ABOUT THIS PUBLICATION

The paper copy of the Administrative Register (A.A.R.) is the official publication for rules and rulemaking activity in the state of Arizona.

Rulemaking is defined in Arizona Revised Statutes known as the Arizona Administrative Procedure Act (APA), A.R.S. Title 41, Chapter 6, Articles 1 through 10.

The Office of the Secretary of State does not interpret or enforce rules published in the Arizona Administrative Register or Code. Questions should be directed to the state agency responsible for the promulgation of the rule as provided in its published filing.

The Register is cited by volume and page number. Volumes are published by calendar year with issues published weekly. Page numbering continues in each weekly issue.

In addition, the Register contains the full text of the Governor’s Executive Orders and Proclamations of general applicability, summaries of Attorney General opinions, notices of rules terminated by the agency, and the Governor’s appointments of state officials and members of state boards and commissions.

ABOUT RULES

Rules can be: made (all new text); amended (rules on file, changing text); repealed (removing text); or renumbered (moving rules to a different Section number). Rules activity published in the Register includes: proposed, final, emergency, expedited, and exempt rules as defined in the APA.

Rulemakings initiated under the APA as effective on and after January 1, 1995, include the full text of the rule in the Register. New rules in this publication (whether proposed or made) are denoted with underlining; repealed text is stricken.

WHERE IS A “CLEAN” COPY OF THE FINAL OR EXEMPT RULE PUBLISHED IN THE REGISTER?

The Arizona Administrative Code (A.A.C) contains the codified text of rules. The A.A.C contains rules promulgated and filed by state agencies that have been approved by the Attorney General or the Governor’s Regulatory Review Council. The Code also contains rules exempt from the rulemaking process.

The printed Code is the official publication of a rule in the A.A.C., and is prima facie evidence of the making, amendment, or repeal of that rule as provided by A.R.S. § 41-1012. Paper copies of rules are available by full Chapter or by subscription. The Code is posted online for free.

LEGAL CITATIONS AND FILING NUMBERS

On the cover: Each agency is assigned a Chapter in the Arizona Administrative Code under a specific Title. Titles represent broad subject areas. The Title number is listed first; with the acronym A.A.C., which stands for the Arizona Administrative Code; following the Chapter number and Agency name, then program name. For example, the Secretary of State has rules on rulemaking in Title 1, Chapter 1 of the Arizona Administrative Code. The citation for this chapter is 1 A.A.C. 1, Secretary of State, Rules and Rulemaking.

Every document filed in the office is assigned a file number. This number, enclosed in brackets, is located at the top right of the published documents in the Register. The original filed document is available for 10 cents a page.

The Office of the Secretary of State is an equal opportunity employer.

Look for the Agency Notice

Review (inspect) notices published in the Arizona Administrative Register. Many agencies maintain stakeholder lists and would be glad to inform you when they propose changes to rules. Check an agency’s website and its newsletters for news about notices and meetings.

Feel like a change should be made to a rule and an agency has not proposed changes? You can petition an agency to make, amend, or repeal a rule. The agency must respond to the petition. (See A.R.S. § 41-1033)

Attend a public hearing/meeting

Attend a public meeting that is being conducted by the agency on a Notice of Proposed Rulemaking. Public meetings may be listed in the Preamble of a Notice of Proposed Rulemaking or they may be published separately in the Register. Be prepared to speak, attend the meeting, and make an oral comment.

An agency may not have a public meeting scheduled on the Notice of Proposed Rulemaking. If not, you may request that the agency schedule a proceeding. This request must be put in writing within 30 days after the published Notice of Proposed Rulemaking.

Write the agency

Put your comments in writing to the agency. In order for the agency to consider your comments, the agency must receive them by the close of record. The comment must be received within the 30-day comment timeframe following the Register publication of the Notice of Proposed Rulemaking.

You can also submit to the Governor’s Regulatory Review Council written comments that are relevant to the Council’s power to review a given rule (A.R.S. § 41-1052). The Council reviews the rule at the end of the rulemaking process and before the rules are filed with the Secretary of State.

Agency opens comment period.

Oral proceeding and close of record. Comment period must last at least 30 days after publication of notice. Oral proceeding (hearing) is held no sooner than 30 days after publication of notice of hearing.

Substantial change?
If no change then

Rule must be submitted for review or terminated within 120 days after the close of the record.

A final rulemaking package is submitted to G.R.R.C. or A.G. for review. Contains final preamble, rules, and Economic Impact Statement.

G.R.R.C. has 90 days to review and approve or return the rule package, in whole or in part; A.G. has 60 days.

After approval by G.R.R.C. or A.G., the rule becomes effective 60 days after filing with the Secretary of State (unless otherwise indicated).

Final rule is published in the Register and the quarterly Code Supplement.
Definitions

**Arizona Administrative Register (A.A.R.):** The official publication that includes filed documents pertaining to Arizona rulemaking. Available online at www.azsos.gov.

**Administrative Procedure Act (APA):** A.R.S. Title 41, Chapter 6, Articles 1 through 10. Available online at www.azleg.gov.

