R7-2-622. Qualification Requirements of Professional, Non-Teaching School Personnel**A. Definitions:**

1. "Educational Interpreter." For the purposes of this Section, "educational interpreter" means a person trained to translate in sign language for students identified to require such services through an Individualized Education Program (IEP) or a 504 accommodation plan in order to access academic instruction. This does not in any way restrict the provisions of R7-2-401(B)(14) which defines "interpreter" and provides that each student's IEP team determines the level of interpreter skill necessary for the provision of FAPE, nor does it restrict a school district's ability to develop a job description for someone in a position of "educational interpreter" that requires additional job responsibilities.
2. "Accommodation plan developed to comply with Section 504 of the Rehabilitation Act of 1973, 29 USC 794, et seq. ("504 accommodation plan")." For the purposes of this Section, "504 accommodation plan" means a plan developed for the purpose of specifying accommodations and/or services that will be implemented by classroom teachers and other school personnel so that students will benefit from their educational program.

B. Educational Interpreters for the Hearing Impaired.

2. If a public education agency (PEA) is unable to find an individual meeting the above qualifications, the PEA may hire an individual with lesser qualifications, but the PEA is required to provide a professional development plan for the individual they employ to provide educational interpreting services. This professional development plan must include the following:
 - a. Proof of at least 24 hours of training in interpreting each year that a valid certification is not held or EIPA passing score is not attained, and
 - b. Documentation of a plan for the individual to meet the required qualifications within three years of employment. If the qualifications are not attained within three years, but progress toward attainment is demonstrated, the plan shall be modified to include an intensive program for up to one year to meet the provisions of subsection (B)(1).
3. An individual employed under the provisions of subsection (B)(2) must also have the following:
 - a. A valid fingerprint clearance card, and
 - b. A high school diploma or GED.
- C. Compliance with these rules will be reviewed at the same time as a PEA is monitored for compliance with the requirements of the Individuals with Disabilities Education Act (IDEA), 20 U.S.C. § 1400, et seq.

 2. A request for correction including the corrected bid or a request for withdrawal; and
 3. The reasons why correction or withdrawal is consistent with fair competition and advantageous to the school district.
- C. After bid opening and before award, a bid mistake based on an error in judgment may not be corrected or withdrawn. Other bid mistakes may be corrected or withdrawn pursuant to subsections (D) through (F).
- D. After bid opening and before award, the school district shall either waive minor informalities in a bid or allow the bidder to correct them if correction is advantageous to the school district.
- E. After bid opening and before award, the bid may not be withdrawn and shall be corrected to the intended bid if a bid mistake and the intended bid are evident on the face of the bid.
- F. After bid opening and before award, the school district may permit a bidder to withdraw a bid if:
1. A nonjudgmental mistake is evident on the face of the bid but the intended bid is not evident; or
 2. The bidder establishes by clear and convincing evidence that a nonjudgmental mistake was made.
- G. If correction or withdrawal of a bid after bid opening is permitted or denied under subsections (D), (F) and (J), the school district shall prepare a written determination showing that the relief was permitted or denied under this Section.
- H. Notwithstanding other provisions of this Section, after bid opening and before award, no corrections in bid prices or other provisions of bids prejudicial to the interest of the school district or fair competition shall be permitted.
- I. If a mistake in the bid is discovered after the award, the bidder may request withdrawal or correction in writing and shall include all of the following in the written request:

 2. Cancel all or part of the award; or
 3. Deny correction or withdrawal.
- K. After cancellation of all or part of an award in accordance with subsection (J)(2), if the bid acceptance period has not expired, the school district may award all or part of the contract to the next lowest responsible and responsive bidder, based on the considerations of fair competition and the best interest of the school district.

R7-2-1031. Bid Evaluation and Award

- A. As provided in subsection (C), the contract or contracts shall be awarded to the lowest responsible and responsive bidder or bidders whose bid or bids conform in all material respects to the requirements and evaluation criteria set forth in the invitation for bids. No criteria may be used in bid evaluation that are not set forth in the invitation for bids. The amount of any applicable transaction privilege or use tax of a political subdivision of this state is not a factor in determining the lowest bidder.
- B. A product acceptability evaluation shall be conducted solely to determine whether a bidder's product is acceptable as set forth in the invitation for bids and not whether one bidder's product is superior to another bidder's product. Any bidder's offering that does not meet the acceptability requirements shall be rejected as nonresponsive.
- C. The school district shall award the contract to the single lowest responsible and responsive bidder for all materials or services, except that the school district may make a multiple award if the invitation for bids included notification that multiple contracts may be awarded, the school district's basis for determining whether to award multiple contracts, and the criteria for selecting vendors for the multiple contracts.
- D. Before making a multiple award, the school district shall determine in writing that a multiple award is necessary and is advantageous to the school district and shall establish procedures for the use of the multiple awarded contracts to ensure that purchases are made from the contracts determined by the school district to offer the lowest cost in satisfying the school district's requirements. A multiple award shall be limited to the least number of suppliers the school district determines in writing to be necessary to meet the school district's requirements, and may include the following types of awards:
1. Awards to the lowest responsible and responsive bidder for individual line items, groups of line items, or categories.
 2. Awards to the lowest responsible and responsive bidders for similar or identical line items, groups of line items, or categories only if the school district determines in writing that such awards are necessary to obtain the required quantity or delivery, and the awards are limited to the least number of bidders necessary to meet the school district's requirements.
 3. An incremental award only if the school district determines in writing that such an award is necessary to obtain the required quantity or delivery. The award shall be made to the lowest responsible and responsive bidder, then the next lowest responsible and responsive bidder or bidders until the total definite quantity required is awarded.
 4. A regional award to the lowest responsible and responsive bidder in designated regions or locations only if the school district determines in writing that such an award is necessary to obtain the required quantity or delivery over widely scattered locations or a particular requirement is of a local nature.
- E. The procurement file shall contain the basis on which the award or awards are made.
- F. The school district shall not modify evaluation criteria after the bid due date and time.
- G. A school district may appoint an evaluation committee to assist in the evaluation of bids. If bids are evaluated by an

