Preface

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

Rules

The definition for a rule is provided for under A.R.S. § 41-1001. "'*Rule' means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.*"

The *Arizona Administrative Code*

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then a Section number with a heading. The "R" at the beginning of the Section number stands for "rule." The rule itself includes sequential letters and numbers in an outline. Each lettered or numbered Section is called a subsection of the rule.

Rules are codified quarterly in the *Code*. For example:

Rules codified in the first quarter are filed between January 1 through March 31.

Rules codified in the second quarter are filed between April 1 through June 30.

Rules codified in the third quarter are filed between July 1 through September 30.

Rules codified in the fourth quarter are filed between October 1 through December 31.

Supplement release dates are included in the footers of each Chapter. The first supplement for the first quarter of 2026 is cited as Supp. 26-1. Supplements are released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. The Office links to these codified Sections in the Table of Contents of this Chapter.

How to Use the *Code*

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Register* for recent updates to rule Sections.

Authentication of PDF *Code* Chapters

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document's content has been compromised.

Rule History

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Arizona Administrative Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

Arizona Revised Statutes References

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature's website, www.azleg.gov. An agency's authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

Session Law References

Arizona Session Law references in a Chapter can be found at the Secretary of State's website, www.azsos.gov under Services-> Legislative Filings.

Exemptions to the APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency's exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor's notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

Personal and Commercial Use of the Chapter

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

   a. The member's full name;
   b. The member's date of birth; and
   c. The member's current Compensation;

C. The ASRS may use the information provided by the Employer pursuant to subsection (B) and the information on file with the ASRS to determine an estimated unfunded liability amount in consultation with the ASRS actuary, which may result from the implementation of the Employer's Termination Incentive Program.

D. If the ASRS determines an estimated unfunded liability amount pursuant to subsection (C), the ASRS may send a Notice of Estimated Liability to the Employer through the Employer's secure ASRS account, in order to notify the Employer of the estimated unfunded liability amount the Employer may owe to the ASRS as a result of implementing the Termination Incentive Program identified under subsection (B). An Employer may owe the ASRS more or less than the

estimated unfunded liability amount based on actual employee participation in the Employer's Termination Incentive Program pursuant to subsection (F).

E. Within 30 days of termination of employment of each member who participated in a Termination Incentive Program identified under subsection (B), the Employer shall provide the following information to the ASRS through the Employer's secure ASRS account:

G. If the ASRS calculates an unfunded liability of less than $0.00 for any member who participated in the Employer's Termination Incentive Program, the amount will be applied against the aggregate unfunded liability of the Employer.

H. Upon calculating the unfunded liability pursuant to subsections (F) and (G), the ASRS shall send the Employer a Termination Incentive Program Liability Invoice through the Employer's secure ASRS account.

I. An Employer that owes an unfunded liability amount to the ASRS pursuant to A.R.S. § 38-749, shall remit full payment of the unfunded liability amount by the due date specified in the Termination Incentive Program Liability Invoice.

J. Pursuant to A.R.S. § 38-735(C), if the ASRS does not receive full payment from the Employer of the unfunded liability amount by the due date specified in the Termination Incentive Program Liability Invoice, the unpaid portion of the unfunded liability amount shall accrue interest at the assumed actuarial investment earnings rate listed in R2-8-118(A).

K. The ASRS may collect any unfunded liability amount pursuant to A.R.S. §§ 38-723 and 38-735(C).

R2-8-125. Termination Incentive Program by 30% Salary Increase; Unfunded Liability Calculations

A. The following definitions apply to this Section unless otherwise specified:
1. "Average monthly compensation" means the same as in A.R.S. § 38-711(5).
2. "Baseline salary" means the average of a member's monthly Compensation during the 12 consecutive months in which the member received Compensation immediately preceding the first month of Compensation used to calculate the member's retirement benefit. The Baseline Salary shall include only Compensation from the Same Employer that paid the Compensation used in the calculation of a member's retirement benefit. If the member has less than 12 consecutive months in which the member received Compensation immediately preceding the first month of Compensation used to calculate the member's retirement benefit, then the ASRS will calculate the member's Baseline Salary as the total of the 12 months of Compensation the member received:
   a. Starting with the first month of Compensation the member received in the 12 months immediately preceding the member's Average Monthly Compensation, or within the Average Monthly Compensation; and
   b. Ending with the 12th month of Compensation the member received after the first month of Compensation used in subsection (A)(2)(a).
3. "Compensation" means the same as in A.R.S. § 38-711(7).
4. "Job reclassification" means a change in the classification of an employment position made by the Employer when it finds the duties and responsibilities of the position have changed significantly, materially, and permanently from when the position was last classified.

   a. A change in the employee's primary job responsibilities; and
   b. A pay increase that is supported by a standard salary administration practice that is documented by the Employer; and
   c. A competitive selection process or a noncompetitive selection process supported by a standard hiring practice that is documented by the Employer.
6. "Salary regrade" means a change in the salary scale of an employment position made by the Employer in order to align the position's salary scale with market factors and/or the Employer's current salary practices.
7. "Same employer" means the Employer has the same ownership as another Employer, except that for purposes of this Section, each agency, board, commission, and department of the State of Arizona shall be considered a separate Employer.
8. "Termination Incentive Program" means the same as in A.R.S. § 38-749(D)(1).

B. Upon a member's retirement on or after January 1, 2018, the ASRS shall compare the member's Baseline Salary to the Average Monthly Compensation used to calculate the member's retirement benefit in order to determine whether an Employer utilized a Termination Incentive Program as defined in A.R.S. § 38-749(D)(1). This subsection only applies to members who earned the Compensation used to calculate the member's Baseline Salary, on or after July 1, 2005.

C. Upon determining that a Termination Incentive Program exists under subsection (B), the ASRS shall send a Request for Documentation to the Employer through the Employer's secure ASRS account, in order to notify the Employer that the ASRS has identified a Termination Incentive Program for a particular member and the Employer may be required to pay the ASRS for the unfunded liability resulting from the Termination Incentive Program, unless the Employer can prove the increase in the member's salary was the result of a Promotion.

D. Within 90 days of the date on the Request for Documentation, the Employer shall respond to the Request for Documentation by:
1. Submitting documentation through the Employer's secure ASRS account that shows the member's increase in Compensation was the result of a Promotion; or
2. Acknowledging in writing that the increase in the member's salary was not the result of a Promotion.

E. Pursuant to subsection (D), the Employer bears the burden of producing evidence that a Promotion has occurred as defined in subsection (A)(5).

F. The ASRS shall use any evidence the Employer submits to the ASRS pursuant to subsection (D) to determine whether a Promotion occurred.

G. If the Employer does not respond to the Request for Documentation within 90 days of the date on the Request for Documentation, the ASRS shall determine that the increase in the member's salary was not the result of a Promotion.

H. If the ASRS determines that the increase in the member's salary was not the result of a Promotion pursuant to subsections (F) or (G), the ASRS shall calculate the unfunded liability amount pursuant to subsection (I).

I. In consultation with the ASRS actuary, the ASRS shall use the calculation under subsection (B) to calculate the unfunded liability resulting from the implementation of the Employer's Termination Incentive Program.

J. Upon calculating an unfunded liability amount pursuant to subsection (I), the ASRS shall send a Termination Incentive Program Liability Invoice to the Employer through the Employer's secure ASRS account, in order to notify the Employer of the unfunded liability amount the Employer shall owe to the ASRS as a result of implementing the Termination Incentive Program identified under subsection (B).

K. An Employer that owes an unfunded liability amount to the ASRS pursuant to A.R.S. § 38-749, shall remit full payment of the unfunded liability amount by the due date specified in the Termination Incentive Program Liability Invoice.

L. Pursuant to A.R.S. § 38-735(C), if the ASRS does not receive full payment from the Employer of the unfunded liability amount by the due date specified in the Termination Incentive Program Liability Invoice, the unpaid portion of the unfunded liability amount shall accrue interest at the assumed actuarial investment earnings rate listed in R2-8-118(A).

M. The ASRS may collect any unfunded liability amount pursuant to A.R.S. §§ 38-723 and 38-735(C).

E. The ASRS shall compare the Other Retirement Plan's Cost to the ASRS Actuarial Present Value calculated pursuant to subsection (C) and:
1. If the Other Retirement Plan's Cost is less than the ASRS Actuarial Present Value, then the member may elect to transfer service credit to the ASRS and:
   a. Pay the difference between the Other Retirement Plan's Cost and the ASRS Actuarial Present Value; or
   b. Accept a proportionately reduced amount of service credit;
2. If the Other Retirement Plan's Cost is greater than or equal to the ASRS Actuarial Present Value, then the member may elect to transfer the service to the ASRS pursuant to subsection (F).

H. Upon receipt of the member's election to complete a transfer of service credit, the ASRS shall send the transfer in invoice to the Other Retirement Plan and the Other Retirement Plan shall make payment to the ASRS by submitting a check made payable to the ASRS for the Other Retirement Plan's Cost specified on the transfer in invoice by the payment due date specified on the transfer in invoice.

I. If a member elects to pay the total difference between the ASRS Actuarial Present Value and the Other Retirement Plan's Cost pursuant to R2-8-1102(E), the member shall elect the method of payment by the payment due date specified on the transfer in invoice.

J. A member may elect to pay the total difference between the ASRS Actuarial Present Value and the Other Retirement Plan's Cost pursuant to R2-8-1102(E) by any one or more methods specified in R2-8-512, R2-8-513, R2-8-514, or R2-8-519.

K. For a member who elects to accept a proportionately reduced amount of service pursuant to subsection (E)(1)(b), the ASRS shall calculate the proportionately reduced amount of service credit based on the member's service credits in the Other Retirement Plan multiplied by the ratio of the Other Retirement Plan's Cost to the ASRS Actuarial Present Value.

L. The member shall submit payment to transfer service credit pursuant to this Section by the payment due date specified on the transfer in invoice.

M. If the member does not submit payment for the total difference in the calculations pursuant to R2-8-1102(E) by the payment due date specified on the transfer in invoice, the member may be eligible to purchase the remaining service credit as Other Public Service, and the member is not eligible to purchase the remaining service credit based on the cost specified in the transfer in invoice.

Preface

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

Rules

The definition for a rule is provided for under A.R.S. § 41-1001. "'*Rule' means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.*"

The *Arizona Administrative Code*

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then a Section number with a heading. The "R" at the beginning of the Section number stands for "rule." The rule itself includes sequential letters and numbers in an outline. Each lettered or numbered Section is called a subsection of the rule.

Rules are codified quarterly in the *Code*. For example:

Rules codified in the first quarter are filed between January 1 through March 31.

Rules codified in the second quarter are filed between April 1 through June 30.

Rules codified in the third quarter are filed between July 1 through September 30.

Rules codified in the fourth quarter are filed between October 1 through December 31.

Supplement release dates are included in the footers of each Chapter. The first supplement for the first quarter of 2026 is cited as Supp. 26-1. Supplements are released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. The Office links to these codified Sections in the Table of Contents of this Chapter.

How to Use the *Code*

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Register* for recent updates to rule Sections.

Authentication of PDF *Code* Chapters

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document's content has been compromised.

Rule History

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Arizona Administrative Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

Arizona Revised Statutes References

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature's website, www.azleg.gov. An agency's authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

Session Law References

Arizona Session Law references in a Chapter can be found at the Secretary of State's website, www.azsos.gov under Services-> Legislative Filings.

Exemptions to the APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency's exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor's notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

Personal and Commercial Use of the Chapter

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

TITLE 2. ADMINISTRATION

CHAPTER 20. CITIZENS CLEAN ELECTIONS COMMISSION

Authority: A.R.S. § 16-956(A)(7)

Supp. 26-3

Editor's Note: The Office of the Secretary of State, Administrative Rules Division, complied with its legal obligation to publish the Notice of Rule Expiration filed for Sections R2-20-109 and R2-20-111 under A.R.S. § 41-1011(C) and 41-1056(G) and (J)(2) in Supp. 17-2, version 2. As a courtesy to the Commission, the Office also published R2-20-109 and R2-20-111 as adopted and made by the Commission because it stated the Governor's Regulatory Review Council did not have the authority to file such a notice. On December 14, 2017, the Commission "re-adopted" rules in the disputed Sections of R2-20-109 and R2-20-111; therefore, our Division has removed the expired rule Sections as published in Supp. 17-2, version 2. The Office will not interpret the legality of any actions made by the Commission or the Council as to whether the rules in R2-20-109 and R2-20-111 were effective at 23 A.A.R. 1761 or expired at 23 A.A.R. 1757 between the dates of June 7, and December 14, 2017. Those interested in that issue should consult counsel.

Editor's Note: The Citizen's Clean Elections Commission has filed a Notice of Public Information with the Office of the Secretary of State (Office) stating the Governor's Regulatory Review Council (G.R.R.C.) "cannot effectively repeal the rules" in this Chapter. The Notice also states, "persons subject to the Act and Rules are advised that it is the Commission's position [sic] that an action of G.R.R.C…. cannot relieve them of their obligations under the Act and Rules." [published at 23 A.A.R. 1761] The Office has received a Notice of Rule Expiration from the G.R.R.C. stating R2-20-109 and R2-20-111 have automatically expired [published at 23 A.A.R. 1757]. Under A.R.S. § 41-1056(G), our Office publishes filed G.R.R.C. notices and has included the rule expiration in this Chapter. Since the Office is merely the publisher, it has not, nor will it interpret the legality of the G.R.R.C. authority to "effectively repeal rules."

Editor's Note: The Office of the Secretary of State publishes all Code Chapters on white paper (Supp. 02-1).

Editor's Note: This Chapter contains rules that were adopted under an exemption from the rulemaking provisions of the Arizona Administrative Procedure Act (A.R.S. Title 41, Chapter 6) pursuant to A.R.S. § 16-956(D). Exemption from A.R.S. Title 41, Chapter 6 means that these rules were not certified by the Attorney General or the Governor's Regulatory Review Council. Because this Chapter contains rules that are exempt from the regular rulemaking process, the Chapter is printed on blue paper. The rules affected by this exemption appear throughout this Chapter.