**Arizona Revised Statutes (A.R.S.):** The statutes are made by the Arizona State Legislature during a legislative session. They are compiled by Legislative Council, with the official publication codified by Thomson West. Citations to statutes include Titles which represent broad subject areas. The Title number is followed by the Section number. For example, A.R.S. § 41-1001 is the definitions Section of Title 41 of the Arizona Administrative Procedures Act. The “§” symbol simply means “section.” Available online at www.azleg.gov.

**Chapter:** A division in the codification of the Code designating a state agency or, for a large agency, a major program.

**Close of Record:** The close of the public record for a proposed rulemaking is the date an agency chooses as the last date it will accept public comments, either written or oral.

**Docket:** A public file for each rulemaking containing materials related to the proceedings of that rulemaking. The docket file is established and maintained by an agency from the time it begins to consider making a rule until the rulemaking is finished. The agency provides public notice of the docket by filing a Notice of Rulemaking Docket Opening with the Office for publication in the Register.

**Economic, Small Business, and Consumer Impact Statement (EIS):** The EIS identifies the impact of the rule on private and public employment, on small businesses, and on consumers. It includes analysis of the probable costs and benefits of the rule. An agency includes a brief summary of the EIS in its preamble. The EIS is not published in the Register but is available from the agency promulgating the rule. The EIS is also filed with the rulemaking package.

**Governor’s Regulatory Review (G.R.R.C.):** Reviews and approves rules to ensure that they are necessary and to avoid unnecessary duplication and adverse impact on the public. G.R.R.C. also assesses whether the rules are clear, concise, understandable, legal, consistent with legislative intent, and whether the benefits of a rule outweigh the cost.

**Incorporated by Reference:** An agency may incorporate by reference standards or other publications. These standards are available from the state agency with references on where to order the standard or review it online.

**Federal Register (FR):** The Federal Register is a legal newspaper published every business day by the National Archives and Records Administration (NARA). It contains federal agency regulations; proposed rules and notices; and executive orders, proclamations, and other presidential documents.

**Session Laws or “Laws”:** When an agency references a law that has not yet been codified into the Arizona Revised Statutes, use the word “Laws” is followed by the year the law was passed by the Legislature, followed by the Chapter number using the abbreviation “Ch.”, and the specific Section number using the Section symbol (§). For example, Laws 1995, Ch. 6, § 2. Session laws are available at www.azleg.gov.

**United States Code (U.S.C.):** The Code is a consolidation and codification by subject matter of the general and permanent laws of the United States. The Code does not include regulations issued by executive branch agencies, decisions of the federal courts, treaties, or laws enacted by state or local governments.

About Preambles

The Preamble is the part of a rulemaking package that contains information about the rulemaking and provides agency justification and regulatory intent.

It includes reference to the specific statutes authorizing the agency to make the rule, an explanation of the rule, reasons for proposing the rule, and the preliminary Economic Impact Statement.

The information in the Preamble differs between rulemaking notices used and the stage of the rulemaking.
NOTICES OF PROPOSED RULEMAKING

This section of the Arizona Administrative Register contains Notices of Proposed Rulemaking.

A proposed rulemaking is filed by an agency upon completion and submittal of a Notice of Rulemaking Docket Opening. Often these two documents are filed at the same time and published in the same Register issue.

When an agency files a Notice of Proposed Rulemaking under the Administrative Procedure Act (APA), the notice is published in the Register within three weeks of filing. See the publication schedule in the back of each issue of the Register for more information.

Under the APA, an agency must allow at least 30 days to elapse after the publication of the Notice of Proposed Rulemaking in the Register before beginning any oral proceedings for making, amending, or repealing any rule (A.R.S. §§ 41-1013 and 41-1022).

The Office of the Secretary of State is the filing office and publisher of these rules. Questions about the interpretation of the proposed rules should be addressed to the agency that promulgated the rules. Refer to item #4 below to contact the person charged with the rulemaking and item #10 for the close of record and information related to public hearings and oral comments.

Notwithstanding section R9-22-712.60, claims for inpatient services from the following hospitals shall be paid on a per diem basis, including provisions for outlier payments, where rates and outlier thresholds are included in the capped fee schedule published by the Administration on its website and available for inspection during normal business hours at 701 E. Jefferson, Phoenix, Arizona. If the covered costs per day on a claim exceed the published threshold for a day, the claim is considered an outlier. Outliers will be paid by multiplying the covered charges by the outlier CCR. The outlier CCR will be the sum of the urban or rural default operating CCR appropriate to the location of the hospital and the statewide capital cost-to-charge ratio in the data file established as part of the Medicare Inpatient Prospective Payment System by CMS. The resulting amount will be the total reimbursement for the claim. There is no provision for outlier payments for hospitals described under subsection (A)(3).

