  2. Third-degree burns of the skin involving more than 5 percent of the body surface as estimated by the rule of nines.
- B. A registrant shall notify the Department by telephone within five working days of any incident that has or may have caused:
1. Any second-degree burn of the skin larger than one inch (2.54 centimeter) in greatest diameter; or
  2. Any third-degree burn of the skin; or
  3. An eye injury with any potential loss of sight.
- C. Each registrant shall file a written report with the Department of any known exposure of an individual to laser radiation or collateral radiation within 30 days of its discovery, describing:
1. Each exposure of the individual to laser or collateral radiation that exceeds the applicable MPE; and
  2. Any incident that triggered a notice requirement in subsections (A) or (B).
- D. Each report required by subsection (C) shall describe the extent of exposure to each individual including:
1. An estimate of the individual's exposure;
  2. The level of laser or collateral radiation involved;
  3. The cause of the exposure; and
  4. The corrective steps taken or planned to prevent a recurrence.
- E. A registrant shall not operate or permit the operation of any laser product or system that does not meet the applicable requirements in this Article.

**R9-7-1437. Special Lasers**

A registrant operating a laser system with an unenclosed beam path shall:

1. Conduct an evaluation before operating the laser to determine the expected beam path and the potential hazards from reflective surfaces. Based on the evaluation the registrant shall exclude reflective surfaces from the beam path at all points where the laser radiation exceeds an applicable MPE;
2. Evaluate the stability of the laser platform to determine the constraints placed upon the beam traverse and the extent of the range of control; and
3. Refrain from operating or making a laser ready for operation until the area along all points of the beam path, where the laser radiation will exceed the applicable MPE, is clear of individuals, unless the individuals are wearing the correct protective devices.

**R9-7-1438. Hair Reduction and Other Cosmetic Procedures Using Laser and Intense Pulsed Light**

- A. Registration. A person who seeks to perform hair reduction or other cosmetic procedures shall apply for registration of any medical laser or IPL device that is a Class II surgical device, certified as complying with the labeling standards in 21 CFR 801.109, revised April 1, 2010, incorporated by reference, and available under R9-7-101. This incorporated material contains no future editions or amendments. The applicant shall provide all of the following information to the Department with the application for registration:
1. Documentation demonstrating that the health professional is qualified in accordance with A.R.S. § 32-516 or

## CHAPTER 7. DEPARTMENT OF HEALTH SERVICES - RADIATION CONTROL

32-3233, has 24 hours of didactic training on the subjects listed in Appendix C, and has passed an Department-approved exam on subjects covered with a minimum grade of 80%;

2. For any health professional in practice prior to October 1, 2010, proof of 24 hours of training on the subjects listed in Appendix C;
3. Documentation endorsed by the prescribing health professional, acknowledging responsibility for the minimum level of supervision required for hair reduction procedures as defined in R9-7-1402 under "indirect supervision";
4. Procedures to ensure that the registrant has a written order from a prescribing health professional before the application of radiation;
5. If authorized, procedures to ensure that, in the absence of a prescribing health professional at the facility, the registrant has established a method for emergency medical care and assumed legal liability for the service rendered by an indirectly-supervised certified laser technician; and
6. Documentation that the indirectly-supervised certified laser technician has participated in the supervised training required by A.R.S. § 32-516 or 32-3233.

**B. Hair Reduction Procedures**

1. If a registrant is using a medical laser or an IPL device that is a Class II surgical device, certified in accordance with the labeling standards in subsection (A), for hair reduction procedures, the registrant shall:
  - a. Ensure that the device is only used by a health professional described in A.R.S. §§ 32-516(F)(3) and 32-3233(D)(1) or by a certified laser technician who is working under the indirect supervision of a health professional described in A.R.S. §§ 32-516(C)(1) and 32-3233(D) and (H)(1), and
  - b. Ensure that a prescribing health professional purchases or orders the Class II surgical device that will be used for hair reduction procedures.
2. A registrant shall:
  - a. Not permit an individual to use a medical laser or IPL device for hair reduction procedures unless the individual:
    - i. Completes an approved laser technician didactic training program of at least 40 hours duration. To successfully complete the training program, the individual shall pass a test that consists of at least 50 multiple choice questions on subjects covered with a minimum grade of 80%. The training program shall be provided by an individual who is a health professional acting within the health professional's scope of practice, or a certified laser technician with a minimum of 100 hours of hands-on experience per procedure being taught;
    - ii. Is present in the room for at least 24 hours of hands-on training, conducted by a health professional or a certified laser technician as described in subsection (B)(2)(a)(i);
    - iii. Performs or assists in at least 10 hair reduction procedures; and
    - iv. Has the qualified health professional or qualified supervising certified laser technician certify that the laser technician has completed the training and supervision as described in subsection (B)(2)(a).
  - b. Ensure that the laser technician follows written procedure protocols established by a prescribing health professional; and
  - c. Ensure that the laser technician follows any written order, issued by a prescribing health professional, which describes the specific site of hair reduction.
3. A registrant shall maintain a record of each hair reduction procedure protocol that is approved and signed by a prescribing health professional, and ensure that each protocol is reviewed by a prescribing health professional, at least annually.
4. A registrant shall:
  - a. Maintain each procedure protocol onsite, and ensure that the protocol contains instructions for the patient concerning follow-up monitoring; and
  - b. Design each protocol to promote the exercise of professional judgment by the laser technician commensurate with the individual's education, experience, and training. The protocol need not describe the exact steps that a qualified laser technician should take with respect to a hair reduction procedure.
5. A registrant shall require that a prescribing health professional observe the performance of each laser technician during procedures at intervals that do not exceed six months. The registrant shall maintain a record of the observation for three years from the date of the observation.
6. A registrant shall verify that a health professional is qualified to perform hair reduction procedures by obtaining evidence that the health professional has received relevant training specified in subsection (A)(1) and in physics, safety, surgical techniques, pre-operative and post-operative care and can perform these procedures within the relevant scope of practice, as defined by the health professional's licensing board.
7. A registrant shall provide radiation safety training to all personnel involved with hair reduction procedures, designing each training program so that it matches an individual's involvement in hair reduction procedures. The registrant shall maintain records of the training program and make them available to the Department for three years from the date of the program, during and after the individual's period of employment.

**C. Other Cosmetic Procedures**

1. If a registrant is using a medical laser or an IPL device that is a Class II surgical device, certified in accordance with the labeling standards in subsection (A), for other cosmetic procedures, the registrant shall:
  - a. Ensure that the device is only used by a health professional described in A.R.S. §§ 32-516(F)(3) and 32-3233(D)(1) or by a certified laser technician who is directly supervised by a health professional as described in A.R.S. §§ 32-516(C)(2) and 32-3233(D) and (H)(2); and
  - b. Ensure that a prescribing health professional purchases or orders the Class II surgical device that will be used for other cosmetic procedures.
2. A registrant shall not permit an individual to use a medical laser or IPL device for other cosmetic procedures unless the individual:
  - a. Completes an approved laser technician didactic training program of at least 40 hours duration. To successfully complete the training program the individual shall pass a test that consists of at least 50 multiple choice questions on subjects covered with a minimum grade of 80%. The training program shall

## CHAPTER 7. DEPARTMENT OF HEALTH SERVICES - RADIATION CONTROL

be provided by an individual who is a health professional acting within the health professional's scope of practice, or a certified laser technician with a minimum of 100 hours of hands-on experience per procedure being taught;

- b. Is present in the room for at least 24 hours of hands-on training, conducted by a health professional or a certified laser technician as described in subsection (C)(2)(a); and
  - c. Performs or assists in at least 10 cosmetic procedures governed by subsection (C), for each type of procedure (for example: spider vein reduction, skin rejuvenation, non-ablative skin resurfacing); and
  - d. Has the qualified health professional or qualified supervising certified laser technician certify that the laser technician has completed the training and supervision as described in subsection (C)(2).
3. A registrant shall maintain a record of each protocol for a cosmetic procedure governed by subsection (C) that is approved and signed by a prescribing health professional, and ensure that each protocol is reviewed by a prescribing health professional, at least annually. The registrant shall:
- a. Maintain each protocol onsite, and ensure that the protocol contains instructions for the patient concerning follow-up monitoring; and
  - b. Design each protocol to promote the exercise of professional judgment by the laser technician commensurate with the individual's education, experience, and training. The protocol need not describe the exact steps that a qualified laser technician should take with respect to a cosmetic procedure governed by subsection (C).
4. A registrant shall verify that a health professional is qualified to perform laser, IPL, and related procedures, by obtaining evidence that the health professional has received relevant training specified in subsection (A)(1) and in physics, safety, surgical techniques, pre-operative and post-operative care and can perform these procedures within the relevant scope of practice, as defined by the health professional's licensing board.
5. A registrant shall provide radiation safety training to all personnel involved with cosmetic procedures governed by subsection (C), designing each training program so that it matches an individual's involvement in each procedure. The registrant shall maintain records of the training program and make them available to the Department for three years from the date of the program, during and after the individual's period of employment.
- D.** Persons governed by this Section shall also comply with other applicable licensing and safety laws.
- E.** A laser shall be secured so that the laser cannot be removed from the facility and the on/off switch is turned to the "off" position with the key removed when a certified laser technician or a health professional is not present in the room where the laser is located.
- B.** The applicant shall pay a nonrefundable fee of \$30.00. A duplicate certificate may be requested at the time of initial application or renewal at a fee of \$10.00 per certificate. To obtain a duplicate certificate at other times a laser technician shall pay \$20.00 per certificate.
- C.** Initial certificates are issued for 12 months and expire on the last day of the month. A renewal application shall be accompanied by a renewal fee of \$30.00 each year in addition to \$10.00 per duplicate certificate requested.
- D.** Under A.R.S. § 32-3233(I) and (J), the Department may take appropriate disciplinary action, including revocation of the certificate of a certified laser technician. The Department may discipline a certified laser technician who has had a relevant professional license suspended or revoked, or been otherwise disciplined by a health professional board or the Board of Cosmetology. The Department may also discipline the certified laser technician for falsifying documentation related to training, prescriptions, or other required documentation. As provided in Article 12 of this Chapter, the Department may assess civil penalties, suspend, revoke, deny, or put on probation a certified laser technician.
- E.** A laser technician who has been using laser and IPL devices prior to November 24, 2009 may continue to do so if the technician applies for and receives a certificate from the Department before October 1, 2010.
- F.** Certification may be issued for one or more of the following procedures:
- 1. Hair Reduction,
  - 2. Skin Rejuvenation,
  - 3. Non-Ablative Skin Resurfacing,
  - 4. Spider Vein Reduction,
  - 5. Skin Tightening,
  - 6. Wrinkle Reduction,
  - 7. Laser Peel,
  - 8. Telangiectasia Reduction,
  - 9. Acquired Adult Hemangioma Reduction,
  - 10. Facial Erythema Reduction,
  - 11. Solar Lentigo Reduction (Age Spots),
  - 12. Ephelis Reduction (Freckles),
  - 13. Acne Scar Reduction,
  - 14. Photo Facial, or
  - 15. Additional procedures as approved by the Department after consultation with other health professional boards as defined in A.R.S. § 32-516(F)(3) or 32-3233(D)(1).
- G.** For any application relating to the certification of laser technicians, as described in A.R.S. § 41-1072, there is an administrative completeness review time-frame of 30 days and a substantive review time-frame of 30 days with an overall time-frame of 60 days.
- H.** Certified laser technicians shall display a valid original certificate as issued by the Department in a location that is viewable by the public.

**Historical Note**

**R9-7-1438.01. Certification and Revocation of Laser Technician Certificate**

- A.** An applicant for a laser technician certificate shall submit a completed application and certification that the applicant has received the training specified in A.R.S. §§ 32-516(A) or 32-3233(E).

**Historical Note**

New Section R9-7-1438.01 recodified from R12-1-1438.01 at 24 A.A.R. 813, effective March 22, 2018 (Supp. 18-1).

**R9-7-1439. Laser and IPL Laser Technician and Laser Safety Training Programs**

- A.** A person seeking to initiate a medical laser or IPL laser technician training program shall submit an application to the Department for certification that contains a description of the training program. In addition, the person shall submit a syllabus and a test that consists of at least 50 multiple choice questions on subjects covered. In the program materials, the person

## CHAPTER 7. DEPARTMENT OF HEALTH SERVICES - RADIATION CONTROL

shall address the subjects in R9-7-1438 through this Section, and Appendix C.

- B. The Department shall review the application and other documents required by subsections (A) and (E) in a timely manner, using an administrative completeness review time-frame of 40 days and a substantive review time-frame of 20 days with an overall time-frame of 60 days.
- C. The Department shall maintain a list of certified laser or IPL training programs.
- D. Applicants for approval as a certified laser or IPL training program shall pay a nonrefundable \$100.00 fee.
- E. Initial certification shall be issued for 12 months and shall expire on the last day of the month. A renewal application shall be accompanied by a renewal fee of \$100.00 each year.
- F. A person seeking to initiate a medical laser or IPL laser technician safety training program shall submit an application to the Department for certification that contains a description of the training program. In addition, the person shall submit a syllabus and a test that consists of at least 50 multiple choice questions on subjects covered. In the program materials, the person shall address the subjects in R9-7-1421 through R9-7-1444, Appendix C, and Appendix D, with emphasis on personal and public safety. The program shall also contain the training required by A.R.S. § 32-3233(E) or clearly state the portions of the training that are not provided or met if didactic certification is to take place in another program. The applicant shall conduct training in accordance with the program submitted to the Department and certified by the Department.

**Historical Note**

**R9-7-1440. Medical Lasers**

- A. A registrant shall ensure that a Class 3 and Class 4 laser product used in the practice of medicine has a means for measuring the level of laser radiation with an error in measurement of no greater than +20%, when calibrated in accordance with the laser product manufacturer's calibration procedure.
- B. A registrant shall calibrate a laser used in the practice of medicine according to the manufacturer's specified calibration procedure, at intervals that do not exceed those specified by the manufacturer.
- C. In a medical facility where several medical disciplines or a number of different practitioners use Class 3b and Class 4 lasers, a registrant shall form a Laser Safety Committee to govern laser activity, establish use criteria, and approve operating procedures, as follows:
  - 1. With regard to membership of the committee the registrant shall include at least one representative of the Nursing staff, the LSO, one management representative, and one representative of each medical discipline that uses the lasers;
  - 2. The committee shall review actions by the LSO related to hazard evaluation and the monitoring and control of laser hazards; and
  - 3. The committee shall approve or deny requests by potential operators and ancillary personnel to operate or assist in the operation of a laser under the direction of a licensed practitioner.
- D. A registrant shall use Class 3b and Class 4 Lasers that have a guard mechanism on the switch to control patient exposure and prevent inadvertent exposure.
- E. A registrant shall establish a written laser safety training program that provides a thorough understanding of established procedures for each type of laser in use and the medical procedures associated with use of the laser. The registrant shall

make program documentation available for Department review and, at minimum, address all of the following in the documentation:

- 1. Regulatory requirements and the laser classification system;
- 2. Fundamentals of laser operation and the significance of specular and diffuse reflections;
- 3. Biological effects of laser radiation on the eye and skin;
- 4. Non-beam hazards (for example: electrical, chemical, and reaction by-product hazards) and ionizing radiation hazards (for example: x-rays from power sources and target interactions, if applicable) of lasers; and
- 5. Responsibilities of management and employees regarding control measures.

**Historical Note**

**R9-7-1441. Laser Light Shows and Demonstrations**

- A. Before a conducting laser light show or laser demonstration, a registrant shall provide documentation to the Department that a variance from 21 CFR 1040.10 has been obtained from the FDA.
- B. A registrant shall notify the Department in writing, at least three working days in before a proposed laser light show or demonstration, and include all of the following information:
  - 1. The location, time, and date of the light show or demonstration;
  - 2. Sketches showing the locations of each laser, operator, performer, laser beam path, viewing screen, wall, mirror ball, or any other reflective or diffuse surface that could be hit by or reflect the laser beam;
  - 3. Scanning beam patterns, scan velocity, and frequency in occupied areas; and
  - 4. Physical surveys and calculations made to comply with this Article.
- C. A registrant shall supply any additional information required by the Department for the safety evaluation of the proposed activity.
- D. Before an outdoor laser light show, a registrant shall notify the Federal Aviation Administration of the proposed show.
- E. If a light show or demonstration involves laser radiation emissions outside the spectral range of 400 to 700 nanometers, a registrant shall prevent the emissions from exceeding the applicable Class 1 accessible emission limit.
- F. If it is likely that an audience member or any operator, performer, or employee will view laser or collateral radiation, a registrant shall prevent the radiation from exceeding the applicable Class 1 accessible emission limit.
- G. Even if it is unlikely that an individual, including any operator, performer, or employee in the vicinity of a laser light show or demonstration will view or be exposed to laser or collateral radiation, a registrant shall prevent the radiation from exceeding the applicable Class 2 accessible emission limit.
- H. A registrant shall identify any area where levels of laser radiation exceed the applicable Class 2 accessible emission limit by posting warning signs and using barriers or guards to prevent entry.
- I. If a registrant uses a scanning device, the registrant shall not use a device which, as a result of scan failure or any other failure, can change its angular velocity or amplitude, permitting audience exposure to laser radiation that exceeds the applicable Class 1 accessible emission limit.
- J. If a mirror ball is used with a scanning laser, a registrant shall meet the requirements of subsections (F) and (G) when the

## CHAPTER 7. DEPARTMENT OF HEALTH SERVICES - RADIATION CONTROL

mirror ball is stationary or during any failure mode that results in a change in the rotational speed of the mirror ball.

- K. A registrant shall ensure that an operator is at all times directly and personally supervising a laser light show or demonstration, except in cases where the maximum laser power output level is less than 5 milliwatts (all spectral lines) and the laser beam path is located at all times at least 6 meters above any surface upon which an individual in the audience is permitted to stand, and at any point, more than 2.5 meters in lateral separation from any position where an individual in the audience is permitted during the performance.
- L. A registrant shall prevent laser radiation levels from exceeding the applicable Class 2 accessible emission limit at any point less than three meters above any surface upon which an individual in the audience is permitted to stand and 2.5 meters in lateral separation from any position where an individual in the audience is permitted, unless physical barriers are present that prevent human access to the radiation.
- M. A registrant shall limit the maximum power output of any laser to a level sufficient to produce the desired effect.
- N. If a registrant is required to limit output power to a level less than the available power to meet the requirements of this Article, the registrant shall adjust, measure, and record the laser output power before the laser light show or demonstration.
- O. A registrant shall functionally test and evaluate all safety devices and procedures necessary to comply with this Article after setup, and before a laser light show or demonstration.
- P. A registrant shall secure a laser system, when not in use, against unauthorized operation or tampering.
- Q. A registrant shall perform laser alignment procedures with the laser output power reduced to the lowest practicable level, and ensure that any operator, performer, or other employee wears protective eyewear as necessary to prevent exposure to radiation levels that exceed the applicable MPE. The registrant shall only allow individuals who are performing the alignment be present during alignment procedures.
- R. A registrant shall not conduct a laser light show or demonstration unless the Department has specifically exempted the show or demonstration from the requirements of 21 CFR 1040.10, April 1, 2004, which is incorporated by reference, published by the Office of Federal Register National Archives and Records Administration, Washington, D.C. 20408, and on file with the Department. **R9-7-1443. Laser Compliance Measurement Instruments**

A registrant shall ensure that the radiation output measurement is performed with an instrument that is calibrated and designed for use with the laser that is being evaluated for compliance. The registrant shall specify the date of calibration, accuracy of calibration, wave-

length range, and power or energy of calibration on a legible, clearly visible label attached to the instrument.

**R9-7-1444. Laser Classification Measurements**

- A. A registrant shall measure accessible emission for classification:
  - 1. Under the operational conditions and procedures that maximize accessible emission levels, including start-up, stabilized operation, and shutdown of the laser or laser facility;
  - 2. With all controls and adjustments listed in the operating and service instructions adjusted for the maximum accessible emission level of laser radiation that is not expected to be detrimental to the functional integrity of the laser or enclosure;
  - 3. At points in space to which human access is possible for a given laser configuration. If operations include the defeat of safety interlocks or removal of portions of the protective housing or enclosure, the registrant shall measure accessible emission at points accessible in that configuration;
  - 4. With the measuring instrument detector positioned so that the maximum possible radiation is measured by the instrument; and
  - 5. With the laser coupled to the type of laser energy source specified as compatible by the laser manufacturer and producing the maximum emission of accessible laser radiation.
- B. A registrant shall perform measurements of accessible emission levels, used to classify laser and collateral radiation in accordance with 21 CFR 1040.10, April 1, 2004, which is incorporated by reference, published by the Office of Federal Register National Archives and Records Administration, Washington, D.C. 20408, and on file with the Department. a guide and upon request, assist the applicant to ensure that correct information is provided on the application form.

Name and mailing address of applicant  
 Person responsible for radiation safety program  
 Type of facility  
 Legal structure and ownership  
 Radiation source information  
 Shielding information  
 Equipment operator instructions and restrictions  
 Classification of professional in charge  
 Type of request: amendment, new, or renewal  
 Protection survey results, if applicable  
 Radiation Safety Officer name, if applicable  
 Laser class and type, if applicable  
 Information required by Article 14 for the specific source  
 Use location  
 Telephone number  
 Facility subtype  
 Signature of certifying agent  
 Equipment identifiers  
 Scale drawing  
 Physicist name and training, if applicable  
 Contact person  
 Applicable fee listed in Article 13 schedule

**Appendix C. Hair Removal and Other Cosmetic Laser or IPL Operator Training Program**

1. General Considerations. An applicant shall ensure that:
  - a. The training program is specific to the medical laser or IPL device in use and the clinical procedures to be performed;
  - b. Program content is consistent with facility policy and procedure and applicable federal and state law; and
  - c. The training program addresses hazards associated with laser or IPL device use.
2. Technical Considerations. The applicant's training program shall cover all of the following technical subjects:
  - a. Laser and IPL device descriptions
  - b. Definitions
  - c. Laser and IPL device radiation fundamentals
  - d. Laser mediums, types of lasers, and other light-emitting devices – solid, liquid, gas, and IPL devices
  - e. Biological effects of laser or IPL device light
  - f. Damage mechanisms
    - i. Eye hazard
    - ii. Skin hazard (includes information regarding skin type and skin anatomy)
    - iii. Absorption and wavelength effects
    - iv. Thermal effects
  - g. Photo chemistry
  - h. Criteria for setting the Maximum Permissible Exposure (MPE) for eye and skin associated hazards
  - i. Explosive, electrical, and chemical hazards
  - j. Photosensitive medications
  - k. Fire, ionizing radiation, cryogenic hazards, and other hazards, as applicable
3. Medical Considerations. The applicant's training program shall cover all of the following medical subjects:
  - a. Local anesthesia techniques, including ice, EMLA® cream, and other applicable topical treatments

- b. Typical laser and IPL device settings for hair removal and cosmetic procedures
  - c. Expected patient response to treatment
  - d. Potential adverse reactions to treatment
  - e. Anatomy and physiology of skin areas to be treated
  - f. Indications and contraindications for use of pigment and vascular-specific lasers for cutaneous procedures
4. General Laser or IPL device safety. The applicant's training program shall cover the following general safety subjects:
    - a. Laser and IPL device classifications
    - b. Control measures (includes information regarding protective equipment)
    - c. Manager and operator responsibilities
    - d. Medical surveillance practices
    - e. Federal and state legal requirements
    - f. Related safety issues
      - i. Controlled access
      - ii. Plume management
      - iii. Equipment testing, aligning, and troubleshooting

**Appendix D. Laser Operator and Laser Safety Officer Training**

1. Operators and personnel that work around lasers:
  - a. Fundamentals of laser operation (for example: physical principles, construction, and other basic information)
  - b. Bioeffects of laser radiation on the eye and skin
  - c. Significance of specular and diffuse reflections
  - d. Non-beam hazards of lasers (for example: electrical, chemical, and reaction byproducts)

**ARTICLE 15. TRANSPORTATION****R9-7-1501. Requirement for License**

- A. A person shall not transport radioactive material or deliver radioactive material to a carrier for transport unless the person is authorized in a general or specific license issued by the Department or exempt under R9-7-103(A).
- B. This Article applies to any licensee to transfer licensed material if the licensee delivers that material to a carrier for transport, transports the material outside the site of usage as specified in the license, or transports that material on public highways. No provision of this Article authorizes possession of licensed material.

**Historical Note**

New Section R9-7-1501 recodified from R12-1-1501 at 24 A.A.R. 813, effective March 22, 2018 (Supp. 18-1).

**R9-7-1502. Definitions**

Terms defined in Article 1 have the same meaning when used in this Article.

New Section R9-7-1502 recodified from R12-1-1502 at 24 A.A.R. 813, effective March 22, 2018 (Supp. 18-1).

**R9-7-1503. Transportation of Licensed Material**

Each licensee that transports licensed material outside the site of usage, as specified in a Department license, or where transport is on public highways, or that delivers licensed material to a carrier for transport, shall comply with the applicable requirements of the U.S. Department of Transportation regulations listed in 10 CFR 71.5, revised January 1, 2008, incorporated by reference and available under R9-7-101. This incorporated material contains no future editions or amendments.

**R9-7-1504. Intrastate Transportation and Storage of Radioactive Materials**

- A. A general license is issued to:
  - 1. Any common or contract carrier not exempt under R9-7-103 to receive, possess, transport, and store radioactive material in the regular course of carriage for others or to store radioactive material incident to the transport activities, provided the transportation or storage is in accordance with applicable requirements for the mode of

transport of the U.S. Department of Transportation, 49 CFR 171 through 180, revised October 1, 2007, incorporated by reference, and available under R9-7-101. This incorporated material contains no future editions or amendments.

- 2. Any private carrier or licensee who transports and stores radioactive material, provided the transportation and storage are in accordance with the requirements applicable to the mode of transport, of the U.S. Department of Transportation, 49 CFR 171 through 180, revised October 1, 2007, incorporated by reference, and available under R9-7-101. This incorporated material contains no future editions or amendments.
- B. Any notification of incidents required under federal regulations in subsection (A) shall also be filed with, or made to, the Department.
- C. A person who transports or stores radioactive material according to the general license in this Section is exempt from the requirements of Article 4 and Article 10 of this Chapter to the extent that this Section applies to transportation of the radioactive material.

**Historical Note**

New Section R9-7-1504 recodified from R12-1-1504 at 24 A.A.R. 813, effective March 22, 2018 (Supp. 18-1).

**R9-7-1505. Storage of Radioactive Material in Transport**

- A. A carrier shall not store, for any period in excess of 72 hours, any package that contains radioactive material bearing a Department of Transportation Yellow II or Yellow III label, unless the radioactive material is stored in an area other than, and not adjacent to, any food storage area or area that is normally occupied by an individual.
- B. A carrier shall not store a package that contains radioactive material with other hazardous materials, except as authorized by U.S. Department of Transportation regulations in 49 CFR 177.848, revised October 1, 2007, incorporated by reference, and available under R9-7-101. This incorporated material contains no future editions or amendments.
- C. Whenever a package containing radioactive material is stored in excess of 48 hours, the storage area shall be conspicuously posted according to the requirements of Article 4.
- D. When transit is interrupted and storage is required for an extended period, the following requirements apply:
  - 1. When radioactive materials are stored for longer than 48 hours during transit, the carrier shall notify the local fire department and provide the following information:
    - a. Warehouse location and carrier name and telephone number;
    - b. Radionuclide(s);
    - c. Activity per package in curies or becquerels and number of packages;
    - d. Form (solid, metallic, liquid, gas);
    - e. Flammability (if flammable);
    - f. Specific location in warehouse;
    - g. Estimated date of departure;
    - h. Toxicity (if toxic).
  - 2. If the radioactive material will be, or has been in storage for longer than 90 days, the carrier shall notify the Department in writing and include the information required in subsection (D)(1).
  - 3. The licensee or carrier shall immediately notify the Department of Public Safety of an accident involving radioactive material.

**Historical Note**

New Section R9-7-1505 recodified from R12-1-1505 at 24 A.A.R. 813, effective March 22, 2018 (Supp. 18-1).

**R9-7-1506. Preparation of Radioactive Material for Transport**

A licensee shall not deliver any package that contains radioactive material to a carrier for transport or transport radioactive material, unless the licensee:

1. Complies with the U.S. Department of Transportation packaging, monitoring, manifesting, marking, and labeling regulations applicable to the mode of transport, (Contained in 49 CFR 171 through 180, revised October 1, 2007, or 39 CFR 111.1, revised July 1, 2007, incorporated by reference, and available under R9-7-101. This incorporated material contains no future editions or amendments.); and
2. Establishes procedures for safely opening and closing packages in which radioactive material is transported; and
3. Prior to delivery of a package to a carrier for transport, assures that:
  - a. The package is properly closed, and
  - b. Any special instructions needed to safely open the package are made available to the consignee.

**Historical Note**

New Section R9-7-1506 recodified from R12-1-1506 at 24 A.A.R. 813, effective March 22, 2018 (Supp. 18-1).

**R9-7-1507. Packaging Quality Assurance**

- A. A licensee that transports radioactive material in the course of business or delivers radioactive material to a carrier for transport in a package for which a license, certificate of compliance, applicant for a certificate of compliance, or other approval has been issued by the Nuclear Regulatory Commission, or meets the applicable criteria (10 CFR 71, Subpart H), shall establish, maintain, and execute the quality assurance program specified in 10 CFR 71, Subpart H.
- B. The transportation of radioactive material shall be in accordance with the requirements in 10 CFR Part 71, with the exception of the following sections: 71.2, 71.6, 71.11, 71.14(b), 71.19, 71.31, 71.33, 71.35, 71.37, 71.38, 71.39, 71.41, 71.43, 71.45, 71.51, 71.52, 71.53, 71.55, 71.59, 71.61, 71.63, 71.64, 71.65, 71.70, 71.71, 71.73, 71.74, 71.75, 71.77, 71.85(a)-(c), 71.91(b), 71.99, 71.100, 71.101(c)(2), 71.101(g), 71.107, 71.109, 71.111, 71.113, 71.115, 71.117, 71.119, 71.121, 71.123 and 71.125. The provisions of this subsection apply to the transportation of radioactive material, or delivery of radioactive material to a carrier for transportation, regardless of whether or not the carrier is also subject to the rules and regulations of the NRC contained in 10 CFR Part 71 and other agencies of the United States having jurisdiction.
- C. In addition to the requirements in subsection (A) for a quality assurance program, a licensee shall verify by procedures such as checking or inspection, that deficiencies or defective material or equipment relative to the shipment of packages containing radioactive material are promptly identified and corrected.
- D. Before the first use of any Type B packaging, a licensee shall obtain approval of its quality assurance program by the Department.
- E. A licensee shall maintain sufficient written records to demonstrate compliance with the quality assurance program. Records of quality assurance pertaining to the use of a Type B package for shipment of radioactive material shall be maintained for three years after the package is used for a shipment.

**R9-7-1508. Advance Notification of Nuclear Waste Transportation**

- A. Prior to the transport of any nuclear waste, as defined in Article 1, outside of the confines of the licensee's facility or other place of use or storage, or prior to the delivery of any nuclear waste to a carrier for transport, each licensee shall provide advance notification of such transport to the Department.
- B. Each advance notification required in subsection (A) above shall contain the following information:
  1. The name, address, and telephone number of the shipper, carrier, and receiver of the shipment;
  2. A description of the nuclear waste contained in the shipment as required by 49 CFR 172.202 and 172.203(d) (Revised October 1, 2007, incorporated by reference, and available under R9-7-101. This incorporated material contains no future editions or amendments.);
  3. The point of origin of the shipment and the seven-day period during which departure of the shipment will occur;
  4. The seven-day period during which arrival of the shipment at state boundaries will occur;
  5. The destination of the shipment, and the seven-day period during which arrival of the shipment will occur; and
  6. A point of contact with a telephone number for current shipment information.
- C. The licensee shall make the notification required by subsection (A) in writing to the Department. A notification delivered by mail must be postmarked at least seven days before the beginning of the seven-day period during which departure of the shipment is estimated to occur. The licensee shall maintain a copy of the notification for one year.
- D. The licensee shall notify the Department of any changes in shipment plans, including cancellations, rerouting, or rescheduling, provided pursuant to subsection (A). Such notification shall be by telephoning the Department. The licensee shall maintain for one year a record of the name of the individual contacted.
- E. After June 11, 2013, each licensee shall provide advance notification to the Tribal official of participating Tribes referenced in paragraph (c)(3)(iii) of 10 CFR 71.97, or the official's designee, of the shipment of licensed material, within or across the boundary of the Tribe's reservation, before the transport, or delivery to a carrier, for transport, of licensed material outside the confines of the licensee's plant or other place of use or storage.

**R9-7-1509. General License: Plutonium-Beryllium Special Form Material**

- A. A general license is issued to any licensee of the Department to transport fissile material in the form of plutonium-beryllium (Pu-Be) special form sealed sources, or to deliver Pu-Be sealed sources to a carrier for transport, if the material is shipped in accordance with this Article. This material must be contained in a Type A package. The Type A package must also meet the DOT requirements of 49 CFR 173.417(a), revised

## CHAPTER 7. DEPARTMENT OF HEALTH SERVICES - RADIATION CONTROL

October 1, 2010, incorporated by reference, and available under R9-7-101. This incorporated material contains no future editions or amendments.

- B. The general license applies only to a licensee who has a quality assurance program approved by the Department as satisfying the provisions of R9-7-1507.
- C. The general license applies only when a package's contents:
  1. Contain no more than a Type A quantity of radioactive material; and
  2. Contain less than 1000 g of plutonium, provided that: plutonium-239, plutonium-241, or any combination of these radionuclides, constitutes less than 240 g of the total quantity of plutonium in the package.
- D. The general license applies only to packages labeled with a CSI which:
  1. Has been determined in accordance with subsection (E);
  2. Has a value less than or equal to 100; and
  3. For a shipment of multiple packages containing Pu-Be sealed sources, the sum of the CSIs must be less than or equal to 50 (for shipment on a nonexclusive use conveyance) and less than or equal to 100 (for shipment on an exclusive use conveyance).
- E. The value for the CSI must be greater than or equal to the number calculated by the following equation:
  1.  $CSI = 10[(\text{grams of } ^{239}\text{Pu} + \text{grams of } ^{241}\text{Pu})/24]$ ,
  2. The calculated CSI must be rounded up to the first decimal place.

**R9-7-1510. Packaging**

- A. A general license is issued to any licensee to transport, or to deliver to a carrier for transport, licensed material in a package for which a license, certificate of compliance, or other approval has been issued by the NRC.
    1. This general license applies only to a licensee that has a quality assurance program approved by the Department as satisfying R9-7-1507;
    2. This general license applies only to a licensee that:
      - a. Has a copy of the license, certificate of compliance, or other approval of the package, and has the drawings and other documents referenced in the approval relating to the use and maintenance of the packaging and to the actions to be taken before shipment;
      - b. Complies with the terms and conditions of the license, certificate, or other approval, as applicable, and the applicable requirements of this Article;
      - c. Before the licensee's first use of the package, submits in writing to the Department and to ATTN: Document Control Desk, Director, Division of Fuel Management, Office of Nuclear Material Safety and Safeguards, using an appropriate method listed in 10 CFR 71.1(a), the licensee's name, license number, and the package identification number specified in the package approval;
      - d. The licensee shall make available to the Department for inspection, upon reasonable notice, all records required by this part. Records are only valid if stamped, initialed, or signed and dated by authorized personnel, or otherwise authenticated; and
      - e. The licensee shall maintain sufficient written records to furnish evidence of the quality of packaging. The records to be maintained include results of the determinations required by 10 CFR 71.85; design, fabrication, and assembly records; results of
- reviews, inspections, tests, and audits; results of monitoring work performance and materials analyses; and results of maintenance, modification, and repair activities. Inspection, test, and audit records must identify the inspector or data recorder, the type of observation, the results, the acceptability, and the action taken in connection with any deficiencies noted. These records must be retained for three years after the life of the packaging to which they apply.
- 3. This general license applies only when the package approval authorizes use of the package under this general license.
  - 4. For a Type B or fissile material package, the design of which was approved by NRC before April 1, 1996, the general license is subject to the additional restrictions of subsection (B).
- B. Type B packages.
    1. Before the first use of any packaging for the shipment of licensed material, refer to 10 CFR 71.85 (a), (b) and (c).
    2. A Type B(U) package, a Type B(M) package, a low specific activity (LSA) material package or a fissile material package, previously approved by the NRC but without the "-85" designation in the identification number of the NRC certificate of compliance, may be used under the general license of subsection (A) with the following additional conditions:
      - a. Fabrication of the packaging is satisfactorily completed by April 1, 1999 as demonstrated by application of its model number in accordance with 10 CFR 71.85(c);
      - b. A package that is used for a shipment to a location outside the United States is subject to multilateral approval as defined in 49 CFR 173.403, revised January 8, 2015, incorporated by reference, available under R9-7-101, and containing no future editions or amendments; and
      - c. A serial number which uniquely identifies each package which conforms to the approved design and is assigned to, and legibly and durably marked on, the outside of each package.
    3. A licensee may modify the design and authorized contents of a Type B package, or a fissile material package, previously approved by NRC, provided:
      - a. The modifications of a Type B package are not significant with respect to the design, operating characteristics, or safe performance of the containment system, when the package is subjected to the tests specified in 10 CFR 71.71 and 71.73;
      - b. The modifications of a fissile material package are not significant, with respect to the prevention of criticality, when the package is subjected to the tests specified in 10 CFR 71.71 and 71.73; and
      - c. The modifications to the package satisfy the requirements of this Section.
    4. The NRC will revise the package identification number to designate previously approved package designs as B(U), B(M), AF, BF, or A as applicable, and with the identification number suffix "-85" after receipt of an application demonstrating that the design meets the requirements of this Section.
    5. For purposes of this Section, package types are defined in 10 CFR 71.4.
  - C. A general license is issued to any licensee of the Department to transport fissile material, or to deliver to a carrier for transport, licensed material in a specification container for fissile material or for a Type B quantity of radioactive material as

## CHAPTER 7. DEPARTMENT OF HEALTH SERVICES - RADIATION CONTROL

specified in 49 CFR 173, revised July 16, 2018, and 49 CFR 178, revised March 11, 2013, incorporated by reference, available under R9-7-101, and containing no future editions or amendments, if the following requirements are met:

1. The licensee maintains a quality assurance program approved by the Department as satisfying R9-7-1507;
2. The licensee:
  - a. Maintains a copy of the specification; and
  - b. Complies with the terms and conditions of the specification and the applicable requirements in 10 CFR 71, Subparts A, G, and H;
3. The licensee does not use the specification container for a shipment to a location outside the United States, except by multilateral approval, as defined in 49 CFR 173.403, revised January 1, 2015, incorporated by reference, available under R9-7-101, and containing no future editions or amendments;
4. The general license applies only when a package's contents:
  - a. Contain no more than a Type A quantity of radioactive material; and
  - b. Contain less than 500 total grams of beryllium, graphite, or hydrogenous material enriched in deuterium;
5. The general license applies only to packages containing fissile material that are labeled with a CSI which:
  - a. Has been determined in accordance with subsection (E);
  - b. Has a value less than or equal to 10; and
  - c. For a shipment of multiple packages containing fissile material, the sum of the CSIs must be less than or equal to 50 (for shipment on a nonexclusive use conveyance) and less than or equal to 100 (for shipment on an exclusive use conveyance); and
6. The CSI value meets the following requirements:
  - a. The value for the CSI must be greater than or equal to the number calculated by the following equation:  $CSI=10[(\text{grams of } 235\text{U}/X) + (\text{grams of } 235\text{U}/Y) + (\text{grams of } 235\text{U}/Z)]$ ;
  - b. The calculated CSI must be rounded up to the first decimal place;
  - c. The values of X, Y, and Z used in the CSI equation must be taken from Tables 71-1 or 71-2 as appropriate located in 10 CFR 71.22;
  - d. If Table 71-2 is used to obtain the value of X, then the values for the terms in the equation for uranium-233 and plutonium must be assumed to be zero; and
  - e. Table 71-1 values for X, Y, and Z must be used to determine the CSI if:
    - i. Uranium-233 is present in the package;
    - ii. The mass of plutonium exceeds 1 percent of the mass of uranium-235;
    - iii. The uranium is of unknown uranium-235 enrichment or greater than 24 weight percent enrichment; or
    - iv. Substances having a moderating effectiveness (i.e., an average hydrogen density greater than H<sub>2</sub>O) (e.g., certain hydrocarbon oils or plastics) are present in any form, except as polyethylene used for packing or wrapping.

**D. Foreign packaging.**

1. A general license is issued to any licensee of the Department to transport, or to deliver to a carrier for transport, licensed material in a package the design of which has been approved in a foreign national competent authority certificate that has been revalidated by the Federal

Department of Transportation as meeting the applicable requirements of 49 CFR 171.23, revised March 30, 2017, incorporated by reference, available under R9-7-101, and containing no future editions or amendments.

2. Except as otherwise provided in this Section, the general license applies only to a licensee who has a quality assurance program approved by the Department as satisfying the applicable provisions of R9-7-1507.
  3. This general license applies only to:
    - a. Shipments made to or from locations outside the United States.
    - b. A licensee that:
      - i. Has a copy of the applicable certificate, the revalidation, and the drawings and other documents referenced in the certificate, relating to the use and maintenance of the packaging and to the actions to be taken before shipment; and
      - ii. Complies with the terms and conditions of the certificate and revalidation, and with the applicable requirements in 10 CFR 71, Subparts A, G, and H, revised September 9, 2015.
- E. Routine determination before each shipment of licensed material shall ensure that the package with its contents satisfies the applicable requirements of this Article and of the license. The licensee shall determine that:**
1. The package is proper for the contents to be shipped;
  2. The package is in unimpaired physical condition except for superficial defects such as marks or dents;
  3. Each closure device of the packaging, including any required gasket, is properly installed and secured and free of defects;
  4. Any system for containing liquid is adequately sealed and has adequate space or other specified provision for expansion of the liquid;
  5. Any pressure relief device is operable and set in accordance with written procedures;
  6. The package has been loaded and closed in accordance with written procedures;
  7. For fissile material, any moderator or neutron absorber, if required, is present and in proper condition;
  8. Any structural part of the package that could be used to lift or tie down the package during transport is rendered inoperable for that purpose, unless it satisfies the design requirements of 10 CFR 71.45;
  9. The level of non-fixed (removable) radioactive contamination on the external surfaces of each package offered for shipment is as low as reasonably achievable, and within the limits specified in DOT regulations in 49 CFR 173.443, revised July 11, 2014, incorporated by reference, available under R9-7-101, and containing no future editions or amendments;
  10. External radiation levels around the package and around the vehicle, if applicable, will not exceed the limits specified in 10 CFR 71.47, at any time during transportation; and
  11. Accessible package surface temperatures will not exceed the limits specified in 10 CFR 71.43(g), at any time during transportation.
- F. Fissile material meeting the requirements of at least one of the conditions in subsections (F)(1) through (F)(6) are exempt from classification as fissile material and from the fissile material package standards of 10 CFR 71.55 and 71.59, but are subject to all other requirements of this part, except as noted.**
1. Individual package containing 2 grams or less fissile material.

## CHAPTER 7. DEPARTMENT OF HEALTH SERVICES - RADIATION CONTROL

2. Individual or bulk packaging containing 15 grams or less of fissile material provided the package has at least 200 grams of solid nonfissile material for every gram of fissile material. Lead, beryllium, graphite, and hydrogenous material enriched in deuterium may be present in the package but must not be included in determining the required mass for solid nonfissile material.
3. Low concentrations of solid fissile material commingled with solid nonfissile material, provided that:
  - a. There is at least 2000 grams of solid nonfissile material for every gram of fissile material;
  - b. There is no more than 180 grams of fissile material distributed within 360 kg of contiguous nonfissile material; and
  - c. Lead, beryllium, graphite, and hydrogenous material enriched in deuterium may be present in the package but must not be included in determining the required mass of solid nonfissile material.
4. Uranium enriched in uranium-235 to a maximum of 1 percent by weight, and with total plutonium and uranium-233 content of up to 1 percent of the mass of uranium-235, provided that the mass of any beryllium, graphite, and hydrogenous material enriched in deuterium constitutes less than 5 percent of the uranium mass, and that the fissile material is distributed homogeneously and does not form a lattice arrangement within the package.
5. Liquid solutions of uranyl nitrate enriched in uranium-235 to a maximum of 2 percent by mass, with a total plutonium and uranium-233 content not exceeding 0.002 percent of the mass of uranium, and with a minimum nitrogen to uranium atomic ratio (N/U) of 2. The material must be contained in at least a DOT Type A package.
6. Packages containing, individually, a total plutonium mass of not more than 1000 grams, of which not more than 20 percent by mass may consist of plutonium-239, plutonium-241, or any combination of these radionuclides.

**R9-7-1511. Air Transport of Plutonium**

- A. Notwithstanding the provisions of any general licenses and notwithstanding any exemptions stated directly in this Section or included indirectly by citation of 49 CFR 107, and 171 through 180, previously incorporated in this Article, as may be applicable, the licensee shall ensure that plutonium in any form, whether for import, export, or domestic shipment, is not transported by air or delivered to a carrier for air transport unless:
1. The plutonium is contained in a medical device designed for individual human application; or
  2. The plutonium is contained in a material in which the specific activity is less than or equal to the activity concentration values for Plutonium specified in 10 CFR 71, Appendix A, Table A-2 (Revised January 1, 2008, incorporated by reference, and available under R9-7-101. This incorporated material contains no future editions or amendments.), and in which the radioactivity is essentially uniformly distributed; or
  3. The plutonium is shipped in a single package containing no more than an A2 quantity of plutonium in any isotope or form, and is shipped in accordance with R9-7-1503 and 10 CFR 71.5 (Revised January 1, 2008, incorporated by reference, and available under R9-7-101. This incorporated material contains no future editions or amendments.); or
  4. The plutonium is shipped in a package specifically authorized for the shipment of plutonium by air in the Certificate of Compliance for that package issued by the NRC.
- B. Nothing in subsection (A) is to be interpreted as removing or diminishing the requirements of 10 CFR 73.24, January 1, 2008, incorporated by reference, and available under R9-7-101. This incorporated material contains no future editions or amendments.
- C. For a shipment of plutonium by air that is subject to subsection (A)(4), the licensee shall, through special arrangement with the carrier, require compliance with 49 CFR 175.704, revised October 1, 2007, incorporated by reference, and available under R9-7-101. This U.S. Department of Transportation regulation is applicable to the air transport of plutonium. This incorporated material contains no future editions or amendments.

New Section R9-7-1511 recodified from R12-1-1511 at 24 A.A.R. 813, effective March 22, 2018 (Supp. 18-1).

**R9-7-1512. Advance Notification of Shipment of Irradiated Reactor Fuel and Nuclear Waste**

- A. A licensee shall provide advance notification to the Governor, or the Director of the Department, of the shipment of licensed material as specified in 10 CFR 71.97, revised January 1, 2015, incorporated by reference, and available under R9-7-101. This incorporated material contains no future editions or amendments.
- B. After June 11, 2013, each licensee shall provide advance notification to the Tribal official of participating Tribes referenced in paragraph (c)(3)(iii) of 10 CFR 71.97, or the Tribal official's designee, of the shipment of licensed material, within or across the boundary of the Tribe's reservation, before the transport, or delivery to a carrier, for transport, of licensed material outside the confines of the licensee's plant or other place of use or storage.
- C. Advance notification is also required under this section for the shipment of licensed material, other than irradiated fuel, meeting the following three conditions:
1. The licensed material is required by this part to be in Type B packaging for transportation;
  2. The licensed material is being transported to or across a State boundary en route to a disposal facility or to a collection point for transport to a disposal facility; and
  3. The quantity of licensed material in a single package exceeds the least of the following:
    - a. 3000 times the A1 value of the radionuclides as specified in appendix A, Table A-1 for special form radioactive material;
    - b. 3000 times the A2 value of the radionuclides as specified in appendix A, Table A-1 for normal form radioactive material; or
    - c. 1000 TBq (27,000 Ci).
- D. Procedures for submitting advance notification. (1) The notification must be made in writing to:
1. The office of each appropriate governor or governor's designee;
  2. The office of each appropriate Tribal official or Tribal official's designee; and
  3. The Director, Division of Security Policy, Office of Nuclear Security and Incident Response.

## CHAPTER 7. DEPARTMENT OF HEALTH SERVICES - RADIATION CONTROL

**Historical Note**

New Section R9-7-1512 recodified from R12-1-1512 at 24 A.A.R. 813, effective March 22, 2018 (Supp. 18-1).  
Amended by final expedited rulemaking at 24 A.A.R. 2151, effective July 12, 2018 (Supp. 18-3).

**R9-7-1513. Opening Instructions**

Before delivery of a package to a carrier for transport, the licensee shall ensure that any special instructions needed to safely open the package have been sent to, or otherwise made available to, the consignee for the consignee's use in accordance with 10 CFR 20.1906(e) revised January 1, 2010, incorporated by reference, and available under R9-7-101. This incorporated material contains no future editions or amendments.

**Historical Note**

New Section R9-7-1513 recodified from R12-1-1513 at 24 A.A.R. 813, effective March 22, 2018 (Supp. 18-1).

**R9-7-1514. Records**

- A. Each licensee shall maintain, for a period of three years after shipment, a record of each shipment of licensed material not exempt under R9-7-1515, showing where applicable:
  1. Identification of the packaging by model number and serial number;
  2. Verification that there are no significant defects in the packaging, as shipped;
  3. Volume and identification of coolant;
  4. Type and quantity of licensed material in each package, and the total quantity of each shipment;
  5. For each item of irradiated fissile material:
    - a. Identification by model number and serial number;
    - b. Irradiation and decay history to the extent appropriate to demonstrate that its nuclear and thermal characteristics comply with license conditions; and
    - c. Any abnormal or unusual condition relevant to radiation safety;
  6. Date of the shipment;
  7. For fissile packages and for Type B packages, any special controls exercised;
  8. Name and address of the transferee;
  9. Address to which the shipment was made; and
  10. Results of the determinations required by R9-7-1510(E) and by the conditions of the package approval.
- B. The licensee shall make available to the Department for inspection, upon reasonable notice, all records required by this Chapter. Records are only valid if stamped, initialed, or signed and dated by authorized personnel, or otherwise authenticated.
- C. The licensee shall maintain sufficient written records to furnish evidence of the quality of packaging. The records to be maintained include results of the determinations required by R9-7-1507; design, fabrication, and assembly records; results of reviews, inspections, tests, and audits; results of monitoring work performance and materials analyses; and results of maintenance, modification, and repair activities. Inspection, test, and audit records must identify the inspector or data recorder, the type of observation, the results, the acceptability, and the action taken in connection with any deficiencies noted. These records must be retained for three years after the life of the packaging to which they apply.
- D. Each record required by this Chapter must be legible throughout the retention period specified by each Department regulation. The record may be the original or a reproduced copy or a microform provided that the copy or microform is authenticated by authorized personnel and that the microform is capable of producing a clear copy throughout the required retention period. The record may also be stored in electronic media with the capability for producing legible, accurate, and complete

records during the required retention period. Records such as letters, drawings, and specifications must include all pertinent information such as stamps, initials, and signatures. The licensee shall maintain adequate safeguards against tampering with and loss of records.

**Historical Note**

Section R9-7-1514 reserved when the Chapter was recodified from 12 A.A.C. 1 (Supp. 18-1). New Section made by final expedited rulemaking at 26 A.A.R. 1067, with an immediate effective date of May 6, 2020 (Supp. 20-2).

**R9-7-1515. Exemption for Low-level Radioactive Materials**

- A. A licensee is exempt from all the requirements of 10 CFR 71 with respect to shipment or carriage of the low-level materials listed in 10 CFR 71.14(a), revised January 1, 2008, incorporated by reference, and available under R9-7-101. This incorporated material contains no future editions or amendments.
- B. Natural material and ores containing naturally occurring radionuclides that are either in their natural state, or have only been processed for purposes other than for the extraction of the radionuclides, and which are not intended to be processed for the use of these radionuclides, provided the activity concentration of the material does not exceed 10 times the applicable radionuclide activity concentration values specified in appendix A, Table A-2, or Table A-3 of this part.
- C. Materials for which the activity concentration is not greater than the activity concentration values specified in appendix A, Table A-2, or Table A-3 of this part, or for which the consignment activity is not greater than the limit for an exempt consignment found in appendix A, Table A-2, or Table A-3 of 10 CFR 71 Appendix A.
- D. Non-radioactive solid objects with radioactive substances present on any surfaces in quantities not in excess of the levels cited in the definition of contamination in 10 CFR 71.4.

**Historical Note**

New Section R9-7-1515 recodified from R12-1-1515 at 24 A.A.R. 813, effective March 22, 2018 (Supp. 18-1).

**ARTICLE 16. RESERVED****ARTICLE 17. WIRELINE SERVICE OPERATIONS AND SUBSURFACE TRACER STUDIES****R9-7-1701. Definitions**

"Energy compensation source (ECS)" means a small sealed source, with activity that does not exceed 3.7 Mbq (100 microcuries), contained within a logging tool or other tool component.

"Tritium neutron generator target source" means a tritium source contained within a tritium neutron generator tube that produces neutrons for use in well logging applications.

**Historical Note**

New Section R9-7-1701 recodified from R12-1-1701 at 24 A.A.R. 813, effective March 22, 2018 (Supp. 18-1).

**R9-7-1702. Agreement with Well Owner or Operator**

- A. A licensee that performs wireline service (well logging) with a sealed source shall enter into a written agreement with the employing well owner or operator that identifies the party responsible for complying with each of the following requirements. The responsible party shall:
  1. Make a reasonable effort to recover any sealed source that may be lodged in the well;
  2. Not attempt to recover a sealed source in a manner which, in the licensee's opinion, is likely to result in its rupture;

## CHAPTER 7. DEPARTMENT OF HEALTH SERVICES - RADIATION CONTROL

3. Perform the radiation monitoring required in R9-7-1723(A);
4. Decontaminate anyone or anything contaminated with licensed material before releasing personnel or equipment from the site or releasing the site for unrestricted use; and
5. If a source is classified by the Department as irretrievable after reasonable efforts at recovery, implement the following requirements within 30 days:
  - a. Immobilize the irretrievable well logging source and seal it in place with a cement plug;
  - b. Provide a means to prevent inadvertent intrusion that could damage the source, unless the site is rendered inaccessible to subsequent drilling operations; and
  - c. Mount a permanent identification plaque, constructed of long-lasting material, such as stainless steel, brass, bronze, or Monel, in a conspicuous location adjacent to the well. The responsible party shall ensure that the plaque size is at least 17 cm (7 inches) square and 3 mm (1/8 inch) thick and the following information is written on the plaque:
    - i. The word "CAUTION,"
    - ii. The radiation symbol (the color requirement in R9-7-428(A) does not apply),
    - iii. The date the source was abandoned,
    - iv. The name of the well owner or operator that employed the licensee;
    - v. The well name and identification number or other designation,
    - vi. An identification of each source by radionuclide and quantity of radionuclide,
    - vii. The depth of the source and depth to the top of the plug, and
    - viii. The following warning, "DO NOT RE-ENTER THIS WELL," and
  - d. Notify the Oil and Gas Conservation Commission, Department of Water Resources, or Department of Environmental Quality of the abandoned source, as required by law.

- B. A licensee shall maintain a copy of the agreement at the field station during logging operations. The licensee shall retain a copy of the written agreement for three years after completion of the well logging operation.
- C. A licensee may apply in accordance with A.R.S. § 30-654(B)(13) for Department approval, on a case-by-case basis, of proposed procedures to abandon an irretrievable well logging source in a manner not otherwise authorized in subsection (A)(5).
- D. A written agreement between the licensee and the well owner or operator is not required if the licensee and the well owner or operator are employed by the same corporation or other business entity. If so, the licensee shall comply with the requirements in subsections (A)(1) through (A)(5).

**R9-7-1712. Storage Precautions**

- A. A person storing or transporting a source of radiation shall place the source in an approved storage container, transport container, or both. The container or combination of containers shall have a lock, or tamper-proof seal for calibration sources, to prevent unauthorized removal of the source and exposure to radiation.
- B. A person storing or transporting a source of radiation shall store the source in a manner that will minimize danger from explosion or fire.

**Historical Note**

New Section R9-7-1712 recodified from R12-1-1712 at 24 A.A.R. 813, effective March 22, 2018 (Supp. 18-1).

**R9-7-1713. Transportation Precautions**

Each licensee shall ensure that transport containers are physically secured in the transporting vehicle to prevent accidental movement, loss, tampering, or unauthorized removal.

**R9-7-1714. Radiation Survey Instruments**

- A. A licensee shall maintain at each field station and temporary job site a calibrated and operable radiation survey instrument capable of detecting beta and gamma radiation. The licensee shall ensure that the radiation survey instrument is capable of

## CHAPTER 7. DEPARTMENT OF HEALTH SERVICES - RADIATION CONTROL

measuring 1.0 microsievert (0.1 millirem) per hour through 500 microsievert (50 millirem) per hour.

- B. A licensee shall ensure that additional calibrated and operable radiation detection instruments are available as needed and that the instruments are sensitive enough to detect the low radiation and contamination levels that could be encountered if a sealed source is ruptured.
- C. A licensee shall ensure that the radiation survey instrument required in subsection (A) is calibrated
  - 1. At intervals not to exceed six months and after each instrument servicing;
  - 2. At energies comparable to the energies of the radiation sources used;
  - 3. For linear scale instruments, at two points located approximately 1/3 and 2/3 of full-scale on each scale or for logarithmic scale instruments, at mid-range of each decade, and at two points of at least one decade; and
  - 4. So that accuracy within plus or minus 20 percent of the true radiation level can be demonstrated on each scale.
- D. A licensee shall retain calibration records for a period of three years from the date of calibration.

**Historical Note**

New Section R9-7-1714 recodified from R12-1-1714 at 24 A.A.R. 813, effective March 22, 2018 (Supp. 18-1).

**R9-7-1715. Leak Testing of Sealed Sources**

- A. A licensee that uses a sealed source shall ensure that the source is tested for leakage according to subsection (C). The licensee shall maintain a record of leak test results in units of Becquerels (Bq) or microcuries, for inspection by the Department for three years after the leak test is performed.
- B. A person authorized under R9-7-417(C) shall wipe a sealed source using a leak test kit or a similar method approved by the Department, the NRC, or another Agreement State. The authorized person shall take the wipe sample from the nearest accessible point to the sealed source where contamination might accumulate, and ensure the wipe sample is analyzed for radioactive contamination. The authorized person shall use a method of analysis capable of detecting the presence of 185 Bq (0.005 microcuries) of radioactive material on the test sample.
- C. Test frequency.
  - 1. A licensee shall ensure that each sealed source (except an energy compensation source (ECS)) is tested in accordance with R9-7-417. In the absence of a certificate from a transferor that a test has been performed within six months before transfer, a licensee shall not use the sealed source until it is tested.
  - 2. A licensee shall ensure that each ECS that is not exempt from testing under subsection (E) is tested at intervals that do not exceed three years. In the absence of a certificate from a transferor that a test has been performed within three years before transfer, a licensee shall not use the ECS until it is tested.
- D. Removal of leaking source from service.
  - 1. If a test conducted according to this Section reveals the presence of 185 Bq (0.005 microcuries) or more of removable radioactive material, a licensee shall remove the sealed source from service immediately and have it decontaminated, repaired, or disposed of by a Department, a NRC, or an Agreement State licensee that is authorized to perform these functions. The licensee shall check the equipment associated with the leaking source for radioactive contamination and, if the equipment is contaminated, have it decontaminated or disposed of by a

Department, a NRC, or an Agreement State licensee that is authorized to perform the chosen function.

- 2. A licensee shall submit a report to the Department, within five days of receiving positive test results. The report shall describe the equipment involved in the leak, the test results, any contamination that resulted from the leaking source, and each corrective action taken up to the date on the report.
- E. The following sealed sources are exempt from the periodic leak test requirements in subsections (A) through (D):
  - 1. Hydrogen-3 (tritium) sources;
  - 2. Sources that contain licensed material with a half-life of 30 days or less;
  - 3. Sealed sources that contain licensed material in gaseous form;
  - 4. Sources of beta- or gamma-emitting radioactive material with an activity of 3.7 MBq [100 microcuries] or less; and
  - 5. Sources of alpha- or neutron-emitting radioactive material with an activity of 0.37 MBq [10 microcuries] or less.

**R9-7-1716. Inventory**

A licensee shall conduct a physical inventory every six months to account for all licensed material received and possessed under the license. The licensee shall maintain records of the inventory for three years from the date of the inventory for inspection by the Department. The inventory shall indicate the quantity and kind of licensed material, the location of the licensed material, the date of the inventory, and the name of each individual who conducted the inventory. Physical inventory records may be combined with leak test records.

**R9-7-1717. Utilization Records**

Each licensee shall maintain records of use for three years from the date of the recorded event, that contain the following information for each source of radiation:

- 1. Make, model number, and serial number or a description of each source of radiation used;
- 2. The identity of the well-logging supervisor or the field unit to which the source is assigned;
- 3. Locations and dates of use; and
- 4. In the case of tracer materials and radioactive markers, the radionuclide and activity undertaken in a particular well.

**Historical Note**

New Section R9-7-1717 recodified from R12-1-1717 at 24 A.A.R. 813, effective March 22, 2018 (Supp. 18-1).

**R9-7-1718. Design and Performance Criteria for Sealed Sources**

- A. A licensee shall use a sealed source for well logging applications if the sealed source:
  - 1. Is doubly encapsulated;
  - 2. Contains licensed material in a chemical and physical form that is insoluble and nondispersible; and
  - 3. Meets the requirements of subsection (B), (C), or (D).
- B. For a sealed source manufactured on or before July 14, 1989, a licensee may use a sealed source in well logging applications that meets the requirements of USASI N5.4-1968, Classification of Sealed Radioactive Sources, available from the Ameri-

can National Standards Institute at 25 West 43rd Street, 4th floor, New York, NY 10036, which is incorporated by reference and on file with the Department, or the requirements in subsection (C) or (D). This incorporation by reference contains no future editions or amendments.

- C. For a sealed source manufactured after July 14, 1989, a licensee may use a sealed source in well logging applications that meets the oil-well logging requirements of ANSI/HPS N43.6-1997, Sealed Radioactive Sources--Classification, available from the American National Standards Institute at 25 West 43rd Street, 4th floor, New York, NY 10036, which is incorporated by reference and on file with the Department. This incorporation by reference contains no future editions or amendments.
- D. For a sealed source manufactured after July 14, 1989, a licensee may use a sealed source in well logging applications if the sealed source's prototype has been tested and found to maintain its integrity after each of the following required tests:
  1. Temperature. The test source is held at -40° C for 20 minutes and 600° C for one hour, and then subjected to a thermal shock with a temperature drop from 600° C to 20° C within 15 seconds.
  2. Impact. A 5 kg steel hammer, 2.5 cm in diameter, is dropped from a height of 1 m onto the test source.
  3. Vibration. The test source is subjected to vibration in the 25 Hz to 500 Hz range at 5 g amplitude for 30 minutes.
  4. Puncture. A 1 gram hammer with a pin, 0.3 cm in diameter, is dropped from a height of 1 m onto the test source.
  5. Pressure. The test source is subjected to an external pressure of 1.695 x 10<sup>7</sup> pascals (24,600 pounds per square inch absolute).
- E. The requirements in subsections (A), (B), (C), and (D) do not apply to a sealed source that contains licensed material in gaseous form.
- F. The requirements in subsections (A), (B), (C), and (D) do not apply to an energy compensation source (ECS).

**Historical Note**

New Section R9-7-1718 recodified from R12-1-1718 at 24 A.A.R. 813, effective March 22, 2018 (Supp. 18-1).

**R9-7-1719. Labeling**

- A. A licensee shall mark each source, source holder, or logging tool that contains radioactive material with a durable, legible, and clearly visible marking or label, consisting at minimum of the standard radiation caution symbol, without the conventional color requirement, and the following wording:

DANGER (or: CAUTION)  
RADIOACTIVE

This labeling is required for each component transported as a separate piece of equipment regardless of size.

- B. A licensee shall permanently attach to each transport container a durable, legible, and a clearly visible label consisting at minimum, of the standard radiation caution symbol and the following wording:

DANGER (or: CAUTION)  
RADIOACTIVE  
NOTIFY CIVIL AUTHORITIES (or name of company)

**Historical Note**

New Section R9-7-1719 recodified from R12-1-1719 at 24 A.A.R. 813, effective March 22, 2018 (Supp. 18-1).

**R9-7-1720. Inspection, Maintenance, and Opening of a Source or Source Holder**

- A. Each licensee shall visually check source holders, logging tools, and source handling tools for defects before each use to

ensure that the equipment is in good working condition and that required labeling is present. If defects are found, the licensee shall remove equipment from service until it is repaired, and make a record listing: date of check, name of inspector, equipment involved, each defect found, and repairs made. The licensee shall maintain each record for three years after a defect is found.

- B. Each licensee shall have a program for semiannual visual inspection and routine maintenance of source holders, logging tools, injection tools, source handling tools, storage containers, transport containers, and uranium sinker bars to ensure that the required labeling is legible and that no physical damage is visible. If any defect is found, the licensee shall remove the equipment from service until it is repaired, and make a record listing; date of inspection, equipment involved, inspection and maintenance operations performed, each defect found, and each action taken to correct a defect. The licensee shall maintain each record for three years after a defect is found.
- C. A licensee shall not remove a sealed source from a source holder or logging tool, or perform maintenance on a sealed source or source holder that contains a sealed source without written permission from the Department.
- D. If a sealed source is stuck in the source holder, a licensee shall not perform any operation, such as drilling, cutting, or chiseling, on the source holder unless the licensee is specifically authorized to perform the operation by the Department.
- E. The opening, repair, or modification of any sealed source is prohibited, unless authorized by the Department, the NRC, or an Agreement State.

**Historical Note**

New Section R9-7-1720 recodified from R12-1-1720 at 24 A.A.R. 813, effective March 22, 2018 (Supp. 18-1).

**R9-7-1721. Training**

- A. A licensee shall not permit an individual to act as a logging supervisor until that person has:
  1. Completed training in the subjects outlined in subsection (E);
  2. Received copies of, and instruction in:
    - a. The applicable rules contained in 9 A.A.C. 7;
    - b. The Department license under which the logging supervisor will perform well logging; and
    - c. The licensee's operating and emergency procedures, required by R9-7-1722;
  3. Completed on-the-job training and demonstrated competence during a field evaluation in the use of licensed materials, remote handling tools, and radiation survey instruments; and
  4. Demonstrated understanding of the requirements in subsections (A)(1) and (A)(2) by successfully completing a written test.
- B. The licensee shall not permit an individual to act as a logging assistant until that person has:
  1. Received instruction in applicable rules of 9 A.A.C. 7;
  2. Received copies of, and instruction in, the licensee's operating and emergency procedures required by R9-7-1722;
  3. Demonstrated understanding of the materials listed in subsections (B)(1) and (B)(2) by successfully completing a written or oral test; and
  4. Received instruction in the use of licensed materials, remote handling tools, and radiation survey instruments that is related to the logging assistant's intended job responsibilities.
- C. A licensee shall provide a safety training review for logging supervisors and logging assistants at least once during each

## CHAPTER 7. DEPARTMENT OF HEALTH SERVICES - RADIATION CONTROL

calendar year. Each logging supervisor and logging assistant shall attend a safety training review at least once during the current calendar year.

- D. A licensee shall maintain a record of each logging supervisor's and logging assistant's initial training and annual safety training review. The training records shall include copies of written tests and dates of oral tests given after the effective date of this Section. The licensee shall maintain the initial training records for three years following termination of employment, and maintain records of each annual safety training review, including a list of subjects covered during the review, for three years.
- E. A licensee shall provide instruction in the following subjects in the training required by subsection (A)(1):
  - 1. Fundamentals of radiation safety, including:
    - a. Characteristics of radiation;
    - b. Units of radiation dose and quantity of radioactivity;
    - c. Hazards of exposure to radiation;
    - d. Levels of radiation from licensed material;
    - e. Methods of controlling radiation dose (time, distance, and shielding); and
    - f. Radiation safety practices, including prevention of contamination and methods of decontamination;
  - 2. Radiation detection instruments, including:
    - a. Use, operation, calibration, and limitations of radiation survey instruments;
    - b. Survey techniques; and
    - c. Use of personnel monitoring equipment;
  - 3. Equipment, including:
    - a. Operation of equipment, including source handling equipment and remote handling tools;
    - b. Storage, control, and disposal of licensed material; and
    - c. Maintenance of equipment;
  - 4. The requirements of pertinent federal and state law, and
  - 5. Case histories of accidents in well logging.

**R9-7-1722. Operating and Emergency Procedures**

Each licensee shall develop operating and emergency procedures on the following subjects:

- 1. Procedures designed to prevent individuals from being exposed to radiation in excess of the limits in Article 4 of this Chapter. This subject includes:
  - a. Use of a sealed source in a well without a surface casing for the purposes of protecting a fresh water aquifer, as appropriate;
  - b. Methods employed to minimize exposure from inhalation or ingestion of licensed tracer materials; and
  - c. Methods for minimizing exposure of individuals in the event of an accident;
- 2. Use of remote handling tools for manipulating a radioactive sealed source or tracer;
- 3. Methods and occasions for conducting a radiation survey;
- 4. Methods and occasions for locking and securing a source of radiation;
- 5. Personnel monitoring and the use of personnel monitoring equipment;
- 6. Transportation of a source to a temporary job site or field station, including packaging and placing the source of radiation in a vehicle, placarding the vehicle, and securing the source of radiation during transportation;
- 7. Procedure for notifying the Department if there is an accident;
- 8. Maintenance of records;

- 9. Inspection and maintenance of source holders, logging tools, source handling tools, storage containers, transport containers, and injection tools;
- 10. Procedure required if a sealed source is:
  - a. Lost or lodged downhole; or
  - b. Ruptured, including safeguards to prevent job site and personnel contamination, inhalation; and ingestion;
- 11. Procedures required for picking up, receiving, and opening packages that contain radioactive material; and
- 12. Procedures required for site and equipment surveys and decontamination following tracer studies.

**Historical Note**

New Section R9-7-1722 recodified from R12-1-1722 at 24 A.A.R. 813, effective March 22, 2018 (Supp. 18-1).

**R9-7-1723. Personnel Monitoring**

- A. A licensee shall not permit an individual to act as a logging supervisor or logging assistant unless that person wears, at all times during the handling of licensed radioactive materials, a personnel dosimeter that is processed and evaluated by an accredited National Voluntary Laboratory Accreditation Program (NVLAP) processor.
- B. A licensee shall assign a personnel dosimeter to each individual, who shall wear the assigned equipment.
- C. A licensee shall replace film badges at least monthly and replace other personnel dosimeters at least quarterly. After replacement, a licensee shall promptly process each personnel dosimeter.
- D. A licensee shall provide bioassay services to each individual who uses licensed materials in subsurface tracer studies if required by the license.
- E. A licensee shall record exposures noted from personnel dosimeters required by subsection (A) and bioassay results and maintain these records for three years after the Department terminates the radioactive material license.

**Historical Note**

New Section R9-7-1723 recodified from R12-1-1723 at 24 A.A.R. 813, effective March 22, 2018 (Supp. 18-1).

**R9-7-1724. Radioactive Contamination Control**

- A. If a licensee detects evidence that a sealed source has ruptured or licensed materials have caused contamination, the licensee shall immediately initiate the emergency procedures required by R9-7-1722.
- B. If contamination results from the use of licensed material in well logging, the licensee shall decontaminate all affected areas, equipment, and personnel.
- C. During efforts to recover a source lodged in a well, the licensee shall continuously monitor, with a radiation detection instrument that complies with R9-7-1714 or a logging tool with a radiation detector, the well and any circulating fluids from the well to check for contamination resulting from damage to the source.

**R9-7-1726. Energy Compensation Source**

- A. A licensee may use an energy compensation source (ECS) in a logging tool, or other tool component, if the ECS contains a quantity of radioactive material that does not exceed 3.7 MBq (100 microcuries).
- B. If used in a well with a surface casing, an ECS is subject to all Sections of this Article except R9-7-1702, R9-7-1728, and R9-7-1751.
- C. If used in a well logging hole without a surface casing, an ECS is subject to all Sections of this Article.

New Section R9-7-1726 recodified from R12-1-1726 at 24 A.A.R. 813, effective March 22, 2018 (Supp. 18-1).

**R9-7-1727. Neutron Generator Source**

- A. A licensee may use a tritium neutron generator source to produce neutrons for well logging applications.
- B. If the activity of a tritium neutron generator source does not exceed 1.11 TBq (30 Curies) and the source is used in a well with a surface casing, the source is subject to all Sections of this Article except R9-7-1702 and R9-7-1751.
- C. If the activity of a neutron generator source is equal to or exceeds 1.11 TBq (30 Curies) or the source is used in a well without a surface casing, the source is subject to all Sections of this Article.

**Historical Note**

Section R9-7-1730 reserved when the Chapter was recodified from 12 A.A.C. 1 (Supp. 18-1).

**R9-7-1731. Security**

- A. A logging supervisor shall be physically present at a temporary job site whenever licensed material is being handled or is not stored and locked in a vehicle or storage place. The logging supervisor may leave the job site to obtain assistance if a source becomes lodged in a well.
- B. During well logging, except when a radiation source is below ground or in a shipping or storage container, the logging supervisor or other individual designated by the logging supervisor shall maintain direct surveillance of the operation to prevent unauthorized entry into a restricted area, as defined in R9-7-102.

**Historical Note**

New Section R9-7-1731 recodified from R12-1-1731 at 24 A.A.R. 813, effective March 22, 2018 (Supp. 18-1).

**R9-7-1732. Handling Tools**

The licensee shall provide and require the use of tools that will assure remote handling of sealed sources other than low-activity calibration sources.

**R9-7-1733. Subsurface Tracer Studies**

- A. Any person who handles radioactive tracer material shall wear protective gloves and other appropriate protective clothing and equipment. Precautions shall be taken to avoid ingestion or inhalation of radioactive material.
- B. A licensee shall not inject radioactive material into potable aquifers without authority granted in a radioactive material license issued by the Department.
- C. A licensee shall dispose of tracer study waste contaminated with radioactive material in accordance with R9-7-434.

**Historical Note**

New Section R9-7-1733 recodified from R12-1-1733 at 24 A.A.R. 813, effective March 22, 2018 (Supp. 18-1).

**R9-7-1734. Use of a Sealed Source in a Well Without a Surface Casing and Particle Accelerators**

- A. A licensee or registrant may use a sealed source in a well without a surface casing to protect a fresh water aquifer if the licensee follows the correct procedure for reducing the probability that the source will become lodged in the well.
- B. A licensee or registrant shall not begin well logging operations in a well without a surface casing unless the Department has approved the licensee's procedure for logging in an uncased hole.
- C. A licensee or registrant shall not permit above-ground testing of a particle accelerator, designed for use in well-logging, which results in the production of radiation, unless the area or facility affected is controlled or shielded in a manner consistent with applicable requirements in Article 4 of this Chapter.

**R9-7-1741. Radiation Surveys**

- A. A licensee shall perform and make a record of a radiation survey using instruments or calculations of radiation levels in each area where radioactive material is stored.
- B. A licensee shall make and record a radiation survey using instruments or calculations of radiation levels in occupied positions and on the exterior of each vehicle used to transport radioactive material. The survey or calculation shall include each source of radiation or combination of sources to be transported in the vehicle.
- C. After removal of the sealed source from the logging tool and before departing the job site, a licensee shall ensure that the logging tool detector is energized, or a survey meter is used to test the logging tool for contamination. The licensee shall record the test for contamination.
- D. The licensee shall make and record each survey using an appropriate survey instrument for the radionuclide being used, at the job site or wellhead for each tracer operation, except those using Hydrogen-3, Carbon-14 and Sulfur-35. Each survey shall include measurements of radiation levels before and after each tracer operation.
- E. Records of surveys conducted according to subsections (A) through (D) shall include the date of each survey, the identification of each individual making the survey, identification of each survey instrument used, each radiation measurement in millirem or microsievert per hour, and an exact description of the location of the survey. A licensee shall retain records of a survey for three years after completion of the survey.

Each licensee that conducts operations at a temporary job site shall maintain the following documents and records at the temporary job site until the well logging operation is completed:

1. Operating and emergency procedures required by R9-7-1722;
2. The most current calibration records for the radiation survey instruments in use at the site required by R9-7-1714;
3. The most current survey records required by R9-7-1741.
4. The shipping papers for transportation of radioactive materials required by license condition; and
5. If operating under reciprocity in accordance with R9-7-320, a copy of the Department authorization for use of radioactive material in Arizona.

**R9-7-1751. Notification of Incidents and Lost Sources; Abandonment Procedures for Irretrievable Sources**

A. If, after making a reasonable effort to recover a sealed source or device that contains radioactive material using methods that are not likely to result in damage or rupture and contamination, a licensee determines that the source or device is lodged in a well, the licensee shall:

1. Immediately notify the Department by telephone of the circumstances that resulted in the inability to retrieve the source and, if there is no evidence of contamination, obtain the following from the Department:
  - a. A determination that the source is irretrievable and abandonment is necessary because further efforts to

## CHAPTER 7. DEPARTMENT OF HEALTH SERVICES - RADIATION CONTROL

recover the source are likely to result in an immediate threat to public health and safety, and

- b. An approval to implement abandonment procedures;
  2. Advise the well owner or operator, as applicable, of the abandonment procedures implemented under R9-7-1702(A) and (C); and
  3. Either ensure that abandonment procedures are implemented within 30 days after the Department classifies the source as irretrievable or request an extension of time if unable to complete abandonment procedures.
- B.** A licensee shall immediately notify the Department by telephone and subsequently, within 30 days, by confirmatory letter if the licensee knows or has reason to believe that a sealed source has been ruptured or the well has otherwise been contaminated. The letter shall describe the well location, the magnitude and extent of radioactive contamination, the consequences of the rupture, and the efforts planned or initiated to mitigate the consequences.
- C.** A licensee shall notify the Department of the theft or loss of any radioactive material, radiation overexposure, excessive levels and concentrations of radiation, and incidents as required by R9-7-443, R9-7-444, and R9-7-445.
- D.** A licensee shall, within 30 days after a sealed source has been classified as irretrievable, report in writing to the Department. The licensee shall send a copy of the report to each state or federal agency that issued permits or otherwise approved of the drilling operation. The report shall contain the following information:
1. Date of occurrence;
  2. A description of the irretrievable well logging source involved, including the name of the radionuclide and its quantity, and the chemical and physical form of the radionuclide;
  3. Surface location and identification of the well;
  4. Results of efforts to immobilize and seal the source in place;
  5. A brief description of the attempted recovery effort;
  6. Depth of the source;
  7. Depth of the top of the cement plug;
  8. Depth of the well;
  9. The reasons why further efforts to recover the source are likely to result in an immediate threat to public health and safety, necessitating abandonment;
  10. Information contained on the permanent identification plaque; and
  11. State and federal agencies receiving a copy of the report.

**ARTICLE 18. RESERVED****ARTICLE 19. PHYSICAL PROTECTION OF CATEGORY 1 AND CATEGORY 2 QUANTITIES OF RADIOACTIVE MATERIAL****R9-7-1901. Purpose**

This Article has been established to provide the requirements for the physical protection program for any licensee that possesses an aggregated category 1 or category 2 quantity of radioactive material listed in Appendix A to this Article. These requirements provide reasonable assurance of the security of category 1 or category 2 quantities of radioactive material by protecting these materials from theft or diversion. Specific requirements for access to material, use of material, transfer of material, and transport of material are included. No provision of this Article authorizes possession of licensed material.

- A.** R9-7-1921 through R9-7-1957 of this Article apply to any person who, under the rules in this chapter, possesses or uses at any site, an aggregated category 1 or category 2 quantity of radioactive material.
- B.** R9-7-1971 through R9-7-1981 of this Article applies to any person who, under the rules of this chapter:
1. Transports or delivers to a carrier for transport in a single shipment, a category 1 or category 2 quantity of radioactive material; or
  2. Imports or exports a category 1 or category 2 quantity of radioactive material; the provisions only apply to the domestic portion of the transport.

**R9-7-1905. Definitions**

The following definitions apply in this Article, unless the context otherwise requires:

“Access control means a system for allowing only approved individuals to have unescorted access to the security zone and for ensuring that all other individuals are subject to escorted access.

“Act” means the Atomic Energy Act of 1954 (68 Stat. 919), including any amendments thereto.

“Aggregated” means accessible by the breach of a single physical barrier that would allow access to radioactive material in any form, including any devices that contain the radioactive material, when the total activity equals or exceeds a category 2 quantity of radioactive material.

“Agreement State” means any state with which the Atomic Energy Commission or the U.S. Nuclear Regulatory Commission has entered into an effective agreement under subsection 274b. of the Act. Non-agreement State means any other State.

“Approved individual” means an individual whom the licensee has determined to be trustworthy and reliable for unescorted access in accordance with R9-7-1921 through R9-7-1933 of this Article and who has completed the training required by R9-7-1943(C).

“Background investigation” means the investigation conducted by a licensee or applicant to support the determination of trustworthiness and reliability.

“Becquerel (Bq)” means one disintegration per second.

“Byproduct material” means the same as in R9-7-102.

“Category 1 quantity of radioactive material” means a quantity of radioactive material meeting or exceeding the category 1 threshold in Table 1 of Appendix A to this Article. This quantity is determined by calculating the

## CHAPTER 7. DEPARTMENT OF HEALTH SERVICES - RADIATION CONTROL

ratio of the total activity of each radionuclide to the category 1 threshold for that radionuclide and adding the ratios together. If the sum is equal to or exceeds 1, the quantity would be considered a category 1 quantity. Category 1 quantities of radioactive material do not include the radioactive material contained in any fuel assembly, subassembly, fuel rod, or fuel pellet.

“Category 2 quantity of radioactive material” means a quantity of radioactive material meeting or exceeding the category 2 threshold but less than the category 1 threshold in Table 1 of Appendix A to this Article. This quantity is determined by calculating the ratio of the total activity of each radionuclide to the category 2 threshold for that radionuclide and adding the ratios together. If the sum is equal to or exceeds 1, the quantity would be considered a category 2 quantity. Category 2 quantities of radioactive material do not include the radioactive material contained in any fuel assembly, subassembly, fuel rod, or fuel pellet.

“Commission” means the U.S. Nuclear Regulatory Commission or its duly authorized representatives.

“Curie” means the same as in R9-7-102.

“Diversion” means the unauthorized movement of radioactive material subject to this Article to a location different from the material’s authorized destination inside or outside of the site at which the material is used or stored.

“Escorted access” means accompaniment while in a security zone by an approved individual who maintains continuous direct visual surveillance at all times over an individual who is not approved for unescorted access.

“Fingerprint orders” means the orders issued by the U.S. Nuclear Regulatory Commission or the legally binding requirements issued by Agreement States that require fingerprints and criminal history records checks for individuals with unescorted access to category 1 and category 2 quantities of radioactive material or safeguards information-modified handling.

“Government agency” means any executive department, commission, independent establishment, corporation, wholly or partly owned by the United States of America which is an instrumentality of the United States, or any board, bureau, division, service, office, officer, authority, administration, or other establishment in the executive branch of the Government.

“License”, except where otherwise specified, means a license for byproduct material issued pursuant to the rules in Articles 3, 5, 7, and 15 of this chapter.

“License issuing authority” means the licensing agency that issued the license, i.e. the Department, the U.S. Nuclear Regulatory Commission, or the appropriate agency of an Agreement State.

“Local law enforcement agency (LLEA)” means a public or private organization that has been approved by a federal, state, or local government to carry firearms and make arrests, and is authorized and has the capability to provide an armed response in the jurisdiction where the licensed category 1 or category 2 quantity of radioactive material is used, stored, or transported.

“Lost or missing licensed material” means licensed material whose location is unknown. It includes material that has been shipped but has not reached its destination and whose location cannot be readily traced in the transportation system.

“Mobile device” means a piece of equipment containing licensed radioactive material that is either mounted on wheels or casters, or is otherwise equipped for moving without a need for disassembly or dismantling; or designed to be hand carried. Mobile devices do not include stationary equipment installed in a fixed location.

“Movement control center” means an operations center that is remote from transport activity and that maintains position information on the movement of radioactive material, receives reports of attempted attacks or thefts, provides a means for reporting these and other problems to appropriate agencies and can request and coordinate appropriate aid.

“No-later-than arrival time” means the date and time that the shipping licensee and receiving licensee have established as the time at which an investigation will be initiated if the shipment has not arrived at the receiving facility. The no-later-than arrival time may not be more than 6 hours after the estimated arrival time for shipments of category 2 quantities of radioactive material.

