ABOUT THIS PUBLICATION

The paper copy of the *Administrative Register* (A.A.R.) is the official publication for rules and rulemaking activity in the state of Arizona.

Rulemaking is defined in Arizona Revised Statutes known as the Arizona Administrative Procedure Act (APA), A.R.S. Title 41, Chapter 6, Articles 1 through 10.

The Office of the Secretary of State does not interpret or enforce rules published in the *Arizona Administrative Register* or *Code*. Questions should be directed to the state agency responsible for the promulgation of the rule as provided in its published filing.

The *Register* is cited by volume and page number. Volumes are published by calendar year with issues published weekly. Page numbering continues in each weekly issue.

In addition, the *Register* contains the full text of the Governor's Executive Orders and Proclamations of general applicability, summaries of Attorney General opinions, notices of rules terminated by the agency, and the Governor's appointments of state officials and members of state boards and commissions.

ABOUT RULES

Rules can be: made (all new text); amended (rules on file, changing text); repealed (removing text); or renumbered (moving rules to a different Section number). Rules activity published in the *Register* includes: proposed, final, emergency, expedited, and exempt rules as defined in the APA.

Rulemakings initiated under the APA as effective on and after January 1, 1995, include the full text of the rule in the *Register*. New rules in this publication (whether proposed or made) are denoted with underlining; repealed text is stricken.

WHERE IS A "CLEAN" COPY OF THE FINAL OR EXEMPT RULE PUBLISHED IN THE REGISTER?

The *Arizona Administrative Code* (A.A.C.) contains the codified text of rules. The A.A.C. contains rules promulgated and filed by state agencies that have been approved by the Attorney General or the Governor's Regulatory Review Council. The *Code* also contains rules exempt from the rulemaking process.

The printed *Code* is the official publication of a rule in the A.A.C. is prima facie evidence of the making, amendment, or repeal of that rule as provided by A.R.S. § 41-1012. Paper copies of rules are available by full Chapter or by subscription. The *Code* is posted online for free.

LEGAL CITATIONS AND FILING NUMBERS

On the cover: Each agency is assigned a Chapter in the *Arizona Administrative Code* under a specific Title. Titles represent broad subject areas. The Title number is listed first; with the acronym A.A.C., which stands for the *Arizona Administrative Code*; following the Chapter number and Agency name, then program name. For example, the Secretary of State has rules on rulemaking in Title 1, Chapter 1 of the *Arizona Administrative Code*. The citation for this chapter is 1 A.A.C. 1, Secretary of State, Rules and Rulemaking

Every document filed in the office is assigned a file number. This number, enclosed in brackets, is located at the top right of the published documents in the *Register*. The original filed document is available for 10 cents a copy.

Participate in the Process

Look for the Agency Notice

Review (inspect) notices published in the *Arizona Administrative Register*. Many agencies maintain stakeholder lists and would be glad to inform you when they proposed changes to rules. Check an agency's website and its newsletters for news about notices and meetings.

Feel like a change should be made to a rule and an agency has not proposed changes? You can petition an agency to make, amend, or repeal a rule. The agency must respond to the petition. (See A.R.S. § 41-1033)

Attend a public hearing/meeting

Attend a public meeting that is being conducted by the agency on a Notice of Proposed Rulemaking. Public meetings may be listed in the Preamble of a Notice of Proposed Rulemaking or they may be published separately in the *Register*. Be prepared to speak, attend the meeting, and make an oral comment.

