ABOUT THIS PUBLICATION

The paper copy of the Administrative Register (A.A.R.) is the official publication for rules and rulemaking activity in the state of Arizona.

Rulemaking is defined in Arizona Revised Statues known as the Arizona Administrative Procedure Act (APA), A.R.S. Title 41, Chapter 6, Articles 1 through 10.

The Office of the Secretary of State does not interpret or enforce rules published in the Arizona Administrative Register or Code. Questions should be directed to the state agency responsible for the promulgation of the rule as provided in its published filing.

The Register is cited by volume and page number. Volumes are published by calendar year with issues published weekly. Page numbering continues in each weekly issue.

In addition, the Register contains the full text of the Governor’s Executive Orders and Proclamations of general applicability, summaries of Attorney General opinions, notices of rules terminated by the agency, and the Governor’s appointments of state officials and members of state boards and commissions.

ABOUT RULES

Rules can be: made (all new text); amended (rules on file, changing text); repealed (removing text); or renumbered (moving rules to a different Section number). Rules activity published in the Register includes: proposed, final, emergency, expedited, and exempt rules as defined in the APA.

Rulemakings initiated under the APA as effective on and after January 1, 1995, include the full text of the rule in the Register. New rules in this publication (whether proposed or made) are denoted with underlining; repealed text is stricken.

WHERE IS A “CLEAN” COPY OF THE FINAL OR EXEMPT RULE PUBLISHED IN THE REGISTER?

The Arizona Administrative Code (A.A.C) contains the codified text of rules. The A.A.C. contains rules promulgated and filed by state agencies that have been approved by the Attorney General or the Governor’s Regulatory Review Council. The Code also contains rules exempt from the rulemaking process.

The printed Code is the official publication of a rule in the A.A.C., and is prima facie evidence of the making, amendment, or repeal of that rule as provided by A.R.S. § 41-1012. Paper copies of rules are available by full Chapter or by subscription. The Code is posted online for free.

LEGAL CITATIONS AND FILING NUMBERS

On the cover: Each agency is assigned a Chapter in the Arizona Administrative Code under a specific Title. Titles represent broad subject areas. The Title number is listed first; with the acronym A.A.C., which stands for the Arizona Administrative Code; following the Chapter number and Agency name, then program name. For example, the Secretary of State has rules on rulemaking in Title 1, Chapter 1 of the Arizona Administrative Code. The citation for this chapter is 1 A.A.C. 1, Secretary of State, Rules and Rulemaking.

Every document filed in the office is assigned a file number. This number, enclosed in brackets, is located at the top right of the published documents in the Register. The original filed document is available for 10 cents a page.
Participate in the Process

Look for the Agency Notice

Review (inspect) notices published in the Arizona Administrative Register. Many agencies maintain stakeholder lists and would be glad to inform you when they proposed changes to rules. Check an agency’s website and its newsletters for news about notices and meetings.

Feel like a change should be made to a rule and an agency has not proposed changes? You can petition an agency to make, amend, or repeal a rule. The agency must respond to the petition. (See A.R.S. § 41-1033)

Attend a public hearing/meeting

Attend a public meeting that is being conducted by the agency on a Notice of Proposed Rulemaking. Public meetings may be listed in the Preamble of a Notice of Proposed Rulemaking or they may be published separately in the Register. Be prepared to speak, attend the meeting, and make an oral comment.

An agency may not have a public meeting scheduled on the Notice of Proposed Rulemaking. If not, you may request that the agency schedule a proceeding. This request must be put in writing within 30 days after the published Notice of Proposed Rulemaking.

Write the agency

Put your comments in writing to the agency. In order for the agency to consider your comments, the agency must receive them by the close of record. The comment must be received within the 30-day comment timeframe following the Register publication of the Notice of Proposed Rulemaking.

You can also submit to the Governor’s Regulatory Review Council written comments that are relevant to the Council’s power to review a given rule (A.R.S. § 41-1052). The Council reviews the rule at the end of the rulemaking process and before the rules are filed with the Secretary of State.

Arizona Regular Rulemaking Process

START HERE

APA, statute or ballot proposition is passed. It gives an agency authority to make rules. It may give an agency an exemption to the process or portions thereof.

Agency opens a docket.

Agency files a Notice of Rulemaking Docket Opening; it is published in the Register. Often an agency will file the docket with the proposed rulemaking.

Agency drafts proposed rule and Economic Impact Statement (EIS); informal public review/comment.

Agency files Notice of Proposed Rulemaking.

Notice is published in the Register. Notice of meetings may be published in Register or included in Preamble of Proposed Rulemaking.

Agency opens comment period.

Agency decide not to proceed and files Notice of Termination of Rulemaking for publication in Register. A.R.S. § 41-1021(A)(2).

Oral proceeding and close of record. Comment period must last at least 30 days after publication of notice. Oral proceeding (hearing) is held no sooner than 30 days after publication of notice of hearing.

Agency decides not to proceed; files Notice of Termination of Rulemaking. May open a new Docket.

Substantial change?

If no change then

Rule must be submitted for review or terminated within 120 days after the close of the record.

A final rulemaking package is submitted to G.R.R.C. or A.G. for review. Contains final preamble, rules, and Economic Impact Statement.

G.R.R.C. has 90 days to review and approve or return the rule package, in whole or in part; A.G. has 60 days.

After approval by G.R.R.C. or A.G., the rule becomes effective 60 days after filing with the Secretary of State (unless otherwise indicated).

Final rule is published in the Register and the quarterly Code Supplement.

The EIS is not published in the Register but is available from the agency promulgating the rule. The EIS is also filed with the rulemaking package.

**Governor’s Regulatory Review (G.R.R.C.):** Reviews and approves rules to ensure that they are necessary and to avoid unnecessary duplication and adverse impact on the public. G.R.R.C. also assesses whether the rules are clear, concise, understandable, legal, consistent with legislative intent, and whether the benefits of a rule outweigh the cost.

6. **An agency’s justification and reason why a rule should be made, amended, repealed, or renumbered, to include an explanation about the rulemaking:**

   The current rules were made in a rulemaking that went into effect in February 2013. Experience using the rules and feedback from stakeholders indicate that changes are needed to make the rules more effective in achieving their goals. This rulemaking makes the necessary changes.

   The current victim compensation program rules include unnecessary restrictions on how the program is administered at the state and county level. The rules lack clarity regarding the availability of additional resources to compensate victims of crime, and at what point certain claimant eligibility decisions must be made. Experience using the current rules has indicated additional need in the areas of transportation costs and work loss benefits for victims.

   The current crime victim assistance program rules include unnecessary restrictions on what types of victim service program activities shall be funded by the grant program. The rules place an overly burdensome matching-funds requirement on funded projects, and place additional unnecessary application requirements on non-profit agencies. These requirements under the current rules have resulted in limiting access to grant funding for applicant agencies.

7. **A reference to any study relevant to the rule that the agency reviewed and proposes either to rely on or not to rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:**

   None

8. **A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:**

   Not applicable

9. **A summary of the economic, small business, and consumer impact:**

   The amount of funds available to provide compensation awards or assistance to crime victims is not increased as a result of this rulemaking. However, the total amount that can be claimed for various compensation benefit expenses is increased. Availability of compensation benefits to certain eligible individuals has also expanded. The following changes may have some economic impact:
   - Adding fee expenses as an eligible expense under transportation costs;
   - Simplifying work loss benefit calculation to a single weekly maximum;
   - Allowing the Commission to approve payment rate schedules for program benefit cost categories; and
   - Increasing transportation cost maximum amount to $2,000.

