Re: Report due under A.R.S. § 16-165(M)

Dear President Petersen and Speaker Toma,

As you know, the implementation of the laws that precipitated these reports was challenging due to the ongoing litigation. The Secretary of State's office is currently developing programming in the Access Voter Information Database (AVID) to generate the required reports for the 13 counties that rely on AVID for their day-to-day voter registration administration and we are working with Maricopa and Pima Counties to ensure data collected in their systems is shared and included in these reports. Laws 2022, Ch. 370 requires the Secretary of State report the following information to the Legislature after each quarter.

I. The number of deaths reported to the secretary of state by the department of health services, the number of voter registration cancellation notices issued by the secretary of state to the county recorders as a result of those reports and the number of registrations canceled as a result of those notices.

- Number of deaths reported from 1/1/2024 – 3/31/2024: 19,965. The Arizona Department of Health Services provides the Secretary of State a record of the death of a resident of the state, but not everyone who is included in that list is a registered voter.
- Number of voter registration cancellation notices: 11,323
- Number of registrations canceled due to those notices: 11,323

II. The number of persons reported to the secretary of state who have been issued a driver license or the equivalent of an Arizona nonoperating identification license in another state, the number of notices sent pursuant to subsection E of this section and the number of voter registrations that have been placed in inactive status and the number of voter registrations that have been canceled as a result of those notices.

- Number of persons reported: 43,305
- Number of notices: The process for sending notices is in development.
- Number of voter registrations placed in inactive status: This process is in development.
- Number of voter registrations that have been canceled: This process is in development.