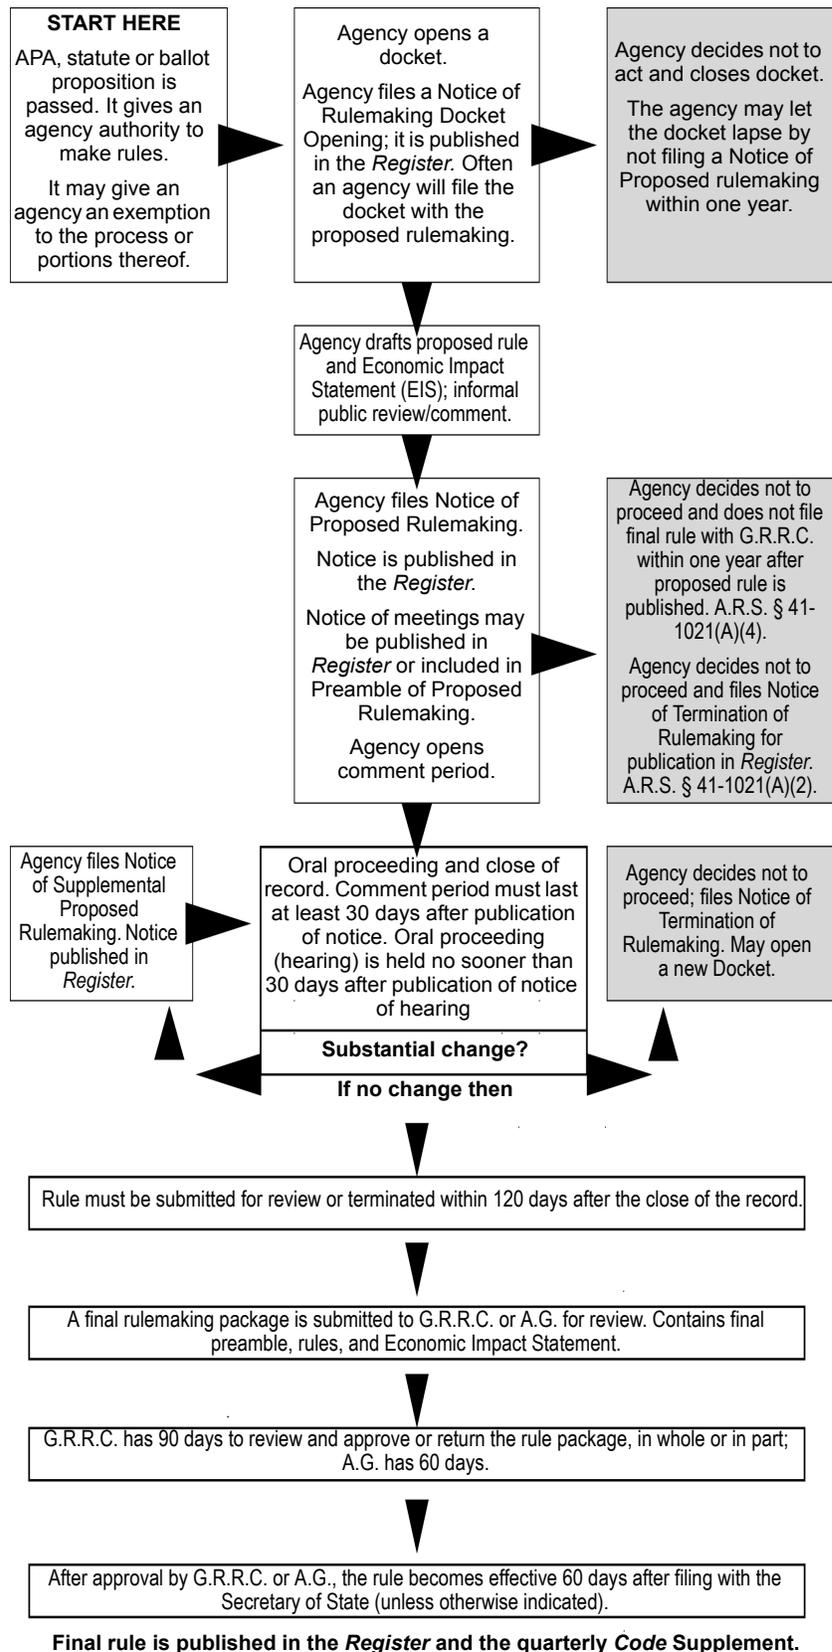

An agency may not have a public meeting scheduled on the Notice of Proposed Rulemaking. If not, you may request that the agency schedule a proceeding. This request must be put in writing within 30 days after the published Notice of Proposed Rulemaking.

Write the agency

Put your comments in writing to the agency. In order for the agency to consider your comments, the agency must receive them by the close of record. The comment must be received within the 30-day comment timeframe following the *Register* publication of the Notice of Proposed Rulemaking.

You can also submit to the Governor's Regulatory Review Council written comments that are relevant to the Council's power to review a given rule (A.R.S. § 41-1052). The Council reviews the rule at the end of the rulemaking process and before the rules are filed with the Secretary of State.

Definitions

Arizona Administrative Code (A.A.C.): Official rules codified and published by the Secretary of State's Office. Available online at www.azsos.gov.

Arizona Administrative Register (A.A.R.): The official publication that includes filed documents pertaining to Arizona rulemaking. Available online at www.azsos.gov.

Administrative Procedure Act (APA): A.R.S. Title 41, Chapter 6, Articles 1 through 10. Available online at www.azleg.gov.

Arizona Revised Statutes (A.R.S.): The statutes are made by the Arizona State Legislature during a legislative session. They are compiled by Legislative Council, with the official publication codified by Thomson West. Citations to statutes include Titles which represent broad subject areas. The Title number is followed by the Section number. For example, A.R.S. § 41-1001 is the definitions Section of Title 41 of the Arizona Administrative Procedures Act. The "§" symbol simply means "section." Available online at www.azleg.gov.

Chapter: A division in the codification of the *Code* designating a state agency or, for a large agency, a major program.

Close of Record: The close of the public record for a proposed rulemaking is the date an agency chooses as the last date it will accept public comments, either written or oral.

Code of Federal Regulations (CFR): The *Code of Federal Regulations* is a codification of the general and permanent rules published in the *Federal Register* by the executive departments and agencies of the federal government.

Docket: A public file for each rulemaking containing materials related to the proceedings of that rulemaking. The docket file is established and maintained by an agency from the time it begins to consider making a rule until the rulemaking is finished. The agency provides public notice of the docket by filing a Notice of Rulemaking Docket Opening with the Office for publication in the *Register*.

Economic, Small Business, and Consumer Impact Statement (EIS): The EIS identifies the impact of the rule on private and public employment, on small businesses, and on consumers. It includes an analysis of the probable costs and benefits of the rule. An agency includes a brief summary of the EIS in its preamble. The EIS is not published in the *Register* but is available from the agency promulgating the rule. The EIS is also filed with the rulemaking package.

Governor's Regulatory Review (G.R.R.C.): Reviews and approves rules to ensure that they are necessary and to avoid unnecessary duplication and adverse impact on the public. G.R.R.C. also assesses whether the rules are clear, concise, understandable, legal, consistent with legislative intent, and whether the benefits of a rule outweigh the cost.

Incorporated by Reference: An agency may incorporate by reference standards or other publications. These standards are available from the state agency with references on where to order the standard or review it online.

About Preambles

The Preamble is the part of a rulemaking package that contains information about the rulemaking and provides agency justification and regulatory intent.