2. Hospitals designated as type: hospital, subtype: long term in the Provider & Facility Database for Arizona Medical Facilities posted by the Arizona Department of Health Services Division of Licensing Services on its website for March of each year;

B. Notwithstanding section R9-22-712.60, claims for inpatient services that are covered by a RBHA or TRBHA, where the principal diagnosis on the claim is a behavioral health diagnosis, shall be reimbursed as prescribed by a fee schedule established by the Administration; however, if the principal diagnosis is a physical health diagnosis, the claim shall be processed under the DRG methodology described in this section, even if behavioral health services are provided during the inpatient stay.

C. Notwithstanding section R9-22-712.60, claims for services associated with transplant services shall be paid in accordance with the contract between the AHCCCS administration and the transplant facility.

D. Notwithstanding section R9-22-712.60, claims from an IHS facility or 638 Tribal provider shall be paid the all-inclusive rate on a per visit basis in accordance with the rates published annually by IHS in the federal register.

E. For hospitals that have contracts with the Administration for the provision of transplant services, inpatient days associated with transplant services are paid in accordance with the terms of the contract.

F. The final DRG payment is the sum of the final DRG base payment, the final DRG outlier add-on payment, and the Differential Adjusted Payment.

1. The final DRG base payment is an amount equal to the product of the covered day adjusted DRG base payment and a hospital-specific factor established to limit the financial impact to individual hospitals of the transition from the tiered per diem payment methodology and to account for improvements in documentation and coding that are expected as a result of the transition.

2. The final DRG outlier add-on payment is an amount equal to the product of the covered day adjusted DRG outlier add-on payment and a hospital-specific factor established to limit the financial impact to individual hospitals of the transition from the tiered per diem payment methodology and to account for improvements in documentation and coding that are expected as a result of the transition.

3. The factor for each hospital and for each federal fiscal year is published as part of the AHCCCS capped fee schedule and is available on the AHCCCS administration’s website and is on file for public inspection at the AHCCCS administration located at 701 E. Jefferson Street, Phoenix, Arizona.

4. For inpatient services with a date of discharge from October 1, 2018 through September 30, 2019, the Inpatient Differential Adjusted Payment is the sum of the final DRG base payment and the final DRG outlier add-on payment multiplied by a percentage published on the Administration’s public website as part of its fee schedule, subsequent to the public notice published no later than September 1, 2018. 5. **An agency’s justification and reason why a rule should be made, amended, repealed or renumbered, to include an explanation about the rulemaking:**

   This rulemaking will amend an AHCCCS DRG payment regulation to align with programmatic functions following AHCCCS Complete Care (ACC) integration October 1, 2018. This rulemaking will amend the definition of “administrative day” to authorize MCO payment to acute care hospitals at a level similar to reimbursement of these providers before the delivery system change to ACC integration. For claims with a primary diagnosis of behavioral health, acute care hospitals will receive reimbursement under the DRG methodology where, under the proposed rulemaking, this provider type will be able to qualify for payment under the revised definition of administrative day. This change will promote consistency of inpatient hospital reimbursement following ACC integration for providers serving members when claims with a primary diagnosis of behavioral health are filed.

6. **A reference to any study relevant to the rule that the agency reviewed and proposes either to rely on or not to rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:**

   The agency did not use a study.

7. **A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:**

   Not applicable as the rulemaking will not diminish a previous grant to authority of a political subdivision of the state.

8. **The preliminary summary of the economic, small business, and consumer impact:**

   The proposed rulemaking will support economic development in Arizona by preserving payment rates in place prior to ACC integration for acute care hospitals providing inpatient services to members with a primary diagnosis of behavioral health. The proposed amendment to the definition of “administrative day” is warranted in order to continue to support providers following ACC integration providing the same level of services. In order to mitigate hospital reimbursement impacts, AHCCCS is amending the fee-for-service reimbursement methodology for acute care hospital inpatient claims with a primary diagnosis of behavioral health.

ARTICLE 7. STANDARDS FOR PAYMENT

R9-22-712.61. DRG Payments: Exceptions

A. Notwithstanding section R9-22-712.60, claims for inpatient services from the following hospitals shall be paid on a per diem basis, including provisions for outlier payments, where rates and outlier thresholds are included in the capped fee schedule published by the Administration on its website and available for inspection during normal business hours at 701 E. Jefferson, Phoenix, Arizona. If the covered costs per day on a claim exceed the published threshold for a day, the claim is considered an outlier. Outliers will be paid by multiplying the covered charges by the outlier CCR. The outlier CCR will be the sum of the urban or rural default operating CCR appropriate to the location of the hospital and the statewide capital cost-to-charge ratio in the data file established as part of the Medicare Inpatient Prospective Payment System by CMS. The resulting amount will be the total reimbursement for the claim. There is no provision for outlier payments for hospitals described under subsection (A)(3).

