## PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director  
ADMINISTRATIVE RULES DIVISION

### RULES

The definition for a rule is provided for under A.R.S. § 41-1001. “Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

### THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31  
Second Quarter: April 1 - June 30  
Third Quarter: July 1 - September 30  
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2025 is cited as Supp. 25-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. The Office links to these codified Sections in the Table of Contents of this Chapter.

### RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

### AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

### HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

### ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, [www.azleg.gov](http://www.azleg.gov). An agency’s authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

### SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State’s website, [www.azsos.gov](http://www.azsos.gov) under Services-> Legislative Filings.

### EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at [www.azsos.gov/rules](http://www.azsos.gov/rules), click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

### PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

The complainant or respondent may request through a request or motion that a party or witness testify telephonically if personal attendance would present an undue or excessive hardship for the party or witness and would not cause undue prejudice to a party. Undue prejudice will be defined as improper or unfair treatment which impacts a due process right of a party. The hearing officer shall rule on the request, in his or her discretion, whether telephonic testimony is warranted and whether the moving party will be required to pay for the cost of obtaining the telephonic testimony.
- S.** Deposition. A party may request that a witness' deposition be used as evidence if the presence of a witness cannot be procured at the time of hearing. The hearing officer shall grant or deny the request.
- T.** Failure of a party to appear. If a party fails to appear at a hearing, the hearing officer shall allow the appearing party to present evidence, or vacate the hearing and return to the Board for any further action.
- U.** Proposed findings of fact. Complainant and respondent may request permission to file proposed findings of fact and conclusions of law. The hearing officer shall grant or deny the request.

The Board shall determine the validity of the complaint and whether a prohibited personnel practice was committed against the employee or former employee as a result of the employee or former employee's disclosure of information of a matter of public concern. The Board shall make a decision on the complaint in an open meeting within 45 days after the conclusion of the hearing and shall send a copy of the decision to the complainant and respondent by certified mail, return receipt requested. ## PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director  
ADMINISTRATIVE RULES DIVISION

### RULES

The definition for a rule is provided for under A.R.S. § 41-1001. “Rule” means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

### THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31  
Second Quarter: April 1 - June 30  
Third Quarter: July 1 - September 30  
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2025 is cited as Supp. 25-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. The Office links to these codified Sections in the Table of Contents of this Chapter.

### RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

### AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

### HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

### ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, [www.azleg.gov](http://www.azleg.gov). An agency’s authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

### SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State’s website, [www.azsos.gov](http://www.azsos.gov) under Services-> Legislative Filings.

### EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at [www.azsos.gov/rules](http://www.azsos.gov/rules), click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

### PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

## TITLE 2. ADMINISTRATION

### CHAPTER 5. DEPARTMENT OF ADMINISTRATION - STATE PERSONNEL SYSTEM

A.R.S. §§ 41-703(3), 41-743(B)(3) and 41-771

#### Supp. 25-2

*Editor's Note: Rules codified in Supp. 25-2 were amended with an immediate effective date as necessary to coincide with the implementation of AZ360 Human Resources (the HRIS Modernization Project). An immediate effective date allowed for the rules to be effective on the same day as the AZ360 Phase 1A go live date, thus benefiting State Personnel System (SPS) agencies and state employees.*

*Editor's Note: The Chapter Title was amended from Department of Administration, Personnel Administration to Department of Administration, State Personnel System. All Articles 1 through 9 repealed under exempt rulemaking at 18 A.A.R. 2782 effective September 29, 2012 (Supp. 12-4).*

*Editor's Note: Because the rules in this Chapter that were adopted under an exemption from the provisions of the Administrative Procedure Act (A.R.S. Title 41, Chapter 6) have been repealed, the Chapter is printed on white paper (Supp. 99-3).*

*Editor's Note: This Chapter contains rules which were repealed and adopted under an exemption from the provisions of the Administrative Procedure Act (A.R.S. Title 41, Chapter 6) pursuant to Laws 1997, Ch. 288, § 10. Exemption from A.R.S. Title 41, Chapter 6 means the Department of Administration did not submit these rules to the Governor's Regulatory Review Council for review; the Department did not submit notice of proposed rulemaking to the Secretary of State for publication in the Arizona Administrative Register; and the Department was not required to hold public hearings on these rules. Because this Chapter contains rules which are exempt from the regular rulemaking process, the Chapter is printed on blue paper.*

*Article 1 consisting of Sections R2-5-101 through R2-5-105; Article 2 consisting of Sections R2-5-201 through R2-5-210 and R2-5-213; Article 3 consisting of Sections R2-5-301 through R2-5-306; Article 4 consisting of Sections R2-5-401 through R2-5-411 and R2-5-413 through R2-5-418; Article 5 consisting of Sections R2-5-501 through R2-5-503; Article 6 consisting of Sections R2-5-601 through R2-5-605; Article 7 consisting of Sections R2-5-701 and R2-5-702; Article 8 consisting of Sections R2-5-801 through R2-5-803; and Article 9 consisting of Sections R2-5-901 and R2-5-902 adopted effective December 31, 1986 (Supp. 86-6).*

*Former Article 1 consisting of Sections R2-5-101 and R2-5-102; former Article 2 consisting of Sections R2-5-201 through R2-5-205; former Article 3 consisting of Sections R2-5-301 and R2-5-302; former Article 4 consisting of Sections R2-5-401 through R2-5-403; former Article 5 consisting of Sections R2-5-501 and R2-5-502; and former Article 6 consisting of Sections R2-5-601 through R2-5-605 repealed effective December 31, 1986 (Supp. 86-6).*

  - 2. The base salary of an employee in a class that is reassigned to a lower grade shall remain the same provided that the employee’s salary is at or above the minimum salary of the new pay range of the class, and may be greater than the maximum salary of the pay range. - B.** Types of furloughs. A furlough may be authorized by legislative action. In addition, the Director may approve:
  1. A reduction of funding furlough that allows an agency head to place employees on furlough for any combination of consecutive or non-consecutive days. There is no maximum number of days an employee may be placed on furlough, but consecutive furlough days shall not exceed five consecutive days or more than one-half the employee's regularly scheduled hours in a pay period, whichever is less; and
  2. A suspension of funding furlough that allows an agency head to place employees on furlough indefinitely until funding is restored.
- C.** General.
  1. The total number of days an employee is placed on furlough may vary based on the amount of the reduction or length of suspension of funding.
  2. A furlough day equals eight hours for full-time employees and is pro-rated for part-time employees. Furlough hours for part-time employees are calculated by multiplying the number of hours the employee is scheduled to work in a week by 0.2. If the calculation results in a fraction, the furlough hours shall be rounded to the nearest whole hour, as follows:

Exceptions may be granted when an agency head determines certain employees within the scope of the furlough have unique knowledge or skills or are considered mission critical and need to be excluded from the furlough.
  7. Unless the employee is in a physician or attorney position, an employee who is in a position that has been determined to be exempt from the provisions of the Fair Labor Standards Act (FLSA) will lose the exemption for any work week in which the employee is furloughed for less than the full work week.
  8. A furlough shall not adversely affect an employee's service anniversary date or create a break in service.
  9. Upon conclusion of the furlough period, an agency head shall return an employee to the employee's status and

**TITLE 2. ADMINISTRATION**

**CHAPTER 5. DEPARTMENT OF ADMINISTRATION - STATE PERSONNEL SYSTEM**

position held prior to the furlough, unless a personnel action taken in accordance with State Personnel System rules authorizes a change to the employee's record.

10. An employee's failure or inability to return to work upon conclusion of the furlough period may, in accordance with applicable State Personnel System rules:
  - a. Result in the employee being placed on leave,
  - b. Be considered a resignation,
  - c. Result in separation without prejudice, or
  - d. Be cause for dismissal of a covered employee.

**D. Reduction of funding furlough.**

1. An agency head shall submit to the Director a furlough plan for approval if the agency head determines a furlough is necessary due to a reduction of funding. An agency head is not required to implement or exhaust other cost-savings measures prior to initiating a furlough plan.
2. The agency head shall submit the furlough plan for approval at least 30 business days prior to the proposed implementation date of the furlough. If circumstances beyond the agency head's control do not permit at least 30 business days' notice, the agency head shall submit the furlough plan as soon as the agency head is aware of the necessity for the furlough and provide a written explanation of why the 30 business day requirement was not met.
3. An agency head shall include all of the following in the furlough plan:

In the event of a work emergency, an agency head may revoke the furlough for an employee in an individual case. **CHAPTER 5. DEPARTMENT OF ADMINISTRATION - STATE PERSONNEL SYSTEM**

- c. Worked for at least 1,250 hours of service during the 12 months immediately preceding commencement of the leave.
- 2. An agency head shall not extend FMLA benefits to an ineligible employee.
- C. Situations covered by the FMLA. A state agency shall grant an eligible employee FMLA leave when the employee takes leave for one or more of the following reasons:
  - 1. The birth of a child or placement of a child with the employee for adoption or foster care, provided the leave concludes within 12 months of the birth or placement.
  - 2. To care for the employee's spouse, child or parent with a serious health condition.
  - 3. The employee is unable to work because of the employee's own serious health condition.
  - 4. Any qualifying exigency arising out of the fact that the employee's spouse, child or parent is a covered military member on active duty or call to active duty status in support of a contingency operation.
  - 5. To care for a covered service member with a serious injury or illness when the covered service member is the employee's spouse, child, parent or next of kin.
- D. Amount of FMLA leave.
  - 1. An employee who takes FMLA leave for any of the situations described in subsections (C)(1), (2), (3) or (4) may take a maximum of 12 workweeks of leave during any rolling 12-month period, measured backward from the first day of each approved period of FMLA leave.
  - 2. An employee who takes FMLA leave for the situation described in subsection (C)(5) may take up to 26 workweeks of leave in a single 12-month period.
  - 3. During a 12-month period, an eligible employee is able to take no more than 12 workweeks of FMLA leave for any of the situations described in subsections (C)(1), (2), (3) or (4) and a combined total of 26 workweeks of FMLA leave if the leave includes the situation described in subsection (C)(5).
- E. Designation of FMLA leave. An employee need not specifically request FMLA leave to be placed on FMLA leave. If an eligible employee takes leave for any reason covered by the FMLA and has not already exhausted the employee's available FMLA leave, the agency head shall designate the employee's leave as FMLA leave.
- F. Use of paid leave. Except for portions of industrial leave, an employee on FMLA leave shall be required to use the employee's available paid leave while on FMLA leave as follows and in the following order:
  - 1. Sick leave or, as applicable, family sick leave subject to the provisions of R2-5A-B603.
  - 2. Compensatory leave subject to the provisions of R2-5A-B607.

