ABOUT THIS PUBLICATION

The authenticated pdf of the *Administrative Register* (A.A.R.) posted on the Office of the Secretary of State's website is the official published version for rulemaking activity in the state of Arizona. The *Register* is published weekly by issue number, every Friday by the Administrative Rules Division.

The *Register* is cited by volume and page number. Volumes are published by calendar year. Page numbering continues in each weekly issue.

The *Register* contains notices of docket openings, proposed, final, emergency, expedited, exempt, and terminated rules as defined in Arizona Revised Statutes known as the Arizona Administrative Procedure Act (APA), and A.R.S. Title 41, Chapter 6, Articles 1 through 10. Other "notice only" filings are published in the *Register* which includes Informal Public Meetings on an Open Rulemaking Docket, Formal Rulemaking Advisory Committees, Public Information, Oral Proceedings, Public Hearings, Public Meetings, Agency Guidance Documents, Substantive Policy Statements, Proposed Delegation Agreements, Final Delegation Agreements, and Agency Ombudsman.

ABOUT AMENDMENTS TO RULES

Rulemaking is defined in the APA. Rules can be made (all new text); amended (changed) or repealed (removed) as codified in the *Arizona Administrative Code*; or renumbered (moving rules to a different Section number). New rules published in the *Register*, whether proposed or made as a final rule, are underlined; repealed rules (text being removed), is stricken.

ABOUT THE TABLE OF CONTENTS

On the cover: Each agency is assigned a Chapter in the *Arizona Administrative Code* under a specific Title. Titles represent broad subject areas. The Title number is listed first; with the acronym A.A.C., which stands for the *Arizona Administrative Code*; following the Chapter number and Agency name, then program name. For example, the Secretary of State has rules on rulemaking in Title 1, Chapter 1 of the *Arizona Administrative Code*. The citation for this Chapter is 1 A.A.C. 1, Secretary of State, Rules and Rulemaking.

ABOUT FILE NUMBERS

Notices filed in the Division are assigned a file number. This number is enclosed in brackets and located at the top right of the published documents in the *Register*. Original filed notices are available in pdf for free. For a copy, contact our Division with the file number.

ABOUT THE ADMINISTRATIVE CODE

The *Arizona Administrative Code* (A.A.C.) contains codified text of rules. When published, the underling and striking of text in notices as published in the *Register* are removed. The codified rules have either been approved by the Governor's Regulatory Review Council or Attorney General as prescribed under the APA. The *Code* also contains rules exempt from the rulemaking process, and emergency rules. The authenticated pdf of *Code* Chapters posted on the Office of the Secretary of State's website are the official published version of rules in the A.A.C. The *Code* is posted online for free.

Participate in Rulemaking

Review Published Notices

Those interested in participating in the rulemaking process should review notices published in the *Arizona Administrative Register*.

The Preamble at the beginning of a notice contains information about the rulemaking and provides agency justification and regulatory intent. Agency contact information is published in the Preamble for those interested in participating in the rulemaking process.

The Preamble includes reference to the specific statutes authorizing the agency to make the rule, an explanation of the rule, reasons for proposing the rule, and the preliminary Economic Impact Statement.

Agency Contact Lists

Many agencies maintain stakeholder lists to contact those interested in proposed changes to rules. Check an agency's website and its newsletters for information about notices, oral proceedings, and meetings. Feel like a change should be made to a rule and an agency has not proposed changes? You can petition an agency to make, amend, or repeal a rule. The agency must respond to the petition. Refer to A.R.S. § 41-1033 for more information.

Attend a Public Meeting

Stakeholders can attend an public meeting, known as an oral proceeding, being conducted by the agency on a Notice of Proposed Rulemaking. A proceeding may be listed in the Preamble of a Notice of Proposed Rulemaking or an agency may inform the public of the meeting in a Notice of Oral Proceeding. Attend the meeting and be prepared to speak and comment.