1. Hospitals designated as type: hospital, subtype: rehabilitation in the Provider & Facility Database for Arizona Medical Facilities posted by the Arizona Department of Health Services Division of Licensing Services on its website in March of each year;

2. Hospitals designated as type: hospital, subtype: long term in the Provider & Facility Database for Arizona Medical Facilities posted by the Arizona Department of Health Services Division of Licensing Services on its website for March of each year;

3. Hospitals designated as type: hospital, subtype: psychiatric in the Provider & Facility Database for Arizona Medical Facilities posted by the Arizona Department of Health Services Division of Licensing Services on its website for March of each year;

B. Notwithstanding section R9-22-712.60, claims for inpatient services that are covered by a RBHA or TRBHA, where the principal diagnosis on the claim is a behavioral health diagnosis, shall be reimbursed as prescribed by a per diem rate described by a fee schedule established by the Administration; however, if the principal diagnosis is a physical health diagnosis, the claim shall be processed under the DRG methodology described in this section, even if behavioral health services are provided during the inpatient stay. Inpatient claims covered by an AHCCCS payer which is not a RBHA or TRBHA, with a principal diagnosis of behavioral health, will be reimbursed under the DRG methodology as administrative days for claims with principal diagnosis of behavioral health meeting inpatient medical criteria with dates of discharge on and after October 1, 2018, consistent with R9-22-712.75(A)(2).

C. Notwithstanding section R9-22-712.60, claims for services associated with transplant services shall be paid in accordance with the contract between the AHCCCS administration and the transplant facility.

D. Notwithstanding section R9-22-712.60, claims from an IHS facility or 638 Tribal provider shall be paid the all-inclusive rate on a per visit basis in accordance with the rates published annually by IHS in the federal register.

E. For hospitals that have contracts with the Administration for the provision of transplant services, inpatient days associated with transplant services are paid in accordance with the terms of the contract.

F. For inpatient services with a date of admission from October 1, 2018 through September 30, 2019, provided by a hospital in subsection (A) that qualifies, the administration shall pay the hospital an Inpatient Differential Adjusted Payment equal to the sum of the payment otherwise provided for in subsection (A) plus the product of the amount otherwise provided for in subsection (A) and a percentage published on the Administration’s public website as part of its fee schedule, subsequent to a public notice published no later than September 1, 2018. To qualify for the Inpatient Differential Adjusted Payment, the exempt hospital must meet the following criteria:

1. By June 15, 2018 submit a Letter of Intent to AHCCCS and a qualifying Health Information Exchange (HIE) organization in which the hospital agrees to achieve the following:
Administrative days due to lack of appropriate placement options and not meeting inpatient medical criteria.

The agency's contact person who can answer questions about the rulemaking:

Administrative days under subsection (A)(2) are reimbursed at the daily rate found on the Inpatient Behavioral Health Capped

Administrative days may also occur at the end of an acute care episode, for example, when a member is not discharged

Administrative days under subsection (A)(1) are reimbursed at the rate the claim would have paid had the services not been pro-

Administrative days for claims with the principal diagnosis of behavioral health meeting inpatient medical criteria. Administra-

Administrative

Administrative days may also include days in a receiving hospital when the member has been discharged from one acute

care hospital, meets the criteria for an acute inpatient stay, and the principal diagnosis on the hospital claim is a behavioral health
diagnosis. Inpatient claims covered by a RBHA or TRBHA are not considered administrative days under subsection (A)(2)
regardless of the principal diagnosis on the hospital claim.

Administrative days do not include days when the member is awaiting appropriate placement or services that are currently
available but the hospital has not transferred or discharged the member because of the hospital’s administrative or operational delays.

Administrative days include inpatient claims covered by a RBHA or TRBHA that otherwise meet the criteria in subsection (A)(1).

2. Administrative days for claims with the principal diagnosis of behavioral health meeting inpatient medical criteria. Administrative
days are days with dates of discharge on or after October 1, 2018, in which a member is admitted as an inpatient to an acute

care hospital while awaiting placement in a nursing facility or other sub-acute or post-acute setting.

Administrative days may also occur at the end of an acute care episode, for example, when a member is not discharged

while awaiting placement in a nursing facility or other sub-acute or post-acute setting.

Administrative days may also include days in a receiving hospital when the member has been discharged from one acute

care hospital for the purpose of receiving sub-acute services at the receiving hospital.

Administrative days for claims with the principal diagnosis of behavioral health meeting inpatient medical criteria. Administrative
days are days in which a member is admitted as an inpatient to an acute care hospital, does not meet the criteria for an acute inpa-
tient stay, but is admitted or not discharged because; (1) an appropriate placement outside the hospital is not available, (2) the
member cannot be safely discharged or transferred, or (3) the Administration or the contractor failed to provide for the appropriate
placement outside the hospital in a timely manner.

Administrative days may occur prior to an acute care episode, for example, when a woman with a high-risk pregnancy is
admitted to a hospital while awaiting delivery.

A. Categories of Administrative Days. Administrative days fall into one of two categories, either (A)(1) or (A)(2).

1. Administrative days due to lack of appropriate placement options and not meeting inpatient medical criteria. Administrative
days are days in which a member is admitted as an inpatient to an acute care hospital, does not meet the criteria for an acute inpa-
tient stay, but is admitted or not discharged because; (1) an appropriate placement outside the hospital is not available, (2) the
member cannot be safely discharged or transferred, or (3) the Administration or the contractor failed to provide for the appropriate
placement outside the hospital in a timely manner.

