ABOUT THIS PUBLICATION

The paper copy of the Administrative Register (A.A.R.) is the official publication for rules and rulemaking activity in the state of Arizona.

Rulemaking is defined in Arizona Revised Statutes known as the Arizona Administrative Procedure Act (APA), A.R.S. Title 41, Chapter 6, Articles 1 through 10.

The Office of the Secretary of State does not interpret or enforce rules published in the Arizona Administrative Register or Code. Questions should be directed to the state agency responsible for the promulgation of the rule as provided in its published filing.

The Register is cited by volume and page number. Volumes are published by calendar year with issues published weekly. Page numbering continues in each weekly issue.

In addition, the Register contains the full text of the Governor’s Executive Orders and Proclamations of general applicability, summaries of Attorney General opinions, notices of rules terminated by the agency, and the Governor’s appointments of state officials and members of state boards and commissions.

ABOUT RULES

Rules can be: made (all new text); amended (rules on file, changing text); repealed (removing text); or renumbered (moving rules to a different Section number). Rules activity published in the Register includes: proposed, final, emergency, expedited, and exempt rules as defined in the APA.

Rulemakings initiated under the APA as effective on and after January 1, 1995, include the full text of the rule in the Register. New rules in this publication (whether proposed or made) are denoted with underlining; repealed text is stricken.

WHERE IS A “CLEAN” COPY OF THE FINAL OR EXEMPT RULE PUBLISHED IN THE REGISTER?

The Arizona Administrative Code (A.A.C) contains the codified text of rules. The A.A.C. contains rules promulgated and filed by state agencies that have been approved by the Attorney General or the Governor’s Regulatory Review Council. The Code also contains rules exempt from the rulemaking process.

The printed Code is the official publication of a rule in the A.A.C., and is prima facie evidence of the making, amendment, or repeal of that rule as provided by A.R.S. § 41-1012. Paper copies of rules are available by full Chapter or by subscription. The Code is posted online for free.

LEGAL CITATIONS AND FILING NUMBERS

On the cover: Each agency is assigned a Chapter in the Arizona Administrative Code under a specific Title. Titles represent broad subject areas. The Title number is listed first; with the acronym A.A.C., which stands for the Arizona Administrative Code; following the Chapter number and Agency name, then program name. For example, the Secretary of State has rules on rulemaking in Title 1, Chapter 1 of the Arizona Administrative Code. The citation for this chapter is 1 A.A.C. 1, Secretary of State, Rules and Rulemaking.

Every document filed in the office is assigned a file number. This number, enclosed in brackets, is located at the top right of the published documents in the Register. The original filed document is available for 10 cents a page.
Participate in the Process

Look for the Agency Notice

Review (inspect) notices published in the Arizona Administrative Register. Many agencies maintain stakeholder lists and would be glad to inform you when they proposed changes to rules. Check an agency’s website and its newsletters for news about notices and meetings.

Feel like a change should be made to a rule and an agency has not proposed changes? You can petition an agency to make, amend, or repeal a rule. The agency must respond to the petition. (See A.R.S. § 41-1033)

Attend a public hearing/meeting

Attend a public meeting that is being conducted by the agency on a Notice of Proposed Rulemaking. Public meetings may be listed in the Preamble of a Notice of Proposed Rulemaking or they may be published separately in the Register. Be prepared to speak, attend the meeting, and make an oral comment.

An agency may not have a public meeting scheduled on the Notice of Proposed Rulemaking. If not, you may request that the agency schedule a proceeding. This request must be put in writing within 30 days after the published Notice of Proposed Rulemaking.

Write the agency

Put your comments in writing to the agency. In order for the agency to consider your comments, the agency must receive them by the close of record. The comment must be received within the 30-day comment timeframe following the Register publication of the Notice of Proposed Rulemaking.

You can also submit to the Governor’s Regulatory Review Council written comments that are relevant to the Council’s power to review a given rule (A.R.S. § 41-1052). The Council reviews the rule at the end of the rulemaking process and before the rules are filed with the Secretary of State.

Arizona Regular Rulemaking Process

START HERE

APA, statute or ballot proposition is passed. It gives an agency authority to make rules.

It may give an agency an exemption to the process or portions thereof.

Agency opens a docket.

Agency files a Notice of Rulemaking Docket Opening; it is published in the Register. Often an agency will file the docket with the proposed rulemaking.

Agency drafts proposed rule and Economic Impact Statement (EIS); informal public review/comment.

Agency files Notice of Proposed Rulemaking. Notice is published in the Register. Notice of meetings may be published in Register or included in Preamble of Proposed Rulemaking. Agency opens comment period.

Agency decides not to act and closes docket. The agency may let the docket lapse by not filing a Notice of Proposed rulemaking within one year.

Oral proceeding and close of record. Comment period must last at least 30 days after publication of notice. Oral proceeding (hearing) is held no sooner than 30 days after publication of notice of hearing.

Agency decides not to proceed; files Notice of Termination of Rulemaking. May open a new Docket.

Agency decides not to proceed and files Notice of Termination of Rulemaking for publication in Register. A.R.S. § 41-1021(A)(2).

Rule must be submitted for review or terminated within 120 days after the close of the record.

A final rulemaking package is submitted to G.R.R.C. or A.G. for review. Contains final preamble, rules, and Economic Impact Statement.

G.R.R.C. has 90 days to review and approve or return the rule package, in whole or in part; A.G. has 60 days.

After approval by G.R.R.C. or A.G., the rule becomes effective 60 days after filing with the Secretary of State (unless otherwise indicated).

Final rule is published in the Register and the quarterly Code Supplement.
Definitions

Administrative Procedure Act (APA): A.R.S. Title 41, Chapter 6, Articles 1 through 10. Available online at www.azleg.gov.

Arizona Revised Statutes (A.R.S.): The statutes are made by the Arizona State Legislature during a legislative session. They are compiled by Legislative Council, with the official publication codified by Thomson West. Citations to statutes include Titles which represent broad subject areas. The Title number is followed by the Section number. For example, A.R.S. § 41-1001 is the definitions Section of Title 41 of the Arizona Administrative Procedures Act. The “§” symbol simply means “section.” Available online at www.azleg.gov.