TITLE 7. EDUCATION

CHAPTER 2. STATE BOARD OF EDUCATION

evaluation committee, the evaluation committee shall prepare an evaluation report for the school district. The school district may:

1. Accept the findings of the evaluation committee;
 2. Request additional information from the evaluation committee; or
 3. Reject the findings of the evaluation committee, in which case the school district shall appoint a new evaluation committee to evaluate the existing bids or cancel the solicitation.
- H.** The school district may contact a bidder to confirm the school district's understanding of the bid. Such contact shall be prior to award. The school district shall obtain written confirmation from the bidder and shall retain the confirmation in the procurement file.
- I.** The contract or contracts shall be awarded during the bid acceptance period. If the bid acceptance period expires prior to award of the contract or contracts, the procurement shall be canceled, unless the bid acceptance period is extended in accordance with subsection (J).
- J.** To extend the bid acceptance period, a school district shall notify all bidders in writing of an extension and request written concurrence from each bidder. To be eligible for a contract award, a bidder shall submit a written concurrence to the extension. The school district shall reject a bid as nonresponsive if written concurrence is not provided as requested.
- K.** A contract may not be awarded to a bidder submitting a higher quality item than that designated in the invitation for bids unless the bidder is also the lowest bidder as determined under subsection (A). This Section does not permit negotiations with any bidder, except as provided in subsection (L).
- L.** If all bids for a construction project exceed available monies as certified by the school district, and the lowest responsive bid from a responsible bidder does not exceed such monies by more than five percent, the school district may in situations in which time or economic considerations preclude resolicitation of work of a reduced scope, negotiate an adjustment of the bid price, including changes in the bid requirements, with the lowest responsible and responsive bidder, to bring the bid within the amount of available monies.
- M.** If there are two or more low responsive bids from responsible bidders that are identical in price and that meet all the requirements and criteria set forth in the invitation for bids, award shall be made by drawing lots in the presence of one or more witnesses.
- N.** A record showing the basis for determining the successful bidder shall be retained in the procurement file.
- O.** The school district shall notify all bidders of an award.
- P.** After a contract is awarded, the school district shall return any bid security provided by unsuccessful bidders.
- Q.** Upon execution of the contract, if performance and payment bonds were not required, or upon receipt of the specified bonds, if performance and payment bonds were required, the school district shall return any bid security provided by the successful bidder.
- R.** Within 10 days after a contract is awarded, the school district shall make the procurement file, including all bids, available for public inspection.
1. If the procurement file contains information that is confidential under R7-2-1006, a copy of the applicable documents with the confidential information redacted shall be placed in the procurement file for the purpose of public inspection.

2. The unredacted original copy of the confidential information shall be placed in a sealed envelope or other appropriate container, identified as confidential information, and maintained in the procurement file.

R7-2-1032. Only One Bid Received

If only one responsive bid is received in response to an invitation for bids, an award may be made to the single bidder if the school district determines in writing that the bidder is responsible, that the price submitted is fair and reasonable, and that either other prospective bidders had reasonable opportunity to respond, or there is not adequate time for resolicitation. Otherwise the bid may be rejected in whole or in part as may be specified in the invitation for bids if it is advantageous to the school district. The reasons for cancellation or rejection shall be made part of the procurement file and:

1. New bids may be solicited;
2. The proposed procurement may be canceled; or
3. If the school district determines that the need for the material or service continues and the acceptance of the one bid is not advantageous to the school district, the procurement may then be conducted as follows:
 - a. The school district may follow the sole source procurement procedure if R7-2-1053 applies.
 - b. Notwithstanding any other provision of Articles 10 and 11, the school district may make emergency procurements pursuant to R7-2-1055 and R7-2-1056 if an emergency condition exists pursuant to R7-2-1055.

1. Each county school superintendent shall maintain a prospective bidders list of persons who desire to receive solicitations to bid on school district construction projects within that county. The prospective bidders list shall be maintained in accordance with R7-2-1023;
 2. The prospective bidders list maintained pursuant to subsection (B)(1) shall be available for public inspection;
 3. A performance bond and a payment bond, as required by A.R.S. § 34-222, shall be provided for contracts for construction by contractors;
 4. All bids for construction shall be opened at a public opening and the bids shall remain confidential until the public opening;

 1. Available specifications or purchase descriptions are not sufficiently complete to permit full competition without technical evaluations and discussions to ensure mutual understanding between each bidder and the school district;
 2. Definite criteria exist for evaluation of technical offers;
 3. More than one technically qualified source is expected to be available; and
 4. A fixed-price contract will be used.

 11. The date, time and location of any pre-technical offer conference.
- C. A school district may conduct a pre-technical offer conference open to all persons. If a pre-technical offer conference is conducted, it shall be not less than seven days before the technical offer due date and time, unless the school district makes a written determination that the specific needs of the procurement justify a shorter time. Statements made during the pre-technical offer conference shall not be considered modifications to the invitation to submit technical offers.
- D. The invitation to submit technical offers may be amended before or after the submission of the unpriced technical offers. Amendments to an invitation to submit technical offers shall be so identified and the school district shall ensure that the amendments are distributed or made available to all persons to whom the original invitation to submit technical offers was distributed or made available. The school district shall make a copy of the amendments to an invitation to submit technical offers available for public inspection at the school district office. If the school district posted the invitation to submit technical offers or a notice of the availability of an invitation to submit technical offers on a designated site on the Internet, then the school district shall post any amendments to the invitation to submit technical offers on the same designated site on the Internet. The school district shall also do one or more of the following:
 - a. Distribute the amendment, by any method reasonably calculated to ensure delivery, to all persons to whom the invitation to submit technical offers was distributed;
 - b. Make the amendment available and issue a notice of amendment which contains instructions for obtaining copies of the amendment. 3. A person shall acknowledge receipt of an amendment in the manner specified in the invitation to submit technical offers or the amendment on or before the technical offer due date and time.