Administrative days may occur prior to an acute care episode, for example, when a woman with a high-risk pregnancy is
admitted to a hospital while awaiting delivery.

B. Reimbursement of Administrative Days.

1. Administrative days under subsection (A)(1) are reimbursed at the rate the claim would have paid had the services not been pro-
vided in an inpatient hospital setting but had been provided at the appropriate level of care such as the rate paid for stays at a
nursing facility.

PRIOR AUTHORIZATION IS REQUIRED FOR ADMINISTRATIVE DAYS

Administrative days under subsection (A)(2) are reimbursed at the daily rate found on the Inpatient Behavioral Health Capped
Fee-For-Service Schedule meeting the criteria of “Service Description – Psychiatric Stay,” regardless of revenue code.

C. Prior authorization is required for administrative days.

D. A hospital shall submit a claim for administrative days separate from any claim for reimbursement for the inpatient stay otherwise
reimbursable under the DRG payment methodology.

E. Administrative days are reimbursed at the rate the claim would have paid had the services not been provided in an inpatient hospital
setting but had been provided at the appropriate level of care (e.g., as nursing facility days).

5. An agency’s justification and reason why a rule should be made, amended, repealed or renumbered, to include an explanation about the rulemaking:

During the 2018 legislative session, the Arizona legislature enacted A.R.S. § 36-2905.03 which provided that non-contracted behavioral health inpatient facilities (BHIF’s) would be reimbursed at 90% of the contracted rate. This rulemaking is an effort to codify and clarify which facilities this statute applies to.

AHCCCS intends to encourage contracting between providers and all contractors to best serve AHCCCS members who require inpatient stays, regardless of whether the BHIF is contracted. The amended rule will encourage competition among BHIF’s and Contractors, expand provider networks, promote administrative efficiencies, and authorize AHCCCS to more efficiently and effectively reimburse BHIF’s for inpatient stays. Current federal and state statutory provisions do not prohibit such a change. The proposed rulemaking will also limit AHCCCS Program expenditures to BHIF’s in this State by extending applicability of the 90% reimbursement to all AHCCCS Contractors responsible for payments to non-contracted BHIF’s. As a result, the rulemaking supports payments to BHIF’s that are consistent with efficiency, economy, and quality of care, promoting the fiscal health of the State.

6. A reference to any study relevant to the rule that the agency reviewed and proposes either to rely on or not to rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:

A study was not referenced or relied upon when revising these regulations.

7. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:

Not applicable

8. The preliminary summary of the economic, small business, and consumer impact:

This rulemaking creates greater opportunities for contracts between contractors and behavioral health inpatient facilities. Based on these changes, the economic impact of this rulemaking will be a savings due to paying 90% of the reimbursement rate BHIF’s stays if they are non-contracting. Since the rulemaking may incentivize urban hospitals to contract at a greater rate, exact savings going forward cannot be predicted; however, it is estimated to be over $2 million less per year.

   Web site: www.azdo.gov

6. An agency’s justification and reason why a rule should be made, amended, repealed, or renumbered, to include an explanation about the rulemaking:
   The Board is amending its rules to address three recent statutory changes. Under Laws 2016, Chapter 137, the legislature adopted the Interstate Medical Licensure Compact (See A.R.S. §§ 32-3241 to 32-3246) and created a new, temporary license to allow an applicant for Arizona licensure to obtain a non-renewable, temporary license to practice osteopathic medicine in Arizona while the application for full licensure is processed. A.R.S. § 32-1834 authorizes the Board to establish a fee for the temporary license. This rulemaking establishes the fee and as required under A.R.S. § 41-1073, establishes the time frame within which the Board will act on an application for a temporary license.
   Under Laws 2017, Chapter 265, the legislature required all applicants for licensure to submit to the Board a full set of fingerprints.
for the purpose of obtaining a state and federal criminal records check. This rulemaking places the fingerprint requirement into rule and adds the fee for processing the fingerprints.

Under Laws 2018, Chapter 1, the legislature added A.R.S. § 32-3248.02, which requires a health professional authorized to prescribe or dispense schedule II controlled substances to complete three hours of opioid-related, substance use disorder-related, or addiction-related continuing medical education during each license renewal cycle. This rulemaking establishes the new CME requirement.

Exemptions from Executive Order 2017-02 for the purpose of this rulemaking were provided by Mara Mellstrom, Policy Advisor in the Office of the Governor, in e-mails dated April 21, June 29, and October 19, 2017.

7. A reference to any study relevant to the rule that the agency reviewed and either relied on or did not rely on in its evaluation or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:

The Board did not review or rely on a study in its evaluation of or justification for any rule in this rulemaking.

8. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:

Not applicable

9. A summary of the economic, small business, and consumer impact:

Under statute, no one is required to obtain a temporary license so no one is required to pay the fee established in this rulemaking. An osteopathic physician voluntarily obtains a temporary license and pays the fee because the osteopathic physician believes the cost is outweighed by the benefit of being able to practice medicine while the application for full licensure is processed. An applicant will incur the expense of submitting to the Board a full set of fingerprints for the purpose of obtaining a state and federal criminal records check. This is a cost the legislature determined is offset by the concern for public health and safety. The impact of the change to the CME requirement will be minimal. Licensees are not being required to obtain an additional hour of CME. Rather, they are being required simply to ensure three of the 40 statutorily required CME hours address opioid-related, substance use disorder-related, or addiction-related prescribing.

10. A description of any changes between the proposed rulemaking, including supplemental notices, and the final rulemaking:

To reduce the regulatory burden on applicants, the Board made two non-substantive changes between the proposed and final rulemaking:

• R4-22-202(B)(3): The requirement that an applicant have each entity at which the applicant obtained practice experience submit a verification form to the Board was deleted and a simpler requirement that the applicant submit a list of entities from which practice experience was obtained was added as R4-22-202(A)(4).

• R4-22-202(B)(4): The time limitation for passing an approved licensing examination was deleted.

11. An agency's summary of the public or stakeholder comments made about the rulemaking and the agency response to comments:

The Board received no comments regarding the rulemaking. No one attended the oral proceeding on May 18, 2019.

12. All agencies shall list any other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:

None

13. A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rule:

None

14. Whether the rule was previously made, amended, or repealed as an emergency rule. If so, cite the notice published in the Register as specified in R1-1-409(A). Also, the agency shall state where the text was changed between the emergency and the final rulemaking packages:

No rule in the rulemaking was previously made, amended, or repealed as an emergency rule.

NOTICES OF EMERGENCY RULEMAKING

This section of the Arizona Administrative Register contains Notices of Emergency Rulemaking. The Office of the Secretary of State is the filing office and publisher of these rules. Questions about the interpretation of the emergency rules should be addressed to the agency proposing them. Refer to Item #5 to contact the person charged with the rulemaking.

CHAPTER 2. CORPORATION COMMISSION - FIXED UTILITIES

[R19-129]

PREAMBLE

1. Article, Part, or Section Affected (as applicable) Rulemaking Action
   R14-2-211 Amend

2. Citations to the agency’s statutory rulemaking authority to include the authorizing statute (general) and the implementing statute (specific):
   Authorizing statute: Arizona Constitution Article XV, § 3
   Implementing statute: Arizona Constitution Article XV, § 3

3. The effective date of the rule:
   June 21, 2019
   a. If the agency selected a date earlier than the 60 day effective date as specified in A.R.S. § 41-1032(A), include the earlier date and state the reason or reasons the agency selected the earlier effective date as provided in A.R.S. § 41-1032(A)(1) through (5):
      An immediate effective date is necessary under A.R.S. § 41-1032(A)(1) to preserve the public health and safety. Most notably, the amendments to A.A.C. R14-2-211 prohibit a regulated electric utility from disconnecting residential service to a customer during the period from June 1 through October 15, to provide residential electric customers immediate protection from the health and safety risks that can result from loss of electric service during periods of extreme heat. It is imperative for the rule changes to become effective immediately upon filing with the Secretary of State to ensure that residential customers of regulated electric utilities in Arizona are protected from the health and safety risks that can result from disconnection of electric utility service during the hottest period of the year. If the effective date of the rules were delayed 60 days, residential customers would not be protected from disconnection of regulated electric utility service until August 20, 2019.
   b. If the agency selected a date later than the 60 day effective date as specified in A.R.S. § 41-1032(A), include the later date and state the reason or reasons the agency selected the later effective date as provided in A.R.S. § 41-1032(B):
      Not applicable

6. **An agency’s justification and reason why a rule should be made, amended, repealed or renumbered, to include an explanation about the rulemaking:**

   In Decision No. 77260 (June 20, 2019), the Commission approved the amendments to A.A.C. R14-2-211 included in this emergency rulemaking as an emergency measure to protect the public health, safety, and welfare and to avoid serious prejudice to the public interest. Disconnection of electric service in the hottest months in Arizona, when temperatures over 100 degrees Fahrenheit are common, poses a serious threat to public health, safety, and welfare. The Commission determined that it was imperative to impose a moratorium on disconnections during the hottest period of June 1 through October 15 to ensure that Arizona residents are protected from the health risks resulting from the combination of extreme heat and disconnected utility service. The public interest would be seriously prejudiced, as would the interests of electric utility customers who struggle to pay their bills, if electric utilities continue the practice of disconnecting customers’ electric utility services regardless of the risks inherent during the period from June 1 through October 15. From June 1 through September 30, average high temperatures range from 100 to 106 degrees Fahrenheit in Phoenix, from 95 to 101 degrees Fahrenheit in Tucson, and from 101 to 107 degrees Fahrenheit in Yuma.

