**The release of this Chapter in Supp. 24-4 replaces Supp. 23-3, 1-35 pages.**

Please note that the Chapter you are about to replace may have rules still in effect after the publication date of this supplement. Therefore, all superseded material should be retained in a separate binder and archived for future reference.

## PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director  
ADMINISTRATIVE RULES DIVISION

### RULES

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

### THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31  
Second Quarter: April 1 - June 30  
Third Quarter: July 1 - September 30  
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2022 is cited as Supp. 22-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. This is why the Office lists only updated codified Sections on the previous page.

### RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

### AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

### HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

### ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, [www.azleg.gov](http://www.azleg.gov). An agency’s authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

### SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State’s website, [www.azsos.gov](http://www.azsos.gov) under Services-> Legislative Filings.

### EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at [www.azsos.gov/rules](http://www.azsos.gov/rules), click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

### PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

## PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director  
ADMINISTRATIVE RULES DIVISION

### RULES

The definition for a rule is provided under A.R.S. § 41-1001. “*Rule*’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

### THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31  
Second Quarter: April 1 - June 30  
Third Quarter: July 1 - September 30  
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2022 is cited as Supp. 22-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. This is why the Office lists only updated codified Sections on the previous page.

### RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

### AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

### HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

### ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, [www.azleg.gov](http://www.azleg.gov). An agency’s authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

### SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State’s website, [www.azsos.gov](http://www.azsos.gov) under Services-> Legislative Filings.

### EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at [www.azsos.gov/rules](http://www.azsos.gov/rules), click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

### PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

## Supp. 24-4

*Editor's Note: Historical notes for Sections made, repealed or amended in Supp. 14-1 were updated to reflect the effective date as immediate per the original notice filed by the agency. A number of other publication errors have been corrected in Supplement 20-4 that should have been made in Supp. 14-1. These include: adding new Sections R9-22-301 and R9-22-302; correcting a punctuation error in R9-22-1401; repealing Sections R9-22-1407 and R9-22-1443; and the amending of R9-22-1501 (Supp. 20-4).*

*Editor's Note: The Office of the Secretary of State prints all Code Chapters on white paper (Supp 01-3).*

*Editor's Note: This Chapter contains rules which were adopted or amended under an exemption from the Arizona Administrative Procedure Act (A.R.S. Title 41, Chapter 6), under Laws 1992, Ch. 301, § 61 and Ch. 302, § 13, and Laws 1993, Ch. 6, § 34. Exemption from A.R.S. Title 41, Chapter 6 means that AHCCCS did not submit notice of this rulemaking to the Secretary of State's Office for publication in the Arizona Administrative Register; the Governor's Regulatory Review Council did not review these rules; AHCCCS was not required to hold public hearings on these rules; and the Attorney General did not certify these rules. Because this Chapter contains rules which are exempt from the regular rulemaking process, the Chapter is printed on blue paper.*

**ARTICLE 4. PENALTY FOR OBTAINING ELIGIBILITY BY FRAUD****R9-22-401. Definitions**

Definitions. The following definitions apply specifically to terms used within this Article:

“Amounts incurred by the system” include capitation payments, costs incurred by any contractor in excess of capitation, reinsurance, and other administrative, legal or investigative costs associated with a person who obtained eligibility contrary to A.R.S. §§ 36-2905.04 and/or A.R.S. § 36-2991.

A penalty does not include, and does not need to be reduced by, the amount of any overpayments that AHCCCS

may be entitled to recoup from a person who violated A.R.S. § 36-2905.04 and/or A.R.S. § 36-2991.

  3. To obtain payment from a member for medical expenses incurred during a period when the member intentionally withheld information or intentionally provided inaccurate information pertaining to the member’s AHCCCS eligibility or enrollment that caused payment to the provider to be reduced or denied;
  4. For a service that is excluded by statute or rule, or provided in an amount that exceeds a limitation in statute or rule, if the member signs a document in advance of receiving the service stating that the member understands the service is excluded or is subject to a limit and that the member will be financially responsible for payment for the excluded service or for the services in excess of the limit;

Subcontract rates, terms, and conditions are subject to review and approval or disapproval under A.R.S. § 36-2904 and R9-22-715.
- G. Payment for in-state outpatient hospital services.
 

A contractor shall reimburse an in-state provider of outpatient hospital services rendered on or after July 1, 2005, at either a rate specified by a subcontract or, in absence of a subcontract, as provided under R9-22-712.10, A.R.S. § 36-2903.01 and other Sections of this Article. The terms of the subcontract are subject to review and approval or disapproval under A.R.S. § 36-2904 and R9-22-715.
- H. Outpatient out-of-state hospital payments. In the absence of a contract with an out-of-state hospital that specifies payment rates, a contractor shall reimburse out-of-state hospitals for covered outpatient services by applying the methodology described in R9-22-712.10 through R9-22-712.50. If the outpatient procedure is not assigned a fee schedule amount, the contractor shall pay the claim by multiplying the covered charges for the outpatient services by the statewide outpatient cost-to-charge ratio.
- I. Payment for observation days. A contractor shall reimburse a provider and a noncontracting provider for the provision of observation days at either a rate specified by subcontract or, in the absence of a subcontract, as prescribed under R9-22-712, R9-22-712.10, and R9-22-712.45.

  - 1. A contractor may conduct a review of any claims submitted and recoup any payments made in error.
  - 2. A hospital shall obtain prior authorization from the appropriate contractor for nonemergency admissions. When issuing prior authorization, a contractor shall consider the medical necessity of the service, and the availability and cost effectiveness of an alternative treatment. Failure to obtain prior authorization when required is cause for nonpayment or denial of a claim. A contractor shall not require prior authorization for medically necessary services provided during any prior period for which the contractor is responsible. If a contractor and a hospital agree to a subcontract, the parties shall abide by the terms of the subcontract regarding utilization control activities. A hospital shall cooperate with a contractor's reasonable activities necessary to perform concurrent review and shall make the hospital's medical records pertaining to a member enrolled with a contractor available for review.
  - 3. Regardless of prior authorization or concurrent review activities, a contractor may make prepayment or post-payment review of all claims, including but not limited to a hospital claim. A contractor may recoup an erroneously paid claim. If prior authorization was given for an inpatient hospital admission, a specific service, or level of care but subsequent medical review indicates that the admission, the service, or level of care was not medically appropriate, the contractor shall adjust the claim payment.
  - 4. A contractor and a hospital may enter into a subcontract that includes hospital claims review criteria and procedures if the subcontract meets the requirements of R9-22-715.

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

- H.** Reduction in payments to providers. The Administration and its contractors shall reduce the payment it makes to any provider by the amount of a member's copayment obligation under subsection (E), regardless of whether the provider successfully collects the copayments described in this Section.

**R9-22-712. Reimbursement: General**

- A.** Inpatient and outpatient discounts and penalties. If a claim is pending for additional documentation required under A.R.S. § 36-2903.01(G)(4), the period during which the claim is pending is not used in the calculation of the quick-pay discounts and slow-pay penalties under A.R.S. § 36-2903.01(G)(5).
- B.** Inpatient and outpatient in-state or out-of-state hospital payments.
1. Payment for inpatient out-of-state hospital services for claims with discharge dates on or before September 30, 2014. In the absence of a contract with an out-of-state hospital that specifies payment rates, AHCCCS shall reimburse out-of-state hospitals for covered inpatient services by multiplying covered charges by the most recent statewide urban cost-to-charge ratio as determined in R9-22-712.01(6)(d).
  2. Payment for inpatient in-state hospital services for claims with discharge dates on or before September 30, 2014. AHCCCS shall reimburse an in-state provider of inpatient hospital services rendered with a discharge date on or before September 30, 2014, at the prospective tiered-per-diem amount in A.R.S. § 36-2903.01 and this Article.
  3. Payment for inpatient in-state or out-of-state hospital services for claims with discharge dates on and after October 1, 2014 regardless of admission date. Subject to R9-22-718 and A.R.S. § 36-2905.01 regarding urban hospitals, a contractor shall reimburse an in-state or out-of-state provider of inpatient hospital services, at either a rate specified by subcontract or, in the absence of a subcontract, the DRG rate established by the Administration and this Article. Subcontract rates, terms, and conditions are subject to review and approval or disapproval under A.R.S. § 36-2904 and R9-22-715.
  4. Outpatient out-of-state hospital payments. In the absence of a contract with an out-of-state hospital that specifies payment rates, AHCCCS shall reimburse an out-of-state hospital for covered outpatient services by applying the methodology described in R9-22-712.10 through R9-22-712.50. If the outpatient procedure is not assigned a fee schedule amount, the Administration shall pay the claim by multiplying the covered charges for the outpatient services by the statewide outpatient cost-to-charge ratio.
  5. Outpatient in-state hospital payments. A contractor shall reimburse an in-state provider of outpatient hospital services rendered on or after July 1, 2005, at either a rate specified by a subcontract or, in absence of a subcontract, as provided under R9-22-712.10, A.R.S. § 36-2903.01 and other Sections of this Article. The terms of the subcontract are subject to review and approval or disapproval under A.R.S. § 36-2904 and R9-22-715.
- C.** Access to records. Subcontracting and noncontracting providers of outpatient or inpatient hospital services shall allow the Administration access to medical records regarding eligible persons and shall in all other ways fully cooperate with the Administration or the Administration's designated representative in performance of the Administration's utilization control activities. The Administration shall deny a claim for failure to cooperate.
- D.** Prior authorization. The Administration or contractor may deny a claim if a provider fails to obtain prior authorization as required under R9-22-210.
- E.** Review of claims. Regardless of prior authorization or concurrent review activities, the Administration may subject all hospital claims, including outliers, to prepayment medical review or post-payment review, or both. The Administration shall conduct post-payment reviews consistent with A.R.S. § 36-2903.01 and may recoup erroneously paid claims.
- F.** Claim receipt.
1. The Administration's date of receipt of inpatient or outpatient hospital claims is the date the claim is received by the Administration as indicated by the date stamp on the claim and the system-generated claim reference number or system-generated date-specific number.
  2. Hospital claims are considered paid on the date indicated on disbursement checks.
  3. A denied claim is considered adjudicated on the date the claim is denied.
  4. Claims that are denied and are resubmitted are assigned new receipt dates.

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

5. For a claim that is pending for additional supporting documentation specified in A.R.S. § 36-2903.01 or 36-2904, the Administration shall assign a new date of receipt upon receipt of the additional documentation.
  6. For a claim that is pending for documentation other than the minimum required documentation specified in either A.R.S. § 36-2903.01 or 36-2904, the Administration shall not assign a new date of receipt.
- G. Outpatient hospital reimbursement.** The Administration shall pay for covered outpatient hospital services provided to eligible persons with dates of service from March 1, 1993 through June 30, 2005, at the AHCCCS outpatient hospital cost-to-charge ratio, multiplied by the amount of the covered charges.
1. **Computation of outpatient hospital reimbursement.** The Administration shall compute the cost-to-charge ratio on a hospital-specific basis by determining the covered charges and costs associated with treating eligible persons in an outpatient setting at each hospital. Outpatient operating and capital costs are included in the computation but outpatient medical education costs that are included in the inpatient medical education component are excluded. To calculate the outpatient hospital cost-to-charge ratio annually for each hospital, the Administration shall use each hospital's Medicare Cost Reports and a database consisting of outpatient hospital claims paid and encounters processed by the Administration for each hospital, subjecting both to the data requirements specified in R9-22-712.01. The Administration shall use the following methodology to establish the outpatient hospital cost-to-charge ratios:
    - a. **Cost-to-charge ratios.** The Administration shall calculate the costs of the claims and encounters for outpatient hospital services by multiplying the ancillary line item cost-to-charge ratios by the covered charges for corresponding revenue codes on the claims and encounters. Each hospital shall provide the Administration with information on how the revenue codes used by the hospital to categorize charges on claims and encounters correspond to the ancillary line items on the hospital's Medicare Cost Report. The Administration shall then compute the overall outpatient hospital cost-to-charge ratio for each hospital by taking the average of the ancillary line items cost-to-charge ratios for each revenue code weighted by the covered charges.
    - b. **Cost-to-charge limit.** To comply with 42 CFR 447.325, the Administration may limit cost-to-charge ratios to 1.00 for each ancillary line item from the Medicare Cost Report. The Administration shall remove ancillary line items that are non-covered or not applicable to outpatient hospital services from the Medicare Cost Report data for purposes of computing the overall outpatient hospital cost-to-charge ratio.
  2. **New hospitals.** The Administration shall reimburse new hospitals at the weighted statewide average outpatient hospital cost-to-charge ratio multiplied by covered charges. The Administration shall continue to use the statewide average outpatient hospital cost-to-charge ratio for a new hospital until the Administration rebases the outpatient hospital cost-to-charge ratios and the new hospital has a Medicare Cost Report for the fiscal year being used in the rebasing.
  3. **Specialty outpatient services.** The Administration may negotiate, at any time, reimbursement rates for outpatient hospital services in a specialty facility.
  4. **Reimbursement requirements.** To receive payment from the Administration, a hospital shall submit claims that are legible, accurate, error free, and have a covered charge greater than zero. The Administration shall not reimburse hospitals for emergency room treatment, observation hours or days, or other outpatient hospital services performed on an outpatient basis, if the eligible person is admitted as an inpatient to the same hospital directly from the emergency room, observation area, or other outpatient department. Services provided in the emergency room, observation area, and other outpatient hospital services provided before the hospital admission are included in the tiered per diem payment.
  5. **Rebasing.** The Administration shall rebase the outpatient hospital cost-to-charge ratios at least every four years but no more than once a year using updated Medicare Cost Reports and claim and encounter data.
  6. If a hospital files an increase in its charge master for an existing outpatient service provided on or after July 1, 2004, and on or before June 30, 2005, which represents an aggregate increase in charges of more than 4.7%, the Administration shall adjust the hospital-specific cost-to-charge ratio as calculated under subsection (G)(1) through (5) by applying the following formula:  

$$CCR * [1.047 / (1 + \% \text{ increase})]$$
 Where "CCR" means the hospital-specific cost-to-charge ratio as calculated under subsection (G)(1) through (5) and "% increase" means the aggregate percentage increase in charges for outpatient services shown on the hospital charge master.  
 "Charge master" means the schedule of rates and charges as described under A.R.S. § 36-436 and the rules that relate to those rates and charges that are filed with the Director of the Arizona Department of Health Services.

