

MARICOPA COUNTY, ARIZONA GENERAL ELECTION – NOVEMBER 4, 2014 HAND COUNT/AUDIT REPORT

Synopsis:

Pursuant to A.R.S. §16-602(B), Maricopa County conducted the hand count/early ballot audit for the **November 4, 2014 General Election**. 2% of the precincts were counted as required by statute, which amounted to **15** precincts out of **724** total precincts.

The hand count began on **Wednesday, November 5, 2014** at **6:00 p.m.** when the Maricopa County Chairs of the Republican Party and Democratic Party met to select the precincts, races, early ballot audit batches, and early voting site touch screen (DRE) machine to be audited. The Libertarian Party Chair was not present for this draw. All ballots were accounted for in the central counting location before the selection process started. The selection order was chosen by lot, and the **Democrat** Party was chosen to go first followed by the **Republican** Party.

With the order established, the specific precincts and early voting batches to be counted were selected with the participating County Party Chairs alternating the selection. Once the precincts were chosen, the races to be counted were selected.

Four contested races were chosen as required by law. 1 Federal race, 1 Statewide race, 1 Statewide Ballot Measure, and 1 Legislative race were counted. Specifically, the following list displays the contested races that were counted:

- Federal Race – **U.S. Representative** (724 precincts)
- Statewide Race – **Governor** (724 precincts possible)
- Statewide Ballot Measure – **Proposition 303** (724 precincts possible)
- State Legislative Race – **State Representative** (595 precincts possible)

The master precinct and race selection lists are attached for review. The physical hand count started at **9:00 a.m.** on **Thursday, November 6, 2014** and was concluded at **2:12 p.m.** on **November 7, 2014**. The tabulation method used was the stacking method for the optical scan ballots and the tally method for the touch screen accessible voting devices (DRE). The audit was conducted by **35** boards made up of 3 members, of which not more than 2 members were from the same political party. This hand count included votes cast on both the optical scan and touch screen devices from the selected precincts.

Early Ballot Audit:

1% of early ballots were audited as per Arizona State Law. The early ballot audit consisted of **30** batches with at least **1** batch from every machine used for tabulation. Each batch contained approximately **190** early ballots. There were **711,333** early ballots cast in Maricopa County for the **2014 General** Election.

Comments:

If a discrepancy occurred, the reason for the discrepancy is notated and described in each report. Please find the following precinct and early ballot reports for your review. When a comment is noted indicating "*Intent*", this term describes votes that were unreadable by the machine but were determined to be votes, by the boards, for a given candidate or issue. As an example, ballots where the voter circled the candidate's name instead of connecting the arrow pointing to the candidate's name, as instructed. These "*Intent*" board noted votes, although not a machine error, are still being included as part of the designated margin calculations. For any marks indicated by the boards as missed by the machine (*too faint, too light, red pen, etc.*), those totals are being noted as "machine errors" in the following reports and are also part of the designated margin calculations.

Helen Purcell
Maricopa County Recorder

**"PRECINCT SPECIFIC" HAND COUNT REPORTS
AND
"EARLY BALLOT BATCH SPECIFIC" HAND COUNT REPORTS
FOLLOW THIS SUMMARY**

THE FOLLOWING WORKSHEETS ARE THE SUPPORTING AND DETAILED COUNTS THAT WERE USED TO DERIVE THE ABOVE

For any variances that occurred, the specific Precinct or Early Ballot Hand Count Reports that follow would indicate the reasons for these variances in the "Comments" section for the affected "Race Category". Those variances are noted as part of the designated margin calculation when "Intent" or "Machine Error" is deemed to have occurred based on the Board's audit. For those variances noted as "Intent" errors reflect votes that were unreadable by the machine but were determined by the boards to be votes for a given candidate or issue. As an example, ballots where the voter circled the candidate's name instead of connecting the arrow pointing to the candidate's name (as instructed) OR where there were very visible and profound bleed through marks from the back of the ballot where the machine saw this as an actual readable mark on the front of the ballot. The machine is faulted for this despite it not actually being a machine read error and this occurrence is included as a machine error variance and is part of the designated margin calculation.

For any marks not read by the machine because they were too light for the machine to accurately read them or the board, upon their verified count, deemed the machine count to be in error, those would be listed as "machine errors" and as such those totals would also be part of the designated margin calculations, if existing. All variances, if any, are noted in the final result reports that follow.

Candidate's	Hand Count Total	Machine Total	Absolute Difference
GIDWANI, MICHAEL AARON (LD30)	73	73	0
LYON, JOHN (LD30)	83	83	0
LARKIN, JONATHAN (LD30)	80	80	0
MCCUNE-DAVIS, DEBBIE (LD30)	80	80	0
TOTAL	316	316	0

Comments for why a discrepancy occurred: For LD 30, board members disagreed as to total votes for "LYON, JOHN" and "MCCUNE-DAVIS, DEBBIE". One member at 84 for "LYON", other at 83 & machine count was 83. One member at 81 for "MCCUNE-DAVIS" and other at 80 & machine count was 80. Bleed through but not profound. Board could not agree-in such case, machine count is accepted.