R2-20-104. Certification as a Participating Candidate

A. A nonparticipating candidate who accepts contributions up to the limits authorized by A.R.S. § 16-941(B), but later chooses to run as a participating candidate, shall:

6. Return all contributions received from another candidate's candidate committee.

B. Money from prior election. If a nonparticipating candidate has a cash balance remaining in the campaign account from the prior election cycle, the candidate may seek certification as a participating candidate in the current election after:

1. Transferring money from the prior campaign account to the candidate's current election campaign account. The amount transferred shall not exceed the permitted personal monies, early contributions, and debt-retirement contributions, as defined in A.R.S. § 16-945(C), and shall contain contributions received from individuals only;
2. Spending the money lawfully prior to April 30 of an election year in a way that does not constitute a direct campaign purpose and does not meet the definition of "expenditure" under A.R.S. § 16-901(24); and the event or item purchased is completed or otherwise used and depleted prior to April 30 of an election year;
3. Remitting the money to the Fund; or

4. Holding the money in the prior election campaign account, not to be used during the current election, except as provided pursuant to this Section.

C. Application for certification as a participating candidate. Pursuant to A.R.S. § 16-947, a candidate seeking certification shall file with the Secretary of State a Commission-approved application and a campaign finance report reflecting all campaign activity to date. In the application, a candidate shall certify under oath that the candidate:

The candidate shall also provide any material required in connection with an audit, investigation, or examination conducted by the Commission. The candidate shall facilitate the audit by making available in one central location, such as the Commission's office space, records and such personnel as are necessary to conduct the audit or examination, and shall pay any amounts required to be repaid;
8. Will submit the name and mailing address of the person who is entitled to receive primary and general election funding on behalf of the candidate and the name and address of the campaign depository designated by the candidate. Changes in the information required by this subsection shall not be effective until submitted to the Commission in a letter signed or submitted electronically, by the candidate or the committee treasurer;
9. Will pay any civil penalties included in a conciliation agreement or otherwise imposed against the candidate;

3. Make expenditures of personal monies of no more than the amounts prescribed in A.R.S. § 16-941(A)(2) for legislative candidates and for statewide office candidates;
4. Conduct all campaign activity through a single campaign account. The campaign account shall not be used for any non-direct campaign purpose as provided in Article 7 of these rules;
5. Attend a Commission sponsored candidate training class within 60 days of being certified or within 60 days of the beginning of the qualifying period if the candidate is certified before the beginning of the qualifying period. Upon approval for funding by the Secretary of State, a candidate may incur debt, or make expenditures, not to exceed the sum of the cash on hand and the applicable spending limit.

E. Loans. A participating candidate may accept an individual contribution as a loan or may loan his or her campaign committee personal monies during the exploratory and qualifying periods only. The total sum of the contribution received or personal funds and loans shall not exceed the expenditure limits set forth in A.R.S. § 16-941(A)(1) and (2). If the loan is to be repaid, the loans shall be repaid promptly upon receipt of Clean Elections funds if the participating candidate qualifies for Clean Elections funding. Loans from a financial institution or bank, to a candidate used for the purpose of influencing that candidate's election shall be considered personal monies and shall not exceed the personal monies expenditure limits set forth in A.R.S. § 16-941(A)(2).

R2-20-105. Certification for Funding

A. After a candidate is certified as a participating candidate, pursuant to A.R.S. § 16-947, in accordance with the procedure set forth in R2-20-104, that candidate may collect qualifying contributions only during the qualifying period.

B. A participating candidate must submit to the Secretary of State, a list of names of persons who made qualifying contributions, an application for funding prescribed by the Secretary of State, the minimum number of original reporting slips, and an amount equal to the sum of the qualifying contributions collected pursuant to A.R.S. § 16-950 no later than one week after the end of the qualifying period. Any and all expenses associated with obtaining the qualifying contributions, including credit card processing fees must be paid for from the candidate's early contributions or personal monies. A candidate may develop his or her own three-part reporting slip for qualifying contributions, or one that is photocopied or computer reproduced, if the form substantially complies with the form prescribed by the Commission. The candidate must comply with the Act and ensure that the original qualifying slip is tendered to the Secretary of State, a copy remains with the candidate, and that a copy is given to the contributor.

C. A candidate may accept electronic $5 qualifying contributions for the elected office sought by the candidate. The Secretary of State's secured internet portal must be used to collect electronic $5 qualifying. A $5 contribution must accompany every $5 qualifying contribution form and must be submitted via the Secretary of State's portal using a private electronic payment service, specified by the Secretary of State's Office, bank account, credit or debit card. A non-refundable transaction fee may be assessed on electronic $5 qualifying contribution transactions. The transaction fee is not a contribution to the candidate's campaign and is paid by the contributor. If excess funds are accumulated by the candidate's campaign based on the transaction fee then all excess funds must be given to the Commission and must be entered into the candidate's campaign finance report in a manner that indicates the transaction fees have been accumulated and transferred.

D. A solicitor who seeks signatures and qualifying contributions on behalf of a participating candidate shall provide his or her residential address, typed or printed name and signature on each reporting slip. The solicitor shall also sign a sworn statement on the contribution slip avowing that the contributor signed the slip, that the contributor contributed the $5, that based on information and belief, the contributor's name and address are correctly stated and that each contributor is a qualified elector of this state. If a contribution is received unsolicited, the candidate or contributor may sign the qualifying contribution form as the solicitor and is accountable for all of the responsibilities of a solicitor. Nothing in this rule shall prohibit the use of direct mail or the internet to obtain qualifying contributions as long as an original signature is provided on the qualifying contribution form. The candidate may sign the qualifying contribution form as the solicitor and is accountable for all of the responsibilities of a solicitor. For qualifying contributions received in accordance with subsection (C) of this Section, the residential address and signature of the solicitor is not required.

E. The Secretary of State has the authority to approve or deny a candidate for Clean Elections funding, pursuant to A.R.S. § 16-950(C) based upon the verification of the qualifying contribution forms by the appropriate county recorder. The county recorder shall disqualify any qualifying contribution forms that are:

1. Unsigned by the contributor;
2. Undated; or
3. That the recorder is unable to verify as matching signature of a person who is registered to vote, on the date specified inside the electoral district the candidate is seeking.

F. The Secretary of State will notify the candidate and the Commission regarding the approval or denial of Clean Elections funds. A candidate who is denied Clean Elections funding after all of the slips are verified is eligible to submit supplemental qualifying contribution forms for one additional opportunity to be approved for funding pursuant to subsection (G) of this rule.

G. The amount equal to the sum of the qualifying contributions collected and tendered to the Secretary of State pursuant to A.R.S. § 16-950(B) will be deposited into the fund, and the amount tendered will not be returned to a candidate if a candidate is denied Clean Elections funding.

H. In accordance with the procedure set forth at A.R.S. § 16-950(C), if the Secretary of State determines that the result of the five percent random sample is less than 110 percent of the slips needed to qualify for funding, then the Secretary of State shall send all of the slips for verification. If the county recorder has verified all of the candidate's signature slips and there is an insufficient number of valid qualifying contribution slips to qualify the candidate for funding, the candidate may make only one supplemental filing of additional qualifying contribution slips and qualifying contributions to the Secretary of State if all of the following apply:

1. The candidate files at least the minimum number of additional slips needed to qualify for funding;
2. The slips are not receipts for duplicate contributions from individuals who have previously contributed to that candidate; and
3. The period for filing qualifying contributions slips has not expired.

I. The Secretary of State shall forward facsimiles of all of the supplemental qualifying contribution slips to the appropriate county recorders for the county of the contributors' addresses as shown on the contribution slips. The county recorder shall verify all of the supplemental slips within 10 business days after receipt of the facsimiles and shall provide a report to the Secretary of State identifying as disqualified any slips that are unsigned by the contributor or undated or that the recorder is unable to verify as matching the signature of a person who is registered to vote, on the date specified on the slip, inside the electoral district of the office the candidate is seeking. On receipt of the report of the county recorder on all supplemental slips, the Secretary of State shall calculate the candidate's total number of valid qualifying contribution slips and shall approve or deny the candidate for funds.

R2-20-106. Distribution of Funds to Certified Candidates

A. The Commission staff shall not authorize any disbursements to a participating candidate's campaign account until that candidate submits a sworn, notarized statement stating that under penalty of perjury:
1. All campaign finance reports have been filed.
2. All campaign finance reports are complete and accurate including all reporting requirements related to vendors and subcontractors.
3. All conditions related to the use consultants have been met.
4. Stipulating that, once funding is authorized, the Commission may make a rebuttable presumption pursuant to R2-20-706 that a candidate has not used funds for direct campaign expenses within five days after the failure file a campaign finance report.

B. Before the initial disbursement of funds, the Commission shall review the candidate's funding application and all relevant facts and circumstances and:
1. Verify that the number of signatures on the candidate's nominating petitions equals or exceeds the number required pursuant to A.R.S. § 16-322 as follows:
   a. If the application is submitted before the March 1 voter registration list is determined, the Commission shall verify that the number of signatures on the candidate's nominating petitions equals or exceeds 115 percent of the number required pursuant to A.R.S. § 16-322 based on the prior election voter registration list as determined by the Secretary of State; or
   b. If the application is submitted after the current year March 1 voter registration list is determined, the Commission shall verify that the number of signatures on the candidate's nominating petitions is equal to or greater than the number required pursuant to A.R.S. § 16-322.
2. Determine that the required number of qualifying contributions have been received and paid to the Secretary of State for deposit in the Fund; and
3. Determine whether the candidate is opposed in the election.

C. In making the determinations described in subsection (B)(3), the Commission shall consider all relevant facts and circumstances, and it shall not be bound by election formalities such as the filing of nominating petitions by others in determining whether an applicant is opposed. Among other evidence the Commission may consider is the existence of exploratory committees or filings made to organize campaign committees of opponents and other like indicia.

D. The Commission may review and affirm or change its determination that the candidate is or is not opposed until the ballot for the election is established.

E. Within seven days after a primary election and before the Secretary of State completes the canvass, the Commission shall disburse funds for general election campaigns to the participating candidates who received the greatest number of votes at each primary election, provided that the candidate with the highest number of votes out of the total number of votes, has at least two percentage points greater than the candidate with the next highest votes based on the unofficial results as of that date. In a legislative race for the Arizona House of Representatives, the Commission shall disburse funds for general election campaigns to participating candidates with the highest or second highest number of votes cast, provided such candidate received votes totaling at least two percentage points, of the total ballots cast, larger than the vote total cast for the candidate with the third highest vote total.

F. Promptly after the Secretary of State completes the canvass, the Commission shall disburse funds for general election campaigns to all eligible participating candidates to whom payment has not been made. If a participating candidate has received funds from the Commission pursuant to subsection (E) and the canvass or recount determines that the candidate is not eligible to appear on the general election ballot, the participating candidate shall return all unused funds to the Fund within 10 days after such determination is made. That candidate shall make no expenditures from general election funds from the date of the canvass.

G. The Commission may refuse to distribute funds to participating candidates in cases in which the Commission finds evidence of fraud or illegal activity committed by the participating candidate.

H. Pursuant to A.R.S. § 16-953, a participating candidate shall return to the Fund:
1. All primary election funds not committed to expenditures (1) during the primary election period; and (2) for goods or services directed to the primary election. A candidate shall not be deemed to have violated A.R.S. § 16-953(A) or this subsection on account of failure to use all materials purchased with primary election funds prior to the primary election, provided such candidate exercises good faith and diligent efforts to comply with the requirement that goods and services purchased with primary election funds be directed to the primary election. Subject to A.R.S. § 16-953(A) and this subsection, a candidate may continue to use goods purchased with primary election funds during the general election period.
2. All general funds not committed to expenditures (1) during the general election period; and (2) for goods or services directed to the general election.

I. All funds returned to the Commission pursuant to subsection (H) of this Section, shall be returned to the Fund by a cashier's check drawn on the candidate's campaign bank account. Any fee associated with the issuance of a cashier's check shall be deemed a direct campaign expenditure and reported on the candidate's campaign finance report.

If a participating candidate does not account for any outstanding expenditures in the amount of the funds returned to the Commission, the participating candidate must reconcile the outstanding expenditures with personal monies. Once funds have been returned to the Commission, no further reimbursements from the Clean Elections Fund shall be permitted. Participating candidates may not exceed the primary or general election spending limits.

K. Commission staff may waive the return of funds if:
1. The Commission staff determines the amount to be returned is de minimus;

3. The funds to be returned shall not exceed $25; and
4. The Commission is notified of any waiver of the return of funds.

R2-20-107. Candidate Debates

A. The Commission shall sponsor debates among statewide and legislative office candidates prior to the primary and general elections. Except as set forth in the subsection below, the Commission shall not be required to sponsor a debate if there is no participating candidate in the election for a particular office.

B. In the primary election period, the Commission shall sponsor political party primary election debates for every office in which:
1. There are more candidates appearing on the ballot than there are seats available for the political party's nomination for general election candidates, and
2. At least one of the candidates is a participating candidate.

C. The following candidates will not be invited to participate in debates as follows:
1. In the primary election, write-in candidates for the primary election, independent candidates, no party affiliation or unrecognized party candidates.
2. In the general election, write-in candidates.

