## TITLE 2. ADMINISTRATION

## CHAPTER 20. CITIZENS CLEAN ELECTIONS COMMISSION

*Editor's Note: The Office of the Secretary of State, Administrative Rules Division, complied with its legal obligation to publish the Notice of Rule Expiration filed for Sections R2-20-109 and R2-20-111 under A.R.S. § 41-1011(C) and 41-1056(G) and (J)(2) in Supp. 17-2, version 2. As a courtesy to the Commission, the Office also published R2-20-109 and R2-20-111 as adopted and made by the Commission because it stated the Governor's Regulatory Review Council did not have the authority to file such a notice. On December 14, 2017, the Commission "re-adopted" rules in the disputed Sections of R2-20-109 and R2-20-111; therefore, our Division has removed the expired rule Sections as published in Supp. 17-2, version 2. The Office will not interpret the legality of any actions made by the Commission or the Council as to whether the rules in R2-20-109 and R2-20-111 were effective at 23 A.A.R. 1761 or expired at 23 A.A.R. 1757 between the dates of June 7, and December 14, 2017. Those interested in that issue should consult counsel.*

*Editor's Note: The Citizen's Clean Elections Commission has filed a Notice of Public Information with the Office of the Secretary of State (Office) stating the Governor's Regulatory Review Council (G.R.R.C.) "cannot effectively repeal the rules" in this Chapter. The Notice also states, "persons subject to the Act and Rules are advised that it is the Commission's position [sic] that an action of G.R.R.C.... cannot relieve them of their obligations under the Act and Rules." [published at 23 A.A.R. 1761] The Office has received a Notice of Rule Expiration from the G.R.R.C. stating R2-20-109 and R2-20-111 have automatically expired [published at 23 A.A.R. 1757]. Under A.R.S. § 41-1056(G), our Office publishes filed G.R.R.C. notices and has included the rule expiration in this Chapter. Since the Office is merely the publisher, it has not, nor will it interpret the legality of the G.R.R.C. authority to "effectively repeal rules."*

*Editor's Note: The Office of the Secretary of State publishes all Code Chapters on white paper (Supp. 02-1).*

*Editor's Note: This Chapter contains rules that were adopted under an exemption from the rulemaking provisions of the Arizona Administrative Procedure Act (A.R.S. Title 41, Chapter 6) pursuant to A.R.S. § 16-956(D). Exemption from A.R.S. Title 41, Chapter 6 means that these rules were not certified by the Attorney General or the Governor's Regulatory Review Council. Because this Chapter contains rules that are exempt from the regular rulemaking process, the Chapter is printed on blue paper. The rules affected by this exemption appear throughout this Chapter.*

A solicitor who seeks signatures and qualifying contributions on behalf of a participating candidate shall provide his or her residential address, typed or printed name and signature on each reporting slip. The solicitor shall also sign a sworn statement on the contribution slip avowing that the contributor signed the slip, that the contributor contributed the \$5, that based on information and belief, the contributor's name and address are correctly stated and that each contributor is a qualified elector of this state. If a contribution is received unsolicited, the candidate or contributor may sign the qualifying contribution form as the solicitor and is accountable for all of the responsibilities of a solicitor. Nothing in this rule shall prohibit the use of direct mail or the internet to obtain qualifying contributions as long as an original signature is provided on the qualifying contribution form. The candidate may sign the qualifying contribution form as the solicitor and is accountable for all of the responsibilities of a solicitor. For qualifying contributions received in accordance with subsection (C) of this Section, the residential address and signature of the solicitor is not required.
- E. The Secretary of State has the authority to approve or deny a candidate for Clean Elections funding, pursuant to A.R.S. § 16-950(C) based upon the verification of the qualifying contribution forms by the appropriate county recorder. The county recorder shall disqualify any qualifying contribution forms that are:
  - 1. Unsigned by the contributor;
  - 2. Undated; or
  - 3. That the recorder is unable to verify as matching signature of a person who is registered to vote, on the date specified inside the electoral district the candidate is seeking.
- F. The Secretary of State will notify the candidate and the Commission regarding the approval or denial of Clean Elections funds. A candidate who is denied Clean Elections funding after all of the slips are verified is eligible to submit supplemental qualifying contribution forms for one additional opportunity to be approved for funding pursuant to subsection (G) of this rule.
- G. The amount equal to the sum of the qualifying contributions collected and tendered to the Secretary of State pursuant to A.R.S. § 16-950(B) will be deposited into the fund, and the

amount tendered will not be returned to a candidate if a candidate is denied Clean Elections funding.

- H. In accordance with the procedure set forth at A.R.S. § 16-950(C), if the Secretary of State determines that the result of the five percent random sample is less than 110 percent of the slips needed to qualify for funding, then the Secretary of State shall send all of the slips for verification. If the county recorder has verified all of the candidate's signature slips and there is an insufficient number of valid qualifying contribution slips to qualify the candidate for funding, the candidate may make only one supplemental filing of additional qualifying contribution slips and qualifying contributions to the Secretary of State if all of the following apply:
  - 1. The candidate files at least the minimum number of additional slips needed to qualify for funding;
  - 2. The slips are not receipts for duplicate contributions from individuals who have previously contributed to that candidate; and
  - 3. The period for filing qualifying contributions slips has not expired.
- I. The Secretary of State shall forward facsimiles of all of the supplemental qualifying contribution slips to the appropriate county recorders for the county of the contributors' addresses as shown on the contribution slips. The county recorder shall verify all of the supplemental slips within 10 business days after receipt of the facsimiles and shall provide a report to the Secretary of State identifying as disqualified any slips that are unsigned by the contributor or undated or that the recorder is unable to verify as matching the signature of a person who is registered to vote, on the date specified on the slip, inside the electoral district of the office the candidate is seeking. On receipt of the report of the county recorder on all supplemental slips, the Secretary of State shall calculate the candidate's total number of valid qualifying contribution slips and shall approve or deny the candidate for funds.

**R2-20-106. Distribution of Funds to Certified Candidates**

- A. Before the initial disbursement of funds, the Commission shall review the candidate's funding application and all relevant facts and circumstances and:
  - 1. Verify that the number of signatures on the candidate's nominating petitions equals or exceeds the number required pursuant to A.R.S. § 16-322 as follows:
    - a. If the application is submitted before the March 1 voter registration list is determined, the Commission shall verify that the number of signatures on the candidate's nominating petitions equals or exceeds 115 percent of the number required pursuant to A.R.S. § 16-322 based on the prior election voter registration list as determined by the Secretary of State; or

## CHAPTER 20. CITIZENS CLEAN ELECTIONS COMMISSION

- b. If the application is submitted after the current year March 1 voter registration list is determined, the Commission shall verify that the number of signatures on the candidate's nominating petitions is equal to or greater than the number required pursuant to A.R.S. § 16-322.
  2. Determine that the required number of qualifying contributions have been received and paid to the Secretary of State for deposit in the Fund; and
  3. Determine whether the candidate is opposed in the election.
- B.** In making the determinations described in subsection (A)(3), the Commission shall consider all relevant facts and circumstances, and it shall not be bound by election formalities such as the filing of nominating petitions by others in determining whether an applicant is opposed. Among other evidence the Commission may consider is the existence of exploratory committees or filings made to organize campaign committees of opponents and other like indicia.
- C.** The Commission may review and affirm or change its determination that the candidate is or is not opposed until the ballot for the election is established.
- D.** Within seven days after a primary election and before the Secretary of State completes the canvass, the Commission shall disburse funds for general election campaigns to the participating candidates who received the greatest number of votes at each primary election, provided that the candidate with the highest number of votes out of the total number of votes, has at least two percentage points greater than the candidate with the next highest votes based on the unofficial results as of that date. In a legislative race for the Arizona House of Representatives, the Commission shall disburse funds for general election campaigns to participating candidates with the highest or second highest number of votes cast, provided such candidate received votes totaling at least two percentage points, of the total ballots cast, larger than the vote total cast for the candidate with the third highest vote total.
- E.** Promptly after the Secretary of State completes the canvass, the Commission shall disburse funds for general election campaigns to all eligible participating candidates to whom payment has not been made. If a participating candidate has received funds from the Commission pursuant to subsection (D) and the canvass or recount determines that the candidate is not eligible to appear on the general election ballot, the participating candidate shall return all unused funds to the Fund within 10 days after such determination is made. That candidate shall make no expenditures from general election funds from the date of the canvass.
- F.** The Commission may refuse to distribute funds to participating candidates in cases in which the Commission finds evidence of fraud or illegal activity committed by the participating candidate.
- G.** Pursuant to A.R.S. § 16-953, a participating candidate shall return to the Fund:
1. All primary election funds not committed to expenditures (1) during the primary election period; and (2) for goods or services directed to the primary election. A candidate shall not be deemed to have violated A.R.S. § 16-953(A) or this subsection on account of failure to use all materials purchased with primary election funds prior to the primary election, provided such candidate exercises good faith and diligent efforts to comply with the requirement that goods and services purchased with primary election funds be directed to the primary election. Subject to A.R.S. § 16-953(A) and this subsection, a candidate may continue to use goods purchased with primary election funds during the general election period.
  2. All general funds not committed to expenditures (1) during the general election period; and (2) for goods or services directed to the general election.
- H.** All funds returned to the Commission pursuant to subsection (G) of this rule, shall be returned to the Fund by a cashier's check drawn on the candidate's campaign bank account. Any fee associated with the issuance of a cashier's check shall be deemed a direct campaign expenditure and reported on the candidate's campaign finance report.
- I.** If a participating candidate does not account for any outstanding expenditures in the amount of the funds returned to the Commission, the participating candidate must reconcile the outstanding expenditures with personal monies. Once funds have been returned to the Commission, no further reimbursements from the Clean Elections Fund shall be permitted. Participating candidates may not exceed the primary or general election spending limits.
- J.** Commission staff may waive the return of funds if:
1. The Commission staff determines the amount to be returned is de minimus;
  2. The Commission staff determines the cost of recovery exceeds the amount of the return;
  3. The funds to be returned shall not exceed \$25; and
  4. The Commission is notified of any waiver of the return of funds.

- B.** In the primary election period, the Commission shall sponsor political party primary election debates for every office in which:
1. There are more candidates appearing on the ballot than there are seats available for the political party's nomination for general election candidates, and

1. A nonparticipating candidate who requests a debate pursuant to this rule shall complete and return the invitation form sent to the candidate by the Commission by the

deadline identified on the form. Forms received by the Commission past the deadline may still be considered at the discretion of the Commission. Commission staff shall notify all invited candidates if a debate will be sponsored by the Commission and which candidates will participate.

2. If a candidate requests that the Commission sponsor a debate and fails or refuses to attend the debate, or a candidate agrees to participate in a debate and subsequently fails or refuses to attend the debate sponsored by the Commission, each candidate who fails or refuses to attend the debate shall reimburse the Commission for the cost of debate preparations not to exceed \$10,000 for a non-participating candidate for the legislature and \$25,000 for a non-participating candidate for statewide office. In the event that a candidate requests a general election debate or agrees to participate in a general election debate but does not advance to the general election, the candidate shall not be liable for the reimbursement.
- E. Pursuant to A.R.S. § 16-956(A)(2), all participating candidates certified pursuant to A.R.S. § 16-947 shall attend and participate in the debates sponsored by the Commission. No proxies or representatives are permitted to participate for any candidate and no statements may be read on behalf of an absent candidate.
- F. Unless exempted, if a participating candidate fails to participate in any Commission-sponsored debate, the participating candidate shall be fined \$500.00. For purposes of this Section, each primary or general election shall be considered a separate election.

  2. State the reasons and circumstances justifying the request for exemption.
- H. After examining the request to be exempt, the Commission will exempt a candidate from participating in a debate if at least three Commissioners determine that the circumstances are:
  1. Beyond the control of the candidate; or
  2. Of such nature that a reasonable person would find the failure to attend justifiable or excusable.
- I. A participating candidate who fails to participate in a required debate may submit a request for excused absence to the Commission.
  1. The candidate's request for excused absence shall:
    - a. State the reason the candidate failed to participate in the debate, and
    - b. State the reason the candidate failed to request an exemption in advance, and
    - c. Be submitted to the Commission no later than five business days after the date of the debate the candidate failed to attend.
  2. After examining the request for excused absence, the Commission may excuse a candidate from the penalties imposed if at least three Commissioners determine that the circumstances were:
    - a. Beyond the control of the candidate; or
    - b. Of such nature that a reasonable person would find the failure to attend justifiable or excusable.
- J. When a participating candidate is not opposed in the general election, the candidate shall be exempt from participating in a Commission-sponsored debate for the general election.
- K. In the event that a participating candidate is opposed in the primary election or general election but is the only candidate taking part in a primary election period or general election period

debate, as applicable, the debate will be held and will consist of a 30-minute question and answer session for the single participating candidate. If the Commission takes no action within the seven-day time period, the withdrawal is automatic.
- B. A candidate's participating candidate status shall automatically terminate if:
  1. The candidate fails to make such submissions to the Secretary of State as prescribed in R2-20-105(B) within seven days after the end of the qualifying period, or
  2. The candidate is denied Clean Elections funding by the Secretary of State and the candidate is ineligible to make a supplemental filing with the Secretary of State in accordance with R2-20-105(G).
- C. A candidate whose participating candidate status has been terminated in accordance with this Section shall be ineligible to receive Clean Elections funding for that election cycle unless he/she reapplies for certification and is in compliance with R2-20-104(A) and (C).
- D. In the event that a candidate who has collected qualifying contributions decides not to seek certification as a participating candidate, the candidate shall return all qualifying contributions received from contributors who have not given written permission to use their qualify contributions as campaign contributions. Written permission may include a check box on the original \$5 form that authorizes a candidate to treat the qualifying contribution as a general campaign contribution if he or she decides not to participate in the Clean Elections system. If a good faith attempt to return the funds to the contributor is unsuccessful, the contributions shall be submitted to the Fund.

Subsection R2-20-109(B)(4) does not apply to reports pursuant to A.R.S. §§ 16-941(D) and -958 or this subsection. Any expenditure advocating against one or more candidates shall be considered an expenditure on behalf of any opposing candidate(s). Penalties shall be assessed as follows:

    - b. For an election involving a legislative candidate, the civil penalty shall be \$100 per day.

      - i. For purposes of this provision, a "reportable contribution" or "reportable expenditure" shall be limited to a contribution or expenditure, as defined in title 16 of the Arizona revised statutes, that must be reported to the Arizona secretary of state, the Arizona citizens clean elections commission, or local filing officer in Arizona. - b. Notwithstanding section a above, the commission may nonetheless determine that an entity is not a political committee if, taking into account all the facts and circumstances of grants made by an entity, it is not persuaded that the preponderance of the evidence establishes that the entity is a political committee as defined in title 16 of Arizona Revised Statutes.