**Historical Note**

Adopted as an emergency effective February 23, 1983 pursuant to A.R.S. § 41-1003, valid for only 90 days (Supp. 83-1). 1658, effective August 2, 2011 (Supp. 11-3). Amended by final rulemaking at 20 A.A.R. 1956, September 6, 2014 (Supp. 14-3).

**R9-22-712.01. Inpatient Hospital Reimbursement for claims with admission dates and discharge dates from October 1, 1998 through September 30, 2014**

Inpatient hospital reimbursement. The Administration shall pay for covered inpatient acute care hospital services provided to eligible persons for claims with admission dates and discharge dates from October 1, 1998 through September 30, 2014, on a prospective reimbursement basis. The prospective rates represent payment in full, excluding quick-pay discounts, slow-pay penalties, and third-party payments for both accommodation and ancillary department services. The rates include reimbursement for operating and capital costs. The Administration shall make reimbursement for direct graduate medical education as described in A.R.S. § 36-2903.01. For payment purposes, the Administration shall classify each AHCCCS inpatient hospital day of care into one of several tiers appropriate to the services rendered. The rate for a tier is referred to as the tiered per diem rate of reimbursement. The number of tiers is seven and the maximum number of tiers payable per continuous stay is two. Payment of outlier claims, transplant claims, or payment to out-of-state hospitals, freestanding psychiatric hospitals, and other specialty facilities may differ from the inpatient hospital tiered per diem rates of reimbursement described in this Section.

1. Tier rate data. The Administration shall base tiered per diem rates effective on and after October 1, 1998 on Medicare Cost Reports for Arizona hospitals for the fiscal year ending in 1996 and a database consisting of inpatient hospital claims and encounters for dates of service matching each hospital's 1996 fiscal year end.
  - a. Medicare Cost Report data. Because Medicare Cost Report years are not standard among hospitals and were not audited at the time of the rate calculation, the Administration shall inflate all the costs to a common point in time as described in subsection (2) for each component of the tiered per diem rates. The Administration shall not make any changes to the tiered per diem rates if the Medicare Cost Report data are subsequently updated or adjusted. If a single Medicare Cost Report is filed for more than one hospital, the Administration shall allocate the costs to each of the respective hospitals. A hospital shall submit information to assist the Administration in this allocation.
  - b. Claim and encounter data. For the database, the Administration shall use only those inpatient hospital claims paid by the Administration and encounters that were accepted and processed by the Administration at the time the database was developed for rates effective on and after October 1, 1998. The Administration shall subject the claim and encounter data to a series of data quality, reasonableness, and integrity edits and shall exclude from the database or adjust claims and encounters that fail these edits. The Administration shall also exclude from the database the following claims and encounters:
    - i. Those missing information necessary for the rate calculation,
    - ii. Medicare crossovers,
    - iii. Those submitted by freestanding psychiatric hospitals, and
    - iv. Those for transplant services or any other hospital service that the Administration would pay on a basis other than the tiered per diem rate.
2. Tier rate components. The Administration shall establish inpatient hospital prospective tiered per diem rates based on the sum of the operating and capital components. The rate for the operating component is a statewide rate for each tier except for the NICU and Routine tiers, which are based on peer groups. The rate for the capital component is a blend of statewide and hospital-specific values, as described in A.R.S. § 36-2903.01. The Administration shall use the following methodologies to establish the rates for each of these components.
  - a. Operating component. Using the Medicare Cost Reports and the claim and encounter database, the Administration shall compute the rate for the operating component as follows:
    - i. Data preparation. The Administration shall identify and group into department categories, the Medicare Cost Report data that provide ancillary department cost-to-charge ratios and accommodation costs per day. To comply with 42 CFR 447.271, the Administration shall limit cost-to-charge ratios to 1.00 for each ancillary department.
    - ii. Operating cost calculation. To calculate the rate for the operating component, the Administration shall derive the operating costs from claims and encounters by combining the Medicare Cost Report data and the claim and encounter database for all hospitals. In performing this calculation, the Administration shall match the revenue codes on the claims and encounters to the departments in which the line items on the Medicare Cost Reports are grouped. The ancillary department cost-to-charge ratios for a particular hospital are multiplied by the covered ancillary department charges on each of the hospital's claims and encounters. The AHCCCS inpatient days of care on the particular hospital's claims and encounters are multiplied by the corresponding accommodation costs per day from the hospital's Medicare Cost Report. The ancillary cost-to-charge ratios and accommodation costs per day do not include medical education and capital costs. The Administration shall inflate the resulting operating costs for the claims and encounters of each hospital to a common point in time, December 31, 1996, using the DRI inflation factor and shall reduce the operating costs for the hospital by an audit adjustment factor based on available national data and Arizona historical experience in adjustments to Medicare reimbursable costs. The Administration shall further inflate operating costs to the midpoint of the rate year (March 31, 1999).
    - iii. Operating cost tier assignment. After calculating the operating costs, the Administration shall assign the claims and encounters used in the calculation to tiers based on diagnosis, procedure, or revenue codes, or NICU classification level, or a combination of these. For the NICU tier, the Administration shall further

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

- assign claims and encounters to NICU Level II or NICU Level III peer groups, based on the hospital's certification by the Arizona Perinatal Trust. For the Routine tier, the Administration shall further assign claims and encounters to the general acute care hospital or rehabilitation hospital peer groups, based on state licensure by the Department of Health Services. For claims and encounters assigned to more than one tier, the Administration shall allocate ancillary department costs to the tiers in the same proportion as the accommodation costs. Before calculating the rate for the operating component, the Administration shall identify and exclude any claims and encounters that are outliers as defined in subsection (6).
- iv. Operating rate calculation. The Administration shall set the rate for the operating component for each tier by dividing total statewide or peer group hospital costs identified in this subsection within the tier by the total number of AHCCCS inpatient hospital days of care reflected in the claim and encounter database for that tier.
  - b. Capital component. For rates effective October 1, 1999 the capital component is calculated as described in A.R.S. § 36-2903.01.
  - c. Statewide inpatient hospital cost-to-charge ratio. For dates of service prior to October 1, 2007, the statewide inpatient hospital cost-to-charge ratio is used for payment of outliers, as described in subsections (4), (5), and (6), and out-of-state hospitals, as described in R9-22-712(B). The Administration shall calculate the AHCCCS statewide inpatient hospital cost-to-charge ratio by using the Medicare Cost Report data and claim and encounter database described in subsection (1) and used to determine the tiered per diem rates. For each hospital, the covered inpatient days of care on the claims and encounters are multiplied by the corresponding accommodation costs per day from the Medicare Cost Report. Similarly, the covered ancillary department charges on the claims and encounters are multiplied by the ancillary department cost-to-charge ratios. The accommodation costs per day and the ancillary department cost-to-charge ratios for each hospital are determined in the same way described in subsection (2)(a) but include costs for operating and capital. The Administration shall then calculate the statewide inpatient hospital cost-to-charge ratio by summing the covered accommodation costs and ancillary department costs from the claims and encounters for all hospitals and dividing by the sum of the total covered charges for these services for all hospitals.
  - d. Unassigned tiered per diem rates. If a hospital has an insufficient number of claims to set a tiered per diem rate, the Administration shall pay that hospital the statewide average rate for that tier.
3. Tier assignment. The Administration shall assign AHCCCS inpatient hospital days of care to tiers based on information submitted on the inpatient hospital claim or encounter including diagnosis, procedure, or revenue codes, peer group, NICU classification level, or a combination of these.
    - a. Tier hierarchy. In assigning claims for AHCCCS inpatient hospital days of care to a tier, the Administration shall follow the Hierarchy for Tier Assignment through September 30, 2014 in R9-22-712.09. The Administration shall not pay a claim for inpatient hospital services unless the claim meets medical review criteria and the definition of a clean claim. The Administration shall not pay for a hospital stay on the basis of more than two tiers, regardless of the number of interim claims that are submitted by the hospital.
    - b. Tier exclusions. The Administration shall not assign to a tier or pay AHCCCS inpatient hospital days of care that do not occur during a period when the person is eligible. Except in the case of death, the Administration shall pay claims in which the day of admission and the day of discharge are the same, termed a same day admit and discharge, including same day transfers, as an outpatient hospital claim. The Administration shall pay same day admit and discharge claims that qualify for either the maternity or nursery tiers based on the lesser of the rate for the maternity or nursery tier, or the outpatient hospital fee schedule.
    - c. Seven tiers. The seven tiers are:
      - i. Maternity. The Administration shall identify the Maternity Tier by a primary diagnosis code. If a claim has an appropriate primary diagnosis, the Administration shall pay the AHCCCS inpatient hospital days of care on the claim at the maternity tiered per diem rate.
      - ii. NICU. The Administration shall identify the NICU Tier by a revenue code. A hospital does not qualify for the NICU tiered per diem rate unless the hospital is classified as either a NICU Level II or NICU Level III perinatal center by the Arizona Perinatal Trust. The Administration shall pay AHCCCS inpatient hospital days of care on the claim that meet the medical review criteria for the NICU tier and have a NICU revenue code at the NICU tiered per diem rate. The Administration shall pay any remaining AHCCCS inpatient hospital day on the claim that does not meet NICU Level II or NICU Level III medical review criteria at the nursery tiered per diem rate.
      - iii. ICU. The Administration shall identify the ICU Tier by a revenue code. The Administration shall pay AHCCCS inpatient hospital days of care on the claim that meets the medical review criteria for the ICU tier and has an ICU revenue code at the ICU tiered per diem rate. The Administration may classify any AHCCCS inpatient hospital days on the claim without an ICU revenue code, as surgery, psychiatric, or routine tiers.
      - iv. Surgery. The Administration shall identify the Surgery Tier by a revenue code and a valid surgical procedure code that is not on the AHCCCS excluded surgical procedure list. The excluded surgical procedure list identifies minor procedures such as sutures that do not require the same hospital resources as other procedures. The Administration shall only split