A determination that an unpriced technical offer is unacceptable shall be in writing, state the basis for the determination and be retained in the procurement file. If the school district determines a person's unpriced technical offer is unacceptable, the school district

During discussions, the school district shall not disclose any information derived from one unpriced technical offer to any other person. After discussions, the school district shall establish a due date and time for receipt of final technical offers and shall notify, in writing, persons submitting acceptable or potentially acceptable technical offers of the due date and time. The determination shall be in writing, state the basis for the determination and be retained in the procurement file. When there is doubt as to whether a proposal is reasonably susceptible of being awarded a contract, the proposal shall be considered acceptable.
- H.** If the school district determines an offeror's proposal is unacceptable, the school district shall notify that offeror of the determination and that the offeror shall not be afforded an opportunity to amend its proposal.

PART XI. GUARANTEED ENERGY CONTRACTS**R7-2-1069. Guaranteed Energy Cost Savings Contracts**

- A. A school district may procure a guaranteed energy cost savings contract with a qualified provider through competitive sealed proposals in accordance with R7-2-1041 through R7-2-1050.
 1. The request for proposal evaluation factors required by R7-2-1042(A)(1)(h) shall include objective criteria for selecting the qualified provider, including the cost of the contract, the energy cost savings, the net projected energy savings, the quality of the technical approach, the quality of the project management plan, the financial solvency of the qualified provider and the experience of the qualified provider with projects of similar size and scope.
 2. Notwithstanding R7-2-1042(A)(1)(h), the request for proposals shall set forth the respective numerical weighting for each evaluation criterion.
 3. At the qualified provider's expense, the proposal shall include an independent third-party validation of cost savings calculations associated with each proposed energy cost savings measure by a licensed, registered professional engineer, with credentials from the national association of energy engineers, who has demonstrated experience in energy analysis. The school district shall approve the selection of the independent third party.
 4. A school district may enter into a guaranteed energy cost savings contract with a qualified provider if the school district determines that the energy savings project will pay for itself within the expected life of the energy cost savings measures implemented (according to the manufacturer's equipment standards), the term of the financial agreement or 25 years, whichever is shortest, if the recommendations in the proposal are followed. Notwithstanding this subsection, a school district may elect to use a shorter capital cost repayment schedule than required pursuant to this subsection. The school district shall retain the cost savings achieved by a guaranteed energy cost savings contract, and these cost savings may be used to pay for the contract and project implementation.
 5. A qualified provider is a person that is experienced in designing, implementing or installing energy cost savings measures, that has a record of established projects or measures of similar size and scope, that has demonstrated technical, operational, financial and managerial capabilities to design and operate cost savings measures and projects and that has the financial ability to satisfy guarantees for energy cost savings.
- B. In selecting a contractor to perform any construction work related to performing the guaranteed energy cost savings contract, the qualified provider may:
 1. Develop and use a prequalification process for contractors.
 2. Require the contractor to demonstrate that the contractor is adequately bonded to perform the work and that the contractor has not failed to perform on a prior job.
- C. A study shall be performed by the selected qualified provider in order to establish the exact scope of the guaranteed energy cost savings contract, the fixed cost savings guarantee amount and the methodology for determining actual savings. The selected qualified provider will provide the school district with a final study report which validates that the fixed cost savings

guarantee amount will meet or exceed the cost savings calculations contained within the original proposal. The study report shall be reviewed and approved by the school district before the actual installation of any equipment. The qualified provider shall transmit a copy of the approved study report to the division of school facilities within the department of administration and the governor's office.

- D. The information to develop the energy baseline shall be derived from historical energy costs or actual energy measurements or shall be calculated from energy measurements at the facility where energy cost savings measures are to be installed or implemented. The baseline shall be established before the installation or implementation of energy cost savings measures.
- E. One or more school districts may enter into a financing agreement with a qualified provider or a financial institution, trustee or paying agent for the purchase and installation or implementation of energy cost savings measures. Any required financing may be obtained as part of the original competitive sealed proposal process from the qualified provider, or from a third-party financing institution that is procured separately in accordance with Articles 10 and 11.
- F. The selected qualified provider shall provide a performance bond in accordance with R7-2-1103(A)(1)(c).
- G. The selected qualified provider shall make public the information in the subcontractor's bids.
- H. The guaranteed energy cost savings contract shall include the following:
 1. A requirement that, in determining whether the projected energy savings calculations have been met, the energy savings shall be computed by comparing the energy baseline before installation or implementation of the energy cost savings measures with the energy consumed after installation or implementation of the energy cost savings measures. The qualified provider and the school district may agree to make modifications to the energy baseline only for any of the following:
 - a. Changes in utility rates.
 - b. Changes in the number of days in the utility billing cycle.
 - c. Changes in the square footage of the facility.
 - d. Changes in the operational schedule of the facility.
 - e. Changes in facility temperature.

 - g. Significant changes in the amount of equipment or lighting used in the facility.
 - h. Significant changes in the nature or intensity of energy use such as the change of classroom space to laboratory space.
 2. A payment schedule, with payments over a period of not more than the expected life of the energy cost savings measures implemented (according to the manufacturer's equipment standards), the term of the financial agreement or 25 years, whichever is shortest, except a school district may elect to use a shorter capital cost repayment schedule than required pursuant to this subsection.
 3. A requirement that all payments, except obligations on termination of the contract before its expiration, be made pursuant to the terms of the financing agreement.
 4. A written guarantee from the qualified provider that the energy savings will meet or exceed the costs of the energy cost savings measures over the expected life of the energy cost savings measures implemented (according to the manufacturer's equipment standards), the term of the

financial agreement or 25 years, whichever is shortest, except a school district may elect to use a shorter capital cost repayment schedule than required pursuant to this subsection. The school district shall ensure that the contractor:

- a. For the term of the guaranteed energy cost savings contract, prepares a measurement and verification report on an annual basis in addition to an annual reconciliation of savings.
- b. Reimburses the school district for any shortfall of guaranteed energy cost savings on an annual basis.
- c. Uses the international performance and measurement and verification protocol standards or the federal energy management program standards to validate the savings guarantee.

- N.** Except as provided in subsections (J), (K) and (L), a design professional services contract or subcontract entered into in connection with a public building or improvement shall not require that a design professional defend, indemnify, insure or hold harmless the school district or property owner or its employees, officers, directors, agents, contractors or subcontractors from any liability, damage, loss, claim, action or proceeding, and any contract provision that is not permitted by subsections (J), (K) and (L) is against the public policy of this state and is void.

 - E. After the bids and proposals are opened, they are irrevocable for the period specified in the invitation for bids or request for proposals, except as provided in R7-2-1030. TITLE 7. EDUCATION

CHAPTER 2. STATE BOARD OF EDUCATION

- A. The following bonds or security is required and is binding on the parties to the contract if the value of a construction or construction services award exceeds the amount established by R7-2-1002(A):
1. A performance bond that is executed and furnished as required under Arizona Revised Statutes Title 34, Chapter 2, Article 2 or Chapter 6, as applicable, in an amount equal to 100 percent of the price specified in the contract conditioned on the faithful performance of the contract in accordance with the plans, specifications and conditions of the contract, except that:
 - a. For job-order-contracting construction services, the performance bond shall cover the full amount of construction under the job-order-contracting construction services contract, shall not include any design services, preconstruction services, finance services, maintenance services, operations services or other related services included in the contract, may be a single bond for the full term of the contract, a separate bond for each year of a multiyear contract or a separate bond for each job order, as determined by the school district, and, if a single bond for the full term of the contract or a separate bond for each year of a multiyear contract, shall initially be based on the school district's reasonable estimate of the amount of construction that the school district believes is likely to actually be done during the full term of the contract or during the particular year of a multiyear contract, as applicable.
 - b. For construction-manager-at-risk construction services and design-build construction services, the amount of the performance bond shall be the price of construction and shall not include the cost of any design services, preconstruction services, finance services, maintenance services, operations services and other related services included in the contract. This bond is solely for the protection of the school district. The conditions and provisions of the performance bond regarding the surety's obligations shall follow the form required under A.R.S. § 34-222(G) or A.R.S. § 34-610(G), as applicable.
 - c. For guaranteed energy cost savings contracts and guaranteed energy production contracts, the amount of the performance bond shall be one hundred percent of the project amount to the school district for its faithful performance of the equipment installment.
 2. A payment bond that is executed and furnished as required by Arizona Revised Statutes Title 34, Chapter 2, Article 2 or Chapter 6, as applicable, in an amount equal to one hundred percent of the price specified in the contract for the protection of all persons supplying labor or material to the contractor or its subcontractors for the performance of the construction provided for in the contract, except that:
 - a. For job-order-contracting construction services, the payment bond shall cover the full amount of construction under the job-order-contracting construction services contract, shall not include any design services, preconstruction services, finance services, maintenance services, operations services or other related services included in the contract, may be a single bond for the full term of the contract, a separate bond for each year of a multiyear contract or a separate bond for each job order, as determined by the school district, and, if a single bond for the full term of the contract or a separate bond for each year of a multiyear contract, shall initially be based on the school district's reasonable estimate of the amount of construction that the school district believes is likely to actually be done during the full term of the contract or during the particular year of a multiyear contract, as applicable.
 - b. For construction-manager-at-risk construction services and design-build construction services, the amount of the payment bond shall be the price of construction and shall not include the cost of any design services, preconstruction services, finance services, maintenance services, operations services or other related services included in the contract. The conditions and provisions of the payment bond regarding the surety's obligations shall follow the form required under A.R.S. § 34-222(F) or A.R.S. § 34-610(F), as applicable.
- B. For design-bid-build construction, the bonds prescribed in subsection (A) shall be provided on and at the same time as execution of the construction contract. For construction-manager-at-risk, design-build and job-order-contracting construction services, the bonds prescribed in subsection (A) shall be provided only on and at the same time as execution of a contract or contract modification that commits the contractor to provide construction for a fixed price, guaranteed maximum price or other fixed amount within a designated time frame.
- C. If the prime contract or specifications require any persons supplying labor or materials in the prosecution of the work to furnish payment or performance bonds, these bonds shall be executed solely by a surety company or companies holding a certificate of authority to transact surety business in this state issued by the director of the Department of Insurance pursuant to Arizona Revised Statutes Title 20, Chapter 2, Article 1. Notwithstanding the provisions of any other statute, the bonds shall not be executed by an individual surety or sureties, even if the requirements of A.R.S. § 7-101 are satisfied.
- D. If a contractor fails to deliver the required performance bond or payment bond, the contractor's bid shall be rejected, its bid security shall be enforced, and award of the contract shall be made pursuant to Articles 10 and 11.
- E. This Section shall not be construed to limit the authority of the school district to require a performance bond or other security in addition to those bonds or in circumstances other than specified in subsection (A).
- F. Any person who furnishes labor or material to the contractor or its subcontractors for the work provided in the contract, in respect of which a payment bond is furnished under this Section, and who has not been paid in full within 90 days from the date on which the last of the labor was performed or material was supplied by the person for whom the claim is made has the right to sue on the payment bond for any amount unpaid at the time the suit is instituted and to prosecute the action for the amount due the person. However, any person who has a contract with a subcontractor of the contractor, but no express or implied contract with the contractor furnishing the payment bond, has a right of action on the payment bond on giving the contractor, only, a written preliminary 20-day notice as provided for in A.R.S. § 33-992.01, subsection (C)(1), (2), (3), and (4) and subsections (D), (E), and (H), and upon giving written notice to the contractor within 90 days from the date on which the last of the labor was performed or material was supplied.

R7-2-1104. Contract Payment Retention and Substitute Security

- A. Ten percent of all construction contract payments shall be retained by the school district as insurance of proper performance of the contract or, at the option of the contractor, a substitute security may be provided by the contractor pursuant to this Section. The contractor is entitled to all interest from any such substitute security. When the contract is fifty percent completed, one-half of the amount retained or securities substituted pursuant to this Section shall be paid to the contractor upon the contractor's request provided the contractor is making satisfactory progress on the contract and there is no specific cause or claim requiring a greater amount to be retained. After the contract is fifty percent completed, no more than five percent of the amount of any subsequent progress payments made under the contract shall be retained providing the contractor is making satisfactory progress on the project, except if at any time the governing board determines satisfactory progress is not being made, ten percent retention shall be reinstated for all progress payments made under the contract subsequent to the determination.
- B. Notwithstanding subsection (A), there shall be no retention for job-order-contracting construction services contracts. The school district may elect to have no retention for construction-manager-at-risk and design-build construction services contracts. If the school district elects to have retention, then payment retention for construction-manager-at-risk and design-build contracts shall be in accordance with this Section.
- C. Retention applies only to amounts payable for construction and does not apply to amounts payable for design services, preconstruction services, finance services, maintenance services, operations services, or any other related services included in the contract.
- D. The form of substitute security is limited to the following:
 1. An assignment of time certificates of deposit by financial institutions licensed by this state;
 2. Share certificate of a financial institution or credit union authorized to transact business in this state; or
 3. Security issued or guaranteed as to principal and interest by:
 - a. The United States;
 - b. The state;
 - c. Counties, municipalities and school districts within this state.
- E. Conditions for use of substitute security.
 1. A contractor may submit substitute security to replace contract payment retention if:
 - a. The use of substitute security is requested of the school district or designee for work performed under

the contract. The contractor shall have the option of submitting the substitute security:

- i. Prior to each progress payment in an amount of no less than five percent of each progress payment; or
 - ii. Once, prior to the first progress payment in an amount no less than five percent of the total contract amount.
 - b. The interest earned on such security shall accrue to the benefit of the contractor, but shall be retained until the school district has approved completion and acceptance of all work to be performed under the contract;
 - c. The term of such security shall not mature until after the estimated contract completion date; and
 - d. The security shall mature no later than one year after the estimated contract completion date.
2. The substitute security shall not be released without written approval by the school district.
 3. A contractor may submit a single substitute security for more than one project provided that:
 - a. The amount of such security is sufficient to cover the aggregate retention amount;
 - b. The school district determines that such single substitute security is advantageous to the school district; and
 - c. Such security complies with the requirements of subsection (E)(1).
 - F. Any retention shall be paid or substitute security shall be returned to the contractor within 60 days after final completion and acceptance of work under the contract. Retention of payments by a school district longer than 60 days after final completion and acceptance requires a specific written finding by the governing board of the reasons justifying the delay in payment. No school district may retain any monies after 60 days which are in excess of the amount necessary to pay the expenses the governing board reasonably expects to incur in order to pay or discharge the expenses determined in the finding justifying the retention of monies.
 - G. The school district shall not accept any substitute security unless accompanied by a signed and acknowledged waiver of any right or power of the obligor to set off any claim against either the school district or the contractor in relationship to the security assigned. In any instance in which the school district accepts substitute security as provided in this Section, any subcontractor undertaking to perform any part of the contract is entitled to provide such security to the contractor.

Historical Note

Adopted effective December 17, 1987 (Supp. 87-4). Section repealed; new Section made by final exempt rulemaking at 21 A.A.R. 1525, effective July 1, 2014 (Supp. 15-3); effective year corrected in Supp. 18-2.

R7-2-1105. Progress Payments

- A. Progress payments may be made by the school district to the contractor on the basis of a duly certified and approved estimate of the work performed during the preceding month if the contractor agrees to adhere to the provisions of A.R.S. § 41-2577(B), (D), and (F). Payment shall be made within 14 days after the estimate of the work is certified and approved, except that a percentage of all estimates shall be retained as provided in R7-2-1104. The estimate of the work shall be deemed received by the school district on submission of the estimate of the work to the school district or a person designated by the

TITLE 7. EDUCATION

CHAPTER 2. STATE BOARD OF EDUCATION

school district for the submission, review or approval of the estimate of the work. An estimate of the work submitted under this Section shall be considered approved and certified after seven days from the date of submission unless before that time the school district or designee prepares and issues a specific written finding detailing those items in the estimate of the work that are not approved and certified under the contract or design professional service contract. The school district may withhold an amount from the progress payment sufficient to pay the expenses the school district reasonably expects to incur in correcting the deficiency set forth in the written finding. No contract for construction or design professional service contract may materially alter the rights of any contractor, subcontractor, design professional or material supplier to receive prompt and timely payment as provided under this Section. On completion and acceptance of separate divisions of the contract or design professional service contract on which the price is stated separately in the contract, payment may be made in full including retained percentages, less deductions, unless a substitute security has been provided pursuant to R7-2-1104.

- B. Progress payments pursuant to subsection (A) are authorized for construction services and design professional services contracts. The requirements of subsection (A) apply only to amounts payable in a construction services contract for construction and in a contract for design services and do not apply to amounts payable in a contract for preconstruction services, finance services, maintenance services, operations services or any other related services included in the contract.
- C. A subcontractor or design professional may notify the school district, in writing, requesting that the subcontractor or design professional be notified by the school district in writing within five days from payment of each progress payment made to the contractor. The subcontractor's or design professional's request remains in effect for the duration of the subcontractor's or design professional's work on the project.
- D. If any payment to a contractor is delayed after the date due, interest shall be paid at the rate of one percent per calendar month, or a fraction of a calendar month, on such unpaid balance as may be due.

Historical Note

Adopted effective December 17, 1987 (Supp. 87-4). Section repealed; new Section made by final exempt rulemaking at 21 A.A.R. 1525, effective July 1, 2014 (Supp. 15-3); effective year corrected in Supp. 18-2. Amended by final exempt rulemaking at 26 A.A.R. 597, effective July 1, 2020 (Supp. 20-1).

R7-2-1106. Procurement of Construction Using Alternative Project Delivery Methods

- A. A school district may use an alternative project delivery method if it determines in writing that such alternative project delivery method is advantageous to the school district. The following factors may be used for such determination:
 - 1. Cost and cost control method;
 - 2. Value engineering;
 - 3. Market conditions;
 - 4. Schedule;
 - 5. Required specialized expertise;
 - 6. Technical complexity of the project; or
 - 7. Project management.
- B. Use of alternative project delivery methods
 - 1. Alternative project delivery methods for construction services shall be procured as provided in R7-2-1100.

- 2. For design-build construction services and construction-manager-at-risk construction services, the school district is limited to one contract per procurement.
 - a. Alternatively, for construction-manager-at-risk construction services, a school district may elect separate contracts for preconstruction services during the design phase, for construction during the construction phase and for any other construction services.
 - b. Alternatively, for design-build construction services, a school district may elect separate contracts for preconstruction services and design services during the design phase, for construction and design services during the construction phase and for any other construction services.
 - c. If the school district enters into the first contract for preconstruction services or construction services the procurement ends. After execution of that first contract the school district may not use the procurement or the existing final list in the procurement as the basis for entering into a contract with any other person that participated in the procurement.
- 3. For job-order-contracting construction services, the school district may award a single contract, or multiple contracts for similar job-order-contracting construction services to be awarded to separate persons. If the school district enters into the number of contracts specified under the request for qualifications, the procurement ends. After that time the school district may not use the procurement or any existing final list in the procurement as the basis for entering into a contract with any other person that participated in the procurement.
- 4. All construction-manager-at-risk construction services or design-build construction services included in a procurement shall be limited to construction services to be performed at a single location, a common location or, if the construction services are all for a similar purpose, multiple locations. For construction-manager-at-risk construction services and design-build construction services to be performed at multiple locations:
 - a. At the time the request for qualifications is issued, the school district shall intend to commence all construction at each location within thirty months after execution of the first contract for preconstruction services or other construction services at any of the locations.
 - b. The request for qualifications shall include the information described in R7-2-1108(B)(2).
- 5. The school district and the selection committee shall not request or consider fees, price, man-hours or any other cost information at any point in the selection process under this Section and R7-2-1107, R7-2-1108, R7-2-1110, and R7-2-1111, including the selection of persons to be interviewed, the selection of persons to be on the final list, in determining the order of preference of persons on the final list or for any other purpose in the selection process, except as provided in R7-2-1110(D) and R7-2-1111.
- 6. In determining the persons to participate in any interviews, in determining the persons to be on the final list, and in determining the order on the final list, the selection committee shall use and consider only the criteria and weighting of criteria in the request for qualifications. No other factors or criteria may be used in the evaluation, determinations and other actions.

TITLE 7. EDUCATION

CHAPTER 2. STATE BOARD OF EDUCATION

7. Notwithstanding any other provision specifying the number of persons to be interviewed, the number of persons to be on a final list, or any other numerical specification in R7-2-1106 through R7-2-1115:

- a. If a smaller number of persons respond to the request for qualifications or if one or more persons drop out of the procurement so there is a smaller number of persons participating in the procurement, the school district, as the school district determines necessary and appropriate, may elect to proceed with the participating persons if there are at least two participating responsive and responsible persons. Alternatively, the school district may elect to terminate the procurement.
- b. As to a request for qualifications to be negotiated pursuant to R7-2-1110(D), if only one responsive and responsible person responds to the request for qualifications or if one or more persons drop out of the procurement so that only one responsive and responsible person remains in the procurement, the school district may elect to proceed with the procurement with only one person if the governing board determines in writing that the negotiated fee is fair and reasonable and that either other prospective persons had reasonable opportunity to respond or there is not adequate time for a resolicitation.
- c. If a person on the final list withdraws or is removed from the procurement and the selection committee determines that it is advantageous to the school district, the selection committee may replace that person on the final list with another person that submitted qualifications in the procurement and that is selected as the next most qualified.

Historical Note

New Section made by final exempt rulemaking at 21 A.A.R. 1525, effective July 1, 2014 (Supp. 15-3); effective year corrected in Supp. 18-2.

- B. Each selection committee shall include at least one school district representative appointed by the school district.
- C. The selection committee shall not have more than seven members and shall include at least one person who is a senior management employee of a licensed contractor and one person who is an architect or an engineer who is registered pursuant to A.R.S. § 32-121.
- D. Non-school district employees serving on a selection committee shall not receive compensation from the school district for performing this service, but the school district may elect to reimburse non-school district members for travel, lodging and other expenses incurred in connection with service on a selection committee.
- E. A person who is a member of a selection committee shall not be a contractor or subcontractor under a contract awarded under the procurement or provide any specified professional services, construction, construction services, materials or other services under the contract.
- F. For the procurement of multiple contracts for job-order-contracting, the same selection committee shall be used for all contracts in the procurement.

Historical Note

The request for qualifications also shall state whether the school district will select the persons on the final list and their order on the final list solely through the results of the interview process or through the combined results of both the interview process and the evaluation of statements of qualifications and performance data submitted in response to the school district's request for qualifications.
- d. If interviews will not be held, state the selection criteria and relative weights to be used in selecting the persons on the final list and in determining their order on the final list.
5. Whether one contract or multiple contracts may or will be awarded.
 - a. For design-build construction services, construction-manager-at-risk construction services, and a single contract for job-order-contracting construction services, state that one person may or will be awarded the contract.

R7-2-1110. Committee Evaluation and Contract Award

- A.** If interviews are specified in the request for qualifications:
1. The selection committee shall determine the persons to be interviewed by evaluating the statements of qualifications and performance data submitted based solely on the selection criteria and relative weights in the request for qualifications to be used to determine the persons to be interviewed.
 2. If the selection criteria and relative weights to be used by the selection committee to select the persons on the final list and to determine their order on the final list are not included in the request for qualifications:
 - a. Before the interviews are held the school district shall distribute to the persons to be interviewed the selection criteria and relative weights to be used to select the persons on the final list and to determine their order on the final list.
 - b. These selection criteria and relative weights may be different than the selection criteria and relative weight used to determine the persons to be interviewed.
 3. The selection committee shall conduct interviews with the number of persons specified in the request for qualifications.
- B.** Based solely on the selection criteria and relative weights for selection of the persons on the final list and their order on the final list, the selection committee shall select the persons for the final list and, in the case of a final list for a contract that will be negotiated under subsection (D), rank the persons in order of preference.
- C.** The school district shall make the following notifications regarding the final lists:
1. If the contract will be negotiated under subsection (D) before or at the same time as the school district notifies the highest ranking person on the final list that it is the highest ranking person, the school district shall send actual notice to each of the following that it is not the highest ranking person or that another person is the highest ranking person:
 - a. If interviews were held, the other persons interviewed.
 - b. If interviews were not held, the other persons that made submittals.
 2. If the contract will be awarded under R7-2-1111, before or at the same time as the school district notifies the persons on the final list that they are on the final list, the school district shall send actual notice to each of the following persons that they are not on the final list or that other persons are on the final list:
 - a. If interviews were held, the other persons interviewed.
 - b. If interviews were not held, the other persons that made submittals.
- D.** The school district shall conduct negotiations with persons on the final list as follows:
1. The negotiations shall include consideration of compensation and other contract terms that the school district determines to be fair and reasonable to the school district. In making this decision, the school district shall take into account the estimated value, the scope, the complexity and the nature of the construction services to be rendered.

2. If the procurement is for a single contract, there is one final list and the school district shall enter into negotiations with the highest qualified person on the final list. If the school district is not able to negotiate a satisfactory contract with the highest qualified person on the final list, at compensation and on other contract terms the school district determines to be fair and reasonable, the school district shall formally terminate negotiations with that person. The school district shall then undertake negotiations with the next most qualified person on the final list in sequence until an agreement is reached or a determination is made to reject all persons on the final list.
3. If the procurement is for multiple contracts for similar job-order-contracting construction services to be awarded to separate persons, there is one final list and the school district shall enter into separate negotiations for contracts with the number of the highest qualified persons on the final list equal to the number of contracts to be awarded. If the school district is not able to negotiate a satisfactory contract with a person with whom the school district has commenced negotiations, the school district shall formally terminate negotiations with that person. The school district shall then undertake negotiations for a contract with the next most qualified person on the final list with whom the school district is not then negotiating and with whom the school district has not previously negotiated in sequence until an agreement is reached for some or all of the multiple contracts included in the request for qualifications or a determination is made to reject all persons on the final list.
4. If the school district terminates negotiations with a person and commences negotiations with another person on the final list, the school district shall not recommence negotiations or enter into a contract for the construction services covered by the final list with any person with whom the school district terminated negotiations.

- K. For procurements of multiple contracts for similar job-order-contracting construction services, the school district may award up to the number of contracts specified in the request for proposals.
 - L. Before or at the same time as the school district notifies the selected offeror of contract award, the school district shall notify all other offerors of the award.
 - M. For design-build construction services only, the school district shall award a stipulated fee equal to a percentage of the school district's project final budget for design and construction, as prescribed in the request for proposals, but not less than two-tenths of one percent of the project final budget for design and construction to each final list offeror who provides a responsive, but unsuccessful, proposal. If the school district does not award a contract, all responsive final list offerors shall receive the stipulated fee based on the school district's project final budget for design and construction as included in the request for proposals. The school district shall pay the stipulated fee to each offeror within 90 days after the award of the initial contract or the decision not to award a contract. In consideration for paying the stipulated fee, the school district may use any ideas or information contained in the proposals in connection with any contract awarded for the project, or in connection with a subsequent procurement, without any obligation to pay any additional compensation to the offerors. Notwithstanding the other provisions of this subsection, an offeror may elect to waive the stipulated fee. If an offeror elects to waive the stipulated fee, the school district may not use ideas and information contained in the offeror's proposal, except that this restriction does not prevent the school district from using any idea or information if the idea or information is also included in a proposal of an offeror that accepts the stipulated fee.

 - C. Construction shall not commence under a construction services contract until the school district and contractor agree in writing on either a fixed price that the school district will pay or a guaranteed maximum price for the construction to be commenced. The construction to be commenced may be the entire project or may be one or more phased parts of the project.
 - D. For negotiated construction-manager-at-risk and design-build contracts, preconstruction services, general conditions, schedules, construction contingency, and construction fees shall be part of the contract. For design-build contracts awarded pursuant to a request for proposals, the fees shall be included in the vendor's proposal and shall become part of the awarded contract.

The maximum dollar amount of an individual job order for job-order-contracting construction services shall be one million dollars or a higher or lower amount prescribed by the governing board in a policy adopted in a public meeting held pursuant to A.R.S. Title 38, Chapter 3, Article 3.1. Requirements shall not be artificially divided or fragmented in order to constitute a job order that satisfies the requirements of this subsection.
 - 2. If the contractor subcontracts or intends to subcontract part or all of the work under a job order and if the job-order-contracting construction services contract includes descriptions of standard individual tasks, standard unit prices for standard individual tasks and pricing of job orders based on the number of units of standard individual tasks in the job order:

Although the school district may elect to so require, nothing in Articles 10 and 11 shall be construed or interpreted to require the school district to require a contractor desiring to self-perform part of the construction work to competitively bid that part of the construction work against other contractors in a bid competition.
- G.** For all construction services contracts, the following requirements apply to the construction work to be performed by subcontractors and do not apply to construction work that the school district and the contractor agree in writing will be self-performed by the contractor:
1. The person selected to perform the construction services shall select subcontractors based on qualifications alone or on a combination of qualifications and price and shall not select subcontractors based on price alone. A rehearing may be granted to all or any of the parties and on all or part of the issues in the proceeding for any of the reasons for which rehearings are authorized by law or rule of court. On a motion for a rehearing, the hearing officer may open the decision, take additional testimony, amend findings of fact and conclusions of law or make new findings and conclusions, and direct the entry of a new decision.
- C. Contents of motion; amendment; rulings reviewable.
 1. The motion for rehearing shall be in writing, shall specify generally the grounds upon which the motion is based, and may be amended at any time before it is ruled upon by the hearing officer.
 2. Upon the general ground that the hearing officer erred in admitting or rejecting evidence, the hearing officer shall review all rulings during the hearing upon objections to evidence.

The hearing officer may permit reply affidavits.
- F. On initiative of hearing officer. Not later than 15 days after the date of the decision, the hearing officer may order a rehearing for any reason for which it might have granted a rehearing on

- G. Questions to be considered in rehearing. A rehearing, if granted, shall be only a rehearing of the question or questions with respect to which the decision is found erroneous, if separable. - H. Motion on ground of excessive or inadequate damages. When a motion for rehearing is made upon the ground that the damages or penalties awarded are either excessive or insufficient, the hearing officer may grant the rehearing conditionally upon the filing within a fixed period of time, not to exceed 15 days, of a statement by the party adversely affected by reduction or increase of damages or penalties accepting that amount of damages or penalties which the hearing officer shall designate. If such a statement is filed with the prescribed time, the motion for rehearing shall be regarded as denied as of the date of such filing. If no statement is filed, the motion for rehearing shall be regarded as granted as of the date of the expiration of the time period within which a statement may have been filed. No further written order shall be required to make an order granting or denying the rehearing final. - I. Number of motions for rehearing. Not more than two motions for rehearing shall be granted to any party in the same action.

PREFACE

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

RULES

The definition for a rule is provided for under A.R.S. § 41-1001. “*Rule*’ means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.”

THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then Sections. The “R” stands for “rule” with a sequential numbering and lettering outline separated into subsections.

Rules are codified quarterly in the *Code*. Supplement release dates are printed on the footers of each Chapter.

First Quarter: January 1 - March 31
Second Quarter: April 1 - June 30
Third Quarter: July 1 - September 30
Fourth Quarter: October 1 - December 31

For example, the first supplement for the first quarter of 2025 is cited as Supp. 25-1. Supplements are traditionally released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. The Office links to these codified Sections in the Table of Contents of this Chapter.

RULE HISTORY

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

AUTHENTICATION OF PDF CODE CHAPTERS

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document’s content has been compromised.

HOW TO USE THE CODE

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Arizona Administrative Register* for recent updates to rule Sections.

ARIZONA REVISED STATUTE REFERENCES

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature’s website, www.azleg.gov. An agency’s authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

SESSION LAW REFERENCES

Arizona Session Law references in a Chapter can be found at the Secretary of State’s website, www.azsos.gov under Services-> Legislative Filings.

EXEMPTIONS FROM THE APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency’s exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor’s notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

PERSONAL USE/COMMERCIAL USE

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

TITLE 9. HEALTH SERVICES

CHAPTER 10. DEPARTMENT OF HEALTH SERVICES - HEALTH CARE INSTITUTIONS: LICENSING

Authority: A.R.S. §§ 36-132(A)(1), 36-136, 36-405, and 36-406

Supp. 25-3

Editor's Note: The heading for 9 A.A.C. 10 changed from "Licensure" to "Licensing" per a request from the Department of Health Services (Supp. 03-4).

Editor's Note: The Office of the Secretary of State publishes all Chapters on white paper (Supp. 01-2).

Editor's Note: This Chapter contains rules which were adopted, amended, and repealed under exemptions from the provisions of the Administrative Procedure Act (A.R.S. Title 41, Chapter 6) pursuant to Laws 1993, Ch. 163, § 3(B); Laws 1996, Ch. 329, § 5; Laws 1998, Ch. 178 § 17, and Laws 1999, Ch. 311. Exemption from A.R.S. Title 41, Chapter 6 means that the Department of Health Services did not submit these rules to the Governor's Regulatory Review Council for review; the Department may not have submitted notice of proposed rulemaking to the Secretary of State for publication in the Arizona Administrative Register; the Department was not required to hold public hearings on these rules; and the Attorney General did not certify these rules. Because this Chapter contains rules which are exempt from the regular rulemaking process, the Chapter is printed on blue paper.
