## PRIMARY ELECTION

### SEPTEMBER 2, 2008

## HAND COUNT/AUDIT REPORT

### Precinct Hand Count/ Audit

Pursuant to A.R.S §16-602(C), Maricopa County conducted the hand count/audit for the September 2, 2008 Primary Election. The statutory requirement is for 2% of the precincts used for the given election. A total of **23** of the **1,142** precincts were audited. The specific races and precincts to be audited were selected in a random drawing by Mark Manoil, Maricopa County Democratic Party Chair and Tom Husband, Maricopa County Republican Party Chair.

The representatives from the political parties met at 11:00PM on Tuesday, September 2, 2008 to conduct the drawing. An initial toss of a coin was done to determine the order that the political parties would begin selecting the races and precincts to be audited. The Republican Party was selected to start the drawing and thus allowed to begin the selection of the races by lot. Four contested (4) races are required to be selected for the Primary Election (*2 Statewide, 1 Federal & 1 State Legislative*) and since there are only two (2) contested Statewide races available these were automatically assigned to be audited. The remaining two (2) races (*1 Federal & 1 State Legislative*) were drawn by lot and selection alternated between the two Political Party Chairs, until all required races were selected.

Continuing with the draw order previously established, the alternating selection amongst the Political Party Chairs was maintained for the draw of the 23 precincts to be audited for the given races chosen. The precincts offered for draw were spread amongst the different contested races to be audited and selected by lot. The precincts chosen are identified on the "Master Precinct and Race Selection Worksheet" that follows. The races selected for the hand count/audit were:

- Statewide Race – Corporation Commissioner - DEM (1142 precincts possible)
- Statewide Race – Corporation Commissioner - REP (1142 precincts possible)
- Federal Race – U.S. Congressional District 7 - REP (38 precincts possible)
- State Legislative Race – State Representative District 12 - REP (39 precincts possible)

The hand count/audit began at 1:00pm on Wednesday, September 3, 2008 and was concluded on Thursday, September 4, 2008 at 5:00 PM.

The tabulation method used was the stack-to method for the optical scan ballots and the tally method for the touch screen accessible voting devices (DRE). The audit was conducted by a three member board made up of no more than two members from the same political party.

The precinct hand count/audit was performed on both the optical scan ballots and the ballots cast on the accessible voting devices for each of the 23 precincts selected.

### **Early Ballot Hand Count/Audit**

Pursuant to A.R.S. §16-602(F), Maricopa County conducted the hand count/audit for the Early Ballots voted in Maricopa County. The statutory requirement is for 1% of the total early ballots cast or **5,000** ballots, whichever is less. The number of Early Ballots requested in Maricopa County totaled 515,336. Although the total number of ballots cast is less than the amount requested, Maricopa County opted to use this greater number to enhance the hand count/audit for the Early Ballots. The Early Ballots are processed in batches of 200 and the total number of batches that were selected to reach the **5,000** ballot count needed was a total of **25** batches (25 batches x 200 per batch = 5,000 ballots).

The batches selected are identified on the "Master Precinct and Race Selection Worksheet" that follows. The **5,000** ballots in the **25** batches selected exceeds the 1% statutory requirement in that this quantity is greater than the 1% of the total number of ballots cast. The observers for the political parties randomly selected the batches during the tabulation of the Early Ballots which began after the completion of the Maricopa County Logic & Accuracy test held August 26, 2008. Each political party independently selected batches.

### **Conclusions**

The primary benefit of the hand count/audits is that it shows that the equipment indeed does accurately tabulate the votes as cast by the voters of Maricopa County, Arizona.

**There were no machine variances that occurred and the final result reports that follow indicate such. As a note, the "MASTER - PRECINCT HAND COUNT MARGIN WORKSHEET" and the "MASTER - EARLY BALLOT HAND COUNT MARGIN WORKSHEET" are summaries of each of the precincts and Early Ballot batches that were audited. These summaries reflect the "machine count", "absolute difference" and the formula used to determine any variance for each of these audits (*Precinct Ballots and Early Ballots*).**

**NOTE:** When zero (0) votes are shown for any given candidate, within the following precinct specific or Early Voting Batch specific reports, it is because the candidate either did not have any votes cast for them within these given precincts/batches OR the precinct/batch being audited and selected at random was within the given **Congressional District 7** but not within **Legislative District 12** or vice versa. The Office of **Corporation Commissioner**, as a Statewide Office, appeared on every ballot and these reports reflect such. Furthermore, Precinct 0030 shows zero (0) votes for all candidates for the precinct ballots audited due to the fact that this particular precinct, albeit drawn, had no ballots cast at this specific polling place.