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

- a surgery tier with an ICU tier. AHCCCS shall pay at the surgery tier rate only when the surgery occurs on a date during which the member is eligible.
- v. Psychiatric. The Administration shall identify the Psychiatric Tier by either a psychiatric revenue code and a psychiatric diagnosis or any routine revenue code if all diagnosis codes on the claim are psychiatric. The Administration shall not split a claim with AHCCCS inpatient hospital days of care in the psychiatric tier with any tier other than the ICU tier.
  - vi. Nursery. The Administration shall identify the Nursery Tier by a revenue code. The Administration shall not split a claim with AHCCCS inpatient hospital days of care in the nursery tier with any tier other than the NICU tier.
  - vii. Routine. The Administration shall identify the Routine Tier by revenue codes. The routine tier includes AHCCCS inpatient hospital days of care that are not classified in another tier or paid under any other provision of this Section. The Administration shall not split the routine tier with any tier other than the ICU tier.
4. Annual update. The Administration shall annually update the inpatient hospital tiered per diem rates through September 30, 2011.
  5. New hospitals. For rates effective on and after October 1, 1998, the Administration shall pay new hospitals the statewide average rate for each tier, as appropriate. The Administration shall update new hospital tiered per diem rates through September 30, 2011.
  6. Outliers. The Administration shall reimburse hospitals for AHCCCS inpatient hospital days of care identified as outliers under this Section by multiplying the covered charges on a claim by the Medicare Urban or Rural Cost-to-Charge Ratio. The Urban cost-to-charge ratio will be used for hospitals located in a county of 500,000 residents or more. The Rural cost-to-charge ratio will be used for hospitals located in a county of fewer than 500,000 residents.
    - a. Outlier criteria. For rates effective on and after October 1, 1998, the Administration set the statewide outlier cost threshold for each tier at the greater of three standard deviations from the statewide mean operating cost per day within the tier, or two standard deviations from the statewide mean operating cost per day across all the tiers. If the covered costs per day on a claim exceed the urban or rural cost threshold for a tier, the claim is considered an outlier. Outliers will be paid by multiplying the covered charges by the applicable Medicare Urban or Rural CCR. The resulting amount will be the outlier payment. If there are two tiers on a claim, the Administration shall determine whether the claim is an outlier by using a weighted threshold for the two tiers. The weighted threshold is calculated by multiplying each tier rate by the number of AHCCCS inpatient hospital days of care for that tier and dividing the product by the total tier days for that hospital. Routine maternity stays shall be excluded from outlier reimbursement. A routine maternity is any one-day stay with a delivery of one or two babies. A routine maternity stay will be paid at tier.
    - b. Update. The CCR is updated annually by the Administration for dates of service beginning October 1, using the most current Medicare cost-to-charge ratios published or placed on display by CMS by August 31 of that year. The Administration shall update the outlier cost thresholds for each hospital through September 30, 2011 as described under A.R.S. § 36-2903.01. For inpatient hospital admissions with begin dates of service on and after October 1, 2011, AHCCCS will increase the outlier cost thresholds by 5% of the thresholds that were effective on September 30, 2011.
    - c. Medicare Cost-to-Charge Ratio Phase-In. AHCCCS shall phase in the use of the Medicare Urban or Rural Cost-to-Charge Ratios for outlier determination, calculation and payment. The three-year phase-in does not apply to out-of-state or new hospitals.
      - i. Medicare Cost-to-Charge Ratio Phase-In outlier determination and threshold calculation. For outlier claims with dates of service on or after October 1, 2007 through September 30, 2008, AHCCCS shall adjust each hospital specific inpatient cost-to-charge ratio in effect on September 30, 2007 by subtracting one-third of the difference between the hospital specific inpatient cost-to-charge ratio and the effective Medicare Urban or Rural Cost-to-Charge Ratio. For outlier claims with dates of service on or after October 1, 2008 through September 30, 2009, AHCCCS shall adjust each hospital specific inpatient cost-to-charge ratio in effect on September 30, 2007 by subtracting two-thirds of the difference between the hospital specific inpatient cost-to-charge ratio and the effective Medicare Urban or Rural Cost-to-Charge Ratio. The adjusted hospital specific inpatient cost-to-charge ratios shall be used for all calculations using the Medicare Urban or Rural Cost-to-Charge Ratios, including outlier determination, and threshold calculation.
      - ii. Medicare Cost-to-Charge Ratio Phase-In calculation for payment. For payment of outlier claims with dates of service on or after October 1, 2007 through September 30, 2008, AHCCCS shall adjust the statewide inpatient hospital cost-to-charge ratio in effect on September 30, 2007 by subtracting one-third of the difference between the statewide inpatient hospital cost-to-charge ratio and the effective Medicare urban or rural cost-to-charge ratio. For payment of outlier claims with dates of service on or after October 1, 2008 through September 30, 2009, AHCCCS shall adjust the statewide inpatient hospital cost-to-charge ratio in effect on September 30, 2007 by subtracting two-thirds of the difference between the statewide inpatient hospital cost-to-charge ratio and the effective Medicare urban or rural cost-to-charge ratio.
      - iii. Medicare Cost-to-Charge Ratio for outlier determination, threshold calculation, and payment. For outlier claims with dates of service on or after October 1, 2009, the full Medicare

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

Urban or Rural Cost-to-Charge Ratios shall be utilized for all outlier calculations.

- d. Cost-to-Charge Ratio used for qualification and payment of outlier claims.
  - i. For qualification and payment of outlier claims with begin dates of service on or after April 1, 2011 through September 30, 2011, the CCR will be equal to 95% of the ratios in effect on October 1, 2010.
  - ii. For qualification and payment of outlier claims with begin dates of service on or after October 1, 2011, the CCR will be equal to 90.25% of the most recent published Urban or Rural Medicare CCR as described in subsection (6)(b).
  - iii. For qualification and payment of outlier claims with begin dates of service on or after October 1, 2011 through September 30, 2012, AHCCCS will reduce the cost-to-charge ratio determined under subsection (6)(d)(ii) for a hospital that filed a charge master with ADHS on or after April 1, 2011 by an additional percentage equal to the total percent increase reported on the charge master.
  - iv. Subject to approval by CMS, for qualification and payment of outlier claims with begin dates of service on or after October 1, 2012, AHCCCS will reduce the cost-to-charge ratio determined under subsection (6)(d)(ii) for a hospital that filed a charge master with ADHS on or after June 1, 2012 by an additional percentage equal to the total percent increase reported on the charge master.
7. Transplants. The Administration shall reimburse hospitals for an AHCCCS inpatient stay in which a covered transplant as described in R9-22-206 is performed through the terms of the relevant contract. If the Administration and a hospital that performs transplant surgery on an eligible person do not have a contract for the transplant surgery, the Administration shall not reimburse the hospital more than what would have been paid to the contracted hospital for that same surgery.
8. Ownership change. The Administration shall not change any of the components of a hospital's tiered per diem rates upon an ownership change.
9. Psychiatric hospitals. The Administration shall pay free-standing psychiatric hospitals an all-inclusive per diem rate based on the contracted rates used by the Department of Health Services.
10. Specialty facilities. The Administration may negotiate, at any time, reimbursement rates for inpatient specialty facilities or inpatient hospital services not otherwise addressed in this Section as provided by A.R.S. § 36-2903.01. For purposes of this subsection, "specialty facility" means a facility where the service provided is limited to a specific population, such as rehabilitative services for children.
11. Outliers for new hospitals. Outliers for new hospitals will be calculated using the Medicare Urban or Rural Cost-to-Charge Ratio times covered charges. If the resulting cost is equal to or above the cost threshold, the claim will be paid at the Medicare Urban or Rural Cost-to-Charge ratio.
12. Reductions to tiered per diem payment for inpatient hospital services. Inpatient hospital admissions with begin dates of service on or after October 1, 2011, shall be

reimbursed at 95 percent of the tiered per diem rates in effect on September 30, 2011.

**R9-22-712.05. Graduate Medical Education Fund Allocation**

- A. Graduate medical education (GME) reimbursement as of September 30, 1997. Subject to legislative appropriation, the Administration shall make a distribution based on direct graduate medical education costs as described in A.R.S. § 36-2903.01(G)(9)(a).
- B. Subject to available funds and approval by CMS, the Administration shall annually distribute monies appropriated for the expansions of GME programs approved by the Administration to hospitals for direct program costs eligible for funding under A.R.S. § 36-2903.01(G)(9)(b). A GME program is deemed to be established as of the date of its original accreditation. All determinations that are necessary to make distributions described by this subsection shall be made using information possessed by the Administration as of the date of reporting under subsection (B)(3).
  1. Eligible health care facilities. A health care facility is eligible for distributions under subsection (B) if all of the following apply:
    - a. It is a hospital in Arizona that is the sponsoring institution of, or a participating institution in, one or more of the GME programs in Arizona;
    - b. It incurs direct costs for the training of residents in the GME programs, which costs are or will be reported on the hospital's Medicare Cost Report;
    - c. It is not administered by or does not receive its primary funding from an agency of the federal government.
  2. Eligible resident positions. For purposes of determining program allocation amounts under subsection (B)(4) the following resident positions are eligible for consideration to the extent that the resident training takes place in Arizona and not at a health care facility made ineligible under subsection (B)(1)(c):
    - a. Filled resident positions in approved programs established as of October 1, 1999 at hospitals that receive funding as described in A.R.S. § 36-2903.01(G)(9)(a) that are additional to the number of resident positions that were filled as of October 1, 1999; and
    - b. All filled resident positions in approved programs other than GME programs described in A.R.S. § 36-2903.01(G)(9)(a) that were established before July 1, 2006.
  3. Annual reporting. By April 1st of each year, each GME program and each hospital seeking a distribution under

subsection (B) shall provide the applicable information listed in this subsection to the Administration:

- a. A GME program shall provide all of the following:
    - i. The program name and number assigned by the accrediting organization;
    - ii. The original date of accreditation;
    - iii. The names of the sponsoring institution and all participating institutions current as of the date of reporting;
    - iv. The number of approved resident positions and the number of filled resident positions current as of the date of reporting;
    - v. For programs established as of October 1, 1999, the number of resident positions that were filled as of October 1, 1999, if the program has not already provided this information to the Administration;
  - b. A hospital seeking a distribution under subsection (B) shall provide all of the following that apply:
    - i. If the hospital uses the Intern and Resident Information System (IRIS) for tracking and reporting its resident activity to the fiscal intermediary, copies of the IRIS master and assignment files for the hospital's two most recently completed Medicare cost reporting years as filed with the fiscal intermediary;
    - ii. If the hospital does not use the IRIS or has less than two cost reporting years available in the form of the IRIS master and assignment files, the information normally contained in the IRIS master and assignment files in an alternative format for the hospital's two most recently completed Medicare cost reporting years;
    - iii. At the request of the Administration, a copy of the hospital's Medicare Cost Report or any part of the report for the most recently completed cost reporting year.
4. Allocation of expansion funds. Annually the Administration shall allocate available funds to each approved GME program in the following manner:
- a. Information provided by hospitals under subsection (B)(3)(b) shall be used to determine the program in which each eligible resident is enrolled and the number of days that each eligible resident worked in any area of the hospital complex or in a non-hospital setting under agreement with the reporting hospital during the period of assignment to that hospital. For this purpose, the Administration shall use data relating to the most recent 12-month period that is common to all information provided under subsections (B)(3)(b)(i) and (ii).
  - b. The number of eligible residents allocated to each participating institution within each approved GME program shall be determined as follows:
    - i. Total the number of days determined for each participating institution under subsection (B)(4)(a) and divide each total by 365.
    - ii. Proportionally adjust the result of subsection (B)(4)(b)(i) for each participating institution within each program according to the number of residents determined to be eligible under subsection (B)(2).
  - c. The number of allocated eligible residents determined under subsection (B)(4)(b)(ii) shall be adjusted for Arizona Medicaid utilization using the most recent Medicare Cost Report information on file with the Administration as of the date of reporting under subsection (B)(3) and the Administration's inpatient hospital claims and encounter data for the time period corresponding to the Medicare Cost Report information for each hospital. The Administration shall use only those inpatient hospital claims paid by the Administration and encounters that were adjudicated by the Administration as of the date of reporting under subsection (B)(3). The Medicaid-adjusted eligible residents shall be determined as follows:
    - i. For each hospital, the total AHCCCS inpatient hospital days of care shall be divided by the total Medicare Cost Report inpatient hospital days, multiplied by 100 and rounded up to the nearest multiple of 5 percent.
    - ii. The number of allocated eligible residents determined for each participating hospital under subsection (B)(4)(b)(ii) shall be multiplied by the percentage derived under subsection (B)(4)(c)(i) for that hospital. The number of allocated eligible residents determined under subsection (B)(4)(b)(ii) for a participating institution that is not a hospital and not a health care facility made ineligible under subsection (B)(1)(c) shall be multiplied by the percentage derived under subsection (B)(4)(c)(i) for the program's sponsoring institution or, if the sponsoring institution is not a hospital, the sponsoring institution's affiliated hospital. The number of allocated eligible residents determined under subsection (B)(4)(b)(ii) for a participating institution that is made ineligible under subsection (B)(1)(c) shall be multiplied by zero percent.
  - d. The total allocation for each approved program shall be determined by multiplying the Medicaid-adjusted eligible residents determined under subsection (B)(4)(c)(ii) by the per-resident conversion factor determined below and totaling the resulting dollar amounts for all participating institutions in the program. The per-resident conversion factor shall be determined as follows:
    - i. Calculate the total direct GME costs from the most recent Medicare Cost Reports on file with the Administration for all hospitals that have reported such costs.
    - ii. Calculate the total allocated residents determined under subsection (B)(4)(b)(i) for those hospitals described under subsection (B)(4)(d)(i).
    - iii. Divide the total GME costs calculated under subsection (B)(4)(d)(i) by the total allocated residents calculated under subsection (B)(4)(d)(ii).
5. Distribution of expansion funds. On an annual basis subject to available funds, the Administration shall distribute the allocated amounts determined under subsection (B)(4) in the following manner:
- a. The allocated amounts shall be distributed in the following order of priority:
    - i. To eligible hospitals that do not receive funding in accordance with A.R.S. § 36-

