PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

RULES

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2022 is cited as Supp. 22-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. This is why the Office lists only updated codified Sections on the previous page.

RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State’s website, www.azsos.gov under Services-> Legislative Filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

RULES

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2022 is cited as Supp. 22-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. This is why the Office lists only updated codified Sections on the previous page.

RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State’s website, www.azsos.gov under Services-> Legislative Filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

TITLE 12. NATURAL RESOURCES

CHAPTER 4. GAME AND FISH COMMISSION

Authority: A.R.S. § 17-201 et seq.

Supp. 24-2

Editor's Note: The Office of the Secretary of State publishes all Chapters on white paper (Supp. 01-2).

Editor's Note: This Chapter contains rules which were adopted or amended under an exemption from the Arizona Administrative Procedure Act (A.R.S. Title 41, Chapter 6), pursuant to A.R.S. § 41-1005(A)(1). Exemption from A.R.S. Title 41, Chapter 6 means that the Game and Fish Commission did not submit notice of this rulemaking to the Secretary of State's Office for publication in the Arizona Administrative Register; the Governor's Regulatory Review Council did not review these rules; the Commission was not required to hold public hearings on these rules; and the Attorney General did not certify these rules. Because this Chapter contains rules which are exempt from the regular rulemaking process, the Chapter is printed on blue paper.

1. Each bonus point random number entry is in addition to the entry normally granted under R12-4-104.

R12-4-110. Posting and Access to State Land

A. For the purpose of this Section:

“Corrals,” “feed lots,” or “holding pens” mean completely fenced areas used to contain livestock for purposes other than grazing.

“Existing road” means any maintained or unmaintained road, way, highway, trail, or path that has been used for motorized vehicular travel, and clearly shows or has a history of established vehicle use, and is not currently closed by the Commission.

“State lands” means all land owned or held in trust by the state that is managed by the State Land Department and lands that are owned or managed by the Game and Fish Commission.

B. In addition to the prohibition against posting proscribed under A.R.S. § 17-304, a person shall not lock a gate, construct a fence, place an obstacle, or otherwise commit an act that denies legally available access to or use of any existing road upon state lands by persons lawfully taking or retrieving wildlife or conducting any activities that are within the scope of and take place while lawfully hunting or fishing.

1. A person in violation of this Section shall take immediate corrective action to remove any lock, fence, or other obstacle unlawfully preventing access to state lands.
2. If immediate corrective action is not taken, a representative of the Department may remove any unlawful posting and remove any lock, fence, or other obstacle that unlawfully prevents access to state lands.
3. In addition, the Department may take appropriate legal action to recover expenses incurred in the removal of any unlawful posting or obstacle that prevented access to state land.

C. The provisions of this Section do not allow any person to trespass upon private land to gain access to any state land.

D. A person may post state lands as closed to hunting, fishing, or trapping without further action by the Commission when the state land is within one-quarter mile of any:

1. Occupied residence, cabin, lodge, or other building; or
2. Corrals, feed lots, or holding pens containing concentrations of livestock other than for grazing purposes.
3. Subsection (D) does not authorize any person to deny lawful access to state land in any way.

TITLE 12. NATURAL RESOURCES

CHAPTER 4. GAME AND FISH COMMISSION

- E.** The Commission may grant permission to lock, tear down, or remove a gate or close a road or trail that provides legally available access to state lands for persons lawfully taking wildlife or conducting any activities that are within the scope of and take place while lawfully hunting or fishing if access to such lands is provided by a reasonable alternate route.
- Under R12-4-610, the Director may grant a permit to a state land lessee to temporarily lock a gate or close an existing road that provides access to state lands if the taking of wildlife will cause unreasonable interference during a critical livestock or commercial operation. This permit shall not exceed 30 days.
 - Applications for permits for more than 30 days shall be submitted to the Commission for approval.
 - If a permit is issued to temporarily close a road or gate, a copy of the permit shall be posted at the point of the closure during the period of the closure.
- F.** A person may post state lands other than those referenced under subsection (D) as closed to hunting, fishing, or trapping, provided the person has obtained a permit from the Commission authorizing the closure. A person possessing a permit authorizing the closure of state lands shall post signs in compliance with A.R.S. 17-304(C). The Commission may permit the closure of state land when it is necessary:
- Because the taking of wildlife constitutes an unusual hazard to permitted users;
 - To prevent unreasonable destruction of plant life or habitat; or
 - For proper resource conservation, use, or protection, including but not limited to high fire danger, excessive interference with mineral development, developed agricultural land, or timber or livestock operations.
- G.** A person shall submit an application for posting state land to prohibit hunting, fishing, or trapping under subsection (F), or to close an existing road under subsection (E), as required under R12-4-610. If an application to close state land to hunting, fishing, or trapping is made by a person other than the state land lessee, the Department shall provide notice to the lessee and the State Land Commissioner before the Commission considers the application. The state land lessee or the State Land Commissioner shall file any objections with the Department, in writing, within 30 days after receipt of notice, after which the matter shall be submitted to the Commission for determination.
- H.** A person may use a vehicle on or off a road to pick up lawfully taken big game.
- I.** The closing of state land to hunting, fishing, or trapping shall not restrict any other permitted use of the land.
- J.** State trust land may be posted with signs that read "State Land No Trespassing," but such posting shall not prohibit access to such land by any person lawfully taking or retrieving wildlife or conducting any activities that are within the scope of and take place while lawfully hunting or fishing.
- K.** When hunting, fishing, or trapping on state land, a license holder shall not:
- Break or remove any lock or cut any fence to gain access to state land;
 - Open and not immediately close a gate;
 - Intentionally or wantonly destroy, deface, injure, remove, or disturb any building, sign, equipment, marker, or other property;
 - Harvest or remove any vegetative or mineral resources or object of archaeological, historic, or scientific interest;
 - Appropriate, mutilate, deface, or destroy any natural feature, object of natural beauty, antiquity, or other public or private property;
 - Dig, remove, or destroy any tree or shrub;
 - Gather or collect renewable or non-renewable resources for the purpose of sale or barter unless specifically permitted or authorized by law;
 - Frighten or chase domestic livestock or wildlife, or endanger the lives or safety of others when using a motorized vehicle or other means; or
 - Operate a motor vehicle off road or on any road closed to the public by the Commission or landowner, except to retrieve a lawfully taken big game.

1. A person purchasing a nonpermit-tag shall provide all of the following information to a Department office or license dealer at the time of purchase; the applicant's:
 - a. Name,

 2. An applicant shall not obtain nonpermit-tags in excess of the bag limit established by Commission Order when it established the season for which the nonpermit-tags are valid.
- C. If the number of hunt permits for a species in a particular hunt area must be limited, a Commission Order establishes a hunt number for that hunt area and a hunt permit-tag is required to take the species in that hunt area.
1. A person applying for a hunt permit-tag shall submit an application as described under R12-4-104.
 2. The Department shall determine whether a hunt permit-tag will be issued to an applicant as follows:
 - a. The Department shall reserve a maximum of 20% of the hunt permit-tags for each hunt number, except as established under subsection (C)(2)(b), for bear, deer, elk, javelina, pronghorn, Sandhill crane, and turkey and reserve a maximum of 20% of the hunt permit-tags for all hunt numbers combined statewide for bighorn sheep and bison to issue to persons who have bonus points and shall issue the hunt permit-tags as established under subsection (C)(2)(c).
 - b. For bear, deer, elk, javelina, pronghorn, Sandhill crane, and turkey, the Department shall reserve one hunt permit-tag for any hunt number with fewer than five, but more than one, hunt permit-tags and shall issue the tag as established under subsection (C)(2)(c). When this occurs, the Department shall adjust the number of available hunt permit-tags in order to ensure the total number of hunt permit-tags available does not exceed the 20% maximum specified in subsection (C)(2)(a).
 - c. The Department shall issue the reserved hunt permit-tags for hunt numbers that eligible applicants designate as their first or second choices. The Department shall issue the reserved hunt permit-tags by random selection:

TITLE 12. NATURAL RESOURCES

CHAPTER 4. GAME AND FISH COMMISSION

- i. First, to eligible applicants with the highest number of bonus points for that genus;
 - ii. Next, if there are reserved hunt permit-tags remaining, to eligible applicants with the next highest number of bonus points for that genus; and
 - iii. If there are still tags remaining, to the next eligible applicants with the next highest number of bonus points; continuing in the same manner until all of the reserved tags have been issued or until there are no more applicants for that hunt number who have bonus points.
 - d. The Department shall ensure that all unreserved hunt permit-tags are issued by random selection:
 - i. First, to hunt numbers designated by eligible applicants as their first or second choices; and
 - ii. Next, to hunt numbers designated by eligible applicants as their third, fourth, or fifth choices.
 - e. Before each of the three passes listed under (C)(2)(c)(i), (ii), and (iii), each application is processed through the Department's random number generator program. A random number is assigned to each application; an additional random number is assigned to each application for each group bonus point, including the Education and Loyalty bonus points. Only the lowest random number generated for an application is used in the computer draw process. A new random number is generated for each application for each pass of the computer draw.
 - f. If the bag limit is more than one per calendar year, or if there are unissued hunt permit-tags remaining after the random computer draw, the Department shall ensure these hunt permit-tags are available on a first-come, first-served basis as specified in the annual hunt permit-tag application schedule.
- D. A person may purchase hunt permit-tags equal to the bag limit for a genus.
 - 1. A person shall not exceed the established bag limit for that genus.
 - 2. A person shall not apply for any additional hunt-permit-tags if the person has reached the bag limit for that genus during the same calendar year.
 - 3. A person who surrenders a tag in compliance with R12-4-118 is eligible to apply for another hunt permit-tag for the same genus during the same calendar year, provided the person has not reached the bag limit for that genus.
- E. The Department shall make available to nonresidents:
 - 1. For bighorn sheep and bison, no more than one hunt permit-tag or 10% of the total hunt permit-tags, whichever is greater, for bighorn sheep or bison in any computer draw. The Department shall not make available more than 50% nor more than two bighorn sheep or bison hunt permit-tags of the total in any hunt number.
 - 2. For antlered deer, bull elk, pronghorn, Sandhill crane, or turkey, no more than 10%, rounded down to the next lowest number, of the total hunt permit-tags in any hunt number. If a hunt number for antlered deer, bull elk, pronghorn, Sandhill crane, or turkey has 10 or fewer hunt permit-tags, no more than one hunt permit-tag will be made available unless the hunt number has only one hunt permit-tag, then that tag shall only be available to a resident.
- F. The Commission may, at a public meeting, increase the number of hunt permit-tags issued to nonresidents in a computer draw when necessary to meet management objectives.
- G. The Department shall not issue under subsection (C)(2)(c), more than half of the hunt permit-tags made available to nonresidents under subsection (E).
- H. A nonresident cap established under this Section applies to:
 - 1. Hunt permit-tags issued by computer draw under subsections (C)(2)(c) and (d), and
 - 2. Archery deer nonpermit-tags.
 - a. The number of archery deer nonpermit-tags made available to nonresidents shall be set annually at 10% of the average total archery deer nonpermit-tag sales for the preceding five years, rounded down to the nearest increment of five.
 - b. The Commission, through the nonpermit-tag first-come schedule published by the Department, shall designate the manner and method of purchasing a nonresident archery deer nonpermit-tag, which may require an applicant to apply online only.
 - c. If the Commission requires applicants to use the online method, the Department shall accept paper applications only in the event of a Department systems failure. The Director has the authority to extend the nonpermit-tag first-come schedule if a problem occurs that prevents the public from purchasing a nonpermit-tag within the deadlines set by the Commission.