D. In the event that there is no participating candidate in a primary or general election but there is an election involving candidates who are not unopposed, a candidate may request that the Commission sponsor a debate pursuant to this rule. If the requesting candidate is the sole participant in the debate the format shall be as prescribed in R2-20-107(K).
1. A nonparticipating candidate who requests a debate pursuant to this rule shall complete and return the invitation form sent to the candidate by the Commission by the deadline identified on the form. Forms received by the Commission past the deadline may still be considered at the discretion of the Commission. Commission staff shall notify all invited candidates if a debate will be sponsored by the Commission and which candidates will participate.
2. If a candidate requests that the Commission sponsor a debate and fails or refuses to attend the debate, or a candidate agrees to participate in a debate and subsequently fails or refuses to attend the debate sponsored by the Commission, each candidate who fails or refuses to attend the debate shall reimburse the Commission for the cost of debate preparations not to exceed $10,000 for a non-participating candidate for the legislature and $25,000 for a non-participating candidate for statewide office. In the event that a candidate requests a general election debate or agrees to participate in a general election debate but does not advance to the general election, the candidate shall not be liable for the reimbursement.

E. Pursuant to A.R.S. § 16-956(A)(2), all participating candidates certified pursuant to A.R.S. § 16-947 shall attend and participate in the debates sponsored by the Commission. No proxies or representatives are permitted to participate for any candidate and no statements may be read on behalf of an absent candidate.

F. Unless exempted, if a participating candidate fails to participate in any Commission-sponsored debate, the participating candidate shall be fined $500.00. For purposes of this Section, each primary or general election shall be considered a separate election.

G. A participating candidate may request to be exempt from participating in a required debate by doing the following:
1. Submit a written request to the Commission at least one week prior to the scheduled debate, and
2. State the reasons and circumstances justifying the request for exemption.

H. After examining the request to be exempt, the Commission will exempt a candidate from participating in a debate if at least three Commissioners determine that the circumstances are:
1. Beyond the control of the candidate; or
2. Of such nature that a reasonable person would find the failure to attend justifiable or excusable.

I. A participating candidate who fails to participate in a required debate may submit a request for excused absence to the Commission.
1. The candidate's request for excused absence shall:

R2-20-108. Termination of Participating Candidate Status

A. A candidate may voluntarily request termination of his or her participating candidate status at any time prior to notification by the Commission that such candidate has qualified for Clean Elections funding. To withdraw from participating candidate status, a candidate shall send a letter to the Commission stating the candidate's intent to withdraw and the reason for the withdrawal. The candidate shall not accept any private monies until the withdrawal is approved by the Commission. The Commission shall act on the withdrawal request within seven days. If the Commission takes no action within the seven-day time period, the withdrawal is automatic.

B. A candidate's participating candidate status shall automatically terminate if:
1. The candidate fails to make such submissions to the Secretary of State as prescribed in R2-20-105(B) within seven days after the end of the qualifying period, or
2. The candidate is denied Clean Elections funding by the Secretary of State and the candidate is ineligible to make a supplemental filing with the Secretary of State in accordance with R2-20-105(G).

C. A candidate whose participating candidate status has been terminated in accordance with this Section shall be ineligible to receive Clean Elections funding for that election cycle unless he/she reapplies for certification and is in compliance with R2-20-104(A) and (C).

D. In the event that a candidate who has collected qualifying contributions decides not to seek certification as a participating candidate, the candidate shall return all qualifying contributions received from contributors who have not given written permission to use their qualify contributions as campaign contributions. Written permission may include a check box on the original $5 form that authorizes a candidate to treat the qualifying contribution as a general campaign contribution if he or she decides not to participate in the Clean Elections system. If a good faith attempt to return the funds to the contributor is unsuccessful, the contributions shall be submitted to the Fund.

R2-20-109. Independent Expenditure Reporting Requirements

A. In accordance with A.R.S. § 16-958(E), all persons obligated to file any campaign finance report under any provisions of Chapter 6, Article 2 of the Arizona Revised Statutes shall file such reports using the Secretary of State's Internet-based finance-reporting system, except if:
1. Expressly provided otherwise by another Commission rule; or
2. That system, or the necessary function on the system, is unavailable, in which case the Executive Director shall implement a suitable process.

B. Independent Expenditure Reporting Requirements.
1. Any person making independent expenditures cumulatively exceeding the amount prescribed in A.R.S. § 16-941(D) in an election cycle shall file campaign finance reports in accordance with A.R.S. § 16-958 and Commission rules.
2. Any person who fails to file a timely campaign finance report pursuant to A.R.S. § 16-941(D), A.R.S. § 16-958, shall be subject to a civil penalty as prescribed in A.R.S. § 16-942(B). Subsection R2-20-109(B)(4) does not apply to reports pursuant to A.R.S. §§ 16-941(D) and 16-958 or this subsection. Any expenditure advocating against one or more candidates shall be considered an expenditure on behalf of any opposing candidate or candidates. Penalties shall be assessed as follows:
   a. For an election involving a candidate for statewide office, the civil penalty shall be $300 per day.
   b. For an election involving a legislative candidate, the civil penalty shall be $100 per day.
   c. The penalties in (a) and (b) shall be doubled if the amount not reported for a particular election cycle exceeds ten (10%) percent of the applicable adjusted primary election spending limit or adjusted general election spending limit.
   d. The dollar amounts in items (a) and (b), and the spending limits in item (c) are subject to adjustment of A.R.S. § 16-959.
   e. Penalties imposed pursuant to this subsection shall not exceed twice the amount of expenditures not reported.
3. A.R.S. § 16-942(B) applies to any entity including political committees that accepts contributions or makes expenditures on behalf of any candidate regardless of any other contributions taken or expenditures made and fails to timely file a campaign finance report under Chapter 6 of Title 16, Arizona Revised Statutes. Any expenditure advocating against one or more candidates shall be considered an expenditure on behalf of any opposing candidate or candidates. Penalties shall be assessed as follows:
   a. For an election involving a candidate for statewide office, the civil penalty shall be $300 per day.
   b. For an election involving a legislative candidate, the civil penalty shall be $100 per day.
   c. The penalties in (a) and (b) shall be doubled if the amount not reported for a particular election cycle exceeds ten (10%) percent of the applicable adjusted primary election spending limit or adjusted general election spending limit.
   d. The dollar amounts in items (a) and (b), and the spending limits in item (c) are subject to adjustment of A.R.S. § 16-959.
   e. Penalties imposed pursuant to this subsection shall not exceed twice the amount of expenditures not reported.
4. For purposes of A.A.C. R2-20-109(B)(3):
   a. Subject to A.R.S. § 16-901(43) and notwithstanding any rule to the contrary of that section, an entity

shall not be found to have the predominant purpose of influencing elections unless, a preponderance of the evidence establishes that during a two-year legislative election cycle, the total reportable contributions made by the entity, in any combination, in a calendar year exceeds $1,000 and is more than fifty percent (50%) of the entity's total spending during the election cycle.

i. For purposes of this provision, a "reportable contribution" or "reportable expenditure" shall be limited to a contribution or expenditure, as defined in title 16 of the Arizona revised statutes, that must be reported to the Arizona secretary of state, the Arizona citizens clean elections commission, or local filing officer in Arizona. A contribution or expenditure that must be reported to the federal election commission or to the election authority of any other state, but not to the Arizona secretary of state, the Arizona citizens clean elections commission or a local filing officer in Arizona, shall not be considered a reportable contribution or reportable expenditure.

ii. For purposes of this provision, "total spending" shall not include volunteer time or fundraising and administrative expenses but shall include all other spending by the organization.

iii. For purposes of this provision, grants to other organizations shall be treated as follows:
   (1) A grant made to a political committee or an organization organized under section 527 of the internal revenue code shall be counted in total spending and as a reportable contribution or reportable expenditure, unless expressly designated for use outside Arizona or for federal elections, in which case such spending shall be counted in total spending but not as a reportable contribution or reportable expenditure.
   (2) If the entity making a grant takes reasonable steps to ensure that the transferee does not use such funds to make a reportable contribution or reportable expenditure, such a grant shall be counted in total spending but not as a reportable contribution or reportable expenditure.

iv. If the entity making a grant earmarks the grant for reportable contributions or reportable expenditures, knows the grant will be used to make reportable contributions or reportable expenditures, knows that a recipient will likely use a portion of the grant to make reportable contributions or reportable expenditures, or responds to a solicitation for reportable contributions or reportable expenditures, the grant shall be counted in total spending and the relevant portion of the grant as set forth in subsection (v) of this Section shall count as a reportable contribution or reportable expenditure.

v. Notwithstanding subsections (iii) and (iv) the amount of a grant counted as a reportable contribution or reportable expenditure shall be limited to the lesser of the grant or the following:
   (1) The amount that the recipient organization spends on reportable contributions and reportable expenditures, plus
   (2) The amount that the recipient organization gives to third parties but not more than the amount that such third parties fund reportable contributions or reportable expenditures.

b. Notwithstanding subsection (4)(a) above, the commission may nonetheless determine that an entity is not a political committee if, taking into account all the facts and circumstances of grants made by an entity, it is not persuaded that the preponderance of the evidence establishes that the entity is a political committee as defined in title 16 of Arizona Revised Statutes.

R2-20-110. Participating Candidate Reporting Requirements

A. All participating candidates shall file campaign finance reports that include all receipts and disbursements for their current campaign account as follows:

1. Expenditures for consulting, advising, or other such services to a candidate shall include a detailed description of what is included in the service, including an allocation of

services to a particular election. When appropriate, the Commission may treat such expenditures as though made during the general election period.

2. If a participating candidate makes an expenditure on behalf of the campaign using personal funds, the candidate's campaign shall reimburse the candidate within seven calendar days of the expenditure. After the 7 day period has passed, the expenditure shall be deemed an in-kind contribution subject to all applicable limits.
3. A candidate may authorize an agent to purchase goods or services on behalf of such candidate, provided that:
   a. Expenditures shall be reported as of the date that the agent promises, agrees, contracts or otherwise incurs an obligation to pay for the goods or services;
   b. The candidate shall have sufficient funds in the candidate's campaign account to pay for the amount of such expenditure at the time it is made and all other outstanding obligations of the candidate's campaign committee; and
   c. Within seven calendar days of the date upon which the amount of the expenditure is known, the candidate shall pay such amount from the candidate's campaign account to the agent who purchases the goods or services.
4. A joint expenditure is made when two or more candidates agree to share the cost of goods or services. Candidates may make a joint expenditure on behalf of one or more other campaigns, but must be authorized in advance by the other candidates involved in the expenditure, and must be reimbursed within seven days. Participating candidates may participate in joint expenditures for the cost of goods and services with one or more candidates, subject to the following:
   a. Joint expenditures must be allocated fairly among candidates. An allocated share of a joint expenditure paid by one candidate pursuant to such an agreement must be reimbursed within seven days.
   b. Any violator of part (a) shall be liable for a penalty pursuant to R2-20-222, in addition to penalties prescribed by any other law.
   c. If a fairly allocated share of any joint expenditure is not reimbursed to a candidate, the unreimbursed amount of the joint expenditure fairly allocated to that candidate shall be deemed a contribution to that candidate by the campaign committee of the candidate obligated to reimburse the share.
   d. If a fairly allocated share of any joint expenditure is not reimbursed to a participating candidate, the candidate obligated to reimburse the share shall reimburse the fund for the unreimbursed amount of the joint expenditure fairly allocated to the obligated candidate, in addition to any penalty specified by law.
   e. A candidate's payment for an advertisement, literature, material, campaign event or other activity shall be considered a joint expenditure including, but not limited to, the following criteria:
      i. The activity includes express advocacy of the election or defeat of more than 2 candidates;
      ii. The purpose of the material or activity is to promote or facilitate the election of a second candidate;
      iii. The use and prominence of a second candidate or his or her name or likeness in the material or activity;
      iv. The material or activity includes an expression by a second candidate of his or her view on issues brought up during the election campaign;
      v. The timing of the material or activity in relation to the election of a second candidate;
      vi. The distribution of the material or the activity is targeted to a second candidate's electorate; or
      vii. The amount of control a second candidate has over the material or activity.
   5. For the purposes of the Act and Commission rules, a candidate or campaign shall be deemed to have made an expenditure as of the date upon which the candidate or campaign promises, agrees, contracts or otherwise incurs an obligation to pay for goods or services.

B. Timing of reporting expenditures.

1. Except as set forth in subsection (A)(2) above, a participating candidate shall report a contract, promise or agreement to make an expenditure resulting in an extension of credit as an expenditure, in an amount equal to the full future payment obligation, as of the date the contract, promise or agreement is made.
2. In the alternative to reporting in accordance with subsection (A)(1) above, a participating candidate may report a contract, promise or agreement to make an expenditure resulting in an extension of credit as follows:
   a. For a month-to-month or other such periodic contract or agreement that is terminable by a candidate at will and without any termination penalty or payment, the candidate may report an expenditure, in an amount equal to each future periodic payment, as of the date upon which the candidate's right to terminate the contract or agreement and avoid such future periodic payment elapses.
   b. For a contract, promise or agreement to provide goods or services during the general election period that is contingent upon a candidate advancing to the general election period, the candidate may report an expenditure, in an amount equal to the general election period payment obligation, as of the date upon which such contingency is satisfied.
   c. For a contract, promise or agreement to pay rent, utility charges or salaries payable to individuals employed by a candidate's campaign committee as staff, the candidate may report an expenditure, in an amount equal to each periodic payment, as of the date that is the sooner of (i) the date upon which payment is made; or (ii) the date upon which payment is due.

C. Reports and Refunds of Excess Monies by Participating Candidates.

1. In addition to any campaign finance report required by Chapter 6 of Title 16, Arizona Revised Statutes, participating candidates shall file the following campaign finance reports and dispose of excess monies as follows:
   a. Prior to filing the application for funding pursuant to A.R.S. § 16-950, participating candidates shall file a campaign finance report with the names of the persons who have made qualifying contributions to the candidate.
   b. At the end of the qualifying period, a participating candidate shall file a campaign finance report con-

sisting of all early contributions received, including personal monies and the expenditures of such monies.

i. The campaign finance report shall be filed with the Secretary of State no later than five days after the last day of the qualifying period and shall include all campaign activity through the last day of the qualifying period.

ii. If the campaign finance report shows any amount of unspent monies, the participating candidate, within five days after filing the campaign finance report, shall remit all unspent contributions to the Fund, pursuant to A.R.S. § 16-945(B). Any unspent personal monies shall be returned to the candidate or the candidates' family member within five days.