**R2-20-110. Participating Candidate Reporting Requirements**

- A. All participating candidates shall file campaign finance reports that include all receipts and disbursements for their current campaign account as follows:
1. Expenditures for consulting, advising, or other such services to a candidate shall include a detailed description of what is included in the service, including an allocation of services to a particular election. When appropriate, the Commission may treat such expenditures as though made during the general election period.
  2. If a participating candidate makes an expenditure on behalf of the campaign using personal funds, the candidate's campaign shall reimburse the candidate within seven calendar days of the expenditure. After the 7 day period has passed, the expenditure shall be deemed an in-kind contribution subject to all applicable limits.
  3. A candidate may authorize an agent to purchase goods or services on behalf of such candidate, provided that:
    - a. Expenditures shall be reported as of the date that the agent promises, agrees, contracts or otherwise incurs an obligation to pay for the goods or services;

    - c. Within seven calendar days of the date upon which the amount of the expenditure is known, the candidate shall pay such amount from the candidate's campaign account to the agent who purchases the goods or services.
  4. A joint expenditure is made when two or more candidates agree to share the cost of goods or services. Candidates may make a joint expenditure on behalf of one or more other campaigns, but must be authorized in advance by the other candidates involved in the expenditure, and must be reimbursed within seven days. Participating candidates may participate in joint expenditures for the cost of goods and services with one or more candidates, subject to the following:
    - a. Joint expenditures must be allocated fairly among candidates. An allocated share of a joint expenditure paid by one candidate pursuant to such an agreement must be reimbursed within seven days.
    - b. Any violator of part (a) shall be liable for a penalty pursuant to R2-20-222, in addition to penalties prescribed by any other law.
    - c. If a fairly allocated share of any joint expenditure is not reimbursed to a candidate, the unreimbursed amount of the joint expenditure fairly allocated to that candidate shall be deemed a contribution to that candidate by the campaign committee of the candidate obligated to reimburse the share.
    - d. If a fairly allocated share of any joint expenditure is not reimbursed to a participating candidate, the candidate obligated to reimburse the share shall reimburse the fund for the unreimbursed amount of the joint expenditure fairly allocated to the obligated candidate, in addition to any penalty specified by law.
    - e. A candidate's payment for an advertisement, literature, material, campaign event or other activity shall

**R2-20-704. Repayment**

- A.** In general, the Commission may determine that a participating candidate who has received payments from the Fund must repay the Fund as determined by the Commission.
1. A candidate who has received payments from the Fund shall pay the Fund any amounts that the Commission determines to be repayable. In making repayment determinations, the Commission may utilize information obtained from audits and examinations or otherwise obtained by the Commission in carrying out its responsibilities.
  2. The Commission will notify the candidate of any repayment determinations made under this Section as soon as possible.
  3. Once the candidate receives notice of the Commission's repayment determination, the candidate should give preference to the repayment over all other outstanding obligations of the candidate, except for any taxes owed by the candidate.
  4. Repayments may be made only from the following sources: personal funds of the candidate, funds in the candidate's current election campaign account, and any additional funds raised subject to the limitations and prohibitions of the Act.
  5. The Commission may withhold the portion of funds required to be repaid from future payments to a participating candidate if the Commission has made a repayment determination.
- B.** The Commission may determine that a participating candidate who has received payments from the Fund must repay the Fund under any of the following circumstances:
1. Payments in excess of candidate's entitlement. If the Commission determines that any portion of the payments made to the candidate was in excess of the aggregate payments to which such candidate was entitled, it will so notify the candidate, and such candidate shall pay to the Fund an amount equal to such portion.
  2. Use of funds not for direct campaign expenses. If the Commission determines that any amount of any payment to an eligible candidate from the Fund was used for purposes other than direct campaign purposes described in R2-20-702, it will notify the candidate of the amount so used, and such candidate shall pay to the Fund an amount equal to such amount.
  3. Expenditures that were not documented in accordance with campaign finance reporting requirements, expended in violation of state or federal law, or used to defray expenses resulting from a violation of state or federal law, such as the payment of fines or penalties.
  4. Surplus. If the Commission determines that a portion of payments from the Fund remains unspent after all direct campaign expenses have been paid, it shall so notify the candidate, and such candidate shall pay the Fund that portion of surplus funds.
  5. Income on investment or other use of payments from the Fund. If the Commission determines that a candidate received any income as a result of an investment or other use of payments from the Fund, it shall so notify the candidate, and such candidate shall pay to the Fund an amount equal to the amount determined to be income, less any federal, state or local taxes on such income.
  6. Unlawful acceptance of contributions by an eligible candidate. If the Commission determines that a participating candidate accepted contributions, other than early contributions or qualifying contributions, it shall notify the candidate of the amount of contributions so accepted, and the candidate shall pay to the Fund an amount equal to such amount, plus any civil penalties assessed.
- C.** Repayment determination procedures. The Commission's repayment determination will be made in accordance with the following procedures:
1. Repayment determination. The Commission will send a repayment determination pursuant to Article 2, Compliance and Enforcement Procedures, and will set forth the legal and factual reasons for such determination, as well as the evidence upon which any such determination is based. The candidate shall repay, in accordance with subsection (D), the amount that the Commission has determined to be repayable.
  2. Administrative review of repayment determination. If a candidate disputes the Commission's repayment determination, he or she may request an administrative appeal of the determination in accordance with A.R.S. § 41-1092 et. seq.
- D.** Repayment period.
1. Within 30 days of service of the notice of the Commission's repayment determination, the candidate shall repay the amounts the Commission has determined must be repaid. Upon application by the candidate, the Commission may grant an extension of time in which to make repayment.
  2. If the candidate requests an administrative appeal of the Commission's repayment determination of this Section, the time for repayment will be suspended until the Commission has concluded its review of the Administrative Law Judge's (ALJ) decision. Within 30 days after service of the notice of the Commission's review of the ALJ's decision, the candidate shall repay the amounts that the Commission has determined to be repayable. Upon appli-

cation by the candidate, the Commission may grant an extension of up to 30 days in which to make repayment.

3. Interest shall be assessed on all repayments made after the initial 30-day repayment period or the 30-day repayment period established by this Section. The amount of interest due shall be the greater of:
  - a. An amount calculated in accordance with A.R.S. § 44-1201(A); or
  - b. The amount actually earned on the funds set aside or to be repaid under this Section.

- B. The Commission may make additional repayment determinations after it has made an initial repayment determination pursuant to R2-20-704. The Commission may make additional repayment determinations where there exist facts not used as the basis for any previous determination. Cutting boards may be of hard wood or synthetic material, but equipment, such as the framework of boning or cutting tables, scalding vats, offal racks and trees, product storage racks, and product trucks shall be of metal construction. Rusty or worn-out equipment shall be replaced.
- b. All equipment shall be thoroughly cleaned following each day's operations. The use of a clear, colorless, odorless, tasteless, edible mineral oil may be used on metal equipment, such as choppers, grinders, mixers, tables, meat trucks, offal racks, hooks, and trolleys. Scale shall not be permitted to accumulate on metal equipment.

The sterilizer shall be equipped with a cold water and steam line, or other means to maintain water at a temperature of at least 180° F during slaughtering operations. The sterilizer shall contain a drain so that water may be completely drained out for daily cleaning. Boilers and water heaters shall not be located in the slaughtering department or in any edible products department. To prevent possible back siphonage, vacuum breakers shall be provided on all steam and water lines when open ends are submerged or connected to equipment.

1). Section expired under A.R.S. § 41-1056(E) at 8 A.A.R. 3755, effective May 10, 2002 (Supp. 02-3). Section made by final exempt rulemaking at 26 A.A.R. 916, with an immediate effective date of April 9, 2020 (Supp. 20-2).

**R3-2-1108. Types of Grading Service**

- A. Scheduled continuous grading service on a resident basis and continuous grading service on a nonresident basis. Service on a resident basis has a scheduled tour of duty, while service on a nonresident basis has a nonscheduled tour of duty, but is of a reoccurring nature. Both of these services are performed when an applicant requests that an AZDA/inspector grader be stationed in the applicant's processing plant and grade eggs in accordance with U.S. Standards. The applicant agrees to comply with the facility, operating, and sanitary requirements of resident service. The charges for resident grading services are based on the hours of the regular tour of duty. Eggs graded under AZDA resident grading service are only eligible to be identified with the official grademarks shown in R3-2-1111 when processed and graded under the supervision of a grader/inspector, or quality assurance inspector as provided in R3-2-1114.
- B. Unscheduled temporary grading service. Temporary grading service is performed when an applicant requests resident grading on a fee basis. The applicant must meet all of the facility, operating, and sanitary requirements of resident service. Charges or fees are based on the time and expenses needed to perform the work. Eggs graded under temporary grading service are only eligible to be identified with the official AZDA grademarks when they are processed and graded under the supervision of a grader or quality assurance inspector as provided in R3-2-1114.
- C. Auditing service. Auditing service is performed when an applicant requests independent verification of written quality assurance and value added standards for production, processing, and distribution of eggs. Charges or fees are based on time, travel, and expenses needed to perform the work.
- D. The Department shall determine the number of graders needed to perform grading services. Recipients shall not ask AZDA graders to assume plant managerial responsibilities.

**Historical Note**

Section R3-2-1108 recodified from R3-2-108 (Supp. 97-1). Section expired under A.R.S. § 41-1056(E) at 8 A.A.R. 3755, effective May 10, 2002 (Supp. 02-3). Section made by final exempt rulemaking at 26 A.A.R. 916, with an immediate effective date of April 9, 2020 (Supp. 20-2).

**R3-2-1109. Suspension of Grading Service or Plant Approval for Correctable Cause**

- A. Provision of grading services is a privilege and not a right. Any plant approval of grading services given pursuant to this Article may be suspended by the Administrator for:
  1. Failure to maintain grading facilities and equipment in a satisfactory state of repair, sanitation, or cleanliness.
  2. The use of operating procedures which are not in accordance with this Article;
  3. Alterations of grading facilities or equipment which have not been approved in accordance with this Article; or
  4. Any reasons listed under R3-2-1105(D) "Denial of Service," or required by any other need to protect public health, safety, or welfare.
- B. Suspension may occur prior to the right to have a hearing in cases in which immediate suspension is required to protect public health, safety, or welfare. Whenever it is feasible to do so, written notice in advance of such suspension of plant

approval shall be given to the person concerned and shall specify a reasonable period of time in which corrective action must be taken. If advance written notice is not given, the action shall be promptly confirmed in writing after the suspension and the reasons therefor shall be stated, except in instances where the person has already corrected the deficiency. During such period of suspension, grading service shall not be rendered. After appropriate corrective action is taken, grading service will be restored immediately, or as soon thereafter as a grader can be made available.

- C. If the grading facilities or methods of operation are not brought into compliance within a reasonable period of time as specified by the Administrator, the Administrator shall send formal notice of the suspension pursuant to A.R.S. Title 41, Chapter 6, Article 10. Any suspension shall continue in effect pending the outcome of a hearing unless otherwise ordered by the Administrator.
- D. Upon suspension of grading service, all grademarks (labels, seals, tags, or packaging material bearing other official identification), shall, under the supervision of a person designated by the AZDA, be destroyed, obliterated, or sequestered in a manner acceptable to the AZDA.
- E. In any case where grading service is suspended under this Section, the person concerned may thereafter apply for grading service once the conditions giving rise to the suspension or withdrawal have been remediated.

Packaging materials bearing official identification marks shall be approved pursuant to R3-2-1110 to R3-2-1111, inclusive, and shall be used only for the purpose for which approved and prescribed by the Administrator. Any unauthorized use or disposition of approved labels or packaging materials which bear any official AZDA identification may result in cancellation of grading service, denial of the permission to use of labels or packaging materials bearing official identification, or denial of other benefits of the Act pursuant to the provisions of R3-2-1105 D.
- B. Approval of official identification. No label, container, or packaging material which bears official identification may contain any statement that is false or misleading. No label, container, or packaging material bearing official identification may be printed or prepared for use until the printers' or other final proof has been approved by the Administrator in accordance with this Article. It is the recipient's responsibility to ensure label compliance with the Federal Food, Drug, and Cosmetic Act, the Fair Packaging and Labeling Act, and the regulations promulgated under this Article. The use of finished labels must be approved as prescribed by the Administrator. A grader may apply official identification stamps to shipping containers if they do not bear any statement that is false or misleading. If the label is printed or otherwise applied directly to the container, the principal display panels of such container shall for this purpose be considered as the label. The label shall contain the name, address, and ZIP Code of the packer or

distributor of the product, the name of the product, a statement of the net contents of the container, and the AZDA grademark.

- C. Nutritional labeling. Nutrition information must be included on the labeling of each unit container of consumer packaged eggs in accordance with the General Regulations for the Enforcement of the Federal Food, Drug, and Cosmetic Act and the Fair Packaging and Labeling Act, located at 21 CFR §§ 101.1 to 101.108. The nutrition information included on labels is subject to review by the Food and Drug Administration prior to approval by the Department.
- D. Refrigeration labeling. All containers bearing official AZDA "Grade AA" or "Grade A" identification shall be labeled to indicate that refrigeration is required, for example, "Keep refrigerated," or words of similar meaning.

An appeal grading may be requested by any recipient or authorized designee or other interested party ("appellant") who is dissatisfied with the determination by a grader of the class, quality, quantity, or condition of any product as evidenced by the AZDA grademark and accompanying label, or as stated on a grading certificate.
1. The appeal shall be filed with the original grader's immediate supervisor.
  2. Initial review of the appeal shall be made by the original grader's immediate supervisor, or by one or more licensed graders assigned by the immediate supervisor to review the appeal.

## CHAPTER 2. DEPARTMENT OF AGRICULTURE - ANIMAL SERVICES DIVISION

2. An appeal may be made orally or in writing. If made orally, written confirmation is required. The appellant shall clearly state the reasons for requesting the appeal grading and a description of the product, or the decision which is questioned. If such appeal request is based on the results stated on an official certificate, the original and all available copies of the certificate shall be provided to the grader assigned to perform the appeal grading.
  3. The appellant's request for the appeal grading may be refused when it appears to the reviewer that the reasons given in the request are frivolous or not substantial, the quality or condition of the product has undergone a material change since the original grading, the original lot has changed in some manner, or the appellant has not materially complied with the requirements of this Article. In such case, the appellant shall be promptly notified of the reason or reasons for such refusal.

  5. The following procedures shall be used for appeal grading:
    - a. The appeal sample shall consist of product taken from the original sample container plus an equal number of samples selected at random.

    - c. Eggs shall not have been moved from the original place of grading and must have been maintained under adequate refrigeration.
  6. Immediately after an appeal grading is completed, an appeal certificate shall be issued to show that the original grading was upheld, modified, or rejected. Such certificate shall supersede any previously issued certificate for the product involved and shall clearly identify the number and date of the superseded certificate. The issuance of the appeal certificate may be withheld until any previously issued certificate and all copies have been returned when such action is deemed necessary to protect the interest of the Department. When the appeal grader assigns a different grade to the lot, the existing AZDA grademark shall be changed or obliterated as necessary. When the appeal grader assigns a different class or quantity designation to the lot, the labeling shall be corrected.
- B.** Appeal for suspension, termination or denial of service or debarment. Any person whose grading service is suspended, terminated, denied service, or debarred, may request a hearing before an administrative law judge pursuant to A.R.S. Title 41, Chapter 6, Article 10. When requested, a grader shall issue a certificate covering product graded by such grader. In addition, a grader may issue a grading certificate covering product graded in whole or in part by another grader when the grader has knowledge that the product is eligible for certification based on personal examination of the product or official grading records.
    2. Other than resident grading. Each grader shall, in person or by the grader's authorized agent, issue a grading certificate covering each product graded by such grader. A grader's name may be signed on a grading certificate by a person other than the grader, if such person has been designated as the authorized agent of such grader by the Administrator, provided that:
      - a. The certificate is prepared from an official memorandum of grading signed by the grader; and
      - b. A notarized power of attorney authorizing such signature has been issued to such person by the grader and is on file in the office of grading. In such case, the authorized agent shall sign both the agent's name and the grader's name, for example, "John Doe by Mary Roe."
- C.** Disposition. The original and required or requested copies of the grading certificate, immediately upon issuance, shall be delivered, mailed, or electronically submitted to the recipient or the recipient's designee. One copy is required to be sent and the recipient may request additional copies. Other copies shall be filed and retained in accordance with the disposition schedule for grading program records.