It includes reference to the specific statutes authorizing the agency to make the rule, an explanation of the rule, reasons for proposing the rule, and the preliminary Economic Impact Statement.

The information in the Preamble differs between rulemaking notices used and the stage of the rulemaking.

NOTICES OF FINAL RULEMAKING

This section of the Arizona Administrative Register contains Notices of Final Rulemaking. Final rules have been through the regular rulemaking process as defined in the Administrative Procedures Act. These rules were either approved by the Governor's Regulatory Review Council or the Attorney General's Office. Certificates of Approval are on file with the Office.

The final published notice includes a preamble and

text of the rules as filed by the agency. Economic Impact Statements are not published.

The Office of the Secretary of State is the filing office and publisher of these rules. Questions about the interpretation of the final rules should be addressed to the agency that promulgated the rules. Refer to Item #5 to contact the person charged with the rulemaking. The codified version of these rules will be published in the Arizona Administrative Code.

- 6. An agency's justification and reason why a rule should be made, amended, repealed, or renumbered, to include an explanation about the rulemaking:**
 The Commission is completing a rulemaking that was interrupted in 2009 by successive rulemaking moratoriums. The rulemaking also makes changes that result from eight years' experience using its licensing rules. The Commission is also addressing issues identified in the Commission's five-year-review report approved by Council on November 6, 2012.
 As of June 30, 2005, the National Association of the Deaf stopped giving certification examinations. Certifications issued by NAD before June 30, 2005, remain valid but it currently is not possible to be certified by NAD. Additionally, as of January 1, 2016, the Registry of Interpreters for the Deaf has imposed a moratorium on providing certification examinations. Although certifications issued by RID before January 1, 2016, remain valid, it currently is not possible to be certified by RID. The Commission is adding the Board for Evaluation of Interpreters as an acceptable certifying entity.
 An exemption from Executive Order 2015-01 was provided to the Commission by Ted Vogt, Chief of Operations in the Governor's office, in an e-mail dated June 26, 2015. An exemption from Executive Order 2016-03 was provided to the Commission by Christina Corieri, Policy Advisor for Health and Human Services in the Governor's office, in an e-mail dated May 20, 2016.
- 7. A reference to any study relevant to the rule that the agency reviewed and either relied on or did not rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:**
 The Commission did not review or rely on any study in its evaluation of or justification for any rule in this rulemaking.
- 8. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:**
 Not applicable

9. A summary of the economic, small business, and consumer impact:

Most of the changes made in this rulemaking will have minimal economic impact. The Commission believes the following will have minimal economic impact:

- Using the date of license issuance rather than the licensee’s birthday as the start of the licensee’s license year;
- Adding the BEI as an acceptable certifying entity;
- Eliminating Class B as a category of legal interpreters. There currently are no Class B legal interpreters;
- Providing standards for video remote interpreting; and
- Requiring licensees to have while working an identification badge provided by the Commission and to present the badge on request; and
- Except for provisional licensees, relying on the certifying entity to monitor compliance with continuing education.

The Commission believes the following changes will have some economic impact:

- Requiring Class A legal interpreters who do not have a legal certification from RID to obtain legal certification from an acceptable certifying entity within five years;
- Increasing the hours of required paid interpreting from 25 to 500 for Class D legal interpreters;
- Increasing the hours of required legal training from 24 to 50 for Class C and D legal interpreters;
- Limiting the number of short-term registrations to two during an interpreter’s lifetime;
- Clarifying that, like a licensee, a short-term registrant is required to be certified;
- Limiting a generalist interpreter to working in a legal setting only when appointed by a judge;
- Increasing the time an interpreter may work under a provisional license from three to five years; and
- Requiring a provisional licensee to submit evidence of compliance with the CE requirement at the time of annual license renewal rather than using compliance audits.

10. A description of any changes between the proposed rulemaking, including supplemental notices, and the final rulemaking:

In addition to the changes described in item 11, none of which is substantial, the Commission made the following changes:

R9-26-501: Indicated the CDI is a certification issued by BEI as well as RID and added a definition of “Level III, IV, and V.”

R9-26-503(2)(a): Added BEI Levels III, IV, and V as acceptable certifications.

R9-26-503(2)(b): Added BEI CDI as acceptable certification.

R9-26-504(A)(1)(b): Added BEI Levels IV and V as acceptable certifications.

R9-26-504(A)(1)(c): Added BEI Levels III, IV, and CDI as acceptable certifications.

At the informal meetings held with stakeholders during the process of preparing the proposed rules, the Commission indicated that because neither NAD nor RID currently offers certification examinations, the Commission was adding BEI as an acceptable certifying entity and would recognize certifications issued by BEI. This decision was highly supported by stakeholders who were concerned about their ability to obtain certification.

When a certifying entity changes its certification examination, it generally changes the names attached to the certifications. In this way, it is possible to determine from the certification held which examination a certificate holder took. Certifications obtained by taking a previous iteration of an examination remain valid after a new examination is placed in use. When the Commission added BEI and its certifications to the rules, it inadvertently omitted the names of the certifications issued under a previous iteration of the BEI examination. This change clarifies that BEI certifications obtained by taking the previous iteration of the examination are acceptable to the Commission.

Under A.R.S. § 41-1025(B), this change is not substantial because:

All BEI certificate holders understood the proposed rule affected their interest. Because the particular iteration of examination taken and the name attached to the certificate does not affect the validity of a BEI-issued certification, all BEI certificate holders understood the Commission was accepting BEI certification for licensure purposes.