An employee who is on leave without pay while on FMLA leave may continue to participate in the employee insurance plans as follows:
  - 1. Health benefit plan participation. An employee is eligible to continue to participate in the health benefit plan for the duration of the FMLA leave by paying the employee premium/contribution. An agency head may recover the state's portion of premium/contributions paid to maintain health coverage for an employee if the employee fails to return from FMLA leave under certain circumstances, in accordance with FMLA regulations incorporated by reference in subsection (A).
- 2. Life insurance plan participation. An employee continues to participate in the Basic Life and Accidental Death and Dismemberment Insurance Plan and may continue to participate in the supplemental life and dependent life insurance coverage by paying the full premium/contribution.
- 3. Termination of insurance. The insurance coverage of an employee on leave without pay who fails to pay insurance premiums/contributions when due shall terminate at 11:59 p.m. on the last day of the period covered by the last premium/contribution paid.
- H. Return from FMLA leave. An agency head shall restore an employee returning from FMLA leave to the employee's original job, or to an equivalent job with equivalent pay, benefits, and other terms and conditions of employment. The provisions of the FMLA, not the provisions of R2-5A-C602(C), shall govern return to work from leave without pay granted to complete an FMLA-qualified leave.
- I. Employee responsibilities. An employee is required to adhere to the employing agency's call-in procedures, give the agency 30 days' notice in the event of a foreseeable leave, provide requested documentation, and periodic updates of the employee's status and intent to return to work as requested by the agency.
- J. Agency rights. Nothing in the FMLA or this Section should be construed as limiting an agency's right to manage, discipline or terminate an employee, including an employee's failure to comply with the agency's request for appropriate documentation to substantiate the employee's need for the leave. However, an employee's use of FMLA leave cannot be considered as a negative factor in any employment decision.
- K. Conflict. If there is a conflict between the provisions of these rules and the FMLA, the provisions of the FMLA govern.

## PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director  
ADMINISTRATIVE RULES DIVISION

### RULES

The definition for a rule is provided for under A.R.S. § 41-1001. “Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

### THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31  
Second Quarter: April 1 - June 30  
Third Quarter: July 1 - September 30  
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2025 is cited as Supp. 25-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. The Office links to these codified Sections in the Table of Contents of this Chapter.

### RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

### AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

### HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

### ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, [www.azleg.gov](http://www.azleg.gov). An agency’s authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

### SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State’s website, [www.azsos.gov](http://www.azsos.gov) under Services-> Legislative Filings.

### EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at [www.azsos.gov/rules](http://www.azsos.gov/rules), click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

### PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

**R4-1-114. Hearing; Rehearing or Review**

- A. Hearing: The Board or an Administrative Law Judge (ALJ) employed by the Office of Administrative Hearings (OAH)

shall hear all contested cases and appealable agency actions. The Board shall conduct hearings according to the provisions of A.R.S. Title 41, Chapter 6, Article 10 as supplemented by R4-1-117. The OAH shall conduct hearings according to A.R.S. Title 41, Chapter 6, Article 10 and the rules and procedures established by the OAH. To the extent that there is no conflict with A.R.S. Title 41, Chapter 6, Article 10, the provisions of A.R.S. § 32-743 apply to hearings conducted by the Board and the OAH. The following subsections apply to hearings conducted by the Board and hearings conducted by the OAH where applicable.

1. Power to join any interested party: Any board member or the ALJ may join as a party applicant or as a party defendant, any person, firm or corporation, that appears to have an interest in the matter before the Board.
2. Stipulation at hearing: The parties may stipulate to facts that are not in dispute. The stipulation may be in writing or may be made orally by reading the stipulation into the record at the hearing. The stipulation is binding upon the parties unless the Board or the ALJ grants permission to withdraw from the stipulation. The Board or the ALJ may set aside any stipulation.
3. Settlements and consent orders: At any time before or after formal disciplinary proceedings have been instituted against a registrant, the registrant may submit to the Board an offer of conditional settlement to avoid formal disciplinary proceedings by the Board. In the offer of conditional settlement, the registrant shall agree to take specific remedial steps such as enrolling in CPE courses, limiting the scope of the registrant's practice, accepting limitation on the filing of public reports, and submitting the registrant's work product for peer review. If the Board determines that the proposed conditional settlement will protect the public safety and welfare and is more likely to rehabilitate or educate the registrant than formal disciplinary action under A.R.S. § 32-741, the Board may accept the offer and enter an order that incorporates the registrant's proposed conditional settlement and to which the registrant consents. A consent order issued under this subsection shall provide that, upon successful compliance by the registrant with all provisions of the order, the disciplinary proceedings shall be terminated and any notice of hearing previously issued shall be vacated. The consent order shall further provide that, upon failure of the registrant to comply with all provisions of the order, or upon the discovery of material facts unknown to the Board at the time the Board issued the order, formal disciplinary proceedings against the registrant may be instituted or resumed. The consent order additionally may provide that, upon failure of the registrant to comply with all provisions of the order, the Board may immediately and summarily suspend the registrant's certificate for not more than one year. Within 30 days after the summary suspension, the registrant may request a hearing solely concerning the issue of compliance with the consent order.
4. Decisions and orders: The Board shall make all decisions and orders by a majority vote of the members considering the case. The Board shall issue a final written decision in a contested case or state the decision on the record. The decision shall state separately the findings of fact and conclusions of law on which the decision is based, and the Board's order to implement the decision. All written decisions and orders of the Board shall be signed by the

President or Secretary of the Board. When the Board suspends or revokes the certificate of a registrant, the Board may order the registrant to return the registrant's certificate within 30 days after receipt of the order. The Board shall serve each party, each attorney of record, and the Attorney General with a copy of each decision or order of the Board, as provided in R4-1-117.

- B.** ALJ: In hearings conducted by the OAH, the ALJ shall provide the Board with written findings of fact, conclusions of law, and a recommended order within 20 days after the conclusion of the hearing or as otherwise provided by A.R.S. Title 41, Chapter 6, Article 10. The Board's decision approving or modifying the ALJ's recommendations is the final decision of the Board, subject to the filing of a motion for rehearing or review as provided in subsection (C).
- C.** Rehearing or Review: Any party aggrieved by a decision of the Board may file with the Board a written motion for rehearing or review within 30 days after service of the decision specifying the particular grounds for the motion. The Attorney General may file a response to the motion for rehearing within 15 days after service of the motion. The Board may require the filing of written briefs upon issues raised in the motion for rehearing or review and provide for oral argument. Upon review of the documents submitted, the Board may modify the decision or vacate it and grant a rehearing for any of the following causes materially affecting a party's rights:
1. Irregularity in the administrative proceedings or any order or abuse of discretion, that deprived a party of a fair hearing;
  2. Misconduct of the Board or the ALJ;
  3. Accident or surprise that could not have been prevented by ordinary prudence;
  4. Newly discovered material evidence, that could not with reasonable diligence have been discovered and produced at the original hearing;
  5. Excessive or insufficient penalties;
  6. Error in the admission or rejection of evidence or other errors of law occurring at the administrative hearing, or during the progress of the proceeding; or
  7. That the findings of fact or decision is not justified by the evidence or is contrary to law.

## PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director  
ADMINISTRATIVE RULES DIVISION

### RULES

The definition for a rule is provided for under A.R.S. § 41-1001. “Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

### THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31  
Second Quarter: April 1 - June 30  
Third Quarter: July 1 - September 30  
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2025 is cited as Supp. 25-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. The Office links to these codified Sections in the Table of Contents of this Chapter.

### RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

### AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

### HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

### ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, [www.azleg.gov](http://www.azleg.gov). An agency’s authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

### SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State’s website, [www.azsos.gov](http://www.azsos.gov) under Services-> Legislative Filings.

### EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at [www.azsos.gov/rules](http://www.azsos.gov/rules), click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

### PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

## TITLE 4. PROFESSIONS AND OCCUPATIONS

## CHAPTER 11. STATE BOARD OF DENTAL EXAMINERS

**ARTICLE 1. DEFINITIONS AND LICENSEE PARTICIPATION****R4-11-101. Definitions**

The following definitions, and definitions in A.R.S. § 32-1201, apply to this Chapter:

“Analgesia” means a state of decreased sensibility to pain produced by using nitrous oxide and oxygen with or without Local Anesthesia.

“Business Entity” means a business organization that offers to the public professional services regulated by the Board and is established under the laws of any state or foreign country, including a sole practitioner, partnership, limited liability partnership, corporation, and limited liability company, unless specifically exempted by A.R.S. § 32-1213(J).

“Calculus” means a hard, mineralized deposit attached to the teeth.

“Charitable Dental Clinic or Organization” means a non-profit organization meeting the requirements of 26 U.S.C. 501(c)(3) and providing dental, dental therapy, or dental hygiene services.

“Clinical evaluation” means a dental examination of a patient named in a complaint regarding the patient’s dental condition as it exists at the time the examination is performed.

“Controlled substance” has the meaning prescribed in A.R.S. § 36-2501(A)(3).

“Credit hour” means one clock hour of participation in a Recognized Continuing Dental Education program.

“Deep sedation” is a Drug-induced depression of consciousness during which a patient cannot be easily aroused but responds purposefully following repeated or painful stimulation. The ability to independently maintain ventilatory function may be impaired. The patient may require assistance in maintaining a patent airway, and spontaneous ventilation may be inadequate. Cardiovascular function is maintained.

“Dentist of record” means a dentist who examines, diagnoses, and formulates treatment plans for a patient and may provide treatment to the patient.

“Direct supervision” means, for purposes of Article 7 only, that a licensed dentist is present in the office and available to provide immediate treatment or care to a patient and observe a dental assistant’s work.

“Disabled” means a dentist, dental therapist, dental hygienist, or denturist has totally withdrawn from the active practice of dentistry, dental therapy, dental hygiene, or denturism due to a permanent medical disability and based on a physician’s order.

“Documentation of attendance” means documents that contain the following information:

- Name of sponsoring entity;
- Course title;
- Number of Credit Hours;
- Name of speaker; and
- Date, time, and location of the course.

“Drug” means:

- Articles recognized, or for which standards or specifications are prescribed, in the official compendium;

Articles intended for use in the diagnosis, cure, mitigation, treatment, or prevention of disease in the human body;

Articles other than food intended to affect the structure of any function of the human body; or

Articles intended for use as a component of any articles specified in this definition but does not include devices or components, parts, or accessories of devices.

“Emerging scientific technology” means any technology used in the treatment of oral disease that is not currently generally accepted or taught in a recognized dental, dental therapy, or dental hygiene school and use of the technology poses material risks.

“Epithelial attachment” means the layer of cells that extends apically from the depth of the gingival sulcus along the tooth, forming an organic attachment.

“Ex-parte communication” means a written or oral communication between a decision maker, fact finder, or Board member and one party to the proceeding, in the absence of other parties.

“General anesthesia” is a Drug-induced loss of consciousness during which the patient is not arousable, even by painful stimulation. The ability to independently maintain ventilatory function is often impaired. The patient often requires assistance in maintaining a patent airway, and positive-pressure ventilation may be required because of depressed spontaneous ventilation or Drug-induced depression of neuromuscular function. Cardiovascular function may be impaired.

“General supervision” means, for purposes of Article 7 only, a licensed dentist is available for consultation, whether or not the dentist is in the office, regarding procedures or treatment that the dentist authorizes and for which the dentist remains responsible.

“Homebound patient” means a person who is unable to receive dental care in a dental office as a result of a medically diagnosed disabling physical or mental condition.

“Irreversible procedure” means a single treatment, or a step in a series of treatments, that causes change in the affected hard or soft tissues and is permanent or may require reconstructive or corrective procedures to correct the changes.

“Licensee” means a dentist, dental therapist, dental hygienist, dental consultant, retired licensee, or person who holds a restricted permit under A.R.S. §§ 32-1237 or 32-1292.

“Local anesthesia” is the elimination of sensations, such as pain, in one part of the body by the injection of an anesthetic Drug.

“Minimal sedation” is a minimally depressed level of consciousness that retains a patient’s ability to independently and continuously maintain an airway and respond appropriately to light tactile stimulation, not limited to reflex withdrawal from a painful stimulus, or verbal command and that is produced by a pharmacological or non-pharmacological method or a combination thereof. Although cognitive function and coordination may be modestly impaired, ventilatory and cardiovascular functions are unaffected. In accord with this particular definition, the Drugs or techniques used should carry a margin of safety wide enough to render unintended loss of consciousness unlikely.

## TITLE 4. PROFESSIONS AND OCCUPATIONS

## CHAPTER 11. STATE BOARD OF DENTAL EXAMINERS

“Mobile dental permit holder” means a Licensee or dentist who holds a mobile permit under R4-11-1301, R4-11-1302, or R4-11-1303.

“Moderate sedation” is Drug-induced depression of consciousness during which a patient responds purposefully to verbal commands either alone or accompanied by light tactile stimulation, not limited to reflex withdrawal from a painful stimulus. No interventions are required to maintain a patent airway, and spontaneous ventilation is adequate. Cardiovascular function is maintained. The Drugs or techniques used should carry a margin of safety wide enough to render unintended loss of consciousness unlikely. Repeated dosing of a Drug before the effects of previous dosing can be fully recognized may result in a greater alteration of the state of consciousness than intended by the permit holder.

“Nitrous oxide analgesia” means nitrous oxide used as an inhalation analgesic.

“Official compendium” means the latest revision of the United States Pharmacopeia and the National Formulary and any current supplement.

“Oral sedation” is the enteral administration of a Drug or non-Drug substance or combination inhalation and enterally administered Drug or non-Drug substance in a dental office or dental clinic to achieve Minimal Sedation or Moderate Sedation.

“Parenteral sedation” is a minimally depressed level of consciousness that allows the patient to retain the ability to independently and continuously maintain an airway and respond appropriately to physical stimulation or verbal command and is induced by a pharmacological or non-pharmacological method or a combination of both methods of administration in which the Drug bypasses the gastrointestinal tract.

“Periodontal pocket” means a pathologic fissure bordered on one side by the tooth and on the opposite side by crevicular epithelium and limited in its depth by the Epithelial Attachment.

“Plaque” means a film-like sticky substance composed of mucoid secretions containing bacteria and toxic products, dead tissue cells, and debris.

“Polishing” means a procedure limited to the removal of Plaque and extrinsic stain from exposed natural and restored tooth surfaces that utilizes an appropriate rotary instrument with rubber cup or brush and Polishing agent. A Licensee or dental assistant shall not represent that this procedure alone constitutes an oral Prophylaxis.

“Prescription-only device” means:

Any device that is restricted by the federal act, as defined in A.R.S. § 32-1901, to use only under the supervision of a medical practitioner; or

Any device required by the federal act, as defined in A.R.S. § 32-1901, to bear on its label the legend “Rx Only.”

“Prescription-only Drug” does not include a Controlled Substance but does include:

Any Drug that, because of its toxicity or other potentiality for harmful effect, the method of its use, or the collateral measures necessary to its use, is not generally recognized among experts, qualified by scientific training and experience

to evaluate its safety and efficacy, as safe for use except by or under the supervision of a medical practitioner;

Any Drug that is limited by an approved new Drug application under the federal act or A.R.S. § 32-1962 to use under the supervision of a medical practitioner;

Every potentially harmful Drug, the labeling of which does not bear or contain full and adequate directions for use by the consumer; or

Any Drug required by the federal act to bear on its label the legend “RX Only.”

“President’s designee” means the Board’s executive director, an investigator, or a Board member acting on behalf of the Board president.

“Preventative and therapeutic agents” means substances that affect the hard or soft oral tissues to aid in preventing or treating oral disease.

“Prophylaxis” means a Scaling and Polishing procedure performed on patients with healthy tissues to remove coronal Plaque, Calculus, and stains.

## PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director  
ADMINISTRATIVE RULES DIVISION

### RULES

The definition for a rule is provided for under A.R.S. § 41-1001. “*Rule*’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

### THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31  
Second Quarter: April 1 - June 30  
Third Quarter: July 1 - September 30  
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2025 is cited as Supp. 25-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. The Office links to these codified Sections in the Table of Contents of this Chapter.

### RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

### AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

### HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

### ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, [www.azleg.gov](http://www.azleg.gov). An agency’s authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

### SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State’s website, [www.azsos.gov](http://www.azsos.gov) under Services-> Legislative Filings.

### EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at [www.azsos.gov/rules](http://www.azsos.gov/rules), click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

### PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

#### Supp. 25-2

*Editor's Note: This Chapter contains amendments that were filed with the Secretary of State on March 3, 1995. At the time of filing, the original copy of the rulemaking package differed from the copy of the package filed at the same time. The Secretary of State uses the copy to prepare the Code supplement. The agency notified the Secretary of State that the wrong version was used. That led to the Secretary of State's discovery of the two versions filed in March 1995. The Secretary of State then used the original package to publish a corrected edition with Supp. 95-2. The Secretary of State has since been advised by the Attorney General that the original version as published with Supp. 95-1 was correct with the exception of one phrase in R4-26-207 that was inadvertently omitted. With this publication, this Chapter reflects the correct amendments, and the omitted phrase in R4-26-207 has now been added.*

## PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director  
ADMINISTRATIVE RULES DIVISION

### RULES

The definition for a rule is provided for under A.R.S. § 41-1001. “*Rule*’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

### THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31  
Second Quarter: April 1 - June 30  
Third Quarter: July 1 - September 30  
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2025 is cited as Supp. 25-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. The Office links to these codified Sections in the Table of Contents of this Chapter.

### RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

### AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

### HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

### ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, [www.azleg.gov](http://www.azleg.gov). An agency’s authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

### SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State’s website, [www.azsos.gov](http://www.azsos.gov) under Services-> Legislative Filings.

### EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at [www.azsos.gov/rules](http://www.azsos.gov/rules), click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

### PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

## TITLE 7. EDUCATION

## CHAPTER 2. STATE BOARD OF EDUCATION

Authority: A.R.S. § 15-203(A)(1)

## Supp. 25-2

*Editor's Note: Under A.R.S. 41-1011(C) changes were made to headings and rule language for consistency in style and format. Part headings in this Chapter were assigned numbers. These changes did not alter the sense, meaning or effect of any rule in this Chapter. The Board reviewed and approved these clerical changes. Section R7-2-604.01 was inadvertently removed when Supp. 19-4 was published. It has been reinstated as last amended in Supp. 15-3 (Supp. 21-2).*

*Editor's Note: This Chapter contains rules in Articles 10 and 11 that were filed in 2015 but were adopted in 2014. The Office has corrected all Supp. 15-3 historical notes in these Articles to reflect the true effective year of the rules to July 1, 2014 (Supp. 18-2).*

*Editor's Note: This Chapter contains rules that were filed out of sequence by adoption date. The Office has made every effort to codify the previous filings with the current Chapter and update the historical references where necessary. Refer to the historical notes for more information (Supp. 16-2).*

*Editor's Note: Supp. 16-1 contains rules that were submitted as final exempt rules and approved by the Board February 25, 2008. Although approved by the Board in 2008, the rulemaking was not filed in the Secretary of State's Office for publication in this Chapter until 2016. The final exempt rulemaking was filed by the Board on January 6, 2016 (Supp. 16-1).*

*Editor's Note: Supp. 15-3 contains rules that were submitted as final exempt rules. Pursuant to the Board's rulemaking procedures a public hearing was held on the rules after they were proposed at a Board meeting. Even though the proposed rules were not published in the Register, the Office of the Secretary of State makes a distinction between exempt rulemakings and final exempt rulemakings. Final exempt rulemakings are those filed with conditional exemptions to the Arizona Administrative Procedures Act such as requirements to conduct a public hearing or accept public comments on a proposed exempt rulemaking. Although approved by the Board, these final exempt rulemakings were not filed with the Secretary of State's Office at the time of approval. Therefore these rules were in effect prior to the release of Supp. 15-3. Refer to the historical notes for effective dates.*

*Editor's Note: This Chapter contains rules made, amended, repealed, renumbered and approved by the State Board of Education that were exempt from the rulemaking process. Although approved by the Board, certain rulemakings were not filed with the Secretary of State's Office at the time of approval. These rulemakings were filed in 2009 and 2010 and printed as Exempt Rulemakings in the Arizona Administrative Register. The Office has expedited the publishing of these Sections in the Arizona Administrative Code because these rules were in effect prior to Supp. 09-1, Supp. 09-2, Supp. 09-3, Supp. 09-4, Supp. 10-1, Supp. 10-2, Supp. 10-3, Supp. 10-4, Supp. 11-1, and Supp. 12-2 releases. Refer to the historical notes for more information.*

**C. The requirements for a personal curriculum are as follows:**

1. An eligible student may only modify the mathematics requirement delineated in R7-2-302.02(1)(c)(ii) for Algebra II or its equivalent course content;
2. In lieu of successfully completing Algebra II or its equivalent course content, an eligible student shall successfully complete at least one credit in mathematics that shall include significant mathematics content as determined by the local school district governing board or charter school; and

In developing the personal curriculum plan the development team shall consider how the proposed modifications maintain the integrity of the high school diploma and enable the student to achieve the student's post-secondary education and career goals.
4. The development team may modify the personal curriculum plan based upon the development team's evaluation of the student's progress.

Such students will be monitored in reading, writing and mathematics skills and mastery of academic content areas, including science and social studies. The criteria shall be grade-appropriate and uniform throughout the LEA, and upon request, is subject to Board review. Performing satisfactorily will be measured by whether a student meets or exceeds the state standards in reading, writing, and mathematics as measured by the statewide assessment.
  3. If a statewide assessment score is not available because the test is not administered in the students' grade or to assess progress in academic subjects not assessed by the statewide assessment, the LEA shall use one or more of the following criteria in its evaluation to determine progress toward achieving the Arizona Academic Standards in monitoring FEP students after exit from an EL program:

If the Department determines that an LEA is not complying with state or federal laws applicable to EL students, the LEA shall prepare and submit to the Department, within 60 days of the Department's determination, a corrective action plan that sets forth steps that the LEA will take to correct the deficiencies noted in the report.
  5. The Department shall review and return such corrective action plan to the LEA within 30 days, noting any required changes. No later than 30 days after receiving its corrective action plan back from the Department, the LEA shall begin implementing the measures set forth in the plan, including any revisions required by the Department.
  6. The Department shall conduct a follow-up evaluation of the LEA within one year after returning the corrective action plan to the LEA.
  7. If the Department finds continued non-compliance during the follow-up evaluation, the LEA shall be referred to the Board for a determination of non-compliance.     - d. Withhold further awards of federal EL grant monies for the program.

    - b. May not use the mediation procedures or the due process procedures in order to obtain agreement or a ruling that the services may be provided to the child;

    - d. Is not required to convene an IEP Team meeting or develop an IEP for the child for further provision of special education and related services.
  5. If a parent revokes consent in writing for their child's receipt of special education services after the child is initially provided special education and related services, the public agency is not required to amend the child's education records to remove any references to the child's receipt of special education and related services because of the revocation of consent.

  5. Each student with a disability who has an IEP shall participate in the state assessment system. Students with disabilities can test with or without accommodations or modifications as indicated in the student's IEP. Students who are determined to have a significant cognitive disability based on the established eligibility criteria will be assessed with the state's alternate assessment as determined by the IEP team.
  6. A meeting of the IEP team shall be conducted to review and revise each student's IEP at least annually, or more frequently if the student's progress substantially deviates from what was anticipated. The public education agency shall provide written notice of the meeting to the parents of the student to ensure that parents have the opportunity to participate in the meeting. After the annual review, the public education agency and parent may agree not to convene an IEP team meeting for the purposes of making changes, and instead may develop a written document to amend or modify the student's current IEP.

- B. For the purposes of this Section, the following definitions apply:
  1. "Accessible Electronic File" means, until the effective date of a nationally adopted file format, a digital file in a mutually agreed upon electronic file format that has been prepared using a markup language that maintains the structural integrity of the information and can be processed by Braille conversion software. Upon the effective date of a nationally adopted file format, such as the Instructional Materials Accessibility Standard (IMAS), "Accessible Electronic File" shall mean an electronic file conforming to the specifications of the nationally adopted file format, including future technical revisions and versions of this nationally adopted file format.
  2. "Individualized Braille literacy assessment" means the Learning Media Assessment or other standardized or individualized assessments that pertain to the child's reading medium.
  3. "Non-printed instructional materials" means non-printed textbooks and related core materials, including those that require the availability of electronic equipment in order to be used as a learning resource, that are written and published primarily for use in elementary school and secondary school instruction and are required by a state educational agency or a local educational agency for use by pupils in the classroom. These materials shall be available to the extent technologically available, and may include software programs, CD-ROMs and internet-based materials.
  4. "Printed instructional materials" means textbooks and related printed core materials, that are written and published primarily for use in elementary school and secondary school instruction and are required by a state educational agency or a local educational agency for use by pupils in the classroom. This may include workbooks, practice tests, and tests.
  5. "Publisher" means an individual, firm, partnership or corporation that publishes or manufactures printed instructional materials for students attending public schools in Arizona, including an on-line service, a software developer, or a distributor of an electronic textbook.

- C. Upon determination of a student having a visual impairment as assessed by a full and initial evaluation defined in R7-2-401(E)(6)(i), a visually impaired student who is determined to be blind as defined by A.R.S. § 15-214(B) shall receive an individualized Braille literacy assessment.
- D. Individualized Education Programs (IEP) for blind students. In addition to the requirements for establishing and implementing

an IEP consistent with R7-2-401(F) for a student determined to have a disability, each IEP for a student determined to be “blind” as assessed by R7-2-401(E)(6)(i) and defined by A.R.S. § 15-214(B), shall presume that proficiency in Braille is essential in achieving academic success unless otherwise determined by the IEP team established consistent with the regulations for the most recent reauthorization of the Individuals with Disabilities Education Act (IDEA) and in the manner provided by the most recent reauthorization of the IDEA Act for developing an IEP. An IEP developed under this Section for a student determined to be blind shall include all required provisions of A.R.S. § 15-214(A)(3), including the following:

1. The results of the individualized Braille literacy assessment.
2. The date on which Braille instruction will begin, the methods to be used and the frequency and duration of the Braille instruction.

E. The Arizona Department of Education shall designate a central repository for publishers to, upon request, provide accessible electronic files for instructional materials used by public schools in Arizona as defined in subsection (B)(1). The central repository shall be responsible for maintaining a complete list of available accessible electronic files for instructional materials and instructional materials in specialized formats, processing requests from PEAs for instructional materials in specialized formats and providing access to these materials in specialized formats to schools throughout Arizona that are providing services to blind or other students with disabilities.

1. Upon receipt of a written request certifying to the requirements set forth in subsections (E)(1)(a) through (c) publishers shall deliver to the repository, at no additional cost and consistent with the time-frame for providing materials for students without disabilities, accessible electronic files for printed instructional materials and non-printed instructional materials. Certification shall include all of the following:

  - c. The instructional materials are for use by the student in connection with a course in which he or she is enrolled, as verified by the person overseeing the education of students who are blind or visually impaired.
2. A PEA may access the materials maintained by the central repository, upon written request, for instructional use with a student with a visual impairment, as identified by R7-2-401(E)(6)(i), who requires the use of instructional

materials in a specialized format pursuant to the student’s IEP.

3. Nothing in this Section shall be construed to prohibit the central repository from assisting a student with a disability by using the electronic format version of instructional material provided pursuant to this Section solely to transcribe or arrange for the transcription of the printed instructional material into Braille or large print. In the event a Braille transcription is made, the central repository has the right to share the Braille copy of the printed instructional material with other eligible students with disabilities. The PEA will be required to return the specialized format version of the instructional material to the central repository when the student no longer needs the instructional material. The central repository may share the copies of the specialized format of the instructional material with other PEAs who have met the requirements of subsections (B) and (D) to provide services to students who require such services pursuant to R7-2-401(F)(5).

1. "Educational Interpreter." For the purposes of this Section, "educational interpreter" means a person trained to translate in sign language for students identified to require such services through an Individualized Education Program (IEP) or a 504 accommodation plan in order to access academic instruction. This does not in any way restrict the provisions of R7-2-401(B)(14) which defines "interpreter" and provides that each student's IEP team determines the level of interpreter skill necessary for the provision of FAPE, nor does it restrict a school district's ability to develop a job description for someone in a position of "educational interpreter" that requires additional job responsibilities.
2. "Accommodation plan developed to comply with Section 504 of the Rehabilitation Act of 1973, 29 USC 794, et seq. ("504 accommodation plan")." For the purposes of this Section, "504 accommodation plan" means a plan

      - iii. Hold a valid certificate from the National Association of the Deaf (NAD) at level 3 or higher.
  2. If a public education agency (PEA) is unable to find an individual meeting the above qualifications, the PEA may hire an individual with lesser qualifications, but the PEA is required to provide a professional development plan for the individual they employ to provide educational interpreting services. This professional development plan must include the following:
    - a. Proof of at least 24 hours of training in interpreting each year that a valid certification is not held or EIPA passing score is not attained, and
    - b. Documentation of a plan for the individual to meet the required qualifications within three years of employment. If the qualifications are not attained within three years, but progress toward attainment is demonstrated, the plan shall be modified to include an intensive program for up to one year to meet the provisions of subsection (B)(1).
  3. An individual employed under the provisions of subsection (B)(2) must also have the following:
    - a. A valid fingerprint clearance card, and
    - b. A high school diploma or GED.

**R7-2-1029. Receipt, Opening and Recording of Bids**

- A.** A school district shall maintain a record of bids and modifications received for each invitation for bids, shall record the time and date when each bid or modification is received, and shall store each unopened bid or modification in a secure place until the bid due date and time.
  - 1. If required to confirm a vendor's inquiry regarding receipt of its bid prior to the due date and time, a school district may open a bid to identify the vendor. If this occurs, the school district shall record the reason for opening the bid, the date and time the bid was opened, and the solicitation number. The school district shall secure the bid and retain it for public opening.
  - 2. One or more witnesses shall be present for the opening of a bid under subsection (A)(1).
- B.** Bids and modifications shall be opened publicly at the date, time and place designated in the invitation for bids in the presence of one or more witnesses. The name of each bidder, the amount of each bid, and other relevant information deemed appropriate by the school district shall be recorded. The person opening the bids and all witnesses shall sign the record.
  - 1. The record created in subsection (B) shall be available for public inspection.
  - 2. The bids shall not be open for public inspection until after a contract is awarded.

**Historical Note**

**R7-2-1030. Mistakes in Bids**

- A.** If an apparent mistake in a bid, relevant to the award determination, is discovered after opening and before award, a school district shall contact the bidder for written confirmation of the bid. If the bidder fails to act, the bidder is considered nonre-

sponsive and the school district shall place a written determination that the bidder is nonresponsive in the procurement file. The school district shall designate a time-frame within which the bidder shall either:

1. Confirm that no mistake was made and assert that the bid stands as submitted; or
  2. Acknowledge that a mistake was made and include all of the following in a written response:
    - a. An explanation of the mistake and any other relevant information;
    - b. A request for correction including the corrected bid or a request for withdrawal; and
    - c. The reasons why correction or withdrawal is consistent with fair competition and advantageous to the school district.
- B.** A bidder who discovers a mistake in its bid after bid opening and before award, may request correction or withdrawal in writing and shall include all of the following in the written request:
1. An explanation of the mistake and any other relevant information;
  2. A request for correction including the corrected bid or a request for withdrawal; and
  3. The reasons why correction or withdrawal is consistent with fair competition and advantageous to the school district.
- C.** After bid opening and before award, a bid mistake based on an error in judgment may not be corrected or withdrawn. Other bid mistakes may be corrected or withdrawn pursuant to subsections (D) through (F).
- D.** After bid opening and before award, the school district shall either waive minor informalities in a bid or allow the bidder to correct them if correction is advantageous to the school district.
- E.** After bid opening and before award, the bid may not be withdrawn and shall be corrected to the intended bid if a bid mistake and the intended bid are evident on the face of the bid.
- F.** After bid opening and before award, the school district may permit a bidder to withdraw a bid if:
1. A nonjudgmental mistake is evident on the face of the bid but the intended bid is not evident; or
  2. The bidder establishes by clear and convincing evidence that a nonjudgmental mistake was made.
- G.** If correction or withdrawal of a bid after bid opening is permitted or denied under subsections (D), (F) and (J), the school district shall prepare a written determination showing that the relief was permitted or denied under this Section.
- H.** Notwithstanding other provisions of this Section, after bid opening and before award, no corrections in bid prices or other provisions of bids prejudicial to the interest of the school district or fair competition shall be permitted.
- I.** If a mistake in the bid is discovered after the award, the bidder may request withdrawal or correction in writing and shall include all of the following in the written request:
1. An explanation of the mistake and any other relevant information;
  2. A request for correction including the corrected bid or a request for withdrawal; and
  3. The reasons why correction or withdrawal is consistent with fair competition and advantageous to the school district.

of the following actions regarding a bid mistake discovered after the award:

1. Allow correction of the mistake, if the corrected bid amount is less than the next lowest bid;
2. Cancel all or part of the award; or
3. Deny correction or withdrawal.

- K.** After cancellation of all or part of an award in accordance with subsection (J)(2), if the bid acceptance period has not expired, the school district may award all or part of the contract to the next lowest responsible and responsive bidder, based on the considerations of fair competition and the best interest of the school district.

Adopted effective December 17, 1987 (Supp. 87-4).  
Amended by final exempt rulemaking at 21 A.A.R. 1525,  
effective July 1, 2014 (Supp. 15-3); effective year corrected in Supp. 18-2.

**R7-2-1031. Bid Evaluation and Award**

- A.** As provided in subsection (C), the contract or contracts shall be awarded to the lowest responsible and responsive bidder or bidders whose bid or bids conform in all material respects to the requirements and evaluation criteria set forth in the invitation for bids. No criteria may be used in bid evaluation that are not set forth in the invitation for bids. The amount of any applicable transaction privilege or use tax of a political subdivision of this state is not a factor in determining the lowest bidder.
- B.** A product acceptability evaluation shall be conducted solely to determine whether a bidder's product is acceptable as set forth in the invitation for bids and not whether one bidder's product is superior to another bidder's product. Any bidder's offering that does not meet the acceptability requirements shall be rejected as nonresponsive.
- C.** The school district shall award the contract to the single lowest responsible and responsive bidder for all materials or services, except that the school district may make a multiple award if the invitation for bids included notification that multiple contracts may be awarded, the school district's basis for determining whether to award multiple contracts, and the criteria for selecting vendors for the multiple contracts.
- D.** Before making a multiple award, the school district shall determine in writing that a multiple award is necessary and is advantageous to the school district and shall establish procedures for the use of the multiple awarded contracts to ensure that purchases are made from the contracts determined by the school district to offer the lowest cost in satisfying the school district's requirements. A multiple award shall be limited to the least number of suppliers the school district determines in writing to be necessary to meet the school district's requirements, and may include the following types of awards:
1. Awards to the lowest responsible and responsive bidder for individual line items, groups of line items, or categories.
  2. Awards to the lowest responsible and responsive bidders for similar or identical line items, groups of line items, or categories only if the school district determines in writing that such awards are necessary to obtain the required quantity or delivery, and the awards are limited to the least number of bidders necessary to meet the school district's requirements.
  3. An incremental award only if the school district determines in writing that such an award is necessary to obtain the required quantity or delivery. The award shall be

made to the lowest responsible and responsive bidder, then the next lowest responsible and responsive bidder or bidders until the total definite quantity required is awarded.

4. A regional award to the lowest responsible and responsive bidder in designated regions or locations only if the school district determines in writing that such an award is necessary to obtain the required quantity or delivery over widely scattered locations or a particular requirement is of a local nature.
- E.** The procurement file shall contain the basis on which the award or awards are made.
- F.** The school district shall not modify evaluation criteria after the bid due date and time.
- G.** A school district may appoint an evaluation committee to assist in the evaluation of bids. If bids are evaluated by an evaluation committee, the evaluation committee shall prepare an evaluation report for the school district. The school district may:
1. Accept the findings of the evaluation committee;
  2. Request additional information from the evaluation committee; or
  3. Reject the findings of the evaluation committee, in which case the school district shall appoint a new evaluation committee to evaluate the existing bids or cancel the solicitation.
- H.** The school district may contact a bidder to confirm the school district's understanding of the bid. Such contact shall be prior to award. The school district shall obtain written confirmation from the bidder and shall retain the confirmation in the procurement file.
- I.** The contract or contracts shall be awarded during the bid acceptance period. If the bid acceptance period expires prior to award of the contract or contracts, the procurement shall be canceled, unless the bid acceptance period is extended in accordance with subsection (J).
- J.** To extend the bid acceptance period, a school district shall notify all bidders in writing of an extension and request written concurrence from each bidder. To be eligible for a contract award, a bidder shall submit a written concurrence to the extension. The school district shall reject a bid as nonresponsive if written concurrence is not provided as requested.
- K.** A contract may not be awarded to a bidder submitting a higher quality item than that designated in the invitation for bids unless the bidder is also the lowest bidder as determined under subsection (A). This Section does not permit negotiations with any bidder, except as provided in subsection (L).
- L.** If all bids for a construction project exceed available monies as certified by the school district, and the lowest responsive bid from a responsible bidder does not exceed such monies by more than five percent, the school district may in situations in which time or economic considerations preclude resolicitation of work of a reduced scope, negotiate an adjustment of the bid price, including changes in the bid requirements, with the lowest responsible and responsive bidder, to bring the bid within the amount of available monies.
- M.** If there are two or more low responsive bids from responsible bidders that are identical in price and that meet all the requirements and criteria set forth in the invitation for bids, award shall be made by drawing lots in the presence of one or more witnesses.
- N.** A record showing the basis for determining the successful bidder shall be retained in the procurement file.
- O.** The school district shall notify all bidders of an award.

## CHAPTER 2. STATE BOARD OF EDUCATION

- P. After a contract is awarded, the school district shall return any bid security provided by unsuccessful bidders.
- Q. Upon execution of the contract, if performance and payment bonds were not required, or upon receipt of the specified bonds, if performance and payment bonds were required, the school district shall return any bid security provided by the successful bidder.
- R. Within 10 days after a contract is awarded, the school district shall make the procurement file, including all bids, available for public inspection.
  - 1. If the procurement file contains information that is confidential under R7-2-1006, a copy of the applicable documents with the confidential information redacted shall be placed in the procurement file for the purpose of public inspection.
  - 2. The unredacted original copy of the confidential information shall be placed in a sealed envelope or other appropriate container, identified as confidential information, and maintained in the procurement file.

**R7-2-1032. Only One Bid Received**

If only one responsive bid is received in response to an invitation for bids, an award may be made to the single bidder if the school district determines in writing that the bidder is responsible, that the price submitted is fair and reasonable, and that either other prospective bidders had reasonable opportunity to respond, or there is not adequate time for resolicitation. Otherwise the bid may be rejected in whole or in part as may be specified in the invitation for bids if it is advantageous to the school district. The reasons for cancellation or rejection shall be made part of the procurement file and:

- 1. New bids may be solicited;
- 2. The proposed procurement may be canceled; or
- 3. If the school district determines that the need for the material or service continues and the acceptance of the one bid is not advantageous to the school district, the procurement may then be conducted as follows:
  - a. The school district may follow the sole source procurement procedure if R7-2-1053 applies.
  - b. Notwithstanding any other provision of Articles 10 and 11, the school district may make emergency procurements pursuant to R7-2-1055 and R7-2-1056 if an emergency condition exists pursuant to R7-2-1055.

**R7-2-1033. Simplified School Construction Procurement Program**

- A. The simplified school construction procurement program is applicable to construction projects which do not exceed the maximum amount specified in A.R.S. § 15-213(A)(2).
- B. To participate in the simplified school construction procurement program:

- 1. Each county school superintendent shall maintain a prospective bidders list of persons who desire to receive solicitations to bid on school district construction projects within that county. The prospective bidders list shall be maintained in accordance with R7-2-1023;
- 2. The prospective bidders list maintained pursuant to subsection (B)(1) shall be available for public inspection;
- 3. A performance bond and a payment bond, as required by A.R.S. § 34-222, shall be provided for contracts for construction by contractors;
- 4. All bids for construction shall be opened at a public opening and the bids shall remain confidential until the public opening;
- 5. All persons desiring to submit bids shall be treated equitably and the information related to each project shall be available to all eligible persons; and
- 6. Competition for construction projects under the simplified school construction procurement program shall be encouraged to the maximum extent possible. School districts shall submit information on each project to all persons listed on the prospective bidders list maintained by the county school superintendent pursuant to subsection (B)(1).

**R7-2-1034. Reserved****PART V. MULTISTEP SEALED BIDDING****R7-2-1035. Multistep Sealed Bidding**

- A. The multistep sealed bidding method may be used if:
  - 1. Available specifications or purchase descriptions are not sufficiently complete to permit full competition without technical evaluations and discussions to ensure mutual understanding between each bidder and the school district;
  - 2. Definite criteria exist for evaluation of technical offers;
  - 3. More than one technically qualified source is expected to be available; and
  - 4. A fixed-price contract will be used.
- B. The multistep sealed bidding method may not be used for construction contracts.

**R7-2-1036. Phase 1 of Multistep Sealed Bidding**

- A. Multistep sealed bidding shall be initiated by the issuance of an invitation to submit technical offers. The invitation to submit technical offers shall be issued according to R7-2-1022 and R7-2-1024(A).
- B. The invitation to submit technical offers shall include the following information:
  - 1. Notice that the procurement shall be conducted in two phases;
  - 2. The best description of the material or services desired;
  - 3. A statement that unpriced technical offers only shall be considered in phase 1;

## TITLE 7. EDUCATION

## CHAPTER 2. STATE BOARD OF EDUCATION

4. The requirements for the technical offers, such as drawings and descriptive literature;
  5. The criteria for evaluating technical offers;
  6. The due date and time for receipt of technical offers and the location where technical offers shall be delivered or mailed;
  7. A statement that discussions may be held;
  8. A statement that only bids based on technical offers determined to be acceptable in phase 1 shall be considered for award;
  9. The name of the district representative or district representatives;
  10. Notice that all technical offers submitted will be made available for public inspection following the award of the contract; and
  11. The date, time and location of any pre-technical offer conference.
- C. A school district may conduct a pre-technical offer conference open to all persons. If a pre-technical offer conference is conducted, it shall be not less than seven days before the technical offer due date and time, unless the school district makes a written determination that the specific needs of the procurement justify a shorter time. Statements made during the pre-technical offer conference shall not be considered modifications to the invitation to submit technical offers.
- D. The invitation to submit technical offers may be amended before or after the submission of the unpriced technical offers. Amendments to an invitation to submit technical offers shall be so identified and the school district shall ensure that the amendments are distributed or made available to all persons to whom the original invitation to submit technical offers was distributed or made available. The school district shall make a copy of the amendments to an invitation to submit technical offers available for public inspection at the school district office. If the school district posted the invitation to submit technical offers or a notice of the availability of an invitation to submit technical offers on a designated site on the Internet, then the school district shall post any amendments to the invitation to submit technical offers on the same designated site on the Internet. The school district shall also do one or more of the following:
- a. Distribute the amendment, by any method reasonably calculated to ensure delivery, to all persons to whom the invitation to submit technical offers was distributed;
  - b. Make the amendment available and issue a notice of amendment which contains instructions for obtaining copies of the amendment. The notice of amendment shall be distributed, by any method reasonably calculated to ensure delivery, to all persons to whom the invitation to submit technical offers was distributed. Upon receipt of such notice of amendment, it is the responsibility of the person to obtain the amendment.
2. Amendments shall be issued within a reasonable time before technical offer opening to allow persons to consider them in preparing their technical offers. If the school district determines that the technical offer due date and time does not permit sufficient time for technical offer preparation, the technical offer due date and time shall be extended in the amendment or, if necessary, telephone, facsimile, email, or other communications methods, and confirmed in the amendment.
3. A person shall acknowledge receipt of an amendment in the manner specified in the invitation to submit technical offers or the amendment on or before the technical offer due date and time.
- E. Unpriced technical offers shall not be opened publicly, but shall be opened in the presence of two or more district officials designated by the school district. The contents of unpriced technical offers shall not be disclosed to unauthorized persons. Late technical offers shall not be considered except under the circumstances set forth in R7-2-1028(B).
- F. Unpriced technical offers shall be evaluated solely in accordance with the criteria set forth in the invitation to submit technical offers and shall be determined to be either acceptable for further consideration or unacceptable. A determination that an unpriced technical offer is unacceptable shall be in writing, state the basis for the determination and be retained in the procurement file. If the school district determines a person's unpriced technical offer is unacceptable, the school district shall notify that person of the determination and that the person shall not be afforded an opportunity to amend the technical offer.
- G. The school district may conduct discussions with any person who submits an acceptable or potentially acceptable technical offer. During discussions, the school district shall not disclose any information derived from one unpriced technical offer to any other person. After discussions, the school district shall establish a due date and time for receipt of final technical offers and shall notify, in writing, persons submitting acceptable or potentially acceptable technical offers of the due date and time. The school district shall keep a detailed record of all discussions.
- H. At any time during phase 1, technical offers may be withdrawn.
- I. A copy of the invitation to submit technical offers shall be made available for public inspection at the school district office.

  - 1. If required to confirm a vendor's inquiry regarding receipt of its proposal prior to the due date and time, a school district may open a proposal to identify the vendor. If this occurs, the school district shall record the reason for opening the proposal, the date and time the proposal was opened, and the solicitation number. **R7-2-1046. Evaluation of Proposals**

- A. Evaluation of proposals and best and final offers shall be based on the evaluation factors set forth in the request for proposals. Specific numerical weighting may be used.
1. If only one proposal is received in response to a request for proposals, the school district shall proceed according to R7-2-1032.
  2. The school district shall not modify evaluation factors or the relative importance of price and other evaluation factors after the proposal due date and time.
  3. A school district may appoint an evaluation committee to assist in the evaluation of proposals. If proposals are evaluated by an evaluation committee, the evaluation committee shall prepare an evaluation report for the school district. The school district may:
    - a. Accept the findings of the evaluation committee;
    - b. Request additional information from the evaluation committee; or
    - c. Reject the findings of the evaluation committee, in which case the school district shall appoint a new evaluation committee to evaluate the existing proposals or cancel the solicitation.
- B. As part of its initial evaluation, the school district may contact an offeror to confirm the school district's understanding of the proposal. Such contact shall be prior to the determination that a proposal is acceptable for further consideration. The school district shall obtain written confirmation from the offeror and shall retain the confirmation in the procurement file.
- C. The contract or contracts shall be awarded during the proposal acceptance period. If the proposal acceptance period expires prior to award of the contract or contracts, the procurement shall be canceled, unless the proposal acceptance period is extended in accordance with subsection (D).
- D. To extend the proposal acceptance period, a school district shall notify all offerors in writing of an extension and request written concurrence from each offeror. To be eligible for a contract award, an offeror shall submit a written concurrence to the extension. The school district shall reject a proposal as nonresponsive if written concurrence is not provided as requested.
- E. For the purpose of conducting discussions, the school district shall determine that proposals are either acceptable for further consideration or unacceptable.
- F. A proposal is acceptable if it is determined to be reasonably susceptible of being awarded a contract in accordance with the evaluation criteria and a comparison and ranking of original proposals. Proposals to be considered reasonably susceptible of being awarded a contract shall, at a minimum, demonstrate the following:
  1. Affirmative compliance with mandatory requirements designated in the solicitation.
  2. An ability to deliver goods or services on terms advantageous to the school district sufficient to be entitled to continue in the competition.
  3. That the proposal is technically acceptable as submitted.
- G. A proposal is unacceptable if it is determined to not be reasonably susceptible of being awarded a contract. Those proposals that have no reasonable chance for award when compared on a relative basis with more highly ranked proposals will not be reasonably susceptible of being awarded a contract. The determination shall be in writing, state the basis for the determination and be retained in the procurement file. When there is

doubt as to whether a proposal is reasonably susceptible of being awarded a contract, the proposal shall be considered acceptable.

- H. If the school district determines an offeror's proposal is unacceptable, the school district shall notify that offeror of the determination and that the offeror shall not be afforded an opportunity to amend its proposal.

Offerors shall be afforded fair treatment with respect to any opportunity for discussion and revision of proposals.
- B. A school district shall establish procedures and schedules for conducting discussions. The school district shall ensure there is no disclosure of one offeror's price or any information derived from competing proposals to another offeror.
- C. Discussions may be conducted orally or in writing. If oral discussions are conducted, the offeror shall confirm the discussions in writing.
- D. If discussions are conducted, they shall be conducted with all offerors who submit proposals determined to be acceptable for further consideration. Proposals may not be revised during discussions.

The request shall set forth the date, time and place for the submission of best and final offers.
- B. Best and final offers shall be requested only once, unless the school district makes a determination that it is advantageous to the school district to conduct further discussions or change the school district's requirements.

- A. As provided in subsection (B), the school district shall award a contract or contracts to the responsible offeror or offerors whose proposal or proposals are determined in writing to be most advantageous to the school district based on the factors set forth in the request for proposals. No factors or criteria may be used in proposal evaluation that are not set forth in the request for proposals. The amount of any applicable transaction privilege or use tax of a political subdivision of this state is not a factor in determining the most advantageous proposal.
- B. The school district shall award the contract to the offeror whose proposal is deemed most advantageous to the school district for all materials or services, except that the school district may make a multiple award if the request for proposals included notification that multiple contracts may be awarded, the school district's basis for determining whether to award multiple contracts, and the criteria for selecting vendors for the multiple contracts.
- C. Before making a multiple award, the school district shall determine in writing that a multiple award is necessary and is advantageous to the school district and shall establish procedures for the use of the multiple awarded contracts to ensure that purchases are made from the contracts determined by the school district to be most advantageous to the school district in satisfying the school district's requirements.   3. An incremental award only if the school district determines in writing that such an award is necessary to obtain the required quantity or delivery. The award shall be made to the offeror whose proposal is determined to be the most advantageous to the school district, then to the offeror with the next most advantageous proposal, etc., until the total definite quantity required is reached.
  4. Regional awards to the offerors most advantageous to the school district in designated regions or locations only if the school district determines in writing that such awards are necessary to obtain the required quantity or delivery over widely scattered locations or a particular requirement is of a local nature.
- D. The school district shall notify all offerors of an award.
- E. The procurement file shall contain the basis on which the award or awards are made.
- F. After a contract is awarded, the school district shall return any bid security provided by the unsuccessful offerors.

- A. A school district may procure a guaranteed energy cost savings contract with a qualified provider through competitive sealed proposals in accordance with R7-2-1041 through R7-2-1050.
  - 1. The request for proposal evaluation factors required by R7-2-1042(A)(1)(h) shall include objective criteria for selecting the qualified provider, including the cost of the contract, the energy cost savings, the net projected energy savings, the quality of the technical approach, the quality of the project management plan, the financial solvency of the qualified provider and the experience of the qualified provider with projects of similar size and scope.
  - 2. Notwithstanding R7-2-1042(A)(1)(h), the request for proposals shall set forth the respective numerical weighting for each evaluation criterion.
  - 3. At the qualified provider's expense, the proposal shall include an independent third-party validation of cost savings calculations associated with each proposed energy cost savings measure by a licensed, registered professional engineer, with credentials from the national association of energy engineers, who has demonstrated experience in energy analysis. The school district shall approve the selection of the independent third party.
  - 4. A school district may enter into a guaranteed energy cost savings contract with a qualified provider if the school district determines that the energy savings project will pay for itself within the expected life of the energy cost savings measures implemented (according to the manufacturer's equipment standards), the term of the financial agreement or 25 years, whichever is shortest, if the recommendations in the proposal are followed. Notwithstanding this subsection, a school district may elect to use a shorter capital cost repayment schedule than required pursuant to this subsection. The school district shall retain the cost savings achieved by a guaranteed energy cost savings contract, and these cost savings may be used to pay for the contract and project implementation.
- 5. A qualified provider is a person that is experienced in designing, implementing or installing energy cost savings measures, that has a record of established projects or measures of similar size and scope, that has demonstrated technical, operational, financial and managerial capabilities to design and operate cost savings measures and projects and that has the financial ability to satisfy guarantees for energy cost savings.
- B. In selecting a contractor to perform any construction work related to performing the guaranteed energy cost savings contract, the qualified provider may:
  - 1. Develop and use a prequalification process for contractors.
  - 2. Require the contractor to demonstrate that the contractor is adequately bonded to perform the work and that the contractor has not failed to perform on a prior job.
- C. A study shall be performed by the selected qualified provider in order to establish the exact scope of the guaranteed energy cost savings contract, the fixed cost savings guarantee amount and the methodology for determining actual savings. The selected qualified provider will provide the school district with a final study report which validates that the fixed cost savings guarantee amount will meet or exceed the cost savings calculations contained within the original proposal. The study report shall be reviewed and approved by the school district before the actual installation of any equipment. The qualified provider shall transmit a copy of the approved study report to the division of school facilities within the department of administration and the governor's office.
- D. The information to develop the energy baseline shall be derived from historical energy costs or actual energy measurements or shall be calculated from energy measurements at the facility where energy cost savings measures are to be installed or implemented. The baseline shall be established before the installation or implementation of energy cost savings measures.
- E. One or more school districts may enter into a financing agreement with a qualified provider or a financial institution, trustee or paying agent for the purchase and installation or implementation of energy cost savings measures. Any required financing may be obtained as part of the original competitive sealed proposal process from the qualified provider, or from a third-party financing institution that is procured separately in accordance with Articles 10 and 11.
- F. The selected qualified provider shall provide a performance bond in accordance with R7-2-1103(A)(1)(c).
- G. The selected qualified provider shall make public the information in the subcontractor's bids.
- H. The guaranteed energy cost savings contract shall include the following:
  - 1. A requirement that, in determining whether the projected energy savings calculations have been met, the energy savings shall be computed by comparing the energy baseline before installation or implementation of the energy cost savings measures with the energy consumed after installation or implementation of the energy cost savings measures. The qualified provider and the school district may agree to make modifications to the energy baseline only for any of the following:
    - a. Changes in utility rates.
    - b. Changes in the number of days in the utility billing cycle.
    - c. Changes in the square footage of the facility.
    - d. Changes in the operational schedule of the facility.

The duration of contracts for materials or services and contracts for job-order-contracting construction services shall be limited to no more than five years unless the governing board determines in writing before the procurement solicitation is issued that a contract of longer duration would be advantageous to the school district. Payment and performance obligations for succeeding fiscal periods are subject to the availability and appropriation of monies.
- B.** Before the use of a multiterm contract, it shall be determined in writing by the governing board that:
  1. Estimated requirements cover the period of the contract and are reasonable and continuing.
  2. Such a contract will be advantageous to the school district by encouraging effective competition or otherwise promoting economies in school district procurement.
- C.** The school district shall include in all multiterm contracts a clause specifying that the contract shall be canceled if monies are not appropriated or otherwise made available to support the continuation of performance in a subsequent fiscal year.
- D.** If monies are not appropriated or otherwise made available to support continuation of performance in a subsequent fiscal period, the contract shall be canceled and the contractor may only be reimbursed for the reasonable value of any nonrecurring costs incurred but not amortized in the price of the materials or services delivered under the contract or which are otherwise not recoverable. The cost of cancellation may be paid from any appropriations available for such purposes.
- E.** A contract for specified professional services shall have a term not to exceed five years after the date of contract award by the school district of the first contract under the procurement,

except that the contract may continue in effect after the five year term for projects on which the rendering of specified professional services commences within the five year term.

- F.** Notwithstanding this Section, contracts for auditors and auditing firms shall have a term as prescribed in A.R.S. § 15-213.

  2. All documents concerning a modification or withdrawal of a statement of qualifications shall be retained in the procurement file.

  3. Upon receiving a late statement of qualifications, late modification, or late withdrawal, the school district shall record the time and date of receipt and promptly send notice of late receipt to the person.   2. For each qualified select bidders list process there will be established by the school district an evaluation committee composed of five members. These members shall include the project designer or construction material specifier, one member from the prime contracting or construction material supplier community that performs commensurate level work and is disinterested in this project, a school district facilities representative and two other members as designated by the school district.

  9. After the establishment of the qualified select bidders list, a written record showing the basis for determining the qualified select bidders list shall be prepared by the district representative and retained in the procurement file. Within 10 days after the qualified select bidders list has been established, the school district shall make the procurement file, including all statements of qualifications, available for public inspection.

    - b. The unredacted original copy of the confidential information shall be placed in a sealed envelope or other appropriate container, identified as confidential information, and maintained in the procurement file.
  10. The qualified select bidders shall be provided an invitation for bids in accordance with R7-2-1024 to R7-2-1032. For any projects not identified in the request for qualifications, the school district may not solicit bids on those projects under the qualified select bidders list either in the initial one-year period or the one-year extension period.
  11. The project identified in the request for qualifications shall have invitation for bids issued within the initial one-

Adopted effective December 17, 1987 (Supp. 87-4). Section repealed; new Section made by final exempt rulemaking at 21 A.A.R. 1525, effective July 1, 2014 (Supp. 15-3); effective year corrected in Supp. 18-2. Amended by final exempt rulemaking at 26 A.A.R. 597, effective July 1, 2020 (Supp. 20-1).

**R7-2-1102. Bid Security**

- A.** Bid security shall be required for all competitive sealed bidding for construction contracts, and for all competitive sealed proposals for design-build construction services or job-order-contracting construction services procured pursuant to R7-2-1111, if the price, excluding the cost of any finance services, maintenance services, operations services, design services, preconstruction services, or other related services included in the contract, is estimated by the school district to exceed the amount established by R7-2-1002(A).
- B.** Invitations for bid on school district construction contracts and requests for proposals for design-build construction services or job-order-contracting construction services, shall require submission of bid security as follows:
1. For design-build construction services, ten percent of the contractor's bid.
  2. For design-build construction services awarded by competitive sealed proposals pursuant to R7-2-1111, ten percent of the school district's construction budget for the project as stated in the request for proposals, excluding finance services, maintenance services, operations services, design services, preconstruction services or any other related services included in the contract.
  3. For job-order-contracting construction services awarded by competitive sealed proposals pursuant to R7-2-1111, the amount prescribed by the school district in the request for proposals, but not more than ten percent of the school district's reasonably estimated budget for construction that the school district believes is likely to actually be done during the first year under the contract, excluding any finance services, maintenance services, operations services, design services, preconstruction services or other related services included in the contract.
- C.** Acceptable bid security shall be limited to:
1. An annual or one-time bid bond executed and furnished as required by A.R.S. Title 34, Chapter 2 or 6, as applicable; or
  2. A certified check.
- D.** The school district may issue a written determination to accept the bid security if the bid security fails to comply in a nonsubstantial manner when:

1. Only one bid or proposal is received and there is not sufficient time to rebid or resolicit proposals;
  2. The amount of the bid security submitted, although less than the amount required by the invitation for bids or request for proposals, is equal to or greater than the difference between the apparent low bid or highest scoring proposal and the next higher acceptable bid or next highest scoring proposal; or
  3. The bid security is inadequate as a result of modifying or correcting a bid in accordance with R7-2-1027 or R7-2-1030, if the bidder increases the amount of security to required limits within two days after notification.
- E.** After the bids and proposals are opened, they are irrevocable for the period specified in the invitation for bids or request for proposals, except as provided in R7-2-1030. If a bidder or offeror is permitted to withdraw its bid before award, no action may be had against the bidder or offeror or the bid security.

Adopted effective December 17, 1987 (Supp. 87-4). Section repealed; new Section made by final exempt rulemaking at 21 A.A.R. 1525, effective July 1, 2014 (Supp. 15-3); effective year corrected in Supp. 18-2. Amended by final exempt rulemaking at 26 A.A.R. 597, effective July 1, 2020 (Supp. 20-1).

**R7-2-1103. Contract Performance and Payment Bonds**

- A.** The following bonds or security is required and is binding on the parties to the contract if the value of a construction or construction services award exceeds the amount established by R7-2-1002(A):
1. A performance bond that is executed and furnished as required under Arizona Revised Statutes Title 34, Chapter 2, Article 2 or Chapter 6, as applicable, in an amount equal to 100 percent of the price specified in the contract conditioned on the faithful performance of the contract in accordance with the plans, specifications and conditions of the contract, except that:
    - a. For job-order-contracting construction services, the performance bond shall cover the full amount of construction under the job-order-contracting construction services contract, shall not include any design services, preconstruction services, finance services, maintenance services, operations services or other related services included in the contract, may be a single bond for the full term of the contract, a separate bond for each year of a multiyear contract or a separate bond for each job order, as determined by the school district, and, if a single bond for the full term of the contract or a separate bond for each year of a multiyear contract, shall initially be based on the school district's reasonable estimate of the amount of construction that the school district believes is likely to actually be done during the full term of the contract or during the particular year of a multiyear contract, as applicable.
    - b. For construction-manager-at-risk construction services and design-build construction services, the amount of the performance bond shall be the price of construction and shall not include the cost of any design services, preconstruction services, finance services, maintenance services, operations services and other related services included in the contract. This bond is solely for the protection of the school district. The conditions and provisions of the perfor-

mance bond regarding the surety's obligations shall follow the form required under A.R.S. § 34-222(G) or A.R.S. § 34-610(G), as applicable.

- c. For guaranteed energy cost savings contracts and guaranteed energy production contracts, the amount of the performance bond shall be one hundred percent of the project amount to the school district for its faithful performance of the equipment installment.
2. A payment bond that is executed and furnished as required by Arizona Revised Statutes Title 34, Chapter 2, Article 2 or Chapter 6, as applicable, in an amount equal to one hundred percent of the price specified in the contract for the protection of all persons supplying labor or material to the contractor or its subcontractors for the performance of the construction provided for in the contract, except that:
  - a. For job-order-contracting construction services, the payment bond shall cover the full amount of construction under the job-order-contracting construction services contract, shall not include any design services, preconstruction services, finance services, maintenance services, operations services or other related services included in the contract, may be a single bond for the full term of the contract, a separate bond for each year of a multiyear contract or a separate bond for each job order, as determined by the school district, and, if a single bond for the full term of the contract or a separate bond for each year of a multiyear contract, shall initially be based on the school district's reasonable estimate of the amount of construction that the school district believes is likely to actually be done during the full term of the contract or during the particular year of a multiyear contract, as applicable.
  - b. For construction-manager-at-risk construction services and design-build construction services, the amount of the payment bond shall be the price of construction and shall not include the cost of any design services, preconstruction services, finance services, maintenance services, operations services or other related services included in the contract. The conditions and provisions of the payment bond regarding the surety's obligations shall follow the form required under A.R.S. § 34-222(F) or A.R.S. § 34-610(F), as applicable.
- B. For design-bid-build construction, the bonds prescribed in subsection (A) shall be provided on and at the same time as execution of the construction contract. For construction-manager-at-risk, design-build and job-order-contracting construction services, the bonds prescribed in subsection (A) shall be provided only on and at the same time as execution of a contract or contract modification that commits the contractor to provide construction for a fixed price, guaranteed maximum price or other fixed amount within a designated time frame.
- C. If the prime contract or specifications require any persons supplying labor or materials in the prosecution of the work to furnish payment or performance bonds, these bonds shall be executed solely by a surety company or companies holding a certificate of authority to transact surety business in this state issued by the director of the Department of Insurance pursuant to Arizona Revised Statutes Title 20, Chapter 2, Article 1. Notwithstanding the provisions of any other statute, the bonds

shall not be executed by an individual surety or sureties, even if the requirements of A.R.S. § 7-101 are satisfied.

- D. If a contractor fails to deliver the required performance bond or payment bond, the contractor's bid shall be rejected, its bid security shall be enforced, and award of the contract shall be made pursuant to Articles 10 and 11.
- E. This Section shall not be construed to limit the authority of the school district to require a performance bond or other security in addition to those bonds or in circumstances other than specified in subsection (A).
- F. Any person who furnishes labor or material to the contractor or its subcontractors for the work provided in the contract, in respect of which a payment bond is furnished under this Section, and who has not been paid in full within 90 days from the date on which the last of the labor was performed or material was supplied by the person for whom the claim is made has the right to sue on the payment bond for any amount unpaid at the time the suit is instituted and to prosecute the action for the amount due the person. However, any person who has a contract with a subcontractor of the contractor, but no express or implied contract with the contractor furnishing the payment bond, has a right of action on the payment bond on giving the contractor, only, a written preliminary 20-day notice as provided for in A.R.S. § 33-992.01, subsection (C)(1), (2), (3), and (4) and subsections (D), (E), and (H), and upon giving written notice to the contractor within 90 days from the date on which the last of the labor was performed or material was supplied by the person for whom the claim is made. The person shall state in the notice the amount claimed and the name of the party for whom the labor was performed or to whom the material was supplied. The notice shall be personally served or sent by registered mail, postage prepaid, in an envelope addressed to the contractor at any place the contractor maintains an office or conducts business.

**Historical Note**

Adopted effective December 17, 1987 (Supp. 87-4). Section repealed; new Section made by final exempt rulemaking at 21 A.A.R. 1525, effective July 1, 2014 (Supp. 15-3); effective year corrected in Supp. 18-2. The term "one hundred" was changed to "100" to reflect current standards in Chapter style and format (Supp. 21-2).

**R7-2-1104. Contract Payment Retention and Substitute Security**

- A. Ten percent of all construction contract payments shall be retained by the school district as insurance of proper performance of the contract or, at the option of the contractor, a substitute security may be provided by the contractor pursuant to this Section. The contractor is entitled to all interest from any such substitute security. When the contract is fifty percent completed, one-half of the amount retained or securities substituted pursuant to this Section shall be paid to the contractor upon the contractor's request provided the contractor is making satisfactory progress on the contract and there is no specific cause or claim requiring a greater amount to be retained. After the contract is fifty percent completed, no more than five percent of the amount of any subsequent progress payments made under the contract shall be retained providing the contractor is making satisfactory progress on the project, except if at any time the governing board determines satisfactory progress is not being made, ten percent retention shall be reinstated for all progress payments made under the contract subsequent to the determination.

## TITLE 7. EDUCATION

## CHAPTER 2. STATE BOARD OF EDUCATION

- B.** Notwithstanding subsection (A), there shall be no retention for job-order-contracting construction services contracts. The school district may elect to have no retention for construction-manager-at-risk and design-build construction services contracts. If the school district elects to have retention, then payment retention for construction-manager-at-risk and design-build contracts shall be in accordance with this Section.
- C.** Retention applies only to amounts payable for construction and does not apply to amounts payable for design services, preconstruction services, finance services, maintenance services, operations services, or any other related services included in the contract.
- D.** The form of substitute security is limited to the following:
1. An assignment of time certificates of deposit by financial institutions licensed by this state;
  2. Share certificate of a financial institution or credit union authorized to transact business in this state; or
  3. Security issued or guaranteed as to principal and interest by:
    - a. The United States;
    - b. The state;
    - c. Counties, municipalities and school districts within this state.
- E.** Conditions for use of substitute security.
1. A contractor may submit substitute security to replace contract payment retention if:
    - a. The use of substitute security is requested of the school district or designee for work performed under the contract. The contractor shall have the option of submitting the substitute security:
      - i. Prior to each progress payment in an amount of no less than five percent of each progress payment; or
      - ii. Once, prior to the first progress payment in an amount no less than five percent of the total contract amount.
    - b. The interest earned on such security shall accrue to the benefit of the contractor, but shall be retained until the school district has approved completion and acceptance of all work to be performed under the contract;
    - c. The term of such security shall not mature until after the estimated contract completion date; and
    - d. The security shall mature no later than one year after the estimated contract completion date.
  2. The substitute security shall not be released without written approval by the school district.
  3. A contractor may submit a single substitute security for more than one project provided that:
    - a. The amount of such security is sufficient to cover the aggregate retention amount;
    - b. The school district determines that such single substitute security is advantageous to the school district; and
    - c. Such security complies with the requirements of subsection (E)(1).
- F.** Any retention shall be paid or substitute security shall be returned to the contractor within 60 days after final completion and acceptance of work under the contract. Retention of payments by a school district longer than 60 days after final completion and acceptance requires a specific written finding by the governing board of the reasons justifying the delay in payment. No school district may retain any monies after 60 days which are in excess of the amount necessary to pay the

expenses the governing board reasonably expects to incur in order to pay or discharge the expenses determined in the finding justifying the retention of monies.

- G.** The school district shall not accept any substitute security unless accompanied by a signed and acknowledged waiver of any right or power of the obligor to set off any claim against either the school district or the contractor in relationship to the security assigned. In any instance in which the school district accepts substitute security as provided in this Section, any subcontractor undertaking to perform any part of the contract is entitled to provide such security to the contractor.

**Historical Note**

Adopted effective December 17, 1987 (Supp. 87-4). Section repealed; new Section made by final exempt rulemaking at 21 A.A.R. 1525, effective July 1, 2014 (Supp. 15-3); effective year corrected in Supp. 18-2.

**R7-2-1105. Progress Payments**

- A.** Progress payments may be made by the school district to the contractor on the basis of a duly certified and approved estimate of the work performed during the preceding month if the contractor agrees to adhere to the provisions of A.R.S. § 41-2577(B), (D), and (F). Payment shall be made within 14 days after the estimate of the work is certified and approved, except that a percentage of all estimates shall be retained as provided in R7-2-1104. The estimate of the work shall be deemed received by the school district on submission of the estimate of the work to the school district or a person designated by the school district for the submission, review or approval of the estimate of the work. An estimate of the work submitted under this Section shall be considered approved and certified after seven days from the date of submission unless before that time the school district or designee prepares and issues a specific written finding detailing those items in the estimate of the work that are not approved and certified under the contract or design professional service contract. The school district may withhold an amount from the progress payment sufficient to pay the expenses the school district reasonably expects to incur in correcting the deficiency set forth in the written finding. No contract for construction or design professional service contract may materially alter the rights of any contractor, subcontractor, design professional or material supplier to receive prompt and timely payment as provided under this Section. On completion and acceptance of separate divisions of the contract or design professional service contract on which the price is stated separately in the contract, payment may be made in full including retained percentages, less deductions, unless a substitute security has been provided pursuant to R7-2-1104.
- B.** Progress payments pursuant to subsection (A) are authorized for construction services and design professional services contracts. The requirements of subsection (A) apply only to amounts payable in a construction services contract for construction and in a contract for design services and do not apply to amounts payable in a contract for preconstruction services, finance services, maintenance services, operations services or any other related services included in the contract.
- C.** A subcontractor or design professional may notify the school district, in writing, requesting that the subcontractor or design professional be notified by the school district in writing within five days from payment of each progress payment made to the contractor. The subcontractor's or design professional's request remains in effect for the duration of the subcontractor's or design professional's work on the project.

**R7-2-1106. Procurement of Construction Using Alternative Project Delivery Methods**

- A. A school district may use an alternative project delivery method if it determines in writing that such alternative project delivery method is advantageous to the school district. The following factors may be used for such determination:
1. Cost and cost control method;
  2. Value engineering;
  3. Market conditions;
  4. Schedule;
  5. Required specialized expertise;
  6. Technical complexity of the project; or
  7. Project management.
- B. Use of alternative project delivery methods
1. Alternative project delivery methods for construction services shall be procured as provided in R7-2-1100.
  2. For design-build construction services and construction-manager-at-risk construction services, the school district is limited to one contract per procurement.
    - a. Alternatively, for construction-manager-at-risk construction services, a school district may elect separate contracts for preconstruction services during the design phase, for construction during the construction phase and for any other construction services.
    - b. Alternatively, for design-build construction services, a school district may elect separate contracts for preconstruction services and design services during the design phase, for construction and design services during the construction phase and for any other construction services.
    - c. If the school district enters into the first contract for preconstruction services or construction services the procurement ends. After execution of that first contract the school district may not use the procurement or the existing final list in the procurement as the basis for entering into a contract with any other person that participated in the procurement.
  3. For job-order-contracting construction services, the school district may award a single contract, or multiple contracts for similar job-order-contracting construction services to be awarded to separate persons. If the school district enters into the number of contracts specified under the request for qualifications, the procurement ends. After that time the school district may not use the procurement or any existing final list in the procurement as the basis for entering into a contract with any other person that participated in the procurement.
  4. All construction-manager-at-risk construction services or design-build construction services included in a procurement shall be limited to construction services to be performed at a single location, a common location or, if the construction services are all for a similar purpose, multiple locations. For construction-manager-at-risk construction services and design-build construction services to be performed at multiple locations:
    - a. At the time the request for qualifications is issued, the school district shall intend to commence all construction at each location within thirty months after execution of the first contract for preconstruction services or other construction services at any of the locations.
    - b. The request for qualifications shall include the information described in R7-2-1108(B)(2).
5. The school district and the selection committee shall not request or consider fees, price, man-hours or any other cost information at any point in the selection process under this Section and R7-2-1107, R7-2-1108, R7-2-1110, and R7-2-1111, including the selection of persons to be interviewed, the selection of persons to be on the final list, in determining the order of preference of persons on the final list or for any other purpose in the selection process, except as provided in R7-2-1110(D) and R7-2-1111.
6. In determining the persons to participate in any interviews, in determining the persons to be on the final list, and in determining the order on the final list, the selection committee shall use and consider only the criteria and weighting of criteria in the request for qualifications. No other factors or criteria may be used in the evaluation, determinations and other actions.
7. Notwithstanding any other provision specifying the number of persons to be interviewed, the number of persons to be on a final list, or any other numerical specification in R7-2-1106 through R7-2-1115:
- a. If a smaller number of persons respond to the request for qualifications or if one or more persons drop out of the procurement so there is a smaller number of persons participating in the procurement, the school district, as the school district determines necessary and appropriate, may elect to proceed with the participating persons if there are at least two participating responsive and responsible persons. Alternatively, the school district may elect to terminate the procurement.
  - b. As to a request for qualifications to be negotiated pursuant to R7-2-1110(D), if only one responsive and responsible person responds to the request for qualifications or if one or more persons drop out of the procurement so that only one responsive and responsible person remains in the procurement, the school district may elect to proceed with the procurement with only one person if the governing board determines in writing that the negotiated fee is fair and reasonable and that either other prospective persons had reasonable opportunity to respond or there is not adequate time for a resolicitation.
  - c. If a person on the final list withdraws or is removed from the procurement and the selection committee determines that it is advantageous to the school district, the selection committee may replace that person on the final list with another person that submitted qualifications in the procurement and that is selected as the next most qualified.

the final list and, in the case of a final list for a contract that will be negotiated under subsection (D), rank the persons in order of preference.

**C.** The school district shall make the following notifications regarding the final lists:

1. If the contract will be negotiated under subsection (D) before or at the same time as the school district notifies the highest ranking person on the final list that it is the highest ranking person, the school district shall send actual notice to each of the following that it is not the highest ranking person or that another person is the highest ranking person:

2. If the procurement is for a single contract, there is one final list and the school district shall enter into negotiations with the highest qualified person on the final list. If the school district is not able to negotiate a satisfactory contract with the highest qualified person on the final list, at compensation and on other contract terms the school district determines to be fair and reasonable, the school district shall formally terminate negotiations with that person. The school district shall then undertake negotiations with the next most qualified person on the final list in sequence until an agreement is reached or a determination is made to reject all persons on the final list.
3. If the school district is not able to negotiate a satisfactory contract with a person with whom the school district has commenced negotiations, the school district shall formally terminate negotiations with that person. The school district shall then undertake negotiations for a contract with the next most qualified person on the final list with whom the school district is not then negotiating and with whom the school district has not previously negotiated in sequence until an agreement is reached for some or all of the multiple contracts included in the request for qualifications or a determination is made to reject all persons on the final list.

4. If the school district terminates negotiations with a person and commences negotiations with another person on the final list, the school district shall not recommence negotiations or enter into a contract for the construction services covered by the final list with any person with whom the school district terminated negotiations.

Permitted methods to evaluate fairness and reasonableness of the price of self-performed work include evaluation of the contractor's proposed scope of work and price for self-performed work by an estimator who is hired and paid by the school district, who is independent of the contractor and who may be an employee of the school district. The school district shall then undertake negotiations for a contract with the next most qualified person on the final list with whom the school district is not then negotiating and with whom the school district has not previously negotiated in sequence until an agreement is reached for some or all of the multiple contracts included in the request for qualifications or a determination is made to reject all persons on the final list.

7. That the findings of fact or decision is not justified by the evidence or is contrary to law.
- B.** Scope. A rehearing may be granted to all or any of the parties and on all or part of the issues in the proceeding for any of the reasons for which rehearings are authorized by law or rule of court. On a motion for a rehearing, the hearing officer may open the decision, take additional testimony, amend findings of fact and conclusions of law or make new findings and conclusions, and direct the entry of a new decision.
- C.** Contents of motion; amendment; rulings reviewable.
1. The motion for rehearing shall be in writing, shall specify generally the grounds upon which the motion is based, and may be amended at any time before it is ruled upon by the hearing officer.

If such a statement is filed with the prescribed time, the motion for rehearing shall be regarded as denied as of the date of such filing. If no statement is filed, the motion for rehearing shall be regarded as granted as of the date of the expiration of the time period within which a statement may have been filed. No further written order shall be required to make an order granting or denying the rehearing final. **The release of this Chapter in Supp. 25-2 replaces Supp. 21-3, 1-11 pages.**

## PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director  
ADMINISTRATIVE RULES DIVISION

### RULES

The definition for a rule is provided for under A.R.S. § 41-1001. “Rule’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

### THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31  
Second Quarter: April 1 - June 30  
Third Quarter: July 1 - September 30  
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2025 is cited as Supp. 25-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. The Office links to these codified Sections in the Table of Contents of this Chapter.

### RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

### AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

### HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

### ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, [www.azleg.gov](http://www.azleg.gov). An agency’s authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

### SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State’s website, [www.azsos.gov](http://www.azsos.gov) under Services-> Legislative Filings.

### EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at [www.azsos.gov/rules](http://www.azsos.gov/rules), click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

### PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

## CHAPTER 3. REPEALED

## Supp. 25-2

Under Laws 2022, 55th Legislature, 2nd Legislative Session, Chapter 21 (retroactive effective date December 31, 2021) the Arizona Board of Regents was named the state higher education agency and scholarship grant agency pursuant to A.R.S. § 15-1703; Chapter 21 also repealed Arizona Commission for Postsecondary Education rules under Section 5, paragraph C which states, "Administrative rules and orders that were adopted by the Commission for Postsecondary Education are repealed."

Under Laws 2021, 55th Legislature, 1st Regular Session, Chapter 410, the Arizona Commission for Postsecondary Education was transferred to the Arizona Board of Regents.

**Editor's Note:** The Office of the Secretary of State publishes all Code Chapters on white paper (Supp. 01-4).

**Editor's Note:** This Chapter contains rules which were adopted, amended, repealed, or renumbered under an exemption from the Arizona Administrative Procedure Act (A.R.S. Title 41, Chapter 6), pursuant to A.R.S. § 15-1852(C). Exemption from A.R.S. Title 41, Chapter 6 means the Commission was not required to hold public hearings; and the Governor's Regulatory Review Council did not review or approve the rules. Because this Chapter contains rules which are exempt from the regular rulemaking process, it is printed on blue paper.

## PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director  
ADMINISTRATIVE RULES DIVISION

### RULES

The definition for a rule is provided for under A.R.S. § 41-1001. “*Rule*’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

### THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31  
Second Quarter: April 1 - June 30  
Third Quarter: July 1 - September 30  
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2025 is cited as Supp. 25-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. The Office links to these codified Sections in the Table of Contents of this Chapter.

### RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

### AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

### HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

### ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, [www.azleg.gov](http://www.azleg.gov). An agency’s authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

### SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State’s website, [www.azsos.gov](http://www.azsos.gov) under Services-> Legislative Filings.

### EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at [www.azsos.gov/rules](http://www.azsos.gov/rules), click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

### PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.
