PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

RULES

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2022 is cited as Supp. 22-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. This is why the Office lists only updated codified Sections on the previous page.

RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State’s website, www.azsos.gov under Services-> Legislative Filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

An opposing party has 15 days from the date of service to serve opposing affidavits. The Division may extend the period to respond up to 20 days for good cause, or by written stipulation of the parties. If the Division permits reply affidavits, the replying party has five business days in which to serve them.
- I. If the Division makes specific findings that the immediate effectiveness of a decision is necessary for the immediate preservation of the public peace, health, and safety and that a rehearing or review of the decision is impracticable, unnecessary, or contrary to the public interest, the Division may issue the decision as a final decision without an opportunity for a rehearing or review. If a decision is issued as a final decision without an opportunity for rehearing or review, any application for judicial review of the decision shall be made within the time limits permitted for applications for judicial review of the Division's final decision.

R3-7-749. Definitions Applicable to Arizona CBG and AZRBOB

The following definitions apply only to R3-7-750 through R3-7-762:

1. "Designated alternative limit" means a fuel property specification, expressed in the nearest part per million by weight for sulfur content, nearest 10th percent by volume for aromatic hydrocarbon content, nearest 10th percent by volume for olefin content, and nearest degree Fahrenheit for T90 and T50, that is assigned by a registered supplier to a final blend of Type 2 Arizona CBG or AZRBOB for purposes of compliance with the Predictive Model Procedures, which are incorporated by reference in R3-7-702(10).
2. "Importer" means any person that assumes title or ownership of Arizona CBG or AZRBOB produced by an unregistered supplier.
3. "Oxygenate-blending facility" means any location (including, but not limited to, a truck) where an oxygenate or ethanol flex fuel is added to Arizona CBG or AZRBOB, and nothing further is added to the resulting Arizona CBG except for the addition of a deposit-control or similar additive registered under 40 CFR 79. An oxygenate-blending facility includes a facility that recertifies Arizona CBG under R3-7-755(F).
4. "Performance standard" means the VOC and NO_x emission reduction percentages in R3-7-751(A)(8) and R3-7-751(D)(1).
5. "PM alternative gasoline formulation" means a final blend of Arizona CBG or AZRBOB that is subject to a set of PM alternative specifications.
6. "PM alternative specifications" means the specifications for the following fuel properties, as determined using a testing methodology in R3-7-759:
 - a. Maximum vapor pressure, expressed in the nearest 100th of a pound per square inch;
 - b. Maximum sulfur content, expressed in the nearest part per million by weight;
 - c. Maximum olefin content, expressed in the nearest 10th of a percent by volume;
 - d. Minimum and maximum oxygen content, expressed in the nearest 10th of a percent by weight;
 - e. Maximum T50, expressed in the nearest degree Fahrenheit;
 - f. Maximum T90, expressed in the nearest degree Fahrenheit; and
 - g. Maximum aromatic hydrocarbon content, expressed in the nearest 10th of a percent by volume.
7. "PM flat limit" means a PM alternative specification that is subject to the PM flat limit compliance option.
8. "PM flat limit compliance option" means, with reference to a specific fuel property, the compliance option that each gallon of gasoline must meet for that specified fuel property as contained in the PM alternative specifications.
9. "Produce" means:
 - a. Except as otherwise provided, to convert a liquid compound that is not Arizona CBG or AZRBOB into Arizona CBG or AZRBOB.
 - b. If a person blends a blendstock that is not Arizona CBG or AZRBOB with Arizona CBG or AZRBOB acquired from another person, and the resulting blend is Arizona CBG or AZRBOB, the person conducting the blending produces only the portion of the blend not previously Arizona CBG or AZRBOB. If a person blends Arizona CBG or AZRBOB with other Arizona CBG or AZRBOB in accordance with this Article, without the addition of a blendstock that

TITLE 3. AGRICULTURE

CHAPTER 7. DEPARTMENT OF AGRICULTURE - WEIGHTS AND MEASURES SERVICES DIVISION

- is not Arizona CBG or AZRBOB, that person is not a producer of Arizona CBG or AZRBOB.
- c. If a person supplies Arizona CBG or AZRBOB to a refiner that agrees in writing to further process the Arizona CBG or AZRBOB at the refiner's refinery and be treated as the producer of Arizona CBG or AZRBOB, the refiner is the producer of the Arizona CBG or AZRBOB.
 - d. If an oxygenate blender blends oxygenates or ethanol flex fuel into Arizona CBG or AZRBOB, and nothing further is added to the AZRBOB or the resulting Arizona CBG except for the addition of a deposit-control or similar additive, the producer or importer of the AZRBOB, rather than the oxygenate blender, is considered the producer or importer of the resulting Arizona CBG.
10. "Registered supplier" means a producer or importer that supplies Arizona CBG or AZRBOB and is registered with the associate director under R3-7-750.
 11. "Third-party terminal" means an owner or operator of a gasoline storage tank facility that accepts custody, but not ownership, of Arizona CBG or AZRBOB from a registered supplier, oxygenate blender, pipeline, or other third-party terminal and relinquishes custody of the Arizona CBG or AZRBOB to a transporter or other terminal.

If Arizona CBG or AZRBOB produced or imported by a registered supplier is not tested and documented as required by this Section, the associate director shall deem the Arizona CBG or AZRBOB to have a vapor pressure, sulfur, aromatic hydrocarbon, olefin, oxygen, T50, and T90 that exceeds the standards specified in R3-7-751 or the comparable PM limits, unless the registered supplier demonstrates to the associate director that the Arizona CBG or AZRBOB meets all applicable fuel property limits and performance standards.
- 3.** A registered supplier shall provide to the associate director any records maintained by the registered supplier under this Section within 15 days of a written request from the associate director. If a registered supplier fails to provide records for a blend or shipment of Arizona CBG or AZRBOB, the associate director shall deem the final blend or shipment of Arizona CBG or AZRBOB in violation of R3-7-751, unless the registered supplier demonstrates to the associate director that the Arizona CBG or AZRBOB meets all applicable fuel property limits and performance standards.
- D.** Notification requirement. A registered supplier shall notify the associate director by email before transporting Arizona CBG or AZRBOB into the CBG-covered area by a means other than a pipeline.
- E.** Quality Assurance and Quality Control ("QA/QC") Program. A registered supplier shall develop a QA/QC program to demonstrate the accuracy and effectiveness of the registered supplier's laboratory testing of Arizona CBG or AZRBOB. The registered supplier shall submit the QA/QC program to the associate director for approval at least three months before the registered supplier transports Arizona CBG or AZRBOB. The associate director shall approve a QA/QC program only if the associate director determines that the QA/QC program ensures that the registered supplier's laboratory testing procedures comply with R3-7-759 and the data generated by the registered supplier's laboratory are complete, accurate, and reproducible. If the registered supplier makes significant changes to the QA/QC program, the registered supplier shall resubmit the QA/QC program to the associate director for review and approval. Within 30 days of receiving the changed QA/QC program, the associate director shall determine whether the changed QA/QC program meets the original quality objectives. The associate director shall approve the changed QA/QC program if it meets the quality objectives. Instead of developing a QA/QC program, a registered supplier may comply with the independent testing requirements of subsection (F).
- F.** Independent testing.
1. A registered supplier of Arizona CBG or AZRBOB that does not develop a QA/QC program shall conduct a program of independent sample collection and analysis for the Arizona CBG or AZRBOB produced or imported, that complies with one of the following:
 - a. Option 1. A registered supplier shall, for each batch of Arizona CBG or AZRBOB produced or imported, have an independent laboratory collect and analyze a representative sample from the batch using the methodology specified in R3-7-759 for compliance with each fuel property and performance standard for which the Arizona CBG or AZRBOB is certified.
 - b. Option 2. A registered supplier shall have an independent testing program for all Arizona CBG or AZRBOB that the registered supplier produces or imports that consists of the following:

TITLE 3. AGRICULTURE

CHAPTER 7. DEPARTMENT OF AGRICULTURE - WEIGHTS AND MEASURES SERVICES DIVISION

- i. An independent laboratory shall collect a representative sample from each batch;
 - ii. The associate director or designee shall identify up to 10% of the samples collected under subsection (F)(1)(b)(i) for analysis; and
 - iii. The independent laboratory shall, for each sample identified by the associate director or designee, analyze the sample using the methodology specified in R3-7-759 for compliance with each fuel property and performance standard for which the Arizona CBG or AZRBOB is certified.
2. The associate director or designee may request in writing a duplicate of the batch sample collected under subsection (F)(1)(a) or (b) for analysis by a laboratory selected by the associate director or designee. The registered supplier shall submit a duplicate of the sample to the associate director within 24 hours of the written request.
3. Designation of independent laboratory.
 - a. A registered supplier that does not develop a QA/QC program shall designate one independent laboratory for each production or import facility at which the registered supplier produces or imports Arizona CBG or AZRBOB. The independent laboratory shall collect samples and perform analyses according to subsection (F).
 - b. A registered supplier shall identify the designated independent laboratory to the associate director under the registration requirements of R3-7-750.
 - c. A laboratory is considered independent if:
 - i. The laboratory is not operated by a registered supplier or the registered supplier's subsidiary or employee,
 - ii. The laboratory does not have any interest in any registered supplier, and
 - iii. The registered supplier does not have any interest in the designated laboratory.
 - d. Notwithstanding the restrictions in subsection (F)(3)(c), a laboratory owned or operated by a pipeline shall be considered independent if the pipeline is owned or operated by four or more registered suppliers.
 - e. A registered supplier shall not use a laboratory that is debarred, suspended, or proposed for debarment according to the Government-wide Debarment and Suspension regulations, 40 CFR 32, or the Debarment, Suspension and Ineligibility provisions of the Federal Acquisition Regulations, 48 CFR 9.4.
4. A registered supplier shall ensure that its designated independent laboratory:
 - a. Records the following at the time the designated independent laboratory collects a representative sample from a batch of Arizona CBG or AZRBOB:
 - i. The producer's or importer's assigned batch number for the batch sampled;
 - ii. The volume of the batch;
 - iii. The identification number of the gasoline storage tank in which the batch is stored at the time the sample is collected;
 - iv. The date and time the batch became Arizona CBG or AZRBOB;
 - v. The date and time the sample is collected;
 - vi. The grade of the batch (for example, unleaded premium, unleaded mid-grade, or unleaded); and
 - vii. For Arizona CBG or AZRBOB produced by computer-controlled in-line blending, the date and time the blending process began and the date and time the blending process ended, unless exempt under subsection (G);
 - b. Retains each sample collected under this subsection for at least 45 days, unless this time is extended by the associate director for up to 180 days;
 - c. Submits to the associate director a quarterly report on or before the 15th day of January, April, July, and October of each year that includes, for each sample of Arizona CBG or AZRBOB analyzed under subsection (F):
 - i. The results of the independent laboratory's analyses for each fuel property, and
 - ii. The information specified in subsection (F)(4)(a) for each sample; and
 - d. Supplies to the associate director, upon request, a duplicate of the sample.
- G. Exemptions to QA/QC and independent laboratory testing requirements. A registered supplier that produces or imports Arizona CBG or AZRBOB using computer-controlled in-line blending equipment and operates under an exemption from EPA under 40 CFR § 1090.1315, is exempt from the requirements of subsections (E) and (F), if reports of the results of the independent audit program of the registered supplier's computer-controlled in-line blending operation, which are submitted to EPA under 40 CFR § 1090.1315, are submitted to the associate director by March 1 of each year.
- H. Use of laboratory analysis for certification of Arizona CBG and AZRBOB.
 1. If both a registered supplier and an independent laboratory collect a sample from the same batch of Arizona CBG or AZRBOB and perform a laboratory analysis under subsection (F) to determine compliance of the sample with a fuel property, the registered supplier and independent laboratory shall use the same test methodology. The results of the analysis conducted by the registered supplier shall be used for certification of the Arizona CBG or AZRBOB under subsection (B), unless the absolute value of the difference between the two results is larger than one of the following:
 - a. Sulfur content: 25 ppm by weight,
 - b. Aromatics: 2.7% by volume,
 - c. Olefins: 2.5% by volume,
 - d. Ethanol: 0.4% by volume,
 - e. Isobutanol: 0.6% by volume,
 - f. Vapor pressure: 0.3 psi,

 - h. 90% distillation temperature: ASTM reproducibility for that sample using the slope from the registered supplier's results,
 - i. E200: 2.5% by volume,
 - j. E300: 3.5% by volume, or
 - k. API gravity: 0.3° API.
 2. If the absolute value of the difference between the results of the analyses conducted by the registered supplier and independent laboratory is larger than one of the values specified in subsection (H)(1), the registered supplier

TITLE 3. AGRICULTURE

CHAPTER 7. DEPARTMENT OF AGRICULTURE - WEIGHTS AND MEASURES SERVICES DIVISION

shall use one of the following for certification of the batch of Arizona CBG or AZRBOB under subsection (B):

- a. The larger of the two values for each fuel property, except the smaller of the two values shall be used for measures of oxygenates; or
- b. Have a second independent laboratory analyze the Arizona CBG or AZRBOB for each fuel property; and if the difference between the results obtained by the second independent laboratory and those obtained by the registered supplier are within the range listed in subsection (H)(1), the registered supplier's results shall be used for certifying the Arizona CBG or AZRBOB under subsection (B).

R3-7-753. General Requirements for Pipelines and Third-party Terminals

- A. A pipeline or third-party terminal shall not accept Arizona CBG or AZRBOB for transport unless:
 1. The Arizona CBG or AZRBOB is physically transferred from an importer, refiner, CBG blender, oxygenate blender, pipeline, or third-party terminal registered with the Division under R3-7-750; and
 2. The registered supplier provides written verification that the gasoline is Arizona CBG or AZRBOB and complies with the standards in R3-7-751(A) or (B), as applicable, without reproducibility or numerical rounding.
- B. A pipeline or third-party terminal that transports Arizona CBG or AZRBOB shall collect a sample of each incoming batch. The pipeline or third-party terminal shall retain the sample for at least 30 days unless this time is extended for an individual sample for up to 180 days by the associate director.
- C. A pipeline shall conduct quality control testing of Arizona CBG or AZRBOB at each input location. Testing shall consist of at least one sample for each registered supplier who completes a batch shipment at that input location on that day.
- D. A pipeline shall provide the associate director with a report summarizing the quality control testing results obtained under subsection (C) by the 15th day of each month, for all results obtained during the previous month. The report shall contain the quantity of Arizona CBG or AZRBOB, date tendered, whether the Arizona CBG or AZRBOB was transported by pipeline, present sample location, and laboratory analysis results.
- E. If a batch does not meet the standards in R3-7-751(A) or (B), as applicable, but is within reproducibility, the pipeline shall notify the associate director by email within 48 hours of the batch volume and date tendered, proposed shipment date, whether the batch was transported by the pipeline, present batch location, and laboratory analysis results.
- F. If a batch does not meet the standards in R3-7-751(A) or (B), as applicable, including reproducibility, the pipeline or third-party terminal shall notify the associate director by email within 24 hours of the batch quantity and date tendered, proposed shipment date, whether the batch was transported by the

pipeline, present batch location, and laboratory analysis results. If the batch is in the pipeline's or third-party terminal's control, the pipeline or third-party terminal shall prevent release of the batch from a distribution point until the batch is certified as meeting the standards in R3-7-751(A) or (B), as applicable.

- G. A pipeline or third-party terminal shall develop a QA/QC program to demonstrate the accuracy and effectiveness of the pipeline's or third-party terminal's laboratory testing. The QA/QC program for a pipeline or third-party terminal shall include a description of the laboratory testing protocol used to verify that Arizona CBG or AZRBOB transported to the CBG-covered area meets the standards in R3-7-751(A) or (B). A pipeline or third-party terminal shall submit the QA/QC program to the associate director for approval at least three months before the pipeline or third-party terminal begins to transport Arizona CBG or AZRBOB. The associate director shall approve a QA/QC program only if the associate director determines that the QA/QC program ensures that the pipeline's or third-party terminal's laboratory testing produces data that are complete, accurate, and reproducible. If a pipeline or third-party terminal makes significant changes to the QA/QC program, the pipeline or third-party terminal shall resubmit the QA/QC program to the associate director for review and approval. Within 30 days of receiving the changed QA/QC program, the associate director shall determine whether the changed QA/QC program meets the quality objectives originally approved by the Division. The associate director shall approve the changed QA/QC program if it meets the quality objectives.
- H. A portion of a facility that a third-party terminal uses for production, import, or oxygenate blending is exempt from this Section, but the third-party terminal shall operate the exempt portion of the facility in compliance with requirements for registered suppliers in R3-7-752 and oxygenate blenders in R3-7-755, as applicable.
- I. A pipeline is not liable under R3-7-761 if it follows all of the procedures in this Section.

R3-7-754. Downstream Blending Exceptions for Transmix

- A. A pipeline or third-party terminal may blend transmix into Arizona CBG or AZRBOB at a rate not to exceed 1/4 of one percent by volume. Each pipeline or third-party terminal shall document the transmix blending (recording each batch and volume of transmix blended) and maintain the records at the third-party terminal for two years from the date of blending.
- B. One of two methods shall be used to measure the transmix as it is blended into the product stream:
 1. Meters, calibrated at least twice each year; or
 2. Tank gauge as per the API Manual of Petroleum Measurement Standards.

R3-7-755. Additional Requirements for AZRBOB and Oxygenate Blending

A. Application of Arizona CBG standards to AZRBOB. Determining whether AZRBOB complies with Arizona CBG standards.

1. If a registered supplier designates a final blend as AZRBOB and complies with the provisions of this Section, the fuel properties and performance standards of the AZRBOB, for purposes of compliance with R3-7-751(C), are determined by adding the specified type and amount of oxygenate to a representative sample of the AZRBOB and determining the fuel properties and performance standards of the resulting gasoline using the test methods in R3-7-759 or, in the case of ethanol blends, certifying the AZRBOB using the CARBOB Model, on a form or in a format prescribed by the associate director. If the registered supplier designates a range of amounts of oxygenate to be added to the AZRBOB, the minimum designated amount of oxygenate shall be added to the AZRBOB to determine the fuel properties and performance standards of the resulting Arizona CBG. If a registered supplier does not comply with this subsection, the Division shall determine whether the AZRBOB complies with applicable fuel properties and performance standards, excluding requirements for vapor pressure, without adding oxygenate to the AZRBOB.
2. In determining whether AZRBOB complies with the Arizona CBG standards, the registered supplier shall ensure that the oxygenate added to the representative sample under subsection (A)(1) is representative of the oxygenate the registered supplier reasonably expects will be subsequently added to the AZRBOB.
3. The representative sample under subsection (A)(1) shall be prepared in accordance with ASTM D7717 or another test method approved by EPA or CARB.
4. Calculating the volume of AZRBOB. If a registered supplier designates a final blend as AZRBOB and complies with this Section, the volume of AZRBOB is calculated for compliance purposes under R3-7-751 by adding the minimum amount of oxygenate designated by the registered supplier. If a registered supplier fails to comply with this subsection, the Division shall calculate the volume of AZRBOB for purposes of compliance with applicable fuel properties and performance standards without adding the amount of oxygenate to the AZRBOB.

B. Restrictions on transferring AZRBOB.

1. A person shall not transfer ownership or custody of AZRBOB to any other person unless the transferee notifies the transferor in writing that:
 - a. The transferee is a registered oxygenate blender and will add oxygenate in the type and amount (or within the range of amounts) designated in R3-7-757, or will recertify the AZRBOB under R3-7-755(F), before the AZRBOB is transferred from a final distribution facility; or
 - b. The transferee will take all reasonably prudent steps necessary to ensure that the AZRBOB is transferred to a registered oxygenate blender that adds the type and amount (or within the range of amounts) of oxygenate designated in R3-7-757 to the AZRBOB, or recertifies the AZRBOB under R3-7-755(F), before

the AZRBOB is transferred from a final distribution facility.

2. A person shall not sell or supply Arizona CBG from a final distribution facility if the type and amount or range of amounts of oxygenate designated in R3-7-757 have not been added to the AZRBOB, unless the final distribution facility recertifies the AZRBOB under R3-7-755(F).
- C.** Restrictions on blending AZRBOB with other products. A person shall not combine AZRBOB supplied from the facility at which the AZRBOB is produced or imported with any other AZRBOB, gasoline, blendstock, or oxygenate, except for:
 1. Oxygenate in the type and amount (or within the range of amounts) specified by the registered supplier at the time the AZRBOB is supplied from the production or import facility unless the AZRBOB is recertified by an oxygenate blender under R3-7-755(F); or
 2. Other AZRBOB for which the same oxygenate type and amount (or range of amounts) is specified by the registered supplier at the time the AZRBOB is supplied from the production or import facility, except that AZRBOB certified for the addition of 10% ethanol may be combined with AZRBOB certified for the addition of more than 10 but no more than 15 volume percent ethanol.
- D.** Survey for oxygenate blending during the winter. A registered supplier supplying AZRBOB from a production or import facility shall conduct an oxygenate blending survey program that meets the requirements of R3-7-760(A) or use an independent third-party to conduct an oxygenate blending survey program that meets the requirements in R3-7-760(B).
- E.** Requirements for oxygenate blenders.
 1. Requirement to add oxygenate to AZRBOB. If an oxygenate blender receives AZRBOB from a transferor to whom the oxygenate blender represents that oxygenate will be added to the AZRBOB, the oxygenate blender shall add oxygenate to the AZRBOB in the type and amount (or within the range of amounts) identified in the documentation accompanying the AZRBOB except as provided under R3-7-755(F).
 2. Additional requirements for oxygenate blending at terminals. An oxygenate blender that makes Arizona CBG by blending oxygenate with AZRBOB in a motor fuel storage tank, other than a truck used to deliver motor fuel to a retail outlet or bulk-purchaser consumer facility, shall determine the oxygen content and volume of the Arizona CBG before shipping, by collecting and analyzing a representative sample of the Arizona CBG, using the methodology in R3-7-759.
 3. Additional requirements for oxygenate blending in trucks. An oxygenate blender that blends AZRBOB in a motor fuel delivery truck shall conduct a quality assurance sampling and testing program to determine whether the proper type and amount of oxygenate is added to AZRBOB. The program shall be conducted as follows:
 - a. All samples shall be collected subsequent to the addition of oxygenate and prior to combining the resulting gasoline with any other gasoline;
 - b. Sampling and testing shall be done at one of the following rates:
 - i. In the case computer-controlled in-line blending is used, a rate of not less than one sample per each five hundred occasions AZRBOB and oxygenate are loaded into a truck by that oxygenate blender, or one sample every three months, whichever is more frequent; or