The subject matter of the proposed and final rules is the same. Both address that BEI certification is acceptable to the Commission for licensure purposes.

The effect of the proposed and final rules is the same. BEI certification is acceptable to the Commission for licensure purposes.

Other non-substantive changes include:

R9-26-503(2)(a) through (c): The phrase “or other certification deemed appropriate by the Commission” was added at the end of each subsection and then deleted from subsection (2)(d);

R9-26-504(A)(1)(c): The phrase “or other certification deemed appropriate by the Commission” was added at the end of the subsection because it had been inadvertently omitted; and

R9-26-511(A): The word “only” was moved to follow “VRI.” This eliminates duplication between subsections (A) and (C) and clarifies that the Commission has authority to authorize licensees to provide VRI only to individuals located in Arizona.

11. An agency's summary of the public or stakeholder comments made about the rulemaking and the agency response to comments:

Before publishing the Notice of Proposed Rulemaking, the Commission held a series of four informal meetings at which interested persons were invited to comment on the proposed rules, which were posted on the Commission’s web site. The meetings were held throughout the state and attended by approximately 100 persons. Many excellent questions were asked and comments made. As a result, the proposed rules were changed to the form published.

Six individuals attended an oral proceeding held on March 17, 2016. Written comments regarding the proposed rules were submitted by Raymond Baesler, LaDonna Gabrielson, Jasmine Marin, SueAnne McCreery, Michelle Mire, Corinna Moore, Darlene Paul, Julie Roles, Deb Stone, and Cindy Volk. The comments and the Commission’s analysis and response follow:

COMMENT	ANALYSIS	RESPONSE
R9-26-501: Class A Legal Interpreter—change the wording to “...a legal interpreter who provides interpreting in all proceedings of an Arizona court of law or any other legal environment...?”	The suggested language is not accurate. Statute specifies the circumstances requiring a legal interpreter. The cross reference to statute ensures the definition is accurate.	No change
R9-26-501: The date by which all Class A Legal interpreters must have the required specialist certification should be changed to January 1, 2020, rather than January 1, 2021, to align with the credentialing deadline for interpreters issued by the Arizona Supreme Court.	The Class A Legal interpreters to whom the new certification requirement applies are already credentialed, as required by the Arizona Supreme Court. Reducing the amount of time to meet the new certification requirement would impose an unnecessary burden on current Class A Legal interpreters.	No change
R9-26-501: Legal training—change the wording to “...such as, but not limited to...” to clarify the included list is not all encompassing.	The phrase “such as” indicates the list is an example of accepted trainings but is not all encompassing. The phrase “but not limited to” is redundant and unnecessary.	No change
R9-26-501: Platform or performance setting—remove “involving a raised surface” because not all performance interpreting involves a raised surface.	The comment is correct.	The definition was amended.
R9-26-501: Class B Provisional interpreter—replace “except in medical, mental health, platform or performance, or legal setting” with “in limited settings. Rewrite the second sentence “A Class B provisional interpreter may only provide interpreting services ... when working as part of a team...”	The phrase “in limited settings” is vague and not clearly enforceable. In the second sentence, the adverb “only” is correctly placed. The suggested rewrite changes the meaning.	No change
R9-26-501: A provisional B licensee should be able to provide interpreting in a medical setting including an intake in a mental health setting.	Medical and mental health settings require specialized interpreting skills. It is necessary for an interpreter to obtain the necessary skills, verified through certification, before working in a medical or mental health setting. This requirement was added based on feedback from the community and the desire to protect the public from unqualified interpreters working in situations with potentially serious consequences.	No change
R9-26-503: Is it accurate that the Commission will now accept BEI certification for a Generalist Interpreter License?	Yes. The Commission will also accept certain BEI certifications for licensure as a legal interpreter.	No change
R9-26-504(A)(1)(a): Is it accurate that Legal Class A requires a SC:L or BEI Legal certification?	The subsection indicates that another legal specialist certification deemed appropriate by the Commission is acceptable. At the moment, no other legal specialist certification is deemed appropriate but the Commission is open to learning of one.	No change