10. **A description of any changes between the proposed rulemaking, including supplemental notices, and the final rulemaking:**

    Only clarifying and technical changes, none of which are substantial under the standards set forth in A.R.S. § 41-1025, have been made between the proposed rulemaking and the final rulemaking. Changes made include the following:
    - R10-4-104(B)(2)(h) Replaced the word “and” ending the clause
    - R10-4-107(D)(2)(g) Removed “or act of international terrorism”
    - R10-4-107(D)(5)(a) Removed “or act of international terrorism”
    - R10-4-107(D)(7)(d) Removed “or act of international terrorism”
    - R10-4-110(A) Added “calendar” to “30 days”
    - R10-4-110(C) Added “calendar” to “30 days”
    - R10-4-204(B)(1) Replaced “salaried” with “paid”

11. **An agency’s summary of the public or stakeholder comments made about the rulemaking and the agency response to comments:**

    The agency received no public or stakeholder comments about the rulemaking during the public comment period or at the public hearing held on December 7, 2017.

12. **All agencies shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:**

    None

   a. **Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:**

      The rules do not require issuance of a regulatory permit, license or agency authorization.

   b. **Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:**

      The Federal Crime Victims Fund (the Fund) was established by the Victims of Crime Act (VOCA) of 1984. The Fund is financed by fines and penalties paid by convicted federal offenders. The Fund provides grant funding to the states for use in implementing state victim assistance and victim compensation programs. A state does not receive funding unless the state meets certain minimal criteria. Arizona receives funds under this act.

   c. **Whether a person submitted an analysis to the agency that compares the rule’s impact of the competitiveness of business in this state to the impact on business in other states:**

      No analysis was submitted.
13. A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rules:

None

14. Whether the rule was previously made, amended, or repealed as an emergency rule. If so, cite the notice published in the Register as specified in R1-1-409(A). Also, the agency shall state where the text was changed between the emergency and the final rulemaking packages:

The rule was not previously made as an emergency rule.

6. An agency’s justification and reason why a rule should be made, amended, repealed or renumbered, to include an explanation about the rulemaking:
   The five-year-review report (Report) for 9 A.A.C. 8, Article 3, was approved by the Governor's Regulatory Review Council on September 6, 2017. The Report identified that the rules are not consistent with the statutory change under Laws 2001, Ch. 19, §1,
effective August 9, 2001. Laws 2001, Ch. 19, §1 removed the Arizona Department of Health Services' (Department) authority to regulate sanitary conditions for public and semipublic buildings. The Report also identified that the rules contain citations to A.A.C. Title 18 rules that have been recodified or repealed, as well as definitions that are unnecessary or outdated. As reported, the Department plans to amend the rules to comply with Laws 2001, Ch. 19 §1; update or delete A.A.C. Title 18 citations; and amend, add, or delete definitions to make the rules more specific to portable toilets used for special events. Amending these rules as identified in the Report meets the criteria for expedited rulemaking. The changes identified will not increase the cost of regulatory compliance, increase a fee, or reduce procedural rights of a regulated person as prescribed in A.R.S. § 41-1027(A). The rulemaking further meets the criteria for expedited rulemaking by implementing a course of action proposed in a five-year-review report, prescribed in A.R.S. § 41-1027(A)(7). The Department believes amending these rules will eliminate confusion and reduce regulatory burden.

7. **A reference to any study relevant to the rule that the agency reviewed and proposes either to rely on or not to rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:**
   The Department did not review or rely on any study for this expedited rulemaking.

8. **A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:**
   Not applicable

9. **The agency is exempt from the requirements under A.R.S. § 41-1055(G) to prepare and file an economic, small business, and consumer impact statement under A.R.S. § 41-1055(D)(2).**
   The agency is excluded from providing an economic, small business, and consumer impact statement under A.R.S. § 41-1055(D)(2).

10. **A description of any changes between the proposed expedited rulemaking and the final expedited rulemaking.**
    Between the proposed expedited rulemaking and the final expedited rulemaking, no changes were made to the expedited rulemaking.

11. **An agency’s summary of the public or stakeholder comments or objections made about the rulemaking and the agency response to the comments:**
    The Department did not receive public or stakeholder comments about the expedited rulemaking.

12. **Any other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules.**
    Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:
    a. **Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:**
       The rule does not require the issuance of a permit.
    b. **Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:**
       Federal law does not apply to the rule.
    c. **Whether a person submitted an analysis to the agency that compares the rule’s impact of the competitiveness of business in this state to the impact on business in other states:**
       No such analysis was submitted.

13. **A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rules:**
    Not applicable

14. **Whether the rule was previously made, amended, or repealed as an emergency rules. If so, cite the notice published in the Register as specified in R1-1-409(A). Also, the agency shall state where the text was changed between the emergency and the final rulemaking packages:**

6. An agency's justification and reason why the rule should be made, amended, repealed, or renumbered, to include an explanation about the rulemaking:

The Arizona Game and Fish Commission proposes to amend its rules following the 2017 five-year rule review of Article 6, Rules of Practice Before the Commission, to enact recommendations developed during the five-year review. The recommended amendments are designed to align the rule with statute, enable the Department to provide better customer service, and reduce regulatory and administrative burdens wherever possible.

Under A.R.S. § 41-1027, an agency may use the expedited rulemaking process to make a rule that does not increase the cost of regulatory compliance, increase a fee or reduce procedural rights of persons regulated and does one or more of the following: (A)(3) clarifies language of a rule without changing its effect; (A)(5) reduces or consolidates steps, procedures, or processes in the rules; or (A)(7) implements, without material change, a course of action that is proposed in a five-year review report approved by the Governor's Regulatory Review Council (G.R.R.C.) pursuant to A.R.S. § 41-1056 within one hundred eighty days of the date that the agency files the Notice of Proposed Expedited Rulemaking with the Secretary of State. The Commission approved the Article 6 Five-year Review Report (5YRR) at the December 2, 2016 Commission Meeting and G.R.R.C. approved the Article 6 5YRR at the March 7, 2017 Council Meeting.

An exemption from Executive Order 2015-01 was provided for this rulemaking by Hunter Moore, Natural Resource Policy Advisor, Governor’s Office, in an email dated May 1, 2017.

R12-4-601. Petition for Rule or Review of Practice or Policy

The objective of the rule is to establish the manner and form in which a person may petition the Commission to adopt, amend, or repeal a rule or review an agency practice or policy. Under A.R.S. § 41-1033, all state agencies are required to establish the manner and form by which a person may petition the agency to request the making of a final rule or the review of an existing agency practice or substantive policy statement that the petitioner alleges to constitute a rule. The Commission proposes to adopt a definitions rule and transfer definitions provided within Article 6 rules to R12-4-601, and then renumber rules R12-4-601 through R12-4-607 to increase consistency between Commission rules and ensure conformity with the Arizona Administrative Procedures Act and Secretary of State's rulemaking format and style requirements and standards. The Commission proposes to renumber the rule to R12-4-602. The Commission also proposes to define the terms “business day”, “Commission Chair” and “petitioner” to clarify the terms referenced within Article 6 to ensure the consistent interpretation of Commission rules. A person is required to submit a petition that meets specific formatting requirements. In an effort to reduce the burden and costs to the regulated public and simplify and enhance the petition process, the Commission also proposes to amend the rule to require a petitioner to use a form furnished by the Department. The proposed form will reduce the number of non-compliant petitions received by the Department by ensuring all petitions contain the applicable information; this will also reduce the amount of time spent by Department employees on working with petitioners to correct petitions that do not meet the requirements established under rule. This amendment will streamline the process going forward and ensure consistency in all future petitions. In addition, to increase consistency between Commission rules, the Commission proposes to amend the rule to require a person submitting a petition to provide a physical and mailing address (if different from the physical address) and an email address when one is available. The Commission also proposes to increase the amount of time in which the Department must review and accept or return the petition and the time in which the Commission must hear the petition to increase consistency between all Commission petition rules. The Commission proposes to amend the rule to replace the term “Director” with “Department” to reduce regulatory ambiguity. Because the petition process is delegated to appropriate Department staff for evaluation and recommendation of the proposed change, this amendment will make the rule more concise and ensure consistency within Commission rules. In addition, the Commission proposes to amend the rule to remove the statement that a petition shall be retained by the Department for a period of five-years and considered as a comment during the next five-year review process. This requirement is already prescribed under A.R.S. § 41-1056, it is not necessary to include the statement in rule.

