PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

RULES

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2022 is cited as Supp. 22-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. This is why the Office lists only updated codified Sections on the previous page.

RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State’s website, www.azsos.gov under Services-> Legislative Filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

The transfer document for state materials shall indicate that the recipient agrees not to transfer title or dispose of the materials within a six-month period, except for motor vehicles, which have a 12-month restriction, without prior approval of the Surplus Property Administrator.
- E. Disposition of surplus materials.

The following methods of payment for surplus materials are accepted by the Surplus Property Administrator: a United States Postal Money Order, certified check, cashier's check, and cash. Other methods of payment may be approved by the Surplus Property Administrator if the Surplus Property Administrator determines the method to be in the best interest of the state.

 - d. Awards are made in accordance with the provisions of the sale notice; and
 - e. Awards are made to the highest responsive and responsible bidder, provided that the price offered by the highest responsive and responsible bidder is acceptable to the Surplus Property Administrator. 3. The Surplus Property Administrator shall advertise a public auction at least three times before the auction date; and ensure that all terms and conditions of any sale are available to the public at least 24 hours before the auction or, in the case of online sales, within the sales notice.
4. The Surplus Property Administrator shall determine whether surplus materials may be disposed of by trade-in to a vendor for credit on an acquisition. In making this determination, the Surplus Property Administrator shall consider the urgency of need by other state governmental units and whether the trade-in value is expected to exceed the value realized through the sale of the materials.
5. An employee of the owning or disposing state governmental unit shall not directly or indirectly purchase or agree with another person to purchase surplus materials if that employee is, or has been, directly or indirectly involved in the purchase, disposal, maintenance, or preparation for sale of the surplus materials.

PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

RULES

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2022 is cited as Supp. 22-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. This is why the Office lists only updated codified Sections on the previous page.

RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State’s website, www.azsos.gov under Services-> Legislative Filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

TITLE 4. PROFESSIONS AND OCCUPATIONS

CHAPTER 26. BOARD OF PSYCHOLOGIST EXAMINERS

Authority: A.R.S. § 32-2063(A)(9) and (12)

Supp. 22-4

Editor's Note: This Chapter contains amendments that were filed with the Secretary of State on March 3, 1995. At the time of filing, the original copy of the rulemaking package differed from the copy of the package filed at the same time. The Secretary of State uses the copy to prepare the Code supplement. The agency notified the Secretary of State that the wrong version was used. That led to the Secretary of State's discovery of the two versions filed in March 1995. The Secretary of State then used the original package to publish a corrected edition with Supp. 95-2. The Secretary of State has since been advised by the Attorney General that the original version as published with Supp. 95-1 was correct with the exception of one phrase in R4-26-207 that was inadvertently omitted. With this publication, this Chapter reflects the correct amendments, and the omitted phrase in R4-26-207 has now been added.

PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

RULES

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2022 is cited as Supp. 22-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. This is why the Office lists only updated codified Sections on the previous page.

RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State’s website, www.azsos.gov under Services-> Legislative Filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

RULES

The definition for a rule is provided for under A.R.S. § 41-1001. “Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2022 is cited as Supp. 22-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. This is why the Office lists only updated codified Sections on the previous page.

RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State’s website, www.azsos.gov under Services-> Legislative Filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

 5. The Department shall review and return such corrective action plan to the LEA within 30 days, noting any required changes. No later than 30 days after receiving its corrective action plan back from the Department, the LEA shall begin implementing the measures set forth in the plan, including any revisions required by the Department.
 6. The Department shall conduct a follow-up evaluation of the LEA within one year after returning the corrective action plan to the LEA.
 7. If the Department finds continued non-compliance during the follow-up evaluation, the LEA shall be referred to the Board for a determination of non-compliance. If the Board determines the LEA to be out of compliance with state or federal laws applicable to EL students, it may take one or more of the following actions:

R7-2-622. Qualification Requirements of Professional, Non-Teaching School Personnel**A. Definitions:**

1. "Educational Interpreter." For the purposes of this Section, "educational interpreter" means a person trained to translate in sign language for students identified to require such services through an Individualized Education Program (IEP) or a 504 accommodation plan in order to access academic instruction. This does not in any way restrict the provisions of R7-2-401(B)(14) which defines "interpreter" and provides that each student's IEP team determines the level of interpreter skill necessary for the provision of FAPE, nor does it restrict a school district's ability to develop a job description for someone in a position of "educational interpreter" that requires additional job responsibilities.
2. "Accommodation plan developed to comply with Section 504 of the Rehabilitation Act of 1973, 29 USC 794, et seq. ("504 accommodation plan")." This professional development plan must include the following:

- a. Proof of at least 24 hours of training in interpreting each year that a valid certification is not held or EIPA passing score is not attained, and
- b. Documentation of a plan for the individual to meet the required qualifications within three years of employment. If the qualifications are not attained within three years, but progress toward attainment is demonstrated, the plan shall be modified to include an intensive program for up to one year to meet the provisions of subsection (B)(1).

3. An individual employed under the provisions of subsection (B)(2) must also have the following:

- a. A valid fingerprint clearance card, and

CHAPTER 2. STATE BOARD OF EDUCATION

rected in Supp. 18-2.

R7-2-1031. Bid Evaluation and Award

- A.** As provided in subsection (C), the contract or contracts shall be awarded to the lowest responsible and responsive bidder or bidders whose bid or bids conform in all material respects to the requirements and evaluation criteria set forth in the invitation for bids. No criteria may be used in bid evaluation that are not set forth in the invitation for bids. The amount of any applicable transaction privilege or use tax of a political subdivision of this state is not a factor in determining the lowest bidder.
- B.** A product acceptability evaluation shall be conducted solely to determine whether a bidder's product is acceptable as set forth in the invitation for bids and not whether one bidder's product is superior to another bidder's product. Any bidder's offering that does not meet the acceptability requirements shall be rejected as nonresponsive.
- C.** The school district shall award the contract to the single lowest responsible and responsive bidder for all materials or services, except that the school district may make a multiple award if the invitation for bids included notification that multiple contracts may be awarded, the school district's basis for determining whether to award multiple contracts, and the criteria for selecting vendors for the multiple contracts.
- D.** Before making a multiple award, the school district shall determine in writing that a multiple award is necessary and is advantageous to the school district and shall establish procedures for the use of the multiple awarded contracts to ensure that purchases are made from the contracts determined by the school district to offer the lowest cost in satisfying the school district's requirements. A multiple award shall be limited to the least number of suppliers the school district determines in writing to be necessary to meet the school district's requirements, and may include the following types of awards:
 1. Awards to the lowest responsible and responsive bidder for individual line items, groups of line items, or categories.
 2. Awards to the lowest responsible and responsive bidders for similar or identical line items, groups of line items, or categories only if the school district determines in writing that such awards are necessary to obtain the required quantity or delivery, and the awards are limited to the least number of bidders necessary to meet the school district's requirements.
 3. An incremental award only if the school district determines in writing that such an award is necessary to obtain the required quantity or delivery. The award shall be made to the lowest responsible and responsive bidder, then the next lowest responsible and responsive bidder or bidders until the total definite quantity required is awarded.
 4. A regional award to the lowest responsible and responsive bidder in designated regions or locations only if the school district determines in writing that such an award is necessary to obtain the required quantity or delivery over widely scattered locations or a particular requirement is of a local nature.
- E.** The procurement file shall contain the basis on which the award or awards are made.
- F.** The school district shall not modify evaluation criteria after the bid due date and time.
- G.** A school district may appoint an evaluation committee to assist in the evaluation of bids. If bids are evaluated by an evaluation committee, the evaluation committee shall prepare an evaluation report for the school district. The school district may:
 1. Accept the findings of the evaluation committee;
 2. Request additional information from the evaluation committee; or
 3. Reject the findings of the evaluation committee, in which case the school district shall appoint a new evaluation committee to evaluate the existing bids or cancel the solicitation.
- H.** The school district may contact a bidder to confirm the school district's understanding of the bid. Such contact shall be prior to award. The school district shall obtain written confirmation from the bidder and shall retain the confirmation in the procurement file.
- I.** The contract or contracts shall be awarded during the bid acceptance period. If the bid acceptance period expires prior to award of the contract or contracts, the procurement shall be canceled, unless the bid acceptance period is extended in accordance with subsection (J).
- J.** To extend the bid acceptance period, a school district shall notify all bidders in writing of an extension and request written concurrence from each bidder. To be eligible for a contract award, a bidder shall submit a written concurrence to the extension. The school district shall reject a bid as nonresponsive if written concurrence is not provided as requested.
- K.** A contract may not be awarded to a bidder submitting a higher quality item than that designated in the invitation for bids unless the bidder is also the lowest bidder as determined under subsection (A). This Section does not permit negotiations with any bidder, except as provided in subsection (L).
- L.** If all bids for a construction project exceed available monies as certified by the school district, and the lowest responsive bid from a responsible bidder does not exceed such monies by more than five percent, the school district may in situations in which time or economic considerations preclude resolicitation of work of a reduced scope, negotiate an adjustment of the bid price, including changes in the bid requirements, with the lowest responsible and responsive bidder, to bring the bid within the amount of available monies.
- M.** If there are two or more low responsive bids from responsible bidders that are identical in price and that meet all the requirements and criteria set forth in the invitation for bids, award shall be made by drawing lots in the presence of one or more witnesses.
- N.** A record showing the basis for determining the successful bidder shall be retained in the procurement file.
- O.** The school district shall notify all bidders of an award.
- P.** After a contract is awarded, the school district shall return any bid security provided by unsuccessful bidders.
- Q.** Upon execution of the contract, if performance and payment bonds were not required, or upon receipt of the specified bonds, if performance and payment bonds were required, the school district shall return any bid security provided by the successful bidder.
- R.** Within 10 days after a contract is awarded, the school district shall make the procurement file, including all bids, available for public inspection.
 1. If the procurement file contains information that is confidential under R7-2-1006, a copy of the applicable documents with the confidential information redacted shall be placed in the procurement file for the purpose of public inspection.
 2. The unredacted original copy of the confidential information shall be placed in a sealed envelope or other appropriate

R7-2-1032. Only One Bid Received

If only one responsive bid is received in response to an invitation for bids, an award may be made to the single bidder if the school district determines in writing that the bidder is responsible, that the price submitted is fair and reasonable, and that either other prospective bidders had reasonable opportunity to respond, or there is not adequate time for resolicitation. Otherwise the bid may be rejected in whole or in part as may be specified in the invitation for bids if it is advantageous to the school district. The reasons for cancellation or rejection shall be made part of the procurement file and:

1. New bids may be solicited;
2. The proposed procurement may be canceled; or
3. If the school district determines that the need for the material or service continues and the acceptance of the one bid is not advantageous to the school district, the procurement may then be conducted as follows:
 - a. The school district may follow the sole source procurement procedure if R7-2-1053 applies.
 - b. Notwithstanding any other provision of Articles 10 and 11, the school district may make emergency procurements pursuant to R7-2-1055 and R7-2-1056 if an emergency condition exists pursuant to R7-2-1055.

- A. The simplified school construction procurement program is applicable to construction projects which do not exceed the maximum amount specified in A.R.S. § 15-213(A)(2).
- B. To participate in the simplified school construction procurement program:
 1. Each county school superintendent shall maintain a prospective bidders list of persons who desire to receive solicitations to bid on school district construction projects within that county. The prospective bidders list shall be maintained in accordance with R7-2-1023;
 2. The prospective bidders list maintained pursuant to subsection (B)(1) shall be available for public inspection;
 3. A performance bond and a payment bond, as required by A.R.S. § 34-222, shall be provided for contracts for construction by contractors;
 4. All bids for construction shall be opened at a public opening and the bids shall remain confidential until the public opening;
 5. All persons desiring to submit bids shall be treated equitably and the information related to each project shall be available to all eligible persons; and
 6. Competition for construction projects under the simplified school construction procurement program shall be

encouraged to the maximum extent possible. School districts shall submit information on each project to all persons listed on the prospective bidders list maintained by the county school superintendent pursuant to subsection (B)(1).

- A. The multistep sealed bidding method may be used if:
 1. Available specifications or purchase descriptions are not sufficiently complete to permit full competition without technical evaluations and discussions to ensure mutual understanding between each bidder and the school district;
 2. Definite criteria exist for evaluation of technical offers;
 3. More than one technically qualified source is expected to be available; and
 4. A fixed-price contract will be used.
- B. The multistep sealed bidding method may not be used for construction contracts.

- A. Multistep sealed bidding shall be initiated by the issuance of an invitation to submit technical offers. The invitation to submit technical offers shall be issued according to R7-2-1022 and R7-2-1024(A).
- B. The invitation to submit technical offers shall include the following information:
 1. Notice that the procurement shall be conducted in two phases;
 2. The best description of the material or services desired;
 3. A statement that unpriced technical offers only shall be considered in phase 1;
 4. The requirements for the technical offers, such as drawings and descriptive literature;
 5. The criteria for evaluating technical offers;
 6. The due date and time for receipt of technical offers and the location where technical offers shall be delivered or mailed;

 8. A statement that only bids based on technical offers determined to be acceptable in phase 1 shall be considered for award;
 9. The name of the district representative or district representatives;
 10. Notice that all technical offers submitted will be made available for public inspection following the award of the contract; and

ducted, it shall be not less than seven days before the technical offer due date and time, unless the school district makes a written determination that the specific needs of the procurement justify a shorter time. Statements made during the pre-technical offer conference shall not be considered modifications to the invitation to submit technical offers.