Chapter: A division in the codification of the Code designating a state agency or, for a large agency, a major program.

Close of Record: The close of the public record for a proposed rulemaking is the date an agency chooses as the last date it will accept public comments, either written or oral.

Docket: A public file for each rulemaking containing materials related to the proceedings of that rulemaking. The docket file is established and maintained by an agency from the time it begins to consider making a rule until the rulemaking is finished. The agency provides public notice of the docket by filing a Notice of Rulemaking Docket Opening with the Office for publication in the Register.

Economic, Small Business, and Consumer Impact Statement (EIS): The EIS identifies the impact of the rule on private and public employment, on small businesses, and on consumers. It includes an analysis of the probable costs and benefits of the rule. An agency includes a brief summary of the EIS in its preamble. The EIS is not published in the Register but is available from the agency promulgating the rule. The EIS is also filed with the rulemaking package.

Governor’s Regulatory Review (G.R.R.C.): Reviews and approves rules to ensure that they are necessary and to avoid unnecessary duplication and adverse impact on the public. G.R.R.C. also assesses whether the rules are clear, concise, understandable, legal, consistent with legislative intent, and whether the benefits of a rule outweigh the cost.

Incorporated by Reference: An agency may incorporate by reference standards or other publications. These standards are available from the state agency with references on where to order the standard or review it online.

Federal Register (FR): The Federal Register is a legal newspaper published every business day by the National Archives and Records Administration (NARA). It contains federal agency regulations; proposed rules and notices; and executive orders, proclamations, and other presidential documents.

Session Laws or “Laws”: When an agency references a law that has not yet been codified into the Arizona Revised Statutes, use the word “Laws” is followed by the year the law was passed by the Legislature, followed by the Chapter number using the abbreviation “Ch.”, and the specific Section number using the Section symbol (§). For example, Laws 1995, Ch. 6, § 2. Session laws are available at www.azleg.gov.

United States Code (U.S.C.): The Code is a consolidation and codification by subject matter of the general and permanent laws of the United States. The Code does not include regulations issued by executive branch agencies, decisions of the federal courts, treaties, or laws enacted by state or local governments.

About Preambles

The Preamble is the part of a rulemaking package that contains information about the rulemaking and provides agency justification and regulatory intent.

It includes reference to the specific statutes authorizing the agency to make the rule, an explanation of the rule, reasons for proposing the rule, and the preliminary Economic Impact Statement.

The information in the Preamble differs between rulemaking notices used and the stage of the rulemaking.
NOTICES OF PROPOSED RULEMAKING

This section of the Arizona Administrative Register contains Notices of Proposed Rulemaking.

A proposed rulemaking is filed by an agency upon completion and submittal of a Notice of Rulemaking Docket Opening. Often these two documents are filed at the same time and published in the same Register issue.

When an agency files a Notice of Proposed Rulemaking under the Administrative Procedure Act (APA), the notice is published in the Register within three weeks of filing. See the publication schedule in the back of each issue of the Register for more information.

Under the APA, an agency must allow at least 30 days to elapse after the publication of the Notice of Proposed Rulemaking in the Register before beginning any oral proceedings for making, amending, or repealing any rule (A.R.S. §§ 41-1013 and 41-1022).

The Office of the Secretary of State is the filing office and publisher of these rules. Questions about the interpretation of the proposed rules should be addressed to the agency that promulgated the rules. Refer to item #4 below to contact the person charged with the rulemaking and item #10 for the close of record and information related to public hearings and oral comments.

5. An agency's justification and reason why a rule should be made, amended, repealed, or renumbered, to include an explanation about the rulemaking:
   The Board is amending its rules to address three recent statutory changes. Under Laws 2016, Chapter 137, the legislature adopted the Interstate Medical Licensure Compact (See A.R.S. §§ 32-3241 to 32-3246) and created a new, temporary license to allow an applicant for Arizona licensure to obtain a non-renewable, temporary license to practice osteopathic medicine in Arizona while the application for full licensure is processed. A.R.S. § 32-1834 authorizes the Board to establish a fee for the temporary license. This rulemaking establishes the fee and as required under A.R.S. § 41-1073, establishes the time frame within which the Board will act on an application for a temporary license.

   Under Laws 2017, Chapter 265, the legislature required all applicants for licensure to submit to the Board a full set of fingerprints for the purpose of obtaining a state and federal criminal records check. This rulemaking places the fingerprint requirement into rule and adds the fee for processing the fingerprints.

   Under Laws 2018, Chapter 1, the legislature added A.R.S. § 32-3248.02, which requires a health professional authorized to prescribe or dispense schedule II controlled substances to complete three hours of opioid-related, substance use disorder-related, or addiction-related continuing medical education during each license renewal cycle. This rulemaking establishes the new CME requirement.
Notice of Proposed Rulemaking

Exemptions from Executive Order 2017-02 for the purpose of this rulemaking were provided by Mara Mellstrom, Policy Advisor in the Office of the Governor, in e-mails dated April 21, June 29, and October 19, 2017.

6. A reference to any study relevant to the rule that the agency reviewed and proposes either to rely on or not to rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:
The Board does not intend to review or rely on a study in its evaluation of or justification for any rule in this rulemaking.

7. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:
Not applicable

8. The preliminary summary of the economic, small business, and consumer impact:
Under statute, no one is required to obtain a temporary license so no one is required to pay the fee established in this rulemaking. An osteopathic physician voluntarily obtains a temporary license and pays the fee because the osteopathic physician believes the cost is outweighed by the benefit of being able to practice medicine while the application for full licensure is processed.
An applicant will incur the expense of submitting to the Board a full set of fingerprints for the purpose of obtaining a state and federal criminal records check. This is a cost the legislature determined is offset by the concern for public health and safety.
The impact of the change to the CME requirement will be minimal. Licensees are not being required to obtain an additional hour of CME. Rather, they are being required simply to ensure three of the 40 statutorily required CME hours address opioid-related, substance use disorder-related, or addiction-related prescribing.