R12-4-602. Written Comments on Proposed Rules

The objective of the rule is to establish requirements for written comments submitted to the Department in response to a notice of proposed rulemaking. Under A.R.S. § 41-1029, all state agencies are required to maintain all written petitions, requests, submissions, and comments received by the agency in connection with the rule. The Commission proposes to renumber the rule to R12-4-603. The Department recognizes the requirements specific to comments submitted on behalf of a group or organization are difficult to enforce. The Commission believes this information is necessary to determine the origin of the comment and the extent of its influence. Often, the person who submits a comment on behalf of a group or organization does not include all of the information required to classify the comment as that of the organization. The Department then attempts to obtain the required information by contacting the person who submitted the comment; this often a time-consuming process for Department staff. The Commission proposes to amend the rule to clarify how comments submitted on behalf of a group or organization are recorded when the person fails to include all of the required information to reduce the resources spent by Department staff and prevent administrative delay. The Commission also proposes to amend the rule to remove the requirement that a group or organization provide the type of memberships available and number of Arizona residents represented by the group as this information serves no useful purpose and to reduce the burdens and costs to persons regulated by the rule. In addition, the Commission proposes to amend the rule to remove unnecessary verbiage and list requirements specific to comments submitted on behalf of a group or organization to make the rule more concise and reduce regulatory ambiguity.

R12-4-603. Oral Proceedings Before the Commission

The objective of the rule is to establish the Commission's operational process for oral proceedings held before the Commission. Under A.R.S. § 41-1023(F), each agency may make rules for the conduct of oral rulemaking proceedings, and may include provisions calculated to prevent undue repetition in the oral proceedings. The Commission proposes to renumber the rule to R12-4-604.
The Commission proposes to amend the rule to repeal the definition of “matter” and “proceeding” as the common-use definition is satisfactory. The Commission proposes to amend the rule to replace references to “Chair” with “Commission Chair” to increase consistency between Commission rules and Department publications. The Commission also proposes to amend the rule to list oral proceeding authorizations and requirements to make the rule more concise. In addition, the Commission proposes to amend the rule to remove “based on the amount of time available” to make the rule more concise. All of these amendments are proposed to reduce or consolidate steps, procedures, or processes in the rule and reduce regulatory ambiguity.

R12-4-604. Ex Parte Communication

The objective of the rule is to establish communication prohibitions during the course of Commission decision processes. The Commission proposes to renumber the rule to R12-4-605. The Commission proposes to amend the rule to repeal the definition of “individual outside the Commission” as the term is no longer referenced in rule. The Commission proposes to amend the rule to transfer the definition of “ex parte communication” to R12-4-601 to ensure conformity with the Arizona Administrative Procedures Act and Secretary of State’s rulemaking format and style requirements and standards. Under A.R.S. § 17-340(G), the Commission may use the services of the Office of Administrative Hearings to conduct hearings and make recommendations to the Commission. The Office of Administrative Hearings adheres to the requirements of R2-19-105. Ex Parte Communications, not this rule. Thus, the Commission proposes to remove the reference to “hearing office.” The Commission compared its rule to rules governing rehearing or review made by other self-supporting agencies (Arizona Medical Board, State Board of Dental Examiners, Office of Administrative Hearings, and State Board of Accountancy) and, as a result of this comparison, the Commission proposes to amend the rule to remove language referencing the service of a memorandum and copies of each response and memorandum for each oral response to any ex parte communication received by the Commissioner as these are self-imposed burdens that serve no valid purpose. Because only members of the Commission are truly involved in the decision-making process and all persons are subject to the rule, the Commission proposes to remove redundant language from the rule to make the rule more concise. All of these amendments are proposed to reduce or consolidate steps, procedures, or processes in the rule and reduce regulatory ambiguity.

R12-4-605. Standards for Revocation, Suspension, or Denial of a License

The objective of the rule is to establish standards for the revocation, suspension, or denial of a Department-issued license (this includes hunting and fishing licenses, special licenses issued under Article 4, and fur dealer, guide, license dealer, and taxidermy licenses). The Commission proposes to renumber the rule to R12-4-606. Under A.R.S. § 17-340, the Commission may, after a public hearing, revoke or suspend a license issued to any person under Title 17 and deny that person the right to secure another license to take or possess wildlife. Laws 2006, Second Regular Session, Chapter 238 amended A.R.S. §§ 17-309 and 17-340 to include additional violations that may result in the suspension, revocation, or denial of a Department-issued license and the length of time for suspension, revocation, and denial actions. Under subsection (A), the Commission may hold a revocation hearing for a person convicted of certain violations; under Subsection (B), the Commission may hold a revocation hearing if the Department recommends a revocation, suspension, or denial for a person convicted of other violations. Currently under subsection (A), any person convicted of violating a wildlife law must go through the revocation hearing process. The Commission proposes to amend the rule to only require a revocation hearing upon recommendation of the Department. This change will provide the Department and Commission with greater flexibility in enforcing the rule and will reduce the burdens and costs to persons regulated by the rule. The Commission proposes to amend the rule to increase consistency between Commission rules and statute to reduce regulatory ambiguity.

R12-4-606. Proceedings for License Revocation, Suspension, or Denial of Right to Obtain a License, and Civil Damages

The objective of the rule is to establish the proceedings for license revocation, suspension, or denial of Department issued licenses (this includes hunting and fishing licenses, special licenses issued under Article 4, and fur dealer, guide, license dealer, and taxidermy licenses) and the assessment of civil damages. The Commission proposes to renumber the rule to R12-4-607. Under A.R.S. § 17-340, the Commission may, after a public hearing, revoke or suspend a license issued to any person under Title 17 and deny that person the right to secure another license to take or possess wildlife. Under A.R.S. § 17-314, the Commission may bring a civil action in the name of the state against any person unlawfully taking, wounding or killing, or unlawfully in possession of certain wildlife. The Commission proposes to amend the rule to clearly indicate the rule applies only to actions taken under A.R.S. § 17-340 to reduce regulatory ambiguity. The Commission also proposes to amend the rule to remove redundant language to make the rule more concise and understandable. Laws 2006, Second Regular Session, Chapter 238 amended A.R.S. § 17-340 to include additional time-frames for such suspension, revocation, or denial actions resulting from subsequent violations. As a result, a person’s license may be revoked for five years, ten years, or permanently, depending on the number of convictions. In addition, the Commission proposes to amend the rule to reflect amendments made to statute to reduce regulatory ambiguity.

R12-4-607. Rehearing or Review of Commission Decisions

The objective of the rule is to establish the requirements for rehearing or review of a Commission decision. Under A.R.S. § 41-1092.09, a party may file a motion for rehearing or review within thirty days after service of the final administrative decision. A rehearing follows a Commission decision to revoke or suspend a person’s license. A review is a Commission hearing on the Department’s decision to deny a license to a person. The Commission proposes to renumber the rule to R12-4-608. The Commission proposes to amend the rule to transfer definitions included in this rule to R12-4-601 to ensure conformity with the Arizona Administrative Procedures Act and Secretary of State’s rulemaking format and style requirements and standards. On occasion, a person fully intends to file an appeal to a Commission decision with the Maricopa County Superior Court, but unknowingly eliminates that option by failing to file a motion for rehearing or review with the Commission. The Commission proposes to amend the rule to indicate a person who fails to file a timely motion for rehearing or review is prohibited from seeking a judicial review of the

Commission’s decision to clarify when a rehearing or review is required and reduce regulatory ambiguity. The Commission proposes to remove the requirement that a person filing a motion for rehearing or review attach a supporting memorandum, specifying the grounds for the motion to reduce the burdens and costs to persons regulated by the rule as this information may be gleaned from the motion itself. During this review the Department compared this rule to rules governing rehearing or review made by other self-supporting agencies (Arizona Medical Board, State Board of Dental Examiners, and State Board of Accountancy) and, as a result of this comparison, the Commission proposes to amend the rule to clarify filing time-frames, extend the time in which the Commission may initiate a rehearing or review, and specify the time-frame in which the Commission shall hold the rehearing or review. These changes are made to increase clarity, make the rule more concise, and reduce regulatory uncertainty.

R12-4-609. Commission Orders
The objective of the rule is to establish the public process for the consideration of a Commission Order. Under A.R.S. § 17-234, the Commission shall by order open, close or alter seasons and establish bag and possession limits for wildlife, but a Commission Order to open a season shall be issued not less than ten days prior to the opening date. The Commission proposes to amend the rule to reduce the time in which the Department must post a public meeting notice and agenda and provide a draft of the proposed Commission Order from 20 days to 14. Due to leaned processes and technological advances, the Department is able to provide the required information in a shorter amount of time. In addition, an incident involving Tempe Town Lake gave light to the fact that the Commission does not have sufficient authority to issue an Order establishing a special season to allow the take of fish by additional methods on waters where a fish die-off is imminent due to the public meeting notice time-frame requirement. In addition, to ensure the Commission is able to respond more quickly should a similar situation arise, the Commission proposes to amend the rule to allow the Commission to exempt the Commission and Department from the 14-day time-frame in order to review an order establishing a special season, allowing fish to be taken by additional methods on waters where a fish die-off is imminent to reduce processes in the rule.

R12-4-610. Petitions for the Closure of State or Federal Lands to Hunting, Fishing, Trapping, or Operation of Motor Vehicles
The objective of the rule is to establish the requirements for submitting a petition for the closure of state or federal lands to hunting, fishing, trapping, or operation of motor vehicles. Under A.R.S. § 17-452, the Commission may, with the concurrence of the land management agency involved and after a public hearing, order such area closed to motor vehicles for not more than five years from the date of such closure, provided that all roads in such area shall remain open unless specifically closed. A person is required to submit a petition that meets specific formatting requirements. In an effort to reduce the burden and costs to the regulated public and simplify and enhance the public petition process, the Commission also proposes to amend the rule to require a petitioner to use a form furnished by the Department. The proposed form will reduce the number of non-compliant petitions received by the Department by ensuring all petitions contain the applicable information; this will also reduce the amount of time spent by Department employees on working with petitioners to correct petitions that do not meet the requirements established under rule. This amendment will streamline the process going forward and ensure consistency in all future petitions. In addition, to increase consistency between Commission rules, the Commission proposes to amend the rule to require a person submitting a petition to provide a physical and mailing address (if different from the physical address) and an email address when one is available. The Commission also proposes to increase the amount of time in which the Department must review and accept or return the petition and the time in which the Commission must hear the petition to increase consistency between all Commission petition rules. In addition, the Commission proposes to amend the rule to replace the term “Director” with “Department” to reduce regulatory ambiguity. Because the petition process is delegated to appropriate Department staff for evaluation and recommendation of the proposed change, this amendment will make the rule more concise and ensure consistency between Commission rules.

R12-4-611. Petition for Hearing Before the Commission When No Remedy is Provided in Statute, Rule, or Policy
The objective of the rule is to establish the method and form a person shall use to petition the Arizona Game and Fish Commission when no remedy is provided in statute, rule, or policy. A person is required to submit a petition that meets specific formatting requirements. In an effort to reduce the burden and costs to the regulated public and simplify and enhance the public petition process, the Commission also proposes to amend the rule to require a petitioner to use a form furnished by the Department. The proposed form will reduce the number of non-compliant petitions received by the Department by ensuring all petitions contain the applicable information; this will also reduce the amount of time spent by Department employees on working with petitioners to correct petitions that do not meet the requirements established under rule. This amendment will streamline the process going forward and ensure consistency in all future petitions. In addition, to increase consistency between Commission rules, the Commission proposes to amend the rule to require a person submitting a petition to provide a physical and mailing address (if different from the physical address) and an email address when one is available. The Commission also proposes to increase the amount of time in which the Department must review and accept or return the petition and the time in which the Commission must hear the petition to increase consistency between all Commission petition rules. In addition, the Commission proposes to amend the rule to replace the term “Director” with “Department” to reduce regulatory ambiguity. Because the petition process is delegated to appropriate Department staff for evaluation and recommendation of the proposed change, this amendment will make the rule more concise and ensure consistency between Commission rules.

7. A reference to any study relevant to the rule that the agency reviewed and proposes to either rely on or not rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:

The agency did not rely on any study in its evaluation of or justification for the rule.
8. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rule will diminish a previous grant of authority of a political subdivision of this state:
Not applicable

9. A summary of the economic, small business, and consumer impact:
Under A.R.S. § 41-1027, the rulemaking is exempt from this requirement; however, the Commission offers the following: The proposed rulemaking implements changes the Department proposed to make as a result of the most recent five-year review of Article 6. The Commission’s intent in proposing these amendments is to align the rule with statute, enable the Department to provide better customer-service, and reduce regulatory and administrative burdens wherever possible. The Commission believes the majority of the rulemaking will benefit persons regulated by the rule, members of the public, and the Department by clarifying rule language, creating consistency among existing Commission rules, reducing the burden on the regulated community where practical, implementing customer-service-oriented processes, and allowing the Department additional oversight where necessary. The Commission anticipates the rulemaking will result in little or no impact to political subdivisions of this state; private and public employment in businesses, agencies or political subdivisions; or state revenues. The Commission has determined that there are no less intrusive or costly alternative methods of achieving the purpose of the rulemaking. In addition to the cost of rulemaking, the Commission anticipates the Department will incur costs to implement the proposed amendments; however, these amendments will not require new full-time employees. Therefore, the Commission has determined that the benefits of the rulemaking outweigh any costs.

10. A description of any changes between the proposed rulemaking, to include supplemental notices, and the final rulemaking:
Minor grammatical and formatting corrections that were made at the request of Governor’s Regulatory Review Council staff.

11. An agency’s summary of the public or stakeholder comments made about the rulemaking and the agency response to the comments:
In addition to the publication of the Notice of Proposed Expedited Rulemaking in the Arizona Administrative Register, the Department posted the Notice of Proposed Expedited Rulemaking to the Department’s website, from September 15 to October 15, 2017, for the purpose of public comment. In addition, on October 15, 2017, the Department emailed information regarding the proposed rulemaking to persons interested in receiving rulemaking notices. The Department also issued a press release regarding the proposed changes included in the Notice of Proposed Expedited Rulemaking and the Department’s contact information for persons interested in submitting a comment. The Department did not receive any public or stakeholder comments in response to the proposed expedited rulemaking.

12. All agency’s shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:

a. Whether the rule requires a permit, whether a general permit is used, and if not, the reason why a general permit is not used:
The rule does not require a general permit.

b. Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law, and if so, citation to the statutory authority to exceed the requirements of federal law:
The subject matter covered in the rulemaking are governed by state law rather than any corresponding federal law.

c. Whether a person submitted an analysis to the agency that compares the rule’s impact of the competitiveness of business in this state to the impact on business in other states:
The agency has not received an analysis that compares the rule’s impact of competitiveness of business in this state to the impact on business in other states.

