

# NOTICES OF PUBLIC INFORMATION

Notices of Public Information contain corrections that agencies wish to make to their notices of rulemaking; miscellaneous rule-making information that does not fit into any other category of notice; and other types of information required by statute to be published in the *Register*. Because of the variety of material that is contained in a Notice of Public Information, the Office of the Secretary of State has not established a specific format for these notices.

**NOTICE OF PUBLIC INFORMATION  
DEPARTMENT OF ENVIRONMENTAL QUALITY  
PESTICIDES AND WATER POLLUTION CONTROL**

[M05-348]

- 1. Title and its heading:** 18, Environmental Quality  
**Chapter and its heading:** 6, Department of Environmental Quality – Pesticides and Water Pollution Control  
**Article and its heading:** 3, Groundwater Protection List  
**Section and its heading:** R18-6-301. Groundwater Protection List

**2. The public information relating to the listed rule:**

According to A.R.S. § 49-305, the Arizona Department of Environmental Quality (Department or ADEQ) is required to establish a groundwater protection list (GWPL or List) of those pesticides that have the potential to pollute groundwater. The Director shall immediately place all pesticides identified under A.R.S. § 49-303(C)(2) and (3) on the List and regulate the use of these pesticides if the pesticide is intended for application to or injection into the soil by ground based application equipment or chemigation, or if the application site will be flood or furrow irrigated within 72 hours of application of the pesticide based on label recommendations. A.A.C. R18-6-301 requires the Department to: 1) publish the draft Groundwater Protection List in the *Arizona Administrative Register* (A.A.R.); 2) accept public comments on the draft List during a 30-day public review period; and 3) publish the final List in the A.A.R. (this notice). The final GWPL becomes effective on December 1st of the publication year and is in effect for the next 12 months.

**3. 2005 Groundwater Protection List**

In May 2005, the Department published the draft GWPL in the A.A.R., based on the registration data supplied by the Arizona Department of Agriculture (ADAg) for 2004-2005. No comments were received as a result of the publication of the draft List. The final GWPL is being published with this Notice of Public Information and will also be placed on the Department’s web site at: <http://www.azdeq.gov/enviro/water/assessment/pesticide.html>

**Final 2005 Groundwater Protection List**

PRIMO WSB	100	752		95266-40-3	Trinexapac-Ethyl

**4. Regulation of Pesticide Products on the Groundwater Protection List**

Both statute (A.R.S. § 49-305(A)) and rule (A.A.C. R18-6-303) require the Department to regulate the use of these pesticides on the GWPL if the pesticide is intended for application to or injection into the soil by ground based application equipment or chemigation, or if the application site will be flood or furrow irrigated within 72 hours of application of the pesticide based on label recommendations. Not all pesticides on the GWPL are suitable for application as described so ADEQ is developing a separate list of those GWPL-listed pesticide products that will be regulated under this section. This informational list of products, which has been developed from the Department of Agriculture's registration database and review of the pesticide's label requirements, will be available from the Department web site and through the Arizona Department of Agriculture.

The rule requires that any person who soil applies an agricultural use pesticide on the GWPL must implement Best Management Practices (BMPs) to reduce or prevent the pollution of groundwater. This requirement applies equally to a person who hires another individual to soil apply an agricultural use pesticides on the GWPL such as an aerial applicator, pest control advisor, or farm workers.

Because of the diversity of Arizona's agricultural industry, rather than establishing a prescribed set of BMPs, the Department has established factors that must be considered when selecting the appropriate BMPs that best suit the situation given the site characteristics and proximity to water resources. The primary areas of concern, based on the history of monitoring in the pesticide program, are areas with shallow groundwater, near perennial surface waters and near domestic drinking water sources. The factors are as follows:

- A. When assessing a site's susceptibility to impact by a pesticide, the person shall consider the characteristics of the application site including: soil texture, slope, organic matter of the soil and depth to groundwater. In choosing the proper BMPs, the person shall:
  - 1. Select a pesticide based on the intended application site characteristics;
  - 2. Minimize or avoid the use of any pesticide with high leaching or high runoff potential;
  - 3. Incorporate erosion control practices to minimize runoff; and
  - 4. If practical, use an alternative to pest control methods.
- B. When considering the proper BMPs to protect water resources from contamination during mixing, loading and/or application, the person shall:
  - 1. Apply the correct amount of pesticide according to the label and employ methods that avoid overspray or drift;
  - 2. Consider weather patterns, soil moisture, and crop needs before pesticide application; and
  - 3. Maintain buffer zones.