TITLE 3. AGRICULTURE

CHAPTER 7. DEPARTMENT OF AGRICULTURE - WEIGHTS AND MEASURES SERVICES DIVISION

- ii. In the case computer-controlled in-line blending is not used, a rate of not less than one sample per each one hundred occasions AZRBOB and oxygenate are blended in a truck by that oxygenate blender, or one sample per month, whichever is more frequent.
 - c. Sampling and testing shall be of the Arizona CBG produced by that oxygenate blender;
 - d. Samples shall be analyzed for oxygenate type and oxygen content using the testing methodology specified in R3-7-759, including reproducibility; and
 - e. In the event the testing results for any sample indicate the gasoline does not contain the specified type and amount of oxygenate (within the ranges of the applicable test methods, including reproducibility), the oxygenate blender shall:
 - i. Immediately stop selling (or where possible, to stop any transferee of the gasoline from selling) the gasoline which was sampled;
 - ii. Take steps to determine and correct the cause of the noncompliance; and
 - iii. Increase the rate of sampling and testing to double the required frequency outlined in subsection (E)(3)(b).
 - f. The increased frequency in subsection (E)(3)(e)(iii) shall continue until the results of ten consecutive samples and tests indicate the gasoline complies with applicable standards, at which time the sampling and testing frequency may revert to the original frequency.
4. Additional requirements for in-line oxygenate blending in pipelines using computer-controlled blending.
- a. An oxygenate blender that produces Arizona CBG by blending oxygenate with AZRBOB into a pipeline using computer-controlled in-line blending shall, for each batch of Arizona CBG produced:
 - i. Obtain a flow proportional composite sample after the addition of oxygenate and before combining the resulting Arizona CBG with any other Arizona CBG;
 - ii. Determine the oxygen content of the Arizona CBG by analyzing the composite sample within 24 hours of blending using the methodology in R3-7-759; and
 - iii. Determine the volume of the resulting Arizona CBG.
 - b. If the test results for the Arizona CBG indicate that it does not contain the amount of oxygenate specified by the ranges of the applicable test methods, the oxygenate blender shall:
 - i. Notify the pipeline to downgrade the Arizona CBG to conventional gasoline or transmix upon arrival in Arizona;
 - ii. Begin an investigation to determine the cause of the noncompliance;
 - iii. Collect a representative sample every two hours during each in-line blend of AZRBOB and oxygenate, and analyze the samples within 12 hours of collection, until the cause of the noncompliance is determined and corrected; and
 - iv. Notify the associate director in writing within one business day that the Arizona CBG does not comply with the requirements of this Article.
5. Additional requirements for oxygenate blending at motor fuel dispensing sites. An oxygenate blender that blends AZRBOB or Arizona CBG with oxygenates at a motor fuel dispensing site shall conduct a quality assurance sampling and testing program to determine whether the proper type and amount of oxygenate is added as follows:
- a. The samples shall be collected subsequent to the addition of oxygenate at least once every six months.
 - b. Samples shall be analyzed for oxygenate type and oxygen content using the testing methodology in R3-7-759, including reproducibility.
 - c. In the event testing results for any sample indicate the gasoline does not contain the specified type and amount of oxygenate (within the ranges of the applicable test methods), the oxygenate blender shall:
 - i. Immediately stop selling the gasoline which was sampled and take steps to determine and correct the cause of the noncompliance; and
 - ii. Increase the rate of sampling and testing to quarterly, and continue quarterly testing until two consecutive tests indicate the gasoline complies with the applicable standards.
6. Recordkeeping and records retention.
- a. An oxygenate blender shall maintain, for five years from the date of each sampling, records of the following:
 - i. Sample date;
 - ii. Identity of blend or product sampled;
 - iii. Container or other vessel sampled;
 - iv. Volume of final blend or shipment;
 - v. Oxygen content as determined under R3-7-759; and
 - vi. Results from all testing.
 - b. The associate director shall deem that Arizona CBG blended by an oxygenate blender and not tested and documented as required by this Section has an oxygen content that does not comply with the standards specified in R3-7-751 unless the oxygenate blender demonstrates to the associate director that the Arizona CBG meets the standards in R3-7-751.
 - c. Within 15 days of the associate director's written request, an oxygenate blender shall provide any records maintained by the oxygenate blender under this Section. If the oxygenate blender fails to provide records requested for a blend or shipment of Arizona CBG, the associate director shall deem that the blend or shipment of Arizona CBG violates R3-7-751 unless the oxygenate blender demonstrates to the associate director that the Arizona CBG meets the standards and limits under R3-7-751.
7. Notification requirement. An oxygenate blender shall notify the associate director by email before transporting Arizona CBG or AZRBOB into the CBG-covered area by a means other than a pipeline.
8. Quality assurance and quality control ("QA/QC") program. An oxygenate blender that conducts sampling and testing under subsection (E) in the oxygenate blender's

TITLE 3. AGRICULTURE

CHAPTER 7. DEPARTMENT OF AGRICULTURE - WEIGHTS AND MEASURES SERVICES DIVISION

own laboratory shall develop a QA/QC program to demonstrate the accuracy and effectiveness of the oxygenate blender's sampling and testing of Arizona CBG or AZRBOB. The oxygenate blender shall submit the QA/QC program to the associate director for approval before transporting Arizona CBG. The associate director shall approve a QA/QC program only if the associate director determines that the QA/QC program ensures that the oxygenate blender's sampling and testing produces data that are complete, accurate, and reproducible. Instead of developing a QA/QC program, an oxygenate blender may comply with the independent testing requirements of R3-7-752(F), except that, for sampling and testing conducted under subsection (E)(3), the minimum number of samples collected and tested by the independent laboratory shall be 10% of the number of samples required to be collected and tested under subsection (E).

9. An oxygenate blender that does not conduct laboratory sampling and testing required under subsection (E) in its own laboratory shall designate an independent laboratory, as described in R3-7-752(F), to conduct the sampling and testing required under subsection (E)(8).
 10. Within 24 hours of the associate director's or designee's written request, an oxygenate blender shall submit a duplicate of any sample collected under subsection (E)(8).
- F. Downstream AZRBOB or Arizona CBG Recertification.** If a registered supplier has specified blending instructions for oxygenate(s) under R3-7-752 and R3-7-755(A), an oxygenate blender may recertify AZRBOB for a different type or amount of oxygenate. The oxygenate blender is exempt from the requirements to register as a registered supplier and certify the finished Arizona CBG under R3-7-751(C) and (D), and R3-7-752, if the recertifying oxygenate blender:
1. Only recertifies AZRBOB to contain a greater amount of a specified oxygenate (e.g. the oxygenate blender adds 15 volume percent ethanol to a batch certified for the addition of 10 volume percent ethanol) or a different oxygenate at an equal or greater amount (e.g. the oxygenate blender adds 16 volume percent isobutanol to a batch certified for 10 volume percent ethanol);
 2. Issues product transfer documentation that includes the information for the recertified gasoline contained in R3-7-757, unless the recertified gasoline is blended and dispensed at a motor fuel dispensing site or fleet vehicle fueling facility;
 3. Meets the requirements applicable to oxygenate blenders in R3-7-755(E); and
 4. Uses oxygenates meeting the requirements of R3-7-708(B) or (C), or ethanol flex fuel that meets the requirements of R3-7-708(E) to blend with AZRBOB or Arizona CBG.
- G.** Upon request, on a form or in a format prescribed by the associate director, an oxygenate blender shall report to the Division the volume of Arizona CBG recertified, including the types and amounts of oxygenate added. The report shall be submitted to the Division within 15 days of the request.

R3-7-756. Downstream Blending of Arizona CBG with Nonoxygenate Blendstocks

- A.** A person shall not combine Arizona CBG supplied from a production or import facility with any nonoxygenate blendstock, other than vapor recovery condensate, unless the resulting gasoline blend meets the requirements in ASTM D4814 and is not used within the CBG-covered area.
- B.** Notwithstanding subsection (A), a person may add nonoxygenate blendstock to a previously certified batch or mixture of certified batches of Arizona CBG that does not comply with one or more of the applicable per-gallon standards contained in R3-7-751(A) or (B) if the person obtains prior written approval from the associate director based on a demonstration that adding the blendstock will bring the previously certified Arizona CBG into compliance with the applicable per-gallon standards for Arizona CBG. The oxygenate blender or registered supplier shall certify the re-blended Arizona CBG to the Division, on a form or in a format prescribed by the associate director.

R3-7-757. Product Transfer Documentation; Records Retention

- A.** If a person transfers custody or title to Arizona CBG or AZRBOB, other than when Arizona CBG is sold or dispensed at a motor fuel dispensing site or fleet vehicle fueling facility, the transferor shall provide to the transferee documents that include the following:

R3-7-760. Compliance Surveys

- A.** A registered supplier shall conduct surveys for oxygenate blending during the winter and a compliance survey during the summer. The winter survey shall be conducted following the requirements in subsection (A), or using an independent third-party surveyor following the requirements in subsections (B) and (D). The summer survey shall be conducted following the requirements in subsection (C), or using an independent third-party surveyor following the requirements in subsections (C) and (D). Surveys for oxygenate blending during the winter: A registered supplier supplying AZRBOB from a production or import facility shall conduct an oxygenate blending survey program to be carried out at the facilities of each oxygenate blender who blends any AZRBOB produced or imported by the refiner or importer with any oxygenate, to determine whether the Arizona CBG, which has been produced through blending, complies with the applicable standards using the methodology specified in R3-7-759. The sampling and testing program shall be conducted as follows:
1. Samples shall be collected in accordance with ASTM D4057 and be analyzed for oxygenates. All samples shall be collected subsequent to the addition of oxygenate and prior to combining the resulting gasoline with any other gasoline.
 2. Sampling and testing shall be at one of the following rates, regardless of the amount of oxygenate added:
 - a. In the case of AZRBOB which is blended with oxygenate in a gasoline storage tank, a rate of not less than one sample for every 400,000 barrels of AZRBOB produced or imported by that refiner or importer that is blended by that oxygenate blender, or one sample every month, whichever is more frequent;
 - b. In the case of AZRBOB which is blended with oxygenate in gasoline delivery trucks through the use of computer-controlled in-line blending equipment, a rate of not less than one sample for every 200,000 barrels of AZRBOB produced or imported by that refiner or importer that is blended by that oxygenate blender, or one sample every three months, whichever is more frequent; or
 3. In the event that the test results for any sample indicate the gasoline does not comply with applicable standards, including reproducibility, the refiner or importer shall:
 - a. Immediately take steps to stop the sale of the gasoline that was sampled;
 - b. Take steps which are reasonably calculated to determine and correct the cause of the noncompliance;
 - c. Increase the rate of sampling and testing to double the required frequency outlined in subsection (A)(2); and
 - d. Continue the increased frequency of sampling and testing until the results of ten consecutive samples and tests indicate the gasoline complies with applicable standards, at which time the sampling and testing may be conducted at the original frequency.
 4. This survey program conducted by a registered supplier shall be conducted in addition to any survey requirements carried out under this subsection by other registered suppliers.
- B.** Instead of conducting the oxygenate blending survey program in subsection (A), the registered supplier may use an independent third-party surveyor to conduct a winter oxygenate blending survey that meets the following requirements:
1. Designed and conducted by an independent third-party surveyor that meets the requirements of subsection (D)(2)(a);
 2. Conducted November 1 through March 31 on all samples collected under the program design approved by the associate director under subsection (D);

TITLE 3. AGRICULTURE

CHAPTER 7. DEPARTMENT OF AGRICULTURE - WEIGHTS AND MEASURES SERVICES DIVISION

PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

RULES

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2022 is cited as Supp. 22-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. This is why the Office lists only updated codified Sections on the previous page.

RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State’s website, www.azsos.gov under Services-> Legislative Filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

 2. Inaccessible sub-area such as an area with less than 24 inches of clear space between the bottom of a floor joist and grade level;
 3. Excessive cellulose debris. Cellulose debris is excessive when:
 - a. The debris can be raked into a pile of at least one cubic foot,
 - b. A stump or wood imbedded in a footing of the structure is in contact with earth, or

R3-8-308. Performing Wood-destroying Insect Management

- A.** An applicator shall not perform wood-destroying insect management or fumigation unless the applicator is certified in the category of wood-destroying organism treatment or fumigation, respectively, or working under the immediate supervision of an applicator who is certified in the category of wood-destroying organism treatment or fumigation respectively.
- B.** An applicator shall not perform wood-destroying insect management, issue a treatment proposal, or quote a fee for service until the business licensee that employs the applicator ensures that:
1. An on-site inspection of the property is performed by a certified applicator meeting the training requirement under A.R.S. § 3-3632(E),
 2. A treatment proposal is prepared, based upon the on-site inspection, on a form approved by the PMD and contains the information required under A.R.S. § 3-3632(B) and (C), and
 3. The treatment proposal is delivered to the person requesting the proposal or treatment, prior to the treatment.
- C.** An applicator shall apply a termiticide only in the quantity, strength, dosage, and manner prescribed on the termiticide label unless otherwise specified by this Chapter or a PMD order.
- D.** Pretreatment for commercial or residential construction.
1. Unless a contract between the business licensee and customer specifies additional requirements, an applicator performing a pretreatment shall:
 - a. Establish a horizontal barrier of termiticide before any concrete slab under roof is poured or in conjunction with establishing the footings and supports for a raised foundation; and
 - b. Establish a vertical barrier of termiticide in all critical areas visible during the time of pretreatment. An area is critical at the time of pretreatment if the area is identified as critical by the termiticide label or if there is soil in the immediate vicinity of:
 - i. A penetration or protrusion through the slab;
 - ii. An observable preset for crack or joint control;
 - iii. A formed-up change of grade level;
 - iv. Abutting slabs;
 - v. A bath trap or tear-out;
 - vi. The interior of a foundation or stem wall; or
 - vii. A pier, pillar, pipe, or other object that extends from the soil to the structure.
 2. Except as specified on the termiticide label, an applicator shall treat all critical areas during a pretreatment at a rate allowed by the product label, for each foot of depth from grade level to the footer. If there is no adjacent footer, the applicator shall treat to a depth of one foot or as specified by labeling instructions.
 3. Unless the termiticide label requires more, an applicator is not required to treat a critical area during a pretreatment beyond a depth of four feet if:
 - a. Treating beyond a depth of four feet will, or reasonably may, cause an off-site application;
 - b. Access to the footer is not possible because of its distance below grade; or
 - c. Treating beyond a depth of four feet will, or reasonably may cause an environmental contamination.
 4. If an applicator does not treat a critical area during a pretreatment beyond a depth of four feet because the applicator determines that one of the exceptions in subsection (D)(3) is applicable, the applicator shall:
 - a. Apply the amount of termiticide possible without causing an off-site application or environmental contamination, and
 - b. Include evidence of the exception in the treatment record. Evidence of the exception may include:
 - i. A photograph of the interior grade and adjacent location that would or reasonably might be contaminated by treating beyond a depth of four feet,
 - ii. A photograph of the site after the pretreatment but before concrete placement,
 - iii. A written statement from the general contractor concerning the fill material and compaction rating,
 - iv. A written statement from the concrete subcontractor describing the depth of the footer as greater than four feet, or
 - v. A written compaction rating statement from the engineering subcontractor.
 5. If an applicator is advised before concrete is poured that a treated area is disturbed and the continuous horizontal or vertical chemical barrier established under subsection

TITLE 3. AGRICULTURE

CHAPTER 8. DEPARTMENT OF AGRICULTURE - PEST MANAGEMENT DIVISION

- (D)(1) is broken, and if the applicator is provided an opportunity to re-treat the disturbed area, the applicator shall re-treat the disturbed area and re-establish a continuous horizontal and vertical chemical barrier.
6. Immediately after completing a pretreatment, an applicator shall securely affix a tag to the pretreatment site. The applicator shall ensure that the tag is visible, readily available for inspection, and unlikely to be covered with concrete or soil. If there is a contractor's permit or inspection board at the pretreatment site, the applicator may affix the tag to the board. The applicator shall ensure that the tag contains the following information about the pretreatment:
 - a. Name of business licensee;
 - b. Address of business licensee;
 - c. Telephone number of business licensee;
 - d. License number of business licensee;
 - e. Location or address of project;
 - f. Date of pretreatment application;
 - g. Time that application was started (not time that applicator arrived at the site);
 - h. Time that application ended (not time that applicator left the site);
 - i. Trade name of pesticide used;
 - j. Percentage of active ingredient in the pesticide used;
 - k. Number of gallons of chemical preparation applied;
 - l. Square footage of area treated;
 - m. Linear footage of area treated;
 - n. Type of slab construction;
 - o. Name of applicator; and
 - p. Certification number of applicator or, if not certified, the name and certification number of the applicator providing immediate supervision.
 7. If it is necessary for an applicator to abandon a pretreatment site before completing the treatment, the applicator shall complete and affix the tag described in subsection (D)(6), representing the work completed, and after marking the tag "TREATMENT IN-COMPLETE."
 8. If a contractor requires a copy of the tag described in subsection (D)(6) for the customer's file, an applicator shall prepare and provide the contractor with a duplicate tag that is clearly marked "DUPLICATE."
- E.** New-construction treatment for commercial or residential construction.
1. Unless specifically precluded by the termiticide label, an applicator performing a new-construction treatment shall treat all critical areas visible at the time of the treatment. An area is critical at the time of a new-construction treatment if the area is identified as critical by the termiticide label or if there is soil in the immediate vicinity of:
 - a. A penetration or protrusion through the slab;
 - b. An observable crack or joint;
 - c. Abutting slabs;
 - d. A bath trap or tear-out;
 - e. The interior of a foundation or stem wall; or
 - f. A pier, pillar, pipe, or other object that extends from the soil to the structure.
 2. An applicator shall comply with subsections (D)(2) through (D)(4) when treating a critical area during a new-construction treatment except that the treatment shall be at the labeled rate rather than at a rate of four gallons of chemical preparation per 10 linear feet for each foot of depth.
 3. If an applicator is advised that a treated area is disturbed, the applicator shall re-treat the disturbed area.
 4. Immediately after completing a new-construction treatment, an applicator shall securely affix a tag to the new-construction site in the manner described in subsection (D)(6). The applicator shall ensure that the tag contains the information listed in subsection (D)(6).
 5. An applicator shall comply with subsections (D)(7) and (D)(8) when performing a new-construction treatment.
- F.** Final grade treatment for commercial or residential construction.
1. A business licensee that performs a pretreatment or new-construction treatment shall perform a final grade treatment. The final grade treatment must occur after all grading and other construction-related soil disturbance is complete, but within 18 months of the original pretreatment or new construction treatment. The business licensee shall keep a written or electronic record as to why the final grade has not been completed and an estimated time for completion. This record shall be available upon written requests for inspection by the Agency.
 2. Except as specified on the termiticide label, an applicator shall treat all critical areas during a pretreatment at a rate allowed by the product label.
 3. An applicator shall leave a record of the final grade treatment in an unlocked electrical or circuit-breaker box, if available. Otherwise, the applicator shall conspicuously post or leave the record with the property agent. The applicator shall ensure that the record of the final grade treatment contains the information listed in subsection (D)(6), except the information required under subsections (D)(6)(l) and (D)(6)(n) is not required.
- G.** An applicator who performs a pretreatment, new-construction treatment or final grade treatment shall ensure that a copy of the information recorded on a tag required under subsection (D) or (E) or the final grade treatment record required under subsection (F) is provided to the business licensee for inclusion in the business licensee's service records.
- H.** A warranty regarding subterranean termite treatment shall only be issued to a builder if the structure received a pretreatment or a new-construction treatment.
- I.** Post-construction treatment for commercial or residential construction.
1. If an applicator uses a drilling and injecting application method for a post-construction treatment, the applicator shall space the treatment holes in each treated area no more than 24 inches apart or in accordance with the termiticide label, whichever is more restrictive. If an applicator determines that a structural feature makes it necessary to space treatment holes more than 24 inches apart, the applicator may space the treatment holes more than 24 inches apart if the greater distance is within the limits on the termiticide label.
 2. After completing a post-construction treatment using a drilling and injection application method, an applicator shall securely patch all treatment holes, including those in an un-finished basement, enclosed porch, garage, or workshop, with a material that is non-porous and non-cellulose.
 3. Unless precluded by label directions, any application to treat the soil along the exterior of foundation walls shall be made at an effective treatment rate of four gallons of chemical preparation per ten linear feet in a trench six

TITLE 3. AGRICULTURE

CHAPTER 8. DEPARTMENT OF AGRICULTURE - PEST MANAGEMENT DIVISION

inches wide or other method of treatment prescribed by the label to achieve the effective treatment rate.

4. All post construction treatments shall be made in accordance with the treatment proposal delivered as required under subsection (B). Any deviations to the original proposal shall be redelivered in writing in a revised treatment proposal and shall be approved prior to performing the treatment by the person who requested the original proposal or their authorized agent.

R3-8-309. Termite Warranties and Retreatments

- A. If a business licensee or an employee of a business licensee is advised before concrete is poured that a pretreatment area is disturbed and the continuous chemical barrier is broken and if an opportunity is provided to re-treat the disturbed area or is advised that a new-construction treatment area is disturbed, the business licensee shall ensure that the disturbed area is retreated.
- B. A business licensee that provides a subterranean termite treatment warranty shall ensure that the effective date of the warranty is the date on which treatment begins.
- C. If subterranean termites occur in or on a residential or commercial structure within three years after a business licensee first performs a pretreatment or new-construction treatment of the structure, the business licensee shall re-treat the affected area of the structure free of charge in accordance with the label specifications of a termiticide available for use. If subterranean termites occur in or on an addition that does not abut the slab of a residential or commercial structure within three years after a business licensee first performs a pretreatment or new-construction treatment of the non-abutting addition, the business licensee shall re-treat the non-abutting addition free of charge in accordance with the label specifications of a termiticide available for use. For the purpose of this subsection, the business licensee is the business licensee who performed the pretreatment or new-construction treatment or a successor that acquired the business assets pertaining to wood-destroying insect treatment.
- D. If subterranean termites occur a third time on the exterior of a one or two unit residential structure within three years after a business licensee first performs a pretreatment or new-construction treatment, the business licensee shall re-treat the entire exterior perimeter of the structure free of charge.
 1. As used in this subsection, exterior means a portion of a residential structure where termite activity originates and that is not livable and not a garage;
 2. For the purpose of this subsection and subsection (E):
 - a. A first occurrence means the first time evidence of subterranean termites exists after a pretreatment or new-construction treatment;
 - b. A second occurrence means evidence of subterranean termites exists at least 25 feet away from the site of the first occurrence and at least 45 days after the date of re-treatment for the first occurrence; and
 - c. A third occurrence means evidence of subterranean termites exists at least 25 feet away from the sites of both the first and second occurrences and at least 45

days after the date of re-treatment for the second occurrence.

- E. If subterranean termites occur a third time on the interior of a one or two unit residential structure within three years after a business licensee first performs a pretreatment or new-construction treatment, the business licensee shall perform a post-construction treatment of the entire structure free of charge. As used in this subsection, interior means a portion of a residential structure where termite activity originates and that is livable or a garage.
- F. A business licensee that performs a re-treatment under subsection (C) or (D) or a post-construction treatment under subsection (E) shall not charge the consumer for any expense incurred in providing the re-treatment or post-construction treatment to which the consumer is entitled under this Chapter.
- G. If a business licensee goes to a structure to perform a re-treatment under subsection (C) or (D) or a post-construction treatment under subsection (E) and determines there is no evidence of subterranean termites, the business licensee may charge the consumer a reasonable amount for the expenses incurred in making the trip.
- H. If a business licensee determines that a re-treatment or post-construction treatment is necessary because the continuous chemical barrier is disturbed, the business licensee may charge the reasonable cost of reestablishing the barrier.
- I. If a customer refuses a re-treatment or post-construction treatment as described in this Section, access to the customer's property, or to allow drilling in an area where drilling is necessary, the business licensee shall obtain the customer's printed name and dated signature on a document evidencing that the business licensee:
 1. Informed the customer of the right to a re-treatment or post-construction treatment at no charge,
 2. Provided the customer with a copy of this Section and the termiticide label requirements,
 3. Provided the customer with the PMD's telephone number, and
 4. Explained to the customer the benefits of having and the detriments of not having a re-treatment or post-construction treatment.

 - ii. Is in a color that contrasts with the color of the service vehicle and trailer;
 - iii. Is on both sides of the service vehicle and trailer;
3. A business licensee that always uses a service vehicle and trailer together is required to mark only the service vehicle or trailer as described in subsection (B)(2)(g). A business licensee that uses a vehicle only for sales, solicitations, or solely for inspections and does not carry a pesticide, and does not otherwise use the vehicle to provide a pest management service, is not required to mark the vehicle as described in subsection (B)(2)(g).

PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

RULES

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2022 is cited as Supp. 22-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. This is why the Office lists only updated codified Sections on the previous page.

RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State’s website, www.azsos.gov under Services-> Legislative Filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

RULES

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2022 is cited as Supp. 22-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. This is why the Office lists only updated codified Sections on the previous page.

RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State’s website, www.azsos.gov under Services-> Legislative Filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

RULES

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2022 is cited as Supp. 22-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. This is why the Office lists only updated codified Sections on the previous page.

RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State’s website, www.azsos.gov under Services-> Legislative Filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

All documentary evidence offered shall be subject to appropriate and timely objection.

The Board may require the filing of written briefs on the issues raised in the motion or response and may provide for oral argument.
2. A rehearing of a decision by the Board may be granted for any of the following causes materially affecting the moving party's rights:

An order granting a rehearing shall specify with particularity the ground or grounds on which the rehearing is granted, and the rehearing shall cover only those matters so specified.
4. After giving the parties or their counsel notice and an opportunity to be heard on the matter, the Board may grant a motion for rehearing for a reason not stated in the motion. The order granting such a rehearing shall specify the grounds therefor.
5. Not later than 20 days after a decision is rendered, the Board may, on its own initiative, order a rehearing of its decision for any reasons for which it might have granted a rehearing on motion of a party. The order granting such a rehearing shall specify the grounds therefor.
6. When a motion for rehearing is based upon affidavits they shall be served with the motion. An opposing party may, within 10 days after service of such motion, serve opposing affidavits and this period may be extended for an additional period not exceeding 20 days, by the Board for good cause shown or by written stipulation of the parties. Reply affidavits may be permitted.
7. After a hearing has been held and a final administrative decision has been entered, a party is not required to file a motion for rehearing or review of the decision in order to exhaust the party's administrative remedies.
8. Any party in an appeal of a certification denial who is aggrieved by a decision rendered by the Board may file with the Board, not later than 20 days after such decision has been made, a written request for review of the decision. C. The requirements for a personal curriculum are as follows:

1. An eligible student may only modify the mathematics requirement delineated in R7-2-302.02(1)(c)(ii) for Algebra II or its equivalent course content;

 - b. Identify an appropriate alternative mathematics course or courses to modify the requirement for Algebra II or its equivalent course content,
 - c. Develop a written personal curriculum plan that includes the alternative mathematics course or courses identified in subsection (D)(3)(b) and a plan for monitoring student progress toward successfully completing the alternative mathematics course or courses. In developing the personal curriculum plan the development team shall consider how the proposed modifications maintain the integrity of the high school diploma and enable the student to achieve the student's post-secondary education and career goals.
4. The development team may modify the personal curriculum plan based upon the development team's evaluation of the student's progress.
- E. The Superintendent of Public Instruction shall monitor a school district or charter school if there is reason to believe that the school district or charter school is allowing modifications inconsistent with the requirements delineated in this Section.

R7-2-407. Special Education Standards and Assistance for Providing Educational Services and Materials for Visually Impaired Students

- A. All requirements in this Section are in addition to the general special education standards in R7-2-401 for public education agencies providing special education.
- B. For the purposes of this Section, the following definitions apply:
 1. “Accessible Electronic File” means, until the effective date of a nationally adopted file format, a digital file in a mutually agreed upon electronic file format that has been prepared using a markup language that maintains the structural integrity of the information and can be processed by Braille conversion software. Upon the effective date of a nationally adopted file format, such as the Instructional Materials Accessibility Standard (IMAS), “Accessible Electronic File” shall mean an electronic file conforming to the specifications of the nationally adopted file format, including future technical revisions and versions of this nationally adopted file format.
 2. “Individualized Braille literacy assessment” means the Learning Media Assessment or other standardized or individualized assessments that pertain to the child’s reading medium.
 3. “Non-printed instructional materials” means non-printed textbooks and related core materials, including those that require the availability of electronic equipment in order to be used as a learning resource, that are written and published primarily for use in elementary school and secondary school instruction and are required by a state educational agency or a local educational agency for use by pupils in the classroom. These materials shall be available to the extent technologically available, and may include software programs, CD-ROMs and internet-based materials.
 4. “Printed instructional materials” means textbooks and related printed core materials, that are written and published primarily for use in elementary school and secondary school instruction and are required by a state educational agency or a local educational agency for use by pupils in the classroom. This may include workbooks, practice tests, and tests.
 5. “Publisher” means an individual, firm, partnership or corporation that publishes or manufactures printed instructional materials for students attending public schools in Arizona, including an on-line service, a software developer, or a distributor of an electronic textbook.
 6. “Specialized format” means Braille, audio or digital text which is exclusively for use by blind or other persons with disabilities.
 7. “Structural integrity” means the structure of all parts of the printed instructional material will be kept intact to the extent feasible and as mutually agreed upon by the publisher and the local educational agency. This may include appropriate representation of graphic illustrations.
- C. Upon determination of a student having a visual impairment as assessed by a full and initial evaluation defined in R7-2-401(E)(6)(i), a visually impaired student who is determined to be blind as defined by A.R.S. § 15-214(B) shall receive an individualized Braille literacy assessment.
- D. Individualized Education Programs (IEP) for blind students. In addition to the requirements for establishing and implementing an IEP consistent with R7-2-401(F) for a student determined to have a disability, each IEP for a student determined to be “blind” as assessed by R7-2-401(E)(6)(i) and defined by A.R.S. § 15-214(B), shall presume that proficiency in Braille is essential in achieving academic success unless otherwise determined by the IEP team established consistent with the regulations for the most recent reauthorization of the Individuals with Disabilities Education Act (IDEA) and in the manner provided by the most recent reauthorization of the IDEA Act for developing an IEP. An IEP developed under this Section for a student determined to be blind shall include all required provisions of A.R.S. § 15-214(A)(3), including the following:
 1. The results of the individualized Braille literacy assessment.

- E. The Arizona Department of Education shall designate a central repository for publishers to, upon request, provide accessible electronic files for instructional materials used by public schools in Arizona as defined in subsection (B)(1). The central repository shall be responsible for maintaining a complete list of available accessible electronic files for instructional materials and instructional materials in specialized formats, processing requests from PEAs for instructional materials in specialized formats and providing access to these materials in specialized formats to schools throughout Arizona that are providing services to blind or other students with disabilities.
 1. Upon receipt of a written request certifying to the requirements set forth in subsections (E)(1)(a) through (c) publishers shall deliver to the repository, at no additional cost and consistent with the time-frame for providing materials for students without disabilities, accessible electronic files for printed instructional materials and non-printed instructional materials. Certification shall include all of the following:

materials in a specialized format pursuant to the student's IEP.

3. Nothing in this Section shall be construed to prohibit the central repository from assisting a student with a disability by using the electronic format version of instructional material provided pursuant to this Section solely to transcribe or arrange for the transcription of the printed instructional material into Braille or large print. In the event a Braille transcription is made, the central repository has the right to share the Braille copy of the printed instructional material with other eligible students with disabilities. The PEA will be required to return the specialized format version of the instructional material to the central repository when the student no longer needs the instructional material. The central repository may share the copies of the specialized format of the instructional material with other PEAs who have met the requirements of subsections (B) and (D) to provide services to students who require such services pursuant to R7-2-401(F)(5).

1. "Educational Interpreter." For the purposes of this Section, "educational interpreter" means a person trained to translate in sign language for students identified to require such services through an Individualized Education Program (IEP) or a 504 accommodation plan in order to access academic instruction. This does not in any way restrict the provisions of R7-2-401(B)(14) which defines "interpreter" and provides that each student's IEP team determines the level of interpreter skill necessary for the provision of FAPE, nor does it restrict a school district's ability to develop a job description for someone in a position of "educational interpreter" that requires additional job responsibilities.
2. "Accommodation plan developed to comply with Section 504 of the Rehabilitation Act of 1973, 29 USC 794, et seq. ("504 accommodation plan")." For the purposes of this Section, "504 accommodation plan" means a plan developed for the purpose of specifying accommodations and/or services that will be implemented by classroom teachers and other school personnel so that students will benefit from their educational program.

- ii. Hold a valid Certificate of Interpretation (CI) and/or Certificate of Transliteration (CT) from the Registry of Interpreters for the Deaf (RID), or
- iii. Hold a valid certificate from the National Association of the Deaf (NAD) at level 3 or higher.

2. If a public education agency (PEA) is unable to find an individual meeting the above qualifications, the PEA may hire an individual with lesser qualifications, but the PEA is required to provide a professional development plan for the individual they employ to provide educational interpreting services. This professional development plan must include the following:

- a. Proof of at least 24 hours of training in interpreting each year that a valid certification is not held or EIPA passing score is not attained, and
- b. Documentation of a plan for the individual to meet the required qualifications within three years of employment. If the qualifications are not attained within three years, but progress toward attainment is demonstrated, the plan shall be modified to include an intensive program for up to one year to meet the provisions of subsection (B)(1).

3. An individual employed under the provisions of subsection (B)(2) must also have the following:

- a. A valid fingerprint clearance card, and
- b. A high school diploma or GED.

- C. Compliance with these rules will be reviewed at the same time as a PEA is monitored for compliance with the requirements of the Individuals with Disabilities Education Act (IDEA), 20 U.S.C. § 1400, et seq.

The invitation for bids shall state that products substantially equivalent to the brands designated qualify for consideration;

Only objectively measurable evaluation criteria shall be included in the invitation for bids. Examples of such criteria include, but are not limited to, transportation cost, energy cost, ownership cost and other identifiable costs. If the bidder fails to act, the bidder is considered nonresponsive and the school district shall place a written determination that the bidder is nonresponsive in the procurement file. The school district shall designate a time-frame within which the bidder shall either:

writing and shall include all of the following in the written request:

 3. The reasons why correction or withdrawal is consistent with fair competition and advantageous to the school district.

- D.** After bid opening and before award, the school district shall either waive minor informalities in a bid or allow the bidder to correct them if correction is advantageous to the school district.
- E.** After bid opening and before award, the bid may not be withdrawn and shall be corrected to the intended bid if a bid mistake and the intended bid are evident on the face of the bid.
- F.** After bid opening and before award, the school district may permit a bidder to withdraw a bid if:
1. A nonjudgmental mistake is evident on the face of the bid but the intended bid is not evident; or
 2. The bidder establishes by clear and convincing evidence that a nonjudgmental mistake was made.
- G.** If correction or withdrawal of a bid after bid opening is permitted or denied under subsections (D), (F) and (J), the school district shall prepare a written determination showing that the relief was permitted or denied under this Section.

 3. Deny correction or withdrawal.
- K.** After cancellation of all or part of an award in accordance with subsection (J)(2), if the bid acceptance period has not expired, the school district may award all or part of the contract to the next lowest responsible and responsive bidder, based on the considerations of fair competition and the best interest of the school district.

TITLE 7. EDUCATION

CHAPTER 2. STATE BOARD OF EDUCATION

effective July 1, 2014 (Supp. 15-3); effective year corrected in Supp. 18-2.