13. A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rules:
Not applicable

14. Whether the rule previously made, amended, or repealed as an emergency rule. If so, cite the notice published in the Register as specified in R1-4-409(A). Also, the agency shall state where the text was changed between the emergency and the final rulemaking packages:
The rule was not previously made, amended, or repealed as an emergency rule.

A party shall not communicate, either directly or indirectly, with a Commissioner about any substantive issue in a pending contested case or appealable agency action, unless:

1. An interested individual outside the Commission shall not make or knowingly cause to be made to any Commissioner, Commission hearing officer, personal aide to a Commissioner, Department employee, or consultant who is or may reasonably be

E. The provisions of this Section apply from the date that a notice of hearing for a contested case is served, a notice of appeal is served, or a request for hearing is filed, whichever comes first, unless the person responsible for the communication has knowledge that a proceeding will be noticed, in which case the prohibitions apply from the date that the individual acquired the knowledge on the parties.

R12-4-605 R12-4-606 Standards for Revocation, Suspension, or Denial of a License

A. Under A.R.S. § 17-340, when the Department makes a recommendation to the Commission for license revocation, the Commission shall hold a hearing and may revoke, suspend, or deny any hunting, fishing, or trapping license for an individual who has been convicted of any of the following offenses:

1. Killing or wounding a big game animal during a closed season or possessing a big game animal taken during a closed season. Conviction for possession of a road-kill animal or an animal that was engaged in depredation is not considered “possessing during a closed season” for the purposes of this subsection.
2. Damaging, injuring, or molesting livestock, or damaging or destroying personal property, notices or signboards, other improvements, or growing crops while hunting, fishing, or trapping.

   c. The person in unlawful possession aided the unlawful taking or was, or should have been, aware that the taking was unlawful.
2. Unlawfully taking or possessing small game or fish, if sufficient evidence, which may or may not have been introduced in the court proceeding, supports any of the following conclusions:
   a. The taking was willful and deliberate.
   b. The possession was in excess of the lawful possession limit plus the daily bag limit.

Any violation for which a license can be revoked under A.R.S. § 17-340, if the person has been convicted of a revocable offense within the past three years.

Violation of A.R.S. § 17-306 for unlawful possession of wildlife.

Under A.R.S. §§ 17-238, 17-334, 17-340, 17-362, 17-363, and 17-364, and 17-340, if the Department has made a recommendation to the Commission for license revocation, the Commission shall hold a hearing and may revoke any fur dealer, guide, taxidermy, license dealers license, or special license (as defined in under R12-4-401) in any case where license revocation is authorized by law.

R12-4-606. Proceedings for License Revocation, Suspension, or Denial of Right to Obtain a License, and Civil Damages

A. The Director may commence a proceeding for the Commission to revoke, suspend or deny a license under A.R.S. §§ 17-236, 17-238, 17-334, 17-340, 17-362, 17-363, and 17-364, and R12-4-105, and R12-4-605. The Director may also commence a proceeding for the Commission to impose a civil damages penalty under A.R.S. § 17-314.

B. The Commission shall conduct a hearing concerning revocation, suspension, or denial of the right to obtain a license in accordance with the Administrative Procedure Act, A.R.S. Title 41, Chapter 6, Article 10. In a proceeding conducted under A.R.S. § 17-340, a respondent shall limit testimony to facts that show why the license should not be revoked or denied. Because the Commission does not have the authority to consider or change the conviction, a respondent is not permitted to raise this issue in the proceeding. The Commission shall permit a respondent to offer testimony or evidence relevant to the Commission’s decision to order recovery of civil damages penalty or order a civil action for the recovery of wildlife parts.

C. If a respondent does not appear for a hearing on the date scheduled, at the time and location noticed, no further opportunity to be heard is shall be provided, unless a rehearing or review is granted under R12-4-607. If the respondent does not wish to attend the hearing, the respondent may submit written testimony to the Department before the hearing date designated in the Notice of Hearing required by A.R.S. § 17-340(D). The Commission shall ensure that written testimony received at the time of the hearing is read into the record at the hearing.

D. The Commission shall base its decision on the officer’s case report, a summary prepared by the Department, a certified copy of the court record, and any testimony presented at the hearing. With the notice of hearing required by A.R.S. § 17-340(D), the Department shall supply the respondent with a copy of each document provided to the Commission for use in reaching a decision.

E. Any party may apply to the Commission for issuance of a subpoena to compel the appearance of any witness or the production of documents at any Commission hearing or deposition. Not later than 10 calendar days before the hearing or deposition, the party shall file a written application that provides the name and address of the witness, the subject matter of the expected testimony, the documents sought to be produced, and the date, time, and place of the hearing or deposition. The Commission shall order a civil action for the recovery of wildlife parts.

1. A party shall have a subpoena served as prescribed in the Arizona Rules of Civil Procedure, Rule 45. An employee of the Department may serve a subpoena at the request of the Commission chair.

2. A party may request that a subpoena be amended at any time before the deadline provided in this Section for filing the application. The party shall have the amended subpoena served as provided in subsection (E)(1).

F. The Commission may vote to use the services of the office of administrative hearings to conduct a hearing concerning revocation, suspension, or denial of the right to obtain a license and to make a recommendation to the Commission, which shall review and accept, reject or modify the recommendation and issue its decision in an open meeting. When the Department receives a recommendation from the administrative law judge at least 30 days prior to the next regularly scheduled Commission meeting, the Department shall place the recommendation on the agenda for that meeting. A recommendation from the administrative law judge received after this time shall be considered at the next regularly scheduled open meeting.

G. A license revoked by the Commission is suspended on the date the hearing and revoked upon issuance of the findings of fact, conclusions of law, and order. If a respondent appeals the Commission’s order revoking a license, the license is revoked after all appeals have been completed exhausted. A denial of the right to obtain a license is effective for a period not to exceed five years, as determined by the Commission as authorized under A.R.S. § 17-340, beginning on the date of the hearing.

H. A license suspended by the Commission is suspended on the date of the hearing, and suspended upon issuance of the findings of fact, conclusions of law, and order. If a respondent appeals the Commission’s order suspending a license, the license is suspended after all appeals have been completed exhausted. Under A.R.S. § 17-340(A), a suspension of a license is effective for a period not to exceed five years, as determined by the Commission as authorized under A.R.S. § 17-340, beginning on the date of the hearing.

R12-4-607. Rehearing or Review of Commission Decisions

A. For purposes of this Section the following terms apply:

2. “Appealable agency action” is defined as provided in A.R.S. § 41-1002(E).

A party shall exhaust the party’s administrative remedies by filing a motion for rehearing or review as provided in this Section. Failure to file a motion for rehearing or review within 30 days of service of the Commission’s decision has the effect of prohibiting the party from seeking judicial review of the Commission’s decision.

B. Except as provided in subsection (C), any party in a contested case or appealable agency action before the Commission may file a motion for rehearing or review of a Commission decision, specifying the grounds upon which the motion is based. The motion for rehearing or review shall be filed within 30 calendar days after service of the final administrative Commission’s decision. The Commission has the authority to require that the parties file written briefs, supplemental memoranda, or written arguments on any issue raised in a motion or response, and allow for oral argument.
D. The Commission has the authority to grant rehearing or review for any of the following causes materially affecting the moving party's rights:

1. Irregularity in the proceedings of the Commission, or any order or abuse of discretion that deprived the moving party of a fair hearing;
2. Misconduct of the Commission, its staff, an administrative law judge, or the prevailing party;
3. Accident or surprise that could not have been prevented by ordinary prudence;
4. Newly discovered material evidence that could not, with reasonable diligence, have been discovered and produced at the original hearing;
5. Excessive or insufficient penalties;
6. Error in the admission or rejection of evidence or other errors of law occurring at the hearing or during the progress of the proceeding; or
7. That the findings of fact or decision is not justified by the evidence or is contrary to law.