“Person” means:

Any individual, corporation, partnership, firm, association, trust, estate, public or private institution, group, Government agency other than the Commission or the DOE (except that the DOE shall be considered a person within the meaning of the rules in 10 CFR chapter I to the extent that its facilities and activities are subject to the licensing and related regulatory authority of the Commission under section 202 of the Energy Reorganization Act of 1974 (88 Stat. 1244), the Uranium Mill Tailings Radiation Control Act of 1978 (92 Stat. 3021), the Nuclear Waste Policy Act of 1982 (96 Stat. 2201), and section 3(b)(2) of the Low-Level Radioactive Waste Policy Amendments Act of 1985 (99 Stat. 1842)), any State or any political subdivision of or any political entity within a State, any foreign government or nation or any political subdivision of any such government or nation, or other entity; and

Any legal successor, representative, agent, or agency of the foregoing.

“Reviewing official” means the individual who shall make the trustworthiness and reliability determination of an individual to determine whether the individual may have, or continue to have, unescorted access to the category 1 or category 2 quantities of radioactive materials that are possessed by the licensee.

“Sabotage” means deliberate damage, with malevolent intent, to a category 1 or category 2 quantity of radioactive material, a device that contains a category 1 or category 2 quantity of radioactive material, or the components of the security system.

“Safe haven” means a readily recognizable and readily accessible site at which security is present or from which, in the event of an emergency, the transport crew can notify and wait for the local law enforcement authorities.

“Security zone” means any temporary or permanent area determined and established by the licensee for the physical protection of category 1 or category 2 quantities of radioactive material.

“State” means a State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin

## CHAPTER 7. DEPARTMENT OF HEALTH SERVICES - RADIATION CONTROL

Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands.

“Telemetric position monitoring system” means a data transfer system that captures information by instrumentation and/or measuring devices about the location and status of a transport vehicle or package between the departure and destination locations.

“Trustworthiness and reliability” means characteristics of an individual considered dependable in judgment, character, and performance, such that unescorted access to category 1 or category 2 quantities of radioactive material by that individual does not constitute an unreasonable risk to the public health and safety or security. A determination of trustworthiness and reliability for this purpose is based upon the results from a background investigation.

“Unescorted access” means solitary access to an aggregated category 1 or category 2 quantity of radioactive material or the devices that contain the material.

“United States” when used in a geographical sense, includes Puerto Rico and all territories and possessions of the United States.

- A. The Department may, upon application of any interested person or upon its own initiative, grant such exemptions from the requirements of the rules in this Article as it determines are authorized by law and will not endanger life or property or the common defense and security, and are otherwise in the public interest.
- B. Any licensee’s NRC-licensed activities are exempt from the requirements of R9-7-1921 through R9-7-1957 of this Article to the extent that its activities are included in a security plan required by 10 CFR part 73 revised January 1, 2015, incorporated by reference, and available under R9-7-101. This incorporated material contains no future editions or amendments.
- C. A licensee that possesses radioactive waste that contains category 1 or category 2 quantities of radioactive material is exempt from the requirements of R9-7-1921 through R9-7-1981 of this Article, except that any radioactive waste that contains discrete sources, ion-exchange resins, or activated material that weighs less than 2,000 kg (4,409 lbs.) is not exempt from the requirements of this Article. The licensee shall implement the following requirements to secure the radioactive waste:
  1. Use continuous physical barriers that allow access to the radioactive waste only through established access control points;
  2. Use a locked door or gate with monitored alarm at the access control point;
  3. Assess and respond to each actual or attempted unauthorized access to determine whether an actual or attempted theft, sabotage, or diversion occurred; and
  4. Immediately notify the LLEA and request an armed response from the LLEA upon determination that there was an actual or attempted theft, sabotage, or diversion of the radioactive waste that contains category 1 or category 2 quantities of radioactive material.

**R9-7-1921. Personnel Access Authorization Requirements for Category 1 or Category 2 Quantities of Radioactive Material****A. General:**

1. Each licensee that possesses an aggregated quantity of radioactive material at or above the category 2 threshold shall establish, implement, and maintain its access authorization program in accordance with the requirements of this Article.
2. An applicant for a new license and each licensee that would become newly subject to the requirements of this Article upon application for modification of its license shall implement the requirements of this Article, as appropriate, before taking possession of an aggregated category 1 or category 2 quantity of radioactive material.
3. Any licensee that has not previously implemented the Security Orders or been subject to the provisions of R9-7-1921 through R9-7-1933 shall implement the provisions of R9-7-1921 through R9-7-1933 before aggregating radioactive material to a quantity that equals or exceeds the category 2 threshold.

**B. General performance objective: The licensee's access authorization program shall ensure that the individuals specified in subsection (C)(1) are trustworthy and reliable.****C. Applicability:**

1. Licensees shall subject the following individuals to an access authorization program:
  - a. Any individual whose assigned duties require unescorted access to category 1 or category 2 quantities of radioactive material or to any device that contains the radioactive material; and
  - b. Reviewing officials.
2. Licensees need not subject the categories of individuals listed in R9-7-1929(A) to the investigation elements of the access authorization program.
3. Licensees shall approve for unescorted access to category 1 or category 2 quantities of radioactive material only

those individuals with job duties that require unescorted access to category 1 or category 2 quantities of radioactive material.

4. Licensees may include individuals in the access authorization program under R9-7-1921 through R9-7-1933 and needing access to safeguards information-modified handling under 10 CFR part 73 revised January 1, 2015, incorporated by reference, and available under R9-7-101. This incorporated material contains no future editions or amendments.

Section R9-7-1922 reserved when the Chapter was recodified from 12 A.A.C. 1 (Supp. 18-1).

**R9-7-1923. Access Authorization Program Requirements****A. Granting unescorted access authorization:**

1. Licensees shall implement the requirements of this Article for granting initial or reinstated unescorted access authorization.
2. Individuals who have been determined to be trustworthy and reliable shall also complete the security training required by R9-7-1943(C) before being allowed unescorted access to category 1 or category 2 quantities of radioactive material.

**B. Reviewing officials:**

1. Reviewing officials are the only individuals who may make trustworthiness and reliability determinations that allow individuals to have unescorted access to category 1 or category 2 quantities of radioactive materials possessed by the licensee.
2. Each licensee shall name one or more individuals to be reviewing officials. After completing the background investigation on the reviewing official, the licensee shall provide under oath or affirmation, a certification, to the ATTN: Bureau Chief, Bureau of Radiation Control, Arizona Department of Health Services, 4814 S. 40th Street, Phoenix, Arizona 85040, that the reviewing official is deemed trustworthy and reliable by the licensee. The fingerprints of the named reviewing official shall be taken by a law enforcement agency, Federal or State agencies that provide fingerprinting services to the public, or commercial fingerprinting services authorized by a State to take fingerprints. The licensee shall recertify that the reviewing official is deemed trustworthy and reliable every 10 years in accordance with R9-7-1925(C).
3. Reviewing officials shall be permitted to have unescorted access to category 1 or category 2 quantities of radioactive materials or access to safeguards information or safeguards information-modified handling, if the licensee possesses safeguards information or safeguards information-modified handling. Reviewing officials permitted unescorted access to category 1 or category 2 quantities of radioactive materials shall receive appropriate radiation safety training initially and at a frequency not to exceed 12 months. The licensee shall maintain records of the initial and refresher training for three years from the date of training for Department review.
4. Reviewing officials cannot approve other individuals to act as reviewing officials.

## CHAPTER 7. DEPARTMENT OF HEALTH SERVICES - RADIATION CONTROL

5. A reviewing official does not need to undergo a new background investigation before being named by the licensee as the reviewing official if:
  - a. The individual has undergone a background investigation that included fingerprinting and an FBI criminal history records check and has been determined to be trustworthy and reliable by the licensee; or
  - b. The individual is subject to a category listed in R9-7-1929(A).
- C. Informed consent:
  1. Licensees may not initiate a background investigation without the informed and signed consent of the subject individual. This consent shall include authorization to share personal information with other individuals or organizations as necessary to complete the background investigation. Before a final adverse determination, the licensee shall provide the individual with an opportunity to correct any inaccurate or incomplete information that is developed during the background investigation. Licensees do not need to obtain signed consent from those individuals that meet the requirements of R9-7-1925(B). A signed consent shall be obtained prior to any reinvestigation.
  2. The subject individual may withdraw his or her consent at any time. Licensees shall inform the individual that:
    - a. If an individual withdraws his or her consent, the licensee may not initiate any elements of the background investigation that were not in progress at the time the individual withdrew his or her consent; and
    - b. The withdrawal of consent for the background investigation is sufficient cause for denial or termination of unescorted access authorization.
- D. Personal history disclosure: Any individual who is applying for unescorted access authorization shall disclose the personal history information that is required by the licensee's access authorization program for the reviewing official to make a determination of the individual's trustworthiness and reliability. Refusal to provide, or the falsification of, any personal history information required by this Article is sufficient cause for denial or termination of unescorted access.
- E. Determination basis:
  1. The reviewing official shall determine whether to permit, deny, unfavorably terminate, maintain, or administratively withdraw an individual's unescorted access authorization based on an evaluation of all of the information collected to meet the requirements of this Article.
  2. The reviewing official may not permit any individual to have unescorted access until the reviewing official has evaluated all of the information collected to meet the requirements of this Article and determined that the individual is trustworthy and reliable. The reviewing official may deny unescorted access to any individual based on information obtained at any time during the background investigation.
  3. The licensee shall document the basis for concluding whether or not there is reasonable assurance that an individual is trustworthy and reliable.
  4. The reviewing official may terminate or administratively withdraw an individual's unescorted access authorization based on information obtained after the background investigation has been completed and the individual granted unescorted access authorization.
  5. Licensees shall maintain a list of persons currently approved for unescorted access authorization. When a licensee determines that a person no longer requires unescorted access or meets the access authorization requirement, the licensee shall remove the person from the approved list as soon as possible, but no later than 7 working days, and take prompt measures to ensure that the individual is unable to have unescorted access to the material.
- F. Procedures: Licensees shall develop, implement, and maintain written procedures for implementing the access authorization program. The procedures shall include provisions for the notification of individuals who are denied unescorted access. The procedures shall include provisions for the review, at the request of the affected individual, of a denial or termination of unescorted access authorization. The procedures shall contain a provision to ensure that the individual is informed of the grounds for the denial or termination of unescorted access authorization and allow the individual an opportunity to provide additional relevant information.
- G. Right to correct and complete information:
  1. Prior to any final adverse determination, licensees shall provide each individual subject to this Article with the right to complete, correct, and explain information obtained as a result of the licensee's background investigation. Confirmation of receipt by the individual of this notification shall be maintained by the licensee for a period of 1 year from the date of the notification.
  2. If, after reviewing his or her criminal history record, an individual believes that it is incorrect or incomplete in any respect and wishes to change, correct, update, or explain anything in the record, the individual may initiate challenge procedures. These procedures include direct application by the individual challenging the record to the law enforcement agency that contributed the questioned information or a direct challenge as to the accuracy or completeness of any entry on the criminal history record to the Federal Bureau of Investigation, Criminal Justice Information Services (CJIS) Division, ATTN: SCU, Mod. D-2, 1000 Custer Hollow Road, Clarksburg, WV 26306 as set forth in 28 CFR 16.30 through 16.34. In the latter case, the Federal Bureau of Investigation (FBI) will forward the challenge to the agency that submitted the data, and will request that the agency verify or correct the challenged entry. Upon receipt of an official communication directly from the agency that contributed the original information, the FBI Identification Division makes any changes necessary in accordance with the information supplied by that agency. Licensees shall provide at least 10 days for an individual to initiate action to challenge the results of an FBI criminal history records check after the record being made available for his or her review. The licensee may make a final adverse determination based upon the criminal history records only after receipt of the FBI's confirmation or correction of the record.
- H. Records:
  1. The licensee shall retain documentation regarding the trustworthiness and reliability of individual employees for 3 years from the date the individual no longer requires unescorted access to category 1 or category 2 quantities of radioactive material.
  2. The licensee shall retain a copy of the current access authorization program procedures as a record for 3 years after the procedure is no longer needed. If any portion of the procedure is superseded, the licensee shall retain the superseded material for 3 years after the record is superseded.
  3. The licensee shall retain the list of persons approved for unescorted access authorization for 3 years after the list is superseded or replaced.

**R9-7-1924. Reserved****Historical Note**

Section R9-7-1924 reserved when the Chapter was recodified from 12 A.A.C. 1 (Supp. 18-1).

**R9-7-1925. Background Investigations**

- A.** Initial investigation: Before allowing an individual unescorted access to category 1 or category 2 quantities of radioactive material or to the devices that contain the material, licensees shall complete a background investigation of the individual seeking unescorted access authorization. The scope of the investigation shall encompass at least the 7 years preceding the date of the background investigation or since the individual's eighteenth birthday, whichever is shorter. The background investigation shall include at a minimum:
1. Fingerprinting and an FBI identification and criminal history records check in accordance with R9-7-1927;
  2. Verification of true identity. Licensees shall verify the true identity of the individual who is applying for unescorted access authorization to ensure that the applicant is who he or she claims to be. A licensee shall review official identification documents (e.g., driver's license; passport; government identification; certificate of birth issued by the state, province, or country of birth) and compare the documents to personal information data provided by the individual to identify any discrepancy in the information. Licensees shall document the type, expiration, and identification number of the identification document, or maintain a photocopy of identifying documents on file in accordance with R9-7-1931. Licensees shall certify in writing that the identification was properly reviewed, and shall maintain the certification and all related documents for review upon inspection;
  3. Employment history verification. Licensees shall complete an employment history verification, including military history. Licensees shall verify the individual's employment with each previous employer for the most recent 7 years before the date of application;
  4. Verification of education. Licensees shall verify that the individual participated in the education process during the claimed period;
  5. Character and reputation determination. Licensees shall complete reference checks to determine the character and reputation of the individual who has applied for unescorted access authorization. Unless other references are not available, reference checks may not be conducted with any person who is known to be a close member of the individual's family, including but not limited to the individual's spouse, parents, siblings, or children, or any individual who resides in the individual's permanent household. Reference checks under this section shall be limited to whether the individual has been and continues to be trustworthy and reliable;
  6. The licensee shall also, to the extent possible, obtain independent information to corroborate that provided by the individual (e.g., seek references not supplied by the individual); and
  7. If a previous employer, educational institution, or any other entity with which the individual claims to have been engaged fails to provide information or indicates an

inability or unwillingness to provide information within a time frame deemed appropriate by the licensee but at least after 10 business days of the request or if the licensee is unable to reach the entity, the licensee shall document the refusal, unwillingness, or inability in the record of investigation; and attempt to obtain the information from an alternate source.

**B. Grandfathering:**

1. Individuals who have been determined to be trustworthy and reliable for unescorted access to category 1 or category 2 quantities of radioactive material under the Fingerprint Orders may continue to have unescorted access to category 1 and category 2 quantities of radioactive material without further investigation. These individuals shall be subject to the reinvestigation requirement.
2. Individuals who have been determined to be trustworthy and reliable under the provisions of 10 CFR part 73 revised January 1, 2015, incorporated by reference, available under R9-7-101, and containing no future editions or amendments; or the security orders for access to safeguards information, safeguards information-modified handling, or risk-significant material may have unescorted access to category 1 and category 2 quantities of radioactive material without further investigation. The licensee shall document that the individual was determined to be trustworthy and reliable under the provisions of 10 CFR part 73 revised January 1, 2015, incorporated by reference, available under R9-7-101, and containing no future editions or amendments; or a security order. Security order, in this context, refers to any order that was issued by the NRC that required fingerprints and an FBI criminal history records check for access to safeguards information, safeguards information-modified handling, or risk significant material such as special nuclear material or large quantities of uranium hexafluoride. These individuals shall be subject to the reinvestigation requirement.

- C.** Re-investigations: Licensees shall conduct a reinvestigation every 10 years for any individual with unescorted access to category 1 or category 2 quantities of radioactive material. The reinvestigation shall consist of fingerprinting and an FBI identification and criminal history records check in accordance with R9-7-1927. The re-investigations shall be completed within 10 years of the date on which these elements were last completed.

**R9-7-1927. Requirements for Criminal History Records Checks of Individuals Granted Unescorted Access to Category 1 or Category 2 Quantities of Radioactive Material****A. General performance objective and requirements:**

1. Except for those individuals listed in R9-7-1929 and those individuals grandfathered under R9-7-1925(B), each licensee subject to the provisions of this Article shall fingerprint each individual who is to be permitted unescorted access to category 1 or category 2 quantities of radioactive material. Licensees shall transmit all collected fingerprints to the NRC for transmission to the FBI. The licensee shall use the information received from

## CHAPTER 7. DEPARTMENT OF HEALTH SERVICES - RADIATION CONTROL

the FBI as part of the required background investigation to determine whether to grant or deny further unescorted access to category 1 or category 2 quantities of radioactive materials for that individual.

2. The licensee shall notify each affected individual that his or her fingerprints will be used to secure a review of his or her criminal history record, and shall inform him or her of the procedures for revising the record or adding explanations to the record.
3. Fingerprinting is not required if a licensee is reinstating an individual's unescorted access authorization to category 1 or category 2 quantities of radioactive materials if:
  - a. The individual returns to the same facility that granted unescorted access authorization within 365 days of the termination of his or her unescorted access authorization; and
  - b. The previous access was terminated under favorable conditions.
4. Fingerprints do not need to be taken if an individual who is an employee of a licensee, contractor, manufacturer, or supplier has been granted unescorted access to category 1 or category 2 quantities of radioactive material, access to safeguards information, or safeguards information-modified handling by another licensee, based upon a background investigation conducted under this Article, the Fingerprint Orders, or 10 CFR part 73, revised December 12, 2018, incorporated by reference, available under R9-7-101, and containing no future editions or amendments. An existing criminal history records check file may be transferred to the licensee asked to grant unescorted access in accordance with the provisions of R9-7-1931(C).
5. Licensees shall use the information obtained as part of a criminal history records check solely for the purpose of determining an individual's suitability for unescorted access authorization to category 1 or category 2 quantities of radioactive materials, access to safeguards information, or safeguards information-modified handling.

**B. Prohibitions:**

1. Licensees may not base a final determination to deny an individual unescorted access authorization to category 1 or category 2 quantities of radioactive material solely on the basis of information received from the FBI involving:
  - a. An arrest more than 1 year old for which there is no information of the disposition of the case; or
  - b. An arrest that resulted in dismissal of the charge or an acquittal.
2. Licensees may not use information received from a criminal history records check obtained under this section in a manner that would infringe upon the rights of any individual under the First Amendment to the Constitution of the United States, nor shall licensees use the information in any way that would discriminate among individuals on the basis of race, religion, national origin, gender, or age.

**C. Procedures for processing of fingerprint checks:**

1. For the purpose of complying with this Article, licensees shall use an appropriate method listed in 10 CFR 37.7, revised November 29, 2019, incorporated by reference, available under R9-7-101, and containing no future editions or amendments; to submit to the U.S. Nuclear Regulatory Commission, Division of Physical and Cyber Security Policy, 11545 Rockville Pike, ATTN: Criminal History Program/Mail Stop T-8B20, Rockville, MD 20852, one completed, legible standard fingerprint card (Form FD-258, ORIMDNRCOOOZ), electronic fingerprint scan or, where practicable, other fingerprint record

for each individual requiring unescorted access to category 1 or category 2 quantities of radioactive material. Copies of these forms may be obtained by emailing [MAILSVS.Resource@nrc.gov](mailto:MAILSVS.Resource@nrc.gov). Guidance on submitting electronic fingerprints can be found at <https://www.nrc.gov/security/chp.html>.

2. Fees for the processing of fingerprint checks are due upon application. Licensees shall submit payment with the application for the processing of fingerprints through corporate check, certified check, cashier's check, money order, or electronic payment, made payable to "U.S. NRC." (For guidance on making electronic payments, contact the Division of Physical and Cyber Security Policy by e-mailing [Crimhist.Resource@NRC.gov](mailto:Crimhist.Resource@NRC.gov).) Combined payment for multiple applications is acceptable. The Commission publishes the amount of the fingerprint check application fee on the NRC's public website. (To find the current fee amount, go to the Licensee Criminal History Records Checks & Firearms Background Check information page at <https://www.nrc.gov/security/chp.html> and see the link for "How do I determine how much to pay for the request?").
3. The U.S. Nuclear Regulatory Commission will forward to the submitting licensee all data received from the FBI as a result of the licensee's application or applications for criminal history records checks.

**R9-7-1929. Relief From Fingerprinting, Identification, and Criminal History Records Checks and Other Elements of Background Investigations for Designated Categories of Individuals Permitted Unescorted Access to Certain Radioactive Materials**

- A.** Fingerprinting, and the identification and criminal history records checks required by section 149 of the Atomic Energy Act of 1954, as amended, and other elements of the background investigation are not required for the following individuals prior to granting unescorted access to category 1 or category 2 quantities of radioactive materials:
1. An employee of the U.S. Nuclear Regulatory Commission or of the Executive Branch of the U.S. Government who has undergone fingerprinting for a prior U.S. Government criminal history records check;
  2. A Member of Congress;
  3. An employee of a member of Congress or Congressional committee who has undergone fingerprinting for a prior U.S. Government criminal history records check;
  4. The Governor of a State or his or her designated State employee representative;
  5. Federal, State, or local law enforcement personnel;
  6. State Radiation Control Program Directors and State Homeland Security Advisors or their designated State employee representatives;
  7. Agreement State employees conducting security inspections on behalf of the NRC under an agreement executed under section 274.i. of the Atomic Energy Act;

## CHAPTER 7. DEPARTMENT OF HEALTH SERVICES - RADIATION CONTROL

8. Representatives of the International Atomic Energy Agency (IAEA) engaged in activities associated with the U.S./IAEA Safeguards Agreement who have been certified by the NRC;
9. Emergency response personnel who are responding to an emergency;
10. Commercial vehicle drivers for road shipments of category 1 and category 2 quantities of radioactive material;
11. Package handlers at transportation facilities such as freight terminals and railroad yards;
12. Any individual who has an active Federal security clearance, provided that he or she makes available the appropriate documentation. Written confirmation from the agency/employer that granted the Federal security clearance or reviewed the criminal history records check shall be provided to the licensee. The licensee shall retain this documentation for a period of 3 years from the date the individual no longer requires unescorted access to category 1 or category 2 quantities of radioactive material; and
13. Any individual employed by a service provider licensee for which the service provider licensee has conducted the background investigation for the individual and approved the individual for unescorted access to category 1 or category 2 quantities of radioactive material. Written verification from the service provider shall be provided to the licensee. The licensee shall retain the documentation for a period of 3 years from the date the individual no longer requires unescorted access to category 1 or category 2 quantities of radioactive material.

- B.** Fingerprinting, and the identification and criminal history records checks required by section 149 of the Atomic Energy Act of 1954, as amended, are not required for an individual who has had a favorably adjudicated U.S. Government criminal history records check within the last 5 years, under a comparable U.S. Government program involving fingerprinting and an FBI identification and criminal history records check provided that he or she makes available the appropriate documentation. Written confirmation from the agency/employer that reviewed the criminal history records check shall be provided to the licensee. The licensee shall retain this documentation for a period of 3 years from the date the individual no longer requires unescorted access to category 1 or category 2 quantities of radioactive material. These programs include, but are not limited to:
1. National Agency Check;
  2. Transportation Worker Identification Credentials (TWIC) under 49 CFR part 1572;
  3. Bureau of Alcohol, Tobacco, Firearms, and Explosives background check and clearances under 27 CFR part 555;
  4. Health and Human Services security risk assessments for possession and use of select agents and toxins under 42 CFR part 73;
  5. Hazardous Material security threat assessment for hazardous material endorsement to commercial driver's license under 49 CFR part 1572; and
  6. Customs and Border Protection's Free and Secure Trade (FAST) Program.

**R9-7-1931. Protection of Information**

- A.** Each licensee who obtains background information on an individual under this Article shall establish and maintain a system of files and written procedures for protection of the record and the personal information from unauthorized disclosure.
- B.** The licensee may not disclose the record or personal information collected and maintained to persons other than the subject individual, his or her representative, or to those who have a need to have access to the information in performing assigned duties in the process of granting or denying unescorted access to category 1 or category 2 quantities of radioactive material, safeguards information, or safeguards information-modified handling. No individual authorized to have access to the information may disseminate the information to any other individual who does not have a need to know.
- C.** The personal information obtained on an individual from a background investigation may be provided to another licensee:
  1. Upon the individual's written request to the licensee holding the data to disseminate the information contained in his or her file; and
  2. The recipient licensee verifies information such as name, date of birth, social security number, gender, and other applicable physical characteristics.
- D.** The licensee shall make background investigation records obtained under this Article available for examination by an authorized representative of the Department to determine compliance with the rules and laws.
- E.** The licensee shall retain all fingerprint and criminal history records (including data indicating no record) received from the FBI, or a copy of these records if the individual's file has been transferred, on an individual for 3 years from the date the individual no longer requires unescorted access to category 1 or category 2 quantities of radioactive material.

- A.** Each licensee shall be responsible for the continuing effectiveness of the access authorization program. Each licensee shall ensure that access authorization programs are reviewed to confirm compliance with the requirements of this Article and that comprehensive actions are taken to correct any noncompliance that is identified. The review program shall evaluate all program performance objectives and requirements. Each licensee shall periodically (at least annually) review the access program content and implementation.
- B.** The results of the reviews, along with any recommendations, shall be documented. Each review report shall identify conditions that are adverse to the proper performance of the access authorization program, the cause of the condition(s), and, when appropriate, recommend corrective actions, and corrective actions taken. The licensee shall review the findings and take any additional corrective actions necessary to preclude repetition of the condition, including reassessment of the deficient areas where indicated.
- C.** Review records shall be maintained for 3 years.

**R9-7-1941. Security Program****A. Applicability:**

1. Each licensee that possesses an aggregated category 1 or category 2 quantity of radioactive material shall establish, implement, and maintain a security program in accordance with the requirements of this Article.
2. An applicant for a new license and each licensee that would become newly subject to the requirements of this Article upon application for modification of its license shall implement the requirements of this Article, as appropriate, before taking possession of an aggregated category 1 or category 2 quantity of radioactive material.
3. Any licensee that has not previously implemented the Security Orders or been subject to the provisions of R9-7-1941 through R9-7-1957 shall provide written notification to the Department, as specified in R9-7-1907, at least 90 days before aggregating radioactive material to a quantity that equals or exceeds the category 2 threshold.

**B. General performance objective:** Each licensee shall establish, implement, and maintain a security program that is designed to monitor and, without delay, detect, assess, and respond to an actual or attempted unauthorized access to category 1 or category 2 quantities of radioactive material.**C. Program features:** Each licensee's security program shall include the program features, as appropriate, described in R9-7-1943, R9-7-1945, R9-7-1947, R9-7-1949, R9-7-1951, R9-7-1953, and R9-7-1955.**Historical Note**

Section R9-7-1942 reserved when the Chapter was recodified from 12 A.A.C. 1 (Supp. 18-1).

**R9-7-1943. General Security Program Requirements****A. Security plan:**

1. Each licensee identified in R9-7-1941(A) shall develop a written security plan specific to its facilities and operations. The purpose of the security plan is to establish the licensee's overall security strategy to ensure the integrated and effective functioning of the security program required by this Article. The security plan shall, at a minimum:
  - a. Describe the measures and strategies used to implement the requirements of this Article; and
  - b. Identify the security resources, equipment, and technology used to satisfy the requirements of this Article.
2. The security plan shall be reviewed and approved by the individual with overall responsibility for the security program.
3. A licensee shall revise its security plan as necessary to ensure the effective implementation of Department requirements. The licensee shall ensure that:
  - a. The revision has been reviewed and approved by the individual with overall responsibility for the security program; and
  - b. The affected individuals are instructed on the revised plan before the changes are implemented.
4. The licensee shall retain a copy of the current security plan as a record for 3 years after the security plan is no longer required. If any portion of the plan is superseded, the licensee shall retain the superseded material for 3 years after the record is superseded.

**B. Implementing procedures:**

1. The licensee shall develop and maintain written procedures that document how the requirements of this Article and the security plan will be met.
2. The implementing procedures and revisions to these procedures shall be approved in writing by the individual with overall responsibility for the security program.
3. The licensee shall retain a copy of the current procedure as a record for 3 years after the procedure is no longer needed. Superseded portions of the procedure shall be retained for 3 years after the record is superseded.

**C. Training:**

1. Each licensee shall conduct training to ensure that those individuals implementing the security program possess and maintain the knowledge, skills, and abilities to carry out their assigned duties and responsibilities effectively. The training shall include instruction in:
  - a. The licensee's security program and procedures to secure category 1 or category 2 quantities of radioactive material, and in the purposes and functions of the security measures employed;
  - b. The responsibility to report promptly to the licensee any condition that causes or may cause a violation of Department requirements;
  - c. The responsibility of the licensee to report promptly to the local law enforcement agency and licensee any actual or attempted theft, sabotage, or diversion

## CHAPTER 7. DEPARTMENT OF HEALTH SERVICES - RADIATION CONTROL

of category 1 or category 2 quantities of radioactive material; and

- d. The appropriate response to security alarms.
2. In determining those individuals who shall be trained on the security program, the licensee shall consider each individual's assigned activities during authorized use and response to potential situations involving actual or attempted theft, diversion, or sabotage of category 1 or category 2 quantities of radioactive material. The extent of the training shall be commensurate with the individual's potential involvement in the security of category 1 or category 2 quantities of radioactive material.
3. Refresher training shall be provided at a frequency not to exceed 12 months and when significant changes have been made to the security program. This training shall include:
  - a. Review of the training requirements of subsection (c) and any changes made to the security program since the last training;
  - b. Reports on any relevant security issues, problems, and lessons learned;
  - c. Relevant results of Department inspections; and
  - d. Relevant results of the licensee's program review and testing and maintenance.
4. The licensee shall maintain records of the initial and refresher training for 3 years from the date of the training. The training records shall include dates of the training, topics covered, a list of licensee personnel in attendance, and related information.

**D. Protection of information:**

1. Licensees authorized to possess category 1 or category 2 quantities of radioactive material shall limit access to and unauthorized disclosure of their security plan, implementing procedures, and the list of individuals that have been approved for unescorted access.
2. Efforts to limit access shall include the development, implementation, and maintenance of written policies and procedures for controlling access to, and for proper handling and protection against unauthorized disclosure of, the security plan and implementing procedures.
3. Before granting an individual access to the security plan or implementing procedures, licensees shall:
  - a. Evaluate an individual's need to know the security plan or implementing procedures; and
  - b. If the individual has not been authorized for unescorted access to category 1 or category 2 quantities of radioactive material, safeguards information, or safeguards information-modified handling, the licensee shall complete a background investigation to determine the individual's trustworthiness and reliability. A trustworthiness and reliability determination shall be conducted by the reviewing official and shall include the background investigation elements contained in R9-7-1925(A)(2) through (A)(7).
4. Licensees need not subject the following individuals to the background investigation elements for protection of information:
  - a. The categories of individuals listed in R9-7-1929(A); or
  - b. Security service provider employees, provided written verification that the employee has been determined to be trustworthy and reliable, by the required background investigation in R9-7-1925(A)(2) through (A)(7), has been provided by the security service provider.

5. The licensee shall document the basis for concluding that an individual is trustworthy and reliable and should be granted access to the security plan or implementing procedures.
6. Licensees shall maintain a list of persons currently approved for access to the security plan or implementing procedures. When a licensee determines that a person no longer needs access to the security plan or implementing procedures or no longer meets the access authorization requirements for access to the information, the licensee shall remove the person from the approved list as soon as possible, but no later than 7 working days, and take prompt measures to ensure that the individual is unable to obtain the security plan or implementing procedures.
7. When not in use, the licensee shall store its security plan and implementing procedures in a manner to prevent unauthorized access. Information stored in non-removable electronic form shall be password protected.
8. The licensee shall retain as a record for 3 years after the document is no longer needed:
  - a. A copy of the information protection procedures; and
  - b. The list of individuals approved for access to the security plan or implementing procedures.
9. State officials, State employees, and other individuals, whether or not licensees of the Commission or an Agreement State, who receive schedule information of the kind specified in subsection (D)(1) shall protect that information against unauthorized disclosure as specified in subsection (D)(2).

- A.** A licensee subject to this Article shall coordinate, to the extent practicable, with an LLEA for responding to threats to the licensee's facility, including any necessary armed response. The information provided to the LLEA shall include:
  1. A description of the facilities and the category 1 and category 2 quantities of radioactive materials along with a description of the licensee's security measures that have been implemented to comply with this Article; and
  2. A notification that the licensee will request a timely armed response by the LLEA to any actual or attempted theft, sabotage, or diversion of category 1 or category 2 quantities of material.
- B.** The licensee shall notify the Department as listed in R9-7-1907 of this Article within 3 business days if:
  1. The LLEA has not responded to the request for coordination within 60 days of the coordination request; or
  2. The LLEA notifies the licensee that the LLEA does not plan to participate in coordination activities.
- C.** The licensee shall document its efforts to coordinate with the LLEA. The documentation shall be kept for 3 years.
- D.** The licensee shall coordinate with the LLEA at least every 12 months, or when changes to the facility design or operation

Section R9-7-1946 reserved when the Chapter was recodified from 12 A.A.C. 1 (Supp. 18-1).

**R9-7-1947. Security Zones**

- A.** Licensees shall ensure that all aggregated category 1 and category 2 quantities of radioactive material are used or stored within licensee established security zones. Security zones may be permanent or temporary.
- B.** Temporary security zones shall be established as necessary to meet the licensee's transitory or intermittent business activities, such as periods of maintenance, source delivery, and source replacement.
- C.** Security zones shall, at a minimum, allow unescorted access only to approved individuals through:
1. Isolation of category 1 and category 2 quantities of radioactive materials by the use of continuous physical barriers that allow access to the security zone only through established access control points. A physical barrier is a natural or man-made structure or formation sufficient for the isolation of the category 1 or category 2 quantities of radioactive material within a security zone; or
  2. Direct control of the security zone by approved individuals at all times; or
  3. A combination of continuous physical barriers and direct control.
- D.** For category 1 quantities of radioactive material during periods of maintenance, source receipt, preparation for shipment, installation, or source removal or exchange, the licensee shall, at a minimum, provide sufficient individuals approved for unescorted access to maintain continuous surveillance of sources in temporary security zones and in any security zone in which physical barriers or intrusion detection systems have been disabled to allow such activities.
- E.** Individuals not approved for unescorted access to category 1 or category 2 quantities of radioactive material shall be escorted by an approved individual when in a security zone.

Section R9-7-1948 reserved when the Chapter was recodified from 12 A.A.C. 1 (Supp. 18-1).

**R9-7-1949. Monitoring, Detection, and Assessment**

- A.** Monitoring and detection:
1. Licensees shall establish and maintain the capability to continuously monitor and detect without delay all unauthorized entries into its security zones. Licensees shall provide the means to maintain continuous monitoring and detection capability in the event of a loss of the primary power source, or provide for an alarm and response in the event of a loss of this capability to continuously monitor and detect unauthorized entries.
  2. Monitoring and detection shall be performed by:

- a. A monitored intrusion detection system that is linked to an onsite or offsite central monitoring facility; or
  - b. Electronic devices for intrusion detection alarms that will alert nearby facility personnel; or
  - c. A monitored video surveillance system; or
  - d. Direct visual surveillance by approved individuals located within the security zone; or
  - e. Direct visual surveillance by a licensee designated individual located outside the security zone.
3. A licensee subject to this Article shall also have a means to detect unauthorized removal of the radioactive material from the security zone. This detection capability shall provide:
- a. For category 1 quantities of radioactive material, immediate detection of any attempted unauthorized removal of the radioactive material from the security zone. Such immediate detection capability shall be provided by:
    - i. Electronic sensors linked to an alarm; or
    - ii. Continuous monitored video surveillance; or
    - iii. Direct visual surveillance.
  - b. For category 2 quantities of radioactive material, weekly verification through physical checks, tamper indicating devices, use, or other means to ensure that the radioactive material is present.
- B.** Assessment: Licensees shall immediately assess each actual or attempted unauthorized entry into the security zone to determine whether the unauthorized access was an actual or attempted theft, sabotage, or diversion.
- C.** Personnel communications and data transmission: For personnel and automated or electronic systems supporting the licensee's monitoring, detection, and assessment systems, licensees shall:
1. Maintain continuous capability for personnel communication and electronic data transmission and processing among site security systems; and
  2. Provide an alternative communication capability for personnel, and an alternative data transmission and processing capability, in the event of a loss of the primary means of communication or data transmission and processing. Alternative communications and data transmission systems may not be subject to the same failure modes as the primary systems.
- D.** Response: Licensees shall immediately respond to any actual or attempted unauthorized access to the security zones, or actual or attempted theft, sabotage, or diversion of category 1 or category 2 quantities of radioactive material at licensee facilities or temporary job sites. For any unauthorized access involving an actual or attempted theft, sabotage, or diversion of category 1 or category 2 quantities of radioactive material, the licensee's response shall include requesting, without delay, an armed response from the LLEA.

other physical components of the systems used to secure or detect unauthorized access to radioactive material are maintained in operable condition and are capable of performing their intended function when needed. The equipment relied on to meet the security requirements of this part shall be inspected and tested for operability and performance at the manufacturer's suggested frequency. If there is no suggested manufacturer's suggested frequency, the testing shall be performed at least annually, not to exceed 12 months.

- B. The licensee shall maintain records on the maintenance and testing activities for 3 years. The record shall include:
1. The date of activity;
  2. Type of activity performed;
  3. A list of the equipment involved;
  4. The results of the activity;
  5. The name of the individual that conducted the activity;

- A. Have two independent physical controls that form tangible barriers to secure the material from unauthorized removal when the device is not under direct control and constant surveillance by the licensee; and
- B. For devices in or on a vehicle or trailer, unless the health and safety requirements for a site prohibit the disabling of the vehicle, the licensee shall utilize a method to disable the vehicle or trailer when not under direct control and constant surveillance by the licensee. Licensees shall not rely on the removal of an ignition key to meet this requirement.

As soon as possible after initiating a response, but not at the expense of causing delay or interfering with the LLEA response to the event, the licensee shall notify the Department. Notification shall be to a live person, a voice mail is not considered adequate notification. In no case shall the notification to the Department be later than 4 hours after the discovery of any attempted or actual theft, sabotage, or diversion.
- B. The licensee shall assess any suspicious activity related to possible theft, sabotage, or diversion of category 1 or category 2 quantities of radioactive material and notify the LLEA as appropriate. As soon as possible but not later than 4 hours after notifying the LLEA, the licensee shall notify the Department.
- C. A licensee transferring a category 1 or category 2 quantity of radioactive material to a licensee of the Department, the NRC, or an Agreement State shall meet the license verification provisions listed below instead of those listed in sections of this chapter:

1. Any licensee transferring category 1 quantities of radioactive material to a licensee of the Department, the NRC, or an Agreement State, prior to conducting such transfer, shall verify with the Department's license verification system or the license issuing authority that the transferee's license authorizes the receipt of the type, form, and quantity of radioactive material to be transferred and that the licensee is authorized to receive radioactive material at the location requested for delivery. If the verification is conducted by contacting the license issuing authority, the transferor shall document the verification. For transfers within the same organization, the licensee does not need to verify the transfer.
2. Any licensee transferring category 2 quantities of radioactive material to a licensee of the Department, the NRC, or an Agreement State, prior to conducting such transfer,

shall verify with the Department's license verification system or the license issuing authority that the transferee's license authorizes the receipt of the type, form, and quantity of radioactive material to be transferred. If the verification is conducted by contacting the license issuing authority, the transferor shall document the verification. For transfers within the same organization, the licensee does not need to verify the transfer.

3. In an emergency where the licensee cannot reach the license issuing authority and the license verification system is nonfunctional, the licensee may accept a written certification by the transferee that it is authorized by license to receive the type, form, and quantity of radioactive material to be transferred. The certification shall include the license number, current revision number, issuing agency, expiration date, and for a category 1 shipment the authorized address. The licensee shall keep a copy of the certification. The certification shall be confirmed by use of the NRC's license verification system or by contacting the license issuing authority by the end of the next business day.
4. The transferor shall keep a copy of the verification documentation as a record for 3 years.

- B. For shipments of category 2 quantities of radioactive material, each shipping licensee shall comply with the requirements for physical protection contained in R9-7-1975(B) through (E); R9-7-1979(A)(2), (A)(3), (B)(2), and (C); and R9-7-1981(B), (D), (F), (G), and (H). For those shipments of category 2 quantities of radioactive material that meet the criteria of Article 15 of this Chapter, the shipping licensee shall also comply with the advance notification provisions of R9-7-1508 or R9-7-1512 as appropriate.
- C. The shipping licensee shall be responsible for meeting the requirements of R9-7-1971 through R9-7-1981 unless the receiving licensee has agreed in writing to arrange for the in-transit physical protection required under R9-7-1971 through R9-7-1981.
- D. Each licensee that imports or exports category 1 quantities of radioactive material shall comply with the requirements for physical protection during transit contained in R9-7-1975(A)(2) and (E); R9-7-1977; R9-7-1979(A)(1), (B)(1), and (C); and R9-7-1981(A), (C), (E), (G), and (H) for the domestic portion of the shipment.
- E. Each licensee that imports or exports category 2 quantities of radioactive material shall comply with the requirements for physical protection during transit contained in R9-7-1979(A)(2), (A)(3), and (B)(2); and R9-7-1981(B), (D), (F), (G), and (H) for the domestic portion of the shipment.

- A. Each licensee that plans to transport, or deliver to a carrier for transport, licensed material that is a category 1 quantity of radioactive material outside the confines of the licensee's facility or other place of use or storage shall:
  1. Preplan and coordinate shipment arrival and departure times with the receiving licensee;
  2. Preplan and coordinate shipment information with the governor or the governor's designee of any State through which the shipment will pass to:
    - a. Discuss the State's intention to provide law enforcement escorts; and
    - b. Identify safe havens; and
  3. Document the preplanning and coordination activities.
- B. Each licensee that plans to transport, or deliver to a carrier for transport, licensed material that is a category 2 quantity of radioactive material outside the confines of the licensee's facility or other place of use or storage shall coordinate the shipment no-later-than arrival time and the expected shipment arrival with the receiving licensee. The licensee shall document the coordination activities.
- C. Each licensee who receives a shipment of a category 2 quantity of radioactive material shall confirm receipt of the shipment with the originator. If the shipment has not arrived by the no-later-than arrival time, the receiving licensee shall notify the originator.
- D. Each licensee, who transports or plans to transport a shipment of a category 2 quantity of radioactive material, and determines that the shipment will arrive after the no-later-than arrival time provided pursuant to paragraph (B), shall promptly notify the receiving licensee of the new no-later-than arrival time.
- E. The licensee shall retain a copy of the documentation for preplanning and coordination and any revision thereof, as a record for 3 years.

Section R9-7-1976 reserved when the Chapter was recodified from 12 A.A.C. 1 (Supp. 18-1).

**R9-7-1977. Advance Notification of Shipment of Category 1 Quantities of Radioactive Material**

Each licensee shall provide advance notification to the Department and the governor of a State, or the governor's designee, of the shipment of licensed material in a category 1 quantity, through or across the boundary of the State, before the transport, or delivery to a carrier for transport of the licensed material outside the confines of the licensee's facility or other place of use or storage.

1. Procedures for submitting advance notification:
  - a. The notification shall be made to the Department and to the office of each appropriate governor or governor's designee. The contact information,

including telephone and mailing addresses, of governors and governors' designees and participating Tribes is available on the NRC's website at <https://scp.nrc.gov/special/designee.pdf>. A list of the contact information is also available upon request from the Director, Division of Material Safety, Security, State, and Tribal Programs, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. The notification to the Department may be made by email to [ram@azdhs.gov](mailto:ram@azdhs.gov) or by fax to (602) 437-0705.

- b. A notification delivered by mail shall be postmarked at least 7 days before transport of the shipment commences at the shipping facility.
- c. A notification delivered by any means other than mail shall reach the Department at least 4 days before the transport of the shipment commences and shall reach the office of the governor or the governor's designee at least 4 days before transport of a shipment within or through the State.
2. Information to be furnished in advance notification of shipment: Each advance notification of shipment of category 1 quantities of radioactive material shall contain the following information, if available at the time of notification:
  - a. The name, address, and telephone number of the shipper, carrier, and receiver of the category 1 radioactive material;
  - b. The license numbers of the shipper and receiver;
  - c. A description of the radioactive material contained in the shipment, including the radionuclides and quantity;
  - d. The point of origin of the shipment and the estimated time and date that shipment will commence;
  - e. The estimated time and date that the shipment is expected to enter each State along the route;
  - f. The estimated time and date of arrival of the shipment at the destination; and
  - g. A point of contact, with a telephone number, for current shipment information.
3. Revision notice:
  - a. The licensee shall provide any information not previously available at the time of the initial notification, as soon as the information becomes available but not later than commencement of the shipment, to the governor of the State or the governor's designee and to the Department at the contact information available in R9-7-1907.
  - b. A licensee shall promptly notify the governor of the state or the governor's designee of any changes to the information provided in accordance with subsections (B) and (C)(1). The licensee shall also immediately notify the Department at the contact information available in R9-7-1907 of any such changes.
4. Cancellation notice: Each licensee who cancels a shipment for which advance notification has been sent shall send a cancellation notice to the governor of each State or to the governor's designee previously notified and to the Department Director at the contact information available in R9-7-1907. The licensee shall send the cancellation notice before the shipment would have commenced or as soon thereafter as possible. The licensee shall state in the notice that it is a cancellation and identify the advance notification that is being cancelled.

## CHAPTER 7. DEPARTMENT OF HEALTH SERVICES - RADIATION CONTROL

5. Records: The licensee shall retain a copy of the advance notification and any revision and cancellation notices as a record for 3 years.
6. Protection of information: State officials, State employees, and other individuals, whether or not licensees of the Department, the NRC, or an Agreement State, who receive schedule information of the kind specified in this Section shall protect that information against unauthorized disclosure as specified in R9-7-1943(D) of this Article.

**R9-7-1979. Requirements for Physical Protection of Category 1 and Category 2 Quantities of Radioactive Material During Shipment****A. Shipments by road:**

1. Each licensee who transports, or delivers to a carrier for transport, in a single shipment, a category 1 quantity of radioactive material shall:
  - a. Ensure that movement control centers are established that maintain position information from a remote location. These control centers shall monitor shipments 24 hours a day, 7 days a week, and have the ability to communicate immediately, in an emergency, with the appropriate law enforcement agencies.
  - b. Ensure that redundant communications are established that allow the transport to contact the escort vehicle (when used) and movement control center at all times. Redundant communications may not be subject to the same interference factors as the primary communication.
  - c. Ensure that shipments are continuously and actively monitored by a telemetric position monitoring system or an alternative tracking system reporting to a movement control center. A movement control center shall provide positive confirmation of the location, status, and control over the shipment. The movement control center shall be prepared to promptly implement preplanned procedures in response to deviations from the authorized route or a notification of actual, attempted, or suspicious activities related to the theft, loss, or diversion of a shipment. These procedures will include, but not be limited to, the identification of and contact information for the appropriate LLEA along the shipment route.
  - d. Provide an individual to accompany the driver for those highway shipments with a driving time period greater than the maximum number of allowable hours of service in a 24-hour duty day as established by the Department of Transportation Federal Motor Carrier Safety Administration. The accompanying individual may be another driver.

- e. Develop written normal and contingency procedures to address:
  - i. Notifications to the communication center and law enforcement agencies;
  - ii. Communication protocols. Communication protocols shall include a strategy for the use of authentication codes and duress codes and provisions for refueling or other stops, detours, and locations where communication is expected to be temporarily lost;
  - iii. Loss of communications; and
  - iv. Responses to an actual or attempted theft or diversion of a shipment.
- f. Each licensee who makes arrangements for the shipment of category 1 quantities of radioactive material shall ensure that drivers, accompanying personnel, and movement control center personnel have access to the normal and contingency procedures.

2. Each licensee that transports category 2 quantities of radioactive material shall maintain constant control and/or surveillance during transit and have the capability for immediate communication to summon appropriate response or assistance.

3. Each licensee who delivers to a carrier for transport, in a single shipment, a category 2 quantity of radioactive material shall:

- a. Use carriers that have established package tracking systems. An established package tracking system is a documented, proven, and reliable system routinely used to transport objects of value. In order for a package tracking system to maintain constant control and/or surveillance, the package tracking system shall allow the shipper or transporter to identify when and where the package was last and when it should arrive at the next point of control.
- b. Use carriers that maintain constant control and/or surveillance during transit and have the capability for immediate communication to summon appropriate response or assistance; and
- c. Use carriers that have established tracking systems that require an authorized signature prior to releasing the package for delivery or return.

**B. Shipments by rail:**

1. Each licensee who transports, or delivers to a carrier for transport, in a single shipment, a category 1 quantity of radioactive material shall:

- a. Ensure that rail shipments are monitored by a telemetric position monitoring system or an alternative tracking system reporting to the licensee, third-party, or railroad communications center. The communications center shall provide positive confirmation of the location of the shipment and its status. The communications center shall implement preplanned procedures in response to deviations from the authorized route or to a notification of actual, attempted, or suspicious activities related to the theft or diversion of a shipment. These procedures will include, but not be limited to, the identification of and contact information for the appropriate LLEA along the shipment route.
- b. Ensure that periodic reports to the communications center are made at preset intervals.

2. Each licensee who transports, or delivers to a carrier for transport, in a single shipment, a category 2 quantity of radioactive material shall:

  - c. Use carriers that have established tracking systems that require an authorized signature prior to releasing the package for delivery or return.
- C. Investigations: Each licensee who makes arrangements for the shipment of category 1 quantities of radioactive material shall immediately conduct an investigation upon the discovery that a category 1 shipment is lost or missing. Each licensee who makes arrangements for the shipment of category 2 quantities of radioactive material shall immediately conduct an investigation, in coordination with the receiving licensee, of any shipment that has not arrived by the designated no-later-than arrival time.

**R9-7-1981. Reporting of Events**

- A. Within one hour of its determination that a shipment of category 1 quantities of radioactive material is lost or missing, a shipping licensee shall notify the appropriate LLEA and the Department. The Department shall be notified by calling (602) 255-4845 during business hours, or by calling the after-hours emergency Department of Public Safety dispatch line, at (602) 223-2212. The appropriate LLEA is the law enforcement agency in the area of the shipment's last confirmed location. During the investigation required by R9-7-1979(C), the shipping licensee shall provide agreed upon updates to the Department on the status of the investigation.
- B. Within four (4) hours of its determination that a shipment of category 2 quantities of radioactive material is lost or missing, a shipping licensee shall notify the appropriate LLEA and the Department. The Department shall be notified by calling (602) 255-4845 during business hours, or by calling the after-hours emergency Department of Public Safety dispatch line, at (602) 223-2212. If, after 24 hours of its determination that the shipment is lost or missing, the radioactive material has not been located and secured, the licensee shall immediately notify the Department.
- C. The shipping licensee shall notify the designated LLEA along the shipment route as soon as possible upon discovery of any actual or attempted theft or diversion of a shipment or suspicious activities related to the theft or diversion of a shipment of a category 1 quantity of radioactive material. As soon as possible after notifying the LLEA, the licensee shall notify the Department upon discovery of any actual or attempted theft or diversion of a shipment, or any suspicious activity related to the shipment of category 1 radioactive material. The Department shall be notified by calling (602) 255-4845 during business

hours, or by calling the after-hours emergency Department of Public Safety dispatch line, at (602) 223-2212.

- D. The shipping licensee shall notify the Department as soon as possible upon discovery of any actual or attempted theft or diversion of a shipment, or any suspicious activity related to the shipment, of a category 2 quantity of radioactive material. The Department shall be notified by calling (602) 255-4845 during business hours, or by calling the after-hours emergency Department of Public Safety dispatch line, at (602) 223-2212.
- E. The shipping licensee shall notify the Department and the LLEA as soon as possible upon recovery of any lost or missing category 1 quantities of radioactive material. The Agency shall be notified by calling (602) 255-4845 during business hours, or by calling the after-hours emergency Department of Public Safety dispatch line, at (602) 223-2212.
- F. The shipping licensee shall notify the Department as soon as possible upon recovery of any lost or missing category 2 quantities of radioactive material. The Department shall be notified by calling (602) 255-4845 during business hours, or by calling the after-hours emergency Department of Public Safety dispatch line, at (602) 223-2212.
- G. The initial telephonic notification required by subsections (A) through (D) shall be followed within a period of 30 days by a written report submitted to the Department by an appropriate method listed in R9-7-1907. A written report is not required for notifications on suspicious activities required by subsections (C) and (D). The report shall set forth the following information:
  1. A description of the licensed material involved, including kind, quantity, and chemical and physical form;
  2. A description of the circumstances under which the loss or theft occurred;
  3. A statement of disposition, or probable disposition, of the licensed material involved;
  4. Actions that have been taken, or will be taken, to recover the material; and
  5. Procedures or measures that have been, or will be, adopted to ensure against a recurrence of the loss or theft of licensed material.
- H. Subsequent to filing the written report, the licensee shall also report any additional substantive information on the loss or theft within 30 days after the licensee learns of such information.

Ytterbium-169	300	8,100	3	81.0

**Note: Calculations Concerning Multiple Sources or Multiple Radionuclides**

The “sum of fractions” methodology for evaluating combinations of multiple sources or multiple radionuclides is to be used in determining whether a location meets or exceeds the threshold and is thus subject to the requirements of this part.

1. If multiple sources of the same radionuclide and/or multiple radionuclides are aggregated at a location, the sum of the ratios of the total activity of each of the radionuclides shall be determined to verify whether the activity at the location is less than the category 1 or category 2 thresholds of Table 1, as appropriate. If the calculated sum of the ratios, using the equation below, is greater than or equal to 1.0, then the applicable requirements of this part apply.
2. First determine the total activity for each radionuclide from Table 1. This is done by robaddding the activity of

each individual source, material in any device, and any loose or bulk material that contains the radionuclide. Then use the equation below to calculate the sum of the ratios by inserting the total activity of the applicable radionuclides from Table 1 in the numerator of the equation and the corresponding threshold activity from Table 1 in the denominator of the equation.

Calculations shall be performed in metric values (i.e., TBq) and the numerator and denominator values shall be in the same units.

$R1 = \text{total activity for radionuclide 1}$

## CHAPTER 7. DEPARTMENT OF HEALTH SERVICES - RADIATION CONTROL

R2 = total activity for radionuclide 2  
RN = total activity for radionuclide n  
AR1 = activity threshold for radionuclide 1  
AR2 = activity threshold for radionuclide 2  
ARN = activity threshold for radionuclide n

## CHAPTER 16. DEPARTMENT OF HEALTH SERVICES - OCCUPATIONAL LICENSING

## ARTICLE 1. LICENSING OF MIDWIFERY

**R9-16-101. Definitions**

In addition to the definitions in A.R.S. § 36-751, the following definitions apply in this Article unless otherwise specified:

1. "Abnormal presentation" means the fetus is not in a head-down position with the crown of the head being the leading body part.
2. "Addiction" means a condition that results when a person ingests a substance that becomes compulsive and interferes with ordinary life responsibilities, such as work, relationships, or health.
3. "Amniotic" means the fluid surrounding the fetus while in the mother's uterus.
4. "Apgar score" means the number indicating a newborn's physical condition attained by rating selected body functions.
5. "Aseptic" means free of germs.
6. "Breech" means a complete breech, a frank breech, or an incomplete breech.
7. "Certified nurse midwife" means an individual who meets the criteria in 4 A.A.C. 19, Article 5 and is certified by the Arizona State Board of Nursing.
8. "Complete breech" means that at the time of birth the buttocks of a fetus is pointing downward with both legs folded at the knees and the feet near the buttocks.
9. "Calendar day" means each day, not including the day of the act, event, or default from which a designated period of time begins to run, but including the last day of the period unless it is a Saturday, Sunday, statewide furlough day, or legal holiday, in which case the period runs until the end of the next day that is not a Saturday, Sunday, statewide furlough day, or legal holiday.
10. "Cervix" means the narrow lower end of the uterus which protrudes into the cavity of the vagina.
11. "Consultation" means communication between a midwife and a physician or a midwife and a certified nurse midwife for the purpose of receiving a written or verbal recommendation and implementing prospective advice regarding the care of a pregnant woman or the woman's child.
12. "Current photograph" means an image of an individual, taken no more than 60 calendar days before the submission of the individual's application, in a Department-approved electronic format capable of producing an image that:
  - a. Has a resolution of at least 600 x 600 pixels but not more than 1200 x 1200 pixels;
  - b. Is 2 inches by 2 inches in size;
  - c. Is in natural color;
  - d. Is a front view of the individual's full face, without a hat or headgear that obscures the hair or hairline;
  - e. Has a plain white or off-white background; and
  - f. Has between 1 and 1 3/8 inches from the bottom of the chin to the top of the head.
13. "Dilation" means opening of the cervix during the mechanism of labor to allow for passage of the fetus.
14. "Effacement" means the gradual thinning of the cervix during the mechanism of labor and indicates progress in labor.
15. "Emergency care plan" means the arrangements established by a midwife for a client's transfer of care in a situation in which the health or safety of the client or newborn are determined to be at risk.
16. "Emergency medical services provider" has the same meaning as in A.R.S. § 36-2201.
17. "Episiotomy" means the cutting of the perineum, center, middle, or midline, in order to enlarge the vaginal opening for delivery.
18. "Fetus" means a child in utero from conception to birth.
19. "Frank breech" means that at the time of birth the buttocks of a fetus is pointing downward with both legs folded flat up against the head.
20. "Gestation" means the length of time from conception to birth, as calculated from the first day of the last normal menstrual period.
21. "Gravida" means the number of times the mother has been pregnant, including a current pregnancy, regardless of whether these pregnancies were carried to term.
22. "Incomplete breech" means that at the time of birth the buttocks of a fetus is pointing downward with one leg folded at the knee with the foot near the buttocks.
23. "Infant" has the same meaning as in A.R.S. § 36-694.
24. "Informed consent" means a document signed by a client, as provided in R9-16-109, agreeing to the provision of midwifery services.
25. "Intrapartum" means occurring from the onset of labor until after the delivery of the placenta.
26. "Jurisprudence test" means an assessment of an individual's knowledge of the:
  - a. Laws of this state concerning the reporting of births, prenatal blood tests, and newborn screening; and
  - b. Rules pertaining to the practice of midwifery.
27. "Ketones" means certain harmful chemical elements which are present in the body in excessive amounts when there is a compromised bodily function.
28. "Local registrar" means a person appointed by the state's registrar of vital statistics for a registration district whose duty includes receipt of birth and death certificates for births and deaths occurring within that district for review, registration, and transmittal to the state office of vital records according to A.R.S. Title 36, Chapter 3.
29. "Meconium" means the first bowel movement of the newborn, which is greenish black in color and tarry in consistency.
30. "Midwifery services" means health care, provided by a midwife to a mother, related to pregnancy, labor, delivery or postpartum care.
31. "Newborn" has the same meaning as in A.R.S. § 36-694.
32. "Para" means the number of births that are greater than 20 weeks of gestation, including viable and non-viable births, where multiples are counted as one birth.
33. "Parity" means the number of newborns a woman has delivered.
34. "Perineum" means the muscular region in the female between the vaginal opening and the anus.
35. "Physician" means an allopathic, an osteopathic, or a naturopathic practitioner licensed according to A.R.S. Title 32, Chapters 13, 14, or 17.
36. "Postpartum" means the six-week period following delivery of a newborn and placenta.
37. "Prenatal" means the period from conception to the onset of labor and birth.
38. "Prenatal care" means the on-going risk assessments, clinical examinations, and prenatal, nutritional, and anticipatory guidance offered to a pregnant woman.
39. "Prenatal visit" means each clinical examination of a pregnant woman for the purpose of monitoring the course of gestation and the overall health of the woman.

**R9-16-106. Name Change; Duplicate License**

- A. To request a name change on a midwifery license or a duplicate midwifery license, a midwife shall submit in writing to the Department:
  - 1. The midwife's name on the current midwifery license;
  - 2. If applicable, the midwife's new name;
  - 3. The midwife's address, license number, and e-mail address;
  - 4. As applicable:
    - a. Documentation supporting the midwife's name change, or
    - b. A statement that the midwife is requesting a duplicate midwifery license; and
  - 5. A non-refundable fee of \$10.00.
- B. Upon receipt of the written request required in subsection (A), the Department shall issue, as applicable:
  - 1. An amended midwifery license that incorporates the name change but retains the expiration date of the midwifery license, or
  - 2. A duplicate midwifery license.

**Historical Note**

Adopted effective March 14, 1994 (Supp. 94-1). Section R9-16-106 renumbered to R9-16-108; new Section R9-16-106 made by exempt rulemaking at 19 A.A.R. 1805, effective July 1, 2013 (Supp. 13-2).

**R9-16-107. Time-frames**

- A. The overall time-frame described in A.R.S. § 41-1072(2) for each type of license granted by the Department is specified in Table 1.1. The applicant or midwife and the Department may agree in writing to extend the substantive review time-frame

and the overall time-frame. The substantive review time-frame and the overall time-frame may not be extended by more than 25 percent of the overall time-frame.

- B. The administrative completeness review time-frame described in A.R.S. § 41-1072(1) for each type of license granted by the Department is specified in Table 1.1.

- 1. The administrative completeness review time-frame begins:

- a. For an applicant submitting an application for initial licensure, when the Department receives the application packet required in R9-16-102(A); and
- b. For a licensed midwife applying to renew a midwifery license, when the Department receives the application packet required in R9-16-103(A).

- 2. If an application is incomplete, the Department shall provide a notice of deficiencies to the applicant or midwife describing the missing documentation or incomplete information. The administrative completeness review time-frame and the overall time-frame are suspended from the date of the notice until the date the Department receives the documentation or information listed in the notice of deficiencies. An applicant or midwife shall submit to the Department the documentation or information listed in the notice of deficiencies within the time specified in Table 1.1 for responding to a notice of deficiencies.

- 3. If the applicant or midwife submits the documentation or information listed in the notice of deficiencies within the time specified in Table 1.1, the Department shall provide a written notice of administrative completeness to the applicant or midwife.

- 4. If the applicant or midwife does not submit the documentation or information listed in the notice of deficiencies within the time specified in Table 1.1, the Department shall consider the application withdrawn.

- 5. When an application is complete the Department shall provide a notice of administrative completeness to the applicant or midwife.

- 6. If the Department issues a notice of eligibility to take the jurisprudence test or a license during the administrative completeness review time-frame, the Department shall not issue a separate written notice of administrative completeness.

- C. The substantive review time-frame described in A.R.S. § 41-1072(3) is specified in Table 1.1 and begins on the date of the notice of administrative completeness.

- 1. If an application complies with the requirements in this Article and A.R.S. Title 36, Chapter 6, Article 7, the Department shall issue a notice of eligibility to take the jurisprudence test to an applicant or a license to a midwife.

- 2. If an application does not comply with the requirements in this Article or A.R.S. Title 36, Chapter 6, Article 7, the Department shall make one comprehensive written request for additional information, unless the applicant or midwife has agreed in writing to allow the Department to submit supplemental requests for information. The substantive review time-frame and the overall time-frame are suspended from the date that the Department sends a comprehensive written request for additional information or a supplemental request for information until the date that the Department receives all of the information requested.

- 3. An applicant or midwife shall submit to the Department all of the information requested in a comprehensive written request for additional information or a supplemental

## CHAPTER 16. DEPARTMENT OF HEALTH SERVICES - OCCUPATIONAL LICENSING

request for information within the time specified in Table 1.1.

4. If the applicant or midwife does not submit the additional information within the time specified in Table 1.1 or the additional information submitted by the applicant or midwife does not demonstrate compliance with this Article and A.R.S. Title 36, Chapter 6, Article 7, the Department shall provide to the applicant a written notice of denial that complies with A.R.S. § 41-1092.03(A).
5. If the applicant or midwife submits the additional information within the time specified in Table 1.1 and the

additional information submitted by the applicant or midwife demonstrates compliance with this Article and A.R.S. Title 36, Chapter 6, Article 7, the Department shall issue a notice of eligibility to take the jurisprudence test to an applicant or a license to a midwife.

**R9-16-108. Responsibilities of a Midwife; Scope of Practice**

- A. A midwife shall provide midwifery services only to a healthy woman, determined through a physical assessment and review of the woman's obstetrical history, whose expected outcome of pregnancy is most likely to be the delivery of a healthy newborn and an intact placenta.
- B. Except as provided in R9-16-111(C) or (D), a midwife who is certified by the North American Registry of Midwives as a Certified Professional Midwife may accept a client for a vaginal delivery:
  1. After prior Cesarean section, or
  2. Of a fetus in a complete breech or frank breech presentation.
- C. Before providing services to a client, a midwife shall:
  1. Inform a client, both orally and in writing, of:
    - a. The midwife's scope of practice, educational background, and credentials;
    - b. If applicable to the client's condition, the midwife's experience with:
      - i. Vaginal birth after prior Cesarean section delivery, or
      - ii. Delivery of a fetus in a complete breech or frank breech presentation;
    - c. The potential risks; adverse outcomes; neonatal or maternal complications, including death; and alternatives associated with an at-home delivery specific to the client's condition, including the conditions described in subsection (C)(1)(b);
    - d. The requirement for tests specified in subsections (I) and (K)(4)(c), and the potential risks for declining a test, and, if a test is declined, the need for a written assertion of a client's decision to decline testing;
  - e. The requirement for consultation for a condition specified in R9-16-112; and
  - f. The requirement for the transfer of care for a condition specified in R9-16-111; and
2. Obtain a written informed consent for midwifery services according to R9-16-109.
- D. A midwife shall establish an emergency care plan for the client that includes:
  1. The name, address, and phone number of:
    - a. The hospital closest to the birthing location that provides obstetrical services, and
    - b. An emergency medical services provider that provides service between the birthing location and the hospital identified in subsection (D)(1)(a);
  2. The hospital identified in subsection (D)(1)(a) is within 25 miles of the birthing location for a delivery identified in subsection (B);
  3. The signature of the client and the date signed; and
  4. The signature of the midwife and the date signed.
- E. A midwife shall ensure the client receives a copy of the emergency care plan required in subsection (D).
- F. A midwife shall implement the emergency care plan by immediately calling the emergency medical services provider identified in subsection (D)(1)(b) for any condition that threatens the life of the client or the client's child.
- G. A midwife shall maintain all instruments used for delivery in an aseptic manner and other birthing equipment and supplies in clean and good condition.
- H. A midwife shall assess a client's physical condition in order to establish the client's continuing eligibility to receive midwifery services.
- I. During the prenatal period, the midwife shall:
  1. Until October 1, 2013, schedule or arrange for the following tests for the client within 28 weeks gestation:
    - a. Blood type, including ABO and Rh, with antibody screen;
    - b. Urinalysis;
    - c. HIV;
    - d. Hepatitis B;

## CHAPTER 16. DEPARTMENT OF HEALTH SERVICES - OCCUPATIONAL LICENSING

- e. Hepatitis C;
  - f. Syphilis as required in A.R.S. § 36-693;
  - g. Rubella titer;
  - h. Chlamydia; and
  - i. Gonorrhea;
2. Until October 1, 2013, schedule or arrange for the following tests for the client:
    - a. A blood glucose screening test for diabetes completed between 24 and 28 weeks of gestation;
    - b. A hematocrit and hemoglobin or complete blood count test completed between 28 and 36 weeks of gestation;
    - c. A vaginal-rectal swab for Group B Strep Streptococcus culture completed between 35 and 37 weeks of gestation;
    - d. At least one ultrasound and recommended follow-up testing to determine placental location and risk for placenta previa and placenta accrete; and
    - e. An ultrasound at 36-37 weeks gestation to confirm fetal presentation and estimated fetal weight for a breech pregnancy;
  3. As of October 1, 2013, except as provided in R9-16-110, ensure that the tests in subsection (I)(1) are completed by the client within 28 weeks gestation;
  4. As of October 1, 2013, except as provided in R9-16-110, ensure that the tests in subsection (I)(2) are completed by the client;
  5. Conduct a prenatal visit at least once every 4 weeks until the beginning of 28 weeks of gestation, once every 2 weeks from the beginning of 28 weeks until the end of 36 weeks of gestation, and once a week after 36 weeks of gestation that includes:
    - a. Taking the client's weight, urinalysis for protein, nitrites, glucose and ketones; blood pressure; and assessment of the lower extremities for swelling;
    - b. Measurement of the fundal height and listening for fetal heart tones and, later in the pregnancy, feeling the abdomen to determine the position of the fetus;
    - c. Documentation of fetal movement beginning at 28 weeks of gestation;
    - d. Document of:
      - i. The occurrence of bleeding or invasive uterine procedures, and
      - ii. Any medications taken during the pregnancy that are specific to the needs of an Rh negative client;
    - e. Referral of a client for lab tests or other assessments, if applicable, based upon examination or history; and
    - f. Recommendation of administration of the drug RhoGam to unsensitized Rh negative mothers after 28 weeks, or any time bleeding or invasive uterine procedures are done, or midwife administration of RhoGam under a physician's written orders;
  6. Monitor fetal heart tones with fetoscope and document the client's report of first quickening, between 18 and 20 weeks of gestation;
  7. Conduct weekly visits until signs of first quickening have occurred if first quickening has not been reported by 20 weeks of gestation;
  8. Initiate a consultation if first quickening has not occurred by the end of 22 weeks of gestation; and
  9. Conduct a prenatal visit of the birthing location before the end of 35 weeks of gestation to ensure that the birthing environment is appropriate for birth and that communication is available to the hospital and emergency medical services provider identified in subsection (D)(1).
- J. During the intrapartum period, a midwife shall:**
1. Determine if the client is in labor and the appropriate course of action to be taken by:
    - a. Assessing the interval, duration, intensity, location, and pattern of the contractions;
    - b. Determining the condition of the membranes, whether intact or ruptured, and the amount and color of fluid;
    - c. Reviewing with the client the need for an adequate fluid intake, relaxation, activity, and emergency management; and
    - d. Deciding whether to go to client's home, remain in telephone contact, or arrange for transfer of care or consultation;
  2. Contact the hospital identified in subsection (D)(1)(a) according to the policies and procedures established by the hospital regarding communication with midwives when the client begins labor and ends labor;
  3. During labor, assess the condition of the client and fetus upon initial contact, every half hour in active labor until completely dilated, and every 15 to 20 minutes during pushing, following rupture of the amniotic bag, or until the newborn is delivered, including:
    - a. Initial physical assessment and checking of vital signs every 2 to 4 hours of the client;
    - b. Assessing fetal heart tones every 30 minutes in active first stage labor, and every 15 minutes during second stage, following rupture of the amniotic bag, or with any significant change in labor patterns;
    - c. Periodically assessing contractions, fetal presentation, dilation, effacement, and fetal position by vaginal examination;
    - d. Maintaining proper fluid balance for the client throughout labor as determined by urinary output and monitoring urine for presence of ketones; and
    - e. Assisting in support and comfort measures to the client and family;
  4. For deliveries described in subsection (B), during labor determine:
    - a. For primiparas, the progress of active labor by monitoring whether dilation occurs at an average of 1 centimeter per hour until completely dilated, and a second stage does not exceed 2 hours, if applicable;
    - b. Normal progress of active labor for multigravidas by monitoring whether dilation occurs at an average of 1.5 to 2 centimeters per hour until completely dilated, and a second stage does not exceed 1 hour, if applicable; or
    - c. The progress of active labor according to the Management Guidelines recommended by the American Congress of Obstetricians and Gynecologists;
  5. After delivery of the newborn:
    - a. Assess the newborn at 1 minute and 5 minutes to determine the Apgar scores;
    - b. Physically assess the newborn for any abnormalities;
    - c. Inspect the client's perineum, vagina, and cervix for lacerations;
    - d. Deliver the placenta within 1 hour and assess the client for signs of separation, frank or occult bleeding; and
    - e. Examine the placenta for intactness and to determine the number of umbilical cord vessels; and
  6. Recognize and respond to any situation requiring immediate intervention.

## CHAPTER 16. DEPARTMENT OF HEALTH SERVICES - OCCUPATIONAL LICENSING

**K.** During the postpartum period, the midwife shall:

1. During the 2 hours after delivery of the placenta, provide the following care to the client:
  - a. Every 15 to 20 minutes for the first hour and every 30 minutes for the second hour:
    - i. Take vital signs of the client,
    - ii. Perform external massage of the uterus, and
    - iii. Evaluate bleeding;
  - b. Assist the client to urinate within 2 hours following the birth, if applicable;
  - c. Evaluate the perineum, vagina, and cervix for tears, bleeding, or blood clots;
  - d. Assist with maternal newborn and infant bonding;
  - e. Assist with initial breast feeding, instructing the client in the care of the breast, and reviewing potential danger signs, if appropriate;
  - f. Provide instruction to the family about adequate fluid and nutritional intake, rest, and the types of exercise allowed, normal and abnormal bleeding, bladder and bowel function, appropriate baby care, signs and symptoms of postpartum depression, and any symptoms that may pose a threat to the health or life of the client or the client's newborn and appropriate emergency phone numbers;
  - g. Recommend or administer under physician's written orders, the drug RhoGam to an unsensitized Rh-negative mother who delivers an Rh-positive newborn. Administration shall occur not later than 72 hours after birth; and
  - h. Document any medications taken by the client in the client's record to an unsensitized Rh-negative client who delivers an Rh-positive newborn;
2. During the 2 hours after delivery of the placenta, provide the following care to the newborn:
  - a. Perform a newborn physical exam to determine the newborn's gestational age and any abnormalities;
  - b. Comply with the requirements in A.A.C. R9-6-332;
  - c. Recommend or administer Vitamin K under physician's written orders to the newborn. Administration shall occur not later than 72 hours after birth; and
  - d. Document the administration of any medications or vitamins to the newborn in the newborn's record according to the physician's written orders;
3. Evaluate the client or newborn for any abnormal or emergency situation and seek consultation or intervention, if applicable, according to these rules; and
4. Re-evaluate the condition of the client and newborn between 24 and 72 hours after delivery to determine whether the recovery is following a normal course, including:
  - a. Assessing baseline indicators such as the client's vital signs, bowel and bladder function, bleeding, breasts, feeding of the newborn, sleep/rest cycle, activity with any recommendations for change;
  - b. Assessing baseline indicators of well-being in the newborn such as vital signs, weight, cry, suck and feeding, fontanel, sleeping, and bowel and bladder function with documentation of meconium, and providing any recommendations for changes made to the family;
  - c. Submitting blood obtained from a heel stick to the newborn to the state laboratory for screening according to A.R.S. § 36-694(B) and 9 A.A.C. 13, Article 2, unless a written refusal is obtained from the client and documented in the client's record and the newborn's record; and

- d. Recommending to the client that the client secure medical follow-up for her newborn.

- L.** A midwife shall file a birth certificate with the local registrar within seven calendar days after the birth of the newborn.
- M.** Subsections (B), (C)(1)(b), (C)(1)(d) and (J)(2) and (4) are effective July 1, 2014.

**Historical Note**

Adopted effective March 14, 1994 (Supp. 94-1). R9-16-108 renumbered to R9-16-111; new Section R9-16-108 renumbered from R9-16-106 and amended by exempt rulemaking at 19 A.A.R. 1805, effective July 1, 2013 (Supp. 13-2).

**R9-16-109. Informed Consent for Midwifery Services**

- A.** A midwife shall obtain a written informed consent for midwifery services in a format provided by the Department that contains:

**R9-16-214. Time-frames**

- A. For each type of license issued by the Department under this Article, Table 2.1 specifies the overall time-frame described in A.R.S. § 41-1072(2).
  1. An applicant and the Department may agree in writing to extend the substantive review time-frame and the overall time-frame.
  2. The extension of the substantive review time-frame and the overall time-frame may not exceed 25% of the overall time-frame.
- B. For each type of license issued by the Department under this Article, Table 2.1 specifies the administrative completeness review time-frame described in A.R.S. § 41-1072(1).
  1. The administrative completeness review time-frame begins the date the Department receives an application required in this Article.
  2. Except as provided in subsection (B)(3), the Department shall provide a written notice of administrative completeness or a notice of deficiencies to an applicant within the administrative completeness review time-frame.
    - a. If a license application is not complete, the notice of deficiencies listing each deficiency and the information or documentation needed to complete the application.
    - b. A notice of deficiencies suspends the administrative completeness review time-frame and the overall time-frame from the date of the notice until the date the Department receives the missing information or documentation.
    - c. If the applicant does not submit to the Department all the information or documentation listed in the notice of deficiencies within 30 calendar days after the date of the notice of deficiencies, the Department shall consider the application withdrawn.
  3. If the Department issues a license during the administrative completeness review time-frame, the Department shall not issue a separate written notice of administrative completeness.
- C. For each type of license issued by the Department under this Article, Table 2.1 specifies the substantive review time-frame described in A.R.S. § 41-1072(3), which begins on the date the Department sends a written notice of administrative completeness.
  1. Within the substantive review time-frame, the Department shall provide a written notice to the applicant that the Department approved or denied.
  2. During the substantive review time-frame:
    - a. The Department may make one comprehensive written request for additional information or documentation; and
    - b. If the Department and the applicant agree in writing, the Department may make supplemental requests for additional information or documentation.
  3. A comprehensive written request or a supplemental request for additional information or documentation sus-

pend the substantive review time-frame and the overall time-frame from the date of the request until the date the Department receives all the information or documentation requested.

4. If the applicant does not submit to the Department all the information or documentation listed in a comprehensive written request or supplemental request for additional information or documentation within 30 calendar days after the date of the request, the Department shall deny the license or approval.

**D.** The Department shall issue a regular license or a temporary license:

1. Within five calendar days after receiving the license fee, and
2. From the date of issue, the license is valid for:
  - a. Two years, if a regular license, and
  - b. Twelve months, if a temporary license.

- E.** An applicant who is denied a license may appeal the denial according to A.R.S. Title 41, Chapter 6, Article 10.

    - h. Except for a registered environmental health sanitarian in R9-16-404(A), for each continuing education course completed during the previous 12 months, the following:
      - i. The course title,
      - ii. A course description,
      - iii. The name of the individual providing the continuing education course,
      - iv. The date the continuing education course was completed, and
      - v. The total number of continuing education hours attended;
    - i. Whether the applicant has been a registered environmental health sanitarian for less than 12 months according to R9-16-404(A)(1);
    - j. An attestation that:
      - i. The applicant affirms that the continuing education courses specified according to subsection (h) are applicable and consistent with the Department's approved continuing education courses or with the practice of a registered environmental sanitarian described in R9-16-402(C);

## CHAPTER 16. DEPARTMENT OF HEALTH SERVICES - OCCUPATIONAL LICENSING

- ii. The applicant authorizes the Department to verify all information provided in the renewal application packet; and
    - iii. The information submitted as part of the renewal application packet is true and accurate; and
    - k. The applicant's signature and date of signature;
  - 2. If applicable, a copy of the approved request to defer continuing education, and
  - 3. The \$10 renewal application fee.
  - E. If a registered environmental health sanitarian does not submit a renewal application packet in subsection (D) by February 15:
    - 1. The registered environmental health sanitarian's registration expires on February 16; and
    - 2. Before practicing as a registered environmental health sanitarian, a registered environmental health sanitarian whose environmental health sanitarian registration expired shall submit a new application packet according to R9-16-405.
  - F. The Department shall review the renewal application packet for approval of registration as an environmental health sanitarian according to R9-16-407 and Table 4.1.
- Historical Note**
- Adopted effective September 29, 1976 (Supp. 76-4). Section repealed; new Section made by final rulemaking at 8 A.A.R. 2444, effective May 16, 2002 (Supp. 02-2). Former R9-16-406 renumbered to R9-16-408; new R9-16-406 renumbered from R9-16-404 by final rulemaking at 10 A.A.R. 3004, effective September 11, 2004 (Supp. 04-3). Amended by final rulemaking at 23 A.A.R. 3038, effective October 5, 2017 (Supp. 17-4).
- R9-16-407. Time-frames**
- A. The overall time-frame begins, for:
    - 1. A sanitarian examination approval, on the date the Department receives an application packet in R9-16-405;
    - 2. An environmental health sanitarian registration approval, on the date the Department receives an official notice for an applicant's sanitarian examination test result administered by:
      - a. A testing organization described in R9-16-405(B)(1)(i) or (G), or
      - b. A testing organization or jurisdiction that administered the sanitarian examination required by another state or jurisdiction described in R9-16-405(B)(1)(h);
    - 3. A continuing education deferral approval, on the date the Department receives the continuing education deferral request in R9-16-404; and
    - 4. A renewal registration approval, on the date the Department receives a renewal application packet in R9-16-406.
  - B. The applicant and the Department may agree in writing to extend the substantive review time-frame and the overall time-frame. The substantive review time-frame and the overall time-frame may not be extended by more than 25% of the overall time-frame.
  - C. Within the administrative completeness review time-frame in Table 4.1, the Department shall:
    - 1. Provide a notice of administrative completeness to an applicant; or
    - 2. Provide a notice of deficiencies to an applicant, including a list of the missing information or documents.
  - D. If the Department provides a notice of deficiencies to an applicant:
    - 1. The administrative completeness review time-frame and the overall time-frame are suspended after the date of the notice of deficiencies until the date the Department receives the missing information or documents from the applicant;
  - 2. If the applicant submits the missing information or documents to the Department within the time-frame in Table 4.1, the substantive review time-frame resumes on the date the Department receives the missing information or documents; and
  - 3. If the applicant does not submit the missing information or documents to the Department within the time-frame in Table 4.1, the Department shall consider the application or the request withdrawn.
  - E. If the Department issues a registration or notice of approval during the administrative completeness review time-frame, the Department may not issue a separate written notice of administrative completeness.
  - F. Within the substantive review time-frame specified in Table 4.1, the Department:
    - 1. Shall approve an:
      - a. Applicant's request for registration as an environmental health sanitarian or

**Historical Note**

New Table 1 made by final rulemaking at 15 A.A.R. 2132, effective January 30, 2010 (Supp. 09-4). Table 1 renumbered to Table 5.1 by exempt rulemaking at 20 A.A.R. 1998, effective July 1, 2014 (Supp. 14-2).

**R9-16-506. Time-frames**

- A.** For each type of license issued by the Department under this Article, Table 5.1 specifies the overall time-frame described in A.R.S. § 41-1072(2).
1. An applicant or licensee and the Department may agree in writing to extend the substantive review time-frame and the overall time-frame.
  2. The extension of the substantive review time-frame and the overall time-frame may not exceed 25% of the overall time-frame.
- B.** For each type of license issued by the Department under this Article, Table 5.1 specifies the administrative completeness review time-frame described in A.R.S. § 41-1072(1).
1. The administrative completeness review time-frame begins on the date the Department receives an application and required documentation required in this Article.
  2. Except as provided in subsection (B)(3), the Department shall provide a written notice of administrative completeness or a notice of deficiencies to an applicant within the administrative completeness review time-frame.
    - a. If an application or required documentation is not complete, the notice of deficiencies shall list each deficiency and the information or documentation needed to complete the application.
    - b. A notice of deficiencies suspends the administrative completeness review time-frame and the overall time-frame from the date of the notice until the date the Department receives the missing documents or information.
    - c. If the applicant does not submit to the Department all or documentation listed in the notice of deficiencies within 30 calendar days after the date of the notice of deficiencies, the Department shall consider the application withdrawn.
  3. If the Department issues a license during the administrative completeness review time-frame, the Department

shall not issue a separate written notice of administrative completeness.

- C.** For each type of license issued by the Department under this Article, Table 5.1 specifies the substantive review time-frame described in A.R.S. § 41-1072(3), which begins on the date of the notice of administrative completeness.
1. Within the substantive review time-frame, the Department shall provide a written notice to the applicant that the Department issued or denied the license.
  2. During the substantive review time-frame:
    - a. The Department may make one comprehensive written request for additional information or documentation; and
    - b. If the Department and the applicant agree in writing, the Department may make supplemental requests for additional information or documentation.
  3. A comprehensive written request or a supplemental request for additional information or documentation suspends the substantive review time-frame and the overall time-frame from the date of the request until the date the Department receives all the documents and information requested.
  4. If the applicant does not submit to the Department all the information or documentation listed in a comprehensive written request or supplemental request for additional information or documentation within 30 calendar days after the date of the request, the Department shall deny the license.
- D.** An applicant who is denied a license may appeal the denial according to A.R.S. Title 41, Chapter 6, Article 10.

**ARTICLE 6. RADIATION TECHNOLOGISTS****R9-16-601. Definitions**

In addition to the definitions in A.R.S. § 32-2801, the following definitions apply in this Article unless otherwise specified:

1. "Applicant" means:
  - a. An individual who submits an application packet, or
  - b. A person who submits a request for approval of a radiation technologist training program.
2. "Application packet" means the information, documents, and fees required by the Department for a certificate or permit.
3. "ARRT" means the American Registry of Radiologic Technologists.
4. "Authorized user" means the same as in A.A.C. R9-7-102.
5. "Calendar day" means each day, not including the day of the act, event, or default, from which a designated period of time begins to run, but including the last day of the period unless it is a Saturday, Sunday, statewide furlough day, or legal holiday, in which case the period runs until

the end of the next day that is not a Saturday, Sunday, statewide furlough day, or legal holiday.