- D.** The invitation to submit technical offers may be amended before or after the submission of the unpriced technical offers. Amendments to an invitation to submit technical offers shall be so identified and the school district shall ensure that the amendments are distributed or made available to all persons to whom the original invitation to submit technical offers was distributed or made available. The school district shall make a copy of the amendments to an invitation to submit technical offers available for public inspection at the school district office. If the school district posted the invitation to submit technical offers or a notice of the availability of an invitation to submit technical offers on a designated site on the Internet, then the school district shall post any amendments to the invitation to submit technical offers on the same designated site on the Internet. The school district shall also do one or more of the following:
- a. Distribute the amendment, by any method reasonably calculated to ensure delivery, to all persons to whom the invitation to submit technical offers was distributed;
 - b. Make the amendment available and issue a notice of amendment which contains instructions for obtaining copies of the amendment. The notice of amendment shall be distributed, by any method reasonably calculated to ensure delivery, to all persons to whom the invitation to submit technical offers was distributed. Upon receipt of such notice of amendment, it is the responsibility of the person to obtain the amendment.
2. Amendments shall be issued within a reasonable time before technical offer opening to allow persons to consider them in preparing their technical offers. If the school district determines that the technical offer due date and time does not permit sufficient time for technical offer preparation, the technical offer due date and time shall be extended in the amendment or, if necessary, telephone, facsimile, email, or other communications methods, and confirmed in the amendment.
3. A person shall acknowledge receipt of an amendment in the manner specified in the invitation to submit technical offers or the amendment on or before the technical offer due date and time.
- E.** Unpriced technical offers shall not be opened publicly, but shall be opened in the presence of two or more district officials designated by the school district. The contents of unpriced technical offers shall not be disclosed to unauthorized persons. Late technical offers shall not be considered except under the circumstances set forth in R7-2-1028(B).
- F.** Unpriced technical offers shall be evaluated solely in accordance with the criteria set forth in the invitation to submit technical offers and shall be determined to be either acceptable for further consideration or unacceptable. A determination that an unpriced technical offer is unacceptable shall be in writing, state the basis for the determination and be retained in the procurement file. If the school district determines a person's unpriced technical offer is unacceptable, the school district shall notify that person of the determination and that the per-

son shall not be afforded an opportunity to amend the technical offer.

- G.** The school district may conduct discussions with any person who submits an acceptable or potentially acceptable technical offer. During discussions, the school district shall not disclose any information derived from one unpriced technical offer to any other person. After discussions, the school district shall establish a due date and time for receipt of final technical offers and shall notify, in writing, persons submitting acceptable or potentially acceptable technical offers of the due date and time. The school district shall keep a detailed record of all discussions.
- H.** At any time during phase 1, technical offers may be withdrawn.

Such contact shall be prior to the determination that a proposal is acceptable for further consideration. The school district shall obtain written confirmation from the offeror and shall retain the confirmation in the procurement file.

The determination shall be in writing, state the basis for the determination and be retained in the procurement file. When there is doubt as to whether a proposal is reasonably susceptible of being awarded a contract, the proposal shall be considered acceptable.
- H. If the school district determines an offeror's proposal is unacceptable, the school district shall notify that offeror of the determination and that the offeror shall not be afforded an opportunity to amend its proposal.

Offerors shall be afforded fair treatment with respect to any opportunity for discussion and revision of proposals.

- B. A school district shall establish procedures and schedules for conducting discussions. The school district shall ensure there is no disclosure of one offeror's price or any information derived from competing proposals to another offeror.
- C. Discussions may be conducted orally or in writing. If oral discussions are conducted, the offeror shall confirm the discussions in writing.
- D. If discussions are conducted, they shall be conducted with all offerors who submit proposals determined to be acceptable for further consideration. Proposals may not be revised during discussions.

- A. Only if discussions are conducted pursuant to R7-2-1047, the school district shall issue a written request for best and final offers to all offerors who submitted proposals determined to be acceptable pursuant to R7-2-1046(E). The request shall set forth the date, time and place for the submission of best and final offers.
- B. Best and final offers shall be requested only once, unless the school district makes a determination that it is advantageous to the school district to conduct further discussions or change the school district's requirements.

R7-2-1069. Guaranteed Energy Cost Savings Contracts

- A.** A school district may procure a guaranteed energy cost savings contract with a qualified provider through competitive sealed proposals in accordance with R7-2-1041 through R7-2-1050.
1. The request for proposal evaluation factors required by R7-2-1042(A)(1)(h) shall include objective criteria for selecting the qualified provider, including the cost of the contract, the energy cost savings, the net projected energy savings, the quality of the technical approach, the quality of the project management plan, the financial solvency of the qualified provider and the experience of the qualified provider with projects of similar size and scope.
 2. Notwithstanding R7-2-1042(A)(1)(h), the request for proposals shall set forth the respective numerical weighting for each evaluation criterion.
 3. At the qualified provider's expense, the proposal shall include an independent third-party validation of cost savings calculations associated with each proposed energy cost savings measure by a licensed, registered professional engineer, with credentials from the national association of energy engineers, who has demonstrated experience in energy analysis. The school district shall approve the selection of the independent third party.
 4. A school district may enter into a guaranteed energy cost savings contract with a qualified provider if the school district determines that the energy savings project will pay for itself within the expected life of the energy cost savings measures implemented (according to the manufacturer's equipment standards), the term of the financial agreement or 25 years, whichever is shortest, if the recommendations in the proposal are followed. Notwithstanding this subsection, a school district may elect to use a shorter capital cost repayment schedule than required pursuant to this subsection. The school district shall retain the cost savings achieved by a guaranteed energy cost savings contract, and these cost savings may be used to pay for the contract and project implementation.
 5. A qualified provider is a person that is experienced in designing, implementing or installing energy cost savings measures, that has a record of established projects or measures of similar size and scope, that has demonstrated technical, operational, financial and managerial capabilities to design and operate cost savings measures and projects and that has the financial ability to satisfy guarantees for energy cost savings.
- B.** In selecting a contractor to perform any construction work related to performing the guaranteed energy cost savings contract, the qualified provider may:
1. Develop and use a prequalification process for contractors.
 2. Require the contractor to demonstrate that the contractor is adequately bonded to perform the work and that the contractor has not failed to perform on a prior job.
- C.** A study shall be performed by the selected qualified provider in order to establish the exact scope of the guaranteed energy cost savings contract, the fixed cost savings guarantee amount and the methodology for determining actual savings. The selected qualified provider will provide the school district with a final study report which validates that the fixed cost savings guarantee amount will meet or exceed the cost savings calculations contained within the original proposal. The study report shall be reviewed and approved by the school district before the actual installation of any equipment. The qualified provider shall transmit a copy of the approved study report to the division of school facilities within the department of administration and the governor's office.
- D.** The information to develop the energy baseline shall be derived from historical energy costs or actual energy measurements or shall be calculated from energy measurements at the facility where energy cost savings measures are to be installed or implemented. The baseline shall be established before the installation or implementation of energy cost savings measures.
- E.** One or more school districts may enter into a financing agreement with a qualified provider or a financial institution, trustee or paying agent for the purchase and installation or implementation of energy cost savings measures. Any required financing may be obtained as part of the original competitive sealed proposal process from the qualified provider, or from a third-party financing institution that is procured separately in accordance with Articles 10 and 11.
- F.** The selected qualified provider shall provide a performance bond in accordance with R7-2-1103(A)(1)(c).
- G.** The selected qualified provider shall make public the information in the subcontractor's bids.
- H.** The guaranteed energy cost savings contract shall include the following:
1. A requirement that, in determining whether the projected energy savings calculations have been met, the energy savings shall be computed by comparing the energy baseline before installation or implementation of the energy cost savings measures with the energy consumed after installation or implementation of the energy cost savings measures. The qualified provider and the school district may agree to make modifications to the energy baseline only for any of the following:
 - a. Changes in utility rates.
 - b. Changes in the number of days in the utility billing cycle.
 - c. Changes in the square footage of the facility.
 - d. Changes in the operational schedule of the facility.
 - e. Changes in facility temperature.
 - f. Significant changes in the weather.
 - g. Significant changes in the amount of equipment or lighting used in the facility.
 - h. Significant changes in the nature or intensity of energy use such as the change of classroom space to laboratory space.
 2. A payment schedule, with payments over a period of not more than the expected life of the energy cost savings measures implemented (according to the manufacturer's equipment standards), the term of the financial agreement or 25 years, whichever is shortest, except a school district may elect to use a shorter capital cost repayment schedule than required pursuant to this subsection.
 3. A requirement that all payments, except obligations on termination of the contract before its expiration, be made pursuant to the terms of the financing agreement.
 4. A written guarantee from the qualified provider that the energy savings will meet or exceed the costs of the energy cost savings measures over the expected life of the energy cost savings measures implemented (according to the manufacturer's equipment standards), the term of the financial agreement or 25 years, whichever is shortest,

except a school district may elect to use a shorter capital cost repayment schedule than required pursuant to this subsection. The school district shall ensure that the contractor:

 - b. Reimburses the school district for any shortfall of guaranteed energy cost savings on an annual basis.
 - c. Uses the international performance and measurement and verification protocol standards or the federal energy management program standards to validate the savings guarantee.
- I.** A school district may use a simplified energy performance contract for projects that are less than \$500,000. Simplified energy performance contracts are not required to include an energy savings guarantee and shall comply with all requirements in this Section except for subsections (D), (H)(1)(a) through (h) and (H)(4)(a) through (c).
- J.** This Section does not apply to the construction of new buildings.
- K.** For all projects under this Section, the school district shall report to the division of school facilities within the department of administration and the governor's office:
1. The name of the project.
 2. The name of the qualified provider.
 3. The total cost of the project.
 4. The expected energy cost savings and relevant escalators.
 5. The agreed-on baseline in the measurement and verification agreement in both kilowatt hours and dollars.

- a. Distribute the amendment, by any method reasonably calculated to ensure delivery, to all persons to whom the request for qualifications was distributed;
 - b. Make the amendment available and issue a notice of amendment which contains instructions for obtaining copies of the amendment. The notice of amendment shall be distributed, by any method reasonably calculated to ensure delivery, to all persons to whom the request for qualifications was distributed. Upon receipt of such notice of amendment, it is the responsibility of the person to obtain the amendment.
3. Amendments to request for qualifications shall be issued within a reasonable time before the due date and time to allow persons to consider them in preparing their statements of qualifications. If the school district determines that the due date and time in the request for qualifications does not permit sufficient time for statement of qualifications preparation, the due date and time shall be extended in the amendment or, if necessary, by telephone, facsimile, email, or other communications methods, and confirmed in the amendment.
 4. A person shall acknowledge receipt of an amendment in the manner specified in the request for qualifications or the amendment on or before the due date and time.
- F.** Pre-submittal modification or withdrawal of statements of qualifications
1. A person may modify or withdraw a statement of qualifications in writing at any time before the prescribed due date and time if the modification or withdrawal is received before the due date and time at the location designated in the request for qualifications for receipt of statements of qualifications.
 2. All documents concerning a modification or withdrawal of a statement of qualifications shall be retained in the procurement file.
- G.** Late statements of qualifications, late withdrawals and late modifications
1. A statement of qualifications, modification or withdrawal is late if it is received at the location designated in the request for qualifications for receipt of statements of qualifications after the due date and time.
 2. A late statement of qualifications, late modification, or late withdrawal shall be rejected, unless the statement of qualifications, modification or withdrawal would have been timely received but for the action or inaction of school district personnel and is received before the qualified select bidders list is established.
 3. Upon receiving a late statement of qualifications, late modification, or late withdrawal, the school district shall record the time and date of receipt and promptly send notice of late receipt to the person. The school district

may discard the document 30 days after the date on the notice unless the person requests the document be returned.

4. All documents concerning acceptance of a late statement of qualifications, late modification, or late withdrawal shall be retained in the procurement file.

H. Receipt, opening and recording statements of qualifications

1. A school district shall maintain a record of statements of qualifications and modifications received for each solicitation, shall record the time and date when each statement of qualifications or modification is received, and shall store each unopened statement of qualifications or modification in a secure place until the due date and time.
 - a. If required to confirm a vendor's inquiry regarding receipt of its statement of qualifications prior to the due date and time, a school district may open a statement of qualifications to identify the vendor. If this occurs, the school district shall record the reason for opening the statement of qualifications, the date and time the statement of qualifications was opened, and the solicitation number. The school district shall secure the statement of qualifications and retain it for public opening.
 - b. One or more witnesses shall be present for the opening of a statement of qualifications under subsection (H)(1)(a).
2. Statements of qualifications and modifications shall be opened publicly at the date, time and location designated in the request for qualifications in the presence of one or more witnesses. The name of each person and any other relevant information deemed appropriate by the school district shall be recorded. The person opening the statements of qualifications and all witnesses shall sign the record.
 - a. The record created in subsection (H)(2) shall be available for public inspection.
 - b. The statements of qualifications shall not be open for public inspection until after the qualified select bidders list has been established.

I. Establishing the qualified select bidders list.

1. The qualified select bidders list shall be established by determining the highest rated persons from the statements of qualifications received. This will be a minimum of three and a maximum of five.
2. For each qualified select bidders list process there will be established by the school district an evaluation committee composed of five members. These members shall include the project designer or construction material specifier, one member from the prime contracting or construction material supplier community that performs commensurate level work and is disinterested in this project, a school district facilities representative and two other members as designated by the school district.
3. The evaluation committee shall review and score each statement of qualifications received according to the established evaluation criteria. The committee shall rank the statements of qualifications in accordance with the scores.
4. The committee may conduct interviews before making the final determination of the qualified select bidders list. The committee shall document the interviews in writing.
5. The committee shall select at least three and not more than five of the highest scoring persons for the qualified select bidders list.

6. The district representative shall review the committee's qualified select bidders list. The district representative shall:
 - a. Accept the list as submitted;
 - b. Return the list for additional committee review;
 - c. Reject the list and terminate the process.

7. A one-year eligibility period for the qualified select bidders list shall begin on the date the district representative accepts it. The qualified select bidders list may be extended one year at the option of the school district.
8. Once the qualified select bidders list is established, a written notice of the selected persons shall be sent to all the persons that submitted statements of qualifications.
9. After the establishment of the qualified select bidders list, a written record showing the basis for determining the qualified select bidders list shall be prepared by the district representative and retained in the procurement file. Within 10 days after the qualified select bidders list has been established, the school district shall make the procurement file, including all statements of qualifications, available for public inspection.
 - a. If the procurement file contains information that is confidential under R7-2-1006, a copy of the applicable documents with the confidential information redacted shall be placed in the procurement file for the purpose of public inspection.
 - b. The unredacted original copy of the confidential information shall be placed in a sealed envelope or other appropriate container, identified as confidential information, and maintained in the procurement file.
10. The qualified select bidders shall be provided an invitation for bids in accordance with R7-2-1024 to R7-2-1032. For any projects not identified in the request for qualifications, the school district may not solicit bids on those projects under the qualified select bidders list either in the initial one-year period or the one-year extension period.
11. The project identified in the request for qualifications shall have invitation for bids issued within the initial one-year period, or in the one-year extension period, to be awarded a contract under that qualified select bidders list.

J. Terminating the process for insufficient response or selection

1. In the event that less than three statements of qualifications are received, this procurement process shall cease and the school district may elect to reissue the request for qualifications or pursue other procurement methods.
2. In the event that less than three persons are identified by the selection committee as being the most highly qualified, this procurement process shall cease and the school district may elect to reissue the request for qualifications or pursue other procurement methods.