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

- 2903.01(G)(9)(a) for the direct costs of programs established before July 1, 2006;
- ii. To eligible hospitals that receive funding in accordance with A.R.S. § 36-2903.01(G)(9)(a) for the direct costs of programs established before July 1, 2006;
  - b. The allocated amounts shall be distributed to the eligible hospitals in each approved program in proportion to the number of Medicaid-adjusted eligible residents allocated to each hospital within that program under subsection (B)(4)(c)(ii).
  - c. If funds are insufficient to cover all distributions within any priority group described under subsection (B)(5)(a), the Administration shall adjust the distributions proportionally within that priority group.
- C. Subject to available funds and approval by CMS, the Administration shall annually distribute monies appropriated for the expansions of GME programs approved by the Administration to hospitals for direct program costs eligible for funding under A.R.S. § 36-2903.01(G)(9)(c)(i). A GME program is deemed to be established as of the date of its original accreditation. All determinations that are necessary to make distributions described by this subsection shall be made using information possessed by the Administration as of the date of reporting under subsection (C)(3).
1. Eligible health care facilities. A health care facility is eligible for distributions under subsection (C) if it meets all the conditions of subsections (B)(1)(a) through (c).
  2. Eligible resident positions. For purposes of determining program allocation amounts under subsection (C)(4), the following resident positions are eligible for consideration to the extent that the resident training takes place in Arizona and not at a health care facility made ineligible under subsection (B)(1)(c):
    - a. All filled resident positions in approved programs established on or after July 1, 2006; and
    - b. For approved programs established on or after July 1, 2006 that have been established for less than one year as of the date of reporting under subsection (C)(3) and have not yet filled their first-year resident positions, all prospective residents reasonably expected by the program to be enrolled as a result of the most recently completed annual resident match.
  3. Annual reporting. By April 1st of each year, each GME program and each hospital seeking a distribution under subsection (C) shall provide to the Administration:
    - a. A GME program shall provide all of the following:
      - i. The requirements of subsections (B)(3)(a)(i) through (iv);
      - ii. The academic year rotation schedule on file with the program current as of the date of reporting; and
      - iii. For programs described under subsection (C)(2)(b), the number of residents expected to be enrolled as a result of the most recently completed annual resident match.
    - b. A hospital seeking a distribution under subsection (C) shall provide the requirements of subsection (B)(3)(b).
  4. Allocation of expansion funds. Annually the Administration shall allocate available funds to approved GME programs in the following manner:
    - a. Information provided by hospitals in accordance with subsection (B)(3)(b) shall be used to determine the program in which each eligible resident is enrolled and the number of days that each eligible resident worked in any area of the hospital complex or in a non-hospital setting under agreement with the reporting hospital during the period of assignment to that hospital. For this purpose, the Administration shall use data relating to the most recent 12-month period that is common to all information provided in accordance with subsections (B)(3)(b)(i) and (ii).
    - b. For approved programs whose resident activity is not represented in the information provided in accordance with subsection (B)(3)(b), information provided by GME programs under subsection (C)(3)(a) shall be used to determine the number of days that each eligible resident is expected to work at each participating institution.
    - c. The number of eligible residents allocated to each participating institution for each approved GME program shall be determined by totaling the number of days determined under subsections (C)(4)(a) and (b) and dividing the totals by 365.
    - d. The number of allocated residents determined under subsection (C)(4)(c) shall be adjusted for Arizona Medicaid utilization in accordance with subsection (B)(4)(c).
    - e. The total allocation for each approved program shall be determined in accordance with subsection (B)(4)(d).
  5. Distribution of expansion funds. On an annual basis subject to available funds, the Administration shall distribute the allocated amounts determined under subsection (C)(4) to the eligible hospitals in each approved program in proportion to the number of Medicaid-adjusted eligible residents allocated to each within that program under subsection (C)(4)(d).
- D. Subject to available funds and approval by CMS, the Administration shall annually distribute monies appropriated for GME programs approved by the Administration to hospitals for indirect program costs eligible for funding under A.R.S. § 36-2903.01(G)(9)(c)(ii). A GME program is deemed to be established as of the date of its original accreditation. All determinations that are necessary to make distributions described by this subsection shall be made using information possessed by the Administration as of the date of reporting under subsection (D)(3).
1. Eligible health care facilities. A health care facility is eligible for distributions under subsection (D) if all of the following apply:
    - a. It is a hospital in Arizona that is the sponsoring institution of, or a participating institution in, one or more of the GME programs in Arizona or is the base hospital for one or more of the GME programs in Arizona whose sponsoring institutions are not hospitals;
    - b. It incurs indirect program costs for the training of residents in the GME programs, which are or will be calculated on the hospital's Medicare Cost Report or are reimbursable under the Children's Hospitals Graduate Medical Education Payment Program administered by HRSA;
    - c. It is not administered by or does not receive its primary funding from an agency of the federal government.

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

2. Eligible resident positions. For purposes of determining program allocation amounts under subsection (D)(4) the following resident positions are eligible for consideration to the extent that the resident training takes place in Arizona and not at a health care facility made ineligible under subsection (D)(1)(c):
    - a. Any filled resident position in an approved program that includes a rotation of at least one month per year in a county other than Maricopa or Pima whose population was less than 500,000 persons at the time the residency rotation was added to the academic year rotation schedule;
    - b. For approved programs that have been established for less than one year as of the date of reporting under subsection (D)(3) and have not yet filled their first-year resident positions, all prospective residents reasonably expected by the program to be enrolled as a result of the most recently completed annual resident match who will perform rotations of at least one month per year in a county other than Maricopa or Pima whose population was less than 500,000 persons at the time the residency rotation was added to the academic year rotation schedule.
  3. Annual reporting. By April 1st of each year, each GME program and each hospital seeking a distribution under subsection (D) shall provide to the Administration:
    - a. A GME program shall provide all of the following:
      - i. The requirements of subsections (B)(3)(a)(i) through (iv);
      - ii. The academic year rotation schedule on file with the program current as of the date of reporting;
      - iii. For programs described under subsection (D)(2)(c), the number of residents expected to be enrolled as a result of the most recently completed annual resident match.
    - b. A hospital seeking a distribution under subsection (D) shall provide the requirements of subsection (B)(3)(b)(iii).
  4. Allocation of funds for indirect program costs. Annually the Administration shall allocate available funds to approved GME programs in the following manner:
    - a. Using the information provided by programs under subsection (D)(3), the Administration shall determine for each program the number of residents in the program who are eligible under subsection (D)(2) and the number of months per year that each eligible resident will perform rotations in counties described by subsection (D)(2), multiply the number of eligible residents by the number of months and multiply the result by the per resident per month conversion factor determined under subsection (D)(4)(b).
    - b. Using the most recent Medicare Cost Reports on file with the Administration for all hospitals that have calculated a Medicare indirect medical education payment, the Administration shall determine a per resident per month conversion factor as follows:
      - i. Calculate each hospital's Medicare share by dividing the Medicare inpatient discharges on the Medicare Cost Report by the total inpatient hospital discharges on the Medicare Cost Report.
      - ii. Calculate the ratio of residents to beds by dividing the total allocated residents described in subsection (B)(4)(d)(ii) by the number of bed days available from the Medicare Cost Report and dividing the result by the number of days in the cost reporting period.
      - iii. Calculate the indirect medical education adjustment factor by adding 1 to the value calculated in (D)(4)(b)(ii), multiplying the result by the exponential value 0.405, subtracting 1 from the result, and multiplying that result by 1.35.
      - iv. Calculate each hospital's total indirect medical education cost by adding the DRG amounts other than outlier payments from the Medicare cost report and the managed care simulated payments from the Medicare Cost Report, multiplying the total by the indirect medical education adjustment factor determined in (D)(4)(b)(iii) and dividing the result by the Medicare share determined in (D)(4)(b)(i).
      - v. Calculate each hospital's Medicaid indirect medical education cost by multiplying the amount determined in (D)(4)(b)(iv) by the value determined in subsection (B)(4)(c)(i).
      - vi. Total the amounts determined in (D)(4)(b)(v) for all hospitals, divide the result by the total allocated residents described in subsection (B)(4)(d)(ii) for all hospitals, and divide that result by 12.
  5. Distribution of funds for indirect program costs. On an annual basis subject to available funds, the Administration shall distribute to each eligible hospital the amount calculated for the hospital at subsection (D)(4)(a).
- E.** Reallocation of funds. If funds appropriated for subsection (B) are not allocated by the Administration and funds appropriated for subsections (C) and (D) are insufficient to cover all distributions under subsections (C)(5) and (D)(5), the funds not allocated under subsection (B) shall be allocated under subsections (C) and (D) to the extent of the calculated distributions. If funds are insufficient to cover all distributions under subsections (C)(5) and (D)(5), the Administration shall adjust the distributions proportionally. If funds appropriated for subsections (C) and (D) are not allocated by the Administration and funds appropriated for subsection (B) are insufficient to cover all distributions under subsection (B)(5), the funds not allocated under subsections (C) and (D) shall be allocated under subsection (B) to the extent of the calculated distributions.
- F.** The Administration may enter into intergovernmental agreements with local, county, and tribal governments wherein local, county and tribal governments may transfer funds or certify public expenditures to the Administration. Such funds or certification, subject to approval by CMS, will be used to qualify for additional federal funds. Those funds will be used for the purposes of reimbursing hospitals that are eligible under subsection (D)(1) and specified by the local, county, or tribal government for indirect program costs other than those reimbursed under subsection (D). The Administration shall allocate available funds in accordance with subsection (D) except that reimbursement with such funds is not limited to resident positions or rotations in counties with populations of less than 500,000 persons. On an annual basis subject to available funds, the Administration shall distribute to each eligible hospital the greatest among the following amounts, less any amounts distributed under subsection (D)(5):

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

1. The amount that results from multiplying the total number of eligible residents allocated to the hospital under subsection (B)(4)(d)(ii) by 12 by the per resident per month conversion factor determined under subsection (D)(4)(b);
2. The amount calculated for the hospital at subsection (D)(4)(b)(v);
3. The median of all amounts calculated at subsection (D)(4)(b)(v) if the hospital does not have an indirect medical education payment calculated on the Medicare Cost Report because it is a new training hospital; or
4. If the hospital does not have an indirect medical education payment calculated on the Medicare Cost Report because it is a children's hospital, the median Medicaid indirect medical education payment costs shall be calculated as follows:
  - a. For each hospital with indirect medical education costs on the Medicare Cost Report, determine a per resident total indirect medical education cost by dividing the total indirect medical education costs determined under subsection (D)(4)(b) by the number of filled resident positions under subsection (B)(2).
  - b. Determine the median per resident amount under subsection (F)(4)(a).
  - c. For each hospital without an indirect medical education component on the Medicare cost report, multiply the median per resident amount under subsection (F)(4)(b) by the number of filled resident positions under subsection (B)(2) for that hospital and by the Medicaid utilization percent for that hospital determined in subsection (B)(4)(c)(i).
5. It is a hospital in Arizona that is the sponsoring institution of, or a participating institution in, one or more of the GME programs in Arizona;
6. It incurs direct costs for the training of residents in the GME programs, which costs are or will be reported on the hospital's Medicare Cost Report;
7. It is not administered by or does not receive its primary funding from an agency of the federal government;
8. It has established a new GME program or expanded the number of residents or fellows in an existing GME program on or after July 1, 2020.
3. Eligible positions. For purposes of determining distributions under this Section the following resident and fellowship positions qualify to the extent that the training takes place in Arizona at an eligible health care facility:
  - a. Filled resident or fellow positions in approved programs which began on or after July 1, 2020;
  - b. Eligible positions do not include residents or fellows that receive payments for services under the Access to Professional Services Initiative (APSI) program established in the Contractors' prepaid capitation contracts with the Administration.
4. Annual Reporting
  - a. By December 15 of each year, a GME program shall provide all of the following information for GME programs and positions which are expected to be eligible for funding under this Section as of the upcoming academic year (i.e., July 1 to June 30 of each year):

    - ii. The original date of accreditation if available;
    - iii. The names of the sponsoring institution and all participating institutions expected as of the date of reporting;
    - iv. The number of anticipated resident and fellowship positions eligible for funding as of the upcoming academic year;

    - vi. The academic year of anticipated resident and fellowship positions;
    - vii. The length of the program; and
    - viii. The names and other information requested by AHCCCS to ensure the total GME distributions for each eligible position are not greater than the costs for each eligible position in the Intern and Resident Information System (IRIS) file.

**R9-22-712.06. Supplemental Graduate Medical Education Fund Allocation**

- A.** Gradual Medical Education (GME) reimbursement as of July 1, 2020.
1. In addition to distributions according to Section R9-22-712.05, and subject to the availability of funds and approval by CMS, the Administration shall annually distribute monies appropriated for the GME programs approved by the Administration to hospitals for direct and indirect costs for graduate medical education programs which were established or expanded on or after July 1, 2020. The Administration shall estimate the distributions using information possessed by the Administration as of December 15 of each calendar year. The actual distributions will be made using information possessed by the Administration as of September first of the year in which the new residency or fellowship begins.
  2. Eligible Hospitals. A hospital is eligible for distributions under this Section if all of the following apply:

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

greater than the costs for each eligible position in the IRIS file.

