7 A.A.R. 235, effective December 8, 2000 (Supp. 00-4).

R18-9-815. Repealed**Historical Note**

Former Section R9-8-332 renumbered without change as Section R18-9-815 (Supp. 87-3). Section repealed by final rulemaking at 7 A.A.R. 235, effective December 8, 2000 (Supp. 00-4).

R18-9-816. Repealed**Historical Note**

Former Section R9-8-351 renumbered without change as Section R18-9-816 (Supp. 87-3). Section repealed by final rulemaking at 7 A.A.R. 235, effective December 8,

2000 (Supp. 00-4).

R18-9-817. Repealed**Historical Note**

Former Section R9-8-352 renumbered without change as Section R18-9-817 (Supp. 87-3). Section repealed by final rulemaking at 7 A.A.R. 235, effective December 8, 2000 (Supp. 00-4).

R18-9-818. Repealed**Historical Note**

Former Section R9-8-353 renumbered without change as Section R18-9-818 (Supp. 87-3). Section repealed by final rulemaking at 7 A.A.R. 235, effective December 8, 2000 (Supp. 00-4).

R18-9-819. Repealed**Historical Note**

Former Section R9-8-361 renumbered without change as Section R18-9-819 (Supp. 87-3). Amended effective December 1, 1988 (Supp. 88-4). Section repealed by final rulemaking at 7 A.A.R. 235, effective December 8, 2000 (Supp. 00-4).

ARTICLE 9. ARIZONA POLLUTANT DISCHARGE ELIMINATION SYSTEM

Editor's Note: The recodification at 7 A.A.R. 2522 described below erroneously moved Sections into 18 A.A.C. 9, Article 9. Those Sections were actually recodified to 18 A.A.C. 9, Article 10. See the Historical Notes for more information (Supp. 01-4).

Article 9, consisting of Sections R18-9-901 through R18-9-914 and Appendix A, recodified from 18 A.A.C. 13, Article 15 at 7 A.A.R. 2522, effective May 24, 2001 (Supp. 01-2).

PART A. GENERAL REQUIREMENTS**R18-9-A901. Definitions**

In addition to the definitions in A.R.S. § 49-201 and 49-255, the following terms apply to this Article:

1. "Animal confinement area" means any part of an animal feeding operation where animals are restricted or confined including open lots, housed lots, feedlots, confinement houses, stall barns, free stall barns, milkrooms, milking centers, cowyards, barnyards, medication pens, walkers, animal walkways, and stables.
2. "Animal feeding operation" means a lot or facility (other than an aquatic animal production facility) where the following conditions are met:
 - a. Animals (other than aquatic animals) have been, are, or will be stabled or confined and fed or maintained for a total of 45 days or more in any 12-month period, and
 - b. Crops, vegetation, forage growth, or post-harvest residues are not sustained in the normal growing season over any portion of the lot or facility.
3. "Aquaculture project" means a defined managed water area that uses discharges of pollutants into that designated project area for the maintenance or production of harvestable freshwater plants or animals. For purposes of this definition, "designated project area" means the portion or portions of the navigable waters within which the permittee or permit applicant plans to confine the cultivated species using a method or plan of operation, including physical confinement, that on the basis of reliable scientific evidence, is expected to ensure that specific individual organisms comprising an aquaculture crop will enjoy

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

- increased growth attributable to the discharge of pollutants, and be harvested within a defined geographic area.
4. "Border area" means 100 kilometers north and south of the Arizona-Sonora, Mexico border.
 5. "Bypass" means the intentional diversion of waste streams from any portion of a treatment facility.
 6. "CAFO" means any large concentrated animal feeding operation, medium concentrated animal feeding operation, or animal feeding operation designated under R18-9-D901.
 7. "Concentrated aquatic animal production facility" means a hatchery, fish farm, or other facility that contains, grows, or holds aquatic animals in either of the following categories:
 - a. Cold-water aquatic animals. Cold-water fish species or other cold-water aquatic animals (including the Salmonidae family of fish) in a pond, raceway, or other similar structure that discharges at least 30 days per year, but does not include:
 - i. A facility that produces less than 9,090 harvest weight kilograms (approximately 20,000 pounds) of aquatic animals per year; and
 - ii. A facility that feeds the aquatic animals less than 2,272 kilograms (approximately 5,000 pounds) of food during the calendar month of maximum feeding.
 - b. Warm-water aquatic animals. Warm-water fish species or other warm-water aquatic animals (including the Ameiuridae, Centrarchidae, and Cyprinidae families of fish) in a pond, raceway, or other similar structure that discharges at least 30 days per year, but does not include:
 - i. A closed pond that discharges only during periods of excess runoff; or
 - ii. A facility that produces less than 45,454 harvest weight kilograms (approximately 100,000 pounds) of aquatic animals per year.
 8. "Daily discharge" means the discharge of a pollutant measured during a calendar day or any 24-hour period that reasonably represents the calendar day for purposes of sampling. For pollutants with limitations expressed in units of mass, the daily discharge is calculated as the total mass of the pollutant discharged over the day. For pollutants with limitations expressed in other units of measurement, the daily discharge is calculated as the average measurement of the pollutant over the day.
 9. "Discharge of a pollutant" means any addition of any pollutant or combination of pollutants to a navigable water from any point source.
 - a. The term includes the addition of any pollutant into a navigable water from:
 - i. A treatment works treating domestic sewage;
 - ii. Surface runoff that is collected or channeled by man;
 - iii. A discharge through a pipe, sewer, or other conveyance owned by a state, municipality, or other person that does not lead to a treatment works; and
 - iv. A discharge through a pipe, sewer, or other conveyance, leading into a privately owned treatment works.
 - b. The term does not include an addition of a pollutant by any industrial user as defined in A.R.S. § 49-255(4).
 10. "Draft permit" means a document indicating the Director's tentative decision to issue, deny, modify, revoke and reissue, terminate, or reissue a permit.
 - a. A notice of intent to terminate a permit is a type of draft permit unless the entire discharge is permanently terminated by elimination of the flow or by connection to a POTW, but not by land application or disposal into a well.
 - b. A notice of intent to deny a permit is a type of draft permit.
 - c. A proposed permit or a denial of a request for modification, revocation and reissuance, or termination of a permit, are not draft permits.
 11. "EPA" means the U.S. Environmental Protection Agency.
 12. "General permit" means an AZPDES permit issued under 18 A.A.C. 9, Article 9, authorizing a category of discharges within a geographical area.
 13. "Individual permit" means an AZPDES permit for a single point source, a single facility, or a municipal separate storm sewer system.
 14. "Land application area," for purposes of Article 9, Part D, means land under the control of an animal feeding operation owner or operator, whether it is owned, rented, or leased, to which manure, litter, or process wastewater from the production area is or may be applied.
 15. "Large concentrated animal feeding operation" means an animal feeding operation that stables or confines at least the number of animals specified in any of the following categories:
 - a. 700 mature dairy cows, whether milked or dry;
 - b. 1,000 veal calves;
 - c. 1,000 cattle other than mature dairy cows or veal calves. Cattle includes heifers, steers, bulls, and cow and calf pairs;
 - d. 2,500 swine each weighing 55 pounds or more;
 - e. 10,000 swine each weighing less than 55 pounds;
 - f. 500 horses;
 - g. 10,000 sheep or lambs;
 - h. 55,000 turkeys;
 - i. 30,000 laying hens or broilers, if the animal feeding operation uses a liquid manure handling system;
 - j. 125,000 chickens (other than laying hens), if the animal feeding operation uses other than a liquid manure handling system;
 - k. 82,000 laying hens, if the animal feeding operation uses other than a liquid manure handling system;
 - l. 30,000 ducks, if the animal feeding operation uses other than a liquid manure handling system; or
 - m. 5,000 ducks, if the animal feeding operation uses a liquid manure handling system.
 16. "Large municipal separate storm sewer system" means a municipal separate storm sewer that is either:
 - a. Located in an incorporated area with a population of 250,000 or more as determined by the 1990 Decennial Census by the Bureau of the Census;
 - b. Located in a county with an unincorporated urbanized area with a population of 250,000 or more, according to the 1990 Decennial Census by the Bureau of Census, but not a municipal separate storm sewer that is located in an incorporated place, township, or town within the county; or
 - c. Owned or operated by a municipality other than those described in subsections (16)(a) and (16)(b) and that are designated by the Director under R18-9-A902(D)(2) as part of the large municipal separate storm sewer system.

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

17. "Manure" means any waste or material mixed with waste from an animal including manure, bedding, compost and raw materials, or other materials commingled with manure or set aside for disposal.
18. "Manure storage area" means any part of an animal feeding operation where manure is stored or retained including lagoons, run-off ponds, storage sheds, stockpiles, under-house or pit storages, liquid impoundments, static piles, and composting piles.
19. "Medium concentrated animal feeding operation" means an animal feeding operation in which:
 - a. The type and number of animals that it stables or confines falls within any of the following ranges:
 - i. 200 to 699 mature dairy cows, whether milked or dry;
 - ii. 300 to 999 veal calves;
 - iii. 300 to 999 cattle other than mature dairy cows or veal calves. Cattle includes heifers, steers, bulls, and cow and calf pairs;
 - iv. 750 to 2,499 swine each weighing 55 pounds or more;
 - v. 3,000 to 9,999 swine each weighing less than 55 pounds;
 - vi. 150 to 499 horses;
 - vii. 3,000 to 9,999 sheep or lambs;
 - viii. 16,500 to 54,999 turkeys;
 - ix. 9,000 to 29,999 laying hens or broilers, if the animal feeding operation uses a liquid manure handling system;
 - x. 37,500 to 124,999 chickens (other than laying hens), if the animal feeding operation uses other than a liquid manure handling system;
 - xi. 25,000 to 81,999 laying hens, if the animal feeding operation uses other than a liquid manure handling system;
 - xii. 10,000 to 29,999 ducks, if the animal feeding operation uses other than a liquid manure handling system; or
 - xiii. 1,500 to 4,999 ducks, if the animal feeding operation uses a liquid manure handling system; and
 - b. Either one of the following conditions are met:
 - i. Pollutants are discharged into a navigable water through a man-made ditch, flushing system, or other similar man-made device; or
 - ii. Pollutants are discharged directly into a navigable water that originates outside of and passes over, across, or through the animal feeding operation or otherwise comes into direct contact with the animals confined in the operation.
20. "Medium municipal separate storm sewer system" means a municipal separate storm sewer that is either:
 - a. Located in an incorporated area with a population of 100,000 or more but less than 250,000, as determined by the 1990 Decennial Census by the Bureau of the Census; or
 - b. Located in a county with an unincorporated urbanized area with a population of 100,000 or more but less than 250,000 as determined by the 1990 Decennial Census by the Bureau of the Census; or
 - c. Owned or operated by a municipality other than those described in subsections (20)(a) and (20)(b) and that are designated by the Director under R18-9-A902(D)(2) as part of the medium municipal separate storm sewer system.
21. "MS4" means municipal separate storm sewer system.
22. "Municipal separate storm sewer" means a conveyance or system of conveyances (including roads with drainage systems, municipal streets, catch basins, curbs, gutters, ditches, manmade channels, and storm drains):
 - a. Owned or operated by a state, city, town county, district, association, or other public body (created by or pursuant to state law) having jurisdiction over disposal of sewage, industrial wastes, stormwater, or other wastes, including special districts under state law such as a sewer district, flood control district or drainage district, or similar entity, or a designated and approved management agency under section 208 of the Clean Water Act (33 U.S.C. 1288) that discharges to waters of the United States;
 - b. Designed or used for collecting or conveying stormwater;
 - c. That is not a combined sewer; and
 - d. That is not part of a POTW.
23. "Municipal separate storm sewer system" means all separate storm sewers defined as "large," "medium," or "small" municipal separate storm sewer systems or any municipal separate storm sewers on a system-wide or jurisdiction-wide basis as determined by the Director under R18-9-C902(A)(1)(g)(i) through (iv).
24. "New discharger" includes an industrial user and means any building, structure, facility, or installation:
 - a. From which there is or may be a discharge of pollutants;
 - b. That did not commence the discharge of pollutants at a particular site before August 13, 1979;
 - c. That is not a new source; and
 - d. That has never received a finally effective NPDES or AZPDES permit for discharges at that site.
25. "New source" means any building, structure, facility, or installation from which there is or may be a discharge of pollutants, the construction of which commenced:
 - a. After the promulgation of standards of performance under section 306 of the Clean Water Act (33 U.S.C. 1316) that are applicable to the source, or
 - b. After the proposal of standards of performance in accordance with section 306 of the Clean Water Act (33 U.S.C. 1316) that are applicable to the source, but only if the standards are promulgated under section 306 (33 U.S.C. 1316) within 120 days of their proposal.
26. "NPDES" means the National Pollutant Discharge Elimination System, which is the national program for issuing, modifying, revoking, reissuing, terminating, monitoring, and enforcing permits, and imposing and enforcing pretreatment and biosolids requirements under sections 307 (33 U.S.C. 1317), 318 (33 U.S.C. 1328), 402 (33 U.S.C. 1342), and 405 (33 U.S.C. 1345) of the Clean Water Act.
27. "Pollutant" means dredged spoil, solid waste, incinerator residue, filter backwash, sewage, garbage, sewage sludge, munitions, chemical wastes, biological materials, radioactive materials (except those regulated under the Atomic Energy Act of 1954, as amended (42 U.S.C. 2014 et seq.)), heat, wrecked or discarded equipment, rock, sand, cellar dirt, and industrial, municipal, and agricultural waste discharged into water. It does not mean:
 - a. Sewage from vessels; or
 - b. Water, gas, or other material that is injected into a well to facilitate production of oil or gas, or water derived in association with oil and gas production and disposed of in a well, if the well used either to facilitate production or for disposal purposes is

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

- approved by authority of this state, and if the state determines that the injection or disposal will not result in the degradation of ground or surface water resources. (40 CFR 122.2)
28. "POTW" means a publicly owned treatment works.
 29. "Process wastewater," for purposes of Article 9, Part D, means any water that comes into contact with a raw material, product, or byproduct including manure, litter, feed, milk, eggs, or bedding and water directly or indirectly used in the operation of an animal feeding operation for any or all of the following:
 - a. Spillage or overflow from animal or poultry watering systems;
 - b. Washing, cleaning, or flushing pens, barns, manure pits, or other animal feeding operation facilities;
 - c. Direct contact swimming, washing, or spray cooling of animals; or
 - d. Dust control.
 30. "Proposed permit" means an AZPDES permit prepared after the close of the public comment period (including EPA review), and any applicable public hearing and administrative appeal, but before final issuance by the Director. A proposed permit is not a draft permit.
 31. "Pretreatment" means the reduction of the amount of pollutants, the elimination of pollutants, or the alteration of the nature of pollutant properties in wastewater before or instead of discharging or otherwise introducing the pollutants into a POTW.
 32. "Production area," for purposes of Article 9, Part D, means the animal confinement area, manure storage area, raw materials storage area, and waste containment areas. Production area includes any egg washing or egg processing facility and any area used in the storage, handling, treatment, or disposal of animal mortalities.
 33. "Raw materials storage area" means the part of an animal feeding operation where raw materials are stored including feed silos, silage bunkers, and bedding materials.
 34. "Silviculture point source" means any discernible, confined, and discrete conveyance related to rock crushing, gravel washing, log sorting, or log storage facilities that are operated in connection with silvicultural activities and from which pollutants are discharged into navigable waters. The term does not include nonpoint source silvicultural activities such as nursery operations, site preparation, reforestation and subsequent cultural treatment, thinning, prescribed burning, pest and fire control, harvesting operations, surface drainage, or road construction and maintenance from which there is natural runoff. For purposes of this definition:
 - a. "Log sorting and log storage facilities" means facilities whose discharge results from the holding of unprocessed wood, for example, logs or round wood with or without bark held in self-contained bodies of water or stored on land if water is applied intentionally on the logs.
 - b. "Rock crushing and gravel washing facilities" mean facilities that process crushed and broken stone, gravel, and riprap.
 35. "Small municipal separate storm sewer system" means a separate storm sewer that is:
 - a. Owned or operated by the United States, a state, city, town, county, district, association, or other public body (created by or pursuant to state law) having jurisdiction over disposal of sewage, industrial wastes, storm water, or other wastes, including special districts under state law such as a sewer district, flood control district or drainage district, or similar entity, an Indian tribe or an authorized Indian tribal organization, or a designated and approved management agency under section 208 of the Clean Water Act (33 U.S.C. 1288) that discharge to navigable waters.
 - b. Not defined as a "large" or "medium" municipal separate storm sewer system or designated under R18-9-A902(D)(2).
 - c. Similar to municipal separate storm sewer systems such as systems at military bases, large hospital or prison complexes, universities, and highways and other thoroughfares. The term does not include a separate storm sewer in a very discrete area such as an individual building.
 36. "Stormwater" means stormwater runoff, snow melt runoff, and surface runoff and drainage.
 37. "Treatment works treating domestic sewage" means a POTW or any other sewage sludge or waste water treatment device or system, regardless of ownership (including federal facilities), used in the storage, treatment, recycling, and reclamation of municipal or domestic sewage, including land dedicated for the disposal of sewage sludge. This definition does not include septic tanks or similar devices. For purposes of this definition, "domestic sewage" includes waste and wastewater from humans or household operations that are discharged to or otherwise enter a treatment works.
 38. "Waste containment area" means any part of an animal feeding operation where waste is stored or contained including settling basins and areas within berms and diversions that separate uncontaminated stormwater.

Historical Note

New Section made by final rulemaking at 7 A.A.R. 5879, effective December 7, 2001 (Supp. 01-4). Amended by final rulemaking at 9 A.A.R. 5564, effective February 2, 2004 (Supp. 03-4).

R18-9-A902. AZPDES Permit Transition, Applicability, and Exclusions

- A. Upon the effective date of EPA approval of the AZPDES program, the Department shall, under A.R.S. Title 49, Chapter 2, Article 3.1 and Articles 9 and 10 of this Chapter, administer any permit authorized or issued under the NPDES program, including an expired permit that EPA has continued in effect under 40 CFR 122.6.
 1. The Director shall give a notice to all Arizona NPDES permittees, except NPDES permittees located on and discharging in Indian Country, and shall publish a notice in one or more newspapers of general circulation in the state. The notice shall contain:
 - a. The effective date of EPA approval of the AZPDES program;
 - b. The name and address of the Department;
 - c. The name of each individual permitted facility and its permit number;
 - d. The title of each general permit administered by the Department;
 - e. The name and address of the contact person, to which the permittee will submit notification and monitoring reports;
 - f. Information specifying the state laws equivalent to the federal laws or regulations referenced in a NPDES permit; and

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

- g. The name, address, and telephone number of a person from whom an interested person may obtain further information about the transition.
- 2. The Department shall provide the following entities with a copy of the notice:
 - a. Each county department of health, environmental services, or comparable department;
 - b. Each Arizona council of government, tribal government, the states of Utah, Nevada, New Mexico, and California, and EPA Region 9;
 - c. Any person who requested, in writing, notification of the activity;
 - d. The Mexican Secretaria de Medio Ambiente y Recursos Naturales, and
 - e. The United States Section of the International Boundary and Water Commission.
- 3. If a timely application for a NPDES permit is submitted to EPA before approval of the AZPDES program, the applicant may continue the process with EPA or request the Department to act on the application. In either case, the Department shall issue the permit.
- 4. The terms and conditions under which the permit was issued remain the same until the permit is modified.
- B.** Article 9 of this Chapter applies to any "discharge of a pollutant." Examples of categories that result in a "discharge of a pollutant" and may require an AZPDES permit include:
 - 1. CAFOs;
 - 2. Concentrated aquatic animal production facilities;
 - 3. Case-by-case designation of concentrated aquatic animal production facilities;
 - a. The Director may designate any warm- or cold-water aquatic animal production facility as a concentrated aquatic animal production facility upon determining that it is a significant contributor of pollution to navigable waters. The Director shall consider the following factors when making this determination:
 - i. The location and quality of the receiving waters of the United States;
 - ii. The holding, feeding, and production capacities of the facility;
 - iii. The quantity and nature of the pollutants reaching navigable waters; and
 - iv. Any other relevant factor;
 - b. A permit application is not required from a concentrated aquatic animal production facility designated under subsection (B)(3)(a) until the Director conducts an onsite inspection of the facility and determines that the facility should and could be regulated under the AZPDES permit program;
 - 4. Aquaculture projects;
 - 5. Manufacturing, commercial, mining, and silviculture point sources;
 - 6. POTWs;
 - 7. New sources and new dischargers;
 - 8. Stormwater discharges:
 - a. Associated with industrial activity as defined under 40 CFR 122.26(b)(14), incorporated by reference in R18-9-A905(A)(1)(d). The Department shall not consider a discharge to be a discharge associated with industrial activity if the discharge is composed entirely of stormwater and meets the conditions of no exposure as defined under 40 CFR 122.26(g), incorporated by reference in R18-9-A905(A)(1)(d);
 - b. From a large, medium, or small MS4;
- c. From a construction activity, including clearing, grading, and excavation, that results in the disturbance of:
 - i. Equal to or greater than one acre or;
 - ii. Less than one acre of total land area that is part of a larger common plan of development or sale if the larger common plan will ultimately disturb equal to or greater than one acre; but
 - iii. Not including routine maintenance that is performed to maintain the original line and grade, hydraulic capacity, or original purpose of the facility;
- d. Any discharge that the Director determines contributes to a violation of a water quality standard or is a significant contributor of pollutants to a navigable water, which may include a discharge from a conveyance or system of conveyances (including roads with drainage systems and municipal streets) used for collecting and conveying stormwater runoff or a system of discharges from municipal separate storm sewers.
- C.** Articles 9 and 10 of this Chapter apply to the following biosolids categories and may require an AZPDES permit:
 - 1. Treatment works treating domestic sewage that would not otherwise require an AZPDES permit; and
 - 2. Using, applying, generating, marketing, transporting, and disposing of biosolids.
- D.** Director designation of MS4s.
 - 1. The Director may designate and require any small MS4 located outside of an urbanized area to obtain an AZPDES stormwater permit. The Director shall base this designation on whether a stormwater discharge results in or has the potential to result in an exceedance of a water quality standard, including impairment of a designated use, or another significant water quality impact, including a habitat or biological impact.
 - a. When deciding whether to designate a small MS4, the Director shall consider the following criteria:
 - i. Discharges to sensitive waters,
 - ii. Areas with high growth or growth potential,
 - iii. Areas with a high population density,
 - iv. Areas that are contiguous to an urbanized area,
 - v. Small MS4s that cause a significant contribution of pollutants to a navigable water,
 - vi. Small MS4s that do not have effective programs to protect water quality, and
 - vii. Any other relevant criteria.
 - b. The same requirements for small MS4s designated under 40 CFR 122.32(a)(1) apply to permits for designated MS4s not waived under R18-9-B901(A)(3).
 - 2. The Director may designate an MS4 as part of a large or medium system due to the interrelationship between the discharges from a designated storm sewer and the discharges from a municipal separate storm sewer described under R18-9-A901(16)(a) and (b), or R18-9-A901(20)(a) or (b), as applicable. In making this determination, the Director shall consider the following factors:
 - a. Physical interconnections between the municipal separate storm sewers;
 - b. The location of discharges from the designated municipal separate storm sewer relative to discharges from municipal separate storm sewers described in R18-9-A901(16)(a) and R18-9-A901(20)(a);
 - c. The quantity and nature of pollutants discharged to a navigable water;

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

- d. The nature of the receiving waters; and
 - e. Any other relevant factor.
3. The Director shall designate a small MS4 that is physically interconnected with a MS4 that is regulated by the AZPDES program if the small MS4 substantially contributes to the pollutant loading of the regulated MS4.
- E. Petitions.** The Director may, upon a petition, designate as a large, medium or small MS4, a municipal separate storm sewer located within the boundaries of a region defined by a stormwater management regional authority based on a jurisdictional, watershed, or other appropriate basis that includes one or more of the systems described in R18-9-A901(16), R18-9-A901(20) or R18-9-A901(35), as applicable.
- F. Phase-ins.**
- 1. The Director may phase-in permit coverage for a small MS4 serving a jurisdiction with a population of less than 10,000 if a phasing schedule is developed and implemented for approximately 20 percent annually of all small MS4s that qualify for the phased-in coverage.
 - a. If the phasing schedule is not yet approved for permit coverage, the Director shall, by December 9, 2002, determine whether to issue an AZPDES permit or allow a waiver under R18-9-B901(A)(3) for each eligible MS4.
 - b. All regulated MS4s shall have coverage under an AZPDES permit no later than March 8, 2007.
 - 2. The Director may provide a waiver under R18-9-B901(A)(3) for any municipal separate storm sewage system operating under a phase-in plan.
- G. Exclusions.** The following discharges do not require an AZPDES permit:
- 1. Discharge of dredged or fill material into a navigable water that is regulated under section 404 of the Clean Water Act (33 U.S.C. 1344);
 - 2. The introduction of sewage, industrial wastes, or other pollutants into POTWs by indirect dischargers. Plans or agreements to switch to this method of disposal in the future do not relieve dischargers of the obligation to have and comply with a permit until all discharges of pollutants to a navigable water are eliminated. This exclusion does not apply to the introduction of pollutants to privately owned treatment works or to other discharges through a pipe, sewer, or other conveyance owned by the state, a municipality, or other party not leading to treatment works;
 - 3. Any discharge in compliance with the instructions of an on-scene coordinator under 40 CFR 300, The National Oil and Hazardous Substances Pollution Contingency Plan; or 33 CFR 153.10(e), Control of Pollution by Oil and Hazardous Substances, Discharge Removal;
 - 4. Any introduction of pollutants from a nonpoint source agricultural or silvicultural activity, including stormwater runoff from an orchard, cultivated crop, pasture, rangeland, and forest land, but not discharges from a concentrated animal feeding operation, concentrated aquatic animal production facility, silvicultural point source, or to an aquaculture project;
 - 5. Return flows from irrigated agriculture;
 - 6. Discharges into a privately owned treatment works, except as the Director requires under 40 CFR 122.44(m), which is incorporated by reference in R18-9-A905(A)(3)(d);
 - 7. Discharges from conveyances for stormwater runoff from mining operations or oil and gas exploration, production, processing or treatment operations, or transmission facilities, composed entirely of flows from conveyances or systems of conveyances, including pipes, conduits, ditches, and channels, used for collecting and conveying precipitation runoff and that are not contaminated by contact with or that has not come into contact with, any overburden, raw material, intermediate products, finished product, byproduct, or waste product located on the site of the operations.
- H. Conditional no exposure exclusion.**
- 1. Discharges composed entirely of stormwater are not considered stormwater discharges associated with an industrial activity if there is no exposure, and the discharger satisfies the conditions under 40 CFR 122.26(g), which is incorporated by reference in R18-9-A905(A)(1)(d).
 - 2. For purposes of this subsection:
 - a. "No exposure" means that all industrial materials and activities are protected by a storm resistant shelter to prevent exposure to rain, snow, snowmelt, and runoff.
 - b. "Industrial materials or activities" include material handling equipment or activities, industrial machinery, raw materials, intermediate products, by-products, final products, or waste products.
 - c. "Material-handling activities" include storage, loading and unloading, transportation, or conveyance of any raw material, intermediate product, final product, or waste product.

Historical Note

New Section made by final rulemaking at 7 A.A.R. 5879, effective December 7, 2001 (Supp. 01-4). Amended by final rulemaking at 8 A.A.R. 2704, effective June 5, 2002 (Supp. 02-2). Amended by final rulemaking at 9 A.A.R. 5564, effective February 2, 2004 (Supp. 03-4).

R18-9-A903. Prohibitions

The Director shall not issue a permit:

- 1. If the conditions of the permit do not provide for compliance with the applicable requirements of A.R.S. Title 49, Chapter 2, Article 3.1; 18 A.A.C. 9, Articles 9 and 10; and the Clean Water Act;
- 2. Before resolution of an EPA objection to a draft or proposed permit under R18-9-A908(C);
- 3. If the imposition of conditions cannot ensure compliance with the applicable water quality requirements from Arizona or an affected state or tribe, or a federally promulgated water quality standard under 40 CFR 131.31;
- 4. If in the judgment of the Secretary of the U.S. Army, acting through the Chief of Engineers, the discharge will substantially impair anchorage and navigation in or on any navigable water;
- 5. For the discharge of any radiological, chemical, or biological warfare agent, or high-level radioactive waste;
- 6. For any discharge inconsistent with a plan or plan amendment approved under section 208(b) of the Clean Water Act (33 U.S.C. 1288); and
- 7. To a new source or a new discharger if the discharge from its construction or operation will cause or contribute to the violation of a water quality standard. The owner or operator of a new source or new discharger proposing to discharge into a water segment that does not meet water quality standards or is not expected to meet those standards even after the application of the effluent limitations required under R18-9-A905(A)(8), and for which the Department has performed a wasteload allocation for the proposed discharge, shall demonstrate before the close of the public comment period that:

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

- a. There are sufficient remaining wasteload allocations to allow for the discharge, and
- b. The existing dischargers into the segment are subject to schedules of compliance designed to bring the segment into compliance with water quality standards.

Historical Note

New Section made by final rulemaking at 7 A.A.R. 5879, effective December 7, 2001 (Supp. 01-4). Amended by final rulemaking at 8 A.A.R. 2704, effective June 5, 2002 (Supp. 02-2).

R18-9-A904. Effect of a Permit

- A. Except for a standard or prohibition imposed under section 307 of the Clean Water Act (33 U.S.C. 1317) for a toxic pollutant that is injurious to human health and standards for sewage sludge use or disposal under Article 10 of this Chapter, compliance with an AZPDES permit during its term constitutes compliance, for purposes of enforcement, with Article 9 of this Chapter. However, the Director may modify, revoke and reissue, suspend, or terminate a permit during its term for cause under R18-9-B906.
- B. The issuance of a permit does not convey any property rights of any sort, or any exclusive privilege.
- C. The issuance of a permit does not authorize any injury to a person or property or invasion of other private rights, or any infringement of federal, state, or local law, or regulations.

Historical Note

New Section made by final rulemaking at 7 A.A.R. 5879, effective December 7, 2001 (Supp. 01-4).

R18-9-A905. AZPDES Program Standards

- A. Except for subsection (A)(11), the following 40 CFR sections and appendices, July 1, 2003 edition, as they apply to the NPDES program, are incorporated by reference, do not include any later amendments or editions of the incorporated matter, and are on file with the Department:
 1. General program requirements.
 - a. 40 CFR 122.7;
 - b. 40 CFR 122.21, except 40 CFR 122.21(a) through (e) and (l);
 - c. 40 CFR 122.22;
 - d. 40 CFR 122.26, except 40 CFR 122.26(c)(2), and 40 CFR 122.26(e)(2);
 - e. 40 CFR 122.29;
 - f. 40 CFR 122.32;
 - g. 40 CFR 122.33;
 - h. 40 CFR 122.34;
 - i. 40 CFR 122.35;
 - j. 40 CFR 122.62(a) and (b).
 2. Procedures for Decision making.
 - a. 40 CFR 124.8, except 40 CFR 124.8(b)(3); and
 - b. 40 CFR 124.56.
 3. Permit requirements and conditions.
 - a. 40 CFR 122.41, except 40 CFR 122.41(a)(2) and (a)(3);
 - b. 40 CFR 122.42;
 - c. 40 CFR 122.43;
 - d. 40 CFR 122.44;
 - e. 40 CFR 122.45;
 - f. 40 CFR 122.47;
 - g. 40 CFR 122.48; and
 - h. 40 CFR 122.50.
 4. Criteria and standards for the national pollutant discharge elimination system. 40 CFR 125, subparts A, B, D, H, and I.

5. Toxic pollutant effluent standards. 40 CFR 129.
6. Secondary treatment regulation. 40 CFR 133.
7. Guidelines for establishing test procedures for the analysis of pollutants, 40 CFR 136.
8. Effluent guidelines and standards.
 - a. General provisions, 40 CFR 401; and
 - b. General pretreatment regulations for existing and new sources of pollution, 40 CFR 403 and Appendices A, D, E, and G.
9. Effluent limitations guidelines. 40 CFR 405 through 40 CFR 471.
10. Standards for the use or disposal of sewage sludge. 40 CFR 503, Subpart C.
11. The following substitutions apply to the material in subsections (A)(1) through (A)(10):
 - a. Substitute the term AZPDES for any reference to NPDES;
 - b. Except for 40 CFR 122.21(f) through (q), substitute R18-9-B901 (individual permit), and R18-9-C901 (general permit), for any reference to 40 CFR 122.21;
 - c. Substitute Articles 9 and 10 of this Chapter for any reference to 40 CFR 122;
 - d. Substitute R18-9-C901 for any reference to 40 CFR 122.28;
 - e. Substitute R18-9-B901 (individual permit), and R18-9-C901 (general permit), for any reference to 40 CFR 122 subpart B;
 - f. Substitute Articles 9 and 10 of this Chapter for any reference to 40 CFR 123;
 - g. Substitute Articles 9 and 10 of this Chapter for any reference to 40 CFR 124;
 - h. Substitute R18-9-1006 for any reference to 40 CFR 503.32; and
 - i. Substitute R18-9-1010 for any reference to 40 CFR 503.33.

- B. A person shall analyze a pollutant using a test procedure for the pollutant specified by the Director in an AZPDES permit. If the Director does not specify a test procedure for a pollutant in an AZPDES permit, a person shall analyze the pollutant using:
 1. A test procedure listed in 40 CFR 136, which is incorporated by reference in subsection (A)(7);
 2. An alternate test procedure approved by the EPA as provided in 40 CFR 136;
 3. A test procedure listed in 40 CFR 136, with modifications allowed by the EPA and approved as a method alteration by the Arizona Department of Health Services under A.A.C. R9-14-610(B); or
 4. If a test procedure for a pollutant is not available under subsection (B)(1) through (B)(3), a test procedure listed in A.A.C. R9-14-612 or approved under A.A.C. R9-14-610(B).

Historical Note

New Section made by final rulemaking at 7 A.A.R. 5879, effective December 7, 2001 (Supp. 01-4). Amended by final rulemaking at 8 A.A.R. 2704, effective June 5, 2002 (Supp. 02-2). Amended by final rulemaking at 9 A.A.R. 5564, effective February 2, 2004 (Supp. 03-4).

R18-9-A906. General Pretreatment Regulations for Existing and New Sources of Pollution

- A. The reduction or alteration of a pollutant may be obtained by physical, chemical, or biological processes, process changes, or by other means, except as prohibited under 40 CFR 403.6(d), which is incorporated by reference in R18-9-

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

A905(A)(8)(b). Appropriate pretreatment technology includes control equipment, such as equalization tanks or facilities, for protection against surges or slug loading that might interfere with or otherwise be incompatible with the POTW. However, if wastewater from a regulated process is mixed in an equalization facility with unregulated wastewater or with wastewater from another regulated process, the effluent from the equalization facility shall meet an adjusted pretreatment limit calculated under 40 CFR 403.6(e), which is incorporated by reference in R18-9-A905(A)(8)(b).

B. Pretreatment applies to:

1. Pollutants from non-domestic sources covered by pretreatment standards that are indirectly discharged, transported by truck or rail, or otherwise introduced into POTWs;
2. POTWs that receive wastewater from sources subject to national pretreatment standards; and
3. Any new or existing source subject to national pretreatment standards.

C. National pretreatment standards do not apply to sources that discharge to a sewer that is not connected to a POTW.

D. For purposes of this Section the terms "National Pretreatment Standard" and "Pretreatment Standard" mean any regulation containing pollutant discharge limits promulgated by EPA under section 307(b) and (c) of the Clean Water Act (33 U.S.C. 1317), which applies to Industrial Users. This term includes prohibitive discharge limits established under 40 CFR 403.5.

Historical Note

New Section made by final rulemaking at 7 A.A.R. 5879, effective December 7, 2001 (Supp. 01-4).

R18-9-A907. Public Notice

A. Individual permits.

1. The Director shall publish a notice that a draft individual permit has been prepared, or a permit application has been tentatively denied, in one or more newspapers of general circulation where the facility is located. The notice shall contain:
 - a. The name and address of the Department;
 - b. The name and address of the permittee or permit applicant and if different, the name of the facility or activity regulated by the permit;
 - c. A brief description of the business conducted at the facility or activity described in the permit application;
 - d. The name, address, and telephone number of a person from whom an interested person may obtain further information, including copies of the draft permit, fact sheet, and application;
 - e. A brief description of the comment procedures, the time and place of any hearing, including a statement of procedures to request a hearing (unless a hearing has already been scheduled), and any other procedure by which the public may participate in the final permit decision;
 - f. A general description of the location of each existing or proposed discharge point and the name of the receiving water;
 - g. For sources subject to section 316(a) of the Clean Water Act, a statement that the thermal component of the discharge is subject to effluent limitations under the Clean Water Act, section 301 (33 U.S.C. 1311) or 306 (33 U.S.C. 1316) and a brief description, including a quantitative statement, of the thermal effluent limitations proposed under section 301 (33 U.S.C. 1311) or 306 (33 U.S.C. 1316);

- h. Requirements applicable to cooling water intake structures at new facilities subject to 40 CFR 125, subpart I; and
 - i. Any additional information considered necessary to the permit decision.
2. The Department shall provide the applicant with a copy of the draft individual permit.
 3. Copy of the notice. The Department shall provide the following entities with a copy of the notice:
 - a. The applicant or permittee;
 - b. Any user identified in the permit application of a privately owned treatment works;
 - c. Any affected federal, state, tribal, or local agency, or council of government;
 - d. Federal and state agencies with jurisdiction over fish, shellfish, and wildlife resources, the Arizona Historic Preservation Office, and the U.S. Army Corps of Engineers;
 - e. Each applicable county department of health, environmental services, or comparable department;
 - f. Any person who requested, in writing, notification of the activity; and
 - g. The Secretaria de Medio Ambiente y Recursos Naturales and the United States Section of the International Boundary and Water Commission, if the Department is aware the effluent discharge is expected to reach Sonora, Mexico, either through surface water or groundwater.

B. General permits. If the Director considers issuing a general permit applicable to a category of discharge under R18-9-C901, the Director shall publish a general notice of the draft permit in the *Arizona Administrative Register*. The notice shall contain:

1. The name and address of the Department,
2. The name of the person to contact regarding the permit,
3. The general permit category,
4. A brief description of the proposed general permit,
5. A map or description of the permit area,
6. The web site or any other location where the proposed general permit may be obtained, and
7. The ending date for public comment.

Historical Note

New Section made by final rulemaking at 7 A.A.R. 5879, effective December 7, 2001 (Supp. 01-4). Amended by final rulemaking at 9 A.A.R. 5564, effective February 2, 2004 (Supp. 03-4).

R18-9-A908. Public Participation, EPA Review, EPA Hearing

A. Public comment period.

1. The Director shall accept written comments from any interested person before a decision is made on any notice published under R18-9-A907(A) or (B).
2. The public comment period begins on the publication date of the notice and extends for 30 calendar days.
3. The Director may extend the comment period to provide commenters a reasonable opportunity to participate in the decision-making process.
4. If any data, information, or arguments submitted during the public comment period appear to raise substantial new questions concerning a permit, the Director may reopen or extend the comment period to provide interested persons an opportunity to comment on the information or arguments submitted. Comments filed during a reopened comment period are limited to the substantial new questions that caused its reopening.
 - a. Corps of Engineers.

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

- i. If the District Engineer advises the Director that denying the permit or imposing specified conditions upon a permit is necessary to avoid any substantial impairment of anchorage or navigation, then the Director shall deny the permit or include the specified conditions in the permit.
 - ii. A person shall use the applicable procedures of the Corps of Engineers Review and not the procedures under this Article to appeal the denial of a permit or conditions specified by the District Engineer.
 - iii. If the conditions are stayed by a court of competent jurisdiction or by applicable procedures of the Corps of Engineers, those conditions are considered stayed in the AZPDES permit for the duration of that stay.
 - b. If an agency with jurisdiction over fish, wildlife, or public health advises the Director in writing that the imposition of specified conditions upon the permit is necessary to avoid substantial impairment of fish, shellfish, or wildlife resource, the Director may include the specified conditions in the permit to the extent they are determined necessary to carry out the provisions of the Clean Water Act.
- B. Public hearing.**
 1. The Director shall provide notice and conduct a public hearing to address a draft permit or denial regarding a final decision if:
 - a. Significant public interest in a public hearing exists, or
 - b. Significant issues or information have been brought to the attention of the Director during the comment period that was not considered previously in the permitting process.
 2. If, after publication of the notice under R18-9-A907, the Director determines that a public hearing is necessary, the Director shall schedule a public hearing and publish notice of the public hearing at least once, in one or more newspapers of general circulation where the facility is located. The notice for public hearing shall contain:
 - a. The date, time, and place of the hearing;
 - b. Reference to the date of a previous public notice relating to the proposed decision, if any; and
 - c. A brief description of the nature and purpose of the hearing, including reference to the applicable laws and rules.
 3. The Department shall accept written public comment until the close of the hearing or until a later date specified by the person presiding at the public hearing.
- C. EPA review of draft and proposed permits.**
 1. Individual permits.
 - a. The Department shall send a copy of the draft permit to EPA.
 - b. If EPA objects to the draft permit within 30 days from the date of receipt of the draft permit, the EPA comment period is extended to 90 days from the date of receipt of the draft permit and the substantive review time-frame is suspended until EPA makes a final determination.
 - c. If, based on public comments, the Department revises the draft permit, the Department shall send EPA a copy of the proposed permit. If EPA objects to the proposed permit within 30 days from the date of receipt of the proposed permit, the EPA comment period is extended to 90 days from the date of receipt of the proposed permit and the substantive review time-frame is suspended until EPA makes a final determination.
 2. General permits. The Director shall send a copy of the draft permit to EPA and comply with the following review procedure for EPA comments:
 - a. If EPA objects to the draft permit within 90 days from receipt of the draft permit, the Department shall not issue the permit until the objection is resolved;
 - b. If, based on public comments, the Department revises the draft permit, the Department shall send EPA a copy of the proposed permit. If EPA objects to the proposed permit within 90 days from receipt of the proposed permit, the Department shall not issue the permit until the objection is resolved;
 - c. If EPA withdraws its objection to the draft or proposed permit or does not submit specific objections within 90 days, the Director shall issue the permit.
- D. EPA hearing.** Within 90 days of receipt by the Director of a specific objection by EPA, the Director or any interested person may request that EPA hold a public hearing on the objection.
 1. If following the public hearing EPA withdraws the objection, the Director shall issue the permit.
 2. If a public hearing is not held, and EPA reaffirms the original objection, or modifies the terms of the objection, and the Director does not resubmit a permit revised to meet the EPA objection within 90 days of receipt of the objection, EPA may issue the permit for one term. Following the completion of the permit term, authority to issue the permit reverts to the Department.
 3. If a public hearing is held and EPA does not withdraw an objection or modify the terms of the objection, and the Director does not resubmit a permit revised to meet the EPA objection within 30 days of notification of the EPA objection, EPA may issue the permit for one permit term. Following the completion of the permit term, authority to issue the permit reverts to the Department.
 4. If EPA issues the permit instead of the Director, the Department shall close the application file.
- E. Final permit determination.**
 1. Individual permits. At the same time the Department notifies a permittee or an applicant of the final individual permit determination, the Department shall send, through regular mail, a notice of the determination to any person who submitted comments or attended a public hearing on the final individual permit determination. The Department shall:
 - a. Specify the provisions, if any, of the draft individual permit that have been changed in the final individual permit determination, and the reasons for the change; and
 - b. Briefly describe and respond to all significant comments on the draft individual permit or the permit application raised during the public comment period, or during any hearing.
 2. General permits. The Director shall publish a general notice of the final permit determination in the *Arizona Administrative Register*. The notice shall:
 - a. Specify the provisions, if any, of the draft general permit that have been changed in the final general

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

- permit determination, and the reasons for the change;
- b. Briefly describe and respond to all significant comments on the draft general permit raised during the public comment period, or during any hearing; and
 - c. Specify where a copy of the final general permit may be obtained.
3. The Department shall make the response to comments available to the public.

Historical Note

New Section made by final rulemaking at 7 A.A.R. 5879, effective December 7, 2001 (Supp. 01-4).

R18-9-A909. Petitions

- A. Any person may submit a petition to the Director requesting:
 1. The issuance of a general permit;
 2. An individual permit covering any discharge into an MS4 under 40 CFR 122.26(f), which is incorporated by reference in R18-9-A905(A)(1)(d); or
 3. An individual permit under R18-9-C902(B)(1).
- B. The petition shall contain:
 1. The name, address, and telephone number of the petitioner;
 2. The location of the facility;
 3. The exact nature of the petition, and
 4. Evidence of the validity of the petition.
- C. The Department shall provide the permittee with a copy of the petition.

Historical Note

New Section made by final rulemaking at 7 A.A.R. 5879, effective December 7, 2001 (Supp. 01-4).

PART B. INDIVIDUAL PERMITS

R18-9-B901. Individual Permit Application

- A. Time to apply.
 1. Any person who owns or operates a facility covered by R18-9-A902(B) or R18-9-A902(C), shall apply for an AZPDES individual permit at least 180 days before the date of the discharge or a later date if granted by the Director, unless the person:
 - a. Is exempt under R18-9-A902(G);
 - b. Is covered by a general permit under Article 9, Part C of this Chapter; or
 - c. Is a user of a privately owned treatment works, unless the Director requires a permit under 40 CFR 122.44(m).
 2. Construction. Any person who proposes a construction activity under R18-9-A902(B)(9)(c) or R18-9-A902(B)(9)(d) and wishes coverage under an individual permit, shall apply for the individual permit at least 90 days before the date on which construction is to commence.
 3. Waivers.
 - a. Unless the Director grants a waiver under 40 CFR 122.32, a person operating a small MS4 is regulated under the AZPDES program.
 - b. The Director shall review any waiver granted under subsection (A)(3)(a) at least every five years to determine whether any of the information required for granting the waiver has changed.
- B. Application. An individual permit applicant shall submit the following information on an application obtained from the Department. The Director may require more than one application from a facility depending on the number and types of discharges or outfalls.
 1. Discharges, other than stormwater.

- a. The information required under 40 CFR 122.21(f) through (l);
 - b. The signature of the certifying official required under 40 CFR 122.22;
 - c. The name and telephone number of the operator, if the operator is not the applicant; and
 - d. Whether the facility is located in the border area, and, if so:
 - i. A description of the area into which the effluent discharges from the facility may flow, and
 - ii. A statement explaining whether the effluent discharged is expected to cross the Arizona-Sonora, Mexico border.
2. Stormwater. In addition to the information required in subsection (B)(1)(c) and (B)(1)(d):
 - a. For stormwater discharges associated with industrial activity, the application requirements under 40 CFR 122.26(c)(1);
 - b. For large and medium MS4s, the application requirements under 40 CFR 122.26(d);
 - c. For small MS4s:
 - i. A stormwater management program under 40 CFR 122.34, and
 - ii. The application requirements under 40 CFR 122.33.
 - C. Consolidation of permit applications.
 1. The Director may consolidate two or more permit applications for any facility or activity that requires a permit under Articles 9 and 10 of this Chapter.
 2. Whenever a facility or activity requires an additional permit under Articles 9 and 10 of this Chapter, the Director may coordinate the expiration date of the new permit with the expiration date of an existing permit so that all permits expire simultaneously. The Department may then consolidate the processing of the subsequent applications for renewal permits.

Historical Note

New Section made by final rulemaking at 7 A.A.R. 5879, effective December 7, 2001 (Supp. 01-4).

R18-9-B902. Requested Coverage Under a General Permit

An owner or operator may request that an individual permit be revoked, if a source is excluded from a general permit solely because it already has an individual permit.

1. The Director shall grant the request for revocation of an individual permit upon determining that the permittee otherwise qualifies for coverage under a general permit.
2. Upon revocation of the individual permit, the general permit applies to the source.

Historical Note

New Section made by final rulemaking at 7 A.A.R. 5879, effective December 7, 2001 (Supp. 01-4).

R18-9-B903. Individual Permit Issuance or Denial

- A. Once the application is complete, the Director shall tentatively decide whether to prepare a draft permit or to deny the application.
- B. Permit issuance. If, based upon the information obtained by or available to the Department under R18-9-A907, R18-9-A908, and R18-9-B901, the Director determines that an applicant complies with A.R.S. Title 49, Chapter 2, Article 3.1 and Articles 9 and 10 of this Chapter, the Director shall issue a permit that is effective as prescribed in A.R.S. 49-255.01(H).
- C. Permit denial.
 1. If the Director decides to deny the permit application, the Director shall provide the applicant with a written notice

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

of intent to deny the permit application. The written notification shall include:

- a. The reason for the denial with reference to the statute or rule on which the denial is based;
 - b. The applicant's right to appeal the denial with the Water Quality Appeals Board under A.R.S. § 49-323, the number of days the applicant has to file a protest challenging the denial, and the name and telephone number of the Department contact person who can answer questions regarding the appeals process; and
 - c. The applicant's right to request an informal settlement conference under A.R.S. §§ 41-1092.03(A) and 41-1092.06.
2. The Director shall provide an opportunity for public comment under R18-9-A907 and R18-9-A908 on a denial.
 3. The decision of the Director to deny the permit application takes effect 30 days after the decision is served on the applicant, unless the applicant files an appeal under A.R.S. 49-255.01(H)(1).

Historical Note

New Section made by final rulemaking at 7 A.A.R. 5879, effective December 7, 2001 (Supp. 01-4).

R18-9-B904. Individual Permit Duration, Reissuance, and Continuation**A. Permit duration.**

1. An AZPDES individual permit is effective for a fixed term of not more than five years. The Director may issue a permit for a duration that is less than the full allowable term.
2. If the Director does not reissue a permit within the period specified in the permit, the permit expires, unless it is continued under subsection (C).
3. If a permittee of a large or medium MS4 allows a permit to expire by failing to reapply within the time period specified in subsection (B), the permittee shall submit a new application under R18-9-B901 and follow the application requirements under 40 CFR 122.26(d), which is incorporated by reference in R18-9-A905(A)(1)(d).

B. Permit reissuance.

1. A permittee shall reapply for an individual permit at least 180 days before the permit expiration date.
2. Unless otherwise specified in the permit, an annual report submitted 180 days before the permit expiration date satisfies the reapplication requirement for an MS4 permit. The annual report shall contain:
 - a. The name, address, and telephone number of the MS4;
 - b. The name, address, and telephone number of the contact person;
 - c. The status of compliance with permit conditions, including an assessment of the appropriateness of the selected best management practices and progress toward achieving the selected measurable goals for each minimum measure;
 - d. The results of any information collected and analyzed, including monitoring data, if any;
 - e. A summary of the stormwater activities planned for the next reporting cycle;
 - f. A change in any identified best management practices or measurable goals for any minimum measure; and
 - g. Notice of relying on another governmental entity to satisfy some of the permit obligations.

C. Continuation. A NPDES or AZPDES individual permit may continue beyond its expiration date if:

1. The permittee has submitted a complete application for an AZPDES individual permit at least 180 days before the expiration date of the existing permit and the permitted activity is of a continuing nature; and
2. The Department is unable, through no fault of the permittee, to issue an AZPDES individual permit on or before the expiration date of the existing permit.

Historical Note

New Section made by final rulemaking at 7 A.A.R. 5879, effective December 7, 2001 (Supp. 01-4).

R18-9-B905. Individual Permit Transfer

- A.** A permittee may request the Director to transfer an individual permit to a new permittee. The Director may modify, or revoke and reissue the permit to identify the new permittee, or make a minor modification to identify the new permittee.
- B.** Automatic transfer. The Director may automatically transfer an individual permit to a new permittee if:
 1. The current permittee notifies the Director by certified mail at least 30 days in advance of the proposed transfer date and includes a written agreement between the existing and new permittee containing a specific date for transfer of permit responsibility, coverage, and liability between them; and
 2. The Director does not notify the existing permittee and the proposed new permittee of the Director's intent to modify, or revoke and reissue the permit. A modification under this subsection may include a minor modification specified in R18-9-B906(B).

Historical Note

New Section made by final rulemaking at 7 A.A.R. 5879, effective December 7, 2001 (Supp. 01-4).

R18-9-B906. Modification, Revocation and Reissuance, and Termination of Individual Permits**A. Permit modification, revocation and reissuance.**

1. The Director may modify, or revoke and reissue an individual permit for any of the following reasons:
 - a. The Director receives a written request from an interested person;
 - b. The Director receives information, such as when inspecting a facility;
 - c. The Director receives a written request to modify, or revoke and reissue a permit from a permittee as required in the individual permit; or
 - d. After review of a permit file, the Director determines one or more of the causes listed under 40 CFR 122.62(a) or (b) exists.
 - i. If the Director decides a written request is not justified under 40 CFR 122.62 or subsection (B), the Director shall send the requester a brief written response giving a reason for the decision.
 - ii. The denial of a request for modification, or revocation and reissuance is not subject to public notice, comment, or hearing under R18-9-A907 and R18-9-A908(A) and (B).
2. If the Director tentatively decides to modify, or revoke and reissue an individual permit, the Director shall prepare a draft permit incorporating the proposed changes. The Director may request additional information and, in the case of a modified permit, may require the submission of an updated application.

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

- a. Modified individual permit. The Director shall reopen only the modified conditions when preparing a new draft permit and process the modifications.
 - b. Revoked and reissued individual permit.
 - i. The permittee shall submit a new application.
 - ii. The Director shall reopen the entire permit just as if the permit had expired and was being reissued.
 3. During any modification, or revocation and reissuance proceeding, the permittee shall comply with all conditions of the existing permit until a new final permit is issued.
- B. Minor modifications.**
1. Upon consent of the permittee, the Director may make any of the following modifications to an individual permit:
 - a. Correct typographical errors;
 - b. Update a permit condition that changed as a result of updating an Arizona water quality standard;
 - c. Require more frequent monitoring or reporting by the permittee;
 - d. Change an interim compliance date in a schedule of compliance, provided the new date is not more than 120 days after the date specified in the existing permit and does not interfere with attainment of the final compliance date requirement;
 - e. Allow for a change in ownership or operational control of a facility, if no other change in the permit is necessary, provided that a written agreement containing a specific date for transfer of permit responsibility, coverage, and liability between the current and new permittees has been submitted to the Director;
 - f. Change the construction schedule for a new source discharger. The change shall not affect a discharger's obligation to have all pollution control equipment installed and in operation before the discharge;
 - g. Delete a point source outfall if the discharge from that outfall is terminated and does not result in a discharge of pollutants from other outfalls except under permit limits;
 - h. Incorporate conditions of a POTW pretreatment program approved under 40 CFR 403.11 and 40 CFR 403.18, which is incorporated by reference in R18-9-A905(A)(7)(b) as enforceable conditions of the permit, and
 - i. Annex an area by a municipality.
 2. Any modification processed under subsection (B)(1) is not subject to the public notice provision under R18-9-A907 or public participation procedures under R18-9-A908.
- C. Permit termination.**
1. The Director may terminate an individual permit during its term or deny reissuance of a permit for any of the following causes:
 - a. The permittee's failure to comply with any condition of the permit;
 - b. The permittee's failure in the application or during the permit issuance process to disclose fully all relevant facts, or the permittee's misrepresentation of any relevant fact;
 - c. The Director determined that the permitted activity endangers human health or the environment and can only be regulated to acceptable levels by permit modification or termination; or
 - d. A change occurs in any condition that requires either a temporary or permanent reduction or elimination of any discharge, sludge use, or disposal practice controlled by the permit, for example, a plant closure or termination of discharge by connection to a POTW.
 2. If the Director terminates a permit during its term or denies a permit renewal application for any cause listed in subsection (C)(1), the Director shall issue a Notice of Intent to Terminate, except when the entire discharge is terminated.
 - a. Unless the permittee objects to the termination notice within 30 days after the notice is sent, the termination is final at the end of the 30 days.
 - b. If the permittee objects to the termination notice, the permittee shall respond in writing to the Director within 30 days after the notice is sent.
 - c. Expedited permit termination. If a permittee requests an expedited permit termination procedure, the permittee shall certify that the permittee is not subject to any pending state or federal enforcement actions, including citizen suits brought under state or federal law.
 - d. The denial of a request for termination is not subject to public notice, comment, or hearing under R18-9-A907 and R18-9-A908(A) and (B).

Historical Note

New Section made by final rulemaking at 7 A.A.R. 5879, effective December 7, 2001 (Supp. 01-4).

R18-9-B907. Individual Permit Variances

- A.** The Director may grant or deny a request for any of the following variances:
1. An extension under section 301(i) of the Clean Water Act (33 U.S.C. 1311) based on a delay in completion of a POTW;
 2. After consultation with EPA, an extension under section 301(k) of the Clean Water Act (33 U.S.C. 1311) based on the use of innovative technology;
 3. A variance under section 316(a) of the Clean Water Act (33 U.S.C. 1326) for thermal pollution, or
 4. A variance under R18-11-122 for a water quality standard.
- B.** The Director may deny, forward to EPA with a written concurrence, or submit to EPA without recommendation a completed request for:
1. A variance based on the economic capability of the applicant under section 301(c) of the Clean Water Act (33 U.S.C. 1311); or
 2. A variance based on water quality related effluent limitations under 302(b)(2) (33 U.S.C. 1312) of the Clean Water Act.
- C.** The Director may deny or forward to EPA with a written concurrence a completed request for:
1. A variance based on the presence of fundamentally different factors from those on which an effluent limitations guideline is based; and
 2. A variance based upon water quality factors under section 301(g) of the Clean Water Act (33 U.S.C. 1311).
- D.** If the Department approves a variance under subsection (A) or if EPA approves a variance under subsection (B) or (C), the Director shall prepare a draft permit incorporating the variance. Any public notice of a draft permit for which a variance or modification has been approved or denied shall identify the applicable procedures for appealing the decision.

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

Historical Note

New Section made by final rulemaking at 7 A.A.R. 5879, effective December 7, 2001 (Supp. 01-4).

PART C. GENERAL PERMITS**R18-9-C901. General Permit Issuance**

- A.** The Director may issue a general permit to cover one or more categories of discharges, sludge use, or disposal practices, or facilities within a geographic area corresponding to existing geographic or political boundaries, if the sources within a covered category of discharges are either:
1. Stormwater point sources; or
 2. One or more categories of point sources other than stormwater point sources, or one or more categories of treatment works treating domestic sewage, if the sources, or treatment works treating domestic sewage, within each category all:
 - a. Involve the same or substantially similar types of operations;
 - b. Discharge the same types of wastes or engage in the same types of sludge use or disposal practices;
 - c. Require the same effluent limitations, operating conditions, or standards for sludge use or disposal;
 - d. Require the same or similar monitoring; and
 - e. Are more appropriately controlled under a general permit than under an individual permit.
- B.** Any person seeking coverage under a general permit issued under subsection (A) shall submit a Notice of Intent on a form provided by the Department within the time-frame specified in the general permit unless exempted under the general permit as provided in subsection (C)(2). The person shall not discharge before the time specified in the general permit unless the discharge is authorized by another permit.
- C.** Exemption from filing a Notice of Intent.
1. The following dischargers are not exempt from submitting a Notice of Intent:
 - a. A discharge from a POTW;
 - b. A combined sewer overflow;
 - c. A MS4;
 - d. A primary industrial facility;
 - e. A stormwater discharge associated with industrial activity;
 - f. A CAFO;
 - g. A treatment works treating domestic sewage; and
 - h. A stormwater discharge associated with construction activity.
 2. For dischargers not listed in subsection (C)(1), the Director may consider a Notice of Intent inappropriate for the discharge and authorize the discharge under a general permit without a Notice of Intent. In making this finding, the Director shall consider:
 - a. The type of discharge,
 - b. The expected nature of the discharge,
 - c. The potential for toxic and conventional pollutants in the discharge,
 - d. The expected volume of the discharge,
 - e. Other means of identifying the discharges covered by the permit, and
 - f. The estimated number of discharges covered by the permit.
 3. The Director shall provide reasons for not requiring a Notice of Intent for a general permit in the public notice.
- D.** Notice of Intent. The Director shall specify the contents of the Notice of Intent in the general permit and the applicant shall submit information sufficient to establish coverage under the general permit, including, at a minimum:

1. The name, position, address, and telephone number of the owner of the facility;
 2. The name, position, address, and telephone number of the operator of the facility, if different from subsection (D)(1);
 3. The name and address of the facility;
 4. The type and location of the discharge;
 5. The receiving streams;
 6. The latitude and longitude of the facility;
 7. For a CAFO, the information specified in 40 CFR 122.21(i)(1) and a topographic map;
 8. The signature of the certifying official required under 40 CFR 122.22; and
 9. Any other information necessary to determine eligibility for the AZPDES general permit.
- E.** The general permit shall contain:
1. The expiration date; and
 2. The appropriate permit requirements, permit conditions, and best management practices, and measurable goals for MS4 general permits, under R18-9-A905(A)(1), R18-9-A905(A)(2), and R18-9-A905(A)(3) and determined by the Director as necessary and appropriate for the protection of navigable waters.
- F.** The Department shall inform a permittee if EPA requests the permittee's Notice of Intent, unless EPA requests that the permittee not be notified.

Historical Note

New Section made by final rulemaking at 7 A.A.R. 5879, effective December 7, 2001 (Supp. 01-4). Amended by final rulemaking at 9 A.A.R. 5564, effective February 2, 2004 (Supp. 03-4).

R18-9-C902. Required and Requested Coverage Under an Individual Permit

- A.** Individual permit requirements.
1. The Director may require a person authorized by a general permit to apply for and obtain an individual permit for any of the following cases:
 - a. A discharger or treatment works treating domestic sewage is not in compliance with the conditions of the general permit;
 - b. A change occurs in the availability of demonstrated technology or practices for the control or abatement of pollutants applicable to the point source or treatment works treating domestic sewage;
 - c. Effluent limitation guidelines are promulgated for point sources covered by the general permit;
 - d. An Arizona Water Quality Management Plan containing requirements applicable to the point sources is approved;
 - e. Circumstances change after the time of the request to be covered so that the discharger is no longer appropriately controlled under the general permit, or either a temporary or permanent reduction or elimination of the authorized discharge is necessary;
 - f. Standards for sewage sludge use or disposal are promulgated for the sludge use and disposal practices covered by the general permit; or
 - g. If the Director determines that the discharge is a significant contributor of pollutants. When making this determination, the Director shall consider:
 - i. The location of the discharge with respect to navigable waters,
 - ii. The size of the discharge,
 - iii. The quantity and nature of the pollutants discharged to navigable waters, and

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

- iv. Any other relevant factor.
- 2. If an individual permit is required, the Director shall notify the discharger in writing of the decision. The notice shall include:
 - a. A brief statement of the reasons for the decision,
 - b. An application form,
 - c. A statement setting a deadline to file the application,
 - d. A statement that on the effective date of issuance or denial of the individual permit, coverage under the general permit will automatically terminate,
 - e. The applicant's right to appeal the individual permit requirement with the Water Quality Appeals Board under A.R.S. § 49-323, the number of days the applicant has to file a protest challenging the individual permit requirement, and the name and telephone number of the Department contact person who can answer questions regarding the appeals process; and
 - f. The applicant's right to request an informal settlement conference under A.R.S. §§ 41-1092.03(A) and 41-1092.06.
- 3. The discharger shall apply for a permit within 90 days of receipt of the notice, unless the Director grants a later date. In no case shall the deadline be more than 180 days after the date of the notice.
- 4. If the permittee fails to submit the individual permit application within the time period established in subsection (A)(3), the applicability of the general permit to the permittee is automatically terminated at the end of the day specified by the Director for application submittal.
- 5. Coverage under the general permit shall continue until an individual permit is issued unless the permit coverage is terminated under subsection (A)(4).
- B. Individual permit request.**
 - 1. An owner or operator authorized by a general permit may request an exclusion from coverage of a general permit by applying for an individual permit.
 - a. The owner or operator shall submit an individual permit application under R18-9-B901(B) and include the reasons supporting the request no later than 90 days after publication of the general permit.
 - b. The Director shall grant the request if the reasons cited by the owner or operator are adequate to support the request.
 - 2. If an individual permit is issued to an owner or operator otherwise subject to a general permit, the applicability of the general permit to the discharge is automatically terminated on the effective date of the individual permit.

Historical Note

New Section made by final rulemaking at 7 A.A.R. 5879, effective December 7, 2001 (Supp. 01-4).

R18-9-C903. General Permit Duration, Reissuance, and Continuation

- A. General permit duration.**
 - 1. An AZPDES general permit is effective for a fixed term of not more than five years. The Director may issue a permit for a duration that is less than the full allowable term.
 - 2. If the Director does not reissue a general permit before the expiration date, the current general permit will be administratively continued and remain in force and effect until the general permit is reissued.
- B. Continued coverage.** Any permittee granted permit coverage before the expiration date automatically remains covered by the continued permit until the earlier of:

- 1. Reissuance or replacement of the permit, at which time the permittee shall comply with the Notice of Intent conditions of the new permit to maintain authorization to discharge; or
- 2. The date the permittee has submitted a Notice of Termination; or
- 3. The date the Director has issued an individual permit for the discharge; or
- 4. The date the Director has issued a formal permit decision not to reissue the general permit, at which time the permittee shall seek coverage under an alternative general permit or an individual permit.

Historical Note

New Section made by final rulemaking at 7 A.A.R. 5879, effective December 7, 2001 (Supp. 01-4).

R18-9-C904. Change of Ownership or Operator Under a General Permit

If a change of ownership or operator occurs for a facility operating under a general permit:

- 1. Permitted owner or operator. The permittee shall provide the Department with a Notice of Termination by certified mail within 30 days after the new owner or operator assumes responsibility for the facility.
 - a. The Notice of Termination shall include all requirements for termination specified in the general permit for which the Notice of Termination is submitted.
 - b. A permittee shall comply with the permit conditions specified in the general permit for which the Notice of Termination is submitted until the Notice of Termination is received by the Department.
- 2. New owner or operator.
 - a. The new owner or operator shall complete and file a Notice of Intent with the Department within the time period specified in the general permit before taking over operational control of, or initiation of activities at, the facility.
 - b. If the previous permittee was required to implement a stormwater pollution prevention plan, the new owner shall develop a new stormwater pollution prevention plan, or may modify, certify, and implement the old stormwater pollution prevention plan if the old stormwater pollution prevention plan complies with the requirements of the current general permit.
 - c. The permittee shall provide the Department with a Notice of Termination if a permitted facility ceases operation, ceases to discharge, or changes operator status. In the case of a construction site, the permittee shall submit a Notice of Termination to the Department when:
 - i. The facility ceases construction operations and the discharge is no longer associated with construction or construction-related activities,
 - ii. The construction is complete and final site stabilization is achieved, or
 - iii. The operator's status changes.

Historical Note

New Section made by final rulemaking at 7 A.A.R. 5879, effective December 7, 2001 (Supp. 01-4).

R18-9-C905. General Permit Modification and Revocation and Reissuance

- A.** The Director may modify or revoke a general permit issued under R18-9-A907(B), R18-9-A908, and R18-9-C901 if one or more of the causes listed under 40 CFR 122.62(a) or (b) exists.

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

- B. The Director shall follow the procedures specified in R18-9-A907(B) and R18-9-A908 to modify or revoke and reissue a general permit.

Historical Note

New Section made by final rulemaking at 9 A.A.R. 5564, effective February 2, 2004 (Supp. 03-4).

PART D. ANIMAL FEEDING OPERATIONS AND CONCENTRATED ANIMAL FEEDING OPERATIONS**R18-9-D901. CAFO Designations**

- A. Two or more animal feeding operations under common ownership are considered a single animal feeding operation if they adjoin each other or if they use a common area or system for the disposal of wastes.
- B. The Director shall designate an animal feeding operation as a CAFO if the animal feeding operation significantly contributes a pollutant to a navigable water. The Director shall consider the following factors when making this determination:
1. The size of the animal feeding operation and the amount of wastes reaching a navigable water;
 2. The location of the animal feeding operation relative to a navigable water;
 3. The means of conveyance of animal wastes and process wastewaters into a navigable water;
 4. The slope, vegetation, rainfall, and any other factor affecting the likelihood or frequency of discharge of animal wastes and process wastewaters into a navigable water; and
 5. Any other relevant factor.
- C. The Director shall conduct an onsite inspection of the animal feeding operation before the making a designation under subsection (B).
- D. The Director shall not designate an animal feeding operation having less than the number of animals established in R18-9-A901(19)(a) as a CAFO unless a pollutant is discharged:
1. Into a navigable water through a manmade ditch, flushing system, or other similar manmade device; or
 2. Directly into a navigable water that originates outside of and passes over, across, or through the animal feeding operation or otherwise comes into direct contact with the animals confined in the operation.
- E. If the Director makes a designation under subsection (B), the Director shall notify the owner or operator of the operation, in writing, of the designation.

Historical Note

New Section made by final rulemaking at 9 A.A.R. 5564, effective February 2, 2004 (Supp. 03-4).

R18-9-D902. AZPDES Permit Coverage Requirements

- A. Any person who owns or operates a CAFO, except as provided in subsections (B) and (C), shall submit an application for an individual permit under R18-9-B901(B) or seek coverage under a general permit under R18-9-C901(B) within the applicable deadline specified in R18-9-D904(A).
- B. If a person who owns or operates a large CAFO receives a no potential to discharge determination under R18-9-D903, coverage under an AZPDES permit described in this Part is not required.
- C. The discharge of manure, litter, or process wastewater to a navigable water from a CAFO as a result of the application of manure, litter, or process wastewater by the CAFO to land areas under its control is subject to AZPDES permit requirements, except where it is an agricultural stormwater discharge as provided in section 502(14) of the Clean Water Act (33 U.S.C. 1362(14)). For purposes of this Section, an "agricultural stormwater discharge" means a precipitation-related dis-

charge of manure, litter, or process wastewater from land areas under the control of a CAFO when the person who owns or operates the CAFO has applied the manure, litter, or process wastewater according to site-specific nutrient management practices to ensure appropriate agricultural use of the nutrients in the manure, litter, or process wastewater, as specified under 40 CFR 122.42(e)(1)(vi) through (ix).

Historical Note

New Section made by final rulemaking at 9 A.A.R. 5564, effective February 2, 2004 (Supp. 03-4).

R18-9-D903. No Potential To Discharge Determinations for Large CAFOs

- A. For purposes of this Section, "no potential to discharge" means that there is no potential for any CAFO manure, litter, or process wastewater to enter into a navigable water under any circumstance or climatic condition.
- B. Any person who owns or operates a large CAFO and has not had a discharge within the previous five years may request a no potential to discharge determination by submitting to the Department:
1. The information specified in 40 CFR 122.21(f) and 40 CFR 122.21(i)(1)(i) through (ix) on a form obtained from the Department, by the applicable date specified in R18-9-D904(A); and
 2. Any additional information requested by the Director to supplement the request or requested through an onsite inspection of the CAFO.
- C. Process for making a no potential to discharge determination.
1. Upon receiving a request under subsection (B), the Director shall consider:
 - a. The potential for discharges from both the production area and any land application area, and
 - b. Any record of prior discharges by the CAFO.
 2. The Director shall issue a public notice that includes:
 - a. A statement that a no potential to discharge request has been received;
 - b. A fact sheet, when applicable;
 - c. A brief description of the type of facility or activity that is the subject of the no potential to discharge determination;
 - d. A brief summary of the factual basis, upon which the request is based, for granting the no potential to discharge determination; and
 - e. A description of the procedures for reaching a final decision on the no potential to discharge determination.
 3. The Director shall base the decision to grant a no potential to discharge determination on the administrative record, which includes all information submitted in support of a no potential to discharge determination and any other supporting data gathered by the Director.
 4. The Director shall notify the owner or operator of the large CAFO of the final determination within 90 days of receiving the request.
- D. If the Director determines that the operation has the potential to discharge, the person who owns or operates the CAFO shall seek coverage under an AZPDES permit within 30 days after the determination of potential to discharge.
- E. A no potential to discharge determination does not relieve the CAFO from the consequences of a discharge. An unpermitted CAFO discharging a pollutant into a navigable water is in violation of the Clean Water Act even if the Director issues a no potential to discharge determination for the facility. If the Director issues a determination of no potential to discharge to a CAFO facility but the owner or operator anticipates a change

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

in circumstances that could create the potential for a discharge, the owner or operator shall contact the Director and apply for and obtain permit authorization before the change of circumstances.

- F. When the Director issues a determination of no potential to discharge, the Director retains the authority to subsequently require AZPDES permit coverage if:
1. Circumstances at the facility change;
 2. New information becomes available; or
 3. The Director determines, through other means, that the CAFO has a potential to discharge.

Historical Note

New Section made by final rulemaking at 9 A.A.R. 5564, effective February 2, 2004 (Supp. 03-4).

R18-9-D904. AZPDES Permit Coverage Deadlines

- A. Any person who owns or operates a CAFO shall apply for or seek coverage under an AZPDES permit and shall comply with all applicable AZPDES requirements, including the duty to maintain permit coverage under subsection (C).
1. Permit coverage deadline for an animal feeding operation operating before April 14, 2003.
 - a. An owner or operator of an animal feeding operation that operated before April 14, 2003 and was defined as a CAFO before February 2, 2004 shall apply for or seek permit coverage or maintain permit coverage and comply with the conditions of the applicable AZPDES permit;
 - b. An owner or operator of an animal feeding operation that operated before April 14, 2003 and was not defined as a CAFO until February 2, 2004 shall apply for or seek permit coverage by a date specified by the Director, but no later than February 13, 2006;
 - c. An owner or operator of an animal feeding operation that operated before April 14, 2003 who changes the operation on or after February 2, 2004, resulting in the operation being defined as a CAFO, shall apply for or seek permit coverage as soon as possible, but no later than 90 days after the operational change. If the operational change will not make the operation a CAFO as defined before February 2, 2004, the owner or operator may take until April 13, 2006 or 90 days after the operation is defined as a CAFO, whichever is later, to apply for or seek permit coverage;
 - d. An owner or operator of an animal feeding operation that operated before April 14, 2003 who constructs additional facilities on or after February 2, 2004, resulting in the operation being defined as a CAFO that is a new source, shall apply for or seek permit coverage at least 180 days before the new source portion of the CAFO commences operation. If the calculated 180-day deadline occurs before February 2, 2004 and the operation is not subject to this Article before February 2, 2004, the owner or operator shall apply for or seek permit coverage no later than March 3, 2004.
 2. Permit coverage deadline for an animal feeding operation operating on or after April 14, 2003. An owner or operator who started construction of a CAFO on or after April 14, 2003, including a CAFO subject to the effluent limitations guidelines in 40 CFR 412, shall apply for or seek permit coverage at least 180 days before the CAFO commences operation. If the calculated 180-day deadline occurs before February 2, 2004 and the operation is not subject to this Article before February 2, 2004, the owner

or operator shall apply for or seek permit coverage no later than March 3, 2004.

3. Permit coverage deadline for a designated CAFO. Any person who owns or operates a CAFO designated under R18-9-D901(B) shall apply for or seek permit coverage no later than 90 days after receiving a designation notice.
- B. Unless specified under R18-9-D903(E) and (F), the Director shall not require permit coverage for a CAFO that the Director determines under R18-9-D903 to have no potential to discharge. If circumstances change at a CAFO that has a no potential to discharge determination and the CAFO now has a potential to discharge, the person who owns or operates the CAFO shall notify the Director within 30 days after the change in circumstances and apply for or seek coverage under an AZPDES permit.
- C. Duty to maintain permit coverage.
1. The permittee shall:
 - a. If covered by an individual AZPDES permit, submit an application to renew the permit no later than 180 days before the expiration of the permit under R18-9-B904(B); or
 - b. If covered by a general AZPDES permit, comply with R18-9-C903(B).
 2. Continued permit coverage or reapplication for a permit is not required if:
 - a. The facility ceases operation or is no longer a CAFO; and
 - b. The permittee demonstrates to the Director that there is no potential for a discharge of remaining manure, litter, or associated process wastewater (other than agricultural stormwater from land application areas) that was generated while the operation was a CAFO.

Historical Note

New Section made by final rulemaking at 9 A.A.R. 5564, effective February 2, 2004 (Supp. 03-4).

R18-9-D905. Closure Requirements

- A. Closure.
1. A person who owns or operates a CAFO shall notify the Department of the person's intent to cease operations without resuming an activity for which the facility was designed or operated.
 2. A person who owns or operates a CAFO shall submit a closure plan to the Department for approval 90 days before ceasing operation. The closure plan shall describe:
 - a. For operations that met the "no potential to discharge" under R18-9-D903, facility-related information based on the Notice of Termination form for the applicable general permit;
 - b. The approximate quantity of manure, process wastewater, and other materials and contaminants to be removed from the facility;
 - c. The destination of the materials to be removed from the facility and documentation that the destination is approved to accept the materials;
 - d. The method to treat any material remaining at the facility;
 - e. The method to control the discharge of pollutants from the facility;
 - f. Any limitations on future land or water use created as a result of the facility's operations or closure activities;
 - g. A schedule for implementing the closure plan; and
 - h. Any other relevant information the Department determines necessary.

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

- B. The owner or operator shall provide the Department with written notice that a closure plan has been fully implemented within 30 calendar days of completion and before redevelopment.

Historical Note

New Section made by final rulemaking at 9 A.A.R. 5564, effective February 2, 2004 (Supp. 03-4).

**ARTICLE 10. ARIZONA POLLUTANT DISCHARGE
ELIMINATION SYSTEM - DISPOSAL, USE, AND
TRANSPORTATION OF BIOSOLIDS**

R18-9-1001. Definitions

In addition to the definitions in A.R.S. § 49-255 and R18-9-A901, the following terms apply to this Article:

1. "Aerobic digestion" means the biochemical decomposition of organic matter in biosolids into carbon dioxide and water by microorganisms in the presence of air.
2. "Agronomic rate" means the whole biosolids application rate on a dry-weight basis that meets the following conditions:
 - a. The amount of nitrogen needed by existing vegetation or a planned or actual crop has been provided, and
 - b. The amount of nitrogen that passes below the root zone of the crop or vegetation is minimized.
3. "Anaerobic digestion" means the biochemical decomposition of organic matter in biosolids into methane gas and carbon dioxide by microorganisms in the absence of air.
4. "Annual biosolids application rate" means the maximum amount of biosolids (dry-weight basis) that can be applied to an acre or hectare of land during a 365-day period.
5. "Annual pollutant loading rate" means the maximum amount of a pollutant that can be applied to an acre or hectare of land during a 365-day period.
6. "Applicator" means a person who arranges for and controls the site-specific land application of biosolids in Arizona.
7. "Biosolids" means sewage sludge, including exceptional quality biosolids, that is placed on, or applied to the land to use the beneficial properties of the material as a soil amendment, conditioner, or fertilizer. Biosolids do not include any of the following:
 - a. Sludge determined to be hazardous under A.R.S. Title 49, Chapter 5, Article 2 and 40 CFR 261;
 - b. Sludge with a concentration of polychlorinated biphenyls (PCBs) equal to or greater than 50 milligrams per kilogram of total solids (dry-weight basis);
 - c. Grit (for example, sand, gravel, cinders, or other materials with a high specific gravity) or screenings generated during preliminary treatment of domestic sewage by a treatment works;
 - d. Sludge generated during the treatment of either surface water or groundwater used for drinking water;
 - e. Sludge generated at an industrial facility during the treatment of industrial wastewater, including industrial wastewater combined with domestic sewage;
 - f. Commercial septage, industrial septage, or domestic septage combined with commercial or industrial septage; or
 - g. Special wastes as defined and controlled under A.R.S. Title 49, Chapter 4, Article 9.
8. "Bulk biosolids" means biosolids that are transported and land-applied in a manner other than in a bag or other container holding biosolids of 1.102 short tons or 1 metric ton or less.
9. "Class I sludge management facility" means any POTW identified under 40 CFR 403.8(a) as being required to have an approved pretreatment program (including a POTW for which the Department assumes local program responsibilities under 40 CFR 403.10(e)) and any other treatment works treating domestic sewage classified as a Class I sludge management facility by the regional administrator in conjunction with the Director or by the Director because of the potential for its sludge use or disposal practices to adversely affect public health or the environment.
10. "Clean water act" means the federal water pollution control act amendments of 1972, as amended (P.L. 92-500; 86 Stat. 816; 33 United States Code sections 1251 through 1376). A.R.S. 49-201(6).
11. "Coarse fragments" means rock particles in the gravel-size range or larger.
12. "Coarse or medium sands" means a soil mixture of which more than 50% of the sand fraction is retained on a No. 40 (0.425 mm) sieve.
13. "Cumulative pollutant loading rate" means the maximum amount of a pollutant applied to a land application site.
14. "Domestic septage" means the liquid or solid material removed from a septic tank, cesspool, portable toilet, marine sanitation device, or similar system or device that receives only domestic sewage. Domestic septage does not include commercial or industrial wastewater or restaurant grease-trap wastes.
15. "Domestic sewage" means waste or wastewater from humans or household operations that is discharged to a publicly or privately owned treatment works. Domestic sewage also includes commercial and industrial wastewaters that are discharged into a publicly-owned or privately-owned treatment works if the industrial or commercial wastewater combines with human excreta and other household and nonindustrial wastewaters before treatment.
16. "Dry-weight basis" means the weight of biosolids calculated after the material has been dried at 105° C until reaching a constant mass.
17. "Exceptional quality biosolids" means biosolids certified under R18-9-1013(A)(6) as meeting the pollutant concentrations in R18-9-1005 Table 2, Class A pathogen reduction in R18-9-1006, and one of the vector attraction reduction requirements in subsections R18-9-1010(A)(1) through R18-9-1010(A)(8).
18. "Feed crops" means crops produced for animal consumption.
19. "Fiber crops" means crops grown for their physical characteristics. Fiber crops, including flax and cotton, are not produced for human or animal consumption.
20. "Food crops" means crops produced for human consumption.
21. "Gravel" means soil predominantly composed of rock particles that will pass through a 3-inch (75 mm) sieve and be retained on a No. 4 (4.75 mm) sieve.
22. "Industrial wastewater" means wastewater that is generated in a commercial or industrial process.
23. "Land application," "apply biosolids," or "biosolids applied to the land" means spraying or spreading biosolids on the surface of the land, injecting biosolids below the land's surface, or incorporating biosolids into the soil to amend, condition, or fertilize the soil.

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

24. "Monthly average" means the arithmetic mean of all measurements taken during a calendar month.
25. "Municipality" means a city, town, county, district, association, or other public body, including an intergovernmental agency of two or more of the foregoing entities created by or under state law. The term includes special districts such as a water district, sewer district, sanitary district, utility district, drainage district, or similar entity that has as one of its principal responsibilities, the treatment, transport, use, or disposal of biosolids.
26. "Navigable waters" means the waters of the United States as defined by section 502(7) of the clean water act (33 United States Code section 1362(7)). A.R.S. § 49-201(21).
27. "Other container" means a bucket, bin, box, carton, trailer, pickup truck bed, or a tanker vehicle or an open or closed receptacle with a load capacity of 1.102 short tons or one metric ton or less.
28. "Pathogen" means a disease-causing organism.
29. "Person" means an individual, employee, officer, managing body, trust, firm, joint stock company, consortium, public or private corporation, including a government corporation, partnership, association or state, a political subdivision of this state, a commission, the United States government or a federal facility, interstate body or other entity. A.R.S. § 49-201(26).
30. "Person who prepares biosolids" means a person who generates biosolids during the treatment of domestic sewage in a treatment works, packages biosolids, or derives a new product from biosolids either through processing or by combining it with another material, including blending several biosolids together.
31. "pH" means the logarithm of the reciprocal of the hydrogen ion concentration.
32. "Pollutant" means an organic substance, an inorganic substance, a combination of organic and inorganic substances, or a pathogenic organism that, after release into the environment and upon exposure, ingestion, inhalation, or assimilation into an organism, either directly from the environment or indirectly by ingestion through the food chain, could cause death, disease, behavioral abnormalities, cancer, genetic mutations, physiological malfunctions (including malfunction in reproduction), or physical deformities in either organisms or reproduced offspring.
33. "Pollutant limit" means:
 - a. A numerical value that describes the quantity of a pollutant allowed in a unit of biosolids such as milligrams per kilogram of total solids,
 - b. The quantity of a pollutant that can be applied to a unit area of land such as kilograms per hectare, or
 - c. The volume of biosolids that can be applied to a unit area of land such as gallons per acre.
34. "Privately owned treatment works" means a device or system owned by a non-governmental entity used to treat, recycle, or reclaim, either domestic sewage or a combination of domestic sewage and industrial waste that is generated off-site.
35. "Public contact site" means a park, sports field, cemetery, golf course, plant nursery, or other land with a high potential for public exposure to biosolids.
36. "Reclamation" means the use of biosolids to restore or repair construction sites, active or closed mining sites, landfill caps, or other drastically disturbed land.
37. "Responsible official" means a principal corporate officer, general partner, proprietor, or, in the case of a municipality, a principal executive official or any duly authorized agent.
38. "Runoff" means rainwater, leachate, or other liquid that drains over any part of a land surface and runs off of the land surface.
39. "Sand" means soil that contains more than 85% grains in the size range that will pass through a No. 4 (4.75 mm) sieve and be retained on a No. 200 (0.075 mm) sieve.
40. "Sewage sludge":
 - (a) Means solid, semisolid or liquid residue that is generated during the treatment of domestic sewage in a treatment works.
 - (b) Includes domestic septage, scum or solids that are removed in primary, secondary or advanced wastewater treatment processes, and any material derived from sewage sludge.
 - (c) Does not include ash that is generated during the firing of sewage sludge in a sewage sludge incinerator or grit and screenings that are generated during preliminary treatment of domestic sewage in a treatment works. A.R.S. § 49-255(6)
41. "Sewage sludge unit" means land on which only sewage sludge is placed for final disposal. This does not include land on which sewage sludge is either stored or treated. Land does not include navigable waters.
42. "Specific oxygen uptake rate (SOUR)" means the mass of oxygen consumed per unit time per unit mass of total solids (dry-weight basis) in biosolids.
43. "Store biosolids" or "storage of biosolids" means the temporary holding or placement of biosolids on land before land application.
44. "Surface disposal site" means an area of land that contains one or more active sewage sludge units.
45. "Ton" means a net weight of 2000 pounds and is known as a short ton.
46. "Total solids" means the biosolids material that remains when sewage sludge is dried at 103° C to 105° C.
47. "Treatment of biosolids" means the thickening, stabilization, dewatering, and other preparation of biosolids for land application. Storage is not a treatment of biosolids.
48. "Unstabilized solids" means the organic matter in biosolids that has not been treated or reduced through an aerobic or anaerobic process.
49. "Vectors" means rodents, flies, mosquitoes, or other organisms capable of transporting pathogens.
50. "Volatile solids" means the amount of total solids lost when biosolids are combusted at 550° C in the presence of excess air.
51. "Wetlands" means those areas that are inundated or saturated by surface water or groundwater at a frequency and duration to support, and do under normal circumstances support, a prevalence of vegetation typically adapted for life in saturated soil conditions. Wetlands generally include swamps, marshes, bogs, cienegas, tinajas, and similar areas.

Historical Note

New Section recodified from R18-13-1502 at 7 A.A.R. 2522, effective May 24, 2001 (Supp. 01-2). Amended by final rulemaking at 7 A.A.R. 5879, effective December 7, 2001 (Supp. 01-4). Amended by final rulemaking at 8 A.A.R. 4923, effective January 5, 2003 (Supp. 02-4).

R18-9-1002. Applicability and Prohibitions

- A.** This Article applies to:
1. Any person who:

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

- a. Prepares biosolids for land application or disposal in a sewage sludge unit or in an incinerator,
 - b. Transports biosolids for land application or incineration, or disposal in a sewage sludge unit,
 - c. Applies biosolids to the land,
 - d. Owns or operates a sewage sludge unit,
 - e. Owns or leases land to which biosolids are applied, or
 - f. Owns or operates an incinerator that fires sewage sludge,
2. Biosolids applied to the land or placed on a surface disposal site,
 3. Land where biosolids are applied, and
 4. A surface disposal site.
- B.** The land application of biosolids in a manner consistent with this Article is exempt from the requirements of the aquifer protection program established under A.R.S. Title 49, Chapter 2, Article 3 and 18 A.A.C. 9, Articles 1, 2, and 3.
- C.** Except as provided in subsection (D), the land application of biosolids in a manner that is not consistent with Articles 9 and 10 of this Chapter is prohibited.
- D.** The Department may permit the land application of biosolids in a manner that differs from the requirements in R18-9-1007 and R18-9-1008 if the land application is permitted under the aquifer protection permit program established under A.R.S. Title 49, Chapter 2, Article 3, and 18 A.A.C. 9, Articles 1, 2, and 3.
- E.** Surface disposal site.
1. Any person who prepares biosolids that are placed in a sewage sludge unit, or places biosolids in a sewage sludge unit, or who owns or operates a biosolids surface disposal site shall comply with 40 CFR 503, Subpart C, which is incorporated by reference in R18-9-A905(A)(9), and
 - a. The pathogen reduction requirements in R18-9-1006, and
 - b. The vector attraction reduction requirements in R18-9-1010.
 2. In addition to the requirements under subsection (E)(1), any person who owns or operates a biosolids surface disposal site shall apply for, and obtain, a permit under 18 A.A.C. 9, Articles 1 and 2.
- F.** A person shall not apply bulk biosolids to the land or place bulk biosolids in a surface disposal site or fire sewage sludge in a sewage sludge incinerator if the biosolids are likely to adversely affect a threatened or endangered species as listed under section 4 of the Endangered Species Act (16 U.S.C. 1533), or its designated critical habitat as defined in 16 U.S.C. 1532.
- G.** A person incinerating biosolids shall comply with the requirements set out in 40 CFR Part 503, Subpart E, July 1, 2013 edition, which is incorporated by reference and does not include any later amendments or editions of the incorporated material. Copies of the incorporated material are available for inspection at the Arizona Department of Environmental Quality, 1110 West Washington Street, Phoenix, Arizona 85007 or may be obtained from the U.S. General Printing office at <http://www.gpo.gov/fdsys/browse/collectionCfr.action?collectionCode=CFR>.

Historical Note

New Section recodified from R18-13-1501 at 7 A.A.R. 2522, effective May 24, 2001 (Supp. 01-2). Amended by final rulemaking at 7 A.A.R. 5879, effective December 7, 2001 (Supp. 01-4). Amended by final rulemaking at 8 A.A.R. 4923, effective January 5, 2003 (Supp. 02-4). Amended by final rulemaking at 21 A.A.R. 751, effective

July 4, 2015 (Supp. 15-2).

R18-9-1003. General Requirements

- A.** A person shall not use or transport biosolids, apply biosolids to land, or place biosolids on a surface disposal site in Arizona, except as established in this Article.
- B.** The management practices in R18-9-1007 and R18-9-1008 do not apply if biosolids are exceptional quality biosolids.
- C.** The applicator shall obtain, submit to the Department, and maintain the information required to comply with the requirements of this Article.
- D.** The applicator shall not receive bulk biosolids without prior written confirmation of the filing of a "Request for Registration" under R18-9-1004.
- E.** The land owner or lessee of land on which bulk biosolids, that are not exceptional quality biosolids, have been applied shall notify any subsequent land owner and lessee of all previous land applications of biosolids and shall disclose any site restrictions listed in R18-9-1009 that are in effect at the time the property is transferred.
- F.** A person who prepares biosolids shall ensure that the applicable requirements in this Article are met when the biosolids are applied to the land or placed on a surface disposal site.
- G.** If necessary to protect public health and the environment from any adverse effect of a pollutant in the biosolids, the Department may impose, on a case-by-case basis, requirements for the use or disposal of biosolids, including exceptional quality biosolids, in addition to, or more stringent than, the requirements in this Article. The Department shall notify the preparer, applier, or land owner of these requirements by letter and include the justification for the requirements and the length of time or applicability for the requirements.

Historical Note

New Section recodified from R18-13-1503 at 7 A.A.R. 2522, effective May 24, 2001 (Supp. 01-2). Amended by final rulemaking at 7 A.A.R. 5879, effective December 7, 2001 (Supp. 01-4). Amended by final rulemaking at 8 A.A.R. 4923, effective January 5, 2003 (Supp. 02-4).

R18-9-1004. Applicator Registration, Bulk Biosolids

- A.** Any person intending to land-apply bulk biosolids in Arizona shall submit, on a form provided by the Department, a completed "Request for Registration."
- B.** An applicator shall not engage in land application of bulk biosolids, unless the applicator has obtained a prior written acknowledgment of the Request for Registration or a supplemental request from the Department.
- C.** The Request for Registration for all biosolids, except exceptional quality biosolids, shall include:
1. The name, address, and telephone number of the applicator and any agent of the applicator;
 2. The name and telephone number of a primary contact person who has specific knowledge of the land application activities of the applicator;
 3. Whether the applicator holds a NPDES or AZPDES permit, and, if so, the permit number;
 4. The identity of the person, if different from the applicator, including the NPDES or AZPDES permit number, who will prepare the biosolids for land application; and
 5. The following information, unless the information is already on file at the Department as part of an approved land application plan, for each site on which application is anticipated to take place:
 - a. The name, mailing address, and telephone number of the land owner and lessee, if any;
 - b. The physical location of the site by county;

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

- c. The legal description of the site, including township, range, and section, or latitude and longitude at the center of each site;
 - d. The number of acres or hectares at each site to be used;
 - e. Except for sites described in R18-9-1005(D)(2)(c), background concentrations of the pollutants listed in Table 4 of R18-9-1005 from representative soil samples;
 - f. The location of any portion of the site having a slope greater than 6%; and
 - g. Public notice. Proof of placement of a public notice announcing the potential use of the site for the application of biosolids when a site has not previously received biosolids, or when a site has not been used for land application for at least three consecutive years.
 - i. The notice shall appear at least once each week for at least two consecutive weeks in the largest newspaper in general circulation in the area in which the site is located.
 - ii. If a site is not used for land application for at least three consecutive years, the applicator shall renotice the site following the process described in subsection (C)(5)(g)(i) before its reuse.
- D.** The Request for Registration for exceptional quality biosolids shall include the information in subsections (C)(1) through (C)(4).
- E.** A responsible official of the applicator shall sign the Request for Registration.
- F.** The Department shall mail a written acknowledgment of a Request for Registration or supplemental request, within 15 business days of receipt of the request.
- G.** An applicator wishing to use a site that has not been identified in a Request for Registration shall file a supplemental request with the Department before using the new site. Public notice requirements under R18-9-1004(C)(5)(g) apply.

Historical Note

New Section recodified from R18-13-1504 at 7 A.A.R. 2522, effective May 24, 2001 (Supp. 01-2). Amended by final rulemaking at 7 A.A.R. 5879, effective December 7, 2001 (Supp. 01-4). Amended by final rulemaking at 8 A.A.R. 4923, effective January 5, 2003 (Supp. 02-4).

R18-9-1005. Pollutant Concentrations

- A.** A person shall not apply biosolids with pollutant concentrations that exceed any of the ceiling concentrations established in Table 1.
- B.** A person shall not apply biosolids sold or given away in a bag or other container that are not exceptional quality biosolids to a site if any annual pollutant loading rate in Table 3 will be exceeded. A person shall determine annual application rates using the methodology established in Appendix A.
- C.** A person shall not apply bulk biosolids to a lawn or garden unless the biosolids are exceptional quality biosolids.
- D.** Unless using exceptional quality biosolids, a person shall not apply bulk biosolids to a site when:
1. The pollutant concentrations exceed the levels in Table 2, or
 2. Any cumulative pollutant loading rate in Table 4 will be exceeded. A person shall determine compliance with the site cumulative pollutant loading rates using the following:

- a. By identifying all known biosolids application events and information relevant to a site since September 13, 1979.
- b. By calculating the existing cumulative level of the pollutants established in Table 4 using actual analytical data from the application events or if actual analytical data from application events before April 1996 are not available, background concentrations determined by taking representative soil samples of the site, if it is known that the site received biosolids before April 1996.
- c. Background soil tests are not required for those sites that have not received biosolids before April 23, 1996.

Table 1. Ceiling Concentrations

Pollutant	Ceiling concentrations (milligrams per kilogram) (1)
Arsenic	75.0
Cadmium	85.0
Chromium	3000.0
Copper	4300.0
Lead	840.0
Mercury	57.0
Molybdenum	75.0
Nickel	420.0
Selenium	100.0
Zinc	7500.0

(1) Dry-weight basis.

Table 2. Monthly Average Pollutant Concentrations

Pollutant	Concentration limits (milligrams per kilogram) (1)
Arsenic	41.0
Cadmium	39.0
Copper	1500.0
Lead	300.0
Mercury	17.0
Nickel	420.0
Selenium	100.0
Zinc	2800.0

(1) Dry-weight basis.

Table 3. Annual Pollutant Loading Rates

Pollutant	Annual pollutant loading rates (in kilograms per hectare)
Arsenic	2.0
Cadmium	1.9
Copper	75.0
Lead	15.0
Mercury	0.85
Nickel	21.0
Selenium	5.0
Zinc	140.0

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

New Section recodified from R18-13-1505 at 7 A.A.R. 2522, effective May 24, 2001 (Supp. 01-2). Amended by final rulemaking at 7 A.A.R. 5879, effective December 7, 2001 (Supp. 01-4). Amended by final rulemaking at 8 A.A.R. 4923, effective January 5, 2003 (Supp. 02-4).

R18-9-1006. Class A and Class B Pathogen Reduction Requirements

- A.** An applicator shall ensure that all biosolids applied to land meet Class A or Class B pathogen reduction requirements at the time the biosolids are:
1. Placed on an active sewage sludge unit unless the biosolids are covered with soil or other material at the end of each operating day, or
 2. Land applied.
- B.** Biosolids that are sold or given away in a bag or other container for land application, or that are applied on a lawn or home garden, shall meet the Class A pathogen reduction requirements established in subsection (D).
- C.** Land on which biosolids with Class B pathogen reduction requirements are applied is subject to the use restrictions established in R18-9-1009.
- D.** Biosolids satisfy the Class A pathogen reduction requirements when the density of fecal coliform is less than 1000 Most Probable Number per gram of total solids (dry-weight basis), or the density of *Salmonella sp.* bacteria is less than three Most Probable Number per four grams of total solids (dry-weight basis), and any one of the following alternative pathogen treatment options is used:
1. Alternative 1. The pathogen treatment process meets one of the following time and temperature requirements:
 - a. When the percent solids of the biosolids are seven percent or greater, the temperature of the biosolids shall be held at 50° C or higher for at least 20 minutes. The temperature and time period is determined using the equation in subsection (D)(1)(b), except when small particles of the biosolids are heated by either warmed gases or an immiscible liquid;
 - b. When the percent solids of the biosolids are seven percent or greater, and small particles of the biosolids are heated by either warmed gases or an immiscible liquid, a temperature of 50° C or higher shall be held for 15 seconds or longer. The temperature and time period is determined using the following equation:

$$D = \frac{131,700,000}{10^{[0.1400t]}}$$

D = time in days, and

t = temperature in degrees Celsius;

- c. When the percent solids of the biosolids are less than seven percent, the temperature of the biosolids is 50° C or higher and the time period is 30 minutes or longer. The temperature and time period shall be determined using the following equation:

$$D = \frac{50,070,000}{10^{[0.1400t]}}$$

D = time in days, and

t = temperature in degrees Celsius; or

- d. When the percent solids of the biosolids are less than seven percent, and the time of heating is at least 15 seconds, but less than 30 minutes, the time and temperature is determined using the following equation:

$$D = \frac{131,700,000}{10^{[0.1400t]}}$$

D = time in days, and

t = temperature in degrees Celsius.

2. Alternative 2. The pathogen treatment process meets all the following parameters:
 - a. The pH of the quantity of biosolids treated is raised to 12 or higher and held at least 72 hours;
 - b. During the period that the pH is above 12, the temperature of the biosolids is held above 52° C for at least 12 hours; and
 - c. At the end of the 72-hour period during which the pH is above 12, the biosolids are air dried to achieve a percent solids in the biosolids greater than 50%.
3. Alternative 3. The following conditions are met:
 - a. The biosolids, before pathogen treatment and until the next monitoring event, have an enteric virus density less than one plaque-forming unit for four grams of total solids (dry-weight basis);
 - b. The biosolids, before pathogen treatment and until the next monitoring event, have a viable helminth ova density less than one for four grams of total solids (dry-weight basis); and
 - c. Once the density requirements in subsections (D)(3)(a) and (D)(3)(b) are consistently met after pathogen treatment and the values and ranges of the pathogen treatment process used are documented, the biosolids continue to be Class A with respect to enteric viruses and viable helminth ova when the values for the pathogen treatment process operating parameters are consistent with the previously documented values or ranges of values.
4. Alternative 4. The following requirements are met at the time the biosolids are used or disposed or at the time the biosolids are prepared for sale or given away in a bag or other container for application to the land:
 - a. The biosolids have an enteric virus density less than one plaque-forming unit for four grams of total solids (dry-weight basis), and
 - b. The biosolids have a viable helminth ova density less than one for four grams of total solids (dry-weight basis).
5. Alternative 5. Composting.

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

- a. Use either the within-vessel or the static-aerated-pile composting method, maintaining the temperature of the biosolids at 55° C or higher for three days; or
 - b. Use the windrow composting method, maintaining the temperature of the biosolids at 55° C or higher for at least 15 days. The windrow shall be turned at least five times when the compost is maintained at 55° C or higher.
6. Alternative 6. Heat drying. The biosolids are dried by direct or indirect contact with hot gases to reduce the moisture content to 10% or lower by weight. During the process:
 - a. The temperature of the sewage sludge particles shall exceed 80° C, or
 - b. The wet bulb temperature of the gas as the biosolids leave the dryer shall exceed 80° C.
 7. Alternative 7. Heat treatment. The quantity of liquid biosolids treated are heated to a temperature of 180° C or higher for at least 30 minutes.
 8. Alternative 8. Thermophilic aerobic digestion. Liquid biosolids are agitated with air or oxygen to maintain aerobic conditions and the mean cell residence time of the biosolids is 10 days at 55° to 60° C.
 9. Alternative 9. Beta ray irradiation. Biosolids are irradiated with beta rays from an accelerator at dosages of at least 1.0 megarad at room temperature (approximately 20° C).
 10. Alternative 10. Gamma ray irradiation. Biosolids are irradiated with gamma rays from certain isotopes, such as ⁶⁰Cobalt and ¹³⁷Cesium at dosages of at least 1.0 megarad at room temperature (approximately 20° C).
 11. Alternative 11. Pasteurization. The temperature of the biosolids is maintained at 70° C or higher for at least 30 minutes.
 12. Alternative 12. The Director shall approve another process if the process is equivalent to a Process to Further Reduce Pathogens specified in subsections (D)(5) through (D)(11), as determined by the EPA Pathogen Equivalency Committee.
- E. Biosolids satisfy the Class B pathogen reduction requirements when the biosolids meet any one of the following options:
1. Alternative 1. The geometric mean of the density of fecal coliform in seven representative samples is less than either 2,000,000 Most Probable Number per gram of total solids (dry-weight basis), or 2,000,000 colony forming units per gram of total solids (dry-weight basis);
 2. Alternative 2. Air drying. The biosolids are dried on sand beds or paved or unpaved basins for at least three months. During at least two of the three months, the ambient average daily temperature is above 0° C;
 3. Alternative 3. Lime stabilization. Sufficient lime is added to the biosolids to raise the pH of the biosolids to 12 after at least two hours of contact;
 4. Alternative 4. Aerobic digestion. The biosolids are agitated with air or oxygen to maintain aerobic conditions for a specific mean cell residence time at a specific temperature between 40 days at 20° C and 60 days at 15° C;
 5. Alternative 5. Anaerobic digestion. The biosolids are treated in the absence of air for a specific mean cell residence time at a specific temperature between 15 days at 35° C to 55° C and 60 days at 20° C;
 6. Alternative 6. Composting. Using the within-vessel, static-aerated-pile or windrow composting methods, the temperature of the biosolids is raised to 40° C or higher for five consecutive days. For at least four hours during the five days, the temperature in the compost pile exceeds 55° C; or
 7. Alternative 7. The Director shall approve another process if it is equivalent to a Process to Significantly Reduce Pathogens specified in subsections (E)(2) through (E)(6), as determined by the EPA Pathogen Equivalency Committee.

Historical Note

New Section recodified from R18-13-1506 at 7 A.A.R. 2522, effective May 24, 2001 (Supp. 01-2). Amended by final rulemaking at 7 A.A.R. 5879, effective December 7, 2001 (Supp. 01-4). Amended by final rulemaking at 8 A.A.R. 4923, effective January 5, 2003 (Supp. 02-4).