2. Each participating candidate shall file a campaign finance report consisting of all expenditures made in connection with an election, all contributions received in the election cycle in which such election occurs, and all payments made to the Clean Elections Fund. If the campaign finance report shows any amount unspent, the participating candidate, within five days after filing the campaign finance report, shall send a check from the candidate's campaign account to the Commission in the amount of all unspent monies to be deposited in the Fund.

Such detail is also required when petty cash funds are used for such expenditures.

If the Commission determines that any portion of the payments made to the candidate was in excess of the aggregate payments to which such candidate was entitled, it will so notify the candidate, and such candidate shall pay to the Fund an amount equal to such portion.
2. Use of funds not for direct campaign expenses. If the Commission determines that any amount of any payment to an eligible candidate from the Fund was used for purposes other than direct campaign purposes described in R2-20-702, it will notify the candidate of the amount so used, and such candidate shall pay to the Fund an amount equal to such amount.

6. Unlawful acceptance of contributions by an eligible candidate. If the Commission determines that a participating candidate accepted contributions, other than early contributions or qualifying contributions, it shall notify the candidate of the amount of contributions so accepted, and the candidate shall pay to the Fund an amount equal to such amount, plus any civil penalties assessed.

2. If the candidate requests an administrative appeal of the Commission's repayment determination of this Section, the time for repayment will be suspended until the Commission has concluded its review of the Administrative Law Judge's (ALJ) decision. Within 30 days after service of the notice of the Commission's review of the ALJ's decision, the candidate shall repay the amounts that the Commission has determined to be repayable. Upon application by the candidate, the Commission may grant an extension of up to 30 days in which to make repayment.

Preface

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

Rules

The definition for a rule is provided for under A.R.S. § 41-1001. "'*Rule' means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.*"

The *Arizona Administrative Code*

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then a Section number with a heading. The "R" at the beginning of the Section number stands for "rule." The rule itself includes sequential letters and numbers in an outline. Each lettered or numbered Section is called a subsection of the rule.

Rules are codified quarterly in the *Code*. For example:

Rules codified in the first quarter are filed between January 1 through March 31.

Rules codified in the second quarter are filed between April 1 through June 30.

Rules codified in the third quarter are filed between July 1 through September 30.

Rules codified in the fourth quarter are filed between October 1 through December 31.

Supplement release dates are included in the footers of each Chapter. The first supplement for the first quarter of 2026 is cited as Supp. 26-1. Supplements are released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. The Office links to these codified Sections in the Table of Contents of this Chapter.

How to Use the *Code*

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Register* for recent updates to rule Sections.

Authentication of PDF *Code* Chapters

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document's content has been compromised.

Rule History

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Arizona Administrative Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

Arizona Revised Statutes References

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature's website, www.azleg.gov. An agency's authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

Session Law References

Arizona Session Law references in a Chapter can be found at the Secretary of State's website, www.azsos.gov under Services-> Legislative Filings.

Exemptions to the APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency's exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor's notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

Personal and Commercial Use of the Chapter

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

1. Cattle.
a. A metal knocking box or concrete box with metal door to confine the animals prior to stunning;
b. A separately drained, dry landing area at least five feet wide in front of the knocking box;

c. A curbed-in bleeding area at least eight feet wide and seven feet long, located so that blood will not splash upon stunned animals lying in the dry landing area or upon carcasses being skinned on the siding bed. Curbing shall be at least six inches high and six inches wide;
d. A separately drained area at least five feet from the curbed-in bleeding area to the siding bed;
e. A distance of at least 14 feet from the vertical of the dropoff to the vertical of the hoist where carcasses are eviscerated. For multiple-bed plants, this distance shall be increased to 16 feet;
f. A distance of at least 14 feet between the vertical of the hoist where carcasses are eviscerated and the header rail leading to the cooler. This distance may be shortened when a single rail hang-off is used;
g. A distance of at least three feet from the header rail to the adjacent wall;
h. A bleeding rail with its top at least 16 feet above the floor or a traveling hoist on an I-beam which will provide an equivalent distance of the carcass from the floor;
i. Floor space for a head-flushing cabinet and head inspection rack with removable hooks;
j. When hides are dropped to a room below, a hide chute near the point where hides are removed from the carcasses. The chute shall have a vented hood with a self-closing, push-in door. The vent shall be approximately 10 inches in diameter and extend to a point above the roof. Additional chutes, which meet the requirements of this subsection, for inedible and condemned materials shall be provided separate from the hide chutes;
k. A two-level viscera inspection truck for evisceration, except when a moving top viscera inspection table is used;
l. An area for washing and shrouding carcasses which shall be curbed and sloped to a separate drain or have a slope of approximately 1/2 inch to the foot leading to a separate drain;
m. Dressing rails and cooler rails at least 11 feet in height.

2. Calves and sheep.
a. A bleeding rail with its top approximately 11 feet from the floor. The floor of the bleeding area shall be curbed and separately drained;
b. Dressing and cooler rails of such height as to provide a clearance of at least eight inches from the carcasses to the floor. Calves which are of such size that there is not a clearance of at least eight inches above the floor, or whose viscera cannot be transferred manually and unaided to the inspection stand, shall be skinned and eviscerated as cattle;
c. Facilities for washing hides of calves before any incision is made (except the sticking wound) when carcasses are dressed hide on. The heads of calves and veal slaughtered by the Kosher method shall be skinned prior to the washing of the carcasses;
d. Facilities for flushing, washing, and inspecting calf heads, including head-flushing cabinet and head inspection rack with removal calf loops;
e. Facilities for the inspection of the viscera. A hoppered metal stand shall be provided which accommodates two removal inspection pans. One inspection pan is for the thoracic viscera; the other is for the abdominal viscera. The pans shall have perforated bottoms and handles or hand holes for removal. A sterilizing receptacle shall be provided for sterilization of contaminated pans;
f. Facilities for washing sheep carcasses after removal of the pelt. Calves and sheep shall be washed again after they have been eviscerated.

a. Facilities for bleeding hogs in a hanging position, over a separately drained, curbed-in bleeding area;
b. A scalding vat and gambreling table, including the platforms, of metal construction;
c. A shaving rail to assure that carcasses are cleaned;
d. A hoppered metal stand for the inspection of viscera. A sterilizing receptacle shall be provided at a convenient location for the sterilization of contaminated pans;
e. Dressing and cooler rails at least nine feet high or of such height as to provide a clearance of at least eight inches between the lowest point of the carcass, or head if left attached, and the floor.

4. Coolers. A chill cooler and separate holding coolers may be provided or both may be combined in one room. The chill cooler shall have floors of concrete sloped to a drain. The walls shall be smooth, light colored, impervious, and the room shall be sealed. The other coolers shall have floors of concrete; the walls shall be smooth, free of cracks, light colored, impervious, and the room shall be sealed. The door between the slaughtering department and the chill cooler shall be clad with rust-resistant metal. Rails shall be spaced at least two feet from walls, columns, refrigerating equipment, or other fixed equipment to prevent contact with the carcasses. Header rails shall be three feet from the walls. When overhead refrigerating facilities are provided, insulated drip pans must be installed beneath them and the pans connected to the drainage system. If wall coils are installed, a drip gutter of impervious material and connected with the drainage system shall be installed beneath the coils. When edible offal is chilled or stored in a cooler other than a separate offal cooler, that area shall be separately drained.

5. Other edible products departments.
a. Floors, walls, and ceilings in the various edible products departments of the plant shall be constructed of material that can be readily kept clean. Wooden structures and equipment shall be kept at a minimum. Floors requiring drainage shall be constructed of dense concrete or floor brick laid on a concrete base. The interior walls and, where practical, ceiling surfaces shall be smooth and flat. Walls shall be constructed of glazed tile, smooth cement plaster, or other USDA-approved impervious material. Walls shall be free of cracks and crevices, and, where brick or tile is used, the mortar joints shall be flush with the surface of the walls. Walls shall be light colored.
b. The floors of the plant shall be well-drained; a slope of not less than 1/4 inch to the foot to drainage inlets is required. The floors shall be smooth, impervious, and in good repair; they shall be free from cracks and depressions which could hold floor liquids. Wooden floors are not permitted. Junctions of floors and walls shall be coved.

c. Walls, ceilings, beams, and hangers shall be cleaned. Rails may be oiled instead of painted. Rust and scale shall be removed from hangers and meat trolleys. Smooth Portland cement plaster walls shall not be painted.

6. Hide room. The floor of the hide room, if provided, shall be of concrete and drained. Walls shall be smooth and impervious to at least the highest point of the hide pile. The hide room shall not connect with the slaughtering department except for one opening which shall be equipped with a tight-fitting, self-closing door. The hide room shall not connect with any other room in which edible products are stored, processed, or handled.
7. Disposal of blood. When blood is not permitted to drain into the sewage system, it may be collected in a metal tank and removed from the premises or blown to the blood drier in a manner that will not mask odors or create a harborage for pests.
8. Other inedible products departments.
   a. An inedible products department, completely separate and apart from edible products departments, shall be provided. Walls shall be of smooth, finished, Portland cement plaster, glazed tile, or other USDA-approved material impervious to moisture. Floors shall be constructed of dense concrete or floor tile, sloped to drain. Hot and cold water connections shall be provided. With the exception of one opening to the slaughtering department, there shall be no openings between an inedible products department and an edible products department. This one opening shall be approximately five feet in width to allow the free passage of materials and shall be equipped with a close-fitting, self-closing door of solid construction. This door shall be kept closed at all times, except when in actual use, to prevent the entrance of undesirable odors to the slaughtering department. The area at the loading dock shall be paved, drained, and of sufficient size to accommodate the largest truck used. If inedible offal is stored in an edible offal room, the room is classed as an inedible products department. Paunches may be opened in the slaughtering department only when a hydraulic mechanically operated paunch lift table is provided and used for this purpose. Otherwise, the paunches shall be opened in the inedible offal rooms.
   b. Requests for permission for rendering of shop scraps and outside dead animals shall be made to the inspector who shall grant or deny the request pursuant to Article 2.
9. Pens.
   a. Holding pens shall be surfaced with an impervious material, sloped to drains. A curb shall be installed around the outside of the pens to prevent the wash from escaping. Water under pressure shall be available for washing out the pens. Feeding pens shall be at least 300 feet from the plant and shall not be located in front of the plant.
   b. Holding and shackling pens shall be located outside of, or separated from, the slaughtering department.
10. Drainage
   a. Floors which require flushing during operations shall have sloped floor drains to carry off the floor drainage. Each floor drain shall be equipped with a deep-seal trap; the drainage lines shall be vented to the outside in accordance with local plumbing codes. In no case shall a drain line be less than four inches in diameter.
   b. Sewage may be disposed of into a municipal sewer system, if permitted by local ordinance, or it may be disposed of into a stream or other similar body of water, provided that:
      i. This method is acceptable to local health authorities having jurisdiction over sewage disposal, and
      ii. The flow of the stream or other body of water is sufficient to carry the sewage away from the plant at all seasons of the year. When cesspools are used, they shall be of sufficient size to receive the sewage from the plant at all times; they shall be so constructed that they do not create a nuisance by breeding flies or other insects.
   c. Grease recovery basins shall not mask odors or create a harborage for pests.
11. Equipment and utensils.
   a. Equipment shall be constructed of metal and shall be so constructed that it can be easily cleaned. Cutting boards may be of hard wood or synthetic material, but equipment, such as the framework of boning or cutting tables, scalding vats, offal racks and trees, product storage racks, and product trucks shall be of metal construction. Rusty or worn-out equipment shall be replaced.
   b. All equipment shall be thoroughly cleaned following each day's operations. The use of a clear, colorless, odorless, tasteless, edible mineral oil may be used on metal equipment, such as choppers, grinders, mixers, tables, meat trucks, offal racks, hooks, and trolleys. Scale shall not be permitted to accumulate on metal equipment.
   c. Sterilizing receptacles equipped with drains to permit draining and cleaning shall be placed at convenient locations in the slaughtering department for the cleaning and sterilization of contaminated tools and equipment. Water wasting from equipment shall not flow across the floor.
   d. Shovels used for transferring ice or other edible materials from one container to another shall not touch the floor.
12. Ventilation and lighting. Natural ventilation may be supplemented by artificial means and shall be sufficient to assure the absence of dust, masking odors, or steam vapors. Points where inspection is conducted may require special lighting. The glass area shall be at least 1/4 of the floor area in all nonrefrigerated work rooms. To assure adequate lighting at all times and at all places, natural lighting must be supplemented by well-distributed artificial lighting.
13. Water supply, wash basins, sterilizing facilities.
   a. Hot and cold running water, under pressure, shall be available at all parts of the establishment and in conformity with the requirements of the Arizona Department of Health Services. The hot water used for sterilizing equipment, floors, and walls that may be contaminated by the dressing procedure or handling of diseased carcasses, viscera, and other animal parts, shall be at least 180° F. A thermometer shall be installed to verify the temperature of the

water at the point of use. A cleanup hose shall be available for use.

b. Foot-pedal operated wash basins shall be placed in or near dressing rooms. These wash basins shall be equipped with running hot and cold water, delivered through a combination mixing faucet with an outlet at least 12 inches above the rim of the bowl. The drainage outlet shall lead directly into the sewage lines. Soap and towels, and a receptacle for dirty paper towels or other trash, shall be convenient to the wash basin.

D. Disposal of bull testing positive.

1. A bull testing positive for *T. foetus* or branded with the official "S" brand shall go direct to slaughter or shall be placed under State Quarantine and fed in a restricted feeding pen within a designated feedlot according to R3-2-406.
2. The *T. foetus* positive bull shall not be commingled with any other female bovine. The bull shall go from the testing premises to direct slaughter or to the restricted feeding pen within 30 days of the positive *T. foetus* test.