- K.** A copy of the request for qualifications shall be made available for public inspection at the school district office.

R7-2-1102. Bid Security

- A.** Bid security shall be required for all competitive sealed bidding for construction contracts, and for all competitive sealed

proposals for design-build construction services or job-order-contracting construction services procured pursuant to R7-2-1111, if the price, excluding the cost of any finance services, maintenance services, operations services, design services, preconstruction services, or other related services included in the contract, is estimated by the school district to exceed the amount established by R7-2-1002(A).

B. Invitations for bid on school district construction contracts and requests for proposals for design-build construction services or job-order-contracting construction services, shall require submission of bid security as follows:

1. For design-build construction services, ten percent of the contractor's bid.
2. For design-build construction services awarded by competitive sealed proposals pursuant to R7-2-1111, ten percent of the school district's construction budget for the project as stated in the request for proposals, excluding finance services, maintenance services, operations services, design services, preconstruction services or any other related services included in the contract.
3. For job-order-contracting construction services awarded by competitive sealed proposals pursuant to R7-2-1111, the amount prescribed by the school district in the request for proposals, but not more than ten percent of the school district's reasonably estimated budget for construction that the school district believes is likely to actually be done during the first year under the contract, excluding any finance services, maintenance services, operations services, design services, preconstruction services or other related services included in the contract.

C. Acceptable bid security shall be limited to:

1. An annual or one-time bid bond executed and furnished as required by A.R.S. Title 34, Chapter 2 or 6, as applicable; or
2. A certified check.

D. The school district may issue a written determination to accept the bid security if the bid security fails to comply in a nonsubstantial manner when:

1. Only one bid or proposal is received and there is not sufficient time to rebid or resolicit proposals;
2. The amount of the bid security submitted, although less than the amount required by the invitation for bids or request for proposals, is equal to or greater than the difference between the apparent low bid or highest scoring proposal and the next higher acceptable bid or next highest scoring proposal; or
3. The bid security is inadequate as a result of modifying or correcting a bid in accordance with R7-2-1027 or R7-2-1030, if the bidder increases the amount of security to required limits within two days after notification.

E. After the bids and proposals are opened, they are irrevocable for the period specified in the invitation for bids or request for proposals, except as provided in R7-2-1030. If a bidder or offeror is permitted to withdraw its bid before award, no action may be had against the bidder or offeror or the bid security.

Historical Note

Adopted effective December 17, 1987 (Supp. 87-4). Section repealed; new Section made by final exempt rulemaking at 21 A.A.R. 1525, effective July 1, 2014 (Supp. 15-3); effective year corrected in Supp. 18-2.

Amended by final exempt rulemaking at 26 A.A.R. 597, effective July 1, 2020 (Supp. 20-1).

R7-2-1103. Contract Performance and Payment Bonds

A. The following bonds or security is required and is binding on the parties to the contract if the value of a construction or construction services award exceeds the amount established by R7-2-1002(A):

1. A performance bond that is executed and furnished as required under Arizona Revised Statutes Title 34, Chapter 2, Article 2 or Chapter 6, as applicable, in an amount equal to 100 percent of the price specified in the contract conditioned on the faithful performance of the contract in accordance with the plans, specifications and conditions of the contract, except that:
 - a. For job-order-contracting construction services, the performance bond shall cover the full amount of construction under the job-order-contracting construction services contract, shall not include any design services, preconstruction services, finance services, maintenance services, operations services or other related services included in the contract, may be a single bond for the full term of the contract, a separate bond for each year of a multiyear contract or a separate bond for each job order, as determined by the school district, and, if a single bond for the full term of the contract or a separate bond for each year of a multiyear contract, shall initially be based on the school district's reasonable estimate of the amount of construction that the school district believes is likely to actually be done during the full term of the contract or during the particular year of a multiyear contract, as applicable.
 - b. For construction-manager-at-risk construction services and design-build construction services, the amount of the performance bond shall be the price of construction and shall not include the cost of any design services, preconstruction services, finance services, maintenance services, operations services and other related services included in the contract. This bond is solely for the protection of the school district. The conditions and provisions of the performance bond regarding the surety's obligations shall follow the form required under A.R.S. § 34-222(G) or A.R.S. § 34-610(G), as applicable.
 - c. For guaranteed energy cost savings contracts and guaranteed energy production contracts, the amount of the performance bond shall be one hundred percent of the project amount to the school district for its faithful performance of the equipment installment.
2. A payment bond that is executed and furnished as required by Arizona Revised Statutes Title 34, Chapter 2, Article 2 or Chapter 6, as applicable, in an amount equal to one hundred percent of the price specified in the contract for the protection of all persons supplying labor or material to the contractor or its subcontractors for the performance of the construction provided for in the contract, except that:
 - a. For job-order-contracting construction services, the payment bond shall cover the full amount of construction under the job-order-contracting construction services contract, shall not include any design services, preconstruction services, finance services, maintenance services, operations services or other related services included in the contract, may be a single bond for the full term of the contract, a separate bond for each year of a multiyear contract or a

TITLE 7. EDUCATION

CHAPTER 2. STATE BOARD OF EDUCATION

separate bond for each job order, as determined by the school district, and, if a single bond for the full term of the contract or a separate bond for each year of a multiyear contract, shall initially be based on the school district's reasonable estimate of the amount of construction that the school district believes is likely to actually be done during the full term of the contract or during the particular year of a multiyear contract, as applicable.

- b. For construction-manager-at-risk construction services and design-build construction services, the amount of the payment bond shall be the price of construction and shall not include the cost of any design services, preconstruction services, finance services, maintenance services, operations services or other related services included in the contract. The conditions and provisions of the payment bond regarding the surety's obligations shall follow the form required under A.R.S. § 34-222(F) or A.R.S. § 34-610(F), as applicable.
- B. For design-bid-build construction, the bonds prescribed in subsection (A) shall be provided on and at the same time as execution of the construction contract. For construction-manager-at-risk, design-build and job-order-contracting construction services, the bonds prescribed in subsection (A) shall be provided only on and at the same time as execution of a contract or contract modification that commits the contractor to provide construction for a fixed price, guaranteed maximum price or other fixed amount within a designated time frame.
- C. If the prime contract or specifications require any persons supplying labor or materials in the prosecution of the work to furnish payment or performance bonds, these bonds shall be executed solely by a surety company or companies holding a certificate of authority to transact surety business in this state issued by the director of the Department of Insurance pursuant to Arizona Revised Statutes Title 20, Chapter 2, Article 1. Notwithstanding the provisions of any other statute, the bonds shall not be executed by an individual surety or sureties, even if the requirements of A.R.S. § 7-101 are satisfied.
- D. If a contractor fails to deliver the required performance bond or payment bond, the contractor's bid shall be rejected, its bid security shall be enforced, and award of the contract shall be made pursuant to Articles 10 and 11.
- E. This Section shall not be construed to limit the authority of the school district to require a performance bond or other security in addition to those bonds or in circumstances other than specified in subsection (A).
- F. Any person who furnishes labor or material to the contractor or its subcontractors for the work provided in the contract, in respect of which a payment bond is furnished under this Section, and who has not been paid in full within 90 days from the date on which the last of the labor was performed or material was supplied by the person for whom the claim is made has the right to sue on the payment bond for any amount unpaid at the time the suit is instituted and to prosecute the action for the amount due the person. However, any person who has a contract with a subcontractor of the contractor, but no express or implied contract with the contractor furnishing the payment bond, has a right of action on the payment bond on giving the contractor, only, a written preliminary 20-day notice as provided for in A.R.S. § 33-992.01, subsection (C)(1), (2), (3), and (4) and subsections (D), (E), and (H), and upon giving written notice to the contractor within 90 days from the date on which the last of the labor was performed or material was sup-

plied by the person for whom the claim is made. The person shall state in the notice the amount claimed and the name of the party for whom the labor was performed or to whom the material was supplied. The notice shall be personally served or sent by registered mail, postage prepaid, in an envelope addressed to the contractor at any place the contractor maintains an office or conducts business.

Historical Note

Adopted effective December 17, 1987 (Supp. 87-4). Section repealed; new Section made by final exempt rulemaking at 21 A.A.R. 1525, effective July 1, 2014 (Supp. 15-3); effective year corrected in Supp. 18-2. The term "one hundred" was changed to "100" to reflect current standards in Chapter style and format (Supp. 21-2).

R7-2-1104. Contract Payment Retention and Substitute Security

- A. Ten percent of all construction contract payments shall be retained by the school district as insurance of proper performance of the contract or, at the option of the contractor, a substitute security may be provided by the contractor pursuant to this Section. The contractor is entitled to all interest from any such substitute security. When the contract is fifty percent completed, one-half of the amount retained or securities substituted pursuant to this Section shall be paid to the contractor upon the contractor's request provided the contractor is making satisfactory progress on the contract and there is no specific cause or claim requiring a greater amount to be retained. After the contract is fifty percent completed, no more than five percent of the amount of any subsequent progress payments made under the contract shall be retained providing the contractor is making satisfactory progress on the project, except if at any time the governing board determines satisfactory progress is not being made, ten percent retention shall be reinstated for all progress payments made under the contract subsequent to the determination.
- B. Notwithstanding subsection (A), there shall be no retention for job-order-contracting construction services contracts. The school district may elect to have no retention for construction-manager-at-risk and design-build construction services contracts. If the school district elects to have retention, then payment retention for construction-manager-at-risk and design-build contracts shall be in accordance with this Section.
- C. Retention applies only to amounts payable for construction and does not apply to amounts payable for design services, preconstruction services, finance services, maintenance services, operations services, or any other related services included in the contract.
- D. The form of substitute security is limited to the following:
 1. An assignment of time certificates of deposit by financial institutions licensed by this state;
 2. Share certificate of a financial institution or credit union authorized to transact business in this state; or
 3. Security issued or guaranteed as to principal and interest by:
 - a. The United States;
 - b. The state;
 - c. Counties, municipalities and school districts within this state.
- E. Conditions for use of substitute security.
 1. A contractor may submit substitute security to replace contract payment retention if:
 - a. The use of substitute security is requested of the school district or designee for work performed under

TITLE 7. EDUCATION

CHAPTER 2. STATE BOARD OF EDUCATION

the contract. The contractor shall have the option of submitting the substitute security:

- i. Prior to each progress payment in an amount of no less than five percent of each progress payment; or
- ii. Once, prior to the first progress payment in an amount no less than five percent of the total contract amount.
- b. The interest earned on such security shall accrue to the benefit of the contractor, but shall be retained until the school district has approved completion and acceptance of all work to be performed under the contract;
- c. The term of such security shall not mature until after the estimated contract completion date; and
- d. The security shall mature no later than one year after the estimated contract completion date.
2. The substitute security shall not be released without written approval by the school district.
3. A contractor may submit a single substitute security for more than one project provided that:
 - a. The amount of such security is sufficient to cover the aggregate retention amount;
 - b. The school district determines that such single substitute security is advantageous to the school district; and
 - c. Such security complies with the requirements of subsection (E)(1).
- F. Any retention shall be paid or substitute security shall be returned to the contractor within 60 days after final completion and acceptance of work under the contract. Retention of payments by a school district longer than 60 days after final completion and acceptance requires a specific written finding by the governing board of the reasons justifying the delay in payment. No school district may retain any monies after 60 days which are in excess of the amount necessary to pay the expenses the governing board reasonably expects to incur in order to pay or discharge the expenses determined in the finding justifying the retention of monies.
- G. The school district shall not accept any substitute security unless accompanied by a signed and acknowledged waiver of any right or power of the obligor to set off any claim against either the school district or the contractor in relationship to the security assigned. In any instance in which the school district accepts substitute security as provided in this Section, any subcontractor undertaking to perform any part of the contract is entitled to provide such security to the contractor.

Historical Note

Adopted effective December 17, 1987 (Supp. 87-4). Section repealed; new Section made by final exempt rulemaking at 21 A.A.R. 1525, effective July 1, 2014 (Supp. 15-3); effective year corrected in Supp. 18-2.

R7-2-1105. Progress Payments

- A. Progress payments may be made by the school district to the contractor on the basis of a duly certified and approved estimate of the work performed during the preceding month if the contractor agrees to adhere to the provisions of A.R.S. § 41-2577(B), (D), and (F). Payment shall be made within 14 days after the estimate of the work is certified and approved, except that a percentage of all estimates shall be retained as provided in R7-2-1104. The estimate of the work shall be deemed received by the school district on submission of the estimate of the work to the school district or a person designated by the

school district for the submission, review or approval of the estimate of the work. An estimate of the work submitted under this Section shall be considered approved and certified after seven days from the date of submission unless before that time the school district or designee prepares and issues a specific written finding detailing those items in the estimate of the work that are not approved and certified under the contract or design professional service contract. The school district may withhold an amount from the progress payment sufficient to pay the expenses the school district reasonably expects to incur in correcting the deficiency set forth in the written finding. No contract for construction or design professional service contract may materially alter the rights of any contractor, subcontractor, design professional or material supplier to receive prompt and timely payment as provided under this Section. On completion and acceptance of separate divisions of the contract or design professional service contract on which the price is stated separately in the contract, payment may be made in full including retained percentages, less deductions, unless a substitute security has been provided pursuant to R7-2-1104.

- B. Progress payments pursuant to subsection (A) are authorized for construction services and design professional services contracts. The requirements of subsection (A) apply only to amounts payable in a construction services contract for construction and in a contract for design services and do not apply to amounts payable in a contract for preconstruction services, finance services, maintenance services, operations services or any other related services included in the contract.
- C. A subcontractor or design professional may notify the school district, in writing, requesting that the subcontractor or design professional be notified by the school district in writing within five days from payment of each progress payment made to the contractor. The subcontractor's or design professional's request remains in effect for the duration of the subcontractor's or design professional's work on the project.
- D. If any payment to a contractor is delayed after the date due, interest shall be paid at the rate of one percent per calendar month, or a fraction of a calendar month, on such unpaid balance as may be due.

Historical Note

Adopted effective December 17, 1987 (Supp. 87-4). Section repealed; new Section made by final exempt rulemaking at 21 A.A.R. 1525, effective July 1, 2014 (Supp. 15-3); effective year corrected in Supp. 18-2. Amended by final exempt rulemaking at 26 A.A.R. 597, effective July 1, 2020 (Supp. 20-1).