An agency may not have a public meeting scheduled on the Notice of Proposed Rulemaking. If not, you may request the agency schedule a proceeding. This request must be put in writing within 30 days after the published Notice of Proposed Rulemaking.

Refer to information in the Preamble.

Write the Agency

Put your comments in writing and send them to the agency. In order for the agency to consider your comments, the agency must receive them by the close of record. The comment must be received within the 30-day comment timeframe following the *Register* publication of the Notice of Proposed Rulemaking.

You can also submit to the Governor's Regulatory Review Council written comments that are relevant to the Council's power to review a given rule (A.R.S. § 41-1052).

The Council reviews the rule at the end of the rulemaking process, before the rules are filed with the Secretary of State.

THE REGULAR RULEMAKING PROCESS

Authority

An agency is given the authority to promulgate a rule under the APA, statute passed by the Legislature, or ballot proposition, which is passed by the voters.

An agency may be given certain exemptions to the APA or portions thereof.

Information about the exemptions are provided in the Preamble of the rulemaking.

Permission to Proceed

Before moving forward with any notice, an agency first receives permission from the governor's office to proceed with a rulemaking.

The governor's office provides the agency a written response to proceed that is filed with the notice.

Stakeholder and Public Notification

The agency opens a docket. It is filed as a Notice of Rulemaking Docket Opening for publication in the *Register*.

The notice includes agency contact information along with its intentions to make, amend, repeal, or renumber, a rule and its justification to perform the rulemaking action. Often an agency will file the docket with the proposed rulemaking.

An agency may decide not to proceed and not file final rule with G.R.R.C. within one year after proposed rule is published. A.R.S. § 41-1021(A)(4)

Agency Proposes Rules, Public Reviews Proposal

The agency files a Notice of Proposed Rulemaking and the notice is published in the *Register*.

The public is given the opportunity to comment on the proposed rules. The agency opens the comment period to last at least 30 days. Written comments are accepted informally.

The notice *may* contain information about oral proceedings.

A proceeding is held no sooner than 30 days after the notice is published.

If no proceeding is scheduled, the agency provides information on how a person may request to speak to the agency in person at an oral proceeding.

Oral Proceeding

A person requests an agency to conduct an oral proceeding based on the information provided in its Notice of Proposed Rulemaking.

The agency prepares a Notice of Oral Proceeding on Proposed Rulemaking, schedules one or more proceeding, and files the notice for publication in the *Register*.

When is occurs, an agency extends the public comment period.

Close of Record

After evaluating public comments and conducting an internal review of the rule, an agency:

1. Determines whether the rulemaking requires a substantial change. When an agency decides to make substantial changes to a proposed rule, it continues the process as outlined under the APA. The agency obtains permission to proceed as stated under #2 of this timeline. The agency prepares a Notice of Supplemental Proposed Rulemaking with the changes and files it for publication in the *Register*. Comments are once again solicited and reviewed by the agency.
2. Prepares and submits for review a Notice of Final Rulemaking for review and approval by G.R.R.C. or Attorney General. The Notice of Final Rulemaking must be submitted for review within 120 days after the close of record; or
3. Terminates the rulemaking. The agency may decided to terminate its docket and files a notice for publication in the Register notifying stakeholders of the termination. Refer to A.R.S. § 41-1021(A)(2).

Time Frame for Approval or Disapproval of the Notice

G.R.R.C. has 90 days to review and approve or return the rule package, in whole or in part; A.G. has 60 days.

The Approved Rule is Published in *Register* and Codified in the *Code*

After approval by G.R.R.C. or A.G., the rule becomes effective 60 days after filing the notice with the Office of the Secretary of State, unless otherwise indicated in the Preamble of the notice.

The Notice of Final Rulemaking is published in the *Register* and codified in the *Arizona Administrative Code*.

