Election Day Polling Locations and Early Voted Ballot Batches Selected for Hand Count Audit

After the return of all election day ballots cast at all polling locations/vote centers, a coin toss was used to determine order of selection among present political party chairpersons for selection of batches to include in the hand count audit according to Election Procedure Manual in force:

Political Party Chairperson or Designee Order of Selection Determined by Coin Toss

Party Name	Political Party Chairperson or Designee Name	Signature	Drawn Order
Rep	Alice Bauman	<i>Alice W Bauman</i>	1
Dem	D.O.W. Drestler	<i>D.O.W. Drestler</i>	2

Early Voted Ballot Batches included in the hand count audit must be at least 1% or 5,000 early voted ballots **whichever is less**. The amount of Early Voted Ballot Batches reported by Recorder on July 21, 2026 was 14,960 early voted ballots. 1% of this amount is 149.60.

Circle the one that will be used:

1% amount rounded to nearest 100 is : 200 or 5,000 ballot maximum.

Since each batch of tabulated early voted ballot batches contains approximately 100 ballots, at least 3 batches must be randomly selected for hand count audit, with at least one batch for each of the three electronic tabulators used.

Early Voted Ballots included in the Hand Count Audit

Tabulator Name	Early Voted Ballot Batch Number	Serial Number When Drawn
<i>B</i>	<i>B0008</i>	<i>1976854</i>

<i>E</i>	<i>E0047</i>	<i>1976846</i>

Election Day Polling Locations and Early Voted Ballot Batches Selected for Hand Count Audit

Regular Voted Ballots from at least 2% of all polling locations/vote centers (precincts) or 2, whichever is greater must be included in the Hand Count Audit. The order of random selection by political party chairpersons or their designees continues in the same order.
