ABOUT THIS PUBLICATION

The paper copy of the Administrative Register (A.A.R.) is the official publication for rules and rulemaking activity in the state of Arizona.

Rulemaking is defined in Arizona Revised Statutes known as the Arizona Administrative Procedure Act (APA), A.R.S. Title 41, Chapter 6, Articles 1 through 10.

The Office of the Secretary of State does not interpret or enforce rules published in the Arizona Administrative Register or Code. Questions should be directed to the state agency responsible for the promulgation of the rule as provided in its published filing.

The Register is cited by volume and page number. Volumes are published by calendar year with issues published weekly. Page numbering continues in each weekly issue.

In addition, the Register contains the full text of the Governor’s Executive Orders and Proclamations of general applicability, summaries of Attorney General opinions, notices of rules terminated by the agency, and the Governor’s appointments of state officials and members of state boards and commissions.

ABOUT RULES

Rules can be: made (all new text); amended (rules on file, changing text); repealed (removing text); or renumbered (moving rules to a different Section number). Rules activity published in the Register includes: proposed, final, emergency, expedited, and exempt rules as defined in the APA.

Rulemakings initiated under the APA as effective on and after January 1, 1995, include the full text of the rule in the Register. New rules in this publication (whether proposed or made) are denoted with underlining; repealed text is stricken.

WHERE IS A “CLEAN” COPY OF THE FINAL OR EXEMPT RULE PUBLISHED IN THE REGISTER?

The Arizona Administrative Code (A.A.C.) contains the codified text of rules. The A.A.C. contains rules promulgated and filed by state agencies that have been approved by the Attorney General or the Governor’s Regulatory Review Council. The Code also contains rules exempt from the rulemaking process.

The printed Code is the official publication of a rule in the A.A.C., and is prima facie evidence of the making, amendment, or repeal of that rule as provided by A.R.S. § 41-1012. Paper copies of rules are available by full Chapter or by subscription. The Code is posted online for free.

LEGAL CITATIONS AND FILING NUMBERS

On the cover: Each agency is assigned a Chapter in the Arizona Administrative Code under a specific Title. Titles represent broad subject areas. The Title number is listed first; with the acronym A.A.C., which stands for the Arizona Administrative Code; following the Chapter number and Agency name, then program name. For example, the Secretary of State has rules on rulemaking in Title 1, Chapter 1 of the Arizona Administrative Code. The citation for this chapter is 1 A.A.C. 1, Secretary of State, Rules and Rulemaking.

Every document filed in the office is assigned a file number. This number, enclosed in brackets, is located at the top right of the published documents in the Register. The original filed document is available for 10 cents a page.
Participate in the Process

Look for the Agency Notice

Review (inspect) notices published in the Arizona Administrative Register. Many agencies maintain stakeholder lists and would be glad to inform you when they proposed changes to rules. Check an agency’s website and its newsletters for news about notices and meetings.

Feel like a change should be made to a rule and an agency has not proposed changes? You can petition an agency to make, amend, or repeal a rule. The agency must respond to the petition. (See A.R.S. § 41-1033)

Attend a public hearing/meeting

Attend a public meeting that is being conducted by the agency on a Notice of Proposed Rulemaking. Public meetings may be listed in the Preamble of a Notice of Proposed Rulemaking or they may be published separately in the Register. Be prepared to speak, attend the meeting, and make an oral comment.

An agency may not have a public meeting scheduled on the Notice of Proposed Rulemaking. If not, you may request that the agency schedule a proceeding. This request must be put in writing within 30 days after the published Notice of Proposed Rulemaking.

Write the agency

Put your comments in writing to the agency. In order for the agency to consider your comments, the agency must receive them by the close of record. The comment must be received within the 30-day comment timeframe following the Register publication of the Notice of Proposed Rulemaking.

You can also submit to the Governor’s Regulatory Review Council written comments that are relevant to the Council’s power to review a given rule (A.R.S. § 41-1052). The Council reviews the rule at the end of the rulemaking process and before the rules are filed with the Secretary of State.

Arizona Regular Rulemaking Process

START HERE

Agency opens a docket.

Agency files a Notice of Rulemaking Docket Opening; it is published in the Register. Often an agency will file the docket with the proposed rulemaking.

Agency drafts proposed rule and Economic Impact Statement (EIS); informal public review/comment.

Agency files Notice of Proposed Rulemaking. Notice is published in the Register. Notice of meetings may be published in Register or included in Preamble of Proposed Rulemaking.

Agency opens comment period.

Agency decides not to act and closes docket.

The agency may let the docket lapse by not filing a Notice of Proposed Rulemaking within one year.

Agency decides not to proceed and does not file final rule with G.R.R.C. within one year after proposed rule is published. A.R.S. § 41-1021(A)(4).

Agency decides not to proceed and files Notice of Termination of Rulemaking for publication in Register. A.R.S. § 41-1021(A)(2).

Oral proceeding and close of record. Comment period must last at least 30 days after publication of notice. Oral proceeding (hearing) is held no sooner than 30 days after publication of notice of hearing.

Agency decides not to proceed; files Notice of Termination of Rulemaking. May open a new Docket.

Substantial change?

If no change then

Rule must be submitted for review or terminated within 120 days after the close of the record.

A final rulemaking package is submitted to G.R.R.C. or A.G. for review. Contains final preamble, rules, and Economic Impact Statement.

G.R.R.C. has 90 days to review and approve or return the rule package, in whole or in part; A.G. has 60 days.

After approval by G.R.R.C. or A.G., the rule becomes effective 60 days after filing with the Secretary of State (unless otherwise indicated).

Final rule is published in the Register and the quarterly Code Supplement.
Definitions

Administrative Procedure Act (APA): The official publication that includes reference to the specific rulemaking package that contains information about the rulemaking and provides agency justification and regulatory intent.

Close of Record: The close of the public record for a proposed rulemaking is the date an agency chooses as the last date it will accept public comments, either written or oral.

Code of Federal Regulations (CFR): A division in the codification of the Code designating a state agency or, for a large agency, a major program.

Docket: A public file for each rulemaking containing materials related to the proceedings of that rulemaking. The docket file is established and maintained by an agency from the time it begins to consider making a rule until the rulemaking is finished. The agency provides public notice of the docket by filing a Notice of Rulemaking Docket Opening with the Office for publication in the Register.

EIS: Economic, Small Business, and Consumer Impact Statement: The information in the Preamble differs between rulemaking notices used and the stage of the rulemaking.

Governor’s Regulatory Review (G.R.R.C.): Reviews and approves rules to ensure that they are necessary and to avoid unnecessary duplication and adverse impact on the public. G.R.R.C. also assesses whether the rules are clear, concise, understandable, legal, consistent with legislative intent, and whether the benefits of a rule outweigh the cost.

Incorporated by Reference: An agency may incorporate by reference standards or other publications. These standards are available from the state agency with references on where to order the standard or review it online.

Federal Register (FR): The Federal Register is a legal newspaper published every business day by the National Archives and Records Administration (NARA). It contains federal agency regulations; proposed rules and notices; and executive orders, proclamations, and other presidential documents.

Session Laws or “Laws”: When an agency references a law that has not yet been codified into the Arizona Revised Statutes, use the word “Laws” is followed by the year the law was passed by the Legislature, followed by the Chapter number using the abbreviation “Ch.”, and the specific Section number using the Section symbol (§). For example, Laws 1995, Ch. 6, § 2. Session laws are available at www.azleg.gov.

United States Code (U.S.C.): The Code is a consolidation and codification by subject matter of the general and permanent laws of the United States. The Code does not include regulations issued by executive branch agencies, decisions of the federal courts, treaties, or laws enacted by state or local governments.

About Preambles

The Preamble is the part of a rulemaking package that contains information about the rulemaking and provides agency justification and regulatory intent.

It includes reference to the specific statutes authorizing the agency to make the rule, an explanation of the rule, reasons for proposing the rule, and the preliminary Economic Impact Statement.

The information in the Preamble differs between rulemaking notices used and the stage of the rulemaking.
NOTICES OF FINAL RULEMAKING

This section of the Arizona Administrative Register contains Notices of Final Rulemaking. Final rules have been through the regular rulemaking process as defined in the Administrative Procedures Act. These rules were either approved by the Governor’s Regulatory Review Council or the Attorney General’s Office. Certificates of Approval are on file with the Office.

The final published notice includes a preamble and text of the rules as filed by the agency. Economic Impact Statements are not published.

The Office of the Secretary of State is the filing office and publisher of these rules. Questions about the interpretation of the final rules should be addressed to the agency that promulgated them. Refer to Item #5 to contact the person charged with the rulemaking. The codified version of these rules will be published in the Arizona Administrative Code.

2. Citations to the agency’s statutory rulemaking authority to include both the authorizing statute (general) and the implementing statute (specific):

3. The effective date of the rule:
   July 2, 2019

   a. If the agency selected a date earlier than the 60 day effective date as specified in A.R.S. § 41-1032(A), include the earlier date and state the reason or reasons the agency selected the earlier effective date as provided in A.R.S. § 41-1032(A)(f) through (g):
      The Department has selected an immediate effective date for these rules as authorized under A.R.S. § 41-1032(A)(4). In direct support of the Department’s ability to preserve and maintain the public peace, health, and safety, this rulemaking ensures that the Department is able to continue offering all applicants for an Arizona driver license or non-operating identification license an uninterrupted opportunity to request issuance of a travel-compliant driver license or identification license that is federally-recognized as a secure credential and can be accepted by federal authorities as proof of identity for any official purpose defined under 6 CFR 37, which includes accessing a federal facility, boarding a federally-regulated commercial aircraft, or entering a nuclear power plant. On and after October 1, 2020, the credentials referenced in these rules will be the only Arizona credentials that federal authorities can accept as proof of a person’s identity, in lieu of requiring that each person carry a passport or other federally-approved form of identification.
      The Department has determined that these rules provide a significant public benefit, since the rules contain provisions for issuing federally-recognized secure credentials to qualified applicants, no penalty is associated with a violation of the rules, and application to the Department for either of the credentials is completely voluntary. However, Department records indicate that less than 4% of Arizona’s current credential holders have requested a travel-compliant credential, which may be a strong indication that the Department’s Motor Vehicle Division field offices will soon experience a wave of applicants seeking expeditious issuance of the new travel-compliant credentials ahead of the looming deadline imposed by the U.S. Department of Homeland Security (DHS). The Department has already begun an extensive effort to promote early application and issuance of these travel-compliant credentials so that all Arizona driver license and non-operating identification license holders are well-aware of the approaching federal deadline and the benefit of convenience these new credentials can provide.

   b. If the agency selected a date later than the 60 day effective date as specified in A.R.S. § 41-1032(A), include the later date and state the reason or reasons the agency selected the later effective date as provided in A.R.S. § 41-1032(B):
      Not applicable

6. **An agency's justification and reason why a rule should be made, amended, repealed or renumbered, to include an explanation about the rulemaking:**
   The Arizona Department of Transportation engages in this rulemaking to permanently codify rules previously made by exempt rulemaking at 22 A.A.R. 819, April 15, 2016, on initial implementation of Laws 2015, Ch. 294 (HB2609). The exempt rules made by the Department, after first providing public notice and at least thirty days for public comments, allowed the Department to collect a $25 application fee when processing an original, reinstatement, or renewal application for a travel-compliant driver license or an original or renewal application for a travel-compliant identification license. Since A.R.S. § 28-3175 now requires the Department to issue a travel-compliant credential on request, the $25 fee must be reestablished by regular rulemaking as required under A.R.S. § 41-1008.

   Because of the Department’s ability to issue these federally-recognized travel-compliant driver licenses and identification licenses, DHS has deemed that Arizona is in full compliance with the REAL ID Act of 2005, and will therefore continue to accept all current standard-issue Arizona driver licenses and identification licenses at airport security and restricted federal facilities until October 1, 2020, even if the license is marked “Not for Federal Identification.” Effective October 1, 2020, the travel-compliant driver license or identification license is the only Arizona credential that federal authorities will accept as proof of identity for an official purpose defined by DHS under 6 CFR 37, which includes accessing a federal facility, boarding a federally-regulated commercial aircraft, or entering a nuclear power plant. This rulemaking ensures that the Department remains in full compliance with the requirements of federal laws and regulations regarding secure credential issuance. If the Department were unable to continue issuing these credentials, a great number of Arizona residents would risk losing access to all areas secured under the jurisdiction of the federal government beginning October 1, 2020.

   While providing additional clarification on the processes used by applicants who seek a federally-recognized travel-compliant driver license or travel-compliant identification license under R17-4-407, the Department has also used this rulemaking opportunity to preserve and clarify the application process and fee currently in effect for the standard-issue non-operating identification license provided under R17-4-409.

7. **A reference to any study relevant to the rule that the agency reviewed and either relied on or did not rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:**
   The agency did not review or rely on any study for this rulemaking.

8. **A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:**
   Not applicable

9. **A summary of the economic, small business, and consumer impact:**
   The Department engages in this rulemaking, as required under A.R.S. § 41-1008(E), to permanently codify a $25 application fee the Department initially established by exempt rulemaking at 22 A.A.R. 819, April 15, 2016, for issuance of an Arizona driver license or identification license that can be accepted by all federal agencies as a secure credential issued by the Department in full compliance with the federal Real ID Act of 2005, Public Law 109–13, 119 Stat. 302.

   The Department believes that the federally recognized travel-compliant credentials will become the preferred credentials for securing access to restricted federal facilities and conducting domestic travel through international airports, in lieu of having to carry a passport or other qualifying documents. Additionally, the $25 fee for a federally-recognized travel-compliant Arizona driver license or identification license is nominal and provides the most cost effective way to expedite domestic travel for Arizona residents who prefer to apply for this new secure credential instead of having to apply for or renew a U.S. passport, which may cost more than $110.

   The Department anticipates that these rules will have a minimal economic impact on small businesses and consumers as follows:
   - Small businesses that routinely reimburse employees for costs associated with obtaining or maintaining a valid Arizona driver license or non-operating identification license may experience a minimal increase in operational costs if the employees require
secure travel-compliant credentials. The application fee collected by the Department is $25 when processing an original, rein-
statement, or renewal application for any travel-compliant driver license class or an original or renewal application for a travel-
compliant identification license, regardless of the application type (e.g. upgrade, downgrade, etc.). However, on application for a
standard-issue Arizona driver license the Department will continue to collect the age-appropriate fees provided under A.R.S. §
28-3002, and the $12 fee as provided under A.R.S. § 28-3165 and R17-4-409 for a standard-issue Arizona non-operating identi-
fication license.

The transportation industry and consumers may experience a significant, but unquantifiable, benefit over the long term in the
added ease of access and freedom of movement each holder of a travel-compliant driver license or identification license should
achieve by not having to waste valuable time waiting in lines to be cleared for access by DHS when conducting business with
federal authorities, accessing federal facilities, boarding federally-regulated commercial aircraft, or entering secured areas like
nuclear power plants.

Prior to May 2018, the Department processed between 3,000 and 4,000 applications for the new secure travel-compliant creden-
tials each month. However, after reaching-out by email to more than 1.6 million existing Arizona driver license and non-operating
identification license holders urging them to consider converting to a secure travel-compliant credential, the Department has begun
processing up to 10,000 of these credentials each month.

Department records indicate that less than four percent of Arizona’s current credential holders have requested a federally-recog-
nized travel-compliant credential. As of March 1, 2019, the Department has issued 199,373 travel-compliant driver licenses, and
6,082 travel-compliant identification licenses, for a total of 205,455 secure credentials as follows:

If the Department were unable to continue issuing these secure travel-compliant credentials, a great number of Arizona residents
would risk losing their ability to board a federally-regulated commercial aircraft or to gain access to restricted areas in federal
facilities such as nuclear power plants and military facilities beginning October 1, 2020, unless a valid passport or other federally-
approved identification is provided.

10. **A description of any changes between the proposed rulemaking, to include supplemental notices, and the final rulemaking:**

Minor grammatical and technical corrections were made at the request of the Governor’s Regulatory Review Council staff.

11. **An agency’s summary of the public or stakeholder comments made about the rulemaking and the agency response to the comments:**

The Department received no public or stakeholder comments regarding this rulemaking.

12. **All agencies shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:**

The federal REAL ID Act of 2005 requires that all states meet higher federal security standards for the production and design,
application, and issuance of state driver licenses and identification licenses that can be accepted by federal agencies for official
purposes, including but not limited to boarding a federally-regulated commercial aircraft or accessing restricted areas in federal
facilities, nuclear power plants, or military facilities. Although A.R.S. §§ 28-336 and 28-338 expressly prohibit the Department
from fully implementing the federal REAL ID Act of 2005, Laws 2015, Ch. 294, expressly provided that the Department shall
issue a federally-recognized driver license or identification license if voluntarily requested by an applicant.

Arizona law requires that any applicant for a driver license, instruction permit, or non-operating identification license provide to
the Department satisfactory proof of the applicant’s full legal name, date of birth, sex and domicile residence address in this state,
if the applicant has a residence address, and that the applicant’s presence in the United States is authorized under federal law as
prescribed under A.R.S. § 41-1080. The Department maintains on its website at www.azdot.gov, a comprehensive list of all docu-
ments that can be accepted as satisfactory proof of all information required for obtaining a state-issued driver license or non-oper-
ating identification license.

As provided under A.R.S. § 28-3175, Arizona’s federally-recognized travel-compliant driver licenses and identification licenses
are valid for a period of up to eight years and do not contain radio frequency identification technology.

a. **Whether the rules require a permit, whether a general permit is used and if not, the reasons why a gen-
eral permit is not used:**

Although federal law subjects the Department and the applicant to more stringent security and issuance requirements, a
federally-recognized travel-compliant driver license or identification license issued by the Department under these rules is
considered a general permit, as required under A.R.S. § 41-1037 and defined under A.R.S. § 41-1001, since the facilities,
activities, and practices afforded to the holders of each license class or type are substantially similar in nature for all hold-

July 26, 2019 | Published by the Arizona Secretary of State | Vol. 25, Issue 30 | 1887
ers of each license class or type, whether standard-issue or travel-compliant.

b. **Whether a federal law is applicable to the subject of the rules, whether the rules are more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:**

These rules reference the federal regulations established by the U.S. Department of Homeland Security under 6 CFR 37, in conformance with the federal REAL ID Act of 2005, which now requires that all states shall:

Meet more stringent federal security standards for the production and design, application, and issuance of driver and identification licenses that federal government agencies can accept for official purposes, including boarding a federally-regulated commercial aircraft or accessing restricted areas in federal facilities, nuclear power plants, or military facilities;

Follow the federally-prescribed minimum application, documentation, verification, and card issuance requirements each time a person requests issuance of a secure REAL ID-compliant driver or identification license; and

Ensure that the face and the machine readable zone of each standard-issue driver license or non-operating identification license issued by the state clearly indicates that the credential is not acceptable by the federal government for identification or other official purposes.

Additionally, since the federal regulations clearly outline all documentation necessary for a person to establish identity and date of birth on application for a federally-acceptable secure REAL ID-compliant driver or identification license, these rules are not more stringent than the applicable federal law.

c. **Whether a person submitted an analysis to the agency regarding the rule’s impact of the competitiveness of businesses in this state as compared to the competitiveness of businesses in other states:**

No analysis was submitted to the Department.

13. **A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rule:**

This rulemaking incorporates no materials by reference.

14. **Whether the rule was previously made, amended or repealed as an emergency rule. If so, cite the notice published in the Register as specified in R1-1-409(A). Also, the agency shall state where the text was changed between the emergency and the final rulemaking packages:**

The rules were not previously made, amended, repealed or renumbered as an emergency rule.

15. **The full text of the rules follows:**

2. Citations to the agency’s statutory rulemaking authority to include the authorizing statute (general) and the implementing statute (specific):
   Implementing statutes: A.R.S. § 28-2351

3. The effective date of the rules:
   October 1, 2019
   a. If the agency selected a date earlier than the 60 day effective date as specified in A.R.S. § 41-1032(A), include the earlier date and state the reason or reasons the agency selected the earlier effective date as provided in A.R.S. § 41-1032(A)(1) through (5): Not applicable
   b. If the agency selected a date later than the 60 day effective date as specified in A.R.S. § 41-1032(A), include the later date and state the reason or reasons the agency selected the later effective date as provided in A.R.S. § 41-1032(B):
      The Department selected an effective date of October 1, 2019, to allow the rules to be effective at the same time as other Department motor vehicle systems changes. The Department chose this date in order to implement this fee and major motor vehicle systems changes simultaneously, providing a benefit to the public by allowing customers to complete more transactions electronically and efficiently. This has also reduced programming costs, which is beneficial to the public and the agency. For these reasons, the Department believes good cause exists and the public will not be harmed by this effective date.

6. An agency’s justification and reason why a rule should be made, amended, repealed, or renumbered to include an explanation about the rulemaking:
   The Arizona Department of Transportation received approval from Matt Clark in the Governor’s Office on June 14, 2018, to implement rule changes necessary to update the license plate rules in 17 A.A.C. 4, Article 3, relating to receipt of a duplicate special license plate. A.R.S. § 28-2351(A), as amended by Chapter 279, § 3, Laws 2018, requires the Department to provide every vehicle owner with one license plate for each vehicle registered. A vehicle owner may choose a special license plate with a particular design if the owner is eligible to receive a specific special license plate. The statutory change requires the Director of the Department of Transportation to establish a duplicate special license plate fee in rule in an amount established by the Director for a person who requests a duplicate special license plate.

7. A reference to any study relevant to the rules that the agency reviewed and either relied on or did not rely on in its evaluation of or justification for the rules, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:
   The agency did not review or rely on a study relevant to the rules.

8. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:
   This rulemaking does not diminish a previous grant of authority to political subdivisions in this state.

9. A summary of the economic, small business, and consumer impact:
   Existing law provides that each motor vehicle registered in the state is required to have one license plate, which the Department
provides at no charge. A vehicle owner who chooses a special license plate may request a duplicate special license plate. The
duplicate special license plate fee of $10 per special license plate is only applicable to a vehicle owner with a special license plate
when requesting a duplicate special license plate. A.R.S. § 28-2151 also authorizes the Department to charge the estimated mailing
cost to send a license plate to the owner. A vehicle owner currently pays postage costs of $5.53 for a full-size license plate or $4.80
for a special plate for a motorcycle or small trailer. With the current postage costs, a vehicle owner can purchase a duplicate special
license plate including postage costs for $15.53. Due to the fact that obtaining a duplicate special license plate is optional for most
vehicle owners, the regulatory burden of the rules is primarily on those vehicle owners who voluntarily request a duplicate special
license plate. The Department does not track the number of duplicate special license plates requested annually, but during FY
2017, vehicle owners requested over 450,000 special license plates.

A vehicle owner who has permanent physical disabilities may request a disabled special license plate. For a vehicle owner who has
a wheelchair carrier or wheelchair lift and wheelchair attached to the vehicle, the owner is required by law to have a license plate
on the rear of the vehicle and a license plate on the wheelchair carrier to ensure visibility of the license plate. Those vehicle owners
who attach a wheelchair carrier or lift to their vehicles who need a duplicate special license plate after the rule’s effective date, will
be subject to this fee.

Those small businesses, as defined in A.R.S. § 41-1001, that have light duty vehicles with commercial registration that are used for
commercial purposes 1,000 or more hours per registration year, can not obtain a special license plate, and would not be impacted
under these rules. If a vehicle is registered in the name of a commercial enterprise, the vehicle must be registered commercially
unless the applicant certifies that the vehicle is not used for commercial purposes. Subject to these requirements, some small busi-
nesses with light-duty vehicles that are not registered commercially, but are used commercially less than 1,000 hours per registra-
tion cycle, could choose a special license plate, and would be required to pay the duplicate special license plate fee and mailing
costs.

The license plate manufacturing cost varies with different special plate designs, however, the average manufacturing cost for a
duplicate special license plate is $3.50. The Department has not included any administrative costs in this fee. If the Department
included administrative costs other than manufacturing in the cost of a duplicate special license plate, it is likely that Departmental
costs would have exceeded the $10 cost of the duplicate special license plate. The Department incurs costs for this rulemaking and
to program motor vehicle systems changes, including this fee to allow for electronic payment for a duplicate special license plate.
In order to reduce total agency programming costs, the agency delayed implementation of the duplicate special license plate fee
until other motor vehicle systems programming could occur.

10. **A description of any changes between the proposed rulemaking, to include supplemental notices, and the final
rulemaking:**
No changes were made between the proposed rulemaking and the final rulemaking.

11. **An agency’s summary of the public stakeholder comments made about the rulemaking and the agency response to the comments:**
The Department held a public hearing on the rules on May 8, 2019, but did not receive any stakeholder comments at the hearing or
prior to the close of record, which was on May 8, 2019.

12. **All agencies shall list other matters prescribed by statute applicable to the specific agency or to any specific rules or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to questions (a) through (c):**
None

a. **Whether the rules require a permit, whether a general permit is used and if not, the reasons why a general permit is not used:**
The rules do not require a permit, however, a license plate is a type of general permit because the activities and practices
authorized by each class of licensee are the same for all drivers with a special license plate.

b. **Whether a federal law is applicable to the subject of the rules, whether the rules are more stringent than the federal law, and if so, citation to the statutory authority to exceed the requirements of federal law:**
No federal laws are applicable to the rules and the rules are not more stringent than federal law.

c. **Whether a person submitted an analysis to the agency that compares the rules’ impact of the competitiveness of business in this state to the impact on business in other states:**
A business competitiveness analysis was not submitted to the Department.

13. **A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rules:**
The rules do not have any incorporations by reference.

14. **Whether the rules were previously made, amended, or repealed as emergency rules. If so, cite the notice published in the Register as specified in R1-1-409(A). Also, the agency shall state where the text was changed between the emergency and the final rulemaking packages:**
The rules were not previously made, amended, or repealed as emergency rules.

6. An agency's justification and reason why a rule should be made, amended, repealed or renumbered, under A.R.S.§ 41-1027, to include an explanation about the rulemaking:
   In order to ensure public health, safety, and welfare, Arizona Revised Statutes (A.R.S.) §§ 36-405 and 36-406 require the Arizona Department of Health Services (Department) to adopt rules establishing minimum standards and requirements for construction, modification, and licensure of health care institutions. A.R.S. § 36-449.03 requires the Department to adopt rules that establish minimum standards and requirements for abortion clinics, a class of health care institutions. Laws 2018, Ch. 219 amends A.R.S. §§ 36-2161 and 36-2162 to require abortion providers to: supply additional information to the Department in abortion procedure and complication reports; request additional information from women seeking abortions; and provide information to women seeking abortions who are victims of certain crimes. After obtaining an exception from the rulemaking moratorium established by Executive Order 2018-02, the Department has revised rules in 9 A.A.C. 10, Articles 1 and 15 to comply with Laws 2018, Ch. 219. The Department has revised the rules in 9 A.A.C. 10, Article 15, Abortion Clinics, to include new requirements for reporting complica-
tions according to A.R.S § 36-2161(A)(15), requesting information specified in A.R.S. § 36-2161(A)(12) from a patient, and providing information required in A.R.S. § 36-2161(C) to a patient, if applicable. In addition, A.A.C. R9-10-119 is revised to update cross-references to new subsections in A.R.S. § 36-2161. The Department believes the rulemaking meets the criteria for expedited rulemaking since the changes made will not increase the cost of regulatory compliance, increase a fee, or reduce procedural rights of persons regulated, but amend rules that became outdated with the statutory revisions made by Laws 2018, Ch. 219.

7. A reference to any study relevant to the rule that the agency reviewed and proposes either to rely on or not to rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:
The Department did not review or rely on any study for this rulemaking.

8. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state.
Not applicable

9. A summary of the economic, small business, and consumer impact:
Under A.R.S. § 41-1055(D)(2), the Department is not required to provide an economic, small business, and consumer impact statement.

10. A description of any changes between the proposed expedited rulemaking, including supplemental notices, and the final expedited rulemaking:
Between the proposed expedited rulemaking and the final expedited rulemaking, no changes were made to the rulemaking.

11. Agency's summary of the public or stakeholder comments or objections made about the rulemaking and the agency response to the comments:
The Department did not receive any written stakeholder comments about the rulemaking during the 30-day comment period.

12. All agencies shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:

a. Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:
Although other Sections of this Chapter require the issuance of a permit, under A.R.S. § 36-407, the Sections included in this rulemaking do not relate to the issuance of a regulatory permit. Therefore, consideration of a general permit is not applicable to this rulemaking.

b. Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:
Federal laws do not apply to the rule.

c. Whether a person submitted an analysis to the agency that compares the rule’s impact of the competitiveness of business in this state to the impact on business in other states:
No such analysis was submitted.

13. A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rules:
None

14. Whether the rule was previously made, amended, or repealed as an emergency rules. If so, cite the notice published in the Register as specified in R1-1-409(A). Also, the agency shall state where the text was changed between the emergency and the final rulemaking packages:

NOTICES OF RULEMAKING DOCKET OPENING

This section of the Arizona Administrative Register contains Notices of Rulemaking Docket Opening. A docket opening is the first part of the administrative rulemaking process. It is an “announcement” that the agency intends to work on its rules. When an agency opens a rulemaking docket to consider rulemaking, the Administrative Procedure Act (APA) requires the publication of the Notice of Rulemaking Docket Opening.

Under the APA effective January 1, 1995, agencies must submit a Notice of Rulemaking Docket Opening before beginning the formal rulemaking process. Many times an agency may file the Notice of Rulemaking Docket Opening with the Notice of Proposed Rulemaking.

The Office of the Secretary of State is the filing office and publisher of these notices. Questions about the interpretation of this information should be directed to the agency contact person listed in item #4 of this notice.

Agencies shall identify and execute on opportunities to improve its complaint intake process, documentation, tracking, enforcement actions and coordination with proper law enforcement channels to ensure those allegedly trying to defraud unsuspecting consumers and putting them at risk for immediate and/or significant harm to their financial or physical health are stopped and effectively diverted by the State agency to the proper law-enforcement agency for review.