- B.** Preliminary allocation of funds for urban hospitals. Annually by January 15, the Administration shall estimate the annual GME distributions under this Section using the funds appropriated for hospitals in counties with a population of 500,000 persons or more based on the number of new residents and fellows in graduate medical education programs in the following manner:
1. Each eligible resident and fellow is placed into tiers with the following priority:
    - a. Returning residents and fellows. A returning resident or fellow is a resident or fellow whose position received funding under this Section for the previous academic year and who is continuing in the same GME program.
    - b. Residents and fellows that are not a returning resident or fellow but are in a GME program for Family Medicine, Internal Medicine, General Pediatrics, Obstetrics and Gynecology, Psychiatry including Subspecialties, General Surgery, and any other program determined as high needs by the AHCCCS Administration.
    - c. Residents or fellows that are not returning residents or fellows and are not described in subsection (1)(b) but are in a GME program that received funding under this Section in a prior year.
    - d. All other residents and fellows.
  2. The amount of the distribution for each GME program for direct costs is calculated as the product of:
    - a. The number of eligible residents and fellows adjusted for the number of months or partial months worked in each hospital or non-hospital setting under agreement between the non-hospital setting and the reporting hospitals;
    - b. The Arizona Medicaid utilization as determined by R9-22-712.05(B)(4)(c)(i) in the previous calendar year; and,
    - c. The average direct cost per resident determined under R9-22-712.05(B)(4)(d) in the previous calendar year.
  3. If monies are still remaining after direct funding has been allocated, indirect funding shall be allocated based on the priority of each tier and sub-tier. The amount of the distribution for each GME program for indirect costs is calculated as the product of:
    - a. The number of allocated eligible residents and fellows adjusted for the number of months or partial months worked in each hospital or non-hospital setting under agreement between the non-hospital setting and the reporting hospital;
    - b. The indirect cost per resident per month calculated in R9-22-712.05(D)(4)(b)(vi) in the previous calendar year; and
    - c. Twelve months.
    - d. Funds shall be allocated based on the priority of each tier and sub-tier. Distributions for eligible positions in a tier or sub-tier with a lower priority will not receive a distribution until distributions are allocated for the costs of all positions in a higher tier or sub-tier. If funding is insufficient to fully fund a tier or sub-tier, the remainder of funds will be prorated for eligible positions in that tier or sub-tier.
4. Payments are made to participating hospitals based on the FTEs who worked at their hospitals per year.
- C.** Preliminary allocation of funds for rural hospitals. Annually by January 15, the Administration shall estimate the annual GME distributions under this Section using the funds appropriated for rural hospitals based on the number of eligible resident and fellow positions in graduate medical education programs located in a county with a population of less than 500,000 persons in the following manner:
1. Each resident and fellow will then be placed into a tier with the following priority:
    - a. Returning residents and fellows. A returning resident or fellow is a resident or fellow whose position received funding under this Section for the previous academic year and who is continuing in the same GME program.
    - b. Residents and fellows that are not a returning resident or fellow but are in a GME program for Family Medicine, Internal Medicine, General Pediatrics, Obstetrics and Gynecology, Psychiatry including Subspecialties, General Surgery, and any other program determined as high needs by the AHCCCS Administration.
    - c. Residents or fellows that are not returning residents or fellows and are not described in subsection (1)(b) but are in a GME program that received funding under this Section in a prior year.
    - d. All other residents and fellows.
  2. Residents and fellows in each tier are further divided into four sub-tiers with the following priority based on the location of the sponsoring or participating hospital:
    - a. Hospitals in a county designated by the Health Resource and Services Administration of the U.S. Department of Health & Human Services as a HPSA with a greater than 85 percent primary care shortage.
    - b. Hospitals in a county designated as a HPSA with a greater than 50 percent to 85 percent primary care shortage.
    - c. Hospitals in a county designated as a HPSA with a 25-50 percent primary care shortage.
    - d. Hospitals in a county designated as a HPSA with a less than 25 percent primary care shortage.
  3. Funds shall first be allocated for direct and indirect costs based in order of priority of each tier. If not enough funding is available to fully fund a tier or sub-tier, the remainder of funds will be prorated in a tier or sub-tier.
  4. The amount of the distribution for each GME program for direct costs is calculated as the product of:
    - a. The number of eligible residents and fellows adjusted for the number of months or partial months worked in each hospital or non-hospital setting under agreement between the non-hospital setting and the reporting hospitals;
    - b. The Arizona Medicaid utilization determined under R9-22-712.05(B)(4)(c)(i); and,
    - c. The actual direct cost per resident per year.
  5. The amount of the distribution for each GME program for indirect costs is calculated as the product of:
    - a. The number of allocated eligible residents and fellows adjusted for the number of months or partial months worked in each hospital or non-hospital setting under agreement between the non-hospital setting and the reporting hospital;

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

- b. The indirect cost per resident per month calculated in R9-22-712.05(D)(4)(b)(vi) in the previous calendar year; and
    - c. Twelve months.
  - 6. Payments are made to participating hospitals based on the FTEs who worked at their hospitals per year.
  - D.** Final allocation of funds. Annually no sooner than September 1 following the start of the academic year, the Administration will recalculate the allocation for urban and rural hospitals using the same methodology used to estimate distributions, but using the actual residents and fellows as reported in R9-22-712.06(A)(4)(c).
  - F.** Exclusions. To ensure that residents and fellows are not double counted residents/fellows which receive funding through R9-22-712.06 shall not receive funding through R9-22-712.05.

- New Section made by final rulemaking at 27 A.A.R. 2496 (October 29, 2021), with an immediate effective date of October 6, 2021 (Supp. 21-4). Amended by final rulemaking at 29 A.A.R. 923 (April 21, 2023), with an immediate effective date of March 31, 2023 (Supp. 23-1).
- R9-22-712.07. Rural Hospital Inpatient Fund Allocation**
- A.** For purposes of this Section, the following words and phrases have the following meanings unless the context specifically requires another meaning:
    - 1. "Calculated inpatient costs" means the sum of inpatient covered charges multiplied by the Milliman study's implied cost-to-charge ratio of .8959.
    - 2. "Claims paid amount" means the sum of all claims paid by the Administration and contractors, as reported by the contractor to the Administration, to a rural hospital for covered inpatient services rendered for dates of service during the previous state fiscal year.
    - 3. "Fund" means any state funds appropriated by the Legislature for the purposes set forth in A.R.S. § 36-2905.02 and any federal funds that are available for matching the state funds.
    - 4. "Inpatient covered charges" means the sum of all covered charges billed by a hospital to the Administration or contractors, as reported by the contractors to the Administration, for inpatient services rendered during the previous state fiscal year.
    - 5. "Milliman study" means the report issued by Milliman USA on March 11, 2004, to the Arizona Hospital and Healthcare Association that updated a portion of a cost study entitled "Evaluation of the AHCCCS Inpatient Hospital Reimbursement System" prepared by Milliman USA for AHCCCS on November 15, 2002. A copy of each report is on file with the Administration.
    - 6. "Rural hospital" means a health care institution that is licensed as an acute care hospital by the Arizona Department of Health Services for the previous state fiscal year and is not an IHS hospital or a tribally owned or operated facility and:
      - a. Has 100 or fewer PPS beds, not including beds reported as sub provider beds on the hospital's Medicare Cost Report, and is located in a county with a population of less than 500,000 persons, or
      - b. Is designated as a critical access hospital for the majority of the previous state fiscal year.
  - B.** Each February, the Administration shall allocate the Fund to the following three pools for the fiscal year:
    - 1. Rural hospitals with 25 or fewer PPS beds not including sub provider beds and all Critical Access Hospitals, regardless of the number of beds in the Critical Access Hospital;
    - 2. Rural hospitals other than Critical Access Hospitals with 26 to 75 PPS beds not including sub provider beds; and
    - 3. Rural hospitals other than Critical Access Hospitals with 76 to 100 PPS beds not including sub provider beds.
  - C.** The Administration shall allocate the Fund to each pool according to the ratio of claims paid amount for all hospitals assigned to the pool to total claims paid amount for all rural hospitals.
  - D.** The Administration shall determine each hospital's claims paid amount and allocate the funds in each pool to each hospital in the pool based on the ratio of each hospital's claims paid amount to the sum of the claims paid amount for all hospitals assigned to the pool.
  - E.** The Administration shall not make a Fund payment to a hospital that will result in the hospital's claims paid amount plus that hospital's Fund payment being greater than that hospital's calculated inpatient costs.
    - 1. If a hospital's claims paid amount plus the hospital's Fund payment would be greater than the hospital's calculated inpatient costs, the Administration shall make a Fund payment to the hospital equal to the difference between the hospital's calculated inpatient costs and the hospital's claims paid amount.
    - 2. The Administration shall reallocate any portion of a hospital's Fund allocation that is not paid to the hospital due to the reason in subsection (E)(1) to the other eligible hospitals in the pool based upon the ratio of the claims paid amount for each hospital remaining in the pool to the sum of the claims paid amount for each hospital remaining in the pool.
  - F.** If funds remain in a pool after allocations to each hospital in the pool under subsections (D) and (E), the Administration shall reallocate the remaining funds to the other pools based upon the ratio of each pool's original allocation of the Fund as determined under subsection (C) to the sum of the remaining pools' original Fund allocations under subsection (C). The Administration shall allocate remaining funds to the hospitals in the remaining pools under subsection (D) and (E). See Exhibit 1 for an example.
  - G.** Subject to CMS approval of the method and distribution of the Fund, the administration or its contractors will distribute the Fund as a lump sum allocation to the rural hospitals in either one or two installments by the end of each state fiscal year.
- Historical Note**
- New Section made by final rulemaking at 12 A.A.R. 2188, effective June 6, 2006 (Supp. 06-2). Amended by final rulemaking at 22 A.A.R. 3476, effective January 30, 2016 (Supp. 15-4).

**Exhibit 1. Pool Example**

Pool A receives \$2,000,000. Pool B receives \$7,000,000. Pool C receives \$3,000,000.

If all of the funds in Pool B are paid to eligible hospitals and there is \$1,000,000 remaining, the remaining funds would be allocated to Pool A and Pool C based on the ratio of each pool's original allocation (original allocations of \$2,000,000 and \$3,000,000) to the total of their original allocation ( $\$2,000,000 + \$3,000,000 = \$5,000,000$ ).

**R9-22-712.08. Federally Qualified Health Center and Rural Health Clinic Graduate Medical Education Program**

- A.** Subject to available funds and approval by CMS, the Administration shall annually distribute monies appropriated for primary care GME programs approved by the Administration to Federally Qualified Health Centers (FQHC) and Rural Health Clinics (RHC) for direct and indirect program costs eligible for funding under A.R.S. § 36-2907.06(I).
1. A GME program is deemed to be established as of the date of its original accreditation. All determinations that are necessary to make distributions described by this subsection shall be made using information possessed by the Administration as of the date of reporting under subsection (D).
  2. For purposes of this subsection, the term "FQHC" includes Federally Qualified Health Center Look-Alikes.
- B.** Eligible health care facilities. A health care facility is eligible for a distribution under subsection (G) if all of the following apply:
1. It is an FQHC or RHC in Arizona that is the sponsoring institution of, or a full member of a consortium that is the sponsoring institution of, or a participating institution in, one or more approved primary care GME programs in Arizona;
  2. It incurs direct or indirect costs for the training of residents in Arizona in approved primary care GME programs;
  3. The GME program is not eligible for funding under R9-22-712.05; and
  4. The GME program is not fully funded by the federal government.
- C.** Eligible residents and resident positions. For purposes of determining program allocation amounts under subsections (E) and (F) the following residents and resident positions are eligible for consideration, to the extent that the resident training takes place in Arizona and not at a health care facility made ineligible under subsection (B):
1. All filled resident positions in approved primary care GME programs; or
  2. For approved primary care GME programs established for less than one year as of the date of annual reporting under subsection (D) and that have not yet filled their first-year resident positions, all prospective residents reasonably expected by the program to be enrolled as a result of the most recently completed annual resident match.
- D.** Annual reporting. By April 1st of each year, an FQHC or RHC seeking a distribution under this subsection shall:
1. Provide to the Administration the following information about each approved primary care GME program:
    - a. The program name and number assigned by the accrediting organization;
    - b. The original date of accreditation of the program;
    - c. The names of the sponsoring institution and all participating institutions current as of the date of reporting;
    - d. The number of approved resident positions and the number of filled resident positions current as of the date of reporting;
    - e. The academic year rotation schedule on file with the program current as of the date of reporting; and
  - f. For programs described under subsection (C)(2), the number of residents expected to be enrolled as a result of the most recently completed annual resident match.
2. Provide to the Administration the most recent Medicare Cost Report for the FQHC or RHC seeking the distribution, and
  3. For an FQHC or RHC that is a full member of a consortium that is the sponsoring institution of an approved primary care GME program, provide to the Administration a signed letter attesting to the responsibility of the full member FQHC or RHC for direct or indirect costs of training residents in the program.
- E.** Allocation of funds for direct graduate medical education costs. Annually the Administration shall allocate available funds for direct graduate medical education costs to each eligible FQHC or RHC in the following manner:
1. A Medicaid utilization percent for each FQHC or RHC seeking a distribution shall be calculated using the Medicare Cost Report submitted under subsection (D)(2), dividing the Title XIX visit count by the whole number of visits reported and rounding the result up to the nearest multiple of 5 percent.
  2. A total number of residents eligible for funding in each program shall be calculated using the information submitted under subsection (D)(1), dividing the number of resident rotations in the year that take place in Arizona and not at a health care facility made ineligible under subsection (B) by the total number of resident rotations in the program for that year, multiplying the result by the total number of filled resident positions in the program and rounding to two digits after the decimal.
  3. The allocation for direct graduate medical education costs for each eligible FQHC or RHC shall be calculated by multiplying the number of residents determined under subsection (E)(2) by the statewide average per-resident amount determined under this subsection and multiplying the result by the Medicaid utilization percent calculated for the FQHC or RHC under subsection (E)(1). The statewide average per-resident amount for the academic year ending June 30, 2022 is \$170,090. Annually thereafter, a statewide average per-resident amount shall be calculated by applying the Federally Qualified Health Center PPS Market Basket Update less Productivity Adjustment published by CMS for the calendar year in which the GME academic year begins.
- F.** Allocation of funds for indirect program costs. Annually the Administration shall allocate available funds for indirect program costs to each eligible FQHC or RHC in the following manner:
1. By multiplying the number of residents determined under subsection (E)(2) by the statewide average per-resident amount determined under this subsection and multiplying the result by the Medicaid utilization percent calculated for the FQHC or RHC under subsection (E)(1). The statewide average per-resident amount for the academic year ending June 30, 2022 is \$167,330;
  2. Annually thereafter, a statewide average per-resident amount shall be calculated by applying the Federally Qualified Health Center PPS Market Basket Update less

Productivity Adjustment published by CMS for the calendar year in which the GME academic year begins.

