**From the Publisher**

**ABOUT THIS PUBLICATION**

The paper copy of the *Administrative Register* (A.A.R.) is the official publication for rules and rulemaking activity in the state of Arizona.

Rulemaking is defined in Arizona Revised Statutes known as the Arizona Administrative Procedure Act (APA), A.R.S. Title 41, Chapter 6, Articles 1 through 10.

The Office of the Secretary of State does not interpret or enforce rules published in the Arizona Administrative Register or Code. Questions should be directed to the state agency responsible for the promulgation of the rule as provided in its published filing.

The Register is cited by volume and page number. Volumes are published by calendar year with issues published weekly. Page numbering continues in each weekly issue.

In addition, the Register contains the full text of the Governor’s Executive Orders and Proclamations of general applicability, summaries of Attorney General opinions, notices of rules terminated by the agency, and the Governor’s appointments of state officials and members of state boards and commissions.

**ABOUT RULES**

Rules can be: made (all new text); amended (rules on file, changing text); repealed (removing text); or renumbered (moving rules to a different Section number). Rules activity published in the Register includes: proposed, final, emergency, expedited, and exempt rules as defined in the APA.

Rulemakings initiated under the APA as effective on and after January 1, 1995, include the full text of the rule in the Register. New rules in this publication (whether proposed or made) are denoted with underlining; repealed text is stricken.

**WHERE IS A “CLEAN” COPY OF THE FINAL OR EXEMPT RULE PUBLISHED IN THE REGISTER?**

The Arizona Administrative Code (A.A.C) contains the codified text of rules. The A.A.C. contains rules promulgated and filed by state agencies that have been approved by the Attorney General or the Governor’s Regulatory Review Council. The Code also contains rules exempt from the rulemaking process.

The printed Code is the official publication of a rule in the A.A.C., and is prima facie evidence of the making, amendment, or repeal of that rule as provided by A.R.S. § 41-1012. Paper copies of rules are available by full Chapter or by subscription. The Code is posted online for free.

**LEGAL CITATIONS AND FILING NUMBERS**

On the cover: Each agency is assigned a Chapter in the *Arizona Administrative Code* under a specific Title. Titles represent broad subject areas. The Title number is listed first; with the acronym A.A.C., which stands for the Arizona Administrative Code; following the Chapter number and Agency name, then program name. For example, the Secretary of State has rules on rulemaking in Title 1, Chapter 1 of the *Arizona Administrative Code*. The citation for this chapter is 1 A.A.C. 1, Secretary of State, Rules and Rulemaking

Every document filed in the office is assigned a file number. This number, enclosed in brackets, is located at the top right of the published documents in the Register. The original filed document is available for 10 cents a page.

### Participate in the Process

**Look for the Agency Notice**

Review (inspect) notices published in the *Arizona Administrative Register*. Many agencies maintain stakeholder lists and would be glad to inform you when they proposed changes to rules. Check an agency’s website and its newsletters for news about notices and meetings.

Feel like a change should be made to a rule and an agency has not proposed changes? You can petition an agency to make, amend, or repeal a rule. The agency must respond to the petition. (See A.R.S. § 41-1033)

**Attend a public hearing/meeting**

Attend a public meeting that is being conducted by the agency on a Notice of Proposed Rulemaking. Public meetings may be listed in the Preamble of a Notice of Proposed Rulemaking or they may be published separately in the Register. Be prepared to speak, attend the meeting, and make an oral comment.

An agency may not have a public meeting scheduled on the Notice of Proposed Rulemaking. If not, you may request that the agency schedule a proceeding. This request must be put in writing within 30 days after the published Notice of Proposed Rulemaking.

**Write the agency**

Put your comments in writing to the agency. In order for the agency to consider your comments, the agency must receive them by the close of record. The comment must be received within the 30-day comment timeframe following the *Register* publication of the Notice of Proposed Rulemaking.

You can also submit to the Governor’s Regulatory Review Council written comments that are relevant to the Council’s power to review a given rule (A.R.S. § 41-1052). The Council reviews the rule at the end of the rulemaking process and before the rules are filed with the Secretary of State.

Arizona Revised Statutes (A.R.S.): The statutes are made by the Arizona State Legislature during a legislative session. They are compiled by Legislative Council, with the official publication codified by Thomson West. Citations to statutes include Titles which represent broad subject areas. The Title number is followed by the Section number. For example, A.R.S. § 41-1001 is the definitions Section of Title 41 of the Arizona Administrative Procedures Act. The “§” symbol simply means “section.” Available online at www.azleg.gov.

Chapter: A division in the codification of the Code designating a state agency or, for a large agency, a major program.

Close of Record: The close of the public record for a proposed rulemaking is the date an agency chooses as the last date it will accept public comments, either written or oral.

Docket: A public file for each rulemaking containing materials related to the proceedings of that rulemaking. The docket file is established and maintained by an agency from the time it begins to consider making a rule until the rulemaking is finished. The agency provides public notice of the docket by filing a Notice of Rulemaking Docket Opening with the Office for publication in the Register.

Economic, Small Business, and Consumer Impact Statement (EIS): The EIS identifies the impact of the rule on private and public employment, on small businesses, and on consumers. It includes an analysis of the probable costs and benefits of the rule. An agency includes a brief summary of the EIS in its preamble. The EIS is not published in the Register but is available from the agency promulgating the rule. The EIS is also filed with the rulemaking package.

Governor's Regulatory Review (G.R.R.C.): Reviews and approves rules to ensure that they are necessary and to avoid unnecessary duplication and adverse impact on the public. G.R.R.C. also assesses whether the rules are clear, concise, understandable, legal, consistent with legislative intent, and whether the benefits of a rule outweigh the cost.

Incorporated by Reference: An agency may incorporate by reference standards or other publications. These standards are available from the state agency with references on where to order the standard or review it online.

Federal Register (FR): The Federal Register is a legal newspaper published every business day by the National Archives and Records Administration (NARA). It contains federal agency regulations; proposed rules and notices; and executive orders, proclamations, and other presidential documents.

