PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

RULES

The definition for a rule is provided for under A.R.S. § 41-1001. “Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2022 is cited as Supp. 22-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. This is why the Office lists only updated codified Sections on the previous page.

RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State’s website, www.azsos.gov under Services-> Legislative Filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

RULES

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2022 is cited as Supp. 22-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. This is why the Office lists only updated codified Sections on the previous page.

RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State’s website, www.azsos.gov under Services-> Legislative Filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

4. "Branch office" means any location within or outside Arizona, including a personal residence, but not including a licensee's principal place of business in Arizona, where the licensee holds out to the public that the licensee acts as a licensee.

 - a. Charges or fees customarily received after a loan's closing including prepayment penalties, termination fees, reinvestment fees, late fees, default interest, transfer fees, impound account interest and fees, extension fees, and modification fees. However, extension fees and modification fees are compensation if the lender advances additional funds or increases the credit limit on an open-end mortgage as part of the extension or modification;
 - b. Out-of-pocket expenses paid to independent third parties including appraisal fees, credit report fees, legal fees, document preparation fees, title insurance premiums, recording, filing, and statutory fees, collection fees, servicing fees, escrow fees, and trustee's fees;

 - 3. "Verified claim" means a claim filed with the Superintendent under subsection (B).
 - 4. "Award" means an amount of money granted under subsection (F).
- B. A person may file a claim against a deposit by delivering documentation of the claim to the Superintendent. The claim shall be based on a final judgment in favor of the claimant, entered by a court of competent jurisdiction. To support a claim, the judgment shall be:
 - 1. Against a depositor;
 - 2. For injury caused by the depositor's wrongful act, default, fraud, or misrepresentation committed in the course of the depositor's licensed business activity; and
 - 3. Documented by:
 - a. A certified copy of the complaint in the action;
 - b. A certified copy of the judgment in the action;
 - c. A statement that execution of the judgment has not been stayed, or an explanation of the terms and reason for any stay;
 - d. A statement of any amounts recovered on the judgment; and
 - e. A sworn and notarized statement that the claim is true and correct to the best of the claimant's knowledge and belief.
- C. A claimant shall file a claim with the Superintendent, and all required supporting documentation, not more than six months after entry of the judgment asserted in the claim. However, if execution of the asserted judgment is stayed during the first six months after its entry, the claimant may file a verified claim only during the six months after the stay is lifted. The Department shall process a timely-filed verified claim as a request for hearing under R20-4-1208.
- D. The claimant shall notify the depositor of the filing of a verified claim under this Section, and make the depositor a party to all proceedings on the claim. To do so, the claimant shall send the depositor a copy of all documents filed under subsection (B). The claimant shall make this delivery no more than 10 days after the original filing with the Superintendent under subsection (B). The Department considers a proceeding on a

verified claim to be a contested case, governed by the provisions of 20 A.A.C. 4, Article 12.

- E.** The Superintendent shall, after a hearing, deny a verified claim if the hearing produces evidence of any of the following circumstances:
1. The judgment is not for an injury caused by the depositor and described in subsection (B)(2);
 2. The judgment was awarded by default, stipulation, or consent, and no showing is made in the hearing of an injury caused by the depositor and described in subsection (B)(2);
 3. The judgment's execution has been stayed for any reason;
 4. The judgment was procured through fraud or collusion;
 5. The judgment has been satisfied from other sources; or
 6. The action that produced the judgment was barred by the applicable statute of limitations at the time it was commenced.
- F.** If the Superintendent grants a verified claim, the Superintendent shall do so in the amount of the compensatory damages awarded against the depositor in the judgment, exclusive of:
1. Attorney's fees, and
 2. Amounts previously paid on the judgment.
- G.** A person injured by a depositor shall give the Superintendent written notice at the time of filing a civil action if the claims alleged could be made as a verified claim under this Section. The written notice shall include a statement of the amount of compensatory damages sought against the depositor. The injured person shall provide further information about the civil action to the Superintendent upon request.
- H.** If the Superintendent grants a verified claim under subsection (F), the Superintendent shall authorize the State Treasurer, in writing, to release the deposit to the claimant in the amount stated in subsection (F) if the Superintendent has not received notice of another pending civil action under subsection (G).
- I.** If given notice under subsection (G), the Superintendent shall determine whether the deposit is sufficient to satisfy all claims under subsection (F). The Superintendent shall determine award amounts for each claim of which the Superintendent has notice, and authorize payment, as follows:
1. If the deposit is sufficient to satisfy all claims under subsection (F), the Superintendent shall authorize its release as described in subsection (H).
 2. If the deposit is not sufficient to satisfy all claims under subsection (F), the Superintendent shall calculate the award on each claim as follows:
 - a. Each granted claim shall receive a pro rata share of the total deposit.
 - b. Each pro rata share shall be a dollar amount calculated by multiplying the total deposit by a fraction.
 - i. The numerator of the fraction is the amount of the Superintendent's award for the verified claim.
 - ii. The denominator of the fraction is the sum of the amount of the Superintendent's award for the verified claim plus the total compensatory damages sought in all other civil actions against the same depositor disclosed to the Superintendent under subsection (G).
 - c. The Superintendent shall authorize the State Treasurer to release the pro rata portion of the deposit calculated for each verified claim.
- J.** A depositor or former licensee may request return of its deposit if it substitutes a bond for the deposit, or if its license is surrendered, revoked, or expired, and if all statutory condi-

tions for release of the deposit have been satisfied. The Superintendent shall not release any part of a deposit to a depositor or former licensee until the Superintendent determines whether there are any awards on verified claims unsatisfied because of an apportionment under subsection (I). The Superintendent shall use the deposit amount to pay any unsatisfied portion of those awards. If the deposit amount is not sufficient to pay in full all unsatisfied awards, the Superintendent shall pay the remaining amount of the deposit to claimants in the ratio their awards bear to the total of all awards granted against the deposit.

- K.** The court supervising a licensee in receivership may order the release of a deposit to persons injured by conduct described in subsection (B). In that event, the receiver shall deliver a certified copy of the court's order to the Superintendent. The copy may be uncertified if the receiver is the Superintendent or any other officer or agency of the state of Arizona. The Superintendent shall then authorize the State Treasurer, in writing, to release the deposit to the receiver. The receiver shall distribute the deposit as ordered by the receivership court, rather than under this Section.

R20-4-107. Licensing Time-frames

- A.** As used in this Section, "application" means a document specified or described in this Title, or in any statute enforced by the Department, requesting any permit, certificate, approval, registration, charter, or similar permission described in Table A, together with all supporting documentation required by statute or rule.
- B.** The time-frames in Table A apply solely to applications received by the Department after the effective date of this Section. Each overall time-frame consists of an administrative completeness review time-frame, and a substantive review time-frame. The administrative completeness review time-frame begins to run upon receipt of an application by the Department.
1. Within the administrative completeness review time-frame in Table A, the Department shall notify the applicant in writing whether the application is complete. If the application is incomplete, the notice shall specify the missing information or component.

TITLE 20. COMMERCE, FINANCIAL INSTITUTIONS, AND INSURANCE

CHAPTER 4. DEPARTMENT OF INSURANCE AND FINANCIAL INSTITUTIONS - FINANCIAL INSTITUTIONS

2. An applicant whose application is incomplete shall supply the missing information within 60 days after the date of the notice. If an applicant shows good cause in writing before the expiration of the 60 day time limit, the Superintendent shall extend the period for administrative completion of an application. The administrative completeness review time-frame stops running on the postmark date of the Department's written notice of an incomplete application, and resumes when the Department receives a complete application. If the applicant fails to submit a complete application within the specified time limit, the Department shall reject the application and close the file. An applicant may reapply.
3. The substantive review time-frame begins to run on the postmark date of the Department's written notice that the application is administratively complete.
4. Within the overall time-frame set forth in Table A the Department shall send the applicant written notice of its decision to approve, conditionally approve, or deny a license, unless the time-frame is extended by mutual agreement under A.R.S. § 41-1075. If the Department denies an application, it shall provide written justification for the denial and a written explanation of the applicant's right to a hearing or appeal in the form required by A.R.S. § 41-1076.
5. The Department shall calculate time limits prescribed in this Section under R2-19-107.
- C. The time-frames in this Section apply solely to actions taken by the Department. Nothing in this Section relieves a licensee or applicant of a duty to fulfill any other legal or regulatory requirement that is a condition of its power and authority to engage in business.

PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

RULES

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2022 is cited as Supp. 22-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. This is why the Office lists only updated codified Sections on the previous page.

RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State’s website, www.azsos.gov under Services-> Legislative Filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

R20-5-621. Citations: Notices of De Minimis Violations

- A. The Division Director shall review the inspection reports of the Compliance Safety and Health Officer. After considering all views presented, the Industrial Commission shall affirm the determination of the Division Director, order a reinspection, or issue a citation if the Industrial Commission believes that the inspection disclosed a violation. - C. Appropriate penalties may be proposed with respect to an alleged violation even though after being informed of such alleged violation by the Compliance Safety and Health Officer, the employer immediately abates, or initiates steps to abate, such alleged violation. For example, where employers are engaged in activities which are physically dispersed, the citation may be posted at the location to which the employees report each day. Where employees do not primarily work at or report to a single location, the citation may be posted at the location from which the employees operate to carry out their activities. The employer shall take steps to ensure that the citation is not altered, defaced, or covered by other material. Notices of de minimis violations need not be posted.

- B. Each citation, or a copy thereof, shall remain posted until the violation has been abated, or for three working days, whichever is later. The filing by the employer of a notice of intention to contest under A.R.S. § 23-471(A) shall not affect his posting responsibility under this rule unless and until the Hearing Division and/or Review Commission issues a final order vacating the citation.
- C. An employer to whom a citation has been issued may post a notice in the same location where such citation is posted indicating that the citation is being contested before the Hearing Division and/or Review Commission, and such notice may explain the reasons for such contest. The employer may also indicate that specified steps have been taken to abate the violation.