R18-9-1007. Management Practices and General Requirements

- A. An applicator of bulk biosolids that are not exceptional quality biosolids shall comply with the following management practices at each land application site, except a site where bulk biosolids are applied for reclamation. The applicator shall not:
1. Apply bulk biosolids to soil with a pH less than 6.5 at the time of the application, unless the biosolids are treated under one of the procedures in subsections R18-9-1006(D)(2), R18-9-1006(E)(3), or R18-9-1010(A)(6), or the soil and biosolids mixture has a pH of 6.5 or higher immediately after land application;
 2. Apply bulk biosolids to land with slopes greater than 6%, unless the site is operating under an AZPDES permit or a permit issued under section 402 of the Clean Water Act (33 U.S.C. 1342);
 3. Apply bulk biosolids to land under the following conditions:
 - a. Bulk biosolids with Class A pathogen reduction. If the depth to groundwater is five feet (1.52 meters) or less;
 - b. Bulk biosolids with Class B pathogen reduction.
 - i. If the depth to groundwater is 10 feet (3.04 meters) or less; or
 - ii. To gravel, coarse or medium sands, or sands with less than 15% coarse fragments, if the depth to groundwater is 40 feet (12.2 meters) or less from the point of application of biosolids;
 4. Apply bulk biosolids to land that is 32.8 feet (10 meters) or less from navigable waters;
 5. Store or apply bulk biosolids closer than 1000 feet (305 meters) from a public or semi-public drinking water supply well or no closer than 250 feet (76.2 meters) from any other water well;
 6. Store or apply bulk biosolids within 25 feet (7.62 meters) of a public right-of-way or private property line unless the applicator receives permission to apply bulk biosolids from the land owner or lessee of the adjoining property;
 7. Apply bulk biosolids at an application rate greater than the agronomic rate of the vegetation or crop grown on the site;
 8. Apply domestic septage or any other bulk biosolids with less than 10% solids at a rate that exceeds the annual application rate, calculated in gallons per acre for a 365-day period by dividing the amount of nitrogen needed by the crop or vegetation grown on the land, in pounds per acre per 365-day period, by 0.0026;
 9. Apply bulk biosolids to land that is flooded, frozen, or snow-covered, so that the bulk biosolids enter a wetland or other navigable waters, except as provided in an AZPDES permit or a permit issued under section 402 of the Clean Water Act (33 U.S.C. 1342);

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

10. Apply any additional bulk biosolids before a crop is grown on the site if the site has received biosolids containing nitrogen at the equivalent of the agronomic rate appropriate for that crop;
 11. Exceed the irrigation needs of the crop of an application site;
 12. To minimize odors, apply bulk biosolids within 1000 feet (305 meters) of a dwelling unless the biosolids are injected or incorporated into the soil within 10 hours of being applied; or
 13. Store bulk biosolids within 1000 feet (305 meters) of a dwelling unless the applicator obtains permission from the dwelling owner or lessee to store the biosolids at a shorter distance from the dwelling. If the dwelling owner or lessee changes, the applicator shall obtain permission from the new dwelling owner or lessee to continue to store the bulk biosolids within 1000 feet of the dwelling or move the biosolids to a location at least 1000 feet from the dwelling.
- B.** If biosolids are placed in a bag or other container, the person who prepares the biosolids shall distribute a label or information sheet to the person receiving the material. This label or information sheet shall, at a minimum, contain the following information:
1. The identity and address of the person who prepared the biosolids;
 2. Instructions on the proper use of the material, including agronomic rates and an annual application rate that ensures that the annual pollutant rates established in R18-9-1005 are not exceeded; and
 3. A statement that application of biosolids to the land shall not exceed application rates described in the instructions on the label or information sheet.

Historical Note

New Section recodified from R18-13-1507 at 7 A.A.R. 2522, effective May 24, 2001 (Supp. 01-2). Amended by final rulemaking at 7 A.A.R. 5879, effective December 7, 2001 (Supp. 01-4). Amended by final rulemaking at 8 A.A.R. 4923, effective January 5, 2003 (Supp. 02-4).

R18-9-1008. Management Practices, Application of Biosolids to Reclamation Sites

- A.** An applicator of bulk biosolids that are not exceptional quality biosolids shall comply with the following management practices at each land application site where the bulk biosolids are applied for reclamation. The applicator shall not:
1. Apply bulk biosolids unless the soil and biosolids mixture has a pH of 5.0 or higher immediately after land application;
 2. Apply bulk biosolids to land with slopes greater than 6% unless:
 - a. The site is operating under an AZPDES permit or a permit issued under section 402 (33 U.S.C. 1342) or 404 (33 U.S.C. 1344) of the Clean Water Act;
 - b. The site is reclaimed as specified under A.R.S. Title 27, Chapter 5, and controls are in place to prevent runoff from leaving the application area; or
 - c. Runoff from the site does not reach navigable waters;
 3. Apply bulk biosolids to land under the following conditions:
 - a. Bulk biosolids with Class A pathogen reduction. To land if the depth to groundwater is 5 feet (1.52 meters) or less;
 - b. Bulk biosolids with Class B pathogen reduction.

- i. To land if the depth to groundwater is 10 feet (3.04 meters) or less; and
 - ii. To gravel, coarse or medium sands, or sands with less than 15% coarse fragments if the depth to groundwater is 40 feet (12.2 meters) or less from the point of application of biosolids;
4. Apply bulk biosolids to land that is 32.8 feet (10 meters) or less from navigable waters;
 5. Store or apply bulk biosolids closer than 1000 feet (305 meters) from a public or semi-public drinking water supply well, unless the applicator justifies and the Department approves a shorter distance, or apply bulk biosolids closer than 250 feet (76.2 meters) from any other water well;
 6. Store or apply bulk biosolids within 1000 feet (305 meters) of a public right-of-way or private property line unless the applicator receives permission to apply bulk biosolids from the land owner or lessee of the adjoining property;
 7. Exceed a total of 150 dry tons per acre to any portion of a reclamation site if bulk biosolids are applied;
 8. Apply bulk biosolids with less than 10% solids;
 9. Apply bulk biosolids to land that is flooded, frozen, or snow-covered so that the bulk biosolids enter a wetland or other navigable waters, except as provided in an AZPDES permit or a permit issued under section 402 (33 U.S.C. 1342) or 404 (33 U.S.C. 1344) of the Clean Water Act;
 10. Apply more water than necessary to control dust and establish vegetation; and
 11. Apply bulk biosolids within 1000 feet (305 meters) of a dwelling unless the biosolids are injected or incorporated into the soil within 10 hours of being applied.
 12. Store bulk biosolids within 1000 feet (305 meters) of a dwelling unless the applicator obtains permission from the dwelling owner or lessee to store the biosolids at a shorter distance from the dwelling. If the dwelling owner or lessee changes, the applicator shall obtain permission from the new dwelling owner or lessee to continue to store the bulk biosolids within 1000 feet of the dwelling or move the biosolids to a location at least 1000 feet from the dwelling.
- B.** The requirements of R18-9-1007(B) apply if biosolids placed in a bag or other container are used to reclaim a site.

Historical Note

New Section recodified from R18-13-1508 at 7 A.A.R. 2522, effective May 24, 2001 (Supp. 01-2). Former Section R18-9-1008 renumbered to R18-9-1009; new Section R18-9-1008 made by final rulemaking at 7 A.A.R. 5879, effective December 7, 2001 (Supp. 01-4). Amended by final rulemaking at 8 A.A.R. 4923, effective January 5, 2003 (Supp. 02-4).

R18-9-1009. Site Restrictions

- A.** The following site restrictions apply to land where biosolids, which do not meet the Class A pathogen reduction requirements established in R18-9-1006, are land-applied.
1. A person shall not:
 - a. Harvest food crop parts that touch the biosolids, or biosolids and soil mixture, but otherwise grow above the land's surface for 14 months following application;
 - b. Harvest food crop parts growing in or below the land's surface for 20 months following application if the biosolids remain unincorporated on the land's surface for four months or more;

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

- c. Harvest food crop parts growing in or below the land's surface for 38 months following application if the biosolids remain on the land's surface for less than four months before incorporation;
 - d. Harvest food, feed, and fiber crops for 30 days after application;
 - e. Graze animals on the land for 30 days after application; or
 - f. Harvest turf to be used at a public contact site or private residence for one year after application.
 - 2. A person shall restrict public access to:
 - a. Public contact sites for one year after application, and
 - b. Land with a low potential for public exposure for 30 days after application.
 - B. If the vector attraction reduction requirement is met using the method:
 - 1. In R18-9-1010(C)(1) or R18-9-1010(C)(2), the requirements of subsection (A) apply to domestic septage applied to agricultural land, forests, or reclamation sites; or
 - 2. In R18-9-1010(C)(3), the requirements of subsection (A)(1)(a) through (A)(1)(d) apply to domestic septage applied to agricultural land, forests, or reclamation sites.
 - C. Once application is completed at a site, the applicator shall, in writing, provide the land owner and lessee with the following information:
 - 1. The cumulative pollutant loading at the site if it is greater than or equal to 90% of the available site capacity established in Table 4 of R18-9-1005;
 - 2. Any restriction established in this Section that applies to the property and the nature of the restriction; and
 - 3. The signature of a responsible official of the applicator on this document that includes the following statement:
 "I certify under penalty of law, that the information is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for false representations, including fines and imprisonment."
 - D. The land owner or lessee shall provide each applicator with a signature indicating receipt of the site restriction statement.
- Historical Note**
- New Section recodified from R18-13-1509 at 7 A.A.R. 2522, effective May 24, 2001 (Supp. 01-2). Former Section R18-9-1009 renumbered to R18-9-1010; new Section R18-9-1009 renumbered from R18-9-1008 and amended by final rulemaking at 7 A.A.R. 5879, effective December 7, 2001 (Supp. 01-4).
- R18-9-1010. Vector Attraction Reduction**
- A. Except as provided in subsection (B), an applicator or person who prepares biosolids shall use one of the following vector attraction reduction procedures if biosolids are land-applied:
 - 1. Reducing the mass of volatile solids by a minimum of 38% using the calculation procedures established in "Environmental Regulations and Technology -- Control of Pathogens and Vector Attraction in Sewage Sludge," EPA/625/R-92-013, published by the U.S. Environmental Protection Agency, Cincinnati, Ohio 45268, 1999 edition. This material is incorporated by reference, does not include any later amendments or editions of the incorporated matter, and is on file with the Department and the Office of the Secretary of State;
 - 2. If the 38% volatile solids reduction cannot be met for anaerobically digested biosolids the reduction can be met by digesting a portion of the previously digested material anaerobically in a laboratory in a bench-scale unit for 40 additional days at a temperature between 30° C and 37° C. Vector attraction reduction is achieved if, at the end of the 40 days, the volatile solids in the material at the beginning of the period are reduced by less than 17%;
 - 3. If the 38% volatile solids reduction cannot be met for aerobically digested biosolids, the reduction can be met by digesting a portion of the previously digested material, which has a percent solids of 2% or less, aerobically in a laboratory in a bench-scale unit for 30 additional days at 20° C. Vector attraction reduction is achieved if, at the end of the 30 days, the volatile solids in the material at the beginning of the period are reduced by less than 15%;
 - 4. Treat the biosolids in an aerobic process during which the specific oxygen uptake rate (SOUR) is equal to or less than 1.5 milligrams of oxygen per hour per gram of total solids (dry-weight basis) at 20° C;
 - 5. Treat the biosolids in an aerobic process for 14 days or longer, during which the temperature of the biosolids is higher than 40° C and the average temperature of the biosolids is higher than 45° C;
 - 6. Raising the pH of the biosolids to 12 or higher by alkali addition and, without the addition of more alkali, remain at 12 or higher for two hours and at 11.5 or higher for an additional 22 hours;
 - 7. The percent solids of the biosolids that do not contain unstabilized solids generated in a primary wastewater treatment process is equal to or greater than 75% based on the moisture content and total solids before mixing with other materials;
 - 8. The percent solids of the biosolids containing unstabilized solids generated in a primary wastewater treatment process are equal to or greater than 90% based on the moisture content and total solids before mixing with other materials;
 - 9. Injecting the biosolids below the surface of the land so that no significant amount of biosolids is present on the land surface one hour after injection. If the biosolids meet Class A pathogen reduction, injection shall occur within eight hours after being discharged from a Class A pathogen treatment process; or
 - 10. Incorporating the biosolids into the soil within six hours after application. If the biosolids meet Class A pathogen reduction, application shall occur within eight hours after being discharged from a Class A pathogen treatment process.
 - B. Biosolids that are sold or given away in a bag or other container, or are applied to a lawn or home garden, shall meet one of the vector attraction reduction alternatives established in subsections (A)(1) through (A)(8).
 - C. For domestic septage, vector attraction reduction is met by one of the following methods:
 - 1. By injecting as specified in subsection (A)(9);
 - 2. By incorporating as specified in subsection (A)(10); or
 - 3. By raising the pH of the domestic septage to 12 or higher through the addition of alkali and, without the addition of more alkali, holding the pH at 12 or higher for at least 30 minutes.
- Historical Note**
- New Section recodified from R18-13-1510 at 7 A.A.R. 2522, effective May 24, 2001 (Supp. 01-2). Former Section R18-9-1010 renumbered to R18-9-1011; new Section R18-9-1010 renumbered from R18-9-1009 and amended by final rulemaking at 7 A.A.R. 5879, effective

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

December 7, 2001 (Supp. 01-4).

R18-9-1011. Transportation

- A. A transporter of bulk biosolids into and within Arizona shall use covered trucks, trailers, rail-cars, or other vehicles that are leakproof.
- B. A transporter of bulk biosolids in liquid or semisolid form, including domestic septage, into and within Arizona shall comply with the requirements in A.A.C. R18-13-310. A transporter of bulk biosolids in solid form into and within Arizona shall comply with the requirements in A.A.C. R18-13-310.
- C. A transporter of biosolids shall clean any truck, trailer, rail-car, or other vehicle used to transport biosolids to prevent odors or insect breeding. A transporter shall clean any tank vessel used to transport commercial or industrial septage or restaurant grease-trap wastes, that is also used to haul domestic septage, before loading the domestic septage to ensure that mixing of wastes does not occur.
- D. If bulk biosolids are spilled while being transported, the transporter shall:
 1. Immediately pick up any spillage, including any visibly discolored soil, unless otherwise determined by the Department on a case-by-case basis;
 2. Within 24 hours after the spill, notify the Department of the spill and submit written notification of the spill within seven days. The written notification shall include the location of the spill, the reason it occurred, the amount of biosolids spilled, and the steps taken to clean up the spill.

Historical Note

New Section recodified from R18-13-1511 at 7 A.A.R. 2522, effective May 24, 2001 (Supp. 01-2). Former Section R18-9-1011 renumbered to R18-9-1012; new Section R18-9-1011 renumbered from R18-9-1010 and amended by final rulemaking at 7 A.A.R. 5879, effective December 7, 2001 (Supp. 01-4). Amended by final rulemaking at 8 A.A.R. 4923, effective January 5, 2003 (Supp. 02-4). A.C.C. citation corrected in subsection (B) at the request of the Department; Office file number M16-185 (Supp. 16-3).

R18-9-1012. Self-monitoring

- A. Except as provided in subsection (B) the person who prepares the biosolids shall conduct self-monitoring events at the frequency listed in Table 5 for the pollutants listed in R18-9-1005, the pathogen reduction in R18-9-1006 and the vector attraction reduction requirements in R18-9-1010.

Table 5. Frequency of Self-monitoring

Amount of biosolids prepared (tons/metric tons per 365-day period ⁽¹⁾)	Frequency
Greater than zero but less than 319.6/290	Once per year
Equal to or greater than 319.6/290 but less than 1,653/1,500	Once per quarter (Four times per year)
Equal to or greater than 1,653/1,500 but less than 16,530/15,000	Once per 60 days (Six times per year)
Equal to or greater than 16,530/15,000	Once per month (12 times per year)

(1) The amount of biosolids prepared in a calendar year (dry-weight basis).

- B. If biosolids are stockpiled or lagooned, the person shall sample the biosolids for pathogen and vector attraction reduction before land application. A person shall sample in a manner that is representative of the entire stockpile or lagoon.

- C. A person who prepares biosolids shall submit additional or more frequent biosolids samples, collected and analyzed during the reporting period, to the Department with the regularly-scheduled data required in subsection (A).
- D. The Department may order the person who prepares biosolids or the applicator to collect and analyze additional samples to measure pollutants of concern other than those established in Table 1 of R18-9-1005.
- E. The applicator, person who prepares biosolids, or a person collecting samples for the applicator or preparer for analysis shall obtain the samples in a manner that does not compromise the integrity of the sample, sample method, or sampling instrument and shall be representative of the quality of the biosolids being applied during the reporting period.
- F. A person responsible for sampling the biosolids shall track biosolids samples using a chain-of-custody procedure that documents each person in control of the sample from the time it was collected through the time of analysis.
- G. The person who prepares biosolids or the applicator shall ensure that the biosolids samples are analyzed as specified by the analytical methods established in 40 CFR 503.8, July 1, 2001 edition, or by the wastewater sample methods and solid, liquid, and hazardous waste sample methods established in A.A.C. R9-14-612 and R9-14-613. The person who prepares the biosolids or the applicator shall ensure that the biosolids analyses are performed at a laboratory operating in compliance with A.R.S. § 36-495 et seq. The information in 40 CFR 503.8 is incorporated by reference, does not include any later amendments or editions of the incorporated matter and is on file with the Department and the Office of the Secretary of State.
- H. The person who prepares the biosolids or the applicator shall monitor pathogen and vector attraction reduction treatment operating parameters, such as time and temperature, shall be monitored on a continual basis.
- I. An applicator shall conduct and record monitoring of each site for the management practices established in R18-9-1007 and R18-9-1008.
- J. A person shall maintain, as specified in R18-9-1013, and report to the Department as specified in R18-9-1014, all compliance measurements, including the analysis of pollutant concentrations.

Historical Note

New Section recodified from R18-13-1512 at 7 A.A.R. 2522, effective May 24, 2001 (Supp. 01-2). Former Section R18-9-1012 renumbered to R18-9-1013; new Section R18-9-1012 renumbered from R18-9-1011 and amended by final rulemaking at 7 A.A.R. 5879, effective December 7, 2001 (Supp. 01-4).

R18-9-1013. Recordkeeping

- A. A person who prepares biosolids shall collect and retain the following information for at least five years:
 1. The date, time, and method used for each sampling activity and the identity of the person collecting the sample;
 2. The date, time, and method used for each sample analysis and the identity of the person conducting the analysis;
 3. The results of all analyses of pollutants regulated under R18-9-1005 and organic and ammonium nitrogen to comply with R18-9-1007(A)(7);
 4. The results of all pathogen density analyses and applicable descriptions of the methods used for pathogen treatment in R18-9-1006;
 5. A description of the methods used, if any, and the operating values and ranges observed in any pre-land application, vector attraction reduction activities required in R18-9-1010(A); and

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

6. For the records described in subsections (A)(1) through (A)(5), the following certification statement signed by a responsible official of the person who prepares the biosolids:
- “I certify, under penalty of law, that the pollutant analyses and the description of pathogen treatment and vector attraction reduction activities have been made under my direction and supervision and under a system designed to ensure that qualified personnel properly gather and evaluate the information used to determine whether the applicable biosolids requirements have been met. I am aware that there are significant penalties for false certification including the possibility of fine and imprisonment.”
- B.** An applicator of bulk biosolids, except exceptional quality biosolids, shall collect the following information for each land application site, and, except as indicated in subsection (B)(6), shall retain this information for at least five years:
1. The location of each site, by either street address or latitude and longitude;
 2. The number of acres or hectares;
 3. The date and time the biosolids were applied;
 4. The amount of biosolids (in dry metric tons);
 5. The biosolids loading rates for domestic septage and other biosolids with less than 10 percent solids in tons or kilograms of biosolids per acre or hectare and in gallons per acre and the biosolids loading rates for other biosolids in tons or kilograms of biosolids per acre or hectare;
 6. The cumulative pollutant levels of each regulated pollutant (in tons or kilograms per acre or hectare). The applicator shall retain these records permanently;
 7. The results of all pathogen density analyses and applicable descriptions of the methods used for pathogen treatment in R18-9-1006;
 8. A description of the activities and measures used to ensure compliance with the management practices in R18-9-1007 and R18-9-1008, including information regarding the amount of nitrogen required for the crop grown on each site;
 9. If vector attraction reduction was not met by the person who prepares the biosolids, a description of the vector attraction reduction activities used by the applicator to ensure compliance with the requirements in R18-9-1010;
 10. A description of any applicable site restriction imposed by in R18-9-1009 if biosolids with Class B pathogen reduction have been applied and documentation that the applicator has notified the land owner and lessee of these restrictions;
 11. For the records described in subsections (B)(1) through (B)(8), the following certification statement signed by a responsible official of the applicator of the biosolids:

“I certify, under penalty of law, that the information and descriptions, have been made under my direction and supervision and under a system designed to ensure that qualified personnel properly gather and evaluate the information used to determine whether the applicable biosolids requirements have been met. I am aware that there are significant penalties for false certification including the possibility of fine and imprisonment.”
 12. The information in subsections (A)(1) through (A)(6) if the person who prepares the biosolids is not located in this state.
- C.** All records required for retention under this Section are subject to periodic inspection and copying by the Department.
- D.** If there is unresolved litigation, including enforcement, concerning the activities documented by the records required in this Section, the period of record retention shall be extended pending final resolution of the litigation.

Historical Note

New Section recodified from R18-13-1513 at 7 A.A.R. 2522, effective May 24, 2001 (Supp. 01-2). Former Section R18-9-1013 renumbered to R18-9-1014; new Section R18-9-1013 renumbered from R18-9-1012 and amended by final rulemaking at 7 A.A.R. 5879, effective December 7, 2001 (Supp. 01-4). Amended by final rulemaking at 8 A.A.R. 4923, effective January 5, 2003 (Supp. 02-4).

R18-9-1014. Reporting

- A.** A person who prepares biosolids for application shall provide the applicator with the necessary information to comply with this Article including the concentration of pollutants listed in R18-9-1005 and the concentration of nitrogen in the biosolids.
- B.** A transporter shall report spills to the Department under R18-9-1011(D).
- C.** A bulk applicator of biosolids other than exceptional quality biosolids shall provide the land owner and lessee of land application sites with information on the concentrations of the pollutants listed in R18-9-1005 and loading rates of biosolids applied to that site, and any applicable site restrictions under R18-9-1009.
- D.** A bulk applicator of biosolids other than exceptional quality biosolids shall report to the Department if 90% or more of any cumulative pollutant loading rate has been used at a site.
- E.** On or before February 19 of each year, any person land-applying bulk biosolids that are not exceptional quality biosolids shall, by letter or on a form provided by the Department, report to the Department the following applicable information for the previous calendar year:
1. The actual sites used; and
 2. For each site used, the following information:
 - a. The amount of biosolids applied (in tons or kilograms per acre or hectare);
 - b. The application loading rates (in tons or kilograms per acre or hectare, and gallons per acre for domestic septage);
 - c. The concentrations of the pollutants listed in R18-9-1005 (in milligrams per kilogram of biosolids on a dry-weight basis);
 - d. The pathogen treatment methodologies used during the year and the results; and
 - e. The vector attraction reduction methodologies used during the year and the results.
- F.** On or before February 19 of each year, a person preparing biosolids in a Class I Sludge Management Facility, POTW with a design flow rate equal to or greater than one million gallons per day, or POTW that serves 10,000 people or more, that are applied to land, shall, by letter or on a form provided by the Department, report to the Department all the following applicable information regarding their activities during the previous calendar year:
1. The amount of biosolids received if the preparer purchased or received the biosolids from another preparer or source;
 2. The amount of biosolids produced (tons or kilograms);
 3. The amount of biosolids distributed;
 4. The concentrations of the pollutants listed in R18-9-1005 (in milligrams per kilogram of biosolids on a dry-weight basis);

CHAPTER 9. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER POLLUTION CONTROL

5. The pathogen treatment methodologies used during the year, including the results; and
 6. The vector attraction reduction methodologies used during the year, including the results.
- G.** All annual self-monitoring reports shall contain the following certification statement signed by a responsible official:
- "I certify, under penalty of law, that the information and descriptions, have been made under my direction and supervision and under a system designed to ensure that qualified personnel properly gather and evaluate the information used to determine whether the applicable biosolids requirements have been met. I am aware that there are significant penalties for false certification including the possibility of fine and imprisonment."

Historical Note

New Section recodified from R18-13-1514 at 7 A.A.R. 2522, effective May 24, 2001 (Supp. 01-2). Former Section R18-9-1014 renumbered to R18-9-1015; new Section R18-9-1014 renumbered from R18-9-1013 and amended by final rulemaking at 7 A.A.R. 5879, effective December 7, 2001 (Supp. 01-4). Amended by final rulemaking at 8 A.A.R. 4923, effective January 5, 2003 (Supp. 02-4).

R18-9-1015. Inspection

A person subject to this Article shall allow, during reasonable times, a representative of the Department to enter property subject to this Article, to:

1. Inspect all biosolids pathogen and vector treatment facilities, transportation vehicles, incinerators that fire sewage sludge, and land application sites to determine compliance with this Article;
2. Inspect and copy records prepared in accordance with this Article; and
3. Sample biosolids quality.

Historical Note

Renumbered from R18-9-1014 and amended by final rulemaking at 7 A.A.R. 5879, effective December 7, 2001 (Supp. 01-4). Amended by final rulemaking at 21 A.A.R.

751, effective July 4, 2015 (Supp. 15-2).

Appendix A. Procedures to Determine Annual Biosolids Application Rates

The following procedure determines the annual biosolids application rate (ABAR) that ensures that the annual pollutant loading rates in Table 3 of R18-9-1005 are not exceeded.

1. The relationship between the annual pollutant loading rate (APLR) for a pollutant and the ABAR is shown in the following equation.

$$APLR = C \times ABAR \times 0.001$$

APLR = Annual pollutant loading rate in kilograms of biosolids, per hectare, per 365-day period;
 C = Pollutant concentration in milligrams, per kilogram of total solids (dry-weight basis);
 ABAR = Annual biosolids application rate in metric tons, per hectare, per 365-day period (dry-weight basis); and
 0.001 = A conversion factor.
 metric ton = 1.102 short tons
 hectare = 2.471 acres

2. The ABAR is calculated using the following procedure:
 - a. Analyze a biosolids sample to determine a concentration for each of the pollutants listed in Table 3 of R18-9-1005; and
 - b. Using each of the pollutant concentrations from subsection (2)(a) and the APLRs from Table 3 of R18-9-1005, calculate a separate ABAR for each pollutant using the following equation:

$$ABAR = \frac{APLR}{C \times 0.001}$$

- c. The ABAR for biosolids is the lowest value calculated in under subsection (2)(b) for any pollutant.

Historical Note

New Appendix recodified from 18 A.A.C. 13, Article 15 at 7 A.A.R. 2522, effective May 24, 2001 (Supp. 01-2). Amended by final rulemaking at 7 A.A.R. 5879, effective December 7, 2001 (Supp. 01-4).

The release of this Chapter in Supp. 19-3 replaces Supp. 16-4, 1-63 pages

Please note that the Chapter you are about to replace may have rules still in effect after the publication date of this supplement. Therefore, all superseded material should be retained in a separate binder and archived for future reference.

PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), accepts state agency rule filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

RULES

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into titles. Titles are divided into chapters. A chapter includes state agency rules. Rules in chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each chapter.

First Quarter: January 1 - March 31

Second Quarter: April 1 - June 30

Third Quarter: July 1 - September 30

Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2019 is cited as Supp. 19-1.

Please note: The Office publishes by chapter, not by individual rule section. Therefore there might be only a few sections codified in each chapter released in a supplement. Historical notes at the end of a section provide an effective date and information when a rule was last updated.

AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate chapters of the *Administrative Code* in Supp. 18-1 to comply with A.R.S. § 41-1012(B) and A.R.S. § 5302(1), (2)(d) through (e), and (3)(d) through (e).

A certification verifies the authenticity of each *Code* chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority

note to make rules is often included at the beginning of a chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in a chapter can be found at the Secretary of State’s website, under Services-> Legislative Filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor’s notes at the beginning of a chapter provide information about rulemaking sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

EXEMPTIONS AND PAPER COLOR

At one time the office published exempt rules on either blue or green paper. Blue meant the authority of the exemption was given by the Legislature; green meant the authority was determined by a court order. In 2001 the Office discontinued publishing rules using these paper colors.

PERSONAL USE/COMMERCIAL USE

This chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

Rhonda Paschal, managing rules editor, assisted with the editing of this chapter.

Administrative Rules Division

The Arizona Secretary of State electronically publishes each A.A.C. Chapter with a digital certificate. The certificate-based signature displays the date and time the document was signed and can be validated in Adobe Acrobat Reader.

TITLE 18. ENVIRONMENTAL QUALITY

CHAPTER 11. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER QUALITY STANDARDS

ARTICLE 1. WATER QUALITY STANDARDS FOR SURFACE WATERS

Tables in Article 1, Appendix A have been updated and now include historical notes (Supp. 16-4).

Article 1, consisting of Appendices A through C, repealed April 24, 1996 (Supp. 96-2).

Article 1, consisting of Section R18-11-103, reserved effective April 24, 1996 (Supp. 96-2).

Article 1, consisting of Sections R18-11-105 and R18-11-106, and Appendices A and B, adopted April 24, 1996 (Supp. 96-2).

Article 1, consisting of Sections R18-11-101 and R18-11-102, R18-11-104, R18-11-107 through R18-11-109, R18-11-111 through R18-11-113, R18-11-115, R18-11-117 and R18-11-118, R18-11-120 and R18-11-121, amended effective April 24, 1996 (Supp. 96-2).

Article 1, consisting of Sections R18-11-101 through R18-11-121 and Appendices A through C, adopted effective February 18, 1992 (Supp. 92-1).

Article 1, consisting of Section R18-11-101, repealed effective February 18, 1992 (Supp. 92-1).

Article 1 consisting of Section R9-21-101 renumbered as Article 1, Section R18-11-101 (Supp. 87-3).

CHAPTER 11. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER QUALITY STANDARDS

ARTICLE 1. WATER QUALITY STANDARDS FOR SURFACE WATERS**R18-11-101. Definitions**

The following terms apply to this Article:

1. "Acute toxicity" means toxicity involving a stimulus severe enough to induce a rapid response. In aquatic toxicity tests, an effect observed in 96 hours or less is considered acute.
2. "Agricultural irrigation (AgI)" means the use of a surface water for crop irrigation.
3. "Agricultural livestock watering (AgL)" means the use of a surface water as a water supply for consumption by livestock.
4. "Annual mean" is the arithmetic mean of monthly values determined over a consecutive 12-month period, provided that monthly values are determined for at least three months. A monthly value is the arithmetic mean of all values determined in a calendar month.
5. "Aquatic and wildlife (cold water) (A&Wc)" means the use of a surface water by animals, plants, or other cold-water organisms, generally occurring at an elevation greater than 5000 feet, for habitation, growth, or propagation.
6. "Aquatic and wildlife (effluent-dependent water) (A&Wedw)" means the use of an effluent-dependent water by animals, plants, or other organisms for habitation, growth, or propagation.
7. "Aquatic and wildlife (ephemeral) (A&We)" means the use of an ephemeral water by animals, plants, or other organisms, excluding fish, for habitation, growth, or propagation.
8. "Aquatic and wildlife (warm water) (A&Ww)" means the use of a surface water by animals, plants, or other warm-water organisms, generally occurring at an elevation less than 5000 feet, for habitation, growth, or propagation.
9. "Arizona Pollutant Discharge Elimination System (AZPDES)" means the point source discharge permitting program established under 18 A.A.C. 9, Article 9.
10. "Assimilative capacity" means the difference between the baseline water quality concentration for a pollutant and the most stringent applicable water quality criterion for that pollutant.
11. "Clean Water Act" means the Federal Water Pollution Control Act [33 U.S.C. 1251 to 1387].
12. "Complete Mixing" means the location at which concentration of a pollutant across a transect of a surface water differs by less than five percent.
13. "Criteria" means elements of water quality standards that are expressed as pollutant concentrations, levels, or narrative statements representing a water quality that supports a designated use.
14. "Critical flow conditions of the discharge" means the hydrologically based discharge flow averages that the director uses to calculate and implement applicable water quality criteria to a mixing zone's receiving water as follows:
 - a. For acute aquatic water quality standard criteria, the discharge flow critical condition is represented by the maximum one-day average flow analyzed over a reasonably representative timeframe.
 - b. For chronic aquatic water quality standard criteria, the discharge flow critical flow condition is represented by the maximum monthly average flow analyzed over a reasonably representative timeframe.
 - c. For human health based water quality standard criteria, the discharge flow critical condition is the long-term arithmetic mean flow, averaged over several years so as to simulate long-term exposure.
15. "Critical flow conditions of the receiving water" means the hydrologically based receiving water low flow averages that the director uses to calculate and implement applicable water quality criteria:
 - a. For acute aquatic water quality standard criteria, the receiving water critical condition is represented as the lowest one-day average flow event expected to occur once every ten years, on average (1Q10).
 - b. For chronic aquatic water quality standard criteria, the receiving water critical flow condition is represented as the lowest seven-consecutive-day average flow expected to occur once every 10 years, on average (7Q10), or
 - c. For human health based water quality standard criteria, in order to simulate long-term exposure, the receiving water critical flow condition is the harmonic mean flow.
16. "Deep lake" means a lake or reservoir with an average depth of more than 6 meters.
17. "Designated use" means a use specified in Appendix B of this Article for a surface water.
18. "Domestic water source (DWS)" means the use of a surface water as a source of potable water. Treatment of a surface water may be necessary to yield a finished water suitable for human consumption.
19. "Effluent-dependent water (EDW)" means a surface water, classified under R18-11-113 that consists of a point source discharge of wastewater. An effluent-dependent water is a surface water that, without the point source discharge of wastewater, would be an ephemeral water.
20. "Ephemeral water" means a surface water that has a channel that is at all times above the water table and flows only in direct response to precipitation.
21. "Existing use" means a use attained in the waterbody on or after November 28, 1975, whether or not it is included in the water quality standards.
22. "Fish consumption (FC)" means the use of a surface water by humans for harvesting aquatic organisms for consumption. Harvestable aquatic organisms include, but are not limited to, fish, clams, turtles, crayfish, and frogs.
23. "Full-body contact (FBC)" means the use of a surface water for swimming or other recreational activity that causes the human body to come into direct contact with the water to the point of complete submergence. The use is such that ingestion of the water is likely and sensitive body organs, such as the eyes, ears, or nose, may be exposed to direct contact with the water.
24. "Geometric mean" means the nth root of the product of n items or values. The geometric mean is calculated using the following formula:

$$GM_Y = \sqrt[n]{(Y_1)(Y_2)(Y_3) \dots (Y_n)}$$
25. "Hardness" means the sum of the calcium and magnesium concentrations, expressed as calcium carbonate (CaCO₃) in milligrams per liter.
26. "Igneous lake" means a lake located in volcanic, basaltic, or granite geology and soils.
27. "Intermittent water" means a stream or reach that flows continuously only at certain times of the year, as when it receives water from a spring or from another surface source, such as melting snow.

CHAPTER 11. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER QUALITY STANDARDS

28. "Mixing zone" means an area or volume of a surface water that is contiguous to a point source discharge where dilution of the discharge takes place.
29. "Oil" means petroleum in any form, including crude oil, gasoline, fuel oil, diesel oil, lubricating oil, or sludge.
30. "Outstanding Arizona water (OAW)" means a surface water that is classified as an outstanding state resource water by the Director under R18-11-112.
31. "Partial-body contact (PBC)" means the recreational use of a surface water that may cause the human body to come into direct contact with the water, but normally not to the point of complete submergence (for example, wading or boating). The use is such that ingestion of the water is not likely and sensitive body organs, such as the eyes, ears, or nose, will not normally be exposed to direct contact with the water.
32. "Perennial water" means a surface water that flows continuously throughout the year.
33. "*Pollutant*" means fluids, contaminants, toxic wastes, toxic pollutants, dredged spoil, solid waste, substances and chemicals, pesticides, herbicides, fertilizers and other agricultural chemicals, incinerator residue, sewage, garbage, sewage sludge, munitions, petroleum products, chemical wastes, biological materials, radioactive materials, heat, wrecked or discarded equipment, rock, sand, cellar dirt, and mining, industrial, municipal, and agricultural wastes or any other liquid, solid, gaseous, or hazardous substance. A.R.S. § 49-201(29)
34. "Pollutant Minimization Program" means a structured set of activities to improve processes and pollutant controls that will prevent and reduce pollutant loadings.
35. "Practical quantitation limit" means the lowest level of quantitative measurement that can be reliably achieved during a routine laboratory operation.
36. "Reference condition" means a set of abiotic physical stream habitat, water quality, and site selection criteria established by the Director that describe the typical characteristics of stream sites in a region that are least disturbed by environmental stressors. Reference biological assemblages of macroinvertebrates and algae are collected from these reference condition streams for calculating the Arizona Indexes of Biological Integrity thresholds.
37. "Regional Administrator" means the Regional Administrator of Region IX of the U.S. Environmental Protection Agency.
38. "Regulated discharge" means a point-source discharge regulated under an AZPDES permit, a discharge regulated by a § 404 permit, and any discharge authorized by a federal permit or license that is subject to state water quality certification under § 401 of the Clean Water Act.
39. "Riffle habitat" means a stream segment where moderate water velocity and substrate roughness produce moderately turbulent conditions that break the surface tension of the water and may produce breaking wavelets that turn the surface water into white water.
40. "Run habitat" means a stream segment where there is moderate water velocity that does not break the surface tension of the water and does not produce breaking wavelets that turn the surface water into white water.
41. "Sedimentary lake" means a lake or reservoir in sedimentary or karst geology and soils.
42. "Shallow lake" means a lake or reservoir, excluding an urban lake, with a smaller, flatter morphology and an average depth of less than 3 meters and a maximum depth of less than 4 meters.
43. "Significant degradation" means:
 - a. The consumption of 20 percent or more of the available assimilative capacity for a pollutant of concern at critical flow conditions, or
 - b. Any consumption of assimilative capacity beyond the cumulative cap of 50 percent of assimilative capacity.
44. "Surface water" means "Navigable waters" as defined in A.R.S. § 49-201(22).
45. "Total nitrogen" means the sum of the concentrations of ammonia (NH₃), ammonium ion (NH₄⁺), nitrite (NO₂), and nitrate (NO₃), and dissolved and particulate organic nitrogen expressed as elemental nitrogen.
46. "Total phosphorus" means all of the phosphorus present in a sample, regardless of form, as measured by a persulfate digestion procedure.
47. "Toxic" means a pollutant or combination of pollutants, that after discharge and upon exposure, ingestion, inhalation, or assimilation into an organism, either directly from the environment or indirectly by ingestion through food chains, may cause death, disease, behavioral abnormalities, cancer, genetic mutations, physiological malfunctions (including malfunctions in reproduction), or physical deformations in the organism or its offspring.
48. "Urban lake" means a manmade lake within an urban landscape.
49. "Use attainability analysis" means a structured scientific assessment of the factors affecting the attainment of a designated use including physical, chemical, biological, and economic factors.
50. "Variance" means a time-limited designated use and criterion for a specific pollutant(s) or water quality parameter(s) that reflect the highest attainable condition during the term of the variance.
51. "Wadeable" means a surface water can be safely crossed on foot and sampled without a boat.
52. "Wastewater" does not mean:
 - a. Stormwater,
 - b. Discharges authorized under the De Minimus General Permit,
 - c. Other allowable non-stormwater discharges permitted under the Construction General Permit or the Multi-sector General Permit, or
 - d. Stormwater discharges from a municipal storm sewer system (MS4) containing incidental amounts of non-stormwater that the MS4 is not required to prohibit.
53. "Wetland" means an area that is inundated or saturated by surface or groundwater at a frequency and duration sufficient to support, and that under normal circumstances does support, a prevalence of vegetation typically adapted for life in saturated soil conditions. A wetland includes a swamp, marsh, bog, cienega, tinaja, and similar areas.
54. "Zone of initial dilution" means a small area in the immediate vicinity of an outfall structure in which turbulence is high and causes rapid mixing with the surrounding water.

Historical Note

Former Section R9-21-101 repealed, new Section R9-21-101 adopted effective January 29, 1980 (Supp. 80-1).
 Amended effective April 17, 1984 (Supp. 84-2).
 Amended effective January 7, 1985 (Supp. 85-1).
 Amended by adding subsection (C) effective August 12, 1986 (Supp. 86-4). Former Section R9-21-101 renumbered without change as Section R18-11-101 (Supp. 87-3). Former Section R18-11-101 repealed, new Section

CHAPTER 11. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER QUALITY STANDARDS

R18-11-101 adopted effective February 18, 1992 (Supp. 92-1). Amended effective April 24, 1996 (Supp. 96-2). Deleted first definition to R18-11-101(32) "Navigable Water", previously printed in error (Supp. 96-3). Amended by final rulemaking at 8 A.A.R. 1264, effective March 8, 2002 (Supp. 02-1). Amended by final rulemaking at 9 A.A.R. 716, effective April 8, 2003 (Supp. 03-1). Amended by final rulemaking at 14 A.A.R. 4708, effective January 31, 2009 (Supp. 08-4). Amended by final rulemaking at 25 A.A.R. 2515, effective November 9, 2019 (Supp. 19-3).

R18-11-102. Applicability

- A. The water quality standards prescribed in this Article apply to surface waters.
- B. The water quality standards prescribed in this Article do not apply to the following:
 1. A waste treatment system, including an impoundment, pond, lagoon, or constructed wetland that is a part of the waste treatment system;
 2. A man-made surface impoundment and any associated ditch and conveyance used in the extraction, beneficiation, or processing of metallic ores that is not a surface water or is located in an area that once was a surface water but is no longer a surface water because it has been and remains legally converted, including:
 - a. A pit,
 - b. Pregnant leach solution pond,
 - c. Raffinate pond,
 - d. Tailing impoundment,
 - e. Decant pond,
 - f. Pond or a sump in a mine pit associated with dewatering activity,
 - g. Pond holding water that has come into contact with a process or product and that is being held for recycling,
 - h. Spill or upset catchment pond, or
 - i. A pond used for onsite remediation;
 3. A man-made cooling pond that is neither created in a surface water nor results from the impoundment of a surface water; or
 4. A surface water located on tribal lands.

Historical Note

Adopted effective February 18, 1992 (Supp. 92-1).
 Amended effective April 24, 1996 (Supp. 96-2).
 Amended by final rulemaking at 8 A.A.R. 1264, effective March 8, 2002 (Supp. 02-1). Amended by final rulemaking at 14 A.A.R. 4708, effective January 31, 2009 (Supp. 08-4).

R18-11-103. Repealed**Historical Note**

Adopted effective February 18, 1992 (Supp. 92-1).
 Repealed effective April 24, 1996 (Supp. 96-2).

R18-11-104. Designated Uses

- A. The Director shall adopt or remove a designated use or subcategory of a designated use by rule.
- B. Designated uses of a surface water may include full-body contact, partial-body contact, domestic water source, fish consumption, aquatic and wildlife (cold water), aquatic and wildlife (warm water), aquatic and wildlife (ephemeral), aquatic and wildlife (effluent-dependent water), agricultural irrigation, and agricultural livestock watering. The designated uses for specific surface waters are listed in Appendix B of this Article.

- C. Numeric water quality criteria to maintain and protect water quality for the designated uses are prescribed in Appendix A, R18-11-109, R18-11-110, and R18-11-112. Narrative water quality standards to protect all surface waters are prescribed in R18-11-108.
- D. If a surface water has more than one designated use listed in Appendix B, the most stringent water quality criterion applies.
- E. The Director shall revise the designated uses of a surface water if water quality improvements result in a level of water quality that permits a use that is not currently listed as a designated use in Appendix B.
- F. In designating uses of a surface water and in establishing water quality criteria to protect the designated uses, the Director shall take into consideration the applicable water quality standards for downstream surface waters and shall ensure that the water quality standards that are established for an upstream surface water also provide for the attainment and maintenance of the water quality standards of downstream surface waters.
- G. A use attainability analysis shall be conducted prior to removal of a designated use or adoption of a subcategory of a designated use that requires less stringent water quality criteria.
- H. The Director may remove a designated use or adopt a subcategory of a designated use that requires less stringent water quality criteria, provided the designated use is not an existing use and it is demonstrated through a use attainability analysis that attaining the designated use is not feasible for any of the following reasons:
 1. A naturally-occurring pollutant concentration prevents the attainment of the use;
 2. A natural, ephemeral, intermittent, or low-flow condition or water level prevents the attainment of the use;
 3. A human-caused condition or source of pollution prevents the attainment of the use and cannot be remedied or would cause more environmental damage to correct than to leave in place;
 4. A dam, diversion, or other type of hydrologic modification precludes the attainment of the use, and it is not feasible to restore the surface water to its original condition or to operate the modification in a way that would result in attainment of the use;
 5. A physical condition related to the natural features of the surface water, such as the lack of a proper substrate, cover, flow, depth, pools, riffles, and the like, unrelated to water quality, precludes attainment of an aquatic life designated use; or
 6. Controls more stringent than those required by § 301 (b) and § 306 of the Clean Water Act [33 U.S.C. § 1311 and § 1316] are necessary to attain the use and implementation of the controls would result in substantial and widespread economic and social impact.

Historical Note

Adopted effective February 18, 1992 (Supp. 92-1).
 Amended effective April 24, 1996 (Supp. 96-2).
 Amended by final rulemaking at 8 A.A.R. 1264, effective March 8, 2002 (Supp. 02-1).

R18-11-105. Tributaries; Designated Uses

The following water quality standards apply to a surface water that is not listed in Appendix B but that is a tributary to a listed surface water.

1. The aquatic and wildlife (ephemeral) and partial-body contact standards apply to an unlisted tributary that is an ephemeral water.
2. The aquatic and wildlife (cold water), full-body contact, and fish consumption standards apply to an unlisted tributary that is a perennial or intermittent surface water and is above 5000 feet in elevation.

CHAPTER 11. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER QUALITY STANDARDS

3. The aquatic and wildlife (warm water), full-body contact, and fish consumption standards apply to an unlisted tributary that is a perennial or intermittent surface water and is below 5000 feet in elevation.

Historical Note

Adopted effective April 24, 1996 (Supp. 96-2). Section heading amended per instructions of the Department of Environmental Quality, August 9, 1996 (Supp. 96-3). Amended by final rulemaking at 8 A.A.R. 1264, effective March 8, 2002 (Supp. 02-1).

R18-11-106. Net Ecological Benefit

- A. The Director may, by rule, modify a water quality standard on the ground that there is a net ecological benefit associated with the discharge of effluent to support or create a riparian and aquatic habitat in an area where water resources are limited. The Director may modify a water quality standard for a pollutant if it is demonstrated that:
 1. The discharge of effluent creates or supports an ecologically valuable aquatic, wetland, or riparian ecosystem in an area where these resources are limited;
 2. The ecological benefits associated with the discharge of effluent under a modified water quality standard exceed the environmental costs associated with the elimination of the discharge of effluent;
 3. The cost of treatment to achieve compliance with a water quality standard is so high that it is more cost effective to eliminate the discharge of effluent to the surface water. The discharger shall demonstrate that it is feasible to eliminate the discharge of effluent that creates or supports the ecologically valuable aquatic, wetland, or riparian ecosystem;
 4. The discharge of effluent to the surface water will not cause or contribute to a violation of a water quality standard that has been established for a downstream surface water;
 5. All practicable point source discharge control programs, including local pretreatment, waste minimization, and source reduction programs are implemented; and
 6. The discharge of effluent does not produce or contribute to the concentration of a pollutant in the tissues of aquatic organisms or wildlife that is likely to be harmful to humans or wildlife through food chain concentration.
- B. The Director shall not modify a water quality criterion for a pollutant to be less stringent than a technology-based effluent limitation that applies to the discharge of that effluent. The discharge of effluent shall, at a minimum, comply with applicable technology-based effluent limitations.

Historical Note

Adopted effective April 24, 1996 (Supp. 96-2). Amended by final rulemaking at 8 A.A.R. 1264, effective March 8, 2002 (Supp. 02-1). Amended by final rulemaking at 22 A.A.R. 2328, effective August 2, 2016 (Supp. 16-4).

R18-11-107. Antidegradation

- A. The Director shall, using R18-11-107.01 and this Section, determine whether there is degradation of water quality in a surface water on a pollutant-by-pollutant basis.
- B. Tier 1: The level of water quality necessary to support an existing use shall be maintained and protected. No degradation of existing water quality is permitted in a surface water where the existing water quality does not meet the applicable water quality standards.
- C. Tier 2: Where existing water quality in a surface water is better than the applicable water quality standard the existing water quality shall be maintained and protected. The Director may

allow degradation of existing water quality in the surface water, if the Director makes all of the following findings:

1. The water quality necessary for existing uses is fully protected and water quality is not lowered to a level that does not comply with applicable water quality standards,
 2. The highest statutory and regulatory requirements for new and existing point sources are achieved,
 3. All cost-effective and reasonable best management practices for nonpoint source pollution control are implemented, and
 4. Allowing lower water quality is necessary to accommodate important economic or social development in the area where the surface water is located.
- D. Tier 3: Existing water quality shall be maintained and protected in a surface water that is classified as an OAW under R18-11-112. Degradation of an OAW under subsection (C) is prohibited.
 - E. The Director shall implement this Section in a manner consistent with § 316 of the Clean Water Act [33 U.S.C. 1326] if a potential water quality impairment associated with a thermal discharge is involved.

Historical Note

Adopted effective February 18, 1992 (Supp. 92-1). Amended effective April 24, 1996 (Supp. 96-2). Amended by final rulemaking at 8 A.A.R. 1264, effective March 8, 2002 (Supp. 02-1). Amended by final rulemaking at 14 A.A.R. 4708, effective January 31, 2009 (Supp. 08-4).

R18-11-107.01. Antidegradation Criteria

- A. Tier 1 antidegradation protection.
 1. Tier 1 antidegradation protection applies to the following surface waters:
 - a. A surface water listed on the 303(d) list for the pollutant that resulted in the listing,
 - b. An effluent dependent water,
 - c. An ephemeral water,
 - d. An intermittent water, and
 - e. A canal listed in Appendix B.
 2. A regulated discharge shall not cause a violation of a surface water quality standard or a wasteload allocation in a total maximum daily load approved by EPA.
 3. Except as provided in subsections (E) and (F), Tier 1 antidegradation review requirements are satisfied for a point-source discharge regulated under an individual AZPDES permit to an ephemeral water, effluent dependent water, intermittent water, or a canal listed in Appendix B, if water quality-based effluent limitations designed to achieve compliance with applicable surface water quality standards are established in the permit and technology-based requirements of the Clean Water Act for the point source discharge are met.
- B. Tier 2 antidegradation protection.
 1. Tier 2 antidegradation protection applies to a perennial water with existing water quality that is better than applicable water quality standards. A perennial water that is not listed in subsection (A)(1) nor classified as an OAW under A.A.C. R18-9-112(G) has Tier 2 antidegradation protection for all pollutants of concern.
 2. A regulated discharge that meets the following criteria, at critical flow conditions, does not cause significant degradation:
 - a. The regulated discharge consumes less than 20 percent of the available assimilative capacity for each pollutant of concern, and

CHAPTER 11. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER QUALITY STANDARDS

- b. At least 50 percent of the assimilative capacity for each pollutant of concern remains available in the surface water for each pollutant of concern.
 3. Antidegradation review. Any person proposing a new or expanded regulated discharge under an individual AZPDES permit that may cause significant degradation shall provide ADEQ with the following information:
 - a. Baseline characterization. A person seeking authorization to discharge under an individual AZPDES permit to a perennial water shall provide baseline water quality data on pollutants of concern where no data exists or there are insufficient data to characterize baseline water quality and to determine available assimilative capacity. A discharger shall characterize baseline water quality at a location upstream of the proposed discharge location;
 - b. Alternative analysis.
 - i. The person seeking authorization for the discharge shall prepare and submit a written analysis of alternatives to the discharge. The analysis shall provide information on all reasonable, cost-effective, less-degrading or non-degrading discharge alternatives. Alternatives may include wastewater treatment process changes or upgrades, pollution prevention measures, source reduction, water reclamation, alternative discharge locations, groundwater recharge, land application or treatment, local pretreatment programs, improved operation and maintenance of existing systems, seasonal or controlled discharge to avoid critical flow conditions, and zero discharge;
 - ii. The alternatives analysis shall include cost information on base pollution control measures associated with the regulated discharge and cost information for each alternative;
 - iii. The person shall implement the alternative that is cost-effective and reasonable, results in the least degradation, and is approved by the Director. An alternative is cost-effective and reasonable if treatment costs associated with the alternative are less than a 10 percent increase above the cost of base pollution control measures;
 - iv. For purposes of this subsection, "base pollution control measures" are water pollution control measures required to meet technology-based requirements of the Clean Water Act and water quality-based effluent limits designed to achieve compliance with applicable water quality standards; and
 - c. Social and economic justification. The person shall demonstrate to the Director that significant degradation is necessary to accommodate important economic or social development in the local area. The person seeking authorization for the discharge shall prepare a written social and economic justification that includes a description of the following:
 - i. The geographic area where significant degradation of existing water quality will occur;
 - ii. The current baseline social and economic conditions in the local area;
 - iii. The net positive social and economic effects of development associated with the regulated discharge and allowing significant degradation;
 - iv. The negative social, environmental, and economic effects of allowing significant degradation of existing water quality; and
 - v. Alternatives to the regulated discharge that do not significantly degrade water quality yet may yield comparable social and economic benefits.
 4. For purposes of this Section, the term "pollutant of concern" means a pollutant with either a numeric or narrative water quality standard.
 5. Public participation. The Director shall provide public notice and an opportunity to comment on an antidegradation review under subsection (B)(3) and shall provide an opportunity for a public hearing under A.A.C. R18-9-A908(B).
- C. Tier 3 antidegradation protection.
 1. Tier 3 antidegradation protection applies only to an OAW listed in R18-11-112(G).
 2. A new or expanded point-source discharge directly to an OAW is prohibited.
 3. A person seeking authorization for a regulated discharge to a tributary to, or upstream of, an OAW shall demonstrate in a permit application or in other documentation submitted to ADEQ that the regulated discharge will not degrade existing water quality in the downstream OAW.
 4. A discharge regulated under a § 404 permit that may affect existing water quality of an OAW requires a determination by the Director to ensure that existing water quality is maintained and protected and any water quality impacts are temporary. Temporary water quality impacts are those impacts that occur for a period of six months or less and are not regularly occurring. The form of such a determination shall be as follows:
 - a. For Corps-issued § 404 permits, an individual § 401 water quality certification.
 - b. For Director-issued § 404 permits, a § 404 permit action, wherein the Director shall conduct a water quality evaluation as a part of the state's requirements for issuing § 404 permits and in accordance with this Section.
- D. Antidegradation review of a § 404 permit shall be conducted as follows:
 1. For a Corps-issued § 404 permit. The Director shall conduct the antidegradation review of any discharge authorized under a nationwide or regional § 404 permit as part of the § 401 water quality certification prior to issuance of the nationwide or regional permit. The Director shall conduct the antidegradation review of an individual § 404 permit if the discharge may degrade existing water quality in an OAW or a water listed on the 303(d) List of impaired waters. For regulated discharges that may degrade water quality in an OAW or a water that is on the 303(d) List of impaired waters, the Director shall conduct the antidegradation review as part of the § 401 water quality certification process.
 2. For a Director-issued § 404 permit. The Director shall conduct the antidegradation review of any discharge authorized under a general § 404 permit as a part of its determination whether to issue a general permit in accordance with state requirements for issuing a § 404 general permit and with this Section. The Director shall conduct the antidegradation review of an individual § 404 permit as part of the § 404 permit action in accordance with state requirements for issuing a § 404 permit and in accordance with this Section.
- E. Antidegradation review of an AZPDES stormwater permit. An individual stormwater permit for a municipal separate storm

CHAPTER 11. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER QUALITY STANDARDS

sewer system (MS4) meets antidegradation requirements if the permittee complies with the permit, including developing a stormwater management plan containing controls that reduce the level of pollutants in stormwater discharges to the maximum extent practicable.

- F. Antidegradation review of a general permit. The Director shall conduct the antidegradation review of a regulated discharge authorized by a general permit at the time the general permit is issued or renewed. A person seeking authorization to discharge under a general permit is not required to undergo an individual antidegradation review at the time the Notice of Intent is submitted unless the discharge may degrade existing water quality in an OAW or a water listed on the 303(d) List of impaired waters.

Historical Note

New Section made by final rulemaking at 14 A.A.R. 4708, effective January 31, 2009 (Supp. 08-4). Amended by final rulemaking at 25 A.A.R. 2515, effective November 9, 2019 (Supp. 19-3).

R18-11-108. Narrative Water Quality Standards

- A. A surface water shall not contain pollutants in amounts or combinations that:
1. Settle to form bottom deposits that inhibit or prohibit the habitation, growth, or propagation of aquatic life;
 2. Cause objectionable odor in the area in which the surface water is located;
 3. Cause off-taste or odor in drinking water;
 4. Cause off-flavor in aquatic organisms;
 5. Are toxic to humans, animals, plants, or other organisms;
 6. Cause the growth of algae or aquatic plants that inhibit or prohibit the habitation, growth, or propagation of other aquatic life or that impair recreational uses;
 7. Cause or contribute to a violation of an aquifer water quality standard prescribed in R18-11-405 or R18-11-406; or
 8. Change the color of the surface water from natural background levels of color.
- B. A surface water shall not contain oil, grease, or any other pollutant that floats as debris, foam, or scum; or that causes a film or iridescent appearance on the surface of the water; or that causes a deposit on a shoreline, bank, or aquatic vegetation. The discharge of lubricating oil or gasoline associated with the normal operation of a recreational watercraft is not a violation of this narrative standard.
- C. A surface water shall not contain a discharge of suspended solids in quantities or concentrations that interfere with the treatment processes at the nearest downstream potable water treatment plant or substantially increase the cost of handling solids produced at the nearest downstream potable water treatment plant.
- D. A surface water shall not contain solid waste such as refuse, rubbish, demolition or construction debris, trash, garbage, motor vehicles, appliances, or tires.
- E. A wadeable, perennial stream shall support and maintain a community of organisms having a taxa richness, species composition, tolerance, and functional organization comparable to that of a stream with reference conditions in Arizona.

Historical Note

Adopted effective February 18, 1992 (Supp. 92-1).
Amended effective April 24, 1996 (Supp. 96-2).
Amended by final rulemaking at 8 A.A.R. 1264, effective March 8, 2002 (Supp. 02-1). Amended by final rulemaking at 14 A.A.R. 4708, effective January 31, 2009 (Supp. 08-4).

R18-11-108.01. Narrative Biological Criteria for Wadeable, Perennial Streams

- A. The narrative biological criteria in this Section apply to a wadeable, perennial stream with either an aquatic and wildlife (cold water) or an aquatic and wildlife (warm water) designated use.
- B. The biological standard in R18-11-108(E) is met when a bioassessment result, as measured by the Arizona Index of Biological Integrity (IBI), for cold or warm water is:
1. Greater than or equal to the 25th percentile of reference condition, or
 2. Greater than the 10th percentile of reference condition and less than the 25th percentile of reference condition and a verification bioassessment result is greater than or equal to the 25th percentile of reference condition.
- C. Arizona Index of Biological Integrity (IBI) scores:

Bioassessment Result	Index of Biological Integrity Scores	
	A&Wc	A&Ww
Greater than or equal to the 25th percentile of reference condition	≥52	≥50
Greater than the 10th and less than the 25th percentile of reference condition	46 - 51	40 - 49

Historical Note

New Section made by final rulemaking at 14 A.A.R. 4708, effective January 31, 2009 (Supp. 08-4).

R18-11-108.02. Narrative Bottom Deposit Criteria for Wadeable, Perennial Streams

- A. The narrative bottom deposit criteria in this Section apply to wadeable, perennial streams with an aquatic and wildlife (cold water) or an aquatic and wildlife (warm water) designated use.
- B. The narrative water quality standard for bottom deposits at R18-11-108(A)(1) is met when:
1. The percentage of fine sediments in the riffle habitats of a wadeable, perennial stream with an A&Wc designated use, as determined by a riffle pebble count, is less than or equal to 30 percent.
 2. The percentage of fine sediments in all stream habitats of a wadeable, perennial stream with an A&Ww designated use, as determined by a reach level pebble count, is equal to or less than 50 percent.

Historical Note

New Section made by final rulemaking at 14 A.A.R. 4708, effective January 31, 2009 (Supp. 08-4).

R18-11-108.03. Narrative Nutrient Criteria for Lakes and Reservoirs

- A. The narrative nutrient criteria in this Section apply to those lakes and reservoirs categorized in Appendix B.
- B. The narrative water quality standard for nutrients at R18-11-108(A)(6) is met when, based on a minimum of two lake sample events conducted during the peak season based on lake productivity, the results show an average chlorophyll-*a* value below the applicable threshold for designated use and lake and reservoir category in subsection (D).
1. The mean chlorophyll-*a* concentration is less than the lower value in the target range chlorophyll-*a* for the lake and reservoir category, or
 2. The mean chlorophyll-*a* concentration is within the target range for the lake and reservoir category and:
 - a. The mean blue green algae count is at or below 20,000 per milliliter, and
 - b. The blue green algae count is less than 50 percent of the total algae count, and
 - c. There is no evidence of nutrient-related impairments such as:

CHAPTER 11. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER QUALITY STANDARDS

- i. An exceedance of dissolved oxygen or pH standards;
 - ii. A fish kill coincident with a dissolved oxygen or pH exceedance;
 - iii. A fish kill or other aquatic organism mortality coincident with algal toxicity;
 - iv. Secchi depth is less than the lower value prescribed for the lake and reservoir category;
 - v. A nuisance algal bloom is present in the limnetic portion of the lake or reservoir; or
 - vi. The concentration of total phosphorous, total nitrogen, or total Kjehldal nitrogen (TKN) is greater than the upper value in the range prescribed for the lake and reservoir category; or
3. For a shallow lake. In addition to meeting the mean chlorophyll-*a* concentrations in subsections (B)(1) or (2), submerged aquatic vegetation covers 50 percent or less of the lake bottom and there is less than a 5 mg/L swing in diel-dissolved oxygen concentration measured within the photic zone.
- C. The following threshold ranges apply during the peak season for lake productivity:
1. Warm water lakes peak season, April – October;
 2. Cold water lakes peak season, May – September.
- D. The following table lists the numeric targets for lakes and reservoirs.

NUMERIC TARGETS FOR LAKES AND RESERVOIRS										
Designated Use	Lake Category	Chl- <i>a</i> (µg/L)	Secchi Depth (m)	Total Phosphorus (µg/L)	Total Nitrogen (mg/L)	Total Kjehldal Nitrogen (TKN) (mg/L)	Blue-Green Algae (per ml)	Blue-Green Algae (% of total count)	Dissolved Oxygen (mg/L)	pH (SU)
FBC and PBC	Deep	10-15	1.5-2.5	70-90	1.2-1.4	1.0-1.1	20,000			6.5-9.0
	Shallow	10-15	1.5-2.0	70-90	1.2-1.4	1.0-1.1				
	Igneous	20-30	0.5-1.0	100-125	1.5-1.7	1.2-1.4				
	Sedimentary	20-30	1.5-2.0	100-125	1.5-1.7	1.2-1.4				
	Urban	20-30	0.5-1.0	100-125	1.5-1.7	1.2-1.4				
A&Wc	All	5-15	1.5-2.0	50-90	1.0-1.4	0.7-1.1		<50	7 (top m)	6.5-9.0
A&Ww	All (except urban lakes)	25-40	0.8-1.0	115-140	1.6-1.8	1.3-1.6			6 (top m)	
	Urban	30-50	0.7-1.0	125-160	1.7-1.9	1.4-1.7				
A&Wedw	All	30-50	0.7-1.0	125-160	1.7-1.9	1.4-1.7				6.5-9.0
DWS	All	10-20	0.5-1.5	70-100	1.2-1.5	1.0-1.2	20,000			5.0-9.0

Historical Note

New Section made by final rulemaking at 14 A.A.R. 4708, effective January 31, 2009 (Supp. 08-4).

R18-11-109. Numeric Water Quality Standards

- A. *E. coli* bacteria. The following water quality standards for *Escherichia coli* (*E. coli*) are expressed in colony forming units per 100 milliliters of water (cfu / 100 ml) or as a Most Probable Number (MPN):

<i>E. coli</i>	FBC	PBC
Geometric mean (minimum of four samples in 30 days)	126	126
Statistical threshold value	410	576

- B. pH. The following water quality standards for pH are expressed in standard units:

pH	DWS	FBC, PBC, A&W ¹	AgI	AgL
Maximum	9.0	9.0	9.0	9.0
Minimum	5.0	6.5	4.5	6.5

Footnotes:

1. "1" Includes A&Wc, A&Ww, A&Wedw, and A&We.

- C. The maximum allowable increase in ambient water temperature, due to a thermal discharge is as follows:

A&Ww	A&Wedw	A&Wc
3.0° C	3.0° C	1.0° C

- D. Suspended sediment concentration.

1. The following water quality standards for suspended sediment concentration, expressed in milligrams per liter (mg/L), are expressed as a median value determined from

a minimum of four samples collected at least seven days apart:

A&Wc	A&Ww
25	80

2. The Director shall not use the results of a suspended sediment concentration sample collected during or within 48 hours after a local storm event to determine the median value.

- E. Dissolved oxygen. A surface water meets the water quality standard for dissolved oxygen when either:

1. The percent saturation of dissolved oxygen is equal to or greater than 90 percent, or
2. The single sample minimum concentration for the designated use, as expressed in milligrams per liter (mg/L) is as follows:

Designated Use	Single sample minimum concentration in mg/L
A&Ww	6.0
A&Wc	7.0
A&Wedw for a sample taken from three hours after sunrise to sunset	3.0
A&Wedw for a sample taken from sunset to three hours after sunrise	1.0

CHAPTER 11. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER QUALITY STANDARDS

The single sample minimum concentration is the same for the designated use in a lake, but the sample must be taken from a depth no greater than one meter.

- F. Nutrient criteria. The following are water quality standards for total phosphorus and total nitrogen (expressed in milligrams per liter (mg/L)) that apply to the surface waters listed below. A minimum of 10 samples, each taken at least 10 days apart in a consecutive 12-month period, are required to determine a 90th percentile. Not more than 10 percent of the samples may exceed the 90th percentile value listed below. The Director will apply these water quality standards for total phosphorus and total nitrogen to the surface waters listed below, and to their perennial tributaries, if listed. The Director may also apply these total phosphorus and total nitrogen standards to any source discharging to any tributary (ephemeral, intermittent, effluent dependent water, or perennial) of the surface waters listed below, if necessary to protect nutrient water quality in the listed surface water, based on the volume, frequency, magnitude and duration of the discharge, and distance to the downstream surface water listed below:

1. Verde River and its perennial tributaries from the Verde headwaters to Bartlett Lake:

Surface Water	Annual Mean	90th Percentile	Single Sample Maximum
Total phosphorus	0.10	0.30	1.00
Total nitrogen	1.00	1.50	3.00

2. Black River, Tonto Creek and their perennial tributaries for any segments that are not located on tribal lands:

Surface Water	Annual Mean	90th Percentile	Single Sample Maximum
Total phosphorus	0.10	0.20	0.80
Total nitrogen	0.50	1.00	2.00

3. Salt River and its perennial tributaries above Roosevelt Lake for any segments that are not located on tribal lands:

Surface Water	Annual Mean	90th Percentile	Single Sample Maximum
Total phosphorus	0.12	0.30	1.00
Total nitrogen	0.60	1.20	2.00

4. Salt River below Stewart Mountain Dam to its confluence with the Verde River:

Surface Water	Annual Mean	90th Percentile	Single Sample Maximum
Total phosphorus	0.05	—	0.20
Total nitrogen	0.60	—	3.00

5. Little Colorado River and its perennial tributaries upstream from:

- The headwaters to River Reservoir,
- South Fork of Little Colorado River at 34°00'49"/109°24'18" to above South Fork Campground at 34°04'49"/109°24'18", and
- The headwaters of Water Canyon Creek to the Apache-Sitgreaves National Forest boundary:

Surface Water	Annual Mean	90th Percentile	Single Sample Maximum
Total phosphorus	0.08	0.10	0.75

Total nitrogen	0.60	0.75	1.10
----------------	------	------	------

6. From the Little Colorado River and State Route 260 at 34°06'39"/109°18'55" to Lyman Lake:

Surface Water	Annual Mean	90th Percentile	Single Sample Maximum
Total phosphorus	0.20	0.30	0.75
Total nitrogen	0.70	1.20	1.50

7. Colorado River at the Northern International Boundary near Morelos Dam:

Surface Water	Annual Mean	90th Percentile	Single Sample Maximum
Total phosphorus	—	0.33	—
Total nitrogen	—	2.50	—

8. Oak Creek from its headwaters at 35°01'30"/111°44'12" to its confluence with the Verde River and the West Fork of Oak Creek from its headwaters at 35°02'44"/111°54'48" to its confluence with Oak Creek.

Surface Water	Annual Mean	90th Percentile	Single Sample Maximum
Total phosphorus	0.1	0.25	0.30
Total nitrogen	1.00	1.50	2.50

9. No discharge of wastewater to Show Low Creek or its perennial tributaries upstream of and including Fools Hollow Lake shall exceed 0.16 mg/L total phosphates as P.
10. No discharge of wastewater to the San Francisco River or its perennial tributaries upstream of Luna Lake Dam shall exceed 1.0 mg/L total phosphates as P.

Historical Note

Adopted effective February 18, 1992 (Supp. 92-1).

Amended effective April 24, 1996 (Supp. 96-2).

Amended by final rulemaking at 8 A.A.R. 1264, effective

March 8, 2002 (Supp. 02-1). Amended by final

rulemaking at 14 A.A.R. 4708, effective January 31, 2009

(Supp. 08-4). Amended by final rulemaking at 22 A.A.R.

2328, effective August 2, 2016 (Supp. 16-4). Amended

by final rulemaking at 25 A.A.R. 2515, effective

November 9, 2019 (Supp. 19-3).

R18-11-110. Salinity Standards for the Colorado River

- A. The flow-weighted average annual salinity in the lower main stem of the Colorado River shall not exceed the following criteria:

Location	Total Dissolved Solids
Below Hoover Dam	723 mg/L
Below Parker Dam	747 mg/L
At Imperial Dam	879 mg/L

- B. The plan of implementation contained in the "2014 Review, Water Quality Standards for Salinity, Colorado River System," approved October 2014, is incorporated by reference to preserve the basin-wide approach to salinity control developed by the Colorado River Basin Salinity Control Forum and to ensure compliance with the numeric criteria for salinity in subsection (A). This material does not include any later amendments or editions of the incorporated material. Copies of the incorporated material are available for inspection at the Arizona Department of Environmental Quality, 1110 West Washington Street, Phoenix, Arizona 85007 or may be obtained from the Colorado River Basin Salinity Control Forum, 106

CHAPTER 11. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER QUALITY STANDARDS

West 500 South, Suite 101, Bountiful, Utah 84010-6232 or at <http://www.coloradoriversality.org/>.

Historical Note

Adopted effective February 18, 1992 (Supp. 92-1).
Amended by final rulemaking at 8 A.A.R. 1264, effective March 8, 2002 (Supp. 02-1). Amended by final rulemaking at 14 A.A.R. 4708, effective January 31, 2009 (Supp. 08-4). Amended by final rulemaking at 22 A.A.R. 2328, effective August 2, 2016 (Supp. 16-4).

R18-11-111. Analytical Methods

- A. A person conducting an analysis of a sample taken to determine compliance with a water quality standard shall use an analytical method prescribed in A.A.C. R9-14-610, 40 CFR 136.3, or an alternative analytical method approved under A.A.C. R9-14-610(C).
- B. A test result from a sample taken to determine compliance with a water quality standard is valid only if the sample is analyzed by a laboratory that is licensed by the Arizona Department of Health Services, an out-of-state laboratory licensed under A.R.S. § 36-495.14, or a laboratory exempted under A.R.S. § 36-495.02, for the analysis performed.

Historical Note

Adopted effective February 18, 1992 (Supp. 92-1).
Amended effective April 24, 1996 (Supp. 96-2).
Amended by final rulemaking at 8 A.A.R. 1264, effective March 8, 2002 (Supp. 02-1). Amended by final rulemaking at 14 A.A.R. 4708, effective January 31, 2009 (Supp. 08-4).

R18-11-112. Outstanding Arizona Waters

- A. The Director shall classify a surface water as an outstanding Arizona water (OAW) by rule.
- B. The Director may adopt, under R18-11-115, a site-specific standard to maintain and protect existing water quality in an OAW.
- C. Any person may nominate a surface water for classification as an OAW by filing a nomination with the Director. The nomination shall include:
 1. A map and a description of the surface water;
 2. A written statement in support of the nomination, including specific reference to the applicable criteria for an OAW classification prescribed in subsection (D);
 3. Supporting evidence demonstrating that the criteria prescribed in subsection (D) are met; and
 4. Available water quality data relevant to establishing the baseline water quality of the proposed OAW.
- D. The Director may classify a surface water as an OAW based upon the following criteria:
 1. The surface water is a perennial or intermittent water;
 2. The surface water is in a free-flowing condition. For purposes of this subsection, "in a free-flowing condition" means that a surface water does not have an impoundment, diversion, channelization, rip-rapping or other bank armor, or another hydrological modification within the reach nominated for an OAW classification;
 3. The surface water has good water quality. For purposes of this subsection, "good water quality" means that the surface water has water quality that meets or is better than applicable surface water quality standards. A surface water that is listed as impaired under R18-11-604(E) is ineligible for OAW classification; and
 4. The surface water meets one or both of the following conditions:
 - a. The surface water is of exceptional recreational or ecological significance because of its unique attributes, such as the geology, flora and fauna, water

quality, aesthetic value, or the wilderness characteristic of the surface water;

- b. An endangered or threatened species is associated with the surface water and the existing water quality is essential to the species' maintenance and propagation or the surface water provides critical habitat for the threatened or endangered species. An endangered or threatened species is identified in "Endangered and Threatened Wildlife," 50 CFR 17.11 (revised 2005), and "Endangered and Threatened Plants," 50 CFR 17.12 (revised 2005). This material is incorporated by reference and does not include any later amendments or editions of the incorporated material. Copies of the incorporated material are available for inspection at the Arizona Department of Environmental Quality, 1110 West Washington Street, Phoenix, Arizona 85007 or may be obtained from the National Archives and Records Administration at <http://www.access.gpo.gov/nara/cfr/cfr-table-search.html#page1>.
- E. The Director shall hold at least one public meeting in the local area of a surface water that is nominated for classification as an OAW to solicit public comment on the nomination.
- F. The Director shall consider the following factors when deciding whether to classify a surface water as an OAW:
 1. Whether there is the ability to manage the surface water and its watershed to maintain and protect existing water quality;
 2. The social and economic impact of Tier 3 antidegradation protection;
 3. The public comments in support of, or in opposition to, an OAW classification;
 4. The timing of the nomination relative to the triennial review of surface water quality standards;
 5. The consistency of an OAW classification with applicable water quality management plans; and
 6. Whether the nominated surface water is located within a national or state park, national monument, national recreation area, wilderness area, riparian conservation area, area of critical environmental concern, or it has another special use designation (for example, Wild and Scenic River).
- G. The following surface waters are classified as OAWs:
 1. The West Fork of the Little Colorado River, from its headwaters to Government Springs (approximately 9.1 river miles);
 2. Oak Creek, from its headwaters to its confluence with the Verde River (approximately 50.3 river miles);
 3. West Fork of Oak Creek, from its headwaters to its confluence with Oak Creek (approximately 15.8 river miles);
 4. Peebles Canyon Creek, from its headwaters to its confluence with the Santa Maria River (approximately 8.1 river miles);
 5. Burro Creek, from its headwaters to its confluence with Boulder Creek (approximately 29.5 miles);
 6. Francis Creek, from its headwaters to its confluence with Burro Creek (approximately 22.9 river miles);
 7. Bonita Creek, from its boundary of the San Carlos Indian Reservation to its confluence with the Gila River (approximately 14.7 river miles);
 8. Cienega Creek, from its confluence with Gardner Canyon to the USGS gaging station (#09484600) (approximately 28.3 river miles);
 9. Aravaipa Creek, from its confluence with Stowe Gulch to the downstream boundary of the Aravaipa Canyon Wilderness Area (approximately 15.5 river miles);

CHAPTER 11. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER QUALITY STANDARDS

10. Cave Creek, from its headwaters to the Coronado National Forest boundary (approximately 10.4 river miles);
11. South Fork of Cave Creek, from its headwaters to its confluence with Cave Creek (approximately 8.6 river miles);
12. Buehman Canyon Creek, from its headwaters to its confluence with unnamed tributary at 32°24'31"/110°32'08" (approximately 9.8 river miles);
13. Lee Valley Creek, from its headwaters to Lee Valley Reservoir (approximately 1.6 river miles);
14. Bear Wallow Creek, from its headwaters to the boundary of the San Carlos Indian Reservation (approximately 4.25 river miles);
15. North Fork of Bear Wallow Creek, from its headwaters to its confluence with Bear Wallow Creek (approximately 3.8 river miles);
16. South Fork of Bear Wallow Creek, from its headwaters to its confluence with Bear Wallow Creek (approximately 3.8 river miles);
17. Snake Creek, from its headwaters to its confluence with the Black River (approximately 6.2 river miles);
18. Hay Creek, from its headwaters to its confluence with the West Fork of the Black River (approximately 5.5 river miles);
19. Stinky Creek, from the White Mountain Apache Indian Reservation boundary to its confluence with the West Fork of the Black River (approximately 3.0 river miles);
20. KP Creek, from its headwaters to its confluence with the Blue River (approximately 12.7 river miles);
21. Davidson Canyon, from the unnamed spring at 31°59'00"/110°38'49" to its confluence with Cienega Creek; and
22. Fossil Creek, from its headwaters at the confluence of Sandroock and Calf Pen Canyons above Fossil Springs to its confluence with the Verde River (approximately 17.2 river miles).

Historical Note

Adopted effective February 18, 1992 (Supp. 92-1). Amended effective April 24, 1996 (Supp. 96-2). Added "water quality standards" to R18-11-112, previously omitted in error (Supp. 96-3). Amended by final rulemaking at 8 A.A.R. 1264, effective March 8, 2002 (Supp. 02-1). Amended by final rulemaking at 14 A.A.R. 4708, effective January 31, 2009 (Supp. 08-4). Amended by final rulemaking at 22 A.A.R. 2328, effective August 2, 2016 (Supp. 16-4).

R18-11-113. Effluent-Dependent Waters

- A. The Director shall classify a surface water as an effluent-dependent water by rule.
- B. The Director may adopt, under R18-11-115, a site-specific water quality standard for an effluent-dependent water.
- C. Any person may submit a petition for rule adoption requesting that the Director classify a surface water as an effluent-dependent water. The petition shall include:
 1. A map and a description of the surface water;
 2. Information that demonstrates that the surface water consists of a point source discharge of wastewater; and
 3. Information that demonstrates that, without a point source discharge of a wastewater, the receiving water is an ephemeral water.
- D. The Director shall use the water quality standards that apply to an effluent-dependent water to derive water quality-based effluent limits for a point source discharge of wastewater to an ephemeral water.
- E. The Director may use aquatic and wildlife (edw) acute standards only to derive water quality based effluent limits for a sporadic, infrequent, or emergency point source discharge to

an ephemeral water or to an effluent-dependent water. The Director shall consider the following factors when deciding whether to apply A&Wedw (acute) standards:

1. The amount, frequency, and duration of the discharge;
 2. The length of time water may be present in the receiving water;
 3. The distance to a downstream water with aquatic and wildlife chronic standards; and
 4. The likelihood of chronic exposure to pollutants.
- F. The Director may establish alternative water quality-based effluent limits in an AZPDES permit based on seasonal differences in the discharge.

Historical Note

Adopted effective February 18, 1992 (Supp. 92-1). Amended effective December 18, 1992 (Supp. 92-4). Amended effective April 24, 1996 (Supp. 96-2). Amended by final rulemaking at 8 A.A.R. 1264, effective March 8, 2002 (Supp. 02-1). Amended by final rulemaking at 14 A.A.R. 4708, effective January 31, 2009 (Supp. 08-4).

R18-11-114. Mixing Zones

- A. The Director may establish a mixing zone for a point source discharge to a surface water as a condition of an individual AZPDES permit on a pollutant-by-pollutant basis. A mixing zone is prohibited in an ephemeral water or where there is no water for dilution, or as prohibited pursuant to subsection (H).
- B. The owner or operator of a point source seeking the establishment of a mixing zone shall submit a request to the Director for a mixing zone as part of an application for an AZPDES permit. The request shall include:
 1. An identification of the pollutant for which the mixing zone is requested;
 2. A proposed outfall design;
 3. A definition of the boundary of the proposed mixing zone. For purposes of this subsection, the boundary of a mixing zone is where complete mixing occurs; and
 4. A complete and detailed description of the existing physical, biological, and chemical conditions of the receiving water and the predicted impact of the proposed mixing zone on those conditions. The description shall also address the factors listed in subsection (D) that the Director must consider when deciding to grant or deny a request and shall address the mixing zone requirements in subsection (H).
- C. The Director shall consider the following factors when deciding whether to grant or deny a request for a mixing zone:
 1. The assimilative capacity of the receiving water;
 2. The likelihood of adverse human health effects;
 3. The location of drinking water plant intakes and public swimming areas;
 4. The predicted exposure of biota and the likelihood that resident biota will be adversely affected;
 5. Bioaccumulation;
 6. Whether there will be acute toxicity in the mixing zone, and, if so, the size of the zone of initial dilution;
 7. The known or predicted safe exposure levels for the pollutant for which the mixing zone is requested;
 8. The size of the mixing zone;
 9. The location of the mixing zone relative to biologically sensitive areas in the surface water;
 10. The concentration gradient of the pollutant within the mixing zone;
 11. Sediment deposition;
 12. The potential for attracting aquatic life to the mixing zone; and

CHAPTER 11. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER QUALITY STANDARDS

13. The cumulative impacts of other mixing zones and other discharges to the surface water.
- D. Director determination.**
1. The Director shall deny a request to establish a mixing zone if a water quality standard will be violated outside the boundaries of the proposed mixing zone..
 2. If the Director approves the request to establish a mixing zone, the Director shall establish the mixing zone as a condition of an AZPDES permit. The Director shall include any mixing zone condition in the AZPDES permit that is necessary to protect human health and the designated uses of the surface water.
- E.** Any person who is adversely affected by the Director's decision to grant or deny a request for a mixing zone may appeal the decision under A.R.S. § 49-321 et seq. and A.R.S. § 41-1092 et seq.
- F.** The Director shall reevaluate a mixing zone upon issuance, reissuance, or modification of the AZPDES permit for the point source or a modification of the outfall structure.
- G. Mixing zone requirements.**
1. A mixing zone shall be as small as practicable in that it shall not extend beyond the point in the waterbody at which complete mixing occurs under the critical flow conditions of the discharge and of the receiving water.
 2. The total horizontal area allocated to all mixing zones on a lake shall not exceed 10 percent of the surface area of the lake.
 3. Adjacent mixing zones in a lake shall not overlap or be located closer together than the greatest horizontal dimension of the largest mixing zone.
 4. The design of any discharge outfall shall maximize initial dilution of the wastewater in a surface water.
 5. The size of the zone of initial dilution in a mixing zone shall prevent lethality to organisms passing through the zone of initial dilution. The mixing zone shall prevent acute toxicity and lethality to organisms passing through the mixing zone.
- H.** The Director shall not establish a mixing zone in an AZPDES permit for the following persistent, bioaccumulative pollutants:
1. Chlordane,
 2. DDT and its metabolites (DDD and DDE),
 3. Dieldrin,
 4. Dioxin,
 5. Endrin,
 6. Endrin aldehyde,
 7. Heptachlor,
 8. Heptachlor epoxide,
 9. Lindane,
 10. Mercury,
 11. Polychlorinated biphenyls (PCBs), and
 12. Toxaphene.
- Historical Note**
 Adopted effective February 18, 1992 (Supp. 92-1).
 Amended effective April 24, 1996 (Supp. 96-2).
 Amended by final rulemaking at 8 A.A.R. 1264, effective March 8, 2002 (Supp. 02-1). Amended by final rulemaking at 14 A.A.R. 4708, effective January 31, 2009 (Supp. 08-4). Amended by final rulemaking at 25 A.A.R. 2515, effective November 9, 2019 (Supp. 19-3).
- R18-11-115. Site-Specific Standards**
- A.** The Director shall adopt a site-specific standard by rule.
- B.** The Director may adopt a site-specific standard based upon a request or upon the Director's initiative for any of the following reasons:
1. Local physical, chemical, or hydrological conditions of a surface water such as pH, hardness, fate and transport, or temperature alters the biological availability or toxicity of a pollutant;
 2. The sensitivity of resident aquatic organisms that occur in a surface water to a pollutant differs from the sensitivity of the species used to derive the numeric water quality standards to protect aquatic life in Appendix A;
 3. Resident aquatic organisms that occur in a surface water represent a narrower mix of species than those in the dataset used by ADEQ to derive numeric water quality standards to protect aquatic life in Appendix A;
 4. The natural background concentration of a pollutant is greater than the numeric water quality standard to protect aquatic life prescribed in Appendix A. "Natural background" means the concentration of a pollutant in a surface water due only to non-anthropogenic sources; or
 5. Other factors or combination of factors that upon review by the Director warrant changing a numeric water quality standard for a surface water.
- C. Site-specific standard by request.** To request that the Director adopt a site-specific standard, a person must conduct a study to support the development of a site-specific standard using a scientifically-defensible procedure.
1. Before conducting the study, a person shall submit a study outline to the Director for approval that contains the following elements:
 - a. Identifies the pollutant;
 - b. Describes the reach's boundaries;
 - c. Uses one of the following procedures, as defined by the most recent EPA guidance documents:
 - i. The recalculation procedure,
 - ii. The water effects ratio for metals,
 - iii. The streamlined water effects ratio, or
 - iv. The Biotic ligand model.
 - d. Demonstrates that all designated uses are protected.
 2. Alternatively, a study outline submitted for the Director's approval must contain the following elements:
 - a. Identifies the pollutant;
 - b. Describes the reach's boundaries;
 - c. Describes the hydrologic regime of the waterbody;
 - d. Describes the scientifically-defensible procedure, which can include relevant aquatic life studies, ecological studies, laboratory tests, biological translators, fate and transport models, and risk analyses;
 - e. Describes and compares the taxonomic composition, distribution and density of the aquatic biota within the reach to a reference reach and describes the basis of any major taxonomic differences;
 - f. Describes the pollutant's effect on the affected species or appropriate surrogate species and on the other designated uses listed for the reach;
 - g. Demonstrates that all designated uses are protected; and
 - h. A person seeking to develop a site-specific standard based on natural background may use statistical or modeling approaches to determine natural background concentration. Modeling approaches include Better Assessment Science Integrating Source and Nonpoint Sources (Basins), Hydrologic Simulation Program-Fortran (HSPF), and Hydrologic Engineering Center (HEC) programs developed by the U.S. Army Corps of Engineers.
- Historical Note**
 Adopted effective February 18, 1992 (Supp. 92-1).
 Amended effective April 24, 1996 (Supp. 96-2). Section

CHAPTER 11. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER QUALITY STANDARDS

repealed by final rulemaking at 8 A.A.R. 1264, effective March 8, 2002 (Supp. 02-1). New Section made by final rulemaking at 14 A.A.R. 4708, effective January 31, 2009 (Supp. 08-4). Amended by final rulemaking at 22 A.A.R. 2328, effective August 2, 2016 (Supp. 16-4). Amended by final rulemaking at 25 A.A.R. 2515, effective November 9, 2019 (Supp. 19-3).

R18-11-116. Resource Management Agencies

Nothing in this Article prohibits fisheries management activities by the Arizona Game and Fish Department or the U.S. Fish and Wildlife Service. This Article does not exempt fish hatcheries from AZPDES permit requirements.

Historical Note

Adopted effective February 18, 1992 (Supp. 92-1).
Amended by final rulemaking at 14 A.A.R. 4708,
effective January 31, 2009 (Supp. 08-4).

R18-11-117. Canals and Urban Park Lakes

- A. Nothing in this Article prevents the routine physical or mechanical maintenance of canals, drains, and the urban lakes identified in Appendix B. Physical or mechanical maintenance includes dewatering, lining, dredging, and the physical, biological, or chemical control of weeds and algae. Increases in turbidity that result from physical or mechanical maintenance activities are permitted in canals, drains, and the urban lakes identified in Appendix B.
- B. The discharge of lubricating oil associated with the start-up of well pumps that discharge to canals is not a violation of R18-11-108(B).

Historical Note

Adopted effective February 18, 1992 (Supp. 92-1).
Amended effective April 24, 1996 (Supp. 96-2).
Amended by final rulemaking at 14 A.A.R. 4708,
effective January 31, 2009 (Supp. 08-4).

R18-11-118. Dams and Flood Control Structures

Increases in turbidity that result from the routine physical or mechanical maintenance of a dam or flood control structure are not violations of this Article. Nothing in this Article requires the release of water from a dam or a flood control structure.

Historical Note

Adopted effective February 18, 1992 (Supp. 92-1).
Amended effective April 24, 1996 (Supp. 96-2).
Amended by final rulemaking at 8 A.A.R. 1264, effective
March 8, 2002 (Supp. 02-1). Amended by final
rulemaking at 14 A.A.R. 4708, effective January 31, 2009
(Supp. 08-4).

R18-11-119. Natural background

Where the concentration of a pollutant exceeds a water quality standard and the exceedance is not caused by human activity but is due solely to naturally-occurring conditions, the exceedance shall not be considered a violation of the water quality standard.

Historical Note

Adopted effective February 18, 1992 (Supp. 92-1).

R18-11-120. Enforcement of Non-permitted Discharges

- A. The Department may establish a numeric water quality standard at a concentration that is below the practical quantitation limit. Therefore, in enforcement actions pursuant to subsection (B), the water quality standard is enforceable at the practical quantitation limit.
- B. Except for chronic aquatic and wildlife criteria, for non-permitted discharge violations, the Department shall determine compliance with numeric water quality standard criteria from the analytical result of a single sample, unless additional samples are required under this article. For chronic aquatic and wildlife criteria, compliance for non-permitted discharge vio-

lations shall be determined from the geometric mean of the analytical results of the last four samples taken at least 24 hours apart. For the purposes of this Section, a "non-permitted discharge violation" does not include a discharge regulated under an AZPDES permit.

Historical Note

Adopted effective February 18, 1992 (Supp. 92-1).
Amended effective April 24, 1996 (Supp. 96-2).
Amended by final rulemaking at 8 A.A.R. 1264, effective
March 8, 2002 (Supp. 02-1). Amended by final
rulemaking at 25 A.A.R. 2515, effective November 9,
2019 (Supp. 19-3).

R18-11-121. Schedules of Compliance

A compliance schedule in an AZPDES permit shall require the permittee to comply with a discharge limitation based upon a new or revised water quality standard as soon as possible to achieve compliance. The permittee shall demonstrate that all requirements under § 301(b) and § 306 of the Clean Water Act [33 U.S.C. 1311(b) and 1316] are achieved and that the point source cannot comply with a discharge limitation based upon the new or revised water quality standard through the application of existing water pollution control technology, operational changes, or source reduction. In establishing a compliance schedule, the Director shall consider:

1. How much time the permittee has already had to meet any effluent limitations under a prior permit;
2. The extent to which the permittee has made good faith efforts to comply with the effluent limitations and other requirements in a prior permit;
3. Whether treatment facilities, operations, or measures must be modified to meet the effluent limitations;
4. How long any necessary modifications would take to implement; and
5. Whether the permittee would be expected to use the same treatment facilities, operations or other measures to meet the effluent limitations as it would have used to meet the effluent limitations in a prior permit.

Historical Note

Adopted effective February 18, 1992 (Supp. 92-1).
Amended effective April 24, 1996 (Supp. 96-2).
Amended by final rulemaking at 8 A.A.R. 1264, effective
March 8, 2002 (Supp. 02-1). Amended by final
rulemaking at 14 A.A.R. 4708, effective January 31, 2009
(Supp. 08-4). Amended by final rulemaking at 22 A.A.R.
2328, effective August 2, 2016 (Supp. 16-4).

R18-11-122. Variances

- A. Upon request, the Director may establish, by rule, a discharger-specific or water segment(s)-specific variance from a water quality standard if requirements pursuant to this Section are met.
- B. A person who requests a variance must demonstrate all of the following information:
 1. Identification of the specific pollutant and water quality standard for which a variance is sought.
 2. Identification of the receiving surface water segment or segments to which the variance would apply.
 3. A detailed discussion of the need for the variance, including the reasons why compliance with the water quality standard cannot be achieved over the term of the proposed variance, and any other useful information or analysis to evaluate attainability.
 4. A detailed discussion of the discharge control technologies that are available for achieving compliance with the water quality standard for which a variance is sought.
 5. Documentation that more advanced treatment technology than applicable technology-based effluent limitations is

CHAPTER 11. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER QUALITY STANDARDS

necessary to achieve compliance with the water quality standard for which a variance is sought.

6. A detailed description of proposed interim discharge limitations and pollutant control activities that represent the highest level of treatment achievable by a point source discharger or dischargers during the term of the variance.
 7. Documentation that the proposed term is only as long as necessary to achieve the highest attainable condition.
 8. Documentation that is appropriate to the type of use to which the variance would apply as follows:
 - a. For a water quality standard variance to a use specified in Clean Water Act § 101(a)(2), documentation must include demonstration of at least one of the following factors that preclude attainment of the use during the term of the variance:
 - i. Naturally occurring pollutant concentrations prevent attainment of the use;
 - ii. Natural, ephemeral, intermittent or low flow conditions or water levels prevent the attainment of the use, unless these conditions may be compensated for by the discharge of sufficient volume of effluent discharges without violating state water conservation requirements to enable uses to be met;
 - iii. That human-caused conditions or sources of pollution prevent the attainment of the water quality standard for which the variance is sought and either (1) it is not possible to remedy the conditions or sources of pollution or (2) remedying the human-caused conditions would cause more environmental damage to correct than to leave in place;
 - iv. Dams, diversions or other types of hydrologic modifications preclude the attainment of the use, and it is not feasible to restore the water body to its original condition or to operate such modification in a way that would result in the attainment of the use;
 - v. Physical conditions related to the natural features of the water body, such as the lack of a proper substrate, cover, flow, depth, pools, riffles, and the like, unrelated to water quality, preclude attainment of aquatic life protection uses;
 - vi. That installation and operation of each of the available discharge technologies more advanced than those required to comply with technology-based effluent limitations to achieve compliance with the water quality standard would result in substantial and widespread economic and social impact; or
 - vii. Actions necessary to facilitate lake, wetland, or stream restoration through dam removal or other significant reconfiguration activities preclude attainment of the designated use and criterion while the actions are being implemented.
 - b. For a water quality standard variance to a use other than those uses specified in Clean Water Act § 101(a)(2), documentation must justify how consideration and value of the water subject to the use appropriately supports the variance and term. A demonstration consistent with (B)(8)(a) of this Section may be used to satisfy this requirement.
 9. For a waterbody segment(s)-specific variance, the following information is required before the Director may issue a variance, in addition to all other required documentation pursuant to this Section:
 - a. Identification and documentation of any cost-effective and reasonable best management practices for nonpoint source controls related to the pollutant(s) or water quality parameter(s) and water body or waterbody segment(s) specified in the variance that could be implemented to make progress towards attaining the underlying designated use and criterion; and
 - b. If any variance pursuant to subsection (B)(9)(a) previously applied to the water body or waterbody segment(s), documentation must also demonstrate whether and to what extent best management practices for nonpoint source controls were implemented to address the pollutant(s) or water quality parameter(s) subject to the water quality variance and the water quality progress achieved.
 10. For a discharger-specific variance, the following information is required before the Director may issue a variance, in addition to all other required documentation pursuant to this Section:
 - a. Identification of the permittee subject to the variance;
 - b. For an existing point source discharge, a detailed description of the existing discharge control technologies that are used to achieve compliance with applicable water quality standards. For a new point source discharge, a detailed description of the proposed discharge control technologies that will be used to achieve compliance with applicable water quality standards; and
 - c. Documentation that the existing or proposed discharge control technologies will comply with applicable technology-based effluent limitations.
- C.** The Director shall consider the following factors when deciding whether to grant or deny a variance request:
1. Bioaccumulation,
 2. The predicted exposure of biota and the likelihood that resident biota will be adversely affected,
 3. The known or predicted safe exposure levels for the pollutant for which the variance is requested, and
 4. The likelihood of adverse human health effects.
- D.** The variance shall represent the highest attainable condition of the water body or water body segment applicable throughout the term of the variance.
- E.** A variance shall not result in any lowering of the currently attained ambient water quality, unless the variance is necessary for restoration activities, consistent with subsection (B)(8)(a)(vii). The Director must specify the highest attainable condition of the water body or waterbody segment as a quantifiable expression of one of the following:
1. The highest attainable interim criterion,
 2. The interim effluent condition that reflects the greatest pollutant reduction achievable; or
 3. If no additional feasible pollutant control technology can be identified, the interim criterion or interim effluent condition that reflects the greatest pollutant reduction achievable with the pollutant control technologies installed at the time of the issuance of the variance, and the adoption and implementation of a Pollutant Minimization Program.
- F.** A variance shall not modify the underlying designated use and criterion. A variance is only a time limited exception to the underlying standard. For discharge-specific variances, other point source dischargers to the surface water that are not

CHAPTER 11. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER QUALITY STANDARDS

- granted a variance shall still meet all applicable water quality standards.
- G.** Point source discharges shall meet all other applicable water quality standards for which a variance is not granted.
 - H.** The Director may not grant a variance for a point source discharge to an OAW listed in R18-11-112(G).
 - I.** Each variance established by the Director is subject to review and approval by the Regional Administrator.
 - J.** The term of the water quality variance may only be as long as necessary to achieve the highest attainable condition and must be consistent with the supporting documentation in subsection (E). The variance term runs from the approval of the variance by the Regional Administrator.
 - K.** The Director shall reevaluate, in its triennial review, whether each variance continues to represent the highest attainable condition. Comment on the variance shall be considered regarding whether the variance continues to represent the highest attainable condition. If the Director determines that the requirements of the variance do not represent the highest attainable condition, then the Director shall modify or repeal the variance in its triennial review rulemaking.
 - L.** If the variance is modified by rulemaking, the requirements of the variance shall represent the highest attainable condition at the time of initial adoption of the variance, or the highest attainable condition identified during the current reevaluation, whichever is more stringent.
 - M.** Upon expiration of a variance, point source dischargers shall comply with the water quality standard.
 - N.** The following are discharger-specific variances adopted by the Director:
 - O.** The following are water body and waterbody segment-specific variances adopted by the Director:
- Historical Note**
Adopted effective April 24, 1996 (Supp. 96-2). Amended by final rulemaking at 8 A.A.R. 1264, effective March 8, 2002 (Supp. 02-1). Amended by final rulemaking at 14 A.A.R. 4708, effective January 31, 2009 (Supp. 08-4). Amended by final rulemaking at 25 A.A.R. 2515, effective November 9, 2019 (Supp. 19-3).
- R18-11-123. Discharge Prohibitions**
- A.** The discharge of wastewater to the following surface waters is prohibited:
 - 1. Sabino Canyon Creek;
 - 2. Vekol Wash, upstream of the Ak-Chin Indian Reservation; and
 - 3. Smith Wash, upstream of the Ak-Chin Indian Reservation.
 - B.** The discharge to Lake Powell of human body wastes and the wastes from toilets and other receptacles intended to receive or retain wastes from a vessel is prohibited.
- Historical Note**
Adopted effective April 24, 1996 (Supp. 96-2). Amended by final rulemaking at 8 A.A.R. 1264, effective March 8, 2002 (Supp. 02-1). Amended by final rulemaking at 14 A.A.R. 4708, effective January 31, 2009 (Supp. 08-4).

Footnotes

- The asbestos standard is 7 million fibers (longer than 10 micrometers) per liter.
- The aldrin/dieldrin standard is exceeded when the sum of the two compounds exceeds 0.003 µg/L.
- In lakes, the acute criteria for hydrogen sulfide apply only to water samples taken from the epilimnion, or the upper layer of a lake or reservoir.
- Hardness, expressed as mg/L CaCO₃, is determined according to the following criteria:
 - If the receiving water body has an A&Wc or A&Ww designated use, then hardness is based on the hardness of the receiving water body from a sample taken at the same time that the sample for the metal is taken, except that the hardness may not exceed 400 mg/L CaCO₃.
 - If the receiving water has an A&Wedw or A&We designated use, then the hardness is based on the hardness of the effluent from a sample taken at the same time that the sample for the metal is taken, except that the hardness may not exceed 400 mg/L CaCO₃.
 - The mathematical equations for the hardness-dependent parameter represent the water quality standards. Examples of criteria for the hardness-dependent parameters have been calculated and are presented in separate tables at the end of Appendix A for the convenience of the user.
- pH is determined according to the following criteria:
 - If the receiving water has an A&Wc or A&Ww designated use, then pH is based on the pH of the receiving water body from a sample taken at the same time that the sample for pentachlorophenol or ammonia is taken.
 - If the receiving water body has an A&Wedw or A&We designated use, then the pH is based on the pH of the effluent from a sample taken at the same time that the sample for pentachlorophenol or ammonia is taken.
 - The mathematical equations for ammonia represent the water quality standards. Examples of criteria for ammonia have been calculated and are presented in separate tables at the end of Appendix A for the convenience of the user.
- Table 1 abbreviations.
 - µg/L = micrograms per liter,
 - mg/kg = milligrams per kilogram,
 - pCi/L = picocuries per liter,
 - D = dissolved,
 - T = total recoverable,
 - TTHM indicates that the chemical is a trihalomethane.
- The total trihalomethane (TTHM) standard is exceeded when the sum of these four compounds exceeds 80 µg/L, as a rolling annual average.
- The concentration of gross alpha particle activity includes radium-226, but excludes radon and uranium.
- The average annual concentration of beta particle activity and photon emitters from manmade radionuclides shall not produce an annual dose equivalent to the total body or any internal organ greater than four millirems per year.
- The mathematical equations for the pH-dependent parameters represent the water quality standards. Examples of criteria for the pH-dependent parameters have been calculated and are presented in separate tables at the end of Appendix A for the convenience of the user.
- Abbreviations for the mathematical equations are as follows:
 e = the base of the natural logarithm and is a mathematical constant equal to 2.71828
 LN = is the natural logarithm
 CMC = Criterion Maximum Concentration (acute)
 CCC = Criterion Continuous Concentration (chronic)

Historical Note

Appendix A repealed; new Appendix A, Table 1 adopted effective April 24, 1996 (Supp. 96-2). Appendix A, Table 1 amended by final rulemaking at 8 A.A.R. 1264, effective March 8, 2002 (Supp. 02-1). Appendix A, Table 1 amended by final rulemaking at 9 A.A.R. 716, effective April 8, 2003 (Supp. 03-1). Appendix A, Table 1 repealed; new Appendix A, Table 1 made by final rulemaking at 14 A.A.R. 4708, effective January 31, 2009 (Supp. 08-4). Appendix A, Table 1 amended by final rulemaking at 22 A.A.R.

CHAPTER 11. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER QUALITY STANDARDS

CHAPTER 11. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER QUALITY STANDARDS

Table 17. Chronic Criteria for Total Ammonia (in mg/L, as N) for Aquatic and Wildlife coldwater, Unionid Mussels Absent

For the aquatic and wildlife coldwater uses, unionids will be assumed to be present unless a study is performed demonstrating that they are absent and there is no historic evidence of their presence, or hydrologic modification has altered the flow regime in a way that would prevent their reestablishment.

CHAPTER 11. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER QUALITY STANDARDS

Appendix B. Surface Waters and Designated Uses

(Coordinates are from the North American Datum of 1983 (NAD83). All latitudes in Arizona are north and all longitudes are west, but the negative signs are not included in the Appendix B table. Some web-based mapping systems require a negative sign before the longitude values to indicate it is a west longitude.)

