

MARICOPA COUNTY, ARIZONA

PRIMARY ELECTION – AUGUST 28, 2012

HAND COUNT/AUDIT REPORT

Synopsis:

Pursuant to A.R.S. §16-602(B), Maricopa County conducted the hand count/early ballot audit for the **August 28, 2012 Primary Election**. 2% of the precincts were counted as required by statute, which amounted to **15** precincts out of **724** total precincts.

The hand count began on **Wednesday, August 29, 2012** at **6:00 p.m.** when the Maricopa County Chairs of the Republican Party, Democratic Party, and authorized designee of the Green Party met to select the precincts, races, early ballot audit batches, and early voting site touch screen (DRE) machine to be audited. The Libertarian Party Chair was not present for this draw. All ballots were accounted for in the central counting location before the selection process started. The selection order was chosen by lot, and the **Democrat** Party was chosen to go first followed by the **Republican** Party and then the **Green** Party.

With the order established, the specific precincts to be counted were selected with the participating County Party Chairs alternating the selection. Once the precincts were chosen, the races to be counted were selected.

Four contested races were chosen as required by law. Since this election did not contain a Statewide Ballot Measure, 2 Statewide races, 1 Federal race, and 1 Legislative race were counted. Specifically, the following list displays the contested races that were counted:

Federal Race – **U.S. Senator - REP** (724 precincts)

Federal Race – **U.S. Representative - REP** (724 precincts)

Federal Race – **U.S. Representative - DEM** (724 precincts)

State Legislative Race – **State Representative - REP** (323 precincts possible)

The master precinct and race selection lists are attached for review. The physical hand count started at **9:00 a.m.** on **Thursday, August 30, 2012** and was concluded at **4:30 p.m.** on **August 30, 2012**. The tabulation method used was the stacking method for the optical scan ballots and the tally method for the touch screen accessible voting devices (DRE). The audit was conducted by **34** boards made up of 3 members, of which not more than 2 members were from the same political party. This hand count included votes cast on both the optical scan and touch screen devices from the selected precincts.

Early Ballot Audit:

1% of early ballots were audited as per Arizona State Law. The early ballot audit consisted of **25** batches with at least **2** batches from every machine used for tabulation. Each batch contained approximately **200** early ballots. There were a total of **398,424** early ballots cast in Maricopa County for the **2012 Primary** Election.

Comments:

Where a discrepancy occurred, the reason for the discrepancy is notated and described in each report. Please find the following precinct and early ballot reports for your review. When a comment is noted indicating "*Intent*", this term describes votes that were unreadable by the machine but were determined to be votes by the boards for a given candidate or issue. As an example, ballots where the voter circled the candidate's name instead of connecting the arrow pointing to the candidate's name, as instructed. For any marks indicated by the boards as missed by the machine (*too faint, too light, red pen, etc.*), those totals are being noted as "machine errors" in the following reports.

"PRECINCT SPECIFIC" HAND COUNT REPORTS

AND

"EARLY BALLOT BATCH SPECIFIC" HAND COUNT REPORTS

FOLLOW THIS SUMMARY

THE FOLLOWING WORKSHEETS ARE THE SUPPORTING AND DETAILED COUNTS THAT WERE USED TO DERIVE THE ABOVE SUMMARIES AND DESIGNATED MARGIN PERCENTAGES.

For any variances that occurred, the specific Precinct or Early Ballot Hand Count Reports that follow indicate the reasons for these variances in the "Comments" section for the affected "Race Category". These variances are noted as part of the designated margin calculation. Some of these variances are noted as “intent” errors. The “intent” errors reflect votes that were unreadable by the machine but were determined by the boards to be votes for a given candidate or issue. As an example, ballots where the voter circled the candidate’s name instead of connecting the arrow pointing to the candidate’s name, as instructed OR where there were very visible and profound bleed through marks from the back of the ballot where the machine saw this as an actual readable mark on the front of the ballot. The machine should not be faulted for this but this occurrence is still included as a machine variance and part of the designated margin calculation.

For any marks missed by the machine that that may have been too light for the machine to accurately read these marks, those are being listed as “machine errors” and as such these totals are also part of the designated margin calculations. Again, all variances are noted in the final result reports that follow.

Comments for why a discrepancy occurred: Board reviewed ballots twice and hand count total for JEFF DAVIS is correct.

Board identified a ballot that was noted as having a light pen rest mark in the JEFF DAVIS arrow area. The board determined this was not the vote "INTENT" of the voter, although the machine would have counted this mark as a vote for JEFF DAVIS.