R7-2-1031. Bid Evaluation and Award

- A.** As provided in subsection (C), the contract or contracts shall be awarded to the lowest responsible and responsive bidder or bidders whose bid or bids conform in all material respects to the requirements and evaluation criteria set forth in the invitation for bids. No criteria may be used in bid evaluation that are not set forth in the invitation for bids. The amount of any applicable transaction privilege or use tax of a political subdivision of this state is not a factor in determining the lowest bidder.
- B.** A product acceptability evaluation shall be conducted solely to determine whether a bidder's product is acceptable as set forth in the invitation for bids and not whether one bidder's product is superior to another bidder's product. Any bidder's offering that does not meet the acceptability requirements shall be rejected as nonresponsive.
- C.** The school district shall award the contract to the single lowest responsible and responsive bidder for all materials or services, except that the school district may make a multiple award if the invitation for bids included notification that multiple contracts may be awarded, the school district's basis for determining whether to award multiple contracts, and the criteria for selecting vendors for the multiple contracts.
- D.** Before making a multiple award, the school district shall determine in writing that a multiple award is necessary and is advantageous to the school district and shall establish procedures for the use of the multiple awarded contracts to ensure that purchases are made from the contracts determined by the school district to offer the lowest cost in satisfying the school district's requirements. A multiple award shall be limited to the least number of suppliers the school district determines in writing to be necessary to meet the school district's requirements, and may include the following types of awards:
 1. Awards to the lowest responsible and responsive bidder for individual line items, groups of line items, or categories.
 2. Awards to the lowest responsible and responsive bidders for similar or identical line items, groups of line items, or categories only if the school district determines in writing that such awards are necessary to obtain the required quantity or delivery, and the awards are limited to the least number of bidders necessary to meet the school district's requirements.
 3. An incremental award only if the school district determines in writing that such an award is necessary to obtain the required quantity or delivery. The award shall be made to the lowest responsible and responsive bidder, then the next lowest responsible and responsive bidder or bidders until the total definite quantity required is awarded.
 4. A regional award to the lowest responsible and responsive bidder in designated regions or locations only if the school district determines in writing that such an award is necessary to obtain the required quantity or delivery over widely scattered locations or a particular requirement is of a local nature.
- E.** The procurement file shall contain the basis on which the award or awards are made.
- F.** The school district shall not modify evaluation criteria after the bid due date and time.
- G.** A school district may appoint an evaluation committee to assist in the evaluation of bids. If bids are evaluated by an evaluation committee, the evaluation committee shall prepare an evaluation report for the school district. The school district may:
 1. Accept the findings of the evaluation committee;
 2. Request additional information from the evaluation committee; or
 3. Reject the findings of the evaluation committee, in which case the school district shall appoint a new evaluation committee to evaluate the existing bids or cancel the solicitation.
- H.** The school district may contact a bidder to confirm the school district's understanding of the bid. Such contact shall be prior to award. The school district shall obtain written confirmation from the bidder and shall retain the confirmation in the procurement file.
- I.** The contract or contracts shall be awarded during the bid acceptance period. If the bid acceptance period expires prior to award of the contract or contracts, the procurement shall be canceled, unless the bid acceptance period is extended in accordance with subsection (J).
- J.** To extend the bid acceptance period, a school district shall notify all bidders in writing of an extension and request written concurrence from each bidder. To be eligible for a contract award, a bidder shall submit a written concurrence to the extension. The school district shall reject a bid as nonresponsive if written concurrence is not provided as requested.
- K.** A contract may not be awarded to a bidder submitting a higher quality item than that designated in the invitation for bids unless the bidder is also the lowest bidder as determined under subsection (A). This Section does not permit negotiations with any bidder, except as provided in subsection (L).
- L.** If all bids for a construction project exceed available monies as certified by the school district, and the lowest responsive bid from a responsible bidder does not exceed such monies by more than five percent, the school district may in situations in which time or economic considerations preclude resolicitation of work of a reduced scope, negotiate an adjustment of the bid price, including changes in the bid requirements, with the lowest responsible and responsive bidder, to bring the bid within the amount of available monies.
- M.** If there are two or more low responsive bids from responsible bidders that are identical in price and that meet all the requirements and criteria set forth in the invitation for bids, award shall be made by drawing lots in the presence of one or more witnesses.
- N.** A record showing the basis for determining the successful bidder shall be retained in the procurement file.
- O.** The school district shall notify all bidders of an award.
- P.** After a contract is awarded, the school district shall return any bid security provided by unsuccessful bidders.
- Q.** Upon execution of the contract, if performance and payment bonds were not required, or upon receipt of the specified bonds, if performance and payment bonds were required, the school district shall return any bid security provided by the successful bidder.
- R.** Within 10 days after a contract is awarded, the school district shall make the procurement file, including all bids, available for public inspection.
 1. If the procurement file contains information that is confidential under R7-2-1006, a copy of the applicable documents with the confidential information redacted shall be placed in the procurement file for the purpose of public inspection.

R7-2-1032. Only One Bid Received

If only one responsive bid is received in response to an invitation for bids, an award may be made to the single bidder if the school district determines in writing that the bidder is responsible, that the price submitted is fair and reasonable, and that either other prospective bidders had reasonable opportunity to respond, or there is not adequate time for resolicitation. Otherwise the bid may be rejected in whole or in part as may be specified in the invitation for bids if it is advantageous to the school district. The reasons for cancellation or rejection shall be made part of the procurement file and:

1. New bids may be solicited;
2. The proposed procurement may be canceled; or
3. If the school district determines that the need for the material or service continues and the acceptance of the one bid is not advantageous to the school district, the procurement may then be conducted as follows:
 - a. The school district may follow the sole source procurement procedure if R7-2-1053 applies.
 - b. Notwithstanding any other provision of Articles 10 and 11, the school district may make emergency procurements pursuant to R7-2-1055 and R7-2-1056 if an emergency condition exists pursuant to R7-2-1055.

CHAPTER 2. STATE BOARD OF EDUCATION

- C. A school district may conduct a pre-technical offer conference open to all persons. If a pre-technical offer conference is conducted, it shall be not less than seven days before the technical offer due date and time, unless the school district makes a written determination that the specific needs of the procurement justify a shorter time. Statements made during the pre-technical offer conference shall not be considered modifications to the invitation to submit technical offers.
- D. The invitation to submit technical offers may be amended before or after the submission of the unpriced technical offers. Amendments to an invitation to submit technical offers shall be so identified and the school district shall ensure that the amendments are distributed or made available to all persons to whom the original invitation to submit technical offers was distributed or made available. The school district shall make a copy of the amendments to an invitation to submit technical offers available for public inspection at the school district office. If the school district posted the invitation to submit technical offers or a notice of the availability of an invitation to submit technical offers on a designated site on the Internet, then the school district shall post any amendments to the invitation to submit technical offers on the same designated site on the Internet. The school district shall also do one or more of the following:
 - a. Distribute the amendment, by any method reasonably calculated to ensure delivery, to all persons to whom the invitation to submit technical offers was distributed;

- 3. A person shall acknowledge receipt of an amendment in the manner specified in the invitation to submit technical offers or the amendment on or before the technical offer due date and time.

R7-2-1069. Guaranteed Energy Cost Savings Contracts

- A.** A school district may procure a guaranteed energy cost savings contract with a qualified provider through competitive sealed proposals in accordance with R7-2-1041 through R7-2-1050.
1. The request for proposal evaluation factors required by R7-2-1042(A)(1)(h) shall include objective criteria for selecting the qualified provider, including the cost of the contract, the energy cost savings, the net projected energy savings, the quality of the technical approach, the quality of the project management plan, the financial solvency of the qualified provider and the experience of the qualified provider with projects of similar size and scope.
 2. Notwithstanding R7-2-1042(A)(1)(h), the request for proposals shall set forth the respective numerical weighting for each evaluation criterion.
 3. At the qualified provider's expense, the proposal shall include an independent third-party validation of cost savings calculations associated with each proposed energy cost savings measure by a licensed, registered professional engineer, with credentials from the national association of energy engineers, who has demonstrated experience in energy analysis. The school district shall approve the selection of the independent third party.
 4. A school district may enter into a guaranteed energy cost savings contract with a qualified provider if the school district determines that the energy savings project will pay for itself within the expected life of the energy cost savings measures implemented (according to the manufacturer's equipment standards), the term of the financial agreement or 25 years, whichever is shortest, if the recommendations in the proposal are followed. Notwithstanding this subsection, a school district may elect to use a shorter capital cost repayment schedule than required pursuant to this subsection. The school district shall retain the cost savings achieved by a guaranteed energy cost savings contract, and these cost savings may be used to pay for the contract and project implementation.
 5. A qualified provider is a person that is experienced in designing, implementing or installing energy cost savings measures, that has a record of established projects or measures of similar size and scope, that has demonstrated technical, operational, financial and managerial capabilities to design and operate cost savings measures and projects and that has the financial ability to satisfy guarantees for energy cost savings.
- B.** In selecting a contractor to perform any construction work related to performing the guaranteed energy cost savings contract, the qualified provider may:
1. Develop and use a prequalification process for contractors.
 2. Require the contractor to demonstrate that the contractor is adequately bonded to perform the work and that the contractor has not failed to perform on a prior job.
- C.** A study shall be performed by the selected qualified provider in order to establish the exact scope of the guaranteed energy cost savings contract, the fixed cost savings guarantee amount and the methodology for determining actual savings. The selected qualified provider will provide the school district with a final study report which validates that the fixed cost savings guarantee amount will meet or exceed the cost savings calculations contained within the original proposal. The study report shall be reviewed and approved by the school district before the actual installation of any equipment. The qualified provider shall transmit a copy of the approved study report to the division of school facilities within the department of administration and the governor's office.
- D.** The information to develop the energy baseline shall be derived from historical energy costs or actual energy measurements or shall be calculated from energy measurements at the facility where energy cost savings measures are to be installed or implemented. The baseline shall be established before the installation or implementation of energy cost savings measures.
- E.** One or more school districts may enter into a financing agreement with a qualified provider or a financial institution, trustee or paying agent for the purchase and installation or implementation of energy cost savings measures. Any required financing may be obtained as part of the original competitive sealed proposal process from the qualified provider, or from a third-party financing institution that is procured separately in accordance with Articles 10 and 11.
- F.** The selected qualified provider shall provide a performance bond in accordance with R7-2-1103(A)(1)(c).
- G.** The selected qualified provider shall make public the information in the subcontractor's bids.
- H.** The guaranteed energy cost savings contract shall include the following:
1. A requirement that, in determining whether the projected energy savings calculations have been met, the energy savings shall be computed by comparing the energy baseline before installation or implementation of the energy cost savings measures with the energy consumed after installation or implementation of the energy cost savings measures. The qualified provider and the school district may agree to make modifications to the energy baseline only for any of the following:
 - a. Changes in utility rates.
 - b. Changes in the number of days in the utility billing cycle.
 - c. Changes in the square footage of the facility.
 - d. Changes in the operational schedule of the facility.
 - e. Changes in facility temperature.
 - f. Significant changes in the weather.
 - g. Significant changes in the amount of equipment or lighting used in the facility.
 - h. Significant changes in the nature or intensity of energy use such as the change of classroom space to laboratory space.
 2. A payment schedule, with payments over a period of not more than the expected life of the energy cost savings measures implemented (according to the manufacturer's equipment standards), the term of the financial agreement or 25 years, whichever is shortest, except a school district may elect to use a shorter capital cost repayment schedule than required pursuant to this subsection.
 3. A requirement that all payments, except obligations on termination of the contract before its expiration, be made pursuant to the terms of the financing agreement.
 4. A written guarantee from the qualified provider that the energy savings will meet or exceed the costs of the energy cost savings measures over the expected life of the energy cost savings measures implemented (according to the manufacturer's equipment standards), the term of the

 - b. Reimburses the school district for any shortfall of guaranteed energy cost savings on an annual basis.
 - c. Uses the international performance and measurement and verification protocol standards or the federal energy management program standards to validate the savings guarantee.
- I.** A school district may use a simplified energy performance contract for projects that are less than \$500,000. Simplified energy performance contracts are not required to include an energy savings guarantee and shall comply with all requirements in this Section except for subsections (D), (H)(1)(a) through (h) and (H)(4)(a) through (c).
- J.** This Section does not apply to the construction of new buildings.
- K.** For all projects under this Section, the school district shall report to the division of school facilities within the department of administration and the governor's office:
1. The name of the project.
 2. The name of the qualified provider.
 3. The total cost of the project.