Watersheds:

BW = Bill Williams

CG = Colorado – Grand Canyon

CL = Colorado – Lower Gila

LC = Little Colorado

MG = Middle Gila

SC = Santa Cruz – Rio Magdalena – Rio Sonoyta

SP = San Pedro – Willcox Playa – Rio Yaqui

SR = Salt River

UG = Upper Gila

VR = Verde River

Other Abbreviations:

WWTP = Wastewater Treatment Plant

Km = kilometers

CHAPTER 11. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER QUALITY STANDARDS

Water-shed	Surface Waters	Segment Description and Location (Latitude and Longitudes are in NAD 83)	Lake Category	Aquatic and Wildlife				Human Health				Agricultural	
				A&Wc	A&Ww	A&We	A&Wed w	FBC	PBC	DWS	FC	AgI	AgL
SR	Centerfire Creek	Headwaters to confluence with the Black River		A&Wc				FBC			FC	AgI	AgL
SR	Chambers Draw Creek	Headwaters to confluence with the North Fork of the East Fork of Black River		A&Wc				FBC			FC		AgL
SR	Cherry Creek	Headwaters to confluence with unnamed tributary at 34°05'09"/110°56'07"		A&Wc				FBC			FC	AgI	AgL
SR	Cherry Creek	Below unnamed tributary to confluence with the Salt River			A&Ww			FBC			FC	AgI	AgL
SR	Christopher Creek	Headwaters to confluence with Tonto Creek		A&Wc				FBC			FC	AgI	AgL
SR	Cold Spring Canyon Creek	Headwaters to confluence with unnamed tributary at 33°49'50"/110°52'58"		A&Wc				FBC			FC		AgL
SR	Cold Spring Canyon Creek	Below confluence with unnamed tributary to confluence with Cherry Creek			A&Ww			FBC			FC		AgL
SR	Conklin Creek	Headwaters to confluence with the Black River		A&Wc				FBC			FC	AgI	AgL
SR	Coon Creek	Headwaters to confluence with unnamed tributary at 33°46'41"/110°54'26"		A&Wc				FBC			FC		AgL
SR	Coon Creek	Below confluence with unnamed tributary to confluence with Salt River			A&Ww			FBC			FC		AgL
SR	Corduoy Creek	Headwaters to confluence with Fish Creek		A&Wc				FBC			FC	AgI	AgL
SR	Coyote Creek	Headwaters to confluence with the Black River, East Fork		A&Wc				FBC			FC	AgI	AgL
SR	Crescent Lake	33°54'38"/109°25'18"	Shallow	A&Wc				FBC			FC	AgI	AgL
SR	Deer Creek	Headwaters to confluence with the Black River, East Fork		A&Wc				FBC			FC		AgL
SR	Del Shay Creek	Headwaters to confluence with Gun Creek			A&Ww			FBC			FC		AgL
SR	Devils Chasm Creek	Headwaters to confluence with unnamed tributary at 33°48'46"/110°52'35"		A&Wc				FBC			FC		AgL
SR	Devils Chasm Creek	Below confluence with unnamed tributary to confluence with Cherry Creek			A&Ww			FBC			FC		AgL
SR	Dipping Vat Reservoir	33°55'47"/109°25'31"	Igneous		A&Ww			FBC			FC		AgL
SR	Double Cienega Creek	Headwaters to confluence with Fish Creek		A&Wc				FBC			FC		AgL
SR	Fish Creek	Headwaters to confluence with the Black River		A&Wc				FBC			FC	AgI	AgL
SR	Fish Creek	Headwaters to confluence with the Salt River			A&Ww			FBC			FC		
SR	Gold Creek	Headwaters to confluence with unnamed tributary at 33°59'47"/111°25'10"		A&Wc				FBC			FC		AgL
SR	Gold Creek	Below confluence with unnamed tributary to confluence with Tonto Creek			A&Ww			FBC			FC		AgL
SR	Gordon Canyon Creek	Headwaters to confluence with Hog Canyon		A&Wc				FBC			FC		AgL
SR	Gordon Canyon Creek	Below confluence with Hog Canyon to confluence with Haigler Creek			A&Ww			FBC			FC		AgL
SR	Greenback Creek	Headwaters to confluence with Tonto Creek			A&Ww			FBC			FC		AgL
SR	Haigler Creek	Headwaters to confluence with unnamed tributary at 34°12'23"/111°00'15"		A&Wc				FBC			FC	AgI	AgL
SR	Haigler Creek	Below confluence with unnamed tributary to confluence with Tonto Creek			A&Ww			FBC			FC	AgI	AgL
SR	Hannagan Creek	Headwaters to confluence with Beaver Creek		A&Wc				FBC			FC		AgL
SR	Hay Creek (OAW)	Headwaters to confluence with the Black River, West Fork		A&Wc				FBC			FC		AgL
SR	Home Creek	Headwaters to confluence with the Black River, West Fork		A&Wc				FBC			FC		AgL
SR	Horse Creek	Headwaters to confluence with the Black River, West Fork		A&Wc				FBC			FC		AgL
SR	Horse Camp Creek	Headwaters to confluence with unnamed tributary at 33°54'00"/110°50'07"		A&Wc				FBC			FC		AgL
SR	Horse Camp Creek	Below confluence with unnamed tributary to confluence with Cherry Creek			A&Ww			FBC			FC		AgL
SR	Horton Creek	Headwaters to confluence with Tonto Creek		A&Wc				FBC			FC	AgI	AgL
SR	Houston Creek	Headwaters to confluence with Tonto Creek			A&Ww			FBC			FC		AgL
SR	Hunter Creek	Headwaters to confluence with Christopher Creek		A&Wc				FBC			FC		AgL
SR	LaBarge Creek	Headwaters to Canyon Lake			A&Ww			FBC			FC		

CHAPTER 11. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER QUALITY STANDARDS

Water-shed	Surface Waters	Segment Description and Location (Latitude and Longitudes are in NAD 83)	Lake Category	Aquatic and Wildlife				Human Health				Agricultural	
				A&Wc	A&Ww	A&We	A&Wed w	FBC	PBC	DWS	FC	AgI	AgL
SR	Lake Sierra Blanca	33°52'25"/109°16'05"		A&Wc				FBC			FC	AgI	AgL
SR	Miami Wash	Headwaters to confluence with Pinal Creek				A&We			PBC				
SR	Mule Creek	Headwaters to confluence with Canyon Creek		A&Wc				FBC		DWS	FC	AgI	AgL
SR	Open Draw Creek	Headwaters to confluence with the East Fork of Black River		A&Wc				FBC			FC		AgL
SR	P B Creek	Headwaters to Forest Service Road #203 at 33°57'08"/110°56'12"		A&Wc				FBC			FC		AgL
SR	P B Creek	Below Forest Service Road #203 to Cherry Creek			A&Ww			FBC			FC		AgL
SR	Pinal Creek	Headwaters to confluence with unnamed EDW wash (Globe WWTP) at 33°25'29"/110°48'20"				A&We			PBC				AgL
SR	Pinal Creek (EDW)	Confluence with unnamed EDW wash (Globe WWTP) to 33°26'55"/110°49'25"					A&Wed w		PBC				
SR	Pinal Creek	From 33°26'55"/110°49'25" to Lower Pinal Creek water treatment plant outfall #001 at 33°31'04"/110°51'55"				A&We			PBC				AgL
SR	Pinal Creek	From Lower Pinal Creek WTP outfall # to See Ranch Crossing at 33°32'25"/110°52'28"					A&Wed w		PBC				
SR	Pinal Creek	From See Ranch Crossing to confluence with unnamed tributary at 33°35'28"/110°54'31"			A&Ww			FBC					
SR	Pinal Creek	From unnamed tributary to confluence with Salt River			A&Ww			FBC			FC		
SR	Pine Creek	Headwaters to confluence with the Salt River			A&Ww			FBC			FC		
SR	Pinto Creek	Headwaters to confluence with unnamed tributary at 33°19'27"/110°54'58"		A&Wc				FBC			FC	AgI	AgL
SR	Pinto Creek	Below confluence with unnamed tributary to Roosevelt Lake			A&Ww			FBC			FC	AgI	AgL
SR	Pole Corral Lake	33°30'38"/110°00'15"	Igneous		A&Ww			FBC			FC	AgI	AgL
SR	Pueblo Canyon Creek	Headwaters to confluence with unnamed tributary at 33°50'23"/110°51'37"		A&Wc				FBC			FC		AgL
SR	Pueblo Canyon Creek	Below confluence with unnamed tributary to confluence with Cherry Creek			A&Ww			FBC			FC		AgL
SR	Reevis Creek	Headwaters to confluence with Pine Creek			A&Ww			FBC			FC		
SR	Reservation Creek	Headwaters to confluence with the Black River		A&Wc				FBC			FC		AgL
SR	Reynolds Creek	Headwaters to confluence with Workman Creek		A&Wc				FBC			FC		AgL
SR	Roosevelt Lake	33°52'17"/111°00'17"	Deep		A&Ww			FBC		DWS	FC	AgI	AgL
SR	Russell Gulch	FromHeadwaters to confluence with Miami Wash				A&We			PBC				
SR	Rye Creek	Headwaters to confluence with Tonto Creek			A&Ww			FBC			FC		AgL
SR	Saguaro Lake	33°33'44"/111°30'55"	Deep		A&Ww			FBC		DWS	FC	AgI	AgL
SR	Salome Creek	Headwaters to confluence with the Salt River			A&Ww			FBC			FC	AgI	AgL
SR	Salt House Lake	33°57'04"/109°20'11"	Igneous		A&Ww			FBC			FC		AgL
SR	Salt River	White Mountain Apache Reservation Boundary at 33°48'52"/110°31'33" to Roosevelt Lake			A&Ww			FBC			FC		AgL
SR	Salt River	Theodore Roosevelt Dam to 2 km below Granite Reef Dam			A&Ww			FBC		DWS	FC	AgI	AgL
SR	Slate Creek	Headwaters to confluence with Tonto Creek			A&Ww			FBC			FC		AgL
SR	Snake Creek (OAW)	Headwaters to confluence with the Black River		A&Wc				FBC			FC		AgL
SR	Spring Creek	Headwaters to confluence with Tonto Creek			A&Ww			FBC			FC		AgL
SR	Stinky Creek (OAW)	Headwaters to confluence with the Black River, West Fork		A&Wc				FBC			FC		AgL
SR	Thomas Creek	Headwaters to confluence with Beaver Creek		A&Wc				FBC			FC		AgL
SR	Thompson Creek	Headwaters to confluence with the West Fork of the Black River		A&Wc				FBC			FC		AgL
SR	Tonto Creek	Headwaters to confluence with unnamed tributary at 34°18'11"/111°04'18"		A&Wc				FBC			FC	AgI	AgL
SR	Tonto Creek	Below confluence with unnamed tributary to Roosevelt Lake			A&Ww			FBC			FC	AgI	AgL
SR	Turkey Creek	Headwaters to confluence with Rock Creek		A&Wc				FBC			FC		
SR	Wildcat Creek	Headwaters to confluence with Centerfire Creek		A&Wc				FBC			FC		AgL
SR	Willow Creek	Headwaters to confluence with Beaver Creek		A&Wc				FBC			FC		AgL
SR	Workman Creek	Headwaters to confluence with Reynolds Creek		A&Wc				FBC			FC	AgI	AgL

			Total residual chlorine	33 µg/L (A&Ww acute)
				20 µg/L (A&Ww chronic)
SR	Pinto Creek	From confluence of Ellis Ranch tributary at 33°19'26.7"/110°54'57.5" to the confluence of West Fork of Pinto Creek at 33°27'32.3"/111°00'19.7"	Copper (D)	34 µg/L (A&Ww acute for hardness values below 268 mg/L)
				34 µg/L (A&Ww chronic)

Historical Note

Adopted effective February 18, 1992 (Supp. 92-1). Appendix C repealed effective April 24, 1996 (Supp. 96-2). New Appendix C made by final rulemaking at 14 A.A.R. 4708, effective January 31, 2009 (Supp. 08-4). Amended by final rulemaking at 22 A.A.R. 2328, effective August 2, 2016 (Supp. 16-4). Appendix C amended by final rulemaking at 25 A.A.R. 2515, effective November 9, 2019 (Supp. 19-3).

ARTICLE 2. REPEALED**R18-11-201. Repealed****Historical Note**

Amended effective January 29, 1980 (Supp. 80-1). Amended subsection A. effective April 17, 1984 (Supp. 84-2). Former Section R9-21-201 repealed, former Section R9-21-203 renumbered as Section R9-21-201 and amended effective January 7, 1985 (Supp. 85-1). Amended effective August 12, 1986 (Supp. 86-4). Former Section R9-21-201 renumbered without change as Section R18-11-201 (Supp. 87-3). Amended effective December 1, 1988 (Supp. 88-4). Section repealed effective February 18, 1992 (Supp. 92-1).

R18-11-202. Repealed**Historical Note**

Former Section R9-21-202 repealed, former Section R9-21-102 renumbered as Section R9-21-202 and amended effective January 7, 1985 (Supp. 85-1). Amended subsections (B), (D), and (E) effective August 12, 1986 (Supp. 86-4). Former Section R9-21-202 renumbered without change as Section R18-11-202 (Supp. 87-3). Section repealed, new Section adopted effective February 18, 1992 (Supp. 92-1). Section repealed effective April 24, 1996 (Supp. 96-2).

R18-11-203. Repealed**Historical Note**

Amended effective January 29, 1980 (Supp. 80-1). Amended subsection (B) by adding paragraphs (27) and (28) effective October 14, 1981 (Supp. 81-5). Former Section R9-21-203 renumbered as Section R9-21-201, former Section R9-21-204 renumbered as Section R9-21-203 and amended effective January 7, 1985 (Supp. 85-1). Former Section R9-21-203 renumbered and amended as Section R9-21-204, new Section R9-21-203 adopted effective August 12, 1986 (Supp. 86-4). Former Section R9-21-203 renumbered without change as

Section R18-11-203 (Supp. 87-3). Amended subsection (B) effective December 1, 1988 (Supp. 88-4). Section repealed, new Section adopted effective February 18, 1992 (Supp. 92-1). Section repealed effective April 24, 1996 (Supp. 96-2).

R18-11-204. Repealed**Historical Note**

Former Section R9-21-204 renumbered and amended as Section R9-21-207, former Section R9-21-206 renumbered and amended as Section R9-21-204 effective January 29, 1980 (Supp. 80-1). Former Section R9-21-204 renumbered as Section R9-21-203, former Section R9-21-205 renumbered as Section R9-21-204 and amended effective January 7, 1985 (Supp. 85-1). Former Section R9-21-204 renumbered and amended as Section R9-21-205, former Section R9-21-203 renumbered and amended as Section R9-21-204 effective August 12, 1986 (Supp. 86-4). Former Section R9-21-204 renumbered without change as Section R18-11-204 (Supp. 87-3). Section repealed effective February 18, 1992 (Supp. 92-1).

R18-11-205. Repealed**Historical Note**

Former Section R9-21-205 repealed, new Section R9-21-205 adopted effective January 29, 1980 (Supp. 80-1). Former Section R9-21-205 renumbered as Section R9-21-204, former Section R9-21-206 renumbered as Section R9-21-205 and amended effective January 7, 1985 (Supp. 85-1). Former Section R9-21-205 renumbered and amended as Section R9-21-206, former Section R9-21-204 renumbered and amended as Section R9-21-205 effective August 12, 1986 (Supp. 86-4). Former Section R9-21-205 renumbered without change as Section R18-11-205 (Supp. 87-3). Section repealed, new Section adopted effective February 18, 1992

CHAPTER 11. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER QUALITY STANDARDS

(Supp. 92-1). Section repealed April 24, 1996 (Supp. 96-2).

R18-11-206. Repealed**Historical Note**

Former Section R9-21-206 renumbered and amended as Section R9-21-204, new Section R9-21-206 adopted effective January 29, 1980 (Supp. 80-1). Amended by adding subsection (B) effective October 14, 1981 (Supp. 81-5). Amended subsection (B) and Table 1 effective January 29, 1982 (Supp. 82-1). Amended subsection (B) and Table 1 effective August 13, 1982 (Supp. 82-4). Former Section R9-21-206 renumbered as Section R9-21-205, former Section R9-21-207 renumbered as Section R9-21-206 and amended effective January 7, 1985 (Supp. 85-1). Former Section R9-21-206 renumbered and amended as Section R9-21-207, former Section R9-21-205 renumbered and amended as R9-21-206 effective August 12, 1986 (Supp. 86-4). Former Section R9-21-206 renumbered without change as Section R18-11-206 (Supp. 87-3).

R18-11-207. Repealed**Historical Note**

Former Section R9-21-207 repealed, former Section R9-21-204 renumbered and amended as Section R9-21-207 effective January 29, 1980 (Supp. 80-1). Former Section R9-21-207 renumbered as Section R9-21-206, former Section R9-21-208 renumbered as Section R9-21-207 and amended effective January 7, 1985 (Supp. 85-1). Former Section R9-21-207 renumbered without change as Section R9-21-208, former Section R9-21-206 renumbered and amended as Section R9-21-207 effective August 12, 1986 (Supp. 86-4). Former Section R9-21-207 renumbered without change as Section R18-11-207 (Supp. 87-3). Section repealed effective February 18, 1992 (Supp. 92-1).

R18-11-208. Repealed**Historical Note**

Former Section R9-21-208 repealed, new Section R9-21-208 adopted effective January 29, 1980 (Supp. 80-1). Former Section R9-21-208 renumbered as Section R9-21-207, Appendices 1 through 9 amended as Appendix A (now shown following R9-21-213), former Section R9-21-209 renumbered as R9-21-208 and amended effective January 7, 1985 (Supp. 85-1). Former Section R9-21-208 renumbered and amended as Section R9-21-209, former Section R9-21-207 renumbered without change as Section R9-21-208 effective August 12, 1986 (Supp. 86-4). Former Section R9-21-208 renumbered without change as Section R18-11-208 (Supp. 87-3). Section repealed effective February 18, 1992 (Supp. 92-1).

R18-11-209. Repealed**Historical Note**

Former Section R9-21-209 renumbered and amended as Section R9-21-210, new Section R9-21-209 adopted effective January 29, 1980 (Supp. 80-1). Former Section R9-21-209 renumbered as Section R9-21-208, Tables I and II amended as Appendix B (now shown following R9-21-213 and Appendix A), former Section R9-21-210 renumbered as Section R9-21-209 and amended effective January 7, 1985 (Supp. 85-1). Former Section R9-21-209

renumbered and amended as Section R9-21-210, former Section R9-21-208 renumbered and amended as Section R9-21-209 effective August 12, 1986 (Supp. 86-4). Former Section R9-21-209 renumbered without change as Section R18-11-209 (Supp. 87-3). Section repealed effective February 18, 1992 (Supp. 92-1).

R18-11-210. Repealed**Historical Note**

Former Section R9-21-210 renumbered and amended as Section R9-21-211, former Section R9-21-209 renumbered and amended as Section R9-21-210 effective January 29, 1980 (Supp. 80-1). Amended subsection (A) effective April 17, 1984 (Supp. 84-2). Former Section R9-21-210 renumbered as Section R9-21-209, former Section R9-21-211 renumbered as Section R9-21-210 and amended effective January 7, 1985 (Supp. 85-1). Former Section R9-21-210 renumbered and amended as Section R9-21-211, former Section R9-21-209 renumbered and amended as Section R9-21-210 effective August 12, 1986 (Supp. 86-4). Former Section R9-21-210 renumbered with change as Section R18-11-210 (Supp. 87-3). Section repealed effective February 18, 1992 (Supp. 92-1).

R18-11-211. Repealed**Historical Note**

Former Section R9-21-210 renumbered and amended as Section R9-21-211 effective January 29, 1980 (Supp. 80-1). Amended subsections (D), (G) three (I), and added (J) effective October 14, 1981 (Supp. 81-5). Former Section R9-21-211 renumbered as Section R9-21-210, former Section R9-21-212 renumbered as Section R9-21-211 and amended effective January 7, 1985 (Supp. 85-1). Former Section R9-21-211 renumbered and amended as Section R9-21-212, former Section R9-21-210 renumbered and amended as Section R9-21-211 effective August 12, 1986 (Supp. 86-4). Former Section R9-21-211 renumbered without change as Section R18-11-211 (Supp. 87-3). Section repealed effective February 18, 1992 (Supp. 92-1).

R18-11-212. Repealed**Historical Note**

Adopted effective January 29, 1980 (Supp. 80-1). Former Section R9-21-212 renumbered as Section R9-21-211, former Section R9-21-213 renumbered as Section R9-21-212 and amended effective January 7, 1985 (Supp. 85-1). Former Section R9-21-212 repealed, former Section R9-21-211 renumbered and amended as Section R9-21-212 effective August 12, 1986 (Supp. 86-4). Former Section R9-21-212 renumbered without change as Section R18-11-212 (Supp. 87-3). Section repealed effective February 18, 1992 (Supp. 92-1).

R18-11-213. Repealed**Historical Note**

Adopted effective January 29, 1980 (Supp. 80-1). Amended effective April 17, 1984 (Supp. 84-2). Former Section R9-21-213 renumbered as Section R9-21-212, former Section R9-21-103 renumbered as Section R9-21-213 and amended effective January 7, 1985 (Supp. 85-1). Former Section R9-21-213 renumbered without change as Section R9-21-214, new Section R9-21-213 adopted effective August 12, 1986 (Supp. 86-4). Former Section R9-21-213 renumbered

CHAPTER 11. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER QUALITY STANDARDS

without change as Section R18-11-213 (Supp. 87-3).
Amended effective December 1, 1988 (Supp. 88-4).
Section repealed effective February 18, 1992
(Supp. 92-1).

R18-11-214. Repealed**Historical Note**

Former Section R9-21-213 renumbered without change as Section R9-21-214 effective August 12, 1986 (Supp. 86-4). Former Section R9-21-214 renumbered without change as Section R18-11-214 (Supp. 87-3). Section repealed effective February 18, 1992 (Supp. 92-1).

Appendix A. Repealed**Historical Note**

Former Section R9-21-208, Appendices 1 through 9 renumbered and amended as new Appendix A adopted effective January 7, 1985 (Supp. 85-1). Amended effective August 12, 1986 (Supp. 86-4). Appendix repealed effective February 18, 1992 (Supp. 92-1).

Appendix B. Repealed**Historical Note**

Former R9-21-209, Table 1 and Table 2 renumbered and amended as Appendix B adopted effective January 7, 1985 (Supp. 85-1). Amended effective August 12, 1986 (Supp. 86-4). Appendix repealed effective February 18, 1992 (Supp. 92-1).

ARTICLE 3. RECLAIMED WATER QUALITY STANDARDS**R18-11-301. Definitions**

The terms in this Article have the following meanings:

“Direct reuse” has the meaning prescribed in R18-9-701(1).

“Disinfection” means a treatment process that uses oxidants, ultraviolet light, or other agents to kill or inactivate pathogenic organisms in wastewater.

“Filtration” means a treatment process that removes particulate matter from wastewater by passage through porous media.

“Gray water” means wastewater, collected separately from a sewage flow, that originates from a clothes washer, bathtub, shower, or sink, but it does not include wastewater from a kitchen sink, dishwasher, or a toilet.

“Industrial wastewater” means wastewater generated from an industrial process.

“Landscape impoundment” means a manmade lake, pond, or impoundment of reclaimed water where swimming, wading, boating, fishing, and other water-based recreational activities are prohibited. A landscape impoundment is created for storage, landscaping, or for aesthetic purposes only.

“NTU” means nephelometric turbidity unit.

“On-site wastewater treatment facility” has the meaning prescribed in A.R.S. § 49-201(24).

“Open access” means that access to reclaimed water by the general public is uncontrolled.

“Reclaimed water” has the meaning prescribed in A.R.S. § 49-201(31).

“Recreational impoundment” means a manmade lake, pond, or impoundment of reclaimed water where boating or fishing is an intended use of the impoundment. Swimming and other full-body recreation activities (for example, water-skiing) are prohibited in a recreational impoundment.

“Restricted access” means that access to reclaimed water by the general public is controlled.

“Secondary treatment” means a biological treatment process that achieves the minimum level of effluent quality defined by the federal secondary treatment regulation at 40 CFR § 133.102.

“Sewage” means untreated wastes from toilets, baths, sinks, lavatories, laundries, and other plumbing fixtures in places of human habitation, employment, or recreation.

Historical Note

Adopted effective July 9, 1981 (Supp. 81-4). Former Section R9-21-301 renumbered without change as Section R18-11-301 (Supp. 87-3). Section repealed effective February 18, 1992 (Supp. 92-1). New Section adopted by final rulemaking at 7 A.A.R. 870, effective January 22, 2001 (Supp. 01-1).

R18-11-302. Applicability

This Article applies to the direct reuse of reclaimed water, except for:

1. The direct reuse of gray water, or
2. The direct reuse of reclaimed water from an onsite wastewater treatment facility regulated by a general Aquifer Protection Permit under 18 A.A.C. 9, Article 3.

Historical Note

Adopted effective June 8, 1981 (Supp. 81-3). Amended effective January 7, 1985 (Supp. 85-1). Former Section R9-21-302 renumbered without change as Section R18-11-302 (Supp. 87-3). Section repealed effective February 18, 1992 (Supp. 92-1). New Section adopted by final rulemaking at 7 A.A.R. 870, effective January 22, 2001 (Supp. 01-1).

R18-11-303. Class A+ Reclaimed Water

- A. Class A+ reclaimed water is wastewater that has undergone secondary treatment, filtration, nitrogen removal treatment, and disinfection. Chemical feed facilities to add coagulants or polymers are required to ensure that filtered effluent before disinfection complies with the 24-hour average turbidity criterion prescribed in subsection (B)(1). Chemical feed facilities may remain idle if the 24-hour average turbidity criterion in (B)(1) is achieved without chemical addition.
- B. An owner of a facility shall ensure that:
 1. The turbidity of Class A+ reclaimed water at a point in the wastewater treatment process after filtration and immediately before disinfection complies with the following:
 - a. The 24-hour average turbidity of filtered effluent is two NTUs or less, and
 - b. The turbidity of filtered effluent does not exceed five NTUs at any time.
 2. Class A+ reclaimed water meets the following criteria after disinfection treatment and before discharge to a reclaimed water distribution system:
 - a. There are no detectable fecal coliform organisms in four of the last seven daily reclaimed water samples taken, and
 - b. The single sample maximum concentration of fecal coliform organisms in a reclaimed water sample is less than 23 / 100 ml.
 - c. If alternative treatment processes or alternative turbidity criteria are used, or reclaimed water is blended with other water to produce Class A+ reclaimed water under subsection (C), there are no

CHAPTER 11. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER QUALITY STANDARDS

detectable enteric virus in four of the last seven monthly reclaimed water samples taken.

3. The 5-sample geometric mean concentration of total nitrogen in a reclaimed water sample is less than 10 mg / L.
- C. An owner of a facility may use alternative treatment methods other than those required by subsection (A), or comply with alternative turbidity criteria other than those required by subsection (B)(1), or blend reclaimed water with other water to produce Class A+ reclaimed water provided the owner demonstrates through pilot plant testing, existing water quality data, or other means that the alternative treatment methods, alternative turbidity criteria, or blending reliably produces a reclaimed water that meets the disinfection criteria in subsection (B)(2) and the total nitrogen criteria in subsection (B)(3) before discharge to a reclaimed water distribution system.
- D. Class A+ reclaimed water is not required for any type of direct reuse. A person may use Class A+ reclaimed water for any type of direct reuse listed in Table A.

Historical Note

Adopted effective January 7, 1985 (Supp. 85-1).
Amended effective August 12, 1986 (Supp. 86-4).
Former Section R9-21-303 renumbered without change as Section R18-11-303 (Supp. 87-3). Section repealed effective February 18, 1992 (Supp. 92-1). New Section adopted by final rulemaking at 7 A.A.R. 870, effective January 22, 2001 (Supp. 01-1).

R18-11-304. Class A Reclaimed Water

- A. Class A reclaimed water is wastewater that has undergone secondary treatment, filtration, and disinfection. Chemical feed facilities to add coagulants or polymers are required to ensure that filtered effluent before disinfection complies with the 24-hour average turbidity criterion prescribed in subsection (B)(1). Chemical feed facilities may remain idle if the 24-hour average turbidity criterion in subsection (B)(1) is achieved without chemical addition.
- B. An owner of a facility shall ensure that:
 1. The turbidity of Class A reclaimed water at a point in the wastewater treatment process after filtration and immediately before disinfection complies with the following:
 - a. The 24-hour average turbidity of filtered effluent is two NTUs or less, and
 - b. The turbidity of filtered effluent does not exceed five NTUs at any time.
 2. Class A reclaimed water meets the following criteria after disinfection treatment and before discharge to a reclaimed water distribution system:
 - a. There are no detectable fecal coliform organisms in four of the last seven daily reclaimed water samples taken, and
 - b. The single sample maximum concentration of fecal coliform organisms in a reclaimed water sample is less than 23 / 100 ml.
 - c. If alternative treatment processes or alternative turbidity criteria are used, or reclaimed water is blended with other water to produce Class A reclaimed water under subsection (C), there are no detectable enteric virus in four of the last seven monthly reclaimed water samples taken.
- C. An owner of a facility may use alternative treatment methods other than those required by subsection (A), or comply with alternative turbidity criteria other than those required by subsection (B)(1), or blend reclaimed water with other water to produce Class A reclaimed water provided the owner demonstrates through pilot plant testing, existing water quality data,

or other means that the alternative treatment methods, alternative turbidity criteria, or blending reliably produces a reclaimed water that meets the disinfection criteria in subsection (B)(2) before discharge to a reclaimed water distribution system.

- D. A person shall use Class A reclaimed water for a type of direct reuse listed as Class A in Table A. A person may use Class A reclaimed water for a type of direct reuse listed as Class B or Class C in Table A.

Historical Note

Adopted effective January 7, 1985 (Supp. 85-1).
Amended effective August 12, 1986 (Supp. 86-4).
Former Section R9-21-304 renumbered without change as Section R18-11-304 (Supp. 87-3). Section repealed effective February 18, 1992 (Supp. 92-1). New Section adopted by final rulemaking at 7 A.A.R. 870, effective January 22, 2001 (Supp. 01-1).

R18-11-305. Class B+ Reclaimed Water

- A. Class B+ reclaimed water is wastewater that has undergone secondary treatment, nitrogen removal treatment, and disinfection.
- B. An owner of a facility shall ensure that:
 1. Class B+ reclaimed water meets the following criteria after disinfection treatment and before discharge to a reclaimed water distribution system:
 - a. The concentration of fecal coliform organisms in four of the last seven daily reclaimed water samples is less than 200 / 100 ml.
 - b. The single sample maximum concentration of fecal coliform organisms in a reclaimed water sample is less than 800 / 100 ml.
 2. The 5-sample geometric mean concentration of total nitrogen in a reclaimed water sample is less than 10 mg / L.
- C. Class B+ reclaimed water is not required for a type of direct reuse. A person may use Class B+ reclaimed water for a type of direct reuse listed as Class B or Class C in Table A. A person shall not use Class B+ reclaimed water for a type of direct reuse listed as Class A in Table A.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R. 870, effective January 22, 2001 (Supp. 01-1).

R18-11-306. Class B Reclaimed Water

- A. Class B reclaimed water is wastewater that has undergone secondary treatment and disinfection.
- B. An owner of a facility shall ensure that Class B reclaimed water meets the following criteria after disinfection treatment and before discharge to a reclaimed water distribution system:
 1. The concentration of fecal coliform organisms in four of the last seven daily reclaimed water samples is less than 200 / 100 ml.
 2. The single sample maximum concentration of fecal coliform organisms in a reclaimed water sample is less than 800 / 100 ml.
- C. A person shall use a minimum of Class B reclaimed water for a type of direct reuse listed as Class B in Table A. A person may use Class B reclaimed water for a type of direct reuse listed as Class C in Table A. A person shall not use Class B reclaimed water for a type of direct reuse listed as Class A in Table A.

CHAPTER 11. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER QUALITY STANDARDS

Historical Note

New Section adopted by final rulemaking at 7 A.A.R.
870, effective January 22, 2001 (Supp. 01-1).

R18-11-307. Class C Reclaimed Water

- A.** Class C reclaimed water is wastewater that has undergone secondary treatment in a series of wastewater stabilization ponds, including aeration, with or without disinfection.
- B.** The owner of a facility shall ensure that:
1. The total retention time of Class C reclaimed water in wastewater stabilization ponds is at least 20 days.
 2. Class C reclaimed water meets the following criteria after treatment and before discharge to a reclaimed water distribution system:
 - a. The concentration of fecal coliform organisms in four of the last seven reclaimed water samples taken is less than 1000 / 100 ml.
 - b. The single sample maximum concentration of fecal coliform organisms in a reclaimed water sample is less than 4000 / 100 ml.
- C.** A person shall use a minimum of Class C reclaimed water for a type of direct reuse listed as Class C in Table A. A person shall not use Class C reclaimed water for a type of direct reuse listed as Class A or Class B in Table A.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R.
870, effective January 22, 2001 (Supp. 01-1).

R18-11-308. Industrial Reuse

- A.** The reclaimed water quality requirements for the following direct reuse applications are industry-specific and shall be determined by the Department on a case-by-case basis in a reclaimed water permit issued by the Department under 18 A.A.C. 9, Article 7:
1. Direct reuse of industrial wastewater containing sewage.
 2. Direct reuse of industrial wastewater for the production or processing of any crop used as human or animal food.
- B.** The Department shall use best professional judgment to determine the reclaimed water quality requirements needed to protect public health and the environment for a type of direct reuse specified in subsection (A).

Historical Note

New Section adopted by final rulemaking at 7 A.A.R.
870, effective January 22, 2001 (Supp. 01-1).

R18-11-309. Reclaimed Water Quality Standards for an Unlisted Type of Direct Reuse

- A.** The Department may prescribe in an individual reclaimed water permit issued under 18 A.A.C. 9, Article 7, reclaimed water quality requirements for a type of direct reuse not listed in Table A. Before permitting a direct reuse of reclaimed water not listed in Table A, the Department shall, using its best professional judgment, determine and require compliance with reclaimed water quality requirements needed to protect public health and the environment.
- B.** Department may determine that Class A+, A, B+, B, or C reclaimed water is appropriate for a new type of direct reuse.
- C.** The Department shall consider the following factors when prescribing reclaimed water quality requirements for a new type of direct reuse:
1. The risk to public health;
 2. The degree of public access to the site where the reclaimed water is reused and human exposure to the reclaimed water;
 3. The level of treatment necessary to ensure that the reclaimed water is aesthetically acceptable;

4. The level of treatment necessary to prevent nuisance conditions;
5. Specific water quality requirements for the intended type of direct reuse;
6. The means of application of the reclaimed water;
7. The degree of treatment necessary to avoid a violation of surface water quality standards or aquifer water quality standards;
8. The potential for improper or unintended use of the reclaimed water;
9. The reuse guidelines, criteria, or standards adopted or recommended by the U.S. Environmental Protection Agency or other federal or state agencies that apply to the new type of direct reuse; and
10. Similar wastewater reclamation experience of reclaimed water providers in the United States.

Historical Note

New Section adopted by final rulemaking at 7 A.A.R.
870, effective January 22, 2001 (Supp. 01-1).

Table A. Minimum Reclaimed Water Quality Requirements for Direct Reuse

Type of Direct Reuse	Minimum Class of Reclaimed Water Required
Irrigation of food crops	A
Recreational impoundments	A
Residential landscape irrigation	A
Schoolground landscape irrigation	A
Open access landscape irrigation	A
Toilet and urinal flushing	A
Fire protection systems	A
Spray irrigation of an orchard or vineyard	A
Commercial closed loop air conditioning systems	A
Vehicle and equipment washing (does not include self-service vehicle washes)	A
Snowmaking	A
Surface irrigation of an orchard or vineyard	B
Golf course irrigation	B
Restricted access landscape irrigation	B
Landscape impoundment	B
Dust control	B
Soil compaction and similar construction activities	B
Pasture for milking animals	B
Livestock watering (dairy animals)	B
Concrete and cement mixing	B
Materials washing and sieving	B
Street cleaning	B
Pasture for non-dairy animals	C
Livestock watering (non-dairy animals)	C
Irrigation of sod farms	C
Irrigation of fiber, seed, forage, and similar crops	C
Silviculture	C

Note: Nothing in this Article prevents a wastewater treatment plant from using a higher quality reclaimed water for a type of direct

CHAPTER 11. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER QUALITY STANDARDS

reuse than the minimum class of reclaimed water listed in Table A. For example, a wastewater treatment plant may provide Class A reclaimed water for a type of direct reuse where Class B or Class C reclaimed water is acceptable.

Historical Note

New Table adopted by final rulemaking at 7 A.A.R. 870, effective January 22, 2001 (Supp. 01-1).

ARTICLE 4. AQUIFER WATER QUALITY STANDARDS**R18-11-401. Definitions**

In addition to the definitions contained in A.R.S. §§ 49-101 and 49-201, the terms of this Article shall have the following meanings:

1. "Beta particle and photon radioactivity from man-made radionuclides" means all radionuclides emitting beta particles or photons, except Thorium-232, Uranium-235, Uranium-238 and their progeny.
2. "Dose equivalent" means the product of the absorbed dose from ionizing radiation and such factors as account for differences in biological effectiveness due to the type of radiation and its distribution in the body as specified by the International Commission on Radiological Units and Measurements.
3. "Drinking water protected use" means the protection and maintenance of aquifer water quality for human consumption.
4. "Gross alpha particle activity" means the total radioactivity due to alpha particle emission as inferred from measurements on a dry sample.
5. "Mg/l" means milligrams per liter.
6. "Millirem" means 1/1000 of a rem. A rem means the unit of dose equivalent from ionizing radiation to the total body or any internal organ or organ system.
7. "Non-drinking water protected use" means the protection and maintenance of aquifer water quality for a use other than for human consumption.
8. "pCi" means picocurie, or the quantity of radioactive material producing 2.22 nuclear transformations per minute.
9. "Total trihalomethanes" means the sum of the concentrations of the following trihalomethane compounds: trichloromethane (chloroform), dibromo-chloromethane, bromodichloromethane and tribromo-methane (bromochloroform).

Historical Note

Adopted effective January 4, 1990 (Supp. 90-1).
Amended effective August 14, 1992 (Supp. 92-3).

R18-11-402. Repealed**Historical Note**

Adopted effective January 4, 1990 (Supp. 90-1).
Repealed effective August 14, 1992 (Supp. 92-3).

R18-11-403. Analytical Methods

Analysis of a sample to determine compliance with an aquifer water quality standard shall be in accordance with an analytical method specified in A.A.C. Title 9, Chapter 14, Article 6 or an alternative analytical method that is approved by the Director of the Arizona Department of Health Services pursuant to A.A.C. R9-14-607(B).

Historical Note

Adopted effective January 4, 1990 (Supp. 90-1).
Amended effective August 14, 1992 (Supp. 92-3).

R18-11-404. Laboratories

A test result from a sample taken to determine compliance with an aquifer water quality standard shall be valid only if the sample has

been analyzed by a laboratory that is licensed by the Arizona Department of Health Services for the analysis performed.

Historical Note

Adopted effective January 4, 1990 (Supp. 90-1).
Amended effective August 14, 1992 (Supp. 92-3).

R18-11-405. Narrative Aquifer Water Quality Standards

- A. A discharge shall not cause a pollutant to be present in an aquifer classified for a drinking water protected use in a concentration which endangers human health.
- B. A discharge shall not cause or contribute to a violation of a water quality standard established for a navigable water of the state.
- C. A discharge shall not cause a pollutant to be present in an aquifer which impairs existing or reasonably foreseeable uses of water in an aquifer.

Historical Note

Adopted effective January 4, 1990 (Supp. 90-1).
Amended effective August 14, 1992 (Supp. 92-3).

R18-11-406. Numeric Aquifer Water Quality Standards: Drinking Water Protected Use

- A. The aquifer water quality standards in this Section apply to aquifers that are classified for drinking water protected use.
- B. The following are the aquifer water quality standards for inorganic chemicals:

Pollutant	mg/L)
Antimony	0.006
Arsenic	0.05
Asbestos	7 million fibers/liter (longer than 10 mm)
Barium	2
Beryllium	0.004
Cadmium	0.005
Chromium	0.1
Cyanide (As Free Cyanide)	0.2
Fluoride	4.0
Lead	0.05
Mercury	0.002
Nickel	0.1
Nitrate (as N)	10
Nitrite (as N)	1
Nitrate and nitrite (as N)	10
Selenium	0.05
Thallium	0.002

- C. The following are the aquifer water quality standards for organic chemicals:

Pollutant	(mg/L)
Benzene	0.005
Benzo (a) pyrene	0.0002
Carbon Tetrachloride	0.005
o-Dichlorobenzene	0.6
para-Dichlorobenzene	0.075
1,2-Dichloroethane	0.005
1,1-Dichloroethylene	0.007
cis-1,2-Dichloroethylene	0.07
trans-1,2-Dichloroethylene	0.1
1,2-Dichloropropane	0.005
Dichloromethane	0.005

CHAPTER 11. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER QUALITY STANDARDS

Di (2-ethylhexyl) adipate	0.4
Di (2-ethylhexyl) phthalate	0.006
Ethylbenzene	0.7
Hexachlorobenzene	0.001
Hexachlorocyclopentadiene	0.05
Monochlorobenzene	0.1
Pentachlorophenol	0.001
Styrene	0.1
2,3,7,8-TCDD (Dioxin)	0.00000003
Tetrachloroethylene	0.005
Toluene	1
Trihalomethanes (Total)	0.10
1,2,4-Trichlorobenzene	0.07
1,1,1-Trichloroethane	0.20
1,1,2-Trichloroethane	0.005
Trichloroethylene	0.005
Vinyl Chloride	0.002
Xylenes (Total)	10

D. The following are the aquifer water quality standards for pesticides and polychlorinated biphenyls (PCBs):

Pollutant	(mg/L)
Alachlor	0.002
Atrazine	0.003
Carbofuran	0.04
Chlordane	0.002
Dalapon	0.2
1,2-Dibromo-3-Chloropropane (DBCP)	0.0002
2,4,-Dichlorophenoxyacetic Acid(2,4-D)	0.07
Dinoseb	0.007
Diquat	0.02
Endothall	0.1
Endrin	0.002
Ethylene Dibromide (EDB)	0.00005
Glyphosate	0.7
Heptachlor	0.0004
Heptachlor Epoxide	0.0002
Lindane	0.0002
Methoxychlor	0.04
Oxamyl	0.2
Picloram	0.5
Polychlorinated Biphenols (PCBs)	0.0005
Simazine	0.004
Toxaphene	0.003
2,4,5-Trichlorophenoxypropionic Acid (2,4,5-TP or Silvex)	0.05

E. The following are the aquifer water quality standards for radionuclides:

1. The maximum concentration for gross alpha particle activity, including Radium-226 but excluding radon and uranium, shall not exceed 15 pCi/l.
2. The maximum concentration for combined Radium-226 and Radium-228 shall not exceed 5 pCi/l.
3. The average annual concentration of beta particle and photon radioactivity from man-made radionuclides shall not produce an annual dose equivalent to the total body or any internal organ greater than 4 millirem/year.

4. Except for the radionuclides listed in this subsection, the concentration of man-made radionuclides causing 4 millirem total body or organ dose equivalents shall be calculated on the basis of a 2-liter-per-day drinking water intake using the 168-hour data listed in "Maximum Permissible Body Burdens and Maximum Permissible Concentration of Radionuclides in Air or Water for Occupational Exposure," National Bureau of Standards Handbook 69, National Bureau of Commerce, as amended August 1963 (and no future editions), incorporated herein by reference and on file with the Office of the Secretary of State and with the Department. If two or more radionuclides are present, the sum of their annual dose equivalent to the total body or to any organ shall not exceed 4 millirem/year. The following average annual concentrations are assumed to produce a total body or organ dose of 4 millirem/year:

Radionuclide	Critical Organ	pCi/l
Tritium	Total body	20,000
Strontium-90	Bone Marrow	8

- F.** The aquifer water quality standard for microbiological contaminants is based upon the presence or absence of total coliforms in a 100-milliliter sample. If a sample is total coliform-positive, a 100-milliliter repeat sample shall be taken within two weeks of the time the sample results are reported. Any total coliform-positive repeat sample following a total coliform-positive sample constitutes a violation of the aquifer water quality standard for microbiological contaminants.

G. The following are the aquifer water quality standards for turbidity:

1. One nephelometric turbidity unit as determined by a monthly average except that five or fewer nephelometric turbidity units may be allowed if it can be determined that the higher turbidity does not interfere with disinfection, prevent maintenance of effective disinfectant agents in water supply distribution systems, or interfere with microbiological determinations.
2. Five nephelometric turbidity units based on an average of two consecutive days.

Historical Note

Adopted effective January 4, 1990 (Supp. 90-1).

Amended effective August 14, 1992 (Supp. 92-3).

Amended effective May 26, 1994 (Supp. 94-2).

R18-11-407. Aquifer Water Quality Standards in Reclassified Aquifers

- A.** All aquifers in the state are classified for drinking water protected use except for aquifers which are reclassified to a non-drinking water protected use pursuant to A.R.S. § 49-224 and A.A.C. R18-11-503.
- B.** Aquifer water quality standards for drinking water protected use apply to reclassified aquifers except where expressly superseded by aquifer water quality standards adopted pursuant to subsection (C) of this Section.
- C.** The Director shall adopt, by rule, aquifer water quality standards for reclassified aquifers within one year of the date of the order reclassifying the aquifer to a nondrinking water protected use. The Director shall adopt aquifer water quality standards for reclassified aquifers only for pollutants that are specifically identified in a petition for reclassification as prescribed by A.R.S. § 49-223(D) and A.A.C. R18-11-503(B). Aquifer water quality standards for reclassified aquifers shall be sufficient to protect the use of the reclassified aquifer.

CHAPTER 11. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER QUALITY STANDARDS

Historical Note

Adopted effective January 4, 1990 (Supp. 90-1).
Amended effective August 14, 1992 (Supp. 92-3).

R18-11-408. Petition for Adoption of a Numeric Aquifer Water Quality Standard

- A. Any person may petition the Director to adopt, by rule, a numeric aquifer water quality standard for a pollutant for which no numeric aquifer water quality standard exists.
- B. Petitions for adoption of a numeric aquifer water quality standard shall be filed with the Department and shall comply with the requirements applicable to petitions for rule adoption as provided by A.R.S. § 41-1033 and A.A.C. R18-1-302, except as otherwise provided by A.R.S. § 49-223 or this Section.
- C. In addition to the requirements of A.A.C. R18-1-302, a petition for rule adoption to establish a numeric aquifer water quality standard shall include specific reference to:
 1. Technical information that the pollutant is a toxic pollutant.
 2. Technical information upon which the Director reasonably may base the establishment of a numeric aquifer water quality standard.
 3. Evidence that the pollutant that is the subject of the petition is or may in the future be present in an aquifer or part of an aquifer that is classified for drinking water protected use. Evidence may include, but is not limited to, any of the following:
 - a. A laboratory analysis of a water sample by a laboratory licensed by the Arizona Department of Health Services which indicates the presence of the pollutant in the aquifer.
 - b. A hydrogeological study which demonstrates that the pollutant that is the subject of the petition may be present in an aquifer in the future. The hydrogeological study shall include the following:
 - i. A description of the use that results in a discharge of the pollutant that is the subject of the petition.
 - ii. A description of the mobility of the pollutant in the vadose zone and in the aquifer.
 - iii. A description of the persistence of the pollutant in the vadose zone and in the aquifer.
- D. Within 180 calendar days of the receipt of a complete petition for rule adoption to establish a numeric aquifer water quality standard, the Director shall make a written determination of whether the petition should be granted or denied. The Director shall give written notice by regular mail of the determination to the petitioner.
- E. If the petition for rule adoption is granted, the Director shall initiate rulemaking proceedings to adopt a numeric aquifer water quality standard. The Director shall, within one year of the date that the petition for adoption of a numeric aquifer water quality standard is granted, either adopt a rule establishing a numeric aquifer water quality standard or publish a notice of termination of rulemaking in the Arizona Administrative Register.
- F. If the petition for rule adoption is denied, the Director shall issue a denial letter to the petitioner which explains the reasons for the denial. The denial of a petition for rule adoption to establish a numeric aquifer water quality standard is not subject to judicial review.

Historical Note

Adopted effective January 4, 1990 (Supp. 90-1).

Appendix 1. Repealed**Historical Note**

ARTICLE 5. AQUIFER BOUNDARY AND PROTECTED USE CLASSIFICATION**R18-11-501. Definitions**

In addition to the definitions contained in A.R.S. § 49-201, the words and phrases of this Article shall have the following meaning:

1. "Drinking water protected use" means the protection and maintenance of aquifer water quality for human consumption.
2. "Hardrock areas containing little or no water" means areas of igneous or metamorphic rock which do not yield usable quantities of water.
3. "Nondrinking water protected use" means the protection and maintenance of aquifer water quality for a use other than human consumption.
4. "Usable quantities" means five gallons of water per day.

Historical Note

Adopted effective October 22, 1987 (Supp. 87-4).

R18-11-502. Aquifer boundaries

- A. Except as provided in subsection (B) of this rule, aquifer boundaries for the aquifers in this state are identified and defined as being identical to the hydrologic basin and subbasin boundaries, as found by the Director of the Department of Water Resources, Findings and Order In the Matter of The Designation of Groundwater Basins and Subbasins In The State of Arizona (dated June 21, 1984), pursuant to A.R.S. §§ 45-403 and 45-404, which is incorporated herein by reference and on file with the Department of Environmental Quality and the Office of the Secretary of State.
- B. Excluded from the boundaries of the aquifers are hard rock areas which contain little or no water, as identified in Plate 1 of the Department of Water Resources, Water Resource Hydro-

CHAPTER 11. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER QUALITY STANDARDS

logic Map Series Report Number 2 (dated January 1981) and as further identified in the Bureau of Mines, University of Arizona County Geologic Map Series (individual county maps dated 1957 through 1960), which are incorporated herein by reference and on file with the Department of Environmental Quality and the Office of the Secretary of State.

- C. The Director may, by rule, modify or add an aquifer boundary provided that one or more of the following applies:
1. The Department of Water Resources modifies the boundaries of its basins or subbasins.
 2. The Director is made aware of new technical information or data which supports refinement of an aquifer boundary.
- D. Facilities located outside of the boundaries defined in these rules shall be subject to A.R.S. § 49-241 except as provided therein.

Historical Note

Adopted effective October 22, 1987 (Supp. 87-4).

R18-11-503. Petition for reclassification

- A. Any person may petition the Director to reclassify an aquifer from a drinking water protected use to a nondrinking water protected use pursuant to A.R.S. § 49-224(C).
- B. A written petition for reclassification pursuant to A.R.S. § 49-224(C) or A.R.S. § 49-224(D) shall be filed with the Department and shall include the following categories of information:
1. The proposed protected use for which the reclassification is being requested.
 2. The pollutant and affected aquifer water quality standards for which the reclassification is being requested.
 3. A hydrogeologic report which demonstrates that the aquifer proposed for reclassification is or will be hydrologically isolated, to the extent described in A.R.S. § 49-224(C)(1). This report and demonstration of hydrologic isolation for the area containing such aquifer, and immediate adjacent geologic units, shall include at least the following:
 - a. Hydrogeologic area maps and cross sections.
 - b. An analysis of subsurface geology, including geologic and hydrologic separation.
 - c. Water level elevation or piezometric level contour maps.
 - d. Analysis of hydrologic characteristics of the aquifer and the immediate adjacent geologic units.
 - e. Description of existing water quality and analysis of water chemistry.
 - f. Projected annual quantity of water to be withdrawn.
 - g. Identification of pumping centers, cones of depression and areas of recharge.
 - h. A water balance.
 - i. Existing flow direction and evaluation of the effects of seasonal and future pumping on flow.
 - j. An evaluation as to whether the reclassification will contribute to or cause a violation of aquifer water quality standards in other aquifers, or in parts of the aquifer not being proposed for reclassification.
 4. Documentation demonstrating that water from the aquifer or part of the aquifer for which reclassification is proposed is not being used as drinking water. This documentation shall include at least the following:
 - a. A list of all wells or springs including their location, ownership and use within the aquifer or part of the aquifer being proposed for reclassification.
 - b. Identification of groundwater withdrawal rights, on file with the Department of Water Resources, within

the aquifer or part of the aquifer being proposed for reclassification.

- c. A comprehensive list of agencies, persons and other information sources consulted for aquifer use documentation.
5. A cost-benefit analysis developed pursuant to the requirements of A.R.S. § 49-224(C)(3), except for petitions submitted pursuant to A.R.S. § 49-224(D). This analysis shall identify potential future uses of the aquifer being proposed for reclassification, as well as other opportunity costs associated with reclassification, and shall contain a description of the cost-benefit methodology used, including all assumptions, data, data sources and criteria considered and all supporting statistical analyses.

Historical Note

Adopted effective October 22, 1987 (Supp. 87-4).

R18-11-504. Agency action on petition

- A. Upon receipt of a petition for reclassification, the Director shall review the petition for compliance with the requirements of R18-11-503. If additional information is necessary, the petitioner shall be notified of specific deficiencies in writing within 30 calendar days of receipt of the petition.
- B. Within 120 calendar days after receipt of a complete petition, and after consultation with the appropriate advisory council pursuant to A.R.S. §§ 49-224(C) and 49-204, the Director shall make a final decision to grant or deny the petition and shall notify the petitioner of such decision and the reason for such determination in writing.
- C. Upon a decision to grant a petition for aquifer reclassification, the Director shall initiate proceedings for promulgation of aquifer water quality standards and, if applicable, for aquifer boundary designation for the reclassified aquifers.

Historical Note

Adopted effective October 22, 1987 (Supp. 87-4).

R18-11-505. Public participation

- A. Within 30 days of receipt of a complete petition for reclassification filed pursuant to A.R.S. § 49-224(D), or if the Director deems it necessary to consider a reclassification under A.R.S. § 49-224(C), the Director shall give public notice of the proposed reclassification pursuant to A.A.C. R18-1-401.
- B. The Director shall hold at least one public hearing at a location as near as practicable to the aquifer proposed for reclassification. The Director shall give notice of each public hearing and conduct the public hearing in accordance with the provisions of A.A.C. R18-1-402.

Historical Note

Adopted effective June 29, 1989 (Supp. 89-2).

R18-11-506. Rescission of reclassification

The Director may, by rule, rescind an aquifer reclassification and return an aquifer to a drinking water protected use if he determines that any of the conditions under which the reclassification was granted are no longer valid. If the Director initiates a change under this Section, he shall consult with the appropriate advisory council pursuant to A.R.S. §§ 49-224(C) and 49-204.

Historical Note

Adopted effective October 22, 1987 (Supp. 87-4).

ARTICLE 6. IMPAIRED WATER IDENTIFICATION

Article 6, consisting of Sections R18-11-601 through R18-11-606, made by final rulemaking at 8 A.A.R. 3380, effective July 12, 2002 (Supp. 02-3).

R18-11-601. Definitions

CHAPTER 11. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER QUALITY STANDARDS

In addition to the definitions established in A.R.S. §§ 49-201 and 49-231, and A.A.C. R18-11-101, the following terms apply to this Article:

1. "303(d) List" means the list of surface waters or segments required under section 303(d) of the Clean Water Act and A.R.S. Title 49, Chapter 2, Article 2.1, for which TMDLs are developed and submitted to EPA for approval.
2. "Attaining" means there is sufficient, credible, and scientifically defensible data to assess a surface water or segment and the surface water or segment does not meet the definition of impaired or not attaining.
3. "AZPDES" means the Arizona Pollutant Elimination Discharge System.
4. "Credible and scientifically defensible data" means data submitted, collected, or analyzed using:
 - a. Quality assurance and quality control procedures under A.A.C. R18-11-602;
 - b. Samples or analyses representative of water quality conditions at the time the data were collected;
 - c. Data consisting of an adequate number of samples based on the nature of the water in question and the parameters being analyzed; and
 - d. Methods of sampling and analysis, including analytical, statistical, and modeling methods that are generally accepted and validated by the scientific community as appropriate for use in assessing the condition of the water.
5. "Designated use" means those uses specified in 18 A.A.C. 11, Article 1 for each surface water or segment whether or not they are attaining.
6. "EPA" means the U.S. Environmental Protection Agency.
7. "Impaired water" means a Navigable water for which credible scientific data exists that satisfies the requirements of A.R.S. § 49-232 and that demonstrates that the water should be identified pursuant to 33 United States Code § 1313(d) and the regulations implementing that statute. A.R.S. § 49-231(1).
8. "Laboratory detection limit" means a "Method Reporting Limit" (MRL) or "Reporting Limit" (RL). These analogous terms describe the laboratory reported value, which is the lowest concentration level included on the calibration curve from the analysis of a pollutant that can be quantified in terms of precision and accuracy.
9. "Monitoring entity" means the Department or any person who collects physical, chemical, or biological data used for an impaired water identification or a TMDL decision.
10. "Naturally occurring condition" means the condition of a surface water or segment that would have occurred in the absence of pollutant loadings as a result of human activity.
11. "Not attaining" means a surface water is assessed as impaired, but is not placed on the 303(d) List because:
 - a. A TMDL is prepared and implemented for the surface water;
 - b. An action, which meets the requirements of R18-11-604(D)(2)(h), is occurring and is expected to bring the surface water to attaining before the next 303(d) List submission; or
 - c. The impairment of the surface water is due to pollution but not a pollutant, for which a TMDL load allocation cannot be developed.
12. "NPDES" means National Pollutant Discharge Elimination System.
13. "Planning List" means a list of surface waters and segments that the Department will review and evaluate to determine if the surface water or segment is impaired and whether a TMDL is necessary.
14. "Pollutant" means dredged spoil, solid waste, incinerator residue, sewage, garbage, sewage sludge, munitions, chemical wastes, biological materials, radioactive materials, heat, wrecked or discarded equipment, rock, sand, cellar dirt and industrial, municipal, and agricultural waste discharged into water. 33 U.S.C. 1362(6). Characteristics of water, such as dissolved oxygen, pH, temperature, turbidity, and suspended sediment are considered pollutants if they result or may result in the non-attainment of a water quality standard.
15. "Pollution" means "the man-made or man-induced alteration of the chemical, physical, biological, and radiological integrity of water." 33 U.S.C. 1362(19).
16. "QAP" means a quality assurance plan detailing how environmental data operations are planned, implemented, and assessed for quality during the duration of a project.
17. "Sampling event" means one or more samples taken under consistent conditions on one or more days at a distinct station or location.
18. "SAP" means a site specific sampling and analysis plan that describes the specifics of sample collection to ensure that data quality objectives are met and that samples collected and analyzed are representative of surface water conditions at the time of sampling.
19. "Spatially independent sample" means a sample that is collected at a distinct station or location. The sample is independent if the sample was collected:
 - a. More than 200 meters apart from other samples, or
 - b. Less than 200 meters apart, and collected to characterize the effect of an intervening tributary, outfall or other pollution source, or significant hydrographic or hydrologic change.
20. "Temporally independent sample" means a sample that is collected at the same station or location more than seven days apart from other samples.
21. "Threatened" means that a surface water or segment is currently attaining its designated use, however, trend analysis, based on credible and scientifically defensible data, indicates that the surface water or segment is likely to be impaired before the next listing cycle.
22. "TMDL" means total maximum daily load.
23. "TMDL decision" means a decision by the Department to:
 - a. Prioritize an impaired water for TMDL development,
 - b. Develop a TMDL for an impaired water, or
 - c. Develop a TMDL implementation plan.
24. *"Total maximum daily load" means an estimation of the total amount of a pollutant from all sources that may be added to a water while still allowing the water to achieve and maintain applicable surface water quality standards. Each total maximum daily load shall include allocations for sources that contribute the pollutant to the water, as required by section 303(d) of the clean water act (33 United States Code section 1313(d)) and regulations implementing that statute to achieve applicable surface water quality standards. A.R.S. § 49-231(4).*
25. "Water quality standard" means a standard composed of designated uses (classification of waters), the numerical and narrative criteria applied to the specific water uses or classification, the antidegradation policy, and moderating provisions, for example, mixing zones, site-specific alternative criteria, and exemptions, in A.A.C. Title 18, Chapter 11, Article 1.

CHAPTER 11. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER QUALITY STANDARDS

26. "WQARF" means the water quality assurance revolving fund established under A.R.S. § 49-282.

Historical Note

New Section made by final rulemaking at 8 A.A.R. 3380, effective July 12, 2002 (Supp. 02-3).

R18-11-602. Credible Data

- A. Data are credible and relevant to an impaired water identification or a TMDL decision when:

1. Quality Assurance Plan. A monitoring entity, which contribute data for an impaired water identification or a TMDL decision, provides the Department with a QAP that contains, at a minimum, the elements listed in subsections (A)(1)(a) through (A)(1)(f). The Department may accept a QAP containing less than the required elements if the Department determines that an element is not relevant to the sampling activity and that its omission will not impact the quality of the results based upon the type of pollutants to be sampled, the type of surface water, and the purpose of the sampling.
 - a. An approval page that includes the date of approval and the signatures of the approving officials, including the project manager and project quality assurance manager;
 - b. A project organization outline that identifies all key personnel, organizations, and laboratories involved in monitoring, including the specific roles and responsibilities of key personnel in carrying out the procedures identified in the QAP and SAP, if applicable;
 - c. Sampling design and monitoring data quality objectives or a SAP that meets the requirements of subsection (A)(2) to ensure that:
 - i. Samples are spatially and temporally representative of the surface water;
 - ii. Samples are representative of water quality conditions at the time of sampling, and
 - iii. The monitoring is reproducible;
 - d. The following field sampling information to assure that samples meet data quality objectives:
 - i. Sampling and field protocols for each parameter or parametric group, including the sampling methods, equipment and containers, sample preservation, holding times, and any analysis proposed for completion in the field or outside of a laboratory;
 - ii. Field and laboratory methods approved under subsection (A)(5);
 - iii. Handling procedures to identify samples and custody protocols used when samples are brought from the field to the laboratory for analysis;
 - iv. Quality control protocols that describe the number and type of field quality control samples for the project that includes, if appropriate for the type of sampling being conducted, field blanks, travel blanks, equipment blanks, method blanks, split samples, and duplicate samples;
 - v. Procedures for testing, inspecting, and maintaining field equipment;
 - vi. Field instrument calibration procedures that describe how and when field sampling and analytical instruments will be calibrated;
 - vii. Field notes and records that describe the conditions that require documentation in the field,

such as weather, stream flow, transect information, distance from water edge, water and sample depth, equipment calibration measurements, field observations of watershed activities, and bank conditions. Indicate the procedures implemented for maintaining field notes and records and the process used for attaching pertinent information to monitoring results to assist in data interpretation;

- viii. Minimum training and any specialized training necessary to do the monitoring, that includes the proper use and calibration of field equipment used to collect data, sampling protocols, quality assurance/quality control procedures, and how training will be achieved;
- e. Laboratory analysis methods and quality assurance/quality control procedures that assure that samples meet data quality objectives, including:
 - i. Analytical methods and equipment necessary for analysis of each parameter, including identification of approved laboratory methods described in subsection (A)(5), and laboratory detection limits for each parameter;
 - ii. The name of the designated laboratory, its license number, if licensed by the Arizona Department of Health Services, and the name of a laboratory contact person to assist the Department with quality assurance questions;
 - iii. Quality controls that describe the number and type of laboratory quality control samples for the project, including, if appropriate for the type of sampling being conducted, field blanks, travel blanks, equipment blanks, method blanks, split samples, and duplicate samples;
 - iv. Procedures for testing, inspecting, and maintaining laboratory equipment and facilities;
 - v. A schedule for calibrating laboratory instruments, a description of calibration methods, and a description of how calibration records are maintained; and
 - vi. Sample equipment decontamination procedures that outline specific methods for sample collection and preparation of equipment, identify the frequency of decontamination, and describe the procedures used to verify decontamination;
- f. Data review, management, and use that includes the following:
 - i. A description of the data handling process from field to laboratory, from laboratory to data review and validation, and from validation to data storage and use. Include the role and responsibility of each person for each step of the process, type of database or other storage used, and how laboratory and field data qualifiers are related to the laboratory result;
 - ii. Reports that describe the intended frequency, content, and distribution of final analysis reports and project status reports;
 - iii. Data review, validation, and verification that describes the procedure used to validate and verify data, the procedures used if errors are detected, and how data are accepted, rejected, or qualified; and
 - iv. Reconciliation with data quality objectives that describes the process used to determine whether the data collected meets the project

CHAPTER 11. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER QUALITY STANDARDS

- objectives, which may include discarding data, setting limits on data use, or revising data quality objectives.
2. Sampling and analysis plan.
 - a. A monitoring entity shall develop a SAP that contains, at a minimum, the following elements:
 - i. The experimental design of the project, the project goals and objectives, and evaluation criteria for data results;
 - ii. The background or historical perspective of the project;
 - iii. Identification of target conditions, including a discussion of whether any weather, seasonal variations, stream flow, lake level, or site access may affect the project and the consideration of these factors;
 - iv. The data quality objectives for measurement of data that describe in quantitative and qualitative terms how the data meet the project objectives of precision, accuracy, completeness, comparability, and representativeness;
 - v. The types of samples scheduled for collection;
 - vi. The sampling frequency;
 - vii. The sampling periods;
 - viii. The sampling locations and rationale for the site selection, how site locations are benchmarked, including scaled maps indicating approximate location of sites; and
 - ix. A list of the field equipment, including tolerance range and any other manufacturer's specifications relating to accuracy and precision.
 - b. The Department may accept a SAP containing less than the required elements if the Department determines that an element is not relevant to the sampling activity and that its omission will not impact the quality of the results based upon the type of pollutants to be samples, the type of surface water, and the purpose of the sampling.
 3. The monitoring entity may include any of the following in the QAP or SAP:
 - a. The name, title, and role of each person and organization involved in the project, identifying specific roles and responsibilities for carrying out the procedures identified in the QAP and SAP;
 - b. A distribution list of each individual and organization receiving a copy of the approved QAP and SAP;
 - c. A table of contents;
 - d. A health and safety plan;
 - e. The inspection and acceptance requirements for supplies;
 - f. The data acquisition that describes types of data not obtained through this monitoring activity, but used in the project;
 - g. The audits and response actions that describe how field, laboratory, and data management activities and sampling personnel are evaluated to ensure data quality, including a description of how the project will correct any problems identified during these assessments; and
 - h. The waste disposal methods that identify wastes generated in sampling and methods for disposal of those wastes.
 4. Exceptions. The Department may determine that the following data are also credible and relevant to an impaired water identification or TMDL decision when data were collected, provided the conditions in subsections (A)(5), (A)(6), and (B) are met, and where the data were collected in the surface water or segment being evaluated for impairment:
 - a. The data were collected before July 12, 2002 and the Department determines that the data yield results of comparable reliability to the data collected under subsections (A)(1) and (A)(2);
 - b. The data were collected after July 12, 2002 as part of an ongoing monitoring effort by a governmental agency and the Department determines that the data yield results of comparable reliability to the data collected under subsections (A)(1) and (A)(2); or
 - c. The instream water quality data were or are collected under the terms of a NPDES or AZPDES permit or a compliance order issued by the Department or EPA, a consent decree signed by the Department or EPA, or a sampling program approved by the Department or EPA under WQARF or CERCLA, and the Department determines that the data yield results of comparable reliability to data collected under subsections (A)(1) and (A)(2).
 5. Data collection, preservation, and analytical procedures. The monitoring entity shall collect, preserve, and analyze data using methods of sample collection, preservation, and analysis established under A.A.C. R9-14-610.
 6. Laboratory. The monitoring entity shall ensure that chemical and toxicological samples are analyzed in a state-licensed laboratory, a laboratory exempted by the Arizona Department of Health Services for specific analyses, or a federal or academic laboratory that can demonstrate proper quality assurance/quality control procedures substantially equal to those required by the Arizona Department of Health Services, and shall ensure that the laboratory uses approved methods identified in A.A.C. R9-14-610.
 - B. Documentation for data submission.** The monitoring entity shall provide the Department with the following information either before or with data submission:
 1. A copy of the QAP or SAP, or both, revisions to a previously submitted QAP or SAP, and any other information necessary for the Department to evaluate the data under subsection (A)(4);
 2. The applicable dates of the QAP and SAP, including any revisions;
 3. Written assurance that the methods and procedures specified in the QAP and SAP were followed;
 4. The name of the laboratory used for sample analyses and its certification number, if the laboratory is licensed by the Arizona Department of Health Services;
 5. The quality assurance/quality control documentation, including the analytical methods used by the laboratory, method number, detection limits, and any blank, duplicate, and spike sample information necessary to properly interpret the data, if different from that stated in the QAP or SAP;
 6. The data reporting unit of measure;
 7. Any field notes, laboratory comments, or laboratory notations concerning a deviation from standard procedures, quality control, or quality assurance that affects data reliability, data interpretation, or data validity; and
 8. Any other information, such as complete field notes, photographs, climate, or other information related to flow, field conditions, or documented sources of pollutants in the watershed, if requested by the Department for interpreting or validating data.

CHAPTER 11. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER QUALITY STANDARDS

- C. Recordkeeping. The monitoring entity shall maintain all records, including sample results, for the duration of the listing cycle. If a surface water or segment is added to the Planning List or to the 303(d) List, the Department shall coordinate with the monitoring entity to ensure that records are kept for the duration of the listing.

Historical Note

New Section made by final rulemaking at 8 A.A.R. 3380, effective July 12, 2002 (Supp. 02-3).

R18-11-603. General Data Interpretation Requirements

- A. The Department shall use the following data conventions to interpret data for impaired water identifications and TMDL decisions:

1. Data reported below laboratory detection limits.
 - a. When the analytical result is reported as $<X$, where X is the laboratory detection limit for the analyte and the laboratory detection limit is less than or equal to the surface water quality standard, consider the result as meeting the water quality standard:
 - i. Use these statistically derived values in trend analysis, descriptive statistics or modeling if there is sufficient data to support the statistical estimation of values reported as less than the laboratory detection limit; or
 - ii. Use one-half of the value of the laboratory detection limit in trend analysis, descriptive statistics, or modeling, if there is insufficient data to support the statistical estimation of values reported as less than the laboratory detection limit.
 - b. When the sample value is less than or equal to the laboratory detection limit but the laboratory detection limit is greater than the surface water quality standard, shall not use the result for impaired water identifications or TMDL decisions;
2. Identify the field equipment specifications used for each listing cycle or TMDL developed. A field sample measurement within the manufacturer's specification for accuracy meets surface water quality standards;
3. Resolve a data conflict by considering the factors identified under the weight-of-evidence determination in R18-11-605(B);
4. When multiple samples from a surface water or segment are not spatially or temporally independent, or when lake samples are from multiple depths, use the following resultant value to represent the specific dataset:
 - a. The appropriate measure of central tendency for the dataset for:
 - i. A pollutant listed in the surface water quality standards 18 A.A.C. 11, Article 1, Appendix A, Table 1, except for nitrate or nitrate/nitrite;
 - ii. A chronic water quality standard for a pollutant listed in 18 A.A.C. 11, Article 1, Appendix A, Table 2;
 - iii. A surface water quality standard for a pollutant that is expressed as an annual or geometric mean;
 - iv. The surface water quality standard for temperature or the single sample maximum water quality standard for suspended sediment concentration, nitrogen, and phosphorus in R18-11-109;
 - v. The surface water quality standard for radiochemicals in R18-11-109(G); or

- vi. Except for chromium, all single sample maximum water quality standards in R18-11-112.
- b. The maximum value of the dataset for:
 - i. The acute water quality standard for a pollutant listed in 18 A.A.C. 11, Article 1, Appendix A, Table 2 and acute water quality standard in R18-11-112;
 - ii. The surface water quality standard for nitrate or nitrate/nitrite in 18 A.A.C. 11, Article 1, Appendix A, Table 1;
 - iii. The single sample maximum water quality standard for bacteria in subsections R18-11-109(A); or
 - iv. The 90th percentile water quality standard for nitrogen and phosphorus in R18-11-109(F) and R18-11-112.
- c. The worst case measurement of the dataset for:
 - i. Surface water quality standard for dissolved oxygen under R18-11-109(E). For purposes of this subsection, worst case measurement means the minimum value for dissolved oxygen;
 - ii. Surface water quality standard for pH under R18-11-109(B). For purposes of this subsection, "worst case measurement" means both the minimum and maximum value for pH.

- B. The Department shall not use the following data for placing a surface water or segment on the Planning List, the 303(d) List, or in making a TMDL decision.
1. Any measurement outside the range of possible physical or chemical measurements for the pollutant or measurement equipment,
 2. Uncorrected data transcription errors or laboratory errors, and
 3. An outlier identified through statistical procedures, where further evaluation determines that the outlier represents a valid measure of water quality but should be excluded from the dataset.
- C. The Department may employ fundamental statistical tests if appropriate for the collected data and type of surface water when evaluating a surface water or segment for impairment or in making a TMDL decision. The statistical tests include descriptive statistics, frequency distribution, analysis of variance, correlation analysis, regression analysis, significance testing, and time series analysis.
- D. The Department may employ modeling when evaluating a surface water or segment for impairment or in making a TMDL decision, if the method is appropriate for the type of waterbody and the quantity and quality of available data meet the requirements of R18-11-602. Modeling methods include:
1. Better Assessment Science Integrating Source and Non-point Sources (BASINS),
 2. Fundamental statistics, including regression analysis,
 3. Hydrologic Simulation Program-Fortran (HSPF),
 4. Spreadsheet modeling, and
 5. Hydrologic Engineering Center (HEC) programs developed by the Army Corps of Engineers.

Historical Note

New Section made by final rulemaking at 8 A.A.R. 3380, effective July 12, 2002 (Supp. 02-3).

R18-11-604. Types of Surface Waters Placed on the Planning List and 303(d) List

- A. The Department shall evaluate, at least every five years, Arizona's surface waters by considering all readily available data.
1. The Department shall place a surface water or segment on:

CHAPTER 11. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER QUALITY STANDARDS

- a. The Planning List if it meets any of the criteria described in subsection (D), or
 - b. The 303(d) List if it meets the criteria for listing described in subsection (E).
 2. The Department shall remove a surface water or segment from the Planning List based on the requirements in R18-11-605(E)(1) or from the 303(d) List, based on the requirements in R18-11-605(E)(2).
 3. The Department may move surface waters or segments between the Planning List and the 303(d) List based on the criteria established in R18-11-604 and R18-11-605.
 - B.** When placing a surface water or segment on the Planning List or the 303(d) List, the Department shall list the stream reach, derived from EPA's Reach File System or National Hydrography Dataset, or the entire lake, unless the data indicate that only a segment of the stream reach or lake is impaired or not attaining its designated use, in which case, the Department shall describe only that segment for listing.
 - C.** Exceptions. The Department shall not place a surface water or segment on either the Planning List or the 303(d) List if the non-attainment of a surface water quality standard is due to one of the following:
 1. Pollutant loadings from naturally occurring conditions alone are sufficient to cause a violation of applicable water quality standards;
 2. The data were collected within a mixing zone or under a variance or nutrient waiver established in a NPDES or AZPDES permit for the specific parameter and the result does not exceed the alternate discharge limitation established in the permit. The Department may use data collected within these areas for modeling or allocating loads in a TMDL decision; or
 3. An activity exempted under R18-11-117, R18-11-118, or a condition exempted under R18-11-119.
 - D.** Planning List.
 1. The Department shall:
 - a. Use the Planning List to prioritize surface waters for monitoring and evaluation as part of the Department's watershed management approach;
 - b. Provide the Planning List to EPA; and
 - c. Evaluate each surface water and segment on the Planning List for impairment based on the criteria in R18-11-605(D) to determine the source of the impairment.
 2. The Department shall place a surface water or segment on the Planning List based the criteria in R18-11-605(C). The Department may also include a surface water or segment on the Planning List when:
 - a. A TMDL is completed for the pollutant and approved by EPA;
 - b. The surface water or segment is on the 1998 303(d) List but the dataset used for the listing:
 - i. Does not meet the credible data requirements of R18-11-602, or
 - ii. Contains insufficient samples to meet the data requirements under R18-11-605(D);
 - c. Some monitoring data exist but there are insufficient data to determine whether the surface water or segment is impaired or not attaining, including:
 - i. A numeric surface water quality standard is exceeded, but there are not enough samples or sampling events to fulfill the requirements of R18-11-605(D);
 - ii. Evidence exists of a narrative standard violation, but the amount of evidence is insufficient, based on narrative implementation procedures and the requirements of R18-11-605(D)(3);
 - iii. Existing monitoring data do not meet credible data requirements in R18-11-602; or
 - iv. A numeric surface water quality standard is exceeded, but there are not enough sample results above the laboratory detection limit to support statistical analysis as established in R18-11-603(A)(1).
 - d. The surface water or segment no longer meets the criteria for impairment based on a change in the applicable surface water quality standard or a designated use approved by EPA under section 303(c)(1) of the Clean Water Act, but insufficient current or original monitoring data exist to determine whether the surface water or segment will meet current surface water quality standards;
 - e. Trend analysis using credible and scientifically defensible data indicate that surface water quality standards may be exceeded by the next assessment cycle;
 - f. The exceedance of surface water quality standards is due to pollution, but not a pollutant;
 - g. Existing data were analyzed using methods with laboratory detection limits above the numeric surface water quality standard but analytical methods with lower laboratory detection limits are available;
 - h. The surface water or segment is expected to attain its designated use by the next assessment as a result of existing or proposed technology-based effluent limitations or other pollution control requirements under local, state, or federal authority. The appropriate entity shall provide the Department with the following documentation to support placement on the Planning List:
 - i. Verification that discharge controls are required and enforceable;
 - ii. Controls are specific to the surface water or segment, and pollutant of concern;
 - iii. Controls are in place or scheduled for implementation; and
 - iv. There are assurances that the controls are sufficient to bring about attainment of water quality standards by the next 303(d) List submission; or
 - i. The surface water or segment is threatened due to a pollutant and, at the time the Department submits a final 303(d) List to EPA, there are no federal regulations implementing section 303(d) of the Clean Water Act that require threatened waters be included on the list.
- E.** 303(d) List. The Department shall:
 1. Place a surface water or segment on the 303(d) List if the Department determines:
 - a. Based on R18-11-605(D), that the surface water or segment is impaired due to a pollutant and that a TMDL decision is necessary; or
 - b. That the surface water or segment is threatened due to a pollutant and, at the time the Department submits a final 303(d) List to EPA, there are federal regulations implementing section 303(d) of the Clean Water Act that require threatened waters be included on the list.
 2. Provide public notice of the 303(d) List according to the requirements of A.R.S. § 49-232 and submit the 303(d) List according to section 303(d) of the Clean Water Act.

CHAPTER 11. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER QUALITY STANDARDS

Historical Note

New Section made by final rulemaking at 8 A.A.R. 3380, effective July 12, 2002 (Supp. 02-3).

R18-11-605. Evaluating A Surface Water or Segment For Listing and Delisting

- A. The Department shall compile and evaluate all reasonably current, credible, and scientifically defensible data to determine whether a surface water or segment is impaired or not attaining.
 - B. Weight-of-evidence approach.
 1. The Department shall consider the following concepts when evaluating data:
 - a. Data or information collected during critical conditions may be considered separately from the complete dataset, when the data show that the surface water or segment is impaired or not attaining its designated use during those critical conditions, but attaining its uses during other periods. Critical conditions may include stream flow, seasonal periods, weather conditions, or anthropogenic activities;
 - b. Whether the data indicate that the impairment is due to persistent, seasonal, or recurring conditions. If the data do not represent persistent, recurring, or seasonal conditions, the Department may place the surface water or segment on the Planning List;
 - c. Higher quality data over lower quality data when making a listing decision. Data quality is established by the reliability, precision, accuracy, and representativeness of the data, based on factors identified in R18-11-602(A) and (B), including monitoring methods, analytical methods, quality control procedures, and the documented field and laboratory quality control information submitted with the data. The Department shall consider the following factors when determining higher quality data:
 - i. The age of the measurements. Newer measurements are weighted heavier than older measurements, unless the older measurements are more representative of critical flow conditions;
 - ii. Whether the data provide a direct measure of an impact on a designated use. Direct measurements are weighted heavier than measurements of an indicator or surrogate parameter; or
 - iii. The amount or frequency of the measurements. More frequent data collection are weighted heavier than nominal datasets.
 2. The Department shall evaluate the following factors to determine if the water quality evidence supports a finding that the surface water or segment is impaired or not attaining:
 - a. An exceedance of a numeric surface water quality standard based on the criteria in subsections (C)(1), (C)(2), (D)(1), and (D)(2);
 - b. An exceedance of a narrative surface water quality standard based on the criteria in subsections (C)(3) and (D)(3);
 - c. Additional information that determines whether a water quality standard is exceeded due to a pollutant, suspected pollutant, or naturally occurring condition:
 - i. Soil type, geology, hydrology, flow regime, biological community, geomorphology, climate, natural process, and anthropogenic influence in the watershed;
 - ii. The characteristics of the pollutant, such as its solubility in water, bioaccumulation potential, sediment sorption potential, or degradation characteristics, to assist in determining which data more accurately indicate the pollutant's presence and potential for causing impairment; and
 - iii. Available evidence of direct or toxic impacts on aquatic life, wildlife, or human health, such as fish kills and beach closures, where there is sufficient evidence that these impacts occurred due to water quality conditions in the surface water.
 - d. Other available water quality information, such as NPDES or AZPDES water quality discharge data, as applicable.
 - e. If the Department determines that a surface water or segment does not merit listing under numeric water quality standards based on criteria in subsections (C)(1), (C)(2), (D)(1), or (D)(2) for a pollutant, but there is evidence of a narrative standard exceedance in that surface water or segment under subsection (D)(3) as a result of the presence of the same pollutant, the Department shall list the surface water or segment as impaired only when the evidence indicates that the numeric water quality standard is insufficient to protect the designated use of the surface water or segment and the Department justifies the listing based on any of the following:
 - i. The narrative standard data provide a more direct indication of impairment as supported by professionally prepared and peer-reviewed publications;
 - ii. Sufficient evidence of impairment exists due to synergistic effects of pollutant combinations or site-specific environmental factors; or
 - iii. The pollutant is bioaccumulative, relatively insoluble in water, or has other characteristics that indicate it is occurring in the specific surface water or segment at levels below the laboratory detection limits, but at levels sufficient to result in an impairment.
 3. The Department may consider a single line of water quality evidence when the evidence is sufficient to demonstrate that the surface water or segment is impaired or not attaining.
- C. Planning List.
 1. When evaluating a surface water or segment for placement on the Planning List.
 - a. Consider at least ten spatially or temporally independent samples collected over three or more temporally independent sampling events; and
 - b. Determine numeric water quality standards exceedances. The Department shall:
 - i. Place a surface water or segment on the Planning List following subsection (B), if the number of exceedances of a surface water quality standard is greater than or equal to the number listed in Table 1, which provides the number of exceedances that indicate a minimum of a 10 percent exceedance frequency with a minimum of a 80 percent confidence level using a binomial distribution for a given sample size; or
 - ii. For sample datasets exceeding those shown in Table 1, calculate the number of exceedances using the following equation: $(X \geq x | n, p)$ where n = number of samples; p = exceedance probability of 0.1; x = smallest number of exceed-

CHAPTER 11. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER QUALITY STANDARDS

ances required for listing with “*n*” samples; and
confidence level ≥ 80 percent.

Table 1. Minimum Number of Samples Exceeding the Numeric Standard

155	163	20	330	338	39			
164	172	21	339	348	40			

2. When there are less than ten samples, the Department shall place a surface water or segment on the Planning List following subsection (B), if three or more temporally independent samples exceed the following surface water quality standards:
 - a. The surface water quality standard for a pollutant listed in 18 A.A.C. 11, Article 1, Appendix A, Table 1, except for nitrate or nitrate/nitrite;
 - b. The surface water quality standard for temperature or the single sample maximum water quality standard for suspended sediment concentration, nitrogen, and phosphorus in R18-11-109;
 - c. The surface water quality standard for radiochemicals in R18-11-109(G);
 - d. The surface water quality standard for dissolved oxygen under R18-11-109(E);
 - e. The surface water quality standard for pH under R18-11-109(B); or
 - f. The following surface water quality standards in R18-11-112:
 - i. Single sample maximum standards for nitrogen and phosphorus,
 - ii. All metals except chromium, or
 - iii. Turbidity.
3. The Department shall place a surface water or segment on the Planning List if information in subsections (B)(2)(c), (B)(2)(d), and (B)(2)(e) indicates that a narrative water quality standard violation exists, but no narrative implementation procedure required under A.R.S. § 49-232(F) exists to support use of the information for listing.

D. 303(d) List.

1. When evaluating a surface water or segment for placement on the 303(d) List.

- a. Consider at least 20 spatially or temporally independent samples collected over three or more temporally independent sampling events; and
- b. Determine numeric water quality standards exceedances. The Department shall:
 - i. Place a surface water or segment on the 303(d) List, following subsection (B), if the number of exceedances of a surface water quality standard is greater than or equal to the number listed in Table 2, which provides the number of exceedances that indicate a minimum of a 10 percent exceedance frequency with a minimum of a 90 percent confidence level using a binomial distribution, for a given sample size; or
 - ii. For sample datasets exceeding those shown in Table 2, calculate the number of exceedances using the following equation: $(X \geq x | n, p)$ where n = number of samples; p = exceedance probability of 0.1; x = smallest number of exceedances required for listing with “*n*” samples; and confidence level ≥ 90 percent.

157	164	22	325	333	41	499	500	60
165	173	23	334	343	42			

2. The Department shall place a surface water or segment on the 303(d) List, following subsection (B) without the required number of samples or numeric water quality standard exceedances under subsection (D)(1), if either the following conditions occur:
 - a. More than one temporally independent sample in any consecutive three-year period exceeds the surface water quality standard in:
 - i. The acute water quality standard for a pollutant listed in 18 A.A.C. 11, Article 1, Appendix A, Table 2 and the acute water quality standards in R18-11-112;
 - ii. The surface water quality standard for nitrate or nitrate/nitrite in 18 A.A.C. 11, Article 1, Appendix A, Table 1; or
 - iii. The single sample maximum water quality standard for bacteria in subsections R18-11-109(A).
 - b. More than one exceedance of an annual mean, 90th percentile, aquatic and wildlife chronic water quality standard, or a bacteria 30-day geometric mean water quality standard occurs, as specified in R18-11-109, R18-11-110, R18-11-112, or 18 A.A.C. 11, Article 1, Appendix A, Table 2.
 3. Narrative water quality standards exceedances. The Department shall place a surface water or segment on the Planning List if the listing requirements are met under A.R.S. § 49-232(F).
- E. Removing a surface water, segment, or pollutant from the Planning List or the 303(d) List.**
1. Planning List. The Department shall remove a surface water, segment, or pollutant from the Planning List when:
 - a. Monitoring activities indicate that:
 - i. There is sufficient credible data to determine that the surface water or segment is impaired under subsection (D), in which case the Department shall place the surface water or segment on the 303(d) List. This includes surface waters with an EPA approved TMDL when the Department determines that the TMDL strategy is insufficient for the surface water or segment to attain water quality standards; or
 - ii. There is sufficient credible data to determine that the surface water or segment is attaining all designated uses and standards.
 - b. All pollutants for the surface water or segment are delisted.
 2. 303(d) List. The Department shall:
 - a. Remove a pollutant from a surface water or segment from the 303(d) List based on one or more of the following criteria:
 - i. The Department developed, and EPA approved, a TMDL for the pollutant;
 - ii. The data used for previously listing the surface water or segment under R18-11-605(D) is superseded by more recent credible and scientifically defensible data meeting the requirements of R18-11-602, showing that the surface water or segment meets the applicable numeric or narrative surface water quality standard. When evaluating data to remove a pollutant from the 303(d) List, the monitoring entity shall collect the more recent data under similar hydrologic or climatic conditions as occurred when the samples were taken that indicated impairment, if those conditions still exist;
 - iii. The surface water or segment no longer meets the criteria for impairment based on a change in the applicable surface water quality standard or a designated use approved by EPA under section 303(c)(1) of the Clean Water Act;

CHAPTER 11. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER QUALITY STANDARDS

- iv. The surface water or segment no longer meets the criteria for impairment for the specific narrative water quality standard based on a change in narrative water quality standard implementation procedures;
- v. A re-evaluation of the data indicate that the surface water or segment does not meet the criteria for impairment because of a deficiency in the original analysis; or
- vi. Pollutant loadings from naturally occurring conditions alone are sufficient to cause a violation of applicable water quality standards;
- b. Remove a surface water, segment, or pollutant from the 303(d) List, based on criteria that are no more stringent than the listing criteria under subsection (D);
- c. Remove a surface water or segment from the 303(d) List if all pollutants for the surface water or segment are removed from the list;
- d. Remove a surface water, segment, or pollutant, from the 303(d) List and place it on the Planning List, if:
 - i. The surface water, segment or pollutant was on the 1998 303(d) List and the dataset used in the original listing does not meet the credible data requirements under R18-11-602, or contains insufficient samples to meet the data requirements under subsection (D); or
 - ii. The monitoring data indicate that the impairment is due to pollution, but not a pollutant.
- b. A new or modified individual NPDES or AZPDES permit is sought for a new or modified discharge to the impaired water;
- c. The listed surface water or segment is listed as a unique water in A.A.C. R18-11-112 or is part of an area classified as a "wilderness area," "wild and scenic river," or other federal or state special protection of the water resource;
- d. The listed surface water or segment contains a species listed as threatened or endangered under the federal Endangered Species Act and the presence of the pollutant in the surface water or segment is likely to jeopardize the listed species;
- e. A delay in conducting the TMDL could jeopardize the Department's ability to gather sufficient credible data necessary to develop the TMDL;
- f. There is significant public interest and support for the development of a TMDL;
- g. The surface water or segment has important recreational and economic significance to the public; or
- h. The pollutant is listed for eight years or more.
- 2. Consider an impaired surface water or segment a medium priority if:
 - a. The surface water or segment fails to meet more than one designated use;
 - b. The pollutant exceeds more than one surface water quality standard;
 - c. A surface water quality standard exceedance is correlated to seasonal conditions caused by natural events, such as storms, weather patterns, or lake turnover;
 - d. It will take more than two years for proposed actions in the watershed to result in the surface water attaining applicable water quality standards;
 - e. The type of pollutant and other factors relating to the surface water or segment make the TMDL complex; or
 - f. The administrative needs of the Department, including TMDL schedule commitments with EPA, permitting requirements, or basin priorities that require completion of the TMDL.
- 3. Consider an impaired surface water or segment a low priority if:
 - a. The Department has formally submitted a proposal to delist the surface water, segment, or pollutant to EPA based on R18-11-605(E)(2). If the Department makes the submission outside the listing process cycle, the change in priority ranking will not be effective until EPA approves the submittal;
 - b. The Department has modified, or formally proposed for modification, the designated use or applicable surface water quality standard, resulting in an impaired water no longer being impaired, but the modification has not been approved by EPA;
 - c. The surface water or segment is expected to attain surface water quality standards due to any of the following:
 - i. Recently instituted treatment levels or best management practices in the drainage area,
 - ii. Discharges or activities related to the impairment have ceased, or
 - iii. Actions have been taken and controls are in place or scheduled for implementation that will likely to bring the surface water back into compliance;

Historical Note

New Section made by final rulemaking at 8 A.A.R. 3380, effective July 12, 2002 (Supp. 02-3).

R18-11-606. TMDL Priority Criteria for 303(d) Listed Surface Waters or Segments

- A. In addition to the factors specified in A.R.S. § 49-233(C), the Department shall consider the following when prioritizing an impaired water for development of TMDLs:
 - 1. A change in a water quality standard;
 - 2. The date the surface water or segment was added to the 303(d) List;
 - 3. The presence in a surface water or segment of species listed as threatened or endangered under section 4 of the Endangered Species Act;
 - 4. The complexity of the TMDL;
 - 5. State, federal, and tribal policies and priorities; and
 - 6. The efficiencies of coordinating TMDL development with the Department's surface water monitoring program, the watershed monitoring rotation, or with remedial programs.
- B. The Department shall prioritize an impaired surface water or segment for TMDL development based on the factors specified in A.R.S. § 49-233(C) and subsection (A) as follows:
 - 1. Consider an impaired surface water or segment a high priority if:
 - a. The listed pollutant poses a substantial threat to the health and safety of humans, aquatic life, or wildlife based on:
 - i. The number and type of designated uses impaired;
 - ii. The type and extent of risk from the impairment to human health, aquatic life, or wildlife;
 - iii. The pollutant causing the impairment, or
 - iv. The severity, magnitude, and duration the surface water quality standard was exceeded;

CHAPTER 11. DEPARTMENT OF ENVIRONMENTAL QUALITY - WATER QUALITY STANDARDS

- d. The surface water or segment is ephemeral or intermittent. The Department shall re-prioritize the surface water or segment if the presence of the pollutant in the listed water poses a threat to the health and safety of humans, aquatic life, or wildlife using the water, or the pollutant is contributing to the impairment of a downstream perennial surface water or segment;
 - e. The pollutant poses a low ecological and human health risk;
 - f. Insufficient data exist to determine the source of the pollutant load;
 - g. The uncertainty of timely coordination with national and international entities concerning international waters;
 - h. Naturally occurring conditions are a major contributor to the impairment; and
 - i. No documentation or effective analytical tools exist to develop a TMDL for the surface water or segment with reasonable accuracy.
- C. The Department will target surface waters with high priority factors in subsections (B)(1)(a) through (B)(1)(d) for initiation of TMDLs within two years following EPA approval of the 303(d) List.
- D. The Department may shift priority ranking of a surface water or segment for any of the following reasons:
- 1. A change in federal, state, or tribal policies or priorities that affect resources to complete a TMDL;
 - 2. Resource efficiencies for coordinating TMDL development with other monitoring activities, including the Department's ambient monitoring program that monitors watersheds on a five-year rotational basis;
 - 3. Resource efficiencies for coordinating TMDL development with Department remedial or compliance programs;
 - 4. New information is obtained that will revise whether the surface water or segment is a high priority based on factors in subsection (B); and
 - 5. Reduction or increase in staff or budget involved in the TMDL development.
- E. The Department may complete a TMDL initiated before July 12, 2002 for a surface water or segment that was listed as impaired on the 1998 303(d) List but does not qualify for listing under the criteria in R18-11-605, if:
- 1. The TMDL investigation establishes that the water quality standard is not being met and the allocation of loads is expected to bring the surface water into compliance with standards,
 - 2. The Department estimates that more than 50 percent of the cost of completing the TMDL has been spent,
 - 3. There is community involvement and interest in completing the TMDL, or
 - 4. The TMDL is included within an EPA-approved state workplan initiated before July 12, 2002.
- Historical Note**

E-mail: mro@azica.gov

The release of this Chapter in Supp. 19-3 replaces Supp. 18-3, 1-105 pages

Please note that the Chapter you are about to replace may have rules still in effect after the publication date of this supplement. Therefore, all superseded material should be retained in a separate binder and archived for future reference.

PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), accepts state agency rule filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

RULES

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into titles. Titles are divided into chapters. A chapter includes state agency rules. Rules in chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each chapter.

First Quarter: January 1 - March 31

Second Quarter: April 1 - June 30

Third Quarter: July 1 - September 30

Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2019 is cited as Supp. 19-1.

Please note: The Office publishes by chapter, not by individual rule section. Therefore there might be only a few sections codified in each chapter released in a supplement. Historical notes at the end of a section provide an effective date and information when a rule was last updated.

AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate chapters of the *Administrative Code* in Supp. 18-1 to comply with A.R.S. § 41-1012(B) and A.R.S. § 5302(1), (2)(d) through (e), and (3)(d) through (e).

A certification verifies the authenticity of each *Code* chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority

note to make rules is often included at the beginning of a chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in a chapter can be found at the Secretary of State’s website, under Services-> Legislative Filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor’s notes at the beginning of a chapter provide information about rulemaking sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

EXEMPTIONS AND PAPER COLOR

At one time the office published exempt rules on either blue or green paper. Blue meant the authority of the exemption was given by the Legislature; green meant the authority was determined by a court order. In 2001 the Office discontinued publishing rules using these paper colors.

PERSONAL USE/COMMERCIAL USE

This chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

Rhonda Paschal, managing rules editor, assisted with the editing of this chapter.

Administrative Rules Division

The Arizona Secretary of State electronically publishes each A.A.C. Chapter with a digital certificate. The certificate-based signature displays the date and time the document was signed and can be validated in Adobe Acrobat Reader.

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

ARTICLE 1. WORKERS' COMPENSATION PRACTICE AND PROCEDURE**R20-5-101. Application of the Article; Notice of Rules; Part of Record**

- A. This Article applies to all actions and proceedings before the Commission resulting from:
1. Injuries that occurred on or after January 1, 1969;
 2. Petitions to Reopen or Petitions for Readjustment or Rearrangement of Compensation filed on or after that date; and
 3. Requests for hearing under A.R.S. §§ 23-907(H), (I), and (J).
- B. This Article is part of the record in each action or proceeding without reference to the Article.
- C. The Commission deems all parties to have knowledge of this Article.
- D. The Commission shall provide a copy of this Article upon request to any person free of charge.

Historical Note

Former Rule 1. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-101 recodified from R4-13-101 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3). Amended by final rulemaking at 14 A.A.R. 4530, effective, December 2, 2008 (Supp. 08-4).

R20-5-102. Definitions

In this Article, unless the context otherwise requires:

"Act" means the Arizona Workers' Compensation Act, A.R.S. Title 23, Ch. 6, Articles 1 through 11.

"Authorized representative" means an individual authorized by law to act on behalf of a party who files with the Commission a written instrument advising of the individual's authority to act on behalf of the party.

"Carrier" or "insurance carrier" means the state compensation fund and every insurance carrier authorized by the Arizona Department of Insurance to underwrite workers' compensation insurance in Arizona.

"Claimant" means an employee who files a claim for workers' compensation.

"Filing" means actual receipt of a report, document, instrument, videotape, audiotape, or other written matter at a Commission office during office hours as set forth in R20-5-103.

"Physician" means a licensed physician or other licensed practitioner of the healing arts.

"Self-insured employer" means an employer or workers' compensation pool granted authority by the Commission to self-insure for workers' compensation.

"Uninsured employer" or "noncomplying employer" means an employer that is subject to and fails to comply with A.R.S. §§ 23-961 or 23-962.

"Working days" means all days except Saturdays, Sundays, and state legal holidays.

Historical Note

Former Rule 2. R20-5-102 recodified from R4-13-102 (Supp. 95-1). Section repealed; new Section made by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-103. Location of Industrial Commission Offices and Office Hours

The main office of the Industrial Commission of Arizona is located in Phoenix, Arizona. An office is also located in Tucson, Arizona. The offices are open for business from 8:00 a.m. until 5:00 p.m. every day except Saturdays, Sundays, and state legal holidays.

Historical Note

Former Rule 3. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-103 recodified from R4-13-103 (Supp. 95-1). Section repealed; new Section made by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-104. Address of Claimant and Uninsured Employer

- A. A claimant shall advise the Commission and carrier or self-insured employer of the claimant's current mailing address and place of residence. If a claimant files a workers' compensation claim against an uninsured employer, the claimant shall advise the special fund division of the claimant's current mailing address and place of residence.
- B. An uninsured employer against whom a claimant files a workers' compensation claim shall advise the special fund division of the uninsured employer's current mailing address and place of places of residence.
- C. Providing the address of a claimant's or uninsured employer's attorney or authorized representative is not sufficient to meet the requirements of this Section.

Historical Note

Former Rule 4. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-104 recodified from R4-13-104 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-105. Filing Requirements; Time for Filing; Computation of Time; Response to Motion

- A. A report, document, instrument, videotape, audiotape, or other written matter required to be filed with the Commission under A.R.S. § 23-901 et seq. and this Article shall be filed at a Commission office within the time required by law and this Article.
- B. For purposes of computing time under this Article, the following applies:
1. The Commission shall not include in the computation of time the day of the act or event from which the designated period begins to run.
 2. The Commission shall include in the computation of time the last day of the designated period, unless the last day is a Saturday, Sunday, or state legal holiday, in which event the period runs until the end of the next day that is not a Saturday, Sunday, or state legal holiday.
 3. If this Article or other law requires that a report, document, instrument, videotape, audiotape, or other written matter be filed within a designated period of time before hearing, the Commission shall not include the day of the act or event from which the designated period of time begins to run. The Commission shall include the last day of the designated period unless that day is a Saturday, Sunday, or state legal holiday, in which event the period runs to the end of the next day that is not a Saturday, Sunday, or state legal holiday.
 4. If the period of time prescribed is less than 11 days, the Commission shall not include intermediate Saturdays, Sundays, or state legal holidays in the computation of time.
- C. The Commission shall deem a report, document, instrument, videotape, audiotape, or other written matter filed at the Tucson office as filed at the main office for purposes of computing time.

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

- D. A person upon whom a motion to join is filed under this Article may file a response to the motion within 10 days after the motion is filed.
- E. The Commission shall not consider a discovery motion unless the moving party attaches a separate statement to the discovery motion certifying that after good faith efforts to do so, the moving party has been unable to satisfactorily resolve the matter giving rise to the discovery motion with the opposing party.