6. An agency's justification and reason why a rule should be made, amended, repealed or renumbered, to include an explanation about the rulemaking:

The Arizona Department of Environmental Quality (ADEQ) is proposing this rulemaking to update incorporations by reference of federal hazardous waste regulations, fulfilling the statutory mandate in A.R.S. § 49-922(A) to establish a hazardous waste management program equivalent to and consistent with the federal program. Arizona last updated its hazardous waste rules to match federal regulations on November 3, 2020, updating incorporations by reference to July 1, 2020. This rulemaking will update those incorporations to July 1, 2026. If this rulemaking does not proceed, Arizona risks losing its Hazardous Waste Program authorization and associated grant funding under the Federal Resource Conservation and Recovery Act (RCRA).

Federal Rule Incorporations - This rulemaking will incorporate by reference seven new and modified RCRA regulations promulgated by the U.S. Environmental Protection Agency (EPA) since 2020. These include:

- Modernizing Ignitable Liquids Determinations - 85 FR 40606: This rule updates flash point test methods to the current ASTM standards, defines aqueous as 50% water by weight, and provides alternatives to using mercury thermometers in SW-846 air sampling and stack emission methods.
- Conforming Changes to Canada Specific Hazardous Waste Import-Export Recovery and Disposal Operation Codes - 86 FR 54385: While Arizona does not receive authorization to administer most import/export functions, we are still required to adopt these provisions to maintain equivalency with the federal program. These specific revisions relate to 12 hazardous waste import-export recovery and disposal operations used in export and import notices submitted to EPA and reflect changes made to Canadian regulations.
- EPA Method 23 – Determination of Polychlorinated Dibenzo-P-Dioxins and Polychlorinated Dibenzofurans from Stationary Source - 88 FR 16774: This rule update specifies that Method 23 can be used instead of a similar method in SW-846. It also includes technical revisions to Method 23.
- Hazardous Waste Generator Improvements Rule, the Hazardous Waste Pharmaceuticals Rule, and the Definition of Solid Waste Rule; Technical Corrections - 88 FR 54086: This rule was effective 2023 and is the first of two technical correction rules. It corrected typographical errors, outdated or incorrect citations, and made minor clarifications.
- Phasedown of Hydrofluorocarbons: Management of Certain Hydrofluorocarbons and Substitutes Under the American Innovation and Manufacturing Act of 2020 - 89 FR 82682: This rule establishes an emissions reduction and reclamation program for HFC management in 40 CFR 84. It also updates 40 CFR 266 to show that HFC's recycled for reuse are excluded from 40 CFR 84 as long as 40 CFR 266 Subpart Q is followed.
- Integrating e-Manifest with Hazardous Waste Exports and Other Manifest-Related Reports, PCB Manifest Amendments, and Technical Corrections - 89 FR 60692: This rule adoption is similar to the previous Canadian import/export rule in that many of the provisions in this rule are administered by EPA directly however, our state is required to adopt the rule to maintain equivalency with the federal program. This rule made changes to import/export documentation requirements, amended three manifest-related reports, and made changes to regulations for shipments of hazardous waste that are exported for treatment, storage, or disposal.
- Hazardous Waste Generator Improvements Rule, the Hazardous Waste Pharmaceuticals Rule, and the Definition of Solid Waste Rule; Second Technical Corrections - 89 FR 99727: This rule is the second of the two technical correction rules. It makes technical corrections and clarifies provisions in the existing 3 rules in the title: Generator Improvements Rule, Pharmaceuticals Rule, and the Definition of Solid Waste Rule.

Formatting Note - Arizona's hazardous waste rules utilize a unique formatting convention to illustrate adjustments made to incorporated federal rules. Throughout the existing and proposed rule text, brackets [ ] enclose Arizona-specific language that modifies the incorporated federal regulations. Readers should pay special attention to this bracketed text, as it denotes areas where state rules differ from or adjust the federal rules.

R18-8-271 and 40 CFR 124 Readability - To improve the readability of the public participation requirements in A.A.C. R18-8-271(R-T), this rulemaking adopts the entirety of the relevant portions of 40 CFR 124 to allow readers to find all of the requirements in one place. This restatement of the federal rules is a reader convenience change which puts all of the relevant requirements into a single location and does not make broader substantive changes to the requirements.