6. "CBRPA" means the Certification Board for Radiology Practitioner Assistants.
7. "Certification" means the issuing of a certificate.
8. "Chest radiography" means radiography performed to visualize the heart and lungs only.
9. "Continuing education" means a course or learning activity that provides instruction and training designed to develop or improve the professional competence of a certificate holder related to the certificate holder's scope of practice.
10. "Contrast media" means material intentionally administered to a human body to define a part or parts of the human body that are not normally radiographically visible.
11. "Department-approved educational program" means a curriculum of courses and learning activities that is accredited by a nationally recognized accreditation body or granted approval through the Department.
12. "Department-approved examination" means a test administered through ARRT, NMTCB, ISCD, or CBRPA.
13. "Extremity" means the same as in A.A.C. R9-7-102.
14. "Fluoroscopy" means the use of radiography to directly visualize internal structures of the human body, the motion of internal structures, and fluids in real time, or near real-time, to aid in the treatment or diagnosis of disease or the performance of other medical procedures.
15. "ISCD" means the International Society for Clinical Densitometry.
16. "Nationally recognized accreditation body" means ARRT, NMTCB, ISCD, or CBRPA.
17. "NMTCB" means the Nuclear Medicine Technology Certification Board.
18. "Radiograph" means the record of an image, representing anatomical details of a part of a human body examined through the use of ionizing radiation, formed by the differential absorption of ionizing radiation within the part of the human body.
19. "Radiography" means the use of ionizing radiation in making radiographs.
20. "Radiopharmaceutical agent" means a radionuclide or radionuclide compound designed and prepared for administration to human beings.

**Historical Note**

New Section made by final expedited rulemaking at 25 A.A.R. 2409, effective August 27, 2019 (Supp. 19-3).

**R9-16-602. Training Programs**

- A. The Department shall maintain a list of Department-approved educational programs according to A.R.S. § 32-2804 on the Department's website at <https://www.azdhs.gov/licensing/special/index.php#mrt-provider-info>.
- B. An applicant may request Department approval of a curriculum of courses and learning activities as a training program by submitting an application packet that contains:
  1. An application, in a Department-provided format, that includes:
    - a. The name and address of the school providing the training program;
    - b. The name, title, telephone number, and e-mail address of the administrator or designee of the school; and
    - c. A list of each training program for which approval is being requested, including the number of hours of instruction provided for each;

## CHAPTER 16. DEPARTMENT OF HEALTH SERVICES - OCCUPATIONAL LICENSING

2. A copy of the curriculum that includes course titles and course descriptions; and
  3. A list of instructors providing the instruction and the credentials of each.
- C. The Department shall:
1. Review each application packet according to R9-16-621; and
  2. If approved, add the applicant's school to the list of Department-approved educational programs in subsection (A).
- D. If an applicant for certification or permit did not complete a Department-approved educational program, the applicant may submit to the Department a copy of the curriculum for the training program completed by the applicant with the applicant's application packet in R9-16-606(B), R9-16-607(A), or R9-16-609(A).

**R9-16-603. Practical Technologist in Radiology - Eligibility and Scope of Practice**

- A. An individual is eligible for certification as a practical technologist in radiology if the individual:
1. Is at least 18 years of age; and
  2. Either:
    - a. Has completed a training program in radiologic technology through a Department-approved educational program and achieved a score of at least 67% on a Department-approved examination; or
    - b. Meets the criteria in A.R.S. § 32-4302(A).
- B. An individual certified as a practical technologist in radiology shall:
1. Follow the standards specified in the 2017 American Society of Radiologic Technologists Limited X-Ray Machine Operator Practice Standards available at [https://www.asrt.org/docs/default-source/practice-standards-published/ps\\_lxmo.pdf?sfvrsn=29e176d0\\_16](https://www.asrt.org/docs/default-source/practice-standards-published/ps_lxmo.pdf?sfvrsn=29e176d0_16), incorporated by reference, on file with the Department, and including no future editions or amendments;
  2. Perform only:
    - a. Chest radiography; and
    - b. Radiography of the extremities; and
  3. Not use fluoroscopy or contrast media.

**Historical Note**

New Section made by final expedited rulemaking at 25 A.A.R. 2409, effective August 27, 2019 (Supp. 19-3).

**R9-16-604. Practical Technologist in Podiatry - Eligibility and Scope of Practice**

- A. An individual is eligible for certification as a practical technologist in podiatry if the individual:
1. Is at least 18 years of age; and
  2. Either:
    - a. Has:
      - i. Completed a training program in podiatry radiology through a Department-approved educational program;
      - ii. Received a signed and dated attestation from a podiatrist licensed according to A.R.S. Title 32, Chapter 7, verifying that the applicant:
        - (1) Completed training under the direction of the licensed podiatrist; and
        - (2) Is proficient in independently taking radiographs; and

- iii. Achieved a score of at least 70% on a Department-approved examination; or
- b. Meets the criteria in A.R.S. § 32-4302(A).

- B. An individual certified as a practical technologist in podiatry shall:

1. Follow the standards specified in the 2017 American Society of Radiologic Technologists Limited X-Ray Machine Operator Practice Standards, available at [https://www.asrt.org/docs/default-source/practice-standards-published/ps\\_lxmo.pdf?sfvrsn=29e176d0\\_16](https://www.asrt.org/docs/default-source/practice-standards-published/ps_lxmo.pdf?sfvrsn=29e176d0_16), incorporated by reference, on file with the Department, and including no future editions or amendments; and
2. Only perform radiographic examinations of the lower leg, ankle, and foot, without the use of fluoroscopy or contrast media.

**Historical Note**

New Section made by final expedited rulemaking at 25 A.A.R. 2409, effective August 27, 2019 (Supp. 19-3).

**R9-16-605. Practical Technologist in Bone Densitometry - Eligibility and Scope of Practice**

- A. An individual is eligible for certification as a practical technologist in bone densitometry if the individual:
1. Is at least 18 years of age; and
  2. Either:
    - a. Has completed a training program in bone densitometry through a Department-approved educational program and achieved a score of at least 70% on a Department-approved examination; or
    - b. Meets the criteria in A.R.S. § 32-4302(A).
- B. An individual certified as a practical technologist in bone densitometry shall:
1. Follow the standards specified in the 2017 American Society of Radiologic Technologists Bone Densitometry Practice Standards, available at [https://www.asrt.org/docs/default-source/practice-standards-published/ps\\_bd.pdf?sfvrsn=11e176d0\\_22](https://www.asrt.org/docs/default-source/practice-standards-published/ps_bd.pdf?sfvrsn=11e176d0_22), incorporated by reference, on file with the Department, and including no future editions or amendments; and
  2. Apply ionizing radiation only to a person's hips, spine, and extremities through the use of a bone density machine without the use of fluoroscopy or contrast media.

**Historical Note**

New Section made by final expedited rulemaking at 25 A.A.R. 2409, effective August 27, 2019 (Supp. 19-3).

**R9-16-606. Application for Examination**

- A. An individual may apply for examination if the individual meets eligibility criteria for a:
1. Practical technologist in radiology listed in R9-16-603(A);
  2. Practical technologist in podiatry listed in R9-16-604(A); or
  3. Practical technologist in bone densitometry listed in R9-16-605(A).
- B. An applicant for examination shall submit an application packet to the Department that includes:
1. The information and documents required in R9-16-619;
  2. Except as provided in R9-16-602(D), documentation of completion of a Department-approved educational program; and
  3. For an applicant for examination as a practical technologist in podiatry, the attestation specified in R9-16-604(A)(2)(a)(ii).

## CHAPTER 16. DEPARTMENT OF HEALTH SERVICES - OCCUPATIONAL LICENSING

- C. The Department shall approve or deny an individual's application for examination according to R9-16-621.
  - D. If the Department determines that the application packet submitted under subsection (B) is complete and in compliance, the Department shall notify the applicant that the applicant is approved to test.
  - E. Upon notification by the Department according to subsection (D), and applicant:
    - 1. Shall arrange testing through AART, and
    - 2. Has six months to complete testing before the applicant is required to re-apply for examination.
- another state or country related to unprofessional conduct; and
- 4. The applicable fee in R9-16-623.
  - C. The Department shall approve or deny an individual's application for initial certification according to R9-16-621.

**R9-16-607. Application for Initial Certification as a Practical Technologist in Radiology, Practical Technologist in Podiatry, or Practical Technologist in Bone Densitometry**

- A. Except as provided in subsection (B), an applicant for initial certification as a practical technologist in radiology, practical technologist in podiatry, or practical technologist in bone densitometry shall submit an application packet to the Department that includes:
  - 1. The information and documents required in R9-16-619;
  - 2. Except as provided in R9-16-602(D), documentation of completion of a Department-approved educational program;
  - 3. Documentation of achieving the applicable minimum score on a Department-approved examination;
  - 4. For an application for a practical technologist in podiatry, the signed attestation in R9-16-604(A)(2)(a)(ii) containing:
    - a. The name and date of birth of the applicant,
    - b. The name and license number of the licensed podiatrist,
    - c. A statement by the licensed podiatrist verifying completion of the applicant's clinical training and approval of radiographic images taken by the applicant, and
    - d. The licensed podiatrist's signature and date; and
  - 5. The applicable fee in R9-16-623.
- B. If an applicant for initial certification as a practical technologist in radiology, practical technologist in podiatry, or practical technologist in bone densitometry may be eligible for certification under A.R.S. § 32-4302(A), the applicant shall submit an application packet to the Department that includes:
  - 1. The information and documentation required in R9-16-619;
  - 2. Documentation of the professional license or certification issued to the applicant by each state in which the applicant holds a professional license or certification;
  - 3. A statement, signed and dated by the applicant, attesting that the applicant:
    - a. Has been licensed or certified in another state for at least one year, with a scope of practice consistent with the scope of practice for which certification is being requested;
    - b. Has met minimum education requirements and, if applicable, work experience and clinical supervision requirements, according to A.R.S. § 32-4302(A)(3);
    - c. Has not voluntarily surrendered a license or certification in any other state or country while under investigation for unprofessional conduct; and
    - d. Does not have a complaint, allegation, or investigation pending before another regulatory entity in

**R9-16-608. Radiologic Technologist, Nuclear Medicine Technologist, and Radiation Therapy Technologist - Eligibility and Scope of Practice**

- A. An individual is eligible to apply for initial certification as a radiologic technologist, nuclear medicine technologist, or radiation therapy technologist if the individual:
  - 1. Is at least 18 years of age; and
  - 2. Satisfies one of the following:
    - a. Holds current applicable ARRT or NMTCB certification,
    - b. Has completed a Department-approved educational program in radiation technology and has a passing score on a Department-approved examination, or
    - c. Meets the criteria in A.R.S. § 32-4302(A).
- B. An individual certified as a radiologic technologist shall follow the standards specified in the 2017 American Society of Radiologic Technologists Radiography Practice Standards, available at [https://www.asrt.org/docs/default-source/practice-standards-published/ps\\_rad.pdf?sfvrsn=13e176d0\\_18](https://www.asrt.org/docs/default-source/practice-standards-published/ps_rad.pdf?sfvrsn=13e176d0_18), incorporated by reference, on file with the Department, and including no future editions or amendments.
- C. An individual certified as a nuclear medicine technologist shall:
  - 1. Follow the standards specified in the 2017 American Society of Radiologic Technologists Nuclear Medicine Practice Standards, available at [https://www.asrt.org/docs/default-source/practice-standards-published/ps\\_nm.pdf?sfvrsn=1ee176d0\\_14](https://www.asrt.org/docs/default-source/practice-standards-published/ps_nm.pdf?sfvrsn=1ee176d0_14), incorporated by reference, on file with the Department, and including no future editions or amendments; and
  - 2. Use radiopharmaceutical agents on humans for diagnostic or therapeutic purposes only.
- D. An individual certified as a radiation therapy technologist shall follow the standards specified in the 2017 American Society of Radiologic Technologists Radiation Therapy Practice Standards, available at [https://www.asrt.org/docs/default-source/practice-standards-published/ps\\_rt.pdf?sfvrsn=18e076d0\\_16](https://www.asrt.org/docs/default-source/practice-standards-published/ps_rt.pdf?sfvrsn=18e076d0_16), incorporated by reference, on file with the Department, and including no future editions or amendments.

**R9-16-616. Radiologist Assistant - Eligibility and Scope of Practice**

- A. An individual is eligible to apply for initial certification as a radiologist assistant if the individual:
1. Is at least 18 years of age; and
  2. Satisfies one of the following:
    - a. Holds a current ARRT or CBRPA certification as a radiologist assistant;
    - b. Has:
      - i. Completed a baccalaureate degree or post-baccalaureate certificate from an accredited educational institution that encompasses a radiologist assistant curriculum that includes a radiologist-directed clinical preceptorship, and
      - ii. Achieved a passing score on an ARRT or a CBRPA examination for radiologist assistants; or
    - c. Meets the criteria in A.R.S. § 32-4302(A).
- B. An individual certified as a radiologist assistant:
1. Shall follow the standards specified the 2017 American Society of Radiologic Technologists Radiologist Assistant Practice Standards, available at [https://www.asrt.org/docs/default-source/practice-standards-published/ps\\_raa.pdf?sfvrsn=1ae076d0\\_16](https://www.asrt.org/docs/default-source/practice-standards-published/ps_raa.pdf?sfvrsn=1ae076d0_16), incorporated by reference on file with the Department, and including no future editions or amendments; and
  2. May perform the following procedures under the direction of a radiologist, licensed under A.R.S. Title 32, Chapter 13 or 17 and certified in radiology by the American Board of Radiology:
    - a. Fluoroscopy;
    - b. Assessment and evaluation of the physiological and psychological responsiveness of individuals undergoing radiologic procedures;

- c. Evaluation of image quality, making initial image observations and communicating observations to the supervising radiologist; and
- d. Administration of contrast media or other medications prescribed by the supervising radiologist.

- C. A radiologist assistant shall not interpret images, make diagnoses, or prescribe medications or therapies.

**Historical Note**

New Section made by final expedited rulemaking at 25 A.A.R. 2409, effective August 27, 2019 (Supp. 19-3).

**R9-16-617. Application for Initial Certification as a Radiologist Assistant**

- A. Except as provided in subsection (B), an applicant for initial certification as a radiologist assistant shall submit an application packet to the Department that includes:
1. The information and documents required in R9-16-619;
  2. Either:
    - a. The applicant's current ARRT or CBRPA certification as a radiologist assistant; or

**R9-16-620. Renewal of Certification**

- A.** Certifications issued under R9-16-607, R9-16-609, R9-16-612, R9-16-615, and R9-16-617 are valid for two years after issuance, unless revoked.
- B.** A certificate holder may apply to renew a certification:
  1. Within 90 days before the expiration date of the certificate holder's current certification;
  2. Within the 30-day period after the expiration date of the certificate holder's certification, if the certificate holder pays the late renewal penalty fee in R9-16-623; or
  3. Within the extension time period granted under A.R.S. § 32-4301.
- C.** An applicant for renewal of a certification shall submit to the Department an application packet, including:
  1. The following in a Department-provided format:
    - a. The applicant's name, address, telephone number, email address, date of birth, and Social Security number;
    - b. The applicant's current certification number and type;
    - c. The applicant's current employment in the radiation technology field, if applicable, including:
      - i. The employer's name,
      - ii. The applicant's position,
      - iii. Dates of employment,
      - iv. The address of the employer,
      - v. The supervisor's name,

## CHAPTER 16. DEPARTMENT OF HEALTH SERVICES - OCCUPATIONAL LICENSING

- vi. The supervisor's email address, and
- vii. The supervisor's telephone number;
- d. Whether the applicant has, within the two years before the date of the application, had:
  - i. A certificate issued under this Article suspended or revoked; or
  - ii. A professional license or certificate revoked by another state, jurisdiction, or nationally recognized accreditation body;
- e. Whether the applicant agrees to allow the Department to submit supplemental requests for information under R9-16-621;
- f. Attestation that all the information submitted as part of the application packet is true and accurate; and
- g. The applicant's signature and date of signature;
- 2. Either:
  - a. An attestation that the applicant completed continuing education required under A.R.S. § 32-2815(D) and that documentation of completion is available upon request, signed and dated by the applicant; or
  - b. A copy of the applicant's current certification from a nationally recognized accreditation body; and
- 3. The applicable renewal fee and, if applicable, the late renewal penalty fee required in R9-16-623.
- D. The Department shall approve or deny an application for recertification according to R9-16-621.

**Historical Note**

New Section made by final expedited rulemaking at 25 A.A.R. 2409, effective August 27, 2019 (Supp. 19-3).

**R9-16-621. Review Time-frames**

- A. For each type of certificate or permit issued by the Department under this Article, Table 6.1 specifies the overall time-frame described in A.R.S. § 41-1072(2).
  - 1. An applicant and the Department may agree in writing to extend the substantive review time-frame and the overall time-frame.
  - 2. The extension of the substantive review time-frame and overall time-frame may not exceed 25% of the overall time-frame.
- B. For each type of certificate or permit issued by the Department under this Article, Table 6.1 specifies the administrative completeness review time-frame described in A.R.S. § 41-1072(1).
  - 1. The administrative completeness review time-frame begins on the date the Department receives an application packet required in this Article.
  - 2. Except as provided in subsection (B)(3), the Department shall provide written notice of administrative completeness or a notice of deficiencies to an applicant within the administrative completeness review time-frame.
- C. For each type of certificate or permit issued by the Department under this Article, Table 6.1 specifies the substantive review time-frame described in A.R.S. § 41-1072(3), which begins on the date the Department sends a written notice of administrative completeness.
  - 1. Within the substantive review time-frame, the Department shall provide written notice to the applicant that the Department approved or denied the application.
  - 2. During the substantive review time-frame:
    - a. The Department may make one comprehensive written request for additional information or documentation; and
    - b. If the Department and the applicant agree in writing, the Department may make supplemental requests for additional information or documentation.
  - 3. A comprehensive written request or a supplemental request for additional information or documentation suspends the substantive review time-frame and the overall time-frame from the date of the request until the date the Department receives all the information or documentation requested.
  - 4. If the applicant does not submit to the Department all the information or documentation listed in a comprehensive written request or supplemental request for additional information or documentation within 30 calendar days after the date of the request, the Department shall deny the certificate or permit.
- D. An applicant who is denied a certificate or permit may appeal the denial according to A.R.S. Title 41, Chapter 6, Article 10.

**Historical Note**

New Section made by final expedited rulemaking at 25 A.A.R. 2409, effective August 27, 2019 (Supp. 19-3).

**R9-16-622. Changes Affecting a Certificate or Certificate Holder; Request for a Duplicate Certificate**

- A.** A certificate holder shall notify the Department in writing, within 30 calendar days after the effective date of a change in:
1. The certificate holder's residential address, mailing address, or e-mail address, including the new residential address, mailing address, or e-mail address;
  2. The certificate holder's name, including a copy of the legal document establishing the certificate holder's new name; or
  3. The certificate holder's employer, including the name and address of the new employer.
- B.** A certificate holder may obtain a duplicate certificate by submitting to the Department:
1. A written request for a duplicate certificate, in a Department-provided format, that includes:
    - a. The certificate holder's name and address,
    - b. The certificate holder's certificate number and expiration date, and
    - c. The certificate holder's signature and date of signature; and
  2. The duplicate certificate fee in R9-16-623.
- C.** A certificate holder may submit to the Department, either as a separate written document or as part of the renewal application, a signed and dated request to transfer to inactive status or retirement status under A.R.S. § 32-2816(F).

**Historical Note**

New Section made by final expedited rulemaking at 25 A.A.R. 2409, effective August 27, 2019 (Supp. 19-3).

**R9-16-623. Fees**

- A.** Except as provided in subsection (C) or (D), an applicant shall submit to the Department the following nonrefundable fees for:
1. An initial application or renewal application for certification as a practical technologist in radiology, practical technologist in podiatry, or practical technologist in bone densitometry, \$100;
  2. An initial application or renewal application for certification as a radiation technologist, nuclear medicine technologist, or radiation therapy technologist, \$100;
  3. An initial application or renewal application for certification as a mammographic technologist, \$20;
  4. A computed tomography preceptorship certificate or computed tomography temporary certificate, \$10;
  5. An initial application or renewal application for certification as a computed tomography technologist, \$20;

6. An initial application or renewal application for certification as a radiologist assistant, \$100; and
7. A late renewal penalty fee according to A.R.S. § 32-2816(C), \$50.

- B.** The fee for a duplicate certificate is \$10.
- C.** An applicant for initial certification is not required to submit the applicable fee in subsection (A) if the applicant, as part of the applicable application packet in R9-16-607, R9-16-609, R9-16-612, R9-16-615, or R9-16-617, submits an attestation that the applicant meets the criteria for waiver of licensing fees in A.R.S. § 41-1080.01.
- D.** As allowed under A.R.S. § 32-2816(F), a certificate holder is not required to submit a fee for renewal of certification if the certificate holder submits to the Department an affidavit stating that the certificate holder:
1. Is retired from the practice of radiologic technology, or
  2. Requests to be placed on inactive status.

**Historical Note**

Section amended by final rulemaking at 26 A.A.R. 350, effective April 5, 2020 (Supp. 20-1).

**R9-16-624. Enforcement**

- A.** The Department may, as applicable:
1. Deny, revoke, or suspend a certificate or permit under A.R.S. § 36-2821;
  2. Request an injunction under A.R.S. § 36-2825; or
  3. Assess a civil money penalty under A.R.S. § 36-2821.
- B.** In determining which disciplinary action specified in subsection (A) is appropriate, the Department shall consider:
1. The type of violation,
  2. The severity of the violation,
  3. The danger to public health and safety,
  4. The number of violations,
  5. The number of individuals affected by the violations,
  6. The degree of harm to an individual,
  7. A pattern of noncompliance, and
  8. Any mitigating or aggravating circumstances.
- C.** A certificate holder or permittee may appeal a disciplinary action taken by the Department according to A.R.S. Title 41, Chapter 6, Article 10.

## TITLE 9. HEALTH SERVICES

## CHAPTER 17. DEPARTMENT OF HEALTH SERVICES - MEDICAL MARIJUANA PROGRAM

Authority: A.R.S. § 36-2803

*Editor's Note: This Chapter was adopted under a one-year exemption from the Arizona Administrative Procedure Act (A.R.S. Title 41, Chapter 6) pursuant to Proposition 203 passed by the voters in November 2010. Although exempt from certain provisions of the rulemaking process, Section 6 of the Proposition required the Department to provide the public with an opportunity to comment on these rules before publishing the exempted rules. The Department posted proposed rules for comment on its web site, conducted statewide public meetings and also posted public comments received on its web site. (Supp. 11-2).*

*Editor's Note: 9 A.A.C. 17, formerly contained the rules of the Department of Health Services - Pure Food Control. This Chapter expired under A.R.S. § 41-1056(E) at 13 A.A.R. 3531, effective August 31, 2007 (Supp. 07-3).*

## CHAPTER 17. DEPARTMENT OF HEALTH SERVICES - MEDICAL MARIJUANA PROGRAM

## ARTICLE 1. GENERAL

**R9-17-101. Definitions**

In addition to the definitions in A.R.S. § 36-2801, the following definitions apply in this Chapter unless otherwise stated:

1. "Accreditation" means being deemed as technically competent under ISO 17025 by the:
  - a. American Association of Laboratory Accreditation,
  - b. Perry Johnson Laboratory Accreditation,
  - c. ANSI National Accreditation Board, or
  - d. International Accreditation Services.
2. "Accuracy testing" means a mechanism in which a laboratory performs testing on samples with known characteristics, prepared by the laboratory, to determine a laboratory agent's ability to analyze samples within specific acceptance criteria.
3. "Acquire" means to obtain through any type of transaction and from any source.
4. "Activities of daily living" means ambulating, bathing, dressing, grooming, eating, toileting, and getting in and out of bed.
5. "Amend" means adding or deleting information on an individual's registry identification card that affects the individual's ability to perform or delegate a specific act or function.
6. "Analyte" means a specific substance for which testing is performed by a laboratory.
7. "Applicant" means:
  - a. An individual submitting an application for a registry identification card or to amend, change, or replace a registry identification card for a qualifying patient, designated caregiver, dispensary agent, or laboratory agent; or
  - b. An individual or entity submitting an application for a dispensary registration certificate, approval to operate a dispensary, laboratory registration certificate, approval to test, or approval to change parameters.
8. "Batch" means:
  - a. When referring to cultivated medical marijuana, a specific lot of medical marijuana grown from one or more seeds or cuttings that are planted and harvested at the same time;
  - b. When referring to marijuana products, a specific amount of a marijuana product infused, manufactured, or prepared for sale from the same set of ingredients at the same time; and
  - c. When referring to testing of medical marijuana or a marijuana product, a specific set of samples prepared and tested during the same run using the same equipment.
9. "Batch number" means a unique numeric or alphanumeric identifier assigned to a batch by a dispensary when:
  - a. The batch of medical marijuana is planted, or
  - b. The batch of a marijuana product is infused, manufactured, or prepared for sale.
10. "Calendar day" means each day, not including the day of the act, event, or default from which a designated period of time begins to run, but including the last day of the period unless it is a Saturday, Sunday, statewide furlough day, or legal holiday, in which case the period runs until the end of the next day that is not a Saturday, Sunday, statewide furlough day, or legal holiday.
11. "CHAA" means a Community Health Analysis Area, a geographic area based on population, established by the Department for use by public health programs.
12. "Change" means:
  - a. When used in relation to a registry identification card, adding or deleting information on an individual's registry identification card that does not substantively affect the individual's ability to perform or delegate a specific act or function;
  - b. When used in relation to a place, moving to a different location;
  - c. When used in relation to an individual, selecting a different individual to perform specific actions;
  - d. When used in relation to parameters, revising a laboratory's standard operating procedures or quality assurance plan, required in R9-17-404.06, due to:
    - i. Adding or removing a parameter,
    - ii. Altering a testing method, or
    - iii. Using a different instrument for performing a test; and
  - e. When used in relation to testing results, altering the testing results in any way and for any reason.
13. "Commercial device" means the same as in A.R.S. § 41-2051.
14. "Contaminant" means matter, pollutant, hazardous substance, or other substance that is not intended to be part of dispensed medical marijuana or a marijuana product.
15. "Cultivation site" means the one additional location where marijuana may be cultivated, infused, or prepared for sale by and for a dispensary.
16. "Current photograph" means an image of an individual, taken no more than 60 calendar days before the submission of the individual's application, in a Department-approved electronic format capable of producing an image that:
  - a. Has a resolution of at least 600 x 600 pixels but not more than 1200 x 1200 pixels;
  - b. Is 2 inches by 2 inches in size;
  - c. Is in natural color;
  - d. Is a front view of the individual's full face, without a hat or headgear that obscures the hair or hairline;
  - e. Has a plain white or off-white background; and
  - f. Has between 1 and 1 3/8 inches from the bottom of the chin to the top of the head.
17. "Denial" means the Department's final decision not to issue a registry identification card, a dispensary registration certificate, a laboratory registration certificate, or an approval of a change of dispensary or a dispensary's cultivation site location, to an applicant because the applicant or the application does not comply with the applicable requirements in A.R.S. Title 36, Chapter 28.1 or this Chapter.

**R9-17-106. Adding a Debilitating Medical Condition**

- A. An entity may request the addition of a medical condition to the list of debilitating medical conditions in R9-17-201 by submitting to the Department, at the times specified in subsection (C), the following in writing:
  - 1. The entity's name;
  - 2. The entity's mailing address, name of contact individual, telephone number, and, if applicable, e-mail address;
  - 3. The name of the medical condition the entity is requesting be added;
  - 4. A description of the symptoms and other physiological effects experienced by an individual suffering from the medical condition or a treatment of the medical condition that may impair the ability of the individual to accomplish activities of daily living;
  - 5. The availability of conventional medical treatments to provide therapeutic or palliative benefit for the medical condition or a treatment of the medical condition;
  - 6. A summary of the evidence that the use of marijuana will provide therapeutic or palliative benefit for the medical condition or a treatment of the medical condition; and
  - 7. Articles, published in peer-reviewed scientific journals, reporting the results of research on the effects of marijuana on the medical condition or a treatment of the medical condition supporting why the medical condition should be added.
- B. The Department shall:
  - 1. Acknowledge in writing the Department's receipt of a request for the addition of a medical condition to the list of debilitating medical conditions listed in R9-17-201 within 30 calendar days after receiving the request;
  - 2. Review the request to determine if the requester has provided evidence that:
    - a. The specified medical condition or treatment of the medical condition impairs the ability of the individual to accomplish activities of daily living, and
    - b. Marijuana usage provides a therapeutic or palliative benefit to an individual suffering from the medical condition or treatment of the medical condition;
  - 3. Within 90 calendar days after receiving the request, notify the requester that the Department has determined that the information provided by the requester:
    - a. Meets the requirements in subsection (B)(2) and the date the Department will conduct a public hearing to discuss the request; or
    - b. Does not meet the requirements in subsection (B)(2), the specific reason for the determination, and the process for requesting judicial review of the Department's determination pursuant to A.R.S. Title 12, Chapter 7, Article 6;
  - 4. If applicable:
    - a. Schedule a public hearing to discuss the request;
    - b. Provide public notice of the public hearing by submitting a Notice of Public Information to the Office of the Secretary of State, for publication in the *Arizona Administrative Register* at least 30 calendar days before the date of the public hearing;

## CHAPTER 17. DEPARTMENT OF HEALTH SERVICES - MEDICAL MARIJUANA PROGRAM

- c. Post a copy of the request on the Department's web site for public comment at least 30 calendar days before the date of the public hearing; and
    - d. Hold the public hearing no more than 150 calendar days after receiving the request; and
  - 5. Within 180 calendar days after receiving the request:
    - a. Add the medical condition to the list of debilitating medical conditions, or
    - b. Provide written notice to the requester of the Department's decision to deny the request that includes:
      - i. The specific reasons for the Department's decision; and
      - ii. The process for requesting judicial review of the Department's decision pursuant to A.R.S. Title 12, Chapter 7, Article 6.
  - C. The Department shall accept requests for the addition of a medical condition to the list of debilitating medical conditions in R9-17-201 in January and July of each calendar year starting in January 2012.
- Historical Note**
- New Section made by exempt rulemaking at 17 A.A.R. 734, effective April 14, 2011 (Supp. 11-2).
- R9-17-107. Time-frames**
- A. Within the administrative completeness review time-frame for each type of approval in Table 1.1, the Department shall:
    - 1. Issue a registry identification card, a dispensary registration certificate, an approval to operate a dispensary, a laboratory registration certificate, an approval for testing, or an approval to add a parameter;
    - 2. Provide a notice of administrative completeness to an applicant; or
    - 3. Provide a notice of deficiencies to an applicant, including a list of the information or documents needed to complete the application.
  - B. An application for approval to operate a dispensary is not complete until the date the applicant states on a written notice provided to the Department according to R9-17-305 that the dispensary is ready for an inspection by the Department.
  - C. A laboratory's application for approval for testing is not complete until the date the applicant states on a written notice provided to the Department according to R9-17-402.01 that the laboratory is ready for an inspection by the Department.
  - D. If the Department provides a notice of deficiencies to an applicant:
    - 1. The administrative completeness review time-frame and the overall time-frame are suspended from the date of the notice of deficiencies until the date the Department receives the missing information or documents from the applicant;
    - 2. The Department shall consider the application withdrawn if the applicant does not submit the missing information or documents to the Department within the time-frame in Table 1.1; and
    - 3. If the applicant submits the missing information or documents to the Department within the time-frame in Table 1.1, the substantive review time-frame begins on the date the Department receives the missing information or documents.
  - E. Within the substantive review time-frame for each type of approval in Table 1.1, the Department:
    - 1. According to subsection (H), shall issue or deny:
      - a. A registry identification card, dispensary registration certificate, or laboratory registration certificate; or
      - b. Approval to operate a dispensary, approval for testing, or approval to add a parameter;
    - 2. May complete an inspection that may require more than one visit to a dispensary and, if applicable, the dispensary's cultivation site;
    - 3. May complete an inspection that may require more than one visit to a laboratory; and
    - 4. May make one written comprehensive request for more information, unless the Department and the applicant agree in writing to allow the Department to submit supplemental requests for information.
  - F. If the Department issues a written comprehensive request or a supplemental request for information:
    - 1. The substantive review time-frame and the overall time-frame are suspended from the date of the written comprehensive request or the supplemental request for information until the date the Department receives all of the information requested, and
    - 2. The applicant shall submit to the Department all of the information and documents listed in the written comprehensive request or supplemental request for information within 10 working days after the date of the comprehensive written request or supplemental request for information.
  - G. If an applicant for an initial dispensary registration certificate is allocated a dispensary registration certificate as provided in R9-17-303, the Department shall provide a written notice to the applicant of the allocation of the dispensary registration certificate that contains the dispensary's registry identification number.
    - 1. After the applicant receives the written notice of the allocation, the applicant shall submit to the Department for each principal officer or board member for whom fingerprints were submitted according to R9-17-304(C)(3)(b):
      - a. An application for a dispensary agent registry identification card that includes:
        - i. The principal officer's or board member's first name; middle initial, if applicable; last name; and suffix, if applicable;
        - ii. The principal officer's or board member's residence address and mailing address;
        - iii. The county where the principal officer or board member resides;
        - iv. The principal officer's or board member's date of birth;
        - v. The identifying number on the applicable card or document in subsection (G)(1)(b)(i) through (v);
        - vi. The name and registry identification number of the dispensary;
        - vii. One of the following:
          - (1) A statement that the principal officer or board member does not currently hold a valid registry identification card, or
          - (2) The assigned registry identification number for each valid registry identification card currently held by the principal officer or board member;
        - viii. A statement signed by the principal officer or board member pledging not to divert marijuana to any individual who or entity that is not allowed to possess marijuana pursuant to A.R.S. Title 36, Chapter 28.1;
        - ix. An attestation that the information provided in and with the application is true and correct; and

## CHAPTER 17. DEPARTMENT OF HEALTH SERVICES - MEDICAL MARIJUANA PROGRAM

- x. The signature of the principal officer or board member and the date the principal officer or board member signed;
  - b. A copy the principal officer's or board member's:
    - i. Arizona driver's license issued on or after October 1, 1996;
    - ii. Arizona identification card issued on or after October 1, 1996;
    - iii. Arizona registry identification card;
    - iv. Photograph page in the principal officer's or board member's U.S. passport; or
    - v. Arizona driver's license or identification card issued before October 1, 1996 and one of the following for the principal officer or board member:
      - (1) Birth certificate verifying U.S. citizenship,
      - (2) U.S. Certificate of Naturalization, or
      - (3) U.S. Certificate of Citizenship;
  - c. A current photograph of the principal officer or board member; and
  - d. The applicable fee in R9-17-102 for applying for a dispensary agent registry identification card.
2. After receipt of the information and documents in subsection (G)(1), the Department shall review the information and documents.
  - a. If the information and documents for at least one of the principal officers or board members complies with the A.R.S. Title 36, Chapter 28.1 and this Chapter, the Department shall issue:
    - i. A dispensary agent registry identification card to any principal officer or board member whose dispensary agent registry identification card application complies with A.R.S. Title 36, Chapter 28.1 and this Chapter; and
    - ii. The dispensary registration certificate.
  - b. If the information and documents for a dispensary agent registry identification card application for any principal officer or board member does not comply with A.R.S. Title 36, Chapter 28.1 and this Chapter, the Department shall deny the dispensary agent registry identification card application and provide notice to the principal officer or board member and to the dispensary that includes:
    - i. The specific reasons for the denial; and
    - ii. The process for requesting a judicial review of the Department's decision pursuant to A.R.S. Title 12, Chapter 7, Article 6.

**H. The Department shall issue:**

1. A registry identification card, renewal of a dispensary registration certificate, an approval to operate a dispensary, a laboratory registration certificate, an approval for testing, or an approval to add a parameter, as applicable, if the Department determines that the applicant complies with A.R.S. Title 36, Chapter 28.1 and this Chapter;

2. For an applicant for a registry identification card, a denial that includes the reason for the denial and the process for requesting judicial review if:
  - a. The Department determines that the applicant does not comply with A.R.S. Title 36, Chapter 28.1 and this Chapter; or
  - b. The applicant does not submit all of the information and documents listed in the written comprehensive request or supplemental request for information within 10 working days after the date of the comprehensive written request or supplemental request for information;
3. For an applicant for an initial dispensary registration certificate, if the Department determines that the dispensary registration certificate application complies with A.R.S. Title 36, Chapter 28.1 and this Chapter:
  - a. A dispensary registration certificate, if not all available dispensary registration certificates have been allocated according to the criteria and processes in R9-17-303; or
  - b. Written notice that:
    - i. The dispensary registration certificate application complies with A.R.S. Title 36, Chapter 28.1 and this Chapter;
    - ii. The applicant was not allocated a dispensary registration certificate according to the criteria and processes in R9-17-303 because all available dispensary registration certificates have been allocated according to the criteria and processes in R9-17-303; and
    - iii. The written notice is not a denial and is not considered a final decision of the Department subject to administrative review; or
4. For an applicant for a dispensary registration certificate, an approval to operate, a laboratory registration certificate, an approval for testing, or an approval to add a parameter, a denial that includes the reason for the denial and the process for administrative review if:
  - a. The Department determines that the applicant does not comply with A.R.S. Title 36, Chapter 28.1 or this Chapter; or
  - b. The applicant does not submit all of the information and documents listed in the written comprehensive request or supplemental request for information within 10 working days after the date of the comprehensive written request or supplemental request for information.

New Section made by exempt rulemaking at 17 A.A.R. 734, effective April 14, 2011 (Supp. 11-2). Amended by final rulemaking at 23 A.A.R. 970, effective June 6, 2017 (Supp. 17-2).

**R9-17-205. Denial or Revocation of a Qualifying Patient's or Designated Caregiver's Registry Identification Card**

- A. The Department shall deny a qualifying patient's application for or renewal of the qualifying patient's registry identification card if the qualifying patient does not have a debilitating medical condition.
- B. The Department shall deny a designated caregiver's application for or renewal of the designated caregiver's registry identification card if the designated caregiver does not meet the definition of "designated caregiver" in A.R.S. § 36-2801.
- C. The Department may deny a qualifying patient's or designated caregiver's application for or renewal of the qualifying patient's or designated caregiver's registry identification card if the qualifying patient or designated caregiver:
  1. Previously had a registry identification card revoked for not complying with A.R.S. Title 36, Chapter 28.1 or this Chapter; or
  2. Provides false or misleading information to the Department.
- D. The Department shall revoke a qualifying patient's or designated caregiver's registry identification card if the qualifying patient or designated caregiver diverts medical marijuana to an individual who or entity that is not allowed to possess marijuana pursuant to A.R.S. Title 36, Chapter 28.1.
- E. The Department shall revoke a designated caregiver's registry identification card if the designated caregiver has been convicted of an excluded felony offense.
- F. The Department may revoke a qualifying patient's or designated caregiver's registry identification card if the qualifying patient or designated caregiver knowingly violates A.R.S. Title 36, Chapter 28.1 or this Chapter.
- G. If the Department denies or revokes a qualifying patient's registry identification card, the Department shall provide written notice to the qualifying patient that includes:
  1. The specific reason or reasons for the denial or revocation; and
  2. The process for requesting a judicial review of the Department's decision pursuant to A.R.S. Title 12, Chapter 7, Article 6.
- H. If the Department denies or revokes a qualifying patient's designated caregiver's registry identification card, the Department shall provide written notice to the qualifying patient and the designated caregiver that includes:
  1. The specific reason or reasons for the denial or revocation; and
  2. The process for requesting a judicial review of the Department's decision pursuant to A.R.S. Title 12, Chapter 7, Article 6.

**R9-17-303. Dispensary Registration Certificate Allocation Process**

- A.** Each calendar year beginning in 2013, the Department shall review current valid dispensary registration certificates to

determine if the Department may issue additional dispensary registration certificates pursuant to A.R.S. § 36-2804(C).

1. If the Department determines that the Department may issue additional dispensary registration certificates, the Department shall post, on the Department's web site, the information that the Department is accepting dispensary registration certificate applications, including the deadline for accepting dispensary registration certificate applications.
    - a. The Department shall post the information in subsection (A)(1) at least 30 calendar days before the date the Department begins accepting applications.
    - b. The deadline for submission of dispensary registration certificate applications is 10 working days after the date the Department begins accepting applications.
    - c. Sixty working days after the date the Department begins accepting applications, the Department shall determine if the Department received more dispensary registration certificate applications that are complete and in compliance with A.R.S. Title 36, Chapter 28.1 and this Chapter to participate in the allocation process than the Department is allowed to issue.
      - i. If the Department received more dispensary registration certificate applications than the Department is allowed to issue, the Department shall allocate any available dispensary registration certificates according to the priorities established in subsection (B).
      - ii. If the Department is allowed to issue a dispensary registration certificate for each dispensary registration certificate application the Department received, the Department shall allocate the dispensary registration certificates to those applicants.
  2. If the Department determines that the Department is not allowed to issue additional dispensary registration certificates, the Department shall, on the Department's web site:
    - a. Post the information that the Department is not accepting dispensary registration certificate applications, and
    - b. Maintain the information until the next review.
- B.** Beginning in 2013, if the Department receives, by 60 working days after the date the Department begins accepting applications, more dispensary registration certificate applications that are complete and are in compliance with A.R.S. Title 36, Chapter 28.1 and this Chapter to participate in the allocation process than the Department is allowed to issue, the Department shall allocate the dispensary registration certificates according to the following criteria:
1. If dispensary registration certificate applications are received for a county that does not contain a dispensary:
    - a. If only one dispensary registration certificate application for a dispensary located in the county is received, the Department shall allocate the dispensary registration certificate to that applicant; or
    - b. If more than one dispensary registration certificate application for a dispensary located in the county is received, the Department shall prioritize and allocate a dispensary registration certificate to an applicant whose proposed dispensary location will provide dispensary services to the most qualifying patients based on:

## CHAPTER 17. DEPARTMENT OF HEALTH SERVICES - MEDICAL MARIJUANA PROGRAM

- i. The number of registry identification cards issued to qualifying patients who reside within 10 miles of the applicant's proposed dispensary location, and
  - ii. The number of dispensaries operating within 10 miles of the applicant's proposed dispensary location;
2. If there are additional dispensary registration certificates available after dispensary registration certificates are allocated according to subsection (B)(1), the Department shall allocate the dispensary registration certificates as follows:
    - a. The Department shall prioritize and assign a dispensary registration certificate allocation to a CHAA based on which CHAA has the most registry identification cards issued to qualifying patients who reside within the CHAA;
    - b. If the Department receives only one dispensary registration certificate application for a dispensary located in a CHAA assigned a dispensary registration certificate allocation under this subsection, the Department shall allocate the dispensary registration certificate to that applicant;
    - c. If the Department receives more than one dispensary registration certificate application for a dispensary located in a CHAA assigned a dispensary registration certificate allocation under this subsection, the Department shall prioritize and allocate dispensary registration certificates to an applicant whose proposed dispensary location will provide dispensary services to the most qualifying patients based on:
      - i. The number of registry identification cards issued to qualifying patients who reside within 10 miles of the applicant's proposed dispensary location, and
      - ii. The number of dispensaries operating within 10 miles of the applicant's proposed dispensary location;
  3. If there are additional dispensary registration certificates available after dispensary registration certificates are allocated according to subsections (B)(1) and (2), for all dispensary registration certificate applications not allocated a dispensary registration certificate pursuant to subsections (B)(1) and (2) and any other dispensary registration certificate applications received, the Department shall prioritize and allocate a dispensary registration certificate to an applicant whose proposed dispensary location will provide dispensary services to the most qualifying patients based on:
    - a. The number of registry identification cards issued to qualifying patients who reside within 10 miles of the applicant's proposed dispensary location, and
    - b. The number of dispensaries operating within 10 miles of the applicant's proposed dispensary location; and
  4. If there is a tie or a margin of 0.1% or less in the scores generated by applying the criteria in subsection (B), the Department shall randomly select one dispensary registration certificate application and allocate a dispensary registration certificate to that applicant.
- C. For purposes of subsection (B), "10 miles" includes the area contained within a circle that extends for 10 miles in all directions from a specific location.
- D. If the Department does not allocate a dispensary registration certificate to an applicant that had submitted a dispensary registration certificate application that the Department determined was complete and in compliance with A.R.S. Title 36, Chapter 28.1 and this Chapter to participate in the allocation process, the Department shall:
1. Provide a written notice to the applicant that states that, although the applicant's dispensary registration certificate application was complete and complied with A.R.S. Title 36, Chapter 28.1 and this Chapter, the Department did not allocate the applicant a dispensary registration certificate under the processes in this Section; and
  2. Return \$1,000 of the application fee to the applicant.
- E. If the Department receives a dispensary registration certificate application at a time other than the time stated in subsection (B), the Department shall return the dispensary registration certificate application, including the application fee, to the entity that submitted the dispensary registration certificate application.

**Historical Note**

New Section made by exempt rulemaking at 17 A.A.R. 734, effective April 14, 2011 (Supp. 11-2). Amended by emergency rulemaking at 18 A.A.R. 1010, effective April 11, 2012 for 180 days (Supp. 12-2). Emergency expired (Supp. 12-4). Amended by final rulemaking at 18 A.A.R. 3354, with an immediate effective date of December 5, 2012 (Supp. 12-4).

**R9-17-304. Applying for a Dispensary Registration Certificate**

- A. An individual shall not be an applicant, principal officer, or board member on:
1. More than one dispensary registration certificate application for a location in a single CHAA, or
  2. More than five dispensary registration certificate applications for locations in different CHAAs.
- B. If the Department determines that an individual is an applicant, principal officer, or board member on more than one dispensary registration certificate application for a CHAA or more than five dispensary registration certificate applications, the Department shall review the applications and provide the applicant on each of the dispensary registration certificate applications with a written comprehensive request for more information that includes the specific requirements in A.R.S. Title 36, Chapter 28.1 and this Chapter that the dispensary registration certificate application does not comply with.
1. If an applicant withdraws an application to comply with this Chapter and submits information demonstrating compliance with A.R.S. Title 36, Chapter 28.1 and this Chapter, the Department shall process the applicant's remaining dispensary registration certificate applications according to this Chapter.
  2. If an applicant does not withdraw an application or submit information demonstrating compliance with A.R.S. Title 36, Chapter 28.1 and this Chapter, the Department shall issue a denial to the applicant according to R9-17-322.
  3. An application fee submitted with a dispensary registration certificate application in subsection (B) that is withdrawn is not refunded.
- C. To apply for a dispensary registration certificate, an entity shall submit to the Department the following:
1. An application in a Department-provided format that includes:
    - a. The legal name of the dispensary;
    - b. The physical address of the proposed dispensary;

**R9-17-313. Medical Director**

- A. A dispensary shall appoint an individual who is a physician to function as a medical director.
- B. During a dispensary's hours of operation, a medical director or an individual who is a physician and is designated by the medical director to serve as medical director in the medical director's absence is:
  - 1. Onsite; or
  - 2. Able to be contacted by any means possible, such as by telephone or pager.
- C. A medical director shall:
  - 1. Develop and provide training to the dispensary's dispensary agents at least once every 12 months from the initial date of the dispensary's registration certificate on the following subjects:

## CHAPTER 17. DEPARTMENT OF HEALTH SERVICES - MEDICAL MARIJUANA PROGRAM

- a. Guidelines for providing information to qualifying patients related to risks, benefits, and side effects associated with medical marijuana;
  - b. Guidelines for providing support to qualifying patients related to the qualifying patient's self-assessment of the qualifying patient's symptoms, including a rating scale for pain, cachexia or wasting syndrome, nausea, seizures, muscle spasms, and agitation;
  - c. Recognizing signs and symptoms of substance abuse; and
  - d. Guidelines for refusing to provide medical marijuana to an individual who appears to be impaired or abusing medical marijuana; and
2. Assist in the development and implementation of review and improvement processes for patient education and support provided by the dispensary.
- D.** A medical director shall provide oversight for the development and dissemination of:
1. Educational materials for qualifying patients and designated caregivers that include:
    - a. Alternative medical options for the qualifying patient's debilitating medical condition;
    - b. Information about possible side effects of and contraindications for medical marijuana including possible impairment with use and operation of a motor vehicle or heavy machinery, when caring for children, or of job performance;
    - c. Guidelines for notifying the physician who provided the written certification for medical marijuana if side effects or contraindications occur;
    - d. A description of the potential for differing strengths of medical marijuana strains and products;
    - e. Information about potential drug-to-drug interactions, including interactions with alcohol, prescription drugs, non-prescription drugs, and supplements;
    - f. Techniques for the use of medical marijuana and marijuana paraphernalia;
    - g. Information about different methods, forms, and routes of medical marijuana administration;
    - h. Signs and symptoms of substance abuse, including tolerance, dependency, and withdrawal; and
    - i. A listing of substance abuse programs and referral information;
  2. A system for a qualifying patient or the qualifying patient's designated caregiver to document the qualifying patient's pain, cachexia or wasting syndrome, nausea, seizures, muscle spasms, or agitation that includes:
    - a. A log book, maintained by the qualifying patient and or the qualifying patient's designated caregiver, in which the qualifying patient or the qualifying patient's designated caregiver may track the use and effects of specific medical marijuana strains and products;
    - b. A rating scale for pain, cachexia or wasting syndrome, nausea, seizures, muscles spasms, and agitation;
    - c. Guidelines for the qualifying patient's self-assessment or, if applicable, assessment of the qualifying patient by the qualifying patient's designated caregiver; and
    - d. Guidelines for reporting usage and symptoms to the physician providing the written certification for medical marijuana and any other treating physicians; and
  3. Policies and procedures for refusing to provide medical marijuana to an individual who appears to be impaired or abusing medical marijuana.
- E.** A medical director for a dispensary shall not provide a written certification for medical marijuana for any qualifying patient.
- Historical Note**  
New Section made by exempt rulemaking at 17 A.A.R. 734, effective April 14, 2011 (Supp. 11-2).
- R9-17-314. Dispensing Medical Marijuana**  
Before a dispensary agent dispenses medical marijuana to a qualifying patient or a designated caregiver, the dispensary agent shall:
1. Verify the qualifying patient's or the designated caregiver's identity,
  2. Offer any appropriate patient education or support materials,
  3. Enter the qualifying patient's or designated caregiver's registry identification number on the qualifying patient's or designated caregiver's registry identification card into the medical marijuana electronic verification system,
  4. Verify the validity of the qualifying patient's or designated caregiver's registry identification card,
  5. Verify that the amount of medical marijuana the qualifying patient or designated caregiver is requesting would not cause the qualifying patient to exceed the limit on obtaining no more than two and one-half ounces of medical marijuana during any 14-calendar-day period, and
  6. Enter the following information into the medical marijuana electronic verification system for the qualifying patient or designated caregiver:
    - a. The amount of medical marijuana dispensed,
    - b. Whether the medical marijuana was dispensed to the qualifying patient or to the qualifying patient's designated caregiver,
    - c. The date and time the medical marijuana was dispensed,
    - d. The dispensary agent's registry identification number, and
    - e. The dispensary's registry identification number.
- Historical Note**  
New Section made by exempt rulemaking at 17 A.A.R. 734, effective April 14, 2011 (Supp. 11-2).
- R9-17-315. Qualifying Patient Records**
- A.** A dispensary shall ensure that:
1. A qualifying patient record is established and maintained for each qualifying patient who obtains medical marijuana from the dispensary;
  2. An entry in a qualifying patient record:
    - a. Is recorded only by a dispensary agent authorized by dispensary policies and procedures to make an entry,
    - b. Is dated and signed by the dispensary agent,
    - c. Includes the dispensary agent's registry identification number, and
    - d. Is not changed to make the initial entry illegible;
  3. If an electronic signature is used to sign an entry, the dispensary agent whose signature the electronic code represents is accountable for the use of the electronic signature;
  4. A qualifying patient record is only accessed by a dispensary agent authorized by dispensary policies and procedures to access the qualifying patient record;
  5. A qualifying patient record is provided to the Department for review upon request;
  6. A qualifying patient record is protected from loss, damage, or unauthorized use; and

## CHAPTER 17. DEPARTMENT OF HEALTH SERVICES - MEDICAL MARIJUANA PROGRAM

7. A qualifying patient record is maintained for five years from the date of the qualifying patient's or, if applicable, the qualifying patient's designated caregiver's last request for medical marijuana from the dispensary.
  - B. If a dispensary maintains qualifying patient records electronically, the dispensary shall ensure that:
    1. There are safeguards to prevent unauthorized access, and
    2. The date and time of an entry in a qualifying patient record is recorded electronically by an internal clock.
  - C. A dispensary shall ensure that the qualifying patient record for a qualifying patient who requests or whose designated caregiver on behalf of the qualifying patient requests medical marijuana from the dispensary contains:
    1. Qualifying patient information that includes:
      - a. The qualifying patient's name;
      - b. The qualifying patient's date of birth; and
      - c. The name of the qualifying patient's designated caregiver, if applicable;
    2. Documentation of any patient education and support materials provided to the qualifying patient or the qualifying patient's designated caregiver, including a description of the materials and the date the materials were provided;
    3. For each time the qualifying patient requests and does not obtain medical marijuana or, if applicable, the designated caregiver requests on behalf of the qualifying patient and does not obtain medical marijuana from the dispensary, the following:
      - a. The date,
      - b. The name and registry identification number of the individual who requested the medical marijuana, and
      - c. The dispensary's reason for refusing to provide the medical marijuana.
- Historical Note**  
New Section made by exempt rulemaking at 17 A.A.R. 734, effective April 14, 2011 (Supp. 11-2).
- R9-17-316. Inventory Control System**
- A. A dispensary shall designate in writing a dispensary agent who has oversight of the dispensary's medical marijuana inventory control system.
  - B. A dispensary shall only acquire marijuana from:
    1. The dispensary's cultivation site,
    2. Another dispensary or another dispensary's cultivation site,
    3. A qualifying patient authorized by the Department to cultivate marijuana, or
    4. A designated caregiver authorized by the Department to cultivate marijuana.
  - C. A dispensary shall establish and implement an inventory control system for the dispensary's medical marijuana that documents:
    1. Each day's beginning inventory, acquisitions, harvests, sales, disbursements, submissions to a laboratory agent or laboratory for testing, testing results received, disposal of unusable marijuana, and ending inventory;
    2. For acquiring medical marijuana from a qualifying patient or designated caregiver:
      - a. A description of the medical marijuana acquired including the amount and strain,
      - b. The name and registry identification number of the qualifying patient or designated caregiver who provided the medical marijuana,
      - c. The name and registry identification number of the dispensary agent receiving the medical marijuana on behalf of the dispensary, and
      - d. The date of acquisition;
3. For acquiring medical marijuana from another dispensary:
    - a. A description of the medical marijuana acquired including the amount, strain, and batch number;
    - b. The name and registry identification number of the dispensary providing the medical marijuana;
    - c. The name and registry identification number of the dispensary agent providing the medical marijuana;
    - d. The name and registry identification number of the dispensary agent receiving the medical marijuana on behalf of the dispensary; and
    - e. The date of acquisition;
  4. For each batch of marijuana cultivated:
    - a. The batch number;
    - b. Whether the batch originated from marijuana seeds or marijuana cuttings;
    - c. The origin and strain of the marijuana seeds or marijuana cuttings planted;
    - d. The number of marijuana seeds or marijuana cuttings planted;
    - e. The date the marijuana seeds or cuttings were planted;
    - f. A list of all chemical additives, including nonorganic pesticides, herbicides, and fertilizers used in the cultivation;
    - g. The number of plants grown to maturity;
    - h. Harvest information including:
      - i. Date of harvest,
      - ii. Final processed usable marijuana yield weight, and
      - iii. Name and registry identification number of the dispensary agent responsible for the harvest, and
    - i. The disposal of medical marijuana that is not usable marijuana including the:
      - i. Description of and reason for the marijuana being disposed of including, if applicable, the number of failed or other unusable plants;
      - ii. Date of disposal;
      - iii. Method of disposal; and
      - iv. Name and registry identification number of the dispensary agent responsible for the disposal;
  5. For providing medical marijuana to another dispensary:
    - a. The amount, strain, and batch number of medical marijuana provided;
    - b. The name and registry identification number of the other dispensary;
    - c. The name and registry identification number of the dispensary agent who received the medical marijuana on behalf of the other dispensary; and
    - d. The date the medical marijuana was provided;
  6. For receiving edible food products infused with medical marijuana from another dispensary:
    - a. A description of the edible food products received from the dispensary including total weight of each edible food product and estimated amount and batch number of the medical marijuana infused in each edible food product;
    - b. Total estimated amount and batch number of medical marijuana infused in the edible food products;
    - c. The name and registry identification number of the:

## CHAPTER 17. DEPARTMENT OF HEALTH SERVICES - MEDICAL MARIJUANA PROGRAM

- i. Dispensary and the dispensary agent providing the edible food products to the receiving dispensary, and
  - ii. Dispensary agent receiving the edible food products on behalf of the receiving dispensary; and
  - d. The date the edible food products were provided to the dispensary; and
- 7. For submitting marijuana or marijuana products to a laboratory agent or laboratory for testing:
  - a. The amount, strain, and batch number of the marijuana or marijuana products submitted;
  - b. The name and registry identification number of the laboratory;
  - c. The name and registry identification number of the laboratory agent who received the marijuana or marijuana products on behalf of the laboratory; and
  - d. The date the marijuana or marijuana products were submitted to the laboratory.
- D. The individual designated in subsection (A) shall conduct and document an audit of the dispensary's inventory that is accounted for according to generally accepted accounting principles at least once every 30 calendar days.
  - 1. If the audit identifies a reduction in the amount of medical marijuana in the dispensary's inventory not due to documented causes, the dispensary shall determine where the loss has occurred and take and document corrective action.
  - 2. If the reduction in the amount of medical marijuana in the dispensary's inventory is due to suspected criminal activity by a dispensary agent, the dispensary shall report the dispensary agent to the Department and to the local law enforcement authorities.
- E. A dispensary shall:
  - 1. Maintain the documentation required in subsections (C) and (D) at the dispensary for at least five years after the date on the document, and
  - 2. Provide the documentation required in subsections (C) and (D) to the Department for review upon request.
- 6. The following statement: "ARIZONA DEPARTMENT OF HEALTH SERVICES' WARNING: Marijuana use can be addictive and can impair an individual's ability to drive a motor vehicle or operate heavy machinery. Marijuana smoke contains carcinogens and can lead to an increased risk for cancer, tachycardia, hypertension, heart attack, and lung infection. KEEP OUT OF REACH OF CHILDREN";
- 7. If not cultivated by the dispensary, whether the medical marijuana was obtained from a qualifying patient, a designated caregiver, or another dispensary;
- 8. If not infused or prepared for sale by the dispensary, whether the marijuana product was obtained from another dispensary;
- 9. For a marijuana product, the ingredients in order of abundance;
- 10. The date of manufacture, harvest, or sale; and
- 11. The registry identification number of the qualifying patient.
- B. If a dispensary provides medical marijuana cultivated, or a marijuana product infused or prepared for sale, by the dispensary to another dispensary, the dispensary shall ensure that:
  - 1. The medical marijuana or marijuana product is labeled with:
    - a. The dispensary's registry identification number;
    - b. The amount, strain, and batch number of the medical marijuana or marijuana product; and
    - c. The date of harvest or sale; and
  - 2. A copy of laboratory testing results for the medical marijuana or marijuana product is provided to the receiving dispensary.
- C. Until November 1, 2020, a dispensary shall ensure that medical marijuana or a marijuana product provided by the dispensary to a qualifying patient or designated caregiver either:
  - 1. Is labeled with a list of all chemical additives, including nonorganic pesticides, herbicides, and fertilizers, used in the cultivation and production of the medical marijuana; or
  - 2. Complies with requirements in R9-17-317.01.
- D. Until November 1, 2020, if a dispensary provides medical marijuana cultivated by the dispensary to another dispensary, the dispensary shall ensure that the medical marijuana is labeled with a list of all chemical additives, including nonorganic pesticides, herbicides, and fertilizers, used in the cultivation of the medical marijuana.

**R9-17-317. Product Labeling**

- A. A dispensary shall ensure that medical marijuana or a marijuana product provided by the dispensary to a qualifying patient or a designated caregiver is labeled with:
  - 1. The dispensary's registry identification number;
  - 2. The amount, strain, and batch number of the medical marijuana or marijuana product;
  - 3. The form of the medical marijuana or marijuana product;
  - 4. As applicable, the weight of the medical marijuana or marijuana product;
  - 5. Beginning November 1, 2020, and in compliance with Table 3.1, the potency of the medical marijuana or marijuana product, based on laboratory testing results, including the percentage of:
    - a. Total tetrahydrocannabinol, reported according to R9-17-404.03(S)(2)(a);
    - b. Total cannabidiol, reported according to R9-17-404.03(S)(2)(b); and
    - c. Any other cannabinoid for which the dispensary is making a claim related to the effect of the cannabinoid on the human body;

**R9-17-317.01. Analysis of Medical Marijuana or a Marijuana Product**

- A. Beginning on November 1, 2020, before offering a batch of medical marijuana or of a marijuana product for sale or dispensing to a qualifying patient or designated caregiver, a dispensary shall ensure that each batch of medical marijuana or marijuana product is tested in compliance with requirements in R9-17-404.03, R9-17-404.04, and Table 3.1.
- B. A dispensary shall ensure that:
  - 1. Until laboratory testing has been completed and testing results received by the dispensary that comply with requirements in R9-17-404.03, R9-17-404.04, and Table 3.1, a batch of marijuana or of a marijuana product is

## CHAPTER 17. DEPARTMENT OF HEALTH SERVICES - MEDICAL MARIJUANA PROGRAM

stored in a location away from medical marijuana and marijuana products offered for dispensing;

2. Only one sample of each batch of medical marijuana or marijuana product is collected according to ANSI/ASQ Standard Z1.4 (2018), General Inspection Level II, incorporated by reference, including no future editions, and available at <https://asq.org/quality-resources/z14-z19>, including:
    - a. Use, as applicable, of one of the following sampling methods:
      - i. Top, middle, and bottom sampling using a sample thief, a device consisting of two nested tubes with one or more aligned slots through which a sample may be collected and then sealed into the inner tube by rotating the outer tube;
      - ii. Star pattern sampling from the top, middle, and bottom of each storage container;
      - iii. Collecting discrete incremental units of a batch, such as every tenth unit or every twentieth drop; or
      - iv. Quartering until the sample reaches the size specified in subsection (B)(3); and
    - b. For sampling methods specified in subsections (B)(2)(a)(i) through (iii), quartering the volume of the aggregated portions collected to obtain the sample size specified in subsection (B)(3);
  3. The minimum size of the sample provided to a laboratory for testing is 16 grams;
  4. Each sample in subsection (B)(3) is packaged in a container made of the same material that would be used for dispensing;
  5. Each packaged sample is labeled with the:
    - a. The dispensary's registry identification number;
    - b. The amount, strain, and batch number of the medical marijuana or marijuana product;
    - c. The storage temperature for the medical marijuana or marijuana product; and
    - d. The date of sampling;
  6. A packaged sample in subsection (B)(4) is submitted to a laboratory that:
    - a. Has a laboratory registration certificate issued by the Department, and
    - b. Is approved by the Department to test for the analyte for which testing is being requested;
  7. Except as specified in subsections (C)(1) or (3)(b), as applicable, the samples in subsection (B)(4) are tested for each analyte specified in Table 3.1;
  8. Only batches of marijuana or marijuana products for which laboratory testing results in subsection (B)(7) are in compliance with the requirements in R9-17-404.03, R9-17-404.04, and Table 3.1 are offered for sale or dispensing; and
  9. Except as provided in subsection (C), any batch of marijuana or marijuana product that does not comply with the requirements in R9-17-404.03, R9-17-404.04, and Table 3.1 is remediated, if applicable, or destroyed according to policies and procedures.
- C. If a dispensary receives a final report of testing, specified in R9-17-404.06(B)(3), from a laboratory that indicates that a batch of marijuana or marijuana product does not comply with the requirements in R9-17-404.03, R9-17-404.04, and Table 3.1, the dispensary:
1. Within seven days after receiving the final report of testing, may request retesting by a second, independent laboratory of the remaining portion of the sample in subsection (B)(4) for all analytes that do not comply with the requirements in R9-17-404.03, R9-17-404.04, and Table 3.1;
  2. If the final report of testing from the second laboratory indicates that any analyte tested for according to subsection (C)(1) does not comply with the requirements in R9-17-404.03, R9-17-404.04, and Table 3.1, shall remediate, if applicable, or destroy the batch of marijuana or marijuana product according to policies and procedures;
  3. If the final report of testing from the second laboratory indicates that all analytes tested for according to subsection (C)(1) comply with the requirements in R9-17-404.03, R9-17-404.04, and Table 3.1:
    - a. Shall ensure that the batch of medical marijuana or marijuana product is not offered for sale or dispensing; and
    - b. May request retesting by a third, independent laboratory of the remaining portion of the sample in subsection (B)(4) for the analytes that do not comply with the requirements in R9-17-404.03, R9-17-404.04, and Table 3.1; and
  4. If the dispensary requested retesting of the remaining portion of the sample in subsection (B)(4) for an analyte by a third, independent laboratory according to subsection (C)(3)(b):
    - a. If the final report of testing from the third laboratory indicates that the analyte tested for according to subsection (C)(3) complies with the requirements in R9-17-404.03, R9-17-404.04, and Table 3.1, may offer the batch of medical marijuana or marijuana product for sale or dispensing; and
    - b. If the final report of testing from the third laboratory indicates that an analyte tested for according to subsection (C)(3) does not comply with the requirements in R9-17-404.03, R9-17-404.04, and Table 3.1, shall remediate, if applicable, or destroy the batch of medical marijuana or marijuana product according to policies and procedures.
- D. A dispensary shall ensure that remediation of a batch of marijuana or of a marijuana product that has undergone laboratory testing and does not comply with the requirements in R9-17-404.03, R9-17-404.04, and Table 3.1:
1. Is performed according to policies and procedures,
  2. Uses a method that is appropriate to address an analyte not in compliance with Table 3.1, and
  3. Does not introduce or produce a substance in a concentration that is known to be harmful to humans.
- E. If a batch of medical marijuana or a marijuana product is remediated, a dispensary shall submit samples from the remediated batch for laboratory testing according to subsection (B).
- F. A dispensary shall provide to the Department upon request a sample of the dispensary's inventory of medical marijuana or a marijuana product of sufficient quantity to enable the Department to conduct an analysis of the medical marijuana or marijuana product.

**Historical Note**

New Section made by exempt rulemaking at 26 A.A.R. 734, with an immediate effective date of April 2, 2020 (Supp. 20-2).

**R9-17-318. Security**

- A.** Except as provided in R9-17-310(A)(7), a dispensary shall ensure that access to the enclosed, locked facility where marijuana is cultivated is limited to the dispensary's principal officers, board members, and authorized dispensary agents.
- B.** A dispensary agent may transport marijuana, marijuana plants, and marijuana paraphernalia between the dispensary and:
1. The dispensary's cultivation site,
  2. A qualifying patient,
  3. Another dispensary, and
  4. A laboratory agent or laboratory for testing.
- C.** Before transportation, a dispensary agent shall:
1. Complete a trip plan that includes:
    - a. The name of the dispensary agent in charge of transporting the marijuana;
    - b. The date and start time of the trip;
    - c. A description of the marijuana, marijuana plants, or marijuana paraphernalia being transported; and
    - d. The anticipated route of transportation; and
  2. Provide a copy of the trip plan in subsection (C)(1) to the dispensary.
- D.** During transportation, a dispensary agent shall:
1. Carry a copy of the trip plan in subsection (C)(1) with the dispensary agent for the duration of the trip;
  2. Use a vehicle without any medical marijuana identification;
  3. Have a means of communication with the dispensary; and
4. Ensure that the marijuana, marijuana plants, or marijuana paraphernalia are not visible.
- E.** After transportation, a dispensary agent shall enter the end time of the trip and any changes to the trip plan on the trip plan required in subsection (C)(1).
- F.** A dispensary shall:
1. Maintain the documents required in subsection (C)(2) and (E), and
  2. Provide a copy of the documents required in subsection (C)(2) and (E) to the Department for review upon request.
- G.** To prevent unauthorized access to medical marijuana at the dispensary and, if applicable, the dispensary's cultivation site, the dispensary shall have the following:
1. Security equipment to deter and prevent unauthorized entrance into limited access areas that include:
    - a. Devices or a series of devices to detect unauthorized intrusion, which may include a signal system interconnected with a radio frequency method, such as cellular, private radio signals, or other mechanical or electronic device;
    - b. Exterior lighting to facilitate surveillance;
    - c. Electronic monitoring including:
      - i. At least one 19-inch or greater call-up monitor,
      - ii. A video printer capable of immediately producing a clear still photo from any video camera image,
      - iii. Video cameras:
        - (1) Providing coverage of all entrances to and

- exits from limited access areas and all entrances to and exits from the building, capable of identifying any activity occurring in or adjacent to the building; and
- (2) Having a recording resolution of at least 704 x 480 or the equivalent;
- iv. A video camera at each point of sale location allowing for the identification of any qualifying patient or designated caregiver purchasing medical marijuana,
- v. A video camera in each grow room capable of identifying any activity occurring within the grow room in low light conditions,
- vi. Storage of video recordings from the video cameras for at least 30 calendar days,
- vii. A failure notification system that provides an audible and visual notification of any failure in the electronic monitoring system, and
- viii. Sufficient battery backup for video cameras and recording equipment to support at least five minutes of recording in the event of a power outage; and
- d. Panic buttons in the interior of each building; and
- 2. Policies and procedures:
  - a. That restrict access to the areas of the dispensary that contain marijuana and if applicable, the dispensary's cultivation site to authorized individuals only;
  - b. That provide for the identification of authorized individuals;
  - c. That prevent loitering;
  - d. For conducting electronic monitoring; and
  - e. For the use of a panic button.

  5. If zoning restrictions have been enacted, a sworn statement signed and dated by the individual or individuals in R9-17-401(A) certifying that the laboratory is in compliance with any local zoning restrictions;
  6. A copy of documentation issued by the local jurisdiction to the laboratory authorizing occupancy of the building as a laboratory, such as a certificate of occupancy, a special use permit, or a conditional use permit;
  7. A site plan drawn to scale of the laboratory location showing streets, property lines of the contiguous premises, buildings, parking areas, outdoor areas if applicable, fences, security features, fire hydrants if applicable, and access to water mains;
  8. A building plan drawn to scale of the building where the laboratory is located showing the:
    - a. Layout and dimensions of each room;
    - b. Name and function of each room;
    - c. Fire ratings of the materials used for ceilings, walls, doors, and floors of rooms used to store flammable substances;
    - d. Location of each fire protection device;
    - e. Layout of heating, air conditioning, exhaust, and ventilation systems;
    - f. Location and layout of refrigerated rooms or freezer rooms;
    - g. Location of each sink, safety shower, other water supply, or plumbing fixture;
    - h. Location of fixed or movable equipment and instruments that require dedicated electrical, water, vacuum, gas, or other building systems;
    - i. Location of security measures or equipment to protect from diversion of marijuana or marijuana products; and
    - j. Means of egress;
  9. Documentation of accreditation;
  10. The laboratory's Transaction Privilege Tax Number issued by the Arizona Department of Revenue, if applicable; and
  11. The applicable fee in R9-17-102 for applying for a laboratory registration certificate.
- B.** Within 72 hours after an owner receives a laboratory registration certificate pursuant to an application submitted according to subsection (A), the owner shall apply for a laboratory agent registry identification card, according to R9-17-405, for each laboratory agent, including an owner or a technical laboratory director.
  - C.** A change in location of the laboratory's physical address or ownership requires a new application to be submitted according to subsection (A).
  - D.** A separate laboratory registration certificate is required for each noncontiguous portion of a laboratory.

**Historical Note**

New Section made by exempt rulemaking at 25 A.A.R. 2421, effective August 27, 2019 (Supp. 19-3). Amended by exempt rulemaking at 26 A.A.R. 734, with an immediate effective date of April 2, 2020; amended by exempt rulemaking at 26 A.A.R. 968, effective April 20, 2020 (Supp. 20-2).

**R9-17-402.01. Applying for Approval for Testing**

To apply for approval for testing, an applicant shall submit to the Department, at least 60 calendar days before the expiration of the initial laboratory registration certificate for the laboratory, the following:

## CHAPTER 17. DEPARTMENT OF HEALTH SERVICES - MEDICAL MARIJUANA PROGRAM

1. An application in a Department-provided format that includes:
  - a. The name and registry identification number of the laboratory;
  - b. The physical address of the laboratory;
  - c. The name of the applicant;
  - d. The name of the technical laboratory director designated according to R9-17-404(3);
  - e. The name, address, and date of birth of or the laboratory agent registry identification card number for each laboratory agent;
  - f. For each parameter for which approval for testing is being requested:
    - i. The analyte to be tested for,
    - ii. The instruments and equipment to be used for testing, and
    - iii. The software to be used at the laboratory for instrument control and data reduction interpretation;
  - g. The laboratory's proposed hours of operation;
  - h. Whether the laboratory agrees to allow the Department to submit supplemental requests for information;
  - i. Whether the laboratory is ready for an inspection by the Department;
  - j. If the laboratory is not ready for an inspection by the Department, the date the laboratory will be ready for an inspection by the Department;
  - k. An attestation that the information provided to the Department to apply for approval to operate the laboratory is true and correct; and
  - l. The signatures of the owner of the laboratory, according to R9-17-401(A), and the technical laboratory director and the date each signed;
2. For each parameter listed according to subsection (1)(f):
  - a. The limit of quantitation;
  - b. A copy of current accreditation;
  - c. A copy of a proficiency testing report, if applicable, or accuracy testing documentation; and
  - d. A copy of the standard operating procedure; and
3. If different from the building plan submitted according to R9-17-402(A)(8), a building plan drawn to scale of the building where the laboratory is located showing the:
  - a. Layout and dimensions of each room;
  - b. Name and function of each room;
  - c. Fire ratings of the materials used for ceilings, walls, doors, and floors of rooms used to store flammable substances;
  - d. Location of each fire protection device;
  - e. Layout of heating, air conditioning, exhaust, and ventilation systems;
  - f. Location and layout of refrigerated rooms or freezer rooms;
  - g. Location of each sink, safety shower, other water supply, or plumbing fixture;
  - h. Location of fixed or movable equipment and instruments that require dedicated electrical, water, vacuum, gas, or other building systems;
  - i. Location of security equipment to protect from diversion of marijuana or marijuana products; and
  - j. Means of egress.

**Historical Note**

New Section made by exempt rulemaking at 26 A.A.R. 734, with an immediate effective date of April 2, 2020;

amended by exempt rulemaking at 26 A.A.R. 968, effective April 20, 2020 (Supp. 20-2).

**R9-17-403. Renewing a Laboratory Registration Certificate**

To renew a laboratory registration certificate, an applicant shall submit to the Department, at least 30 calendar days before the expiration date of the current laboratory registration certificate, but no more than 90 days before the expiration date of the current laboratory registration certificate, the following:

1. An application in a Department-provided format that includes:
  - a. The physical address of the laboratory;
  - b. The following information for the laboratory:
    - i. The legal name of the laboratory,
    - ii. The registry identification number for the laboratory,
    - iii. Type of business organization,
    - iv. Mailing address,
    - v. Telephone number, and
    - vi. E-mail address;
  - c. The name of the owner designated to submit laboratory agent registry identification card applications on behalf of the laboratory;
  - d. The name, residence address, and date of birth of each owner;
  - e. The name, residence address, and date of birth of the technical laboratory director designated according to R9-17-404(3);
  - f. The name, residence address, and date of birth of each laboratory agent, if applicable;
  - g. Whether the laboratory agrees to allow the Department to submit supplemental requests for information;
  - h. An attestation that the information provided to the Department to renew the laboratory registration certificate is true and correct; and
  - i. The signatures of the owner of the laboratory, according to R9-17-401(A), and the technical laboratory director and the date each signed;
2. For each owner:
  - a. An attestation signed and dated by the owner that the owner has not been convicted of an excluded felony offense as defined in A.R.S. § 36-2801; and
  - b. An attestation signed and dated by the owner that the laboratory will not test medical marijuana and medical marijuana products for:
    - i. A dispensary, related medical marijuana business entity, or management company that the owner has a direct or indirect familial or financial relationship with or interest in; or
    - ii. A designated caregiver who the owner has a direct or indirect familial or financial relationship with;
3. For each new or current parameter, documentation of current accreditation;
4. If a change has been made to the standard operating procedure for a current parameter, a copy of the revised standard operating procedure;
5. If a change has been made in the quality assurance plan for a current parameter required in R9-17-404.03 or R9-17-404.04, a copy of the revised quality assurance plan; and
6. The applicable fee in R9-17-102 for applying to renew a laboratory registration certificate.

## CHAPTER 17. DEPARTMENT OF HEALTH SERVICES - MEDICAL MARIJUANA PROGRAM

**Historical Note**

New Section made by exempt rulemaking at 25 A.A.R. 2421, effective August 27, 2019 (Supp. 19-3). Amended by exempt rulemaking at 26 A.A.R. 734, with an immediate effective date of April 2, 2020; amended by exempt rulemaking at 26 A.A.R. 968, effective April 20, 2020 (Supp. 20-2).

**R9-17-404. Administration**

An owner of a laboratory with a laboratory registration certificate shall:

1. Comply with the:
  - a. Quality assurance requirements in R9-17-404.05,
  - b. Operation requirements in R9-17-404.06, and
  - c. Laboratory records and reports requirements in R9-17-404;
2. Maintain accreditation for each approved parameter;
3. Designate in writing a technical laboratory director who:
  - a. Has knowledge and experience in overseeing a laboratory as documented by:
    - i. A doctoral degree in chemistry, biochemistry, microbiology, or a similar laboratory science;
    - ii. A master's degree in chemistry, biochemistry, microbiology, or a similar laboratory science and at least two years of experience working in a laboratory and providing laboratory testing; or
    - iii. A bachelor's degree in chemistry, biochemistry, microbiology, or a similar laboratory science and at least four years of experience working in a laboratory and providing laboratory testing; and
  - b. Is responsible for:
    - i. Ensuring that all services and tests provided by the laboratory are performed in compliance with the requirements in this Article;
    - ii. Directing and supervising services and tests provided by the laboratory;
    - iii. Overseeing the work of all personnel in the laboratory;
    - iv. Providing ongoing training to laboratory agents, as applicable to the functions performed by a laboratory agent; and
  - v. Ensuring safety and hazardous substance control in the laboratory;
4. Notify the Department in writing within 20 working days after any change in the technical laboratory director, providing the name and contact information for the new technical laboratory director;
5. Develop, document, and implement policies and procedures regarding:
  - a. Job descriptions and employment contracts, including:
    - i. Personnel duties, authority, responsibilities, and qualifications;
    - ii. Personnel supervision;
    - iii. Ongoing training, applicable to the functions performed by a laboratory agent;
    - iv. Training in and adherence to confidentiality requirements;
    - v. Periodic performance evaluations, including proficiency testing or accuracy testing, as applicable, on a rotating basis among all laboratory agents performing similar functions; and
    - v. Disciplinary actions;
  - b. Business records, such as manual or computerized records of assets and liabilities, monetary transactions, journals, ledgers, and supporting documents, including agreements, checks, invoices, and vouchers;
- c. Inventory control, including:
  - i. Tracking;
  - ii. Accepting medical marijuana or marijuana products for testing;
  - iii. Testing medical marijuana and marijuana products;
  - iv. Providing the remaining sample of tested medical marijuana or a marijuana product to another laboratory at the request of a dispensary according to R9-17-317.01(C);
  - v. Retaining the residual portion of a sample accepted for testing from a dispensary for at least 14 days after sending the final report of testing required in R9-17-404.06(B)(3) to the dispensary; and
  - vi. Disposing of medical marijuana or a marijuana product and documenting:
    - (1) The method of disposal;
    - (2) Whether the medical marijuana or marijuana product was tested;
    - (3) If not tested, the reason for not testing;
    - (4) The laboratory agent overseeing the disposal; and
    - (5) The date of disposal;
- d. Standard operating procedures, including:
  - i. The review and updating of standard operating procedures;
  - ii. Requirements for a laboratory agent to review current, new, or updated standard operating procedures applicable to the functions performed by the laboratory agent; and
  - iii. Documenting the review of standard operating procedures by applicable laboratory agents;
- e. Laboratory records, including:
  - i. Maintenance and monitoring of instruments and equipment;
  - ii. Acceptance of medical marijuana and marijuana products for testing;
  - iii. The chain of custody for a sample accepted by the laboratory for testing;
  - iv. The storage of a submitted sample prior to testing to maintain the integrity of the sample and analyte;
  - v. The process for selecting a portion of a submitted sample for testing;
  - vi. Ensuring testing results are accurate, precise, and scientifically valid before reporting the results;
  - vii. Reporting of testing results;
  - viii. If applicable, transfer of the portion of a sample remaining after testing to another laboratory at the request of a dispensary according to R9-17-317.01(C), including:
    - (1) The name and registry identification number of the dispensary,
    - (2) The name and registry identification number of the dispensary agent requesting the transfer on behalf of the dispensary,
    - (3) The date of the request,
    - (4) The amount of sample being transferred,
    - (5) The name and registry identification number of the other laboratory, and
    - (6) The name and registry identification number

## CHAPTER 17. DEPARTMENT OF HEALTH SERVICES - MEDICAL MARIJUANA PROGRAM

- ber of the laboratory agent receiving the marijuana or marijuana products on behalf of the other laboratory;
- ix. Confidentiality; and
  - x. Retention;
  - f. A quality assurance program and standards;
  - g. A records retention process; and
  - h. Security;
6. Review and document the review of laboratory policies and procedures at least once every 12 months after the issue date of the laboratory registration certificate and update as needed;
  7. Ensure that each laboratory agent has the laboratory agent's registry identification card in the laboratory agent's immediate possession when the laboratory agent is working or providing volunteer services related to marijuana or marijuana products testing at the laboratory;
  8. Ensure that a laboratory agent accompanies any individual other than another laboratory agent associated with the laboratory when the individual is present in the area of the laboratory where marijuana or marijuana products are being tested or stored for testing;
  9. Not allow an individual who does not possess a laboratory agent registry identification card issued under the laboratory registration certificate to:
    - a. Serve as an owner for the laboratory,
    - b. Be employed by the laboratory, or
    - c. Provide volunteer services at or on behalf of the laboratory;
  10. Provide written notice to the Department, including the date of the event, within 10 working days after the date, when a laboratory agent no longer:
    - a. Serves as an owner for the laboratory,
    - b. Is employed by the laboratory, or
    - c. Provides volunteer services at or on behalf of the laboratory; and
  11. Unless otherwise specified, maintain copies of any documentation required in this Chapter for at least 12 months after the date on the documentation and provide copies of the documentation to the Department for review upon request.

**Historical Note**

New Section made by exempt rulemaking at 25 A.A.R. 2421, effective August 27, 2019 (Supp. 19-3). Amended by exempt rulemaking at 26 A.A.R. 734, with an immediate effective date of April 2, 2020 (Supp. 20-2).

**R9-17-404.01. Compliance Monitoring**

- A. Submission of an application for a laboratory registration certificate constitutes permission for:
  1. The Department's entry to and inspection of the laboratory, and
  2. The Department to conduct proficiency testing according to R9-17-404.02.
- B. The Department shall conduct:
  1. An initial laboratory inspection; and
  2. A follow-up laboratory inspection, at least annually.
- C. The Department shall comply with A.R.S. § 41-1009 in conducting a laboratory inspection or investigation.
- D. The Department shall not accept allegations of a laboratory's noncompliance with A.R.S. Title 36, Chapter 28.1 or this Chapter from an anonymous source.
- E. If the Department receives an allegation of a laboratory's noncompliance with A.R.S. Title 36, Chapter 28.1 or this Chapter, the Department may conduct an unannounced inspection of the laboratory.

- F. If the Department determines that a laboratory is not in compliance with the requirements of A.R.S. Title 36, Chapter 28.1, or this Chapter, the Department:
  1. Shall provide the owner, according to R9-17-401(A), and technical laboratory director with a written notice that includes the specific rule or statute that was violated; and
  2. May:
    - a. Take an enforcement action as described in R9-17-410; or
    - b. Require that the technical laboratory director submit to the Department, within 30 calendar days after written notice from the Department, a corrective action plan to address issues of compliance that do not directly affect the health or safety of a qualifying patient or laboratory agent that:
      - i. Describes how each identified instance of noncompliance will be corrected and reoccurrence prevented, and
      - ii. Includes a date for correcting each instance of noncompliance that is appropriate to the actions necessary to correct the instance of noncompliance.
- G. Under A.R.S. § 41-1009(G) and (I), the Department's decision regarding whether a technical laboratory director may submit a corrective action plan on behalf of a laboratory or whether a deficiency has been corrected or has been corrected within a reasonable period of time is not an appealable agency action as defined by A.R.S. § 41-1092.

**Historical Note**

New Section made by exempt rulemaking at 26 A.A.R. 734, with an immediate effective date of April 2, 2020 (Supp. 20-2).