R9-26-504(A)(1)(b): Do not remove the Legal B category. Instead, clarify its purpose.	The original purpose of the Legal B category was to allow an interpreter working towards a specialization in legal interpreting to work in “quasi-legal” settings. However, the Commission does not have statutory authority to define any setting as “legal” or “quasi-legal” that is not listed in A.R.S. § 12-242. Because of this, it was apparent that the Legal B category had no purpose that was not being met by the Legal C category.	No change
R9-26-504(A)(1)(b): Is it accurate that Legal Class C can only work when teamed with a Legal Class A?	This is accurate when the Legal Class C interpreter is working in a legal setting. A Legal Class C interpreter may work independently in a setting that does not require legal specialist certification.	No change
Does the Commission intend to include the Medical Certificate offered by BEI?	BEI does not yet offer a medical certification. Additionally, a medical certification is a specialty certification so anyone who obtains it will already have another certification and be qualified for licensure by the Commission. As written, the Commission’s rule provides flexibility so when BEI offers medical certification, the Commission could accept it even though statute does not specify the Commission is to provide a medical specialty license.	No change
Because the BEI written test includes no ethics portion, does the Commission intend to require an ethics workshop for applicants who have passed only the BEI written test?	No. The Commission requires an interpreter to have 40 to 80 hours of interpreter education and training before applying for a provisional license. The Commission believes the existing requirement is sufficient.	No change
BEI requires only an associate’s degree or equivalent hours to take the written test. The Commission needs to require proof of a bachelor’s degree for licensure.	The Commission believes requiring a Bachelor’s degree for licensure would substantially and unnecessarily limit the pool of qualified interpreters who are certified and have been working in the field for many years. Additionally, the Commission knows of no empirical evidence that validates the need for a Bachelor’s degree to interpret effectively.	No change
The BEI examination tests skill in transliterating. People need to be aware of and prepare for this portion of the examination.	A comprehensive study guide created by the developers of the BEI examination is available online. Interpreters will be able to access information regarding the examination and training opportunities to prepare for the examination.	No change
R9-26-505(A)(1): Add programs and training approved by NAD and BEI. If we accept their certifications, we should also accept the trainings they offer.	The Commission agrees.	The phrase “NAD, or BEI” was added at the end of the subsection.
R9-26-505(B)(1)(c): Require mentors to provide written feedback to the Provisional B interpreter.	The Commission does not want to micro-manage the mentoring relationship. A mentor/mentee may choose to discuss the work immediately after the fact or communicate about it later. If they discuss the work, it is the mentee’s responsibility to create a record of the feedback.	No change
R9-26-505(B)(2)(a) and (B)(3)(a) through (c): Combine these subsections.	R9-26-505(B)(2) refers to requirements for team interpreting. R9-26-505(B)(3) refers to requirements for mentoring. These are two very different issues. Combining the subsections would cause confusion.	No change
R9-26-506: Two short-term registrations in a lifetime really locks us in. A different term such as two short-term registrations every five years would be better.	The Commission believes interpreters who work regularly in Arizona should apply for and maintain a license.	No change

R9-26-506(A) and (B): Switch the order of these subsections so it is clear certification is required before applying for a short-term registration.	The order of the subsections is the same as used in all other Sections dealing with applications.	No change
R9-26-506(A)(4) and (A)(5): Combine these subsections into one.	Current rule-writing standards require that a list of more than three items be set out in different subsections. By itself, subsection (A)(5) contains three items. Therefore, it cannot be combined with another subsection.	No change
R9-26-506(E): Clarify the time frame for issuing two short-term registrations	The implied time frame is the interpreter's lifetime. Clarification was added.	The phrase "in the interpreter's lifetime" was added at the end of the subsection.
R9-26-506(E): Allow out-of-state interpreters to obtain an unlimited number of 20-day registrations. Apply the limit of two short-term registrations only to in-state interpreters.	The limitation was based on comments at public meetings by interpreters and members of the deaf community who were concerned the short-term registration was being used by interpreters wanting to avoid or not qualified for licensure. The Commission is concerned about all interpreters, regardless of location, who repeatedly provide interpreting services in Arizona without being licensed.	No change
R9-26-507(A)(1)(g): To protect stakeholders, the Commission should request information regarding disciplinary action within the last five years rather than the last year.	Applicants are asked about their entire history at the time of initial license application so the Commission has information greater than the last five years on record. At the time of annual renewal, a licensee submits information regarding the previous year only because that is the only information the Commission will not already have on file.	No change
R9-26-507(A)(1)(h): To protect stakeholders, the Commission should request information regarding license denial within the last five years rather than the last year.	See response re R9-26-507(A)(1)(g).	No change
R9-26-507(A)(1)(i): To protect stakeholders, the Commission should request information regarding felony offenses within the last five years rather than the last year.	See response re R9-26-507(A)(1)(g).	No change
R9-26-507(A)(1)(j): To protect stakeholders, the Commission should request information regarding being adjudicated insane or incompetent within the last five years rather than the last year.	See response re R9-26-507(A)(1)(g).	No change
R9-26-507(A)(1)(j): An interpreter who has ever been adjudicated insane or incompetent should not be granted a license due to ethical concerns.	The ethical concern at issue in this comment is violation of the Americans with Disabilities Act. The issue regarding any applicant is whether the applicant is able to provide interpreting competently and safely.	No change
R9-26-507(B)(3)(f)(i): By combining R9-26-505(B)(2)(a) and (B)(3)(a) through (c), the Commission would be required to list only one letter under R2-26-(B)(3)(f)(i).	The Commission already explained why this combination cannot be done.	No change
R9-26-507(B)(3)(f)(ii): Change the requirement to upgrade from a Provisional C to a Provisional B from 500 hours to 1,500 hours to protect the public by ensuring the interpreter has sufficient experience.	First, a Provisional C interpreter is eligible to upgrade to Provisional B only at the time of license renewal, which means the Provisional C has been licensed at least one year. Second, the Provisional C is required to gain the 500 hours of experience while teamed with a certified licensed interpreter. The Commission believes this is sufficient to protect the public. Furthermore, increasing the amount of experience required would create an insurmountable barrier for many interpreters, especially those working in rural areas who have limited opportunity to team with a certified licensed interpreter.	No change