9. The agency’s contact person who can answer questions about the economic, small business, and consumer impact statement:
Name: Barbara Prah-Wix, Interim Executive Director
Address: Board of Examiners in Osteopathic Medicine and Surgery
1740 W. Adams St., Suite 2410

Telephone: (602) 771-2526
Fax: (480) 657-7715
E-mail: Barbara.Prah@azdo.gov
Web site: www.azdo.gov

10. The time, place, and nature of the proceedings to make, amend, repeal, or renumber the rule, or if no proceeding is scheduled, where, when, and how persons may request an oral proceeding on the proposed rule:
An oral proceeding regarding the proposed rules will be held as follows:
Date: Saturday, May 18, 2019
Time: 1:00 p.m.
Location: 1740 W. Adams St., Conference Room A
Phoenix, AZ 85007

11. All agencies shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:
None
a. Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:
The licenses listed in Table 1 are general permits consistent with A.R.S. § 41-1037 because they are issued to qualified individuals or entities to conduct activities that are substantially similar in nature.
b. Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:
No rule in the rulemaking is more stringent than federal law. Federal law applies to the provision of health care but no federal law addresses the subject matter of this rulemaking.
c. Whether a person submitted an analysis to the agency that compares the rule’s impact of the competitiveness of business in this state to the impact on business in other states:
No analysis was submitted.

12. A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rules:
None

5. An agency’s justification and reason why the rule should be made, amended, repealed, or renumbered, to include an explanation about the rulemaking:
   The Arizona Game and Fish Commission proposes to adopt rules to regulate hunting activities consistent with the guiding principles governing the Commission’s duty to preserve wildlife for the beneficial use of the public. The proposed rulemaking will designate a predator/fur-bearing hunt contest, as defined by the rule, an unlawful manner and method of take for predator/fur-bearing species. A rule that provides clear instruction about the legal hunting of predator/fur-bearing species provides for the conservation,
maintenance, and utilization of wildlife under the jurisdiction of the State for the benefit of all the citizens.

This proposed rulemaking contains rule language included in the Notice of Proposed Rulemaking, see 24 A.A.R. 529, March 16, 2018, which was approved by the Governor's Regulatory Review Council on February 5, 2019 and becomes effective on June 1, 2019.

An exemption from Executive Order 2019-01 was provided for this rulemaking by Hunter Moore, Natural Resource Policy Advisor, Governor's Office, in an email dated February 15, 2019.

6. A reference to any study relevant to the rule that the agency reviewed and proposes to either rely on or not rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:
The agency did not rely on any study in its evaluation of or justification for the rule.

7. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:
Not applicable

8. The preliminary summary of the economic, small business, and consumer impact:
The Commission's intent in adopting the rule is to address social concerns associated with predator/fur-bearing contests, and to proscribe the manner and method of take for participants to a predators/fur-bearings contest. Wildlife predator/fur-bearing hunting contest that link economic gain to the greatest number or variety of animals killed are contrary to the important principle that the take of wildlife should not be allowed to go to waste or taken for economic gain. The Commission believes the rulemaking will benefit the State and persons regulated by the rule by reducing regulatory uncertainty, and strengthening consistency with the principles that guide the Commission's public trust responsibility to conserve wildlife for the benefit of the citizens of Arizona. Extensive public controversy exists about predator/fur-bearing contests that award prizes to participants who kill the largest number or variety of predator/fur-bearing animals or the contest is based on the combined weight of animals a participant kills. To the extent these contests reflect on the overall hunting community, public outrage with these events has the potential to threaten hunting as a legitimate wildlife management function. Regulated hunting fundamentally supports wildlife conservation efforts in North America. The loss of hunting would equate to a measurable loss in conservation efforts, and would represent a failure of the Commission in its duty to preserve wildlife for the beneficial use of present and future generations. The Commission anticipates the rulemaking will impose a burden on persons regulated by the rule by prohibiting wildlife predator/fur-bearing contests. The Commission anticipates the rulemaking will result in no impact to agencies or political subdivisions of this State, private and public employment in businesses, or State revenues. The Commission has determined the rulemaking will not require any new full-time employees. The Commission has determined that there are no less intrusive or costly alternative methods of achieving the purpose of the rulemaking. The Department will incur costs related to the cost of rulemaking and implementing the rule. The Commission has determined that the benefits of the rulemaking outweigh any costs.

   This rule incorporates by reference National Association of Insurance Commissioners (NAIC) Model Regulation to Implement the NAIC Medicare Supplement Insurance Minimum Standards Model Act (Model Regulation). Under A.R.S. § 20-1133, the Director is required to adopt rules as necessary to comply with the requirements of the social security disability amendments of 1980 (P.L. 96-265, 42 U.S.C. § 1395ss) and federal laws or regulations pertaining to that section, so that Arizona may retain its full authority to regulate minimum standards for Medicare supplement insurance.

   Because A.R.S. § 41-1028 requires a statement that incorporated matter does not include any later amendments or editions of the incorporated matter, the Department seeks to amend R20-6-1101 to accomplish the mandate of A.R.S. § 20-1133 to reflect changes made by the NAIC to the Model Regulation.

      - Name: Mary E. Kosinski
11. All agencies shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:

a. Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:

   The rule does not require a permit.
   A.R.S. § 20-216 authorizes the Department to issue a certificate of authority to insurers doing business in Arizona if they meet statutorily specified criteria. No general permit is used.

b. Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:

   Under A.R.S. § 20-1133, the Director is required to adopt rules as necessary to comply with the requirements of the social security disability amendments of 1980 (P.L. 96-265, 42 U.S.C. § 1395ss) and federal laws or regulations pertaining to that section, so that Arizona may retain its full authority to regulate minimum standards for Medicare supplement insurance.

   The rule is not more stringent than the federal law.

c. Whether a person submitted an analysis to the agency that compares the rule’s impact of the competitiveness of business in this state to the impact on business in other states:

   Not applicable

12. A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rules:

6. An agency’s justification and reason why a rule should be made, amended, repealed, or renumbered, to include an explanation about the rulemaking:
   The Committee needs to repeal R2-9-101 in order to reduce regulatory burden. R2-9-101 identifies obligations for a vendor who is contracted to administer the deferred compensation programs governed by the Committee. However, the Committee has the statutory authority to contract for such specific administrative services and may include prudent requirements in the contract, rather than promulgating separate rules. Thus, the rule is unnecessary and repealing the rule will reduce the regulatory burden on the contracted vendor while still achieving the same regulatory objective.