ARTICLE 13. TREATMENT GUIDELINES**R20-5-1301. Adoption and Applicability of the Article**

- A. The Industrial Commission of Arizona (Commission) has adopted the Work Loss Data Institute's *Official Disability Guidelines – Treatment in Workers Compensation* (ODG) as the standard reference for evidence-based medicine used in treating injured workers within the context of Arizona's workers' compensation system. By adopting and referencing the most recent edition (at the time of treatment), and continuously updated Official Disability Guidelines, the Commission can ensure the latest available medical evidence is used in making medical treatment decisions for injured workers.
- B. Until further action of the Commission, the guidelines shall apply to all body parts and conditions.
- C. The Commission may modify or change the applicability of the guidelines as described in subsection (B) if the Commission determines that modification or changing the applicability of the guidelines will: 1) improve medical treatment for injured workers, 2) make treatment and claims processing more efficient and cost effective, and 3) if the Commission's modification expands the applicability of the guidelines, the guidelines adequately cover the relevant body parts or conditions. Before taking action to modify or change the applicability of the guidelines, the Commission shall provide an opportunity for public comment and hold a public hearing. A decision of the Commission under this subsection shall be made by a majority vote of a quorum of Commission members present at a public meeting.
- D. Action taken by the Commission to modify or change the applicability of the guidelines under subsection (C) shall be published in the minutes of the Commission meeting when such action was taken. The minutes of this action shall be published on the Commission's website and shall be available from the Commission upon request.
- E. The guidelines shall apply prospectively. Recommendations provided in the guidelines related to the management of chronic pain and the use of opioids for all stages of pain management shall apply to medical treatment or services occurring on or after October 1, 2016. For purposes of this process, chronic pain shall be defined by the guidelines. Recommendations provided in the guidelines related to all other body parts and conditions shall apply to medical treatment or services occurring on or after October 1, 2018.
- F. This Article applies to all claims filed with the Commission.
- G. This Article only applies to medical treatment and services for body parts and conditions that have been accepted as compensable.
- H. The guidelines are to be used as a tool to support clinical decision making and quality health care delivery to injured employees. The guidelines set forth care that is generally considered reasonable and are presumed correct if the guidelines provide recommendations related to the requested treatment or service. This is a rebuttable presumption and reasonable medical care may include deviations from the guidelines. To support a request to deviate from the guidelines, the provider must produce documentation and justification that demonstrates by a preponderance of credible medical evidence a medical basis for departing from the guidelines. Credible medical evidence may include clinical expertise and judgment.
- I. The Commission shall provide administrative review and oversight of this Article.

A request for an extension may be filed with the Division in writing and shall state the reasons the Self-Insurer is unable to meet the deadline. A request for an extension shall be granted for good cause.
- B. After receiving the information required in R20-5-1536, R20-5-1537, R20-5-1538, or R20-5-1539, as applicable, the Division shall determine the annual taxes owed by the Self-Insurer. The Division shall also determine whether the Self-Insurer has overpaid or underpaid its taxes for the previous calendar year. If the total of the quarterly payments is less than the actual taxes for the year, the Self-Insurer shall pay the difference on or before March 31 of the calendar year in which the taxes are due. If the total of the quarterly payments exceeds the amount of the actual taxes for the year, the Division shall refund the amount described in A.R.S. § 23-961 or § 23-1065, as applicable.
- C. A Self-Insurer shall pay to the Commission the Self-Insurer's annual workers' compensation premium taxes on or before March 31 based on the net taxable premium calculated for the preceding calendar year. A Self-Insurer shall pay a premium tax of at least \$250.00 per calendar year.
- D. The Division shall calculate a Self-Insurer's quarterly taxes owed under A.R.S. §§ 23-961 and 23-1065 in one of the following ways:
 1. 25% of the tax calculated for the previous year; or
 2. A calculation based on actual payroll and losses calculated for each quarter, using the same rating plan to calculate the quarterly payment as used to calculate the taxes required under A.R.S. §§ 23-961 and 23-1065. If the Division selects this method, the Self-Insurer shall submit quarterly payroll and loss information by Payroll Classification Code upon request.
- E. Quarterly tax payments are due April 30, July 31, October 31, and January 31 for the periods ending March 31, June 30, September 30, and December 31, respectively.
- F. If the Self-Insurer fails to pay the annual or quarterly taxes to the Commission when due, the Self-Insurer shall pay a penalty of \$25.00 or 5% of the tax or payment due, whichever is more, plus interest at the rate of 1% per month from the date the tax or payment was due until paid.

- B. The Deviation Rate applicable to a Self-Insurer relates directly to the Self-Insurer's safety record, which is measured by the Self-Insurer's Experience Modification Rating specific to Arizona for the prior year. The schedule of Deviation Rates will include the Experience Modification Rate ranges that apply to each Deviation Rate.
- C. The Experience Modification Rate for purposes of determining the Deviation Rate shall be calculated as follows:
 1. In the first year of self-insurance, the Experience Modification Rate is set at 1.00;
 2. In the second and third years of self-insurance, the Division calculates the Experience Modification Rate based upon the payroll and loss data accumulated by the Self-Insurer during its entire term of self-insurance; and
 3. In the fourth year of self-insurance and all following years, the Division calculates the Experience Modification Rate based upon the payroll and loss data of the prior three tax years.
- D. If the Division cannot calculate an Experience Modification Rate in the second and all following years because the Self-Insurer does not have any injuries, the Self-Insurer shall receive the highest Deviation Rate.
- E. The lowest Deviation Rate included in the schedule of Deviation Rates shall not be less than 10%.

INTRODUCTION

Since 1925, when the Arizona Legislature passed the state's first Workers' Compensation Act ("Act"), the Industrial Commission of Arizona ("Commission") has administered the workers' compensation laws of that Act. The Act includes the authority of the Commission to set a schedule of fees to be charged by healthcare providers attending injured employees (also referred to in this document as "injured worker" or "claimant." A.R.S. § 23-908(B). In 2004, the Act was amended to include the setting of fees for prescription medicines required to treat an injured employee. A.R.S. § 23-908(C). This fee schedule is referred to as the Arizona Physicians' and Pharmaceutical Fee Schedule (Fee Schedule).

Any reference to "healthcare providers" in the Fee Schedule is intended to include all licensed professionals whose scope of practice allows them to legally provide services to injured workers. Any reference to "physician" in relation to workers' compensation cases includes the following: doctors of medicine, doctors of osteopathy, doctors of podiatric medicine, doctors of chiropractic, doctors of naturopathic medicine, certified registered nurse anesthetists, physician assistants and nurse practitioners. Healthcare providers treating employees under industrial coverage are entitled by law to charge according to the schedule of fees adopted by the Commission. Accurate calculation of fees based upon this schedule, the monthly filing of reports and bills for payment, and the use of forms prescribed are essential to timely and correct payment for a provider's services and can be vital in the award of benefits to the injured worker and their dependents.

This Fee Schedule has been updated to incorporate by reference the 2022 Edition of the American Medical Association's *Current Procedural Terminology* (CPT®) publication, including the general guidelines, identifiers, modifiers, and terminology changes associated with the adopted codes. In this Fee Schedule CPT® codes that contain explanatory language specific to Arizona are preceded by Δ. Codes, however, that are unique to Arizona and not otherwise found in CPT® are preceded by an AZ identifier and numbered in the following format: AZxxx. To the extent that a conflict may exist between an adopted portion of the CPT® and a code, guideline, identifier or modifier unique to Arizona, then the Arizona code, guideline, identifier or modifier shall control.

- a. The Commission has also adopted by reference: 1) The unit values and guidance for consultative, diagnostic and therapeutic services published in the most recent edition of *Relative Value Guide*, American Society of Anesthesiologists <https://www.asahq.org>; 2) The *1995 and 1997 Documentation Guidelines for Evaluation and Management Services*, Centers for Medicare and Medicaid Services (CMS) <https://www.cms.gov>; 3) The *2022 Clinical Diagnostic Laboratory Fee Schedule*, Centers for Medicare and Medicaid Services (CMS) Clinical Laboratory fee Schedule <https://www.cms.gov>; 4) The *National Correct Coding Initiative Edits*, CMS; <https://www.cms.gov/Medicare/Coding/NationalCorrectCodInitEd/index.html>; 5) *2022 Optum360 The Essential RBRVS* <https://www.optum360.com/>; and 6) Physicians as Assistants at Surgery: 2020 Update <https://www.facs.org/>. The RBRVS based fee schedule adopts surgical global periods published by CMS.

Except as otherwise noted, unit values assigned to the service codes listed in this document are the product of the Industrial Commission of Arizona and are not associated in any way with the American Medical Association or any other entity or organization.

A. GENERAL GUIDANCE

1. Reimbursements and billing associated with Pharmaceuticals are found in the Pharmaceutical Fee Schedule Section of this document.
2. Except when governed by a separate contract or network that governs fees pursuant to A.R.S. § 23-908(J)(1), this Fee Schedule establishes the maximum reimbursement values for services performed by healthcare providers to injured workers under Arizona's workers' compensation law.
3. If a healthcare provider or insurance carrier is referring an injured worker to a medical specialist for evaluation and/or treatment, the medical specialist's diagnosis becomes the foundational diagnosis for billing purposes.
4. Routine progress and routine final reports filed by the attending healthcare provider do not ordinarily command a fee.
5. Payment will be made for only one professional visit in any one day except when the submitted report clearly demonstrates the need for the additional visit and fee.
6. Fees for hospital, office, or home visits, subsequent to the initial visit, are not to be added to coded surgical procedures performed on the same day.