Equipment, sanitary piping and utensils used in receiving, storing, processing, manufacturing, packaging, and handling frozen desserts and ingredients, and all product contact surfaces of homogenizers, high pressure pumps, packing glands on agitators, pumps and vats, and lines shall be kept clean. Before use, all equipment coming in contact with milk products or frozen desserts shall have a bactericidal or sanitizing treatment. Equipment not designed for C-I-P cleaning shall be disassembled, thoroughly cleaned and sanitized. Biodegradable dairy cleaners, wetting agents, detergents, sanitizing agents, or other similar material that does not adversely affect or contaminate the frozen desserts or ingredients may be used. Steel wool or metal sponges shall not be used to clean any equipment or utensils with product contact surfaces. C-I-P cleaning shall be used only on equipment and pipeline systems designed, engineered, and installed for that type of cleaning. Other equipment and areas in the plant shall be thoroughly cleaned with appropriate methods that prevent potential contamination of ingredients, packaging and frozen desserts. Exhaust stacks, elevators and elevator pits, conveyors and similar facilities shall be inspected and cleaned regularly.

b. Equipment shall be sanitized by using one of the following methods:
   i. Using 180° F water for at least two minutes.
   ii. Using steam under pressure for at least two minutes or until all parts of the equipment being sanitized have reached 180° F, or the condensate off the equipment remains at 180° F for at least two minutes.
   iii. Using chlorine with a residual of at least 50 ppm after one minute contact with equipment, or if sprayed, with a residual of at least 100 ppm after five minutes.
   iv. Using any other sanitizing substance prescribed in Appendix F of the PMO.

The seals shall be applied by the Dairy Supervisor or the Supervisor's designee after testing and shall not be removed without immediately notifying the Dairy Supervisor or the Supervisor's designee. The system shall be designed to meet the requirements of the PMO.
   d. After pasteurization all mix shall be cooled immediately to 45° F or less and shall be maintained at that temperature until frozen. Milk, cream, and other fluid milk products other than sterilized, evaporated or sweetened condensed milk in hermetically sealed containers shall be stored at 45° F or less.
      i. Refrigerated vehicles or approved insulated containers shall be used when transporting frozen desserts mix from the manufacturing or other plant to a retail manufacturer, and
      ii.    b. Supplies and containers. Whenever possible, supplies shall be kept in a room separate from the processing, handling, and packaging of frozen desserts and under conditions that result in keeping the materials clean and free from dust, moisture, insects, rodents, or other possible contamination. Supplies shall be arranged to permit cleaning of the area and easy inspection and access. Insecticides and rodenticides shall be plainly labeled, segregated, and stored in a separate room or cabinet away from the edible material or packaging supplies. Caps, parchment papers, wrappers, liners, gaskets, and single-service sticks, spoons, covers, and containers for frozen desserts or ingredients shall be stored only in sanitary tubes, wrappings, or cartons and kept in a clean, dry place until used and shall be handled in a sanitary manner.

11. Clearing lines and equipment. If the same equipment is used for processing, pasteurizing, and packaging frozen desserts made with dairy products and frozen desserts made with vegetable fats, oils, or proteins, any remaining

product shall be completely removed from the lines and equipment and sanitized before introducing another product into the lines and equipment. All equipment and lines shall be sanitized either at the end or beginning of each day's operations.

12. Packaging and containers.
    a. Frozen desserts shall be packaged in commercial containers using packaging material that protects the product from contamination. The packaging, cutting, molding, dispensing, and other handling or preparation of frozen desserts and their ingredients shall be in a sanitary manner. Frozen dessert containers shall be filled at the place of pasteurization using approved mechanical equipment. Existing manual processes may be permitted if done in a manner that prevents all contact surface contamination and is approved by the Dairy Supervisor.
    b. Multi-use containers for frozen desserts shall be kept clean and dry. If used for transporting frozen desserts, the containers shall be:
        i. Rinsed immediately after emptying,
        ii. Cleaned upon return to the plant, and
        iii. Protected from contamination during storage.

Service on a resident basis has a scheduled tour of duty, while service on a nonresident basis has a nonscheduled tour of duty, but is of a reoccurring nature. Both of these services are performed when an applicant requests that an AZDA/inspector grader be stationed in the applicant's processing plant and grade eggs in accordance with U.S. Standards. The applicant agrees to comply with the facility, operating, and sanitary requirements of resident service. The charges for resident grading services are based on the hours of the regular tour of duty. B. Unscheduled temporary grading service. Temporary grading service is performed when an applicant requests resident grading on a fee basis. The applicant must meet all of the facility, operating, and sanitary requirements of resident service. Charges or fees are based on the time and expenses needed to perform the work. Eggs graded under temporary grading service are only eligible to be identified with the official AZDA grademarks when they are processed and graded under the supervision of a grader or quality assurance inspector as provided in R3-2-1114.

C. Auditing service. Auditing service is performed when an applicant requests independent verification of written quality assurance and value added standards for production, processing, and distribution of eggs. Charges or fees are based on time, travel, and expenses needed to perform the work.

Whenever it is feasible to do so, written notice in advance of such suspension of plant approval shall be given to the person concerned and shall specify a reasonable period of time in which corrective action must be taken. If advance written notice is not given, the action shall be promptly confirmed in writing after the suspension and the reasons therefor shall be stated, except in instances where the person has already corrected the deficiency. During such period of suspension, grading service shall not be rendered. After appropriate corrective action is taken, grading service will be restored immediately, or as soon thereafter as a grader can be made available.

C. If the grading facilities or methods of operation are not brought into compliance within a reasonable period of time as specified by the Administrator, the Administrator shall send formal notice of the suspension pursuant to A.R.S. Title 41, Chapter 6, Article 10. Any suspension shall continue in effect

pending the outcome of a hearing unless otherwise ordered by the Administrator.

D. Upon suspension of grading service, all grademarks (labels, seals, tags, or packaging material bearing other official identification), shall, under the supervision of a person designated by the AZDA, be destroyed, obliterated, or sequestered in a manner acceptable to the AZDA.

E. In any case where grading service is suspended under this Section, the person concerned may thereafter apply for grading service once the conditions giving rise to the suspension or withdrawal have been remediated.

Authority to use an AZDA grademark on products is granted only to recipients who utilize the services of a grader or quality assurance inspector in accordance with this Article. Packaging materials bearing official identification marks shall be approved pursuant to R3-2-1110 to R3-2-1111, inclusive, and shall be used only for the purpose for which approved and prescribed by the Administrator. Any unauthorized use or disposition of approved labels or packaging materials which bear any official AZDA identification may result in cancellation of grading service, denial of the permission to use of labels or packaging materials bearing official identification, or denial of other benefits of the Act pursuant to the provisions of R3-2-1105 D.

B. Approval of official identification. No label, container, or packaging material which bears official identification may contain any statement that is false or misleading. No label, container, or packaging material bearing official identification may be printed or prepared for use until the printers' or other final proof has been approved by the Administrator in accordance with this Article. It is the recipient's responsibility to ensure label compliance with the Federal Food, Drug, and Cosmetic Act, the Fair Packaging and Labeling Act, and the regulations promulgated under this Article. The use of finished labels must be approved as prescribed by the Administrator. A grader may apply official identification stamps to shipping containers if they do not bear any statement that is false or misleading. If the label is printed or otherwise applied directly to the container, the principal display panels of such container shall for this purpose be considered as the label. The label shall contain the name, address, and ZIP Code of the packer or distributor of the product, the name of the product, a statement of the net contents of the container, and the AZDA grademark.

C. Nutritional labeling. Nutrition information must be included on the labeling of each unit container of consumer packaged eggs in accordance with the General Regulations for the Enforcement of the Federal Food, Drug, and Cosmetic Act and the Fair Packaging and Labeling Act, located at 21 CFR §§ 101.1 to 101.108. The nutrition information included on labels is subject to review by the Food and Drug Administration prior to approval by the Department.

D. Refrigeration labeling. All containers bearing official AZDA "Grade AA" or "Grade A" identification shall be labeled to indicate that refrigeration is required, for example, "Keep refrigerated," or words of similar meaning.

The Illustration 5 grademark may utilize any one of the designs shown in Illustrations 2 through 4. The "Produced From" text outside the symbol shall be conspicuous, legible, and in approximately the same proportion and close proximity to the symbol as shown in Illustration 5.

D. Information required on AZDA grademark. Except as otherwise authorized by the Administrator, each AZDA grademark shall include the letters "AZDA" and the U.S. grade of the product it identifies, such as "Grade AA," as shown in Illustration 2. Such information shall be printed with the symbol and the wording within the symbol in contrasting colors in a manner such that the design is legible and conspicuous on the material upon which it is printed.

E. Product class. The size or weight class of the product, such as **"**Large,**"** may appear within the grademark as shown in Illustration 3. If the size or weight class is omitted from the grademark, it must appear prominently on the main panel of the carton.

R3-2-1120. Appeals

A. Appeal grading. An appeal grading may be requested by any recipient or authorized designee or other interested party ("appellant") who is dissatisfied with the determination by a grader of the class, quality, quantity, or condition of any product as evidenced by the AZDA grademark and accompanying label, or as stated on a grading certificate.
1. The appeal shall be filed with the original grader's immediate supervisor.
2. Initial review of the appeal shall be made by the original grader's immediate supervisor, or by one or more licensed graders assigned by the immediate supervisor to review the appeal.
2. An appeal may be made orally or in writing. If made orally, written confirmation is required. The appellant shall clearly state the reasons for requesting the appeal grading and a description of the product, or the decision which is questioned. If such appeal request is based on the results stated on an official certificate, the original and all available copies of the certificate shall be provided to the grader assigned to perform the appeal grading.
3. The appellant's request for the appeal grading may be refused when it appears to the reviewer that the reasons given in the request are frivolous or not substantial, the quality or condition of the product has undergone a material change since the original grading, the original lot has changed in some manner, or the appellant has not materially complied with the requirements of this Article. In such case, the appellant shall be promptly notified of the reason or reasons for such refusal.
4. If an appeal grading is granted, it shall be performed by a grader other than the original grader. Whenever practical, an appeal grading shall be conducted jointly by two independent graders.
5. The following procedures shall be used for appeal grading:
   a. The appeal sample shall consist of product taken from the original sample container plus an equal number of samples selected at random.
   b. When the original samples are not available or have been altered, such as the removal of undergrades, the appeal sample size for the lot shall consist of double the samples required in R3-2-1102.
   c. Eggs shall not have been moved from the original place of grading and must have been maintained under adequate refrigeration.
6. Immediately after an appeal grading is completed, an appeal certificate shall be issued to show that the original grading was upheld, modified, or rejected. Such certificate shall supersede any previously issued certificate for the product involved and shall clearly identify the number and date of the superseded certificate. The issuance of the appeal certificate may be withheld until any previously issued certificate and all copies have been returned when such action is deemed necessary to protect the interest of the Department. When the appeal grader assigns a different grade to the lot, the existing AZDA grademark shall be changed or obliterated as necessary. When the appeal grader assigns a different class or quantity designation to the lot, the labeling shall be corrected.

B. Appeal for suspension, termination or denial of service or debarment. Any person whose grading service is suspended, terminated, denied service, or debarred, may request a hearing before an administrative law judge pursuant to A.R.S. Title 41, Chapter 6, Article 10. The decision of the administrative law judge is subject to review by the Director as provided by A.R.S. Title 41, Chapter 6, Article 10.

A. Forms. AZDA grading certificates and sampling report forms (including appeal grading certificates and regrading certificates) shall be issued on forms approved by the Administrator.

B. Issuance.

1. Resident grading basis. Certificates will be issued only upon request therefor by the applicant or AZDA. When requested, a grader shall issue a certificate covering product graded by such grader. In addition, a grader may issue a grading certificate covering product graded in whole or in part by another grader when the grader has knowledge that the product is eligible for certification based on personal examination of the product or official grading records.
2. Other than resident grading. Each grader shall, in person or by the grader's authorized agent, issue a grading certificate covering each product graded by such grader. A grader's name may be signed on a grading certificate by a person other than the grader, if such person has been designated as the authorized agent of such grader by the Administrator, provided that:
   a. The certificate is prepared from an official memorandum of grading signed by the grader; and
   b. A notarized power of attorney authorizing such signature has been issued to such person by the grader and is on file in the office of grading. In such case, the authorized agent shall sign both the agent's name and the grader's name, for example, "John Doe by Mary Roe."

C. Disposition. The original and required or requested copies of the grading certificate, immediately upon issuance, shall be delivered, mailed, or electronically submitted to the recipient or the recipient's designee. One copy is required to be sent and the recipient may request additional copies. Other copies shall be filed and retained in accordance with the disposition schedule for grading program records.

Handwashing facilities shall be provided with hot and cold running water, an acceptable handwashing detergent, and a sanitary method for drying hands. Toilet rooms shall be ventilated to the outside of the building and be maintained in a clean and sanitary condition. Signs shall be posted in the toilet rooms instructing employees to wash their hands before returning to work. In new or remodeled construction, toilet rooms shall be located in areas that do not open directly into processing rooms.
7. A separate refuse room or a designated area for the accumulation of trash must be provided in plants which do not have a system for the daily removal or destruction of such trash.
8. Adequate packing and packaging storage areas are to be provided that protect packaging materials and are dry and maintained in a clean and sanitary condition.

E. Grading and packing room requirements.

1. The egg grading or candling area shall be capable of adequate darkening to make possible the accurate quality determination of the candled appearance of eggs. There shall be no light source or reflection of light that interferes with, or prohibits the accurate quality determination of eggs in the grading or candling areas.
2. The grading and candling equipment shall provide adequate light to facilitate quality determinations. When needed, other light sources and equipment or facilities shall be provided to permit the detection and removal of stained and dirty eggs or other undergrade eggs.

H. Egg cleaning operations.
1. Egg washing equipment must be sanitarily designed, maintained in a clean and sanitary manner, and thoroughly cleaned at the end of each operating day.
2. Egg drying equipment must be sanitarily designed and maintained in a clean and sanitary manner. Air used for drying purposes must be filtered. These filters shall be cleaned or replaced as needed to maintain a sanitary process.
3. The temperature of the wash water shall be maintained at 90 ^{o}F (32.2 ^{o}C) or higher, and shall be at least 20 ^{o}F (6.7 ^{o}C) warmer than the internal temperature of the eggs to be washed. These temperatures shall be maintained throughout the cleaning cycle. Accurate thermometers shall be provided for monitoring wash water temperatures.
4. Approved cleaning compounds shall be used in the wash water.
5. Wash water shall be maintained at a measurable pH level of 11 or higher. Accurate testing equipment shall be provided and accessible to the grader. 6. Wash water shall be changed approximately every four hours or more often if needed to maintain sanitary conditions, and at the end of each shift. Remedial measures shall be taken to prevent excess foaming during the egg washing operation.
7. Replacement water shall be added continuously to the wash water of washers. Chlorine or quaternary sanitizing rinse water may be used as part of the replacement water, provided, they are compatible with the washing compound. Iodine sanitizing rinse water may not be used as part of the replacement water.
8. Only potable water may be used to wash eggs. Each official plant shall submit certification to the office of grading stating that their water supply is potable. An analysis of the iron content of the water supply, stated in parts per million, is also required. When the iron content exceeds two parts per million, equipment shall be provided to reduce the iron content below the maximum allowed level. Frequency of testing for potability and iron content shall be determined by the Administrator. When the water source is changed, new tests are required.
9. Waste water from the egg washing operation shall be piped directly to drains.
10. The washing, rinsing, and drying operations shall be continuous and shall be completed as rapidly as possible to maximize conservation of the egg's quality and to prevent sweating of eggs. Eggs shall not be allowed to stand or soak in water. Immersion-type washers shall not be used.
11. Prewetting eggs prior to washing may be accomplished by spraying a continuous flow of water over the eggs in a manner which permits the water to drain away or other methods which may be approved by the Administrator. The temperature of the water shall be the same as prescribed in this Section.
12. Washed eggs shall be spray-rinsed with water having a temperature equal to, or warmer than, the temperature of the wash water. The spray-rinse water shall contain a sanitizer that has been determined acceptable for the intended use by the supervisor and of not less than 100 PPM nor more than 200 PPM of available chlorine or its equivalent. Alternate procedures, in lieu of a sanitizer rinse, may be approved by the Administrator.
13. Test kits shall be provided and used to determine the strength of the sanitizing solution.
14. During non-processing periods, eggs shall be removed from the washing and rinsing area of the egg washer and from the scanning area whenever there is a buildup of heat that may diminish the quality of the egg.
15. Washed eggs shall be reasonably dry before packaging and packing.
16. Steam, vapors, or odors originating from the washing and rinsing operation shall be continuously and directly exhausted to the outside of the building.

I. Requirements for eggs officially identified with a grademark.
1. Eggs that are officially identified with an AZDA grademark shall be placed under refrigeration at an ambient temperature no greater than 45 °F (7.2 °C) promptly after packaging.
2. Eggs that are to be officially identified with the AZDA grademark shall be packed only in new packaging materials that are clean, free of mold, mustiness and off odors, or clean and sanitized packaging material designed to be reused, and must be of sufficient strength and durability to adequately protect the eggs during normal distribution. When packed in other than fiber packing material, the containers must be of sound construction and maintained in a reasonably clean manner.

J. Use of approved chemicals and compounds.

1. All egg washing and equipment cleaning compounds, defoamers, destainers, sanitizers, inks, oils, lubricants, or any other compound that comes into contact with the eggs shall be approved by the national supervisor for their specified use and handled in accordance with the manufacturer's instructions.
2. All pesticides, insecticides, and rodenticides shall be approved for their specified use and handled in accordance with the manufacturer's instructions.

K. Marking individual eggs. The marking of individual eggs may be requested by processors as part of a specification requirement or for other marketing purposes.

1. Stamping eggs. Recognizing the difficulty in clearly stamping the rounded surface of an egg, a lot average tolerance of 10-percent for individual eggs with partial, illegible, or no marks in any combination is permitted with no individual case exceeding 20-percent. These tolerances may be applied as a moving average when performing online sampling or as a lot average while performing stationary lot gradings. If more than 50% of the image or letter or letters is missing, the symbol is illegible. Stamped eggs are not classified as stains or dirty. They are to be graded without regard to marking. An official grade cannot be assigned to a mixed lot of eggs that contains individually marked and unmarked eggs. If requested, the lot may be graded for all factors except ink stains. Lot averages may be shown on the certificate. The section "Official Grade and Size" shall state "No AZDA Grade." The following statement shall also be placed in the "Remarks" section: "Lot contains marked and unmarked eggs. Eggs graded for all factors except ink stains." Individual eggs with ink blotches or smears from dating devices are to be classified as stains or dirty, depending on the intensity and/or area of the stain [guidance not clear]. Inks used in marking individual eggs which will be officially graded are to be approved by the Administrator prior to their use. The request for approval should be accompanied with a copy of the ink formula, the name of the product, and the name and address of the manufacturer.
2. Laser etching (marking eggs). The use of a laser etching system to mark information is subject to joint review by the Food and Drug Administration (food safety impact evaluation) and AZDA (quality impact evaluation). Only approved laser etching systems may be used to identify eggs to be officially graded and identified with an AZDA grademark. The amount of the shell surface available for laser etching and the information etched on the shell is subject to review by the resident grader and the supervisor. The information etched on the shell must not interfere with the graders ability to evaluate the quality attributes of the egg.
3. When an individual egg is marked, whether an applied ink or laser etched, the information must be consistent with the information on the label, for example, any marketing claims, production code, or packer identity. If this information is not consistent throughout the lot, the eggs are not eligible to be identified with an AZDA grademark.

R3-2-1123. Health and Hygiene of Personnel

A. No person known to be affected by a communicable or infectious disease shall be permitted to come in contact with the product.

B. Plant personnel coming into contact with the product shall wear clean clothing.

Historical Note
Section made by final exempt rulemaking at 26 A.A.R. 916, with an immediate effective date of April 9, 2020 (Supp. 20-2).

R3-2-1124. Use of the "Produced From" Labeling

A. Use of the wording "Produced From" in conjunction with the AZDA grademark, is limited to products derived from AZDA Grade AA or Grade A eggs for which there are no U.S. grade standards (for example, pasteurized eggs or hard-cooked eggs). The following guidelines are to be used when monitoring the official grade identification of these types of products.

1. Approval. Applicants interested in utilizing the "Produced From" labeling must submit a written proposal to the Administrator. The proposal is to include the type or types of product to be labeled and the applicant's plan for controlling the use and labeling of officially identified product. After review by the supervisor, the supervisor is to forward the request to the Administrator for final review and approval. Upon approval, the supervisor is to reconfirm all of the requirements with the applicant prior to any actual grade identification.
2. Verification visits. To assure that only officially graded eggs are being used, the processing, packing, and packaging must be closely monitored. Each verification visit shall include a review of records, product inventory, processing procedures, packing, packaging, storage, and shipping practices to confirm that the applicant is following the protocol outlined in their approved plan. In plants with resident service, the supervisor or Administrator is to be present during the initial production period to monitor the process and verify compliance. The grader will conduct all subsequent monitoring and verification activities with oversight from the supervisor. In temporary or fee locations, plant management must notify the supervisor each time the "produced from" labeling will be used or, alternatively, provide the supervisor with a projected production schedule. At these locations, compliance will be based on the applicant's established history of compliance as outlined in the following schedule:
   a. Level 1 - The supervisor or administrator is to monitor and verify the process on the initial day of production. The supervisor or a grader will conduct subsequent visits. At least one additional verification visit is to be conducted during the next 10 production days. If no discrepancies are noted, one visit is to be conducted for each 30 days of production until three consecutive satisfactory visits have been completed. Once this verification period has ended without any noted program non-conformance, monitoring may proceed to Level 2.
   b. Level 2 - Supervisor or a grader is to conduct quarterly verification visits provided the applicant continues to meet all program requirements. If any nonconformance is noted during these visits, monitoring reverts back to Level 1. Misuse of the labeling will result in cancellation of the approval.

B. Recordkeeping. Recipients shall maintain, and make available for review, all invoices or applicable Grading Certificates covering product received, produced, and shipped. At a minimum, these records must include the name and address of original packer, amount received, quantity produced, brand names, lot numbers, quantity shipped and name and address of receivers. Records must be maintained for two years.

C. Cost. There will be no additional charge to resident plants when graders monitor product labeling during their normal grading activities. When graded product is shipped from official plants to other processing locations for re-packaging that are not under continuous AZDA supervision, time and expenses associated in conducting the verification visits will be charged to the recipient at the current Temporary grading and auditing service rate.

Section made by final exempt rulemaking at 26 A.A.R. 916, with an immediate effective date of April 9, 2020 (Supp. 20-2).

R3-2-1125. Specification Grading

A. Applicants may request for additional specifications to be certified that exceed the standards of this Chapter. The requested specifications must be submitted in writing to the administrator for approval. The approving official will review the information for approval or advise the applicant of the reason or reasons for disapproval. If the specification is approved, a letter enclosing a copy of the approved application and specification will be returned to the applicant with a request to provide copies of the specification to each supplier and applicable AZDA grader. Each page of the approved specification will have an approval stamp bearing the date of approval and the signature of the approving official. Additionally, each page will be sequentially numbered such as page 1 of 5, page 2 of 5, etc.

B. Plant management is responsible for advising graders when they are preparing to pack eggs in accordance with an approved specification. However, each grader must be familiar with the approved specification list and, to the extent practically possible, be aware when products with approved specifications are being packed at the duty location. When a plant packs product requiring compliance with an approved specification, the grader shall obtain a copy of the specification from plant management and assure that all provisions of the specification are met. As applicable, product that meets specification requirements will be identified in accordance with procedures outlined in the approved specification. When the specification requires the issuance of a grading certificate, the following statement is to be placed in the remarks section of the certificate: "Product covered by this certificate meets specification requirements for_____."

Preface

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

Rules

The definition for a rule is provided for under A.R.S. § 41-1001. "'*Rule' means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.*"

The *Arizona Administrative Code*

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then a Section number with a heading. The "R" at the beginning of the Section number stands for "rule." The rule itself includes sequential letters and numbers in an outline. Each lettered or numbered Section is called a subsection of the rule.

Rules are codified quarterly in the *Code*. For example:

Rules codified in the first quarter are filed between January 1 through March 31.

Rules codified in the second quarter are filed between April 1 through June 30.

Rules codified in the third quarter are filed between July 1 through September 30.

Rules codified in the fourth quarter are filed between October 1 through December 31.

Supplement release dates are included in the footers of each Chapter. The first supplement for the first quarter of 2026 is cited as Supp. 26-1. Supplements are released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. The Office links to these codified Sections in the Table of Contents of this Chapter.

How to Use the *Code*

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Register* for recent updates to rule Sections.

Authentication of PDF *Code* Chapters

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document's content has been compromised.

Rule History

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Arizona Administrative Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

Arizona Revised Statutes References

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature's website, www.azleg.gov. An agency's authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

Session Law References

Arizona Session Law references in a Chapter can be found at the Secretary of State's website, www.azsos.gov under Services-> Legislative Filings.

Exemptions to the APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency's exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor's notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

Personal and Commercial Use of the Chapter

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

CHAPTER 10. BARBERING AND COSMETOLOGY BOARD

Authorizing statute: A.R.S. § 32-504(A)(1)

Implementing statute: A.R.S. § Title 32, Chapter 5

Supp. 26-3

Editor's Note: The Board of Cosmetology was merged with the Board of Barbers; the name of this Chapter was changed to the Barbering and Cosmetology Board under Laws 2021, Ch. 334. The Board of Barbers rules codified under 4 A.A.C. 5, were recodified to Articles 5, 6, 7, 8, and 9 under Laws 2021, Ch. 334 and A.R.S. § 32-304, at 28 A.A.R. 1058 (May 20, 2022), with an immediate effective date of April 27, 2022 (Supp. 22-2).

Editor's Note: The Board of Cosmetology repealed or renumbered Sections with the old Administrative Code numbering scheme and adopted new Sections under the current numbering scheme (Supp. 96-2). The old and new Sections cannot be shown in numerical order because of the two Articles; therefore the old numbers are not shown here. Please refer to this Chapter as published in Revised Format 6-92 for historical note information on the old numbered Sections.

Preface

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

Rules

The definition for a rule is provided for under A.R.S. § 41-1001. "'*Rule' means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.*"

The *Arizona Administrative Code*

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then a Section number with a heading. The "R" at the beginning of the Section number stands for "rule." The rule itself includes sequential letters and numbers in an outline. Each lettered or numbered Section is called a subsection of the rule.

Rules are codified quarterly in the *Code*. For example:

Rules codified in the first quarter are filed between January 1 through March 31.

Rules codified in the second quarter are filed between April 1 through June 30.

Rules codified in the third quarter are filed between July 1 through September 30.

Rules codified in the fourth quarter are filed between October 1 through December 31.

Supplement release dates are included in the footers of each Chapter. The first supplement for the first quarter of 2026 is cited as Supp. 26-1. Supplements are released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. The Office links to these codified Sections in the Table of Contents of this Chapter.

How to Use the *Code*

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Register* for recent updates to rule Sections.

Authentication of PDF *Code* Chapters

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document's content has been compromised.

Rule History

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Arizona Administrative Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

Arizona Revised Statutes References

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature's website, www.azleg.gov. An agency's authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

Session Law References

Arizona Session Law references in a Chapter can be found at the Secretary of State's website, www.azsos.gov under Services-> Legislative Filings.

Exemptions to the APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency's exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor's notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

Personal and Commercial Use of the Chapter

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

TITLE 4. PROFESSIONS AND OCCUPATIONS

CHAPTER 23. BOARD OF PHARMACY

Authority: A.R.S. § 32-1904 et seq.