Historical Note

Former Rule 5. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-105 recodified from R4-13-105 (Supp. 95-1). Section repealed; new Section made by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-106. Commission Forms

- A. The following forms shall be used when applicable:
1. Employer's report of industrial injury (form 101) shall contain:
 - a. Employee, employer, and carrier identification;
 - b. Description of employment;
 - c. Description of accident and injury;
 - d. Description of medical treatment received by employee;
 - e. Employee's wage data;
 - f. Date, signature, and title of employer or the employer's representative; and
 - g. Statement doubting the validity of the claim, if the employer doubts the validity of the claim.
 2. The physician's portion of the worker's and physician's report of injury (form 102) shall contain:
 - a. Name and address of physician;
 - b. Information regarding preexisting conditions;
 - c. Information regarding the industrial injury, treatment, and prognosis;
 - d. Statement authorizing the attachment of a medical report that contains the information required in form 102; and
 - e. Physician's signature and date.
 3. Notice of supportive medical benefits (form 103) shall contain:
 - a. Employee, employer, insurance carrier, and claim identification;
 - b. Description of authorized medical benefits;
 - c. Date the notice is mailed;
 - d. Name and telephone number of the individual issuing the notice; and
 - e. Statement regarding reopening and appeal rights including filing requirements.
 4. Notice of claim status (form 104) shall contain:
 - a. Employee, employer, insurance carrier, and claim identification;
 - b. Status of the claim;
 - c. Date the notice is mailed;
 - d. Name and telephone number of the individual issuing the notice; and
 - e. Statement of a party's hearing and appeal rights including filing requirements.
 5. Notice of suspension of benefits (form 105) shall contain:
 - a. Employee, employer, insurance carrier, and claim identification;
 - b. Effective date of the suspension;
 - c. Reasons for the suspension;
 - d. Date the notice is mailed;
 - e. Name and telephone number of the individual issuing the notice; and
 - f. Statement of a party's hearing and appeal rights including filing requirements.
 6. Notice of permanent disability or death benefits (form 106) shall contain:
 - a. Employee, employer, insurance carrier, and claim identification;
 - b. Applicable statutory authority under which compensation is paid;
 - c. Disability and compensation information;
 - d. Date the notice is mailed;
 - e. Name and telephone number of the individual issuing the notice; and
 - f. Statement regarding hearing and appeal rights including filing requirements.
 7. Notice of permanent disability and request for determination of benefits (form 107) shall contain:
 - a. Employee, employer, insurance carrier, and claim identification;
 - b. Type of disability;
 - c. Applicable statutory authority for designated disability;
 - d. Designation of dependents where death is involved;
 - e. Designation of advanced payments and amount of the advance;
 - f. Date the notice is mailed; and
 - g. Name and telephone number of the individual issuing the notice.
 8. Carrier's recommended average monthly wage calculation (form 108) shall contain:
 - a. Employee, employer, insurance carrier, and claim identification;
 - b. Employment and wage history;
 - c. Designation of dependents; and
 - d. Carrier's calculations for the recommended average monthly wage and the basis for the calculation.
 9. Notice of permanent compensation payment plan (form 111) shall contain:
 - a. Employee, employer, and carrier identification;
 - b. Amount of permanent compensation and description of payment plan;
 - c. Name of the responsible entity contracted by the carrier to administer the payment plan;
 - d. Statement that the carrier remains the responsible party for payment;
 - e. Statement regarding supportive care and reopening rights;
 - f. Date the notice is mailed; and
 - g. Name and telephone number of the individual issuing the notice.
 10. Report of insurance coverage (form 0006) shall contain:
 - a. Name and address of the carrier;
 - b. Legal name of entity that the carrier insures;
 - c. All other insured names or subsidiary entities under which the carrier's insured does business in Arizona;
 - d. Address of all insured entities with insurance policy information for each address; and
 - e. Employer Identification Number (EIN), Taxpayer Identification Number (TIN), or Federal Identification Number (FIN) assigned to each insured person or entity.
 11. Report of significant work exposure to bodily fluids or other infectious material shall contain:
 - a. The requirements set forth in A.R.S. §§ 23-1043.02(B), 23-1043.03(B), and 23-1043.04(B);
 - b. Employee identification,
 - c. Employer identification,

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

- d. Source of exposure person identification (if known),
 - e. Details of the exposure including:
 - i. Date of exposure,
 - ii. Time of exposure,
 - iii. Place of exposure,
 - iv. How exposure occurred,
 - v. Type of bodily fluid or fluids,
 - vi. Source of bodily fluid or fluids,
 - vii. Part or parts of body exposed to bodily fluid or fluids,
 - viii. Presence of break or rupture in skin or mucous membrane, and
 - ix. Witnesses (if known), and
 - f. Dated signature of employee or the employee's authorized representative.
12. The medical treatment preauthorization form (MRO-1.1) shall contain five sections, as follows:
- a. Section I (Provider Request for Preauthorization) shall contain:
 - i. Injured employee identification, including name, date of injury, date of birth, and payer claim number (if known);
 - ii. Provider identification, including name, phone number, provider medical specialty, preferred method of contact, and contact information;
 - iii. Payer identification, including name and contact information (i.e., mailing address, fax number, or e-mail address);
 - iv. Information regarding requested medical treatment and/or services, including:
 - (1) Applicable diagnosis and/or ICD codes;
 - (2) A detailed statement of the treatment or services requested;
 - (3) Applicable Current Procedural Terminology (CPT) codes and/or National Drug Codes (NDC);
 - (4) Type of request (i.e., routine or urgent); and
 - (5) An indication as to whether the provider has attached documentation to support the medical necessity and appropriateness of the requested treatment and/or services; and
 - v. Dated signature or electronic signature of provider or provider's authorized representative.
 - b. Section II (Payer Decision on Request for Preauthorization) shall contain:
 - i. Payer's preferred method of contact and contact information;
 - ii. Date request for preauthorization is received;
 - iii. The Commission claim number;
 - iv. The payer's decision (i.e., approved, partial denial, denied, request for preauthorization incomplete, or IME requested);
 - v. An indication as to whether the payer has attached a statement of what treatment and/or services have been authorized, including, if applicable, a partial authorization, and, if the request for preauthorization is denied, in whole or in part, a statement of explanation that includes the medical reason supporting the payer's decision; and
 - vi. Dated signature or electronic signature of payer or payer's authorized representative.
 - c. Section III (Provider or Employee Request for Reconsideration of Payer Decision) shall contain:
 - i. An indication as to whether the provider or injured employee has attached a statement of the specific reasons and justifications to support the request for reconsideration;
 - ii. An indication as to whether the provider or injured employee has attached documentation to support the medical necessity and appropriateness of the requested treatment and/or services, if not previously provided; and
 - iii. Dated signature or electronic signature of provider, provider's authorized representative, injured employee, or injured employee's authorized representative.
 - d. Section IV (Payer Decision on Request for Reconsideration) shall contain:
 - i. Date request for reconsideration received;
 - ii. The payer's decision (e.g., approved, partial denial, denied, or IME requested);
 - iii. An indication as to whether the payer has attached a statement of what has been authorized, including if applicable, a partial authorization, and, if the request for preauthorization is denied, in whole or in part, a statement of explanation that includes the medical reason supporting the payer's decision; and
 - iv. Dated signature or electronic signature of payer or payer's authorized representative.
 - e. Section V (Provider or Employee Request for Administrative Peer Review) shall contain:
 - i. An indication of the basis for the request for administrative peer review (e.g., payer non-response, denial (in whole or in part) of requested treatment or services, the payer's decision on the request for preauthorization denied treatment or services that are subject to R20-5-1304(B));
 - ii. An indication as to whether the provider or injured employee has attached copies of relevant medical records and, if applicable, documentation related to the payer's non-response;
 - iii. An indication as to whether the provider or injured employee has attached all documentation and statements previously attached to Sections I-IV; and
 - iv. Dated signature or electronic signature of provider, provider's authorized representative, injured employee, or injured employee's authorized representative.
- B.** The following forms may be used:
- 1. The workers' portion of the worker's and physician's report of injury (form 102) requests:
 - a. Employee, employer, insurance carrier, and physician identification;
 - b. Description of the accident, including date of injury; and
 - c. Date and signature of the employee or the employee's authorized representative.
 - 2. Worker's report of injury (form 407) requests:
 - a. Employee and employer identification,
 - b. Job title,
 - c. Employment description,
 - d. Employee's wage data,
 - e. Date of injury,
 - f. Accident and injury descriptions,
 - g. Medical treatment information,

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

- h. Information concerning prior injuries of the employee,
 - i. Disability income, and
 - j. Date and signature of the employee or the employee's authorized representative.
3. Worker's annual report of income (form 110-A) requests:
- a. Employee, employer, insurance carrier, and claim identification;
 - b. Employment and wage history for the preceding 12 months;
 - c. Date and signature of the employee or the employee's authorized representative attesting to the truthfulness of the employment and wage information; and
 - d. Statement that failure to submit an annual report of income may result in a suspension of benefits by the carrier or self-insured employer.
4. Notice of intent to suspend (form 110-B) requests:
- a. Employee, employer, insurance carrier, and claim identification;
 - b. Employment and wage history for the preceding 12 months;
 - c. Date and signature of the employee or the employee's authorized representative attesting to the truthfulness of the employment and wage information;
 - d. Statement that failure to submit an annual report within 30 days of the date of the notice shall result in a suspension of benefits by the carrier or self-insured employer.
5. Request for hearing requests:
- a. Names of the employee, employer, and insurance carrier;
 - b. Claim identification;
 - c. Identification of the award, notice, order, or determination protested and reason(s) for the protest;
 - d. Estimated length of time for hearing and city or town in which hearing is requested;
 - e. Name and address of any witness for whom a subpoena is requested; and
 - f. Date and signature of party or the party's authorized representative.
6. Petition to reopen requests:
- a. Names of the employee, employer, and insurance carrier;
 - b. Claim identification;
 - c. Identification or description of the new, additional, or previously undiscovered temporary or permanent disability or medical condition justifying the reopening of the claim; and
 - d. Employee's medical and employment history.
7. Petition for rearrangement or readjustment of compensation requests:
- a. Names of the employee, employer, and insurance carrier;
 - b. Claim identification;
 - c. Income and employment history;
 - d. Medical history; and
 - e. Statement of the basis for the increase or decrease in earning capacity.
8. Claim for dependent's benefits-fatality form requests:
- a. Identification of dependent filing claim;
 - b. Identification of deceased;
 - c. Date of death;
 - d. Date of injury, if different than date of death;
 - e. Name and address of employer at time of deceased's death;
 - f. Statement of cause of death;
 - g. Names and addresses of health care providers rendering treatment to deceased in two years before death;
 - h. Conditions treated by health care providers in the two years before deceased's death;
 - i. If claim is for spousal benefits, the form requests:
 - i. Name, address, and date of birth of spouse;
 - ii. Copy of marriage certificate;
 - iii. Date and place of marriage to deceased;
 - iv. History of prior marriages of deceased and deceased's spouse, including copies of divorce decrees; and
 - v. Statement of living arrangements at time of deceased's death, including reason for living apart at time of death, if applicable;
 - j. If claim is for a dependent child, the form requests:
 - i. Name, date of birth, and address of child at time of deceased's death;
 - ii. List of children in care and custody of current spouse; and
 - iii. Statement of whether unborn child is expected and date expected;
 - k. If claim is for dependent other than a child, the form requests:
 - i. Name and address of other dependent,
 - ii. Relationship of other dependent to deceased, and
 - iii. Statement of the nature and extent of dependency; and
 - l. Date, telephone number, and signature of dependent or authorized representative of dependent.
9. Request to leave the state form requests:
- a. Employee, insurance carrier, and claim identification;
 - b. Reason for requesting to leave Arizona;
 - c. Dates leaving and returning to Arizona;
 - d. Out-of-state address;
 - e. Name and telephone number of attending physician; and
 - f. Date and signature of the employee or the employee's authorized representative.
10. Request to change doctors form requests:
- a. Employee, insurance carrier, and claim identification;
 - b. Reason for requesting change of doctor;
 - c. Name and phone number of claimant's current doctor;
 - d. Name and phone number of doctor claimant requests to change to; and
 - e. Date and signature of the employee or the employee's authorized representative.
11. Complaint of bad faith and unfair claim processing practices requests:
- a. Employee, employer, and insurance carrier identification;
 - b. Description of the alleged bad faith or unfair claim processing practices;
 - c. Date of the complaint; and
 - d. Name, address, and telephone number of the person signing the complaint.
12. Certification of employer's drug and alcohol testing policy requests:

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

- a. Employer's certification as described under A.R.S. § 23-1021(F),
 - b. Name and federal identification number of the employer, and
 - c. Name of all subsidiaries and locations of the employer.
- C. Optional use of a form described in subsection (B) does not affect any requirement under the Act or this Article.
- D. Forms or format for the forms described in this Section are available from the Commission.
- E. Forms prescribed under this Section shall not be changed, amended, or otherwise altered without the prior written approval of the Commission.

Historical Note

Former Rule 6. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). Amended effective August 28, 1992 (Supp. 92-3). R20-5-106 recodified from R4-13-106 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3). Amended by final rulemaking at 15 A.A.R. 991, effective June 2, 2009 (Supp. 09-2). Amended by final rulemaking at 24 A.A.R. 2069, effective October 1, 2018 (Supp. 18-3).

R20-5-107. Manner of Completion of Forms and Documents

- A. An individual completing a form or document shall fill out the form or document legibly in ink or by typewriter.
- B. A party or a party's authorized representative shall sign any form or document that is required by the Act, this Article, or other law to be signed.
- C. Unless otherwise provided in this Article, if a party is required to sign a form or document, the Commission shall not accept a typewritten name or stamped signature.
- D. If, within the time period prescribed by law, a party files an incomplete form or document, or files an instrument other than a form or document when a form or document is required, the Commission shall serve notice to the party that the form or document fails to comply with this Section. The Commission deems the report or document timely filed if the party files a properly completed and signed form or document within 14 days after the Commission serves the notice described in this subsection.

Historical Note

Former Rule 7. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-107 recodified from R4-13-107 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-108. Confidentiality of a Commission Claims File; Reproduction and Inspection of a Commission Claims File

- A. Except as provided in this Section, a claims file maintained by the Commission is private and confidential and the Commission shall not make the claims file available for inspection and copying. For purposes of this Section, "claims file" means the official record maintained by the Commission for a claimant's industrial injury including the worker's report of injury, employer's report of injury, worker and physician's report of injury, and all other reports, records, instruments, videotapes, audiotapes, transcripts, and other matters scanned or otherwise placed into the file.
- B. Except as provided in subsections (D) and (E), the Commission shall make a Commission claims file relating to a current or prior claim of a claimant available for inspection and copying by any party to any proceeding currently or previously before the Commission involving the same claimant.

- C. Except as provided in subsections (D) and (E), the Commission shall not make a Commission claims file available to a non-party for inspection and copying unless the Commission receives a court order or written authorization signed by the affected claimant or the affected claimant's authorized representative.
- D. The Commission shall make a transcript contained in a Commission claims file available for inspection and copying if:
 1. The person requesting to inspect and copy the transcript is a person authorized under subsections (B) or (C); and
 2. The transcript concerns a hearing related to a claim that is not in litigation.
- E. The Commission shall make a transcript contained in a Commission claims file available only for inspection if:
 1. The person requesting to inspect and copy the transcript is a person authorized under subsections (B) or (C); and
 2. The transcript concerns a hearing related to a claim currently in litigation.
- F. The Commission shall provide copies at a charge of \$.25 per page.
- G. A Commission claims file shall not be removed from a Commission office unless in the custody of an authorized representative of the Commission.

Historical Note

Former Rule 8. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). Amended effective August 28, 1992 (Supp. 92-3). R20-5-108 recodified from R4-13-108 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-109. Admission into Evidence of Documents Contained in a Commission Claims File

- A. If a party or an administrative law judge considers a document contained in a Commission claims file, including a transcript of a prior proceeding, necessary or appropriate for hearing purposes, the administrative law judge shall receive a copy of the document into evidence if the document is otherwise admissible.
- B. With the permission of the administrative law judge, instead of submitting a copy of the document into evidence, a party may refer to the document's location on the Commission's optical disk imaging system by providing an accurate description of the document that includes the claimant's claim number and image document identification number the Commission assigns to the document.

Historical Note

Former Rule 9. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-109 recodified from R4-13-109 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-110. Employer Duty to Report Fatality

If an employee dies as a result of an injury by accident arising out of and in the course of employment, the employer shall report the death to the Commission's claims division by telephone, telegram, or electronic filing, no later than the next business day following the death. The report shall state the name of the employee, when, how, and where the accident occurred, and the nature of the condition causing the accident. This Section does not limit or affect an employer's duty to report a death to the Arizona Occupational Safety and Health Division of the Commission as required under R20-5-637.

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

Historical Note

Former Rule 10. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-110 recodified from R4-13-110 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-111. Request for Autopsy

If a claim is filed for compensation for death from an industrial injury and an autopsy is requested, the expense of the autopsy shall be borne by the requesting party.

Historical Note

Former Rule 11. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-111 recodified from R4-13-111 (Supp. 95-1).

R20-5-112. Physician's Initial Report of Injury

- A. A physician shall complete and file with the Commission a physician's initial report of injury under A.R.S. § 23-908(A) within eight days after first providing treatment to an injured worker. The physician shall report the injury:
 1. Using Commission form 102 (worker's and physician's report of injury), or
 2. Attaching to form 102 a medical report that contains the information required in form 102.
- B. The physician shall sign and date form 102 or the medical report attached to form 102. The signature of the physician may be typewritten or stamped on this form.
- C. If a claimant uses form 102 to initiate a claim, either the injured worker or the injured worker's authorized representative shall sign the worker's portion of form 102.

Historical Note

Former Rule 12. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). Amended effective August 28, 1992 (Supp. 92-3). R20-5-112 recodified from R4-13-112 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-113. Physician's Duty to Provide Signed Reports; Rating of Impairment of Function; Restriction Against Interruption or Suspension of Benefits; Change of Physician

- A. If a claimant's disability extends beyond seven days, every physician who attends, treats, or examines the claimant shall provide to the insurance carrier, self-insured employer, or special fund division, at least once every 30 days while the claimant's disability continues, a personally signed report describing the:
 1. Claimant's condition,
 2. Nature of treatment,
 3. Expected duration of disability, and
 4. Claimant's prognosis.
- B. When a physician discharges a claimant from treatment, the physician:
 1. Shall determine whether the claimant has sustained any impairment of function resulting from the industrial injury. The physician should rate the percentage of impairment using the standards for the evaluation of permanent impairment as published by the most recent edition of the American Medical Association in Guides to the Evaluation of Permanent Impairment, if applicable; and
 2. Shall provide a final signed report to the insurance carrier, self-insured employer, or special fund division that details the rating of impairment and the clinical findings that support the rating.

- C. A carrier, self-insured employer, and special fund division shall not interrupt or suspend a claimant's temporary disability compensation benefits because a physician fails to comply with any requirement of subsection (A).
- D. A carrier, self-insured employer, and special fund division may withhold payment to a physician for services rendered to a claimant until the physician complies with subsection (A).
- E. Upon application of a party, the Commission shall authorize a change of physician if:
 1. The Commission determines that the health, life, or recovery of a claimant is retarded, endangered, or impaired;
 2. The attending physician agrees to the change or is unavailable to continue treatment;
 3. The Commission determines that the relationship between the attending physician and claimant renders further progress or improvement unlikely;
 4. The Commission determines that the claimant's recovery may be expedited by a change of physician or conditions of treatment; or
 5. The insurance carrier agrees to the change.
- F. Except as provided in A.R.S. § 23-1070 and this subsection, a claimant who is examined by a physician under A.R.S. § 23-908(E) is not required to obtain written authorization to change to another physician. If, however, the claimant continues to see, or treat with, a physician who the claimant initially saw or treated with under A.R.S. § 23-908(E), then that physician is an attending physician and the claimant shall obtain written authorization to change under A.R.S. § 23-1071(B) if the claimant seeks to change to another physician.

Historical Note

Former Rule 13. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-113 recodified from R4-13-113 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-114. Examination at Request of Commission, Carrier or Employer; Motion for Relief

- A. If the Commission or a party requests an examination of a claimant by a physician, the party requesting the examination shall serve the claimant, or if represented, the claimant's attorney, with notice of the time, date, place, and physician conducting the examination at least 15 days before the scheduled date of the examination.
- B. If a claimant unreasonably fails to attend or promptly advise of the claimant's inability to attend an examination under this Section, the party requesting the examination may charge the claimant or deduct from the claimant's entitlement to present or future temporary or permanent disability compensation, any reasonable expense of the missed appointment.
- C. A party adverse to a party who schedules a medical examination may offer into evidence the report of any medical examination as provided in R20-5-155 or within five days after the adverse party receives the report, subject to the right of cross-examination by the party who scheduled the examination.
- D. If a carrier, self-insured employer, or special fund division requests an examination of a claimant's mental or physical condition under A.R.S. § 23-1026, the carrier, self-insured employer, or special fund division shall immediately, upon receipt of the report of the examination, provide a copy of the report to the claimant or the claimant's authorized representative. If the mental condition of an unrepresented claimant is examined under A.R.S. § 23-1026, the carrier, self-insured employer, or special fund division may, in its discretion, pro-

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

vide the report to the claimant's treating physician rather than to the claimant.

- E. To protect a claimant from annoyance, embarrassment, oppression, or undue burden or expense, the Commission may order, upon good cause shown, one or both of the following:
 1. That the examination not be held; or
 2. That the examination may be conducted only on specified terms and conditions, including a designation of the time, place, and examining physician.
- F. A claimant requesting protection under subsection (E) shall file a motion with the presiding administrative law judge or chief administrative law judge if a judge has not been assigned to the case, within three days after the claimant receives notice of the examination. The claimant shall serve a copy of the motion on all parties. The party requesting the examination shall have three days after receiving the motion to file a response. The party shall serve the response on the claimant or, if represented, the claimant's attorney of record.

Historical Note

Former Rule 14. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-114 recodified from R4-13-114 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-115. Request to Leave the State

- A. The effective date of an order granting or denying a request to leave the state under A.R.S. § 23-1071(A) is the date a claimant files a request to leave the state with the Commission.
- B. For purposes of A.R.S. § 23-1071(A):
 1. "While the necessity of having medical treatment continues" means the period of time in which a claimant asserts an entitlement to temporary compensation, or active medical, surgical, or hospital benefits;
 2. "Leave the state" means to travel across the state border, except when the logical or nearest medical facility is situated across the state border; and
 3. "From the date the employee first requested the written approval" means from the date the claimant's request is filed with the Commission.

Historical Note

Former Rule 15. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-115 recodified from R4-13-115 (Supp. 95-1). Section repealed; new Section made by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-116. Payment of Claimant's Travel Expenses When Directed to Report for Medical Examination or Treatment

- A. If a claimant is directed by a carrier, self-insured employer, or special fund division to report for a medical examination or treatment in a locality other than either the claimant's current place of residence or employment, the carrier, self-insured employer, or special fund division shall pay, in advance, the claimant's travel expenses from either the claimant's current place of residence or employment, whichever route of travel is required.
- B. For purposes of this Section, "travel expenses" means those expenses required to be paid under A.R.S. § 23-1026.
- C. The carrier, self-insured employer, or special fund division shall calculate travel expenses using the current rates applicable to state employees.

Historical Note

Former Rule 16. Amended subsections (A) and (B) effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). Correction to subsection (A) as certified effective March

1, 1987 (Supp. 88-4). R20-5-116 recodified from R4-13-116 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-117. Medical, Surgical, Hospital, and Burial Expenses

- A. A carrier, self-insured employer, or special fund division, shall pay bills for medical, surgical, and hospital benefits provided under A.R.S. § 23-901 et seq. according to applicable medical and surgical fee schedules adopted by the Commission and in effect at the time the services are rendered. A physician or provider of nursing, hospital, drug or other medical services shall itemize and submit a bill for payment only to the responsible carrier, self-insured employer, or special fund division.
- B. A claimant shall not be responsible to pay any disputed amounts between the medical provider and the carrier, self-insured employer, or special fund division.
- C. If a claimant pays a bill described in subsection (A), the responsible carrier, self-insured employer, or special fund division shall reimburse the claimant the amount allowed by the fee schedules, provided that the claimant presents receipted vouchers or other proof of payment to support the claim for reimbursement.
- D. If an insured employer pays a bill described in subsection (A), the responsible carrier or self-insured employer shall reimburse the employer the amount allowed by the fee schedules, provided that the employer presents receipted vouchers or other proof of payment to support the claim for reimbursement.
- E. An insurance carrier, self-insured employer, or special fund division may pay any authorized burial expenses directly to the funeral service professional.
- F. If an employee's dependent pays burial expenses, the responsible carrier, self-insured employer, or special fund division shall reimburse the dependent the amount authorized by A.R.S. § 23-1046 provided that the dependent presents proof of payment to support the claim for reimbursement.
- G. If an insured employer pays burial expenses, the responsible carrier or self-insured employer shall reimburse the employer to the extent authorized by A.R.S. § 23-1046 provided that the employer presents proof of payment to support the claim for reimbursement.

Historical Note

Former Rule 17. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-117 recodified from R4-13-117 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-118. Effective Date of Notices of Claim Status and Other Determinations; Attachments to Notices of Claim Status; Form of Notices of Claim Status

- A. If a notice of claim status accepting a claim for benefits is final, any subsequent notice of claim status that changes a claimant's amount of, or entitlement to, compensation or medical, surgical, or hospital benefits shall not have a retroactive effect for more than 30 days from the date a carrier or self-insured employer issues the subsequent notice of claim status. This subsection does not apply to a subsequent notice that affects the entitlement to or amount of death benefits. The Commission may for good cause relieve a carrier or self-insured employer of the effect of this subsection.
- B. If a notice of claim status or other determination issued by a carrier, self-insured employer, or special fund division, is based upon a physician's report:

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

1. The carrier or self-insured employer shall attach a copy of the physician's complete report to the notice of claim status or other determination sent to the Commission; and
 2. The carrier, self-insured employer, or special fund division shall attach a copy of the physician's complete report to the notice of claim status or other determination served on a party, except as provided in R20-5-114(D).
- C. If a carrier, self-insured employer, or special fund division pays compensation to a claimant:
1. The carrier or self-insured employer shall close the claim by issuing a notice of claim status; and
 2. The special fund division shall close the claim by issuing a notice of determination.
- D. The inadvertent failure of a carrier, self-insured employer, or special fund division to comply with subsection (B) shall not affect the validity of a notice or determination if the carrier, self-insured employer, or special fund division issuing the notice or determination had in its possession at the time the notice or determination is issued a medical report consistent with the notice or determination.

Historical Note

Former Rule 18. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). Amended effective August 28, 1992 (Supp. 92-3). R20-5-118 recodified from R4-13-118 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-119. Notice of Third-party Settlement

- A. Except as otherwise provided by law, if an employer is insured for workers' compensation insurance and a claimant, or in the event of death, the claimant's dependent, elects to proceed against a third party, the claimant shall notify the appropriate workers' compensation carrier, or self-insured employer, of any settlement or judgment in the third party suit and the basis upon which the claimant and third party agree to disburse the proceeds of the settlement or judgment.
- B. If an employer is uninsured for workers' compensation insurance and a claimant, or in the event of death, the claimant's dependent, elects to proceed against a third party, the claimant shall notify the special fund division of any settlement or judgment in the third party suit and the basis upon which the claimant and third party agree to disburse the proceeds of the settlement or judgment.
- C. If a lawsuit is filed against a third party, the claimant or the claimant's attorney shall provide copies of pleadings and all offers of settlement to the workers' compensation carrier, self-insured employer, or special fund division to whom notice is required under subsections (A) and (B).

Historical Note

Former Rule 19. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-119 recodified from R4-13-119 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-120. Settlement Agreements, Compromises and Releases

- A. No settlement agreement, compromise, or waiver of rights of a workers' compensation claim, will be valid unless approved by the Commission.
- B. The acceptance of any payments or the signing of a settlement agreement, compromise, release or waiver of rights, unless approved by the Commission, shall not release the employer or his insurance carrier from any obligation imposed by the Workers' Compensation Law.

- C. The carrier or employer shall not be entitled to a credit for any sums paid to an employee under a settlement agreement which has not been approved by the Commission.

Historical Note

Former Rule 20. Amended subsections (A) and (B) effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-120 recodified from R4-13-120 (Supp. 95-1).

R20-5-121. Present Value and Basis of Calculation of Lump Sum Commutation Awards

- A. The Commission shall calculate the present value of an award that is commuted to a lump sum under R20-5-122. The Commission shall not include in the present value calculation compensation paid before the filing of a lump sum commutation petition. The Commission shall use the filing date of a lump sum commutation petition to compute the present value of an award.
- B. The Commission shall calculate the present value of an award at least annually, whether payable for a period of months or based upon the life of the employee, using the United States Life Tables, 2003, National Vital Statistics Reports, Vol. 54, Number 14, April 19, 2006, revised March 28, 2007, Table 1 incorporated by reference, and discounted at the rate established by the Commission. This incorporation does not include any later amendments or editions of the incorporated matter. A copy of this referenced material is available for review at the Commission and may be obtained from the U.S. Department of Health and Human Services, Centers for Disease Control. The rate established by the Commission is based on the following formula: The mean average of the three-month Treasury Bill rate on December 31 of each of the five years prior to July 1 of the current year. The rate, once calculated, is effective until the Commission calculates a new rate under this subsection. The discount rate is published in the minutes of the Commission meeting establishing the rate and is available upon request from the Commission.

Historical Note

Former Rule 21. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-121 recodified from R4-13-121 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3). Amended by final rulemaking at 10 A.A.R. 724, effective February 3, 2004 (Supp. 04-1). Amended by final rulemaking at 11 A.A.R. 2973, effective July 12, 2005 (Supp. 05-3). Amended by final rulemaking at 13 A.A.R. 4139, effective November 6, 2007 (Supp. 07-4).

R20-5-122. Lump Sum Commutation

- A. A petition for a lump sum commutation in an unscheduled case shall not be approved unless the carrier approves of such petition.
- B. If the lump sum commutation petition is approved by the carrier, the Commission's primary consideration in passing upon the petition will be whether more net income per month will be generated after receipt of the lump sum than the applicant is presently receiving. The granting of a lump sum petition will only be granted if the facts demonstrate a reasonable basis for financial betterment or rehabilitation of the claimant.
- C. The burden of proving that the commutation of compensation satisfies the criteria in (B) is on the applicant.

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

Historical Note

Former Rule 22. Amended subsections (A) and (B) effective March 1, 1987, filed February 26, 1987 (Supp. 87-1).

R20-5-122 recodified from R4-13-122 (Supp. 95-1).

R20-5-123. Rejection of the Act

If an employee serves upon an employer written notice under A.R.S. § 23-906, rejecting the provisions of the Act, the employer shall keep one copy of the rejection in the employer's business records.

Historical Note

Former Rule 23. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-123 recodified from R4-13-123 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-124. Rejection Not Applicable to New Employment

- A. An election by an employee to reject the Act is not binding upon the employee in a new employment by another employer or following re-employment by the same employer.
- B. If an employee is continuously employed and the employer changes workers' compensation insurance carriers, or form of doing business, the prior rejection is valid and remains in full force and effect.

Historical Note

Former Rule 24. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-124 recodified from R4-13-124 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-125. Rejection Before an Employer Complies with A.R.S. §§ 23-961(A) and 23-906(D)

An employee's rejection of the Act received by an employer before the employer complies with the requirements of A.R.S. §§ 23-961(A) or 23-906(D) is valid and continues in full force and effect whether the employer subsequently obtains workers' compensation coverage under A.R.S. § 23-961(A), posts the notice required under A.R.S. § 23-906(D), or makes available the forms required under A.R.S. § 23-906(D).

Historical Note

Former Rule 25. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-125 recodified from R4-13-125 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-126. Revocation of Rejection

- A. An employee who rejects the Act may revoke that rejection by serving upon the employee's employer an original and one copy of a written notice of revocation. The written revocation shall state that the employee revokes the employee's prior rejection of the Act.
- B. Within five days after receiving a written notice of revocation, an insured employer shall file with the employer's carrier, or workers' compensation pool, a copy of the notice of revocation. The employee has all rights to compensation and benefits provided by the Act for any injury that occurs after the employee serves the revocation notice upon the employer.

Historical Note

Former Rule 26. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-126 recodified from R4-13-126 (Supp. 95-1). Amended by final

rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-127. Insurance Carrier Notification to Commission of Coverage

- A. Every insurance carrier authorized to underwrite workers' compensation insurance in Arizona shall, within five days after undertaking to insure an employer, report that information to the Commission. The carrier shall provide the information on or in the same format as Commission form 0006. Form 0006 is available upon request from the Commission.
- B. Failure to comply with this Section does not affect the validity of coverage.

Historical Note

Former Rule 27. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). Amended effective August 28, 1992 (Supp. 92-3). R20-5-127 recodified from R4-13-127 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-128. Medical Information Reproduction Cost Limitation; Definition of Medical Information

- A. A health care provider shall not charge more than \$.25 per page plus \$10 per hour in associated clerical costs for reproduction of medical information when a party, an authorized representative of a party, or an entity that is authorized by a claimant in a workers' compensation matter makes a request for that information under A.R.S. § 23-908(C).
- B. This Section applies to all A.R.S. § 23-908(B) health care providers providing medical services to injured claimants including health care providers that contract with copying services, recordkeeping services, or other similar services for the reproduction of medical information. For purposes of this Section, fees for reproduction of medical information charged by these services are considered the same as if the reproduction fees are charged by a health care provider.
- C. For purposes of this Section, "medical information" means:
 - 1. A communication recorded in any form or medium and maintained for the purpose of patient care, diagnosis, or treatment, including a report, note, order, test result, photograph, videotape, X-ray, and billing record;
 - 2. A report of an independent medical examination that describes patient care or treatment;
 - 3. A psychological record;
 - 4. A medical record held by a health care provider including a medical record prepared by another provider; and
 - 5. A recorded communication between emergency medical personnel and medical personnel concerning the care or treatment of a person.
- D. For purposes of this Section, "medical information" does not include:
 - 1. Materials that are prepared in connection with utilization review, peer review, or quality assurance activities, including records that a health care provider prepares under A.R.S. §§ 36-441, 36-445 or 36-2402; and
 - 2. Recorded telephone and radio calls to and from a publicly operated emergency dispatch office relating to requests for emergency services or reports of suspected criminal activity.

Historical Note

Former Rule 28. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-128 recodified from R4-13-128 (Supp. 95-1). Section repealed; new Sec-

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

tion made by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-129. Carrier or Workers' Compensation Pool Determinations Binding upon its Insured or Member; Self-Rater Exception

- A. The Commission deems an insurance carrier or workers' compensation pool the agent of an employer insured by the carrier or workers' compensation pool.
- B. The Commission also deems any action or determination taken or made by the insurance carrier or workers' compensation pool binding upon the employer. The employer may not protest or petition the Commission for relief concerning an action or determination taken by the employer's insurance carrier or workers' compensation pool unless the employer notifies the carrier or workers' compensation pool, and the Commission in writing that the employer disagrees with the carrier's or worker's compensation pool's action or determination within the time described in A.R.S. § 23-947.
- C. This Section does not apply to employers insured under a Self-Rating Insurance Plan.

Historical Note

Former Rule 29. Amended subsection (A) effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-129 recodified from R4-13-129 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-130. Claims Office Location and Function; Requirements of Maintaining an Out-of-State Claims Office

- A. Except as provided in subsection (B), each carrier that has or is underwriting workers' compensation insurance in Arizona, and each employer and workers' compensation pool that has been granted authority to act as a self-insurer by the Commission, shall maintain a workers' compensation claims office in Arizona. A carrier, self-insured employer, and self-insured workers' compensation pool shall process and pay workers' compensation claims and maintain the workers' compensation claims files described in R20-5-131 in its Arizona office. A carrier, self-insured employer, and self-insured workers' compensation pool shall notify the claims division of the Commission of the address of the Arizona claims office.
- B. Except as provided in subsections (C) and (D), a carrier or self-insured employer may request authorization from the Commission to maintain an out-of-state claims office. The Commission shall grant a carrier or self-insured employer authorization to maintain an out-of-state claims office no later than 20 days after the carrier or self-insured employer provides satisfactory evidence of the following:
 - 1. Existence of a toll-free telephone line to the out-of-state claims office;
 - 2. Completion of Commission claims division's training by the individuals responsible for claims processing at the out-of-state office; and
 - 3. Designation of a financial institution located in Arizona that will cash on demand checks issued by the out-of-state claims office.
- C. The Commission shall not permit a self-insured workers' compensation pool to maintain a claims office out-of-state.
- D. The Commission shall rescind its authorization to maintain an out-of-state claims office if a carrier or self-insured employer no longer meets the requirements of subsection (B) or fails to process and pay claims as required under the Act and this Article.
- E. A carrier or self-insured employer maintaining an out-of-state claims office shall print the carrier's or self-insured employer's toll-free telephone number to the out-of-state

claims office on all notices of claim status or other determinations issued by the out-of-state claims office. Failure to print the toll-free telephone number on a notice or other determination as required by this subsection does not affect the validity of the notice or determination.

- F. For claims processing purposes, a carrier, self-insured employer, or self-insured workers' compensation pool may have more than one designated representative provided the carrier, self-insured employer, or self-insured workers' compensation pool:
 - 1. Notifies the Commission at the time an insurance policy is issued or authorization to self-insure is granted; and
 - 2. Notifies the Commission each time that the insurance policy or authorization to self-insure is renewed.

Historical Note

Former Rule 30. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-130 recodified from R4-13-130 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-131. Maintenance of Carrier and Self-insured Employer Claims Files; Contents; Inspection and Copying; Exchange of Medical Reports; Authorization to Obtain Medical Records

- A. A carrier and self-insured employer shall maintain a workers' compensation claims file for each claimant. A carrier and self-insured employer shall include in a workers' compensation claims file all employer's reports, medical and hospital reports, awards, orders, notices of claims status, wage data, and all other items affecting the claim required by law to be maintained by a carrier or self-insured employer.
- B. Subject to subsection (C), all parties, authorized representatives of parties, and authorized representatives of the Commission may inspect and copy items contained in a carrier's or self-insured employer's claims file within five days from the date the item is filed in the claims file.
- C. If a carrier or self-insured employer maintains a claims file at an out-of-state claims office, the carrier or self-insured employer shall make the claims file available for copying and inspection to the persons listed in subsection (B) within 10 days after receiving a request for the file at a location in Arizona designated by the carrier or self-insured employer.
- D. A carrier or self-insured employer shall furnish copies of a claims file within 10 days after receiving a request from any party, authorized representative of a party, and authorized representative of the Commission at a charge not to exceed \$.25 per page. A carrier or self-insured employer may require prepayment of the copying charges if the requester or authorized representative has an account with the carrier or self-insured employer that is more than 30 days overdue.
- E. A carrier or self-insured employer is not required to maintain in a claims file, or produce for inspection and copying:
 - 1. Documents or matters representing the work product of the carrier or self-insured employer;
 - 2. Documents or matters representing the work product of a carrier's or self-insured's attorney; or
 - 3. Investigation and rehabilitation reports.
- F. All medical records concerning a claimant's mental or physical condition that are in a party's possession shall be furnished, upon request, to another party in the same Commission proceeding.
- G. Within 10 days of a request, a claimant shall provide to a party in a Commission proceeding involving the claimant, a release of information authorizing any attending, treating, or examin-

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

ing physician to provide records described in A.R.S. § 23-908(C).

Historical Note

Former Rule 31. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-131 recodified from R4-13-131 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-132. Parties' Notice to Commission of Intention to Impose Liability upon A.R.S. § 23-1065 Special Fund

If the notices required by A.R.S. § 23-1065 are not given to the Commission, the Commission shall not be bound by the testimony and evidence presented at a hearing as it relates to the imposition of liability upon the special fund.

Historical Note

Former Rule 32. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-132 recodified from R4-13-132 (Supp. 95-1).

R20-5-133. Claimant's Petition to Reopen Claim

- A. A petition to reopen filed with the Commission under A.R.S. § 23-1061(H) shall be in writing, signed, and dated by the claimant or the claimant's authorized representative. A petition to reopen form is available from the Commission upon request.
- B. A claimant shall provide to the Commission a copy of a medical report supporting the disability or condition justifying the reopening of the claim.
- C. If the Commission does not receive the medical report described in subsection (B) within 14 days of receipt of a petition to reopen, the Commission shall notify all parties, in writing, that it has received a petition to reopen without the required medical report. A carrier or self-insured employer is not required to act on a petition to reopen that is received without the required medical report.
- D. If the Commission receives a medical report in support of a petition to reopen and a claimant does not file a petition to reopen within 14 days of receipt of the medical report, the Commission shall forward the medical report to the carrier or self-insured employer for information purposes only. A carrier or self-insured employer is not required to take any action upon receipt of the medical report.
- E. If the Commission receives a medical report in support of a petition to reopen from an out-of-state physician and a party objects to the report at least 20 days before a scheduled hearing, the Commission shall not consider the report or place the report in evidence unless the party submitting the report produces the author of the report for cross-examination either at the hearing or at a deposition. The party submitting into evidence the medical report prepared by an out-of-state physician shall pay the expenses of a deposition under this subsection.

Historical Note

Former Rule 33. Amended subsections (A), (C), (D) and (E) effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). Amended effective August 28, 1992 (Supp. 92-3). R20-5-133 recodified from R4-13-133 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-134. Petition for Rearrangement or Readjustment of Compensation Based Upon Increase or Reduction of Earning Capacity

- A. A petition for rearrangement or readjustment of compensation filed with the Commission under A.R.S. § 23-1044(F) shall be in writing. A form is available from the Commission upon request.

- B. A party or a party's authorized representative shall sign a petition for rearrangement or readjustment and include in the petition:
 1. A statement of the basis upon which the rearrangement or readjustment of compensation is sought, and
 2. Documentation in support of the petition.
- C. The petition shall be signed by the employee or the employee's authorized representative, the employer, or, in the case of an insurance carrier, by its authorized representative, and shall include a statement of the basis upon which the rearrangement of compensation is sought accompanied by supportive documentary evidence.
- D. If a self-insured employer, carrier, special fund division, or uninsured employer requests a hearing protesting the Commission's determination under A.R.S. § 23-1044(F) and the claimant resides outside of Arizona, the Commission may order the self-insured employer, carrier, special fund division, or uninsured employer to pay the claimant's transportation and living expenses to attend any scheduled hearing.

Historical Note

Former Rule 34. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). Amended effective August 28, 1992 (Supp. 92-3). R20-5-134 recodified from R4-13-134 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-135. Requests for Hearing; Form

- A. Any interested party or the party's authorized representative, except as otherwise provided by law or this Article, may request a hearing on a claim. A request for hearing shall be in writing.
- B. A Request for Hearing form is available upon request from the Commission and requests the following:
 1. Employee, employer, insurance carrier, authorized representative, and claim identification;
 2. Issue upon which the request for hearing is filed;
 3. Requests for subpoenas of witnesses;
 4. Desired location and length of time for the hearing;
 5. Signature and address of requesting party.

Historical Note

Former Rule 35. Amended subsections (A) and (B) effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). Amended effective August 28, 1992 (Supp. 92-3). R20-5-135 recodified from R4-13-135 (Supp. 95-1).

R20-5-136. Expired**Historical Note**

Former Rule 36. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-136 recodified from R4-13-136 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3). Section expired under A.R.S. § 41-1056(J) at 22 A.A.R. 3475, effective November 8, 2016 (Supp. 16-4).

R20-5-137. Service of a Request for Hearing

A party filing a request for hearing shall serve a copy of the party's request for hearing upon all other parties at the same time that the party files the request for hearing with the Commission. The failure to serve a copy of a request for hearing upon other parties does not affect the validity of the hearing request.

Historical Note

Former Rule 37. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-137 recodified

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

from R4-13-137 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-138. Hearing Calendar and Assignment to Administrative Law Judge; Notification of Hearing

- A. The chief administrative law judge shall maintain a hearing calendar. The chief administrative law judge shall ensure that a request for hearing filed in accordance with this Article is:
 1. Placed on the hearing calendar, and
 2. Assigned to an administrative law judge who is designated as the presiding administrative law judge.
- B. A presiding administrative law judge may hold a hearing at an earlier date than required under A.R.S. § 23-941(D), if all parties to the proceeding agree.

Historical Note

Former Rule 38. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-138 recodified from R4-13-138 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-139. Administrative Resolution of Issues by Stipulation Before Filing a Request for Hearing

- A. At any time before the filing of a request for hearing, parties may resolve issues by written stipulation. The parties shall file the stipulation with the Commission for approval or other action as may be appropriate.
- B. If the Commission determines that a written stipulation is reasonably supported by the facts, the Commission may approve the stipulation or enter an appropriate award without a request for hearing or hearing.

Historical Note

Former Rule 39. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-139 recodified from R4-13-139 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-140. Informal Conferences

- A. A presiding administrative law judge may hold an informal conference to:
 1. Resolve and dispose of disputed issues;
 2. Narrow or limit the scope of the issues to be considered at a subsequent hearing;
 3. Simplify the method of proof at a hearing; or
 4. Eliminate the need for hearing if the facts appear to be uncontested.
- B. A party may request that a pending hearing be disposed of by an informal conference, by filing a written request that:
 1. Specifies the purpose for the conference consistent with subsection (A), and
 2. Does not contain any argument regarding the merits of the case.
- C. If the presiding administrative law judge determines that an informal conference is appropriate, the judge shall give notice to the parties of the time and place of the conference. The presiding administrative law judge may, without a request from a party, schedule an informal conference by giving five days notice to the parties of the time, place, and subject matter of the informal conference. The parties may waive the five day notice requirement of this subsection.
- D. If a presiding administrative law judge disposes of issues in controversy at an informal conference, the presiding administrative law judge may enter an award without convening a hearing.

- E. If a presiding administrative law judge disposes of, narrows, or limits some, but not all issues in controversy, the presiding administrative law judge shall prepare and mail to the parties a statement setting forth the issues to be resolved at a hearing. The presiding administrative law judge shall limit the hearing to the issues contained in the statement unless at the hearing all parties and, the presiding administrative law judge agree that the judge may consider issues beyond the scope of the statement.
- F. Upon request by a party or upon a presiding administrative law judge's own motion, the presiding administrative law judge may order the parties to file a joint statement listing the disputed issues to be considered at formal hearing. The presiding administrative law judge shall give the parties at least 10 days to file the statement and shall order the parties to file the statement three to 10 days before the first scheduled hearing.

Historical Note

Former Rule 40. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-140 recodified from R4-13-140 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-141. Subpoena Requests for Witnesses; Objection to Documents or Reports Prepared by Out-of-State Witness

- A. Subpoena requests for witnesses.
 1. Subpoena request for non-medical witness. A party may request a presiding administrative law judge to issue a subpoena to compel the appearance of a non-medical witness by filing a written request with the presiding administrative law judge at least 10 days before the date of the first scheduled hearing.
 2. Subpoena request for expert medical witness. A party may request a presiding administrative law judge to issue a subpoena to compel the appearance of an expert medical witness by filing a written request with the presiding administrative law judge at least 20 days before the date of the first scheduled hearing.
 3. Statement of expected testimony. In the discretion of the presiding administrative law judge, the judge may order the party requesting a subpoena to file within five days of the order a written statement summarizing the substance of the testimony expected of the witness.
 4. Issuance of Subpoena. A presiding administrative law judge shall issue a subpoena requested under this Section if the judge determines that the testimony of the witness is material and necessary and, if applicable:
 - a. The party files a timely statement under subsection (A)(3); or
 - b. The party shows at or before the first scheduled hearing that good cause exists for the party's failure to respond timely to the judge's order under subsection (A)(3).
 5. Service of a subpoena. The Commission may serve a subpoena by mail unless the party requesting the subpoena requests personal service. If a party requests personal service of a subpoena, the Commission shall prepare the subpoena and the party requesting personal service shall:
 - a. Ensure that the subpoena is served in the same manner as in a civil action; and
 - b. Pay all expenses of the service.
- B. A presiding administrative law judge shall not grant a party a continued hearing because a subpoenaed witness fails to appear at hearing unless the party filed a timely request for subpoena as required by subsection (A). If a party timely requested a subpoena for a witness who fails to appear at a

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

scheduled hearing, the presiding administrative law judge may grant a continued hearing if the party requesting the subpoena demonstrates that:

1. The testimony of the witness is material and necessary, and
 2. Good cause is shown as to why the witness failed to appear.
- C. **Witness Fees.**
1. If a non-medical witness requests a witness fee, the party requesting the subpoena shall pay the non-medical witness fees and mileage provided for witnesses in civil actions in the Superior Court. If more than one party subpoenas the same witness, the parties shall divide the witness fee equally.
 2. The Commission shall pay the witness fee to a medical witness under the Commission's medical fee schedule after the presiding administrative law judge approves the fee.
- D. **Objection to an out-of-state physician's report.**
1. A presiding administrative law judge shall not consider or place into evidence a timely filed physician's report authored by a physician residing outside Arizona if a party files an objection to that report at least 20 days before the scheduled hearing, unless the party submitting the report produces the author for cross-examination either at the hearing or at a deposition.
 2. Nothing in R20-5-143(G) precludes a party from taking or submitting into evidence a deposition of a physician taken under this subsection.
 3. The party submitting into evidence a report of an out-of-state physician shall pay the expenses of a deposition taken under this subsection.
- E. **Objection to document prepared by out-of-state non-medical witness.**
1. A presiding administrative law judge shall not consider or place into evidence a timely filed document prepared by a non-medical witness who resides outside Arizona if a party files an objection to that document at least seven days before the scheduled hearing unless the party submitting the document produces the author for cross-examination either at the hearing or at a deposition.
 2. Nothing in R20-5-143 precludes a party from taking or submitting into evidence a deposition within the time limits set by a presiding administrative law judge.
 3. The party submitting into evidence a document prepared by an out-of-state non-medical witness shall pay the expenses of a deposition taken under this subsection.
- F. If a presiding administrative law judge approves, the testimony of a party's out-of-state non-medical or expert medical witness may be taken telephonically.

Historical Note

Former Rule 41. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-141 recodified from R4-13-141 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-142. In-State Oral Depositions

- A. A party may take the oral deposition of another party or a witness residing in Arizona by serving a Notice of Deposition by Oral Examination upon the deponent and every party at least 10 days before the date of the oral deposition and at least 40 days before the first scheduled hearing.
- B. A party may file with the presiding administrative law judge a written objection to the taking of an oral deposition within five days after service of the Notice of Deposition. If no request for

hearing has been filed, a party shall file the written objection with the chief administrative law judge. The party objecting to the deposition shall:

1. State the basis for objecting to the deposition; and
 2. Serve a copy of the party's objections on all parties.
- C. The oral deposition shall not commence until the presiding administrative law judge rules on the written objection. The presiding administrative law judge shall rule on the written objection to the taking of an oral deposition within seven days after a party files a written objection by:
1. Ordering the deposition to proceed;
 2. Ordering the deposition not be taken; or
 3. Entering any other appropriate protective order.
- D. The party taking the deposition shall comply with the Arizona Rules of Civil Procedure governing the taking of depositions.
- E. The expense of any deposition shall be borne by the party taking the deposition but shall not include the expense of any other interested party.
- F. A presiding administrative law judge shall not cancel or continue a hearing because a party fails to take or complete a deposition under this Section.
- G. A deposition taken under this Section shall only be used to impeach a witness during a hearing, except that, in the exercise of discretion, the presiding administrative law judge may admit a deposition into evidence for another purpose if:
1. The deponent is deceased at the time of the hearing, or
 2. All parties agree.
- H. A party may take a telephonic deposition under this Section either by agreement of the parties or by order of the presiding administrative law judge in the exercise of the judge's discretion.

Historical Note

Former Rule 42. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-142 recodified from R4-13-142 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-143. Out-of-State Oral Depositions

- A. A party shall obtain permission from a presiding administrative law judge before taking an out-of-state oral deposition of another party or a witness by filing a written request with the presiding administrative law judge that contains:
 1. The name and address of the party or witness to be deposed, and
 2. Each reason why the party's or witness' testimony is necessary.
- B. The party requesting permission to take the out-of-state deposition shall serve a copy of the request upon each party.
- C. If no objection to the request for permission to take the deposition is filed under subsection (D) the presiding administrative law judge shall, within seven days from the date of the request, grant or deny permission to take the deposition.
- D. A party may file with the presiding administrative law judge a written objection to the taking of an out-of-state oral deposition within five days after being served with a request to take the out-of-state deposition. The party objecting to the out-of-state deposition shall:
 1. State the basis for objecting to the deposition; and
 2. Serve a copy of the party's objections on each party.
- E. The oral deposition shall not commence until the presiding administrative law judge rules on the written objection. The presiding administrative law judge shall rule on the written objection to the taking of an out-of-state oral deposition within seven days after a party files the written objection by:
 1. Ordering the deposition to proceed,

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

2. Ordering the deposition not be taken, or
 3. Entering any other appropriate protective order.
- F.** A party shall not take more than two depositions per hearing under this Section unless a presiding administrative law judge, upon a showing of good cause, approves the taking of additional depositions.
- G.** In the exercise of discretion, the presiding administrative law judge may admit into evidence a deposition taken under this Section if the transcript of the deposition is filed with the Commission at least five days before any scheduled hearing or as otherwise directed by the presiding administrative law judge. If the transcript of the deposition is not timely filed under this subsection, the administrative law judge shall not consider the deposition for any purpose unless the parties and the administrative law judge agree that the deposition may be considered.
- H.** Parties may take telephonic depositions under this Section either by agreement of the parties or by order of a presiding administrative law judge in the exercise of the administrative law judge's discretion.
- I.** A party taking a deposition taken under this Section shall comply with R20-5-142(A), (D), (E) and (F).

Historical Note

Former Rule 43. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-143 recodified from R4-13-143 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-144. Written Interrogatories

- A.** After a party files a request for hearing with the Commission, any party may serve written interrogatories upon another party. A party shall serve written interrogatories at least 40 days before the scheduled hearing.
- B.** A party shall not serve more than 25 interrogatories, including subsections.
- C.** A party shall serve answers to the interrogatories upon all parties within 10 days after service of the interrogatories. A party shall not file answers to the interrogatories with the Commission.
- D.** A presiding administrative law judge shall not cancel or continue a hearing because a party fails to answer interrogatories under this Section.
- E.** A party shall only use written interrogatories served under this Section to impeach a witness during a hearing, except that, in the exercise of discretion, the presiding administrative law judge may admit the interrogatory answers into evidence for another purpose if the party answering the interrogatories is deceased at the time of the scheduled hearing.

Historical Note

Former Rule 44. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-144 recodified from R4-13-144 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-145. Refusal to Answer or Attend; Motion to Compel; Sanctions Imposed

- A.** If a party or deponent refuses to answer any question asked at a deposition under R20-5-142 or R20-5-143, the party asking the question shall either complete the deposition in other matters or adjourn the deposition. With notice to all persons affected by the deponent's refusal to answer a question, the party asking the question may apply to the presiding administrative law judge for an order compelling the deponent to answer the question.

- B.** If a party refuses to answer an interrogatory served under R20-5-144, the party serving the interrogatory may submit the interrogatory to the presiding administrative law judge and apply for an order compelling the answer.
- C.** If a presiding administrative law judge issues an order compelling an answer under subsection (A) or (B) and finds that a refusal to answer is without substantial justification, the presiding administrative law judge shall require the party or witness refusing to answer or the authorized representative advising that party or witness not to answer, or both of them, to pay to the party asking the question:
1. Reasonable attorney's fees incurred to obtain the order compelling the answer, and
 2. Reasonable expenses that will be incurred to obtain the requested answer.
- D.** If a presiding administrative law judge denies a motion to compel an answer under subsection (A) or (B), and finds that the motion was made without substantial justification, the presiding administrative law judge shall require the party filing the motion, or the parties' authorized representative advising that party to make the motion, or both of them, to pay to the party or witness refusing to answer, reasonable attorney's fees incurred in opposing the motion.
- E.** In addition to the sanctions authorized under R20-5-157, a presiding administrative law judge may, upon a party's motion, impose the following sanctions upon a party if the party, or an officer or managing agent of that party, willfully fails to appear for a deposition after being served with proper notice of the deposition, or fails to serve answers to interrogatories after proper service of the interrogatories:
1. Strike out all or any part of a document filed by the party;
 2. Dismiss the action or proceeding, or any part of the action or proceeding;
 3. Order the suspension or forfeiture of compensation; or
 4. Preclude the introduction of evidence.
- F.** The party filing a motion under subsections (A), (B), or (E) shall attach to the motion:
1. The statement required under R20-5-105(E) and
 2. A proposed order that includes the relief requested and a service page with the names and addresses of all parties served.

Historical Note

Former Rule 45. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-145 recodified from R4-13-145 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-146. Repealed**Historical Note**

Former Rule 46. R20-5-146 recodified from R4-13-146 (Supp. 95-1). Section repealed by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-147. Videotape Recordings and Motion Pictures

- A.** A party proposing to offer a videotape recording or motion picture into evidence at a Commission hearing shall provide written notice to the Commission and all parties at least 40 days before the first scheduled hearing.
- B.** If a party serves a written request to view a videotape recording or motion picture upon the party proposing to submit the videotape recording or motion picture into evidence, the party proposing to offer the videotape recording or motion picture into evidence shall provide the necessary facilities and equipment to allow the other party to view the videotape recording

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

or motion picture no later than 25 days before the first scheduled hearing.

- C. A presiding administrative law judge may admit into evidence a videotape recording or motion picture if the videotape recording or motion picture:
 1. Is a reasonable and accurate representation of the scene, person, object, or action portrayed; and
 2. Will aid in the understanding of the issues before the presiding administrative law judge.
- D. The party submitting the videotape recording or motion picture into evidence shall ensure that commentary, interrogation, dialogue, or testimony are not a part of the videotape recording or motion picture.
- E. A presiding administrative law judge shall not cancel or continue a hearing because a party fails to view a videotape recording or motion picture as provided in this Section.
- F. This Section does not apply to:
 1. Videotape recordings or motion pictures obtained by surveillance, or
 2. Videotape recordings or motion pictures of medical procedures performed by a physician.

Historical Note

Former Rule 47. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-147 recodified from R4-13-147 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-148. Burden of Presentation of Evidence; Offer of Proof

- A. A party shall rest at the conclusion of the presentation of the party's evidence. If there is a dispute as to which party has the burden of proof, the presiding administrative law judge shall direct who has the burden of proof.
- B. If a presiding administrative law judge prohibits a witness from answering a question, the presiding administrative law judge shall permit an offer of proof in the form of an avowal or in writing.

Historical Note

Former Rule 48. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-148 recodified from R4-13-148 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-149. Presence of Claimant at Hearing; Notice of a Parties' Non-Appearence at Hearing; Assessment of Hearing Costs for Non-Appearence

- A. A claimant, whether or not represented by an attorney, shall appear personally at any hearing without the necessity of subpoena unless excused by the presiding administrative law judge.
- B. Subject to subsection (A), at least three days before a scheduled hearing a party shall notify the presiding administrative law judge of any non-appearance by a party or party's authorized representative that requires the judge to cancel or reschedule the hearing.
- C. If a party fails to notify the presiding administrative law judge as required under subsection (B), the presiding administrative law judge may order the party or the party's authorized representative to reimburse the Commission for hearing expenses and costs incurred by the Commission including fees of expert medical witnesses and other witness fees.

Historical Note

Former Rule 49. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-149 recodified

from R4-13-149 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-150. Joinder of a Party

- A. An administrative law judge may join as a party any person, firm, corporation, or other entity in favor of whom or against whom a right to relief may exist and over whom the Commission may acquire jurisdiction.
- B. Joinder may be made upon application of any party or upon the presiding administrative law judge's own motion.
- C. A party seeking to join another person, firm, corporation, or other entity shall file a motion requesting joinder with the presiding administrative law judge at least 30 days before hearing. The moving party shall serve a copy of the motion upon the person, firm, corporation, or other entity for whom joinder is requested, and upon all other parties.
- D. If the requirements of this Section are met, the presiding administrative law judge shall join as a party the person, firm, corporation, or other entity for whom joinder is requested and shall issue a notice advising the parties of the joinder.

Historical Note

Former Rule 50. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-150 recodified from R4-13-150 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-151. Special Appearance

Any party against whom a claim may exist under the Act, or against whom a contingent liability may exist under the Act, and over whom the Commission has not acquired jurisdiction, may enter a special appearance. A special appearance made under this Section does not invoke the jurisdiction of the Commission.

Historical Note

Former Rule 51. R20-5-151 recodified from R4-13-151 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-152. Resolution of Issues by Stipulation After the Filing of a Request for Hearing; Notice of Resolution; Assessment of Hearing Costs

- A. Subject to the requirement of subsection (D), parties may stipulate to any fact or issue after a party files a request for hearing. The stipulation may be in writing or made orally at the time of hearing.
- B. A stipulation is binding upon the parties unless a presiding administrative law judge or the Commission grants the parties permission to withdraw the stipulation.
- C. If a stipulation is not reasonably supported by the evidence, a presiding administrative law judge or the Commission, may set aside or refuse to accept the stipulation and proceed to determine the true facts.
- D. A party shall notify a presiding administrative law judge of any stipulation, compromise or settlement agreement, or withdrawal of a hearing request that makes a hearing unnecessary at least three days before a scheduled hearing.
- E. The presiding administrative law judge may order a party or parties to reimburse the Commission for hearing expenses and costs incurred by the Commission including fees of expert medical witnesses and other witness fees if a party fails to notify the presiding administrative law judge as required under subsection (D).

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

Historical Note

Former Rule 52. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-152 recodified from R4-13-152 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-153. Exclusion of Witnesses

Any party may request that all other witnesses except the parties be excluded from the hearing until called to testify. The presiding administrative law judge may, in the judge's discretion, grant or deny the request. If the request is granted, the presiding administrative law judge shall admonish each witness not to discuss the witness's testimony with anyone other than attorneys on the case.

Historical Note

Former Rule 53. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-153 recodified from R4-13-153 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-154. Correspondence to Administrative Law Judge

A person submitting correspondence, including subpoena requests, to an administrative law judge concerning a matter pending before the administrative law judge, shall contemporaneously serve a copy of the correspondence upon all other parties, or if represented, the parties' authorized representatives. The administrative law judge shall not consider correspondence or subpoena requests to be evidence except by agreement of all parties to the matter.

Historical Note

Former Rule 54. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-154 recodified from R4-13-154 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-155. Filing of Medical and Non-Medical Reports Into Evidence; Request for Subpoena to Cross-examine Author of Report Submitted into Evidence; Failure to Timely Request Subpoena for Author

- A. Except as provided in R20-5-114(C), a party filing a medical report or hospital record into evidence ("medical report") that is not already contained in the Commission's claims file, shall file the medical report with the presiding administrative law judge at least 25 days before the first scheduled hearing.
- B. A party filing into evidence a document, report, instrument, or other written matter not described in subsection (A) ("non-medical report") that is not already contained in the Commission's claims file, shall file the non-medical report with the presiding administrative law judge at least 15 days before the first scheduled hearing.
- C. The party filing a medical or non-medical report into evidence shall serve a copy of the report to all other parties.
- D. A presiding administrative law judge shall not receive into evidence any medical or non-medical report that is not filed as required under this Section. If the report has been placed in the Commission's claims file, the presiding administrative law judge shall remove the report from the Commission's claims file and return the report to the filing party.
- E. The presiding administrative law judge may suspend the requirements of this Section;
 1. Upon a showing of good cause; or
 2. If the parties agree that the judge may accept the medical or non-medical report into evidence.
- F. The party filing a medical or non-medical report under this Section shall file a cover letter with the report stating:

1. The party's identity;
2. The reports filed; and
3. Proof of service of the reports upon the other parties.

- G. A party seeking to cross-examine the author of any medical or non-medical report filed into evidence shall request a subpoena under R20-5-141.
- H. If a party fails to timely request a subpoena under this Section and R20-5-141, the party waives the right to cross-examine the author of any medical or non-medical report filed into evidence and the presiding administrative law judge shall admit the medical or non-medical report in evidence.

Historical Note

Former Rule 55. Amended subsections (A) and (D) effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-155 recodified from R4-13-155 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-156. Continuance of Hearing

- A. A party may request a continuance of a scheduled hearing. If a party shows good cause, a presiding administrative law judge may grant a request that a hearing be continued.
- B. If at the conclusion of a hearing a party seeks to continue the hearing to introduce additional evidence, the party shall state specifically and in detail:
 1. The nature and substance of the additional evidence,
 2. The names and addresses of additional witnesses, and
 3. The reason the party was unable to produce the evidence or witnesses at the hearing.
- C. A presiding administrative law judge may deny a request for a continuance under subsection (B) if the presiding administrative law judge determines that, with the exercise of due diligence, the evidence or testimony could have been produced or the evidence or testimony would be cumulative, immaterial, or unnecessary.
- D. A presiding administrative law judge may, on the judge's own motion, continue a hearing and order further examinations or investigations that the judge determines are warranted.
- E. If more than 40 days before the first scheduled hearing, a presiding administrative law judge reschedules the hearing discovery and filing deadlines under this Article shall be calculated with respect to the new hearing date.
- F. If less than 40 days before the first scheduled hearing, a presiding administrative law judge reschedules the hearing discovery and filing deadlines under this Article shall be calculated with respect to the original hearing date.

Historical Note

Former Rule 56. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-156 recodified from R4-13-156 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-157. Sanctions

- A. A presiding administrative law judge may impose the following sanctions against any party or authorized representative of a party who fails to comply with this Article or fails to comply with an order of the presiding administrative law judge or Commission:
 1. Dismissal of the party's request for hearing;
 2. Refusal to permit the introduction of evidence by the party; or
 3. Assessment of reasonable attorney's fees and costs against the sanctioned party or authorized representative of a party.

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

- B. If a party shows good cause, a presiding administrative law judge or the Commission may relieve a party of sanctions imposed under subsection (A).

Historical Note

Former Rule 57. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-157 recodified from R4-13-157 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-158. Service of Awards and Other Matters

- A. An award, decision, order, subpoena, notice, document, or other matter required by the Act, this Article, or other law to be served shall be made upon a party or, if represented, the party's authorized representative. Service upon the authorized representative is service upon the party.
- B. Service may be made and is deemed complete by:
1. Depositing the document or matter in the United States mail, with postage prepaid, addressed to the party served at the address as shown by the records of the Commission; or
 2. Personal service in the same manner as a summons is served in a civil action.
- C. Proof of service may be made by an affidavit or oral testimony of the person making such service.

Historical Note

Former Rule 58. Amended subsection (C) effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-158 recodified from R4-13-158 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-159. Record for Award or Decision on Review

A presiding administrative law judge's award or decision under A.R.S. § 23-942 or award or decision upon review under A.R.S. § 23-943 shall be based upon:

1. The record as it exists at the conclusion of the hearings, and
2. Any memoranda provided under A.R.S. § 23-943(E) or requested by the presiding administrative law judge.

Historical Note

Former Rule 59. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-159 recodified from R4-13-159 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-160. Application to Set Attorney Fees Under A.R.S. § 23-1069

- A. For purposes of A.R.S. § 23-1069, "final disposition of a case" occurs when all compensation benefits have been released to a claimant.
- B. A claimant or attorney filing an application for attorney's fees under A.R.S. § 23-1069 shall serve notice of the application to all parties, including if applicable, the insurance carrier, self-insured employer, or special fund division.
- C. Upon the filing of an application, the attorney and claimant shall, provide information to the Commission to enable the Commission to award reasonable attorney's fees.
- D. Attorney's fees awarded under this Section shall be set by the Commission, an administrative law judge, or other authorized representative of the Commission.

Historical Note

Former Rule 60. Amended effective March 1, 1987, filed February 26, 1987 (Supp. 87-1). R20-5-160 recodified

from R4-13-160 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-161. Stipulations for Extensions of Time

Stipulations for extensions of time in which to file papers or briefs in the various courts shall be received and signed by the Chief Counsel or other members of the Legal Department.

Historical Note

Former Rule 61. R20-5-161 recodified from R4-13-161 (Supp. 95-1).

R20-5-162. Legal Division Participation

The chief counsel and other members of the legal staff of the Commission who participate in proceedings or matters under the Act and this Article do so on behalf of the Commission.

Historical Note

Former Rule 62. R20-5-162 recodified from R4-13-162 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-163. Bad Faith and Unfair Claim Processing Practices

- A. For purposes of A.R.S. § 23-930, an employer, self-insured employer, insurance carrier, or claims processing representative commits "bad faith" if the employer, self-insured employer, insurance carrier, or claims processing representative:

1. Institutes a proceeding or interposes a defense that is not:
 - a. Well-grounded in fact;
 - b. Warranted by existing law; or
 - c. A good faith argument for the extension, modification, or reversal of existing law;
2. Unreasonably delays:
 - a. Payment of benefits; or
 - b. Authorization for, or receipt of, medical benefits or treatment;
3. Unreasonably underpays benefits;
4. Unreasonably terminates benefits;
5. Intentionally misleads a claimant as to applicable statutes of limitation, benefits, or remedies available to the claimant under the Act or under this Article; or
6. Unreasonably interferes with or obstructs the claimant's right to choose the claimant's attending physician, except in cases involving a self-insured employer under A.R.S. § 23-1070.

- B. For purposes of A.R.S. § 23-930, an employer, self-insured employer, insurance carrier, or claims processing representative commits "unfair claim processing practices" if the employer, self-insured employer, insurance carrier, or claims processing representative:

1. Unreasonably issues a notice of claim status without adequate supporting information in its possession or available to it;
2. Unreasonably fails to acknowledge communications from the Commission, an unrepresented claimant, or a claimant's attorney with respect to a claim;
3. Fails to act reasonably and promptly upon communications from the Commission, an unrepresented claimant, or a claimant's attorney with respect to a claim;
4. Directly advises a claimant not to consult or obtain the services of an attorney; or
5. Communicates directly, for an improper purpose, with a claimant represented by an attorney.

- C. A person alleging bad faith or unfair claim processing practices ("complainant") shall file a written complaint with the

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

claims manager of the Commission. The complainant, or the complainant's authorized representative, shall sign the complaint.

- D. The complaint shall describe the specific actions of the employer, self-insured employer, insurance carrier, or claims processing representative, that are alleged to constitute bad faith or unfair claim processing practices. A complaint form is available upon request from the Commission.
- E. Upon receipt of a complaint under this subsection, the claims manager of the Commission shall serve the complaint upon all parties.
- F. If the Commission acts on its own motion under A.R.S. § 23-930(A), the claims manager shall mail a notice of alleged bad faith or unfair claim processing practices to the claimant or the claimant's authorized representative and the:
 1. Employer;
 2. Self-insured employer;
 3. Insurance carrier; or
 4. Claims processing representative.
- G. The person or entity named in a complaint or notice served under A.R.S. § 23-930 and this Section shall file with the claims manager a written response to the complaint or notice, within 30 days after service by the Commission of the complaint or notice.
- H. The person or entity filing a written response shall serve a copy of the response upon the complainant, or the complainant's authorized representative, if represented.
- I. If the person or entity named in a complaint or notice served under A.R.S. § 23-930 and this Section fails to file a written response, the Commission shall consider the absence of a response a denial of the allegations of the complaint or notice.
- J. Upon receipt of a written response, or upon the expiration of 30 days if no response is filed, the Commission shall enter an award as it deems, in its discretion, appropriate under A.R.S. §§ 23-930(B) or (C).

Historical Note

Adopted as an emergency effective February 1, 1988, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 88-1). Emergency expired. Amended and readopted as an emergency effective April 29, 1988, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 88-2). Readopted without change as an emergency effective August 1, 1988, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 88-3). Readopted without change as an emergency effective November 9, 1988, pursuant to A.R.S. § 41-1026, valid for only 90 days (Supp. 88-4). Emergency expired. Amended and readopted as an emergency effective July 11, 1989 (Supp. 89-3). Adopted as a permanent rule effective October 4, 1989 (Supp. 89-4). R20-5-163 recodified from R4-13-163 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3).

R20-5-164. Human Immunodeficiency Virus, Hepatitis C, Methicillin-resistant *Staphylococcus Aureus*, Spinal Meningitis and Tuberculosis; Significant Exposure; Employee Notification; Reporting; Documentation; Forms

- A. An employer subject to the Act shall notify its employees of the requirements of A.R.S. §§ 23-1043.02, 23-1043.03, and 23-1043.04 by posting the Commission notices titled "Work Exposure to Bodily Fluids" and "Work Exposure to methicillin-resistant *Staphylococcus Aureus* (MRSA), Spinal Meningitis, or Tuberculosis (TB)" in a conspicuous place immediately next to the "Notice to Employees" notice required under A.R.S. § 23-906(D).

- B. Properly posted "Work Exposure to Bodily Fluids" and "Work Exposure to Methicillin-resistant *Staphylococcus Aureus* (MRSA), Spinal Meningitis, or Tuberculosis (TB)" notices constitute sufficient notice to employees of the requirements of a prima facie case under A.R.S. §§ 1043.02(B), 23-1043.03(B), and 23-1043.04(B).
- C. An employer's insurance carrier, claims processor, or workers' compensation pool shall provide the notices specified in subsection (A) to the employer. These notices are also available from the Commission upon request.
- D. An employer shall make readily available to its employees the Commission form described in R20-5-106 titled "Report of Significant Work Exposure to Bodily Fluids or Other Infectious Material." An employer's insurance carrier, claims processor, or workers' compensation pool shall provide the "Report of Significant Work Exposure to Bodily Fluids or Other Infectious Material" to the employer. This form is also available from the Commission upon request.
- E. If an employee sustains a significant exposure as defined in A.R.S. §§ 23-1043.02(G), 23-1043.03(G), or 23-1043.04(H)(2), the employee shall complete, date, and sign a "Report of Significant Work Exposure to Bodily Fluids or Other Infectious Material" form. The employee or employee's authorized representative shall give to the employer the completed, dated, and signed form. The employer shall return one copy of the completed form to the employee or to the employee's authorized representative. Nothing in this subsection limits the requirements to report an injury or file a claim under the Act.
- F. If an employee submits a written report of a significant exposure to an employer, but does not use the Commission form titled "Report of Significant Work Exposure to Bodily Fluids or Other Infectious Material," the employer shall provide the employee the Commission form within five calendar days after receiving the employee's initial written report.
- G. The date of the receipt by the employer or its authorized representative of the employee's initial report is the date used to compute the time period prescribed in A.R.S. §§ 23-1043.02(B)(2), 23-1043.03(B)(2), and 23-1043.04(B)(2) if:
 1. The initial report contains the information required in the "Report of Significant Work Exposure to Bodily Fluids or Other Infectious Material" form, or
 2. The employee gives to the employer the completed Commission form within 10 calendar days after the employee's receipt of the Commission form.
- H. Failure or refusal by the employer to provide the Commission form to the employee shall not be a defense to a prima facie claim under A.R.S. §§ 23-1043.02(B), 23-1043.03(B), and 23-1043.04(B).
- I. In investigating the circumstances and facts surrounding an employee's report to an employer of a significant exposure under A.R.S. §§ 23-1043.02(C), 23-1043.03(C), and 23-1043.04(C), the employer, or its carrier, or any employees, agents or contractors of either the employer or carrier, shall not disclose to any person, except as authorized or required by law, that the reporting employee, or any witness or alleged source of exposure, may have or did contract the human immunodeficiency virus, acquired immune deficiency syndrome, hepatitis C, methicillin-resistant *Staphylococcus aureus*, spinal meningitis, or tuberculosis. However, an employer, its carrier or their respective attorneys, may:
 1. Direct an agent to investigate the employee's report of significant exposure, and
 2. Communicate with the investigating agent about the conduct and results of the investigation.

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

- J. As required under the federal Occupational Safety and Health Standard for Bloodborne Pathogens, 29 CFR 1910.1030, an employer shall pay for the testing required by A.R.S. § 23-1043.02.

Historical Note

Adopted effective April 9, 1992 (Supp. 92-2). R20-5-163 recodified from R4-13-163 (Supp. 95-1). Amended by final rulemaking at 7 A.A.R. 3966 and 7 A.A.R. 4995, effective August 17, 2001 (Supp. 01-3). Amended by final rulemaking at 15 A.A.R. 991, effective June 2, 2009 (Supp. 09-2).

R20-5-165. Calculation of Maximum Average Monthly Wage

In using the Bureau of Labor Statistics Employment Cost Index to adopt the amount of an increase to the maximum average monthly wage under A.R.S. § 23-1041(E), the Commission shall use the *Bureau of Labor Statistics, Employment Cost Index for Wages and Salaries, for Civilian Workers, by Occupational Group and Industry, All Workers*, available at <http://www.bls.gov/>.

Historical Note

New Section made by final rulemaking at 19 A.A.R. 1925, effective July 10, 2013 (Supp. 13-3).

**ARTICLE 2. SELF-INSURANCE REQUIREMENTS FOR
INDIVIDUAL EMPLOYERS AND WORKERS'
COMPENSATION POOLS ORGANIZED UNDER A.R.S. §§
11-952.01(B) AND 41-621.01**

R20-5-201. Definition of Self-insurer

"Self-insurer" or "self-insured" means an individual employer or a workers' compensation pool as defined in A.R.S. §§ 11-952.01(B) or 41-621.01(A) that is authorized by the Commission to self-insure for workers' compensation.

Historical Note

Former Rule I. Section repealed, new Section adopted effective July 6, 1993 (Supp. 93-3). R20-5-201 recodified from R4-13-201 (Supp. 95-1). Amended effective October 9, 1998 (Supp. 98-4).

R20-5-202. Self-insurance Application; Requirements

- A. All applicants who initially apply for self-insurance on or after the certification of the 1993 rule amendments by the Attorney General and filing of those amendments with the Secretary of State shall:

1. Complete, date, sign, and file with the Commission an application for authority to self-insure on a form that can be obtained from the Commission and contains the following information:
 - a. Applicant identification including names, addresses, corporation, subsidiary, and partnership information;
 - b. Nature of business;
 - c. History of business in Arizona and elsewhere;
 - d. Payroll data;
 - e. Work force data;
 - f. Insurance data;
 - g. Claims history;
 - h. Method proposed to finance self-insurance liability and reserves;
 - i. Program for compliance with occupational safety and health standards, rules, and laws of this state;
 - j. Program to finance medical, surgical, and hospital benefits including information on organization responsible for processing claims;
 - k. Names and addresses of Arizona agents upon whom legal notice of proceedings before the Commission is served;
 - l. Authorization for signator;

- m. Authorization by corporate resolution, or board of trustees resolution, if applicable; and
- n. Statement attesting to the truthfulness of the information in the application.

2. Maintain an office in Arizona. Payroll reports and other materials relating to the calculation of premiums shall be readily available at this office for inspection and audit by the Commission or its authorized representative.

3. In the first year of operation, obtain a guaranty bond and specific excess insurance or excess of loss insurance in an amount as provided in R20-5-206(D)(1) to adequately protect against catastrophic losses. Starting with the second year of operation, an individual self-insurer shall choose one of the two options provided in R20-5-206(D). The insurance shall contain:
 - a. A 60-day notice of termination; and
 - b. A provision that insolvency of the self-insurer does not relieve the excess insurer of liability assumed under the contract.

- B. An individual applicant for self-insurance that is not a member of a workers' compensation pool, in addition to complying with subsection (A) of this rule, shall:

1. Have been engaged in business in Arizona for at least five years prior to the date of application.
2. Provide an annual payroll in this state of at least \$2,000,000 (this payroll may include the combined payrolls of all subsidiary companies carried under the self-insurance authorization; the requirements of this subsection do not apply to political subdivisions of this state) and meet either of the following thresholds:
 - a. Total reported assets of at least \$50,000,000; or
 - b. Combination of \$10,000,000 in net worth and a cash flow ratio of .25.
3. Provide the Commission with an internally certified copy of the employer's audited or reviewed financial statements for the most current and prior two years. The Commission's review of the applicant's financial statements includes the following:
 - a. Calculation of the following ratios:
 - i. Cash Flow Ratio - Cash flow from operations divided by current liabilities which is an indication of the ability of the applicant to meet current obligations out of cash flow.
 - ii. Current Ratio - Current assets divided by current liabilities which indicate the applicant's ability to service current obligations.
 - iii. Debt Status Ratio - Net worth divided by total liabilities which indicate the proportion of funds supplied by the applicant relative to the funds supplied by creditors.
 - iv. Profitability Ratio - Profit before taxes, divided by total assets, multiplied by 100 which measures the return on assets and the efficiency of assets employed by the firm.
 - v. Quick Ratio - Cash and equivalents, plus trade receivables, divided by current liabilities which express the degree to which the applicant's liabilities are covered by the most liquid current assets.
 - vi. Working Capital Ratio - Working capital divided by sales which measures the sufficiency of working capital to support sales.
 - b. Comparison of the applicant's ratios with the ratios of existing self-insurers in the same or a closely related industry.
 - c. Review of notes to the financial statement.

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

- d. Review of management report of operation and other information published in the annual statement.
 4. Provide the Commission with the names of all other jurisdictions in which it has been granted authority to self-insure and the effective dates of such authorization.
 5. Provide the Commission with the names of all other jurisdictions in which its application to self-insure has been denied or its authority to self-insure has been suspended or revoked, and the dates and reasons for such denials, suspensions, or revocations.
- C.** In addition to the requirements of subsection (A), a workers' compensation pool applicant for self-insurance shall:
1. File with the application for self-insurance a completed indemnity agreement on a form that can be obtained from the Commission, signed by a duly authorized agent of the pool jointly and severally binding the pool and each of its members to comply with the provisions of A.R.S. Title 23, Chapter 6 and rules adopted pursuant to Chapter 6. The indemnity agreement shall contain the following information:
 - a. Name of the group, with names of trustees and members;
 - b. Amount of the corporate surety bond;
 - c. Name of the service agent of the group, including a description of the agent's duties and responsibilities; and
 - d. Statement that the group will defend and assume liabilities in the name of and on behalf of any member of the group.
 2. Provide a copy of the most recently audited financial report of the pool prepared by a certified public accountant, including a copy of the examination report prepared by the Department of Insurance and that Department's recommendations, if any.
 3. Provide the names and addresses of the members of the board of trustees of the pool.
 4. Provide the agreement indicating the terms and conditions of coverage within the pool including any exclusions of coverage.
 5. An intergovernmental agreement filed with the Commission pursuant to A.R.S. § 11-952.01(G)(7) shall contain the provisions of A.R.S. § 11-952.01(I).
2. Provide a continuation certificate for the guaranty bond or letter of credit signed by an authorized representative of the surety or bank. The amount of the bond, letter of credit, or securities shall equal the amount submitted on the Option Election form.
 3. Submit a copy of the most recent certified annual financial statement at least 30 days prior to the anniversary date of the authorization to self-insure. A parent company that has executed a guaranty for a subsidiary shall also submit a copy of its most recent certified annual financial statement within the same time period required by this subsection.
 4. Provide a Guaranty To Satisfy Compensation Claims Under Workers' Compensation Act in Arizona form as provided in R20-5-206(C) completed, signed, and dated by the parent company of a subsidiary self-insurer if the parent company of the self-insurer is different from the last filing approved by the Commission.
- B.** All workers' compensation pool applicants for self-insurance renewal authority shall:
1. Provide information to the Commission as required under subsections (A)(1), (2), and (3).
 2. Provide an updated indemnity agreement pursuant to R20-5-202(C)(2) for changes occurring since the last filing approved by the Commission.
- C.** All applicants for renewal shall continue to maintain an office in Arizona as described in R20-5-202(A)(2).
- D.** The Commission's analysis for renewal includes the following:
1. A review of the items required by R20-5-202(A).
 2. A review of the claims profile which includes a review of the preceding year's claims filed, claims denied, and denial rate. Denial rates in excess of 8% require additional analysis by the Commission's Claims Division to establish the reasons for the denials.
 3. A review of the self-insurer's financial profile which includes a review of the financial data as described in R20-5-202(B)(3).

Historical Note

Former Rule III. Section repealed, new Section adopted effective July 6, 1993 (Supp. 93-3). R20-5-203 recodified from R4-13-203 (Supp. 95-1).

R20-5-204. Denial of Authorization to Self-insure

If the Commission denies an application for authorization to self-insure for failure to comply with A.R.S. § 23-961(A)(2) or for failure to comply with the requirements of R20-5-202 or R20-5-203, the Commission shall issue an Order to the applicant refusing authorization to self-insure. An appeal of such denial may be made pursuant to A.R.S. § 23-945.

Historical Note

Former Rule IV. Section repealed, new Section adopted effective July 6, 1993 (Supp. 93-3). R20-5-204 recodified from R4-13-204 (Supp. 95-1).

R20-5-205. Resolution of Authorization

If the Commission grants authorization to self-insure, a Resolution of Authorization to Self-insure will be issued. The issuance of the Resolution shall be conditioned upon the deposit with the Commission, prior to the effective date stated in the Resolution, of the bonds or other securities specified by A.R.S. § 23-961(A)(2) and this Article.

Historical Note

Former Rule II. Section repealed, new Section adopted effective July 6, 1993 (Supp. 93-3). R20-5-202 recodified from R4-13-202 (Supp. 95-1).

R20-5-203. Self-insurance Renewal Application; Requirements

- A.** All individual applicants for self-insurance renewal authority shall:
1. Complete, date, sign, and file with the Commission an Option Election form that can be obtained from the Commission when providing a bond or other security as required by R20-5-206(D) for the payment of workers' compensation liabilities. The Option Election form shall list the following:
 - a. Total outstanding workers' compensation accrued liabilities for all previous periods of self-insurance;
 - b. Amount of future reserves;
 - c. Amount of calculated bond based on the amount of total estimated future liability x 125%.
- For those self-insurers complying with R20-5-206(D)(1), the self-insurer shall additionally provide a certificate of excess insurance.

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

Historical Note

Former Rule V. Section repealed, new Section adopted effective July 6, 1993 (Supp. 93-3). R20-5-205 recodified from R4-13-205 (Supp. 95-1).

R20-5-206. Posting of Guaranty Bond; Effective Date; Execution; Subsidiary Company Guaranty Bond; Parent Company Guaranty; Bond Amounts

- A. Any guaranty bond filed with the Commission shall bear the same effective date as the effective date of the Resolution of Authorization to Self-insure and shall be for a minimum of one year, subject to annual renewal.
- B. A guaranty bond shall be made by a company authorized and licensed to transact the business of fidelity and surety insurance in Arizona. The guaranty bond shall be executed by a duly authorized agent of the surety and be countersigned by a licensed resident agent. A bond form can be obtained from the Commission and contains the following information:
 1. Applicant identification;
 2. Amount of the bond;
 3. Conditions of the bond obligations; and
 4. Statement regarding responsibility for fees and costs associated with collection of the bond and responsibility for payment of any award or judgment against the surety.
- C. For the Commission to issue a Resolution of Authorization to Self-insure to a subsidiary company, the parent company shall first execute a guaranty for the subsidiary on a form that can be obtained from the Commission. The parent company shall submit its most recent audited financial statement to the Commission for analysis to determine the ability of the parent company to meet its obligations under the guaranty and under A.R.S. § 23-961(A)(2). The guaranty shall state that the parent company agrees and guarantees on behalf of the subsidiary that any and all liabilities against the subsidiary, under or by virtue of the Workers' Compensation Laws of Arizona, shall be promptly and fully paid, and the subsidiary company has on deposit a guaranty bond or securities. The guaranty for a subsidiary company, and the Resolution of Authorization to Self-insure issued to such subsidiary company, shall be valid and effective only as long as the parent company has on file with the Commission a valid guaranty to satisfy compensation claims of the subsidiary. A parent company is one which owns sufficient stock in the subsidiary company to control the subsidiary and does not mean a company in which all or a majority of the stockholders are the same as in the subsidiary. The guaranty shall be accompanied by a verified certificate as to stock ownership of the subsidiary, a certified copy of the charter or articles of incorporation of the parent company and a certified copy of the resolution of the directors of the parent company authorizing a designated officer to execute the guaranty.
- D. In compliance with this Article and the Workers' Compensation Laws of Arizona, an individual self-insurer that is not a member of a workers' compensation pool shall post either:
 1. A minimum \$250,000 guaranty bond and a specific excess reinsurance policy with a self-insured retention of \$250,000 and a policy limit of liability of not less than \$10,000,000.
 2. A guaranty bond equal to 125% of the total outstanding accrued liability as reflected in the Option Election form from the self-insurer to the Commission or a minimum guaranty bond in the amount of \$100,000, whichever is greater. The total outstanding accrued liabilities shall be determined by certification from the self-insurer for the Commission's approval.
- E. In compliance with this Article and the Workers' Compensation Laws of Arizona, a workers' compensation pool shall post

a guaranty bond equal to 125% of the total outstanding accrued liability as reflected in the Option Election form from the self-insured pool to the Commission or a minimum guaranty bond in the amount of \$100,000, whichever is greater. The total outstanding accrued liabilities shall be determined by certification from the self-insured pool for the Commission's approval.

Historical Note

Former Rule VI; Amended effective February 27, 1975 (Supp. 75-1). Section repealed, new Section adopted effective July 6, 1993 (Supp. 93-3). R20-5-206 recodified from R4-13-206 (Supp. 95-1).

R20-5-207. Posting of Securities in Lieu of Guaranty Bond; Registration; Deposit

- A. In lieu of posting a guaranty bond as provided in R20-5-206, the self-insurer may deposit with the Commission for transmittal to the State Treasurer bonds of the United States.
- B. Any securities deposited with the State Treasurer shall be registered to: "The Industrial Commission of Arizona, in trust for the fulfillment by ----- of its obligations under the Arizona Workers' Compensation Laws. The securities shall be held by the State Treasurer, as custodian subject to the order of, and in trust for, The Industrial Commission of Arizona, with the power in the Commission to collect or order collection of the principal as it becomes due, to sell or order the sale of these securities or any part of these securities, and to apply or order the application of the proceeds to the payment of any award rendered against the self-insurer in the event of the default in the payment of its obligations. The interest coupons on such securities shall be remitted by the Commission to the self-insurer upon request as they mature.
- C. The securities deposited in compliance with subsections (A) and (B) shall have a face value at maturity in the amount specified by the Commission.

Historical Note

Former Rule VII. Section repealed, new Section adopted effective July 6, 1993 (Supp. 93-3). R20-5-207 recodified from R4-13-207 (Supp. 95-1).

R20-5-208. Posting Other Securities

If the Commission accepts securities other than those specified in R20-5-207, including letters of credit, these securities shall be registered in the same manner as provided in R20-5-207.

Historical Note

Former Rule VIII. Section repealed, new Section adopted effective July 6, 1993 (Supp. 93-3). R20-5-208 recodified from R4-13-208 (Supp. 95-1).

R20-5-209. Authorization Limitation

If the Resolution of Authorization to Self-insure is validated by a deposit of acceptable securities, or by a guaranty bond, the resolution shall remain in full force and effect for a period of one year unless revoked by the Commission.

Historical Note

Former Rule IX. Section repealed, new Section adopted effective July 6, 1993 (Supp. 93-3). R20-5-209 recodified from R4-13-209 (Supp. 95-1).

R20-5-210. Continuation of Authorization

If timely and sufficient application for renewal is made pursuant to R20-5-203, the existing authorization to self-insure shall continue, subject to compliance with A.R.S. Title 23, Chapter 6 and this Article, until the renewal application has been finally determined by the Commission.

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

Historical Note

Former Rule X. R20-5-210 recodified from R4-13-210 (Supp. 95-1).

R20-5-211. Revocation of Authorization; Notice of Insolvency; Notice of Change of Ownership

- A. The Commission may revoke a resolution of authorization to self-insure for good cause. Good cause includes:
1. The impairment of the solvency of the self-insurer.
 2. The failure of the self-insurer to respond within 10 days of a demand by the Commission to substitute a satisfactory guaranty bond or securities when in the Commission's judgment the bond or securities on deposit are unsatisfactory or insufficient in amount or character.
 3. The failure of the self-insurer to pay tax assessments levied by the Commission within 30 days of the due dates prescribed by A.R.S. §§ 23-961 and 23-1065.
 4. The failure of the self-insurer to promptly provide the Commission within 60 days the reports required by the Commission under this Article concerning the business, operations, employees, wages, injuries, and other subjects under Commission jurisdiction.
 5. The failure to comply with state workers' compensation laws.
 6. The failure of the self-insurer to pay or comply with any award of the Commission within 30 days after the award becomes final.
 7. The willful misstating of any material fact in a payroll report, injury report, or other report or statement made to the Commission.
 8. The deliberate refusal of the self-insurer to comply with Commission rules.
 9. The failure of the workers' compensation pool to notify the Commission within 30 days before termination or cancellation that a member has been terminated or cancelled.
 10. The failure of the workers' compensation pool to notify the Commission within 30 days of receipt of notification that, as a result of the annual audit or examination by the Director of the Department of Insurance, it appears that the assets of the pool are insufficient to enable the pool to discharge its legal liabilities and other obligations and the resulting notification by the Director of the Department of Insurance to the administrator and board of trustees of the workers' compensation pool of the insufficiency and the Director's list of recommendations to abate the deficiency.
 11. The failure of the pool to comply with the recommendation of the Director of the Department of Insurance within 60 days of the date of notice as prescribed in A.R.S. §§ 11-952.01(L) and 41-621.01(J).
- B. The self-insurer shall notify the Commission within 24 hours of any bankruptcy filing under federal law or insolvency proceeding under any state's laws.
- C. The self-insurer shall notify the Commission within 24 hours of any change in the ownership status of the employer.

Historical Note

Former Rule XI. Section repealed, new Section adopted effective July 6, 1993 (Supp. 93-3). R20-5-211 recodified from R4-13-211 (Supp. 95-1).

R20-5-212. Notice of Revocation of Resolution of Authorization to Self-insure

The registration and deposit in the United States mail of a Notice of Revocation of the Resolution of Authorization to Self-insure, addressed to the last known address of the employer as shown by the records of the Commission, and signed by the Commission,

shall be deemed to constitute actual delivery of such notice to a self-insurer.

Historical Note

Former Rule XII. Section repealed, new Section adopted effective July 6, 1993 (Supp. 93-3). R20-5-212 recodified from R4-13-212 (Supp. 95-1).

R20-5-213. Substitution of Bond or Securities

No bond or other security deposited as a condition precedent to validating a Resolution of Authorization to Self-insure shall be returned nor shall any substitution be allowed, except upon written order of the Commission. No return of such bond or other security shall be authorized except upon proof that the employer has placed with the Commission an amount or amounts as determined by the Commission to be sufficient to provide for the present value of all death benefits, awards, and determinations previously made by the Commission or the self-insurer, with an adequate contingency amount to apply to reopened claims that have been closed and become final during the period of self-insurance.

Historical Note

Former Rule XIII. Section repealed, new Section adopted effective July 6, 1993 (Supp. 93-3). R20-5-213 recodified from R4-13-213 (Supp. 95-1).

R20-5-214. Rating Plans Available for Self-insurers

- A. Any of the following rating plans are available to self-insured employers for the purpose of calculating the taxes required by A.R.S. §§ 23-961(G) and 23-1065(A).
1. Fixed Premium Plan
 2. Ex-medical Plan
 3. Guaranteed Cost Plan
 4. Retrospective Rating Plan
- B. The provisions of the rating plans apply only to operations and payroll in Arizona, and all such operations in Arizona shall be combined as a single base for the calculation of any premium modifications to all such operations.

Historical Note

Former Rule XIV. Section repealed, new Section adopted effective July 6, 1993 (Supp. 93-3). R20-5-214 recodified from R4-13-214 (Supp. 95-1).

R20-5-215. Fixed Premium Plan: Definition; Formula; Eligibility

- A. A Fixed Premium Plan means a plan in which neither losses nor incurred loss reserves are used for calculation. The only discount is for premium size.
- B. The formula for calculation of the fixed premium plan is as follows: Payroll x Applicable Rate Less Premium Discount.
- C. Fixed Premium Plan shall be the exclusive plan available to:
1. Those self-insurers electing this plan.
 2. Those self-insurers whose annual net taxable premium does not exceed \$100,000 annually.
 3. Those self-insurers not eligible for any other plan authorized by the Commission for rating purposes.

Historical Note

Former Rule XV. Section repealed, new Section adopted effective July 6, 1993 (Supp. 93-3). R20-5-215 recodified from R4-13-215 (Supp. 95-1).

R20-5-216. Ex-medical Plan: Definition; Formula; Eligibility; Modification

- A. An Ex-Medical Plan means a plan for premium calculation which provides for rate revisions based upon the self-insurer operating a medical facility with a program for providing medical, surgical, or hospital services to all of the self-insurer's employees for their benefit and that has complied with the

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

requirements specified in A.R.S. § 23-1070. Neither losses nor incurred loss reserves are used in such plan.

- B. The formula for calculation of the Ex-Medical Plan is as follows: $[(\text{Payroll} \times \text{Applicable Rate}) \times (1 - \text{Ex-Medical Factor})]$ less Premium Discount.
- C. Only those self-insurers whose program for medical, surgical, or hospital services has been authorized by the Commission are eligible to utilize this plan, for premium calculation.
- D. To be eligible for this plan the self-insurer's annual net taxable premium must exceed \$100,000.

Historical Note

Former Rule XVI. Section repealed, new Section adopted effective July 6, 1993 (Supp. 93-3). R20-5-216 recodified from R4-13-216 (Supp. 95-1).

R20-5-217. Guaranteed Cost Plan: Definition; Formula; Eligibility; Cost of Calculation

- A. A Guaranteed Cost Plan means a plan providing for the direct relationship, on an annual basis, of the premium for tax purposes and the experience modification developed to reflect the loss payment and incurred loss experience of the self-insured employer. Loss data for three complete years must be provided to calculate the experience modification factor. This plan shall be calculated annually and the premium shall not be subject to further adjustment during the subsequent year.
- B. The formula for the calculation of the Guaranteed Cost Plan is as follows: $\text{Payroll} \times \text{Applicable Rate} \times \text{Experience Modification Factor}$ Less Premium Discount.
- C. Only those self-insurers who satisfy all of the following requirements shall be eligible to use the Guaranteed Cost Plan:
 - 1. The submission of data concerning paid loss determinations and incurred loss reserves for each workers' compensation claimant. The information is used to calculate an experience modification factor for the self-insurer. Three years of loss data shall be formulated to calculate the experience modification factor.
 - 2. An annual net taxable premium exceeding \$100,000.

Historical Note

Former Rule XVII. Section repealed, new Section adopted effective July 6, 1993 (Supp. 93-3). R20-5-217 recodified from R4-13-217 (Supp. 95-1).

R20-5-218. Retrospective Rating Plan: Definition; Formula; Eligibility

- A. Retrospective rating plan means a plan providing for the relationship between the premium for tax purposes, the experience modification factor developed to reflect the loss payment and incurred loss experience of the self-insured employer, and the actual incurred losses for the tax year. This plan is to be calculated annually and the premiums shall not be subject to further adjustment during the tax year.
- B. The formula for calculating the retrospective rating plan is as follows: $[\text{Payroll} \times \text{Applicable Rate} \times \text{Experience Modification Factor} \times \text{Basic Premium Factor} + (\text{losses current year} + \text{adjusted losses previous year}) \times \text{loss conversion factor}] \times \text{Tax Multiplier} = \text{Net Taxable Premium (NTP)}$. The NTP is subject to a maximum and minimum premium level depending on which one of the four rating option plans specified in the rating systems filed by the rating organization used by the State Compensation Fund pursuant to A.R.S. Title 20, Chapter 2, Article 4 is used.
- C. Only those self-insurers who satisfy all of the following requirements shall be eligible to use the retrospective rating plan:
 - 1. The submission of data concerning paid loss determinations and incurred loss reserved for each worker's com-

pensation claimant. The information is used to calculate an experience modification factor for the self-insurer. Four years of loss data must be formulated. The oldest three years of data is used to calculate the rate and the most current year's data is used in the actual tax calculation.

- 2. An annual net taxable premium exceeding \$100,000.

Historical Note

Former Rule XVIII. Section repealed, new Section adopted effective July 6, 1993 (Supp. 93-3). R20-5-218 recodified from R4-13-218 (Supp. 95-1).

R20-5-219. Payment of Taxes by Self-insurers

The tax payments described in A.R.S. §§ 23-961(G) through (J) and 23-1065(A) shall be processed in accordance with the following:

- 1. All self-insurers shall submit their payroll, loss, medical, and other information to the Commission by January 31 of each year.
- 2. All self-insurers shall pay their annual taxes on or before March 31 based on premiums calculated for the preceding calendar year. The payment for each tax shall not be less than \$250.00 per year.
- 3. Those self-insurers who paid \$2,000.00 or more for the administrative fund tax (A.R.S. § 23-961(G)) for the preceding calendar year shall pay a quarterly tax in the following year. One of two methods can be used to calculate the payment. The first method is a quarterly payment of 25% of the tax calculated for the previous year. The second method is based on actual payroll and premiums calculated for each quarter. Those self-insured employers who paid \$2,000.00 or more for the Special Fund tax (A.R.S. § 23-1065(A)) for the preceding calendar year must pay a quarterly tax using the same methods to calculate payment. The quarterly payments are due April 30, July 31, October 31, and January 31 for the periods ending March 31, June 30, September 30, and December 31, respectively.
- 4. Upon calculation of the annual taxes, it shall be determined by the Commission if the self-insured employer has overpaid or underpaid its taxes. If the total of the quarterly payments is less than the actual taxes calculated for the year, then the amount representing the difference is due on or before March 31. If the total of the quarterly payments exceeds the amount of the actual taxes calculated for the year, a refund will be paid to the self-insurer.
- 5. If the self-insurer fails to pay the annual or quarterly taxes when due, a penalty of the greater of \$25.00 or 5% of the tax or payment due plus interest at the rate of 1% per month from the date the tax or payment was due shall be paid by the self-insurer.

Historical Note

Former Rule XIX. Section repealed, new Section adopted effective July 6, 1993 (Supp. 93-3). R20-5-219 recodified from R4-13-219 (Supp. 95-1).

R20-5-220. Basis; Definitions

For determining the premium for purposes of R20-5-214, the Commission shall utilize as the basis for classifications, rating procedures, and plans those specified in the rating systems filed by the rating organization used by the State Compensation Fund pursuant to A.R.S. Title 20, Chapter 2, Article 4.

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

Historical Note

Former Rule XX. Section repealed, new Section adopted effective July 6, 1993 (Supp. 93-3). R20-5-220 recodified from R4-13-220 (Supp. 95-1).

R20-5-221. Book and Record Review by the Commission

All reports, books, and records of the self-insurer relating to classifications, payroll, incurred loss reserves, and procedures for development of statistical information for the development of rating information are subject to review by the Commission and its authorized representatives. If, in the judgment of the Commission, reports, records, and data relating to payroll or claims are not valid or credible, the Commission reserves the right to require correction of procedure and data to better determine the information needed to evaluate the rating programs.

Historical Note

Former Rule XXI. Section repealed, new Section adopted effective July 6, 1993 (Supp. 93-3). R20-5-221 recodified from R4-13-221 (Supp. 95-1).

R20-5-222. Audits; Cost of Audit

The Commission may, at any time upon three working days' notice, perform or have performed for its benefit an audit of the payroll, loss payment, and loss reserve records for incurred losses of the self-insurer for the purpose of determining the scope and adequacy of the maintained records. The entire cost of the audit will be borne by the self-insurer.

Historical Note

Former Rule XXII. Section repealed, new Section adopted effective July 6, 1993 (Supp. 93-3). R20-5-222 recodified from R4-13-222 (Supp. 95-1).

R20-5-223. Time-frames for Processing Initial and Renewal Applications for Authorization to Self-insure**A. Administrative completeness review.**

1. Initial application.
 - a. The Administration Division shall review an initial application for authority to self-insure within 20 days of receipt of the application to determine whether the application contains the information required by A.R.S. § 23-961 and this Article.
 - b. The Administration Division shall inform an applicant by written notice whether the application is complete within the time-frame provided in this subsection. If the application is incomplete, the Administration Division shall include in its written notice to the applicant a complete list of the missing information.
 - c. The Administration Division shall deem the application withdrawn if an applicant fails to file a complete application within 45 days of being notified by the Administration Division that the application is incomplete, unless the applicant obtains an extension to provide the missing information under subsection (D).
2. Renewal application.
 - a. The Administration Division shall review a renewal application for authority to self-insure within 20 days of receipt of the application to determine whether the application contains the information required by A.R.S. § 23-961 and this Article.
 - b. The Administration Division shall inform a self-insurer by written notice whether the application is complete within the time-frame provided in subsection (A)(2)(a). If the application is incomplete, the Administration Division shall include in its written

notice to the self-insurer a complete list of the missing information.

- c. The Administration Division shall deem the application withdrawn if a self-insurer fails to file a complete application within 45 days of being notified by the Administration Division that the application is incomplete, unless the self-insurer obtains an extension to provide the missing information under subsection (D).

B. Substantive review.

1. Initial application. Within 70 days after the Administration Division determines an initial application complete, the Commission shall determine whether an initial application for authority to self-insure meets the substantive criteria of A.R.S. § 23-961 and this Article and shall issue an order granting or denying authority to self-insure.
2. Renewal application. Within 40 days after the Administration Division determines a renewal application complete, the Commission shall determine whether a renewal application for authority to self-insure meets the substantive criteria of A.R.S. § 23-961 and this Article and shall issue an order granting or denying authority to self-insure.

C. Overall review.

1. Initial application. The overall review period shall be 90 days, unless extended under A.R.S. § 41-1072 et seq.
2. Renewal application. The overall review period shall be 60 days, unless extended under A.R.S. § 41-1072 et seq.

- D. If an applicant or self-insurer cannot timely submit to the Administration Division information to complete an initial or renewal application, the applicant or self-insurer may obtain an extension to submit the missing information by filing a written request with the Administration Division no later than 40 days after receipt of the notice from the Administration Division that the initial or renewal application is incomplete. The written request for an extension shall state the reasons the applicant or self-insurer is unable to meet the 45-day deadline. If an extension will enable the applicant or self-insurer to assemble and submit the missing information, the Administration Division shall grant an extension of not more than 30 days and provide written notice of the extension to the applicant or self-insurer.

Historical Note

Former Rule XXIII. Section repealed effective July 6, 1993 (Supp. 93-3). R20-5-223 recodified from R4-13-223 (Supp. 95-1). New Section adopted October 9, 1998 (Supp. 98-4).

R20-5-224. Computation of Time

- A. In computing any period of time prescribed or allowed by this Article, the day of the act or event from which the designated period of time begins to run shall not be included. The last day of the period computed shall be included unless it is a Saturday, Sunday, or legal holiday, in which event the period runs until the end of the next day which is not a Saturday, Sunday, or legal holiday. When the period of time prescribed or allowed is less than 11 days, intermediate Saturdays, Sundays, and legal holidays shall be excluded in the computation.
- B. Except as otherwise provided by law, the Commission may extend time limits prescribed by this Article for good cause.

Historical Note

Former Rule XXIV. Section repealed effective July 6, 1993 (Supp. 93-3). R20-5-224 recodified from R4-13-224 (Supp. 95-1). New Section adopted effective October 9, 1998 (Supp. 98-4).

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

ARTICLE 3. EXPIRED**R20-5-301. Expired****Historical Note**

Former Rule I. R20-5-301 recodified from R4-13-301 (Supp. 95-1). Section R20-5-301 repealed; new Section R20-5-301 adopted effective September 9, 1998 (Supp. 98-3). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 297, effective January 3, 2017 (Supp. 17-1).

R20-5-302. Expired**Historical Note**

Former Rule II; Amended effective March 9, 1981 (Supp. 81-2). R20-5-302 recodified from R4-13-302 (Supp. 95-1). Section R20-5-302 repealed; new Section R20-5-302 adopted effective September 9, 1998 (Supp. 98-3). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 297, effective January 3, 2017 (Supp. 17-1).

R20-5-303. Expired**Historical Note**

Former Rule III; Amended effective March 9, 1981 (Supp. 81-2). R20-5-303 recodified from R4-13-303 (Supp. 95-1). Section R20-5-303 repealed; new Section R20-5-303 adopted effective September 9, 1998 (Supp. 98-3). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 297, effective January 3, 2017 (Supp. 17-1).

