

MARICOPA COUNTY, ARIZONA

GENERAL ELECTION – NOVEMBER 2, 2010

HAND COUNT/AUDIT REPORT

Synopsis:

Pursuant to A.R.S. §16-602(B), Maricopa County conducted the hand count/early ballot audit for the **November 2, 2010 General Election**. 2% of the precincts were counted as required by statute, which amounted to **23** precincts out of **1,142** total precincts.

The hand count began on **Wednesday, November 3, 2010** at **6:00 p.m.** when the Maricopa County Chairmen of the Republican, Democratic, and designee of the Libertarian Parties met to select the precincts, races, early ballot audit batches/districts, and early voting site (DRE) touch screen machine to be audited. All ballots were accounted for in the central counting location before the selection process started and reported on the Secretary of State's website. The selection order was chosen by lot, and the **Republican** Party was chosen to go first followed by the **Democrat** Party and then the **Libertarian** Party.

With the order established, the specific precincts to be counted were selected with the participating County Party Chairmen or designee alternating the selection. Once the precincts were chosen, the races to be counted were selected.

Four contested races were chosen as required by law. One (1) Statewide race, one (1) Statewide Ballot Measure, one (1) Federal race, and one (1) State Legislative race were counted. Specifically, the following list displays the contested races that were counted:

- Statewide Race – **Corporation Commissioner** (1,142 precincts)
- Statewide Ballot Measure – **Proposition 301** (1,142 precincts)
- Federal Race – **U.S. Representative in Congress** (1,142 precincts)
- State Legislative Race – **State Representative** (998 precincts possible)

The master precinct and race selection lists are attached for review. The physical hand count started at **9:00 a.m.** on **Thursday, November 4, 2010** and was concluded at **5:00 p.m.** on **November 5, 2010**. The tabulation method used was the stacking method for the optical scan ballots and the tally method for the touch screen accessible voting devices (DRE). The audit was conducted by **45** boards made up of 3 members, of which not more than 2 members were from the same political party. This hand count included votes cast on both the optical scan and touch screen devices from the selected precincts.

Early Ballot Audit:

1% of early ballots were audited as per Arizona State Law. The early ballot audit consisted of **30** batches with at least **4** batches from every machine used for tabulation. Each batch contained approximately **175** early ballots. There were a total of **660,713** early ballots cast in Maricopa County for the **2010 General** Election.

Comments:

Where a discrepancy occurred, the reason for the discrepancy is notated and described in each report. Please find the following precinct and early ballot reports for your review. When a comment is noted indicating "Intent", this term describes votes that were unreadable by the machine but were determined to be votes by the boards for a given candidate or issue. As an example, ballots where the voter circled the candidate's name instead of connecting the arrow pointing to the candidate's name, as instructed. For any marks indicated by the boards as missed by the machine (*too faint, too light, red pen, etc.*), those totals are being noted as "machine errors" in the following reports.

Additional Comments:

Precinct 0054 – BLACKHAWK had a one (1) vote variance within 3 races that was caused by an “invalid” reject ballot being placed within the return read ballots. The machine tape indicates that an invalid ballot was attempted to be processed but not tabulated. The ballot was invalid because of prominent stray marks made by the voter on the back of the ballot that created false errors when it was attempted to be read by the machine. Vote totals match when this single invalid ballot is not tallied. A variance was still noted as a machine miscount for the purpose of denoting this occurrence.

***Designated Margin for Early Voting ballots, in accordance with A.R.S. § 16-602(K)(4): 2.000%**

Additional Comments:

The minor variances noted for early ballots are explained in the specific batch reports. This nominal variance was primarily attributable to a missing ballot in EV Batch 58 and not a machine error. Nonetheless, this variance was noted as a machine miscount for the purpose of denoting this occurrence. There was only one (1) actually light mark variance that was noted by the boards as a possible machine error in EV Batch 56 for the FEDERAL race.

"PRECINCT SPECIFIC" HAND COUNT REPORTS AND "EARLY BALLOT BATCH SPECIFIC" HAND COUNT REPORTS FOLLOW THIS SUMMARY

THE FOLLOWING WORKSHEETS ARE THE SUPPORTING AND DETAILED COUNTS THAT WERE USED TO DERIVE THE ABOVE SUMMARIES AND DESIGNATED MARGIN PERCENTAGES.

For any variances that occurred, the specific Precinct or Early Ballot Hand Count Reports that follow indicate the reasons for these variances in the "Comments" section for the affected "Race Category". These variances are noted as part of the designated margin calculation. Some of these variances are noted as "intent" errors. The "intent" errors reflect votes that were unreadable by the machine but were determined by the boards to be votes for a given candidate or issue. As an example, ballots where the voter circled the candidate's name instead of connecting the arrow pointing to the candidate's name, as instructed OR where there were very visible and profound bleed through marks from the back of the ballot where the machine saw this as an actual readable mark on the front of the ballot. The machine should not be faulted for this but this occurrence is still included as a machine variance and part of the designated margin calculation.

For any marks missed by the machine that that may have been too light for the machine to accurately read these marks, those are being listed as "machine errors" and as such these totals are also part of the designated margin calculations. Again, all variances are noted in the final result reports that follow.

PEARCY, BENJAMIN	17	17	0
TOTAL	643	642	1

Comments for why a discrepancy occurred:

Reviewed twice - new board assigned to this review. Upon 2nd review, one ballot in bag was an "invalid" reject ballot.

Machine did not count one ballot due to back of ballot stray marks. Vote totals match after removal of bad ballot.