7. A reference to any study relevant to the rule that the agency reviewed and either relied on or did not rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:
   No study was reviewed.

8. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:
   Not applicable
9. **A summary of the economic, small business, and consumer impact:**

There is little to no economic, small business, or consumer impact, other than the minimal cost to the Committee to prepare the rule package. The rule will have minimal economic impact, if any, because it reduces regulatory burden while still achieving the same regulatory objective. Thus, the economic impact is minimized.

10. **A description of any changes between the proposed rulemaking, including supplemental notices, and the final rulemaking:**

None

11. **An agency's summary of the public or stakeholder comments made about the rulemaking and the agency response to the comments:**

The ASRS received no written comments regarding the rulemaking. No one attended the oral proceeding on February 12, 2019.

12. **All agencies shall list any other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:**

None

a. **Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:**

The rules do not require a permit.

b. **Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:**

Federal law applies to retirement programs, but no federal law specifically applies to this rulemaking.

c. **Whether a person submitted an analysis to the agency that compares the rule's impact of the competitiveness of business in this state to the impact on business in other states:**

No analysis was submitted.

13. **A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rule:**

No materials are incorporated by reference.

14. **Whether the rule was previously made, amended, or repealed as an emergency rule. If so, cite the notice published in the Register as specified in R1-1-409(A). Also, the agency shall state where the text was changed between the emergency and the final rulemaking packages:**

Not applicable

**ARTICLE 1. GENERAL PROVISIONS**

R2-9-101. **Employee Solicitation for Tax-Deferred Annuities and Deferred Compensation Plans Repealed**

A. The administrator under contract with the Governing Committee shall draft and present an annual business plan that describes its approach to educating and marketing to employees regarding the tax-deferred annuity and deferred compensation plans. The administrator's business plan is subject to the approval of the Governing Committee. The business plan shall include:

1. Enrollment and participation goals for employees;
2. Performance measures for the administrator;
3. Plans for achieving the goals and performance measures;
4. An explanation of the effect of participation on take-home pay and future retirement income; and
5. Information regarding retirement planning and investment options.

B. The administrator shall establish and follow written procedures that provide for the impartial representation of the available investment options and investment products offered under the tax-deferred annuity and deferred compensation plans. The written procedures are subject to the advance written approval of the Governing Committee. The procedures shall:

1. Include directives to the administrator's personnel that information provided to the employees shall be presented in a fair and equal manner, allowing employees to make individual choices based upon their specific investment needs or desires;
2. Be adequate to ensure that the administrator's personnel will not engage in preferential solicitation of any investment option or investment product, and
3. Include a means of monitoring at reasonable intervals the adequacy of the procedures and reporting the results of the monitoring to the Governing Committee.

C. The failure of the administrator to present the plan required in subsection (A), or the failure of the administrator to establish and follow the procedures required in subsection (B), is a breach of its contract with the Governing Committee.

6. An agency’s justification and reason why a rule should be made, amended, repealed or renumbered, to include an explanation about the rulemaking:
   The federal Achieving a Better Life Experience Act of 2014 (ABLE Act) was enacted on December 19, 2014 as part of the Tax Increase Prevention Act of 2014 (Public Law 113-295). The ABLE Act amends the Internal Revenue Code to exempt a qualified ABLE program from taxation. A qualified ABLE program is defined as “a program established by a state, or agency or instrumentality thereof under which a person may make contributions for a taxable year, for the benefit of an individual...to an ABLE account which is established for the purpose of meeting the qualified disability expenses of the designated beneficiary of the account.” Public Law 113-295. H.B. 2388, signed into law on May 12, 2016, established the state Achieving a Better Life Experience (ABLE) Program, through which contributions may be made to an account of an eligible disabled person to meet qualifying disability expenses. H.B. 2388 requires the Department to adopt rules for the ABLE Program. The proposed rulemaking will provide clarification for the implementation and administration of the program.

7. A reference to any study relevant to the rule that the agency reviewed and proposes either to rely on or not to rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:
   The Department did not review or rely on any study relevant to the rules.
8. **A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:**

Not applicable.

9. **A summary of the economic, small business, and consumer impact:**

The economic impact of operating the program is expected to be minimal (less than $1,000) on small businesses and consumers. Operating the program does not have any negative financial impact upon private persons and consumers, except for the fees established by the Plan (ABLE Program or a State Treasurer’s 529A ABLE program), the Plan Manager (service provider), Mutual Funds, and the prepaid card provider. The public benefits from the program because it gives certain individuals with disabilities, as well as their families and friends, the opportunity to contribute to a tax-exempt savings account at a lower cost that can be used for maintaining health, independence, and quality of life.

10. **A description of any changes between the proposed rulemaking, to include supplemental notices, and the final rulemaking:**

The Department added language to R6-5-3301 Definitions for “Cash” as well as to R6-5-3305(2) Contributions for clarity.

11. **An agency's summary of the public or stakeholder comments made about the rulemaking and the agency response to the comments:**

The Department received no comments on this rulemaking.

12. **All agencies shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:**

No other matters are prescribed.

a. **Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:**

The rules do not require a permit.

b. **Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:**

The Department has determined that the rule is not more stringent than the applicable federal law.

c. **Whether a person submitted an analysis to the agency that compares the rule’s impact of the competitiveness of business in this state to the impact on business in other states:**

No analysis was submitted.

13. **A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rules:**

None

14. **Whether the rule was previously made, amended or repealed as an emergency rule. If so, cite the notice published in the Register as specified in R1-1-409(A). Also, the agency shall state where the text was changed between the emergency and the final rulemaking packages:**

6. An agency's justification and reason why a rule should be made, amended, repealed, or renumbered, to include an explanation about the rulemaking:
   Summary:
   The Arizona Department of Environmental Quality (ADEQ) is amending Arizona Administrative Code (A.A.C.) R18-2-220, Air Pollution Emergency Episodes. This rule provides a sequence of emission reduction priorities and criteria used to determine air pollution emergency episodes. The rule utilizes a tiered approach for emissions control and advisory procedures for three episode stages: alert, warning, and emergency.
   During a Stage I air pollution alert, a news release is issued indicating that an air pollution alert has been declared and requests that the general public restrict vehicle use as much as possible. For alerts regarding industrial pollutants, ADEQ will request that applicable sources under state jurisdiction reduce emissions. Delegated authorities will make a similar request for sources under their jurisdiction.
An air pollution Stage II warning will be declared in the event that air pollution warning levels occur and are expected to continue or recur within 24 hours. ADEQ will also declare a warning stage if air pollution alert levels persist for 48 hours with no improvement in air quality. For automotive related pollutants, ADEQ will request that schools, industry, businesses, and government facilities restrict motor vehicle traffic as much as possible. For other pollutants, ADEQ will request that applicable sources further reduce emissions of the pollutant that is subject to the warning. Delegated authorities will make a similar request for sources under their jurisdiction.