R20-5-304. Expired**Historical Note**

Former Rule IV; Amended effective March 9, 1981 (Supp. 81-2). R20-5-304 recodified from R4-13-304 (Supp. 95-1). Section R20-5-304 repealed; new Section R20-5-304 adopted effective September 9, 1998 (Supp. 98-3). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 297, effective January 3, 2017 (Supp. 17-1).

R20-5-305. Expired**Historical Note**

Former Rule V; Former Section R4-13-305 renumbered and amended as Section R4-13-306, new Section R20-5-305 adopted effective March 9, 1981 (Supp. 81-2). R20-5-305 recodified from R4-13-305 (Supp. 95-1). Section R20-5-305 repealed; new Section R20-5-305 adopted effective September 9, 1998 (Supp. 98-3). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 297, effective January 3, 2017 (Supp. 17-1).

R20-5-306. Expired**Historical Note**

Former Rule VI. Former Section R4-13-306 renumbered and amended as Section R4-13-307, former Section R4-13-305 renumbered and amended as Section R4-13-306 effective March 9, 1981 (Supp. 81-2). R20-5-306 recodified from R4-13-306 (Supp. 95-1). Section R20-5-306 repealed; new Section R20-5-306 adopted effective September 9, 1998 (Supp. 98-3). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 297, effective January 3, 2017 (Supp. 17-1).

R20-5-307. Expired**Historical Note**

Former Rule VII. Former Section R4-13-307 renumbered as Section R4-13-309, former Section R4-13-306 renumbered and amended as Section R4-13-307 effective March 9, 1981 (Supp. 81-2). R20-5-307 recodified from

R4-13-307 (Supp. 95-1). Section R20-5-307 repealed; new Section R20-5-307 adopted effective September 9, 1998 (Supp. 98-3). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 297, effective January 3, 2017 (Supp. 17-1).

R20-5-308. Expired**Historical Note**

Former Rule VIII. Former Section R4-13-308 renumbered as Section R4-13-310, new Section R4-13-308 adopted effective March 9, 1981 (Supp. 81-2). R20-5-308 recodified from R4-13-308 (Supp. 95-1). Section R20-5-308 repealed; new Section R20-5-308 adopted effective September 9, 1998 (Supp. 98-3). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 297, effective January 3, 2017 (Supp. 17-1).

R20-5-309. Expired**Historical Note**

Former Rule IX. Former Section R4-13-309 repealed, former Section R4-13-307 renumbered as Section R4-13-309 effective March 9, 1981 (Supp. 81-2). R20-5-309 recodified from R4-13-309 (Supp. 95-1). Section R20-5-309 repealed; new Section R20-5-309 adopted effective September 9, 1998 (Supp. 98-3). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 297, effective January 3, 2017 (Supp. 17-1).

R20-5-310. Expired**Historical Note**

Former Rule X. Former Section R4-13-310 renumbered and amended as Section R4-13-312, former Section R4-13-308 renumbered as Section R4-13-310 effective March 9, 1981 (Supp. 81-2). R20-5-310 recodified from R4-13-310 (Supp. 95-1). Section R20-5-310 repealed; new Section R20-5-310 adopted effective September 9, 1998 (Supp. 98-3). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 297, effective January 3, 2017 (Supp. 17-1).

R20-5-311. Expired**Historical Note**

Former Rule XI. Former Section R4-13-311 repealed, new Section R4-13-311 adopted effective March 9, 1981 (Supp. 81-2). R20-5-311 recodified from R4-13-311 (Supp. 95-1). Section R20-5-311 repealed; new Section R20-5-311 adopted effective September 9, 1998 (Supp. 98-3). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 297, effective January 3, 2017 (Supp. 17-1).

R20-5-312. Expired**Historical Note**

Former Rule XII. Former Section R4-13-312 renumbered as Section R4-13-314, former Section R4-13-310 renumbered and amended as Section R4-13-312 effective March 9, 1981 (Supp. 81-2). R20-5-312 recodified from R4-13-312 (Supp. 95-1). Section R20-5-312 repealed; new Section R20-5-312 adopted effective September 9, 1998 (Supp. 98-3). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 297, effective January 3, 2017 (Supp. 17-1).

R20-5-313. Expired**Historical Note**

Former Rule XIII. Former Section R4-13-313 renumbered and amended as Section R4-13-318 effective

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

March 9, 1981 (Supp. 81-2). R20-5-313 recodified from R4-13-313 (Supp. 95-1). New Section adopted effective September 9, 1998 (Supp. 98-3). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 297, effective January 3, 2017 (Supp. 17-1).

R20-5-314. Expired**Historical Note**

Former Section R4-13-312 renumbered as Section R4-13-314 effective March 9, 1981 (Supp. 81-2). R20-5-314 recodified from R4-13-314 (Supp. 95-1). Section R20-5-314 repealed; new Section R20-5-314 adopted effective September 9, 1998 (Supp. 98-3). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 297, effective January 3, 2017 (Supp. 17-1).

R20-5-315. Expired**Historical Note**

Adopted effective March 9, 1981 (Supp. 81-2). R20-5-315 recodified from R4-13-315 (Supp. 95-1). Section R20-5-315 repealed; new Section R20-5-315 adopted effective September 9, 1998 (Supp. 98-3). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 297, effective January 3, 2017 (Supp. 17-1).

R20-5-316. Expired**Historical Note**

Adopted effective March 9, 1981 (Supp. 81-2). R20-5-316 recodified from R4-13-316 (Supp. 95-1). Section R20-5-316 repealed; new Section R20-5-316 adopted effective September 9, 1998 (Supp. 98-3). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 297, effective January 3, 2017 (Supp. 17-1).

R20-5-317. Expired**Historical Note**

Adopted effective March 9, 1981 (Supp. 81-2). R20-5-317 recodified from R4-13-317 (Supp. 95-1). Section R20-5-317 repealed; new Section R20-5-317 adopted effective September 9, 1998 (Supp. 98-3). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 297, effective January 3, 2017 (Supp. 17-1).

R20-5-318. Expired**Historical Note**

Former Section R4-13-313 renumbered and amended as Section R4-13-318 effective March 9, 1981 (Supp. 81-2). R20-5-318 recodified from R4-13-318 (Supp. 95-1). Section R20-5-318 repealed; new Section R20-5-318 adopted effective September 9, 1998 (Supp. 98-3). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 297, effective January 3, 2017 (Supp. 17-1).

R20-5-319. Expired**Historical Note**

Adopted effective September 9, 1998 (Supp. 98-3). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 297, effective January 3, 2017 (Supp. 17-1).

R20-5-320. Expired**Historical Note**

Adopted effective September 9, 1998 (Supp. 98-3). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 297, effective January 3, 2017 (Supp. 17-1).

R20-5-321. Expired**Historical Note**

Adopted effective September 9, 1998 (Supp. 98-3). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 297, effective January 3, 2017 (Supp. 17-1).

R20-5-322. Expired**Historical Note**

Adopted effective September 9, 1998 (Supp. 98-3). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 297, effective January 3, 2017 (Supp. 17-1).

R20-5-323. Expired**Historical Note**

Adopted effective September 9, 1998 (Supp. 98-3). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 297, effective January 3, 2017 (Supp. 17-1).

R20-5-324. Expired**Historical Note**

Adopted effective September 9, 1998 (Supp. 98-3). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 297, effective January 3, 2017 (Supp. 17-1).

R20-5-325. Expired**Historical Note**

Adopted effective September 9, 1998 (Supp. 98-3). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 297, effective January 3, 2017 (Supp. 17-1).

R20-5-326. Expired**Historical Note**

Adopted effective September 9, 1998 (Supp. 98-3). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 297, effective January 3, 2017 (Supp. 17-1).

R20-5-327. Expired**Historical Note**

Adopted effective September 9, 1998 (Supp. 98-3). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 297, effective January 3, 2017 (Supp. 17-1).

R20-5-328. Expired**Historical Note**

Adopted effective September 9, 1998 (Supp. 98-3). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 297, effective January 3, 2017 (Supp. 17-1).

R20-5-329. Expired**Historical Note**

Adopted effective September 9, 1998 (Supp. 98-3). Section expired under A.R.S. § 41-1056(J) at 23 A.A.R. 297, effective January 3, 2017 (Supp. 17-1).

ARTICLE 4. ARIZONA BOILERS AND LINED HOT WATER HEATERS**R20-5-401. Applicability**

This Article applies to all boilers, lined hot water heaters and pressure vessels operated in Arizona, except the following:

1. Boilers, lined hot water heaters and pressure vessels regulated by the United States Government;
2. Boilers, lined hot water heaters and pressure vessels operated in private residences or apartment complexes of not more than six units; and
3. Boilers, lined hot water heaters and pressure vessels operated on Indian reservations.

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

4. A lined hot water heater that does not exceed any of the following:
 - a. Heat input of 200,000 BTU per hour,
 - b. Water temperature of 210° F, and
 - c. Nominal water containing capacity of 120 gallons.

Historical Note

Former Rules B-1.1 and B-1.2. Former Section R4-13-401 repealed, new Section R4-13-401 adopted effective April 12, 1979 (Supp. 79-2). Section R4-13-401 repealed, new Section adopted effective April 9, 1992 (Supp. 92-2).

R20-5-401 recodified from R4-13-401 (Supp. 95-1).

Amended effective October 9, 1998 (Supp. 98-4).

Amended by final rulemaking at 15 A.A.R. 1496, effective August 18, 2009 (Supp. 09-3).

R20-5-402. Definitions

In this Article, unless the text otherwise requires:

1. "Act" means A.R.S. Title 23, Chapter 2, Article 11.
2. "Alteration" means any change in the item described on the original manufacturer's data report which affects the pressure-containing capability of the boiler or pressure vessel, including but not limited to:
 - a. Non physical changes such as an increase in the maximum allowable working pressure either internal or external, or
 - b. A reduction in minimum design temperature of a boiler or pressure vessel requiring additional mechanical tests.
3. "ANSI" means American National Standards Institute, Inc., located at 25 W. 43rd Street, 4th Floor, New York, NY 10036 or at <http://www.ansi.org/>.
4. "Apartment house" means a building with multiple family dwelling units, not used for commercial purposes, including condominiums and townhouses, where boilers are located in a common area outside of the individual dwelling units, such as a boiler room.
5. "Applicant" means an individual requesting permission to act as a special inspector under A.R.S. § 23-485.
6. "ASME Code" means the American Society of Mechanical Engineers Boiler and Pressure Vessel Code, Sections I, II, IV, V, VIII and IX, published by ASME International.
7. "ASME International" means a not for profit professional organization that promotes the art, science and practice of mechanical and multidisciplinary engineering and allied sciences throughout the world.
8. "Authorized Inspector" means an authorized representative under A.R.S. § 23-471(1) or a special inspector under A.R.S. § 23-485.
9. "Authorized representative" means the boiler chief or boiler inspector employed by the Division.
10. "Blowdown tank" or "Blowdown separator" means an ASME-stamped vessel designed to receive discharged steam or hot water from a boiler blowoff or blowdown piping system.
11. "Boiler" means a closed vessel in which fluid is heated for use external to itself by the direct application of heat resulting from the combustion of fuel, solid, liquid, or gaseous, or by the use of electricity.
12. "Certificate of Competency" means a person who has passed the National Board Exam.
13. "Certificate Inspection" means an internal inspection, when construction allows; otherwise, it means as complete an inspection as possible.
14. "Condemned" means a boiler or lined hot water heater that has been inspected and found to be unsafe by the Director or authorized inspector and has been stamped or tagged with the code XXX AZ8 XXX.
15. "CSD-1" means Controls and Safety Devices for Automatically Fired Boilers, published by ASME International, incorporated by reference in R20-5-404(A)(4).
16. "Direct fired jacketed steam kettle" means a pressure vessel with inner and outer walls that is subject to steam pressure and stress, is used to boil or heat liquids or to cook food, and falls under the scope of Section VIII, Division 1, Appendix 19 (Electrically Heated or Gas Fired Jacketed Steam Kettles) of the ASME Boiler and Pressure Vessel Code incorporated by reference in R20-5-404(A).
17. "External inspection" means an examination of a boiler or lined hot water heater performed by an authorized inspector when the boiler or lined hot water heater is in operation.
18. "Forced circulation hot water heater" means a hot water heater used for potable water, a hot water heater requiring movement of water to prevent overheating and failure of the tubes or coils, and has no definitive waterline.
19. "Fully attended power boiler" means a power boiler that is operated by an individual who meets the requirements of R20-5-408(C), and whose primary function is the care, maintenance, and operation of the boiler and the equipment associated with the boiler system.
20. "High temperature water boiler" means a boiler in which water is heated and operates at a pressure in excess of 160 psig (1.1 MPa) and/or temperature in excess of 250° F.
21. "Historical boilers" means steam boilers of riveted construction, preserved, restored, or maintained for hobby or demonstration use.
22. "Inspection certificate" means a document issued by the Division for the operation of a boiler, lined hot water heater or direct fired jacketed steam kettles when a certificate inspection has been successfully completed.
23. "Internal inspection" means a complete examination of the internal and external surfaces of a boiler or lined hot water heater by an authorized inspector after the boiler or lined hot water heater is shut down.
24. "Lined hot water heater" means the same as lined hot water storage heater defined in A.R.S. § 23-471(10) as a vessel which is closed except for openings through which water can flow, that includes the apparatus by which heat is generated and on which all controls and safety devices necessary to prevent pressures greater than 160 psig (1100 kPa gage) and water temperature greater than 210° F are provided, in which potable water is heated by the combustion of fuels, electricity, or any other heat source and removed for external use.
25. "MAWP" means maximum allowable working pressure.
26. "National Board Commissioned Inspector" means an individual who holds a valid and current National Board Commission issued by the National Board of Boiler and Pressure Vessel Inspectors, 1055 Crupper Avenue, Columbus, OH 43229-1183.
27. "National Board Registration Number" means a unique number issued to a boiler, hot water heater or pressure vessel by the manufacturer and recorded with the National Board of Boiler and Pressure Vessel Inspectors.
28. "NFPA" means National Fire Protection Association.
29. "Non-Standard Boiler" means any boiler, hot water heater or pressure vessel that is not constructed or maintained to the standards incorporated by reference of this Article.

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

30. "Owner" or "Operator" means any individual or organization, including this state and all political subdivisions of this state, who have title, control or duty to control, the operation of one or more boilers, lined hot water heaters or pressure vessels.
31. "Portable boiler" means a boiler permanently affixed to a trailer with wheels, that is totally self-contained while operating, and not attached to any other object either by pipe, hose or wire.
32. "Relief valve" means an ASME-stamped automatic pressure relieving device designed for liquid service which is actuated by the pressure upstream of the valve and opens further with an increase in pressure above the stamped pressure.
33. "Repairs" means work necessary to restore a boiler, lined hot water heater or pressure vessel to operating condition that complies with this Article.
34. "Safety relief valve" means an ASME-stamped automatically pressure-actuated relieving device designed for use either as a safety valve or as a relief valve.
35. "Safety valve" means an ASME-stamped automatic pressure relieving device designed for steam or vapor service which is actuated by the pressure upstream of the valve and characterized by full opening pop-action.
36. "Secondhand" means a boiler, lined hot water heater or pressure vessel that has changed both location and ownership since original installation.
37. "Shelter" means a permanent structure that provides protection from the weather.
38. "Special Inspector" means any authorized inspector who is issued an Arizona Commission but is not employed by the state of Arizona.
39. "State Identification Number" means a unique number assigned by the Division to a boiler, hot water heater or pressure vessel installed in Arizona.
40. "User" means a person or entity that does not have legal title to a boiler, lined hot water heater or pressure vessel, but has control and responsibility for the operation of a boiler, lined hot water heater or pressure vessel.

Historical Note

Former Rules B-2.1 through B-2.6. Former Section R4-13-402 repealed, new Section R4-13-402 adopted effective April 12, 1979 (Supp. 79-2). Amended effective March 31, 1981 (Supp. 81-2). Amended effective May 11, 1981 (Supp. 81-3). Amended effective May 31, 1985 (Supp. 85-3). Section R4-1-402 repealed, new Section adopted effective April 9, 1992 (Supp. 92-2). R20-5-402 recodified from R4-13-402 (Supp. 95-1). Amended effective October 9, 1998 (Supp. 98-4). Amended by final rulemaking at 15 A.A.R. 1496, effective August 18, 2009 (Supp. 09-3).

R20-5-403. Boiler Advisory Board

- A. Members of the boiler advisory board appointed by the Commission pursuant to A.R.S. § 23-474(2) shall serve for a period of three years. At the end of each three year term, the Commission may extend a member's term an additional three years or replace any member with an individual representing similar interest within the industry. The board shall be composed of persons in the boiler industry and shall be balanced in representation with respect to industry, owner/operators, labor and the public.
- B. The board shall hold an annual meeting and such other meetings as may be appropriate and shall conduct business at times and places arranged by the Commission.

Historical Note

Former Rules B-3.1 through B-3.3. Former Section R4-13-403 repealed, new Section R4-13-403 adopted effective April 12, 1978 (Supp. 79-2). Section R4-13-403 repealed, new Section adopted effective April 9, 1992 (Supp. 92-2). R20-5-403 recodified from R4-13-403 (Supp. 95-1). Amended by final rulemaking at 15 A.A.R. 1496, effective August 18, 2009 (Supp. 09-3).

R20-5-404. Standards for Boilers, Lined Hot Water Heaters and Pressure Vessels**A.** The following apply to this Article:

1. An owner or user of a boiler installed, repaired, replaced, or reinstalled in Arizona, six months after the effective date of this Article shall comply with the 2007 ASME Boiler and Pressure Vessel Code, Sections I, II, IV, V, VIII Division 1, 2, 3, IX, and B31.1 Power Piping, and addenda as of July 1, 2007, incorporated by reference. This incorporation does not include any later amendments or editions of the incorporated material. A copy of this referenced material is available for review at the Industrial Commission of Arizona, 800 W. Washington Street, Phoenix, AZ 85007 and may be obtained from ASME International at Three Park Avenue, New York, NY 10016-5990 or at <http://www.asme.org/>.
2. An owner or user of a boiler, lined hot water heater or pressure vessel installed, repaired, replaced, or reinstalled in Arizona, before the effective date of this Article shall comply with subsection (A)(1), or the ASME Boiler and Pressure Vessel Code in effect at the time of the last installation, repair, replacement, or reinstallation of the boiler, lined hot water heater or pressure vessel in Arizona.
3. An owner or user of a gas-fired lined hot water heater installed, operated, repaired, replaced, or reinstalled in Arizona shall comply with the American National Standard for Gas Water Heaters, ANSI Z21.10.3-2004, incorporated by reference. This incorporation does not include any later amendments or editions of the incorporated material. A copy of this referenced material is available for review at the Industrial Commission of Arizona, 800 W. Washington Street, Phoenix, AZ 85007 and may be obtained from ANSI, Attn: Customer Service Department, 25 W. 43rd Street, 4th Floor, New York, NY 10036 or at <http://www.ansi.org/>.
4. An owner or user of a boiler installed, repaired, replaced or reinstalled in Arizona after the effective date of this Article shall comply with the American National Standard for Controls and Safety Devices for Automatically Fired Boilers, ANSI/ASME CSD-1-2006, incorporated by reference. This incorporation does not include any later amendments or editions of the incorporated matter. A copy of this referenced material is available for review at the Industrial Commission of Arizona, 800 W. Washington Street, Phoenix, AZ 85007 and may be obtained from ASME International, Three Park Avenue, New York, NY 10016-5990 or at <http://www.asme.org/>.
5. An owner or user of a boiler installed, repaired, replaced, or reinstalled in Arizona before the effective date of this Article shall comply with the American National Standard for Controls and Safety Devices for Automatically Fired Boilers in effect at the time of the last installation, repair, replacement or reinstallation of a boiler in Arizona. As an alternative, an owner or user of a boiler described in this subsection may comply with subsection (A)(4).

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

6. A permanent source of outside air shall be provided for each boiler and lined hot water heater room to assure complete combustion of the fuel as required by ANSI Z223.1-2006, NFPA 54, National Fuel Gas Code incorporated by reference. This incorporation does not include any later amendments or editions of the incorporated matter. A copy of this referenced material is available for review at the Industrial Commission of Arizona, 800 W. Washington Street, Phoenix, AZ 85007 and may be obtained from ANSI, Attn: Customer Service Department, 25 W. 43rd Street, 4th Floor, New York, NY 10036 or at <http://www.ansi.org/>.
- B.** The following registration requirements apply to this Article:
1. All boilers and lined hot water heaters, including reinstalled and secondhand boilers, shall be registered with the National Board of Boiler and Pressure Vessel Inspectors except for:
 - a. Non-standard boilers installed up to six months after the effective date of this Section,
 - b. Cast iron boilers, and
 - c. Cast aluminum boilers.
 2. All fired and unfired pressure vessels installed or reinstalled on or after July 1, 2009, shall be registered with the National Board of Boiler and Pressure Vessel Inspectors.
- C.** The following installation, maintenance, and repair requirements apply to this Article.
1. An owner or user shall keep a signed copy of the Manufacturer's Data Report for a boiler or lined hot water heater at the location of the boiler or lined hot water heater and make the report available for review upon request from an authorized inspector.
 2. A boiler shall have masonry or structural supports of sufficient strength and rigidity to safely support the boiler and its contents without any vibration in the boiler or its connecting piping.
 3. There shall be at least 36 in. (915 mm) of clearance on each side of the boiler or lined hot water heater. Alternative clearances according to the manufacturer's recommendations are subject to approval by the Division prior to installation of boiler or lined hot water heater.
 4. A boiler with a manhole shall have at least five feet clearance between the boiler manhole and any wall, ceiling, or piping.
 5. A newly constructed boiler room in excess of 500 square feet of floor area and containing one or more boilers with a fuel capacity of 1,000,000 BTU per hour or a heating capacity greater than 285 Kw (electric), shall have at least two exits on each level of the boiler or boilers. The owner or user shall ensure each exit is remotely located from other exits.
 6. An owner or user shall keep a boiler or lined hot water heater room clean and with no obstructions to the boiler or lined hot water heater.
 7. An owner or user shall not store flammable or explosive materials in a boiler or lined hot water heater room.
 8. An owner or user shall not store combustibles less than three feet from any part of a boiler or lined hot water heater.
 9. If a boiler or lined hot water heater is moved outside Arizona for temporary use or repairs, the owner or user shall not reinstall the boiler or lined hot water heater in Arizona until the owner or user notifies and receives verbal or written approval from the Division under R20-5-419 to reinstall the boiler or lined hot water heater. If the Division grants approval to reinstall the boiler or lined hot water heater, the owner or user shall not operate the reinstalled boiler or lined hot water heater until the owner or user receives an inspection certificate from the Division under this Article.
 10. Before a new power boiler or a used or secondhand boiler or pressure vessel is installed, an inspection shall be made by an authorized inspector of this state, or by a National Board Commission Inspector. This inspection is to assess the integrity of the vessel and evaluate the original design specification. Prior to installation, an application shall be filed by the owner or user of the boiler or pressure vessel with the Division for approval. This application shall contain the following information:
 - a. Name of the owner or user;
 - b. Mailing address of owner or user;
 - c. Business telephone number of owner or user;
 - d. Installation name and address;
 - e. Installation date;
 - f. Start up date;
 - g. Name and address of boiler/pressure vessel insurance company;
 - h. Arizona serial number of the boiler/pressure vessel being replaced, if applicable;
 - i. Description of the new, used or secondhand power boiler/ pressure vessel as to include:
 - i. Manufacture's name,
 - ii. Date manufactured,
 - iii. Maximum allowable pressure or temperature of boiler/pressure vessel, and
 - iv. National Board registration number;
 - j. Name, address, business phone number, cell phone number, fax number and state contractor's license number of company or individual that will be installing the object;
 - k. Name, title and phone number of the contact person on the site of installation; and
 - l. Signature, title and date of the person submitting the application.
 11. Before the owner or user installing a used boiler or pressure vessel, the boiler or pressure vessel shall pass a hydrostatic test that is witnessed by an authorized inspector, authorized representative or by any National Board Commissioned inspector in accordance with R20-5-411.
 12. An owner or user of a portable boiler shall notify an authorized inspector before installing the portable boiler and shall not operate the portable boiler until the owner or user receives an inspection certificate from the Division.

Historical Note

Former Rules B-4.1 through B-4.3. Former Section R4-13-404 repealed, new Section R4-13-404 adopted effective April 12, 1979 (Supp. 79-2). Amended subsection (P) by adding paragraph (7) and amended subsection (Q) effective October 3, 1980 (Supp. 80-5). Section R4-13-404 repealed, new Section adopted effective April 9, 1992 (Supp. 92-2). R20-5-404 recodified from R4-13-404 (Supp. 95-1). Amended effective October 9, 1998 (Supp. 98-4). Amended by final rulemaking at 15 A.A.R. 1496, effective August 18, 2009 (Supp. 09-3).

R20-5-405. Repealed**Historical Note**

Former Section R4-13-405 repealed effective April 12, 1979 (Supp. 79-2). New Section R4-13-405 adopted effective June 13, 1980 (Supp. 80-3). Section R4-13-405 repealed, new Section adopted effective April 9, 1992 (Supp. 92-2). R20-5-405 recodified from R4-13-405

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

(Supp. 95-1). Repealed by final rulemaking at 15 A.A.R. 1496, effective August 18, 2009 (Supp. 09-3).

R20-5-406. Repairs and Alterations

- A. If repairs or alterations may affect the working pressure or safety of a boiler, an owner, user, or operator shall consult with an authorized inspector before having the repairs or alterations made. The authorized inspector shall provide the owner, user, or operator information regarding the best method to repair or alter the boiler. The owner, user, or operator shall ensure that an authorized inspector inspects and approves the repairs and alterations after the repairs or alterations are made.
- B. Repairs and alterations to boilers shall conform to the applicable provisions of the National Board Inspection Code, ANSI/NB-23-2007 Edition and 2007 addenda, incorporated by reference. This incorporation does not include any later amendments or editions of the incorporated material. A copy of this referenced material is available for review at the Industrial Commission of Arizona, 800 W. Washington Street, Phoenix, AZ 85007, and may be obtained from the National Board of Boiler and Pressure Vessel Inspectors, 1055 Crupper Avenue, Columbus, OH 43229-1183 or at <http://www.nationalboard.org/>.
- C. An owner or user shall not permit an individual to remove or repair a safety appliance of a boiler or lined hot water heater in operation. An owner or user shall not permit a person to remove or repair a safety appliance of a boiler or lined hot water heater not in operation except as provided under the ASME Code. If an owner or user permits a person to remove a safety appliance from a boiler or lined hot water heater as provided under the ASME Code, then the owner or user shall ensure that the safety appliance is reinstalled in proper working order before the boiler or lined hot water heater is placed back into operation.
- D. No person shall alter in any manner a safety valve, relief valve, or safety relief valve, except by an organization qualified in accordance with The National Board Inspection Code, ANSI/NB-23 2007 Edition and 2007 addenda incorporated by reference. This incorporation does not include any later amendments or editions of the incorporated material. A copy of this referenced material is available for review at the Industrial Commission of Arizona, 800 W. Washington Street, Phoenix, AZ 85007, and may be obtained from the National Board of Boiler and Pressure Vessel Inspectors at 1055 Crupper Avenue, Columbus, OH 43229-1183 or at <http://www.nationalboard.org/>.
- E. Repairs of fittings or appliances shall comply with the requirements of the National Board Inspection Code, ANSI/NB-23-2007 Edition and 2007 addenda incorporated by reference. This incorporation does not include any later amendments or editions of the incorporated material. A copy of this referenced material is available for review at the Industrial Commission of Arizona, 800 W. Washington Street, Phoenix, AZ 85007 and may be obtained from the National Board of Boiler and Pressure Vessel Inspectors, 1055 Crupper Avenue, Columbus, OH 43229-1183 or at <http://www.nationalboard.org/>.
- F. Beginning six months after the effective date of this Section replacement of fittings or appliances shall comply with the requirements of the 2007 ASME Boiler and Pressure Vessel Code, Sections I, II, IV, V, VIII, Division 1, 2, 3, IX and B31.1 Power Piping, and addenda, incorporated by reference. This incorporation does not include any later amendments or editions of the incorporated material. A copy of this referenced material is available for review at the Industrial Commission of Arizona, 800 W. Washington Street, Phoenix, AZ 85007. A copy of the incorporated material may also be obtained from

ASME International, Three Park Avenue, New York, NY 10016-5990 or at <http://www.asme.org>.

Historical Note

Former Section R4-13-406 repealed effective April 12, 1979 (Supp. 79-2). New Section R4-13-406 adopted effective June 13, 1980 (Supp. 80-3). Section R4-13-406 repealed, new Section adopted effective April 9, 1992 (Supp. 92-2). R20-5-406 recodified from R4-13-406 (Supp. 95-1). Amended effective October 9, 1998 (Supp. 98-4). Amended by final rulemaking at 15 A.A.R. 1496, effective August 18, 2009 (Supp. 09-3).

R20-5-407. Inspection of Boilers, Lined Hot Water Heaters, Direct Fired Jacketed Steam Kettles and Issuance of Inspection Certificates

- A. An authorized inspector shall comply with the guidelines set forth in The National Board Inspection Code, ANSI/NB-23-2007 Edition and 2007 addenda, incorporated by reference. This incorporation does not include any later amendments or editions of the incorporated material. A copy of this referenced material is available for review at the Industrial Commission of Arizona, 800 W. Washington Street, Phoenix, AZ 85007 and may be obtained from the National Board of Boiler and Pressure Vessel Inspectors, 1055 Crupper Avenue, Columbus, OH 43229-1183 or at <http://www.nationalboard.org/>.
- B. If an owner, user, or operator fails to comply with the requirements for an inspection or pressure test under this Article, the Division shall withhold the inspection certificate until the owner, user, or operator complies with the requirements.
- C. An authorized inspector shall not engage in the sale of any object or device relating to boilers, lined hot water heaters, direct fired jacketed steam kettles or equipment associated with boilers, or lined hot water heaters or direct fired jacketed steam kettles.
- D. Under A.R.S. § 23-485(D), the Special Inspector shall file the inspection reports by entering data into the Division's Web-based inspection entry form, by submitting a paper inspection report issued by the Division or by electronic transfer of data between the insurance company's database and the Division's database. The inspection report shall contain the following:
 1. Whether it is a Certificate or non-Certificate inspection;
 2. Whether it is an internal or external inspection;
 3. Name of location, address and phone number of the object;
 4. Name, address and phone number of owner or responsible party;
 5. Contact person's name and phone number at the inspection location;
 6. State Identification Number;
 7. Certificate due date;
 8. Certificate duration;
 9. Whether the object is active, inactive or scrapped;
 10. MAWP permitted or allowed;
 11. National Board registration number;
 12. Name of the manufacturer and the year the object was built;
 13. Special location in plant, if applicable;
 14. Boiler type;
 15. Purpose of the boiler;
 16. Specify type of fuel used;
 17. Whether the firing method is automatic, manual or unknown;
 18. Whether the fuel train is in compliance with CSD-1, NFPA 85, Z21.10.3 or other;
 19. Whether the boiler is fully attended as per R20-5-408(C);

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

20. Heating Surface/BTU Input/ Kilowatt (Kw) Input, as applicable;
 21. Whether the heating surface type is stamped, computed or unknown;
 22. Minimum safety valve relief capacity required;
 23. Whether the minimum safety valve relief capacity type is BTU/Hr, LBS/Hr or unknown;
 24. Number of temperature/pressure controls, as applicable;
 25. Owner number assigned by the owner to specifically identify object's location;
 26. Inspection date;
 27. Whether the certificate is posted;
 28. Safety Valve Total Capacity;
 29. Safety Valve #1 set pressure;
 30. Safety Valve #2 set pressure;
 31. Safety Valve #3 set pressure;
 32. Whether the object has been hydro tested;
 33. Hydro Test (psi), if applicable;
 34. Whether Pressure/Altitude Gage was tested;
 35. Whether the condition of the object is okay to issue a certificate;
 36. Inspection comments, condition of boiler;
 37. Violations noted;
 38. Inspector name and Arizona Commission number; and
 39. National Board Commission number.
- E.** The Division shall issue to an owner or user an inspection certificate within 30 calendar days of receipt of an inspection report that documents a boiler, lined hot water heater or direct fired jacketed steam kettle that complies with the Act and this Article. An owner or user of a boiler, lined hot water heater or direct fired jacketed steam kettle shall post the inspection certificate in the establishment where the boiler, lined hot water heater or direct fired jacketed steam kettle is located.
- F.** An owner, user, or operator shall ensure than an authorized inspector tags or stamps a steam boiler with an identification number assigned by the Division immediately after installing, but before operating, a new steam boiler, or when an authorized inspector performs an initial certificate inspection of an existing steam boiler. The identification number shall be at least 5/16" in height and in the following format: AZ-# # # #.
- G.** The Division shall mark with a metal dye stamp a boiler or lined hot water heater identified by the Division as not safe for further service, with the code "XXX AZ8 XXX" which shall designate that the boiler or lined hot water heater is condemned.
- H.** For any conditions not covered by this Article, the applicable provisions of the ASME Code that was in effect in Arizona at the time of the installation of the boiler or lined hot water heater shall apply.

Historical Note

Repealed effective April 12, 1979 (Supp. 79-2). New Section adopted effective April 9, 1992 (Supp. 92-2).

R20-5-407 recodified from R4-13-407 (Supp. 95-1).

Amended effective October 9, 1998 (Supp. 98-4).

Amended by final rulemaking at 15 A.A.R. 1496, effective August 18, 2009 (Supp. 09-3).

R20-5-408. Frequency of Inspection

- A.** An owner, user, or operator of a power boiler shall ensure that an authorized inspector performs a certificate inspection and external inspection of the power boiler every 12 months. An authorized inspector shall perform the external inspection while the power boiler is in operation to ensure that safety devices of the power boiler are operating properly.
- B.** An authorized inspector shall perform an internal inspection and pressure test on a boiler, lined hot water heater or pressure

vessel if the inspector determines from an external inspection of the boiler, lined hot water heater or pressure vessel that continued operation of the boiler, lined hot water heater or pressure vessel is a danger to the public or worker safety.

- C.** The Division shall issue a 12 month inspection certificate to an owner or user to operate a fully attended power boiler if:
1. An owner or user ensures that an authorized inspector performs an external safety inspection and audit of the operational methods and logs of the fully attended power boiler at least every 12 months and performs an internal inspection of the fully attended power boiler at least every 36 months;
 2. Continuous boiler water treatment is under the direct supervision of persons trained and experienced in water treatment for the purpose of controlling and limiting corrosion and deposits.
 3. Records are available for review, that indicate:
 - a. The date, time, and reason the boiler is out of service; and
 - b. Daily analysis of water samples that adequately show the conditions of the water and elements or characteristics that are capable of producing corrosion or other deterioration to the boiler or its parts; and
 4. Controls, safety devices, instrumentation, and other equipment necessary for safe operation are current, in service, calibrated, and meet the requirements of an appropriate safety code for the size boilers, such as NFPA 85, ASME CSD-1 Controls and Safety Devices for Automatically Fired Boilers, National Board Inspection Code ANSI/NB-23, and state requirements.
 5. Inspection reports of an authorized inspector document that the fully attended power boiler complies with A.R.S. § 23-471 et seq. and this Article.
- D.** An owner, user, or operator of a direct-fired jacketed steam kettle shall ensure that an authorized inspector performs a certificate inspection of the direct-fired jacketed steam kettle every 24 months.
- E.** An owner, user, or operator of a heating or process boiler, not exceeding 15 p.s.i. maximum allowable working pressure, steam or vapor, shall ensure that an authorized inspector performs a certificate inspection of the heating or process boiler every 24 months.
- F.** An owner or user of a hot water heating or hot water supply boiler, or lined hot water heater shall ensure that an authorized inspector performs a certificate and external inspection of the hot water heating or hot water supply boiler or lined hot water heater at the time the hot water heating or hot water supply boiler or lined hot water heater is installed. An inspection certificate issued by the Division following an inspection under this subsection shall not state an expiration date.

Historical Note

Repealed effective April 12, 1979 (Supp. 79-2). New Section adopted effective April 9, 1992 (Supp. 92-2).

R20-5-408 recodified from R4-13-408 (Supp. 95-1).

Amended effective October 9, 1998 (Supp. 98-4).

Amended by final rulemaking at 15 A.A.R. 1496, effective August 18, 2009 (Supp. 09-3).

R20-5-409. Notification and Preparation for Inspection

- A.** An authorized inspector shall perform a certificate inspection at a time mutually agreeable to the inspector and owner, user, or operator.
- B.** Before an authorized inspector performs an internal inspection of a boiler, an owner, user, or operator shall:
1. Cool the furnace and combustion chambers;

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

2. Drain the water from the boiler;
3. Remove the manhole and handhole plates, wash-out plugs, and inspection plugs in water column connections;
4. Remove insulation or brickwork if necessary to determine the condition of the boiler, headers, furnace, supports, and other parts;
5. Remove the pressure gauge for testing;
6. Prevent any leakage of steam or hot water into the boiler by disconnecting the involved pipe or valve;
7. Close, tag, and padlock the non-return and steam stop valves before opening the manhole or handhole covers and entering any part of the steam generating unit that is connected to a common header with other boilers. Open the free blow drain or cock between the non-return and steam stop valves;
8. Close, tag, and padlock the blowoff valves after draining the boiler; and
9. Open all drains and vent lines.

Historical Note

Repealed effective April 12, 1979 (Supp. 79-2). New Section adopted effective April 9, 1992 (Supp. 92-2). R20-5-409 recodified from R4-13-409 (Supp. 95-1). Amended effective October 9, 1998 (Supp. 98-4).

R20-5-410. Report of Accident

An owner or user shall notify the Division within 24 hours of an explosion, severe overheating, or personal injury involving a boiler, lined hot water heater or direct fired jacketed steam kettle. A person shall not remove or disturb the involved boiler, lined hot water heater, direct fired jacketed steam kettle or parts of the boiler, lined hot water heater or direct fired jacketed steam kettle before an investigation by an authorized inspector, except for the purpose of preventing personal injury or limiting consequential damage.

Historical Note

Repealed effective April 12, 1979 (Supp. 79-2). New Section adopted effective April 9, 1992 (Supp. 92-2). R20-5-410 recodified from R4-13-410 (Supp. 95-1). Amended effective October 9, 1998 (Supp. 98-4). Amended by final rulemaking at 15 A.A.R. 1496, effective August 18, 2009 (Supp. 09-3).

R20-5-411. Hydrostatic Tests

The owner or user shall perform a hydrostatic or pneumatic pressure test in accordance with the code incorporated by reference in R20-5-404(A) and R20-5-406(B).

Historical Note

Repealed effective April 12, 1979 (Supp. 79-2). New Section adopted effective April 9, 1992 (Supp. 92-2). R20-5-411 recodified from R4-13-411 (Supp. 95-1). Amended effective October 9, 1998 (Supp. 98-4). Amended by final rulemaking at 15 A.A.R. 1496, effective August 18, 2009 (Supp. 09-3).

R20-5-412. Automatic Low-water Fuel Cutoff Devices or Combined Water Feeding and Fuel Cutoff Devices

- A. An owner, user, or operator shall ensure that low-water fuel cutoff devices or combined water feeding and fuel cutoff devices do not interfere with an operator's or inspector's ability to safely clean, repair, or inspect a boiler or lined hot water heater.
- B. A low-water fuel cutoff device shall have a pressure rating not less than the set pressure of the safety valve or safety relief valve.
- C. In addition to the requirements of subsections (A) and (B), all low-water fuel cutoffs and flow sensing devices shall be constructed and installed in accordance with applicable ASME

Code and standards for boilers and steam jacketed kettles in R20-5-404(A).

Historical Note

Repealed effective April 12, 1979 (Supp. 79-2). New Section adopted effective April 9, 1992 (Supp. 92-2). R20-5-412 recodified from R4-13-412 (Supp. 95-1). Amended effective October 9, 1998 (98-4). Amended by final rulemaking at 15 A.A.R. 1496, effective August 18, 2009 (Supp. 09-3).

R20-5-413. Safety and Safety Relief Valves

- A. A valve shall not be placed between a safety valve or a safety relief valve and installed on a boiler or lined hot water heater, or between a safety valve or a safety relief valve and the discharge pipe attached to the boiler or lined hot water heater.
- B. When a power boiler is supplied with feed-water directly from a water main without the use of a feeding apparatus, safety valves shall not be set at a pressure greater than 94% of the lowest pressure obtained in the water main feeding the boiler;
- C. Safety valves, safety relief valves and relief valves shall conform to the requirements of the 2007 ASME Boiler and Pressure Vessel Code, Section I, IV or VIII, and addenda as of January 1, 2008, incorporated by reference as applicable. This incorporation does not include any later amendments or editions of the incorporated material. A copy of this referenced material is available for review at the Industrial Commission of Arizona, 800 W. Washington Street, Phoenix, AZ and may be obtained from the ASME, Three Park Avenue, New York, NY 10016-5990 or at <http://www.asme.org/>.

Historical Note

Repealed effective April 12, 1979 (Supp. 79-2). New Section adopted effective April 9, 1992 (Supp. 92-2). R20-5-413 recodified from R4-13-413 (Supp. 95-1). Amended effective October 9, 1998 (Supp. 98-4). Amended by final rulemaking at 15 A.A.R. 1496, effective August 18, 2009 (Supp. 09-3).

R20-5-414. Repealed**Historical Note**

Repealed effective April 12, 1979 (Supp. 79-2). New Section adopted effective April 9, 1992 (Supp. 92-2). R20-5-414 recodified from R4-13-414 (Supp. 95-1). Repealed by final rulemaking at 15 A.A.R. 1496, effective August 18, 2009 (Supp. 09-3).

R20-5-415. Boiler Blowdown, Blowoff Equipment and Drains

- A. Except as provided in this Section, an owner or user of blowdown and blowoff equipment shall comply with the National Board Rules and Recommendations for the Design and Construction of Boiler Blowoff Systems, 1991 Edition, incorporated by reference. This incorporation does not include any later amendments or editions of the incorporated material. A copy of this referenced material is available for review at the Industrial Commission of Arizona, 800 W. Washington Street, Phoenix, AZ 85007 and may be obtained from the National Board of Boiler and Pressure Vessel Inspectors, 1055 Crupper Avenue, Columbus, OH 43229-1183 or at <http://www.nationalboard.org/>.
- B. Blowdown from a boiler is a hazard to life and property.
- C. Blowdown from a boiler shall pass through blowdown equipment that reduces pressure and temperature to levels not exceeding 5 p.s.i.g. and 140° F.
- D. The thickness of a blowdown vessel shall be at least 3/16".
- E. All blowdown equipment shall be fitted with openings that allow cleaning and inspection of the equipment.

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

- F. Blowdown separators may be used with boilers instead of boiler blowdown tanks, provided that blowdown separators are operated with a temperature gauge and water cooler to prevent drain water temperature from exceeding 140° F.
- G. In addition to the requirements of subsections (A) through (F), the following requirements apply to blowdown piping, valves and drains for power boilers: Each power boiler and high temperature water boiler shall be installed and maintained according to ASME Code, Section 1 and B31.1, incorporated by reference in R20-5-404, at the time of installation.
- H. In addition to the requirements of subsections (A) through (F), the following requirements apply to bottom blowdown or drain valves for heating boilers and hot water heaters:
1. A hot water heating boiler or hot water heater shall have a bottom blowdown or drain pipe connection fitted with a valve or cock connected with the lowest available water space with the minimum size of blowdown piping and valves as required by ASME Code, Section IV, incorporated by reference, in R20-5-404(A).
 2. Discharge outlets of blowdown pipes, safety valves and other piping shall be located and structurally supported to prevent injury to individuals.
3. On a monthly basis, the owner or user shall:
 - a. Test all fan and air pressure interlocks,
 - b. Check the main burner safety shutoff valve,
 - c. Check the low fire start switch,
 - d. Test fuel pressure and temperature interlocks of oil-fired units, and
 - e. Test the high and low fuel pressure switch of gas-fired units.
 4. Every six months, the owner or user shall:
 - a. Inspect burner components;
 - b. Check flame failure system components, such as vacuum tubes, amplifier and relays;
 - c. Check wiring of all interlocks and shutoff valves;
 - d. Recalibrate all indicating and recording gauges; and
 - e. Check steam and blowdown piping and valves.
 5. Annually, the owner or user shall:
 - a. Replace vacuum tubes, scanners, or flame rods in the flame failure system according to the manufacturer's instructions;
 - b. Check all coils and diaphragms; and
 - c. Test operating parts of all safety shutoff and control valves.

Historical Note

Repealed effective April 12, 1979 (Supp. 79-2). New Section adopted effective April 9, 1992 (Supp. 92-2).

R20-5-415 recodified from R4-13-415 (Supp. 95-1).

Amended effective October 9, 1998 (Supp. 98-4).

Amended by final rulemaking at 15 A.A.R. 1496, effective August 18, 2009 (Supp. 09-3).

R20-5-416. Maximum Allowable Working Pressure

- A. The ASME Code under which a boiler was constructed and stamped shall determine the maximum allowable working pressure for the ASME-stamped boiler.
- B. If components in the boiler or hot water system such as valves, pumps, expansion tanks, storage tanks or piping have a lesser working pressure rating than the boiler or hot water heater, the pressure setting for the safety or safety relief valve on the boiler or hot water heater shall be based upon the component with the lowest maximum allowable working pressure rating.

Historical Note

Repealed effective April 12, 1979 (Supp. 79-2). New Section adopted effective April 9, 1992 (Supp. 92-2).

R20-5-416 recodified from R4-13-416 (Supp. 95-1).

Amended effective October 9, 1998 (Supp. 98-4).

Amended by final rulemaking at 15 A.A.R. 1496, effective August 18, 2009 (Supp. 09-3).

R20-5-417. Maintenance and Operation of Boilers, Hot Water Heaters and Direct Fired Jacketed Steam Kettles

- A. An owner or user of a boiler, hot water heater or direct fired jacketed steam kettle constructed under the ASME Code, Sections I, IV or VIII Division 1, incorporated by reference in R20-5-404(A) shall comply with the manufacturer's maintenance and operation instructions for the boiler, hot water heater or direct fired jacketed steam kettle.
- B. In addition to the requirements of subsection (A), an owner or user of a boiler constructed under the ASME Code, Sections I, IV, shall comply with the following preventive maintenance schedule if the boiler contains the component or system listed.
1. On a daily basis, the owner or user shall:
 - a. Test the low-water fuel cutoff and alarm, and
 - b. Check the burner flame for proper combustion.
 2. On a weekly basis, the owner or user shall:
 - a. Check for proper ignition, and
 - b. Check the flame failure detection system.

- C. An owner or user of a power boiler or high temperature boiler shall designate an individual who meets the requirements of subsection (D) to operate the boiler. An owner or user may operate the boiler if the owner or user meets the requirements of subsection (D).
- D. An operator of a power boiler or high temperature water boiler shall meet the following minimum requirements:
1. Knowledge of and an ability to explain the function and operation of all safety controls of the boiler,
 2. Ability to start the boiler in a safe manner,
 3. Knowledge of all safe methods of feeding water to the boiler,
 4. Knowledge of and the ability to blow down the boiler in a safe manner,
 5. Knowledge of safety procedures to follow if water exceeds or drops below permissible safety levels, and
 6. Knowledge of and the ability to safely shut down the boiler.

Historical Note

Repealed effective April 12, 1979 (Supp. 79-2). New Section adopted effective April 9, 1992 (Supp. 92-2).

R20-5-417 recodified from R4-13-417 (Supp. 95-1).

Amended effective October 9, 1998 (Supp. 98-4).

Amended by final rulemaking at 15 A.A.R. 1496, effective August 18, 2009 (Supp. 09-3).

R20-5-418. Non-standard Boilers

An owner or user shall remove from service a boiler, hot water heater or pressure vessel that does not bear an ASME stamp unless the boiler owner or user request a variance under R20-5-429.

Historical Note

Repealed effective April 12, 1979 (Supp. 79-2). New Section adopted effective April 9, 1992 (Supp. 92-2).

R20-5-418 recodified from R4-13-418 (Supp. 95-1).

Amended effective October 9, 1998 (Supp. 98-4).

Amended by final rulemaking at 15 A.A.R. 1496, effective August 18, 2009 (Supp. 09-3).

R20-5-419. Request to Reinstall Boiler or Lined Hot Water Heater

- A. The Division shall grant or deny approval to reinstall a boiler or lined hot water heater within three business days after an owner or user requests approval to reinstall the boiler or lined

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

hot water heater. The order of the Division granting or denying approval to reinstall a boiler shall be in writing.

- B. The Division shall grant approval to reinstall a boiler or lined hot water heater if the boiler or lined hot water heater complies with A.R.S. § 23-471 et seq. and this Article. The Division shall deny approval to reinstall a boiler or lined hot water heater if the boiler or lined hot water heater does not comply with A.R.S. § 23-471 et seq. and this Article.
- C. An order of the Division denying approval to reinstall a boiler shall be final unless an owner or user requests a hearing under A.R.S. § 23-479 within 15 days after the Division mails the order. The owner or user requesting a hearing shall have the burden to prove that a boiler meets the requirements of A.R.S. § 23-471 et seq. and this Article.

Historical Note

Repealed effective April 12, 1979 (Supp. 79-2). R20-5-419 recodified from R4-13-419 (Supp. 95-1). New Section adopted effective October 9, 1998 (Supp. 98-4). Amended by final rulemaking at 15 A.A.R. 1496, effective August 18, 2009 (Supp. 09-3).

R20-5-420. Special Inspector Certificate under A.R.S. § 23-485**A. Review Time-frames.**

- 1. Administrative Completeness Review.
 - a. The Division shall determine whether an application to take a written examination or request for a special inspector certificate under A.R.S. § 23-485 is complete within three days of receipt of the application or request. The Division shall inform the applicant whether the application or request is complete or incomplete by written notice. If the application or request is incomplete, the Division shall include in its written notice to the applicant a complete list of the missing information.
 - b. The Division shall deem an application or request withdrawn if an applicant fails to file a complete application or request within 10 days of being notified by the Division that the application or request is incomplete, unless the applicant obtains an extension to provide the missing information. An applicant may obtain an extension to submit the missing information by filing a written request with the Division no later than 10 days after the Division mails notice that the application or request is incomplete. The written request for an extension shall state the reasons the applicant is unable to meet the 10-day deadline. If an extension will enable the applicant to assemble and submit the missing information, the Division shall grant an extension of not more than 10 days and provide written notice of the extension to the applicant.
- 2. Substantive review.
 - a. Application to take written examination under A.R.S. § 23-485(A). Within three days after the Division deems an application complete under subsection (B), the Division shall determine whether the applicant is eligible to take the National Board Examination.
 - b. Request for special inspector certificate under A.R.S. § 23-485. Within three days after the Division deems a request complete under subsection (C), the Division shall determine whether the applicant meets the criteria of A.R.S. § 23-485 and subsection (C).

- 3. Overall review. The overall review period shall be six days, unless extended under A.R.S. § 41-1072 et seq.

B. Application to take Written Examination under A.R.S. § 23-485(A).

- 1. An individual requesting to take the written examination under A.R.S. § 23-485(A) shall complete an application to take the National Board Examination and submit the application to the Division at least 45 days before the date of the examination.
- 2. The application to take the National Board Examination shall be filed with the Division. An application is considered filed when it is received at the office of the Division and stamped by the Division with the date of filing.
- 3. An application to take the National Board Examination shall be on a legible form, paper or electronic, issued to the Division, with the following information:
 - a. Full legal name,
 - b. State or country of residency,
 - c. Mailing address,
 - d. Telephone number,
 - e. E-mail address, and
 - f. Employer's name and address.

C. Application for Special Inspector Certificate under A.R.S. § 23-485. An application for a special inspector certificate under A.R.S. § 23-485 is deemed complete under subsection (A)(1) when the following is filed with the Division:

- 1. The applicant provides written documentation that the applicant holds a certificate of competency as an inspector of boilers or lined hot water heaters for a state that has a standard of examination equal to that of Arizona or the applicant is a National Board Commissioned Inspector, and
- 2. The applicant provides proof of employment as a full time inspector for a company conducting business in Arizona and whose duties as an inspector include making inspections of boilers or lined hot water heaters to be used or insured by the company and not for resale.

D. If an applicant meets the criteria of A.R.S. § 23-485 and subsection (C), the Division shall issue a certificate to the applicant under subsection (C). If an applicant fails to meet the criteria of A.R.S. § 23-485 and subsection (C), the Division shall issue a written notice denying eligibility to the applicant. The Commission shall deem the notice denying eligibility final if an applicant does not request a hearing within 15 calendar days after the Division mails the notice.**E. Written Examination under A.R.S. § 23-485(A).**

- 1. The written examination described in A.R.S. § 23-485(A) shall be the National Board Examination of the National Board of Boiler and Pressure Vessel Inspectors.
- 2. The Division shall administer the National Board Examination the first Wednesday and Thursday of every March, June, September, and December to eligible applicants. Within two days after the Division administers the National Board Examination, the Division shall return the examinations of eligible applicants to the National Board of Boiler and Pressure Vessel Inspectors. Examinations shall be graded by the National Board of Boiler and Pressure Vessel Inspectors.
- 3. The Division shall provide written notice to an applicant of the applicant's grade for the National Board Examination within three days after the Division receives notice of the grade from the National Board of Boiler and Pressure Vessel Inspectors.
- 4. The Division shall issue a certificate of competency to an applicant who passes the National Board Examination.

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

- F. Issuance of Special Inspector Certificate. The Division shall issue a special inspector certificate, A.R.S. § 23-485, to an applicant no later than 15 calendar days after the Division determines that an applicant meets the criteria of A.R.S. § 23-485 and subsection (C).
- G. Hearing on Denial of Eligibility for Special Inspector Certificate.
1. A request for hearing protesting a notice of eligibility shall be in writing and signed by the applicant or the applicant's legal representative. The applicant shall file the request for hearing with the Division.
 2. The Commission shall hold a hearing under A.R.S. § 41-1065. The hearing shall be stenographically recorded.
 3. The Chair of the Commission or designee shall preside over hearings held under this Section. The Chair shall apply the provisions of A.R.S. § 41-1062 et seq. to hearings held under this Section and shall have the authority and power of a presiding officer as described in A.R.S. § 41-1062.
 4. A decision of the Commission to deny or grant eligibility for a special inspector certificate shall be based upon the criteria set forth in A.R.S. § 23-485 and this Section and shall be made by a majority vote of the quorum of Commission members present when the decision is rendered at a public meeting. After a decision is rendered at a public meeting, the Commission shall issue a written decision upon hearing which shall include findings of fact and conclusions of law, separately stated. An order of the Commission denying a special inspector certificate is final unless an applicant files a request for review within 15 days after the Commission mails its order.
 5. A request for review shall be based upon one or more of the following grounds which have materially affected the rights of an applicant:
 - a. Irregularities in the hearing proceedings or any order or abuse of discretion whereby the applicant seeking review was deprived of a fair hearing;
 - b. Misconduct by the Division;
 - c. Accident or surprise which could not have been prevented by ordinary prudence;
 - d. Newly discovered material evidence that could not have been discovered with reasonable diligence and produced at the hearing;
 - e. Excessive or insufficient sanctions or penalties imposed at hearing;
 - f. Error in the admission or rejection of evidence, or errors of law occurring at, or during the course of, the hearing;
 - g. Bias or prejudice of the Division; and
 - h. The order, decision, or findings of fact are not justified by the evidence or are contrary to law.
 6. The Commission shall issue a decision upon review no later than 30 days after receiving a request for review.
 7. The Commission's decision upon review is final unless an applicant seeks judicial review as provided in A.R.S. § 23-483.

Historical Note

Repealed effective April 12, 1979 (Supp. 79-2). R20-5-420 recodified from R4-13-420 (Supp. 95-1). New Section adopted effective October 9, 1998 (Supp. 98-4). Amended by final rulemaking at 15 A.A.R. 1496, effective August 18, 2009 (Supp. 09-3).

R20-5-421. Repealed**Historical Note**

Repealed effective April 12, 1979 (Supp. 79-2). R20-5-

421 recodified from R4-13-421 (Supp. 95-1).

R20-5-422. Repealed**Historical Note**

Repealed effective April 12, 1979 (Supp. 79-2). R20-5-422 recodified from R4-13-422 (Supp. 95-1).

R20-5-423. Repealed**Historical Note**

Repealed effective April 12, 1979 (Supp. 79-2). R20-5-423 recodified from R4-13-423 (Supp. 95-1).

R20-5-424. Repealed**Historical Note**

Repealed effective April 12, 1979 (Supp. 79-2). R20-5-424 recodified from R4-13-424 (Supp. 95-1).

R20-5-425. Repealed**Historical Note**

Repealed effective April 12, 1979 (Supp. 79-2). R20-5-425 recodified from R4-13-425 (Supp. 95-1).

R20-5-426. Repealed**Historical Note**

Repealed effective April 12, 1979 (Supp. 79-2). R20-5-426 recodified from R4-13-426 (Supp. 95-1).

R20-5-427. Repealed**Historical Note**

Repealed effective April 12, 1979 (Supp. 79-2). R20-5-427 recodified from R4-13-427 (Supp. 95-1).

R20-5-428. Repealed**Historical Note**

Repealed effective April 12, 1979 (Supp. 79-2). R20-5-428 recodified from R4-13-428 (Supp. 95-1).

R20-5-429. Variance

- A. Any owner or user may apply to the Director for a variance from the requirements of this Article, upon demonstrating the construction, installation, and operation of the boiler or pressure vessel will maintain the same level of safety as prescribed by this Chapter. The Director shall issue a variance if the Director determines that the proponent of the variance has demonstrated the construction, installation, and operation of the boiler or pressure vessel will maintain the same level of safety as prescribed by this Chapter. The variance issued shall prescribe the construction, installation, operation, maintenance, and repair conditions that the owner or user shall maintain.
- B. A variance may be modified or revoked upon application by an owner, user or the Director, on the Director's own motion at any time after six months from issuance if the owner or user has not complied with the variance or if the variance does not protect the health and safety of employees or general public.
- C. The application for a variance shall be made on the form issued by the Division and contains the following information:
1. Owner or user's name and company name;
 2. Mailing address;
 3. Telephone number;
 4. Fax number;
 5. Contact person;
 6. Contact person's telephone number;
 7. Address or location of proposed variance;
 8. Type of facility to include;
 - a. Variance description;

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

- b. Justification for variance;
 - c. Component or system involved;
 - d. Supporting documentation for variance;
 - e. Identify the statute, rule, code or standard to justify the variance; and
9. Printed name and title of owner or user, signature of owner or user and date.
- D.** If an owner or user does not agree with the variance issued or revoked by the Director, a request for a hearing under A.R.S. § 23-479 can be made with the Commission.

Historical Note

New Section made by final rulemaking at 15 A.A.R. 1496, effective August 18, 2009 (Supp. 09-3).

R20-5-430. Forced Circulation Hot Water Heaters

- A.** All water tube or coil-type hot water heaters that require forced circulation to prevent overheating and failure of the tubes or coils shall have a safety control, to prevent burner operation at a flow rate inadequate to protect the hot water heater unit against overheating, at all allowable firing rates. The safety control shall shut down the burner and prevent restarting until an adequate flow is restored.
- B.** All water tube or coil-type hot water heaters that require forced circulation to prevent overheating and failure of the tubes or coils, shall have a manually operated remote shutdown switch or circuit breaker and shall be located just outside the hot water heater room door and marked for easy identification. The shutdown switch shall be installed in a manner to safeguard against tampering. If a hot water heater room door is on the building exterior, the switch shall be located just inside the door. If there is more than one door to the hot water heater room there shall be a switch located at each door. The remote shutdown switch or circuit breaker shall disconnect all power to the burner controls.

Historical Note

New Section made by final rulemaking at 15 A.A.R. 1496, effective August 18, 2009 (Supp. 09-3).

R20-5-431. Code Cases

Code cases approved for use by the ASME Code Committee are allowed to be used in the design, fabrication and testing of boilers and pressure vessels provided approval from the Chief Boiler Inspector is obtained prior to use.

Historical Note

New Section made by final rulemaking at 15 A.A.R. 1496, effective August 18, 2009 (Supp. 09-3).

R20-5-432. Historical Boilers

Historical boilers shall require an initial Certificate inspection by an authorized inspector, followed by a Certificate inspection every three years thereafter if stored inside a shelter, or annually if stored outdoors. The initial Certificate inspection shall include ultrasonic thickness testing of all pressure boundaries. Thinning of the pressure retaining boundary shall be monitored and recorded on the inspection report, in accordance with R20-5-407(D), to the owner and the Division's electronic copy.

Historical Note

New Section made by final rulemaking at 15 A.A.R. 1496, effective August 18, 2009 (Supp. 09-3).

ARTICLE 5. ELEVATOR SAFETY**R20-5-501. Repealed****Historical Note**

Former Rule E-1. Amended effective November 9, 1979 (Supp. 79-6). R20-5-501 recodified from R4-13-501

(Supp. 95-1). Section repealed by final rulemaking at 9 A.A.R. 381, effective March 15, 2003 (Supp. 03-1).

R20-5-502. Definitions

The following definitions apply to this Article unless otherwise specified:

1. "ASME" means American Society of Mechanical Engineers.
2. "AZFS Key" means Arizona Firefighters Service Key, a universal key used by a firefighter to operate a conveyance during an emergency.
3. "Chief" means the head inspector of the Elevator Safety Section of the Division of Occupational Safety and Health.
4. "Elevator Safety Section" means the Elevator Safety Section of the Division of Occupational Safety and Health of the Industrial Commission of Arizona.
5. "Inspection" means the official determination by an inspector of the condition of all parts of the equipment on which the safe operation of an elevator depends.
6. "Major Alteration" means work performed to any conveyance that is not routine maintenance or repair.
7. "State Serial Number" is a unique number assigned by the Chief Elevator Inspector to each individual elevator, dumbwaiter, escalator, and moving walks.

Historical Note

Former Rule E-2. R20-5-502 recodified from R4-13-502 (Supp. 95-1). Amended by final rulemaking at 9 A.A.R. 381, effective March 15, 2003 (Supp. 03-1). Amended by final rulemaking at 15 A.A.R. 872, effective May 5, 2009 (Supp. 09-2).

R20-5-503. Repealed**Historical Note**

Former Rule E-3. R20-5-503 recodified from R4-13-503 (Supp. 95-1). Section repealed by final rulemaking at 9 A.A.R. 381, effective March 15, 2003 (Supp. 03-1).

R20-5-504. Safety Standards for Platform Lifts and Stairway Chairlifts

Every owner or operator under A.R.S. § 23-491.02 shall comply with the American Society of Mechanical Engineers Safety Standard for Platform Lifts and Stairway Chairlifts ASME A18.1-2005, with amendments as of November 29, 2005, which are incorporated by reference. This incorporation by reference does not include any later amendments or editions of the incorporated matter. A copy of this referenced material is available for review at the Industrial Commission of Arizona, 800 West Washington Street, Phoenix, Arizona 85007, and ASME at Three Park Avenue, New York, New York 10016-5990 or at <http://www.asme.org>.

Historical Note

Former Rule E-4. R20-5-504 recodified from R4-13-504 (Supp. 95-1). Section repealed; new Section made by final rulemaking at 9 A.A.R. 381, effective March 15, 2003 (Supp. 03-1). Amended by final rulemaking at 15 A.A.R. 872, effective May 5, 2009 (Supp. 09-2).

R20-5-505. Certificate of Inspection

The owner or operator under A.R.S. § 23-491.02 shall keep the Industrial Commission's Certificate of Inspection at the same location as the elevator, dumbwaiter, escalator, moving walk, or related equipment and make the certificate available for inspection and copying upon request. The State Serial Number shall be posted or displayed in the elevator cab, and on the escalators, the State Serial Number shall be affixed to the right, at the lower end of the unit.

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

Historical Note

Former Rule E-5. R20-5-505 recodified from R4-13-505 (Supp. 95-1). Amended by final rulemaking at 9 A.A.R. 381, effective March 15, 2003 (Supp. 03-1). Amended by final rulemaking at 15 A.A.R. 872, effective May 5, 2009 (Supp. 09-2).

R20-5-506. Recordkeeping

- A. The Elevator Safety Section shall assign a State Serial Number to every elevator, dumbwaiter, escalator, and moving walk for recordkeeping purposes. The State Serial Number shall be on a tag that is affixed to the controller or mainline disconnect in the elevator machine room.
- B. The owner or operator shall notify the Elevator Safety Section at least 90 days before installation, relocation, or major alteration of a dumbwaiter with automatic transfer device within the state, elevator, escalator, dumbwaiter, moving walk, material lift, wheelchair lift, stairway chairlift, or platform lift.
- C. The building owner or operator shall notify the Elevator Safety Section within 24 hours of every accident involving personal injury or disabling damage to a dumbwaiter with automatic transfer device, an elevator, escalator, dumbwaiter, moving walk, material lift, wheelchair lift, stairway chairlift, or platform lift.

Historical Note

Former Rule E-6. Amended effective November 9, 1979 (Supp. 79-6). R20-5-506 recodified from R4-13-506 (Supp. 95-1). Amended by final rulemaking at 9 A.A.R. 381, effective March 15, 2003 (Supp. 03-1). Amended by final rulemaking at 15 A.A.R. 872, effective May 5, 2009 (Supp. 09-2).

R20-5-507. Safety Code for Elevators, Escalators, Dumbwaiters, Moving Walks, Material Lifts, and Dumbwaiters with Automatic Transfer Devices

Every owner or operator of an elevator, escalator, dumbwaiter, moving walk, material lift, or dumbwaiter with automatic transfer device, installed on or after the effective date of this Section shall comply with the ASME A17.1-2007 (Safety Code for Elevators and Escalators) or ASME A17.7-2007 (Performance-Based Safety Code for Elevators and Escalators) as referenced in ASME A17.1-2007, which are incorporated by reference. This incorporation by reference does not include any later amendments or editions of the incorporated matter. A copy of this referenced material is available for review at the Industrial Commission of Arizona, 800 West Washington Street, Phoenix, Arizona 85007, and may be obtained from ASME at Three Park Avenue, New York, New York 10016-5990 or at <http://www.asme.org>. Every owner or operator of an elevator, escalator, dumbwaiter, moving walk, material lift, or dumbwaiter with an automatic transfer device, installed between May 5, 2009, and the effective date of this Section shall comply with ASME A17.1-2007 or, as an alternative, may comply with ASME A17.7-2007. Every owner or operator of an elevator, escalator, dumbwaiter, moving walk, material lift, or dumbwaiter with an automatic transfer device, installed before May 5, 2009, shall comply with the ASME A17.1 Safety Code for Elevators and Escalators in effect at the time of installation or, as an alternative, may comply with ASME A17.1-2007 or ASME 17.7-2007.

Historical Note

Former Rule R4-13-507 repealed, new Section R4-13-507 adopted effective November 9, 1979 (Supp. 79-6). Amended effective March 30, 1981 (Supp. 81-2). Amended effective June 23, 1983 (Supp. 83-3). Amended effective July 24, 1985 (Supp. 85-4). Amended effective September 5, 1989 (Supp. 89-3). Amended effective March 20, 1992 (Supp. 91-2). R20-5-507 recodified from

R4-13-507 (Supp. 95-1). Amended effective October 8, 1996 (Supp. 96-4). Amended by final rulemaking at 5 A.A.R. 2935, effective August 4, 1999 (Supp. 99-3). Amended by final rulemaking at 9 A.A.R. 381, effective March 15, 2003 (Supp. 03-1). Amended by final rulemaking at 15 A.A.R. 872, effective May 5, 2009 (Supp. 09-2). Amended by final rulemaking at 25 A.A.R. 2182, with an immediate effective date of August 6, 2019 (Supp. 19-3).

R20-5-508. Safety Standards for Belt Manlifts

Every owner or operator under A.R.S. § 23-491.02 shall comply with the standards of the American National Standard Institute Safety Standard for Belt Manlifts, ASME A90.1-2003, which is incorporated by reference. This incorporation by reference does not include any later amendments or editions of the incorporated matter. A copy of this referenced material is available for review at the Industrial Commission of Arizona, 800 West Washington Street, Phoenix, Arizona 85007, and ASME at Three Park Avenue, New York, New York 10016-5990 or at <http://www.asme.org/>.

Historical Note

Adopted effective November 9, 1979 (Supp. 79-6). R20-5-508 recodified from R4-13-508 (Supp. 95-1). Amended by final rulemaking at 9 A.A.R. 381, effective March 15, 2003 (Supp. 03-1). Amended by final rulemaking at 15 A.A.R. 872, effective May 5, 2009 (Supp. 09-2).

R20-5-509. Safety Requirements for Personnel Hoists and Employee Elevators for Construction and Demolition Operations

Every owner or operator under A.R.S. § 23-491.02 shall comply with the standards of the American National Standard Institute Safety Requirements for Personnel Hoists and Employee Elevators for Construction and Demolition Operations, ANSI, A10.4-2007, which is incorporated by reference. This incorporation by reference does not include any later amendments or editions of the incorporated matter. A copy of this referenced material is available for review at the Industrial Commission of Arizona, 800 West Washington Street, Phoenix, Arizona 85007, and ASME at Three Park Avenue, New York, New York 10016-5990 or at <http://www.asme.org>.

Historical Note

Adopted effective November 9, 1979 (Supp. 79-6). Amended effective June 23, 1983 (Supp. 83-3). R20-5-509 recodified from R4-13-509 (Supp. 95-1). Amended by final rulemaking at 9 A.A.R. 381, effective March 15, 2003 (Supp. 03-1). Amended by final rulemaking at 15 A.A.R. 872, effective May 5, 2009 (Supp. 09-2).

R20-5-510. Safety Requirements for Material Hoists

Every owner or operator under A.R.S. § 23-491.02 shall comply with the standards of the American National Standard Institute Safety Requirements for Material Hoists, ANSI, A10.5-2006, which is incorporated by reference. This incorporation by reference does not include any later amendments or editions of the incorporated matter. A copy of this referenced material is also available for review at the Industrial Commission of Arizona, 800 West Washington Street, Phoenix, Arizona 85007, and ASME at Three Park Avenue, New York, New York 10016-5990 or at <http://www.asme.org>.

Historical Note

Adopted effective November 9, 1979 (Supp. 79-6). Amended effective June 23, 1983 (Supp. 83-3). R20-5-510 recodified from R4-13-510 (Supp. 95-1). Amended by final rulemaking at 9 A.A.R. 381, effective March 15, 2003 (Supp. 03-1). Amended by final rulemaking at 15

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

A.A.R. 872, effective May 5, 2009 (Supp. 09-2).

R20-5-511. Guide for Inspection of Elevators, Escalators, and Moving Walks

Every Elevator Inspector under A.R.S. § 23-491.05 shall use the American National Standard Institute, Guide for Inspection of Elevators, Escalators, and Moving Walks, ASME, A17.2-2004, which is incorporated by reference. This incorporation by reference does not include any later amendments or editions of the incorporated matter. A copy of this referenced material is also available for review at the Industrial Commission of Arizona, 800 West Washington Street, Phoenix, Arizona 85007, and ASME at Three Park Avenue, New York, New York 10016-5990 or at <http://www.asme.org>.

Historical Note

Adopted effective March 30, 1981 (Supp. 81-2). R20-5-511 recodified from R4-13-511 (Supp. 95-1). Amended by final rulemaking at 9 A.A.R. 381, effective March 15, 2003 (Supp. 03-1). Amended by final rulemaking at 15 A.A.R. 872, effective May 5, 2009 (Supp. 09-2).

R20-5-512. Expired

Historical Note

Adopted effective March 30, 1981 (Supp. 81-2). R20-5-512 recodified from R4-13-512 (Supp. 95-1). Section expired under A.R.S. § 41-1056(E) at 11 A.A.R. 2320, effective May 19, 2005 (Supp. 05-2).

R20-5-513. Firefighters' Emergency Operation

All conveyances provided with firefighters' emergency operation installed per ASME, A17.1-2007, incorporated by reference, shall utilize the AZFS Key.

Historical Note

New Section made by final rulemaking at 15 A.A.R. 872, effective May 5, 2009 (Supp. 09-2).

ARTICLE 6. OCCUPATIONAL SAFETY AND HEALTH STANDARDS

R20-5-601. The Federal Occupational Safety and Health Standards for Construction, 29 CFR 1926

Each employer shall comply with the standards in the Federal Occupational Safety and Health Standards for Construction, as published in 29 CFR 1926, with amendments as of June 23, 2016, incorporated by reference. Copies of these referenced materials are available for review at the Industrial Commission of Arizona and may be obtained from the United States Government Printing Office, Superintendent of Documents, Washington, D.C. 20402. These standards shall apply to all conditions and practices related to construction activity by all employers, both public and private, in the state of Arizona. This incorporation by reference does not include amendments or editions to 29 CFR 1926 published after June 23, 2016.

Historical Note

Editorial correction (Supp. 75-1). Amended as an emergency effective November 16, 1977 pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 77-6). Amended as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-601 repealed, former emergency adoption effective October 29, 1980, adopted effective March 2, 1981 (Supp. 81-2). Amended effective June 17, 1981 (Supp. 81-3). Amended effective November 14, 1984 (Supp. 84-6). Amended effective March 3, 1987 (Supp. 87-1). Amended effective April 22, 1988; amended effective May 26, 1988 (Supp. 88-2). Amended effective October 14, 1988 (Supp. 88-4). Amended effective

September 14, 1989 (Supp. 89-3). Amended effective April 2, 1990 (Supp. 90-2). Amended effective August 6, 1990 (Supp. 90-3). Amended effective February 8, 1991 (Supp. 91-1). Amended effective November 21, 1991 (Supp. 91-4). Amended effective February 28, 1992 (Supp. 91-2). Amended effective October 22, 1992; amended effective December 23, 1992 (Supp. 92-4). Amended effective September 13, 1993 (Supp. 93-3). Amended effective October 21, 1993; amended effective December 17, 1993 (Supp. 93-4). Amended effective May 11, 1994 (Supp. 94-2). Amended effective November 18, 1994 (Supp. 94-4). Amended effective January 12, 1995; R20-5-601 recodified from R4-13-601 (Supp. 95-1). Amended effective August 28, 1996 (Supp. 96-3). Amended effective April 1, 1997 (Supp. 97-2). Amended effective December 12, 1997 (Supp. 97-4). Amended effective August 27, 1998 (Supp. 98-3). Amended by final rulemaking at 6 A.A.R. 592, effective January 14, 2000 (Supp. 00-1). Amended by final rulemaking at 8 A.A.R. 851, effective February 5, 2002 (Supp. 02-1). Amended by final rulemaking at 9 A.A.R. 2108, effective June 2, 2003 (Supp. 03-2). Amended by final rulemaking at 12 A.A.R. 4102, effective December 4, 2006 (Supp. 06-4). Amended by final rulemaking at 13 A.A.R. 1417, effective March 30, 2007 (Supp. 07-1). Amended by final rulemaking at 14 A.A.R. 2711, effective June 17, 2008 (Supp. 08-2). Amended by final rulemaking at 16 A.A.R. 1469, effective September 11, 2010 (Supp. 10-3). Amended by final rulemaking at 17 A.A.R. 1264, effective June 13, 2011 (Supp. 11-2). Amended by final rulemaking at 18 A.A.R. 1492, effective August 5, 2012 by Notice of Public Information at 18 A.A.R. 1653 (Supp. 12-2). Amended by final rulemaking at 18 A.A.R. 3007, effective October 24, 2012 (Supp. 12-4). Amended by final rulemaking at 22 A.A.R. 773, effective March 16, 2016 (Supp. 16-1). Amended by final rulemaking at 22 A.A.R. 1391, effective May 10, 2016 (Supp. 16-2). Amended by final rulemaking at 24 A.A.R. 2316, effective July 23, 2018 (Supp. 18-3).

R20-5-601.01. Fall Protection for Residential Construction

Each employer shall comply with the requirements in A.R.S. Title 23, Chapter 2, Article 13. These requirements shall apply to all conditions and practices related to residential construction activity by all employers, both public and private, in the state of Arizona.

Historical Note

New Section made by exempt rulemaking at 18 A.A.R. 1144, effective May 25, 2012 (Supp. 12-2).

R20-5-602. The Federal Occupational Safety and Health Standards for General Industry, 29 CFR 1910

Each employer shall comply with the standards in Subparts B through Z inclusive of the Federal Occupational Safety and Health Standards for General Industry, as published in 29 CFR 1910, with amendments as of June 23, 2016, incorporated by reference. Copies of these reference materials are available for review at the Industrial Commission of Arizona and may be obtained from the United States Government Printing Office, Superintendent of Documents, Washington, D.C. 20402. These standards shall apply to all conditions and practices related to general industry activity by all employers, both public and private, in the state of Arizona; provided that this Section shall not apply to those conditions and practices which are the subject of R20-5-601. This incorporation by reference does not include amendments or editions to 29 CFR 1910 published after June 23, 2016.

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

Historical Note

Editorial correction (Supp. 75-1). Amended as an emergency effective November 16, 1977 pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 77-6). New Section R4-13-602 adopted effective July 30, 1980 (Supp. 80-4). Amended as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-602 repealed, former emergency adoption effective October 29, 1980, adopted effective March 2, 1981 (Supp. 81-2). Amended effective June 17, 1981 (Supp. 81-3). Amended subsection (A) effective October 1, 1981 (Supp. 81-5). Amended subsection (A) effective March 5, 1982 (Supp. 82-2). Amended subsection (A) effective May 6, 1983 (Supp. 83-3). Amended subsection (A) effective April 6, 1984 (Supp. 84-2). Amended subsection (A) effective July 3, 1984 (Supp. 84-4). Amended subsection (A) effective October 18, 1984 (Supp. 84-5). Editorial correction, amendment October 18, 1984, withdrawn for subsequent certification. Amended effective November 14, 1984, and December 14, 1984 (Supp. 84-6). Amended subsection (A) effective June 9, 1986 (Supp. 86-3). Amended subsection (A) effective March 3, 1987 (Supp. 87-1). Amended subsection (A) effective June 26, 1987 (Supp. 87-2). Amended subsection (A) effective April 22, 1988; amended subsection (A) effective May 26, 1988 (Supp. 88-2). Amended subsection (A) effective October 14, 1988 (Supp. 88-4). Amended effective September 14, 1989 (Supp. 89-3). Amended effective April 2, 1990 (Supp. 90-2). Amended effective August 6, 1990 (Supp. 90-3). Amended effective February 8, 1991 (Supp. 91-1). Amended effective November 21, 1991 (Supp. 91-4). Amended effective February 28, 1992 (Supp. 91-2). Amended effective March 20, 1992 (Supp. 91-2). Amended effective June 16, 1992 (Supp. 92-2). Amended effective October 22, 1992; amended effective December 23, 1992 (Supp. 92-4). Amended effective May 14, 1993 (Supp. 93-2). Amended effective September 13, 1993 (Supp. 93-3). Amended effective October 21, 1993; amended effective December 17, 1993 (Supp. 93-4). Amended effective May 11, 1994 (Supp. 94-2). Amended effective July 19, 1994 (Supp. 94-3). Amended effective November 18, 1994 (Supp. 94-4). Amended effective January 12, 1995; Amended effective February 10, 1995; R20-5-602 recodified from R4-13-602 (Supp. 95-1). Amended effective August 28, 1996 (Supp. 96-3). Amended effective April 1, 1997 (Supp. 97-2). Amended effective December 12, 1997 (Supp. 97-4). Amended effective August 27, 1998 (Supp. 98-3). Amended by final rulemaking at 6 A.A.R. 592, effective January 14, 2000 (Supp. 00-1). Amended by final rulemaking at 7 A.A.R. 5137, effective October 19, 2001 (Supp. 01-4). Amended by final rulemaking at 9 A.A.R. 2108, effective June 2, 2003 (Supp. 03-2). Amended by final rulemaking at 11 A.A.R. 576, effective January 4, 2005 (Supp. 05-1). Amended by final rulemaking at 12 A.A.R. 4102, effective December 4, 2006 (Supp. 06-4). Amended by final rulemaking at 13 A.A.R. 1417, effective March 30, 2007 (Supp. 07-1). Amended by final rulemaking at 13 A.A.R. 2927, effective July 31, 2007 (07-3). Amended by final rulemaking at 14 A.A.R. 193, effective January 8, 2008 (Supp. 08-1). Amended by final rulemaking at 14 A.A.R. 2711, effective June 17, 2008 (Supp. 08-2). Amended by final rulemaking at 14 A.A.R. 4337, effective December 30, 2008 (Supp. 08-4). Amended by final rulemaking at 15 A.A.R. 1564, effective August 31, 2009 (Supp. 09-3).

Amended by final rulemaking at 16 A.A.R. 1469, effective September 11, 2010 (Supp. 10-3). Amended by final rulemaking at 17 A.A.R. 109, effective January 12, 2011 (Supp. 11-1). Amended by final rulemaking at 17 A.A.R. 1264, effective June 13, 2011 (Supp. 11-2). Amended by final rulemaking at 18 A.A.R. 1492, effective August 5, 2012 by Notice of Public Information at 18 A.A.R. 1653 (Supp. 12-2). Amended by final rulemaking at 18 A.A.R. 3007, effective October 24, 2012 (Supp. 12-4). Amended by final rulemaking at 22 A.A.R. 773, effective March 16, 2016 (Supp. 16-1). Amended by final rulemaking at 24 A.A.R. 2316, effective July 23, 2018 (Supp. 18-3).

R20-5-602.01. Subpart T, Commercial Diving Operations

Each employer shall comply with the standards in Subpart T of the Federal Occupational Safety and Health Standards for the General Industry as published in 29 CFR 1910, with amendments as specified in R20-5-602, except that the exemption set forth in 29 CFR 1910.401(a)(2)(ii) shall not apply. Subpart T shall apply to any diving operation performed solely for search, rescue, or related public safety purposes by or under the control of a governmental agency.

Historical Note

New Section made by final rulemaking at 14 A.A.R. 193, effective January 8, 2008 (Supp. 08-1).

R20-5-603. The Federal Occupational Safety and Health Standards for Agriculture, 29 CFR 1928

Each employer shall comply with the standards in Subparts A through D inclusive of the Federal Occupational Safety and Health Standards for Agriculture, as published in 29 CFR 1928, with amendments as of March 7, 1996, incorporated by reference and on file with the Office of the Secretary of State. Copies of these referenced materials are available for review at the Industrial Commission of Arizona and may be obtained from the United States Government Printing Office, Superintendent of Documents, Washington, D.C. 20402. This incorporation by reference does not include amendments or editions to 29 CFR 1928 published after March 7, 1996.

Historical Note

Adopted effective February 28, 1975 (Supp. 75-1). Former Section R4-13-603 repealed, new Section R4-13-603 adopted as an emergency effective November 16, 1977, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 77-6). Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-603 repealed, former emergency adoption effective October 29, 1980, adopted effective March 2, 1981 (Supp. 81-2). Amended effective April 22, 1988 (Supp. 88-2). Amended effective December 17, 1993 (Supp. 93-4). Amended effective May 11, 1994 (Supp. 94-2). Amended effective November 18, 1994 (Supp. 94-4). Amended effective February 10, 1995. R20-5-603 recodified from R4-13-603 (Supp. 95-1). Amended effective April 1, 1997 (Supp. 97-2).

R20-5-604. Rules of Agency Practice and Procedure concerning OSHA Access to Employee Medical Records, 29 CFR 1913

Each employer pursuant to A.R.S. § 23-403(B) shall comply with Federal Regulations, Title 29, Part 1913, with amendments as of May 23, 1980 (amendments of May 23, 1980 on file with the Secretary of State), which are hereby adopted and incorporated by reference as if set forth fully herein. This regulation applies to OSHA Access to Employee Medical Records.

Historical Note

Adopted effective February 28, 1975 (Supp. 75-1). Repealed as an emergency effective November 16, 1977,

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 77-6). Repealed as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Repealed effective March 2, 1981 (Supp. 81-2). New rule adopted effective November 14, 1984 (Supp. 84-6). R20-5-604 recodified from R4-13-604 (Supp. 95-1).

R20-5-605. Hoes for Weeding or Thinning Crops

- A. The use of a hoe with a handle less than four feet in length for weeding or thinning crops is prohibited. This prohibition is based upon the existence of other practical and adequate alternatives to the use of these short-handle hoes.
- B. This rule does not apply to greenhouse or nursery operations.

Historical Note

Adopted effective February 28, 1975 (Supp. 75-1). Repealed as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Repealed effective March 2, 1981 (Supp. 81-2). New Section R4-13-605 adopted effective September 7, 1984 (Supp. 84-5). R20-5-605 recodified from R4-13-605 (Supp. 95-1).

R20-5-606. State Definition of Terms Used in Adopting Federal Standards Pursuant to R20-5-601, R20-5-602, R20-5-603 and R20-5-604

For the purposes of the standards enumerated in the federal occupational safety and health standards incorporated into R20-5-601, R20-5-602, R20-5-603, and R20-5-604:

1. "Agency" means the Industrial Commission of Arizona.
2. "Assistant Secretary" means the Director of the Arizona Division of Occupational Safety and Health of the Industrial Commission of Arizona.
3. "Assistant Secretary of Labor for Occupational Safety and Health" means the Director of the Arizona Division of Occupational Safety and Health of the Industrial Commission of Arizona.
4. "Office of the Solicitor of Labor" means Legal Counsel for the Industrial Commission of Arizona.
5. "OSHA" means Arizona Division of Occupational Safety and Health.

Historical Note

Adopted effective February 28, 1975 (Supp. 75-1). Repealed as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Repealed effective March 2, 1981 (Supp. 81-2). New Section R4-13-606 adopted effective May 31, 1985 (Supp. 85-3). R20-5-606 recodified from R4-13-606 (Supp. 95-1).

R20-5-607. Expired**Historical Note**

Adopted effective February 28, 1975 (Supp. 75-1). Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-607 repealed, former emergency adoption effective October 29, 1980, adopted and amended effective March 2, 1981 (Supp. 81-2). R20-5-607 recodified from R4-13-607 (Supp. 95-1). Section expired under A.R.S. § 41-1056(E) at 9 A.A.R. 5062, effective September 30, 2003 (Supp. 03-4).

R20-5-608. Definitions

- A. "Act" means the Arizona Occupational Safety and Health Act of 1972, with amendments effective August 27, 1977 (Arizona Revised Statutes, Title 23, Chapter 2, Article 10).

- B. The definitions and interpretations contained in A.R.S. § 23-401 of the Act shall be applicable to such terms when used in these rules.
- C. "Working days" means Mondays through Fridays but shall not include Saturdays, Sundays, or state holidays. In computing fifteen working days, the day of the receipt of any notice shall not be included, and the last day of the fifteen working days shall be included.
- D. "Compliance Safety and Health Officer" means a person authorized by the Occupational Safety and Health Division, Industrial Commission of Arizona, to conduct inspections.
- E. "Establishment" means a single physical location where business is conducted or where services or industrial operations are performed. (For example: a factory, mill, stores, hotel, restaurant, movie theatre, farm, ranch, bank, sales office, warehouse, or central administrative office.) Where distinctly separate activities are performed at a single physical location (such as contract construction activities from the same physical location as a lumber yard), each activity shall be treated as a separate physical establishment, and a separate notice or notices shall be posted in each such establishment, to the extent that such notices have been furnished by the Industrial Commission of Arizona, Division of Occupational Safety and Health. Where employers are engaged in activities which are physically dispersed, such as agriculture, construction, transportation, communications, and electric, gas and sanitary services, the notice or notices required by this Section shall be posted at the location to which employees report each day. Where employees do not usually work at, or report to, a single establishment, such as traveling salesmen, technicians, engineers, etc., such notice or notices shall be posted at the location from which the employees operate to carry out their activities. In all cases, such notice or notices shall be posted in accordance with requirements of subsection (A) of this Section.

Historical Note

Adopted effective February 28, 1975 (Supp. 75-1). Repealed as an emergency effective November 16, 1977, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 77-6). Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-608 repealed, new Section R4-13-608 adopted effective March 2, 1981 (Supp. 81-2). R20-5-608 recodified from R4-13-608 (Supp. 95-1).

R20-5-609. Posting of Notice: Availability of the Act, Regulations and Applicable Standards

- A. Each employer shall post and keep posted a notice or notices, to be furnished by the Industrial Commission of Arizona, Division of Occupational Safety and Health, informing employees of the protections and obligations provided for in the Act, and that for assistance and information, including copies of the Act and of specific safety and health standards, employees should contact the employer or the nearest office of the Industrial Commission. Such notice or notices shall be posted by the employer in each establishment in a conspicuous place or places where notices to employees are customarily posted. Each employer shall take steps to ensure that such notices are not altered, defaced, or covered by other material.
- B. Copies of the Act, all regulations published in this Chapter and applicable standards will be available at all offices of the Arizona Division of Occupational Safety and Health. If an employer has obtained copies of these materials, he shall make them available upon request to any employee or his authorized representative for review in the establishment where the employee is employed on the same day the request is made or

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

at the earliest time mutually convenient to the employee or his authorized representative and the employer.

- C. Any employer failing to comply with the provisions of this Section shall be subject to citation and penalty in accordance with the provisions of A.R.S. § 23-418 of the Act.

Historical Note

Adopted effective February 28, 1975 (Supp. 75-1).
Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-609 repealed, former Section R4-13-608 adopted as an emergency effective October 29, 1980, renumbered and amended as Section R4-13-609 effective March 2, 1981 (Supp. 81-2).
R20-5-609 recodified from R4-13-609 (Supp. 95-1).

R20-5-610. Authority for Inspection

- A. The Director of the Division of Occupational Safety and Health or his authorized representative upon presentation of credentials shall be permitted to enter without delay and at reasonable times any factory, plant, establishment, construction site, or other area, or place of environment where work is performed by an employee of an employer; to inspect and investigate during regular working hours and in a reasonable manner, any such place of employment, and all pertinent conditions, structures, machines, apparatus, devices, equipment and materials therein; to question privately any employer, owner, operator, agent or employee and to review records required by the Act and regulations published in this Article and other records which are directly related to the purpose of the inspection.
- B. Representatives of the Secretary of Health, Education, and Welfare are authorized to make inspections and to question employers and employees in order to carry out the functions of the Secretary of Health, Education, and Welfare under the Williams-Steiger Occupational Safety and Health Act. Inspections conducted by Department of Labor Compliance Safety and Health Officers and representatives of the Secretary of Health, Education and Welfare under Section 8 of the Williams-Steiger Occupational Safety and Health Act and pursuant to 29 CFR Part 1903 shall not affect the authority of any state to conduct inspections in accordance with agreements and plans under Section 18 of the Williams-Steiger Occupational Safety and Health Act.
- C. Prior to inspecting areas containing information which is classified by an agency of the United States government in the interests of national security, Compliance Safety and Health Officers shall have obtained the appropriate security clearance.

Historical Note

Adopted effective February 28, 1975 (Supp. 75-1).
Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-610 repealed, former Section R4-13-609 adopted as an emergency effective October 29, 1980, renumbered and adopted as Section R4-13-610 effective March 2, 1981 (Supp. 81-2).
R20-5-610 recodified from R4-13-610 (Supp. 95-1).

R20-5-611. Objection to Inspection

- A. Upon a refusal to permit a Compliance Safety and Health Officer, in the exercise of his official duties, to enter without delay and at reasonable times any place of employment or any place therein, to inspect, to review records, or to privately question any employer, owner, operator, agent, or employee, in accordance with rule R20-5-610, or to permit a representative of employees to accompany the Compliance Safety and Health Officer during the physical inspection of any workplace in accordance with rule R20-5-615, the Compliance Safety and

Health Officer shall terminate the inspection or confine the inspection to other areas, conditions, structures, machines, apparatus, devices, equipment, materials, records, or interviews concerning which no objection is raised. The Compliance Safety and Health Officer shall endeavor to ascertain the reason for such refusal and shall immediately report the refusal and the reason therefore to the Director of the Division. The Director shall immediately consult with the Industrial Commission and its legal counsel, who shall promptly take appropriate action, including compulsory process if necessary.

- B. Compulsory process may be sought in advance of an inspection or reinvestigation if, in the judgment of the Director of the Division and the Industrial Commission Chief Legal Counsel, circumstances exist including but not limited to specific evidence of an existing violation or reasonable legislative or administrative standards for conducting an inspection which make pre-inspection process desirable or necessary.
- C. With the approval of the Industrial Commission, and the Industrial Commission Chief Legal Counsel, compulsory process may also be obtained by the Director of the Division or his designee.
- D. For purposes of this Section, the term compulsory process shall mean the institution of any appropriate action, including ex parte application for an inspection warrant or its equivalent.

Historical Note

Adopted effective June 19, 1975 (Supp. 75-1). Repealed as an emergency effective November 16, 1977, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 77-6).
Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-611 repealed, former Section R4-13-610 adopted as an emergency effective October 29, 1980, renumbered and amended as Section R4-13-611 effective March 2, 1981 (Supp. 81-2). R20-5-611 recodified from R4-13-611 (Supp. 95-1).

R20-5-612. Entry Not a Waiver

Any permission to enter, inspect, review records, or question any person shall not imply or be conditioned upon a waiver of any cause of action, citation, or penalty under the Act. Compliance Safety and Health Officers are not authorized to grant any such waiver.

Historical Note

Adopted effective June 19, 1975 (Supp. 75-1). Repealed as an emergency effective November 16, 1977, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 77-6).
Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-612 repealed, former Section R4-13-611 adopted as an emergency effective October 29, 1980, renumbered and adopted as Section R4-13-612 effective March 2, 1981 (Supp. 81-2).
R20-5-612 recodified from R4-13-612 (Supp. 95-1).

R20-5-613. Advance Notice of Inspections

- A. Advance notice of inspections may not be given except in the following situations:
1. In cases of apparent imminent danger, to enable the employer to abate the danger as quickly as possible;
 2. In circumstances where the inspection can most effectively be conducted after regular business hours or where special preparations are necessary for an inspection;
 3. Where necessary to ensure the presence of representatives of the employer and employees or the appropriate personnel needed to aid in an inspection; and

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

4. In other circumstances where the Division Director determines that the giving of advance notice would enhance the probability of an effective and thorough inspection.
- B.** In the situations described in subsection (A) of this Section, advance notice of inspections may be given only if authorized by the Division Director. When advance notice is given, it shall be the employer's responsibility promptly to notify the authorized representative of employees of the inspection, if the identity of such representative is known to the employer. (See rule R20-5-615(B) as to situations where there is no authorized representative of employees.) Upon the request of the employer, the Compliance Safety and Health Officer will inform the authorized representative of employees of the inspection, provided that the employer furnishes the Compliance Safety and Health Officer with the identity of such representative and with such other information as is necessary to enable him promptly to inform such representative of the inspection. An employer who fails to comply with his obligation under this subsection promptly to inform the authorized representative of the employees of the inspection or to furnish such information as is necessary to enable the Compliance Safety and Health Officer to promptly inform such representative of the inspection may be subject to citation and penalty under A.R.S. § 23-408 of the Act. Advance notice in any of the situations described in subsection (A) of this Section shall not be given more than 24 hours before the inspection is scheduled to be conducted, except in apparent imminent danger situations and other unusual circumstances.

Historical Note

Adopted effective July 28, 1975 (Supp. 75-1). Repealed as an emergency effective November 16, 1977, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 77-6).
 Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-613 repealed, former Section R4-13-612 adopted as an emergency effective October 29, 1980, renumbered and adopted as Section R4-13-613 effective March 2, 1981 (Supp. 81-2). R20-5-613 recodified from R4-13-613 (Supp. 95-1).

R20-5-614. Conduct of Inspections

- A.** At the beginning of an inspection, Compliance Safety and Health Officers shall present their credentials to the owner, operator, or agent in charge at the establishment; explain the nature and purpose of the inspection; and indicate generally the scope of the inspection and the records specified in rule R20-5-610 which they wish to review.
- B.** Compliance Safety and Health Officers shall have authority to take environmental samples and to take or obtain photographs related to the purpose of the inspection, employ other reasonable investigative techniques, and question privately any employer, owner, operator, agent or employee of an establishment.
- C.** In taking photographs and samples, Compliance Safety and Health Officers shall take reasonable precautions to ensure that such actions with flash, spark producing, or other equipment would not be hazardous. Compliance Safety and Health Officers shall comply with all employer safety and health rules and practices at the establishment being inspected, and they shall wear and use appropriate protective clothing and equipment.
- D.** The conduct of inspections shall be such as to preclude unreasonable disruption to the operations of the employer's establishment.
- E.** At the conclusion of an inspection, a Compliance Safety and Health Officer shall confer with the employer or his represen-

tative and informally advise him of any apparent safety or health violations disclosed by the inspection. During such conference, the employer shall be afforded an opportunity to bring to the attention of the Compliance Safety and Health Officer any pertinent information regarding conditions in the workplace.

Historical Note

Adopted effective March 2, 1976 (Supp. 76-2). Repealed as an emergency effective November 16, 1977, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 77-6).
 Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-614 repealed, former Section R4-13-613 adopted as an emergency effective October 29, 1980, renumbered and amended as Section R4-13-614 effective March 2, 1981 (Supp. 81-2).
 R20-5-614 recodified from R4-13-614 (Supp. 95-1).

R20-5-615. Representatives of Employers and Employees

- A.** Compliance Safety and Health Officers shall be in charge of inspections and questioning of persons. A Compliance Safety and Health Officer may permit additional employer representatives and additional representatives authorized by employees to accompany him where he determines that such additional representatives will further aid the inspection. A different employer and employee representative may accompany the Compliance Officer during each different phase of an inspection if this will not interfere with the conduct of the inspection.
- B.** Compliance Safety and Health Officers shall have authority to resolve all disputes as to who is the representative authorized by the employer and employees for the purpose of this rule. If there is no authorized representative of employees, or if the Compliance Safety and Health Officer is unable to determine with reasonable certainty who is such representative, he shall consult with a reasonable number of employees concerning matters of safety and health in the workplace.
- C.** The representative(s) authorized by employees shall be an employee(s) of the employer. However, if in the judgment of the Compliance Safety and Health Officer, good cause has been shown why accompaniment by a third party who is not an employee is reasonably necessary to the conduct of an effective and thorough physical inspection of the workplace, such third party may accompany the Compliance Safety and Health Officer during the inspection.
- D.** Compliance Safety and Health Officers are authorized to deny the right of accompaniment under this Section to any person whose conduct interferes with a fair and orderly inspection. The right of accompaniment in areas containing trade secrets shall be subject to the provisions of rule R20-5-616(B). With regard to information classified by an agency of the United States government in the interest of national security, only persons authorized to have access to such information may accompany a Compliance Safety and Health Officer in areas containing such information.

Historical Note

Adopted effective March 2, 1976 (Supp. 76-2). Repealed as an emergency effective November 16, 1977, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 77-6).
 Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-615 repealed, former Section R4-13-614 adopted as an emergency effective October 29, 1980, renumbered and amended as Section R4-13-615 effective March 2, 1981 (Supp. 81-2).

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

R20-5-615 recodified from R4-13-615 (Supp. 95-1).

R20-5-616. Trade Secrets

- A.** At the commencement of an inspection, the employer may identify areas in the establishment which contain or which might reveal a trade secret. If the Compliance Safety and Health Officer has no clear reason to question such identification, information obtained in such areas, including all negatives and prints of photographs, environmental samples, shall be labeled "confidential-trade secret" and shall not be disclosed except in accordance with provisions of A.R.S. § 23-426.
- B.** Upon the request of an employer, any authorized representative of employees under rule R20-5-615 in an area containing trade secrets shall be an employee in that area or an employee authorized by the employer to enter that area. Where there is no such representative or employee, a Compliance Safety and Health officer shall consult with a reasonable number of employees who work in that area concerning matters of safety and health.

Historical Note

Adopted effective March 2, 1976 (Supp. 76-2). Repealed as an emergency effective November 16, 1977, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 77-6). Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-616 repealed, former Section R4-13-615 adopted as an emergency effective October 29, 1980, renumbered and adopted as Section R4-13-616 effective March 2, 1981 (Supp. 81-2). R20-5-616 recodified from R4-13-616 (Supp. 95-1).

R20-5-617. Consultation with Employees

Compliance Safety and Health Officers may privately consult with employees concerning matters of occupational safety and health to the extent they deem necessary for the conduct of an effective and thorough inspection. During the course of an inspection, any employee shall be afforded an opportunity to bring any violation of the Act, which he has reason to believe exists in the workplace, to the attention of the Compliance Safety and Health Officer.

Historical Note

Adopted effective January 21, 1976 (Supp. 76-1). Repealed as an emergency effective November 16, 1977, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 77-6). Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-617 repealed, former Section R4-13-616 adopted as an emergency effective October 29, 1980, renumbered and amended as Section R4-13-617 effective March 2, 1981 (Supp. 81-2). R20-5-617 recodified from R4-13-617 (Supp. 95-1).

R20-5-618. Complaints by Employees

- A.** A copy of a complaint submitted pursuant to A.R.S. § 23-408(E) shall be provided to the employer or his agent by the Director of the Division of Occupational Safety and Health or his representative no later than the time of inspection, except that, upon the request of the person giving such notice, his name shall not appear in such copy or in any record published, released, or made available by the Arizona Division of Occupational Safety and Health.
- B.** If upon receipt of such notification the Division Director determines that the complaint meets the requirements set forth in subsection (A) of this rule, and that there are reasonable grounds to believe that the alleged violation exists, he shall cause an inspection to be made as soon as practicable, to deter-

mine if such alleged violation exists. Inspections under this rule shall not be limited to matters referred to in the complaint.

Historical Note

Adopted effective January 21, 1976 (Supp. 76-1). Repealed as an emergency effective November 16, 1977, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 77-6). Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-618 repealed, former Section R4-13-617 adopted as an emergency effective October 29, 1980, renumbered and amended as Section R4-13-618 effective March 2, 1981 (Supp. 81-2). R20-5-618 recodified from R4-13-618 (Supp. 95-1).

R20-5-619. Inspection Not Warranted; Informal Review

If the Division Director determines that an inspection is not warranted because there are no reasonable grounds to believe that a violation or danger exists with respect to a complaint in accordance with A.R.S. § 23-408(E), he shall notify the complaining party in writing of such determination. The complaining party may obtain review of such determination by submitting a written statement of position with the Industrial Commission and, at the same time, providing the employer with a copy of such statement by certified mail. The employer may submit an opposing written statement of position with the Industrial Commission and, at the same time, provide the complaining party with a copy of such statement by certified mail. Upon the request of the complaining party or the employer, the Industrial Commission, at their discretion, may hold an informal conference in which the complaining party and the employer may orally present their views. After considering all written and oral views presented, the Industrial Commission shall affirm, modify, or reverse the determination of the Division Director and furnish the complaining party and the employer a written notification of their decision and the reasons therefore. The decision of the Industrial Commission shall be final and not subject to further review. Such determination shall be without prejudice to the filing of a new complaint meeting the requirements of A.R.S. § 23-408(E).

Historical Note

Adopted effective May 25, 1977 (Supp. 77-3). Repealed as an emergency effective November 16, 1977, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 77-6). Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-619 repealed, former Section R4-13-618 adopted as an emergency effective October 29, 1980, renumbered and amended as Section R4-13-619 effective March 2, 1981 (Supp. 81-2). R20-5-619 recodified from R4-13-619 (Supp. 95-1).

R20-5-620. Expired**Historical Note**

Adopted effective May 25, 1977 (Supp. 77-3). Repealed as an emergency effective November 16, 1977, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 77-6). Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-620 repealed, former Section R4-13-619 adopted as an emergency effective October 29, 1980, renumbered and amended as Section R4-13-620 effective March 2, 1981 (Supp. 81-2). R20-5-620 recodified from R4-13-620 (Supp. 95-1). Section expired under A.R.S. § 41-1056(E) at 9 A.A.R. 5062, effective September 30, 2003 (Supp. 03-4).

R20-5-621. Citations: Notices of De Minimis Violations

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

- A. The Division Director shall review the inspection reports of the Compliance Safety and Health Officer. If, on the basis of the report, the Division Director believes that the employer has violated a requirement of A.R.S. § 23-403 of the Act, of any standard, rule or order promulgated pursuant to A.R.S. § 23-410 of the Act, or of any substantive rule published in these rules, he shall, if appropriate, consult with the Industrial Commission's counsel and shall issue to the employer either a citation or notice of de minimis violations. An appropriate citation or notice of de minimis violation shall be issued even though after being informed of an alleged violation by the Compliance Safety and Health Officer, the employer immediately abates, or initiates steps to abate, such alleged violation. Any citation or notice of de minimis violations shall be issued with reasonable promptness after termination of the inspection. No citation may be issued under this rule after the expiration of six months following the occurrence of any alleged violation.
- B. If a citation or notice of de minimis violation issued for a violation alleged in a request for inspection under A.R.S. § 23-408(E), a copy of the citation or notice of de minimis violation shall also be sent to the employee or representative of employees who made such request or notification.
- C. After an inspection, if the Division Director determines that a citation is not warranted with respect to a danger or violation alleged to exist in a request for inspection under A.R.S. § 23-408(E), the informal review procedures prescribed in rule R20-5-619(A) shall be applicable. After considering all views presented, the Industrial Commission shall affirm the determination of the Division Director, order a reinspection, or issue a citation if the Industrial Commission believes that the inspection disclosed a violation. The Industrial Commission shall furnish the complaining party and the employer with a written notification of their determination and the reasons therefore. The determination of the Industrial Commission shall be final and not subject to review.
- D. Every citation shall state that the issuance of a citation does not constitute a finding that a violation of the Act has occurred unless there is a failure to contest as provided for in the Act or, if contested, unless a citation is affirmed by the Hearing Division or the Review Commission.