Five-Year Review Technical Corrections - This rulemaking implements minor clarifying changes identified in ADEQ's five-year review report for Chapter 8 approved by the Governor's Regulatory Review Council (GRRC) on June 3, 2025. These updates include adding a web link to R18-8-260(M)(4)(c) indicating where the most current fee amounts can be found, and clarifying in R18-8-262(E)(, R18-8-264(I)(, R18-8-265(B)(, R18-8-265(E), and R18-8-270(C) that the provided phone numbers for ADEQ's Emergency Response Unit are intended strictly for reporting emergency environ-

mental incidents and not general emergencies, and updating incorporations by reference to the latest version of the CFR throughout Chapter 8 for portions of the EPA rules which have not changed.

Clarifying Registration Requirements - The rulemaking clarifies registration language in the existing rule text under R18-8-260(L). Currently, R18-8-260(L) references registration requirements for generators and transporters of hazardous waste outlined in A.R.S. § 49-929, and provides details on when and how registration should be completed. However, the current rules do not reference the registration requirements for hazardous waste treatment, storage, and disposal facilities (TSDF) also outlined in A.R.S. § 49-929, nor do they outline the registration requirements of hazardous waste resource recovery facilities outlined in A.R.S. § 49-930. The proposed rules reference the registration requirements for all facility types mentioned in A.R.S. § 49-929 and A.R.S. § 49-930, adding reference to TSDFs in R18-8-260(K) and to hazardous waste resource recovery facilities in R18-8-260(L),and provide details on how and when each should register.

CPI Adjustment Methodology - Finally, ADEQ is revising the methodology for annual Consumer Price Index (CPI) adjustments to hazardous waste program fees in R18-8-260(M)(4). The rule transitions from using the national Bureau of Labor Statistics inflation calculator to the localized Consumer Price Index for All Urban Consumers, Phoenix-Mesa-Scottsdale, AZ, all items. This modernized approach provides a more narrowly tailored and accurate calculation of Arizona's localized cost changes. The revised language also specifies that the adjusted fee amounts should be rounded down to the nearest cent.

7. A reference to any study relevant to the rule that the agency reviewed and proposes either to rely on or not to rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:

Not applicable

8. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:

Not applicable

9. The preliminary summary of the economic, small business, and consumer impact:

Overview and General Impact:

ADEQ anticipates this rulemaking will not impose any additional economic burden on the regulated community beyond what is already required under federal law. The primary impact of this rulemaking is the preservation of Arizona's Hazardous Waste Program authorization and its associated grant funding under the Federal Resource Conservation and Recovery Act (RCRA). By incorporating the most recently promulgated federal hazardous waste regulations, ADEQ fulfills its statutory mandate for equivalency and consistency with federal requirements.

Impact on the Regulated Community (Businesses, Generators, and TSDFs):

The regulated community will experience minimal to no new economic impacts as a direct result of this rulemaking. The seven EPA rules being incorporated (such as modernized ignitable liquids determinations, updated Canada import-export codes, and e-Manifest integration) are federal laws that Arizona businesses must comply with regardless of state adoption. While certain federal updates, such as the phasedown of hydrofluorocarbons, establish more stringent recycling standards than previous iterations, these burdens originate from federal mandates, not this state rulemaking. By updating state rules to match the federal rules, ADEQ prevents the regulated community from incurring the administrative costs and legal confusion associated with navigating dual, conflicting state and federal regulatory frameworks.

Regulatory Clarity:

This rulemaking proactively eases administrative burdens by improving the clarity, organization, and understandability of Chapter 8 rules. By streamlining A.A.C. R18-8-271, the proposed rules place all relevant public participation requirements in one centralized location, reducing the time and effort required for facility operators and the public to cross-reference state rules against the federal code. Additionally, the proposed rules eliminate redundant and unnecessary elements of the existing rules which are no longer required following the EPA's technical correction rules. This provides clarity to Chapter 8's rules overall and again reduces the need for cross-referencing state and federal rules.