For Stage III, if exceedances at the emergency air pollution level occur and are expected to continue or recur within 24 hours, or if warning levels persist for 48 hours and conditions are not expected to improve, an air pollution emergency will be declared. At the emergency air pollution level, ADEQ will notify the Governor’s Office. The Governor may request that all industrial, construction, commercial, governmental, and institutional facilities be closed. The use of motor vehicles may be prohibited except for emergency situations that have been approved by law enforcement.

This rule incorporates by reference the August 2018 Final Procedures Manual titled “Procedures for Prevention of Emergency Episodes”, which is on file at ADEQ. The procedures manual is being revised as part of this rulemaking; however, the manual is not included in the rule language. The procedures manual contains the processes that ADEQ must follow in the event of an air pollution emergency episode. These processes outline the preparations and response techniques for public notification and informing emission sources of relevant information regarding the pollutant of a given air pollution emergency episode. These preplanned strategies are designed to minimize the cost and effort required of regulated entities, while simultaneously curtailing emissions. Successful implementation of the strategies according to the episode stages outlined in the rule expedite emission curtailment and prevent pollution concentrations from reaching levels that may cause significant harm to public health.

**Background.**

Fine particulate matter (PM$_{2.5}$) is able to travel deep into the respiratory tract, reaching the lungs. Exposure to PM$_{2.5}$ can cause short-term health effects such as eye, nose, throat and lung irritation, coughing, sneezing, runny nose and shortness of breath. Exposure can also affect lung function and worsen medical conditions such as asthma and heart disease. Scientific studies have linked increases in daily PM$_{2.5}$ exposure with increased respiratory and cardiovascular hospital admissions, emergency department visits and deaths. Studies suggest that long-term exposure to fine particulate matter may be associated with increased rates of chronic bronchitis, reduced lung function and increased mortality from lung cancer and heart disease. People with breathing and heart problems, children and the elderly may be particularly sensitive to PM$_{2.5}$. To protect human health, EPA sets National Ambient Air Quality Standards (NAAQS) for six criteria pollutants, including PM$_{2.5}$.

In July 1997 EPA promulgated revisions to the PM NAAQS by adding a new standard for PM$_{2.5}$. Due to the potential health effects associated with long- and short-term exposure to PM$_{2.5}$, EPA set an annual and a 24-hour PM$_{2.5}$ standard. The 1997 primary annual PM$_{2.5}$ standard was set as the annual arithmetic mean, averaged over 3 years, at 15 micrograms per cubic meter ($\mu$g/m$^3$). The primary 24-hour standard was set at 65 $\mu$g/m$^3$, the annual 98th percentile of daily (24-hour) values, averaged over three years (62 FR 38652, July 18, 1997).

In 2006 EPA revised the PM$_{2.5}$ NAAQS and lowered the 24-hour average standard from 65 to 35 $\mu$g/m$^3$ and retained the level of the annual primary standard (71 FR 61144, October 17, 2006).

On January 15, 2013 EPA again revised the NAAQS for PM$_{2.5}$, this time lowering the annual standard to 12.0 $\mu$g/m$^3$ in order to provide increased protection against health effects associated with long- and short-term exposures (78 FR 3086, January 15, 2013). EPA retained the 24-hour PM$_{2.5}$ standard at a level of 35 $\mu$g/m$^3$.

Within three years following the promulgation of new or revised NAAQS, Clean Air Act (CAA) Section 110(a)(1) requires states to submit State Implementation Plans (SIPs) that provide for implementation, maintenance, and enforcement of the standards. These SIPs, also called infrastructure SIPs (I-SIP), must address certain basic elements of its air quality management programs under CAA Section 110(a)(2). These elements, detailed in CAA Sections 110(a)(2)(A) through (M), include provisions for monitoring, emissions inventories, and modeling designed to ensure attainment and maintenance of the NAAQS.

On December 11, 2015 ADEQ submitted the 2012 PM$_{2.5}$ NAAQS I-SIP to EPA to satisfy requirements for CAA Sections 110(a)(1) and 110(a)(2). The SIP fulfills most of the requirements; however, EPA indicated that CAA Section 110(a)(2)(G) was not approvable. CAA Section 110(a)(2)(G) requires states to provide for authority to address activities causing imminent and substantial endangerment to public health, including contingency plans to implement the emergency episode provisions in their SIPs, which are contained in A.A.C. R18-2-220.

Currently, A.A.C. R18-2-220 does not contain the averaging time and emergency episode concentrations for PM$_{2.5}$. If ADEQ does not revise A.A.C R18-2-220 to include PM$_{2.5}$, EPA will take formal action to disapprove those portions of the I-SIP, which can lead to the promulgation of a federal implementation plan (FIP) by the EPA under CAA Section 110(c)(1). A FIP contains requirements that are dictated and enforced by EPA, which can include prohibition of highway funds and emission offset requirements for certain emission sources.

**Section by Section Explanation of Proposed Rules:**

This proposed rulemaking will amend A.A.C. R18-2-220, Air Pollution Emergency Episodes, to update the State rule to include the air pollution emergency episode levels for PM$_{2.5}$. This rulemaking will bring Arizona’s standards into conformity with federal rules and is required under Section 110(a)(2) of the Clean Air Act (CAA).

R18-2-220(A) This section provides the requirement for procedures to be implemented by the ADEQ Director that will...
7. **A reference to any study relevant to the rule that the agency reviewed and either relied on or did not rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:**

   Not applicable

8. **A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:**

   Not applicable

9. **A summary of the economic, small business, and consumer impact:**

   The following discussion addresses each of the elements required for an economic, small business and consumer impact statement (ESBCIS) under A.R.S. § 41-1055.