TITLE 20. COMMERCE, FINANCIAL INSTITUTIONS, AND INSURANCE

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

7. Routine office treatment principally by injection of drugs, other than antibiotics, requires authorization by the carrier or self-insured employer for each series of 10 after the first series of 10.
8. Except in emergencies, a carrier must be given notice regarding a consultation and the consultant must provide his/her report to the carrier and the attending healthcare provider within a reasonable period of time to facilitate processing of the claim.
9. The Commission requests that carriers notify attending healthcare providers at the same time the claimant is notified that their claim is closed with or without supportive care. If a claim is approved for reopening, the carrier should also notify the attending healthcare provider of that approval.
10. Missed individual appointments for consultants, without prior notification, will be compensated at 50% of consultation fee.
11. No fees may be charged for services not personally rendered by the healthcare provider, unless otherwise specified.
12. The Commission will investigate an injured workers' complaint of bad faith/unfair claims processing practices, and if appropriate, impose penalties under A.R.S. § 23-930, in those circumstances where a "peer to peer" review was not conducted by a healthcare provider with appropriate skill, training, and knowledge or where the individual performing the "peer to peer" review was not licensed. The Commission will also investigate an injured workers' complaint of bad faith/unfair claims processing practice, and if appropriate, impose penalties under A.R.S. § 23-930, for a denial of treatment based on the failure of the treating doctor to participate in a "peer to peer" review, when the treating doctor has not been given reasonable time or opportunity to participate in the "peer to peer" review.
13. As authorized under A.A.C. R20-5-128, the fee for the reproduction of medical records for workers' compensation purposes shall be 25¢ per page and \$10.00 per hour per person for reasonable clerical costs associated with locating and reproducing the documents.
14. Reimbursement values for telehealth services are governed by the Fee Schedule. Performance of telehealth services are governed by Arizona Revised Statutes, Title 36, Chapter 36.

B. PAYMENT AND REVIEW OF BILLINGS

1. Under Arizona workers' compensation law, an insurance carrier, self-insured employer or their representative is not responsible for payment of a billing for medical, surgical, and hospital benefits that the insurance carrier, employer or representative received more than 24 months from the date that the medical service was rendered, or from the date on which the provider knew or should have known that the service was rendered, whichever occurs later. A subsequent billing or corrective billing does not restart the limitations period. *See* A.R.S. § 23-1062.01.
2. It is incumbent upon the insurance carrier, self-insured employer and third party processing service to inform all parties, including the Commission, regarding changes in addresses for bill processing locations.
3. Under Arizona workers' compensation law, a healthcare provider is entitled to timely payment for services rendered. An insurance carrier, self-insured employer or claims processing representative shall make a determination whether to deny or pay a medical bill on an accepted claim, in whole or in part, including the decision as to the amount to pay, within thirty days from the date the claim is accepted, if the billing is received before the date of acceptance, or within thirty days from the date of the receipt of the billing if the billing is received after the date of acceptance. All billing denials shall be based on reasonable justification. The insurance carrier, self-insured employer, or claims processing representative shall pay the approved portion of the billing within thirty days after the determination for payment is made. If the billing is not paid within the applicable time period, the insurance carrier, self-insured employer, or claims processing representative shall pay interest to the health provider on the billing at a rate that is equal to the legal rate. Interest shall be calculated beginning on the date that the payment to the healthcare provider is due. *See* A.R.S. § 23-1062.01.

To ensure timely payment of a medical billing, a billing must contain the information required under A.R.S. § 23-1062.01. A billing must contain at least the following information: Correct demographic patient information including claim number, if known; Correct provider information, including name, address, telephone number, and federal taxpayer identification number; Appropriate medical coding with dollar amounts and units clearly stated with all descriptions and dates of services clearly printed; and legible medical reports required for each date of service if the billing is for direct treatment of the injured worker.

4. Payment of a workers' compensation medical billing is governed by A.R.S. § 23-1062.01, which includes:
 - a. Timeframes for processing and payment of medical bills;
 - b. Criteria for billing denials;
 - c. A provision that the injured worker is not responsible for payment of any portion of a medical bill on an accepted claim or payment of any portion of a medical billing that is being disputed;

TITLE 20. COMMERCE, FINANCIAL INSTITUTIONS, AND INSURANCE

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

- d. A provision that the insurance carrier or self-insured employer may establish an internal system for resolving payment disputes;
 - e. A provision that A.R.S. § 23-1062.01 does not apply to written contracts entered into between medical providers and insurance carriers and self-insured employers or their representatives that specify payment periods or contractual remedies for untimely payments; and
 - f. A provision that the Industrial Commission does not have jurisdiction over contract disputes between the parties.
5. “Reasonable justification” to deny a bill does not include that the payment/billing policies of other private or public entities (publications) do not allow it unless the publication has been adopted by reference in the Fee Schedule.
6. Excluding bundling and unbundling issues, it is not the Commission’s intent to restrict an insurance carrier’s, self-insured employers or third party processing service’s ability to address issues not addressed by the Fee Schedule. This includes evaluating unlisted procedures, establishment of values for unlisted procedures, establishment of values for codes that are listed as “BR” or “RNE”, new CPT® codes that have not been adopted by the Industrial Commission, or issues outside the jurisdiction of the Fee Schedule, such as hospital billings.
7. Healthcare providers shall provide legible medical documentation and reports that are sufficient for insurance carriers/self-insured employers to determine if treatment is being directed towards injuries sustained in an industrial accident or incident. The healthcare provider shall ensure that their patients’ medical files include the information required by A.R.S. § 32-1401.2. The healthcare provider is not required to provide copies of documents or reports that they did not author and that are not in their possession (*i.e.*, Employers’ First Report of Injury).
8. Treating physicians shall submit a narrative that justifies the billing of a level 4 or 5 E/M service.
9. The Commission has adopted by reference the 1995 and 1997 Documentation Guidelines for Evaluation and Management Services. Medical billings shall be prepared and reviewed consistent with how these guidelines are used and interpreted by CMS. Additionally, payers are required to disclose the guideline utilized in their Explanation of Reviews (or other similar document).
10. A payer’s Explanation of Review (or other similar document) shall contain sufficient information to allow the healthcare provider to determine whether the amount of payment is correct and whom to contact regarding any questions related to the payment. Information in the Explanation of Review (or other similar document) shall include the following:
- a. The name of the injured worker;
 - b. The name of the payer and the name of the third party administrator (“TPA”), if applicable;
 - c. If applicable, the name, telephone number, and address of all entities that reviewed the medical billing on behalf of the payer;
 - d. If applicable, the name, telephone number and address of the party that has a written contract signed by the healthcare provider that allows the contracting party or other third party to access and pay rates that are different from those provided under this Fee Schedule;
 - e. The amount billed by the healthcare provider;
 - f. The amount of any reduction due to a written contract with the healthcare provider; and
 - g. The amount of payment.
11. Nothing in this Fee Schedule precludes a healthcare provider from entering into a separate contract that governs fees. In this instance, reimbursement shall be made according to the applicable contracted charge. In the absence of a separate contract that governs a healthcare provider’s fees, reimbursement shall be made according to this Fee Schedule. A payer shall demonstrate that it is entitled to pay the contracted rate in the event of a dispute by providing a valid copy of the governing contract to the healthcare provider. If a payer fails to provide evidence that it is entitled to pay a contracted rate, then the payer shall be required to make payment as provided in this Fee Schedule.
12. Billing for Pharmaceuticals is found in the Pharmaceutical Fee Schedule Section of this document.
13. The Fee Schedule does not apply to ambulance service providers. Service fees for ground ambulance transportation are set and mandated by the Arizona Department of Health Services through its Arizona Ground Ambulance Service Rate Schedule. [A.R.S. § 36-2239\(D\)](#) states “an ambulance service shall not charge, demand or collect any remuneration for any service greater or less than

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

or different from the rate or charge determined and fixed by the department as the rate or charge for that service.” Service fees published in the Arizona Ground Ambulance Service Rate Schedule are applicable in the workers’ compensation setting.

C. REIMBURSEMENT OF MID-LEVEL PROVIDERS

1. Certified Registered Nurse Anesthetists (“CRNA’s”) are reimbursed at 85% of the fee schedule.
2. Physician Assistants and Nurse Practitioners are reimbursed at 85% of the fee schedule *except* if services are provided “incident to” a physician’s professional services. In that instance, reimbursement is required to be at 100% of the fee schedule. The following criteria are identified as establishing the “incident to” exception:
 - a. The Physician Assistant and Nurse Practitioner must work under the direct supervision of an appropriately licensed physician,
 - b. The Physician must initially see that patient and establish a plan of care for that patient (“treatment plan”),
 - c. Subsequent service provided by the Physician Assistant and Nurse Practitioner must be a part of the documented treatment plan, and
 - d. The Physician must always be involved in the patient’s treatment plan and see the patient often enough to demonstrate that the Physician is actively participating in and managing the patient’s care.
3. For purposes of the Fee Schedule, the Commission recognizes that direct supervision of a Physician Assistant or Nurse Practitioner by a Physician can be accomplished through the use modern technology and telecommunications (telemedicine) and may not require the on-site presence of the Physician when the Physician Assistant or Nurse Practitioner sees the patient. In all instances, however, and regardless of the extent to which telemedicine is used, the Physician must actively participate in and manage the patient’s care if services provided by a Physician Assistant or Nurse Practitioner are billed at 100% of the fee schedule under the “incident to” exception.
4. It is the responsibility of the Physician to document if the services provided by a Physician Assistant and Nurse Practitioner are “incident to” the Physician’s professional service. If either the incident to criteria is not met, or the documentation submitted fails to support the “incident to” criteria, the reimbursement should be made at 85% of the fee schedule.

D. DIRECTED CARE AND USE OF NETWORKS

The Arizona Workers’ Compensation Act only permits private self-insured employers to direct medical care. A.R.S. § 23-1070(A); See also *Southwest Gas Corp. v. Industrial Commission of Arizona*, 200 Ariz. 292, 25 P.3d 1164 (2001). This limitation on the scope of directed care means that employees of private self-insured employers do not have an unrestricted right to choose their own medical providers, while employees of all other employers do (including public self-insured employers).¹ Notwithstanding an employee’s right to choose, many workers’ compensation insurance carriers (“carriers”) and public self-insured employers (“employers”) have taken advantage of “networks” to reduce their costs. This is done by either creating their own network of “preferred providers” or by contracting with a third party to access private health-care networks.

Actions or conduct that impair or limit the right of an employee to choose their medical provider may rise to the level of bad faith and/or unfair claims processing practices under A.R.S. § 23-930. The Commission will investigate a complaint of bad faith/unfair claims processing practices, and if appropriate, impose penalties under A.R.S. § 23-930, in those circumstances where a carrier, employer, or TPA has engaged in conduct that results in directing a claimant to a “network” provider. The following are examples of conduct that the Commission would consider appropriate for investigation under A.R.S. § 23-930.

- A claimant is told that they must see a healthcare provider that is “in the network;”
- A claimant is told that care from a “non-network” healthcare provider is not authorized;
- A “network” healthcare provider is told that referrals are required to be made to another “network” healthcare provider;
- A “network” healthcare provider is told that they may not recommend a “non-network” healthcare provider to a patient;
- A “non-network” healthcare provider is told that care will only be authorized if provided by a “network” provider; and
- A “non-network” healthcare provider is told that reimbursement will be made according to “network” discounts.

¹ It should be noted that the law governing directed care is not limited to “medical doctors,” but instead applies to medical, surgical, and hospital benefits. See A.R.S. § 23-1070. The phrase, “medical, surgical, and hospital benefits” is defined in A.R.S. § 23-1062(A), which states: “Promptly, upon notice to the employer, every injured employee shall receive medical, surgical and hospital benefits or other treatment, nursing, medicine, surgical supplies, crutches and other apparatus, including artificial members, reasonable required at the time of the injury, and during the period of disability. Such benefits shall be termed ‘medical, surgical and hospital benefits.’”

TITLE 20. COMMERCE, FINANCIAL INSTITUTIONS, AND INSURANCE

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

E. TREATMENT OF INDUSTRIAL INJURIES AND DISEASES

1. Only physicians and surgeons licensed in the State of Arizona are permitted to treat injured or disabled employees under the jurisdiction of the Commission, unless others are specifically authorized.
2. An employee who sustains an injury arising out of, or in the course of, employment is entitled, under Arizona law, to select a healthcare provider of his/her own choice unless that employee is employed by a private self-insured employer as described in A.R.S. § 23-1070. Employers described in A.R.S. § 23-1070, excluding the State or Political Subdivisions thereof, are allowed to direct medical care.
3. The attending healthcare provider's promptness and professional exactness in the completion and filing of workers' compensation forms are extremely important to the employee being treated. The injured or disabled employee's claim to medical benefits and compensation can rest on the conscientious attention of the healthcare provider in processing the required reports. Rules addressing the completion of these forms are found in the Title 20, Chapter 5, Article 1 of the Arizona Administrative Code, which can be obtained at: http://apps.azsos.gov/public_services/Title_20/20-05.pdf
4. The Commission, the employer and the insurance carrier may, at any time, designate a healthcare provider or healthcare providers to examine an employee. Additionally, upon application of the employer, employee, or insurance carrier, the Commission may order a change of healthcare provider or a change of conditions of treatment when there are reasonable grounds or a belief that the employee's health or progress can thus be improved.
5. A claimant may not change doctors without the written authorization of the insurance carrier, the Commission or the attending physician. A claimant may not transfer from one hospital to another without the written authorization of the insurance carrier or the Commission. If the patient's employment requires leaving the locale in which he/she is receiving treatment, the attending physician should arrange for continued treatment and notify the carrier of such arrangement. It is the responsibility of the physician or the hospital to which a patient has transferred to ascertain whether such a change has been authorized.
6. Treatment of conditions unrelated to the injuries sustained in the industrial accident may be denied as unauthorized if the treatment seems directed principally toward the non-industrial condition or if the treatment does not seem necessary for the patient's physical rehabilitation from the industrial injury.
7. If the patient refuses to submit to medical examination or to cooperate with the healthcare provider's treatments, the carrier or self-insured employer should be notified.
8. If an employee is capable of some form of gainful employment, it is proper for the healthcare provider to release the employee to light work and make a specific report to the carrier or self-insured employer as to the date of such release. It can be to the employee's economic advantage to be released to light work, since he/she can receive compensation based on 66 2/3% of the difference between one's earnings and one's established wage. On the other hand, it would not be to the employee's economic advantage to be released to light work if, in fact, the employee is not capable of performing such work. The healthcare provider's judgment in such matters is extremely important.
9. If the employee no longer requires active medical care for the industrial injury and is discharged from treatment, the healthcare provider is required to provide a signed report with the date of discharge to the carrier or self-insured employer, even if, as a private patient, the employee may require further medical care for conditions unrelated to the industrial accident. This final report and discharge date are necessary for closing the claim file.
10. When a healthcare provider discharges a claimant from treatment, the healthcare provider shall determine whether the employee has suffered any impairment of function, or disfigurement about the head or face, including injury to or loss of teeth, and include this information in the final signed report provided to the carrier or self-insured employer. The Rules of Procedure Before the Industrial Commission of Arizona require that any rating of the percentage of functional impairment should be made in accordance with the standards of evaluation published in the most recent edition of the American Medical Association Guides to the Evaluation of Permanent Impairment.
11. Once an exposure to blood-borne pathogen occurs, the workers' compensation insurance carrier/self-insured employer is responsible for payment of the accepted treatment protocol which includes the HBIG vaccination (Hepatitis B Immune Globulin), and, if necessary, the three (3) Hepatitis B vaccinations.

When a work-related incident occurs that may have exposed an employee to Hepatitis, the insurance carrier/self-insured employer is responsible for paying for the testing and/or treatment of Hepatitis B or C. As to treatment of HIV, if a bona fide claim exists under A.R.S. § 23-1043.02, then the insurance carrier/self-insured employer is responsible for paying for the treatment.

TITLE 20. COMMERCE, FINANCIAL INSTITUTIONS, AND INSURANCE

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

12. It is the employer's responsibility, in accordance with existing OSHA standards, to pay for HIV testing. The insurance carrier may seek reimbursement from the employer for the costs associated with providing the series of three (3) Hepatitis B vaccinations if the employer failed to provide them in violation of federal and state laws.

F. REOPENING OF CLAIMS

1. Whether or not the employee has suffered a permanent disability, on a claim that has been previously accepted, the claim may be reopened on the basis of a new, additional or previously undiscovered disability or condition, but:
 - a. The claimant should use the form of petition prescribed by the Commission;
 - b. The petition must be personally signed by the worker or his authorized representative and must be filed at any office of the Industrial Commission of Arizona;
 - c. The petition, in order to be considered, must be accompanied by the healthcare provider's medical report.
2. If the claim is reopened, the payment for such reasonable and necessary medical, hospital and laboratory work expenses shall be paid by the insurance carrier if such expenses are incurred within 15 days of the filing of the petition to reopen.
3. No monetary compensation is payable for any period prior to the date of filing of the petition to reopen. Surgical benefits are not payable for any period prior to the date of filing of a petition to reopen, except that surgical benefits are payable for a period prior to the date of filing not to exceed seven (7) days if a bona fide medical emergency precludes the employee from filing a petition to reopen prior to the surgery. Other information relative to reopening rights may be found at A.R.S. § 23-1061(H).
4. If a claim is approved for reopening, the carrier must notify the attending healthcare provider of that approval.

G. NO-INSURANCE CLAIMS

"No-Insurance" claims are workers' compensation claims involving injuries to employees of employers who do not have workers' compensation insurance coverage as required by Arizona law. In such cases, all claims and reports are to be addressed to the No-Insurance Section of the Special Fund of The Industrial Commission of Arizona.

H. CONSULTATIONS

Workers' compensation cases can present additional medical and legal problems that justify consultation sooner and more frequently than for the average private patient. In complex cases and in cases requiring an estimate of general or unscheduled disability, consultation with specialists in the appropriate field may be requested by any interested party. The Industrial Commission continues to recognize the necessity for consultations in workers' compensation and establishes relative value units and rates for consultation codes.

I. WITNESS FEES

1. Insurance providers, self-insured employers, and the Special Fund of the Commission are responsible for paying \$150.00 for the first hour of testimony (or any portion thereof) and \$50.00 for each 20 minute increment following the initial hour (or any portion thereof) to a healthcare provider who testifies at hearing at their request.
2. The Commission is responsible for paying \$150.00 for the first hour of testimony (or any portion thereof) and \$50.00 for each 20 minute increment following the initial hour (or any portion thereof) to a healthcare provider who testifies at hearing on request of a workers' compensation claimant.

J. DEFINITIONS OF SELECT UNIT VALUES

1. BY REPORT "BR" ITEMS: "BR" in the value column indicates that the value of this service is to be determined "by report", because the service is too unusual or variable to be assigned a unit relativity. Pertinent information concerning the nature, intent and need for the procedure or service, the time, the skill and equipment necessary, etc., is to be furnished. A detailed clinical record is not necessary.
2. RELATIVITY NOT ESTABLISHED "RNE" ITEMS: "RNE" in the value column indicates new or infrequently performed services for which sufficient data has not been collected to allow establishment of a relativity. "RNE" items are clearly definable and not inherently variable as are BR procedures. A report may be necessary.
3. SERVICE "SV" ITEMS: "SV" in the value column indicates the value is to be calculated as the sum of the various services rendered (e.g., office, home, nursing home or hospital visits, consultation or detention, etc.), according to the ground rules covering those

TITLE 20. COMMERCE, FINANCIAL INSTITUTIONS, AND INSURANCE

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

services. Identify by using the code number of the “SV” item. The Value is established by identifying each individual service, listing the code number and its value.

4. **MATERIALS AND SUPPLIES:** A healthcare provider is not entitled to be reimbursed for supplies and materials normally necessary to perform the service. A healthcare provider may charge for other supplies and materials using code 99070² in accordance with this subsection. A healthcare provider may use an applicable HCPCS code in lieu of code 99070 if the HCPCS code more accurately describes the materials and supplies provided by the healthcare provider; however, the Commission has **not** adopted the RVUs for HCPCS codes. Examples of those items that are and are not reimbursable are listed below. Documentation showing actual costs (*i.e.*, manufacturer’s invoice) associated with providing supplies and materials plus fifteen percent (15%) to cover overhead costs and is adequate justification for payment only when the documentation is dated within one year of the billed date. This provision does not apply to retail operations or locations not maintained by a healthcare provider’s office, including, but not limited to: hospitals, ambulatory surgery centers, ambulance service providers, and durable medical equipment providers. Drugs that are administered to patients in a clinical setting are covered under code 99070 and reimbursed according to the Pharmaceutical Fee Schedule Guidelines. Prescription drugs provided to patients as a part of the overall treatment regimen but outside of the clinical setting are not included under this code.

Examples of supplies that are usually not separately reimbursable include:

- Applied hot or cold packs
- Eye patches, injections or debridement trays
- Steristrips
- Needles
- Syringes
- Eye/ear trays
- Drapes
- Sterile gloves
- Applied eye wash or eye drops
- Creams (massage)
- Fluorescein
- Ultrasound pads and gel
- Tissues
- Urine collection kits
- Gauze
- Cotton balls/fluff
- Sterile water
- Band-Aids and dressings for simple wound occlusion
- Head sheets
- Aspiration trays
- Sterile trays for laceration repair and more complex surgeries
- Tape for dressings

Examples of material and supplies that are generally reimbursable include:

- Cast and strapping materials
- Applied dressings beyond simple wound occlusion
- Taping supplies for sprains
- Iontophoresis electrodes
- Reusable patient specific electrodes
- Dispensed items, including:
 - Canes
 - Braces
 - Slings
 - Ace wraps
 - TENS electrodes
 - Crutches
 - Splints
 - Back support
 - Dressings

Hot or cold packs

5. “Modifiers: A two-digit (numeric or alpha) sequence that provides the means by which the reporting healthcare provider can specify that a procedure performed has been altered under a special circumstance. This allows defining the modifying circumstance of the service or procedure without creating a separate procedure or listing.

Modifier Examples

Professional Component (PC): Certain procedures are a combination of a physician, or Professional component and a technical component. When modifier 26 is added to an Appropriate code a PC allowable amount will be paid.

Technical Component (TC): The TC component reflects the technical portion of the procedure code. When the technical component is provided by a healthcare provider other than the one providing the professional component, the healthcare provider bills for the technical component by adding modifier TC to the applicable code.

TITLE 20. COMMERCE, FINANCIAL INSTITUTIONS, AND INSURANCE

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

PHARMACEUTICAL FEE SCHEDULE

I. GENERAL PROVISIONS AND APPLICABILITY OF THE PHARMACEUTICAL FEE SCHEDULE.

- A. The Pharmaceutical Fee Schedule (PFS) applies to prescription and over-the-counter (OTC) medications required to treat an injured employee, whether dispensed by a pharmacy (including online or mail order pharmacies) or by a medical practitioner.
- B. Medications are not reimbursable unless “reasonably required” at the time of injury or during the period of disability. *See* A.R.S. § 23-1062(A); A.A.C. R20-5-1303(A). The Industrial Commission of Arizona has adopted the Official Disability Guidelines (ODG), including ODG’s Drug Formulary Appendix A (ODG Formulary), as the standard reference for evidence-based medicine used in treating injured employees within the context of Arizona’s workers’ compensation system. Effective October 1, 2018, ODG applies to all body parts and conditions. *See* A.A.C. R20-5-1301(B), (E). ODG is to be used as a tool to support clinical decision making and quality health care delivery to injured employees. The ODG Formulary sets forth pharmaceutical guidelines that are generally considered reasonable and are presumed correct if the guidelines provide recommendations related to a particular medication. *See* A.A.C. R20-5-1301(H). Medical practitioners are encouraged to consult the ODG Formulary before dispensing or prescribing medications to injured employees.
- C. Generic drugs must be dispensed to injured employees when appropriate, consistent with A.R.S. § 32-1963.01(A),¹ (B), and (D) through (L).² *See* A.R.S. § 23-908(C). For purposes of this subsection, the definitions in A.R.S. § 32-1963.01(L) apply.³ Whenever possible: (1) medical practitioners should prescribe less costly drugs; and (2) pharmacies and medical practitioners (under Section VII) should dispense generic drugs with lower AWP values.

II. DEFINITIONS.

- A. “Administer” has the meaning set forth in A.R.S. 32-1901(1).
- B. “Average Wholesale Price” or “AWP” means the wholesale price charged on a specific commodity that is assigned by the drug manufacturer and is listed in a nationally-recognized drug pricing file.
- C. “Commercially available” means a drug product is widely available for purchase in pharmacies accessible to the general public, including in brick and mortar pharmacies accessible to the general public.
- D. “Compound medication” means a pharmaceutical product created by virtue of mixing or combining drugs and/or components to meet the unique needs of an individual patient when the finished product does not recreate a commercially-available product.
- E. “Dispense” or “dispensing” means to deliver to an ultimate user by or pursuant to the lawful order of a medical practitioner, including the prescribing, administering, packaging, labeling, or compounding necessary to prepare for that delivery. *See* A.R.S. § 32-1901(27).
- F. “Drug” has the meaning set forth in A.R.S. § 32-1901(31).
- G. “Hospital” means any institution for the care and treatment of the sick and injured that is approved and licensed as a hospital by: (1) the Arizona Department of Health Services; or (2) an equivalent regulatory agency in another U.S. state, territory, or district. *See* A.R.S. § 32-1901(42).

¹ A.R.S. § 32-1963.01(A) states: “If a medical practitioner prescribes a brand name drug and does not indicate an intent to prevent substitution as prescribed in subsection E of this section, a pharmacist may fill the prescription with a generic equivalent drug.”

² A.R.S. § 32-1963.01(E) states: “A prescription generated in this state must be dispensed as written only if the prescriber writes or clearly displays ‘DAW’, ‘dispense as written’, ‘do not substitute’ or ‘medically necessary’ or any statement by the prescriber that clearly indicates an intent to prevent substitution on the face of the prescription form. A prescription from out of state or from agencies of the United States government must be dispensed as written only if the prescriber writes or clearly displays ‘do not substitute’, ‘dispense as written’ or ‘medically necessary’ or any statement by the prescriber that clearly indicates an intent to prevent substitution on the face of the prescription form.”

³ A.R.S. § 32-1963.01(L) states, in part:

2. “Brand name drug” means a drug with a proprietary name assigned to it by the manufacturer or distributor.
4. “Generic equivalent” or “generically equivalent” means a drug that has an identical amount of the same active chemical ingredients in the same dosage form, that meets applicable standards of strength, quality and purity according to the United States pharmacopeia or other nationally recognized compendium and that, if administered in the same amounts, will provide comparable therapeutic effects. Generic equivalent or generically equivalent does not include a drug that is listed by the United States food and drug administration as having unresolved bioequivalence concerns according to the administration's most recent publication of approved drug products with therapeutic equivalence evaluations.

TITLE 20. COMMERCE, FINANCIAL INSTITUTIONS, AND INSURANCE

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

- H. “Medical practitioner” means any person who is permitted/licensed and authorized by law to use and prescribe prescription medications, acting within the scope of such authority, for the treatment of sick and injured human beings or for the diagnosis or prevention of sickness in human beings in the State of Arizona or any U.S. state, territory or district. *See* A.R.S. § 32-1901(53).
- I. “Non-traditional strength” medication means a finished drug product in a strength (*i.e.*, dosage) that is not commercially available in pharmacies accessible to the general public.
- J. “Over-the-counter medication” or “OTC medication” means a finished drug product, including label and container according to context, which does not require a prescription order.
- K. “Pharmacy” has the meaning set forth in A.R.S. § 32-1901(71).
- L. “Pharmacy accessible to the general public” means a pharmacy that is readily accessible and provides pharmaceutical services (including prescription medication services) to all segments of the general public without restricting services to a defined or exclusive group of consumers, including but not limited to consumers who have access to services because they are treated by or have an affiliation with a specific entity or medical practitioner. This definition includes mail order pharmacies delivering pharmaceutical services to workers’ compensation claimants if both of the following apply:
1. The pharmacy does not limit or restrict access to claimants with an affiliation to a medical provider or other entity.
 2. Any medical provider or other entity referring a claimant to the pharmacy does not receive or accept any rebate, refund, commission, preference, or other consideration as compensation for the referral.
- M. “Pharmacy not accessible to the general public” means a pharmacy that provides pharmaceutical services (including prescription medication services) only to a defined or exclusive group of consumers, including but not limited to consumers who have access to services because they are treated by or have an affiliation with a specific entity or medical practitioner. “Pharmacy not accessible to the general public” does not include a hospital pharmacy. This definition does not include mail order pharmacies delivering pharmaceutical services to workers’ compensation claimants if both of the following apply:
1. The pharmacy does not limit or restrict access to claimants with an affiliation to a medical provider or other entity.
 2. Any medical provider or other entity referring a claimant to the pharmacy does not receive or accept any rebate, refund, commission, preference, or other consideration as compensation for the referral.
- N. “Prescription” means either a prescription order or a prescription medication. *See* A.R.S. § 32-1901(80).
- O. “Prescription medication” means any drug, including label and container according to context, which is dispensed pursuant to a prescription order. *See* A.R.S. § 32-1901(81).
- P. “Prescription order” shall have the meaning set forth in A.R.S. § 32-1901(84).
- Q. “Repackaged medication” means a finished drug product removed from the container in which it was distributed by the original manufacturer and placed into a different container without further manipulation of the drug. The term also includes the act of placing the contents of multiple containers of the same finished drug product into one container. The term also includes “co-pack drug” products which contain two or more separate finished medications that are contained in a single package or unit. The term does not include a drug that is manipulated in any other way, including if the drug is reconstituted, diluted, mixed, or combined with another ingredient.
- R. “Therapeutically-similar” medication means a medication that is expected to produce a clinical effect comparable to the original product. Key considerations for determining the “most therapeutically-similar” medications are: (1) the similarity of the clinical effects; (2) the extent to which active ingredients overlap; (3) the similarity of the dosage profiles; (4) the similarity of the mode of administration; and (5) the similarity of the intended strength.
- S. “Traditional strength” medication means a finished drug product in a formulation that is commercially available in pharmacies accessible to the general public.
- T. “Ultimate user” means a person who lawfully possesses a prescription medication for that person's own use or for the use of a member of that person's household. *See* A.R.S. § 32-1901(95).

III. GENERAL GUIDELINES FOR BILLING AND REIMBURSEMENT OF PRESCRIPTION MEDICATIONS.

- A. Except as permitted in Sections VI and VII of the current PFS, an insurance carrier, self-insured employer, or the Special Fund of the Commission is responsible for the payment of prescription medications only if all of the following apply:

The codes listed herein are CPT only copyright 2021 American Medical Association. All rights reserved.

TITLE 20. COMMERCE, FINANCIAL INSTITUTIONS, AND INSURANCE

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

1. The prescription medication is dispensed by an individual who is currently licensed to practice the profession of pharmacy by either:
(i) the Arizona State Board of Pharmacy; or (ii) an equivalent regulatory agency in another U.S. state, territory, or district; and
 2. The prescription medication is dispensed by a pharmacy accessible to the general public, including online or mail-order pharmacies that are accessible to the general public.
- B. Subject to Sections III(G), IV, V, and VI(B), reimbursement for prescription medications shall be based on the actual medication dispensed, including a substituted medication that is dispensed pursuant to A.R.S. § 32-1963.01.
- C. Except as specified in Sections IV and V of the current PFS, a pharmaceutical bill submitted for a prescription medication must include the National Drug Code (NDC) of the original manufacturer registered with the U.S. Food & Drug Administration (FDA), the quantity dispensed, and the reimbursement value of the medication. Under no circumstance shall an NDC other than the original manufacturer's NDC be used.
- D. The reimbursement value for prescription medications shall be based on the current PFS reimbursement methodology in the absence of a contractual agreement between the pharmacy or medical practitioner and payer governing reimbursement. Network discounts may not be applied in the absence of a contractual agreement with the pharmacy or medical practitioner authorizing such discounts.
- E. The reimbursement value for a prescription medication shall be determined on the date a drug is dispensed from pricing published in the most recent issue, as updated in the most-recent update, of a nationally-recognized pharmaceutical publication designated by the Commission. For purposes of determining AWP, the Commission has selected Medi-span®.
- F. The reimbursement value for a prescription medication shall be determined by reference to the original manufacturer's NDC and shall be calculated on a per unit basis as follows:
1. Generic drugs:
 - a. $(75\% \text{ of AWP per unit}) \times (\text{number of units dispensed})$.
 2. Brand name drugs:
 - a. $(85\% \text{ of AWP per unit}) \times (\text{number of units dispensed})$.
- G. Reimbursement for non-traditional strength prescription medications shall be calculated on a per unit basis, as of the date of dispensing, based on the original manufacturer's NDC and corresponding AWP of the most therapeutically-similar traditional strength form of the same medication. Under no circumstance shall the NDC of the non-traditional strength medication be used.
- H. The reimbursement value for OTC medications shall be calculated on a per unit basis, as of the date of dispensing, based on the retail price (per unit) of the OTC medication in settings where the medication is commercially available.
- I. Subject to Section III(J), the reimbursement value for OTC medications that are not commercially available in pharmacies accessible to the general public shall be calculated on a per unit basis, as of the date of dispensing, based on the retail price (per unit) of the most therapeutically-similar OTC medication commercially available in pharmacies accessible to the general public. Under no circumstance shall the NDC or AWP of the non-commercially available OTC medication be used.
- J. The reimbursement value for OTC medications that are not commercially available may not exceed:
1. Thirty dollars (\$30.00) for a thirty-day supply (or a pro-rated amount if the supply is greater or less than thirty days) for a topical cream or lotion.
 2. Seventy-five dollars (\$75.00) for a thirty-day supply (or a pro-rated amount if the supply is greater or less than thirty days) for topical patches.

IV. BILLING AND REIMBURSEMENT FOR REPACKAGED MEDICATIONS.

- A. A pharmaceutical bill submitted for a repackaged medication must identify the NDC of the repackaged medication, the NDC of the original manufacturer registered with the U.S. FDA, the quantity dispensed, and the reimbursement value of the repackaged medication. Under no circumstances shall the reimbursement value of a repackaged medication be based upon an NDC other than the original manufacturer's NDC. A repackaged NDC shall not be used for calculating the reimbursement value of a repackaged medication and shall not be considered the original manufacturer's NDC.

TITLE 20. COMMERCE, FINANCIAL INSTITUTIONS, AND INSURANCE

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

- B. If a pharmaceutical bill for a repackaged medication is submitted without the original manufacturer's NDC, the payer has the discretion to determine the appropriate NDC (and corresponding AWP) to use or, alternatively, may deny coverage until the appropriate NDC is furnished.
- C. The reimbursement value for a repackaged medication shall be based on the current PFS reimbursement methodology contained in Section III of the PFS, utilizing the NDC(s) and corresponding AWP(s) of the original manufacturer(s).
- D. Any component of a co-pack drug product for which there is no NDC shall not be reimbursed.

V. BILLING AND REIMBURSEMENT FOR COMPOUND MEDICATIONS.

- A. A pharmaceutical bill submitted for a compound medication must identify each reimbursable component ingredient, the applicable NDC of each reimbursable component ingredient, the corresponding quantity of each component ingredient, and the calculated reimbursement value of each component ingredient. All component ingredients of a compound medication must be billed on a single bill.
- B. The reimbursement value for a compound medication shall be calculated at the component ingredient level. The reimbursement value for a compound medication shall be based on the sum of the reimbursement values of each component ingredient and the corresponding component ingredient's NDC, based on the current PFS reimbursement methodology set forth in Section III.
- C. Any component ingredient in a compound medication for which there is no NDC shall not be reimbursed.
- D. Any component ingredient in a topical compound medication that is not FDA approved for topical use shall not be reimbursed.
- E. If any component ingredient in a compound medication is a repackaged medication, the reimbursement value for the repackaged medication ingredient shall be determined based on the current PFS reimbursement methodology set forth in Section III, using the AWP corresponding to the NDC of the original manufacturer. *See* Section IV.
- F. The maximum reimbursement value for a topical compound medication shall be the lesser of:
 - 1. Two hundred dollars (\$200.00) for a thirty-day supply (or a pro-rated amount if the supply is greater or less than thirty days), or
 - 2. The reimbursement value of the compound medication calculated under this section.

VI. BILLING AND REIMBURSEMENT FOR MEDICATIONS ADMINISTERED BY A MEDICAL PRACTITIONER.

- A. A pharmaceutical bill submitted for a medication administered by a medical practitioner must comply with billing procedures outlined in Sections III, IV, and V of the current PFS, as applicable.
- B. The reimbursement value for a medication administered by a medical practitioner shall be based on the current PFS reimbursement methodology contained in Sections III, IV, and V of the PFS, as applicable.

VII. REIMBURSEMENT FOR MEDICATIONS DISPENSED BY A MEDICAL PRACTITIONER OR IN A PHARMACY NOT ACCESSIBLE TO THE GENERAL PUBLIC.^{4,5}

- A. An insurance carrier, self-insured employer, or the Special Fund of the Commission is responsible for the payment of prescription medications that are dispensed by a medical practitioner or in a pharmacy not accessible to the general public if all of the following apply:
 - 1. The prescription medication is dispensed by a medical practitioner or a pharmacy not accessible to the general public to the injured employee within seven days of the date of the industrial injury;
 - 2. The prescription medication is limited to no more than a one-time, ten-day supply;

⁴ Dispensing pursuant to Section VII is subject to the Arizona Opioid Epidemic Act, which imposes statutory limits on the prescribing and dispensing of schedule II opioids. For more information about the Arizona Opioid Epidemic Act, please see the FAQs published by the Arizona State Board of Pharmacy, available at <https://drive.google.com/file/d/1JCIs8VwtdJ1T-DyGfJN3WWUm4KhDMXe-/view>.

⁵ Section VII sets forth reimbursement guidelines for medications dispensed in settings that are not accessible to the general public in Arizona's worker's compensation system and does not interfere with a medical practitioner's ability to dispense medications pursuant to A.R.S. § 32-1491 or seek payment from sources unrelated to workers' compensation.