- G.** Distribution of funds. On an annual basis subject to available funds, the Administration shall distribute to each eligible FQHC and RHC the sum of all amounts calculated for the FQHC or RHC under subsections (E)(3) and (F).
- H.** The Administration may enter into intergovernmental agreements with local, county, and tribal governments and any university under the jurisdiction of the Arizona Board of Regents wherein such entities may transfer funds or certify public expenditures to the Administration. Such funds or certification, subject to approval by CMS, will contribute to the state funding to qualify for federal matching funds. Those funds will be used for the purposes of reimbursing FQHCs and RHCs that are eligible under this rule and designated by the local, county, or tribal governments for receipt of the contributed funds. The Administration shall allocate available funds in accordance with subsections (E) and (F).

under the AHCCCS Outpatient Capped Fee-for-service Schedule.

3. Match the revenue code on each detail of each claim and encounter to the ancillary line item CCR as reported on hospital-specific mapping documents and hospital-specific Medicare Cost Report for those hospitals that have submitted Medicare Cost Reports FYE 2002.
  4. Multiply the line item CCR from subsection (A)(3) by the covered billed charge for that revenue code to establish the cost for the service.
  5. Inflate the cost for the service from subsection (A)(4) using Global Insight Health-care Cost Review inflation factors from date of service month to the midpoint of the rate year in which the fees are initially effective.
  6. Include associated costs under R9-22-712.25 to calculate the rates for emergency room and surgery services.
  7. Combine data from all Arizona hospitals identified in subsection (A)(3) for each procedure code to establish the statewide median cost for each procedure.
  8. Group procedure codes according to the Ambulatory Payment Classification (APC) System groups as listed in 69 FR 65682, November 15, 2004, and establish a statewide median cost for each APC. Multiply each statewide median APC cost by 116 percent to establish the AHCCCS-based fee for each procedure in that specific APC group. AHCCCS shall assign each procedure in the group the same fee.
  9. For those procedure codes that are not grouped into any APC, establish a procedure-specific fee using either:
    - a. The AHCCCS Non-hospital Capped Fee-for-service Fee Schedule,
    - b. 116 percent of the procedure-specific median cost AHCCCS-based fee, or
    - c. The Medicare Clinical Laboratory Fee Schedule for laboratory services.
  10. Compare the AHCCCS-based fee established in subsections (A)(8) and (9) against the comparable Medicare fee established for the Medicare APC group as listed in the 69 FR 65682, November 15, 2004. The fee for each procedure shall be the greater of the AHCCCS-based fee or the Medicare fee but no more than 150 percent of the AHCCCS-based fee; however, for those laboratory services for which a limit is established in the Medicare Clinical Laboratory Fee Schedule, the fee shall not exceed that limit.
  11. Assign the 2005 Medicare fee in the AHCCCS Outpatient Capped Fee-for-service Schedule for those procedures for which there are fewer than 20 occurrences of the procedure code in the dataset, either independently, or, if applicable, for all procedure codes within an APC Group.
- B.** For all claims with a begin date of service on or after October 1, 2011, the AHCCCS Outpatient Capped Fee-for-Service Schedule shall be derived from the CMS Medicare Outpatient Prospective Payment System (OPPS) fee schedule modified by an Arizona conversion factor determined annually.

- A. Procedure codes. When procedure codes are issued by CMS and added to the Current Procedural Terminology published by the American Medical Association, AHCCCS shall add to the Outpatient Capped Fee-for-Service Schedule the new procedure codes for covered outpatient services and shall either assign the default CCR under R9-22-712.40(F)(2), the Medicare rate, or calculate an appropriate fee.
- B. APC changes. AHCCCS may reassign procedure codes to new or different APC groups when APC groups are revised by CMS. AHCCCS may reassign procedure codes to a different APC group than Medicare. If AHCCCS determines that utilization of a procedure code within the Medicare program is substantially different from utilization of the procedure code in the AHCCCS program, AHCCCS may choose not to assign the procedure code to any APC group. For procedure codes not grouped into an APC by Medicare, AHCCCS may assign the code to an APC group when AHCCCS determines that the cost and resources associated with the non-assigned code are substantially similar to those in the APC group.
- C. Annual update for Outpatient Hospital Fee Schedule. Beginning October 1, 2006, through September 30, 2011, AHCCCS shall adjust outpatient fee schedule rates:
  1. Annually by multiplying the rates effective during the prior year by the Global Insight Prospective Hospital Market Basket Inflation Index; or
  2. In a particular year the director may substitute the increases in subsection (C)(1) by calculating the dollar value associated with the inflation index in subsection (C)(1), and applying the dollar value to adjust rates at varying levels.
- D. Reductions to the Outpatient Capped Fee-For-Service Schedule. Claims paid using the Outpatient Capped Fee-For-Service Schedule with dates of service on or after October 1, 2011, shall be reimbursed at 95 percent of the rates in effect on September 30, 2011, subject to the annual adjustments to procedure codes and APCs under this Section.
- E. Rebase. AHCCCS shall rebase the outpatient fees every five years.

**R9-22-712.62. DRG Base Payment**

- A. The initial DRG base payment is the product of the DRG base rate, the DRG relative weight for the post-HCAC DRG code assigned to the claim, and any applicable provider and service policy adjusters.
- B. The DRG base rate for each hospital is the statewide standardized amount of which the hospital's labor-related share of that amount is adjusted by the hospital's wage index. The hospital's labor share is determined based on the labor share for the Medicare inpatient prospective payment system published in 85 Fed. Reg. 59060 through 59061 (September 18, 2020). The hospital's wage index is determined based on the wage index tables reference in 85 Fed. Reg. 59059 (September 18, 2020). The statewide standardized amount is included in the AHCCCS capped fee schedule available on the agency's website.
- C. Claims shall be assigned both a DRG code derived from all diagnosis and surgical procedure codes included on the claim (the "pre-HCAC" DRG code) and a DRG code derived excluding diagnosis and surgical procedure codes associated with the health care acquired conditions that were not present on admission or any other provider-preventable conditions (the "post-HCAC" DRG code). The DRG code with the lower relative weight shall be used to process claims using the DRG methodology.

**R9-22-712.63. DRG Base Payments Not Based on the Statewide Standardized Amount**

- A. Notwithstanding Section R9-22-712.62, a select specialty hospital standardized amount shall be used in place of the statewide standardized amount in subsection R9-22-712.62(B) to calculate the DRG base rate for the following hospitals:

1. Hospitals located in a city with a population greater than one million, which on average have at least 15 percent of inpatient days for patients who reside outside of Arizona, and at least 50 percent of discharges as reported on the 2011 Medicare Cost Report are reimbursed by Medicare.
  2. Hospitals designated as type: hospital, subtype: short term that has a license number beginning "SH" in the Provider & Facility Database for Arizona Medical Facilities posted by the ADHS Division of Licensing Services on its website for March of each year.
- B. The select specialty hospital standardized amount is included in the AHCCCS capped fee schedule available on the agency's website.
  - C. Notwithstanding Section R9-22-712.62, a rural hospital standardized amount shall be used in place of the statewide standardized amount in subsection R9-22-712.62(B) to calculate the DRG base rate for the following hospitals:
    1. A health care institution that is licensed as an acute care hospital, that has one hundred or fewer beds, and that is located in a county with a population of less than five hundred thousand persons; or
    2. A health care institution that is licensed as a critical access hospital.
  - D. The rural hospital standardized amount is included in the AHCCCS capped fee schedule available on the agency's website.
  - E. Notwithstanding Sections R9-22-712.62 and R9-22-712.63(B), a hospital standardized amount shall be used in place of the statewide standardized amount in subsection R9-22-712.62(B) or R9-22-712.63(B) to calculate the DRG base rate for a health care institution that is licensed as an acute care hospital, that has one hundred or fewer beds, that is located in a county with a population of less than five hundred thousand persons and has greater than twenty percent of Medicaid inpatient reimbursement with a primary diagnosis of behavioral health in the prior federal fiscal year as of April 30th.
  - F. The hospital standardized amount is included in the AHCCCS capped fee schedule available on the agency's website.
  - G. Notwithstanding Section R9-22-712.62 and R9-22-712.63(B), a hospital standardized amount shall be used in place of the statewide standardized amount in subsection R9-22-712.62(B) or R9-22-712.63(B) to calculate the DRG base rate for a health care institution with two separate ADHS acute care hospital licenses, with one facility that has one hundred or fewer beds, that is located in a county with a population of less than five hundred thousand persons and has one single AHCCCS registration for both licenses.

**R9-22-712.65. DRG Provider Policy Adjustor**

- A.** After calculating the DRG base payment as required in R9-22-712.62, R9-22-712.63, or R9-22-712.64, for claims from a high-utilization hospital, the product of the DRG base rate and the DRG relative weight for the post-HCAC DRG code shall be multiplied by a provider policy adjustor that is included in the AHCCCS capped fee schedule available on the agency's website.
- B.** A hospital is a high-utilization hospital if the hospital had:
1. Covered inpatient days subject to DRG reimbursement, determined using adjudicated claim and encounter data during the fiscal year beginning October 1, 2015, equal to at least four hundred percent of the statewide average number of AHCCCS-covered inpatient days at all hospitals;
  2. A Medicaid inpatient utilization rate greater than 30 percent calculated as the ratio of AHCCCS-covered inpatient days to total inpatient days as reported in the hospital's Medicare Cost Report for the fiscal year ending 2016; and,
  3. Received less than \$2 million in add-on payment for outliers under R9-22-712.68, based on adjudicated claims and encounters for fiscal year beginning October 1, 2015.

In addition to Section R9-22-712.65, for claims with DRG codes in the following categories, the product of the DRG base rate, the DRG relative weight for the post-HCAC DRG code, and the DRG provider policy adjustor shall be multiplied by the service policy

adjustor listed in the AHCCCS capped fee schedule, available on the agency's website, corresponding to the following DRG codes:

1. Normal newborn DRG codes,
2. Neonates DRG codes,
3. Obstetrics DRG codes,
4. Psychiatric DRG codes,
5. Rehabilitation DRG codes,
6. Burn DRG codes.
7. Claims for members under age 19 assigned DRG codes other than listed above:
  - a. For dates of discharge occurring on or after October 1, 2014 and ending no later than December 31, 2015 regardless of severity of illness level,
  - b. For dates of discharge on or after January 1, 2016, for severity of illness levels 1 and 2,

**R9-22-712.67. DRG Reimbursement: Transfers**

- A.** For purposes of this Section a "transfer" means the transfer of a member from a hospital to a short-term general hospital for inpatient care, a designated cancer center, children's hospital, or a critical access hospital except when a member is moved for the purpose of receiving sub-acute services.
- B.** Designated cancer center or children's hospitals are those hospitals identified as such in the UB-04 billing manual published by the National Uniform Billing Committee.
- C.** The hospital the member is transferred from shall be reimbursed either the initial DRG base payment or the transfer DRG base payment, whichever is less.
- D.** The transfer DRG base payment is an amount equal to the initial DRG base payment, as determined after making any provider or service policy adjustors, divided by the DRG National Average length of stay for the DRG code multiplied by the sum of one plus the length of stay.
- E.** The hospital the member is transferred to shall be reimbursed under the DRG payment methodology without a reduction due to the transfer.
- F.** Unadjusted DRG base payment. The unadjusted DRG base payment is either the initial DRG base payment, as determined after making any provider or service policy adjustors, or the transfer DRG base payment, whichever is less.