**R9-17-404.02. Proficiency Testing; Accuracy Testing**

- A. At least once in each 12-month period, and more often if requested by the Department, a technical laboratory director shall have at least one laboratory agent, selected according to policies and procedures, participate in proficiency testing provided by the Department or a proficiency testing service that:
  1. Includes at least one proficiency testing sample for each parameter for which the laboratory has been approved or is requesting approval and for which proficiency testing samples are available;
  2. Demonstrates the laboratory agent's competence in testing for the parameter; and
  3. If the laboratory has been approved or has requested approval to test an analyte by different methods, may use the same proficiency testing sample for each method.
- B. If a proficiency testing sample is not available for a specific parameter, a technical laboratory director shall have at least one laboratory agent, selected according to policies and procedures, participate in accuracy testing for the parameter.
- C. To demonstrate competence in testing for a parameter, test results reported for the parameter shall be within acceptance limits established by the Department, according to R9-17-404.03 or R9-17-404.04, or the proficiency testing service, as applicable.
- D. A technical laboratory director shall ensure that:
  1. Each sample for proficiency testing accepted at the laboratory is analyzed at the laboratory;
  2. Each sample for accuracy testing is analyzed at the laboratory;
  3. Each sample for proficiency testing or accuracy testing is tested according to R9-17-404.03 or R9-17-404.04, using the same procedures and techniques employed for routine sample testing;

## CHAPTER 17. DEPARTMENT OF HEALTH SERVICES - MEDICAL MARIJUANA PROGRAM

4. A proficiency testing service provides the results for each proficiency testing sample directly to the laboratory and the Department;
  5. If proficiency testing is provided by the Department, the laboratory submits to the Department payment for the actual costs of the materials for proficiency testing; and
  6. If proficiency testing is not provided by the Department, the laboratory selects a proficiency testing service and contracts with and pays the proficiency testing service directly for proficiency testing.
- E. The Department may submit blind proficiency testing samples to a laboratory at any time during the certification period.

**Historical Note**

New Section made by exempt rulemaking at 26 A.A.R. 734, with an immediate effective date of April 2, 2020 (Supp. 20-2).

**R9-17-404.03. Method Criteria and References for Chemical Analyses**

- A. In addition to the definitions in A.R.S. § 36-2801 and R9-17-101, the following definitions apply in this Section unless otherwise stated:
1. "Limit of quantitation" means the lowest concentration of an analyte that may be detected and the concentration of the analyte reliably and accurately determined.
  2. "Matrix" means the specific components of a sample, other than the analyte being tested for.
  3. "Mid-level standard" means a standard that is between the highest concentration and lowest concentration of standards containing the same substances that are used as a reference when testing for the concentration of an analyte.
  4. "Response factor" means the ratio between a signal produced by an analyte relative to a signal produced by an internal standard at a specific concentration.
  5. "Retention time" means the length of time taken by an analyte to pass through a chromatography column.
  6. "Standard" means a sample of known concentration and containing specific substances that is used as a reference when testing for the concentration of an analyte.
- B. To perform laboratory testing using chemical analytical methods for any of the analytes in Table 3.1, a laboratory may use:
1. An established national or international chemical method; or
  2. A laboratory-developed method that was validated according to:
    - a. AOAC - Appendix K: Guidelines for Dietary Supplements and Botanicals, 2013, which is incorporated by reference, includes no future editions or amendments, and is available at [http://www.eoma.aoac.org/app\\_k.pdf](http://www.eoma.aoac.org/app_k.pdf);
    - b. USDA - Guidelines for the Validation of Chemical Methods for the FDA FVM Program, 2nd Edition, April 2015, which is incorporated by reference, includes no future editions or amendments, and is available at <https://www.fda.gov/media/81810/download>; or
    - c. ICH - Validation of Analytical Procedures: Text and Methodology Q2(R1) 2005, which is incorporated by reference, includes no future editions or amendments, and is available at [https://database.ich.org/sites/default/files/Q2\\_R1\\_Guideline.pdf](https://database.ich.org/sites/default/files/Q2_R1_Guideline.pdf) or <https://www.fda.gov/regulatory-information/search-fda-guidance-documents/q2-r1-validation-analytical-procedures-text-and-methodology>.
- C. A technical laboratory director shall ensure that all instruments and equipment used for testing medical marijuana or a marijuana product by chemical analytical methods are:
1. Set up, tuned, and calibrated according to:
    - a. Manufacturer's acceptance criteria, or
    - b. Criteria validated according to subsection (B), as applicable;
  2. Monitored and maintained according to AOAC - Guidelines for Laboratories Performing Microbiological and Chemical Analyses of Food, Dietary Supplements, and Pharmaceuticals, Appendix A: Equipment, August 2018, which is incorporated by reference, includes no future editions or amendments, and is available at <https://www.aoac.org/aoac-accreditation-guidelines-for-laboratories-alacc>; and
  3. Applicable for the analytes to be tested.
- D. A technical laboratory director shall ensure that for an initial demonstration of capability:
1. Before implementing a method, at least four replicate reference samples for each analyte are:
    - a. Spiked into a clean matrix with, as applicable, an amount at or near the maximum allowable concentration for the analyte in Table 3.1 or the mid-level standard for potency testing; and
    - b. Taken through the entire sample preparation and analysis process;
  2. Whenever a significant change to instrumentation or to a standard operating procedure occurs, the laboratory demonstrates, as specified in subsection (D)(1), that acceptable precision and bias can still be obtained by the changed conditions; and
  3. Whenever a new laboratory agent who will be performing testing on medical marijuana or marijuana products is being trained, the laboratory agent demonstrates, as specified in subsection (D)(1), acceptable precision and bias.
- E. For potency testing or testing for pesticides, fungicides, herbicides, growth regulators, or residual solvents, a technical laboratory director shall ensure that:
1. For establishing the retention time for an analyte, the retention time is determined by three injections, over the course of a 72-hour period, of a standard at or near, as applicable:
    - a. The maximum allowable concentration in Table 3.1 for the analyte; or
    - b. The mid-level standard for potency testing; and
  2. The width of the retention time window for each analyte is defined as  $\pm 3$  times the standard deviation of the mean absolute retention time that was established during the 72-hour period or 0.1 minutes, whichever is greater.
- F. A technical laboratory director shall ensure that:
1. The laboratory complies with the following requirements related to calibration and standards:
    - a. Except as specified in subsection (F)(1)(c), a minimum of:
      - i. Five standards are used for an average response factor or for a linear model,
      - ii. Six standards are used for a quadratic model, and
      - iii. Seven standards are used for a cubic model;
    - b. An X-value of zero is not included as a calibration point;
    - c. A calibration curve for heavy metal testing includes a minimum of three standards and a calibration blank;
    - d. One standard is at or near the limit of quantitation;

## CHAPTER 17. DEPARTMENT OF HEALTH SERVICES - MEDICAL MARIJUANA PROGRAM

- e. Except as specified in subsection (F)(1)(f) and as applicable, one standard for each analyte is at or near the:
  - i. Maximum allowable concentration in Table 3.1 for the analyte, or
  - ii. Mid-level standard for potency testing; and
- f. For testing for residual solvents, either:
  - i. One standard for each analyte is at or near the maximum allowable concentration in Table 3.1 for the analyte; or
  - ii. A standard is created containing a concentration of specific analytes that is a dilution factor from the maximum allowable concentration in Table 3.1 for the analyte and is used when performing multiple runs on a sample, with or without dilution, to cover the range of maximum allowable concentrations in Table 3.1;
- g. One standard is above the maximum allowable concentration in Table 3.1 for an analyte;
- 2. The acceptance criteria for testing is one of the following, as applicable:
  - a. The maximum relative standard deviation for the average calibration factor, for an external calibration model, or the response factor, for an internal calibration model, is no more than 20%; and
  - b. For linear and non-linear calibration models, the coefficient of determination ( $r^2$ ) is greater than or equal to 0.99;
- 3. For chromatographic testing methods using internal standards for calibration:
  - a. The relative retention time of each analyte to the internal calibration standard is within 0.06 units;
  - b. The areas of the peaks for the internal standards in any sample are between 50 and 200% of the area of the peak of the internal standard in subsection (F)(1)(e) used for calibration; and
  - c. The internal standards:
    - i. Have retention times similar to the analytes being tested for,
    - ii. Do not interfere with any of the analytes, and
    - iii. Have similar chemical properties as the analytes being tested for; and
- 4. For methods testing for heavy metals, the internal standards:
  - a. Are appropriate for the analyte, and
  - b. Do not interfere with any of the analytes.
- G. To obtain an acceptable calibration, a technical laboratory director:
  - 1. May use any of the following options:
    - a. Perform instrument maintenance to optimize analyte responses, as long as all resulting calibration models meet the acceptance criteria appropriate for the analyte;
    - b. If the problem appears to be associated with a single standard:
      - i. Reanalyze that one standard, at the time of calibration and before any samples are analyzed, to rule out problems due to random error; and
      - ii. Recalculate and reevaluate the standard against the acceptance criteria;
    - c. Narrow the calibration range by replacing one or more of the calibration standards at the upper or lower ends of the curve;
    - d. Narrow the calibration range by removing data points from either extreme end of the range and recalculating the calibration function; or
    - e. Perform a new initial calibration according to subsection (F); and
  - 2. May not:
    - a. Remove data points from within a calibration range while still retaining the extreme ends of the calibration range, or
    - b. Use non-linear calibrations to compensate for detector saturation or to avoid proper instrument maintenance.
- H. A technical laboratory director shall ensure that for initial calibration verification:
  - 1. Standards are prepared either from a different source or from a different lot of standards from the same source than the source from which the initial calibration standards specified in subsection (F)(1) were obtained and must be at or near, as applicable:
    - a. The maximum allowable concentrations for an analyte in Table 3.1,
    - b. According to subsection (F)(1)(f)(ii), or
    - c. The mid-level standard for potency testing; and
  - 2. The following acceptance criteria are used:
    - a. For potency testing, 80 to 120% recovery of true value;
    - b. For testing for pesticides, fungicides, herbicides, growth regulators, or residual solvents, 70 to 130% recovery of the true value; and
    - c. For heavy metal testing, 90 to 110% recovery of the true value.
- I. A technical laboratory director shall ensure that for the limit of quantitation:
  - 1. The limit of quantitation is initially verified by the analysis of at least seven replicate samples, spiked at the limit of quantitation, and processed through all preparation and analysis steps of the method;
  - 2. The signal to noise ratio of the replicate samples in subsection (I)(1) is at least 5:1;
  - 3. The mean recovery of the replicate samples in subsection (I)(1) is:
    - a. For potency testing,  $\pm 20\%$  of the true value;
    - b. For testing for pesticides, fungicides, herbicides, growth regulators, or residual solvents,  $\pm 50\%$  of the true value; and
    - c. For heavy metal testing,  $\pm 35\%$  of the true value;
  - 4. The relative standard deviation of the replicate samples in subsection (I)(1) is less than 20%;
  - 5. The limit of quantitation is, as applicable, no greater than:
    - a. Half the maximum allowable concentrations for an analyte in Table 3.1, or
    - b. 1.0 mg/g for each analyte for potency testing;
  - 6. Any changes to specific sample amounts, dilutions, or volumes employed are reflected in the limit of quantitation stated on a sample report; and
  - 7. Documentation of the current limit of quantitation is maintained for each analyte for each instrument.
- J. Except as provided in subsection (P), a technical laboratory director shall ensure that for batch analysis:
  - 1. Continuing calibration verification standards:
    - a. Are prepared from the same calibration standard source used to prepare the standards specified in subsection (F)(1):
      - i. Initially, with a concentration at or near, as applicable, the maximum allowable concentration for an analyte in Table 3.1, according to subsection (F)(1)(f)(ii), or the mid-level standard for potency testing; and

## CHAPTER 17. DEPARTMENT OF HEALTH SERVICES - MEDICAL MARIJUANA PROGRAM

- ii. Subsequently, with a concentration at or between the highest concentration and lowest concentration of standards for the analytes in the batch;
    - b. Have the following acceptance criteria:
      - i. For potency testing, 80 - 120% recovery of true value;
      - ii. For testing for pesticides, fungicides, herbicides, growth regulators, or residual solvents, 70 - 130% recovery of the true value; and
      - iii. For heavy metal testing, 90 - 110% recovery of the true value;
  - 2. If internal standards are used in continuing calibration verification, the acceptability criteria of the internal standards is determined as follows:
    - a. For testing for pesticides, fungicides, herbicides, growth regulators, or residual solvents by mass spectrometry, if the area of the peak for an internal standard is different by a factor of two from the area of the respective standard in subsection (F)(1)(e), for the most recent initial calibration sequence, according to subsection (F):
      - i. The mass spectrometer is inspected for malfunctions and corrected, and
      - ii. Reanalysis of the continuing calibration verification meets acceptance criteria in subsection (J)(1)(b)(ii) before any samples are tested; and
    - b. For heavy metal testing:
      - i. The intensity of an internal standard is monitored for each analysis to ensure that the intensity does not vary by more than  $\pm 30\%$ , with respect to the intensity during the initial calibration in subsection (F); and
      - ii. If the intensity of an internal standard is outside the range also observed in the calibration blank required in subsection (F)(1)(c):
        - (1) Testing is stopped until the problem is corrected, the instrument is recalibrated, and the new calibration is verified;
        - (2) Reanalysis of the continuing calibration verification meets acceptance criteria in subsection (J)(1)(b)(iii) before any samples are tested; and
        - (3) The affected samples are retested; and
  - 3. The frequency of continuing calibration verification is as follows:
    - a. For potency testing, heavy metal testing, or testing for pesticides, fungicides, herbicides, growth regulators, or residual solvents by a method other than mass spectrometry:
      - i. At the beginning of the test;
      - ii. After every 20 samples, not counting a quality control sample, such as a sample required in subsection (K); and
      - iii. At the end of the test; and
    - b. For testing for pesticides, fungicides, herbicides, growth regulators, or residual solvents by mass spectrometry:
      - i. At the beginning of the testing,
      - ii. After every 12 hours of running, and
      - iii. At the end of the run.
- K.** Except as provided in subsection (P), a technical laboratory director shall ensure that for batch analysis:
- 1. A method blank, with a matrix similar to each type of sample matrix to be tested within the batch:
    - a. Contains the same internal standards as the samples in the batch,
    - b. Is prepared and tested with each batch, and
    - c. Produces results below the limit of quantitation;
  - 2. Except as provided in subsection (R), a laboratory control sample and duplicate:
    - a. Are prepared at or near, as applicable:
      - i. The maximum allowable concentrations for an analyte in Table 3.1,
      - ii. According to subsection (F)(1)(f)(ii), or
      - iii. The mid-level standard for potency testing;
    - b. Are carried through all stages of sample preparation and included with each analytical batch of up to 20 samples; and
    - c. Have the following acceptance criteria:
      - i. For potency testing, 80 - 120% recovery of true value;
      - ii. For testing for pesticides, fungicides, herbicides, growth regulators, or residual solvents, 70 - 130% recovery of the true value; and
      - iii. For heavy metal testing, 80 - 120% recovery of the true value;
  - 3. The relative percent difference for the laboratory control sample and duplicate, calculated on the basis of concentration or amount, is no more than 20%; and
  - 4. A matrix spike:
    - a. Is prepared at or near, as applicable, the maximum allowable concentrations for an analyte in Table 3.1 or the mid-level standard for potency testing;
    - b. Is carried through all stages of sample preparation and included with each analytical batch of up to 20 samples for each matrix type; and
    - c. Has either the following acceptance criteria or acceptance criteria within statistically derived limits developed by the laboratory:
      - i. For potency testing, 80 - 120% recovery of true value;
      - ii. For testing for pesticides, fungicides, herbicides, growth regulators, or residual solvents, 70 - 130% recovery of the true value; and
      - iii. For heavy metal testing, 75 - 125% recovery of the true value.
- L.** A technical laboratory director shall ensure that:
- 1. Except as provided in subsection (P), for potency testing or testing for pesticides, fungicides, herbicides, growth regulators, or residual solvents by mass spectrometry, the relative intensities of the characteristic ions agrees within 30% of the relative intensities of these ions in the reference spectrum; and
  - 2. For heavy metal testing, the intensity of each internal standard is monitored for each analysis to ensure that the intensity does not vary more than  $\pm 30\%$ , with respect to the intensity of the internal standard during the initial calibration specified in subsection (F).
- M.** A technical laboratory director shall ensure that the resolution of chromatographic peaks in potency testing or testing for pesticides, fungicides, herbicides, growth regulators, or residual solvents by a method other than mass spectrometry is maintained so that the height of the valley between the two chromatographic peaks is less than 50% of the average of the two peak heights.
- N.** A technical laboratory director shall ensure that confirmation for testing for pesticides, fungicides, herbicides, growth regulators, or residual solvents by a method other than mass spectrometry:
- 1. Is performed using:

## CHAPTER 17. DEPARTMENT OF HEALTH SERVICES - MEDICAL MARIJUANA PROGRAM

- a. A second column:
    - i. That has a stationary phase dissimilar to the stationary phase in the primary column, and
    - ii. From which the analyte is eluted in a different order than from the primary column;
  - b. A different instrument type, such as gas chromatography followed by mass spectrometry;
  - c. Gas chromatography with two different types of detectors; or
  - d. Other recognized confirmation techniques;
2. Meets the applicable criteria in subsections (D) through (M); and
  3. Includes as part of the confirmation of the analyte:
    - a. An evaluation of the agreement of the quantitative values of the results from both methods of testing; and
    - b. Determination of the relative percent difference between the values.
- O.** If the relative percent difference between the values obtained according to subsection (N) is more than 40%, a technical laboratory director shall ensure that:
1. The chromatograms are checked to see if an obviously overlapping peak is causing an erroneously high result, and the chromatographic conditions are reviewed; and
  2. Either:
    - a. If a problem is found with one of the tests, the result from the other test is reported; and
    - b. If there is no evidence of a chromatographic problem, the higher result is reported.
- P.** A technical laboratory director may release testing results that are scientifically valid and defensible, according to R9-17-404.06(B)(3), with the following data qualifier notations if:
1. The target analyte detected in the calibration blank required in subsection (F)(1)(c) or the method blank specified in subsection (K)(1) is at or above the limit of quantitation, but the sample result:
    - a. For potency testing, is below the limit of quantitation – B1; or
    - b. When testing for pesticides, fungicides, herbicides, growth regulators, heavy metals, or residual solvents, is below the maximum allowable concentration in Table 3.1 for the analyte – B2;
  2. The limit of quantitation and the sample results were adjusted to reflect sample dilution - D1;
  3. The relative intensity of a characteristic ion in a sample analyte exceeded the acceptance criteria in subsection (L)(1) with respect to the reference spectra, indicating interference – I1;
  4. When testing for pesticides, fungicides, herbicides, growth regulators, heavy metals, or residual solvents, the percent recovery of a laboratory control sample is greater than the acceptance limits in subsection (K)(2)(c), but the sample's target analytes were not detected above the maximum allowable concentrations in Table 3.1 for the analytes in the sample – L1;
  5. The recovery from the matrix spike in subsection (K)(4) was:
    - a. High, but the recovery from the laboratory control sample in subsection (K)(2) was within acceptance criteria – M1,
    - b. Low, but the recovery from the laboratory control sample in subsection (K)(2) was within acceptance criteria – M2, or
    - c. Unusable because the analyte concentration was disproportionate to the spike level, but the recovery from the laboratory control sample in subsection (K)(2) was within acceptance criteria – M3;
  6. The analysis of a spiked sample required a dilution such that the spike recovery calculation does not provide useful information, but the recovery from the associated laboratory control sample in subsection (K)(2) was within acceptance criteria – M4;
  7. The analyte concentration was determined by the method of standard addition, in which the standard is added directly to the aliquots of the analyzed sample – M5;
  8. A description of the variance is described in the final report of testing according to R9-17-404.06(B)(3)(d)(iii) – N1;
  9. The relative percent difference for the laboratory control sample and duplicate exceeded the limit in subsection (K)(3), but the recovery in subsection (K)(2) was within acceptance criteria – R1;
  10. The relative percent difference for a sample and duplicate exceeded the limit in subsection (O) – R2; or
  11. The recovery from continuing calibration verification standards exceeded the acceptance limits in subsection (J)(1)(b), but the sample's target analytes were not detected above the maximum allowable concentrations in Table 3.1 for the analytes in the sample – V1.
- Q.** A technical laboratory director shall include in the final report of testing, according to R9-17-404.06(B)(3)(d)(ii), the following data qualifier notations if:
1. Sample integrity was not maintained – Q1; or
  2. The sample is heterogeneous, and sample homogeneity could not be readily achieved using routine laboratory practices – Q2.
- R.** For batch analysis of samples to determine potency, a technical laboratory director may check precision by using either a duplicate laboratory control sample or a duplicate sample prepared from the medical marijuana or marijuana product being tested, according to requirements in subsections (K)(2) and (3).
- S.** A technical laboratory director shall ensure that the reporting units for:
1. Pesticides, fungicides, herbicides, growth regulators, heavy metals, or residual solvents is in parts per million (ppm); and
  2. Potency is in percent relative to the bulk plant material (w/w) and for:
    - a. Total tetrahydrocannabinol, the sum of tetrahydrocannabinolic acid (THC-A), multiplied by 0.877, and delta-9-tetrahydrocannabinol ( $\Delta$ 9-THC); and
    - b. Total cannabidiol, the sum of cannabidiolic acid (CBD-A), multiplied by 0.877, and cannabidiol (CBD).

- B. A technical laboratory director shall ensure that all instruments and equipment used for testing medical marijuana or a marijuana product for microbial contaminants are:
  - 1. Set up, calibrated, and verified according to:
    - a. Manufacturer's acceptance criteria; and
    - b. Requirements for the specific method, as specified in subsection (A)(1)(a) or (b), as applicable;
  - 2. Monitored and maintained according to AOAC - Guidelines for Laboratories Performing Microbiological and Chemical Analyses of Food, Dietary Supplements, and Pharmaceuticals, Appendix A: Equipment, August 2018, which is incorporated by reference, includes no future editions or amendments, and is available at <https://www.aoac.org/aoac-accreditation-guidelines-for-laboratories-alacc>; and
  - 3. Applicable for the analytes to be tested.
- C. A technical laboratory director shall ensure that:
  - 1. The organisms required as controls are checked, as appropriate for their application:
    - a. To ensure there is no contamination with other organisms,
    - b. For verification of biochemical or other biological characteristics, and
    - c. To ascertain the number of organisms; and
  - 2. Documentation is maintained of the:
    - a. Checking required in subsection (C)(1), and
    - b. Traceability of the organisms in subsection (C)(1) from date of possession.
- D. A technical laboratory director shall ensure that for an initial demonstration of capability:
  - 1. Before implementing a method, at least four replicate reference samples for each analyte are:
    - a. Spiked with control organisms at an amount allowing for quantitation, and
    - b. Taken through the entire sample preparation and analysis process;
  - 2. Whenever a significant change to instrumentation or to a standard operating procedure occurs, the laboratory demonstrates, as specified in subsection (D)(1), that acceptable precision and bias can still be obtained by the changed conditions; and
- 3. Whenever a new laboratory agent who will be performing testing on medical marijuana or marijuana products is being trained, the laboratory agent demonstrates, as specified in subsection (D)(1), acceptable precision and bias.
- E. A technical laboratory director shall ensure that each batch of media or reagent:
  - 1. Is examined to ensure it is suitable for use;
  - 2. If externally prepared, has a certificate of meeting quality control standards, issued by the manufacturer;
  - 3. If internally prepared, has documentation of:
    - a. Instructions for preparation;
    - b. Traceability to dehydrated media or reagent concentrate;
    - c. Sterility, including, as applicable:
      - i. Autoclave records showing the date, run number, autoclave identifier, nature of the material being autoclaved, time at desired temperature, and name of the laboratory agent starting the autoclave; and
      - ii. For another sterilization method, records showing the date, type of sterilization method, nature of the material being sterilized, confirmation of the sterilization as applicable to the method, and name of the laboratory agent initiating the sterilization method;
    - d. Checking for the following, as applicable, including the name of the laboratory agent who performed the check and date of the check:
      - i. pH,
      - ii. Appearance,
      - iii. Fill volumes,
      - iv. Batch size, and
      - v. Quantity; and
  - 4. Undergoes quality control verification, as applicable, including the name of the laboratory agent who performed the verification and date of verification, for:
    - a. The ability of media to sustain growth of the organism for which the media will be used;
    - b. If applicable, the ability of media to select for specific organisms or characteristics of an organism;
    - c. The ability of a reagent to function as intended; and
    - d. Sterility of the media or reagent before use.
- F. If test kits or other identification systems are used for laboratory testing, a technical laboratory director shall ensure that:
  - 1. Each lot of test kits or other identification systems undergoes quality control verification, including the name of the laboratory agent who performed the verification and date of verification, for:
    - a. Having a certificate of meeting quality control standards, issued by the manufacturer; and
    - b. Passing a visual inspection of physical characteristics; and
  - 2. If an identification system is intended to speciate organisms, the identification system is tested with at least one control organism appropriate for the identification system to confirm acceptability.
- G. A technical laboratory director shall ensure that:
  - 1. For testing for *Aspergillus* with a plating method:
    - a. One of the following plating media is used:
      - i. Malt extract agar, BAM Media M182;
      - ii. Dichloran rose bengal chloramphenicol agar, BAM Media M183; or
      - iii. Potato dextrose agar with rose bengal and chloramphenicol; and

## CHAPTER 17. DEPARTMENT OF HEALTH SERVICES - MEDICAL MARIJUANA PROGRAM

- b. Petrifilm™, Simplate™, or another pre-made plate that is unsuitable for growing spreading molds is not used; and
    - 2. For testing for mycotoxins by any method, at least a 0.5 g sample is tested.
  - H. A technical laboratory director shall ensure that:
    - 1. The reporting units for *Escherichia coli* are colony forming units per gram (CFU/g);
    - 2. Reporting for *Salmonella* is “Detected” or “Not detected” in one gram;
    - 3. Reporting for *Aspergillus* is “Detected” or “Not detected” in one gram; and
    - 4. Reporting for mycotoxins includes:
      - a. Total aflatoxins in units of micrograms per kilogram (µg/kg), and
      - b. Ochratoxin A in units of micrograms per kilogram (µg/kg).
- Historical Note**

- R9-17-404.05. Quality Assurance**
- A. An owner holding a laboratory registration certificate or applicant shall ensure that the analytical data produced at the owner’s or applicant’s laboratory are of known and acceptable precision and accuracy, as prescribed by the method criteria for each analyte in R9-17-404.03 or R9-17-404.04, and are scientifically valid and defensible.
  - B. An owner holding a laboratory registration certificate or applicant shall establish, implement, and comply with a written quality assurance plan that contains the following and is available at the laboratory for Department review:
    - 1. A title page identifying the laboratory and date of review and including the technical laboratory director’s signature of approval;
    - 2. A table of contents;
    - 3. An organization chart or list of the laboratory personnel, including names, lines of authority, and identification of principal quality assurance personnel;
    - 4. A copy of the current laboratory registration certificate and a list of approved parameters;
    - 5. A statement of quality assurance objectives, including data quality objectives with precision and accuracy goals and the criteria for determining the acceptability of each testing;
    - 6. Specifications for:
      - a. Sample containers,
      - b. Preparation of sample containers, and
      - c. Preservation of samples;
    - 7. A procedure for documenting laboratory receipt of samples and tracking of samples during laboratory testing;
    - 8. A procedure for analytical instrument calibration, including frequency of calibration and complying with the requirements for calibration in subsection (D);
    - 9. A procedure for testing data reduction and validation and reporting of final results, including the identification and treatment of data outliers, the determination of the accuracy of data transcription, and all calculations;
    - 10. A statement of the frequency of all quality control checks;
    - 11. A statement of the acceptance criteria for all quality control checks;
    - 12. Preventive maintenance procedures and schedules;
  - 13. Assessment procedures for data acceptability, including appropriate procedures for manual integration of chromatograms and when manual integration is inappropriate;
  - 14. Corrective action procedures to be taken when results from analytical quality control checks are unacceptable, including steps to demonstrate the presence of any interference if the precision, accuracy, or limit of quantitation of the reported testing result is affected by the interference; and
  - 15. Procedures for chain-of-custody documentation, including procedures for the documentation and reporting of any deviation from the sample handling or preservation requirements.
- C. An owner holding a laboratory registration certificate or applicant shall ensure that a laboratory’s written quality assurance plan is a separate document available at the laboratory and includes all of the components required in subsection (B), but an owner or applicant may satisfy the components required in subsections (B)(3) through (15) through incorporating by reference provisions in separate documents, such as standard operating procedures.
  - D. An owner holding a laboratory registration certificate or applicant shall:
    - 1. Have available at the laboratory all methods, equipment, reagents, and supplies necessary for the testing for which the owner or applicant is approved or is requesting approval;
    - 2. Use only reagents of a grade equal to or greater than that required by the method criteria in R9-17-404.03 or R9-17-404.04, and document the use of the reagents;
    - 3. Maintain and require each laboratory agent performing testing on medical marijuana or a marijuana product to comply with a complete and current standard operating procedure that meets the requirements for each method, as specified in R9-17-404.03 or R9-17-404.04, which shall include at least:
      - a. A description of all procedures to be followed when the method is performed;
      - b. A list of the concentrations for calibration standards, check standards, and spikes;
      - c. Requirements for instrumental conditions and set up;
      - d. A requirement for frequency of calibration;
      - e. The quantitative methods to be used to calculate the final concentration of an analyte in samples, including any factors used in the calculations and the calibration algorithm used; and
      - f. Requirements for preventative maintenance;
    - 4. Calibrate each instrument as required by the standard operating procedure, as specified in R9-17-404.03 or R9-17-404.04, for which the equipment is used;
    - 5. Maintain calibration documentation, including documentation that demonstrates the calculations performed using each calibration model;
    - 6. Develop, document, and maintain a current limit of quantitation, as specified in R9-17-404.03, for each compliance parameter for each instrument;
    - 7. For each parameter tested at the laboratory use the quality control acceptance criteria specified according to R9-17-404.03, R9-17-404.04, and Table 3.1;
    - 8. Discard or segregate all expired standards or reagents;
    - 9. Maintain a record showing the traceability of reagents; and
    - 10. Ensure that a calibration model is not used or changed to avoid necessary instrument maintenance.

## CHAPTER 17. DEPARTMENT OF HEALTH SERVICES - MEDICAL MARIJUANA PROGRAM

- E. Except as provided in subsection (F), an owner holding a laboratory registration certificate or applicant shall ensure that each laboratory standard operating procedure is a separate document available at the laboratory and includes all of the components required in subsection (D)(3).
- F. An owner holding a laboratory registration certificate or applicant may satisfy the components required in subsections (D)(3)(e) and (f) through incorporating by reference provisions in separate documents, such as other standard operating procedures.

**R9-17-404.06. Operations**

- A. A technical laboratory director shall ensure that:
  - 1. A sample of medical marijuana or a marijuana product accepted at the technical laboratory director's laboratory is analyzed at the laboratory and as received;
  - 2. If an instrument or equipment used for testing medical marijuana or a marijuana product has a mechanism to track any changes made to testing results, the tracking mechanism is activated;
  - 3. The facility and utilities required to operate equipment and perform testing of medical marijuana or marijuana products are maintained;
  - 4. Environmental controls are maintained within the laboratory to ensure that laboratory environmental conditions do not affect analytical results beyond quality control limits established for the methods performed at the laboratory;
  - 5. Storage, handling, and disposal of hazardous materials at the laboratory are in accordance with all state and federal regulations;
  - 6. The laboratory complies with all applicable federal, state, and local occupational safety and health regulations; and
  - 7. The following information is maintained for all laboratory agents providing supervisory, quality assurance, or analytical functions related to testing of medical marijuana or a marijuana product:
    - a. A summary of each laboratory agent's education and professional experience;
    - b. Documentation of each laboratory agent's applicable certifications and specialized training;
    - c. Information related to the laboratory agent's registry identification card;
    - d. Documentation of each laboratory agent's review of the quality assurance plan required under R9-17-404.05(B) and the methods and laboratory standard operating procedures for all testing of marijuana or marijuana products performed by the laboratory agent or for which the laboratory agent has supervisory or quality assurance responsibility;
    - e. Documentation of each laboratory agent's completion of training on the use of equipment and of proper laboratory technique, including the name of the laboratory agent, the name of the instructor, the duration of the training, and the date of completion of the training;
    - f. Documentation of each laboratory agent's completion of training classes, continuing education courses, seminars, and conferences that relate to the testing procedures used by the laboratory agent for testing of marijuana or marijuana products;
- B. A technical laboratory director shall ensure that:
  - 1. A testing record for marijuana or marijuana products contains:
    - a. Sample information, including the following:
      - i. A unique sample identification assigned at the laboratory;
      - ii. A description of the marijuana or marijuana product from which the submitted sample was taken, including the amount, strain, and batch number;
      - iii. The sample collection date and time; and
      - iv. The type of testing to be performed;
    - b. A picture of the sample as submitted;
    - c. The name and registry identification number of the dispensary, qualifying patient, or designated caregiver submitting the sample to the laboratory;
    - d. If applicable, name and the registry identification number of the dispensary agent submitting the sample to the laboratory on behalf of a dispensary;
    - e. The date and time of receipt of the sample at the laboratory;
    - f. The name and registry identification number of the laboratory agent who received the sample at the laboratory;
    - g. The dates and times of testing, including the date and time of each critical step;
    - h. Whether testing results related to a sample were changed;
    - i. If testing results related to a sample were changed, what was changed, the name of the laboratory agent who changed the testing results, the time and date the data were changed, and why the testing results were changed;
    - j. If testing results were changed due to retesting:
      - i. What was used or done to the sample, and
      - ii. The original and changed testing results;
    - k. The actual results of testing, including all raw data, work sheets, and calculations performed;

## CHAPTER 17. DEPARTMENT OF HEALTH SERVICES - MEDICAL MARIJUANA PROGRAM

- l. The actual results of quality control data validating the test results, including the calibration and calculations performed;
- m. The name of each laboratory agent who performed the testing; and
- n. A copy of the final report;
2. A testing result for medical marijuana or a marijuana product that is known to be inaccurate is not reported; and
3. A final report of testing of marijuana or marijuana products contains:
  - a. The name, address, and telephone number of the laboratory;
  - b. The registry identification number assigned to the laboratory by the Department;
  - c. Actual scientifically valid and defensible results of testing of a sample of medical marijuana or a marijuana product in appropriate units of measure, obtained in accordance with R9-17-404.03, R9-17-404.04, and the quality assurance plan;
  - d. Either:
    - i. A statement that testing results were obtained according to requirements in the quality assurance plan in R9-17-404.05, in the applicable standard operating procedure, and in R9-17-404.03 or R9-17-404.04; or
    - ii. A description of any variances from the requirements in the quality assurance plan in R9-17-404.05, the applicable standard operating procedure, R9-17-404.03, or R9-17-404.04, and the reason for the variance;
  - e. A list of each method used to obtain the reported results;
  - f. Sample information, including the following:
    - i. The unique sample identification assigned at the laboratory;
    - ii. A picture of the sample as submitted;
    - iii. A description of the marijuana or marijuana product from which the submitted sample was taken, including the amount, strain and batch number;
    - iv. The sample collection date and time;
    - v. The name and registry identification number of the dispensary, qualifying patient, or designated caregiver submitting the sample to the laboratory; and
    - vi. If applicable, name and the registry identification number of the dispensary agent submitting the sample to the laboratory on behalf of a dispensary;
  - g. The date of testing for each parameter reported;
  - h. The date of the final report; and

**R9-17-407. Inventory Control System**

- A. A laboratory shall not accept submissions of marijuana or marijuana products for testing from an individual who or entity that is not allowed to possess marijuana pursuant to A.R.S. Title 36, Chapter 28.1.
- B. A technical laboratory director laboratory shall designate in writing a laboratory agent who has oversight of the laboratory's marijuana inventory control system.
- C. A technical laboratory director shall establish and implement an inventory control system for the laboratory's medical marijuana and marijuana products that documents:
  - 1. Each day's beginning medical marijuana and marijuana products inventory, medical marijuana and marijuana products accepted for testing, medical marijuana and marijuana products transferred to another laboratory at

the request of a dispensary according to R9-17-3317.01(C), disposal of medical marijuana or marijuana products, and ending medical marijuana and marijuana products inventory;

- 2. The chain of custody for each sample of medical marijuana or a marijuana product submitted to the laboratory for testing;
- 3. Any damage to a sample's container or possible tampering; and
- 4. As applicable, for submissions of marijuana and marijuana products for testing:
  - a. A description of the submitted marijuana or marijuana products including the amount, strain and batch number;
  - b. The name and registry identification number of the dispensary that submitted the marijuana or marijuana products;
  - c. The name and registry identification number of the dispensary agent that submitted the marijuana or marijuana products;
  - d. The name and registry identification number of the qualifying patient that submitted the marijuana or marijuana products;
  - e. The name and registry identification number of the designated caregiver that submitted the marijuana or marijuana products;
  - f. The name and registry identification number of the laboratory agent receiving the marijuana or marijuana products on behalf of the laboratory;
  - g. The date of acquisition;
  - h. The date of each test; and
  - i. The test results.
- D. The individual designated in subsection (A) shall conduct and document an audit of the laboratory's inventory that is accounted for according to generally accepted accounting principles at least once every 30 calendar days.
  - 1. If the audit identifies a reduction in the amount of marijuana or marijuana products in the laboratory's inventory not due to documented causes, the technical laboratory director shall determine where the loss has occurred and take and document corrective action.
  - 2. If the reduction in the amount of marijuana or marijuana products in the laboratory's inventory is due to suspected criminal activity by a laboratory agent, the technical laboratory director shall report the laboratory agent to the Department and to the local law enforcement authorities and document the report.
- E. A laboratory shall:
  - 1. Maintain the documentation required in subsections (C) and (D) at the dispensary for at least five years after the date on the document, and
  - 2. Provide the documentation required in subsections (C) and (D) to the Department for review upon request.

**Historical Note**

New Section made by exempt rulemaking at 25 A.A.R. 2421, effective August 27, 2019 (Supp. 19-3). Amended by exempt rulemaking at 26 A.A.R. 734, with an immediate effective date of April 2, 2020; amended by exempt rulemaking at 26 A.A.R. 968, effective April 20, 2020 (Supp. 20-2).

**R9-17-408. Security**

- A. Except as provided in R9-17-404(8), a laboratory shall ensure that access to the area of the laboratory where marijuana or marijuana products are being tested or stored for testing is limited to a laboratory's owners and authorized laboratory agents.

## CHAPTER 17. DEPARTMENT OF HEALTH SERVICES - MEDICAL MARIJUANA PROGRAM

- B.** A laboratory agent may transport marijuana or marijuana products submitted for testing to a laboratory.
- C.** Before transportation to a laboratory, a laboratory agent shall:
1. Complete a trip plan that includes:
    - a. The name of the laboratory agent in charge of transporting the marijuana or marijuana products;
    - b. The date and start time of the trip;
    - c. A description of the marijuana or marijuana products being transported;
    - d. Any anticipated stops during the trip, including the locations of the stops; and
    - e. The anticipated route of transportation; and
  2. Provide a copy of the trip plan in subsection (C)(1) to the laboratory.
- D.** During transportation to the laboratory, a laboratory agent shall:
1. Carry a copy of the trip plan in subsection (C)(1) with the laboratory agent for the duration of the trip;
  2. Use a vehicle without any medical marijuana identification;
  3. Have a means of communication with the laboratory; and
  4. Ensure that the marijuana or marijuana products are not visible.
- E.** After transportation, a laboratory agent shall enter the end time of the trip and any changes to the trip plan on the trip plan required in subsection (C)(1).
- F.** If a dispensary agent transports medical marijuana or a marijuana product to a laboratory for testing, the laboratory shall require that a copy of the trip plan be provided by the dispensary before accepting the medical marijuana or marijuana product for testing.
- G.** A laboratory shall:
1. Maintain the documents required in subsections (C)(2), (E), and (F); and
  2. Provide a copy of the documents required in subsections (C)(2), (E), and (F) to the Department for review upon request.
- H.** To prevent unauthorized access to marijuana or marijuana products at the laboratory for testing, the laboratory shall have the following:
1. Security equipment to deter and prevent unauthorized entrance into limited access areas that include:
    - a. Devices or a series of devices to detect unauthorized intrusion, which may include a signal system interconnected with a radio frequency method, such as cellular, private radio signals, or other mechanical or electronic device;
    - b. Exterior lighting to facilitate surveillance;
    - c. Electronic monitoring including:
      - i. At least one 19-inch or greater call-up monitor;
      - ii. A video printer capable of immediately producing a clear still photo from any video camera image;
      - iii. Video cameras:
        - (1) Providing coverage of all entrances to and exits from limited access areas and all entrances to and exits from the building, capable of identifying any activity occurring in or adjacent to the building; and
        - (2) Having a recording resolution of at least 704 x 480 or the equivalent;
      - iv. A video camera in each area of the laboratory where marijuana or marijuana products are being tested or stored for testing capable of identifying any activity occurring within the area in low light conditions;
  - v. Storage of video recordings from the video cameras for at least 30 calendar days;
  - vi. A failure notification system that provides an audible and visual notification of any failure in the electronic monitoring system; and
  - vii. Sufficient battery backup for video cameras and recording equipment to support at least five minutes of recording in the event of a power outage; and
- d. Panic buttons in the interior of each building; and
2. Policies and procedures that:
    - a. Restrict access to the areas of the laboratory that contain marijuana or marijuana products and, if applicable, to authorized individuals only;
    - b. Provide for the identification of authorized individuals; and
    - c. Prevent loitering.

**Historical Note**

New Section made by exempt rulemaking at 25 A.A.R. 2421, effective August 27, 2019 (Supp. 19-3). Amended by exempt rulemaking at 26 A.A.R. 734, with an immediate effective date of April 2, 2020 (Supp. 20-2).

**R9-17-409. Physical Plant**

- A.** A laboratory shall ensure that designated storage areas for marijuana or marijuana products or materials used in direct contact with marijuana or marijuana products are:
1. Separate from storage areas for toxic or flammable materials; and
  2. Maintained in a manner to prevent:
    - a. Microbial contamination and proliferation, and
    - b. Contamination or infestation by insects or rodents.
- B.** A laboratory shall ensure that a designated storage area for medical marijuana or a marijuana product is:
1. At an appropriate temperature for the medical marijuana or marijuana product, as specified on the packaged sample;
  2. Monitored to ensure that a:
    - a. Room temperature storage area is maintained between 20°C and 28°C,
    - b. Refrigerated storage area is maintained between 2°C and 8°C, and
    - c. Freezer storage area is maintained at less than -20°C; and
  3. Labelled to indicate the temperature range and types of medical marijuana or marijuana products to be stored in the storage area.
- C.** A laboratory shall ensure that a designated area for testing medical marijuana or a marijuana product for microbial contaminants is maintained in a manner to prevent exposure of the medical marijuana or marijuana product to external microbial contaminants.
- D.** A laboratory shall ensure that a designated area for testing medical marijuana or a marijuana product for pesticides, fungicides, herbicides, growth regulators, heavy metals, or residual solvents is maintained in a manner to prevent exposure of the medical marijuana or marijuana product to external contamination.

**Historical Note**

New Section made by exempt rulemaking at 25 A.A.R. 2421, effective August 27, 2019 (Supp. 19-3). Amended by exempt rulemaking at 26 A.A.R. 734, with an immediate effective date of April 2, 2020 (Supp. 20-2).

**R9-17-410. Denial or Revocation of a Laboratory Registration Certificate**

## CHAPTER 17. DEPARTMENT OF HEALTH SERVICES - MEDICAL MARIJUANA PROGRAM

- A.** The Department shall deny an application for a laboratory registration certificate if:
1. The physical address of the laboratory is within 500 feet of a private school or a public school that existed before the date the laboratory submitted the initial laboratory registration certificate application;
  2. An owner:
    - a. Has been convicted of an excluded felony offense, or
    - b. Is under 21 years of age;
  3. The application or the laboratory does not comply with the requirements in A.R.S. Title 36, Chapter 28.1 and this Chapter;
  4. The laboratory acquires marijuana or marijuana products from an individual who or entity that is not allowed to possess marijuana pursuant to A.R.S. Title 36, Chapter 28.1;
  5. The laboratory diverts marijuana or marijuana products to an individual who or entity that is not allowed to possess marijuana pursuant to A.R.S. Title 36, Chapter 28.1;
  6. An owner has any direct or indirect familial or financial relationship with or interest in a dispensary or related medical marijuana business entity or management company, or any direct or indirect familial or financial relationship with a designated caregiver for whom the laboratory is testing marijuana and marijuana products for medical use in this state; or
  7. The laboratory fails to maintain accreditation.
- B.** The Department may deny an application for a laboratory registration certificate if an owner of the laboratory provides false or misleading information to the Department.
- C.** The Department shall revoke a laboratory's registration certificate if:
1. The laboratory acquires marijuana or marijuana products from an individual who or entity that is not allowed to possess marijuana pursuant to A.R.S. Title 36, Chapter 28.1;
  2. The laboratory diverts marijuana or marijuana products to an individual who or entity that is not allowed to possess marijuana pursuant to A.R.S. Title 36, Chapter 28.1;
  3. An owner has been convicted of an excluded felony offense;
  4. An owner has any direct or indirect familial or financial relationship with or interest in a dispensary or related medical marijuana business entity or management company, or any direct or indirect familial or financial relationship with a designated caregiver for whom the laboratory is testing marijuana and marijuana products for medical use in this state; or
  5. The laboratory fails to maintain accreditation.
- D.** The Department may deny an application for a laboratory registration certificate or revoke a laboratory registration certificate if the laboratory does not:
1. Comply with:
    - a. The requirements in A.R.S. Title 36, Chapter 28.1 and this Chapter; or
    - b. The provisions in a corrective action plan submitted according to R9-17-404.01(E)(2)(b); or
  2. Implement the policies and procedures or comply with the statements provided to the Department with the laboratory's application.
- E.** If the Department denies a laboratory registration certificate application, the Department shall provide notice to the applicant that includes:
1. The specific reason or reasons for the denial, and
  2. All other information required by A.R.S. § 41-1076.
- F.** If the Department revokes a laboratory registration certificate, the Department shall provide notice to the laboratory that includes:
1. The specific reason or reasons for the revocation; and
  2. The process for requesting a judicial review of the Department's decision pursuant to A.R.S. Title 12, Chapter 7, Article 6.

**Historical Note**

New Section made by exempt rulemaking at 25 A.A.R. 2421, effective August 27, 2019 (Supp. 19-3). Amended by exempt rulemaking at 26 A.A.R. 734, with an immediate effective date of April 2, 2020 (Supp. 20-2).

**R9-17-411. Denial or Revocation of a Laboratory Agent's Registry Identification Card**

- A.** The Department shall deny an application for or renewal of a laboratory agent's registry identification card if the laboratory agent does not meet the requirements in A.R.S. § 36-2801.
- B.** The Department may deny an application for or renewal of a laboratory agent's registry identification card if the laboratory agent provides false or misleading information to the Department.
- C.** The Department shall revoke a laboratory agent's registry identification card if the laboratory agent:
1. Uses marijuana, if the laboratory agent does not have a qualifying patient registry identification card;
  2. Diverts marijuana or marijuana products to an individual who or entity that is not allowed to possess marijuana pursuant to A.R.S. Title 36, Chapter 28.1; or
  3. Has been convicted of an excluded felony offense.
- D.** The Department may revoke a laboratory agent's registry identification card if the laboratory agent knowingly violates A.R.S. Title 36, Chapter 28.1 or this Chapter.
- E.** If the Department denies or revokes a laboratory agent's registry identification card, the Department shall provide notice to the laboratory agent and the laboratory agent's laboratory that includes:
1. The specific reason or reasons for the denial or revocation; and
  2. The process for requesting a judicial review of the Department's decision pursuant to A.R.S. Title 12, Chapter 7, Article 6.

**ARTICLE 7. DEFINITIONS, SCOPE, AND ENFORCEMENT DATES****R13-3-701. Definitions**

- A. The definitions in A.R.S. §§ 28-101 and 41-1701 apply to this Chapter.
- B. In this Chapter:
  1. "Alter" means adding, modifying, or removing any equipment or component after a tow truck has received a permit decal from the Department, in a manner that may affect the operation of the tow truck, compliance with A.R.S. § 28-1108 and this Chapter, or the health, safety, or welfare of any individual.
  2. "Bed assembly" means the part of a tow truck that is located behind the cab, is attached to the frame, and is used to mount a boom assembly, hoist, winch, or equipment for transporting vehicles.
  3. "Boom assembly" means a device, consisting of sheaves, one or more winches, and wire rope, that is attached to a tow truck and used to lift or tow another vehicle.
  4. "Collision" means an incident involving one or more moving vehicles resulting in damage to a vehicle or its load that requires the completion of a written report of accident under A.R.S. § 28-667(A).
  5. "Collision recovery" means initial towing or removing a vehicle involved in a collision from the collision scene.
  6. "Denial" means refusal to satisfy a request.
  7. "Department" means the Arizona Department of Public Safety.
  8. "Director" means the Director of the Arizona Department of Public Safety or the Director's designee.
  9. "Emergency brake" means the electrical, mechanical, hydraulic, or air brake components used to slow or stop a vehicle after a failure of the service brake system.
  10. "Flatbed" means an open platform that is located behind the cab and attached to the frame of a truck.
  11. "G.V.W.R." means Gross Vehicle Weight Rating, the value specified by the manufacturer as the fully assembled weight of a single motor vehicle.
  12. "Hook" means a steel hook attached to an end of a wire rope or chain.
  13. "Parking brake system" means the electrical, mechanical, hydraulic, or air brake components used to hold the tow truck or combination under any condition of loading to prevent movement when parked.

## CHAPTER 3. DEPARTMENT OF PUBLIC SAFETY - TOW TRUCKS

14. "Permit decal" means the non-transferable decal that a tow truck company is required to obtain from the Department before operating a tow truck for the purpose of towing a vehicle.
15. "Person" means the same as in A.R.S. § 1-215.
16. "Power-assisted service brake system" means a service-brake system that is equipped with a booster to supply additional power to the service-brake system by means of air, vacuum, electric, or hydraulic pressure.
17. "Power-operated winch" means a winch that is operated by electrical, mechanical, or hydraulic power.
18. "Service-brake system" means the electrical, mechanical, hydraulic, or air brake components used to slow or stop a vehicle in motion.
19. "Snatch block" means a metal case that encloses one or more pulleys and can be opened to receive a wire rope and redirect energy from a winch.
20. "State" means the state of Arizona.
21. "Steering wheel clamp" means a device used to secure in a fixed position the steering wheel of a vehicle being towed.
22. "Suspension" is the temporary withdrawal of the tow truck permit decal because the Department determines the tow truck or tow truck agent is not in compliance with one or more requirements of this Chapter.
23. "Tow bar" means a device attached to the rear of a tow truck to secure a towed vehicle to the tow truck by chains, straps, or hooks.
24. "Tow plate" means a solid metal support attached to the rear of a tow truck to secure a towed vehicle to the tow truck by chains, straps, or hooks.
25. "Tow sling" means two or more flexible straps attached to the wire rope or boom assembly of a tow truck to hoist a towed vehicle by chains, straps, or hooks.
26. "Tow truck" means a motor vehicle designed, manufactured, or altered to tow or transport one or more vehicles. The following are tow trucks:
  - a. A truck with a flatbed equipped with a winch;
  - b. A truck drawing a semi-trailer or trailer equipped with a winch;
  - c. A motor vehicle that has a boom assembly or hoist permanently attached to its bed or frame;
  - d. A motor vehicle that has a tow sling, tow plate, tow bar, under-lift, or wheel-lift attached to the rear of the vehicle; and
  - e. A truck-tractor drawing a semi-trailer equipped with a winch.
27. "Tow truck agent" means an individual who operates a tow truck on behalf of a tow truck company, and includes owners, individuals employed by the tow truck company, and independent contractors.
28. "Tow truck company" means a person that owns, leases, or operates a tow truck that travels on a street or highway to transport a vehicle, including, but not limited to a vehicle that is damaged, disabled, unattended, repossessed, or abandoned.
29. "Truck-tractor protection valve" means a device that supplies air to the service brake system of a trailer to release the service brakes while the trailer is being towed by a truck- tractor, or to activate the service brakes if the supply of air from the truck-tractor to the trailer is disconnected or depleted.
30. "Under-lift" means an electrical, mechanical, or hydraulic device attached to the rear of a tow truck used to lift the front or rear of a vehicle by its axles or frame.
31. "Vehicle" means the same as in A.R.S. § 28-101.
32. "Wheel lift" means an electrical, hydraulic, or mechanical device attached to the rear of a tow truck used to lift the front or rear of a vehicle by its tires or wheels.
33. "Winch" means a device used for winding or unwinding wire rope.
34. "Wire rope" means flexible steel or synthetic strands that are twisted or braided together and may surround a hemp or wire core.
35. "Work lamp" means a lighting system that is mounted on a tow truck capable of illuminating an area to the rear of the tow truck.

**Historical Note**

New Section made by final rulemaking at 12 A.A.R. 1735, effective July 1, 2006 (Supp. 06-2). At the Department's request, the A.R.S. citation was corrected in subsection (B)(1) as Laws 2015, Ch. 265 transferred duties relating to towing services; Office file number M16-202 (Supp. 16-3). A. A person shall not operate a tow truck to tow a vehicle unless a tow truck agent registers the tow truck company with the Department. The tow truck agent shall:

1. Obtain a tow truck company application from the Department and complete the application form by including the following information:
  - a. The name, address, and telephone number of the tow truck company;
  - b. The tow truck owner's name, address, telephone number and date of birth. If the owner is a corporation, the corporation's name, address, and telephone number;
2. Obtain and keep in effect at all times the minimum limits of financial responsibility required by A.R.S. §§ 28-4009, 28-4032, 28-4033, 28-4131, and 28-4135, as applicable, for each tow truck owned, leased, or operated by the company; and

## CHAPTER 3. DEPARTMENT OF PUBLIC SAFETY - TOW TRUCKS

3. Sign the application in the presence of a Notary Public or Department Officer certifying under penalty of suspension of the permit decal that the tow truck company and the tow truck agent shall:
    - a. Comply with this Chapter; and
    - b. Have the necessary experience and qualifications to operate a tow truck in the manner required by this Chapter;
  4. Include with a completed application, proof of financial responsibility that indicates:
    - a. Name of the insured;
    - b. Name, address, and telephone number of the insurance carrier;
    - c. Policy number;
    - d. Date on which the policy expires; and
    - e. Amount of coverage; and
  5. Submit the completed application form and proof of financial responsibility in person to the Department.
- B.** If information provided on the original application form changes, the tow truck agent shall submit a new application form to the Department within 10 calendar days of the change. The Department may suspend a tow truck permit decal for failure to notify the Department of a change.
- C.** If it is discovered that a tow truck permit decal was issued on information supplied by the applicant that the applicant knew or should have reasonably known was false or inaccurate, the Department may suspend the tow truck permit decal.

**Historical Note**

New Section made by final rulemaking at 12 A.A.R. 1735, effective July 1, 2006 (Supp. 06-2).

**ARTICLE 9. TOW TRUCK REGISTRATION AND COMPLIANCE INSPECTION****R13-3-901. Tow Truck Registration**

- A.** A tow truck company shall register each tow truck by obtaining an identification number and permit decal before operating the tow truck to tow a vehicle.
- B.** A tow truck company shall apply for an identification number and permit decal by completing the Department's tow truck inspection application. The company may obtain the application from the Department. The signature on the application of the owner or a tow truck agent shall be notarized or signed in the presence of a Department officer.

**Historical Note**

New Section made by final rulemaking at 12 A.A.R. 1735, effective July 1, 2006 (Supp. 06-2).

**R13-3-902. Inspection by the Department**

- A.** The Department shall inspect a tow truck for compliance with this Chapter as soon as possible after the tow truck inspection application form is filed and no later than seven days after the application form is filed.
- B.** The Department may conduct unannounced, in-service inspections of a tow truck at the roadside, at the company's place of business, or any reasonable time and place to determine the condition of the tow truck.
- C.** The Department shall issue tow truck permit decals and identification number decals individually for each approved tow truck.
- D.** When a tow truck inspection is conducted under subsection (A) or (B), the following apply:
  1. Department inspectors shall examine the tow truck for compliance with the safety requirements and specifications for the tow truck class under this Chapter.

2. If the Department finds that the tow truck complies with this Chapter, the Department shall issue an inspection report and if applicable, a permit decal.
  3. If the Department finds that the tow truck does not comply with this Chapter, but has no deficiency listed in R13-3-1201(C)(7), the Department shall issue an inspection report that:
    - a. Specifies the deficiencies found,
    - b. Requires corrective measures, and
    - c. Allows five calendar days for the tow truck agent to correct the deficiencies.
  4. If the Department finds that the tow truck does not comply with this Chapter because of deficiencies listed in R13-3-1201(C)(7), the Department shall not issue a permit decal but shall issue an inspection report that:
    - a. Specifies the deficiencies found, and
    - b. Requires corrective measures.
- E.** A tow truck agent shall ensure that a legible copy of the most recent tow truck inspection report is kept in the driver's compartment area of the tow truck and is produced upon demand to any peace officer. The Department may suspend a tow truck permit decal for failure to comply with this subsection.
1. A tow truck agent shall ensure that:
    - a. A permit decal is affixed to the lower outside left rear window or the left outside of the rear cab wall of the tow truck windshield. A permit decal issued prior to the effective date of this Section may remain on the lower outside right corner of the tow truck's windshield until the permit has expired or been replaced, and
    - b. An identification number decal is permanently affixed to the driver's compartment area.
  2. The Department may suspend a permit decal for failure to maintain the permit decal or identification number decal in compliance with subsection (E)(1).
  3. If a tow truck inspection report, permit decal, or identification number decal is lost, damaged, destroyed, or stolen, the tow truck company shall immediately notify the Department.
    - a. The tow truck company shall provide notification in writing either to Arizona Department of Public Safety, P.O. Box 6638, Mail Drop 1240, Phoenix, AZ 85005-6638, or by e-mail to TowTruck-Unit@azdps.gov and include the name of the tow truck agent who registered the tow truck and the number of the lost, damaged, destroyed, or stolen inspection report, permit decal, or identification number decal.
    - b. Upon receipt of the notification, the Department shall issue the replacement inspection report, permit decal, or identification number decal.

**Historical Note**

New Section made by final rulemaking at 12 A.A.R. 1735, effective July 1, 2006 (Supp. 06-2). Amended by final rulemaking at 14 A.A.R. 713, effective April 5, 2008 (Supp. 08-1). Amended by final expedited rulemaking at 25 A.A.R. 844, effective March 19, 2019 (Supp. 19-1). Amended by final rulemaking at 26 A.A.R. 963, effective June 20, 2020 (Supp. 20-20).

**R13-3-903. Changes in Ownership**

If a tow truck is sold, leased, or otherwise disposed of, the permit decal issued to the tow truck immediately becomes void.

1. Before sale, lease, or other disposal of a tow truck, a tow truck agent shall remove and destroy the permit decal.

## CHAPTER 3. DEPARTMENT OF PUBLIC SAFETY - TOW TRUCKS

2. Within 10 calendar days following the sale, lease, or other disposal of the tow truck, a tow truck agent shall notify the Department in writing of the action. The notice shall include:
  - a. Date on which ownership changed or the tow truck was disposed of;
  - b. Whether the tow truck was sold, leased, or the method and reason for other disposal;
  - c. Name of person who sold, leased, or disposed of the tow truck;
  - d. If applicable, name and address of the person that purchased or leased the tow truck; and
  - e. Vehicle identification number of tow truck that was sold, leased, or disposed of.
3. A person to whom a tow truck is sold, leased, or otherwise disposed of shall complete the registration and inspection process before operating the tow truck to tow a vehicle within this state.

**Historical Note**

New Section made by final rulemaking at 12 A.A.R. 1735, effective July 1, 2006 (Supp. 06-2).

**ARTICLE 10. TOW TRUCK SPECIFICATIONS BY CLASS****R13-3-1001. Light-duty Tow Truck**

A light-duty tow truck has a minimum of:

1. A G.V.W.R. of 10,000 pounds;
2. A boom assembly with a rated capacity of 8,000 pounds, if so equipped;
3. A power-operated winch with a line pull capacity of 8,000 pounds and a 3/8-inch diameter wire rope with a breaking strength of 12,200 pounds, if so equipped;
4. A tow sling, tow plate, or tow bar that meets the requirements of R13-3-1201(C)(16), or a wheel-lift or under-lift with a lifting capacity of 2,500 pounds when fully extended;
5. Chains or straps and hooks that meet the requirements of R13-3-1104;
6. Axles, wheels, and tires that meet the requirements of R13-3-1102; and
7. Brakes that meet the requirements of R13-3-1103.

**ARTICLE 11. TOW TRUCK EQUIPMENT REQUIREMENTS****R13-3-1101. Compliance with Chapter and Identification Requirements**

- A. At all times a tow truck agent shall display on both sides of each tow truck the company name, full name of the town or city in which the company is located, and ten digit telephone number. Letters shall contrast sharply in color with the background on which the letters are placed, be readily legible during daylight hours from a distance of 50 feet while the tow truck is stationary, and be maintained in a manner that retains the legibility.
- B. A tow truck agent shall ensure that all tow trucks meet the requirements of this Chapter. The Department may suspend a permit decal for failure to meet the requirements of this Chapter.

**Historical Note**

New Section made by final rulemaking at 12 A.A.R. 1735, effective July 1, 2006 (Supp. 06-2).

**R13-3-1102. Axle, Wheel, and Tire Requirements**

- A. A tow truck agent shall ensure that a tow truck has:
  1. Axles, wheels, and tires with a manufacturer's capacity rating equal to or greater than the tow truck's G.V.W.R.; and
  2. At all points on major tread grooves, a tread-groove pattern depth of at least 4/32 of an inch on all tires on the steering axle, and 2/32 of an inch on all other tires.
- B. A tow truck agent shall ensure that a tow truck does not have:
  1. Fabric or cord exposed through the tire tread or sidewall;

2. A tire contacting another tire, suspension, or any other part of the vehicle; or
3. A tire visibly under-inflated or flat.

**Historical Note**

New Section made by final rulemaking at 12 A.A.R. 1735, effective July 1, 2006 (Supp. 06-2).

**R13-3-1103. Brake Requirements**

- A. A tow truck shall have a power-assisted service brake system, separate from the parking brake system, capable of stopping and holding the tow truck and its load under all conditions and on any grade on which the tow truck is operated. If a tow truck's service brake system is actuated by air, the tow truck shall be equipped with:
  1. A truck-tractor protection valve; and
  2. An audible or visible low air warning device that actuates at a minimum of 55 psi.
- B. A tow truck shall have a parking brake system, separate from the service brake system, which is capable of holding the tow truck and its load. If the tow truck's parking brake system is actuated by air, the tow truck shall be equipped with:
  1. A truck-tractor protection valve; and
  2. An audible or visible low air warning device that actuates at a minimum of 55 psi.

**Historical Note**

New Section made by final rulemaking at 12 A.A.R. 1735, effective July 1, 2006 (Supp. 06-2).

**R13-3-1104. Required Equipment**

- A. A light-duty tow truck shall be equipped with a minimum of 20 feet of recovery straps or 5/16-inch diameter chains with a hook on each end of each section. The straps or chains shall have an identifiable mark indicating a minimum working load limit strength of 3,900 pounds.
- B. A medium-duty tow truck shall be equipped with a minimum of 20 feet of recovery straps or 3/8-inch diameter chains with a hook on each end of each section. The straps or chains shall have an identifiable mark indicating a minimum working load limit strength of 7,100 pounds.
- C. A heavy-duty tow truck shall be equipped with a minimum of 20 feet of recovery straps or 1/2-inch diameter chains with a hook on each end of each section. The straps or chains shall have an identifiable mark indicating a minimum working load limit strength of 12,000 pounds.
- D. A semi-trailer or flatbed shall be equipped with "T" slots, eye bolts, "D" rings, or other means for attaching chains or straps, and four tie-down chains or straps with appropriate attachment hooks.
- E. All tow trucks shall be equipped with:
  1. Appropriate load securement devices if equipped with a wheel-lift, under-lift, tow bar, tow plate, or tow sling.
  2. A warning light assembly with a minimum of two light emitting sources. The lights shall:
    - a. Be mounted on the tow truck as high as practical and be visible from the front and rear of the tow truck for a distance of 100 feet under normal atmospheric conditions;
    - b. Show amber to the front and amber or red to the rear; and
    - c. Be wired independently of all other electrical circuits.
  3. A minimum of two work lamps. The lamps shall:
    - a. Have clear lenses;
    - b. Be capable of illuminating the area directly behind the tow truck for a distance of 50 feet; and

## CHAPTER 3. DEPARTMENT OF PUBLIC SAFETY - TOW TRUCKS

- c. Be wired independently of all other electrical circuits.
- 4. Two portable lamps consisting of tail lights, brake lights, turn signals, and emergency flashers, if a tow truck is equipped with a wheel-lift, under-lift, tow bar, tow plate or tow sling. Each portable lamp shall be visible from 100 feet under normal atmospheric conditions and comply with A.R.S. §§ 28-925(A), 28-927, and 28-939.
- 5. One rear-vision mirror on each side of the tow truck. Each mirror shall have a minimum surface area of 24 square inches.
- 6. An operational battery-powered electric lantern or a two-cell flashlight.
- 7. A fire extinguisher having an Underwriter's Laboratories rating of 10 B:C or higher. The fire extinguisher shall be filled, readily accessible for use, and mounted securely to the tow truck.
- 8. A steering wheel securement device of sufficient strength to lock the steering mechanism in a straight, forward position, if a tow truck is equipped with a wheel-lift, under-lift, tow bar, tow plate or tow sling.

**Historical Note**

New Section made by final rulemaking at 12 A.A.R. 1735, effective July 1, 2006 (Supp. 06-2).

**R13-3-1105. Collision Recovery Equipment Requirements**

A tow truck with collision recovery capabilities shall be equipped with at least:

- 1. One #2 or larger square-point shovel;
- 2. One 14-inch wide or larger push broom;
- 3. Five gallons or 20 pounds of fluid absorbent material stored in a weatherproof container; and
- 4. One snatch block for each installed winch on the tow truck. Each snatch block shall be of a size and rating compatible with the size and rating of the installed wire rope.

**Historical Note**

New Section made by final rulemaking at 12 A.A.R. 1735, effective July 1, 2006 (Supp. 06-2).

**R13-3-1106. Wire Rope Restrictions**

A tow truck agent shall ensure that a wire rope is not used in a tow truck if it:

- 1. Has kinks, bird caging, or knots;
- 2. Is crushed more than 33% of original diameter;
- 3. Has core protrusion along the length of the rope;
- 4. Has more than 11 broken wires in six diameters of length;
- 5. Has more than three broken wires in any one strand; or
- 6. Has more than two broken wires at the end connection or fitting.

**Historical Note**

New Section made by final rulemaking at 12 A.A.R. 1735, effective July 1, 2006 (Supp. 06-2).

**R13-3-1107. Wire Rope End Specifications and Installation**

A tow truck agent shall ensure that:

- 1. All wire rope eye loops used on a tow truck are protected by a thimble;
- 2. Cable clamps are not used on a wire rope; and
- 3. Thimbles are not cracked, deformed, worn, loose, or have a strand of wire that slips.

**Historical Note**

New Section made by final rulemaking at 12 A.A.R. 1735, effective July 1, 2006 (Supp. 06-2).

**ARTICLE 12. REQUIREMENTS FOR TOW TRUCK AGENTS AND COMPANIES****R13-3-1201. Tow Truck Agent and Company Requirements**

- A. A tow truck company shall ensure that each tow truck agent:
  - 1. While operating a tow truck possesses and carries a valid driver's license for the class of tow truck operated;
  - 2. While operating a tow truck possesses and carries a current medical examination certificate in accordance with 49 CFR 391.45 as referenced in A.A.C. R17-5-202;
  - 3. Does not operate a tow truck if the agent has more than two moving violation convictions within the previous 12 months;
  - 4. Possesses the skill and knowledge to rig, move, pick up, and transport a vehicle without causing avoidable damage to the vehicle or other property;
  - 5. Has not consumed any alcoholic beverage within four hours of operating the tow truck;
  - 6. Is not using or under the influence of alcohol or any of the following substances as defined in A.R.S. § 13-3401 while operating a tow truck:
    - a. Peyote;
    - b. Vapor-releasing substance containing a toxic substance;
    - c. Marijuana;
    - d. Dangerous drugs;
    - e. Narcotic drugs; or
    - f. Prescription-only drug unless the tow truck agent obtains the prescription-only drug pursuant to a valid prescription.
  - 7. Has not been convicted of committing a crime involving fraud, embezzlement, or theft in the five years before operating a tow truck and has never been convicted of committing a felony homicide, felony kidnapping, felony assault, felony sexual offense, or felony robbery;
  - 8. Has not been convicted under A.R.S. § 28-1381 (driving while under the influence of narcotics, dangerous drugs, or intoxicating beverages) or A.R.S. § 28-693 (reckless driving) while engaged in the operation of a tow truck; and
  - 9. Does not operate a tow truck while the agent's license to drive is suspended under A.R.S. § 28-1321 (Implied Consent Law), A.R.S. § 28-3473 (license suspension or revocation), or A.R.S. § 28-4141 (suspended license, no insurance).
- B. A tow truck agent shall:
  - 1. Comply with A.R.S. § 28-1108;
  - 2. Permit a peace officer or other duly authorized agent of a law enforcement agency to inspect a tow truck to determine compliance with the requirements of this Chapter. The inspection may be conducted without notice at any reasonable time and place; and
  - 3. Have a certification from a licensed testing facility certifying the tested line-pull of the winch or the tested lifting capacity of the boom assembly, if the tow truck is equipped with a homemade boom assembly or homemade winch.
- C. A tow truck agent shall not:
  - 1. Operate a tow truck without an identification number and a legible copy of a tow truck inspection report, as required by this Chapter;
  - 2. Transfer a permit decal or tow truck inspection report from one tow truck to another;
  - 3. Tow or move a vehicle from a highway, street, or public property without prior authorization from the owner or operator of the vehicle, the owner's agent, a person responsible for maintaining the public property, or a law

## CHAPTER 3. DEPARTMENT OF PUBLIC SAFETY - TOW TRUCKS

- enforcement officer. The tow truck agent may move, but shall not tow, a vehicle to extract an individual from wreckage or to remove a hazard to life or property at a collision scene;
4. Use a hand-operated or electric winch for collision recovery work;
  5. Operate a tow truck for collision recovery work unless certified for collision recovery;
  6. Use a flatbed tow truck with a G.V.W.R. of less than 14,001 pounds to transport more than one vehicle unless the additional vehicle is a golf cart, a motor-driven cycle, or a trailer that weighs less than 1,500 pounds;
  7. Operate a tow truck that has one or more of the following defects;
    - a. Both warning light assembly lights missing or inoperative;
    - b. All load securement devices missing or defective;
    - c. A portable lamp not in compliance with A.R.S. §§ 28-925(A), 28-927 or 28-939, if a portable lamp is required;
    - d. Any steering axle tire with less than 4/32-inch tread depth in one major groove;
    - e. For an axle other than a steering axle, a tire with less than 2/32-inch tread depth and for a dual wheel axle, both tires on the same side with less than 2/32-inch tread depth;
    - f. Any flat tire or tire with cord exposed by cut or wear;
    - g. Any tow plate, tow bar, tow sling, wheel-lift, or under-lift exhibiting wear in excess of manufacturer standards at any pivot point or any crack in a structural component;
    - h. Wire rope in violation of R13-3-1106;
    - i. Any component not maintained within manufacturer standards; or
    - j. A deficiency noted on an inspection report after the time-frame available to the tow truck agent to correct deficiencies has elapsed;
  8. Equip a tow truck with homemade boom assembly or homemade winch, unless the tow truck company has a certification from a licensed testing facility certifying the tested line pull of the winch or the tested lifting capacity of the boom assembly;
  9. Tow a vehicle using a tow sling, tow plate, or tow bar unless appropriate load securement devices are attached;
  10. Transport a vehicle by flatbed or truck, truck-tractor, or semi-trailer unless the vehicle is secured with a minimum of a four-point tie-down, not including the winch;
  11. Tow a vehicle with a wheel-lift, under-lift, tow plate, tow bar, or tow sling unless two safety chains are attached by crossing the chains with one end of each chain attached to a major structural member of the tow truck and the other end attached to a major structural member of the towed vehicle, with no attachments to the bumpers;
  12. Tow a vehicle using a tow plate, tow bar, tow sling, wheel-lift, or under-lift unless a portable lamp is affixed to the rear of the rear-most towed vehicle, in plain view, and when activated, visible to traffic traveling in the same direction;
  13. Activate warning light assembly except at the scene of service, or when transporting a vehicle that presents a hazard from a collision scene;
  14. Use any vehicle towed or article stored in the towed vehicle, unless it is the property of the tow truck company or tow truck agent;
  15. Operate a tow truck that exceeds the manufacturer's G.V.W.R. without a load or the manufacturer's rated capacity for the boom or bed assembly;
  16. Operate a tow truck that is equipped with a tow plate, tow bar, or tow sling unless the tow plate, tow bar, or tow sling has a manufacturer weight rating that exceeds any load carried on it; or
  17. Refuse to make prompt restitution for any damage for which the tow truck company is legally liable.
- D.** The Department may suspend a permit decal for failure to comply with these standards.

**Historical Note**

New Section made by final rulemaking at 12 A.A.R. 1735, effective July 1, 2006 (Supp. 06-2). At the Department's request, the A.R.S. citation was corrected in subsection (B)(1) as Laws 2015, Ch. 265 transferred duties relating to towing services; Office file number M16-202 (Supp. 16-3). Amended by final expedited rulemaking at 25 A.A.R. 844, effective March 19, 2019 (Supp. 19-1).

**ARTICLE 13. ENFORCEMENT****R13-3-1301. Waiver**

If the Director determines there is a compelling public necessity, the Director may waive the enforcement of this Chapter.

1. A person shall make a waiver request in writing.
2. The Director shall separately consider and decide each request for a waiver and each waiver shall only apply to the person requesting the waiver.
3. The Director shall provide the decision in writing.

**Historical Note**

New Section made by final rulemaking at 12 A.A.R. 1735, effective July 1, 2006 (Supp. 06-2).

**R13-3-1302. Suspension or Denial of Tow Truck Permit Decal**

- A.** The Director may deny or suspend a permit decal for up to one year if a person violates this Chapter.
- B.** The Department shall provide a written notice of a permit decal suspension to a tow truck company that includes the information specified in A.R.S. § 41-1092.03(A) and lists:
  1. The effective date of the suspension;
  2. The tow truck affected by the suspension;
  3. The specific violation; and
  4. The actions necessary for compliance and for the Department to end the suspension.
- C.** Beginning on the effective date of the suspension, the tow truck company shall not operate the identified tow truck to tow.
- D.** The tow truck company shall submit a corrective action plan to the Department that lists the steps the tow truck company will take to reach compliance.
  1. A tow truck agent shall sign the plan and submit the plan to the Department for approval and signature.
  2. Failure to submit a plan within 90 days of written notice of suspension by the Department constitutes withdrawal from the permit process and requires the tow truck company to reapply under Article 9 of this Chapter.
- E.** If the tow truck company complies with the corrective action plan, the Department shall reinstate the tow truck permit decal.
- F.** The Department shall not suspend a permit decal for a violation of R13-3-1201(A)(3) unless the tow truck company owner knew or should have known of the tow truck agent's convictions.

**Historical Note**

New Section made by final rulemaking at 12 A.A.R.

## CHAPTER 3. DEPARTMENT OF PUBLIC SAFETY - TOW TRUCKS

1735, effective July 1, 2006 (Supp. 06-2).

**R13-3-1303. Appeals**

- A.** A person that has had issuance of a tow truck permit decal denied or suspended has a right to a hearing.
1. The Director or designee may combine requests for hearings into one hearing where there are common parties or issues.
  2. The hearing shall be conducted by the Office of Administrative Hearings pursuant to A.R.S. § 41-1092, et seq.
- B.** A person shall make a request for a hearing in writing to the Department within 30 calendar days from receipt of the notice of denial or suspension. If the request for a hearing is not received within the 30-day period, the person's right to a hearing is waived, unless the person shows that failure to timely request a hearing was beyond the person's control.
- C.** If a hearing is requested, the Department shall notify the person in writing at least 30 calendar days before the date set for hearing and include the following in the notice:

1. A statement of the time, place, and nature of the hearing;
  2. A statement of the legal authority and jurisdiction under which the hearing is to be held;
  3. A reference to the particular sections of the statutes and rules involved; and
  4. A short and plain statement of the matters asserted.
- D.** A final administrative decision shall be issued pursuant to A.R.S. § 41-1092.08.
1. A copy of the decision shall be mailed to each party.
  2. Within 35 calendar days after the date of service of the final decision rendered in the hearing, an appeal may be taken to the Superior Court of the county in which any of the conditions in A.R.S. § 12-905 apply. Appeals to the Superior Court are governed by the provisions of A.R.S. § 12-901 et seq.

**Historical Note**

New Section made by final rulemaking at 12 A.A.R.  
1735, effective July 1, 2006 (Supp. 06-2).

## CHAPTER 10. DEPARTMENT OF PUBLIC SAFETY - ALCOHOL TESTING

**ARTICLE 1. DETERMINATION OF ALCOHOL CONCENTRATION****R13-10-101. Definitions**

In this Article, unless the context otherwise requires:

1. "Alcohol concentration" or "AC" means grams of alcohol per 100 milliliters of blood or grams of alcohol per 210 liters of breath.
2. "Analyst" means an individual who has been issued an analyst permit by the Department to use approved methods to make alcohol concentration determinations from blood or other bodily substances.
3. "Analyst permit" means a document issued by the Department indicating the permit holder has been found qualified to utilize an approved method in the determination of alcohol concentrations.
4. "Analytical procedure" means a series of operations utilized by an analyst when employing an approved method in the determination of alcohol concentration.
5. "Calibration Check" means an operation utilizing a standard alcohol concentration solution to determine whether a device is accurately measuring alcohol concentrations that is performed as a Standard Calibration Check Procedure by a Quality Assurance Specialist at least every 31 days or performed as Concurrent Calibration Check Procedures by an Operator within a successfully completed test sequence bracketing a duplicate breath test.
6. "Concurrent Calibration Check Procedure" means an operation performed by an Operator, utilizing a standard alcohol concentration solution, within a successfully completed test sequence to determine whether a device is accurately measuring alcohol concentration during a duplicate breath test.
7. "Concurrent Quality Assurance Procedure" means operations performed by an Operator, including a Concurrent Calibration Check Procedure and diagnostic checks, within a successfully completed test sequence to determine whether a device is accurately and properly measuring alcohol concentration during a duplicate breath test.
8. "Deprivation period" means at least a 15-minute period immediately prior to a duplicate breath test during which period the subject has not ingested any alcoholic beverages or other fluids, eaten, vomited, smoked or placed any foreign object in the mouth.
9. "Determination" means an analysis of a specimen of blood, breath, or other bodily substance and expressing the results of the analysis in terms of alcohol concentration.
10. "Device" means a breath testing instrument.
11. "Duplicate breath test" means two consecutive breath tests that immediately follow a deprivation period, agree within 0.020 AC of each other, and are conducted at least five and no more than 10 minutes apart.
12. "Instructor" means a person approved by the Department to provide breath test training to prospective Operators and Quality Assurance Specialists on a specific approved device.
13. "Method" means an analytical technique utilized by an analyst or a device to make an alcohol concentration determination (e.g. gas chromatography, infrared spectrophotometry, or specific fuel cell detection.)
14. "Operator" means a person who has been issued an Operator permit from the Department to operate a specific approved device for the purpose of determining an alcohol concentration from a specimen of breath and to perform the Concurrent Quality Assurance Procedures, Concurrent Calibration Check Procedures, and diagnostic checks to determine whether a device is operating accurately and properly.
15. "Operator Permit" means a document issued by the Department indicating that the permit holder has been found qualified to operate and perform the associated Quality Assurance Procedures on a specific approved device.
16. "Periodic Maintenance" means a Quality Assurance Procedure consisting of either of the following, which determines whether a device is operating accurately and properly:
  - a. Standard Calibration Check Procedure and Standard Quality Assurance Procedure (these checks and procedures may be performed concurrently), or
  - b. Concurrent Calibration Check Procedures and Concurrent Quality Assurance Procedures performed within a successfully completed test sequence bracketing a duplicate breath test.
17. "Preliminary breath test" means a pre-arrest breath test.
18. "Preliminary breath tester" or "PBT" means any approved device used prior to an arrest for the purpose of obtaining a determination of alcohol concentration from a specimen of breath and includes any device included on the National Highway Traffic Safety Administration's Conforming Products List of Evidential Breath Measurement Devices as incorporated by reference in R13-10-103(F).
19. "Procedure" means a series of operations used by an Operator or a Quality Assurance Specialist when employing an approved device in the determination of alcohol concentration or performing associated quality assurance testing.
20. "Quality Assurance Procedure" means Periodic Maintenance consisting of either of the following, which determines whether a device is operating accurately and properly:
  - a. Standard Calibration Check Procedure and Standard Quality Assurance Procedure (these checks and procedures may be performed concurrently), or
  - b. Concurrent Calibration Check Procedures and Concurrent Quality Assurance Procedures performed within a successfully completed test sequence bracketing a duplicate breath test.
21. "Quality Assurance Specialist" means a person who has been issued a Quality Assurance Specialist permit from the Department to perform the Standard Calibration Check Procedure and the Standard Quality Assurance Procedure to determine the accurate and proper operation of a specific approved device.
22. "Quality Assurance Specialist permit" means a document issued by the Department indicating that the permit holder has been found qualified to perform the Standard Calibration Check Procedure and the Standard Quality Assurance Procedure on a specific approved device.
23. "Standard Calibration Check Procedure" means operations performed by a Quality Assurance Specialist, at least every 31 days, to determine whether a device is accurately measuring alcohol concentration.
24. "Standard Operational Procedure" means operations performed by an Operator for the purpose of determining an alcohol concentration from a specimen of breath.
25. "Standard Quality Assurance Procedure" means operations performed by a Quality Assurance Specialist, at least every 90 days.

## CHAPTER 10. DEPARTMENT OF PUBLIC SAFETY - ALCOHOL TESTING

**Historical Note**

New Section made by final rulemaking at 12 A.A.R. 1916, effective 9:00 a.m., May 18, 2006 (Supp. 06-2).  
Section amended by final rulemaking at 26 A.A.R. 723, effective June 1, 2020 (Supp. 20-2).

**R13-10-102. Analyst Methods; Approval of Additional Methods**

- A.** An analyst shall use one of the following methods to analyze blood or other bodily substances to determine a person's alcohol concentration:
1. Gas chromatography, or
  2. Another method that has been approved by the Director under the procedure in subsections (B) and (C).
- B.** An applicant for an analyst permit may submit, with the permit application, a request that the Director approve a method other than a method approved under subsection (A)(1) or (2).
- C.** For a method to be approved by the Director, the method's accuracy and reproducibility shall comply with the following standards:
1. The test results of samples with a standard alcohol concentration shall agree with the established value within the limits of  $\pm 0.01$  grams per 100 milliliters of blood or  $\pm 10$  percent, whichever is greater.
  2. The accuracy and precision shall be determined on the basis of ten measurements at four alcohol concentrations between 0.020 and 0.350 grams per 100 milliliters of blood, to include at least one value  $< 0.100$  and one value  $> 0.250$ .

**Historical Note**

New Section made by final rulemaking at 12 A.A.R. 1916, effective 9:00 a.m., May 18, 2006 (Supp. 06-2).

**R13-10-103. Breath-testing Devices**

- A.** The Director may approve devices used to determine alcohol concentration from breath after the Department successfully tests a typical model of the device for compliance with the standards in subsection (B).
- B.** A device shall meet the following standards of performance:
1. Breath specimens tested shall be alveolar in composition.
  2. The device shall be capable of analysis of a solution of known alcohol concentration with an accuracy limit of a systematic error of no more than  $\pm 0.005$  grams per 210 liters of breath or  $\pm 5$  percent, whichever is greater, and a precision limit of an average standard deviation of no more than 0.0042 grams per 210 liters of breath. The accuracy and precision of the device being evaluated shall be determined on the basis of 10 consecutive measurements at 4 alcohol vapor concentrations that are between 0.020 and 0.350 grams per 210 liters of breath, to include at least one value  $< 0.100$  and one value  $> 0.250$ .
  3. The device shall be capable of testing a breath sample that results in alcohol concentrations of less than 0.01 grams per 210 liters of breath when alcohol-free subjects are tested.
- C.** The Department, upon specific findings that a device, method, or breath test procedure is inaccurate, unreliable, or is an unacceptable test for determining alcohol concentration or that its use has been discontinued in the state, shall disapprove in writing further use of the device, method, or procedure.
- D.** The methods approved by the Director for use by a device to determine alcohol concentration are infrared spectrophotometry and specific fuel cell detection.
- E.** The following devices are approved by the Director:

Device/Model	Manufacturer
--------------	--------------

Intoxilyzer Model 5000 with or without Vapor Recirculation and with or without Keyboard	CMI, Inc.
Intoxilyzer Model 5000EN	CMI, Inc.
Intoxilyzer Model 8000	CMI, Inc.
Intoxilyzer Model 9000	CMI, Inc.
RBT AZ (Alco Sensor AZ/RBT AZ)	Intoximeter, Inc.