Historical Note

Adopted as an emergency effective May 24, 1977, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 77-3). Repealed as an emergency effective November 16, 1977, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 77-6). Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-620 adopted as an emergency effective October 29, 1980, renumbered and amended as Section R4-13-621 effective March 2, 1981 (Supp. 81-2). R20-5-621 recodified from R4-13-621 (Supp. 95-1).

R20-5-622. Proposed Penalties

- A. All employers shall be notified of any proposed penalties, issued pursuant to A.R.S. § 23-418, by certified mail or by a signed verification in person.
- B. The Division Director shall determine the amount of any proposed penalty, giving due consideration to the appropriateness of penalty with respect to the size of the business of the employer being charged, the gravity of the violation, the good faith of the employer, and the history of previous violations in accordance with the provisions of A.R.S. § 23-418 of the Act.
- C. Appropriate penalties may be proposed with respect to an alleged violation even though after being informed of such alleged violation by the Compliance Safety and Health Officer,

the employer immediately abates, or initiates steps to abate, such alleged violation. Penalties shall not be proposed for de minimis violations which have no direct or immediate relationship to safety or health.

Historical Note

Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-621 adopted as an emergency effective October 29, 1980, renumbered and amended as Section R4-13-622 effective March 2, 1981 (Supp. 81-2). R20-5-622 recodified from R4-13-622 (Supp. 95-1).

R20-5-623. Posting of Citations

- A. Upon receipt of any citation under the Act, the employer shall immediately post such citation, or a copy thereof, unedited, at or near each place an alleged violation referred to in the citation occurred, except as provided below. Where, because of the nature of the employer's operations, it is not practicable to post the citation at or near each place of alleged violation, such citation shall be posted, unedited, in a prominent place where it will be readily observable by all affected employees. For example, where employers are engaged in activities which are physically dispersed, the citation may be posted at the location to which the employees report each day. Where employees do not primarily work at or report to a single location, the citation may be posted at the location from which the employees operate to carry out their activities. The employer shall take steps to ensure that the citation is not altered, defaced, or covered by other material. Notices of de minimis violations need not be posted.
- B. Each citation, or a copy thereof, shall remain posted until the violation has been abated, or for three working days, whichever is later. The filing by the employer of a notice of intention to contest under A.R.S. § 23-471(A) shall not affect his posting responsibility under this rule unless and until the Hearing Division and/or Review Commission issues a final order vacating the citation.
- C. An employer to whom a citation has been issued may post a notice in the same location where such citation is posted indicating that the citation is being contested before the Hearing Division and/or Review Commission, and such notice may explain the reasons for such contest. The employer may also indicate that specified steps have been taken to abate the violation.

Historical Note

Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-622 adopted as an emergency effective October 29, 1980, renumbered and amended as Section R4-13-623 effective March 2, 1981 (Supp. 81-2). R20-5-623 recodified from R4-13-623 (Supp. 95-1).

R20-5-624. Employer and Employee Contests before the Hearing Division

- A. All notices to contest citations and/or penalties shall be submitted to the Division Director and immediately transmitted to the Hearing Division in accordance with the Rules of Procedure prescribed by the Industrial Commission.
- B. Any affected employee or employee representative appealing the period allowed an employer to abate a particular violation shall submit the notice of contest to the Division Director who shall immediately transmit such notice to the Hearing Division in accordance with the Rules of Procedure prescribed by the Industrial Commission.

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

Historical Note

Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-623 adopted as an emergency effective October 29, 1980, renumbered and amended as Section R4-13-624 effective March 2, 1981 (Supp. 81-2). R20-5-624 recodified from R4-13-624 (Supp. 95-1).

R20-5-625. Failure to Correct a Violation for Which a Citation Has Been Issued

- A. All employers failing to correct an alleged violation for which a citation has been issued, within the period permitted for its correction, shall be notified of such failure and any proposed penalties issued pursuant to A.R.S. § 23-418 by certified mail or by signed verification in person.
- B. All notices to contest a notification of failure to correct a violation and of proposed additional penalty shall be submitted to the Division Director and immediately transmitted to the Hearing Division in accordance with the Rules of Procedure prescribed by the Industrial Commission.
- C. Each notification of failure to correct a violation and of proposed additional penalty shall state that it shall be deemed to be the final order of the Industrial Commission and not subject to review by any court or agency unless within fifteen working days from the receipt of such notification, the employer notifies the Division Director in writing that he intends to contest the notification or the proposed additional penalty before the Hearing Division.

Historical Note

Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-624 adopted as an emergency effective October 29, 1980, renumbered and amended as Section R4-13-625 effective March 2, 1981 (Supp. 81-2). R20-5-625 recodified from R4-13-625 (Supp. 95-1).

R20-5-626. Informal Conferences

At the request of an affected employer, employee, or representative of employees, the Industrial Commission, or their designee, may hold an informal conference for the purpose of discussing any issues raised by an inspection, citation, notice of proposed penalty, or notice of intention to contest. The settlement of any issue at such conference shall be subject to rules and procedures prescribed by the Industrial Commission. If the conference is requested by the employer, an affected employee or his representative shall be afforded an opportunity to participate, at the discretion of the Industrial Commission or their designee. If the conference is requested by an employee or representative of employees, the employer shall be afforded an opportunity to participate, at the discretion of the Industrial Commission or their designee. Any party may be represented by counsel in such conference. No such conference or request for such conference shall operate as a stay of any fifteen working day period for filing a notice of intention to contest as prescribed in rule R20-5-624.

Historical Note

Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-625 adopted as an emergency effective October 29, 1980, renumbered and adopted as Section R4-13-626 effective March 2, 1981 (Supp. 81-2). R20-5-626 recodified from R4-13-626 (Supp. 95-1).

R20-5-627. Abatement Verification

- A. Scope and application. This Section applies to employers, as defined in A.R.S. § 23-401, who receive a citation for a violation of the Arizona Occupational Safety and Health Act.
- B. Definitions:
 - 1. Abatement means action by an employer to comply with a cited standard or rule or to eliminate a recognized hazard, as defined in A.R.S. § 23-401, identified by the Division during an inspection.
 - 2. Abatement date means:
 - a. For an uncontested citation item, the later of:
 - i. The date in the citation for abatement of the violation;
 - ii. The date approved by the Division as a result of a petition for modification of the abatement date (PMA); or
 - iii. The date for abatement completion as established in a citation by an informal conference agreement.
 - b. For a contested citation item for which an administrative law judge has issued a final decision affirming the violation, the later of:
 - i. The date identified in the final decision for completion of abatement;
 - ii. The date computed by adding the original period allowed for abatement in the citation to begin 15 days from the final decision date of an administrative law judge; or
 - iii. The date established by a formal settlement agreement.
 - 3. Affected employee means an employee who is exposed to the hazard identified as a violation in a citation.
 - 4. Final order date means:
 - a. The date on which an uncontested citation is deemed final under A.R.S. § 23-417 (A); or
 - b. For a contested citation item: The date on which a decision or order of an administrative law judge becomes final under A.R.S. § 23-421 or § 23-423.
 - 5. Movable equipment means a hand-held or non-hand-held machine or device, powered or unpowered, that is used to do work and is moved within or between workplaces.
- C. Abatement certification.
 - 1. Within 10 calendar days after the abatement date, an employer shall certify to the Division that the employer has abated each cited violation except as provided in subsection (C)(2). An employer may use Appendix A to certify abatement.
 - 2. An employer is not required to certify abatement if a Compliance Safety and Health Officer, during an onsite inspection:
 - a. Observes, within 24 hours after a violation is identified, that abatement has occurred; and
 - b. Notes the abatement action on the citation.
 - 3. An employer's certification that abatement is complete shall include, for each cited violation, in addition to the information required by subsection (H), the completion date and method of abatement and a statement that affected employees and their representatives have been informed of the completed abatement.
- D. Abatement documentation.
 - 1. Within 10 days after the abatement date, an employer shall submit to the Division, documents which evidence that abatement is complete for each willful or repeat violation and for any serious violation for which abatement documentation is required.
 - 2. Documents which evidence that abatement is complete may include documents for purchase or repair of equip-

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

ment, photographs or videos of the abatement, or other written records.

E. Abatement plans.

1. The Division may require an employer to submit an abatement plan, except for a nonserious violation, when the time permitted for abatement is more than 90 days. The citation shall state that an abatement plan is required. An employer may use Appendix B for an abatement plan.
2. An employer shall submit an abatement plan for each cited violation within 25 days from the date of a final order when the citation states that a plan is required. In the abatement plan, the employer shall identify:
 - a. The violation,
 - b. The steps necessary to achieve abatement,
 - c. A schedule for completing abatement, and
 - d. How the employer will protect employees from the violative condition until abatement is complete.

F. Progress reports.

1. The Division may require an employer who submits an abatement plan under subsection (E), to submit periodic progress reports for each cited violation. If the Division requires a periodic progress report, the citation shall include the following information:
 - a. Periodic progress reports are required and the cited violations for which periodic progress reports are required;
 - b. The date on which an initial progress report must be submitted. The date of the initial progress report shall be no sooner than 30 days after the submission date required for abatement;
 - c. Whether additional progress reports are required; and
 - d. The date on which additional progress reports shall be submitted.
2. For each violation, the employer shall summarize in the progress report, the action taken to achieve abatement and the date the action was taken.

G. Employee notification.

1. An employer shall inform affected employees and the employees' representative of abatement activities covered by this Section by posting a copy of each document submitted to the Division or a summary of the document at the location of the cited violation.
2. For employers who have mobile work operations, the employer shall:
 - a. Post each document or a summary of the document submitted to the Division in a conspicuous place where it can be readily seen by employees and the employee representative; or
 - b. Take other steps to communicate fully to affected employees and the employees' representative about abatement actions.
3. The employer shall inform employees and the employees' representative of the right to examine and copy all abatement documents submitted by the employer to the Division.
 - a. An employee or an employee representative shall submit a written request to examine and copy abatement documents within three working days of receiving notice that the documents have been submitted to the Division.
 - b. An employer shall comply with an employee's or employee representative's written request to examine and copy abatement documents within five working days of receiving the request.

4. An employer shall ensure that notice in subsection (G)(1) to employees and a employee representative is provided at the same time or before the information is provided to the Division and that abatement documents are:
 - a. Not altered, defaced, or physically covered by other material; and
 - b. Remain posted for at least three working days after submission to the Division.

H. Transmitting abatement documents.

1. An employer shall include, in each submission required by this Section, the following information:
 - a. The employer's name and address;
 - b. The inspection number to which the submission relates;
 - c. The citation, item number, and location to which the submission relates;
 - d. A statement that the information submitted is accurate; and
 - e. The signature of the employer or the employer's authorized representative.
2. The date of postmark is the date of submission for mailed documents. For documents transmitted by other means, the date the Division receives the document is the date of submission.

I. Movable equipment.

1. For serious, repeat, and willful violations involving movable equipment, an employer shall attach a warning tag or a copy of the citation to the operating controls or to the cited component of equipment that is moved within or between workplaces. The Division shall deem attaching a copy of the citation to the equipment to meet the tagging requirement of subsection (I)(3) and the posting requirement of R20-5-623.
2. The employer shall use a warning tag to warn employees about the nature of the violation involving the movable equipment and identifies the location of the violation. An employer may use the tag in Appendix C to meet this requirement.
3. If a violation has not been abated, an employer shall attach a warning tag or a copy of the citation to the equipment as follows:
 - a. For hand-held equipment, the employer shall attach a warning tag or copy of the citation within eight hours after the employer receives the citation; and
 - b. For non-hand-held equipment, the employer shall attach a warning tag or copy of the citation before moving the equipment within or between workplaces.
4. For the construction industry, a tag that is designed and used in accordance with 29 CFR 1926.20(b)(3) and 29 CFR 1926.200(h) is deemed by the Division to meet the requirements of this Section when the information required by subsection (I)(2) is included on the tag.
5. An employer shall ensure that the tag or copy of the citation attached to movable equipment is not altered, defaced, or physically covered by other material.
6. An employer shall ensure that the tag or copy of the citation attached to movable equipment remains attached until:
 - a. The employer has abated the violation and all abatement verification documents required by this Section have been submitted to the Division;
 - b. The employer has permanently removed the cited equipment from service or the cited equipment is no longer within the employer's control; or

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

- c. The Division, administrative law judge, or Review Board vacates the citation.

R20-5-628. Safe Transportation of Compressed Air or Other Gases

An employer shall not use Polyvinyl Chloride (PVC) piping in a place of employment for the transportation and distribution of compressed air or other compressed gases in an above-ground installation.

Historical Note

New Section made by final rulemaking at 9 A.A.R. 1161, effective March 11, 2003 (Supp. 03-1).

R20-5-629. The Occupational Injury and Illness Recording and Reporting Requirements, 29 CFR 1904

Each employer shall comply with the standards in the Federal Occupational Safety and Health Standards for Recordkeeping, as published in 29 CFR 1904, with amendments as of January 1, 2017, incorporated by reference. Copies of the incorporated materials are available for review at the Industrial Commission of Arizona and may be obtained from the United States Government Printing Office, Superintendent of Documents, Washington, D.C. 20402. These standards shall apply to all conditions and practices related to recordkeeping by all employers, both public and private, in the state

of Arizona. This incorporation by reference does not include amendments or editions to 29 CFR 1904 published after January 1, 2017.

Historical Note

New Section made by final rulemaking at 8 A.A.R. 364, effective December 31, 2001 (Supp. 01-4). Amended by final rulemaking at 9 A.A.R. 874, effective February 19, 2003 (Supp. 03-1). Amended by final rulemaking at 10 A.A.R. 318, effective January 1, 2004 (Supp. 03-4). Amended by final rulemaking at 22 A.A.R. 775, effective March 16, 2016 (Supp. 16-1). Amended by final rulemaking at 24 A.A.R. 2263, effective July 23, 2018 (Supp. 18-3).

R20-5-630. Repealed**Historical Note**

Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-640 adopted as an emergency effective October 29, 1980, renumbered and amended as Section R4-13-630 effective March 2, 1981 (Supp. 81-2). R20-5-630 recodified from R4-13-631 (Supp. 95-1). Section repealed by final rulemaking at 8 A.A.R. 364, effective December 31, 2001 (Supp. 01-4).

R20-5-631. Repealed**Historical Note**

Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former emergency adoption effective October 29, 1980, adopted effective March 2, 1981 (Supp. 81-2). R20-5-631 recodified from R4-13-631 (Supp. 95-1). Section repealed by final rulemaking at 8 A.A.R. 364, effective December 31, 2001 (Supp. 01-4).

R20-5-632. Repealed**Historical Note**

Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former emergency adoption effective October 29, 1980, adopted effective March 2, 1981 (Supp. 81-2). R20-5-632 recodified from R4-13-632 (Supp. 95-1). Section repealed by final rulemaking at 8 A.A.R. 364, effective December 31, 2001 (Supp. 01-4).

R20-5-633. Repealed**Historical Note**

Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former emergency adoption effective October 29, 1980, adopted effective March 2, 1981 (Supp. 81-2). R20-5-633 recodified from R4-13-633 (Supp. 95-1). Section repealed by final rulemaking at 8 A.A.R. 364, effective December 31, 2001 (Supp. 01-4).

R20-5-634. Repealed**Historical Note**

Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former emergency adoption effective October 29, 1980, adopted effective March 2, 1981 (Supp. 81-2). R20-5-634 recodified from R4-13-634 (Supp. 95-1). Section repealed by final rulemaking at 8 A.A.R. 364, effective December 31, 2001 (Supp. 01-4).

R20-5-635. Repealed

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

R20-5-642 recodified from R4-13-642 (Supp. 95-1). Section repealed by final rulemaking at 8 A.A.R. 364, effective December 31, 2001 (Supp. 01-4).

R20-5-643. Repealed**Historical Note**

Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-644 adopted as an emergency effective October 29, 1980, renumbered and adopted as Section R4-13-643 effective March 2, 1981 (Supp. 81-2). R20-5-643 recodified from R4-13-643 (Supp. 95-1). Section repealed by final rulemaking at 8 A.A.R. 364, effective December 31, 2001 (Supp. 01-4).

R20-5-644. Repealed**Historical Note**

Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-645 adopted as an emergency effective October 29, 1980, renumbered and adopted as Section R4-13-644 effective March 2, 1981 (Supp. 81-2). R20-5-644 recodified from R4-13-644 (Supp. 95-1). Section repealed by final rulemaking at 8 A.A.R. 364, effective December 31, 2001 (Supp. 01-4).

R20-5-645. Repealed**Historical Note**

Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-646 adopted as an emergency effective October 29, 1980, renumbered and amended as Section R4-13-645 effective March 2, 1981 (Supp. 81-2). R20-5-645 recodified from R4-13-645 (Supp. 95-1). Section repealed by final rulemaking at 8 A.A.R. 364, effective December 31, 2001 (Supp. 01-4).

R20-5-646. Emergency Expired**Historical Note**

Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Emergency expired. R20-5-646 recodified from R4-13-646 (Supp. 95-1).

R20-5-647. Reserved**R20-5-648. Reserved****R20-5-649. Reserved****R20-5-650. Definitions**

As used in rules R20-5-650 through R20-5-669 inclusive, unless the context clearly requires otherwise:

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

1. "Act" means the Arizona Occupational Safety and Health Act of 1972 (Arizona Revised Statutes, Title 23, Chapter 2, Article 10).
2. "Commission" means the Industrial Commission of Arizona.
3. "Person" means an individual, partnership, association, corporation, business trust, legal representative, an organized group of individuals, or political subdivision.
4. "Party" means a person admitted to participate in a hearing conducted in accordance with subsection (3). An applicant for relief and any affected employee shall be entitled to be named as parties.
5. "Affected employee" means an employee or any one of his authorized representatives, such as his collective bargaining agent, who would be affected by the granting or denial of a variance.

Historical Note

Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-651 adopted as an emergency effective October 29, 1980, renumbered and adopted as Section R4-13-650 effective March 2, 1981 (Supp. 81-2). R20-5-650 recodified from R4-13-650 (Supp. 95-1).

R20-5-651. Petitions for Amendments

Any person may at any time petition the Commission in writing to revise, amend, or revoke any provisions of rules R20-5-650 through R20-5-669 inclusive. The petition should set forth either the terms or the substance of the rule desired, with a concise statement of the reasons therefor and the effects thereof.

Historical Note

Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-652 adopted as an emergency effective October 29, 1980, renumbered and adopted as Section R4-13-651 effective March 2, 1981 (Supp. 81-2). R20-5-651 recodified from R4-13-651 (Supp. 95-1).

R20-5-652. Effects of Variances

All variances granted hereunder shall have only future effect. In their discretion, the Commission may decline to entertain an application for variance on the subject or issue concerning which a citation has been issued to the employer involved and a proceeding on the citation or a related issue concerning a proposed penalty or period of abatement is pending before the Federal Occupational Safety and Health Review Commission, State of Arizona Hearing Division or the Arizona Review Board until the completion of such proceeding.

Historical Note

Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-654 adopted as an emergency effective October 29, 1980, renumbered and adopted as Section R4-13-652 effective March 2, 1981 (Supp. 81-2). R20-5-652 recodified from R4-13-652 (Supp. 95-1).

R20-5-653. Public Notice of a Granted Variance

Every final action granting a variance, shall be published in statewide newspapers. Every such final action shall specify the alternative to the standard involved which the particular variance permits.

Historical Note

Adopted as an emergency effective October 29, 1980,

pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-655 adopted as an emergency effective October 29, 1980, renumbered and adopted as Section R4-13-653 effective March 2, 1981 (Supp. 81-2). R20-5-653 recodified from R4-13-653 (Supp. 95-1).

R20-5-654. Form of Documents; Subscription; Copies

- A. No particular form is prescribed for applications and other papers which may be filed in proceedings hereunder. However, any applications and other papers shall be clearly legible. An original and six copies of any application and other papers shall be filed. The original shall be typewritten. Clear carbon copies or printed or processed copies are acceptable copies.
- B. Each application or other paper which is filed in proceedings hereunder shall be signed by the person filing the same or by his attorney or other authorized representative and where required by these regulations shall be verified by the applicant.

Historical Note

Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-646 adopted as an emergency effective October 29, 1980, renumbered and adopted as Section R4-13-654 effective March 2, 1981 (Supp. 81-2). R20-5-654 recodified from R4-13-654 (Supp. 95-1).

R20-5-655. Variances

- A. Application for variance. Any employer, or class of employers, desiring a variance from a standard or regulation or any portion thereof, authorized by A.R.S. § 23-411 of the Act may file a written application containing the information specified in subsection (B) of this Section with the Industrial Commission of Arizona, 1601 West Jefferson, Phoenix, Arizona 85005.
- B. Contents. An application filed pursuant to subsection (A) of this Section shall contain the information specified in A.R.S. § 23-411(B) and (C) of the Act.
- C. Interim order.
 1. Application. In accordance with A.R.S. § 23-411(B)(3) of the Act, an application may also be made for an interim order to be effective until a decision is rendered on the application for the variance filed previously or concurrently. An application for an interim order shall include a verified statement of facts and arguments supporting such application. The Commission may rule ex parte upon the application.
 2. Notice of denial of application. If an application filed pursuant to subsection (C)(1) is denied, the applicant shall be given prompt notice of the denial, which shall include, or be accompanied by, a brief statement of the grounds therefore.
 3. Notice of the grant of an interim order. If an interim order is granted, a copy of the order shall be served upon the applicant for the order and other parties and the terms of the order shall be published in statewide newspapers. It shall be a condition of the order that the affected employer shall give notice thereof to affected employees by the same means to be used to inform them of an application for variance.

Historical Note

Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-657 adopted as an emergency effective October 29, 1980, renumbered and adopted as Section R4-13-655 effective March 2, 1981

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

(Supp. 81-2). R20-5-655 recodified from R4-13-655
(Supp. 95-1).

R20-5-656. Variances under A.R.S. § 23-412

- A.** Application for variance. Any employer, or class of employers, desiring a variance authorized by A.R.S. § 23-412 of the Act may file a written application containing the information specified in subsection (B) of this Section, with the Industrial Commission of Arizona, 1601 W. Jefferson, Phoenix, Arizona 85005.
- B.** Contents. An application filed pursuant to subsection (A) of this Section shall contain the information specified in A.R.S. § 23-412 of the Act.
- C.** Interim order
 - 1. Application. An application may also be made for an interim order to be effective until a decision is rendered on the application for the variance filed previously or concurrently. An application for an interim order shall include a verified statement of facts and arguments supporting such application. The Commission may rule ex parte upon the application.
 - 2. Notice of denial of application. If an application filed pursuant to subsection (C)(1) is denied, the applicant shall be given prompt notice of the denial, which shall include, or be accompanied by, a brief statement of the grounds therefore.
 - 3. Notice of the grant of an interim order. If an interim order is granted, a copy of the order shall be served upon the applicant and other parties, and the terms of the order shall be published in statewide newspapers. It shall be a condition of the order that the affected employer shall give notice thereof to affected employees by the same means to be used to inform them of an application for a variance.

Historical Note

Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-658 adopted as an emergency effective October 29, 1980, renumbered and adopted as Section R4-13-656 effective March 2, 1981 (Supp. 81-2). R20-5-656 recodified from R4-13-656 (Supp. 95-1).

R20-5-657. Renewal of Rules or Orders: Federal Multi-state Variances

- A.** Renewal or rules or orders. Any final rule or order issued under A.R.S. § 23-411 of the Act may be renewed or extended as permitted by the applicable Section and in the manner prescribed for its issuance.
- B.** Multi-state variances. Where a federal variance has been granted with multi-state applicability, including applicability in this state operating under a state plan approved under Section 18 of the Act, from a standard or portion thereof identical to this state's standard or regulation or portion thereof such variance shall likewise be deemed an authoritative interpretation of the employer(s)' compliance obligation with regard to the state standard or portion thereof provided no objections of substance are found to be interposed by the Commission.

Historical Note

Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-659 adopted as an emergency effective October 29, 1980, renumbered and adopted as Section R4-13-657 effective March 2, 1981 (Supp. 81-2). R20-5-657 recodified from R4-13-657

(Supp. 95-1).

R20-5-658. Action on Applications

- A.** Defective applications
 - 1. If an application filed pursuant to rule R20-5-655, R20-5-656, R20-5-657 and R20-5-658 does not conform to the applicable Section, the Commission may deny the application.
 - 2. Prompt notice of the denial of an application shall be given to the applicant.
 - 3. A notice of denial shall include, or be accompanied by, a brief statement of the grounds for denial.
 - 4. A denial of an application pursuant to this subsection shall be without prejudice to the filing of another application.
- B.** Adequate applications
 - 1. If an application has not been denied pursuant to subsection (A) of this Section, the Commission shall cause to be published in statewide newspapers a notice of the filing of the application.
 - 2. A notice of the filing of an application shall include:
 - a. The terms, or an accurate summary, of the application;
 - b. A reference to the Section of the Act under which the application has been filed;
 - c. An invitation to interested persons to submit within a stated period of time written data, views, or arguments regarding the application; and
 - d. Information to affected employers, employees, of any right to request a hearing on the application.

Historical Note

Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-660 adopted as an emergency effective October 29, 1980, renumbered and adopted as Section R4-13-658 effective March 2, 1981 (Supp. 81-2). R20-5-658 recodified from R4-13-658 (Supp. 95-1).

R20-5-659. Request for Hearings on Petition

- A.** Request for hearing. Any employer, employee, authorized employee representative, representative, or other person interested in or affected by an order of the Commission may petition for a hearing on the reasonableness and lawfulness of an order issued under A.R.S. §§ 23-411 or 23-412, by a verified petition filed with the Commission.
- B.** Contents of a petition. A request for a hearing filed pursuant to subsection (A) of this Section shall include:
 - 1. The name and address of the applicant;
 - 2. A concise statement of facts showing how the employer, employee, authorized employee representative, representative, or other person would be affected by the relief applied for;
 - 3. A petition shall set forth specifically and in detail the order upon which a hearing is desired;
 - 4. The reasons why the order is unreasonable or unlawful;
 - 5. The issue to be considered by the Commission on the hearing. Objections other than those set forth in the petition are deemed finally waived.
 - 6. If the applicant is an employer, a certification that the applicant has informed his affected employees of the application by:
 - a. Giving a copy thereof to their authorized representative;
 - b. Posting at the place or places where notices to employees are normally posted, a statement giving a summary of the petition specifying where a copy of

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

the full petition may be examined (or, in lieu of the summary, posting the application itself); and

c. Other appropriate means.

7. If the applicant is an affected employee, a certification that a copy of the petition has been furnished to the employer.

C. The Commission may on its own motion proceed to modify or revoke a rule or order issued under A.R.S. §§ 23-411 or 23-412 of the Act. In such event, the Commission shall cause to be published in statewide newspapers a notice of its intention, affording interested persons an opportunity to submit written data, views, or arguments regarding the proposal and informing the affected employer and employees of their right to request a hearing and shall take such other action as may be appropriate to give actual notice to the affected employees. Any request for a hearing shall include a short and plain statement of:

1. How the proposed modification or revocation would affect the requesting party; and
2. What the requesting party would seek to show on the subjects or issues involved.

Historical Note

Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-661 adopted as an emergency effective October 29, 1980, renumbered and adopted as Section R4-13-659 effective March 2, 1981 (Supp. 81-2). R20-5-659 recodified from R4-13-659 (Supp. 95-1).

R20-5-660. Consolidation of Proceedings

The Commission on its own motion or that of any party may consolidate or contemporaneously consider two or more proceedings which involve the same or closely related issues.

Historical Note

Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-662 adopted as an emergency effective October 29, 1980, renumbered and adopted as Section R4-13-660 effective March 2, 1981 (Supp. 81-2). R20-5-660 recodified from R4-13-660 (Supp. 95-1).

R20-5-661. Notice of Hearing

- A. Service. Upon request for a hearing as provided in this Section, or upon its own initiative, the Commission shall serve, or cause to be served, a reasonable notice of hearing.
- B. Contents. A notice of hearing served under subsection (A) of this Section shall include:
 1. The time, place, and nature of the hearing;
 2. The legal authority under which the hearing is to be held;
 3. A specification of issues of fact and law.

Historical Note

Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-663 adopted as an emergency effective October 29, 1980, renumbered and adopted as Section R4-13-661 effective March 2, 1981 (Supp. 81-2). R20-5-661 recodified from R4-13-661 (Supp. 95-1).

R20-5-662. Manner of Service

Service of any document upon any party may be made by personal delivery of, or by mailing, a copy of the document to the last known address of the party. The person serving the document shall certify to the manner and the date of the service.

Historical Note

Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-664 adopted as an emergency effective October 29, 1980, renumbered and adopted as Section R4-13-662 effective March 2, 1981 (Supp. 81-2). R20-5-662 recodified from R4-13-662 (Supp. 95-1).

R20-5-663. Industrial Commission; Powers and Duties

- A. Powers. The Commissioners shall have all powers necessary or appropriate to conduct a fair, full, and impartial hearing, including the following:
 1. To administer oaths and affirmations;
 2. To rule upon offers of proof and receive relevant evidence;
 3. To provide for discovery and to determine its scope;
 4. To regulate the course of the hearing and the conduct of the parties and their counsel therein;
 5. To consider and rule upon procedural requests;
 6. To hold conferences for the settlement or simplification of the issues by consent of the parties;
 7. To make, or to cause to be made, an inspection of the employment or place of employment involved;
 8. To make decisions in accordance with A.R.S. §§ 23-405.5, 23-411, 23-412, and 23-945; and
 9. To take any other appropriate action authorized by the Act, this Section, or A.R.S. § 23-945.
- B. Contumacious conduct; failure or refusal to appear or obey the rulings of the Commission.
 1. Contumacious conduct at any hearing before the Commission shall be grounds for exclusion from the hearing.
 2. If a witness or a party refuses to answer a question after being directed to do so, or refuses to obey an order to provide or permit discovery, the Commission may make such orders with regard to the refusal as are just and appropriate, including an order denying an application of an applicant or regulating the contents of the record of the hearing.
- C. Referral to Rules of Procedure for Occupational Safety and Health hearings. On any procedural question not regulated by this Section, the Act, or A.R.S. § 23-945, Commission shall be guided to the extent practicable by any pertinent provisions of the Rules of Procedure for Occupational Safety and Health hearings before the Industrial Commission of Arizona.

Historical Note

Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-665 adopted as an emergency effective October 29, 1980, renumbered and adopted as Section R4-13-663 effective March 2, 1981 (Supp. 81-2). R20-5-663 recodified from R4-13-663 (Supp. 95-1).

R20-5-664. Prehearing Conferences

- A. Convening a conference. Upon its own motion or the motion of a party, the Commission may direct the parties or their counsel to meet with them for a conference to consider:
 1. Simplification of the issues;
 2. Necessity or desirability of amendments to documents for purposes of clarification, simplification, or limitation;
 3. Stipulations, admissions of fact, and of contents and authenticity of documents;
 4. Limitation of the number of parties and of expert witnesses; and

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

5. Such other matters as may tend to expedite the disposition of the proceeding and to assure a just conclusion thereof.
- B.** Record of conference. The Commission shall make an order which recites the action taken at the conference, the amendments allowed to any documents which have been filed, and the agreements made between the parties as to any of the matters considered, and which limits the issues for hearings to those not disposed of by admission or agreements; and such order when entered controls the subsequent course of the hearing, unless modified at the hearing, to prevent manifest injustice.

Historical Note

Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-666 adopted as an emergency effective October 29, 1980, renumbered and adopted as Section R4-13-664 effective March 2, 1981 (Supp. 81-2). R20-5-664 recodified from R4-13-664 (Supp. 95-1).

R20-5-665. Consent Findings and Rules or Orders

- A.** General. At any time before the reception of evidence in any hearing, or during any hearing, a reasonable opportunity may be afforded to permit the negotiation by the parties of an agreement containing consent findings and a rule or order disposing of the whole or any part of the proceeding. The allowance of such opportunity and the duration thereof shall be in the discretion of the Commission. After consideration of the nature of the proceeding, the requirements of the public interest, the representations of the parties, and the probability of an agreement which will result in a just disposition of the issues involved.
- B.** Contents. Any agreement containing consent findings in rule or other disposing of a proceeding shall also provide:
1. That the rule or order shall have the same force and effect as if made after a full hearing;
 2. That the entire record on which any rule or order may be based shall consist solely of the application and the agreement;
 3. A waiver of any further procedural steps before the Commission; and
 4. A waiver of any right to challenge or contest the validity of the findings and of the rule or order made in accordance with the agreement.
- C.** Submission. On or before the expiration of the time granted for negotiations, the parties or their counsel may:
1. Submit the proposed agreement to the Commission for its consideration; or
 2. Inform the Commission that agreement cannot be reached.
- D.** In the event an agreement containing consent findings and rule or order is submitted within the time allowed therefor, the Commission may accept such agreement by issuing its decision based upon the agreed findings.

Historical Note

Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-667 adopted as an emergency effective October 29, 1980, renumbered and adopted as Section R4-13-665 effective March 2, 1981 (Supp. 81-2). R20-5-665 recodified from R4-13-665 (Supp. 95-1).

R20-5-666. Discovery**A. Depositions**

1. For reasons of unavailability or for other good cause shown, the testimony of any witness may be taken by deposition. Depositions may be taken orally or upon written interrogatories before any person designated by the Commission and having power to administer oaths.
 2. Application. Any party desiring to take the deposition of a witness may make application in writing to the Commission, setting forth:
 - a. The reasons why such deposition should be taken;
 - b. The time when, the place where, and the name and post office address of the person before whom the deposition is to be taken;
 - c. The name and address of each witness; and
 - d. The subject matter concerning which each witness is expected to testify.
 3. Notice. Such notice as the Commission may order shall be given by the party taking the deposition to every other party.
 4. Taking and receiving in evidence. Each witness testifying upon deposition shall be sworn, and the parties not calling him shall have the right to cross-examine him. The questions propounded and the answers thereto, together with all objections made, shall be reduced to writing, read to the witness, subscribed by him, and certified by the officer before whom the deposition is taken. Thereafter, the officer shall seal the deposition, with two copies thereof, in an envelope and mail the same by registered mail to the presiding hearing examiner. Subject to such objections to the questions and answers as were noted at the time of taking the deposition and would be valid were the witness personally present and testifying, such deposition may be read and offered in evidence by the party taking it as against any party who was present, represented at the taking of the deposition, or who had due notice thereof. No part of a deposition shall be admitted in evidence unless there is a showing that the reasons for the taking of the deposition in the first instance exist at the time of the hearing.
- B.** Other discovery. Whenever appropriate to a just disposition of any issue in a hearing, the Commission may allow discovery by any other appropriate procedure, such as by written interrogatories upon a party, production of documents by a party, or by entry for inspection of the employment or place of employment involved.

Historical Note

Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-668 adopted as an emergency effective October 29, 1980, renumbered and adopted as Section R4-13-666 effective March 2, 1981 (Supp. 81-2). R20-5-666 recodified from R4-13-666 (Supp. 95-1).

R20-5-667. Hearings

- A.** Order of proceeding. Except as may be ordered otherwise by the Commission, the party applicant for relief shall proceed first at a hearing.
- B.** Burden of proof. The party applicant shall have the burden of proof.
- C.** Evidence
1. Admissibility. A party shall be entitled to present its case or defense by oral or documentary evidence, to submit rebuttal evidence, and to conduct such cross-examination as may be required for a full and true disclosure of the facts. Any oral or documentary evidence may be

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

received, but the Commission shall exclude evidence which is irrelevant, immaterial, or unduly repetitious.

2. Testimony of witnesses. The testimony of a witness shall be upon oath or affirmation administered by the Commission.

- D. Official notice. Official notice may be taken of any material fact not appearing in evidence in the record, which is among the traditional matters of judicial notice: provided that the parties shall be given adequate notice, at the hearing or by reference in the Commission's decision, of the matters so noticed and shall be given adequate opportunity to show the contrary.
- E. Record. Minutes shall be taken of the Commission hearings. Copies of the minutes may be obtained by the parties upon written application filed with the secretary of the Commission and upon the payment of fees at the rate provided in the agreement with the Commission.

Historical Note

Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-669 adopted as an emergency effective October 29, 1980, renumbered and adopted as Section R4-13-667 effective March 2, 1981 (Supp. 81-2). R20-5-667 recodified from R4-13-667 (Supp. 95-1).

R20-5-668. Decisions of the Commission

- A. Proposed findings of fact, conclusions, and rules or orders. Within 10 days after completion of the hearing or such additional time as the Commission may allow, each party may file with the Commission proposed findings of fact, conclusions of law, and rule or order, together with a supporting brief expressing the reasons for such proposals. Such proposals and brief shall be served on all other parties and shall refer to all portions of the record and to all authorities relied upon in support of each proposal.
- B. Decisions of the Commission. Within a reasonable time after the time allowed for the filing of proposed findings of fact, conclusions of law, and rule or order, the Commission shall make and serve upon each party its decision, which shall become final upon the 30th day after service thereof, unless exceptions are filed thereto, as provided in rule R20-5-669. The decision of the Commission shall include:
 1. A statement of findings and conclusions, with reasons and basis therefor, upon each material issue of fact, law, or discretion presented on the record, and
 2. The appropriate rule, order, relief, or denial thereof. The decision of the hearing examiner shall be based upon a consideration of the whole record and shall state all facts officially notice and relied upon. It shall be made on the basis of a preponderance of reliable and probative evidence.

Historical Note

Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-670 adopted as an emergency effective October 29, 1980, renumbered and adopted as Section R4-13-668 effective March 2, 1981 (Supp. 81-2). R20-5-668 recodified from R4-13-668 (Supp. 95-1).

R20-5-669. Judicial Review

Any employer, employee, authorized employee representative, representative, or any person in interest is dissatisfied with an order of the Commission may appeal in accordance with A.R.S. § 23-413 of the Act.

Historical Note

Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Former Section R4-13-674 adopted as an emergency effective October 29, 1980, renumbered and adopted as Section R4-13-670 effective March 2, 1980 (Supp. 81-2). R20-5-669 recodified from R4-13-669 (Supp. 95-1).

R20-5-670. Field Sanitation

- A. This Section applies to any agricultural establishment where a crew of five or more employees are engaged on any given day in hand-labor operations in one location.
- B. As used in this Section:
 1. "Agricultural establishment" means a business operation that uses paid employees in the production of food, fiber or other material such as seed, seedlings, plants or parts of plants.
 2. "Crew of employees" means a group of persons who are employed to perform hand-labor operations as a unit at an agricultural establishment. "Crew of employees" does not include the employer and the employer's immediate family members.
 3. "Hand-labor operations" means agricultural activities or operations performed in the field by hand or with hand tools. Hand-labor operations include the hand-harvest of vegetables, nuts and fruits, hand-weeding of crops and hand-planting of seedlings. Hand-labor operations do not include such activities as logging operations, irrigation operations, the care or feeding of livestock or hand-labor operations in permanent structure, such as canning facilities or packing houses. Hand-labor operations do not include activities in which persons are acting as equipment operators.
 4. "Handwashing facility" means a facility providing either a basin, container or outlet with an adequate supply of potable water, soap and single-use towels.
 5. "Potable water" means water that meets the standards for drinking purposes prescribed by the state or local authority having jurisdiction or water that meets the quality standards prescribed by the United States Environmental Protection Agency's National Interim Primary Drinking Water Regulations, published in 40 CFR Part 141 (July 1983), incorporated by reference and on file in the Office of the Secretary of State.
 6. "Toilet facility" means a facility designed for the purpose of both defecation and urination, including biological or chemical toilets, combustion toilets or sanitary privies, which is supplied with toilet paper adequate for employee needs. Toilet facilities may be either fixed or portable.
- C. Employers shall provide the following for employees engaged in hand-labor operations at an agricultural establishment without cost to the employee:
 1. Potable drinking water as follows:
 - a. Potable water shall be provided and shall be placed in locations readily accessible to all employees.
 - b. The water shall be suitably cool, no more than 80°F, and in sufficient amounts, a minimum of two gallons per employee, taking into account the air temperature, humidity and the nature of the work performed, to meet employees' need.
 - c. The water shall be dispensed in single-use drinking cups or by fountains. The use of common drinking cups or dippers is prohibited.
 2. Toilet and handwashing facilities as follows:
 - a. One toilet facility and one handwashing facility shall be provided for each 40 employees or fraction

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

thereof, except as provided in subsection (D) of this Section.

- b. Toilet facilities shall have doors that can be closed and latched from the inside and shall be constructed to ensure privacy.
- c. Toilet and handwashing facilities shall be accessibly located, in close proximity to each other and within 1/4 mile of each employee's place of work in the field. If it is not feasible to locate facilities accessibly and within the required distance due to the terrain, facilities shall be located at the point of closest vehicular access.
- D. Toilet and handwashing facilities are not required for employees who perform field work for a period of three hours or less (including transportation time to and from the field) during the day.
- E. Potable drinking water and toilet and handwashing facilities shall be maintained in accordance with appropriate public health sanitation practices, including all of the following:
 - 1. Drinking water containers shall be covered, cleaned and refilled daily.
 - 2. Toilet facilities shall be operational and maintained in clean and sanitary condition and shall be supplied with toilet paper adequate for employee needs.
 - 3. Handwashing facilities shall be maintained in clean and sanitary condition.
 - 4. Disposal of wastes from facilities shall not cause unsanitary conditions.
- F. Employees shall be allowed reasonable opportunities during the workday to use the facilities.

Historical Note

Adopted as an emergency effective October 29, 1980, pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 80-5). Adopted effective May 2, 1986 (Supp. 86-3). R20-5-670 recodified from R4-13-670 (Supp. 95-1).

R20-5-679. Reserved

R20-5-680. Protected Activity

- A. All complaints pursuant to A.R.S. § 23-425 shall relate to conditions at the workplace. The filing of complaints need not be in writing for purposes of this subsection except that those complaints filed pursuant to R20-5-682 shall comply with R20-5-682. The term "filed any complaint" as used in A.R.S. § 23-425(A) includes:
 - 1. Employee requests for inspection pursuant to A.R.S. § 23-408(F);
 - 2. Complaints registered with other state, local or federal governmental agencies which have the authority to regu-

late or investigate occupational safety and health conditions;

- 3. Complaints lodged with employers; or
- 4. Complaints filed as specified in R20-5-682.
- B. The term "instituted or caused to be instituted any proceeding" as used in A.R.S. § 23-425(A) includes:
 - 1. Inspections of worksites under A.R.S. § 23-408(A);
 - 2. Employee contest of abatement date under A.R.S. § 23-417(D);
 - 3. Employee initiation of proceedings for promulgation of an occupational safety and health standard under A.R.S. § 23-410(A);
 - 4. Employee application for modification or revocation of a variance under A.R.S. § 23-413;
 - 5. Employee judicial challenge to a standard under A.R.S. § 23-410(E);
 - 6. Employee appeal of an Administrative Law Judge Division order under A.R.S. § 23-421(C);
 - 7. Exercise of rights by any employee pursuant to A.R.S. § 23-418.01;
 - 8. Any other employee action authorized by the Arizona Occupational Safety and Health Act of 1972; or
 - 9. Setting into motion the activities of others which result in the proceedings specified in subsections (B)(1) through (8).
- C. The term "testified or is about to testify in any such proceeding" as used in A.R.S. § 23-425(A) includes:
 - 1. Testimony in proceedings instituted or caused to be instituted by the employee; or
 - 2. Any statements given in the course of judicial, quasi-judicial or administrative proceedings. For this purpose, administrative proceedings include inspections, investigations and administrative rulemaking or adjudicative functions.
- D. The term "the exercise by such employee on behalf of himself or others of any right afforded by this Article" as used in A.R.S. § 23-425(A) includes:
 - 1. The right to participate as a party in enforcement proceedings pursuant to A.R.S. § 23-408(D);
 - 2. The right to request information from the Industrial Commission; or
 - 3. To cooperate with inspections or investigations by the Industrial Commission.
- E. If the employee, with no reasonable alternative, refuses in good faith to expose himself to a dangerous condition, the employee is engaged in protected activity. The condition causing the employee's apprehension of death or injury must be of such a nature that a reasonable person, under the circumstances then confronting the employee, would conclude there is a real danger of death or serious injury and that there is insufficient time, due to the urgency of the situation, to eliminate the dangers through resort to regular statutory enforcement channels. In addition, in such circumstances, the employee, where possible, must also have sought from his employer and been unable to obtain a correction of the dangerous condition.
- F. Employees who refuse to comply with valid occupational safety and health standards or valid safety rules implemented by the employer are not protected by A.R.S. § 23-425.

Historical Note

Adopted effective May 3, 1989 (Supp. 89-2). R20-5-680 recodified from R4-13-680 (Supp. 95-1).

R20-5-681. Elements of a Violation of A.R.S. § 23-425

To establish a violation of A.R.S. § 23-425(A), the employee shall prove all of the following:

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

1. The employee was engaged in protected activities as defined in R20-5-680.
2. The employer had knowledge of the employee's protected activities prior to the adverse action which the employee claims to be a discharge or discrimination.
3. The action claimed to be discharge or discrimination was adverse to the employee.
4. The protected activity was a substantial reason for the alleged discharge or discrimination or the alleged discharge or discrimination would not have taken place but for the employee's engagement in the protected activity.

Historical Note

Adopted effective May 3, 1989 (Supp. 89-2). R20-5-681
recodified from R4-13-681 (Supp. 95-1).

R20-5-682. Procedure

- A. A complaint of A.R.S. § 23-425(A) discharge or discrimination shall be filed with the Division of Occupational Safety and Health by the employee or by a representative authorized by A.R.S. § 23-408(F) to do so on the employee's behalf. The complaint shall be written and shall be signed by the person filing the complaint.
- B. The date of filing a complaint under A.R.S. § 23-425(B) is the date of receipt of the complaint by the Division.
- C. The Division may accept or deny an employee's withdrawal of a complaint. The Industrial Commission's investigatory jurisdiction shall not be foreclosed by unilateral action of the employee.
- D. The Industrial Commission may resolve an A.R.S. § 23-425 complaint with the employer without the consent of the employee.
- E. The Industrial Commission's jurisdiction to investigate and determine A.R.S. § 23-425 complaints is independent of the jurisdiction of other agencies or bodies. The Industrial Commission may defer to the results of other such proceedings where:
 1. The rights asserted in those other proceedings are substantially the same as the rights pursuant to A.R.S. § 23-425;
 2. The factual issues in such proceedings are substantially the same as the factual issues before the Industrial Commission;
 3. The proceedings were fair and regular; and
 4. The outcome of the proceedings was not inconsistent with the purposes of this Chapter and the Act.
- F. A determination pursuant to A.R.S. § 23-425(C) includes:
 1. A decision to not proceed with the case;
 2. To defer the case to another forum; or
 3. To proceed to litigation in Superior Court.

Historical Note

Adopted effective May 3, 1989 (Supp. 89-2). R20-5-682
recodified from R4-13-682 (Supp. 95-1).

**ARTICLE 7. SELF-INSURANCE REQUIREMENTS FOR
WORKERS' COMPENSATION POOLS ORGANIZED
UNDER A.R.S. § 23-961.01**

R20-5-701. Definitions

In addition to the definitions provided in A.R.S. § 23-901, the following definitions apply to this Article:

"Administrator" means an individual or organization chosen by a board to manage the daily operations of a pool.

"Applicant" means a worker compensation pool organized under A.R.S. § 23-961.01 that has filed an initial application for authority to self-insure.

"Board of trustees" or "board" means a body of individuals that manage all operations of a worker compensation pool.

"Cash flow ratio" means a numerical relationship that reflects an ability to meet current financial obligations out of cash flow and is calculated by dividing funds received from operations of a business by current liabilities.

"Certificate of authority" means a document issued by the Commission granting a pool authority to be self-insured for purposes of workers' compensation.

"Claim" means a worker compensation claim.

"Code classification" means a number assigned by an approved rating organization that classifies employees.

"Current ratio" means a numerical relationship that reflects an ability to pay current obligations and is calculated by dividing current assets by current liabilities.

"Debt status ratio" means a numerical relationship that reflects the proportion of funds supplied internally relative to the funds supplied by creditors and is calculated by dividing net worth by total liabilities.

"Division" means the Administration Division of the Industrial Commission of Arizona.

"Excess insurance carrier" means an insurance carrier authorized by the Arizona Department of Insurance to issue policies of excess insurance coverage and casualty insurance coverage to a self-insured.

"Experience modification rate" means a ratio comparing actual losses to expected losses based on a formula determined by an approved rating organization and which includes three years of loss information.

"Financial rating organization" means a nationally recognized organization such as Standard & Poor's or Moody's that evaluates and rates securities.

"Fiscal year" means a 12 month cycle that begins from the effective date of authority to self-insure.

"Loss fund" means an account from which money is used to pay all workers' compensation expenses including current and contingent liabilities of a worker's compensation claim of a pool.

"Member" means an employer described in A.R.S. § 23-961.01 that has joined with other employers to form a pool.

"Pool" means a workers' compensation group organized under A.R.S. § 23-961.01.

"Profitability ratio" means a numerical relationship that represents the return on assets and the efficiency of assets and is calculated by dividing profit before taxes by total assets, multiplied by 100.

"Quick ratio" means a numerical relationship that represents the degree to which liabilities are covered by the most liquid current assets and is calculated by dividing cash and equivalents, plus trade receivables, by current liabilities.

"Rate" means an assignment of a code classification based on risk as established by a rating organization and approved by the Arizona Department of Insurance.

"Rating organization" means an entity that meets the requirements of A.R.S. § 20-363(F) and is approved by the Arizona Department of Insurance to establish rates, codes, and formulas used to calculate worker compensation premiums.

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

“Service company” means an entity or organization that is contracted by a pool to receive, process, and pay workers’ compensation claims for a pool.

“Trustee fund” means an account into which premiums, investment proceeds, and other revenues are deposited and are used to cover all administrative or operational expenses of a pool.

“Working capital ratio” means a numerical relationship that measures the sufficiency of working capital to support sales and is calculated by dividing working capital by sales.

Historical Note

Adopted effective September 9, 1998 (Supp. 98-3).

R20-5-702. Computation of Time

- A. In computing any period of time prescribed or allowed by this Article, the Commission shall not include the day of the act or event from which the period of time begins to run. The Commission shall include the last day of the period computed unless it is a Saturday, Sunday, or legal holiday in which event the period shall run until the end of the next day that is not a Saturday, Sunday, or legal holiday. When the period of time prescribed or allowed is less than 11 days, the Commission shall exclude intermediate Saturdays, Sundays, and legal holidays in the computation of time.
- B. Except as otherwise provided by law, the Commission may extend time limits prescribed by this Article for good cause.

Historical Note

Adopted effective September 9, 1998 (Supp. 98-3).

R20-5-703. Forms Prescribed by the Commission

The following forms are available upon request from the Commission and contain requests for the information listed in each subsection.

1. Initial Application for Authority to Self-insure:
 - a. Name of the pool;
 - b. Address and telephone number of the pool’s principal office;
 - c. Effective date of formation of the pool;
 - d. Name and address of each member of the pool;
 - e. Two digit standard industrial classification code for each member of the pool;
 - f. Name and address of the industry or trade association, or professional organization to which members of the pool belong;
 - g. Effective date of formation of the industry or trade association, or professional organization to which members of the pool belong;
 - h. Type of business in which members are engaged and length of time in business for each member;
 - i. Explanation of how businesses of members are the same or similar;
 - j. Amount of workers’ compensation insurance premiums paid by each member in the preceding year;
 - k. Names and addresses of the board of trustees;
 - l. Name, address, and telephone number of the administrator appointed by the board of trustees;
 - m. Name, address, and telephone number of the service company, if applicable;
 - n. Names, titles, addresses, and telephone numbers of the persons in charge of the loss control and underwriting programs;
 - o. Premium tax plan selection;
 - p. Authorized signature and title of person signing initial application;
2. Renewal Application:
 - a. Name of the pool;
 - b. Address and telephone number of the pool’s principal office;
 - c. Name and address of each member of the pool and the effective date of membership;
 - d. Renewal date of the pool;
 - e. Effective date of initial authority to self-insure;
 - f. Total number of member employees covered by the pool;
 - g. Total payroll of the pool for the last fiscal year;
 - h. Name, address, and telephone number of the administrator;
 - i. Name, address, and telephone number of the service company, if applicable;
 - j. Name, address, and telephone number of the excess insurance carrier;
 - k. Name and address of the companies providing guaranty bond and fidelity policy;
 - l. Name and address of individuals serving on the board of trustees;
 - m. Names, titles, addresses, and telephone numbers of persons in charge of loss control and underwriting programs;
 - n. Authorized signature and title of person signing renewal application;
 - o. Statement that all information and assertions contained in the renewal application and the documents accompanying the renewal application are factually correct and true; and
 - p. Date of execution of the renewal application.
3. Self-Insurance Guaranty Bond Form:
 - a. Pool identification;
 - b. Names of fidelity and surety insurance companies;
 - c. Description of the bond, including the amount and conditions of the bond obligations and liability of surety;
 - d. Statement regarding the responsibility for fees and costs associated with the collection of the bond and the responsibility for payment of any award or judgment against the surety;
 - e. Authorized signatures and titles by pool, surety, and agent; and
 - f. Date of execution of the guaranty bond form.
4. Option Election Form:
 - a. Calculation and selection of type of guaranty bond and securities;
 - b. Description of incurred liability and anticipated future liability (compensation and medical) on all open cases for the preceding four years and the current year;
 - c. Authorized signature and title of person signing option election form;
 - d. Statement that all information and assertions contained in the form are factually correct and true; and
 - e. Date of execution of the option election form.
5. Self-insured Payroll Report:
 - a. Description of the cumulative payroll for all members of the pool (classification codes, methods and types of pay);
 - b. Amount paid in the preceding calendar year;

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

- c. Authorized signature and title of person signing self-insured payroll report;
- d. Statement that all information and assertions contained in the report are factually correct and true; and
- e. Date of execution of self-insured payroll report.
6. Self-insured Medical Report:
 - a. Description of costs relating to industrial injuries;
 - b. Reinsurance premiums paid;
 - c. Total expenditures for workers' compensation and occupational disease claims;
 - d. Authorized signature and title of person signing self-insured medical report;
 - e. Statement that all information and assertions contained in the report are factually correct and true; and
 - f. Date of execution of the self-insured medical report.
7. Self-insured Injury Report:
 - a. Description of specific information for the current year and three preceding years for each injury requiring payment in excess of \$5000 which includes accumulated amount paid and reserved for each claim in excess of \$5,000;
 - b. Description of all injuries for the current year and three preceding years if individual injury required payment of less than \$5,000;
 - c. Authorized signature, title, and telephone number of person signing self-insured injury report;
 - d. Statement that all information and assertions contained in the report are factually correct and true; and
 - e. Date of execution of the self-insured injury report.
8. Quarterly Tax Payment Form:
 - a. Name and address of the pool;
 - b. Description and calculation of the quarterly tax and designation of the applicable quarter;
 - c. Amount of annual tax paid in the previous calendar year; amount of the quarterly tax paid adjusted for change in the tax rate;
 - d. Description and calculation of any penalty due;
 - e. Authorized signature, title and telephone number of person signing the quarterly tax payment form;
 - f. Statement that all information and assertions contained in the form are factually correct and true; and
 - g. Date of execution of the quarterly tax payment form.
9. Application to Add a Member to Self-insured Pool:
 - a. Name of the pool and name of the member to be added to the pool, including if applicable, addresses, corporation, subsidiary, partnership, and trust information;
 - b. Nature and years in business of the member to be added;
 - c. History of business in Arizona and elsewhere for the member to be added;
 - d. Payroll data for each member to be added;
 - e. Work force data for each member to be added;
 - f. Financial data for each member to be added;
 - g. Insurance data for each member to be added;
 - h. Two digit standard industrial classification code for each member of the pool;
 - i. Workers' compensation claims, loss and performance history for the member to be added;
 - j. Authorization by board resolution approving addition of each new member;
 - k. Authorized signature and title of person signing application;
 - l. Statement that all information and assertions contained in the application are factually correct and true; and
 - m. Date of execution of the application.
10. Notice Confirming Addition of Member to Pool:
 - a. Name of the pool;
 - b. Name and address of the new member;
 - c. Effective date of membership;
 - d. Rate and code classification to be applied to new member;
 - e. Standard industrial classification code for new member;
 - f. Authorized signature and title of person signing notice;
 - g. Statement that all information and assertions contained in the notice are factually correct and true; and
 - h. Date of execution of the notice.
11. Notice of Termination of Membership:
 - a. Name and address of pool;
 - b. Effective date of termination;
 - c. Name and address of the member to be terminated, identified as follows:
 - i. All names and addresses of every location used by the member;
 - ii. If the member is a partnership, the names and addresses of all the partners;
 - iii. If the member is a corporation doing business under a number of divisions, the notice shall state the names of all the divisions of the corporation; and
 - iv. If a member changes names, both the new and former names.
 - d. Authorized signature, title and telephone number of person signing notice;
 - e. Statement that all information and assertions contained in the notice are factually correct and true; and
 - f. Date of execution of the notice.

Historical Note

Adopted effective September 9, 1998 (Supp. 98-3).

R20-5-704. Requirement for Commission Approval to Act as Self-insurer

A pool does not have authority to act as a self-insurer under A.R.S. §§ 23-961 and 23-961.01 unless the pool receives and maintains a certificate of authority from the Commission.

Historical Note

Adopted effective September 9, 1998 (Supp. 98-3).

R20-5-705. Duration of Certificate of Authority

Except as provided in this subsection, a certificate of authority is valid for one fiscal year. The Commission may renew the certificate on an annual basis upon application by a pool. If a pool timely files a complete renewal application under this Article, the Commission shall consider the existing certificate of authority valid, subject to compliance with A.R.S. § 23-901 et seq. and this Article, until a new certificate of authority is issued or an order of the Commission denying a renewal application becomes final.

Historical Note

Adopted effective September 9, 1998 (Supp. 98-3).

R20-5-706. Time-frames for Processing Initial and Renewal Application for Authority to Self-insure

A. Administrative completeness review.

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

1. Initial application. The Division shall review an initial application for authority to self-insure within 20 days of receipt of the application to determine if the application contains the information required by A.R.S. § 23-961.01 and this Article. The Division shall inform an applicant by written notice whether the application is complete or is deficient within the time-frame provided in this subsection. If the application is incomplete, the Division shall include in its written notice to the applicant a complete list of the missing information. The Division shall deem the application withdrawn if an applicant fails to file a complete application within 45 days of being notified by the Division that its application is incomplete or deficient.
 2. Renewal application. The Division shall review a renewal application for authority to self-insure within 20 days of receipt of the application to determine if the application contains the information required by A.R.S. § 23-961.01 and this Article. The Division shall inform a pool by written notice whether the application is complete or is deficient within the time-frame provided in this subsection. If the renewal application is incomplete, the Division shall include in its written notice to the pool a complete list of the missing information. The Division shall deem the application withdrawn if a pool fails to file a complete application within 45 days of being notified by the Division that its application is incomplete or deficient, except that failure to file the financial and actuarial reports required under R20-5-708(C) shall not cause the Division to deem the application withdrawn if a pool files the financial and actuarial reports with the Division within 120 days after the end of the pool's fiscal year.
- B. Substantive review.**
1. Initial application. Within 70 days after the Division deems an initial application complete, the Commission shall determine whether an initial application for authority to self-insure meets the substantive criteria of A.R.S. § 23-961.01 and this Article and shall issue an order granting or denying authority to self-insure.
 2. Renewal application. Within 40 days after the Division deems a renewal application complete, the Commission shall determine whether a renewal application for authority to self-insure meets the substantive criteria of A.R.S. § 23-961.01 and this Article and shall issue an order granting or denying authority to self-insure.
- C. Overall review.**
1. Initial application. The overall review period shall be 90 days, unless extended under A.R.S. § 41-1072 et seq.
 2. Renewal application. The overall review period shall be 60 days, unless extended under A.R.S. § 41-1072 et seq.
- Historical Note**
Adopted effective September 9, 1998 (Supp. 98-3).
- R20-5-707. Filing Requirements for Initial Application for Self-Insurance License**
- A. Initial application for authorization to self-insure.**
1. An application for authority to self-insure shall be completed on forms approved by the Commission.
 2. An application for authority to self-insure shall be filed with the Division. An application is considered filed when it is received at the office of the Division.
 3. An application shall be typewritten or written in ink in legible text.
 4. The administrator of a pool shall sign the application. The signature of the administrator shall be notarized.
 5. The administrator shall verify, in writing, that the information contained in and submitted with the application is true and correct.
- B. The Commission shall deem an initial application for authority to self-insure complete if an applicant provides the following information with the initial application:**
1. A copy of the contract required under A.R.S. § 23-961.01 establishing the pool;
 2. A copy of the articles of incorporation establishing the pool, if applicable;
 3. A copy of the trust agreement establishing the pool, if applicable;
 4. A copy of the by-laws governing the operations of the pool;
 5. An original, signed application to join the pool from every employer receiving approval from the board to join the pool;
 6. A resolution from the board approving employers for membership in the pool;
 7. A certified copy of an audited financial statement or an internally reviewed and signed financial statement for each employer applying for membership in the pool for the most current and prior two years that, considered collectively, demonstrate that the combined net worth of the employers applying for membership at the time of the initial application is not less than \$1,000,000;
 8. A copy of the following financial ratios for each employer applying for membership in the pool:
 - a. Cash flow ratio;
 - b. Current ratio;
 - c. Debt status ratio;
 - d. Profitability ratio;
 - e. Quick ratio; and
 - f. Working capital ratio.
 9. A detailed description of the loss control program required under R20-5-727, including a description of training programs and safety requirements implemented or to be implemented;
 10. A written statement from each member with an experience modification rate greater than 1.10 describing the causes of the member's experience modification rate and outlining remedial measures the member has taken and will take to lower the member's experience modification rate;
 11. An original, signed fidelity policy, or a certified copy, that meets the requirements of R20-5-712, or written confirmation from an authorized insurance company that it will provide fidelity coverage to the applicant as required under R20-5-712 which coverage is effective on the date the applicant is approved by the Industrial Commission to begin self-insurance;
 12. An original, signed guaranty bond, securities, or letter of credit that meets the requirements of R20-5-713 or any of the following:
 - a. Written confirmation from an authorized insurance company that it will provide a guaranty bond to the applicant as required under R20-5-713 which shall be deposited with the Industrial Commission before approval for self-insurance is effective,
 - b. Written confirmation from a financial institution that it will provide a letter of credit to the applicant as required under R20-5-713 which is effective when approval for self-insurance is effective, or
 - c. Written confirmation from a pool that it will obtain securities as required under R20-5-713 which shall

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

- be deposited with the Arizona State Treasurer before approval for self-insurance is effective.
13. A completed and signed Option Election Form and Self-Insurance Bond Form;
 14. A copy of excess insurance policies issued by an authorized carrier that meet the requirements of R20-5-715 or written confirmation from an authorized insurance company that it will provide excess insurance coverage to the applicant as required under R20-5-715. The excess coverage shall be effective on the date the applicant is approved by the Industrial Commission to begin self-insurance;
 15. A copy of the signed agreement or contract of hire between a board and the administrator of the pool;
 16. A designation of a service company and a copy of the signed agreement between the service company and pool that meet the requirements of R20-5-725 or a written statement with supporting documentation required under R20-5-726 requesting authorization to process claims in-house;
 17. A list of all rates by code classification to be used by the pool to calculate premiums;
 18. A statement showing how premiums shall be calculated for members;
 19. A detailed description of the underwriting program required under R20-5-727;
 20. A feasibility study by a member of the American Academy of Actuaries (MAAA) or a Fellow of the Casualty Actuarial Society (FCAS) that documents the rate structure needed to set premium levels to cover potential losses and expenses of the pool; and
 21. A schedule showing net workers' compensation premiums paid, total losses incurred, and experience modification rates for the three preceding years for each employer applying for membership in the pool.
2. A continuation certificate for the guaranty bond or letter of credit signed by an authorized representative of the surety or bank in an amount equal to the amount set forth in the updated Option Election Form and that meets the requirements of R20-5-713;
 3. A confirmation of excess insurance policies issued by an authorized carrier that meet the requirements of R20-5-715;
 4. A copy of a signed service contract that meets the requirements of R20-5-725 designating an approved service company or a written statement with supporting documentation required under R20-5-726 requesting authorization to process claims in-house;
 5. A continuation certificate for the fidelity policy that meets the requirements of R20-5-712;
 6. A statement of any change made in the rates and code classifications utilized by the pool to calculate workers' compensation premiums;
 7. A statement of any change in the calculation method of a premium for each member;
 8. A statement describing the expenses paid from the trustee fund and the loss fund expressed in a dollar amount and as a percentage of the total premiums collected by the pool in the preceding fiscal year;
 9. A copy of the current contract or agreement of hire between the pool and administrator; and
 10. A copy of the current delegation agreement between the board of trustees and administrator, if applicable, under R20-5-719(C).
- D.** No later than 120 days after the end of a pool's fiscal year, the pool shall file with the Division a copy of the pool's most recent audited annual financial statements and a copy of the pool's most recent actuarial review of:
1. Losses and reserves for all known claims, and
 2. Reserves for incurred but not reported claims.
- E.** The Commission shall deem a renewal application complete when a pool provides the information required under subsections (C) and (D).
- F.** If a pool does not file a renewal application, each member of the pool shall provide the Commission proof of compliance with A.R.S. § 23-961(A) no later than 10 days after the pool's certificate of authority expires.
- G.** If a pool's renewal application is deemed withdrawn under this Section, each member of the pool shall provide proof of compliance with A.R.S. § 23-961(A) no later than 10 days after the date the Commission deems the application withdrawn.

Historical Note

Adopted effective September 9, 1998 (Supp. 98-3).

R20-5-708. Filing Requirements for Renewal Application for Self-Insurance License

- A.** A self-insured pool seeking renewal of an authority to self-insure for workers' compensation insurance shall file a renewal application 30 days before the existing certificate of authority expires. A pool shall maintain all bonds, policies, and contracts required under this Article while a renewal application is pending before the Commission. The Commission shall deem a renewal application withdrawn if a pool fails to maintain all bonds, policies, and contracts required under this Article.
- B.** A renewal application shall meet the following requirements:
1. An application for renewal of authority to self-insure shall be completed on a form approved by the Commission;
 2. An application for renewal of authority to self-insure shall be filed with the Division. An application is considered filed when it is received at the office of the Division;
 3. An application shall be typewritten or written in ink in legible text;
 4. The administrator of a pool shall sign the application. The signature of the administrator shall be notarized; and
 5. The administrator shall verify, in writing, that the information contained in and submitted with the application is true and correct.
- C.** A self-insured pool shall provide the following information at the time the pool files a renewal application:
1. An updated, completed and signed Option Election Form;

Historical Note

Adopted effective September 9, 1998 (Supp. 98-3).

R20-5-709. Combined Net Worth

A pool shall ensure that the combined net worth of its members is at least \$1 million at the time the pool files an initial application for authority to self-insure.

Historical Note

Adopted effective September 9, 1998 (Supp. 98-3).

R20-5-710. Similar Industry Requirement

The Commission shall consider the following in determining whether two or more employers meet the similar industry requirement of A.R.S. § 23-961.01:

1. Two digit standard industrial classification code established by the 1987 Standard Industrial Classification Manual assigned to an employer applying for membership in the pool; and
2. Other information describing or concerning the business of an employer applying for membership in the pool. The

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

Commission may solicit additional written or oral information from a pool or others to assist the Commission in determining whether two or more employers are engaged in a similar industry.

Historical Note

Adopted effective September 9, 1998 (Supp. 98-3).

R20-5-711. Joint and Several Liability of Members

- A. The joint and several liability provision described under A.R.S. § 23-961.01(E) shall include the following meaning:
1. Liability of members. Each member is liable for its own workers' compensation claims or losses incurred during the member's period of membership in the pool to the extent that the pool does not pay the claims or losses. A member's liability for its own claims or losses continues for the life of the claims and continues notwithstanding the pool's inability to process or pay the member's claims or losses. Failure of the pool to comply with the provisions of the Arizona Workers' Compensation Act relating to payment and processing of claims shall result in the assignment of the claims to the State Compensation Fund under A.R.S. § 23-966 and shall not relieve a member of liability for its own losses or claims. In the event that claims are assigned to the State Compensation Fund under A.R.S. § 23-966, the Industrial Commission shall have a right of reimbursement against the member for the amount paid by the State Compensation Fund for the member's own claims and losses, including costs, necessary expenses and reasonable attorney's fees, to the extent that such claims and losses are not covered by the pool's bonds or assets.
 2. Liability of a pool. The pool shall pay all claims for which each member incurs liability during each member's period of membership. The pool shall defend, in the name of and on behalf of any member, any action or other proceeding which may arise or be instituted against a member as a result of injury or death covered by the Arizona Workers' Compensation Act and accompanying rules. The pool shall pay all legal costs and all expenses incurred for investigation, negotiation or defense related to such action or proceeding. The pool shall also pay all judgments or awards, and all interest due and accruing after a judgment.
- B. The joint and several liability clause required under A.R.S. § 23-961.01 to be included in each agreement or contract to establish a pool shall include the language in subsection (A)(1) and (2).
- C. The joint and several liability clause required under A.R.S. § 23-961.01(E) applies to any agreement used to form a pool on a cooperative or contract basis, through a joint formation of a nonprofit corporation, or by the execution of a trust agreement.
- D. A pool shall ensure that all members read and agree, in writing, to the joint and several clause required under A.R.S. § 23-961.01 and described in subsection (A).
- E. Failure to comply with the requirements of A.R.S. § 23-961.01(E) and this Section is cause for revocation of authority to self-insure.

Historical Note

Adopted effective September 9, 1998 (Supp. 98-3).

R20-5-712. Fidelity Policy

- A. A pool shall obtain and maintain during all periods of self-insurance a fidelity policy to protect the pool from unlawful actions of the following:
1. Individuals appointed to the pool's board of trustees (individual and collective liability),

2. Administrator of the pool, and
3. Employees of the pool.

- B. The amount of the fidelity policy in subsection (A) shall be at least \$1 million. A pool may purchase a fidelity policy in excess of \$1 million if the pool determines that a policy in excess of \$1 million is necessary to protect members of the pool from damages resulting from misrepresentation or misuse of any monies or securities owned, controlled, or managed by the board, administrator, or employees of the pool.
- C. The pool shall provide the Commission proof of the fidelity policy as required under R20-5-707 and R20-5-708.

Historical Note

Adopted effective September 9, 1998 (Supp. 98-3).

R20-5-713. Guaranty Bond

- A. A pool shall obtain and maintain during all periods of self-insurance a guaranty bond equal to the greater of either:
1. 125% of the total outstanding accrued liability as reflected in the option election form described in subsection (B); or
 2. \$200,000.
- B. A pool shall complete and sign an option election form when an initial or renewal application is filed to determine the amount of the bond or securities required to cover the pool's losses. A pool shall ensure that the information contained in the option election form is in agreement with the data provided in the actuarial report. A guaranty bond or continuation certificate for the guaranty bond shall be in the amount established in the option election form.
- C. A guaranty bond or continuation certificate for the guaranty bond filed with the Commission shall bear the effective date of the certificate of authority under which the pool is authorized to self-insure. The guaranty bond or continuation certificate shall be valid for a period of one year, subject to annual renewal in the amount established in the Option Election Form filed with a renewal application.
- D. A guaranty bond or continuation certificate for the guaranty bond shall be issued by an insurance carrier authorized by the Arizona Department of Insurance to transact fidelity and surety insurance in Arizona. The guaranty bond and continuation certificate shall be executed by an authorized agent of a surety, as evidenced by a certified power of attorney, and countersigned by a licensed resident agent.
- E. Instead of posting a guaranty bond, a pool may either deposit with the Commission for transmittal to the Arizona State Treasurer, bonds of the United States or other securities. The amount of the bond or securities shall bear a face value equal to the requirements of subsections (A) and (B).
- F. Instead of posting a guaranty bond, a pool may obtain a letter of credit. The amount of the letter of credit shall be equal to the requirements of subsections (A) and (B).
- G. The Commission shall not accept certificates of deposit instead of a guaranty bond, securities, or letter of credit.

Historical Note

Adopted effective September 9, 1998 (Supp. 98-3).

R20-5-714. Securities Deposited with the Arizona State Treasurer

- A. Any securities deposited with Arizona State Treasurer under R20-5-713(E) shall be registered as follows: "The Industrial Commission of Arizona, in trust for the fulfillment by (name of pool), of (name of pool's) obligations under the Arizona Workers' Compensation Act."
- B. The securities shall be held by the State Treasurer, as custodian, subject to the order of and in trust for, the Industrial Commission of Arizona.

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

- C. The Commission shall have the following powers with regard to securities held by the State Treasurer:
1. To collect or order the collection of the securities as they become due;
 2. To sell or order the sale of the securities, or any part of the securities; and
 3. To apply or order the application of the proceeds of the sale of securities, to the payment of any award rendered against the pool in the event of a default in the payment of a pool's obligations under the Arizona Workers' Compensation Act.
- D. The Commission shall remit, upon request from a pool that has deposited securities for transmittal to the State Treasurer, interest coupons on securities as they mature.

Historical Note

Adopted effective September 9, 1998 (Supp. 98-3).

R20-5-715. Aggregate and Specific Excess Insurance Policies

- A. A pool shall maintain aggregate and specific excess insurance policies during all periods of self-insurance.
- B. The Commission shall not consider policies of aggregate and specific excess insurance when determining a pool's ability to fulfill its financial obligations under the Arizona Workers' Compensation Act, unless the policies are issued by a casualty insurance company authorized by the Arizona Department of Insurance to transact business in Arizona.
- C. A pool or insurance company seeking to cancel or refuse renewal of aggregate and specific excess insurance policies shall provide 90 days written notice of the proposed cancellation or non-renewal to the other party to the policies and to the Commission. The written notice shall be by registered or certified mail. Failure to provide notice as required by this Section precludes cancellation or non-renewal of the policies.
- D. Policy and Retention Amounts.
1. Policy and retention amounts for specific and aggregate excess insurance for a pool shall be as follows:
 - a. Retention for specific excess insurance shall not be less than \$100,000 nor exceed \$1,250,000 without advance written approval by the Commission. Specific excess insurance shall be provided to the statutory limit; and
 - b. Maximum retention of aggregate excess insurance shall not exceed 150% of collected premiums. Total aggregate insurance coverage shall not be less than \$1,000,000.
 2. Aggregate and specific excess insurance policies shall state that payments of workers' compensation benefits on a claim made by a member employer, pool, or surety under a bond or through the use of other approved securities shall be applied toward reaching the retention level in the policy.

Historical Note

Adopted effective September 9, 1998 (Supp. 98-3).

Amended by final rulemaking at 22 A.A.R. 2782, effective September 7, 2016 (Supp. 16-3).

R20-5-716. Rates and Code Classifications; Penalty Rate

- A. A pool shall only use rates and code classifications obtained from a rating organization licensed by the Arizona Department of Insurance.
- B. A pool may apply a penalty rate in excess of an annual premium to any member with an unfavorable loss experience, provided the pool provides written notice to the member 30 days before the effective date of the change in rate.

Historical Note

Adopted effective September 9, 1998 (Supp. 98-3).

R20-5-717. Gross Annual Premium of Pool; Calculation and Payment of Workers' Compensation Premiums; Discounts; Refunds

- A. The gross annual workers' compensation premium for a pool shall be sufficient to fund the administrative expenses and total incurred losses of the pool.
- B. A pool shall calculate a member's workers' compensation premium and experience modification rate using formulas described in a rating plan that meets the following:
 1. The rating plan is filed by an Arizona licensed rating organization, and
 2. The rating plan has not been disapproved by the Arizona Department of Insurance.
- C. Each member shall pay to a pool the premium due in equal monthly or quarterly payments for the premium year, except that upon admission into a pool, a new member shall pay no later than five days after the effective date of membership not less than 25% of the annual premium calculated for the new member. The remaining premium due after a new member has advanced 25% of the annual premium shall be paid in equal monthly or quarterly payments for the premium year. A pool shall permit a member to pay a premium in advance of the monthly or quarterly schedule.
- D. Deviations from rates.
 1. A pool shall not deviate from established workers' compensation rates unless the pool complies with the following:
 - a. The deviation is based upon the expense and loss experience of the pool,
 - b. The deviation is supported and justified by an actuary's feasibility study, and
 - c. The pool provides the information required under this subsection to the Division and receives approval from the Division.
 2. The Division shall approve the deviation if the deviation is based upon the expense and loss experience of a pool and is justified in an actuary's feasibility study.
- E. Refunds. A pool may declare a refund of surplus money, including excess investment income, to its members under the following conditions:
 1. Surplus money exists, including excess investment money, for a fiscal year in excess of the amount necessary to meet all financial obligations for the fiscal year, including financial obligations arising from incurred but not reported claims;
 2. Total assets of a pool are greater than total liabilities for each fiscal year;
 3. An actuary approves the amount of the refund;
 4. The amount of refund is a fixed liability of the pool at the time the refund is declared; and
 5. The board sets a date for the refund that shall not be less than 12 months after the end of the fiscal year in which the excess is reported.

Historical Note

Adopted effective September 9, 1998 (Supp. 98-3).

R20-5-718. Financial Statements

- A. A pool shall ensure that a financial statement is prepared annually at the end of its fiscal year by a certified public accountant who has experience in auditing insurance carriers or self-insured pools. The financial statement shall be accompanied by an actuarial report regarding reserves for claims and associated expenses, and claims incurred, but not reported.

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

- B. A pool shall ensure that reported reserves in a financial statement are established based on 110% of an actuary's best estimate.
- C. A pool shall ensure that an actuarial opinion is rendered by an actuary who is a member of the Academy of Actuaries (MAAA) or a fellow of the Casualty Actuarial Society (FCAS).
- D. A pool shall ensure that the pool's annual financial statement described in subsection (A) is audited by a certified public accountant. The audit shall include:
 - 1. An evaluation and statement from the certified public accountant whether invested surplus money was invested in compliance with R20-5-724;
 - 2. A description of how the pool operates; and
 - 3. A statement whether the pool complied with statutes and rules governing self-insured workers' compensation pools as it relates to financial matters.
- E. Upon request by the Commission or within 120 days after a pool's fiscal year ends, a pool shall file its annual financial statement with the Commission. If a pool stops providing coverage on an ongoing basis or fails to file a renewal application for authorization to self-insure, then the pool shall provide its annual financial statement within 120 days after the pool's fiscal year ends.

Historical Note

Adopted effective September 9, 1998 (Supp. 98-3).

R20-5-719. Board of Trustees

- A. A pool shall be managed by a board of trustees consisting of at least five individuals elected for a stated term of office. At least 2/3 of a board shall be from the membership of the pool.
- B. Minimum duties and responsibilities of a board. In addition to those duties and responsibilities provided by law, the duties of a board shall include:
 - 1. Responsibility for all operations of a pool;
 - 2. Ensuring compliance with this Article and the applicable provisions of the Arizona Workers' Compensation Act;
 - 3. Hiring of an administrator to manage the daily operations of a pool;
 - 4. Reviewing and taking action on applications for membership in a pool;
 - 5. Contracting with a service company or seeking authorization from the Commission to process workers' compensation claims in-house;
 - 6. Determining the premium to be charged to a member;
 - 7. Investing surplus monies in compliance with this Article and other applicable law;
 - 8. Enacting procedures that limit disbursement of money to payment and expenses associated with claims processing and administrative expenses necessary to conduct the operations of the pool;
 - 9. Ensuring that the pool complies with statutory accounting principles (SAP) and provides accurate financial information to enable complete and accurate preparation of financial reports;
 - 10. Maintaining all records and documents relating to the formation and ongoing operations of the pool; and
 - 11. Ensuring that accounts and records of the pool are audited as required under this Article.
- C. Delegation of board duties to administrator.
 - 1. Except as prohibited by law, a board may delegate to an administrator the duties the board determines proper.
 - 2. Delegation of duties from a board to an administrator shall be in writing. A copy of the delegation agreement shall be provided to the Commission with each renewal application.

- D. Board prohibitions. A board or board trustee shall not commit or perform the following acts:
 - 1. Extend credit to members for payment of a premium;
 - 2. Utilize money collected as premiums for a purpose unauthorized by this Article;
 - 3. Borrow money from a pool or in the name of a pool without providing written notice to the Commission of the nature and purpose of the loan; and
 - 4. Approve admission into a pool an employer who has a negative net worth and whose admission would impair the ability of the pool to meet its financial obligations under the Arizona Workers' Compensation Act.

Historical Note

Adopted effective September 9, 1998 (Supp. 98-3).

R20-5-720. Administrator; Prohibitions; Disclosure of Interest

- A. An administrator of a pool shall not be a member of a board of trustees of a workers' compensation pool.
- B. An administrator shall not commit any of the acts described in R20-5-719(D).
- C. An administrator shall disclose to a board any actual or perceived employment or financial interest that the administrator or administrator's family has in any potential provider of services or insurance coverage to the pool. The administrator shall disclose the interest before a contract or agreement is reached with the company or business providing the service or coverage. If a pool has an existing contract or agreement in which a prospective administrator or administrator's family has an actual or perceived employment or financial interest, the administrator shall disclose the interest before accepting a position as administrator for the pool. It is the responsibility of a board to identify for a prospective administrator current providers of services and coverage to the pool.

Historical Note

Adopted effective September 9, 1998 (Supp. 98-3).

R20-5-721. Admission of Employers into an Existing Workers' Compensation Pool

- A. An employer that meets the requirements of A.R.S. § 23-961.01 and this Article that seeks to join an existing pool shall submit an application for membership to the board of trustees of the pool, or the board's designee, on a form approved by the Commission.
- B. Consideration of application by a board.
 - 1. A board shall approve or deny admission in the pool according to the bylaws of the pool and other applicable statutes and rules.
 - 2. Upon approval of admission of an employer by a board, the board shall transmit the original application of the employer and board resolution approving membership to the Commission for consideration and approval.
- C. Commission Approval.
 - 1. Except as provided in subsection (C)(2), within seven days after receiving an employer application described in subsection (B)(2), the Division shall advise the pool whether the employer application is complete. Within 45 days after receiving a complete employer application described in subsection (B)(2), the Commission shall consider the application and shall approve the admission of an employer into a pool if each of the following requirements are met:
 - a. The employer meets the requirements of A.R.S. § 23-961.01 and this Article;

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

- b. Admission of the employer into the pool does not impair the ability of the pool to meet the requirements of A.R.S. § 23-961.01 and this Article;
 - c. Admission of the employer into the pool does not impair the ability of the pool to meet its financial obligations under the Arizona Workers' Compensation Act.
2. After a pool has completed one year of operation, the pool may request Commission authorization to admit new members without Commission approval. Within 30 days after receiving such a request, the Commission shall consider and approve the request to add members to a pool without Commission approval if the pool meets the following:
- a. The pool uses the similar industry requirement set forth in R20-5-710 and provides a list or description of businesses that the pool will consider as being similar; and
 - b. The pool adopts as its own criteria for admission of new employers the criteria set forth in subsection (C)(1) and provides financial standards that the pool shall apply to employers seeking admission into the pool.
3. The Commission shall issue written findings and an order either approving or denying admission of an employer into a pool under subsection (C)(1) or approving or denying authorization to add members without Commission approval under subsection (C)(2). The Commission shall mail the findings and order upon the interested parties. The written findings and order is final unless a party files a request for hearing with the Administration Division within 10 days after the findings and order is issued. Hearing rights and procedure are governed by R20-5-736, R20-5-737, and R20-5-738.
- D. Admission of an employer under subsection (C)(2).**
- 1. A pool shall require an employer applying for membership in the pool to provide a financial report that is either a certified audited financial statement or an internally reviewed and signed financial statement certified by an officer or representative of the employer applying for membership.
 - 2. If a pool approves admission of a new employer into the pool, the pool shall send written notice to the Commission, on a form approved by the Commission, within 10 days and prior to the effective date of membership, confirming that the pool has admitted a new member.
 - 3. In addition to the notice required under subsection (D)(2), the pool shall also provide to the Commission, the board resolution approving membership and a copy of the employer's application for admission into the pool.

Historical Note

Adopted effective September 9, 1998 (Supp. 98-3).

R20-5-722. Termination by a Member in a Pool; Cancellation of Membership by a Pool; Final Accounting

- A.** A member of a pool may terminate its participation in the pool or submit to cancellation by a pool under the bylaws of the pool and other applicable statutes and rules.
- B.** A pool shall provide the Commission written notice of a member's intent to terminate membership or a pool's intent to cancel a member's participation in the pool at least 30 days before the termination or cancellation is effective on a form approved by the Commission.
- C.** A pool shall provide a final accounting and settlement of the obligations of or refunds to a terminated or canceled member when all incurred claims are concluded, settled, or paid.

Historical Note

Adopted effective September 9, 1998 (Supp. 98-3).

R20-5-723. Trustee Fund; Loss Fund

- A.** A pool shall maintain a trustee fund and a loss fund.
- B.** Trustee fund.
 - 1. All premiums and assessments charged to members of a pool shall be paid to the trustee fund which fund shall be placed in a designated federally insured depository in Arizona.
 - 2. A pool shall create a loss fund from the trustee fund.
 - 3. A pool shall pay administrative expenses of the pool from the trustee fund.
 - 4. Money from the trustee fund shall be transferred to the loss fund as needed to enable a pool to pay from the loss fund cash needs related to liabilities imposed or arising under the Arizona Workers' Compensation Act.
- C.** Loss fund.
 - 1. A pool shall place its loss fund in a designated federally insured depository in Arizona.
 - 2. A pool shall pay all workers' compensation expenses from the loss fund.
 - 3. A loss fund shall be maintained at all times by an authorized service company or administrator charged with processing and paying workers' compensation claims.
 - 4. A pool shall ensure that its loss fund is financially able to cover current cash needs related to liabilities imposed or arising under the Arizona Workers' Compensation Act.

Historical Note

Adopted effective September 9, 1998 (Supp. 98-3).

R20-5-724. Investment Activity of a Pool

A pool may invest surplus money not needed for immediate cash needs under the following conditions:

- 1. Investments are limited to:
 - a. United States Government bonds;
 - b. United States Treasury notes;
 - c. Municipal and corporate bonds described under subsections (A)(2), (3), and (4);
 - d. Certificates of deposit;
 - e. Savings accounts in banks located in Arizona that are federally insured; and
 - f. Common or preferred stock.
- 2. Corporate and municipal bonds are restricted to the top three major investment grades as determined by two financial rating services;
- 3. Not more than 5% of a corporate municipal bond portfolio is invested in any one corporation or municipality;
- 4. Not more than 30% of the market value of a portfolio is in corporate and municipal bonds;
- 5. Not more than 20% of the market value of an investment portfolio is in common and preferred stocks; and
- 6. Not more than 5% of a common and preferred stock portfolio is invested in any one corporation.

Historical Note

Adopted effective September 9, 1998 (Supp. 98-3).

R20-5-725. Service Companies; Qualifications; Contracts; Transfer of Claims

- A.** A pool shall obtain the services of a service company to process the pool's workers' compensation claims unless the pool obtains permission to process its own workers' compensation claims from the Commission under R20-5-726.
- B.** Qualifications of a service company.

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

1. A service company shall have facilities and equipment to manage, process, and store workers' compensation claims;
 2. If required by law, a service company shall ensure that a licensed claims adjuster processes all workers' compensation claims. If a licensed claims adjuster is not required by law to process claims, then the service company shall ensure that workers' compensation claims are processed by persons with experience, training, and knowledge of the following:
 - a. Processing of Arizona workers' compensation claims; and
 - b. Arizona Worker's Compensation Act;
 3. Service company personnel processing workers' compensation claims shall attend and complete training provided by the Commission Claims Division.
- C.** A service company shall process and pay each worker's compensation claim in compliance with the Arizona Workers' Compensation Act and the rules. A contract between a pool and service company shall include this requirement.
- D.** Transfer of claims from one service company to another service company.
1. The transfer of claims from one service company to another service company shall be handled in a way that does not interfere with or interrupt the processing of a worker's compensation claim.
 2. A service company transferring a worker's compensation claim shall communicate to the new service company the historical claims processing activity associated with the worker's compensation claim, and shall provide an original or copy of every document required for continued processing of the worker's compensation claim.
 3. A pool shall immediately provide written notice to the Industrial Commission Claims Division of any transfer of a worker's compensation claim from one service company to another.

Historical Note

Adopted effective September 9, 1998 (Supp. 98-3).

R20-5-726. Processing of Workers' Compensation Claims by a Pool

- A.** The Commission shall permit a pool to process its own workers' compensation claims if the pool provides information and supporting documentation establishing the following:
1. The pool has facilities and equipment to manage, process, and store its own workers' compensation claims;
 2. If required by law, a pool shall ensure that a licensed claims adjuster processes all workers' compensation claims. If a licensed claims adjuster is not required by law to process claims, then the pool shall ensure that workers' compensation claims are processed by persons with experience, training, and knowledge of the following:
 - a. Processing of Arizona workers' compensation claims; and
 - b. Arizona Workers' Compensation Act;
 3. Pool personnel processing workers' compensation claims shall attend and complete training provided by the Commission Claims Division.
- B.** A pool shall pay and process workers' compensation claims in compliance with the Arizona Workers' Compensation Act and the rules.

Historical Note

Adopted effective September 9, 1998 (Supp. 98-3).

R20-5-727. Loss Control and Underwriting Programs

- A.** A pool shall maintain during all periods of self-insurance a loss control program that includes, at a minimum, written safety requirements and training programs for all employees of members.
- B.** A pool shall maintain during all periods of self-insurance an underwriting program that enables the pool to calculate and determine workers' compensation premiums due and to discharge the pool's responsibilities under the Arizona Workers' Compensation Act and this Article.
- C.** A pool shall ensure those persons with education, experience, or training in loss control administer the loss control program.
- D.** A pool shall ensure those persons with education, experience, or training in underwriting administer the underwriting program.
- E.** A pool shall maintain facilities and equipment to implement the loss control and underwriting programs.

Historical Note

Adopted effective September 9, 1998 (Supp. 98-3).

R20-5-728. Insufficient Assets or Funds of a Pool; Plans of Abatement; Notice of Bankruptcy

- A.** A pool shall immediately provide written notice to the Commission if collected premiums and earned investment income for a fiscal year are insufficient to pay benefits under the Arizona Workers' Compensation Act for all reported workers' compensation claims and expenses for the year. When a pool provides notice to the Commission of the deficiency, the pool shall also provide a written proposal to achieve 100% funding. The proposal may include the following:
1. Use of premiums collected in other fiscal years, but not necessary for payment of claims or expenses in the year collected;
 2. Use of investment earnings associated with other fiscal years, but not necessary for payment of claims or expenses in the year in which associated; or
 3. Assessment of members.
- B.** The Commission shall review the proposal submitted under subsection (A) and approve the proposal within 10 days if the Commission determines that the proposal will abate the deficiency. A pool shall implement the plan no later than 30 days after the date the Commission approves the plan and shall achieve 100% funding within one year after the date the Commission approves the plan. Failure to implement the plan is cause for revocation of the pool's certificate of authority under R20-5-739.
- C.** If, as a result of an audit or examination by either a pool or the Commission, it appears that the assets of a pool are insufficient to enable the pool to discharge the pool's responsibilities under the Arizona Workers' Compensation Act and this Article, the Commission shall notify the administrator and the board of the deficiency and issue an order to abate the deficiency.
- D.** The Commission has authority to include in its order of abatement issued under subsection (C) a provision that a pool shall not add new members to the pool until the deficiency is abated.
- E.** Failure to comply with an order of abatement within 60 days after the order is issued constitutes cause for revocation of a pool's certificate of authority under R20-5-739.
- F.** A pool shall provide immediate written notice to the Commission of any bankruptcy filing by the pool.

Historical Note

Adopted effective September 9, 1998 (Supp. 98-3).

R20-5-729. Arizona Office; Recordkeeping; Records Available for Review

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

- A. A pool shall maintain an office in Arizona.
- B. A pool shall ensure that all financial reports and minutes are signed by an authorized representative of the pool.
- C. A pool shall make board meeting minutes, reports or other documents concerning payroll, audits, investments, experience rating, or other information concerning the pool available to the Commission upon request.
- D. A pool shall retain records relating to the formation and operation of the pool. The pool's current board shall know the current location of the records.
- E. Records of a pool are the property of the pool. If records of a pool are in the control or custody of a third party, the third party shall immediately surrender the records to a pool, upon request by the pool.

Historical Note

Adopted effective September 9, 1998 (Supp. 98-3).

R20-5-730. Order for Additional Financial Information; Examination of Accounts and Records by Commission

If the Commission questions a pool's financial ability to pay workers' compensation claims under the Arizona Workers' Compensation Act, the Commission may order the pool to provide additional financial information from the pool's auditor or may order an independent financial examination of the pool.

Historical Note

Adopted effective September 9, 1998 (Supp. 98-3).

R20-5-731. Assignment of Claims Under A.R.S. § 23-966; Obligation of Member to Reimburse the Commission

The Commission shall assign all workers' compensation claims of a pool to the State Compensation Fund under A.R.S. § 23-966 in the event that a pool files for bankruptcy or a pool is unable to process or pay benefits as required under the Arizona Workers' Compensation Act. In the event that the Commission assigns workers' compensation claims to the State Compensation Fund under A.R.S. § 23-966, the Commission shall have a right of reimbursement against any member of a pool for the amount paid by the State Compensation Fund for the member's claims and losses, including reasonable administrative costs, to the extent that such claims and losses are not covered by the pool's bonds or assets.

Historical Note

Adopted effective September 9, 1998 (Supp. 98-3).

R20-5-732. Calculation and Payment of Taxes under A.R.S. § 23-961 and A.R.S. § 23-1065

- A. Subject to subsection (B), the Commission shall determine the taxes to be paid under A.R.S. § 23-961(G) and A.R.S. § 23-1065(A) by calculating a pool's premiums using one of the following insurance plans selected by a pool:
 - 1. Fixed premium plan:
 - a. A plan in which neither losses nor incurred loss reserves are used to calculate a premium;
 - b. A discount is allowed for premium size; and
 - c. The taxable premium is calculated as follows: Payroll x applicable rate - premium discount.
 - 2. Guaranteed cost plan:
 - a. A plan that provides for a direct relationship, on an annual basis, of the premium for tax purposes and the experience modification rate developed to reflect the loss payments and incurred loss experience of an insured;
 - b. The taxable premium is calculated as follows: (Payroll x applicable rate x experience modification rate) - premium discount.
 - 3. Retrospective plan:
 - a. A plan that provides for a relationship between the premium for tax purposes, the experience modification rate developed to reflect the loss payment and incurred loss experience of an insured, and the actual incurred losses for the tax year;
 - b. Plan is calculated annually and premium is not subject to further adjustment during the tax year;
 - c. The net taxable premium is calculated as follows: (payroll x applicable rate x experience modification rate x basic premium factor) + (losses for current year + adjusted losses for premium year x conversion factor) x tax multiplier; and
 - d. The net taxable premium is subject to a maximum and minimum premium level depending on which one of the four rating insurance option plans specified in the rating system filed by the rating organization is used by the State Compensation Fund under A.R.S. Title 20, Chapter 2, Article 4;

- B. A pool shall not select a retrospective plan unless the pool meets the following criteria:
 - 1. The pool has an annual net taxable premium exceeding \$100,000; and
 - 2. The pool submits and calculates four years of data concerning paid loss determinations and incurred loss reserved for each workers' compensation claim which information shall be used to calculate an experience modification factor for the pool. The oldest three years of data is used to calculate the rate and the current year data is used to calculate the tax.
- C. A pool shall submit to the Commission information required on the following forms no later than February 15 of each year:
 - 1. Self-insured Payroll Report, and
 - 2. Self-insured Injury Report.
- D. Payment of quarterly tax.
 - 1. The Commission shall calculate quarterly taxes owed under A.R.S. § 23-961(H) or A.R.S. § 23-1065(A) in one of the following ways:
 - a. 25% of the tax calculated for the previous year and adjusted for changes in the tax rate; or
 - b. Calculation based on actual payroll and premiums collected for each quarter.
 - 2. A pool shall file a completed and signed Self-insurers' Quarterly Tax Payment Form with each quarterly tax payment.
 - 3. Quarterly payments are due April 30, July 31, October 31, and January 31, for the periods ending March 31, June 31, September 30, and December 31, respectively.
 - 4. Quarterly tax payments may be adjusted because of changes in the annual tax rate.
- E. After receipt of the information required under A.R.S. § 23-961 and this Article, the Commission shall determine the annual taxes owed by a pool. The Commission shall also determine whether the pool has underpaid or overpaid the annual taxes required to be paid by the pool. If the quarterly tax payments paid by a pool are less than the actual tax calculated for the year, then the pool shall pay the difference on or before March 31 of the calendar year in which the taxes are due. If a pool has overpaid its annual taxes, then the Commission shall refund the amount as described in A.R.S. § 23-961(I). A pool shall pay to the Industrial Commission the pool's annual tax on or before March 31 based on premiums calculated for the preceding calendar year and adjusted for quarterly taxes previously paid.
- F. In addition to the penalty described under A.R.S. § 23-961(J), failure to pay annual or quarterly taxes as required is cause for revocation of a pool's certificate of authority.

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

Historical Note

Adopted effective September 9, 1998 (Supp. 98-3).

R20-5-733. Review of Initial and Renewal Applications for Authority to Self-insure by the Division

- A.** Upon the filing of a completed initial or renewal application for authority to self-insure, the Division shall review the initial or renewal application to determine and verify whether the information contained in and submitted with the initial or renewal application for authorization to self-insure is complete and accurate. The Division shall also review the information provided to determine the following:
1. Whether the pool has met the requirements of A.R.S. § 23-961.01;
 2. Whether the pool has met the requirements of this Article; and
 3. Whether the pool has the ability to process and pay benefits required under the Arizona Workers' Compensation Act. A determination of a pool's financial ability to pay shall include a review of the ratios provided by each member at the time of an initial application and review of the following ratios for a pool at the time of renewal:
 - a. Total cash, receivables, and investments to total assets; and
 - b. Total revenue to total expenditures for loss fund and trustee fund.
- B.** The Division shall present the findings of its review described in subsection (A) to the Commission. The Division shall also present its recommendations to the Commission regarding an initial or renewal application.

Historical Note

Adopted effective September 9, 1998 (Supp. 98-3).

R20-5-734. Decision by the Commission on Initial or Renewal Applications for Authority to Self-insure

- A.** The Commission shall consider the following before granting or denying an initial or renewal application to self-insure:
1. The information submitted by an applicant or pool,
 2. The information and recommendations of the Division, and
 3. The requirements of A.R.S. § 23-961.01 and this Article.
- B.** The Commission shall deny an application for authority to self-insure if the Commission finds one or more of the following conditions:
1. An applicant or pool does not meet the requirements of A.R.S. § 23-961.01,
 2. An applicant or pool does not meet the requirements of this Article, or
 3. An applicant or pool is unable to process and pay benefits required under the Arizona Workers' Compensation Act.
- C.** A decision of the Commission shall be made by a majority vote of the quorum of Commission members present when the decision is rendered at a public meeting. The Commission shall issue written findings and an order granting or denying authorization to self-insure.
- D.** The Division shall mail a copy of the Commission's written findings and order upon the applicant or pool within 10 days of the date the Commission issues its findings and order.
- E.** In the case of an initial application, an applicant shall substitute written confirmation from an authorized insurance carrier to provide fidelity coverage with evidence of fidelity insurance coverage as required under R20-5-712 no later than 10 days after the Commission grants authority to self-insure under this Section. The grant of authority to self-insure under this Section shall not become effective until the applicant provides evidence of actual fidelity coverage. The Commission shall deem an initial application withdrawn and the grant of author-

ity to self-insure rescinded if an applicant fails to substitute written confirmation of fidelity coverage with evidence of fidelity coverage as required under this subsection.

- F.** In the case of an initial application, an applicant shall substitute written confirmation from an authorized insurance carrier to provide excess insurance coverage with evidence of excess insurance coverage as required under R20-5-715 no later than 10 days after the Commission grants authority to self-insure under this Section. The grant of authority to self-insure under this Section shall not become effective until the applicant provides evidence of actual excess insurance coverage. The Commission shall deem an initial application withdrawn and the grant of authority to self-insure rescinded if an applicant fails to substitute written confirmation of excess insurance coverage with evidence of excess insurance coverage as required under this subsection.
- G.** In the case of an initial application, an applicant shall deposit the guaranty bond, letter of credit, or other securities as required under R20-5-713 no later than 10 days after the Commission grants authority to self-insure under this Section. The grant of authority to self-insure under this Section shall not become effective until the applicant deposits the guaranty bond, letter of credit, or other security. The Commission shall deem an initial application withdrawn and the grant of authority to self-insure rescinded if an applicant fails to deposit the guaranty bond, letter of credit, or other securities as required under this subsection.
- H.** Subject to subsections (E), (F), and (G), no later than 10 days after the Commission grants authorization to self-insure, the Division shall prepare a certificate of authority to self-insure and shall mail the certificate to the self-insured at the business address of the pool listed on the initial or renewal application.

Historical Note

Adopted effective September 9, 1998 (Supp. 98-3).

R20-5-735. Right to Request a Hearing

- A.** An applicant or pool shall have 10 days from the date the Commission mails the findings and order under R20-5-734 to request a hearing.
- B.** A request for hearing shall comply with A.R.S. § 23-945 and be signed by an authorized representative of the applicant or pool or the applicant's or pool's legal representative. The applicant or pool shall file the request for hearing with the Division.
- C.** The Commission shall deem its findings and order final if a request for hearing is not received by the Division within the time specified in subsection (A).

Historical Note

Adopted effective September 9, 1998 (Supp. 98-3).

R20-5-736. Hearing Rights and Procedures

- A.** Burden of proof.
1. Except as provided in subsection (A)(2), in all proceedings arising out of this Article, the applicant or pool shall have the burden of proof to establish that it has met the requirements of A.R.S. § 23-901 et seq. and this Article.
 2. In a revocation hearing, the Commission shall have the burden of proof to establish that the self-insured has committed the acts described in R20-5-739.
- B.** Roles of Chair and Chief Counsel.
1. The Chair of the Commission or designee shall preside over hearings held under this Article. Except as otherwise provided in this Section, the Chair shall apply the provisions of A.R.S. § 41-1062 to hearings held under this Article and shall have the authority and power of a presiding officer as described in A.R.S. § 41-1062.

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

2. The Chief Counsel of the Commission shall represent the Commission in hearings held before the Commission and upon direction of the Chair of the Commission shall issue on behalf of the Commission all notices and subpoenas required under this Section. In the discretion of the Chief Counsel, the Chief Counsel may assign an attorney from the Legal Division of the Commission to represent the Division.
- C. Appearance by a party.**
1. Except as otherwise provided by law, the parties may appear on their own behalf or through counsel.
 2. When an attorney appears or intends to appear before the Commission, the attorney shall notify the Commission, in writing, of the attorney's name, address, and telephone number and the name and address of the person on whose behalf the attorney appears.
- D. Filing and service.**
1. For purposes of this Section, a document is considered filed when the Commission receives the document. All documents required to be filed in this Section with the Commission shall be served upon the Chief Counsel of the Industrial Commission and upon all parties to the proceeding.
 2. Except as otherwise provided in A.R.S. § 23-901, et seq. and this Article, service of all documents upon the Commission, applicant or pool shall be by personal service or by mail. Personal service includes delivery upon the Commission or party. Service by mail includes every type of service except personal service and is complete on mailing.
- E. Notice of hearing.**
1. The Commission shall give the parties at least 20 days notice of hearing.
 2. A notice of hearing shall be in writing and mailed to the last known address of the applicant or pool as shown on the record of the Commission or upon the applicant's or pool's representative if a notice of appearance has been filed by a representative.
 3. A notice of hearing shall comply with the requirements in A.R.S. § 41-1061(B).
- F. Evidence.**
1. The civil rules of evidence do not apply to hearings held under this Section.
 2. A party may make an opening and closing statement with the permission of the Chair if the Chair determines that the statement will be helpful to a determination of the issues.
 3. All witnesses at a hearing shall testify under oath or affirmation.
 4. A party may present evidence and conduct cross-examination of witnesses.
 5. Documentary evidence may be received into evidence and shall be filed no later than 15 days before the date of the hearing. Upon request or upon direction from the chair of the Commission, the Commission may issue a subpoena to the author of any document submitted into evidence to appear and testify at the hearing.
 6. Upon written request by a party or upon direction from the Chair of the Commission, the Commission may issue a subpoena requiring the attendance and testimony of a witness whose testimony is material. A subpoena shall be requested no later than 10 days before the date of the hearing.
 7. Upon written request by a party or upon direction from the Chair of the Commission, the Commission may issue a subpoena duces tecum requiring the production of documents or other tangible evidence. The written request by a party shall contain a statement explaining the general relevance, materiality, and reasonable particularity of the documentary or other tangible evidence and the facts to be proven by them.
- G. Transcript of Proceedings.** Hearings before the Commission shall be stenographically reported or mechanically recorded. Any party desiring a copy of the transcript shall obtain a copy from the court reporter.