The floors, walls, ceilings, partitions, and other parts of the grading and packing rooms including benches and platforms shall be constructed of materials that are readily cleanable, maintained in a sanitary condition, and impervious to moisture in areas exposed to cleaning solutions or moist conditions. The floors shall be constructed as to provide proper drainage.
  6. Adequate toilet accommodations that are conveniently located and separated from the grading and packing rooms are to be provided. Handwashing facilities shall be provided with hot and cold running water, an acceptable handwashing detergent, and a sanitary method for drying hands. Toilet rooms shall be ventilated to the outside of the building and be maintained in a clean and sanitary condition. Signs shall be posted in the toilet rooms instructing employees to wash their hands before returning to work. In new or remodeled construction, toilet rooms shall be located in areas that do not open directly into processing rooms.
  7. A separate refuse room or a designated area for the accumulation of trash must be provided in plants which do not have a system for the daily removal or destruction of such trash.
  8. Adequate packing and packaging storage areas are to be provided that protect packaging materials and are dry and maintained in a clean and sanitary condition.
- E. Grading and packing room requirements.**
1. The egg grading or candling area shall be capable of adequate darkening to make possible the accurate quality determination of the candled appearance of eggs. There shall be no light source or reflection of light that interferes with, or prohibits the accurate quality determination of eggs in the grading or candling areas.
  2. The grading and candling equipment shall provide adequate light to facilitate quality determinations. When needed, other light sources and equipment or facilities shall be provided to permit the detection and removal of stained and dirty eggs or other undergrade eggs.
  3. The grading and candling equipment must be sanitarily designed and constructed to facilitate cleaning. Such equipment shall be kept reasonably clean during grading and packing operations and be thoroughly cleaned at the end of each operating day.
  4. Egg weighing equipment shall be constructed of materials to permit cleaning; operated in a clean, sanitary manner; and shall be capable of ready adjustment.
  5. Adequate ventilation, heating, and cooling shall be provided where needed.
- F. Cooler room requirements.**
1. Cooler rooms holding eggs that are identified with a consumer grade shall be refrigerated and capable of maintaining an ambient temperature no greater than 45 °F (7.2 °C).
  2. Accurate thermometers shall be provided for monitoring cooler room temperatures.
  3. Cooler rooms shall be free from objectionable odors and from mold, and shall be maintained in a sanitary condition.
- G. Egg protecting operations.**
1. Egg protecting (oil application) operations shall be conducted in a manner to avoid contamination of the product and maximize conservation of its quality.
  2. Component equipment within the egg protecting system, including holding tanks and containers, must be sanitarily designed and maintained in a clean and sanitary manner, and the application equipment must provide an adequate amount of oil for shell coverage of the volume of eggs processed.
  3. Eggs with excess moisture on the shell shall not be shell protected.
  4. Oil having any off odor, or that is obviously contaminated, shall not be used in egg protection operations. Oil is to be filtered prior to application.
  5. The component equipment of the application system shall be washed, rinsed, and treated with a bactericidal agent each time the oil is removed.
  6. Adequate coverage and protection against dust and dirt shall be provided when the equipment is not in use.
- H. Egg cleaning operations.**
1. Egg washing equipment must be sanitarily designed, maintained in a clean and sanitary manner, and thoroughly cleaned at the end of each operating day.
  2. Egg drying equipment must be sanitarily designed and maintained in a clean and sanitary manner. Air used for drying purposes must be filtered. These filters shall be cleaned or replaced as needed to maintain a sanitary process.
  3. The temperature of the wash water shall be maintained at 90 °F (32.2 °C) or higher, and shall be at least 20 °F (6.7 °C) warmer than the internal temperature of the eggs to be washed. These temperatures shall be maintained throughout the cleaning cycle. Accurate thermometers shall be provided for monitoring wash water temperatures.
  4. Approved cleaning compounds shall be used in the wash water.
  5. Wash water shall be maintained at a measurable pH level of 11 or higher. Accurate testing equipment shall be provided and accessible to the grader. If continuous monitoring of pH is not possible, the applicant should devise a monitoring system for documenting pH with a frequency that has been validated.
  6. Wash water shall be changed approximately every four hours or more often if needed to maintain sanitary conditions, and at the end of each shift. Remedial measures shall be taken to prevent excess foaming during the egg washing operation.
  7. Replacement water shall be added continuously to the wash water of washers. Chlorine or quaternary sanitizing rinse water may be used as part of the replacement water, provided, they are compatible with the washing compound. Iodine sanitizing rinse water may not be used as part of the replacement water.
  8. Only potable water may be used to wash eggs. Each official plant shall submit certification to the office of grading stating that their water supply is potable. An analysis of the iron content of the water supply, stated in parts per million, is also required. When the iron content exceeds two parts per million, equipment shall be provided to reduce the iron content below the maximum allowed level. Frequency of testing for potability and iron content

## CHAPTER 2. DEPARTMENT OF AGRICULTURE - ANIMAL SERVICES DIVISION

shall be determined by the Administrator. When the water source is changed, new tests are required.

9. Waste water from the egg washing operation shall be piped directly to drains.
  10. The washing, rinsing, and drying operations shall be continuous and shall be completed as rapidly as possible to maximize conservation of the egg's quality and to prevent sweating of eggs. Eggs shall not be allowed to stand or soak in water. Immersion-type washers shall not be used.
  11. Prewetting eggs prior to washing may be accomplished by spraying a continuous flow of water over the eggs in a manner which permits the water to drain away or other methods which may be approved by the Administrator. The temperature of the water shall be the same as prescribed in this Section.
  12. Washed eggs shall be spray-rinsed with water having a temperature equal to, or warmer than, the temperature of the wash water. The spray-rinse water shall contain a sanitizer that has been determined acceptable for the intended use by the supervisor and of not less than 100 PPM nor more than 200 PPM of available chlorine or its equivalent. Alternate procedures, in lieu of a sanitizer rinse, may be approved by the Administrator.
  13. Test kits shall be provided and used to determine the strength of the sanitizing solution.
  14. During non-processing periods, eggs shall be removed from the washing and rinsing area of the egg washer and from the scanning area whenever there is a buildup of heat that may diminish the quality of the egg.
  15. Washed eggs shall be reasonably dry before packaging and packing.
  16. Steam, vapors, or odors originating from the washing and rinsing operation shall be continuously and directly exhausted to the outside of the building.
- I. Requirements for eggs officially identified with a grademark.**
1. Eggs that are officially identified with an AZDA grademark shall be placed under refrigeration at an ambient temperature no greater than 45 °F (7.2 °C) promptly after packaging.
  2. Eggs that are to be officially identified with the AZDA grademark shall be packed only in new packaging materials that are clean, free of mold, mustiness and off odors, or clean and sanitized packaging material designed to be reused, and must be of sufficient strength and durability to adequately protect the eggs during normal distribution. When packed in other than fiber packing material, the containers must be of sound construction and maintained in a reasonably clean manner.
- J. Use of approved chemicals and compounds.**
1. All egg washing and equipment cleaning compounds, defoamers, destainers, sanitizers, inks, oils, lubricants, or any other compound that comes into contact with the eggs shall be approved by the national supervisor for their specified use and handled in accordance with the manufacturer's instructions.
  2. All pesticides, insecticides, and rodenticides shall be approved for their specified use and handled in accordance with the manufacturer's instructions.
- K. Marking individual eggs.** The marking of individual eggs may be requested by processors as part of a specification requirement or for other marketing purposes.
1. Stamping eggs. Recognizing the difficulty in clearly stamping the rounded surface of an egg, a lot average tolerance of 10-percent for individual eggs with partial, illegible, or no marks in any combination is permitted with no individual case exceeding 20-percent. These tol-

erances may be applied as a moving average when performing online sampling or as a lot average while performing stationary lot gradings. If more than 50% of the image or letter or letters is missing, the symbol is illegible. Stamped eggs are not classified as stains or dirty. They are to be graded without regard to marking. An official grade cannot be assigned to a mixed lot of eggs that contains individually marked and unmarked eggs. If requested, the lot may be graded for all factors except ink stains. Lot averages may be shown on the certificate. The section "Official Grade and Size" shall state "No AZDA Grade." The following statement shall also be placed in the "Remarks" section: "Lot contains marked and unmarked eggs. Eggs graded for all factors except ink stains." Individual eggs with ink blotches or smears from dating devices are to be classified as stains or dirty, depending on the intensity and/or area of the stain [guidance not clear]. Inks used in marking individual eggs which will be officially graded are to be approved by the Administrator prior to their use. The request for approval should be accompanied with a copy of the ink formula, the name of the product, and the name and address of the manufacturer.

2. Laser etching (marking eggs). The use of a laser etching system to mark information is subject to joint review by the Food and Drug Administration (food safety impact evaluation) and AZDA (quality impact evaluation). Only approved laser etching systems may be used to identify eggs to be officially graded and identified with an AZDA grademark. The amount of the shell surface available for laser etching and the information etched on the shell is subject to review by the resident grader and the supervisor. The information etched on the shell must not interfere with the graders ability to evaluate the quality attributes of the egg.
3. When an individual egg is marked, whether an applied ink or laser etched, the information must be consistent with the information on the label, for example, any marketing claims, production code, or packer identity. If this information is not consistent throughout the lot, the eggs are not eligible to be identified with an AZDA grademark.

Section made by final exempt rulemaking at 26 A.A.R. 916, with an immediate effective date of April 9, 2020 (Supp. 20-2).

**R3-2-1123. Health and Hygiene of Personnel**

- A.** No person known to be affected by a communicable or infectious disease shall be permitted to come in contact with the product.
- B.** Plant personnel coming into contact with the product shall wear clean clothing.

**Historical Note**

Section made by final exempt rulemaking at 26 A.A.R. 916, with an immediate effective date of April 9, 2020 (Supp. 20-2).

**R3-2-1124. Use of the "Produced From" Labeling**

- A.** Use of the wording "Produced From" in conjunction with the AZDA grademark, is limited to products derived from AZDA Grade AA or Grade A eggs for which there are no U.S. grade standards (for example, pasteurized eggs or hard-cooked eggs). The following guidelines are to be used when monitoring the official grade identification of these types of products.

## CHAPTER 2. DEPARTMENT OF AGRICULTURE - ANIMAL SERVICES DIVISION

1. Approval. Applicants interested in utilizing the “Produced From” labeling must submit a written proposal to the Administrator. The proposal is to include the type or types of product to be labeled and the applicant’s plan for controlling the use and labeling of officially identified product. After review by the supervisor, the supervisor is to forward the request to the Administrator for final review and approval. Upon approval, the supervisor is to reconfirm all of the requirements with the applicant prior to any actual grade identification.
  2. Verification visits. To assure that only officially graded eggs are being used, the processing, packing, and packaging must be closely monitored. Each verification visit shall include a review of records, product inventory, processing procedures, packing, packaging, storage, and shipping practices to confirm that the applicant is following the protocol outlined in their approved plan. In plants with resident service, the supervisor or Administrator is to be present during the initial production period to monitor the process and verify compliance. The grader will conduct all subsequent monitoring and verification activities with oversight from the supervisor. In temporary or fee locations, plant management must notify the supervisor each time the “produced from” labeling will be used or, alternatively, provide the supervisor with a projected production schedule. At these locations, compliance will be based on the applicant’s established history of compliance as outlined in the following schedule:
    - a. Level 1 - The supervisor or administrator is to monitor and verify the process on the initial day of production. The supervisor or a grader will conduct subsequent visits. At least one additional verification visit is to be conducted during the next 10 production days. If no discrepancies are noted, one visit is to be conducted for each 30 days of production until three consecutive satisfactory visits have been completed. Once this verification period has ended without any noted program non-conformance, monitoring may proceed to Level 2.
    - b. Level 2 - Supervisor or a grader is to conduct quarterly verification visits provided the applicant continues to meet all program requirements. If any nonconformance is noted during these visits, monitoring reverts back to Level 1. Misuse of the labeling will result in cancellation of the approval.
  - B. Recordkeeping. Recipients shall maintain, and make available for review, all invoices or applicable Grading Certificates covering product received, produced, and shipped. At a minimum, these records must include the name and address of original packer, amount received, quantity produced, brand names, lot numbers, quantity shipped and name and address of receivers. Records must be maintained for two years.
  - C. Cost. There will be no additional charge to resident plants when graders monitor product labeling during their normal grading activities. When graded product is shipped from official plants to other processing locations for re-packaging that are not under continuous AZDA supervision, time and expenses associated in conducting the verification visits will be charged to the recipient at the current Temporary grading and auditing service rate.
- Historical Note**  
Section made by final exempt rulemaking at 26 A.A.R. 916, with an immediate effective date of April 9, 2020 (Supp. 20-2).
- R3-2-1125. Specification Grading**
- A. Applicants may request for additional specifications to be certified that exceed the standards of this Chapter. The requested specifications must be submitted in writing to the administrator for approval. The approving official will review the information for approval or advise the applicant of the reason or reasons for disapproval. If the specification is approved, a letter enclosing a copy of the approved application and specification will be returned to the applicant with a request to provide copies of the specification to each supplier and applicable AZDA grader. Each page of the approved specification will have an approval stamp bearing the date of approval and the signature of the approving official. Additionally, each page will be sequentially numbered such as page 1 of 5, page 2 of 5, etc.
  - B. Plant management is responsible for advising graders when they are preparing to pack eggs in accordance with an approved specification. However, each grader must be familiar with the approved specification list and, to the extent practically possible, be aware when products with approved specifications are being packed at the duty location. When a plant packs product requiring compliance with an approved specification, the grader shall obtain a copy of the specification from plant management and assure that all provisions of the specification are met. As applicable, product that meets specification requirements will be identified in accordance with procedures outlined in the approved specification. When the specification requires the issuance of a grading certificate, the following statement is to be placed in the remarks section of the certificate: “Product covered by this certificate meets specification requirements for \_\_\_\_\_.”

## CHAPTER 26. BOARD OF PSYCHOLOGIST EXAMINERS

(Authority: A.R.S. § 32-2061 et seq.)