Impact of adjusted CPI Methodology:

The regulated community will be impacted by the modernization of the Consumer Price Index (CPI) methodology used to adjust hazardous waste fees. ADEQ is shifting from a national inflation calculator to the United States Department of Labor's Phoenix-Mesa-Scottsdale CPI across all of its CPI adjusted fees. This narrowly tailored, Arizona-specific, index provides a more accurate calculation of cost changes based on the most localized data available. This also brings hazardous waste fees into conformity with the standard approach used for other ADEQ fees.

Additionally, the revised language requires the annual CPI adjustment to round down to the nearest cent, whereas current practice rounds to the nearest cent. This adjustment will provide a fractional economic benefit to rate payers during annual fee calculations.

Impact on Consumers and the Public:

Consumers and the general public are not expected to experience direct economic impacts from this rulemaking. The public will benefit from the continued state administration of a federally equivalent hazardous waste management program managed at the state level, as well as clearer public participation guidelines in the permitting process.

Impact on ADEQ and State Revenues:

The timely incorporation of federal regulations ensures ADEQ maintains its federal program authorization, securing continued grant funding under RCRA. The shift to the regional Phoenix-Mesa-Scottsdale CPI index ensures the Agency's fee revenues accurately reflect localized inflation and operational costs.

12. All agencies shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:

Not applicable

a. Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:

This rulemaking would amend an existing rule that requires a regulatory permit. This rulemaking does not require a general permit because:

1) Pursuant to A.R.S. § 41-1037(A)(1), federal law does not permit a general permit. General permits as defined by A.R.S. § 41-1001 are not recognized under federal HW regulations with which ADEQ is required to be consistent and;

2) Pursuant to A.R.S. § 41-1037(A)(2), a specific alternative permit is authorized by state statute under A.R.S. § 49-922(B)(5).

b. Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:

Yes, the federal hazardous waste regulations promulgated under Subtitle C of the Resource Conservation and Recovery Act (RCRA) and codified at 40 CFR 124, 260 through 266, 268, 270, and 273 are applicable to this rulemaking. The proposed rules are not more stringent than federal law. A.R.S. § 49-922(A) mandates that ADEQ adopt rules to establish a hazardous waste management program equivalent to and remain consistent with the federal hazardous waste regulations. By incorporating the latest EPA regulatory updates, ADEQ is fulfilling this statutory mandate.

R. § 124.31~~(a)~~ titled "Pre-application public meeting and notice" is ~~amended by deleting the following sentence~~ replaced by the following:

~~"For the purpose of this section only, 'hazardous waste management units over which EPA has permit issuance authority' refers to hazardous waste management units for which the State where the units are located has not been authorized to issue RCRA permits pursuant to 40 CFR 271."~~

(a) Applicability. The requirements of this section shall apply to all RCRA part B applications seeking initial permits for hazardous waste management units. The requirements of this section shall also apply to RCRA part B applications seeking renewal of permits for such units, where the renewal application is proposing a significant change in facility operations. For the purposes of this section, a "significant change" is any change that would qualify as a class 3 permit modification under 40 CFR 270.42. The requirements of this section do not apply to permit modifications under 40 CFR 270.42 or to applications that are submitted for the sole purpose of conducting post-closure activities or post-closure activities and corrective action at a facility.

(b) Prior to the submission of a part B RCRA permit application for a facility, the applicant must hold at least one meeting with the public in order to solicit questions from the community and inform the community of proposed hazardous waste management activities. The applicant shall post a sign-in sheet or otherwise provide a voluntary opportunity for attendees to provide their names and addresses.

(c) The applicant shall submit a summary of the meeting, along with the list of attendees and their addresses developed under paragraph (b) of this section, and copies of any written comments or materials submitted at the meeting, to the permitting agency as a part of the part B application, in accordance with 40 CFR 270.14(b).