R7-2-1106. Procurement of Construction Using Alternative Project Delivery Methods

- A. A school district may use an alternative project delivery method if it determines in writing that such alternative project delivery method is advantageous to the school district. The following factors may be used for such determination:
 1. Cost and cost control method;
 2. Value engineering;
 3. Market conditions;
 4. Schedule;
 5. Required specialized expertise;
 6. Technical complexity of the project; or
 7. Project management.
- B. Use of alternative project delivery methods
 1. Alternative project delivery methods for construction services shall be procured as provided in R7-2-1100.

TITLE 7. EDUCATION

CHAPTER 2. STATE BOARD OF EDUCATION

2. For design-build construction services and construction-manager-at-risk construction services, the school district is limited to one contract per procurement.
 - a. Alternatively, for construction-manager-at-risk construction services, a school district may elect separate contracts for preconstruction services during the design phase, for construction during the construction phase and for any other construction services.
 - b. Alternatively, for design-build construction services, a school district may elect separate contracts for preconstruction services and design services during the design phase, for construction and design services during the construction phase and for any other construction services.
 - c. If the school district enters into the first contract for preconstruction services or construction services the procurement ends. After execution of that first contract the school district may not use the procurement or the existing final list in the procurement as the basis for entering into a contract with any other person that participated in the procurement.
3. For job-order-contracting construction services, the school district may award a single contract, or multiple contracts for similar job-order-contracting construction services to be awarded to separate persons. If the school district enters into the number of contracts specified under the request for qualifications, the procurement ends. After that time the school district may not use the procurement or any existing final list in the procurement as the basis for entering into a contract with any other person that participated in the procurement.
4. All construction-manager-at-risk construction services or design-build construction services included in a procurement shall be limited to construction services to be performed at a single location, a common location or, if the construction services are all for a similar purpose, multiple locations. For construction-manager-at-risk construction services and design-build construction services to be performed at multiple locations:
 - a. At the time the request for qualifications is issued, the school district shall intend to commence all construction at each location within thirty months after execution of the first contract for preconstruction services or other construction services at any of the locations.
 - b. The request for qualifications shall include the information described in R7-2-1108(B)(2).
5. The school district and the selection committee shall not request or consider fees, price, man-hours or any other cost information at any point in the selection process under this Section and R7-2-1107, R7-2-1108, R7-2-1110, and R7-2-1111, including the selection of persons to be interviewed, the selection of persons to be on the final list, in determining the order of preference of persons on the final list or for any other purpose in the selection process, except as provided in R7-2-1110(D) and R7-2-1111.
6. In determining the persons to participate in any interviews, in determining the persons to be on the final list, and in determining the order on the final list, the selection committee shall use and consider only the criteria and weighting of criteria in the request for qualifications. No other factors or criteria may be used in the evaluation, determinations and other actions.
7. Notwithstanding any other provision specifying the number of persons to be interviewed, the number of persons to be on a final list, or any other numerical specification in R7-2-1106 through R7-2-1115:
 - a. If a smaller number of persons respond to the request for qualifications or if one or more persons drop out of the procurement so there is a smaller number of persons participating in the procurement, the school district, as the school district determines necessary and appropriate, may elect to proceed with the participating persons if there are at least two participating responsive and responsible persons. Alternatively, the school district may elect to terminate the procurement.
 - b. As to a request for qualifications to be negotiated pursuant to R7-2-1110(D), if only one responsive and responsible person responds to the request for qualifications or if one or more persons drop out of the procurement so that only one responsive and responsible person remains in the procurement, the school district may elect to proceed with the procurement with only one person if the governing board determines in writing that the negotiated fee is fair and reasonable and that either other prospective persons had reasonable opportunity to respond or there is not adequate time for a resolicitation.
 - c. If a person on the final list withdraws or is removed from the procurement and the selection committee determines that it is advantageous to the school district, the selection committee may replace that person on the final list with another person that submitted qualifications in the procurement and that is selected as the next most qualified.

Historical Note

New Section made by final exempt rulemaking at 21 A.A.R. 1525, effective July 1, 2014 (Supp. 15-3); effective year corrected in Supp. 18-2.

R7-2-1107. Selection Committee

- A. The school district shall initiate an appropriately qualified selection committee for each request for qualifications. The school district shall ensure that selection committee members are competent to serve on the selection committee.
- B. Each selection committee shall include at least one school district representative appointed by the school district.
- C. The selection committee shall not have more than seven members and shall include at least one person who is a senior management employee of a licensed contractor and one person who is an architect or an engineer who is registered pursuant to A.R.S. § 32-121.
- D. Non-school district employees serving on a selection committee shall not receive compensation from the school district for performing this service, but the school district may elect to reimburse non-school district members for travel, lodging and other expenses incurred in connection with service on a selection committee.
- E. A person who is a member of a selection committee shall not be a contractor or subcontractor under a contract awarded under the procurement or provide any specified professional services, construction, construction services, materials or other services under the contract.
- F. For the procurement of multiple contracts for job-order-contracting, the same selection committee shall be used for all contracts in the procurement.

R7-2-1108. Request for Qualifications

- A.** Notice of the need for construction services shall be given by the school district pursuant to R7-2-1022 and R7-2-1024(C). Such notice shall be issued not less than 14 days in advance of when responses shall be received. The notice shall:
1. Contain a statement of the construction services required that adequately describes the procurement and specifies how a request for qualifications containing specific information on the procurement may be obtained;
 2. Specify whether the procurement is for a single contract or, for job-order-contracting construction services only, for multiple contracts; and
 3. If the procurement is for multiple job-order-contracting construction services contracts:
 - a. Specify that multiple contracts may or will be awarded;
 - b. Specify the number of contracts that may or will be awarded; and
 - c. Describe the construction services to be performed under each contract.
- B.** The request for qualifications shall include the following:
1. Instructions and information to persons concerning the statement of qualifications submission requirements, including the due date and time for receipt of statements of qualifications, the address of the office at which the statements of qualifications are to be received, and any other special information.
 2. In a procurement of construction-manager-at-risk construction services or design-build construction services to be performed at multiple locations, include:
 - a. A brief description of the construction services to be performed at each location;

TITLE 7. EDUCATION

CHAPTER 2. STATE BOARD OF EDUCATION

- B.** In a procurement for construction-manager-at-risk construction services or design-build construction services, except for design-build contracts awarded pursuant to R7-2-1111, the school district shall enter into a written contract with the contractor for preconstruction services under which the school district shall pay the contractor a fee for preconstruction services in an amount agreed by the school district and the contractor, and the school district shall not request or obtain a fixed price or a guaranteed maximum price for the construction from the contractor or enter into a construction contract with the contractor until after the school district has entered into the written contract for preconstruction services and a preconstruction services fee.
- C.** Construction shall not commence under a construction services contract until the school district and contractor agree in writing on either a fixed price that the school district will pay or a guaranteed maximum price for the construction to be commenced. The construction to be commenced may be the entire project or may be one or more phased parts of the project.
- D.** For negotiated construction-manager-at-risk and design-build contracts, preconstruction services, general conditions, schedules, construction contingency, and construction fees shall be part of the contract. - E.** For job-order-contracting construction services only:
1. The maximum dollar amount of an individual job order for job-order-contracting construction services shall be one million dollars or a higher or lower amount prescribed by the governing board in a policy adopted in a public meeting held pursuant to A.R.S. Title 38, Chapter 3, Article 3.1. Requirements shall not be artificially divided or fragmented in order to constitute a job order that satisfies the requirements of this subsection.
 2. If the contractor subcontracts or intends to subcontract part or all of the work under a job order and if the job-order-contracting construction services contract includes descriptions of standard individual tasks, standard unit prices for standard individual tasks and pricing of job orders based on the number of units of standard individual tasks in the job order:

The school district may use methods other than competitive bidding to assure itself that the price the school district pays to the contractor for self-performed work is fair and reasonable. Permitted methods to evaluate fairness and reasonableness of the price of self-performed work include evaluation of the contractor's proposed scope of work and price for self-performed work by an estimator who is hired and paid by the school district, who is independent of the contractor and who may be an employee of the school district. Although the school district may elect to so require, nothing in Articles 10 and 11 shall be construed or interpreted to require the school district to require a contractor desiring to self-perform part of the construction work to competitively bid that part of the construction work against other contractors in a bid competition.
- G.** For all construction services contracts, the following requirements apply to the construction work to be performed by subcontractors and do not apply to construction work that the school district and the contractor agree in writing will be self-performed by the contractor:

A qualifications and price selection may be a single-step selection based on a combination of qualifications and price or a two-step selection.  - b. If the school district did not include its subcontractor selection plan in the request for qualifications, the subcontractor selection plan proposed by the awarded contractor in submitting its qualifications with those modifications as the school district and the contractor agree.
 3. In making the selection of subcontractors, the contractor shall use the subcontractor selection plan and any procedures included in its contract.
- H.** The school district shall include in each contract for construction services the full street or physical address of each separate location at which the construction will be performed and a requirement that the contractor and each subcontractor at any level include in each of its subcontracts the same address information. - B. Prior to public notice of the need for specified professional services, the school district shall determine that the services to be acquired are specified professional services.
- C. In the procurement of specified professional services:
 1. The school district shall specify whether the procurement is for a single contract or for multiple contracts. Multiple contracts may be awarded to separate persons or may be awarded to a single person as specified in the request for qualifications.
 2. The school district and the selection committee shall not request or consider fees, price, man-hours or any other cost information at any point in the selection process under this Section and R7-2-1120 or R7-2-1121, including the selection of persons to be interviewed, the selection of persons to be on the final list, in determining the

order of preference of persons on a final list or for any other purpose in the selection process except as provided in R7-2-1121.

In determining the persons to participate in any interviews, in determining the persons to be on the final list, and in determining the order on the final list, the selection committee shall use and consider only the criteria and weighting of criteria in the request for qualifications. No other factors or criteria may be used in the evaluation, determinations and other actions.
 4. If the school district enters into the number of contracts specified in the request for qualifications, the procurement ends. After that time the school district may not use the procurement or any final list in the procurement as the basis for entering into a contract with any other person that participated in the procurement.
 5. Notwithstanding any other provision specifying the number of persons to be interviewed, the number of persons to be on a final list, or any other numerical specification in this Section or R7-2-1121:
 - a. If a smaller number of persons respond to the request for qualifications or if one or more persons drop out of the procurement so that there is a smaller number of persons participating in the procurement, the school district, as the school district determines necessary and appropriate, may elect to proceed with the participating persons if there are at least two participating responsive and responsible persons. Alternatively, the school district may elect to terminate the procurement.
 - b. As to a request for qualifications to be negotiated pursuant to R7-2-1121(D), if only one responsive and responsible person responds to the request for qualifications, or if one or more persons drop out of the procurement so that only one responsive and responsible person remains in the procurement, the school district may elect to proceed with the procurement with only one person if the governing board determines in writing that the negotiated fee is fair and reasonable and that either other prospective persons had reasonable opportunity to respond or there is not adequate time for a resolicitation.
 - c. If a person on the final list withdraws or is removed from the procurement and the selection committee determines that it is advantageous to the school district, the selection committee may replace that person on the final list with another person that submitted qualifications in the procurement and that is selected as the next most qualified.
- D. The request for qualifications shall:

 - d. If multiple contracts for different specified professional services will be awarded to separate persons, state that there will be a separate final list for each type of specified professional services and that the number of persons on each final list will be equal to the number of contracts that may or will be awarded for each type of specified professional services plus a number determined by the school district not to exceed five.

 - a. If interviews will be held, state the selection criteria and relative weights to be used in selecting the persons to be interviewed. The request for qualifications may state the selection criteria and relative weights to be used in selecting the persons on the final list and in determining their order on the final list. The final list selection criteria and relative weights may be different than the selection criteria and relative weights used to determine the persons to be interviewed. The request for qualifications also shall state whether the school district will select the persons on the final list and their order on the final list solely through the results of the interview process or through the combined results of both the interview process and the evaluation of statements of qualifications and performance data submitted in response to the request for qualifications.

If the procurement is for multiple contracts for different specified professional services to be awarded to separate persons, and if a person submitted qualifications for more than one type of specified professional services, the person may be on more than one final list.

If the school district is not able to negotiate a satisfactory contract with a person with whom the school district has commenced negotiations, the school district shall formally terminate negotiations with that person. The school district shall then undertake negotiations for a contract with the next most qualified person on the applicable final list with whom the school district is not then negotiating and with whom the school district has not previously negotiated in sequence until an agreement is reached for some or all of the multiple contracts included in the request for qualifications or a determination is made to reject all persons on the final list.

 1. Negotiations shall include consideration of compensation and other contract terms that the school district determines to be fair and reasonable to the school district. In making this determination, the school district shall take into account the estimated value, the scope, the complexity and the nature of the specified professional services to be rendered.
 2. If the school district is unable to negotiate a satisfactory contract with a person with whom the school district is negotiating at a price and on other contract terms the school district determines to be fair and reasonable to the school district, the school district shall formally terminate negotiations with that person.

- P. Evidence**
- 1. All witnesses shall testify under oath or affirmation. The hearing officer shall administer oaths and affirmations.

The party taking a witness' deposition or affidavit shall bear all deposition-related or affidavit-related costs. The hearing officer shall make rulings necessary to prevent argumentative, repetitive, or irrelevant questioning, to exclude evidence the hearing officer determines to be irrelevant, immaterial or unduly repetitious, and to expedite the examination to the extent consistent with the disclosure of all relevant testimony and information.
- Q. Stipulations.** Parties to any contested case may stipulate, in writing, agreement upon any matter involved in the proceeding. If approved by the hearing officer, agreement on matters of procedure shall be binding upon the parties to the stipulation. No substantive matter agreed to by the parties shall be binding upon the Board unless incorporated into the decision of the Board.

PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

RULES

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2022 is cited as Supp. 22-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. This is why the Office lists only updated codified Sections on the previous page.

RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State’s website, www.azsos.gov under Services-> Legislative Filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

R7-5-403. Minimum Operational Performance Expectations

A. The Board shall assess a charter holder’s achievement of the minimum operational performance expectations. To avoid duplicative reporting burdens, the Board shall use data collected from a variety of sources that reflect on the charter holder’s compliance with the charter contract, other contractual agreements with the Board, federal and state law, and this Chapter.