Supp. 26-3

Editor's Note: The emergency rulemaking was due to expire on March 21, 2026. Before the expiration of the emergency, Section R4-23-411 was amended under final rulemaking at 32 A.A.R. 471 (February 27, 2026, Issue 9) with an immediate effective date of February 3, 2026 (Supp. 26-1).

Editor's note: This Chapter contains an amendment to R4-23-411 promulgated under a Notice of Emergency Rulemaking. Since an emergency rulemaking is effective for 180 days, the original codified rules remain in the Chapter for reference if the emergency rule expires. The Board may choose to renew the emergency for an additional 180 days; or choose to let the emergency expire after 180 days. The Board may also choose to promulgate these rules under the regular rulemaking process while the emergency rules are enforced (Supp. 25-3).

C. If an intern licensee stops attending pharmacy school classes without graduating, the licensee shall immediately stop practicing as an intern and surrender the intern license to the Board or the Board's designee no later than 30 days after the date of the last attended class, unless the licensee petitions the Board as specified in R4-23-401 and receives Board approval to continue working as an intern.    b. Any narcotic or other controlled substance, prescription-only drug or device, nonprescription drug, precursor chemical, or regulated chemical whose immediate or sealed outer or secondary containers or product labeling are misbranded, counterfeited, or contraband or suspected of being misbranded, counterfeited, or contraband shall be quarantined and physically separated from other narcotics or other controlled substances, prescription-only drugs or devices, nonprescription drugs, precursor chemicals, or regulated chemicals until the narcotic or other controlled substance, prescription-only drug or device, nonprescription drug, precursor chemical, or regulated chemical is destroyed or returned to the manufacturer or wholesale distributor from which it was acquired as authorized by the Board and the FDA. When the immediate or sealed outer or secondary containers or product labeling are determined to be misbranded, counterfeited, or contraband or suspected of being misbranded, counterfeited, or contraband, the full-service drug wholesale permittee shall provide notice of the misbranding, counterfeiting, or contrabanding or suspected misbranding, counterfeiting, or contrabanding within three business days of the determination to the Board, FDA, and manufacturer or wholesale distributor from which the narcotic or other controlled substance, prescription-only drug or device, nonprescription drug, precursor chemical, or regulated chemical was acquired.

i. If examination, testing, or other investigation proves that the narcotic or other controlled substance, prescription-only drug or device, nonprescription drug, precursor chemical, or regulated chemical meets appropriate standards of safety, identity, strength, quality, and purity, it does not have to be destroyed or returned to the manufacturer or wholesale distributor.

ii. In determining whether the conditions under which a narcotic or other controlled substance, prescription-only drug or device, nonprescription drug, precursor chemical, or regulated chemical has been returned cast doubt on the safety, identity, strength, quality, or purity of the narcotic or other controlled substance, prescription-only drug or device, nonprescription drug, precursor chemical, or regulated chemical, the full-service drug wholesale permittee shall consider, among other things, the conditions under which the narcotic or other controlled substance, prescription-only drug or device, nonprescription drug, precursor chemical, or regulated chemical has been held, stored, or shipped before or during its return and the condition of the narcotic or other controlled substance, prescription-only drug or device, nonprescription drug, precursor chemical, or regulated chemical and the condition of its container, carton, or product labeling as a result of storage or shipping.

Any nonprescription drug, precursor chemical, or regulated chemical whose immediate or sealed outer or secondary containers or product labeling are misbranded, counterfeited, or contraband or suspected of being misbranded, counterfeited, or contraband shall be quarantined and physically separated from other nonprescription drugs, precursor chemicals, or regulated chemicals until the nonprescription drug, precursor chemical, or regulated chemical is destroyed or returned to the manufacturer or wholesale distributor from which it was acquired as authorized by the Board and the FDA. When the immediate or sealed outer or secondary containers or product labeling are determined to be misbranded, counterfeited, or contraband or suspected of being misbranded, counterfeited, or contraband, the nonprescription drug wholesale permittee shall provide notice of the misbranding, counterfeiting, or contrabanding or suspected misbranding, counterfeiting, or contrabanding within three business days of the determination to the Board, FDA, and manufacturer or wholesale distributor from which the nonprescription drug, precursor chemical, or regulated chemical was acquired.

c. Any nonprescription drug, precursor chemical, or regulated chemical that has been opened or used, but is not adulterated, misbranded, counterfeited, or contraband or suspected of being misbranded, counterfeited, or contraband, shall be identified as opened or used, or both, and quarantined and physically separated from other nonprescription drugs, precursor chemicals, or regulated chemicals until the nonprescription drug, precursor chemical, or regulated chemical is destroyed or returned to the manufacturer or wholesale distributor from which it was acquired as authorized by the Board and the FDA.

d. If the conditions under which a nonprescription drug, precursor chemical, or regulated chemical has been returned cast doubt on the safety, identity, strength, quality, or purity of the nonprescription drug, precursor chemical, or regulated chemical, the nonprescription drug, precursor chemical, or regulated chemical shall be quarantined and physically separated from other nonprescription drugs, precursor chemicals, or regulated chemicals until the nonprescription drug, precursor chemical, or regulated chemical is destroyed or returned to the manufacturer or wholesale distributor from which it was acquired as authorized by the Board and the FDA, except as provided in subsection (I)(2)(d)(i).

i. If examination, testing, or other investigation proves that the nonprescription drug, precursor chemical, or regulated chemical meets appropriate standards of safety, identity, strength, quality, and purity, the nonprescription drug, precursor chemical, or regulated chemical does not need to be destroyed or returned to the manufacturer or wholesale distributor.

ii. In determining whether the conditions under which a nonprescription drug, precursor chemical, or regulated chemical has been returned cast doubt on the safety, identity, strength, quality, or purity of the nonprescription drug, precursor chemical, or regulated chemical, the nonprescription drug wholesale permittee shall consider, among other things, the conditions

under which the nonprescription drug, precursor chemical, or regulated chemical has been held, stored, or shipped before or during its return and the condition of the nonprescription drug, precursor chemical, or regulated chemical and the condition of its container, carton, or product labeling as a result of storage or shipping.

e. For any nonprescription drug, precursor chemical, or regulated chemical identified under subsections (I)(2)(a) or (b), the nonprescription drug wholesale permittee shall ensure that the identified item or items and other evidence of criminal activity, and accompanying documentation is retained and not destroyed until its disposition is authorized by the Board and the FDA.

Preface

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

Rules

The definition for a rule is provided for under A.R.S. § 41-1001. "'*Rule' means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.*"

The *Arizona Administrative Code*

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then a Section number with a heading. The "R" at the beginning of the Section number stands for "rule." The rule itself includes sequential letters and numbers in an outline. Each lettered or numbered Section is called a subsection of the rule.

Rules are codified quarterly in the *Code*. For example:

Rules codified in the first quarter are filed between January 1 through March 31.

Rules codified in the second quarter are filed between April 1 through June 30.

Rules codified in the third quarter are filed between July 1 through September 30.

Rules codified in the fourth quarter are filed between October 1 through December 31.

Supplement release dates are included in the footers of each Chapter. The first supplement for the first quarter of 2026 is cited as Supp. 26-1. Supplements are released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. The Office links to these codified Sections in the Table of Contents of this Chapter.

How to Use the *Code*

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Register* for recent updates to rule Sections.

Authentication of PDF *Code* Chapters

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document's content has been compromised.

Rule History

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Arizona Administrative Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

Arizona Revised Statutes References

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature's website, www.azleg.gov. An agency's authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

Session Law References

Arizona Session Law references in a Chapter can be found at the Secretary of State's website, www.azsos.gov under Services-> Legislative Filings.

Exemptions to the APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency's exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor's notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

Personal and Commercial Use of the Chapter

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

R4-30-126. Service of Board Decisions; Rehearing of Board Decisions

A. Except as provided in subsection (G), any party to an appealable agency action or contested case before the Board who is aggrieved by a decision rendered in the matter may file with the Board, not later than 30 calendar days after service of the decision, a written motion for rehearing or review of the decision specifying the particular grounds for the motion. A decision shall be deemed to have been served on the date when personally delivered or mailed by certified mail to the party's last known address of record with the agency. The filing of a motion for rehearing is a condition precedent to the right of appeal provided in A.R.S. § 32-128(J).

B. A motion for rehearing under this rule may be amended at any time before it is ruled upon by the Board. A response may be filed within 15 calendar days after service of the motion or amended motion by any other party. The Board may require the filing of written briefs upon the issues raised in the motion and may provide for oral argument. The filing of a motion for rehearing or review suspends the operation of the Board's order and allows the registrant to practice in his or her profession pending denial or granting of the motion, and pending the decision of the Board on the rehearing or review if the motion is granted.

C. A rehearing or review of the decision may be granted for any of the following causes materially affecting the moving party's rights:
1. Irregularity in the administrative proceedings of the agency, members of the Board or the prevailing party, or any order or abuse of discretion, whereby the moving party was deprived of a fair hearing;
2. Misconduct of the Board or the prevailing party;
3. Accident or surprise which could not have been prevented by ordinary prudence;
4. Newly discovered material evidence which could not with reasonable diligence have been discovered and produced at the original hearing;
5. Excessive or insufficient penalties;
6. Error in the admission or rejection of evidence or other errors of law occurring at the administrative hearing;
7. The decision is unjustified based upon the evidence or is contrary to law.

D. The Board may affirm or modify the decision or grant a rehearing to all or any of the parties and on all or part of the issues for any of the reasons set forth in subsection (C). An order granting a rehearing shall specify with particularity the ground or grounds on which the rehearing is granted, and the rehearing shall cover only those matters so specified.

E. Not later than 30 days after a decision is rendered, the Board may on its own motion order a rehearing or review of its decision for any reason listed in subsection (C). After giving the parties or their counsel notice and an opportunity to be heard on the matter, the Board may grant a motion for rehearing for a reason not stated in the motion. In either case the order granting a rehearing shall specify the grounds for the rehearing.

F. When a motion for rehearing is based upon affidavits, they shall be served with the motion. An opposing party may, within ten days after service, serve opposing affidavits, which period may be extended for an additional period not exceeding 20 days by the Board for good cause shown or by written stipulation of the parties. Reply affidavits may be permitted.

G. If the Board makes specific findings that the immediate effectiveness of a decision is necessary for preservation of the public welfare, health or safety and that a rehearing or review of the decision is impracticable, unnecessary or contrary to the public interest, the decision may be issued as a final decision without an opportunity for a rehearing or review. If a decision is issued as a final decision without an opportunity for rehearing, any application for judicial review of the decision shall be

made within the time limits permitted for applications for judicial review of the Board's final decisions.

m. Other relevant County, State, Municipal, or Federal Agency records.

5. "Monument" means an object that permanently marks the location of a boundary corner, including witness corners or reference objects that identify the boundary corner's location. The first object placed to mark a boundary corner is an Original Monument.
6. "Original" means a survey on the ground that marks the corners and lines of an initial subdivision, re-subdivision, split, or division of land under common ownership, and may include a Retracement of all or a portion of the boundary of the parent parcel.
7. "Parol evidence" means extrinsic evidence about the location of a property corner or line obtained by means other than direct observation by the Surveyor or from existing Documents.
8. "Record of Survey" means an annotated, graphical depiction of a Boundary Survey that a registered Surveyor signed and sealed.
9. "Retracement" means a survey to recover the Original lines and corner location markers previously run and, when necessary, to set new markers as nearly as possible at the location of the Original marker.
10. "Supplemental surveying work" means work that is not a Boundary Survey as defined in these standards, and where boundary Monuments are not set or marked in the field as property corners. Supplemental Surveying Work includes, but is not limited to, control surveys, topographic surveys, easement surveys, construction staking, and engineering design surveys, as well as work performed to provide site information based on previously performed surveys;
11. "Surveyor" means a person registered by the Arizona State Board of Technical Registration to perform land surveys.

B. All Surveyors shall comply with the following minimum standards when making a Boundary Survey:

1. Create a Record of Survey and record the Record of Survey with the county recorder of the county in which the property is located if any of the following occur:
   a. A Monument is placed to mark, reference, or witness a property corner;
   b. An existing Monument is rejected;
   c. An accepted boundary Monument does not have identifying markings or is not uniquely identified in recorded Documents;
   d. A found corner Monument or other physical evidence of the boundary does not match the description of the Monument or boundary evidence in other Documents; or
   e. An existing boundary is depicted as controlling or an integral part of Supplemental Surveying Work, and the corner Monuments found do not match those described in an existing subdivision map or Record of Survey.
2. In conducting a Boundary Survey:
   a. Create a written scope of work to include the services provided by the Surveyor, the specific information the Surveyor shall provide to the client, dated signatures of the client and the Surveyor, and all fees associated with the scope of work;
   b. Gather and review the relevant Documents that provide evidence of the location of the boundary the Surveyor is surveying;
   c. Perform a field investigation of the property the Surveyor is surveying and search for physical evidence that could aide in determining the location of new boundary lines and corners or existing boundary lines, corners, and Monuments;
   d. Gather and document Parol Evidence;
   e. Analyze the data gathered and reach a professional opinion as to the location of the boundary of the property;
   f. Monument the corners of an Original survey or replace missing corner Monuments of a Retracement survey; and
   g. For at least 10 years, retain a summary of the analysis and the conclusions the Surveyor reached, a list of the Documents the Surveyor utilized in the Surveyor's analysis, field notes, and copies of any Documents the Surveyor utilized in the Surveyor's analysis that are not public records.

C. If the Surveyor forms an opinion in conflict with some evidence of the boundary location, including prior surveys, existing Monuments, or evidence of occupation, the Surveyor shall refrain from setting Monuments until the conflict is resolved and:

1. Make a documented effort to contact the Surveyors who performed the prior surveys in an effort to resolve the conflict if the conflicting evidence is part of previous surveys, and the Surveyor contacted shall respond and make a reasonable effort to resolve the conflict and document the effort; and
2. Notify clients of evidence that, by reasonable analysis, might result in alternate positions of lines or points and without expressing a legal opinion, inform clients of their options to resolve identified boundary conflicts.