*Editor's Note: This Chapter contains amendments that were filed with the Secretary of State on March 3, 1995. At the time of filing, the original copy of the rulemaking package differed from the copy of the package filed at the same time. The Secretary of State uses the copy to prepare the Code supplement. The agency notified the Secretary of State that the wrong version was used. That led to the Secretary of State's discovery of the two versions filed in March 1995. The Secretary of State then used the original package to publish a corrected edition with Supp. 95-2. The Secretary of State has since been advised by the Attorney General that the original version as published with Supp. 95-1 was correct with the exception of one phrase in R4-26-207 that was inadvertently omitted. With this publication, this Chapter reflects the correct amendments, and the omitted phrase in R4-26-207 has now been added.*

**R4-26-202. Doctorate**

- A. The Board shall apply the following criteria to determine whether a doctoral program provided by an institution of higher education met the standards in A.R.S. § 32-2071(A)(2) at the time an applicant began the degree program:
  1. The program is identified and labeled as a psychology program if there were institutional catalogues and brochures that specified the intent of the institution of higher education to educate and train psychologists;
  2. The program stands as a recognized, coherent organizational entity if there was an organized sequence of courses comprising a psychology curriculum; and
  3. The program has clearly identified entry and exit criteria within its psychology curriculum if there were specific prerequisites for entrance into the program and delineated requirements for graduation.
- B. The Board shall verify that an applicant completed the hours in the subject areas described in A.R.S. § 32-2071(A)(4). For this purpose, the applicant shall have the institution of higher education that the applicant attended provide directly to the Board an official transcript of all courses taken and verification of the dissertation or similar project.
  1. The Board may require additional documentation from the applicant or from the institution to determine whether the applicant satisfied the requirements of A.R.S. § 32-2071(A)(4).
  2. The Board shall count five quarter hours or six trimester hours as the equivalent of three semester hours, as required under A.R.S. § 32-2071(A)(4). When an academic term is other than a semester, quarter, or trimester, 15 classroom contact hours equals one semester hour.
- C. To determine whether a comprehensive examination taken by an applicant as part of a doctoral program in psychology satisfies the requirements of A.R.S. § 32-2071(A)(4), the Board shall review documentation provided directly to the Board by the institution of higher education that granted the doctoral degree, that demonstrates how the applicant's comprehensive examination was constructed, lists criteria for passing, and provides the information used to determine that the applicant passed.
- D. The Board shall not accept as core program hours required under A.R.S. § 32-2071(A)(4) credit:
  1. For workshops, practica, undergraduate courses, life experiences, continuing education courses, or experiential or correspondence courses;
  2. Transferred from institutions that are not accredited under A.R.S. § 32-2071(A)(1); or
  3. For seminars, readings courses, or independent study unless the applicant proves that the course was an in-depth study devoted to a particular core program content area by submitting one or more of the following:
    - a. Course description in the official catalogue of the institution of higher education,
    - b. Course syllabus, or
    - c. Signed statement from a dean or psychology department head affirming that the course was an in-depth study devoted to a particular core program content area.

- E. The Board shall count a course or comprehensive examination only once to satisfy a requirement of A.R.S. § 32-2071(A)(4).
- F. An honorary doctorate degree does not qualify an applicant for licensure as a psychologist.

## TITLE 7. EDUCATION

## CHAPTER 2. STATE BOARD OF EDUCATION

Authority: A.R.S. § 15-201 et seq.

*Editor's Note: This Chapter contains rules in Articles 10 and 11 that were filed in 2015 but were adopted in 2014. The Office has corrected all Supp. 15-3 historical notes in these Articles to reflect the true effective year of the rules to July 1, 2014 (Supp. 18-2).*

*Editor's Note: This Chapter contains rules that were filed out of sequence by adoption date. The Office has made every effort to codify the previous filings with the current Chapter and update the historical references where necessary. Refer to the historical notes for more information (Supp. 16-2).*

*Editor's Note: Supp. 16-1 contains rules that were submitted as final exempt rules and approved by the Board February 25, 2008. Although approved by the Board in 2008, the rulemaking was not filed in the Secretary of State's Office for publication in this Chapter until 2016. The final exempt rulemaking was filed by the Board on January 6, 2016 (Supp. 16-1).*

*Editor's Note: Supp. 15-3 contains rules that were submitted as final exempt rules. Pursuant to the Board's rulemaking procedures a public hearing was held on the rules after they were proposed at a Board meeting. Even though the proposed rules were not published in the Register, the Office of the Secretary of State makes a distinction between exempt rulemakings and final exempt rulemakings. Final exempt rulemakings are those filed with conditional exemptions to the Arizona Administrative Procedures Act such as requirements to conduct a public hearing or accept public comments on a proposed exempt rulemaking. Although approved by the Board, these final exempt rulemakings were not filed with the Secretary of State's Office at the time of approval. Therefore these rules were in effect prior to the release of Supp. 15-3. Refer to the historical notes for effective dates.*

*Editor's Note: This Chapter contains rules made, amended, repealed, renumbered and approved by the State Board of Education that were exempt from the rulemaking process. Although approved by the Board, certain rulemakings were not filed with the Secretary of State's Office at the time of approval. These rulemakings were filed in 2009 and 2010 and printed as Exempt Rulemakings in the Arizona Administrative Register. The Office has expedited the publishing of these Sections in the Arizona Administrative Code because these rules were in effect prior to Supp. 09-1, Supp. 09-2, Supp. 09-3, Supp. 09-4, Supp. 10-1, Supp. 10-2, Supp. 10-3, Supp. 10-4, Supp. 11-1, and Supp. 12-2 releases. Refer to the historical notes for more information.*

An opposing party may, within 10 days after service of such motion, serve opposing affidavits and this period may be extended for an additional period not exceeding 20 days, by the Board for good cause shown or by written stipulation of the parties. **C.** The requirements for a personal curriculum are as follows:

1. An eligible student may only modify the mathematics requirement delineated in R7-2-302.02(1)(c)(ii) for Algebra II or its equivalent course content;

  - c. Develop a written personal curriculum plan that includes the alternative mathematics course or courses identified in subsection (D)(3)(b) and a plan for monitoring student progress toward successfully completing the alternative mathematics course or courses. In developing the personal curriculum plan the development team shall consider how the proposed modifications maintain the integrity of the high school diploma and enable the student to achieve the student's post-secondary education and career goals.

4. The development team may modify the personal curriculum plan based upon the development team's evaluation of the student's progress.

3. The LEA shall assess the English language proficiency of all new PHLOTE students as prescribed above within 60 days of the beginning of the school year or within 30 school days of a student's enrollment in school, whichever is later, unless the LEA receives funds under Title III of the Every Student Succeeds Act of 2015 or another federal grant that requires assessment and parental notification within 30 calendar days from the start of the school year or within two calendar weeks of a student enrolling at a school.

3. The curriculum of all English language learner programs shall incorporate the Academic Standards adopted by the Board and shall be comparable in amount, scope and quality to that provided to English language proficient students.

## CHAPTER 2. STATE BOARD OF EDUCATION

4. ELs who are not progressing toward achieving proficiency of the Arizona Academic Standards adopted by the Board, as evidenced by the failure to improve scores on the statewide assessment, shall be provided compensatory instruction to assist them in achieving those Arizona Academic Standards. A WICP describing the compensatory instruction provided shall be kept in the student's academic file.
  5. On request of a parent or legal guardian of an EL the principal of the EL's school shall require a meeting with the principal or principal's designee, the parent or legal guardian and the classroom teacher to review the student's progress in achieving proficiency in the English language or in making progress toward the Arizona Academic Standards adopted by the Board, to identify any problems, to determine appropriate solutions and to identify the person or persons responsible for implementing the changes and determining their effectiveness.
- F. Reassessment for reclassification.**
1. The purpose of reassessment is to determine if an EL has developed the English language skills necessary to succeed in the English language curricula.
  2. An EL in grades one through twelve may be reassessed for reclassification during test windows established by the Department if the mid-year test requirements are met, but shall be reassessed for reclassification at least once per year. ELs that score at or above the designated score for fluent English language proficiency, adopted by the Department and based on the test publishers' designated scores, shall be reclassified as FEP.
  3. LEAs shall notify the parents or legal guardians in writing that their child has been reclassified as FEP when the student meets the criteria for such reclassification.
- G. Evaluation of FEP students after exit from EL programs.**
1. The LEA shall monitor exited students based on the criteria provided in this Section during each of the two years after being reclassified as FEP to determine whether these students are performing satisfactorily in achieving the Arizona Academic Standards adopted by the Board. Such students will be monitored in reading, writing and mathematics skills and mastery of academic content areas, including science and social studies. The criteria shall be grade-appropriate and uniform throughout the LEA, and upon request, is subject to Board review. Students who are not making satisfactory progress shall, with parent consent, be provided compensatory instruction or shall be re-enrolled in an EL program. A WICP describing the compensatory instruction provided shall be maintained in the students' EL files.
  2. The LEA shall use statewide assessment scores to determine progress toward achieving the Arizona Academic Standards in monitoring FEP students after exit from an EL program unless no score is available. Performing satisfactorily will be measured by whether a student meets or exceeds the state standards in reading, writing, and mathematics as measured by the statewide assessment.
  3. If a statewide assessment score is not available because the test is not administered in the students' grade or to assess progress in academic subjects not assessed by the statewide assessment, the LEA shall use one or more of the following criteria in its evaluation to determine progress toward achieving the Arizona Academic Standards in monitoring FEP students after exit from an EL program:
    - a. LEA-developed criterion-referenced tests of academic achievement that demonstrate alignment to the Arizona Academic Standards; or
    - b. Standardized tests measuring academic achievement that demonstrate alignment to the Arizona Academic Standards; or
    - c. Nationally norm-referenced test scores; or
    - d. Teacher recommendations based on classroom assessments that demonstrate alignment to the Arizona Academic Standards.
- H. Monitoring of EL programs.**
1. Each year the Department shall monitor at least 32 LEAs, as follows:
    - a. At least 12 of the 50 LEAs with the highest EL enrollment;
    - b. At least 10 LEAs with ELs that are not included in the 50 described above;
    - c. At least 10 LEAs that have reported that they have 25 or fewer EL students in their schools; and
    - d. Other LEAs upon receipt of a documented written complaint from any Arizona resident, the U.S. Department of Education, or the U.S. Office for Civil Rights, alleging that the LEA is not complying with state or federal law regarding ELs.
  2. All of the 50 LEAs in subsection (H)(1)(a) shall be monitored by the Department at least once every four years.
  3. The monitoring shall be on-site monitoring and shall include classroom observations, curriculum reviews, faculty interviews, student records reviews, and review of EL programs. The Department may use personnel from other schools to assist in the monitoring.
  4. The Department shall issue a report on the results of its monitoring within 45 days after completing the monitoring. If the Department determines that an LEA is not complying with state or federal laws applicable to EL students, the LEA shall prepare and submit to the Department, within 60 days of the Department's determination, a corrective action plan that sets forth steps that the LEA will take to correct the deficiencies noted in the report.
  5. The Department shall review and return such corrective action plan to the LEA within 30 days, noting any required changes. No later than 30 days after receiving its corrective action plan back from the Department, the LEA shall begin implementing the measures set forth in the plan, including any revisions required by the Department.
  6. The Department shall conduct a follow-up evaluation of the LEA within one year after returning the corrective action plan to the LEA.
  7. If the Department finds continued non-compliance during the follow-up evaluation, the LEA shall be referred to the Board for a determination of non-compliance. If the Board determines the LEA to be out of compliance with state or federal laws applicable to EL students, it may take one or more of the following actions:
    - a. Temporarily withhold cash payments of federal EL grant monies;
    - b. Disallow (that is deny both use of funds and matching credit for) all or part of the cost of the activity or action not in compliance;
    - c. Wholly or partly suspend or terminate the current award of federal EL grant monies;
    - d. Withhold further awards of federal EL grant monies for the program.
  8. The Department shall monitor all LEAs that the Board has determined to be non-compliant and which have had federal EL grant monies withheld or terminated to ensure that such LEAs do not reduce the amount of funds spent on their EL programs as the result of its loss of funds.

7. "Structural integrity" means the structure of all parts of the printed instructional material will be kept intact to the extent feasible and as mutually agreed upon by the publisher and the local educational agency. This may include appropriate representation of graphic illustrations.

- C. Upon determination of a student having a visual impairment as assessed by a full and initial evaluation defined in R7-2-401(E)(6)(i), a visually impaired student who is determined to be blind as defined by A.R.S. § 15-214(B) shall receive an individualized Braille literacy assessment.

- D. Individualized Education Programs (IEP) for blind students. In addition to the requirements for establishing and implementing an IEP consistent with R7-2-401(F) for a student determined to have a disability, each IEP for a student determined to be "blind" as assessed by R7-2-401(E)(6)(i) and defined by A.R.S. § 15-214(B), shall presume that proficiency in Braille is essential in achieving academic success unless otherwise determined by the IEP team established consistent with the regulations for the most recent reauthorization of the Individuals with Disabilities Education Act (IDEA) and in the manner provided by the most recent reauthorization of the IDEA Act for developing an IEP. An IEP developed under this Section for a student determined to be blind shall include all required provisions of A.R.S. § 15-214(A)(3), including the following:

1. The results of the individualized Braille literacy assessment.
2. The date on which Braille instruction will begin, the methods to be used and the frequency and duration of the Braille instruction.

- E. The Arizona Department of Education shall designate a central repository for publishers to, upon request, provide accessible electronic files for instructional materials used by public schools in Arizona as defined in subsection (B)(1). The central repository shall be responsible for maintaining a complete list of available accessible electronic files for instructional materials and instructional materials in specialized formats, processing requests from PEAs for instructional materials in specialized formats and providing access to these materials in specialized formats to schools throughout Arizona that are providing services to blind or other students with disabilities.

1. Upon receipt of a written request certifying to the requirements set forth in subsections (E)(1)(a) through (c) publishers shall deliver to the repository, at no additional cost and consistent with the time-frame for providing materials for students without disabilities, accessible electronic files for printed instructional materials and non-printed instructional materials. Certification shall include all of the following:

- a. The PEA purchased a copy of the printed instructional material or non-printed instructional material for use by a student who is blind or has a visual impairment in a course that the student is attending or registered to attend;

## CHAPTER 2. STATE BOARD OF EDUCATION

  - c. The instructional materials are for use by the student in connection with a course in which he or she is enrolled, as verified by the person overseeing the education of students who are blind or visually impaired.
2. A PEA may access the materials maintained by the central repository, upon written request, for instructional use with a student with a visual impairment, as identified by R7-2-401(E)(6)(i), who requires the use of instructional materials in a specialized format pursuant to the student's IEP.
  3. Nothing in this Section shall be construed to prohibit the central repository from assisting a student with a disability by using the electronic format version of instructional material provided pursuant to this Section solely to transcribe or arrange for the transcription of the printed instructional material into Braille or large print. In the event a Braille transcription is made, the central repository has the right to share the Braille copy of the printed instructional material with other eligible students with disabilities. The PEA will be required to return the specialized format version of the instructional material to the central repository when the student no longer needs the instructional material. The central repository may share the copies of the specialized format of the instructional material with other PEAs who have met the requirements of subsections (B) and (D) of this Section to provide services to students who require such services pursuant to R7-2-401(F)(5).

**R7-2-622. Qualification Requirements of Professional, Non-Teaching School Personnel****A. Definitions:**

1. "Educational Interpreter." For the purposes of this Section, "educational interpreter" means a person trained to translate in sign language for students identified to require such services through an Individualized Education Program (IEP) or a 504 accommodation plan in order to access academic instruction. This does not in any way restrict the provisions of R7-2-401(B)(14) which defines "interpreter" and provides that each student's IEP team determines the level of interpreter skill necessary for the provision of FAPE, nor does it restrict a school district's ability to develop a job description for someone in a position of "educational interpreter" that requires additional job responsibilities.