E. After the bids and proposals are opened, they are irrevocable for the period specified in the invitation for bids or request for proposals, except as provided in R7-2-1030. If a bidder or offeror is permitted to withdraw its bid before award, no action may be had against the bidder or offeror or the bid security.

b. For construction-manager-at-risk construction services and design-build construction services, the amount of the performance bond shall be the price of construction and shall not include the cost of any design services, preconstruction services, finance services, maintenance services, operations services and other related services included in the contract. A payment bond that is executed and furnished as required by Arizona Revised Statutes Title 34, Chapter 2, Article 2 or Chapter 6, as applicable, in an amount equal to one hundred percent of the price specified in the contract for the protection of all persons supplying labor or material to the contractor or its subcontractors for the performance of the construction provided for in the contract, except that:

a. For job-order-contracting construction services, the payment bond shall cover the full amount of construction under the job-order-contracting construction services contract, shall not include any design services, preconstruction services, finance services, maintenance services, operations services or other related services included in the contract, may be a single bond for the full term of the contract, a separate bond for each year of a multiyear contract or a

CHAPTER 2. STATE BOARD OF EDUCATION

separate bond for each job order, as determined by the school district, and, if a single bond for the full term of the contract or a separate bond for each year of a multiyear contract, shall initially be based on the school district's reasonable estimate of the amount of construction that the school district believes is likely to actually be done during the full term of the contract or during the particular year of a multiyear contract, as applicable.

- b. For construction-manager-at-risk construction services and design-build construction services, the amount of the payment bond shall be the price of construction and shall not include the cost of any design services, preconstruction services, finance services, maintenance services, operations services or other related services included in the contract. The conditions and provisions of the payment bond regarding the surety's obligations shall follow the form required under A.R.S. § 34-222(F) or A.R.S. § 34-610(F), as applicable.
- B. For design-bid-build construction, the bonds prescribed in subsection (A) shall be provided on and at the same time as execution of the construction contract. For construction-manager-at-risk, design-build and job-order-contracting construction services, the bonds prescribed in subsection (A) shall be provided only on and at the same time as execution of a contract or contract modification that commits the contractor to provide construction for a fixed price, guaranteed maximum price or other fixed amount within a designated time frame.
- C. If the prime contract or specifications require any persons supplying labor or materials in the prosecution of the work to furnish payment or performance bonds, these bonds shall be executed solely by a surety company or companies holding a certificate of authority to transact surety business in this state issued by the director of the Department of Insurance pursuant to Arizona Revised Statutes Title 20, Chapter 2, Article 1. Notwithstanding the provisions of any other statute, the bonds shall not be executed by an individual surety or sureties, even if the requirements of A.R.S. § 7-101 are satisfied.
- D. If a contractor fails to deliver the required performance bond or payment bond, the contractor's bid shall be rejected, its bid security shall be enforced, and award of the contract shall be made pursuant to Articles 10 and 11.
- E. This Section shall not be construed to limit the authority of the school district to require a performance bond or other security in addition to those bonds or in circumstances other than specified in subsection (A).
- F. Any person who furnishes labor or material to the contractor or its subcontractors for the work provided in the contract, in respect of which a payment bond is furnished under this Section, and who has not been paid in full within 90 days from the date on which the last of the labor was performed or material was supplied by the person for whom the claim is made has the right to sue on the payment bond for any amount unpaid at the time the suit is instituted and to prosecute the action for the amount due the person. However, any person who has a contract with a subcontractor of the contractor, but no express or implied contract with the contractor furnishing the payment bond, has a right of action on the payment bond on giving the contractor, only, a written preliminary 20-day notice as provided for in A.R.S. § 33-992.01, subsection (C)(1), (2), (3), and (4) and subsections (D), (E), and (H), and upon giving written notice to the contractor within 90 days from the date on which the last of the labor was performed or material was sup-

plied by the person for whom the claim is made. The person shall state in the notice the amount claimed and the name of the party for whom the labor was performed or to whom the material was supplied. The notice shall be personally served or sent by registered mail, postage prepaid, in an envelope addressed to the contractor at any place the contractor maintains an office or conducts business.

Historical Note

Adopted effective December 17, 1987 (Supp. 87-4). Section repealed; new Section made by final exempt rulemaking at 21 A.A.R. 1525, effective July 1, 2014 (Supp. 15-3); effective year corrected in Supp. 18-2. The term "one hundred" was changed to "100" to reflect current standards in Chapter style and format (Supp. 21-2).

R7-2-1104. Contract Payment Retention and Substitute Security

- A. Ten percent of all construction contract payments shall be retained by the school district as insurance of proper performance of the contract or, at the option of the contractor, a substitute security may be provided by the contractor pursuant to this Section. The contractor is entitled to all interest from any such substitute security. When the contract is fifty percent completed, one-half of the amount retained or securities substituted pursuant to this Section shall be paid to the contractor upon the contractor's request provided the contractor is making satisfactory progress on the contract and there is no specific cause or claim requiring a greater amount to be retained. After the contract is fifty percent completed, no more than five percent of the amount of any subsequent progress payments made under the contract shall be retained providing the contractor is making satisfactory progress on the project, except if at any time the governing board determines satisfactory progress is not being made, ten percent retention shall be reinstated for all progress payments made under the contract subsequent to the determination.
- B. Notwithstanding subsection (A), there shall be no retention for job-order-contracting construction services contracts. The school district may elect to have no retention for construction-manager-at-risk and design-build construction services contracts. If the school district elects to have retention, then payment retention for construction-manager-at-risk and design-build contracts shall be in accordance with this Section.
- C. Retention applies only to amounts payable for construction and does not apply to amounts payable for design services, preconstruction services, finance services, maintenance services, operations services, or any other related services included in the contract.
- D. The form of substitute security is limited to the following:
 1. An assignment of time certificates of deposit by financial institutions licensed by this state;
 2. Share certificate of a financial institution or credit union authorized to transact business in this state; or
 3. Security issued or guaranteed as to principal and interest by:
 - a. The United States;
 - b. The state;
 - c. Counties, municipalities and school districts within this state.
- E. Conditions for use of substitute security.
 1. A contractor may submit substitute security to replace contract payment retention if:
 - a. The use of substitute security is requested of the school district or designee for work performed under

TITLE 7. EDUCATION

CHAPTER 2. STATE BOARD OF EDUCATION

the contract. The contractor shall have the option of submitting the substitute security:

- i. Prior to each progress payment in an amount of no less than five percent of each progress payment; or
- ii. Once, prior to the first progress payment in an amount no less than five percent of the total contract amount.
- b. The interest earned on such security shall accrue to the benefit of the contractor, but shall be retained until the school district has approved completion and acceptance of all work to be performed under the contract;
- c. The term of such security shall not mature until after the estimated contract completion date; and
- d. The security shall mature no later than one year after the estimated contract completion date.
2. The substitute security shall not be released without written approval by the school district.
3. A contractor may submit a single substitute security for more than one project provided that:
 - a. The amount of such security is sufficient to cover the aggregate retention amount;
 - b. The school district determines that such single substitute security is advantageous to the school district; and
 - c. Such security complies with the requirements of subsection (E)(1).
- F. Any retention shall be paid or substitute security shall be returned to the contractor within 60 days after final completion and acceptance of work under the contract. Retention of payments by a school district longer than 60 days after final completion and acceptance requires a specific written finding by the governing board of the reasons justifying the delay in payment. No school district may retain any monies after 60 days which are in excess of the amount necessary to pay the expenses the governing board reasonably expects to incur in order to pay or discharge the expenses determined in the finding justifying the retention of monies.
- G. The school district shall not accept any substitute security unless accompanied by a signed and acknowledged waiver of any right or power of the obligor to set off any claim against either the school district or the contractor in relationship to the security assigned. In any instance in which the school district accepts substitute security as provided in this Section, any subcontractor undertaking to perform any part of the contract is entitled to provide such security to the contractor.

Historical Note

Adopted effective December 17, 1987 (Supp. 87-4). Section repealed; new Section made by final exempt rulemaking at 21 A.A.R. 1525, effective July 1, 2014 (Supp. 15-3); effective year corrected in Supp. 18-2.

R7-2-1105. Progress Payments

- A. Progress payments may be made by the school district to the contractor on the basis of a duly certified and approved estimate of the work performed during the preceding month if the contractor agrees to adhere to the provisions of A.R.S. § 41-2577(B), (D), and (F). Payment shall be made within 14 days after the estimate of the work is certified and approved, except that a percentage of all estimates shall be retained as provided in R7-2-1104. The estimate of the work shall be deemed received by the school district on submission of the estimate of the work to the school district or a person designated by the

school district for the submission, review or approval of the estimate of the work. An estimate of the work submitted under this Section shall be considered approved and certified after seven days from the date of submission unless before that time the school district or designee prepares and issues a specific written finding detailing those items in the estimate of the work that are not approved and certified under the contract or design professional service contract. The school district may withhold an amount from the progress payment sufficient to pay the expenses the school district reasonably expects to incur in correcting the deficiency set forth in the written finding. No contract for construction or design professional service contract may materially alter the rights of any contractor, subcontractor, design professional or material supplier to receive prompt and timely payment as provided under this Section. On completion and acceptance of separate divisions of the contract or design professional service contract on which the price is stated separately in the contract, payment may be made in full including retained percentages, less deductions, unless a substitute security has been provided pursuant to R7-2-1104.

- B. Progress payments pursuant to subsection (A) are authorized for construction services and design professional services contracts. The requirements of subsection (A) apply only to amounts payable in a construction services contract for construction and in a contract for design services and do not apply to amounts payable in a contract for preconstruction services, finance services, maintenance services, operations services or any other related services included in the contract.
- C. A subcontractor or design professional may notify the school district, in writing, requesting that the subcontractor or design professional be notified by the school district in writing within five days from payment of each progress payment made to the contractor. The subcontractor's or design professional's request remains in effect for the duration of the subcontractor's or design professional's work on the project.
- D. If any payment to a contractor is delayed after the date due, interest shall be paid at the rate of one percent per calendar month, or a fraction of a calendar month, on such unpaid balance as may be due.

Historical Note

Adopted effective December 17, 1987 (Supp. 87-4). Section repealed; new Section made by final exempt rulemaking at 21 A.A.R. 1525, effective July 1, 2014 (Supp. 15-3); effective year corrected in Supp. 18-2. Amended by final exempt rulemaking at 26 A.A.R. 597, effective July 1, 2020 (Supp. 20-1).

R7-2-1106. Procurement of Construction Using Alternative Project Delivery Methods

- A. A school district may use an alternative project delivery method if it determines in writing that such alternative project delivery method is advantageous to the school district. The following factors may be used for such determination:
 1. Cost and cost control method;
 2. Value engineering;
 3. Market conditions;
 4. Schedule;
 5. Required specialized expertise;
 6. Technical complexity of the project; or
 7. Project management.
- B. Use of alternative project delivery methods
 1. Alternative project delivery methods for construction services shall be procured as provided in R7-2-1100.