The Department is working with the Arizona Department of Agriculture to provide education and outreach to the affected stakeholders including the agricultural community (e.g., growers, pest control advisors and applicators) as well as the chemical industry and to develop the necessary tools to aid the regulated community in complying with this new requirement.

**5. Name and address of agency personnel with whom persons may communicate:**

Name: Linda Taunt, Manager, Hydrologic Support & Assessment Section  
 Address: Arizona Department of Environmental Quality  
 1110 W. Washington St.  
 Phoenix, AZ 85007  
 Telephone: (602) 771-4416 (in Arizona: 1-800-234-5677; ask for seven-digit extension)  
 E-mail: taunt.linda@azdeq.gov  
 Fax: (602) 771-4528

The final Groundwater Protection List can be downloaded from the Department website at: <http://www.azdeq.gov/environ/water/assessment/pesticide.html>

**6. The time during which the agency will accept written comments and the time and place where oral comments may be made:**

The opportunity for public comment was during the publication of the draft List in May 2005. This is publication of the final Groundwater Protection List that will be effective on December 1, 2005, for the ensuing 12 months.

**NOTICE OF PUBLIC INFORMATION**

Notices of Public Information

DEPARTMENT OF HEALTH SERVICES

[M05-352]

**1. Substantive policy statement number and its title:**

SP-040-PHS-EMS, EMS 315: Certification Requirements for a Basic Emergency Medical Technician or a Paramedic with Current and Valid Registration Issued by the National Registry of Emergency Medical Technicians

**2. The public information relating to the substantive policy statement:**

Substantive Policy Statement #SP-040-PHS-EMS allowed ADHS to issue a six-month certification to an NREMT-registered EMT-B or EMT-P if the applicant met prescribed rule requirements. The subject matter of the substantive policy statement is now addressed in R9-25-405, and the rules referenced in the substantive policy statement have been repealed. ADHS is rescinding this substantive policy statement, effective November 1, 2005, to alleviate any confusion that it may cause and because it is obsolete.

**3. The name and address of agency personnel with whom persons may communicate regarding this notice of public information:**

Name: Gene Wikle, Bureau Chief  
Address: Arizona Department of Health Services  
Bureau of Emergency Medical Services  
150 N. 18th Ave., Suite 540  
Phoenix, AZ 85007  
Telephone: (602) 364-3150  
Fax: (602) 364-3568  
E-mail: wiklee@azdhs.gov

OR

Name: Kathleen Phillips, Rules Administrator  
Address: Arizona Department of Health Services  
Office of Administrative Rules  
1740 W. Adams, Suite 202  
Phoenix, AZ 85007

E-mail: phillik@azdhs.gov

NOTICE OF PUBLIC INFORMATION

DEPARTMENT OF HEALTH SERVICES

[M05-351]

**1. Substantive policy statement number and its title:**

SP-042-PHS-EMS, EMS 316: Procedure for Handling an Initial Emergency Medical Technician Certification Application from an Applicant or Candidate for Upgrade of Certification Who States that the Applicant or Candidate for Upgrade of Certification Has Used, Within the Last 6 Months, an Illegal Drug or Substance or Prescription Drug Without the Supervision of a Physician

**2. The public information relating to the substantive policy statement:**

Substantive Policy Statement #SP-042-PHS-EMS provided that, under R9-25-501 and R9-25-601, an applicant for EMT certification who stated that the applicant had illegally used drugs within the past six months did not meet the general requirements for certification. The referenced R9-25-501 and R9-25-601 have been repealed, and an applicant's fitness for certification is now addressed in R9-25-402 and R9-25-403. ADHS is rescinding this substantive policy statement, effective November 1, 2005, to alleviate any confusion that it may cause and because it is obsolete.