## CHAPTER 2. STATE BOARD OF EDUCATION

2. "Accommodation plan developed to comply with Section 504 of the Rehabilitation Act of 1973, 29 USC 794, et seq. ("504 accommodation plan")." For the purposes of this Section, "504 accommodation plan" means a plan developed for the purpose of specifying accommodations and/or services that will be implemented by classroom teachers and other school personnel so that students will benefit from their educational program.

    - a. Have a high school diploma or GED;

      - iii. Hold a valid certificate from the National Association of the Deaf (NAD) at level 3 or higher.
  2. If a public education agency (PEA) is unable to find an individual meeting the above qualifications, the PEA may hire an individual with lesser qualifications, but the PEA is required to provide a professional development plan for the individual they employ to provide educational interpreting services. This professional development plan must include the following:
    - a. Proof of at least 24 hours of training in interpreting each year that a valid certification is not held or EIPA passing score is not attained, and
    - b. Documentation of a plan for the individual to meet the required qualifications within three years of employment. If the qualifications are not attained within three years, but progress toward attainment is demonstrated, the plan shall be modified to include an intensive program for up to one year to meet the provisions of subsection (B)(1).
  3. An individual employed under the provisions of subsection (B)(2) must also have the following:
    - a. A valid fingerprint clearance card, and
    - b. A high school diploma or GED.
- C. Compliance with these rules will be reviewed at the same time as a PEA is monitored for compliance with the requirements of the Individuals with Disabilities Education Act (IDEA), 20 U.S.C. § 1400, et seq.**

- A. If an apparent mistake in a bid, relevant to the award determination, is discovered after opening and before award, a school district shall contact the bidder for written confirmation of the bid. If the bidder fails to act, the bidder is considered nonresponsive and the school district shall place a written determination that the bidder is nonresponsive in the procurement file. The school district shall designate a time-frame within which the bidder shall either:
1. Confirm that no mistake was made and assert that the bid stands as submitted; or
  2. Acknowledge that a mistake was made and include all of the following in a written response:
    - a. An explanation of the mistake and any other relevant information;
    - b. A request for correction including the corrected bid or a request for withdrawal; and
    - c. The reasons why correction or withdrawal is consistent with fair competition and advantageous to the school district.
- B. A bidder who discovers a mistake in its bid after bid opening and before award, may request correction or withdrawal in writing and shall include all of the following in the written request:
1. An explanation of the mistake and any other relevant information;
  2. A request for correction including the corrected bid or a request for withdrawal; and
  3. The reasons why correction or withdrawal is consistent with fair competition and advantageous to the school district.
- C. After bid opening and before award, a bid mistake based on an error in judgment may not be corrected or withdrawn. Other bid mistakes may be corrected or withdrawn pursuant to subsections (D) through (F).
- D. After bid opening and before award, the school district shall either waive minor informalities in a bid or allow the bidder to correct them if correction is advantageous to the school district.
- E. After bid opening and before award, the bid may not be withdrawn and shall be corrected to the intended bid if a bid mistake and the intended bid are evident on the face of the bid.
- F. After bid opening and before award, the school district may permit a bidder to withdraw a bid if:
1. A nonjudgmental mistake is evident on the face of the bid but the intended bid is not evident; or
  2. The bidder establishes by clear and convincing evidence that a nonjudgmental mistake was made.
- G. If correction or withdrawal of a bid after bid opening is permitted or denied under subsections (D), (F) and (J), the school district shall prepare a written determination showing that the relief was permitted or denied under this Section.
- H. Notwithstanding other provisions of this Section, after bid opening and before award, no corrections in bid prices or other provisions of bids prejudicial to the interest of the school district or fair competition shall be permitted.
- I. If a mistake in the bid is discovered after the award, the bidder may request withdrawal or correction in writing and shall include all of the following in the written request:
1. An explanation of the mistake and any other relevant information;
  2. A request for correction including the corrected bid or a request for withdrawal; and
  3. The reasons why correction or withdrawal is consistent with fair competition and advantageous to the school district.

## CHAPTER 2. STATE BOARD OF EDUCATION

- J.** Based on the considerations of fair competition and the best interest of the school district, the school district may take one of the following actions regarding a bid mistake discovered after the award:
1. Allow correction of the mistake, if the corrected bid amount is less than the next lowest bid;
  2. Cancel all or part of the award; or
  3. Deny correction or withdrawal.
- K.** After cancellation of all or part of an award in accordance with subsection (J)(2), if the bid acceptance period has not expired, the school district may award all or part of the contract to the next lowest responsible and responsive bidder, based on the considerations of fair competition and the best interest of the school district.
- Historical Note**  
Adopted effective December 17, 1987 (Supp. 87-4).  
Amended by final exempt rulemaking at 21 A.A.R. 1525,  
effective July 1, 2014 (Supp. 15-3); effective year corrected in Supp. 18-2.
- R7-2-1031. Bid Evaluation and Award**
- A.** As provided in subsection (C), the contract or contracts shall be awarded to the lowest responsible and responsive bidder or bidders whose bid or bids conform in all material respects to the requirements and evaluation criteria set forth in the invitation for bids. No criteria may be used in bid evaluation that are not set forth in the invitation for bids. The amount of any applicable transaction privilege or use tax of a political subdivision of this state is not a factor in determining the lowest bidder.
- B.** A product acceptability evaluation shall be conducted solely to determine whether a bidder's product is acceptable as set forth in the invitation for bids and not whether one bidder's product is superior to another bidder's product. Any bidder's offering that does not meet the acceptability requirements shall be rejected as nonresponsive.
- C.** The school district shall award the contract to the single lowest responsible and responsive bidder for all materials or services, except that the school district may make a multiple award if the invitation for bids included notification that multiple contracts may be awarded, the school district's basis for determining whether to award multiple contracts, and the criteria for selecting vendors for the multiple contracts.
- D.** Before making a multiple award, the school district shall determine in writing that a multiple award is necessary and is advantageous to the school district and shall establish procedures for the use of the multiple awarded contracts to ensure that purchases are made from the contracts determined by the school district to offer the lowest cost in satisfying the school district's requirements. A multiple award shall be limited to the least number of suppliers the school district determines in writing to be necessary to meet the school district's requirements, and may include the following types of awards:
1. Awards to the lowest responsible and responsive bidder for individual line items, groups of line items, or categories.
  2. Awards to the lowest responsible and responsive bidders for similar or identical line items, groups of line items, or categories only if the school district determines in writing that such awards are necessary to obtain the required quantity or delivery, and the awards are limited to the least number of bidders necessary to meet the school district's requirements.
  3. An incremental award only if the school district determines in writing that such an award is necessary to obtain the required quantity or delivery. The award shall be made to the lowest responsible and responsive bidder, then the next lowest responsible and responsive bidder or bidders until the total definite quantity required is awarded.
- 4.** A regional award to the lowest responsible and responsive bidder in designated regions or locations only if the school district determines in writing that such an award is necessary to obtain the required quantity or delivery over widely scattered locations or a particular requirement is of a local nature.
- E.** The procurement file shall contain the basis on which the award or awards are made.
- F.** The school district shall not modify evaluation criteria after the bid due date and time.
- G.** A school district may appoint an evaluation committee to assist in the evaluation of bids. If bids are evaluated by an evaluation committee, the evaluation committee shall prepare an evaluation report for the school district. The school district may:
1. Accept the findings of the evaluation committee;
  2. Request additional information from the evaluation committee; or
  3. Reject the findings of the evaluation committee, in which case the school district shall appoint a new evaluation committee to evaluate the existing bids or cancel the solicitation.
- H.** The school district may contact a bidder to confirm the school district's understanding of the bid. Such contact shall be prior to award. The school district shall obtain written confirmation from the bidder and shall retain the confirmation in the procurement file.
- I.** The contract or contracts shall be awarded during the bid acceptance period. If the bid acceptance period expires prior to award of the contract or contracts, the procurement shall be canceled, unless the bid acceptance period is extended in accordance with subsection (J).
- J.** To extend the bid acceptance period, a school district shall notify all bidders in writing of an extension and request written concurrence from each bidder. To be eligible for a contract award, a bidder shall submit a written concurrence to the extension. The school district shall reject a bid as nonresponsive if written concurrence is not provided as requested.
- K.** A contract may not be awarded to a bidder submitting a higher quality item than that designated in the invitation for bids unless the bidder is also the lowest bidder as determined under subsection (A). This Section does not permit negotiations with any bidder, except as provided in subsection (L).
- L.** If all bids for a construction project exceed available monies as certified by the school district, and the lowest responsive bid from a responsible bidder does not exceed such monies by more than five percent, the school district may in situations in which time or economic considerations preclude resolicitation of work of a reduced scope, negotiate an adjustment of the bid price, including changes in the bid requirements, with the lowest responsible and responsive bidder, to bring the bid within the amount of available monies.
- M.** If there are two or more low responsive bids from responsible bidders that are identical in price and that meet all the requirements and criteria set forth in the invitation for bids, award shall be made by drawing lots in the presence of one or more witnesses.
- N.** A record showing the basis for determining the successful bidder shall be retained in the procurement file.
- O.** The school district shall notify all bidders of an award.
- P.** After a contract is awarded, the school district shall return any bid security provided by unsuccessful bidders.

## CHAPTER 2. STATE BOARD OF EDUCATION

- Q.** Upon execution of the contract, if performance and payment bonds were not required, or upon receipt of the specified bonds, if performance and payment bonds were required, the school district shall return any bid security provided by the successful bidder.
- R.** Within 10 days after a contract is awarded, the school district shall make the procurement file, including all bids, available for public inspection.
1. If the procurement file contains information that is confidential under R7-2-1006, a copy of the applicable documents with the confidential information redacted shall be placed in the procurement file for the purpose of public inspection.
  2. The unredacted original copy of the confidential information shall be placed in a sealed envelope or other appropriate container, identified as confidential information, and maintained in the procurement file.

**R7-2-1032. Only One Bid Received**

If only one responsive bid is received in response to an invitation for bids, an award may be made to the single bidder if the school district determines in writing that the bidder is responsible, that the price submitted is fair and reasonable, and that either other prospective bidders had reasonable opportunity to respond, or there is not adequate time for resolicitation. Otherwise the bid may be rejected in whole or in part as may be specified in the invitation for bids if it is advantageous to the school district. The reasons for cancellation or rejection shall be made part of the procurement file and:

1. New bids may be solicited;
2. The proposed procurement may be canceled; or
3. If the school district determines that the need for the material or service continues and the acceptance of the one bid is not advantageous to the school district, the procurement may then be conducted as follows:
  - a. The school district may follow the sole source procurement procedure if R7-2-1053 applies.
  - b. Notwithstanding any other provision of Articles 10 and 11, the school district may make emergency procurements pursuant to R7-2-1055 and R7-2-1056 if an emergency condition exists pursuant to R7-2-1055.

- A.** The simplified school construction procurement program is applicable to construction projects which do not exceed the maximum amount specified in A.R.S. § 15-213(A)(2).
- B.** To participate in the simplified school construction procurement program:
1. Each county school superintendent shall maintain a prospective bidders list of persons who desire to receive solicitations to bid on school district construction projects within that county. The prospective bidders list shall be maintained in accordance with R7-2-1023;

2. The prospective bidders list maintained pursuant to subsection (B)(1) shall be available for public inspection;
3. A performance bond and a payment bond, as required by A.R.S. § 34-222, shall be provided for contracts for construction by contractors;
4. All bids for construction shall be opened at a public opening and the bids shall remain confidential until the public opening;
5. All persons desiring to submit bids shall be treated equitably and the information related to each project shall be available to all eligible persons; and
6. Competition for construction projects under the simplified school construction procurement program shall be encouraged to the maximum extent possible. School districts shall submit information on each project to all persons listed on the prospective bidders list maintained by the county school superintendent pursuant to subsection (B)(1).

1. Available specifications or purchase descriptions are not sufficiently complete to permit full competition without technical evaluations and discussions to ensure mutual understanding between each bidder and the school district;
  2. Definite criteria exist for evaluation of technical offers;
  3. More than one technically qualified source is expected to be available; and
  4. A fixed-price contract will be used.
- B.** The multistep sealed bidding method may not be used for construction contracts.

- B.** The invitation to submit technical offers shall include the following information:
1. Notice that the procurement shall be conducted in two phases;
  2. The best description of the material or services desired;
  3. A statement that unpriced technical offers only shall be considered in phase 1;
  4. The requirements for the technical offers, such as drawings and descriptive literature;

  10. Notice that all technical offers submitted will be made available for public inspection following the award of the contract; and
  11. The date, time and location of any pre-technical offer conference.
- C.** A school district may conduct a pre-technical offer conference open to all persons. If a pre-technical offer conference is conducted, it shall be not less than seven days before the technical offer due date and time, unless the school district makes a written determination that the specific needs of the procurement justify a shorter time. Statements made during the pre-technical offer conference shall not be considered modifications to the invitation to submit technical offers.
- D.** The invitation to submit technical offers may be amended before or after the submission of the unpriced technical offers. Amendments to an invitation to submit technical offers shall be so identified and the school district shall ensure that the amendments are distributed or made available to all persons to whom the original invitation to submit technical offers was distributed or made available. The school district shall make a copy of the amendments to an invitation to submit technical offers available for public inspection at the school district office. If the school district posted the invitation to submit technical offers or a notice of the availability of an invitation to submit technical offers on a designated site on the Internet, then the school district shall post any amendments to the invitation to submit technical offers on the same designated site on the Internet. The school district shall also do one or more of the following:
- a. Distribute the amendment, by any method reasonably calculated to ensure delivery, to all persons to whom the invitation to submit technical offers was distributed;
  - b. Make the amendment available and issue a notice of amendment which contains instructions for obtaining copies of the amendment. Upon receipt of such notice of amendment, it is the responsibility of the person to obtain the amendment.
2. Amendments shall be issued within a reasonable time before technical offer opening to allow persons to consider them in preparing their technical offers. If the school district determines that the technical offer due date and time does not permit sufficient time for technical offer preparation, the technical offer due date and time shall be extended in the amendment or, if necessary, telephone, facsimile, email, or other communications methods, and confirmed in the amendment.
3. A person shall acknowledge receipt of an amendment in the manner specified in the invitation to submit technical offers or the amendment on or before the technical offer due date and time.
- E.** Unpriced technical offers shall not be opened publicly, but shall be opened in the presence of two or more district officials designated by the school district. The contents of unpriced technical offers shall not be disclosed to unauthorized persons. Late technical offers shall not be considered except under the circumstances set forth in R7-2-1028(B).
- F.** Unpriced technical offers shall be evaluated solely in accordance with the criteria set forth in the invitation to submit technical offers and shall be determined to be either acceptable for further consideration or unacceptable. A determination that an unpriced technical offer is unacceptable shall be in writing, state the basis for the determination and be retained in the procurement file. If the school district determines a person's unpriced technical offer is unacceptable, the school district shall notify that person of the determination and that the person shall not be afforded an opportunity to amend the technical offer.
- G.** The school district may conduct discussions with any person who submits an acceptable or potentially acceptable technical offer. During discussions, the school district shall not disclose any information derived from one unpriced technical offer to any other person. After discussions, the school district shall establish a due date and time for receipt of final technical offers and shall notify, in writing, persons submitting acceptable or potentially acceptable technical offers of the due date and time. The school district shall not award a contract based solely on price. No factors or criteria may be used in proposal evaluation that are not set forth in the request for proposals.
- B. The school district shall award the contract to the best qualified offeror whose price is determined to be fair and reasonable for all services, except that the school district may make a multiple award if the request for proposals included notification that multiple contracts may be awarded, the school district's basis for determining whether to award multiple contracts, and the criteria for selecting vendors for the multiple contracts.
- C. Before making a multiple award, the school district shall determine in writing that a multiple award is necessary and is advantageous to the school district and shall establish procedures for the use of the multiple awarded contracts to ensure that purchases are made from the contracts determined by the school district to be most advantageous to the school district in satisfying the school district's requirements. A multiple award shall be limited to the least number of contracts the school district determines in writing to be necessary to meet the school

district's requirements, and may include the following types of awards:

1. Award to the best qualified offeror whose price is determined to be fair and reasonable for individual line items, groups of line items, or categories.
  2. Awards to the best qualified offerors whose prices are determined to be fair and reasonable for similar or identical line items, groups of line items, or categories only if the school district determines in writing that such awards are necessary to obtain the required quantity or delivery, and the awards are limited to the least number of offerors necessary to meet the school district's requirements.
  3. An incremental award only if the school district determines in writing that such an award is necessary to obtain the required quantity or delivery. The award shall be made to the best qualified person whose price is determined to be fair and reasonable, then to the next best qualified person whose price is determined to be fair and reasonable, etc., until the total definite quantity required is reached.
  4. Regional awards to the best qualified offerors whose prices are determined to be fair and reasonable in designated regions or locations only if the school district determines in writing that such an award is necessary to obtain the required quantity or delivery over widely scattered locations or a particular requirement is of a local nature.
- D. The school district shall notify all offerors of an award.
  - E. The procurement file shall contain the basis on which the award or awards are made.
  - F. Within 10 days after a contract is awarded, the school district shall make the procurement file, including all proposals, available for public inspection.
    1. If the procurement file contains information that is confidential under R7-2-1066, a copy of the applicable documents with the confidential information redacted shall be placed in the procurement file for the purpose of public inspection.
    2. The unredacted original copy of the confidential information shall be placed in a sealed envelope or other appropriate container, identified as confidential information, and maintained in the procurement file.