The Commission's order granting a rehearing or review shall specify the grounds for the order, and any rehearing shall cover only those grounds upon which the rehearing or review was granted.
- F.** After giving the party notice and an opportunity to be heard, the Commission may grant a motion for a rehearing or review for a reason not stated in the motion.
- G.** Within the time-frame for filing the motion for rehearing or review, the Commission may grant a rehearing or review on its own initiative for any reason for which the Commission may have granted relief on motion of a party.
- H.** When the Commission grants a rehearing or review, the Commission shall hold the rehearing or review at its next regularly scheduled meeting or within 90 days of issuance of the order granting the rehearing or review. With the consent of the parties, the Commission may proceed to conduct the rehearing or review in the same meeting in which the Commission granted the rehearing or review.

PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

RULES

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2022 is cited as Supp. 22-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. This is why the Office lists only updated codified Sections on the previous page.

RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State’s website, www.azsos.gov under Services-> Legislative Filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

TITLE 12. NATURAL RESOURCES

CHAPTER 5. STATE LAND DEPARTMENT

Authority: A.R.S. § 37-102 et seq.

Supp. 24-2

Editor's Note: The Office of the Secretary of State publishes all Code Chapters on white paper (Supp. 02-1).

Editor's Note: The proposed summary action repealing R12-5-901 through R12-5-920 was remanded by the Governor's Regulatory Review Council which revoked the interim effectiveness of the summary rules. Sections in effect before the proposed summary action have been restored (Supp. 98-3).

Editor's Note: This Chapter contains rules which were adopted or amended under an exemption from the Arizona Administrative Procedure Act (A.R.S. Title 41, Chapter 6), pursuant to Laws 1992, Ch. 297, § 6. Exemption from A.R.S. Title 41, Chapter 6 means that the Land Department did not submit notice of this rulemaking to the Secretary of State's Office for publication in the Arizona Administrative Register; the Governor's Regulatory Review Council did not review these rules; the Land Department was not required to hold public hearings on these rules; and the Attorney General did not certify these rules. Because this Chapter contains rules which are exempt from the regular rulemaking process, the Chapter is printed on blue paper.

Title 12, Chapter 5, Articles 1 thru Article 23, were renumbered to bring the Chapter numbering into compliance with current format. For the old and new Section numbers, please refer to the introductory notes at the beginning of each Article in the table of contents or in the historical notes for the specific Sections.

The submitting party shall identify documentary exhibits by number or letter and party and shall furnish a copy of each exhibit to each party present. If evidence offered by a party appears in a larger work that contains other information, the party shall plainly designate the portion offered. If the evidence offered is in a volume of a length that would unnecessarily encumber the record, the hearing officer shall not receive the book, paper, or document in evidence but the evidence may be marked for identification and, if properly authenticated, the designated portion may be read into or photocopied for the record. All documentary evidence offered is subject to appropriate and timely objection.

Editor's Note: The following Section was amended by emergency rulemaking effective December 20, 2002 to November 18, 2003. The State Land Department filed a rulemaking package for the permanent Section October 8, 2003, without requesting an immediate effective date. The effective date of the permanent rule would have been December 7, 2003, creating a three-week "window" during which neither the emergency rule nor the amended permanent rule would have been in effect. To avoid this, the Department refiled the permanent rule with the Governor's Regulatory Review Council, this time requesting an immediate effective date. G.R.R.C. approved the refiled rule and filed it with the Secretary of State November 4, 2003, thereby resolving the issue (Supp. 03-4).

 2. The location and size of the parcel being offered,
 3. The terms of the sale or lease,
 4. The marketability of the land, and
 5. The best interest of the State Trust.
- B.** If a commission is offered for the sale or long-term commercial lease of state land at public auction, the Department shall pay the commission from the fees collected under A.R.S. § 37-108(A)(10)(a).
- C.** The Department shall publish the decision of the Commissioner to pay or not pay a commission for the sale or long-term commercial lease of state land and the amount and terms of the commission offered, if any, in the public notice of the auction.

TITLE 12. NATURAL RESOURCES

CHAPTER 5. STATE LAND DEPARTMENT

- D.** Upon determination by the Commissioner that a commission will be offered on a sale or long-term commercial lease, a person holding an active real estate broker license in this state is eligible to receive the commission, from the Department, by registering with the Department the successful purchaser or lessee at public auction.  5. Signature of the broker or salesperson and the potential purchaser or lessee verifying that the broker or salesperson represents the potential purchaser or lessee and that together they have inspected the land to be auctioned for sale or lease.
- E.** A broker shall submit registration meeting the requirements of subsection (D) by mail or hand-delivery to the Department's public counter, Phoenix, Arizona 85007. The Department deems registration received on the date postmarked if mailed or time-stamped if hand-delivered. A broker shall not register the following:
1. A potential purchaser or lessee who is registered with another broker for the same auction, or
 2. A governmental agency.
- F.** The Department shall pay the commission to the broker representing the successful purchaser or long-term commercial lessee at the time of delivery of the certificate of purchase or patent, or lease, or after final disposition of any protests or appeals resulting from the auction, whichever occurs later.

- H.** For the purpose of this Section, the following definitions apply:

- D. In conducting an investigation and review, the Department shall consider the following factors:
 - 1. An offer to pay more than appraised rental as an equity, if the Department determines not to go to bid on the conflict;
 - 2. Whether the applicant's proposed land use or land management plan is beneficial to the Trust;
 - 3. The applicant's access to or control of facilities or resources necessary to accomplish the proposed use;
 - 4. The applicant's willingness to reimburse the owner of reimbursable non-removable improvements;
 - 5. The applicant's previous management of land leases, land management plans, or any history of land or resource management activities on private or leased lands;
 - 6. The applicant's experience associated with the proposed use of land;
 - 7. Impact of the proposed use on future utility and income potential of the land;
 - 8. Impact to surrounding state land;
 - 9. Recommendations of the Department's staff; and
 - 10. Any other considerations in the best interest of the Trust.
- E. After investigation and review of the statements of equities, the Department may:
 - 1. Request additional information from an applicant;
 - 2. Conduct a hearing at the Department or another designated location at the earliest possible date, giving notice of time and place for hearing to all applicants;
 - 3. Award the lease or permit to an applicant;
 - 4. Reject all applications; or
 - 5. Proceed to bid according to A.R.S. § 37-284.
- F. The bid process is as follows:
 - 1. If the Department determines to proceed to bidding, the Department shall issue a Notice of Call for Bidding that states the time and place bids will be accepted including the minimum rental that will be accepted.
 - 2. The Notice shall specify the existence of a preferred right, if any. The Department shall include, with the Notice, a copy of the form of lease or permit that may be offered to the successful bidder. A bidder shall submit a written bid to the Department by 5:00 p.m. no later than 30 days from the date of the Notice. A bid shall be made on forms provided by the Department. The Department shall accept a bid form only with the original signature of the bidder. A bidder may either mail or deliver the bid in person to the Department.
 - 3. The Department shall not accept a bid from anyone other than an applicant named in the Notice of Call for Bidding.
 - 4. Unless subsection (F)(5) applies, the Department shall accept only one bid from each applicant. Once the bid is

submitted, the Department shall not accept a second or substitute bid or any change to the original bid.

- 5. If the bids of two or more applicants are the same, are also the highest bids offered, and there is no preferred right, the Department shall repeat the bid procedure under subsections (F)(1) and (2) with the following exceptions, until a single highest bid is submitted:
 - a. In a call for new bids, the Department shall establish a new minimum rental that equals the highest amount offered in the previous bidding.
 - b. The Department shall accept new bids only from the applicants who submitted the highest matching bids.
- 6. The Department shall mail a Notice of Bid Results to all bidders. A bidder choosing to exercise a preferred right shall, within 15 days of the Department's issuance of the Notice of Bid Results, offer a bid matching the highest bid, in writing, on forms provided by the Department.
- G. Nothing in this Section limits or diminishes the jurisdiction of the Department. This Section does not apply to an application for an oil or gas lease.

R12-5-508. Application Confers No Right to Land

An application or permit for state land confers no right of occupancy, possession or use of said land until a lease or permit is issued thereunder or permission is granted in writing by the Commissioner. Provided, however, a prior lessee or permittee may occupy and use said land pending action on his application for renewal. In the event that the prior lessee or permittee should not be awarded a renewed lease or permit, the Commissioner may assess and collect from said lessee or permittee the reasonable value of the use of said land pending action upon the application to renew said lease or permit.

R12-5-509. Execution of Leases or Permits; Covenants; Effective Date and Completion of Lease or Permit

All leases and permits shall be signed by the lessee or permittee as provided by these rules and regulations and by the Commissioner or his Deputy, with the seal of the Department affixed thereto. All leases and permits shall contain such provisions, covenants, conditions and restrictions as may be prescribed by the Commissioner, hereinafter more particularly set forth under each type of lease. The effective date of the lease will be the date of application upon open land, or such other subsequent date as the Commissioner may prescribe. Upon lands previously leased, the date following the expiration date of the lease shall be the effective date; provided, that where the lands under lease have been reclassified, the effective date of the lease shall bear the date of such reclassification, if no

appeal from reclassification is taken or if the Commissioner's decision is upheld if so appealed, or such other subsequent date as the Commissioner may prescribe.

Upon approval of the application to lease or permit and an appraisal or fixing of the rental value thereof, a lease or permit in duplicate will be mailed to the lessee or permittee, which lease or permit shall be signed in duplicate by the lessee or the permittee in the manner prescribed by these rules and regulations. Insert sheets which, when required, described the land being leased or for which permit is issued are a part of the lease or permit and shall be signed in the same manner as the lease or permit. A statement of the rental due and the permit or lease issuance fee will accompany the transmittal of the lease or permit. Upon the lease and permit and insert sheets, when required, being signed, they are to be returned to the Commissioner with the rental payment and lease or permit issuance fee in accordance with the statement rendered. When the lease or permit and insert sheets, when required, are received by the Commissioner, the same will be executed by the Commissioner as above provided and entered upon the records of the Commissioner. After execution by the Commissioner, one copy of the lease or permit, including the insert sheets when required, will be returned to the lessee or permittee with a receipt for the payment of rental.