Historical Note

Adopted effective September 9, 1998 (Supp. 98-3).

R20-5-737. Decision Upon Hearing by Commission

- A.** A decision of the Commission to deny an initial or renewal application shall be based upon the grounds in R20-5-734(B) and shall be made by a majority vote of the quorum of Commission members present when the decision is rendered at a public meeting.
- B.** A decision of the Commission to revoke authority to self-insure shall be based upon the grounds in R20-5-739 and shall be made by a majority vote of the quorum of Commission members present when the decision is rendered at a public meeting.
- C.** A decision of the Commission to deny admission of an employer into a pool or deny authorization to add members without Commission approval shall be based upon the grounds in R20-5-721 and shall be made by a majority vote of the quorum of Commission members present when the decision is rendered at a public meeting.
- D.** After a decision is rendered at a public meeting, the Commission shall issue a written decision upon hearing which shall include findings of fact and conclusions of law, separately stated.
- E.** A Commission decision is final unless an applicant or pool requests review under R20-5-738 no later than 15 days after the written decision is mailed to the parties.

Historical Note

Adopted effective September 9, 1998 (Supp. 98-3).

R20-5-738. Request for Review

- A.** A party may request review of a Commission decision issued under R20-5-737 by filing with the Commission a written request for review no later than 15 days after the written decision is mailed to the parties.
- B.** A request for review shall be based upon one or more of the following grounds which have materially affected the rights of a party:
 1. Irregularities in the hearing proceedings or any order or abuse of discretion that deprives a party seeking review of a fair hearing;
 2. Accident or surprise which could not have been prevented by ordinary prudence;
 3. Newly discovered material evidence that could not have been discovered with reasonable diligence and produced at the hearing;
 4. Error in the admission or rejection of evidence, or errors of law occurring at, or during the course of, the hearing;
 5. Bias or prejudice of the Division or Commission; and
 6. The order, decision, or findings of fact are not justified by the evidence or are contrary to law.
- C.** A request for review shall state the specific facts and law in support of the request and shall specify the relief sought by the request.
- D.** The Commission shall issue a decision upon review no later than 30 days after receiving a request for review.

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

- E. The Commission's decision upon review is final unless an applicant or pool seeks judicial review as provided in A.R.S. § 23-946.

Historical Note

Adopted effective September 9, 1998 (Supp. 98-3).

R20-5-739. Revocation of Authority to Self-insure

- A. In addition to those specific grounds set forth in this Article, the following constitute grounds for revocation of authority to self-insure for workers' compensation:
1. Failure to comply with requirements of this Article or applicable requirements of 20 A.A.C. 5, Article 1;
 2. Failure to comply with applicable requirements of A.R.S. § 23-901 et seq.;
 3. Unless otherwise provided, failure to comply with an order or award of the Commission within 30 days after the order or award becomes final;
 4. An inability to process and pay claims under the Arizona Workers' Compensation Act;
 5. The failure of a pool to provide the Commission the reports and taxes required under this Article; and
 6. The willful misstatement of any material fact in an application, report, or statement made to the Commission.
- B. Upon receipt of information demonstrating that a pool has committed an act described in subsection (A), the Division shall conduct an investigation of the facts of the alleged misconduct. If, upon completion of the investigation, the Division determines that sufficient evidence exists to warrant revocation of a pool's authority to self-insure, then the Division shall present its findings to the Commission.
- C. The Commission shall consider the findings and recommendation of the Division before revoking a pool's authority to self-insure.
- D. The Commission shall revoke a pool's authority to self-insure if the Commission finds one or more of the grounds set forth in subsection (A). The Commission shall issue written findings and an order revoking the authority to self-insure and shall serve a copy of the findings and order upon the pool.
- E. A pool shall have 10 days from the date the Commission serves the findings and order described in subsection (D) to request a hearing. The request for hearing shall comply with the requirements of A.R.S. § 23-945.
- F. R20-5-736, R20-5-737, and R20-5-738 govern hearing rights and procedures for revocation hearings.
- G. A pool shall immediately inform each of its members, in writing, of the Commission's order of revocation.

Historical Note

Adopted effective September 9, 1998 (Supp. 98-3).

ARTICLE 8. OCCUPATIONAL SAFETY AND HEALTH RULES OF PROCEDURE BEFORE THE INDUSTRIAL COMMISSION OF ARIZONA

R20-5-801. Notice of Rules

Sections R20-5-801 et seq. apply to all actions and proceedings of or before the Commission and Review Board pertaining to those issues arising out of Title 23, Chapter 2, Article 10.

Historical Note

Adopted effective March 20, 1975 (Supp. 75-1). R20-5-801 recodified from R4-13-801 (Supp. 95-1).

R20-5-802. Location of Office and Office Hours

The main office of the Industrial Commission of Arizona is located in Phoenix, Arizona. An office is also located in Tucson, Arizona. The offices are open for the transaction of business from 8:00 a.m. until 5:00 p.m. every day except Saturdays, Sundays and legal holidays.

Historical Note

Adopted effective March 20, 1975 (Supp. 75-1). R20-5-802 recodified from R4-13-802 (Supp. 95-1).

R20-5-803. Definitions

In these Rules of Procedures, unless the context otherwise requires, the following words and terms shall have the following meanings:

1. "Commission" means the Industrial Commission of Arizona.
2. "Affected employee" means an employee of a cited employer who is exposed to the alleged hazard described in the citation, as a result of his assigned duties.
3. "Authorized employee representative" means a labor organization which has a collective bargaining relationship with the cited employer and which represents affected employees.
4. "Representative" means any person, including an authorized employee representative, authorized by a party to represent him in a proceeding.
5. "Citation" means a written communication issued by the Division of Occupational Safety and Health of the Industrial Commission of Arizona pursuant to A.R.S. § 23-415.
6. "Notification of proposed penalty" means a written communication issued by the Industrial Commission of Arizona pursuant to A.R.S. § 23-418.
7. "Party" means the Occupational Safety and Health Division of the Commission, the affected employer and affected employees.

Historical Note

Adopted effective March 20, 1975 (Supp. 75-1). R20-5-803 recodified from R4-13-803 (Supp. 95-1).

R20-5-804. Computation of Time

In computing any period of time prescribed or allowed in these rules, the day from which the designated period begins to run shall not be included. The last day of the period so computed shall be included unless it is a Saturday, Sunday, or legal holiday. When the period of time prescribed or allowed is less than seven days, intermediate Saturdays, Sundays, and legal holidays shall be excluded in the computation.

Historical Note

Adopted effective March 20, 1975 (Supp. 75-1). R20-5-804 recodified from R4-13-804 (Supp. 95-1).

R20-5-805. Record Address

The initial pleading filed by any person shall contain his name, address and telephone number. Any change in such information must be communicated promptly in writing to the Commission and to all other parties. A party who fails to furnish such correct and current information shall be deemed to have waived his right to object to the validity of any notice and/or service which has been made to the last known address of the party as shown by the records of the Commission.

Historical Note

Adopted effective March 20, 1975 (Supp. 75-1). R20-5-805 recodified from R4-13-805 (Supp. 95-1).

R20-5-806. Service and Notice

- A. At the time of filing pleadings or other documents a copy thereof shall be served by the filing party on every other party.
- B. Service upon a party who has appeared through a representative shall be made only upon such representative.
- C. Unless otherwise herein indicated, service may be accomplished by postage prepaid first class mail or by personal delivery. Service is deemed effected at the time of mailing (if

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

by mail) or at the time of personal delivery (if by personal delivery).

- D. Proof of service shall be accomplished by a written statement of the same which sets forth the date and manner of service. Such statement shall be filed with the pleading or document.
- E. Service and notice to employees represented by an authorized employee representative shall be deemed accomplished by serving the representative in the manner prescribed in subsection (C).
- F. In the event that there are any affected employees who are not represented by an authorized employee representative, the employer shall, immediately upon receipt of Notice of the Date of Hearing, post, where the citation is required to be posted, a copy of the Notice of Date of Hearing and a notice informing such affected employees of their right to appear at the hearing and state their position and of the availability of all pleadings for inspection and copying at reasonable times. A notice in the following form shall be deemed to comply with this subsection:
(Name of employer)

Your employer has been cited by the Industrial Commission of Arizona for violation of the Arizona Occupational Safety and Health Act of 1972. The citation has been contested and will be the subject of a hearing before the Industrial Commission. Affected employees are entitled to appear in this hearing under the terms and conditions established by the Industrial Commission in its Rules of Procedure. Notice of Intent to Participate should be sent to:

THE INDUSTRIAL COMMISSION
OF ARIZONA
1601 West Jefferson Street,
Phoenix, Arizona 85007.

All papers relevant to this matter may be inspected at:
(Place reasonably convenient to employees, preferably at or near workplace.)

Where appropriate, the second sentence of the above Notice will be deleted and the following sentence will be substituted:

The reasonableness of the period prescribed by the Industrial Commission for abatement of the violation has been contested and will be the subject of a hearing before the Industrial Commission.

- G. Where service is accomplished by posting, proof of such posting shall be filed not later than the first working day following the posting.
- H. The authorized employee representative, if any, shall be served with the notice set forth in subsection (G) and with a copy of the Notice of the Date of Hearing.
- I. A copy of the Notice of the Date of Hearing shall be served by the employer on affected employees who are not represented by an authorized employee representative by posting a copy of the Notice of such hearing at or near the place where the citation is required to be posted.
- J. A copy of the Notice of the Date of Hearing shall be served by the employer on the authorized employee representative of affected employees in the manner prescribed in subsection (C) of this Section, if the employer has not been informed that the authorized employee representative has entered an appearance as of the date such Notice is received by the employer.
- K. Where a petition for hearing is filed by an affected employee who is not represented by an authorized employee representative and there are other affected employees who are represented by an authorized employee representative, the

unrepresented employee shall, upon receipt of the Notice of the Date of Hearing, serve a copy thereof on such authorized employee representative in the manner prescribed in subsection (C) of this Section and shall file proof of such service.

- L. Where a Petition for Hearing is filed by an affected employee or an authorized employee representative, a copy of the Petition for Hearing shall be provided to the employer for posting by the employer at the place the citation is required to be posted.
- M. An authorized employee representative who files a Notice of Contest shall be responsible for serving any other authorized employee representative whose members are affected employees.
- N. Where posting is required by this Section, such posting shall be maintained until the commencement of the hearing or until earlier disposition.

Historical Note

Adopted effective March 20, 1975 (Supp. 75-1). R20-5-806 recodified from R4-13-806 (Supp. 95-1).

R20-5-807. Consolidation

Cases may be consolidated on the motion of any party, or on the hearing officer's own motion, where there exist common parties, common questions of law or fact, or both, or in such other circumstances as justice and the administration of the Act require.

Historical Note

Adopted effective March 20, 1975 (Supp. 75-1). R20-5-807 recodified from R4-13-807 (Supp. 95-1).

R20-5-808. Severance

Upon its own motion, or upon motion of any party, the hearing officer may, for good cause, order any proceeding severed with respect to some or all issues or parties.

Historical Note

Adopted effective March 20, 1975 (Supp. 75-1). R20-5-808 recodified from R4-13-808 (Supp. 95-1).

R20-5-809. Election to Appear

- A. Affected employees may elect to appear at a hearing for the purpose of testifying or stating their position concerning the subject matter of the hearing.
- B. If affected employees desire to appear at the hearing they must so notify in writing the Commission or the hearing officer, if the case has been assigned.

Historical Note

Adopted effective March 20, 1975 (Supp. 75-1). R20-5-809 recodified from R4-13-809 (Supp. 95-1).

R20-5-810. Employee Representatives

- A. Employees may appear in person or through a representative.
- B. An authorized employee representative shall be deemed to control all matters respecting the interest of such employees in the proceeding.
- C. Affected employees who are represented by an authorized employee representative may appear only through such authorized employee representative.
- D. Withdrawal of appearance of any representative may be effected by filing a written Notice of Withdrawal and by serving a copy thereof on all parties.

Historical Note

Adopted effective March 20, 1975 (Supp. 75-1). R20-5-810 recodified from R4-13-810 (Supp. 95-1).

R20-5-811. Form of Pleadings

- A. Except as provided herein, there are no specific requirements as to the form of any pleading. A pleading is simply required

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

to contain a caption sufficient to identify the parties in accordance with R20-5-812, which shall include the Commission's citation number, and a clear and plain statement of the relief that is sought, together with the grounds therefor.

- B. Pleadings and other documents (other than exhibits and petitions for hearing) shall be typewritten and double spaced, on letter size opaque paper (approximately 8 1/2 inches by 11 inches). The left margin shall be 1 1/2 inches and the right margin 1 inch. Pleadings and other documents shall be fastened at the upper left corner.
- C. Pleadings shall be signed by the party filing or by his representative. Such signing constitutes a representation by the signer that he has read the document or pleading, that to the best of his knowledge, information and belief the statements made therein are true, and that it is not interposed for delay.
- D. The Commission may refuse for filing any pleading or document which does not comply with the requirements of subsections (A), (B), and (C) of this Section.

Historical Note

Adopted effective March 20, 1975 (Supp. 75-1). R20-5-811 recodified from R4-13-811 (Supp. 95-1).

R20-5-812. Caption; Titles of Cases

- A. Cases initiated by the cited employer filing a Petition for Hearing contesting the violations cited shall be titled:
Division of Occupational Safety and Health of the Industrial Commission of Arizona, Complainant, vs. (name of employer), Respondent.
- B. Cases initiated by the cited employer filing a Petition of Hearing for modification of the abatement period shall be titled:
(name of employer), Petitioner vs. Division of Occupational Safety and Health of the Industrial Commission of Arizona, Respondent.
- C. Cases initiated by an affected employee filing a Petition for Hearing for modification of the abatement period shall be titled:
(name of affected employee or authorized employee representative), Petition vs. Division of Occupational Safety and Health of the Industrial Commission of Arizona, Respondent, and (employer), Respondent.
- D. The Titles listed in subsections (A) and (B) of this Section shall appear at the left upper portion of the initial page of any pleading or document (other than exhibits and Petitions for Hearing filed).
- E. The initial page of any pleading or document (other than exhibits and requests for hearing) shall show the citation number at the upper right of the page, opposite the title.

Historical Note

Adopted effective March 20, 1975 (Supp. 75-1). R20-5-812 recodified from R4-13-811 (Supp. 95-1).

R20-5-813. Requests for Hearing

- A. Requests for hearing shall be filed with the Commission.
- B. Requests for hearing shall be in writing and contain a clear and plain statement of the relief that is sought, together with the grounds thereof.
- C. The Commission shall, after receipt of a request for hearing, refer the file to the Hearing Officer Division for determination.

Historical Note

Adopted effective March 20, 1975 (Supp. 75-1). R20-5-813 recodified from R4-13-813 (Supp. 95-1).

R20-5-814. Pre-hearing Conference

- A. At any time before a hearing, the hearing officer, on his own motion or on motion of a party, may direct the parties, or their representatives, to exchange information or to participate in a

pre-hearing conference for the purpose of considering matters which will tend to simplify the issues or expedite the proceedings.

- B. The hearing officer may issue a pre-hearing order which includes the agreements reached by the parties. Such order shall be served on all parties and shall be part of the record.

Historical Note

Adopted effective March 20, 1975 (Supp. 75-1). R20-5-814 recodified from R4-13-814 (Supp. 95-1).

R20-5-815. Payment of Witness Fees and Mileage

Witnesses summoned before the hearing officer shall be paid the same fees and mileage that are paid witnesses in the courts of Arizona. Witness fees and mileage shall be paid by the party at whose instance the witness appears.

Historical Note

Adopted effective March 20, 1975 (Supp. 75-1). R20-5-815 recodified from R4-13-815 (Supp. 95-1).

R20-5-816. Expired**Historical Note**

Adopted effective March 20, 1975 (Supp. 75-1). R20-5-816 recodified from R4-13-816 (Supp. 95-1). Section expired under A.R.S. § 41-1056(J) at 22 A.A.R. 3475, effective November 8, 2016 (Supp. 16-4).

R20-5-817. Failure to Appear -- Withdrawal of Request for Hearing

- A. The failure of a party who has requested a hearing to appear at such scheduled hearing shall be deemed to be an admission of the validity of any citation, abatement period, or penalty issued or proposed, and additionally a waiver of all rights except the right to be served with a copy of the decision of the hearing officer and to request review.
- B. Withdrawal of request for hearing shall be construed as an admission of the validity of any citation, abatement period or penalty issued or proposed. No decision need be issued in this case as the subject instrument is deemed to be admitted.

Historical Note

Adopted effective March 20, 1975 (Supp. 75-1). R20-5-817 recodified from R4-13-817 (Supp. 95-1).

R20-5-818. Duties and Powers of Hearing Officers

It shall be the duty of the hearing officer to conduct a fair and impartial hearing, to assure that the facts are fully elicited, to adjudicate all issues and avoid delay. The hearing officer shall have authority with respect to cases assigned to him, between the time he is designated and the time he issued his decision, subject to the rules and regulations of the Commission, to:

1. Administer oaths and affirmations;
2. Rule upon admissibility of exhibits;
3. Rule upon applications for depositions;
4. Regulate the course of the hearing and, if appropriate or necessary, exclude persons or counsel from the hearing for contemptuous conduct and strike all related testimony of witnesses refusing to answer any proper questions;
5. Call and examine witnesses;
6. Request the parties at any time during the hearing to state their respective positions concerning any issue in the case or theory in support thereof;
7. Adjourn the hearing as the needs of justice and good administration require;
8. Issue appropriate orders for protection of trade secrets;
9. Take any other action necessary under the foregoing and authorized by the rules and regulations of the Commission.

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

Historical Note

Adopted effective August 27, 1975 (Supp. 75-1). R20-5-818 recodified from R4-13-818 (Supp. 95-1).

R20-5-819. Witnesses' Oral Deposition; In State

- A. After a request for hearing has been filed with the Commission, any party desiring to take the oral deposition of any other party or witness residing within the state of Arizona shall file with the hearing officer, in duplicate, notice of taking deposition by oral examination. Copies of such Notice shall be served at least five days prior to the date of the deposition upon the deponent and upon every party by the party desiring to take the oral deposition.
- B. If any party or the deponent has any objection to the taking of the oral deposition of the party or witness, he shall file with the presiding hearing officer and serve on all parties written objections thereto setting forth the basis of the opposition to the deposition. Such objection shall be filed with the hearing officer within two days after the notice of taking deposition by oral examination is served.
- C. If objections to the taking of the oral deposition are filed with the hearing officer as provided in subsection (B) hereof, the hearing officer shall rule on the objections within five days after the filing of the objections. The taking of the oral deposition shall be held in abeyance pending the ruling of the hearing officer. The hearing officer shall either order the deposition to proceed, order that the deposition not be taken, or enter such other protective order as may be appropriate.
- D. The party taking the deposition shall comply with the Arizona Rules of Civil Procedure governing the taking of depositions.
- E. The expense of any deposition shall be borne by the party taking the deposition but shall not include the expense of any other party.
- F. No scheduled hearing shall be cancelled or continued for failure to take or complete a deposition taken pursuant to the provisions of this rule.
- G. Depositions taken pursuant to the provisions of this rule shall only be used at the time of a hearing for impeachment of a witness, unless the deponent is deceased at the time of the scheduled hearing, in which event it may be admitted into evidence.

Historical Note

Adopted effective March 20, 1975 (Supp. 75-1). R20-5-819 recodified from R4-13-819 (Supp. 95-1).

R20-5-820. Witnesses' Oral Deposition; Out-of-State

- A. After a request for hearing is filed with the Commission, any party desiring to take the oral deposition of any other party or witness residing without the state of Arizona shall file with the hearing officer, in duplicate, a request for permission to take the deposition of such witness or witnesses. Such request shall show the name and address of such witness or witnesses and set forth the reason why said witness or witnesses' testimony is necessary for an adjudication of the issue. Copies of such request shall be served upon each party by the party requesting permission to take the deposition. If no objection to the request for permission to take the deposition is filed as provided in subsection (B) hereof, the hearing officer may, within 10 days, in his discretion, grant or deny the permission to take the deposition. If the hearing officer permits the taking of the deposition, the party may proceed in the manner provided by and subject to the limitations of subsections (A), (D), (E), and (F).
- B. If any party has any objections to the taking of the oral deposition of the party or witness, he shall file with the hearing officer and serve on all other parties written objections thereto setting forth the basis for the opposition to the deposition. Such objection shall be filed with the hearing officer within five days after the request to take the deposition is served.

- C. If objections to the taking of the oral deposition are filed with the hearing officer as provided in subsection (B) hereof, the hearing officer shall rule on the objections within five days after the filing of the objections. The taking of the oral deposition shall be held in abeyance pending the ruling of the hearing officer. The hearing officer shall either order the deposition to proceed, order that the deposition not be taken, or enter such other protective order as may be appropriate. If the hearing officer orders that the deposition proceed, the party may proceed to take the deposition in the manner provided by and subject to the limitation of R20-5-819, subsections (A), (D), (E), and (F).
- D. Any deposition taken pursuant to the provisions of this rule shall be filed with the Commission at least five days prior to the hearing date or any scheduled hearing and may be admitted into evidence. If the deposition is not filed within the time prescribed herein, it shall not be considered for any purpose except by stipulation of all interested parties, and then only with the concurrence of the hearing officer.

Historical Note

Adopted effective March 20, 1975 (Supp. 75-1). R20-5-820 recodified from R4-13-820 (Supp. 95-1).

R20-5-821. Parties' Disposition upon Written Interrogatories

- A. After a request for hearing is filed with the Commission, any party desiring to take the deposition of another party upon written interrogatories shall file with the hearing officer, in duplicate, copies of the interrogatories sought to be submitted to the party. The written interrogatories submitted pursuant to this rule shall be limited to 25 in number with no subsections. Copies of such interrogatories shall be filed at least five days prior to any scheduled hearing.
- B. Answers to the interrogatories shall be served on all parties by the party answering the interrogatories within 10 days after service of the interrogatories, or within 10 days after a ruling by the hearing officer that the interrogatories be answered.
- C. No scheduled hearing shall be cancelled or continued for failure to take or complete the taking of a deposition taken pursuant to the provisions of this rule.
- D. Depositions taken pursuant to the provisions of this rule shall only be used at the time of hearing for impeachment of a witness unless the deponent is deceased at the time of the scheduled hearing in which event they may be admitted into evidence.

Historical Note

Adopted effective March 20, 1975 (Supp. 75-1). R20-5-821 recodified from R4-13-821 (Supp. 95-1).

R20-5-822. Refusal to Answer; Refusal to Attend

- A. If a party or other deponent refuses to answer any question propounded upon oral examination pursuant to R20-5-819 and R20-5-820, the examination shall be completed in other matters or adjourned, as the proponent of the question may prefer. Thereafter on reasonable notice to all persons affected thereby the proponent of the question may apply to the hearing officer for an order compelling an answer. Upon the refusal of a deponent to answer any interrogatory submitted under R20-5-821, the proponent of the question may on like notice make like application for such an order. If the motion is granted and if the hearing officer finds that the refusal was without substantial justification, the hearing officer shall require the refusing party, or deponent and the party, or representative advising the refusal or either of them to pay to the examining party the amount of the reasonable attorney's fees incurred in obtaining the order and the reasonable expenses which will be incurred to obtain the requested answers. If the motion is denied and if

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

the hearing officer finds that the motion was made without substantial justification, the hearing officer shall require the examining party or the representative advising the motion, or both of them, to pay to the refusing party or witness the amount of the reasonable attorney's fees incurred in opposing the motion.

- B. If a party or an officer or managing agent of a party wilfully fails to appear before an officer who is to take his deposition after being served with the proper notice, or fails to serve answers to interrogatories after proper service of such interrogatories, the hearing officer, on motion and notice, may strike out all or any part of any pleading of that party, dismiss the action or proceeding or any part thereof, or preclude the introduction of evidence.

Historical Note

Adopted effective March 20, 1975 (Supp. 75-1). R20-5-822 recodified from R4-13-822 (Supp. 95-1).

R20-5-823. Burden of Proof

- A. In all proceedings other than those stated in subsection (B) commenced by the filing of a request for hearing, the burden of proof shall rest with the Commission.
- B. In proceedings commenced by a request for hearing requesting modification of the abatement period, the burden of establishing the necessity for such modification shall rest with the petitioner.

Historical Note

Adopted effective March 20, 1975 (Supp. 75-1). R20-5-823 recodified from R4-13-823 (Supp. 95-1).

R20-5-824. Intermediary Rulings or Orders by the Hearing Officer

No intermediary rulings or orders by the hearing officer may be appealed to the Review Board but shall become a part of the record.

Historical Note

Adopted effective March 20, 1975 (Supp. 75-1). R20-5-824 recodified from R4-13-824 (Supp. 95-1).

R20-5-825. Legal Memoranda

Legal memoranda may be filed if request is granted by the hearing officer. If such request is granted the hearing officer shall establish a reasonable time for such filing and response or simultaneous filing.

Historical Note

Adopted effective March 20, 1975 (Supp. 75-1). R20-5-825 recodified from R4-13-825 (Supp. 95-1).

R20-5-826. Decisions of Hearing Officers

- A. The decision of the hearing officer shall include findings and conclusions of fact and law, and an order.
- B. The hearing officer shall sign the decision. Upon issuance of the decision, jurisdiction shall rest solely in the Commission, and if a request for review is filed it shall be addressed to the Commission.

Historical Note

Amended effective August 27, 1975 (Supp. 75-1). R20-5-826 recodified from R4-13-826 (Supp. 95-1).

R20-5-827. Settlement

- A. Settlement is encouraged at any stage of the proceedings where such settlement is consistent with the provisions and objectives of the Act.
- B. Settlement agreement submitted by the parties shall be accompanied by an appropriate proposed order which shall be signed by the assigned hearing officer or chief hearing officer.

- C. Where parties to the settlement agree upon a proposal, it shall be served upon represented and unrepresented affected employees in the manner set forth in R20-5-806. Proof of such service shall accompany the proposed settlement when submitted to the Commission or the hearing officer.

Historical Note

Adopted effective March 20, 1975 (Supp. 75-1). R20-5-827 recodified from R4-13-827 (Supp. 95-1).

R20-5-828. Special Circumstances; Waiver of Rules

In special circumstances, or for good cause shown, the hearing officer may, upon application by any party, or on his own motion, waive any rule or make such orders as justice or the administration of the Act requires.

Historical Note

Adopted effective March 20, 1975 (Supp. 75-1). R20-5-828 recodified from R4-13-828 (Supp. 95-1).

R20-5-829. Variances

- A. Any hearing concerning variances shall be filed before the Commissioners at a time set by the Commission.
- B. Such proceeding shall be informal but shall be transcribed at the expense of the person seeking the variance if a written record of the proceeding is desired.

Historical Note

Adopted effective March 20, 1975 (Supp. 75-1). R20-5-829 recodified from R4-13-829 (Supp. 95-1).

ARTICLE 9. EXPIRED**R20-5-901. Expired****Historical Note**

Adopted effective January 13, 1976 (Supp. 76-1). Former Section R4-13-901 repealed, new Section R4-13-901 adopted effective May 27, 1977 (Supp. 77-3). R20-5-901 recodified from R4-13-901 (Supp. 95-1). Section expired pursuant to A.R.S. § 41-1056(E), filed in the Office of the Secretary of State February 4, 2000 (Supp. 00-1).

ARTICLE 10. WAGE CLAIMS**R20-5-1001. Definitions**

In this Article, unless the context otherwise requires:

1. "Claim" means a wage claim pursuant to A.R.S. § 23-356.
2. "Claimant" means an individual who files a claim.
3. "Day" means calendar day.
4. "Department" means the Labor Department of the Industrial Commission of Arizona.
5. "Determination" means a finding by the Department under A.R.S. § 23-357 that a claim is either valid or invalid or that the Department cannot resolve the dispute.
6. "Director" means the Director of the Department.
7. "Dismissal" means an action by the Department in which the Department dismisses the claim and refers the claimant to other statutory remedies.
8. "Notice" or "notification" when made by the Department or the Director means a written communication transmitted to the employer or claimant, or both, by regular mail.

Historical Note

Adopted effective January 26, 1988 (Supp. 88-1). R20-5-1001 recodified from R4-13-1001 (Supp. 95-1). Amended by final rulemaking at 12 A.A.R. 1416, effective June 4, 2006 (Supp. 06-2).

R20-5-1002. Forms

The following forms are available upon request from the Department or from the Industrial Commission's Internet web site at www.ica.state.az.us:

1. Wage claim. When making a claim, a claimant shall provide the following information to the Department:
 - a. Claimant's name, address, telephone number, and date of birth;
 - b. Employer's name, address, telephone number, and description of business;
 - c. Claimant's dates of employment, position, and pay;
 - d. The amount of the wages claimed and whether the claimant requested payment of the wages from employer; and
 - e. Claimant's signature and signature date.
2. Employer response. The employer responding to a claim shall provide the following information to the Department:
 - a. Employer's name, address, telephone number, and description of business;
 - b. Claimant's dates of employment, position, and pay;
 - c. Whether claimant is owed any wages, and, if so, employer's reason for nonpayment; and
 - d. Employer's signature and signature date.

Historical Note

Adopted effective January 26, 1988 (Supp. 88-1). R20-5-1002 recodified from R4-13-1002 (Supp. 95-1). Section repealed; new Section made by final rulemaking at 12

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

A.A.R. 1416, effective June 4, 2006 (Supp. 06-2).

R20-5-1003. Filing Requirements; Time for Filing; Computation of Time

- A. A claimant shall file a claim with the Department within one year of the date of the accrual of the claim.
- B. In computing any period of time prescribed or allowed by this Article, the day of the act or event from which the designated period of time begins to run is not included. The last day of the period and Saturdays, Sundays, and legal holidays are included in the computation of time.
- C. The date of filing of the claim is the date the claimant's wage claim form is received by the Department.
- D. The Department shall deem a form, document, instrument, or other written record filed at the Tucson office as filed at the Phoenix office for the purpose of computing time.
- E. An individual filing a form or document related to a claim shall legibly fill out the form or document in ink or type.
- F. If the wage claim form received from a claimant does not include the information required by R20-5-1002(1), the Department shall return the wage claim form to the claimant by regular mail with a request that the claimant provide the required information and return the completed wage claim form to the Department within 10 days from the date of the Department's request. If the Department does not receive the completed wage claim form within 10 days, the Department shall not initiate an investigation of the claim and the Department shall consider the claim withdrawn without prejudice. The claimant may re-file a withdrawn wage claim with the information required by R20-5-1002(1), if the claim is re-filed within one year of the date of the accrual of the claim.

Historical Note

Adopted effective January 26, 1988 (Supp. 88-1). R20-5-1003 recodified from R4-13-1003 (Supp. 95-1). Former R20-5-1003 renumbered to R20-5-1004; new R20-5-1003 made by final rulemaking at 12 A.A.R. 1416, effective June 4, 2006 (Supp. 06-2).

R20-5-1004. Investigation of Claim

- A. The Department shall mail a copy of a claimant's wage claim form within 10 days after the Department's receipt of the form to the employer listed on the wage claim, with a request that the employer complete and file the employer response form within 10 days of the date of the Department's mailing.
- B. If the Department does not receive the employer response form under subsection (A), the Department shall provide written notice to the employer stating that the employer must pay the amount claimed or file a written response to the wage claim within 10 days of the date of the Department's written notice.
- C. If the employer timely files the employer response under subsection (A), but the response is incomplete, the Department shall mail the employer a notice requesting that the employer file the required information within 10 days of the date of the Department's notice. If the Department does not receive the required information within 10 days, the Department shall make a determination regarding the claim based on the evidence in the file.
- D. If the employer's response disputes the amount of wages claimed by the claimant, the Department shall mail a copy of the employer's response to the claimant and offer the claimant the opportunity to file a written reply to the employer's response within 10 days from the date of the Department's mailing. If the Department does not receive claimant's reply within 10 days, the Department shall make a determination of the claim based on the evidence in the file.

- E. If the employer fails or refuses to pay the amount claimed or submit a written response to the claim in accordance with subsection (B), the Department shall make a determination of the claim based on the evidence in the file.
- F. Upon request from the Department, and if necessary to complete the Department's investigation, the claimant, the employer, or both, shall submit further written information or meet with the Director or his designee. Except for statements made during settlement, mediation, or an informal conference, the Director or his designee shall administer oaths for the purpose of taking affidavits and shall tape record the meeting.
- G. Upon completion of its investigation, the Department shall notify the parties to the claim of the Department's determination in writing.

Historical Note

Adopted effective January 26, 1988 (Supp. 88-1). R20-5-1004 recodified from R4-13-1004 (Supp. 95-1). Former R20-5-1004 renumbered to R20-5-1005; new R20-5-1004 renumbered from R20-5-1003 and amended by final rulemaking at 12 A.A.R. 1416, effective June 4, 2006 (Supp. 06-2).

R20-5-1005. Mediation of Disputes

- A. During the investigation of a claim, the Department may mediate and conciliate a dispute between the claimant and the employer.
- B. If mediation results in an informal resolution of the claim, the Director or the Director's designee shall prepare and ensure execution of documents providing for the resolution of the claim.

Historical Note

Adopted effective January 26, 1988 (Supp. 88-1). R20-5-1005 recodified from R4-13-1005 (Supp. 95-1). Former R20-5-1005 renumbered to R20-5-1006; new R20-5-1005 renumbered from R20-5-1004 and amended by final rulemaking at 12 A.A.R. 1416, effective June 4, 2006 (Supp. 06-2).

R20-5-1006. Dismissal of Claim

- A. The Department shall dismiss a claim if:
 - 1. The claim is filed more than one year after the date of the accrual of the claim,
 - 2. The claimant does not comply with R20-5-1003(F),
 - 3. The amount of wages claimed exceeds \$2,500.00,
 - 4. The Department's investigation of the claimant's evidence reveals no possible violation of A.R.S. § 23-350 et seq.,
 - 5. The claimant has filed a civil action regarding the same claim,
 - 6. The employer listed on the claim is in bankruptcy,
 - 7. The Department is unable to locate the employer based on the information provided by the claimant, or
 - 8. The wages in question have been withheld from the claimant pursuant to the claimant's prior written authorization.
- B. The Department shall send a notice of dismissal to the claimant and, except as provided in subsections (A)(1) through (A)(3) and (7), the Department shall send a notice of dismissal to the employer. Notices of dismissal shall notify the claimant of the availability of other remedies.

Historical Note

Adopted effective January 26, 1988 (Supp. 88-1). R20-5-1006 recodified from R4-13-1006 (Supp. 95-1). Former R20-5-1006 renumbered to R20-5-1007; new R20-5-1006 renumbered from R20-5-1005 and amended by final rulemaking at 12 A.A.R. 1416, effective June 4, 2006

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

(Supp. 06-2).

R20-5-1007. Notice of Right of Review

- A. A determination issued under A.R.S. § 23-357 shall include a notice informing the parties of their right to seek review under A.R.S. § 23-358 and § 12-901 et seq.
- B. The Department shall serve a determination on the parties by regular mail.

Historical Note

Adopted effective January 26, 1988 (Supp. 88-1). R20-5-1007 recodified from R4-13-1007 (Supp. 95-1). Former R20-5-1007 renumbered to R20-5-1008; new R20-5-1007 renumbered from R20-5-1006 and amended by final rulemaking at 12 A.A.R. 1416, effective June 4, 2006 (Supp. 06-2).

R20-5-1008. Payment of Claim

- A. The Department shall send any payment of a wage claim received by the Department to the claimant by certified mail, return receipt requested.
- B. If the Department discovers that payment of a wage claim is alleged to have been made directly to the claimant, the Department shall verify the payment by sending a letter to the claimant by regular mail. If the claimant does not respond to the Department's letter within 10 days of the date of the Department's letter, the Department shall deem the claim to have been paid.
- C. Payment of a partial amount of a wage claim does not preclude the Department from completing its investigation of the balance of the claim.
- D. In the case of a determination and directive for payment issued by the Department under A.R.S. § 23-357, the Department shall, if the employer agrees and with the written consent of the claimant, enter into a payment agreement with the employer for payment of the amount of wages found to be owed the claimant.

Historical Note

New R20-5-1008 renumbered from R20-5-1007; Section amended by final rulemaking at 12 A.A.R. 1416, effective June 4, 2006 (Supp. 06-2).

R20-5-1009. Service of Determinations, Notices, and Other Documents

- A. A determination, notice, or other document required by this Article or other law to be mailed or served upon a party, shall be made upon the party, or, if represented by legal counsel, the party's legal counsel. Service upon legal counsel is considered service upon the party.
- B. Service may be made and is deemed complete by depositing the document in regular or certified mail, addressed to the party served at the address shown in the records of the Department, or by personal delivery upon the party.

Historical Note

New Section made by final rulemaking at 12 A.A.R. 1416, effective June 4, 2006 (Supp. 06-2).

ARTICLE 11. SELF-INSURANCE FOR INDIVIDUAL EMPLOYERS**R20-5-1101. Definitions**

In addition to the definitions provided in A.R.S. § 23-901, the following definitions apply to this Article:

"Act" means the Arizona Workers' Compensation Act, A.R.S. § 23-901 et seq.

"Affiliate" or "affiliate relationship" means a person or entity that has the power to control, directly or indirectly, through one or more intermediaries, another person or entity.

"Anniversary date" means the date beginning one year from the initial effective date of the Authorization to Self-insure.

"Applicant" means an individual employer filing an initial application for authority to self-insure under A.R.S. § 23-961.

"Authorized signature" means the signature of an officer of the self-insurer.

"Cash-flow ratio" means a numerical relationship that reflects an ability to meet current financial obligations out of cash flow and is calculated by dividing funds provided by operations of a business by current liabilities.

"Chief counsel" means the chief counsel for the Industrial Commission of Arizona.

"Claim" means a worker's compensation claim.

"Claims Division," means the Claims Division of the Industrial Commission of Arizona.

"Classification code" means a number assigned by an approved rating organization that classifies employees by type of job performed.

"Control" means the possession, direct or indirect, of power to direct or cause the direction of, the management and policies of a person or entity, whether through the ownership of voting securities, by contract, or otherwise.

"Current ratio" means a numerical relationship that reflects an ability to pay current obligations and is calculated by dividing current assets by current liabilities.

"Debt-status ratio" means a numerical relationship that reflects the proportion of funds supplied internally relative to the funds contributed by creditors and is calculated by dividing net worth by total liabilities.

"Division" means the Accounting Division of the Industrial Commission of Arizona.

"Ex-medical plan" means a method of determining the premium upon which taxes are calculated that provides for rate revisions based upon the self-insurer operating a medical facility with a program for providing medical, surgical, or hospital services to a majority of the self-insurer's employees and that complies with the requirements of A.R.S. § 23-1070. Neither losses nor incurred loss reserves are used in this plan.

"Excess insurance carrier" means an insurance carrier authorized to issue policies of excess insurance coverage to a self-insured employer.

"Experience modification rate" means a ratio comparing actual losses to expected losses based on a formula determined by an approved rating organization and which includes three years of loss information.

"Fixed premium plan" means a method of determining the premium upon which taxes are calculated in which neither losses nor incurred loss reserves are used for calculation. The only discount is for premium size.

"Fully-funded risk management fund" means a fund that maintains a positive equity balance that is sufficient to cover all of the fund's actuarial losses.

"Guaranteed cost plan" means a method of determining the premium upon which taxes are calculated that provides for a direct relationship, on an annual basis, of the premium for tax purposes and the experience modification rate developed to reflect the loss payment and incurred loss experience of the self-insured employer.

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

“Individual employer” means an employer under the Act that is applying for authority to self-insure, or is approved to self-insure, that is not an entity described in A.R.S. § 23-961.01; § 11-952.01; or § 41-621.01.

“Parent company” means one that owns sufficient stock in a subsidiary company to have voting control of the subsidiary company, as “control” is defined in this Article.

“Profitability ratio” means a numerical relationship that represents the return on assets and the efficiency of assets and is calculated by dividing profit before taxes by total assets, multiplied by 100 expressed as a percentage.

“Public entity” means an individual employer that is a state, county, municipality, school district, or any other entity with taxing authority.

“Quick ratio” means a numerical relationship that represents the degree to which liabilities are covered by the most liquid current assets and is calculated by dividing cash and equivalents, plus receivables, by current liabilities.

“Rating organization,” means an entity that meets the requirements of A.R.S. § 20-363, and is approved by the Arizona Department of Insurance to establish rates, codes, and formulas used to calculate worker compensation premiums.

“Resolution of Authorization” means a document issued by the Commission that grants authority to self-insure for purposes of workers’ compensation.

“Retrospective rating plan” means a method of determining the premium upon which taxes are calculated that provides for the relationship between the premium for tax purposes, the experience modification rate developed to reflect the loss payment and incurred loss experience of the self-insured employer, and the actual incurred losses for the tax year.

“Securities” or “security” means a guaranty bond, a bond of the United States or its agencies, United States’ Treasury Notes, a letter of credit, or Local Government Investment Pool (LGIP) funds, or appropriate documents renewing or continuing any of these.

“Self-insurer” or “self-insured” means an individual employer that the Commission authorizes to self-insure for workers’ compensation insurance under A.R.S. § 23-961.

“Working capital ratio” means a numerical relationship that measures the sufficiency of working capital to support sales and is calculated by dividing working capital by sales. Working capital is calculated by subtracting current liabilities from current assets.

Historical Note

New Section made by final rulemaking at 11 A.A.R. 1008, effective April 4, 2005 (Supp. 05-1).

R20-5-1102. Computation of Time

- A. In computing any period of time prescribed or allowed by this Article, the day of the act or event from which the designated period of time begins to run is not included. The last day of the period computed is included unless it is a Saturday, Sunday, or legal holiday, in which event the period runs until the end of the next day which is not a Saturday, Sunday, or legal holiday. When the period of time prescribed or allowed is less than 11 days, intermediate Saturdays, Sundays, and legal holidays are excluded in the computation.
- B. Except as otherwise provided by law, the Division may extend time limits prescribed by this Article for good cause. Any request for an extension of a time limit shall be submitted to

the Division in writing at least 10 days before the expiration of the time limit for which an extension is sought.

Historical Note

New Section made by final rulemaking at 11 A.A.R. 1008, effective April 4, 2005 (Supp. 05-1).

R20-5-1103. Forms

The following forms are available upon request from the Division or from the Commission’s Internet site at www.ica.state.az.us, and include the following information for each:

- A. Initial application for authority to self-insure:
 1. Legal name of the applicant and requested effective date for authority to self-insure;
 2. Mailing address and telephone number of applicant’s principal Arizona office and home office;
 3. Name of state under which applicant is incorporated, if applicant is a corporation;
 4. Name of parent company, if applicant is a subsidiary;
 5. Name, address, and status of partners (general, special, and limited), if applicant is a partnership;
 6. Length of time in business in Arizona and elsewhere, if applicable;
 7. Nature or type of business in Arizona;
 8. Arizona payroll data;
 9. Current workers’ compensation insurance data, including current expiration date;
 10. Statement of reasons for rejection or cancellation if an application for worker’s compensation insurance submitted by applicant has ever been rejected or a policy of workers’ compensation insurance held by the applicant has ever been cancelled;
 11. Listing of states where self-insurance was denied, if any, and where the applicant is currently self-insured;
 12. Arizona claims history and data for three years preceding application date;
 13. Arizona loss history and experience modification rates for three years preceding application date;
 14. Name of excess insurance carrier;
 15. Name, address, and telephone number of third-party administrator or individual responsible for processing Arizona workers’ compensation claims;
 16. Name and address of Arizona agent upon whom legal notice may be served;
 17. Selection of tax plan;
 18. Name, address, telephone and facsimile number, and e-mail address of person responsible for completing the premium tax information;
 19. Name, address, and telephone number of claims office where Arizona workers’ compensation claims will be processed;
 20. Name, address, telephone and facsimile number, and e-mail address of the primary and secondary points of contact for the application and self-insurance process;
 21. Statement that all information and assertions contained in the application and the documents accompanying the application are factually correct and true; and
 22. Listing of required attachments.
- B. Workers’ compensation liability form:
 1. Name of self-insurer;
 2. Selection and calculation of required securities and excess insurance, which includes calculation and reporting the following:
 - a. For all claims reported in the current calendar year, the number of open claims, total incurred liability, both medical and compensation, less the amount

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

- paid on these claims to equal the remaining liability or amount owing on these claims;
 - b. For all open claims incurred in prior years and remaining open in the current year, the number of open claims, the total incurred liability, both medical and compensation, less the amount paid on these claims to equal the remaining liability or amount owing on these claims;
 - c. The total remaining liability on all open claims less any reimbursement for excess insurance ceded to equal the net remaining liability owing on all claims; and
 - d. The amount calculated in subsection (B)(2)(c) multiplied by 125%;
- 3. Name of excess insurance carrier that provides reimbursement to self-insurer; and
- 4. A statement by the Chief Financial Officer or Chief Executive Officer attesting to the truthfulness of the information contained in the Workers' Compensation Liability Form;
- C. Self-insurance workers' compensation guaranty bond:
 - 1. Name of self-insurer;
 - 2. Name of the surety insurance company;
 - 3. Description of the bond, bond number, amount, and conditions of obligation;
 - 4. Statement regarding the responsibility for fees and costs associated with the collection of the bond and the responsibility for payment of any award or judgment against the surety; and
 - 5. Request for authorized signatures and titles of self-insurer, surety, and agent or attorney-in-fact, and a notarized power of attorney, and date of signing.
- D. Parent company guaranty:
 - 1. Name and state of incorporation of parent company;
 - 2. Name of self-insured subsidiary to be included in the guaranty;
 - 3. Statement that the parent company will assume the workers' compensation liabilities of the subsidiary if the subsidiary is unable to honor these liabilities, which guarantee is for the benefit of and may be enforced by any and all employees of subsidiary; and
 - 4. Corporate seal.
- E. Self-insured payroll report:
 - 1. Name of self-insured;
 - 2. Tax plan selection;
 - 3. Period covered by report;
 - 4. Payroll description (classification codes, methods, and types of pay);
 - 5. Amount paid for period covered by the report;
 - 6. Statement that all information contained in the report is correct; and
 - 7. Request for authorized signature, date, title, and telephone number of person signing the form.
- F. Self-insured medical report:
 - 1. Name of self-insured;
 - 2. Period covered by report;
 - 3. Amount paid relating to treatment of industrial injuries, including payment of medical personnel employed by the self-insurer and medical providers providing outside services;
 - 4. Compensation paid to worker's compensation claimants;
 - 5. Insurance premiums paid;
 - 6. Total expenditures for workers' compensation and occupational disease claims;
 - 7. Statement that all information contained in the report is correct; and
- 8. Request for authorized signature, date, title, and telephone number of person signing the form.
- G. Self-insured hospital report:
 - 1. Name of self-insurer;
 - 2. Period covered by report;
 - 3. Amount paid for operational expenses, including payroll, employee benefits, surgeon and physician fees, pharmacy costs, miscellaneous supplies and services, utilities, depreciation, licenses, and taxes;
 - 4. Amount of revenue, including charges for inpatient and outpatient care, miscellaneous revenue, employee-paid premiums, and employer-paid premiums;
 - 5. Reconciliation of cash account, including cash balance, total cash available, investments, operating expenses, disbursements, and net cash balance;
 - 6. Statement that all information contained in the report is correct; and
 - 7. Request for authorized signature, date, title, and telephone number of person signing the form.
- H. Self-insured injury report:
 - 1. Name of self-insurer;
 - 2. Period covered by report;
 - 3. Description of individual claims for the current year and three preceding years requiring payment greater than \$5,000.00 for each claim, including name of claimant, date of injury, nature of injury, accumulated amount paid, and the amount of any expenses incurred but not paid;
 - 4. The total amount paid, and the amount of any expenses incurred but not paid, for the current year and three preceding years for all claims requiring a total payment less than \$5,000.00 for each claim;
 - 5. Statement that all information contained in the report is correct; and
 - 6. Request for authorized signature, date, title, and telephone number of person signing the form.
- I. Quarterly tax payment:
 - 1. Name and address of the self-insurer;
 - 2. Designation of the applicable quarter;
 - 3. Amount of annual tax paid in the previous calendar year; amount of the quarterly tax paid adjusted for any change in the tax rate for the applicable quarter;
 - 4. Statement that all information contained in the form is correct; and
 - 5. Request for authorized signature, date, title, and telephone number of person signing the form.
- J. Notice of self-insurer's termination of self-insurance:
 - 1. Name, address, and telephone number of self-insurer and all Arizona subsidiaries covered under the authority to self-insure, including if applicable:
 - a. Names and addresses of all Arizona operations or locations covered by self-insurance authority;
 - b. Names and addresses of all partners, if self-insurer is a partnership; and
 - c. Current and former names of self-insurer if the self-insurer has undergone a name change since the most recent effective date of the authority to self-insure;
 - 2. Effective date of termination of authority to self-insure;
 - 3. Name and address of workers' compensation insurance carrier providing coverage after the effective date of termination;
 - 4. For the new coverage; effective date of workers' compensation coverage;
 - 5. Statement that all information contained in the form is correct; and
 - 6. Request for authorized signature, date, title, and telephone number of person signing the form.

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

K. Self-provider of medical benefits:

1. Indication of whether the self-insurer is, or is not, directing medical care for all of its employees;
2. If the self-insurer is directing medical care for its employees, the self-insurer shall:
 - (a) Attach a copy of all contracts between the self-insurer and the medical providers; or
 - (b) Submit a list of names and addresses of all medical providers with whom the self-insurer contracts; and
 - (c) The effective date of the agreements between the employer and medical provider; and
3. Authorized signature, date, and title of person signing the form.

Historical Note

New Section made by final rulemaking at 11 A.A.R. 1008, effective April 4, 2005 (Supp. 05-1).

R20-5-1104. Commission Approval to Act as Self-insurer

An employer does not have authority to act as a self-insurer under A.R.S. § 23-961 unless:

1. The Commission authorizes the employer to be self-insured; and
2. Except as provided in R20-5-1114, the employer posts security in an amount as required under this Article.

Historical Note

New Section made by final rulemaking at 11 A.A.R. 1008, effective April 4, 2005 (Supp. 05-1).

R20-5-1105. Resolution of Authorization

The Commission shall issue a Resolution of Authorization to an applicant that meets the requirements of this Article. The Commission shall annually review and renew a Resolution of Authorization to self-insure. The authority to self-insure is valid and continues in effect until the Commission takes action under this Article or the self-insured terminates its authorization to self-insure under R20-5-1136.

Historical Note

New Section made by final rulemaking at 11 A.A.R. 1008, effective April 4, 2005 (Supp. 05-1).

R20-5-1106. Time-frames**A. Administrative completeness review.**

1. Initial application.
 - a. The Division shall review an initial application for authority to self-insure within 20 days of receipt of the application to determine whether the application contains the information required by A.R.S. § 23-961 and this Article.
 - b. The Division shall inform the applicant by written notice if the application is incomplete. The Division shall include in its written notice to the applicant, a list of the missing information necessary to comply with this Article.
 - c. The Division shall deem the application withdrawn if the applicant fails to post security as required under this Article or fails to file a completed application within 10 days of being notified by the Division that the application is incomplete, unless the applicant obtains an extension to provide the missing information under subsection (D).
2. Request for renewal.
 - a. The Division shall review a request for renewal within 10 days of receipt of the request to determine whether the request contains the information in A.R.S. § 23-961 and this Article.

- b. The Division shall inform a self-insurer by written notice if the request for renewal is incomplete. The Division shall include in its written notice to the self-insurer, a list of the missing information necessary to comply with this Article, and the right to request an extension under subsection (D).

B. Substantive review.

1. Initial application. Within 70 days after the Division determines an initial application complete, the Commission shall determine whether the initial application for authority to self-insure meets the substantive criteria of A.R.S. § 23-961 and this Article and shall issue either a Resolution of Authorization granting authority to self-insure, or an order denying authority to self-insure.
2. Request for renewal. Within 60 days after the Division receives all the required information under this Article, the Commission shall determine whether a request for renewal for authority to self-insure meets the substantive criteria of A.R.S. § 23-961 and this Article and shall renew the self-insurer's authority to self-insure, or issue an order denying or revoking authority to self-insure.

C. Overall time-frame.

1. Initial application. The overall time-frame is 90 days, unless extended under A.R.S. § 41-1072 et seq.
2. Request for renewal. The overall time-frame is 70 days, unless extended under A.R.S. § 41-1072 et seq.

- D. If an applicant or self-insurer cannot timely submit to the Division information to complete an initial application or a request for renewal, the applicant or self-insurer may obtain an extension to submit the missing information by filing a written request with the Division. The written request for extension shall be filed no later than 10 days after receipt of the deficiency notice from the Division. The written request for an extension shall state the reasons the applicant or self-insurer is unable to meet the deadline. If an extension will enable the applicant or self-insurer to assemble and submit the missing information, the Division shall grant an extension of not more than 30 days and provide written notice of the extension to the applicant or self-insurer.

Historical Note

New Section made by final rulemaking at 11 A.A.R. 1008, effective April 4, 2005 (Supp. 05-1).

R20-5-1107. Initial Application under A.R.S. § 23-961

- A. A public entity may file an initial application for authority to self-insure under A.R.S. § 23-961 if the public entity:
 1. Provides an annual payroll in Arizona of at least \$2,000,000; and
 2. Has total assets of at least \$50,000,000.
- B. An individual employer that is not a public entity may file an initial application for authority to self-insure under A.R.S. § 23-961 if the employer:
 1. Is engaged in business in Arizona and has been for at least five years before the date of the initial application;
 2. Provides an annual payroll in Arizona of at least \$2,000,000, including the combined payrolls of all subsidiary companies that will be under the self-insurance authorization;
 3. Meets either of the following thresholds:
 - a. Has assets of at least \$50,000,000; or
 - b. Has \$10,000,000 in net worth and a cash flow ratio of at least .25.
- C. The applicant for authority to self-insure shall complete and file with the Division a typewritten application form approved by the Division. An application is considered filed when it is received at the Division.

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

- D.** The authorized representative of the applicant shall sign and date the initial application.
- E.** The authorized representative signing the initial application shall verify, in writing, that the information submitted with the application is correct.
- F.** The Division shall deem an initial application for authority to self-insure complete if an applicant that is not a subsidiary company provides the following information with the initial application:
1. A statement from the board of directors or governing body:
 - a. Authorizing the filing of the application, and
 - b. Designating the person given authority to sign the application on behalf of the applicant;
 2. A statement classifying the applicant's Arizona employees using the workers' compensation classification codes of the approved rating organization used by the Arizona State Compensation Fund;
 3. A copy of the applicable hospital or medical agreement or a detailed statement of the arrangements between the employer and the medical provider, if medical care is directed under A.R.S. § 23-1070;
 4. If the applicant is not a public entity, a copy of the applicant's audited financial statements or internally-reviewed and signed financial statements for the most current and prior two fiscal years, including any notes to the financial statements;
 5. If the applicant is a public entity, a copy of the applicant's audited financial statement for the most current and prior fiscal year; and
 6. If the applicant is a public entity that qualifies for exemption under R20-5-1114(A), the certified statement required under R20-5-1114(B).
- G.** The Division shall deem an initial application for authority to self-insure complete if an applicant that is a subsidiary company provides the following information with the initial application:
1. The information required in Section (F);
 2. A completed Parent Company Guaranty form signed by the authorized representative of the subsidiary's parent company;
 3. A certified copy of the resolution of the parent company's board of directors authorizing a designated officer to complete, sign, and file the Parent Company Guaranty form; and
 4. A copy of the parent company's audited financial statements for the most current and prior two fiscal years, including any notes to the financial statements.
- authorized representative of the parent company, or if the parent company of the subsidiary is different from the last filing approved by the Commission, a certified copy of the parent company board of director's resolution authorizing a designated officer to complete, sign, and file the Parent Company Guaranty form;
3. Per claim data to support the summary information on the Workers' Compensation Liability form. The self-insurer shall provide this information in the same format as in R20-5-1103(B)(2)(a) and (b);
 4. Deposit of security as shown on the completed Worker's Compensation Liability form no later than the self-insurer's anniversary date subject to R20-5-1127 and R20-5-1128;
 5. A certificate of excess insurance or a continuing certificate of existing excess insurance if the self-insurer takes a credit for excess insurance under R20-5-1109;
 6. If medical care is directed under A.R.S. § 23-1070, a copy of the current medical or hospital medical agreement, or detailed statement of the arrangements, if not previously provided;
 7. A statement of the total number of full-time and part-time Arizona employees;
 8. If the Division determines that the self-insurer's denial rate exceeds 12% of claims filed, a statement from the self-insurer identifying the reason for each denial of a workers' compensation claim;
 9. If the Division determines that the self-insurer's experience modification rate is greater than 1.10, a statement from the self-insurer identifying the reasons for that level of losses;
 10. Name of the third-party administrator;
 11. Principal location of the self-insurer in Arizona;
 12. A description of the self-insurer's current business in Arizona and a description of any changes in the nature of business in Arizona in the past year;
 13. List of any subsidiary company located in Arizona; and
 14. Primary and secondary points of contact, including addresses, telephone numbers, facsimile numbers, and e-mail information.
- B.** A self-insurer that is exempt from the requirement to post security, shall request renewal of authorization to self-insure by filing an annual statement described under R20-5-1114(B) no later than the employer's anniversary date. The Commission shall deem the request for renewal complete if the self-insurer provides the following:
1. Information required under subsections (A)(1), (A)(7) through (A)(10) and (A)(14); and
 2. A certified statement that contains the information described in R20-5-1114 (A) and (B).

Historical Note

New Section made by final rulemaking at 11 A.A.R. 1008, effective April 4, 2005 (Supp. 05-1).

R20-5-1108. Self-insurance Renewal

- A.** A self-insurer that is required to post security under this Article shall request renewal of authorization to self-insure with the Division 30 days before the self-insurer's anniversary date, by filing a Workers' Compensation Liability form. The Commission shall deem the request for renewal complete if the self-insurer provides the following:
1. A copy of the self-insurer's most recent audited annual financial statement or internally reviewed and signed financial statement or annual report. A parent company shall submit a copy of its most recent audited annual financial statement or annual report;
 2. If the self-insured company is a subsidiary, a completed Parent Company Guaranty form signed and dated by the

Historical Note

New Section made by final rulemaking at 11 A.A.R. 1008, effective April 4, 2005 (Supp. 05-1).

R20-5-1109. Security Deposit; Excess Insurance Policy

- A.** Except as provided in R20-5-1114, an applicant authorized to self-insure under this Article shall post security in the amount of at least \$100,000.00 under A.R.S. § 23-961. The self-insurer shall not reduce or offset this minimum amount by any credit for excess insurance.
- B.** Except as provided in R20-5-1114, and subject to the minimum security requirement of A.R.S. § 23-961, a self-insurer filing a request to renew its authority to self-insure under R20-5-1108 shall post security in an amount equal to 125% of its total estimated future liability, or in an amount determined by the Division under R20-5-1127.

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

- C. Subject to review by the Commission, the self-insurer shall determine its total estimated liability by using the Workers' Compensation Liability form.
- D. The Commission shall approve a credit for excess insurance against the amount of security required under this Article only if the following criteria are met:
 1. The self-insurer satisfies the minimum-security requirement of A.R.S. § 23-961,
 2. The self-insurer does not reduce or offset the minimum-security amount by an excess insurance,
 3. The self-insurer calculates the credit on the Workers' Compensation Liability form,
 4. The excess insurance policy contains a 60-day notice of termination,
 5. The excess insurer does not have an affiliate relationship with the self-insurer,
 6. The excess insurance policy provides that the insolvency of the self-insurer does not relieve the excess insurer of liability under the policy, and
 7. The excess insurer posts a deposit under A.R.S. § 23-961(D).
- E. If an excess insurance provider gives the self-insurer notice of its intent to terminate the policy, the self-insurer shall immediately:
 1. Provide written notice of the notice of termination to the Division, and
 2. Deposit security as shown on the Worker's Compensation Liability form without credit for the excess insurance.

Historical Note

New Section made by final rulemaking at 11 A.A.R.
1008, effective April 4, 2005 (Supp. 05-1).

R20-5-1110. Posting of Guaranty Bond; Bond Amount; Effective Date

- A. A self-insurer shall ensure that a guaranty bond or rider for the guaranty bond filed with the Division bears the same effective date as the effective date of the Resolution of Authorization to self-insure.
- B. The Commission shall permit the self-insurer to post a guaranty bond or rider of the guaranty bond instead of other security if:
 1. The insurance carrier providing the guaranty bond or rider submits the bond or rider to the Division on a form approved for use by the Division;
 2. The guaranty bond is continuous in form;
 3. The penal sum of the guaranty bond or rider equals the amount the self-insured must post as security under this Article;
 4. The company issuing the guaranty bond or rider is authorized and licensed to transact the business of surety insurance in Arizona;
 5. An authorized agent of the surety executes the guaranty bond or rider;
 6. The bond is signed and dated by an authorized representative of the self-insurer;
 7. The surety issuing the bond or rider does not have an affiliate relationship with the applicant or self-insurer; and
 8. The surety issuing the guaranty bond or rider has a rating with A.M. Best of at least A-.
- C. A guaranty bond or rider is subject to annual change based on unpaid liabilities as reported by the self-insurer on the Workers' Compensation Liability form.

Historical Note

New Section made by final rulemaking at 11 A.A.R.

1008, effective April 4, 2005 (Supp. 05-1).

R20-5-1111. Posting of Other Bonds or Treasury Notes of the United States Instead of Guaranty Bond; Registration; Deposit

- A. Instead of providing a guaranty bond under R20-5-1110, a self-insurer may deposit with the Commission for transmittal through the Arizona State Treasurer to the Treasurer's designated bank, bonds or treasury notes of the United States of America if the bonds or treasury notes are guaranteed as to principal and interest by the United States of America or by any agency or instrumentality of the United States of America.
- B. The self-insurer shall ensure that bonds or treasury notes of the United States of America deposited with Commission under this subsection are registered to: "The Industrial Commission of Arizona, in trust for the fulfillment by ----- of its obligations under the Arizona Workers' Compensation Laws." The self-insured shall ensure that any contract between the self-insured and the custodial bank provides that the bonds or treasury notes are held for: "The Industrial Commission of Arizona, in trust for the fulfillment by ----- of its obligations under the Arizona Workers' Compensation Laws."
- C. If one or more of the self-insurer's claims are assigned to the state compensation fund under A.R.S. § 23-966, the Commission shall:
 1. Collect or order collection of the principal, or market value of the security, whichever is greater, as it becomes due;
 2. Sell or order the sale of the security or any part of the security; or
 3. Apply or order the application of the proceeds to the payment of any unpaid obligations of the self-insurer, as determined by the Commission, in the event of the default in the payment of its obligations.
- D. The self-insurer may arrange for interest on bonds or treasury notes of the United States of America deposited under this subsection to be paid to the self-insurer.
- E. Bonds or treasury notes deposited according to this Article by a self-insurer shall be in an amount not less than the security deposit amount required under R20-5-1109.

Historical Note

New Section made by final rulemaking at 11 A.A.R.
1008, effective April 4, 2005 (Supp. 05-1).

R20-5-1112. Letter of Credit or Local Government Investment Pool Funds (LGIP)

- A. Letter of Credit:
 1. A self-insurer may satisfy the provision of R20-5-1110 by filing a letter of credit.
 2. The self-insurer shall ensure that the letter of credit is registered to: "The Industrial Commission of Arizona, in trust for the fulfillment by ----- of its obligations under the Arizona Workers' Compensation Laws."
 3. The self-insurer shall ensure that the letter of credit is issued by a federal or Arizona chartered bank with an Arizona branch office or correspondent bank in Arizona upon which demand may be made and from which funds will be immediately payable on demand.
 4. The letter of credit is acceptable only if:
 - a. The letter includes the name and address of the self-insurer, including all Arizona subsidiaries;
 - b. Is for a period of one year from the effective date;
 - c. Includes a provision that the letter of credit automatically extends for consecutive periods of one year, unless the issuing bank provides written notice to the Division 30 days before the expiration of any one-year term that the issuing bank will not renew the letter of credit for the additional period;

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

- d. Includes a provision that the written notice required in subsection (A)(4)(d) may be delivered to the Division or sent to the Division by United States Mail, certified mail return receipt requested;
- e. The letter of credit states the amount available under the letter of credit; and
- f. The self-insurer ensures that the letter of credit includes a statement that the sum available under the letter of credit shall be paid to the Industrial Commission of Arizona upon receipt by the issuing bank of a signed statement by an official of the Commission stating the following:
 - i. The self-insurer has failed to comply with its workers' compensation obligations; or
 - ii. The self-insurer has failed to renew or substitute acceptable security for its workers' compensation liability 15 days before the expiration of the letter of credit.

B. Local Government Investment Pool Funds (LGIP):

- 1. Instead of posting a guaranty bond, letter of credit, or United States of America bonds or Treasury Notes, a self-insured public agency may post a local government investment pool (LGIP) fund only if:
 - a. The self-insurer ensures that the funds are deposited through the Arizona State Treasurer as custodian subject to the order of, and in trust for, the Industrial Commission of Arizona, registered and assigned to: "The Industrial Commission of Arizona, in trust for the fulfillment by ----- of its obligations under the Arizona Workers' Compensation Laws;"
 - b. The LGIP funds posted as security in compliance with this Section are in an amount not less than the security deposit amount required under R20-5-1109;
 - c. The Commission has the ability to:
 - i. Collect or order collection of the funds; and
 - ii. Apply or order the application of the funds to the payment of any award rendered against the self-insurer, as determined by the Commission, if the self-insurer defaults in any of its obligations;
 - d. The self-insurer submits an assignment for the benefit of the Industrial Commission of Arizona, and an Endorsement-Receipt for Notice of Assignment, signed by the State of Arizona Treasurer and notarized. The Endorsement-Receipt shall contain the following language: Receipt is hereby acknowledged by the Treasurer of the State of Arizona of written notice of the assignment to the Industrial Commission ("Commission") of the above-identified account. We have noted our records to show the interest of the Commission in said account as shown in and by the above assignment. We have retained a copy of this document. We hereby certify that we have not received any notice of lien, encumbrance, hold, claim, or other obligation against the above-identified account prior to its assignment to the Commission. We further hereby waive any current or future right of set-off against such account. We agree to make payment as required by the Rules and Regulations of the Commission adopted in accordance with applicable laws and the law applicable to this institution.
- 2. Interest on the funds deposited under this Section may be remitted by the State of Arizona Treasurer directly to the self-insurer.

Historical Note

New Section made by final rulemaking at 11 A.A.R. 1008, effective April 4, 2005 (Supp. 05-1).

R20-5-1113. Substitution of Securities

The Commission may authorize the return a self-insurer's security deposit with written approval from the Division. The Commission shall not authorize the return or release of security unless the self-insurer substitutes the security with new security in an amount sufficient to satisfy the self-insurer's obligations under R20-5-1109.

Historical Note

New Section made by final rulemaking at 11 A.A.R. 1008, effective April 4, 2005 (Supp. 05-1).

R20-5-1114. Exemption from Requirement to Post Security

- A.** Conditions to qualify for exemption. A public entity applicant or public entity self-insurer is exempt from the requirements under this Article to post or provide security if the public entity:
 - 1. Has a fully-funded risk management fund sufficient to cover actuarial liabilities for workers' compensation as determined by the self-insurer in accordance with Government Accounting Standards Board Statement #10; and
 - 2. Provides funding to the risk management fund each year sufficient to cover actuarial liabilities for workers' compensation as determined by the self-insurer in accordance with Government Accounting Standards Board Statement #10.
- B.** Written request for exemption. A public entity applicant or public entity self-insurer that requests exemption from posting security shall file a certified statement along with its Workers' Compensation Liability form with the Commission before the effective date of initial self-insurance or before the anniversary date, if a renewal, that contains the following:
 - 1. A statement that the public entity meets the conditions required under subsection (A);
 - 2. A statement that the governing body of the public entity shall immediately notify the Commission and provide security required under this Article if the governing body learns that the risk management fund has insufficient funds to cover all workers' compensation liabilities of the public entity self-insurer;
 - 3. The signatures of a majority of the members of the public entities' governing body; and
 - 4. If the Commission has previously authorized the public entity to self-insure its workers' compensation obligations, a statement requesting the return of security previously posted or provided to the Commission, including a specific description of the type and amount of security previously posted or provided.
- C.** Approval or denial of request for exemption.
 - 1. If the Commission determines that a self-insurer qualifies for exemption under this Section, the Division shall return to the self-insurer security previously posted or provided to the Commission, within 30 days after receiving written notice under subsection (B).
 - 2. If the Commission denies a request for exemption under this subsection, the Commission shall provide written notice to the public entity within 10 days of the initial written request. The applicant or self-insurer has 10 days from the date the Commission's notice is received to request a hearing under A.R.S. § 23-945.
- D.** Failure to comply with conditions of exemption. The Commission shall order a self-insurer exempt under subsection (A) to immediately file with the Commission a completed, dated, and signed Workers' Compensation Liability form and post or pro-

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

vide security as required under this Article if any of the following occurs:

1. The self-insurer fails to file the certified statement to request renewal of self-insurance authority;
2. The self-insurer fails to comply with the conditions in subsection (A); or
3. The Commission determines, based upon receipt of information under subsection (B), or its own review, that the self-insurer's risk management fund has insufficient funds to cover all actuarial liabilities for workers' compensation liabilities of the self-insurer.

Historical Note

New Section made by final rulemaking at 11 A.A.R. 1008, effective April 4, 2005 (Supp. 05-1).

R20-5-1115. Rating Plans Available for a Self-insurer

- A. A self-insurer shall use one of the following rating plans to calculate the premium taxes required under A.R.S. §§ 23-961 and 23-1065:
 1. Fixed-premium plan;
 2. Ex-medical plan;
 3. Guaranteed-cost plan; or
 4. Retrospective-rating plan.
- B. The provisions of the rating plans apply only to operations and payroll in Arizona. The self-insurer shall combine all operations in Arizona as a single base to calculate any premium modification.

Historical Note

New Section made by final rulemaking at 11 A.A.R. 1008, effective April 4, 2005 (Supp. 05-1).

R20-5-1116. Fixed-Premium Plan; Formula; Eligibility; Necessary Information for Plan

- A. The Division shall calculate the net taxable premium under a fixed-premium plan as follows: payroll multiplied by the applicable workers' compensation rate minus the premium discount.
- B. A self-insurer shall use a fixed-premium plan to calculate its net taxable premium if:
 1. The self-insurer elects this plan;
 2. The self-insurer's annual net taxable premium does not exceed \$100,000; or
 3. The self-insurer is not eligible for any other plan authorized by the Commission under this Article.
- C. A self-insurer shall provide the following information in support of the fixed-premium plan:
 1. Self-insurer's Payroll Report,
 2. Self-insurer's Medical Report, and
 3. Self-insurer's Quarterly Tax Payment form.

Historical Note

New Section made by final rulemaking at 11 A.A.R. 1008, effective April 4, 2005 (Supp. 05-1).

R20-5-1117. Ex-medical Plan; Formula; Eligibility; Necessary Information for Plan

- A. The Division shall calculate the net taxable premium under an ex-medical plan as follows: [(payroll multiplied by the applicable workers' compensation rate) multiplied by (1 minus the ex-medical factor)] minus the premium discount.
- B. A self-insurer may use the ex-medical plan if:
 1. The self-insurer's program for medical, surgical, or hospital services meets the requirements of A.R.S. § 23-1070; and
 2. The self-insurer's annual net taxable premium exceeds \$100,000.

- C. A self-insurer shall provide the following information in support of the plan submitted under this Section:

1. Self-insurer's Payroll Report,
2. Self-insurer's Hospital Report,
3. Self-insurer's Medical Report, and
4. Self-insurer's Quarterly Tax Payment form.

Historical Note

New Section made by final rulemaking at 11 A.A.R. 1008, effective April 4, 2005 (Supp. 05-1).

R20-5-1118. Guaranteed-Cost Plan; Formula; Eligibility; Necessary Information for Plan

- A. The Division shall calculate the net taxable premium under a guaranteed-cost plan as follows: [(payroll multiplied by the applicable worker's compensation rate) multiplied by (the experience modification rate) minus the premium discount].
- B. A self-insurer may use the guaranteed-cost plan if:
 1. The self-insurer has an annual net taxable premium exceeding \$100,000; and
 2. Uses an experience modification rate calculated as follows:
 - a. In the first year of self-insurance, the experience modification rate is 1.0;
 - b. In the second and third years of self-insurance, the Division calculates the experience modification rate based upon the loss data accumulated by the self-insurer during its term of self-insurance; and
 - c. In the fourth year of self-insurance and all following years, the Division calculates the experience modification rate based upon the most recent three years of loss data provided on the Self-insured Injury Report, excluding the most recent year.
- C. A self-insurer shall provide the following information in support of the guaranteed-cost plan:
 1. Self-insurer's Payroll Report,
 2. Self-insurer's Medical Report,
 3. Self-insurer's Injury Report, and
 4. Self-insurer's Quarterly Tax Payment form.

Historical Note

New Section made by final rulemaking at 11 A.A.R. 1008, effective April 4, 2005 (Supp. 05-1).

R20-5-1119. Retrospective-Rating Plan; Formula; Eligibility; Necessary Information for Plan

- A. The Division shall calculate the net taxable premium under a retrospective-rating plan as follows: [(payroll multiplied by the applicable worker's compensation rate multiplied by the experience modification rate multiplied by the basic premium factor) added to (losses for the current year plus adjusted losses from the previous year) multiplied by (the loss conversion factor)] multiplied by the tax multiplier. The net taxable premium is subject to a maximum and minimum premium level.
- B. A self-insurer may use the retrospective-rating plan if:
 1. The self-insurer has an annual net taxable premium exceeding \$100,000; and
 2. The Division calculates the experience modification rate as follows:
 - a. In the first year of self-insurance, the experience modification rate is 1.0;
 - b. In the second and third years of self-insurance, the Division calculates the experience modification rate based upon the loss data accumulated by the self-insurer during its term of self-insurance; and
 - c. In the fourth year of self-insurance and all following years, the Division calculates the experience modifi-

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

cation rate based upon the most recent three years of loss data provided on the Self-insured Injury Report, excluding the most recent year. The Division shall use the most recent year's data to calculate the actual premium tax.

- C. A self-insurer shall provide the following information in support of the retrospective-rating plan:
1. Self-insurer's Payroll Report;
 2. Self-insurer's Medical Report;
 3. Self-insurer's Injury Report; and
 4. Self-insurer's Quarterly Tax Payment form.

Historical Note

New Section made by final rulemaking at 11 A.A.R. 1008, effective April 4, 2005 (Supp. 05-1).

R20-5-1120. Completion of Reports in Support of Tax Rating Plan; Calculation and Payment of Taxes Owed by Self-insurer under A.R.S. §§ 23-961 and 23-1065

- A. A self-insurer shall submit to the Division the information required in R20-5-1116, R20-5-1117, R20-5-1118, or R20-5-1119 by February 15 of each year.
- B. After receiving the information required under A.R.S. § 23-961, § 23-1065, and this Article, the Division shall determine the annual taxes owed by the self-insurer. The Division shall determine whether the self-insurer has overpaid or underpaid its taxes for the previous calendar year. If the total of the quarterly payments is less than the actual taxes for the year, the self-insurer shall pay the difference on or before March 31 of the calendar year in which the taxes are due. If the total of the quarterly payments exceeds the amount of the actual taxes for the year, then the Division shall refund the amount described in A.R.S. § 23-961 or § 23-1065 as applicable.
- C. A self-insurer shall pay to the Commission the self-insurer's annual workers' compensation premium taxes on or before March 31 based on the net taxable premium calculated for the preceding calendar year. A self-insurer shall pay a premium tax of at least \$250.00 per calendar year.
- D. The Division shall calculate a self-insurer's quarterly taxes owed under A.R.S. §§ 23-961 and 23-1065 in one of the following ways:
1. 25% of the tax calculated for the previous year; or
 2. A calculation based on actual payroll and losses calculated for each quarter, using the same rating plan to calculate the quarterly payment as used to calculate the taxes required under A.R.S. §§ 23-961 and 23-1065. If the Division selects this method, the self-insurer shall submit quarterly payroll and loss information by classification code.
- E. Quarterly tax payments are due April 30, July 31, October 31, and January 31 for the periods ending March 31, June 30, September 30, and December 31, respectively.
- F. If the self-insurer fails to pay the annual or quarterly taxes to the Commission when due, the self-insurer shall pay a penalty of \$25.00 or 5% of the tax or payment due, whichever is more, plus interest at the rate of 1% per month from the date the tax or payment was due until paid.

Historical Note

New Section made by final rulemaking at 11 A.A.R. 1008, effective April 4, 2005 (Supp. 05-1).

R20-5-1121. Basis for Definitions, Classifications, Rating Procedures, and Plans

The Division shall use the definitions, classifications, rating procedures, and plans specified in the rating systems filed by the rating organization used by the State Compensation Fund under A.R.S.

Title 20, Chapter 2, Article 4 in calculating the net taxable premium under A.R.S. §§ 23-961 and 23-1065.

Historical Note

New Section made by final rulemaking at 11 A.A.R. 1008, effective April 4, 2005 (Supp. 05-1).

R20-5-1122. Report, Book, Record, and Data Review by the Commission

- A. All reports, books, records, and data of a self-insurer relating to classifications, payroll, incurred-loss reserves, calculation of premiums, completion of Workers' Compensation Liability form, and procedures for development of statistical information for the development of rating information are subject to review by the Commission or its authorized representative upon request.
- B. A self-insurer shall ensure that the reports, books, records, and data described in subsection (A) are readily available for review by the Commission.
- C. A self-insurer shall ensure that the reports, books, records, and data described in subsection (A) are clear, valid, and understandable.

Historical Note

New Section made by final rulemaking at 11 A.A.R. 1008, effective April 4, 2005 (Supp. 05-1).

R20-5-1123. Audit and Cost of Audit

The Commission may, at any time, perform or have performed for its benefit an audit of the payroll, loss payment, and loss reserve records for incurred losses of a self-insurer for the purpose of determining the scope and adequacy of the records. The entire cost of the audit shall be borne by the self-insurer.

Historical Note

New Section made by final rulemaking at 11 A.A.R. 1008, effective April 4, 2005 (Supp. 05-1).

R20-5-1124. Requirement to Provide Information to the Commission

A self-insurer shall make available to the Commission, upon request and at an office of the Commission, information described in this Article.

Historical Note

New Section made by final rulemaking at 11 A.A.R. 1008, effective April 4, 2005 (Supp. 05-1).

R20-5-1125. Notice to Commission of Location of Self-insurer's Claims Files

In addition to the requirements found in 20 A.A.C. 5, Article 1, a self-insurer shall advise the Claims Manager of the location of the self-insurer's open and closed workers' compensation claims files. Except for a claims file that is made available for copying and inspection under R20-5-131(C), if a self-insurer or third-party administrator intends to change the location of its claims files, the self-insurer shall provide written notice to the Claims Manager of the change in location at least 30 days before the files are moved.

Historical Note

New Section made by final rulemaking at 11 A.A.R. 1008, effective April 4, 2005 (Supp. 05-1).

R20-5-1126. Processing of Workers' Compensation Claims by a Self-insured Employer

The Claims Division shall permit a self-insurer to process its own workers' compensation claims if the self-insurer provides information and supporting documentation establishing the following:

1. The self-insurer has facilities and equipment to manage, process, and store its own information pertaining to the self-insurer's workers' compensation claims;

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

2. The self-insurer's workers' compensation claims are processed by persons with experience, training by the Claims Division, or knowledge regarding the Arizona Workers' Compensation Act; and
3. The persons processing the self-insurer's workers' compensation claims attend and complete training provided by the Claims Division.

Historical Note

New Section made by final rulemaking at 11 A.A.R. 1008, effective April 4, 2005 (Supp. 05-1).

R20-5-1127. Review of Initial Application and Request for Renewal to Self-insure

A. Upon the filing of a completed initial application or request for renewal, the Division shall:

1. Determine whether the applicant or self-insurer meets the requirements of A.R.S. § 23-961;
2. Determine whether the applicant or self-insurer meets the requirements of this Article. Except for a self-insurer that is exempt under R20-5-1114, the self-insurer shall post security according to R20-5-1109 that is adequate to provide for the self-insurer's future estimated liability. If applicable, the Division shall advise the applicant or self-insurer of the need for additional security, and the self-insurer shall post the additional security before the Commission makes its decision under R20-5-1128;
3. If a self-insurer requests a decrease of 10% or greater in the value or amount of security provided in the prior year, perform an additional review to determine the adequacy of the security deposit, including:
 - a. Mathematical verification of the accuracy of amounts reported on the Workers' Compensation Liability form;
 - b. Review of claims filed for the three preceding years;
 - c. Review of changes in the payroll of the self-insurer to determine changes in employment levels;
 - d. Review of changes in workers' compensation classification codes to determine changes in operations of the company in Arizona; and
 - e. Review of the financial condition of the self-insurer to determine changes in financial stability, including a review of the total incurred liability expenses for the past three years;
4. Determine whether the applicant or self-insurer has the ability to process and pay benefits required under the Arizona Workers' Compensation Act.
 - a. For an applicant that is not a public entity, the Division shall determine whether the self-insurer has the ability to process and pay by:
 - i. Reviewing the financial statements to determine the current ratio, quick ratio, cash-flow ratio, working-capital ratio, debt-status ratio, profitability ratio, and the applicant's net profit or loss;
 - ii. Comparing the applicant's ratios with the ratios of existing self-insurers in the same or a closely related industry;
 - iii. Reviewing notes to the financial statements;
 - iv. Reviewing management reports of operations and other information provided by the self-insurer; and
 - v. Comparing the applicant's ratio of claims filed to total employees with that of other employers within the same or closely related industry;

- b. For an applicant that is a public entity, the Division shall determine whether the self-insurer has the ability to process and pay by:
 - i. Reviewing the public entity's general fund financial statement to determine the cash ratio and fund equity ratio;
 - ii. Reviewing excess revenues over expenditures and the ending balances in the general fund and all fund accounts for the past two years;
 - iii. Reviewing notes to the self-insurer's financial statements;
 - iv. Reviewing management reports of operations and other information provided by the self-insurer;
 - v. Comparing the public entity's ratio of claims filed to total employees with that of other public entities;
 - vi. Comparing cash and fund equity ratios with that of other self-insured public entities; and
 - vii. Reviewing the risk management fund to determine if it is sufficient to pay all workers' compensation liabilities;
- c. For a self-insurer requesting renewal that is not a public entity, the Division shall determine whether the self-insurer has the ability to process and pay by:
 - i. Reviewing the information in subsection (A)(4)(a);
 - ii. Reviewing the claims profile for the past three years, which includes a review of the claims filed, claims denied, and denial rate;
 - iii. Reviewing of the self-insurer's experience modification rate;
 - iv. Comparing of the self-insurer's ratio of claims filed to total employees with that of other self-insurer's; and
 - v. Reviewing the Parent Company Guaranty form; and
- d. For a self-insurer requesting renewal that is a public entity, the Division shall determine whether the self-insurer has the ability to process and pay by:
 - i. Reviewing the information in subsection (A)(4)(b);
 - ii. Reviewing the claims profile for the past three years, including a review of the claims filed, claims denied, and denial rate;
 - iii. Reviewing the self-insured's experience modification rate; and
 - iv. Comparing the self-insurer's ratio of claims filed to total employees with that of other self-insured public entities of similar size.

B. The Division shall present the findings and recommendations of its review to the Commission, and may include a recommendation regarding the adequacy of the security based on its review and determination whether the self-insurer has the ability to process and pay as set forth in subsection (A)(3).

Historical Note

New Section made by final rulemaking at 11 A.A.R. 1008, effective April 4, 2005 (Supp. 05-1).

R20-5-1128. Decision by the Commission on Initial Application or Request for Renewal of Authorization to Self-insure

A. The Commission shall consider the following before granting or denying an initial application or request for renewal to self-insure:

1. The information submitted by an applicant or self-insurer;

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

2. The information and recommendations of the Division; and
 3. The requirements of A.R.S. § 23-961 and this Article, including compliance with the requirement for posting additional security as recommended by the Division under R20-5-1127.
- B.** The Commission shall deny authority to self-insure if the Commission finds one or more of the following conditions:
1. The applicant or self-insurer does not meet the requirements of A.R.S. § 23-961,
 2. The applicant or self-insurer does not meet the requirements of this Article, or
 3. The applicant or self-insurer is unable to process and pay benefits under the Arizona Workers' Compensation Act.
- C.** The Commission may table consideration of, or action on, a request for renewal pending the self-insurer posting additional security based on a Division decision under R20-5-1127 that the posted security is insufficient.
- D.** Whether to grant, deny, or table an application for self-insurance authority shall be made by a majority vote of a quorum of Commission members present when the application for initial authority or renewal is presented at a public meeting.
- E.** If the Commission approves an initial application of an applicant that is not exempt under R20-5-1114:
1. The approval is contingent upon the self-insurer posting the required security;
 2. After the Commission takes action under subsection (D), the Division shall provide written notice to the applicant that the Commission approves the application for self-insurance authority effective on a date certain;
 3. The applicant shall provide to the Commission the required security before the effective date of the authority to self-insure; and
 4. After the applicant complies with the requirements of subsection (E)(3), the Division shall mail a Resolution of Authorization to Self-insure to the last known business address of the applicant.
- F.** If an applicant fails to comply with the requirements of subsection (E)(3), the Commission shall not grant authority to self-insure and the Commission shall deem the initial application withdrawn.
- G.** If the Commission approves an initial application of an applicant exempt under R20-5-1114, the Division shall mail a Resolution of Authorization to Self-insure, to the last known business address of the applicant.
- H.** If the Commission approves a request for renewal of authority to self-insure, or tables consideration of the request for renewal, the Division shall mail written notice of the Commission's action on the request for renewal to the last known business address of the self-insurer.
- I.** If the Commission denies authority to self-insure, the Commission shall issue and mail written findings and an order to the last known business address of the applicant or self-insurer no later than 10 days after the Commission denies authority to self-insure.

Historical Note

New Section made by final rulemaking at 11 A.A.R. 1008, effective April 4, 2005 (Supp. 05-1).

R20-5-1129. Right to Request a Hearing

- A.** An applicant or self-insurer has 15 days from the date the Commission's findings and order is mailed to request a hearing.
- B.** A request for hearing shall comply with A.R.S. § 23-945 and be signed by an authorized representative of the applicant or self-insurer or the applicant's or self-insurer's legal representa-

tive. The applicant or self-insurer shall file the request for hearing with the Division.

- C.** The Commission shall deem its findings and order final if a request for hearing is not received by the Division within the time specified in subsection (A).

Historical Note

New Section made by final rulemaking at 11 A.A.R. 1008, effective April 4, 2005 (Supp. 05-1).

R20-5-1130. Hearing Rights and Procedures

- A.** Burden of proof.
1. Except as provided in subsection (A)(2), in all proceedings arising out of this Article, the applicant or self-insurer has the burden of proof to establish that it has met the requirements of A.R.S. § 23-901 et seq. and this Article.
 2. In a revocation hearing, the Commission has the burden of proof to establish that the self-insurer has committed the acts described in R20-5-1133.
- B.** Roles of Chair and Chief Counsel.
1. The Chair of the Commission or designee shall preside over hearings held under this Article. Except as otherwise provided in this Section, the Chair shall apply the provisions of A.R.S. § 41-1062 to hearings held under this Article and shall have the authority and power of a presiding officer as described in A.R.S. § 41-1062.
 2. The Chief Counsel of the Commission shall represent the Commission in hearings held before the Commission and upon direction of the Chair of the Commission shall issue on behalf of the Commission all notices and subpoenas required under this Section.
- C.** Appearance by a party.
1. Except as otherwise provided by law, a party to a hearing may appear on its own behalf or through counsel.
 2. When an attorney appears or intends to appear before the Commission, the attorney shall file a notice of appearance.
- D.** Filing and service.
1. For purposes of this Section, a document is considered filed when the Commission receives the document. All documents required to be filed under this Section with the Commission shall be served upon the Chief Counsel of the Commission and upon all parties to the proceeding.
 2. Except as otherwise provided in A.R.S. § 23-901, et seq. and this Article, service of all documents upon the Commission, applicant, or self-insurer shall be by personal service or mail. Personal service includes delivery upon the Commission or party. Service by mail includes every type of service except personal service and is complete on mailing.
- E.** Notice of hearing.
1. The Commission shall give the parties at least 20 days notice of hearing.
 2. A notice of hearing shall be in writing and mailed to the last known address of the applicant or self-insurer as shown on the records of the Commission, or upon the applicant's or self-insurer's representative if a notice of appearance has been filed by a representative.
 3. A notice of hearing shall comply with the requirements in A.R.S. § 41-1061.
- F.** Evidence.
1. The civil rules of evidence do not apply to hearings held under this Section.
 2. A party may make an opening and closing statement with the permission of the Chair if the Chair determines that

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

the statement will be helpful to a determination of the issues.

3. All witnesses at a hearing shall testify under oath or affirmation.
 4. A party may present evidence and conduct cross-examination of witnesses.
 5. The Commission Chair may admit documents into evidence if filed no later than 15 days before the date of the hearing. Upon request or upon direction from the Commission Chair, the Commission may issue a subpoena to the author of any document submitted into evidence to appear and testify at the hearing.
 6. Upon written request by a party or upon direction from the Commission Chair, the Commission may issue a subpoena requiring the attendance and testimony of a witness whose testimony is material. A party shall submit its subpoena request no later than 10 days before the date of the hearing.
 7. Upon written request by a party or upon direction from the Commission Chair, the Commission may issue a subpoena duces tecum requiring the production of documents or other tangible evidence. The written request by a party shall contain a statement explaining the general relevance, materiality, and reasonable particularity of the documentary or other tangible evidence and the facts to be proved by them.
- G.** Transcript of Proceedings. The Commission shall stenographically report or electronically record hearings. Any party desiring a copy of transcript shall obtain a copy from the court reporter. Any party desiring a copy of an electronic recording may obtain a copy from the Commission.

Historical Note

New Section made by final rulemaking at 11 A.A.R. 1008, effective April 4, 2005 (Supp. 05-1).

R20-5-1131. Decision Upon Hearing by the Commission

- A.** A decision of the Commission to deny authority to self-insure shall be based upon the grounds in R20-5-1128 and shall be made by a majority vote of the quorum of Commission members present at a public meeting.
- B.** A decision of the Commission to revoke authority to self-insure shall be based upon the grounds in R20-5-1133 and shall be made by a majority vote of the quorum of Commission members present at a public meeting.
- C.** The Commission shall issue a written decision after the hearing that shall include findings of fact and conclusions of law, separately stated.
- D.** The Commission decision is final unless an applicant or self-insurer requests review under R20-5-1132 no later than 15 days after the written decision is mailed to the parties.

Historical Note

New Section made by final rulemaking at 11 A.A.R. 1008, effective April 4, 2005 (Supp. 05-1).

R20-5-1132. Request for Review

- A.** A party may request review of a Commission decision issued under R20-5-1131 by filing with the Commission a written request for review no later than 15 days after the written decision is mailed to the parties.
- B.** A request for review of a Commission Decision shall be based upon one or more of the following grounds, which have materially affected the rights of a party:
1. Irregularities in the hearing proceedings or any order or abuse of discretion that deprives a party seeking review of a fair hearing;

2. Accident or surprise, which could not have been prevented by ordinary prudence;
 3. Newly discovered material evidence that could not have been discovered with reasonable diligence and produced at the hearing;
 4. Error in the admission or rejection of evidence, or errors of law occurring at, or during the course of the hearing;
 5. Bias or prejudice of the Division or Commission; and
 6. The order, decision, or findings of fact are not justified by the evidence or are contrary to law.
- C.** The request for review shall state the specific facts and law in support of the request and shall specify the relief sought.
- D.** The Commission shall issue a decision upon review no later than 30 days after receiving a request for review.
- E.** The Commission's decision upon review is final unless an applicant or self-insurer seeks judicial review as provided in A.R.S. § 23-946.

Historical Note

New Section made by final rulemaking at 11 A.A.R. 1008, effective April 4, 2005 (Supp. 05-1).

R20-5-1133. Revocation of Authorization to Self-insure

- A.** The Commission may revoke a Resolution of Authorization to Self-insure for good cause. Good cause includes any of the following:
1. An inability or failure to process and pay any claim under the Arizona Workers' Compensation Act;
 2. Failure of the self-insurer to pay any taxes levied by the Commission as required under A.R.S. §§ 23-961 and 23-1065 and this Article;
 3. Failure of the self-insurer to comply with the requirements of this Article, including the failure of the self-insurer to:
 - a. Promptly provide the Commission reports or other information required under this Article; and
 - b. File the written Letter of Intent required under R20-5-1135;
 4. Failure or deliberate refusal to comply with the applicable requirements of A.R.S. § 23-901 et seq.;
 5. Failure to pay or comply with any award or order of the Commission after the award or order becomes final;
 6. Willful misstating of any material fact in a tax report, application, renewal documentation, or other report or statement made to or filed with the Commission;
 7. Failure or deliberate refusal to comply with the requirements of 20 A.A.C. 5, Article 1;
 8. Failure to deposit or file security timely as specified in this Article; or
 9. Failure to provide information or documentation necessary to timely renew the Authorization to Self-insure.
- B.** Upon receiving information that a self-insurer has committed an act described in subsection (A), the Division shall conduct an investigation of the facts of the alleged misconduct. If, upon completion of the investigation, the Division determines that sufficient evidence exists to warrant revocation of a self-insurer's authority to self-insure, the Division shall present its findings to the Commission.
- C.** The Commission shall consider the findings and recommendation of the Division before revoking a self-insurer's authorization to self-insure.
- D.** The Commission shall revoke a self-insurer's authority to self-insure if the Commission finds one or more of the grounds in subsection (A). The Commission shall issue written findings and an order revoking the Resolution of Authorization to Self-insure and shall serve a copy of the findings and order upon

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

the self-insurer addressed to the last known address of the self-insurer as shown by the records of the Commission.

- E. A self-insurer has 15 days from the date the Commission serves the findings and order described in subsection (D) to request a hearing. The request for hearing shall comply with the requirements of A.R.S. § 23-945.
- F. R20-5-1130, R20-5-1131, and R20-5-1132 govern hearing rights and procedures for revocation hearings and review.

Historical Note

New Section made by final rulemaking at 11 A.A.R. 1008, effective April 4, 2005 (Supp. 05-1).

R20-5-1134. Notice of Bankruptcy, Change in Ownership Status, or Change in Business Address

- A. A self-insurer shall notify the Commission in writing within 24 hours of any bankruptcy filing under federal law or insolvency proceeding under any state's laws.
- B. A self-insurer shall notify the Commission in writing within 24 hours of any change in the ownership status or business address of the employer.

Historical Note

New Section made by final rulemaking at 11 A.A.R. 1008, effective April 4, 2005 (Supp. 05-1).

R20-5-1135. Plan of Action for Retaining Self-insurance Authority in the Event of Insolvency or Bankruptcy

- A. If a self-insurer becomes insolvent or files for protection under the United States Bankruptcy Code seeking to reorganize, and desires to remain self-insured, it shall file with the Division a written Letter of Intent regarding its intent to reorganize under the applicable provisions of the United States Bankruptcy Code.
 - 1. If the self-insurer is incorporated, the chief executive officer shall sign the Letter of Intent and the board of directors shall approve the Letter if the corporation is still operating;
 - 2. If the self-insurer is not incorporated, an authorized representative of the self-insurer shall sign the Letter of Intent; or
 - 3. An attorney representing the entity in its bankruptcy reorganization case may sign the Letter of Intent instead of the chief executive officer or authorized representative.
- B. The self-insurer shall file the Letter of Intent with the Division within 10 days of the initial bankruptcy filing or insolvency proceeding.
- C. The self-insurer shall ensure that a provision addressing the self-insurer's obligations to workers' compensation claimants and the Commission is included in the Plan of Reorganization filed with the United States Bankruptcy Court. This Plan shall state the self-insurer's intentions and financial ability to continue self-insurance.
- D. During the period between the initial bankruptcy filing and the approval of a Plan of Reorganization or Plan of Liquidation, the self-insurer may continue its self-insurance status only upon the demonstration of adequate protection to cover its current workers' compensation claims, or those claims that may come due before the Bankruptcy Court approves the Reorganization or Insolvency Plan. As part of the adequate protection for the Commission, the self-insurer shall post or deposit additional security in an amount the Commission deems necessary to pay claims currently pending or anticipated before the approval of the Plan of Reorganization or liquidation.
- E. The self-insurer, or its legal representative, shall send a copy of the proposed Plan of Reorganization or Liquidation, including amendments to the Division.

- F. The Commission may file an Objection to the Plan of Reorganization in the appropriate bankruptcy court and take other actions as permitted under the United States Bankruptcy Code if it determines that the Plan of Reorganization or Liquidation does not adequately provide for the processing and payment of the self-insurer's workers' compensation claims.

Historical Note

New Section made by final rulemaking at 11 A.A.R. 1008, effective April 4, 2005 (Supp. 05-1).

R20-5-1136. Notice of Self-insurer's Termination of Self-insurance

- A. A self-insurer shall file with the Division a completed and signed Notice of Self-insurer's Termination of Self-insurance form, if the self-insurer decides to terminate its self-insurance. The Notice of Self-insurer's Termination shall be filed with the Division 30 days before the effective date of termination of self-insurance.
- B. Before the effective date of the termination of self-insurance, the self-insurer shall file a certificate with the Claims Division designating an insurance carrier, or other proof, satisfactory to the Commission, of compliance with the requirements of A.R.S. § 23-961, to cover claims of the self-insurer that:
 - 1. Are pending at that time the self-insurer terminates self-insurance; and
 - 2. Occur after the effective date of the termination of self-insurance.

Historical Note

New Section made by final rulemaking at 11 A.A.R. 1008, effective April 4, 2005 (Supp. 05-1).

ARTICLE 12. ARIZONA MINIMUM WAGE AND EARNED PAID SICK TIME PRACTICE AND PROCEDURE**R20-5-1201. Notice of Rules**

- A. This Article applies to all actions and proceedings before the Industrial Commission of Arizona arising under A.R.S. Title 23, Articles 8 and 8.1.
- B. The Industrial Commission of Arizona shall provide a copy of this Article upon request to any person free of charge.

Historical Note

New Section made by emergency rulemaking at 13 A.A.R. 473, effective January 25, 2007 for 180 days (Supp. 07-1). Emergency renewed at 13 A.A.R. 2785, effective July 17, 2007 for 180 days (Supp. 07-3). New Section made by final rulemaking at 13 A.A.R. 4315, effective January 13, 2008 (Supp. 07-4). Amended by final rulemaking at 23 A.A.R. 2907, effective October 3, 2017 (Supp. 17-4).

R20-5-1202. Definitions

In this Article, the definitions of A.R.S. §§ 23-362 (version two), 23-371, and 23-364 apply. In addition, unless the context otherwise requires, the following definitions shall apply to both the Act and this Article:

- 1. "Act" means A.R.S. Title 23, Chapter 2, Articles 8 and 8.1.
- 2. "Affected employee" means an employee or employees on whose behalf a complaint may be filed alleging a violation under the Act.
- 3. "Amount of earned paid sick time available to the employee" means the amount of earned paid sick time or equivalent paid time off that is available to the employee for use in the current year.
- 4. "Amount of earned paid sick time taken by the employee to date in the year" means the amount of earned paid sick time or equivalent paid time off taken by the employee to

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

- date in the current year. Where an employee has used available equivalent paid time off for either the purposes enumerated in A.R.S. § 23-373 or other purposes, the employer may count that usage towards the “amount of earned paid sick time taken by the employee to date in the year.”
5. “Amount of pay the employee has received as earned paid sick time” means the amount of pay the employee has received as earned paid sick time or equivalent paid time off to date in the current year. Where an employee has received pay for equivalent paid time off for the purposes enumerated in A.R.S. § 23-373 or other purposes, the employer may count that pay towards the “amount of pay the employee has received as earned paid sick time.”
 6. “Authorized representative” means a person prescribed by law to act on behalf of a party who files with the Department a written instrument advising of the person’s authority to act on behalf of the party.
 7. “Casual Basis,” when applied to babysitting services, means employment which is irregular or intermittent.
 8. “Commission” means monetary compensation based on:
 - a. A percentage of total sales,
 - b. A percentage of sales in excess of a specified amount,
 - c. A fixed allowance per unit, or
 - d. Some other formula the employer and employee agree to as a measure of accomplishment.
 9. “Communicable disease” has the meaning prescribed by A.R.S. § 36-661.
 10. “Complainant” means a person or organization filing an administrative complaint under the Act.
 11. “Department” means the Labor Department of the Industrial Commission of Arizona or other authorized division of the Industrial Commission as designated by the Industrial Commission.
 12. “Earned sick time” under A.R.S. § 23-364(G) means earned paid sick time.
 13. “Employee’s regular paycheck” means a regular payroll record that is readily available to employees and contains the information required by A.R.S. § 23-375(C), including physical or electronic paychecks or paystubs.
 14. “Equivalent paid time off” means paid time off provided under a paid leave policy, such as a paid time off policy, that makes available an amount of paid leave sufficient to meet the accrual requirements of the Act that may be used for the same purposes and under the same conditions as earned paid sick time.
 15. “Filing” means receipt of a report, document, instrument, videotape, audiotape, or other written matter at an office of the Department.
 16. The term “health care professional” in A.R.S. § 23-373(G) has the same meaning as “health care professional,” as defined in this Section.
 17. “Health care professional” means any of the following:
 - a. A “physician” as defined by A.R.S. § 36-2351;
 - b. A “physician assistant” as defined by A.R.S. § 32-2501;
 - c. A “registered nurse practitioner” as defined by A.R.S. § 32-1601.
 - d. A certified nurse midwife who is a registered nurse practitioner approved by the Arizona State Board of Nursing to provide primary care services during pregnancy, childbirth, and the postpartum period;
 - e. A dentist licensed under A.R.S. Title 32, Chapter 11, Article 2; or
 - f. A behavioral health provider practicing as:
 - i. A psychologist licensed under A.R.S. Title 32, Chapter 19.1;
 - ii. A clinical social worker licensed under A.R.S. § 32-3293;
 - iii. A marriage and family therapist licensed under A.R.S. § 32-3311; or
 - iv. A professional counselor licensed under A.R.S. § 32-3301.
 18. “Health care provider” has the meaning prescribed by A.R.S. § 36-661.
 19. “Hours worked” means all hours for which an employee covered under the Act is employed and required to give to the employer, including all time during which an employee is on duty or at a prescribed work place and all time the employee is suffered or permitted to work.
 20. “Minimum wage” means the lowest rate of monetary compensation required under the Act.
 21. “Monetary compensation” means cash or its equivalent due to an employee by reason of employment.
 22. “On duty” means time spent working or waiting that the employer controls and that the employee is not permitted to use for the employee’s own purpose.
 23. “Public benefits” has the same meaning as “state or local public benefit,” as prescribed by A.R.S. § 1-502(I).
 24. “Public health emergency” means a state of emergency declared by the governor in which there is an occurrence or imminent threat of an illness or health condition caused by bioterrorism, an epidemic or pandemic disease or a highly fatal infectious agent or biological toxin and that poses a substantial risk of a significant number of human fatalities or incidents of permanent or long-term disability.
 25. “Same hourly rate” means the following:
 - a. For employees paid on the basis of a single hourly rate, “same hourly rate” shall be the hourly rate the employee would have earned for the period of time in which earned paid sick time or equivalent paid time off is used, but shall in no case be less than minimum wage.
 - b. For employees who are paid multiple hourly rates of pay, “same hourly rate” shall be determined in the following order of priority, but shall in no case be less than minimum wage:
 - i. The hourly rate the employee would have earned, if known, for each hour of earned paid sick time or equivalent paid time off used.
 - ii. The weighted average of all hourly rates of pay during the previous pay period.
 - c. For employees who are paid a salary, no additional pay is due when the employee’s use of earned paid sick time or equivalent paid time off results in no reduction in the employee’s regular salary during the pay period in which the earned paid sick time or equivalent paid time off is used. “Same hourly rate” for salaried employees shall be determined in the following order of priority, but shall in no case be less than minimum wage:
 - i. The wages an employee earns during each pay period covered by the salary divided by the number of hours agreed to be worked during each pay period, if the number of hours to be worked during each pay period was previously established.
 - ii. The wages an employee earns during each workweek covered by the salary in the current year divided by 40 hours.