- A. A school district may procure a guaranteed energy cost savings contract with a qualified provider through competitive sealed proposals in accordance with R7-2-1041 through R7-2-1050.
  1. The request for proposal evaluation factors required by R7-2-1042(A)(1)(h) shall include objective criteria for selecting the qualified provider, including the cost of the contract, the energy cost savings, the net projected energy savings, the quality of the technical approach, the quality of the project management plan, the financial solvency of the qualified provider and the experience of the qualified provider with projects of similar size and scope.
  2. Notwithstanding R7-2-1042(A)(1)(h), the request for proposals shall set forth the respective numerical weighting for each evaluation criterion.

## CHAPTER 2. STATE BOARD OF EDUCATION

3. At the qualified provider's expense, the proposal shall include an independent third-party validation of cost savings calculations associated with each proposed energy cost savings measure by a licensed, registered professional engineer, with credentials from the national association of energy engineers, who has demonstrated experience in energy analysis. The school district shall approve the selection of the independent third party.
  4. A school district may enter into a guaranteed energy cost savings contract with a qualified provider if the school district determines that the energy savings project will pay for itself within the expected life of the energy cost savings measures implemented (according to the manufacturer's equipment standards), the term of the financial agreement or 25 years, whichever is shortest, if the recommendations in the proposal are followed. The school district shall retain the cost savings achieved by a guaranteed energy cost savings contract, and these cost savings may be used to pay for the contract and project implementation.
  5. A qualified provider is a person that is experienced in designing, implementing or installing energy cost savings measures, that has a record of established projects or measures of similar size and scope, that has demonstrated technical, operational, financial and managerial capabilities to design and operate cost savings measures and projects and that has the financial ability to satisfy guarantees for energy cost savings.
- B.** In selecting a contractor to perform any construction work related to performing the guaranteed energy cost savings contract, the qualified provider may:
1. Develop and use a prequalification process for contractors.
  2. Require the contractor to demonstrate that the contractor is adequately bonded to perform the work and that the contractor has not failed to perform on a prior job.
- C.** At the selected qualified provider's expense, a study shall be performed by the selected qualified provider in order to establish the exact scope of the guaranteed energy cost savings contract, the fixed cost savings guarantee amount and the methodology for determining actual savings. The selected qualified provider will provide the school district with a final study report which validates that the fixed cost savings guarantee amount will meet or exceed the cost savings calculations contained within the original proposal. The study report shall be reviewed and approved by the school district before the actual installation of any equipment. The qualified provider shall transmit a copy of the approved study report to the school facilities board and the governor's office of energy policy.
- D.** The information to develop the energy baseline shall be derived from historical energy costs or actual energy measurements or shall be calculated from energy measurements at the facility where energy cost savings measures are to be installed or implemented. The baseline shall be established before the installation or implementation of energy cost savings measures.
- E.** One or more school districts may enter into a financing agreement with a qualified provider or a financial institution, trustee or paying agent for the purchase and installation or implementation of energy cost savings measures. Any required financing may be obtained as part of the original competitive sealed proposal process from the qualified provider, or from a third-party financing institution that is procured separately in accordance with Articles 10 and 11.
- F.** The selected qualified provider shall provide a performance bond in accordance with R7-2-1103(A)(1)(c).
- G.** The selected qualified provider shall make public information in the subcontractor's bids.
- H.** The guaranteed energy cost savings contract shall include the following:
1. A requirement that, in determining whether the projected energy savings calculations have been met, the energy savings shall be computed by comparing the energy baseline before installation or implementation of the energy cost savings measures with the energy consumed after installation or implementation of the energy cost savings measures. The qualified provider and the school district may agree to make modifications to the energy baseline only for any of the following:
    - a. Changes in utility rates.
    - b. Changes in the number of days in the utility billing cycle.
    - c. Changes in the square footage of the facility.
    - d. Changes in the operational schedule of the facility.
    - e. Changes in facility temperature.
    - f. Significant changes in the weather.
    - g. Significant changes in the amount of equipment or lighting utilized in the facility.
    - h. Significant changes in the nature or intensity of energy use such as the change of classroom space to laboratory space.
  2. A payment schedule, with payments over a period of not more than the expected life of the energy cost savings measures implemented (according to the manufacturer's equipment standards), the term of the financial agreement or 25 years, whichever is shortest.
  3. A requirement that all payments, except obligations on termination of the contract before its expiration, be made pursuant to the terms of the financing agreement.
  4. A written guarantee from the qualified provider that the energy savings will meet or exceed the costs of the energy cost savings measures over the expected life of the energy cost savings measures implemented (according to the manufacturer's equipment standards), the term of the financial agreement or 25 years, whichever is shortest. The school district shall ensure that the contractor:
    - a. For the term of the guaranteed energy cost savings contract, prepares a measurement and verification report on an annual basis in addition to an annual reconciliation of savings.
    - b. Reimburses the school district for any shortfall of guaranteed energy cost savings on an annual basis.
    - c. Uses the international performance and measurement and verification protocol standards or the federal energy management program standards to validate the savings guarantee.
- I.** A school district may utilize a simplified energy performance contract for projects less than \$500,000. Simplified energy performance contracts are not required to include an energy savings guarantee and shall comply with all requirements in this Section except for subsections (D), (H)(1)(a) through (h) and (H)(4)(a) through (c).
- J.** This Section does not apply to the construction of new buildings.
- K.** For all projects under this Section, the school district shall report to the governor's office of energy policy:
1. The name of the project.
  2. The qualified provider.
  3. The total cost of the project.
  4. The expected energy cost savings and relevant escalators.

- E. A provision, covenant, clause or understanding in, collateral to or affecting a construction contract or design professional service contract that makes the contract subject to the laws of another state or that requires any litigation, arbitration or other dispute resolution proceeding arising from the contract to be conducted in another state is against the public policy of this state and is void and unenforceable.

- E.** After the bids and proposals are opened, they are irrevocable for the period specified in the invitation for bids or request for proposals, except as provided in R7-2-1030.   - a. For job-order-contracting construction services, the performance bond shall cover the full amount of construction under the job-order-contracting construction services contract, shall not include any design services, preconstruction services, finance services, maintenance services, operations services or other related services included in the contract, may be a single bond for the full term of the contract, a separate bond for each year of a multiyear contract or a separate bond for each job order, as determined by the school district, and, if a single bond for the full term of the contract or a separate bond for each year of a multiyear contract, shall initially be based on the school district's reasonable estimate of the amount of construction that the school district believes is likely to actually be done during the full term of the contract or during the particular year of a multiyear contract, as applicable.
  - b. For construction-manager-at-risk construction services and design-build construction services, the amount of the performance bond shall be the price of construction and shall not include the cost of any design services, preconstruction services, finance services, maintenance services, operations services and other related services included in the contract. The conditions and provisions of the performance bond regarding the surety's obligations shall follow the form required under A.R.S. § 34-222(G) or A.R.S. § 34-610(G), as applicable.
  - c. For guaranteed energy cost savings contracts and guaranteed energy production contracts, the amount of the performance bond shall be one hundred percent of the project amount to the school district for its faithful performance of the equipment installment.

separate bond for each job order, as determined by the school district, and, if a single bond for the full term of the contract or a separate bond for each year of a multiyear contract, shall initially be based on the school district's reasonable estimate of the amount of construction that the school district believes is likely to actually be done during the full term of the contract or during the particular year of a multiyear contract, as applicable.

- b. For construction-manager-at-risk construction services and design-build construction services, the amount of the payment bond shall be the price of construction and shall not include the cost of any design services, preconstruction services, finance services, maintenance services, operations services or other related services included in the contract. For construction-manager-at-risk, design-build and job-order-contracting construction services, the bonds prescribed in subsection (A) shall be provided only on and at the same time as execution of a contract or contract modification that commits the contractor to provide construction for a fixed price, guaranteed maximum price or other fixed amount within a designated time frame.
- C. If the prime contract or specifications require any persons supplying labor or materials in the prosecution of the work to furnish payment or performance bonds, these bonds shall be executed solely by a surety company or companies holding a certificate of authority to transact surety business in this state issued by the director of the Department of Insurance pursuant to Arizona Revised Statutes Title 20, Chapter 2, Article 1. Notwithstanding the provisions of any other statute, the bonds shall not be executed by an individual surety or sureties, even if the requirements of A.R.S. § 7-101 are satisfied.
- D. If a contractor fails to deliver the required performance bond or payment bond, the contractor's bid shall be rejected, its bid security shall be enforced, and award of the contract shall be made pursuant to Articles 10 and 11.

the party for whom the labor was performed or to whom the material was supplied. The notice shall be personally served or sent by registered mail, postage prepaid, in an envelope addressed to the contractor at any place the contractor maintains an office or conducts business.

**Historical Note**

Adopted effective December 17, 1987 (Supp. 87-4). Section repealed; new Section made by final exempt rulemaking at 21 A.A.R. 1525, effective July 1, 2014 (Supp. 15-3); effective year corrected in Supp. 18-2.

**R7-2-1104. Contract Payment Retention and Substitute Security**

- A.** Ten percent of all construction contract payments shall be retained by the school district as insurance of proper performance of the contract or, at the option of the contractor, a substitute security may be provided by the contractor pursuant to this Section. The contractor is entitled to all interest from any such substitute security. When the contract is fifty percent completed, one-half of the amount retained or securities substituted pursuant to this Section shall be paid to the contractor upon the contractor's request provided the contractor is making satisfactory progress on the contract and there is no specific cause or claim requiring a greater amount to be retained. After the contract is fifty percent completed, no more than five percent of the amount of any subsequent progress payments made under the contract shall be retained providing the contractor is making satisfactory progress on the project, except if at any time the governing board determines satisfactory progress is not being made, ten percent retention shall be reinstated for all progress payments made under the contract subsequent to the determination.
- B.** Notwithstanding subsection (A), there shall be no retention for job-order-contracting construction services contracts. The school district may elect to have no retention for construction-manager-at-risk and design-build construction services contracts. If the school district elects to have retention, then payment retention for construction-manager-at-risk and design-build contracts shall be in accordance with this Section.
- C.** Retention applies only to amounts payable for construction and does not apply to amounts payable for design services, preconstruction services, finance services, maintenance services, operations services, or any other related services included in the contract.
- D.** The form of substitute security is limited to the following:
1. An assignment of time certificates of deposit by financial institutions licensed by this state;
  2. Share certificate of a financial institution or credit union authorized to transact business in this state; or
  3. Security issued or guaranteed as to principal and interest by:
    - a. The United States;
    - b. The state;
    - c. Counties, municipalities and school districts within this state.
- E.** Conditions for use of substitute security.
1. A contractor may submit substitute security to replace contract payment retention if:
    - a. The use of substitute security is requested of the school district or designee for work performed under the contract. The contractor shall have the option of submitting the substitute security:
      - i. Prior to each progress payment in an amount of no less than five percent of each progress payment; or

- ii. Once, prior to the first progress payment in an amount no less than five percent of the total contract amount.

- b. The interest earned on such security shall accrue to the benefit of the contractor, but shall be retained until the school district has approved completion and acceptance of all work to be performed under the contract;
  - c. The term of such security shall not mature until after the estimated contract completion date; and
  - d. The security shall mature no later than one year after the estimated contract completion date.
2. The substitute security shall not be released without written approval by the school district.
3. A contractor may submit a single substitute security for more than one project provided that:
- a. The amount of such security is sufficient to cover the aggregate retention amount;
  - b. The school district determines that such single substitute security is advantageous to the school district; and
  - c. Such security complies with the requirements of subsection (E)(1).
- F.** Any retention shall be paid or substitute security shall be returned to the contractor within 60 days after final completion and acceptance of work under the contract. Retention of payments by a school district longer than 60 days after final completion and acceptance requires a specific written finding by the governing board of the reasons justifying the delay in payment. No school district may retain any monies after 60 days which are in excess of the amount necessary to pay the expenses the governing board reasonably expects to incur in order to pay or discharge the expenses determined in the finding justifying the retention of monies.
- G.** The school district shall not accept any substitute security unless accompanied by a signed and acknowledged waiver of any right or power of the obligor to set off any claim against either the school district or the contractor in relationship to the security assigned. In any instance in which the school district accepts substitute security as provided in this Section, any subcontractor undertaking to perform any part of the contract is entitled to provide such security to the contractor.

**Historical Note**

Adopted effective December 17, 1987 (Supp. 87-4). Section repealed; new Section made by final exempt rulemaking at 21 A.A.R. 1525, effective July 1, 2014 (Supp. 15-3); effective year corrected in Supp. 18-2.