If the lease, permit and insert sheets, when required, are not executed by the lessee or permittee and returned to the Commissioner, together with the payment of the rental as indicated by the statement therefor forwarded with such instruments, within 60 days from the date of mailing by the Commissioner, the lease or permit will be declared to be null and void and of no force and effect, and the land will become open and available for leasing by other persons. Provided, however, that should the applicant object to the appraised rental value, he may appeal from said appraisal as provided by law and the rules and regulations of the Department to the Board of Appeals of the State Land Department without prejudice to his rights to the offered lease or permit.

An application for assignment by the lessee or permittee, together with an application for transfer and assumption of lease or permit shall be submitted upon forms furnished and approved by the Commissioner. The applications shall be accompanied by the required fees, together with the lease or permit being assigned. The application for such assignment and the application for transfer and assumption of a lease or permit shall be signed by the parties as provided in these rules and regulations and acknowledged before a notary public or other officer authorized to administer oaths. In the event the assignment is a partial assignment and only covers a part of the leased or permitted lands, the description of the lands being transferred must be by legal subdivision or by metes and bounds based on an actual survey upon which acreage can be determined, together with a map or such survey if required by the Commissioner; otherwise no approval to said assignment and assumption will be granted by the Commissioner. An assignment may be only for a divided or undivided interest.

No assignment shall be made without the consent of all parties of record in the State Land Department in writing who may have a lien or encumbrance upon the lessee's or permittee's interest in said lease or permit.

When so filed, no assignment of the lease or permit affected shall be made without the consent of all parties. Upon the foreclosure of a contract of sale, mortgage or other lien filed with the Commissioner, the Commissioner shall assign the instrument in question to the party entitled thereto.

No action shall be taken by the Commissioner affecting the rights of the lienholder, mortgagee or contract purchaser or seller affecting the canceling, modification or declaration of the lien or permit to be forfeited without written notice to all parties in interest.

If a mortgagee, trustee under a deed of trust, lienholder or other person entitled to payment, receives full satisfaction of a mortgage, deed of trust or other obligation evidence of which has been filed with the Commissioner, he shall, at the request of the person making satisfaction or the Commissioner file with the Commissioner a sufficient release or satisfaction of mortgage or deed of release of the mortgage or deed of trust or lien.

Filing of these documents in no way obligates the Commissioner to the terms of them.

The Commissioner may on his own initiative, or at the request of a lessee or permittee, request of any mortgagee, trustee under a deed of trust, lienholder or other person entitled to payment who has filed with the Commissioner evidence of an obligation as set forth above, to notify the Department in writing as to the principal balance remaining due, if any, on such obligation; such request shall be made in writing and shall be mailed by the Commissioner to the last known address of record of such obligee -- the failure of such obligee to respond within 90 days from the date of receipt of such notice shall ipso facto be deemed as a consent by such obligee to any action that may be taken thereafter by the Commissioner with respect to any land covered by such mortgage, deed of trust, contract of sale; or other instrument evidencing an obligation.

R12-5-533. Trespass on State Land

- A.** Whoever knowingly and wilfully commits a trespass upon state lands, either by cutting down or destroying any timber or wood standing or growing thereon, or by carrying away any timber or wood therefrom, or by mowing, cutting, or removing any hay or grass thereof or therefrom or the grazing of livestock thereon, unless he shall have pending an application for the leasing of such lands, or by extracting or removing any oils, gases, coal, minerals, earth, rocks, fertilizer or fossils of any kind or description thereon or therefrom, or who, without right, injures or removes any building, fence or improvements thereon, or unlawfully occupies, plows or cultivates any of said lands, or negligently or wilfully exposes growing trees, shrubs, or undergrowth standing thereon to danger or destruction by fire, shall be guilty of a misdemeanor.
- B.** Whoever commits any trespass upon state lands, as above stated, shall also be liable in a civil action, brought in the name of the state in the county in which the trespass was committed, for three times the amount of the damage caused by such trespass, if the trespass was wilful, but for single damages only, if casual or involuntary. In the case of unfenced state land included within a fenced range, it shall be prima facie evidence of wilful trespass to permit the grazing of livestock

thereon, unless the defendant shall have pending an application for the leasing of such lands. The damage referred to will be the rate per acre as found for the year for the appraised carrying capacities of the land. The Commissioner may also, without legal process, seize and take any product or property whatsoever unlawfully severed from such land, whether the same has been removed from such land or not, and may dispose of the product or property so seized in the manner prescribed by law for disposing of the products of state lands. The county officers of the several counties shall report to the Commissioner any trespass upon state lands which may come to their knowledge.

- C.** All lessees and permittees and holders of Certificates of Purchase are requested to inform the Commissioner in writing of any trespass committed on state lands, giving full information concerning such acts of trespass and by whom the same has been committed.
- D.** It shall be unlawful to utilize any type of motorized vehicle for travel on state trust lands except:
1. By the general public using public roads and highways that cross state trust lands;
 2. By lessees and permittees of the Department acting within the limits of their leases and permits, employees of public agencies acting within the scope of their duties, and any persons using military, fire, search and rescue, or law enforcement vehicles for emergency purposes; and
 3. By holders of valid Arizona hunting, fishing, or trapping licenses within the scope of such license:
 - a. On existing roads; or
 - b. For cross-country travel without damaging croplands, improvements, or cultural or historic sites to pick up legally killed big game animals.
- E.** For the purpose of this Section, the following definitions apply:
1. "Cross-country travel" means travel over the countryside other than on existing roads.
 2. "Existing road" means any maintained or unmaintained way, road, highway, trail, or path that has been utilized for motorized vehicular travel and clearly shows or has a history of established vehicle use. A one-time use or a single set of vehicle tracks created by an off-highway vehicle does not constitute a road under this definition.
 3. "Motorized vehicle" means any vehicle deriving motive power from any source other than muscle or wind.
 4. "Public roads and highways" means the entire width between the boundary lines of every public road or highway maintained by the Federal Government, the state, the Department, or a city, town, or county if any part of the road or highway is generally open to the use of the public for purposes of vehicular travel.

 3. Naturally-occurring hazardous conditions: To reduce the risk from naturally-occurring conditions posing a risk to public health or safety. Examples include fissures, sink holes, and flood-damaged areas; or
 4. Damaged Trust lands: For protection or remediation of Trust lands that have been damaged by toxic or hazardous materials, mining, fires, off-road vehicles, or other human-caused or natural occurrences.
- B.** The Commissioner shall, by order, close land only to the extent necessary to prevent unauthorized recreational access, and shall specify the period of time deemed necessary for closure.
- C.** The Department shall post the order of Trust land closure to recreation in the Department's Public Records Room at 1616 W. Adams, Phoenix, AZ 85007 and in the Department's District Offices. 1. Ten years for an agricultural lease or a renewal of an agricultural development lease; and
 2. Two years for an initial agricultural development lease.
- C.** Appraisal. Farm areas are geographically determined within the State and appraised by farm area every 10 years, or as market and other conditions dictate pursuant to A.R.S. § 37-282.01(G).
- D.** Sequence of development and improvement of land under an agricultural development lease.
1. The lessee of an agricultural development lease must initially only develop the leased land to the extent necessary and incident to the acquisition of a water supply adequate for the development of the leased land. The lessee must apply to the Department to make an improvement for said development of the leased land.
 2. To make an improvement on the leased land which is not necessary to the accomplishment of subsection (D)(1) above, the lessee of an agricultural development lease must apply to the Department. The Department may not approve an application to place an improvement which is not necessary to the accomplishment of subsection (D)(1) above until after the acquisition of such water supply has been accomplished or assured.
- E.** Compliance with regulations made by other state and federal agencies; remedies for non-compliance. When rules and regulations promulgated by state or federal regulatory agencies would affect State Trust Land under an agricultural lease or an agricultural development lease or crops grown thereon, the Department may require the lessee to conform with these regulatory practices to prevent the deterioration of the soil or crops grown thereon. If the lessee fails to comply with the requirements of the Commissioner, the Department may have the required remedial work accomplished and bill the lessee the amount expended for the remedial work. Failure by the lessee to pay for such remedial work shall, after the proper notice, subject the lease to forfeiture for nonpayment and noncompliance.
- F.** Preferred right of renewal of an agricultural development lease; Denial of renewal of an agricultural development lease.

TITLE 12. NATURAL RESOURCES

CHAPTER 5. STATE LAND DEPARTMENT

A lessee of an agricultural development lease shall not have a preferred right of renewal if the lessee has not acquired a water supply deemed by the Department to be adequate. The Department may deny a renewal application of an agricultural development lease if the lessee has not completed substantial due diligence toward complete agricultural subjugation and the development of the land beyond the acquisition of an adequate water supply, as determined solely by the Department.

R12-5-703. Commercial Leases

R12-5-705. Grazing Leases

- A.** Definitions. In this Section, terms used herein shall have the meanings as defined in A.R.S. §37-101 and § 37-285 and as below:
1. "Average market price of cattle" means the average price by hundredweight received during the calendar year under consideration by producers of cattle, exclusive of calves, in the states of Arizona, New Mexico, California, Utah, Nevada, Colorado, Wyoming, Montana, Idaho, Washington, and Oregon, as determined by the United States Department of Agriculture, and, if that service is not available, from such sources as the Department determines best to establish said price.
 2. "Carrying capacity" means the average number of animal units which can be supported by a section of grazing land with due consideration for sustained production of the forage consistent with conservative range management.
- B.** Applications for grazing lease renewals. Application for renewal of an existing grazing lease may include an entire ranch unit or any part thereof.
- C.** Land subject to grazing lease; term of lease. It is the policy of the Department not to offer open land for lease within an

established ranch unit without first offering said land to the owner or the person having control of the land in the ranch unit. There is no limit to the amount of grazing land that may be leased to any person.

- D.** Rental rates of grazing land; appraisal. In accordance with A.R.S. § 37-285(A), no grazing lease shall provide for a rental of less than the appraised rate of the land, and in no event less than 5¢ per acre per annum, or a minimum of \$2.50 per annum per lease, said minimum of \$2.50 per annum per lease applying to one section or portion thereof.
- E.** Rights of the Department to issue non-grazing leases for leased grazing land. All grazing leases granted by the Department are only a non-exclusive right to graze livestock and to use the land in a manner compatible with the terms of the lease. The Department may grant instruments for uses other than grazing on leased grazing land or for the removal of natural products therefrom. A grazing lessee shall not issue to any person any rights to use of leased grazing land or to remove any products therefrom.
- F.** Cultivation and growing of crops on grazing land. A grazing lessee may not grow crops commercially under the provisions of a grazing lease.
- G.** Cutting of timber, standing trees or posts.
1. A grazing lessee shall not cut or waste, nor allow to be cut or wasted, any timber or standing trees growing on the leased land without the written consent of the Department, except for fuel for domestic uses or for the necessary improvements upon the land; provided, however, that nothing herein contained shall be construed to permit the cutting of saw timber for any purpose.
 2. Posts cut primarily from cedar, mesquite and juniper trees may be used for the construction and use of improvements by a grazing lessee upon State Trust Land without cost, with the prior written consent of the Department; however, such posts may not be used on non-leased land without payment by the grazing lessee to the Department.
 3. When applicable, a grazing lessee must file an affidavit with the Department indicating the number of posts cut, the number used for improvement on the leased land, and the number used elsewhere or stockpiled for future use. At the time approval to cut posts is granted by the Department, the Department will determine the price, which will be comparable to the price of posts from the United States Forest Service. The price will then be payable at the time the affidavit indicating the number of posts cut is filed with the Department.
 4. The Department may visit a grazing lessee at any time to inspect the number of posts cut.
 5. If a grazing lessee does not desire to purchase the trees as above provided, the Department may sell the trees. A purchaser other than a grazing lessee shall not injure the lessee's surface rights and improvements or interfere with the lessee's use of the leased land, and a purchaser may be required to file a surety bond with the Department in such amount and under such conditions as to indemnify the lessee for any damage which may result due to the removal of the trees.
- H.** Use of state land. No lessee or permittee shall use land under a grazing lease or permit except for grazing purposes.
- I.** Posting to prohibit hunting and fishing on leased grazing land. A grazing lessee may not post signage on leased grazing land to prohibit hunting and fishing without the consent of the Arizona Game and Fish Commission.

