ABOUT THIS PUBLICATION

The paper copy of the *Administrative Register* (A.A.R.) is the official publication for rules and rulemaking activity in the state of Arizona.

Rulemaking is defined in Arizona Revised Statutes known as the Arizona Administrative Procedure Act (APA), A.R.S. Title 41, Chapter 6, Articles 1 through 10.

The Office of the Secretary of State does not interpret or enforce rules published in the *Arizona Administrative Register* or *Code*. Questions should be directed to the state agency responsible for the promulgation of the rule as provided in its published filing.

The *Register* is cited by volume and page number. Volumes are published by calendar year with issues published weekly. Page numbering continues in each weekly issue.

In addition, the *Register* contains the full text of the Governor's Executive Orders and Proclamations of general applicability, summaries of Attorney General opinions, notices of rules terminated by the agency, and the Governor's appointments of state officials and members of state boards and commissions.

ABOUT RULES

Rules can be: made (all new text); amended (rules on file, changing text); repealed (removing text); or renumbered (moving rules to a different Section number). Rules activity published in the *Register* includes: proposed, final, emergency, expedited, and exempt rules as defined in the APA.

Rulemakings initiated under the APA as effective on and after January 1, 1995, include the full text of the rule in the *Register*. New rules in this publication (whether proposed or made) are denoted with underlining; repealed text is stricken.

WHERE IS A "CLEAN" COPY OF THE FINAL OR EXEMPT RULE PUBLISHED IN THE REGISTER?

The *Arizona Administrative Code* (A.A.C.) contains the codified text of rules. The A.A.C. contains rules promulgated and filed by state agencies that have been approved by the Attorney General or the Governor's Regulatory Review Council. The *Code* also contains rules exempt from the rulemaking process.

The printed *Code* is the official publication of a rule in the A.A.C., and is prima facie evidence of the making, amendment, or repeal of that rule as provided by A.R.S. § 41-1012. Paper copies of rules are available by full Chapter or by subscription. The *Code* is posted online for free.

LEGAL CITATIONS AND FILING NUMBERS

On the cover: Each agency is assigned a Chapter in the *Arizona Administrative Code* under a specific Title. Titles represent broad subject areas. The Title number is listed first; with the acronym A.A.C., which stands for the *Arizona Administrative Code*; following the Chapter number and Agency name, then program name. For example, the Secretary of State has rules on rulemaking in Title 1, Chapter 1 of the *Arizona Administrative Code*. The citation for this chapter is 1 A.A.C. 1, Secretary of State, Rules and Rulemaking

Every document filed in the office is assigned a file number. This number, enclosed in brackets, is located at the top right of the published documents in the *Register*. The original filed document is available for 10 cents a page.

Participate in the Process

Look for the Agency Notice

Review (inspect) notices published in the *Arizona Administrative Register*. Many agencies maintain stakeholder lists and would be glad to inform you when they proposed changes to rules. Check an agency's website and its newsletters for news about notices and meetings.

Feel like a change should be made to a rule and an agency has not proposed changes? You can petition an agency to make, amend, or repeal a rule. The agency must respond to the petition. (See A.R.S. § 41-1033)

Attend a public hearing/meeting

Attend a public meeting that is being conducted by the agency on a Notice of Proposed Rulemaking. Public meetings may be listed in the Preamble of a Notice of Proposed Rulemaking or they may be published separately in the *Register*. Be prepared to speak, attend the meeting, and make an oral comment.

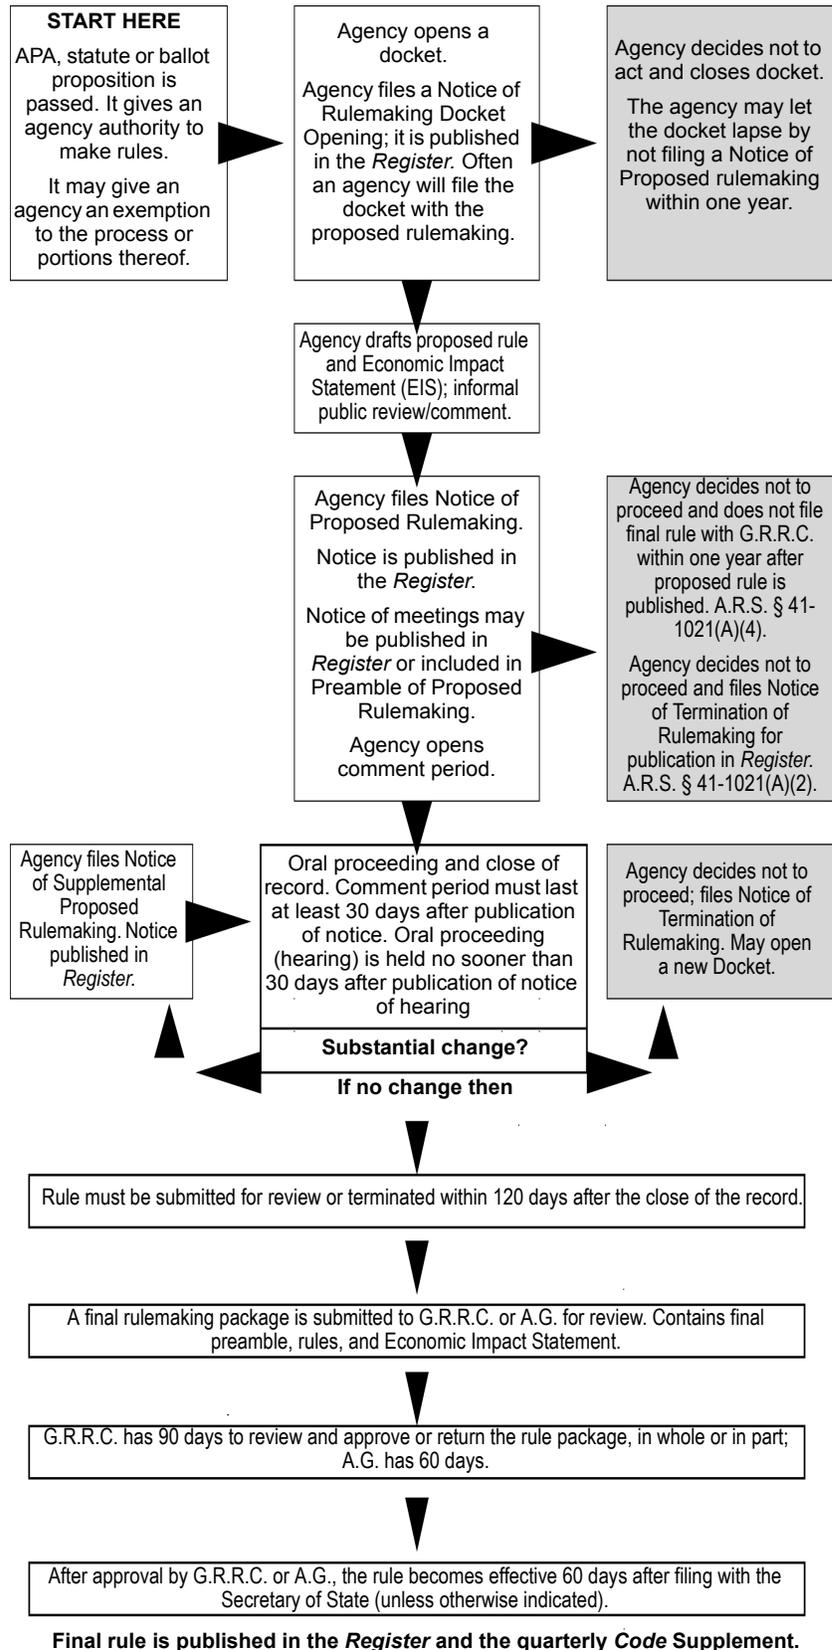

An agency may not have a public meeting scheduled on the Notice of Proposed Rulemaking. If not, you may request that the agency schedule a proceeding. This request must be put in writing within 30 days after the published Notice of Proposed Rulemaking.

Write the agency

Put your comments in writing to the agency. In order for the agency to consider your comments, the agency must receive them by the close of record. The comment must be received within the 30-day comment timeframe following the *Register* publication of the Notice of Proposed Rulemaking.

You can also submit to the Governor's Regulatory Review Council written comments that are relevant to the Council's power to review a given rule (A.R.S. § 41-1052). The Council reviews the rule at the end of the rulemaking process and before the rules are filed with the Secretary of State.

Definitions

Arizona Administrative Code (A.A.C.): Official rules codified and published by the Secretary of State's Office. Available online at www.azsos.gov.

Arizona Administrative Register (A.A.R.): The official publication that includes filed documents pertaining to Arizona rulemaking. Available online at www.azsos.gov.

Administrative Procedure Act (APA): A.R.S. Title 41, Chapter 6, Articles 1 through 10. Available online at www.azleg.gov.

Arizona Revised Statutes (A.R.S.): The statutes are made by the Arizona State Legislature during a legislative session. They are compiled by Legislative Council, with the official publication codified by Thomson West. Citations to statutes include Titles which represent broad subject areas. The Title number is followed by the Section number. For example, A.R.S. § 41-1001 is the definitions Section of Title 41 of the Arizona Administrative Procedures Act. The "§" symbol simply means "section." Available online at www.azleg.gov.

Chapter: A division in the codification of the *Code* designating a state agency or, for a large agency, a major program.

Close of Record: The close of the public record for a proposed rulemaking is the date an agency chooses as the last date it will accept public comments, either written or oral.

Code of Federal Regulations (CFR): The *Code of Federal Regulations* is a codification of the general and permanent rules published in the *Federal Register* by the executive departments and agencies of the federal government.

Docket: A public file for each rulemaking containing materials related to the proceedings of that rulemaking. The docket file is established and maintained by an agency from the time it begins to consider making a rule until the rulemaking is finished. The agency provides public notice of the docket by filing a Notice of Rulemaking Docket Opening with the Office for publication in the *Register*.

Economic, Small Business, and Consumer Impact Statement (EIS): The EIS identifies the impact of the rule on private and public employment, on small businesses, and on consumers. It includes an analysis of the probable costs and benefits of the rule. An agency includes a brief summary of the EIS in its preamble. The EIS is not published in the *Register* but is available from the agency promulgating the rule. The EIS is also filed with the rulemaking package.

Governor's Regulatory Review (G.R.R.C.): Reviews and approves rules to ensure that they are necessary and to avoid unnecessary duplication and adverse impact on the public. G.R.R.C. also assesses whether the rules are clear, concise, understandable, legal, consistent with legislative intent, and whether the benefits of a rule outweigh the cost.

Incorporated by Reference: An agency may incorporate by reference standards or other publications. These standards are available from the state agency with references on where to order the standard or review it online.

Federal Register (FR): The *Federal Register* is a legal newspaper published every business day by the National Archives and Records Administration (NARA). It contains federal agency regulations; proposed rules and notices; and executive orders, proclamations, and other presidential documents.

For example, Laws 1995, Ch. 6, § 2. Session laws are available at www.azleg.gov.

United States Code (U.S.C.): The Code is a consolidation and codification by subject matter of the general and permanent laws of the United States. The Code does not include regulations issued by executive branch agencies, decisions of the federal courts, treaties, or laws enacted by state or local governments.

About Preambles

The Preamble is the part of a rulemaking package that contains information about the rulemaking and provides agency justification and regulatory intent.

It includes reference to the specific statutes authorizing the agency to make the rule, an explanation of the rule, reasons for proposing the rule, and the preliminary Economic Impact Statement.

The information in the Preamble differs between rulemaking notices used and the stage of the rulemaking.

NOTICES OF PROPOSED RULEMAKING

This section of the *Arizona Administrative Register* contains Notices of Proposed Rulemakings.

A proposed rulemaking is filed by an agency upon completion and submittal of a Notice of Rulemaking Docket Opening. Often these two documents are filed at the same time and published in the same *Register* issue.

When an agency files a Notice of Proposed Rulemaking under the Administrative Procedure Act (APA), the notice is published in the *Register* within three weeks of filing. See the publication schedule in the back of each issue of the *Register* for more information.

Under the APA, an agency must allow at least 30 days to elapse after the publication of the Notice of Proposed Rulemaking in the *Register* before beginning any proceedings for making, amending, or repealing any rule (A.R.S. §§ 41-1013 and 41-1022).

The Office of the Secretary of State is the filing office and publisher of these rules. Questions about the interpretation of the proposed rules should be addressed to the agency that promulgated the rules. Refer to item #4 below to contact the person charged with the rulemaking and item #10 for the close of record and information related to public hearings and oral comments.

- 5. An agency's justification and reason why a rule should be made, amended, repealed, or renumbered, to include an explanation about the rulemaking:**
 On January 9, 2017, Governor Ducey sent a letter to the Board requesting the Board require all physicians in Arizona to complete continuing education in drug addiction and opioid prescribing. The Governor's concern arises from the fact Arizona has the ninth highest rate of opioid-related deaths in the nation. More than two Arizonans died every day in 2016 from overdoses of opioid prescription medications or heroin. The 790 deaths was a 74 percent increase from 2012.
 In an exempt rulemaking that went into effect on August 9, 2017, the Board established a fee for a temporary license to practice medicine in Arizona. Because the effect of this fee is time limited under A.R.S. § 41-1008(E), the Board is now making the fee using the regular rulemaking process.
 An exemption from Executive Order 2017-02 was provided for the opioid CME rulemaking by Mara Mellstrom, Policy Advisor in the Governor's Office, in an e-mail dated March 10, 2017. Ms. Mellstrom provided an exemption for the temporary-license fee in an e-mail dated June 28, 2017.
- 6. A reference to any study relevant to the rule that the agency reviewed and proposes either to rely on or not to rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:**
 The Board does not intend to review or rely on a study in its evaluation of or justification for any rule in this rulemaking.

7. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:

Not applicable

8. The preliminary summary of the economic, small business, and consumer impact:

The Board estimates the rulemaking will have minimal economic impact on licensees and applicants. Licensees are not being required to obtain an additional hour of CME. Rather, they are being required simply to ensure one of the 40 statutorily required CME hours addresses opioid drug addiction. Because the fee for a temporary license to practice medicine in Arizona already exists, making the fee using the regular rulemaking process does not affect applicants.

9. The agency's contact person who can answer questions about the economic, small business, and consumer impact statement:

Name: Patricia McSorley, Executive Director
Address: Arizona Medical Board
9545 E. Doubletree Ranch Road
Scottsdale, AZ 85258
Telephone: (480) 551-2700
Fax: (480) 551-2704
E-mail: patricia.mcsorley@azmd.gov
Web site: www.azmd.gov

10. The time, place, and nature of the proceedings to make, amend, repeal, or renumber the rule, or if no proceeding is scheduled, where, when, and how persons may request an oral proceeding on the proposed rule:

An oral proceeding regarding the proposed rules will be held as follows:

Date: Friday, November 3, 2017
Time: 10:00 a.m.
Location: 9535 E. Doubletree Ranch Road
Scottsdale, AZ 85258

11. All agencies shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:

None

a. Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:

The license renewed under R4-16-201.1 and the licenses for which fees are established under R4-16-205 are general permits consistent with A.R.S. § 41-1037 because each is issued to qualified individuals to conduct activities that are substantially similar in nature.

b. Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:

None of the rules is more stringent than federal law. There are numerous federal laws relating to the provision of health care but none is directly applicable to this rulemaking.

c. Whether a person submitted an analysis to the agency that compares the rule's impact of the competitiveness of business in this state to the impact on business in other states:

No analysis was submitted.

12. A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rules:

None

 E-mail: pincognito@azwifa.gov

5. An explanation of the rule, including the agency's reasons for initiating the rulemaking:

A. Reasons for Initiating the Rulemaking

The Water Infrastructure Finance Authority of Arizona (WIFA) is initiating this rulemaking to reflect recent changes to its governing statutes. The Authority proposes to modify the existing rule so the rule supports and complements state statutory changes to A.R.S. Title 49, Chapter 8 and the addition of A.R.S. Title 41, Chapter 53.

On August 6, 2016, Arizona House Bill 2666 (Fifty-second Legislature, Second Regular Session, 2016) became effective, transferring the Water Infrastructure Finance Authority (WIFA) to the newly established Arizona Finance Authority (AFA) which is governed by a newly created AFA Board of Directors.

Major changes addressed in the rulemaking include:

1. The WIFA Board of Directors was dissolved by HB 2666. Governance of the Authority is now under the AFA Board of Directors. The addition of A.R.S. § 41-5356 established a WIFA Advisory Board which provides recommendations to the AFA Board. References to the now-defunct WIFA Board are found throughout WIFA's current rules. The rulemaking reflects the new governance of the Clean Water and Drinking Water Revolving Fund programs.
2. The Water Supply Development Fund (WSDF) Committee was struck from statute by HB 2666. References to the now-defunct Water Supply Development Fund Committee are found throughout WIFA's current rules, particularly in Article 4 Water Supply Development Revolving Fund. This rulemaking updates the rules to reflect the new governance of the Water Supply Development Fund. References to the Committee have been removed and replaced with the Board, as appropriate.
3. In its 2007 session, the Legislature established the WSDF to be administered by WIFA in A.R.S. § 49-1271. Rules for the WSDF were promulgated as part of WIFA's 2010 rulemaking, paralleling the rules for the Drinking Water Revolving Fund program. This program is federally funded, and its rules are based on federal requirements which do not apply to the WSDF, a state program. This rulemaking improves the rule by reducing the regulatory burden associated with the non-applicable federal requirements currently applied to a state program.
4. Recent changes to the Clean Water Act (Water Resources Reform and Development Act of 2014) have affected the Clean Water Revolving Fund Program. These changes expanded the eligibilities of the types of recipients and the types of projects for the Clean Water Revolving Fund and allows for forgivable principal to be awarded. WIFA has evaluated these changes and revised its rules to provide flexibility so that WIFA may provide assistance to these expanded eligibilities, once WIFA's statutes are similarly revised.
5. Other clarifying edits have been made throughout A.A.C. Title 18, Chapter 15 to improve the comprehension and legal certainty of the rules.

B. Article-by-Article Explanation of the Rule

ARTICLE 1

The definitions that apply to all of Chapter 15 are located in R18-15-101. This Section is revised by amending or adding those definitions necessary to interpret the requirements of this rule and by eliminating definitions that are no longer necessary or applicable to this rule.

This rulemaking amends the following definitions: "applicant," "application," "Board," "Certified Water Quality Management Plan," "drinking water facility," "grant applicant," "grant application," "Intended Use Plan," "planning and design assistance grant," "planning and design assistance grant agreement," "planning and design loan repayment agreement," "project priority list," "recipient," "technical assistance," "wastewater treatment facility," "water provider," and "water supply development."

The following is a new term which has been added to this Section: “Advisory Board.”

The following terms are no longer applicable and have been eliminated from this rule: “Committee,” and “Priority Value.” Throughout the rules, references to the Water Supply Development Fund Committee were removed, and as applicable, were replaced with references to the Board. In Articles 2, 3 and 4, the term “Priority Value” was replaced with the words “total score” and “priority” to increase clarity.

The current Section R18-15-102(B)(2) does not provide any further clarification than the statute A.R.S. §§ 49-1203 (16) and (17), and the content of this Section is included within the financial assistance loan repayment agreements described in Section R18-15-102(B)(1). Therefore, to remove redundancy with statute and to make the rules more concise and clear, this Section was removed from the new rule.

R18-15-104 was amended to clarify the application process, including replacing the term “fiscal year” with “financial operating year (fiscal or calendar)” to clarify the timeframes to non-governmental borrowers who may not follow a “fiscal year.” This revision was also made in Articles 2, 3 and 4. Section R18-15-104(B)(5) was revised because the terms and conditions of the loan for which the beneficiaries are consenting to are not known at the time of application.

Additionally, this rulemaking revises Section R18-15-104 to clarify the differing requirements of the resolutions approved by governing bodies which are submitted at two separate times in the process to receive financial assistance. (An applicant to WIFA frequently chooses to submit two separate resolutions, one to authorize the application for financial assistance, and another to execute the loan. If its governing body allows, an applicant may choose to prepare one resolution addressing both sets of requirements.)

Most of the content in the previous Section R18-15-105(A) was incorporated into Section R18-15-106(A) as it applies to the environmental review process. The language was also expanded to include technical assistance projects.

In Section R18-15-105 and in three locations in Article 5, revisions were made to reflect current WIFA practice that canceled checks are not acceptable documentation of incurred cost.

ARTICLES 2 AND 3

The eligibility criteria in Section 18-15-201 were amended to accommodate recent changes to federal law which expanded borrower eligibility for the Clean Water Revolving Fund to include private and non-profit entities for certain types of projects. This revision to WIFA’s rules is being made in anticipation of an eventual amendment to state statute to allow these new types of borrowers.

No changes were made to R18-15-301, R18-15-202 or R18-15-302.

Sections R18-15-203 and R18-15-303 were amended in the same manner to clarify the requirements and processes of the Project Priority Lists (PPLs). A few minor terminology edits (“priority value” and “subsidy rate index”) were made. Because an application must be submitted for inclusion on the Project Priority List, the references to projects requested by regulatory authorities and all plans prepared according to the Clean Water Act (R18-15-203(C)) or the Safe Drinking Water Act (R18-15-303(C)) were removed. These projects and plans are considered by WIFA staff in the consideration of possible projects, however, placing a project on the PPL without the potential borrower’s involvement is not appropriate. Sections R18-15-203(E) and R18-15-303(E) were revised to clarify that projects may be removed from PPL because the project was financed by another source, not necessarily long-term indebtedness, and to clarify that projects may not be transitioned to a new funding cycle’s Project Priority List without resubmittal.

The public comment process for the Project Priority Lists was revised in Sections R18-15-203 and R18-15-303. The current rules require the Authority to hold public meetings to receive comments on the Project Priority Lists. However, current practice, as required by rule in Sections R18-15-202(B) and R18-15-302(B), is that the Authority annually publicly notices the Intended Use Plans which include the Project Priority Lists for 14 days. Updates to the Project Priority Lists occur on consent agenda at the Arizona Finance Authority Board meetings. Therefore, the rules were amended to only include a public notice for the Project Priority Lists, while keeping the requirement in R18-15-202 and R18-15-302 for a public comment period and a public meeting for the Intended Use Plans.

The procedures for ranking projects with tied scores were amended in R18-15-204(B) and R18-15-304(B) to clarify that two or more projects may receive the same total points, and that the tie breaking procedures will only be utilized when there is insufficient funding.

Sections R18-15-205 and R18-15-305 were revised to clarify the requirements to be included on the fundable range. A project only needs evidence of debt authorization according to R18-15-104 to move forward with applying for WIFA funding. This is because WIFA may fund projects which include the planning and design phases of an infrastructure project, and for these projects, the applicant cannot yet obtain applicable permits, receive approval by the project plans and specifications or initiate the bid process. For the same reason, R18-15-206 and R18-15-306 were revised to remove the requirement that the applicant has obtained or is in the process of obtaining all permits and approvals before presenting the application to the Board. These revisions reflect current WIFA practice and improve the comprehension and legal certainty of the rules.

In addition to the using the clearer term “financing operating years” in place of “fiscal year”, Sections R18-15-207 and R18-15-307 were revised to include an opportunity for public comment before the Board makes a determination on an applicant’s request for financial assistance.

ARTICLE 4

In its 2007 session, the Legislature established the WSDF to be administered by WIFA in A.R.S. § 49-1271. Rules for the WSDF were promulgated as part of WIFA’s 2010 rulemaking, paralleling the rules in Article 3 for the Drinking Water Revolving Fund program. The Drinking Water Revolving Fund program is federally funded, and its rules are based on federal requirements which do not apply to the WSDF, a state program. This rulemaking eliminates the current rules R18-15-402 and R18-15-405 which mandated the federal requirement of an Intended Use Plan and Fundable Range for the WSDF. These eliminations reduce the regulatory burden associated with a state program. The term “Project Priority List” in the renumbered Section R18-15-403, a condition of the Drinking Water Revolving Fund, has been replaced with the generic term, “project list.”

The WSDF Committee was struck from statute by House Bill 2666 (Fifty-second Legislature, Second Regular Session, 2016). The rules have been updated to reflect the new governance of the Fund by removing references to the Committee and replacing them with the Board as applicable.

Other minor edits were made to remove the connection to the Drinking Water Revolving Fund and to return to consistency with the statute, including removing the reference to “subsidy rate index”, and replacing “rank” and “priority value” with “order and priority”, and “value” with “score.”

The renumbered Section R18-15-402(F) was revised to clarify that projects may not be transitioned to the new funding cycle’s project list without resubmittal.

The procedures for ranking projects with tied scores were amended in the renumbered Section R18-15-403(B) to clarify that two or more projects may receive the same total points, and that the tie breaking procedures will only be utilized when there is insufficient funding.

The renumbered Section R18-15-404 was revised to remove the requirement that the applicant has obtained or is in the process of obtaining all permits and approvals before presenting the application to the Board. This is because WIFA may fund projects which include the planning and design phases of an infrastructure project, and for these projects, the applicant cannot yet obtain applicable permits and approvals. This revision improves the comprehension and legal certainty of the rules.

ARTICLE 5

Article 5 is amended to provide a clearer understanding of the technical assistance available and the required actions and process for applying for, evaluating and receiving planning and design assistance.

Throughout the rules, the Clean Water and Drinking Water State Revolving Fund planning and design technical assistance grant programs have been renamed to remove the word “grant.” This revision was made to clarify terminology between federal recipients and state sub-recipients (recipients of WIFA’s planning and design technical assistance). Federal grant recipients are subject to additional federal requirements which do not apply to recipients of WIFA funds (subrecipients of federal funds). This change of terminology reduces the regulatory burden associated with a state program. The terminology for the Water Supply Development Revolving Fund grant program is unchanged as this program is not federally funded.

Consistent with the amendments proposed in Article 4, this rulemaking amends Sections R18-15-501, R18-15-502 and R18-15-505 to remove all references to Intended Use Plan for Water Supply Development Fund Technical Assistance and to remove all references to Water Supply Development Fund Committee and replace them with the Arizona Finance Authority Board, as appropriate.

Section R18-15-503 has been revised to reflect the expanded eligibilities of applicants and project types as a result of recent changes to federal law.

Sections R18-15-503(J), R18-15-504(J) and R18-15-505(J) have been eliminated to allow WIFA to consider special circumstances in which project costs incurred prior to execution of a planning and design assistance agreement may be eligible for reimbursement.

Consistent with Section R18-15-105, Sections R18-15-503(K), R18-15-504(K) and R18-15-505(K) have been revised to remove the reference to “canceled checks.”

ARTICLE 6

Initial funding for the Hardship Grant Fund was provided as a one-time grant by EPA, and these grant funds have been allocated or committed to projects. WIFA does not anticipate receiving additional funds for the Hardship Grant Fund; however, this Article remains in the new rulemaking to preserve WIFA’s authority if additional future funds are received for the Hardship Grant Fund Program. Specific criteria for award in Section R18-15-602 have been eliminated as any future funding for the Hardship Grant would likely have new specific criteria, which would be different from those currently in rule.

ARTICLE 7

This rulemaking amends Section R18-15-701 to clarify differences in interest rate setting between projects funded by the Clean Water and Drinking Water State Revolving Funds and projects funded by the Water Supply Development Fund. The rule is being revised to clarify that within the Clean Water and Drinking Water State Revolving Funds, an applicant’s local fiscal capacity score is the primary factor in determining the interest rate, while in the Water Supply Development Fund, an applicant’s financial need is the primary factor.

The current rule does not allow forgivable principal to be awarded to Clean Water State Revolving Fund loans. The Water Resources Reform and Development Act of 2014 amended the Clean Water Act to allow for forgivable principal for Clean Water loans. The amount of forgivable principal required to be awarded is a condition of the annual federal capitalization grant. This rulemaking gives the Authority the flexibility to adhere to the federal requirements which may change from year to year. The rulemaking also clarifies that forgivable principal is only available for projects funded through either the Clean Water and Drinking Water State Revolving Funds, not the Water Supply Development Fund. The criteria for which applicants and projects are eligible for forgivable principal were revised to broadly match the criteria in the annual federal capitalization grants.

6. A reference to any study relevant to the rule that the agency reviewed and either proposes to rely on or not to rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:

None

7. A showing of good cause why the rule is necessary to promote a statewide interest if the rule will diminish a previous grant of authority of a political subdivision of this state:

Not applicable

8. The preliminary summary of the economic, small business and consumer impact:

A. Proposed rulemaking

The rulemaking will ensure that WIFA is in conformance with recent statutory changes, thereby reducing confusion among the AFA Board, WIFA Advisory Board, WIFA staff, applicants to the programs, and other stakeholders. Leaving the rules unchanged will result in statutory inconsistencies and misalignment with the current processes used by WIFA staff. WIFA believes that the information in the new rules will help reduce misunderstanding.

B. Information contained in this report

WIFA is a public financing agency; it does not regulate any consumer or business. WIFA's primary purpose is to provide financial and technical assistance through the Clean Water Revolving Fund for publicly held wastewater treatment projects and the Drinking Water Revolving Fund for both publicly and privately held drinking water systems. Both funds were established by the U.S. Environmental Protection Agency and are funded by federal capitalization grants, state matching funds (provided in recent years by WIFA) and WIFA bond proceeds.

In the state of Arizona, there are hundreds of community water systems and publicly-owned wastewater systems who are eligible to apply for funding from WIFA. In fiscal year 2017, WIFA provided financial assistance to five drinking water systems and three wastewater systems. Through the Drinking Water Revolving Fund, \$63 million was lent in the form of financial assistance to drinking water systems around the state, while \$4.6 million was lent through the Clean Water Revolving Fund. Technical assistance was provided to five drinking water systems and four wastewater systems in fiscal year 2017, totaling \$121,631 and \$134,324 respectively.

WIFA believes that the proposed rule will result in minimal costs to the Authority and other state agencies, including the Arizona Corporation Commission, Arizona Department of Environmental Quality and Arizona Department of Water Resources. The proposed rule has a beneficial impact and is expected to have no cost or minimal cost impact to the regulated industries, including wastewater treatment facilities, drinking water facilities, and water providers; as well as small businesses and small communities. WIFA provides significant savings to wastewater and drinking water systems through below-market interest rates, forgivable principal and reduced transaction costs. Without the financial and technical assistance available through WIFA, many wastewater and drinking water systems would otherwise find it difficult, if not impossible, to obtain funding to achieve compliance or correct problems associated with water quality standards. Customers of the wastewater facility, drinking water facility, or water provider receive the ultimate benefit from improved water quality and having an adequate water supply. Furthermore, the proposed rule amendments will not have an impact on state revenues.

The FONSI shall include the submitted EA and a brief description of the project, alternatives considered, and project impacts. The FONSI must also include any commitments to mitigation that are essential to render the impacts of the project not significant. The Authority shall issue the FONSI for public comment in accordance with subsection (J).
- G.** The Authority shall prepare or direct the applicant to prepare an EIS required by subsection (F)(1) when the project will significantly impact the environment, including any project for which the EA analysis demonstrates that significant impacts will occur and not be reduced or eliminated by changes to, or mitigation of, the project. The Authority shall perform the following actions:

1. As soon as practicable after its decision to prepare an EIS and before the scoping process, the Authority shall prepare a notice of intent. The notice of intent shall briefly describe the project and possible alternatives and the proposed scoping process. low dollar premium policies is obsolete. When enacted, the low premium trigger allowed insurers to provide less benefits when the policy premium met the low-dollar premium threshold. This trigger has largely been eliminated by inflation over the last 35 years.

Section
R20-6-607. Reasonableness of Benefits in Relation to Premium Charged

ARTICLE 6. TYPES OF INSURANCE CONTRACTS

R20-6-607. Reasonableness of Benefits in Relation to Premium Charged

- A.** Applicability. This rule shall apply to individual disability insurance (as defined in A.R.S. § 20-253) policy forms and rates.
- B.** When rate filing is required. Every individual policy form, rider or endorsement form affecting benefits which is submitted for approval shall be accompanied by a rate filing unless such rider or endorsement form does not require a change in the rate. Any subsequent addition to or change in rates applicable to such policy, rider or endorsement form shall also be filed.
- C.** General contents of all rate filings. Each rate submission shall include an actuarial memorandum describing the basis on which rates were determined and shall indicate and describe the calculation of the ratio, hereinafter called "anticipated loss ratio," of the present value of the expected benefits to the present value of the expected premiums over the entire period for which rates are computed to provide coverage. Each rate submission must also include a certification by a qualified actuary that to the best of the actuary's knowledge and judgment, the rate filing is in compliance with applicable laws and regulations of this state and that the benefits are reasonable in relation to the premiums.
- D.** Previously approved forms. Filings of rate revisions for a previously approved policy, rider or endorsement form shall also include the following:
 - 1. A statement of the scope and reason for the revision, and an estimate of the expected average effect on premiums including the anticipated loss ratio for the form.
 - 2. A statement as to whether the filing applies only to new business, only to in-force business, or both, and the reasons therefor.
 - 3. A history of the experience under existing rates, including at least the data indicated in subsection (D); (E). The history may also include, if available and appropriate, the ratios of actual claims to the claims expected according to the assumptions underlying the existing rates. Additional data might include: substitution of actual claim run offs for claim reserves and liabilities; determination of loss ratios with the increase in policy reserves (other than unearned premium reserves) added to benefits rather than subtracted from premiums; accumulations of experience funds; substitution of net level policy reserves for preliminary term policy reserves; adjustment of premiums to an annual mode basis; or other adjustments or schedules suited to the form and to the

~~records of the company.~~ All additional data must be reconciled, as appropriate, to the required data. Additional data might include:

- a. Substitution of actual claim run-offs for claim reserves and liabilities.
- b. Determination of loss ratios with the increase in policy reserves (other than unearned premium reserves) added to benefits rather than subtracted from premiums.
- c. Substitution of net level policy reserves for preliminary term policy reserves.
- d. Adjustment of premiums to an annual mode basis, or
- e. Other adjustments or schedules suited to the form and to the records of the company.

- 4. The date and magnitude of each previous rate change, if any.
- E. Experience records. Insurers shall maintain records of earned premiums and incurred benefits for each calendar year for each policy form, including data for rider and endorsement forms which are used with the policy form, on the same basis, including all reserves, as required for the Accident and Health Policy Experience Exhibit to the NAIC annual statement convention blank. Separate data may be maintained for each rider or endorsement form to the extent appropriate. Experience under forms which provide substantially similar coverage may be combined. The data shall be for all years of issue combined, for each calendar year of experience since the year the form was first issued, except the data for calendar years prior to the most recent five years may be combined.
- F. Evaluation experience data. In determining the credibility and appropriateness of experience data, due consideration must be given to all relevant factors, such as:
 - 1. Statistical credibility of premiums and benefits, e.g., low exposure, low loss frequency.
 - 2. Experienced and projected trends relative to the kind of coverage, e.g., inflation in medical expenses, economic cycles affecting disability income experience.
 - 3. The concentration of experience at early policy durations where select morbidity and preliminary term reserves are applicable and where loss ratios are expected to be substantially lower than at later policy durations.
 - 4. The mix of business by risk classification.
- G. Anticipated loss ratio standard. With respect to a new form or a currently approved form, except currently approved non-cancelable policy forms, under which the average annual premium (as defined below) is expected to be at least ~~\$200~~, \$700, benefits shall be deemed reasonable in relation to premiums provided the anticipated loss ratio is at least as great as shown in the following table.

Type of Coverage	Renewal Clause			
	OR	CR	GR	NC
Medical expense	60%	55%	55%	50%
Loss of income and other	60%	55%	50%	45%

For a policy form including riders and endorsements, under which the expected average annual premium per policy is ~~\$100~~ \$200 or more but less than ~~\$200~~, \$700, subtract 5 percentage points from the numbers in the table above, or if less than ~~\$100~~, \$200, subtract 10 percentage points.

The average annual premium per policy shall be computed by the insurer based on an anticipated distribution of business by all applicable criteria having a price difference, such as age, sex, amount, dependent status, rider frequency, etc., except assuming an annual mode for all policies (i.e., the fractional premium loading shall not affect the average annual premium or anticipated loss ratio calculation.)

The above anticipated loss ratio standards do not apply to a class of business which is regulated by specific statutes or regulations mandating loss ratios for such business, e.g., Medicare Supplement and Credit Life and Disability.

Definitions of Renewal Clause

- OR – Optionally Renewable: renewal is at the option of the insurance company.
- CR – Conditionally Renewable: renewal can be declined by the insurance company only for stated reasons other than deterioration of health.
- GR – Guaranteed Renewable: renewal cannot be declined by the insurance company for any reason, but the insurance company can revise rates on a class basis.
- NC – Non-Cancelable: renewal cannot be declined nor can rates be revised by the insurance company.

- H. Rate revisions. With respect to filings of rate revisions for a previously approved form, benefits shall be deemed reasonable in relation to premiums provided both the following loss ratios meet the standards in subsection ~~(F)~~(G) above.
 - 1. The anticipated loss ratio over the entire future period for which the revised rates are computed to provide coverage;
 - 2. The anticipated loss ratio derived by dividing (a) by (b) where:
 - a. Is the sum of the accumulated benefits, from the original effective date of the form or the effective date of this regulation, whichever is later, to the effective date of the revision, and the present value of future benefits; and
 - b. Is the sum of the accumulated premiums from the original effective date of the form or the effective date of the regulation, whichever is later, to the effective date of the revision, and the present value of future premiums. Such present values shall be taken over the entire period for which the revised rates are computed to provide coverage, and such accumulated benefits and premiums to include an explicit estimate of the actual benefits and premiums from the last date as of which an accounting has been made to the effective date of the revision. Interest shall be used in the calculation of these accumulated benefits and premiums and present values only if it is a significant factor in the calculation of this loss ratio.
- I. Anticipated loss ratios lower than those indicated in subsections ~~(H) and (I)~~ (H)(1) and (H)(2) will require justification based on the special circumstances that may be applicable.
 - 1. Examples of coverages requiring special consideration are as follows:
 - a. Accident only;
 - b. Short term nonrenewable, e.g., airline trip, student accident;

- c. Specified peril, e.g., common carrier; and
- d. Other special risks.
- 2. Examples of other factors requiring special consideration are as follows:
 - a. Marketing methods, giving due consideration to acquisition and administration costs and to premium mode;
 - b. Extraordinary expenses;
 - c. High risk of claim fluctuation because of the low loss frequency of the catastrophic, or experimental nature of the coverage;
 - d. Product features such as long elimination periods, high deductibles and high maximum limits;
 - e. The industrial or debit method of distribution; and
 - f. Forms issued prior to the effective date of this rule. Companies are urged to review their experience periodically and to file rate revisions, as appropriate, in a timely manner to avoid the necessity of later filing of exceptionally large rate increases.
- 3. Notwithstanding the foregoing paragraphs to the contrary, hospital indemnity and cancer and other dread diseases policies shall develop the loss ratios pursuant to subsection (G).
- J.** Severability provision. If any provision of this rule or the application thereof to any person or circumstances is held invalid, the remainder of the rule and the application of such provision to other persons or circumstances shall not be affected thereby.
- K.** Effective date. This rule shall become effective upon filing with the Secretary of State and shall apply to all individual disability policy form and rate filings submitted on and after said date.

NOTICES OF RULEMAKING DOCKET OPENING

This section of the Arizona Administrative Register contains Notices of Rulemaking Docket Opening.

A docket opening is the first part of the administrative rulemaking process. It is an "announcement" that the agency intends to work on its rules.

When an agency opens a rulemaking docket to consider rulemaking, the Administrative Procedure Act (APA) requires the publication of the Notice of Rulemaking Docket Opening.

Under the APA effective January 1, 1995, agencies must submit a Notice of Rulemaking Docket Opening before beginning the formal rulemaking process. Many times an agency may file the Notice of Rulemaking Docket Opening with the Notice of Proposed Rulemaking.

The Office of the Secretary of State is the filing office and publisher of these notices. Questions about the interpretation of this information should be directed to the agency contact person listed in item #4 of this notice.

DEPARTMENT OF HEALTH SERVICES
HEALTH CARE INSTITUTIONS: LICENSING

[R17-166]

- 1. Title and its heading:** 9, Health Services
Chapter and its heading: 10, Department of Health Services - Health Care Institutions: Licensing
Articles and their headings: Article 1, General
Section numbers: R9-10-120 (*The Department may add, delete, or modify other Sections, as necessary.*)

2. The subject matter of the proposed rules:

Arizona Revised Statutes (A.R.S.) § 36-405 requires the Director of the Arizona Department of Health Services (Department) to adopt rules establishing minimum standards and requirements for the construction, modification, and licensure of health care institutions necessary to assure the public health, safety, and welfare. The Department has implemented in Arizona Administrative Code (A.A.C.) Title 9, Chapter 10, Article 1 requirements related to this statute that are applicable to more than one health care institution. In the last 15 years, prescription opioid sales in the United States have risen by 300%, resulting in more than 33,000 opioid overdose deaths in 2015 nationwide. In Arizona, 790 individuals died in 2016 of an opioid overdose, a 74% increase since 2012. This figure represents over half of all drug overdoses in Arizona in 2016. In response to this epidemic, Governor Doug Ducey, on June 5, 2017, issued a Declaration of Emergency (Opioid Overdose Epidemic). In compliance with the Governor's Declaration of Emergency and after obtaining an exception from the rulemaking moratorium established by Executive Order 2017-02, the Department has amended the rules in 9 A.A.C. 10, Article 1 for licensed health care institutions through emergency rulemaking. The emergency rules, effective July 28, 2017, require licensed health care institutions to establish, document, and implement policies and procedures for prescribing, ordering, or administering opioids as part of treatment; to include specific processes related to opioids in a health care institution's quality management program; and to notify the Department of the death of a patient from an opioid overdose. The Department also specified requirements with which an individual will need to comply before prescribing opioids, ordering opioids, or administering opioids in the treatment of a patient. To reduce the burden on licensed health care institutions, the Department exempted the prescription, ordering, or administration of opioids as part of treatment for a patient with a terminal condition. Concurrent with this emergency action, the Department is initiating a regular rulemaking to address opioid-related deaths in licensed health care institutions. By providing licensed health care institutions with comprehensive requirements related to the prescription and use of opioids in treatment, the Department anticipates an immediate effect on opioid prescribing practices, a decrease in the number of unnecessary opioid prescriptions, and an attendant reduction in overdose-related events thereafter. The proposed amendments will conform to rulemaking format and style requirements of the Governor's Regulatory Review Council and the Office of the Secretary of State. The Department may add, delete, or modify other Sections, as necessary.

[M17-23]

Editor's Note: This Executive Order is being reproduced in each issue of the Administrative Register until its expiration on December 31, 2017, as a notice to the public regarding state agencies' rulemaking activities.

WHEREAS, burdensome regulations inhibit job growth and economic development;

WHEREAS, job creators and entrepreneurs are especially hurt by red tape and regulations;

WHEREAS, all government agencies of the State of Arizona should promote customer-service-oriented principles for the people that it serves;

WHEREAS, each State agency should undertake a critical and comprehensive review of its administrative rules and take action to reduce the regulatory burden, administrative delay, and legal uncertainty associated with government regulation;

WHEREAS, overly burdensome, antiquated, contradictory, redundant, and nonessential regulations should be repealed;

WHEREAS, Article 5, Section 4 of the Arizona Constitution and Title 41, Chapter 1, Article 1 of the Arizona Revised Statutes vests the executive power of the State of Arizona in the Governor;

NOW, THEREFORE, I, Douglas A. Ducey, by virtue of the authority vested in me by the Constitution and laws of the State of Arizona hereby declare the following:

1. A State agency subject to this Order, shall not conduct any rulemaking except as permitted by this Order.
2. A State agency subject to this Order, shall not conduct any rulemaking, whether informal or formal, without the prior written approval of the Office of the Governor. In seeking approval, a State agency shall address one or more of the following as justification for the rulemaking:
 - a. To fulfill an objective related to job creation, economic development, or economic expansion in this State.
 - b. To reduce or ameliorate a regulatory burden while achieving the same regulatory objective.
 - c. To prevent a significant threat to the public health, peace, or safety.
 - d. To avoid violating a court order or federal law that would result in sanctions by a court of the federal government against an agency for failure to conduct the rulemaking action.
 - e. To comply with a federal statutory or regulatory requirement if such compliance is related to a condition for the receipt of federal funds or participation in any federal program.
 - f. To comply with a state statutory requirement.
 - g. To fulfill an obligation related to fees or any other action necessary to implement the State budget that is certified by the Governor's Office of Strategic Planning and Budgeting.

 - i. To address matters pertaining to the control, mitigation, or eradication of waste, fraud, or abuse within an agency or wasteful, fraudulent, or abusive activities perpetrated against an agency.
 - j. To eliminate rules that are antiquated, redundant or otherwise no longer necessary for the operation of state government.
3. All directors of state agencies subject to this Order shall engage their respective regulated or stakeholder communities to solicit comment on which rules the regulated community believes to be overly burdensome and not necessary to protect consumers, public health, or public safety. Each agency shall submit a report regarding the aforementioned information to the Governor's Office no later than September 1, 2017.
4. For the purposes of this Order, the term "State agencies," includes without limitation, all executive departments, agencies, offices, and all state boards and commissions, except for: (a) any State agency that is headed by a single elected State official, (b) the Corporation Commission and (c) any board or commission established by ballot measure during or after the November 1998 general election. Those State agencies, boards and commissions excluded from this Order are strongly encouraged to voluntarily comply with this Order in the context of their own rulemaking processes.
5. This Order does not confer any legal rights upon any persons and shall not be used as a basis for legal challenges to rules, approvals, permits, licenses or other actions or to any inaction of a State agency. For the purposes of this Order, "person," "rule," and "rulemaking" have the same meanings prescribed in Arizona Revised Statutes Section 41-1001.

6. This Executive Order expires on December 31, 2017.