- F.** Products included on the National Highway Traffic Safety Administration's Conforming Products List of Evidential Breath Measurement Devices set forth in 82 FR 50940-50944 (November 2, 2017) are approved by the Director as preliminary breath testers to determine alcohol concentration. This document is incorporated by reference and does not include any later amendments or editions. A copy of this document is available from the Department and may be obtained from the National Highway Traffic Safety Administration's web site ([www.nhtsa.gov](http://www.nhtsa.gov)) or by contacting the U.S. Government Printing Office, 732 North Capitol Street NW, Washington, DC 20401.
- G.** Devices listed in subsection (E) may be used to administer preliminary breath tests.
- H.** Except when a device is used as a PBT or for other non-evidential testing purposes, an Operator permit and Standard Operational Procedure are required for the operation of devices listed in subsection (E).
- I.** In addition to the devices approved in subsection (E), the Director may approve, in writing, a device and related Standard Operational and Quality Assurance Procedures after the device has been successfully tested for compliance with the standards in subsection (B) for use prior to and pending the device being added to subsection (E). The approval shall expire three years after its effective date unless subsection (E) is amended to include the approved device.
- J.** In addition to devices approved as preliminary breath testers in subsection (F), the Director may approve in writing as a PBT a new device placed on subsequent National Highway Traffic Safety Administration's Conforming Products Lists of Evidential Breath Measurement Devices for use pending the new Conforming Products List being added to subsection (F).

**Historical Note**

New Section made by final rulemaking at 12 A.A.R. 1916, effective 9:00 a.m., May 18, 2006 (Supp. 06-2).  
Section amended by final rulemaking at 26 A.A.R. 723, effective June 1, 2020 (Supp. 20-2).

**R13-10-104. Testing Procedures**

- A.** Law enforcement agencies or individuals acting independently of law enforcement agencies who conduct alcohol concentration determinations by means of devices shall utilize a quality assurance program that is conducted by Quality Assurance Specialists or Operators and generate records of periodic maintenance. This quality assurance program shall include:
1. Criteria for ensuring the accurate and proper operation of devices by the regular performance of Calibration Checks and Quality Assurance Procedures as referenced in subsections (A)(2) and (A)(3);
  2. Calibration Checks of devices that are performed within 31 days of each other as Standard Calibration Check Procedures or during a test sequence bracketing a duplicate breath test as Concurrent Calibration Check Procedures and recorded according to the requirements of the appropriate Quality Assurance Procedures set forth in Exhibits

## CHAPTER 10. DEPARTMENT OF PUBLIC SAFETY - ALCOHOL TESTING

G-2, G-3, G-6, H-2 and I-2 or as approved by the Director according to R13-10-103(I). These checks shall indicate that the device is capable of determining the value of a standard alcohol concentration solution with an accuracy limit of  $\pm 0.01$  grams per 210 liters of breath or  $\pm 10$  percent, whichever is greater;

3. Quality Assurance Procedure checks of devices that are performed within 90 days of each other as Standard Quality Assurance Procedures or during a test sequence bracketing a duplicate breath test as Concurrent Quality Assurance Procedures, and recorded according to the requirements of the appropriate Quality Assurance Procedures set forth in Exhibits G-4, G-5, G-6, H-3, H-4 and I-2 or as approved by the Director according to R13-10-103(I). These checks shall indicate that the device is capable of proper operation and is functioning as required by the Quality Assurance Procedures for the device;
  4. Standard alcohol concentration solutions, either liquid or gas, that are National Institute of Standards and Technology (NIST) traceable; and
  5. Records of Calibration Checks, Quality Assurance Procedures and maintenance or repairs for each device in use.
- B.** An Operator shall utilize the Standard Operational Procedure approved by the Department for the device being operated in performing tests for the determination of alcohol concentration, as contained in Exhibits G-1, G-6, H-1 and I-1 or as approved by the Director according to R13-10-103(I).
- C.** Duplicate breath tests shall be administered at intervals of not less than five minutes nor more than 10 minutes. The results of both tests shall be within 0.020 alcohol concentration of each other. If the second test is not within 0.020 alcohol concentration of the first test, additional tests shall be administered until the results of two consecutive tests are within 0.020 alcohol concentration.

**Historical Note**

New Section made by final rulemaking at 12 A.A.R. 1916, effective 9:00 a.m., May 18, 2006 (Supp. 06-2).  
Section amended by final rulemaking at 26 A.A.R. 723, effective June 1, 2020 (Supp. 20-2).

**R13-10-105. Permits and Certificates**

- A.** The Department shall issue Analyst permits to qualified applicants, in accordance with R13-10-106(A), who have satisfactorily demonstrated through proficiency testing as specified in R13-10-108(A) their proficiency in conducting an alcohol concentration determination by one or more of the methods listed in R13-10-102. The Analyst permit shall:
1. State the method of alcohol concentration determination the permit holder is approved to utilize and the type of specimen the permit holder is approved to analyze (blood or other bodily substances); and
  2. Be valid for one year.
- B.** An Analyst shall employ, in testing for alcohol concentration in matters arising under A.R.S. Title 28, Chapter 4, Article 3, the same analytical procedures as those employed by the analyst for proficiency testing.
- C.** The Department shall issue two categories of device permits.
1. Operator permits shall be issued to applicants who qualify under R13-10-106(B) or (E). This permit authorizes operation and performance of associated Quality Assurance Procedures, including Concurrent Calibration Check Procedures and Concurrent Quality Assurance Procedures, performed within a successfully completed test sequence bracketing a duplicate breath test on the device specified on the permit. Operator permits issued after the initial effective date of this Section shall be valid for five

years from the date of issue. Permits issued to Operators before the initial effective date of this Section shall remain in effect and be valid for five years after the initial effective date of this Section.

2. Quality Assurance Specialist permits shall be issued to applicants who hold a valid Operator permit and who qualify as a Quality Assurance Specialist under R13-10-106(C) or (E). This Quality Assurance Specialist permit authorizes the holder to perform Quality Assurance Procedures, including Standard Calibration Check Procedures and Standard Quality Assurance Procedures, on the device specified on the permit. Quality Assurance Specialist permits issued after the initial effective date of this Section shall be valid for five years from the date of issue. Permits issued to Quality Assurance Specialists before the initial effective date of this Section shall remain in effect and be valid for five years after the initial effective date of this Section.
  3. Operator and Quality Assurance Specialist permits may be renewed by application as required by R13-10-107 and successful completion of a recertification course approved by the Department.
  4. The Department shall issue duplicate (replacement) permits upon request and upon verification of the qualifications set forth in R13-10-106.
- D.** Law enforcement agencies shall supply the Department, upon request, with a list of current Operator and Quality Assurance Specialist permit holders and shall update the list as required by the Department, but no more frequently than annually.
- E.** The Department shall issue Instructor certificates to qualified applicants who hold valid Operator and Quality Assurance Specialist permits and who qualify as an Instructor under R13-10-106(D) or (E). The Instructor certificate authorizes the holder to provide breath test training to prospective Operators and Quality Assurance Specialists on a specific approved device. Instructor certificates issued after the initial effective date of this Section shall be valid for five years from the date of issue. Instructor certificates issued before the initial effective date of this Section shall remain in effect and be valid for five years from the initial effective date of this Section. Instructor certificates may be renewed by application as required by R13-10-107 and successful completion of a recertification examination approved by the Department.

**Historical Note**

New Section made by final rulemaking at 12 A.A.R. 1916, effective 9:00 a.m., May 18, 2006 (Supp. 06-2).

**R13-10-106. Qualifications**

- A.** To qualify for an Analyst permit, a person shall hold a degree from a college or university accredited by a regional accrediting body recognized by the United States Department of Education and have earned 15 or more semester credits, or the equivalent, of chemistry, including three or more credits of organic chemistry.
- B.** To qualify for an Operator permit, a person shall:
1. Be employed by a law enforcement agency or laboratory that has access to a device for the person's use as set forth in R13-10-103; and
  2. Complete a course in the determination of alcohol concentration approved by the Department with a score of 80 percent or better. The Department shall approve courses taught by an Instructor if they contain the following:
    - a. Instruction on the effects of alcohol on the human body;
    - b. Instruction on and demonstration of the operational principles of the selected device, which shall include

## CHAPTER 10. DEPARTMENT OF PUBLIC SAFETY - ALCOHOL TESTING

a functional description and detailed operational description of the method;

- c. Instruction on the legal aspects of breath tests in general and on the particular method to be employed;
  - d. Concurrent Calibration Check Procedures (when applicable to the device) approved by the Department;
  - e. Concurrent Quality Assurance Procedures (when applicable to the device) approved by the Department;
  - f. Applicant participation with the appropriate device utilizing reference standards, testing of subjects, or other methods that will indicate the actual response of the device; and
  - g. Written and practical examination of the applicant for the purpose of determining the person's understanding of the course material and proficiency in operating the device.
- C. To qualify for a Quality Assurance Specialist permit, a person shall possess a valid Operator permit to operate the approved device and complete a course of training approved by the Department with a score of 80 percent or better. The Department shall approve courses taught by an Instructor if they contain the following:
- 1. Review of the theory of breath testing and the operation of the particular testing device;
  - 2. Standard Calibration Check Procedures approved by the Department;
  - 3. Standard Quality Assurance Procedures approved by the Department;
  - 4. Applicant participation with the appropriate device utilizing reference standards, testing of subjects, or other methods that will indicate the actual response of the device; and
  - 5. Written and practical examination of the applicant for the purpose of determining the person's understanding of the course material and proficiency in operating the device.
- D. To qualify as an Instructor, a person shall hold valid Operator and Quality Assurance Specialist permits on the device for which instruction is given. In addition, except as provided in subsection (E), all applicants shall complete a comprehensive instructor examination approved and administered by the Department with a score of 90 percent or better. The Department shall approve instructor examinations that include the following:
- 1. The theory of breath testing and the operation of the specific device, and
  - 2. Procedures for testing instrument accuracy and proper operation in accordance with Calibration Checks and Quality Assurance Procedures approved by the Department.
- E. If a device is newly approved and no Operator and Quality Assurance Specialist permits have been issued for the device, a person may qualify to be an Operator, Quality Assurance Specialist, and Instructor for the specific device by completing a Department-administered, manufacturer-endorsed, instructor training course and a comprehensive examination with a score of 90 percent or better. The Instructor training course shall include the following:
- 1. Review of the theory of breath testing,
  - 2. Instruction on the operation of the device, and
  - 3. Procedures for testing instrument accuracy and proper operation in accordance with Calibration Checks and Quality Assurance Procedures approved by the Department.

**Historical Note**

New Section made by final rulemaking at 12 A.A.R. 1916, effective 9:00 a.m., May 18, 2006 (Supp. 06-2).

**R13-10-107. Application Processes**

- A. An applicant for an initial Analyst permit or the renewal of an existing Analyst permit shall complete the form shown as Exhibit A and submit it to the Department.
- B. An applicant for an initial Operator permit or the renewal of an existing Operator permit shall complete the form shown as Exhibit B and submitted to the Department.
- C. An applicant for an initial Quality Assurance Specialist permit or the renewal of an existing Quality Assurance Specialist permit shall complete the form shown as Exhibit C and submitted to the Department.
- D. An applicant for an initial Instructor approval or the renewal of an existing Instructor approval shall complete the form shown as Exhibit D and submitted to the Department.

**Historical Note**

New Section made by final rulemaking at 12 A.A.R. 1916, effective 9:00 a.m., May 18, 2006 (Supp. 06-2).  
Section amended by final rulemaking at 26 A.A.R. 723, effective June 1, 2020 (Supp. 20-2).

**R13-10-108. Examination and Quality Assurance Requirements for Analysts**

- A. The Department shall require an Analyst permit applicant to successfully demonstrate the applicant's proficiency in making alcohol concentration determinations from test specimens in accordance with subsection (B). The applicant shall be examined only on the methods that relate to the type of determination for which the applicant desires a permit.
- B. An applicant shall, before receiving an initial Analyst permit or renewal of an existing Analyst permit, participate in and successfully complete proficiency testing administered by the Department. An applicant shall successfully analyze samples by testing at least three suitable reference standards or control samples with a known alcohol concentration in the range of 0.00 to 0.40 grams per 100 milliliters of blood and having the results agree with the established value within the limits of  $\pm 0.01$  grams per 100 milliliters of blood or  $\pm 10$  percent, whichever is greater. Proficiency testing shall be administered by the Department as follows:
  - 1. An applicant shall correctly analyze all proficiency samples in the set provided by the Department.
  - 2. When returning the results of analyses to the Department, the applicant shall attach an affidavit attesting that the applicant analyzed the proficiency samples without help or input from any other person.
  - 3. An applicant failing to correctly analyze all proficiency samples in the set will be provided an opportunity to successfully analyze a second set of samples.
  - 4. The Department shall deny the application of an applicant who declines or fails to correctly analyze the second set of proficiency samples and shall not issue a permit.
  - 5. An applicant who fails to successfully analyze the second set of proficiency samples and whose application is denied may reapply for an analyst's permit beginning 90 days from the date of denial.
- C. An analyst who conducts alcohol concentration determinations shall implement and maintain a quality assurance program. This program shall be designed to ensure the validity of test results by providing for:
  - 1. Chain of custody,
  - 2. Quality control,
  - 3. Analytical procedures,
  - 4. Documentation of test results, and

## CHAPTER 10. DEPARTMENT OF PUBLIC SAFETY - ALCOHOL TESTING

5. Participation in proficiency testing.

**Historical Note**

New Section made by final rulemaking at 12 A.A.R. 1916, effective 9:00 a.m., May 18, 2006 (Supp. 06-2).

**R13-10-109. Revocation or Suspension of Permits; Appeals**

- A. The Department may suspend or revoke a permit for any of the following reasons:
  1. A false statement on the permit holder's application,
  2. The neglect or refusal to examine and report the results of sample specimens given the Analyst permit holder for proficiency testing purposes,
  3. The failure of an Analyst to maintain quality control over equipment or reagents necessary for accuracy in reporting,
  4. Failure to obtain results on proficiency test samples as indicated in R13-10-108(B),
  5. Failure to operate a device according to approved procedures or the failure to analyze blood or other bodily substances according to approved methods, or

6. The failure by a permit holder to maintain documentation required by this Article or to make it available to Departmental representatives for inspection for purposes of administering this Article.

- B. When a permit has been suspended or revoked in one or more of the approved methods or devices and there remain one or more methods or devices for which the permittee is approved that are not affected by the revocation or suspension, the permit holder shall return the suspended or revoked permit to the Department. The Department shall issue a replacement permit that shows only those approved methods or devices unaffected by the event leading to the suspension or revocation.
- C. The provisions of A.R.S. Title 41, Chapter 6, Article 10 are applicable to denials, revocations, suspensions and administrative appeals.

**Historical Note**

New Section made by final rulemaking at 12 A.A.R. 1916, effective 9:00 a.m., May 18, 2006 (Supp. 06-2).

## CHAPTER 5. CORPORATION COMMISSION - TRANSPORTATION

## ARTICLE 1. RAILROADS

*Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General certification provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).*

**R14-5-101. Definitions**

As used in this Article:

1. "Car stop" means a device installed or constructed at the end of a spur track to prevent railroad cars from going off the rails.
2. "Commission" means the Corporation Commission.
3. "Configuration of a public railroad-highway grade crossing" means the physical characteristics of the crossing, including, but not limited to, size and type of warning devices, path of the roadway over the railroad track or tracks, warning signs, pavement markings, and roadway crossing surface.
4. "Constructive placement" means cars cannot be delivered to the designated private siding because of the inability of the consignee to receive them. The cars are placed in a sliding, another private track, or interchange track near the consignee's facility until such time as they can be delivered to the consignee.
5. "Event recorder" means a device located in the locomotive that records information reflecting the operation of the train, including on speed, elapsed time, direction of travel, load (amps), automatic brakes, dynamic brakes, and throttle settings.
6. "Hazardous materials" means any hazardous substance as defined by A.R.S. § 49-201(16)(a), (b), (c), (e), and (f).
7. "Highway authority" means the county, municipal, or other local board or body exercising jurisdiction over highways under the laws of this state.
8. "House track" means a track adjacent to or entering a freight house, used for the primary purpose of receiving or delivering freight.
9. "Industrial track" means a track or portion of track over which a railroad operates but which the railroad does not own or maintain either the rails, ties, or roadbed; or a track or portion of track which is devoted to the purpose of the user, either by lease or written agreement, in which case the lease or written agreement shall be considered as equivalent to ownership.
10. "Ladder track" means a track connecting successively the body of tracks of a train yard.
11. "Locomotive" means a self-propelled vehicle running on rails and generating or converting energy into motion for the primary purpose of hauling rail cars.
12. "Overhead clearance" means the vertical distance from the level of the top of the highest rail to a structure or obstruction above.
13. "Person" means any individual, firm, joint venture, partnership, corporation, association, municipality, governmental unit, department, or agency and shall include any trustee, receiver, assignee, or personal representative thereof.
14. "Private grade crossing" means any crossing where a legal agreement exists between a private property owner and a railroad company for the exclusive use of the landowner and the landowner's invitee.
15. "Public grade crossing" means any crossing, used by the general public, for which a legal agreement between a

private property owner and a railroad company does not exist.

16. "Rail gage" means the distance between the heads of the rails, measured at right angles to the rails in a plane 5/8 of an inch below the top of the railhead. Standard gage is 4 feet, 8 1/2 inches.
17. "Railroad" means every railway, other than a street railway, operated for public transportation of persons or property.
18. "Reconstruction" means the use of more than 50% of the material necessary to replace an entire structure or facility, or more than 50% of the current value of an entire installation.
19. "Side clearance" means the shortest distance from the centerline of track to a structure or obstruction at the side of the track.
20. "Spur track" means a stub track of indefinite length diverging from a main track or other track.
21. "Team track" means a track subject to general use by the public for the loading or unloading of freight cars.
22. "Unauthorized grade crossing" means any grade crossing that is not a public grade crossing or a private grade crossing or has not been issued an AAR/DOT crossing inventory.

**Historical Note**

Former General Order R-1; Former Section R14-5-401 renumbered as Section R14-5-101 effective September 30, 1982 (Supp. 82-5). Former Section R14-5-101 renumbered to R14-5-104, new Section R14-5-101 adopted effective May 28, 1992 (Supp. 92-2). Amended effective May 31, 1996 under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 96-2).

**R14-5-102. Adoption of Federal Regulations**

- A. In the furtherance of its constitutional and statutory duty to promulgate and enforce safety regulations for public service corporations, the Commission adopts and approves as its own, subject to changes noted in subsection (E) below, 49 CFR 210, 213, 215, 216, 217, 218, 219, 220, 221, 223, 225, 228, 229, 230, 231, 232, 233, and 236, as amended and revised through October 1, 1989, which are incorporated by reference, are on file in the Office of the Secretary of State, and copies available from the United States Government Printing Office, P.O. Box 371975M, Pittsburgh, Pennsylvania 15250-7975, all being regulations of the Federal Railroad Administration, United States Department of Transportation, Railroad Safety regulations.
- B. The Commission also adopts and approves as its own, 49 CFR 171 through 174, as amended and revised through November 1, 1989, incorporated herein by reference and on file with the Office of Secretary of State; 49 CFR 178 and 179, as amended and revised through November 1, 1989, incorporated herein by reference, on file with the Office of Secretary of State, and copies available from the United States Government Printing Office, P.O. Box 371975M, Pittsburgh, Pennsylvania 15250-7975, all being part of the Research and Special Programs Administration, United States Department of Transportation, Hazardous Materials regulations as they apply to the shipment of hazardous materials by rail.
- C. The regulations adopted in subsections (A) and (B) of this Section shall apply to all standard gage rail operations within Arizona. All terms defined in the adopted regulations shall apply unless redefined in R14-5-101.
- D. A copy of the Federal Safety Standards is attached to the Article and is hereby made a part thereof as if set forth in full.

## CHAPTER 5. CORPORATION COMMISSION - TRANSPORTATION

(This copy is not printed in this volume but is available in the offices of the Arizona Corporation Commission and the Secretary of State.)

**E.** The above-mentioned Parts of 49 CFR are changed, amended, or revised as follows:

1. Substitute "Arizona Corporation Commission" (ACC) where "United States Department of Transportation" (DOT), "Federal Railroad Administration" (FRA), "Federal Railroad Administrator", "Administrator" or "Research and Special Programs Administration" appear.
2. Substitute "Railroad Safety Section, Arizona Corporation Commission, at its office in Phoenix, Arizona" where addresses for the United States Department of Transportation, Federal Railroad Administration, Federal Railroad Administrator, Office of Chief Counsel, or Research and Special Programs Administration appear.
3. Copies of all reports and forms required to be filed with the Federal Railroad Administration by Parts referred to in subsection (A) and the Research and Special Programs Administration by Parts referred to in subsection (B) of this Section shall be filed with the Railroad Safety Section, Arizona Corporation Commission, at its office in Phoenix, Arizona, within the same time limits required by the Federal Railroad Administration, and the Research and Special Programs Administration. Information pertaining only to that portion of the railroad's operations within the State of Arizona need be submitted.

**F.** If the Commission finds that a waiver of compliance or an exemption from any Section of the aforementioned Parts is in the public interest and is consistent with railroad safety, the Commission may grant the waiver or exemption subject to any conditions it deems necessary.

**Historical Note**

Former General Order R-2; Former Section R14-5-402 renumbered as Section R14-5-102 effective September 30, 1982 (Supp. 82-5). Former Section R14-5-102 repealed, new R14-5-102 renumbered from R14-5-107 and amended effective May 28, 1992 (Supp. 92-2).

**R14-5-103. Unauthorized Passengers**

Railroads operating within this State shall prohibit and prevent unauthorized persons from traveling in or upon the cars and equipment of their trains.

**Historical Note**

Former General Order R-3; Former Section R14-5-403 renumbered as Section R14-5-103 effective September 30, 1982 (Supp. 82-5).

*Editor's Note: The Arizona Corporation Commission has determined that the following Section is exempt from the Attorney General certification provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)).*

**R14-5-104. Railroad-highway Crossings**

**A.** The following rules shall apply in the construction, reconstruction, improvement, and maintenance of all public railroad-highway grade crossings within the state of Arizona. This Section is intended to be consistent with the provisions of the Manual on Uniform Traffic Control Devices, as adopted by the Department of Transportation.

1. No construction project taking place at or near a public railroad-highway grade crossing shall diminish the safety normally provided to a motorist approaching the crossing by the existing warning devices.

2. No temporary change in the configuration of a public railroad-highway grade crossing, for the purpose of facilitating a construction project at or near the crossing, may be made by any person without first notifying the owner of the railroad track and the owner of the trains or other track equipment operating over such track in writing. The letter notifying the track owner and train/track equipment owner shall describe the date, place, and type of changes to be made. Such letter shall be written and signed by the responsible person for the project and shall constitute an affirmation that all temporary traffic control measures to be implemented due to the project shall be made in accordance with this rule and the Manual on Uniform Traffic Control Devices (MUTCD) Parts VI and 8A-5. Notice shall be sent by registered mail, return receipt requested, to the business address of the owner of the railroad track and the owner of trains or the track equipment operating over such track, or to the statutory agent at its known place of business, not less than 10 days prior to the commencement of the construction project.

**B.** Warning signals.

1. Railroad crossbucks.
  - a. A railroad crossbuck shall be installed on the right-hand side of the public roadway on each approach to every crossing to warn motorists approaching from each direction, except at crossings where automatic control devices are in use in conformance with Appendix 8.
  - b. If there are two or more tracks, the number of tracks shall be indicated on an auxiliary sign of inverted "T" shape mounted below the crossbuck, (See in conformance with Appendix 8).
  - c. Crossbucks shall be located at not less than 15 feet from the centerline of the nearest track, and shall be in a position to be visible to motorists.
  - d. Crossbucks shall be a reflectorized white "X" (48" X 9" panels drilled for a 90-degree mounting) with the words "RAILROAD CROSSING" in black letters.
  - e. The distance that shall be assumed to separate tracks before additional crossbucks are considered necessary is 100 feet.
2. Automatically controlled crossing signals.
  - a. At railroad-highway grade crossings where studies indicate the need for warning beyond that provided by crossbucks, the Commission may order that automatically controlled crossing signals be installed.
  - b. Emergency stand-by power shall be provided for the operation of all automatically controlled crossing signals.
  - c. Automatically controlled crossing signals shall be arranged to provide not less than 20 seconds warning for motorists.
  - d. Signals shall operate until the rear of the last train using the crossing has cleared the crossing.
  - e. Traffic signals located within 200 feet of railroad crossing signals shall be preempted by the railroad crossing signals.
  - f. Where means are provided for cutting-out the automatically controlled warning devices during intervals when trains are making regular operating stops or performing switching operations on approach circuits, controls shall be arranged as follows:
    - i. Controls shall be so designed as to provide operation of warning devices before a train reaches the crossing.

## CHAPTER 5. CORPORATION COMMISSION - TRANSPORTATION

- ii. Automatic control of warning devices actuated by approaching trains (other than the train that has stopped or is performing switching operations) shall take precedence over any cut-out feature.
- g. Where manual supervisory control of warning devices is provided in addition to automatically controlled signals, the following shall govern:
  - i. Automatic control, when actuated by approaching trains other than the train for which manual control has been made effective, shall take precedence over manual control;
  - ii. Means shall be provided to restore the controls to automatic operation;
  - iii. Means shall be provided to prevent manual operation by unauthorized persons.
- 3. Flashing light signals.
  - a. Lamp units (center of lens), shall be located at not less than 8 feet, 4 inches, nor more than 10 feet, 4 inches above the crown of the roadway.
  - b. Signal lights shall shine in both directions along the roadway, and shall be mounted horizontally, 2 feet, 6 inches to centers.
  - c. Lamp units shall be arranged in pairs, back to back, except on one-way streets or other roadways where highway traffic approaches from one direction only.
  - d. Lamp units shall be equipped with mountings to provide ready adjustments in all directions with positive locking for such adjustments.
  - e. Lamp units shall be provided with hoods of not less than 12 inches in length and with backgrounds 20 inches in diameter. Hoods and backgrounds shall be in black, except that when backlights are omitted, the back of the lamp unit and background shall be aluminum-colored so that the signal will not be mistaken for a dark signal.
  - f. Lamp units installed after the effective date of this Section shall have lenses or roundels, red in color, not less than 12 inches in diameter for both front and rear indications. Lamp units in use prior to the adoption of this Section shall be made to meet this requirement when the automatic warning devices are upgraded, improved, or reconstructed.
  - g. The beam spread shall be not less than 3 degrees each side of the axial beam under normal conditions. Throughout the beam spread, the intensity of the beam shall not be less than 50% of the intensity at the axis.
  - h. Lights shall flash alternately at a minimum rate of 45 flashes per minute and a maximum rate of 65 flashes per minute.
  - i. The effective range of flashing lights equipped with 10 volt, 10 watt lamps, or equivalent, burning at rated voltages, shall be not less than 1,000 feet under bright sunlight conditions with the sun at or near its zenith.
- 4. Highway traffic control signals shall not be used on main-line railroad crossings in lieu of flashing light signals. However, at industrial track crossings and other places where train movements are 10 miles per hour or less, highway traffic control signals may be used in lieu of conventional flashing light signals.
- 5. Bell warning signals. At least one automatic gong-type bell shall be used with each flashing light signal except on median strip installations.
- 6. Automatic gate arm signals.
  - a. Signals consisting of a combination of flashing lights, bells, and automatic gate shall, when indicating the approach or presence of trains, present towards the highway the appearance of horizontally flashing red lights and of a horizontal arm or arms extending over the traveled roadway a sufficient distance to cover the lane or lanes used by highway traffic approaching the crossing.
  - b. Automatic gate arms, when not indicating the approach or presence of trains, shall not obstruct or interfere with highway traffic, except as provided in subsection (B)(6)(d).
  - c. Automatic gate arms shall be mounted on posts or housing containing the arm-operating mechanism.
  - d. The design of the gate-opening mechanism shall be such as to ensure proper operation during unfavorable weather conditions. In case of power failure, the gate arm shall assume the horizontal position across the roadway.
  - e. The mechanism shall be so designed that if the arms, while being raised or lowered, strike or foul an object they will readily stop, and on removal of the obstruction shall assume the position corresponding to the control mechanism.
  - f. Each gate arm extending over the roadway shall have three red lights, with lenses not less than 7 inches in diameter, shining in both directions along the roadway, so positioned as to ensure as far as possible, that no vehicle or vehicles standing in the limits of the traffic lane or lanes approaching the crossing can obscure all three lights from the view of the drivers of the following vehicles. The light nearest the tip of each arm shall burn steadily, and the other two lights on each arm shall flash alternately in unison with the flashing lights on the roadside signal mast.
  - g. The gate arm shall, on new installations, be striped with 16 inch alternate diagonal reflectorized or fluorescent stripes of red and white.
  - h. Circuits for operation of signals shall be so arranged that the flashing lights, gate arm lights, and bell will start to operate at not less than 20 seconds before the arrival of the fastest train at the crossing. All lights shall operate at all times when the gate arm is in a position to obstruct highway traffic. The bell shall sound a warning from the time the signal lights start to operate at least until the gate arm has descended to within 10 degrees of the horizontal position.
  - i. Gate arms shall start their downward motion at not less than three seconds after the signal lights start to operate. Gate arms shall reach the full horizontal position before the arrival of the fastest train operated over the crossing and shall remain in that position until the rear of the train has cleared the crossing.
  - j. The bottom of the gate arms when in the horizontal position shall be not less than 3 feet nor more than 4 feet above the crown of the roadway.
  - k. Gate arms shall operate uniformly, smoothly, and complete all movement without slap or rebound, and be securely held when in the raised position.
- 7. Maintenance.
  - a. Metal parts shall be aluminum or painted aluminum, except as provided in subsection (B)(3)(e).
  - b. All materials and workmanship shall meet or exceed current industry standards in every respect, and

## CHAPTER 5. CORPORATION COMMISSION - TRANSPORTATION

every warning signal and sign in all details shall be constructed, installed, and maintained in a satisfactory manner.

- c. The railroad shall provide for the maintenance of all grade crossing warning signs and signals. To this end, the railroad shall:

- i. Provide for alternate operations of automatically controlled warning signals during periods of failure, either manually or otherwise, as soon as possible after the failure has occurred;
- ii. Have skilled maintenance personnel available without undue delay for all emergency calls, including lamp failures;
- iii. Provide proper maintenance for all components;
- iv. Maintain the appearance of the installation in a satisfactory manner, with particular emphasis on painting and cleaning of optical systems;
- v. Inspect warning signals at a frequency of not less than once every 45 days. A written record of inspection shall be retained at the railroad's office within Arizona.
- vi. Provide standby equipment at a central location to minimize the interruption of signal operations due to equipment failure or damage.

8. Whistle posts.

- a. Whistle posts bearing the letter "X" or "W" shall be located in advance of each public crossing at grade to warn locomotive engineers of the presence of the highway grade crossing, and allow them sufficient time to sound the warning whistle.
- b. A person in charge of a railroad locomotive shall, before crossing any traveled public way, cause the bell to ring or a whistle, siren, or other sounding device to sound at a distance of at least 1/4 mile from a crossing and until it is reached.

C. Additional requirements.

- 1. When necessary to shove a railroad car or cars over a public grade crossing not having automatically controlled crossing signals, employees shall flag the crossing.
- 2. When, during normal train operations at night, it becomes necessary to block a public grade crossing with standing railroad cars, and the crossing does not have automatically controlled crossing signals, flares, or fusees, shall immediately be placed in the center of the roadway on both sides of the track at not less than 10 feet from the railroad car or cars to warn motorists that the crossing is occupied.
- 3. Detached railroad cars containing explosive or hazardous materials shall not be left standing on any grade crossing at any time.
- 4. Before moving onto any public railroad-highway grade crossing, operators of any on-track equipment, including high-rail vehicles, shall ensure that the automatic warning devices are activated or the crossing protected by a flagman. Public grade crossings without automatic warning devices shall be flagged by a flagman.
- 5. It shall be unlawful for railroad employees to "drop" or "kick" any railroad car or cars containing hazardous materials across a grade crossing in any circumstances or any other railroad car or cars across a grade crossing unless the crossing is flagged by a flagman or traffic is restricted by automatic gate arms.
- 6. Grade crossing maintenance and repair shall be conducted as follows:

- a. Whenever a highway intersects a railroad track at common grade, the appropriate highway authority shall maintain and keep in repair the roadway approaches to within 2 feet of the outside of either rail, and the railroad shall maintain the planking or other materials between the rails and for 2 feet on the outside thereof.
  - b. At crossing involving more than one track, maintenance by the railroad shall include that portion of the crossing:
    - i. Between the tracks not exceeding 20 feet from the center of the tracks, and
    - ii. Two feet on the outside of each of the two outside (field site) rails.
  - c. Unless the Commission otherwise authorizes, public grade crossings hereafter constructed shall be not less than 24 feet in effective roadway width measured at right angles with the centerline of the roadway.
  - d. Turnouts, switches, and frogs or bolted rail joints shall be so placed or relocated as to avoid placement in the paved area of a crossing.
  - e. Materials for permanent repairs on any component of a railroad-highway grade crossing surface shall be of the same type and quality or of equal quality to those which are being repaired or replaced.
  - f. Temporary repairs shall be made until the arrival of materials necessary for permanent repairs. Temporary repair shall be made within five working days of the date that the railroad is notified of the defect by the Commission. Permanent repairs shall be completed within 90 days from the date of notification.
  - g. The railroad shall coordinate with the highway authority any road closures and reopenings caused by the maintenance and repair of grade crossing.
  - h. The railroad shall stencil the AAR/DOT inventory number on all railroad-highway crossings.
7. Blockage of public grade crossing shall be limited as follows:
- a. Except as provided in subsections (C)(7)(c) and (d), no railroad shall cause a public grade crossing to be blocked by railroad equipment in excess of 10 continuous minutes.
  - b. Each period of crossing blockage shall be followed by an interval of time sufficient to allow the passage of waiting traffic.
  - c. The limitations set forth in subsection (C)(7)(a) do not apply to:
    - i. Any train continuously moving in the same direction during the entire time it occupies the crossing; and
    - ii. Blockage caused by wrecks, derailments, acts of nature, mechanical failure, or other emergency conditions.
  - d. The Commission, after hearing, may grant variances from the limitations set forth in subsection (C)(7)(a), upon proper application by the railroad or appropriate highway authority.
8. A crew member of a train blocking a public crossing shall immediately take all reasonable steps, consistent with the safe operation of such train, to clear the crossing upon receiving information from a peace officer, as defined in A.R.S. Title 13, member of any fire department or operator of an emergency vehicle, as defined in A.R.S. § 28-101.1, that emergency circumstances require the clearing of the crossing.

## CHAPTER 5. CORPORATION COMMISSION - TRANSPORTATION

9. The railroad shall coordinate road closures and reopenings during emergency blockages with the appropriate highway authority.
10. When authorization for preliminary engineering and estimate or any federal-aid funding crossing improvement projects is submitted to the railroad, it shall be completed by the railroad and returned to the Department of Transportation within 60 days.
11. The railroad shall notify the Commission, in writing, within 10 days of both the commencement and completion of the project. The railroad shall tender a statement to the Commission reflecting the Commission's portion of such charges pursuant to A.R.S. § 40-337.02, within 60 days of completion of the project.
12. Federal-aid crossing improvement projects shall be completed within 15 months from the date of the Commission Order.
13. The Commission may approve an exception to any of the requirements of this Section. Such exceptions may be made upon the Commission's own initiative or upon written request from an interested party. Written requests shall contain a statement of the circumstances involved, the nature of the exception desired, and the reasons justifying such an exception. An exception shall be limited to the particular situation described in the written requests.

**Historical Note**

Former General Order R-5; Former Section R14-5-405 renumbered as Section R14-5-104 effective September 30, 1982 (Supp. 82-5). Amended subsection (H) effective April 16, 1986 (Supp. 86-2). Former Section R14-5-104 repealed, new Section R14-5-104 renumbered from R14-5-101 and amended effective May 28, 1992 (Supp. 92-2). Amended effective May 31, 1996 under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 96-2).

**R14-5-105. Railroad Accident/Incident Reports; Investigation****A. Reports by telephone.**

1. Railroads shall give the Commission immediate telephone notification of the following classes of accidents/incidents:
  - a. Accidents resulting in death;
  - b. Accidents resulting in injury requiring immediate hospitalization;
  - c. Accidents resulting in damage to railroad property in excess of the amount for which the Federal Railroad Administration requires an accident report to be filed;
  - d. Accidents or incidents in which any hazardous materials are involved;
  - e. All public railroad-highway grade crossing accidents;
  - f. All accidents/incidents involving rail passenger operations.
2. The immediate telephone notification shall include but not be limited to the following:
  - a. Name of person making the telephonic report;
  - b. Name of railroad or railroads involved;
  - c. Location of accident/incident;
  - d. Number of fatalities;
  - e. Number of injuries;
  - f. Number of derailed cars;
  - g. Generic name or names of the hazardous materials involved, including the name, address, and the telephone number of the shipper.

- B. Federal reports of accidents/incidents -- Railroads shall submit to the Commission copies of all accident/incident reports and supplements filed with the Federal Railroad Administration and the Hazardous Materials Regulation Board for accidents/incidents occurring in Arizona. Said reports shall be submitted to the Commission within the time specified for submitting to the Federal Railroad Administration. Said reports shall include:

1. FRA F 6180.54 -- Rail Equipment Accident/Incident Report;
2. FRA F 6180.55 -- Railroad Injury and Illness Summary;
3. FRA F 6180.55a -- Railroad Injury and Illness (Continuation Sheet);
4. FRA F 6180.56 -- Annual Railroad Report of Man-Hours by State;
5. FRA F 6180.57 -- Rail-Highway Grade Crossing Accident/Incident Report;
6. FRA F 6180.45 -- Annual Summary Report of Railroad Injury and Illness;
7. DOT F 5800.1 -- Hazardous Materials Incident Report.

**C. Investigations by the Commission.**

1. Commission investigators shall investigate accidents, may inspect railroad records, accounts, books, memoranda, correspondence, and other documents, and may examine all lands, buildings, and equipment of railroads. Commission investigators may obtain all relevant information concerning accidents under investigation, make inquiries of persons having knowledge of the facts, conduct interviews, and attend, as observers, hearings or formal investigations by railroads into the causes of accidents. When necessary to carry out an investigation, the Commission may authorize the issuance of subpoenas to require the production of records and the giving of testimony.
2. Whenever necessary, the Commission will schedule a public hearing on an accident.
3. Incomplete or inaccurate reports will be investigated by the Commission. Incomplete or inaccurate reporting practices may be grounds for a public hearing into the matter.
4. Late reports shall be accompanied by a letter of explanation. Late reports may be grounds for a public hearing into the matter.
- D. All railroads operating wholly or partially within the state of Arizona shall give the Commission immediate telephone notification of accidents/incidents as prescribed herein. All accidents/incidents not reported in accordance with the provisions of this Section shall be investigated by the Commission.

**Historical Note**

Former General Order R-6; Former Section R14-5-406 renumbered as Section R14-5-105 effective September 30, 1982 (Supp. 82-5). Amended subsections (A), (B), (D), and (F) effective April 16, 1986 (Supp. 86-2). Amended effective May 28, 1992 (Supp. 92-2).

**R14-5-106. Minimum Standards for Cabooses**

- A. Each railroad operating wholly or partially within the state of Arizona shall hereafter install and maintain minimum standards on cabooses in accordance with this Section.
- B. No caboose shall be used in service unless it complies with subsections (C) through (R) of this Section.
- C. Construction: Cabooses shall be of either the cupola or bay window type. Cabooses of metal construction shall have wooden or insulated metal floors. A cupola shall not extend inward toward the centerline of the car more than 3 inches from either side of the caboose.

## CHAPTER 5. CORPORATION COMMISSION - TRANSPORTATION

- D. Trucks: Trucks shall provide riding qualities at least equal to those of freight type trucks modified with elliptic or additional coil springs or other means of equal or greater efficiency and shall be equipped with steel wheels.
- E. Draft gears: Draft gears shall have a minimum travel of 2 1/2 inches and a minimum capacity of 18,000 foot pounds. Draft gears shall be of rubber or a combination of friction and rubber types, or shall have other means of providing equal shock control.
- F. Lighting: An adjustable, shielded electric light, or lights, shall be provided for the direct illumination of the caboose desk. A ceiling or wall light, or lights, operable from separate switches shall be provided to otherwise illuminate the caboose interior. The area of the drinking water and lavatory facilities shall be illuminated. The caboose marker, or markers, shall be electrically lighted.
- G. Heating: A heating facility shall be maintained and shall be capable of providing a temperature of at least 70 degrees Fahrenheit in a standard caboose.
- H. Seats and cushions: Seats and cushions shall be provided with a shock absorbent material initially at least 3 inches in thickness, and backrests shall be of sufficient height to protect the neck and head from injuries. Seats in cupolas shall be of the pullman type and those in bays shall be of the passenger reversible type. The top of said seats shall not be lower than 11 inches nor higher than 9 inches beneath the cupola or bay window sills and no more than 18 inches above the floor or footrest. The backrests shall incline backward to not less than 3 inches nor more than 5 inches from the perpendicular. Subject to the approval of the Commission, seats of different design or materials may be used when such design or materials provide equal or better protection or comfort than those enumerated in this Section.
- I. Bunks: Each caboose shall have at least one bunk of not less than 2 feet in width and not less than 6 feet in length which shall be provided with a cushion of the same dimensions made of shock absorbent material initially of at least 3 inches in thickness.
- J. Wind deflector: Each cupola side window shall be equipped with a wind deflector.
- K. Weatherstripping: Weatherstripping or weatherproof sash shall be installed and maintained at all windows and doors to protect against weather and the seepage of dirt or dust.
- L. Window shades: With the exception of windows in bays and cupolas, windows shall be equipped with shades.
- M. Stanchions: Stanchions, grab handles, or bars shall be installed at entrances and exits and at other locations within convenient reach of employees moving about the caboose while a train is in motion.
- N. Drinking water: Caboose drinking water facilities shall be installed and maintained so as to provide fresh and pure drinking water. Such water facilities shall include individual bottled water containers placed in an ice chest. When ice is used for water cooling purposes, the containers shall be so arranged that the drinking water will not come in contact with the ice. Containers used for storing or dispensing potable water shall be kept clean at all times and shall be subjected to effective bactericidal treatment as often as may be necessary to prevent the contamination of the water so stored and dispensed.
- O. Lavatory facilities: Caboose lavatory facilities for washing shall be provided at a location where the use thereof will not result in contamination of the drinking water dispensing system. All cabooses shall have operative toilets which are illuminated, are kept clean and free of noxious odors at all times, and are subjected to effective bactericidal treatment as often as may be necessary.
- P. Fire extinguisher: Cabooses used in road service shall be equipped with an effective means of extinguishing minor fires. Such extinguishing agents shall be placed in a readily accessible location and shall be effectively maintained.
- Q. First-aid kit: Each caboose shall carry, in a visible and readily accessible place, a plainly marked first-aid kit which shall be so constructed that it and its entire contents are readily removable. The kit shall consist of materials, approved by the railroad's consulting physician, in a weatherproof container with individually sealed packages for each type item. The contents shall be inspected weekly to ensure that expended items are replaced.
- R. Maintenance and supplies: Cabooses shall be supplied with fresh water, paper towels, toilet tissue, sanitary drinking cups, fuel, ice as needed, hand soap or other cleaning agents in appropriate dispensers and such other equipment as may be required for service.
- S. Conditions arising after departure from terminal: In the event of a failure of required equipment or standards of maintenance occurs in a caboose after it has commenced a move in service, the railroad operating that caboose shall not be deemed in violation of this Section if said failure of equipment or standards of maintenance is corrected at the first point at which maintenance supplies are available, or, in the case of repairs, the first point at which materials and repair facilities are available and repairs can reasonably be made.
- T. Exemption: If, in any particular case, an exemption from any of the requirements of this Section is deemed necessary by a carrier concerned, the Commission will consider the application of such carrier for such exemption when accompanied by a full statement of the conditions existing and the reason why such exemption is needed. Any exemption so granted will be limited to the particular case covered by the application.

**Historical Note**

Former General Order R-7; Former Section R14-5-407 renumbered as Section R14-5-106 effective September 30, 1982 (Supp. 82-5). Correction in heading effective April 16, 1986 (Supp. 86-2). Amended effective May 28, 1992 (Supp. 92-2).

**R14-5-107. Minimum Standards for Locomotives**

- A. Each railroad operating wholly or partially within the state of Arizona shall hereafter install and maintain minimum standards on locomotives in accordance with this Section.
- B. All of the following requirements shall be met:
  1. Locomotives used in or through the state of Arizona shall be equipped with an effective means of extinguishing minor fires. Such extinguishing agents shall be placed in a readily accessible location and shall be effectively maintained.
  2. Each locomotive shall carry, in a visible and readily accessible place, a plainly marked first-aid kit which shall be so constructed that it and its entire contents are readily removable. The kit shall consist of materials, approved by the railroad's consulting physician, in a weatherproof container with individually sealed packages for each type item. The contents shall be inspected weekly to ensure that expended items are replaced.
  3. Each train operated in or through the state of Arizona at a speed in excess of 30 miles per hour shall have at least one locomotive equipped with an operating event recorder. Such event recorders shall be inspected at least once every 90 days and maintained in a fully operative condition.
  4. All locomotives shall have operative toilets which are illuminated, are kept clean and free of noxious odors at

## CHAPTER 5. CORPORATION COMMISSION - TRANSPORTATION

all times, and are subjected to effective bactericidal treatment as often as may be necessary.

5. Drinking water facilities shall be installed and maintained so as to provide fresh and pure drinking water. Such water facilities shall include individual bottled water containers placed in an ice chest. When ice is used for water cooling purposes, the containers shall be so arranged that the drinking water shall not come in contact with the ice. Containers used for storing or dispensing drinking water shall be kept clean at all times and shall be subjected to effective bactericidal treatment as often as may be necessary to prevent the contamination of the water so stored and dispensed.
  6. Locomotives shall be supplied with fresh water, paper towels, toilet tissue, sanitary drinking cups, ice as needed, and such other equipment as may be required for service.
- C. A locomotive operating in a controlling position shall have an operating two-way radio that is on a frequency for the railroad being operated on and is capable of contacting the train dispatcher or other responsible railroad personnel.
- D. If, in any particular case, an exemption from any of the requirements of this Section is deemed necessary by a carrier, the Commission shall consider the application for such exemption as needed. Any exemption so granted shall be limited to the particular case covered by the application.

**Historical Note**

Adopted effective September 30, 1982 (Supp. 82-5).  
Amended subsections (A) and (B) effective April 16, 1986 (Supp. 86-2). Former Section R14-5-107 renumbered to R14-5-102, new Section R14-5-107 adopted effective May 28, 1992 (Supp. 92-2).

**R14-5-108. Inspection of property**

For the purpose of insuring compliance with safety rules and regulations, the Commission, or any authorized inspector or agent thereof, may, at any time, stop, board, ride, investigate, or inspect any train, locomotive, car, caboose, or any other rolling stock or equipment used by a railroad in the operation of their business.

**Historical Note**

Former General Order R-9; Former Section R14-5-409 renumbered as Section R14-5-108 effective September 30, 1982 (Supp. 82-5).

**R14-5-109. Industrial Track Standards**

- A. This Section shall be applicable to all industrial track construction, reconstruction, and repair commencing after the effective date of this Section.
1. The industry and the railroad contractor shall be responsible for notifying the Commission in writing prior to the construction, reconstruction, or alteration of industrial track, structures, or facilities adjacent thereto.
  2. The proposed design plans of any construction, reconstruction, or alteration of industrial track shall be submitted to the Commission, Railroad Safety Section, Phoenix, Arizona, prior to any construction, reconstruction, or alteration of industrial track.
- B. The following construction standards shall apply for all industrial track:
1. Profile:
    - a. Maximum grade of any proposed track, as shown on any plan, shall be 2% and shall not be exceeded. At all locations, excessive grades and frequent changes of grade shall be avoided. Where grade line changes, appropriate vertical curves shall be installed.
    - b. In cut sections, grade line shall be uniform throughout the cut to facilitate proper drainage. Grades in

cuts shall not be less than 3/10% and not more than 1%.

2. Subgrade:
  - a. Where soil condition, drainage conditions or amount of traffic justify, the upper portion of the subgrade shall be designed to provide adequate support. Methods of increasing support shall be to provide select material to an adequate supporting depth over the existing subgrade or subgrade stabilization.
  - b. The depth of any proposed material shall be specified by the design plans.
  - c. The upper portion of any subgrade to be stabilized shall be stabilized by thoroughly mixing suitable chemical additives such as cement, fly ash, or lime with the soil before compaction.
  - d. Each layer shall be fully compacted by approved mechanical compacting equipment before the next layer is placed. A fully compacted layer shall have a dry density of at least 95% of the maximum dry density.
  - e. Type of soil and soil conditions shall be indicated on any proposed plans along with typical sections showing rail, tie ballast, subballast, and any other appurtenances.
3. Drainage:
  - a. Each drainage or other water-carrying facility under or immediately adjacent to the roadbed shall be maintained and kept free of obstruction to accommodate expected water flow for the area concerned.
  - b. Every effort shall be made to keep the tracks, roadbed, and walkways properly drained at all times.
4. Ballast:
  - a. Ballast material shall conform to the recommended specifications contained in the American Railroad Engineering Association "Manual for Railway Engineering" (AREA Manual), as amended and revised through July 31, 1990, incorporated herein by reference, on file with the office of the Secretary of State, and copies available from the American Railroad Engineering Association, 50 F Street NW, Washington, D.C. 20001. The gradation of a ballast material shall be a prime consideration in track performance of ballast materials. Ballast material used in industrial tracks shall be not less than 3/4 of an inch to 1 1/2 inches, pursuant to AREA No. 4 gradation in the AREA Manual.
  - b. Ballast material may be crushed rock, slag, or equally stable material that will provide uniform support to the ties, will drain properly, and is not chemically reactive. The material used for ballast shall not short track signals. Quarried stone or slag produced in a crushing-screening plant shall be preferred when it satisfies all of the following specifications:
    - i. A shrinkage factor of 12% to 15% in volume differential from loose to compacted state.
    - ii. Processed ballast shall be composed of hard, strong, and durable particles free from excessive amounts of deleterious substances.
    - iii. Deleterious substances shall not be present in processed ballast in excess of the following amounts:
      - (1) Soft and friable pieces--5%;
      - (2) Material finer than No. 200 sieve--1%;
      - (3) Clay lumps--1/2%.

## CHAPTER 5. CORPORATION COMMISSION - TRANSPORTATION

- iv. Percentage of wear of processed ballast, tested in the Los Angeles machine, shall not be greater than 40%.
- v. Soundness of processed ballast for use in regions where freezing temperatures are expected shall be such that when tested in the sodium sulfate soundness test, the weighted average loss shall be not in excess of 7% after five cycles.
- vi. Compacted weight of ballast shall be not less than 70 pounds per cubic foot for blast furnace-slag and 90 pounds per cubic foot for all other slags and crushed rock products.
- vii. Flat or elongated particles, particles with length three times greater than average thickness, shall not exceed 5% by weight in the ballast.
- c. Prior to installation, the supplier shall provide the railroad or industrial track owner with certified test results of ballast quality and grading.
- d. Care shall be used to ensure even distribution of ballast in the track. A minimum ballast depth of 8 inches below the ties shall be acceptable as a subballast base. Ballast shall be inserted under ties in convenient lifts but under not less than two lifts. Proper cross level, line and grade shall be attained on the final lift in accordance with currently accepted practice.
- e. Top of track ballast shall be dressed parallel with top of rails to a depth of 1 inch below top of tie extending 6 inches beyond end of tie. Ballast shall be thoroughly tamped for each tie end to 15 inches inside of rail. Centers shall be filled but not tamped. All work of track laying and surfacing shall be of the highest quality in accordance with currently accepted practice.
- f. Each owner of the track to which the ballast standards apply shall maintain proper track cross level, surface, and alignment prescribed as follows:
  - i. The runoff in any 31 feet of rail at the end of a rise may be not more than 3 1/2 inches.
  - ii. The deviation from uniform profile on either rail at the mid-ordinate of a 62-foot chord may be not more than 3 inches.
  - iii. Deviation from designated elevation on spirals may be not more than 1 3/4 inches.
  - iv. Variation in cross level on spirals in any 31 feet may be not more than 2 inches.
  - v. Deviation from zero cross level at any point on tangent or from designated elevation on curves between spirals may be not more than 3 inches.
  - vi. The difference in cross level between any two points less than 62 feet apart on tangents and curves between spirals may be not more than 3 inches.
  - vii. Alignment may not deviate from mid-ordinate of a 62-foot chord more than 3 inches.
- 5. The material, preservative treatment, quality control, inspection, and miscellaneous requirements for timber crossties and switch ties shall conform with the recommendations of Chapter 3, "Ties and Wood Preservation" of the AREA Manual and all of the following:
  - a. Crossties shall be either hardwood or softwood in accordance with the requirements of this Section.
  - b. Wooden crossties shall be new and manufactured from the following kinds of wood: Douglas fir, red oak, white oak, cypress, southern and western pine, elm, hickory, gum, or hemlock.
  - c. All wooden ties shall be made from sound, straight live timber and shall be free from any defects that may impair their strength and durability, such as bark, decay, splits, shakes, large or numerous holes or knots, pitch seams, pitch rings, grain with slant greater than 1 in 15, or other imperfections.
  - d. All crossties shall be a minimum of 8 feet in length. Ties shall measure 6 inches thick by 8 inches wide on top, AREA No. 6 grade. If a 6-inch wide base rail is used, 7-inch by 9-inch ties shall be required. All crossties shall be branded with the seller's symbol to indicate line end.
  - e. Crossties shall be spaced a maximum of 24 inches center to center. Each 39 feet of track shall be supported by a minimum of 19 crossties. The center of the ties shall coincide with the centerline of the track and the ties shall be laid at right angles to the rail with the wide-face up.
  - f. Hardwood ties shall be used on all curves of 2 degrees and over. Softwood ties shall be permitted on other curves and tangents.
  - g. Ties shall be inspected at suitable and convenient places satisfactory to the railroad or industry owner. Inspection shall include a reasonably close examination of the top, bottom, sides, and ends of each tie. All ties shall be judged independently using the following standards:
    - i. Decay shall be the disintegration of the wood substance due to the actions of wood destroying fungi. "Blue Stain" is decay and shall be permissible in all wood.
    - ii. A large hole shall be more than 1/2 inch in diameter and 3 inches deep within, or more than 1/4 the width of the surface on which it appears and 3 inches deep outside, the sections of the tie between 20 inches and 40 inches from its middle. Numerous holes shall be any number equaling a large hole in damaging effect. Such holes may be caused in manufacture or otherwise.
    - iii. Within the rail bearing areas, a large knot shall be one having an average diameter more than 1/3 the width of the surface on which it appears; but such a knot shall be allowed if it is located outside the rail-bearing areas. Numerous knots shall be any number equaling a large knot in damaging effect.
    - iv. A shake shall be a separation along the grain, most of which occurs between the rings of annual growth.
    - v. A split shall be a separation of the wood extending from one surface to an opposite or adjacent surface. In unseasoned crossties, a split no more than 1/8 of an inch wide or 4 inches long shall be acceptable. In a seasoned crosstie, a split no more than 1/4 of an inch wide or longer than the width of the face across which it occurs shall be acceptable. In seasoned crossties, a split exceeding the limit shall be acceptable provided split limitations and anti-splitting devices are approved by the buyer and properly applied.

## CHAPTER 5. CORPORATION COMMISSION - TRANSPORTATION

- vi. Except in woods with interlocking grain, a slant in grain in excess of 1 inch in 15 inches shall be rejected.
- vii. In manufacture:
  - (1) A tie shall be considered straight:
    - (a) When a straight line along the top from the middle of one end to the middle of the other end is entirely within the tie; and
    - (b) When a straight line along a side from the middle of one end to the middle of the other end is anywhere more than 2 inches from the top and the bottom of the tie.
  - (2) The top and bottom of a tie shall be considered parallel if any difference in the thicknesses at the sides or ends does not exceed 1/8 of an inch.
- viii. The lengths, thicknesses, and widths specified shall be minimum for the standard sizes. Ties over 1 inch longer, thicker, or wider than the standard size ordered shall be rejected.
- ix. A bark seam or pocket shall be a patch of bark partially or wholly enclosed in the wood. Bark seams shall be allowed provided they are not more than 2 inches below the surface or 10 inches long.
- x. Ties with continuous checks appearing on one face only, whose depth in a fully seasoned tie is greater than 1/4 the thickness and longer than 1/2 the length shall be rejected.
- h. The maximum distance between non-defective timber crossties shall be 70 inches, center of tie to center of tie.
- i. A timber crosstie shall be considered defective when it is all of the following:
  - i. Broken through;
  - ii. Split or otherwise impaired to the extent that it will not hold spikes or will allow ballast to work through;
  - iii. So deteriorated that the tie-plate can move laterally more than 1/2 of an inch relative to the crossties;
  - iv. Cut by the tie-plate through more than 40% of its thickness; and
  - v. Not spiked as required by this Section.
- j. Industry track shall have at least one non-defective crosstie whose centerline is within 18 inches of the rail joint location.
- k. Used crossties, although not recommended, may be used subject to prior approval from the Commission.
- l. Treated tie plugs of proper size shall be used to fill holes tightly and driven into old spike holes of used ties. Approved granular tie plug material may be used in lieu of treated tie plugs.
- 6. Switch ties:
  - a. Switch ties shall be new and shall be hardwood in accordance with the requirements of this Section. Switch ties shall be located as shown on the turnout plans.
  - b. All switch ties shall be 7 inches thick by 9 inches wide in cross section. Switch tie length shall be as indicated on the turnout plans in 1 foot increments.
  - c. All switch ties shall be sawed top, bottom and sides, cut square at the ends, have top and bottom parallel, and have bark entirely removed.
- 7. Tie plates:
  - a. Tie plates shall be placed under each rail at every tie. The tie plates shall be placed with the shoulder squarely against the rail.
  - b. No crooked tie plates shall be permitted. Each tie plate shall be of proper design to fit the rail section being used.
- 8. Rail:
  - a. All rail used in industrial track construction shall weigh a minimum of 90 pounds per yard. The majority of rails used shall be a minimum of 30 feet in length, with no more than 20% of varying lengths down to 24 feet, except as required in switches.
  - b. Rail shall be laid with joints staggered so that joints on one side will not be more than 4 feet from center of the opposite rail. The best running side of the relay railhead shall form the gage side of the rail as laid.
  - c. Rails shall be new or equal to No. 2 relay rail or No. 3 relay rail as per the AREA Manual recommendations for rail grading classifications. Overflow on one or both sides shall be less than 1/4 of an inch. Base shall be solid and free of visual defects with only minor pitting. Relay rail shall be considered to be used material.
  - d. The bottom of rail, tie plate, and top surface of tie shall be clean and smooth to provide for full bearing for rails and tie plates.
  - e. The use of a torch for cutting track rail, except for field welds or for burning bolt holes shall be prohibited. A rail saw or rail chisel properly and expertly used for cutting and a hand or power rail drill for boring holes shall be employed. All chips and burrs shall be removed and all drilled holes shall be peened. The bolt hole shall conform to the standard plans.
  - f. Angle bars of approved design shall be properly fitted against the rail and properly bolted. Each joint shall be bolted with at least two bolts through each rail end. Joint bars cracked or broken through between the middle two bolts shall be replaced. Compromise and insulated joint bars of proper design shall be used where rail size and conditions dictate. Track bolts, of proper size, fitted with approved spring washers, shall be fully tightened to proper tension.
- 9. Spiking:
  - a. Each rail will be spiked with two spikes per tie plate on tangent track, staggered with inside spikes to the east or north, outside spikes to the west or south.
  - b. Spikes shall be 5/8 of an inch wide by 6 inches long.
  - c. Track spikes shall be started and driven vertically with face shank in contact with the rail so that the face of the spike shall have full hold on rail base. Damage to tie timber fiber shall be minimized.
  - d. Spikes shall not be struck after head is down to snug contact with the railbase. Care shall be taken not to overdrive spikes and rail shall not be gouged or struck with spike maul or other tool.
  - e. In the construction of road crossings and turnouts, line spikes and hold down or anchor spikes shall also be used throughout the crossing and turnout closure rails. Hold down or anchor spikes shall be used on curves of 5 degrees or more.
- 10. Gage:

## CHAPTER 5. CORPORATION COMMISSION - TRANSPORTATION

- a. Gage is measured between the heads of the rails at right angles to the rails in a plane 5/8 of an inch below the top of the railhead.
  - b. In new industrial construction the rails shall be gaged to 4 feet 8 1/2 inches.
  - c. Rail gage shall be maintained at not less than 4 feet 8 inches, nor more than 4 feet 9 3/4 inches for both curved and tangent track.
11. Rail anchors:
- a. 16 anchors per 39 feet of track shall be used, and 4 nonconsecutive ties shall be box-anchored per rail.
  - b. Anchors shall be used throughout the turnout area. The same tie shall be box-anchored across.
  - c. Anchors shall not be placed on joint ties or ties adjacent to joint ties.
  - d. Additional anchors shall be applied where longitudinal rail movement needs to be effectively controlled.
12. Gage rods:
- a. Gage rods may be used on curves where it is difficult to maintain gage.
  - b. On curves between 7 degrees and 10 degrees, 4 gage rods per 39-foot panel shall be installed and on curves between 10 degrees and 12 degrees, 5 gage rods per 39-foot panels shall be installed.
13. Switches:
- a. Each stock rail shall be securely seated in switch plates, but care shall be taken to avoid canting the rail by overtightening the rail braces.
  - b. Each switch point shall fit its stock rail properly, with the switch stand in either of its closed positions to allow wheels to pass the switch point. Lateral and vertical movement of a stock rail in the switch plates or of a switch plate on a tie shall not adversely affect the fit of the switch point to the stock rail.
  - c. Each switch shall be maintained so that the outer edge of the wheel tread cannot contact the gage side of the stock rail.
  - d. The heel of each switch rail shall be secure and the bolts in each heel shall be kept tight.
  - e. Each switch stand and connecting rod shall be securely fastened and operable without excessive lost motion.
  - f. Unusually chipped or worn switch points shall be repaired or replaced. Metal flow shall be removed to ensure proper closure.
  - g. The railroad shall be responsible for the installation and maintenance of switches connecting industrial track to railroad track facilities.
  - h. Owners of industrial switches shall be responsible for the installation and maintenance of their switches.
  - i. "Run-through" or damaged switches shall be repaired immediately.
14. Derails:
- a. Derails shall be installed where grade or other conditions indicate the need.
  - b. Derails shall be installed so that derailed cars will not foul or damage adjacent track or railroad structures.
  - c. Derail signs shall be clearly visible.
  - d. When in a locked position, the derail shall be free of lost motion which will allow it to be operated without removing the lock.
15. Car stops or bumping posts:
- a. Car stops or bumping posts shall be installed at the end of all industry spur tracks.
  - b. Car stops or bumping posts may be of any design that will adequately stop a car without damaging the car, such as, "wheelstops", "drawbar stop", or "earth-tie stop".

**Historical Note**

Adopted effective May 28, 1992 (Supp. 92-2).

**R14-5-110. Walkway and Clearance Standards**

- A.** The following shall be the standards for all walkways.
- 1. Walkways shall be provided adjacent to tracks in all areas where railroad or industrial employees are required to perform trackside duties.
  - 2. Walkways shall be:
    - a. A uniform regular surface with a gradual slope not to exceed 1 inch rise in 8 inches;
    - b. Kept clean and free of weeds, debris and other materials or equipment that might tend to interfere with the footing of railroad or industrial employees performing trackside duties; and
    - c. Constructed and maintained to ensure proper drainage and prevent pooling of water, oil, or other liquids.
  - 3. In areas where heavy foot traffic exists, such as train yards and manually operated switches, the uniform surface material used shall be no larger than 3/8 inch fines.
  - 4. Applicable walkway measurement and clearance standards contained in Appendices 1 through 6 shall be met.
  - 5. The center of tracks shall be kept clean and free from all foreign materials that tend to build up between rails causing poor footing and a deterioration of track components.
  - 6. Walkway standards shall not apply to any of the following:
    - a. Tracks in streets or tunnels, existing bridges, grade separation structures, railroad-highway crossings, existing trestles, cattle guards, and tracks adjacent to walks, abutments, platforms, pillars, and structures where minimum widths are otherwise provided;
    - b. Tracks within cities, towns, populated or congested areas where there is insufficient width of right-of-way, except that standards shall apply to the full width of right-of-way available; and
    - c. Tracks during periods of damage or obstruction due to heavy rain or snow, derailments, rock and earth slides and other abnormal periods. Walkways shall be brought back into compliance with this Section within 30 days after the damage or obstruction occurred.
- B.** The following shall be the clearance standards:
- 1. Minimum overhead and side clearances as prescribed in this Section may be decreased to the extent defined by the half circumference of a circle having a radius of 8 feet, 6 inches and tangent to a horizontal line 22 feet above the top of rail at a point directly above the centerline of track, except that for tunnels and through bridges, such radius may be 8 feet. The requirements contained in Appendix 7 also shall be met.
  - 2. Minimum overhead clearance above the top of rail shall be 22 feet except as follows:
    - a. Clearance may be reduced to 18 feet if the track terminates inside a building and all cars, locomotives, or other equipment are brought to a stop before entering the building.
    - b. Clearance shall conform to the requirements specified in the National Electrical Safety Code (ANSI C2-1990) pertaining to the installation and maintenance of electrical supply and communication lines,

## CHAPTER 5. CORPORATION COMMISSION - TRANSPORTATION

- published by the Institute of Electrical and Electronic Engineers, Incorporated (approved on June 26, 1989), incorporated herein by reference, on file with the Office of the Secretary of State, and copies available from 345 East 47th Street, New York, N.Y., 10017.
- c. Overhead clearances authorized in this subsection are applicable to tracks on which rail cars having a height of 15 feet 6 inches or less are transported. If rail cars of a height greater than 15 feet 6 inches are transported or proposed to be transported, minimum overhead clearance shall be increased by the amount of not less than such additional height, provided that such cars are exempt from this subsection when the top running boards have been removed, ladders and hand brakes lowered, car painted, stenciled, and otherwise modified in compliance with provisions of 49 CFR 231, as amended and revised through October 1, 1989, incorporated herein by reference, on file with the Office of the Secretary of State, and copies available from the United States Government Printing Office, P.O. Box 371975M, Pittsburgh, Pennsylvania 15250-7975.
  - d. Rotary dumpers used in the unloading of open top cars shall be exempt from the provisions of this Section.
3. Minimum side clearance from centerline to tangent standard gage track to obstruction shall be 8 feet 6 inches except as follows:
    - a. For platforms:
      - i. Platforms 8 inches or less above the top of rail shall be 4 feet 8 inches from centerline of track.
      - ii. Platforms 4 feet or less above the top of rail shall be 7 feet 3 inches from centerline of track.
      - iii. Stepped platforms combining two or more of the platform clearances described in subdivisions (i) and (ii) of this subsection shall not be permitted.
      - iv. Existing platforms may be extended at existing clearance, provided that such clearance, unless otherwise permitted by this Section, shall not be less than 6 feet 6 inches from the centerline of track.
    - b. Mail cranes shall be exempt from the provisions of this Section.
    - c. All poles shall be a minimum of 8 feet 6 inches from the centerline of track, except that 10 feet shall be recommended where possible.
    - d. Minimum clearance for through bridges supporting track and tunnels shall be 8 feet from the centerline of track.
    - e. Minimum clearance for handrails on bridges with walkways shall be 7 feet 6 inches from the centerline of track, except that the railroad may require clearances in excess of this minimum when the railroad deems it necessary.
    - f. Water barrels and refuge platforms shall be 4 feet above the top of rail and 8 feet distant laterally from the centerline of track.
    - g. For block signals and switch stands:
      - i. Block signals and switch stands shall be 3 feet or less above the top of rail and located between tracks. Where not practicable to provide clearances otherwise prescribed in this Section, they shall be a minimum of 6 feet from the centerline of track.
      - ii. All other block signals and switch stands shall be a minimum of 8 feet 6 inches from the centerline of track.
    - h. Water columns and oil columns shall be a minimum of 8 feet from the centerline of track.
    - i. Cattle guard fencing shall be a minimum of 6 feet 9 inches from centerline of track; except that existing cattle guards less than 6 feet 9 inches from the centerline of track may be maintained at existing clearance if such clearance does not extend beyond a line extending diagonally upward from a point level with the top of rail and 5 feet 10 inches distant laterally from the centerline of track to a point 4 feet above top of rail and 8 feet distant laterally from the centerline of track.
    - j. Log rollways may be constructed and maintained with impaired clearances when adjacent to tracks operated exclusively for logging purposes.
    - k. Clearances into shops and buildings where freight cars are spotted for repairs shall be a minimum of 7 feet 8 inches from the centerline of track.
    - l. For fences and gates:
      - i. The minimum distance between a fence and the centerline of track shall be not less than 8 feet 6 inches, except that where conditions permit, 10 feet shall be required.
      - ii. Fences topped with barbed wire shall have vertical arms or the arms shall be turned outward away from track, if necessary to maintain minimum clearances as prescribed herein.
      - iii. Gates shall be secure and shall be maintained in a condition that will allow for easy opening by one person. Gates, in the open position, shall be at least 8 feet 6 inches from the centerline of track.
      - iv. Mechanical means shall be provided to prevent gates from swinging closed while switching operations are being performed.
    - m. All minimum side clearances prescribed herein are for tangent track. All structures adjacent to curved track shall have a minimum side clearance 1 foot greater than the equivalent minimum side clearance for tangent track. Where space is limited, the minimum side clearance for structures adjacent to track of not over 12 degrees curvature shall be the same as for tangent track, but if over 12 degrees curvature, 1/4 of an inch shall be added to the equivalent minimum side clearance for tangent track for each degree of the curve. Where track contains superelevation, minimum side clearances shall be increased as necessary to give the equivalent clearances based on tangent track.
    - n. Minimum side clearances authorized in this subsection are applicable to tracks on which freight cars having a maximum overall width not greater than 10 feet 10 inches are transported. On tracks over which freight cars of greater width are transported, such minimum side clearance shall be increased by not less than 1/2 of such additional width.
  4. The minimum distance between the centerlines of parallel standard gage railroad tracks, which are used or proposed to be used for transporting freight cars, shall be 14 feet, except as follows:
    - a. The centerline of any standard gage track, except a main track, parallel and adjacent to a main track,

## CHAPTER 5. CORPORATION COMMISSION - TRANSPORTATION

- shall be at least 15 feet from the centerline of main track.
- b. The centerline of any standard gage ladder track, constructed parallel to any other track, shall have a clearance of not less than 20 feet from the centerline of other track.
  - c. Minimum clearance between the centerline of parallel house or industry tracks shall be 13 feet, except that railroads may require clearances in excess of this minimum when conditions so warrant.
  - d. Minimum-clearance between centerlines of two parallel team tracks shall be 13 feet, except that railroads may require clearances in excess of this minimum.
  - e. Minimum clearances prescribed herein are applicable only to tracks on which freight cars having a minimum overall width of 10 feet 10 inches are transported. On track over which freight cars of greater width are transported, minimum distance shall be increased by an amount equal to 1/2 such additional width.
  - f. Existing tracks may be maintained, reconstructed, or extended at centers in existence as of the effective date of the Section.
5. For track occupying or adjacent to public roadways:
    - a. Requirements for track occupying a public roadway shall be considered individually by the Commission.
    - b. Track adjacent to a public roadway shall have a minimum clearance of 10 feet from the centerline of track to the face of curb or edge of roadway. Railroad maintenance roads shall be exempt from the provisions of this subsection.
  6. For roadway structures over or under railroad track:
    - a. Overhead roadway structures shall be a minimum of 23 feet above top of rail, except that overhead clearances greater than 23 feet may be approved when justified on the basis of railroad electrification.
    - b. Roadway structures beneath railroad track shall have a minimum clearance of 15 feet above the surface of the roadway or, if additional clearance is required, as determined by the Commission after public hearing.
  7. The general clearance requirements shall be:
    - a. No merchandise, materials, equipment, or other articles shall be placed either on the ground or on a platform adjacent to any track at a distance less than 8 feet 6 inches from the centerline of track. A suitable line or other marker shall be maintained on all platforms at a distance of 8 feet 6 inches from the centerline of track to indicate minimum clearance for the articles.
    - b. Nothing herein shall be considered as preventing the movement of special work equipment or cars, except that such operations shall be conducted in a safe manner.
  8. For impaired clearance signs:
    - a. Impaired clearance signs shall be of sufficient size to accommodate any wording prescribed by the Commission. The letters of said wording shall be at least 2 1/2 inches in height with a 1/2 of an inch black stroke on a fluorescent white background. In the event the Commission does not specify said wording, railroads may use their own wording for such warning signs.
    - b. Impaired clearance signs shall be located at no less than 8 feet 6 inches from the centerline of track, shall be in a position to be clearly visible to approaching train crews.
- C. All railroads operating wholly or partially within the state of Arizona shall comply with the requirements of this Section in all construction, reconstruction, or modification of track or railroad facilities performed subsequent to the effective date of this Section.
  - D. Existing track, walkways, or railroad facilities may be maintained at existing clearances, except that such track, walkways, or railroad facilities shall not jeopardize the safety of railroad employees, industrial employees, or the general public.
  - E. Except as provided for in subsection (B)(4)(f) of this Section, all applications for exemption from any of the requirements of this Section shall be approved by the Commission prior to construction, reconstruction, or modification of track or railroad facilities adjacent thereto. An application for exemption shall:
    1. Be submitted to the Railroad Safety Section, Arizona Corporation Commission;
    2. Contain the full name and address of the applicant and the nature of the applicant's business;
    3. Set forth the reason and the extent for which relief is sought;
    4. Include sufficient information to support and justify the exemption; and,
    5. If necessary, include engineering drawings to further clarify the application.

**Historical Note**

Adopted effective May 28, 1992 (Supp. 92-2).

**R14-5-111. Crew Requirements**

- A. Railroads operating within Arizona shall maintain a minimum of two operating employees in the control compartment of the lead locomotive unit of a train.
- B. Compliance with subsection (A) of this Section shall not be required during switching operations, while moving cars for inspection purposes, or while performing setouts in conjunction with road service.

**Historical Note**

Adopted effective May 28, 1992 (Supp. 92-2).

**R14-5-112. Reserved****R14-5-113. Hazardous Materials**

- A. All railroad operations which engage in the loading of railroad freight cars for the purpose of transporting hazardous materials by rail in and through Arizona shall be governed by all of the following:
  1. The material to be transported shall be authorized for transportation in freight cars. The freight car selected shall be compatible with the lading and be authorized for the commodity by the United States Department of Transportation. All fittings, tank, and safety appurtenances shall be in proper condition for the safe transportation of the product.
  2. Loading operations shall be performed only by persons properly instructed in loading hazardous materials and made responsible for careful compliance with 49 CFR 174.67, as amended and revised through November 1, 1989, incorporated herein by reference, on file with the Office of the Secretary of State and copies available from the United States Government Printing Office, P.O. Box 371975M, Pittsburgh, Pennsylvania 15250-7975.
  3. Hand brakes shall be set and wheels blocked on all cars to be loaded.
  4. Caution signs shall be so placed on the track or cars to give necessary warning to persons approaching the cars from the open end of a siding and shall be left in place

## CHAPTER 5. CORPORATION COMMISSION - TRANSPORTATION

- until after the cars are unloaded or loaded and disconnected from the loading or unloading connection. The signs shall be of metal or other comparable material, at least 12 inches high by 15 inches wide in size, and bear the words, "STOP--Freight Car Connected", or "STOP--Men at Work", the word "STOP" being in letters at least 4 inches high and other words in letters at least 2 inches high. The letters shall be white on a blue background.
5. Loading connections shall be securely attached to inlet pipes and other fittings before any discharge valves are opened.
  6. Freight cars shall not be allowed to stand with connections attached after loading is completed. Throughout the entire period of loading, and while the car is connected to the loading device, the car shall be attended by the loader.
  7. If necessary to discontinue loading a freight car for any reason, all loading connections shall be disconnected. All valves first shall be tightly closed, and the closures of all other openings securely applied.
  8. As soon as a freight car is completely loaded, all valves shall be made tight, the loading connections shall be removed, and all other closures made tight, except that heater coil inlet and outlet pipes shall be left open for drainage. The manhole cover shall be re-applied by the use of a bar or wrench, the outlet valve reducer and outlet valve cap replaced by the use of a wrench having a handle at least 36 inches long, and the outlet valve cap plug, end plug, and all other closures of openings and of their protective housings shall be closed by the use of a suitable tool.
  9. Railroad defect cards shall not be removed.
  10. If oil or gasoline has been spilled on the ground around connections, it shall be covered with fresh dry sand or dirt.
  11. All tools and implements used in connection with loading shall be kept free of oil, dirt, and grit.
- B. Placarding shall be as follows:**
1. When lading requiring placarding in compliance with provisions of 49 CFR 172.500(c), as amended and revised through November 1, 1989, incorporated herein by reference, on file with the Office of the Secretary of State, and copies available from the United States Government Printing Office, P.O. Box 371975M, Pittsburgh, Pennsylvania 15250-7975, is loaded in a freight car, it shall be the responsibility of the person loading the freight car to affix the prescribed number and type of placards to the freight car.
  2. The freight car shall be equipped with at least 4 metal placard holders which are suitable for service.
  3. Placards affixed to hazardous materials freight cars shall be in a condition so that the format, legibility, color, and visibility are not substantially reduced due to damage, deterioration, or obscurement by dirt or other matter.
- C. The accumulation of static electricity during the loading or unloading of freight cars with flammable liquids or flammable compressed gases shall be prevented by providing a means of grounding the freight car body to a suitable location using a grounding device capable of conducting static electricity away from the freight car and the loading or unloading appliances and appurtenances.**
- D. For rail bonds and insulated joints:**
1. Rail shall be adequately bonded at each joint upon which railroad equipment may stand while flammable liquids or flammable gases are being transferred.
  2. Insulated rail joints shall be installed to electrically separate the loading or unloading track section from all other track rails.
    - a. Insulated rail joints shall be applied only to rail having sawed ends.
    - b. Insulated rail joints shall not be applied to rails covered with scale, dirt, or other foreign matter; to rails with battered ends; or when the opening between rail ends is greater than 3/8 of an inch.
  3. An emergency transfer of flammable liquids or flammable gases that must be performed in conjunction with a hazardous material incident shall be exempt from Rail Bonding and Insulated Joint requirements, provided other means, such as ground rods, are utilized to ground the containers and transfer appliances.
- E. A derail shall be used to prevent the intrusion into an area where freight cars are being loaded or unloaded with a hazardous material. This device shall be kept in "derailing" position and locked with an effective locking device while freight cars are connected for loading or unloading. The key for the lock used to immobilize the derailing device shall be maintained in the care of the person who is in charge of the freight cars being loaded or unloaded.**
- F. Placarded freight cars which contain hazardous materials shall not be left to stand in populated areas for the purpose of constructive placement where the freight car is not under the direct supervision, observation, or control of the railroad carrier.**
- G. Rail carriers shall be prohibited from allowing freight or freight cars carrying hazardous materials to be constructively placed or otherwise withheld from their destination at other than an Environmental Protection Agency-approved transfer facility. For the purposes of this subsection, "transfer facility" shall mean any transportation-related facility including loading docks, parking areas, and other similar areas where shipments of hazardous materials are held during the normal course of transportation.**
- H. All railroad operations that engage in the unloading of railroad freight cars for the purpose of transporting hazardous materials by rail in and through Arizona shall be governed by 49 CFR 174.67, as amended and revised through October 1, 1989, incorporated herein by reference, on file with the Office of the Secretary of State, and copies available from the United States Government Printing Office, P.O. Box 371975M, Pittsburgh, Pennsylvania 15250-7975, all being regulations of the Federal Railroad Administration, United States Department of Transportation, Railroad Safety regulations.**

**Historical Note**

Adopted effective May 28, 1992 (Supp. 92-2).

**R14-5-114. End-of-train Device**

Any railroad carrier subject to the provisions of 49 CFR 221, amended and revised through October 1, 1989, incorporated herein by reference, on file with the Office of the Secretary of State, and copies available from the United States Government Printing Office, P.O. Box 371975M, Pittsburgh, Pennsylvania 15250-7975, operating trains outside of yard limits without an occupied caboose at the rear of the train shall have an operable end-of-train device capable of activating the train's emergency air brake system electronically from the control panel of the locomotive controlling the train.

**Historical Note**

Adopted effective May 28, 1992 (Supp. 92-2).

**R14-5-115. Train Composition**

## CHAPTER 5. CORPORATION COMMISSION - TRANSPORTATION

All carriers operating within the state of Arizona shall strictly adhere to their respective instructions relative to "train makeup" or "special car handling instructions" as promulgated in the current timetable or other operating department special instructions.

**Historical Note**

Adopted effective May 28, 1992 (Supp. 92-2).

**R14-5-116. Civil Penalty**

- A.** Any person, firm or corporation violating any provision of this Article or Order adopted pursuant to this Article pertaining to railroad safety and the transportation of hazardous materials by rail shall be subject to a civil penalty not to exceed \$2,000 for each violation with each day constituting a separate violation. In no event shall the maximum civil penalty exceed \$200,000 for any related series of violations. The penalties described in this subsection shall not apply to R14-5-102.
- B.** Any civil penalty pertaining to railroad and rail hazardous materials transportation safety may be compromised by the

Commission. In determining the amount of the penalty, or the amount agreed upon in compromise, the appropriateness of the penalty to the size of the business of the person, firm or corporation charged, the gravity of the violation and the good faith of the person, firm, or corporation charged in attempting to achieve compliance, after notification of a violation, shall be considered by the Commission. The amount of the penalty, when finally determined, or the amount agreed upon in compromise, may be deducted from any sums owed by the state of Arizona to the person, firm, or corporation charged or may be recovered in a civil action in the Superior Court of the state of Arizona.

- C.** The Commission may avail itself of any other authority or remedies available under the Constitution of Arizona and the Arizona Revised Statutes to effect the purpose of this Article.

**Historical Note**

Adopted effective May 28, 1992 (Supp. 92-2).

**OVERHEAD WIRE CLEARANCES SHALL CONFORM TO COMMISSION'S REGULATION R14-5-110.**

POSTS, POLES, SIGNS AND SIMILAR FACILITIES MAY HAVE MINIMUM CLEARANCE OF 8'-6" BUT CLEARANCE OF 10'-0" IS RECOMMENDED WHERE PRACTICABLE.

ALL SIDE CLEARANCE DIMENSIONS ARE FOR TANGENT TRACK. IN GENERAL, SIDE CLEARANCE FOR CURVE TRACK TO BE 1'-0" GREATER THAN THAT FOR TANGENT TRACK.