TITLE 20. COMMERCE, FINANCIAL INSTITUTIONS, AND INSURANCE

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

3. The prescription medication conforms to dosages and formulations that are commercially available in pharmacies accessible to the general public.
- B. An insurance carrier, self-insured employer, or the Special Fund of the Commission is responsible for the payment of prescription medications that are dispensed by a medical practitioner or in a pharmacy not accessible to the general public if all of the following apply:
 1. The injured employee does not have access to a pharmacy accessible to the general public within 20 miles of the injured employee's home address, work address, or the address of the prescribing medical practitioner;
 2. The injured employee cannot reasonably acquire the prescription medication from an online or mail order pharmacy accessible to the general public; and
 3. The prescription medication conforms to dosages and formulations which are commercially available in pharmacies accessible to the general public.
- C. An insurance carrier, self-insured employer, or the Special Fund of the Commission is responsible for the payment of prescription medications that are dispensed by a medical practitioner or in a pharmacy not accessible to the general public if the dispensing of a prescription medication for an individual claim and specified duration has been pre-approved in writing by the insurance carrier, self-insured employer, or the Special Fund of the Commission. Nothing in this section requires an insurance carrier, self-insured employer, or the Special Fund of the Commission to pre-approve the dispensing of prescription medications under this subsection.
- D. An insurance carrier, self-insured employer, or the Special Fund of the Commission is responsible for the payment of prescription medications that are dispensed by a pharmacy not accessible to the general public if all of the following apply:
 1. The prescription medication was dispensed to an injured employee whose workers' compensation claim was initially denied by the carrier, self-insured employer, or the Special Fund of the Commission;
 2. The injured employee protested the claim denial by filing a timely request for hearing;
 3. The workers' compensation claim was either: (a) subsequently accepted by the carrier, self-insured employer, or the Special Fund of the Commission; or (b) the claim was found to be compensable by the Commission's Administrative Law Judge Division, the Arizona Court of Appeals, or the Arizona Supreme Court;
 4. The prescription medication was dispensed during the time period between: (a) the initial claim denial and (b) the subsequent acceptance of the claim or the compensability determination by the Commission's Administrative Law Judge Division, the Arizona Court of Appeals, or the Arizona Supreme Court; and
 5. The prescription medication conforms to dosages and formulations that are commercially available in pharmacies accessible to the general public.
- E. The guidelines in Section III(A) and this section do not apply to prescription medications dispensed during in-patient hospital care or upon discharge from in-patient hospital care.
- F. Subject to the limitations in this section, medications that have been provided as free samples to a medical practitioner may be dispensed to an injured employee when appropriate, but are not reimbursable.

VIII. DISPENSING FEE.

- A. If a prescription medication is dispensed by a pharmacy accessible to the general public pursuant to a prescription order, a dispensing fee of up to seven dollars (\$7.00) per prescription medication, repackaged medication, or compound medication may be charged. The dispensing fee does not apply to OTC medications that are not prescribed by a medical practitioner.
- B. If a prescription medication is dispensed by a medical practitioner or in a pharmacy not accessible to the general public pursuant to Section VII(A), (B), or (C), a dispensing fee of up to seven dollars (\$7.00) per prescription medication, repackaged medication, or compound medication may be charged. If an OTC medication is dispensed by a medical practitioner or by a pharmacy not accessible to the general public, a dispensing fee is not permitted.
- C. If a prescription or OTC medication is administered by a medical practitioner, a dispensing fee is not permitted.

SURGERY GUIDELINES

This Fee Schedule has been updated to incorporate by reference the 2022 Editions of the American Medical Association's *Current Procedural Terminology* (CPT®) publication, including the general guidelines, identifiers, modifiers, and terminology changes associated with the adopted codes. In this Fee Schedule CPT® codes that contain explanatory language specific to Arizona are preceded by Δ. Codes, however, that are unique to Arizona and not otherwise found in CPT® are preceded by an AZ identifier and numbered in the following format: AZxxx.

The Commission has also adopted by reference: 1) The 1995 and 1997 Documentation Guidelines for Evaluation and Management Services, Centers for Medicare and Medicaid Services (CMS) <https://www.cms.gov/>; 2) 2022 Optum 360 The Essential RBRVS

<https://www.optum360.com/>; 3) The National Correct Coding Initiative Edits, CMS

<https://www.cms.gov/Medicare/Coding/NationalCorrectCodInitEd/index.html>; and, 4) Physicians as Assistants at Surgery: 2020 Update

<https://www.facs.org>. The RBRVS-based fee schedule adopts surgical global periods published by CMS. Additional information regarding publications adopted by reference is found in the Introduction of the Fee Schedule.

The following Commission guidelines are in addition to the CPT® guidelines and represent additional guidance from the Commission relative to unit values for surgical services. To the extent that a conflict may exist between CMS, an adopted portion of the CPT® and a code, guideline, identifier or modifier unique to Arizona, then the Arizona code, guideline, identifier or modifier shall control.

- A. **MATERIALS AND SUPPLIES:** A healthcare provider may charge for materials and supplies as described in subsection (J)(4) of the Introduction Section of the Physician's Fee Schedule.
- B. **MULTIPLE PROCEDURES:** It is appropriate to designate multiple procedures that are rendered on the same date by separate entries. The additional procedure(s) or service(s) may be identified by appending modifier 51 to the additional procedure or service code(s). **Note:** This modifier should not be appended to designated "add-on" codes.

TITLE 20. COMMERCE, FINANCIAL INSTITUTIONS, AND INSURANCE

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

- C. **SPECIAL REPORT:** A typical request for more detailed information from an insurance carrier regarding a billing does not constitute a “special report”, which is defined in the CPT® book.
- D. **MODIFIERS:** Listed services and procedures may be modified under certain circumstances. When applicable, the modifying circumstance should be identified by the addition of the appropriate modifier code, which may be reported in either of two ways. The modifier may be reported by a two-digit number placed after the usual procedure number from which it is separated by a hyphen. Or the modifier may be reported by a separate five-digit code that is used in addition to the procedure code. If more than one modifier is used, the “Multiple Modifiers” code placed first after the procedure code indicates that one or more additional modifier codes will follow.

Modifiers either unique to Arizona or containing explanatory language specific to Arizona are as follows:

- Δ-22 Increased Procedural Services: Use of this modifier will result in a twenty-five percent (25%) increase in the listed value for the listed procedure.
- Δ-25 Separately Identifiable Evaluation and Management Service by the same Physician or Other Qualified Health Care Professional on the Same Day of the Procedure or Other Service. It may be necessary to indicate that on the day a procedure or service identified by a CPT® code was performed, the patient’s condition required a significant, separately identifiable E/M service above and beyond the other service provided or beyond the other service provided or beyond the usual preoperative and postoperative care associated with the procedure that was performed (see Evaluation and Management Services Guidelines for instructions on determining level of E/M service). As such, different diagnoses are not required for reporting of the E/M services on the same date. The circumstance may be reported by adding modifier 25 to the appropriate level of E/M service.
- Δ-47 Anesthesia by Surgeon: The value shall be fifty percent (50%) of the calculated American Society of Anesthesiologists Relative Value Guide value.
- Δ-50 Bilateral Procedure: Unless otherwise identified in the listings, when bilateral procedures which add significant time or complexity to patient care are provided at the same operative session, identify and value the first or major procedure as listed. Identify the secondary or lesser procedure(s) by adding this modifier 50 to the usual procedure number(s) and value at fifty percent (50%) of the listed value(s). If, however, the procedures are independently complex and involve different parts of the body, including digits, the bilateral procedure rule would not apply. In such cases, independent procedures would be billed at one hundred percent (100%) of their listed value.
- Δ-51 Multiple Procedures: When multiple procedures are performed during the same operative session*, the procedures should be valued at the appropriate percent of its listed value, as shown below:
- 100% (full value) for the first or major procedure
- 50% for the second and multiple procedure(s)
- Sixth and subsequent procedures – by report

*Multiple Procedure Guidelines do not apply to codes specifically identified as “Add-on/Additional Procedures, Global indicator ZZZ”.

The major or primary procedure is defined as the procedure with the highest value and is the code that determines the follow-up days when a surgery has multiple procedures. The second procedure is the procedure with the next highest value, the third the next highest value, and so on. If, however, the procedures are independently complex such as digits, tendons, nerves or artery repair, the multiple procedure rule would not apply. In such cases, independent procedures would be billed at one hundred percent (100%) of their listed value.

When performing multiple procedures with different global period values during the same operative session, the global period value for the session is the largest global period value.

- Δ-57 Decision for Surgery: An evaluation and management service that resulted in the initial decision to perform the surgery may be identified by adding modifier 57 to the appropriate level of E/M service.
- Δ-62 Two Surgeons: By prior agreement, the total value of services performed by two surgeons working together as primary surgeons may be apportioned in relation to the responsibility and work done, provided the patient is made aware of the fee distribution according to medical ethics. If no apportionment is listed, the fee should be split evenly between the co-surgeons. The total value may be increased by twenty-five percent (25%) in lieu of the usual assistant’s charge. Under these circumstances, the services of each surgeon should be identified by adding this modifier 62 to the joint procedure number(s) and valued as agreed upon. (Usual charges for surgical assistance may be warranted if still another physician is required as part of the surgical team.) The value of the

TITLE 20. COMMERCE, FINANCIAL INSTITUTIONS, AND INSURANCE

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

procedure should be 125% of the customary value listed. Payment of 125% of the maximum allowable would be divided between the participating surgeons.

Two Surgeons – When 2 surgeons work together as primary surgeons performing distinct part(s) of a procedure, each surgeon should report his/her distinct operative work by adding modifier 62 to the procedure code and any associated add-on codes(s) for that procedure as long as both surgeons continue to work together as primary surgeons. Each surgeon should report the co-surgery once using the same procedure code. If additional procedure(s) (including add-on procedure(s)) are performed during the same surgical session, separate code(s) may be reported with modifier 62 added. **Note:** If a co-surgeon acts as an assistant in the performance of additional procedure(s), other than those reported with modifier 62, during the same surgical session, those services may be reported using separate procedure code(s) with modifier 80, 81, or 82 added, as appropriate.

- Δ-80 Assistant Surgeon: These services are valued at twenty percent (20%) of the listed value of the surgical procedure(s).
- Δ-81 Minimum Assistant Surgeon: These services are valued at sixteen percent (16%) of the listed value of the surgical procedure(s).
- Δ-82 Assistant Surgeon (when qualified resident surgeon not available): These services are valued at sixteen percent (16%) of the listed value of the surgical procedure(s).
- Δ-AS Use the modifier AS for assistant at surgery services, when services are provided by a Physician Assistant (PA), Nurse Practitioner (NP), or Clinical Nurse Specialist (CNS). These services are valued at fourteen percent (14%) of the listed value of the surgical procedure(s).

NOTE: A Medical Doctor or Doctor of Osteopathic Medicine should not submit the AS modifier. This modifier is only valid for use by a PA, NP, and CNS when billing under their own provider number.