1. The Department may grant a right-of-way without the consent of a surface or subsurface lessee.
2. When the applicant for a right-of-way and any existing right holder do not agree on the appraised value of damages to the right holder, the applicant for right-of-way may apply to the Department to appraise the value of any improvements that may be injured or damaged. The cost of any such appraisal shall be paid by the right-of-way applicant.
3. In cases where it is necessary to cut a fence belonging to a surface lessee or permittee or otherwise enter through a fence, the Department may require the installation of a standard cattle guard or other facilities by the right-of-way grantee as a condition to the granting of the right-of-way.

B. Termination of use; abandonment

1. When a right-of-way holder is no longer used by the grantee for which the right-of-way was granted, the right-of-way shall be terminated.
2. The Department may determine that a right-of-way has been abandoned or used for the purpose granted. In such case, the Department shall give the right-of-way grantee 30 days to show why a right-of-way should not be cancelled. If within 30 days the right-of-way grantee fails to respond, the Department may issue an order of cancellation.

C. Right-of-way provisions

1. Term of right-of-way. The term of the right-of-way shall be determined by the Department and shall be set forth on the right-of-way contract.
2. Right-of-way subject to public auction. A right-of-way for exclusive use, perpetual in nature, or for a term exceeding 50 years (except a right-of-way for transportation purposes granted to governmental agencies of the state or political subdivisions and municipal corporations thereof) shall be sold at public auction as provided under the laws for sale of State Trust Land.
3. Possession and right of use of right-of-way area. The right is granted for the use of the area described in the right-of-way contract subject to any existing prior rights and subject to any rights the Department shall grant thereafter.
4. Provisions of the right-of-way. Every contract shall provide for:

- b. The right to install and construct necessary equipment and facilities with the right to remove the same within 90 days after expiration or termination of the right-of-way.
 - c. The obligation of the grantee to install and maintain fencing, gates, cattleguards, and other protective measures deemed necessary by the Department.
 - d. The obligation of the grantee to restore the surface of the land within the right-of-way to a reasonable condition as required by the Department.
 - e. The obligation of the grantee to indemnify, hold and save grantor harmless against all loss, damage, liability, expenses, costs and charges incident to or resulting in any way from the use, condition or occupation of the land.
 - f. A use provision.
 - g. The right of the grantee to assign the right-of-way.
 - h. The right of the grantee to terminate the right-of-way at any time during its term by giving the Department 30 days' notice of termination in writing, if the grantee is not delinquent in payments and has complied with all conditions on the date of termination.
5. A sub-grant of the right-of-way contract is prohibited.
 6. Right-of-way renewal. Upon application to the Department, not less than 30 days, nor more than 1 year prior to the expiration of the right-of-way contract, the grantee of a right-of-way contract, shall have a preferred right to renew the right-of-way contract if the grantee is not delinquent in the payment of rental or of monies due the Department on the date of expiration of the contract. The renewal right-of-way contract shall commence on the day following the expiration of the former contract.
 7. Bonds
 - a. The Department may require the grantee to furnish bond, in a reasonable amount, to be fixed by the Commissioner, guaranteeing that the grantee will restore the surface of the land described in the contract to a reasonable condition, upon the termination of the right-of-way contract.
 - b. The Department may require the grantee to file with the Department a surety bond in such form, approved by, and for such amount determined by, the Department, which shall be conditioned upon prompt payment to the lessee of the surface, subsurface or otherwise of the State Trust Land covered by the right-of-way. A surety bond required under this subsection shall cover any loss to a lessee from damage or destruction to grasses, forage, crops, and improvements upon such lands which is caused by the construction or use of the right-of-way.
 - c. Assignment of any or all of the right-of-way contract will not relieve the assignor of his obligation as principal under the bond. R12-5-1805. Lease for Mineral Claim

- A. Term of lease. Every mineral lease of state land shall be for a term of 20 years.
- B. Lessee's right of possession and enjoyment. Every mineral lease shall confer the right:
 1. To extract and ship minerals from the claim located within planes drawn vertically downward through the exterior boundary lines thereof, provided:
 - a. That in case of each lease of a claim located pursuant to the provisions of subsection (C) of these rules and regulations (Type A claim), the lease shall confer extralateral rights, in the discovery vein only, as follows:

Exclusive right of possession and enjoyment of the vein, lode, or ledge throughout its entire

depth, the top or apex of which lies inside the surface lines of the claim extended downward vertically, although such veins, lodes or ledges may so far depart from a perpendicular in their course downward as to extend outside the vertical side lines of such surface locations. But the right of possession to such outside parts of such veins or ledges shall be confined to such portions thereof as lie between vertical planes drawn downward as above described, through the end lines of the location, so continued in their own direction that such planes will intersect such exterior parts of such veins or ledges. Nothing in this subsection shall authorize the locator or possessor of a vein or lode which extends in its downward course beyond the vertical lines of his claim to enter upon the surface of a claim owned or possessed by another.

2. To use as much of the surface as required for purposes incident to mining.
3. Of ingress to and egress from other state lands, whether or not leased for purposes other than mining.
 - a. Proposed routes of ingress and egress over state lands, preferably reflecting agreement on the part of the lessees concerned, shall be subject to final approval by the Commissioner. Construction of roadways shall not be initiated by the mineral claimant or lessee until such approval is had.

C. Provisions of mineral lease

1. Every mineral lease of state lands shall provide for:
 - a. The annual performance of not less than \$100.00 worth of labor or of improvements made upon each claim or group of contiguous claims in common ownership. The annual expenditure shall become due and shall be performed during the year commencing at the expiration of one year from the date of location at 12:00 o'clock meridian and during each year thereafter.
 - i. The term "labor" shall include, without being limited to, geological, geochemical and geophysical surveys conducted by qualified experts and verified by a detailed report filed with the Commissioner which sets forth fully:
 - (1) The location of the work performed in relation to the point of discovery and boundaries of the claim,
 - (2) The nature, extent and cost thereof,
 - (3) The basic findings therefrom, and
 - (4) The name, address, and professional background of the persons conducting the work.

Such surveys, however, may not be applied as labor for more than two consecutive years or for a total of more than five years on any one mining claim, and each such survey shall be non-repetitive of any previous survey of the same claim.

- ii. Improvements mentioned in (A)(1) above shall be limited to those necessary and incident to mining or which develop, or tend to develop, mineral.
- iii. Proof of annual labor on each claim shall be filed with the Commissioner, in such form as the Commissioner may prescribe, within 90

CHAPTER 5. STATE LAND DEPARTMENT

days after expiration of the period provided for its performance.

- b. The fencing of all shafts, prospect holes, adits, tunnels and other dangerous mine workings for the protection of livestock.
 - c. The construction of necessary improvements and installation of necessary machinery and equipment with the right to remove it upon expiration, termination or abandonment of the lease, if all the monies owing to the state under the terms of the lease have been paid.
 - d. The cutting and use of timber and stone upon the claim, not otherwise appropriated, for fuel, construction of necessary improvements, or for drains, roadways, tramways, supports, or other necessary purposes.
 - e. The right of the lessee and his assigns to transfer the lease.
 - f. Termination of the lease by the Commissioner upon written notice specifically setting forth the default for which forfeiture is declared, and preserving the right of the lessee to cure the default within a period of not less than 30 days.
Notices of termination shall be mailed to the address of record of the lessee. Such notice shall set forth the default and inform the lessee of the time and place he may appear before the Commissioner to show cause why the lease should be restored to good standing.
 - g. Termination of the lease by the lessee at any time during its term by giving the Commissioner 30 days' notice of termination in writing; provided, the lessee is not delinquent in the payment of rent or royalty to the date of termination.
- D. Lease rental.** The rental for a lease of a mineral claim on state lands shall be \$15.00 per annum, payable in advance at the time of application for lease and at the beginning of each yearly period thereafter.
- E. Royalty**
1. Every mineral lease of state land shall provide for payment to the state by the lessee of a royalty of 5% of the net value of the minerals produced from the claim. The net value shall be deemed to be the gross value after processing, where processing is necessary for commercial use, less the actual cost of transportation from the place of production to the place of processing, less costs of processing and taxes levied and paid upon the production thereof. In case of minerals not processed for commercial use, the net value shall be the gross proceeds, or gross value, at the place of sale or use, less the actual cost of transportation from the place of production to the place of sale or use, less taxes, if any, levied and paid upon the production thereof.
 2. In the case of limestone, silica, shale, and clay manufactured into building materials, the royalty shall be 3¢ per gross short ton of material removed. The 3¢ per ton royalty shall be based upon the average regional wholesale price of the building material so manufactured over the 12-month period immediately preceding June 14, 1958. The royalty shall be adjusted at the end of each five-year period thereafter in direct proportion to the decrease or increase in the five-year average of the average yearly regional prices for such building materials over the preceding five-year period, providing the decrease or increase amounts to 10% or more of the previous base price.
3. In case of sand, rock and gravel to be used in the construction of roads, buildings or other structures, the royalty shall be 5¢ per cubic yard.
 - a. As used as a basis of classification for royalty purposes, the word "rock" means the granular material coarser than gravel, and usually associated with natural deposits of sand and gravel.
 4. The minimum rental paid for each year shall be credited upon royalties which may become due during the year.
- F. Assignment of lease.** The lessee of each mineral claim, if not in default of rent or royalty, and who has kept and performed all the conditions of his lease, may with the written approval of the Commissioner assign his lease. Application for assignment and assignments will be in such form as the Commissioner may require.
- G. Renewal.** Upon application to the Commissioner, not less than 30 nor more than 60 days prior to the expiration of the lease, the lessee of mineral lands, if he is not delinquent in the payment of rental or royalty on the date of expiration of the lease, shall have a preferred right to renew the lease bearing even date with the expiration of the old lease for a term of 20 years.
- H. Sub-leases.** No sub-lease shall be valid without the written permission of the Department.
- I. Lease, reserved mineral interest; bond**
1. Each mineral lease of the state's reserved mineral interest, resulting from sale of state land, shall contain such special conditions and terms as are necessary to the protection of the pertinent patentee or contract purchaser of state lands, or their successors in interest and the state of Arizona, against damage to lands, livestock, water, crops or other tangible improvements on lands held by such patentee or contract purchaser and suffered by the reason of the use or occupation of such land by the lessee.
 - a. Lease applicant will be required to execute a bond in a reasonable principal amount, conditioned upon payment for such damage.
 - b. Failure by lease applicant to post bond within 30 days after notice of such requirement has been served by the Department shall be deemed to constitute forfeiture of right to the lease.