**R7-2-1105. Progress Payments**

- A.** Progress payments may be made by the school district to the contractor on the basis of a duly certified and approved estimate of the work performed during the preceding month if the contractor agrees to adhere to the provisions of A.R.S. § 41-2577(B), (D), and (F). Payment shall be made within 14 days after the estimate of the work is certified and approved, except that a percentage of all estimates shall be retained as provided in R7-2-1104. The estimate of the work shall be deemed received by the school district on submission of the estimate of the work to the school district or a person designated by the school district for the submission, review or approval of the estimate of the work. An estimate of the work submitted under this Section shall be considered approved and certified after seven days from the date of submission unless before that time the school district or designee prepares and issues a specific written finding detailing those items in the estimate of the work that are not approved and certified under the contract or

## CHAPTER 2. STATE BOARD OF EDUCATION

design professional service contract. The school district may withhold an amount from the progress payment sufficient to pay the expenses the school district reasonably expects to incur in correcting the deficiency set forth in the written finding. No contract for construction or design professional service contract may materially alter the rights of any contractor, subcontractor, design professional or material supplier to receive prompt and timely payment as provided under this Section. On completion and acceptance of separate divisions of the contract or design professional service contract on which the price is stated separately in the contract, payment may be made in full including retained percentages, less deductions, unless a substitute security has been provided pursuant to R7-2-1104.

- B. Progress payments pursuant to subsection (A) are authorized for construction services and design professional services contracts. The requirements of subsection (A) apply only to amounts payable in a construction services contract for construction and in a contract for design services and do not apply to amounts payable in a contract for preconstruction services, finance services, maintenance services, operations services or any other related services included in the contract.
- C. A subcontractor or design professional may notify the school district, in writing, requesting that the subcontractor or design professional be notified by the school district in writing within five days from payment of each progress payment made to the contractor. The subcontractor's or design professional's request remains in effect for the duration of the subcontractor's or design professional's work on the project.
- D. If any payment to a contractor is delayed after the date due, interest shall be paid at the rate of one percent per calendar month, or a fraction of a calendar month, on such unpaid balance as may be due.

**Historical Note**

Adopted effective December 17, 1987 (Supp. 87-4). Section repealed; new Section made by final exempt rulemaking at 21 A.A.R. 1525, effective July 1, 2014 (Supp. 15-3); effective year corrected in Supp. 18-2. Amended by final exempt rulemaking at 26 A.A.R. 597, effective July 1, 2020 (Supp. 20-1).

**R7-2-1106. Procurement of Construction Using Alternative Project Delivery Methods**

- A. A school district may use an alternative project delivery method if it determines in writing that such alternative project delivery method is advantageous to the school district. The following factors may be used for such determination:
  - 1. Cost and cost control method;
  - 2. Value engineering;
  - 3. Market conditions;
  - 4. Schedule;
  - 5. Required specialized expertise;
  - 6. Technical complexity of the project; or
  - 7. Project management.
- B. Use of alternative project delivery methods
  - 1. Alternative project delivery methods for construction services shall be procured as provided in R7-2-1100.
  - 2. For design-build construction services and construction-manager-at-risk construction services, the school district is limited to one contract per procurement.
    - a. Alternatively, for construction-manager-at-risk construction services, a school district may elect separate contracts for preconstruction services during the design phase, for construction during the construction phase and for any other construction services.

- b. Alternatively, for design-build construction services, a school district may elect separate contracts for preconstruction services and design services during the design phase, for construction and design services during the construction phase and for any other construction services.
  - c. If the school district enters into the first contract for preconstruction services or construction services the procurement ends. After execution of that first contract the school district may not use the procurement or the existing final list in the procurement as the basis for entering into a contract with any other person that participated in the procurement.
- 3. For job-order-contracting construction services, the school district may award a single contract, or multiple contracts for similar job-order-contracting construction services to be awarded to separate persons. If the school district enters into the number of contracts specified under the request for qualifications, the procurement ends. After that time the school district may not use the procurement or any existing final list in the procurement as the basis for entering into a contract with any other person that participated in the procurement.
- 4. All construction-manager-at-risk construction services or design-build construction services included in a procurement shall be limited to construction services to be performed at a single location, a common location or, if the construction services are all for a similar purpose, multiple locations. For construction-manager-at-risk construction services and design-build construction services to be performed at multiple locations:
  - a. At the time the request for qualifications is issued, the school district shall intend to commence all construction at each location within thirty months after execution of the first contract for preconstruction services or other construction services at any of the locations.
  - b. The request for qualifications shall include the information described in R7-2-1108(B)(2).
- 5. The school district and the selection committee shall not request or consider fees, price, man-hours or any other cost information at any point in the selection process under this Section and R7-2-1107, R7-2-1108, R7-2-1110, and R7-2-1111, including the selection of persons to be interviewed, the selection of persons to be on the final list, in determining the order of preference of persons on the final list or for any other purpose in the selection process, except as provided in R7-2-1110(D) and R7-2-1111.
- 6. In determining the persons to participate in any interviews, in determining the persons to be on the final list, and in determining the order on the final list, the selection committee shall use and consider only the criteria and weighting of criteria in the request for qualifications. No other factors or criteria may be used in the evaluation, determinations and other actions.
- 7. Notwithstanding any other provision specifying the number of persons to be interviewed, the number of persons to be on a final list, or any other numerical specification in R7-2-1106 through R7-2-1115:
  - a. If a smaller number of persons respond to the request for qualifications or if one or more persons drop out of the procurement so there is a smaller number of persons participating in the procurement, the school district, as the school district determines necessary and appropriate, may elect to proceed

## CHAPTER 2. STATE BOARD OF EDUCATION

with the participating persons if there are at least two participating responsive and responsible persons. Alternatively, the school district may elect to terminate the procurement.

- b. As to a request for qualifications to be negotiated pursuant to R7-2-1110(D), if only one responsive and responsible person responds to the request for qualifications or if one or more persons drop out of the procurement so that only one responsive and responsible person remains in the procurement, the school district may elect to proceed with the procurement with only one person if the governing board determines in writing that the negotiated fee is fair and reasonable and that either other prospective persons had reasonable opportunity to respond or there is not adequate time for a resolicitation.
- c. If a person on the final list withdraws or is removed from the procurement and the selection committee determines that it is advantageous to the school district, the selection committee may replace that person on the final list with another person that submitted qualifications in the procurement and that is selected as the next most qualified.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 1525, effective July 1, 2014 (Supp. 15-3); effective year corrected in Supp. 18-2.

**R7-2-1107. Selection Committee**

- A. The school district shall initiate an appropriately qualified selection committee for each request for qualifications. The school district shall ensure that selection committee members are competent to serve on the selection committee.
- B. Each selection committee shall include at least one school district representative appointed by the school district.
- C. The selection committee shall not have more than seven members and shall include at least one person who is a senior management employee of a licensed contractor and one person who is an architect or an engineer who is registered pursuant to A.R.S. § 32-121.
- D. Non-school district employees serving on a selection committee shall not receive compensation from the school district for performing this service, but the school district may elect to reimburse non-school district members for travel, lodging and other expenses incurred in connection with service on a selection committee.
- E. A person who is a member of a selection committee shall not be a contractor or subcontractor under a contract awarded under the procurement or provide any specified professional services, construction, construction services, materials or other services under the contract.
- F. For the procurement of multiple contracts for job-order-contracting, the same selection committee shall be used for all contracts in the procurement.

**Historical Note**

New Section made by final exempt rulemaking at 21 A.A.R. 1525, effective July 1, 2014 (Supp. 15-3); effective year corrected in Supp. 18-2.

    - c. A schedule for the construction services to be performed at each location that shows the school district's intent to commence all construction at each location within thirty months after execution of the first contract for preconstruction services or other construction services at any of the locations.
  3. General information on the project site, scope of work, schedule, selection criteria, project design and construction budget, or life cycle budget for a procurement that includes maintenance, operations, and finance services.

The request for qualifications may state the selection criteria and relative weights to be used in selecting the persons on the final list and in determining their order on the final list. The final list selection criteria and relative weights may be different than the selection criteria and relative weights used to determine the persons to be interviewed. The request for qualifications also shall state whether the school district will select the persons on the final list and their order on the final list solely through the results of the interview process or through the combined results of both the interview process and the evaluation of statements of qualifications and performance data submitted in response to the school district's request for qualifications.

  2. If the selection criteria and relative weights to be used by the selection committee to select the persons on the final list and to determine their order on the final list are not included in the request for qualifications:
    - a. Before the interviews are held the school district shall distribute to the persons to be interviewed the selection criteria and relative weights to be used to

## CHAPTER 2. STATE BOARD OF EDUCATION

select the persons on the final list and to determine their order on the final list.

- b. These selection criteria and relative weights may be different than the selection criteria and relative weight used to determine the persons to be interviewed.
3. The selection committee shall conduct interviews with the number of persons specified in the request for qualifications.
- B. Based solely on the selection criteria and relative weights for selection of the persons on the final list and their order on the final list, the selection committee shall select the persons for the final list and, in the case of a final list for a contract that will be negotiated under subsection (D), rank the persons in order of preference.
- C. The school district shall make the following notifications regarding the final lists:
  1. If the contract will be negotiated under subsection (D) before or at the same time as the school district notifies the highest ranking person on the final list that it is the highest ranking person, the school district shall send actual notice to each of the following that it is not the highest ranking person or that another person is the highest ranking person:
    - a. If interviews were held, the other persons interviewed.
    - b. If interviews were not held, the other persons that made submittals.
  2. If the contract will be awarded under R7-2-1111, before or at the same time as the school district notifies the persons on the final list that they are on the final list, the school district shall send actual notice to each of the following persons that they are not on the final list or that other persons are on the final list:
    - a. If interviews were held, the other persons interviewed.
    - b. If interviews were not held, the other persons that made submittals.
- D. The school district shall conduct negotiations with persons on the final list as follows:
  1. The negotiations shall include consideration of compensation and other contract terms that the school district determines to be fair and reasonable to the school district. In making this decision, the school district shall take into account the estimated value, the scope, the complexity and the nature of the construction services to be rendered.
  2. If the procurement is for a single contract, there is one final list and the school district shall enter into negotiations with the highest qualified person on the final list. If the school district is not able to negotiate a satisfactory contract with the highest qualified person on the final list, at compensation and on other contract terms the school district determines to be fair and reasonable, the school district shall formally terminate negotiations with that person. The school district shall then undertake negotiations with the next most qualified person on the final list in sequence until an agreement is reached or a determination is made to reject all persons on the final list.
  3. If the procurement is for multiple contracts for similar job-order-contracting construction services to be awarded to separate persons, there is one final list and the school district shall enter into separate negotiations for contracts with the number of the highest qualified persons on the final list equal to the number of contracts to be awarded. If the school district is not able to negotiate a satisfactory contract with a person with whom the school district has

commenced negotiations, the school district shall formally terminate negotiations with that person. The school district shall then undertake negotiations for a contract with the next most qualified person on the final list with whom the school district is not then negotiating and with whom the school district has not previously negotiated in sequence until an agreement is reached for some or all of the multiple contracts included in the request for qualifications or a determination is made to reject all persons on the final list.

4. If the school district terminates negotiations with a person and commences negotiations with another person on the final list, the school district shall not recommence negotiations or enter into a contract for the construction services covered by the final list with any person with whom the school district terminated negotiations.

of points under a scoring method. The specified number of offerors will be the number of contracts included in the procurement.

6. A description of the scoring method, including a list of the factors in the scoring method and the number of points allocated to each factor.
  7. For design-build construction services only, the design requirements, including the required features, functions, characteristics, qualities and properties, the anticipated schedule, including start, duration and completion, and the estimated budgets applicable to the specific procurement for design and construction and, if applicable, for operation and maintenance. 1. For design-build construction services only, demonstrated compliance with the design requirements.
  2. Offeror qualifications.
  3. Offeror financial capacity.

Discussions shall be for the purpose of clarification to ensure full understanding of, and responsiveness to, the solicitation requirements. Offerors shall be accorded fair treatment with respect to any opportunity for discussion and for clarification by the school district. Revision of preliminary technical proposals shall be permitted after submission of preliminary technical proposals and before award for the purpose of obtaining best and final proposals. In conducting any discussions, information derived from proposals submitted by competing offerors shall not be disclosed to other competing offerors.

waive the stipulated fee. If an offeror elects to waive the stipulated fee, the school district may not use ideas and information contained in the offeror's proposal, except that this restriction does not prevent the school district from using any idea or information if the idea or information is also included in a proposal of an offeror that accepts the stipulated fee.

1. The contractor for design-build or job-order-contracting construction services is not required to be registered to perform design services pursuant to A.R.S. Title 32, Chapter 1 if the person actually performing the design services on behalf of the contractor is appropriately registered.
2. The contractor for construction-manager-at-risk, design-build or job-order-contracting construction services shall be licensed to perform construction pursuant to A.R.S. Title 32, Chapter 10.
3. The school district shall obtain and maintain a record of proof in the procurement file that a construction or construction services provider that has been awarded a contract with the school district, or through a cooperative purchasing agreement, has a license in good standing to perform construction work pursuant to A.R.S. Title 32, Chapter 10. The license shall be active on the day the contract is awarded. This subsection does not require licensure for professions that are not licensed pursuant to A.R.S. Title 32, Chapter 10.

**B. In a procurement for construction-manager-at-risk construction services or design-build construction services, except for design-build contracts awarded pursuant to R7-2-1111, the school district shall enter into a written contract with the contractor for preconstruction services under which the school district shall pay the contractor a fee for preconstruction services in an amount agreed by the school district and the contractor, and the school district shall not request or obtain a fixed price or a guaranteed maximum price for the construction from the contractor or enter into a construction contract with the contractor until after the school district has entered into the written contract for preconstruction services and a preconstruction services fee.****C. Construction shall not commence under a construction services contract until the school district and contractor agree in writing on either a fixed price that the school district will pay or a guaranteed maximum price for the construction to be commenced. The construction to be commenced may be the entire project or may be one or more phased parts of the project.****D. For negotiated construction-manager-at-risk and design-build contracts, preconstruction services, general conditions, schedules, construction contingency, and construction fees shall be part of the contract. For design-build contracts awarded pursuant to a request for proposals, the fees shall be included in the**

The maximum dollar amount of an individual job order for job-order-contracting construction services shall be one million dollars or a higher or lower amount prescribed by the governing board in a policy adopted in a public meeting held pursuant to A.R.S. Title 38, Chapter 3, Article 3.1. Requirements shall not be artificially divided or fragmented in order to constitute a job order that satisfies the requirements of this subsection.
2. If the contractor subcontracts or intends to subcontract part or all of the work under a job order and if the job-order-contracting construction services contract includes descriptions of standard individual tasks, standard unit prices for standard individual tasks and pricing of job orders based on the number of units of standard individual tasks in the job order:

  - b. If not previously delivered to the subcontractor, the contractor has a duty to promptly deliver to each subcontractor invited to or that has agreed to do any of the work included in any job order a copy of the description of each standard individual task that is included in the job order and that the subcontractor is invited to perform, the number of units of each standard individual task that is included in the job order and that the subcontractor is invited to perform, and the standard unit price for each standard individual task that is included in the job order and that the subcontractor is invited to perform.

**F. For all construction services contracts, the contractor performing the construction services is permitted to self-perform part of the construction work, if and to the extent agreed in writing by the school district and the contractor. The school district may use methods other than competitive bidding to assure itself that the price the school district pays to the contractor for self-performed work is fair and reasonable. Permitted methods to evaluate fairness and reasonableness of the price of self-performed work include evaluation of the contractor's proposed scope of work and price for self-performed work by an estimator who is hired and paid by the school district, who is independent of the contractor and who may be an employee of the school district. Although the school district may elect to so require, nothing in Articles 10 and 11 shall be construed or interpreted to require the school district to require a contractor desiring to self-perform part of the construction work to competitively bid that part of the construction work against other contractors in a bid competition.****G. For all construction services contracts, the following requirements apply to the construction work to be performed by subcontractors and do not apply to construction work that the school district and the contractor agree in writing will be self-performed by the contractor:**

On a motion for a rehearing, the hearing officer may open the decision, take additional testimony, amend findings of fact and conclusions of law or make new findings and conclusions, and direct the entry of a new decision.