**WHEN TRACK IS USED PRINCIPALLY FOR LOADING OR UNLOADING REFRIGERATOR CARS, PLATFORM HEIGHT OF 4'-6" ABOVE TOP OF RAIL MAY BE MAINTAINED PROVIDED THAT MINIMUM SIDE CLEARANCE TO CENTER LINE OF TRACK SHALL BE 8'-0".**

**PLATFORMS 4'-0" OR LESS IN HEIGHT WITH MINIMUM CLEARANCE OF 7'3" MAY BE EXTENDED AT EXISTING CLEARANCES IF SUCH EXTENSION IS NOT IN CONNECTION WITH RECONSTRUCTION OF ORIGINAL PLATFORM.**

## CHAPTER 5. CORPORATION COMMISSION - TRANSPORTATION

## ARTICLE 2. PIPELINE SAFETY

**R14-5-201. Definitions**

As used in this Article:

1. "Building" means any structure intended for supporting or sheltering any occupancy.
2. "Commission" means the Arizona Corporation Commission.
3. "Discontinuation of service" means an interruption in service expected to exceed four hours, occurring after an operator tests a service line or meter set assembly and determines that additional actions are necessary to restore service because of a leak or hazardous operating condition.
4. "DOT" means the U.S. Department of Transportation.
5. "Evacuation" means denying entry into or the organized clearing of a building or buildings, involving:
  - a. One hundred or more individuals from any number of buildings;
  - b. All of the individuals present from five or more buildings;
  - c. All of the individuals present from five or more businesses within a single building such as a strip mall; or
  - d. A nonresidential building known or discovered to be occupied by individuals who are confined, are of impaired mobility, or would be difficult to evacuate because of their age or physical or mental condition or capabilities, such as a hospital, prison, school, daycare facility, retirement facility, or assisted living facility.
6. "Gas" means natural gas, flammable gas, or toxic or corrosive gas and includes LPG and LNG that is vaporized.
7. "Hazardous liquid" means:
  - a. Petroleum,
  - b. A petroleum product, or
  - c. Anhydrous ammonia.
8. "Independent laboratory" means a laboratory that is not owned or operated by the operator and that has no affiliation with the operator through ownership, familial relationship, or contractual or other relationship that results in the laboratory being controlled by or under common control with the operator.
9. "Intrastate pipeline" means all pipeline facilities included in the definition of "pipeline system" that are used by a provider to transport gas, LNG, or a hazardous liquid within Arizona and that are not used to transport gas, LNG, or a hazardous liquid in interstate or foreign commerce. This includes, without limitation, any equipment, facility, building, or other property used or intended for use in transporting gas, LNG, or a hazardous liquid.
10. "Liquefied natural gas" means natural gas or synthetic gas having as its major constituent methane (CH<sub>4</sub>) that has been changed to a liquid.
11. "LNG" means liquefied natural gas.
12. "LNG facility" means those portions of a pipeline system that are used for transporting or storing LNG or for LNG conversion.
13. "LPG" means liquefied petroleum gas.
14. "MAOP" means maximum allowable operating pressure, the maximum pressure at which a gas or LPG pipeline or segment of pipeline may be operated.
15. "Master meter system" means physical facilities for distributing gas within a definable area where the operator purchases metered gas from a provider to provide gas service to two or more buildings other than at a single family residence.
16. "Office of Pipeline Safety" means the Commission personnel assigned to perform the Commission's day-to-day activities under A.R.S. Title 40, Chapter 2, Article 10, who are headquartered at 1300 W. Washington Street, Suite 220 Phoenix, AZ 85007 and whose contact information is available at <http://www.azcc.gov/Divisions/Safety>.
17. "Operator" means a person that owns or operates a pipeline system or master meter system.
18. "OPS" means "Office of Pipeline Safety," as defined herein.
19. "Outage" means an unplanned and unscheduled discontinuation of service:
  - a. Concurrently to 250 or more residential customer accounts or to 10 or more commercial customer accounts; or
  - b. To a nonresidential building known or discovered to be occupied by individuals who are confined, are of impaired mobility, or would be difficult to evacuate or relocate because of age or physical or mental condition or capabilities, such as a hospital, prison, school, daycare facility, retirement facility, or assisted living facility.
20. "Person" means any individual, firm, joint venture, partnership, corporation, association, cooperative association, joint stock association, trustee, receiver, assignee, or personal representative, or the state or any political subdivision of the state.
21. "PHMSA" means the U.S. Department of Transportation Pipeline and Hazardous Materials Safety Administration.
22. "Pipeline system" means all parts of the physical facilities of a public service corporation or provider through which gas, LPG, LNG, or a hazardous liquid moves in transportation, including but not limited to pipes, compressor units, metering stations, regulator stations, delivery stations, holders, fabricated assemblies, and other equipment, buildings, and property so used.
23. "Provider" means any intrastate gas pipeline operator, public service corporation, or municipality that provides natural gas or LPG service to a master meter customer.
24. "PSIG" means pounds per square inch gauge.
25. "Public service corporation" has the same meaning as in Article 15, § 2 of the Arizona Constitution.
26. "Sandy type soil" means sand no larger than "coarse" as defined by the American Society for Testing and Materials, ASTM D-2487-83, Standard Practice for Classification of Soils for Engineering Purposes (1983), including no future editions or amendments, which is incorporated by reference; on file with the Office of Pipeline Safety; and published by and available from ASTM International, 100 Barr Harbor Drive, P.O. Box C700, West Conshohocken, PA, 19428-2959.
27. "Sour gas" means natural gas that contains the corrosive sulfur-bearing compound hydrogen sulfide (H<sub>2</sub>S) in a concentration that exceeds a minimum threshold of 0.25 grain of hydrogen sulfide per 100 cubic feet (5.8 milligrams/m<sup>3</sup>) under standard operating conditions (4 parts per million).
28. "Sour oil" means crude oil containing the impurity sulfur in a concentration greater than 0.5 percent.
29. "State" means the state of Arizona and all lands within its boundaries.
30. "Structure" means something that is built or constructed, or any piece of work artificially composed of parts joined together in some definite manner.

## CHAPTER 5. CORPORATION COMMISSION - TRANSPORTATION

31. "Transport" or "transportation" of gas, LNG, or a hazardous liquid means the gathering, transmission, distribution, or storage of gas, LNG, or a hazardous liquid using a pipeline system within the state.
32. "Unknown failure" means an occurrence in which a portion of a pipeline system fails, and:
  - a. The cause cannot be attributed to any observable corrosion, third-party damage, natural or other outside force, construction or material defect, equipment malfunction, or incorrect operations; or
  - b. The operator and the Office of Pipeline Safety disagree as to the cause.

**Historical Note**

Adopted effective October 23, 1987 (Supp. 87-4).

Amended Paragraph (5) effective February 3, 1989 (Supp. 89-1). Amended effective July 25, 1994, under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 94-3). Amended by exempt rulemaking at 5 A.A.R. 3693, effective September 17, 1999 (Supp. 99-3). Amended by final rulemaking at 8 A.A.R. 2382, effective May 10, 2002 (Supp. 02-2). Amended by final rulemaking at 20 A.A.R. 75, effective December 16, 2013 (Supp. 13-4). Amended by final rulemaking at 25 A.A.R. 151, effective January 9, 2019 (Supp. 19-1).

**R14-5-202. Construction and Safety Standards for Gas, LNG, and Hazardous Liquid Pipeline Systems**

- A. Applicability: This Section applies to the construction, reconstruction, repair, operation, and maintenance of each intrastate gas, LNG, or hazardous liquid pipeline system, pursuant to A.R.S. § 40-441.
- B. Subject to the definitional changes in R14-5-201 and the modifications noted in this Section, the Commission adopts, incorporates, and approves as its own 49 CFR 40; 191; 192, except (I)(A)(2) and (3) of Appendix D to Part 192; 193; 195, except 195.1(b)(2), (3), and (4); and 199 (October 1, 2018), including no future editions or amendments, which are incorporated by reference; on file with the Office of Pipeline Safety; and published by and available from the U.S. Government Printing Office, 710 North Capital Street N.W., Washington DC 20401, and at <http://www.gpo.gov/fdsys/>. For purposes of 49 CFR 192, "Business District" means an area where the public congregate for economic, industrial, religious, educational, health, or recreational purposes and two or more buildings used for these purposes are located within 100 yards of each other.
- C. The above mentioned incorporated Parts of 49 CFR, except 49 CFR 191; 49 CFR 192.727(g)(1), 192.913(b)(1)(vii), 192.943(a), 192.949(a)-(b), and 192.951; 49 CFR 193 Subpart A; and 49 CFR 195 Subparts A and B, are revised as follows:
  1. Substitute "Commission" where "Administrator," "Pipeline and Hazardous Materials Administration," "Office of Pipeline Safety," or "OPS" appears; and
  2. Substitute "Office of Pipeline Safety, Arizona Corporation Commission, at its office in Phoenix, Arizona" where the address for the "Information Resources Manager, Office of Pipeline Safety, Pipeline and Hazardous Materials Safety Administration, U.S. Department of Transportation" appears.
- D. An operator of an intrastate pipeline shall file with the Commission an Operation and Maintenance Plan, including an emergency plan, at least 30 days before placing a pipeline system into operation. Any changes in an existing Operation and Maintenance Plan shall be filed within 30 days after the effective date of the change.
- E. An operator of an intrastate pipeline transporting sour gas or sour oil shall comply with the following industry standards addressing facilities handling hydrogen sulfide (H<sub>2</sub>S), which are incorporated by reference, including no future editions or amendments:
  1. NACE Standard MR0175-99, Standard Materials Requirements-Sulfide Stress Cracking Resistant Metallic Material for Oilfield Equipment (1999 Revision), on file with the Office of Pipeline Safety and published by and available from the NACE International, 1440 S. Creek Dr., Houston, TX 77084-4906; and
  2. API RP55: Recommended Practice for Conducting Oil and Gas Producing and Gas Processing Plant Operations Involving Hydrogen Sulfide (2nd Edition 1995), on file with the Office of Pipeline Safety and published by and available from the American Petroleum Institute, 1200 L Street, NW, Washington, DC 20005-4070 and at <http://www.techstreet.com/>.
- F. An operator of an intrastate pipeline transporting LNG, hazardous liquid, or gas shall not construct any part of a hazardous liquid, LNG, or gas pipeline system under a building. If a building encroaches over a pipeline system, the operator may require the property owner to remove the building from over the pipeline or to reimburse the operator the cost associated with relocating the pipeline system. The operator shall determine, within 90 days after discovering the encroachment, whether the encroachment can be resolved within 180 days. If the operator determines that the encroachment cannot be resolved within 180 days, the operator shall, within 90 days of discovery, submit to the Office of Pipeline Safety a written plan to resolve the encroachment within a period longer than 180 days. The Office of Pipeline Safety may then extend the 180-day requirement in order to allow the property owner and the operator to implement the written plan to resolve the encroachment. If the operator does not submit a written plan, and the encroachment is not resolved within 180 days of discovery, the operator shall discontinue service to the pipeline system. This modifies 49 CFR 192.361 and 195.210.
- G. An operator of an intrastate distribution pipeline transporting gas shall not construct any part of a pipeline system less than 8 inches away from any other underground structure. If the 8-inch clearance cannot be maintained, a sleeve, casing, or shielding shall be used. This modifies 49 CFR 192.361.
- H. An operator of an intrastate pipeline transporting gas that has regulators, meters, or regulation meter sets that have been out of service for 36 months shall disconnect the pipeline from all sources and supplies of gas or hazardous liquids, purge the gas or hazardous liquids from the pipeline being disconnected, and cap all ends within six months after the 36 months have passed. This modifies 49 CFR 192.727.
- I. An operator of an intrastate pipeline shall not install or operate a gas regulator that might release gas within 3 feet of a source of ignition, an opening into a building, an air intake into a building, or any electrical source that is not intrinsically safe. The 3 foot clearance from a source of ignition shall be measured from the vent or source of release (discharge port), not from the physical location of the meter set assembly. This subsection does not apply to building permits issued and subdivisions platted before October 1, 2000. If an encroachment into the required 3 foot clearance is caused by an action of the property owner, an occupant, or a provider after the effective date of this rule, the operator may require the property owner to resolve the encroachment or to reimburse the operator the cost associated with relocating the pipeline system. The operator shall determine, within 90 days after discovering the encroachment, whether the encroachment can be resolved

## CHAPTER 5. CORPORATION COMMISSION - TRANSPORTATION

within 180 days. If the operator determines that the encroachment cannot be resolved within 180 days, the operator shall, within 90 days of discovery, submit to the Office of Pipeline Safety a written plan to resolve the encroachment within a period longer than 180 days. The Office of Pipeline Safety may then extend the 180-day requirement in order to allow the property owner and the operator to implement the written plan to resolve the encroachment. If the operator does not submit a written plan, and the encroachment is not resolved within 180 days of discovery, the operator shall discontinue service to the affected pipeline system. This modifies 49 CFR 192.357 and 192.361.

- J. An operator of an intrastate pipeline transporting LNG, gas, or a hazardous liquid shall use a cathodic protection system designed to protect the metallic pipeline in its entirety, in accordance with 49 CFR 192, Subpart I, as incorporated by reference in subsection (B). Sections (I)(A)(2) and (3) of Appendix D to Part 192 shall not be utilized. This modifies 49 CFR 192.463(a), 193.2629, and 195.571.
- K. An operator of an intrastate pipeline transporting hazardous liquid or gas shall not install Acrylonitrile-Butadiene-Styrene (ABS) or aluminum pipe in a pipeline system. This modifies 49 CFR 192.53 and 192.59.
- L. An operator of an intrastate pipeline transporting hazardous liquid or gas shall not install plastic pipe aboveground unless the plastic pipeline is protected by a metal casing, or equivalent, and the installation is approved by the Office of Pipeline Safety. An operator may use a temporary aboveground plastic pipeline bypass for up to 60 days, provided that the plastic pipeline is protected and is under the direct supervision of the operator at all times. This modifies 49 CFR 192.321 and 195.254.
- M. An operator of an intrastate pipeline transporting hazardous liquid or gas that constructs a pipeline system or any portion thereof using plastic pipe shall install, at a minimum, a 14-gauge coated or corrosion resistant, electrically conductive wire as a means of locating the pipe while it is underground. Tracer wire shall not be wrapped around the plastic pipe. Tracer wire may be taped, or attached to the pipe in another manner, provided that the adhesive or attachment is not detrimental to the integrity of the pipe wall. This modifies 49 CFR 192.321 and 195.246.
- N. An operator of an intrastate pipeline transporting gas or hazardous liquid that constructs an underground pipeline system using plastic pipe shall bury the installed pipe with at least 6 inches of sandy type soil, free of any rock or debris, surrounding the pipe for bedding and shading, unless the pipe is otherwise protected as approved by the Office of Pipeline Safety. Steel pipe shall be installed with at least 6 inches of sandy type soil, free of any debris or materials injurious to the pipe coating, surrounding the pipe for bedding and shading, unless the pipe is otherwise protected as approved by the Office of Pipeline Safety. This modifies 49 CFR 192.321, 192.361, and 195.246.
- O. An operator of an intrastate pipeline transporting gas that constructs an underground pipeline system using plastic pipe shall install the pipe with sufficient slack to allow for thermal expansion and contraction. In addition, all plastic pipe and fittings for use in an area with service temperatures above 100° F shall be tested and marked CD, CE, CF, or CG as required by ASTM D2513 (1995), including no future editions or amendments, which is incorporated by reference, on file with the Office of Pipeline Safety, and published by and available from ASTM International, 100 Barr Harbor Dr., P.O. Box C700, W. Conshohocken, PA 19428-2959 and through <http://www.astm.org>. This modifies 49 CFR 192.63.
- P. An operator of an intrastate pipeline system transporting hazardous liquid or gas shall qualify welding procedures and shall ensure that welding of steel pipelines is performed in accordance with API Standard 1104, as incorporated by reference in 49 CFR 192.7, by welders qualified pursuant to API Standard 1104, except that welders qualified as delineated in 49 CFR 192, Appendix C may be used for low stress level pipe. This modifies 49 CFR 192.225, 192.227, 195.214, and 195.222.
- Q. An operator of an intrastate pipeline transporting gas shall survey and grade all detected leakage according to the standards provided below, which modify 49 CFR 192.706 and 192.723:
  1. In the case of all gas except LPG, leakage surveys and grading shall be performed pursuant to the standards set by ASME Guide for Gas Transmission and Distribution Pipeline System, Guide Material, Appendix G-11-1983, including no future editions or amendments, which is incorporated by reference; on file with the Office of Pipeline Safety; published by and available from ASME, Two Park Avenue, New York, NY 10016-5990; and modified by omitting 4.4(c) and by replacing "should" with "shall" each time it appears.
  2. In the case of LPG, leakage surveys and grading shall be performed pursuant to the standards set by ASME Guide for Gas Transmission and Distribution Pipeline System, Guide Material, Appendix G-11A-1983, including no future editions or amendments, which is incorporated by reference; on file with the Office of Pipeline Safety; published by and available from ASME, Two Park Avenue, New York, NY 10016-5990; and modified by replacing "should" with "shall" each time it appears.
  3. Leakage survey records shall identify in some manner each pipeline surveyed and shall be maintained to demonstrate that each required leakage survey has been conducted. This modifies 49 CFR 192.706 and 192.723.
- R. An operator of an intrastate transmission pipeline transporting gas shall conduct a leakage survey at least twice each calendar year, at an interval not exceeding 7 1/2 months, independent of class location, and shall repair each underground leak classified as grade two or three either upon discovery or within one year after discovery. This modifies 49 CFR 192.706 and 192.711.
- S. An operator of an intrastate transmission pipeline transporting gas and operating at or above 20 percent of Specified Minimum Yield Strength shall ensure that nondestructive testing is completed for each weld performed on newly installed, replaced, or repaired pipeline or an appurtenance. The nondestructive testing shall be completed before the newly welded area of the pipeline or appurtenance is used for service. This modifies 49 CFR 192.241.
- T. An operator of an LNG facility shall ensure that nondestructive testing is completed for each weld performed on newly installed, replaced, or repaired pipeline or an appurtenance. This modifies 49 CFR 193.2303.
- U. In the event of an unknown failure of a gas, LNG, or hazardous liquid pipeline, resulting in the operator's being required to provide a telephonic or written report under R14-5-203 (B) or (C) and in the operator's removing a portion of the failed pipeline, the following shall occur:
  1. The operator shall retain the portion of failed pipeline that was removed;
  2. The operator shall telephonically notify the Office of Pipeline Safety of the removal within two hours after the removal is completed, providing the following information:
    - a. Identity of the failed pipeline,
    - b. Description and location of the failure,

## CHAPTER 5. CORPORATION COMMISSION - TRANSPORTATION

- c. Date and time of the removal,
  - d. Length or quantity of the removed portion,
  - e. Storage location of the removed portion, and
  - f. Any additional information about the failure or the removal of the portion of the failed pipeline that is requested by the Office of Pipeline Safety;
3. Within 48 hours after receiving telephonic notification pursuant to subsection (U)(2), the Office of Pipeline Safety shall:
- a. Determine, based on the information provided by the operator and the availability, adequacy, and reliability of any pipeline testing laboratory operated by the operator, whether it is necessary to have the removed portion of pipeline tested at an independent laboratory; and
  - b. Telephonically notify the operator either:
    - i. That the operator must have the removed portion of pipeline tested, in accordance with Office of Pipeline Safety directions, by an independent laboratory selected by the Office of Pipeline Safety as provided in subsection (U)(5), to determine the cause or causes of the failure; or
    - ii. That the operator is not required to have the removed portion of pipeline tested by an independent laboratory and instead must conduct testing in its own pipeline testing laboratory, after which the operator may discard the removed portion of pipeline;
4. After providing telephonic notice as provided in subsection (U)(3)(b), the Office of Pipeline Safety shall confirm its notification in writing;
5. If the Office of Pipeline Safety directs testing by an independent laboratory:
- a. The Office of Pipeline Safety shall:
    - i. Determine, as provided in subsection (U)(6), the independent laboratory that will do the testing and the period of time within which the testing is to be completed;
    - ii. Determine, based on the available information concerning the failure, the number and types of tests to be performed on the removed pipeline; and
    - iii. Notify the operator of its determinations; and
  - b. The operator shall:
    - i. Contact the selected independent laboratory to arrange the scheduling of the required tests;
    - ii. Notify the Office of Pipeline Safety, at least 20 days before the date of the tests, of the date and time scheduled for the laboratory tests;
    - iii. At the request of the Office of Pipeline Safety, ensure that a representative of the Office of Pipeline Safety is permitted to observe any or all of the tests;
    - iv. Ensure that the original test results are provided to the Office of Pipeline Safety by the independent laboratory within 30 days after the tests are completed; and
    - v. Pay for the independent laboratory testing; and
6. In determining an independent laboratory to perform testing required under subsection (U), the Office of Pipeline Safety shall:
- a. Submit to at least three different independent laboratories written requests for bids to conduct the testing;
  - b. Consider each responding independent laboratory's qualifications to perform the testing, as demonstrated by:
    - i. Past experience in performing the required test or tests according to ASTM International standards, and
    - ii. Any recognition that a laboratory may have received from a national or international laboratory accreditation body, such as through a certification or accreditation process;
  - c. Wait to select an independent laboratory until one of the following occurs:
    - i. The Office of Pipeline Safety has received written bids from at least three different independent laboratories, or
    - ii. Thirty days have passed since the date of the request for bids; and
  - d. Select the independent laboratory that offers the optimum balance between cost and demonstrated ability to perform the required test or tests. This modifies 49 CFR 192.617, 193.2515, and 195.402.
- V. An operator shall ensure that all repair work performed on an existing intrastate pipeline transporting LNG, hazardous liquid, or gas complies with this Article.
- W. The Commission may waive compliance with any of the requirements of this Section upon a finding that such a waiver is in the interest of public and pipeline safety.
- X. To ensure compliance with the provisions of this Article, the Commission or an authorized representative thereof may enter the premises of an operator of an intrastate pipeline to inspect and investigate the property, books, papers, electronic files, business methods, and affairs that pertain to the pipeline system operation.

**R14-5-203. Pipeline Incident Reports**

**A.** Applicability. This Section applies to all intrastate pipeline systems.

**B.** Required incident reports by telephone:

1. An operator of an intrastate pipeline transporting LNG or gas shall immediately notify by telephone the Office of Pipeline Safety, at 602-262-5601 during normal working hours or at 602-252-4449 at all other times, upon discovering the occurrence of any of the following related to the operator's intrastate pipeline system:

- a. Release of gas or LNG from a pipeline or LNG facility, when any of the following results:
  - i. Death or personal injury requiring hospitalization;
  - ii. Injury to any individual resulting in loss of consciousness;
  - iii. An explosion or fire not intentionally set by the operator;
  - iv. Property damage estimated in excess of \$5,000, including the value of the gas lost; or
  - v. Unintentional release of gas from a transmission pipeline;
- b. Emergency transmission pipeline shutdown;
- c. News media inquiry;
- d. Overpressure of a pipeline system where a pipeline operating at less than 12 PSIG exceeds MAOP by 50%, where a pipeline operating between 12 PSIG and 60 PSIG exceeds MAOP by 6 PSIG, or where a pipeline operating over 60 PSIG exceeds MAOP plus 10%;
- e. Permanent or temporary discontinuance of service to a master meter system or when assisting with the isolation of any portion of a master meter system due to failure of a leak test;
- f. Emergency shutdown of any LNG facility;
- g. An evacuation; or
- h. An outage.

2. An operator of an intrastate pipeline transporting hazardous liquid shall immediately notify by telephone the Office of Pipeline Safety, at 602-262-5601 during normal working hours or at 602-252-4449 at all other times, upon discovering a failure in a pipeline system resulting in the occurrence of any of the following:

- a. Injury to an individual that results in one or more of the following:
  - i. Death or personal injury requiring medical treatment;
  - ii. Loss of consciousness; or
  - iii. Inability of the individual to leave the scene of the incident unassisted;
- b. An explosion or fire not intentionally set by the operator;
- c. Property damage estimated in excess of \$5,000;
- d. Pollution of any land or stream, river, lake, reservoir, or other body of water that violates applicable environmental quality or water quality standards, causes a discoloration of the water surface or adjoining shoreline, or deposits sludge or emulsion beneath the water surface or upon the adjoining shoreline;
- e. News media inquiry;
- f. Release of 5 gallons (19 liters) or more of hazardous liquid or carbon dioxide, except that no report is required for a release of less than 5 barrels (0.8 cubic meters) resulting from a pipeline maintenance activity if the release is:

- i. Not otherwise reportable under this Section;
  - ii. Not one described in 49 CFR 195.52(a)(4), as incorporated by reference in R14-5-202 and available from the Office of Pipeline Safety;
  - iii. Confined to the operator's property or the pipeline right-of-way; and
  - iv. Cleaned up promptly; or
  - g. Any release of hazardous liquid or carbon dioxide that was significant in the judgment of the operator even though it did not meet any of the criteria in subsections (B)(2)(a) through (f).
3. A telephonic incident report shall include the following information:
    - a. Name of the pipeline system operator,
    - b. Name of the reporting party,
    - c. Job title of the reporting party,
    - d. Telephone number of the reporting party,
    - e. Location of the incident,
    - f. Time of the incident, and
    - g. Description of any fatalities and injuries.

**C.** Required written incident reports:

1. An operator of an intrastate pipeline transporting LNG or gas shall file a written incident report when an incident involving a pipeline occurs resulting in any of the following:
  - a. Release of gas or LNG from a pipeline or LNG facility, when any of the following results:
    - i. Death or personal injury requiring hospitalization;
    - ii. Loss of consciousness;
    - iii. An explosion or fire not intentionally set by the operator;
    - iv. Property damage estimated in excess of \$25,000, including the value of all released gas; or
    - v. Unintentional release of gas from a transmission pipeline;
  - b. An incident involving an evacuation, outage, or property damage and resulting in expenses including the value of any released gas and of restoring service or evacuation estimated in excess of \$25,000;
  - c. Emergency transmission pipeline shutdown;
  - d. Overpressure of a pipeline system where a pipeline operating at less than 12 PSIG exceeds MAOP by 50%, where a pipeline operating between 12 PSIG and 60 PSIG exceeds MAOP by 6 PSIG, or where a pipeline operating over 60 PSIG exceeds MAOP plus 10%; or
  - e. Emergency shutdown of any LNG facility.
2. A written incident report concerning a gas pipeline system shall be completed using the following, as applicable, which are incorporated by reference; on file with the Office of Pipeline Safety; and published by and available from PHMSA at East Building, Second Floor, 1200 New Jersey Ave., SE, Washington, DC 20590, and at <http://www.phmsa.dot.gov/pipeline/library/forms>:
  - a. Form PHMSA F 7100.1: Incident Report – Gas Distribution System (October 2014), including no future editions or amendments;
  - b. Form PHMSA F 7100.2: Incident Report – Natural and Other Gas Transmission and Gathering Pipeline Systems (October 2014), including no future editions or amendments; or
  - c. Form PHMSA F 7100.3: Incident Report – Liquefied Natural Gas (LNG) Facilities (October 2014), including no future editions or amendments.

## CHAPTER 5. CORPORATION COMMISSION - TRANSPORTATION

3. An operator of an intrastate pipeline transporting hazardous liquid shall file a written incident report completed using Form PHMSA F 7000-1: Accident Report – Hazardous Liquid Pipeline Systems (July 2014), including no future editions or amendments, which is incorporated by reference, on file with the Office of Pipeline Safety, and published by and available from PHMSA as set forth in subsection (C)(2), any time the operator would have been required to make a notification as required under R14-5-203(B)(2).
  4. A written incident report required by this Section shall be filed with the Office of Pipeline Safety within the time specified below:
    - a. For an LNG or gas - incident, within 20 days after detection; and
    - b. For a hazardous liquid incident, within 15 days after detection.
  5. An operator shall either file a copy of each DOT required written incident report electronically with PHMSA at <https://portal.phmsa.dot.gov/pipeline> or submit a written request for an alternative reporting method to the Information Resource Manager, Office of Pipeline Safety, Pipeline and Hazardous Materials Safety Administration, PHP-20, 1200 New Jersey Avenue, SE, Washington, DC 20590, under 49 CFR 195.58, as incorporated by reference in R14-5-202.
  6. After an incident involving shutdown or partial shutdown of a master meter system, an operator of a gas pipeline system shall request and obtain a clearance from the Office of Pipeline Safety before turning on or reinstating service to the master meter system or portion of the master meter system that was shut down.
1. Form PHMSA F 7000-1.1: Annual Report for Calendar Year 20\_\_ Hazardous Liquid Pipeline Systems (2019), including no future editions or amendments, which shall be completed in accordance with the PHMSA instructions for the form;
  2. Form PHMSA F 7100.1-1: Annual Report for Calendar Year 20\_\_ Gas Distribution System (October 2018), including no future editions or amendments, which shall be completed in accordance with the PHMSA instructions for the form;
  3. Form PHMSA F 7100.2-1: Annual Report for Calendar Year 20\_\_ Natural and Other Gas Transmission and Gathering Pipeline Systems (October 2014), including no future editions or amendments, which shall be completed in accordance with the PHMSA instructions for the form; or
  4. Form PHMSA F 7100.3-1: Annual Report for Calendar Year 20\_\_ Liquefied Natural Gas (LNG) Facilities (August 2017), including no future editions or amendments, which shall be completed in accordance with the PHMSA instructions for the form.
- B.** An operator of an intrastate pipeline shall submit a copy of each required annual report by March 15, for the previous calendar year, to PHMSA at <https://portal.phmsa.dot.gov/pipeline>.

**R14-5-204. Annual Reports**

- A.** An operator of an intrastate pipeline shall file with the Office of Pipeline Safety, not later than March 15, for the preceding calendar year, an annual report completed using one of the following, as applicable, which are incorporated by reference; on file with the Office of Pipeline Safety; and published by and available from PHMSA as provided in R14-5-203(C)(2):

**R14-5-205. Commission Investigations**

- A.** The Office of Pipeline Safety shall investigate the cause of each reportable incident, accident, or event resulting in a death or an injury requiring hospitalization and may investigate other incidents, accidents, or events.
- B.** While investigating an incident, accident, or event, the Commission or an authorized agent of the Commission may:
1. Inspect all plant and facilities of a pipeline system and all other property of a pipeline system operator;
  2. Inspect the books, papers, business methods, and affairs of a pipeline system operator;
  3. Make inquiries regarding and interview persons having knowledge of facts surrounding an incident or accident;
  4. Attend, as an observer, all hearings and formal investigations concerning a pipeline system operator;

## CHAPTER 5. CORPORATION COMMISSION - TRANSPORTATION

5. Schedule and conduct a public hearing into the incident or accident; and
6. Issue subpoenas to compel the production of records and the taking of testimony.

**Historical Note**

Adopted effective October 23, 1987 (Supp. 87-4). Amended subsections (B) and (G) effective February 3, 1989 (Supp. 89-1). Amended effective December 18, 1991 (Supp. 91-4). Amended effective July 25, 1994, under a court-ordered exemption as determined by the Arizona Corporation Commission (Supp. 94-3). Section R14-5-205 renumbered to R14-5-207; new Section R14-5-205 made by final rulemaking at 20 A.A.R. 75, effective December 16, 2013 (Supp. 13-4). Section R14-5-205 amended by emergency rulemaking at 22 A.A.R. 5, effective December 15, 2015 for 180 days (Supp. 15-4). Emergency renewed at 22 A.A.R. 1637, effective June 7, 2016 for 180 days (Supp. 16-2). Section amended by final rulemaking at 22 A.A.R. 2869, effective September 14, 2016 (Supp. 16-4).

**R14-5-206. Employee Drug and Alcohol Testing Requirements**

An operator of an intrastate pipeline facility transporting gas or a hazardous liquid or of an intrastate LNG facility shall ensure that drug and alcohol testing of its workers is performed in compliance with 49 CFR 199, as incorporated by reference in R14-5-202.

**Historical Note**

Section R14-5-206 made by final rulemaking at 20 A.A.R. 75, effective December 16, 2013 (Supp. 13-4).

**R14-5-207. Master Meter System Operators**

- A. Applicability: This Section applies to the construction, reconstruction, repair, emergency procedures, operation, and maintenance of all master meter systems.
- B. An operator of a master meter system shall comply with this Section as a condition of receiving service from a provider. Noncompliance with this Section by an operator of a master meter system constitutes grounds for termination of service by the provider when informed in writing by the Office of Pipeline Safety. In case of an emergency, the Office of Pipeline Safety may give the provider oral instructions to terminate service, with written confirmation to be furnished within 24 hours.
- C. Each operator of a master meter system shall comply with all applicable requirements of 49 CFR 192, as incorporated by reference in R14-5-202.
- D. An operator of a master meter system shall:
  1. Establish an Operation and Maintenance Plan, including an emergency plan; and

2. At all times, maintain a copy of the Operation and Maintenance Plan at the master meter system location.
- E. An operator of a master meter system shall:
    1. Ensure that no part of a gas pipeline system is constructed under a building and that no building is placed over any portion of a gas pipeline system; and
    2. Upon discovering that a building is located over a portion of a gas pipeline system, complete one of the following within 180 days:
      - a. Remove the building from over the pipeline,
      - b. Relocate the pipeline, or
      - c. Discontinue service to the portion of the pipeline system located under the building.
  - F. An operator of a master meter system shall not install Acrylonitrile-Butadiene-Styrene (ABS) or aluminum pipe in the master meter system.
  - G. An operator of a master meter system that constructs a pipeline or any portion thereof using plastic pipe shall install, at a minimum, a 14-gauge coated or corrosion resistant, electrically conductive wire as a means of locating the pipe while it is underground. Tracer wire shall not be wrapped around the plastic pipe. Tracer wire may be taped or attached to the pipe in another manner, provided that the adhesive or attachment is not detrimental to the integrity of the pipe wall.
  - H. An operator of a master meter system that constructs an underground pipeline using plastic pipe shall bury the installed pipe with at least 6 inches of sandy type soil, free of any rock or debris, surrounding the pipe for bedding and shading, unless the pipe is otherwise protected as approved by the Office of Pipeline Safety. Steel pipe shall be installed with at least 6 inches of sandy type soil, free of any debris or materials injurious to the pipe coating, surrounding the pipe for bedding and shading, unless the pipe is otherwise protected as approved by the Office of Pipeline Safety.
  - I. An operator of a master meter system that constructs an underground pipeline using plastic pipe shall install the pipe with sufficient slack to allow for thermal expansion and contraction. In addition, all plastic pipe and fittings for use in an area with service temperatures above 100° F shall be marked CD, CE, CF, or CG as required by ASTM D2513 (1995), incorporated by reference in R14-5-202 and available from the Office of Pipeline Safety.
  - J. An operator of a master meter system shall qualify welding procedures and shall ensure that welding of steel pipelines is performed in accordance with API Standard 1104, as incorporated by reference in 49 CFR 192.7 and R14-5-202, by welders qualified pursuant to API Standard 1104.
  - K. An operator of a master meter system shall ensure that all repair work performed on an existing master meter system complies with this Article.
  - L. An operator of a master meter system shall:
    1. Ensure that each underground steel pipeline is protected against external corrosion with an external protective coating meeting the requirements of 49 CFR 192.461;
    2. When installing a new underground steel pipeline system, before placing the new pipeline system into service, provide a cathodic protection system designed to protect the new pipeline system in its entirety;
    3. When repairing, partially replacing, or relocating an existing underground steel pipeline system, within 45 days after completing the repair, replacement, or relocation, provide a cathodic protection system designed to protect the pipeline system; and
    4. Ensure that each cathodic protection system has a voltage of at least negative 0.85 volts direct current (-0.85Vdc) as

## CHAPTER 5. CORPORATION COMMISSION - TRANSPORTATION

measured using a saturated copper-copper sulfate half cell.

- M.** An operator of a master meter system shall ensure that no portion of an underground gas system is installed less than 8 inches away from any other underground structure.
- N.** At least 30 days before commencing construction of any pipeline, an operator of a master meter system shall file with the Office of Pipeline Safety a Notice of Construction that includes at least the following information:
  - 1. The dates projected for commencing and completing construction,
  - 2. The size and type of pipe to be used,
  - 3. The location of construction, and
  - 4. The MAOP for the new pipeline.
- O.** An operator of a master meter system shall:
  - 1. Perform leakage surveys at intervals not exceeding 15 months, but at least once each calendar year, using leak detection procedures approved by the Office of Pipeline Safety;
  - 2. Except for LPG, perform each leakage survey in accordance with ASME Guide for Gas Transmission and Distribution Pipeline System, Guide Material, Appendix G-11-1983, other than 4.4(c), as incorporated by reference in R14-5-202(Q);
  - 3. For LPG, perform each leakage survey in accordance with ASME Guide for Gas Transmission and Distribution Pipeline System, Guide Material, Appendix G-11A-1983, as incorporated by reference in R14-5-202(Q); and
  - 4. Repair each grade 1 leak immediately upon discovery, each grade 2 leak within 30 days of discovery, and each grade 3 leak within one year of discovery.
- P.** In the event of an unknown failure of a gas pipeline resulting in a master meter system operator's being required to provide a report under subsection (Q) and in the operator's removing a portion of the failed pipeline, the following shall occur:
  - 1. The operator shall retain the portion of failed pipeline that was removed;
  - 2. The operator shall telephonically notify the Office of Pipeline Safety of the removal within two hours after the removal is completed, providing the following information:
    - a. Identity of the failed pipeline,
    - b. Description and location of the failure,
    - c. Date and time of the removal,
    - d. Length or quantity of the removed portion,
    - e. Storage location of the removed portion, and
    - f. Any additional information about the failure or the removal of the portion of the failed pipeline that is requested by the Office of Pipeline Safety;
  - 3. Within 48 hours after receiving telephonic notification pursuant to subsection (Q)(2), the Office of Pipeline Safety shall:
    - a. Determine, based on the information provided by the operator and the availability, adequacy, and reliability of any pipeline testing laboratory operated by the operator, whether it is necessary to have the removed portion of pipeline tested at an independent laboratory; and
    - b. Telephonically notify the operator either:
      - i. That the operator must have the removed portion of pipeline tested, in accordance with Office of Pipeline Safety directions, by an independent laboratory selected by the Office of Pipeline Safety as provided in subsection (P)(6), to determine the cause or causes of the failure; or
      - ii. That the operator is not required to have the removed portion of pipeline tested by an independent laboratory and instead must conduct testing in its own pipeline testing laboratory, after which the operator may discard the removed portion of pipeline;
- 4. After providing telephonic notice as provided in subsection (P)(3)(b), the Office of Pipeline Safety shall confirm its notification in writing;
- 5. If the Office of Pipeline Safety directs testing by an independent laboratory:
  - a. The Office of Pipeline Safety shall:
    - i. Determine, as provided in subsection (P)(6), the independent laboratory that will do the testing and the period of time within which the testing is to be completed;
    - ii. Determine, based on the available information concerning the failure, the number and types of tests to be performed on the removed pipeline; and
    - iii. Notify the operator of its determinations;
  - b. The operator shall:
    - i. Contact the selected independent laboratory to arrange the scheduling of the required tests;
    - ii. Notify the Office of Pipeline Safety, at least 20 days before the date of the tests, of the date and time scheduled for the laboratory tests;
    - iii. At the request of the Office of Pipeline Safety, ensure that a representative of the Office of Pipeline Safety is permitted to observe any or all of the tests;
    - iv. Ensure that the original test results are provided to the Office of Pipeline Safety by the independent laboratory within 30 days after the tests are completed; and
    - v. Pay for the independent laboratory testing; and
- 6. In determining an independent laboratory to perform testing required under subsection (P), the Office of Pipeline Safety shall:
  - a. Submit to at least three different independent laboratories written requests for bids to conduct the testing;
  - b. Consider each responding laboratory's qualifications to perform the testing, as demonstrated by:
    - i. Past experience in performing the required test or tests according to ASTM International standards; and
    - ii. Any recognition that a laboratory may have received from a national or international laboratory accreditation body, such as through a certification or accreditation process;
  - c. Wait to select an independent laboratory until:
    - i. The Office of Pipeline Safety has received written bids from at least three different independent laboratories; or
    - ii. Thirty days have passed since the date of the request for bids, whichever comes sooner; and
  - d. Select the independent laboratory that offers the optimum balance between cost and demonstrated ability to perform the required test or tests.
- Q.** An operator of a master meter system shall:
  - 1. Telephonically notify the Office of Pipeline Safety, at 602-262-5601 during normal working hours or at 602-252-4449 at all other times, at the earliest practicable moment following discovery of any of the following related to the operator's master meter system:

## CHAPTER 5. CORPORATION COMMISSION - TRANSPORTATION

- a. An event involving a release of gas from a pipeline, along with any of the following:
    - i. A death or personal injury requiring hospitalization;
    - ii. Injury to any individual resulting in the individual's loss of consciousness;
    - iii. Estimated property damage, including the value of all released gas, in excess of \$5,000;
    - iv. Unintentional estimated gas loss of 3 million cubic feet or more;
    - v. An explosion or fire not intentionally set by the operator;
    - vi. A news media inquiry;
    - vii. An evacuation; or
    - viii. An outage;
  - b. An event involving overpressure of a pipeline system where a pipeline operating at less than 12 PSIG exceeds MAOP by 50%, where a pipeline operating between 12 PSIG and 60 PSIG exceeds MAOP by 6 PSIG, or where a pipeline operating over 60 PSIG exceeds MAOP plus 10%;
  - c. An event involving permanent or temporary discontinuance of service to a master meter system or any portion of a master meter system due to a failure of a leak test or for any purpose other than to perform routine maintenance; or
  - d. An event that is significant, in the judgment of the operator, even though it does not meet any of the criteria listed in subsections (Q)(1)(a) through (c);
2. Include the following information in a telephonic report under subsection (Q)(1):
    - a. The names of the operator and the person making the report;
    - b. The job title of the person making the report;
    - c. The telephone numbers of the operator and the person making the report;
    - d. A description of the type and location of the event;
    - e. The time of the event;
    - f. The number of fatalities and personal injuries, if any; and
    - g. All other significant facts that are known by the operator and are relevant to the cause of the event or the extent of the damages; and
  3. Not later than April 15 of each year, submit to the Office of Pipeline Safety an annual report for the prior calendar year, completed on Commission Form MM-04: "Annual Report for Calendar Year 20\_\_\_\_, Small Operators of Gas Distribution System," which is included herein as Exhibit A.
- R.** The Commission may waive compliance with any of the requirements of this Section upon a finding that such a waiver is in the interest of public and pipeline safety.
  - S.** To ensure compliance with all applicable provisions of this Article, the Commission or an authorized representative thereof may enter the premises of an operator of a master meter system to inspect and investigate the property, books, papers, electronic files, business methods, and affairs that pertain to the operation of the master meter system.

## CHAPTER 5. DEPARTMENT OF TRANSPORTATION - COMMERCIAL PROGRAMS

**ARTICLE 1. GENERAL PROVISIONS****ARTICLE 2. MOTOR CARRIERS****R17-5-201. Definitions**

In addition to the definitions provided under A.R.S. §§ 28-3001 and 28-5201, the following definitions apply to this Article unless otherwise specified:

“Audit” means any inspection of a transporter’s motor vehicle, equipment, books, or records to determine compliance with this Article and A.R.S. Title 28, Chapter 14.

“Co-applicant” means an employer or potential employer.

“Danger to public safety” means any condition of a transporter likely to result in serious peril to the public if not discontinued immediately.

“Director” means the Director of the Arizona Department of Transportation or the Director’s designated agent.

“Executive Hearing Office” means the Arizona Department of Transportation’s Executive Hearing Office.

“Medical waiver evaluation summary” means the form, provided by the Department, to be completed by either a board qualified or board certified orthopedic surgeon or physiatrist and mailed to the Department, at the address provided on the form, on behalf of an Arizona intrastate medical waiver applicant.

“Physiatrist” means a doctor of medicine specialized in physical medicine and rehabilitation.

“Transporter” means any person, driver, motor carrier, shipper, manufacturer, or motor vehicle, including any motor vehicle transporting a hazardous material, hazardous substance, or hazardous waste, subject to this Article and A.R.S. Title 28, Chapter 14.

“Violation” means any conduct, act, or failure to act required or prohibited under this Article and A.R.S. Title 28, Chapter 14.

“Vision examination report” means a form provided by the Department to be completed by an ophthalmologist or a licensed optometrist on behalf of a driver or driver applicant and mailed to the Department, at the address provided on the form, for use in determining whether or not a medical condition affects the driver’s, or driver applicant’s, ability to safely perform the functional skills involved with driving a motor vehicle.

**Historical Note**

New Section made by final rulemaking at 8 A.A.R. 3249, effective July 10, 2002 (Supp. 02-3). Amended by final rulemaking at 14 A.A.R. 3797, effective November 8, 2008 (Supp. 08-3). Amended by final rulemaking at 17 A.A.R. 1691, effective August 2, 2011 (Supp. 11-3).

**R17-5-202. Motor Carrier Safety: Incorporation of Federal Regulations; Applicability**

**R17-5-203. Motor Carrier Safety: 49 CFR 390 - Federal Motor Carrier Safety Regulations; General**

- A. 49 CFR 390.3T, General applicability. Paragraph (a) is amended to read:

Regulations incorporated in this subchapter are applicable to all motor carriers operating in Arizona and any vehicle owned or operated by the state, a political subdivision, or a state public authority that is used to transport a hazardous material in an amount requiring the vehicle to be placarded as prescribed under R17-5-209.

- B. 49 CFR 390.5T, Definitions. The definitions listed under 49 CFR 390.5T are amended as follows:

“Commercial Motor Vehicle” or “CMV” has the same meaning as prescribed under A.R.S. § 28-5201.

“Shipper” has the same meaning as prescribed under A.R.S. § 28-5201.

“Special agent” means an officer or agent of the Department, the Department of Public Safety, or a political subdivision, who is trained and certified by the Department of Public Safety to enforce Arizona’s Motor Carrier Safety requirements.

## CHAPTER 5. DEPARTMENT OF TRANSPORTATION - COMMERCIAL PROGRAMS

“State” means a state of the United States or the District of Columbia.

“Tow truck,” as used in the definition of emergency under 49 CFR 390.5, has the same meaning as prescribed under A.A.C. R13-3-701.

- C. 49 CFR 390.19T, Motor carrier identification reports for certain Mexico-domiciled motor carriers. Paragraph (a)(1) is amended to read:

A U.S.-, Canada-, Mexico-, or non-North America-domiciled motor carrier conducting operations in interstate commerce or in intrastate commerce in a CMV, except for intrastate commerce in a farm vehicle as defined under A.R.S. § 28-2514, must file a Motor Carrier Identification Report, Form MCS-150.

- D. 49 CFR 390.23, Relief from regulations.

1. Paragraph (a)(2), Local emergencies, is amended by adding:

When a local emergency exists that justifies an exemption from parts 390 through 399 of this chapter, a motor carrier may request the exemption by contacting Commercial Vehicle Enforcement at the Arizona Department of Public Safety, Highway Patrol Division, P.O. Box 6638, Phoenix, AZ 85005. The Arizona Department of Public Safety may grant the exemption with or without restrictions as necessary to provide vital service to the public.

2. Paragraph (a)(2)(i)(A) is amended to read:  
An emergency has been declared by a federal, state or local government official having authority to declare an emergency; or an emergency situation exists under A.R.S. § 28-5234(B); or

- E. 49 CFR 390.25, Extension of relief from regulations - emergencies, is amended by adding:

A motor carrier seeking to extend a period of relief from these regulations may request the extension by contacting Commercial Vehicle Enforcement at the Arizona Department of Public Safety, Highway Patrol Division, P.O. Box 6638, Phoenix, AZ 85005. The Arizona Department of Public Safety may grant the extension with any restrictions it considers necessary to provide vital service to the public.

**R17-5-208. Commercial Driver License Intrastate Medical Waiver; Intrastate Alternative Physical Qualification Standards for the Loss or Impairment of Limbs, an Insulin-Dependent Diabetic Condition, or Monocular Vision**

- A. A person who is not physically qualified to drive a commercial motor vehicle in interstate commerce due to loss of limb, limb impairment, an insulin-dependent diabetic condition, or monocular vision, as provided under 49 CFR 391.41(b)(1), (b)(2), (b)(3), or (b)(10), but otherwise meets all other requirements under 49 CFR 391.41, may operate a commercial motor vehicle in intrastate commerce if granted an intrastate medical waiver by the Director. Application for an intrastate medical waiver shall be submitted according to subsection (B).

- B. A driver applicant, or a driver applicant jointly with the motor carrier co-applicant that will employ the driver applicant, shall complete and submit the applicable intrastate medical waiver application to the Department's Medical Review Program, P.O. Box 2100, Mail Drop 818Z, Phoenix, AZ 85001-2100, with the following information as applicable:

1. Identify the applicant:
  - a. Name and complete address of the driver applicant;
  - b. Name and complete address of the motor carrier co-applicant;
  - c. U.S. Department of Transportation motor carrier identification number, if known; and
  - d. A description of the driver applicant's limb or visual impairment or insulin-dependent diabetic condition as applicable to the type of waiver being requested;
2. Describe the type of operation the driver applicant will be employed to perform, including the following information (if known):
  - a. Average period of time the driver will be driving or on duty, per day;
  - b. Type of commodities or cargo to be transported;
  - c. Type of driver operation (i.e., sleeper team, relay, owner operator, etc.); and
  - d. Number of years experience operating each type of commercial motor vehicle requested in the intrastate medical waiver application and total years of experience operating all types of commercial motor vehicles;
3. Describe the commercial motor vehicles the driver applicant intends to drive:
  - a. Truck, truck tractor, or bus make, model, and year (if known);
  - b. Drive train:
    - i. Transmission type (automatic or manual - if manual, designate number of forward speeds);
    - ii. Auxiliary transmission (if any) and number of forward speeds; and
    - iii. Rear axle (designate single speed, two-speed, or three-speed);
  - c. Type of brake system;
  - d. Steering, manual or power assisted;
  - e. Description of types of trailers (i.e., van, flatbed, cargo tank, drop frame, lowboy, or pole);
  - f. Number of semitrailers or full trailers to be towed at one time;
  - g. For commercial motor vehicles designed to transport passengers, indicate the seating capacity of the commercial motor vehicle; and
  - h. Description of any modifications made to the commercial motor vehicle for the driver applicant, attach photographs where applicable;

## CHAPTER 5. DEPARTMENT OF TRANSPORTATION - COMMERCIAL PROGRAMS

4. Include a certification statement:
  - a. The driver applicant shall certify that the driver applicant is otherwise qualified to drive a commercial motor vehicle under the regulations of 49 CFR 391 as adopted by the Department; and
  - b. In case of a co-applicant, the co-applicant motor carrier shall certify that the driver applicant is otherwise qualified to drive a commercial motor vehicle under the regulations of 49 CFR 391 as adopted by the Department; and
5. Contain signature of each applicant and date signed:
  - a. The driver applicant's signature; and
  - b. The motor carrier official's signature and title if the application has a co-applicant. Depending on the motor carrier's organizational structure (corporation, partnership, or proprietorship), the signer of the application shall be an officer, partner, or the proprietor.
- C. The completed intrastate medical waiver application for a driver applicant not physically qualified to drive under 49 CFR 391.41(b)(1) or (b)(2) shall be accompanied by:
  1. A copy of the medical examination report and medical examiner's certificate completed pursuant to 49 CFR 391.43;
  2. The Department's medical waiver evaluation summary completed by either a board-qualified or board-certified physiatrist or orthopedic surgeon. The co-applicant motor carrier or the driver applicant shall provide the physiatrist or orthopedic surgeon with a description of the job-related tasks the driver applicant will be required to perform:
    - a. The medical waiver evaluation summary for a driver applicant not physically qualified to drive under 49 CFR 391.41(b)(1) shall include:
      - i. An assessment of the functional capabilities of the driver as they relate to the ability of the driver to perform normal tasks associated with operating a commercial motor vehicle; and
      - ii. A statement by a board-qualified or board-certified physiatrist or orthopedic surgeon that the applicant is capable of demonstrating precision prehension (e.g., manipulating knobs and switches) and power grasp prehension (e.g., holding and maneuvering the steering wheel) with each upper limb separately;
    - b. The medical waiver evaluation summary for a driver applicant not physically qualified to drive under 49 CFR 391.41(b)(2) shall include:
      - i. An explanation as to how and why the impairment interferes with the ability of the applicant to perform normal tasks associated with operating a commercial motor vehicle;
      - ii. An assessment and medical opinion of whether the condition will likely remain medically stable over the lifetime of the driver applicant; and
      - iii. A statement by a board-qualified or board-certified physiatrist or orthopedic surgeon that the applicant is capable of demonstrating precision prehension (e.g., manipulating knobs and switches) and power grasp prehension (e.g., holding and maneuvering the steering wheel) with each upper limb separately;
  3. A description of the driver applicant's prosthetic or orthotic device worn, if any; and
  4. A copy of the driver applicant's state motor vehicle driving record for the past three years from each state in which a motor vehicle driver license or permit has been obtained.
- D. The completed intrastate medical waiver application for a driver applicant not physically qualified to drive under 49 CFR 391.41(b)(3) shall be accompanied by:
  1. A copy of the medical examination report and medical examiner's certificate completed pursuant to 49 CFR 391.43;
  2. An evaluation by a board-certified or board-eligible endocrinologist. A complete endocrinologist evaluation shall consist of:
    - a. A comprehensive evaluation of the applicant's five-year medical history and current status. The applicant shall provide the examining endocrinologist with a complete medical history as it pertains to the applicant's diabetes or its complications or both, including, the date insulin use began, all hospitalization reports, consultation notes for diagnostic examinations, special studies, follow-up reports, reports of any hypoglycemic insulin reactions within the 12 months prior to the date of application, and other reports as requested by the endocrinologist. The evaluation shall also include a review of:
      - i. Daily glucose monitoring logs, glycosylated hemoglobin (A1c) indicating a result in the range of 7% to 10%, including lab reference page performed during the last six months unless recently diagnosed;
      - ii. Insulin dosages and types, diet utilized for control, and all medications taken; and
      - iii. Examinations to detect any peripheral neuropathy or circulatory insufficiency of the extremities;
    - b. A statement that the applicant is free from insulin reactions. Insulin reactions include any severe hypoglycemic reaction, which can be a reaction that results in seizure, loss of consciousness, requiring the assistance of another person, or a period of impaired cognitive function that occurs without warning. To be eligible the applicant must not have hypoglycemia unawareness and must have had no more than one documented severe hypoglycemic reaction in the previous 12 months and must have had:
      - i. No recurrent (two or more) severe hypoglycemic reactions resulting in a loss of consciousness or seizure within the past five years;
      - ii. No recurrent severe hypoglycemic reactions requiring the assistance of another person within the past five years;
      - iii. No recurrent severe hypoglycemic reactions resulting in impaired cognitive functions that occurred without warning symptoms within the past five years; and
      - iv. A period of one year of demonstrated stability following the first period of severe hypoglycemia;
  - c. A statement prepared and signed by the examining endocrinologist whose status as board-certified or board-eligible is indicated. The signed statement shall include separate declarations indicating the following medical determinations:
    - i. The endocrinologist is familiar with the applicant's medical history for the past five years through a records review, treating the patient, or consultation with the treating physician;

## CHAPTER 5. DEPARTMENT OF TRANSPORTATION - COMMERCIAL PROGRAMS

- ii. The applicant is able to safely operate a commercial motor vehicle while using insulin; and
    - iii. The applicant has been educated in diabetes, including the last education date, and its management and is informed of and understands how to individually manage and monitor the applicant's diabetes mellitus and has demonstrated the ability and willingness to properly monitor and manage the applicant's diabetes and procedures to follow if complications arise;
  - 3. A separate signed vision evaluation report from an ophthalmologist or optometrist indicating that the applicant has been examined and does not have diabetic retinopathy and meets the vision standard of 49 CFR 391.41(b)(10), or has been issued a valid intrastate medical waiver for monocular vision. If the applicant has any evidence of diabetic retinopathy, the applicant must be examined by an ophthalmologist and submit a separate signed statement from the ophthalmologist that the applicant does not have unstable proliferative diabetic retinopathy (i.e. unstable advancing disease of blood vessels in the retina); and
  - 4. A copy of the driver applicant's state motor vehicle driving record for the past three years from each state in which a motor vehicle driver license or permit has been obtained.
- E.** The completed intrastate medical waiver application for a driver applicant not physically qualified to drive under 49 CFR 391.41(b)(10) shall be accompanied by:
- 1. A copy of the medical examination report and medical examiner's certificate completed pursuant to 49 CFR 391.43;
  - 2. A current vision examination report issued within the last 90 days from the date the report is received by the Department, completed by an ophthalmologist or optometrist. The report shall indicate that the applicant has distant visual acuity of at least 20/40 (Snellen), with or without a corrective lens, in one eye, and the applicant's dominant eye has a visual field of at least 70° peripheral measurement in one direction and 35° in the opposite direction of the horizontal meridian and the ability to distinguish the colors of a traffic signal or device showing standard red, green, and amber, as applicable to the type of medical waiver being requested;
  - 3. A copy of the driver applicant's state motor vehicle driving record for the past three years from each state in which a motor vehicle driver license or permit has been obtained; and
  - 4. A statement from the employer that the driver applicant has driven the type of vehicle for which the waiver is being requested for at least two of the previous five years.
- F.** Agreement. A motor carrier that employs a driver subject to an intrastate medical waiver granted by the Director under subsection (A), whether the waiver was granted unilaterally to the driver, or to the driver and co-applicant motor carrier, shall agree to:
- 1. Report to the Department's Medical Review Program, P.O. Box 2100, Mail Drop 818Z, Phoenix, AZ 85001-2100, in writing, any suspension, revocation, disqualification, or withdrawal of the subject driver's driver license or permit, and any accident, arrest, or conviction involving the driver within 30 days after the occurrence;
  - 2. Provide to the Department's Medical Review Program, on request, any documents and information pertaining to the driving activities, accidents, arrests, convictions, and driver license or permit suspensions, revocations, disqualifications, or withdrawals involving the subject driver;
- 3. Evaluate the subject driver with a road test using the trailer types the motor carrier intends the driver to transport, or alternatively accept a certificate of a trailer road test from another motor carrier if the trailer types are similar, or accept the trailer road test completed during the skill performance evaluation if trailer types are similar to that of the prospective motor carrier;
  - 4. Evaluate the subject driver for those non-driving safety related job tasks associated with each type of trailer that will be used and any other non-driving safety related or job related tasks unique to the operations of the employing motor carrier; and
  - 5. Use the subject driver to operate the type of commercial motor vehicle indicated on the intrastate medical waiver only when the driver is in compliance with the conditions and limitations of the waiver.
- G.** A driver subject to an intrastate medical waiver, issued by the Director under subsection (A), shall supply each employing motor carrier with a copy of the intrastate medical waiver.
- H.** The Department may require the driver applicant to demonstrate the driver applicant's ability to safely operate the commercial motor vehicle the driver intends to drive.
- I.** If required by the Department during the application process, a driver applicant shall have a skill performance evaluation performed by a federally-certified state commercial driver license examiner at a Department commercial driver license facility when directed.
- J.** If the Director grants an intrastate medical waiver under subsection (A) to the driver applicant, the Department shall mail to the driver applicant and co-applicant motor carrier (if applicable) written approval of the intrastate medical waiver describing the terms, conditions, and limitations of the waiver.
- K.** The intrastate medical waiver granted by the Director under subsection (A) shall identify:
- 1. The power unit (bus, truck, truck tractor) for which the waiver is granted; and
  - 2. The trailer type used in the skill performance evaluation, if applicable, without limiting the waiver to that specific trailer type.
- L.** A subject driver may use the intrastate medical waiver with other trailer types if the driver successfully completes:
- 1. A trailer road test administered by the motor carrier under subsection (F)(3) for each type of trailer, and
  - 2. A non-driving safety related or job related task evaluation administered by the motor carrier under subsection (F)(4).
- M.** The intrastate medical waiver granted by the Director under subsection (A) is:
- 1. Valid for a period of not more than two years from the date of issuance;
  - 2. Renewable 30 days prior to the expiration date; and
  - 3. Transferable from an original motor carrier co-applicant employer to a new motor carrier employer or to the subject driver, as a unilateral applicant if becoming self-employed, upon written notification to the Department's Medical Review Program, P.O. Box 2100, Mail Drop 818Z, Phoenix, AZ 85001-2100, stating the new employer's name and the type of equipment to be driven.
- N.** An intrastate medical waiver granted by the Director under subsection (A) to a driver applicant for monocular vision under subsection (E), shall prohibit the subject driver from transporting:
- 1. Passengers for hire; and

## CHAPTER 5. DEPARTMENT OF TRANSPORTATION - COMMERCIAL PROGRAMS

2. Reportable quantities of hazardous substances, manifested hazardous wastes, and hazardous material required to be placarded.
- O. A driver subject to an intrastate medical waiver, issued by the Director under subsection (A), shall have the intrastate medical waiver (or a legible copy) in the subject driver's possession while on duty.
- P. The motor carrier employing a subject driver shall maintain a copy of the intrastate medical waiver in its driver qualification file and retain the copy in the motor carrier's file for a period of three years after the driver's employment is terminated.
- Q. A driver subject to an intrastate medical waiver, issued by the Director under subsection (A) to an applicant for insulin-dependent diabetes under subsection (D), must comply with the following conditions:
  1. Maintain appropriate medical supplies for glucose management while preparing for the operation of a commercial motor vehicle and during its operation. The supplies shall include the following:
    - a. A digital glucose monitor with computerized memory,
    - b. Supplies needed to obtain adequate blood samples and to measure blood glucose,
    - c. Insulin to be used as necessary, and
    - d. An amount of rapidly absorbable glucose to be used as necessary;
  2. Maintain a daily record of actual driving time to correlate with the daily glucose measurements;
  3. Monitor and maintain blood glucose levels in the range of 100 to 400 milligrams per deciliter (mg/dl) prior to and while driving.
    - a. Check glucose before starting to drive and take corrective action if necessary. If glucose is less than 100 mg/dl, take glucose or food and recheck in 30 minutes. Repeat the process until glucose is greater than 100 mg/dl. Do not drive if glucose is less than 100 mg/dl;
    - b. While driving, stop the vehicle in a safe location and check glucose every two to four hours and take appropriate action to maintain it in the range of 100 to 400 mg/dl;
    - c. Have food available at all times when driving. If glucose is less than 100 mg/dl, stop driving and eat. Recheck in 30 minutes and repeat procedure until glucose is greater than 100 mg/dl; and
    - d. If glucose is greater than 400 mg/dl, stop driving until glucose returns to the 100 to 400 mg/dl range. If more than two hours have passed since last insulin injection and eating, take additional insulin. Recheck blood glucose in 30 minutes. Do not resume driving until glucose is less than 400 mg/dl;
  4. Participate in a diabetes education program annually;
  5. Undergo the following evaluations and examinations and submit to the Department's Medical Review Program, P.O. Box 2100, Mail Drop 818Z, Phoenix, AZ 85001-2100, within 10 days of the date of the evaluation or exam:
    - a. A quarterly evaluation completed by a board-certified or board-eligible endocrinologist. A quarterly endocrinologist evaluation shall include a review of the driver's daily glucose logs and glucose levels (from the subject driver's required monitoring device), a comparison of monitoring dates to the driving log to ensure that the subject driver is checking glucose levels prior to operating a commercial motor vehicle, a certifying statement indicating that the subject driver is maintaining a glucose level in the range of 100 to 400 mg/dl while driving a commercial motor vehicle, a certifying statement indicating that the subject driver is maintaining a stable insulin regimen and that the subject driver's quarterly A1c result continues to reflect stable control, reports of any severe hypoglycemic episodes, any hypoglycemic-related hospitalization, and any treatment regimen changes since the last hypoglycemic episode;
    - b. An annual evaluation completed by a board-certified or board-eligible endocrinologist. In addition to the requirements of a quarterly endocrinologist evaluation under subsection (Q)(5)(a), an annual endocrinologist evaluation shall also include a general physical examination, an indication that the driver has continued to participate in a diabetes education program with the last education date provided, a certifying statement indicating that the driver understands how to individually manage and monitor the driver's diabetes mellitus, an indication of the development of, or progression, or both, in diabetes complications (i.e. renal disease, cardiovascular disease, and neurological disease), a list of all medications taken and whether any of the medications may compromise the driver's ability to operate a commercial motor vehicle, the endocrinologist's belief that the driver has demonstrated the ability and willingness to properly manage the driver's diabetes, and a certifying statement indicating that the driver is able to safely operate a commercial motor vehicle while using insulin;
    - c. An annual vision evaluation report, as prescribed under subsection (D)(3). If there is any evidence of diabetic retinopathy, provide annual documentation by an ophthalmologist that the driver does not have unstable proliferative diabetic retinopathy; and
    - d. An annual medical examination report and medical examiner's certificate completed pursuant to 49 CFR 391.43. Provide copies of the endocrinologist evaluation and the vision evaluation report to the medical examiner for review; and
  6. Report the following information to the Department's Medical Review Program, P.O. Box 2100, Mail Drop 818Z, Phoenix, AZ 85001-2100, within two days of occurrence:
    - a. All episodes of severe hypoglycemia, significant complications, or inability to manage diabetes; and
    - b. Any involvement in an accident or any other adverse event in a commercial motor vehicle or personal vehicle, related to an episode of hypoglycemia or hyperglycemia.
- R. A driver subject to an intrastate medical waiver, issued by the Director under subsection (A) to an applicant for monocular vision under subsection (E), must be physically examined every year and shall submit the following to the Department's Medical Review Program, P.O. Box 2100, Mail Drop 818Z, Phoenix, AZ 85001-2100:
  1. A vision examination report issued within the last 90 days from the date the report is received by the Department, as prescribed under subsection (E)(2); and
  2. A current medical examination report and medical examiner's certificate completed pursuant to 49 CFR 391.43 within the past year.
- S. A driver subject to an intrastate medical waiver, or a driver subject to an intrastate medical waiver jointly with a motor

carrier co-applicant, may renew an intrastate medical waiver by submitting to the Department's Medical Review Program, P.O. Box 2100, Mail Drop 818Z, Phoenix, AZ 85001-2100, a new intrastate medical waiver application. The intrastate medical waiver application shall contain the following:

1. Name and complete address of the motor carrier currently employing the applicant;
2. Name and complete address of the subject driver;
3. Total miles driven under the current intrastate medical waiver;
4. Number of accidents incurred while driving under the current intrastate medical waiver, including the date of each accident, number of fatalities, number of injuries, and the estimated dollar amount of any property damage;
5. A current medical examination report and medical examiner's certificate completed pursuant to 49 CFR 391.43;
6. A current medical examination or evaluation as applicable to the medical condition:
  - a. A current medical waiver evaluation summary, as prescribed under subsection (C)(2), for a driver with a loss of limb or limb impairment;
  - b. A current endocrinologist evaluation, as prescribed under subsection (D)(2), and a current vision evaluation report, as prescribed under subsection (D)(3), for a driver who is an insulin-dependent diabetic; or
  - c. A current vision examination report, as prescribed under subsection (E)(2), for a driver with monocular vision;
7. A copy of the subject driver's current state motor vehicle driving record for the period of time the current intrastate medical waiver has been in effect;
8. Notification of any change in the type of tractor the driver will operate;
9. Subject driver's signature and date signed; and
10. Motor carrier co-applicant's signature and date signed (if applicable).

**T.** The Director may deny an application for the intrastate medical waiver or may grant the waiver in whole or in part and issue the waiver subject to such terms, conditions, and limitations as the Director deems consistent with the public interest.

**U.** The Director may revoke an intrastate medical waiver after providing the driver subject to an intrastate medical waiver written notice of the proposed revocation and a reasonable opportunity to request a hearing pursuant to the procedure prescribed under 17 A.A.C. 1, Article 5. The Director may revoke an intrastate medical waiver if the:

1. Driver subject to an intrastate medical waiver, or co-applicant (if applicable), or both provided false information in the application,
2. Driver subject to an intrastate medical waiver, or co-applicant (if applicable), or both failed to comply with the terms and conditions of the intrastate medical waiver, or
3. Issuance of the intrastate medical waiver resulted in a lower level of safety than before the waiver was granted.

**V.** If the enforcement of any provision of this Section would result in the loss or disqualification of federal funding for any state agency or program, that provision is invalid.

#### R17-5-210. Motor Carrier Safety: Public Service Corpora-

#### tion, Political Subdivision of this State that is Engaged in Rendering Public Utility Service, or Railroad Contacting State Officials in an Emergency

- A. A public service corporation, a political subdivision of this state that is engaged in rendering public utility service, or a railroad shall notify Commercial Vehicle Enforcement, through the Arizona Department of Public Safety Duty Office, that an emergency situation under A.R.S. § 28-5234(B) exists. Notification shall be made on a form provided by the Arizona Department of Public Safety and sent by fax transmission to (602) 223-2929 immediately, but in no case longer than three hours from the time the public service corporation, political subdivision of this state that is engaged in rendering public utility service, or railroad determines that the emergency situation exists. The information to be provided includes:
  1. Date of the emergency situation,
  2. Time that the emergency situation started,
  3. Description of the emergency situation,
  4. Location of the emergency situation,
  5. Projected duration of the emergency situation,
  6. Authorized party’s signature for determining that an emergency situation exists,
  7. Name and contact number of responsible party in the field, and
  8. The utility’s self-generated Emergency ID or tracking number.
- B. A public service corporation, a political subdivision of this state that is engaged in rendering public utility service, or a railroad shall maintain supporting documentation for no less than three years from the date of an emergency situation and shall make the supporting documentation available to a special agent upon request. Supporting documentation includes:
  1. A list of drivers involved in the emergency situation;
  2. The duration of the emergency situation;
  3. The off-duty time provided for the affected drivers after the emergency situation concluded; and
  4. Any United States Department of Transportation recordable accidents, as defined under 49 CFR 390.5, which occurred during the emergency situation.
- C. After an emergency situation terminates and a driver returns to the principal place of business, the driver shall not drive a commercial motor vehicle unless the driver remains off duty under 49 CFR 395.

#### R17-5-211. Motor Carrier Safety: Inspection, Enforcement, Sanction

- A. Scope. This Section applies to any transporter subject to:
  1. R17-5-201 through R17-5-209; and
  2. A.R.S. Title 28, Chapter 14.
- B. Audits.
  1. The Department may conduct an audit for cause or without cause.
  2. The Department may enter the premises of any transporter for the purpose of conducting an audit.
  3. The Department may inspect a motor vehicle:
    - a. Within Arizona at:

## CHAPTER 5. DEPARTMENT OF TRANSPORTATION - COMMERCIAL PROGRAMS

- i. A transporter's place of business, or
  - ii. Any other in-state location, or
- b. Outside Arizona at a transporter's place of business.
- 4. A transporter shall make records available for audit:
  - a. During the transporter's normal business hours, and
  - b. In a specific location as follows:
    - i. The transporter's Arizona place of business, or
    - ii. Either an Arizona location designated by the Director or the transporter's out-of-state place of business.
- 5. The Department shall charge a transporter in advance for all expenses to be incurred in performance of an out-of-state audit.
- C. Violation notification. Within five days after audit completion, the Department shall notify an audited transporter in writing of all violations. The notification shall specify a deadline date for remedy of all violations.
- D. Obligation to remedy violations. After receipt of a violation notification, a transporter shall remedy all violations by the specified date to comply with:
  - 1. R17-5-201 through R17-5-209; and
  - 2. A.R.S. Title 28, Chapter 14.
- E. Noncompliance: Failure to remedy violations. If the Department determines a transporter does not remedy a violation by the date specified in a violation notice, the Department shall initiate further enforcement action as prescribed under A.R.S. §§ 28-5237 and 28-5238.
- F. Danger to public safety. If the Director determines a written violation report establishes probable cause of danger to public safety, the Director shall issue an order by 5:00 p.m. the next business day suspending the Arizona registration of the motor vehicle owned or leased by the transporter, or a driver's Arizona driver license or nonresident driving privilege.

**R17-5-212. Motor Carrier Safety: Hearing Procedure**

- A. Scope.
  - 1. This Section applies only to a motor carrier enforcement action under:
    - a. R17-5-201 through R17-5-209; and
    - b. A.R.S. Title 28, Chapter 14.
  - 2. In an enforcement hearing involving a manufacturer, motor carrier, shipper, or driver under this Section, the Department shall follow the procedures prescribed under 17 A.A.C. 1, Article 5, except as modified under subsections (B) and (C).
- B. Initiation of proceedings; service.
  - 1. The Director shall initiate a hearing under this Section by:
    - a. Signing and serving a complaint in the form prescribed under subsection (C) that cites a manufacturer, motor carrier, shipper, or driver for an alleged infraction; and
    - b. Submitting to the Department's Executive Hearing Office a copy of the complaint and notification of the date the complaint was served.
  - 2. The date of service is the date of mailing.
- C. Complaint; order to show cause.
  - 1. The complaint shall contain the following:
    - a. The Department as the designated petitioner;

- b. The respondent's name and the basis of fact for the complaint, including a listing of any alleged violation of Department statute or rule;
  - c. The relief sought by the Department; and
  - d. A copy of the written violation notice issued by a law enforcement agency to the respondent, if applicable.
- 2. Upon receipt of a copy of the complaint, the Executive Hearing Office shall issue an order to show cause for a respondent to appear at an administrative hearing to explain why the requested relief should not be granted.
- 3. The Executive Hearing Office shall hold a hearing under this Section within the time-frame required by statute.
- 4. The parties may resolve a complaint before the hearing date.
  - a. The parties shall file notice of settlement with the Executive Hearing Office.
  - b. Complaint settlement terminates the right of both petitioner and respondent to receive additional administrative review.

ensure full compliance with all applicable federal or state laws, rules, and school guidelines.

“Certificate of completion” means an electronic or paper document that is approved by the Department or private entity and that is issued by a traffic survival school or high school qualified instructor to a student who has demonstrated successful completion of a training or educational session or both conducted under this Article.

“Character and reputation” means a person:

- Has not been convicted of a class 1 or 2 felony by a court of competent jurisdiction,
- Has not within five years of application date been convicted of any other felony or misdemeanor offense having a reasonable relationship to the functions of the activity or the employment or category for which the qualification is sought, and
- Has not within 12 months of application date had an application or an examination required for license or qualification under this Chapter denied or revoked due to fraud or misrepresentation.

“Commercial driver license motor vehicle record” has the same meaning as a CDLIS motor vehicle record as defined in 49 CFR 384.105.

“Department-approved inventory” means educational media and related items or other resources provided and approved by the Department or private entity that are deemed necessary or useful for traffic survival school instruction, which includes curriculum, computer disks or drives, classroom training materials, instructor workbooks, instructor training manuals, or other materials, whether stored in paper or electronic formats.

“Established place of business” means a licensed professional driver training school’s or licensed traffic survival school’s business location that is:

- Approved by the Department,
- Located in Arizona,
- Not used as a residence, and
- Where the licensed school performs licensed activities.

“Good standing” means an applicant:

- Has not had a similar business license, qualification, or approval suspended, revoked, canceled, or denied within the previous three years of the application date;
- Does not have any pending corrective action, as defined under R17-5-323, relating to a Department-issued business license, qualification, or approval;
- Has not had a fingerprint clearance card required for licensure under this Article suspended, revoked, or canceled;
- Does not owe delinquent fees, taxes, or unpaid balances to the Department or private entity;
- Has not had any substantiated derogatory information relevant to the requested license reported to the Department about the applicant from any state agency contacted by the Department; or
- Has not been dismissed, or resigned in lieu of dismissal, from a position for cause following allegations of misconduct having a reasonable relationship to the person’s proposed area of licensure or qualification, if the applicant is a former Department employee or a former principal or employee of a licensed professional driver training school or licensed traffic survival school.

“Immediate family member” has the same meaning as prescribed in A.R.S. § 28-2401.

“Inactivation” or “inactive” means a temporary or permanent status, assigned by the Department to a school previously licensed under this Article, which prohibits the school from further engaging in the previously licensed activity after the occurrence of any of the following actions:

- Cancellation of license, as defined in R17-5-323;
- Suspension of license, as defined in R17-5-323;
- Revocation of license, as defined in R17-5-323;
- Non-renewal of license; or
- Relinquishment of license.

“Licensee” means a school licensed by the Department or private entity under A.R.S. § 28-3413 or 32-2371 and this Article, to perform a licensed activity.

“Principal” means any of the following:

- If a sole proprietorship, the sole proprietor;
- If a partnership, limited partnership, limited liability partnership, limited liability company or corporation, the:
  - Partner;
  - Manager;
  - Member;
  - Officer;
  - Director;
  - Agent; or
- If a limited liability company or corporation, each stockholder owning 20 percent or more of the limited liability company or corporation; or

  6. Failed to complete all applicable application requirements under this Article.
- E. If timely requested by an applicant under subsection (B), the Department shall schedule and conduct a hearing as prescribed under A.R.S. Title 41, Chapter 6, Article 6 and 17 A.A.C. 1, Article 5 for denial of a license.
- F. An applicant whose application was previously denied by the Department or private entity for making a material misrepresentation or misstatement on the application is not eligible to reapply for 12 months from the date of previous denial.

**Historical Note**

New Section made by exempt rulemaking under Laws 2013, Ch. 129, § 27 at 21 A.A.R. 1096, effective September 1, 2015 (Supp. 15-2). Amended by final rulemaking at 23 A.A.R. 2045, effective September 5, 2017 (Supp. 17-3).

**R17-5-308. License Issuance; Effective Date; Expiration; Display**

- A. The Department or private entity may issue the following licenses upon determining an applicant meets all eligibility and application requirements provided under A.R.S. Title 28, Chapter 8, Article 7.1 or Title 32, Chapter 23 and this Article:
1. Professional driver training school,
  2. Traffic survival school, and
  3. Established place of business (branch).
- B. The Department or private entity shall license only a school that employs or contracts at least one professional driver training school instructor who meets the qualifications under this Article or at least one currently qualified traffic survival school instructor, as applicable.
- C. A license issued under this Article is:
1. Effective on the date of issuance;
  2. Effective until its expiration on the last day of each calendar year, except:
    - a. A license subject to an active duty military extension shall expire as provided under A.R.S. § 32-4301, and
    - b. A license subject to an individual's limited length of authorized stay shall expire immediately if the individual's presence in the United States is no longer authorized under federal law; and
  3. Nontransferable under any circumstances.
- D. A licensed school shall prominently and publicly display all licenses currently in effect at the school's principal place of business.
- E. A school shall surrender to the Department or private entity within three business days after the date of any license inactivation, as defined in R17-5-301, all:
1. Licenses;
  2. Records pertaining to the school's operations and the training of students; and

3. Department-approved inventory, as applicable and as defined in this Article.

**Historical Note**

**R17-5-309. Renewal of License**

- A. A completed renewal, consisting of the following, shall be submitted to the Department or private entity a minimum of 30 calendar days prior to license expiration, notwithstanding A.A.C. R17-1-102, failure to submit a renewal prior to December 1st shall result in the applicant being subject to all original licensing requirements:
1. A renewal application, completed on a form approved by the Department, including:
    - a. An updated list of all principals, instructors, contracted personnel, and employees of the school who are responsible for Arizona school operations, including full name and driver license number; and
    - b. The signature of all current principals on the completed application; and
  2. Payment of applicable license fees prescribed under A.R.S. § 28-3415 or 32-2374, for each activity and branch.
- B. Notwithstanding A.R.S. § 28-3415 or 32-2374, an annual license issued by the Department or private entity under this Article during the month of December shall not expire until the last day of the subsequent calendar year.

**Historical Note**

New Section made by exempt rulemaking under Laws 2013, Ch. 129, § 27 at 21 A.A.R. 1096, effective September 1, 2015 (Supp. 15-2). Amended by final rulemaking at 23 A.A.R. 2045, effective September 5, 2017 (Supp. 17-3).

**R17-5-310. Modifications of Original Application Information**

- A. A licensee or traffic survival school qualified instructor, making or learning of any change in the content of its original application information, other than ownership, shall provide written notification of the change, completed on a form approved by the Department and signed by a principal or business manager, to the Department or private entity within two business days of making the change.
- B. A licensed school making a change to a principal or corporate structure shall submit to the Department or private entity a new application for licensing under this Article and all applicable fees, as a new applicant for licensure, within 10 calendar days of making the change.
- C. A licensed school submitting a new application to the Department or private entity, as provided under subsection (B), is subject to the fingerprint clearance card requirement under R17-5-304 unless a valid fingerprint clearance card is already on file with the Department.
- D. A licensed school shall provide written or electronic notification on a form, approved by the Department, to the Department or private entity within 10 calendar days of making any changes to the licensee's contact person, business manager, or instructors.

**R17-5-311. Professional Conduct; Conflicts of Interest; Advertising**

- A. A professional driver training school or traffic survival school representative or instructor shall not:
  1. Accompany a student into any Department office or office of an authorized third party driver license or driver license training provider; or
  2. Solicit an individual for any purpose on any premises rented, leased, operated, or owned by the Department or by an authorized third party driver license or driver license training provider.
- B. A licensee or traffic survival school qualified instructor shall maintain good standing with the Department at all times while licensed or qualified by the Department or private entity under this Article.
- C. A licensee shall not delegate or subcontract any licensed activity authorized by the Department or private entity under this Article.
- D. The Department may take corrective action as provided under R17-5-321 and R17-5-323 if the Department or private entity determines or has reason to believe that a licensee or instructor has demonstrated unethical conduct in the performance of official duties, including:
  1. Verbally abusing, intimidating, or sexually harassing a student or potential student; or
  2. Making a false statement that is material to the activities regulated in this Article to any personnel of the Department or private entity.
- E. A school shall use for all licensed activities and related advertising purposes only its official business name or its doing-business-as name as indicated on the license issued under this Article.
- F. A licensee shall not represent or imply that it is the state of Arizona, the Department, the Motor Vehicle Division, or any government agency in any printed or electronic advertising or promotional material, except to the extent expressly authorized by the Department.
- G. Licensee advertising shall not in any way:
  1. Contain false, deceptive, or misleading information;
  2. Imply that the licensee can issue or guarantee issuance of a driver license or endorsement;
  3. Imply that the licensee can influence the Department or an authorized third party provider in the issuance of a driver license or endorsement;
  4. Imply that the licensee can provide any activity the licensee is not licensed by the Department or private entity to perform;
  5. Imply that preferential or advantageous treatment by the Department can be obtained; or
  6. Use or contain a term prohibited under R17-5-302(C).
- H. A school licensed by the Department or private entity under this Article may state in its advertising that it is "licensed" or "qualified" by the Department, but shall not indicate that the school is approved, sanctioned, or in any other way endorsed or recommended by the Department.
- I. All printed or electronic advertising or promotional material used, issued, or published by a licensee must be pre-approved by the Department or private entity.
- J. An instructor, in any official capacity as an instructor or for compensation, shall not provide any classroom instruction or skills training for an immediate family member or a principal or employee of any school that employs the instructor.

- K. A full-time employee of the state of Arizona shall not receive any direct pecuniary payments from any fees paid by those who attend a licensed school.

**Historical Note**

New Section made by exempt rulemaking under Laws 2013, Ch. 129, § 27 at 21 A.A.R. 1096, effective September 1, 2015 (Supp. 15-2). Amended by final rulemaking at 23 A.A.R. 2045, effective September 5, 2017 (Supp. 17-3).

**R17-5-312. Cancellation and Continuity of Services to Participants**

- A. A principal of a school ceasing operations or cancelling courses for any reason shall ensure continuity of services to each student currently enrolled in courses as follows:
  1. A principal shall notify each student currently scheduled for, or enrolled in, a course that the school will be unable to provide the services previously offered 72 hours before the scheduled course; and
  2. A principal shall refund within four business days any payment received by the school for a course not yet provided.
- B. A principal of a school ceasing operations shall provide to the Department or private entity, upon request, a written list of all students notified under subsection (A) with an explanation of the final resolution reached as a result of the principal's contact with the student.
- C. A principal's failure to provide continuity of services to enrolled students as provided under this Section may result in the loss of the principal's status of good standing with the Department.

**Historical Note**

New Section made by exempt rulemaking under Laws 2013, Ch. 129, § 27 at 21 A.A.R. 1096, effective September 1, 2015 (Supp. 15-2).

**R17-5-314. Certificate of Completion**

- A.** A qualified instructor for traffic survival school or high school driver education program shall accurately complete all required information on a certificate of completion:
  - 1. The instructor providing the training listed on the certificate of completion shall sign the document once training is complete, or
  - 2. The instructor providing the final instruction or test shall sign the certificate of completion if training is provided by multiple instructors.
- B.** A qualified instructor shall provide a certificate of completion to the student at the conclusion of the course. A traffic survival school qualified instructor shall print the certificate of completion from the web site of the Department's private entity or the Department's web site, as applicable.
- C.** A high school qualified instructor shall not make a correction to a certificate of completion. If an error is made, the high school qualified instructor shall:
  - 1. Void the certificate of completion,
  - 2. Write the word "VOID" or "VOIDED" clearly on the face of each voided certificate of completion, and
  - 3. Issue a new certificate of completion.
- D.** The Department may elect not to accept a certificate of completion that contains an alteration, erasure, correction, or illegible information.
- E.** A school or qualified instructor shall not withhold timely issuance of a certificate of completion due to a payment dispute between the school and the student.

**Historical Note**

New Section made by exempt rulemaking under Laws 2013, Ch. 129, § 27 at 21 A.A.R. 1096, effective September 1, 2015 (Supp. 15-2).

**R17-5-315. Record Retention**

- A.** A licensed traffic survival school shall electronically transmit proof of course completion immediately following each student's satisfactory completion of a traffic survival school course in a manner and with the basic computer equipment prescribed by the Department or private entity. At a minimum, the computer equipment must be able to temporarily store, and electronically transmit over the internet, the certificates of completion required by the Department or private entity.
- B.** All records pertaining to a licensed school's operations and training of students shall be:
  - 1. Stored and securely maintained at the licensee's principal place of business,
  - 2. Available for inspection by the Department or private entity during business hours, and
  - 3. Retained by the school for three years from the date of course completion.
- C.** A licensed school shall establish and maintain separate records for each authorized activity.
- D.** A licensed school shall maintain, for three years, attendance records for each class conducted.

**Historical Note**

New Section made by exempt rulemaking under Laws 2013, Ch. 129, § 27 at 21 A.A.R. 1096, effective September 1, 2015 (Supp. 15-2). Amended by final rulemaking

at 23 A.A.R. 2045, effective September 5, 2017 (Supp. 17-3).

**R17-5-316. Traffic Survival School Department-Approved Inventory**

- A.** A traffic survival school licensed under this Article shall:
  - 1. Prohibit public or other unauthorized access to all Department-approved inventory, and
  - 2. Submit to the Department or private entity a written report detailing the circumstances surrounding the loss or theft of any missing or stolen Department-approved inventory.
- B.** A licensee shall use only Department-approved inventory.
- C.** A school principal or business manager shall submit to the Department or private entity a written or electronic request for any additional Department-approved inventory the school may require.