   **An identification of the rulemaking.**

   The rulemaking addressed by this ESBCIS amends A.A.C. R18-2-220, Air Pollution Emergency Episodes. This rulemaking will adopt language identifying the pollutant, averaging time, as well as the emergency episode and significant harm levels for fine particulate matter, as revised and adopted by EPA.

   **An identification of the persons who will be directly affected by, bear the costs of or directly benefit from the rulemaking.**

   The persons who will be directly affected by and bear the costs of this rulemaking are the governmental agencies responsible for the declaration and public and industry notification of air pollution episodes. Companies and/or activities that emit pollutants subject to A.A.C. R18-2-220 would also be affected by this rulemaking. These include (but may not be limited to): burn permits, power plants, smelters, manufacturing facilities, building construction, and highway construction.

   The persons who will benefit from this rulemaking are the residents of Arizona as a result of the notifications that would occur in the event of an air quality emergency episode and receive critical information regarding actions to take in order to limit their exposure to air pollution.

   **A cost benefit analysis of the following:**

   **(a) The probable costs and benefits to the implementing agency and other agencies directly affected by the implementation and enforcement of the rulemaking.**

   ADEQ estimates that the current number of full-time employees assigned in the Air Quality Division at ADEQ are adequate to implement and enforce the notifications, air quality monitoring, and forecasting for air pollution emergency episodes. The cost of the rule to the implementing agency will therefore be minimal.

   ADEQ has jurisdiction for air quality planning, permitting, monitoring and forecasting in most areas of Arizona. Maricopa County will be revising its emergency episodes rule and will conduct rulemakings to incorporate the new standards for PM_{2.5}. The costs and benefits will be similar for Maricopa County as for ADEQ.

   Pima and Pinal Counties are delegated air quality planning authorities for areas within their jurisdictions. The West Central Pinal Moderate PM_{2.5} Nonattainment Area was designated under the 2006 PM_{2.5} NAAQS but was designated as unclassifiable/attainment for the 2012 PM_{2.5} NAAQS along with the rest of the state.

   Air quality monitoring in Pima and Pinal Counties shows that there have been no exceedances of the 2012 PM_{2.5} NAAQS. At this time, EPA is not requiring Pima and Pinal Counties to revise their emergency episodes rules to comply with infrastructure requirements for the 2012 PM_{2.5} NAAQS. However, EPA has recommended that the counties revise their emergency episodes rules to align with the 2012 PM_{2.5} NAAQS.

   **(b) The probable costs and benefits to a political subdivision of this state directly affected by the implementation and enforcement of the rulemaking.**

   In the event of an air pollution emergency episode, ADEQ expects overall costs to vary by the air pollution episode stage due to the level of preparation for each of the stage and the specific political subdivisions affected, which includes counties with air pollution control programs (as noted in previous section). Political subdivisions that may be affected include (but are not limited to) metropolitan planning organizations, irrigation districts, and school districts. Any costs borne by these entities would likely result from implementation of emission reduction strategies. It is unlikely that any of these entities are primary sources of any of the gaseous (i.e. sulfur dioxide, VOCs) precursors to PM_{2.5} pollution. As a result they may implement minor yet effective strategies, such as reducing vehicular traffic from their operations or through alternative modes of travel for employees. As a result, the costs borne by these entities would be minimal.

   This rulemaking will provide public health protection from temporary high levels of PM_{2.5} pollution. Additionally, this rulemaking prevents the State from being susceptible to a FIP enforced by EPA under the CAA.

   **(c) The probable costs and benefits to businesses directly affected by the rulemaking, including any anticipated effect...**
on the revenues or payroll expenditures of employers who are subject to the rulemaking.

The rules being amended are necessary to comply with federal requirements under Section 110(a)(2) of the CAA. These revisions are necessary to avoid disapproval of the Infrastructure State Implementation Plan (I-SIP) for the 2012 PM$_{2.5}$ NAAQS. Disapproval of the I-SIP will result in the issuance of a FIP by the EPA under Section 110(c)(1) of the CAA, which can include prohibition of highway funds and emission offset requirements for certain emission sources.

Pollutants currently regulated by A.A.C. R18-2-220 include carbon monoxide (CO), nitrogen dioxide (NO$_2$), ozone (O$_3$), coarse particulate matter (PM$_{10}$), and sulfur dioxide (SO$_2$). Businesses that emit these pollutants that are already subject to this rule may include (but are not limited to) coal- and oil-fired electric and steam power generating facilities, primary and secondary metals, petroleum refining, chemical processing, mineral processing, and glass processing. This rulemaking incorporates PM$_{2.5}$ to the air pollution emergency episodes rule; subsequently, businesses that emit PM$_{2.5}$ will be subject to the rule.

Potential costs will vary according to the level of the pollution episode and the pollutant. Any costs incurred by a business (such as reducing or prohibiting vehicular traffic, reducing production, or closing facilities) would be temporary and extend only through the duration of the episode.

A general description of the probable impact on private and public employment in businesses, agencies and political subdivisions of this state directly affected by the rulemaking.

ADEQ anticipates that employment impacts will be minor. Because the low potential for an air pollution emergency to occur, ADEQ does not expect short- or long-term employment, production, or industrial growth in Arizona to be negatively impacted by this rulemaking. No sources are expected to close from the implementation of this rulemaking. Any reductions in production would occur only during the term of the air pollution emergency episode.

A statement of the probable impact of the rulemaking on small businesses.

(a) An identification of the small businesses subject to the rulemaking.

Under A.R.S. § 41-1001(21): “Small business” means a concern, including its affiliates, which is [1] independently owned and operated, which is [2] not dominant in its field and which [3] employs fewer than one hundred full-time employees or which had gross annual receipts of less than four million dollars in its last fiscal year.

Only businesses emitting pollutants subject to this rule would be directly affected by the declaration of an air pollution emergency episode. It is unlikely that small businesses would emit enough pollutants to contribute to a PM$_{2.5}$ emergency episode and therefore will likely not be requested to limit or cease production.