RADIOLOGY GUIDELINES

This Fee Schedule has been updated to incorporate by reference the 2022 Edition of the American Medical Association's *Current Procedural Terminology* (CPT®) publication, including the general guidelines, identifiers, modifiers, and terminology changes associated with the adopted codes. In this Fee Schedule CPT® codes that contain explanatory language specific to Arizona are preceded by Δ. Codes, however, that are unique to Arizona and not otherwise found in CPT® are preceded by an AZ identifier and numbered in the following format: AZxxx. Additional information regarding publications (e.g., CMS Guidelines) adopted by reference is found in the Introduction of the Fee Schedule.

The following Commission guidelines are in addition to CMS and CPT® guidelines and represent additional guidance from the Commission relative to unit values for these services. To the extent that a conflict may exist between an adopted portion of the CPT® and a code, guideline, identifier or modifier unique to Arizona, then the Arizona code, guideline, identifier or modifier shall control.

1. Values include usual contrast media, equipment, and materials. An additional charge may be warranted when special surgical trays and materials are provided by the healthcare provider.
2. Values include consultation and written reports to the referring healthcare provider.
3. X-ray findings and attending healthcare provider's written order for x-rays must be included with statement for x-ray services. Bills unsupported by findings will not be paid.
4. X-rays should be taken, reported, and be properly marked for identification and orientation in accordance with the accepted standard of radiologic practice in the State of Arizona.

B. MODIFIERS

Modifiers identify circumstances that alter or enhance the description of the service. For radiology codes, two modifiers affect the assigned unit value and are listed in *The Essential RBRVS*. However, other modifiers may be required for correct reporting of service. See CMS and the 2022 CPT® publication for additional information on modifiers. Listed radiology modifiers affect the unit values as follows:

1. Total: When no modifier is listed, the unit value represents the global value of the procedure. The five-digit code is used to represent a global service inclusive of professional and technical value of providing that service. The following sections provide additional definitions for each component.
2. Professional: Modifier 26 is used to designate professional services. The professional component includes examination of the patient, when indicated, performance and/or supervision of the procedure, interpretation and written report of the examination, and consultation with referring healthcare providers.
3. Technical: Modifier TC is used to designate the technical value of providing the service. The technical component includes personnel, materials, space, equipment, and other allocated facility overhead normally included in providing the service. Note that modifier TC is not CPT® compatible.

C. REFERENCE TO RELATIVE VALUES

Two patterns of billing currently prevail in radiology. A total charge for the radiology service, to include both professional fees and technical costs, is made by radiologists working in offices, clinics and, under some circumstances, in hospital or ambulatory surgery center x-ray departments.

In a majority of voluntary hospital or ambulatory surgery center radiology departments, the radiologist submits a separate statement to the patient for his professional services. The hospital or ambulatory surgery center charges for use of the department facilities and the services of its employees. This pattern is similar to the charges made by the hospital or ambulatory surgery center for the use of delivery rooms or surgical suites. Such charges are entirely separate from the fees charged by obstetricians and surgeons. In most separate radiology billing situations, the total will approximate the amount billed singly by the radiologist in their office or billed singly by the hospital or ambulatory surgery center.

The two separate scales in Radiology Relative Values have been devised for use in radiology and are not coordinated with scales for services in other branches of medicine such as surgery, medicine or pathology. The two scales are compatible only within themselves. Within each of the two separate headings, the total dollar value and the PC or professional components dollar value, where appropriate, can be used. Some procedures are noted as a "BR" value or "By Report". This usage is intended to indicate that circumstances involving a given patient procedure may require much more than the average amount of time and effort to perform and thus a value would be unique and could not be anticipated or established. When such added involvement is claimed, a written explanation will usually be required as an addendum to the bill.

The PC values do not include charges made by the hospital in which the procedure was accomplished. Such charges by the hospital or ambulatory surgery center cover the services of technologists and other helpers, the films, contrast media, radioactive agents, chemical and other materials, the use of the space and facilities of the x-ray department plus any other hospital or ambulatory surgery center costs. Most hospitals or ambulatory surgery centers have derived their own schedule of charges of these items. Establishment of hospital or ambulatory surgery center charges is not the subject of the Fee Schedule.

The separation of billing in no way implies a division of responsibility, but only a division of the charge. The radiologist is a physician performing a needed medical service for a patient, and he must retain full responsibility for his own activity and also full responsibility for the supervision of technologists, the selection and maintenance of equipment, the control of radiation hazards and the general administration of the radiology department.

D. REVIEW OF DIAGNOSTIC STUDIES

No separate charge is warranted for prior studies reviewed in conjunction with a visit, consultation, record review, or other evaluation by a healthcare provider; neither the professional component value modifier 26 nor the radiological consultation CPT® code 76140 is reimbursable. The review of diagnostic tests is included in the evaluation and management codes.

PATHOLOGY AND LABORATORY GUIDELINES

This Fee Schedule has been updated to incorporate by reference the 2022 Edition of the American Medical Association's *Current Procedural Terminology* (CPT®) publication, including the general guidelines, identifiers, modifiers, and terminology changes associated with the adopted codes. In this Fee Schedule CPT® codes that contain explanatory language specific to Arizona are preceded by Δ. Codes, however, that are unique to Arizona and not otherwise found in CPT® are preceded by an AZ identifier and numbered in the following format: AZxxx. The Industrial Commission has adopted the Clinical Laboratory Fee Schedule (CLAB) used by Medicare to reimburse the majority of pathology and laboratory services (see additional information regarding publications adopted by reference in the Introduction Section of the Fee Schedule).

The following Commission guidelines are in addition to the CPT® guidelines and represent additional guidance from the Commission relative to unit values for these services. To the extent that a conflict may exist between an adopted portion of the CPT® and a code, guideline, identifier or modifier unique to Arizona, then the Arizona code, guideline, identifier or modifier shall control.

- A. A healthcare provider seeking reimbursement for presumptive or "point of care" drug testing must submit to the payer written documentation establishing:
1. That the testing is medically necessary and reasonably required;
 2. The type of drug testing utilized; and
 3. The healthcare provider's interpretation of the "point of care" testing.

For purposes of this section, presumptive or "point of care" testing is testing that is performed at or near the site of patient care (*i.e.*, the healthcare provider's office).

CPT® codes 80305-80307 are used for reporting presumptive drug class screening. Each code represents all drugs and drug classes performed by the respective methodology per date of service.

Healthcare providers performing validity testing on urine specimens utilized for drug testing shall not separately bill the validity testing. For example, if a laboratory performs a urinary pH, specific gravity, creatinine, nitrates, oxidants, or other tests to confirm that a urine specimen is not adulterated, this testing is not separately billed.

Definitive drug testing may be reported with HCPCS codes G0480 - G0483. These codes differ based on the number of drug classes including metabolites tested. Only one code from this group of codes may be reported per date of service. Any request for quantitative or definitive testing requires documentation that qualifies necessity.

G0480 – Definitive drug testing 1 – 7 drug class(es) including metabolites(s) if performed

G0481 – Definitive drug testing 8 – 14 drug class(es) including metabolite(s) if performed

G0482 – Definitive drug testing 15 – 21 drug class(es) including metabolites(s) if performed

G0483 – Definitive drug testing 22 or more drug class(es), including metabolite(s) if performed.

U0001 – Laboratory testing for infection of SARS-CoV-2/2019-nCoV (COVID-19). Tests developed by the CDC.

U0002 – Laboratory testing for infection of SARS-CoV2/2019-nCoV (COVID-19). Non-CDC developed tests.

CHAPTER 5. INDUSTRIAL COMMISSION OF ARIZONA

MEDICINE GUIDELINES

This Fee Schedule has been updated to incorporate by reference the 2022 Edition of the American Medical Association's *Current Procedural Terminology* (CPT®) publication, including the general guidelines, identifiers, modifiers, and terminology changes associated with the adopted codes. In this Fee Schedule CPT® codes that contain explanatory language specific to Arizona are preceded by Δ. Codes, however, that are unique to Arizona and not otherwise found in CPT® are preceded by an AZ identifier and numbered in the following format: AZxxx. Additional information regarding publications adopted by reference is found in the Introduction of the Fee Schedule.

The following Commission guidelines are in addition to the CPT® guidelines and represent additional guidance from the Commission relative to unit values for these services. To the extent that a conflict may exist between an adopted portion of the CPT® and a code, guideline, identifier or modifier unique to Arizona, then the Arizona code, guideline, identifier or modifier shall control.

- A. **MATERIALS SUPPLIED BY A HEALTHCARE PROVIDER:** A healthcare provider may charge for materials and supplies as described in subsection (J)(4) of the Introduction Section of the Physician's Fee Schedule.
- B. **COMPLIANCE WITH THE AMERICANS WITH DISABILITIES ACT:** Code 99199 can be used to bill for the services of an interpreter when they are used to comply with the provisions of "The Americans With Disabilities Act", *i.e.*, interpreters for the hearing impaired.
- C. **ADD-ON CODES:** Some of the listed procedures are commonly carried out in addition to the primary procedure performed. All add-on codes found in the CPT® codebook are exempt from the multiple procedure concept. They are exempt from the use of modifier 51.
- D. **SEPARATE PROCEDURES:** Some of the procedures or services listed in the CPT® codebook that are commonly carried out as an integral component of a total service or procedure have been identified by the inclusion of the term "separate procedure". The codes designated as a "separate procedure" should not be reported in addition to the code for the total procedure or service of which it is considered an integral component.

When a procedure or service is carried out independently or considered to be unrelated or distinct from other procedures/services provided at that time, it may be reported by itself, or in addition to other procedures/services by appending modifier 59 to the specific "separate procedure" code to indicate that the procedure is not considered to be a component of another procedure, but is a distinct, independent procedure.

- E. **BUNDLED CODES:** Indicates that the service is always bundled in a payment for another service. If these services are covered, payment for them is subsumed by the payment for the services to which they are incident (*e.g.*, a telephone call from a hospital nurse regarding the care of a patient).