TITLE 7. EDUCATION

CHAPTER 2. STATE BOARD OF EDUCATION

2. For design-build construction services and construction-manager-at-risk construction services, the school district is limited to one contract per procurement.
 - a. Alternatively, for construction-manager-at-risk construction services, a school district may elect separate contracts for preconstruction services during the design phase, for construction during the construction phase and for any other construction services.
 - b. Alternatively, for design-build construction services, a school district may elect separate contracts for preconstruction services and design services during the design phase, for construction and design services during the construction phase and for any other construction services.
 - c. If the school district enters into the first contract for preconstruction services or construction services the procurement ends. After execution of that first contract the school district may not use the procurement or the existing final list in the procurement as the basis for entering into a contract with any other person that participated in the procurement.
3. For job-order-contracting construction services, the school district may award a single contract, or multiple contracts for similar job-order-contracting construction services to be awarded to separate persons. If the school district enters into the number of contracts specified under the request for qualifications, the procurement ends. After that time the school district may not use the procurement or any existing final list in the procurement as the basis for entering into a contract with any other person that participated in the procurement.
4. All construction-manager-at-risk construction services or design-build construction services included in a procurement shall be limited to construction services to be performed at a single location, a common location or, if the construction services are all for a similar purpose, multiple locations. For construction-manager-at-risk construction services and design-build construction services to be performed at multiple locations:
 - a. At the time the request for qualifications is issued, the school district shall intend to commence all construction at each location within thirty months after execution of the first contract for preconstruction services or other construction services at any of the locations.
 - b. The request for qualifications shall include the information described in R7-2-1108(B)(2).
5. The school district and the selection committee shall not request or consider fees, price, man-hours or any other cost information at any point in the selection process under this Section and R7-2-1107, R7-2-1108, R7-2-1110, and R7-2-1111, including the selection of persons to be interviewed, the selection of persons to be on the final list, in determining the order of preference of persons on the final list or for any other purpose in the selection process, except as provided in R7-2-1110(D) and R7-2-1111.
6. In determining the persons to participate in any interviews, in determining the persons to be on the final list, and in determining the order on the final list, the selection committee shall use and consider only the criteria and weighting of criteria in the request for qualifications. No other factors or criteria may be used in the evaluation, determinations and other actions.
7. Notwithstanding any other provision specifying the number of persons to be interviewed, the number of persons to be on a final list, or any other numerical specification in R7-2-1106 through R7-2-1115:
 - a. If a smaller number of persons respond to the request for qualifications or if one or more persons drop out of the procurement so there is a smaller number of persons participating in the procurement, the school district, as the school district determines necessary and appropriate, may elect to proceed with the participating persons if there are at least two participating responsive and responsible persons. Alternatively, the school district may elect to terminate the procurement.
 - b. As to a request for qualifications to be negotiated pursuant to R7-2-1110(D), if only one responsive and responsible person responds to the request for qualifications or if one or more persons drop out of the procurement so that only one responsive and responsible person remains in the procurement, the school district may elect to proceed with the procurement with only one person if the governing board determines in writing that the negotiated fee is fair and reasonable and that either other prospective persons had reasonable opportunity to respond or there is not adequate time for a resolicitation.
 - c. If a person on the final list withdraws or is removed from the procurement and the selection committee determines that it is advantageous to the school district, the selection committee may replace that person on the final list with another person that submitted qualifications in the procurement and that is selected as the next most qualified.

Historical Note

New Section made by final exempt rulemaking at 21 A.A.R. 1525, effective July 1, 2014 (Supp. 15-3); effective year corrected in Supp. 18-2.

R7-2-1107. Selection Committee

- A. The school district shall initiate an appropriately qualified selection committee for each request for qualifications. The school district shall ensure that selection committee members are competent to serve on the selection committee.
- B. Each selection committee shall include at least one school district representative appointed by the school district.
- C. The selection committee shall not have more than seven members and shall include at least one person who is a senior management employee of a licensed contractor and one person who is an architect or an engineer who is registered pursuant to A.R.S. § 32-121.
- D. Non-school district employees serving on a selection committee shall not receive compensation from the school district for performing this service, but the school district may elect to reimburse non-school district members for travel, lodging and other expenses incurred in connection with service on a selection committee.
- E. A person who is a member of a selection committee shall not be a contractor or subcontractor under a contract awarded under the procurement or provide any specified professional services, construction, construction services, materials or other services under the contract.
- F. For the procurement of multiple contracts for job-order-contracting, the same selection committee shall be used for all contracts in the procurement.

The final list selection criteria and relative weights may be different than the selection criteria and relative weights used to determine the persons to be interviewed. The request for qualifications also shall state whether the school district will select the persons on the final list and their order on the final list solely through the results of the interview process or through the combined results of both the interview process and the evaluation of statements of qualifications and performance data submitted in response to the school district's request for qualifications.
 5. Whether one contract or multiple contracts may or will be awarded.

R7-2-1110. Committee Evaluation and Contract Award

- A. If interviews are specified in the request for qualifications:
 1. The selection committee shall determine the persons to be interviewed by evaluating the statements of qualifications and performance data submitted based solely on the selection criteria and relative weights in the request for qualifications to be used to determine the persons to be interviewed.
 2. If the selection criteria and relative weights to be used by the selection committee to select the persons on the final list and to determine their order on the final list are not included in the request for qualifications:
 - a. Before the interviews are held the school district shall distribute to the persons to be interviewed the selection criteria and relative weights to be used to select the persons on the final list and to determine their order on the final list.
 - b. These selection criteria and relative weights may be different than the selection criteria and relative weight used to determine the persons to be interviewed.
 3. The selection committee shall conduct interviews with the number of persons specified in the request for qualifications.
- B. Based solely on the selection criteria and relative weights for selection of the persons on the final list and their order on the final list, the selection committee shall select the persons for the final list and, in the case of a final list for a contract that will be negotiated under subsection (D), rank the persons in order of preference.
- C. The school district shall make the following notifications regarding the final lists:
 1. If the contract will be negotiated under subsection (D) before or at the same time as the school district notifies the highest ranking person on the final list that it is the highest ranking person, the school district shall send actual notice to each of the following that it is not the highest ranking person or that another person is the highest ranking person:
 - a. If interviews were held, the other persons interviewed.
 - b. If interviews were not held, the other persons that made submittals.
 2. If the contract will be awarded under R7-2-1111, before or at the same time as the school district notifies the persons on the final list that they are on the final list, the school district shall send actual notice to each of the following persons that they are not on the final list or that other persons are on the final list:
 - a. If interviews were held, the other persons interviewed.
 - b. If interviews were not held, the other persons that made submittals.
- D. The school district shall conduct negotiations with persons on the final list as follows:
 1. The negotiations shall include consideration of compensation and other contract terms that the school district determines to be fair and reasonable to the school district. In making this decision, the school district shall take into account the estimated value, the scope, the complexity and the nature of the construction services to be rendered.

TITLE 7. EDUCATION

CHAPTER 2. STATE BOARD OF EDUCATION

2. If the procurement is for a single contract, there is one final list and the school district shall enter into negotiations with the highest qualified person on the final list. If the school district is not able to negotiate a satisfactory contract with the highest qualified person on the final list, at compensation and on other contract terms the school district determines to be fair and reasonable, the school district shall formally terminate negotiations with that person. The school district shall then undertake negotiations with the next most qualified person on the final list in sequence until an agreement is reached or a determination is made to reject all persons on the final list.
3. If the procurement is for multiple contracts for similar job-order-contracting construction services to be awarded to separate persons, there is one final list and the school district shall enter into separate negotiations for contracts with the number of the highest qualified persons on the final list equal to the number of contracts to be awarded. If the school district is not able to negotiate a satisfactory contract with a person with whom the school district has commenced negotiations, the school district shall formally terminate negotiations with that person. The school district shall then undertake negotiations for a contract with the next most qualified person on the final list with whom the school district is not then negotiating and with whom the school district has not previously negotiated in sequence until an agreement is reached for some or all of the multiple contracts included in the request for qualifications or a determination is made to reject all persons on the final list.
4. If the school district terminates negotiations with a person and commences negotiations with another person on the final list, the school district shall not recommence negotiations or enter into a contract for the construction services covered by the final list with any person with whom the school district terminated negotiations.

 2. The contractor for construction-manager-at-risk, design-build or job-order-contracting construction services shall be licensed to perform construction pursuant to A.R.S. Title 32, Chapter 10.
 3. The school district shall obtain and maintain a record of proof in the procurement file that a construction or construction services provider that has been awarded a contract with the school district, or through a cooperative purchasing agreement, has a license in good standing to perform construction work pursuant to A.R.S. licensure for professions that are not licensed pursuant to A.R.S. Title 32, Chapter 10.

- B. In a procurement for construction-manager-at-risk construction services or design-build construction services, except for design-build contracts awarded pursuant to R7-2-1111, the school district shall enter into a written contract with the contractor for preconstruction services under which the school district shall pay the contractor a fee for preconstruction services in an amount agreed by the school district and the contractor, and the school district shall not request or obtain a fixed price or a guaranteed maximum price for the construction from the contractor or enter into a construction contract with the contractor until after the school district has entered into the written contract for preconstruction services and a preconstruction services fee.
- C. Construction shall not commence under a construction services contract until the school district and contractor agree in writing on either a fixed price that the school district will pay or a guaranteed maximum price for the construction to be commenced. The construction to be commenced may be the entire project or may be one or more phased parts of the project.
- D. For negotiated construction-manager-at-risk and design-build contracts, preconstruction services, general conditions, schedules, construction contingency, and construction fees shall be part of the contract. For design-build contracts awarded pursuant to a request for proposals, the fees shall be included in the vendor's proposal and shall become part of the awarded contract.

The maximum dollar amount of an individual job order for job-order-contracting construction services shall be one million dollars or a higher or lower amount prescribed by the governing board in a policy adopted in a public meeting held pursuant to A.R.S. Title 38, Chapter 3, Article 3.1. Requirements shall not be artificially divided or fragmented in order to constitute a job order that satisfies the requirements of this subsection.

The school district may use methods other than competitive bidding to assure itself that the price the school district pays to the contractor for self-performed work is fair and reasonable. Permitted methods to evaluate fairness and reasonableness of the price of self-performed work include evaluation of the contractor's proposed scope of work and price for self-performed work by an estimator who is hired and paid by the school district, who is independent of the contractor and who may be an employee of the school district. Although the school district may elect to so require, nothing in Articles 10 and 11 shall be construed or interpreted to require the school district to require a contractor desiring to self-perform part of the construction work to competitively bid that part of the construction work against other contractors in a bid competition.
- G. For all construction services contracts, the following requirements apply to the construction work to be performed by subcontractors and do not apply to construction work that the school district and the contractor agree in writing will be self-performed by the contractor:

 2. A hearing may be conducted in an informal manner and without adherence to the rules of evidence required in judicial proceedings. Neither the manner of conducting the hearing nor the failure to adhere to the rules of evidence required in judicial proceedings shall be grounds for reversing any administrative decision or order if the evidence supporting the decision or order is substantial, reliable and probative.
 3. The parties may submit proposed findings of fact and conclusions of law prior to the hearing. The hearing officer may require that the parties submit proposed findings of fact and conclusions of law prior to the hearing or at the close of evidence.
 4. All interested parties shall be ready and present with all witnesses and documents at the time and place specified in the notice of hearing and shall be prepared at such time to dispose of all issues and questions involved in the appeal. An interested party shall arrange for the presence of that party's witnesses at a hearing.
 5. If a party fails to appear at a hearing, the hearing body may proceed with the presentation of the evidence of the appearing party.
 6. The Hearing Officer conducting the hearing may close the hearing to other than interested parties to the extent necessary to protect the interests and rights of the interested parties, within the requirements of A.R.S. §§ 38-431.01, and 38-431.03.
 7. The Hearing Officer may conduct all or part of the hearing by telephone other electronic means, as long as each party has an opportunity to participate in the entire proceeding as it takes place.
 8. Conduct at any hearing that is disruptive or shows contempt for the proceeding shall be grounds for exclusion from further participation.
- P. Evidence**
1. All witnesses shall testify under oath or affirmation. The hearing officer shall administer oaths and affirmations.
 2. The hearing officer shall afford interested parties an opportunity either to present oral or documentary evidence, or both, and to conduct such cross-examination as may be required for a full and fair disclosure of the facts. The hearing officer may limit the time of oral argument.
 3. The hearing officer may choose to admit evidence, a witness' deposition, or a witness' affidavit and determine evidentiary weight of all submitted evidence. The party taking a witness' deposition or affidavit shall bear all deposition-related or affidavit-related costs. The hearing officer shall make rulings necessary to prevent argumentative, repetitive, or irrelevant questioning, to exclude evidence the hearing officer determines to be irrelevant, immaterial or unduly repetitious, and to expedite the examination to the extent consistent with the disclosure of all relevant testimony and information.

TITLE 7. EDUCATION

CHAPTER 2. STATE BOARD OF EDUCATION

- Q.** Stipulations. Parties to any contested case may stipulate, in writing, agreement upon any matter involved in the proceeding. PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

RULES

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2022 is cited as Supp. 22-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. This is why the Office lists only updated codified Sections on the previous page.

RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State’s website, www.azsos.gov under Services-> Legislative Filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.