- A.** Annual lease report. An annual report shall be submitted by the lessee of each mineral claim showing any and all work performed, improvements made, the cost thereof, and such other information as the Commissioner may require. The report, covering the mining operation in general, shall be filed with the Commissioner within 90 days after expiration of the period provided for the performance of annual labor, shall be incorporated with the report of that labor and shall be in such form as the Commissioner may prescribe.
- B.** Monthly production report. A monthly report of production shall be submitted by the lessee of each mineral claim within 15 days after the end of the month in which production is first had and before the 15th of each succeeding month for the month immediately preceding, unless otherwise ordered by the Commissioner. Any negative report subsequent to the initial production report shall be submitted unless waived by the

The report shall be in such form as the Commissioner may prescribe and shall contain such information as the Commissioner may require, including, but not limited to, information regarding amounts of mineral extracted, use, or sold, the costs of shipping and processing, and the monetary returns therefrom.

- C. Records. Each lessee of a mineral claim shall make and keep appropriate books and records covering the mining, shipping, processing and selling of mineral from the claim. The Commissioner or his representative shall have the right at all times during the existence of each lease of a mineral claim, and for six months thereafter, to make such reasonable examination of such books, records or other material as may be necessary to obtain information desired.

R12-5-2006. Notice and Conduct of Competitive Sales

- A. Nature
 1. All sales of common mineral materials and natural products, except to governmental agencies, shall be by public auction.

- B. Sales notice. Public notice of sale at public auction for common mineral materials or natural products shall be published once each week for not less than ten successive weeks in a newspaper of general circulation published regularly at the state Capitol and in a newspaper of general circulation published regularly nearest the location of the interest to be sold and with the same formality as required for the sale of land.
- C. Conduct of sales. A representative of the Department shall conduct the public auction in a manner as consistent as possible as that provided for sales of land. Specifically, bidding shall be conducted in the following manner:

The successful bidder shall have an additional 30 days from the date of sale in which to pay such additional sums, post such bonds and complete whatever other requirements may be required. Failing to do so will result in the abandonment of such sums already paid to the Department as liquidated damages and the freeing of the Department to reconsider such other bidders as the proper recipient of the sales agreement.
- D. Execution of agreement
 1. Upon approval by the Department of the successful bid for a common mineral materials or other natural products sale, the Department, by mail, will tender the sales agreement to the Buyer for its signature and simultaneously will notify it of the bond coverage required by the Department as a condition of issuing the sales agreement and will further state the execution fee required by law.

R12-5-2007. Common Mineral Materials

TITLE 12. NATURAL RESOURCES

CHAPTER 5. STATE LAND DEPARTMENT

- A.** Material to be specified. Common mineral materials sales agreements will recite the material or materials covered by such agreements and the rights of Buyers will pertain only to such materials as specified in the agreement.
1. It is understood that flora will necessarily be distributed by Buyer's activities, but such disturbance shall be minimal and the Department may so direct Buyer's activities to assure such minimal disturbance.
 2. Buyer shall not be entitled to keep, give, sell or otherwise dispose of any flora on the premises unless the agreement so provides, in which event such flora shall have been appraised by or for the Department and a separate price therefore set forth in the agreement.
 3. This agreement shall confer the right on the Buyer to extract groundwater from the land area subject to the sale for the purposes stated in R12-5-772, subsection (E) and R12-5-775, subsection (B), and purposes incidental or related thereto which uses and purposes shall be set forth in the Notice of Sale and which shall have been a factor in the establishment of the minimum acceptable unit royalty rate however, groundwater may be separately noted for sale in which event the notice of sale shall specifically so provide.
 4. The granting of a right to extract groundwater shall not constitute a representation or guarantee by the Department that there is any groundwater available at any level or any quality for extraction.
 5. Any right to extract groundwater conferred hereby is subject to any and all limitations and provisions existing in law or regulation of any agency including any such applicable other regulation of this Department.
 6. Nothing herein shall affect any right to the use of groundwater which buyer might otherwise possess by virtue of being a lessee of the Department or having otherwise acquired a groundwater permit through Public Auction Sale by the Department.
- B.** Advertising of sale. The advertising of sale of common mineral materials shall state the location by legal description of the tract or tracts on which the material is being offered, the kind of material, the term, the time and place of auction, the unit, the minimum unit royalty rate, minimum annual production, total bid deposit required, bond requirements, the office where additional information may be obtained and such additional information as the Department may deem necessary.
1. When the materials to be sold on a basis other than the standard one set forth in these rules, the notice of sale shall so state in specific detail.
- C.** Appraisals. Common mineral materials to be sold will be appraised by the Department when the materials are in their undisturbed natural condition ("in situ") using acceptable appraisal standards. The appraisal will determine the minimum unit royalty rate and minimum annual production.
- D.** Annual royalty. Until any reappraisal goes into effect, the annual royalty shall be the higher of
1. The minimum annual royalty as determined by the bidding process as provided in R12-5-777(E),
 2. The number of units of material extracted multiplied by the unit royalty rate.
- Upon reappraisal, subsections (D)(1) and (2) shall be adjusted to reflect the reappraisal.
- a. The minimum annual royalty payment shall be due and payable in advance on the anniversary of the agreement. Royalty for any material extracted, severed or disposed of in excess of the minimum annual production shall be due and payable in advance on the anniversary of the agreement. Royalty for any material extracted, severed or disposed of in excess of the minimum annual production shall be due and payable monthly within 30 days after billing by the State Land Department.
- E.** Bids. Unless otherwise provided by the Commissioner and specifically published in the notice of sale, all bids shall be by the unit royalty rate.
1. In determining the minimum annual royalty, the Department shall multiply the unit royalty rate bid by the successful bidder times the minimum annual production which shall be determined solely by the Department and set forth in the notice of sale.
- F.** Reappraisals. The royalty rate established initially shall remain fixed for the first two years of the agreement. For each subsequent year the Department may reappraise in the following manner:
1. No later than 60 days before the end of any anniversary date, the Department may reappraise the material to determine the unit rate and/or the acceptable minimum annual royalty; that reappraisal shall be effective for the second year following the one in which the reappraisal is made.
 2. The Department shall notify the Buyer within 30 days of the reappraisal and Buyer shall be obligated for payments based on such reappraisal for the second year following the one in which the reappraisal is made. If any proper appeal is taken by Buyer and not concluded before the effective date of the reappraisal, the prior royalty shall be paid, with any necessary adjustment being made immediately upon the conclusion of such appeal.
 3. The Department is not obligated to reappraise in any particular year and its failure to do so merely means the last appraisal results shall remain in effect until a proper reappraisal is made.
- G.** Provisions of the agreement
1. Term
 - a. The term of a common mineral material sales agreement shall not be for more than 20 years.
 - b. The Department will set the term of each sales agreement in such manner as to best utilize the resources and provide an economically sound term compatible with the law, the best interest of the trust and of the state.
 2. For contract administration and sales-related expenses, a charge of 2% will be added to the minimum annual roy-

 - i. The sloping of side banks of the excavation resulting from the operation to a grade of not more than one foot vertical for each two feet of horizontal distance, unless otherwise specified by the Department;
 - ii. The backfilling into the excavation of all unused waste materials and overburden resulting from the operation, and the leveling of such backfill to a reasonably uniform depth on the floor excavation, unless otherwise specified by the Department;
 - iii. The removal and restoration of the surface of any new haul roads constructed on state land by Buyer, which roads the Department does not elect to retain, any such election of retention to be made in writing.
 - c. The Buyer will indemnify, hold and save harmless, the state of Arizona, the Department and all of their officers and employees, against all loss, damage, liability, expense, costs and charges incident to or resulting in any way from use, condition or occupation of the premises.
 6. Transfers
 - a. The Buyer, with prior approval of the Commissioner, may assign the agreement.
 - b. The application for assignment and the assignment and assumption of the agreement will be on such forms as the Department may prescribe.
 - c. Assignment shall not relieve the Buyer from any duties under the agreement but the assignee shall succeed to all of the rights and be jointly and severally liable, along with the assignor, to all of the obligations existing under the agreement dating from its inception.
 - d. No transfer of the Buyer's interest or any portion thereof is authorized except as specifically provided in these rules.
 7. Termination of sales agreement
 - a. Upon 30 days' written notice to Buyer, the Department may terminate the agreement for the failure or neglect of the Buyer to perform any of its provisions, including those specified by these rules. Failure to pay royalties when due is such a failure of performance.
 - b. Notices of termination shall be mailed to the address of record at the Department of the Buyer. Such notice shall set forth the reason for the termination.
 - c. Provided Buyer is not in default in any of the terms and conditions of the agreement, the Buyer shall have the right to terminate the agreement upon any annual anniversary date thereof by giving the Seller not less than 30 days' prior notice in writing of Buyer's intention to do so.
 8. Upon termination or expiration of the agreement, Buyer shall have 90 days, provided it has fully performed under the agreement, to remove any stockpiled material on the premises. The Commissioner may, if the Buyer so requests in writing within ten days before the expiration of any such removal period, or extension thereof, grant a further extension not to exceed 60 days and provided that the cumulative removal period, along with extensions, shall not exceed 210 days. If the Buyer has not fully performed or fails to remove the stockpiled material within that specified time, such material will be deemed abandoned to the Trust. Any subsequent buyer of material on the portion of the premises on which stockpiled will succeed to its ownership and pay the Department the new Buyer's royalty rate therefor upon removal.
 9. The agreement shall not provide for any renewal thereof.
 10. Bonds
 - a. The Commissioner may require the Buyer to post a cash deposit or surety bond to guarantee the performance of the sales agreement and the payment of all monies due the state under the sales agreement.
 - b. Restoration and surface damage bond
 - i. The Commissioner shall require the Buyer to furnish bond, in a reasonable amount, to be fixed by the Commissioner, conditioned that the Buyer will guarantee restoration of the surface of the land described in the sales agreement to a reasonable condition in accordance with good mining practices, upon termination of the sales agreement.
 - ii. The Commissioner shall also require the Buyer to include in the above bond an amount set by the Department as a surety bond in the form, amount, and with surety approved by the Commissioner, conditioned upon prompt payment to the owner or lessee of the surface of state land covered by the common mineral materials sales agreement, or across which the common mineral materials Buyer exercises the right of ingress, for any loss to such owner or lessee for damage or destruction caused by the common mineral materials Buyer or Buyer's agents or employees, to grasses, forage, crops and improvements upon such land.

TITLE 12. NATURAL RESOURCES

CHAPTER 5. STATE LAND DEPARTMENT

- iii. Assignment of the sales agreement will not relieve the assignor of his obligation as principal under the bond. Release of the assignor's obligation under the bond may be effected through the posting of a replacement bond by the assignee, but only after approval by the Commissioner in lieu of a replacement bond, the bonding company may furnish a bond rider form changing the name of principal.
 - iv. The Commissioner, in his discretion reasonably exercised, may reduce or increase the principal amount of any bond.
 - v. After determination by the Commissioner that full discharge of the conditions of the obligation under any bond has been effected, he will, in writing, notify the principal and surety held by the bond so that it may be formally terminated.
 - vi. Surety on the bond shall have the right to cancel the bond and be relieved of future liability, but not previous liability after the period of notice, by giving 30 days' notice to the Buyer and the Department of its desire to so cancel. Failure by the Buyer to post a replacement bond before the expiration of the 30 days, mentioned next above, shall constitute a default by the Buyer and cause for cancellation of the sales agreement.
11. Records and reports

PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

RULES

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2022 is cited as Supp. 22-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. This is why the Office lists only updated codified Sections on the previous page.

RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State’s website, www.azsos.gov under Services-> Legislative Filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

RULES

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2022 is cited as Supp. 22-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. This is why the Office lists only updated codified Sections on the previous page.

RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State’s website, www.azsos.gov under Services-> Legislative Filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

R13-8-113. Review of Decision by Local Board on Rehearing of Original Determination

- A. Except as provided in subsection (H), the decision by the local board on rehearing of the original determination may be vacated and a new rehearing granted on motion of the aggrieved party for any of the following causes materially affecting that party's rights:
 1. Irregularity in the administrative proceedings of the local board or the hearing officer or prevailing party, or any order or abuse of discretion, whereby the moving party was deprived of a fair hearing.
 2. Misconduct of the local board, the hearing officer, or prevailing party.
 3. Accident or surprise which could not have been prevented by ordinary prudence.
 4. Material evidence, newly discovered, which with reasonable diligence could not have been discovered and produced at the rehearing.
 5. Error in the admission or rejection of evidence, or other errors of law occurring at the rehearing or during the progress of the administrative proceeding.
 6. That the decision is the result of passion or prejudice.
 7. That the decision is not justified by the evidence or is contrary to law.
- B. A new rehearing may be granted to all or any of the parties and on all or part of the issues for any of the reasons for which new hearings are authorized by law or rule of the local board. On the granting of a motion for review, the local board may take additional testimony, amend findings of fact and conclusions of law, or make new findings and conclusions and direct the entry of a new decision.
- C. The motion for review shall be in writing, shall specify generally the grounds upon which the motion is based, and may be amended at any time before it is ruled upon by the local board.
- D. A motion for review shall be filed not later than 15 calendar days after receipt of notification of the decision by the local board on the rehearing of original determination. For purposes of this subsection, the claimant shall receive notification either by attending the meeting at which the decision is made or by certified mail.
- E. Any party to the proceeding may file a response to the motion or amended motion within ten calendar days after service of the motion or amended motion. The local board may require

filing of briefs upon issues raised in the motion and may provide for oral argument.

- F. When a motion for rehearing is based upon affidavits, they shall be served with the motion. All parties to the proceeding have ten calendar days after such service within which to serve opposing affidavits, which period may be extended for an additional period not exceeding 20 calendar days either by the local board for good cause shown or by the parties by written stipulation. The local board may permit reply affidavits.
- G. Not later than 40 calendar days after the decision, the local board of its own initiative may order a new rehearing for any reason for which it might have granted a new rehearing on motion of a party. Additionally, after giving the parties notice and an opportunity to be heard on the matter, the local board may grant a motion for review, timely served, for a reason not stated in the motion. In either case the local board shall specify the grounds therefore.
- H. If the local board makes specific findings that the immediate effectiveness of a decision in a particular matter is necessary for the protection of the system and its members and that a review of the decision is impracticable, unnecessary, or contrary to the public interest, the decision may be issued as a final decision without opportunity for a review. If a decision is issued as a final decision without an opportunity for review, any application for judicial review of the decision shall be made within the time limits permitted by law for applications for judicial review of the local board's final decisions.

Historical Note

Adopted effective July 22, 1994 (Supp. 94-3).

PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

RULES

The definition for a rule is provided for under A.R.S. § 41-1001. “Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2022 is cited as Supp. 22-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. This is why the Office lists only updated codified Sections on the previous page.

RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State’s website, www.azsos.gov under Services-> Legislative Filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

Editor's Note: The Office of the Secretary of State publishes all Code Chapters on white paper (Supp. 02-2).

Editor's Note: The Corporation Commission has determined that rules in this Chapter are exempt from the Attorney General certification provisions of the Arizona Administrative Procedure Act (A.R.S. § 41-1041) by a court order (State ex. rel. Corbin v. Arizona Corporation Commission, 174 Ariz. 216 848 P.2d 301 (App. 1992)). This exemption means that the rule was not certified by the Attorney General. Because this Chapter was filed under a rulemaking exemption, as determined by the Corporation Commission, other than a statutory exemption, the Chapter is printed on green paper.

Manual on Uniform Traffic Control Devices, as adopted by the Department of Transportation.

1. No construction project taking place at or near a public railroad-highway grade crossing shall diminish the safety normally provided to a motorist approaching the crossing by the existing warning devices.
 2. No temporary change in the configuration of a public railroad-highway grade crossing, for the purpose of facilitating a construction project at or near the crossing, may be made by any person without first notifying the owner of the railroad track and the owner of the trains or other track equipment operating over such track in writing. The letter notifying the track owner and train/track equipment owner shall describe the date, place, and type of changes to be made. Such letter shall be written and signed by the responsible person for the project and shall constitute an affirmation that all temporary traffic control measures to be implemented due to the project shall be made in accordance with this rule and the Manual on Uniform Traffic Control Devices (MUTCD) Parts VI and 8A-5. Notice shall be sent by registered mail, return receipt requested, to the business address of the owner of the railroad track and the owner of trains or the track equipment operating over such track, or to the statutory agent at its known place of business, not less than 10 days prior to the commencement of the construction project.
- B. Warning signals.
 1. Railroad crossbucks.
 - a. A railroad crossbuck shall be installed on the right-hand side of the public roadway on each approach to every crossing to warn motorists approaching from each direction, except at crossings where automatic control devices are in use in conformance with Appendix 8.
 - b. If there are two or more tracks, the number of tracks shall be indicated on an auxiliary sign of inverted "T" shape mounted below the crossbuck, (See in conformance with Appendix 8).
 - c. Crossbucks shall be located at not less than 15 feet from the centerline of the nearest track, and shall be in a position to be visible to motorists.
 - d. Crossbucks shall be a reflectorized white "X" (48" X 9" panels drilled for a 90-degree mounting) with the words "RAILROAD CROSSING" in black letters.
 - e. The distance that shall be assumed to separate tracks before additional crossbucks are considered necessary is 100 feet.
 2. Automatically controlled crossing signals.
 - a. At railroad-highway grade crossings where studies indicate the need for warning beyond that provided by crossbucks, the Commission may order that automatically controlled crossing signals be installed.
 - b. Emergency stand-by power shall be provided for the operation of all automatically controlled crossing signals.
 - c. Automatically controlled crossing signals shall be arranged to provide not less than 20 seconds warning for motorists.
 - d. Signals shall operate until the rear of the last train using the crossing has cleared the crossing.
 - e. Traffic signals located within 200 feet of railroad crossing signals shall be preempted by the railroad crossing signals.

TITLE 14. PUBLIC SERVICE CORPORATIONS; CORPORATIONS AND ASSOCIATIONS; SECURITIES REGULATION

CHAPTER 5. CORPORATION COMMISSION - TRANSPORTATION

- f. Where means are provided for cutting-out the automatically controlled warning devices during intervals when trains are making regular operating stops or performing switching operations on approach circuits, controls shall be arranged as follows:
 - i. Controls shall be so designed as to provide operation of warning devices before a train reaches the crossing,
 - ii. Automatic control of warning devices actuated by approaching trains (other than the train that has stopped or is performing switching operations) shall take precedence over any cut-out feature.
- g. Where manual supervisory control of warning devices is provided in addition to automatically controlled signals, the following shall govern:
 - i. Automatic control, when actuated by approaching trains other than the train for which manual control has been made effective, shall take precedence over manual control;
 - ii. Means shall be provided to restore the controls to automatic operation;
 - iii. Means shall be provided to prevent manual operation by unauthorized persons.
3. Flashing light signals.
 - a. Lamp units (center of lens), shall be located at not less than 8 feet, 4 inches, nor more than 10 feet, 4 inches above the crown of the roadway.
 - b. Signal lights shall shine in both directions along the roadway, and shall be mounted horizontally, 2 feet, 6 inches to centers.
 - c. Lamp units shall be arranged in pairs, back to back, except on one-way streets or other roadways where highway traffic approaches from one direction only.
 - d. Lamp units shall be equipped with mountings to provide ready adjustments in all directions with positive locking for such adjustments.
 - e. Lamp units shall be provided with hoods of not less than 12 inches in length and with backgrounds 20 inches in diameter. Hoods and backgrounds shall be in black, except that when backlights are omitted, the back of the lamp unit and background shall be aluminum-colored so that the signal will not be mistaken for a dark signal.
 - f. Lamp units installed after the effective date of this Section shall have lenses or roundels, red in color, not less than 12 inches in diameter for both front and rear indications. Lamp units in use prior to the adoption of this Section shall be made to meet this requirement when the automatic warning devices are upgraded, improved, or reconstructed.
 - g. The beam spread shall be not less than 3 degrees each side of the axial beam under normal conditions. Throughout the beam spread, the intensity of the beam shall not be less than 50% of the intensity at the axis.
 - h. Lights shall flash alternately at a minimum rate of 45 flashes per minute and a maximum rate of 65 flashes per minute.
 - i. The effective range of flashing lights equipped with 10 volt, 10 watt lamps, or equivalent, burning at rated voltages, shall be not less than 1,000 feet under bright sunlight conditions with the sun at or near its zenith.
4. Highway traffic control signals shall not be used on main-line railroad crossings in lieu of flashing light signals. However, at industrial track crossings and other places where train movements are 10 miles per hour or less, highway traffic control signals may be used in lieu of conventional flashing light signals.
5. Bell warning signals. At least one automatic gong-type bell shall be used with each flashing light signal except on median strip installations.
6. Automatic gate arm signals.
 - a. Signals consisting of a combination of flashing lights, bells, and automatic gate shall, when indicating the approach or presence of trains, present towards the highway the appearance of horizontally flashing red lights and of a horizontal arm or arms extending over the traveled roadway a sufficient distance to cover the lane or lanes used by highway traffic approaching the crossing.
 - b. Automatic gate arms, when not indicating the approach or presence of trains, shall not obstruct or interfere with highway traffic, except as provided in subsection (B)(6)(d).
 - c. Automatic gate arms shall be mounted on posts or housing containing the arm-operating mechanism.
 - d. The design of the gate-opening mechanism shall be such as to ensure proper operation during unfavorable weather conditions. In case of power failure, the gate arm shall assume the horizontal position across the roadway.
 - e. The mechanism shall be so designed that if the arms, while being raised or lowered, strike or foul an object they will readily stop, and on removal of the obstruction shall assume the position corresponding to the control mechanism.
 - f. Each gate arm extending over the roadway shall have three red lights, with lenses not less than 7 inches in diameter, shining in both directions along the roadway, so positioned as to ensure as far as possible, that no vehicle or vehicles standing in the limits of the traffic lane or lanes approaching the crossing can obscure all three lights from the view of the drivers of the following vehicles. The light nearest the tip of each arm shall burn steadily, and the other two lights on each arm shall flash alternately in unison with the flashing lights on the roadside signal mast.
 - g. The gate arm shall, on new installations, be striped with 16 inch alternate diagonal reflectorized or fluorescent stripes of red and white.
 - h. Circuits for operation of signals shall be so arranged that the flashing lights, gate arm lights, and bell will start to operate at not less than 20 seconds before the arrival of the fastest train at the crossing. All lights shall operate at all times when the gate arm is in a position to obstruct highway traffic. The bell shall sound a warning from the time the signal lights start to operate at least until the gate arm has descended to within 10 degrees of the horizontal position.
 - i. Gate arms shall start their downward motion at not less than three seconds after the signal lights start to operate. Gate arms shall reach the full horizontal position before the arrival of the fastest train operated over the crossing and shall remain in that position.