   The amendments to A.A.C. R14-2-211 prohibit a regulated electric utility from disconnecting residential service to a customer during the period from June 1 through October 15, to provide residential electric customers immediate protection from the health and safety risks that can result from loss of electric service during periods of extreme heat. The amendments also create a new notification process to ensure customers understand their continuing financial responsibility for energy used during the June 1-through-October 15 prohibition period, prevent the accrual of late fees or interest during the prohibition period, and require a customer to pay the outstanding balance or to enter into a four-month repayment plan after the prohibition period ends. Further, the amendments prohibit a regulated electric utility from disconnecting residential service if a customer has paid at least half of the customer’s outstanding bill balance within the past 25 days or has an outstanding bill balance of $75.00 or less and prohibit a regulated electric utility from disconnecting residential service unless the utility’s office is open to the public on the day of and the day following disconnection. The amendments also require a utility to apply a customer’s deposit to the customer’s delinquent account before disconnecting service and to allow a customer to repay the deposit amount over a period of four months.

7. **A reference to any study relevant to the rule that the agency reviewed and either relied on or did not rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:**

   Not applicable

8. **A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:**

   Not applicable

9. **A summary of the economic, small business, and consumer impact:**

   The parties affected by the proposed emergency rules include:
   
   a. Residential customers of electric service provided by regulated utilities in Arizona;
   b. The general public, as it relates to health and safety;
   c. The Arizona Corporation Commission; and
   d. Regulated utilities providing electric utility service to residential customers in Arizona.

   The costs to the Commission in amending R14-2-211 include potential costs resulting from an increase in Utilities Division review of revisions to regulated electric utility tariffs and Rules and Regulations, along with increased time spent preparing for and participating in rate case hearings. The costs to regulated electric utilities include a potential increase in bad debt associated with an increased number of residential customers unable to pay their bills who otherwise would have their service disconnected. The costs to customers of regulated electric utilities include a potential increase in rates due to bad debt, late payments, and increased utility administrative costs resulting from the rule amendments.

   The immediate benefits to residential customers of regulated electric utilities, to those residing with them, and to public health and safety, cannot be overstated. A residential customer’s ability to retain electric service during the hottest periods in Arizona, even when unable to pay the electric bill in full, provides crucial protection and could mean the difference between life and death. These residential customers will also benefit from having fewer costs associated with disconnection and reconnection of service, such as from not being subject to accrual of late fees and interest during the prohibition period.

10. **Any other matters prescribed by statute that are applicable to the specific agency or to any specific rule or class of rules. When applicable, matters shall include but are not limited to:**

    a. **Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:**

       Not applicable

    b. **Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:**

       Not applicable

    c. **Whether a person submitted an analysis to the agency that compares the rule’s impact of the competitiveness of business in this state to the impact on business in other states:**

       Not applicable

11. **A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rule:**

    Not applicable
12. An agency explanation about the situation justifying the rulemaking as an emergency rule:
Pursuant to A.R.S. § 41-1026(A)(1) and (5), an emergency exists that requires immediate adoption of the proposed emergency rule changes. In this case, adoption of the proposed rule changes is necessary under A.R.S. § 41-1026(A)(1), to protect the public health, safety, and welfare, and under A.R.S. § 41-1026(A)(5), to avoid serious prejudice to the public interest or the interest of the parties concerned.

The amendments to A.A.C. R14-2-211 are necessary to address immediate public health concerns arising from the dangers of extreme heat in many areas of Arizona. Disconnection of electric service in the hottest months in Arizona, when temperatures over 100 degrees Fahrenheit are common, poses a serious threat to public health, safety, and welfare. It is imperative that the Commission impose a moratorium on disconnections during the hottest period of June 1 through October 15 to ensure that Arizona residents are protected from the health risks resulting from the combination of extreme heat and disconnected electric utility service.

13. The date the Attorney General approved the rule:
Because the Commission is relying upon its exclusive and plenary ratemaking authority under Art. 15, § 3 to promulgate the changes to A.A.C. R14-2-211, the Commission is not required to obtain Attorney General certification of this rulemaking under A.R.S. § 41-1044 and is not required to obtain Attorney General approval of its emergency rulemaking under A.R.S. § 41-1026.

The Commission has determined that this emergency rulemaking is wholly authorized by its Constitutional ratemaking authority under Arizona Constitution Article 15, § 3. A.R.S. § 41-1044 does not apply when Commission rules are promulgated wholly pursuant to the Commission’s exclusive and plenary ratemaking authority under Art. 15, § 3 of the Arizona Constitution. (State ex. rel. Corbin v. Arizona Corp. Comm’n, 174 Ariz. 216, 848 P.2d 301 (Ariz. Ct. App. 1992); U.S. West Communications, Inc., v. Arizona Corporation Commission, 197 Ariz. 16, 24, 3 P.3d 936, 944 (Ariz. Ct. App. 1999); Phelps Dodge Corp. v. Arizona Elec. Power Coop., 207 Ariz. 95, 83 P.3d 573 (Ariz. Ct. App. 2004)). Additionally, the Arizona Supreme Court has confirmed that the Commission has power to enact rules that are reasonably necessary for ratemaking and that the Commission must be afforded deference in determining what rules are necessary for effective ratemaking. (Arizona Corp. Comm’n v. Woods, 171 Ariz. 286 (1992)).