(b) The administrative and other costs required for compliance with the rulemaking.

Not applicable.

(c) A description of the methods that the agency may use to reduce the impact on small businesses.

(i) Establishing less costly compliance requirements in the rulemaking for small businesses.

Not applicable.

(ii) Establishing less costly schedules or less stringent deadlines for compliance in the rulemaking.

Not applicable.

(iii) Exempting small businesses from any or all requirements of the rulemaking.

Not applicable.

(d) The probable cost and benefit to private persons and consumers who are directly affected by the rulemaking.

Any costs that would be borne by private persons and consumers (i.e. the general public) would be potentially the result of an employer limiting production to reduce emissions or shutting down during the term of the air pollution emergency episode. Because of the extreme unlikelihood of the declaration of an air pollution episode, it is unlikely that the general public will be affected.

The general public will benefit from this rulemaking through the avoidance of or reductions in air pollution resulting from a declared air pollution emergency episode. Air quality regulations that lower concentrations of pollutants have the potential to reduce adverse health effects ranging from missed school and work days to premature mortality. Persons with compromised health (physiological, morphological, and biochemical) are more susceptible to the harmful effects of air pollutants. In the event that an air pollution episode is declared, the public will be notified and will be informed of the episode level and information will be provided actions to take that will minimize exposure to the pollutant that is subject to the episode.

A statement of the probable effect on state revenues.

Due to the low probability for an air pollution emergency episode to be declared, ADEQ does not expect any effects on state revenues.

A description of any less intrusive or less costly alternative methods of achieving the purpose of the rulemaking.

ADEQ was not able to identify any less intrusive or costly alternative methods for achieving the purpose of the rulemaking, which is compliance with the federal requirements for Sections 110(a)(1) and (2) of the CAA and federal Guidance for SIP Elements under the aforementioned CAA Sections. As a result, the amendments to A.A.C. R18-2-220 are required as a part of Arizona’s PM$_{2.5}$ Infrastructure State Implementation Plan.
A description of any data on which a rule is based with a detailed explanation of how the data was obtained and why the data is acceptable data. An agency advocating that any data is acceptable data has the burden of proving that the data is acceptable. For the purposes of this paragraph, “acceptable data” means empirical, replicable and testable data as evidenced in supporting documentation, statistics, reports, studies or research.

Not applicable.

10. A description of any changes between the proposed rulemaking, to include supplemental notices, and the final rulemaking:

No changes were made to the rules between the proposed rulemaking and the final rulemaking.

11. An agency's summary of the public or stakeholder comments made about the rulemaking and the agency response to the comments:

No oral or written comments were received.

12. All shall list other matters prescribed by statute applicable to the specific agency or to any specific agencies rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:

There are no matters prescribed by Arizona statute applicable specifically to ADEQ or this specific rulemaking.

a. Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:

The rule does not inherently require a permit. Any facility subject to a permit is already covered under Title V of the Clean Air Act and ADEQ’s permitting program.

b. Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:

This rule allows Arizona to comply with CAA Sections 110(a)(1) and (2). The rule incorporates federal regulations but is not more stringent than federal law. The revisions are necessary in order for Arizona to avoid disapproval of the 2012 PM2.5 I-SIP and imposition of a FIP.

c. Whether a person submitted an analysis to the agency that compares the rule’s impact of the competitiveness of business in this state to the impact on business in other states:

No person submitted an analysis to ADEQ.

13. A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rule:

Not applicable

14. Whether the rule was previously made, amended or repealed as an emergency rule. If so, cite the notice published in the Register as specified in R1-1-409(A). Also, the agency shall state where the text was changed between the emergency and the final rulemaking packages:

Not applicable

NOTICES OF RULEMAKING DOCKET OPENING

This section of the Arizona Administrative Register contains Notices of Rulemaking Docket Opening. A docket opening is the first part of the administrative rulemaking process. It is an “announcement” that the agency intends to work on its rules. When an agency opens a rulemaking docket to consider rulemaking, the Administrative Procedure Act (APA) requires the publication of the Notice of Rulemaking Docket Opening.

Under the APA effective January 1, 1995, agencies must submit a Notice of Rulemaking Docket Opening before beginning the formal rulemaking process. Many times an agency may file the Notice of Rulemaking Docket Opening with the Notice of Proposed Rulemaking. The Office of the Secretary of State is the filing office and publisher of these notices. Questions about the interpretation of this information should be directed to the agency contact person listed in item #4 of this notice.

NOTICE OF PUBLIC INFORMATION
DEPARTMENT OF ENVIRONMENTAL QUALITY
SAFE DRINKING WATER

[M19-35]

1. **Name of the Agency:** Department of Environmental Quality

2. **Title and its heading:** 18, Environmental Quality

3. **Chapter and its heading:** 4, Department of Environmental Quality – Safe Drinking Water

4. **Article and its heading:** 8, Technical Assistance

5. **Section and its heading:** R18-4-803, Master Priority List

Pursuant to A.R.S. § 49-358, the Arizona Department of Environmental Quality (Department) has developed a water system compliance assistance program to assist public water systems in complying with state and federal laws, rules and regulations regarding safe drinking water. As of March 25, 2019, there are 1,516 public water systems (PWS) in operation in Arizona. Of this universe of water systems, 1,449 (96%) are classified as “small water systems” serving 10,000 or fewer persons. Historically, these small-and medium-sized public water systems have accrued the vast majority of Arizona’s reported drinking water violations (e.g., contaminant exceedance violations, no certified operator, missed monitoring). The capacity development program works to ensure that public water systems possess the technical, managerial and financial capacity to operate in accordance with all the drinking water rules and regulation. Capacity development also reaches out to small public water systems needing technical assistance which is provided by the Department or through third party contractors.

Public water systems are identified for technical assistance on the basis of the Master Priority List (MPL) which is updated annually in April. The criteria used to determine the need for assistance include the measures used in determining the technical, managerial and financial (TMF) capacity of existing PWSs. Additional criteria include the public water system’s score on the U.S. Environmental Protection Agency’s (EPA) Enforcement Targeting Tool, system classification type, population served, and violation history. Technical assistance contracts are typically awarded to prepare one of several deliverables: a TMF capacity assessment of the water system, an evaluation of compliance options for water systems with maximum contaminant level (MCL) violations or treatment system design to address an ongoing MCL violation. As funding is available, the Department will award technical assistance to those PWSs with the highest MPL rankings and who are willing to work with the Department and its technical assistance providers. The Water Infrastructure Financing Authority (WIFA) also uses the MPL to identify possible candidates for additional technical assistance and/or financial assistance (e.g., low interest loans, design grants).

Pursuant to A.A.C. R18-4-803(D), the Department is publishing this Notice of Public Information in the Arizona Administrative Register (A.A.R.) and will hold a public meeting to provide the public with an opportunity to comment on the Master Priority List. The Draft Master Priority List can be viewed from the ADEQ Calendar beginning on April 19, 2019 at http://azdeq.gov/notices Beginning April 19, 2019, the 30-day public review and the written and oral comment period begins. After completion of the 30-day review, the public meeting and the comment period, the Department will formulate a response to submitted comments and consider modifications to the MPL in response to those comments. If no comments are received, the MPL becomes final on May 20, 2019. If comments are received and changes are made, the revised MPL will be re-published in the A.A.R., along with a summary of comments received and the Department’s response to those comments.

4. **The name and address of agency personnel with whom persons may communicate:**

   **Name:** Linda Taunt, Capacity Development & Technical Assistance Coordinator
   **Address:** Department of Environmental Quality

5. **The time during which the agency will accept written comments and the time and place where oral comments may be made:**
   
   An oral proceeding will be held on:
   
   **Date:** Monday, May 20, 2019  
   **Time:** 9:30 a.m.  
   **Place:** Room 5100B  
   1110 W. Washington St.  
   Phoenix, AZ 85007  

   The Department will accept written comments on the Draft FY20 MPL until close of business on May 20, 2019.

WHEREAS, the State of Arizona eliminated or repealed 422 needless regulations in 2018 and 676 in 2017 for a total of 1,098 needless regulations eliminated or repealed over two years; and
WHEREAS, estimates show these eliminations saved job creators more than $31 million in operating costs in 2018 and $48 million in 2017 for a total of over $79 million in savings over two years; and
WHEREAS, approximately 283,300 private sector jobs have been added to Arizona since January 2015; and
WHEREAS, all government agencies of the State of Arizona should continue to promote customer-service-oriented principles for the people that it serves; and
WHEREAS, each State agency shall continue to conduct a critical and comprehensive review of its administrative rules and take action to reduce the regulatory burden, administrative delay and legal uncertainty associated with government regulation while protecting the health, peace and safety of residents; and
WHEREAS, each State agency should continue to evaluate its administrative rules using any available and reliable data and performance metrics; and
WHEREAS, Article 5, Section 4 of the Arizona Constitution and Title 41, Chapter 1, Article 1 of the Arizona Revised Statutes vests the executive power of the State of Arizona in the Governor.

NOW, THEREFORE, I, Douglas A. Ducey, by virtue of the authority vested in me by the Constitution and laws of the State of Arizona hereby declare the following:

1. A State agency subject to this Order shall not conduct any rulemaking, whether informal or formal, without the prior written approval of the Office of the Governor. In seeking approval, a State agency shall address one or more of the following as justifications for the rulemaking:
   a. To fulfill an objective related to job creation, economic development or economic expansion in this State.
   b. To reduce or ameliorate a regulatory burden while achieving the same regulatory objective.
   c. To prevent a significant threat to the public health, peace, or safety.
   d. To avoid violating a court order or federal law that would result in sanctions by a federal court for failure to conduct the rulemaking action.
   e. To comply with a federal statutory or regulatory requirement if such compliance is related to a condition for the receipt of federal funds or participation in any federal program.
   f. To comply with a state statutory requirement.
   g. To fulfill an obligation related to fees or any other action necessary to implement the State budget that is certified by the Governor’s Office of Strategic Planning and Budgeting.
   h. To promulgate a rule or other item that is exempt from Title 41, Chapter 6, Arizona Revised Statutes, pursuant to section 41-1005, Arizona Revised Statutes.
   i. To address matters pertaining to the control, mitigation, or eradication of waste, fraud or abuse within an agency or wasteful, fraudulent, or abusive activities perpetrated against an agency.
   j. To eliminate rules which are antiquated, redundant or otherwise no longer necessary for the operation of state government.

2. A State agency subject to this Order shall not publicize any directives, policy statements, documents or forms on its website unless such are explicitly authorized by Arizona Revised Statutes or Arizona Administrative Code.

3. A State agency subject to this Order and which issues occupational or professional licenses shall review the agency’s rules and practices related to receiving and acting on substantive complaints about unlicensed individuals who are allegedly holding them-
Executive Order 2019-01

Arizonans are licensed professionals for financial gain and are knowingly or recklessly providing or attempting to provide regulated services which the State agency director believes could cause immediate and/or significant harm to either the financial or physical health of unknowing consumers within the state. Agencies shall identify and execute on opportunities to improve its complaint intake process, documentation, tracking, enforcement actions and coordination with proper law enforcement channels to ensure those allegedly trying to defraud unsuspecting consumers and putting them at risk for immediate and/or significant harm to their financial or physical health are stopped and effectively diverted by the State agency to the proper law-enforcement agency for review. A written plan on the agency’s process shall be submitted to the Governor’s Office no later than May 31, 2019.

4. For the purposes of this Order, the term “State agencies” includes, without limitation, all executive departments, agencies, offices, and all state boards and commissions, except for: (a) any State agency that is headed by a single elected State official; (b) the Corporation Commission; and (c) any board or commission established by ballot measure during or after the November 1998 general election. Those state agencies, boards and commissions excluded from this Order are strongly encouraged to voluntarily comply with this Order in the context of their own rulemaking processes.

5. This Order does not confer any legal rights upon any persons and shall not be used as a basis for legal challenges to rules, approvals, permits, licenses or other actions or to any inaction of a State agency. For the purposes of this Order, “person,” “rule,” and “rulemaking” have the same meanings prescribed in section 41-1001, Arizona Revised Statutes.

IN WITNESS THEREOF, I have hereunto set my hand and caused to be affixed the Great Seal of the State of Arizona.

Douglas A. Ducey