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

- d. For employees paid on a commission, piece-rate, or fee-for-service basis, "same hourly rate" shall be determined in the following order of priority, but shall in no case be less than minimum wage:
 - i. The hourly rate of pay previously agreed upon by the employer and the employee as: (1) a minimum hourly rate for work performed; or (2) an hourly rate for payment of earned paid sick time or equivalent paid time off.
 - ii. The wages that the employee would have been paid, if known, for the period of time in which earned paid sick time or equivalent paid time off is used, divided by the number of hours of earned paid sick time or equivalent paid time off used.
 - iii. A reasonable estimation of the commission, piece-rate, or fee-for-service compensation that the employee would have been paid for the period of time in which the earned paid sick time or equivalent paid time off is used, divided by the number of hours of earned paid sick time or equivalent paid time off used.
 - iv. The hourly average of all commission, piece-rate, or fee-for-service compensation that the employee earned during the previous 90 days, if the employee worked regularly during the previous 90-day period, based on: (1) hours that the employee actually worked; or (2) a 40-hour workweek.
 - v. The hourly average of all commission, piece-rate, or fee-for-service compensation that the employee earned during the previous 365 days, based on: (1) hours that the employee actually worked; or (2) a 40-hour workweek.
 - e. "Same hourly rate" includes shift differentials and premiums meant to compensate an employee for work performed under differing conditions (such as hazard pay or a shift differential for working at night) if the employee would have been entitled to the shift differential or premium for the period of time in which earned paid sick time or equivalent paid time off is used.
 - f. "Same hourly rate" does not include:
 - i. Additions to an employee's base rate for over-time or holiday pay;
 - ii. Subject to subsection (e), bonuses or other types of incentive pay; and
 - iii. Tips or gifts.
26. "Smallest increment that the employer's payroll system uses to account for absences or use of other time" means the smallest increment of time that an employer utilizes, by policy or practice, to account for absences or use of other paid time off.
 27. "Tip" means a sum that a customer presents as a gift in recognition of some service performed, and includes gratuities. The sum may be in the form of cash, amounts paid by bank check or other negotiable instrument payable at par, or amounts the employer transfers to the employee under directions from a credit customer who designates an amount to be added to a bill as a tip. Gifts in forms other than cash or its equivalent as described in this definition, such as event tickets, passes, or merchandise, are not tips.
 28. "Violation" means a transgression of any statute or rule, or any part of a statute or rule, including both acts and omissions.
 29. "Willfully" means acting with actual knowledge of the requirements of the Act or this Article, or acting with reckless disregard of the requirements of the Act or this Article.
 30. "Workday" means any fixed period of 24 consecutive hours.
 31. "Workweek" means any fixed and regularly recurring period of seven consecutive workdays.

Historical Note

New Section made by emergency rulemaking at 13 A.A.R. 473, effective January 25, 2007 for 180 days (Supp. 07-1). Emergency renewed at 13 A.A.R. 2785, effective July 17, 2007 for 180 days (Supp. 07-3). New Section made by final rulemaking at 13 A.A.R. 4315, effective January 13, 2008 (Supp. 07-4). Amended by final rulemaking at 23 A.A.R. 2907, effective October 3, 2017 (Supp. 17-4).

R20-5-1203. Duty to Provide Current Address

- A. A complainant shall provide and keep the Labor Department advised of the complainant's current mailing address and telephone number.
- B. An employer under investigation by the Department shall provide and keep the Labor Department advised of the employer's current mailing address and telephone number.

Historical Note

New Section made by emergency rulemaking at 13 A.A.R. 473, effective January 25, 2007 for 180 days (Supp. 07-1). Emergency renewed at 13 A.A.R. 2785, effective July 17, 2007 for 180 days (Supp. 07-3). New Section made by final rulemaking at 13 A.A.R. 4315, effective January 13, 2008 (Supp. 07-4).

R20-5-1204. Forms Prescribed by the Department

Forms prescribed by the Department, including the poster required under R20-5-1208, shall not be changed, amended, or otherwise altered without the prior written approval of the Department.

Historical Note

New Section made by emergency rulemaking at 13 A.A.R. 473, effective January 25, 2007 for 180 days (Supp. 07-1). Emergency renewed at 13 A.A.R. 2785, effective July 17, 2007 for 180 days (Supp. 07-3). New Section made by final rulemaking at 13 A.A.R. 4315, effective January 13, 2008 (Supp. 07-4).

R20-5-1205. Determination of Employment Relationship

- A. Determination of an employment relationship under the Act, which includes whether an individual is an independent contractor, shall be based upon the economic realities of the relationship. Consideration of whether an individual is economically dependent on the employer for which the individual performs work shall be determined by factors showing dependence, which non-exclusive factors shall include those factors identified in A.R.S. §§ 23-902(D) and 23-1601(B).
- B. An individual who works for another person without any express or implied compensation agreement is not an employee under the Act. This may include an individual that volunteers to work for civic, charitable, or humanitarian reasons that are offered freely and without direct or implied pressure or coercion from an employer, provided that the volunteer is not otherwise employed by the employer to perform the same type of services as those which the individual proposes to volunteer.
- C. An individual who works for another individual as a babysitter on a casual basis and whose vocation is not babysitting, is not

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

an employee under the Act even if the individual performs other household work not related to caring for the children, provided the household work does not exceed 20% of the total hours worked on the particular babysitting assignment.

Historical Note

New Section made by emergency rulemaking at 13 A.A.R. 473, effective January 25, 2007 for 180 days (Supp. 07-1). Emergency renewed at 13 A.A.R. 2785, effective July 17, 2007 for 180 days (Supp. 07-3). New Section made by final rulemaking at 13 A.A.R. 4315, effective January 13, 2008 (Supp. 07-4). Amended by final rulemaking at 23 A.A.R. 2907, effective October 3, 2017 (Supp. 17-4).

R20-5-1206. Payment of Minimum Wage; Commissions; Tips; Front Loading Earned Paid Sick Time; Limitation on Carry Over of Unused Earned Paid Sick Time

- A. Subject to the requirements of the Act and this Article, no less than the minimum wage shall be paid for all hours worked, regardless of the frequency of payment and regardless of whether the wage is paid on an hourly, salaried, commissioned, piece rate, or any other basis.
- B. If the combined wages of an employee are less than the applicable minimum wage for a work week, the employer shall pay monetary compensation already earned, and no less than the difference between the amounts earned and the minimum wage as required under the Act.
- C. The workweek is the basis for determining an employee's hourly wage. Upon hire, an employer shall advise the employee of the employee's designated workweek. Once established, an employer shall not change or manipulate an employee's workweek to evade the requirements of the Act.
- D. In computing the minimum wage, an employer shall consider only monetary compensation and shall count tips and commissions in the workweek in which the tip or commission is earned.
- E. An employer is allowed to:
 - 1. Require or permit employees to pool, share, or split tips; and
 - 2. Require an employee to report tips to the employer in order to meet reporting requirements of this Article and federal law.
- F. An employer who hires an employee after the beginning of the employer's year is not required to provide additional earned paid sick time or equivalent paid time off during that year if the employer provides the employee for immediate use on the employee's ninetieth calendar day after commencing employment an amount of earned paid sick time or equivalent paid time off that meets or exceeds the employer's reasonable projection of the amount of earned paid sick time or equivalent paid time off that the employee would have accrued from the date of hire through the end of the employer's year at a rate of one hour for every 30 hours worked. If the amount of earned paid sick time or equivalent paid time off provided is less than the employee would have accrued based on hours actually worked during the employer's year, the employer shall immediately provide an amount of earned paid sick time or equivalent paid time off that reflects the difference between the employer's projection and the amount of earned paid sick time or equivalent paid time off that the employee would have accrued for hours actually worked in the year.
- G. Subject to subsection (F), an employer with 15 or more employees that provides its employees for immediate use at the beginning of each year 40 or more hours of earned paid sick time or 40 or more hours of equivalent paid time off is not required to provide carryover or additional accrual.

- H. Subject to subsection (F), an employer with fewer than 15 employees that provides its employees for immediate use at the beginning of each year 24 or more hours of earned paid sick time or 24 or more hours of equivalent paid time off is not required to provide carryover or additional accrual.
- I. Unless an employer: (1) elects to pay an employee for unused earned paid sick time or equivalent paid time off at the end of a year pursuant to A.R.S. § 23-372(D)(4); or (2) meets the requirements of subsections (G) or (H), unused earned paid sick time and equivalent paid time off may be carried over to the next year, as follows:
 - 1. Subject to an employer's entitlement to permit greater carry over, an employee of an employer with 15 or more employees may carry over to the following year up to 40 hours of unused earned paid sick time or equivalent paid time off.
 - 2. Subject to an employer's entitlement to permit greater carry over, an employee of an employer with fewer than 15 employees may carryover to the following year up to 24 hours of unused earned paid sick time or equivalent paid time off.
 - 3. Carry over shall not affect accrual, usage rights, or usage limits under the Act.

Historical Note

New Section made by emergency rulemaking at 13 A.A.R. 473, effective January 25, 2007 for 180 days (Supp. 07-1). Emergency renewed at 13 A.A.R. 2785, effective July 17, 2007 for 180 days (Supp. 07-3). New Section made by final rulemaking at 13 A.A.R. 4315, effective January 13, 2008 (Supp. 07-4). Amended by final rulemaking at 23 A.A.R. 2907, effective October 3, 2017 (Supp. 17-4).

R20-5-1207. Tip Credit Toward Minimum Wage

- A. In this Section, unless the context otherwise requires, "customarily and regularly" means receiving tips on a consistent and recurrent basis, the frequency of which may be greater than occasional, but less than constant, and includes the occupations of waiter, waitress, bellhop, busboy, car wash attendant, hairdresser, barber, valet, and service bartender.
- B. For purposes of calculating the permissible credit for tips under A.R.S. § 23-363(C), the following applies:
 - 1. Tips are customarily and regularly received in the occupation in which the employee is engaged;
 - 2. Except as provided in R20-5-1206(E), the employee actually receives the tip free of employer control as to how the employee uses the tip and the tip becomes the employee's property;
 - 3. Employees who customarily and regularly receive tips may pool, share, or split tips between them, and the amount each employee actually retains is considered the tip of the employee who retains it;
 - 4. Employer-required sharing of tips with employees who do not customarily and regularly receive tips in the occupation in which the employee is engaged, including management or food preparers, are not credited toward that employee's minimum wage; and
 - 5. A compulsory charge for service imposed on a customer by an employer's establishment are not credited toward an employee's minimum wage unless the employer actually distributes the charge to the employee in the pay period in which the charge is earned.
- C. Upon hiring or assigning an individual to a position that customarily and regularly receives tips, an employer intending to exercise a tip credit shall provide written notice to the employee prior to exercising the tip credit. Thereafter, the

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

employer shall notify the employee in writing each pay period of the amount per hour that the employer takes as a tip credit.

Historical Note

New Section made by emergency rulemaking at 13 A.A.R. 473, effective January 25, 2007 for 180 days (Supp. 07-1). Emergency renewed at 13 A.A.R. 2785, effective July 17, 2007 for 180 days (Supp. 07-3). New Section made by final rulemaking at 13 A.A.R. 4315, effective January 13, 2008 (Supp. 07-4).

R20-5-1208. Posting Requirements; Small Employer Exemption

- A. With the exception of small employers, every employer subject to the Act shall place the posters prescribed by the Department informing employees of their rights under the Act in a conspicuous place in every establishment where employees are employed and where notices to employees are customarily placed. The employer shall ensure that the notices are not removed, altered, defaced, or covered by other material.
- B. In this Section, unless context otherwise requires, "small employer" means a corporation, proprietorship, partnership, joint venture, limited liability company, trust, or association that has less than \$500,000 in gross annual revenue.

Historical Note

New Section made by emergency rulemaking at 13 A.A.R. 473, effective January 25, 2007 for 180 days (Supp. 07-1). Emergency renewed at 13 A.A.R. 2785, effective July 17, 2007 for 180 days (Supp. 07-3). New Section made by final rulemaking at 13 A.A.R. 4315, effective January 13, 2008 (Supp. 07-4). Amended by final rulemaking at 23 A.A.R. 2907, effective October 3, 2017 (Supp. 17-4).

R20-5-1209. Records Availability

- A. Each employer shall keep the records required under the Act and this Article safe and accessible at the place or places of employment, or at one or more established central recordkeeping offices where the records are customarily maintained. When the employer maintains the records at a central recordkeeping office other than in the place or places of employment, the employer shall make the records available to the Department within 72 hours following notice from the Department.
- B. Employers shall make available to the Department any equipment or technology that is necessary to facilitate inspection and copying of the records.
- C. Each employer required to maintain records under the Act shall make enlargement, recomputation, or transcription of the records and shall submit to the Department the records or reports in a readable format upon the Department's written request.

Historical Note

New Section made by emergency rulemaking at 13 A.A.R. 473, effective January 25, 2007 for 180 days (Supp. 07-1). Emergency renewed at 13 A.A.R. 2785, effective July 17, 2007 for 180 days (Supp. 07-3). New Section made by final rulemaking at 13 A.A.R. 4315, effective January 13, 2008 (Supp. 07-4). Amended by final rulemaking at 23 A.A.R. 2907, effective October 3, 2017 (Supp. 17-4).

R20-5-1210. General Recordkeeping Requirements

- A. Payroll records required to be kept under the Act include:
 1. All time and earning cards or sheets on which are entered the daily starting and stopping time of individual employees, or of separate work forces, or the amounts of work accomplished by individual employees on a daily,

weekly, or pay period basis (for example, units produced) when those amounts determine in whole or in part: (1) those employees' pay period wages; and (2) those employees' earned paid sick time or equivalent paid time off;

2. From their last effective date, all wage-rate tables or schedules of the employer that provide the piece rates or other rates used in computing wages; and
 3. Records of additions to or deductions from wages paid and records that support or corroborate the additions or deductions.
- B. Subject to A.R.S. § 23-381 and except as otherwise provided in this Section, every employer shall maintain and preserve payroll or other records containing the following information and data with respect to each employee to whom the Act applies:
1. Name in full, and on the same record, the employee's identifying symbol or number if it is used in place of the employee's name on any time, work, or payroll record;
 2. Home address, including zip code;
 3. Date of birth, if under 19;
 4. Occupation in which employed;
 5. Time of day and day of week on which the employee's workweek begins. If the employee is part of a workforce or employed in or by an establishment all of whose workers have a workweek beginning at the same time on the same day, then a single notation of the time of the day and beginning day of the workweek for the whole workforce or establishment is permitted;
 6. Regular hourly rate of pay for any workweek and an explanation of the basis of pay by indicating the monetary amount paid on a per hour, per day, per week, per piece, commission on sales, or other basis, including the amount and nature of each payment;
 7. Hours worked each workday and total hours worked each workweek;
 8. Total daily or weekly straight-time wages due for hours worked during the workday or workweek, exclusive of premium overtime compensation;
 9. Total premium pay for overtime hours and an explanation of how the premium pay was calculated exclusive of straight-time wages for overtime hours recorded under subsection (B)(8) of this Section;
 10. Total additions to or deductions from wages paid each pay period including employee purchase orders or wage assignments, including, for individual employee records, the dates, amounts, and nature of the items that make up the total additions and deductions;
 11. Total wages paid each pay period;
 12. Date of payment and the pay period covered by payment;
 13. The amount of earned paid sick time available to the employee;
 14. The amount of earned paid sick time taken by the employee to date in the year;
 15. The amount of pay the employee has received as earned paid sick time; and
 16. The employee's earned paid sick time balance. "The employee's earned paid sick time balance" means the sum of earned paid sick time or equivalent paid time off that is: (1) carried over to the current year; (2) accrued to date in the current year; and (3) provided to date in the current year pursuant to A.R.S. § 23-372(D)(4) or A.A.C. R20-5-1206(F), (G), or (H).
- C. For an employee who is compensated on a salary basis at a rate that exceeds the minimum wage required under the Act and who, under 29 CFR 541, is an exempt bona fide executive,

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

administrative, or professional employee, including an employee employed in the capacity of academic administrative personnel or teachers in elementary or secondary schools, or in outside sales, an employer shall maintain and preserve:

1. Records containing the information and data required under subsections (B)(1) through (B)(5), and (B)(11) through (B)(16) of this Section; and
 2. Records containing the basis on which wages are paid in sufficient detail to permit a determination or calculation of whether the salary received exceeds the minimum wage required under the Act, including a record of the hours upon which payment of the salary is based, whether full time or part time.
- D.** With respect to employees working on fixed schedules, an employer may maintain records showing instead of the hours worked each day and each workweek as required under this Section, the schedule of daily and weekly hours the employee normally works, provided:
1. In weeks in which an employee adheres to this schedule, the employer indicates by check mark, statement, or other method, that the employee actually worked the hours; and
 2. In weeks in which more or fewer than the scheduled hours are worked, the employer records the number of hours actually worked each day and each week.
- E.** With respect to an employee who customarily and regularly receives tips, the employer shall ensure that the records required under this Article include the following information:
1. A symbol, letter, or other notation placed on the pay records identifying each employee whose wage is determined in part by tips;
 2. Amount of tips the employee reports to the employer;
 3. The hourly wage of each tipped employee after taking into consideration the employee's tips;
 4. Hours worked each workday in any occupation in which the employee does not receive tips, and total daily or week straight-time payment made by the employer for the hours;
 5. Hours worked each workday in occupations in which the employee receives tips and total daily or weekly straight-time wages for the hours; and
 6. Copy of the notice required under R20-5-1207(C).
- F.** An employer who makes retroactive payment of wages, voluntarily or involuntarily, shall record on the pay records, the amount of the payment to each employee, the period covered by the payment, and the date of payment.

Historical Note

New Section made by emergency rulemaking at 13 A.A.R. 473, effective January 25, 2007 for 180 days (Supp. 07-1). Emergency renewed at 13 A.A.R. 2785, effective July 17, 2007 for 180 days (Supp. 07-3). New Section made by final rulemaking at 13 A.A.R. 4315, effective January 13, 2008 (Supp. 07-4). Amended by final rulemaking at 23 A.A.R. 2907, effective October 3, 2017 (Supp. 17-4).

R20-5-1211. Administrative Complaints

- A.** A person or organization alleging a minimum wage, earned paid sick time, or equivalent paid time off violation shall file a complaint with the Labor Department within one year from the date the wages, earned paid sick time, or equivalent paid time off were due.
- B.** A person or organization alleging retaliation, discrimination, or a violation of A.R.S. § 23-377 shall file a complaint with the Labor Department within one year from the date the alleged violation occurred or when the employee knew or should have known of the alleged violation.

- C.** The person or organization filing a complaint with the Labor Department shall sign the complaint.
- D.** Any person or organization other than an affected employee who files a complaint shall include the names of affected employees.
- E.** Upon its own complaint, the Department may investigate violations under the Act.

Historical Note

New Section made by emergency rulemaking at 13 A.A.R. 473, effective January 25, 2007 for 180 days (Supp. 07-1). Emergency renewed at 13 A.A.R. 2785, effective July 17, 2007 for 180 days (Supp. 07-3). New Section made by final rulemaking at 13 A.A.R. 4315, effective January 13, 2008 (Supp. 07-4). Amended by final rulemaking at 23 A.A.R. 2907, effective October 3, 2017 (Supp. 17-4).

R20-5-1212. Conduct that Hinders Investigation

An employer hinders an investigation under the Act if the employer engages in conduct, or causes another person to engage in conduct, that delays or otherwise interferes with the Department's investigation, including:

1. Obstructing or refusing to admit the Department to any place of employment authorized under the Act;
2. Obstructing or refusing to permit interviews authorized under the Act;
3. Failing to make, keep, or preserve records required under the Act or this Article;
4. Failing to permit the review and copying of records required under the Act and this Article; and
5. Falsifying any record required under the Act or this Article.

Historical Note

New Section made by emergency rulemaking at 13 A.A.R. 473, effective January 25, 2007 for 180 days (Supp. 07-1). Emergency renewed at 13 A.A.R. 2785, effective July 17, 2007 for 180 days (Supp. 07-3). New Section made by final rulemaking at 13 A.A.R. 4315, effective January 13, 2008 (Supp. 07-4).

R20-5-1213. Findings and Order Issued by the Department

- A.** Except as provided in R20-5-1219, after receipt of a complaint alleging a violation of the Act, the Department shall issue a Findings and Order of its determination. The Department shall send its Findings and Order to both the employer and the complainant at their last known addresses served personally or by regular first class mail. If the complaint named affected employees, the Department may send a copy of its Findings and Order to the affected employees.
- B.** If the Department determines that an employer has violated the minimum wage, earned paid sick time, or equivalent paid time off requirements, the Department shall order the employer to pay the employee, and if applicable, affected employees, the balance of the wages, earned paid sick time, or equivalent paid time off owed, including interest at the legal rate and an additional amount equal to twice the underpaid wages, earned paid sick time, or equivalent paid time off owed.
- C.** If the Department determines that a retaliation, discrimination, confidentiality, or nondisclosure violation has occurred, the Department shall direct the employer or other person to cease and desist from the violation and may take action necessary to remedy the violation, including:
1. Rehiring or reinstatement,
 2. Reimbursement of lost wages and interest,
 3. Payment of penalty to employees or affected employees as provided for in the Act and this Article, and

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

4. Posting of notices to employees.
- D. If the Department determines that no violation of the Act has occurred the Department shall notify the parties and shall dismiss the complaint without prejudice. After notification of the Department's determination, the complainant may bring a civil action under A.R.S. § 23-364(E).
- E. The Department may assess civil penalties for recordkeeping, posting, and other violations under the Act and this Article as part of a Findings and Order issued under subsection (A) or the civil penalties and other violations may be assessed as a separate Findings and Order. If issued as a separate Findings and Order, the Department shall serve, personally or by regular first class mail, the Findings and Order on the employer and, if a complaint has been filed, the complainant.
- F. The Director of the Department shall sign the written Findings and Order issued by the Department.
- G. If an employer does not comply with a Findings and Order issued by the Department within 10 days following finality of the Findings and Order, the Department may refer the matter to a law enforcement officer.

Historical Note

New Section made by emergency rulemaking at 13 A.A.R. 473, effective January 25, 2007 for 180 days (Supp. 07-1). Emergency renewed at 13 A.A.R. 2785, effective July 17, 2007 for 180 days (Supp. 07-3). New Section made by final rulemaking at 13 A.A.R. 4315, effective January 13, 2008 (Supp. 07-4). Amended by final rulemaking at 23 A.A.R. 2907, effective October 3, 2017 (Supp. 17-4).

R20-5-1214. Review of Department Findings and Order; Hearings; Issuance of Decision Upon Hearing

- A. Except as provided in R20-5-1213(D), a party aggrieved by a Findings and Order issued by the Department may request a hearing by filing a written request for hearing with the Department within 30 days after the Findings and Order is served upon the party. Failure to timely file a request for hearing means that the Findings and Order issued by the Department is final and res judicata to all parties.
- B. A request for hearing shall be in writing and contain:
 1. The name and address of the party requesting the hearing,
 2. The signature of the party or the party's authorized representative, and
 3. A statement that a hearing is requested.
- C. Upon receipt of a timely filed request for hearing, the Department shall refer the matter to the Administrative Law Judge Division of the Commission for hearing.
- D. Except as otherwise provided in this Section, the hearing shall be conducted under A.R.S. § 41-1061 et seq.
- E. A person submitting correspondence or other documents, including subpoena requests, to an administrative law judge concerning a matter pending before the administrative law judge, shall contemporaneously serve a copy of the correspondence or other document upon all other parties, or if represented, the parties' authorized representative.
- F. The administrative law judge may dismiss a request for hearing when it appears to the judge's satisfaction that the parties have resolved the disputed issue or issues.
- G. The administrative law judge shall issue a written decision upon hearing containing findings of fact and conclusions of law no later than 30 days after the matter is submitted for decision. The decision shall be sent to the parties at their last known addresses served personally or by regular first class mail.
- H. A decision issued under this Section is final when entered unless a party files a request for rehearing or review as pro-

vided in R20-5-1215 or commences an action in the Superior Court as provided in R20-5-1216 and A.R.S. § 12-901 et seq. The decision shall contain a statement explaining the review rights of a party.

Historical Note

New Section made by emergency rulemaking at 13 A.A.R. 473, effective January 25, 2007 for 180 days (Supp. 07-1). Emergency renewed at 13 A.A.R. 2785, effective July 17, 2007 for 180 days (Supp. 07-3). New Section made by final rulemaking at 13 A.A.R. 4315, effective January 13, 2008 (Supp. 07-4).

R20-5-1215. Request for Rehearing or Review of Decision Upon Hearing

- A. A party may request rehearing or review of a decision issued under R20-5-1214 by filing with the Administrative Law Judge a written request for rehearing or review no later than 15 days after the written decision is served personally or by regular first class mail upon the parties.
- B. A request for rehearing or review shall be based upon any of the following causes that materially affected the rights of an aggrieved party:
 1. Irregularities in the hearing proceeding or any order, or abuse of discretion that deprives a party seeking review of a fair hearing;
 2. Accident or surprise that could not have been prevented by ordinary prudence;
 3. Newly discovered material evidence that could not have been discovered with reasonable diligence and produced at the hearing;
 4. Error in the admission or rejection of evidence, or errors of law occurring at the hearing;
 5. Bias or prejudice of the Department or administrative law judge; and
 6. The findings of fact or conclusions of law contained in the decision are not justified by the evidence or are contrary to law.
- C. A request for rehearing or review shall state the specific facts and law in support of the request and shall specify the relief sought by the request.
- D. A party shall have 15 days from the date of the filing of a request for rehearing or review to file a written response. Failure to respond shall not be deemed an admission against interest.
- E. The administrative law judge shall issue a decision upon review no later than 30 days after receiving a request for review or response, if one is filed.
- F. A decision upon review is final unless a party seeks judicial review as provided in R20-5-1216.

Historical Note

New Section made by emergency rulemaking at 13 A.A.R. 473, effective January 25, 2007 for 180 days (Supp. 07-1). Emergency renewed at 13 A.A.R. 2785, effective July 17, 2007 for 180 days (Supp. 07-3). New Section made by final rulemaking at 13 A.A.R. 4315, effective January 13, 2008 (Supp. 07-4).

R20-5-1216. Judicial Review of Decision Upon Hearing or Decision Upon Review

- A. A party aggrieved by a decision upon hearing issued under R20-5-1214 or a decision upon review issued under R20-5-1215 may seek review by commencing an action in the Superior Court as provided in A.R.S. § 12-901 et seq. within 35 days from the date a copy of the decision sought to be reviewed is served personally or by regular first class mail upon the party affected.

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

- B. A decision upon hearing issued under R20-5-1214 or a decision upon review issued under R20-5-1215 is final unless a party seeks judicial review as provided under A.R.S. § 12-901 et seq.

Historical Note

New Section made by emergency rulemaking at 13 A.A.R. 473, effective January 25, 2007 for 180 days (Supp. 07-1). Emergency renewed at 13 A.A.R. 2785, effective July 17, 2007 for 180 days (Supp. 07-3). New Section made by final rulemaking at 13 A.A.R. 4315, effective January 13, 2008 (Supp. 07-4).

R20-5-1217. Assessment of Civil Penalties Under A.R.S. § 23-364(F)

The Department may assess civil penalties for violations of the Act and this Article, including the assessment of civil penalties for engaging in conduct that hinders an investigation of the Department as specified in R20-5-1212.

Historical Note

New Section made by emergency rulemaking at 13 A.A.R. 473, effective January 25, 2007 for 180 days (Supp. 07-1). Emergency renewed at 13 A.A.R. 2785, effective July 17, 2007 for 180 days (Supp. 07-3). New Section made by final rulemaking at 13 A.A.R. 4315, effective January 13, 2008 (Supp. 07-4).

R20-5-1218. Collection of Wages, Earned Paid Sick Time, Equivalent Paid Time Off, or Penalty Payments Owed

- A. Upon determination that wages, earned paid sick time, equivalent paid time off, or penalty payments are due and unpaid to any employee, the employee may, or the Department may on behalf of an employee, obtain judgment and execution, garnishment, attachment, or other available remedies for collection of unpaid wages and penalty payments established by a final Findings and Order of the Department.
- B. If payment cannot be made to the employee, the Department shall receive monetary compensation or penalty payments on behalf of the employee and transmit monies it receives as payment in a special state fund as provided in A.R.S. § 23-356(C).
- C. The Department may amend a Findings and Order to conform to the legal name of the business or the person who is the defendant employer to a complaint under the Act, provided service of the Findings and Order was made on the defendant or the defendant's agent. If a judgment has been entered on the order, the Department may apply to the clerk of the superior court to amend a judgment that has been issued under a final order, provided service was made on the defendant or the defendant's agent.

Historical Note

New Section made by emergency rulemaking at 13 A.A.R. 473, effective January 25, 2007 for 180 days (Supp. 07-1). Emergency renewed at 13 A.A.R. 2785, effective July 17, 2007 for 180 days (Supp. 07-3). New Section made by final rulemaking at 13 A.A.R. 4315, effective January 13, 2008 (Supp. 07-4). Amended by final rulemaking at 23 A.A.R. 2907, effective October 3, 2017 (Supp. 17-4).

R20-5-1219. Resolution of Disputes

Notwithstanding any other provision of law, the Department may mediate and conciliate a dispute between the parties.

Historical Note

New Section made by emergency rulemaking at 13 A.A.R. 473, effective January 25, 2007 for 180 days (Supp. 07-1). Emergency renewed at 13 A.A.R. 2785,

effective July 17, 2007 for 180 days (Supp. 07-3). New Section made by final rulemaking at 13 A.A.R. 4315, effective January 13, 2008 (Supp. 07-4).

R20-5-1220. Small Employer Request for Exception to Recordkeeping Requirements

- A. In this Section, unless context otherwise requires, "small employer" means a corporation, proprietorship, partnership, joint venture, limited liability company, trust, or association that has less than \$500,000 in gross annual revenue.
- B. A small employer, or any category of small employer that is unreasonably burdened by the recordkeeping requirements of the Act and this Article may file a written petition for exception with the Department requesting relief from certain recordkeeping requirements under this Article. The petition shall:
1. State the reasons for the request for relief;
 2. State an alternate manner or method of making, keeping, and preserving records that will enable the Department to determine hours worked and wages paid; and
 3. Include the signature of the employer or an authorized representative of the employer.
- C. Subject to any conditions or limitations necessary to ensure fulfillment of the purpose and intent of Act, the Department may grant a petition for exception if it finds that:
1. The small employer, or category of small employer is unreasonably burdened by the recordkeeping requirements of the Act and this Article; and
 2. The relief requested and alternative proposed will not hinder the Department's enforcement of the Act and this Article.
- D. For good cause, the Department may rescind a prior order granting relief under this Section.
- E. Relief under this Section is effective upon the Department's written authorization.

Historical Note

New Section made by emergency rulemaking at 13 A.A.R. 473, effective January 25, 2007 for 180 days (Supp. 07-1). Emergency renewed at 13 A.A.R. 2785, effective July 17, 2007 for 180 days (Supp. 07-3). New Section made by final rulemaking at 13 A.A.R. 4315, effective January 13, 2008 (Supp. 07-4).

ARTICLE 13. TREATMENT GUIDELINES**R20-5-1301. Adoption and Applicability of the Article**

- A. The Industrial Commission of Arizona (Commission) has adopted the Work Loss Data Institute's *Official Disability Guidelines – Treatment in Workers Compensation* (ODG) as the standard reference for evidence-based medicine used in treating injured workers within the context of Arizona's workers' compensation system. By adopting and referencing the most recent edition (at the time of treatment), and continuously updated Official Disability Guidelines, the Commission can ensure the latest available medical evidence is used in making medical treatment decisions for injured workers.
- B. Until further action of the Commission, the guidelines shall apply to all body parts and conditions.
- C. The Commission may modify or change the applicability of the guidelines as described in subsection (B) if the Commission determines that modification or changing the applicability of the guidelines will: 1) improve medical treatment for injured workers, 2) make treatment and claims processing more efficient and cost effective, and 3) if the Commission's modification expands the applicability of the guidelines, the guidelines adequately cover the relevant body parts or conditions. Before taking action to modify or change the applicability of the guidelines, the Commission shall provide an

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

opportunity for public comment and hold a public hearing. A decision of the Commission under this subsection shall be made by a majority vote of a quorum of Commission members present at a public meeting.

- D. Action taken by the Commission to modify or change the applicability of the guidelines under subsection (C) shall be published in the minutes of the Commission meeting when such action was taken. The minutes of this action shall be published on the Commission's website and shall be available from the Commission upon request.
- E. The guidelines shall apply prospectively. Recommendations provided in the guidelines related to the management of chronic pain and the use of opioids for all stages of pain management shall apply to medical treatment or services occurring on or after October 1, 2016. For purposes of this process, chronic pain shall be defined by the guidelines. Recommendations provided in the guidelines related to all other body parts and conditions shall apply to medical treatment or services occurring on or after October 1, 2018.
- F. This Article applies to all claims filed with the Commission.
- G. This Article only applies to medical treatment and services for body parts and conditions that have been accepted as compensable.
- H. The guidelines are to be used as a tool to support clinical decision making and quality health care delivery to injured employees. The guidelines set forth care that is generally considered reasonable and are presumed correct if the guidelines provide recommendations related to the requested treatment or service. This is a rebuttable presumption and reasonable medical care may include deviations from the guidelines. To support a request to deviate from the guidelines, the provider must produce documentation and justification that demonstrates by a preponderance of credible medical evidence a medical basis for departing from the guidelines. Credible medical evidence may include clinical expertise and judgment.
- I. The Commission shall provide administrative review and oversight of this Article.

Historical Note

New Section made by final rulemaking at 22 A.A.R. 1730, effective October 1, 2016 (Supp. 16-2). Amended by final rulemaking at 24 A.A.R. 2069, effective October 1, 2018 (Supp. 18-3).

R20-5-1302. Definitions

In this Article and R20-5-106(A)(12), unless the context otherwise requires:

"Act" means the Arizona Workers' Compensation Act, A.R.S. Title 23, Chapter 6.

"Active Practice" means performing patient care for a minimum of eight hours per week in one of the five preceding years.

"Administrative Law Judge" or "ALJ" means a hearing officer appointed under A.R.S. § 23-108.02.

"Administrative Review" means a process that includes a peer review for preauthorization of a request for medical treatment or services conducted pursuant to R20-5-1311. The administrative review process will be managed by the Medical Resource Office (MRO) at the Industrial Commission of Arizona.

"American Board of Medical Specialties" means the organization that develops a uniform system for specialty boards to administer examinations for certification of physicians within specific medicine specialties.

"American Osteopathic Association" means the organization that develops a uniform system for specialty boards to administer examinations for certification of osteopathic physicians within specific osteopathic medicine specialties.

"Applicability" means the body parts and medical conditions that are covered under this Article and authorized by the Commission under R20-5-1301(B) and (C).

"Claim" means the workers' compensation claim filed by the injured employee under the Act.

"Contractor" means an independent peer review organization accredited by URAC.

"Fast Track ALJ Dispute Resolution Program" or "fast track process" means the voluntary dispute resolution process set forth in R20-5-1312(B).

"International Classification of Diseases Code" or "ICD Code" means a set of medical diagnostic codes that creates a universal language for reporting diseases and injury.

"International Classification of Diseases" or "ICD" means an official list of categories of diseases, physical and mental, that is issued and maintained by the World Health Organization.

"IME" means an independent medical examination scheduled under R20-5-114.

"Injured Employee" means a person defined in A.R.S. § 23-901 whose claim has been accepted for workers' compensation benefits.

"Medical File Review Opinions" means a formal examination of patient data and medical records for the purpose of determining the need for medical treatment, services or both.

"Payer" means an insurance carrier defined under A.R.S. § 23-901, a self-insured employer defined in R20-5-102, a third-party administrator, and the Special Fund of the Industrial Commission of Arizona.

"Peer Review" means an independent medical review conducted by an individual meeting the requirements of R20-5-1311(I).

"Preauthorization" means the written request prescribed by R20-5-1303 from a provider to a payer requesting approval to provide medical treatment or services to an injured employee.

"Provider" means a physician as defined in R20-5-102.

"Reconsideration" means a written request to the payer or identified review organization by an injured employee or medical provider to reconsider a previous payer decision to deny medical treatment or services and that identifies the specific justification to support the request.

"Third-Party Administrator" means an organization that processes insurance or employee benefit claims for a separate entity.

"Treatment Guidelines" or "guidelines" means medical treatment guidelines that are used as a tool to support clinical decision making and quality health care delivery to injured employees.

"URAC" refers to URAC, a non-profit organization formerly known as the Utilization Review Accreditation Commission.

Historical Note

New Section made by final rulemaking at 22 A.A.R.

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

1730, effective October 1, 2016 (Supp. 16-2). Amended by final rulemaking at 24 A.A.R. 2069, effective October 1, 2018 (Supp. 18-3).

R20-5-1303. Provider Request for Preauthorization

- A. No preauthorization is required under the Act to ensure payment for reasonably required medical treatment or services. While preauthorization is not required under the Act, a provider may seek preauthorization as provided in this subsection.
- B. A provider shall submit a request for preauthorization in writing using Section I (Provider Request for Preauthorization) of the Medical Treatment Preauthorization Form approved by the Commission under R20-5-106(A)(12). A provider shall attach documentation to a request for preauthorization that supports the medical necessity and appropriateness of the treatment or services requested, such as office notes and diagnostic reports.
- C. A provider may submit the request for preauthorization by mail, electronically or by fax.

Historical Note

New Section made by final rulemaking at 22 A.A.R. 1730, effective October 1, 2016 (Supp. 16-2). Amended by final rulemaking at 24 A.A.R. 2069, effective October 1, 2018 (Supp. 18-3).

R20-5-1304. Payer Denial of Request for Preauthorization

- A. A payer shall not deny a request for preauthorization solely because the guidelines do not address the requested treatment or services.
- B. A payer shall not deny a request for preauthorization that is supported by the guidelines, unless the payer can rebut the presumption of reasonableness and correctness with a medical or psychological opinion establishing by a preponderance of the evidence that there is a contraindication or significant medical or psychological reason not to authorize the requested treatment or services. Upon request by the provider or injured employee, a denial of preauthorization in this situation shall be processed as an immediate referral to the Commission for administrative review as provided in R20-5-1311 unless the payer obtains an IME in support of its denial. If the payer obtains an IME which serves as the basis for the denial, then review of the payer's decision shall be processed as a request for investigation under A.R.S. § 23-1061(J) if filed by the injured employee.

Historical Note

New Section made by final rulemaking at 22 A.A.R. 1730, effective October 1, 2016 (Supp. 16-2).

R20-5-1305. Payer Denial of Payment for Provided Treatment or Services

- A. A payer shall not deny payment for provided treatment or services solely because the guidelines do not address the requested treatment or services.
- B. A payer shall not deny payment for provided treatment or services supported by the guidelines, unless the payer can rebut the presumption of reasonableness and correctness with a medical or psychological opinion establishing by a preponderance of the evidence that there is a medical contraindication or significant medical or psychological reason not to pay for the treatment or services.
- C. A dispute related to a payer's failure to pay for provided treatment or services may be processed as a request for investigation under A.R.S. § 23-1061(J) if filed by an injured employee.

Historical Note

New Section made by final rulemaking at 22 A.A.R.

1730, effective October 1, 2016 (Supp. 16-2).

R20-5-1306. Payer Reversal of Decision to Deny Treatment or Services

A payer may reverse its decision to deny treatment or services at any time throughout the process described in this Article. In this situation, the payer's subsequent authorization or agreement to pay for the treatment or services at issue shall end this process.

Historical Note

New Section made by final rulemaking at 22 A.A.R. 1730, effective October 1, 2016 (Supp. 16-2).

R20-5-1307. Payer Decision, In Whole or In Part

A payer may issue a decision approving or denying a request for preauthorization in whole, or in part.

Historical Note

New Section made by final rulemaking at 22 A.A.R. 1730, effective October 1, 2016 (Supp. 16-2).

R20-5-1308. Failure to Comply with Required Time Limits

A payer's failure to comply with the required time limits of this process may be considered unreasonable delay under R20-5-163.

Historical Note

New Section made by final rulemaking at 22 A.A.R. 1730, effective October 1, 2016 (Supp. 16-2).

R20-5-1309. Payer Decision on Request for Preauthorization

- A. Except as provided in subsections (C) or (D), a payer shall communicate to the provider its decision on a request for preauthorization no later than 7 business days after the request is received. The decision shall be issued in writing using Section II (Payer Decision on Request for Preauthorization) of the Medical Treatment Preauthorization Form approved by the Commission under R20-5-106(A)(12). A payer shall attach to the decision a statement of what has been authorized, including, if applicable, a partial authorization, and, if the request for preauthorization is denied, in whole or in part, a statement of explanation that includes the medical reason supporting the payer's decision. For purposes of this Section, the 7 business days begin to run the day after the payer receives the request.
- B. If a payer fails to communicate to a provider its decision on request for preauthorization within 7 business days, then the payer's failure to take action is deemed a "no response" and the provider or injured employee may submit a request for administrative review directly to the Commission as provided in R20-5-1311.
- C. If a payer receives a request for preauthorization not submitted on Section I (Provider Request for Preauthorization) of the Medical Treatment Preauthorization Form approved by the Commission under R20-5-106(A)(12) or an incomplete request for preauthorization using Section I (Provider Request for Preauthorization) of the Medical Treatment Preauthorization Form approved by the Commission under R20-5-106(A)(12), the payer shall:
 1. No later than 7 business days after the request is received and identified, act on the request for preauthorization pursuant to subsection (A); or
 2. No later than 7 business days after the request is received and identified, notify the provider in writing that the request for preauthorization is incomplete or, if applicable, that a request for preauthorization must be submitted on Section I (Provider Request for Preauthorization) of the Medical Treatment Preauthorization Form approved by the Commission under R20-5-106(A)(12).
- D. If, no later than 7 business days after a request for preauthorization has been received, a payer provides written notice to the

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

provider that an IME has been requested under R20-5-114 using Section II (Payer Decision on Request for Preauthorization) of the Medical Treatment Preauthorization Form approved by the Commission under R20-5-106(A)(12), then the payer's decision on a request for preauthorization shall be issued no later than 7 business days after the final IME report has been received by the payer. The payer shall provide a copy of the final IME report to the provider upon receipt of the IME report.

- E. Unless the payer decision was supported by an IME or otherwise falls within subsection R20-5-1304(B), an injured employee or provider may seek reconsideration of a payer decision by submitting a written request to the payer (or review organization identified by the payer) using Section III (Provider or Employee Request for Reconsideration) of the Medical Treatment Preauthorization Form approved by the Commission under R20-5-106(A)(12). A provider shall attach to a request for reconsideration a statement of the specific reasons and justifications to support the request. If not previously provided, the injured employee or provider shall attach supporting medical documentation with the request for reconsideration.
- F. An injured employee may seek review of a payer decision that is supported by an IME by requesting an investigation under A.R.S. § 23-1061(J).
- G. Unless the decision was supported by an IME, an injured employee or provider may seek review of a payer decision issued under R20-5-1304(B) by requesting administrative review by the Commission as provided in R20-5-1311.
- H. A payer shall provide a copy of its written decision to deny treatment or services to the injured employee or, if represented, to the injured employee's authorized representative.

Historical Note

New Section made by final rulemaking at 22 A.A.R. 1730, effective October 1, 2016 (Supp. 16-2). Amended by final rulemaking at 24 A.A.R. 2069, effective October 1, 2018 (Supp. 18-3).

R20-5-1310. Payer Reconsideration on Request for Preauthorization

- A. Except as provided in subsection (C), a payer shall communicate to the provider its decision on a request for reconsideration no later than 7 business days after the request is received. This decision shall be issued in writing using Section IV (Payer Decision on Request for Reconsideration) of the Medical Treatment Preauthorization Form approved by the Commission under R20-5-106(A)(12). A payer shall attach to the decision a statement of what has been authorized, including, if applicable, a partial authorization, and, if the request for preauthorization is denied, in whole or in part, a statement of explanation that includes the medical reason supporting the payer's decision. For purposes of this subsection, the 7 business days begin to run the day after the payer receives the request for reconsideration.
- B. If a payer fails to respond to a request for reconsideration within 7 business days, the provider or injured employee may submit a request for administrative review directly to the Commission as provided in R20-5-1311.
- C. If, no later than 7 business days after a request for reconsideration has been received, a payer provides written notice to the provider that an IME has been requested under R20-5-114 using Section IV (Payer Decision on Request for Reconsideration) of the Medical Treatment Preauthorization Form approved by the Commission under R20-5-106(A)(12), then the payer's decision on a request for reconsideration shall be issued no later than 7 business days after the final IME report

has been received by the payer. The payer shall provide a copy of the final IME report to the provider upon receipt of the report.

- D. Commission Review of Payer Reconsideration Decision:
 1. An injured employee or provider may seek review of a payer reconsideration decision by requesting an administrative review by the Commission as provided in R20-5-1311 unless the payer decision was supported by an IME.
 2. An injured employee may seek review of a payer reconsideration decision that is supported by an IME by requesting an investigation under A.R.S. § 23-1061(J).
- E. A payer shall provide a copy of its written reconsideration decision to deny treatment or services to the injured employee or, if represented, to the injured employee's authorized representative.

Historical Note

New Section made by final rulemaking at 22 A.A.R. 1730, effective October 1, 2016 (Supp. 16-2). Amended by final rulemaking at 24 A.A.R. 2069, effective October 1, 2018 (Supp. 18-3).

R20-5-1311. Administrative Review by Commission

- A. Absent further action of the Commission under R20-5-1301(C), administrative review under this Article is available for requests for medical treatment or services related to all body parts and conditions.
- B. A request for administrative review shall be in writing using Section V (Provider or Employee Request for Administrative Peer Review) of the Medical Treatment Preauthorization Form approved by the Commission under R20-5-106(A)(12). A request for administrative review must attach copies of relevant medical information or records and copies of all documentation related to the payer's decision or non-response. A request for administrative review must be submitted to the Commission by mail, electronically or by fax.
- C. Upon receipt of a request for administrative review, the Commission shall determine whether the administrative review is available under this Article.
 1. If administrative review is not available, then no later than three business days after receiving a request for administrative review, the Commission shall send notice to the injured employee and payer that administrative review is not available.
 2. If administrative review is available, then no later than three business days after receiving the request, the Commission shall send notice to the payer that a request for administrative review has been received and provide information on how to participate in the process.
- D. The administrative review conducted under this Section shall apply the guidelines as described in this Article and include a peer review performed by an individual meeting the requirements of subsection (I). The peer review shall consist of a records review and, when possible as described in subsection (I)(5), a conversation between the provider and individual conducting the peer review.
- E. The Commission may enter into an agreement with one or more contractors, who shall be URAC accredited, to provide the review described in subsection (D).
- F. The payer shall pay for the costs of the peer review conducted by the contractor.
- G. To assist in its review, the Commission or its contractor may request or receive additional information and documentation from the provider, injured employee or payer, who shall cooperate and provide the Commission or its contractor with any necessary medical information, including information pertaining to the payer's decision.

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

- H.** Before the Commission or its contractor issues a determination denying the request for treatment or services, a good faith effort shall be made to conduct a peer review with the provider requesting authorization to perform the treatment or services.
- I.** The individual conducting the peer review shall:
1. Hold an active, unrestricted license or certification to practice medicine or a health profession and be involved in the active practice of medicine or a health profession during the five preceding years. For purposes of this subsection, "active practice" means performing patient care for a minimum of eight hours per week in one of the five preceding years;
 2. Be licensed in Arizona, unless the Commission or its contractor is unable to find such an individual, in which case the peer review may be conducted by an individual who is licensed in another state of the United States and who meets the other requirements of this subsection;
 3. For a review of a request from an allopathic or osteopathic physician, nurse practitioner, physician assistant, or other mid-level provider, hold a current certification from the American Board of Medical Specialties or the American Osteopathic Association in the area or areas appropriate to the condition, procedure or treatment under review;
 4. Be in the same profession and the same specialty or subspecialty as typically performs or prescribes the medical procedure or treatment requested; and
 5. Make a good faith effort to contact the provider requesting the preauthorization. This good faith effort shall include making telephone contact during the provider's normal business hours and offering to schedule the peer review at a time convenient for the provider.
- J.** A provider may bill the payer for time spent participating in a peer review under this Section.
- K.** The Commission or its contractor shall issue a written determination of its administrative review that contains the name and title of the person that performed the administrative review, and includes the following information:
1. Whether the request for treatment or services is authorized or denied, in whole or in part;
 2. The information reviewed;
 3. The principle reason for the decision; and
 4. The clinical basis and rationale for the decision.
- L.** An interested party dissatisfied with the administrative review determination may request that the dispute be referred to the Commission's Administrative Law Judge Division for hearing. This request for hearing shall:
1. Be in writing;
 2. Filed no later than 10 business days after the administrative review determination is issued; and
 3. State whether the party requests to participate in the Fast Track ALJ Dispute Resolution Program by stipulation, or declines to participate in the Fast Track ALJ Dispute Resolution Program.
- M.** If a timely request for hearing is filed, the administrative review determination is deemed null and void and shall serve no evidentiary purpose.
- N.** The information provided by the parties under this Section and the determination issued by the Commission shall become a part of the Commission claims file for the injured employee.

Historical Note

New Section made by final rulemaking at 22 A.A.R. 1730, effective October 1, 2016 (Supp. 16-2). Amended by final rulemaking at 24 A.A.R. 2069, effective October 1, 2018 (Supp. 18-3).

R20-5-1312. Hearing Process

- A.** A referral of a request for hearing under R20-5-1311(L) shall be processed as provided for in the Act unless all parties agree to participate in the fast track process.
- B.** The following applies only to the Fast Track ALJ Dispute Resolution Program:
1. Parties must agree to participate in the Fast Track ALJ Dispute Resolution Program with the understanding that a short form decision will be issued.
 2. Review by the presiding ALJ shall be limited to the treatment or service dispute considered at the administrative review under R20-5-1311.
 3. The presiding ALJ shall issue a notice of hearing within 10 business days of the receipt of the fully executed agreement to participate and certificate of readiness.
 4. The hearing shall be held within 30 calendar days from the day that the notice of hearing is issued to the extent practicable.
 5. Discovery is limited to five interrogatories and no depositions are permitted.
 6. The presiding ALJ shall take all lay witness testimony at the time of the hearing and will not hold any further hearings.
 7. The presiding ALJ shall consider documentary medical evidence only; no medical testimony shall be taken.
 8. Medical file review opinions shall be deemed to constitute substantial evidence to support the requested treatment or service.
 9. All documentary evidence shall be submitted no later than 10 business days before the scheduled hearing.
 10. The hearing shall be recorded, but not transcribed, unless one or more of the parties files a request for review under A.R.S. § 23-942 and A.R.S. § 23-943.
 11. The presiding ALJ shall issue a short form decision within five business days after the matter is deemed submitted.

Historical Note

New Section made by final rulemaking at 22 A.A.R. 1730, effective October 1, 2016 (Supp. 16-2).

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

APPENDIX A. ARIZONA PHYSICIANS' AND PHARMACEUTICAL FEE SCHEDULE 2019/2020

Adopted by The Industrial Commission of Arizona

Contact Medical Resource Office

Phone (602) 542-4308 / Fax (602) 542-4797 mro@azica.gov

INTRODUCTION

Since 1925, when the Arizona Legislature passed the state's first Workers' Compensation Act ("Act"), the Industrial Commission of Arizona ("Commission") has administered the workers' compensation laws of that Act. The Act includes the authority of the Commission to set a schedule of fees to be charged by physicians, physical therapists, and occupational therapists attending injured employees (also referred to in this Appendix as "injured worker" or "claimant." A.R.S. § 23-908(B). In 2004, the Act was amended to include the setting of fees for prescription medicines required to treat an injured employee. A.R.S. § 23-908(C). This fee schedule is referred to as the Arizona Physicians' and Pharmaceutical Fee Schedule (Fee Schedule).

Any reference to "physicians" in the Fee Schedule is intended to include physical therapists, occupational therapists, certified registered nurse anesthetists, physician assistants and nurse practitioners. See also the definition of "physician" found under Introduction, Section E. Treatment of Industrial Injuries and Diseases. Physicians treating employees under industrial coverage are entitled by law to charge according to the schedule of fees adopted by the Commission. Accurate calculation of fees based upon this schedule, the monthly filing of reports and bills for payment, and the use of forms prescribed are essential to timely and correct payment for a physician's services and can be vital in the award of benefits to the injured worker and their dependents.

The Fee Schedule has been updated to incorporate by reference the 2019 Edition of the American Medical Association's Physicians' Current Procedural Terminology, Fourth Edition (CPT®-4), including the general guidelines, identifiers, modifiers, and terminology changes associated with the adopted codes. In the Fee Schedule CPT® codes that contain explanatory language specific to Arizona are preceded by Δ. Codes, however, that are unique to Arizona and not otherwise found in CPT®-4 are preceded by an AZ identifier and numbered in the following format: AZ0xx-xxx. To the extent that a conflict may exist between an adopted portion of the CPT®-4 and a code, guideline, identifier or modifier unique to Arizona, then the Arizona code, guideline, identifier or modifier shall control.

- a. The Commission has also adopted by reference: 1) The unit values and guidance for consultative, diagnostic and therapeutic services published in the most recent edition of Relative Value Guide, American Society of Anesthesiologists <https://www.asahq.org/>; 2) The 1995 and 1997 Documentation Guidelines for Evaluation and Management Services, Centers for Medicare and Medicaid Services (CMS) <https://www.cms.gov/>; 3) The 2019 Clinical Diagnostic Laboratory Fee Schedule, Centers for Medicare and Medicaid Services (CMS) Clinical Laboratory fee Schedule <https://www.cms.gov/>; 4) The National Correct Coding Initiative Edits, CMS; <https://www.cms.gov/Medicare/Coding/NationalCorrectCodInitEd/index.html>; 5) 2019 Optum 360 The Essential RBRVS <https://www.optum360.com/>; and 6) Physicians as Assistants at Surgery: 2018 Update <https://www.facs.org/>. The RBRVS based fee schedule adopts surgical global periods published by CMS.

Except as otherwise noted, unit values assigned to the service codes listed in the Fee Schedule are the product of the Industrial Commission of Arizona and are not associated in any way with the American Medical Association or any other entity or organization.

A. GENERAL GUIDANCE

1. Reimbursements and billing associated with Pharmaceuticals are found in the Pharmaceutical Fee Schedule Section of Appendix A.
2. This Fee Schedule establishes the fees that can be charged by physicians for services performed for injured workers under the Arizona's workers' compensation law.
3. If a physician or insurance carrier is referring an injured worker to a medical specialist for evaluation and/or treatment, the medical specialist's diagnosis becomes the foundational diagnosis for billing purposes.
4. Routine progress and routine final reports filed by the attending physician do not ordinarily command a fee.
5. Payment will be made for only one professional visit in any one day except when the submitted report clearly demonstrates the need for the additional visit and fee.
6. Fees for hospital, office, or home visits, subsequent to the initial visit, are not to be added to coded surgical procedures performed in the same day.
7. Routine office treatment principally by injection of drugs, other than antibiotics, requires authorization by the carrier or self-insured employer for each series of 10 after the first series of 10.
8. Except in emergencies, a carrier must be given notice regarding a consultation and the consultant must provide his/her report to the carrier and the attending physician within a reasonable period of time to facilitate processing of the claim.
9. The Commission requests that carriers notify attending physicians at the same time the claimant is notified that their claim is closed with or without supportive care. If a claim is approved for reopening, the carrier should also notify the attending physician of that approval.
10. An attending physician may submit a claim for consultant's fee only when such service is requested by carrier or self-insured employer.
11. Missed individual appointments for consultants, without prior notification, will be compensated at 50% of consultation fee.
12. No fees may be charged for services not personally rendered by the physician, unless otherwise specified.
13. The Commission will investigate an injured workers' complaint of bad faith/unfair claims processing practices, and if appropriate, impose penalties under A.R.S. § 23-930, in those circumstances where a "peer to peer" review was not conducted by a physician with appropriate skill, training, and knowledge or where the individual performing the "peer to peer" review was not licensed. The Commission will also investigate an injured workers' complaint of bad faith/unfair claims processing practice, and if appropriate, impose penalties under A.R.S. § 23-930, for a denial of treatment based on the failure of the treating doctor to participate in a "peer

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

to peer” review, when the treating doctor has not been given reasonable time or opportunity to participate in the “peer to peer” review.

14. As authorized under A.A.C. R20-5-128, the fee for the reproduction of medical records for workers’ compensation purposes shall be 25¢ per page and \$10.00 per hour per person for reasonable clerical costs associated with locating and reproducing the documents.

B. PAYMENT AND REVIEW OF BILLINGS

1. Under Arizona workers’ compensation law, an insurance carrier, self-insured employer or their representative is not responsible for payment of a billing for medical, surgical, and hospital benefits that the insurance carrier, employer or representative received more than 24 months from the date that the medical service was rendered, or from the date on which the provider knew or should have known that the service was rendered, whichever occurs later. A subsequent billing or corrective billing does not restart the limitations period. See A.R.S. § 23-1062.01.
2. It is incumbent upon the insurance carrier, self-insured employer and third party processing service to inform all parties, including the Commission, regarding changes in addresses for bill processing locations.
3. Under Arizona workers’ compensation law, a physician is entitled to timely payment for services rendered. An insurance carrier, self-insured employer or claims processing representative shall make a determination whether to deny or pay a medical bill on an accepted claim, in whole or in part, including the decision as to the amount to pay, within thirty days from the date the claim is accepted, if the billing is received before the date of acceptance, or within thirty days from the date of the receipt of the billing if the billing is received after the date of injury. To ensure timely payment of a medical billing, a billing must contain the information required under A.R.S. § 23-1062.01. A billing must contain at least the following information: Correct demographic patient information including claim number, if known; Correct provider information, including name, address, telephone number, and federal taxpayer identification number; Appropriate medical coding with dollar amounts and units clearly stated with all descriptions and dates of services clearly printed; and Legible medical reports required for each date of service if the billing is for direct treatment of the injured worker.
4. Payment of a workers’ compensation medical billing is governed by A.R.S. § 23-1062.01, which includes:
 - a. Timeframes for processing and payment of medical bills;
 - b. Criteria for billing denials;
 - c. A provision that the injured worker is not responsible for payment of any portion of a medical bill on an accepted claim or payment of any portion of a medical billing that is being disputed;
 - d. A provision that the insurance carrier or self-insured employer may establish an internal system for resolving payment disputes;
 - e. A provision that A.R.S. § 23-1062.01 does not apply to written contracts entered into between medical providers and insurance carriers and self-insured employers or their representatives that specify payment periods or contractual remedies for untimely payments; and
 - f. A provision that the Industrial Commission does not have jurisdiction over contract disputes between the parties.
5. “Reasonable justification” to deny a bill does not include that the payment/billing policies of another private or public entities (publications) do not allow it unless the publication has been adopted by reference in the Fee Schedule.
6. Excluding bundling and unbundling issues, it is not the Commission’s intent to restrict an insurance carrier’s, self-insured employers or third party processing service’s ability to address issues not addressed by the Fee Schedule. This includes evaluating unlisted procedures, establishment of values for unlisted procedures, establishment of values for codes that are listed as “BR” or “RNE”, new CPT® codes that have not been adopted by the Industrial Commission, or issues outside the jurisdiction of the Fee Schedule, such as hospital billings.
7. Physicians shall provide legible medical documentation and reports that are sufficient for insurance carriers/self-insured employers to determine if treatment is being directed towards injuries sustained in an industrial accident or incident. The physician shall ensure that their patients’ medical files include the information required by A.R.S. § 32-1401.2. The medical provider is not required to provide copies of documents or reports that they did not author and that are not in their possession (i.e. Employers’ First Report of Injury).
8. Treating physicians shall submit a narrative that justifies the billing of a level 4 or 5 E & M service.
9. The Commission has adopted by reference the 1995 and 1997 Documentation Guidelines for Evaluation and Management Services. Medical billings shall be prepared and reviewed consistent with how these guidelines are used and interpreted by CMS. Additionally, payers are required to disclose the guideline utilized in their Explanation of Reviews (or other similar document).
10. A payer’s Explanation of Review (or other similar document) shall contain sufficient information to allow the physician to determine whether the amount of payment is correct and whom to contact regarding any questions related to the payment. Information in the Explanation of Review (or other similar document) shall include the following:
 - a. The name of the injured worker;
 - b. The name of the payer and the name of the third party administrator (“TPA”), if applicable;
 - c. If applicable, the name, telephone number, and address of all entities that reviewed the medical billing on behalf of the payer;
 - d. If applicable, the name, telephone number and address of the party that has a written contract signed by the physician that allows the contracting party or other third party to access and pay rates that are different from those provided under this Fee Schedule;
 - e. The amount billed by the physician;
 - f. The amount of any reduction due to a written contract with the physician; and
 - g. The amount of payment.
11. Nothing in this Fee Schedule precludes a physician from entering into a separate contract that governs fees. In this instance, reimbursement shall be made according to the applicable contracted charge. In the absence of a separate contract that governs a physician’s fees, reimbursement shall be made according to this Fee Schedule. A payer shall demonstrate that it is entitled to pay the

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

contracted rate in the event of a dispute. If a payer fails to provide evidence that it is entitled to pay a contracted rate, then the payer shall be required to make payment as provided in this Fee Schedule.

12. Billing for Pharmaceuticals is found in the Pharmaceutical Fee Schedule Section of this Appendix.

C. REIMBURSEMENT OF MID-LEVEL PROVIDERS

1. Certified Registered Nurse Anesthetists (“CRNA’s”) are reimbursed at 85% of the fee schedule.
2. Physician Assistants and Nurse Practitioners are reimbursed at 85% of the fee schedule *except* if services are provided “incident to” a physician’s professional services. In that instance, reimbursement is required to be at 100% of the fee schedule. The following criteria are identified as establishing the “incident to” exception:
 - a. The Physician Assistant and Nurse Practitioner must work under the direct supervision of a physician,
 - b. The Physician must initially see that patient and establish a plan of care for that patient (“treatment plan”),
 - c. Subsequent service provided by the Physician Assistant and Nurse Practitioner must be a part of the documented treatment plan, and
 - d. The Physician must always be involved in the patient’s treatment plan and see the patient often enough to demonstrate that the Physician is actively participating in and managing the patient’s care.
3. For purposes of the Fee Schedule, the Commission recognizes that direct supervision of a Physician Assistant or Nurse Practitioner by a Physician can be accomplished through the use modern technology and telecommunications (telemedicine) and may not require the on-site presence of the Physician when the Physician Assistant or Nurse Practitioner sees the patient. In all instances, however, and regardless of the extent to which telemedicine is used, the Physician must actively participate in and manage the patient’s care if services provided by a Physician Assistant or Nurse Practitioner are billed at 100% of the fee schedule under the “incident to” exception.
4. It is the responsibility of the Physician to document if the services provided by a Physician Assistant and Nurse Practitioner are “incident to” the Physician’s professional service. If either the incident to criteria is not met, or the documentation submitted fails to support the “incident to” criteria, the reimbursement should be made at 85% of the fee schedule.

D. DIRECTED CARE AND USE OF NETWORKS

The Arizona Workers’ Compensation Act only permits private self-insured employers to direct medical care. A.R.S. § 23-1070(A); See also *Southwest Gas Corp. v. Industrial Commission of Arizona*, 200 Ariz. 292, 25 P.3d 1164 (2001). This limitation on the scope of directed care means that employees of private self-insured employers do not have an unrestricted right to choose their own medical providers, while employees of all other employers do (including public self-insured employers).¹ Notwithstanding an employee’s right to choose, many workers’ compensation insurance carriers (“carriers”) and public self-insured employers (“employers”) have taken advantage of “networks” to reduce their costs. This is done by either creating their own network of “preferred providers” or by contracting with a third party to access private health-care networks.

¹ It should be noted that the law governing directed care is not limited to “medical doctors,” but instead applies to medical, surgical, and hospital benefits. See A.R.S. § 23-1070. The phrase, “medical, surgical, and hospital benefits” is defined in A.R.S. § 23-1062(A), which states: “Promptly, upon notice to the employer, every injured employee shall receive medical, surgical and hospital benefits or other treatment, nursing, medicine, surgical supplies, crutches and other apparatus, including artificial members, reasonable required at the time of the injury, and during the period of disability. Such benefits shall be termed ‘medical, surgical and hospital benefits.’”

Actions or conduct that impair or limit the right of an employee to choose their medical provider may rise to the level of bad faith and/or unfair claims processing practices under A.R.S. § 23-930. The Commission will investigate a complaint of bad faith/unfair claims processing practices, and if appropriate, impose penalties under A.R.S. § 23-930, in those circumstances where a carrier, employer, or TPA has engaged in conduct that results in directing a claimant to a “network” provider. The following are examples of conduct that the Commission would consider appropriate for investigation under A.R.S. § 23-930.

- A claimant is told that they must to see a physician (or other provider) that is “in the network;”
- A claimant is told that care from a “non-network” physician (or other provider) is not authorized;
- A “network” physician (or other provider) is told that referrals are required to be made to another “network” physician (or other provider);
- A “network” physician (or other provider) is told that they may not recommend a “non-network” provider to a patient;
- A “non-network” physician (or other provider) is told that care will only be authorized if provided by a “network” provider; and
- A “non-network” provider is told that reimbursement will be made according to “network” discounts.

E. TREATMENT OF INDUSTRIAL INJURIES AND DISEASES

1. The term “physician” in relation to workers’ compensation cases includes the following: doctors of medicine, doctors of osteopathy, doctors of chiropractic, doctors of naturopathic medicine, certified registered nurse anesthesiologists, physician assistants and nurse practitioners.
2. Only physicians and surgeons licensed in the State of Arizona are permitted to treat injured or disabled employees under the jurisdiction of the Commission, unless others are specifically authorized.
3. An employee who sustains an injury arising out of, or in the course of, employment is entitled, under Arizona law, to select a physician of his/her own choice unless that employee is employed by a private self-insured employer as described in A.R.S. § 23-1070. Employers described in A.R.S. § 23-1070, excluding the State or Political Subdivisions thereof, are allowed to direct medical care.
4. The attending physician’s promptness and professional exactness in the completion and filing of workers’ compensation forms are extremely important to the employee being treated. The injured or disabled employee’s claim to medical benefits and compensation can rest on the conscientious attention of the physician in processing the required reports. Rules addressing the completion of

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

these forms are found in the Title 20, Chapter 5, Article 1 of the *Arizona Administrative Code*, which can be obtained at: http://apps.azsos.gov/public_services/Title_20/20-05.pdf

5. The Commission, the employer and the insurance carrier may, at any time, designate a physician or physicians to examine an employee. Additionally, upon application of the employer, employee, or insurance carrier, the Commission may order a change of physician or a change of conditions of treatment when there are reasonable grounds for belief that the employee's health or progress can thus be improved.
6. A claimant may not change doctors without the written authorization of the insurance carrier, the Commission or the attending physician. A claimant may not transfer from one hospital to another without the written authorization of the insurance carrier or the Commission. If the patient's employment requires leaving the locale in which he/she is receiving treatment, the attending physician should arrange for continued treatment and notify the carrier of such arrangement. It is the responsibility of the physician or the hospital to which a patient has transferred to ascertain whether such a change has been authorized.
7. Treatment of conditions unrelated to the injuries sustained in the industrial accident may be denied as unauthorized if the treatment seems directed principally toward the non-industrial condition or if the treatment does not seem necessary for the patient's physical rehabilitation from the industrial injury.
8. If the patient refuses to submit to medical examination or to cooperate with the physician's treatments, the carrier or self-insured employer should be notified.
9. If an employee is capable of some form of gainful employment, it is proper for the physician to release the employee to light work and make a specific report to the carrier or self-insured employer as to the date of such release. It can be to the employee's economic advantage to be released to light work, since he/she can receive compensation based on 66 2/3% of the difference between one's earnings and one's established wage. On the other hand, it would not be to the employee's economic advantage to be released to light work if, in fact, the employee is not capable of performing such work. The physician's judgment in such matters is extremely important.
10. If the employee no longer requires active medical care for the industrial injury and is discharged from treatment, the physician is required to provide a signed report with the date of discharge to the carrier or self-insured employer, even if, as a private patient, the employee may require further medical care for conditions unrelated to the industrial accident. This final report and discharge date are necessary for closing the claim file.
11. When a physician discharges a claimant from treatment, the physician shall determine whether the employee has suffered any impairment of function, or disfigurement about the head or face, including injury to or loss of teeth, and include this information in the final signed report provided to the carrier or self-insured employer. The Rules of Procedure Before the Industrial Commission of Arizona require that any rating of the percentage of functional impairment should be made in accordance with the standards of evaluation published in the most recent edition of the American Medical Association Guides to the Evaluation of Permanent Impairment.
12. Once an exposure to blood-borne pathogen occurs, the workers' compensation insurance carrier/self-insured employer is responsible for payment of the accepted treatment protocol which includes the HBIG vaccination (Hepatitis B Immune Globulin), and, if necessary, the three (3) Hepatitis B vaccinations.
When a work-related incident occurs that may have exposed an employee to Hepatitis, the insurance carrier/self-insured employer is responsible for paying for the testing and/or treatment of Hepatitis B or C. As to treatment of HIV, if a bona fide claim exists under A.R.S. § 23-1043.02, then the insurance carrier/self-insured employer is responsible for paying for the treatment.
13. It is the employer's responsibility, in accordance with existing OSHA standards, to pay for HIV testing. The insurance carrier may seek reimbursement from the employer for the costs associated with providing the series of three (3) Hepatitis B vaccinations if the employer failed to provide them in violation of federal and state laws.

F. REOPENING OF CLAIMS

1. Whether or not the employee has suffered a permanent disability, on a claim that has been previously accepted, the claim may be reopened on the basis of a new, additional or previously undiscovered disability or condition, but:
 - a. The claimant should use the form of petition prescribed by the Commission;
 - b. The petition must be personally signed by the worker or his authorized representative and must be filed at any office of the Industrial Commission of Arizona;
 - c. The petition, in order to be considered, must be accompanied by the physician's medical report.
2. If the claim is reopened, the payment for such reasonable and necessary medical, hospital and laboratory work expenses shall be paid by the insurance carrier if such expenses are incurred within 15 days of the filing of the petition to reopen.
3. No monetary compensation is payable for any period prior to the date of filing of the petition to reopen. Surgical benefits are not payable for any period prior to the date of filing of a petition to reopen, except that surgical benefits are payable for a period prior to the date of filing not to exceed seven (7) days if a bona fide medical emergency precludes the employee from filing a petition to reopen prior to the surgery. Other information relative to reopening rights may be found at A.R.S. § 23-1061(H).
4. If a claim is approved for reopening, the carrier must notify the attending physician of that approval.

G. NO-INSURANCE CLAIMS

"No-Insurance" claims are workers' compensation claims involving injuries to employees of employers who do not have workers' compensation insurance coverage as required by Arizona law. In such cases, all claims and reports are to be addressed to the No-Insurance Section of the Special Fund of The Industrial Commission of Arizona.

H. CONSULTATIONS

Workers' compensation cases can present additional medical and legal problems that justify consultation sooner and more frequently than for the average private patient. In difficult problems and in cases requiring an estimate of general or unscheduled disability, consultation with

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

specialists in the appropriate field may be requested by any interested party. The Industrial Commission continues to recognize the necessity for consultations in workers' compensation and establishes relative value units and rates for consultation codes.

I. DEFINITIONS OF SELECT UNIT VALUES

1. **BY REPORT "BR" ITEMS:** "BR" in the value column indicates that the value of this service is to be determined "by report", because the service is too unusual or variable to be assigned a unit relativity. Pertinent information concerning the nature, intent and need for the procedure or service, the time, the skill and equipment necessary, etc., is to be furnished. A detailed clinical record is not necessary.
2. **RELATIVITY NOT ESTABLISHED "RNE" ITEMS:** "RNE" in the value column indicates new or infrequently performed services for which sufficient data has not been collected to allow establishment of a relativity. "RNE" items are clearly definable and not inherently variable as are BR procedures. A report may be necessary.
3. **SERVICE "SV" ITEMS:** "SV" in the value column indicates the value is to be calculated as the sum of the various services rendered (e.g., office, home, nursing home or hospital visits, consultation or detention, etc.), according to the ground rules covering those services. Identify by using the code number of the "SV" item. The Value is established by identifying each individual service, listing the code number and its value.
4. **MATERIALS AND SUPPLIES:** A physician is not entitled to be reimbursed for supplies and materials normally necessary to perform the service. A physician may charge for other supplies and materials using code 99070². A physician may use an applicable HCPCS code in lieu of code 99070 if the HCPCS code more accurately describes the materials and supplies provided by the physician; however, the Commission has not adopted the RVUs for HCPCS codes. Examples of those items that are and are not reimbursable are listed below. Documentation showing actual costs (i.e. manufacturer's current invoice) associated with providing supplies and materials plus fifteen percent (15%) to cover overhead costs will be adequate justification for payment. This provision does not apply to retail operations involving drugs or supplies. Administration of drugs to patients in a clinical setting is covered under code 99070. Prescription drugs provided to patients as a part of the overall treatment regimen but outside of the clinical setting are not included under this code.

² CPT only copyright 2018 American Medical Association. All rights reserved.

Examples of supplies that are usually not separately reimbursable include:

- Applied hot or cold packs
- Eye patches, injections or debridement trays
- Steristrips
- Needles
- Syringes
- Eye/ear trays
- Drapes
- Sterile gloves
- Applied eye wash or eye drops
- Creams (massage)
- Fluorescein
- Ultrasound pads and gel
- Tissues
- Urine collection kits
- Gauze
- Cotton balls/fluff
- Sterile water
- Band-Aids and dressings for simple wound occlusion
- Head sheets
- Aspiration trays
- Sterile trays for laceration repair and more complex surgeries
- Tape for dressings

Examples of material and supplies that are generally reimbursable include:

- Cast and strapping materials
- Applied dressings beyond simple wound occlusion
- Taping supplies for sprains
- Iontophoresis electrodes
- Reusable patient specific electrodes
- Dispensed items, including:
 - Canes
 - Braces
 - Slings
 - Ace wraps
 - TENS electrodes
 - Crutches
 - Splints
 - Back support
 - Dressings
 - Hot or cold packs

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

5. “Modifiers: A two-digit (numeric or alpha) sequence that provides the means by which the reporting physician can specify that a procedure performed has been altered under a procedure performed has been altered under a special circumstance. This allows defining the modifying circumstance of the service or procedure without creating a separate procedure or listing.

Modifier Examples

Professional Component (PC): Certain procedures are a combination of a physician, or Professional component and a technical component. When modifier “-26” is added to an Appropriate code a PC allowable amount will be paid.

Technical Component (TC): The TC component reflects the technical portion of the procedure code. When the technical component is provided by a health care provider other than the one providing the professional component, the health care provider bills for the technical component by adding Modifier “-TC” to the applicable code.

J. LIST OF ACRONYMS

AMA	American Medical Association
AS	Assistant Surgeon
AWP	Average Wholesale Price
BR	By Report
CCI	Current Coding Initiative (National)
CF	Conversion Factor
CMS	Centers for Medicare & Medicaid Services
CPT	Current Procedural Terminology
CRNA	Certified Registered Nurse Anesthetist
DME	Durable Medical Equipment
E/M	Evaluation and management services
FCE	Functional Capacity Evaluation
FUD	Follow-up day(s)
HCPCS	Healthcare Common Procedure Coding System
ICD-10-CM	International Classification of Diseases, Tenth Revision, Clinical Modification
IME	Independent medical examination
MPFS	Medicare physician fee schedule
MRI	Magnetic resonance imaging
NCCI	(see CCI)
NP	Nurse practitioner
OTC	Over-the-counter
PA	Physician assistant
RBRVS	Resource based relative value scale
RVU	Relative value unit

Historical Note

New Appendix A, Introduction made by exempt rulemaking at 25 A.A.R. 2624, effective October 1, 2019; Appendix A, Introduction will remain in effect though September 30, 2020 (Supp. 19-3).

PHARMACEUTICAL FEE SCHEDULE**I. GENERAL PROVISIONS AND APPLICABILITY OF THE PHARMACEUTICAL FEE SCHEDULE.**

- A. The Pharmaceutical Fee Schedule (PFS) applies to prescription and over-the-counter (OTC) medications required to treat an injured employee, whether dispensed by a pharmacy (including online or mail order pharmacies) or by a medical practitioner.
- B. Medications are not reimbursable unless “reasonably required” at the time of injury or during the period of disability. See A.R.S. § 23-1062(A); A.A.C. R20-5-1303(A). The Industrial Commission of Arizona has adopted the Official Disability Guidelines (ODG), including ODG’s Drug Formulary Appendix A (ODG Formulary), as the standard reference for evidence-based medicine used in treating injured employees within the context of Arizona’s workers’ compensation system. Effective October 1, 2018, ODG applies to all body parts and conditions. See A.A.C. R20-5-1301(B), (E). ODG is to be used as a tool to support clinical decision making and quality health care delivery to injured employees. The ODG Formulary sets forth pharmaceutical guidelines that are generally considered reasonable and are presumed correct if the guidelines provide recommendations related to a particular medication. See A.A.C. R20-5-1301(H). Medical practitioners are encouraged to consult the ODG Formulary before dispensing or prescribing medications to injured employees.
- C. Generic drugs must be dispensed to injured employees when appropriate, consistent with A.R.S. § 32-1963.01(A),¹ (B), and (D) through (L).² See A.R.S. § 23-908(C). For purposes of this subsection, the definitions in A.R.S. § 32-1963.01(L) apply.³ As a cost reducing measure, medical practitioners should prescribe less costly drugs whenever possible.

¹ A.R.S. § 32-1963.01(A) states: “If a medical practitioner prescribes a brand name drug and does not indicate an intent to prevent substitution as prescribed in subsection E of this section, a pharmacist may fill the prescription with a generic equivalent drug.”

² A.R.S. § 32-1963.01(E) states: “A prescription generated in this state must be dispensed as written only if the prescriber writes or clearly displays ‘DAW’, ‘dispense as written’, ‘do not substitute’ or ‘medically necessary’ or any statement by the prescriber that clearly indicates an intent to prevent substitution on the face of the prescription form. A prescription from out of state or from agencies of the United States government must be dispensed as written only if the prescriber writes or clearly displays ‘do not substitute’, ‘dispense as written’ or ‘medically necessary’ or any statement by the prescriber that clearly indicates an intent to prevent substitution on the face of the prescription form.”

³ A.R.S. § 32-1963.01(L) states, in part:

2. “Brand name drug” means a drug with a proprietary name assigned to it by the manufacturer or distributor.

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

4. "Generic equivalent" or "generically equivalent" means a drug that has an identical amount of the same active chemical ingredients in the same dosage form, that meets applicable standards of strength, quality and purity according to the United States pharmacopeia or other nationally recognized compendium and that, if administered in the same amounts, will provide comparable therapeutic effects. Generic equivalent or generically equivalent does not include a drug that is listed by the United States food and drug administration as having unresolved bioequivalence concerns according to the administration's most recent publication of approved drug products with therapeutic equivalence evaluations.

II. DEFINITIONS.

- A. "Administer" has the meaning set forth in A.R.S. § 32-1901(1).
- B. "Average Wholesale Price" or "AWP" means the wholesale price charged on a specific commodity that is assigned by the drug manufacturer and is listed in a nationally-recognized drug pricing file.
- C. "Commercially available" means a drug product is widely available for purchase in pharmacies accessible to the general public, including in brick and mortar pharmacies accessible to the general public.
- D. "Compound medication" means a pharmaceutical product created by virtue of mixing or combining drugs and/or components to meet the unique needs of an individual patient when the finished product does not recreate a commercially-available product.
- E. "Dispense" or "dispensing" means to deliver to an ultimate user by or pursuant to the lawful order of a medical practitioner, including the prescribing, administering, packaging, labeling, or compounding necessary to prepare for that delivery. See A.R.S. § 32-1901(27).
- F. "Drug" has the meaning set forth in A.R.S. § 32-1901(31).
- G. "Hospital" means any institution for the care and treatment of the sick and injured that is approved and licensed as a hospital by: (1) the Arizona Department of Health Services; or (2) an equivalent regulatory agency in another U.S. state, territory, or district. See A.R.S. § 32-1901(42).
- H. "Medical practitioner" means any person who is permitted/licensed and authorized by law to use and prescribe prescription medications, acting within the scope of such authority, for the treatment of sick and injured human beings or for the diagnosis or prevention of sickness in human beings in the State of Arizona or any U.S. state, territory or district. See A.R.S. § 32-1901(53).
- I. "Non-traditional strength" medication means a finished drug product in a strength (i.e. dosage) that is not commercially available in pharmacies accessible to the general public.
- J. "Over-the-counter medication" or "OTC medication" means a finished drug product, including label and container according to context, that does not require a prescription order.
- K. "Pharmacy" has the meaning set forth in A.R.S. § 32-1901(71).
- L. "Pharmacy accessible to the general public" means a pharmacy that is readily accessible and provides pharmaceutical services (including prescription medication services) to all segments of the general public without restricting services to a defined or exclusive group of consumers who have access to services because they are treated by or have an affiliation with a specific entity or medical practitioner.
- M. "Pharmacy not accessible to the general public" means a pharmacy that provides services only to a defined or exclusive group of consumers who have access to pharmaceutical services (including prescription medication services) because they are treated by or have an affiliation with a specific entity or medical practitioner. "Pharmacy not accessible to the general public" does not include a hospital pharmacy.
- N. "Prescription" means either a prescription order or a prescription medication. See A.R.S. § 32-1901(80).
- O. "Prescription medication" means any drug, including label and container according to context, that is dispensed pursuant to a prescription order. See A.R.S. § 32-1901(81).
- P. "Prescription order" shall have the meaning set forth in A.R.S. § 32-1901(84).
- Q. "Repackaged medication" means a finished drug product removed from the container in which it was distributed by the original manufacturer and placed into a different container without further manipulation of the drug. The term also includes the act of placing the contents of multiple containers of the same finished drug product into one container. The term also includes "co-pack drug" products which contain two or more separate finished medications that are contained in a single package or unit. The term does not include a drug that is manipulated in any other way, including if the drug is reconstituted, diluted, mixed, or combined with another ingredient.
- R. "Traditional strength" medication means a finished drug product in a formulation that is commercially available in pharmacies accessible to the general public.
- S. "Ultimate user" means a person who lawfully possesses a prescription medication for that person's own use or for the use of a member of that person's household. See A.R.S. § 32-1901(95).

III. GENERAL GUIDELINES FOR BILLING AND REIMBURSEMENT OF PRESCRIPTION MEDICATIONS.

- A. Except as permitted in Section VII of the current PFS, an insurance carrier, self-insured employer, or the Special Fund of the Commission is responsible for the payment of prescription medications only if all of the following apply:
 1. The prescription medication is dispensed by an individual who is currently licensed to practice the profession of pharmacy by either: (i) the Arizona State Board of Pharmacy; or (ii) an equivalent regulatory agency in another U.S. state, territory, or district; and
 2. The prescription medication is dispensed by a pharmacy accessible to the general public, including online or mail-order pharmacies that are accessible to the general public.
- B. Reimbursement for prescription medications shall be based on the actual medication dispensed, including a substituted medication that is dispensed pursuant to A.R.S. § 32-1963.01.
- C. Except as specified in Sections IV and V of the current PFS, a pharmaceutical bill submitted for a prescription medication must include the National Drug Code (NDC) of the original manufacturer registered with the U.S. Food & Drug Administration (FDA), the quantity dispensed, and the reimbursement value of the medication. Under no circumstance shall an NDC other than the original manufacturer's NDC be used.

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

- D. The reimbursement value for prescription medications shall be based on the current PFS methodology in the absence of a contractual agreement between the pharmacy or medical practitioner and payer governing reimbursement. Network discounts may not be applied in the absence of a contractual agreement with the pharmacy or medical practitioner authorizing such discounts.
- E. The reimbursement value for a prescription medication shall be based on a discount from the applicable AWP, as determined by reference to the original manufacturer's NDC. AWP shall be determined on the date a drug is dispensed from pricing published in the most recent issue, as updated in the most recent update, of a nationally-recognized pharmaceutical publication designated by the Commission. For purposes of determining AWP, the Commission has selected Medi-span for the 2019/2020 PFS.
- F. The reimbursement value for a prescription medication shall be calculated on a per unit basis based on the applicable AWP per unit and the following methodology:
 - 1. Generic drugs: (85% of AWP per unit) x (number of units dispensed).
 - 2. Brand name drugs: (85% of AWP per unit) x (number of units dispensed).
- G. Reimbursement for non-traditional strength prescription medications shall be calculated on a per unit basis, as of the date of dispensing, based on the original manufacturer's NDC and corresponding AWP of the most therapeutically-similar traditional strength form of the same medication. Under no circumstance shall the NDC of the non-traditional strength medication be used.

IV. BILLING AND REIMBURSEMENT FOR REPACKAGED MEDICATIONS.

- A. A pharmaceutical bill submitted for a repackaged medication must identify the NDC of the repackaged medication, the NDC of the original manufacturer registered with the U.S. FDA, the quantity dispensed, and the reimbursement value of the repackaged medication. Under no circumstances shall the reimbursement value of a repackaged medication be based upon an NDC other than the original manufacturer's NDC. A repackaged NDC shall not be used for calculating the reimbursement value of a repackaged medication and shall not be considered the original manufacturer's NDC.
- B. If a pharmaceutical bill for a repackaged medication is submitted without the original manufacturer's NDC, the payer has the discretion to determine the appropriate NDC (and corresponding AWP) to use or, alternatively, may deny coverage until the appropriate NDC is furnished.
- C. The reimbursement value for a repackaged medication shall be based on the current PFS reimbursement methodology contained in Section III of the PFS, utilizing the NDC(s) and corresponding AWP(s) of the original manufacturer(s).
- D. Any component of a co-pack drug product for which there is no NDC shall not be reimbursed.

V. BILLING AND REIMBURSEMENT FOR COMPOUND MEDICATIONS.

- A. A pharmaceutical bill submitted for a compound medication must identify each reimbursable component ingredient, the applicable NDC of each reimbursable component ingredient, the corresponding quantity of each component ingredient, and the calculated reimbursement value of each component ingredient. All component ingredients of a compound medication must be billed on a single bill.
- B. The reimbursement value for a compound medication shall be calculated at the component ingredient level. The reimbursement value for a compound medication shall be based on the sum of the reimbursement values of each component ingredient and the corresponding component ingredient's NDC, based on the current PFS reimbursement methodology set forth in Section III.
- C. Any component ingredient in a compound medication for which there is no NDC shall not be reimbursed.
- D. Any component ingredient in a topical compound medication that is not FDA approved for topical use shall not be reimbursed.
- E. If any component ingredient in a compound medication is a repackaged medication, the reimbursement value for the repackaged medication ingredient shall be determined based on the current PFS reimbursement methodology set forth in Section III, using the AWP corresponding to the NDC of the original manufacturer. See Section IV.
- F. The maximum reimbursement value for a topical compound medication shall be the lesser of: (1) two hundred (\$200) for a thirty-day supply (or a pro-rated amount if the supply is greater or less than thirty days); or (2) the reimbursement value of the compound medication calculated under this section.

VI. BILLING AND REIMBURSEMENT FOR MEDICATIONS ADMINISTERED BY A MEDICAL PRACTITIONER.

- A. A pharmaceutical bill submitted for a medication administered by a medical practitioner must comply with billing procedures outlined in Sections III, IV, and V of the current PFS, as applicable.
- B. The reimbursement value for a medication administered by a medical practitioner shall be based on the current PFS reimbursement methodology contained in Sections III, IV, and V of the PFS, as applicable.

VII. REIMBURSEMENT FOR MEDICATIONS DISPENSED BY A MEDICAL PRACTITIONER OR IN A PHARMACY NOT ACCESSIBLE TO THE GENERAL PUBLIC.^{4,5}

- A. An insurance carrier, self-insured employer, or the Special Fund of the Commission is responsible for the payment of prescription medications that are dispensed by a medical practitioner or in a pharmacy not accessible to the general public if all of the following apply:
 - 1. The prescription medication is dispensed by a medical practitioner to the injured employee within seven days of the date of the industrial injury;
 - 2. The prescription medication is limited to no more than a one-time, ten-day supply;
 - 3. The prescription medication conforms to dosages and formulations that are commercially available in pharmacies accessible to the general public.
- B. An insurance carrier, self-insured employer, or the Special Fund of the Commission is responsible for the payment of prescription medications that are dispensed by a medical practitioner or in a pharmacy not accessible to the general public if all of the following apply:
 - 1. The injured employee does not have access to a pharmacy accessible to the general public within 20 miles of the injured employee's home address, work address, or the address of the prescribing medical practitioner;
 - 2. The injured employee cannot reasonably acquire the prescription medication from an online or mail order pharmacy accessible to the general public; and

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

3. The prescription medication conforms to dosages and formulations which are commercially available in pharmacies accessible to the general public.
- C. An insurance carrier, self-insured employer, or the Special Fund of the Commission is responsible for the payment of prescription medications that are dispensed by a medical practitioner or in a pharmacy not accessible to the general public if the dispensing of a prescription medication for an individual claim and specified duration has been preapproved in writing by the insurance carrier, self-insured employer, or the Special Fund of the Commission. Nothing in this section requires an insurance carrier, self-insured employer, or the Special Fund of the Commission to preapprove the dispensing of prescription medications under this subsection.
- D. The guidelines in this section do not apply to prescription medications dispensed during in-patient hospital care or upon discharge from in-patient hospital care.
- E. The reimbursement value for OTC medications dispensed by a medical practitioner or in a pharmacy not accessible to the general public shall be calculated on a per unit basis, as of the date of dispensing, based on the retail price (per unit) of the OTC medication in settings where the medication is commercially available.
- F. The reimbursement value for OTC medications that are dispensed by a medical practitioner or in a pharmacy not accessible to the general public and that are not commercially available in pharmacies accessible to the general public shall be calculated on a per unit basis, as of the date of dispensing, based on the retail price (per unit) of the most therapeutically-similar OTC medication commercially available in pharmacies accessible to the general public. Under no circumstance shall the NDC or AWP of the non-commercially-available OTC medication be used.
- G. Subject to the limitations in this section, medications that have been provided as free samples to a medical practitioner may be dispensed to an injured employee when appropriate, but are not reimbursable.

⁴Dispensing pursuant to Section VII is subject to the Arizona Opioid Epidemic Act, which imposes statutory limits on the prescribing and dispensing of schedule II opioids. For more information about the Arizona Opioid Epidemic Act, please see the FAQs published by the Arizona State Board of Pharmacy, available at <https://drive.google.com/file/d/1JCIIs8VwtdJ1T-DyGfJN3WWUm4KhDMXe/view>.

⁵Section VII sets forth reimbursement guidelines for medications dispensed in settings that are not accessible to the general public in Arizona's worker's compensation system and does not interfere with a medical practitioner's ability to dispense medications pursuant to A.R.S. § 32-1491 or seek payment from sources unrelated to workers' compensation.

VIII. DISPENSING FEE.

- A. If a prescription medication is dispensed by a pharmacy accessible to the general public pursuant to a prescription order, a dispensing fee of up to seven dollars (\$7.00) per prescription medication, repackaged medication, or compound medication may be charged. The dispensing fee does not apply to OTC medications that are not prescribed by a medical practitioner.
- B. If a prescription medication is dispensed by a medical practitioner or in a pharmacy not accessible to the general public pursuant to Section VII(A), (B), or (C), a dispensing fee of up to seven dollars (\$7.00) per prescription medication, repackaged medication, or compound medication may be charged. If an OTC medication is dispensed by a medical practitioner or by a pharmacy not accessible to the general public, a dispensing fee is not permitted.
- C. If a prescription or OTC medication is administered by a medical practitioner, a dispensing fee is not permitted.

IX. ADDITIONAL BILLING GUIDELINES.

- A. Paper billing by a medical practitioner:

The following is an example of how to report both the repackaged NDC and original NDC on the CMS 1500 form using the shaded area of line 24. The information is reported in the following order: qualifier (N4), NDC code, one space, unit/basis of measurement qualifier, quantity, one space, ORIG, qualifier (N4), NDC code.”

III. A. DATE(S) OF SERVICE				B. C. PLACE OF SERVICE		D. PROCEDURES, SERVICES, OR SUPPLIES				E. DIAGNOSIS		F. CHARGES		G. DAYS OF SERVICE		H. I. RENDERING PROVIDER		J. RENDERING PROVIDER ID #	
MM	DD	YY	MM	DD	YY	SERVICE	EMG	CPHCPCS	MODIFIER	DIAGNOSIS	PORTER	\$ CHARGES	UNIT	PER	DAY	TYPE	QUAL	PROVIDER ID #	PROVIDER ID #
N455280047590 UN30 ORIGN400025152531																			
10	01	05	10	01	05	11		J3490			A	500	00	30	N	G2	12345678901	0123456789	

If a physician does not bill using the CMS 1500 form, or is not able to include all the required information on the CMS 1500 form (due to software/system limitations), then the physician may provide the required information (in the required order) separately or as an attachment to the CMS 1500 form.

- B. Paper billing by non-physician entities.

A non-physician entity using paper billing to bill for medications shall use the most recent version of the Workers' Compensation/Property & Casualty Universal claim Form (WC/PC UCF) adopted by the National Council for Prescription Drug Programs.

X. SEVERABILITY CLAUSE.

If any provision of Pharmaceutical Fee Schedule or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or application of the Pharmaceutical Fee Schedule which can be given effect without the invalid provisions or application, and to this end the provisions of this Pharmaceutical Fee Schedule are severable.

Historical Note

New Appendix A, Pharmaceutical Fee Schedule made by exempt rulemaking at 25 A.A.R. 2624, effective October 1, 2019; Appendix A, Pharmaceutical Fee Schedule will remain in effect through September 30, 2020 (Supp. 19-3).

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

APPENDIX CATEGORIES

ANESTHESIA

ANESTHESIA GUIDELINES

This Fee Schedule has been updated to incorporate by reference the 2019 Edition of the American Medical Association's *Physicians' Current Procedural Terminology*, Fourth Edition (CPT®-4), including the general guidelines, identifiers, modifiers, and terminology changes associated with the adopted codes. In this Fee Schedule CPT® codes that contain explanatory language specific to Arizona are preceded by Δ. Codes, however, that are unique to Arizona and not otherwise found in CPT®-4 are preceded by an AZ identifier and numbered in the following format: AZ0xx-xxx.

The Commission has also adopted by reference the unit values and guidance for consultative, diagnostic and therapeutic services published in the most recent edition of *Relative Value Guide*, American Society of Anesthesiologists. Additional information regarding publications adopted by reference is found in the Introduction of the Fee Schedule.

The following Commission guidelines are in addition to the CPT® guidelines and represent additional guidance from the Commission relative to unit values for anesthesia services. To the extent that a conflict may exist between an adopted portion of the CPT®-4 and a code, guideline, identifier or modifier unique to Arizona, then the Arizona code, guideline, identifier or modifier shall control.

- A. CERTIFIED REGISTERED NURSE ANESTHETISTS:** Are reimbursed at 85% of the fee schedule when billed with modifier QZ.
- B. ANESTHESIA MODIFIERS:** Anesthesia modifiers, which may include physical status and other optional modifiers, may be added to the basic values. Unit values for physical status modifiers are as follows:

	Unit Values
P1 – A normal healthy patient	0
P2 – A patient with mild systemic disease	0
P3 – A patient with severe systemic disease	1
P4 – A patient with severe systemic disease that is a constant threat to life	2
P5 – A moribund patient who is not expected to survive without the operation	3
P6 – A declared brain-dead patient whose organs are being removed for donor purposes	0

AA - Anesthesia services personally performed by an anesthesiologist Reimbursed at 100% of the lesser of billed charges or fee schedule calculation

AD - Medical supervision by a physician: more than four (4) concurrent Anesthesia reimbursed at 50% of the lesser of billed charges or fee schedule calculation

QK - Medical direction of two, three or four concurrent anesthesia procedures Involving qualified individuals reimbursed at 50% of the lesser of billed charges or fee schedule

QX - Qualified nonphysician anesthetist with medical direction by a physician reimbursed at 50% of fee schedule calculation

QZ - CRNA without medical direction by a physician reimbursed at 85% of the lesser of billed charges or fee schedule calculation

- C. REPORTING OF TIME:** Time reporting is described in the Anesthesia Guidelines of the CPT® book. IN ARIZONA, TIME UNITS WILL BE ADDED TO THE BASIC VALUE AND MODIFYING UNITS AS IS CUSTOMARY IN THE LOCAL AREA USING THE FOLLOWING UNIT VALUES:

1 unit value is equal to Fifteen (15) minutes or any Seven (7) minute portion thereof.

- D. UNIT VALUES FOR OTHER QUALIFYING CIRCUMSTANCES:** (more than one may be selected)
Qualifying circumstances are described in the Anesthesia Guidelines of the CPT® book. The unit values for these procedures, which are reported as an additional service and may be added to the basic unit values, are as follows:

Code	Unit Value
99100	1
99116	5
99135	5
99140	2

The codes listed herein are CPT only copyright 2018 American Medical Association.

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

SURGERY

SURGERY GUIDELINES

This Fee Schedule has been updated to incorporate by reference the 2019 Editions of the American Medical Association's *Physicians' Current Procedural Terminology*, Fourth Edition (CPT®-4), including the general guidelines, identifiers, modifiers, and terminology changes associated with the adopted codes. In this Fee Schedule CPT® codes that contain explanatory language specific to Arizona are preceded by Δ. Codes, however, that are unique to Arizona and not otherwise found in CPT®-4 are preceded by an AZ identifier and numbered in the following format: AZ0xx-xxx.

The Commission has also adopted by reference: 1) The 1995 and 1997 *Documentation Guidelines for Evaluation and Management Services*, Centers for Medicare and Medicaid Services (CMS) <https://www.cms.gov>; 2) 2019 Optum 360 The Essential RBRVS <https://www.optum360.com/>; 3) The National Correct Coding Initiative Edits, CMS <https://www.cms.gov/Medicare/Coding/NationalCorrectCodingInitiative/index.html>. and, 4) Physicians as Assistants at Surgery Update 2018 <https://www.facs.org/>. The RBRVS-based fee schedule adopts surgical global periods published by CMS. Additional information regarding publications adopted by reference is found in the Introduction of the Fee Schedule.

The following Commission guidelines are in addition to the CPT® guidelines and represent additional guidance from the Commission relative to unit values for surgical services. To the extent that a conflict may exist between CMS, an adopted portion of the CPT®-4 and a code, guideline, identifier or modifier unique to Arizona, then the Arizona code, guideline, identifier or modifier shall control.

- A. **MATERIALS AND SUPPLIES:** A physician may charge for materials and supplies as described in subsection (I) (4) of the Introduction Section of the Physician's Fee Schedule.
- B. **MULTIPLE PROCEDURES:** It is appropriate to designate multiple procedures that are rendered on the same date by separate entries. However, the primary procedure code is the code that determines the follow-up days when a surgery has multiple procedures. The additional procedure(s) or service(s) may be identified by appending modifier 51 to the additional procedure or service code(s). **Note:** This modifier should not be appended to designated "add-on" codes.
- C. **SPECIAL REPORT:** A typical request for more detailed information from an insurance carrier regarding a billing does not constitute a "special report", which is defined in the CPT® book.
- D. **MODIFIERS:** Listed services and procedures may be modified under certain circumstances. When applicable, the modifying circumstance should be identified by the addition of the appropriate modifier code, which may be reported in either of two ways. The modifier may be reported by a two-digit number placed after the usual procedure number from which it is separated by a hyphen. Or the modifier may be reported by a separate five-digit code that is used in addition to the procedure code. If more than one modifier is used, the "Multiple Modifiers" code placed first after the procedure code indicates that one or more additional modifier codes will follow.

Modifiers either unique to Arizona or containing explanatory language specific to Arizona are as follows:

- Δ-22 Increased Procedural Services: Use of this modifier will result in a twenty-five percent (25%) increase in the listed value for the listed procedure.
- Δ-25 Separately Identifiable Evaluation and Management Service by same Physician or Other Qualified Health Care Professional on the Same Day of the Procedure or Other Service. It may be necessary to indicate that on the day a procedure or service identified by a CPT code was performed, the patient's condition required a significant, separately identifiable E/M service above and beyond the other service provided or beyond the other service provided or beyond the usual preoperative and postoperative care associated with the procedure that was performed (see Evaluation and Management Services Guidelines for instructions on determining level of E/M service). As such, different diagnoses are not required for reporting of the E/M services on the same date. The circumstance may be reported by adding modifier 25 to the appropriate level of E/M service.
- Δ-47 Anesthesia by Surgeon: The value shall be fifty percent (50%) of the calculated American Society of Anesthesiologists Relative Value Guide value.
- Δ-50 Bilateral Procedure: Unless otherwise identified in the listings, when bilateral procedures which add significant time or complexity to patient care are provided at the same operative session, identify and value the first or major procedure as listed. Identify the secondary or lesser procedure(s) by adding this modifier '-50' to the usual procedure number(s) and value at fifty percent (50%) of the listed value(s). If, however, the procedures are independently complex and involve different parts of the body, including digits, the bilateral procedure rule would not apply. In such cases, independent procedures would be billed at one hundred percent (100%) of their listed value.
- Δ-51 Multiple Procedures: When multiple procedures are performed during the same operative session*, the procedures should be valued at the appropriate percent of its listed value, as shown below:
 - 100% (full value) for the first or major procedure
 - 50% for the second and multiple procedure(s)
 - Sixth and subsequent procedures – by report

The codes listed herein are CPT only copyright 2018 American Medical Association.
All rights reserved.

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

*Multiple Procedure Guidelines do not apply to codes specifically identified as “Add-on/Additional Procedures, Global indicator”ZZZ”.

The major or primary procedure is defined as the procedure with the highest value and is the code that determines the follow-up days when a surgery has multiple procedures. The second procedure is the procedure with the next highest value, the third the next highest value and so on. **

**If, however, the procedures are independently complex such as digits, tendons, nerves or artery repair, the multiple procedure rule would not apply. In such cases, independent procedures would be billed at one hundred percent (100%) of their listed value.

Δ-57 Decision for Surgery: An evaluation and management service that resulted in the initial decision to perform the surgery may be identified by adding modifier 57 to the appropriate level of E/M service.

Δ-62 Two Surgeons: By prior agreement, the total value of services performed by two surgeons working together as primary surgeons may be apportioned in relation to the responsibility and work done, provided the patient is made aware of the fee distribution according to medical ethics. If no apportionment listed, the fee should be split evenly between the co-surgeons. The total value may be increased by twenty-five percent (25%) in lieu of the usual assistant's charge. Under these circumstances the services of each surgeon should be identified by adding this modifier ‘-62’ to the joint procedure number(s) and valued as agreed upon. (Usual charges for surgical assistance may be warranted if still another physician is required as part of the surgical team.) The value of the procedure should be 125 percent of the customary value listed. Payment of 125% of the maximum allowable would be divided between the participating surgeons.

Two Surgeons – When 2 surgeons work together as primary surgeons performing distinct part(s) of a procedure, each surgeon should report his/her distinct operative work by adding modifier 62 to the procedure code and any associated add-on codes(s) for that procedure as long as both surgeons continue to work together as primary surgeons. Each surgeon should report the co-surgery once using the same procedure code. If additional procedure(s) (including add-on procedure(s)) are performed during the same surgical session, separate code(s) may be reported with modifier -62 added. **Note:** If a co-surgeon acts as an assistant in the performance of additional procedure(s), other than those reported with modifier 62, during the same surgical session, those services may be reported using separate procedure code(s) with modifier 80 or modifier 82 added, as appropriate.

Δ-80 Assistant Surgeons: These services are valued at twenty percent (20%) of the listed value of the surgical procedure(s).

– OR –

Δ-81 Minimum Assistant Surgeons: These services are valued at ten percent (10%) of the listed value of the surgical procedure(s).