1. The motion for rehearing shall be in writing, shall specify generally the grounds upon which the motion is based, and may be amended at any time before it is ruled upon by the hearing officer.

In either case, the hearing officer shall specify in the order the grounds therefor.
- G.** Questions to be considered in rehearing. A rehearing, if granted, shall be only a rehearing of the question or questions with respect to which the decision is found erroneous, if separable. - H.** Motion on ground of excessive or inadequate damages. When a motion for rehearing is made upon the ground that the damages or penalties awarded are either excessive or insufficient, the hearing officer may grant the rehearing conditionally upon the filing within a fixed period of time, not to exceed 15 days, of a statement by the party adversely affected by reduction or increase of damages or penalties accepting that amount of damages or penalties which the hearing officer shall designate. If such a statement is filed with the prescribed time, the motion for rehearing shall be regarded as denied as of the date of such filing. munity college) which leads to a certificate or degree and prepares students for gainful employment;

- d. Is accredited by a nationally recognized accrediting agency or association, or if not so accredited, is an institution which has satisfactorily assured the Secretary that it will meet the accreditation standards of an approved agency or association within a reasonable time, considering the resources available to the institution, the period of time it has operated and its efforts to meet accreditation standards, or is an institution whose credits are determined by the Secretary to be accepted on transfer by at least three accredited institutions on the same basis as transfer credits from fully accredited institutions.

**Historical Note**

Adopted effective September 19, 1996, under an exemption from the Administrative Procedure Act pursuant to A.R.S. § 15-1852(C) (Supp. 96-3). Amended by exempt rulemaking at 5 A.A.R. 2046, effective June 1, 1999 (Supp. 99-2).

**R7-3-303. Receipt and Allocation of Arizona LEAP Program Funds****A. Receipt of funds.**

1. The Commission may receive funds for the Arizona LEAP Program from the following sources:
  - a. The federal government;
  - b. The Arizona Legislature;
  - c. Institutions which are eligible to participate in the program; and,
  - d. Other nonfederal institutions, organizations, or individuals.
2. All funds received will be deposited by the Commission in a properly secured account and appropriate controls will be instituted to assure that accountability will be maintained for all funds received.

## CHAPTER 3. COMMISSION FOR POSTSECONDARY EDUCATION

3. Available federal program funds will be matched, on a dollar-for-dollar basis, by state appropriated funds.
4. Funds provided by the eligible participating institutions and nonfederal funds from other institutions, organizations, or individuals shall be used by the Commission to supplement the federal and state program funds for grants and for necessary administrative costs.

**B. Allocation of funds.**

1. Arizona LEAP Program Funds will be allocated to eligible Arizona postsecondary educational institutions according to their proportionate share of the State's total headcount of Arizona resident students enrolled in eligible programs. The Commission will survey each eligible institution in Arizona no later than May of each year to determine the number of eligible Arizona resident students who are enrolled. Headcount will be determined in the following manner:
  - a. Semester or quarter hour schedule institutions will provide data for the preceding fall semester. (For example, allocations for the LEAP program for any given academic year will be based on enrollment data from the previous academic year.)
  - b. Institutions which operate on clock hour or other nontraditional schedules will provide unduplicated student enrollment data for the period from August through April of the previous year. (For example, allocations for the LEAP program for any given year will be based on data for the period August through April.) Enrollment data must be verified by two Administrative Officials of the school.
2. The staff will promptly notify each eligible institution of its preliminary allocation as soon as necessary Commission approvals can be obtained. The total will show the amount of federal and state dollars and also the amount the institution must provide to receive the full allocation. The institution will be asked to select one of the following choices:
  - a. It will provide the full amount of institutional funds in order to receive the full allocation.
  - b. It will provide the full amount of institutional funds and also is prepared to provide additional institutional funds if additional federal and state funds should become available. The institution will be asked to specify the amount of additional institutional funds it will be able to provide.
  - c. It prefers to provide a lesser amount which will be noted in the space provided. In this case the federal and state amounts will be adjusted to meet the reduced institutional amount.
  - d. It chooses not to participate in the LEAP program for this period. In this case it is important that the institution return the form to the Commission to inform them of this choice.
3. A response due date will be included in this notification. Only institutions whose response is received by the Commission by that due date will be eligible to participate in the LEAP Program for that academic year.
4. All institution responses which are received by the Commission on or before the response due date will determine the final list of institutions eligible to participate in the LEAP program. If all institutions elect to participate, the preliminary allocation will become the final allocation list. However, if some institutions choose not to participate, or if some prefer to participate at a reduced level, the staff will calculate a new final allocation list considering only the institutions on the final institutional eligibil-

ity list. The staff will then notify each participant institution of its revised allocation, the amount of institutional funds to provide, and instructions for transmitting its funds to the Commission.

5. The Commission will maintain the necessary accounts for each eligible institution which participates in the Arizona LEAP Program. Each account will, as a minimum, show the current status of that account for its source of program funds, and such other information that the Commission deems necessary.
- C. Transfer of institutional funds.** When the institution receives its final allocation notice from the Commission, it shall send its institutional funds to the Commission. This transfer shall take place beginning July 1 of each year. Checks conveying institutional funds shall be made out to the Arizona Commission for Postsecondary Education -- LEAP Program.
- D. Disbursement of Arizona LEAP Program Funds to Participating Institutions.** The Commission will disburse funds from the Arizona LEAP Program Fund to participating institutions for further disbursement to approved student applicants in accordance with the program calendar.
- E. Reallocation of Unused LEAP Program Funds**
  1. Schools will be contacted in February, and asked if they will be able to use all their funds or if they wish additional funding and the amount thereof.
  2. Schools not awarding 100% of their funds by the middle of February may have the remaining LEAP funds recovered by the Commission for reallocation. Remaining institutional funds, less administrative funds, will then be returned to each of those schools when the final program financial report has been received by the Commission.
  3. In March, a reallocation of funds will take place and funds will be available for those schools that asked for additional funds in February.
    - a. If the amount of available funds exceeds the total amount of requests, all requests will be honored. Any remaining available funds will be retained by the Commission for later reallocation.
    - b. If the amount of the requests exceeds the amount of available funds, the Commission will allocate those funds among the requesting institutions based on each institution's proportionate share of Arizona resident students eligible headcount for that institution. The enrollment at non-requesting institutions will not be included in these calculations.
  4. The staff will notify each participant institution of its share of the reallocation, the amount of institutional funds to provide, and instructions for transmitting its funds to the Commission.
  5. Any LEAP funds retained by the institutions, minus the institutional proportionate share originally paid, must be returned to the Commission in the form of a check by the end of July, along with the signed Financial Report. Any unused program funds remaining in the state treasury will be returned to the institutions in the same proportionate share as was paid in at the beginning of the program year. The Commission may impose a deduction in the amount of those unutilized program funds from a school's following years allocation.

## CHAPTER 3. COMMISSION FOR POSTSECONDARY EDUCATION

**R7-3-304. Arizona LEAP Student Eligibility Requirements**

- A.** Student eligibility requirements. To be eligible for a grant from the Arizona LEAP Program, a student must:

  2. Be enrolled or accepted for enrollment on at least a half-time basis as defined in R7-3-309(A)(20) in an eligible course or program at an Arizona postsecondary educational institution which has met the institutional eligibility requirements in R7-3-302, and which has been approved by the Commission.
  3. At the discretion of the institution financial aid officer, this may include a person who has attained a baccalaureate or first professional degree and has re-entered an eligible Arizona postsecondary institution for retraining in a program below the baccalaureate level. Such a person will be considered an undergraduate student for LEAP purposes.
  4. Have a substantial demonstrated financial need determined in accordance with the provision given in R7-3-304(B);
  5. Maintain satisfactory progress in a course of study as defined by the institution and not be in default or owe a repayment on a federal grant or loan. Refer to 34 CFR 692.
- B.** Financial Need Determination Procedures. The financial need of eligible students will be determined annually, or more often if need be, by the financial aid officer of the institution the student is attending, or will attend, using the Federal Methodology (FM) system of need analysis approved by the Commission and the U.S. Department of Education. A student must be considered to have substantial need.
- C.** A student is considered to have substantial financial need when:
1. The student has an expected family contribution of \$2,140 or less as a result of the student's FM need analysis for the program year; or,
  2. The difference between the student's cost of education and the student's expected family contribution is at least \$100.

**Historical Note**

Adopted effective September 19, 1996, under an exemption from the Administrative Procedure Act pursuant to A.R.S. § 15-1852(C) (Supp. 96-3). Amended by exempt rulemaking at 5 A.A.R. 2046, effective June 1, 1999 (Supp. 99-2).

**R7-3-305. Arizona LEAP Award Procedures**

- A.** Eligible students who wish to apply for a LEAP award will provide to the financial aid office the information needed for the financial need analysis as specified in R7-3-304(B).
- B.** The financial aid office will:
1. Determine whether or not the student meets the eligibility requirements for an Arizona LEAP award as outlined in R7-3-304(A);
  2. Determine the financial need of the student using the need analysis specified in R7-3-309(B);
  3. Exercise due diligence in determining that the student:
    - a. Satisfies verification procedures which may be required for federal Title IV financial aid programs;
    - b. Satisfies requirements listed under 34 CFR 692.4.
  4. Recommending the amount of the LEAP award in accordance with the following guidelines:
    - a. Awards may be made only to students who meet the criteria of R7-3-304(A);
    - b. The total of all LEAP awards to a student may not

exceed \$2,500 for the program year;

- c. The financial aid officer will determine, based on student need, an award of no more than \$2,500 nor less than \$100 (round all awards to the nearest \$1.00).
  - d. The financial aid officer must ensure that all applications are received in a timely fashion so disbursement of funds to students will be made before a semester or training period ends.
  - e. Sign the application form.
5. Send the application form to:  
Arizona Commission For Postsecondary Education  
2020 North Central Avenue, Suite 275  
Phoenix, Arizona 85004-4503  
(Attention: Financial Aid Director)
6. Receive approved applications, assure that LEAP award funds are disbursed to the student, and retain on file disbursement records (signed receipts, canceled checks, etc.) which verify that the student received the funds. No disbursement may be made to a student who, as a result of a change in status, no longer meets the eligibility requirements outlined in R7-3-304.
7. Maintain adequate fiscal control, accounting, and financial aid records at the institution in accordance with approved state and federal procedures.
8. Provide to the Commission such financial and other information as may be required to meet federal reporting and auditing requirements.
- C.** The Arizona Commission for Postsecondary Education will:
1. Receive the application for the Arizona LEAP award;
  2. Verify that the student is eligible and that there are sufficient funds in the LEAP program account to fund the award;
  3. Approve applications which meet these criteria;
  4. Return applications that do not meet the criteria or are in any way incomplete to the financial aid office;
  5. Disburse funds to the institution's financial aid officer for the approved applications.

**Historical Note**

Adopted effective September 19, 1996, under an exemption from the Administrative Procedure Act pursuant to A.R.S. § 15-1852(C) (Supp. 96-3). Amended by exempt rulemaking at 5 A.A.R. 2046, effective June 1, 1999 (Supp. 99-2).

**R7-3-306. Award Alterations**

- A.** The Commission will attempt to accommodate any changes which institutional financial aid officers wish to make in individual student awards. These changes might include, for example, cancellation of award, reduction in award level, or increase in award level.
1. Increased LEAP Awards: A student's LEAP award may be increased if the earlier award for that program year is less than the maximum amount specified, and if the student is eligible for such an increase. To increase a LEAP award, the institutional financial aid officer will simply submit to the Commission another LEAP application form, and provide updated financial aid information on the form. In no case may a student receive more than a total of \$2,500 in LEAP awards for a program year.
  2. Reversions: A student's LEAP award may be reduced or canceled. If a student officially or unofficially withdraws or is expelled from the institution, or if the student drops below the minimum number of hours, the institution financial aid officer must attempt to recover all of LEAP

## CHAPTER 3. COMMISSION FOR POSTSECONDARY EDUCATION

award funds possible in accordance with the repayment policies of that institution.

3. The reversion procedure includes the following steps:
  - a. Funds are recovered from the student;
  - b. The financial aid officer completes the LEAP Reversion Form;
  - c. The financial aid officer forwards the completed LEAP Reversion Form(s) and the Transmittal Form to the Commission.
4. Reverted LEAP funds recovered by the Commission are redeposited in the secured LEAP program account and credited to the institution's LEAP Program Fund account. Such funds are then available to the institution to be used to make new LEAP awards.

**Historical Note**

Adopted effective September 19, 1996, under an exemption from the Administrative Procedure Act pursuant to A.R.S. § 15-1852(C) (Supp. 96-3). Amended by exempt rulemaking at 5 A.A.R. 2046, effective June 1, 1999 (Supp. 99-2).

**R7-3-307. Administrative Costs**

No federal LEAP funds may be used to administer the Arizona LEAP Program. Therefore, administrative expenses will be paid from nonfederal state appropriated or institutional program funds provided such payment does not reduce state appropriated matching funds necessary to receive the maximum federal LEAP funds.

**Historical Note**

Adopted effective September 19, 1996, under an exemption from the Administrative Procedure Act pursuant to A.R.S. § 15-1852(C) (Supp. 96-3). Amended by exempt rulemaking at 5 A.A.R. 2046, effective June 1, 1999 (Supp. 99-2).

**R7-3-308. Arizona LEAP Institutional Review**

Commission staff members will review Institutional LEAP Program records for each program year, and each institution participating in the LEAP program will be visited at least once every two years. The purpose of the visit is to review, with institution financial aid and fiscal officers, the LEAP student records which state and federal regulations require be kept. Those records include documentation which verifies that:

1. The student is a resident of the state of Arizona as prescribed by Arizona Revised Statutes.
2. The student is currently enrolled at least half-time in an eligible course or program.
3. The student has a demonstrated need for financial assistance as determined by a Federal Methodology needs analysis system approved by the Commission and the U.S. Department of Education.
4. The student has received the LEAP funds approved for the award (for example, a canceled check, a written receipt, a signed roster, etc.).
5. The institutional financial aid officer must assure that the total amount of financial aid awarded to a student, from all sources, added to the amount of the family contribution, is limited by and does not exceed the student's total cost of education. The LEAP award limits and the treatment of any additional funds which were received after the institutional aid awards were made shall be consistent with the federal regulations which govern the Federal Title IV, Campus-based programs.
6. Repayments and refunds of LEAP disbursements which have been made to students shall be made in accordance with the written policies of the institution. These written policies must be consistent with applicable federal regulations and a copy must be filed at the Commission office at the beginning of each LEAP program year.
7. Verify that the institution has a Certified Letter of Eligibility and a valid Program Participation Agreement from the Department of Education cited in 34 CFR 668.

**Historical Note**

Adopted effective September 19, 1996, under an exemption from the Administrative Procedure Act pursuant to A.R.S. § 15-1852(C) (Supp. 96-3). Amended by exempt rulemaking at 5 A.A.R. 2046, effective June 1, 1999 (Supp. 99-2).
