ABOUT THIS PUBLICATION

The authenticated pdf of the *Administrative Register* (A.A.R.) posted on the Arizona Secretary of State's website is the official published version for rulemaking activity in the state of Arizona.

Rulemaking is defined in Arizona Revised Statutes known as the Arizona Administrative Procedure Act (APA), A.R.S. Title 41, Chapter 6, Articles 1 through 10.

The *Register* is cited by volume and page number. Volumes are published by calendar year with issues published weekly. Page numbering continues in each weekly issue.

In addition, the *Register* contains notices of rules terminated by the agency and rules that have expired.

ABOUT RULES

Rules can be: made (all new text); amended (rules on file, changing text); repealed (removing text); or renumbered (moving rules to a different Section number). Rulemaking activity published in the *Register* includes: proposed, final, emergency, expedited, and exempt rules as defined in the APA, and other state statutes.

New rules in this publication (whether proposed or made) are denoted with underlining; repealed text is stricken.

WHERE IS A "CLEAN" COPY OF THE FINAL OR EXEMPT RULE PUBLISHED IN THE REGISTER?

The *Arizona Administrative Code* (A.A.C) contains the codified text of rules. The A.A.C. contains rules promulgated and filed by state agencies that have been approved by the Attorney General or the Governor's Regulatory Review Council. The *Code* also contains rules exempt from the rulemaking process.

The authenticated pdf of *Code* Chapters posted on the Arizona Secretary of State's website are the official published version of rules in the A.A.C. The *Code* is posted online for free.

LEGAL CITATIONS AND FILING NUMBERS

On the cover: Each agency is assigned a Chapter in the *Arizona Administrative Code* under a specific Title. Titles represent broad subject areas. The Title number is listed first; with the acronym A.A.C., which stands for the *Arizona Administrative Code*; following the Chapter number and Agency name, then program name. For example, the Secretary of State has rules on rulemaking in Title 1, Chapter 1 of the *Arizona Administrative Code*. The citation for this Chapter is 1 A.A.C. 1, Secretary of State, Rules and Rulemaking. Every document filed in the office is assigned a file number. This number, enclosed in brackets, is located at the top right of the published documents in the *Register*. The original filed document is available for 10 cents a page.

Participate in the Process

Look for the Agency Notice

Review (inspect) notices published in the *Arizona Administrative Register*. Many agencies maintain stakeholder lists and would be glad to inform you when they proposed changes to rules. Check an agency's website and its newsletters for news about notices and meetings.

Feel like a change should be made to a rule and an agency has not proposed changes? You can petition an agency to make, amend, or repeal a rule. The agency must respond to the petition. (See A.R.S. § 41-1033)

Attend a public hearing/meeting

Attend a public meeting that is being conducted by the agency on a Notice of Proposed Rulemaking. Public meetings may be listed in the Preamble of a Notice of Proposed Rulemaking or they may be published separately in the *Register*. Be prepared to speak, attend the meeting, and make an oral comment.