1. The Board may assess a charter holder’s achievement of the minimum operational performance expectations at any time.
2. The Board shall assess a charter holder’s achievement of the minimum operational performance expectations:
 - a. When considering the following submitted by the charter holder:

- i. An application for a new charter;
- ii. An application to transfer a charter school from an existing charter contract to a separate charter contract;
- iii. A request to change the legal status of the charter holder;
- iv. A request to change the entity that holds the charter; or
- v. A request to change program of instruction including methods of instruction, criteria for promotion, or graduation requirements;
- b. When considering an expansion request submitted by the charter holder to:
 - i. Add a new charter school to an existing charter,
 - ii. Add one or more grade levels to a charter,

TITLE 7. EDUCATION

CHAPTER 5. STATE BOARD FOR CHARTER SCHOOLS

- iii. Increase the number of students the charter holder may serve,
 - iv. Add an Arizona Online Instruction program, or
 - v. Replicate an existing charter;
 - c. During the five-year-interval review required under A.R.S. § 15-183(I);
 - d. When considering an application for charter renewal submitted by the charter holder;
 - e. Upon receipt of information that a charter school operated by the charter holder failed to meet the minimum academic performance expectations for three consecutive years; and
 - f. Upon receipt of information that a charter school operated by the charter holder has been assigned a letter grade of "F" by the Department.
- B.** The Board shall annually assign a charter holder an overall operational performance rating based on the measures specified in the Operational Performance Framework, which reflect the degree to which the charter holder achieved the minimum operational performance expectations. The Board shall make each charter holder's operational performance dashboard publicly available on the Board's website.
- C.** The Board shall determine a charter holder meets the minimum operational performance standard if the charter holder receives no measure rated "falls far below standard" and no more than five measures rated "does not meet standard" for the evaluated year.
- D.** The Board shall determine a charter holder meets the minimum operational performance expectations if the charter holder receives an overall rating of "meets the Board's operational performance standard" in both of the two most recent years for which an overall rating was calculated and has no measure rated "falls far below standard" in the current year.
- E.** The Board shall determine a charter holder does not meet the minimum operational performance expectations if the charter holder receives an overall rating of "does not meet the Board's operational performance standard" in at least one of the two most recent years for which an overall rating was calculated or has at least one measure rated "falls far below standard" in the **current year**.
- F.** If the Board determines a charter holder does not meet the minimum operational performance expectations, the Board shall consider charter oversight under Article 6.

R7-5-404. Development and Use of Performance Frameworks

- A.** The Board shall revise the Academic, Financial, and Operational Performance Frameworks as needed. During the process of revision, the Board shall provide the public with notice and an opportunity to comment on proposed revisions. The Board shall adopt revisions at a public meeting.
- B.** The Board shall ensure the Academic Performance Framework includes considerations for non-traditional charter schools, including small charter schools with very low enrollment and those designated by the Department as alternative schools.
- C.** Use of the Academic Performance Framework is contingent on a charter school's receipt of an annual achievement profile under A.R.S. § 15-241. The Board shall assign a rating of "no

rating" to a charter school that does not provide enough data to make a calculation.

- D.** If the Department does not timely release annual achievement profiles under A.R.S. § 15-241, rather than assigning a rating of "no rating" to all charter schools, the Board may use the most recent available data for each measure.

- B.** Before beginning the audit, a charter holder or the audit firm shall submit for the Board's approval a copy of the audit contract the charter holder intends to execute with an audit firm.
1. Board staff shall approve the audit contract unless the Board has knowledge that one of the following is applicable:
 - a. A person employed by the audit firm has been convicted under federal or state law of a crime indicating lack of business integrity or honesty;
 - b. The audit firm or supervising certified public accountant is subject to a current or pending disciplinary action or a regulatory action requiring the audit firm or supervising certified public accountant to complete conditions specified by an accounting industry regulatory body;
 - c. The audit firm violates or fails to meet generally accepted auditing standards or generally accepted government auditing standards as identified by an accounting industry regulatory body;
 - d. The audit firm receives an opinion of "fail" during the audit firm's most recent peer review;

 2. Within 10 days after receiving a copy of an audit contract under subsection (B), the Board shall provide the charter holder and audit firm written notice whether the audit contract is approved.
 3. If the Board disapproves an audit contract submitted under subsection (B), the Board shall include the reason for the disapproval in the written notice provided under subsection (B)(2). If the charter holder or audit firm provides documentation to the Board demonstrating the cause for the disapproval no longer exists, Board staff shall approve the audit contract and provide written notice to the charter holder and audit firm.
- C.** A charter holder or the audit firm that conducts an audit for the charter holder shall submit the annual audit to the Board for a determination whether the audit is complete. Within five days after receiving the annual audit, Board staff shall provide the charter holder and audit firm written notice whether the audit is complete.
- D.** Board staff shall find an audit is incomplete if it does not comply with all requirements specified under subsection (A) or if the audit is prepared by an audit firm that fails to meet the requirements under subsection (B)(1)(a) through (e). If Board staff finds an audit is incomplete, Board staff shall include the reason for the finding in the notice provided under subsection (C). If the charter holder or audit firm provides documentation to the Board demonstrating the reason for the finding no longer exists, Board staff shall find the annual audit is complete and provide written notice to the charter holder and audit firm.

The Board shall make each charter holder's financial performance dashboard publicly available on the Board's website.
- H.** Board staff shall send notice to a charter holder after the audit is reviewed unless the Board has been notified the charter holder will not be operating during the next fiscal year.

- J.** In general, Board staff does not grant extensions for corrective action plan submissions under R7-5-504(H)(1) as the Board has an interest and duty to timely review these submissions to better ensure the charter holder addresses identified concerns quickly. However, if the deadline has not passed, Board staff may, for good cause, grant the charter holder an extension of time to submit the CAP pursuant to subsection (H)(1) or any additional information pursuant to R7-5-510. The shortened timeframe shall be approved by the Executive Director and is within his or her sole discretion.
- 3. If Board staff determines that the allegations alleged in the complaint are within the Board's jurisdiction and do not violate the charter holder's charter, its other contractual obligations to the Board, federal or state law, or any other legal requirements, Board staff may deem the complaint unsubstantiated, send a copy to the charter holder complained against and notify the charter holder that it is not required to file a response.
 - a. If the Board determines that specific, but not all, allegations alleged in a complaint over which it has jurisdiction do not violate the charter holder's charter, its other contractual obligation to the Board, federal or state law, or any other legal requirements, Board staff may deem those specific allegations unsubstantiated, send a copy to the charter holder complained against and notify the charter holder that it is not required to file a response to the specific allegations that have been deemed unsubstantiated.
- b. The charter holder is still required to file a response, pursuant to subsection (B)(2), as to those allegations that the Board has jurisdiction but for which the Board has not yet determined does not violate the charter holder's charter, its other contractual obligations to the Board, federal or state law, or any other legal requirements.

PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

RULES

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2022 is cited as Supp. 22-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. This is why the Office lists only updated codified Sections on the previous page.

RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State’s website, www.azsos.gov under Services-> Legislative Filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

Supp. 22-4

Editor's Note: The Office of the Secretary of State publishes all Code Chapters on white paper (Supp. 01-4).

Editor's Note: This Chapter contains rules which were adopted, amended, repealed, or renumbered under an exemption from the Arizona Administrative Procedure Act (A.R.S. Title 41, Chapter 6), pursuant to Laws 1998, 5th Special Session, Chapter 1, section 55, as amended by Laws 1999, Chapter 299, section 39. Because this Chapter contains rules which are exempt from the regular rulemaking process, it is printed on blue paper.

Title 7, Chapter 6, adopted by exempt rulemaking at 6 A.A.R. 597, effective April 30, 1999, filed in the Office of the Secretary of State January 13, 2000 (Supp. 00-1).

R7-6-276. Assessment of Minimum Gross Square Footage

- A. Computation of the gross square footage of a school facility may be by measurement or by calculation based on architectural plan documents.
- B. The gross square footage of a school facility equals all space within the facility excluding space used for district administrative purposes.
- C. The gross square footage of a district shall equal the sum of the gross square footage of each school facility in the district.
- D. The minimum gross square footage of a district equals the sum of the products of the students in each grade or program for preschool children with disabilities or kindergarten multiplied by the minimum adequate gross square footage requirements per student, applicable to the district for such grade or program.

- E. For the purpose of assessment of minimum gross square footage, the number of students in all grades and kindergarten shall be evenly distributed across all grades and kindergarten served by the district.

The Board may grant an exception from any of the guidelines in this Chapter. To obtain an exception, the governing board of the school district shall submit a written request to the Board. The Board shall grant an exception if it determines the intent of the guideline is capable of being met by the school district in an alternative manner. If the Board grants the exception, the Board shall deem the school district meets the guideline and is not eligible for state funding to meet the guideline.

ARTICLE 3. SQUARE FOOTAGE CALCULATIONS**R7-6-301. Square Footage Calculations**

- A. A school district may use Class A bonds to supplement any project funded by the Board under A.R.S. § 41-5741. Under A.R.S. § 41-5702(H), when a school district adds square footage to the district through the construction of a new school facility using Class A bonds, the Board shall not provide funding to supplement construction of the new school facility.
- B. When a school district adds square footage to the district through the construction of a new school facility using Class B bonds or other funds, the Board shall not include the square footage of the new school facility in the net square footage of the school district for determining need for additional square footage under A.R.S. §§ 41-5711 and 41-5741.
- C. When a school district adds square footage to the district through the construction of a new school facility using Class A bonds, the Board shall include the square footage of the new school facility in the net square footage of the school district

TITLE 7. EDUCATION

for determining need for additional square footage under A.R.S. §§ 41-5711 and 41-5741.

- D.** If a school district uses Class B bonds and/or other funds to add or replace square footage at existing school facilities, the Board shall treat the additional square footage or replacement square footage as follows:

1. If square footage is added to an existing school facility using Class B bonds or other funds, the Board will not include the additional square footage in determining minimum adequate square footage under A.R.S. § 41-5711(C), but the Board will include the additional square footage in determining adequacy of the functional components of the school facility as specified in Article 2.
2. If a portion of the square footage at an existing school facility is replaced using Class B bonds or other funds, the Board will determine the student capacity of the completed school facility in the same manner as student capacity would have been determined before the replacement. If Class B bonds or other funds are used to construct a complete replacement school facility, the Board will determine the student capacity of the completed school facility based on the provisions of A.R.S. § 41-5711(C).
3. For purposes of this Section, replacement square footage means square footage constructed with Class B bonds or other funds that replaces existing square footage.

- E.** If square footage is added to or replaced at an existing school facility using Class A bonds, the school district shall determine the student capacity of the facility after the project is completed using the same procedure the school district would have used before the addition or replacement.

Historical Note

Adopted by exempt rulemaking at 6 A.A.R. 917, effective April 30, 1999, filed in the Office of the Secretary of State January 13, 2000 (Supp. 00-1). R7-6-302. Modification of Square Footage for Geographic Factors

- A.** The Board shall provide additional school facility square footage to a school district that has 100 or more students who:
1. Are transported one hour or more using the most reasonable and direct route; or
 2. Live 45 miles or more from the closest school using the most reasonable and direct route.
- B.** If the Board provides additional school facility square footage under subsection (A), the Board shall make a conscientious effort to meet the Minimum Adequacy Guidelines without requiring an extraordinary expenditure of public funds.
- C.** If an elementary school district that is not in a high school district unifies after June 30, 2005, the resulting unified school district may qualify for high school square footage under A.R.S. § 41-5741 if it meets the following criteria:
1. The resulting unified school district is projected to have more than 350 resident high school students being served by one or more school districts other than the students' resident school district within three years following the current fiscal year; and
 2. One of the following is true:

- a. At least 350 of the high school students in the unified school district would travel 20 miles or more to a receiving high school facility; or
- b. The receiving high school district is projected to need additional high school square footage within seven years. For purposes of this analysis, the projected average daily membership of the receiving high school district includes the high school students of both the receiving and sending school districts.

ARTICLE 5. NEW SCHOOL FACILITY AND LAND FUNDING

- R7-6-501. Capital Plans**

If a school district's capital plan, developed under A.R.S. § 41-5741, indicates the school district will need a new school facility or an addition to an existing school facility within the next four years or land within the next 10 years, the school district shall complete the capital plan packet issued by the Board and return the completed packet to the Board by the deadline prescribed under A.R.S. § 41-5741.

Historical Note

Adopted by exempt rulemaking at 6 A.A.R. 917, effective April 30, 1999, filed in the Office of the Secretary of State January 13, 2000 (Supp. 00-1). Section repealed; new Section made by exempt rulemaking at 8 A.A.R. 287, effective June 7, 2001 (Supp. 01-4). Amended by final rulemaking at 28 A.A.R. 3939 (December 30, 2022), effective February 5, 2023 (Supp. 22-4).

- R7-6-502. Funding for New School Facilities or Additional Square Footage**

- A.** The Board shall prepare a New Construction Analysis for a school district that requests funding for additional square footage under the capital plan submitted under R7-6-501. The Board shall review the data submitted by the school district to determine student capacity of the school district, district student population projections, and existing square footage in the district. The Board shall provide a copy of the New Construction Analysis to the applicable school district.
- B.** If a school district proposes to locate a new school facility in territory in the vicinity of an airport, as defined in A.R.S. § 28-8461, the Board shall provide notice to the airport of the proposed new school facility and seek comments and analysis concerning whether the high noise or accident potential associ-

ated with airport operations is compatible with the proposed school facility and public health and safety. The Board shall consider the comments and analysis provided by the airport before deciding whether to fund the new school facility.

- C.** At an open meeting and after reviewing the New Construction Analysis prepared under subsection (A) and hearing from members of the applicable school district, the Board shall decide the number of square feet and students to be funded for the district, the funding per square foot approved by the legislature, and the total budget based on the funding per square foot.
- D.** After a school district signs the Terms and Conditions for New School Funding, the Board may make five percent of the funds approved available for architectural and engineering fees. The school district is responsible for deciding the actual amount spent on architectural and engineering fees.
- E.** A school district that is approved for funding for additional square footage shall proceed with the design development plan and specifications for the project. The school district shall submit to the Board one or more copies of the proposed drawings, specifications, schematic design, and budget estimates. The school district shall ensure all elements of new construction, excluding land acquisition, are included in the estimated budget. These elements include, but are not limited to:
 1. Architectural and engineering fees;
 2. Surveying, testing, obtaining permits, advertising, and printing;
 3. Construction costs;
 4. Furniture, fixtures, and equipment;
 5. Any necessary project management; and
 6. A three percent contingency amount to ensure the completed project meets all Minimum Adequacy Guidelines.
- F.** After reviewing the materials submitted under subsection (E), the Board shall decide whether to authorize the school district to proceed with construction of the additional square footage. The Board shall base the decision on whether the project is within the original scope and Board approval, the project meets the Minimum Adequacy Guidelines, initial comments from the local building authority and whether revised student population projections continue to justify the additional square footage. If the Board authorizes the school district to proceed, the school district may initiate construction. If the Board determines a project is outside of the original scope and /or Board approval or does not meet the Minimum Adequacy Guidelines, the Board may instruct the school district to resubmit under subsection (E) or make an alternative decision. Other funds may be used by the school district in conjunction with the Board approved funding.
- G.** The Board may modify or waive the requirements of this Section for good cause.