Session Laws or “Laws”: When an agency references a law that has not yet been codified into the Arizona Revised Statutes, use the word “Laws” is followed by the year the law was passed by the Legislature, followed by the Chapter number using the abbreviation “Ch.”, and the specific Section number using the Section symbol (§). For example, Laws 1995, Ch. 6, § 2. Session laws are available at www.azleg.gov.

United States Code (U.S.C.): The Code is a consolidation and codification by subject matter of the general and permanent laws of the United States. The Code does not include regulations issued by executive branch agencies, decisions of the federal courts, treaties, or laws enacted by state or local governments.

By prescribing measures necessary to ensure that Arizona students receive hearing screening in 9 A.A.C. 13, Article 1, the rules are less burdensome than current rules; provide greater benefits to students, parents, schools, hearing screening trainers and screeners, and the Department; and have no public impact on public health and safety and do not affect public involvement or public participation process.

6. An agency's justification and reason why a rule should be made, amended, repealed or renumbered, to include an explanation about the rulemaking:

Arizona Revised Statutes (A.R.S.) § 36-899.01 requires a program of hearing evaluation services to be established by the Arizona Department of Health Services (Department) and hearing evaluation services administered to children attending school. The Department in Arizona Administrative Code (A.A.C.) Title 9, Chapter 13, Article 1 established rules for the hearing screening program and school children hearing screenings to detection hearing loss. In the 2017 Hearing Screening Five-year-review Report (Report), the Department reported receiving written criticisms, identified changes that would improve the rules; and in the purposed course of action, planned to amend the rules in Article 1. To implement the planned purposed course of actions, the Department requested an exception to the rulemaking moratorium established by Executive Order 2017-02. On July 18, 2017, the Governor approved the Department's request for exception to the rulemaking moratorium to amend the hearing screening rules. The Department has amended 9 A.A.C. 13, Article 1 rules through regular rulemaking and anticipates submitting a Notice of Final Rulemaking to the Governor's Regulatory Review Council by July 2019. The changes to the rules include reducing the regulatory burden by simplifying requirements, removing obsolete requirements; updating standards for hearing screening and equipment to make consistent with national standards and best practices; and clarifying screener qualifications and frequency of hearing screening for students to ensure that Arizona students are not at risk. The new rules will also conform to rulemaking format and style requirements of the Governor’s Regulatory Review council and the Office of the Secretary of State.

7. A reference to any study relevant to the rule that the agency reviewed and proposes either to rely on or not to rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and supporting material:

The Department did not review or rely on any study for this rulemaking.

8. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:

Not applicable

9. A summary of the economic, small business, and consumer impact:

The Department has identified persons directly affected by the rules to be the Department; schools; students and parents of students; early childhood education centers, individuals who wish to be a hearing screening screener and screeners; individuals who wish to be a hearing screening trainer and trainers; specialists; and the public. Annual cost and benefit changes are designated as minimal when $1,000 or less, moderate when between $1,000 and $10,000, and substantial when $10,000 or more in additional costs or revenues. Costs are listed as significant when meaningful or important, but not readily subject to quantification. No new FTEs will be required due to this rulemaking. In this rulemaking, the Department changed the rules in R9-13-101 through R9-13-108 to add new definitions; update outdated screening requirements, screener qualifications, terms and definitions; make hearing screening criteria and requirements consistent with current national standards and best practices; and simplify hearing screening population, notifications, records and reporting, and equipment standards.

Additionally, and as indicated in the 2017 Report, the Department’s cooperative agreement with the University of Arizona (UofA) terminated on December 31, 2015. Through the cooperative agreement, the UofA provided hearing screening training and certification to individuals interested in becoming a hearing screening trainer or master trainer. The UofA also provided renewal hearing screening courses to certified hearing screening trainers. With the UofA no longer providing hearing screening trainers, the Department established six new Sections that include standards and regulations for trainer eligibility; instruction, examination, observation and certificate of completion for individuals who wish to be a hearing screening trainer; and renewal requirements, including continuing education, for trainers who wish to renew their certificate of completion.

Updating the rules requires Department’s resources to amend current rules in R9-13-101 through R9-13-108 and to draft new rules in Sections R9-13-110 through R9-13-115. The Department expects to incur a moderate cost to draft and promulgate the new rules, but believes the benefit of having new rules over time will exceed any cost incurred. The Department also expects to incur minimal-to-moderate costs to update the database to include collecting information about the type of audiological equipment used to conduct a hearing screening; and costs are also expected for administrative support used to update and maintain the hearing screening website, forms, and other related resources and documents. The Department estimates it may receive a significant benefit for schools, screeners, and trainers being able to access updated hearing screenings information through Department’s electronic sources. The Department anticipates that it may incur a significant cost for Department personnel and resources used to provide
training to individuals who wish to become a hearing-screening trainer or who wish to renew an existing trainer certificate of completion. Lastly, the Department believes it will receive a significant benefit for having rules that are more effective and no longer having obsolete requirements and antiquated language and definitions.

Current rules require a school administrator to ensure that a school provides hearing screening for students enrolled in the school, as well as specify how, when, and by whom hearing screening is required to be performed. In the new rules, the Department updated and clarified many requirements in R9-13-101 through R9-13-108. The Department clarified the hearing screening population and added a requirement for students who repeat a grade to receive a hearing screening to ensure that students who repeat a grade do not have a hearing loss. The Department estimates adding a requirement to screen students who repeat a grade may cause a school to incur a minimal cost for providing additional screenings. However, schools should receive a significant benefit for identifying students who were not previously identified and who are provided early intervention services; reasoning that students whose hearing need are met will be better students and less likely to fall behind.

In R9-13-104, the new rules include changing the word “days” to “school days;” adding a requirement for administrators to ensure students who do not receive an initial hearing screening, when expected, are re-scheduled for an initial hearing screening; and requirements for students that did not pass the initial hearing screening were changed to clarify when the second hearing screening should occur and what audiological equipment should be used. The Department anticipates that having to re-schedule students who did not receive an initial hearing screening could cause school to incur a cost; the cost is expected to be at most minimal, since the number of students re-scheduled is small. The Department believes the change to use “school days” rather than “days” will provide schools with a significant benefit for having more time to provide hearing screenings. The Department estimates that “30 school days” is equivalent to “62 days.”

