SENATE BILL 1465

AN ACT

AMENDING SECTIONS 49-761, 49-762, 49-762.02 AND 49-762.07, ARIZONA REVISED STATUTES; RELATING TO REGULATION OF SOLID WASTE.

(TEXT OF BILL BEGINS ON NEXT PAGE)

1 Be it enacted by the Legislature of the State of Arizona:

2 Section 1. Section 49-761, Arizona Revised Statutes, is amended to
3 read:

4 49-761. Rule making authority for solid waste facilities;
5 exemption; financial assurance; recycling facilities

6 A. The department shall adopt rules regarding the storage, processing,
7 treatment and disposal of solid waste as prescribed by subsections B through
8 M of this section. In adopting rules, the department shall consider the
9 nature of the waste streams at the facilities to be regulated. The
10 department shall also consider other applicable federal and state laws and
11 rules in an effort to avoid practices or requirements that duplicate, are
12 inconsistent with or will result in dual regulation with other applicable
13 rules and laws. FACILITIES THAT OBTAIN AND MAINTAIN COVERAGE UNDER A GENERAL
14 PERMIT ESTABLISHED BY THE DEPARTMENT PURSUANT TO SECTION 49-706 ARE EXEMPT
15 FROM RULES ADOPTED PURSUANT TO THIS SECTION. In adopting rules for solid
16 waste facilities, the director may include requirements for corrective
17 actions in response to a release, as defined in section 49-281, from a solid
18 waste facility that violates or results in a violation of any provision of
19 this chapter, rule adopted pursuant to this chapter or solid waste facility
20 plan approved pursuant to this chapter. These rules shall be consistent with
21 section 49-762.08, subsection B, subsection C, paragraphs 1 and 2 and
22 subsections D and E.

23 B. For purposes of administering 42 United States Code section 6945,
24 as amended November 8, 1984, 40 C.F.R. part 258 is adopted by reference
25 except as prescribed by paragraph 2 of this subsection. This subsection, as
26 it applies to municipal solid waste landfills, governs if there is any
27 conflict between this subsection and any other statute relating to solid
28 waste. Municipal solid waste landfill facility plans submitted pursuant to
29 section 49-762 shall comply with this subsection. In administering this
30 subsection or in adopting or administering any rules adopted pursuant to this
31 subsection, the department shall ensure that any discretion allowed to a
32 director of an approved state pursuant to the federal regulations is
33 maintained. The following apply to the department's administration of 42
34 United States Code section 6945 and to the department's adoption of rules for
35 municipal solid waste landfills:

36 1. The department may adopt rules for municipal solid waste landfills.
37 Rules adopted pursuant to this paragraph shall not be more stringent than or
38 conflict with 40 C.F.R. part 258 for nonprocedural standards, except that the
39 department may adopt aquifer protection standards that are more stringent
40 than 40 C.F.R. part 258 if those standards are consistent with and no more
41 stringent than standards developed pursuant to chapter 2, article 3 of this
42 title, or if the standards are adopted pursuant to article 9 of this chapter.
43 Rules adopted pursuant to this paragraph are effective on the concurrence of
44 the administrator with this state's municipal solid waste landfill program.

1 2. 40 C.F.R. part 258, table I is not adopted in its entirety. The
2 department shall use aquifer water quality standards that have been adopted
3 by the department pursuant to section 49-223 and shall use those portions of
4 table I that are more restrictive than the standards adopted pursuant to
5 section 49-223.

6 C. The department shall adopt rules for those solid waste land
7 disposal facilities that are not municipal solid waste landfills. Rules
8 adopted pursuant to this subsection shall not be more stringent than or
9 conflict with 40 C.F.R. part 257 for nonprocedural standards, except that the
10 department may adopt aquifer protection standards that are more stringent
11 than 40 C.F.R. part 257 if these standards are consistent with and no more
12 stringent than standards developed pursuant to chapter 2, article 3 of this
13 title, or if the standards are adopted pursuant to article 9 of this chapter.
14 In administering this subsection, the department shall ensure that any
15 discretion allowed to a director of an approved state pursuant to the federal
16 regulations is maintained in the department's rules. Aquifer protection
17 provisions adopted pursuant to this subsection do not apply to an owner or
18 operator of a solid waste facility if the owner or operator submits an
19 administratively complete application for an aquifer protection permit
20 pursuant to chapter 2, article 3 of this title before the date that the owner
21 or operator is required to submit a solid waste facility plan.

22 D. The department shall adopt rules to define biohazardous medical
23 waste and to regulate biohazardous medical waste and medical sharps to
24 include all of the following:

25 1. A definition for biohazardous medical waste that includes wastes
26 that contain material that is likely to transmit etiologic agents that have
27 been shown to cause or contribute to increased human morbidity or mortality
28 of epidemiologic significance. The department shall consult with the
29 department of health services in making this determination.