**R9-22-712.68. DRG Reimbursement: Unadjusted Outlier Add-on Payment**

## TITLE 9. HEALTH SERVICES

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

- A. Claims for inpatient hospital services qualify for an outlier add-on payment if the claim cost exceeds the outlier cost threshold.
- B. The claim cost is determined by multiplying covered charges by an outlier CCR as described by the following subsections:
  - 1. For hospitals designated as type: hospital, subtype: children's in the Provider & Facility Database for Arizona Medical Facilities posted by the ADHS Division of Licensing Services on its website for March of each year. The outlier CCR will be calculated by dividing the hospital total costs by the total charges using the most recent Medicare Cost Report available as of September 1 of that year.
  - 2. For Critical Access Hospitals the outlier CCR will be the sum of the statewide rural default operating cost-to-charge ratio and the statewide capital cost-to-charge ratio in the data file established as part of the Medicare Inpatient Prospective Payment System by CMS.
  - 3. For all other hospitals the outlier CCR will be the sum of the operating cost-to-charge ratio and the capital cost-to-charge ratio established for each hospital in the impact file established as part of the Medicare Inpatient Prospective Payment System by CMS.
- C. AHCCCS shall update the CCRs described in subsection (B) to conform to the most recent CCRs established by CMS as of September 1 of each year, and the CCRs so updated shall be used for claims with dates of discharge on or after October 1 of that year.
- D. The outlier threshold is equal to the sum of the unadjusted DRG base payment plus the fixed loss amount. The fixed loss amount for critical access hospitals and for all other hospitals are included in the AHCCCS capped fee schedule available on the agency's website.
- E. For those inpatient hospital claims that qualify for an outlier add-on payment, the payment is calculated by subtracting the outlier threshold from the claim cost and multiplying the result by the DRG marginal cost percentage. The DRG marginal cost percentage for claims assigned DRG codes associated with the treatment of burns and for all other claims are included in the AHCCCS capped fee schedule available on the agency's website.

**Historical Note**

New Section made by final rulemaking at 20 A.A.R. 1956, September 6, 2014 (Supp. 14-3). Amended by final rulemaking at 23 A.A.R. 2896, effective January 1, 2018 (Supp. 17-4).

**R9-22-712.69. DRG Reimbursement: Covered Day Adjusted DRG Base Payment and Covered Day Adjusted Outlier Add-on Payment**

Adjustments to the payments are made to account for days not covered by AHCCCS as follows:

- 1. A covered day reduction factor unadjusted is determined if the member is not eligible on the first day of the inpatient stay but is eligible for subsequent days during the inpatient stay. In this case, a covered day reduction factor unadjusted is calculated by dividing the number of AHCCCS covered days by the DRG National Average length of stay. The number of AHCCCS covered days is equal to the number of days the member is eligible during the inpatient stay.
- 2. A covered day reduction factor unadjusted is also determined if the member is eligible on the first day of the inpatient stay but is determined ineligible for one or more

days prior to the date of discharge. In this case, a covered day reduction factor unadjusted is calculated by adding one to the number of AHCCCS covered days and dividing the result by the DRG National Average length of stay. The number of AHCCCS covered days is equal to the number of days the member is eligible during the inpatient stay.

- 3. If the covered day reduction factor unadjusted is greater than one, then the covered day reduction factor final is one; otherwise, the covered day reduction factor final is equal to the covered day reduction factor unadjusted.
- 4. The covered day adjusted DRG base payment is an amount equal to the product of the unadjusted DRG base payment and the covered day reduction factor final.
- 5. The covered day adjusted DRG outlier add-on payment is an amount equal to the product of the unadjusted DRG outlier add-on payment and the covered day reduction factor final.

**Historical Note**

New Section made by final rulemaking at 20 A.A.R. 1956, September 6, 2014 (Supp. 14-3).

**R9-22-712.70. Covered Day Adjusted DRG Base Payment and Covered Day Adjusted Outlier Add-on Payment for FES members**

In addition to the covered day reduction factor in R9-22-712.69, a covered day reduction factor unadjusted is determined for an inpatient stay during which an FES member receives services for the treatment of an emergency medical condition and also receives services once the condition no longer meets the criteria as an emergency medical condition described in R9-22-217.

- 1. A covered day reduction factor unadjusted is calculated by adding one to the AHCCCS covered days and dividing the result by the DRG National Average length of stay. The number of AHCCCS covered days is equal to the number of inpatient days during which an FES member receives services for an emergency medical condition as described in R9-22-217. For purposes of this adjustment, any portion of a day during which the FES member receives treatment for an emergency medical condition is counted as an AHCCCS covered day.
- 2. If the covered day reduction factor unadjusted is greater than one, then the covered day reduction factor final is one; otherwise, the covered day reduction factor final is equal to the covered day reduction factor unadjusted.
- 3. The covered day adjusted DRG base payment is an amount equal to the product of the unadjusted DRG base payment and the covered day reduction factor final.
- 4. The covered day adjusted DRG outlier add-on payment is an amount equal to the product of the unadjusted DRG outlier add-on payment and the covered day reduction factor final.

**Historical Note**

New Section made by final rulemaking at 20 A.A.R. 1956, September 6, 2014 (Supp. 14-3).

**R9-22-712.71. Final DRG Payment**

- A. The final DRG payment is the sum of the final DRG base payment, the final DRG outlier add-on payment, and the Differential Adjusted Payment.
- B. The final DRG base payment is an amount equal to the product of the covered day adjusted DRG base payment and a hospital-specific factor established to limit the financial impact to individual hospitals of the transition from the tiered per diem pay-

## CHAPTER 22. ARIZONA HEALTH CARE COST CONTAINMENT SYSTEM - ADMINISTRATION

ment methodology and to account for improvements in documentation and coding that are expected as a result of the transition.

- C. The final DRG outlier add-on payment is an amount equal to the product of the covered day adjusted DRG outlier add-on payment and a hospital-specific factor established to limit the financial impact to individual hospitals of the transition from the tiered per diem payment methodology and to account for improvements in documentation and coding that are expected as a result of the transition.
- D. The factor for each hospital and for each federal fiscal year is published as part of the AHCCCS capped fee schedule and is available on the AHCCCS administration's website and is on file for public inspection at the AHCCCS administration located at 801 E. Jefferson Street, Phoenix, Arizona.
- E. For inpatient services with a date of discharge from October 1, 2023 through September 30, 2024 (CYE 2024), the Inpatient Differential Adjusted Payment is the sum of the final DRG base payment and the final DRG outlier add-on payment multiplied by a percentage published on the Administration's public website as part of its fee schedule, subsequent to the public notice published no later than September 1, 2023. A hospital will qualify for an increase if it meets the criteria specified below for the applicable hospital subtype. If a hospital receives a DAP for CYE 2024 but fails to meet all of the requirements in subsection (F), the hospital shall be disqualified from participating in a DAP for dates of service October 1, 2024 through September 30, 2025 (CYE 2025), if a DAP would be available at that time.
  - 1. A hospital designated by the Arizona Department of Health Services Division of Licensing Services as type: hospital, subtype: short-term or children's will qualify for an increase if it meets the criteria in subsection (1)(a), (b), (c), or (d):

Both uploads entered into the system and queries of the system by the hospital will be counted toward volume requirements, tracked monthly, and reported as a final deliverable by June 1, 2024. Uploading is defined by submitting a document or multiple documents for a patient into the registry and a query is defined as querying for documents within the Registry.
    - ii. For hospitals that have not participated in DAP HIE requirements in CYE 2023:

The referral is created by the provider or support staff member and sent directly to a social service provider. All referrals entered into the system by the hospital will be counted toward volume requirements, tracked monthly, and reported as a final deliverable by June 1, 2024.

**R9-22-712.75. DRG Reimbursement: Payment for Administrative Days**

- A. Categories of Administrative Days. Administrative days fall into one of two categories, either subsection (A)(1) or (A)(2).
  - 1. Administrative days due to lack of appropriate placement options and not meeting inpatient medical criteria. Administrative days are days in which a member is admitted as an inpatient to an acute care hospital, does not meet the criteria for an acute inpatient stay, but is admitted or not discharged because; (1) an appropriate placement outside the hospital is not available, (2) the member cannot be safely discharged or transferred, or (3) the Administration or the contractor failed to provide for the appropriate placement outside the hospital in a timely manner.
    - a. Administrative days may occur prior to an acute care episode, for example, when a woman with a high-risk pregnancy is admitted to a hospital while awaiting delivery.
    - b. Administrative days may also occur at the end of an acute care episode, for example, when a member is not discharged while awaiting placement in a nursing facility or other sub-acute or post-acute setting.
    - c. Administrative days may also include days in a receiving hospital when the member has been discharged from one acute care hospital for the purpose of receiving sub-acute services at the receiving hospital.
    - d. Administrative days do not include days when the member is awaiting appropriate placement or services that are currently available but the hospital has not transferred or discharged the member because of the hospital's administrative or operational delays.

## TITLE 9. HEALTH SERVICES

Inpatient claims covered by a RBHA or TRBHA are not considered administrative days under subsection (A)(2) regardless of the principal diagnosis on the hospital claim.
- B. Reimbursement of Administrative Days.
  - 1. Administrative days under subsection (A)(1) are reimbursed at the rate the claim would have paid had the services not been provided in an inpatient hospital setting but had been provided at the appropriate level of care such as the rate paid for stays at a nursing facility.
  - 2. Administrative days under subsection (A)(2) are reimbursed at the daily rate found on the Inpatient Behavioral Health Capped Fee-For-Service Schedule meeting the criteria of "Service Description – Psychiatric Stay," regardless of revenue code.
- C. Prior authorization is required for administrative days.

- F.** The Administration shall not reimburse a hospital for services provided at a hospital-based FSED if the member is admitted directly from a hospital-based FSED to a hospital with an ownership interest in the hospital-based FSED. As provided in R9-22-712.60(B), payments made for the inpatient stay using the DRG methodology shall be the sole reimbursement.

**R9-22-1437. MED Income Eligibility Requirements**

- A. Income exclusions. The exclusions in R9-22-1420(C) apply to the MED family unit.
- B. Income standard.

1. The Department shall divide the annual FPL for the MED family unit that is in effect during each month of the income period by 12 to determine the monthly FPL.
2. The Department shall add the monthly FPLs for the income period and multiply the resulting amount by 40 percent.
3. Changes to the annual FPL are implemented in April of each year.
- C. Income period. The income period is the month of application and the next two months. The Department shall add together the three months' income to establish the MED family unit's income amount.
- D. Medical expense deduction period. The medical expense deduction period is a three-month period consisting of:
  1. For a new application, the month before the application month, the month of application, and month following the application month; or
  2. For a MED eligibility review, the last month of the prior MED eligibility period and the following two months.
- E. The Department shall calculate the amount of countable monthly income as follows:
  1. Subtract a \$90 cost of employment allowance from the gross amount of earned income for each person whose earned income is counted;
  2. Disregard from the remaining earned income an amount billed by the provider for the care of each dependent child under age 18 or incapacitated adult member of the MED family unit if the care is for the purpose of allowing the person to work. If more than one person in the household is responsible for and billed for the care of a dependent child, the disregard may be split between the wage earners if splitting the disregard is to the benefit of the family, but shall not exceed the maximum disregards as follows:
    - a. A maximum of \$200 for a child under age two and \$175 for other dependents for a wage-earner employed full-time (86 or more hours per month); and
    - b. A maximum of \$100 for a child under age two, and \$88 for other dependents for a wage earner employed part-time (less than 86 hours a month);
  3. Add the remaining earned income for each MED family member to the unearned income of all MED family members;
  4. Compare the MED family's unit countable income amount to the income standard in subsection (B). The difference is the amount of medical expenses the family shall incur during the medical expense deduction period to become eligible;
  5. Subtract allowable medical expense deductions that were incurred by:
    - a. A member of the MED family unit;
    - b. A deceased spouse or minor child of a MED family unit if this person would have been a member of the MED unit during the MED expense deduction period;

- B. Ownership and availability. The Department shall evaluate the ownership of resources to determine the availability of resources to a person listed in subsection (A).
1. Jointly owned resources with ownership records containing the words "and" or "and/or" between the owners' names are available to each owner except if one of the owners refuses to sell. A consent to sale is not required if all owners are members of the MED family unit.
  2. Jointly owned resources with ownership records containing the word "or" between the owners' names are presumed to be available in full to each owner. The applicant or member may rebut the presumption by providing clear and convincing evidence of intent to establish a different type of ownership. If the presumption is rebutted, the resource is available to the owners:
    - a. Consistent with the intent of the owners, or
    - b. Based on each owner's proportionate net contribution if there is not clear and convincing evidence of a different allocation.
  3. The Department shall establish availability of a trust under 42 U.S.C. 1396p(d)(4)(A) or (C).
- C. Unavailability. The Department shall consider the following resources unavailable:
1. Property subject to spendthrift restriction, such as:
    - a. Accounts established by the SSA, Veteran's Administration, or similar sources that mandate that the funds in the account be used for the benefit of a person not residing with the MED family unit; or
    - b. Trusts established by a will or funded solely by the income and resources of someone other than a member of the MED family unit.
  2. A resource being disputed in a divorce proceeding or probate matter;
  3. Real property located on a Native American reservation;
  4. A resource held by a conservator to the extent court-imposed restrictions make the resource unavailable to the applicant, member, or member of the family unit for:
    - a. Medical care,
    - b. Food,
    - c. Clothing, or
    - d. Shelter.
- D. Resource exclusion. The Department shall exclude the following resources from the calculation of resources under subsection (E):