E. The Commission may affirm or modify the decision either deny the motion for rehearing or review or grant a rehearing to all or any of the parties on all or part of the issues or review for any of the reasons listed under subsection (D) (E). The Commission's order, modifying a decision or granting a rehearing or review shall specify the grounds for the order, and any rehearing shall cover only those specified matters upon which the rehearing or review was granted.

F. After giving the party notice and an opportunity to be heard, the Commission may grant a motion for a rehearing or review for a reason not stated in the motion.

G. Not later than 14 calendar days before a meeting where the Commission will consider a Commission Order, the Department shall publish the content of all Commission orders and make them available to the public. The Department shall also ensure that the public meeting notice and agenda states that a copy of the proposed Commission Order is available for public inspection at the Department offices in Phoenix, Pinetop, Flagstaff, Kingman, Yuma, Tucson, and Mesa. ### R12-4-1101. Definitions

The objective of the rule is to establish definitions that assist the regulated community and members of the public in under-
standing the unique terms that are used throughout Article 11. The Commission proposes to renumber the rule to R12-4-901.

**R12-4-1102. Aquatic Invasive Species; Prohibitions; Inspection, Decontamination Protocols**

The objective of the rule is to establish the requirements necessary to eradicate, abate, or prevent the transport and spread of aquatic invasive species in and through Arizona. Aquatic invasive species are a threat to Arizona’s water and electrical infrastructure and the public’s angling and boating recreation. It is critical for anyone who owns or uses watercraft, vehicle, conveyance or equipment on Arizona’s waterbodies, to understand the essential nature of the aquatic invasive species containment effort by the Department, other state and federal agencies and political subdivisions. The spread of aquatic invasive species will result in far-reaching impacts that can touch virtually every resident of Arizona. For example, quagga mussels have a negative ecological and environmental impact to Arizona waterways and water delivery systems. These mussels accumulate on underwater surfaces and impair water delivery structures and systems. They clog water intake and delivery pipes and infest hydropower infrastructure, dams, and water control structures. They adhere to watercraft bottoms, engines, docks, and pilings and can ultimately destroy beaches and alter the functioning of native aquatic ecosystems.

The principle pathway for quagga mussel transfer between watersheds is the overland movement of boats and equipment with attached adult mussels and the movement of water itself containing juvenile mussels in un-drained bilge areas, live wells, internal storage spaces, or conveyances designed to carry water. The initial movement of these mussels to the Colorado River was in all likelihood as a hitchhiker on a boat or equipment item that was moved more than 1,000 miles over land. Aquatic invasive species are currently established in a number of Arizona waterbodies: Lake Pleasant, Lake Havasu, Lake Mead, Lake Mohave, Martinez Lake, Mittry Lake, Topock Marsh, and Lake Powell; water delivery systems: parts of the Central Arizona Project aqueduct and Salt River Project Canal System; and other states and countries: Alabama, Arkansas, California, Colorado, Connecticut, Iowa, Illinois, Indiana, Kentucky, Louisiana, Massachusetts, Maryland, Michigan, Minnesota, Missouri, Mississippi, Nebraska, Nevada, New York, Ohio, Oklahoma, Pennsylvania, Texas, Utah, Virginia, Vermont, Wisconsin, West Virginia; and the Provinces of Ontario and Quebec.

Since 2011, in addition to media campaigns (newsletters, billboards, radio and television advertisements), the Department’s Aquatic Invasive Species Program has performed numerous outreach campaigns and conducted surveys on the boat ramps at various quagga infested waterbodies (e.g., Havasu, Pleasant, and Powell). State-wide surveys indicate a gap between knowledge of required actions and the physical action of pulling a drainage plug when exiting infested waterbodies in Arizona. In 2015, 85% of boaters surveyed verbally by Department personnel said they pull their boat's plug upon exit; however only 67% were physically observed pulling the boat's drain plug upon exiting.

The Commission proposes to renumber the rule from R12-4-1102 to R12-4-902. The Commission has determined there are issues with compliance due to the current boating culture, (similar to requiring the use of seat belts in automobiles) which will require a paradigm shift in common boating practices. Some persons do not believe they need to remove plugs and devices that prevent water from draining; other persons remove the plug or barrier, but then replace it before leaving the waterbody, which makes it difficult for law enforcement to determine whether a person is in compliance with the rule when they are driving away from a waterbody where aquatic invasive species are established or suspected with the plug and/or device in place. To reduce regulatory ambiguity and clearly communicate compliance requirements, the Department proposes to amend the rule to specify a person is required to remove all plugs and devices, except those that are sealed and exist for maintenance purposes only, and any other barriers that prevent water drainage while a watercraft, vehicle, conveyance, or equipment is in transport after leaving any affected waterbody.

7. **A reference to any study relevant to the rule that the agency reviewed and proposes to either rely on or not rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:**
   The agency did not rely on any study in its evaluation of or justification for the rule.

8. **A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rule will diminish a previous grant of authority of a political subdivision of this state:**
   Not applicable

9. **A summary of the economic, small business, and consumer impact:**
   Under A.R.S. § 41-1027, the rulemaking is exempt from this requirement; however, the Commission offers the following: The Commission anticipates the proposed amendments will have an insignificant impact on persons regulated by the rule. However, establishing conditions for the overland movement of watercraft, vehicles, conveyances, and equipment is crucial in helping to prevent the accidental spread of aquatic invasive species and the far-reaching financial and ecological impacts that can affect virtually every Arizona resident and water storage, treatment, and delivery provider. The rulemaking will benefit private consumers and public and private entities by addressing a current threat to the state’s economy, ecology, and public health and safety. The rulemaking will have little or no financial effect on most watercraft owners and operators. The Commission anticipates increased costs associated with implementing the amended rules due to increased training of enforcement officers. The Commission has determined that the benefits of the rulemaking outweigh any costs.

10. **A description of any changes between the proposed rulemaking, to include supplemental notices, and the final rulemaking:**
    Minor grammatical and formatting corrections that were made at the request of Governor’s Regulatory Review Council staff.

11. **An agency’s summary of the public or stakeholder comments made about the rulemaking and the agency response to the comments:**
    In addition to the publication of the Notice of Proposed Expedited Rulemaking in the Arizona Administrative Register, the Department posted the Notice of Proposed Expedited Rulemaking to the Department’s website, from September 15 to October 15, 2017, for the purpose of public comment. In addition, on October 15, 2017, the Department emailed information regarding the proposed
rulemaking to persons interested in receiving rulemaking notices. The Department also issued a press release regarding the proposed changes included in the Notice of Proposed Expedited Rulemaking and the Department’s contact information for persons interested in submitting a comment. The Department did not receive any public or stakeholder comments in response to the proposed rulemaking.

12. All agency’s shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:

a. Whether the rule requires a permit, whether a general permit is used, and if not, the reason why a general permit is not used:
The rule does not require a general permit.

b. Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law, and if so, citation to the statutory authority to exceed the requirements of federal law:
Federal law is not directly applicable to the subject of the rule. The rule is based on state law.

c. Whether a person submitted an analysis to the agency that compares the rule’s impact of the competitiveness of business in this state to the impact on business in other states:
The agency has not received an analysis that compares the rule’s impact of competitiveness of business in this state to the impact on business in other states.