30 2. Reasonably necessary rules regarding the storage, collection,
31 transportation, treatment and disposal of biohazardous medical waste and
32 medical sharps, beginning with the placement by the generator of the waste in
33 containers for the purpose of waste collection. The department may require
34 payment of a fee for the licensure of a transporter of biohazardous medical
35 waste. ~~After the effective date of this amendment to this section~~ JULY 20,
36 2011, the department shall establish by rule a fee for the licensure of a
37 transporter of biohazardous medical waste, including a maximum fee. As part
38 of the rule making process, there must be public notice and comment and a
39 review of the rule by the joint legislative budget committee. After
40 September 30, 2013, the department shall not increase that fee by rule
41 without specific statutory authority for the increase. The fees shall be
42 deposited, pursuant to sections 35-146 and 35-147, in the solid waste fee
43 fund established by section 49-881. In the case of self-hauling of waste by
44 the generator, all storage facilities under the generator's control and all
45 waste handling practices including storage, treatment and transportation

1 shall be in accordance with these rules. The department shall also adopt
2 reasonably necessary rules regarding the tracking of biohazardous medical
3 waste and medical sharps.

4 E. The department may adopt reasonably necessary rules regarding the
5 storage, collection, transportation, treatment and disposal of
6 nonbiohazardous medical waste beginning with the placement by the generator
7 of the waste in containers for the purpose of waste collection. In the case
8 of self-hauling of the waste by the generator, all storage facilities under
9 the generator's control and all waste handling practices including storage,
10 treatment and transportation shall be in accordance with these rules.

11 F. The department shall adopt rules for the application of sludge from
12 a wastewater treatment facility to land for use as fertilizer or beneficial
13 soil amendment. For the purposes of this subsection, "sludge" has the same
14 meaning as sewage sludge as defined in 40 Code of Federal Regulations section
15 122.2 in effect on January 1, 1998.

16 G. The department shall adopt rules regarding the storage, processing,
17 treatment or disposal of solid waste at solid waste facilities that are
18 identified in section 49-762.01. The rules shall allow the owner or operator
19 to certify compliance with the department's statutes and rules ~~in lieu~~
20 INSTEAD of obtaining a solid waste facility plan approval. The rules shall
21 provide that the applicant at its option may request approval of a solid
22 waste facility plan rather than certifying compliance.

23 H. The department shall issue by rule best management practices for
24 the classes of solid waste facilities set forth in section 49-762.02.

25 I. The department shall adopt reasonably necessary rules establishing
26 minimum standards for storing, collecting, transporting, disposing and
27 reclaiming solid waste, including garbage, trash, rubbish, manure and other
28 objectionable wastes. These rules shall provide for inspecting premises,
29 containers, processes, equipment and vehicles, and for abating as
30 environmental nuisances any premises, containers, processes, equipment or
31 vehicles that do not comply with the minimum standards of these rules. The
32 rules adopted pursuant to this subsection do not apply to sites that are
33 either regulated by section 49-762, 49-762.01 or 49-762.02 or exempted by
34 section 49-701, paragraph 29 or section 49-701.01. Notwithstanding any other
35 provision of this subsection, rules adopted pursuant to this subsection shall
36 apply to defining environmental nuisances pursuant to section 49-141.

37 J. The department shall adopt rules relating to financial assurance
38 requirements. The rules shall indicate the types of financial assurance
39 mechanisms to be required and the content, terms and conditions of each
40 financial mechanism, including circumstances under which the department may
41 take action on the financial assurance mechanism for facility closure,
42 postclosure care if necessary and corrective action for known releases. The
43 financial assurance mechanisms shall include all of the following:

- 44 1. Surety bond.
- 45 2. Certificate of deposit.

- 1 3. Trust fund with pay-in period.

- 12 department to consider the entity's bond rating, income stream, assets,
- 13 liabilities and assessed valuation of taxable property.

- 14 9. Multiple financial assurance mechanisms.
- 15 10. Additional financial assurance mechanisms that may be acceptable to
- 16 the director.

17 K. The department shall adopt rules that prescribe standards to be
18 used in determining if a site is a recycling facility.

19 L. The director may adopt rules that prescribe standards to be used in
20 determining if a solid waste facility includes significant solid waste
21 transfer activities that warrant the facility's regulation as a transfer
22 facility.

23 M. The department shall adopt facility design, construction,
24 operation, closure and postclosure maintenance rules for biosolids processing
25 facilities and household waste composting facilities that must obtain plan
26 approval pursuant to section 49-762.

27 Sec. 2. Section 49-762, Arizona Revised Statutes, is amended to read:
