ABOUT THIS PUBLICATION

The paper copy of the Administrative Register (A.A.R.) is the official publication for rules and rulemaking activity in the state of Arizona.

Rulemaking is defined in Arizona Revised Statutes known as the Arizona Administrative Procedure Act (APA), A.R.S. Title 41, Chapter 6, Articles 1 through 10.

The Office of the Secretary of State does not interpret or enforce rules published in the Arizona Administrative Register or Code. Questions should be directed to the state agency responsible for the promulgation of the rule as provided in its published filing.

The Register is cited by volume and page number. Volumes are published by calendar year with issues published weekly. Page numbering continues in each weekly issue.

In addition, the Register contains the full text of the Governor’s Executive Orders and Proclamations of general applicability, summaries of Attorney General opinions, notices of rules terminated by the agency, and the Governor’s appointments of state officials and members of state boards and commissions.

ABOUT RULES

Rules can be: made (all new text); amended (rules on file, changing text); repealed (removing text); or renumbered (moving rules to a different Section number). Rules activity published in the Register includes: proposed, final, emergency, expedited, and exempt rules as defined in the APA.

Rulemakings initiated under the APA as effective on and after January 1, 1995, include the full text of the rule in the Register. New rules in this publication (whether proposed or made) are denoted with underlining; repealed text is stricken.

WHERE IS A “CLEAN” COPY OF THE FINAL OR EXEMPT RULE PUBLISHED IN THE REGISTER?

The Arizona Administrative Code (A.A.C) contains the codified text of rules. The A.A.C. contains rules promulgated and filed by state agencies that have been approved by the Attorney General or the Governor’s Regulatory Review Council. The Code also contains rules exempt from the rulemaking process.

The printed Code is the official publication of a rule in the A.A.C. is prima facie evidence of the making, amendment, or repeal of that rule as provided by A.R.S. § 41-1012. Paper copies of rules are available by full Chapter or by subscription. The Code is posted online for free.

LEGAL CITATIONS AND FILING NUMBERS

On the cover: Each agency is assigned a Chapter in the Arizona Administrative Code under a specific Title. Titles represent broad subject areas. The Title number is listed first; with the acronym A.A.C., which stands for the Arizona Administrative Code; following the Chapter number and Agency name, then program name. For example, the Secretary of State has rules on rulemaking in Title 1, Chapter 1 of the Arizona Administrative Code. The citation for this chapter is 1 A.A.C. 1, Secretary of State, Rules and Rulemaking.

Every document filed in the office is assigned a file number. This number, enclosed in brackets, is located at the top right of the published documents in the Register. The original filed document is available for 10 cents a copy.
Participate in the Process

Look for the Agency Notice

Review (inspect) notices published in the Arizona Administrative Register. Many agencies maintain stakeholder lists and would be glad to inform you when they proposed changes to rules. Check an agency’s website and its newsletters for news about notices and meetings.

Feel like a change should be made to a rule and an agency has not proposed changes? You can petition an agency to make, amend, or repeal a rule. The agency must respond to the petition. (See A.R.S. § 41-1033)

Attend a public hearing/meeting

Attend a public meeting that is being conducted by the agency on a Notice of Proposed Rulemaking. Public meetings may be listed in the Preamble of a Notice of Proposed Rulemaking or they may be published separately in the Register. Be prepared to speak, attend the meeting, and make an oral comment.

An agency may not have a public meeting scheduled on the Notice of Proposed Rulemaking. If not, you may request that the agency schedule a proceeding. This request must be put in writing within 30 days after the published Notice of Proposed Rulemaking.

Write the agency

Put your comments in writing to the agency. In order for the agency to consider your comments, the agency must receive them by the close of record. The comment must be received within the 30-day comment timeframe following the Register publication of the Notice of Proposed Rulemaking.

You can also submit to the Governor’s Regulatory Review Council written comments that are relevant to the Council’s power to review a given rule (A.R.S. § 41-1052). The Council reviews the rule at the end of the rulemaking process and before the rules are filed with the Secretary of State.

Arizona Regular Rulemaking Process

START HERE
APA, statute or ballot proposition is passed. It gives an agency authority to make rules.

It may give an agency an exemption to the process or portions thereof.

Agency opens a docket. Agency files a Notice of Rulemaking Docket Opening; it is published in the Register. Often an agency will file the docket with the proposed rulemaking.

Agency drafts proposed rule and Economic Impact Statement (EIS); informal public review/comment.

Agency files Notice of Proposed Rulemaking. Notice is published in the Register. Notice of meetings may be published in Register or included in Preamble of Proposed Rulemaking. Agency opens comment period.

Agency decides not to proceed and does not file final rule with G.R.R.C. within one year after proposed rule is published. A.R.S. § 41-1021(A)(4).

Agency decides not to proceed and files Notice of Termination of Rulemaking for publication in Register. A.R.S. § 41-1021(A)(2).

Oral proceeding and close of record. Comment period must last at least 30 days after publication of notice. Oral proceeding (hearing) is held no sooner than 30 days after publication of notice of hearing.

Substantial change?
If no change then

Rule must be submitted for review or terminated within 120 days after the close of the record.

A final rulemaking package is submitted to G.R.R.C. or A.G. for review. Contains final preamble, rules, and Economic Impact Statement.

G.R.R.C. has 90 days to review and approve or return the rule package, in whole or in part; A.G. has 60 days.

After approval by G.R.R.C. or A.G., the rule becomes effective 60 days after filing with the Secretary of State (unless otherwise indicated).

Final rule is published in the Register and the quarterly Code Supplement.

**Arizona Administrative Register (A.A.R.):** The official publication that includes filed documents pertaining to Arizona rulemaking. Available online at www.azsos.gov.

**Administrative Procedure Act (APA):** A.R.S. Title 41, Chapter 6, Articles 1 through 10. Available online at www.azleg.gov.

**Arizona Revised Statutes (A.R.S.):** The statutes are made by the Arizona State Legislature during a legislative session. They are compiled by Legislative Council, with the official publication codified by Thomson West. Citations to statutes include Titles which represent broad subject areas. The Title number is followed by the Section number. For example, A.R.S. § 41-1001 is the definitions Section of Title 41 of the Arizona Administrative Procedures Act. The “§” symbol simply means “section.” Available online at www.azleg.gov.

**Chapter:** A division in the codification of the Code designating a state agency or, for a large agency, a major program.

**Close of Record:** The close of the public record for a proposed rulemaking is the date an agency chooses as the last date it will accept public comments, either written or oral.

**Docket:** A public file for each rulemaking containing materials related to the proceedings of that rulemaking. The docket file is established and maintained by an agency from the time it begins to consider making a rule until the rulemaking is finished. The agency provides public notice of the docket by filing a Notice of Rulemaking Docket Opening with the Office for publication in the Register.

**Economic, Small Business, and Consumer Impact Statement (EIS):** The EIS identifies the impact of the rule on private and public employment, on small businesses, and on consumers. It includes an analysis of the probable costs and benefits of the rule. An agency includes a brief summary of the EIS in its preamble. The EIS is not published in the Register but is available from the agency promulgating the rule. The EIS is also filed with the rulemaking package.

**Governor’s Regulatory Review (G.R.R.C.):** Reviews and approves rules to ensure that they are necessary and to avoid unnecessary duplication and adverse impact on the public. G.R.R.C. also assesses whether the rules are clear, concise, understandable, legal, consistent with legislative intent, and whether the benefits of a rule outweigh the cost.

**Incorporated by Reference:** An agency may incorporate by reference standards or other publications. These standards are available from the state agency with references on where to order the standard or review it online.

**Federal Register (FR):** The Federal Register is a legal newspaper published every business day by the National Archives and Records Administration (NARA). It contains federal agency regulations; proposed rules and notices; and executive orders, proclamations, and other presidential documents.

**Session Laws or “Laws”:** When an agency references a law that has not yet been codified into the Arizona Revised Statutes, use the word “Laws” is followed by the year the law was passed by the Legislature, followed by the Chapter number using the abbreviation “Ch.”, and the specific Section number using the Section symbol (§). For example, Laws 1995, Ch. 6, § 2. Session laws are available at www.azleg.gov.

**United States Code (U.S.C.):** The Code is a consolidation and codification by subject matter of the general and permanent laws of the United States. The Code does not include regulations issued by executive branch agencies, decisions of the federal courts, treaties, or laws enacted by state or local governments.

**About Preambles**

The Preamble is the part of a rulemaking package that contains information about the rulemaking and provides agency justification and regulatory intent. It includes reference to the specific statutes authorizing the agency to make the rule, an explanation of the rule, reasons for proposing the rule, and the preliminary Economic Impact Statement.

The information in the Preamble differs between rulemaking notices used and the stage of the rulemaking.
NOTICES OF PROPOSED RULEMAKING

This section of the Arizona Administrative Register contains Notices of Proposed Rulemakings. A proposed rulemaking is filed by an agency upon completion and submittal of a Notice of Rulemaking Docket Opening. Often these two documents are filed at the same time and published in the same Register issue. When an agency files a Notice of Proposed Rulemaking under the Administrative Procedure Act (APA), the notice is published in the Register within three weeks of filing. See the publication schedule in the back of each issue of the Register for more information.

Under the APA, an agency must allow at least 30 days to elapse after the publication of the Notice of Proposed Rulemaking in the Register before beginning any proceedings for making, amending, or repealing any rule. (A.R.S. §§ 41-1013 and 41-1022)

The Office of the Secretary of State is the filing office and publisher of these rules. Questions about the interpretation of the proposed rules should be addressed to the agency that promulgated the rules. Refer to item #4 below to contact the person charged with the rulemaking and item #10 for the close of record and information related to public hearings and oral comments.

NOTICES OF SUPPLEMENTAL PROPOSED RULEMAKINGS

This section of the Arizona Administrative Register contains Notices of Supplemental Proposed Rulemakings. After an agency has filed a Notice of Proposed Rulemaking and it is published in the Register, an agency may decide to make substantial changes to the rule after it is proposed. The agency prepares a Notice of Supplemental Proposed Rulemaking with these proposed changes. When filed, the notice is published under the deadline schedule in the back of the Register.

The Notice of Supplemental Proposed Rulemaking shall be published in the Register before holding any oral proceedings (A.R.S. § 41-1022).

The Office of the Secretary of State is the filing office and publisher of these rules. Questions about the interpretation of the proposed rules should be addressed to the agency that promulgated the rules. Refer to item #4 below to contact the person charged with the rulemaking and item #11 for the close of record and information related to public hearings and oral comments.

5. An agency’s justification and reason why a rule should be made, amended, repealed or renumbered, to include an explanation about the rulemaking:
   - This rulemaking is proposed as part of the AHCCCS Administration’s obligation under the federal Medicaid Act, 42 U.S.C. § 1396a(a)(30)(A), to establish methods for the reimbursement of health care providers that are consistent with efficiency, economy, quality care, and adequate access to care for persons enrolled in AHCCCS, Arizona’s implementation of the Medicaid program. Specifically, this rulemaking distinguishes services provided by a hospital-based freestanding emergency department from other hospital services and establishes the payment methodology for services provided by hospital-based freestanding emergency departments.
   - The Arizona Department of Health Services has established a class of health care institutions known as outpatient treatment centers (OTCs). See generally, A.A.C. Title 9, Chapter 10, Article 10. A subclass of OTCs is authorized to provide emergency department services. A.A.C. § R9-10-1019. In this rulemaking, OTCs licensed to provide emergency department services are referred to as “freestanding emergency departments” (FSEDs). FSEDs are rela-
A reference to any study relevant to the rule that the agency reviewed and proposes either to rely on or not to rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:

A study was not referenced or relied upon when revising these regulations.

An explanation of the substantial change which resulted in the supplemental notice:

The Notice of Proposed Rulemaking, published at 22 A.A.R. 770 on April 8, 2016, proposed amending R9-22-712.15 to provide that services rendered by outpatient treatment centers, including hospital-based FSEDs, would not be considered outpatient hospital services reimbursed as specified in A.A.C. R9-22-712.10 through R9-22-712.50. Instead, the Administration originally proposed that those services be reimbursed under the capped fee schedule established by AHCCCS Administration which schedule is exempt from the requirements of rule-making under A.R.S. § 41-1005(A)(9). Public comments received in response to the Notice of Proposed Rulemaking requested that the proposed rulemaking describe the reimbursement methodology in the proposed rule. In response, this Notice of Supplemental Proposed Rulemaking makes no changes to R9-22-712.15, but instead, creates a new rule, R9-22-712.90, that is specific to hospital-based FSEDs. Under the Supplemental Proposed Rulemaking, services provided at those facilities are treated as a special type of outpatient hospital services which are reimbursed based on a modified version of the methodology for other outpatient hospital services.

The Notice of Proposed Rulemaking, published at 22 A.A.R. 770 on April 8, 2016, proposed that services provided by outpatient treatment centers, including hospital-based FSEDs, are not outpatient hospital services which are reimbursed as specified in A.A.C. R9-22-712.10 through R9-22-712.50. Instead, the administration proposed that those services be reimbursed under the capped fee schedule established by the AHCCCS Administration which schedule is exempt from the requirements of rule-making under A.R.S. 41-1005(A)(9). Public comments received in response to the Notice of Proposed Rulemaking requested that the Proposed Rulemaking describe the reimbursement methodology in the proposed rule. In response, this Supplemental Proposed Rulemaking treats hospital-based FSEDs as a special type of outpatient hospital services which are reimbursed based on a modified version of the
methodology for other outpatient hospital services.

8. **A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision:**

This rulemaking does not diminish a previous grant of authority of a political subdivision.

9. **The preliminary summary of the economic, small business, and consumer impact:**

The Administration does not anticipate a significant economic impact on the implementing agency, small businesses, or consumers. Hospital-based FSEDs, a subclass of outpatient treatment centers, are relatively new to Arizona. Five such facilities have been identified as currently existing although the administration has information that additional hospital-based FSEDs are planned for the future. Because the administration cannot currently distinguish services provided by hospital-based FSEDs from other outpatient hospital services, the AHCCCS Administration presumes that services provided at these five facilities have been reimbursed as specified in A.A.C. R9-22-712.10 through R9-22-712.50. While this proposed rulemaking reduces the payments for level 1, 2 and 3 – services that could usually be provided more efficiently and cost effectively by a primary care physician – information provided to the administration by an operator of several of the hospital-based FSEDs suggests low utilization of services at those levels of care. As such, the administration assumes that the economic impact of this supplemental proposed rulemaking on hospital revenues will be minimal.

ARTICLE 7. STANDARDS FOR PAYMENTS

Section

ARTICLE 7. STANDARDS FOR PAYMENTS

R9-22-712.90. Reimbursement of Freestanding Emergency Departments

A. “Hospital-based freestanding emergency department” (FSEDs) means an outpatient treatment center as defined in R9-10-101 that: (1) provides emergency department services under R9-10-1019, (2) is subject to the requirements of 42 CFR 489.24, and (3) shares an ownership interest with a hospital, regardless of whether the outpatient treatment center operates under a hospital’s single group license as described in A.R.S. § 36-422.

B. Hospital-based FSEDs shall be required to register with the Administration separately from the hospital and obtain a separate provider identification number. The Administration shall not charge a separate provider enrollment fee for registration of the hospital-based FSEDs. The Administration shall accept the hospital’s compliance with the provider screening and enrollment requirements of 42 CFR Part 455 as compliance by the hospital-based FSEDs.

C. For dates of service on and after January 1, 2017, and except as provided in subsection (D), hospital-based FSEDs shall be reimbursed a percentage of amounts otherwise reimbursable under sections R9-22-712.20 through R9-22-712.30 based on the Emergency Department Facility Level Coding Guidelines adopted by the American College of Emergency Physicians and the appropriate CPT and revenue codes:
   1. 60% for a level 1 emergency department visit.
   2. 80% for a level 2 emergency department visit.
   3. 90% for a level 3 emergency department visit.
   4. 100% for a level 4 or 5 emergency department visit.

D. Hospital-based FSEDs located in a city or town in a county with less than 500,000 residents where the only hospital in the city or town operating an emergency department closed on or after January 1, 2015, shall be reimbursed under sections R9-22-712.20 through R9-22-712.35 using the adjustment in R9-712.35 associated with the nearest hospital with which the freestanding emergency department shares an ownership interest.

E. Services provided by an outpatient treatment center that does not meet the criteria in subsection B shall be reimbursed based on the non-hospital AHCCCS capped fee-for-service schedule.

F. AHCCCS will not reimburse a hospital for services provided at a hospital-based FSED if the member is admitted directly from the hospital-based FSED to a hospital with an ownership interest in the hospital-based FSED. As provided in R9-22-712.60(B), payments made for the inpatient stay using the DRG methodology shall be the sole reimbursement.

NOTICE OF FINAL RULEMAKING

TITLE 14. PUBLIC SERVICE CORPORATIONS; CORPORATIONS AND ASSOCIATIONS
SECURITIES REGULATION

CHAPTER 2. CORPORATION COMMISSION – FIXED UTILITIES

[R16-120]

PREAMBLE

1. Article, Part, or Section Affected (as applicable) Rulemaking Action
   R14-2-802 Amend

2. Citations to the agency’s statutory rulemaking authority to include both the authorizing statute (general) and the implementing statute (specific):
   Implementing statute: Arizona Constitution Article XV, §§ 40-202, 40-203, and 40-321
   In Arizona Corporation Commission v. State ex rel. Woods, 171 Ariz. 286. 830 P.2d 807 (1992), the Arizona Supreme Court determined that the Arizona Corporation Commission (“Commission”) had the power to adopt the Affiliated Interests Rules under its exclusive and plenary constitutional ratemaking authority granted by Article XV, § 3, as the Affiliated Interests Rules were reasonably necessary for ratemaking. As they amend the Affiliated Interests Rules, the rule revisions proposed likewise are authorized under Article XV, § 3.

3. The effective date of the rule:
   July 14, 2016
   a. If the agency selected a date earlier than the 60 day effective date as specified in A.R.S. § 41-1032(A), include the earlier date and state the reason or reasons the agency selected the earlier effective date as provided in A.R.S. § 41-1032(A)(1) through (5):
      The Commission requests an immediate effective date for these rules under A.R.S. § 41-1032(A)(4) and (5). The rule revision will benefit the telecommunications utilities currently subject to the Affiliated Interests Rules as well as the Commission and Staff; will not penalize anyone; is less stringent than the rule that is currently in effect; will not have an adverse impact on public health, safety, welfare, or the environment; and does not affect the public involvement and public participation process. Thus, to ensure that the benefits to be created by the rule revision are realized as soon as possible, it is just and reasonable and in the public interest for the Commission to adopt the rule revision with an immediate effective date.
   b. If the agency selected a date later than the 60 day effective date as specified in A.R.S. § 41-1032(A), include the later date and state the reason or reasons the agency selected the later effective date as provided in A.R.S. § 41-1032(B):
      Not applicable

4. Citations to all related notices published in the Register as specified in R1-1-409(A) that pertain to the record of the final rulemaking package:

5. The agency’s contact person who can answer questions about the rulemaking:
   Name: Maureen Scott, Senior Staff Counsel, Legal Division
   Address: Corporation Commission
             1200 W. Washington St.
             Phoenix, AZ 85007
   Telephone: (602) 542-3402
6. An agency's justification and reason why a rule should be made, amended, repealed or renumbered, to include an explanation about the rulemaking:
   The purpose of the rule change is to amend R14-2-802(A) to exempt telecommunications carriers, whose retail telecommunications services have all been determined to be competitive, from application of the Affiliated Interests Rules, except as may be determined by a future Arizona Corporation Commission order. The specific change is based upon and supported by the changes to A.R.S. § 40-285 made by the Arizona Legislature in 2013.
   The rule change is expected to relieve exempt telecommunications companies from having to submit to the Commission applications for waivers of the Affiliated Interests Rules associated with reorganizations, mergers, consolidations or refinancing, along with no longer having to submit Affiliated Interests Annual Reports.

7. A reference to any study relevant to the rule that the agency reviewed and either relied on or did not rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:
   Not applicable

8. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:
   Not applicable

9. A summary of the economic, small business, and consumer impact:
   The purpose of the rule change is to amend R14-2-802(A) to exempt telecommunications carriers whose retail telecommunications services have all been determined to be competitive, from application of the Affiliated Interests Rules, except as may be determined by a future Commission order. Those directly affected by the rulemaking include telecommunications service providers whose retail services have been determined to be competitive in Arizona and the Commission. There are no probable costs to the Commission. The benefits include time and cost savings due to no longer having to process waiver applications and Annual Affiliated Interests Reports. Benefits for telecommunications companies include time and cost savings due to no longer having to submit waiver applications and Annual Affiliated Interests Reports. No impact on employment is expected. Small businesses may benefit from a less regulatory burdensome merger transaction. There should be no costs or benefits to customers of exempted telecommunications companies.

10. A description of any changes between the proposed rulemaking, to include supplemental notices, and the final rulemaking:
   The clarity, conciseness, and understandability of the rule is enhanced in the final rulemaking by moving the new language to a new subsection (B); replacing the introductory language “Notwithstanding the preceding sentence” with “Notwithstanding subsection (A)”; moving the existing subsection (B) and relabeling it as subsection (C); and replacing the citation “A.A.C. 14-2-1101 et seq.” with “A.A.C. Title 14, Chapter 2, Article 11” to conform to the Secretary of State rulemaking style requirements.
   The modifications to the proposed rule do not result in a rule that is substantially different, under A.R.S. § 41-1025, than the proposed rule published in the Notice of Proposed Rulemaking.
11. An agency’s summary of the public or stakeholder comments made about the rulemaking and the agency response to the comments:

Summaries of the formal comments received and of Commission Staff’s responses thereto, along with the Commission’s responses are included in the following table. All of the formal and informal comments received regarding the rule revision were supportive of the rule revision.

| Qwest Corporation dba CenturyLink QC, CenturyLink Communications, L.L.C., and CenturyLink Public Communications, Inc. (collectively “CenturyLink”) stated the following in support of the rule revision in the Notice of Proposed Rulemaking (“NPRM”):  
  • The Affiliated Interests Rules were adopted by the Commission six years before Congress adopted the Telecommunications Act of 1996, which opened local telecommunications services to competition;  
  • According to the decision in which they were adopted (Decision No. 56844 (March 14, 1990)), the Commission’s purpose in adopting the Affiliated Interests Rules was to protect ratepayers from paying rates that included costs associated with holding company structure, financially struggling affiliates, or sweetheart deals with affiliates intended to extract capital from the utility to subsidize non-utility operations;  
  • As a result of the Telecommunications Act of 1996, the telecommunications industry in Arizona and the rest of the nation has grown and become more fully competitive, providing customers with numerous options for service, including service from non-regulated providers;  
  • The existence of competition has made it impossible for utilities to pass through to utility customers, through rate increases, the losses from bad business diversification decisions, and without the ability to pass through such costs, utilities “have no incentive to engage in cross-subsidization or other activities that financially weaken the utility operation”;  
  • In 2013, in recognition of the competitive telecommunications market as a substitute for Commission regulation, the Arizona Legislature amended A.R.S. § 40-285 to exempt competitive telecommunications providers from the requirement to obtain Commission approval to dispose of assets or acquire the stock of other public service corporations, and the rule revision is consistent with the amendment to A.R.S. § 40-285;  
  • The Commission has granted numerous limited waivers to telecommunications utilities, which suggests that the Affiliated Interests Rules are overly broad;  
  • Because separate utilities have filed for waivers from portions of the Affiliated Interests Rules, and the Commission has not granted any utility complete exemption, telecommunications utilities are now subjected to disparate levels of relief from the Affiliated Interests Rules; and  
  • Telecommunications utilities, Staff, and the Commission are spending “inordinate amounts of time and energy on waivers for matters … better addressed by a total exemption from the [Affiliated Interests Rules] for competitive providers.” | Staff believes that the proposed rule revision will eliminate the need for the Commission to process and grant certain waivers of the Affiliated Interests Rules in the future and that this will conserve Commission resources and the resources of the affected telecommunications utilities. Staff supports the proposed rule revision and recommends that it be adopted. | The Commission acknowledges the supportive comment. No change to the proposed rule revision is necessary as a result of this comment. |

<td>Counsel for competitive providers XO Communications Services, LLC; Talk America, LLC; McLeodUSA Telecommunications Services; Paetec Communications, LLC; and Windstream Services, LLC stated that all of these carriers support the proposed rule change for efficiency and economic reasons and hope that the Commission will adopt it; that the proposed rule change tracks the legislative change to A.R.S. § 40-285 made in 2013; that putting the language of the revision into a separate subsection rather than including it in subsection (A) is a great idea; and that a number of counsel’s clients would be filing their Affiliated Interests Rules Annual Reports that week, although those reports would not provide the Commission any useful information because the companies are not rate regulated.</td>

<td>The Commission acknowledges the supportive comment. No change to the proposed rule revision is necessary as a result of this comment.</td>

<td>Counsel for Cox Arizona Telecom, LLC (“Cox”) stated that Cox supports the proposed amendment because the Affiliated Interests Rules were adopted in an era of monopoly utilities due to concerns regarding traditional rate of return regulation, the market has since changed radically to a competitive market that does not need the Affiliated Interests Rules, and the amendment will remove an unnecessary regulatory burden from the competitive telecommunications market.</td>

2. The subject matter of the proposed rules:

Arizona Revised Statutes (A.R.S.) § 36-136(H)(1) requires the Arizona Department of Health Services (Department) to make rules defining and prescribing “reasonably necessary measures for detecting, reporting, preventing, and controlling communicable and preventable diseases.” The Department has adopted rules to implement this statute in Arizona Administrative Code (A.A.C.) Title 9, Chapter 6. The rules specifying reporting requirements for communicable diseases are in 9 A.A.C. 6, Article 2. The rules covering control measures for communicable diseases are in 9 A.A.C. 6, Article 3. The rules in 9 A.A.C. 6, Articles 2 and 3 contain requirements for the reporting of several conditions that no longer need to be included as reportable conditions and do not contain reporting requirements for other conditions that should be reportable to protect public health. The rules need to be revised to update reportable conditions and their control measures, ensure more accurate tracking and better reporting, and improve the effectiveness of the rules in preventing a significant threat to public health. After receiving an exception from the Governor’s rulemaking moratorium established by Executive Order 2016-03, the Department is revising the rules to address these concerns, account for changes in laboratory methodologies, allow for electronic reporting, and reduce the regulatory burden of the rules. The proposed amendments will conform to rulemaking format and style requirements of the Governor’s Regulatory Review Council and the Office of the Secretary of State. The Department may add, delete, or modify other Sections, as necessary.

   d. To avoid violating a court order or federal law that would result in sanctions by a court or the federal government against an agency for failure to conduct the rulemaking action.

   f. To comply with a state statutory requirement.
   g. To fulfill an obligation related to fees or any other action necessary to implement the State budget that is certified by the Governor’s Office of Strategic Planning and Budgeting.

   j. To eliminate rules that are antiquated, redundant or otherwise no longer necessary for the operation of state government.

3. For the purposes of this Order, the term “State agencies,” includes without limitation, all executive departments, agencies, offices, and all state boards and commissions, except for: (a) any State agency that is headed by a single elected State official, (b) the Corporation Commission and (c) any board or commission established by ballot measure during or after the November 1998 general election. Those State agencies, boards and commissions excluded...
from this Order are strongly encouraged to voluntarily comply with this Order in the context of their own rulemaking processes.

4. 5. This Executive Order expires on December 31, 2016.

IN WITNESS WHEREOF, I have hereunto set my hand and caused to be affixed the Great Seal of the State of Arizona.

**Appendix G:** The proposed revisions to Appendix G are substantially identical to the applicable code of federal regulations to which they apply. The proposed revisions will provide clarity in the identification of the applicable part and appendices that are incorporated by reference. In addition, the proposed revisions will remove appendices that the department does not have authority to regulate. In order to provide an easily readable underline strikeout version of Appendix G, sections 1.a-1.k are shown as deleted. Section 1 is proposed to be revised as indicated below.

- To delete 1.a and 1.b
- To delete 1.c
- To delete 1.d

- To add 4: Availability of Information.

To correct typographical or other clerical errors; make minor grammatical changes to improve readability or clarity; modify the format, numbering, order, capitalization, punctuation, or syntax of certain text to increase standardization within and among rules; and make various other minor changes of a purely editorial nature. As these proposed changes do not alter the sense, meaning, or effect of the rule, they are not described in detail here, but can be readily discerned in the “strikeout and underline” version of the rule contained in Item #6 of this notice.

A.R.S. § 49-471.08(A)(2):
Written finding by the Control Officer setting forth the reasons why the rule or ordinance making is necessary and does not alter the sense, meaning or effect of the federal or state rule or law from which it is derived.
This rulemaking is required to update the applicability dates in these rules. It incorporates subparts that have been passed by the federal government which are required to be implemented by the department. Rules 321, 360, 370, 371, and Appendix G do not alter the sense, meaning or effect of the state rules and federal regulations from which they are derived, as they incorporate language that is essentially the same as the state's applicable rules and the federal code of regulations.

A.R.S. § 49-471.08(A)(3):
Demonstration that fees established in the rule or ordinance do not exceed limits specified in § 49-112.
Rules 321, 360, 370, 371, and Appendix G do not establish fees. Any costs associated with these rules will come from permit application fees for sources obtaining a permit revision to reflect new emission limits, due to applicability of a new standard. Therefore, fees associated with these rules will be exactly the same as fees associated with similar permits and would not exceed any limits specified in § 49-112.

5. Public comments regarding the proposed rulemaking:
This is a proposed expedited rule making. Written comments will be accepted if received between the date of this publication and August 29, 2016, by 5:00 PM. Written comments may be mailed, e-mailed or hand delivered to the department. Written comments received during the comment period will be considered formal comments to the expedited rulemaking and will be responded to in the Notice of Final Rulemaking.

(1) Fully comply with all requirements of 40 CFR 61, Subpart M.

(2) Thoroughly inspect the facility within 12 months of commencement of demolition or renovation activity for the presence of asbestos, including Category I and Category II nonfriable ACM. Include the date of this inspection on the written notification.

(3) Provide the Control Officer with written notification of intention to demolish or to renovate in the manner described in 40 CFR 61.145.
(4) Update all notifications in accordance with 40 CFR 61.145(b). For renovations described in 40 CFR 61.145(a)(4)(iii), notifications shall expire every December 31, with new notices required at least 10 working days before the end of the calendar year preceding the year for which notice is being given. All other notifications shall expire one year from either the original postmark date or commercial delivery date or date of hand delivery to the Control Officer. For a demolition activity or renovation activity that continues beyond the expiration date, the owner or operator of the demolition or renovation activity shall notify the Control Officer in accordance with 40 CFR 61.145(b) at least 10 working days prior to the expiration of the original notice and pay all applicable fees prescribed by Rule 280 of these rules.

(5) Pay all applicable fees prescribed by Rule 280 of these rules.

b. In addition, each owner or operator of a demolition activity or renovation activity shall comply with the following requirements:

(1) Certification, training, and record keeping requirements:

   (a) All facilities scheduled for demolition or renovation shall be inspected by a currently certified Asbestos Hazard Emergency Response Act (AHERA) accredited asbestos building inspector (herein referenced as inspector), as required by either AHERA or the Asbestos School Hazard Abatement Reauthorization Act (ASHARA).

   (b) Each owner and operator of a facility shall maintain a copy of any reports of inspections made for a facility for two years from completion of project, including laboratory test results of samples collected. A copy of the inspection reports and laboratory test results shall be on-site and available for inspection at the facility, upon request of the Department, during all demolition and renovation (asbestos setup, removal, handling, collecting, containerizing, cleanup and dismantling) activities.

   (c) All asbestos workers shall maintain current AHERA worker certification. All asbestos contractor/supervisors shall maintain current AHERA/ASHARA contractor/supervisor certification and shall be on-site at all times during any active asbestos abatement work at or above NESHAP threshold amounts. A legible copy of all asbestos workers and contractor/supervisor's current training certificates from an EPA accredited training provider shall be available for inspection at all times at the demolition or renovation site.

   (d) All asbestos workers and contractor/supervisors shall have color photo identification on-site and available for inspection, upon request of the Department, at all times during asbestos setup, removal, handling, collecting, containerizing, cleanup and dismantling. The color photo identification shall be from an EPA accredited training provider verifying the certification requirements in section (b)(1)(c), or a current government-issued photo identification card.

   (b) Inspection viewing devices at facilities are required at all asbestos renovation projects where regulated asbestos-containing material (RACM) is being abated, except for roofing projects
involving Category I nonfriable ACM and Category II nonfriable ACM exclusively. Viewing devices shall be so designed as to allow an inspector to view the facility from the outside, either through ports or by video monitoring.

(c) All exposed RACM subject to cutting or dismantling operations and all RACM being removed from a facility or a facility component shall be kept adequately wet by using amended water to control the release of asbestos fibers. The use of amended water will not be required in the case of an ordered demolition, as defined in 40 CFR 61.145(a)(3), where the debris is suspected to contain or is known to contain ACM, however ordered demolitions are subject to 40 CFR 61.145(c)(9). Specific exemptions are listed under 40 CFR 61.145(c)(3)(i)(A), 40 CFR 61.145(c)(3)(ii) and/or 40 CFR 61.145(c)(7)(i).