Historical Note

New Section made by exempt rulemaking at 8 A.A.R. 287, effective June 7, 2001 (Supp. 01-4). Amended by final rulemaking at 28 A.A.R. 3939 (December 30, 2022), effective February 5, 2023 (Supp. 22-4).

- R7-6-503. Funding for Land**

- A.** A school district that is approved for funding of a new school facility under R7-6-502, may ask the Board to provide funding to purchase land on which to locate the new school facility.
- B.** The Board follows a three-step process, as described in subsections (C) through (E), before recommending whether to authorize funding to purchase land for construction of a new school facility. The Director may deviate from the three-step

TITLE 7. EDUCATION

CHAPTER 6. SCHOOL FACILITIES OVERSIGHT BOARD

process to meet circumstances such as purchasing state-owned or condemned land. The Director shall bring a recommendation regarding funding to purchase land to the full Board.

C. Step One, justification of the need for land for construction of a new school facility: If a school district currently owns land, the school district shall include in the justification;

1. A list of all land parcels currently owned by the school district;
2. The size and location of each district-owned land parcel; and
3. Why each district-owned land parcel is not suitable for the needed new school facility.

D. Step Two, request to purchase a specific land site:

1. A school district that requests to purchase a specific land site for construction of a new school facility shall provide the following to the Board:
 - a. A map of the school district showing current school facilities and, for each school facility, the projected student population, grade levels served, and attendance boundaries;
 - b. A description the land site selection process;
 - c. An explanation of why the land site requested was chosen over alternative sites;
 - d. A summary of any joint-use provisions or other intergovernmental agreements related to the land site requested; and
 - e. The legal description, size, and estimated cost of the requested land site. If the size of the requested land site is outside the range of acreage table approved by the Board, the school district shall justify the deviation.
2. The Board shall review the information submitted under subsection (D)(1) and either authorize or deny authorization for the school district to proceed to perform due diligence regarding the land site the school district proposes to purchase.

E. Step Three, due diligence regarding the specific land site:

1. A school district that needs funds to verify, gather, and submit the information required under subsection (E)(2) shall submit a cost estimate to the Board and the Board shall approve or disapprove the request to a maximum of \$30,000. The Board shall deduct any funds advanced to a school district to verify, gather, and submit the information required under subsection (E)(2) from the final amount authorized, if any. Rather than allocating funds to the school district to verify, gather, and submit information required under subsection (E)(2), the Board may contract and pay directly for the services.
2. A school district authorized under subsection (D)(2) to perform due diligence regarding the land site the school district proposes to purchase shall submit the following information to the Board:
 - a. Two appraisals of the land that show the proposed cost of the land site is at or below the fair market value;
 - b. Legal description of the land site;
 - c. Phase one environmental assessment completed within the last 180 days, plus the following factors (if not included):
 - i. Hazardous materials,
 - ii. Archaeology,
 - iii. Endangered flora and fauna,
 - iv. Noise,
 - v. Soil conditions, and

- vi. Identity of adjacent land owners and/or uses;
- d. American Land Title Association and topographical survey;
- e. Drainage statement;
- f. Estimate of land-site development cost;
- g. Photographic survey (if required by applicable planning and zoning departments); and
- h. Site feasibility diagram-conceptual study developed by a design professional that shows the proposed development of the land site. The site feasibility diagram shall include:
 - i. Property lines and measurements;
 - ii. Setbacks, right-of-ways, and easements;
 - iii. Vehicular access and parking;
 - iv. Pedestrian and bicycle access;
 - v. Building zone;
 - vi. Drainage concept;
 - vii. Utility routes or systems;
 - viii. Activity fields and courts;
 - ix. Limit-lines and calculation of usable area;
 - x. Existing features to be demolished or preserved; and
 - xi. Future expansion capability.

3. After reviewing the information provided by the school district under subsection (E)(2), the Board shall prepare a recommendation for the Division regarding whether to authorize purchase of the requested land site. The Board shall include in the recommendation the cost of the land site and applicable closing costs.
4. If the Division decides to authorize purchase of the requested land site, the Division shall request a funding appropriation from the Legislature.

F. Final distribution. If the legislature appropriates funding for purchase of the requested land site, the school district shall submit a written funding request to the Division. The Director shall make final distribution of funds to the school district.

G. Additional matters.

1. A school district that receives funds under subsection (E)(1) shall provide documentation to the Board of the actual expenditures from the funds after the final distribution.
2. A school district that receives funding under subsection (F) shall provide documentation to the Board of actual closing costs after the final distribution.
3. If completion of due diligence reveals a serious problem with the proposed site or if the actual cost of the requested site exceeds the amount approved by the Board, the school district may repeat the three-step process for a new site.

H. The Board may modify or waive the requirements of this Section for good cause.

Historical Note

New Section made by exempt rulemaking at 8 A.A.R. 287, effective June 7, 2001 (Supp. 01-4). Amended by final rulemaking at 28 A.A.R. 3939 (December 30, 2022), effective February 5, 2023 (Supp. 22-4).

R7-6-504. Donations of Real Property

- A.** If a school district wishes to receive funding to enable the school district to accept a donation of real property, as authorized under A.R.S. § 41-5741, the school district shall complete and submit to the Board a form that is available on the Board's website and provide information regarding the real property to be donated. If the school district lacks some of the

TITLE 7. EDUCATION

CHAPTER 6. SCHOOL FACILITIES OVERSIGHT BOARD

required information and needs funds to verify, gather, and submit the missing information, the school board shall submit a request for the estimated amount to obtain the missing information at the same time the school board submits the available information.

- B. At an open meeting and after reviewing the information submitted under subsection (A) and hearing from members of the applicable school district, the Board shall make a decision regarding funding to accept the donation of real property. Before the meeting, the analysis and recommendation of the Board shall be available to Board members and the school district.
- C. If the Board approves awarding the school district funds necessary to obtain all required information, the Board shall notify the school district. If the school district accepts the award, the school district may proceed to gather the required information. When the required information is submitted to the Board, the Board shall follow the procedures in subsection (B).
- D. If the Board approves funding to enable a school district to accept a donation of real property, the Board shall notify the school district. The school district shall submit to the Board documentation that the governing board accepted donation of the real property and the property title was transferred to the school district. When this documentation is received, the Board shall direct the Division, under A.R.S. § 41-5741(F), to distribute to the school district 20 percent of the fair-market value of the portion of donated property usable for academic purposes.
- E. If funds were distributed to a school district under subsection (C) the Board shall make an adjustment for the actual cost at the time of the final distribution. The school district shall provide documentation to the Board of the actual expenditures from the funds provided. An expenditure exceeding \$30,000 requires advance approval by the Board.
- F. In conducting the analysis under subsection (B) to determine whether real property proposed for donation is appropriate as a school facility site or a school facility, the Board shall consider the following:
 1. Location of the real property proposed for donation;
 2. School district need for additional square footage to accommodate student capacity;
 3. School district need for additional land for a school facility;
 4. Usable acres in the proposed donation, taking into consideration the Board's approved range of acreage table;
 5. Whether the proposed site donation can accommodate a school facility that meets the minimum adequacy guidelines or whether a proposed facility donation can be developed into a school facility that meets the minimum adequacy guidelines;
 6. Estimated development costs;
 7. Age and condition of a facility donation; and
 8. Portion of the real property that can be used for academic purposes.
- G. The Board may waive or modify the requirements of this Section for good cause.

R7-6-505. Constructing Bond-funded School Facilities on**Land Funded by the Board**

- A. A school district that acquires land by sale or lease under A.R.S. § 41-5741 may construct a new school facility on purchased or leased land using Class A bonds. The Board will include the square footage of the new school facility in the gross square footage of the school district to determine whether additional square footage or building renewal distributions are needed.
- B. A school district that acquires land by sale or lease under A.R.S. § 41-5741 may construct a school facility on the purchased or leased land using Class B bonds if the school district acknowledges in writing that when the school district qualifies for a new school facility funded by the Board, the Board shall not provide funding to lease or purchase an additional site for the school facility. The Board will not include the square footage of a new school facility constructed with Class B bonds in the gross square footage of the school district to determine whether additional square footage or building renewal distributions are needed.

R7-6-506. Providing Technical Assistance in the Form of Project Management

- A. A school district that does not have the experience or resources to manage successfully construction of a new school facility may request technical support from the Board under A.R.S. § 41-5702(D)(13) in the form of project management.
- B. The Director may approve or deny a request made under subsection (A). If the Director:
 1. Denies the request, the school district may appeal the decision to the Board; and
 2. Approves the request, the school district shall agree to reimburse the Board from allocated funds the cost of any independent contractors the Board uses to provide the project-management technical assistance.
- C. The Board shall ensure the cost of project-management technical assistance, if needed, is included in the overall cost of the new school facility and derived from the total allocation made by the Board for construction of the new school facility. If the funds the school district receives under A.R.S. § 41-5741 satisfy both the base cost of the new school facility and the cost of project-management technical assistance, the Board shall not provide additional funds to the school district for project-management technical assistance.
- D. The Board may provide a school district with funds to pay for the project-management technical assistance in addition to the funds the school district receives under A.R.S. § 41-5741 if:
 1. The school district demonstrates the funds it receives under A.R.S. § 41-5741 are not sufficient to build a school facility that meets the building adequacy guidelines and pay for project management; and
 2. The school district demonstrates in writing to the Board's satisfaction that the school district does not have the experience or resources necessary to complete construction of the new school facility successfully.

PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

RULES

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2022 is cited as Supp. 22-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. This is why the Office lists only updated codified Sections on the previous page.

RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State’s website, www.azsos.gov under Services-> Legislative Filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

 6. Materials and supplies consumed by an Applicant in performing Eligible Work, except those listed under R8-2-313(C)(2);

TITLE 8. EMERGENCY AND MILITARY AFFAIRS

CHAPTER 2. DEPARTMENT OF EMERGENCY AND MILITARY AFFAIRS - DIVISION OF EMERGENCY MANAGEMENT

7. Operating costs for the Applicant's equipment, using rates established by the Applicant, the Division, or FEMA, whichever is less. Rental of commercial or privately owned equipment by the Applicant may be allowed only at documented contractual rates, prorated for the time that such equipment was in actual use performing Eligible Work (which shall not include any "stand by" time), or at the contracted flat rate, whichever is less;
 8. All procurement contracts must adhere to all local, State and Federal (if a Federal declaration applies) procurement requirements, whichever are the most restrictive, including but not limited to the Arizona Procurement Code, A.R.S. Title 41, Chapter 23 and A.A.C. Title 2, Chapter 7. "Emergency Procurement" is defined in A.A.C. R2-7-E302, and all Emergency Procurements must comply with A.A.C. R2-7-E302 and all other local, State or Federal (if a Federal declaration applies) procurement requirements, whichever are the most restrictive.
 9. Subject to all other requirements of R8-2-313(B), Eligible Work performed under a mutual aid agreement between an Applicant receiving the aid and an entity providing the aid, is eligible for Reimbursement upon application by the Applicant. The entity providing the aid shall submit documented costs to the Applicant. Only the Applicant is eligible to submit for a cost-share Reimbursement from the Governor's Emergency Fund. Costs incurred by the entity providing the aid and related to Eligible Work are to be paid to the providing entity by the Applicant in compliance with the terms of the mutual aid agreement.
 10. Prison labor, including amounts paid to prisoners in accordance with established rates, amounts paid to the required number of guards (with the required number of guards to be determined by the incarcerating entity's rules on the required guard/prisoner ratio), and the costs of transporting and feeding prisoners and guards.
 11. Snow Removal: A Political Subdivision may submit an Application for Assistance if the Application establishes the existence of all of the following requirements: If an Incident resulting from a winter storm event results in a Declaration and also pushes the Applicant's cumulative snowfall total for a winter season above the average of the last five seasons' annual snowfall, then the Applicant may be eligible for assistance, provided that responding to the Incident is beyond the Applicant's ability to recover without State assistance; see R8-2-303(C). The data source for snowfall measurement will be the National Weather Service, and the data source for historical snowfall will be the National Climatic Data Center.
- C. The Division shall not allow the following to be Reimbursed from the Governor's Emergency Fund:
1. Salaries or wages and benefits of elected or appointed officials responsible for directing governmental activities;
 2. Administrative Costs; purchase of office supplies; purchase or rental of office equipment; rental of administrative office space; depreciation; insurance premiums; storage costs; maintenance costs; lost revenue; and all overhead costs;
 3. Contributions toward the purchase of equipment by the Applicant for use in performing Eligible Work. The Division may approve total or partial Reimbursement of such contributions in advance and in writing, but only if the necessary equipment is not available (without purchase) from Federal, State, or local sources, and if the contribution does not exceed the cost of renting the item for the period of actual use in performing Eligible Work (not to include "stand by" time) at prevailing local rates. At the Division's discretion, the total or partial Reimbursement of any such contribution from the Governor's Emergency Fund will be reduced by the fair market value of the item when the item is no longer needed for the State-Level Emergency in question;
 4. Any donated resources, including but not limited to labor, equipment, and materials;
 5. Repairs and fuel for privately owned or rented equipment, except where the rental agreement provides that the Applicant will be responsible for repairs and/or fuel in addition to the rental fee;
 6. Work performed and/or materials provided:
 - a. Under agreement between a State Agency or Political Subdivision and a Federal agency, and
 - b. Paid for by Federal funds;
 7. Costs incurred under contracts based on cost plus a percentage of costs;
 8. Lodging costs associated with prison labor, including lodging costs for both the prisoners and their guards;
 9. Any cost conditioned upon the availability of State or Federal funds;
 10. Any cost incurred as a result of personnel or equipment "standing by" to perform Eligible Work, but not actually performing Eligible Work. Exception: Eligible Costs to provide life safety assistance where an immediate and direct threat to life safety is reasonably anticipated; and
 11. Any costs incurred due to deterioration, deferred maintenance, the Applicant's failure to take measures to protect a Facility from further damage, or negligence.
- D. To submit a claim for a cost that otherwise is not allowable under the terms of R8-2-313(B) but that is not barred under the terms of R8-2-313(C), an Applicant shall submit a written request to the Director for an exception, which request must be approved by the Director. The Director may, in the Director's sole discretion, grant a request for an exception if the Applicant:
1. Explains the nature of the exception requested;
 2. Justifies why it is needed; and
 3. The Applicant otherwise satisfies all other requirements of A.A.C. Title 8, Chapter 2, Article 3. The Division shall inform the Applicant in writing of the decision to grant or deny the request for an exception.
- E. Except as allowed under R8-2-313(A)(5) and R8-2-314(A) and (B), when a Facility damaged as a result of a State-Level Emergency is repaired or replaced, the Director shall allow only the costs required to return the Facility to the condition it was before the State-Level Emergency.