The rule changes are being enacted pursuant to the Commission’s Article 15, § 3 Constitutional ratemaking authority. These rule amendments have both ratemaking and health and safety implications. The rule changes are an integral part of the Commission’s constitutional ratemaking because they will directly impact a utility’s revenues and ultimately the rates approved by the Commission to be charged by a utility to its customers. A utility’s bad debt expense will be impacted because it will likely increase and may result in higher rates for customers. The rule changes may result in an increase in the utility’s administrative expenses due to notice and payment plan requirements, which may also impact the rates that the Commission approves. All of these factors will be considered when establishing rates in future rate cases. Also, the rule changes fall within the Commission’s authority under Art. 15, § 3 of the Arizona Constitution to make and enforce reasonable rules, regulations, and orders for the convenience, comfort, and safety, and the preservation of the health of the utility’s employees and patrons of such corporations. The rule changes are directly related to the comfort, safety, and preservation of the health of utility customers because of the risks of disconnecting service during the hot summer months in Arizona.

G. Notwithstanding subsections (A) through (F), a utility shall:
1. Not disconnect residential service to a customer:
   a. From June 1 through October 15;
   b. If the local weather forecast will include weather conditions that the Commission has determined, by order, are especially
dangerous to health;
   c. If the customer has paid at least half of the customer’s outstanding bill balance within the last 25 days; or
d. The customer’s outstanding bill balance is less than or equal to $75.00; and
2. Provide notice of the following, using the customer’s preferred method of communication on file, to a customer whose service
   would be disconnected except for subsection (G)(1):
   a. The customer would have been disconnected if not for subsection (G)(1),
   b. The reason that the utility is not permitted to disconnect service,
   c. The customer’s continued financial responsibility for the charges accruing to the account for energy used,
   d. The potential actions the customer may take to prevent the disconnection of service when subsection (G)(1) no longer
      applies, and
   e. The requirement to enter into a payment plan as specified in subsection (I).

H. A utility shall not disconnect residential service unless the utility’s office is open to the public on the day of disconnection and the day
   following the day of disconnection.

I. A customer whose service disconnection was prevented by subsection (G)(1) shall be required, after the no disconnect period set
   forth in subsection (G)(1) has ended, to either pay the outstanding bill balance or enter into a payment plan with the utility in which
   the customer agrees to pay the outstanding bill balance in installments over a period of four months and to keep the customer’s
   account current. The utility shall not impose any late fees or interest on any past due amounts that would otherwise accrue during the
   period of June 1 through October 15.

J. If a customer is delinquent on the account and has a deposit with the utility, the utility shall use the deposit to pay the delinquent
   amount before disconnecting service, then allow the customer time to repay the deposit in installments over a period of four months.
NOTICES OF RULEMAKING DOCKET OPENING

This section of the Arizona Administrative Register contains Notices of Rulemaking Docket Opening. A docket opening is the first part of the administrative rulemaking process. It is an “announcement” that the agency intends to work on its rules. When an agency opens a rulemaking docket to consider rulemaking, the Administrative Procedure Act (APA) requires the publication of the Notice of Rulemaking Docket Opening.

Under the APA effective January 1, 1995, agencies must submit a Notice of Rulemaking Docket Opening before beginning the formal rulemaking process. Many times an agency may file the Notice of Rulemaking Docket Opening with the Notice of Proposed Rulemaking.

The Office of the Secretary of State is the filing office and publisher of these notices. Questions about the interpretation of this information should be directed to the agency contact person listed in item #4 of this notice.

Hospitals which satisfy the requirements delineated in rule will receive increased payments from the AHCCCS Administration and Contractors for inpatient and outpatient services. The proposed DAP rules represent the AHCCCS Administration’s expanding efforts to enhance accountability of the health care delivery system.

   Section numbers: R9-22-712.61; R9-22-712.75 (As part of this rulemaking, the Administration may add, delete, or modify Sections as necessary.)

2. The subject matter of the proposed rule:
   During the 2018 legislative session, the Arizona legislature enacted A.R.S. § 36-2905.03 which provided that non-contracted behavioral health inpatient facilities (BHIF’s) would be reimbursed at 90% of the contracted rate. This rulemaking is an effort to codify and clarify which facilities this statute applies to.

   AHCCCS intends to encourage contracting between providers and all contractors to best serve AHCCCS members who require inpatient stays, regardless of whether the BHIF is contracted. The amended rule will encourage competition among BHIF’s and Contractors, expand provider networks, promote administrative efficiencies, and authorize AHCCCS to more efficiently and effectively reimburse BHIF’s for inpatient stays. Current federal and state statutory provisions do not prohibit such a change. The proposed rulemaking will also limit AHCCCS Program expenditures to BHIF’s in this State by extending applicability of the 90% reimbursement to all AHCCCS Contractors responsible for payments to non-contracted BHIF’s. As a result, the rulemaking supports payments to BHIF’s that are consistent with efficiency, economy, and quality of care, promoting the fiscal health of the State.