  2. Household furnishings and personal items that are necessary for day-to-day living;
  3. Up to \$1500 of the value of one prepaid funeral plan for each person listed in R9-22-1436 that specifically covers only funeral-related expenses as evidenced by a written contract;
  4. The value of one motor vehicle regularly used for transportation. If the MED family unit owns more than one vehicle, the exclusion is applied to the vehicle with the highest equity value;
  5. The value of a vehicle used to earn income and not used simply for transportation to and from employment;
  6. The value of a vehicle in which a SSI-cash recipient has an ownership interest; and
  7. The value of any vehicle used for medical treatment, employment, or transportation of a SSI-cash disabled child, and that is excluded by SSI for that reason.
  8. Funds set aside in an Individual Development Account under 6 A.A.C. 12, Article 4; and
  9. Any other resource specifically excluded by federal law.
- E. Calculation of resources. The Department shall determine the value of all household resources as follows:
1. Calculate the total amount of countable liquid resources;
  2. Calculate the equity value of each countable non-liquid resource. The Department shall determine the equity value of a countable non-liquid resource by subtracting the amount of valid encumbrances on that resource from:
    - a. The market value of real property if there is no assessor's evaluation of the property,
    - b. The market value of real property if the assessor's value of the real property does not include the value of permanent structures on that property,
    - c. The assessor's full cash value if subsections (E)(2)(a) and (E)(2)(b) do not apply, and
    - d. The market value of a non-liquid resource that is not real property;
  3. Not assign an equity value to a resource that is less than zero; and
  4. Determine the MED family unit's resources by adding the totals determined in subsections (1) and (2).
- F. Resource standard to be eligible for MED. A person is not eligible for MED if the resources determined in subsection (E) exceed \$100,000 or if more than \$5,000 are liquid resources.

- A. A MED family unit is eligible on the day the income and resource eligibility requirements are met but no earlier than the first day of the month of application. If the family unit meets the income requirements in the application month but does not meet the resource limit until the following month, the family unit's effective date of eligibility is the first day of the month following the month of application.
- B. The Department shall adjust the effective date of eligibility under subsection (A) to an earlier date if:
1. A member presents verification of additional allowable medical expenses incurred on an earlier date during the medical expense deduction period that allow the member to meet the income requirements, and
  2. The member presents the verification within 60 days of approval of eligibility under this Section.
- C. The Department shall not adjust an effective date of eligibility more than one time per application.

**R9-22-1702. Enrollment of a Member with an AHCCCS Contractor**

**A.** General enrollment requirements. The Administration shall enroll a member with a contractor as described in this Section, unless the member has pre-selected a contractor on the application:

1. Except as provided in subsections (A)(3), (A)(5), and (C), a member who is determined to be eligible under this Chapter and resides in an area served by more than one contractor, may choose an available contractor serving the member’s GSA within 30 days from the date of notice of enrollment. A Native American member may select IHS or another available contractor.
2. If the member does not make a choice under subsection (A)(1), the Administration shall immediately auto-assign the member to:
  - a. IHS if the member is a Native American living on a reservation,
  - b. A contractor based on family continuity, or
  - c. A contractor by using the auto-assignment algorithm.
3. If the member’s period of ineligibility and disenrollment from the contractor of record is for a period of less than 90 days, the Administration shall enroll the member with the member’s most recent contractor of record, if available, except if:
  - a. The member no longer resides in the contractor’s GSA;
  - b. The contractor’s contract is suspended or terminated;

- c. The member was previously enrolled with CMDP but at the time of re-enrollment the member is not a foster care child;
  - d. The member chooses another contractor or chooses IHS, if available to the member, during the annual enrollment choice period; or
  - e. The member was previously enrolled with a contractor but at the time of re-enrollment the member is a foster care child.
4. When the member’s disenrollment period is more than 90 days, the member may select a contractor as described in subsection (A)(1).
5. The Administration shall not enroll a member with a contractor if a member:
  - a. Is eligible for the FESP under R9-22-1419;
  - b. Is eligible for less than 30 days from the date the Administration receives notification of a member’s eligibility, except for a member who is enrolled with CMDP or IHS;
  - c. Is eligible only for a retroactive period of eligibility, except for a member who is enrolled with CMDP or IHS; or
  - d. Resides in an area not served by a contractor.
- B.** Fee-for-service coverage. A member not enrolled with a contractor under subsection (A)(5) shall obtain covered medical services from an AHCCCS-registered provider on a fee-for-service basis under Article 7.
- C.** Foster care child. The Administration shall enroll a member with CMDP if the member is a foster care child under A.R.S. § 8-512.
- D.** Family Planning Services Extension Program. A member eligible for the Family Planning Services Extension Program under R9-22-1431, shall remain enrolled with the member’s contractor of record or IHS.
- E.** Contractor or IHS enrollment change for a member.
  1. The Administration shall change a member’s enrollment if the member requests a change to an available contractor or IHS during an annual enrollment period. A Native American may change from an available contractor to IHS or from IHS to an available contractor at any time.
  2. The Administration shall approve a change in enrollment for any member if the change is a result of the final outcome of a grievance under 9 A.A.C. 34.
  3. A member may choose a different contractor if the member moves into a GSA not served by the current contractor or if the contractor is no longer available. If the member does not select a contractor, the Administration shall auto-assign the member as provided in subsection (A)(2).
  4. The Administration shall provide the member 60-day advance notice of the member’s option to change plans by the member’s annual enrollment date.
  5. A member may disenroll from a plan if:
    - a. The member moves out of the GSA;
    - b. The plan does not, because of moral or religious objections, cover the service a member seeks; or
    - c. The member needs related services to be performed at the same time; not all related services are available within the network; and the member’s primary care provider or another provider determines that receiving the services separately would subject the member to unnecessary risk.

Unexpended funds may be used to reimburse unrecovered emergency room costs under subsection (C) of this Section.
- C. The Administration shall distribute 10% of monies from the trauma and emergency services fund, for unrecovered emergency services costs, to a hospital having an emergency department, using criteria under R9-22-2103.   - 1. The professional, clinical, administrative, and overhead costs directly associated with providing level I trauma care, and
  - 2. The volume and acuity of trauma care provided by each hospital.
- C. On or after July 31 of each year, the Administration shall distribute monies to level I trauma centers using monies, under R9-22-2101(B), available in the trauma and emergency services fund at the time of payment according to the proportions calculated and used for the January payments in the same year, under subsection (B) of this Section.

## PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director  
ADMINISTRATIVE RULES DIVISION

### RULES

The definition for a rule is provided for under A.R.S. § 41-1001. “Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

### THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31  
Second Quarter: April 1 - June 30  
Third Quarter: July 1 - September 30  
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2022 is cited as Supp. 22-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. This is why the Office lists only updated codified Sections on the previous page.

### RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

### AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

### HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

### ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, [www.azleg.gov](http://www.azleg.gov). An agency’s authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

### SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State’s website, [www.azsos.gov](http://www.azsos.gov) under Services-> Legislative Filings.

### EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at [www.azsos.gov/rules](http://www.azsos.gov/rules), click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

### PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

## CHAPTER 25. DEPARTMENT OF HEALTH SERVICES - EMERGENCY MEDICAL SERVICES

Authority: A.R.S. §§ 36-136(F) and 36-2209(A) et seq.

## Supp. 24-4

*Editor's Note: Article 5 consisting of Sections R9-25-501 through R9-25-508 were recodified from Sections in Article 8 effective September 21, 2004 (Supp. 04-3). The Sections recodified from Article 8 were originally made or amended under an exemption from the provisions of the Administrative Procedure Act (A.R.S. Title 41, Chapter 6).*

*Editor's Note: The Office of the Secretary of State publishes all Chapters on white paper.*

*Editor's Note: This Chapter contains rules which were adopted, amended, and repealed under an exemption from the provisions of the Administrative Procedure Act (A.R.S. Title 41, Chapter 6) pursuant to A.R.S. § 36-2205(C). Exemption from A.R.S. Title 41, Chapter 6 means that the Department did not submit these rules to the Governor's Regulatory Review Council for review; the Department did not submit notice of proposed rulemaking to the Secretary of State for publication in the Arizona Administrative Register; and the Department was not required to hold public hearings on these rules. Because this Chapter contains rules which are exempt from the regular rulemaking process, the Chapter is printed on blue paper.*

## PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director  
ADMINISTRATIVE RULES DIVISION

### RULES

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

### THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31  
Second Quarter: April 1 - June 30  
Third Quarter: July 1 - September 30  
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2022 is cited as Supp. 22-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. This is why the Office lists only updated codified Sections on the previous page.

### RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

### AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

### HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

### ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, [www.azleg.gov](http://www.azleg.gov). An agency’s authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

### SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State’s website, [www.azsos.gov](http://www.azsos.gov) under Services-> Legislative Filings.

### EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at [www.azsos.gov/rules](http://www.azsos.gov/rules), click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

### PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

## PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director  
ADMINISTRATIVE RULES DIVISION

### RULES

The definition for a rule is provided for under A.R.S. § 41-1001. “‘Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

### THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31  
Second Quarter: April 1 - June 30  
Third Quarter: July 1 - September 30  
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2022 is cited as Supp. 22-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. This is why the Office lists only updated codified Sections on the previous page.

### RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

### AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

### HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

### ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, [www.azleg.gov](http://www.azleg.gov). An agency’s authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

### SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State’s website, [www.azsos.gov](http://www.azsos.gov) under Services-> Legislative Filings.

### EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at [www.azsos.gov/rules](http://www.azsos.gov/rules), click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

### PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

  2. The Department shall suspend its review of the application and send a written notice to the applicant that the bill is past due. If the applicant does not pay the outstanding bill by the date specified in the notice, which shall be at least 35 days from the date of the notice, the application shall be denied.

The decision

The applicant may relinquish every permit to appropriate, certificate of water right and certificate of stockpond water right on the condition that the Director issues a permit to appropriate or certificate of stockpond water right to the applicant for the same water. In that case, the relinquishment shall be effective when the Director issues the permit to appropriate or certificate of stockpond water right.
- C.** For purposes of this rule, "same water" means the same quantity of water from the same source for use at the same place for the same purpose. Water for which a right is applied or held pursuant to an application or permit to appropriate, certificate of water right or certificate of stockpond water right may be the same water in whole or in part as water for which a right is applied or held pursuant to a separate application or permit to appropriate, certificate of water right or certificate of stockpond water right.

**ARTICLE 4. LICENSING TIME-FRAMES****R12-15-401. Licensing Time-frames**

The following time-frames apply to licenses issued by the Department. In this Article, "license" has the meaning prescribed in A.R.S. § 41-1001. The licensing time-frames consist of an administrative completeness review time-frame, a substantive review time-frame, and an overall time-frame.

1. Within the administrative completeness review time-frames set forth in subsection (7), the Department shall notify the applicant in writing whether the application is complete or incomplete. If the application is incomplete, the notice shall specify what information or component is required to make the application complete.
2. An applicant with an incomplete application shall supply the missing information within 60 days from the date of the notice, or within such further time as the Director may specify, unless another time limit is specified by statute or applicable rule. If the applicant fails to complete the application within the specified time period, the Director

may deny the application. Denial of an application under this provision does not preclude the applicant from filing a new application.

3. Within the overall time-frames set forth in subsection (7), unless extended by mutual agreement under A.R.S. § 41-1075, the Department shall notify the applicant in writing that the application is granted or denied. If the application is denied, the Department shall provide written justification for the denial and a written explanation of the applicant's right to a hearing or the applicant's right to appeal.
4. In computing any period of time prescribed by this rule, the day of the filing, notice or event from which the designated period of time begins to run shall not be included. The last day of the computed period shall be included, unless it is a Saturday, Sunday, or a legal holiday, in which event the period runs until the end of the next day which is not a Saturday, Sunday, or legal holiday. When the prescribed administrative completeness review time-frame or substantive review time-frame is less than 11

days, intermediate Saturdays, Sundays and legal holidays shall be excluded from the computation. The overall time-frame is the sum of the administrative completeness review time-frame and the substantive review time-frame calculated as prescribed by this Section.

5. Except as otherwise noted, the licensing time-frames do not include time for hearings. Time-frames in cases where a hearing is held are increased by 120 days.
6. The licensing time-frame rules are effective after December 31, 1998, as prescribed by A.R.S. § 41-1073(A), and apply to all applications filed after that date.
7. The licensing time-frames are set forth in Table A.