TITLE 14. PUBLIC SERVICE CORPORATIONS; CORPORATIONS AND ASSOCIATIONS; SECURITIES REGULATION

CHAPTER 5. CORPORATION COMMISSION - TRANSPORTATION

- tion until the rear of the train has cleared the crossing.
- j. The bottom of the gate arms when in the horizontal position shall be not less than 3 feet nor more than 4 feet above the crown of the roadway.
 - k. Gate arms shall operate uniformly, smoothly, and complete all movement without slap or rebound, and be securely held when in the raised position.
7. Maintenance.
 - a. Metal parts shall be aluminum or painted aluminum, except as provided in subsection (B)(3)(e).
 - b. All materials and workmanship shall meet or exceed current industry standards in every respect, and every warning signal and sign in all details shall be constructed, installed, and maintained in a satisfactory manner.
 - c. The railroad shall provide for the maintenance of all grade crossing warning signs and signals. To this end, the railroad shall:
 - i. Provide for alternate operations of automatically controlled warning signals during periods of failure, either manually or otherwise, as soon as possible after the failure has occurred;
 - ii. Have skilled maintenance personnel available without undue delay for all emergency calls, including lamp failures;
 - iii. Provide proper maintenance for all components;
 - iv. Maintain the appearance of the installation in a satisfactory manner, with particular emphasis on painting and cleaning of optical systems;

R14-5-202. Construction and Safety Standards for Gas, LNG, and Hazardous Liquid Pipeline Systems

- A. Applicability: This Section applies to the construction, reconstruction, repair, operation, and maintenance of each intrastate gas, LNG, or hazardous liquid pipeline system, pursuant to A.R.S. § 40-441.
- B. Subject to the definitional changes in R14-5-201 and the modifications noted in this Section, the Commission adopts, incorporates, and approves as its own 49 CFR 40; 191; 192, except (I)(A)(2) and (3) of Appendix D to Part 192; 193; 195, except 195.1(b)(2), (3), and (4); and 199 (October 1, 2022), including no future editions or amendments, which are incorporated by reference; on file with the Arizona Office of Pipeline Safety (AZOPS); and published by and available from the U.S. Government Bookstore at <https://bookstore.gpo.gov> and online at ecfr.gov. For purposes of 49 CFR 192, "Business District" means an area where the public congregates for economic, industrial, religious, educational, health, or recreational purposes and two or more buildings used for these purposes are located within 100 yards of each other.
- C. The above mentioned incorporated Parts of 49 CFR, except 49 CFR 191; 49 CFR 192.727(g)(1), 192.913(b)(1)(vii), 192.943(a), 192.949(a)-(b), and 192.951; 49 CFR 193 Subpart A; and 49 CFR 195 Subparts A and B, are revised as follows:
 1. Substitute "Commission" where "Administrator," "Pipeline and Hazardous Materials Administration," "Office of Pipeline Safety," or "OPS" appears; and
 2. Substitute "Arizona Office of Pipeline Safety, Arizona Corporation Commission, at its office in Phoenix, Arizona" where the address for the "Information Resources Manager, Office of Pipeline Safety, Pipeline and Hazard-

ous Materials Safety Administration, U.S. Department of Transportation" appears.

- D. An operator of an intrastate pipeline shall file with the AZOPS an Operation and Maintenance Plan, including an emergency plan, at least 30 days before placing a pipeline system into operation. Any changes in an existing Operation and Maintenance Plan shall be filed within 30 days after the effective date of the change.
- E. An operator of an intrastate pipeline transporting sour gas or sour oil shall comply with the following industry standards addressing facilities handling hydrogen sulfide (H₂S), which are incorporated by reference, including no future editions or amendments:
 1. NACE Standard MR0175-99, Standard Materials Requirements-Sulfide Stress Cracking Resistant Metallic Material for Oilfield Equipment (1999 Revision), on file with the AZOPS and published by and available from the NACE International, 1440 S. Creek Dr., Houston, TX 77084-4906 and website: <http://store.amp.org/>; and
 2. API RP55: Recommended Practice for Conducting Oil and Gas Producing and Gas Processing Plant Operations Involving Hydrogen Sulfide (2nd Edition 1995), on file with the AZOPS and published by and available from the American Petroleum Institute, 200 Massachusetts Ave. NW, Suite 1100, Washington, DC 20001 and website: <https://www.api.org/>.
- F. An operator of an intrastate pipeline transporting LNG, hazardous liquid, or gas shall not construct any part of a hazardous liquid, LNG, or gas pipeline system under a building. If a building encroaches over a pipeline system, the operator may require the property owner to remove the building from over the pipeline or to reimburse the operator the cost associated with relocating the pipeline system. The operator shall determine, within 90 days after discovering the encroachment, whether the encroachment can be resolved within 180 days. If the operator determines that the encroachment cannot be resolved within 180 days, the operator shall, within 90 days of discovery, submit to the AZOPS a written plan to resolve the encroachment within a period longer than 180 days. The AZOPS may then extend the 180-day requirement to allow the property owner and the operator to implement the written plan to resolve the encroachment. If the operator does not submit a written plan, and the encroachment is not resolved within 180 days of discovery, the operator shall discontinue service to the pipeline system. This modifies 49 CFR 192.361 and 195.210.
- G. An operator of an intrastate distribution pipeline transporting gas shall not construct any part of a pipeline system less than 8 inches away from any other underground structure. If the 8-inch clearance cannot be maintained, a sleeve, casing, or shielding shall be used. This modifies 49 CFR 192.361.
- H. An operator of an intrastate pipeline transporting gas that has regulators, meters, or regulation meter sets that have been out of service for 36 months shall disconnect the pipeline from all sources and supplies of gas or hazardous liquids, purge the gas or hazardous liquids from the pipeline being disconnected, and cap all ends within six months after the 36 months have passed. This modifies 49 CFR 192.727.
- I. An operator of an intrastate pipeline shall not install or operate a gas regulator that might release gas within 3 feet of a source of ignition, an opening into a building, an air intake into a building, or any electrical source that is not intrinsically safe. The 3-foot clearance from a source of ignition shall be measured from the vent or source of release (discharge port), not from the physical location of the meter set assembly. This sub-

section does not apply to building permits issued and subdivisions platted before October 1, 2000. If an encroachment into the required 3-foot clearance is caused by an action of the property owner, an occupant, or a provider after the effective date of this rule, the operator may require the property owner to resolve the encroachment or to reimburse the operator the cost associated with relocating the pipeline system. The operator shall determine, within 90 days after discovering the encroachment, whether the encroachment can be resolved within 180 days. If the operator determines that the encroachment cannot be resolved within 180 days, the operator shall, within 90 days of discovery, submit to the AZOPS a written plan to resolve the encroachment within a period longer than 180 days. The AZOPS may then extend the 180-day requirement to allow the property owner and the operator to implement the written plan to resolve the encroachment. If the operator does not submit a written plan, and the encroachment is not resolved within 180 days of discovery, the operator shall discontinue service to the affected pipeline system. This modifies 49 CFR 192.357 and 192.361.

PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

RULES

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2022 is cited as Supp. 22-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. This is why the Office lists only updated codified Sections on the previous page.

RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State’s website, www.azsos.gov under Services-> Legislative Filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

R18-15-106. Environmental Review

- A. The Authority shall conduct an environmental review according to this Section for impacts of the design or construction of water infrastructure. As part of the application process, the Authority shall request information from the applicant to conduct an environmental review consistent with 40 CFR 35.3140 and 40 CFR 35.3580. The Authority shall determine whether the project meets the criteria for categorical exclusion under subsections (B) and (C), or whether the project requires the preparation of an environmental assessment (EA) or an environmental impact statement (EIS) to identify and evaluate its environmental impacts.
 - 1. The Authority shall not execute a technical or financial assistance agreement with an applicant until the requirements of this Section are met. For projects that include an environmental information document or an environmental impact statement, the Authority may execute a technical or financial assistance agreement with an applicant prior to the completion of the conditions of this Section, provided that the applicant meets the requirements of this Section before proceeding with the design of the selected alternative.
 - 2. Projects under the Water Supply Development Revolving Fund Program are not subject to the requirements of this Section.
- B. A project may be categorically excluded from environmental review if the project fits within a category that is eligible for exclusion and the project does not involve any of the extraordinary circumstances listed in subsection (C). If, based on the application and other information submitted by the applicant, the Authority determines that a categorical exclusion from an environmental review is warranted, the project is exempt from the requirements of this Section, except for the public notice and participation requirements in subsection (J). The Authority may issue a categorical exclusion if information and documents demonstrate that the project qualifies under one or more of the following categories:
 - 1. Any project relating to existing infrastructure systems that involves minor upgrading, minor expansion of system capacity, rehabilitation (including functional replacement) of the existing system and system components, or construction of new minor ancillary facilities adjacent to or on the same property as existing facilities. This category does not include projects that:
 - a. Involve new or relocated discharges to surface water or groundwater,
 - b. Will likely result in the substantial increase in the volume or the loading of pollutant to the receiving water,
 - c. Will provide capacity to serve a population 30% greater than the existing population,
 - d. Are not supported by the state or other regional growth plan or strategy, or
 - e. Directly or indirectly involve or relate to upgrading or extending infrastructure systems primarily for the purposes of future development.
 - 2. Any clean water project in unsewered communities involving the replacement of existing onsite systems, providing the new onsite systems do not result in substantial increases in the volume of discharge or the loadings of