13. A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rules:
Not applicable

14. Whether the rule previously made, amended, or repealed as an emergency rule. If so, cite the notice published in the Register as specified in R1-4-409(A). Also, the agency shall state where the text was changed between the emergency and the final rulemaking packages:
The rule was not previously made, amended, or repealed as an emergency rule.

   Maricopa County is currently under a “Moratorium on Increased Regulatory Burden”, Maricopa County Board of Supervisors Resolution C-44-13-104-M-02. The MCAQD obtained approval to proceed with this rulemaking on June 6, 2016.

4. **Explanation of the rule, including the control officer’s reasons for initiating the rulemaking:**
   **Summary:**
   Rule 320 contains regulations addressing gaseous or odorous air contaminants, animal and vegetable matter reduction, material containment, stack height, hydrogen sulfide, high sulfur oil, sulfur from other industries and asphalt kettles and dip tanks. The rule was last revised in July of 2003. The MCAQD is proposing to revise Rule 320 to update and enhance the rule, to remove broad, unenforceable language in the rule and to clarify MCAQD’s authority so that it is consistent with the intent of the Maricopa County Air Pollution Control Regulations and the general air pollution prohibition standard in Rule 100. This rule revision is part of a larger project to update, clarify and improve the Maricopa County Air Pollution Control Regulations.

   **Updates and Enhancements:**
   The MCAQD is proposing to update and enhance several sections of the rule. First, the MCAQD is proposing to add another emission control system option, a scrubbing or filtration system, to Section 301 for the control of emissions from equipment used for the reduction of animal matter. Second, the MCAQD is proposing to add text to the hydrogen sulfide emissions section, proposed Section 303, to delineate a standard method to calculate the 30 minute average hydrogen sulfide concentration which is used to
determine compliance with the hydrogen sulfide emission limit. The proposed method ensures all sources are determining compliance with the hydrogen sulfide emission limit in a consistent manner. Third, the MCAQD is proposing to add a monitoring and recordkeeping section, Section 500, to provide clear monitoring and recordkeeping requirements for sources subject to the rule and to provide consistency with the format of other air quality rules.

**Issues of Enforceability:**

Several sections in Rule 320 contain language that is broad and unenforceable. The department is proposing to remove these sections from the rule because they do not achieve emissions reductions. At the core of any effective regulation is a specific emission limit or a specific work practice that can be enforced consistently for all sources subject to that regulation. Sections 300, 302 and 303 of Rule 320 lack specific emissions limits and specific work practices. Section 300, for example, states no person shall emit gaseous or odorous air contaminants from equipment, operations or premises under his control “in such quantities or concentrations as to cause air pollution”. The phrase “in such quantities or concentrations as to cause air pollution” lacks a specific emission limit. Section 302, a second example, states materials including, but not limited to, solvents or other volatile compounds, paints, acids, alkalies, pesticides, fertilizer and manure shall be processed, stored, used and transported “in such a manner and by such means” that they will not unreasonably evaporate, leak, escape or be otherwise discharged into the ambient air so as to cause or contribute to air pollution. Where means are available to reduce effectively the contribution to air pollution from evaporation, leakage or discharge, the installation and use of such control methods, devices or equipment shall be mandatory. The phrase “in such a manner and by such means” lacks a specific work practice. Emissions limits and work practices such as these are very general and open to broad interpretation making them unenforceable.

Although the MCAQD is proposing to remove these sections, the MCAQD does regulate many of the emissions that Sections 300, 302, and 303 are meant to regulate by using one of the other 60 plus rules in the Maricopa County Air Pollution Control Regulations. For example, Section 302 (Material Containment Required) is meant to regulate emissions from the handling of materials such as fertilizer and manure; however, due to the broad, unenforceable language, these emissions are not effectively regulated by this section. The MCAQD more effectively regulates emissions from fertilizer and manure using Rule 310 (Fugitive Dust from Dust-Generating Operations) which contains specific emissions limits and work practices necessary for enforcement.

Questions about the enforceability of Rule 320, and about the enforceability of odor regulations in general, go back as far as the late 1960s and early 1970s. In 1967, The Maricopa County Board of Supervisors appointed the Maricopa County Air Pollution Advisory Council in accordance with the provisions of Senate Bill Number 1 of the 28th Arizona Legislature. The Advisory Council’s mission was to advise and consult with the Board of Supervisors about matters regarding air pollution. One of the first orders of business for the Advisory Council was to review the proposed air pollution control regulations prepared by the Maricopa County Health Department and make recommendations to the Board of Supervisors. The proposed regulations addressed, amongst other things, visible emissions, particulate matter emissions, hydrocarbon emissions, incinerator emissions and open burning. The Advisory Council spent several months reviewing the air pollution regulations, including conducting several public meetings. In March of 1968, the Advisory Council submitted a report to the Board of Supervisors regarding its review of the regulations and its recommendations. The report stated much of the Advisory Council’s time was devoted to the consideration of regulations regarding odors. One of the Advisory Council’s recommendations was to delete the enforcement provision addressing odor when the effect of odor “is likely to be injurious to the public welfare of property, to the health of human, plant or animal life, or which interferes with the enjoyment of life or property”. The Advisory Council made this recommendation based on the two reasons stated below:

a. “the provisions of the Arizona Statutes relating to nuisances together with the exercise of civil action could be best utilized at the present time to provide for the objective described by the deleted words [is likely to be injurious to the public welfare of property, to the health of human, plant or animal life, or which interferes with the enjoyment of life or property].”

b. “the provisions of the proposed regulations should be limited to those forms of pollution which are susceptible to unqualified identification, evaluation of effect, and (hopefully) may be correctly and quantitatively measured. It was the feeling of various members of the Council that the exercise of discretionary powers for odor regulation, as suggested by one of the citizen representatives, would constitute an activity of the County’s enforcement officers which should not presently be undertaken.”

The Advisory Council recognized the regulation lacked specific emissions limits necessary for enforcement and did not want to leave enforcement of the regulation to the discretionary power of the County enforcement officers. Although the Maricopa County Air Pollution Advisory Council recommended removing the proposed language mentioned above, a regulation addressing odor was later adopted in the 1970 Maricopa County Air Pollution Control Regulations, Regulation 3 of Section 4 of the regulations. The regulation contained language similar to the language found in current Rule 320. During the public hearing when the regulation was being adopted it was recognized the regulation contained enforceability issues. Dr. Farnsworth, the Director of the Maricopa County Health Department at the time, stated the following at the public hearing in regards to the regulation: “The statement within the regulations on page 18, under Regulation 3, subparagraph a, has to do with odors and gaseous emissions. These were put in at the recommendation of our Legal Counsel, all of us knowing that some phases [phrases] of it may not be completely enforceable if it went to Superior Court.” The department recognized in 1970 that some sections [phrases] of the rule may not be completely enforceable and the department recognizes the same issues today.

**Clarification of the MCAQD’s authority:**

The intent of the Maricopa County Air Pollution Control Regulations, as stated in Section 101 of Rule 100, is to prevent, reduce, control, correct, or remove regulated air pollutants originating within the territorial limits of Maricopa County and carry out the mandates of Arizona Revised Statutes. The general air pollution prohibition standard in Rule 100, Section 301 (Air Pollution Prohibited), states no person shall discharge from any source whatever into the atmosphere regulated air pollutants which exceed in quantity or concentration that specified and allowed in these rules, the AAC or ARS, or which cause damage to property, or unrea-
sonably interfere with the comfortable enjoyment of life or property of a substantial part of a community, or obscure visibility, or
which in any way degrade the quality of the ambient air below the standards established by the Board Of Supervisors or the Direc-
tor. Regulated air pollutants, per the definition of regulated air pollutant in Section 200.104 of Rule 100, include Criteria Pollutants
(ozone, carbon monoxide, nitrogen dioxide, sulfur dioxide, particulate matter and lead), nitrogen oxides and volatile organic com-
ounds, New Source Performance Standard Air Pollutants, and National Emission Standards for Hazardous Air Pollutants. Odors are not considered regulated air pollutants. In order to clarify the MCAQD’s authority and be consistent with the intent of the Mar-
icopa County Air Pollution Control Regulations and the general air pollution prohibition standard in Rule 100, the MCAQD is pro-
sing to remove the regulation of odor from the rule. This includes revising the title and purpose of the rule and removing the
definition of odors in Section 203.

Although the MCAQD is proposing to remove the regulation of odor from Rule 320, it is important to note the MCAQD will con-
tinue to take and investigate odor complaints because regulated air pollutants may emit odors and odors can be an indication a
source is in violation of one or more of the Maricopa County Air Pollution Control Regulations.

5. Studies relied on in the control officer’s evaluation of or justification for the rule and where the public may obtain
or review the studies, all data underlying the studies, any analysis of the studies and other supporting material.

204 TAR KETTLE: Any mobile equipment used exclusively for storing, holding, melting, and transferring asphalt or coal tar pitch with a maximum holding capacity greater than 159 gallons (600 liters) but no more than 1,000 gallons (3,785 liters) and is equipped with burner(s) designed to fire on natural gas, butane, propane or other fuels as approved by the Control Officer.

205 WASTE DERIVED FUEL GAS: A gaseous fuel that is generated from the biodegradation of solid or liquid waste including, but not limited to, digester gas and landfill gas. For the purpose of this rule, waste derived fuel gas does not apply to untreated landfill gas to an enclosed flare.

SECTION 300 - STANDARDS: No person shall emit gaseous or odorous air contaminants from equipment, operations or premises under his control in such quantities or concentrations as to cause air pollution.

301 ANIMAL AND VEGETABLE MATTER REDUCTION: No person shall operate or use any machine, equipment or other contrivance for the reduction of animal or vegetable matter, separately or in combination, unless all gases, vapors and gas entrained effluents have been incinerated to destruction at a temperature of not less than 1,300 degrees fahrenheit or processed in a manner determined by the Control Officer to be equally or more effective for the control of air pollution.

302 MATERIAL CONTAINMENT REQUIRED: Materials including, but not limited to, solvents or other volatile compounds, paints, acids, alkalies, pesticides, fertilizer and manure shall be processed, stored, used and transported in such a manner and by such means that they will not unreasonably evaporate, leak, escape or be otherwise discharged into the ambient air so as to cause or contribute to air pollution. Where means are available to reduce effectively the contribution to air pollution from evaporation, leakage or discharge, the installation and use of such control methods, devices or equipment shall be mandatory.

303 REASONABLE STACK HEIGHT REQUIRED: Where a stack, vent or other outlet is at such a level that air contaminants are discharged to adjoining property, the Control Officer may require the installation of abatement equipment or the alteration of such stack, vent, or other outlet to a degree that will adequately dilute, reduce or eliminate the discharge of air contaminants to adjoining property.

304 LIMITATION HYDROGEN SULFIDE: No person shall emit hydrogen sulfide from any location in such a manner or amount that the concentration of such emissions into the ambient air at any occupied place beyond the premises on which the source is located exceeds 0.02 parts per million by volume for any averaging period of 30 minutes or more.

305 PERMIT CONDITIONS HIGH SULFUR OIL: Any permit issued for the operation of an existing source, or any renewal or modification of such a permit, shall include a condition prohibiting the use of high sulfur oil by the permittee. The applicant must demonstrate to the Control Officer that sufficient quantities of low sulfur oil are not available for use by the source and that it has adequate facilities and contingency plans to insure that the sulfur dioxide ambient air quality standards set forth in Rule 510 of these Regulations will not be violated. The terms of the permit may authorize the use of high sulfur oil under such conditions as are justified. In cases where the permittee is authorized to use high sulfur oil, it shall submit to the Control Officer monthly reports detailing its efforts to obtain low sulfur oil. When the conditions justifying the use of high sulfur oil no longer exist, the permit shall be modified accordingly.

306 LIMITATION SULFUR FROM OTHER INDUSTRIES: No person shall discharge into the atmosphere from any industry, reduced sulfur, which includes sulfur equivalent from all sulfur emissions including but not limited to sulfur dioxide, sulfur trioxide and sulfuric acid, in excess of ten percent of the sulfur entering the process as feed.

307 OPERATING REQUIREMENTS ASPHALT KETTLES AND DIP TANKS:

307.1 No person shall operate an asphalt kettle or dip tank unless the owner or operator controls air contaminant emissions by good modern practices, including but not limited to:

a. Maintenance of temperature below both the asphalt flash point and the maximum temperature recommended by the asphalt manufacturer through the use of automatic temperature controls.

b. Operation of the kettle or dip tank with the lid closed except when charging.
c. Pumping or drawing the asphalt through cocks without dipping.
d. Firing of the kettle or dip tank with a clean burning fuel.
e. Maintaining the kettle or dip tank in clean, properly adjusted, and good operating condition.

307.2 The visible emissions from the operation of an asphalt kettle or dip tank shall comply with the provisions of Rule 300.

301 Reduction OF ANIMAL MATTER: An owner or operator of any equipment used for the reduction of animal matter shall comply with the following requirements:

301.1 All gases, vapors and gas-entrained effluents shall be vented without bypass to one of the following Emission Control Systems listed below:
   a. A thermal destruction device operated at a temperature of no less than 1300 degrees Fahrenheit, or
   b. A scrubbing system or filtration system capable of removing total reduced sulfur with a control efficiency of at least 90% by weight.

301.2 Records shall be maintained and provided in accordance with Section 500 of this rule.

301.3 The Emission Control System shall be operated in accordance with Section 305 of this rule.

302 ASPHALT DAY TANKERS AND/OR TAR KETTLES: An owner or operator of an asphalt day tanker and/or tar kettle shall comply with the following requirements:

302.1 Maintain temperature below both the asphalt/tar flash point and the maximum temperature recommended by the manufacturer through the use of automatic temperature controls.

302.2 Operate the asphalt day tanker and/or tar kettle with the lid closed except when charging.

302.3 Pump or draw the asphalt/tar through cocks without dipping.

302.4 Fire the asphalt day tanker and/or tar kettle with natural gas, butane, propane or other fuels as approved by the Control Officer.

302.5 Maintain and operate the asphalt day tanker and/or tar kettle in proper working condition.

302.6 Comply with the provisions of Rule 300 (Visible Emissions) of these rules for any visible emissions.

303 EMISSIONS OF H\textsubscript{2}S: An owner or operator shall not emit H\textsubscript{2}S emissions into the ambient air at any occupied place beyond the premises that exceeds 0.03 parts per million by volume for any averaging period of 30 minutes or more.

303.1 H\textsubscript{2}S emissions shall be calculated using 5 minute data concentrations to obtain a 30 minute average concentration in parts per million by volume.

304 SULFUR IN FUEL:

304.1 An owner or operator burning fuel oil or a blend of fuel oil with any other fuels shall use only low sulfur oil that contains less than or equal to 0.05% sulfur by weight.

REGISTER PUBLISHING DEADLINES

The Secretary of State’s Office publishes the Register weekly. There is a three-week turnaround period between a deadline date and the publication date of the Register. The weekly deadline dates and issue dates are shown below. Council meetings and Register deadlines do not correlate. Also listed are the earliest dates on which an oral proceeding can be held on proposed rulemakings or proposed delegation agreements following publication of the notice in the Register.