Also, changes to rules in R9-13-105 clarify school notifications provided to parent and removes requirements for schools to provide parents a referral for a student who does not pass a hearing screening. The Department anticipates that these changes may provide a minimal benefit to a school. The new rules also provide flexibility to a school as to how a notification occurs by defining “notification” to mean a method used to inform or announce information on paper, electronic, photographic, or other permanent form. The Department believes many schools provide notification of hearing screenings to parent using all available resources. The Department anticipates that adding this requirement may cause schools to receive a significant benefit for not having to provide notifications to parent using a source that would otherwise cause schools to incur additional costs to provide. Overall, the Department believes removing obsolete requirements, adding new requirements, and updating antiquated language improves the effectiveness of the hearing screening rules and provides significant benefits to all schools that are providing hearing screenings to students.

To amended screener qualification rules, the Department added requirements specifying individuals who may become a screener (individuals); simplified classroom instruction and reduce overall time period to complete screener training; and added a requirement for individuals to demonstrate competency using audiological equipment. The new rules also changed the renewal time period from five years to four years, simplified renewal requirements for screeners who wish to renew screener certificate of completion (screeners) and added continuing education (CEs) units to allow screeners to complete two hours of training on-line rather than in a classroom. In new R9-13-103, requirements for a screener to determine whether a student is physically or behaviorally limited in the ability to respond to perceived sounds, and if verified, immediately report to an administrator what the screener observed that prevented the screener from performing a hearing screening on a student were added. The Department believes individuals and screeners will not incur additional costs due to the rules. The Department expects that if additional costs do occur for individuals and screeners, the additional cost will be related to trainers increasing fees for providing hearing screening trainings. The Department expects individuals and screeners will receive a significant benefit for having rules that simplify the initial and renewal process and no longer contain obsolete requirements and antiquated language. The new rules are more effective, clearer, and understandable.

The Department added six new Sections containing requirements for training individuals who wish to be a trainer (individuals) and trainers who wish to renew trainer certificate of completion (trainers). The new rules include requirements for trainer eligibility; request for certificate; trainer instruction, examination, and observation; renewal of certificate and continuing education; and request to change a trainer’s personal information. The Department expects that the new rules regarding initial and renewal requirements for obtaining a trainer certificate of completion may cause individuals and trainers to incur a minimal cost for time spent completing the trainings. However, since the new rules do not require individuals to pay for training, the Department believes individuals completing training and obtaining a trainer certificate of completion will receive a significant benefit. Additionally, once a trainer, a trainer will receive a significant benefit for monies collected for provide training to individuals who wish to be a screener. The Department believes the same is true for trainers, who assist and provide training to screeners renewing a screener certificate of completion. The Department anticipates that individuals and trainers will receive a significant benefit for having rules that are consistent with current national standards and best practices and are effective, clear, and understandable.

The Department does not anticipate the rules will be burdensome for specialist. The Department estimates that overall specialist will receive a minimal-to-moderate benefit from school administrators providing notifications to parents that their student to receives an audiological evaluation performed by a specialist. For Arizona’s students and parents, the new rules clarify and update criteria for hearing screenings, qualifications of screeners, equipment standards, and notification of parents that may provide a significant benefit by improving the detection of hearing loss and providing early intervention services sooner. The new requirements in R9-13-105 clarify that parents’ are notified of hearing screening results, rather than receiving a referral; and if a student does not receive a hearing screening due to extreme physical or behavioral limitations in the student’s ability to adequately respond to hearing screening, the student’s parents are to be informed immediately to ensure the student does not suffer from prolonged deterioration related to the physical or behavioral limit identified by the screener. The Department anticipates that the changes will provide a significant benefit to students and parents of students. The Department has determined that the benefits related to hearing screenings for students identified in the new rules outweighs any potential costs associated with this rulemaking.
10. **A description of any changes between the proposed rulemaking, including supplemental notices, and the final rulemaking:**

The Department did not make any changes between the proposed rulemaking and the final rulemaking.

11. **Agency's summary of the public or stakeholder comments or objections made about the rulemaking and the agency response to the comments:**

During the formal 30-day public comment period, the Department received questions and comments from District Audiologist, Tempe Elementary School District #3. In summary, the commenter (1) asked when the rules would become effective; (2) asked for clarification regarding requirement in R9-13-115(C) that requires a screener who is trained in both pure tone audiometry and OAE to renew current certificate of completion within 30 days prior to the expiration date of the certificate; and (3) asked whether the Hearing Screening Program will provide a revised curriculum for trainers to use. The Department’s response to (1) explained the final rulemaking approval process and provided the commenter with an expected effective date of July 3, 2019. The Department’s response to (2) clarified that the requirement in R9-13-115(C) only applies to screeners who have a certificate of completion that lists completion of “both” pure tone screening and OAE screening on that same certificate. The Department’s response to (3) affirmed that the Hearing Screening Program will provide a revised curriculum for trainers to use.

12. **All agencies shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:**

There are no other matters prescribed by statutes applicable specifically to the Department or this specific rulemaking.

   a. **Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:**

The certificate of completion issued to individuals is a general permit consistent with A.R.S. § 41-1037. A certificate of completion is issued to individuals to conduct training/services that are substantially similar in nature and is not limited to providing the training/services in any one location.

   b. **Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:**

Not applicable

   c. **Whether a person submitted an analysis to the agency that compares the rule's impact of the competitiveness of business in this state to the impact on business in other states:**

No business competitiveness analysis was received by the Department.

13. **Incorporated by reference and their location in the rules:**

Not applicable

14. **Whether the rule was previously made, amended, or repealed as an emergency rules. If so, cite the notice published in the Register as specified in R1-1-409(A). Also, the agency shall state where the text was changed between the emergency and the final rulemaking packages:**

The rule was not previously made as an emergency rule.

6. An agency’s justification and reason why a rule should be made, amended, repealed or renumbered, to include an explanation about the rulemaking:
   The Administration is in the process of requesting a waiver from CMS from implementing the federal prior quarter coverage eligibility requirement specified in 42 CFR 435.915. Therefore, AHCCCS is requesting authorization to initiate the process of repealing and amending rules regarding prior quarter coverage so that the repeal can be implemented expeditiously upon federal approval. CMS has recently approved similar prior quarter coverage waiver requests submitted by several other State Medicaid Agencies. Failure to amend and repeal AHCCCS prior quarter coverage to conform to an approved waiver will impair the Agency’s ability to further the objectives of the Medicaid Act and will also result in continued expenditures by AHCCCS for the substantial administrative and operational costs associated with implementation of the prior quarter coverage eligibility process for the low percentage of AHCCCS members who qualify for prior quarter coverage eligibility.
   More specifically, 42 CFR 435.915 requires the Administration to provide Prior Quarter (PQ) eligibility for persons who qualify for Title XIX eligibility in any one of the three previous months prior to application. While A.R.S. § 36-2903(A) provides that the system’s reimbursement responsibility is prospective from the date of the eligibility determination, AHCCCS has implemented prior quarter coverage to ensure federal financial participation for Arizona’s Medicaid Program. Although AHCCCS had previously obtained federal approval waiving compliance from prior quarter coverage eligibility, as of January 1, 2014, AHCCCS was required by CMS to implement prior quarter eligibility. However, the Administration is seeking a new waiver from CMS so that the Administration is not required to provide Title XIX eligibility for any of the three previous months prior to the month of application.
   Repealing quarter coverage promotes the objectives of title XIX by encouraging beneficiaries to obtain and maintain health coverage, even when healthy. Incentivizing members to retain health care coverage will increase continuity of care by reducing gaps in coverage for Medicaid beneficiaries who subsequently lose coverage or who sign up for Medicaid only when sick. Additionally, AHCCCS is requesting an exemption from the waiver for children under age 19, individuals who are pregnant and those in the 60-day post-partum period beginning with the last day of pregnancy. Because the prior quarter coverage eligibility process is resource-intensive, repealing prior quarter coverage eligibility will allow the Agency to utilize resources more effectively and efficiently.
7. A reference to any study relevant to the rule that the agency reviewed and either relied on or did not rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:

A study was not referenced or relied upon when revising these regulations.

8. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:

The rulemaking will not diminish a previous grant of authority of a political subdivision.

9. A summary of the economic, small business, and consumer impact:

In fiscal year 2017, AHCCCS reimbursed providers for member expenses that met the qualification of prior quarter coverage to the cost of $21,347,700. A large portion of those funds are received from the federal government as federal financial participation. If the rulemaking changes are made, the savings would be beneficial to the state as well as other political subdivisions that contribute to these funds.

10. A description of any changes between the proposed rulemaking, to include supplemental notices, and the final rulemaking:

There were no changes between the proposed and final rulemaking.

11. An agency’s summary of the public or stakeholder comments made about the rulemaking and the agency response to the comments:

<td>Ellen Sue Katz 03/15/18</td>
<td>Dear Office of Administrative Legal Services: The Arizona Center for Disability Law (“ACDL”), Arizona Center for Law in the Public Interest (“Center”) and William E. Morris Institute for Justice (“Institute”) submit these comments to the Arizona Health Care Cost Containment System (“AHCCCS”) rulemaking to eliminate prior quarter coverage as required by 42 C.F.R. § 435.915 from the state Medicaid program, the Arizona Long Term Care System (“ALTCS”) and the Medicare Cost Sharing Program. The ACDL is the protection and advocacy program in Arizona and works on issues concerning access to health care for persons with disabilities. The, Center is a public interest law firm that has a major focus on access to health care issues. The Institute is a non-profit program that advocates on behalf of low income Arizonans. As part of our work, we focus on public benefit programs, such as Medicaid. The ACDL, Center and Institute strongly supported Arizona’s decision to restore Medicaid services to the Proposition 204 adults and to expand Medicaid to all persons with incomes up to 138% of the federal poverty level, with income disregard of 5%. Arizona’s restoration and expansion have been highly successful. Approximately 1.9 million persons are on AHCCCS as of January 2018, <a href="http://www.azahcccs.gov/Resources/Downloads/PopulationStatistics/2018/Jan/AHCCCS_Populations_by_Category.pdf">www.azahcccs.gov/Resources/Downloads/PopulationStatistics/2018/Jan/AHCCCS_Populations_by_Category.pdf</a>. Of this number, 313,000 are the Proposition 204 population (0-100% of federal poverty level) and 80,300 are the adult expansion (100-133% of the federal poverty level). AHCCCS’ rulemaking proposes to eliminate prior quarter coverage required by 42 U.S.C. § 1396a(a)(34) and 42 C.F.R. § 435.915. Prior quarter coverage provides applicants for medical coverage with eligibility starting the date of application and going back up to three, months as long as the person was eligible for coverage. The agency’s justification for the proposed rulemaking is that it has requested a waiver of this requirement from the federal government pursuant to 42 U.S.C. § 1315(a), and on the assumption that if the waiver is granted, AHCCCS wants to implement the change without any delay. AHCCCS’ sole reason for the rulemaking is to save money. In fiscal year 2017, AHCCCS states it reimbursed medical providers $21,347,700 for prior quarter coverage. Of this amount only 9% ($1,983,800) came from the state funds because of the high reimbursement rate provided by the federal government. AHCCCS proposes to repeal Prior Quarter Eligibility from the state Medicaid program in R9-22-313 and R9-22-191 O (Freedom to Work) and amend by deleting the requirement or a reference to the requirement from R9-22-202 (F)(4), R9-22-703(H), R22-1202(D)(i) and R9-22-1501(F). For the ALTCS program, AHCCCS proposes to amend R9-28-401.00(D)(i). Finally, for the Medicare Cost Sharing Program, AHCCCS proposes to amend R9-29-218(C). For the reasons below, the ACDL, Center and the Institute request that the proposed rulemaking not be approved.</td>
<td>AHCCCS thanks Ms. Katz for her comments and her ongoing involvement with AHCCCS’ member populations. AHCCCS has requested a waiver to make changes to its Title XIX program. The purpose of the waiver from prior quarter coverage, and the corresponding repeal of the prior quarter coverage rules, are to further the objectives of the Medicaid Act. Although, the approval of the prior quarter coverage waiver will result in decreased cost to the State, the request was not submitted exclusively as a cost-saving measure. The waiver amendment is intended to promote the objectives of Title XIX by encouraging beneficiaries to obtain and maintain health coverage, even when healthy. The Administration believes this will improve the continuity of care by reducing gaps in coverage when beneficiaries previously would transition often on and off Medicaid or sign up for Medicaid only when sick. Specifically, for those who are aged, blind or disabled, or who may need long-term services and supports through Medicaid, this waiver will encourage beneficiaries to apply for Medicaid when they believe they meet the criteria for eligibility to ensure primary or secondary coverage through Medicaid to receive these services when the need arises. This waiver amendment will improve the alignment between Medicaid and Medicare if they meet the criteria for eligibility. We urge AHCCCS to revisit the proposed waiver to ensure it aligns with the objectives of Title XIX and accounts for the impacts of Medicaid financing. In addition, we note that it is also important for AHCCCS to consider the impacts on hospitals and providers of this rulemaking. The rulemaking will result in a reduction of the state’s payment for inpatient services. As a result, providers of inpatient services may be incentivized to reduce the number of patients admitted to the hospital. This would have a negative impact on the delivery of care and would result in increased health care costs for the state. AHCCCS should consider alternative approaches to achieve its goals.</td>

just as true now as it was 45 years ago. A person in need of health care cannot be expected to make instantaneous applications for Medicaid coverage. She may be hospitalized after an accident or unforeseen medical emergency. She may also be unfamiliar with Medicaid, or unsure about when her declining financial resources might fall within the Medicaid eligibility threshold. The three-month retroactivity window is a rational and humane response to these concerns. Retroactive eligibility is only available to persons who meet Medicaid eligibility standards for the month[s] in question.

The same arguments apply to the AL TCS and Medicare Cost Sharing programs. Because all the affected persons are low-income and Medicaid eligible, elimination of the prior quarter coverage will simply shift the cost of care to medical facilities that with reduced funding for uncompensated care, may not be able to obtain reimbursement. With the expansion of Medicaid coverage to more persons, the Affordable Care Act ("ACA") intended to reduce the number of persons who were uninsured. Correspondingly, the ACA also reduced the Disproportionate Share Hospital Program ("DSH") that provided additional funds to hospitals for uncompensated care under Medicaid and Medicare. See "Q and A: Disproportionate Share Hospital Payments and the Medicaid Expansion." [Citation omitted] This proposed rulemaking conflicts with that intent to provide coverage directly on behalf of the uninsured and, instead, will result in more medical facilities providing uncompensated care with no available federal funds to cover their costs.

Finally, this proposal is very short-sighted. While in one year, the state may save $1,983,800, it will forgo approximately 20 million dollars in federal payments that could provide medical care for persons all over the state. To spend one dollar and get nine dollars back is a great return on the use of state funds in general and in this case the funds go to provide much needed medical care for our most vulnerable Arizonans. As these numbers show, prior quarter coverage is truly a win-win situation.

II. AHCCCS’ Request for a Waiver under 42 U.S.C. § 1315 Must Promote the Objectives of the Medicaid Act and Test Experimental Goals

AHCCCS predicates its proposed rulemaking on the waiver request it submitted to the federal government that it be allowed to not provide prior quarter coverage. A waiver request must meet very specific criteria. The Social Security Act grants the Secretary of the United States Department of Health and Human Services limited authority to waive the requirements of the Medicaid Act. The Social Security Act allows the Secretary to grant a "[w]aiver of State plan requirements" in 42 U.S.C. § 1396a in the case of an "experimental, pilot, or demonstration project." 42 U.S.C. § 1315(a) ("section 1315"). The Secretary may only approve a project which is "likely to assist in promoting the objectives" of the Title XIX and may only "waive compliance with any of the requirements [of the act] ... to the extent and for the period necessary" for the state to carry out the project. Id. AHCCCS’ waiver amendment requests would impede rather than promote the objectives of the Medicaid program by creating unnecessary barriers to enrollment and access to care.

Legislative history confirms that Congress meant for section 1315 projects to test experimental ideas. According to Congress, section 1315 was intended to allow only for “experimental projects designed to test out new ideas and ways of dealing with the problems of public welfare recipients” that are “to be selectively approved,” “designed to improve the techniques of administering assistance and related rehabilitative services,” and “usually cannot be statewide in operation.” S. Rep. No. 87-1589, at 19-20, as reprinted in 1962 U.S.C.C.A.N. 1943, 1961-62, 1962 WL 4692 (1962). See also H. R. Rep. No. 3982, pt. 2 at 307-08 (1981) (“States can apply to HHS for a waiver of existing law in order to test a unique approach to the delivery and financing of services to Medicaid beneficiaries.”).

In addition, the Secretary is bound by the Ninth Circuit’s precedent for any waiver requests under 42 U.S.C. § 1315. The Ninth Circuit described section 1315’s application to “experimental, pilot or demonstration” projects as follows:

“The statute was not enacted to enable states to save money or to evade federal requirements but to ‘test out new ideas and ways of dealing with the problems of public welfare recipients’ [Citation omitted] . . . A simple benefits cut, which might save money, but has no research or experimental goal, would not satisfy this requirement.” Beno v. Shalala, 30 F.3d 1057, 1069 (9th Cir. 1994).

AHCCCS’ waiver request must meet these requirements. As explained below, AHCCCS’ waiver request fails to establish any demonstration value and instead is a cost saving proposal only.

III. AHCCCS’ Waiver Request Serves No Experimental Purpose, Creates Barriers to Health Care and Will Impede, Not Further, the Objectives of the Medicaid Act

The only reason for the proposed rulemaking is AHCCCS’ pending waiver request. The waiver request does not serve any valid experimental purpose and, moreover, represents bad policy for low-income Arizonans and working Arizonans with disabilities who need coverage. Such a limit on access to Medicaid only creates a barrier to access to care and does not promote the objectives of the Medicaid Act. Moreover, AHCCCS proposes to limit prior quarter coverage solely to save money. AHCCCS concedes this is solely a request to save money. As explained above, a proposal to save money, is not a valid reason for a Section 1315 waiver. See Beno, 30 F.3d at 1069.

The waiver request has no evidentiary or experimental basis and will impede not further access to care and the objectives of the Medicaid Act. Therefore, the proposed rulemaking based on the flawed waiver request should not be approved.
The purpose of this letter is to provide comment on the Notice of Proposed Rule-Making: Prior Quarter Coverage.

As stated in previous correspondence on the proposed Waiver Amendment, prior quarter coverage has proven to be a critical source of reimbursement for hospital systems, who are required to provide care to patients in emergencies, regardless of whether they have healthcare coverage or not. Despite the decreasing rate of uninsured in our communities, we still see uninsured in our emergency departments. Prior quarter coverage, which provides reimbursement for medical bills incurred during months of eligibility in the quarter prior to AHCCCS enrollment, provides a critical opportunity for hospitals to obtain reimbursement for what would otherwise be uncompensated care.

As noted previously, behavior between the Medicaid and commercially insured populations does tend to be aligned in most instances. However, one critical difference is that we do tend to see more “churn” in coverage in the Medicaid population, who are more frequently engaged in part-time and seasonal employment, than in the commercially insured population. For this reason, care for individuals in the Medicaid population will be more inconsistent than it is for those in the commercial market. Prior quarter coverage provides an important “stopgap” in coverage for those Medicaid enrollees who may move in and out of employment throughout the year. The availability of prior quarter coverage assures that eligible expenses incurred during a period of employment when a person may not have access to healthcare coverage will be covered and will not become an incurred medical debt or uncompensated cost to our healthcare delivery system.

Finally, when commenting on the Proposed Waiver Amendment, we made the request that fiscal analysis be conducted on the impact of eliminating prior quarter coverage on our hospital systems in Arizona. While we understand that an analysis was conducted on the impact of this repeal on the entire healthcare industry, this analysis was not specific to hospital systems, who as the safety net providers charged with providing emergency care for the uninsured regardless of coverage, will bear the majority of this impact. We find it concerning that this rule is being promulgated absent a full understanding of what economic impact this policy change will have on this critical network of care.

I sincerely appreciate your consideration and am happy to answer any questions or provide additional information.

AHCCCS thanks Ms. Carusetta for her comments. The waiver amendment is intended to promote the objectives of Title XIX by encouraging beneficiaries to obtain and maintain health coverage, even when healthy. The Administration believes this will improve continuity of care by reducing gaps in coverage when beneficiaries previously would transition often on and off Medicaid or sign up for Medicaid only when sick. Specifically, for those who are aged, blind or disabled, or who may need long-term services and supports through Medicaid, this waiver will encourage beneficiaries to apply for Medicaid when they believe they meet the criteria for eligibility to ensure primary or secondary coverage through Medicaid to receive these services when the need arises. Those beneficiaries who obtain coverage, either through Medicaid or commercial insurance, will then have existing resources available to pay for the medical services they receive, whether emergent or non-emergent.
12. All agencies shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:

a. Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:
   The rule does not require a permit.

b. Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:
   The rules were updated to align with CMS’s requirement that AHCCCS implement prior quarter coverage eligibility rules found at 42 CFR 435.915. This regulation requires the Administration to provide Prior Quarter (PQ) eligibility. However, the Administration is submitting a new waiver amendment whereby AHCCCS would be exempted from the prior quarter coverage eligibility requirement similar to the waivers recently approved by CMS for other States and similar to the waiver previously approved for Arizona. This rulemaking will proceed only if the waiver amendment is approved by CMS.

c. Whether a person submitted an analysis to the agency that compares the rule’s impact of the competitiveness of business in this state to the impact on business in other states:
   No analysis was submitted.

13. A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rule:
   No material is incorporated by reference.

14. Whether the rule was previously made, amended or repealed as an emergency rule. If so, cite the notice published in the Register as specified in R1-1-409(A). Also, the agency shall state where the text was changed between the emergency and the final rulemaking packages:
   The rule was not made, amended or repealed as an emergency rule.

3. The effective date of the rules:
   July 2, 2019
   The rules became effective immediately upon filing with the Office of the Secretary of State. The Commission has selected this date to prevent the rules from being inconsistent with State law, namely the amendments to A.R.S. §17-363 that took effect January 1, 2019. The need for this effective date was not created by the Commission's delay or inaction.

6. An agency’s justification and reason why the rule should be made, amended, repealed, or renumbered, to include an explanation about the rulemaking:
   During the Second Regular Session of the 53rd Arizona State Legislature, the Legislature amended A.R.S. § 17-363 to require a taxidermist to register with the Department, maintain a register for five years after the date wildlife is received; and file a copy of the register with the Department by January 31 of each year. A.R.S. § 17-363, authorizes the Commission to adopt rules to allow a person to register pursuant to this section. The Commission proposes to amend rules to implement the statutory amendments made to A.R.S. § 17-363 as follows:
   R12-4-102. License, Permit, Stamp, and Tag Fees
   The Commission proposes to amend the rule to replace the term “Taxidermist License” with “Taxidermy Registration” and reduce the associated fee to $100 from $150.
   R12-4-106. Special Licenses Licensing Time-frames
   Under A.R.S. § 41-1073, an agency is required to establish an overall time-frame in which the agency will either grant or deny an authorization that it issues. The Commission proposes to amend the rule to establish a 30-day time-frame (10-day administrative review and 20-day substantive review) for the Taxidermy Registration. This time frame is consistent with other similar authorizations issued by the Department.
   R12-4-204. Taxidermy Registration; Register
   Under A.R.S. § 17-363, “A person shall not engage in the business of a taxidermist for hire until that person registers with the Department.” Under A.R.S. § 17-363, “A person shall not engage in the business of a taxidermist for hire until that person registers with the Department.” The Commission proposes to adopt a rule to establish application and register requirements necessary to
administrer the taxidermy registration program. The Commission proposes to adopt a rule to establish circumstances that will cause the Department to deny a taxidermy registration. Causes for denial include: the applicant fails to meet the requirements established under the new rule, the applicant provides false information during the application process, or the applicant provides false information in the register required under A.R.S. § 17-363(B). The Commission also proposes to adopt a rule to establish that an applicant who is denied a taxidermist registration may appeal the denial to the Commission as prescribed under A.R.S. Title 41, Chapter 6, Article 10.

7. A reference to any study relevant to the rule that the agency reviewed and proposes to either rely on or not rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:
   The agency did not rely on any study in its evaluation of or justification for the rule.

8. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rule will diminish a previous grant of authority of a political subdivision of this state:
   Not applicable.

9. A summary of the economic, small business, and consumer impact:
   The Commission’s intent in proposing the amendments is to ensure compliance with recent legislative amendments, provide better customer service to persons seeking to conduct wildlife related activities in Arizona, and increase efficiency in administering the taxidermy registration.

   Previously, the taxidermy license was administered under the statutory authority provided under A.R.S. § 17-363; which required any person who engages in taxidermy to obtain a license from the Department and keep a register of the names and addresses of persons who furnish raw and unmounted specimens, the taxidermists' tag or license number, and the date and number of each species of wildlife received. On request, the taxidermist was required to provide the register information to any authorized representative of the Department and the U.S. Fish and Wildlife Services upon request. Additionally, the taxidermist was required to file quarterly reports with the Department that included the taxidermist's register information.

   The rulemaking simply implements the statute to require a taxidermist to register with the Department, maintain a register for five years after the date wildlife is received; and file a copy of the register with the Department by January 31 of each year.

   In addition, the Commission proposes to reduce the associated fee to $100 (from $150). The Department believes the rule imposes the least burdens and costs on persons regulated by the rule.

10. A description of any changes between the proposed rulemaking, to include supplemental notices, and the final rulemaking:
    Minor grammatical and formatting corrections were made at the request of Governor’s Regulatory Review Council staff.

11. An agency’s summary of the public or stakeholder comments made about the rulemaking and the agency response to the comments:
    The Notice of Proposed Rulemaking was published in the Arizona Administrative Register on February 8, 2019; the official public comment period began February 8, 2019 and ended on March 8, 2019. The Department also sent correspondence to all currently licensed taxidermists explaining the proposed rulemaking and soliciting comments regarding the proposed changes included in the Notice of Proposed Rulemaking and the Department’s contact information for persons interested in submitting a comment. The Department did not receive any public or stakeholder comments in response to the proposed rulemaking.

12. All agency's shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:
   a. Whether the rule requires a permit, whether a general permit is used, and if not, the reason why a general permit is not used:
      The Taxidermy Registration described in R12-4-204 falls within the definition of “general permit” as defined under A.R.S. § 41-1001(11). The rule complies with A.R.S. § 41-1037.

      No other rules included in this rulemaking package require the issuance of a regulatory permit, license, or agency authorization.

   b. Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law, and if so, citation to the statutory authority to exceed the requirements of federal law:
      Federal law is not directly applicable to the subject of the rule. The rule is based on state law.

   c. Whether a person submitted an analysis to the agency that compares the rule’s impact of the competitiveness of business in this state to the impact on business in other states:
      The agency has not received an analysis that compares the rule’s impact of competitiveness of business in this state to the impact on business in other states.

13. A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rules:
    Not applicable

14. Whether the rule previously made, amended, or repealed as an emergency rule. If so, cite the notice published in the Register as specified in R1-4-409(A). Also, the agency shall state where the text was changed between the emergency and the final rulemaking packages:
    The rule was not previously made, amended, or repealed as an emergency rule.

2. Deny a license to an applicant when the Department determines the applicant does not meet all of the criteria required by statute and the governing rule.

   a. The Department may deny a license at any point during the review process if the information provided by the applicant demonstrates the applicant is not eligible for the license as prescribed under statute or the governing rule.
b. The Department shall issue a written denial notice when it is determined that an applicant does not meet all of the criteria for the license.

c. The written denial notice shall provide:
i. The Department's justification for the denial, and
ii. When a hearing or appeal is authorized, an explanation of the applicant's right to a hearing or appeal.

C. During the overall time-frame:

2. The substantive review time-frame shall not be extended by more than 25% of the overall time-frame.

D. An applicant may withdraw an application at any time.

E. The administrative review time-frame shall begin upon the Department's receipt of an application.
1. During the administrative review time-frame, the Department may return to the applicant, without denial, an application that is missing any of the information required under R12-4-409 and the rule governing the specific license. The Department shall issue to the applicant a written notice that identifies all missing information and indicates the applicant has 30 days in which to return the missing information.
2. The administrative review time-frame and the overall time-frame listed for the applicable license under this Section are suspended from the date on the notice until the date the Department receives the missing information.
3. If an applicant fails to respond to a request for missing information within 30 days, the Department shall consider the application withdrawn.

F. The substantive review time-frame shall begin when the Department determines an application is complete.
1. During the substantive review time-frame, the Department may make one comprehensive written request for additional information. The written notice shall:
a. Identify the additional information, and
b. Indicate the applicant has 30 days in which to submit the additional information.

c. The Department and the applicant may mutually agree in writing to allow the agency to submit supplemental requests for additional information.
d. If an applicant fails to respond to a request for additional information within 30 days, the Department shall consider the application withdrawn.
2. The substantive review time-frame and the overall time-frame listed for the applicable license under this Section are suspended from the date on the request until the date the Department receives the additional information.

G. If the last day of the time-frame period falls on a Saturday, Sunday, or an official State holiday, the Department shall consider the next business day the time-frame period's last day. All periods listed are:
1. Calendar days, and
2. Maximum time periods.

H. The Department may grant or deny a license in less time than specified below.

6. An agency’s justification and reason why the rule should be made, amended, repealed, or renumbered, to include an explanation about the rulemaking:
   
   Off-highway vehicle (OHV) recreation is one of the most popular recreational activities taking place on public and state lands in Arizona. The Arizona Off-Highway Vehicle Program was created by the Legislature in 1991 to manage off-highway vehicle (OHV) use in Arizona. The legislation defined the parameters for off-highway vehicle use in Arizona and created an OHV Recreation Fund to be used to meet the needs of OHV recreation.

   The use of OHVs has increased 347% since 1998; and has outpaced the existing funding to manage that growth, protect wildlife habitat, and help maintain recreational access. During the Second Regular Session of the 48th Arizona State Legislature, the Legislature amended A.R.S. Title 28 to regulate the use of off-highway vehicles more closely and authorize the Arizona Department of Transportation to administer an off-highway vehicle user indicia program. The goal of these regulations is to provide better OHV management and protection of natural resources while maintaining access. Funds generated from this program will be used to help ensure sustainable opportunities by bolstering grant programs that pay for maintenance, signage, habitat mitigation, education and enforcement.

   The Commission proposes to pursue rulemaking to specify the minimum standards for an educational course of instruction in off-highway safety and environmental ethics to be approved; establish a fee that is reasonable and commensurate for the educational course; and adopt the current sound measurement standard of the society of automotive engineers for all-terrain vehicles and motorcycles and the current sound measurement standard of the international organization for standardization for all other OHVs. In addition, during the Second Regular Session of the 53rd Arizona State Legislature, the Legislature amended A.R.S. Titles 28 and 17 to allow the Arizona Game and Fish Commission to administer the nonresident off-highway user indicia program. The Commission proposes to pursue rulemaking to establish the application procedure, indicia placement, and user fee associated with
the nonresident off-highway vehicle user indicia prescribed under A.R.S. § 28-1177.

7. A reference to any study relevant to the rule that the agency reviewed and proposes to either rely on or not rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:
The agency did not rely on any study in its evaluation of or justification for the rule.

8. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rule will diminish a previous grant of authority of a political subdivision of this state:
Not applicable

9. A summary of the economic, small business, and consumer impact:
The Commission anticipates the proposed rulemaking will have a positive economic impact on the provider of an educational course of instruction that is approved by the Department. A course provider is not required to have the course approved by the Department. However, there is an economic advantage to obtaining the Department's approval because under A.R.S. § 28-1174(G) a judge may require a person who violates the statute to take an approved course. The provider of an approved course may also charge any fee up to the course fee established in this rulemaking. In determining the maximum fee that the provider of an approved educational course of instruction in off-highway vehicle safety and environmental ethics may charge, the Director reviewed fees currently charged for related courses. For example: the Motorcycle Safety Foundation currently charges $185 for basic rider training; the ATV Safety Institute charges $55 to $150 for ATV Rider training depending on the student's age. The Director set the maximum fee at an amount believed to be consistent with fees currently charged, allowing for market competition among providers and enabling providers to increase the fee over time. Because of the course fee, the rulemaking may have economic impact on those who participate in an approved course, either voluntarily or under court order. However, the Department offers a low-cost online course to the public through Kalkomey Enterprises, LLC; and has partnered with the Recreational Off-highway Vehicle Association and the ATV Institute to offer no-fee online courses.
The Commission anticipates a minimal economic impact to qualified persons and business entities seeking to operate OHVs, as defined under A.R.S. § 28-1177. Depending on the owner's declared use, costs may include additional administrative expenses for preparing the prescribed application and a nominal user fee for each ATV (all-terrain vehicle) or OHV registered with the Department under A.R.S. § 28-1179.

10. A description of any changes between the proposed rulemaking, to include supplemental notices, and the final rulemaking:
R12-4-1002(A) was amended to include the title of the Department's OHV Law Enforcement Program Manager to further clarify where and to whom a person may submit a request for course approval.

In addition, minor grammatical and style corrections were made at the request of the Governor's Regulatory Review Council staff.

11. An agency's summary of the public or stakeholder comments made about the rulemaking and the agency response to the comments:
The Notice of Proposed Rulemaking was published in the Arizona Administrative Register on January 18, 2019; the official public comment period began January 18, 2019 and ended on February 18, 2019. The Department also issued a press release regarding the proposed changes included in the Notice of Proposed Rulemaking and the Department's contact information for persons interested in submitting a comment. The Department did not receive any public or stakeholder comments in response to the proposed rulemaking.

12. All agency's shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:
   a. Whether the rule requires a permit, whether a general permit is used, and if not, the reason why a general permit is not used:
The authorization for an approved course described in R12-4-1002 falls within the definition of “general permit” as defined under A.R.S. § 41-1001(11). The rule complies with A.R.S. § 41-1037.
The Nonresident Off-highway Vehicle User Indicia described in R12-4-1005 falls within the definition of “general permit” as defined under A.R.S. § 41-1001(11). The rule complies with A.R.S. § 41-1037.
No other rules included in this rulemaking package require the issuance of a regulatory permit, license, or agency authorization.
   b. Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law, and if so, citation to the statutory authority to exceed the requirements of federal law:
Federal law is not directly applicable to the subject of the rule. The rule is based on state law.
   c. Whether a person submitted an analysis to the agency that compares the rule’s impact of the competitiveness of business in this state to the impact on business in other states:
The agency has not received an analysis that compares the rule’s impact of competitiveness of business in this state to the impact on business in other states.

13. A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rules:
Society of Automotive Engineers, J1287, Measurement of Exhaust Sound Pressure Levels of Stationary Motorcycles, April 2017, available from SAE International, 400 Commonwealth Dr., Warrendale, PA 15096 or online at www.sae.org, incorporated under R12-4-1004.

14. Whether the rule previously made, amended, or repealed as an emergency rule. If so, cite the notice published in 
the Register as specified in R1-4-409(A). Also, the agency shall state where the text was changed between the 
emergency and the final rulemaking packages:

The rule was not previously made, amended, or repealed as an emergency rule.

A. A peace officer who has reason to believe that an off-highway vehicle (OHV) is being operated in violation of A.R.S. § 28-1179(A)(3) may direct the operator to submit the OHV to an onsite test to measure the OHV's sound level. In accordance with A.R.S. § 28-1179(A)(3), the sound level of an OHV shall be measured using the following procedures, which are incorporated by reference and are available for inspection at the Arizona Game and Fish Department, 5000 W. Carefree Highway, Phoenix, Arizona 85086:

C. If it is determined that an OHV is being operated in violation of A.R.S. § 28-1179(A)(3), the operator of the OHV shall:
   1. Immediately stop operating the OHV; and