(d) The applicant must provide public notice of the pre-application meeting at least 30 days prior to the meeting. The applicant must maintain, and provide to the permitting agency upon request, documentation of the notice.

(1) The applicant shall provide public notice in all of the following forms:

(i) A newspaper advertisement. The applicant shall publish a notice, fulfilling the requirements in paragraph (d)(2) of this section, in a newspaper of general circulation in the county or equivalent jurisdiction that hosts the proposed location of the facility. In addition, the Director shall instruct the applicant to publish the notice in newspapers of general circulation in adjacent counties or equivalent jurisdictions, where the Director determines that such publication is necessary to inform the affected public. The notice must be published as a display advertisement.

(ii) A visible and accessible sign. The applicant shall post a notice on a clearly marked sign at or near the facility, fulfilling the requirements in paragraph (d)(2) of this section. If the applicant places the sign on the facility property, then the sign must be large enough to be readable from the nearest point where the public would pass by the site.

(iii) A broadcast media announcement. The applicant shall broadcast a notice, fulfilling the requirements in paragraph (d)(2) of this section, at least once on at least one local radio station or television station. The applicant may employ another medium with prior approval of the Director.

(iv) A notice to the permitting agency. The applicant shall send a copy of the newspaper notice to the permitting agency and to the appropriate units of State and local government, in accordance with R18-8-271(I)(c)(1)(ix).

(2) The notices required under paragraph (d)(1) of this section must include:

(i) The date, time, and location of the meeting;

(ii) A brief description of the purpose of the meeting;

(iii) A brief description of the facility and proposed operations, including the address or a map (e.g., a sketched or copied street map) of the facility location;

(iv) A statement encouraging people to contact the facility at least 72 hours before the meeting if they need special access to participate in the meeting; and

(v) The name, address, and telephone number of a contact person for the applicant.

S. § 124.32~~(a)~~ titled "Public notice requirements at the application stage" is ~~amended by deleting the following sentence~~ replaced by the following:

~~"For the purpose of this section only, 'hazardous waste management units over which EPA has permit issuance authority' refers to hazardous waste management units for which the State where the units are located has not been authorized to issue RCRA permits pursuant to 40 CFR 271."~~

(a) Applicability. The requirements of this section shall apply to all RCRA part B applications seeking initial permits for hazardous waste management units. The requirements of this section shall also apply to RCRA part B applications seeking renewal of permits for such units under 40 CFR 270.51. The requirements of this section also do not apply to permit modifications under 40 CFR 270.42 or permit applications submitted for the sole purpose of conducting post-closure activities or post-closure activities and corrective action at a facility.

(b) Notification at application submittal.

(1) The Director shall provide public notice as set forth in R18-8-271(I)(c)(1)(viii), and notice to appropriate units of State and local government as set forth in R18-8-271(I)(c)(1)(ix), that a part B permit application has been submitted to the Agency and is available for review.

(2) The notice shall be published within a reasonable period of time after the application is received by the Director. The notice must include:

(i) The name and telephone number of the applicant's contact person;

(ii) The name and telephone number of the permitting agency's contact office, and a mailing address to which information, opinions, and inquiries may be directed throughout the permit review process;

(iii) An address to which people can write in order to be put on the facility mailing list;

(iv) The location where copies of the permit application and any supporting documents can be viewed and copied;

(v) A brief description of the facility and proposed operations, including the address or a map (e.g., a sketched or copied street map) of the facility location on the front page of the notice; and

(vi) The date that the application was submitted.

(c) Concurrent with the notice required under subsection (b), the Director must place the permit application and any supporting documents in a location accessible to the public in the vicinity of the facility or at the permitting agency's office.

T. § 124.33~~(a)~~ titled "Information repository" is ~~amended by deleting the following sentence~~ replaced by the following:

~~"For the purpose of this section only, 'hazardous waste management units over which EPA has permit issuance authority' refers to hazardous waste management units for which the State where the units are located has not been authorized to issue RCRA permits pursuant to 40 CFR 271."~~

(a) Applicability. The requirements of this section apply to all applications seeking RCRA permits for hazardous waste management units.

(b) The Director may assess the need, on a case-by-case basis, for an information repository. When assessing the need for an information repository, the Director shall consider a variety of factors, including: the level of public interest; the type of facility; the presence of an existing repository; and the proximity to the nearest copy of the administrative record. If the Director determines, at any time after submittal of a permit application, that there is a need for a repository, then the Director shall notify the facility that it must establish and maintain an information repository. (See 40 CFR 270.30(m)) for similar provisions relating to the information repository during the life of a permit).

(c) The information repository shall contain all documents, reports, data, and information deemed necessary by the Director to fulfill the purposes for which the repository is established. The Director shall have the discretion to limit the contents of the repository.

(d) The information repository shall be located and maintained at a site chosen by the facility. If the Director finds the site unsuitable for the purposes and persons for which it was established, due to problems with the location, hours of availability, access, or other relevant considerations, then the Director shall specify a more appropriate site.

(e) The Director shall specify requirements for informing the public about the information repository. At a minimum, the Director shall require the facility to provide a written notice about the information repository to all individuals on the facility mailing list.

(f) The facility owner/operator shall be responsible for maintaining and updating the repository with appropriate information throughout a time period specified by the Director. The Director may close the repository at his or her discretion, based on the factors in paragraph (b) of this section.

6. An agency's justification and reason why a rule should be made, amended, repealed or renumbered, to include an explanation about the rulemaking:

Summary

ADEQ is conducting an expedited rulemaking pursuant to A.R.S. § 41-1027(A)(3) and (4) to amend provisions of 18 A.A.C. 13 Solid Waste Management, Articles 13, Special Waste and Best Management Practices for Shredder Residue, and Article 14, Biohazardous Medical Waste and Discarded Drugs. The rulemaking will correct inaccurate statutory citations, clarify existing rule language without changing its effect, update incorporations by reference without material change, and make related technical corrections identified through ADEQ's Five-Year Review Report ("5YRR"). Consistent with A.R.S. § 41-1027(A), the rulemaking will not increase the cost of regulatory compliance, increase a fee, or reduce the procedural rights of regulated persons.

Background

ADEQ's 5YRR of A.A.C. Title 18, Chapter 13 identified technical updates to provisions in Article 13 and 14, including corrections to statutory cross-references and updates to incorporations by reference.

R18-13-1301 contains incorrect statutory cross-references in the definitions of "off-site" and "recycling". The definition of "off-site" references the definition of "on-site" in A.R.S. § 49-851(3); however, the applicable definition is codified at A.R.S. § 49-851(A)(2). ADEQ proposes to amend the definition by replacing the reference to A.R.S. § 49-851(3) with A.R.S. § 49-851(A)(2). Similarly, the definition of "recycling" references A.R.S. § 49-831(21); however, the applicable definition is codified at A.R.S. § 49-831(15). ADEQ proposes to replace the existing reference with A.R.S. § 49-831(15).

R18-13-1401 incorporates federal regulations by reference in the definitions of "dedicated vehicle" and "universal biohazardous symbol." The definition of "dedicated vehicle" incorporates by reference 49 CFR 177.848, revised as of October 1, 2020. ADEQ proposes to amend the definition by replacing the October 1, 2020, revision date with October 1, 2025. The definition of "universal biohazardous symbol" incorporates by reference 29 CFR 1910.145(f)(8)(ii), revised as of July 1, 1998, ADEQ proposes to amend the definition by replacing the July 1, 1998, revision date with July 1, 2025.

R18-13-1406(B) incorporates by reference 49 CFR 172.201, revised as of October 1, 2020, and R18-13-1406(B)(3) incorporates by reference 49 CFR 172.300 through 172.338, also revised as of October 1, 2020. ADEQ proposes to amend both incorporations by references by replacing the October 1, 2020, revision date with October 1, 2025. The amendments to R18-13-1401 and R18-13-1406 will update the editions of the incorporations by reference without materially changing the federal requirements.