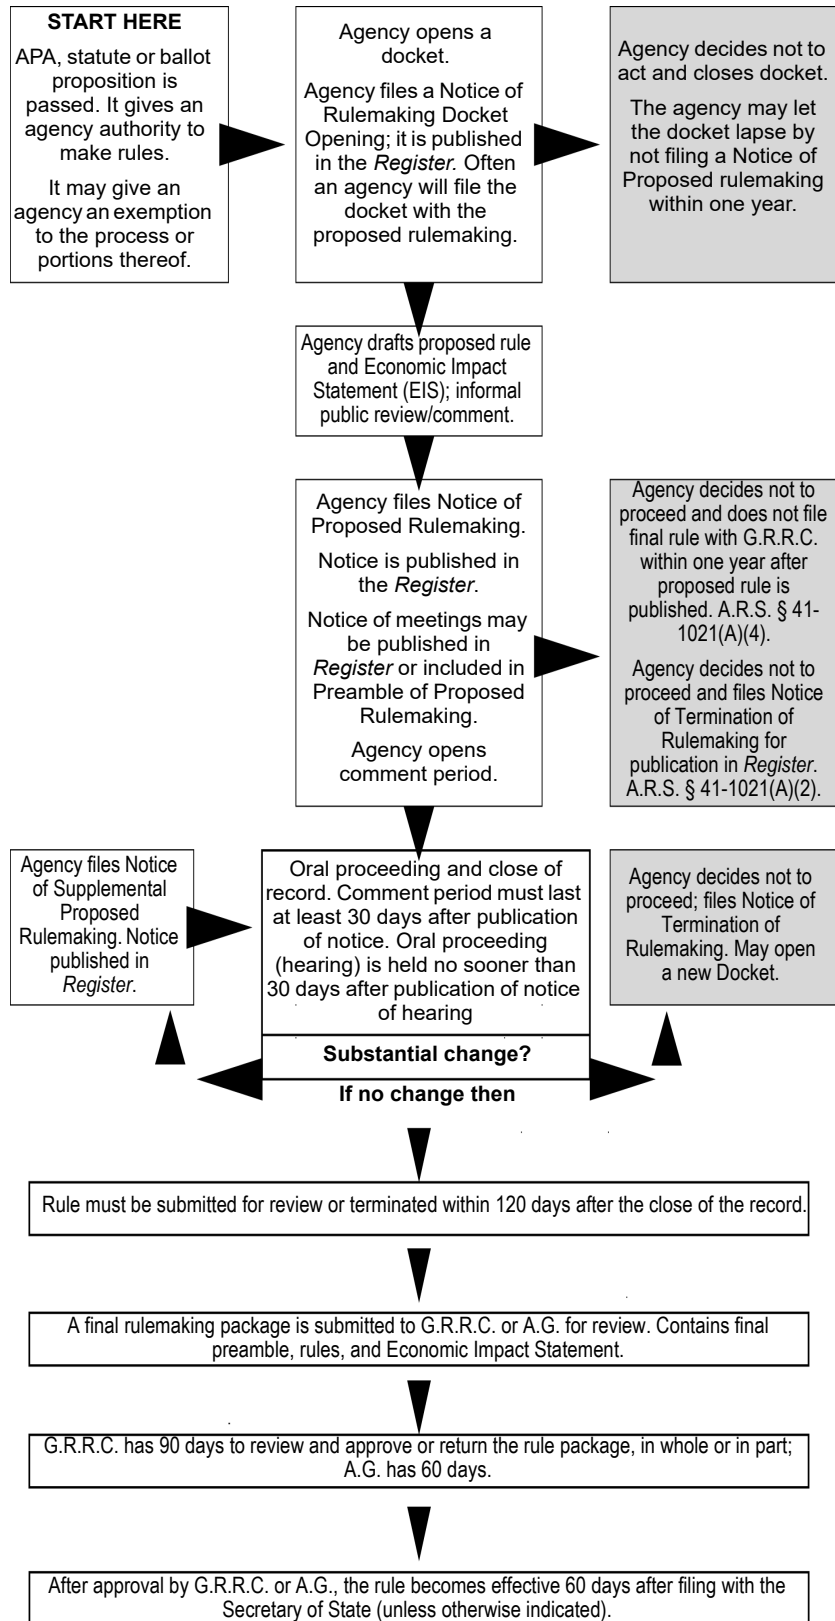

An agency may not have a public meeting scheduled on the Notice of Proposed Rulemaking. If not, you may request that the agency schedule a proceeding. This request must be put in writing within 30 days after the published Notice of Proposed Rulemaking.

Write the agency

Put your comments in writing to the agency. In order for the agency to consider your comments, the agency must receive them by the close of record. The comment must be received within the 30-day comment timeframe following the *Register* publication of the Notice of Proposed Rulemaking.

You can also submit to the Governor's Regulatory Review Council written comments that are relevant to the Council's power to review a given rule (A.R.S. § 41-1052). The Council reviews the rule at the end of the rulemaking process and before the rules are filed with the Secretary of State.

Arizona Regular Rulemaking Process

Final rule is published in the *Register* and the quarterly *Code Supplement*.

About Preambles

The Preamble is the part of a rulemaking package that contains information about the rulemaking and provides agency justification and regulatory intent.

It includes reference to the specific statutes authorizing the agency to make the rule, an explanation of the rule, reasons for proposing the rule, and the preliminary Economic Impact Statement.

The information in the Preamble differs between rulemaking notices used and the stage of the rulemaking.

NOTICES OF PROPOSED RULEMAKING

This section of the Arizona Administrative Register contains Notices of Proposed Rulemaking.

A proposed rulemaking is filed by an agency upon completion and submittal of a Notice of Rulemaking Docket Opening. Often these two documents are filed at the same time and published in the same Register issue.

When an agency files a Notice of Proposed Rulemaking under the Administrative Procedure Act (APA), the notice is published in the Register within three weeks of filing. See the publication schedule in the back of each issue of the Register for more information.

Under the APA, an agency must allow at least 30 days to elapse after the publication of the Notice of Proposed Rulemaking in the Register before beginning any proceedings for making, amending, or repealing any rule (A.R.S. §§ 41-1013 and 41-1022).

The Office of the Secretary of State is the filing office and publisher of these rules. Questions about the interpretation of the proposed rules should be addressed to the agency that promulgated the rules. Refer to item #4 below to contact the person charged with the rulemaking and item #10 for the close of record and information related to public hearings and oral comments.

6. An agency's justification and reason why a rule should be made, amended, repealed or renumbered, to include an explanation about the rulemaking:

These new rules protect public safety, specifically the safety of children and other riders of school buses by setting minimum safety and certification standards for 11 to 15 passenger school bus vehicles and drivers in a manner similar to other regulated school buses.

Pursuant to A.R.S. §§ 15-925, 28-900, 28-3053 and 28-3228, the Governor's Student Transportation Advisory Council (STAC) and the Department of Public Safety conduct rulemakings on this chapter in consultation with each other.

The Department is adopting safety rules in compliance with state law enacted by the Fifty-fifth Legislature, Second Regular Session, 2022, Chapter 290, Senate Bill 1630, amending sections 15-383, 15-746, 15-922, 15-945, 28-900, 28-3053 and 28-3228, and adding 15-925 and was approved by the Governor June 13, 2022 and filed in the Office of the Secretary of State June 13, 2022.

The STAC and the Department intend to create a new Article 3 to address A.R.S. § 15-925. The law requires the Department to adopt new safety-related rules to regulate 11-to-15 passenger school bus vehicles and the associated drivers which transport students at a public school, charter/private school or by a privately-owned and operated entity contracted to transport students. Additionally, it sets the minimum standards for the periodic inspection, maintenance and operation of these motor vehicles used to transport students, the minimum certification standards for drivers as well as other criteria as deemed necessary and appropriate to ensure the safe operation of these vehicles.

These 11 to 15 passenger vehicles are defined as a school bus pursuant to 49 CFR 571.3 and A.R.S. § 28-101(69). The Department intends to prohibit the use of non-conforming vans/vehicles and authorize conforming school buses and other allowable alternate vehicles with modifications which would meet school bus safety specifications.

The Department intends for the drivers to meet minimum standards mostly equivalent to that of other school bus drivers. The driver is responsible for the children and is often the only adult on board with the children. Should an emergency occur, the driver should have the training to handle the situation and the physical ability to remove children, including special-needs children from harm should a collision or other incident occur.

7. A reference to any study relevant to the rule that the agency reviewed and proposes either to rely on or not to rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:

The Department reviewed and relied on the following studies in its evaluation and justification of the rules:

- National Association of State Directors of Pupil Transportation Services, *Non-conforming Vans Used for School Transportation* dated December 4, 2017, and is available from the Association at <https://www.nasdpts.org/> or the Department.
- National Highway Traffic Safety Administration, *Safety in Numbers-Tires Your Safety and Your Life are Riding on Them*, Volume 1 Issue 3 June 2013. Available from the Department.
- Safety Research & Strategies Inc. *Tire Aging and Service Life, National Transportation Safety Board (NTSB) Tire Safety Symposium*, December 2014. Available from the Department.

8. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:

This rulemaking does not diminish any previous grants of authority.

9. The preliminary summary of the economic, small business, and consumer impact:

The economic impact includes schools (both public and private), school bus vehicle manufacturers, state government, student/parents and other riders of school buses, taxpayers/tuition payers and contracted third-party student transportation providers.

Schools will have an estimated cost of \$117,000 per new vehicle depending on manufacturer and options for a Type A school bus. This is a substantially higher cost than a non-conforming van (approximately \$75,000 depending on manufacturer and options) that does not meet school bus crash worthiness standards in 49 CFR 571.222. However, the cost of a Type A is between \$50,000 to \$100,000 less (depending on manufacturer and options) than a Type C (conventional) school bus. The rules and the Department do not specify a specific make and model of school bus; therefore, schools can shop different manufacturers and the used market for the best cost, design and options that fits their needs and budget.

Schools are facing a critical CDL driver shortage. Repeated recruiting, hiring and training are a significant cost burden to schools. The standards set for Class D school bus drivers increases the applicant pool and potentially lowers recruiting and training costs if retention is maintained. The overall training program is similar to that of a CDL driver but is shortened as CDL-specific training is not required. This shortened training period represents a cost savings to the schools.

Manufacturers are already producing school buses in accordance with federal and state safety regulations. As the manufacturers are intimately familiar with these regulations and the Department is not imposing any significant burdens beyond that of a traditional school bus, the cost is expected to be minimal. The allowance of these new vehicles diversifies the product line manufacturers can potentially sell to schools.

The Department does not expect any new FTEs to implement these rules. The inspection of these vehicles is not fundamentally different than Type C (conventional) school buses. However, if the overall statewide school fleet expands to the point where Depart-

ment inspectors cannot physically inspect every school bus within the calendar year, more inspectors may be necessary in the future. The Department has adjusted its operations by hiring civilian inspectors at a lower cost in addition to using state troopers. The Department's Student Transportation Unit will be able to handle the new influx of driver certifications with current staff on hand. However, legacy computerized database systems are not easily configurable to track and monitor these certifications so there is still a manual process involved. The Department is exploring options for an upgraded computerized system however it is not currently funded.

Students and parents are impacted. With schools facing CDL driver shortages, some school bus routes have been amended or cancelled. This requires parents to source their own transportation to get their kid to and from school. More of these new school bus drivers may allow the schools to reopen or improve school bus routes alleviating the significant cost and time burden on parents. Most importantly, parents will be reassured the vehicle and the driver they are trusting to transport their child to and from school meets the best practical safety standards possible.

Taxpayers and private tuition payers who fund the schools will be impacted. As previously mentioned, these school buses have a lower purchase cost, lower operating cost than Type C (traditional) school buses and retention of drivers/larger applicant pool of Class D licensed drivers may lower attrition and retraining costs.

Contracted third-party student transportation providers will be impacted. Some school districts have opted for various economic or operational reasons to contract out their transportation needs to a third party. These rules will allow those contracted third-party providers to offer a new form of transportation that may reduce costs to both the contractor and the school. As with the schools, contractors can also take advantage of the larger hiring pool of Class D licensed drivers.

An oral proceeding is scheduled on this proposed rulemaking.

Phoenix, AZ 85034
Nature: Public comment meeting for this proposed rulemaking.
Public comment period ends: Wednesday, January 21, 2026 at 5:00 p.m.
Close of record: Wednesday, January 21, 2026 at 5:00 p.m.

12. All agencies shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:

The Student Transportation Advisory Council finalized consultation with the Department on adoption of the Proposed Rulemaking and the Economic Impact Statement at the Council's October 8, 2025 public meeting as documented in the Council's meeting minutes pursuant to A.R.S. §§ 15-925, 28-900(A)(B), (1)-(7), 28-3228(C) and 28-3053(C)(3), (4), (5), (6), (7).

a. Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:

The rules require a certification permit for both the vehicle and the driver. A general permit for the vehicle cannot be issued as the wear and condition of a single vehicle is not representative of a fleet of vehicles which receive different exposure, wear and use. A general permit for drivers cannot be issued as each driver is statutorily required to have a background check, physical, knowledge and other tests to perform the job. Therefore, the status and capabilities of a single driver cannot be applied to a fleet of drivers.

b. Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:

The following federal laws are applicable, and the rules are not more stringent than the federal laws. The Department does have statutory authority to be more stringent than federal law pursuant to A.R.S. § 28-900(C) but has not exercised this provision.

- Federal Motor Vehicle Safety Standards (FMVSS) 49 CFR 571.3 defines a multifunction school activity bus.
- FMVSS 49 CFR 571.222 sets seating and crash protection requirements.
- FMVSS 49 CFR 393.75 sets standards for tires and wheels.

c. Whether a person submitted an analysis to the agency that compares the rule’s impact of the competitiveness of business in this state to the impact on business in other states:

Not applicable.

13. A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rules:

- 49 CFR 571.3 in Section 301.
- 49 CFR 571.222 in Section 302(B)(1).
- 49 CFR 393.75 in Section 302(B)(2)(a).
- National Congress on School Transportation, *National School Transportation Specifications and Procedures dated May 2025* in Section 302(B)(3)(a).

- 7. An agency's justification and reason why a rule should be made, amended, repealed or renumbered, to include an explanation about the rulemaking:**
Summary. The Arizona Department of Environmental Quality (ADEQ) has finalized changes in 18 A.A.C. 1 to add licensing time-frames (LTFs) for coal combustion residuals (CCR) facility permits.
General Explanation of this Rulemaking:
ADEQ is authorized under A.R.S. § 49-891 to adopt a permit program for coal combustion residuals to be approved by the United States Environmental Protection Agency (EPA). Under subsections (C) and (D) of that statute, the program must include permits and permit fees. Under A.R.S. § 41-1072 *et seq*, such permits are required to have licensing time-frames. Consistent with past practice and A.A.C. R1-1-103(D)(4), ADEQ has proposed this LTF rule separately from the recently effective companion rule requiring CCR permits. (See 31 A.A.R. 1363, April 25, 2025) These LTF rules needed to be effective by the time a permit application was required, which is 180 days after EPA authorizes the Arizona permit program. (See A.R.S. § 49-891(F))
LTFs for the CCR Program
The new LTFs provide a measure of certainty for permit applicants by providing an incentive for the license issuer (ADEQ) to issue on time. The time-frames are created in this rulemaking as additions to Table 12 for Solid Waste Licenses. The initial CCR permit LTFs were derived from those in Table 17 for Hazardous Waste Licenses with surface impoundments. The renewal CCR permit LTFs and the major modification time-frames were derived from Table 10's complex individual Aquifer Protection Permit. In ADEQ's judgment, these are the most consistent with the complex permit applications expected for CCR. Forty-two extra days

are added when a public hearing is scheduled for the permit actions. The minor modification time-frames are identical to those for “Individual Permit Other Amendment” of Aquifer Protection Permits in Table 10.

8. A reference to any study relevant to the rule that the agency reviewed and proposes either to rely on or not to rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:

No studies were reviewed by ADEQ for this rulemaking.

9. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:

Not applicable

10. A summary of the economic, small business, and consumer impact:

ADEQ believes that these LTF rules will not have any negative economic impact on the four electric utilities generating coal combustion residuals in Arizona that will require CCR facility permits. The certainty provided regarding permit actions will be a positive impact. Another possible impact will be to ADEQ if it has to return permitting fees as a consequence of missing an LTF deadline under A.R.S. § 41-1077 and A.A.C. R18-1-523. Missing an LTF deadline and returning permit processing fees to one of the four facilities would have a significant negative fiscal impact on ADEQ, since the CCR program’s annual fees that are effective after EPA program approval are not meant to cover permit processing. See A.R.S. §§ 49-891(D)(1) and (2). This LTF rule will have no economic impact on the general public or small businesses including those near CCR facilities.

11. A description of any changes between the proposed rulemaking, to include supplemental notices, and the final rulemaking:

No changes were made to the proposed rule.

12. An agency’s summary of the public or stakeholder comments made about the rulemaking and the agency response to the comments:

Two comments were received on this rulemaking, from a single commenter.

Comment: 1) Please include a plain-language summary in your all your emails that solicit feedback from Arizona residents. 2) We only need one Arizona rule re: coal energy, and that is to outlaw it. There is simply no justification for using coal anymore.

Response: ADEQ appreciates these comments. 1) ADEQ reviewed its June 2 email covering the proposed rule and has forwarded your concerns to our Communications team. We will continue attempting to make our emails as clear, concise and understandable as possible. 2) ADEQ does not have statutory authority to outlaw coal energy. This type of prohibition would have to originate in the Arizona legislature.

13. All agencies shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:

There are no other matters prescribed by statute applicable specifically to ADEQ or this specific rulemaking outside of A.R.S. Title 41, Chapter 6, Article 7.1 (Licensing Time Frames) and A.R.S. § 49-891.

a. Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:

This rule does not require a permit.

b. Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:

No federal law is applicable to licensing time frames.

c. Whether a person submitted an analysis to the agency that compares the rule’s impact on the competitiveness of businesses in this state as compared to the competitiveness of businesses in other states:

No such analysis was submitted.

14. A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rules:

No material is incorporated by reference in this rulemaking.

15. Whether the rule was previously made, amended or repealed as an emergency rule. If so, cite the notice published in the Register as specified in R1-1-409(A). Also, the agency shall state where the text was changed between the emergency and the final rulemaking packages:

Not applicable