**Historical Note**

New Section made by exempt rulemaking under Laws 2013, Ch. 129, § 27 at 21 A.A.R. 1096, effective September 1, 2015 (Supp. 15-2).

**R17-5-317. School Responsibilities**

While licensed by the Department or private entity under A.R.S. § 28-3413 or 32-2371 and this Article, the school shall:

- 1. Comply with the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) and applicable federal regulations by providing appropriate auxiliary aids and services to students with disabilities requesting reasonable accommodation;
- 2. Comply with Title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d et seq.) and applicable federal regulations. As a requirement of compliance, the school shall:
  - a. Provide public notification of its compliance with Title VI by displaying a Department-approved notice to the public;
  - b. Take reasonable steps to ensure that Limited English Proficient (non-English speaking) customers have meaningful access to the services or activities performed under this Article, which includes, providing the school's services and authorized transactions in languages other than English and providing these services at no additional cost to the customer or student;
  - c. Report promptly any customer complaints alleging discrimination or failure to meet the requirements of this Section to the Department's Civil Rights office for processing and investigation. The school shall immediately upon receipt of such complaints provide access to its facilities, books, records, accounts, and other sources of information as may be determined or requested by the Department to be pertinent, in order to ascertain compliance with Title VI; and
  - d. Inform and formally train all school officers, principals, employees, and contractors on the requirements to comply with Title VI; and
- 3. Provide written notice to the Department or private entity within twenty-four hours if the driver license of any of the school's principals, managers, or instructors is suspended, revoked, cancelled, or disqualified.

New Section made by exempt rulemaking under Laws 2013, Ch. 129, § 27 at 21 A.A.R. 1096, effective September 1, 2015 (Supp. 15-2).

**R17-5-318. Instructor Responsibilities**

A professional driver training school instructor or traffic survival school qualified instructor shall:

1. Attend all ongoing training and continuing education as required by the Department or private entity;
2. Provide written notice to the licensed professional driver training school or traffic survival school within twenty-four hours if the instructor's driver license is suspended, revoked, cancelled, or disqualified;
3. Conduct training and courses only at training sites approved by the Department or private entity;
4. Conduct the final evaluation on behind-the-wheel final evaluation routes approved by the Department or private entity;
5. Follow and complete the curriculum approved by the Department or private entity for each course conducted; and
6. Conduct at least two courses in a calendar year.

**Historical Note**

New Section made by exempt rulemaking under Laws 2013, Ch. 129, § 27 at 21 A.A.R. 1096, effective September 1, 2015 (Supp. 15-2). Amended by final rulemaking at 23 A.A.R. 2045, effective September 5, 2017 (Supp. 17-3).

**R17-5-319. Traffic Survival Schools**

- A. The Department shall assign an individual only to a traffic survival school licensed by the Director under this Article.
- B. A traffic survival school or qualified instructor shall allow only students who provide acceptable proof of traffic survival school assignment to register for and attend a traffic survival school course. The following documents are acceptable proof of assignment:
  1. Notice of traffic survival school assignment or suspension for failure to attend traffic survival school,
  2. An order from a court or other appropriate tribunal from Arizona or another state indicating traffic survival school assignment,
  3. Traffic survival school proof of assignment form obtained from the Department,
  4. Electronic verification of traffic survival school assignment through the Department's private entity, or
  5. Motor vehicle record.
- C. On enrollment of a student in, or on a student's attendance of, a traffic survival school course, a licensed traffic survival school shall collect the statutory enrollee fee provided in A.R.S. § 28-3411, unless the student has paid the enrollee fee in advance. The licensed traffic survival school also shall collect the records fee prescribed by A.R.S. § 28-446, if applicable, before the student attends the traffic survival school course. The licensed traffic survival school shall fully remit these fees to the private entity within four business days after a student completes the traffic survival school course. If a licensed traffic survival school does not timely remit the enrollee fees, the Department or private entity may notify the traffic survival school that its prospective future students will be required to prepay the enrollee fees until remittances are current. The amount of the enrollee fee charged by the private entity shall be negotiated by the Department and the private entity and shall be set forth in their contract.
- D. A traffic survival school or qualified instructor shall not:

1. Conduct courses with a number of students in excess of the classroom's fire safety capacity reported to the Department or private entity by the licensee under R17-5-321;
2. Conduct courses with more than 30 students per qualified instructor;
3. Exclude a translator, the Director, the private entity, or Department personnel from attending courses;
4. Issue a certificate of completion to a student who has not fully completed the required curriculum; or
5. Issue a certificate of completion for a student whom the instructor did not personally instruct.
- E. A licensee shall retain for three years all copies of the student's acceptable proof of assignment and the signed class roster of attending students.
- F. The private entity may develop and administer a web site that allows individuals who are assigned to traffic survival school to locate and enroll online in traffic survival school courses.
- G. Only an individual who meets the qualifications under R17-5-305, remains in compliance with this Article, and who is granted and retains traffic survival school qualified instructor status, may be allowed to teach individuals assigned by the Department to attend a licensed traffic survival school.
- H. A licensed traffic survival school must hold at least one course every 60 days at the school's established place of business and each branch, as applicable.

**Historical Note**

New Section made by exempt rulemaking under Laws 2013, Ch. 129, § 27 at 21 A.A.R. 1096, effective September 1, 2015 (Supp. 15-2).

**R17-5-320. High School Driver Education Program**

- A. The following definitions apply to this Section:
  1. "Accountable forms inventory" means a series of distinctly and consecutively numbered documents provided by the Department to an instructor qualified under this Section for:
    - a. Recording in a log, the assigned number of each document completed, issued, or voided by a high school qualified instructor; and
    - b. Reporting to the Department the assigned number of each document completed, issued, or voided by a high school qualified instructor.
  2. "Certified instructor report" means a report prepared and certified monthly by each high school qualified instructor listing all certificates of completion that were issued and voided.
- B. The Department shall cooperate with the Arizona Department of Education, under A.R.S. §§ 28-3174 and 32-2353, to enable the issuance of a certificate of completion to a regularly enrolled full-time student as part of a high school driver education program.
- C. The Director or private entity shall qualify an instructor approved by the Arizona Department of Education to issue a certificate of completion.
- D. A high school qualified instructor may issue a certificate of completion to a regularly enrolled full-time student who:
  1. Successfully completes the classroom course of instruction required by the Arizona Department of Education, which may waive the student's requirement to take the Department's written test; or
  2. Successfully completes the skills course of instruction required by the Arizona Department of Education, which may waive the student's requirement to take the Department's skills test.

## CHAPTER 5. DEPARTMENT OF TRANSPORTATION - COMMERCIAL PROGRAMS

- E. A high school qualified instructor shall submit to the Department, no later than the fifth day of each month, all certified instructor reports and certificates of completion issued by the school during the preceding month. A high school qualified instructor who does not issue any certificates of completion during the preceding month shall submit to the Department a certified instructor report indicating "no activity."
- F. A high school qualified instructor shall provide the status of certificates of completion to the Department, upon request, by identifying the certificates by number as either issued, not issued, lost, or stolen.
- G. A high school representative shall promptly return all unused or un-issued certificates of completion to the Department, upon request.
- H. A certificate of completion constitutes accountable forms inventory to be secured at all times by the high school qualified instructor or other designee of the high school and any misuse, fraud, or negligence by a high school qualified instructor involving the form in consultation with the Arizona Department of Education pursuant to A.R.S. § 28-3174 may lead to Department disqualification of the instructor's authorization to issue the form.
- I. A high school qualified instructor shall submit to the Department all reports required under this Article by regular mail, certified mail, registered mail, electronic mail, or personal delivery. The following dates shall be used to determine whether a report was received within the required timeframes established under this Section:
  1. For regular mail, the postmark date;
  2. For certified or registered mail, the date of receipt by the designated delivery service;
  3. For electronic mail, the send date; and
  4. For personal delivery, the Department's time and date stamp of receipt.
- J. If a high school qualified instructor fails to timely or accurately submit to the Department a certified instructor report required under this Section, the Department may initiate corrective action. The Department may:
  1. Provide an oral or written warning for a first untimely or inaccurate report,
  2. Send a letter of concern for a second untimely or inaccurate report in a 12-month period, and
  3. Request that the Arizona Department of Education disqualify a high school qualified instructor from issuing a certificate of completion under this Article for a third untimely or inaccurate report in a 12-month period.
- K. A high school shall develop and maintain a driver education class training record for each student, which shall include at least the following information:
  1. Student's name;
  2. Student's phone number;
  3. Student's driver license or instruction permit number and its expiration date;
  4. Fee amounts collected for any related services;
  5. Date, type, and duration of all classroom lessons and practical instruction;
  6. Make, model, and license plate number of any motor vehicle used to conduct training, as applicable;
  7. Date and results of all tests administered;
  8. Number of certificates of completion issued; and
  9. Name and Department-issued number of each instructor who conducted a lesson or test.

**Historical Note**

New Section made by exempt rulemaking under Laws 2013, Ch. 129, § 27 at 21 A.A.R. 1096, effective September 1, 2015 (Supp. 15-2).

**R17-5-321. Periodic Audits, Monitoring, Inspections, and Investigations**

- A. To determine compliance with license requirements, qualification requirements and applicable federal and state laws and rules, the Department or private entity may:
  1. Monitor for compliance by attending any licensed school's course or other activities on a scheduled or unscheduled basis;
  2. Audit for compliance by performing periodic reviews of the operations, facilities, equipment, and records;
  3. Inspect for compliance by making random, on-site visits during posted business hours; or
  4. Investigate for compliance by interviewing or submitting questions to school owners, instructors, and former or current students.
- B. Failure of a school or instructor to allow or cooperate in an audit, monitoring, inspection, or investigation may result in the Department issuing an immediate cease and desist order or requesting a hearing for suspension or revocation of a license issued under this Article.
- C. During an audit, monitoring, inspection, or investigation of a licensee, the Department, the private entity, a law enforcement agency, or employee of the Federal Motor Carrier Safety Administration may:
  1. Review and copy paper and electronic records;
  2. Examine the licensee's principal and established place of business, all branches, training, or road training sites; and
  3. Interview the school's employees, instructors, and customers.
- D. A licensee shall make records available for audit, monitoring, inspection, or investigation at the licensee's principal place of business.
- E. After an audit or monitoring, the Department or private entity shall send a report of the results in writing to the school.
- F. If instances of non-compliance are found as a result of an audit, monitoring, inspection, or investigation, the Department or private entity may determine if either of the following actions is required:
  1. An informal meeting to discuss findings, or
  2. A written compliance plan addressing findings.
- G. If greater instances of non-compliance are found as a result of an audit, monitoring, inspection, or investigation, the Department may determine if either of the following actions is required:
  1. A probationary period; or
  2. A request for a hearing to cancel, suspend, or revoke a license to operate a school or conduct instruction under this Article.
- H. The Department or private entity may issue a notice of corrective action to a licensee if the licensee fails to comply with a warning letter, with an audit, inspection or investigation request, a monitoring request, or with written findings provided by the Department or private entity. Only the Department may initiate a corrective action provided under subsection (G).
- I. Each site used by a school as an office, training location, or classroom location shall:
  1. Be inspected and approved by the Department or private entity prior to initial use or relocation,
  2. Be licensed by the Department or private entity, and
  3. Have office hours displayed in a conspicuous location at each site open to the public during the posted hours.

## CHAPTER 5. DEPARTMENT OF TRANSPORTATION - COMMERCIAL PROGRAMS

- J. There shall be a clearly defined and visible separation between a school and any other business if a professional driver training school or traffic survival school is located in an office building, store, or other physical structure shared with any other business or enterprise.
- K. Any request by a school for inspection and approval of a site on a recognized Indian reservation shall contain the written permission of the appropriate Tribal authority.
- L. Any request by a school for inspection and approval of a site on a military base shall contain the written permission of the appropriate military authority.
- M. A school shall submit to the Department or private entity a copy of the written lease or contract agreement or deed of ownership, if the site is owned by the school, for each site, as applicable.
- N. Any request by a traffic survival school for inspection and approval of a site to be used for educational sessions shall include the approved fire safety capacity of the classroom(s) at that site and shall be signed by a principal of the traffic survival school.

**Historical Note**

New Section made by exempt rulemaking under Laws 2013, Ch. 129, § 27 at 21 A.A.R. 1096, effective September 1, 2015 (Supp. 15-2).

**R17-5-322. Cease and Desist Order; Hearing and Appeal**

- A. The Department may immediately issue and serve a cease and desist order on a licensee, as prescribed under A.R.S. § 28-3417 or 32-2394, if the Department or private entity has reasonable cause to believe that the licensee has violated or is violating a federal or state law or rule relating to a duty prescribed under this Article.
- B. A cease and desist order issued by the Department to a licensee under this Article shall:
  1. Require the person on receipt of the order to cease and desist from further engaging in the prohibited conduct or in any activity authorized under this Article as specified in the cease and desist order, and
  2. Provide information regarding the person's right to request a hearing to show cause as to why the Department's order should not be upheld.
- C. On failure or refusal of a licensee to comply with a cease and desist order, or after a requested hearing, the Department may cancel, suspend, or revoke the license of the licensee under A.R.S. § 28-3416 or 32-2391 and R17-5-323.

**Historical Note**

New Section made by exempt rulemaking under Laws 2013, Ch. 129, § 27 at 21 A.A.R. 1096, effective September 1, 2015 (Supp. 15-2).

**R17-5-323. Non-compliance; Notice of Corrective Action; Cancellation, Suspension, or Revocation of a Professional Driver Training School License or Traffic Survival School License or Qualification of a Traffic Survival School Instructor; Hearing and Appeal**

- A. The following definitions apply to this Section:
  1. "Cancellation" means a Department action that withdraws a license or qualification of a traffic survival school instructor issued under A.R.S. Title 28, Chapter 8, Article 7.1 or Title 32, Chapter 23 and this Article.
  2. "Revocation" means a Department action that terminates, for an indefinite period of time, a licensee's or traffic survival school qualified instructor's privilege to operate a school or conduct instruction under this Article.
  3. "Suspension" means a Department action that prohibits, for a stated period of time, a licensee or traffic survival

school qualified instructor from operating as a school or instructor under this Article.

- B. The Department or private entity may initiate corrective action on a licensee or a traffic survival school qualified instructor as provided under A.R.S. Title 28, Chapter 8, Article 7.1, Title 32, Chapter 23, Article 3, or Title 41, Chapter 6, Article 6, and this Article, if satisfactory evidence shows that a licensee or instructor, individually or collectively:
  1. Violated a federal or state law or rule reasonably relating in a business context to a duty prescribed under this Article;
  2. Failed to maintain a status of good standing or character and reputation as defined in R17-5-301; or
  3. Provided false, deceptive, or misleading information to the Department or private entity in either an application or in response to an audit or inspection conducted pursuant to R17-5-321.
- C. A corrective action initiated under subsection (B), depending on the severity or number of violations, may include the Department imposing a term of probation; issuing a cease and desist order under A.R.S. § 28-3417 or 32-2394; or requesting a hearing to cancel, suspend, or revoke an existing license under A.R.S. § 28-3416 or 32-2391.
- D. A notice of corrective action issued by the Department requesting a hearing to cancel, suspend, or revoke an existing school license shall include:
  1. The grounds for the Department's action; and
  2. A brief written statement explaining that it will request that a hearing be held before the Department's Executive Hearing Office on the proposed cancellation, suspension, or revocation of a professional driver training school license or a traffic survival school license, as provided under A.R.S. § 28-3416 or 32-2391.
- E. A notice of corrective action issued by the Department to cancel, suspend, or revoke an existing qualification of a traffic survival school instructor shall include:
  1. The grounds for the Department's action; and
  2. A brief written statement of the hearing and appeal rights, including that the instructor may request a hearing with the Department's Executive Hearing Office within 30 calendar days of the date on the notice for the cancellation, suspension, or revocation of the qualification of a traffic survival school instructor, as provided in A.R.S. §§ 41-1001(12) and 41-1064.
- F. The Department shall provide notice and conduct hearings as prescribed under A.R.S. Title 41, Chapter 6, Article 6, and 17 A.A.C. 1, Article 5, as applicable.

**Historical Note**

New Section made by exempt rulemaking under Laws 2013, Ch. 129, § 27 at 21 A.A.R. 1096, effective September 1, 2015 (Supp. 15-2). Amended by final rulemaking at 23 A.A.R. 2045, effective September 5, 2017 (Supp. 17-3).

**ARTICLE 4. DEALERS****R17-5-401. Definitions**

6. The odometer certification statement, if required by A.R.S. § 28-2058, including odometer reading, and an acknowledgment with the buyer's name and signature;
  7. A statement that the buyer is aware of the odometer certification made by the seller;
  8. The seller's name;
  9. The seller's notarized signature; and
  10. The seller's address, including city, state, and zip code.
- D.** A completed repossession affidavit as prescribed in this Section is proof of ownership, right of possession, and right of transfer.
- E.** The Department has no responsibility relating to foreclosure on real property under A.R.S. Title 33, Chapter 7.

New Section recodified from R17-4-260 at 7 A.A.R. 3483, effective July 20, 2001 (Supp. 01-3). Amended by final rulemaking at 10 A.A.R. 3399, effective October 2, 2004 (Supp. 04-3). Section amended by final rulemaking at 23 A.A.R. 1434, effective July 4, 2017 (Supp. 17-2).

**R17-5-408. Resale of a New Motor Vehicle**

- A.** A motor vehicle dealer that sells a new motor vehicle that was delivered to a previous purchaser, shall provide written notice to the new purchaser under subsection (B).
- B.** A motor vehicle dealer shall ensure that the notice under A.R.S. § 28-4422 contains the following information:
1. The name of the dealership;
  2. A vehicle description, including year, make, and VIN;
  3. A statement that the new motor vehicle was delivered to a previous purchaser;
  4. The printed name of the new purchaser; and
  5. The signature of the new purchaser (initials are not acceptable) indicating that the new purchaser has received the notice.
- C.** The motor vehicle dealer shall:
1. Provide a copy of the notice under subsection (B) to the new purchaser, and
  2. Keep a copy of the signed notice under subsection (B) at the new motor vehicle dealer's established place of business for at least three years.
- D.** The motor vehicle dealer is not required to submit the notice to the Department under subsection (B) unless otherwise required by state or federal law.
- E.** A new motor vehicle dealer shall not add additional language to the notice that would conflict with, or alter the intent of the provisions specified in subsection (B).

**ARTICLE 5. MOTOR CARRIER FINANCIAL RESPONSIBILITY****R17-5-501. Definitions**

In addition to the definitions provided under A.R.S. §§ 28-4001, 28-4031, 28-5201, and 28-5431, the following terms apply to this Article, unless the context otherwise requires:

"Binder" means a contract for temporary insurance as described in A.R.S. § 20-1120.

"Initial motor vehicle registration" means the first time a motor carrier registers a specific motor vehicle or a vehicle combination in Arizona.

"Insurance company" means an entity that is in the business of issuing motor carrier liability insurance policies.

**R17-5-504. Requirement to Submit Proof of Financial Responsibility; Applicability; Procedure; Exception**

- A.** If a person or motor carrier subject to financial responsibility requirements under A.R.S. § 28-4032 does not insure its motor vehicle or vehicle combination through an insurance company that electronically reports to the Department under A.R.S. § 28-4148 and Article 8 of this Chapter, the person or motor carrier shall submit proof of financial responsibility as prescribed in this Section, and in the amount required under A.R.S. § 28-4033(A):
1. On initial motor vehicle registration, or
  2. On written request by the Department.
- B.** An insurance company, its managing general agent, broker, or agent may submit proof of financial responsibility to the Department on behalf of a person or motor carrier.
- C.** As proof of financial responsibility, a person or motor carrier shall submit to the Department a photocopy of:
1. A valid liability insurance policy;
  2. A binder dated within 90 days of filing with the Department;
  3. A completed and signed Form E Uniform Motor Carrier Bodily Injury and Property Damage Liability Certificate of Insurance, issued by an insurer that holds a valid certificate of authority or that is permitted to transact surplus lines insurance in this state, naming the Arizona Department of Transportation as the agency;
  4. A completed and signed Certificate of Liability Insurance form, issued by an insurer that holds a valid certificate of authority or that is permitted to transact surplus lines insurance in this state, naming the Arizona Department of Transportation as the certificate holder; or
  5. A certificate of self-insurance issued by the Department after a person or motor carrier meets the requirements of R17-5-810 and A.R.S. §§ 28-4007 and 28-4135.
- D.** Before a binder submitted as proof of financial responsibility expires, a motor carrier shall submit:
1. A binder from an insurance company other than the insurance company named in the first binder; or
  2. Proof of financial responsibility listed in subsections (C)(1) or (C)(3) through (5).
- E.** A person or motor carrier that maintains a valid USDOT number and files proof of financial responsibility with the Federal Motor Carrier Safety Administration under 49 CFR 387 is not required to submit additional proof of financial responsibility under this Section, except on written request by the Department.

## **ARTICLE 6. IGNITION INTERLOCK DEVICE MANUFACTURERS AND IGNITION INTERLOCK SERVICE PROVIDERS**

**R17-5-601. Definitions**

In addition to the definitions provided under A.R.S. §§ 28-101 and 41-1072, in this Article, unless the context otherwise requires, the following terms apply:

“Alcohol concentration” means the weight amount of alcohol contained in a unit volume of breath or air, measured in grams of ethanol/210 liters of breath or air and expressed as grams/210 liters.

“Alveolar breath sample” means the last portion of a prolonged, uninterrupted exhalation from which breath alcohol concentrations can be determined.

“Anticircumvention feature” means any feature or circuitry incorporated into the ignition interlock device that is designed to prevent human activity that would cause the device not to operate as intended.

“Authorization agreement” or “agreement” means an agreement authorized by the Director that an IISP enters into with the Department to provide ignition interlock services under A.R.S. § 28-1468.

“Breath alcohol test” means analysis of a sample of the person’s expired alveolar breath to determine alcohol concentration.

“Bump starting” means a method of starting a motor vehicle with an internal combustion engine by engaging the manual transmission while the vehicle is in motion.

“Business day” means a day other than a Saturday, Sunday, or state holiday.

“Calibration” means the testing, adjustment, or systematic standardization of an ignition interlock device to determine and verify its accuracy.

“Cancellation” means the termination of a manufacturer’s ignition interlock device certification for ignition interlock device installation.

“Certification” means a status granted by the Department under this Article, which permits a certified ignition interlock device manufacturer to offer an ignition interlock device for installation.

“Certified ignition interlock device,” “CIID,” or “device” means a device that is based on alcohol specific electrochemical fuel sensor technology that meets the NHTSA specifications; that connects a breath analyzer to a motor vehicle’s ignition system; that is constantly available to monitor the alcohol concentration in the breath of any person attempting to start the motor vehicle by using its ignition system; that deters starting the vehicle by use of its ignition system unless the person attempting to start the motor vehicle provides an appropriate breath sample for the device; and determines whether the alcohol concentration in the person’s breath is below a preset level.

“Circumvent” or “circumvention” means an attempted or successful bypass of the proper functioning of a certified ignition interlock device and includes all of the following:

The bump start of a motor vehicle with a certified ignition interlock device;

The introduction of a false sample other than a deep-lung breath sample from the person driving the motor vehicle;

The introduction of an intentionally contaminated or a filtered breath sample;

The intentional disruption or blocking of a digital image identification device;

The continued operation of the motor vehicle after the certified ignition interlock device detects breath alcohol exceeding the presumptive limit prescribed in A.R.S. § 28-1381(G)(3) or, if the person is under 21 years of age, any attempt to operate the motor vehicle with any spirituous liquor in the person’s body;

Operating a motor vehicle without a properly functioning certified ignition interlock device and;

When a person, who is required to maintain a functioning certified ignition interlock device is starting or operating the motor vehicle, permits another individual to breathe into the certified ignition interlock device for the purpose of providing a breath alcohol sample to start the motor vehicle or for the rolling retest.

“Corrective action” means an action specified in or reasonably implied from Title 28, Chapter 4, Arizona Revised Statutes, that the Department takes in relation to a person’s driving privilege and the usage or discontinuation of usage of a CIID.

“Customer number” means the system-generated, or other distinguishing number, assigned by the Department to each person conducting business with the Department. The customer number of a private individual is generally the person’s driver license or non-operating identification license number.

“Data logger” means the electronic record of all ignition interlock device activity during the period when the device is installed.

“Data storage system” means a computerized recording of all events monitored by an ignition interlock device, which may be reproduced in the form of specific reports.

## CHAPTER 5. DEPARTMENT OF TRANSPORTATION - COMMERCIAL PROGRAMS

“Defective ignition interlock device” means an ignition interlock device that:

1. Does not meet the NHTSA specifications;
2. Does not pass calibration tests; or
3. Does not meet the accuracy and device standards prescribed in these rules.

“Drive cycle” means either the period of time from when a motor vehicle is initially turned on to the next time the ignition is turned off, or the period of time from when an initial breath alcohol test is performed and failed, to the time a breath alcohol test is successfully taken and the ignition is turned off.

“Early recall” means that a person’s ignition interlock device recorded one tampering or circumvention event, any ignition interlock malfunction, or any four valid reportable violations within a continuous 90-day period, that requires a person to return to a service center within 72 hours.

“Emergency bypass” means an event that permits a vehicle equipped with an ignition interlock device to be started without requiring successful completion of a required breath alcohol test.

“Emergency situation” means a circumstance in which the person informs the IISP or IISP-certified technician that the person’s vehicle needs to be moved to comply with the law, or the person has a valid and urgent need to operate the vehicle.

“Established place of business” means a business location that is:

- Approved by the Department;
- Located in Arizona;
- Not used as a residence; and
- Where an IISP or its agent or subcontractor provides authorized ignition interlock services.

“False sample” means any sample other than the unaltered, undiluted, or unfiltered alveolar breath sample coming from the person.

“Filtered breath sample” means any mechanism by which there is an attempt to remove alcohol from the human breath sample.

“Free restart” means a function of a CIID that will allow a person to restart the vehicle, under the conditions provided in R17-5-615, without completing another breath alcohol test.

“FTP” means file transfer protocol, the exchange of files over any network that supports electronic data interchange reporting that is transmitted through the Internet and prescribed by the Department.

“Global positioning system” means the ability of a wireless certified ignition interlock device to identify and transmit its geographic location through the operation of the device.

“Ignition interlock device installation fee” means the fee required in A.R.S. § 28-1462, and established by the Department in R17-5-614, that is paid by a person to an IISP when a CIID is installed on, or transferred to a person’s vehicle.

“Ignition interlock period” means the period in which a person is required to use a CIID that is installed on a vehicle.

“Ignition interlock service provider” or “IISP” means a person who is an authorized representative of a manufacturer and who is under contract with the Department to install or oversee the installation of ignition interlock devices by the provider’s

authorized agents or subcontractors and to provide services to the public related to ignition interlock devices.

“Improper reporting” means any of the following:

Failure of a manufacturer to report any violations to the Department within 24 hours as required in R17-5-610(D)(1), or failure to send a person’s ignition interlock reporting records, including records relating to a violation, to the Department as required in R17-5-612(C);

Failure of a manufacturer to submit to the Department valid and substantiated proof or evidence of a reportable activity related to a violation, including a summary report and relevant data loggers as required in R17-5-610(D)(2), within 10 days after the Department’s request;

Failure of a manufacturer to electronically send each Certified Ignition Interlock Summarized Reporting Record to the Department within 24 hours, after performing a calibration check, that results in the Department mailing a driver license suspension to a person;

Failure of a manufacturer to electronically send a Certified Ignition Interlock Device Summarized Reporting Record to the Department within 24 hours after installing a CIID;

Electronic reporting by a manufacturer to the Department, of data that is an exact duplicate of a single violation that occurs on a particular day and time and is reported multiple times;

Knowingly reporting a violation that occurs when a participant’s vehicle has high or low voltage;

Reporting an incident that occurs when a person has a free restart test to start the person’s vehicle;

Reporting an incident that occurs in which a manufacturer downloads data from the device during a calibration check and tampers with the data or a CIID;

Failure of a manufacturer to validate any person’s ignition interlock period extension within 10 days; or

Reporting an incident that occurs after the person’s vehicle is turned off.

“Independent laboratory” means a testing facility, not owned or operated by a manufacturer, that can test an ignition interlock device according to the Model Specifications for Breath Alcohol Ignition Interlock Devices (BAIIDs), NHTSA, published at 78 FR 26862 to 26866, May 8, 2013, with the NHTSA technical corrections published at 80 FR 16720 to 16723, March 30, 2015.

“Manufacturer” means a person or an organization that is located in the United States, that is responsible for the design, construction, and production of an ignition interlock device and that is certified by the Department to offer ignition interlock devices for installation in motor vehicles in this state.

“Material modification” means a change to a CIID that affects the functionality of the device.

“Missed rolling retest” means the person refused or failed to provide a valid and substantiated breath sample while operating the motor vehicle, in response to a requested rolling retest within the time period prescribed in R17-5-615(E).

“Mobile services” means ignition interlock services provided by an IISP or its agents or subcontractors at a publicly accessible location other than the IISP’s service center, that meet the requirements of R17-5-618.

## CHAPTER 5. DEPARTMENT OF TRANSPORTATION - COMMERCIAL PROGRAMS

“NHTSA” means the United States Department of Transportation’s National Highway Traffic Safety Administration.

“NHTSA specifications” means the specifications for breath alcohol ignition interlock devices published at 78 FR 26862 to 26866, May 8, 2013, with the NHTSA technical corrections published at 80 FR 16720 to 16723, March 30, 2015.

“Permanent lock-out” means a feature of the CIID in which a motor vehicle will not start until the CIID is reset by an IISP or an IISP-certified technician.

“Person” means a person who is ordered by an Arizona court or the Department to equip each motor vehicle operated by the person with a functioning CIID, and who becomes a customer of an IISP for installation and servicing of the CIID.

“Positive result” means a test result indicating that the alcohol concentration meets or exceeds the set point value.

“Principal place of business” means the administrative headquarters of a manufacturer or an IISP that is located in Arizona, is zoned for commercial, and is not used as a residence.

“Purge” means any mechanism that cleanses or removes a previous breath or reference sample from the device and specifically removes alcohol.

“Real-time” or “real-time reporting” means the instant transmission of unfiltered ignition interlock violations as defined in R17-5-601, and data as prescribed in R17-5-610, including digital images, to the manufacturer’s website for viewing by the Department without delay, as electronic or digital service permits.

“Reference sample device” means a device containing a sample of known alcohol concentration.

“Reference value” means an alcohol reference solution prepared and tested in a laboratory with a reference value and used to perform an accuracy check of the calibration of a CIID.

“Retest set point” has the same meaning as set point.

“Rolling retest” means a breath alcohol test that is required of a person at random intervals after the motor vehicle is started and that is in addition to the initial test required to start the motor vehicle.

“Service center” means an established place of business approved by the Department from which an IISP or its agents or subcontractors provide ignition interlock services to persons from one or more counties.

“Set point” means an alcohol concentration of 0.020 g/210 liters of breath.

“Tampering” means an overt or conscious attempt to physically disable or otherwise disconnect the CIID from its power source that allows the operator to start the engine without taking and passing the requisite breath test.

“Technician” means a person who is certified and properly trained by an ignition interlock service provider to install, inspect, calibrate, service or remove certified ignition interlock devices.

“Temporary lock-out” means a feature of the CIID which will not allow a motor vehicle to start for five minutes after a breath alcohol test result indicating an alcohol concentration above the set point.

“Vehicle identification number” or “VIN” means the unique code, including serial number, used by an automobile manufacturer to identify a specific motor vehicle.

“Violation” (when referencing acts or omissions on the part of a person in the ignition interlock program) includes, but is not limited to any of the following reportable activities performed by a person which a manufacturer shall promptly report to the Department:

Circumventing the CIID as defined in R17-5-601;

Tampering with the CIID as defined in A.R.S. § 28-1301;

Failing to provide proof of compliance or inspection of the CIID under A.R.S. § 28-1461(E)(4);

Attempting to operate the vehicle with an alcohol concentration of 0.08 or more as prescribed in A.R.S. § 28-1461(E)(5) if the person is at least 21 years of age;

Attempting to operate the vehicle with an alcohol concentration value in excess of the set point if the person is under 21 years of age;

Refusing or failing to provide any set of three consecutive valid and substantiated breath samples in response to a requested rolling retest within an 18-minute time frame during a person’s drive cycle;

Disconnecting or removing a CIID, except:

On repair of the vehicle, if the person provided to the IISP, technician, or service center advance notice of the repair and the anticipated completion date; or

On moving the device from one motor vehicle to another motor vehicle if replacement of the device is accomplished within 72 hours of device removal.

“Violation reset” means the unplanned servicing and inspection of a CIID and the downloading of information from its data storage system by an IISP as a result of an early recall that requires the manufacturer to unlock the device.

#### Historical Note

New Section recodified from R17-4-709 at 7 A.A.R. 3483, effective July 20, 2001 (Supp. 01-3). Amended by final rulemaking at 13 A.A.R. 3499, effective December 1, 2007 (Supp. 07-4). Amended by final rulemaking at 20 A.A.R. 3132, effective April 1, 2015 (Supp. 14-4). Amended by final exempt rulemaking at 24 A.A.R. 1725, effective July 1, 2018 (Supp. 18-2). Amended by final rulemaking at 26 A.A.R. 1047, effective July 5, 2020 (Supp. 20-2).

#### R17-5-602. Ignition Interlock Device Manufacturer Certification; Expiration; Cancellation of Certification; Notice

- A. An ignition interlock device manufacturer shall obtain certification by the Department under this Article before offering a new ignition interlock device model and before making material modifications to an existing ignition interlock device model for implementation and installation under Arizona law.
- B. Ignition interlock device certification by an ignition interlock device manufacturer shall occur prior to the IISP signing an authorization agreement with the Department.
- C. After receiving Department certification for a new ignition interlock device model and meeting all the requirements under R17-5-604, the ignition interlock device manufacturer is effectively certified by the Department to offer the certified ignition interlock device model for installation under Arizona law.
- D. An ignition interlock device manufacturer shall submit a new application to the Department under R17-5-604 for the certifi-

## CHAPTER 5. DEPARTMENT OF TRANSPORTATION - COMMERCIAL PROGRAMS

cation of each new ignition interlock device model the manufacturer intends to offer for installation.

- E. Manufacturer certification issued by the Department under this Article shall automatically expire if:
  1. The manufacturer no longer provides at least one currently certified ignition interlock device model for installation under Arizona law; and
  2. The manufacturer has no pending application on file with the Department for the certification of a device under R17-5-604.
- F. Manufacturer certification of an ignition interlock device that was previously approved by the Department under this Article shall automatically expire within one year after the certification is granted if the manufacturer has not contracted with an IISP currently contracted with the Department to install the CIID.
- G. After the one-year cancellation period in subsection (F) ends, a manufacturer may reapply to the Department for certification by completing a new application for the certification of a device and meeting all certification requirements under this Article.
- H. If the Department determines that a manufacturer fails to properly report ignition interlock information and data to the Department in the manner prescribed in these rules, the Department may immediately provide written notice to the manufacturer with the following information:
  1. The name of the person and the date of the improper reporting; and
  2. The manufacturer shall send the required record or report to the Department within ten business days, if applicable.
- I. If the manufacturer fails to remedy the issues identified in the notice within ten business days, the Department may cancel the manufacturer device certification.
- J. If a manufacturer's certification expires as a result of subsections (E)(1) and (E)(2), the manufacturer may reapply for certification by submitting a new application to the Department for the certification of a device under R17-5-604.
- K. A manufacturer shall only appoint one IISP that is contracted with the Department and serves as an authorized representative of the manufacturer to provide ignition interlock services to the public.
- L. A manufacturer shall notify the Department within 24 hours if an IISP is no longer authorized by a manufacturer to install its CIID.

**Historical Note**

New Section recodified from R17-4-709.01 at 7 A.A.R. 3483, effective July 20, 2001 (Supp. 01-3). Former R17-5-602 renumbered to R17-5-604; new R17-5-602 made by final rulemaking at 13 A.A.R. 3499, effective December 1, 2007 (Supp. 07-4). Amended by final rulemaking at 20 A.A.R. 3132, effective April 1, 2015 (Supp. 14-4). Amended by final exempt rulemaking at 24 A.A.R. 1725, effective July 1, 2018 (Supp. 18-2).

**R17-5-603. Device Requirements, Technical Specifications, and Standards for Setup and Calibration**

- A. The accuracy of the CIID shall be determined by analysis of an external standard generated by a reference sample device.
- B. A device shall have a demonstrable feature designed to assure that a breath sample measured is essentially alveolar.
- C. A test of alcohol-free samples shall not yield a positive result. Endogenously produced substances capable of being present in the breath shall not yield or significantly contribute to a positive result.
- D. All devices shall meet the setpoint requirements of R17-5-601 and the following requirements:

1. Be calibrated to have an accuracy within plus or minus 0.005 g/210L of the reference value;
  2. Be calibrated using a known reference value between .020 g/210L and .050 g/210L; and
  3. Be accompanied by a Certificate of Analysis (COA).
- E. A device shall be designed so that anticircumvention features will be difficult to bypass.
    1. Anticircumvention provisions on the device shall include, but are not limited to, prevention or preservation of any evidence of circumvention by attempting to use a false or filtered breath sample or electronically bypassing the breath sampling requirements of a device.
    2. A device shall use special seals or other methods that reveal attempts to bypass lawful device operation.
  - F. A CIID shall have global positioning system capability, and the manufacturer shall electronically and wirelessly download in real-time from the device and transmit daily to the Department, a person's ignition interlock activity in an FTP batch file.
  - G. A CIID shall be equipped with a camera, which shall not distract or impede the driver in any manner from safe and legal operation of the vehicle, shall record all ignition interlock activity of the person, and shall provide any visual evidence of actual or attempted tampering, alteration, bypass, or circumvention, and report this information directly to the manufacturer.
  - H. The camera shall be able to record and store visual evidence of each person providing a breath alcohol test, and shall meet the following requirements:
    1. At device installation, the camera shall take a reference picture of the person, which shall be kept on file;
    2. A clear digital image shall be taken for each event, including initial vehicle start, all rolling retests, and whenever a violation is recorded;
    3. Each digital image shall be a wide-angle view of the front cabin of the vehicle, including the passenger side, to ensure the camera can clearly capture the entire face of the person and any passengers; and
    4. The camera shall produce a digital image of the person in all lighting conditions, including brightness, darkness, and low light conditions.
  - I. A device shall:
    1. Automatically purge alcohol before allowing analysis.
    2. Have a data storage system with the capacity to sufficiently record and maintain a record of the person's daily driving activities that occur between each regularly scheduled calibration check referenced under R17-5-610 and R17-5-706. An IISP shall download and transmit any digital images taken during a person's calibration check, during each rolling retest, and each time a person with the ignition interlock requirement or another individual starts the motor vehicle. A manufacturer shall make these digital images available to the Department on request.
    3. Use the most current version of the manufacturer's software and firmware to ensure compliance with this Article and any other applicable rule or statute. The manufacturer's software and firmware shall:
      - a. Require device settings and operational features to include, but not limited to, sample delivery requirements, the set point, free restart, rolling retest requirements, violation settings, and temporary and permanent lock-outs; and
      - b. Prohibit modification of the device settings or operational features by a service center, or an IISP-certified technician unless the Department approves the modification under subsection (J).

## CHAPTER 5. DEPARTMENT OF TRANSPORTATION - COMMERCIAL PROGRAMS

4. Record all emergency bypasses in its data storage system.
5. Provide a visual reminder on the device that a calibration check must be performed on the person's CIID every 90 days, with prominent device notifications during each 77-day to 90-day interval within a person's ignition interlock period, of the following:
  - a. The device needs service; and
  - b. The time remaining until a permanent lock-out occurs.
6. Notify a person that failure to get the calibration check, including calibration and data download, by the end of each 90-day period will cause the vehicle to be in a permanent lock-out mode, and shall record the event in the data storage system.
7. On recording a violation of A.R.S. Title 28, Chapter 4, Article 5 for one instance of tampering or circumvention, any ignition interlock device malfunction, or any four valid reportable violations within a continuous 90-day period, emit a unique cue, either auditory, visual, or both, to warn a person that an early recall is initiated, requiring the person to return to the IISP in 72 hours for a violation reset.
8. Enter into a permanent lock-out if a person does not return to the IISP for a violation reset within 72 hours after an early recall occurs.
9. When a violation results in a permanent lock-out mode, the device shall:
  - a. Immobilize the person's vehicle;
  - b. Uniquely record the event in the data storage system; and
  - c. Require a violation reset by the IISP.
10. Enter into a temporary lock-out mode for five minutes when the device detects during the initial breath alcohol test that a person's breath alcohol concentration is at or above the set point.
11. After the five-minute temporary lock-out, the device shall allow subsequent breath alcohol tests with no further lock-out as long as each subsequent test produces a valid and substantiated breath test.
12. Have security protections and the capability to provide visual evidence of any actual or attempted tampering, alteration or bypass of the device, or circumvention.
- J. No modification shall be made to the design or operational concept of a device model after the Department has certified the device for installation under Arizona law, except that:
  1. A software or firmware update required to maintain a device model is permissible if the update does not modify the design or operational concept of the device.
  2. Replacement, substitution, or repair of a part required to maintain a device model is permissible if the part does not modify the design or operational concept of the device.
  3. If a manufacturer determines that an existing Department-certified ignition interlock device model requires any modification, the manufacturer shall immediately notify the Department.

**R17-5-604. Ignition Interlock Device Certification; Application Requirements**

- A. A manufacturer shall offer for installation only an ignition interlock device that is certified by the Department under this Section.
- B. To certify an ignition interlock device model, a manufacturer shall submit to the Department a properly completed application form that provides:
  1. The manufacturer's name;
  2. The address of the manufacturer's principal place of business in this state and telephone number;
  3. The manufacturer's status as a sole proprietorship, partnership, limited liability company, or corporation;
  4. The name of the sole proprietor or of each partner, officer, director, manager, member, agent, or 20% or more stockholder;
  5. The name and model number of the ignition interlock device and the name under which the ignition interlock device will be marketed; and
  6. The manufacturer's electronic mail address.
  7. The following statements, signed by the manufacturer:
    - a. A statement that all information provided on the application form, including all information provided on any attachment to the application form, is complete, true, and correct;
    - b. A statement that the manufacturer agrees to indemnify and hold harmless the state of Arizona and any department, division, agency, officer, employee, or agent of the state of Arizona from all liability for:
      - i. Damage to property or injury to people arising, directly or indirectly, out of any act or omission by the manufacturer or the manufacturer's authorized IISP relating to the installation and operation of the ignition interlock device; and
      - ii. All court costs, expenses of litigation, and reasonable attorneys' fees;
    - c. A statement that the manufacturer agrees to comply with all requirements under this Article; and
    - d. A statement that the manufacturer agrees to immediately notify the Department of any change to the information provided on the application form.
- C. A manufacturer shall submit the following additional items with the application form:
  1. A document that provides a detailed description of the ignition interlock device and a digital image, drawing, or other graphic depiction of the device;
  2. A document that contains the complete technical specifications for the accuracy, reliability, security, data collection, recording, and tamper detection capabilities of the ignition interlock device;
  3. An independent laboratory's report for each device model that:
    - a. Presents supporting data to demonstrate that the ignition interlock device meets or exceeds the test results required by the Model Specifications For Breath Alcohol Ignition Interlock Devices (BAIDs), NHTSA, published at 78 FR 26862 to 26866, May 8, 2013, with the NHTSA technical corrections published at 80 FR 16720 to 16723, March 30, 2015. The NHTSA specifications and technical corrections are incorporated by reference and are on file with the Department at 206 S. 17th Avenue, Phoenix, AZ 85007, and the NHTSA Office of Research and Technology, 1200 New Jersey Avenue SE, Washing-

ton, D.C. 20590. This incorporation by reference contains no future editions or amendments;

- b. Provides the independent laboratory's name, address, and telephone number; and
  - c. Provides the name and model number of the ignition interlock device tested.
4. A laboratory certification form, signed by an authorized representative of the independent laboratory that prepared the report required under subsection (C)(3), that states all of the following:
- a. The laboratory is not owned or operated by a manufacturer and no other conflict of interest exists.
  - b. The laboratory tested the ignition interlock device in accordance with the Model Specifications For Breath Alcohol Ignition Interlock Devices (BAIIDs), NHTSA, published at 78 FR 26862 to 26866, May 8, 2013 with the NHTSA technical corrections published at 80 FR 16720 to 16723, March 30, 2015.
  - c. The laboratory confirms that the ignition interlock device meets or exceeds the test results required under the Model Specifications For Breath Alcohol Ignition Interlock Devices (BAIIDs), NHTSA, published at 78 FR 26862 to 26866, May 8, 2013, with the NHTSA technical corrections published at 80 FR 16720 to 16723, March 30, 2015.
  - d. The laboratory used properly maintained equipment and trained personnel to test the ignition interlock device.
  - e. The laboratory presented accurate test results to the Department.
5. A certificate of insurance, issued by an insurance company authorized to transact business in Arizona, specifying:
- a. A product liability policy with a current effective date;
  - b. The name and model number of the ignition interlock device model covered by the policy;
  - c. Policy coverage of \$1,000,000 and \$3,000,000 in the aggregate;
  - d. The manufacturer as the insured and the state of Arizona as an additional insured;
  - e. Product liability coverage for defects in manufacture, materials, design, calibration, installation, and operation of the ignition interlock device; and
  - f. The insurance company shall notify the Department's Risk Management, Insurance and Indemnification Section in writing at least 30 days before canceling the product liability policy.
6. A statement that the ignition interlock device has a camera, includes a global positioning system, and provides real-time reporting.
- D. For any installation of a certified ignition interlock device or any replacement of a device on a person's motor vehicle with another device, an IISP or an IISP-certified technician shall install only a certified ignition interlock device that meets the additional requirements in this Article, and meets or exceeds the test results required by the Model Specifications for Breath Alcohol Ignition Interlock Devices (BAIIDs), NHTSA, published at 78 FR 26862 to 26866, May 8, 2013, with the NHTSA technical corrections published at 80 FR 16720 to 16723, March 30, 2015.
- E. A person whose CIID was installed prior to July 1, 2018, that does not meet all the requirements of subsection (D) shall return to the person's IISP by October 1, 2020 to exchange the CIID for a CIID that meets all the requirements of subsection (D).

**R17-5-605. Application Processing; Time Frames; Exception**

- A. The Department shall process an application for ignition interlock device certification only if an applicant meets all applicable application requirements.
- B. The Department shall, within 10 days of receiving an application for certification, provide notice to the applicant that the application is either complete or incomplete.
  1. The date of receipt is the date the Department receives the application.
  2. If an application is incomplete, the notice shall specifically identify what required information is missing.
- C. An applicant with an incomplete application shall provide all missing information to the Department within 15 days of the date indicated on the notice provided by the Department under subsection (B).
  1. After receiving all of the required information, the Department shall notify the applicant that the application is complete.
  2. The Department may deny certification of an ignition interlock device if the applicant fails to provide the required information within 15 days of the date indicated on the notice.
- D. Except as provided under subsection (F), the Department shall render a decision on an application for certification of an ignition interlock device within 30 days of the date indicated on the notice acknowledging receipt of a complete application provided to the applicant under subsections (B) or (C)(1).
- E. For the purpose of A.R.S. § 41-1073, the Department establishes the following time frames for processing an application for certification of an ignition interlock device:
  1. Administrative completeness review time frame: 10 days.
  2. Substantive review time frame: 30 days.
  3. Overall time frame: 40 days.
- F. Established time frames may be suspended by the Department under A.R.S. § 41-1074 for certification of an ignition interlock device until the Department receives all external agency approvals required for certifying a new ignition interlock device model from the Department of Public Safety.

**R17-5-606. Application Completeness; Denial of Ignition Interlock Device Certification; Hearing**

- A. An application for certification of an ignition interlock device model is complete when the Department receives:
  1. From the manufacturer, a properly prepared application form;

## CHAPTER 5. DEPARTMENT OF TRANSPORTATION - COMMERCIAL PROGRAMS

2. From the manufacturer, all additional items required under R17-5-604(C);
  3. From the Department of Public Safety, under A.R.S. § 28-1462, written confirmation or disapproval of the independent laboratory's report that the ignition interlock device meets or exceeds the NHTSA specifications in R17-5-604(C); and
  4. From the manufacturer, a letter or notification that the device meets the following standards:
    - a. The anticircumvention features in R17-5-603(E),
    - b. The data storage capacity requirement in R17-5-603(I)(2), and
    - c. The constant communication requirement in R17-5-610(O).
- B.** The Director shall deny an application for certification of an ignition interlock device model if all requirements of subsection (A) are not met, or on finding any of the following:
1. The design, material, or workmanship is defective, causing the ignition interlock device model to fail to function as intended;
  2. The manufacturer's product liability insurance coverage is terminated or canceled;
  3. The manufacturer no longer offers the ignition interlock device model for installation under Arizona law;
  4. The manufacturer or the independent laboratory provided false or inaccurate information to the Department relating to the performance of the ignition interlock device model;
  5. The components, design, or installation and operating instructions have undergone a modification that causes the ignition interlock device model to be out of compliance with the NHTSA specifications in R17-5-604(C), the requirements in this Article; or
  6. The Department receives a report of device disapproval from an independent laboratory or other external reviewer.
- C.** The Department shall mail to the manufacturer, written notification of the certification or denial of certification of an ignition interlock device model. A notice denying certification of an ignition interlock device model shall specify the basis for the denial and indicate that the applicant may, within 15 days of the date on the notice, request a hearing on the Director's decision to deny certification by filing a written request with the Department's Executive Hearing Office as prescribed under 17 A.A.C. 1, Article 5.
- D.** If a manufacturer timely requests a hearing on the Director's decision to deny certification of an ignition interlock device model, the Department's Executive Hearing Office shall conduct the hearing as provided under A.R.S. Title 41, Chapter 6, Article 6, and 17 A.A.C. 1, Article 5.

- R17-5-607. Cancellation of Device Certification; Hearing**
- A.** The Director shall cancel an ignition interlock device model certification and remove the device from its list of CIID's on finding any of the following:
1. The design, material, or workmanship contains a defect that causes the ignition interlock device model to fail to function as intended;
  2. The manufacturer's product liability insurance coverage is terminated or canceled;
  3. The manufacturer no longer offers the ignition interlock device model for installation under Arizona law;
  4. The manufacturer or independent laboratory provided false or inaccurate information to the Department relating to the performance of the ignition interlock device model;
  5. The components, design, or installation and operating instructions have undergone a modification that causes the ignition interlock device model to be out of compliance with the NHTSA specifications in R17-5-604(C);
  6. The manufacturer instructs the Department to cancel its certification of the ignition interlock device model;
  7. The manufacturer, the IISP, or the device does not comply with this Article or any other applicable rule or statute; or
  8. If the manufacturer has not contracted with an IISP authorized by the Department within one year after the device model certification.
- B.** The Department, on finding any of the conditions described under subsection (A), or on finding that the manufacturer failed to timely remedy the issues identified in the notice provided under R17-5-602(H), shall mail to the manufacturer a notice and order of cancellation of certification for the specific ignition interlock device model. The notice and order of cancellation shall:
1. Specify the basis for the action;
  2. Specify the date when the one-year decertification begins and ends; and
  3. State that the manufacturer may, within 15 days after receipt of a notice and order of manufacturer device model cancellation, file a written request for a hearing with the Department's Executive Hearing Office as prescribed under 17 A.A.C. 1, Article 5, to show cause as to why the ignition interlock device certification should not be cancelled.
- C.** If a hearing to show cause is timely requested, the Department's Executive Hearing Office shall conduct the hearing as prescribed under A.R.S. Title 41, Chapter 6, Article 6, and 17 A.A.C. 1, Article 5. The request for a hearing stays the summary cancellation of manufacturer device model certification.
- D.** Within 10 days after a hearing, the hearing officer shall issue to the manufacturer a written decision, which shall:
1. Provide findings of fact and conclusions of law; and
  2. Grant or cancel the certification.
- E.** If the hearing officer affirms the manufacturer device model cancellation, the manufacturer may seek judicial review under A.R.S. Title 12, Chapter 7, Article 6, within 35 days of the date when a copy of the decision sought to be reviewed is served upon the party affected unless the court grants a stay while the appeal is pending.
- F.** Within 60 days after the effective date of an order of cancellation, the manufacturer shall, at the manufacturer's own expense, ensure the removal of all ignition interlock devices that are not certified and facilitate the replacement of each device with a CIID.
- G.** The manufacturer of a previously decertified ignition interlock device model may reapply to the Department for certification of another ignition interlock device model under R17-5-604 after the one-year device decertification period ends.
- H.** After cancellation, the Department shall notify the IISP and the IISP-certified technicians that each of them is prohibited

## CHAPTER 5. DEPARTMENT OF TRANSPORTATION - COMMERCIAL PROGRAMS

from installing the ignition interlock device for which the device certification was cancelled.

- I. Cancellation of a manufacturer's device model certification prohibits the manufacturer from performing its duties with respect to the device model that has been cancelled and making the device model available for installation in the state for a period of one year from the latest of the following dates when:
  1. The Department cancels a manufacturer's device model certification, or
  2. The Department's Executive Hearing Office cancels the manufacturer's device model certification.

**R17-5-608. Modification of a Certified Ignition Interlock Device Model**

- A. A manufacturer shall notify the Department in writing at least 10 days before a material modification is made to a certified ignition interlock device model.
- B. Before providing a previously certified but materially modified ignition interlock device model for installation in a motor vehicle under an order of an Arizona court or the Department, a manufacturer shall:
  1. Submit to the Department a completed application form with the information required under R17-5-604(B) and all additional items required under R17-5-604(C), and
  2. Obtain certification of the materially modified ignition interlock device from the Department.
- C. The Department's certification of a materially modified ignition interlock device model does not affect the original certification of the unmodified model.

**R17-5-609. IISP and Manufacturer Responsibilities**

- A. An IISP shall refer a person only to the IISP's certified technician.
- B. An IISP shall provide the Department and each person with a toll-free telephone number to call to obtain the names and phone numbers of the IISP's certified technicians, the IISP service center locations, and hours of operation for the IISP service centers.
- C. An IISP shall certify each technician by providing adequate training and oversight for the technician to perform one of the activities at a service center, which are installation, inspection, calibration, service, or removal of a CIID.
- D. An IISP shall provide to every person operating a motor vehicle equipped with a CIID, and any other persons who will operate the motor vehicle, training on how to operate the motor vehicle. An IISP shall instruct the person on all of the following:
  1. How to use the system;
  2. How to obtain service for the CIID;
  3. How to find answers to any additional questions;
  4. How the alcohol retest feature works;
  5. How drinking alcohol before a test may result in a reading of sensitive or fail;
  6. How the CIID shall not be removed, except by an IISP or IISP-certified technician;
  7. How noncompliance with a regularly scheduled calibration check for a person with a limited or restricted driving privilege shall result in suspension of the person's driving privilege under A.R.S. § 28-1463 until proof of compliance is submitted to the Department under A.R.S. § 28-1461, and the duration of the person's certified ignition interlock device requirement shall be extended under A.R.S. § 28-1461;
  8. What the penalties are for circumvention of the CIID;
  9. What the penalties are for tampering with, or misusing the CIID;
  10. What will happen after failing a start-up breath alcohol test;
  11. What will happen after a person has a set of three consecutive valid and substantiated missed rolling retests within an 18-minute time frame during a drive cycle; and that a person shall not avoid compliance with the rolling retest requirement by turning off a motor vehicle's ignition or by keeping the motor vehicle in operation while the vehicle is parked, and leaving the vehicle when a rolling retest is requested;
  12. What events or actions will result in a temporary or permanent lock-out of the CIID; and
  13. How to provide a properly delivered alveolar breath sample.
- E. An IISP shall have each person sign a document stating that the IISP has instructed the person regarding each topic contained in subsections (D) and (L), and has received the manufacturer's written instructions for operation of the CIID.
- F. An IISP shall inform a person that a compliance check on a CIID is required 30 days and 60 days after installation of the device, which shall be done electronically.

## CHAPTER 5. DEPARTMENT OF TRANSPORTATION - COMMERCIAL PROGRAMS

- G.** An IISP shall inform each person to bring the vehicle to a service center for a calibration check within every 77 to 90-day period until the person is eligible for device removal.
- H.** An IISP shall check each CIID for evidence of tampering at least once every 90 days or more frequently if needed. This anticircumvention check shall be conducted at each person's calibration check at a service center as required under R17-5-706.
- I.** An IISP shall ensure that the manufacturer reports to the Department electronically under R17-5-610 if any evidence of tampering is discovered, and the manufacturer shall submit valid and substantiated proof or evidence of a reportable activity. An IISP shall keep visual evidence of a person's tampering or circumvention for a minimum of three years after the termination of the person's required ignition interlock period.
- J.** An IISP shall submit to the Department a list of the IISP-certified technicians, subcontractors, or agents, and service centers at the beginning of the contract with the Department, within 5 business days of making a change to the list previously provided, and on a monthly basis as requested by the Department.
- K.** An IISP shall comply with the provisions of this Article and A.R.S. Title 28, Chapter 4, Article 5.
- L.** A manufacturer shall develop and an IISP shall provide each person a reference and problem solving guide at the time of installation that shall include information on the following:
1. Operating a motor vehicle equipped with the CIID;
  2. Cleaning and caring for the CIID;
  3. Identifying and addressing any vehicle malfunctions or repairs that may affect the CIID; and
  4. How to properly take a valid and substantiated rolling retest.
- M.** A manufacturer shall notify the Department within 10 days of a change of address of its principal place of business in this state.
- N.** A manufacturer or an IISP shall provide a warning label, for each CIID installed, which shall have an orange background and shall include the following:
1. Be a minimum size of two inches by one inch;
  2. Be printed in a minimum of nine-point font;
  3. Be printed in Arial font, or a font of substantially similar size and legibility; and
  4. Contain the words in black lettering: "Warning! Any person tampering with, circumventing, or otherwise misusing this Ignition Interlock Device, is guilty of a Class 1 misdemeanor."
- O.** A manufacturer shall ensure that the IISP or the IISP-certified technician affixes conspicuously and maintains on each installed CIID the warning label described under subsection (N), which may be affixed to the device or to the device's cord.
- P.** A manufacturer shall develop written instructions for the installation and removal of an ignition interlock device from a motor vehicle.
- Q.** While a person maintains a functioning CIID in a vehicle under A.R.S. Title 28, Chapter 4, Article 5, the ignition interlock manufacturer shall electronically provide to the Department and transmit daily to the Department the information and reports prescribed in R17-5-610 and R17-5-615.
- R.** The manufacturer is responsible for overseeing any agents or subcontractors, including vendors and distributors, as well as overseeing the manufacturer's IISP to ensure adherence to all performance standards.
- at 13 A.A.R. 3499, effective December 1, 2007 (Supp. 07-4). Amended by final rulemaking at 20 A.A.R. 3132, effective April 1, 2015 (Supp. 14-4). Section repealed; new Section made by final exempt rulemaking at 24 A.A.R. 1725, effective July 1, 2018 (Supp. 18-2). Amended by final rulemaking at 26 A.A.R. 1047, effective July 5, 2020 (Supp. 20-2).
- R17-5-610. Reporting; Reportable Activity**
- A.** A person shall have installed in a motor vehicle, only an ignition interlock device certified by the Department under R17-5-604.
- B.** A manufacturer shall develop and the IISP shall ensure that each IISP-certified technician complies with the IISP's written procedures for the installation of a CIID.
- C.** Certified ignition interlock device installation verification.
1. A manufacturer shall electronically transmit a Certified Ignition Interlock Device Summarized Reporting Record to the Department within 24 hours of the device installation.
  2. The electronic Certified Ignition Interlock Device Summarized Reporting Record for installation verification shall contain all of the following information:
    - a. Department-assigned service center number;
    - b. Person's full name (first, middle, last and suffix);
    - c. Date of birth;
    - d. Driver license or customer number;
    - e. Report date;
    - f. Install date;
    - g. Report type;
    - h. Technician identification number;
    - i. A unique identification number for the CIID;
    - j. The last six digits of the vehicle identification number that matches the vehicle information on the data logger; and
    - k. Whether the Department, a court, or an out-of-state entity requires a person to have a CIID.
- D.** Certified ignition interlock device calibration check.
1. A manufacturer shall electronically transmit a Certified Ignition Interlock Device Summarized Reporting Record to the Department within 24 hours after performing a calibration check on an installed CIID.
  2. A manufacturer shall submit to the Department the following valid and substantiated proof or evidence of a reportable activity related to a violation, as prescribed in subsection (F), within 10 days by electronic means, which shall include:
    - a. A summary report stating why the data logger or any other evidence confirms the occurrence of a violation, including any digital images of the person; and
    - b. A data logger that shows at least 12 hours of data before and after the violation.
  3. A manufacturer may submit to the Department the following additional valid and substantiated proof or evidence of a reportable activity related to a violation, as prescribed in subsection (F), if available, within 10 days by electronic means, which may include:
    - a. Video recordings;
    - b. Written statements; and
    - c. Any other evidence relevant to a violation.
  4. The electronic Certified Ignition Interlock Device Summarized Reporting Record for the calibration check shall contain all of the following information:
    - a. Department-assigned service center number;
    - b. Person's full name (first, middle, last and suffix);
    - c. Date of birth;
    - d. Driver license or customer number;

  - r. Whether the Department, a court, or an out-of-state entity requires a person to have a CIID.
- E.** Certified ignition interlock device removal report.
1. When a certified ignition interlock device is removed, a manufacturer shall electronically transmit a Certified Ignition Interlock Device Summarized Reporting Record to the Department within 24 hours.
  2. The electronic Certified Ignition Interlock Device Summarized Reporting Record for removal of a device shall indicate the condition of noncompliance and contain all of the following information:
    - a. Department-assigned service center number;
    - b. Person's full name (first, middle, last and suffix);
    - c. Date of birth;
    - d. Driver license or customer number;

    - m. Missed rolling retest count, dates, and times;
    - n. Device download date; and
    - o. Device download time.
- F.** Reportable activity for a person's noncompliance with these rules and A.R.S. Title 28, Chapter 4, Article 5, shall be limited to valid and substantiated instances by a person of any of the following transmitted electronically and wirelessly by the manufacturer to the Department in real-time within 24 hours:
1. Tampering with a CIID as defined in A.R.S. § 28-1301;
  2. Refusing or failing to provide any set of three consecutive valid and substantiated breath samples in response to a requested rolling retest within an 18-minute time frame during a person's drive cycle;
  3. Failing to provide proof of compliance or inspection of the CIID as required under A.R.S. § 28-1461(E)(4);
  4. Attempting to operate the vehicle with an alcohol concentration of 0.08 or more as prescribed in A.R.S. § 28-1461(E)(5) if the person is at least 21 years of age;
  5. Attempting to operate the vehicle with an alcohol concentration in excess of the set point if the person is under 21 years of age;
  6. Circumvention of a CIID as defined in R17-5-601; or
  7. Disconnecting or removing a CIID, except:
    - a. On repair of the vehicle, if the person provided to the IISP, technician, or service center advance notice of the repair and the anticipated completion date; or
    - b. On moving the device from one motor vehicle to another motor vehicle if replacement of the device is accomplished within 72 hours of device removal.
- G.** A person shall not avoid compliance with the rolling retest requirement by turning off a motor vehicle's ignition or by keeping the motor vehicle operating while the vehicle is parked, and leaving the vehicle when a rolling retest is requested. A missed rolling retest is reportable activity for a person's noncompliance under subsection (F).
- H.** A manufacturer shall screen each person's data loggers to ensure that there is no improper reporting.
- I.** A manufacturer shall ensure that a CIID has the necessary programming to identify each person's ignition interlock period and each drive cycle to report and send data and violations to the Department as required by these rules.
- J.** A manufacturer shall review within 10 days all reports sent by the Department and returned to the manufacturer for verification of accurate reporting. If a manufacturer finds that the reported information does not indicate valid and substantiated evidence of a violation, the manufacturer shall immediately contact the Department to correct the person's record before corrective action is initiated against a person as a result of misreported ignition interlock data.
- K.** A manufacturer shall immediately contact the Department if the manufacturer finds that the reported information indicates:
1. An obvious mechanical failure of a CIID;
  2. Obvious errors in the recorded CIID data that cannot be attributed to a person's actions;
  3. Obvious errors in the transmission of CIID data to the Department, including misreported instances of tampering; or
  4. Submission of an extension of a person's ignition interlock period or a violation to the Department when a person was not in the vehicle to take the rolling retests.
- L.** A manufacturer shall ensure that a CIID electronically and wirelessly uploads data in real-time to the manufacturer's website, that is maintained by the manufacturer, and the manufacturer shall submit all required information and reports in a daily FTP file to the Department.
- M.** In cases where no electronic or digital service exists, the manufacturer shall store the data and send the data as soon as electronic or digital service is available.
- N.** A manufacturer shall include the date of the last upload on the person's account on the manufacturer's website.
- O.** A CIID shall have constant communication between the manufacturer's server and relay unit while the device is in use.
- P.** All data, including digital images, shall be available to the Department for viewing on the manufacturer's website within five minutes after the data is recorded on the device, or as soon as electronic or digital reception permits.

**R17-5-611. Emergency Assistance; Continuity of Service to Persons**

- A.** For events occurring outside of normal business hours, an IISP shall provide to each person a 24-hour emergency toll-free phone number answered by a live person at all times, to provide assistance in the event a CIID fails to operate properly or a vehicle experiences a problem relating to the installation, operation, or failure of a CIID.
1. During normal business hours, if the IISP or technician receives a call for emergency assistance, and determines that a vehicle is experiencing a problem relating to the installation, operation, or failure of a CIID, an IISP or a technician shall respond to the call within 24 hours of the initial contact and shall be available either to:
    - a. Provide telephonically, the technical information required for the person to resolve the issue; or
    - b. Provide or arrange for appropriate towing or roadside assistance services if unable to resolve the issue telephonically.
  2. After receiving a person's call for emergency or other assistance, the IISP, technician, or manufacturer, as appropriate, shall either:
    - a. Make the CIID functional, if possible, within 24 hours, or
    - b. Replace or repair the CIID within 48 hours of the initial contact.
- B.** An IISP shall ensure uninterrupted service to a person for the duration of the person's ignition interlock period, which shall include facilitating the replacement of a technician, subcontractor, or an employee or agent who goes out of business, is removed, or a technician whose certification is cancelled by the IISP.

1. If a manufacturer terminates the IISP's authorization, the manufacturer shall obtain each person's records from the IISP and retain the records according to R17-5-612.
  2. At the end or termination of an ignition interlock service authorization agreement, the manufacturer shall provide the Department with electronic access to each person's ignition interlock records for three years.
  3. If a manufacturer authorizes a new IISP, the manufacturer shall notify each person affected by the authorization of the new IISP at least 30 days before the authorization becomes effective.
  4. If a manufacturer does not authorize a new IISP, the manufacturer at no cost to the person, shall:
    - a. Provide written notification to all persons who are affected by the loss of an IISP or lack of service in an area, at least 30 days before the IISP discontinues service. The written notification shall inform the person of the manufacturer's responsibility to facilitate removal and replacement of the CIID and shall provide the instructions necessary for the person to successfully exchange the device;
    - b. Remove the device from the vehicle of each affected person; and
    - c. Facilitate the replacement of each device through a manufacturer with an IISP that can provide service.
  5. A manufacturer shall notify the Department within 24 hours of replacing its IISP.
  6. An IISP shall submit to the Department an updated list of the IISP's certified technicians within 5 business days after making a change to the list provided to the Department under R17-5-609(J).
- C.** Except in an emergency situation, a manufacturer, an IISP, or an IISP's-certified technician shall not remove another manufacturer's CIID without the express permission of that manufacturer.
1. If in an emergency situation a manufacturer, an IISP, or the IISP's-certified technician removes another manufacturer's CIID, that manufacturer, IISP, or the IISP's-certified technician shall return the device to the original manufacturer within 72 hours of the emergency removal; and
  2. The original manufacturer, on receipt of the device, shall provide to the Department an electronic report of the device removal under R17-5-610, which shall include the transmission of all data stored in its data storage system.
- D.** In accordance with the IISP's implementation plan, an IISP shall facilitate the replacement of the IISP's service center if the service center goes out of business or the service center is closed, and the IISP does not have a service center in the county. An IISP shall notify the Department within 72 hours of replacing a service center location in a county.
1. If a service center closes and is replaced, the manufacturer shall make all reasonable efforts to obtain from the service center being replaced, all the individual ignition interlock records and data required to be retained under R17-5-612. The records shall be provided to, and maintained by the IISP.
  2. If an out-of-business or closed service center is not replaced, the manufacturer shall retain the records and data as required under R17-5-612, and shall provide the Department with electronic access to the records and data.
    - a. The manufacturer shall facilitate removal of all installed CIID's no longer serviced by the out-of-business or closed service center, and shall bear the cost of replacing each device with a serviceable

## CHAPTER 5. DEPARTMENT OF TRANSPORTATION - COMMERCIAL PROGRAMS

CIID chosen by the person, even if the replacement device must be provided through an alternate manufacturer.

- b. The manufacturer shall, within 30 days, make a reasonable effort to notify its customers of the change of service center or replacement of a device.
3. If the manufacturer cannot comply with subsection (D)(1) or subsection (D)(2), the IISP shall:
  - a. Notify its customers and the Department that service will be terminated; and
  - b. Remove each device at no cost to the customer.

Section R17-5-611 renumbered from R17-5-608 and amended by final rulemaking at 13 A.A.R. 3499, effective December 1, 2007 (Supp. 07-4). Amended by final rulemaking at 20 A.A.R. 3132, effective April 1, 2015 (Supp. 14-4). Amended by final exempt rulemaking at 24 A.A.R. 1725, effective July 1, 2018 (Supp. 18-2).

**R17-5-612. Records Retention; Submission of Copies and Quarterly Reports**

- A. During the duration of the ignition interlock service authorization agreement, an IISP shall retain each person's ignition interlock activity records in an electronic format, including a secure database, or a paper format. The retained records shall consist of every document relating to installation, operation, and removal of the CIID. The IISP shall maintain all daily ignition interlock activity records of each person in the device's data storage system, or in a secure database at a commercial business location in this state, that the Department may access during posted business hours. An IISP shall inform the Department where all individual ignition interlock activity records are located.
- B. Prior to the end or termination of an ignition interlock service authorization agreement, the manufacturer shall obtain all person's ignition interlock records and provide the Department with electronic access to the records for three years.
- C. A manufacturer shall provide copies of each person's ignition interlock records to the Department within 10 days after Department personnel request copies of records, including records relating to installation and operation of the CIID.
- D. A manufacturer shall electronically send to the Department, by the 10th day of January, April, July, and October, a quarterly report containing the following information for the previous three months:
  1. The number of CIID's the IISP currently has in service;
  2. The number of CIID's installed since the previous quarterly report;
  3. The number of CIID's removed by the IISP since the previous quarterly report; and
  4. Other information required by the Department.
- E. An IISP shall maintain and make available to the Department the ignition interlock records of all persons served by the IISP, records relating to the authorization agreement, and employee background check information at a commercial business location in this state of the manufacturer or the IISP during normal business hours.

effective July 5, 2020 (Supp. 20-2).

**R17-5-613. Inspections and Complaints**

- A. The Department shall investigate any complaint that is related to a CIID or an IISP.
- B. An IISP and a manufacturer shall permit and fully cooperate with periodic on-site inspections of the IISP's service centers and principal places of business of the manufacturer at any time during normal business hours by an authorized representative of the Department, where records relating to the authorization agreement and individual ignition interlock device records are maintained.
- C. The Department shall conduct on-site inspections of a manufacturer, or a service center under the provisions of A.R.S. § 41-1009. The inspection shall include an examination of ignition interlock activity, records and verification of an adequate supply of the warning labels that meet the requirements of A.R.S. § 28-1462 and R17-5-609.

**Historical Note**

New Section made by final rulemaking at 13 A.A.R. 3499, effective December 1, 2007 (Supp. 07-4). Amended by final rulemaking at 20 A.A.R. 3132, effective April 1, 2015 (Supp. 14-4). Amended by final exempt rulemaking at 24 A.A.R. 1725, effective July 1, 2018 (Supp. 18-2).

**R17-5-614. Ignition Interlock Device Installation Fee; Financial Records**

- A. An IISP shall collect an ignition interlock device installation fee of twenty dollars from each participant for each CIID that is installed in, or transferred to a motor vehicle by an IISP.
- B. An IISP shall electronically remit the collected ignition interlock device installation fees paid by all persons to the Department on a monthly basis through a payment account created by the IISP, as determined by the Department, by transferring the collected fees paid during the previous month to the Department by the tenth day of the following month.
- C. An IISP shall not charge a person an installation fee to replace a defective ignition interlock device.
- D. An IISP shall post the amount of the ignition interlock device installation fee and the statutory authority for the ignition interlock device installation fee required by A.R.S. § 28-1462 on the IISP's website, that is available to all persons with an ignition interlock device requirement, and in a visible location at each of the IISP's service centers.
- E. An IISP must clearly post the amount of all other fees charged to a person for ignition interlock device services.
- F. An IISP shall maintain the financial records of the ignition interlock device installation fee collection and transfer to the Department, at an IISP's established place of business, or in a secure database, for three years from the date of the fee transfer. The Department may review the financial records of an IISP during normal business hours, to ensure compliance with the collection and transfer of the ignition interlock device installation fee to the Department.

**Historical Note**

New Section made by final exempt rulemaking at 24 A.A.R. 1725, effective July 1, 2018 (Supp. 18-2). Section repealed; new Section made by final rulemaking at 26 A.A.R. 1047, effective July 5, 2020 (Supp. 20-2).

**R17-5-615. Rolling Retest; Missed Rolling Retest; Extension of Ignition Interlock Period**

- A. A manufacturer shall report to the Department any valid and substantiated missed rolling retests, as defined in R17-5-601, that occur during the time period prescribed in subsection (E).

## CHAPTER 5. DEPARTMENT OF TRANSPORTATION - COMMERCIAL PROGRAMS

- B. A CIID shall have the capability to require a rolling retest and meet the requirements of a rolling retest. A person shall be prompted for the first rolling retest within five to 15 minutes after the initial test required to start an engine, and the device shall prompt for additional rolling retests at random intervals of up to 30 minutes after each previously requested and passed rolling retest.
- C. A certified ignition interlock device shall:
  - 1. Emit a warning light, tone, or both, to alert a person that a rolling retest is required;
  - 2. Allow a period of six minutes after the warning light, tone, or both, to allow a person to take a rolling retest;
  - 3. Require a person to perform a new test to restart an engine if it is switched off during or after a rolling retest warning;
  - 4. Allow a free restart of a motor vehicle's ignition, within three minutes after the ignition is switched off, without requiring another breath alcohol test, except when a rolling retest is in progress;
  - 5. Use the set point value for startups and retests;
  - 6. Record, in its data storage system, the result of each rolling retest performed by a person during the person's drive cycle, and any valid and substantiated missed rolling retests; and
  - 7. Immediately require another rolling retest each time a person refuses to perform a requested rolling retest.
- D. Until a person successfully performs a rolling retest, or the engine is switched off, a device shall record in its data storage system, each subsequent refusal or failure of the person to perform the requested rolling retest.
- E. The Department shall count one missed rolling retest for a person who refuses or fails to provide a valid and substantiated breath sample in response to a requested rolling retest if not followed by the person providing a valid and substantiated breath sample within six minutes.
- F. Failure to take a rolling retest when a person's breath alcohol concentration is equal to or exceeds the set point shall not sound the vehicle horn, nor any type of siren, bell, whistle or any device emitting a similar sound, or any unreasonable loud or harsh sound that is audible outside of the vehicle, and shall not cause the engine of the vehicle to shut off.
- G. The Department shall extend a person's ignition interlock period for six months, as provided in A.R.S. § 28-1461(E) for any set of three consecutive missed rolling retests that occur within an 18-minute time frame during a drive cycle.
- H. If during one drive cycle, a person who is at least 21 years of age, has two or more breath alcohol concentrations of 0.08 or more, the Department shall count this as one violation, and shall extend a person's ignition interlock period for six months.
- I. If during one drive cycle, a person who is under 21 years of age, has any breath alcohol concentration one or more times, the Department shall count this as one violation, and shall extend a person's ignition interlock period for six months.
- J. Except as provided in subsections (H) and (I), if during one drive cycle, a person has more than one violation as defined in R17-5-601, the Department shall extend a person's ignition interlock period for six months for each violation.

**Historical Note**

New Section made by final exempt rulemaking at 24 A.A.R. 1725, effective July 1, 2018 (Supp. 18-2).

**R17-5-616. Civil Penalties; Hearing**

- A. After notice and an opportunity for a hearing, the Director may impose a civil penalty pursuant to A.R.S. § 28-1465, against a manufacturer of a certified ignition interlock device for

improper reporting to the Department of ignition interlock data, as defined in R17-5-601. The Director may impose and collect a civil penalty against a manufacturer of a certified ignition interlock device, who is responsible for an occurrence of improper reporting, as follows:

1. \$100 for the first occurrence, but not to exceed \$1,000 per series of occurrences of improper reporting on a specific date;
  2. \$250 for the second occurrence, but not to exceed \$2,500 per series of occurrences of improper reporting on a specific date; and
  3. \$500 for the third or subsequent occurrence, but not to exceed \$5,000 per series of occurrences of improper reporting on a specific date.
- B. The Director, on finding that a manufacturer engaged in improper reporting, shall mail a notice to the manufacturer stating that civil penalties may be imposed for improper reporting. The notice shall:
    1. Specify the basis for the action; and
    2. State that the manufacturer may, within 15 days after receipt of the notice, file a written request for a hearing with the Department's Executive Hearing Office as prescribed in 17 A.A.C. 1, Article 5.
  - C. A manufacturer who is aggrieved by an assessment, decision, or order of the Department under A.R.S. § 28-1465 and this Section may seek judicial review under A.R.S. Title 12, Chapter 7, Article 6.
  - D. The manufacturer shall pay the civil penalty imposed under this Section to the Department no later than 30 days after the order is final.
  - E. If the manufacturer fails to pay the civil penalty within 30 days after the order is final, the director may file an action in the superior court in the county in which the hearing is held to collect the civil penalty.

**Historical Note**

New Section made by final exempt rulemaking at 24 A.A.R. 1725, effective July 1, 2018 (Supp. 18-2).

Amended by final rulemaking at 26 A.A.R. 1047, effective July 5, 2020 (Supp. 20-2).

**R17-5-617. Cease and Desist**

- A. If the Director has reasonable cause to believe that a party to an IISP authorization agreement is violating any provision of state statute, administrative rule, or the authorization agreement, the Director will immediately issue and serve a cease and desist order by mail to the IISP's last known address.
- B. On receipt of the cease and desist order, the IISP shall immediately cease and desist from further engaging in any activity that is not authorized in state statute, administrative rule, or the agreement, and that is specified in the cease and desist order.
- C. On failure of the IISP to comply with the cease and desist order, the IISP may request a hearing with the Department's Executive Hearing Office under 17 A.A.C. 1, Article 5 within 15 days. On failure of the IISP to comply with the cease and desist order, the Director will immediately cancel the agreement with the IISP.

**Historical Note**

New Section made by final exempt rulemaking at 24 A.A.R. 1725, effective July 1, 2018 (Supp. 18-2).

**R17-5-618. Service Centers; Mobile Services**

- A. An IISP shall have at least one readily accessible service center in each county in this state that performs all ignition interlock services, including service, calibration, installation, inspection, and removal of a CIID by a technician who is trained and certified by the IISP for the specific service area.

## CHAPTER 5. DEPARTMENT OF TRANSPORTATION - COMMERCIAL PROGRAMS

- B.** An IISP, subcontractor, agent, or an employee who operates a service center, or provides mobile services as an extended service provided by a service center on a temporary or emergency basis, shall meet the requirements in these rules before conducting CIID-related business in this state.
- C.** A service center shall maintain sufficient staffing to provide an acceptable level of ignition interlock device services during all posted business hours.
- D.** A technician that provides mobile services shall be stationed and employed at the IISP's service center and be certified in the ignition interlock service area the technician will provide.
- E.** When a service center technician provides mobile services, an IISP shall ensure that the service center has another technician or employee available at the service center to provide ignition interlock device services.
- F.** An IISP's service center shall:
1. Be located in a permanent, fixed-site facility that accommodates installing, inspecting, downloading, calibrating, monitoring, maintaining, servicing, and removing a CIID;
  2. Provide a designated waiting area for a person that is separate from the installation area;
  3. Ensure that a person does not witness installation of the CIID;
  4. Through the IISP, the IISP-certified technician or employee, provide the necessary training required by R17-5-609(D) for a person to operate a CIID;
  5. Ensure that a technician meets the necessary requirements in order to receive and maintain certification before a technician or an IISP conducts ignition interlock device business in this state; and
  6. Have the necessary equipment and tools to provide all ignition interlock services in a professional manner.
- G.** A service center that provides mobile services shall:
1. Have the capability to provide all the ignition interlock services in subsection (F)(1);
  2. Meet the requirements in subsection (F)(3) through (F)(6);
  3. Have permission from the motor vehicle owner to provide mobile services; and
  4. Ensure that a technician provides business identification to a person requesting service prior to performing services, along with the service center certificate and the technician's training certificate.
- H.** A service center that provides mobile services shall not operate from a tow truck.
- I.** An IISP that operates a service center, shall ensure that an IISP-certified technician utilizes all of the following:
1. The analysis of a reference sample such as headspace gas from a mixture of water and alcohol, the results of which shall agree with the reference sample predicted value, or other methodologies approved by the Department. The preparatory documentation on the reference sample solution, such as a certificate of analysis, shall be made available to the Department on request.
  2. The set point value established under R17-5-601. All analytical results shall be expressed in grams of alcohol per 210 liters of breath (g/210L).
  3. The most current versions of manufacturer software and firmware to ensure continuous compliance under this Article and A.R.S. Title 28, Chapter 4, Article 5.
- J.** An IISP shall ensure that a motor vehicle used to provide mobile services from a service center has current vehicle registration in this state and maintains the required mandatory insurance and financial responsibility coverage in A.R.S. § 28-4009.
- K.** A technician shall ensure that a person who receives mobile services receives the same level of training and service as a person who receives services at a service center.
- L.** The manufacturer shall ensure that a CIID electronically transmits the Summarized Reporting Record for a calibration check to the Department as provided in R17-5-610(D)(4).

**Historical Note**

New Section made by final exempt rulemaking at 24 A.A.R. 1725, effective July 1, 2018 (Supp. 18-2).

**R17-5-619. Application; IISP Implementation Plan**

- A.** An IISP that applies for authorization of an ignition interlock service provider contract under A.R.S. § 28-1468 shall submit all documents and meet all the requirements in the ignition interlock service provider authorization agreement; in Title 28, Chapter 5, Article 4, Arizona Revised Statutes; and these rules.
- B.** In addition to this information, an IISP shall submit to the Department, with the application, a detailed implementation plan that outlines the steps and time frames necessary for the IISP to be fully operational. The implementation plan must include:
1. The IISP's plan for establishing a service center in every county in this state;
  2. The IISP's procedures for imposing progressive discipline on its employees, agents, or subcontractors who fail to comply with the requirements of Arizona statute; Department administrative rules; or the terms of the authorization agreement;
  3. A plan for transitioning ignition interlock services to another IISP that ensures continuous monitoring will occur if a participant decides to transition services to another IISP or if the IISP ceases conducting business or leaves this state;
  4. A means by which the IISP will provide all participant records and information or electronic access to the records and information to the ignition interlock device manufacturer in the event the IISP ceases conducting business or leaves this state. At the end or termination of an ignition interlock service authorization agreement, the manufacturer shall provide the Department with electronic access to all person's ignition interlock records for three years; and
  5. Documentation that the IISP is an authorized agent of the manufacturer and a point of contact for the manufacturer, including the IISP's telephone number and e-mail address.
- C.** An IISP shall be approved by the Director through the application for authorization agreement process before offering ignition interlock services in the state.
- D.** An IISP shall use this process to reapply to the Director for reauthorization of an ignition interlock service provider contract.

**Historical Note**

New Section made by final exempt rulemaking at 24 A.A.R. 1725, effective July 1, 2018 (Supp. 18-2).

**R17-5-620. Authorization Time Frame; Ignition Interlock Service Provider**

- A.** The Director shall, within 10 days of the date of receipt of an application for authorization of an ignition interlock service provider contract, provide notice to the IISP that the application is either complete or incomplete.
1. The date of receipt is the date the Director receives the application.
  2. If an application is incomplete, the dated notice shall specifically identify the required information that is missing.

## CHAPTER 5. DEPARTMENT OF TRANSPORTATION - COMMERCIAL PROGRAMS

- B. An applicant with an incomplete application shall provide all missing information to the Director within 15 days of the Director's notice.
  - 1. After receiving all of the required information, the Director shall notify the IISP that the application is complete.
  - 2. The Director may deny an IISP's application if the IISP fails to provide the required information within 15 days of the Director's notice.
- C. The Director shall render a decision on an application for authorization within 30 days of the date on the notice acknowledging receipt of a complete application, provided to the applicant under subsections (A) or (B).
- D. If the Director denies an application for authorization, the Director shall notify the IISP in writing within 20 days after the denial, and of the grounds for the denial in accordance with A.R.S. § 28-1468 (E).
- E. For the purposes of A.R.S. § 41-1073, the Department establishes the following time frames for the purpose of reviewing an application for authorization:
  - 1. Administrative completeness review time frame: 10 days.
  - 2. Substantive review time frame: 30 days.
  - 3. Overall time frame: 40 days.
- F. The Director shall use this process for reapplication for authorization of an ignition interlock service provider contract.
  - d. A statement that the IISP agrees to immediately notify the Department of any change to the information provided on the application form.
- C. The Department shall process an IISP's service center application only if the IISP meets all applicable application requirements.
- D. The Department shall, within 10 days of receiving a service center application, provide notice to the IISP that the application is either complete or incomplete.
  - 1. The date of receipt is the date the Department receives the application.
  - 2. If an application is incomplete, the notice shall specifically identify the required information that is missing.
- E. An IISP with an incomplete application shall provide all missing information to the Department within 15 days of the date on the Department's notice.
  - 1. After receiving all of the required information, the Department shall notify the IISP that the application is complete.
  - 2. The Department may deny approval of a service center if the IISP fails to provide the required information within 15 days of the date on the notice.
- F. The Department shall render a decision on a service center application within 30 days of the date indicated on the notice acknowledging receipt of a complete application provided to the IISP under subsections (D) or (E).
- G. For the purpose of A.R.S. § 41-1073, the Department establishes the following time frames for processing an application for approval of a service center:
  - 1. Administrative completeness review time frame: 10 days.
  - 2. Substantive review time frame: 30 days.
  - 3. Overall time frame: 40 days.
- H. If a service center is no longer authorized by a manufacturer to install its CIID, the IISP shall notify the Department within 24 hours.
- I. An IISP shall be the authorized representative of a specific manufacturer while the authorization agreement is in effect, for a service center to install the manufacturer's CIID.
- J. If an IISP, subcontractor, or agent opens or relocates a service center, or the service center is operated by another entity, an IISP, subcontractor, or agent shall submit a new service center application for approval.
- K. An IISP shall use this process to reapply to the Department for a service center application.

**R17-5-622. Technician Application**

- A. On approval by the Department of an IISP's service center application, an IISP shall submit to the Department for approval, a properly completed technician application with the following information:
  - 1. Name of the technician;
  - 2. The technician's date of birth;
  - 3. The technician's residence address;
  - 4. The technician's driver license number;
  - 5. Name of the service center where the technician is employed;
  - 6. Location of the service center where the technician is employed; and
  - 7. The following statements signed by the technician and the IISP:

## CHAPTER 5. DEPARTMENT OF TRANSPORTATION - COMMERCIAL PROGRAMS

- a. A statement that all information provided on the application form, including all information provided on any attachment to the application form is complete, true, and correct;
  - b. A statement that the technician and the IISP agree to indemnify and hold harmless from all liability the state of Arizona and any department, division, agency, officer, employee, or agent of the state of Arizona;
  - c. A statement that the technician agrees to comply with all requirements in these rules; and
  - d. A statement that the IISP agrees to immediately notify the Department of any change to the information provided on the application form.
- B.** The Department shall process a technician's application only if a technician meets all applicable application requirements.
- C.** The Department shall, within 10 days of receiving a technician application, provide notice to the applicant that the application is either complete or incomplete.
- 1. The date of receipt is the date the Department receives the application.
  - 2. If an application is incomplete, the notice shall specifically identify the required information that is missing.
- D.** An applicant with an incomplete application shall provide all missing information to the Department within 15 days of the date on the Department's notice.
- 1. After receiving all of the required information, the Department shall notify the applicant that the application is complete.
  - 2. The Department may deny approval of a technician application if the applicant fails to provide the required information within 15 days of the date on the notice.
- E.** The Department shall render a decision on a technician application within 30 days of the date indicated on the notice acknowledging receipt of a complete application provided to the IISP under subsections (C) or (D).
- F.** For the purpose of A.R.S. § 41-1073, the Department establishes the following time frames for processing an application for approval of a technician:
- 1. Administrative completeness review time frame: 10 days.
  - 2. Substantive review time frame: 30 days.
  - 3. Overall time frame: 40 days.
- G.** If an IISP and the IISP's technician are no longer authorized by a manufacturer to install its CIID, the IISP shall notify the Department within 24 hours.
- H.** An IISP shall be the authorized representative of a specific manufacturer that has an authorization agreement in effect for a technician to service the manufacturer's CIID.
- I.** An IISP shall submit a separate technician application when an IISP hires a new technician.
- J.** After the Department approves a technician, the Department will assign to each technician, a unique technician identification number to identify each technician who installs, calibrates, inspects, or removes a CIID.
- K.** An IISP shall use this process to reapply to the Department for a technician application.

**R17-5-706. Calibration Check; Requirements**

- A. An IISP-certified technician shall inspect, maintain, and check each CIID for calibration accuracy and operational performance before the device is placed into, or returned to service.
- B. A person with a CIID installed on a motor vehicle is responsible for obtaining a calibration check of the CIID by the IISP's technician at the IISP's service center within every 77 to 90-day period after device installation, and every 77 to 90 days thereafter, during the person's ignition interlock period.
- C. An IISP-certified technician shall perform a calibration check at the IISP's service center at least once every 90 days after device installation, and at least every 90 days thereafter.

- D. The calibration check performed under R17-5-610 shall include an inspection of the device to verify that it is properly functioning in accordance with all of the following criteria:

1. Accuracy standards as prescribed under R17-5-603;
  - a. The device shall be calibrated before placed into, or returned to service.
  - b. The calibration test shall consist of introducing to the device a known alcohol concentration from a reference sample device, the analysis of which indicates the device's agreement with the known concentration. The manufacturer's software shall be capable of performing, documenting, and reporting the result of this calibration test. The calibration test result shall verify the accuracy of the ignition interlock device according to the standards prescribed under R17-5-603; and
2. Anticircumvention standards and operational features as prescribed under R17-5-603.

- E. The calibration test referenced under subsection (D) shall be performed when the information uploaded from a device indicates that the device has experienced an interruption in service or was completely disconnected. Additionally, the complete device, including the camera and its connection to the vehicle, shall be examined for evidence of tampering while it is still attached to the vehicle. An IISP shall document or photograph any evidence of tampering or circumvention and submit the documentation to the Department as required by these rules and A.R.S. Title 28, Chapter 4, Article 5.
- F. If calibration confirmation test results reveal that the device is not properly calibrated, the device shall be recalibrated to restore the accuracy standards prescribed under R17-5-603 before the device is returned to service.
- G. At least once every 90 days, a technician shall perform a physical inspection of the ignition interlock device, including an anticircumvention check, while it is still attached to the vehicle.
- H. A technician shall perform a physical inspection of the ignition interlock device any time an early recall occurs.
- I. If at any time an individual device model fails to meet the provisions of this Section, the manufacturer, IISP, or IISP-certified technician, as appropriate, shall either:
  1. Repair, recalibrate, and retest the device model to ensure that it does meet all applicable standards; or
  2. Remove the device model from service.

## TITLE 21. CHILD SAFETY

## CHAPTER 5. DEPARTMENT OF CHILD SAFETY - PERMANENCY AND SUPPORT SERVICES

Authority: A.R.S. § 8-453(A)(5)

*Editor's Note: Chapter 5 contains rules which were exempt from the regular rulemaking process under Laws 2014, 2nd Special Session, Ch. 1, Sec. 158. The law required the Department to post on its website proposed exempt rulemakings for a minimum of 30 days, at which time the public could provide written comments. In addition, at least two public hearings were held prior to the filing of the final exempt rules. Because the Department solicited comments on its proposed exempt rules, the rules filed with the Office of the Secretary of State are considered final exempt rules (Supp. 15-4).*

## CHAPTER 5. DEPARTMENT OF CHILD SAFETY - PERMANENCY AND SUPPORT SERVICES

**ARTICLE 1. INTERSTATE COMPACT ON THE PLACEMENT OF CHILDREN****R21-5-101. Definitions**

The definitions contained in A.R.S. § 8-548 and the following definitions apply in this Article:

1. "Child" means any person less than the age of 18 years.
2. "Compact" or "ICPC" means the Interstate Compact on the Placement of Children.
3. "Compact Administrator" means the same as A.R.S. § 8-548.
4. "Compact State" means a state that is a member of the Interstate Compact on the Placement of Children.
5. "Department" or "DCS" means the Arizona Department of Child Safety.
6. "Interstate placement" means any movement of a child from one state to another state for the purpose of establishing a suitable living environment and providing necessary care.
7. "Intra-state placement" means the placement of a child within a state by an agency of that state.
8. "Placement" means the same as in A.R.S. § 8-548.
9. "Receiving state" means the same as in A.R.S. § 8-548.
10. "Sending agency" means the same as in A.R.S. § 8-548.
11. "Sending state" means the state where the sending agency is located, or the state in which the court holds exclusive jurisdiction over a child, which causes, permits, or enables the child to be sent to another state.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 2979, effective January 2, 2016 (Supp. 15-4).

**R21-5-102. Authority**

The ICPC is governed by A.R.S. §§ 8-548 through 8-548.06 and the ICPC regulations. ICPC regulations are posted on the Association of Administrators of the Interstate Compact on the Placement of Children website. These regulations supplement those authorities and must be read in conjunction with them.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 2979, effective January 2, 2016 (Supp. 15-4).

**R21-5-103. Conditions of Placement**

No person, court, or public or private agency in a Compact State shall place a child in another Compact State until the Compact Administrator in the receiving state has notified the Compact Administrator in the sending state, on a prescribed form, that such placement does not appear to be contrary to the interests of the child and does not violate any applicable laws of the receiving state.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 2979, effective January 2, 2016 (Supp. 15-4).

**R21-5-104. Financial Responsibility**

The sending person, court, or public or private agency shall be held financially responsible for:

1. Sending the child to the receiving state;
2. Returning the child to the sending state; and
3. Treatment of the child during the period of placement.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 2979, effective January 2, 2016 (Supp. 15-4).

**R21-5-105. Applicability**

A. Except as listed in subsection (B), the ICPC applies to the placement of:

1. Children in another Compact State by an agency, court or person, which has care or custody of the children.
  2. Foreign-born children who are brought under the jurisdiction of a Compact State by an international child placing agency.
- B. In addition to the children listed in statute that are not subject to ICPC, the ICPC does not apply:
1. When a child is placed in an institution caring for the mentally ill, mentally impaired, epileptic, or in any institution primarily educational in character or in any hospital or other medical facility.
  2. To the placement of children into and out of the United States when the other jurisdiction involved is a foreign country.
  3. When a sending court or agency seeks an independent (not ICPC related) courtesy check for placement with a parent from whom the child was not removed, the responsibility for credentials and quality of the courtesy check rests directly with the sending court or agency and the person or party in the receiving state who agrees to conduct the courtesy check without invoking the protection of the ICPC home study process. This does not prohibit a sending state from requesting an ICPC.
  4. The Compact does not apply in court cases of paternity, divorce, custody, and probate pursuant to which or in situations where children are being placed with parents or relatives or non-relatives.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 2979, effective January 2, 2016 (Supp. 15-4).

**R21-5-106. Placement Approval**

Sending and receiving states must obtain approval from the Compact Administrator in both the sending and receiving states prior to the placement of a child in another Compact State.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 2979, effective January 2, 2016 (Supp. 15-4).

**R21-5-107. Operations**

In providing services provided under this Article, the sending and the receiving state shall:

1. Maintain all information required by state and federal law.
2. Comply with all federal and their respective state laws and regulations regarding the disclosure and use of confidential health and personal information.
3. Comply with all federal and their respective state non-discrimination laws and regulations.
4. Ensure that interpreters, including assistance for the visually or hearing impaired, are available to those receiving services at no cost.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 2979, effective January 2, 2016 (Supp. 15-4).

**ARTICLE 2. INDEPENDENT LIVING AND TRANSITIONAL INDEPENDENT LIVING PROGRAMS****R21-5-201. Definitions**

The following definitions apply to this Article:

1. "Active participation" means the foster youth is demonstrating efforts toward completion of case plan goals such as regular attendance at school or employment that results in school credits or earned wages.
2. "Aftercare services" means assistance and support available to eligible, former foster youth living in Arizona

## CHAPTER 5. DEPARTMENT OF CHILD SAFETY - PERMANENCY AND SUPPORT SERVICES

- after the Department, tribal foster care, or other state foster care case is dismissed, and includes services available through the Transitional Independent Living Program.
3. "Age of majority" means that a person is at least 18 years old.
  4. "Approved living arrangement" means a residence that has been reviewed by the assigned Child Safety Worker or other responsible agency staff and approved within the individual case plan.
  5. "Arizona Young Adult Program" means a group of programs and services designed to assist eligible youth to make a successful transition to adulthood. The programs and services include Independent Living Services, the Independent Living Subsidy Program, Voluntary Out-of-home Care for Foster Youth 18 through 20 Years of Age, and the Transitional Independent Living Program.
  6. "Child placing agency" means the same as in A.R.S. § 8-501(A)(1)(a)(iii), and includes a Child Welfare Agency that OLR licenses as a Placing Agency to place a child in a licensed foster home, or facility.
  7. "Child Welfare Agency" means the same as in A.R.S. § 8-501.
  8. "Child Safety Worker" means the same as in A.R.S. § 8-801.
  9. "Custody of the Department" means that the foster youth:
    - a. Is in out-of-home care under the supervision of the Department while the subject of a dependency petition, as an adjudicated dependent, or placed voluntarily under A.R.S. § 8-806; or
    - b. Is 18, 19, or 20 years of age, a resident of Arizona, and has signed an individual case plan agreement for voluntary out-of-home care. This includes foster youth who were dually adjudicated (dependent and delinquent) and released from a secure setting prior to, or on the foster youth's 19th birthday.
  10. "Department" or "DCS" means the Arizona Department of Child Safety.
  11. "Eligible youth" means a person who meets the qualifications in A.R.S. § 8-521 for the Independent Living Program, the qualifications in A.R.S. § 8-521.01 for the Transitional Independent Living Program, or is a person who was formerly in another state's child welfare program who would otherwise be eligible.
  12. "Employment" means:
    - a. Paid employment;
    - b. Participation in employment-readiness activities, which include career assessment and exploration, and part time enrollment in an employment or career readiness education program;
    - c. Volunteer positions;
    - d. Job-shadowing;
    - e. Internship; or
    - f. Other paid or unpaid employment-related activities.
  13. "Extraordinary purchase" means an expenditure by an eligible youth that impedes an eligible youth's ability to meet the financial obligations outlined in the eligible youth's budget.
  14. "Foster youth" means a person in the custody of the Department.
  15. "Full-time student" means an eligible youth enrolled in an education program identified by the program as being full-time due to the number of credits, credit hours, or other measure of enrollment.
  16. "Independent Living Program" means the program authorized by A.R.S. § 8-521 to provide an Independent Living Subsidy and educational case management to a foster youth.
  17. "Independent Living Services" or "IL Services" means an array of assistance and support services, including those provided under the Independent Living Program, that the Department provides, contracts, refers, or otherwise arranges that are designed to help a foster youth transition to adulthood by building skills and resources necessary to ensure personal safety, well-being, and permanency into adulthood.
  18. "Independent Living Subsidy" or "IL Subsidy" means a monthly stipend provided under the Independent Living Program to a foster youth, to assist in meeting monthly living expenses. This stipend replaces any foster care maintenance payment from the Department for support of the foster youth's daily living expenses.
  19. "Individual case plan" means an agreement between an eligible foster youth and the Department, directed by the foster youth that documents specific services and assistance that support the foster youth's goals in relation to:
    - a. Natural supports including permanent connections to and relationships with family and community, including peer and community mentors;
    - b. A safe, stable, desired living arrangement, which may include a permanent arrangement such as guardianship or adoption;
    - c. Daily living skills;
    - d. Secondary and postsecondary education and training;
    - e. Employment and career planning;
    - f. Physical health, including reproductive health;
    - g. Life care planning;
    - h. Emotional health;
    - i. Mental health;
    - j. Spiritual or faith needs;
    - k. Interpersonal relationships; and

    - a. Financial,
    - b. Housing,
    - c. Counseling,
    - d. Employment,
    - e. Education, and
    - f. Other appropriate support and services.
  21. "Life skills assessment" means a measure of an eligible youth's ability to function in a variety of areas such as daily living skills, knowledge of community resources, and budgeting, as determined by a validated assessment tool.
  22. "Medical professional" means a doctor of medicine or osteopathy, physician's assistant, or registered nurse practitioner licensed in A.R.S. Title 32, or a doctor of medicine licensed and authorized to practice in another state or foreign country. A medical professional from another state or foreign country must provide verification of valid and current licensure in that state or country.
  23. "Misuse of funds" means that an eligible youth has expended money provided by the Department for specific purposes (such as education or living expenses) on an item that is not permitted by law (such as illegal drugs and alcohol), or on an extraordinary purchase that is not included in an approved budget or individual case or ser-

vice plan, to the degree that the funds are not available for necessary items and purchases approved within the case plan, service plan, or budget.

24. "Natural supports" means relationships and connections that occur in everyday life, independent of formal services, with people or groups who provide personal or other support during a person's lifetime.
25. "Out-of-home care" means a placement approved by the Department such as a licensed foster home, residential group care facility operated by a Child Welfare Agency, therapeutic residential facility, independent living setting, approved unlicensed independent living setting, or in a relative or non-relative placement. Out-of-home care excludes a detention facility, forestry camp, training school, or any other facility operated primarily for the detention of a child who is determined delinquent.
26. "Personal Crisis" means an unexpected event or series of events in an eligible youth's life that prevents or impedes participation in scheduled services or activities.
27. "Residential group care facility" means a Child Welfare Agency that is licensed to receive more than five children for 24-hour social, emotional, or educational supervised care and maintenance at the request of a child, child placing agency, law enforcement agency, parent, guardian, or court. A residential group care facility provides care in a residential setting for children for an extended period of time.
28. "Responsible agency staff" means the assigned Child Safety Worker, another identified Department employee, or contracted staff.
29. "Service team members" means the eligible youth, the youth's attorney(s), the Guardian ad Litem (GAL), the Court Appointed Special Advocate (CASA), tribal child welfare staff, other parties to the dependency case, contract, or other service providers, responsible agency staff, and other adults involved with the youth or supporting the youth's activities or employment.
30. "Substantial non-compliance" means an eligible youth's:
  - a. Termination from an educational, vocational, or employment program due to lack of attendance or failure to make satisfactory progress as defined by the program for reasons unrelated to physical health including pregnancy, emotional, or mental health;
  - b. Persistent lack of communication during a 60-day period with the assigned Child Safety Worker or other responsible agency staff known to the youth that results in a loss of contact with the eligible youth, or interferes with the Department's ability to provide services and supervision or to document individual case plan or service plan progress;
  - c. Persistent misuse of funds provided to support individual case plan or service plan goals; or
  - d. For an eligible foster youth, failure to communicate unexpected changes in the living arrangement as agreed to in the individual case plan or the Independent Living Subsidy agreement.
31. "Transitional Independent Living Program" or "TIL Program" means a program of services for residents of Arizona who are eligible youth under A.R.S. § 8-521.01, that provides assistance and support in counseling, education, vocation, employment, and the attainment or maintenance of housing.
32. "Transitional Independent Living Services" or "TIL Services" means those services the Department provides through the Transitional Independent Living Program under A.R.S. § 8-521.01, and may include assistance and

support with health care, money management, housing, counseling, education, vocational training, and employment. The Department or its contractors provide services through a written agreement with the eligible youth.

33. "Validated assessment tool" means a written or verbal survey tool that can demonstrate empirical evidence for reliability and validity.
34. "Work day" means Monday through Friday, excluding Arizona state holidays.
35. "Young Adult Transitional Insurance" means a category of health care coverage under the state Medicaid program (Arizona Health Care Cost Containment System or AHCCCS) for Medicaid eligible youth who have reached the age of majority in foster care.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4). Amended by emergency rulemaking at 25 A.A.R. 771, effective March 21, 2019, for 180 days (Supp. 19-1). Emergency amendments renewed at 25 A.A.R. 2485, for an additional 180 days effective September 18, 2019 (Supp. 19-3). Emergency expired; amended by final rulemaking at 26 A.A.R. 241, effective March 15, 2020 (Supp. 20-1).

**R21-5-202. Provision of Services**

- A. The Department shall provide services and stipends for the IL Services, IL Subsidy, and TIL services to eligible youth in a manner that is fair and equitable.
- B. The Department shall provide Independent Living Services to eligible foster youth based on needs identified by the eligible foster youth, by service team recommendations, or the findings of a life skills assessment. The services shall address needs identified in the eligible foster youth's individual case plan and may include one or more of the following, depending on the individual case plan goals:
  1. Information and assistance to create and maintain a network of natural supports;
  2. Independent living skills training;
  3. Program incentives;
  4. Information and assistance in life care and health care planning, including enrollment in a health plan;
  5. Educational, career, and vocational planning;
  6. Financial assistance for post-secondary education and training;
  7. Out-of-home care for foster youth 18 through 20 years of age; or
  8. Aftercare services through the Transitional Independent Living Program.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).

**R21-5-203. Denial of Services**

The Department shall deny services if a person does not meet the eligibility requirements of A.R.S. §§ 8-806, 8-521, 8-521.01, and R21-5-204.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).

**R21-5-204. Eligibility**

- A. Independent Living Services. In order to be eligible for IL Services a person shall:
  1. Be at least 16 years of age and less than 21 years of age;

## CHAPTER 5. DEPARTMENT OF CHILD SAFETY - PERMANENCY AND SUPPORT SERVICES

2. Be in the custody of the Department or tribal child welfare agency;
  3. Reside in out-of-home care;
  4. Be referred by the eligible youth's assigned Child Safety Worker, other Department staff, or a tribal social services representative; and
  5. Be a resident of Arizona if 18, 19, or 20 years of age.
- B. Independent Living Subsidy.**
1. In order to be eligible for the IL Subsidy, a person shall:
    - a. Be at least 17 years of age, in the custody of the Department, and employed or a full-time student.
    - b. With the assistance of the responsible agency staff, complete the Independent Living Subsidy Agreement or other approved forms designated by the Department.
  2. Conditions for approval and continuation in the Independent Living Subsidy Program include:
    - a. Active participation in activities outlined in the individual case plan;
    - b. Adherence to the terms of the IL Subsidy Agreement, including:
      - i. Communication with the Child Safety Worker;
      - ii. Maintenance of a Department-approved living arrangement, including approval of a roommate, except those assigned by school or work; and
      - iii. Participation in scheduled meetings to review progress and update the individual case plan and IL Subsidy Agreement.
  3. Eligible youth 18, 19, and 20 years of age who are temporarily residing out of state for the purpose of education or vocational training, and who maintain Arizona residency, may receive the Independent Living Subsidy under the same conditions as above.
- C. Transitional Independent Living Program.** Under A.R.S. § 8-521.01, in order to be eligible for the Transitional Independent Living Program, a person must be less than 21 years of age and have been in out-of-home care and in the custody of the Department, a licensed residential group care facility, or a tribal child welfare agency while 16, 17, or 18 years of age. Persons who were in another state's child welfare agency under the same conditions are also eligible.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).

**R21-5-205. Out-of-home Care Services for Foster Youth 18 through 20 Years of Age**

- A.** The Department may provide out-of-home care services and supervision to a foster youth less than 21 years of age, who reached the age of 18 years while in the custody of the Department, and was either in out-of-home care or in secure care, as defined by A.R.S. § 8-201, through a delinquency action, when the foster youth:
1. Requests out-of-home care;
  2. Has residency in the state of Arizona;
  3. Participates in developing an individual case plan agreement for out-of-home care; and
  4. Demonstrates acceptance of personal responsibility for his or her part of the agreement through active participation in the individual case plan.
- B.** The foster youth, Child Safety Worker, and involved service team members shall develop the individual case plan for out-of-home care:

1. Within the 90-day period prior to the foster youth's 18th birthday for foster youth continuing in out-of-home care past 18 years of age;
  2. Within ten work days for foster youth who enter out-of-home care during the 90-day period prior to the foster youth's 18th birthday; and
  3. For eligible youth re-entering foster care at 18 years of age or older, within seven work days of the eligible youth's return to Department care and supervision.
- C.** The individual case plan shall outline the services and supports to be provided under R21-5-202(B) and include at least one of the following activities:
1. Completion of secondary education or a program leading to an equivalent credential;
  2. Enrollment in an institution that provides post-secondary education or vocational education;
  3. Participation in a program or activity designed to promote or remove barriers to employment; or
  4. Employment of at least 80 hours per month.
- D.** Foster youth participating in out-of-home care shall demonstrate acceptance of personal responsibility by actively participating in an individual case plan, unless prevented by a documented behavioral health or medical condition, or other personal crisis or life event, such as pregnancy, birth, necessary maternity leave as determined by a medical professional, adoption, or guardianship of a child.
- E.** The Child Safety Worker shall support the foster youth to address any documented condition, crisis, or life event listed in subsection (D), by:
1. Facilitating a youth led discussion that includes a review of the supports and services available as intervention strategies, to assist in resolving the condition, crisis, or concern;
  2. Documenting the foster youth's preferred intervention strategy for addressing the condition, crisis, or concern; and
  3. Expeditiously providing or otherwise arranging the preferred intervention strategy.

**R21-5-206. Transitional Independent Living Program**

- A.** The Transitional Independent Living Program provides services to eligible youth, under A.R.S. § 8-521.01 that complements their own efforts toward becoming self-sufficient. The Department may provide the following assistance, depending on individual service plan goals:
1. Financial,
  2. Housing,
  3. Counseling,
  4. Employment,
  5. Education, and
  6. Other appropriate support and services.
- B.** The eligible youth requesting services through the Transitional Independent Living Program shall provide the following information to the responsible agency staff:
1. Identifying information including:
    - a. Name (and any aliases); and

## CHAPTER 5. DEPARTMENT OF CHILD SAFETY - PERMANENCY AND SUPPORT SERVICES

- b. Date of birth;
- 2. Information regarding the eligible youth's former foster care status such as the state or tribal child welfare system where the youth was in care, and approximate dates of care, if known; and
- 3. Any available contact information for the youth, including:
  - i. Phone number,
  - ii. Friend or family phone number,
  - iii. Email address, and
  - iv. Any other communication method identified by the youth.
- C. An eligible youth and responsible agency staff shall develop an individual service plan for the eligible youth to receive these services.
- D. The individual service plan shall address the level of need based on the items noted in subsection (A).

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).

**R21-5-207. Re-entry Into Out-of-home Care**

- A. The Department shall facilitate re-entry into out-of-home care for eligible youth participating in the Transitional Independent Living Program.
- B. On request for re-entry by the eligible youth, the Department shall confirm the eligible youth's request to receive out-of-home care, supervision, and other services with the youth and within ten work days:
  - 1. Facilitate a meeting with the eligible youth to review the requirements under R21-5-205;
  - 2. Assist the eligible youth to develop an individual case plan that includes an effective date for reopening the Department case;
  - 3. Identify the name and contact information of the Child Safety Worker or responsible agency staff assigned to the case;
  - 4. Identify the out-of-home care type selected such as, foster home, residential group care facility, Independent Living Program, or other arrangement;
  - 5. Notify the identified Child Safety Worker or responsible agency staff assigned to the case; and
  - 6. Complete all necessary authorizations for out-of-home care and other services to reasonably ensure a smooth transition from the TIL Services to the IL Services.
- C. If the eligible youth reports he or she is in crisis and unsafe, the Department shall immediately assess the youth's safety and assist the youth to secure a safe living arrangement and to manage the crisis.
- D. An eligible youth may request to postpone re-entry, decline re-entry at any time, or re-initiate the request any time prior to the eligible youth's 21st birthday. The responsibilities of the Department to process the request for re-entry shall begin upon the Department's receipt of the eligible youth's request for re-entry under subsection (B).
- E. Supports and services shall continue for youth who re-enter out-of-home care, as outlined in R21-5-205.
- F. If the Department denies re-entry, the Department shall provide the youth with written notification of the reason for this decision and the youth's grievance and appeal rights within 15 work days of the request for re-entry.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).

**R21-5-208. Termination of Services**

- A. The Department may terminate IL Services, including out-of-home care for foster youth 18 through 20 years of age, and TIL services if the eligible youth:
  - 1. Reaches the age of 21 years;
  - 2. Reaches the age of 18 years and does not desire continued services;
  - 3. Makes a voluntary decision to terminate services; or
  - 4. Demonstrates substantial non-compliance or otherwise refuses to meet the requirements of the individual case plan or individual service plan after the responsible agency staff or designee has made active efforts to engage the eligible youth in identifying and resolving issues, including assessing the effectiveness of current services, and identifying and providing additional or different support services.
- B. The Department shall deny IL Services, including out-of-home care for foster youth age 18 through 20 years, and TIL services if the Department determines the person is:
  - 1. Not eligible;
  - 2. Unwilling to create an individual case or service plan; or
  - 3. Not participating in the individual case or service plan.
- C. The Child Safety Worker or responsible agency staff shall notify the person in writing of the Department's decision to terminate or deny services within ten work days of the person's application for services.
- D. The notice shall include information on the person's right to grieve any decision to terminate or deny services.
- E. Within ten work days of the notice to terminate or deny services, the Child Safety Worker or responsible agency staff shall contact the person to:
  - 1. Assist the person through the grievance process including the completion and submittal of any required Department forms; or
  - 2. Identify and engage a personal advocate to assist the person through the grievance process, including the completion and submittal of any required Department forms.
- F. When termination of services to a foster youth is planned due to one of the reasons outlined in (A)(1) through (3) of this Section, the Child Safety Worker or responsible agency staff shall schedule a discharge staffing with the foster youth within ten work days of the foster youth's 21st birthday or the Department's receipt of the foster youth's notice to discontinue services to provide any necessary documents not previously provided, such as a birth certificate, social security card, state identification card, credit report, and a copy of the foster youth's health and education records.
- G. The Department shall not terminate services for substantial non-compliance under subsection (A)(4) until the Child Safety Worker or responsible agency staff satisfies all responsibilities including:
  - 1. Staffing of the individual case or service plan;
  - 2. Adhering to the grievance process described in R21-5-209; and
  - 3. Developing and implementing a discharge plan that provides information on available community resources, and connects the person to those resources.
- H. Services shall remain in effect until the reasons for termination are resolved or the grievance or appeal process is completed.
- I. For Independent Living Subsidy only, if the Department determines that continuation of the Independent Living Subsidy would place the foster youth at risk of immediate harm, the Child Safety Worker or responsible agency staff shall:
  - 1. Document this fact in the case file progress notes, and

## CHAPTER 5. DEPARTMENT OF CHILD SAFETY - PERMANENCY AND SUPPORT SERVICES

2. Arrange for a safe living arrangement and sufficient support services to reasonably ensure the foster youth's safety in the interim.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).

**R21-5-209. Grievance Process**

- A. A person eligible for services under R21-5-204 who disagrees with a Department adverse action decision to reduce, terminate, or deny services for that person may:
  1. File a grievance under this Section;
  2. Choose not to file a grievance and appeal the adverse action under A.A.C. Title 21, Chapter 1, Article 3 by filing a notice of appeal within 20 days after receipt of the adverse action decision reducing, terminating, or denying services; or
  3. File a grievance, and if the person is dissatisfied with the results of the grievance process, appeal under A.A.C. Title 21, Chapter 1, Article 3 by filing a notice of appeal within 20 days after receipt of the grievance response letter.
- B. In the event that a person disagrees with a Department decision to reduce, terminate, or deny services, the Child Safety Worker or responsible agency staff shall:
  1. Inform the person of the formal grievance process;
  2. Provide the person with the Department's grievance form and directions for submittal to the designated Department staff, such as the Department's Ombudsman's Office; and
  3. Offer to assist the person in completing and submitting the form, or referring the person to the appropriate Department staff, such as the Department's Ombudsman, for assistance in completing and submitting the form.
- C. Upon receipt of the grievance form, the Department shall:
  1. Schedule a face-to-face meeting with the person who filed the grievance within seven work days from the date the grievance was received by the Department, or schedule a teleconference if a face-to-face meeting is not possible;
  2. Evaluate the grievance to determine if the grievance can be resolved by the Department to the satisfaction of the person;
  3. Mail a grievance response letter to the person within three work days of the meeting; and
  4. Include an appeal form with the grievance response letter so the person may appeal the adverse action.
- D. If the person agrees with the Department's decision to terminate services, the Child Safety Worker or responsible agency staff shall proceed with case closure including completing a discharge plan with the person that includes information on aftercare services and other community based support.
- E. The Department shall retain documentation of all grievances in the case file according to the Department's retention schedule.

12. "Birth parent" means the biological mother or father of a child.
13. "Central Registry" means the information maintained by the Department of substantiated reports of child abuse or neglect for the purposes of A.R.S. § 8-804.
14. "Certification application" means the form that an applicant submits to an adoption entity or to the court to request a certification investigation to become certified as an adoptive parent.
15. "Certification investigation" means the process referred to in A.R.S. § 8-105(C) by which an adoption entity determines if an applicant is a fit and proper person to adopt.
16. "Certification order" means a judicial determination that an applicant is acceptable to adopt children.
17. "Certification report" or "adoptive home study" means the written report described in A.R.S. § 8-105, in which an adoption entity summarizes the results of a certification investigation and makes a recommendation for or against certification of an applicant.
18. "Child with special needs" means a child who has one of the special needs listed in A.R.S. § 8-141.
19. "Department" or "DCS" means the Arizona Department of Child Safety.
20. "Developmentally appropriate" means an action that takes into account:
  - a. A child's age and family background;
  - b. The predictable changes that occur in a child's physical, emotional, social, cultural, and cognitive development; and
  - c. A child's pattern and history of growth, personality, and learning style.

## CHAPTER 5. DEPARTMENT OF CHILD SAFETY - PERMANENCY AND SUPPORT SERVICES

21. "Direct placement" means the child is placed in an adoptive home by the birth parent or legal parent.
  22. "Final report to the court" means a written report that includes a social study under A.R.S. § 8-112, in which an adoption entity advises the court of the entity's assessment and recommendations about the finalization of a particular adoption.
  23. "Foster parent" means the same as in A.R.S. § 8-501.
  24. "ICPC" means the Interstate Compact on the Placement of Children described in A.R.S. § 8-548.
  25. "ICWA" means the Indian Child Welfare Act described in 25 U.S.C. 1901 et seq.
  26. "Legally available" means a child whose birth or legal parents are deceased, have voluntarily relinquished their parental rights, or whose parental rights have been terminated by the court.
  27. "License" means a permission granted by the Department to an adoption agency authorizing the adoption agency to perform adoption services in A.A.C. R21-9-201(B).
  28. "Open adoption" means an adoption in which the adoptive parent and the birth or legal parent agree to share varying degrees of each other's personal information for future contact.
  29. "Out-of-state agency" means any person or entity that is authorized or licensed by a state other than Arizona, or a foreign country, to perform adoption services.
  30. "Placed child" means an adoptable child who has been placed with an adoptive parent, and the adoptive parent has not yet filed a petition to adopt the child.
  31. "Placement supervision period" means the time period from the date of adoption placement until the court enters a final order of adoption, during which the adoptive parent has the rights under A.R.S. § 8-113.
  32. "Reasonable fee" means
    - a. A fee commensurate with:
      - i. The actual cost of providing a specific adoption service or item to a specific individual, or
      - ii. The average cost of a service or item if the adoption entity routinely uses an averaging method to determine the cost of a particular service or item.
    - b. A reasonable fee may include reasonable compensation for officers and employees and a reasonable profit margin above actual or averaged costs.
  33. "Service plan" means a written document of developmentally appropriate pre-placement and post-placement services necessary to facilitate a child's transition to an adoptive home.
  34. "Social study" means the written report described in A.R.S. § 8-112, after a petition for adoption has been filed, where the adoption entity summarizes the results of its investigation, and makes a definite recommendation for or against the proposed adoption and the reasons for that recommendation.
  2. The adoptive parent's certification status,
  3. The adoptive parent's availability for adoptive placement, and
  4. The type of child the adoptive parent is open to considering for adoption including:
    - a. Age;
    - b. Sex; or
    - c. Special needs.
- B.** Upon request, the Department shall provide personally identifiable Adoption Registry information to:
1. The court;
  2. An adoption agency, including a private attorney;
  3. Under a court order, a National or Regional Adoption registry and exchange; and
  4. An out-of-state agency.
- C.** Before providing information, the Department shall obtain, from the person requesting the information, the following:
1. The name and affiliation of the person requesting the information;
  2. The reason for the request; and
  3. If the requesting party is other than a court representative, a signed statement acknowledging that the information is confidential and promising not to release the information to anyone except as allowed by A.R.S. §§ 8-120, 8-121, and 8-105.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).

**R21-5-303. Department Adoption Services**

- A.** The Department provides the following adoption services for families and children in accordance with the limitations and provisions of A.R.S. Title 8, Chapter 1, Article 1:
1. For families:
    - a. Recruiting adoptive parents;
    - b. Informing persons interested in adopting a child about the adoption process;
    - c. Conducting certification investigations of applicants under A.R.S. § 8-105;
    - d. Preparing certification reports under A.R.S. § 8-105; and
    - e. Submitting the names and profiles of adoptive parents for listing in the Adoption Registry.
  2. For children:
    - a. Accepting adoption consents from birth parents;
    - b. Preparing non-identifying, pre-placement information on adoptive children for adoptive parents, as required in A.R.S. § 8-129;
    - c. Submitting the name and profile of an adoptive child for listing in the Adoption Registry;
    - d. Preparing a child for adoptive placement;
    - e. Matching an adoptable child with an adoptive parent;
    - f. Placing an adoptable child in the home of an adoptive parent;
    - g. Investigating and reporting to the court on the acceptability of an adoptive parent under A.R.S. § 8-105(H);
    - h. Monitoring an adoption placement during the placement supervision period;
    - i. Providing services to a child placed for adoption and the adoptive family to assist with adjustment to the adoption placement;
    - j. Conducting a social study under A.R.S. § 8-112 and preparing a final report to the court determining suitability of placement; and

**R21-5-302. Adoption Registry: Information Maintained; Confidentiality**

- A.** The Department shall maintain and keep current the Adoption Registry with the information required under A.R.S. § 8-105. The Adoption Registry shall include the following current information for each child or adoptive parent listed on the Adoption Registry:
1. The child's availability for adoptive placement,

## CHAPTER 5. DEPARTMENT OF CHILD SAFETY - PERMANENCY AND SUPPORT SERVICES

- k. Assisting an attorney by providing legal documents to enable an adoptive parent to complete the adoption process.
- B. When performing adoption services, the Department shall adhere to the standards established for an adoption agency in 21 A.A.C. 9.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).

**R21-5-304. Department Procedures for Processing Certification Applications**

- A. Upon review of a certification application, the Department shall notify the applicant in writing that the application is either complete or incomplete. An application is complete when it contains the information and supporting documentation described in R21-5-404. If the application is incomplete, the notice shall specify what information is missing.
- B. An applicant with an incomplete application has 30 days from the date of the notice to provide the missing information. If the applicant fails to do so, the Department may close the file. An applicant whose file has been closed and who later wishes to apply for certification may reapply.
- C. Upon review of a complete application, the Department shall decide whether to accept the application, according to the priority schedule listed in R21-5-305, and the availability of the Department's resources. If the Department cannot accept the application, the Department shall return the original application and all supporting documentation to the applicant. The applicant may reapply.
- D. After the Department accepts the completed application, the Department shall provide the applicant written notice of the acceptance. The Department shall complete the certification investigation as specified in R21-5-405 within 90 days of the date of the notice. The Department shall prepare a certification report under R21-5-406.
- E. The Department shall process a renewal application under this Section and R21-5-407.

**Historical Note**

**R21-5-305. Department Priorities for Receipt of Services**

The Department shall accept and process certification applications and render adoption services according to the following priority schedule:

- 1. An applicant for whom the court has ordered the Department to do a certification investigation and report;
- 2. An applicant seeking to adopt a particular adoptable child with special needs;
- 3. An applicant wishing to adopt a child with special needs;
- 4. An applicant considering adopting a child with special needs; and
- 5. All other applicants.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).

**R21-5-306. Department Recruitment Efforts**

The Department shall actively recruit persons to adopt children with special needs by:

- 1. Publicizing the need for such adoptive parents;
- 2. Registering adoptable children, as appropriate, with the Adoption Registry or other local, state, regional and national adoption resources;
- 3. Advising prospective adoptive parents of:

- a. The availability of children with special needs,
- b. The procedures involved in adopting such children, and
- c. The support services and subsidies that may be available to persons adopting such children; and
- 4. Other measures similar to those described in this Section.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).

**R21-5-307. Expired****Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).  
Section expired under A.R.S. § 41-1056(J) at 26 A.A.R. 1322, effective June 3, 2020 (Supp. 20-2).

**R21-5-308. Termination of Adoption Services**

- A. The Department may terminate services to an applicant or adoptive parent when:
  - 1. The adoption is finalized;
  - 2. The applicant or adoptive parent requests closure before receiving a child for placement;
  - 3. The applicant or adoptive parent ceases to be a resident of Arizona before receiving a child for placement;
  - 4. The court declines to certify the applicant or adoptive parent;
  - 5. The applicant or adoptive parent refuses to comply with the requirements in A.R.S. Title 8, Chapter 1, Article 1, or this Chapter, Articles 3 and 4;
  - 6. The applicant fails to submit a completed certification application within 90 days of the date on which the Department sent the person an application form;
  - 7. The adoptive parent is no longer willing to be an adoptive parent; or
  - 8. The adoptive parent is no longer certified to adopt.
- B. The Department may terminate adoption services to an adoptive child when:
  - 1. The court issues a final adoption order; or
  - 2. The court determines that adoption is no longer the most appropriate case plan for the child, and the Department provides alternate services consistent with the child's new case plan.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).

**ARTICLE 4. ADOPTION ENTITY SERVICES****R21-5-401. Definitions**

The definitions in R21-5-301 apply in this Article.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).

**R21-5-402. Recruitment**

- A. When recruiting applicants, an adoption entity shall comply with the requirements of this Section.
- B. The adoption entity shall conduct recruitment efforts pursuant to a written plan, which shall describe:
  - 1. Specific recruitment goals, including:
    - a. The number and composition of adoptive parents the entity will serve; and
    - b. The children the entity will accept for placement and any limitations such as:
      - i. Age;
      - ii. Medical special needs;

## CHAPTER 5. DEPARTMENT OF CHILD SAFETY - PERMANENCY AND SUPPORT SERVICES

- iii. Developmental special needs;
    - iv. Mental health; or behavioral health special needs.
  - 2. Methods of recruitment;
  - 3. The number and professional qualifications of staff designated to handle recruitment; and
  - 4. The means by which the adoption entity shall fund the agency's recruitment efforts.
- C. The adoption entity's recruitment efforts shall be consistent with the personal characteristics of the children the entity has available for adoption and reasonably expects will become available for adoption through the entity.
- D. An adoption entity shall not:
- 1. Promise to place more children than the adoption entity's prior history shows it can reasonably expect to place;
  - 2. Promise to place a child in less time than the average waiting period demonstrated by the adoption entity's past practice;
  - 3. Promise adoption subsidy prior to the formal approval and receipt of an adoption assistance agreement that meets the requirements of A.R.S. Title 8 Chapter 1 Article 2; or
  - 4. Make any other statements or promises the entity knows or reasonably should know are false, misleading, or inaccurate.
- E. The Department may take an adverse licensing action against an adoption agency that does not comply with this Section.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).

**R21-5-403. Orientation: Persons Interested in Adoption**

- A. Prior to accepting a certification application from a person considering the adoption of a child, or an application for placement from a person who intends to seek a placement through the adoption entity, an adoption entity shall provide the person with an adoption orientation, which shall explain the following:
- 1. The adoption process, including all legally mandated procedures, and estimated time-frames for completion of such procedures;
  - 2. The adoption entity's policies and procedures that directly affect services to adoptive parents;
  - 3. The adoption entity's fee structure and written fee agreement;
  - 4. The types and number of children the agency typically has had and reasonably expects to have available for adoption placement and the average length of time between certification and placement;
  - 5. The Department's responsibility for licensing and monitoring agencies, and the public's right to register a complaint about an agency as prescribed in 21 A.A.C. 9, Article 2;
  - 6. The function of the Adoption Registry and the adoptive parent's right to decide whether to be included in the Adoption Registry; and
  - 7. Confidentiality requirements, open adoptions, and the confidential intermediary program described in A.R.S. § 8-134.
- B. A person who is already knowledgeable about all or part of the matters listed in subsection (A) may waive orientation on those matters, with the approval of the adoption entity. A person may be knowledgeable due to a prior adoption through an Arizona adoption entity, employment in adoption services, or for other similar reasons.

- C. An adoption entity shall maintain written documentation showing that any person who has applied to the entity for certification or for placement of a child has received the orientation described in subsection (A), required by R21-9-227, or has obtained a waiver described in subsection (B). If some or all of the adoption orientation is waived, the adoption entity shall document the matters waived and the reasons for the waiver.
- D. An adoption entity shall not charge a person for anything other than a certification application fee, or enter into an adoption fee agreement with a person, until the person has received the orientation in subsection (A).

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).

**R21-5-404. Application for Certification**

An applicant who wishes to become certified as an adoptive parent shall apply for certification as provided in A.R.S. § 8-105. An adoption entity shall require an applicant to provide at least the following information:

- 1. Personally identifying information for each prospective adoptive parent, including:
  - a. Name and date of birth;

**R21-5-405. Certification Investigation**

- A. Following acceptance of a completed certification application, the adoption entity shall conduct a certification investigation that includes:
  1. Personal interviews with the adoptive family. Such interviews shall:
    - a. Occur on at least two separate occasions, at least one of which shall be at the adoptive parent's residence;
    - b. Comprise no less than four hours of in person contact, and at least one hour shall take place at the adoptive parent's residence;
    - c. Include at least one separate interview with each member of the adoptive parent's household who is more than the age of five; and
    - d. Include at least one joint interview with both adoptive parents if they are married;
  2. Written statements from and personal contact (either a face-to-face meeting or a telephone call) with at least three of the applicant's personal references;
  3. An inquiry as to whether the applicant wishes to be listed in the Adoption Registry;
  4. Verification of the applicant's financial condition through a review of one or more of the documents listed in subsection (A)(7)(g) below;
  5. A request to the Department for a check of the Central Registry to determine if the applicant has a past record of substantiated allegations of child abuse or neglect;
  6. An evaluation of the success of the placement of other children adopted by the applicant;
  7. A review of any supporting documentation the adoption entity reasonably deems necessary to determine an applicant's fitness to adopt, including:
    - a. A physician's statement regarding the physical health of other adult household members and the applicant's children living in the home;
    - b. A statement from a psychiatrist or psychologist regarding the mental health of the applicant and the applicant's other household members;
    - c. Birth certificates;
    - d. Marriage certificate;
    - e. Dissolution of marriage or divorce papers and orders, including child support documentation;
    - f. Military discharge papers;
    - g. Financial statements, tax returns, pay stubs, and W-2 statements;
    - h. Bankruptcy papers;
    - i. Insurance policy information; and
    - j. Documentation showing Arizona residency.
- B. A person who meets the qualifications listed in 21 A.A.C. 9, Article 2, shall perform the certification investigation and shall

document all personal contacts made and all information reviewed and considered during the investigation.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).

**R21-5-406. Certification Report and Recommendation**

- A. Upon completion of the certification investigation, the adoption entity shall prepare a certification report under A.R.S. § 8-105.
- B. In determining whether to recommend certification of an applicant, the adoption entity shall consider all factors bearing on fitness to adopt, including, but not limited to:
  1. The factors listed in A.R.S. § 8-105;
  2. The length and stability of the applicant's marital relationship, if applicable;
  3. The applicant's age and health;
  4. Past, significant disturbances, or events in the applicant's immediate family, such as:
    - a. Involuntary job separation,
    - b. Divorce, or death of spouse, child, or parent, and
    - c. History of child abuse or neglect;
  5. The applicant's ability to financially provide for an adopted child; and
  6. The applicant's history of providing financial support to the applicant's other children, including compliance with court-ordered child support obligations.
- C. The certification report shall specifically note any instances where an applicant has:
  1. Been charged with, been convicted of, pled no contest to, or is awaiting trial, on charges of an offense listed in A.R.S. § 41-1758.07; or
  2. Been a party to a dependency, guardianship, or termination of parental rights action.
- D. If the report recommends denial of certification, the adoption entity shall send the applicant written notice of the unfavorable recommendation, the reason for the denial, and an explanation of the applicant's right under A.R.S. § 8-105, to petition the court for review. The adoption entity shall mail the notice to the applicant at least five work days prior to filing the certification report with the Court.
- E. The adoption entity may notify the adoptive parent of the Court's certification decision if the Court fails to do so.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).

**R21-5-407. Renewal of Certification**

- A. A certified adoptive parent who has not filed a petition for adoption within one year of the original certification order, may apply for an extension of certification, as provided in A.R.S. § 8-105.
- B. If the Court directs an adoption entity to investigate a certified adoptive parent who has requested a renewal of certification, the entity shall obtain from the adoptive parent seeking renewal:
  1. A copy of the request for renewal of certification;
  2. An updated profile of any changes in the certified adoptive parent's social, family, medical, and financial circumstances;
  3. New fingerprint clearance per Court requirements, following original certification;
  4. A current physical health statement for all members of the adoptive parent's household at least every third year following original certification; and
  5. Other information as the Court may request.

## CHAPTER 5. DEPARTMENT OF CHILD SAFETY - PERMANENCY AND SUPPORT SERVICES

- C. When investigating a request for a renewal of certification, the adoption entity shall, at a minimum, complete the following:
1. Conduct an in person interview at the applicant's home with the applicant and the applicant's other household members more than the age of five years,
  2. Investigate any change in circumstances described in the request for renewal as necessary to determine continuing fitness to adopt, and
  3. Document all actions.
- D. Upon completion of the renewal investigation, the adoption entity shall prepare and file with the Court a certification investigation that shall contain a recommendation for or against renewal of certification.
- E. If the adoption entity recommends that certification not be renewed, the entity shall send the adoptive parent the notice in R21-5-406(D).
- a. Name and any aliases used;
  - b. Address, phone number, and residential history;
  - c. Date and place of birth;
  - d. Social security number;
  - e. Race, citizenship, and any Native American tribal affiliation or membership;
  - f. Physical description;
  - g. Name of current employer and employment history;
  - h. Educational history;
  - i. Marital history and status;
  - j. Record of other births and children born to the birth parent;
  - k. Hobbies;
  - l. Future plans;
  - m. Record of arrests or convictions;
  - n. Medical, psychological, and substance use history;
  - o. For the birth mother, history of prenatal care, gestational substance or drug abuse, pregnancy, and delivery;
  - p. Immediate family relationships; and
  - q. Significant family events.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).

**R21-5-408. Communication with Adoptive Parents Awaiting Placement**

Upon request, an adoption entity shall inform an adoptive parent awaiting placement of a child of the following:

1. The status of the adoptive parent's case;
2. The number of children the adoption entity currently has available for adoption;
3. The number of times the adoptive parent has been considered for the placement of a child;
4. The number of approved adoptive parents awaiting placement of a child through the adoption entity; and
5. The number of placements the adoption entity made in the prior year, the number of placements the adoption entity has made to date in the current year, and the number of placements the adoption entity anticipates making during the remainder of the current year.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).

**R21-5-409. Prohibitions Regarding Birth Parents**

An adoption entity shall not:

1. Promise a birth parent that the birth parent shall have future contact with the child or the adoptive parent but may explain the concept of open adoption;
2. Promise a birth parent that the child will be placed with a specific adoptive parent or type of adoptive parent, except in a direct placement adoption. The adoption entity may advise the parent that it will use the entity's best efforts to honor any placement preferences the birth parent may have, to the extent that such preferences are consistent with the best interests of the child;
3. Promise a birth parent any financial or other consideration prohibited by law; or
4. Do or say anything to coerce or pressure a birth parent to sign a consent to adopt.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).

**R21-5-410. Information about Birth Parents**

- A. Before accepting a child for placement, the adoption entity shall make a good faith effort to obtain the following information described in this Section from the child's birth parent, or person having custody of the child:

1. Information about each birth parent including:

- a. Name and any aliases used;
  - b. Address, phone number, and residential history;
  - c. Date and place of birth;
  - d. Social security number;
  - e. Race, citizenship, and any Native American tribal affiliation or membership;
  - f. Physical description;
  - g. Name of current employer and employment history;
  - h. Educational history;
  - i. Marital history and status;
  - j. Record of other births and children born to the birth parent;
  - k. Hobbies;
  - l. Future plans;
  - m. Record of arrests or convictions;
  - n. Medical, psychological, and substance use history;
  - o. For the birth mother, history of prenatal care, gestational substance or drug abuse, pregnancy, and delivery;
  - p. Immediate family relationships; and
  - q. Significant family events.
2. An explanation of the birth parent's decision to place the child for adoption, the factors that influenced the decision, and a record of any counseling the birth parent received concerning the decision.
  3. A record of the birth parent's contact with the child.
  4. A statement of the birth parent's feelings about future contact with the child.
  5. A list of the birth parent's preferences regarding an adoptive home for the child.
  6. Medical or psychological history on the birth parent's own parents, siblings, grandparents, aunts, uncles, and first cousins.
  7. Information on the child being surrendered for adoption, as appropriate to the age of the child and the child's:
    - a. Developmental history,
    - b. Medical and psychological history,
    - c. Family background,
    - d. Educational history, and
    - e. Membership in or affiliation with any Native American tribe.
  8. A listing of the birth parent's insurance policies, including:
    - a. Any insurance that may be available to cover the medical expenses of the birth mother or adoptive child; and
    - b. The name of the insured, the insurance policy number, and the effective dates of coverage.

- B. The adoption entity shall document all statements and information in a permanent record.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).

**R21-5-411. Pre-consent Conference with Birth Parents**

- A. The adoption entity shall have a pre-consent conference with each birth parent who must provide consent to adoption under A.R.S. § 8-106, to explain in a language and form that each birth parent can understand the following:

1. The legal and practical consequences of executing a consent, including:
  - a. Applicable ICWA provisions; and
  - b. The fact that the consent, and all other affidavits executed in connection with an adoption, are executed under penalty of perjury;
2. The irrevocability and inalterability of a consent;

## CHAPTER 5. DEPARTMENT OF CHILD SAFETY - PERMANENCY AND SUPPORT SERVICES

3. The legal prohibition against paying the birth parent to execute a consent;
  4. The fact that the birth parent has no obligation to sign the consent; and
  5. The provisions of A.R.S. § 8-106, regarding an affidavit of any potential father.
- B.** The pre-consent conference shall occur:
1. No earlier than 12 hours after the birth of a child if the conference was not held before the birth under subsection (B)(2);
  2. No earlier than 60 days before the anticipated due date, if the conference is held before the child's birth;
  3. At least 24 hours before presenting a birth parent with the consent form for signature; and
  4. At a time that takes into account the known medical and emotional condition of each available birth parent.
- C.** The person conducting the pre-consent conference shall provide the birth parent with a sample consent form and shall convey the information described in subsection (A) in a language and form that the birth parent can understand.
- D.** The person conducting the pre-consent conference shall document that the information was given and understood and shall obtain the birth parent's signature on the documentation. If the conference is by telephone under subsection (E), the person may obtain the signature through the mail at a later date. If the conference is not held, the person shall document the reason under subsection (E).
- E.** The pre-consent conference may be by telephone and is not required if the birth parent cannot be located or refuses to participate in the conference. The adoption entity shall document the reason why the conference did not occur.
- F.** If required to obtain a consent from a birth father under A.R.S. § 8-106, the adoption entity shall, prior to obtaining the birth father's signature, advise the birth father of the matters listed in subsection (A) in a form and language the birth father can understand. The adoption entity shall include the advice listed in subsection (A) on the consent form.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).

**R21-5-412. Consent to Adopt; Unknown Birth Parent**

- A.** A person who obtains a birth parent's signature on a consent shall not do so until the person reasonably determines:
1. That the requirements of R21-5-411 have been met;
  2. That the birth parent is not acting under duress;
  3. That the birth parent is physically and mentally capable of exercising informed consent; and
  4. That the birth parent has revealed all information known about the identity and location of the other birth parent.
- B.** No one shall advise a birth parent to falsely state that he or she does not know the identity or location of the other birth parent.
- C.** When a birth parent professes not to know the identity or location of the other birth parent, the person taking the consent shall explain the risks and consequences of this response, including the following:
1. Potential invalidation of the adoption;
  2. Potential detriment to the child's social and physical well-being, due to lack of information concerning the unidentified birth parent's social and medical history; and
  3. Potential penalties for perjury.
- D.** When a birth parent knows, but refuses to disclose, the identity or location of the other birth parent, the adoption entity shall advise the birth parent as provided in subsection (C) and shall also explain that the Court may refuse to finalize the adoption.

- E.** The adoption entity shall document all action taken in compliance with this Section.
- F.** The adoption entity shall give the birth parent a copy of the consent and retain a copy in the permanent adoption file.
- G.** The adoption entity shall request a search of the confidential putative fathers registry of information that the Arizona Department of Health Services maintains under A.R.S. § 8-106.01 when:
1. A birth father's identity is unknown or undisclosed, and
  2. The adoption entity believes that a search of the putative fathers registry may prevent disruption of a placement or an adoption.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).

**R21-5-413. Adoptable Child: Assessment and Service Plan**

- A.** Prior to selecting an adoptive placement for an adoptable child, the adoption entity shall:
1. Assess the child's medical, psychological, social, and developmental needs;
  2. Design an adoptive family profile consistent with the child's needs and best interests;
  3. Develop a written service plan; and
  4. Assess whether the child is a potential candidate for an adoption subsidy.
- B.** The service plan shall, at a minimum, include:
1. Placing the child on the Adoption Registry if there is no adoptive parent readily available to adopt the child;
  2. Giving the child a developmentally appropriate explanation of the adoption process.
- C.** The adoption entity shall provide the child with services in accordance with the child's service plan.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).

**R21-5-414. Placement Determination**

- A.** An adoption entity shall have and follow a written policy for making placement recommendations and decisions in both direct placement and adoption placement adoptions.
- B.** Except as otherwise provided in subsection (C), in an agency placement adoption a team shall make the placement decision. The team shall at a minimum, include:
1. The case manager or person who assessed the adoptable child, and
  2. The case manager or person who is knowledgeable about the potential adoptive parents for the adoptable child.
- C.** In international adoptions, where the case manager or person who assessed the child is out of the country and unavailable, the adoption team shall include the person who is most familiar with the adoptable child's needs.
- D.** In an agency placement adoption, an adoption entity shall place an adoptable child in the adoptive setting that best meets the child's safety, social, emotional, physical and mental health needs. In determining who can best meet the needs, the adoption entity shall consider ICWA placement preferences if applicable and the following relevant factors in no order of preference:
1. The marital status, length and stability of the marital relationship of the adoptive parent;
  2. The family's ability to meet the child's emotional, physical, mental, and social needs;
  3. The family's ability to financially provide for the child;
  4. The wishes of a child who is 12 years of age or more;

## CHAPTER 5. DEPARTMENT OF CHILD SAFETY - PERMANENCY AND SUPPORT SERVICES

5. Family relationships between the child and the adoptive parent's family members;
  6. The placement of the child's siblings;
  7. The availability of relatives, the adoptable child's former foster parents, or other significant persons to provide support to the adoptive parent and child;
  8. The wishes of the child's birth parent; and
  9. All information in the case files of the child and the adoptive parent.
- E. The adoption entity shall document the placement decision.
1. For adoptions conducted pursuant to the ICPC, the documentation shall comply with the requirements of the ICPC under A.R.S. § 8-548 et seq.
  2. For all other adoptions, the documentation shall include the following:
    - a. The adoptive child's critical needs and characteristics that weigh most heavily in the placement determination,
    - b. The names and general characteristics of those adoptive parents who most closely match the child's needs and who are seriously considered for placement, and
    - c. The reasons why a particular adoptive parent chosen for placement best meets the child's needs.
- F. For adoptions not covered by the ICPC, the adoption entity may document the placement decision in a file or placement log that is separate from the clients' case files.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).

**R21-5-415. Provision of Information on a Placed Child**

After selecting an adoptive placement for a child, and before placing the child with the chosen adoptive parent, the adoption entity shall provide the adoptive parent with all non-identifying information available on the child, including, without limitation, the following:

1. All records concerning the child's medical, psychological, social, legal, family, and educational background;
2. All records concerning the birth parents' medical, psychological, social, legal, family, and educational background;
3. The medical and social background on the child's other immediate family members, including siblings and birth grandparents;
4. The child's plan for adoption services, as described in R21-4-413; and
5. Information on adoption subsidy that may be available for the child.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).

**R21-4-416. Transportation**

An adoption entity that transports an adoptive child shall:

1. Ensure that any person who transports an adoptive child is informed of the child's medical needs and is capable of meeting any medical needs that are reasonably likely to arise during transport;
2. Not leave an adoptive child unattended during transportation if the adoptive child:
  - a. Is less than seven years of age;
  - b. Has a developmental disability; and
  - c. Is more than seven years of age if the adoption entity has determined, and documented in the child's

- record, that the child is physically and emotionally incapable of traveling alone;
3. Require all persons who provide transport to carry personal identification and a written statement from the adoption entity describing the person's authority and responsibilities while performing transport duties;
4. Require proof of driver's license from any person accepting temporary or permanent responsibility for transporting an adoptive child during the course of placement;
5. Document all transportation plans and actual transportation events in the child's record;
6. All vehicles used in transporting adoptive children shall be insured;
7. Ensure that an adoptive child is properly secured in a child restraint system that meets the requirements listed in R21-9-224(E).

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).

**R21-5-417. Placement Services**

- A. An adoption entity shall make counseling services available to the adoptive parents' family as the entity deems reasonable and necessary to facilitate the child's acceptance into the adoptive parent's family and to preserve stability. The adoption entity may make such services available by advising the adoptive family that such services may be beneficial and referring the adoptive parent and his or her family to community resources and providers.
- B. The adoption entity shall make information on adoption related educational and supportive resources available to adoptive parents.
- C. The adoptive parent must sign a document stating if he or she is declining any form of adoption counseling.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).

**R21-5-418. Post-placement Supervision: Non-foster Parent Placement**

- A. When a child is placed for adoption with a person who is not the child's foster parent, a case manager from the adoption entity shall visit the home within 30 calendar days of the date of adoptive placement to:
1. Ensure that the adoptive parent received all available non-identifying information from the adoption entity on the child;
  2. Address any questions or concerns the adoptive parent or child may have about the adoption process or placement;
  3. Ensure that the family has addressed the educational needs of a school-age child; and
  4. Ensure that an adoptive parent who works has made appropriate child care arrangements.
- B. Following the initial placement visit in subsection (A), a case manager from the adoption entity shall:
1. Visit the adoptive family at least once every three months until the adoption is finalized:
    - a. Except, when the adoptive child is a child with special needs, the visits shall occur at least once a month; and
    - b. During the first six months following the initial placement visit, at least alternating visits shall occur at the adoptive family's home;
  2. Interview all members of the adoptive family's household during the placement supervision period;

## CHAPTER 5. DEPARTMENT OF CHILD SAFETY - PERMANENCY AND SUPPORT SERVICES

3. Discuss how the child and the adoptive parent's family are adapting, the current relationship among members of the adoptive parent's family, and the following issues with the adoptive parent if appropriate in light of the child's age and development:
    - a. How the presence of the child has changed familial relationships;
    - b. How the child and the extended family view each other;
    - c. The role each family member has assumed regarding child care and discipline;
    - d. How the adoptive parent is coping with the needs and demands of the placed child;
    - e. How the child challenges or tests the placement and how the family reacts to these episodes, including any feelings of insecurity about the propriety of the family members' response;
    - f. How the family perceives the child's sense of identity and the need to fill in gaps in the child's history; and
    - g. How the child has adjusted to the school environment;
  4. If developmentally appropriate, privately interview the child about:
    - a. The child's feelings about the adoption;
    - b. How the child and family are adapting; and
    - c. The child's relationships with the members of the family.
- C. The case manager shall document all contacts and communications made under this Section.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).

**R21-5-419. Post-placement Supervision: Foster Parent Placement**

- A. When a foster parent plans to adopt a foster child who is age 5 years or older, a case manager from the adoption entity shall privately interview the child and all members of the adoptive family household who are age 5 years or older about their feelings towards the adoption, before the adoption consent is signed.
- B. When a child is placed for adoption with a person who has been a foster parent to the child, a case manager from the adoption entity shall conduct a home visit at least every two months from the time legal consent for adoption has been signed until the finalization of adoption unless the adoptive child is a child with special needs. If the adoptive child is a child with special needs, the case manager shall visit at least once a month.
- C. During the visits described in subsection (B), the case manager shall:
  1. If developmentally appropriate, privately interview the child to discuss a child's feelings about the adoption; and
  2. Interview all members of the adoptive family household, including children, if developmentally appropriate, to discuss, as described in R21-5-418, how the child and family are adapting, and the current relationship among members of the family.
- D. The case manager shall document all contacts and communications under this Section.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).

**R21-5-420. Protracted Placement**

If an adoption is not finalized within two years from the date of consent, and the child is still placed in the adoptive home, the adoption entity handling the adoption shall provide the Department with written documentation explaining the reason why the adoption has not been finalized, no later than 30 calendar days after the two-year period has ended.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).

**R21-5-421. Finalizing the Placement**

An adoption entity shall cooperate with the adoptive parent and the attorney, if any, retained by the adoptive parent, to finalize the adoption.

1. The entity shall provide all information and documents needed to finalize the adoption and shall file a final written report to the court at least 14 calendar days before the final adoption hearing, or at such other time as the Court may require. The report shall include the information listed in this subsection, unless the entity has already provided this information in an earlier report, and the information has not changed since the earlier report.
  - a. The name and age of each adoptive parent and the relationship, if any, of each adoptive parent to the child to be adopted;
  - b. The name, age, and birthplace of the child to be adopted, and whether any or all of this information is unknown to the adoptive parent;
  - c. The entity or other source from which the adoptive parent received the child to be adopted;
  - d. The circumstances surrounding the surrender of the child to the entity;
  - e. The results of the entity's evaluation of the child and of the adoptive parent, including:
    - i. A description of the care the child is receiving;
    - ii. The adjustment of the child and parent; and
    - iii. A summary statement of the entity's recommendation to the court regarding finalization;
  - f. A full description of any property belonging to the child to be adopted;
2. For children 12 years of age and older, the adoption entity shall solicit and consider the child's wishes concerning adoption.
3. The adoption entity shall notify the AHCCCS Administration of any potential third party payer, as prescribed in A.R.S. § 36-2946, if the entity has not already done so.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).

**R21-5-422. Placement Disruption**

- A. When a placement fails, the adoption entity shall provide services, including counseling to the adoptive parent and his or her family and child, to help them cope with the loss and separation.
- B. An adoption entity shall have and follow written procedures for an adoptive placement disruption. The procedures shall include:
  1. Provision of counseling services to the adoptive parent, his or her family, and the child as needed; and
  2. Provision for placement of the child in another adoptive home or other developmentally appropriate living arrangement.

## CHAPTER 5. DEPARTMENT OF CHILD SAFETY - PERMANENCY AND SUPPORT SERVICES

- C. The adoptive entity shall document the reasons for the disruption and shall take such information into account when making future placements for the adoptive parent and the child.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).

**R21-5-423. Confidentiality**

Any person or entity who participates in an adoption or provides adoption services shall comply with the confidentiality requirements under A.R.S. §§ 8-120, 8-121, and 36-2903.01.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).

**ARTICLE 5. ADOPTION SUBSIDY****R21-5-501. Definitions**

In addition to the definitions in A.R.S. §§ 8-141 and 8-501, the following definitions apply in this Article.

1. "Adoption agency" means an individual or entity, including a corporation, company, partnership, firm, association, or society, other than the Department, licensed by the Department to place a child for adoption.
2. "Adoption Specialist" means the Department of Child Safety Specialist, or adoption agency staff person, who is responsible for managing the child's case prior to the adoption finalization.
3. "Adoption subsidy" means the same as A.R.S. § 8-141, and includes nonrecurring adoption expenses under A.R.S. § 8-161 et seq. If the child qualifies, the adoption subsidy may include one or more of the following:
  - a. Medical, dental, and mental health subsidy;
  - b. Maintenance subsidy;
  - c. Special services subsidy; and
  - d. Reimbursement of nonrecurring adoption expenses.
4. "Adoption subsidy agreement" means the agreement in A.R.S. § 8-144 concerning the Adoption Subsidy Program and includes the agreement in A.R.S. § 8-162 concerning the nonrecurring adoption expense program.
5. "Adoption Subsidy Program" means a unit within the Department of Child Safety that administers the adoption subsidy.
6. "Adoption Subsidy Supervisor" means a Department employee who is responsible for the Adoption Subsidy Program within a defined geographic area, and that the Department has authorized to approve an adoption subsidy agreement.
7. "Adoptive parent" means an adult who the court has certified or approved to adopt a child, or an adult who has adopted a child.
8. "AHCCCS" means the Arizona Health Care Cost Containment System, which is the state's program for medical assistance available under Title XIX of the Social Security Act and state public insurance statutes, A.R.S. Title 36, Chapter 29.
9. "AHCCCS hospital reimbursement system" means the payment structure that AHCCCS uses to pay for inpatient and outpatient hospital services.
10. "Complete adoption subsidy application" means a packet containing the following:
  - a. An "Adoptive Family Subsidy Application" form provided by the Department that the adoptive parent, the Adoption Specialist, and Adoption Specialist supervisor have completed and signed; and
  - b. The supporting documentation and information requested in the "Adoptive Family Subsidy Application."
11. "Debilitating" means a lifelong, progressive, or fatal condition characterized by physical, mental, or developmental impairment that impedes an individual's ability to function independently.
12. "Department" or "DCS" means the Arizona Department of Child Safety.
13. "Developmental disability" means the same as A.R.S. § 8-141.
14. "Diagnose" means to identify a physical, psychological, social, learning, or developmental condition or disability according to the accepted standards of the medical, mental health, or educational professions.
15. "Emergency situation" means a circumstance that, if unaddressed, would be detrimental to a child's life, health, or safety.
16. "Emotional disturbance" means the same as A.R.S. § 8-141.
17. "Lawfully present in the United States" means the child is a U.S. citizen, national, or an alien authorized by an appropriate federal entity or court to be present in the United States.
18. "Legally free" means the parental rights of a child's birth or legal parents have been terminated.
19. "Maintenance subsidy" means a monthly payment paid to a custodial adoptive parent to assist with the costs directly related to meeting some of the adopted child's needs, including child care, health insurance co-payments and deductibles, and supplemental educational services for the adopted child.
20. "Mental disability" means the same as A.R.S. § 8-141.
21. "Nonrecurring adoption expenses" means the same as A.R.S. § 8-161, and are reasonable and necessary expenses directly related to the legal process of adopting a child with special needs. Allowable expenses include adoption fees, court costs, attorney's fees, fingerprinting fees, home study fees, costs for physical and psychological examinations, costs for placement supervision, and travel expenses necessary to complete the adoption.
22. "Physical disability" means the same as A.R.S. § 8-141.
23. "Qualified professional" means a practitioner licensed or certified by the state of Arizona or another state to evaluate and diagnose a condition or disability, or provide medical, dental, mental health services, or approved by the Department to provide educational or respite services.
24. "Sibling relationship" means two or more brothers or sisters who are related by blood or by law, and who are being adopted by the same family.
25. "Special allowance" means funds provided for clothing or personal expenses, therapeutic or personal attendant care, and other specialized payments such as emergency clothing, education, and gift allowances.
26. "*Special needs*" means one or more of the following conditions which existed before the finalization of adoption:
  - a. Physical, mental or developmental disability.

- 31. "Title XX" means the Social Services Block Grant, as defined by Section 2001, Title XX, of the Social Security Act, 42 U.S.C. 1397.
- 32. "Undiagnosed pre-existing special need condition" means a physical, mental or developmental disability or emotional disturbance that existed before a court finalized the child's adoption, and that a qualified professional did not confirm before the child's adoption.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).

**R21-5-502. Eligibility Criteria**

- A. The Department shall determine if a child qualifies for the Title IV-E adoption assistance program prior to determining whether the child qualifies for the Adoption Subsidy Program.
- B. A child shall qualify for Title IV-E adoption assistance if the child meets the additional eligibility criteria required in 42 U.S.C. 673(a)(2). If the child does not meet the additional criteria in Title IV-E, the child may still be eligible to receive adoption subsidy under subsection (C).
- C. An Arizona child shall be eligible for adoption subsidy when the child is:
  - 1. In the care, custody, and control of the Department, or an adoption agency licensed in Arizona, or was previously adopted and received Title IV-E or Arizona adoption subsidy;
  - 2. Legally free for adoption;
  - 3. Lawfully present in the United States; and
  - 4. Determined to be a child with special needs as defined by Title IV-E of the Social Security Act, and A.R.S. Title 8, Chapter 1, Articles 2 and 3 as follows:
    - a. The child cannot or should not be returned to the parent's home;
    - b. The child cannot be placed with adoptive parents without an adoption subsidy due to a special need of the child; and
    - c. A reasonable but unsuccessful effort was made to place the child without an adoption subsidy, unless the Department determined that it was not in the child's best interest to place the child with another family because of the child's significant emotional ties with the prospective adoptive parent while in their care as a foster child.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).

**R21-5-503. Application for Adoption Subsidy**

- A. The adoptive parent shall submit a complete adoption subsidy application to the Department Adoption Subsidy Program prior to the finalization of the adoption. A complete adoption subsidy application shall include the following:
  - 1. The child's:
    - a. Name;
    - b. Date of birth;
    - c. Social Security Number; and
    - d. Ethnicity;
  - 2. The adoptive parents':
    - a. Name;
    - b. Date of birth;
    - c. Social Security Number;
    - d. Ethnicity;
    - e. Marital status;
    - f. Occupation;
    - g. Relationship to the child;
    - h. Adoption certification status;
  - 3. Information about:
    - a. The child's special needs;
    - b. Whether the child is lawfully present in the U.S.;
    - c. The Department or the adoption agency that has custody of the child;
    - d. Whether the child is free for adoption;
    - e. Efforts to place the child for adoption without adoption subsidy;
    - f. Resources for which the child is eligible; and
    - g. Financial benefits for which the child is eligible; and
  - 4. Description of:
    - a. The child's pre-existing special need conditions;
    - b. The need for maintenance payments; and
    - c. Nonrecurring expenses.
  - 5. The adoptive parent shall include the following documentation:
    - a. The child's specific special need identified by a qualified professional;
    - b. The child's need for a maintenance subsidy from:
      - i. The adoptive parent,
      - ii. Adoption Specialist, and
      - iii. A qualified professional;
    - c. The child's lawful presence in the United States if the child is not a U.S. citizen;
    - d. The child's pre-existing medical, dental, and mental health conditions as documented by a qualified professional:
      - i. Current within one year, or
      - ii. Provided in birth records; and
  - 6. Assurances that the following information is available in the adoption case record:
    - a. The Department or adoption agency that has custody of the child,
    - b. That the child is free for adoption, and
    - c. Efforts to place the child for adoption without adoption subsidy.
- B. An adoption subsidy application is complete when the Adoption Subsidy Program receives the application and all supporting documentation. Documentation may vary according to the conditions of the child, and may include the recommendations of qualified professionals.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).

## CHAPTER 5. DEPARTMENT OF CHILD SAFETY - PERMANENCY AND SUPPORT SERVICES

**R21-5-504. Eligibility Determination**

The Department shall review the adoption subsidy application and determine eligibility according to the following:

1. The Department shall approve eligibility for adoption subsidy if a child meets the eligibility criteria listed in R21-5-502 and the adoptive parent submits a complete application. If the Department approves eligibility, the Department shall create an adoption subsidy agreement that the adoptive parent and the Adoption Subsidy Supervisor or designee shall sign before the court enters the final order of adoption.
2. The Department shall deny eligibility for an adoption subsidy if a child does not meet the eligibility criteria listed in R21-5-502. If the Department denies an adoption subsidy, the Department shall send a notice to the adoptive parent that explains the reason for denial, the applicant's right to appeal, and the time-frame to file an appeal.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).

**R21-5-505. Adoption Subsidy Agreement**

- A. The Department shall create an adoption subsidy agreement that lists the scope and nature of the subsidies provided, including:
  1. The child's documented pre-existing special needs condition,
  2. The types of subsidy approved,
  3. The amount or rates as applicable to the types of subsidy approved, and
  4. The specific terms and conditions of the agreement.
- B. The adoption subsidy agreement shall become effective if the following occurs prior to the finalization of the adoption:
  1. The adoptive parent signs the agreement and returns it to the Department Adoption Subsidy Program, and
  2. The Adoption Subsidy Supervisor or designee signs the agreement.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).

**R21-5-506. Medical, Dental, and Mental Health Subsidy**

Adoption subsidy provides medical, dental, and mental health subsidies in the form of federal Medicaid coverage to a child in the Adoption Subsidy Program.

1. If the child resides in Arizona, AHCCCS determines eligibility; or
2. If the child resides in another state, the relevant state agency in that state determines Medicaid eligibility.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).

**R21-5-507. Maintenance Subsidy**

- A. The maintenance subsidy may not cover all the daily living expenses of the adopted child. The Department and the adoptive parent shall negotiate the amount of maintenance subsidy based on a child's current special needs and the family's circumstances.
  1. Under A.R.S. § 8-144(B), the amount of the maintenance subsidy shall not exceed the payments allowable for foster care, not including foster care special allowances.
  2. The Department shall deduct private or public monetary benefits, such as benefits received through Title II of the Social Security Act, paid to the child from the monthly

maintenance subsidy, as allowed under state or federal law. The adoptive parent shall report the receipt of any private or public monetary benefits for the child to the Adoption Subsidy Program as soon as the benefits are received.

**B. Payment of Maintenance Subsidy**

1. The Department shall not begin maintenance subsidy payments prior to the effective date of the adoption subsidy agreement.
2. The Department shall issue maintenance subsidy payments monthly to the adoptive parent as specified in the adoption subsidy agreement.

**C. Renegotiation of the Maintenance Rate**

1. The Department or the adoptive parent may initiate a change in the maintenance subsidy rate if there are changes in the child's needs.
2. The Department may renegotiate the amount of the adoption subsidy; however, the rate shall not exceed the payments allowable for foster care, not including foster care special allowances.
3. The adoptive parent shall provide the Department with documentation supporting the requested change in the maintenance subsidy rate.
4. If the child is in the care or custody of a state agency in Arizona or any other state, an adoption agency, or an individual other than the adoptive parent, the Department shall request, and the adoptive parent shall provide, documentation that the adoptive parent continues to be legally and financially responsible for the child.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).

**R21-5-508. Special Services Subsidy**

- A. Special services subsidy shall be:
  1. Related to a special needs condition listed in the adoption subsidy agreement; and
  2. Necessary to improve or maintain the adopted child's functioning as documented by an appropriate qualified professional. The Adoption Subsidy Program shall review the documentation at least annually.
- B. Services approved for the payment of special services subsidy shall be:
  1. Provided by a qualified professional;
  2. Provided in the least restrictive environment and as close as possible to the adoptive parent's residence;
  3. In accordance with the "Standard of Care"; and
  4. Not otherwise covered by or provided through maintenance subsidy, medical subsidy, dental subsidy, mental health subsidy, or other resources for which the adopted child is eligible.
- C. The adoptive parent shall submit the special services request to the Adoption Subsidy Program and receive approval from the Adoption Subsidy Program prior to the adoptive parent's incurring the specified expense. The request shall include:
  1. Documentation from a qualified professional that the service is necessary; and
  2. Documentation that the adoptive parent had requested the service and the service provider had denied the request or documentation that the service is not available from other potential funding sources, such as AHCCCS/Medicaid, private insurance, school district, or other community resources.
- D. Special services subsidy shall not include:

## CHAPTER 5. DEPARTMENT OF CHILD SAFETY - PERMANENCY AND SUPPORT SERVICES

1. Payment for services to meet needs other than the pre-existing special needs conditions specifically listed in the adoption subsidy agreement;
  2. Payment for medical or dental services usually considered to be routine, such as well-child checkups, immunizations, and other services not related to the child's special needs conditions in the adoption subsidy agreement;
  3. Payment for health-related services that are not medically necessary, as determined by a qualified professional;
  4. Payment for social or recreational services such as routine child care, dance lessons, sports fees, camps, and similar services; and
  5. Payment for educational services that are not necessary to meet the special needs conditions specifically listed in the adoption subsidy agreement, or the services for which the school district is responsible.
- E.** The Department may request an independent review by a qualified professional of a special services request to determine the necessity for medical, dental, psychological, or psychiatric testing or services, or to evaluate the appropriateness of the treatment plan or placement.
- F.** The Department may issue reimbursements to the adoptive parent for approved special services, or the Department may pay the service provider directly.
- G.** Special services subsidy reimbursement is limited as follows:
1. The Department shall reimburse in-state and out-of-state inpatient and outpatient hospital services according to the AHCCCS hospital reimbursement system, as required by A.R.S. § 8-142.01(A), if the adoptive parent has obtained prior approval for the service from the Department. Prior approval is not required in an emergency situation.
  2. The Department shall not reimburse special services subsidy amounts in excess of the rates allowed by the Department or AHCCCS. The Department shall use the lowest applicable rates as established by AHCCCS, the Department's Comprehensive Medical and Dental Program (CMDP), or rates established by the Adoption Subsidy Program to be customary and reasonable.
  3. The Department shall not pay for requests that the adoptive parent or provider submits more than nine months after the date of service for which the adoptive parent or provider requests payment.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).

**R21-5-509. Nonrecurring Adoption Expenses**

- A.** Nonrecurring adoption expenses shall not cover expenses related to visiting and placing the child.
- B.** Reimbursement of nonrecurring adoption expenses is subject to the limitations in A.R.S. § 8-164.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).

**R21-5-510. Annual Review; Reporting Change**

- A.** Each year, the Department shall send a review form to the adoptive parent requesting that the adoptive parent provide:
1. Information indicating that the parent remains legally and financially responsible for the child;
  2. Information on any change in benefits for the child, such as benefits received through Title II of the Social Security Act;

3. Information on any change in circumstances, including changes in residence, marital status, educational status, or other similar changes; and
  4. A description of any changes in the child's special needs conditions that are listed in the adoption subsidy agreement.
- B.** The adoptive parent shall provide the Department with the requested information within 30 days of the adoptive parent's receipt of the review form.
- C.** The adoptive parent shall notify the Department in writing within five calendar days when any of the following occurs:
1. The adoptive parent is no longer legally responsible for the child;
  2. The adoptive parent is no longer providing support to the child;
  3. The child is no longer residing in the adoptive parent's home;
  4. The child has graduated from high school or obtained a general equivalency degree (GED);
  5. The child has married;
  6. The child has joined the military; or
  7. The child dies.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).

**R21-5-511. Termination of Adoption Subsidy**

The Department shall terminate an adoption subsidy when any of the following occurs:

1. The child turns 18 years old and is not enrolled in and attending high school or a program leading to a high school diploma or general equivalency degree (GED);
2. The child is aged 18 through 21 years, has been continuously enrolled in school, and either drops out of school, graduates from high school, or obtains a general equivalency degree (GED);
3. The child turns 22 years old;
4. The adoptive parent is no longer legally responsible for the child;
5. The adoptive parent is no longer providing support to the child;
6. The child marries;
7. The child joins the military;
8. The special needs conditions of the child no longer exist;
9. The child dies;
10. The adoptive single parent or both adoptive parents die; or
11. The adoptive parent requests termination.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).

**R21-5-512. New or Amended Adoption Subsidy Agreement**

An adoptive parent may apply for a new or amended adoption subsidy agreement after the adoption is final, only upon documentation of an undiagnosed pre-existing special needs condition that existed before the finalization of the adoption.

1. The adoptive parent shall send the Department a written request for adoption subsidy with documentation from a qualified professional diagnosing the special needs condition and confirming that it existed before the final order of adoption.
2. The adoptive parent and the Department shall follow the procedures in this Article for processing applications and determining eligibility.

## CHAPTER 5. DEPARTMENT OF CHILD SAFETY - PERMANENCY AND SUPPORT SERVICES

3. If the Department finds that the child has an undiagnosed pre-existing special needs condition that, if diagnosed prior to the adoption, would have met the eligibility criteria listed in R21-5-502, the Department shall grant a new subsidy or amend the adoption subsidy agreement to cover this special needs condition.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).

**R21-5-513. Appeals**

Appeals for the Adoption Subsidy Program shall follow the process in 21 A.A.C. 1, Article 3.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).

**R21-5-514. Confidentiality**

The Department shall maintain the confidentiality of all information used in the Adoption Subsidy Program according to all applicable federal and state laws.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 3255, effective January 24, 2016 (Supp. 15-4).
