

MARICOPA COUNTY, ARIZONA

GENERAL ELECTION – NOVEMBER 6, 2012

HAND COUNT/AUDIT REPORT

Synopsis:

Pursuant to A.R.S. §16-602(B), Maricopa County conducted the hand count/early ballot audit for the **November 6, 2012 General Election**. 2% of the precincts were counted as required by statute, which amounted to **15** precincts out of **724** total precincts.

The hand count began on **Wednesday, November 7, 2012** at **6:00 p.m.** when the Maricopa County Chairs of the Republican Party, Democratic Party, and authorized designee of the Libertarian Party met to select the precincts, races, early ballot audit batches, and early voting site touch screen (DRE) machine to be audited. The Green Party Chair was not present for this draw. All precincts were reported and accounted for in the central counting location before the selection process started. The selection order was chosen by lot, and the **Republican** Party was chosen to go first followed by the **Libertarian** Party and then the **Democrat** Party.

With the draw order established, the specific precincts, early voting batches and early voting site touch screen (DRE) machine to be audited were selected with the participating County Party Chairs alternating the selection. Once the precincts, early voting batches and early voting site touch screen (DRE) machine were chosen, the races to be counted were selected.

Five contested races were chosen as required by law. 1 Presidential, 1 Statewide, 1 Statewide Ballot Measure, 1 Federal, and 1 State Legislative race were counted. Specifically, the following list displays the contested races that were counted:

- Presidential Candidates – **President** (724 precincts)
- Statewide Candidates – **Corporation Commissioner** (724 precincts)
- Statewide Ballot Measure – **Proposition 117** (724 precincts)
- Federal Candidates – **U.S. Senator** (724 precincts)
- State Legislative Candidates – **State Senator** (443 precincts possible)

The master precinct and race selection lists are attached for review. The physical hand count started at **9:00 a.m.** on **Thursday, November 7, 2012** and was concluded at **4:30 p.m.** on **Friday, November 8, 2012**. The tabulation method used was the stacking method for the optical scan ballots and the tally method for the touch screen accessible voting devices (DRE). The audit was conducted by **33** boards made up of 3 members, of which not more than 2 members were from the same political party. This hand count included votes cast on both the optical scan and touch screen devices from the selected precincts and early voting site.

Early Ballot Audit:

1% of early ballots were audited as per Arizona State Law. The early ballot audit consisted of **30** batches with at least **2** batches from every machine used for tabulation. Each batch contained approximately **170** early ballots. There were over **964,000** early ballots cast in Maricopa County for the **2012 General** Election.

Comments:

Where a discrepancy occurred, the reason for the discrepancy is notated and described in each report. Please find the following precinct and early ballot reports for your review. When a comment is noted indicating "*Intent*", this term describes votes that were unreadable by the machine but were determined to be votes by the boards for a given candidate or issue.

AdditionalComments: Precinct **0170** – DESERT BELL had one (1) ballot in the bag that was not showing up in the “BALLOTS CAST” total. There were 424 reported but 425 ballots in the bag. One of the ballots was an “Early Voting” labeled ballot and another was marked with a glitter pen. The board did not count the early voting ballot and believed it was not counted on the machine. This ballot was not audited by the Hand Count Board as a valid ballot. It appears that this ballot was counted on the machine because adding the votes from this ballot would balance the batch. However, the ballot cast with the glitter pen, appears to not been counted on the machine and counting this one in the audit is what caused the variance. We have accepted the board’s assessment and noted this variance but we are memorializing this as not being a “machine error” in agreement with the Hand Count Board’s analysis.

***Designated Margin for Early Voting ballots, in accordance with A.R.S. § 16-602(K)(4): 1.000%**

"PRECINCT SPECIFIC" HAND COUNT REPORTS AND "EARLY BALLOT BATCH SPECIFIC" HAND COUNT REPORTS FOLLOW THIS SUMMARY

THE FOLLOWING WORKSHEETS ARE THE SUPPORTING AND DETAILED COUNTS THAT WERE USED TO DERIVE THE ABOVE

For any variances that occurred, the specific Precinct or Early Ballot Hand Count Reports that follow would indicate the reasons for these variances in the "Comments" section for the affected "Race Category". These variances are noted as part of the designated margin calculation. Some of these variances may be noted as "intent" errors. The "intent" errors reflect votes that were unreadable by the machine but were determined by the boards to be votes for a given candidate or issue. As an example, ballots where the voter circled the candidate's name instead of connecting the arrow pointing to the candidate's name, as instructed OR where there were very visible and profound bleed through marks from the back of the ballot where the machine saw this as an actual readable mark on the front of the ballot. The machine should not be faulted for this but this occurrence is still included as a machine variance and part of the designated margin calculation.

For any marks not read by the machine because they were too light for the machine to accurately read them, those would also be listed as "machine errors" and as such these totals would also be part of the designated margin calculations, if existing. Again, all variances, if any, are noted in the final result reports that follow.

Comments: Precinct 0170 – DESERT BELL had one (1) ballot in the bag that was not showing up in the “BALLOTS CAST” total. There were 424 reported but 425 ballots in the bag. One of the ballots was an “Early Voting” labeled ballot and another was marked with a glitter pen. The board did not count the early voting ballot and believed it was not counted on the machine. This ballot was not audited by the Hand Count Board as a valid ballot. It appears that this ballot was counted on the machine because adding the votes from this ballot would balance the batch. However, the ballot cast with the glitter pen, appears to not been counted on the machine and counting this one in the audit is what caused the variance. We have accepted the board’s assessment and noted this variance but we are memorializing this as not being a “machine error” in agreement with the Hand Count Board’s analysis.