TITLE 18. ENVIRONMENTAL QUALITY

CHAPTER 15. WATER INFRASTRUCTURE FINANCE AUTHORITY OF ARIZONA

- pollutants from existing sources, or relocate an existing discharge.
- C. The Authority shall deny a categorical exclusion if any of the following extraordinary circumstances apply to the project:
1. The project is known or expected to have potentially significant adverse environmental impacts on the quality of the human environment either individually or cumulatively over time.
 2. The project is known or expected to have disproportionately high and adverse human health or environmental effects on any community, including minority communities, low-income communities, or federally-recognized Indian tribal communities.
 3. The project is known or expected to significantly affect federally listed threatened or endangered species or their critical habitat.
 4. The project is known or expected to significantly affect national natural landmarks or any property with nationally significant historic, architectural, prehistoric, archaeological, or cultural value, including but not limited to, property listed on or eligible for the Arizona or National Registers of Historic Places.
 5. The project is known or expected to significantly affect environmentally important natural resource areas such as wetlands, floodplains, significant agricultural lands, aquifer recharge zones, wild and scenic rivers, and significant fish or wildlife habitat.
 6. The project is known or expected to cause significant adverse air quality effects.
 7. The project is known or expected to have a significant effect on the pattern and type of land use or growth and distribution of population, including altering the character of existing residential areas, or may not be consistent with state or local government, or federally-recognized Indian tribe approved land use or federal land management plans.
 8. The project is known or expected to cause significant public controversy about a potential environmental impact of the proposed action.
 9. The project is known or expected to be associated with providing financial assistance to a federal agency through an interagency agreement for a project that is known or expected to have potentially significant environmental impacts.
 10. The project is known or expected to conflict with federal, state, or local government, or federally-recognized Indian tribe environmental, resource-protection, or land-use laws or regulations.
- D. If the Authority denies the categorical exclusion under subsection (C), the Authority shall conduct an EA according to subsection (E), unless the Authority decides to prepare an EIS according to subsections (F) and (G) without first undertaking an EA. If the Authority conducts an EA, the applicant shall:
1. Prepare an environmental information document (EID) in a format prescribed by the Authority. The EID shall be of sufficient scope to undertake an environmental review and to allow development of an EA under subsection (E); or
 2. Provide documentation, upon Authority approval, in another format if the documentation is of sufficient scope to allow the development of an EA under subsection (E).
- E. The Authority shall conduct the EA that includes:
1. A brief discussion of:
 - a. The need for the project;
 - b. The alternatives, including a no action alternative;
 - c. The affected environment, including baseline conditions that may be impacted by the project and alternatives;
 - d. The environmental impacts of the project and alternatives, including any unresolved conflicts concerning alternative uses of available resources; and
 - e. Other applicable environmental laws.
 2. A listing or summary of any coordination or consultation undertaken with any federal agency, state or local government, or federally-recognized Indian tribe regarding compliance with applicable laws and executive orders;
 3. Identification and description of any mitigation measures considered, including any mitigation measures that must be adopted to ensure the project will not have significant impacts; and
 4. Incorporation of documents by reference, if appropriate, including the EID.
- F. Upon completion of the EA required by subsection (E), the Authority shall determine whether an environmental impact statement (EIS) is necessary.
1. The Authority shall prepare or direct the applicant to prepare an EIS in the manner prescribed in subsection (G) if any of the following conditions exist.
 - a. The project would result in a discharge of treated effluent from a new or modified existing facility into a body of water and the discharge is likely to have a significant effect on the quality of the receiving water.
 - b. The project is likely to directly, or through induced development, have significant adverse effect upon local ambient air quality or local ambient noise levels.
 - c. The project is likely to have significant adverse effects on surface water reservoirs or navigation projects.
 - d. The project would be inconsistent with state or local government, or federally-recognized Indian tribe approved land use plans or regulations, or federal land management plans.
 - e. The project would be inconsistent with state or local government, or federally-recognized Indian tribe environmental, resource-protection, or land-use laws and regulations for the protection of the environment.
 - f. The project is likely to significantly affect the environment through the release of radioactive, hazardous, or toxic substances, or biota.
 - g. The project involves uncertain environmental effects or highly unique environmental risks that are likely to be significant.
 - h. The project is likely to significantly affect national natural landmarks or any property on or eligible for the Arizona or National Registers of Historic Places.
 - i. The project is likely to significantly affect environmentally important natural resources such as wetlands, significant agricultural lands, aquifer recharge zones, wild and scenic rivers, and significant fish or wildlife habitat.
 - j. The project in conjunction with related federal, state, or local government, or federally-recognized Indian tribe projects is likely to produce significant cumulative impacts.

TITLE 18. ENVIRONMENTAL QUALITY

CHAPTER 15. WATER INFRASTRUCTURE FINANCE AUTHORITY OF ARIZONA

- k. The project is likely to significantly affect the pattern and type of land use or growth and distribution of population, including altering the character of existing residential areas.
 - l. The project is a new regional wastewater treatment facility or water supply system for a community with a population greater than 100,000.
 - m. The project is an expansion of an existing wastewater treatment facility that will increase existing discharge to an impaired water by more than 10 million gallons per day (mgd).
2. The Authority may issue a finding of no significant impact (FONSI) if the EA supports the finding that the project will not have a significant impact on the environment. The FONSI shall include the submitted EA and a brief description of the project, alternatives considered, and project impacts. The FONSI must also include any commitments to mitigation that are essential to render the impacts of the project not significant. The Authority shall issue the FONSI for public comment in accordance with subsection (J).
- G. The Authority shall prepare or direct the applicant to prepare an EIS required by subsection (F)(1) when the project will significantly impact the environment, including any project for which the EA analysis demonstrates that significant impacts will occur and not be reduced or eliminated by changes to, or mitigation of, the project. The Authority shall perform the following actions:
 1. As soon as practicable after its decision to prepare an EIS and before the scoping process, the Authority shall prepare a notice of intent. The notice of intent shall briefly describe the project and possible alternatives and the proposed scoping process. The Authority shall distribute the notice of intent to affected federal, state, and local agencies, any affected Indian tribe, the applicant, and other interested parties. The Authority shall issue the notice of intent for public comment in accordance with subsection (J)(3).
 2. As soon as possible after the distribution and publication of the notice of intent required by subsection (G)(1), the Authority shall convene a meeting of affected federal, state, and local agencies, affected Indian tribes, the applicant, and other interested parties. At the meeting, the parties attending the meeting shall determine the scope of the EIS by considering a number of factors, including all of the following:
 - a. The significant issues to be analyzed in depth in the EIS,
 - b. The preliminary range of alternatives to be considered,
 - c. The potential cooperating agencies and information or analyses that may be needed from cooperating agencies or other parties, and
 - d. The method for EIS preparation and the public participation strategy.
 3. Upon completion of the process described in subsection (G)(2), the Authority shall identify and evaluate all potentially viable alternatives to adequately address the range of issues identified. Additional issues also may be addressed, or others eliminated, and the reasons documented as part of the EIS.
 4. After the analysis of issues is conducted according to subsection (G)(3), the Authority shall issue a draft EIS for public comment according to subsection (J)(4).
 5. Following public comment according to subsection (J), the Authority shall prepare a final EIS, consisting of all of the following:
 - a. The draft EIS;
 - b. An analysis of all reasonable alternatives and the no action alternative;
 - c. A summary of any coordination or consultation undertaken with any federal, state, or local government, or federally-recognized Indian tribe;
 - d. A summary of the public participation process;
 - e. Comments received on the draft EIS;
 - f. A list of persons commenting on the draft EIS;
 - g. The Authority's responses to significant comments received;
 - h. A determination of consistency with the Certified Water Quality Management Plan, if applicable;
 - i. The names and qualifications of the persons primarily responsible for preparing the EIS; and
 - j. Any other information added by the Authority.
 6. The Authority shall prepare or direct the applicant to prepare a supplemental EIS when appropriate, including when substantial changes are made to the project that are relevant to environmental concerns, or when there are significant new circumstances or information relevant to environmental concerns bearing on the project.
- H. After issuance of a final EIS under subsection (G)(5), the Authority shall prepare and issue a record of decision (ROD) containing the Authority's decision whether to proceed or not proceed with a project. A ROD issued with a decision to proceed shall include a brief description of the project, alternatives considered, and project impacts. In addition, the ROD must include any commitments to mitigation, an explanation if the environmental preferred alternative was not selected, and any responses to substantive comments on the final EIS. A ROD issued with a decision not to proceed shall preclude the project from receiving financial assistance under this Article.
- I. For all determinations (categorical exclusions, FONSI, or RODs) that are five years old or older and for which the project has not been implemented, the Authority shall re-evaluate the project, environmental conditions, and public views to determine whether to conduct a supplemental environmental review of the project and complete an appropriate environmental review document or reaffirm the Authority's original determination. The Authority shall provide public notice of the re-evaluation according to subsection (J)(5).
- J. The Authority shall conduct public notice and participation under this Section as follows:
 1. If a categorical exclusion is granted under subsection (B), the Authority shall provide public notice of that fact by publishing the notice as a legal notice at least once, in one or more newspapers of general circulation in the county or counties concerned.
 2. If a FONSI is issued under subsection (F)(2), the Authority shall provide public notice that the FONSI is available for public review by publishing the notice as a legal notice at least once in one or more newspapers of general circulation in the county or counties concerned. The notice shall provide that comments on the FONSI may be submitted to the Authority for a period of 30 days from the date of publication of the notice. If no comments are received, the FONSI shall immediately become effective. The Authority may proceed with the project subject to any mitigation measures described in the FONSI after responding to any substantive comments received on the

TITLE 18. ENVIRONMENTAL QUALITY

CHAPTER 15. WATER INFRASTRUCTURE FINANCE AUTHORITY OF ARIZONA

FONSI during the 30-day comment period, or 30 days after issuance of the FONSI if no substantive comments are received.

3. If a notice of intent is prepared and distributed under subsection (G)(1), the Authority shall publish it as a legal notice at least once, in one or more newspapers of general circulation in the county or counties concerned.
4. If a draft EIS is issued under subsection (G)(4), the Authority shall provide public notice by publishing the notice as a legal notice at least once, in one or more newspapers of general circulation in the county or counties concerned, that the draft EIS is available for public review. The notice shall provide that comments on the draft EIS may be submitted to the Authority for a period of 45 days from the date of publication of the notice. When the Authority determines that a project may be controversial, the notice shall provide for a general public hearing to receive public comments.
5. If the Authority reaffirms or revises a decision according to subsection (I), the Authority shall provide public notice of that fact by publishing the notice as a legal notice at least once, in one or more newspapers of general circulation in the county or counties concerned.

PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

RULES

The definition for a rule is provided for under A.R.S. § 41-1001. “Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2022 is cited as Supp. 22-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. This is why the Office lists only updated codified Sections on the previous page.

RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.