- C. With approval by the Division, the Applicant may submit for an Improved Project and make improvements to a Facility in addition to restoring pre-disaster function to a Facility identified to the Division within 60-days of the Kick-Off Meeting per R8-2-309(A). Pursuant to R8-2-313(E), claims against the Governor's Emergency Fund for an Improved Project are otherwise limited to the State share for the Project estimate for the repairs necessary to return the Facility to the condition it was before the State-Level Emergency, subject to R8-2-313(A)(5). All costs in excess of the State's share for the Improved Project are the sole responsibility of the Applicant.

After completion of the final inspection, the Department's chief auditor shall conduct an audit of the Applicant's claims. The Director shall use this audit to determine the eligibility of claimed costs and either the amount of the final payment due to the Applicant, or the amount of the overpayment due from the Applicant to the Division.

PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

RULES

The definition for a rule is provided under A.R.S. § 41-1001. “*Rule*’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2022 is cited as Supp. 22-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. This is why the Office lists only updated codified Sections on the previous page.

RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State’s website, www.azsos.gov under Services-> Legislative Filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

CHAPTER 7. DEPARTMENT OF HEALTH SERVICES - RADIATION CONTROL

Authority: A.R.S. §§ 30-654(B)(5) and 36-136(G)

Supp. 22-4

CHAPTER TABLE OF CONTENTS

Laws 1964, Chapter 30, established the Arizona Atomic Energy Commission.

Laws 1980, Chapter 206, abolished the Commission, and created the Arizona Radiation Regulatory Agency (ARRA) and the Radiation Regulatory Hearing Board.

Laws 2017, Ch. 313, transferred the Radiation Regulatory Agency to the Arizona Department of Health Services and renamed it the Bureau of Radiation Control. The rules in this Chapter (9 A.A.C. 7) were originally promulgated under 12 A.A.C. 1 and were recodified at 24 A.A.R. 813 with Section and agency references revised under Laws 2017, Ch. 313. The historical notes of the rules as codified in 12 A.A.C. 1 remain in the Chapter; therefore 12 A.A.C. 1 as released in Supp. 18-1 should be archived with this Chapter (Supp. 18-1).

R9-7-105. Quality Factors for Converting Absorbed Dose to Dose Equivalent

- A. As used in these rules, the quality factors for converting absorbed dose to dose equivalent are shown in Table I.

TABLE I. QUALITY FACTORS AND ABSORBED DOSE EQUIVALENCIES

TYPE OF RADIATION	Quality Factor (Q)	Absorbed Dose Equal to a Unit Dose Equivalent ^a
X, gamma, or beta radiation and high-speed electrons		1
Alpha particles, multiple-charged particles, fission fragments, and heavy particles of unknown charge	20	0.05
Neutrons of unknown energy	10	0.1
High-energy protons	10	0.1

^a The absorbed dose in gray is equal to 1 Sv or the absorbed dose in rad is equal to 1 rem.

- B. If it is more convenient to measure the neutron fluence rate than to determine the neutron dose equivalent rate in sievert per hour or rem per hour, 0.01 Sv (1 rem) of neutron radiation of unknown energies may, for purposes of these rules, be assumed to result from a total fluence of 25 million neutrons per square centimeter incident upon the body. If sufficient information exists to estimate the approximate energy distribution of the neutrons, the licensee or registrant may use the fluence rate per unit dose equivalent or the appropriate Q value from Table II to convert a measured tissue dose in gray or rad to dose equivalent in sievert or rem.

Such information must include a description of the source or device, a description of radiation safety features, the intended use and associated operating experience, and the results of a recent leak test.
2. For sealed sources and devices allowed to be distributed without registration of safety information, the applicant may supply only the manufacturer, model number, and radionuclide and quantity.
3. If it is not feasible to identify each sealed source and device individually, the applicant may propose constraints on the number and type of sealed sources and devices to be used and the conditions under which they will be used, in lieu of identifying each sealed source and device.
- H. A certificate holder or licensee who no longer manufactures or initially transfers any of the sealed source(s) or device(s) covered by a particular certificate issued with the Department, with the NRC, or with an Agreement State shall request inactivation of the registration or license with the Department, with the NRC, or with an Agreement State program that the device is currently registered by in accordance with 10 CFR 32.211 revised January 1, 2015, incorporated by reference, and available under R9-7-101.  - 3. Protect restricted data; or
 - 4. Require such reports and the keeping of such records, and to provide for such inspections of activities under the license as may be necessary or appropriate to effectuate the purposes of the Act and rules thereunder.
- F.** Licensees required to submit emergency plans in accordance with R9-7-322 shall follow the emergency plan approved by the Department. The licensee may change the approved plan without Department approval only if the changes do not reduce the commitment of the plan. The licensee shall furnish the change to the Department and to affected offsite response organizations within six months after the change is made. Proposed changes that reduce, or potentially reduce, the commitment of the approved emergency plan may not be implemented without prior application to and prior approval by the Department.
- G.** Each person licensed under this Section and each general licensee that is required to register under R9-7-306(A)(4)(o) shall notify the Department in writing if the licensee decides to permanently discontinue any or all activities involving materials authorized under the license. R9-7-319. Modification, Revocation, or Termination of a License

- A. The terms and conditions of all licenses are subject to amendment, revision, or modification, and a license may be sus-

pending or revoked by reason of amendments to the Department's statutes or rules and orders issued by the Department.

- B. The Department may revoke, suspend, or modify any license, in whole or in part, for any material false statement in the application; any omission or misstatement of fact required by statute, rule, or order, or because of conditions revealed by the application or any report, record, or inspection or other means that would cause the Department to refuse to grant a license; or any violation of license terms and conditions, or the Department's statutes, rules, or orders.
- C. Except in cases of willfulness or those in which the public health, interest, or safety requires otherwise, the Department shall not modify, suspend, or revoke a license unless, before the institution of proceedings, facts or conduct that may warrant action have been called to the attention of the licensee in writing and the licensee has been accorded an opportunity to demonstrate or achieve compliance.
- D. The Department may terminate a specific license upon a written request by the licensee that provides evidence the licensee has met the termination criteria in R9-7-451 and R9-7-452, and the decommissioning requirements in R9-7-323.
- E. Specific licenses, including expired licenses, continue in effect until terminated by written notice to the licensee, when the Department determines that the licensee has:
 1. Properly disposed of all radioactive material;
 2. Made a reasonable effort to eliminate residual radioactive contamination, if present;
 3. Performed an accurate radiation survey that demonstrates the premises are suitable for release in accordance with the criteria for decommissioning in R9-7-323;
 4. Submitted other information that is sufficient to demonstrate that the premises are suitable for release in accordance with the criteria for decommissioning in R9-7-323.
 5. Provided records to the Department that detail the disposal of all radioactive material in unsealed form with a half-life greater than 120 days, and copies of the records required by 10 CFR 30.35(g), January 1, 2004, which is incorporated by reference and on file with the Department. This incorporation by reference contains no future editions or amendments.

R9-7-320. Reciprocal Recognition of Licenses

- A. This subsection grants a general license to perform specific licensed activities in Arizona for a period not to exceed 180 days in any calendar year to any person who holds a specific license from an Agreement State, where the licensee maintains an office for directing the licensed activity and retaining radiation safety records, is granted a general license to conduct the same activity involving the use of radioactive material from the U.S. Nuclear Regulatory Commission, Licensing State, or any Agreement State, provided that:
 1. The license does not limit the activity to specific installations or locations;
 2. Following the first notification, application, and payment of fees, the licensee shall notify the Department three days prior to entering the state and prior to each non-consecutive visit while reciprocity remains in effect.
 3. The out-of-state licensee complies with all applicable statutes, now or hereafter in effect, rules, and orders of the Department and with all the terms and conditions of the license, except those terms and conditions inconsis-

tent with applicable statutes, rules and orders of the Department;

4. The out-of-state licensee supplies any other information the Department requests; and
 5. The out-of-state licensee does not transfer or dispose of radioactive material possessed or used under the general license provided in this Section except by transfer to a person:
 - a. Specifically licensed by the Department or by the U.S. Nuclear Regulatory Commission to receive the radioactive material; or
 - b. Exempt under R9-7-303(A).
- B.** Notwithstanding the provisions of subsection (A)(1), this subsection grants a general license to manufacture, install, transfer, demonstrate, or service a device described in R9-7-306(A)(1) to any person who holds a specific license issued by the U.S. Nuclear Regulatory Commission, Licensing State, or an Agreement State authorizing the same activities within areas subject to the jurisdiction of the licensing body, provided that:
1. The person files a report with the Department within 30 days after the end of each calendar quarter in which any device is transferred to or installed in this State. Each report shall identify the general licensee to whom the device is transferred by name and address, the type of device transferred, and the quantity and type of radioactive material contained in the device;
 2. The device has been manufactured, labeled, installed, and serviced according to the applicable provisions of the specific license issued to the person by the U.S. Nuclear Regulatory Commission or an Agreement State;
 3. The person entering the state ensures that any labels required to be affixed to the device under rules of the authority which licensed manufacture of the device bear the following statement: "Removal of this label is prohibited"; and
 4. The holder of the specific license furnishes a copy of the general license contained in R9-7-306(A)(1), or equivalent rules of the agency having jurisdiction over the manufacture or distribution of the device, to each general licensee to whom the licensee transfers the device or on whose premises the device is installed.
- C.** The Department may withdraw, limit, or qualify the acceptance of any specific license or equivalent licensing document issued by another agency, or any product distributed under a license, upon determining that an action is necessary to prevent undue hazard to public health and safety, or property.
- D.** Before radioactive material can be used at a temporary job site within the state at any federal facility, a specific licensee shall determine the jurisdictional status of the job site. If the jurisdictional status is unknown, the specific licensee shall contact the controlling federal agency to determine whether the job site is under exclusive federal jurisdiction.
- E.** Before using radioactive material at a job site under exclusive federal jurisdiction, a specific licensee shall:
1. Obtain authorization from the NRC; and
 2. Use the radioactive material in accordance with applicable NRC regulations and orders, and be able to demonstrate to the Department that the correct license fee was paid to the NRC.
- F.** Before radioactive material can be used at a temporary job site in another state, a specific licensee shall obtain authorization from the state, if it is an Agreement State, or from the NRC for any non-Agreement State, either by filing for reciprocity or applying for a specific license.

R9-7-322. The Need for an Emergency Plan for Response to a Release of Radioactive Material

- A.** For purposes of this Section, "Emergency Plan" means a procedure that will be followed when an accident occurs involving licensed radioactive materials for which an offsite response may be needed from organizations, such as police, fire, or medical organizations.
- B.** Each application to possess radioactive materials in unsealed form, on foils or plated sources, or sealed in glass in excess of the quantities in Exhibit D, "Radioactive Material Quantities Requiring Consideration for an Emergency Plan" shall contain either:
1. An evaluation showing that the maximum dose to a person off-site due to a release of radioactive materials would not exceed 1 rem effective dose equivalent or 5 rems to the thyroid; or
 2. An emergency plan for responding to a release of radioactive material.
- C.** One or more of the following factors may be used to support an evaluation submitted under subsection (B)(1):
1. The radioactive material is physically separated so that only a portion could be involved in an accident.
 2. All or part of the radioactive material is not subject to release during an accident because of the way it is stored or packaged;
 3. The release fraction in the respirable size range would be lower than the release fraction shown in Exhibit D due to the chemical or physical form of the material;
 4. The solubility of the radioactive material would reduce the dose received;
 5. Facility design or engineered safety features in the facility would cause the release fraction to be lower than shown in Exhibit D;
 6. Operating restrictions or procedures would prevent a release fraction as large as that shown in Exhibit D; or
 7. Other factors appropriate for the specific facility.
- D.** An emergency plan for responding to a release of radioactive material submitted under subsection (B)(2) shall include the following information:
1. A brief description of the licensee's facility and areas near the site that could expose a member of the public to a dose equal to or greater than the levels expressed in subsection (B)(1).
 2. An identification of each type of radioactive materials accident for which protective actions may be needed.
 3. A classification system for classifying accidents as alerts or site area emergencies.
 4. Identification of the means of detecting each type of accident in a timely manner.
 5. A brief description of the means and equipment for mitigating the consequences of each type of accident, including those provided to protect workers onsite, and a description of the program for maintaining the equipment.
 6. A brief description of the methods and equipment to assess releases of radioactive materials.

TITLE 9. HEALTH SERVICES

CHAPTER 7. DEPARTMENT OF HEALTH SERVICES - RADIATION CONTROL

7. A brief description of the responsibilities of licensee personnel responsible for promptly notifying offsite response organizations and the Department; also responsibilities for developing, maintaining, and updating the plan.
 8. A commitment to and a brief description of the means to promptly notify offsite response organizations and request off-site assistance, including medical assistance for the treatment of contaminated and injured onsite workers when appropriate. A control point shall be established. The notification and coordination shall be planned so that unavailability of some personnel, parts of the facility, and some equipment will not prevent the notification and coordination. The licensee shall also commit to notify the Department immediately after notification of the appropriate off-site response organizations and not later than one hour after the licensee declares an emergency.
 9. A brief description of the types of information on facility status, radioactive releases, and recommended protective actions, if necessary, to be given to off-site response organizations and to the Department.
 10. A brief description of the frequency, performance objectives, and plans for the training that the licensee will provide workers on how to respond to an emergency including any special instructions and orientation tours the licensee would offer to fire, police, medical, and other emergency personnel. The training shall familiarize personnel with site-specific emergency procedures. Also, the training shall thoroughly prepare site personnel for their responsibilities in the event of accident scenarios postulated as most probable for the specific site, including the use of team training for such scenarios.
 11. A brief description of the means of restoring the facility to a safe condition after an accident.
 12. Provisions for conducting quarterly communications checks with off-site response organizations and biennial onsite exercises to test response to simulated emergencies. Quarterly communications checks with off-site response organizations shall include the verifying and updating of all necessary telephone numbers. The licensee shall invite off-site response organizations to participate in the biennial exercises. Their participation is not required. Exercises shall use accident scenarios postulated as most probable for the specific site and the scenarios shall not be known to most exercise participants. The licensee shall critique each exercise, using individuals without direct implementation responsibility for the plan. Critiques of exercises shall evaluate the appropriateness of the plan, emergency procedures, facilities, equipment, training of personnel, and overall effectiveness of the response. Deficiencies found by the critiques shall be corrected.
 13. A certification that the applicant has met its responsibilities in A.R.S. §§ 26-341 through 26-353 (Emergency Planning and Community Right-to-Know Act of 1986), if applicable to the applicant's activities at the proposed place of use of the radioactive material.
- E. The licensee shall allow 60 days for the off-site response organizations, expected to respond in case of an accident, to comment on the licensee's emergency plan before submitting it to the Department. The licensee shall provide any comments received within the 60 days to the Department with the emergency plan.

R9-7-323. Financial Assurance and Recordkeeping for Decommissioning

- A. For purposes of terminating specific licensed activities:
1. "Decommissioning" means to remove a radioactive material use facility safely from service and to reduce residual radioactivity to a level that permits release of the property for unrestricted use and termination of the radioactive material use license.
 2. "Byproduct material" as used in 10 CFR 30, means "radioactive material" which is defined in A.R.S. § 30-651.
 3. "Facility" means the entire site of radioactive material use, or any separate building or outdoor area where it is used.
 4. "Appendix B to Part 30" as used in 10 CFR 30, means Appendix E in 9 A.A.C. 7, Article 4.
 5. "Financial security" means having a net worth of not less than \$10,000.
- B. When applying, each non-government applicant for a specific license that authorizes the possession and use of radioactive material, and each non-government holder of a license to possess and use radioactive material issued before the effective date of this Section, shall submit to the Department a decommissioning funding plan or certification of financial security, as required in A.R.S. § 30-672(H). A licensee required to meet the requirements in subsection (C) is exempt from the requirements in this subsection.
- C. When applying, each applicant for a specific license that authorizes the possession and use of radioactive material, and each holder of a license to possess and use radioactive material issued before the effective date of this Section, shall submit to the Department a decommissioning funding plan or certification of financial assurance that meets the requirements in 10 CFR 30.35, 40.36, and 70.25, revised January 1, 2015, incorporated by reference, and available under R9-7-101. This incorporated material contains no future editions or amendments. Each decommissioning funding plan shall be submitted to the Department for review and approval and shall contain a detailed cost estimate for decommissioning, in an amount reflecting:
1. The cost of an independent contractor to perform all decommissioning activities;
 2. The cost of meeting the R9-7-452(B) criteria for unrestricted use, provided that, if the applicant or licensee can demonstrate its ability to meet the provisions of R9-7-452(C), the cost estimate may be based on meeting the R9-7-452(C) criteria;
 3. The volume of onsite subsurface material containing residual radioactivity that will require remediation to meet the criteria for license termination;
 4. The ability to meet the provisions of this Section, for which the cost estimate may be based on meeting the criteria specified in this Section; and
 5. An adequate contingency factor, including:
 - a. Identification of and justification for using the key assumptions contained in the DCE;
 - b. A description of the method of assuring funds for decommissioning including means for adjusting cost estimates and associated funding levels periodically over the life of the facility;
 - c. A certification by the licensee that financial assurance for decommissioning has been provided in the

- amount of the cost estimate for decommissioning;
and
- d. An original signed copy of the financial instrument obtained to satisfy the requirements of subsection (F) unless a previously submitted and accepted financial instrument continues to cover the cost estimate for decommissioning.
- D.** Each licensee required to provide financial assurance for decommissioning a radioactive material facility under this Section shall maintain records of information important to the safe and effective decommissioning of the facility in an identified location until the license is terminated by the Department. The licensee shall maintain the following records during the decommissioning process:
1. Records of spills or other unusual occurrences involving the spread of contamination in and around the facility, equipment, and site. These records may be limited to instances when contamination remains after any cleanup procedures or when there is reasonable likelihood that contaminants may have spread to inaccessible areas as in the case of possible seepage into porous materials such as concrete. The licensee shall keep records identifying the involved radionuclides and associated quantities, forms, and concentrations.
 2. As-built drawings showing modifications of structures and equipment in restricted areas where radioactive materials are used and stored, and locations of possible inaccessible contamination. If drawings are not available, the licensee shall provide appropriate records describing each location of possible contamination.
 3. Records of the cost estimate performed for the decommissioning funding plan or of the amount certified for decommissioning, and records of the funding method used for assuring funds if either a funding plan or certification is used.
- E.** Decommissioning procedures:
1. Upon expiration or termination of principal activities a licensee shall notify the Department in writing whether the licensee is discontinuing licensed activities. The licensee shall begin decommissioning its facility within 60 days after the Department receives notice of the decision to permanently terminate principal activities, or within 12 months after receipt of notice, submit to the Department a decommissioning plan, as prescribed in 10 CFR 30.36(g)(1), 40.42(g)(1), and 70.38(g)(1), revised January 1, 2015, incorporated by reference, and available under R9-7-101. This incorporated material contains no future editions or amendments. The licensee shall begin decommissioning upon approval of the plan if the license has expired or no licensed activities have been conducted at the licensee's facility for a period of 24 months.
 2. In addition to the notification requirements in subsection (E)(1), the licensee shall maintain in effect all decommissioning financial assurances required by this Section. The financial assurances shall be increased or may be decreased as appropriate to cover the cost estimate established for decommissioning in subsection (E)(1). The licensee may reduce the amount of the financial assurance following approval of the decommissioning plan, provided the radiological hazard is decreasing and the licensee has the approval of the Department.
 3. The Department shall extend the time periods established in subsection (E)(1) if a new time period is in the best interest of public health and safety.
- a. The licensee shall submit a request for an extension no later than 30 days after the Department receives the notice required in subsection (E)(1).
 - b. If a licensee has requested an extension, the licensee is not required to commence decommissioning activities required in subsection (E)(1), until the Department has made a determination on the request submitted to the Department under subsection (E)(3)(a).
4. Except as provided in subsection (E)(5), the licensee shall complete decommissioning of a facility as soon as practicable but no later than 24 months following the initiation of decommissioning; and except as provided in subsection (E)(5), when decommissioning involves the entire facility, the licensee shall request license termination as soon as practicable but no later than 24 months following initiation of decommissioning.
 5. The Department shall approve a request for an alternate schedule for completion of decommissioning and license termination if the Department determines that the alternative is warranted by consideration of the conditions specified in 10 CFR 30.36(i), 40.42(i), and 70.38(i), revised January 1, 2015, incorporated by reference, and available under R9-7-101. This incorporated material contains no future editions or amendments.
 6. As a final step in decommissioning, the licensee shall meet the requirements specified in 10 CFR 30.36(j), 40.42(j), and 70.38(j), revised January 1, 2015, incorporated by reference, and available under R9-7-101. This incorporated material contains no future editions or amendments.
- F.** Each person licensed under this Article shall keep records of information important to the decommissioning of a facility in an identified location until the site is released for unrestricted use. Before licensed activities are transferred or assigned in accordance with R9-7-318, licensees shall transfer all records described in subsections (F)(1) through (F)(4) to the new licensee. In this case, the new licensee will be responsible for maintaining these records until the license is terminated. If records important to the decommissioning of a facility are kept for other purposes, reference to these records and their locations may be used. Information the Department considers important to decommissioning consists of:
1. Records of spills or other unusual occurrences involving the spread of contamination in and around the facility, equipment, or site. These records may be limited to instances when contamination remains after any cleanup procedures or when there is reasonable likelihood that contaminants may have spread to inaccessible areas as in the case of possible seepage into porous materials such as concrete. These records must include any known information on identification of involved nuclides, quantities, forms, and concentrations.
 2. As-built drawings and modifications of structures and equipment in restricted areas where radioactive materials are used and/or stored, and of locations of possible inaccessible contamination such as buried pipes which may be subject to contamination. If required drawings are referenced, each relevant document need not be indexed individually. If drawings are not available, the licensee shall substitute appropriate records of available information concerning these areas and locations.
 3. Except for areas containing depleted uranium used only for shielding or as penetrators in unused munitions, a list contained in a single document and updated every 2 years, of the following:

TITLE 9. HEALTH SERVICES

CHAPTER 7. DEPARTMENT OF HEALTH SERVICES - RADIATION CONTROL

- a. All areas designated and formerly designated as restricted areas as defined under R9-7-102;
 - b. All areas outside of restricted areas that require documentation under subsection (F)(1);
 - c. All areas outside of restricted areas where current and previous wastes have been buried as documented under R9-7-441; and
 - d. All areas outside of restricted areas that contain material such that, if the license expired, the licensee would be required to either decontaminate the area to meet the criteria for decommissioning in R9-7-451 or R9-7-452; or apply for approval for disposal under R9-7-435.
4. Records of the cost estimate performed for the decommissioning funding plan or of the amount certified for decommissioning, and records of the funding method used for assuring funds if either a funding plan or certification is used.
- G.** In providing financial assurance under this Section, each licensee shall use the financial assurance funds only for decommissioning activities and each licensee shall monitor the balance of funds held to account for market variations. The licensee shall replenish the funds, and report such actions to the Department, as follows:
1. If, at the end of a calendar quarter, the fund balance is below the amount necessary to cover the cost of decommissioning, but is not below 75 percent of the cost, the licensee shall increase the balance to cover the cost, and shall do so within 30 days after the end of the calendar quarter.
 2. If, at any time, the fund balance falls below 75 percent of the amount necessary to cover the cost of decommissioning, the licensee shall increase the balance to cover the cost, and shall do so within 30 days of the occurrence.
 3. Within 30 days of taking the actions required by subsection (G)(1) or (G)(2), the licensee shall provide a written report of such actions to the Director of the Department, and state the new balance of the fund.
- H.** The financial instrument must include the licensee's name, license number, and docket number, and the name, address, and other contact information of the issuer, and, if a trust is used, the trustee. When any of the foregoing information changes, the licensee must, within 30 days, submit financial instruments to the Department reflecting such changes. The financial instrument submitted must be a signed original or signed original duplicate, except where a copy of the signed original is specifically permitted. Financial assurance for decommissioning must be provided by one or more of the following methods:
1. Prepayment. Prepayment is the deposit before the start of operation into an account segregated from licensee assets and outside the licensee's administrative control of cash or liquid assets such that the amount of funds would be sufficient to pay decommissioning costs. Prepayment must be made into a trust account, and the trustee and the trust must be acceptable to the Department.
 2. A surety method, insurance, or other guarantee method. These methods guarantee that decommissioning costs will be paid. A surety method may be in the form of a surety bond, or letter of credit. A parent company guarantee of funds for decommissioning costs based on a financial test may be used if the guarantee and test are approved by the Department. For commercial corporations that issue bonds, a guarantee of funds by the applicant or licensee for decommissioning costs based on a financial test may be used if the guarantee and test are approved by the Department. For commercial companies that do not issue bonds, a guarantee of funds by the applicant or licensee for decommissioning costs may be used if the guarantee and test are approved by the Department. For nonprofit entities, such as colleges, universities, and nonprofit hospitals, a guarantee of funds by the applicant or licensee may be used if the guarantee and test are approved by the Department. Except for an external sinking fund, a parent company guarantee or a guarantee by the applicant or licensee may not be used in combination with any other financial methods used to satisfy the requirements of this Section. A guarantee by the applicant or licensee may not be used in any situation where the applicant or licensee has a parent company holding majority control of the voting stock of the company. Any surety method or insurance used to provide financial assurance for decommissioning must contain the following conditions:
 - a. The surety method or insurance must be open-ended or, if written for a specified term, such as five years, must be renewed automatically unless 90 days or more prior to the renewal date, the issuer notifies the Department, the beneficiary, and the licensee of its intention not to renew. The surety method or insurance must also provide that the full face-value amount be paid to the beneficiary automatically prior to the expiration without proof of forfeiture if the licensee fails to provide a replacement acceptable to the Department within 30 days after receipt of notification of cancellation.
 - b. The surety method or insurance must be payable to a trust established for decommissioning costs. The trustee and trust must be acceptable to the Department. An acceptable trustee includes an appropriate State or Federal government agency or an entity which has the authority to act as a trustee and whose trust operations are regulated and examined by a Federal or State agency.
 - c. The surety method or insurance must remain in effect until the Department has terminated the license.
 3. An external sinking fund in which deposits are made at least annually, coupled with a surety method, insurance, or other guarantee method, the value of which may reduce by the amount being accumulated in the sinking fund. An external sinking fund is a fund established and maintained by setting aside funds periodically in an account segregated from licensee assets and outside the licensee's administrative control in which the total amount of funds would be sufficient to pay decommissioning costs at the time termination of operation is expected. An external sinking fund must be in the form of a trust. If the other guarantee method is used, no surety or insurance may be combined with the external sinking fund. The surety, insurance, or other guarantee provisions must be as stated in subsection (H)(2).
 4. In the case of Federal, State, or local government licensees, a statement of intent containing a cost estimate for decommissioning, and indicating that funds for decommissioning will be obtained when necessary.
 5. When a governmental entity is assuming custody and ownership of a site, an arrangement that is deemed acceptable by such governmental entity.

R9-7-325. Timeliness in Decommissioning Facilities

- A. "Principal activities," as used in this Section, means activities authorized by the license that are essential to achieving the purposes for which the license was issued or amended. Storage, during which licensed material is not accessed for use, or disposal and other activities incidental to decontamination or decommissioning are not principal activities.
- B. Each specific license revoked by the Department expires at midnight on the date of the Department's final determination to revoke the license, the expiration date stated in the determination, or as otherwise provided by Department order.

- C. Each specific license continues in effect, beyond the expiration date if necessary, with respect to possession of radioactive material, until the Department notifies the licensee in writing that the license is terminated. During this time, the licensee shall:

1. Limit actions involving radioactive material to those related to decommissioning;
2. Continue to control entry to restricted areas until they are suitable for release in accordance with NRC requirements; and
3. Pay the applicable annual fee for the license category listed in R9-7-1306.

- D. Within 60 days of the occurrence of any of the following, each licensee shall notify the Department in writing of the occurrence and either begin decommissioning its site, or any separate building or outdoor area that contains residual radioactivity, so that the building or outdoor area is suitable for release in accordance with Department requirements, or submit within 12 months of notification a decommissioning plan, if required by R9-7-323, and begin decommissioning upon approval of that plan if:
