# From the Publisher

## ABOUT THIS PUBLICATION

The authenticated pdf of the *Administrative Register* (A.A.R.) posted on the Arizona Secretary of State's website is the official published version for rulemaking activity in the state of Arizona.

Rulemaking is defined in Arizona Revised Statutes known as the Arizona Administrative Procedure Act (APA), A.R.S. Title 41, Chapter 6, Articles 1 through 10.

The *Register* is cited by volume and page number. Volumes are published by calendar year with issues published weekly. Page numbering continues in each weekly issue.

In addition, the *Register* contains notices of rules terminated by the agency and rules that have expired.

## ABOUT RULES

Rules can be: made (all new text); amended (rules on file, changing text); repealed (removing text); or renumbered (moving rules to a different Section number). Rulemaking activity published in the *Register* includes: proposed, final, emergency, expedited, and exempt rules as defined in the APA, and other state statutes.

New rules in this publication (whether proposed or made) are denoted with underlining; repealed text is stricken.

## WHERE IS A "CLEAN" COPY OF THE FINAL OR EXEMPT RULE PUBLISHED IN THE REGISTER?

The *Arizona Administrative Code* (A.A.C) contains the codified text of rules. The A.A.C. contains rules promulgated and filed by state agencies that have been approved by the Attorney General or the Governor's Regulatory Review Council. The *Code* also contains rules exempt from the rulemaking process.

The authenticated pdf of *Code* Chapters posted on the Arizona Secretary of State's website are the official published version of rules in the A.A.C. The *Code* is posted online for free.

## LEGAL CITATIONS AND FILING NUMBERS

On the cover: Each agency is assigned a Chapter in the *Arizona Administrative Code* under a specific Title. Titles represent broad subject areas. The Title number is listed first; with the acronym A.A.C., which stands for the *Arizona Administrative Code*; following the Chapter number and Agency name, then program name. For example, the Secretary of State has rules on rulemaking in Title 1, Chapter 1 of the *Arizona Administrative Code*. The citation for this Chapter is 1 A.A.C. 1, Secretary of State, Rules and Rulemaking. Every document filed in the office is assigned a file number. This number, enclosed in brackets, is located at the top right of the published documents in the *Register*. The original filed document is available for 10 cents a page.

# Participate in the Process

## Look for the Agency Notice

Review (inspect) notices published in the *Arizona Administrative Register*. Many agencies maintain stakeholder lists and would be glad to inform you when they proposed changes to rules. Check an agency's website and its newsletters for news about notices and meetings.

Feel like a change should be made to a rule and an agency has not proposed changes? You can petition an agency to make, amend, or repeal a rule. The agency must respond to the petition. (See A.R.S. § 41-1033)

## Attend a public hearing/meeting

Attend a public meeting that is being conducted by the agency on a Notice of Proposed Rulemaking. Public meetings may be listed in the Preamble of a Notice of Proposed Rulemaking or they may be published separately in the *Register*. Be prepared to speak, attend the meeting, and make an oral comment.

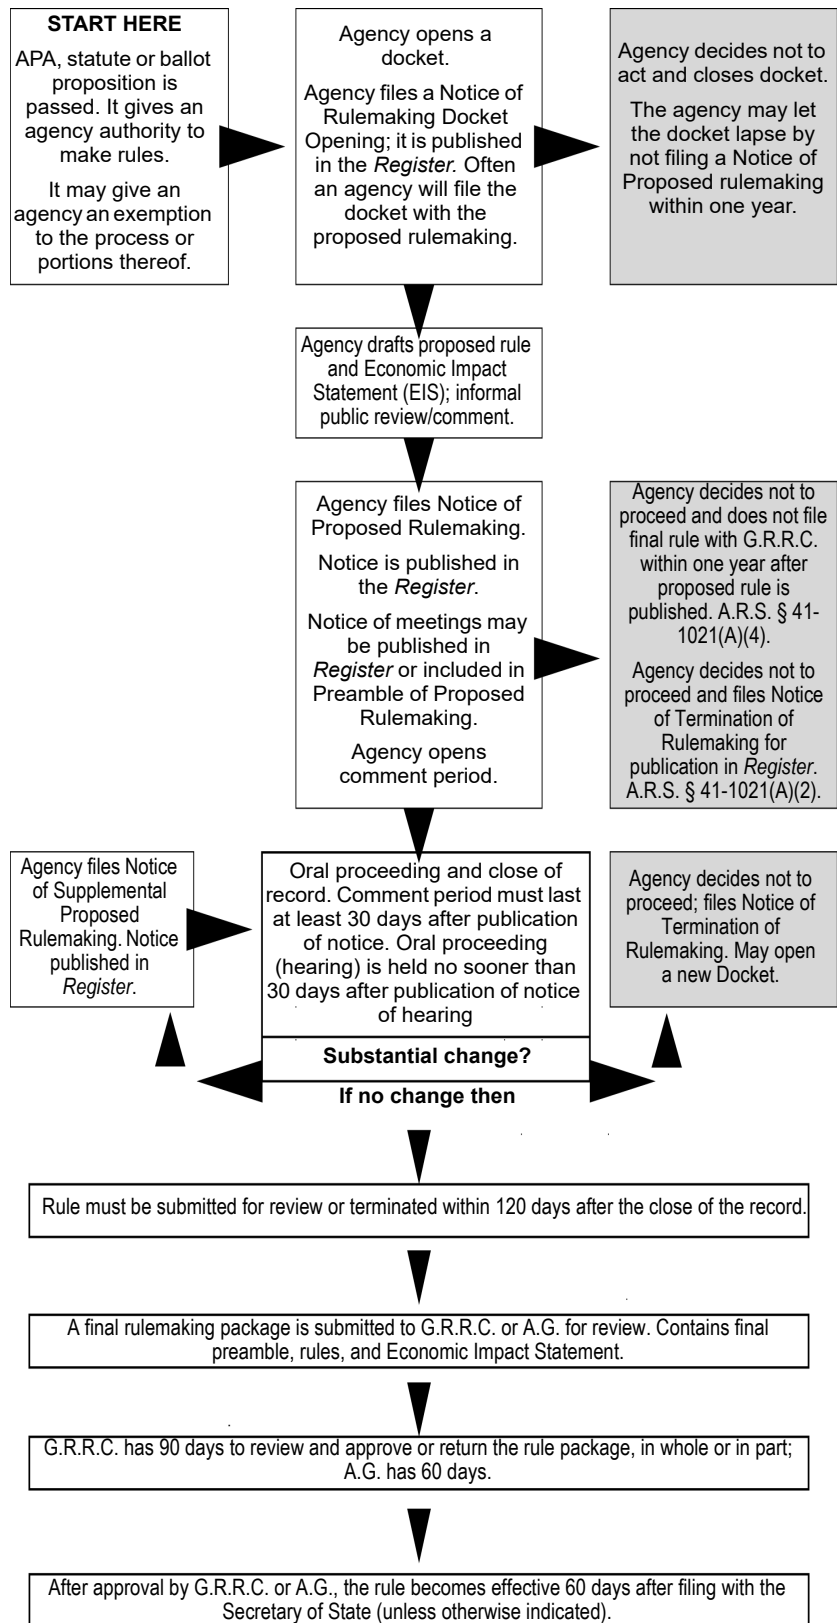

An agency may not have a public meeting scheduled on the Notice of Proposed Rulemaking. If not, you may request that the agency schedule a proceeding. This request must be put in writing within 30 days after the published Notice of Proposed Rulemaking.

## Write the agency

Put your comments in writing to the agency. In order for the agency to consider your comments, the agency must receive them by the close of record. The comment must be received within the 30-day comment timeframe following the *Register* publication of the Notice of Proposed Rulemaking.

You can also submit to the Governor's Regulatory Review Council written comments that are relevant to the Council's power to review a given rule (A.R.S. § 41-1052). The Council reviews the rule at the end of the rulemaking process and before the rules are filed with the Secretary of State.

## Arizona Regular Rulemaking Process

Final rule is published in the *Register* and the quarterly *Code Supplement*.

## Definitions

**Arizona Administrative Code (A.A.C.):** Official rules codified and published by the Secretary of State’s Office. Available online at [www.azsos.gov](http://www.azsos.gov).

**Arizona Administrative Register (A.A.R.):** The official publication that includes filed documents pertaining to Arizona rulemaking. Available online at [www.azsos.gov](http://www.azsos.gov).

**Administrative Procedure Act (APA):** A.R.S. Title 41, Chapter 6, Articles 1 through 10. Available online at [www.azleg.gov](http://www.azleg.gov).

**Arizona Revised Statutes (A.R.S.):** The statutes are made by the Arizona State Legislature during a legislative session. They are compiled by Legislative Council, with the official publication codified by Thomson West. Citations to statutes include Titles which represent broad subject areas. The Title number is followed by the Section number. For example, A.R.S. § 41-1001 is the definitions Section of Title 41 of the Arizona Administrative Procedures Act. The “§” symbol simply means “section.” Available online at [www.azleg.gov](http://www.azleg.gov).

**Chapter:** A division in the codification of the *Code* designating a state agency or, for a large agency, a major program.

**Close of Record:** The close of the public record for a proposed rulemaking is the date an agency chooses as the last date it will accept public comments, either written or oral.

**Code of Federal Regulations (CFR):** The *Code of Federal Regulations* is a codification of the general and permanent rules published in the *Federal Register* by the executive departments and agencies of the federal government.

**Docket:** A public file for each rulemaking containing materials related to the proceedings of that rulemaking. The docket file is established and maintained by an agency from the time it begins to consider making a rule until the rulemaking is finished. The agency provides public notice of the docket by filing a Notice of Rulemaking Docket Opening with the Office for publication in the *Register*.

**Economic, Small Business, and Consumer Impact Statement (EIS):** The EIS identifies the impact of the rule on private and public employment, on small businesses, and on consumers. It includes an analysis of the probable costs and benefits of the rule. An agency includes a brief summary of the EIS in its preamble. The EIS is not published in the *Register* but is available from the agency promulgating the rule. The EIS is also filed with the rulemaking package.

**Governor’s Regulatory Review (G.R.R.C.):** Reviews and approves rules to ensure that they are necessary and to avoid unnecessary duplication and adverse impact on the public. G.R.R.C. also assesses whether the rules are clear, concise, understandable, legal, consistent with legislative intent, and whether the benefits of a rule outweigh the cost.

**Incorporated by Reference:** An agency may incorporate by reference standards or other publications. These standards are available from the state agency with references on where to order the standard or review it online.

**Federal Register (FR):** The *Federal Register* is a legal newspaper published every business day by the National Archives and Records Administration (NARA). It contains federal agency regulations; proposed rules and notices; and executive orders, proclamations, and other presidential documents.

**Session Laws or “Laws”:** When an agency references a law that has not yet been codified into the Arizona Revised Statutes, use the word “Laws” is followed by the year the law was passed by the Legislature, followed by the Chapter number using the abbreviation “Ch.,” and the specific Section number using the Section symbol (§). For example, Laws 1995, Ch. 6, § 2. Session laws are available at [www.azleg.gov](http://www.azleg.gov).

**United States Code (U.S.C.):** The Code is a consolidation and codification by subject matter of the general and permanent laws of the United States. The Code does not include regulations issued by executive branch agencies, decisions of the federal courts, treaties, or laws enacted by state or local governments.

## About Preambles

The Preamble is the part of a rulemaking package that contains information about the rulemaking and provides agency justification and regulatory intent.

It includes reference to the specific statutes authorizing the agency to make the rule, an explanation of the rule, reasons for proposing the rule, and the preliminary Economic Impact Statement.

The information in the Preamble differs between rulemaking notices used and the stage of the rulemaking.

**NOTICES OF PROPOSED RULEMAKING**

This section of the *Arizona Administrative Register* contains Notices of Proposed Rulemaking.

A proposed rulemaking is filed by an agency upon completion and submittal of a Notice of Rulemaking Docket Opening. Often these two documents are filed at the same time and published in the same *Register* issue.

When an agency files a Notice of Proposed Rulemaking under the Administrative Procedure Act (APA), the notice is published in the *Register* within three weeks of filing. See the publication schedule in the back of each issue of the *Register* for more information.

Under the APA, an agency must allow at least 30 days to elapse after the publication of the Notice of Proposed Rulemaking in the *Register* before beginning any proceedings for making, amending, or repealing any rule (A.R.S. §§ 41-1013 and 41-1022).

The Office of the Secretary of State is the filing office and publisher of these rules. Questions about the interpretation of the proposed rules should be addressed to the agency that promulgated the rules. Refer to item #4 below to contact the person charged with the rulemaking and item #10 for the close of record and information related to public hearings and oral comments.

**6. An agency's justification and reason why a rule should be made, amended, repealed or renumbered, to include an explanation about the rulemaking:**

The AHCCCS Administration is initiating this rulemaking to update the KidsCare program regulations to ensure compliance with federal and state law. Proposed amendments include increasing the income eligibility threshold from 200% to 225% of the Federal Poverty Level (FPL), reinstating premium collection following the conclusion of the Public Health Emergency, shifting premium payments from a monthly to an annual schedule, and eliminating the lock-out period previously imposed for nonpayment of premiums.

**7. A reference to any study relevant to the rule that the agency reviewed and proposes either to rely on or not to rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:**

Not applicable

**8. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:**

Not applicable

**9. The preliminary summary of the economic, small business, and consumer impact:**

Estimated annual revenue from the collection of premiums for SFY 27 is estimated to be \$4,127,100. An estimated \$1,047,900 of this revenue would offset General Fund expenditures and approximately \$3,089,200 of the \$4,127,000 total would offset Federal expenditures.

Public comment period ends: January 12, 2026 at 5:00 p.m.  
Close of record: January 12, 2026 at 5:00 p.m.

**12. All agencies shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:**

There are no other matters prescribed by the statute applicable specifically to the Administration or this specific rulemaking.

**a. Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general**

**permit is not used:**

The rule does not require the issuance of a regulatory permit. Therefore, a general permit is not applicable.

**b. Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:**

The rules are not more stringent than federal law.

**c. Whether a person submitted an analysis to the agency that compares the rule's impact on the competitiveness of business in this state to the impact on business in other states:**

Not applicable

**13. A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rules:**

**ARTICLE 14. PREMIUMS FOR A CHILD DETERMINED ELIGIBLE UNDER ARTICLE 3****R9-31-1402. Premium Amount for a Member who is a Child Determined Eligible Under Article 3 of this Chapter**

- A.** For the purposes of this Article, a premium is a ~~monthly~~annual amount that an enrolled member pays to the Administration to remain eligible for Title XXI.
- B.** ~~When the household income is greater than the income limit described under R9-22-1427(D) and less than or equal to 150 percent of the FPL, the monthly premium is \$10 for one eligible child and \$15 for two or more eligible children.~~
- C.** When household income is greater than 150 percent of the FPL and less than or equal to 175 percent of the FPL, the ~~monthly~~annual premium payment is ~~\$40~~\$97 for one eligible child and ~~\$60~~\$133 for two or more eligible children.
- DC.** When household income is greater than 175 percent of the FPL and less than or equal to ~~200~~225 percent of the FPL, the ~~monthly~~annual premium is ~~\$50~~\$114 for one eligible child and ~~\$70~~\$154 for two or more eligible children.
- ED.** A household's premium payments as specified in this Section shall not exceed five percent of a household's gross income.
- FE.** A member's newborn is enrolled immediately upon the Administration receiving notification of the child's birth. Upon enrollment, the household's premium is redetermined.
- GF.** To remain eligible, the premium amount shall be paid according to this Article.
- HG.** American Indians are exempt from paying premiums.

**R9-31-1404. Hardship Exemption for a Member who is a Child Determined Eligible Under Article 3 of This Chapter**

- A.** Definitions. The following definitions apply to this Section:
- "Major expense" means the expense is more than 10 percent of the household's countable income under R9-31-304.
  - "Medically necessary" has the same meaning as defined in A.A.C. R9-22-101.
- B.** Hardship exemption. The Administration shall provide information to the head of household regarding the request for a hardship exemption. The Administration shall grant a hardship exemption from the disenrollment requirements under A.R.S. § 36-2982 for a household who:
- Is no longer able to pay the premium due to one of the hardship criteria in subsection (C), and
  - Submits a written request for a hardship exemption and provides all necessary written information at the time of request.
- C.** Hardship criteria. To be eligible for a hardship exemption, a household shall have:
- Medically necessary expenses or health insurance premiums that:
    - Are not covered under Medicaid or other insurance, and
    - Exceed 10 percent of the household's countable income under R9-31-304;
  - Unanticipated major expense, related to maintaining a residence for the household or transportation for work;

3. A combination of medically necessary expenses under subsection (C)(1) and unanticipated major expenses under subsection (C)(2) that exceed 10 percent of the household's countable income under R9-31-304; or
  4. Experienced the death of a household member during the month the premium ~~was not paid~~ is due.
- D.** Written hardship exemption request. The Administration shall not consider a hardship exemption unless the Administration receives the written request and information under subsection (C) by the due date specified in the Administration's notice that explains the undue hardship exemption requirements.
- E.** Notification. The Administration shall notify the head of household of the approval or denial of the request for exemption and discontinuance under R9-31-310, no later than 10 days from the date the Administration received the request.
- F.** Appeal and Request for hearing. The head of household may appeal and request a hearing concerning the discontinuance and denial of the hardship exemption.

**R9-31-1409. Payment Due Date for Current ~~Month~~ Year**

The ~~monthly~~ annual premium payment is due ~~on the 15th day of the month for coverage of that month~~ on the date of enrollment and on the same date annually thereafter. This would be considered a current payment.

**R9-31-1411. Past Due Payment**

- A.** Past due payment date. A payment is considered past due if the Administration receives the payment ~~after the 15th day of the month~~ more than 15 days after the date of enrollment.
- B.** Payment not received. If ~~an annual~~ an annual payment ~~for a month~~ is not received in full by the last working day of the ~~month~~ year in which the payment is due, the Administration shall include the past and current due amounts in the next billing statement.

**R9-31-1415. Reimbursement of a Premium**

- A.** A premium paid in advance is nonrefundable, unless the member is disenrolled at least 15 days prior to the ~~month~~ year of coverage.
- B.** A premium paid during an appeal and request for hearing process is applied as specified in R9-31-1419.

**R9-31-1416. Allocation of Payment for an Eligible Member**

Except for payments specified in R9-31-1419 of this Article, all payments received for eligible members shall first be applied to any past due amounts ~~for prior months~~ owed to the Administration for a child determined eligible under Article 3 of this Chapter. Any remaining amounts shall then be applied to the amount due for the current ~~month~~ year for a child eligible under Article 3 of this Chapter.

**R9-31-1417. Change in Premium Amount**

- A.** When there is a decrease in the premium amount and the change is processed by the 25th day of the 12th month of eligibility in that eligibility year, then the effective date of the change shall begin on the first day of the following the month in which the amount of the premium change is processed eligibility year.
- B.** When there is a decrease in the premium amount and the change is processed after the 25th day of the 12th month of eligibility in that eligibility year, then the effective date of the change shall begin on the first day of the eligibility year following that one ~~second~~ month in which the amount of the premium change is processed.
- C.** When there is an increase in the premium amount, the effective date of the change shall begin with the first ~~month~~ day of the following eligibility year following advance notice of at least ten days.

**R9-31-1418. ~~Discontinuance for Failure to Pay Premium~~ Repealed**

- ~~**A.** Discontinuance notice. The Administration shall send an adverse action notice to discontinue eligibility if the Administration does not receive the past and current due premium amounts by the 15th day of the current month. The Administration shall follow the discontinuance notice requirements under R9-31-310(B).~~
- ~~**B.** Discontinuance rescinded. The Administration shall rescind the discontinuance and continue eligibility if the past due amount for at least one prior month is received by the Administration in full before the effective date of the discontinuance.~~
- ~~**C.** Discontinuance of eligibility. Except as provided in R9-31-1419, the Administration shall discontinue eligibility on the effective date of the discontinuance if the past due amount for at least one prior month is not received by the Administration in full before the effective date of the discontinuance.~~

**R9-31-1419. Premium Payment During the Appeal and Request for Hearing Process**

- ~~**A.** Discontinuance of eligibility. To receive coverage from the time an appeal and request for hearing is filed for a discontinuance of eligibility until a Director's decision is made.~~
- ~~1. A member shall:
 
    - ~~a. File an appeal and request for hearing prior to the effective date of the discontinuance.~~
    - ~~b. Submit the full monthly premium amount to the Administration prior to the date of the discontinuance, and~~
    - ~~c. Continue to pay the full monthly premium amount each month during the hearing process.~~~~
  - ~~2. Failure of the member to pay the full premium shall result in the loss of eligibility effective the first of the next month.~~
  - ~~3. If the decision is upheld, the Administration shall not refund any premium amounts that have been paid during the hearing process.~~
- ~~**B.** Increase in premium amount. To stop the Administration from increasing the premium amount from the time an appeal and request for hearing is filed until a Director's decision is made.~~
- ~~1. A member shall file an appeal and request for hearing prior to the effective date of the action. The member shall pay the lower premium amount until the decision is made.~~
  - ~~2. If the decision to increase the premium is upheld, the member shall be responsible for paying the higher premium retroactively from the proposed effective date of the increase in the premium amount that is being appealed.~~
- ~~**C.** Imposition of a premium. To receive coverage from the time an appeal and request for hearing is filed for an imposition of a premium until a Director's decision is made.~~
- ~~1. A member shall file an appeal and request for hearing in accordance with the time-frame as specified in R9-34107.~~

**EPA revisions to 40 CFR 60 Subpart EEEE**

On April 17, 2024, EPA revised 40 CFR 60 Subpart EEEE to remove the Title V permitting requirements for ACI units that burn only wood waste, clean lumber, and yard waste (89 FR 27392). Compared to traditional outdoor burning of wood waste and related materials, ACIs emit significantly lower levels of air pollution. The federal revisions to Subpart EEEE essentially reclassified wood burning ACI units from major sources of air pollution requiring a Title V permit, to lesser sources requiring only a minor source permit.

**How other State’s regulate ACI**

The table below shows how ACI are permitted in other states and their associated permit fees.

State	Permitting Procedure and Costs for ACI
Utah	The Utah Department of Environmental Quality has removed the Title V permit requirements for ACI units that only burn wood waste. This small source exemption, could cover an ACI if its emissions stay below a certain threshold and are not subject to Title V for other reasons. If an ACI unit does not qualify for a small source exemption (which costs \$350.00), normal permitting fees apply. Like Arizona, Utah determines permitting fees by the emissions produced by the ACI. Since most wood burning ACI produce emissions that classify them as a minor source the permitting fees in Utah would be around \$750 for a generic permit for a minor source with a renewal fee of 1,000.
Colorado	Colorado Environmental Quality requires operators to obtain an Air Curtain Destructor Permit/ Construction permit which has a \$363.00 permit administration fee. ACI units are also subject to annual emissions fees which are based on the actual emissions produced. For example, after January 1, 2026, ACIs can be charged \$84.00 per ton of criteria pollutant and \$557.00 per ton of hazardous air pollutant.
Nevada	The Nevada Division of Environmental Protection, like ADEQ determines the permit type and fees based on the emissions produced by the permitted source. In Nevada a wood burning ACI would be classified as a Class II permit, with an application fee of \$1,500 with an administrative/maintenance fee of \$500.
New Mexico	According to the New Mexico Department of Environmental Quality, a New Source Review (NSR) general construction permit is required. The permit application and modification costs (\$5,230). If the ACI is relocated the fee is \$523.00. In addition to the permit fee, NSR Construction Permits are assessed an annual fee at the beginning of each year. This fee is adjusted each year relative to the Consumer Price Index. The new fees take effect January 1 of each calendar year.

**Why must the rule be amended?**

In order to reflect the federal revisions ADEQ must reclassify the Class I, Title V general permits for ACI units to Class II, Title V, general permits. This means that ACI will no longer be subject to the fee schedule under A.A.C. R18-2-326(C) for Class I, Title V general permits, but instead will be subject to an increased annual administrative fee for Class II, Title V general permits under A.A.C. R18-2-511(B). Currently under A.A.C. R18-2-326(C), the permits for ACI units are subject to an annual administrative fee of \$750 (around \$1,140 after being adjusted according to the Consumer Price Index), but without a rulemaking the annual administrative fee for ACI permits will increase to \$4,520, as stipulated in the table under A.A.C. R18-2-511(B). ADEQ currently permits 5-6 ACI units at a time throughout the State. In total these units burn around six tons of wood material annually. This \$3,060 fee increase will intensify the financial burden on permittees and, as a result, Arizona could see an increase in pollution as the affected permittees switch to less safe and more polluting forms of wood waste disposal such as open burning.

Therefore, as directed by A.R.S. § 41-1039(A)(2) ADEQ seeks to reduce the increased financial and regulatory burden on permittees by amending the table in A.A.C. R18-2-511(B) to include “Class II Title V Air Curtain Incinerators” as a general permit source category with a corresponding annual administrative fee of \$750.

**How the New Fee was Determined**

As required under § 41-1008(A)(1), ADEQ has the authority to determine Class II, Title V permit fees under A.R.S. § 49-426 (E)(2) based on the total actual cost of processing the permit application, as long as the fee does not exceed twenty-five thousand dollars. Based on this criterion, ADEQ determined that the current fee of \$750 under A.A.C. R18-2-326(C), is still appropriate. Not only does a fee of \$750 satisfy the statutory criteria under A.R.S. § 49-426(E)(2), it imposes the least amount of financial burden on permit holders, while being protective of air quality. ADEQ anticipates this rulemaking will not impose any additional bur-

den on the regulated community, but will result in increased environmental benefits through the mitigation of less safe burning practices, while maintaining the current fees associated with ACI units.

**Why is open burning not a viable alternative to ACI use?**

A.R.S. § 49-501 defines open burning or “open outdoor fire” as the “combustion of combustible materials of any type outdoors, in the open where the products of combustion are not directed through a flue.” Open burning is a less safe alternative to ACI use that can only be used to dispose of materials approved under statute such as weed abatement, pest prevention, agricultural purposes, etc. Those conducting open burning are required obtain a permit through the State, local government, or fire department with jurisdiction where the fire is to be set. Open burning is a less viable alternative to ACI use because if conducted incorrectly it can lead to extensive fines, poor air quality, and wildfires.

The Arizona Department of Forestry and Fire Management’s (DFFM) 2024 Annual Wildland Fire Report, states that every year 9 out of 10 wildfires are started by humans and 1,400 of the State’s wildfires in 2024 were human-caused. The number of human-caused wildfires correlates with a 2017 study published in Proceedings of the National Academy of Sciences of the United States of America which found that waste burning contributes to 29% of all U.S. wildfires (J.K. Balch et. al, Human-started wildfires expand the fire niche across the United States, Proc. Natl. Acad. Sci. U.S.A. 114 (11) 2946-2951(2017).

Due to Arizona's warmer climate, especially in areas classified as non-attainment for certain criteria air pollutants such as Phoenix and Tucson, wildfires and even small fires used to burn waste can have significant impacts on the State's air quality. A 1997 EPA report found that emissions from open burning using a burn barrel produces more pollutants than a well-controlled municipal waste combustor that burns 200 tons of waste per day. This is due to a number of different factors, such as incomplete combustion due to lower fire temperatures and the dispersion of those emissions at ground level (Evaluation of Emissions from the Open Burning of Household Waste in Barrels, Vol. 1 Technical Report, EPA 1997).

The emissions from open burning are known to have a direct impact on Arizona's ozone and PM10 emission levels, and it is one of the reasons that “No Burn Day” restrictions are in place in areas like Maricopa County on high pollution advisory days. It is also the reason A.R.S. § 49-501 prohibits open burning annually from May 1st through September as part of the State's Five Percent Plan to reduce particulate matter pollution for certain areas of the State (Senate Bill 1552 48th Leg. 1st Reg. Sess. (Ariz.2007)). Therefore, while open burning is a less costly alternative to ACI use, it has a far more negative impact on the public and the environment. The table below shows how open burning and ACI units compare as methods of wood waste disposal in Arizona.

Comparing Methods of Wood Waste Disposal in Arizona		
	Open Burning	Air Curtain Incinerator
<b>Air Pollution Emissions</b>	Open burning emits high levels of smoke containing particulate matter (PM), carbon monoxide (CO), nitrogen oxides (NOx), and volatile organic compounds (VOCs) due to incomplete combustion and burning hazardous materials such as plastic (Backyard Burning, Environmental Effects, U.S. Env’tl. Prot. Agency (2016)). These pollutants contribute to ozone pollution (i.e. smog) and have negative effects on the environment and at-risk populations.	ACI emit lower levels of smoke containing PM and NOx because the units burn materials more completely and efficiently while the air curtain minimizes the release of smoke.
<b>Uses</b>	According to A.R.S. § 49-501 open burning or outdoor fires are permitted for cooking, warmth, under an open burn permit, for the disposal of dangerous materials where there is no safe alternative method, and when set by public officers in the performance of public duty.	ACIs are used in Arizona for construction, landfills and waste management, landscaping and forestry.
<b>Wildfire Risk</b>	Open burning poses a higher risk of accidental residential, bush, and forest fires during drought conditions. (Backyard Burning, Environmental Effects, U.S. Env’tl. Prot. Agency (2016)). Fire hazards increase when fires are left unattended, the fires grow too large or are not fully extinguished.	ACI are safer because the fire is contained within the incinerator.
<b>Materials Burned</b>	Yard waste, untreated wood, agricultural waste, household waste, dangerous materials with no alternative method of disposal, weed abatement, pest control, and all other purposes listed under A.R.S. § 49-501.	Clean wood, yard waste, and clean lumber.
<b>Regulations</b>	Open burning is prohibited by A.R.S. § 49-501 from May 1 <sup>st</sup> through September 30 <sup>th</sup> in the Phoenix Metropolitan Area (Area A). The practice requires an open burn permit issued by the State or local government, or fire department with jurisdiction over the location where the burn will take place.	ACI are subject to federal and state laws and regulations.
<b>Cost</b>	Generally lower costs are associated with open burning. However, if an open burn grows out of control and causes damage the associated costs greatly increase. The out of control fires could lead to criminal charges (e.g. arson, reckless burning, manslaughter, etc.) and prison time. The person who lit the fire could also be liable for fines and the cost of emergency services needed to extinguish the fire.	Higher initial costs associated with the purchase of an ACI unit, usually around \$100- 300,000. But there are potential cost savings and profits through reduced disposal costs and selling the resulting wood ash as fertilizer.

**7. A reference to any study relevant to the rule that the agency reviewed and proposes either to rely on or not to rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:**

Not applicable.

**8. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:**

Not applicable.

**9. The preliminary summary of the economic, small business, and consumer impact:**

The following discussion addresses each of the elements required for an Economic, Small Business, and Consumer Impact statement (EIS) under A.R.S. § 41-1055.

**1. *An identification of the rulemaking.***

ADEQ is proposing this rulemaking is to ensure that the annual permitting fees prescribed under A.A.C. Title 18, Chapter 2, Article 5 (General Permits) for operating ACI will remain unchanged in light of the revisions made by EPA to 40 CFR 60 Subpart EEEE

**2. *Identification of the persons who will be directly affected by, bear the costs of, or directly benefit from the rules:***

***Identification of affected stakeholders***

The stakeholders in this rulemaking are air quality permittees who own and operate ACI units that burn only wood waste, clean lumber, and yard waste and ADEQ. ADEQ currently permits 5-6 ACI units at a time throughout the State. In total these units burn around six tons of wood material annually. The following stakeholders have an interest in and directly benefit from the rulemaking.

- The Arizona Department of Environmental Quality or the Department
- Permittee City and County Agencies
- The General Public
- Permittee Privately Owned Businesses

At this time, the Department is not aware of any stakeholders opposed to this proposal.

***General and Specific Impacts***

ADEQ must reclassify the Class I, Title V general permits for ACI units to Class II, Title V, general permits in order to reflect EPA's revisions to 40 CFR 60 Subpart EEEE. However, in doing this ACI will no longer be subject to the fee schedule under A.A.C. R18-2-326(C) for Class I, Title V general permits, but instead will be subject to an increased annual administrative fee for Class II, Title V general permits under A.A.C. R18-2-511(B). Currently under A.A.C. R18-2-326(C), the permits for ACI units are subject to an annual administrative fee of \$750 (around \$1,140 after being adjusted according to the Consumer Price Index), but without a rulemaking the annual administrative fee for ACI permits will increase to \$4,520, as stipulated in the table under A.A.C. R18-2-511(B). This \$3,060 fee increase will intensify the financial burden on permittees and, as a result, Arizona could see an increase in pollution as the affected permittees switch to less safe and more polluting forms of wood waste disposal. ADEQ therefore, seeks to reduce the increased financial and regulatory burden on permittees by amending the table in A.A.C. R18-2-511(B) to include "Class II Title V Air Curtain Incinerators" as a general permit source category with the previous annual administrative fee of \$750. ADEQ anticipates no economic impact as shown in the table below. If A.A.C. R18-2-511 is not amended, the aforementioned permittees will be the primary bearers of the increased permit costs.

**3. *Cost/benefit analysis:***

***a. Part I - Cost/Benefit Stakeholder Matrix***

The table below displays the potential impact the rulemaking could have on each of the identified stakeholders. As the purpose of the rulemaking is to maintain the current fees associated with ACI, ADEQ does not foresee any negative economic impacts as explained in the table below.

Description of Affected Groups	Description of Effect	Increased Cost/Decreased Revenue or Benefit	Decreased Cost/Increased Revenue or Benefit
The Department	The Department will collect the same fees as it did previously and no change to the administrative burden.	None	None
Permittee City and County Agencies	The counties will pay the same amount of fees as in previous years.	None	None

Permittee Privately Owned Businesses	Privately owned businesses will pay the same amount of fees as in previous years.	None	None
General Public	None	None	Increased health and environmental benefits, by mitigating open burning.

None	Minimal	Moderate	Substantial	Significant
The Department expects no increased costs or revenue.	\$1,000 or less	\$1,000 to \$10,000	\$10,001 or more	Cost/Burden cannot be calculated, but the Department expects it to be significant.

**b. Part II - Individual Stakeholder Summaries/Calculations**

The following subsection provides an explanatory discussion regarding the costs and benefits to each of the expected stakeholders. This subsection outlines the key factors and analysis used to determine the impact of the findings reported in the tables of the previous subsection.

**The Department**

The Arizona Department of Environmental Quality issues permits under A.A.C. Title 18, Chapter 2, Article 5 to all the owners and operators of ACI within the State. ADEQ permits 5-6 ACI units annually, and while this number seems small, each of these units can burn up to 35 tons of wood material per day and a total of 3,500 tons per year. The Department ensures that the State's fees and regulations associated with owning and operating ACI meet, but are not more stringent than the federal requirements. ADEQ uses A.A.C. R18-2-511(B) to inform owners and operators of the annual fees associated with their Class II, Title V general permits. With this rulemaking ADEQ seeks to reduce the increased financial burden on permittees by amending the table in A.A.C. R18-2-511(B) to include "Class II Title V Air Curtain Incinerators" as a general permit source category with a corresponding annual administrative fee of \$750. ADEQ anticipates this rulemaking will not impose any additional burden on the regulated community, but will result in increased environmental benefits through the mitigation of increased open burning, while maintaining the current fees associated with ACI units. Additionally, ADEQ does not anticipate any additional administrative costs to the department as a result of this action as the fees will remain the same.

**Permittee City and County Agencies**

The City of Sedona, Yuma County, and Coconino Public Works are the city and county agencies that are permitted by ADEQ to operate ACI units in Arizona. This rulemaking should have no impact on county staffing levels, cash flow, or industry entry, as the purpose of the rulemaking is to avoid increases to the current permit fees. However, if this rulemaking is not completed, there could be a minor impact to the counties cash flow, as the permitting fee for the ACI units would increase significantly due to the changes in permit class resulting from revisions to federal law.

**General Public**

ADEQ anticipates this rulemaking will result in increased health and environmental benefits for the general public by decreasing the need for large scale open burning. A.R.S. § 49-501 allows residents to burn clean household waste (wood, landscape materials, etc.) if they obtain an open burn permit. When household waste such as wood and leaves are burned they produce smoke which is a mixture of gases and fine particulate matter (PM). Smoke can also contain several other toxic air pollutants such as formaldehyde, benzene, etc.

People exposed to smoke can experience health issues such as difficulty breathing, coughing, lung infections, pneumonia, allergies, etc. Vulnerable populations such as children and the elderly are especially susceptible to these pollutants. Because ACI burn wood at higher temperatures there is less smoke, that what is produced by open burning. Therefore, by decreasing the administrative fee and thus making ACI more accessible there will be less need for large scale open burning and increased health and environmental benefits.

**Permittee Privately Owned Small Businesses**

There are three privately owned small businesses within Arizona that currently operate ACI units, they are eco-friendly waste management and landscaping companies. This rulemaking should have no impact on staffing levels, cash flow, etc. as the purpose of the rulemaking is to maintain the current permit fees. However, if this rulemaking is not completed there could be some impact to each of the businesses as the permitting fee for the ACI units will increase significantly due to the changes made under 40 CFR 60 Subpart EEEE. The following table explains the various factors ADEQ considered for this rulemaking that would benefit small businesses and an explanation as to why those factors were not implemented.

A.R.S. § 41-1035 Methods	ADEQ Explanation
1. Establish less stringent compliance or reporting requirements in the rule for small businesses.	ADEQ is unable to establish less stringent compliance and reporting requirements because Arizona's air quality permitting program must adhere to the requirements under Clean Air Act, 40 CFR 60 Subpart EEEE, 40 CFR § 52.120, and 40 CFR 70.6.
2. Establish less stringent schedules or deadlines in the rule for compliance or reporting requirements for small businesses.	ADEQ is unable to establish less stringent schedules or deadlines in the rule for compliance and reporting requirements for small businesses because Arizona's air quality permitting program must adhere to the requirements established under the Clean Air Act, 40 CFR 60 Subpart EEEE, 40 CFR § 52.120, and 40 CFR 70.6.
3. Consolidate or simplify the rule's compliance or reporting requirements for small businesses.	ADEQ is unable to consolidate or simplify the rules compliance or reporting requirements for small businesses because Arizona's air quality permitting program must adhere to the requirements established under Clean Air Act, 40 CFR 60 Subpart EEEE, 40 CFR § 52.120, and 40 CFR § 70.6.
4. Establish performance standards for small businesses to replace design or operational standards in the rule.	ADEQ is unable to establish performance standards for small businesses to replace design or operational standards because Arizona's air quality permitting program must adhere to the requirements established under Clean Air Act, 40 CFR 60 Subpart EEEE, 40 CFR § 52.120, and 40 CFR § 70.6.
5. Exempt small businesses from any or all requirements of the rule.	ADEQ is unable to exempt small businesses from any or all requirements of the rule because Arizona's air quality permitting program must adhere to the requirements established under Clean Air Act, 40 CFR 60 Subpart EEEE, 40 CFR § 52.120, and 40 CFR § 70.3.

**4. A general description of the probable impact on private and public employment in business agencies, and political subdivisions of this state directly affected by the rulemaking:**

The rulemaking should have no impact on private and public employment in business, agencies, or political subdivisions of this State. This is because the purpose of this rulemaking is to maintain the status quo by implementing the previously established fees. However, should the rulemaking not move forward, there could be financial impacts on all of the aforementioned entities.

**5. A statement of the probable impact of the rules on small business:**

See table in section #3 under "Permittee Privately Owned Small Businesses."

**6. A statement of the probable effect on state revenues:**

Decreasing the permit fee amount should have a negligible impact on state revenue, as the effect of this decrease is to maintain the current fee amount. As previously mentioned, there are only 5-6 ACI units operating in the State, so the permitting fees for these units are not significant enough to have an impact on state costs, tax revenues, business activity, etc. To ADEQ the air quality benefits from ACI units outweigh any minimal loss in fees.

**7. A description of any less intrusive or less costly alternative methods of achieving the purpose of the rulemaking:**

A less intrusive or less costly alternative method of achieving the purpose of this rulemaking would be to further decrease the permit fee or eliminate the permit fee entirely. As required under A.R.S. § 49-426 (E)(2) the fees for Class II Title V permits are determined based on the total actual cost of processing the permit application, and cannot exceed twenty-five thousand dollars. Therefore, because the current fee is based on the actual costs of processing the permit decreasing or eliminating the fee is not possible.

However, some ACI units maybe exempt from certain permit regulations due to their size. In Arizona, ADEQ determines whether or not a source needs a permit by the sources potential to emit (PTE). PTE is the maximum amount of regulated air pollution a source could theoretically release into the atmosphere under its operational design, operating year-round, 24 hours a day, without operating limitations. For example, a small ACI with an operating capacity under 8.5 tons per hour (TPH) could be eligible to obtain a registration instead of a permit, therefore avoiding the permitting fees. Whereas an ACI with an operating capacity over 8.5 TPH would need to obtain a general or individual permit and be subject to the fees associated with the permit. Since certain ACI units have the PTE requiring a general or individual permit, it is necessary to maintain and revise the current general permit fee structure in order to reduce the fees now applicable to ACI.

**8. A description of any data on which the rule is based with a detailed explanation of how the data was obtained and why the data is acceptable data:**

Not Applicable.

**10. The agency's contact person who can answer questions about the economic, small business and consumer impact statement:**

**11. The time, place, and nature of the proceedings to make, amend, repeal, or renumber the rule, or if no proceeding is scheduled, where, when, and how persons may request an oral proceeding on the proposed rule:**

ADEQ has scheduled a virtual public proceeding to receive oral comments on the rules, in accordance with A.R.S. § 41-1023; the time, place, and location of the hearing are listed below:

Date: January 12, 2026

Time: 11 a.m.

Location: ONLINE (via GoToWebinar)

To join virtually, you will first need register using the following link: <https://attendee.gotowebinar.com/register/62906809951273565>. After you register, you will receive a confirmation email with information on how to join the oral proceeding at the scheduled time.

*Ability to comment.*

**PHONE**

United States: +1 (914) 614-3221

Access Code: 468-435-237

*Listen only; no ability to comment.*

Nature: Oral Proceeding on the proposed rules, with opportunity for formal comments on the record

Written or emailed comments related to this rulemaking may be submitted at any time during the public comment period to the person referenced in Item 9 above. Close of comment period will occur on Date of Hearing (TBD) at 5:00 p.m. ADEQ will take reasonable measures to provide access to department services to individuals with limited ability to speak, write or understand English and/or to those with disabilities. Requests for language translation, ASL interpretation, CART captioning services or disability accommodations must be made at least 48 hours in advance by contacting the Title VI Nondiscrimination Coordinator, Joaquin Marruffo Ruiz, at 520-628-6744 or [Marruffo.Joaquin@azdeq.gov](mailto:Marruffo.Joaquin@azdeq.gov). For a TTY or other device, Telecommunications Relay Services are available by calling 711.

ADEQ tomará las medidas razonables para proveer acceso a los servicios del departamento a personas con capacidad limitada para hablar, escribir o entender inglés y/o para personas con discapacidades. Las solicitudes de servicios de traducción de idiomas, interpretación ASL (lengua de signos americano), subtítulo de CART, o adaptaciones por discapacidad deben realizarse con al menos 48 horas de anticipación comunicándose con el Coordinador de Anti-Discriminación del Título VI, Joaquin Marruffo Ruiz, al 520-628-6744 o [Marruffo.Joaquin@azdeq.gov](mailto:Marruffo.Joaquin@azdeq.gov). Para un TTY u otro dispositivo, los servicios de retransmisión de telecomunicaciones están disponible llamando al 711.

**12. All agencies shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:**

A.R.S. § 49-426(H)(7) requires that the ADEQ director by rule adopt procedures for the issuance of general permits and A.R.S. § 49-426.02 requires the director to establish by rule conditions under which compliance with a permit issued pursuant to Title 49, Chapter 3 constitutes compliance with the applicable state requirements and the Clean Air Act.

**a. Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:**

R18-2-511 requires a general permit, because the rule regulates the administrative fees associated with the State's general air quality permits.

**b. Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:**

This rule is subject to 40 Code of Federal Regulations 60 Subpart EEEE and the Clean Air Act. The current rule and its proposed amendments satisfy A.R.S. § 49-104 as the rule is not more stringent than federal law.

**c. Whether a person submitted an analysis to the agency that compares the rule's impact of the competitiveness of business in this state to the impact on business in other states:**

Not applicable.

**13. A list of any incorporated by reference material as specified in A.R.S. § 41-1028 and its location in the rules:**

Not applicable.

**14. The full text of the rules follows:**

**ARTICLE 5. GENERAL PERMITS**

**R18-2-511. Fees Related to General Permits**

- A. Permit Processing Fee. The owner or operator of a source that applies for authority to operate under a general permit shall pay to the Director \$500 with the submittal of each application. This fee applies to the owner or operator of any source who intends to continue operating under the authority of a general permit that has been proposed for renewal. This fee also applies to requests for new Authorizations to Operate (ATOs) for new equipment.
- B. Administrative or Inspection Fee. The owner or operator of a source required to have a general permit, that has undergone initial startup by January 1, shall pay, for each calendar year, the applicable administrative or inspection fee from the table below, by February 1 or 60 days after the Director mails the invoice, whichever is later.

<b>General Permit Source Category</b>	<b>Administrative Fee</b>
Class I Title V General Permits	Administrative fee for category from R18-2-326(C)
Class II Title V Small Source	\$750
Other Class II Title V General Permits	\$4,520
	<b>Inspection Fee</b>
<u>Class II Title V Air Curtain Incinerators</u>	<u>\$750</u>
Class II Non-Title V Crematories	\$1,500
Other Class II Non-Title V General Permits	\$3,020

## NOTICES OF RULEMAKING DOCKET OPENING

---

---

This section of the *Arizona Administrative Register* contains Notices of Rulemaking Docket Opening under A.R.S. § 41-1021.

A docket opening is the first part of the administrative rulemaking process. It is an “announcement” that an agency intends to work on its rules.

When an agency opens a rulemaking docket to consider rulemaking, the Administrative Procedure Act (APA) requires publication of the Notice of Rulemaking Docket Opening in the Register.

Under the APA, effective January 1, 1995, agencies must submit a Notice of Rulemaking Docket Opening before beginning the formal rulemaking process. An agency may file the Notice of Rulemaking Docket Opening along with the Notice of Proposed Rulemaking.

The Office of the Secretary of State is the filing office and publisher of these notices. Questions about the interpretation of this information should be directed to the agency contact person listed in item #4 of this notice.

- 3. The subject matter of the proposed rule:**  
The Arizona Department of Environmental Quality (ADEQ) is pursuing a regular rulemaking to amend rules related to the onsite wastewater treatment facility (OWTF) general permit program. The amendments to Title 18, Chapter 1, Article 5 are limited to establishing and updating licensing time-frames for the OWTF program. The rulemaking would restructure the OWTF general permits and related rules to achieve stakeholder-identified goals of simplifying the permitting process, increasing flexibility of the general permits to account for modern technologies and updated standards, and the enhancement of human health and the environment through protective operations and monitoring requirements.

The purpose of Title 18, Chapter 1, Article 5 is to establish time-frames for ADEQ to make determinations on license applications. The rulemaking will be conducted pursuant to ADEQ’s authority under A.R.S. §§ 49-203(A)(5), 49-104(A)(1), and 41-1073.

**3. The subject matter of the proposed rule:**

Subject Matter: Portions of Gila, Maricopa, Pima, Pinal, and Santa Cruz counties are designated nonattainment for PM<sub>10</sub> and are subject to a federal implementation plan (FIP) (40 CFR 52.126(b)) promulgated by the U.S. Environmental Protection Agency (EPA) on May 14, 1973 to control total suspended particulate matter (TSP) from process sources. Pursuant to Clean Air Act Section 107(d)(3)(E)(ii), the FIP must be replaced with a state implementation plan (SIP) before the EPA Administrator will be able to redesignate an area to attainment. The Arizona Department of Environmental Quality (ADEQ) has determined that in order to submit an approvable SIP for the nonattainment areas in Gila, Maricopa, Pima, Pinal, and Santa Cruz counties to the EPA, regulatory amendments need to be made to A.A.C. R18-2-705, R18-2-708, R18-2-716, R18-2-720, R18-2-721, R18-2-722, and R18-2-730 to align the state PM<sub>10</sub> process weight equation standards with the current federal standard.

In addition, updates to A.A.C. R18-2-701 (Definitions) must be made to address concerns the EPA has raised regarding SIP approvability. Further, A.A.C. R18-2-702(A)(1) contains an incorrect cross reference to the definition of “existing source” that references R18-2-101 instead of R18-2-701. This rule should be amended so it references the correct definition. A.A.C. R18-2-724, which establishes emission limits for existing fossil-fuel fired industrial and commercial equipment, does not contain language clearly establishing an opacity limit for this category of stationary source. Due to this lack of clarity, permittees have been uncertain whether the opacity limit for fossil-fuel fired industrial and commercial equipment is 15% or 20% as provided in A.A.C. R18-2-702(B)(3), General Provisions. ADEQ determined that 15% opacity is the standard since the permittee is required to submit an excess emission report if the opacity exceeds 15%. A.A.C. R18-2-724(J) should be amended to clarify existing state law.

Finally, in order to maintain authority for recently adopted or amended New Source Performance Standards (NSPS) and National Emission Standards for Hazardous Air Pollutants (NESHAP), ADEQ must incorporate new or amended standards into A.A.C. R18-2-901, Standards of Performance for New Stationary Sources, and R18-2-1101, National Emission Standards for Hazardous Air Pollutants, as required by Section 112 of the Clean Air Act and A.R.S. § 49-426.03. The delegation of these programs benefits ADEQ because it allows ADEQ to enforce air quality standards within the state rather than relying on EPA to maintain those standards.

**3. The subject matter of the proposed rule:**

The Arizona Department of Environmental Quality (ADEQ) is pursuing a regular rulemaking to amend rules related to the onsite wastewater treatment facility (OWTF) general permit program. The rules to be amended, added, and removed in Title 18, Chapter 9 will comprise the programmatic components of the OWTF program, including application requirements and performance and treatment standards. The rulemaking will restructure the OWTF general permits and related rules to achieve stakeholder-identified goals of simplifying the permitting process, increasing flexibility of the general permits to account for modern technologies and updated standards, and the enhancement of human health and the environment through protective operations and monitoring requirements. ADEQ last amended the program in a limited update rulemaking effective June 19, 2023. The last substantive rulemakings related to OWTFs were in 2001 and 2005. The rulemaking will be conducted pursuant to ADEQ’s authority under A.R.S. §§ 49-203(A)(5), 49-203(A)(8), 49-203(B)(2), 49-104(A)(1), 49-104(A)(7), and 49-104(B)(13).

## NOTICES OF PUBLIC INFORMATION

---

---

Agencies use Notices of Public Information to notify stakeholders about other information that pertains to rulemaking notices under A.R.S. § 41-1013(B)(14). When required by law, agencies also use this notice to notify the public about information not related to rulemaking.

The most common use for this notice is to correct errors printed in a rulemaking notice or extend a public comment period.

The Administrative Rules Division of the Office does not provide a standard template for Notices of Public Information because the content of this type of notice varies.

An agency shall follow the Office's formatting standards when preparing this type of notice and use a numbered list of questions and answers. Additionally, an agency receipt shall be filed with a Notice of Public Information.