R9-26-507(B)(5): Does this new provision mean that an individual whose provisional license lapsed because the individual did not pass the NIC can apply for a provisional license if the individual did not hold the lapsed provisional license for five years?	Yes. An interpreter may hold a provisional license for five years. The five years may or may not be consecutive.	No change
R9-26-507(B)(5): Allow an interpreter to hold a provisional license for any length of time as long as the interpreter remains eligible by the examination authority to take a certification examination.	This suggestion has been extensively discussed at public meetings and is overwhelmingly opposed by both interpreters and members of the deaf community. Allowing an individual to work under a provisional license for an unlimited amount of time is inconsistent with the legislative intent for requiring licensure, which is to protect the public by upholding higher standards for interpreters. Under this rulemaking, the amount of time for working under a provisional license is increased from three to five years. The Commission believes this is a generous amount of time in which to expect a licensee to obtain certification for a general license.	No change
R9-26-510(A)(1) through (3): The wording is vague; there is no mention of legal training required for certification; and there is no mention of the certification cycle.	The Commission disagrees. The subsections say an interpreter is required to obtain the continuing education required to maintain the interpreter's certification. Certifications required for a Class A legal license include legal training as part of the continuing education required to maintain certification. Each certification may have a different certification cycle—the Commission does not issue the certifications and has no authority over the CE required by or certification cycles used by the certifying entities.	No change
R9-26-510(A)(2): The amount of CE required depends on the legal interpreter's certification. What about the Legal Class A interpreters who do not yet have a legal certificate? What amount of CE is required?	A currently licensed Legal A interpreter is required to obtain the CE required to maintain the certification held.	No change
R9-26-510(A)(4): Require provisional licensees to submit proof of CE annually.	That's exactly what the subsection requires.	No change
R9-26-510(A)(4): Require provisional licensees to obtain 15 hours of CE annually instead of 12.	It is in the interest of a provisional licensee to study and gain experience so the licensee can become certified and obtain a General license. However, the Commission believes it is not necessary to impose this study in these rules. The required 12 hours of CE protects the public.	No change

12. All agencies shall list any other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:

None

a. Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:

The licenses described in R9-26-503 through R9-26-507 are general permits consistent with A.R.S. § 41-1037 because they are issued to qualified individuals or entities to conduct activities that are substantially similar in nature.

b. Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:

The Americans with Disabilities Act applies to individuals who are deaf or hard of hearing. However, no federal law is directly applicable to the subject of any rule in this rulemaking.

c. Whether a person submitted an analysis to the agency that compares the rule's impact of the competitiveness of business in this state to the impact on business in other states:

No analysis was submitted.

13. A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rule:
None

14. Whether the rule was previously made, amended, or repealed as an emergency rule. If so, cite the notice published in the Register as specified in R1-1-409(A). Also, the agency shall state where the text was changed between the emergency and the final rulemaking packages:

No rule in the rulemaking was previously made, amended, or repealed as an emergency rule.

ADEQ is aware that the reclaimed water rules are in need of improvement and is beginning to work with stakeholders to consider other changes to the reclaimed water rules. ADEQ published two Notices of Docket Openings for Reclaimed Water Quality Standards (18 A.A.C. 11, Article 3) and Reclaimed Water Conveyances and Direct Reuse of Reclaimed Water (18 A.A.C. 9, Articles 6 and 7) on January 1, 2016. Other rule changes could include:

- Updating the list of allowable direct reuse activities, such as for emergency fire fighting.
- Developing additional general permits and streamlining the individual permit process.
- Allowing for amending a general permit without obtaining a new general permit.
- Making monitoring requirements consistent for wastewater and reclaimed water so that both are protective of human health and neither is unduly burdensome or duplicative.

7. A reference to any study relevant to the rule that the agency reviewed and proposes either to rely on or not to rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:

None

8. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:

Not applicable

9. A summary of the economic, small business, and consumer impact:

A. Brief summary of the information included in the economic, small business and consumer impact statement:

The proposed changes should benefit reclaimed water permittees. Reclaimed water permittees will have the choice to use reclaimed water under certain conditions, without the need for control measures to prevent runoff. Using reclaimed water allows a permittee to offset demands on the potable water supply. Reclaimed water permittees will have some additional costs of an AZPDES permit fee and complying with any control measures or treatment required in the AZPDES permit. The reclaimed water permittee will be able to consider whether additional reclaimed water usage outweighs the AZPDES permitting costs.

B. Name and address of agency employees who may be contacted to submit or request additional data on the information included in the economic, small business and consumer impact statement:

C. Identification of persons who will be directly affected by, bear the costs of or directly benefit from the rulemaking:

Reclaimed water permittees will be directly affected by the rulemaking. Reclaimed water quality standards and allowable uses are established in 18 A.A.C. 11, Article 3. Article 3 establishes five classes of reclaimed water based on protection of public health and groundwater quality (A+, A, B+, B, and C). Class A+ reclaimed water has undergone the most treatment of a minimum of secondary treatment, nitrogen removal treatment, and high level disinfection. Class B reclaimed water has undergone the minimum treatment of secondary treatment, and some disinfection. Allowable end uses correspond with the water quality class designations. End uses include crop irrigation, residential and school ground landscape irrigation, toilet and urinal flushing, and recreational impoundments. Using reclaimed water allows a permittee to offset demands on the potable water supply. Class C reclaimed water has undergone secondary treatment in a series of wastewater stabilization ponds, with or without disinfection. The types of direct reuse allowed for Class C reclaimed water are limited, such as for sod irrigation and silviculture.

Currently there are eleven reclaimed water individual permits, 396 Type 2 reclaimed water general permits, and 58 Type 3 reclaimed water general permits. Reclaimed water permittees will have the choice to use reclaimed water under certain conditions of runoff, if the runoff can be permitted under an AZPDES permit. Reclaimed water permittees will have some additional costs of an AZPDES permit fee and complying with any control measures or treatment required in the AZPDES permit. The reclaimed water permittee will be able to consider whether additional reclaimed water usage outweighs the AZPDES permitting costs.

D. Cost-benefit analysis of probable costs and benefits to ADEQ and other agencies:

ADEQ is the main agency impacted by the proposed changes. ADEQ already issues reclaimed water permits and AZPDES permits so it anticipates that the rulemaking will have only a minor impact.

**E. Cost-benefit analysis of probable costs and benefits to political subdivisions:**

Political subdivisions and government entities that are reclaimed water permittees could be impacted. There are approximately 101 reclaimed water permittees that are public entities, such as cities and towns, counties, improvement districts, and schools. Costs and benefits should be similar as to businesses, and are discussed below.

F. Cost-benefit analysis of probable costs and benefits to businesses:

Businesses that are reclaimed water permittees could be impacted. There are about 364 privately owned reclaimed water permittees, including homeowner associations, golf courses, and home developers.

Reclaimed water permittees will have the choice to use reclaimed water under certain conditions of runoff, if the runoff can be permitted under an AZPDES permit. Permittees will no longer have to set up unnecessary controls to prevent all runoff. Using reclaimed water allows a permittee to offset demands on the potable water supply. This proposed rule gives reclaimed water permittees additional options for applying reclaimed water to sites where it could not apply before because there would be some runoff.

Permittees that choose to apply reclaimed water and have runoff will have to obtain an AZPDES permit and will incur some additional costs of an AZPDES permit fee and complying with any control measures or treatment required in the AZPDES permit. Under A.R.S. § 49-255.01, any discharge to waters of the U.S. requires coverage under an AZPDES permit, unless excluded from permit requirements under statute or rule. Discharges made to waters of the U.S. via Municipal Separate Stormwater Sewer Systems (MS4s) or other conveyances also require coverage. AZPDES permits impose some limitations on pollutants that are discharged and are issued for no more than five years.

ADEQ is not requiring a specific AZPDES permit (or NPDES permit if issued by EPA), in order to allow the circumstances of the discharge to determine the appropriate permit (such as volume of discharge, location of discharge, or class of the reclaimed water). ADEQ believes the most likely permit to be used is the De Minimis General Permit (DMGP). The DMGP allows certain short-term and/or low volume discharges that meet the applicable surface water quality standards, are generally of limited flow and/or frequency, and do not last continuously for longer than 30 days unless approved in advance by ADEQ. Initial fees range from \$250 for a one-time single source discharge to \$500 for a new areawide, projectwide, or facilitywide discharge. There is an additional fee of \$1,000 if a Best Management Practices Plan review is required. An annual fee of the same amount as the initial fee is assessed for discharge authorizations that remain active longer than one year. For established areawide, projectwide, or facilitywide permittees, there is no fee for adding eligible discharges to the authorization.

The DMGP sets some limitations such as for the amount of chlorine and E. coli that can be in the discharge water. Some classes of reclaimed water could potentially exceed the limits, so sampling may be required. A reclaimed water permittee will be able to consider if the potential costs of permit fees, additional treatment, or sampling outweigh the benefit of additional usage. For permittees that chose not to exercise the option, the rulemaking will not impose any additional cost.

G. Probable impact on public and private employment:

ADEQ does not anticipate that private or public employment will be directly affected by these rules.

H. Probable impact on small businesses:

ADEQ would use the small business definition in A.R.S. § 41-1001(21) of “a concern, including its affiliates, which is independently owned and operated, which is not dominant in its field and which employs fewer than one hundred full-time employees or which had gross annual receipts of less than four million dollars in its last fiscal year.” Based on this definition, ADEQ estimates that more than half of the 364 privately-owned reclaimed water permittees are a small business.

1) The administrative and other costs required for compliance with the proposed rulemaking.

This rulemaking removes a prohibition and allows some additional uses for a reclaimed water permittee. For permittees that choose to exercise the option and have some runoff of reclaimed water, they are required under A.R.S. § 49-255.01 to have permit coverage. AZPDES permit coverage imposes some costs, for which a reclaimed water permittee can decide if the benefits outweigh the costs.

2) A description of the methods prescribed in section 41-1035 that the agency may use to reduce the impact on small businesses, with reasons for the agency's decision to use or not to use each method.

(i) *Establish less costly schedules or less stringent deadlines for compliance, or consolidate or simplify the rule's compliance or reporting requirements in the proposed rulemaking.*

ADEQ is removing an outright prohibition and allowing discharge from runoff of reclaimed water if it is authorized by an AZPDES permit. Coverage under a NPDES or AZPDES permit is required under A.R.S. § 49-255.01 and the federal Clean Water Act for any discharge to waters of the U.S.

- (ii) Establish less costly compliance requirements, including establishing performance standards to replace design or operational standards in the proposed rulemaking.
ADEQ's laws, rules, and permits must comply with federal Clean Water Act requirements.
- (iii) Exempt small businesses from any or all requirements of the proposed rulemaking.
Coverage under a NPDES or AZPDES permit is required under A.R.S. § 49-255.01 and the federal Clean Water Act for any discharge to waters of the U.S.

3) The probable cost and benefit to private persons and consumers who are directly affected by the proposed rulemaking.

ADEQ does not anticipate that the rulemaking will directly impact private persons or consumers.

I. Probable effect on state revenues:

There could be a slight increase on state revenues due to increased AZPDES permit fees.

J. Description of less intrusive or less costly alternative methods of achieving the proposed rulemaking:

ADEQ is implementing a less intrusive method by removing an existing prohibition and allowing permittees the option to have runoff of reclaimed water that is permitted under an AZPDES permit.