D. New, replaced, and rehabilitated Monuments set or rehabilitated by the Surveyor in conjunction with a Boundary Survey shall bear the Surveyor's registration number.

E. Found Monuments accepted as marking a corner of the surveyed boundary or used to locate a corner of the surveyed boundary that are not uniquely identified in a recorded Document shall have the Surveyor's registration number affixed to them when practical or be uniquely identified in the Record of Survey.

F. A Surveyor shall make all measurements according to the following specifications:

1. The Surveyor shall ensure that any equipment used is in proper repair and in good working order;
2. The Surveyor shall ensure the survey achieves an accuracy that meets the standard of care for the time and location where the Surveyor performed the survey and is consistent with the measurement technology and methods the Surveyor used to execute the survey; and
3. The Surveyor shall specify the lengths and directions of the measured lines so that mathematical closure is achieved, with allowance for rounding error.

G. A Surveyor shall ensure the Record of Survey is filed according to A.R.S. § 33-105(A) and includes at a minimum, the following items:

1. The county recorder's recording information for the property the Surveyor surveyed and adjacent properties, and the surveyed property owner's name;

2. The scale, indicated by a graphic and numeric representation. The Basis of Bearings represented by a north arrow or some other means specifying the orientation with respect to the measured bearings, along with an indication or statement as to how the Basis of Bearings was established;
3. The dimensions of the boundary being surveyed as measured in the current survey, and the relevant record dimensions or references to Documents;
4. The Monuments marking the location of the corners the Surveyor relied upon to determine the location of the boundary of the property being surveyed and whether the Monuments are set, found, rehabilitated, or replaced;
5. An accurate description of the physical characteristics and markings of the Monuments in sufficient detail for unique identification;
6. Pertinent facts and dimensions the Surveyor used in the determination of the Boundary Survey, including relevant controlling corners with Monuments and calculated corner positions;
7. If a Surveyor rejects a Monument, the description of the Monument shall include the physical properties of the Monument, and a detailed explanation justifying the rejection of the Monument;
8. The location and description of additional evidence the Surveyor used to determine the boundary, including fences, buildings, hedges, walls, or other evidence;
9. A minimum of three curve parameters for all curves, together with a chord bearing, radial bearing, or tangent bearing for non-tangent curves. Curves are assumed to be tangent to the incoming and outgoing lines unless otherwise noted;
10. A list of the Documents and recording information that influenced the Surveyor's determination of the boundary location;
11. The Coordinates identified as follows;
    a. If the Surveyor identifies horizontal and/or vertical Coordinates, the Surveyor shall provide sufficient information to reproduce them, including their specific units of measure;
    b. If the Surveyor identifies Coordinates based on an official government datum, reference frame, or map projection, the Surveyor shall include the name of each of these coordinate system elements. The Surveyor shall also provide any additional information needed to unambiguously show how the Surveyor derived the Coordinates. This includes, but is not limited to, the following:
        i. Reference epoch,
        ii. Realization or version name,
        iii. Projection system zone, and
        iv. Geoid model;
    c. If an existing government projection was scaled to ground, the Surveyor shall provide the scale factor and the Coordinates where the Surveyor applied it. The Surveyor shall document other modifications, such as rotations and translations, sufficiently to allow unambiguous reproduction;
    d. If a Surveyor uses Coordinates based on an arbitrary system or other local system that is not part of the public record, the Surveyor shall include sufficient information to reproduce the coordinate system, including:
        i. Parameters for non-government map projections, even if the projection is referenced to an official government datum or reference frame;
        ii. The Surveyor shall fully define other methods that affect the coordinate values, including rotation, translation, and scaling of the projected values of horizontal Coordinates; and
        iii. For elevations and heights, the Surveyor shall also document any vertical shifts and/or tilted planar corrections;
12. The firm name, the Surveyor's registration number and contact information, and the name of the owner of record;
13. The following language: "This map, or plat, and the survey on which it was based, were made in accordance with the Arizona Boundary Survey Minimum Standards in Arizona Administrative Code R4-30-305."
14. The date range of the field survey and the date of the completed Record of Survey;
15. The Surveyor's signed and dated seal; and
16. An explanation, table, or legend of all symbology and abbreviations the Surveyor used.

H. Monuments the Surveyor sets to mark, reference, or witness the location of a boundary corner shall meet the following requirements:

1. If the Monument is set at either a Public Land Survey System section or 1/4-section corner, refer to applicable state statutes relative to setting Monuments at those positions.
2. All new Monuments, including the Surveyor's Arizona registration number thereon, shall provide a degree of permanency, consistent with that of adjacent terrain and physical features.
3. Whenever and wherever practicable, new or replacement boundary Monuments, and witness Monuments set on corners shall satisfy the following minimum criteria:
    a. Be at least one-half inch in diameter, at least 16 inches long, and the body of the monument shall be made of metal as determined by the Surveyor, suitable for the environment. The Registrant's number shall be stamped, cast, or scribed into a metallic surface as determined by the Surveyor, suitable for the environment. The metal the Surveyor's number is on, if not on the body of the Monument itself, shall be affixed either by compression fit to the body of the Monument, epoxied to it, or attached by a wire as determined by the Surveyor, suitable for the environment. In situations where not all the metals used are ferromagnetically detectable, a magnet shall be incorporated into or buried alongside the Monument;
    b. Reference Monuments and witness Monuments shall bear markings identifying their purpose and be described in detail in the Record of Survey; and
    c. In the event local subdivision regulations allow for the recording of a subdivision plat without having all of the survey Monuments set, the Surveyor shall place all the exterior boundary Monuments at the time of the filing of the preliminary plat and recording of a Record of Survey. The Surveyor shall set interior property corner Monuments as soon as completion of the infrastructure and improvements make it practical to do so. If the Monuments placed differ from those described on the final plat, the Surveyor shall record a Record of Survey showing the differ-

ences. All Monuments set shall bear the registration number of the Surveyor of record. If the Surveyor of record is not available to supervise the setting of the interior property corner Monuments, then the Monuments set shall bear the registration number of the Surveyor responsible for setting the Monuments at the time the Monuments were set, and the Surveyor shall record a Record of Survey.

I. When created by a Surveyor, a written property description of a surveyed tract of land shall provide information to properly locate the property and distinctly set it apart from all other property.

J. When the surveyed property's dimensions, boundaries, and area are in substantial agreement with an existing recorded, written description, then that existing, recorded description shall be used.

K. New property descriptions shall contain the following:

1. Where applicable, a caption, a body, and qualifying clauses;
2. As an additional description of the existing, precedent aliquot description, a metes, a bounds, or a metes and bounds description of the existing aliquot description that is noted as an additional description;
3. Every Public Land Survey System aliquot description shall contain the applicable county, meridian, township, range, and sectional information;
4. Every platted subdivision lot description shall contain the lot, block, unit, if applicable, name of the subdivision, city, if applicable, county, and recorder's document number;
5. When based on a current survey, a written property line boundary description shall contain the applicable portions of the following:
   a. The first part, called the caption, shall contain the applicable information from subsections (K)(3) and/or (K)(4); and
   b. The second part, called the body, shall contain all of the following attributes that apply:
      i. A clearly stated Basis of Bearings, referencing two controlling Monuments, which were physically existing at the time the Surveyor surveyed the property;
      ii. All controlling Monuments, including their physical description, and whether the Surveyor found, set, or replaced the Monument;
      iii. Sufficient data to enable a mathematical verification of the property being described in the body and a mathematical tie from the Basis of Bearing to the point of beginning;
      iv. Where described, curved property boundaries shall contain sufficient information to allow verification of the data by mathematical analysis;
      v. Curves are presumed to be circular tangent curves unless otherwise stated. Non-tangent curves shall also include the radial bearing or chord bearing in the description. Spiral (transition) curves shall include enough parameters for a Surveyor to reconstruct the curves unambiguously.
6. Complete citations to maps, plats, Documents, and other matters of record, which are to be incorporated into and made a part of the description by reference; and
7. The Surveyor's stamp and dated signature.

Preface

Under Arizona law, the Department of State, Office of the Secretary of State (Office), Administrative Rules Division, accepts state agency rule notice and other legal filings and is the publisher of Arizona rules. The Office of the Secretary of State does not interpret or enforce rules in the *Administrative Code*. Questions about rules should be directed to the state agency responsible for the promulgation of the rule.

Scott Cancelosi, Director
ADMINISTRATIVE RULES DIVISION

Rules

The definition for a rule is provided for under A.R.S. § 41-1001. "'*Rule' means an agency statement of general applicability that implements, interprets, or prescribes law or policy, or describes the procedures or practice requirements of an agency.*"

The *Arizona Administrative Code*

The *Arizona Administrative Code* is where the official rules of the state of Arizona are published. The *Code* is the official codification of rules that govern state agencies, boards, and commissions.

The *Code* is separated by subject into Titles. Titles are divided into Chapters. A Chapter includes state agency rules. Rules in Chapters are divided into Articles, then a Section number with a heading. The "R" at the beginning of the Section number stands for "rule." The rule itself includes sequential letters and numbers in an outline. Each lettered or numbered Section is called a subsection of the rule.

Rules are codified quarterly in the *Code*. For example:

Rules codified in the first quarter are filed between January 1 through March 31.

Rules codified in the second quarter are filed between April 1 through June 30.

Rules codified in the third quarter are filed between July 1 through September 30.

Rules codified in the fourth quarter are filed between October 1 through December 31.

Supplement release dates are included in the footers of each Chapter. The first supplement for the first quarter of 2026 is cited as Supp. 26-1. Supplements are released three to four weeks after the end of the quarter because filings are accepted until the last day of the quarter.

Please note: The Office publishes by Chapter, not by individual rule Section. Therefore there might be only a few Sections codified in each Chapter released in a supplement. The Office links to these codified Sections in the Table of Contents of this Chapter.

How to Use the *Code*

Rules may be in effect before a supplement is released by the Office. Therefore, the user should refer to issues of the *Register* for recent updates to rule Sections.

Authentication of PDF *Code* Chapters

The Office began to authenticate Chapters of the *Code* in Supp. 18-1 to comply with A.R.S. §§ 41-1012(B) and A.R.S. § 41-5505.

A certification verifies the authenticity of each *Code* Chapter posted as it is released by the Office of the Secretary of State. The authenticated pdf of the *Code* includes an integrity mark with a certificate ID. Users should check the validity of the signature, especially if the pdf has been downloaded. If the digital signature is invalid it means the document's content has been compromised.

Rule History

Refer to the HISTORICAL NOTE at the end of each Section for the effective date of a rule. The note also includes the *Arizona Administrative Register* volume and page number in which the notice was published (A.A.R.) and beginning in supplement 21-4, the date the notice was published in the *Register*.

Arizona Revised Statutes References

The Arizona Revised Statutes (A.R.S.) are available online at the Legislature's website, www.azleg.gov. An agency's authority note to make rules is often included at the beginning of a Chapter. Other Arizona statutes may be referenced in rule under the A.R.S. acronym.

Session Law References

Arizona Session Law references in a Chapter can be found at the Secretary of State's website, www.azsos.gov under Services-> Legislative Filings.

Exemptions to the APA

It is not uncommon for an agency to be exempt from the steps outlined in the rulemaking process as specified in the Arizona Administrative Procedures Act, also known as the APA (Arizona Revised Statutes, Title 41, Chapter 6, Articles 1 through 10). Other agencies may be given an exemption to certain provisions of the Act.

An agency's exemption is written in law by the Arizona State Legislature or under a referendum or initiative passed into law by Arizona voters.

When an agency files an exempt rulemaking package with our Office it specifies the law exemption in what is called the preamble of rulemaking. The preamble is published in the *Register* online at www.azsos.gov/rules, click on the *Administrative Register* link.

Editor's notes at the beginning of a Chapter provide information about rulemaking Sections made by exempt rulemaking. Exempt rulemaking notes are also included in the historical note at the end of a rulemaking Section.

The Office makes a distinction to certain exemptions because some rules are made without receiving input from stakeholders or the public. Other exemptions may require an agency to propose exempt rules at a public hearing.

Personal and Commercial Use of the Chapter

This Chapter is posted as a public courtesy online, and is for private use only. Those who wish to use the contents for resale or profit should contact the Office about Commercial Use fees. For information on commercial use fees review A.R.S. § 39-121.03 and 1 A.A.C. 1, R1-1-113.

TITLE 9. HEALTH SERVICES

CHAPTER 10. DEPARTMENT OF HEALTH SERVICES - HEALTH CARE INSTITUTIONS: LICENSING

Authority: A.R.S. §§ 36-132(A)(1), 36-136, 36-405, and 36-406

Supp. 26-3

Editor's Note: The heading for 9 A.A.C. 10 changed from "Licensure" to "Licensing" per a request from the Department of Health Services (Supp. 03-4).

Editor's Note: The Office of the Secretary of State publishes all Chapters on white paper (Supp. 01-2).

Editor's Note: This Chapter contains rules which were adopted, amended, and repealed under exemptions from the provisions of the Administrative Procedure Act (A.R.S. Title 41, Chapter 6) pursuant to Laws 1993, Ch. 163, § 3(B); Laws 1996, Ch. 329, § 5; Laws 1998, Ch. 178 § 17, and Laws 1999, Ch. 311. Exemption from A.R.S. Title 41, Chapter 6 means that the Department of Health Services did not submit these rules to the Governor's Regulatory Review Council for review; the Department may not have submitted notice of proposed rulemaking to the Secretary of State for publication in the Arizona Administrative Register; the Department was not required to hold public hearings on these rules; and the Attorney General did not certify these rules. Because this Chapter contains rules which are exempt from the regular rulemaking process, the Chapter is printed on blue paper.