These amendments are limited to correcting statutory cross-references and updating the identified incorporations by reference. The amendments do not otherwise modify the substantive requirements of articles 13 and 14.

7. A reference to any study relevant to the rule that the agency reviewed and proposes either to rely on or not to rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:

Not applicable

8. A showing of good cause why the rulemaking is necessary to promote a statewide interest if the rulemaking will diminish a previous grant of authority of a political subdivision of this state:

Not applicable

9. A statement that the agency is exempt from the requirements under A.R.S. § 41-1055(G) to obtain and file a preliminary summary of the economic, small business, and consumer impact under A.R.S. § 41-1055(D)(2):

This rulemaking is exempt from the requirements to obtain and file an economic, small business, and consumer impact under A.R.S. § 41-1055(D)(2).

10. Where, when, and how a person may provide written comments on the proposed expedited rule:

A person may submit written comments to the person listed in item 5 by the close of record.

Close of Record: 30 days from publication of this notice in the *Administrative Register*.

No oral proceeding is scheduled at this time. An oral proceeding may be requested pursuant to A.R.S. § 41-1023(C) by submitting a written request to the person listed in item 5 by the close of record. If such a request is received, ADEQ will schedule an oral proceeding on the proposed rule and provide notice of the proceeding by filing a Notice of Oral Proceeding on the Proposed Rulemaking, which will be published in the *Register*.

11. All agencies shall list other matters prescribed by statute applicable to the specific agency or to any specific rule or class of rules. Additionally, an agency subject to Council review under A.R.S. §§ 41-1052 and 41-1055 shall respond to the following questions:

Not applicable

a. Whether the rule requires a permit, whether a general permit is used and if not, the reasons why a general permit is not used:

Not applicable

b. Whether a federal law is applicable to the subject of the rule, whether the rule is more stringent than federal law and if so, citation to the statutory authority to exceed the requirements of federal law:

Yes, federal law is applicable to the subject matter of this rulemaking. For Article 13, Special Waste and Best Management Practices for Shredder Residue, the Resource Conservation and Recovery Act (RCRA) 42 U.S.C. § 6901, applies when shredder residue is determined to be hazardous waste. For Article 14, Biohazardous Medical Waste and Discarded Drugs, there is no federal law specifically applicable to biohazardous medical waste; A.R.S. § 49-761(D) authorizes ADEQ to regulate biohazardous medical waste and medical sharps. ADEQ has sought to harmonize requirements where United States Department of Transportation (USDOT) regulations intersect with ADEQ rules. The proposed amendments are not more stringent than corresponding federal law.

c. Whether a person submitted an analysis to the agency regarding the rule's impact on the competitiveness of businesses in this state as compared to the competitiveness of businesses in other states under A.R.S. § 41-1055(I). If yes, include the analysis with the rulemaking package.

Not applicable

12. List all incorporated by reference material as specified in A.R.S. § 41-1028 and include a citation where the material is located:

The following materials are incorporated by reference pursuant to A.R.S. § 41-1028:

29 CFR 1910.145(f)(8)(ii), revised July 1, 2025	R18-13-1401

NOTICES OF SUBSTANTIVE POLICY STATEMENT

Substantive policy statements are written expressions that inform the general public of an agency's current approach to rule or regulation practice as defined under A.R.S. § 41-1001(24).

Agencies are required to prepare a Notice of Substantive Policy Statement and publish the titles of its substantive policy statements, a summary of statements, and its website where full statements can be reviewed under A.R.S. § 41-1013(B)(9).

A substantive policy statement does not include internal procedural documents that only affect an agency's internal procedures and does not impose additional requirements or penalties on regulated parties or include confidential information or rules made in accordance with the APA.

Any person may petition an agency under A.R.S. § 41-1033(A)(2) to review an existing agency practice or substantive policy statement that the petitioner alleges to constitute a rule.