K. Explanation of the limitations of the data available for this economic small business and consumer impact statement:

ADEQ generally does not track in a database certain information on permittees, such as whether publicly or privately owned and the type of reuse activity. Some of the information came from an informal review of past applications and permits.

10. A description of any changes between the proposed rulemaking, to include supplemental notices, and the final rulemaking:

In response to comments, ADEQ changed the language “a separate” to “an individual or general” NPDES or AZPDES permit.

11. An agency’s summary of the public or stakeholder comments made about the rulemaking and the agency response to the comments:

ADEQ received two related comments from Steve Camp, representing the City of Flagstaff:

COMMENT: The language in the rule does not specify if a general or individual AZPDES permit is required.

RESPONSE: ADEQ meant that the discharge could be authorized by either an individual or general NPDES or AZPDES. ADEQ agrees with the commentor and changed the language proposed.

COMMENT: This is not specific as to which AZPDES general permit is required. ADEQ has several different general AZPDES permits available. The City of Flagstaff currently has coverage under the AZPDES De Minimis general permit (AZG2010-001) and the AZPDES MS4 stormwater general permit (AZG2002-002). Does ADEQ intend for the general AZPDES De Minimis permit to meet the APDES permitting requirements or will the City of Flagstaff require a separate AZPDES permit? If the De Minimis permit will meet the permitting requirements, will the City of Flagstaff be required to apply for the Specific Approval, specific to the Dew Downtown event, as specified in Part I.B.7?

RESPONSE: ADEQ intends that the rule language apply broadly to various situations. Some of those may be appropriate for coverage under the De Minimis General Permit (DMGP) or another AZPDES general permit, and some may require individual AZPDES permits. As now drafted, the 2016 DMGP would allow coverage of reclaimed water discharges such as runoff of Class A reclaimed water from the Dew Downtown event, subject to Specific Approval from ADEQ (DMGP Part I.B.7.). Once the 2016 DMGP is issued, the City of Flagstaff could apply for this coverage as an addition to its existing Areawide DMGP authorization. The MS4 stormwater general permit would not be applicable to discharges of reclaimed water.

12. All agencies shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:

a. Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:

For a reclaimed water permittee that chooses to exercise the option, the reclaimed water runoff must be permitted. The rule does not specify whether a permittee must apply for an individual or general AZPDES permit, in order to allow the circumstances of the discharge to determine the appropriate permit (such as volume of discharge, location of discharge, or class of the reclaimed water). An AZPDES general permit is readily available for many types of reclaimed water discharges and ensures that there is no violation of the Clean Water Act.

b. Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:

There is no federal law applicable to direct reuse of reclaimed water. Coverage under a NPDES or AZPDES permit is required under A.R.S. § 49-255.01 and the federal Clean Water Act for any discharge to waters of the U.S. This rule and A.R.S. § 49-255.01 are not more stringent than the federal Clean Water Act.

c. Whether a person submitted an analysis to the agency that compares the rule's impact of the competitiveness of business in this state to the impact on business in other states:

No person has submitted an analysis to the agency that compares the rule's impact on the competitiveness of business in this state to the impact on business in other states.

13. List of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rules:

None

14. Whether the rule was previously made, amended or repealed as an emergency rule. If so, cite the notice published in the Register as specified in R1-1-409(A). Also, the agency shall state where the text was changed between the emergency and the final rulemaking packages:

Not applicable

ARIZONA AMERICAN INDIAN RIGHT TO VOTE DAY

[M16-177]

WHEREAS, American Indian people and 22 federally recognized Indian Nations and Communities have maintained residence on the lands now known as Arizona since time immemorial; and

WHEREAS, we recognize members of these Tribes as citizens of their respective Tribal Nations, citizens of the State of Arizona, and citizens of the United States of America, such was not always the case; and

WHEREAS, previous to World War I, American Indians residing on tribal lands within Arizona were exempt from the draft as they were not recognized as United States citizens, more than 8,000 American Indians volunteered to serve in the United States military during World War I, in the defense of their country and our freedom; and

WHEREAS, in conjunction with these contributions and advocacy by American Indian Leader, Dr. Carlos Montezuma, A Yavapai man, the United States Congress passed the Indian Citizenship Act in 1924, which guaranteed citizenship rights to American Indians, however, it did not guarantee the right to vote in Arizona elections; and

WHEREAS, Peter Porter and Rudolph Johnson, members of the Gila River Indian Community, brought an unsuccessful suit in Arizona Supreme Court seeking to secure voting rights for American Indians in Arizona; and

WHEREAS, during World War II, Congress passed the Nationality Act of 1940 to reaffirm the citizenship of American Indians which inspired more than 25,000 American Indians to serve in the military, and led some to become national heroes, such as, Ira Hayes of the Gila River Indian Community; and

WHEREAS, during World War II, American Indian Code Talkers used their respective Native languages to secure victory in the Pacific theatre; and

WHEREAS, upon their return these soldiers were again denied freedoms they fought to preserve, two Yavapai men, Frank Harrison and Harry Austin, won a landmark Arizona Supreme Court case with the help of Lemuel Mathews, Ben Mathews, and Arizona Congressman Richard F. Harless, that confirmed the rights of American Indians to vote in Arizona because "in a democracy, suffrage is the most basic civil right" and the denial of that right "does violence to the principles of freedom and equality"; and

WHEREAS, Arizona law now recognizes the right of American Indian citizens to vote in State elections, it is vital to work together to ensure eligible voters are able to exercise this fundamental right.
